C. Project Cost Estimations. As set forth above, the Infrastructure Fee is based, in part, upon the Project Costs as shown on a Project Cost Estimation. As used in this Fee Program, "**Project Cost Estimation**" refers to the total estimated costs for all Project Improvements, including all estimated Hard Costs (including a 20% contingency thereon) and an estimated Soft Costs allowance equal to 20% of such estimated Hard Costs. The initial Project Cost Estimation is based on the cost estimates for the Project Improvements set forth in the Finance Plan approved as part of the Specific Plan and attached hereto as part of **Schedule JJ-1**.

(1) Project Improvements Included in Fee Program. As noted above, the Project Improvements are limited to those listed on **Schedule JJ-1**, and unless and until the same are specifically added to the list of Project Improvements by unanimous decision of the Original Owners and approval by the City, the components of any other required public backbone infrastructure are specifically excluded from this Fee Program. To the extent that other required backbone infrastructure is subject to a separate public funding program or mechanism (each, an "**Other Public Infrastructure Program**") with the City, County or other agency (e.g., other backbone road improvements funded by fee credits and/or reimbursements through the City's TMF Fee or other public utilities funded by a public utility fee credit/reimbursement program), those other backbone infrastructure improvements are specifically not a part of the Project Improvements. To the extent permitted by the applicable agency, such other backbone infrastructure may be eligible for financing under the Other Public Infrastructure Program.

(2) Backbone Utility Improvements. The Project Improvements to be funded by the Infrastructure Fee shall include any required electric and/or gas utility backbone infrastructure that may be reimbursable by private utilities; and potential reimbursements from private electric/gas utilities (such as PG&E) shall be treated the same as potential Third Party Reimbursements (as defined herein) for purposes of this Fee Program. To minimize the potential administration of such reimbursements, to the extent a public utility includes an option for sharing in construction costs that does not include reimbursement, the Constructing Owner shall elect the option that does not involve reimbursement. For example, PG&E currently allows a contractor to elect to receive either a 50% contribution for the cost of a facility upon construction or a 100% reimbursement of the cost paid over time by subsequent development; in such case, the Constructing Owner

shall select the contribution option and the other half of the cost of the facility shall be included in the Project Costs.

D. Infrastructure Fee Adjustments. The Infrastructure Fee shall be adjusted annually on the Annual Adjustment Date for each land use by updating and summing the updated Project Improvements costs and Public Land valuations for the applicable Improvement and Land Categories related thereto as described below. The Administrator may also elect, at any other time if deemed warranted by the Administrator due to changes in actual costs and/or eligible Project Improvements, to adjust the Infrastructure Fee in the manner provided below.

(1) Project Cost Estimation. The Project Cost Estimation shall be updated and adjusted annually in accordance with the methodology of the Finance Plan used to establish the Infrastructure Fee, based, in part and without limitation, on: (a) the estimated cost of remaining Project Improvements within each Improvement Category for which a Credit/Reimbursement Agreement is not yet fully executed and effective; (b) the amount of any outstanding Credit/Reimbursement balances allocable to each Improvement Category, and (c) the number of undeveloped or unpermitted EDU's for each Improvement Category with respect to which the Infrastructure Fee has not then been paid.

a. Project Improvements Not Yet Subject to Contract. Adjustments to the estimated Project Costs of remaining Project Improvements not yet subject of a fully executed and effective Credit/Reimbursement Agreement will be made annually based, at the recommendation of the Administrator, in consultation with the Original Owners and the City, either upon updated actual Hard Costs or by the change in the Engineering News Record Construction Cost Index or comparable index (the "CCI") and/or based on actual and estimated cost adjustments as provided herein. Any adjustment to the Fee based on updated Hard Costs will be based upon information available to the Administrator in the form of actual Hard Costs for recently constructed Project Improvements in the same Improvement Category and/or bids accepted for any Project Improvements or similar facilities within the greater Sacramento region.

b. Completed Project Improvements. Subject to the above limitation, the Administrator will be required to include in the calculation of the update to the Infrastructure Fee any "actual" costs of Project Improvements (based on the Hard Costs for contracted work and the corresponding Soft Costs allowance) based either on the executed contracts for such Project Improvements and/or on the "true up" of the "actual" costs after Completion thereof.

(2) Public Land Fee Adjustments. The portion of the Infrastructure Fee allocable to the Public Land Fee Adjustment within a Property (or Properties), once allocated to the land uses within the Property (or Properties) shall not be adjusted by any change in the market value of such Public Land or for any other reason, except as otherwise provided in this Section 3.D(2).

a. 404 Permit Requirements. The Original Owners will need to obtain approval of a 404 Permit from the Army Corps of Engineers and related approvals and permits (collectively, the “**404 Approvals**”) prior to the construction of any of the Project Improvements. If the 404 Approvals require additions to or subtractions from the Open Space to be dedicated as shown on Schedule JJ-2, then the Public Land Fee Adjustment may be subject to adjustment. In the event of any such mandated changes to the Open Space dedications, the methodology used to determine the Public Land Fee Adjustments in Section 3.B(3)(a) above shall be used to re-determine such Adjustments; and, in order to maintain consistency with annual adjustments to the Infrastructure Fee, the land values for the Open Space areas used to determine the Public Land Fee Adjustment shall be adjusted, if applicable, by the percentage change between the then reappraised/updated valuation for the City Park Land and the original \$135,000 per acre valuation for the City Park Land.

b. Annual Adjustments Based on Percentage Change in Value. Once initially allocated to the land uses within a Property on an EDU basis, except as may be adjusted as provided above, the Public Land Fee Adjustment within such Property (or Properties) shall thereafter be adjusted for the number of EDUs remaining to be developed or permitted in such Property by the annual Land Value Percentage Change. For example, if a Public Land Fee Adjustment resulted in a reduction in the Infrastructure Fee within a Property (due to the Property dedicating more than its fair share of land dedications) of \$200 per single-family EDU, and if the Land Value Percentage Change for the following year was 10%, then the reduction associated with such Public Land Fee Adjustment for such Property would be increased to \$220 per undeveloped single-family EDU therein.

(3) WAPA Corridor Adjustments Related to Parcels JM-41 and FD-40. With respect to Parcels JM-41 and FD-40, a portion of these parcels impacted by the WAPA corridor has been assumed as being undevelopable based on certain building and usability factors and such portions have been allocated zero (0) EDUs and excluded from the calculation of the Infrastructure Fee and the Administration Fee. So long as actual development of Parcels JM-41 and FD-40 does not exceed the total developable area assumed for such parcels in this analysis (i.e., approximately 10.14 acres of useable developable area within Parcel JM-41 and approximately 1.81 acres of useable developable area within Parcel FD-40), the EDU allocation thereto shall remain unchanged; if actual development thereof exceeds the assumed square footage amount thereof, then the amount of applicable EDUs for such Parcel and the corresponding Infrastructure Fee and Administration Fee allocable to development thereof shall be adjusted based on such increase in assumed developable area.

E. No Adjustment Based on Method of Financing. There shall be no adjustment to the Infrastructure Fee based upon the method by which any Constructing Owner funds either the Project Improvements it constructs or such Constructing Owner's allocable share of the Project Costs. By way of example, funds for Project Improvements

generated by a public financing district formed on a Constructing Owner's property (such as an assessment or community facilities district) shall be treated the same as private financing by the Constructing Owner and shall not be deducted from or have any other effect on the calculation of the Infrastructure Fee. Proceeds from any such assessment or community facilities district for acquisition and construction of Project Improvements shall be available solely to the Constructing Owner whose property is included within such district.

F. Timing and Amount of Payment of Infrastructure Fee. The Infrastructure Fee payable with respect to development of property within the Specific Plan shall be due upon whichever of the following is applicable:

(1) Single Family Residential. For single family residential development:

a. Upon Recordation of Small Lot Map if Fee Reimbursements Outstanding. The Infrastructure Fee shall be paid for all single-family lots created by a small lot subdivision map upon recordation thereof, if at the time of such recordation any Original Owner or Constructing Owner is either (i) eligible to receive payment of a Fee Reimbursement pursuant to an executed Credit/Reimbursement Agreements and has not yet received full payment thereof, or (ii) will become eligible, upon Completion of certain Project Improvement(s), to receive payment of a Fee Reimbursement pursuant to an executed Credit/Reimbursement Agreement and sufficient funds have not then been collected to fund such Fee Reimbursement on Completion (an **"Outstanding Fee Reimbursement"**); or

b. Upon Issuance of Building Permits if No Outstanding Fee Reimbursement. If no Outstanding Fee Reimbursements existed at the time of recordation of a small lot subdivision map, then the Infrastructure Fee will be paid as building permits are issued for each lot within such recorded small lot subdivision map.

(2) Multifamily and Non-Residential Development. For all other land uses, the Infrastructure Fee shall be paid upon issuance of a building permit for each multifamily or non-residential building, based on the land use and number of EDUs covered by the particular building permit.

#### 4. Administration Fee.

A. General. The Administration Fee will fund the anticipated and actual costs to organize, monitor, administer and enforce the Fee Program, including without limitation, the costs to retain the Administrator, the costs to retain any engineering, appraisal and/or fee consultants to assist with Fee updates and construction monitoring, and the costs of the City to implement and enforce the Fee Program during buildout of the Project. Except as otherwise expressly provided herein, the Administration Fee shall fund all costs associated with the administration of the Fee Program, including annual

Fee updates, calculation and collection of any Shortfall payments, and preparation and maintenance of credit/reimbursement agreements. The costs to establish the Fee Program and the costs to fund the Administrator prior to assumption thereof by the City shall be advanced by the Original Owners pursuant to the terms of their separate cost sharing agreement.

B. Calculation of Administration Fee. The Administration Fee shall be the amount necessary to pay the actual and estimated costs to develop, implement, monitor and enforce the Fee Program from City approval of the Specific Plan and Development Agreements through the buildout of the Project, excluding only the costs thereof to be advanced by the Original Owners. The Administration Fee shall be allocated to the various land uses in the same manner and proportions as the calculation of the “fair share” of Project Costs used to calculate the Infrastructure Fee (but without application of the Public Land Fee Adjustment).

C. Annual Adjustment. The Administration Fee shall be updated and adjusted annually at the same time as the other Fees, based on the actual and estimated costs associated with administering the Fee Program throughout the buildout of the Project, including changes in administration costs associated with the City’s assumption, to be funded solely by the Administration Fee, of the obligation to retain and fund the Administrator’s responsibilities and to fund any changes in the estimated time to complete buildout of the Project. Subject to unanimous approval by the Original Owners, such estimated costs may include an amount to build a reserve that will supplement the cash flow provided by the Administration Fee for the City’s assumption of the funding for the Administrator after the Original Owners cease to advance the funds thereof.

D. Timing of Payment of Administration Fee.

(1) Original Owner Advances. From and after approval of the Specific Plan and Development Agreements, the Original Owners shall fund directly the costs to develop, implement, monitor and enforce the Fee Program to the extent the amount of Administration Fees being collected is insufficient to cover all of the then current costs associated with administering the Fee Program. All such advances shall be included within the calculation of the Administration Fee. The advances shall be allocated among the Original Owners pursuant to their separate written agreement, and such allocations shall be provided to the Administrator.

(2) Other Payments. The Administration Fee shall be due at the same time as the Infrastructure Fee.

E. No Fee Credits or Reimbursements. Since all Original Owners will be sharing in any and all required advances to cover the costs associated with establishing and administering the Fee Program, including without limitation, the costs of the Administrator, in excess of the amount covered by the Administration Fees, no Administration Fee Reimbursements will be due and payable to any Original Owner due to such Original Owner advancing more than its fair share of the costs to administer the

Fee Program. Similarly, to provide a secure cash flow of Administration Fees from development of the Specific Plan that can be relied on by the City if and when it assumes full administration of the Fee Program, the Original Owners will not receive any Fee Credits with respect to the funds advanced thereby to establish and administer the Fee Program. Any failure of an Original Owner to advance its fair share of the costs to administer the Fee Program shall be addressed by the Original Owners' separate agreement and not by the Fee Program, provided such remedies may include forfeiture and/or assignment of Infrastructure Fee Credits by any defaulting Original Owner.

F. Costs Excluded From Administration Fee. The Administration Fee shall not fund, and each Original Owner or Constructing Owner shall be separately responsible for paying, any and all costs associated with a request to assign or transfer Fee Credits or Fee Reimbursements within the Plan Area, as well as those costs associated with any change thereby in land use or EDU capacity utilization for any property as set forth in the Specific Plan.

5. Infrastructure Fee Credits for Constructing Owners. Any Constructing Owner that constructs any Project Improvements will receive Fee Credits in accordance with this Section 5 and may receive Fee Reimbursements in accordance with Section 6. The value of the Fee Credits given to Constructing Owners shall be subject to annual adjustment as provided for herein. References in this Fee Program to **"Credit/Reimbursement"** shall refer to Fee Credits or Fee Reimbursements, as applicable.

A. Calculation of Amount of Infrastructure Fee Credits. Subject to the limitations of Section 6.A(4) below, the Fee Credits available to a Constructing Owner for application to the Infrastructure Fee shall be based upon the Eligible Hard Costs and Soft Costs for the particular Project Improvements being constructed.

(1) Hard Costs; Eligible Hard Costs. The **"Hard Costs"** of Project Improvements eligible for Credit/Reimbursement under the Infrastructure Fee shall mean and refer to the actual costs of construction of a Project Improvement that are incurred by a Constructing Owner pursuant to a properly bid construction contract with a duly licensed, qualified general contractor for the Project Improvements. Such Hard Costs shall include the costs of (i) construction of the Project Improvement(s), based on the price included in the contract (the **"Construction Contract"**) with a contractor entered into in accordance with the provisions of Section 5.A(3) below for the construction of such Public Improvement(s), and (ii) traffic control, staging and storm water pollution prevention implementation measures related to such construction. The Hard Costs shall include the costs of any changes in scope or standards required by the City during the course of construction thereof that are added to the Construction Contract. Hard Costs shall also include the cost for any materials that exceeded the minimum specifications required by the City, so long as the bid for the contract clearly describes the allowed minimum specification. (An example might be a contractor choosing to substitute a higher grade of pipe because the lower specified and acceptable grade is either unavailable or more expensive due to shortages or other reasons.) The Administrator shall recommend to the City the

amount of the Hard Costs for each Project Improvement eligible for Credit/Reimbursement under the Infrastructure Fee. **“Eligible Hard Costs”** means all of the Hard Costs incurred by the Contracting Owner except to the extent the Administrator excludes costs that the Administrator finds to be commercially unreasonable.

(2) Soft Costs. **“Soft Costs”** means the costs of storm water pollution prevention monitoring & management, engineering, inspection, testing, surveying and bonding related to the construction of the Project Improvement(s). Each Constructing Owner entering into a bonded contract to construct a Project Improvement shall receive an allowance for Soft Costs equal to 20% of the Eligible Hard Costs for such Project Improvement, without the need for a proposal, contract, invoices or any other form of documentation to substantiate the actual amount of Soft Costs incurred. In consideration of this fixed percentage for Soft Costs, a Constructing Owner shall have no right to request a greater amount of Credits/Reimbursements due to actual Soft Costs exceeding this fixed-percentage allowance.

(3) Bidding/Contracting of Construction. All bidding and contracting shall be done so as to allow the Project Improvements to be eligible for acquisition or construction by a CFD and/or to enable the Infrastructure Fees to be financed by a CFD. Such public bidding requirements shall include, but not be limited to, competitive bidding, prevailing wage, and award of contract to the lowest responsible bidder. Prior to approving improvement plans for construction of a Project Improvement, the City and Administrator shall cooperate with each other to develop and implement a bidding and contracting monitoring program to ensure compliance with the public bidding, prevailing wage and contracting requirements prior to execution of each contract for construction of a Project Improvement by a Constructing Owner.

If a Constructing Owner fails to comply with the public bidding, prevailing wage and contracting requirements for a Project Improvement, the Constructing Owner will assume the risk that such Project Improvement may be required to be removed from the Fee Program in order to preserve the ability to fund the Project Improvements and/or the Infrastructure Fees with CFD financing. If a Project Improvement is removed from the Fee Program, the Constructing Owner thereof shall not receive and shall forfeit any Fee Credits or Fee Reimbursements with respect to such Project Improvement. Any such removal of a Project Improvement shall be treated in the same manner as if the Project Improvement had been constructed by a third party, as more particularly described in Section 8 below (i.e., no adjustment shall be made to the Infrastructure Fee and reimbursement agreements shall be provided to each of the Original Owners for its applicable share of then estimated cost of such removed Project Improvement, with a Priority Date as of the later of the date of removal of the Project Improvement from the Fee Program or “development” of such Original Owner’s Property, and without any interest accrual).

B. Provision of Fee Credits for Project Improvements.

(1) Credit/Reimbursement Agreement. A sample form of credit and reimbursement agreement (a “**Credit/Reimbursement Agreement**”) to be used for each Constructing Owner is attached hereto as Schedule JJ-4. This form of Credit/Reimbursement Agreement shall be used, and modified to the extent necessary, in connection with the construction of Project Improvements by a Constructing Owner for its applicable Developing Property.

a. No earlier than the approval by the City of the improvement plans for the Project Improvement(s) required for the Developing Property, the Administrator shall provide the City with the amount of the Credit/Reimbursement to be available under such Credit/Reimbursement Agreement, which shall be equal to 100% of the contracted Eligible Hard Costs of the Project Improvement(s), based on an accepted competitive bid in compliance with all public contracting requirements, plus the corresponding Soft Cost allowance related thereto (collectively, the “**Eligible Project Improvement Costs**”).

b. The Credit/Reimbursement amount shall be inserted in the Credit/Reimbursement Agreement and the same shall be signed when a contract for the work has been entered into, performance and payment bonds in the form and amount required by the City have been posted therewith, and a notice to proceed with such construction (a “**Notice to Proceed**”) has been given to the contractor. The City may require the amount of such bonds to be greater than the corresponding Credit/Reimbursement amount to address contingency costs and/or the costs to the City to cause the Completion of the applicable Project Improvements in the event of default by the Constructing Owner. Unless the amount of Fee Credits under the Credit/Reimbursement Agreement exceeds the amount of the corresponding Developing Property’s Infrastructure Fee Obligation, no amount of Fee Reimbursements shall be included in the Credit/Reimbursement Agreement. The date of full execution of a Credit/Reimbursement Agreement shall be referred to as the “**Effective Date**” of the Credit/Reimbursement Agreement.

(2) Availability of Fee Credits. Fee Credits shall become available upon the Effective Date of the applicable Credit/Reimbursement Agreement. The Fee Credits for the contracted work under a Credit/Reimbursement Agreement shall continue to be available for application against the Infrastructure Fee so long as: (a) the Constructing Owner is not in material breach of the Credit/Reimbursement Agreement, and (b) the Constructing Owner continues to use commercially reasonable diligence to prosecute to Completion (as defined herein) the construction of the Project Improvement(s) that are the subject of the particular Credit/Reimbursement Agreement.

(3) Failure to Diligently Proceed Towards Completion. If a Constructing Owner ceases to diligently prosecute construction of a Project

Improvement, or otherwise breaches any material provisions of the Credit/Reimbursement Agreement, and if the Constructing Owner fails to cure such breach within thirty (30) days of receipt of written notice from the Administrator, the Administrator may recommend to the City that the City exercise any and all remedies then available under the Credit/Reimbursement Agreement, including cessation of approval of tentative or final subdivision maps, issuing building permits and/or occupancy permits for development of the Constructing Owner's Developing Property, suspension of the right to apply Fee Credits against the Infrastructure Fee and/or repayment by the Constructing Owner of all or any portion of the Fee Credits generated by the particular Credit/Reimbursement Agreement which have previously been applied against Infrastructure Fees.

C. Adjustments to Value of Fee Credits.

(1) CCI Adjustment. All Fee Credits provided pursuant to Credit/Reimbursement Agreements with an Effective Date not later than May 31 preceding the Annual Adjustment Date (i.e., for Fee Credits in effect at least one month prior to the Annual Adjustment Date) shall be subject to adjustment based on the increase or decrease in the CCI, so long as the Constructing Owner is in good standing under its applicable Credit/Reimbursement Agreement. In no event, however, shall a decrease in the CCI result in a decrease of the Constructing Owner's Fee Credit amount below the actual amount expended for the Project Costs which created the right to such Fee Credits. The purpose of this adjustment is to assure that Fee Credits received by a Constructing Owner offset a corresponding amount of Infrastructure Fee, on a dollar for dollar basis, up or down, as and when the Infrastructure Fee is adjusted, but without bearing a disproportionately large share of the actual Project Costs as a result of any decline in construction costs.

(2) Adjustment Based on Actual Eligible Hard Costs. After the Project Improvement(s) are Completed (as defined herein), there will be a "true-up" of the costs of the Project Improvements eligible for Fee Credits against and Fee Reimbursements from the Infrastructure Fee.

a. The "true up" shall be based on the actual Eligible Hard Costs incurred by the Constructing Owner to Complete the construction of the Project Improvement, which costs shall be documented to the Administrator's reasonable satisfaction. As a part of this "true up," the Soft Cost allowance will be adjusted to equal 20% of the actual Eligible Hard Costs.

b. If the total actual Eligible Hard Costs and corresponding Soft Costs of the Project Improvement(s) is greater than the amount of Fee Credits/Reimbursements initially provided by the Credit/Reimbursement Agreement, the Administrator shall notify the City that the Constructing Owner is to be awarded additional Credits/Reimbursements in the amount of the difference. The Administrator may also notify the City of any proposed adjustment to the

Infrastructure Fee to account for such increased Costs, if deemed appropriate to be incorporated into the Infrastructure Fee prior to the next Annual Adjustment Date.

c. If the total eligible costs of the Project Improvement(s) is less than the amount of Fee Credits/Reimbursements initially provided by the Credit/Reimbursement Agreement, the Administrator shall notify the City that the Constructing Owner is required to first reduce the amount of any Fee Reimbursement and then relinquish the amount of the unused Fee Credits comprising any remaining difference, and, to the extent Fee Credits resulting from that Credit/Reimbursement Agreement have been used in an amount which exceeds the actual total Eligible Hard Costs and Soft Costs of the applicable Project Improvement(s), to repay such excess in cash. Any such repayment shall be due within thirty (30) days of receipt of notice from the City of the amount to be repaid.

(3) Definition of “Completed.” A Project Improvement shall be deemed “**Completed**” upon the earlier of acceptance of that Project Improvement by the City or acceptance by the City for purposes of commencing a 1-year warranty or maintenance period. Once a Project Improvement is Completed, any performance and payment bonds related to the issuance of Fee Credits may be approved for release by the City, and the “true-up” can take place.

D. Fee Credits are Personal in Nature. Infrastructure Fee Credits shall be personal to the Constructing Owners constructing Project Improvements and do not run with the land.

(1) Timing of Application. Subject to the limitations set forth in this Section 5, Infrastructure Fee Credits may be applied to Infrastructure Fees as desired by the Constructing Owner, or transferee thereof, at the time such Infrastructure Fees would otherwise be due and payable.

(2) Notice Required. Infrastructure Fee Credits may be applied to the Infrastructure Fee by the Constructing Owner, or transferee thereof, only by providing written notification to the Administrator, stating which Fee Credits are desired to be applied to the Infrastructure Fee, and the amount thereof to be applied. In the absence of written direction from a Constructing Owner or transferee thereof to apply any Fee Credits, no Fee Credits shall be deemed applied against the Infrastructure Fees. A sample form for the application of Fee Credits is attached as Exhibit “C” to Schedule JJ-4 attached hereto.

(3) No Obligation to Use Fee Credits. A Constructing Owner shall not be obligated to apply any available Fee Credits against the Infrastructure Fee associated with development of its Developing Property.

(4) Collection and Payment of Unused Fee Credits. If a Constructing Owner elects not to apply any available Fee Credits at the time of development of

its Developing Property, the City shall collect the full Infrastructure Fee then required to be paid at the time of such development and shall use the proceeds thereof (i) first, to pay and/or fund a reserve for payment upon Completion any Outstanding Fee Reimbursement, on a FIFO basis; and (ii) second, to pay to any Constructing Owner(s), on a pro rata basis, the amount by which their available Fee Credits exceed the amount of Infrastructure Fees to be collected from the remaining development of such Constructing Owner(s)' Developing Properties.

E. Transferability. A Constructing Owner shall have the absolute right to transfer all or any portion of such Constructing Owner's Fee Credits for such consideration as the Constructing Owner may determine. In the event that a Constructing Owner transfers Fee Credits, the transferor shall notify the Administrator of the transfer in writing, providing the Administrator with the name, address and other contact information for the transferee, the dollar amount of the Fee Credits being transferred, and the Credit/Reimbursement Agreement from which the credits are being transferred. The transferring Constructing Owner shall also pay the administrative costs associated with the transfer as a condition of the same being effective. A sample form for the transfer of Fee Credits is attached as Exhibit "D" to Schedule JJ-4 attached hereto.

6. Fee Reimbursements. Fee Reimbursements will be paid directly from the City to the applicable Constructing Owner(s) and/or Original Owner(s) on a regular basis, but no less than quarterly, from the City Park Land Fees and Infrastructure Fees received by the City.

A. Procedure. The Administrator shall work with the City to obtain quarterly reports from the City of the types and amounts of the Fees the City has collected and to confirm with the City the proposed distributions to the Constructing Owner(s) and/or Original Owner(s) of any Outstanding Fee Reimbursements. The Administrator shall notify all Constructing Owners and/or Original Owners with Outstanding Fee Reimbursements of the intended distribution by the City and the Administrator's proposed allocation between such Owners. If the Administrator receives a written objection from any Constructing Owner or Original Owner to a proposed distribution within five (5) business days of the date of the Administrator's notice, the Administrator shall ask the City to: (i) distribute the undisputed amounts directly to the Constructing Owner(s) and/or Original Owner(s) in accordance with the furnished schedule; and (ii) retain the amount of any disputed distribution until the issue can be resolved between the Constructing Owner(s) and/or Original Owner(s) and/or by arbitration. By separate agreement, the Original Owners have agreed to resolve any such disputes by arbitration, with the goal to complete such resolution within one hundred twenty (120) days of the initiation of the dispute resolution process.

B. Impact of Adjustment Date. So long as the City does not unduly delay in making Fee Reimbursement payments, Fee payments collected by the City in the calendar quarter prior to the City's annual adjustment to Fee Credit and/or Fee Reimbursement balances, but not distributed until the calendar quarter after such adjustment date, shall not be increased as a result of the adjustment date occurring between the Fee payment date and the date the Fee Reimbursement is paid. The

Administrator shall determine whether or not payment by the City was “unduly” delayed for purposes of this Section 6.B.

C. Park Fee Reimbursements. Payments of City Park Land Fee Reimbursements shall be made only to the Dedicating Owner dedicating the City Park Land.

D. Infrastructure Fee Reimbursements. As provided by and pursuant to a Credit/Reimbursement Agreement, an Infrastructure Fee Reimbursement shall be available to a Constructing Owner from the date the particular Project Improvement was Completed to the date the Constructing Owner has been repaid in full for the amount of its Fee Reimbursements and may also be payable to the Original Owners in connection with Third Party Reimbursements as described in Section 8 below.

(1) Fee Reimbursements In Excess of Fee Obligation. For Fee Reimbursements to Constructing Owners, The Credit/Reimbursement Agreement shall include an amount for Fee Reimbursements if and only to the extent the Eligible Project Improvement Costs for the Project Improvement(s) to be constructed by the Constructing Owner thereunder exceed the Infrastructure Fee Obligation for the Developing Property that requires the construction of these Project Improvement(s).

(2) Annual Adjustment. Any Outstanding Fee Reimbursement, including any such amounts not yet payable until the corresponding Project Improvement(s) are Completed, shall be increased on the Annual Adjustment Date by four percent (4%) per annum.

(3) Infrastructure Fee Reimbursements Distributed on FIFO Basis. Any available funds within the Infrastructure Fee account shall be used to reimburse Constructing Owners and/or Original Owners for the amount of any Fee Reimbursements on a “first in, first out” (“**FIFO**”) basis.

(4) FIFO Determination. The event for determining FIFO priority for a Fee Reimbursement generated by a Project Improvement shall be the Effective Date of the Credit/Reimbursement Agreement for such Project Improvement. In the event that the Effective Date for any two or more Credit/Reimbursement Agreements that include Fee Reimbursements occur within the same seven (7) calendar day period, the Fee Reimbursements associated with the Project Improvements on each Credit/Reimbursement Agreement will have equal priority and will be distributed pro rata, based upon the unreimbursed balance of the Fee Reimbursements generated by their respective Credit/Reimbursement Agreements.

(5) Delivery to Administrator. Each Constructing Owner will be responsible for forwarding a copy of the fully executed contract, the countersigned Notice to Proceed and the executed Credit/Reimbursement Agreement for any eligible Project Improvements to the Administrator, with the

Effective Date of the Credit/Reimbursement Agreement becoming the prioritizing date (“**Priority Date**”). If the work does not actually commence on a Project Improvement within a commercially reasonable period following the Priority Date, or once commenced, the Constructing Owner does not diligently prosecute the same through Completion, the Administrator shall have the authority to modify the relative Priority Dates among competing Constructing Owners to more appropriately reflect the timing of the expenditure of Eligible Hard Costs by such Constructing Owners.

(6) No Disbursement Prior to Completion. Although Fee Credits against the Infrastructure Fee will be available upon execution of a Credit/Reimbursement Agreement, no Fee Reimbursements related to a Project Improvement shall be paid by the City to a Constructing Owner from the Infrastructure Fee account prior to Completion of such Project Improvement. Accordingly, if a Completed Project Improvement supports a Fee Reimbursement with a later FIFO date than Fee Reimbursement(s) with earlier FIFO date(s) related to as yet uncompleted Project Improvement(s), no Fee Reimbursement shall be paid towards such Completed Project Improvement unless and until sufficient Infrastructure Fees have been received and reserved to fund full payment of the Fee Reimbursement(s) with the earlier FIFO date(s) for the as yet to be completed Project Improvement(s).

(7) Not Convertible to Credits. To preserve the FIFO priority of Fee Reimbursements, Fee Reimbursements cannot be applied as Fee Credits, except to the extent the Fee Reimbursements proposed to be applied as Fee Credits are then in first FIFO priority for reimbursement and the Credit/Reimbursement Agreement related thereto is not in default.

E. Transferability. Each Constructing Owner or Original Owner with a right to Fee Reimbursements (a “**Transferring Owner**”) shall have the absolute right to transfer all or any portion of such Transferring Owner’s Fee Reimbursements for such consideration as the Transferring Owner may determine. The transfer shall not affect the Priority Date of the Fee Reimbursements or the amount thereof; provided however, that the Transferring Owner shall have the right to allocate the existing priority of the particular Fee Reimbursements between itself and transferees. In the event that a Transferring Owner (or its successors) transfers Fee Reimbursements, the transferor shall notify the Administrator of the transfer in writing, providing the Administrator with the name, address and other contact information for the transferee, the dollar amount and Priority Date of the Fee Reimbursements being transferred (along with any priority allocation as between the Transferring Owner and the transferee), and the Credit/Reimbursement Agreement from which the Fee Reimbursements are being transferred. The Transferring Owner shall also pay the administrative costs associated with the transfer as a condition of the same being effective. The form for the transfer of Fee Reimbursements shall be similar to the sample form for the transfer of Fee Credits attached as Exhibit “D” to Schedule JJ-4 attached hereto.

## 7. Capacity Utilization, Shortfall Payments and Reimbursements.

A. Land Use Capacity and Fee Obligations. Each Original Owner's Property within the Specific Plan will be allocated a certain amount of land use capacity and corresponding Fee Obligation, based upon the initial approved land uses set forth in the Specific Plan and the Fees allocable to such Property. Except to the extent offset by a transfer of utilization pursuant to the terms of the Specific Plan as described in Section 7.E below, each Property will continue to be responsible for paying the Fees for its allocated share of capacity at the time of development, regardless of whether or not it actually utilizes all of the capacity initially allocated thereto by the Specific Plan. This is done to ensure that an underutilization of capacity by development of one Property does not result in increased Fees for other Properties within the Plan Area.

B. Shortfalls/Reimbursements Due to Reductions in Utilization. Payment of any shortfall, as measured by the difference between the actual capacity used by an owner (a **"Shortfall Owner"**) by its development of any property within the Specific Plan at less than its allocated capacity (a **"Shortfall Property"**) and the capacity allocated for such Shortfall Property by the Specific Plan times the applicable Fees (collectively, the **"Shortfall"**), shall be due prior to the recordation of a final small-lot residential subdivision map, or phase thereof, in the case of detached single family residential development, or prior to issuance of a building permit for multifamily residential or non-residential development that reflects an underutilization of capacity. The amount of any Shortfall shall be determined by the Administrator and allocated to the three Fees. The payment of any Shortfall allocable to the Infrastructure Fee shall be used first, to reimburse and/or fund a reserve for reimbursement of any Outstanding Fee Reimbursements, on a FIFO basis, and second, any remaining balance thereof shall be retained to fund future Infrastructure Fee obligations, as determined by the City in consultation with the Administrator.

(1) The "payment" of any Shortfall may be made either in cash and/or through an equivalent reduction in any Unused Fee Credits and/or Fee Reimbursement available to the Shortfall Owner applicable to one or more of the Fees. For purposes hereof, **"Unused Fee Credits"** refers to the amount of Fee Credits held by a Shortfall Owner in excess of the total amount of the Fee anticipated to be paid by development of the Shortfall Property subject to the Shortfall payment, as such total Fee obligation is revised based on the actual capacity to be developed thereby. For example, if a subdivision originally planned for 100 units was being developed for 90 units, if the Infrastructure Fee per single family EDU within the Shortfall Property was \$10,000, and if the Shortfall Owner thereof had enough Infrastructure Fee Credits under its Fee/Credit Agreement(s) to satisfy the Infrastructure Fee for 95 units within such subdivision, then the Shortfall Owner could elect to apply the Unused Fee Credits associated with the extra 5 units of Fee Credits to reduce its Shortfall obligation allocable to the Infrastructure Fee from \$100,000 to \$50,000.

(2) If the Shortfall Property subject to a Shortfall payment is developed in phases, the Administrator and the City shall develop an equitable

method for phasing the payment of the Shortfall in proportion to the phasing of such development. For example, if a multifamily development originally planned for 100 units was being developed for 90 units, if the Infrastructure Fee per multifamily EDU for the Shortfall Property was \$6,000, and if the first phase of construction included 30 units, then the Administrator and the City could elect to require such Shortfall Owner to pay \$20,000 (\$60,000 times 1/3<sup>rd</sup>) as the proportional share of the Shortfall payment related to the Infrastructure Fee for such first phase of development. If and to the extent subsequent phasing of such development was revised, the remaining Shortfall and corresponding phased payment thereof over the remaining development would be subject to recalculation by the Administrator and the City.

C. Retention/Assignment of Land Use Capacity. The Shortfall Owner paying any Shortfall shall continue to own the land use development capacity related thereto, which could either be assigned to another owner of property within the Specific Plan (on such terms as may be agreed to between the assigning and assuming parties) and/or be subject to reimbursement from any increase in land utilization elsewhere within the Specific Plan.

D. Reimbursement Due to Overutilization. To the extent that any increase in land utilization occurs that is not linked to an offsetting underutilization (or linked to a transfer or purchase of land use capacity from a Shortfall Owner who previously paid a Shortfall), the additional “fee revenue” to be realized by such increased utilization (as and when paid in excess of the capacity originally allocated to such property) shall be used to reimburse any Shortfall Owners that previously paid Shortfalls for previously underutilizing their Shortfall Property, on a FIFO basis. Any such reimbursement shall include the amount of any intervening land value adjustments (with respect to the portion of the Shortfall related to the Park Fee) and CCI adjustments (with respect to the portion of the Shortfall related to the Infrastructure and Administration Fees) to the Fees between payment of the Shortfall and payment of the reimbursement.

E. Transfer of Density/Capacity. Original Owners or successors thereto will be allowed to transfer density or land utilization within their own properties (subject to any City approval required by and pursuant to the Specific Plan, which approval shall include a determination by the City that any corresponding increased utilization can be feasibly developed). Any Fees related to a transfer of land use capacity shall not be due upon transfer, but rather at the point when they are triggered by development of the property affected by such transferred capacity. Since each Original Owner’s Property may have different Infrastructure and Administration Fees allocated to its Property by land use, the Fees associated with any transferred density or land utilization will need to be correspondingly assigned and incorporated into the Fees of the transferee’s property. The Administrator, subject to approval by the City, may elect to incorporate the Fees associated with the transferred density either by recalculating the aggregate Fee obligation for the transferee’s property or by assigning the Fees associated with the transferred density to specific units or parcels. The Administrator shall be responsible for tracking such density transfers and the effect thereof on the Fees to be paid by development of the transferee’s property and reporting the same to the City on a regular

basis. The administrative costs associated with approving and tracking such density transfers shall be funded by the party requesting such transfer.

F. Maintenance of Records by Administrator. The Administrator shall maintain any and all shortfall and density transfer records and coordinate with the City to monitor and maintain a public record of all any and all transfers of land use capacity within the Specific Plan to put subsequent developers on notice of the land use capacity and corresponding Fee obligations associated with development of the properties within the Specific Plan.

8. Third Party Reimbursements/Third Party Construction. A fair share of the cost of some Project Improvements may ultimately be allocable to parties with properties being developed outside the Plan Area (“**Third Parties**”). Potential reimbursements (“**Third Party Reimbursements**”) from Third Parties shall be treated in accordance with this Section 8. Similarly, Third Parties may install some of the Project Improvements (“**Third Party Construction**”), thereby eliminating the obligation of the Original Owners to install or pay for such Project Improvements.

A. No Impact on Fees. Due to the uncertainty in the timing or receipt of Third Party Reimbursements, potential or actual Third Party Reimbursements shall not be deducted from or factored into the calculation of the Infrastructure Fee. Due to the resulting impact on the Original Owners’ land values in connection with sales to builders who assume payment of the full Infrastructure Fee, and to avoid any windfall to builders if and when Third Party Reimbursements are received or Third Party Construction occurs, the Infrastructure Fee shall continue to be based on the Project Cost Estimation for all Project Improvements originally planned to be funded by this Fee Program regardless of the receipt of any Third Party Reimbursement or any Third Party Construction.

B. Allocation of Third Party Reimbursements Actually Received. Any Third Party Reimbursements actually received shall be reimbursable to the Original Owners and shall be allocated, disbursed and utilized as follows:

(1) First, the Administrator shall determine the share of the Third Party Reimbursement allocable to each of the Original Owners. Such shares shall be based on the type of Project Improvement(s) generating such Third Party Reimbursement and applying the table of Owner Percentages by Improvement attached hereto as Schedule JJ-5. The share allocable to each Original Owner shall be referred to herein as the Original Owner’s “**TPR Fee Reimbursement**”;

(2) Second, the Administrator shall prepare a fee reimbursement agreement for each of the Original Owners, similar in form to the Credit/Reimbursement Agreements (a “**TPR Fee Reimbursement Agreement**”), to document the Original Owner’s right to receive its TPR Fee Reimbursement from either the Third Party Reimbursement and/or from Infrastructure Fees. Such TPR Fee Reimbursement shall be paid on a FIFO priority basis. The FIFO Priority Date for each Original Owner’s TPR Fee Reimbursement Agreement

shall be established as either (a) the date of the City's receipt of the Third Party Reimbursement, if at such time the Original Owner's Property has or is being "developed" (as evidenced either by the issuance of a permit for construction of a residential or non-residential building within such Property or execution of a Credit/Reimbursement Agreement related to the construction of any Project Improvements required by any Developing Property within such Property); or (b) the date thereafter when such Original Owner's Property is "developed" (as described above). Each TPR Fee Reimbursement shall be increased by 4% on each Annual Adjustment Date thereafter until repaid in full; and

(3) Third, the Third Party Reimbursement shall be deposited into the Infrastructure Fee account and treated the same as the payment of Infrastructure Fees from development within the Specific Plan. Accordingly, the Third Party Reimbursement will be used first to fund payment of any Outstanding Fee Reimbursements, based on their relative FIFO priority, and then to fund payment under the TPR Reimbursement Agreements, based on their relative FIFO priorities (and pro rata, in the case of equal Priority Dates). Any remaining funds from the Third Party Reimbursement shall be retained to fund future Fee Reimbursements.

C. Reimbursement Due to Third Party Construction. In the event of any Third Party Construction, the Original Owners shall be entitled to receive reimbursement from the Infrastructure Fees for the estimated costs included therein for the Project Improvement(s) that is the subject of such Third Party Construction as follows:

(1) First, the Administrator shall determine the share of the reimbursement allocable to each of the Original Owners. Such shares shall be based on the type of Project Improvement(s) subject to the Third Party Construction and applying the table of Owner Percentages by Improvement attached hereto as Schedule JJ-5 to the estimated cost of the Project Improvement(s) reflected in the Project Cost Estimation as of the date of Completion of such Project Improvement(s). The share allocable to each Original Owner shall be referred to herein as the Original Owner's **"TPC Fee Reimbursement"**;

(2) Second, the Administrator shall prepare a fee reimbursement agreement for each Original Owner, similar in form to the TPR Fee Reimbursement Agreement (a **"TPC Fee Reimbursement Agreement"**), to document the Original Owner's right to receive its TPC Fee Reimbursement from Infrastructure Fees. Such TPC Fee Reimbursement shall be paid on a FIFO priority basis. The FIFO Priority Date for each Original Owner's TPC Fee Reimbursement Agreement shall be established as of either (a) the date of Completion of the applicable Project Improvement(s), if at such time the Original Owner's Property has or is being "developed" (as described in Section 8.B(2) above); or (b) the date thereafter when such Property is "developed" (as described above). The TPC Fee Reimbursement shall not be subject to any annual adjustments.

D. Personal to Original Owners. These rights to TPR Fee Reimbursements and TPC Fee Reimbursements are personal to the Original Owners and shall not run with the land. Any Original Owner shall have the right to transfer such Original Owner's right to reimbursement in accordance with Section 6.E, however.

E. Administration. The City shall notify the Administrator promptly following receipt of any Third Party Reimbursement and/or Completion of any Third Party Construction. The Administrator shall perform the calculations and prepare the draft TPR or TPC Fee Reimbursement Agreements for approval by the City.

## 9. Administration.

A. City Implementation/Waiver of Nexus Requirement. The Fees are being voluntarily proposed by the Original Owners for adoption by the City, based on the Original Owners' agreement between themselves and as part of their Development Agreements with the City. The Original Owners acknowledge and agree that the allocations of benefit and costs under the Finance Plan and this Fee Program to the Original Owners' Properties proposed by the dedications of the City Park Land and Public Lands, by the construction of the Project Improvements, and by the implementation and administration of this Fee Program, are fair and reasonable. The Original Owners have requested that the City implement and enforce this Fee Program as an element of the Development Agreements to assure full participation by all Original Owners' Properties.

As a voluntary Fee Program requested and agreed to by the Original Owners, the Original Owners expect this Fee Program to be enforced by the City in accordance with the provisions of this Fee Program, without requiring the City to perform any separate or independent nexus study with respect thereto. Each Original Owner hereby waives any right, defense or claim that the City must perform any such nexus study to implement, update or enforce the Fee Program, including without limitation, any right to require the City to comply with the provisions of Government Code Sections 66000 et. seq. (the "**Mitigation Fee Act**") regarding the general requirements for adopting development impact fees. Notwithstanding the foregoing, the Original Owners believe that the Fee Program herein does comply in all respects with the provisions of the Mitigation Fee Act and the City and Original Owners agree to take all steps reasonably necessary to adopt such ordinances and measures to implement the Fee Program pursuant to the Mitigation Fee Act and any other applicable law.

B. Fee Administrator. The Administrator shall be authorized to collect, manage and analyze the data necessary for the calculation and annual updates of the Fees and to coordinate and manage the administration of the Fee Program with the City on behalf of the Original Owners. Such activities shall include, but not be limited to: (i) updates to the Project Cost Estimations and Fees and assistance with calculations under and administration of the Fee Program; (ii) providing recommendations of such amounts to the City (including all documentation supporting such calculations); (iii) recommending to the City the amount and timing of when the Fees are due; (iv) instructing the City to disburse the Fees collected by the City to those Original Owners

and/or Constructing Owners who are entitled to Fee Reimbursements due to the construction of eligible Project Improvements, or dedication of the City Park Land, or receipt of Third Party Reimbursements, all in accordance with applicable Credit/Reimbursement Agreements; (v) assisting the City with any update of the Fees; (vi) preparing draft Credit/Reimbursement Agreements for City's review and approval; (vii) tracking all payments and balances of and assignments of Fee Credits and/or Fee Reimbursements; and (viii) tracking the existence and progress of all construction contracts for Project Improvements and compliance with all provisions of the applicable Credit/Reimbursement Agreements. The Administrator shall have the authority to retain consultants to assist in the above described tasks, including but not limited to, civil engineers and economic consultants.

Unless and until the City is collecting sufficient Administration Fees from development of the Project to fund the costs of the Administrator, the Original Owners acknowledge and agree that they will advance the costs required to fund the administration of the Fee Program, including the costs of the Administrator and the City.

Some of the Administrator's tasks, and the timing thereof, for purposes of coordinating and advising and/or recommending the appropriate actions to the City for purposes of the City's administration of the Fee Program are as follows:

(1) Improvement Plan Approval (Specific Plan Improvements)

- (a) Calculate Eligible Amount of Credits/Reimbursements for Project Improvements required to be constructed as part of approval of subdivision, based upon bid, and provide to City.
- (b) Prepare Credit/Reimbursement Agreements for each set of Project Improvements bid and contracted for consideration and action by City.
- (c) Track bidding and letting of construction contracts for Project Improvements consistent with required standards.
- (d) Track issuance of Notice to Proceed and effective date of Credit/Reimbursement Agreement.
- (e) Track and coordinate Completion of Improvement with City.

(2) Final Small-Lot Map Approval for Single Family Development

- (a) Verify No Reduction in Density or Calculate Shortfall Payment Amount and/or phase thereof, as applicable.
- (b) Calculate amount of Infrastructure Fee to be paid upon recordation of Final Map, if any Outstanding Fee

Reimbursements.

- (c) Transfer Fee Credits, as available and as directed by a Constructing Owner, to reduce the amount of Infrastructure Fee payable.

(3) Building Permit Approval for Single Family Development

- (a) Calculate amount of City Park Land and Administration Fees to be paid upon issuance of building permit.
- (b) If applicable, calculate amount of Infrastructure Fee to be paid upon issuance of building permit, if not paid upon recordation of small lot final subdivision map.
- (c) Transfer Fee Credits, as available and as directed by a Constructing Owner, to reduce the amount of Fees payable.

(4) Building Permit Approval for Non-Single Family Development

- (a) Verify No Reduction in Density or Calculate Shortfall Payment Amount and/or phase thereof, as applicable.
- (b) Calculate amount of Fees to be paid upon issuance of building permit.
- (c) Transfer Fee Credits, as available and as directed by a Constructing Owner, to reduce the amount of Fees payable

(5) Annual Fee Program Update

- (a) Update cost of Project Improvements not then subject to Fee/Credit Agreement or increase based on annual CCI adjustment.
- (b) Update value of City Park Land and determine the Land Value Percentage Change, based on reappraisal or updated appraisal.
- (c) Re-Calculate outstanding Fee Credits, based on annual CCI adjustment.
- (d) Re-Calculate Outstanding Fee Reimbursements, based on annual 4% adjustment.
- (e) Re-Calculate City Park Land Fee for residential uses, Infrastructure Fee by Land Use, and Administration Fee.
- (f) Prepare Updated Project Cost Estimation for review and

majority approval by Original Owners.

- (g) Prepare Annual Report for review and majority approval by Original Owners, incorporating updated Project Cost Estimation and annual fee program update, showing calculation of Fees, as well as summary of significant events, including most if not all items listed above that triggered any sort of transaction.
  - (h) Deliver approved Annual Report to City and assist City in updating the Fees Monitor/Direct Payment of Credits/Reimbursements.
- (6) Third Party Reimbursement or Construction
- (a) Monitor receipt of Third Party Reimbursements and/or Third Party Construction
  - (b) Prepare TPR or TPC Fee Reimbursement Agreements for Original Owners
- (7) Monitor/Direct Payment of Credits/Reimbursements
- (a) Monitor Application of Fee Credits and/or Payment of Fee Reimbursements
  - (b) Administer and track all Fee Credit and Fee Reimbursement transfers.
  - (c) Direct Fee payments by City to applicable Constructing Owners and/or Original Owners.

## SCHEDULE JJ-4

### SAMPLE

#### CITY OF ROSEVILLE SIERRA VISTA SPECIFIC PLAN INFRASTRUCTURE FEE PROGRAM CREDIT/REIMBURSEMENT AGREEMENT

[LIST DEVELOPER HERE]  
[LIST FACILITY HERE]

This Credit/Reimbursement Agreement (the "Agreement") is entered into by and between the City of Roseville (hereinafter the "City") and **[list developer here, including form of entity]**, and/or its successors in interest, (hereinafter the "Developer") as of the \_\_\_\_ day of \_\_\_\_\_ 20\_\_ (the "**Effective Date**").

#### RECITALS

**WHEREAS**, Developer is developing the **[list name of development]** (the "Project"), including backbone infrastructure that will serve the Project; and,

**WHEREAS**, Developer is required, as a condition of development of the Project **[reference condition of approval and the relevant ordinance or resolution number]**, to construct or cause to be constructed the facilities and improvements described in **Exhibit "A"** hereto, which are included within the improvement plans titled **[list Name of Improvement Plan Set]**, dated **[list Date of Improvement Plan Set]** (hereinafter the "Facilities"); and

**WHEREAS**, on \_\_\_\_\_, 20\_\_, the City Council of City of Roseville adopted Ordinance No. \_\_\_\_\_ which approved the Sierra Vista Infrastructure Fee Program (the "SV Fee Program"); implemented fees to pay for a variety of public lands and public facilities (the "SV Fees"), including the Facilities; and set forth policies associated with fee credits and reimbursements within the Sierra Vista Specific Plan ("SVSP") area. The SV Fee related to the construction of the Facilities is referred to herein as the "SV Infrastructure Fee; and

**WHEREAS**, City has agreed to allow Developer to execute a contract to design and construct the Facilities; and

**WHEREAS**, Developer has entered into a contract with (*name of Contractor*) for construction of the Facilities (the "Construction Contract"); and

**WHEREAS**, City and Developer desire to enter into an agreement to provide for allowable credits and reimbursements by the City to Developer for certain costs of design and construction of the Facilities; and

**WHEREAS**, this Agreement will not apportion the credits granted herein to any particular real property. Such apportionment shall be accomplished at Developer's discretion as described herein;

**NOW, THEREFORE**, in consideration of the mutual promises contained herein, City and Developer agree as follows:

## **SECTION 1. DEFINITIONS**

All capitalized terms used herein, including, but not limited to the definition of the "Administrator", shall have the meaning described thereto in the Ordinance.

## **SECTION 2. CONSTRUCTION OF FACILITIES**

Developer shall complete construction of the Facilities in accordance with the plans and specifications approved by City staff, and in accordance with City improvement standards and this Agreement. Developer understands and acknowledges that the terms and conditions contained in any contract that Developer has or may execute with any contractors or material suppliers regarding the construction of the Facilities have no force or effect upon this Agreement.

## **SECTION 3 BONDS**

Developer has posted performance bonds for the Facilities in favor of the City in an amount and form acceptable to the City.

## **SECTION 4. ALLOWABLE CREDIT/REIMBURSEMENT**

The City shall credit/reimburse the Developer for all amounts spent, or authorized to be spent, in connection with the planning, financing, acquisition and development of a public facility or infrastructure, based upon the price included in the Construction Contract, (hereinafter the "Contract Costs"), plus an allowance for storm water pollution prevention monitoring & management, engineering, inspection, testing, surveying and bonding (hereinafter the "Soft Costs") determined by multiplying the Contract Costs for the Facilities, including traffic control, staging and storm water pollution prevention implementation measures that qualify for credit/reimbursement (as determined by the City Engineer), by twenty percent (20%), subject to the final "true up" as described in Section 7 hereof.

## **SECTION 5. LIMITATION ON FEE CREDITS**

Notwithstanding Section 4 above, the amount of fee credits granted to Developer pursuant to this Agreement shall not exceed the amount of SV Infrastructure Fees due from the Developer arising out of the Project based upon the approved small lot tentative subdivision map for the Project (the "SV Infrastructure Fee Obligation"). If the amount of credit/reimbursement from Section 4 exceeds the SV Infrastructure Fee Obligation of the Developer for the Project, the remaining balance shall be paid as a reimbursement to Developer pursuant to the procedures set forth in Section 6 below. City and Developer agree that the amount of fee credits granted to Developer hereunder, and the amount of reimbursement owed to Developer hereunder, if any, shall be as set forth on Exhibit B hereto and made a part hereof, subject to the final "true up" as described in Section 7 hereof.

No credits shall be available for the Administrative Fee and the City Park Land Fee and such Fees shall be due and payable at such time as the Developer, or its successors or assigns, are issued building permits.

## **SECTION 6. REIMBURSEMENTS**

If, pursuant to Section 5 above, Developer is owed a reimbursement for any costs of the Facilities, the priority of such reimbursement shall be on a "First-in, First-out" basis ("FIFO") as described in the SV Fee Program. Reimbursements shall be paid by the City as fee revenues are collected within the SV Fee Program area; such payments shall be made by the City at least quarterly throughout the year as funds become available. Notwithstanding the foregoing, the obligation arising from the agreement is not a debt of the City, nor a legal or equitable pledge, charge, lien, or encumbrance, upon any of its property, or upon any of its income, receipts, or revenues, and is payable only from the SV Infrastructure Fees deposited in the SV Fee Program.

## **SECTION 7. "TRUE UP" OF CREDIT/REIMBURSEMENT**

The final determination of actual Contract Costs upon which Credit/Reimbursement amounts shall be determined shall be based on the unit bid prices set forth in the Construction Contract multiplied by the actual installed quantities as approved by the City. For construction change orders to be given consideration for reimbursement, the Developer must:

- Present the change order request and estimated cost along with supporting information to City.
- Fully document any work performed under a change order to verify all associated costs.

Failure to comply with any of these procedures may result in the ineligibility of the requested change order for credit/reimbursement.

In order to secure final credit and/or commitment for reimbursement, Developer shall provide the following items to the City in order for the City to determine the actual construction costs for the Facilities that qualify for credit/reimbursement:

- (1) Copies of the original Construction Contract and any change orders that have been agreed to by the Developer, contractor, and the City. The portion of each change order associated with the Facilities must be itemized separately;
- (2) Copies of all invoices, with unconditional lien releases, submitted by the contractor;
- (3) Copies of all checks issued by the Developer with related invoices indicated;
- (4) A summary tabulation of all contractor invoices and Developer payments; and
- (5) Prevailing Wage Certification.

If, when the final reconciliation of construction costs for the Facilities is conducted by the Administrator, the actual construction costs for any of the Facilities exceeds the Contract Costs for such Facilities, the Administrator shall review items (1) through (4) above and determine if the actual costs that will serve as the basis for determination of the amount of Credit/Reimbursement owed to the Developer should be increased above the amount described

in Exhibit B of this Agreement. The City Engineer in consultation with the Administrator shall determine how much of the actual construction costs should be included in an increase to the Contract Costs.

#### **SECTION 8. APPLICATION OF FEE CREDIT**

Fee credits provided pursuant to this Agreement are personal to Developer and are not limited to the Project. Fee Credits may be applied by Developer to any property located in the SVSP, upon request of the Developer, in accordance with the form attached hereto as **Exhibit "C."** Such fee credits shall only apply to the SV Infrastructure Fees within the SV Fee Program.

#### **SECTION 9. DISCLOSURE RE TIMING OF PAYMENT OF INFRASTRUCTURE FEES**

As of the Effective Date of this Agreement, there [\_\_\_\_\_] ARE] [\_\_\_\_\_] ARE NO] [*check applicable blank*] outstanding fee reimbursements ("**Outstanding Fee Reimbursements**") payable to other developers under other credit/reimbursement agreements with the City for improvements within the SVSP. Accordingly, if the final small-lot subdivision map for the Project (the "**Final Project Map**") is being recorded as of the Effective Date of this Agreement, Developer acknowledges that:

\_\_\_\_\_ Because there are Outstanding Fee Reimbursements, the Infrastructure Fees for the Project will need to be paid for all the lots within the Project upon recordation of the Final Project Map.

\_\_\_\_\_ Because there are no Outstanding Fee Reimbursements, the Infrastructure Fees for the Project will not be required to be paid upon recordation of the Final Project Map, but will be required to be paid upon issuance of each building permit for the lots within the Project.

If the Final Project Map is not being recorded as of the Effective Date, then the timing for payment of the Infrastructure Fees for the Project may be contingent on whether Outstanding Fee Reimbursements exist as of the recordation of the Final Project Map. The amount of such Infrastructure Fees to be paid by Developer may be reduced by Developer's election to apply Fee Credits against such Fees in accordance with Section 8 above.

#### **SECTION 10. TRANSFER OF FEE CREDITS/REIMBURSEMENTS**

Fee credits/reimbursements granted to Developer pursuant to this Agreement may be transferred to other owners, builders, or developers. To effect such a transfer, Developer shall submit a completed form to the Administrator and the City in substantially the same format as set forth in **Exhibit "D"** that will (i) reference this Agreement; (ii) identify the Developer and assignee if credits or reimbursements are being assigned to a builder or other party; and (iii) identify the fee credit or fee reimbursement balance before and after the transfer. The form must be signed by the Developer, its Assignee, and the Administrator, and an executed copy of the form shall be kept on file.

#### **SECTION 11. INSPECTION**

City shall, at all times, upon reasonable advance notice, have access to the construction site during construction of the Facilities and Developer shall furnish City with all reasonable information necessary for ascertaining full knowledge of the Facilities with respect to the

progress, workmanship, and character of materials and equipment used and employed in the work.

Whenever the contractors retained by Developer vary the normal period during which work or any portion of it is carried out on each day, Developer shall give timely notice to the City so that the City's representative may, if he or she wishes, be present to observe the work in progress. If Developer fails to give such timely notice, any work done in the absence of the City representative will be subject to rejection. Developer shall give timely notice to the City in advance of backfilling or otherwise covering any part of the work so that the City's representative may, if he or she wishes, observe the work before it is concealed.

Observation of the work by the City shall not relieve Developer of any of its obligations to complete construction in accordance with the plans and specifications approved by the City Engineer.

## **SECTION 12. PREVAILING WAGES**

Pursuant to the provisions of Articles 1 and 2 of Chapter 1, Part 7, Division II of the Labor Code of the State of California, not less than the general prevailing rate of per diem wages, and not less than the general prevailing rate of per diem wages for holidays and overtime work, for each craft, classification or type of worker needed to execute the work contemplated under this Agreement shall be paid to all workers, laborers, and mechanics employed in the execution of said work by Developer's contractor, or by any subcontractor doing or contracting to do any part of said work. The appropriate determination of the Director of the California Department of Industrial Relations is filed with, and available for inspection at the office of, the City Clerk.

Developer shall require its contractor to post, at each jobsite, a copy of such prevailing rate of per diem wages as determined by the Director of the California Department of Industrial Relations.

## **SECTION 13. INSURANCE**

Developer shall require its contractor to carry and maintain during the life of this Agreement, such public liability, property damage and contractual liability, auto, Workers' Compensation and Builders' Risk Insurance as required by the improvement plan specifications for the Facilities. The contractor shall name the City as an additional insured.

## **SECTION 14. ACCEPTANCE AND CONVEYANCE OF FACILITIES**

Once Developer has completed construction of the Facilities and the Facilities are accepted and deemed satisfactory by the City, the Facilities automatically become the property of the City. Developer shall take any and all actions necessary to convey and vest full, complete and clear title in said Facilities to the City. [THIS SECTION TO BE ELIMINATED IN THE CASE OF FACILITIES THAT ARE TO BE OWNED BY OTHER JURISDICTIONS]

## **SECTION 15. LIENS, CLAIMS, AND ENCUMBRANCES**

Notwithstanding any other provision or term of this Agreement, the City shall have no obligation to apply credits/reimbursements after final acceptances for the Facilities until Developer has cleared any and all liens, claims and encumbrances from said facility, and provided the required guarantee documentation, guarantee, and assurance in writing, to the satisfaction of the City.

## **SECTION 16. DELIVERY OF AS-BUILT PLANS AND SPECIFICATIONS**

Prior to acceptance of the Facilities by City, Developer shall deliver to City copies of all as-built plans (if any), specifications, operating manuals, service manuals, warranties and other documents relating to the design, construction, and operation of the Facilities described in this Agreement.

## **SECTION 17. INDEMNIFICATION**

The Developer, by execution of this Agreement, specifically agrees to assume the defense of, indemnify and hold harmless City and its elected representatives, officers, employees, agents and consultants (the "Indemnitees"), from and against all liabilities, actions, damages, claims, losses, or expenses of every type and description, including attorneys' and consultants' fees and expenses, (collectively, "Liabilities"), to which they may be subjected or put, by reason of or resulting from the design, construction, or installation of the Facilities, except to the extent the Liabilities arise from the sole negligence, active negligence, or willful misconduct of City and/or the Indemnitees. This indemnification shall extend to Liabilities occurring after this Agreement is terminated as well as while it is in force. Notwithstanding the foregoing, following the acceptance of the improvements by City, or if there is an applicable warranty, following the end of any applicable warranty period, the Developer shall not be obligated to indemnify the Indemnitees for Liabilities to the extent that such Liabilities arise from Indemnitees' active or passive negligence.

## **SECTION 18. THIRD PARTY LIABILITY**

City does not assume any liability, duty or obligation to Developer's contractors, subcontractors or agents by execution or performance of this Agreement and no contractors, subcontractors, agents or any parties are third party beneficiaries of this Agreement.

## **SECTION 19. WARRANTY**

Developer hereby warrants the Facilities as to materials, design and workmanship and should any failure of the Facilities or any parts thereof occur within a period of one (1) year after final acceptance by City, Developer shall promptly cause the needed repairs to be made without any expense or cost to the City. Final acceptance shall be deemed to have occurred under this Agreement when the Facilities have been accepted by the City and may be placed into service. City shall provide written notification to Developer of final acceptance by the City.

City is hereby authorized to make repairs if Developer fails to make, or undertake with due diligence, the aforesaid repairs within twenty (20) days after it is given written notice of such failure. In case of emergency, where in the opinion of the City Engineer delay may cause serious hazard to the public, the necessary repairs may be made by the City without prior notice to Developer. In all cases of failure within the warranty period where the City has taken action in accordance with this paragraph, Developer shall reimburse City for any and all costs or expenses, direct or indirect, incurred by the City.

## **SECTION 20. BINDING ON SUCCESSORS AND ASSIGNS**

Each and every provision of this Agreement shall be binding upon and shall inure to the benefit of the respective successors and assigns of the parties hereto, in the same manner as if such parties had been expressly named herein.

## **SECTION 21. ATTORNEY'S FEES**

If any suit, action or proceeding in law or equity is brought to enforce the provisions of this Agreement, the prevailing party shall be entitled to reasonable costs and attorneys' fees.

## **SECTION 22. AUTHORITY TO ENTER INTO AGREEMENT**

Developer and City certify that they are legally empowered to enter into this Agreement.

## **SECTION 23. NOTICES**

Any notices, requests, demands or other communications required or permitted to be given under this Agreement shall be in writing and shall be deemed to have been duly given on the date of service if served personally (FedEx and similar services, each of which is hereinafter called an "Express Courier," shall be considered to be personal service) or by telephone facsimile or other electronic transmission (provided that the sender of a telephone facsimile or other electronic transmission has received confirmation of successful transmission by the sending fax machine), and upon receipt, if mailed to the party to whom notice is to be given, by first-class mail, registered or certified, postage prepaid, return receipt requested, and properly addressed as follows:

(a) If to City:

City of Roseville  
Attn: City Engineer  
311 Vernon Street  
Roseville, CA 95678  
Telephone: (916) \_\_\_\_\_  
Facsimile: (916) \_\_\_\_\_

(b) If to Developer:

**[fill in notice information for Developer]**

Either party may change its mailing address at any time by giving written notice of such changes to the other party in the manner provided herein.

**SECTION 24. NOTICE OF CONTRACTORS**

Developer shall provide a copy of this Agreement to any contractors, subcontractors, or other parties performing work on the Facilities, prior to commencement of construction by said party.

**SECTION 25. TERM**

The term of this Agreement shall start on the day and year duly executed by all parties and shall remain in effect until all the terms and conditions contained in this Agreement have been satisfied.

**SECTION 26. SEVERABILITY**

If any provision of this Agreement shall be held to be invalid, illegal or unenforceable, the validity, legality and enforceability of the remaining portions hereof shall not in any way be affected or impaired thereby.

**SECTION 27. CONFLICTS**

This agreement is intended to implement and be consistent with the requirements of Ordinance No. \_\_\_\_\_. Therefore, in the event of any conflicts between Ordinance \_\_\_\_\_ and this Agreement, the requirements of the Ordinance shall prevail and control.

**SECTION 28. EXHIBITS**

The Exhibits attached hereto are hereby incorporated herein by this reference.

**SECTION 29. ENTIRE AGREEMENT**

This Agreement constitutes the entire understanding of the parties regarding the subject matter hereof. The Agreement may be amended only by writing executed by both parties.

**SECTION 30. EFFECTIVE DATE**

The City's execution of this Agreement shall be contingent upon confirmation by the City that (i) a contract has been properly bid and entered into for construction of the Facilities, (ii) performance and payment bonds have been posted in form and amount required by the City, and (iii) a Notice to Proceed has been given to the contractor for the Facilities. Upon execution of this Agreement by the City, the City shall insert the date of such execution in the Preamble to this Agreement, which date shall serve as the Effective Date hereof.

IN WITNESS WHEREOF, the parties hereto have executed this Agreement on the day and year first above-written.

**SVSP Fee Credit and**  
**Reimbursement Agreement (Template)**

**CITY OF ROSEVILLE  
SIERRA VISTA SPECIFIC PLAN  
INFRASTRUCTURE FEE PROGRAM  
INFRASTRUCTURE FEE CREDIT/FEE REIMBURSEMENT AGREEMENT**

**[LIST DEVELOPER HERE]  
[LIST FACILITY HERE]**

This Credit/Reimbursement Agreement (the "Agreement") is entered into by and between the City of Roseville, a municipal corporation, (hereinafter the "City") and **[list developer here, including form of entity]**, and/or its successors in interest, (hereinafter the "Developer") as of the \_\_\_\_ day of \_\_\_\_\_ 20\_\_ (the "**Effective Date**").

**RECITALS**

**WHEREAS**, Developer is the underlying owner of or has legal interest in certain real property under development within the City of Roseville, known as the **[list name of development]** (the "Project") located within the Sierra Vista Specific Plan ("SVSP"), as shown in Figure "A," attached hereto and incorporated herein by this reference; and

**WHEREAS**, Developer will be developing the Project, including all necessary backbone infrastructure that will serve the Project; and

**WHEREAS**, on April 20, 2011, the City Council of the City of Roseville adopted Ordinance No. 4932 which added Chapter 4.47 to Title 4 of the Roseville Municipal Code relating to the Sierra Vista Infrastructure Fee Program (the "SV Fee Program"); implemented fees to pay for a variety of public lands and public facilities (the "SV Fees"); and set forth policies associated with Infrastructure Fee Credits (as defined below) and Fee Reimbursements (as defined below) within the Sierra Vista Specific Plan ("SVSP") area. The SV Fee related to the construction of the Facilities (as defined below) is referred to herein as the "SV Infrastructure Fee"; and

**WHEREAS**, pursuant to the applicable Development Agreement ("DA") for the SVSP, Developer is required, as a condition of development of the Project, to construct or cause to be constructed those SV Fee Program eligible facilities and improvements shown on Exhibit "A" and described in Exhibit "B" attached hereto, which are included within the City approved improvement plans titled **[list Name of Improvement Plan Set]**, dated **[list Date of Improvement Plan Set]** (hereinafter the "Facilities"); and

**WHEREAS**, Developer has entered into a contract with (***name of Contractor***) for construction of the Facilities (the "Construction Contract"); and

**WHEREAS**, the total cost of the design and construction of the Facilities as estimated using current prevailing wages and in accordance with the Improvement Plans is estimated as approximately \_\_\_\_\_ (\$\_\_\_\_\_) ("Facility Improvement Costs"), as more particularly set out in the estimation of costs ("Estimated Eligible Facility Costs"), Exhibit "C," attached hereto and incorporated herein by this reference; and

**WHEREAS,** City and Developer desire to enter into an agreement to provide for allowable Infrastructure Fee Credits and/or Fee Reimbursements by the City to Developer for certain costs of design and construction of the Facilities; and

**WHEREAS,** this Agreement will not apportion the Infrastructure Fee Credits granted herein to any particular real property. Such apportionment shall be accomplished at Developer's discretion as described herein;

**NOW, THEREFORE,** in consideration of the mutual promises contained herein, City and Developer agree as follows:

## **SECTION 1. DEFINITIONS**

All capitalized terms used herein, including, but not limited to the definition of the "Administrator", shall have the meaning described thereto in the Ordinance.

## **SECTION 2. CONSTRUCTION OF FACILITIES**

Developer shall cause the construction of the Facilities in accordance with the plans and specifications accepted by City staff, and in accordance with City improvement standards and this Agreement. Developer understands and acknowledges that the terms and conditions contained in any contract that Developer has or may execute with any contractors or material suppliers regarding the construction of the Facilities have no force or effect upon this Agreement.

## **SECTION 3. PERMITS**

Developer shall be responsible for obtaining all necessary permits.

## **SECTION 4. PRIOR TO COMMENCEMENT OF WORK**

Prior to commencement of work on the Project, Developer shall comply with the following: (1) obtain pre-approval from City of Developer's construction documents; (2) cause its contractor to obtain an encroachment permit from City prior to commencement of construction activities in City's right of way (and adjacent thereto); and (3) cause its contractor to provide insurance and related documentation to City in accordance with Section 17 of this Agreement.

## **SECTION 5. BONDS**

Prior to commencement of work on the Project, Developer shall post, or cause its contractor to post, performance and payment bonds for the Facilities in favor of the City in an amount and form acceptable to the City. City acknowledges that performance and payment bonds posted and accepted by the City in connection with any community facilities district acquisition agreement with Developer for the Facilities will be acceptable to the City for this Agreement as well. In addition, prior to City acceptance of the completed Facilities, Developer shall post, or cause its contractor to post, a warranty bond in the amount of ten percent (10%) of the Facility Improvement Costs.

## **SECTION 6. REIMBURSEMENT/CREDIT OF THE COSTS FOR FACILITIES**

In consideration of the satisfactory completion of the Facilities as specified in Exhibits "A" through "C," City shall reimburse or credit Developer for the Facility Improvement Costs, with funds collected within the SVSP Infrastructure Mitigation Fee account, in accordance with the

[L:\WpDocs\D014\P003\00034116.doc: 3/20/18]

terms hereof (the "Reimbursable Costs"). City and Developer acknowledge that the actual Reimbursable Costs may vary from the estimated costs, depending upon the actual costs of constructing and installing the Facilities. Any variation in costs shall be agreed to and/or resolved by the parties as provided in Section 18 below.

The Reimbursable Costs shall include the contract bid amount for the Facilities as reflected on Exhibit "C" and reasonable change orders, as approved by the City.

## **SECTION 7. ALLOWABLE FEE CREDIT/REIMBURSEMENT**

In consideration of the satisfactory completion of the Facilities as specified in Exhibits "A" through "C," the City shall credit/reimburse the Developer for all amounts spent, or authorized to be spent, in connection with the planning, financing, acquisition and development of the Facilities, based upon the Eligible Hard Costs thereof, as approved by the Administrator in consultation with the City Engineer, plus an allowance for Soft Costs equal to twenty percent (20%) of the Eligible Hard Costs. The Infrastructure Fee Credits hereunder shall be available upon full execution of this Agreement and the posting of the performance and payment bonds, or other acceptable security, required above. Fee Reimbursements for the Facilities shall be payable to Developer only after satisfactory completion thereof by Developer and City acceptance thereof.

"Hard Costs" shall consist of the costs of (i) construction of the Facilities, based on the price included in the Construction Contract for the construction of the Facilities, and (ii) traffic control, staging and storm water pollution prevention implementation measures (i.e., structural BMPs) related to such construction. Hard Costs shall include the costs of any changes in scope or standards required by the City during the course of construction thereof that are added to the Construction Contract. Hard Costs shall also include the cost for any materials that exceeded the minimum specifications required by the City, so long as the bid for the contract clearly describes the allowed minimum specification. "Eligible Hard Costs" means all of the Hard Costs incurred by the Developer to construct the Facilities, except to the extent the Administrator excludes costs found to be commercially unreasonable. "Soft Costs" include the costs of storm water pollution prevention monitoring & management (i.e., non-structural BMPs), engineering, inspection, testing, surveying and bonding related to the construction of the Facilities; in consideration of the foregoing 20% allowance for Soft Costs based on the Eligible Hard Costs, Developer shall not be obligated to provide contracts, invoices or any other form of documentation to substantiate the actual amount of Soft Costs incurred, nor shall Developer be allowed to request a greater amount due to actual Soft Costs exceeding this fixed-percentage allowance. The amount of such Infrastructure Fee Credits, subject to the limitation set forth in Section 8 below, and subject to the final "true up" as described in Section 10 below, shall be set forth on Exhibit "D" upon execution of this Agreement.

In the event of any disagreement between the Developer and the City on the initial calculation of these Infrastructure Fee Credits, if all other conditions to the entry of this Agreement have been satisfied, the Developer may elect to enter this Agreement without having the amount of Infrastructure Fee Credits resolved and listed on Exhibit "D" (or having only the undisputed amount listed thereon). In such case, Developer's right to use any Infrastructure Fee Credits (or disputed amount) hereunder will be deferred until such disagreement is resolved by the Developer and Administrator. The parties shall meet and confer to resolve any such dispute within sixty (60) calendar days of the entry of this Agreement pursuant to Section 18 below. Pending the resolution of any such dispute, the Project will pay any and all required SV Infrastructure Fees (except as may be offset by Infrastructure Fee Credits assigned thereto pursuant to other fee credit agreements) and Developer may request

that the City retain any SV Infrastructure Fees paid by the Project after the Effective Date of this Agreement for potential refund upon resolution of such Infrastructure Fee Credit dispute. The amount of SV Infrastructure Fees that may be retained pending resolution of any Infrastructure Fee Credit dispute shall not exceed the maximum amount of Infrastructure Fee Credits that could be allocated to Developer hereunder, as may be limited by Section 8 below. Upon resolution of any Infrastructure Fee Credit dispute, the amount of Infrastructure Fee Credits allowed hereunder, as may be limited by Section 8, shall be completed on Exhibit "D." Developer shall then have fifteen (15) calendar days after receipt of the completed Exhibit "D" to retroactively apply such Infrastructure Fee Credits to the Project and obtain an equivalent refund of SV Infrastructure Fees that were collected and retained from the Project after the effective date of this Agreement pending the resolution of the Infrastructure Fee Credit dispute. If Developer does not elect within such time to have any of the Infrastructure Fee Credits applied to the Project in order to receive an equivalent refund of SV Infrastructure Fees, then the SV Infrastructure Fees previously collected and retained from the Project shall be deposited into the SV Fee Program and no longer restrained by this Agreement.

#### **SECTION 8. LIMITATION ON AND ANNUAL ADJUSTMENTS TO INFRASTRUCTURE FEE CREDITS**

Notwithstanding Section 7 above, the amount of fee credits granted to Developer pursuant to this Agreement (the "Infrastructure Fee Credits") shall not exceed the amount of SV Infrastructure Fees due from the Developer arising out of the Project based upon the approved small lot tentative subdivision map for the Project (the "SV Infrastructure Fee Obligation"). If the amount of Infrastructure Fee Credit/Fee Reimbursement from Section 7, when aggregated with any Infrastructure Fee Credits previously issued to Developer pursuant to any other fee credit agreements, exceeds the SV Infrastructure Fee Obligation of the Developer for the Project, the remaining balance shall be paid as a reimbursement to Developer pursuant to the procedures set forth in Section 9 below (the "Fee Reimbursement").

City and Developer agree that the amount of Infrastructure Fee Credits granted to Developer hereunder, and the amount of the Fee Reimbursement owed to Developer hereunder, if any, shall be as set forth on Exhibit "D" hereto and made a part hereof, subject to the final "true up" as described in Section 10 hereof. As provided in the SV Fee Program, on each Annual Adjustment Date after the Effective Date, the amount of the Infrastructure Fee Credits shall be adjusted, up or down, by the annual change in the Engineering News Record Construction Cost Index or comparable index (the "CCI"), provided any such downward adjustment shall not go below the actual cost of the Facilities, as approved by the City. If the Effective Date of this Agreement occurs in June of any calendar year, then such CCI adjustment shall not be made until the Annual Adjustment Date for the following calendar year.

No fee credits shall be available for the Administrative Fee and the City Park Land Fee and such fees shall be due and payable at such time as the Developer, or its successors or assigns, are issued building permits.

#### **SECTION 9. FEE REIMBURSEMENTS**

If, pursuant to Section 8 above, Developer is owed a Fee Reimbursement for any costs of the Facilities, the priority of payment of such Fee Reimbursement shall be on a "First-in, First-out" basis ("FIFO") as described in the SV Fee Program. Such Fee Reimbursement shall be paid to Developer when the Facilities are complete and accepted for ownership by the City ("Completion").

The Fee Reimbursement, if any, shall be paid by the City as fee revenues are collected within the SV Fee Program area. After Completion of the Facilities, such payments shall be made by the City at least quarterly throughout the year as funds become available. Prior to such Completion, if the Fee Reimbursement hereunder is eligible for payment on a FIFO basis subject only to Completion of the Facilities (including acceptance thereof by the City), then fee revenues collected within the SV Fee Program area, up to the outstanding amount of the Fee Reimbursement, shall be held by the City in reserve for payment of the Fee Reimbursement pending Completion of the Facilities.

In accordance with the SV Fee Program, any Fee Reimbursement shall accrue interest thereon at the simple rate of Four Percent (4%) per annum, commencing as of the Effective Date of this Agreement and continuing until the Fee Reimbursement is paid in full. The amount of such accrued interest shall be adjusted in accordance with any adjustment to the amount of the Fee Reimbursement pursuant to the "true up" provisions of Section 10 below. Payments of the Fee Reimbursement shall be credited first against accrued interest, and then against the principal amount of the Fee Reimbursement.

The obligation arising from this Agreement is not a debt of the City, nor a legal or equitable pledge, charge, lien, or encumbrance, upon any of its property, or upon any of its income, receipts, or revenues, and is payable only from the SV Infrastructure Fees deposited in the SV Fee Program.

#### **SECTION 10. "TRUE UP" OF INFRASTRUCTURE FEE CREDIT/FEE REIMBURSEMENT**

Upon Completion of the Facilities, the final determination of actual Eligible Hard Costs upon which Infrastructure Fee Credit/Fee Reimbursement amounts are based shall be determined by the Administrator, in consultation with the City Engineer, based on documentation thereof provided by Developer to the Administrator's and City Engineer's reasonable satisfaction. For construction change orders to be given consideration for Fee Reimbursement, the Developer must:

- Present the change order request and estimated cost along with supporting information to City upon Completion of the Facilities.
- Fully document any work performed under a change order to verify all associated costs.

Failure to comply with any of these procedures may result in the ineligibility of the requested change order for Infrastructure Fee Credit/Fee Reimbursement.

In order to secure final Infrastructure Fee Credit and/or commitment for Fee Reimbursement, Developer shall provide the following items to the Administrator upon Completion of the Facilities in order for the City to determine the actual Eligible Hard Costs incurred by Developer for the Facilities that qualify for Infrastructure Fee Credits/Fee Reimbursement:

(1) Copies of the original Construction Contract and any change orders that have been agreed to by the Developer, contractor, and the City. The portion of each change order associated with the Facilities must be itemized separately;

(2) Copies of all invoices and certified payroll records, with unconditional lien releases, submitted by the contractor;

- (3) Copies of all checks issued by the Developer with related invoices indicated;
- (4) A summary tabulation of all contractor invoices and Developer payments;
- and

If, when the final reconciliation of Eligible Hard Costs for the Facilities is conducted by the Administrator, the actual Eligible Hard Costs for the Facilities, together with the 20% allowance for Soft Costs, exceeds the amount of Infrastructure Fee Credits/Fee Reimbursements initially provided hereunder, the Administrator shall review items (1) through (4) above and determine if the actual Eligible Hard Costs that will serve as the basis for determination of the amount of the Infrastructure Fee Credits/Fee Reimbursements due or owed to the Developer should be increased above the amount described in Exhibit "D" of this Agreement. The Administrator, in consultation with the City Engineer, shall determine how much of the actual construction costs should be included in any increase to the Eligible Hard Costs.

If the final reconciliation determines that total Eligible Hard Costs of the Facilities, together with the 20% allowance for Soft Costs, is less than the amount of Infrastructure Fee Credits/Fee Reimbursements initially provided hereunder, the Administrator shall notify the City that the Developer is required to first reduce the amount of any Fee Reimbursement and then relinquish the amount of the unused Infrastructure Fee Credits comprising any remaining difference. If and to the extent any Infrastructure Fee Credits have been used in excess of such adjustment, Developer, or Developer's assigns, shall repay such excess in cash, within thirty (30) calendar days of receipt of notice from the Administrator of the amount to be repaid.

#### **SECTION 11. APPLICATION OF INFRASTRUCTURE FEE CREDITS**

Infrastructure Fee Credits provided pursuant to this Agreement are personal to Developer and are not limited to the Project. Infrastructure Fee Credits may be applied by Developer to any property located in the SVSP, upon request of the Developer, in accordance with the form attached hereto as Exhibit "E." Such Infrastructure Fee Credits shall only apply to the SV Infrastructure Fees within the SV Fee Program.

#### **SECTION 12. DISCLOSURE RE TIMING OF PAYMENT OF INFRASTRUCTURE FEES**

As of the Effective Date of this Agreement, there [\_\_\_\_\_] ARE [\_\_\_\_\_] ARE NO] *[check applicable blank]* outstanding fee reimbursements ("**Outstanding Fee Reimbursements**") payable to other developers under other fee credit/fee reimbursement agreements with the City for improvements within the SVSP. Accordingly, if the final small lot subdivision map for the Project (the "**Final Project Map**") is being recorded as of the Effective Date of this Agreement, Developer acknowledges that:

- \_\_\_\_\_ Because there are Outstanding Fee Reimbursements, the Infrastructure Fees for the Project will need to be paid for all the lots within the Project upon recordation of the Final Project Map.
- \_\_\_\_\_ Because there are no Outstanding Fee Reimbursements, the Infrastructure Fees for the Project will not be required to be paid upon recordation of the Final Project Map, but will be required to be paid upon issuance of each building permit for the lots within the Project.

If the Final Project Map is not being recorded as of the Effective Date, then the timing for payment of the SV Infrastructure Fees for the Project may be contingent on whether

Outstanding Fee Reimbursements exist as of the recordation of the Final Project Map. The amount of such SV Infrastructure Fees to be paid by Developer may be reduced by Developer's election to apply Infrastructure Fee Credits against such SV Fees in accordance with Section 11 above.

### **SECTION 13. TRANSFER OF INFRASTRUCTURE FEE CREDITS/FEE REIMBURSEMENTS**

Infrastructure Fee Credits/Fee Reimbursements granted to Developer pursuant to this Agreement may be transferred to other owners, builders, or developers. To effect such a transfer, Developer shall submit a completed form to the Administrator and the City in substantially the same format as set forth in Exhibit "F" that will (i) reference this Agreement; (ii) identify the Developer and assignee if Infrastructure Fee Credits or Fee Reimbursements are being assigned to a builder or other party; and (iii) identify the Infrastructure Fee Credit or Fee Reimbursement balance before and after the transfer. The form must be signed by the Developer, its Assignee, and the Administrator, and an executed copy of the form shall be kept on file. The parties acknowledge that, except in the limited case where a Fee Reimbursement is in first priority for payment, Fee Reimbursements generally may not be converted to be used as Infrastructure Fee Credits by the Assignee of such Fee Reimbursements.

### **SECTION 14. INSPECTION**

City shall, at all times, upon reasonable advance notice, have access to the construction site during construction of the Facilities and Developer shall furnish City with all reasonable information necessary for ascertaining full knowledge of the Facilities with respect to the progress, workmanship, and character of materials and equipment used and employed in the work.

Whenever the contractors retained by Developer vary the normal period during which work or any portion of it is carried out on each day, Developer shall give timely notice to the City so that the City's representative may, if he or she wishes, be present to observe the work in progress. If Developer fails to give such timely notice, any work done in the absence of the City representative will be subject to rejection. Developer shall give timely notice to the City in advance of backfilling or otherwise covering any part of the work so that the City's representative may, if he or she wishes, observe the work before it is concealed.

Observation of the work by the City shall not relieve Developer of any of its obligations to complete construction in accordance with the plans and specifications approved by the City Engineer.

### **SECTION 15. PREVAILING WAGES**

Pursuant to the provisions of Articles 1 and 2 of Chapter 1, Part 7, Division II of the Labor Code of the State of California, not less than the general prevailing rate of per diem wages, and not less than the general prevailing rate of per diem wages for holidays and overtime work, for each craft, classification or type of worker needed to execute the work contemplated under this Agreement shall be paid to all workers, laborers, and mechanics employed in the execution of said work by Developer's contractor, or by any subcontractor doing or contracting to do any part of said work. The appropriate determination of the Director of the California Department of Industrial Relations is filed with, and available for inspection at the office of, the City Clerk.

Developer shall require its contractor to post, at each jobsite, a copy of such prevailing rate of per diem wages as determined by the Director of the California Department of Industrial Relations.

## **SECTION 16. CONTRACTOR REGISTRATION**

No contractor or subcontractor may be listed on a bid proposal for construction of the Facilities or work on construction of the Facilities unless registered with the Department of Industrial Relations pursuant to Labor Code Section 1725.5. Developer shall be responsible for ensuring that these contractor registration requirements are adhered to.

## **SECTION 17. INSURANCE**

Developer shall require its contractor to carry and maintain during the life of this Agreement, commercial general liability, property damage and contractual liability, auto, Workers' Compensation and Builders' Risk Insurance as follows:

| <u>POLICY</u>                                                                                                                                                                                                                                                                         | <u>LIMITS OF LIABILITY</u>                                                                                                                                                                              |

| Commercial General Liability,<br>Including endorsements for<br>comprehensive form, premises<br>operations, products/completed<br>operations, broad form property<br>damage, independent contractors,<br>contractual, personal injury,<br>explosion/collapse and underground<br>hazard | Bodily Injury:<br>\$5,000,000 each occurrence<br>\$10,000,000 aggregate<br>Property Damage:<br>\$5,000,000 each occurrence<br>Personal Injury:<br>\$5,000,000 each occurrence<br>\$10,000,000 aggregate |
| Workers' Compensation                                                                                                                                                                                                                                                                 | Statutory                                                                                                                                                                                               |
| Automobile Liability                                                                                                                                                                                                                                                                  | \$1,000,000 combined single limit                                                                                                                                                                       |

The contractor shall name the City as an additional insured and adhere to any additional insurance requirements required by the City's Risk Manager.

## **SECTION 18. APPEALS/DISPUTE RESOLUTION**

Developer may appeal any final determination by the Administrator to the City Manager and thereafter to the City Council. Prior to submitting the matter to the City Council, the City Manager may, in his/her discretion, elect to engage the services of a mediator to attempt to mediate the dispute in a non-binding fashion, not to exceed a total of thirty (30) calendar days. Any decision of the City Council shall be final with no right of further appeal or action thereafter.

## **SECTION 19. ACCEPTANCE AND CONVEYANCE OF FACILITIES**

Once Developer has completed construction of the Facilities and the Facilities are accepted and deemed satisfactory by the City, the Facilities automatically become the property of the City. Developer shall take any and all actions necessary to convey and vest full, complete and clear title in said Facilities to the City. [THIS SECTION TO BE ELIMINATED IN THE CASE OF FACILITIES THAT ARE TO BE OWNED BY OTHER JURISDICTIONS]

## **SECTION 20. LIENS, CLAIMS, AND ENCUMBRANCES**

Notwithstanding any other provision or term of this Agreement, the City shall have no obligation to apply Infrastructure Fee Credits or pay Fee Reimbursements after final acceptances for the Facilities until Developer has cleared any and all liens, claims and encumbrances from said facility, and provided the required guarantee documentation, guarantee, and assurance in writing, to the satisfaction of the City. Nothing herein shall prevent the application of Infrastructure Fee Credits prior to final acceptance of the Facilities, so long as Developer is not otherwise in breach of this Agreement and the required performance and payment bonds have been posted and have been accepted by the City.

## **SECTION 21. DELIVERY OF AS-BUILT PLANS AND SPECIFICATIONS**

Prior to acceptance of the Facilities by City, Developer shall deliver to City copies of all as-built plans (if any), specifications, operating manuals, service manuals, warranties and other documents relating to the design, construction, and operation of the Facilities described in this Agreement.

## **SECTION 22. INDEMNIFICATION**

The Developer, by execution of this Agreement, specifically agrees to assume the defense of, indemnify and hold harmless City and its elected representatives, officers, employees, agents, consultants, and volunteers (the "Indemnitees"), from and against all liabilities, actions, damages, claims, losses, or expenses of every type and description, including attorneys' and consultants' fees and expenses, (collectively, "Liabilities"), to which they may be subjected or put, by reason of or resulting from the design, construction, or installation of the Facilities, except to the extent the Liabilities arise from the sole negligence, active negligence, or willful misconduct of City and/or the Indemnitees. This indemnification shall extend to Liabilities occurring after this Agreement is terminated as well as while it is in force. Notwithstanding the foregoing, following the acceptance of the improvements by City, or if there is an applicable warranty, following the end of any applicable warranty period, the Developer shall not be obligated to indemnify the Indemnitees for Liabilities to the extent that such Liabilities arise from Indemnitees' active or passive negligence. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement. The parties intend that this provision shall be broadly construed.

## **SECTION 23. THIRD PARTY LIABILITY**

City does not assume any liability, duty or obligation to Developer's contractors, subcontractors or agents by execution or performance of this Agreement and no contractors, subcontractors, agents or any parties are third party beneficiaries of this Agreement.

## **SECTION 24. WARRANTY**

Developer hereby warrants the Facilities as to materials, design and workmanship and should any failure of the Facilities or any parts thereof occur within a period of one (1) year after final acceptance by City, Developer shall promptly cause the needed repairs to be made without any expense or cost to the City. Final acceptance shall be deemed to have occurred under this Agreement when the Facilities have been accepted by the City and may be placed into service. City shall provide written notification to Developer of final acceptance by the City.

City is hereby authorized to make repairs if Developer fails to make, or undertake with due diligence, the aforesaid repairs within twenty (20) calendar days after it is given written notice of such failure. In case of emergency, where in the opinion of the City Engineer delay may cause serious hazard to the public, the necessary repairs may be made by the City without prior notice to Developer. In all cases of failure within the warranty period where the City has taken action in accordance with this paragraph, Developer shall reimburse City for any and all costs or expenses, direct or indirect, incurred by the City.

#### **SECTION 25. BINDING ON SUCCESSORS AND ASSIGNS**

Each and every provision of this Agreement shall be binding upon and shall inure to the benefit of the respective successors and assigns of the parties hereto, in the same manner as if such parties had been expressly named herein.

#### **SECTION 26. ATTORNEY'S FEES**

If any suit, action or proceeding in law or equity is brought to enforce the provisions of this Agreement, the prevailing party shall be entitled to reasonable costs and attorneys' fees.

#### **SECTION 27. AUTHORITY TO ENTER INTO AGREEMENT**

Developer and City certify that they are legally empowered to enter into this Agreement.

#### **SECTION 28. NOTICES**

Any notices, requests, demands or other communications required or permitted to be given under this Agreement shall be in writing and shall be deemed to have been duly given on the date of service if served personally (FedEx and similar services, each of which is hereinafter called an "Express Courier," shall be considered to be personal service) or by telephone facsimile or other electronic transmission (provided that the sender of a telephone facsimile or other electronic transmission has received confirmation of successful transmission by the sending fax machine), and upon receipt, if mailed to the party to whom notice is to be given, by first-class mail, registered or certified, postage prepaid, return receipt requested, and properly addressed as follows:

(a) If to City:

City of Roseville  
Development Services, Engineering  
Attn: City Engineer

(b) If to Developer:

**[fill in notice information for Developer]**

Either party may change its mailing address at any time by giving written notice of such changes to the other party in the manner provided herein.

**SECTION 29. NOTICE OF CONTRACTORS**

Developer shall provide a copy of this Agreement to any contractors, subcontractors, or other parties performing work on the Facilities, prior to commencement of construction by said party.

**SECTION 30. TERM**

The term of this Agreement shall start on the day and year duly executed by all parties and shall remain in effect until all the terms and conditions contained in this Agreement have been satisfied.

**SECTION 31. SEVERABILITY**

If any provision of this Agreement shall be held to be invalid, illegal or unenforceable, the validity, legality and enforceability of the remaining portions hereof shall not in any way be affected or impaired thereby.

**SECTION 32. CONFLICTS**

This Agreement is intended to implement and be consistent with the requirements of Ordinance No. 4932. Therefore, in the event of any conflicts between Ordinance 4932 and this Agreement, the requirements of the Ordinance shall prevail and control.

**SECTION 33. EXHIBITS**

The Exhibits attached hereto are hereby incorporated herein by this reference. In the event of any conflict between this Agreement and its Exhibits, the provisions of this Agreement shall govern.

**SECTION 34. ENTIRE AGREEMENT**

This Agreement constitutes the entire understanding of the parties regarding the subject matter hereof. The Agreement may be amended only by writing executed by both parties.

**SECTION 35. EFFECTIVE DATE**

The City's execution of this Agreement shall be contingent upon confirmation by the City that (i) a Construction Contract has been properly bid and entered into for construction of the Facilities, (ii) performance and payment bonds have been posted in form and amount required by the City, and (iii) a Notice to Proceed has been given to the contractor for the Facilities. The date of approval by the City Council of this Agreement, based in part on the City's confirmation of the satisfaction of the foregoing conditions, shall be deemed to be the "**Effective Date**" of this Agreement. Upon execution of this Agreement by the City, the City shall insert the Effective

Date in the Preamble to this Agreement and provide a copy of this fully executed and dated Agreement to Developer.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this Agreement in duplicate by its City Manager and attestation by its City Clerk under authority of Resolution No. 18-\_\_\_\_, adopted by the Council of the City of Roseville on the \_\_\_\_ day of \_\_\_\_\_, 2018, and DEVELOPER has caused this Agreement to be executed.

ORDINANCE NO. \_\_\_\_

ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE AMENDING SECTIONS  
4.47.040, 4.47.070, 4.47.080, 4.47.090, 4.47.100, 4.47.110, 4.47.120, 4.47.130, 4.47.140 AND  
4.47.150 OF CHAPTER 4.47 OF TITLE 4 OF THE ROSEVILLE MUNICIPAL CODE  
REGARDING SIERRA VISTA SPECIFIC PLAN MITIGATION FEE

THE CITY OF ROSEVILLE ORDAINS:

SECTION 1. Section 4.47.040 of Chapter 4.47 of Title 4 of the Roseville Municipal  
Code is hereby amended to read as follows:

**4.47.040 Payment of SVSP mitigation fee.**

Except as otherwise provided by this chapter, the fee imposed pursuant to this chapter shall be paid at or prior to the issuance of any building permit within the SVSP. If a fee reimbursement is then outstanding pursuant to a fee credit and reimbursement agreement when an owner seeks to record a small-lot final map for single-family development, [the improvement fee portion of](#) the fee imposed pursuant to this chapter shall be paid at or prior to the recordation of such small-lot final map, in accordance with the Study, [and the administrative and park portion of the fee will continue to be-](#) [paid at or prior to the issuance of any building permit.](#)

Calculation of the fee shall be determined in accordance with the Study and this chapter depending upon where within the SVSP such development occurs, the type of development, and the extent of development. Descriptions of land use categories in this chapter, except as

otherwise noted in the Study or the SVSP, are utilized in the same manner as in the general plan. Portions of the specific plan planned for public facilities and for church use are exempt from the fee.

**SECTION 2.** Section 4.47.070 of Chapter 4.47 of Title 4 of the Roseville Municipal Code is hereby amended to read as follows:

**4.47.070 SVSP mitigation fee—CG Barbaccia Trust.**

The fee in that portion of the SVSP which is in the CG Barbaccia Trust owner subarea shall be:

| Fee                                         | Source    | Residential     |                 |                 |                 | Nonresidential     |                    |                    |
|---------------------------------------------|-----------|-----------------|-----------------|-----------------|-----------------|--------------------|--------------------|--------------------|
|                                             |           | LDR             | MDR             | HDR             | MU<br>[1]       | CC<br>[1]          | BP<br>[1]          | MU<br>[1]          |

RESOLUTION NO. 18-222

APPROVING A FORM OF INFRASTRUCTURE FEE CREDIT/FEE REIMBURSEMENT AGREEMENT, AUTHORIZING THE ACTING CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE AND AUTHORIZING THE CITY ATTORNEY TO MODIFY THE FORM AS NECESSARY

WHEREAS, on April 20, 2011, the Council approved an Ordinance to add Chapter 4.47 to Title 4 of the Roseville Municipal Code relating to the Sierra Vista Specific Plan (SVSP) Mitigation Fee; and

WHEREAS, this fee program provides City oversight of a private developer fee agreement intended to equitably share the costs of the infrastructure and public land dedications within the specific plan area; and

WHEREAS, in an effort to streamline the implementation of the fee program process, staff is seeking Council approval to allow staff the authority to accept and process the Infrastructure Fee Credit/Fee Reimbursement Agreements, the City Manager the authority to execute said form agreements, and to provide the City Attorney the authority to modify the form as necessary to conform to any new legal requirements or for project specific reasons.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Roseville as follows:

1. The standard form Infrastructure Fee Credit/Fee Reimbursement Agreement for the SVSP, attached to the staff report as Exhibit A is hereby approved; and
2. The City Manager may execute the form Infrastructure Fee Credit/Fee Reimbursement Agreements on behalf of the City of Roseville; and
3. The City Attorney is hereby authorized to modify the form as necessary to conform to any new legal requirements or for project specific reasons.

This Credit/Reimbursement Agreement (the "Agreement") is entered into by and between the City of Roseville, a municipal corporation, (hereinafter the "City") and **[list developer here, including form of entity]**, and/or its successors in interest, (hereinafter the "Developer") as of the \_\_\_\_ day of \_\_\_\_\_ 20\_\_ (the "**Effective Date**").

**RECITALS**

**WHEREAS**, Developer is the underlying owner of or has legal interest in certain real property under development within the City of Roseville, known as the **[list name of development]** (the "Project") located within the Sierra Vista Specific Plan ("SVSP"), as shown in Figure "A," attached hereto and incorporated herein by this reference; and

**WHEREAS**, Developer will be developing the Project, including all necessary backbone infrastructure that will serve the Project; and

**WHEREAS**, on April 20, 2011, the City Council of the City of Roseville adopted Ordinance No. 4932 which added Chapter 4.47 to Title 4 of the Roseville Municipal Code relating to the Sierra Vista Infrastructure Fee Program (the "SV Fee Program"); implemented fees to pay for a variety of public lands and public facilities (the "SV Fees"); and set forth policies associated with Infrastructure Fee Credits (as defined below) and Fee Reimbursements (as defined below) within the Sierra Vista Specific Plan ("SVSP") area. The SV Fee related to the construction of the Facilities (as defined below) is referred to herein as the "SV Infrastructure Fee"; and

**WHEREAS**, pursuant to the applicable Development Agreement ("DA") for the SVSP, Developer is required, as a condition of development of the Project, to construct or cause to be constructed those SV Fee Program eligible facilities and improvements shown on Exhibit "A" and described in Exhibit "B" attached hereto, which are included within the City approved improvement plans titled **[list Name of Improvement Plan Set]**, dated **[list Date of Improvement Plan Set]** (hereinafter the "Facilities"); and

**WHEREAS**, Developer has entered into a contract with (***name of Contractor***) for construction of the Facilities (the "Construction Contract"); and

**WHEREAS**, the total cost of the design and construction of the Facilities as estimated using current prevailing wages and in accordance with the Improvement Plans is estimated as approximately \_\_\_\_\_ (\$\_\_\_\_\_) ("Facility Improvement Costs"), as more particularly set out in the estimation of costs ("Estimated Eligible Facility Costs"), Exhibit "C," attached hereto and incorporated herein by this reference; and

**WHEREAS,** City and Developer desire to enter into an agreement to provide for allowable Infrastructure Fee Credits and/or Fee Reimbursements by the City to Developer for certain costs of design and construction of the Facilities; and

**WHEREAS,** this Agreement will not apportion the Infrastructure Fee Credits granted herein to any particular real property. Such apportionment shall be accomplished at Developer's discretion as described herein;

**NOW, THEREFORE,** in consideration of the mutual promises contained herein, City and Developer agree as follows:

## **SECTION 1. DEFINITIONS**

All capitalized terms used herein, including, but not limited to the definition of the "Administrator", shall have the meaning described thereto in the Ordinance.

## **SECTION 2. CONSTRUCTION OF FACILITIES**

Developer shall cause the construction of the Facilities in accordance with the plans and specifications accepted by City staff, and in accordance with City improvement standards and this Agreement. Developer understands and acknowledges that the terms and conditions contained in any contract that Developer has or may execute with any contractors or material suppliers regarding the construction of the Facilities have no force or effect upon this Agreement.

## **SECTION 3. PERMITS**

Developer shall be responsible for obtaining all necessary permits.

## **SECTION 4. PRIOR TO COMMENCEMENT OF WORK**

Prior to commencement of work on the Project, Developer shall comply with the following: (1) obtain pre-approval from City of Developer's construction documents; (2) cause its contractor to obtain an encroachment permit from City prior to commencement of construction activities in City's right of way (and adjacent thereto); and (3) cause its contractor to provide insurance and related documentation to City in accordance with Section 17 of this Agreement.

## **SECTION 5. BONDS**

Prior to commencement of work on the Project, Developer shall post, or cause its contractor to post, performance and payment bonds for the Facilities in favor of the City in an amount and form acceptable to the City. City acknowledges that performance and payment bonds posted and accepted by the City in connection with any community facilities district acquisition agreement with Developer for the Facilities will be acceptable to the City for this Agreement as well. In addition, prior to City acceptance of the completed Facilities, Developer shall post, or cause its contractor to post, a warranty bond in the amount of ten percent (10%) of the Facility Improvement Costs.

## **SECTION 6. REIMBURSEMENT/CREDIT OF THE COSTS FOR FACILITIES**

In consideration of the satisfactory completion of the Facilities as specified in Exhibits "A" through "C," City shall reimburse or credit Developer for the Facility Improvement Costs, with funds collected within the SVSP Infrastructure Mitigation Fee account, in accordance with the

terms hereof (the "Reimbursable Costs"). City and Developer acknowledge that the actual Reimbursable Costs may vary from the estimated costs, depending upon the actual costs of constructing and installing the Facilities. Any variation in costs shall be agreed to and/or resolved by the parties as provided in Section 18 below.

The Reimbursable Costs shall include the contract bid amount for the Facilities as reflected on Exhibit "C" and reasonable change orders, as approved by the City.

## **SECTION 7. ALLOWABLE FEE CREDIT/REIMBURSEMENT**

In consideration of the satisfactory completion of the Facilities as specified in Exhibits "A" through "C," the City shall credit/reimburse the Developer for all amounts spent, or authorized to be spent, in connection with the planning, financing, acquisition and development of the Facilities, based upon the Eligible Hard Costs thereof, as approved by the Administrator in consultation with the City Engineer, plus an allowance for Soft Costs equal to twenty percent (20%) of the Eligible Hard Costs. The Infrastructure Fee Credits hereunder shall be available upon full execution of this Agreement and the posting of the performance and payment bonds, or other acceptable security, required above. Fee Reimbursements for the Facilities shall be payable to Developer only after satisfactory completion thereof by Developer and City acceptance thereof.

"Hard Costs" shall consist of the costs of (i) construction of the Facilities, based on the price included in the Construction Contract for the construction of the Facilities, and (ii) traffic control, staging and storm water pollution prevention implementation measures (i.e., structural BMPs) related to such construction. Hard Costs shall include the costs of any changes in scope or standards required by the City during the course of construction thereof that are added to the Construction Contract. Hard Costs shall also include the cost for any materials that exceeded the minimum specifications required by the City, so long as the bid for the contract clearly describes the allowed minimum specification. "Eligible Hard Costs" means all of the Hard Costs incurred by the Developer to construct the Facilities, except to the extent the Administrator excludes costs found to be commercially unreasonable. "Soft Costs" include the costs of storm water pollution prevention monitoring & management (i.e., non-structural BMPs), engineering, inspection, testing, surveying and bonding related to the construction of the Facilities; in consideration of the foregoing 20% allowance for Soft Costs based on the Eligible Hard Costs, Developer shall not be obligated to provide contracts, invoices or any other form of documentation to substantiate the actual amount of Soft Costs incurred, nor shall Developer be allowed to request a greater amount due to actual Soft Costs exceeding this fixed-percentage allowance. The amount of such Infrastructure Fee Credits, subject to the limitation set forth in Section 8 below, and subject to the final "true up" as described in Section 10 below, shall be set forth on Exhibit "D" upon execution of this Agreement.

In the event of any disagreement between the Developer and the City on the initial calculation of these Infrastructure Fee Credits, if all other conditions to the entry of this Agreement have been satisfied, the Developer may elect to enter this Agreement without having the amount of Infrastructure Fee Credits resolved and listed on Exhibit "D" (or having only the undisputed amount listed thereon). In such case, Developer's right to use any Infrastructure Fee Credits (or disputed amount) hereunder will be deferred until such disagreement is resolved by the Developer and Administrator. The parties shall meet and confer to resolve any such dispute within sixty (60) calendar days of the entry of this Agreement pursuant to Section 18 below. Pending the resolution of any such dispute, the Project will pay any and all required SV Infrastructure Fees (except as may be offset by Infrastructure Fee Credits assigned thereto pursuant to other fee credit agreements) and Developer may request

that the City retain any SV Infrastructure Fees paid by the Project after the Effective Date of this Agreement for potential refund upon resolution of such Infrastructure Fee Credit dispute. The amount of SV Infrastructure Fees that may be retained pending resolution of any Infrastructure Fee Credit dispute shall not exceed the maximum amount of Infrastructure Fee Credits that could be allocated to Developer hereunder, as may be limited by Section 8 below. Upon resolution of any Infrastructure Fee Credit dispute, the amount of Infrastructure Fee Credits allowed hereunder, as may be limited by Section 8, shall be completed on Exhibit "D." Developer shall then have fifteen (15) calendar days after receipt of the completed Exhibit "D" to retroactively apply such Infrastructure Fee Credits to the Project and obtain an equivalent refund of SV Infrastructure Fees that were collected and retained from the Project after the effective date of this Agreement pending the resolution of the Infrastructure Fee Credit dispute. If Developer does not elect within such time to have any of the Infrastructure Fee Credits applied to the Project in order to receive an equivalent refund of SV Infrastructure Fees, then the SV Infrastructure Fees previously collected and retained from the Project shall be deposited into the SV Fee Program and no longer restrained by this Agreement.

#### **SECTION 8. LIMITATION ON AND ANNUAL ADJUSTMENTS TO INFRASTRUCTURE FEE CREDITS**

Notwithstanding Section 7 above, the amount of fee credits granted to Developer pursuant to this Agreement (the "Infrastructure Fee Credits") shall not exceed the amount of SV Infrastructure Fees due from the Developer arising out of the Project based upon the approved small lot tentative subdivision map for the Project (the "SV Infrastructure Fee Obligation"). If the amount of Infrastructure Fee Credit/Fee Reimbursement from Section 7, when aggregated with any Infrastructure Fee Credits previously issued to Developer pursuant to any other fee credit agreements, exceeds the SV Infrastructure Fee Obligation of the Developer for the Project, the remaining balance shall be paid as a reimbursement to Developer pursuant to the procedures set forth in Section 9 below (the "Fee Reimbursement").

City and Developer agree that the amount of Infrastructure Fee Credits granted to Developer hereunder, and the amount of the Fee Reimbursement owed to Developer hereunder, if any, shall be as set forth on Exhibit "D" hereto and made a part hereof, subject to the final "true up" as described in Section 10 hereof. As provided in the SV Fee Program, on each Annual Adjustment Date after the Effective Date, the amount of the Infrastructure Fee Credits shall be adjusted, up or down, by the annual change in the Engineering News Record Construction Cost Index or comparable index (the "CCI"), provided any such downward adjustment shall not go below the actual cost of the Facilities, as approved by the City. If the Effective Date of this Agreement occurs in June of any calendar year, then such CCI adjustment shall not be made until the Annual Adjustment Date for the following calendar year.

No fee credits shall be available for the Administrative Fee and the City Park Land Fee and such fees shall be due and payable at such time as the Developer, or its successors or assigns, are issued building permits.

#### **SECTION 9. FEE REIMBURSEMENTS**

If, pursuant to Section 8 above, Developer is owed a Fee Reimbursement for any costs of the Facilities, the priority of payment of such Fee Reimbursement shall be on a "First-in, First-out" basis ("FIFO") as described in the SV Fee Program. Such Fee Reimbursement shall be paid to Developer when the Facilities are complete and accepted for ownership by the City ("Completion").

The Fee Reimbursement, if any, shall be paid by the City as fee revenues are collected within the SV Fee Program area. After Completion of the Facilities, such payments shall be made by the City at least quarterly throughout the year as funds become available. Prior to such Completion, if the Fee Reimbursement hereunder is eligible for payment on a FIFO basis subject only to Completion of the Facilities (including acceptance thereof by the City), then fee revenues collected within the SV Fee Program area, up to the outstanding amount of the Fee Reimbursement, shall be held by the City in reserve for payment of the Fee Reimbursement pending Completion of the Facilities.

In accordance with the SV Fee Program, any Fee Reimbursement shall accrue interest thereon at the simple rate of Four Percent (4%) per annum, commencing as of the Effective Date of this Agreement and continuing until the Fee Reimbursement is paid in full. The amount of such accrued interest shall be adjusted in accordance with any adjustment to the amount of the Fee Reimbursement pursuant to the "true up" provisions of Section 10 below. Payments of the Fee Reimbursement shall be credited first against accrued interest, and then against the principal amount of the Fee Reimbursement.

The obligation arising from this Agreement is not a debt of the City, nor a legal or equitable pledge, charge, lien, or encumbrance, upon any of its property, or upon any of its income, receipts, or revenues, and is payable only from the SV Infrastructure Fees deposited in the SV Fee Program.

#### **SECTION 10. "TRUE UP" OF INFRASTRUCTURE FEE CREDIT/FEE REIMBURSEMENT**

Upon Completion of the Facilities, the final determination of actual Eligible Hard Costs upon which Infrastructure Fee Credit/Fee Reimbursement amounts are based shall be determined by the Administrator, in consultation with the City Engineer, based on documentation thereof provided by Developer to the Administrator's and City Engineer's reasonable satisfaction. For construction change orders to be given consideration for Fee Reimbursement, the Developer must:

- Present the change order request and estimated cost along with supporting information to City upon Completion of the Facilities.
- Fully document any work performed under a change order to verify all associated costs.

Failure to comply with any of these procedures may result in the ineligibility of the requested change order for Infrastructure Fee Credit/Fee Reimbursement.

In order to secure final Infrastructure Fee Credit and/or commitment for Fee Reimbursement, Developer shall provide the following items to the Administrator upon Completion of the Facilities in order for the City to determine the actual Eligible Hard Costs incurred by Developer for the Facilities that qualify for Infrastructure Fee Credits/Fee Reimbursement:

(1) Copies of the original Construction Contract and any change orders that have been agreed to by the Developer, contractor, and the City. The portion of each change order associated with the Facilities must be itemized separately;

(2) Copies of all invoices and certified payroll records, with unconditional lien releases, submitted by the contractor;

- (3) Copies of all checks issued by the Developer with related invoices indicated;
- (4) A summary tabulation of all contractor invoices and Developer payments;
- and

If, when the final reconciliation of Eligible Hard Costs for the Facilities is conducted by the Administrator, the actual Eligible Hard Costs for the Facilities, together with the 20% allowance for Soft Costs, exceeds the amount of Infrastructure Fee Credits/Fee Reimbursements initially provided hereunder, the Administrator shall review items (1) through (4) above and determine if the actual Eligible Hard Costs that will serve as the basis for determination of the amount of the Infrastructure Fee Credits/Fee Reimbursements due or owed to the Developer should be increased above the amount described in Exhibit "D" of this Agreement. The Administrator, in consultation with the City Engineer, shall determine how much of the actual construction costs should be included in any increase to the Eligible Hard Costs.

If the final reconciliation determines that total Eligible Hard Costs of the Facilities, together with the 20% allowance for Soft Costs, is less than the amount of Infrastructure Fee Credits/Fee Reimbursements initially provided hereunder, the Administrator shall notify the City that the Developer is required to first reduce the amount of any Fee Reimbursement and then relinquish the amount of the unused Infrastructure Fee Credits comprising any remaining difference. If and to the extent any Infrastructure Fee Credits have been used in excess of such adjustment, Developer, or Developer's assigns, shall repay such excess in cash, within thirty (30) calendar days of receipt of notice from the Administrator of the amount to be repaid.

#### **SECTION 11. APPLICATION OF INFRASTRUCTURE FEE CREDITS**

Infrastructure Fee Credits provided pursuant to this Agreement are personal to Developer and are not limited to the Project. Infrastructure Fee Credits may be applied by Developer to any property located in the SVSP, upon request of the Developer, in accordance with the form attached hereto as Exhibit "E." Such Infrastructure Fee Credits shall only apply to the SV Infrastructure Fees within the SV Fee Program.

#### **SECTION 12. DISCLOSURE RE TIMING OF PAYMENT OF INFRASTRUCTURE FEES**

As of the Effective Date of this Agreement, there [\_\_\_\_\_] ARE [\_\_\_\_\_] ARE NO] *[check applicable blank]* outstanding fee reimbursements ("**Outstanding Fee Reimbursements**") payable to other developers under other fee credit/fee reimbursement agreements with the City for improvements within the SVSP. Accordingly, if the final small lot subdivision map for the Project (the "**Final Project Map**") is being recorded as of the Effective Date of this Agreement, Developer acknowledges that:

- \_\_\_\_\_ Because there are Outstanding Fee Reimbursements, the Infrastructure Fees for the Project will need to be paid for all the lots within the Project upon recordation of the Final Project Map.
- \_\_\_\_\_ Because there are no Outstanding Fee Reimbursements, the Infrastructure Fees for the Project will not be required to be paid upon recordation of the Final Project Map, but will be required to be paid upon issuance of each building permit for the lots within the Project.

If the Final Project Map is not being recorded as of the Effective Date, then the timing for payment of the SV Infrastructure Fees for the Project may be contingent on whether

\\Rosenet\Rosenetdfs\City Attorney\Cycom\Wpdocs\D014\P003\00034116.doc: 5/8/18]

Outstanding Fee Reimbursements exist as of the recordation of the Final Project Map. The amount of such SV Infrastructure Fees to be paid by Developer may be reduced by Developer's election to apply Infrastructure Fee Credits against such SV Fees in accordance with Section 11 above.

### **SECTION 13. TRANSFER OF INFRASTRUCTURE FEE CREDITS/FEE REIMBURSEMENTS**

Infrastructure Fee Credits/Fee Reimbursements granted to Developer pursuant to this Agreement may be transferred to other owners, builders, or developers. To effect such a transfer, Developer shall submit a completed form to the Administrator and the City in substantially the same format as set forth in Exhibit "F" that will (i) reference this Agreement; (ii) identify the Developer and assignee if Infrastructure Fee Credits or Fee Reimbursements are being assigned to a builder or other party; and (iii) identify the Infrastructure Fee Credit or Fee Reimbursement balance before and after the transfer. The form must be signed by the Developer, its Assignee, and the Administrator, and an executed copy of the form shall be kept on file. The parties acknowledge that, except in the limited case where a Fee Reimbursement is in first priority for payment, Fee Reimbursements generally may not be converted to be used as Infrastructure Fee Credits by the Assignee of such Fee Reimbursements.

### **SECTION 14. INSPECTION**

City shall, at all times, upon reasonable advance notice, have access to the construction site during construction of the Facilities and Developer shall furnish City with all reasonable information necessary for ascertaining full knowledge of the Facilities with respect to the progress, workmanship, and character of materials and equipment used and employed in the work.

Whenever the contractors retained by Developer vary the normal period during which work or any portion of it is carried out on each day, Developer shall give timely notice to the City so that the City's representative may, if he or she wishes, be present to observe the work in progress. If Developer fails to give such timely notice, any work done in the absence of the City representative will be subject to rejection. Developer shall give timely notice to the City in advance of backfilling or otherwise covering any part of the work so that the City's representative may, if he or she wishes, observe the work before it is concealed.

Observation of the work by the City shall not relieve Developer of any of its obligations to complete construction in accordance with the plans and specifications approved by the City Engineer.

### **SECTION 15. PREVAILING WAGES**

Pursuant to the provisions of Articles 1 and 2 of Chapter 1, Part 7, Division II of the Labor Code of the State of California, not less than the general prevailing rate of per diem wages, and not less than the general prevailing rate of per diem wages for holidays and overtime work, for each craft, classification or type of worker needed to execute the work contemplated under this Agreement shall be paid to all workers, laborers, and mechanics employed in the execution of said work by Developer's contractor, or by any subcontractor doing or contracting to do any part of said work. The appropriate determination of the Director of the California Department of Industrial Relations is filed with, and available for inspection at the office of, the City Clerk.

Developer shall require its contractor to post, at each jobsite, a copy of such prevailing rate of per diem wages as determined by the Director of the California Department of Industrial Relations.

## **SECTION 16. CONTRACTOR REGISTRATION**

No contractor or subcontractor may be listed on a bid proposal for construction of the Facilities or work on construction of the Facilities unless registered with the Department of Industrial Relations pursuant to Labor Code Section 1725.5. Developer shall be responsible for ensuring that these contractor registration requirements are adhered to.

## **SECTION 17. INSURANCE**

Developer shall require its contractor to carry and maintain during the life of this Agreement, commercial general liability, property damage and contractual liability, auto, Workers' Compensation and Builders' Risk Insurance as follows:

| <u>POLICY</u>                                                                                                                                                                                                                                                                         | <u>LIMITS OF LIABILITY</u>                                                                                                                                                                              |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Commercial General Liability,<br>Including endorsements for<br>comprehensive form, premises<br>operations, products/completed<br>operations, broad form property<br>damage, independent contractors,<br>contractual, personal injury,<br>explosion/collapse and underground<br>hazard | Bodily Injury:<br>\$5,000,000 each occurrence<br>\$10,000,000 aggregate<br>Property Damage:<br>\$5,000,000 each occurrence<br>Personal Injury:<br>\$5,000,000 each occurrence<br>\$10,000,000 aggregate |
| Workers' Compensation                                                                                                                                                                                                                                                                 | Statutory                                                                                                                                                                                               |
| Automobile Liability                                                                                                                                                                                                                                                                  | \$1,000,000 combined single limit                                                                                                                                                                       |

The contractor shall name the City as an additional insured and adhere to any additional insurance requirements required by the City's Risk Manager.

## **SECTION 18. APPEALS/DISPUTE RESOLUTION**

Developer may appeal any final determination by the Administrator to the City Manager and thereafter to the City Council. Prior to submitting the matter to the City Council, the City Manager may, in his/her discretion, elect to engage the services of a mediator to attempt to mediate the dispute in a non-binding fashion, not to exceed a total of thirty (30) calendar days. Any decision of the City Council shall be final with no right of further appeal or action thereafter.

## **SECTION 19. ACCEPTANCE AND CONVEYANCE OF FACILITIES**

Once Developer has completed construction of the Facilities and the Facilities are accepted and deemed satisfactory by the City, the Facilities automatically become the property of the City. Developer shall take any and all actions necessary to convey and vest full, complete and clear title in said Facilities to the City. [THIS SECTION TO BE ELIMINATED IN THE CASE OF FACILITIES THAT ARE TO BE OWNED BY OTHER JURISDICTIONS]

## **SECTION 20. LIENS, CLAIMS, AND ENCUMBRANCES**

Notwithstanding any other provision or term of this Agreement, the City shall have no obligation to apply Infrastructure Fee Credits or pay Fee Reimbursements after final acceptances for the Facilities until Developer has cleared any and all liens, claims and encumbrances from said facility, and provided the required guarantee documentation, guarantee, and assurance in writing, to the satisfaction of the City. Nothing herein shall prevent the application of Infrastructure Fee Credits prior to final acceptance of the Facilities, so long as Developer is not otherwise in breach of this Agreement and the required performance and payment bonds have been posted and have been accepted by the City.

## **SECTION 21. DELIVERY OF AS-BUILT PLANS AND SPECIFICATIONS**

Prior to acceptance of the Facilities by City, Developer shall deliver to City copies of all as-built plans (if any), specifications, operating manuals, service manuals, warranties and other documents relating to the design, construction, and operation of the Facilities described in this Agreement.

## **SECTION 22. INDEMNIFICATION**

The Developer, by execution of this Agreement, specifically agrees to assume the defense of, indemnify and hold harmless City and its elected representatives, officers, employees, agents, consultants, and volunteers (the "Indemnitees"), from and against all liabilities, actions, damages, claims, losses, or expenses of every type and description, including attorneys' and consultants' fees and expenses, (collectively, "Liabilities"), to which they may be subjected or put, by reason of or resulting from the design, construction, or installation of the Facilities, except to the extent the Liabilities arise from the sole negligence, active negligence, or willful misconduct of City and/or the Indemnitees. This indemnification shall extend to Liabilities occurring after this Agreement is terminated as well as while it is in force. Notwithstanding the foregoing, following the acceptance of the improvements by City, or if there is an applicable warranty, following the end of any applicable warranty period, the Developer shall not be obligated to indemnify the Indemnitees for Liabilities to the extent that such Liabilities arise from Indemnitees' active or passive negligence. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement. The parties intend that this provision shall be broadly construed.

## **SECTION 23. THIRD PARTY LIABILITY**

City does not assume any liability, duty or obligation to Developer's contractors, subcontractors or agents by execution or performance of this Agreement and no contractors, subcontractors, agents or any parties are third party beneficiaries of this Agreement.

## **SECTION 24. WARRANTY**

Developer hereby warrants the Facilities as to materials, design and workmanship and should any failure of the Facilities or any parts thereof occur within a period of one (1) year after final acceptance by City, Developer shall promptly cause the needed repairs to be made without any expense or cost to the City. Final acceptance shall be deemed to have occurred under this Agreement when the Facilities have been accepted by the City and may be placed into service. City shall provide written notification to Developer of final acceptance by the City.

City is hereby authorized to make repairs if Developer fails to make, or undertake with due diligence, the aforesaid repairs within twenty (20) calendar days after it is given written notice of such failure. In case of emergency, where in the opinion of the City Engineer delay may cause serious hazard to the public, the necessary repairs may be made by the City without prior notice to Developer. In all cases of failure within the warranty period where the City has taken action in accordance with this paragraph, Developer shall reimburse City for any and all costs or expenses, direct or indirect, incurred by the City.

#### **SECTION 25. BINDING ON SUCCESSORS AND ASSIGNS**

Each and every provision of this Agreement shall be binding upon and shall inure to the benefit of the respective successors and assigns of the parties hereto, in the same manner as if such parties had been expressly named herein.

#### **SECTION 26. ATTORNEY'S FEES**

If any suit, action or proceeding in law or equity is brought to enforce the provisions of this Agreement, the prevailing party shall be entitled to reasonable costs and attorneys' fees.

#### **SECTION 27. AUTHORITY TO ENTER INTO AGREEMENT**

Developer and City certify that they are legally empowered to enter into this Agreement.

#### **SECTION 28. NOTICES**

Any notices, requests, demands or other communications required or permitted to be given under this Agreement shall be in writing and shall be deemed to have been duly given on the date of service if served personally (FedEx and similar services, each of which is hereinafter called an "Express Courier," shall be considered to be personal service) or by telephone facsimile or other electronic transmission (provided that the sender of a telephone facsimile or other electronic transmission has received confirmation of successful transmission by the sending fax machine), and upon receipt, if mailed to the party to whom notice is to be given, by first-class mail, registered or certified, postage prepaid, return receipt requested, and properly addressed as follows:

Either party may change its mailing address at any time by giving written notice of such changes to the other party in the manner provided herein.

**SECTION 29. NOTICE OF CONTRACTORS**

Developer shall provide a copy of this Agreement to any contractors, subcontractors, or other parties performing work on the Facilities, prior to commencement of construction by said party.

**SECTION 30. TERM**

The term of this Agreement shall start on the day and year duly executed by all parties and shall remain in effect until all the terms and conditions contained in this Agreement have been satisfied.

**SECTION 31. SEVERABILITY**

If any provision of this Agreement shall be held to be invalid, illegal or unenforceable, the validity, legality and enforceability of the remaining portions hereof shall not in any way be affected or impaired thereby.

**SECTION 32. CONFLICTS**

This Agreement is intended to implement and be consistent with the requirements of Ordinance No. 4932. Therefore, in the event of any conflicts between Ordinance 4932 and this Agreement, the requirements of the Ordinance shall prevail and control.

**SECTION 33. EXHIBITS**

The Exhibits attached hereto are hereby incorporated herein by this reference. In the event of any conflict between this Agreement and its Exhibits, the provisions of this Agreement shall govern.

**SECTION 34. ENTIRE AGREEMENT**

This Agreement constitutes the entire understanding of the parties regarding the subject matter hereof. The Agreement may be amended only by writing executed by both parties.

**SECTION 35. EFFECTIVE DATE**

The City's execution of this Agreement shall be contingent upon confirmation by the City that (i) a Construction Contract has been properly bid and entered into for construction of the Facilities, (ii) performance and payment bonds have been posted in form and amount required by the City, and (iii) a Notice to Proceed has been given to the contractor for the Facilities. The date of approval by the City Council of this Agreement, based in part on the City's confirmation of the satisfaction of the foregoing conditions, shall be deemed to be the "**Effective Date**" of this Agreement. Upon execution of this Agreement by the City, the City shall insert the Effective

Date in the Preamble to this Agreement and provide a copy of this fully executed and dated Agreement to Developer.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this Agreement in duplicate by its City Manager and attestation by its City Clerk under authority of Resolution No. 18-\_\_\_\_, adopted by the Council of the City of Roseville on the \_\_\_\_ day of \_\_\_\_\_, 2018, and DEVELOPER has caused this Agreement to be executed.

## COUNCIL COMMUNICATION

**CC #: 9297**

**File #: 0400-08 & 401-02-02**

**Title:** Roseville Junction Crossing Project - Appeal of Planning Commission Decision

**Contact:** Gina McColl 916-774-5452 gmccoll@roseville.ca.us

**Meeting Date: 6/6/2018**

**Item #: 9.1.**

### RECOMMENDATION TO COUNCIL

Staff recommends the City Council deny the appeal of the Planning Commission's approval of the Roseville Junction Crossing project, and adopt the two (2) findings of fact and approve the Minor Design Review Permit (MDRP) subject to one hundred and six (106) conditions of approval and adopt the three (3) findings of fact and approve the Tentative Subdivision Map subject to thirty five (35) conditions of approval. This recommendation is made because the Project is a principally permitted use and the appropriate findings for a MDRP and Tentative Subdivision Map can be made.

A Resolution which embodies the above recommendations is attached for Council approval.

### BACKGROUND

At the April 26, 2018, Planning Commission hearing, the Planning Commission unanimously approved (5 aye, 0 nay, 2 absent) a Minor Design Review Permit (MDRP) and Tentative Subdivision Map to allow development of the Roseville Junction Crossing project, which includes a four-story, approximately 80,460 square foot, 80-unit affordable multi-family residential building, with associated parking and site improvements. The Planning Commission staff report is attached to provide background information and an evaluation of the requested MDRP and map entitlements. In summary, the staff report concludes that the proposed project is principally permitted on the project site and complies with the goals, policies, and regulations of the General Plan, Downtown Specific Plan (DTSP), Downtown Code, and Subdivision Ordinance.

Following the Planning Commission's approval of the project, on May 3, 2018, Richard Ryan, acting individually and on behalf of the Historic Roseville Preservation Association, filed an appeal of the Planning Commission's approval based on concerns that the lack of a public parking garage as part of the project is a burden to the existing businesses within Historic Old Town, and that the project constitutes a significant change to the DTSP. The appeal is now before the City Council, and based on the Planning Commission's approval and findings, staff recommends that the City Council deny the appeal and uphold the Planning Commission's action.

As background for Council, the project site is located at 120 Pacific Street in the Old Town Commercial (DT-4) District within the DTSP area. The DTSP identifies the property as a catalyst

site and, via the Downtown Code, includes a Pre-Design Plan for the site. The proposed project, as described above, deviates from the Pre-Design Plan. The DTSP and Downtown Code require the approval of a MDRP entitlement for projects that deviate from a Pre-Design Plan.

Based on the summary provided above and the analysis provided in the Planning Commission staff report, the following section provides responses to the concerns raised at the Planning Commission hearing and noted within the appeal letter dated April 27, 2018.

### **Issues Raised at Planning Commission hearing:**

- During the public comment portion of the Planning Commission hearing, three members of the public spoke in favor of the project and nine members of the public spoke in opposition of the project. Those that spoke in favor of the project, supported the affordable housing the project would provide. Those opposed to the project spoke on concerns related to parking. The Planning Commission received three letters regarding the project, one in support of affordable housing, one in support of affordable housing as long as sufficient parking is provided in HOT and one in opposition to the project. A brief summary of each issue raised is provided followed by staff's response.

#### **Concerns were expressed over the loss of the existing public parking on the project site and the resultant burden on Old Town business**

The project will provide 86 parking spaces, 36 of which will be available for public parking and three spaces reserved for an adjacent business. The result is a loss of 11 publicly available parking spaces. As described in the Planning Commission staff report, the Historic Old Town (HOT) Parking Study concluded that there is currently 74 percent utilization of the existing 532 parking spaces during the period of peak parking demand (7 pm Friday), leaving 136 spaces available. The HOT Parking Study concluded that there is currently adequate parking in HOT and the loss of 11 spaces will not cause a significant impact on the availability of public parking.

As discussed in the Planning Commission staff report, an economic impact study was completed to determine the projects potential economic impact on HOT due to the loss of public parking. The study determined the loss of 11 parking spaces is equivalent to a loss of approximately \$59,000 in annual revenue to businesses within the district. However, that loss would be fully mitigated for by the approximately \$59,850 to \$139,790 in annual spending by the project residents.

In addition to the 36 publicly available spaces and the 3 spaces reserved for the adjacent business, the project provides 47 on-site parking spaces for residents. The project meets the parking requirements allowed by state law for an affordable housing project near transit facilities.

#### **Concerns were expressed that the Project is not consistent with the DTSP because it does not include a parking garage**

The DTSP is a policy document meant to guide development of Downtown Roseville. The DTSP includes preliminary development plans (Pre-Design Projects) for six catalyst sites in the plan area. The Pre-Design Projects are provided to incentivize development by exempting projects from the entitlement process, including design review and environmental review. The DTSP does not require Pre-Design Projects to be constructed. A project proposed for a catalyst site that is not consistent with a Pre-Design Project can be approved with a Minor Design Review Permit (MDRP) provided the project is consistent with the allowed uses, development regulations, and design guidelines contained within the Downtown Code. The Roseville Junction Crossing project is a principally permitted use within the Old Town Commercial (DT-4) District and as evaluated in the Planning Commission staff report, has been determined to be consistent with the applicable regulations and design guidelines within the Downtown Code.

Because the Pre-Design Project for the site includes a private/public parking garage, the DTSP includes the site as a location for a proposed garage. While a garage at this site is one of several

means to satisfy the future parking demand identified in the DTSP, there is no requirement that a garage be constructed at this location. The DTSP includes several strategies for meeting future parking demand, including constructing public parking garages and at-grade parking lots, constructing parking associated with new development, promoting shared parking, and creating a parking management plan for the Downtown. Eliminating the private/public parking garage that is included in the Pre-Design Project for 120 Pacific Street does not require an amendment to the DTSP.

**The HOT Parking Study is not reflective of current demand**

The data for the HOT Parking Study was completed in late April and early May of 2017. Fehr & Peers evaluated the data and submitted the parking study findings in a memorandum (identified as the HOT Parking Study) on September 26, 2017. The City Council was presented with the Study on October 10, 2017. No new development projects have been added to the area since this time. Any new business that have since occupied existing buildings in the district, are assumed to be permitted and therefore within the existing parking demand assumptions.

**Issues Raised in the Appeal letter**

The issues raised in the appeal letter (attached) are summarized below followed by staff's response.

**Eliminating the parking garage on the project site will burden existing business and impede future development.**

As mentioned above, an economic analysis found the project would have a positive economic impact on existing businesses within HOT. All future development projects are required to provide parking per the standards of the Downtown Code. The City Council previously reviewed the HOT Parking Study and provided feedback in support of alternative parking supply options that would not rely on a public parking garage on the Roseville Junction Crossing project site.

**Removal of the parking garage is a change to the specific plan that shall be reviewed through the Specific Plan amendment procedure (i.e. public notice and City Council hearing)**

As described above, the Roseville Junction Crossing project does not require an amendment to the DTSP.

**The DTSP EIR requires the City provide 580 additional parking spaces, including with the parking garage on the project site.**

A mitigation measure of the DTSP EIR does require that the City provide an additional 580 parking spaces to support the plan at build out. Plan built out for the DTSP will include 4.4 million square feet of development and 1,020 residential units within the Downtown. The mitigation measure did not specify any particular location for the provision of these parking spaces. The City has already constructed 150 parking spaces in HOT (at the intersection of Main Street and Lincoln Street) and 429 parking spaces will soon be available in the Oak Street parking garage. The City also constructed 48 parking spaces as part of the HOT Streetscape and Infrastructure project located behind the Boxing Donkey and adjacent to the train tracks). Construction of these spaces will augment the parking needed to support the DTSP at buildout, and satisfies the requirements of the DTSP EIR Mitigation Measure.

Additional opportunities to provide public parking have been identified in the HOT Parking Study. Locations for additional parking include the Train Station parking lot, several on-street locations,

and on the Union Pacific Railroad property to the east of the Old Town business district. The City is continuing to explore providing public parking at these locations. Nevertheless, such public parking is not necessitated in the short term by construction of the Junction Crossing Project.

## FISCAL IMPACT

The project is required to pay all applicable impact fees, therefore there will be no significant fiscal impact to the City. As mentioned above, the economic impact study prepared for the project determined the loss of 11 parking spaces is equivalent to a loss of approximately \$59,000 in annual revenue to businesses within HOT. However, that loss would be fully mitigated for by the approximately \$59,850 to \$139,790 in annual spending by the project residents.

## ECONOMIC DEVELOPMENT / JOBS CREATED

This is a 100% residential project, so the majority of jobs generated from the project will be construction jobs. There will be on-site management jobs for both the tenanting of the building and on-going maintenance.

## ENVIRONMENTAL REVIEW

The project is exempt from the provisions of the California Environmental Quality Act (CEQA) per several CEQA statutory exemptions: Public Resources Code (PRC) Section 21155.4 and Government Code (GC) Section 65457 (Sustainable Communities Strategy/Specific Plans), Section 21159.21 (Housing Project Exemptions) including Section 21159.23 (Low Income) and Section 21159.24 (Infill). In addition the project is also considered categorically exempt under Section 15332 (in-fill projects) of the CEQA Guidelines and pursuant to Section 305 of the City of Roseville CEQA Implementing Procedures.

Dudek was retained to assist the City in evaluating whether the Roseville Junction Crossing project is exempt from CEQA. In a 362 page memo (see Attachment 5 of the Planning Commission Staff Report), Dudek explains the justification for the various statutory and categorical exemptions listed above. The memo considers the Sacramento Area Council of Governments (SACOG's) confirmation that the project is consistent with the Metropolitan Transportation Plan/Sustainable Communities Strategy and is located in a Transit Priority Area (see Attachment 6 of the Planning Commission Staff Report). The memo also considers the projects compliance with the DTSP and provides a list of the applicable MMP measures from the DTSP EIR. The project has been conditioned to comply with the applicable MMP measures. The memo also included a Biological and Wetland Resource Constraints Analysis and Historical Resource Analysis. The Dudek memo is provided as Attachment 5 to the Planning Commission Staff Report, but due to the size of the report, the report attachments are provided on the City's project website: <https://www.roseville.ca.us/cms/One.aspx?portalId=7964922&pageId=8774480> (select the DTSP PCL DT-4 Roseville Junction Crossing link).

Staff agrees with Dudek's evaluations and the Planning Manager has made the determination that the project is exempt from CEQA, as outlined above, and no further CEQA action is required.

Respectfully Submitted,

Gina McColl, Associate Planner

Mike Isom, Acting Development Services Director

---

Dominick Casey, Acting City Manager

Richard Ryan Appeal

Comment Letters Submitted to the Planning Commission

Conditions of Approval - April 30, 2018

RESOLUTION NO. 18-226

DENYING THE APPEAL FROM THE  
APRIL 26, 2018 APPROVAL BY THE PLANNING COMMISSION;  
ADOPTING THE TWO FINDINGS OF FACT FOR THE MINOR DESIGN REVIEW  
PERMIT; APPROVING THE MINOR DESIGN REVIEW PERMIT; ADOPTING THE  
THREE FINDINGS OF FACT FOR THE TENTATIVE SUBDIVISION MAP AND  
APPROVING THE TENTATIVE SUBDIVISION MAP

WHEREAS, on April 26, 2018, the Planning Commission held a public hearing on the Roseville Junction Crossing Project located at 120 Pacific Street; and

WHEREAS, the Roseville Junction Crossing Project is a 80,460 square-foot, 80-unit affordable multi-family residential building with associated parking and site improvements; and

WHEREAS, 120 Pacific Street is located in the Old Town Commercial Historic District (DT-4) within the Downtown Specific Plan which includes a Pre-Design Plan for the Project site; and

WHEREAS, the Roseville Junction Crossing Project deviates from the Pre-Design Plan; and

WHEREAS, the Downtown Specific Plan and the Downtown Code require approval of a Minor Design Review Permit entitlement for projects that deviate from a Pre-Design Plan; and

WHEREAS, on April 26, 2018, the Planning Commission voted 5-0 to approve a Minor Design Review Permit to allow construction of the Roseville Junction Crossing Project after finding that the project was consistent with the following two (2) Findings of Fact:

1. The project is within the Downtown Specific Plan area and is consistent with the design guidelines and regulations outlined within the Downtown Code; and
2. The proposed improvement complies with all applicable standards and requirements of the Downtown Code, with the applicable goals, policies and objectives set forth in the General Plan and the Downtown Specific Plan.

WHEREAS, on April 26, 2018, the Planning Commission also voted 5-0 to approve a Tentative Subdivision Map for the Roseville Junction Crossing Project after finding that the project was consistent with the following three (3) Findings of Fact:

1. The size, design, character, grading, location, orientation, and configuration of lots, roads and all improvements for the tentative map are consistent with the density, uses, circulation and open space systems, applicable policies and

standards of the General Plan or any applicable Specific Plan for the area, and the design standards of Title 18 (Subdivision Ordinance) of the Roseville Municipal Code.

2. The subdivision will result in lots which can be used or built upon. The subdivision will not create lots which are impractical for improvement or use due to: the steepness of terrain or location of watercourses in the area; the size or shape of the lots or inadequate building area; inadequate frontage or access; or some other physical condition of the area.
3. The design and density of the subdivision will not violate the existing requirements prescribed by the Regional Water Quality Control Board for the discharge of waste into the sewage system, Pursuant to Division 7 of the water code.

WHEREAS, following the Planning Commission's approval, Richard Ryan, acting individually and on behalf of the Historic Roseville Preservation Association, filed an appeal of the Planning Commission's approval based on concerns that the project constitutes a significant change to the Downtown Specific Plan and concerns of the lack of a public parking garage as part of the project; and

WHEREAS, the Roseville Junction Crossing Project is a principally permitted use within the Old Town Commercial Historic District (DT-4) and has been determined to be consistent with the goals, policies, and regulations of the General Plan, Downtown Specific Plan, Downtown Code, and Subdivision Ordinance; and

WHEREAS, eliminating the private/public parking garage that is included in the Pre-Design Project for 120 Pacific Street does not require an amendment to the Downtown Specific Plan; and

WHEREAS, the Project will provide forty-seven (47) on-site parking spots for residents, three (3) parking spaces reserved for the adjacent businesses, and thirty-six (36) public parking spots, which is an overall loss of eleven (11) public parking spots; and

WHEREAS, the Historic Old Town Roseville Parking Study concluded that the loss of eleven (11) public parking spots will not cause a significant impact; and

WHEREAS, staff recommends that the City Council deny the appeal of the Planning Commission's approval of the Roseville Junction Crossing Project because it is a principally permitted use and because the necessary findings of fact for a Minor Design Review Permit and a Tentative Subdivision Map can be made; and

WHEREAS, staff also recommends that the City Council adopt the two (2) Findings of Fact for the Minor Design Review Permit and approve the Minor Design Review Permit subject to one hundred six (106) conditions of approval; and

WHEREAS, staff also recommends that the City Council adopt the three (3) Findings of Fact for the Tentative Subdivision Map and approve the Tentative Subdivision Map subject to thirty-five (35) conditions of approval; and

NOW, THEREFORE, BE IT RESOLVED that the Council of the City of Roseville hereby denies the appeal of the Planning Commission's April 26, 2018 approval of the Roseville Junction Crossing Project; and

BE IT FURTHER RESOLVED that the two (2) Findings of Fact for the Minor Design Review Permit are hereby adopted and the Minor Design Review Permit is hereby approved, subject to one hundred six (106) conditions of approval dated April 30, 2018 attached to the staff report; and

BE IT FURTHER RESOLVED, that the three (3) Findings of Fact for the Tentative Subdivision Map are hereby adopted and the Tentative Subdivision Map is hereby approved, subject to thirty-five (35) conditions of approval dated April 30, 2018 attached to the staff report.

PASSED AND ADOPTED by the Council of the City of Roseville this \_\_\_\_ day of \_\_\_\_\_, 20\_\_, by the following vote on roll call:

AYES COUNCILMEMBERS:

NOES COUNCILMEMBERS:

**ITEM 6.1:**      **MINOR DESIGN REVIEW PERMIT & TENTATIVE MAP – 120 PACIFIC STREET – DTSP  
DT-4 ROSEVILLE JUNCTION CROSSING– FILE # PL16-0115 & PL18-0036**

**REQUEST**

The applicant requests approval of a Minor Design Review Permit to allow a four-story, approximately 80,460 square foot, 80-unit affordable multi-family residential building, with associated parking. A Tentative Subdivision Map is also requested to allow the merging and resubdivision of 11 parcels, totaling approximately 1.38 acres, into two parcels (Parcel 1 = 0.07 acres, Parcel 2 = 1.31 acres), with right-of-way abandonments and dedications, consistent with Government Code Section 66499.20.2.

Applicant – Ardie Zahedani, St. Anton Communities  
Property Owner – Scott Diffenbaugh, Placer Equity Loans & City of Roseville

**SUMMARY RECOMMENDATION**

The Planning Division recommends that the Planning Commission take the following actions:

- A. Adopt the two (2) findings of fact and approve the Minor Design Review Permit subject to one-hundred and six (106) conditions of approval; and
- B. Adopt the three (3) findings of fact and approve the Tentative Map subject to thirty-five (35) conditions of approval.

**SUMMARY OF OUTSTANDING ISSUES**

This project includes two entitlement requests, a Minor Design Review Permit (MDRP) and a Tentative Subdivision Map. Typically only the map requires Planning Commission action, however, a verbal request for a public hearing was received for the MDRP application from Richard Ryan, a property owner and business owner in close proximity to the project site. Because evaluation of the MDRP is reliant on the evaluation of the Tentative Map, both entitlements are before the Planning Commission for action at this time.

At time of publication of this report, no formal letters of concern have been received on the project. The applicant has hosted two neighborhood meetings on the project and at both meetings, concerns regarding the project were expressed by the attendees. The first neighborhood meeting was held on September 21, 2016, and approximately 10 property owners, business owners and/or residents were in attendance. Concerns were expressed regarding parking impacts and economic impacts to the Old Town Commercial (DT-4) area. Following the neighborhood meeting a parking study and an economic impact study were prepared to address the property and business owner's concerns. The details of the studies are described in the Background and Evaluation sections below. The second neighborhood meeting was held on April 11, 2018, and was attended by approximately 15 property and business owners. Similar to the first meeting, concerns were expressed regarding impacts to parking and the desire for additional public parking near the project site and within the DT-4 district in general. Attendees expressed the belief that the loss of parking would result in the loss of customers and the possible closure of some businesses. During this second meeting, staff made attendees aware of the parking and economic impact studies. Regardless of the studies, attendees continue to believe the project would have a negative impact on businesses within the DT-4 district and want additional parking added to the area before the Junction Crossing project is completed.

## **BACKGROUND**

### ***Project Location***

The project site is located within the City's Old Town Commercial-Historic District (DT-4 district) within the Downtown Specific Plan (DTSP) area. The project site includes 11 parcels and City right-of way, totaling approximately 1.38 acres, bound by Church Street, Pacific Street, and the Washington Boulevard undercrossing (see Figure 1). The site is currently developed with approximately 50 at-grade public parking spaces, a commercial building, a former water well building, landscape area, plaza space, and previously developed or disturbed area.

**Figure 1 - Project Location**

### ***Downtown Specific Plan***

The DTSP is the result of the City's successful Downtown Visioning Project, which began in 2005 and included a series of workshops, community meetings, and investment of over 900 citizen hours, culminating with a clear vision for the Downtown area. In February 2006, the City Council directed staff to develop a specific plan and Environmental Impact Report (EIR) to implement the Downtown Vision. A 26 member Steering Committee was formed and tasked with finalizing the vision statement for the Downtown, identifying and prioritizing needed improvements, and producing a preferred development plan for the Downtown. The Committee worked in conjunction with the Roseville Revitalization Committee (RRC) to develop a conceptual phasing and implementation plan. From discussions and input received during multiple Steering Committee and RRC meetings, staff completed the DTSP. In conjunction with the DTSP, the Downtown Code was created for the purpose of encouraging public and private investment within the plan area through a regulatory framework that is consistent with the Vision and the DTSP. Community input was received during the Downtown Visioning Project, at the Steering Committee and RRC meetings, as well as at the nine public hearings on the DTSP and Downtown Code.

The DTSP and Downtown Code were adopted by City Council on April 1, 2009. The DTSP provides the vision and policies for redevelopment, revitalization and intensification of the 176 acre core of Roseville, including Historic Old Town, Vernon Street, and Royer and Saugstad Parks. The DTSP assumed that approximately 1,020 new residential units and 4.4 million square feet of development would be added in the plan area over a 20-year period. A comprehensive Environmental Impact Report (EIR) that evaluated potential impacts from the assumed development in the DTSP area was also certified for the specific plan. Unique to the plan area, parcels within the DTSP area are subject to the design and development standards within the Downtown Code rather than the Zoning Ordinance.

The Roseville Junction Crossing project site was identified as a catalyst site in the DTSP. Catalyst sites were chosen based on location, ownership, parcel size, feasibility of development, and the ability for development to further the major objectives associated with ensuring the further success of the plan area. In order to help expedite Downtown development, pre-development plans were generated for the catalyst sites (aka Pre-Design plans). The Pre-Design plans were reviewed by various City departments and outside agencies and determined to meet the standards for development in the DTSP area. Chapter 9 of the Downtown Code provides conditions for development of the catalyst site projects.

The Pre-Design for the Roseville Junction Crossing site included a multi-level approximately 400 space parking garage (of which approximately 273 spaces would be available for public parking) wrapped by a four story approximately 90,900 square foot mixed use building. At the time the DTSP was adopted, the parking structure portion of the Pre-Design project was to be funded with Redevelopment Bond funds. With the dissolution of Redevelopment, this funding source evaporated.

The DTSP does not require a Pre-Design project be constructed; rather, the intent of the Pre-Design plans is to offer an incentive to developers by outlining a predictable review process. Modifications to the Pre-Design project and/or development of catalyst sites are reviewed through the MDRP process.

### ***DTSP Parking Study***

During preparation of the DTSP, the City's traffic consultant, Fehr & Peers, conducted a parking demand study. The parking study evaluated existing parking demand (in 2009) and anticipated demand based on the assumed ultimate development potential identified in the DTSP. The DT-4 district and the areas surrounding the 100 and 200 blocks of Vernon Street were the only locations where a parking shortfall was identified. The DTSP identified strategies for addressing these shortfalls including providing public parking lots and garages, and encouraging mixed use projects, shared parking, alternative transportation, and development of a Downtown parking management plan. The DTSP designated the plan area as a pedestrian area and the parking strategies encourage a "park once" mentality with the reduction of on-site parking requirements directing parking to public facilities. The DTSP recommends providing additional parking opportunities when the parking demand exceeds 80% of the available parking. To address a portion of the anticipated parking shortfall, the City initiated the construction of Oak Street parking garage, a 429 space multi-level parking garage adjacent to the 200 block of Vernon Street that will be completed this spring. As development continues to occur in the DTSP, projects shall provide the required parking on-site or pay in-lieu fees toward the construction of the additional public parking facilities. Projects will need to verify they do not increase the parking impacts beyond those anticipated in the DTSP.

### ***Exclusive Right to Negotiate***

As mentioned, the project site includes 11 parcels and right-of-way area. All but two of the parcels are currently owned by the City of Roseville. The City Council has approved an Exclusive Right to Negotiate Agreement (ERN) with the applicant/developer, St. Anton Communities. The ERN provides the applicant a pathway for purchasing the property from the City, entitling the project and building the project. One of the requirements of the applicant is to work in good faith towards Planning Commission action on the necessary entitlements.

### **Capitol Corridor Third Track Project (3<sup>rd</sup> Track) and Historic Old Town Parking**

The City of Roseville has been working with the Capitol Corridor Joint Powers Authority (CCJPA) for several years on their project to expand rail service from Roseville to Sacramento. The CCJPA project, referred to as the 3<sup>rd</sup> Track project, would expand rail service, add a new layover facility and ultimately add a new track (the “3<sup>rd</sup> Track”) between Roseville and Sacramento. An Environmental Impact Report (EIR) was completed for the 3<sup>rd</sup> Track project and included a mitigation measure to prohibit the 3<sup>rd</sup> Track service expansion until sufficient all-day and multi-day parking supply is provided to meet the demands from the increase ridership.

**Figure 2 - HOT Parking Study Area**

To address the parking mitigation measure and determine the parking impacts from the 3<sup>rd</sup> Track project, the Historic Old Town (HOT) Parking Study was completed on September 26, 2017. For the purpose of the parking study, the HOT area included the area near the train station, the DT-4 district (referred to as the Business District in the parking study), and the DTSP neighborhoods north the DT-4 district (see Figure 2). The HOT Parking Study identified the current parking supply in HOT, the 3<sup>rd</sup> Track project impacts to the current parking supply, the anticipated near term (Phase 1) and long term parking demands from the 3<sup>rd</sup> Track project, and identified locations and designs for parking areas to meet the parking demand of the 3<sup>rd</sup> Track project. The parking study also considered the parking impacts from the Junction Crossings project.

The HOT Parking Study (Attachment 1) identified the highest parking demand areas as near the Train Depot and within the DT-4 district. The HOT Parking Study concluded that the peak parking demand within the DT-4 district occurs at 7 pm on Fridays. During this period of peak parking demand, the study shows there is 74% utilization of the existing 532 parking spaces, leaving 136 spaces available (see Table 2 of the HOT Parking Study). The study therefore concludes that adequate parking is currently available to support the Junction Crossing project needs as well as the current DT-4 District needs. Additional parking would be needed with the near term and long term phases of the 3<sup>rd</sup> Track project and/or once parking utilization exceeds 80% of the available parking.

The HOT Parking Study was presented to the City Council on October 18, 2017, for feedback on several parking mitigation options. Council provided staff with the following feedback:

- Support of Alternative 2 for an at-grade parking lot adjacent to the proposed layover facility as depicted in Figure A-29, to address the near term parking shortfall from Phase 1 of the 3<sup>rd</sup> Track project;
- Support for staff investigation of partnerships to leverage underutilized private parking and structuring lease agreements;

- Support for staff investigation of Transportation Demand Measures for parking;
- Support for the creation of additional on-street parking supporting the Train Depot as depicted in Alternative 1 (Figure A-31); and
- Support for development of two separate parking structures to service long term conditions, one located directly adjacent to the train station platform to serve the Train Depot and the second located near the proposed layover facility to serve the DT-4 district.

With this direction, Council supported alternative parking supply options that would not rely on a public parking garage on the Junction Crossing project site.

On October 18, 2017, the City Council adopted Resolution 17-441 approving a Memorandum of Understanding (MOU) between CCJPA and the City of Roseville to outline the collaborative process used to identify, fund, and construct the additional parking required of the 3<sup>rd</sup> Track project as identified in the HOT Parking Study. While the layover facility may not ultimately be constructed at the location described in the HOT Parking Study, the City is in discussions with Union Pacific Rail Road (UPRR) to pursue acquisition of the 3 acres depicted in Figure A-29 for the development of additional parking within the DT-4 district.

## **FINDINGS & EVALUATION**

The evaluation section of this report includes an analysis of each of the requested entitlements. Each of the entitlements are analyzed for consistency with the goals and policies of the applicable regulations (i.e. the General Plan, Zoning Ordinance, DTSP, Downtown Code, and Community Design Guidelines (CDG)).

### **MINOR DESIGN REVIEW PERMIT**

As mentioned, the Roseville Junction Crossing project includes a four-story, approximately 80,460 square foot, 80-unit apartment building wrapped around an at grade parking area, as shown in Figure 3. Additional site improvements include installation of a public sidewalk along the frontage of the project, relocation of dedicational bricks, relocation of a monument recognizing the first transcontinental railroad in Roseville, and landscaping.

**Figure 3 – Washington Bl. & Church St. Elevations**

Pursuant to Chapter 19.74 of the Zoning Ordinance, the following findings shall be made to approve a MDRP application:

- 1. The project is within the Downtown Specific Plan area and is consistent with the design guidelines and regulations outlined within the Downtown Code; and***
- 2. The proposed improvement complies with all applicable standards and requirements of the Downtown Code, with the applicable goals, policies and objectives set forth in the General Plan and the Downtown Specific Plan.***

The Roseville Junction Crossing project has been reviewed for consistency with the DTSP and the Downtown Code through the MDRP process. The Downtown Code includes development standards and design guidelines. The following is an evaluation of the project's conformance with the Downtown Code standards and guidelines.

### ***Development Standards***

As mentioned, the project is located within the DTSP Old Town Commercial (DT-4) district. The DT-4 district promotes development of the City's original commercial core and the implementation of a mixed use, retail, restaurant, entertainment and residential district while preserving the historic nature of this area. Parcels within the DT-4 district have a zoning designation of Historic District with a Special Area overlay of Old Town Commercial (HD/SA-DT-4). Multi-family residential is a permitted use in the HD/SA-DT-4 district.

The project was evaluated for compliance with the Downtown Code HD/SA-DT-4 development standards, as follows:

| <b>Junction Crossing - HD/SA-DT-4 Development Standards</b> |                                                                 |                                                                                             |
|-------------------------------------------------------------|-----------------------------------------------------------------|---------------------------------------------------------------------------------------------|
| <b><i>Standard</i></b>                                      | <b><i>Required</i></b>                                          | <b><i>Proposed</i></b>                                                                      |
| Front Setback                                               | 0 -10 feet                                                      | Varies, 10 feet typical                                                                     |
| Side & Rear Setback                                         | 0 feet                                                          | Varies, 10 feet minimum                                                                     |
| Maximum Height                                              | Four Story (60 feet)                                            | Four Story (55 feet)                                                                        |
| Minimum FAR                                                 | 1.5                                                             | 1.57*                                                                                       |
| Maximum FAR                                                 | 3.0                                                             |                                                                                             |
| Minimum Density                                             | 16 units /acre                                                  | 60 units/acre                                                                               |
| Maximum Density                                             | As determined by the FAR or 32 units/acre, whichever is greater |                                                                                             |
| Parking                                                     | 0.5 spaces/unit = 40 spaces                                     | 86 spaces (36 spaces available for public parking, 3 spaces reserved for 127 Church Street) |

\*The FAR is based on net acreage after the area dedicated to public parking has been removed.

The DT-4 development standards encourage buildings to be built to or near the property lines and allow higher density development than other areas of the City. The project setbacks vary, but on average, meet the maximum setback of 10 feet from the property lines. The project exceeds the minimum Floor Area Ratio (FAR) requirements and density requirements with the exclusion of the area dedicated to public parking. Since the adoption of the DTSP, State legislation (AB 744) has been adopted requiring cities to reduce the parking requirements for affordable housing projects near transit facilities. The City has yet to update the Downtown Code to reflect the State mandates. Regardless, the City is required to abide by the State parking standards of 0.5 parking spaces per studio or 1 bedroom unit. The Roseville Junction Crossing project meets the State criteria for this parking standard, and based the number and type of units, is required to provide 40 parking spaces. The project exceeds the parking requirement by providing a total of 86 parking spaces either at-grade or in tuck-under spaces. While the project

exceeds the parking requirements, due to the public concern expressed over parking in the area, additional evaluation of parking is provided below.

As demonstrated in the above table, the project complies with the development standards for the DT-4 district.

### ***Design Guidelines***

The Downtown Code includes design guidelines (Chapter 5) that apply to all improvement projects in the Downtown area, including exterior remodels and new buildings. The Downtown Code overall design principles are intended to promote sound architectural practices, encourage buildings to retain or repeat traditional façade components, develop a steady rhythm of façade widths, create a comfortable scale of structures, and distinguish between the upper and lower floors. The following discussion highlights the project's compliance with the Downtown Code design guidelines:

- 5.3 Site Planning – The building mass wraps the property and is located within the maximum 10 feet setback. The common use areas, such as the lobby, fitness room, and leasing areas are placed along the ground floor of the Church and Pacific Street frontages to place the more public type uses on the street. All residential units face the street or the parking areas to place “eyes” on these public areas. Walk-up units are provided on the ground floor to further activate the street. The parking and trash areas are located behind the building. The existing access to the parking area is maintained. A new pedestrian path will connect Church Street to the parking area and will allow for the relocation of dedication bricks and the Transcontinental Railroad monument. New sidewalks will wrap the project frontage and will connect Church Street to Pacific Street along the Washington Boulevard undercrossing frontage. The project respects the adjacent buildings through consideration of mass, rhythm and setbacks. The façade breaks add visual interest to the building elevation and segregate the building into shorter sections to respect the historic rhythm of the property widths.
- 5.4 Architectural Guidelines –The residential units are elevated above the pedestrian realm and include patios. The first floor common area provides tall storefront windows and canopies. The façade is divided into smaller increments by incorporating façade breaks, varied roof heights, and varying the setback. Balconies are incorporated into the building design to break up the building mass and provide visual surveillance of the street. The building provides a well-defined base, middle, and top. The Church and Pacific Street corners have been articulated. The building materials include color and texture with the introduction of the traditional brick material on the ground floor, are of high quality, and are harmonious with adjacent buildings.
- 5.5 Plaza, Paseos, & Courtyards – As an amenity the project will provide public benches and landscape areas along Church Street. Due to the existing noise levels at the project site, common outdoor space cannot be provided (see Noise Analysis, Attachment 3). Common indoor gathering and fitness areas are provided within the building.
- 5.8 Landscape Guidelines – The project includes a balance of trees, shrubs, groundcover, vines and hardscaping to enhance the architecture. The street trees will be provided along the frontage as part of the sidewalk improvements required of the project. The project has been conditioned to comply with the Water Efficient Landscape Ordinance requirements and the final landscape plans will be reviewed for conformance with the Downtown Code standards. The project has also been conditioned to repair and replace any existing landscaping damaged during the project construction.
- 5.9 Lighting – Lighting levels should be sufficient for safety yet should not cause light spillage onto adjacent properties. New pedestrian lighting will be added along all new pathways and will match the existing street lighting in the area. As conditioned, the exterior lighting details will be reviewed with the building permit and will be reviewed for conformance with the Downtown Code.

As summarized above, the project complies with the intent of the Downtown Code design guidelines.

### **Parking**

The project location currently contains approximately 50 public parking spaces and with development of the Junction Crossing project will provide 36 publicly available parking spaces. The DTSP identified the site as having the potential to provide 273 public parking spaces within a joint private/public parking garage. As mentioned above, the anticipated Redevelopment Bond funding for the public portion of the garage is no longer available. The HOT Parking Study determined that the public parking anticipated for the site could be accommodated elsewhere in the plan area. As described above, the study identified locations for future parking facilities. Council expressed support for the development of these alternative parking facilities that would provide for public parking without relying on the Roseville Junction Crossing project to provide a public parking garage. The City is in discussion with UPRR regarding property acquisition for future parking facilities.

The HOT Parking Study concluded that, within the DT-4 district, there is 74% utilization of the existing 532 parking spaces during peak parking demand (7 pm Friday), leaving 136 spaces available (see Table 2 of the HOT Parking Study). The study determined that the Roseville Junction Crossing project would create a demand for 43 parking space. The project exceeds the anticipated demand and provides 47 parking spaces reserved for the residents of the project. Additionally the project will provide 36 parking spaces made available for public use and three spaces dedicated to the tenants/customers of 127 Church Street, for a total of 86 parking spaces. The HOT parking study found that additional parking was not needed for the Roseville Junction Crossing project, but would be needed with Phase 1 of the 3<sup>rd</sup> Track project. As mentioned above, the Council will develop a plan for providing the additional parking in coordination with CCJPA with the 3<sup>rd</sup> Track project.

As mentioned, in addition to the HOT Parking Study, parking was evaluated with the DTSP. The DTSP EIR evaluated the amount of parking required based on the anticipated number of residential units and square footage. The following table shows the DTSP anticipated amount of new residential units and square footages for the DT-4 district at buildout and the remaining amount of units and square footage that would be available following completion of the proposed project:

| <b>Projected Build-out within DT-4</b> |         | <b>Proposed Project</b> | <b>Remaining</b> |
|----------------------------------------|---------|-------------------------|------------------|
| New Residential Units                  | 134     | 80                      | 54               |
| New Square Footage                     | 646,213 | 80,460                  | 565,753          |

As demonstrated above, the project will reduce the amount of units and square footages available for future development within the DT-4 district under the DTSP EIR, but will not increase the cumulative amount of residential units or square footages beyond what was anticipated for the DT-4 district. As the project will not exceed the anticipated number of residential units or square footages, no new parking impacts beyond those already considered in the DTSP EIR are anticipated.

In response to the neighborhood's parking concerns, the City requested the applicant evaluate the option for adding a parking garage on the site as anticipated in the DTSP. The applicant's response is provided as Attachment 4. In summary, adding a parking garage on the site would result in a loss of 30 units and cost an additional \$9.2 million. A redesign of the project to either a podium style or subterranean would result in between \$3.5 to \$5.4 million in additional costs and result in a height variance or a loss of parking. Based on this information, staff finds the parking garage is infeasible.

It is anticipated that the existing on-site parking lot will be unavailable at times during construction. The project has been conditioned to require the developer to receive approval of a parking management plan for the construction phase of the project. The plan shall identify the parking impacted at various phases of construction of the project and shall identify temporary opportunities for replacement of the impacted parking. The plan shall also identify a parking plan for contractors working on the project. The requirement

for a parking management plan is anticipated to reduce the projects parking impacts on the surrounding area during construction.

### ***Economic Impact Analysis***

Based on comments received at the neighborhood meeting, the City required an evaluation be completed to determine the projects potential impact on Old Town primarily from the loss of public parking. The economic analysis was completed by New Economics & Advisory and is provided as Attachment 2. The study found that the 80 units could generate between \$59,850 and \$139,790 per year in disposable income that is available to be spent in the retail businesses within the DT-4 District. The study provided an estimate of the annual value for each publicly available parking space (approximately \$5,400 per space) within the DT-4 District. As described above, the Junction Crossing project will provide 36 publicly available parking spaces and three spaces for tenants/customers of 127 Church Street, resulting in the loss of 11 publicly available parking spaces. This loss could result in a negative impact of \$59,000 in annual sales for local retailers. This potential loss is anticipated to be fully mitigated by the spending of the project residents. Once the 3<sup>rd</sup> Track project is constructed and additional parking is added to the district, the study found there to be the potential for \$270,000 in additional local retail sales.

### ***MDRP Conclusion***

Pursuant to the DTSP and the Downtown Code, and based on the evaluation in this report, staff finds the findings of fact can be made for the Roseville Junction Crossing project, and recommends approval of the MDRP as conditioned, with no recommended modifications.

### **TENTATIVE SUBDIVISION MAP**

The proposed Tentative Subdivision Map would merge and resubdivide 11 parcels into two parcels and would realign the adjacent right-of way. The map would also allocate easements for public utilities and public access and parking. The merging of the parcels facilitates development of the proposed Roseville Junction Crossing project.

As mentioned, the majority of the parcels are owned by the City. Council supported the development of the Roseville Junction Station project on the City projects. As outlined in the ERN, a Disposition and Development Agreement will go before the City Council at a later date to outline the sale of the property and dedication of excessive right of way.

Section 18.06.180 of the City of Roseville Subdivision Ordinance requires that three findings be made to approve or conditionally approve a Tentative Subdivision Map. The three findings are listed below.

- 1. The size, design, character, grading, location, orientation, and configuration of lots, roads and all improvements for the tentative map are consistent with the density, uses, circulation and open space systems, applicable policies and standards of the General Plan or any applicable Specific Plan for the area, and the design standards of Title 18 (Subdivision Ordinance) of the Roseville Municipal Code.***
- 2. The subdivision will result in lots which can be used or built upon. The subdivision will not create lots which are impractical for improvement or use due to: the steepness of terrain or location of watercourses in the area; the size or shape of the lots or inadequate building area; inadequate frontage or access; or some other physical condition of the area.***
- 3. The design and density of the subdivision will not violate the existing requirements prescribed by the Regional Water Quality Control Board for the discharge of waste into the sewage system, Pursuant to Division 7 of the water code.***

As outlined in the MDRP evaluation above, the project is consistent with the DTSP. The MDRP and the map have been reviewed by City departments and found to meet City standards for development, utility service, and emergency access and circulation. Any comments have been incorporated into the conditions of approval.

Based on the evaluation above, staff believes that the required findings can be made to approve the Tentative Subdivision Map.

### **ENVIRONMENTAL DETERMINATION**

The project is exempt from the provisions of the California Environmental Quality Act (CEQA) per several CEQA statutory exemptions: Public Resources Code (PRC) Section 21155.4 and Government Code (GC) Section 65457 (Sustainable Communities Strategy/Specific Plans), Section 21159.21 (Housing Project Exemptions) including Section 21159.23 (Low Income) and Section 21159.24 (Infill). In addition the project is also considered categorically exempt under Section 15332 (in-fill projects) of the CEQA Guidelines and pursuant to Section 305 of the City of Roseville CEQA Implementing Procedures.

Dudek was retained to assist the City in evaluating whether the Roseville Junction Crossing project is exempt from CEQA. In a 362 page memo (see Attachment 5), Dudek explains the justification for the various statutory and categorical exemptions listed above. The memo considers the Sacramento Area Council of Governments (SACOG's) confirmation that the project is consistent with the Metropolitan Transportation Plan/Sustainable Communities Strategy and is located in a Transit Priority Area (see Attachment 6). The memo also considers the projects compliance with the DTSP and provides a list of the applicable MMP measures from the DTSP EIR. The project has been conditioned to comply with the applicable MMP measures. The memo also included a Biological and Wetland Resource Constraints Analysis and Historical Resource Analysis. The Dudek memo is provided as Attachment 5 to this report, but due to the size of the report, the report attachments are provided on the City's project website: <https://www.roseville.ca.us/cms/One.aspx?portalId=7964922&pageId=8774480> (select the DTSP PCL DT-4 Roseville Junction Crossing link).

Staff agrees with Dudek's evaluations and the Planning Manager has made the determination that the project is exempt from CEQA, as outlined above, and no further CEQA action is required.

### **PUBLIC OUTREACH**

As described above, two neighborhood meetings were held on the project. Early notification of the project was provided to the RCONA Board, and no comments were received as a result of the notice. A notice of the Planning Commission hearing was provided to property owners within 300 feet of the project site. To date, no comments, other than those received verbally at the neighborhood meetings, have been received on the project.

### **RECOMMENDATION**

The Planning Division recommends the Planning Commission take the following actions:

- A. Adopt the two (2) findings of fact as stated in the staff report and approve the MDRP for the **DTSP DT-4 Roseville Junction Crossing, 120 Pacific Street, File# PL16-0115**, subject to one-hundred and six (106) conditions of approval; and
- B. Adopt the three (3) findings of fact as stated in the staff report and approve the Tentative Subdivision Map for the **DTSP DT-4 Roseville Junction Crossing, 120 Pacific Street, File# PL18-0036**, subject to thirty-five (35) conditions of approval.

**CONDITIONS OF APPROVAL FOR MINOR DESIGN REVIEW PERMIT (MDRP) PL16-0115**

1. This design review permit approval shall be effectuated within a period of two (2) years from this date and if not effectuated shall expire on **April 26, 2020**. Prior to said expiration date, the applicant may apply for an extension of time, provided, however, this approval shall be extended for no more than a total of one year from **April 26, 2020**.
2. The project is approved as shown in Exhibit A and as conditioned or modified below. (Planning)
3. The project shall comply with all required environmental mitigation identified in the DTSP EIR. The applicable mitigation measures are outlined in the Junction Crossing MMP, contained within Attachment 5 to the 4/26/18 Planning Commission staff report. (Planning)
4. The developer shall be responsible for relocation of the California registered landmark, in coordination with the Office of Historic Preservation. (Planning)
5. The developer shall be responsible for relocating the dedicational bricks within the Church Street plaza area, in a manner and location approved by the City's Parks Department (Planning)
6. The applicant shall pay City's actual costs for providing plan check, mapping, GIS, and inspection services. This may be a combination of staff costs and direct billing for contract professional services. (Engineering, Environmental Utilities, Electric, Finance)
7. The design and construction of all improvements shall conform to the Design and Construction Standards of the City of Roseville, or as modified by these conditions of approval, or as directed by the City Engineer. (Engineering)
8. The applicant shall not commence with any on-site improvements or improvements within the right-of-way until such time as grading and/or improvement plans are approved and grading and/or encroachment permits are issued by the Development Services Department (Engineering)
9. The approval of this project does not constitute approval of proposed improvements as to size, design, materials, or location, unless specifically addressed in these conditions of approval. (Engineering)
10. Existing ramp from sidewalk to crosswalk must connect to provide a connection to Amtrak. (Alternative Transportation).
11. A covered seating area shall be located near the front office visible from the drive aisle for our Dial-a-Ride passenger pick-up and drop-off (Alternative Transportation, Engineering)
12. The project will impact City maintained landscaping. Plans to repair and re-establish landscaping shall be part of the project and approved by the City. If construction impacts a part of the irrigation system, project shall be responsible for the health of all landscaping affected by the interruption. (Parks)
13. New off-site landscape improvements shall comply with the Parks Construction Standards, latest edition and shall be approved by the City prior to implementation. (Parks)

**PRIOR TO ISSUANCE OF BUILDING PERMITS:**

14. A parking management plan for the construction phase of the project shall be approved by the Planning Division. The plan shall identify any public parking spaces impacts by the construction

and outline temporary parking opportunities to replace the impacted parking. The plan shall also identify locations for contractor parking. (Planning)

15. The developer shall pay all applicable development fees including school fees. (Planning, Building)
16. Parking stalls shall meet, or exceed, the following minimum standards:
  - a. All parking stalls shall be double-striped. Parking stalls adjacent to sidewalks, landscaped areas or light fixtures, and all Accessible stalls shall have a 6" raised curb or concrete bumper. (Planning)
  - b. Standard -- 9 feet x 18 feet; Compact--9 feet x 16 feet; Accessible--14 feet x 18 feet (a 9 foot wide parking area plus a 5 foot wide loading area) and a minimum of one (1) parking space shall be Accessible van accessible--17 feet x 18 feet (9 foot wide parking area plus an 8 foot wide loading area). (Planning)
  - c. An 'exterior routes of travel' site accessibility plan incorporating slope, cross-slope, width, pedestrian ramps, curb ramps, handrails, signage, detectable warnings or speed limit signs or equivalent means shall comprise part of the site improvement plans submitted to City for review, prior to building plan check approvals. This site accessibility plan shall also include:
    - i) Accessible parking stalls shall be dispersed and located closest to accessible entrances. The total number of accessible parking spaces shall be established by current edition of the CBC Chapters 11A & 11B. (Building)
    - ii) Accessible Parking spaces and crosswalks shall be signed, marked and maintained as required by CBC Chapters 11A & 11B. (Building)
    - iii) Accessible parking and exterior route of travel shall comply with CBC, Chapters 11A & 11B. (Building)
17. Signs and/or striping shall be provided on-site as required by the Planning Department to control on-site traffic movements. Parking lot striping and signage shall be maintained in a visible and legible manner. (Planning)
18. The plans submitted to the Building Department for permits shall indicate all approved revisions/alterations as approved by the Commission including all conditions of approval. (Planning)
19. The project Landscape Plans shall comply with the following:
  - a. The Landscape Plan shall indicate the location of, and be designed to avoid conflicts with, all pole-mounted light fixtures and utility equipment including (but not limited to) electric transformers, switchgear, and overhead lines, backflow preventors, fire department connections, and public water, sewer, and storm drain facilities. (Planning, Fire, EUD, Electric, Engineering)
  - b. The tree plantings in the parking lot shall be designed to provide a minimum of 50% shade coverage after 15 years. (Planning)
  - c. At a minimum, landscaped areas not covered with live material shall be covered with a rock, (3") bark (no shredded bark) or (3") mulch covering. (Planning)

- d. The landscape plan shall comply with the Landscape Guidelines for the Downtown Specific Plan and the City of Roseville Water Efficient Landscape ordinance. (Planning)
  - e. All landscaping in areas containing electrical service equipment shall conform with the Electric Department's Landscape Requirements and Work Clearances as outlined in Section 10.00 of the Departments "Specification for Commercial Construction." (Electric)
- 20. Any roof-mounted equipment and satellite dishes proposed shall be shown on the building plans. The equipment shall be fully screened from public streets and the surrounding properties. (Planning)
  - 21. At the time of building permit application and plan submittal, the project applicant shall submit a proposed plan which shows the suite and/or apartment numbering plan for individual tenant spaces and/or apartments within the building. The Building Official, or the designate, shall approve said plan prior to building permit approval. (Building)
  - 22. A separate Site Accessibility Plan which details the project's site accessibility information as required by California Title 24, Part 2 shall be submitted as part of the project Building Permit Plans. (Building)
  - 23. For Multiple Building Complexes: As part of the required Site Accessibility Plan, the developer shall delineate the extent of the site accessibility improvements being installed as part of the initial improvements for the project, and those that are planned to be developed as part of subsequent phases (i.e. around future pad buildings). (Building)
  - 24. Building permit plans shall comply with all applicable code requirements (California Building Code – CBC – based on the International Building Code, [California Green Building Standards Code-CGBSC](#), California Mechanical Code – CMC – based on the Uniform Mechanical Code, California Plumbing Code – CPC – based on the Uniform Plumbing Code, California Fire Code – CFC – based on the International Fire Code – with City of Roseville Amendments – RFC, California Electrical Code – CEC – based on the National Electrical Code, and California Energy Standards – CEC T-24 Part 6), California Title 24 and the American with Disabilities Act - ADA requirements, and all State and Federally mandated requirements in effect at the time of submittal for building permits (contact the Building ~~Department~~ Division for applicable Code editions). (Building)
  - 25. A complying Allowable Area Analysis will be required for this building complex. (Building)
  - 26. Public use areas, public accommodations, and public housing are subject to the accessibility provisions CBC Chapter 11B. (Building)
  - 27. Covered Multifamily Dwellings shall be accessible and constructed to CBC Chapter 11A. All ground-floor units in nonelevator buildings shall be adaptable and on an accessible route, unless an accessible route is not required as determined by site impracticality provision. (Building)  
  
Where the first floor containing dwelling units in a building is above grade, all units on that floor shall be served by an accessible route (i.e. – ramp, elevator, etc.). (Building)
  - 28. The building foundation adjacent to the relocated 36-inch storm drain main shall be designed such that future repair and trenching of the storm drain does not negatively impact the building foundation. (Building, Engineering)
  - 29. Maintenance of copy of building plans: Health and Safety Code section 19850 requires the building department of every city or county to maintain an official copy of the building plans for the life of the

building. As such, each individual building shall be submitted as a separate submittal package. Building plan review, permit issuance and archiving is based on each individual building address.

30. For all work to be performed off-site, permission to enter and construct shall be obtained from the property owner, in the form of a notarized right-of-entry. Said notarized right-of-entry shall be provided to Public Works prior to approval of any plans. (Engineering)
31. The Improvement Plans shall include a complete set of Landscape Plans. The Landscape Plans shall be approved with the Improvement Plans. (Planning, Engineering, Fire, Environmental Utilities, Electric)
32. A note shall be added to the grading plans that states:  
*“Prior to the commencement of grading operations, the contractor shall identify the site where the **excess/borrow** earthen material shall be imported/deposited. If the **borrow/deposit** site is within the City of Roseville, the contractor shall produce a report issued by a geotechnical engineer to verify that the exported materials are suitable for the intended fill, and shall show proof of all approved grading plans. Haul routes to be used shall be specified.”* (Engineering)
33. Provide detail of the covered bicycle parking to be located near the Church Street foyer. (Alternative Transportation)
34. All properties will need to be acquired and merged prior to approval of any plans for construction. This shall include the dedication of any required public easements for existing facilities. (Engineering)
35. The site shall be accessed from Pacific Street by a 25-foot wide Type S driveway. (Engineering)
36. Sidewalk shall be constructed along the western perimeter of the site to connect Church Street to Pacific Street. (Engineering, Planning)
37. The removal of existing driveways will be replaced with standard vertical curb and gutter. (Engineering)
38. The relocated 36-inch storm drain main shall be constructed with reinforced concrete pipe, class 4 or greater. (Engineering)
39. All storm drainage, including roof drains, shall be collected on site and treated with Best Management Practices (BMP's) per the City's West Placer Stormwater Quality Design Manual. All storm water shall be routed to the nearest existing storm drain system or natural drainage facility. Drain outfalls shall extend down to the receiving water and shall be constructed with adequate velocity attenuation devices. The grading/improvement plans for the site shall be accompanied with a shed map that defines that area tributary to this site and all drainage facilities shall be designed to accommodate the tributary flow. The storm drain system and proposed BMP's shall be privately owned and maintained by the property owner. Prior to the issuance of any permits, the owner shall provide a plan for the maintenance of the proposed BMP's. (Engineering)
40. Prior to the issuance of any permits, the property owner shall prepare and submit a Storm Water Pollution Prevention Plan (SWPPP) to the City, as defined by the Regional Water Quality Control Board. The SWPPP shall be submitted in a single three ring binder. Upon approval, the SWPPP will be returned to the property owner during the pre-construction meeting. (Engineering)
41. To ensure that the design for any necessary widening, construction, or modifications of Public Streets does not conflict with existing dry utilities generally located behind the curb and gutter, and prior to the

submittal of design drawings for those frontage improvements, the project proponent shall have the existing dry utilities pot holed for verification of location and depth. (Engineering)

42. Sight distances for all driveways shall be clearly shown on the improvement plans to verify that minimum standards are achieved. It will be the responsibility of the project proponent to provide appropriate landscaping and improvement plans, and to relocate and/or modify existing facilities as needed to meet these design objectives. (Engineering)
43. The applicant shall remove and reconstruct any existing damaged curb, gutter, and sidewalk along the property frontage. During plan check of the improvement plans and/or during inspection, Public Works will designate the exact areas to be reconstructed. Any existing public facilities damaged during the course of construction shall be repaired by the property owner and at the property owner's expense, to the satisfaction of the City. (Engineering)
44. Prior to the approval of the improvement plans, it will be the project proponent's responsibility to pay the standard City Trench Cut Recovery Fee for any cuts within the City streets that are required for the installation of underground utilities. (Public Works)
45. The project shall be addressed as 120 Pacific Street. All projects with multi-tenants must submit a unit addressing plan to the Development Services Department (Business Services) for approval prior to or concurrent with initial building plan submittal. (Business Services)
46. Prior to the issuance of building permits, the property owner shall pay into the following fee programs: Citywide Drainage Fee, Citywide Traffic Mitigation Fee (TMF), Highway 65 Joint Partners Association (JPA), South Placer Regional Transportation Authority (SPRTA), and City/County Fee. (Engineering)
47. Prior to the issuance of a grading permit or approval of Improvement Plans, the grading plans shall clearly identify all existing water, sewer and recycled water utilities within the boundaries of the project (including adjoining public right of way). Existing utilities shall be identified in plan view and in profile view where grading activities will modify existing site elevations over top of or within 15 feet of the utility. Any utilities that could potentially be impacted by the project shall be clearly identified along with the proposed protection measures. The developer shall be responsible for taking measures and incurring costs associated with protecting the existing water, sewer and recycled water utilities to the satisfaction of the Environmental Utilities Director. (Environmental Utilities)"
48. The applicant shall pay all applicable water and sewer fees. (Environmental Utilities)
49. Water and sewer infrastructure shall be designed pursuant to the adopted City of Roseville Improvement Standards and the City of Roseville Construction Standards and shall include:
  - a. Utilities or permanent structures shall not be located within the area which would be disturbed by an open trench needed to expose sewer trunk mains deeper than 12' unless approved by Environmental Utilities in these conditions. The area needed to construct the trench is a sloped cone above the sewer main. The cone shall have 1:1 side slopes.
  - b. Water, sewer and recycled mains shall not exceed a depth of 12' below finished grade, unless authorized in these conditions of approval.
  - c. All sewer manholes shall have all-weather 10-ton vehicle access unless authorized by these conditions of approval. (Environmental Utilities)

50. City well is to be destroyed and the well building removed prior to above ground construction. Contractor/developer is to provide sufficient access and work space for city forces and city contractor to complete the well destruction. (Environmental Utilities)
51. No trees are allowed over the water appurtenance. (Environmental Utilities)
52. Sewer easement is to be a minimum 15' (Environmental Utilities)
53. Trash enclosures, recycling areas, and enclosure approaches shall be designed to current Refuse Division specifications, the materials and colors shall match the building, and the location of such facilities shall be reviewed and approved by the Refuse Division, Planning and the Fire Department. The enclosure must have inside dimensions of 12 feet wide and 9 feet deep and be built to the specifications of the Solid Waste Department's Enclosure Description. (Refuse, Planning, Fire)
54. Access to trash enclosures shall have an inside turning radius of 25 feet and an outside turning radius of 45 feet must be maintained to allow the refuse truck access to and from the enclosure. Enclosures must have a clear approach of 65 feet in front of the enclosure to allow servicing bins. (Refuse)
55. The design and installation of all fire protection equipment shall conform to the California Fire Code and the amendments adopted by the City of Roseville, along with all standards and policies implemented by the Roseville Fire Department. (Fire)
56. The applicable codes and standards adopted by the City shall be enforced at the time construction plans have been submitted to the City for permitting (Fire)
57. The fire flow required, at a 50% reduction due to the buildings being sprinklered, will be based on the largest single structure in accordance with the California Fire Code at the time detail plans are submitted to the City of Roseville for review. The maximum fire flow will not exceed 4,000 gpm based on the Appendix III-AA of the California Fire Code. (Fire)
58. The fire department access road shall meet the City's requirements for width and turning radii of 30 and 50 as noted on the fire department standards for access. This shall be enforced at the time plan are submitted for review, Additional information can be found on the City's web site [www.roseville.ca.us](http://www.roseville.ca.us) or contact Patrick Chew, Senior Fire Inspector, at 916-774-5823 or [pchew@roseville.ca.us](mailto:pchew@roseville.ca.us) with the Fire Prevention Division for information. (Fire)
59. An **approved** automatic fire extinguishing system shall be provided for all buildings where the total fire area is **3,600** square feet or greater, as required by California Fire Code as adopted by this city for non-single family residential units. All amendments, standards and policies can be found on the City's web site [www.roseville.ca.us](http://www.roseville.ca.us) or contact Patrick Chew, Senior Fire Inspector, at 916-774-5823 or [pchew@roseville.ca.us](mailto:pchew@roseville.ca.us) with the Fire and Life Safety Division for information. (Fire)
60. Every building three stories or more in height shall be provided with a Class 1 standpipe system in accordance with the California Fire Code as amended by the Fire Department by way ordinance. Standpipes shall be spaced every 300 feet of travel distance with the location(s) to be approved by this department. One standpipe shall extend to the roof dock if the roof slope is less than 4 & 12. Plan review and field inspection fees associated with the installation of said systems shall be paid prior to plan submittal. (Fire)
61. All fire extinguishing system risers, fire alarm system panels and digital alarm communicator system panels shall be located within an approved fire control room and shall be accessible from an adjacent fire apparatus roadway. Said fire control room shall be a minimum size of thirty-five

- (35) square feet in size and shall be openable from the exterior via an approved door opening. (Fire)
62. The fire department shall have access to all bedroom windows located three-stories and below in accordance with the adopted building code. This provision shall also apply to all interior bedroom windows within the **court yard**. (Fire)
63. All stairwells and elevators shall be designed to accommodate first responders and their apparatuses such as gurneys. (Fire)
64. The fire department shall have access to all bedroom windows located three-stories and below in accordance with the adopted building code. This provision shall also apply to all interior bedroom windows within the **interior court and/or podium structure**. Provisions shall also be considered when installing trusses, trees, and other outdoor equipment. (Fire)
65. The phasing of this project shall not limit the fire department requirements for access and circulation throughout the project as a result of continuous construction in accordance with the California Fire Code, 2013 with the City of Roseville's Amendments. A separate phasing plan (and permit issued by the Building Department) shall be reviewed and approved by this department. (Fire)
66. If added cornice construction is involved, the design shall support the weight of a ladder leaning against the assembly as well as a 330-pound vertical load applied to the **leading edge** of the horizontal projection of the cornice (a 250-pound firefighter carrying 80 pounds of equipment stepping off of a ladder onto the top of the cornice). (Fire)
67. Use, increase of hazardous materials or storage, liquids, gases and/or chemicals shall meet the requirements of the Chapter 6.95 of the Health and Safety Code, the Roseville Fire Department and the National Fire Codes. Submit a complete plan set and the Hazardous Materials Business Plan, including names and amount of any hazardous materials that will be stored or used, to the Fire and Life Safety Division for review and approval. A permit application shall also be provided at the time of submittal. Contact Steve Anderson of our Hazardous Materials Division within the Fire Department at (916) 774-5821 to initiate the process. Satisfaction of storage and use shall be determined prior to requesting occupancy. (Fire)
68. Adequate radio coverage shall be provided within all buildings for public safety agencies, as required by Roseville Municipal Code and the California Fire Code. A field test shall be provided by a person in possession of a current FCC License, or a current technician certification issued by the Associated Public-Safety Communications Officials International (APCO), or the National Association of Business and Educational Radio (NABER). The building owner shall retain all test records on the inspected premises and a copy shall be submitted to the Fire Department officials in accordance with Section 510 of the California Fire Code.
- Adequate radio coverage shall include all of the following:
  - A minimum signal strength of 95 dBm available in 90% of the area of each floor of the building when transmitted from the closest City of Roseville Radio Communication site.
  - A minimum signal strength of 95 dBm received at the closest City of Roseville Communication site when transmitted from 90% of the area of each floor of the building.
  - The frequency range that must be supported shall be 821-824 MHz and 866-869 MHz.
  - A 100 % reliability factor. (Fire, Police)

69. The Electric Department requires the submittal of the following information in order to complete the final electric design for the project:
- one (1) set of improvement plans
  - load calculations
  - electrical panel one-line drawings
70. All on-site external lighting shall be installed and directed to have no off-site glare. Lighting within the parking areas and pedestrian walkways shall provide a maintained minimum of one (1) foot candle, and 0.5 foot candle of light, respectively. All exterior light fixtures shall be vandal resistant. (Planning & Police)
71. The parking lot shall have properly posted signs that state the use of the parking area is for the exclusive use of employees and customers of this project. (See California Vehicle Code Sections 22507.8, 22511.5, 22511.8, 22658(a), and the City of Roseville Municipal Code Section 11.20.110). The location of the signs shall be shown on the approved site plan. (Planning & Police)
72. It is the developer's responsibility to notify PG&E of any work required on PG&E facilities. (PG&E)

**DURING CONSTRUCTION & PRIOR TO ISSUANCE OF OCCUPANCY PERMITS:**

73. Any backflow preventors visible from the street shall be painted green to blend in with the surrounding landscaping. The backflow preventors shall be screened with landscaping and shall comply with the following criteria:
- There shall be a minimum clearance of four feet (4'), on all sides, from the backflow preventor to the landscaping.
  - For maintenance purposes, the landscaping shall only be installed on three sides and the plant material shall not have thorns.
  - The control valves and the water meter shall be physically unobstructed.
  - The backflow preventor shall be covered with a green cover that will provide insulation. (Planning, Environmental Utilities)
74. The following easements shall be provided by separate instrument and shown on the site plan, unless otherwise provided for in these conditions:
- Water, sewer, and reclaimed water easements.
  - Additional internal easements will be required to cover primary electrical facilities to the project when the final electrical design is completed. (Electric, Public Works, Environmental Utilities)
75. Easement widths shall comply with the City's Improvement Standards and Construction Standards. Separate document easements required by the City shall be prepared in accordance with the City's "Policy for Dedication of Easements to the City of Roseville". All legal descriptions shall be prepared by a licensed land Surveyor. All existing public utility, electric, water, sewer and reclaimed water easements shall be maintained unless otherwise authorized by these conditions of approval. (Public Works, Environmental Utilities, Electric)

76. Inspection of the potable water supply system on new commercial/ industrial/ office projects shall be as follows:
- a. The Environmental Utilities Inspector will inspect all potable water supply up to the downstream side of the backflow preventor.
  - b. The property owner/applicant shall be responsible for that portion of the water supply system from the backflow preventor to the building. The builder/contractor shall engage a qualified inspector to approve the installation of this portion of the water supply. The Building Division will require from the builder/ contractor, a written document certifying that this portion of the potable water supply has been installed per improvement plans and in accordance with the Uniform Plumbing Code. This certificate of compliance shall be submitted to the Building Division before a temporary occupancy or a building final is approved.
  - c. The building inspectors will exclusively inspect all potable water supply systems for the building from the shutoff valve at the building and downstream within the building. (Building, Environmental Utilities)
77. All improvements being constructed in accordance with the approved grading and improvement plans shall be accepted as complete by the City. (Public Works)
78. The words "traffic control appurtenances" shall be included in the list of utilities allowed in public utilities easements (PUE's) located along public roadways. (Public Works)
79. Water, sewer and reclaimed water shall be constructed pursuant to the adopted City of Roseville Improvement Standards and the City of Roseville Construction Standards. (Environmental Utilities)
80. All water backflow devices shall be tested and approved by the Environmental Utilities Department. (Environmental Utilities)
81. All Electric Department facilities, including streetlights where applicable, shall be designed and built to the "City of Roseville Specifications for Commercial Construction." (Electric)
82. The City of Roseville Electric Department has electrical construction charges which are to be paid by the developer and which are explained in the City of Roseville "Specification for Commercial Construction." These charges will be determined upon completion of the final electrical design. (Electric)
83. Any relocation, rearrangement, or change of existing electric facilities due to this development shall be at the developer's expense. (Electric)
84. Any facilities proposed for placement within public/electric utility easements shall be subject to review and approval by the Electric Department before any work commences in these areas. This includes, but is not limited to, landscaping, lighting, paving, signs, trees, walls, and structures of any type. (Electric)
85. All electric metering shall be directly outside accessible. This can be accomplished in any of the following ways:
- a. Locate the metered service panel on the outside of the building.
  - b. Locate the metered service panel in a service room with a door that opens directly to the outside. The developer will be required to provide a key to the door for placement in a lock

box to be installed on the outside of the door. Any doors leading from the service room to other areas of the building shall be secured to prohibit unauthorized entry.

86. One 3/4" conduit with a 2-pair phone line shall be installed from the buildings telephone service panel to the meter section of the customer's electrical switchgear or panel. (Electric)
87. It is the responsibility of the developer to insure that all existing electric facilities remain free and clear of any obstruction during construction and when the project is complete. (Electric)
88. The electric department has identified several above ground and below ground facilities during the review of this project. The facilities located on this site will require the developer to provide access in accordance with the electric departments specifications and the municipal code. These facilities also have specific clearances identified in the National Electric Code and the Roseville Electric Specification for Commercial Construction, Section 10 that must be adhered to at all times.(Electric)
89. There are underground and pad mounted electric facilities in direct conflict with the proposed building improvements. These facilities will require relocation prior to the developer initiating any construction of the proposed buildings. Relocation of these facilities will be at the developer's expense.(Electric)
90. The service transformer or transformers' for the building will require an area adequate for the transformer and the clear space in order to properly maintain and operate the devices.(Electric)
91. Any relocation of electric facilities will require an Electric Department design and coordination with the proper Electric Department personnel.(Electric)
92. Easements will need to be provided for new facilities placed as a result of the proposed improvements.(Electric)
93. Construction of temporary electric facilities may be required in order to minimize outages for customers that may be impacted by these improvements and alteration of electric facilities as a result of these improvements.(Electric)
94. Many of these facilities have minimum clearance requirements to roadways and other facilities that can impact the area available for parking and landscape improvements.(Electric)
95. The cost to relocate these facilities along with necessary temporary facilities to alleviate long outages for businesses served by these facilities will be at the developer's expense.(Electric)
96. All new public right-of-way, including new sidewalk adjacent to the Washington Boulevard property line, shall have street lights installed per Roseville Electric's Standards.(Electric, Planning)

**OTHER CONDITIONS OF APPROVAL:**

97. Signs shown on the elevations are not approved as part of the Design Review Permit. A Sign Permit is required for all project signs. (Planning)
98. Following the installation of the landscaping, all landscape material shall be maintained in a healthy and weed free condition; dead plant material shall be replaced immediately. All trees shall be maintained and pruned in accordance with the accepted practices of the International Society of Arboriculture (ISA). (Planning)

99. The City reserves the right to restrict vehicle turning movements within the public right-of-way in the future if deemed necessary by the City Engineer. (Public Works)
100. The required width of fire apparatus access roads shall not be obstructed in any manner, including the parking of vehicles. Minimum required widths and vertical clearances established by the Fire Code shall be maintained at all times during construction. Closure of accesses for fire apparatus by gates, barricades and other devices shall be prohibited unless approved by the Fire Chief. (Fire)
101. Temporary aboveground storage tanks may be used at construction sites for diesel fuel only and shall not exceed 1,000 gallon capacity. Tanks shall comply with all provisions found within the Fire Code. A Fire Department Permit shall be obtained prior to tank installation. The permit shall expire after 90 days from the date of issuance, unless extended by the Fire Chief. (Fire)
102. If site survey or earth moving work results in the discovery of hazardous materials in containers or what appears to be hazardous wastes released into the ground, the contractor or person responsible for the building permit must notify the Roseville Fire Department immediately. A representative from the Fire Department will make a determination as to whether the incident is reportable or not and if site remediation is required. (Fire)
103. The location and design of the gas service shall be determined by PG&E. The design of the gas service for this project shall not begin until PG&E has received a full set of City approved improvement plans for the project. (PG&E)
104. The project is subject to the noise standards established in the City's Noise Ordinance. In accordance with the City's Noise Ordinance project construction is exempt between the hours of seven a.m. and seven p.m. Monday through Friday, and between the hours of eight a.m. and eight p.m. Saturday and Sunday. Provided, however, that all construction equipment shall be fitted with factory installed muffling devices and that all construction equipment shall be maintained in good working order. (Building)
105. The developer (or designated consultant) shall certify that the building foundation location has been placed according to all approved setback requirements shown on the approved site plan. The developer shall prepare a written statement confirming building placement and provide an original copy to the City Building Division Field Inspector at the time of or prior to the foundation inspection. (Building)
106. Prior to Certificate of Occupancy, the applicant may apply for a Temporary Occupancy (TO) of the building. If a TO is desired, the applicant must submit a written request to the Building Division a minimum of thirty (30) days prior to the expected temporary occupancy date and shall include a schedule for occupancy and a description of the purpose for the Temporary Occupancy. (Building)

#### **CONDITIONS OF APPROVAL FOR TENTATIVE MAP PL18-0036**

1. The project is approved as shown in Exhibit B and as conditioned or modified below. (Planning)
2. This map shall be valid for a period of two (2) years from this date and shall expire on **April 26, 2020**. Prior to said expiration date, the applicant may apply for an extension of time, provided, however, that this approval shall be extended for no more than six years from **April 26, 2020**. (Planning)
3. The approval of a Tentative Map and/or tentative site plan does not constitute approval of proposed improvements as to size, design, materials, or location, unless specifically addressed in these conditions of approval. (Engineering)

4. The design and construction of all improvements shall conform to the Improvement Standards and Construction Standards of the City of Roseville, or as modified by these conditions of approval, or as directed by the City Engineer. (Engineering)
5. The developer shall not commence with any on-site improvements until such time as grading and/or improvement plans are approved and grading and/or encroachment permits are issued by the Department of Public Works. (Engineering)
6. The applicant shall pay City's actual costs for providing plan check, mapping, GIS, and inspection services. This may be a combination of staff costs and direct billing for contract professional services. (Engineering, Environmental Utilities, Finance)

**PRIOR TO ISSUANCE OF A GRADING PERMIT AND/OR IMPROVEMENT PLANS**

7. Landscape Plans for all landscape corridors and all landscaped common areas shall be approved with the improvement plans. Landscaping shall be installed for Substantial Completion of the subdivision improvements. The landscape plan shall comply with the Downtown Roseville Specific Plan and the City of Roseville Water Efficient Landscape Ordinance. (Planning, Engineering, Parks, Fire, Environmental Utilities)
8. Prior to the issuance of a grading permit or approval of Improvement Plans, the grading plans shall clearly identify all existing water and sewer utilities within the boundaries of the project (including adjoining public right of way). Existing utilities shall be identified in plan view and in profile view where grading activities will modify existing site elevations over top of or within 15 feet of the utility. Any utilities that could potentially be impacted by the project shall be clearly identified along with the proposed protection measures. The developer shall be responsible for taking measures and incurring costs associated with protecting the existing water and sewer utilities to the satisfaction of the Environmental Utilities Director. (Environmental Utilities)
9. Water and sewer infrastructure shall be designed and constructed pursuant to the adopted City of Roseville Improvement Standards and Construction Standards and shall reflect the following:
  - a. Sewer and water service laterals shall not be allowed off of water and sewer mains larger than 12 inches in diameter. (Environmental Utilities)
  - b. Utilities or permanent structures shall not be located within the area which would be disturbed by an open trench needed to expose sewer trunk mains deeper than 12' unless approved by Environmental Utilities in these conditions. The area needed to construct the trench is a sloped cone above the sewer main. The cone shall have 1:1 side slopes. (Environmental Utilities)
  - c. Water and sewer mains shall not exceed a depth of 12' below finished grade, unless authorized in these conditions. (Environmental Utilities)
  - d. All sewer manholes shall have all-weather 10-ton vehicular access unless authorized by these conditions. (Environmental Utilities)
10. Any backflow preventers visible from the street shall be painted green to blend in with the surrounding landscaping. The backflow preventers shall be screened with landscaping and shall comply with the following criteria:
  - a. There shall be a minimum clearance of four feet (4'), on all sides, from the backflow preventer to the landscaping.

- b. For maintenance purposes, the landscaping shall be installed on a maximum of three sides and the plant material shall not have thorns.
  - c. The control valves and the water meter shall be physically unobstructed.
  - d. The backflow preventer shall be covered with a green cover that will provide insulation. (Environmental Utilities)
- 11. A note shall be added to the Improvement Plans stating that all water backflow devices shall be tested and approved by the Environmental Utilities Department prior to the Notice of Completion for the improvements. (Environmental Utilities)
  - 12. Fire hydrants shall be located as required by the Fire Department. The maximum distance between fire hydrants shall not exceed 500' on center. (Fire)
  - 13. Minimum fire flow is 1,500 gallons per minute with 20 lbs. residual pressure. The fire flow and residual pressure may be increased, as determined by the Fire Marshall, where the project utility lines will serve non-residential uses. (Fire)
  - 14. Any facilities proposed for placement within public/electric utility easements shall be subject to review and approval by the Electric Department before any work commences in these areas. This includes, but is not limited to, landscaping, lighting, paving, signs, trees, walls, and structures of any type. (Electric)
  - 15. The location and design of the gas service shall be determined by PG&E. The design of gas service for this project shall not begin until PG&E has received a full set of City approved improvement plans for the project. (PG&E)
  - 16. It is the developer's responsibility to notify PG&E of any work required on PG&E facilities. (PG&E)

**PRIOR TO OR UPON RECORDATION OF FINAL/PARCEL MAP**

- 17. The following easements shall be provided and shown on the Final/Parcel Map or by separate instrument, unless otherwise provided for in these conditions:
  - a. Water and sewer easements; and,
  - b. Public access easements to allow for public parking and pedestrian access, as shown on tentative map (Planning, Environmental Utilities)
- 18. Easement widths shall comply with the City's Improvement Standards and Construction Standards. (Environmental Utilities, Electric, Engineering)
- 19. All existing easements shall be maintained, unless otherwise provided for in these conditions. (Environmental Utilities, Electric, Engineering)
- 20. Separate document easements required by the City shall be prepared in accordance with the City's "Policy for Dedication of Easements to the City of Roseville". All legal descriptions shall be prepared by a licensed land Surveyor (Environmental Utilities, Electric, Engineering)
- 21. Any structures crossing Lot/Parcel lines created by the Final/Parcel map shall be removed. (Engineering)
- 22. The street names shall be approved by the City of Roseville. (Engineering)

23. The subject property is within the Historic District Landscaping and Lighting District and will continue be levied on the annual property tax bill based on the Method of Apportionment in the approved Engineer Report for the District.
24. The Final/Parcel Map shall include an irrevocable offer to dedicate public rights-of-way and public and/or private easements as required by the City. Lettered Lot//Parcel along major roads shall be dedicated as landscape/pedestrian/public utility easements and in fee to the City as open space. (Engineering)
25. The words "traffic control appurtenances" shall be included in the list of utilities allowed in public utilities easements (PUE's) located along public roadways. (Engineering)
26. The Final/Lot/Parcel/Parcel Map shall be submitted per, "The Digital Submittal of Cadastral Surveys". Submittal shall occur after Engineering approval but prior to Council approval (Engineering)
27. Electric construction costs incurred by the City of Roseville Electric Department for this project shall be paid for by the developer per the applicable policy. (Electric)
28. The Environmental Utilities Department shall make a determination that there is adequate conveyance and treatment capacity in the City sewer system to handle the newly created Lot/Parcels. (Environmental Utilities)
29. The applicant shall pay all applicable water and sewer fees. (Environmental Utilities)

#### **OTHER CONDITIONS OF APPROVAL**

30. The applicant shall pay City's actual costs for providing plan check, installation and inspection services. This may be a combination of staff costs and direct billing for contract professional services (Environmental Utilities, Engineering)
31. Any relocation, rearrangement, or change to existing electric facilities due to this development shall be at the developer's expense. (Electric)
32. It is the responsibility of the developer to insure that all existing electric facilities remain free and clear of any obstructions during construction and when the project is complete. (Electric)
33. If site survey or earth moving work results in the discovery of hazardous materials in containers or what appears to be hazardous wastes released into the ground, the contractor shall notify the Roseville Fire Department immediately. A representative from the Fire Department will make a determination as to whether the incident is reportable or not and if site remediation is required. Non-emergency releases or notifications about the presence of containers found shall be reported to the Fire Department. (Fire)
34. All plant material shall be maintained under a 90 calendar day establishment period after initial planting. Upon completion of the establishment period, all plant material shall remain under warrantee for an additional 9 months minimum. Any plant material which does not survive during the establishment period shall be immediately replaced. Any trees or shrubs which do not survive during the warrantee period shall be replaced one month prior to the end of the warrantee period. Tree or shrub replacement made necessary due to acts of God, neglect or vandalism shall be exempt from the warrantee.

35. The project shall comply with all required environmental mitigation identified in the DTSP EIR. The applicable mitigation measures are outlined in the Junction Crossing MMP, contained within Attachment 5 to the 4/26/18 Planning Commission staff report. (Planning)

## MEMORANDUM

Date: September 26, 2017  
 To: Kevin Payne & Lauren Hocker, City of Roseville  
 From: Greg Behrens & Alan Telford, Fehr & Peers  
**Subject: *Historic Old Town Roseville Parking Study***

RS17-3533

This memorandum summarizes the findings of the Historic Old Town (HOT) Roseville Parking Study. The purpose of the parking study is to identify potential future parking shortfalls based on near- and long-term changes within the HOT area.

### Purpose

The objectives of the HOT Parking Study include:

- Evaluate existing HOT parking conditions
- Estimate future HOT parking supply and demand changes resulting from:
  - Implementation of the City of Roseville Downtown Specific Plan (DTSP) and other related land development within HOT
  - The Capitol Corridor Joint Powers Authority (CCJPA) Sacramento to Roseville Third Main Track Project (Third Track Project)
- Identify solutions to address potential future parking shortfalls

### Study Area

The study area is illustrated in **Figure 1**. Generally, the study area encompasses HOT proper (north and west of the Union Pacific tracks and east of Washington Boulevard), the Roseville Station area, and the Washington Boulevard corridor north to All America City Boulevard. Anticipated changes in parking supply and demand resulting from the DTSP land development and the CCJPA Third Track Project are expected to occur within these boundaries.

For the purposes of this analysis, the study area was divided into four subareas that exhibit distinct parking demand generation characteristics. As depicted in Figure 1, these subareas include:

- **Business District** subarea, comprised of the core HOT commercial activity center
- **Central** subarea, comprised of the residential neighborhood between Main Street and Pleasant Street, as well as nearby commercial uses along Washington Boulevard
- **North** subarea, comprised of the residential area north of Pleasant Street, as well as the Washington Square Shopping Center
- **Train Depot** subarea, comprised of Roseville Station and the surrounding neighborhood west of Washington Boulevard

### Data Collection

Fehr & Peers conducted hourly parking occupancy surveys throughout the study area in late April and early May of 2017 during the following time periods:

- Wednesday Morning – 8 AM to 1 PM
- Wednesday Evening – 4 PM to 9 PM
- Friday Evening – 7 PM to 12 AM
- Saturday Evening – 7 PM to 12 AM
- Sunday Morning – 7 AM to 12 PM

These time periods were selected in order to capture the anticipated 'peak hour' of parking demand for a variety of day types (e.g. weekday vs. weekend). The parking occupancy surveys recorded hourly variation in the number of parked vehicles within the survey zones depicted in **Figure 2**. These zones represent a mix of public on-street, public off-street, and private off-street parking. Zone boundaries were drawn to segregate individual land use typologies throughout the study area (i.e., adjacent residential and commercial land uses are captured in different zones).

In addition to the parking occupancy surveys, Fehr & Peers conducted a parking supply inventory to document the number and type (public, private residential, or private commercial) of parking spaces currently present within each survey zone.

### **Existing Parking Conditions**

This section describes the existing parking supply and demand within the study area.

#### **Existing Parking Supply**

According to the parking supply inventory, the study area currently contains approximately 1,532 total parking spaces. **Table 1** summarizes the number and type of existing parking spaces within each subarea. The greatest concentration of parking spaces exists within the Business District subarea, including 244 public parking spaces (on street and off street).

**Table 1. Existing Parking Supply**

| Subarea           | Parking Space Type |            |                        |                       | Total        |
|-------------------|--------------------|------------|------------------------|-----------------------|--------------|
|                   | Public             | Public     | Private                | Private               |              |
|                   | On Street          | Off Street | Residential Off Street | Commercial Off Street |              |
| Business District | 108                | 136        | 1                      | 287                   | <b>532</b>   |
| Central           | 167                | -          | 55                     | 84                    | <b>306</b>   |
| North             | 80                 | -          | 43                     | 159                   | <b>282</b>   |
| Train Depot       | 205                | 77         | 10                     | 120                   | <b>412</b>   |
| <b>Total</b>      | <b>560</b>         | <b>213</b> | <b>109</b>             | <b>650</b>            | <b>1,532</b> |

Source: Fehr & Peers, 2017.

**Figure 3** displays the number of parking spaces within each parking survey zone. All off street public parking is concentrated in three surface parking lots within the Business District subarea and two surface parking lots within the Train Depot subarea.

#### **Existing Parking Demand and Utilization**

**Table 2** summarizes the peak hourly parking demand and occupancy for each survey day. The highest total hourly parking demand across each of the survey periods occurs during the 7 PM hour on a Friday evening,

with 689 parking spaces occupied at 45 percent utilization. This can be attributed to a combination of study area residents returning home from work for the day and visitors patronizing restaurants, bars, and nightclubs within HOT.

**Table 2. Existing Daily Peak Parking Demand and Utilization**

| Subarea and Parking Space Type    |            | Supply       | Daily Peak Hour |            |             |            |               |            |              |            |
|-----------------------------------|------------|--------------|-----------------|------------|-------------|------------|---------------|------------|--------------|------------|

**Figure 4** illustrates the overall geographic distribution of parking demand throughout the study area during the Friday 7 PM peak hour. As illustrated in Figure 4, parking utilization is highest in the Business District subarea during this peak hour. Under existing conditions, Business District subarea parking spaces are 74 percent occupied during the 7 PM peak hour.

During the Friday 7 PM peak hour, parking demand is low at the Roseville Station public parking lot, with only 18 of the 77 available spaces occupied. However, this lot is heavily patronized by CCJPA passengers throughout the week, and is regularly at or near full capacity during a typical weekday morning or early afternoon. Parking demand drops off only after passengers return to Roseville on the 5:48 PM train and depart from the lot.

Additional exhibits presenting hourly parking occupancy for all survey time periods are located in the Appendix.

### **Near-Term Parking Conditions**

The following projects would affect near-term parking supply and demand within the study area:

- Land Development
  - **Junction Crossing Project**, located at the existing public parking lot on Pacific Street. The project would include 86 affordable housing units, 56 on-site private residential parking spaces, and 30 on-site public parking spaces.
  - **Pacific Plaza Project**, located at the northeastern corner of the Main Street and Washington Boulevard intersection. The project would include 75 affordable housing units, 3,000 square feet of ground floor retail, 38 on-site private residential parking spaces, and six on-site private commercial parking spaces.
- CCJPA Third Track Project
  - **Phase 1**, which would include the construction of additional track and an operator layover facility within HOT. CCJPA would operate two additional daily round trips to Roseville Station (three total).

### **Near-Term Land Development Parking Changes**

Parking supply changes associated with the Junction Crossing and Pacific Plaza Projects were determined based on on-site parking provisions identified on the proposed project site plans submitted to the City as of September 2017. Anticipated parking demand changes associated with the two development projects were estimated per the following City Code parking requirements and State parking requirements for affordable housing:

- Residential development
  - One parking space per two dwelling units of affordable housing within proximity to transit service (State of California, AB 744)
- Commercial development
  - One parking space per 500 square feet of commercial development within the Downtown Specific Plan area (City of Roseville, Downtown Code)

Based on this methodology, near-term parking demand generated by the Junction Crossing and Pacific Plaza Projects would be sufficiently accommodated by on-site parking provisions.

### **Near-Term CCJPA Parking Changes**

The construction of new track and the operator layover facility associated with Phase 1 of the Third Track Project would require the removal of existing off street and on street public parking supply. CCJPA plans to construct new public off street parking lots to offset the loss of existing HOT public parking resulting from the project's construction. **Figure 4** displays all planned parking modifications related to the Third Track Project.

**Table 3** summarizes the Third Track Project's effect on HOT parking supply. The project would remove 79 existing public parking spaces and add 118 new public parking spaces, for a net increase of 39 public parking spaces. The affected existing parking spaces include the off street public parking lots behind the Boxing Donkey restaurant and adjacent to the Moose Lodge, as well as on street public parking spaces on Lincoln and Pacific Streets.

**Table 3. CCJPA Third Track Project Parking Supply Changes**

|                               |            |  | CCJPA Third Track Project |
|-------------------------------|------------|--|---------------------------|
| <b>Removed Parking Spaces</b> |            |  | <b>79</b>                 |
| Public                        | On Street  |  | 5                         |
| Public                        | Off Street |  | 74                        |
| <b>Added Parking Spaces</b>   |            |  | <b>118</b>                |
| Public                        | On Street  |  |                           |
| Public                        | Off Street |  | 118                       |
| <b>Net New Parking Spaces</b> |            |  | <b>39</b>                 |
| Public                        | On Street  |  | -5                        |
| Public                        | Off Street |  | 44                        |

Note: Refer to the "Potential Parking Impacts and Mitigation Strategies" section (page 13) for a description of the added parking spaces.  
Source: CCJPA, 2017.

The two new daily CCJPA round trips associated with Phase 1 of the Third Track Project would increase passenger boardings and passenger parking demand within the vicinity of the train station. **Chart 1**, below, summarizes the existing hourly CCJPA parking demand at Roseville Station, as well as the anticipated hourly parking demand generated by Phase 1 of the Third Track Project. Hourly variation in CCJPA parking demand is directly tied to the train schedule and the estimated number of passengers boarding and alighting on each trip. The parking demand estimates also account for Roseville CCJPA passenger travel behavior, including station mode of access and average vehicle occupancy as reported from recent CCJPA passenger surveys.

Under Phase 1 conditions, CCJPA staff indicated that passenger boardings and alightings at Roseville Station would be clustered in the morning and evening, respectively. This would result in parking demand that would accumulate early in the morning, plateau through the middle of the day, and drop off precipitously in the evening.

According to Chart 1, peak parking demand for Phase 1 of the Third Track Project would occur from 7 AM to 4 PM and reach 174 parking spaces, 83 spaces above the existing peak CCJPA parking demand. CCJPA parking demand would decrease significantly by 7 PM, the peak parking hour for the HOT area as a whole. This is typical of commuter-oriented stations along the CCJPA corridor, where parking demand drops drastically after passengers complete their evening commute and depart from parking areas adjacent to the station.

Because the Roseville Station lot is fully occupied under existing conditions, any additional parking demand would need to be accommodated elsewhere. Per the direction of City staff, it is not desirable to accommodate excess CCJPA parking demand in surrounding on street parking areas that encroach into the adjacent residential neighborhood, therefore, alternative parking solutions would need to be considered.

#### Near-Term Parking Supply and Demand Comparison

Fehr & Peers estimated near-term hourly demand throughout the study area using a spreadsheet-based parking model. This approach allows future parking demand to be assigned to appropriate zones based on the availability and type of parking supply (i.e., private commercial parking supply would only be reserved for parking demand generated by affiliated land uses). According to this exercise, near-term parking demand would mirror the existing 7 PM peak parking hour in HOT. **Table 4** summarizes the estimated parking demand and supply for near-term conditions during the 7 PM peak hour for each HOT subarea.

Under near-term conditions, with the additional parking provided by the CCJPA, parking supply would be greater than parking demand for the study area as a whole during the 7 PM peak hour. Moreover, none of the HOT subareas would experience a parking shortfall during the 7 PM peak hour.

However, a near-term parking shortfall is expected to occur within the Train Depot subarea from approximately 7 AM to 4 PM on a typical weekday. This is due to the following factors:

- Full utilization of the Roseville Station surface parking lot under existing conditions
- Increase in CCJPA ridership and parking demand associated with Phase 1 of the Third Track Project
- Lack of available off street public parking within a five minute walk of the Roseville Station platform under near-term conditions

According to the analysis, under near-term conditions, the Train Depot subarea parking shortfall would peak at 9 AM and total 81 parking spaces. For potential solutions, refer to the “Potential Parking Impacts and Mitigation Strategies” section of this report, which begins on page 13.

**Table 4. Near-Term 7 PM Peak Hour Parking Conditions**

| Subarea and Parking Space Type           |            | Supply       | Weekday Peak Hour |               |

### **Long-Term Parking Conditions**

The following projects would affect long-term parking supply and demand within the study area:

- Land Development
  - **Downtown Specific Plan (DTSP)** implementation, including mixed-use development within the HOT area.
- CCJPA Third Track Project
  - **Buildout**, which would include seven additional daily round trips to Roseville Station (ten total).

### **Long-Term Land Development Parking Changes**

Adopted by the Roseville City Council in 2009, the DTSP establishes a vision for future development within the HOT and Downtown Roseville areas. The land use plan included in the DTSP represents a buildout scenario for the HOT area typified by high density, mixed-use development.

For the purposes of this study, under long-term conditions, future parking changes associated with the DTSP were derived from reasonably foreseeable land use components of the plan, rather than the full buildout of the plan. Consultation with City staff identified six 'opportunity sites' that were considered to be reasonably foreseeable within the long-term planning horizon. These sites are illustrated in **Figure 6**.

**Table 5** summarizes the total residential and commercial development estimated for each site. The two active development proposals, the Junction Crossing and Pacific Plaza Projects, are located on opportunity sites F and C, respectively. While it is expected that the remaining sites would include either mixed-use or commercial development, specific quantities for each site could vary greatly based on the density parameters established in the DTSP. To reflect the existing market conditions, residential and commercial densities from the two active development proposals were assumed for the remaining opportunity sites for the purposes of this study.

**Table 5. DTSP Opportunity Sites**

|                            |                         | Opportunity Sites |        |                 |       |        |                 |               |
|----------------------------|-------------------------|-------------------|--------|-----------------|-------|--------|-----------------|---------------|

**Table 6** summarizes the estimated net effect on HOT parking supply for each opportunity site. Parking supply provisions for each opportunity site were derived from on-site parking requirements detailed in the Downtown Code. In total, the opportunity sites would add an estimated 404 parking spaces within the HOT area.

**Table 6. DTSP Opportunity Sites Parking Supply Changes**

|                        |            | Opportunity Sites |    |     |      |     |     |       |
|------------------------|------------|-------------------|----|-----|------|-----|-----|-------|
|                        |            | A                 | B  | C   | D    | E   | F   | Total |
| Removed Parking Spaces |            |                   | 46 | 12  | 150  | 89  | 51  | 348   |

| Public                 | Off Street |                   |    |     |      |     |     | ---   |
| Residential            | Off Street | 181               |    | 38  | 141  | 152 | 56  | 568   |
| Commercial             | Off Street | 13                | 54 | 6   | 8    | 11  | 30  | 122   |
| Net New Parking Spaces |            | 256               | 8  | 32  | -1   | 74  | 35  | 404   |
| Public                 | On Street  | 62                |    | -10 |      |     |     | 52    |
| Public                 | Off Street |                   |    |     |      |     | -51 | -51   |
| Residential            | Off Street | 181               |    | 38  | 141  | 152 | 56  | 568   |
| Commercial             | Off Street | 13                | 8  | 4   | -142 | -78 | 30  | -165  |

Source: City of Roseville, Fehr & Peers, 2017.

It is estimated that each opportunity site would generate the following peak parking demand:

- Residential development
  - One and a half parking spaces per dwelling unit with two or more bedrooms
  - One parking space per dwelling unit with one bedroom
  - One parking space per two dwelling units of affordable housing within proximity to transit service, consistent with California State law
- Commercial development
  - One parking space per 500 square feet of commercial development

These figures are typical for other mixed-use districts with access to transit, where residents, employees, and visitors have access to a greater variety of transportation options and are more likely to implement a 'park once' strategy if driving and parking.

**Table 7** summarizes the estimated peak parking demand for each opportunity site. A comparison with Table 6 shows that the estimated increase in peak parking demand (590 spaces) from the opportunity sites would be greater than the estimated increase in on-site parking supply provided at each site (404 spaces).

**Table 7. DTSP Opportunity Sites Parking Demand Changes**

|                             |            | Opportunity Sites |    |    |     |     |    |       |
|-----------------------------|------------|-------------------|----|----|-----|-----|----|-------|
|                             |            | A                 | B  | C  | D   | E   | F  | Total |
| Net New Peak Parking Demand |            | 194               | 27 | 42 | 149 | 135 | 43 | 590   |
| Residential                 | Off Street | 181               | -2 | 38 | 139 | 152 | 43 | 551   |
| Commercial                  | Off Street | 13                | 29 | 4  | 10  | -17 | -- | 39    |

Note: Parking demand figures included above represent the peak parking demand for each land use type. For residential land uses, this typically occurs during the middle of the night, when the majority of residents are at home. For commercial land uses, this typically occurs during the middle of the day or the evening, when patronage of businesses is at its peak.

Source: City of Roseville, Fehr & Peers, 2017.

Fehr & Peers estimated hourly variation in parking demand for each opportunity site using the Urban Land Institute (ULI) shared parking methodology. Based on this methodology, the peak parking hour for the opportunity sites would coincide with the existing Friday 7 PM peak parking hour for the study area. During this peak hour, the opportunity sites would generate demand for an estimated 534 residential and 37 commercial parking spaces (97 percent of peak residential parking demand and 95 percent of peak commercial parking demand). Therefore, there will be sufficient *overall* parking to accommodate long-term land development changes in HOT. However, refer to the "Long-Term Parking Supply and Demand Comparison" section (page 11) for analysis of parking by subarea.

### Long-Term CCJPA Parking Changes

Buildout of the CCJPA Third Track Project would not further alter HOT parking supply beyond the changes described above associated with the construction of Phase 1. However, the addition of seven daily round trips (for a total of ten daily round trips) would generate additional ridership and parking demand within the study area.

**Chart 2** summarizes the estimated hourly CCJPA parking demand at Roseville Station associated with buildout of the Third Track Project in relation to existing and Phase 1 parking demand. According to Chart 2, peak parking demand for buildout of the Third Track Project would occur at 11 AM and reach 250 parking spaces, 161 spaces above the existing peak CCJPA parking demand. Because the Roseville Station lot is fully occupied under existing conditions, this additional parking demand would need to be accommodated elsewhere. Similar to Phase 1 conditions, CCJPA parking demand would decrease significantly by 7 PM, the peak parking hour for the HOT area as a whole.

### Long-Term Parking Supply and Demand Comparison

Fehr & Peers utilized the spreadsheet-based parking model to estimate long-term hourly parking demand throughout the study area. According to this exercise, long-term parking demand would mirror the existing 7 PM peak parking hour in HOT. **Table 8** summarizes the estimated parking demand and supply for long-term conditions during the 7 PM peak hour for each HOT subarea.

Under long-term conditions, parking supply would be greater than parking demand for the study area *as a whole* during the 7 PM peak hour. However, within the Business District subarea, a parking shortfall of approximately 97 parking spaces would occur during the 7 PM peak hour under long-term conditions.<sup>1</sup> This shortfall would occur due to a combination of factors within the Business District subarea, including:

- Significant increase in residential development and associated parking demand
- Reduction of off street parking supply
- 'Under-parking' of new development sites (i.e., less than one on-site parking space per dwelling unit for affordable housing)

The addition of CCJPA Third Track Project buildout parking demand would further contribute to the mid-day parking shortfall within the Train Depot subarea under long-term conditions. This shortfall is estimated to peak at 158 parking spaces during the 11 AM hour.

---

<sup>1</sup> For the Business District subarea, note that Table 8 indicates an overall parking shortfall of 44 spaces and a commercial off street parking shortfall of 97 spaces. The overall Business District parking shortfall includes the estimated excess parking supply for non-commercial parking areas, including private residential parking. Vehicles parking for commercial purposes would not have access to the available parking supply provided by residential off street parking areas, therefore, the commercial parking shortfall of 97 spaces represents the upper limits of the overall parking shortfall for the Business District subarea.

**Table 8. Long-Term 7 PM Peak Hour Parking Conditions**

| Subarea and Parking Space Type           |            | Supply       | Weekday Peak Hour |               |
|------------------------------------------|------------|--------------|-------------------|---------------|
|                                          |            |              | Friday 7 PM       |               |
|                                          |            |              | Demand            | Avail. Spaces |
| <b><i>Business District Subtotal</i></b> |            | <b>711</b>   | <b>755</b>        | <b>-44</b>    |
| Public                                   | On Street  | 93           | 80                | 13            |
| Public                                   | Off Street | 129          | 114               | 15            |
| Residential                              | Off Street | 388          | 363               | 25            |
| Commercial                               | Off Street | 101          | 198               | -97           |
| <b><i>Central Subtotal</i></b>           |            | <b>307</b>   | <b>123</b>        | <b>184</b>    |
| Public                                   | On Street  | 167          | 64                | 103           |
| Public                                   | Off Street | -            | -                 | -             |
| Residential                              | Off Street | 55           | 19                | 36            |
| Commercial                               | Off Street | 85           | 40                | 45            |
| <b><i>North Subtotal</i></b>             |            | <b>545</b>   | <b>261</b>        | <b>284</b>    |
| Public                                   | On Street  | 142          | 19                | 123           |
| Public                                   | Off Street | -            | -                 | -             |
| Residential                              | Off Street | 224          | 196               | 28            |
| Commercial                               | Off Street | 179          | 46                | 133           |
| <b><i>Train Depot Subtotal</i></b>       |            | <b>412</b>   | <b>154</b>        | <b>258</b>    |

## **Potential Parking Impacts and Mitigation Strategies**

The following section summarizes potential parking impacts and mitigation measures based on the results of the near- and long-term parking analysis. The mitigation strategies described below provide a menu of potential options for consideration by the City.

### **Near-Term Impact 1 – CCJPA Third Track Project Construction**

The construction of Phase 1 of the CCJPA Third Track Project would require the removal of 79 public parking spaces within the HOT area in order to accommodate a new layover facility and new track. Affected parking includes the existing surface lot behind the Boxing Donkey restaurant (48 spaces), the existing surface lot immediately north of the Elks Lodge (26 spaces), and existing on street parking on Pacific and Lincoln Streets (5 spaces).

#### **Near-Term Mitigation 1.1**

As part of the Third Track Project, CCJPA plans to construct new off street public parking to offset the loss of existing public parking due construction of the track and layover facility. Options for various parking configurations are illustrated in Figures A-28, A-29, and A-30 in the Appendix:

- **CCJPA Site – Alternative 1 – Surface Lot (Figure A-28)** – this alternative includes 131 additional off street public parking spaces, including the 118 off street public parking spaces that CCJPA plans to construct to offset public parking impacts associated with the construction of the Third Track Project. In addition to the planned CCJPA parking mitigation, 13 parking spaces could be accommodated behind the Boxing Donkey restaurant.
- **CCJPA Site – Alternative 2 – Surface Lot (Figure A-29)** – this alternative represents an altered configuration of the CCJPA layover yard and adjacent surface parking lots. In total, the alternative would provide 129 off street public parking spaces (including an additional 13 potential parking spaces behind the Boxing Donkey). This alternative would provide access to the large surface parking lot from both the north (via Lincoln Street) and the south (via Pacific Street). This alternative also allows for future flexibility should the City decide to pursue the construction of a parking garage near the CCJPA layover yard (detailed in Alternative 2 – Parking Garage). *This is the preferred alternative.*
- **CCJPA Site – Alternative 3 – Surface Lot (Figure A-30)** – this alternative represents an altered configuration of the CCJPA layover yard and adjacent surface parking lots. In total, the alternative would provide 105 off street public parking spaces (including an additional 13 potential parking spaces behind the Boxing Donkey). This alternative allows for future flexibility should the City decide to pursue the construction of a parking garage near the CCJPA layover yard (detailed in Alternative 3 – Parking Garage).
- **CCJPA Site – Alternative 4 – Surface Lot (Figure 5)** – this alternative includes the additional 118 off street public parking spaces that CCJPA plans to construct to offset parking impacts associated with the construction of the Third Track Project. The parking effects of this alternative are captured in the near- and long-term analysis above.

These alternatives were developed in consultation with CCJPA staff to ensure adequate access for employees and service vehicles (e.g. fuel trucks) traveling to and from the layover facility. The

construction of any of these alternatives would provide additional public parking that exceeds the loss resulting from the CCJPA Third Track Project construction, therefore mitigating parking supply impacts associated with Near-Term Impact 1.

### Near-Term Impact 2 – CCJPA Phase 1 Passenger Parking Demand

Completion of Phase 1 of the Third Track Project would allow CCJPA to operate two additional round trips serving Roseville Station in the near-term time horizon, increasing the total number of daily trips to three. The additional trips would generate additional ridership and parking demand within the vicinity of Roseville Station. It is estimated that under near-term conditions, Phase 1 of the Third Track Project would create a mid-day parking shortfall of 81 parking spaces in the Train Depot subarea.

#### Near-Term Mitigation 2.1

Additional on street parking could be provided on surface streets within the vicinity of Roseville Station. As shown in **Figure A-31**, on street parking on Church and Pacific Streets could be reconfigured to provide up to 105 on street parking spaces within the vicinity of Roseville Station. These spaces could be utilized by CCJPA passengers without affecting the on street parking supply in adjacent residential neighborhoods.

#### Near-Term Mitigation 2.2

The City could explore potential partnerships (e.g. lease agreements) to leverage private parking supply within a five minute walk of the station.

#### Near-Term Mitigation 2.3

The implementation of transportation demand management (TDM) measures could reduce parking demand associated with CCJPA Phase 1 passengers. Potential TDM strategies include marketing for non-motorized first-/last-mile access modes (walking, biking, etc.) and preferential carpool parking (e.g. designating reserved carpool parking in parking spaces closest to the station platform).

Implementation of these mitigation measures would sufficiently address near-term mid-day parking shortfalls in the Train Depot subarea related to Phase 1 CCJPA passenger parking demand.

### Long-Term Impact 1 – DTSP and CCJPA Buildout

Buildout of the DTSP would cause a parking shortfall of 97 spaces during the 7 PM peak hour within the Business District subarea under long-term conditions. Buildout of the CCJPA Third Track Project would increase CCJPA service at Roseville Station to ten daily round trips and cause an estimated shortfall of 158 spaces during the 11 AM hour within the Train Depot subarea under long-term conditions.

#### Long-Term Mitigation 1.1

The construction of new public parking facilities could address future parking shortfalls by accommodating a variety of users for varying peak hours throughout the day, including weekday morning CCJPA passengers, evening HOT visitors, and new HOT residents. **Figure 7** identifies potential sites within HOT where additional parking facilities could be located. These include:

- **Roseville Station Site**, located at the existing 77-space surface parking lot adjacent to the station platform. Conceptual design plans recently produced for the City include a 270-space parking structure on this site, yielding a net increase of 193 public parking spaces.
- **Pacific Street Site**, located at the southeast corner of the Washington Boulevard and Church Street intersection. Conceptual parking layouts for the following site alternatives are included in Figures A-32 and A-33 in the Appendix:
  - **As-is** – leaving the site as-is would decrease the long-term parking shortfall within the Business District subarea by removing the additional residential parking demand from the Junction Crossing project and maintaining the existing off-street public parking supply.
  - **Pacific Street Site – Alternative 1 – DTSP Garage with Retail (Figure A-32)** – this alternative includes the 400-space parking structure with wraparound retail concept developed for the DTSP. This alternative would decrease the long-term parking shortfall by adding an additional 197 off street public parking spaces compared to existing conditions (plus an additional 130 spaces for private residential use).
  - **Pacific Street Site – Alternative 2 – Junction Crossing Project (Figure A-33)** – this alternative includes the proposed 86-unit Junction Crossing affordable housing project. The parking effects of this project are captured in the near- and long-term analysis above. The Junction Crossing Project would generate demand for approximately 43 parking spaces during the 7 PM peak hour. The proposed project would provide 56 on-site private residential parking spaces and 30 on-site public parking spaces.

Alternatives developed for this site would address the long-term 11 AM Train Depot subarea parking shortfall because it is located within a five minute walk of the Roseville Station platform.

- **CCJPA Site**, located between the existing Lincoln Street surface parking lot and the UPRR tracks. Conceptual parking garage layouts for the following site alternatives are included in Figures A-34 and A-35 in the Appendix:
  - **CCJPA Site – Alternative 2 – Parking Garage (Figure A-34)** – this alternative includes a three-story 232-space parking structure. The parking garage would be

located on the site of the proposed parking lot detailed in *CCJPA Site – Alternative 2 – Surface Lot*, adjacent to the planned CCJPA layover facility. Vehicular access to the garage would be available from the north and south via Lincoln Street and Pacific Street, respectively. This alternative would reduce the long-term parking shortfall by providing an additional 264 off street public parking spaces compared to existing conditions.

- **CCJPA Site – Alternative 3 – Parking Garage (Figure A-35)** – this alternative includes a three-story 268-space parking structure. The first two floors of the parking garage would be located on the site of the proposed parking lot detailed in *CCJPA Site – Alternative 3 – Surface Lot*, adjacent to the planned CCJPA layover facility. The third floor of the parking garage would be decked over the planned layover facility, providing garage access to vehicles traveling from the north via Lincoln Street. This alternative would reduce the long-term parking shortfall by providing an additional 273 off street public parking spaces compared to existing conditions.

Alternatives developed for this site would not address the long-term 11 AM Train Depot subarea parking shortfall because it is located beyond a five minute walk of the Roseville Station platform.

Implementation of these mitigation measures would sufficiently address long-term parking shortfalls occurring during the mid-day period in the Train Depot subarea and during the 7 PM peak hour in the Business District subarea.

## MEMORANDUM

To: **Ardie Zahedani and Jay Coles**

From: Isabel Domeyko and Jesse Walker

Date: February 15, 2018

Re: Junction Crossings Impact on Historic Old Town Business District

St. Anton Communities is proposing to develop a workforce housing project in the Historic Old Town Roseville (HOT) Business District. The Junction Crossings development (Project) proposes to construct 80 units of affordable housing at the site of an existing public parking lot at the northern corner of Washington and Pacific Streets. **Figure 1** shows the location of the Proposed Project, the HOT Business District, and the surrounding area.

The City has requested an analysis of the Project's economic effects on retail businesses in the HOT Business District. New Economics & Advisory has researched this issue with a specific focus on retail spending potential created by Project residents, as well as changes in parking as a result of the Project. This memorandum summarizes the results of this research.

**1**

### *Map of Historic Old Town (HOT) Business District Project Area Junction Crossings*

## Study Parameters

The study estimates two types of economic impacts of the Proposed Project on local retail business activities. First, Project residents will spend money on retail goods and services, a portion of which will be captured by local businesses. Second, changes to the number of available public parking spaces in the Business District portion of HOT may affect retail business activities. At the City's request, the parking component of the analysis considers two parking scenarios:

- **Project Scenario**, which includes the development of the Project alone, and results in a net loss of 11 public parking spaces. The existing site has been determined to possess 50 spaces currently, including 38 striped spaces and room for an additional 12 vehicles to park on unpaved, unstriped locations.<sup>1</sup> Once the Project is constructed, 39 reconfigured public parking spaces will be provided, resulting in a net loss of 11 spaces from current conditions.
- **Near-Term Scenario**, which includes the development of the Project, another housing project (Pacific Plaza), and the addition of Phase 1 of the City's Third Track rail project. This scenario presumes that the City would construct an additional public parking lot in the Business District, resulting in a net addition of 50 new spaces in the area, based on the Historic Old Town Roseville Parking Study, prepared by Fehr and Peers.

## Summary of Findings

The findings below encapsulate the key conclusions and insights into the Project's impacts on local retailers. **Figure 2** summarizes the quantifiable results of Project resident spending and **Figure 3** summarizes the potential parking implications under the two scenarios analyzed. **Appendix A** contains supporting calculations utilized to derive the results.

- **Finding 1: Existing retailers in the Business District portion of HOT are predominantly clustered around Eating and Drinking Establishments and personal services (e.g. salons).** Of the approximately 50 businesses in HOT, at least 6 businesses are restaurants, and at least 5 are salons/barber shops. The number of new retail businesses appears to be growing, and a review of taxable sales data provided by the City indicate that overall retail sales within the OTR have been steadily increasing over the last 5 years.

---

<sup>1</sup> The existing and future project parking quantities were provided by St. Anton Communities and the City of Roseville. The quantity of existing spaces at the Project site (50) differs slightly from the 51 spaces shown in the Historic Old Town Roseville Parking study, prepared by Fehr and Peers. The parking quantities used in this analysis are based on updated figures provided by the Alta Parking Survey and through discussions with the City of Roseville.

- **Finding 2: Non-retail businesses in the Business District portion of HOT include insurance firms, non-profit organizations, and other miscellaneous businesses.** For some of these entities, a significant portion of business is conducted on-line and via email, but qualitative feedback obtained from business representatives indicates that parking for employees is challenging both during traditional business hours and on holidays. However, this analysis focuses predominantly on retail businesses.
- **Finding 3: The Proposed Project includes 80 units of workforce housing, at which residents' housing costs will be limited to account for no more than 30 percent of total household income.** Because of this cap, occupants are expected to have a proportionately higher share of disposable income available for spending on retail goods and services. Some of this spending will occur at retail businesses in the Business District portion of HOT. As a point of comparison, the average household in the U.S. spends 33 percent of annual income on housing expenses (according to the Bureau of Labor Statistics), and between 34 and 36 percent of Low- and Very-Low Income Households in Placer County spend more than 30% of their total income on housing expenses, according to the City's Housing Element.
- **Finding 4: Project households could spend approximately \$19,500 per year on retail goods at "brick and mortar" establishments.** Based on current spending levels and a plausible range of potential capture, the Project would inject approximately \$59,850 to \$139,750 in new resident spending annually in Old Town, which represents approximately 1.2 to 2.9 percent of the Business District's current annual sales. It should be noted that this amount is conservative in that it does not include any potential spending from the visitors of Project residents or other "spin-off" activity, which could add to the overall spending impacts of the Project. It is additionally conservative because other parts of HOT have retail businesses that could reasonably capture expenditures made by Project residents.
- **Finding 5: A lack of available parking has been identified by local businesses as a constraint to their revenue attainment, with the most impacted periods being on Friday and Saturday evenings.** By estimating current estimated total annual sales in the district, adjusted to include only the periods of limited availability, each publicly-available parking space has an annual value to the district of approximately \$5,400. Figure 3 shows the detailed assumptions and calculations that support this calculation.
- **Finding 6: The Project's removal of 11 net public parking spaces in the HOT Business District could result in a negative impact of \$59,000 in annual sales for local retailers.** This amount could be fully-mitigated by the spending of Project residents (as described in Finding 4 above).
- **Finding 7: Once the Third Rail Project is constructed (and the associated parking described under the Near-Term Scenario above), an additional 50 net public parking spaces will be added to the Business District.** These additional spaces provide the potential for \$270,000 in additional local retail sales.

## 2

## Methodology and Key Assumptions

New Economics analyzed the current business activity and parking dynamics in the HOT Business District in order to assess how the addition of 80 new Project households and varying numbers of public parking spaces would affect the area. The analytical techniques, data sources, assumptions, and other critical information used in the Analysis are described below, and the attached **Appendix A** includes the various maps, figures, and tables which display the technical data, calculations, and results used in this Analysis.

### Spending Impacts - Methodology, Data, and Assumptions

New Economics analyzed the future spending of Project households by assessing the projected household income limits, and adjusting them to account for the smaller proportion that would be spent on housing costs, leaving additional income available for other purposes. New Economics has estimated that each household in the Project will spend an average of approximately \$19,500 per year on retail goods and services at “brick and mortar” retail.

Next, New Economics assessed the potential capture in the HOT Business District, by retail category. Since only certain retail categories are available to be purchased in the district, only the Food Away From Home, Alcoholic Beverages, Entertainment, Personal Care Product/ Services, and Tobacco categories were applied capture rates shown in **Figure 4**. Since Food Away From Home and Alcoholic Beverages represent relatively large proportions of spending, and since there are several options in Business District of HOT for Project residents to spend in these categories we applied high-end and low-end capture rates, ranging from 20% to 60%.

Based on these capture rates, it is estimated that Project households will spend approximately \$750 to \$1,750 per year in the HOT Business District. This per-household amount was then applied to the total 80 units planned for the Project to arrive at a total of approximately \$59,850 to \$139,750 spent annually in the HOT Business District by Project households. This amount was compared to the total estimated retail sales in the entire HOT district, which was estimated by analyzing taxable sales data for HOT and applying taxable percentage assumptions to arrive at total estimated sales. These calculations are documented in **Figure 2**, which shows that the spending from Project households will increase current sales by approximately 1.2 to 2.9 percent.

### Parking Impacts - Methodology, Data, and Assumptions

Business representatives interviewed as part of this analysis have expressed concern over the lack of available parking in the Business District of HOT. In order to assess the impact of changing parking dynamics as the result of the Project and the Near-Term Scenario described above, New Economics has estimated a value of each available parking space, based on the vehicle-based sales activity in the district. The methodology utilized was adapted from the National Main Street Center of the National Trust for Historic Preservation, and involves quantifying the total annual sales in the district,

deducting sales that occur to those who walk, take transit, or otherwise arrive in the district through some method other than driving a personal vehicle, which is then spread to the number of spaces in the district. The assumptions used in these calculations were informed by interviews conducted with local restaurant businesses, which are summarized in **Figure 5**.

As shown, New Economics has estimated that the vehicle-related sales in the Business District of HOT are approximately \$4.2 million per year, and that 54%, or \$2.3 million, occurs during “peak” periods (weekend nights) when parking is most heavily-impacted. On a per-parking-space basis, this parking-impacted annual spending equals approximately \$5,400 per space.<sup>2</sup>

Thus, when a parking space is removed or added to the district, a corresponding negative or positive value of \$5,400 per space can be applied. **Figure 3** (above) shows that the Project alone will produce a net reduction in 11 public parking spaces, accounting for \$59,000 in lost annual retail sales. Even so, this impact may be fully-mitigated by the \$59,850 to \$139,750 positive impact that Project residents will bring to the HOT Business District (as illustrated in **Figure 2** above). When the Near-Term Scenario comes to fruition, a net of 50 additional parking spaces will be added to the district, accounting for a potential increase in annual sales of approximately \$270,000.

---

<sup>2</sup> This calculation assumes an 80% occupancy rate, which assumes that 20% of parking spaces are available at any given time, even during “peak” periods.

## 4 Estimated Project Household Expenditures Captured by HOT Business District Retailers Junction Crossings

[1] The Bureau of Labor Statistics' Consumer Expenditure Survey shows spending by household income deciles. The fourth decile was used in this table, since it is the closest to the anticipated household incomes in the Project.

[2] Assumes that e-commerce accounts for 10% of all sales (excluding gasoline and automobiles). This assumption is supported by provided by CoStar in the State of the U.S. Retail Market, 2017 Q1 Review and Forecast.

[3] From Reference USA. See Figure A-3.

[4] Capture rates are based on professional judgement, informed by the number and character of existing businesses within the HOT business district.

[5] Annual household income and amount spent on housing for Project households was provided by St. Anton Communities and the City of Roseville.

## A-2

### *Parking Spaces (Net) Junction Crossings*

| <b>Project</b> | <b>Junction<br/>Crossings<br/>Alone [1]</b> | <b>Near Term:<br/>3 Projects [2]</b> |
|----------------|---------------------------------------------|--------------------------------------|
| Spaces Removed | -50                                         | -79                                  |
| New Spaces     | 39                                          | 129 [3]                              |
| Net Spaces     | -11                                         | 50                                   |

[1] From the Junction Crossings Conceptual Site Plan prepared by KTGy, and Alta Parking Survey, 2017. Survey shows 38 striped, paved spaces under current conditions, and additional discussion with the Project applicant and City of Roseville have indicated that an additional space exists for up to 12 vehicles (for a total of 50).

[2] Includes Phase 1 of the Third Track Project, Pacific Plaza, and Junction Crossings.

[3] 129 spaces because ALT 2 CCJPA site was used.

### **Noise Appendix**

## Introduction

This report analyzes the noise impacts from Junction Crossing (the “proposed project”) at 120 Pacific Street in Roseville, California. The proposed project is in the City of Roseville’s Downtown Specific Plan Area and the Downtown Specific Plan Environmental Impact Report (EIR) was prepared to meet the requirements of a project-level EIR. The City’s intention in preparing the Downtown Specific Plan EIR was that no further environmental review under CEQA would be required for subsequent projects which are consistent with the Specific Plan (to provide for the streamlined approvals). However, the City of Roseville requires a noise analysis so that noise mitigation can be considered in project design. This report provides an overview of existing noise levels measured at the project site, local noise regulatory framework, an analysis of potential noise impacts that would result from implementation of the proposed project, and recommended mitigation measures. Potential noise impacts are discussed for short-term construction noise, long-term operational noise sources, and land use noise compatibility for residents.

### Setting:

#### **Noise Descriptors**

Sound is mechanical energy transmitted by pressure waves through a medium such as air. Noise is defined as unwanted sound. Sound pressure level has become the most common descriptor used to characterize the “loudness” of an ambient sound level. Sound pressure level is measured in decibels (dB), with zero dB corresponding roughly to the threshold of human hearing, and 120 to 140 dB corresponding to the threshold of pain. Decibels are measured using different scales, and it has been found that A-weighting of sound levels best reflects the human ear’s reduced sensitivity to low frequencies, and correlates well with human perceptions of the annoying aspects of noise. The A-weighted decibel scale (dBA) is cited in most noise criteria. All references to decibels (dB) in this report will be A-weighted unless noted otherwise.

Several time-averaged scales represent noise environments and consequences of human activities. The most commonly used noise descriptors are the equivalent A-weighted sound level over a given time period (Leq)<sup>1</sup>; average day–night 24-hour average sound level (Ldn)<sup>2</sup> with a nighttime increase of 10 dB to account for sensitivity to noise during the nighttime; and community noise equivalent level (CNEL)<sup>3</sup>, also a 24-hour average that includes both an evening and a nighttime sensitivity weighting.

#### **Noise Attenuation**

Stationary point sources of noise, including construction equipment, attenuate (lessen) at a rate of 6 to 7.5 dB per doubling of distance from the source, depending on ground absorption. Soft sites attenuate at 7.5 dB per doubling because they have an absorptive ground surface such as soft dirt, grass, or scattered bushes and trees. Hard sites have reflective surfaces (e.g., parking lots or smooth bodies of water) and therefore have less attenuation (6.0 dB per doubling). A street or roadway with moving vehicles (known as a “line” source), would typically attenuate at a lower rate, approximately 3 to 4.5 dB each time the distance doubles from the source, which also depends on ground absorption (CalTrans, 1998). Physical barriers located between a noise source and the noise receptor, such as berms or sound walls, will increase the attenuation that occurs by distance alone.

---

<sup>1</sup>The Equivalent Sound Level (Leq) is a single value of a constant sound level for the same measurement period duration, which has sound energy equal to the time-varying sound energy in the measurement period.

<sup>2</sup>Ldn is the day–night average sound level that is equal to the 24-hour A-weighted equivalent sound level with a 10-decibel penalty applied to night between 10:00 p.m. and 7:00 a.m.

<sup>3</sup>CNEL is the average A-weighted noise level during a 24-hour day, obtained by addition of 5 decibels in the evening from 7:00 to 10:00 p.m., and an addition of a 10-decibel penalty in the night between 10:00 p.m. and 7:00 a.m.

## Regulatory Framework:

### ***City of Roseville 2035 General Plan Noise Element***

The Noise Element of the City of Roseville 2035 General Plan contains criteria for transportation noise sources. The Noise Element states that the City shall use the transportation noise sources standards for reviewing new development of noise-sensitive uses exposed to transportation noise sources. When a noise-sensitive land use is proposed near an existing or future transportation noise sources (highway, railway line, etc.), noise measurements shall be performed to determine if transportation noise sources standards are met. The Noise Element contains a residential interior space noise standard of 45 dB Ldn/CNEL for interior spaces to provide a suitable environment for indoor communication and sleep. The Noise Element also contains a residential exterior activity area noise standard of 60 dB Ldn/CNEL for exterior spaces to provide an acceptable noise environment for outdoor activities. The noise standards are shown in **Table 1**. The Noise Element also contains performance standards for non-transportation noise sources or projects affected by non-transportation noise sources. However, after review of the project area and the major fixed noise source locations in the Noise Element, the project site is not exposed to any stationary noise sources.

**TABLE 1  
MAXIMUM ALLOWABLE NOISE EXPOSURE  
TRANSPORTATION NOISE SOURCES**

| <b>Land Use</b>                    | <b>Outdoor Activity Areas<sup>1</sup><br/>Ldn/CNEL, dB</b> | <b>Interior Spaces<br/>Ldn/CNEL, dB</b> |
|------------------------------------|------------------------------------------------------------|-----------------------------------------|
| Residential                        | 60 <sup>2</sup>                                            | 45                                      |
| Transient Lodging                  | 60 <sup>2</sup>                                            | 45                                      |
| Hospitals, Nursing Homes           | 60 <sup>2</sup>                                            | 45                                      |
| Theaters, Auditoriums, Music Halls | --                                                         | --                                      |
| Churches, Meeting Halls            | 60 <sup>2</sup>                                            | --                                      |
| Office Buildings                   | 65                                                         | --                                      |
| Schools, Libraries, Museums        | --                                                         | --                                      |
| Playground, Neighborhood Parks     | 70                                                         | --                                      |

1. Outdoor activity areas for residential developments are considered to be the back yard patios or decks of single family dwellings, and the patios or common areas where people generally congregate for multi-family developments.

Outdoor activity areas for non-residential developments are considered to be those common areas where people generally congregate, including pedestrian plazas, seating areas and outside lunch facilities.

Where the location of outdoor activity areas is unknown, the exterior noise level standard shall be applied to the property line of the receiving land use.

2. Where it is not possible to reduce noise in outdoor activity areas to 60 dB Ldn/CNEL or less using a practical application of the best-available noise reduction measures, an exterior noise level of up to 75 dB Ldn/CNEL may be allowed provided that available exterior noise level reduction measures have been implemented and interior noise levels are in compliance with this table.

Source: City of Roseville, 2016

The City of Roseville recognizes it is difficult to maintain rural/suburban noise standards in increasingly urban areas, and in order to facilitate the City's goals to encourage reinvestment and economic development in the Downtown Specific Plan area, the City may elect to allow new noise-sensitive land uses on a case-by-case basis in proximity to transportation sources. Noise levels would require mitigation to the extent feasible using building orientation, construction and design features; however, ultimately, noise levels may exceed the transportation noise sources standards in **Table 1**.

### ***City of Roseville Municipal Code***

The City of Roseville's Chapter 9.24 Noise Regulation establishes local community standards for noise regulation. The Noise Regulation states it is unlawful for any person at any location to create any sound, or to allow the creation of any sound, on property owned, leased, occupied or otherwise controlled by such person, which causes the exterior sound level when measured at the property line of any affected sensitive receptor to exceed the ambient sound level by three dBA or exceed the sound level standards set forth for non-transportation or fixed sound sources as set forth in the City of Roseville General Plan Noise Element, by three dBA, whichever is greater. Sound or noise emanating from the following sources and activities are exempt from the provisions of this title:

- A. Sound sources typically associated with residential uses (e.g., children at play, air conditioning and similar equipment, but not including barking dogs);
- B. Sound sources associated with property maintenance (e.g., lawn mowers, edgers, blowers, pool pumps, power tools, etc.) provided such activities take place between the hours of 8:00 a.m. and 9:00 p.m.;
- C. Safety, warning and alarm devices, including house and car alarms, and other warning devices that are designed to protect the health, safety and welfare, provided such devices are not negligently maintained or operated;
- D. The normal operation of public and private schools typically consisting of classes and other school-sponsored activities;
- E. Maintenance (e.g., lawn mowers, edgers, aerators, blowers, etc.) of golf courses, provided such activities take place between the hours of 5:00 a.m. and 9:00 p.m. May through September, and 6:00 a.m. and 9:00 p.m. October through April;
- F. Emergencies involving the execution of the duties of duly authorized governmental personnel and others providing emergency response to the general public, including, but not limited to, sworn peace officers, emergency personnel, utility personnel, and the operation of emergency response vehicles and equipment;
- G. Private construction (e.g., construction, alteration or repair activities) between the hours of 7:00 a.m. and 7:00 p.m. Monday through Friday, and between the hours of 8:00 a.m. and 8:00 p.m. Saturday and Sunday; provided, however, that all construction equipment shall be fitted with factory installed muffling devices and that all construction equipment shall be maintained in good working order. (Ord. 3638 § 1, 2001.)

### ***Findings of the Roseville Downtown Specific Plan and Specific Plan EIR***

The City of Roseville's Downtown Specific Plan does not discuss noise. However, the City of Roseville's Downtown Specific Plan EIR discussed the following noise impacts relevant to the proposed project:

- Land Use Compatibility of On-site Sensitive Receptors with Future Traffic Noise Levels: This was considered a potentially significant noise impact in the Downtown Specific Plan EIR. The General Plan Noise Element was amended to allow the City of Roseville to allow noise-sensitive

land uses on a case-by-case basis in proximity to transportation sources. Mitigation to reduce this impact to less than significant included the following:

- o Requirement of a project-specific acoustical analysis
  - o Transportation noise disclosure to purchasers/renters
  - o Site specific design considerations to reduce exterior noise exposure levels
- Land Use Compatibility of On-site Sensitive Receptors with Future Railroad Noise Levels: This was considered a significant and unavoidable impact in the Downtown Specific Plan EIR. The Downtown Specific Plan EIR suggested implementing the same mitigation measures for Future Traffic Noise Levels (see above).
- Future Interior Noise Levels at On-site Sensitive Receptors: This was considered a potentially significant noise impact in the Specific Plan EIR, but could be mitigated. Mitigation to reduce this impact to less than significant included site specific design considerations that would reduce interior noise levels exceeding the City of Roseville 45 dB Ldn/CNEL standard.
- Ground-Borne Noise and Vibration Levels at Sensitive Receptors: This was considered a potentially significant impact in the Specific Plan EIR. Mitigation to reduce this impact to less than significant included alternatives for pile driving and pre- and post-construction surveys.

### ***Existing Noise Sources and Levels***

To quantify existing ambient noise levels, RCH group conducted two long-term (48-hour) and several short-term (5 to 10-minute) noise measurements at the project site. Noise measurements were made using Metrosonics db308 Sound Level Meters calibrated before and after the measurements. To measure existing 24-hour noise levels at the project site, long-term noise meters were placed at two locations on the project site. One meter was placed 90 feet northeast of the centerline of Washington Blvd. (Site 5). The second meter was placed approximately 45 feet northwest of the centerline of Pacific St. and approximately 100 feet northwest of the Union Pacific Rail Road (UPRR) tracks (Site 6). See the Noise Appendix for a map of the noise monitoring locations.

Several short-term measurements were conducted to specify noise sources in the project area and measure associated noise levels. Traffic noise from Washington Blvd. was measured at the southwest corner of the project site (75 feet from the centerline of Washington Blvd. and 90 feet from the centerline of Church St.) (Site 1) and the southeast corner of the project site (65 feet from the centerline of Washington Blvd.) (Site 2). Traffic Noise from Pacific St. was measured at the eastern perimeter of the project site (50 feet from the centerline of Pacific St.) (Site 4). Traffic Noise from Church St. was measured at the northwest corner of the project site (35 feet from the centerline of Church St.) (Site 7). An additional short-term measurement was conducted at northern perimeter of the project site near the existing alley to measure noise emanating from the businesses to the north (Site 3). See the Noise Appendix for a map of the noise monitoring locations.

The noise measurements are summarized in **Table 2** below. The Noise Appendix includes 24-hour noise plots, additional sound level raw data, and a noise figure showing the locations of the noise measurements. The main source of noise in the project vicinity during the noise measurements was traffic on Washington Boulevard and railway operations at the nearby UPRR tracks. Additional noise sources included traffic on Pacific St. and Church St.

**TABLE 2  
EXISTING NOISE LEVELS IN THE PROJECT AREA**

| Location                                                                                                                             | Time Period                                                                                             | Noise Levels (dB)                                       | Noise Sources                                                                                                                                                                                                                                                     |

### ***Existing Sensitive Receptors***

Noise sensitive receptors (land uses associated with indoor and/or outdoor activities that may be subject to stress and/or significant interference from noise) are defined by the City of Roseville General Plan to include residential areas, schools and hospitals. The nearest sensitive receptors to the project site are single-family residences along Church St. (on the opposite side of Washington Blvd.), approximately 250 feet southwest of the project site. No schools or hospitals are within 1,000 feet of the project site.

### **Discussion:**

#### ***Land Use Noise Compatibility***

As discussed above, the main source of noise in the project vicinity is traffic on Washington Blvd. and railway operations at the nearby UPRR tracks. Additional noise sources include traffic on Pacific St. and Church St. Noise data from the two long-term (48-hour) noise measurements at Site 5 and 6 was used to determine existing background noise levels at the proposed residences closest to Washington Blvd. and Pacific St. /UPRR tracks. As shown in **Table 2** above (Sites 5 and 6), 24-hour noise levels at the project site range from 69 to 74 dB CNEL. The 24-hour noise level at the perimeter of the project site along Washington Blvd. (Site 5), the same distance from Washington Blvd. as the closest proposed building facades of the proposed project, was 69 to 70 dB CNEL. The 24-hour noise level at the perimeter of the project site along Pacific St. (Site 6), the same distance from Washington Blvd. as the closest proposed building facades of the proposed project, was 72 to 74 dB CNEL. Based upon noise levels measured at the project site, existing transportation noise levels at the outdoor areas of the proposed project would exceed the 60 dB Ldn/CNEL maximum allowable noise exposure for transportation noise contained in the City of Roseville General Plan Noise Element. This was anticipated and acknowledged in the Downtown Specific Plan EIR as railroad noise was a significant and unavoidable impact and the Noise Element of the General Plan was amended to allow the City of Roseville to elect to allow noise-land uses on a case-by-case basis in proximity to sources of transportation noise.

The City of Roseville General Plan Noise Element states that where it is not possible to reduce noise in outdoor activity areas to 60 dB Ldn/CNEL or less using a practical application of the best-available noise reduction measures, an exterior noise level of up to 75 dB Ldn/CNEL may be allowed provided that available exterior noise level reduction measures have been implemented and interior noise levels are no greater than 45 dB Ldn/CNEL.

Modern residential construction consistent with the universal building code typically provides an exterior-to-interior noise level reduction of 25 dB to 30 dB with all exterior openings sealed (City of Roseville, 2008). Based on the worst-case day (74 dB CNEL), an exterior-to-interior noise level reduction of 30 dB would be needed for the proposed project to be below the 45 dB Ldn/CNEL interior noise standard. STC 30 windows on the exterior of residential units with exposure to elevated noise levels (residences along Washington Blvd. and Pacific St.) would ensure compliance with the 45 dB Ldn/CNEL interior noise standard on a worst-case day.

Therefore, the interior noise levels of the proposed project would be below the 45 dB Ldn/CNEL interior noise standard in the City of Roseville General Plan Noise Element, based on these current long-term noise measurements at the proposed project site. The following mitigation measures are from the Downtown Specific Plan EIR and are recommended to reduce interior noise levels further:

#### ***Downtown Specific Plan EIR Recommended Mitigation Measures to Reduce Transportation Noise Impacts at Indoor Areas***

1. Construct all residences with air conditioning and mechanical ventilation systems that allow for windows and doors to remain closed and achieve acoustical isolation from traffic and railroad

noise. The systems shall allow for introduction of fresh outside air, without the requirement of open windows. *[Project will implement this measure]*

2. Acoustically baffle attic vents direct exposure to elevated noise levels and contain at least one 90 degree obstruction to the flow of air. The baffle should be fitted with an acoustically absorbent liner. *[Project will implement this measure]*
3. Mount windows and sliding glass doors in low infiltration rate frames (0.5 cubic feet per minute or less, per ANSI specifications). *[Project will implement this measure]*
4. Require exterior doors to be solid core with perimeter weather-stripping and threshold seals. *[Project will implement this measure]*

The proposed project includes a private patio for residents along Pacific St. The proposed private patio would be approximately 35 feet from the centerline of Pacific St. and approximately 100 feet from the closest UPRR tracks. Based on noise measurements conducted near the proposed patio location (Site 6), the 24-hour noise level ranges from 72 to 74 dB CNEL. Hourly Leq's range from 57 to 73 dB at the proposed private patio and the maximum noise levels (Lmax) for different hours ranged from 76 to 98 dB when freight trains are passing by on the UPRR tracks. Noise levels at the proposed private patio would exceed the 60 dB Ldn/CNEL maximum allowable noise exposure for transportation noise contained in the City of Roseville General Plan Noise Element, but would not exceed the case-by-case levels of 75 dB Ldn/CNEL. During train pass-by events the train noise at the proposed private patio along Pacific St. would cause substantial speech interference and annoyance until the train passes (estimated to be approximately five minutes of any hour).

Noise meters used for the 24-hour measurements were also programmed to measure the noise levels exceeded for 1 minute (L1.6) and 5 minutes (L8) in each hour at the proposed private patio. The noise level exceeded for 1 minute in each hour ranged from 66-82 dB at the proposed private patio. The noise level exceeded for 5 minutes in each hour ranged from 56-79 dB at the proposed private patio.

The 24-hour measurements at the proposed private patio of 72 to 74 CNEL is affected by train pass-by events during the evening hours (7 p.m. to 10 p.m.) when a five dB penalty is added and nighttime hours (10 p.m. to 7 a.m.) when a 10 dB penalty is added. The proposed private patio would be a suitable noise environment for outdoor activities when train pass-by events are not occurring. According to the 48 hours measured at the proposed private patio, sound levels would be at 60 dB Leq or below approximately 78% of the average hour and at 65 dB Leq or below approximately 87% of the average hour. Sound levels at the proposed private would only exceed 70 dB approximately 7.8% of the average hour or less than 5 minutes (See Noise Appendix for a detailed noise graph of the proposed private patio). During train pass-by events the train noise at the proposed private patio along Pacific St. would cause substantial speech interference and annoyance until the train passes. When there are no train pass-by events, the proposed private patio would have noise levels that are suitable for an outdoor activity environment (about 55 minutes per hour).

The City of Roseville recognizes it is difficult to maintain rural/suburban noise standards in increasingly urban areas, and in order to facilitate the City's goals to encourage reinvestment and economic development in the Downtown Specific Plan area, the City may elect to allow new noise-sensitive land uses on a case-by-case basis in proximity to transportation sources. Noise levels would require mitigation to the extent feasible using building orientation, construction and design features; however, ultimately, noise levels may exceed the transportation noise sources standards. The following mitigation measures are from the Downtown Specific Plan EIR and are recommended to mitigate noise levels to the extent feasible at the project site:

*Downtown Specific Plan EIR Recommended Mitigation Measures to Reduce Transportation Noise Impacts at Outdoor Areas*

1. Disclose all transportation noise (i.e., roadway, railway) and their meanings to purchasers and/or renters prior to contract or title transfer. *[Project will implement this measure]*
2. Locate common outdoor activity areas, such as outdoor congregation areas included in multi-family residential developments, such that the building(s) serve as a sound barrier to the nearest predominant noise source. *[The private patio is not shielded by buildings]*
3. Distances between noise sources and noise-sensitive uses shall be maximized through the use of noise buffers/setbacks. *[Buffers/setbacks are not feasible for the project site]*
4. Construct noise barriers to provide shielding of noise-sensitive uses and outdoor activity areas. Barrier may include manmade walls, earthen berms, and other structures breaking line of sight from noise source to receptor. Barriers shall be located in close proximity to either the noise source or the sensitive receptor. *[Barriers are not feasible for the project site]*

### **Construction Noise**

Construction activities would include demolition of some small structures on the project site and construction of the proposed project. Construction of the proposed project is anticipated to begin in late 2016, with an anticipated 15-month construction duration. Construction and demolition activities would require the use of numerous pieces of noise-generating equipment, such as excavating machinery (e.g., backhoes, excavators, front loaders, etc.) and other construction equipment (e.g., compactors, pavers, concrete mixers, trucks, etc.).

The noise levels generated by construction equipment would vary greatly depending upon factors such as the type and specific model of the equipment, the operation being performed, the condition of the equipment and the prevailing wind direction. The maximum noise levels for various types of construction equipment that could be used during proposed project construction are provided in **Table 3**. Maximum noise levels generated by construction equipment used for the proposed project would range from 74 to 89 dB Lmax at a distance of 50 feet. **Table 4** displays average typical construction activity noise levels at 50 feet.

**TABLE 3**  
**TYPICAL NOISE LEVELS FROM CONSTRUCTION EQUIPMENT (Lmax)**

| <b>Construction Equipment</b> | <b>Noise Level (dB, Lmax at 50 feet)</b> |
|-------------------------------|------------------------------------------|
| Dump Truck                    | 76                                       |
| Air Compressor                | 78                                       |
| Backhoe                       | 78                                       |
| Dozer                         | 82                                       |
| Compactor (ground)            | 83                                       |
| Crane                         | 81                                       |
| Excavator                     | 81                                       |
| Flat Bed Truck                | 74                                       |
| Paver                         | 77                                       |
| Grader                        | 85                                       |
| Compressor (Air)              | 78                                       |
| Generator                     | 81                                       |
| Roller                        | 80                                       |
| Vibratory Concrete Mixer      | 80                                       |
| Concrete Mixer Truck          | 79                                       |
| Jackhammer                    | 89                                       |
| Front End Loader              | 79                                       |

Notes: Lmax = maximum sound level

**TABLE 4**  
**TYPICAL CONSTRUCTION ACTIVITIES NOISE LEVELS**

| Construction Phase | Noise Level (dB Leq at 50 feet) |
|--------------------|---------------------------------|
| Ground Clearing    | 83                              |
| Excavation         | 88                              |
| Foundations        | 81                              |
| Erection           | 81                              |
| Finishing          | 88                              |

Notes: Average noise levels correspond to a distance of 50 feet from the noisiest piece of equipment associated with a given phase of construction and 200 feet from the rest of the equipment associated with that phase.

Leq = equivalent sound level

Source: U.S. Environmental Protection Agency, Legal Compilation, 1973

Construction activities would result in a temporary increase in ambient noise levels in the project vicinity. The closest sensitive receptors to the project site are approximately 250 feet from the closest location where construction would occur on the project site. At a distance of 250 feet, maximum noise levels from construction equipment would be 60 to 75 dB. Construction noise levels would be less than this estimate most of the time and would fluctuate throughout the day because equipment would not be in use at one location for an extended period of time. Construction noise would also be masked by traffic noise from Washington Blvd, which separates the project site from the closest sensitive receptor. Proposed project construction would comply with the Noise Regulation in the City of Roseville Municipal Code, which exempts private construction between the hours of 7 a.m. and 7 p.m. Monday through Friday, and between the hours of 8 a.m. and 8 p.m. Saturday and Sunday, provided that all construction equipment is fitted with factory installed muffling devices and that all construction equipment is maintained in good working order. Construction noise impacts would be less than significant with compliance with the Noise Regulation in the City of Roseville Municipal Code. The following mitigation measures are from the Downtown Specific Plan EIR and are recommended to mitigate noise levels from construction activities and comply with the City of Roseville Noise Regulation:

*Downtown Specific Plan EIR Recommended Mitigation Measures to Reduce Construction Noise Impacts*

1. Comply with construction hours in the City of Roseville Municipal Code Noise Regulation; between the hours of 7 a.m. and 7 p.m. Monday through Friday, and between the hours of 8 a.m. and 8 p.m. Saturday and Sunday. *[Project will implement this measure]*
2. Properly maintain construction equipment per manufactures' specifications and fit construction equipment with the best available noise suppression devices (i.e., mufflers, silences, wraps, etc.). Shroud or shield all impact tools, and muffle or shield all intake or exhaust ports on power equipment. *[Project will implement this measure]*

**Construction Vibration**

Construction activities have the potential to result in varying degrees of temporary ground vibration, depending on the specific construction equipment used and operations involved. The ground vibration levels associated with various types of construction equipment are summarized in **Table 5**. Ground vibration generated by construction equipment spreads through the ground and diminishes in magnitude with increases in distance. The effects of ground vibration may be imperceptible at the lowest levels, low rumbling sounds and detectable vibrations at moderate levels, and slight damage to nearby structures at the highest levels.

At the highest levels of vibration, damage to structures is primarily architectural (e.g., loosening and cracking of plaster or stucco coatings) and rarely results in structural damage. For most structures, a peak particle velocity (ppv) threshold of 0.5 inch per second or less is sufficient to avoid structural damage. The Federal Transit Administration recommends a threshold of 0.5 ppv for residential and commercial structures, 0.25 ppv for historic buildings and archaeological sites, and 0.2 ppv for non-engineered timber and masonry buildings (FTA 2006).

**TABLE 5**  
**REPRESENTATIVE VIBRATION SOURCE LEVELS FOR CONSTRUCTION EQUIPMENT**

| Equipment            |             | Peak Particle Velocity at 25 Feet (in/sec) |
|----------------------|-------------|--------------------------------------------|
| Pile Driver (impact) | upper range | 1.518                                      |
|                      | typical     | 0.644                                      |
| Pile Driver (sonic)  | upper range | 0.734                                      |
|                      | typical     | 0.170                                      |
| Vibratory Roller     |             | 0.210                                      |
| Large Bulldozer      |             | 0.089                                      |
| Loaded Trucks        |             | 0.076                                      |
| Jackhammer           |             | 0.035                                      |
| Small Bulldozer      |             | 0.003                                      |

Source: Federal Transit Administration, 2006.

Note: Vibration levels at 50 feet were calculated using the equation provided by FTA that may be used to estimate vibration at different distances based on a reference ppv at 25 feet for various construction equipment.

Construction activities associated with the proposed project would not involve the use of any equipment or processes that would result in potentially significant levels of ground vibration (i.e., pile drivers). The closest existing building to the project site is adjacent to the north and is a historic building (the Odd Fellows Building), which is currently occupied by bar/restaurant. The closest proposed structure to be built is greater than 25 feet away from existing buildings and any work closer than 25 feet would be minor, such as parking lot or utility improvements. As shown in **Table 5**, the predicted vibration levels from vibratory rollers, bulldozers, loaded trucks, and jackhammers at a distance of 25 feet would not exceed the 0.5 ppv threshold for residential and commercial structures, or the 0.25 ppv threshold for historic buildings. Vibrational impacts associated with construction activities would be less than significant. The following mitigation measure is from the Downtown Specific Plan EIR and is recommended to mitigate any vibrational impacts to the Odd Fellows Building:

*Downtown Specific Plan EIR Recommended Mitigation Measures to Reduce Construction Vibration Impacts*

1. Record the pre-existing condition of historical buildings within the immediate vicinity of proposed construction in the form of a preconstruction survey. The preconstruction survey shall determine conditions that exist before construction begins for use in evaluating damage caused by construction activities. Fixtures and finishes within a 50-foot radius of construction activities susceptible to damage shall be documented (photographically and in writing prior to construction. All damage will be repaired back to its pre-existing condition. *[Project will implement this for the adjacent Odd Fellows Building]*

## ***Operation***

After construction, impacts from the proposed project would include any noise generated by the residences that would affect surrounding land uses. In general, residences are one of the quietest land uses (other than open space), and noise from the residences would be considered compatible with the surrounding land uses. Any permanent increase in ambient noise levels in the project vicinity would not be substantially greater than existing levels without the proposed project and would result in a less-than-significant noise increase.

## **Conclusions and Recommendations:**

Existing transportation noise levels at the outdoor areas of the proposed project would exceed the 60 dB Ldn/CNEL maximum allowable noise exposure for transportation noise contained in the City of Roseville General Plan Noise Element. However, this was anticipated and acknowledged in the Specific Plan EIR as railroad noise was a significant and unavoidable impact and the Noise Element of the General Plan was amended to allow the City to elect to allow noise-land uses on a case-by-case basis in proximity to sources of transportation noise.

STC 30 windows on the exterior of residential units with exposure to elevated noise levels (residences along Washington Blvd. and Pacific St.) would ensure that interior noise levels would be below the 45 dB Ldn/CNEL interior noise standard in the City of Roseville General Plan Noise Element. Final project design will need to include soundproofing measures to assure that the overall building attenuation achieves an outdoor to indoor reduction to achieve the 45 dB Ldn/CNEL interior noise level. All measures in the Downtown Specific Plan EIR (above) should be considered; as well as other soundproofing measures that would be effective in achieving the 45 dB Ldn/CNEL interior noise levels.

Noise levels at the proposed private patio along Pacific St. would cause speech interference or annoyance during train pass-by events (approximately 5 minutes each hour), but the location would be below the 75 dB Ldn/CNEL case-by-case limit. During train pass-by events the train noise at the proposed private patio along Pacific St. would cause substantial speech interference and annoyance until the train passes. When there are no train pass-by events, the proposed private patio would have noise levels that are suitable for an outdoor activity environment (about 55 minutes per hour).

Construction noise would need to comply with the Noise Regulation in the City of Roseville Municipal Code and operation of the proposed project would be compatible with the surrounding land uses and would not increase ambient noise levels in the project vicinity substantially greater than existing levels.

These conclusions are based on the noise level data collected by RCH Group and the assumptions cited herein. Substantial variations in traffic volumes on roadways and railways located adjacent to the project site are not anticipated but could yield noise levels different than those presented in this report.

**Response to 3<sup>rd</sup> Submittal Comments Received on November 30, 2016****Section II, Parking**

- “ The DTSP included a pre-design project for the site, which included 273 public parking spaces within a parking garage. The proposed project does not include the parking garage and would eliminate the existing 44 space surface public parking lot. As public parking was anticipated with this project and as the City has received concerns over the need for additional public parking, the project should consider opportunities for public parking as part of the project.  
Public parking shall be provided with this project. A parking study shall be completed to determine the amount of public parking and the amount of private parking to be provided on-site. ”
- 

City of Roseville's Planning Department staff have directed the applicant to evaluate the possibility of including a public parking garage as part of the 80-unit affordable housing apartment complex proposed on the ±1.31 acre parcel located at 120 Pacific Street.

The applicant together with the design team have evaluated this scenario and found that the addition of a parking garage to the 80-unit affordable housing complex is infeasible for the following reasons:

**Addition to Current Design**

With the current site and building layouts, it would be impossible to add a parking garage to the project. A parking garage would have to be attached to the northern façade of the building, which bears all of the windows for the units in the northern portion of the building. Therefore, the affordable housing project would need to lose the entire northern stack of the units (a total of 30 units) to accommodate the addition of the parking garage. This reduction in number of units would deem the project infeasible and would become inconsistent with City of Roseville Housing Element projections for this site.

**Redesign**

Since the current design would not allow the addition of a parking garage, the applicant has evaluated the option of redesigning the entire project to add a public parking garage. There are three building design types which allow parking garages and residential units to be incorporated in a single building. However, none of these design types are feasible within the scope of the proposed project.

- **Wrap (Texas donut):** This construction type is very common in Bay Area cities and the applicant has developed multiple projects using this construction method. In this layout, the parking garage is located in the middle and is wrapped with a layer of units on the outside. The applicant and the design team have evaluated the idea of a wrap building on this site and have determined that it would not be possible without losing the northern stack of units in the existing design. Attached is a letter from the project architect further explaining the design limitations of the project site.

***Overall outcome: loss of 30 affordable units and an additional \$9.2MM in City funds (\$13,560,000 subsidy needed for the entire project).***

- **Podium:** This construction type allows for the residential units to be built over a level or multiple levels of parking garage. For this project, the added levels of parking would increase the overall building height to five/six stories. The major concern with this approach is the high construction cost associated with the Type II construction (steel-frame and concrete) for the parking garage. Since the proposed project is an affordable housing project, any use that is not serving the

project's tenants cannot be a part of the project cost for which the applicant will seek State and Federal funding, therefore, the entire cost of the parking garage would need to be funded by the City. The applicant's current estimate for the cost of a two-story podium garage is [\$5.4MM].

***Overall outcome: an additional \$5.4MM in City funds (\$9,760,000 subsidy needed for the entire project).***

- ***Subterranean:*** This type of construction requires extensive excavation of the building foundation to build an underground parking garage. This construction type, again, is extremely costly and considering the size of the project site and the potential number of additional public parking spaces gained, might not be a cost-effective approach. The applicant's current estimate for a single-story subterranean parking is [\$3.5MM] which would result in a net gain of approximately 24 public parking spaces when compared to the number of public parking spaces provided in the current project design.
- ***Overall outcome: an additional \$3.5MM in City funds (\$7,860,000 subsidy needed for the entire project) and 24 public parking spaces.***

RE: Junction Crossing Development.

To whom it may concern,

The purpose of this letter is to address the idea of designing the Junction Crossing Development as a wrap building. After a study, we determined it would not be possible. A ramping parking structure has a minimum size which is determined by the maximum slope and length of ramp needed to get from one level to the next. after inserting that minimum garage footprint into the project, there was not enough area left on the site to relocate the units that were displaced by the garage as the existing alley must connect to pacific street and that area could not be used to make up for the lost units.

Sincerely,

Keith Labus  
Principal  
KTGY Group Inc.

## **MEMORANDUM**

---

**To:** Greg Bitter, Planning Manager, City of Roseville  
**From:** Christine Kronenberg, AICP  
**Subject:** CEQA Exemption for the Junction Crossing Housing project  
**Date:** March 28, 2018

---

Dudek was retained to assist the City of Roseville in evaluating whether the Junction Crossing housing project (proposed project) is exempt from the California Environmental Quality Act (CEQA). The proposed project is an 80-unit affordable housing project located in the City of Roseville (City). The project site is located in downtown Roseville at the intersection of Washington Boulevard and Pacific Street within the City's Downtown Specific Plan area.

As a residential infill development, the project qualifies for several exemptions under CEQA. Specifically, the project meets the following CEQA statutory exemptions: Public Resources Code (PRC) Section 21155.4 and Government Code (GC) Section 65457 (Sustainable Communities Strategy/Specific Plans), Section 21159.21 (Housing Project Exemptions) including Section 21159.23 (Low Income) and Section 21159.24 (Infill). In addition, the project is also considered categorically exempt under Section 15332 (In-fill projects) of the CEQA Guidelines.

### **Summary of the Proposed Project**

The proposed project would construct an affordable housing community that would include a four-story, 80,460 gross square foot, 80-unit multi-family residential building, clubhouse, public plaza, and surface and tuck-under parking lots within the Downtown Roseville Specific Plan. The project site consists of a portion of an approximately 1.3-acre lot currently made up of several contiguous parcels within the Downtown Roseville Specific Plan. The project would accommodate individuals with very-low (50% AMI) and low-incomes (60% AMI) and would include 20 studio units and 60 one-bedroom units. The project density is approximately 60 dwelling units per acre (du/ac).

A public plaza would be constructed along the Church Street frontage and incorporate benches and a bike rack. The proposed project would provide a total of 83 parking spaces; 47 spaces would be available to project residents, guests and staff and 36 spaces would be available to the

public. An existing monument to the First Transcontinental Railroad lies in the building footprint along the west side of the project site. The State Historic Preservation Office has already granted the applicant permission to relocate the monument to an appropriate location as part of this project. The project would also require removal of asphalt pavement and gravel parking areas, landscape trees and shrubs, and a small one-story cinder block building with a composite roof.

The City's General Plan Land Use Map designates the project site as Central Business District (CBD), and the Downtown Specific Plan designates the site as Old Town Commercial. The project site is zoned HD/SA-DT (Old Town Historic District/Special Area – Downtown).

The project site is bounded by Washington Boulevard to the south, Church Street to the west, existing retail to the north, and Pacific Street to the east. The proposed project would be located approximately 0.04 mile from the Roseville Amtrak station, which offers California Zephyr and Capitol Corridor train lines and Greyhound bus routes. The project site is also located within 0.1 mile of several transit stops, including the Pacific Street & Church Street bus stop, Washington Boulevard & Main Street bus stop, and Vernon Street & Grant Street bus stop.

Construction of the apartments is expected to begin in the second quarter of 2018, and would occur in a single phase, with an anticipated 15-month construction completion. Completion is anticipated to be third quarter in 2019.

#### **Public Resource Code Section 21155.4 Sustainable Communities Strategy**

The proposed project is exempt under PRC Section 21155.4 (Sustainable Communities Strategy) because it meets the following conditions:

(a) Except as provided in subdivision (b), a residential, employment center, as defined in paragraph (1) of subdivision (a) of Section 21099, or mixed-use development project, including any subdivision, or any zoning, change that meets all of the following criteria is exempt from the requirements of this division:

- (1) The project is proposed within a transit priority area, as defined in subdivision (a) of Section 21099.
- (2) The project is undertaken to implement and is consistent with a specific plan for which an environmental impact report has been certified.
- (3) The project is consistent with the general use designation, density, building intensity, and applicable policies specified for the project area in either a sustainable communities strategy or an alternative planning strategy for which the State Air Resources Board, pursuant to subparagraph (H) of paragraph (2) of subdivision (b) of Section 65080 of the Government Code, has accepted a metropolitan planning organization's determination that the sustainable communities strategy or the

alternative planning strategy would, if implemented, achieve the greenhouse gas emissions reduction targets.

- (b) Further environmental review shall be conducted only if any of the events specified in Section 21166 have occurred.

## Discussion

- 1) Section 21099(a) of the PRC defines “transit priority projects” as “an area within one-half mile of a major transit stop that is existing or planned...” PRC Section 21064.3 defines a major transit stop as “a site containing an existing rail transit station, a ferry terminal served by either a bus or rail transit service, or the intersection of two or more major bus routes with a frequency of service interval of 15 minutes or less during the morning and afternoon peak commute periods.” The project site is located approximately 0.04 mile from the Roseville Amtrak station and numerous City bus lines. The project site is located within the Sacramento Area Council of Governments (SACOG’s) Metropolitan Transportation Plan/Sustainable Communities Strategy (MTP/SCS) transit priority area (SACOG 2016, Figure 3.2, p. 28). Therefore, SACOG has determined this area of the City meets the definition of a transit priority area.
- 2) The proposed project is located within the City’s Downtown Specific Plan area. The project site is designated as Old Town Commercial in the Downtown Specific Plan (City of Roseville 2009a), which permits multi-family development at a minimum density of 16 units per acre. Future development of this area with residential and parking uses was evaluated in the Downtown Specific Plan EIR (State Clearinghouse #2007102090, certified April 2009). The Downtown Specific Plan EIR analyzed potential impacts of various allowable development within 11 Downtown Districts. The project site is within the DT-4, Old Town Commercial District. This district includes approximately 16-acres and designates a mix of land uses including retail, restaurants, entertainment, office, parking, and multi-family residential. The EIR contemplated and analyzed potential impacts of 148 new residential units in the DT-4 District. One of the primary goals in the Downtown Specific Plan is to develop a significant amount of new housing in Downtown (LU Goal 4.3), consistent with the SACOG Blueprint principles which encourage the development of new high density residential development in urbanized areas. Policy 4.3.1 calls for a variety of market rate and affordable housing that is accessible to different economic and life-style sectors of the community. While Policy 4.3.2 encourages the provision of affordable housing within the Specific Plan area consistent with the City’s General Plan. New residents will enhance the customer base for Downtown retail businesses and will be within walking distance to various transit facilities (City of Roseville 2009).

The Downtown Specific Plan designates numerous parking structures throughout the downtown with the objective of providing 580 parking spaces within the plan area. To achieve this objective, Mitigation Measure 4.6-5 in the Downtown Specific Plan EIR requires the development of an additional 580 parking spaces over the planning horizon evaluated in the Specific Plan. To comply with this measure the City conducted a Historic Old Town Roseville Parking Study (September 2017) that identified other sites throughout downtown Roseville that could provide the required parking. The Roseville City Council reviewed and accepted the Parking Study in October 2017. To date, a 420-space parking structure is currently under construction at Washington and Oak Streets and, in addition to the various options identified in the Parking Study, the City projects more than 580 parking spaces will be provided to serve downtown prior to build out of the Specific Plan. The project also includes a total of 83 parking spaces; 47 spaces would be available to project residents, guests and staff and 36 spaces would be available to the public.

The residential uses proposed on this site are consistent with what was analyzed in the Downtown Specific Plan EIR, the Historic Old Town Parking Study, and the goals and policies contained in the Downtown Specific Plan that support and encourage development of a range of housing options and types throughout downtown.

- 3) The proposed project is consistent with the general use designation, density, building intensity and applicable policies specified for the project area within the City's Downtown Specific Plan and the SACOG MTP/SCS. The project site is designated as Old Town Commercial within the City's Downtown Specific Plan. The SACOG 2016 MTP/SCS designated the project area as a Center/Corridor Community and a Transit Priority Area (SACOG 2016). The City has identified the area within a half-mile radius around the existing Amtrak station, including the Downtown Specific Plan and Riverside Gateway areas as Center and Corridor Communities. The MTP/SCS predicts redevelopment and infill, both mixed use and residential, in the Center and Corridor Communities are forecasted to be slow and steady through 2036. These Center and Corridor Communities are forecast for 1,100 new housing units and 4,061 new employees within this period. Build out potential in these areas is significant, at 7,112 additional employees and 469 additional housing units (SACOG 2016).

The City's Downtown Code provides development standards and design criteria for the Old Town Commercial District. These include a maximum height requirement of four stories (60'), 0 foot setbacks, minimum density of 16 units/acre, minimum floor to area ratio (FAR) of 1.50 and maximum FAR of 3.00 (City of Roseville 2009b). Furthermore,

the proposed project is included as a “Pre-Design project” in the Downtown Code. Pre-Design plans have been identified to encourage development and redevelopment within the downtown and provide a more streamlined development process by complying with the basic development standards. The use of a Pre-Design plan exempts the proposed project from design review and environmental review, as long as the proposed project can be considered consistent with the original design. The Pre-Design plan included for the project site (Pacific/Church Street Site Plan) proposed two different development scenarios, both of which involved the construction of approximately 400 new parking spaces with 273 spaces set aside for the public; a multi-story building (approximately 4 stories) that wraps the parking structure and fronts onto Washington Boulevard, Church Street and Pacific Street; and, a total of 90,900 square feet of newly developed building area (City of Roseville 2009b). Here, the proposed project would only provide 83 parking spaces, and would follow the same design as the Pacific/Church Street Site Plan by constructing a four story residential building (less than 60’ in height) that wraps around surface parking and tucks under parking lots. The project’s density would be approximately 60 du/acre and the FAR would be 1.57, which is consistent with the density and FAR requirements set forth in the City’s Downtown Code.<sup>1</sup> Furthermore, the City and SACOG have been focused on consolidating housing development within urbanized areas of the City, including Downtown. As the proposed project design would follow a Pre-Design plan and provide high-density affordable housing within the Downtown Specific Plan consistent with the City’s General Plan and SACOG’s MTP/SCS, the project would be consistent with applicable local plans and policies.

- b) Section 21166 specifies that preparation of a Subsequent EIR or a Supplement to an existing EIR is required if there are substantial changes proposed which require major revisions to the EIR; substantial changes in the circumstances under which the project is being undertaken have occurred; or new information is now available that was not known when the EIR was prepared. The project does not include substantial changes to the project footprint or density from what was evaluated in the Downtown Specific Plan EIR. The Downtown Specific Plan EIR evaluated development of up to 148 residential units within the DT-4 District, which includes the project site. Since the EIR was certified in March 2009 there has not been much development in this area of Downtown Roseville which would contribute to a substantial change in circumstances. In addition, there is no

---

<sup>1</sup> The gross land area of the project site includes all portions of the parcels proposed to be developed as part of residential development project. Public parking that will be retained for the benefit of the general public is excluded from this calculation.

new information that would warrant preparation of a Subsequent or Supplement to the Downtown Specific Plan EIR.

### **Government Code Section 65457 Specific Plans**

The proposed project is exempt under Government Code Section 65457 (Specific Plans) because it meets the following conditions:

- (a) Any residential development project, including any subdivision, or any zoning change that is undertaken to implement and is consistent with a specific plan for which an environmental impact report has been certified after January 1, 1980, is exempt from the requirements of Division 13 (commencing with Section 21000) of the Public Resources Code. However, if after adoption of the specific plan, an event as specified in Section 21166 of the Public Resources Code occurs, the exemption provided by this subdivision does not apply unless and until a supplemental environmental impact report for the specific plan is prepared and certified in accordance with the provisions of Division 13 (commencing with Section 21000) of the Public Resources Code. After a supplemental environmental impact report is certified, the exemption specified in this subdivision applies to projects undertaken pursuant to the specific plan.

### **Discussion**

The proposed project is a residential development project that is consistent with the City's Downtown Specific Plan and Downtown Specific Plan EIR, as discussed above under PRC Section 21155.4. None of the events described in PRC Section 21166 (subsequent or supplemental EIR) have occurred, as noted above under PRC Section 21166. Therefore, it is exempt from the requirements of Division 13 (commencing with Section 21000) of the Public Resources Code.

### **Public Resources Code Section 21159.21 Criteria to Qualify for Housing Project Exemptions**

A housing project may qualify for an exemption under PRC Sections if 21159.22, 2159.23, or 21159.24 if it first meets the criteria of PRC Section 21159.21. The proposed project qualifies under PRC Section 21159.21 because it meets the following conditions:

A housing project qualifies for an exemption from this division pursuant to Section 21159.22, 21159.23, or 21159.24 if it meets the criteria in the applicable section and all of the following criteria:

- (a) The project is consistent with any applicable general plan, specific plan, and local coastal program, including any mitigation measures required by a plan or program, as that plan or program existed on the date that the application was deemed complete

*Memorandum*

*Subject: CEQA Exemption Junction Crossing Housing project*

---

- and with any applicable zoning ordinance, as that zoning ordinance existed on the date that the application was deemed complete, except that a project shall not be deemed to be inconsistent with the zoning designation for the site if that zoning designation is inconsistent with the general plan only because the project site has not been rezoned to conform with a more recently adopted general plan.
- (b) Community-level environmental review has been adopted or certified.
  - (c) The project and other projects approved prior to the approval of the project can be adequately served by existing utilities, and the project applicant has paid, or has committed to pay, all applicable in-lieu or development fees.
  - (d) The site of the project does not contain wetlands, does not have any value as a wildlife habitat, and the project does not harm any species protected by the federal Endangered Species Act of 1973 (16 U.S.C. Sec. 1531 et seq.) or by the Native Plant Protection Act (Chapter 10 (commencing with Section 1900) of Division 2 of the Fish and Game Code), the California Endangered Species Act (Chapter 1.5 (commencing with Section 2050), of Division 3 of the Fish and Game Code), and the project does not cause the destruction or removal of any species protected by a local ordinance in effect at the time the application for the project was deemed complete. For the purposes of this subdivision, “wetlands” has the same meaning as in Section 328.3 of Title 33 of the Code of Federal Regulations and “wildlife habitat” means the ecological communities upon which wild animals, birds, plants, fish, amphibians, and invertebrates depend for their conservation and protection.
  - (e) The site of the project is not included on any list of facilities and sites compiled pursuant to Section 65962.5 of the Government Code.
  - (f) The site of the project is subject to a preliminary endangerment assessment prepared by an environmental assessor to determine the existence of any release of a hazardous substance on the site and to determine the potential for exposure of future occupants to significant health hazards from any nearby property or activity.
    - (1) If a release of a hazardous substance is found to exist on the site, the release shall be removed, or any significant effects of the release shall be mitigated to a level of insignificance in compliance with state and federal requirements.
    - (2) If a potential for exposure to significant hazards from surrounding properties or activities is found to exist, the effects of the potential exposure shall be mitigated to a level of insignificance in compliance with state and federal requirements.
  - (g) The project does not have a significant effect on historical resources pursuant to Section 21084.1.
  - (h) The project site is not subject to any of the following:

*Memorandum*

*Subject: CEQA Exemption Junction Crossing Housing project*

---

- (1) A wildland fire hazard, as determined by the Department of Forestry and Fire Protection, unless the applicable general plan or zoning ordinance contains provisions to mitigate the risk of a wildland fire hazard.
  - (2) An unusually high risk of fire or explosion from materials stored or used on nearby properties.
  - (3) Risk of a public health exposure at a level that would exceed the standards established by any state or federal agency.
  - (4) Within a delineated earthquake fault zone, as determined pursuant to Section 2622, or a seismic hazard zone, as determined pursuant to Section 2696, unless the applicable general plan or zoning ordinance contains provisions to mitigate the risk of an earthquake fault or seismic hazard zone.
  - (5) Landslide hazard, flood plain, flood way, or restriction zone, unless the applicable general plan or zoning ordinance contains provisions to mitigate the risk of a landslide or flood.
- (i) (1) The project site is not located on developed open space.
  - (2) For the purposes of this subdivision, “developed open space” means land that meets all of the following criteria:
    - (A) Is publicly owned, or financed in whole or in part by public funds.
    - (B) Is generally open to, and available for use by, the public.
    - (C) Is predominantly lacking in structural development other than structures associated with open spaces, including, but not limited to, playgrounds, swimming pools, ballfields, enclosed child play areas, and picnic facilities.
  - (3) For the purposes of this subdivision, “developed open space” includes land that has been designated for acquisition by a public agency for developed open space, but does not include lands acquired by public funds dedicated to the acquisition of land for housing purposes.
  - (j) The project site is not located within the boundaries of a state conservancy.

**Discussion**

- a-c) The proposed project is consistent with the City’s General Plan 2035 (General Plan), the City’s Downtown Specific Plan, and the City’s zoning ordinance and does not require a General Plan or Specific Plan amendment or a rezone. Environmental review has been conducted for the project area through the City’s Downtown Specific Plan EIR (certified

in March 2009), the proposed project is consistent with this analysis, and is required to implement all application mitigation measures included in the Plan's Mitigation, Monitoring, and Reporting Plan (MMRP) included as Attachment A. Those measures that are not applicable to the project are identified and described in Attachment A. The Downtown Specific Plan EIR determined that future development can be adequately served by existing City utilities, and the project applicant is required to pay all applicable in-lieu or development fees as set forth in the project's conditions of approval.

- d) A Biological and Wetland Resources Constraints Analysis prepared for the proposed project (see Attachment B) determined that the project site does not contain wetlands, does not have any value as a wildlife habitat, and that the proposed project would not harm any species protected by local, state or federal regulations or ordinances.
- e-f) The Phase I Environmental Site Assessment (ESA) prepared for the project site (see Attachment C) determined that the site is not included on any list of facilities and sites compiled pursuant to Section 65962.5 of the Government Code. The Phase I ESA also determined that no current recognized environmental conditions exist in connection with the project site based on a records review, database searches, and interviews. The proposed project does not contain any heavy industrial uses and would not expose future occupants to significant health hazards from any nearby property or activity.
- 1-2) The construction contractor would comply with all applicable state, federal, and local requirements if a release of a hazardous substance occurs or is found to occur during project construction, and would remove and mitigate the release of any hazardous materials, consistent with existing regulations.

If potential for exposure to significant hazards from surrounding properties or activities is found to exist, the effects of the potential exposure would be mitigated to a level of insignificance in compliance with state and federal requirements.

- g) A Historical Resource Analysis Study (Study) was prepared for the small, one-story cinder block building located within the project site (behind 127 Church Street) slated for removal (see Attachment D). The Downtown Specific Plan and Downtown Specific Plan Final EIR does not identify this building as a historically significant resource (City of Roseville 2009c, p.2-4, Exhibit 4.7-1). The Study reviewed the four principal criteria to determine if the building would qualify as a significant historical resource for listing locally and on the California Register of Historic Resources (CRHR). In order for the building to be considered significant, it must retain integrity, and meet one or more of the CRHR criteria. The Study concludes that the building, constructed of board-formed concrete, is a utilitarian

building that lacks a distinctive architecture style or design emblematic of the historic architecture that is considered to represent an important chapter in the history of Roseville. No documentation has been found to associate the building with a significant event or events in the history of Roseville, or a significant person or persons in the history of Roseville. Therefore, on an individual basis, the building does not warrant listing in the CRHR or on a local historical list, either individually, or as a contributor to the Old Town Roseville Historic District. The project would not have a significant effect on historical resources pursuant to PRC Section 21084.1.

An existing monument to the First Transcontinental Railroad is located adjacent to the west side of the project site. This monument would need to be relocated to accommodate the project and the State Historic Preservation Office has already granted the applicant permission to relocate the monument to an appropriate location, where it can be viewed by the public.

- h. 1-5) The project site is located in an urbanized, developed area and is not subject to a wildland fire hazard (CalFire 2008). The site, which is vacant, is not an unusually high risk of fire or explosion, or risk of public health exposure. The project site is not located within a delineated earthquake fault zone, landslide hazard area, flood plain, flood way, or restriction zone and is not located on developed open space (City of Roseville 2009a, FEMA 1998).
- i-j) The project site is located on previously developed land. It does not contain open space and is not within a conservancy.

#### **Public Resources Code Section 21159.23. Low-Income Housing Exemption**

The proposed project, having met the criteria of Section 21159.21, is exempt under Section 21159.23 (Low Income Housing) because it meets the following conditions:

- (a) This division does not apply to any development project that consists of the construction, conversion, or use of residential housing consisting of 100 or fewer that is affordable to low income households if both of the following criteria are met:
  - (1) The developer of the development project provides sufficient legal commitments to the appropriate local agency to ensure the continued availability and use of the housing units for lower income households, as defined in Section 50079.5 of the Health and Safety Code, for a period of at least 30 years, at monthly housing costs, as determined pursuant to Section 50053 of the Health and Safety Code.
  - (2) The development project meets all of the following requirements:

- (A) The project satisfies the criteria described in Section 21159.21.
- (B) The project site meets one of the following conditions:
  - (i) Has been previously developed for qualified urban uses.
  - (ii) The parcels immediately adjacent to the site are developed with qualified urban uses, or at least 75 percent of the perimeter of the site adjoins parcels that are developed with qualified urban uses and the remaining 25 percent of the perimeter of the site adjoins parcels that have previously been developed for qualified urban uses, and the site has not been developed for urban uses and no parcel within the site has been created within 10 years prior to the proposed development of the site.
- (C) The project site is not more than five acres in area.
- (D) The project site is located within an urbanized area or within a census-defined place with a population density of at least 5,000 persons per square mile or, if the project consists of 50 or fewer units, within an incorporated city with a population density of at least 2,500 persons per square mile and a total population of at least 25,000 persons.
- (b) Notwithstanding subdivision (a), if a project satisfies all of the criteria described in subdivision (a) except subparagraph (D) of paragraph (2) of that subdivision, this division does not apply to the project if the project is located within either an incorporated city or a census defined place with a population density of at least 1,000 persons per square mile.
- (c) Notwithstanding subdivision (b), this division applies to a project that meets the criteria of subdivision (b), if there is a reasonable possibility that the project would have a significant effect on the environment or the residents of the project due to unusual circumstances or due to the related or cumulative impacts of reasonably foreseeable projects in the vicinity of the project.
- (d) For the purposes of this section, “residential” means a use consisting of either of the following:
  - (1) Residential units only.
  - (2) Residential units and primarily neighborhood-serving goods, services, or retail uses that do not exceed 15 percent of the total floor area of the project.

## Discussion

- a) As described above, the proposed project would construct an 80-unit affordable housing community that would accommodate individuals with very-low (50% AMI) and low-incomes (60% AMI).
- 1) The project developer is required to provide sufficient legal commitments to the City to ensure the continued availability and use of the housing units for lower income households for a period of at least 30 years.
- 2A) As stated above, the project satisfies the criteria described in PRC Section 21159.21.
- 2B-2D) The project site has been previously developed as a parking lot, would be located adjacent to urban uses, including retail and restaurants, and the project site is less than five acres. The project site would be located within the incorporated City of Roseville, which has a population over 100,000 residents and, thus, constitutes an “urbanized area” as defined by PRC Section 21071. (US Census Bureau 2018).
- b-d) As the project would satisfy all of the criteria described in subdivision (a), subdivisions (b) and (c) are not applicable. While subdivision (c) is not applicable to the project, the proposed project would not have a significant effect on the environment or the residents of the project due to unusual circumstances or due to the related or cumulative impacts of reasonably foreseeable projects in the vicinity of the project. With respect to unusual circumstances, nothing is unusual about the project; it constitutes a residential infill project proposed on a site designated for such a use. As for potential cumulative impacts, the Downtown Specific Plan EIR evaluated potential cumulative impacts and mitigated all potential cumulative impacts of development contemplated by the Specific Plan to below a cumulatively considerable level to the extent feasible.

#### **Public Resources Code Section 21159.24 Infill Housing Exemption**

The proposed project, having met the criteria of Section 22259.21, is exempt under Section 21159.24 (Infill Housing) because it meets the following conditions:

- (a) Except as provided in subdivision (b), this division does not apply to a project if all of the following criteria are met:
  - (1) The project is a residential project on an infill site.
  - (2) The project is located within an urbanized area.
  - (3) The project satisfies the criteria of Section 21159.21.

*Memorandum*

*Subject: CEQA Exemption Junction Crossing Housing project*

---

- (4) Within five years of the date that the application for the project is deemed complete pursuant to Section 65943 of the Government Code, community-level environmental review was certified or adopted.
- (5) The site of the project is not more than four acres in total area.
- (6) The project does not contain more than 100 residential units.
- (7) Either of the following criteria are met:
  - (A) (i) At least 10 percent of the housing is sold to families of moderate income, or not less than 10 percent of the housing is rented to families of low income, or not less than 5 percent of the housing is rented to families of very low income.
  - (ii) The project developer provides sufficient legal commitments to the appropriate local agency to ensure the continued availability and use of the housing units for very low, low, and moderate-income households at monthly housing costs determined pursuant to paragraph (3) of subdivision (h) of Section 65589.5 of the Government Code.
- (B) The project developer has paid or will pay in-lieu fees pursuant to a local ordinance in an amount sufficient to result in the development of an equivalent number of units that would otherwise be required pursuant to subparagraph (A).
- (8) The project is within one-half mile of a major transit stop.
- (9) The project does not include any single level building that exceeds 100,000 square feet.
- (10) The project promotes higher density infill housing. A project with a density of at least 20 units per acre shall be conclusively presumed to promote higher density infill housing. A project with a density of at least 10 units per acre and a density greater than the average density of the residential properties within 1,500 feet shall be presumed to promote higher density housing unless the preponderance of the evidence demonstrates otherwise.
- (b) Notwithstanding subdivision (a), this division shall apply to a development project that meets the criteria described in subdivision (a), if any of the following occur:
  - (1) There is a reasonable possibility that the project will have a project-specific, significant effect on the environment due to unusual circumstances.
  - (2) Substantial changes with respect to the circumstances under which the project is being undertaken that are related to the project have occurred since community-level environmental review was certified or adopted.

- (3) New information becomes available regarding the circumstances under which the project is being undertaken and that is related to the project that was not known, and could not have been known, at the time that community-level environmental review was certified or adopted.
- (c) If a project satisfies the criteria described in subdivision (a), but is not exempt from this division as result of satisfying the criteria described in subdivision (b), the analysis of the environmental effects of the project in the environmental impact report or the negative declaration shall be limited to an analysis of the project-specific effect of the projects and any effects identified pursuant to paragraph (2) or (3) of subdivision (b).
- (d) For the purposes of this section, “residential” means a use consisting of either of the following:
  - (1) Residential units only.
  - (2) Residential units and primarily neighborhood-serving goods, services, or retail uses that do not exceed 25 percent of the total building square footage of the project.

## **Discussion**

- a. 1-6) The proposed project is a residential project located on an infill site within an urbanized area. As described previously, the project satisfies the criteria of Section 21159.21 and is included in the City’s Downtown Specific Plan and evaluated in the Downtown Specific Plan EIR and the City’s General Plan 2035 EIR, which was prepared in 2016. The project site is less than four acres and the proposed project would construct 80 residential units. Therefore, the project is not more than four acres in total area and does not contain more than 100 residential units.
- a. 7A-7B) All of the project’s residential units would accommodate individuals with very-low (50% AMI) and low-incomes (60% AMI) and the project developer is required to provide sufficient legal commitments to the City to ensure the continued availability and use of the housing units for very low and low-income households. The project developer would meet requirements pursuant to subparagraph 7A. Therefore, the project developer would not be required to pay in-lieu fees in an amount sufficient to result in the development of an equivalent number of units that would otherwise be required pursuant to subparagraph (A).
- a. 8) As described previously, the project site is located approximately 0.04 mile from the Roseville Amtrak station. Therefore, the project would be located within one-half mile of a major transit stop.

*Memorandum*

*Subject: CEQA Exemption Junction Crossing Housing project*

---

- a. 9) The proposed project would not construct any single level buildings. The project includes a four-story, 80,460 gsf building. Therefore, the project does not include any single level building that exceeds 100,000 square feet.
- a. 10) Section 21159.24 of the Public Resources Code states that “a project with a density of at least 20 units per acre shall be conclusively presumed to promote higher density infill housing”. The proposed project would construct 80 residential units at a housing density of approximately 60 du/ac and would provide high density infill housing.
- b. 1-3) The evidence provided above under PRC Section 21155.4 (3)(b), supports the statement that the project would not have a project-specific, significant effect on the environment due to unusual circumstances. Furthermore, no substantial changes, with respect to the circumstances under which the project is being undertaken, have occurred since certification of the City’s General Plan 2035 EIR. No new information regarding the circumstances under which the project is being undertaken and that is related to the project that was not known during community-level environmental review has been found.
- c) The project meets the criteria of subdivision (b). Therefore, further environmental analysis of the environmental effects of the project is not warranted.
- d) The project consists of residential units and amenities to serve those units (including a plaza and clubhouse).

**The Proposed Project is Categorically Exempt Under CEQA Section 15300.2**

The proposed project is categorically exempt from CEQA Section 15300.2 of the CEQA Guidelines because it meets the following conditions:

- (a) Location. Classes 3, 4, 5, 6, and 11 are qualified by consideration of where the project is to be located – a project that is ordinarily insignificant in its impact on the environment may in a particularly sensitive environment be significant. Therefore, these classes are considered to apply all instances, except where the project may impact on an environmental resource of hazardous or critical concern where designated, precisely mapped, and officially adopted pursuant to law by federal, state, or local agencies.
- (b) Cumulative Impact. All exemptions for these classes are inapplicable when the cumulative impact of successive projects of the same type in the same place, over time is significant.

- (c) Significant Effect. A categorical exemption shall not be used for an activity where there is a reasonable possibility that the activity will have a significant effect on the environment due to unusual circumstance.
- (d) Scenic Highways. A categorical exemption shall not be used for a project which may result in damage to scenic resources, including but not limited to, trees, historic buildings, rock outcroppings, or similar resources, within a highway officially designated as a state scenic highway. This does not apply to improvements which are required as mitigation by an adopted negative declaration or certified EIR.
- (e) Hazardous Waste Sites. A categorical exemption shall not be used for a project located on a site which is included on any list compiled pursuant to Section 65962.5 of the Government Code.
- (f) Historical Resources. A categorical exemption shall not be used for a project which may cause a substantial adverse change in the significance of a historical resource.

**Discussion**

- a) The location exception applicable to classes 3, 4, 5, 6, and 11 of the categorical exemptions are not applicable to the project. The project meets the Section 15332 criteria for application of the Class 32 exemption, as described below.
- b) As described above under Public Resources Code Section 21159.23 (b-d), development of the project site was evaluated in the Downtown Specific Plan EIR and would not contribute to an existing cumulative impact. The proposed project would comply with mitigation measures identified in the Downtown Specific Plan EIR, listed below.
- c) As described above, development of the project site was evaluated in the Downtown Specific Plan EIR and the proposed project would not change any of the conclusions of the EIR. Therefore, nothing is unusual about the proposed project or the circumstances surrounding the proposed project. Furthermore, the proposed project is not introducing any uses that could result in a significant effect on the environment due to unusual circumstances.
- d) There are no state-eligible or designated scenic highways within the viewshed of the proposed project or in the project vicinity (City of Roseville 2009).
- e) As discussed above under Public Resources Code Section 21159.21(e-f), the project is not located on a site that contains hazardous materials (see Attachment C).

- f) As discussed under Public Resources Code Section 21159.21(g) above, a Historical Resource Analysis Study evaluated the building to determine if it would meet the criteria to be considered a historic resource. The Study concluded that the building does not meet any of the required criteria. Therefore, the building is not considered a historical resource so removing this building would not impact a historical resource (see Attachment D).

### **The Proposed Project is Categorically Exempt Under CEQA Section 15332**

The proposed modifications are categorically exempt from CEQA Section 15332 of the CEQA Guidelines because it meets the following conditions for Class 32 exemptions:

Class 32 consists of projects characterized as in-fill development meeting the conditions described in this section.

- (a) The project is consistent with the applicable general plan designation and all applicable general plan policies as well as with applicable zoning designation and regulations.
- (b) The proposed development occurs within city limits on a project site of no more than five acres substantially surrounded by urban uses.
- (c) The project site has no value as habitat for endangered, rare or threatened species.
- (d) Approval of the project would not result in any significant effects relating to traffic, noise, air quality, or water quality.
- (e) The site can be adequately served by all required utilities and public services.

### **Discussion**

- a) The proposed project would be located within a developed area that is currently being used as a parking lot and is characterized as in-fill development, as the site is surrounded by urban uses. The City's General Plan designates the project site as CBD and the Downtown Specific Plan designates the project site as Old Town Commercial and it is zoned HD/SA-DT (Old Town Historic District/Special Area-Downtown). Where conflicts exist between the Downtown Specific Plan and provisions of the Roseville Municipal Code, the provisions of the Downtown Specific Plan Downtown Code prevail. (Roseville Municipal Code, § 19.31.040.) The project would be consistent with the underlying land use and zoning designation for the project site and development would not require a General Plan or Specific Plan amendment or rezone. The Downtown Specific Plan includes several goals and policies that promote the development of new housing within the Downtown area (see LU Goal 4.3), encourage a variety of housing types that is accessible to different economic and life-style sectors (Policy 4.3.1),

encourage pedestrian-oriented development (LU Goal 4.4), and promotes intensification of the development footprint in the Downtown (LU Goal 4.5). The project would meet the intended uses of the site by constructing a high-density pedestrian-oriented affordable housing community.

- b) The proposed project would be located on a site that is less than five acres within Downtown Roseville and would be located within an area surrounded by predominantly urban uses, including the Roseville Amtrak station, City Hall, and nearby restaurants and retail stores. Therefore, the proposed project would occur within city limits on a project site of not more than five acres and be substantially surrounded by urban uses.
- c) The Biological and Wetland Resources Constraints Analysis prepared for the proposed project (see Attachment A) determined that the project site contains no significant natural resources, including special-status plants or animals, and provides negligible value to local wildlife due to its historical use as a sparsely-landscaped parking lot. The southeastern portion of the site currently supports eight landscape trees on islands among parking spaces, and the northwestern portion of the site contains a parking lot and a vacant lot with a small outbuilding and small parklet. None of these areas contain plant or wildlife species of special concern or wetlands or other waters of the U.S. or State that would be adversely affected by the proposed project. Therefore, the project site has no value as habitat for endangered, rare or threatened species.
- d) Future development of this site was contemplated in the City's Downtown Specific Plan, and project impacts relating to traffic, noise, air quality, and water quality were analyzed in the Downtown Specific Plan Environmental Impact Report certified in March 2009. The EIR determined that the majority of impacts related to these areas would be less than significant, or could be reduced to less-than-significant with the incorporation of mitigation measures.

Impact 4.6-2 of the Downtown Specific Plan EIR found that implementation of the Specific Plan could result in significant and unavoidable impacts related to unacceptable p.m. peak hour LOS at signalized intersections under cumulative plus project conditions (City of Roseville 2009a, pp. 4.6-33 to 4.6-34). The following intersections were identified: Orlando Avenue/Marlin Drive/Cirby Way; Harding Drive/Estates Drive; Sunrise Avenue/Eureka Road. However, the proposed project would not affect these signalized study intersections, as these intersections are located outside of the City's Pedestrian Overlay District, where the proposed project is located. Furthermore, the EIR determined that implementation of the Specific Plan could result in significant and

unavoidable air quality impacts related to generation of short-term construction-related emissions of criteria air pollutants and precursors, generation of long-term operation-related (regional) emission of criteria air pollutants and ozone precursors, and exposure of sensitive receptors to toxic air contaminant emissions. However, the proposed project would not emit substantial air pollutants and would not contribute to a significant air quality impact. Furthermore, the project would follow all applicable mitigation measures included in the Downtown Specific Plan EIR. No impacts to water quality requiring mitigation were identified. Cumulative traffic impacts were identified, but are outside of the pedestrian overlay zone and would not apply to the project. Relevant mitigation measures to air quality and noise are listed below:

### **Air Quality**

#### **Mitigation Measure 4.10-1**

In accordance with the PCAPCD, the applicant shall comply with all applicable rules and regulations as listed above (e.g., Rule 202, 218 and 228). In addition, the following mitigation measures shall be implemented to reduce short-term construction-related air quality impacts. In addition, dust control measures are required to be implemented by all projects in accordance with the City of Roseville Grading Ordinance, and the PCAPCD Fugitive Dust Rule 228.

1. The applicant shall submit to PCAPCD a Construction Emission/Dust Control Plan within 30 days prior to groundbreaking. If the PCAPCD does not respond within 20 days, the plan shall be considered approved. The plan must address the minimum requirements found in section 300 and 400 of District Rule 228, Fugitive Dust ([www.placer.ca.gov/airpollution/airpolut.htm](http://www.placer.ca.gov/airpollution/airpolut.htm)). The applicant shall keep a hard or electronic copy of Rule 228, Fugitive Dust on-site for reference.
2. The Construction Emission/Dust Control Plan shall include a comprehensive inventory (i.e., make, model, year, emission rating) of all heavy-duty off-road equipment (50 horsepower (HP) or greater) that will be used an aggregate of 40 or more hours for the construction project. The project representative shall provide PCAPCD with the anticipated construction timeline including start date, and name and phone number of the project manager and on-site foreman. The plan shall demonstrate that the heavy-duty (> 50 HP) off-road vehicles to be used in the construction project, including owned, leased and subcontractor vehicles, will achieve a project wide fleet-average 20% NOX reduction and 45% particulate reduction compared to the most recent ARB fleet average. PCAPCD shall be contacted for average fleet emission data. Acceptable options for reducing emissions may include use of late model engines, low-emission diesel products, alternative fuels, engine retrofit technology, after-treatment products, and/or other options as they become available. Contractors can access the Sacramento Metropolitan Air Quality Management District's web site to determine if their off-road fleet meets the requirements listed in this measure ([http://www.airquality.org/ceqa/Construction\\_Mitigation\\_Calculator.xls](http://www.airquality.org/ceqa/Construction_Mitigation_Calculator.xls)).
3. Clean earth moving construction equipment with water or sweep clean, once per day, or as necessary (e.g., when moving onsite), consistent with National Pollutant Discharge Elimination System Best Management Practices, local ordinances, and municipal codes. Water shall be applied to control dust as needed to prevent dust impacts offsite. Operational water truck(s), shall

be on-site, as required, to control fugitive dust. Construction vehicles leaving the site shall be cleaned, as needed, to prevent dust, silt, mud, and dirt from being released or tracked off-site.

4. Spread soil binders on unpaved roads and employee/equipment parking areas. Soil binders shall be non-toxic in accordance with state and local regulations. Apply approved chemical soil stabilizers, or vegetated mats, etc. according to manufacturers' specifications, to all-inactive construction areas (previously graded areas which remain inactive for 96 hours).

5. Minimize diesel idling time to a maximum of 10 minutes.

6. Utilize existing power sources (e.g., power poles) or clean fuel generators rather than temporary diesel power generators, if feasible.

**Mitigation Measure 4.10-2**

The following is a list of mitigation measures developed by PCAPCD to reduce long-term operational impacts to local and regional air quality. Due to the severe nonattainment designation in western Placer County for federal standards, all projects should implement those measures that are logical and feasible.

1. Exceed California Title 24 2008 energy efficiency standards by a minimum of 10%. Areas of Title 24 to be exceeded (e.g., insulation, appliances, and fixtures) shall be determined by the applicant and the City.
2. All truck loading and unloading docks shall be equipped with one 110/208-volt power outlet for every two-dock door. Diesel trucks shall be prohibited from idling more than five minutes and must be required to connect to the 110/208-volt power to run any auxiliary equipment. Signage shall be provided.
3. Install a gas outlet in all outdoor recreational fire pits, and permanently installed cooking appliances.
4. Only natural gas fireplace appliances are permitted. Where propane or natural gas service is not available, only EPA Phase II certified wood-burning devices shall be allowed in single family residences. The emission potential from each residence shall not exceed 7.5 grams per hour. Wood-burning or Pellet appliances shall not be permitted in multi-family developments.
5. Where feasible, install solar electric generation systems. Recommend participation in Roseville Electric incentive programs for energy-efficient development.

**Mitigation Measure 4.10-3.**

The following mitigation measures shall be implemented to reduce the exposure of sensitive receptors to TACs:

- All proposed homes in the Plan area shall be equipped with filter systems with high Minimum Efficiency Reporting Value (MERV) for removal of small particles (such as 0.3 micron) at all air intake points to the home. All proposed dwelling units shall be constructed with mechanical ventilation systems which would allow occupants to keep windows and doors closed and allow for the introduction of fresh outside air, without the requirement of open windows.
- Proposed commercial uses that have the potential to emit TACs (e.g., diesel-fueled engines) shall be located as far away as possible from existing and proposed receptors. Proponents of projects with a residential component shall provide disclosure to future

residents advising them of the proximity to the JR Davis Rail Yard and associated health risk impacts.

- When determining the exact type of facility that would occupy the proposed commercial space, the project shall take into consideration its toxic-producing potential.
- Proposed facilities that would require the long-term use of diesel equipment and heavy-duty trucks shall develop a plan to reduce emissions, which may include such measures as scheduling such activities when the residential uses are the least occupied, and requiring such equipment to be shut off when not in use and prohibiting heavy-trucks from idling.
- To the extent feasible, sensitive receptors shall be located as far away from the UPRR maintenance facility as possible.
- Implement Mitigation Measure 4.10-2-2, described above, with respect to electrification of commercial loading dock areas to reduce emissions associated with truck idling.

The EIR also determined that a significant and unavoidable noise impact would occur due to land use compatibility conflicts resulting from placing sensitive receptors near rail lines. The project site is located within the 60 dB  $L_{dn}$  railroad noise contours. With implementation of noise mitigation measures included in the EIR and enforcement of City noise standards for interior spaces, projected noise levels would not exceed applicable interior noise standards. Applicable noise mitigation measures include the following:

#### Noise

##### Mitigation Measure 4.11-1

Although impacts related to short-term construction-generated noise were considered to be less than significant with implementation of the project, the following mitigation is provided to ensure impacts remain at a less-than-significant level. Construction contractors shall implement the following measures during construction activities.

- Construction equipment shall be properly maintained per manufacturers' specifications and fitted with the best available noise suppression devices (i.e., mufflers, silencers, wraps, etc). Shroud or shield all impact tools, and muffle or shield all intake and exhaust ports on power equipment.
- Construction operations and related activities associated with the proposed project shall comply with the operational hours outlined in the City of Roseville Municipal Code Noise Ordinance; construction operations shall be limited to between the hours of 7 a.m. and 7 p.m. Monday through Friday and between 8 a.m. and 8 p.m. Saturday and Sunday.
- Construction equipment should not be idled for extended periods of time in the vicinity of noise-sensitive receptors.
- Locate fixed and/or stationary equipment as far as possible from noise sensitive receptors (e.g., generators, compressors, rock crushers, cement mixers). Shroud or shield all impact tools, and muffle or shield all intake and exhaust ports on powered construction equipment.

- Where feasible, temporary barriers shall be placed as close to the noise source or as close to the receptor as possible and break the line of sight between the source and receptor where modeled levels exceed applicable standards. Acoustical barriers shall be constructed material having a minimum surface weight of 2 pounds per square foot or greater, and a demonstrated Sound Transmission Class (STC) rating of 25 or greater as defined by American Society for Testing and Materials (ASTM) Test Method E90. Placement, orientation, size, and density of acoustical barriers shall be specified by a qualified acoustical consultant.

**Mitigation Measure 4.11-4**

Project applicant(s) shall implement the following measures to substantially reduce the exposure of sensitive receptors to excessive roadway traffic noise levels. During project review, the City's planning staff shall determine if the proposed land use would potentially be exposed to noise levels exceeding the City's noise level standards. If a proposed project has the potential to generate or be exposed to noise levels exceeding the City of Roseville noise standards (refer to Tables 4.11-4 through 4.11-6) or result in a substantial permanent increase in ambient noise levels (3 dB or greater), the project applicant shall prepare a site-specific acoustical analysis. The acoustical analysis shall be conducted in accordance with the City of Roseville General Plan requirements shown in Table 4.11-5.

- Disclose all transportation noise (i.e., roadway, railway, racetrack), vibration levels, and their meanings to purchasers and/or renters prior to contract or title transfer for residential property within the Plan area.
- Incorporate site specific design considerations to reduce exterior noise exposure levels. Site design shall include the following measures as applicable to the project-specific site and when feasible:
  - Common outdoor activity areas, such as play structures, swimming pools, or other outdoor congregation areas included in multi-family residential and/or mixed-use developments shall be located such that the building(s) serve as a sound barrier to the nearest predominant noise source.
  - Distances between noise sources and noise-sensitive uses shall be maximized through the use of noise buffers/setbacks. Setback areas can take the form of open space, frontage roads, recreational areas, storage yards, or other City approved setback.
  - Noise barriers shall be constructed to provide shielding of noise-sensitive uses and outdoor activity areas. Barriers may include manmade walls, earthen berms, a combination of walls and berms, and other structures breaking line of sight from noise source to receptor. Barriers shall be located in close proximity to either the noise source or the sensitive receptor.
  - A site specific acoustical analysis shall be performed consistent with Table 4.11-5, and determine effectiveness of various site design measures based on specific construction plans.

It is also important to recognize that, in *California Building Industry Association v. Bay Area Air Quality Management District* (2015) 62 Cal.4th 369, the California Supreme Court held that “agencies subject to CEQA generally are not required to analyze the

impact of existing environmental conditions on a project's future users or residents. But when a proposed project risks exacerbating those environmental hazards or conditions that already exist, an agency must analyze the potential impact of such hazards on future residents or users. In those specific instances, it is the project's impact on the environment—and not the environment's impact on the project—that compels an evaluation of how future residents or users could be affected by exacerbated conditions.” (*Id.* at pp. 377-378.) Therefore, while the proposed project is required to implement the Mitigation Measure 4.11-4 to further reduce potential-noise impacts on future project residents, it is important to acknowledge the potential for existing environmental noise sources to impact future project residents exceeds the scope of CEQA review. The project would generate minimal noises normally associated with residential uses and does not have the potential to result in a significant noise impact particularly in consideration of its urban infill location.

Mitigation Measure 4.11-5 requires the same actions as Mitigation Measure 4.11-1 to address future noise from railroad and rail operations to the extent feasible. Therefore, the proposed project would not result in any significant effects relating to traffic, noise, air quality, or water quality.

- e) The project site is located in an urbanized, developed area that is currently served by water, wastewater, storm drain facilities, electrical and natural gas. In addition, this area of the City is also served by police and fire services, solid waste removal, schools, libraries and parks. The proposed project would be adequately served by all required utilities and public services.

### **Conclusions**

The proposed project meets the applicable statutory and categorical CEQA exemptions detailed above. Therefore, as demonstrated above:

1. The project is exempt pursuant to the following exemptions: Public Resources Code Section 21155.4 and Government Code Section 65457 (Sustainable Communities Strategy/Specific Plans), Public Resources Code Section 21159.21 (Housing Project Exemptions) including Section 21159.23 (Low Income) and Section 21159.24 (Infill). In addition, the project is categorically exempt under Section 15332 (In-fill projects) of the CEQA Guidelines.

*Memorandum*

*Subject: CEQA Exemption Junction Crossing Housing project*

Gregory W. Bitter  
City of Roseville  
Civic Center, 311 Vernon Street  
Roseville, CA 95678

RE: Junction Crossing project consistency with the Metropolitan Transportation  
Plan/Sustainable Communities Strategy for 2036

Dear Mr. Bitter,

You requested SACOG's confirmation that the Junction Crossing project is consistent with the Metropolitan Transportation Plan/Sustainable Communities Strategy for 2036 (MTP/SCS). SACOG provides a consistency determination at the request of the lead agency. However, it is the responsibility of the lead agency to make the final determination on a project's consistency with the MTP/SCS. This letter concurs with the City's determination that the Junction Crossing project is consistent with the MTP/SCS. SACOG reviewed the project description and SCS consistency worksheet that was provided by City staff and compared it to the MTP/SCS assumptions for the project area to make our determination.

The Junction Crossing project is located at 120 Pacific St. in Roseville, near the Roseville Amtrak Station. The project, as defined in the materials you provided, consists of a total of 80 affordable apartment units. The residential density of the project is 62 dwelling units per acre and 100 percent of the total building area square footage.

The project is also located in a Transit Priority Area included in the MTP/SCS. The MTP/SCS defines its Transit Priority Areas as areas within one-half mile of a rail station or within one-half mile of high-quality transit corridors that include fixed route bus service with service intervals no longer than 15 minutes during peak commute hours in the MTP/SCS. As shown in Map 1, the project is entirely within one-half mile of the Amtrak Transit Priority Area.

The Junction Crossing project is an infill project within the Centers/Corridor community type of the MTP/SCS for the City of Roseville (see attached Map 2). Within the Centers/Corridor community type, the MTP/SCS forecasts a range of low to high density residential, commercial, office, and industrial uses (MTP/SCS Appendix E-3, Land Use Forecast Background Documentation, pp. 148, February 19, 2016). The project's land uses fall within this range of general uses, densities, and building intensities. Therefore, development at the proposed densities is consistent with the build out assumptions for the area within this community type of the MTP/SCS.

With respect to consistency with the MTP/SCS policies, the applicable policies are embedded in the metrics and growth forecast assumptions of the MTP/SCS. For the purposes of determining SCS consistency, projects consistent with the growth forecast assumptions of the MTP/SCS are consistent with these policies.

The Blueprint Preferred Scenario and the adopted MTP/SCS achieve transportation, air quality, and other quality of life benefits by relying in part on infill and redevelopment projects such as this one. The Junction Crossing project is consistent with MTP/SCS growth forecast assumptions. Our confirmation of the project's consistency with the MTP/SCS is not intended to express any opinion on the site design or the appropriate conditions of approval of the project.

Thank you for inviting SACOG's input as to the consistency of the Junction Crossing project with the MTP/SCS for 2036. If you have further questions or need further assistance, please don't hesitate to contact me at (916) 340-6265.

Sincerely,

A handwritten signature in black ink, appearing to read 'Kacey Lizon', with a stylized flourish extending from the end.

Kacey Lizon  
Planning Manager

**DETERMINATION OF MTP/SCS CONSISTENCY WORKSHEET**  
**For Qualifying Transit Priority Projects and Residential/Mixed-Use**  
**Residential Projects**  
*As of February 20, 2018<sup>i</sup>*

**Background:** Pursuant to SB 375, streamlined CEQA review and analysis is available to Transit Priority Projects (TPPs) and residential or mixed-use residential projects that are consistent with the SCS. The SCS was adopted by the Sacramento Area Council of Governments (SACOG) Board as part of the 2016 Metropolitan Transportation Plan/Sustainable Communities Strategy on February 18, 2016. The California Air Resources Board (CARB) provided an Acceptance of GHG Quantification Determination for the SACOG SCS in September 2016.

Streamlined CEQA review available to TPPs consists of one of the following: 1) a Sustainable Communities Environmental Assessment (SCEA) pursuant to Public Resources Code (PRC) § 21155.2(b) or 2) an EIR pursuant to PRC § 21155.2(c).<sup>ii</sup>

Streamlined CEQA review available to residential or mixed-use residential projects consists of an EIR pursuant to PRC § 21159.28(a).

**Purpose:** The purpose of this worksheet is to provide lead agencies with assistance on three issues:

1. Whether a proposed project qualifies as a TPP;
2. Whether a proposed project qualifies as a residential or mixed-use residential project (at least 75 percent of the total building square footage is residential);
3. Whether the TPP or residential/mixed-use residential project is consistent with the general land use designation, density, intensity and applicable policies of the 2016 MTP/SCS adopted by the Sacramento Area Council of Governments (SACOG).

**The lead agency has responsibility to make the final determination on these matters and to determine the applicable and appropriate CEQA streamlining, if any.**

**Directions:** This worksheet should be completed by the lead agency, relying on the project description of the proposed project, [MTP/SCS Chapters 3 and 4, and MTP/SCS Appendix E-3](#). Regardless of whether this worksheet is used, pursuant to PRC § 21155(a) and PRC § 21159.28(a), a project can only be consistent with the MTP/SCS if it is consistent with the general land use designation, density, building intensity, and applicable policies specified for the project area in the adopted SCS. This worksheet only applies to the 2016 MTP/SCS (adopted February 18, 2016); subsequent MTP/SCS adoptions may require updates to this form.

Lead agencies are welcome to contact SACOG for assistance in completing this worksheet. For assistance, contact Kacey Lizon at [klizon@sacog.org](mailto:klizon@sacog.org) or 916-340-6265.

---

**Project Title:** Junction Crossing Housing Project

**Proposed project is located in (city/county name):** City of Roseville, Placer County, CA

# DETERMINATION OF MTP/SCS CONSISTENCY WORKSHEET

As of February 20, 2018

## 1. Transit Priority Project Designation (PRC § 21155(b))

A project must meet the requirements of items **1.A**, **1.B**, **1.C**, and 1.D, below, to qualify as a Transit Priority Project. **For items 1.C and 1.D**, the definition of an MTP/SCS Transit Priority Area is: the area within one-half mile of a rail station stop or a high-quality transit corridor included in the MTP/SCS. A high-quality transit corridor has fixed route bus service with service intervals of 15 minutes or less during peak commute hours. See [MTP/SCS Chapter 3](#) for the map of Transit Priority Areas.

- 1.A.** ☒ The Project has a minimum net density<sup>iii</sup> of 20 dwelling units per acre.

Calculation:

Total housing units proposed in Project 80 ÷ Total Project parcel area (in net<sup>ii</sup> acres)1.3 = 61.5 (Should be ≥20 du/ac)

- 1.B.** ☒ At least 50 percent of the Project's total building square footage is in residential use, **AND**,

☒ The total building square footage of the Project has 25 percent or less non-residential use, or, if it has between 26 and 50 percent in non-residential use, has a minimum FAR of 0.75.

Calculations:

Total Project residential square footage 80,460 ÷ Total Project building square footage 80,460  
= 100% (Should be ≥ 50%)

Total Project building square footage 80,460 ÷ Total Project parcel(s) area square footage 56,628  
= 1.42 (Should be ≥ 0.75)

- 1.C.** ☒ The Project is located within an MTP/SCS Transit Priority Area and the qualifying transit service is *(transit route name/applicable street name/number or light rail stop name as identified in the adopted MTP/SCS)*: Roseville Capitol Corridor train station

- 1.D.** ☒ No more than 25 percent of the area of the Project parcels are farther than one-half mile from the TPA transit stop/corridor and no more than 10 percent of the residential units or 100 units, whichever is less, in the project are farther than one-half mile from the TPA transit stop/corridor.

# DETERMINATION OF MTP/SCS CONSISTENCY WORKSHEET

As of February 20, 2018

Calculations:

Project area outside of ½ mile TPA 0% ÷ Total Project area 1.3 acres  
= 0% (Should be ≤ 25%)

Project residential units outside of ½ mile TPA 0% ÷ Total Project units  
80 units = 0% (Should be ≤ 10% or less than 100 units)

## SECTION 1 CONCLUSION:

- ☒ The proposed project meets the requirements of 1.A, 1.B, 1.C, and 1.D and therefore qualifies as a Transit Priority Project.
- ☐ The proposed project does not meet all the requirements of 1.A, 1.B, 1.C, and 1.D and therefore does not qualify as a Transit Priority Project.

## 2. Residential or Mixed-Use Residential Project Designation for Projects Located Outside of an MTP/SCS TPA 21159.28(a)

A residential or mixed-use residential project using the streamlined CEQA review to complete an EIR pursuant to PRC § 21159.28(a) must meet the following requirement:

- 2.A.** ☐ At least 75 percent of the total building square footage of the project consists of residential use.

Calculation:

Total Project residential square footage \_\_\_\_ ÷ Total Project building square footage \_\_\_\_  
= \_\_\_\_ (Should be ≥ 75%)

## SECTION 2 CONCLUSION:

- ☐ The proposed project meets the requirements of 2.A and therefore qualifies as a residential or mixed-use residential project.
- ☐ The proposed project does not meet the requirements of 2.A and therefore does not qualify as a residential or mixed-use residential project.

**IF A PROJECT DOES NOT QUALIFY AS EITHER A TRANSIT PRIORITY PROJECT (UNDER SECTION 1) OR A RESIDENTIAL OR MIXED-USE RESIDENTIAL PROJECT (UNDER SECTION**

# DETERMINATION OF MTP/SCS CONSISTENCY WORKSHEET

As of February 20, 2018

**2), THE PROJECT DOES NOT QUALIFY FOR SB 375 CEQA STREAMLINING. DO NOT PROCEED TO SECTION 3.**

## **3. Required Consistency with the SCS: General Use Designation, Density and Intensity, and Applicable MTP/SCS Policies (PRC § 21155(a) and PRC § 21159.28(a))**

**3.A. Applicable MTP/SCS Policies.** For the purposes of determining SCS consistency, the policies of the MTP/SCS are embedded in the metrics and growth forecast assumptions of the MTP/SCS. Projects consistent with the growth forecast assumptions of the MTP/SCS, as determined by application of items 3.B. and 3.C, are consistent with the MTP/SCS and its policies.

**3.B. Applicable Community Type.** The MTP/SCS land use forecast is illustrated using Community Types. In order to determine the general use designation, density and intensity of the Project area within the MTP/SCS, the Project must be located within a Community Type designated in the MTP/SCS. The MTP/SCS defines density/building intensity in terms of the amount of growth (residential and non-residential) forecasted and the amount of build out potential within each Community Type area. SACOG monitors development activity on an annual basis to check that the amount of development is consistent with the growth forecast of the MTP/SCS.

For the purposes of the lead agency's determination of SCS consistency, use [MTP/SCS Appendix E-3](#) to identify the Community Type for the Project and fill in the applicable information, below for 3.B.1 and 3.B.2.

### **3.B.1. The Project is located in the following Community Type:**

- ☒ Center and Corridor Community
- ☐ Established Community
- ☐ Developing Community (*list the specific name of the Developing Community as identified in the jurisdiction narrative in Appendix E-3*): \_\_\_\_\_
- ☐ Rural Residential Community

**3.B.2** ☒ Development from the project when added to other entitled projects will not exceed the MTP/SCS build out assumptions for the area within this Community Type, which is 1,569 new housing units and 11,172 new employees<sup>iv</sup>.

# DETERMINATION OF MTP/SCS CONSISTENCY WORKSHEET

*As of February 20, 2018*

**3.C. General Use Designation, Density and Building Intensity.** The foundation of the land use designations for the MTP/SCS is adopted and proposed local general plans, community plans, specific plans and other local policies and regulations. A project is consistent with the MTP/SCS if its uses are identified in the applicable MTP/SCS Community Type **and** its uses meet the general density and building intensity assumptions for the Community Type. The proposed project does not have to include all allowed uses in the MTP/SCS.

**3.C.1. Determine consistency of the Project using one of the methods below:**

**Option A:**

☒ The Project is located in a **Center and Corridor Community or an Established Community** and the Project uses are consistent with the allowed uses of the applicable adopted local land use plan as it existed in 2012 and are at least 80 percent of the maximum allowed density or intensity of the allowed uses of the applicable local land use plans. Therefore, the Project is consistent with the MTP/SCS.<sup>v</sup>

**OR**

**Option B:**

☐ The Project is located in a **Center and Corridor Community or an Established Community** and the Project uses have been reviewed in the context of, and are found to be consistent with, the general land use, density, and intensity information provided for this Community Type in [Appendix E-3 of the MTP/SCS](#). Therefore, the Project is consistent with the MTP/SCS.

**OR**

**Option C:**

☐ The Project is located in a **Rural Residential Community** and the Project residential density does not exceed the maximum density of one unit per acre as specified in the MTP/SCS, and employment development in the Project is at least 80 percent of the maximum allowed density or intensity of the applicable local land use plans. Therefore, the Project is consistent with the MTP/SCS.

**OR**

**Option D:**

☐ The Project is located in a **Developing Community** and the Project's average net density meets or exceed the average net density described for this specific

# DETERMINATION OF MTP/SCS CONSISTENCY WORKSHEET

As of February 20, 2018

Developing Community (as referenced by name of applicable specific plan, master plan, or special plan in [MTP/SCS Appendix E-3](#)) and employment development in the Project is consistent with the general employment land uses described for this specific Developing Community.<sup>vi</sup> Therefore, the Project is consistent with the MTP/SCS.

## SECTION 3 CONCLUSION:

The proposed project is consistent with the General Use Designation, Density and Intensity, and Applicable MTP/SCS Policies for the following reasons (*summarize findings on use designation, density and intensity for the Project evaluation completed in Section 3*):

The proposed project is located within the City's Downtown Specific Plan area, and designated as Old Town Commercial in the Downtown Specific Plan. This designation permits multi-family development development at a minimum density of 16 units per acre. The proposed project would construct 80 residential units within an 80,460 SF, four-story building on 1.31 acres of land. The project density is 61.1 dwelling units/acre. Therefore, the project would meet the density requirements and intensity of allowed uses of the project site under the Downtown Specific Plan. Furthermore, future development of the site with residential and parking uses was evaluated in the Downtown Specific Plan EIR. Therefore, the proposed project is consistent with the Downtown Specific Plan and the MTP/SCS.

---

<sup>i</sup> This document may be updated as users provide feedback on its utility.

<sup>ii</sup> If a TPP complies with an additional series of requirements set forth in PRC § 21155.1, it qualifies as a Sustainable Communities Project and becomes eligible for a complete exemption from CEQA. This worksheet does not address Sustainable Communities Projects.

<sup>iii</sup> *Net density* is not defined in PRC §2115(b). In the MTP/SCS, net density is defined as follows: Housing units divided by the acres on which housing is built, exclusive of public rights-of-ways, parks, schools and public areas (MTP/SCS Appendix E-3).

<sup>iv</sup> The MTP/SCS build out for each Community Type assumes development that is entitled as of January 1, 2012. SACOG monitors housing permits on an annual basis and will ensure that housing and employment projects relying on the SB 375 CEQA benefits will not exceed the capacity assumed in the MTP/SCS. SACOG undertakes this review generally every four years as part of the update of the MTP/SCS. In between MTP/SCS updates, projects that exceed the build out of a Community Type in a jurisdiction can be reviewed for consistency by SACOG and will be evaluated on a project by project basis.

<sup>v</sup> The MTP/SCS general land use, density and intensity in Center and Corridor Communities and Established Communities is based on 80 percent of the maximum allowed density or intensity of the land use designations in applicable local land use plans as they existed in 2012, unless otherwise noted in Appendix E-3.

<sup>vi</sup> The MTP/SCS land use forecast in Developing Communities was modeled according to adopted and proposed specific plans, master plans, and special plans as they existed in 2012, and is based on the housing and employment totals and the average net density of these plans, as outlined in Appendix E-3.

Approving Body: \_\_\_\_\_ Approval Date: \_\_\_\_\_

**Appeal of Planning Commission approval  
on 4/26/18 relating to  
Design Review Permit (File# PL16-0115)and  
Tentative Map (File#PL18-0036).**

Richard Ryan, individually and on behalf of the Historic Roseville Preservation Association objects to the Planning Commission approval of the proposed Design Review Permit (File# PL16-0115) and a Tentative Map (File#PL18-0036).

In 2009, the City of Roseville (City) created the Downtown Specific Plan (Plan) associated EIR and Downtown Code. The Plan had two distinct areas which were addressed separately in the Plan. These areas were the Vernon Street and Historic Roseville (Old Town), also referred to as Old Town. The areas are physically separated by railroad tracks.

On the Vernon side of the tracks is the Civic Center Complex, municipal parking garages, and other improvements. The Old Town side of the tracks contains the Historic District.

Prior to 1950, Lincoln Street connected Vernon Street and Old Town. With the closing of the train track crossing of Lincoln Street, Old entered into a period of decline reaching a low point in the 1990 when the majority of the properties were vacant and boarded up.

In the early 90s, in an attempt to reinvigorate Old Town, the city improved the infrastructure and overall appearance. With the completion of these improvements, there was a slow but steady resurgence of interest in Old Town.

In 2009, after several years of preparation, 900 man hours of volunteer work, and almost a million dollars in consultant fees, the City created the 2009 downtown Specific Plan.

The Garage was to provide parking for 400 vehicles. The garage was the only<sup>1</sup> significant public improvement that was to be provided by the City. The garage site is owned by the City and is the only City parking lot. The lot provides free parking to residents, businesses and customers of the Historic District in addition to providing overflow parking to the Amtrak and Capitol Corridor train ridership.

St. Anton, the developer, is seeking to eliminate the parking structure altogether and build an apartment house in its place. This would not only result in the loss of the planned structure, it would also put a burden on the existing businesses that need parking and impede future development. Removal of the Parking Garage is a change to the Specific Plan. Section 9.2.4 of the Specific Plan requires Changes to the Significant Plan be amended by the same procedure

---

<sup>1</sup> The plan also envisioned improvements to alleyways and the building of surface parking on Leased UP land

as they were originally adopted. This would include notice to all residents and property owners in the specific plan. Government Code Section 65453 requires, "A specific plan shall be prepared, adopted and amended in the same manner as the general plan..." as such, opportunities for the involvement of citizens, public agencies, public utilities, civic education, and other community groups must be provided pursuant to Section 65351. The EIR requires the City to provide 580 additional parking spaces which includes the Pacific Street garage.

For these reasons, in addition to the written and oral objections stated at the Planning Commission Hearing meeting, and those that will be stated at the appeal to the City Council, objection is hereby made.

Richard Ryan  
Individually and on behalf of the  
Historic Roseville Preservation Association.

---

Dear Ms. McColl,

As the owner of 2 vacant lots (127 & 129 Church St.) included in the proposed Junction Crossing development, I would like to have my comments noted at the upcoming Planning Commission hearing scheduled for 4/26/18.

I believe the developer has bent over backwards to design a project in keeping with Old Town and has attempted to mitigate every hurdle the City and others have presented them with. I am running out of patience having allowed my escrow to remain open for over 3 years. If this project is not approved in the very near future I may be forced to cancel the escrow and pursue other options.

While I have patiently waited, I have toured and watched other projects like the "Creamery" & "Mill Site" in Sacramento be built out, sold, generate massive tax revenues, & clean up blight.

I understand the main detractor's alleged concern is parking. I have had several discussions with my wonderful tenant, Kevin Prince, owner of One Eleven Music Studio, and while he supports the project, he too is concerned that the parking issues may not be adequately addressed. I believe he has some suggestions that he will be presenting at the hearing. While I'm sure the parking has been studied to death, I ask that the City come up with a contingency plan (or at the least a pledge) for additional parking if it proves necessary. Hopefully arrangements could be made for quick temporary surface parking while possibly designing a future parking garage. BTW, I have heard rumor that some may feel the Vernon St. garage serves Old Town, but I feel it is totally impractical due to its proximity and pathway to Old Town.

In closing, I'm sure the City would acknowledge that if parking becomes a major problem, everyone suffers.

Thank you for your consideration.

Sincerely,

Scott Diffenbaugh

April 23, 2018

Roseville City Council Members  
311 Vernon Street #206  
Roseville, CA 95678

Re: Low Income Housing Projects

Dear Honorable Mayor and Members of the Roseville City Council:

My name is Jennifer Roether and I am a Roseville resident and, also, an active member of the Roseville Heights Neighborhood Association.

I recently heard about St. Anton Communities' proposed Junction Crossing workforce housing community. The project developer presented the project to our association in a hands-on meeting and answered many of our questions. The project is slated to provide housing for 80 workforce residences, 10% of these units are set aside for individuals with extremely low incomes and 90% are for those with low incomes. These units will help single families, individuals with disabilities, students and general low income workers, all of whom would benefit from more affordable housing options in the area.

With the current 2% vacancy rate, Placer County is in a deep housing crisis in our region. Many working professionals and families cannot afford to pay growing market rents. At Junction Crossing, the rents and utility allowances are set to ensure that tenants' total costs are approximately equivalent to 30% of their incomes, which is a healthy ratio for individuals with limited means. Furthermore, the project is sited next to public transit and local businesses. It is very walkable and the developer has ensured us that they will be adding additional parking spaces, as well as ample bicycle spaces, which will help with both increased traffic in the area as well as providing families who choose to go green and live without a vehicle.

St. Anton is a local affordable housing builder with considerable experience in Roseville, having completed 6 Roseville projects over the past 20 years. They manage their own projects, which means they stay involved and accessible after the project is constructed.

At a time of housing crisis, we need workforce housing, especially next to transit and services. The Junction Crossing project is the right project at the right location and I urge the City Council's support.

Sincerely,

Jennifer Roether

**In the Matter Before the  
Roseville Planning Commission**

**Meeting 7 PM 4/26/18  
Opposition Brief**

**Historic Roseville Preservation Association  
In Opposition to  
Design Review Permit (File# PL16-0115)  
and a Tentative Map (File#PL18-0036).**

The Historic Roseville Preservation Association objects to the proposed Design Review Permit (File# PL16-0115) and a Tentative Map (File#PL18-0036) :

The Downtown Specific Plan took 5 years to complete and cost a million dollars in consulting fees. The City of Roseville implemented the Specific Plan in 2009. The Plan area encompasses Historic and Downtown Roseville, separated by railroad tracks.

When the State shut down the Roseville Redevelopment Agency, the City lost its intended revenue source to finance the civic improvement portions of the Specific Plan. The City was able to divert some redevelopment money into the Roseville Community Development Corporation (RCDC). Some of the redevelopment funds are finding their way back to the City. Most of the public projects on the Downtown side of the tracks have been completed. The Parking Garage on Pacific Street was the primary element of the Specific Plan in Historic Roseville. The Specific Plan included zoning changes which incorporated the Parking Structure to provide off-street parking.

The City is now attempting to sell the Pacific Street parking lot to a developer. The proposed building plans would remove a portion of the public surface parking lot and preclude the building of the parking structure.

California law require a formal process be followed as part of a proposed modification of a Specific Plan. The process requires extensive analysis of the impacts of modifications to the Specific Plan. A Specific Plan requires the same level of process as a modification of the General Plan

The matters before the Planning Commission are not a routine Design Review and Tentative Map. Their effect would be a de facto modification of the Specific Plan. The proposed actions would result in the removal of the parking structure from the Specific Plan. If a modification of

the Specific Plan is contemplated, the impact of the Capitol Corridor Third Track Project will have to be addressed.

## **The requested entitlements are part of coordinated effort to gut the Specific Plan of its primary feature, the Pacific Street Parking Garage**

Objection is made to the application of St. Anton, a for profit corporation, relating to the requested approval of the Junction Crossings Design Review Permit (File# PL16-0115) and a Tentative Map (File#PL18-0036). The DRP and Map are inconsistent with the Downtown Specific Plan (Specific Plan) and the related EIR. Objection is made for the reasons stated herein as well as those objections which will be made in conjunction with the public hearings related hereto. The Downtown Roseville Specific Plan, Specific Plan EIR, and Downtown Code are incorporated by reference.

## **The Specific Plan contains the exclusive procedures for amendments**

### **Section 9.2.4 of the Specific Plan provides for Amendments as follows:**

The Specific Plan and Downtown Code may be amended by the same procedure as they were originally adopted. Each amendment shall include all sections or portions of the Specific Plan or Downtown Code that are affected by the change.

The Governor's Office of Planning and Research has prepared the Planner's Guide to Specific Plans (2001). The Guide cites Government Code Section 65453 which provides that "A specific plan shall be prepared, adopted and amended in the same manner as the general plan..." as such, opportunities for the involvement of citizens, public agencies, public utilities, civic education, and other community groups must be provided pursuant to Section 65351.

## **The proposed use of the Minor Design Review and Tentative Map to circumvent the procedures to modify the Specific Plan**

St. Anton is the 4th largest restricted income apartment housing complex provider in California. It is attempting to acquire the Pacific Street Parking Lot from the City. St Anton has already built six developments in Roseville totalling approximately 1000 units. St. Anton intends to take advantage of the Transit Bonus reduced parking requirement and \$4.5 million public subsidy.

The Specific Plan provides the parking lot site would be used to house a 400 unit parking Garage which is the focal point of Old Town redevelopment.

Rather than attempt a straightforward amendment of the Specific Plan, St. Antons has adopted the novel approach of attempting to obtain entitlements to essential components of its project, that when taken together would give it what it could not hope to obtain through a Specific Plan amendment.

Thus far St. Anton the City has earmarking over \$4 in public subsidies, and granted an Exclusive Right to Negotiate with the City. The current ploy is to use the Minor Design Review and Tentative Map Application to continue the circumvention of the Specific Plan.

## **Background**

### **The Specific Plan requires the Pacific Street Parking Structure**

The Downtown Specific Plan (Plan) was adopted in 2009 and is incorporated herein. The Plan took 5 years to create, took over 900 hours of staff time, cost nearly a million dollars in consultants. The Plan addresses both the Downtown and the Historic District. These areas are separated by railroad tracks. The rezoning of properties in conjunction with providing for public parking is the main emphasis of the plan.

The Plan called for three new parking structures. One in Downtown, One at the Train Depot and One in the Historic Roseville Business District.

The Specific Plan provides a 400 space Parking structure to be built at the Pacific Street lot. It also provides for a 250 space structure is to be built at the train depot. The third 420 space Structure in Downtown will be completed shortly.

The Pacific Street Parking Structure is one of the 5 key concepts identified in the Specific Plan:

1. Constructing a pedestrian plaza adjacent to the Fire Department Museum at the intersection of Main Street, Church Street and Lincoln Street
2. Creating a pedestrian courtyard at the rear of the buildings that are located adjacent to the east side of Church Street, that can be accessed via the alleyways
3. **Securing and constructing additional at-grade parking on the land currently owned by Union Pacific**

**4. Providing a joint public/private development on the existing public parking lot accessed from Pacific Street that would include construction of a public parking structure and a private development project**

5. Redevelopment at a higher intensity on prime opportunity sites located at: 1) Washington Boulevard and Lincoln Street, 2) Main Street and Washington Boulevard both north and south sides; and, 3) property at the terminus of Main Street and Lincoln Street on the east side of Lincoln Street.

The Pacific Street Parking Garage was identified as the primary improvement in the Specific Plan. The rezoning of properties in the Historic District resulted in a 965 parking space shortfall. To address the shortage, the Plan required the construction of the 400 space Pacific Street Garage in addition to the acquiring of surface parking on railroad land for additional parking..

The Specific Plan required CEQA review. The review included both the Downtown and Old Town areas. The EIR concluded that even with the 400 space Pacific Street Garage, the Plan area still lacked sufficient parking. As a result EIR Mitigation Measure 4.6-5 was enacted requiring the City to provide an additional 580 parking spaces in the three planned parking structures (Oak, Depot and Pacific Street).

The Pacific Street parking structure has not been built and no railroad land has been acquired. Development is continuing in Historic Old Town but the lack of parking is creating serious problems.

#### **The Trains are Coming**

The Third Rail Capitol Corridor Project will bring additional Commuter Trains to Roseville. With the increase in train ridership there will be a need for additional parking. Parking in the Historic District will be impacted. The Specific Plan did not address the Third Rail.

At the present time there is one round trip per day leaving after 5 AM and returning around 7PM. This schedule, while not ideal for commuters, still attracts over 100 daily riders and vehicles fill the Depot Lot and a portion of the Pacific Lot.

Recently the Capitol Corridor Joint Powers Association (CCJPA) announced the Third Rail Project would increase commuter rail service from Roseville to Sacramento (and San Jose). The Third Track EIR requires Roseville and CCJPA to agree there is adequate parking in Roseville before train service can expand.

In late 2017 CCJPA and Roseville entered into a MOU regarding the sufficiency of parking for Phase One. The MOU was based upon the 2017 Fehr and Peers Parking Study anticipating the construction of a Train Layover Yard in Old Town. Along with the Layover Yard the plan was to construct surface parking on the UP property between the Boxing Donkey and Moose Lodge. The parking was to be paid for by CCJPA and would replace parking dislocated at the Barker

and Moose Parking Lots. In addition to the replacement parking, the City planned to obtain an additional 50 parking spaces.

CCJPA is no longer pursuing the plan for the Old Town Layover Yard. Its current plan is to locate the layover yard east of Yosemite Street. This area is outside of the Historic District and would not require CCJPA acquisition of parking in Historic Old Town. To date, the City has been unsuccessful in acquiring any land from the railroad

Capitol Corridor now has one round trip per day. With the implementation of Phase One of the Third Rail Project, two additional round trip trains will service Roseville for a total of three daily round trips. It is ultimately planned that there will be 10 round trips per day. Phase One could begin service upon the completion of the Yosemite Layover Yard.

On a weekday basis, the Depot Lot is filled to capacity with overflow parking being absorbed in the Pacific Street Lot. Prior to the abandonment of the plans for the Layover Yard in the Historic District, CCJPA and the City of Roseville had entered in a Memorandum of Understanding adopting a 2017 parking study which was used as the premises for determining the number of additional parking spaces that would be needed to accommodate Phase One train riders.

Current Capitol Corridor vehicle parking demand is about 90 on weekdays. It should increase to at least 170 or more when there are three trains.

Roseville intends to add 105 diagonal parking spaces along the Church Street from the Train Depot down to Birch Street. There is no plan on where train riders would park when the service expands for 3 to 10 round trips per day.

### **The Economic Analysis and CEQA Memorandum are Defective**

1. Both of these documents were paid for by St. Antons. Neither show compliance with the Specific Plan
2. Neither acknowledges the impact the loss of the Pacific Street Garage would have on the businesses.
3. Neither computes the parking demand generated by an 80 unit apartment.
4. The Economic Analysis assumes the Layover yard is going to be in Old Town. The layover yard plan was moved to Yosemite St. almost a year ago.
5. The analysis fails to include estimate for other projects:
  - a. Track 7, at the Odd Fellows Building., 70-100 spaces
  - b. Bank of Italy, under renovation: 15 spaces.
  - c. The Whiskey Row Bar: 10 spaces.
  - d. The Pacific Street Apartments: 23 spaces.
  - e. The Cassie Hill Building: 10-15 spaces.
  - f. 75 Unit Pacific Plaza: 38 on site: potential 40 .
  - g. Town Center: Mixed use including a restaurant 40 spaces

Attachment -1:

### **19.26.030 D Downtown/Historic District Parking Requirements.**

All principally permitted uses within the Historic District (HD) and Central Business District (CBD) zone districts, with the exception of community assembly, colleges and universities, and new uses requiring and discretionary permit shall be permitted in the HD and CBD zone districts without the need to provide additional off-street parking.

**19.26.030 A Parking space requirements by use type.** The number of off-street parking spaces required for studio or one bedroom shall be 1.5 spaces per unit plus 1 guest parking for each 10 units.

The Pacific Street Lot is within ½ mile of the rail depot. If qualified as a priority transit area, the parking a developer would not have to comply with City standards for the number of on-site parking spaces required. If qualified the on-site base parking supply would be reduced to .5 spaces per unit. This reduction, while reducing the number of on-site spaces the developer would be required to supply, it has no bearing on the number of parking spaces the occupants would actually use, on-site or off site

The Historic Business District has been designated the Entertainment District. It features numerous entertainment venues. The Spillover Parking would have the greatest impact in the evenings when the Nightclubs are operational, and in the mornings when needed by breakfast and coffee business.

### **Reduction in Off-Street Public Parking**

|                                                                                                |     |
|------------------------------------------------------------------------------------------------|-----|
| Total Currently Available Off-Street Public Parking<br>In Historic Roseville Business District | 125 |
| Loss of Pacific Street Lot                                                                     | 51  |
| Off-Street Parking Remaining in Moose and Barker-Boxing<br>Donkey Lot                          | 74  |

\*A recent survey of Pacific Street Lot showed 60 spaces. The increase number of spaces is due to the removal of City well and the allocation of space widths in the open parking area. Table 1

\*\* Moose Lodge Parking is included as it is technically in the Business District. In reality the parking in this lot under the Crooked Bridge is too far from Old town Businesses to have any significant impact.

\*\*\* The 2017 Fehr Peers Memorandum is inconsistent. Table 1 indicates there are 136 Public-Off-Street Parking Spaces in the three public lots, whereas Figure 3 indicates the quantities shown above which equal 125)

**CA Gov Code 65455.**

**TENTATIVE MAP MUST BE CONSISTENT WITH SPECIFIC PLAN**

**No local public works project may be approved, no tentative map or parcel map for which a tentative map was not required may be approved, and no zoning ordinance may be adopted or amended within an area covered by a specific plan unless it is consistent with the adopted specific plan.**

---

**RMC 18.06.180**

The advisory agency shall make findings reflecting the evidence on the record and take action to either approve, conditionally approve or deny the application.

A. Findings for approval of a tentative map

1. The size, design, character, grading, location, orientation and configuration of lots, roads and all improvements for the tentative subdivision map are consistent with the density, uses, circulation and open space systems, applicable policies and standards of the general plan or any applicable **specific plan** for the area...

**RMC 18.06.180.** The ... lots... are consistent with the density, uses, circulation ... applicable policies and standards of the ... **specific plan**

---

**AMENDMENT OF SPECIFIC PLAN**

Specific Plan Amendments 9.2.4

The Specific Plan and Downtown Code may be amended by the same procedure as they were originally adopted...

## **Conditions required for approval of Design Review Permit**

### **RMC 19.78.060 et sec**

The Approving Authority may approve or conditionally approve an application for a permit or variance, as defined in Section 19.74.010, only if all of the following applicable findings, in addition to those findings that are applicable in this title are made.

**A.** ...

**B. Findings for a Design Review Permit.** The Approving Authority shall make the following findings to approve a Design Review Permit:

**1.** ...

**2. The project site design as approved provides open space, access, vehicle parking, vehicle, pedestrian and bicycle circulation, pedestrian walks and links to alternative modes of transportation, loading areas, landscaping and irrigation and lighting which results in a safe, efficient, and harmonious development and which is consistent with the applicable goals, policies and objectives set forth in the General Plan, the Community Design Guidelines and the applicable specific plan and/or applicable design guidelines.**

**3.** ....

The project site design is not consistent with applicable Specific Plan Design Guidelines.

### **19.76.030 Eligible applicants.**

A permit application is not bust must be applied for by all owners::

- The lawful owner of record of the parcel, or their duly authorized agents.
- A person with lawful power of attorney or other acceptable authority from the lawful owner of record. Evidence of authorization shall be submitted upon request of the department. (Ord. 5428 § 1, 2014.)

**SUBJECT: DTSP PCL DT-4 – Junction Crossing Tentative Parcel Map**  
**File # PL16-0115 & PL18-0036**  
**City Wide Job # 160133 & 180162**

On **APRIL 26, 2018**, the *Planning Commission* **APPROVED** the request for a **MINOR DESIGN REVIEW PERMIT** to allow a four-story, approximately 80,460 square foot, 80-unit affordable multi-family residential building, with associated parking and **TENTATIVE SUBDIVISION MAP** to allow merging and resubdivision of 11 parcels, totaling approximately 1.38 acres, into two parcels with right-of-way abandonments and dedications, located at **120 PACIFIC STREET**.

**EXPIRATION DATE**

You have two (2) years from the date of the Planning Commission's approval in which to effectuate the permit, or else the **MINOR DESIGN REVIEW PERMIT** and **TENTATIVE SUBDIVISION MPA** approval becomes null and void.

The expiration date of this request is **APRIL 26, 2020**.

**EXTENSION OF PERMIT**

You may request that a permit be extended for a period up to a maximum of one (1) year. An application for an extension shall be submitted to the Planning Division prior to the expiration date indicated above. No notice will be sent to you prior to the date of permit expiration.

YOU WILL BE RESPONSIBLE FOR REQUESTING ANY EXTENSION.

**FEE NOTIFICATION**

Per Government Code Section 66000, et seq, this notice shall serve as notification that the 90 day appeal period has begun in which the applicant may protest the imposition of fees, dedications, reservations, or other exactions imposed under the provisions of Government Code Section 66020 to the City Council. The appeal shall be filed in writing or on a form provided by the City stating the reasons for the appeal as provided for in Government Code Section 66020. **The appeal shall be filed with the City Clerk.**

### **APPEAL PROCEDURE**

The decision of the Planning Commission is final unless appealed. This decision must be appealed to the **City Council** by filing a written appeal and paying the required fee **within ten (10) calendar days of April 26, 2018. The appeal shall be filed with the City Clerk.**

You may be precluded from filing a lawsuit to challenge this decision unless you use this opportunity for administrative appeal and raise any issues you believe to be wrongly decided.

Persons wishing to commence a court case challenging this decision must do so within ninety (90) days of the final decision (after all administrative appeals are exhausted) pursuant to Code of Civil Procedures Section 1094.6. (See Roseville City Council Resolution No. 82-81)

### **CONDITIONS OF APPROVAL FOR MINOR DESIGN REVIEW PERMIT (MDRP) PL16-0115**

1. This design review permit approval shall be effectuated within a period of two (2) years from this date and if not effectuated shall expire on **April 26, 2020**. Prior to said expiration date, the applicant may apply for an extension of time, provided, however, this approval shall be extended for no more than a total of one year from **April 26, 2020**.
2. The project is approved as shown in Exhibit A and as conditioned or modified below. (Planning)
3. The project shall comply with all required environmental mitigation identified in the DTSP EIR. The applicable mitigation measures are outlined in the Junction Crossing MMP, contained within Attachment 5 to the 4/26/18 Planning Commission staff report. (Planning)
4. The developer shall be responsible for relocation of the California registered landmark, in coordination with the Office of Historic Preservation. (Planning)
5. The developer shall be responsible for relocating the dedicational bricks within the Church Street plaza area, in a manner and location approved by the City's Parks Department (Planning)
6. The applicant shall pay City's actual costs for providing plan check, mapping, GIS, and inspection services. This may be a combination of staff costs and direct billing for contract professional services. (Engineering, Environmental Utilities, Electric, Finance)
7. The design and construction of all improvements shall conform to the Design and Construction Standards of the City of Roseville, or as modified by these conditions of approval, or as directed by the City Engineer. (Engineering)
8. The applicant shall not commence with any on-site improvements or improvements within the right-of-way until such time as grading and/or improvement plans are approved and grading and/or encroachment permits are issued by the Development Services Department (Engineering)

9. The approval of this project does not constitute approval of proposed improvements as to size, design, materials, or location, unless specifically addressed in these conditions of approval. (Engineering)
10. Existing ramp from sidewalk to crosswalk must connect to provide a connection to Amtrak. (Alternative Transportation).
11. A covered seating area shall be located near the front office visible from the drive aisle for our Dial-a-Ride passenger pick-up and drop-off (Alternative Transportation, Engineering)
12. The project will impact City maintained landscaping. Plans to repair and re-establish landscaping shall be part of the project and approved by the City. If construction impacts a part of the irrigation system, project shall be responsible for the health of all landscaping affected by the interruption. (Parks)
13. New off-site landscape improvements shall comply with the Parks Construction Standards, latest edition and shall be approved by the City prior to implementation. (Parks)

**PRIOR TO ISSUANCE OF BUILDING PERMITS:**

14. A parking management plan for the construction phase of the project shall be approved by the Planning Division. The plan shall identify any public parking spaces impacts by the construction and outline temporary parking opportunities to replace the impacted parking. The plan shall also identify locations for contractor parking. (Planning)
15. The developer shall pay all applicable development fees including school fees. (Planning, Building)
16. Parking stalls shall meet, or exceed, the following minimum standards:
  - a. All parking stalls shall be double-striped. Parking stalls adjacent to sidewalks, landscaped areas or light fixtures, and all Accessible stalls shall abut a 6" raised curb or concrete bumper. (Planning)
  - b. Standard -- 9 feet x 18 feet; Compact--9 feet x 16 feet; Accessible--14 feet x 18 feet (a 9 foot wide parking area plus a 5 foot wide loading area) and a minimum of one (1) parking space shall be Accessible van accessible--17 feet x 18 feet (9 foot wide parking area plus an 8 foot wide loading area). (Planning)
  - c. An 'exterior routes of travel' site accessibility plan incorporating slope, cross-slope, width, pedestrian ramps, curb ramps, handrails, signage, detectable warnings or speed limit signs or equivalent means shall comprise part of the site improvement plans submitted to City for review, prior to building plan check approvals. This site accessibility plan shall also include:
    - i) Accessible parking stalls shall be dispersed and located closest to accessible entrances. The total number of accessible parking spaces shall be established by current edition of the CBC Chapters 11A & 11B. (Building)

- ii) Accessible Parking spaces and crosswalks shall be signed, marked and maintained as required by CBC Chapters 11A & 11B. (Building)
  - iii) Accessible parking and exterior route of travel shall comply with CBC, Chapters 11A & 11B. (Building)
- 17. Signs and/or striping shall be provided on-site as required by the Planning Department to control on-site traffic movements. Parking lot striping and signage shall be maintained in a visible and legible manner. (Planning)
- 18. The plans submitted to the Building Division for permits shall indicate all approved revisions/alterations as approved by the Commission including all conditions of approval. (Planning)
- 19. The project Landscape Plans shall comply with the following:
  - a. The Landscape Plan shall indicate the location of, and be designed to avoid conflicts with, all pole-mounted light fixtures and utility equipment including (but not limited to) electric transformers, switchgear, and overhead lines, backflow preventors, fire department connections, and public water, sewer, and storm drain facilities. (Planning, Fire, EUD, Electric, Engineering)
  - b. The tree plantings in the parking lot shall be designed to provide a minimum of 50% shade coverage after 15 years. (Planning)
  - c. At a minimum, landscaped areas not covered with live material shall be covered with a rock, (3") bark (no shredded bark) or (3") mulch covering. (Planning)
  - d. The landscape plan shall comply with the Landscape Guidelines for the Downtown Specific Plan and the City of Roseville Water Efficient Landscape ordinance. (Planning)
  - e. All landscaping in areas containing electrical service equipment shall conform with the Electric Department's Landscape Requirements and Work Clearances as outlined in Section 10.00 of the Departments "Specification for Commercial Construction." (Electric)
- 20. Any roof-mounted equipment and satellite dishes proposed shall be shown on the building plans. The equipment shall be fully screened from public streets and the surrounding properties. (Planning)
- 21. At the time of building permit application and plan submittal, the project applicant shall submit a proposed plan which shows the suite and/or apartment numbering plan for individual tenant spaces and/or apartments within the building. The Building Official, or the designate, shall approve said plan prior to building permit approval. (Building)
- 22. A separate Site Accessibility Plan which details the project's site accessibility information as required by California Title 24, Part 2 shall be submitted as part of the project Building Permit Plans. (Building)

23. For Multiple Building Complexes: As part of the required Site Accessibility Plan, the developer shall delineate the extent of the site accessibility improvements being installed as part of the initial improvements for the project, and those that are planned to be developed as part of subsequent phases (i.e. around future pad buildings). (Building)
24. Building permit plans shall comply with all applicable code requirements (California Building Code – CBC – based on the International Building Code, [California Green Building Standards Code-CGBSC](#), California Mechanical Code – CMC – based on the Uniform Mechanical Code, California Plumbing Code – CPC – based on the Uniform Plumbing Code, California Fire Code – CFC – based on the International Fire Code – with City of Roseville Amendments – RFC, California Electrical Code – CEC – based on the National Electrical Code, and California Energy Standards – CEC T-24 Part 6), California Title 24 and the American with Disabilities Act - ADA requirements, and all State and Federally mandated requirements in effect at the time of submittal for building permits (contact the Building Division for applicable Code editions). (Building)
25. A complying Allowable Area Analysis will be required for this building complex. (Building)
26. Public use areas, public accommodations, and public housing are subject to the accessibility provisions CBC Chapter 11B. (Building)
27. Covered Multifamily Dwellings shall be accessible and constructed to CBC Chapter 11A. All ground-floor units in nonelevator buildings shall be adaptable and on an accessible route, unless an accessible route is not required as determined by site impracticality provision. Where the first floor containing dwelling units in a building is above grade, all units on that floor shall be served by an accessible route (i.e. – ramp, elevator, etc.). (Building)
28. The building foundation adjacent to the relocated 36-inch storm drain main shall be designed such that future repair and trenching of the storm drain does not negatively impact the building foundation. (Building, Engineering)
29. Maintenance of copy of building plans: Health and Safety Code section 19850 requires the Building Division of every city or county to maintain an official copy of the building plans for the life of the building. As such, each individual building shall be submitted as a separate submittal package. Building plan review, permit issuance and archiving is based on each individual building address.
30. For all work to be performed off-site, permission to enter and construct shall be obtained from the property owner, in the form of a notarized right-of-entry. Said notarized right-of-entry shall be provided to Public Works prior to approval of any plans. (Engineering)
31. The Improvement Plans shall include a complete set of Landscape Plans. The Landscape Plans shall be approved with the Improvement Plans. (Planning, Engineering, Fire, Environmental Utilities, Electric)
32. A note shall be added to the grading plans that states:  
*“Prior to the commencement of grading operations, the contractor shall identify the site where the **excess/borrow** earthen material shall be imported/deposited. If the **borrow/deposit** site*

*is within the City of Roseville, the contractor shall produce a report issued by a geotechnical engineer to verify that the exported materials are suitable for the intended fill, and shall show proof of all approved grading plans. Haul routes to be used shall be specified.” (Engineering)*

33. Provide detail of the covered bicycle parking to be located near the Church Street foyer. (Alternative Transportation)
34. All properties will need to be acquired and merged prior to approval of any plans for construction. This shall include the dedication of any required public easements for existing facilities. (Engineering)
35. The site shall be accessed from Pacific Street by a 25-foot wide Type S driveway. (Engineering)
36. Sidewalk shall be constructed along the western perimeter of the site to connect Church Street to Pacific Street. (Engineering, Planning)
37. The removal of existing driveways will be replaced with standard vertical curb and gutter. (Engineering)
38. The relocated 36-inch storm drain main shall be constructed with reinforced concrete pipe, class 4 or greater. (Engineering)
39. All storm drainage, including roof drains, shall be collected on site and treated with Best Management Practices (BMP's) per the City's West Placer Stormwater Quality Design Manual. All storm water shall be routed to the nearest existing storm drain system or natural drainage facility. Drain outfalls shall extend down to the receiving water and shall be constructed with adequate velocity attenuation devices. The grading/improvement plans for the site shall be accompanied with a shed map that defines that area tributary to this site and all drainage facilities shall be designed to accommodate the tributary flow. The storm drain system and proposed BMP's shall be privately owned and maintained by the property owner. Prior to the issuance of any permits, the owner shall provide a plan for the maintenance of the proposed BMP's. (Engineering)
40. Prior to the issuance of any permits, the property owner shall prepare and submit a Storm Water Pollution Prevention Plan (SWPPP) to the City, as defined by the Regional Water Quality Control Board. The SWPPP shall be submitted in a single three ring binder. Upon approval, the SWPPP will be returned to the property owner during the pre-construction meeting. (Engineering)
41. To ensure that the design for any necessary widening, construction, or modifications of Public Streets does not conflict with existing dry utilities generally located behind the curb and gutter, and prior to the submittal of design drawings for those frontage improvements, the project proponent shall have the existing dry utilities pot holed for verification of location and depth. (Engineering)
42. Sight distances for all driveways shall be clearly shown on the improvement plans to verify that minimum standards are achieved. It will be the responsibility of the project proponent to provide

appropriate landscaping and improvement plans, and to relocate and/or modify existing facilities as needed to meet these design objectives. (Engineering)

43. The applicant shall remove and reconstruct any existing damaged curb, gutter, and sidewalk along the property frontage. During plan check of the improvement plans and/or during inspection, Public Works will designate the exact areas to be reconstructed. Any existing public facilities damaged during the course of construction shall be repaired by the property owner and at the property owner's expense, to the satisfaction of the City. (Engineering)
44. Prior to the approval of the improvement plans, it will be the project proponent's responsibility to pay the standard City Trench Cut Recovery Fee for any cuts within the City streets that are required for the installation of underground utilities. (Public Works)
45. The project shall be addressed as 120 Pacific Street. All projects with multi-tenants must submit a unit addressing plan to the Development Services Department (Business Services) for approval prior to or concurrent with initial building plan submittal. (Business Services)
46. Prior to the issuance of building permits, the property owner shall pay into the following fee programs: Citywide Drainage Fee, Citywide Traffic Mitigation Fee (TMF), Highway 65 Joint Partners Association (JPA), South Placer Regional Transportation Authority (SPRTA), and City/County Fee. (Engineering)
47. Prior to the issuance of a grading permit or approval of Improvement Plans, the grading plans shall clearly identify all existing water, sewer and recycled water utilities within the boundaries of the project (including adjoining public right of way). Existing utilities shall be identified in plan view and in profile view where grading activities will modify existing site elevations over top of or within 15 feet of the utility. Any utilities that could potentially be impacted by the project shall be clearly identified along with the proposed protection measures. The developer shall be responsible for taking measures and incurring costs associated with protecting the existing water, sewer and recycled water utilities to the satisfaction of the Environmental Utilities Director. (Environmental Utilities)"
48. The applicant shall pay all applicable water and sewer fees. (Environmental Utilities)
49. Water and sewer infrastructure shall be designed pursuant to the adopted City of Roseville Improvement Standards and the City of Roseville Construction Standards and shall include:
  - a. Utilities or permanent structures shall not be located within the area which would be disturbed by an open trench needed to expose sewer trunk mains deeper than 12' unless approved by Environmental Utilities in these conditions. The area needed to construct the trench is a sloped cone above the sewer main. The cone shall have 1:1 side slopes.
  - b. Water, sewer and recycled mains shall not exceed a depth of 12' below finished grade, unless authorized in these conditions of approval.
  - c. All sewer manholes shall have all-weather 10-ton vehicle access unless authorized by these conditions of approval. (Environmental Utilities)

50. City well is to be destroyed and the well building removed prior to above ground construction. Contractor/developer is to provide sufficient access and work space for city forces and city contractor to complete the well destruction. (Environmental Utilities)
51. No trees are allowed over the water appurtenance. (Environmental Utilities)
52. Sewer easement is to be a minimum 15' (Environmental Utilities)
53. Trash enclosures, recycling areas, and enclosure approaches shall be designed to current Refuse Division specifications, the materials and colors shall match the building, and the location of such facilities shall be reviewed and approved by the Refuse Division, Planning and the Fire Department. The enclosure must have inside dimensions of 12 feet wide and 9 feet deep and be built to the specifications of the Solid Waste Department's Enclosure Description. (Refuse, Planning, Fire)
54. Access to trash enclosures shall have an inside turning radius of 25 feet and an outside turning radius of 45 feet must be maintained to allow the refuse truck access to and from the enclosure. Enclosures must have a clear approach of 65 feet in front of the enclosure to allow servicing bins. (Refuse)
55. The design and installation of all fire protection equipment shall conform to the California Fire Code and the amendments adopted by the City of Roseville, along with all standards and policies implemented by the Roseville Fire Department. (Fire)
56. The applicable codes and standards adopted by the City shall be enforced at the time construction plans have been submitted to the City for permitting (Fire)
57. The fire flow required, at a 50% reduction due to the buildings being sprinklered, will be based on the largest single structure in accordance with the California Fire Code at the time detail plans are submitted to the City of Roseville for review. The maximum fire flow will not exceed 4,000 gpm based on the Appendix III-AA of the California Fire Code. (Fire)
58. The fire department access road shall meet the City's requirements for width and turning radii of 30 and 50 as noted on the fire department standards for access. This shall be enforced at the time plan are submitted for review, Additional information can be found on the City's web site [www.roseville.ca.us](http://www.roseville.ca.us) or contact Patrick Chew, Senior Fire Inspector, at 916-774-5823 or [pchew@roseville.ca.us](mailto:pchew@roseville.ca.us) with the Fire Prevention Division for information. (Fire)
59. An **approved** automatic fire extinguishing system shall be provided for all buildings where the total fire area is **3,600** square feet or greater, as required by California Fire Code as adopted by this city for non-single family residential units. All amendments, standards and policies can be found on the City's web site [www.roseville.ca.us](http://www.roseville.ca.us) or contact Patrick Chew, Senior Fire Inspector, at 916-774-5823 or [pchew@roseville.ca.us](mailto:pchew@roseville.ca.us) with the Fire and Life Safety Division for information. (Fire)
60. Every building three stories or more in height shall be provided with a Class 1 standpipe system in accordance with the California Fire Code as amended by the Fire Department by way ordinance. Standpipes shall be spaced every 300 feet of travel distance with the

location(s) to be approved by this department. One standpipe shall extend to the roof dock if the roof slope is less than 4 & 12. Plan review and field inspection fees associated with the installation of said systems shall be paid prior to plan submittal. (Fire)

61. All fire extinguishing system risers, fire alarm system panels and digital alarm communicator system panels shall be located within an approved fire control room and shall be accessible from an adjacent fire apparatus roadway. Said fire control room shall be a minimum size of thirty-five (35) square feet in size and shall be openable from the exterior via an approved door opening. (Fire)
62. All stairwells and elevators shall be designed to accommodate first responders and their apparatuses such as gurneys. (Fire)
63. The fire department shall have access to all bedroom windows located three-stories and below in accordance with the adopted building code. This provision shall also apply to all interior bedroom windows within the **interior court and/or podium structure**. Provisions shall also be considered when installing trusses, trees, and other outdoor equipment. (Fire)
64. The phasing of this project shall not limit the fire department requirements for access and circulation throughout the project as a result of continuous construction in accordance with the California Fire Code, 2013 with the City of Roseville's Amendments. A separate phasing plan (and permit issued by the Building Division) shall be reviewed and approved by this department. (Fire)
65. If added cornice construction is involved, the design shall support the weight of a ladder leaning against the assembly as well as a 330-pound vertical load applied to the **leading edge** of the horizontal projection of the cornice (a 250-pound firefighter carrying 80 pounds of equipment stepping off of a ladder onto the top of the cornice). (Fire)
66. Use, increase of hazardous materials or storage, liquids, gases and/or chemicals shall meet the requirements of the Chapter 6.95 of the Health and Safety Code, the Roseville Fire Department and the National Fire Codes. Submit a complete plan set and the Hazardous Materials Business Plan, including names and amount of any hazardous materials that will be stored or used, to the Fire and Life Safety Division for review and approval. A permit application shall also be provided at the time of submittal. Contact Steve Anderson of our Hazardous Materials Division within the Fire Department at (916) 774-5821 to initiate the process. Satisfaction of storage and use shall be determined prior to requesting occupancy. (Fire)
67. Adequate radio coverage shall be provided within all buildings for public safety agencies, as required by Roseville Municipal Code and the California Fire Code. A field test shall be provided by a person in possession of a current FCC License, or a current technician certification issued by the Associated Public-Safety Communications Officials International (APCO), or the National Association of Business and Educational Radio (NABER). The building owner shall retain all test records on the inspected premises and a copy shall be submitted to the Fire Department officials in accordance with Section 510 of the California Fire Code.

- Adequate radio coverage shall include all of the following:

- A minimum signal strength of 95 dBm available in 90% of the area of each floor of the building when transmitted from the closest City of Roseville Radio Communication site.
  - A minimum signal strength of 95 dBm received at the closest City of Roseville communication site when transmitted from 90% of the area of each floor of the building.
  - The frequency range that must be supported shall be 821-824 MHz and 866-869 MHz.
  - A 100 % reliability factor. (Fire, Police)
68. The Electric Department requires the submittal of the following information in order to complete the final electric design for the project:
- a. one (1) set of improvement plans
  - b. load calculations
  - c. electrical panel one-line drawings
69. All on-site external lighting shall be installed and directed to have no off-site glare. Lighting within the parking areas and pedestrian walkways shall provide a maintained minimum of one (1) foot candle, and 0.5 foot candle of light, respectively. All exterior light fixtures shall be vandal resistant. (Planning & Police)
70. The parking lot shall have properly posted signs that state the use of the parking area is for the exclusive use of employees and customers of this project. (See California Vehicle Code Sections 22507.8, 22511.5, 22511.8, 22658(a), and the City of Roseville Municipal Code Section 11.20.110). The location of the signs shall be shown on the approved site plan. (Planning & Police)
71. It is the developer's responsibility to notify PG&E of any work required on PG&E facilities. (PG&E)

**DURING CONSTRUCTION & PRIOR TO ISSUANCE OF OCCUPANCY PERMITS:**

72. Any backflow preventors visible from the street shall be painted green to blend in with the surrounding landscaping. The backflow preventors shall be screened with landscaping and shall comply with the following criteria:
- a. There shall be a minimum clearance of four feet (4'), on all sides, from the backflow preventor to the landscaping.
  - b. For maintenance purposes, the landscaping shall only be installed on three sides and the plant material shall not have thorns.
  - c. The control valves and the water meter shall be physically unobstructed.
  - d. The backflow preventor shall be covered with a green cover that will provide insulation. (Planning, Environmental Utilities)

73. The following easements shall be provided by separate instrument and shown on the site plan, unless otherwise provided for in these conditions:
- a. Water, sewer, and reclaimed water easements.
  - b. Additional internal easements will be required to cover primary electrical facilities to the project when the final electrical design is completed. (Electric, Public Works, Environmental Utilities)
74. Easement widths shall comply with the City's Improvement Standards and Construction Standards. Separate document easements required by the City shall be prepared in accordance with the City's "Policy for Dedication of Easements to the City of Roseville". All legal descriptions shall be prepared by a licensed land Surveyor. All existing public utility, electric, water, sewer and reclaimed water easements shall be maintained unless otherwise authorized by these conditions of approval. (Public Works, Environmental Utilities, Electric)
75. Inspection of the potable water supply system on new commercial/ industrial/ office projects shall be as follows:
- a. The Environmental Utilities Inspector will inspect all potable water supply up to the downstream side of the backflow preventor.
  - b. The property owner/applicant shall be responsible for that portion of the water supply system from the backflow preventor to the building. The builder/contractor shall engage a qualified inspector to approve the installation of this portion of the water supply. The Building Division will require from the builder/ contractor, a written document certifying that this portion of the potable water supply has been installed per improvement plans and in accordance with the Uniform Plumbing Code. This certificate of compliance shall be submitted to the Building Division before a temporary occupancy or a building final is approved.
  - c. The building inspectors will exclusively inspect all potable water supply systems for the building from the shutoff valve at the building and downstream within the building. (Building, Environmental Utilities)
76. All improvements being constructed in accordance with the approved grading and improvement plans shall be accepted as complete by the City. (Public Works)
77. The words "traffic control appurtenances" shall be included in the list of utilities allowed in public utilities easements (PUE's) located along public roadways. (Public Works)
78. Water, sewer and reclaimed water shall be constructed pursuant to the adopted City of Roseville Improvement Standards and the City of Roseville Construction Standards. (Environmental Utilities)
79. All water backflow devices shall be tested and approved by the Environmental Utilities Department. (Environmental Utilities)

80. All Electric Department facilities, including streetlights where applicable, shall be designed and built to the "City of Roseville Specifications for Commercial Construction." (Electric)
81. The City of Roseville Electric Department has electrical construction charges which are to be paid by the developer and which are explained in the City of Roseville "Specification for Commercial Construction." These charges will be determined upon completion of the final electrical design. (Electric)
82. Any relocation, rearrangement, or change of existing electric facilities due to this development shall be at the developer's expense. (Electric)
83. Any facilities proposed for placement within public/electric utility easements shall be subject to review and approval by the Electric Department before any work commences in these areas. This includes, but is not limited to, landscaping, lighting, paving, signs, trees, walls, and structures of any type. (Electric)
84. All electric metering shall be directly outside accessible. This can be accomplished in any of the following ways:
  - a. Locate the metered service panel on the outside of the building.
  - b. Locate the metered service panel in a service room with a door that opens directly to the outside. The developer will be required to provide a key to the door for placement in a lock box to be installed on the outside of the door. Any doors leading from the service room to other areas of the building shall be secured to prohibit unauthorized entry.
85. One 3/4" conduit with a 2-pair phone line shall be installed from the buildings telephone service panel to the meter section of the customer's electrical switchgear or panel. (Electric)
86. It is the responsibility of the developer to insure that all existing electric facilities remain free and clear of any obstruction during construction and when the project is complete. (Electric)
87. The electric department has identified several above ground and below ground facilities during the review of this project. The facilities located on this site will require the developer to provide access in accordance with the electric departments specifications and the municipal code. These facilities also have specific clearances identified in the National Electric Code and the Roseville Electric Specification for Commercial Construction, Section 10 that must be adhered to at all times.(Electric)
88. There are underground and pad mounted electric facilities in direct conflict with the proposed building improvements. These facilities will require relocation prior to the developer initiating any construction of the proposed buildings. Relocation of these facilities will be at the developer's expense.(Electric)
89. The service transformer or transformers' for the building will require an area adequate for the transformer and the clear space in order to properly maintain and operate the devices.(Electric)

90. Any relocation of electric facilities will require an Electric Department design and coordination with the proper Electric Department personnel.(Electric)
91. Easements will need to be provided for new facilities placed as a result of the proposed improvements.(Electric)
92. Construction of temporary electric facilities may be required in order to minimize outages for customers that may be impacted by these improvements and alteration of electric facilities as a result of these improvements.(Electric)
93. Many of these facilities have minimum clearance requirements to roadways and other facilities that can impact the area available for parking and landscape improvements.(Electric)
94. The cost to relocate these facilities along with necessary temporary facilities to alleviate long outages for businesses served by these facilities will be at the developer's expense.(Electric)
95. All new public right-of-way, including new sidewalk adjacent to the Washington Boulevard property line, shall have street lights installed per Roseville Electric's Standards.(Electric, Planning)

**OTHER CONDITIONS OF APPROVAL:**

96. Signs shown on the elevations are not approved as part of the Design Review Permit. A Sign Permit is required for all project signs. (Planning)
97. Following the installation of the landscaping, all landscape material shall be maintained in a healthy and weed free condition; dead plant material shall be replaced immediately. All trees shall be maintained and pruned in accordance with the accepted practices of the International Society of Arboriculture (ISA). (Planning)
98. The City reserves the right to restrict vehicle turning movements within the public right-of-way in the future if deemed necessary by the City Engineer. (Public Works)
99. The required width of fire apparatus access roads shall not be obstructed in any manner, including the parking of vehicles. Minimum required widths and vertical clearances established by the Fire Code shall be maintained at all times during construction. Closure of accesses for fire apparatus by gates, barricades and other devices shall be prohibited unless approved by the Fire Chief. (Fire)
100. Temporary aboveground storage tanks may be used at construction sites for diesel fuel only and shall not exceed 1,000 gallon capacity. Tanks shall comply with all provisions found within the Fire Code. A Fire Department Permit shall be obtained prior to tank installation. The permit shall expire after 90 days from the date of issuance, unless extended by the Fire Chief. (Fire)
101. If site survey or earth moving work results in the discovery of hazardous materials in containers or what appears to be hazardous wastes released into the ground, the contractor

or person responsible for the building permit must notify the Roseville Fire Department immediately. A representative from the Fire Department will make a determination as to whether the incident is reportable or not and if site remediation is required. (Fire)

102. The location and design of the gas service shall be determined by PG&E. The design of the gas service for this project shall not begin until PG&E has received a full set of City approved improvement plans for the project. (PG&E)

103. The project is subject to the noise standards established in the City's Noise Ordinance. In accordance with the City's Noise Ordinance project construction is exempt between the hours of seven a.m. and seven p.m. Monday through Friday, and between the hours of eight a.m. and eight p.m. Saturday and Sunday. Provided, however, that all construction equipment shall be fitted with factory installed muffling devices and that all construction equipment shall be maintained in good working order. (Building)

104. The developer (or designated consultant) shall certify that the building foundation location has been placed according to all approved setback requirements shown on the approved site plan. The developer shall prepare a written statement confirming building placement and provide an original copy to the City Building Division Field Inspector at the time of or prior to the foundation inspection. (Building)

105. Prior to Certificate of Occupancy, the applicant may apply for a Temporary Occupancy (TO) of the building. If a TO is desired, the applicant must submit a written request to the Building Division a minimum of thirty (30) days prior to the expected temporary occupancy date and shall include a schedule for occupancy and a description of the purpose for the Temporary Occupancy. (Building)

106. Prior to issuance of an occupancy permit, 36 parking spaces shall be made available for public parking. These spaces shall be restricted to two (2) hour parking during the hours of 9:00 a.m. to 5:00 p.m. Monday through Friday. Signage shall be posted in accordance with Roseville Municipal Code. The property owner of the Junction Crossing project shall be responsible for enforcement of these parking restrictions.

#### **CONDITIONS OF APPROVAL FOR TENTATIVE MAP PL18-0036:**

1. The project is approved as shown in Exhibit B and as conditioned or modified below. (Planning)
2. This map shall be valid for a period of two (2) years from this date and shall expire on **April 26, 2020**. Prior to said expiration date, the applicant may apply for an extension of time, provided, however, that this approval shall be extended for no more than six years from **April 26, 2020**. (Planning)
3. The approval of a Tentative Map and/or tentative site plan does not constitute approval of proposed improvements as to size, design, materials, or location, unless specifically addressed in these conditions of approval. (Engineering)

4. The design and construction of all improvements shall conform to the Improvement Standards and Construction Standards of the City of Roseville, or as modified by these conditions of approval, or as directed by the City Engineer. (Engineering)
5. The developer shall not commence with any on-site improvements until such time as grading and/or improvement plans are approved and grading and/or encroachment permits are issued by the Department of Public Works. (Engineering)
6. The applicant shall pay City's actual costs for providing plan check, mapping, GIS, and inspection services. This may be a combination of staff costs and direct billing for contract professional services. (Engineering, Environmental Utilities, Finance)

#### **PRIOR TO ISSUANCE OF A GRADING PERMIT AND/OR IMPROVEMENT PLANS**

7. Landscape Plans for all landscape corridors and all landscaped common areas shall be approved with the improvement plans. Landscaping shall be installed for Substantial Completion of the subdivision improvements. The landscape plan shall comply with the Downtown Roseville Specific Plan and the City of Roseville Water Efficient Landscape Ordinance. (Planning, Engineering, Parks, Fire, Environmental Utilities)
8. Prior to the issuance of a grading permit or approval of Improvement Plans, the grading plans shall clearly identify all existing water and sewer utilities within the boundaries of the project (including adjoining public right of way). Existing utilities shall be identified in plan view and in profile view where grading activities will modify existing site elevations over top of or within 15 feet of the utility. Any utilities that could potentially be impacted by the project shall be clearly identified along with the proposed protection measures. The developer shall be responsible for taking measures and incurring costs associated with protecting the existing water and sewer utilities to the satisfaction of the Environmental Utilities Director. (Environmental Utilities)
9. Water and sewer infrastructure shall be designed and constructed pursuant to the adopted City of Roseville Improvement Standards and Construction Standards and shall reflect the following:
  - a. Sewer and water service laterals shall not be allowed off of water and sewer mains larger than 12 inches in diameter. (Environmental Utilities)
  - b. Utilities or permanent structures shall not be located within the area which would be disturbed by an open trench needed to expose sewer trunk mains deeper than 12' unless approved by Environmental Utilities in these conditions. The area needed to construct the trench is a sloped cone above the sewer main. The cone shall have 1:1 side slopes. (Environmental Utilities)
  - c. Water and sewer mains shall not exceed a depth of 12' below finished grade, unless authorized in these conditions. (Environmental Utilities)
  - d. All sewer manholes shall have all-weather 10-ton vehicular access unless authorized by these conditions. (Environmental Utilities)

10. Any backflow preventers visible from the street shall be painted green to blend in with the surrounding landscaping. The backflow preventers shall be screened with landscaping and shall comply with the following criteria:
  - a. There shall be a minimum clearance of four feet (4'), on all sides, from the backflow preventer to the landscaping.
  - b. For maintenance purposes, the landscaping shall be installed on a maximum of three sides and the plant material shall not have thorns.
  - c. The control valves and the water meter shall be physically unobstructed.
  - d. The backflow preventer shall be covered with a green cover that will provide insulation. (Environmental Utilities)
11. A note shall be added to the Improvement Plans stating that all water backflow devices shall be tested and approved by the Environmental Utilities Department prior to the Notice of Completion for the improvements. (Environmental Utilities)
12. Fire hydrants shall be located as required by the Fire Department. The maximum distance between fire hydrants shall not exceed 500' on center. (Fire)
13. Minimum fire flow is 1,500 gallons per minute with 20 lbs. residual pressure. The fire flow and residual pressure may be increased, as determined by the Fire Marshall, where the project utility lines will serve non-residential uses. (Fire)
14. Any facilities proposed for placement within public/electric utility easements shall be subject to review and approval by the Electric Department before any work commences in these areas. This includes, but is not limited to, landscaping, lighting, paving, signs, trees, walls, and structures of any type. (Electric)
15. The location and design of the gas service shall be determined by PG&E. The design of gas service for this project shall not begin until PG&E has received a full set of City approved improvement plans for the project. (PG&E)
16. It is the developer's responsibility to notify PG&E of any work required on PG&E facilities. (PG&E)

**PRIOR TO OR UPON RECORDATION OF FINAL/PARCEL MAP**

17. The following easements shall be provided and shown on the Final/Parcel Map or by separate instrument, unless otherwise provided for in these conditions:
  - a. Water and sewer easements; and,
  - b. Public access easements to allow for public parking and pedestrian access, as shown on tentative map (Planning, Environmental Utilities)

18. Easement widths shall comply with the City's Improvement Standards and Construction Standards. (Environmental Utilities, Electric, Engineering)
19. All existing easements shall be maintained, unless otherwise provided for in these conditions. (Environmental Utilities, Electric, Engineering)
20. Separate document easements required by the City shall be prepared in accordance with the City's "Policy for Dedication of Easements to the City of Roseville". All legal descriptions shall be prepared by a licensed land Surveyor (Environmental Utilities, Electric, Engineering)
21. Any structures crossing Lot/Parcel lines created by the Final/Parcel map shall be removed. (Engineering)
22. The street names shall be approved by the City of Roseville. (Engineering)
23. The subject property is within the Historic District Landscaping and Lighting District and will continue be levied on the annual property tax bill based on the Method of Apportionment in the approved Engineer Report for the District.
24. The Final/Parcel Map shall include an irrevocable offer to dedicate public rights-of-way and public and/or private easements as required by the City. Lettered Lot//Parcel along major roads shall be dedicated as landscape/pedestrian/public utility easements and in fee to the City as open space. (Engineering)
25. The words "traffic control appurtenances" shall be included in the list of utilities allowed in public utilities easements (PUE's) located along public roadways. (Engineering)
26. The Final/Lot/Parcel/Parcel Map shall be submitted per, "The Digital Submittal of Cadastral Surveys". Submittal shall occur after Engineering approval but prior to Council approval (Engineering)
27. Electric construction costs incurred by the City of Roseville Electric Department for this project shall be paid for by the developer per the applicable policy. (Electric)
28. The Environmental Utilities Department shall make a determination that there is adequate conveyance and treatment capacity in the City sewer system to handle the newly created Lot/Parcels. (Environmental Utilities)
29. The applicant shall pay all applicable water and sewer fees. (Environmental Utilities)

#### **OTHER CONDITIONS OF APPROVAL**

30. The applicant shall pay City's actual costs for providing plan check, installation and inspection services. This may be a combination of staff costs and direct billing for contract professional services (Environmental Utilities, Engineering)
31. Any relocation, rearrangement, or change to existing electric facilities due to this development shall be at the developer's expense. (Electric)

32. It is the responsibility of the developer to insure that all existing electric facilities remain free and clear of any obstructions during construction and when the project is complete. (Electric)
33. If site survey or earth moving work results in the discovery of hazardous materials in containers or what appears to be hazardous wastes released into the ground, the contractor shall notify the Roseville Fire Department immediately. A representative from the Fire Department will make a determination as to whether the incident is reportable or not and if site remediation is required. Non-emergency releases or notifications about the presence of containers found shall be reported to the Fire Department. (Fire)
34. All plant material shall be maintained under a 90 calendar day establishment period after initial planting. Upon completion of the establishment period, all plant material shall remain under warrantee for an additional 9 months minimum. Any plant material which does not survive during the establishment period shall be immediately replaced. Any trees or shrubs which do not survive during the warrantee period shall be replaced one month prior to the end of the warrantee period. Tree or shrub replacement made necessary due to acts of God, neglect or vandalism shall be exempt from the warrantee.
35. The project shall comply with all required environmental mitigation identified in the DTSP EIR. The applicable mitigation measures are outlined in the Junction Crossing MMP, contained within Attachment 5 to the 4/26/18 Planning Commission staff report. (Planning)

#### **ATTACHMENT**

5. CEQA Exemption Memo, Dudek, 3/28/18 (attachments to this memo are provided on the City's website  
<https://www.roseville.ca.us/cms/One.aspx?portalId=7964922&pageId=8774480> under the DTSP DT-4 Roseville Junction Crossing)

#### **EXHIBITS**

- A. Project Plans (17 pages)
- B. Tentative Map (1 page)

**NOTICE TO PROJECT APPLICANT:** All materials introduced at a public hearing or included with the project's staff report, including but not limited to exhibits, photographs, video or audio tapes, plan sets, architectural drawings, models, color and materials palettes, and maps must be retained by the Planning Division as a part of the public record for one year following the City's final action on the project. Official project file materials will be kept in conformance with the Planning Division's adopted retention schedule. Color renderings and material boards will be disposed of after the project is built and the project receives a certificate of occupancy or at the end of one year, whichever is later.

## COUNCIL COMMUNICATION

CC #: 9288

File #: 0206-08-01

**Title:** Fiscal Year 2018-19 Landscape and Lighting Districts Assessments

**Contact:** Jeannine Thrash 916-774-5473 [jthrash@roseville.ca.us](mailto:jthrash@roseville.ca.us)  
Dennis Kauffman 916-774-5313 [dkauffman@roseville.ca.us](mailto:dkauffman@roseville.ca.us)

Meeting Date: 6/6/2018

Item #: 9.2.

### RECOMMENDATION TO COUNCIL

It is requested that the City Council adopt the following resolutions (attached):

1. Resolution of the City Council of the City of Roseville, California, Amending and/or Approving the Engineer's Annual Levy Report for the Historic District Landscaping and Lighting District, Fiscal Year 2018/2019.

Resolution of the City Council of the City of Roseville, California Ordering the Levy and Collection of Assessments within the Historic District Landscaping and Lighting District, for Fiscal Year 2018/2019.

2. Resolution of the City Council of the City of Roseville, California, Amending and/or Approving the Engineer's Annual Levy Report for the Infill Area Landscaping and Lighting District, Fiscal Year 2018/2019.

Resolution of the City Council of the City of Roseville, California Ordering the Levy and Collection of Assessments within the Infill Area Landscaping and Lighting District, for Fiscal Year 2018/2019.

3. Resolution of the City Council of the City of Roseville, California, Amending and/or Approving the Engineer's Annual Levy Report for Johnson Ranch Landscaping and Lighting District, Fiscal Year 2018/2019.

Resolution of the City Council of the City of Roseville, California Ordering the Levy and Collection of Assessments within the Johnson Ranch Landscaping and Lighting District, for Fiscal Year 2018/2019.

4. Resolution of the City Council of the City of Roseville, California, Amending and/or Approving the Engineer's Annual Levy Report for North Central Specific Plan Landscaping and Lighting District, Fiscal Year 2018/2019.

Resolution of the City Council of the City of Roseville, California, Ordering the Levy and Collection of Assessments within the North Central Specific Plan Landscaping and Lighting District, Fiscal Year 2018/2019.

5. Resolution of the City Council of the City of Roseville, California, Amending and/or Approving the Engineer's Annual Levy Report for Northwest Roseville Specific Plan Landscaping and Lighting District, Fiscal Year 2018/2019.

Resolution of the City Council of the City of Roseville, California Ordering the Levy and Collection of Assessments within the Northwest Roseville Specific Plan Landscaping and Lighting District, for Fiscal Year 2018/2019.

6. Resolution of the City Council of the City of Roseville, California, Amending and/or Approving the Engineer's Annual Levy Report for Olympus Pointe Landscaping and Lighting District, Fiscal Year 2018/2019.

Resolution of the City Council of the City of Roseville, California Ordering the Levy and Collection of Assessments within the Olympus Pointe Landscaping and Lighting District, for Fiscal Year 2018/2019.

7. Resolution of the City Council of the City of Roseville, California, Amending and/or Approving the Engineer's Annual Levy Report for the Riverside Avenue Landscaping and Lighting District, Fiscal Year 2018/2019.

Resolution of the City Council of the City of Roseville, California Ordering the Levy and Collection of Assessments within the Riverside Avenue Landscaping and Lighting District, for Fiscal Year 2018/2019.

8. Resolution of the City Council of the City of Roseville, California, Amending and/or Approving the Engineer's Annual Levy Report for the Vernon Street Landscaping and Lighting District, Fiscal Year 2018/2019.

Resolution of the City Council of the City of Roseville, California Ordering the Levy and Collection of Assessments within the Vernon Street Landscaping and Lighting District, for Fiscal Year 2018/2019.

## BACKGROUND

The City of Roseville currently has eight active Landscape and Lighting Districts. These districts were formed within the City of Roseville to levy and collect assessments for maintenance of public improvements pursuant to the Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the Streets and Highways Code (the Act), and Article XIID of the California Constitution.

The Historic District Landscaping and Lighting District was formed in 2006 to levy and collect assessments for the maintenance and operation of improvements benefiting parcels within the District. The cost of maintaining the streetscape improvements is spread equally to the subject properties, based on their percentage of the total front footage of all affected parcels. The District is located in the Historic Old Town area in Downtown Roseville.

The Infill Area Landscaping and Lighting District was formed in 1995 to levy and collect assessments for the maintenance of certain public improvements that benefit parcels within the District. The District is located in the Infill Plan area.

The Johnson Ranch Landscaping and Lighting District was formed in 1989 to levy and collect assessments for the maintenance of certain public landscape, open space, floodway and stream courses located within the Southeast Roseville Specific Plan area.

The North Central Specific Plan Landscaping and Lighting District was formed in 1990 to levy and collect assessments for the maintenance of certain public improvements within the North Central Roseville Specific Plan area. In 2004, the property owners in the district approved, through a mailed ballot, an assessment increase and the addition of an annual escalation factor. This enables the City to keep up with increased costs associated with maintaining the landscaping at proper levels.

The Northwest Roseville Specific Plan Landscaping and Lighting District was formed in 1989 to levy and collect assessments for maintenance of certain public landscape medians and corridors, vernal pool preserves, bike trails, and park improvements. In 2004, the Dunmore Junction subdivision was annexed into the LLD as Zone A

and the Legacy subdivision was annexed into Zone B. In 2006, the property owners voted against an assessment increase as well as the addition of an annual escalation factor.

The Olympus Pointe Landscaping and Lighting District was formed in 1989 to levy and collect assessments for the maintenance of certain public improvements within the Northeast Roseville Specific Plan Area. In 2005, the property owners in the district approved, through a mailed ballot, an assessment increase and an annual escalation factor. This enables the City to keep up with increased costs associated with maintaining the landscaping at proper levels.

The Riverside Avenue Landscaping and Lighting District was formed in 2007 to levy and collect assessments for the maintenance and operation of improvements benefiting parcels within the District. The cost of maintaining the streetscape improvements is spread equally to the subject properties, based on their percentage of the total front footage of all affected parcels.

The Vernon Street Landscaping and Lighting Districts was formed in 2001 to levy and collect assessments for maintenance of improvements installed by the Vernon Streetscape. The cost of maintaining the streetscape improvements is spread equally to subject properties on their percentage of the total front footage of all affected parcels.

| <i>Olympus Pointe LLD</i>    | <i>\$213,673.44</i>          | <i>\$384,458.50</i>           | <i>827</i>                | <i>3.47% Decrease</i>            | <i>\$221,363.23</i>          |
| <i>Riverside Avenue LLD</i>  | <i>\$40,761.98</i>           | <i>\$40,763.20</i>            | <i>75</i>                 | <i>2.9% Increase</i>             | <i>\$39,597.81</i>           |
| <i>Vernon Street LLD</i>     | <i>\$37,146.34</i>           | <i>\$37,146.34</i>            | <i>61</i>                 | <i>2.9% Increase</i>             | <i>\$36,084.94</i>           |
| <b><i>Totals</i></b>         | <b><i>\$1,527,552.02</i></b> | <b><i>\$1,745,485.60</i></b>  | <b><i>1,241</i></b>       |                                  | <b><i>\$1,527,163.36</i></b> |

\* *Infill district increase due to some zones not being levied at max tax*

#### FISCAL IMPACT

All charges are needed to fully fund landscape services in each LLD.

#### ECONOMIC DEVELOPMENT / JOBS CREATED

Approving the resolutions will have an impact on local economic development and/or job creation. The City's landscaping contracts funded by the LLD assessments support approximately 24,300 production hours of work from hired contractors.

#### ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment (CEQA Guideline 15061(b)(3)). The Landscape and Lighting Districts approval of Engineer's Reports and the ordering the levy and collection of assessments does not include the potential for a significant environmental effect and therefore are not subject to CEQA.

## RESOLUTION NO. 18-203

### **A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, AMENDING AND/OR APPROVING THE ENGINEER'S ANNUAL LEVY REPORT FOR THE HISTORIC DISTRICT LANDSCAPING AND LIGHTING DISTRICT, FISCAL YEAR 2018/2019**

The City Council of the City of Roseville, California (hereafter referred to as the "City Council") does resolve as follows:

**WHEREAS**, The City Council has, by previous Resolutions, ordered the preparation of the Engineer's Annual Levy Report (hereafter referred to as the "Report") for said district known and designated as: Historic District Landscaping and Lighting District (hereinafter referred to as the "District"), pursuant to the provisions of the *Landscaping and Lighting Act of 1972, being Part 2 Division 15, of the Streets and Highways Code of the State of California, beginning with Section 22500* (hereinafter referred to as the "Act"), and,

**WHEREAS**, there has now been presented to this City Council the Report as required by *Chapter 3, Section 22623* of said Act, and as previously directed by Resolution; and,

**WHEREAS**, this City Council has carefully examined and reviewed the Report as presented (or amended), and is satisfied with each and all of the items and documents as set forth therein, and is satisfied that the levy has been spread in accordance with the benefits received from the improvements, operation, maintenance and services to be performed, as set forth in said Report.

**NOW, THEREFORE, BE IT RESOLVED, DETERMINED, AND ORDERED BY THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, FOR HISTORIC DISTRICT LANDSCAPING AND LIGHTING DISTRICT, AS FOLLOWS:**

**Section 1** That the above recitals are all true and correct.

**Section 2** That the Report as presented, is hereby approved (as amended), and is ordered to be filed in the Office of the City Clerk as a permanent record and to remain open to public inspection.

**Section 3** That the City Clerk shall certify to the passage and adoption of this Resolution, and the minutes of this meeting shall so reflect the presentation and final approval of the Report.

**RESOLUTION NO. 18-203**

**PASSED, APPROVED, AND ADOPTED THIS** \_\_\_\_\_ day of \_\_\_\_\_, 2018.

## RESOLUTION NO. 18-204

### **A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA ORDERING THE LEVY AND COLLECTION OF ASSESSMENTS WITHIN THE HISTORIC DISTRICT LANDSCAPING AND LIGHTING DISTRICT, FOR FISCAL YEAR 2018/2019**

The City Council of the City of Roseville, California (hereafter referred to as the “City Council”) does resolve as follows:

**WHEREAS**, the City Council of City of Roseville, California, has, by previous Resolutions, initiated proceedings, and declared its intention to levy assessments, and approved the Engineer’s Annual Levy Report (hereinafter referred to as the “Report”) that describes the assessments against parcels of land within the Historic District Landscaping and Lighting District (hereinafter referred to as the “District”) for the Fiscal Year commencing July 1, 2018, and ending June 30, 2019, pursuant to the provisions of the *Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the California Streets and Highways Code, commencing with Section 22500* (hereinafter referred to as the “Act”) to pay for the maintenance and services of all improvements and facilities related thereto; and

**WHEREAS**, the Engineer selected by the City Council has prepared and filed with the City Clerk, and the City Clerk has presented to the City Council, a Report in connection with the proposed levy and collection of assessments upon eligible parcels of land within the District, and the City Council did by previous Resolution approve such Report; and

**WHEREAS**, the City Council desires to levy and collect assessments against parcels of land within the District for the Fiscal Year commencing July 1, 2018 and ending June 30, 2019, to pay for the maintenance and services of all improvements and facilities related thereto.

**WHEREAS**, this City and its legal counsel have reviewed Proposition 218 and found that these assessments comply with applicable provisions of Articles XIIC and XIID of the California State Constitution; and,

**NOW, THEREFORE, BE IT RESOLVED, DETERMINED, AND ORDERED BY THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, FOR HISTORIC DISTRICT LANDSCAPING AND LIGHTING DISTRICT, AS FOLLOWS:**

**Section 1** Following notice duly given, the City Council has held a full and fair public hearing regarding the District, the levy and collection of assessments, the Report prepared in connection therewith, and considered all oral and written statements, protests and communications made or filed by interested persons regarding these matters.

**Section 2** Based upon its review (and amendments, as applicable) of the Report, a copy of which has been presented to the City Council and which has been filed with the City Clerk, the City Council hereby finds and determines that:

- i) the land within the District will be benefited by the operation, maintenance and servicing of the improvements located within the boundaries of the District;
- ii) the District includes all of the lands receiving such special benefit; and,
- iii) the net amount to be assessed upon the lands within the District in accordance with the assessment for the Fiscal Year commencing July 1, 2018, and ending June 30, 2019, is apportioned by a formula and method which fairly distributes the net amount among all eligible parcels in proportion to the estimated benefits to be received by each parcel from the improvements and services.

**Section 3** The Report and assessments as presented to the City Council and on file in the Office of the City Clerk are hereby confirmed as filed.

**Section 4** The maintenance, operation and servicing of the improvements shall be performed pursuant to the Act. The City Council hereby orders the improvements to be made, which improvements are briefly described as follows: the improvements within the District include: maintenance, servicing, administration and operation of landscape, lighting and streetscape improvements, other public improvements within the street right of way areas and all appurtenant facilities related thereto within the District. The Engineer's Annual Levy Report describes all new improvements or substantial changes in existing improvements.

**Section 5** The County Auditor of the County of Placer shall enter on the County Assessment Roll, opposite each eligible parcel of land, the amount of levy so apportioned by the formula and method outlined in the Report, and such levies shall be collected at the same time and in the same manner as the County taxes are collected, pursuant to *Chapter 4, Article 2, Section 22646* of the Act. After collection by the County, the net amount of the levy shall be paid to the City Treasurer.

**Section 6** The City Treasurer shall deposit all money representing assessments collected by the County for the District to the credit of a fund for the Historic District Landscaping and Lighting District and such money shall be expended only for the maintenance, operation and servicing of the improvements, together with other expenses as described in Section 4.

**Section 7** The adoption of this Resolution constitutes the District levy for the Fiscal Year commencing July 1, 2018, and ending June 30, 2019.

**Section 8** The City Clerk's designee, Willdan Financial Services, is hereby authorized and directed to file the levy with the County Auditor subsequent to the adoption of this Resolution, pursuant to Chapter 4, Article 1, Section 22641 of the Act. The City Clerk is directed to deliver a certified copy of this adopted Resolution to Willdan Financial Services within two weeks of adoption via either e-mail to [mashley@willdan.com](mailto:mashley@willdan.com) or US Mail to: Willdan Financial Services, 27368 Via Industria, Suite 200, Temecula, CA 92590 Attn: Mickey Ashley.

## I. OVERVIEW

---

### A. INTRODUCTION

The City of Roseville (“City”) annually levies and collects special assessments in order to maintain the improvements within the Historic District Landscaping and Lighting District (“District”). The District was formed on April 5, 2006 and is levied annual assessments pursuant to the Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the California Streets and Highways Code (“1972 Act”).

The Engineer’s Report (“Report”) describes the District, any new annexations, changes to the District, and the proposed assessments for the period of July 1, 2018 through June 30, 2019. The special benefit assessments are based on historical and estimated costs to maintain the District improvements. These assessments, which provide a direct and special benefit to properties within the District, will provide funding for the operation and maintenance of District improvements.

The word “parcel,” for the purposes of this Report, refers to an individual property assigned its own Assessor’s Parcel Number (“APN”) by the Placer County Assessor’s Office. The Placer County Auditor/Controller uses Assessor’s Parcel Numbers and specific Tax Code Accounts, to identify on the County’s tax roll, properties assessed for special district benefit assessments.

Following approval of the Report, the City Council will by resolution order the improvements to be made and confirm the levy and collection of assessments herein pursuant to the Act. The assessment rates and method of apportionment described in this Report as approved or modified by the City Council defines the assessments to be applied to each parcel within the District for Fiscal Year (“FY”) 2018/19. The assessments as approved will be submitted to the Placer County Auditor/Controller to be included on the property tax roll for each parcel.

If any parcel submitted for collection is identified by the County Auditor/Controller to be an invalid parcel number for the Current Fiscal Year, a corrected parcel number and/or new parcel numbers will be identified and resubmitted to the County Auditor/Controller. The assessment amount to be levied and collected for the resubmitted parcel or parcels shall be based on the method of apportionment and assessment rate approved by the City Council.

## **B. COMPLIANCE WITH THE CURRENT LEGISLATION**

The City Council, pursuant to the provisions of the “Landscaping and Lighting Act of 1972”, being Division 15, Part 2 of the Streets and Highways Code of the State of California, beginning with Section 22500 (the “1972 Act”); Article XIID of the Constitution of the State of California (“Article XIID”); and the Proposition 218 Omnibus Implementation Act, beginning with Government Code Section 53750 (the “Implementation Act”) (the 1972 Act, Article XIID and the Implementation Act are referred to collectively as the “Assessment Law”) initiated proceedings for the formation of the District on February 15, 2006 and to levy and collect annual assessments against lots and parcels within the District for FY 2006/07. On April 5, 2006, pursuant to Assessment Law, the City conducted a Public Hearing and tabulated the returned ballots. The City determined that a majority protest did not exist and approved the District’s maximum assessment rate and annual inflationary adjustment factor.

Pursuant to the Act, an annual Public Hearing is conducted by the City Council to accept property owner and public comments, to review the Engineer’s Annual Levy Report prior to approving the annual assessments to be levied on the County tax rolls. The assessments described in this Report have been prepared in accordance with the Act and Assessment Law.

## **C. DESCRIPTION OF DISTRICT BOUNDARIES**

The territory within the District consists of all lots, parcels and subdivisions of land as shown on the Boundary Map titled “Boundary Map of Historic District Landscaping and Lighting District” as referenced in Appendix A-1 of this Report.

The District is located within the City’s Historic Old Town, west of Highway 80, south of Pleasant Street, north and east of Washington Boulevard, and north and west of the Union Pacific Railroad. The District consists of mostly commercial parcels in a concentrated area of the Downtown primarily fronting the following streets: Church Street northeast of Washington Boulevard, Main Street between Washington Boulevard and Lincoln Street, Pacific Street and Lincoln Street where the improvements end approximately one block south of Pleasant Street.

## **D. IMPROVEMENTS AUTHORIZED BY THE 1972 ACT**

As applicable or may be applicable to this proposed District, the 1972 Act defines improvements to mean one or any combination of the following:

- The installation or planting of landscaping.
- The installation or construction of statuary, fountains, and other ornamental structures and facilities.
- The installation or construction of public lighting facilities.
- The installation or construction of any facilities which are appurtenant to any of the foregoing or which are necessary or convenient for the maintenance

or servicing thereof, including, but not limited to, grading, clearing, removal of debris, the installation or construction of curbs, gutters, walls, sidewalks, or paving, or water, irrigation, drainage, or electrical facilities.

- The maintenance or servicing, or both, of any of the foregoing.
- The acquisition of any existing improvement otherwise authorized pursuant to this section.

Incidental expenses associated with the improvements including, but not limited to:

The cost of preparation of the report, including plans, specifications, estimates, diagram, and assessment;

- The costs of printing, advertising, and the publishing, posting and mailing of notices;
- Compensation payable to the County for collection of assessments;
- Compensation of any engineer or attorney employed to render services;
- Any other expenses incidental to the construction, installation, or maintenance and servicing of the improvements;
- Any expenses incidental to the issuance of bonds or notes pursuant to Section 22662.5.
- Costs associated with any elections held for the approval of a new or increased assessment.

The 1972 Act defines "Maintain" or "maintenance" to mean furnishing of services and materials for the ordinary and usual maintenance, operation, and servicing of any improvement, including:

- Repair, removal, or replacement of all or any part of any improvement.
- Providing for the life, growth, health, and beauty of landscaping, including cultivation, irrigation, trimming, spraying, fertilizing, or treating for disease or injury.
- The removal of trimmings, rubbish, debris, and other solid waste.
- The cleaning, sandblasting, and painting of walls and other improvements to remove or cover graffiti.

Furthermore, the 1972 Act specifies that where the cost of improvements (other than maintenance and operations) is greater than can be conveniently raised from a single annual assessment, an assessment to be levied and collected in annual installments. In that event, the governing body may choose to do any of the following:

- Provide for the accumulation of the moneys in an improvement fund until there are sufficient moneys to pay all or part of the cost of the improvements.
- Provide for a temporary advance to the improvement fund from any available and unencumbered funds of the local agency to pay all or part of

the cost of the improvements and collect those advanced moneys from the annual installments collected through the assessments.

- Borrow an amount necessary to finance the estimated cost of the proposed improvements. The amount borrowed, including amounts for bonds issued to finance the estimated cost of the proposed improvements.

## **E. DESCRIPTION OF THE IMPROVEMENTS AND MAINTENANCE**

The District, through the levy of special assessments, provides funding for ongoing maintenance, operation and servicing of landscaping and lighting improvements located within the public rights-of-ways and dedicated easements located within the District. These improvements may include, but are not limited to, all materials, equipment, utilities, labor, and appurtenant facilities related to the ongoing maintenance of the improvements.

Maintenance services will be provided by City personnel and/or private contractors. The proposed improvements to be maintained and services are generally described as follows:

### **Landscaping Improvements**

The landscaping improvements have been designed to enhance the area within the District and may include, but are not limited to ground cover, shrubs and plants, trees, irrigation and drainage systems, trash receptacles, ornamental lighting, masonry walls or other fencing, hardscape improvements, monuments and landmarks, recreational facilities and associated appurtenants located within the street rights-of-way and public areas within the District. Specifically, the proposed landscape improvement areas for this District are:

- Parkway landscaping and hardscape improvements within the public right of ways of the streets within the district including, but not limited to, Lincoln Street, Main Street, Church Street, Pacific Street and the northeast side of Washington Boulevard estimated at 14,450 square feet of landscaping;
- Various amenities associated with the landscape improvements and public areas within the District, including, but not limited to, trash receptacles, street furniture, bike racks, entry signs, sidewalks, fencing, and retaining walls.

Specifically not included as District improvements are those improvements located on private property, improvements and facilities that are outside the boundaries of the District and/or are funded by other sources available to the City, including those portions of the median and parkway landscaping on Washington Boulevard (southwest side of the street) that are outside the District boundaries.

### **Public Lighting Improvements**

The lighting improvements may include, but are not limited to, the cost of providing,

maintaining and servicing of lighting fixtures, poles, meters, conduits, electrical cable, and associated appurtenant facilities associated with:

- Lighting facilities within the landscaped areas and public areas including safety lights, security lights or ornamental lights installed as part of the District improvements; and
- Public street light improvements located on the streets within the District.

Specifically excluded from the assessment are the street light energy costs. These costs will continue to be paid for by the City from other revenue sources.

Detailed maps of the locations and descriptions of the specific improvements to be maintained by the District are on file in the Office of Public Works and by reference are made part of this Report.

### **Description of Maintenance and Services**

Maintenance means the furnishing of services and materials for the ordinary and usual maintenance, operation and servicing of landscaping and street lighting improvements facilities and appurtenant facilities, including repair, removal or replacement of all or part of any of the landscaping and street lighting improvements, or appurtenant facilities; providing for the life, growth, health and beauty of landscaping improvements including cultivation, irrigation, trimming, mowing, spraying, fertilizing and treating for disease or injury; the removal of trimmings, rubbish, debris and other solid waste; and the cleaning sandblasting, and painting of walls and other improvements to remove or cover graffiti.

Servicing means the furnishing of water and electricity for the irrigation of the landscape improvements or appurtenant facilities and the furnishing of electric current or energy for the operation of the landscaping improvements or appurtenant facilities. The street lighting improvements shall be maintained to provide adequate illumination; however, the City will be paying the actual energy costs to provide illumination.

## II. METHOD OF APPORTIONMENT

---

### A. GENERAL

The 1972 Act permits the establishment of assessment districts by agencies for the purpose of providing certain public improvements which include the construction, maintenance and servicing of public lights, landscaping and appurtenant facilities. The 1972 Act further requires that the cost of these improvements be levied according to benefit rather than assessed value:

*“The net amount to be assessed upon lands within an assessment district may be apportioned by any formula or method which fairly distributes the net amount among all assessable lots or parcels in proportion to the estimated benefits to be received by each such lot or parcel from the improvements.”*

The formula used for calculating assessments in the District therefore reflects the composition of the parcels, and the Improvements and services provided, to fairly apportion the costs based on estimated benefit to each parcel.

### B. BENEFIT ANALYSIS

In conjunction with the provisions of the 1972 Act, the California Constitution Article XIID addresses several key criteria for the levy of assessments, notably:

Article XIID Section 2d defines District as follows:

“District means an area determined by an agency to contain all parcels which will receive a special benefit from a proposed public improvement or property-related service”;

Article XIID Section 2i defines Special Benefit as follows:

“Special benefit” means a particular and distinct benefit over and above general benefits conferred on real property located in the district or to the public at large. General enhancement of property value does not constitute “special benefit.”

Article XIID Section 4a defines proportional special benefit assessments as follows:

“An agency which proposes to levy an assessment shall identify all parcels which will have a special benefit conferred upon them and upon which an assessment will be imposed. The proportionate special benefit derived by each identified parcel shall be determined in relationship to the entirety of the capital cost of a public

improvement, the maintenance and operation expenses of a public improvement, or the cost of the property related service being provided. No assessment shall be imposed on any parcel which exceeds the reasonable cost of the proportional special benefit conferred on that parcel.”

This District was formed to establish and provide for the improvements that enhance the presentation of the surrounding properties and developments. These improvements will directly benefit the parcels to be assessed within the District. The assessments and method of apportionment is based on the premise that the assessments will be used to construct and install landscape and lighting improvements within the District as well as provide for the annual maintenance of those improvements, and the assessment revenues generated by District will be used solely for such purposes.

The costs of the proposed improvements have been identified and allocated to properties within the District based on special benefit. The improvements to be provided by this District and for which properties will be assessed have been identified as an essential component and local amenity that provides a direct reflection and extension of the properties within the District which the property owners and residents have expressed a high level of support.

The method of apportionment (method of assessment) set forth in the Report is based on the premise that each assessed property receives special benefits from the landscape and lighting improvements within the District, and the assessment obligation for each parcel reflects that parcel's proportional special benefits as compared to other properties that receive special benefits.

To identify and determine the proportional special benefit to each parcel within the District, it is necessary to consider the entire scope of the improvements provided as well as the properties that benefit from those improvements. The improvements and the associated costs described in this Report, have been carefully reviewed and have been identified and allocated based on a benefit rationale and calculations that proportionally allocate the net cost of only those improvements determined to be of special benefit to properties within the District. The various public improvements and the associated costs have been identified as either “general benefit” (not assessed) or “special benefit”.

The City initiated and conducted property owner protest ballot proceedings in accordance with Article XIID. Each of the proposed Improvements, the associated costs and assessments were identified and allocated based on special benefit pursuant to the provisions of Article XIID and 1972 Act. Additionally, the Improvements and the annual costs of ensuring the maintenance and operation of the Improvements are of direct and special benefit to the properties.

The City annually levies and collects special benefit assessments in order to maintain and service the District Improvements. The District provides for specific Improvements and services that include the maintenance and operation of

landscaping and lighting Improvements and associated appurtenances located within the District's public rights-of-way and dedicated easements. The annual assessment is based on the historical and estimated costs to maintain the Improvements that provide a benefit to properties within these Districts. The Improvements within the District and the costs of those Improvements are identified and budgeted separately, including all expenditures, deficits, surpluses, revenues, and reserves.

All Improvements within the District and the properties associated with those Improvements were reviewed for benefit prior to the formation of the District. Because the Improvements affront the benefited parcels, it has been determined that there is no measurable general benefit to properties outside the District or to the public at large. In making this determination it should be noted that similar improvements within California are typically maintained by individual property owners, through some type of association or a special district as allowed by State Law since the on-going maintenance of these improvements are a special benefit to the properties associated with those improvements.

The method of apportionment (method of assessment) for the District is based on the premise that each of the assessed parcels within the District receives special benefit from the Improvements maintained and financed by District assessments. The presence of these Improvements and the close proximity of the Improvements to the properties within the District enhance the desirability and security of properties within the District.

The landscape Improvements provided by the District may include landscaped parkways, perimeters, entryways, local medians, slopes, internal amenities and appurtenant facilities. Street lighting Improvements may include all energy costs and necessary maintenance to the facilities related thereto. The annual assessments outlined in this Report are proposed to cover the estimated costs to provide all necessary service, operation, administration, and maintenance required to keep these Improvements in a healthy, vigorous, and satisfactory condition. The special benefits associated with the local landscaping Improvements are specifically:

The special benefits associated with all landscaping Improvements are specifically:

- Enhanced desirability of properties through association with the Improvements.
- Improved aesthetic appeal of properties providing a positive representation of the area and properties.
- Enhanced adaptation of the urban environment within the natural environment from adequate landscaping.
- Environmental enhancement through improved dust and debris control, and fire prevention.

- Increased sense of pride in ownership of property within the District resulting from well-maintained Improvements associated with the properties.
- Enhanced quality of life through well-maintained landscaped areas.
- Reduced criminal activity and property-related crimes (especially vandalism) against properties in the District through well-maintained surroundings and amenities including abatement of graffiti.
- Enhanced environmental quality of the parcels by moderating temperatures, providing oxygenation and attenuating noise.

The special benefits of street lighting are the convenience, safety, and security of property, improvements, and goods. Specifically:

- Enhanced deterrence of crime and the aid to police protection.
- Increased nighttime safety on streets and roads within the Districts.
- Improved ability of pedestrians and motorists to see.
- Improved ingress and egress to property.
- Reduced vandalism and other criminal acts and damage to Improvements or property.
- Improved traffic circulation and reduced nighttime accidents and personal property loss.
- Increased promotion of business during nighttime hours in the case of commercial properties.

All of the preceding special benefits contribute to a specific enhancement and desirability of each of the assessed parcels within the District.

### **C. DESCRIPTION OF THE METHOD OF APPORTIONMENT**

To establish the special benefit to the individual parcels within the District a formula that spreads the costs of the maintenance based on the special benefit must be established. The improvements have been reviewed and the following formula has been established to apportion the maintenance costs based on benefit.

For purposes of the Assessment Methodology, the terms hereinafter set forth have been the following meanings:

**Acreage** means the land area of an Assessor's Parcel as shown on an Assessor's Parcel map-, or if the land area is not shown on an Assessor's parcel map, the land area shown on the applicable final map, parcel map, condominium plan, record of survey or other recorded document creating and describing such area of land.

**Multi-Family Residential** means a residence for which building permits have been issued for attached residential units for rental purposes.

**Single-Family Residential Unit** means a single residential home. This land use includes detached or attached for sale units intended for single-family occupancy.

**Commercial** means property being used or zoned for either commercial or industrial use.

Three components were used in the methodology to determine each parcels assessment; 1) Front footage of parcels along the proposed street improvements; 2) acreage of benefiting parcels; and 3) Current land use of parcels. Based on these three components the assessments were determined as follows:

First, the parcels Front Footage was determined based on Assessor's Parcel maps or other sources. Only Front footage on streets that will be improved was used. For parcels with Front Footage on more than one side (corner lots), the total Front Footage was divided by two to provide an average Front Footage. It was determined that twenty percent (20%) of the total budget was reasonably attributed to Front Footage; therefore twenty percent (20%) of the budget was spread to Front Footage.

Second, each parcel's Acreage was calculated based on Assessors Parcels map. It was determined that eighty percent (80%) of the budget was reasonably attributed to Acreage; therefore eighty (80%) of the budget was spread on Acreage. In the event that common area parcels are created subsequent to the formation of the District, the acreage of any such common area parcels shall be apportioned to the remaining assessable parcels of the subdivision and/or parcel split(s) related to the creation of the common area parcel(s).

Third, the current land use of the parcel was determined using the County's secured roll. Parcel's currently used as a Single-Family Residence or Multi-Family Residences were determined to receive twenty-five (25%) of the benefit in relation to commercial parcels. Additionally, it was determined that single Family Residential Parcels benefit equally from the improvements, therefore the total assessment calculated based on the formula was averaged between the five Single Family Residential parcels to determine a Single Family Residential rate per Unit.

The base year maximum assessment rates approved to be levied in FY 2006/07 are provided in the table below.

| Base Year (FY 2006/07)<br>Maximum Assessment Rates |                       |                     |                   |
|----------------------------------------------------|-----------------------|---------------------|-------------------|
| Land Use                                           | Front Footage         | Acreage Rate        | Flat Rate         |
| Commercial                                         | \$1.99 per Front Foot | \$2,582.41 per Acre | N/A               |
| Multi-Family Residential                           | \$0.50 per Front Foot | \$645.60 per Acre   | N/A               |
| Single-Family Residential                          | N/A                   | N/A                 | \$132.00 per Unit |

The following formula is used to calculate each parcel's assessment (proportional benefit) for those parcels that are not Single-Family Residential parcels.

**Front Footage Rate x Parcel's Adjusted Front Footage = Parcel Front Footage Levy**

**Acreage Rate x Parcel's Adjusted Acreage = Parcel Acreage Levy**

**Proposed Levy per Parcel = Parcel Front Footage Levy + Parcel Acreage Levy**

The Assessment Range Formula shall be applied to all future assessments within the District beginning in fiscal year 2007/08. Generally, if the proposed annual assessment for the current fiscal year is less than or equal to the calculated Maximum Assessment, then the Assessment is equal to the initial Assessment (approved by property owners within the District) adjusted annually by three percent (3%).

Beginning in the second fiscal year (Fiscal Year 2007/08) and each fiscal year thereafter, the Maximum Assessment would be recalculated and a new Maximum Assessment established within the District.

The Maximum Assessment is adjusted annually and is calculated independent of the District's annual budget and proposed annual assessment. Any proposed annual assessment is not considered an increased assessment, even if the proposed assessment is greater than the assessment applied in the prior fiscal year.

Although the Maximum Assessment will increase each year, the actual assessment may remain unchanged. The Maximum Assessment adjustment is designed to establish a reasonable limit on assessments. The Maximum Assessment calculated each year does not require or facilitate an increase to the annual assessment and neither does it restrict assessments to the adjustment maximum amount. If the budget and assessment for the fiscal year do not require an increase, or the increase is less than the adjusted Maximum Assessment, the required budget and assessment may be applied without additional property owner balloting. If the budget and assessments calculated requires an increase greater

than the adjusted Maximum Assessment, then the assessment is considered an increased assessment and would be subject to balloting.

#### **D. ANNUAL INFLATIONARY ADJUSTMENT**

If the proposed assessment rates increase over the prior fiscal year's maximum assessment rates by a percentage no greater than the 3%, then the proposed assessment rates are not considered an increase.

### III. DISTRICT BUDGET

#### A. FY 2018/19 BUDGET

| DESCRIPTION                                      | AMOUNTS              |
|--------------------------------------------------|----------------------|
| <b><u>DIRECT COSTS</u></b>                       |                      |
| Contract Maintenance - Landscaping               | \$11,075.00          |
| Repair & Maintenance - Landscaping               | 8,400.00             |
| Repair & Maintenance - Lighting                  | 2,000.00             |
| Repair and Maintenance - Streetscape and Signage | 1,000.00             |
| Utilities                                        | 10,395.00            |
| Rehab Reserve Project Expenditures               | <u>36,000.00</u>     |
| <b>Total Direct Costs</b>                        | <b>\$68,870.00</b>   |
| <b><u>ADMINISTRATION COSTS</u></b>               |                      |
| City Administration                              | \$1,633.00           |
| Contract Administration - Park's Dept            | 2,200.00             |
| County Auditor Fees                              | 420.32               |
| Consulting & Professional Services               | 3,485.00             |
| Consultant Incidental Expenses                   | 40.00                |
| Public Hearing Publishing Costs                  | <u>775.00</u>        |
| <b>Total Administrative Costs</b>                | <b>\$8,553.32</b>    |
| <b>Total Direct and Administration Costs</b>     | <b>\$77,423.32</b>   |
| <b><u>BUDGET ADJUSTMENTS</u></b>                 |                      |
| Replenishment/(Use) of Operating Reserve         | \$608.20             |
| Contribution for /(Use of) Rehab Reserve         | (36,000.00)          |
| Rounding Adjustment                              | <u>(0.38)</u>        |
| <b>Total Adjustments</b>                         | <b>(\$35,392.18)</b> |
| <b>BALANCE TO LEVY</b>                           | <b>\$42,031.14</b>   |

The following page provides additional budget information

## B. FY 2018/19 ASSESSMENT RATES

| DESCRIPTION                                         | AMOUNTS         |
|-----------------------------------------------------|-----------------|
| <b><u>FY 2018/19 APPLIED ASSESSMENT RATES</u></b>   |                 |
| Number of Assessable Parcels                        | 56              |
| Total Front Footage - Commercial                    | 2,859.87        |
| Total Front Footage - MFR                           | 140.00          |
| Total Assessable Acreage - Commercial               | 8.8087          |
| Total Assessable Acreage - MFR                      | 0.4821          |
| Total Single Family Residences                      | 5               |
| Applied Assessment Rate per Front Foot - Commercial | \$2.8373        |
| Applied Assessment Rate per Front Foot - MFR        | \$0.7129        |
| Applied Assessment Rate per Acre - Commercial       | \$3,681.8992    |
| Applied Assessment Rate per Acre - MFR              | \$920.4712      |
| Applied Assessment Rate per SF Residence            | \$188.2004      |
| Maximum Assessment Rate per Front Foot - Commercial | \$2.8373        |
| Maximum Assessment Rate per Front Foot - MFR        | \$0.7129        |
| Maximum Assessment Rate per Acre - Commercial       | \$3,681.8992    |
| Maximum Assessment Rate per Acre - MFR              | \$920.4712      |
| Maximum Assessment Rate per SF Residence            | \$188.2004      |
| <b>Potential Maximum Assessment</b>                 | <b>\$42,032</b> |

## C. FY 2018/19 FUND BALANCE INFORMATION

| DESCRIPTION                                                | AMOUNTS            |
|------------------------------------------------------------|--------------------|
| <b><u>OPERATING RESERVE</u></b>                            |                    |
| <b>Beginning Operating Reserve Balance 7-1-2018 (est.)</b> | <b>\$53,903.14</b> |
| add: Replenish from FY 18/19 Levy                          | 608.20             |
| less: Use for FY 18/19 Expenses                            |                    |
| Transfer from/(to) the Rehab Reserve                       | (15,799.68)        |
| <b>Ending Operating Reserve Balance 6-30-2019 (est.)</b>   | <b>\$38,711.66</b> |
| <b><u>REHABILITATION RESERVE</u></b>                       |                    |
| <b>Beginning Rehab Reserve Balance 7-1-2018 (est.)</b>     | <b>\$67,669.12</b> |
| add: Collect from FY 18/19 Levy                            |                    |
| less: Use for FY 18/19 Rehab Projects                      | (36,000.00)        |
| Transfer from/(to) the Operating Reserve                   | 15,799.68          |
| <b>Ending Rehab Reserve Balance 6-30-2019 (est.)</b>       | <b>\$47,468.80</b> |

## **D. DESCRIPTION OF BUDGET ITEMS**

Description of the terms used in the preceding Budget, Assessment Rates and Fund Balance tables are listed below:

### **BUDGET:**

#### **DIRECT COSTS**

**Contract Maintenance - Landscaping** - Includes all regularly scheduled contract labor, required to properly maintain and ensure the satisfactory condition of all landscaping, irrigation and drainage systems and appurtenant facilities.

**Repair and Maintenance - Landscaping** - This item includes landscape improvement repair and maintenance costs that are generally unforeseen and not normally included in the annual maintenance contract costs. This may include repair of damaged amenities due to vandalism, storms, etc. Planned replacements or upgrades that provide a direct benefit to the District during the Current Fiscal Year may also be included. Costs could include the renovation of improvements such as irrigation systems.

**Repair and Maintenance - Lighting** - This item includes lighting improvement repair and maintenance costs. This may include repair of damaged amenities due to vandalism, storms, etc. Planned replacements or upgrades that provide a direct benefit to the District during the Current Fiscal Year may also be included.

**Repair and Maintenance - Streetscape and Signage** - This item includes repair and maintenance costs of streetscape and sign improvements. Streetscape improvements include street furniture, sidewalks, curbs, gutters, parking stripes, brick pavers, benches, bike racks, and trash receptacles. This may include repair of damaged amenities due to vandalism, storms, etc. May include planned replacements or upgrades not listed below that provide a direct benefit to the District.

**Utilities** - The furnishing of water and electricity required for the operation and maintenance of the improvements.

**Rehab Reserve Project Expenditures** – Expected costs for installation, replacement or planned upgrades of District improvements for the current year that were previously funded or accumulated in the Rehabilitation Reserve. The Rehabilitation Reserve is used to accumulate funds for costs associated with the future rehabilitation or replacement of District improvements that cannot be conveniently raised from a single year's assessment. If zero, this line item may not be shown in the budget.

## **ADMINISTRATION COSTS**

**City Administration** – Estimated costs incurred by the City Finance Department and other Departments in preparing the annual budget for the Engineer's Report, together with other financial information required to determine the annual assessment. These costs would also include the preparation, posting and publishing of public notices required for City Council action relating to the District, as well as costs to perform legal review of documents.

**Contract Administration – Park's Dept** – Estimated Costs of Park and Recreation Department staff to coordinate and oversee the maintenance contracts and overall repair and maintenance of the District. This amount also includes the cost of the Department's estimates and analysis of certain budget items, estimated costs and useful lives of certain District Improvements.

**County Auditor Fees** - A fee of 1% of the total levy amount that is charged to the District by the County for placing assessments on property tax bills.

**Consulting and Professional Services** – Includes the costs and expenses of contracting with various professionals to provide legal, engineering and district administration services directly related to the District, including the calculation of the annual assessment amounts and the preparation of the Engineer's' Report.

**Public Hearing Publishing Costs** –Includes the out of pocket costs to publish public notices required for City Council action relating to the District.

**Total Direct and Administration Costs** – The total expected costs of the District.

## **BUDGET ADJUSTMENTS**

**Replenishment/(Use) of Operating Reserve** – A "Replenishment" increases the levy in order to replenish the Operating Reserve. On the other hand, a "Use" of the Operating Reserve decreases the levy by drawing funds from the Operating Reserve for current year expenditures. If zero, this line item may not be shown in the budget. Further information regarding the function of the Operating Reserve is provided under "FUND BALANCE INFORMATION" in the following pages of this Section.

**Contribution for /(Use of) Rehab Reserve** — A "Contribution" increases the levy in order to generate funding for the Rehabilitation Reserve. This reserve allows for the accumulation of funds for the possible rehabilitation projects or replacements in future years. On the other hand, a "Use of" of the Rehabilitation Reserve provides current year funding of rehabilitation projects or replacements from available funds within the Rehabilitation Reserve. If zero, this line item may not be shown in the budget. Further information regarding the function of the

Rehabilitation Reserve is provided under “FUND BALANCE INFORMATION” in the following pages of this Section.

**Rounding Adjustment** – The necessary rounding adjustment(s) due to limitations of the County property tax system that requires even penny levy amounts to be placed on the secured tax roll.

**BALANCE TO LEVY** - This is the total amount to be levied and collected through assessments for the current fiscal year for each zone. The Balance to Levy represents the sum of the total District costs together with any applicable adjustments to the budget as described above.

## **ASSESSMENT RATES:**

### **APPLIED ASSESSMENT RATE**

**Number of Assessable Parcels** - The total number of parcels that are expected to be assessed. Non-assessable lots or parcels include government-owned land, public utility-owned property, land principally encumbered by public rights-of-way or easements, common areas, and/or parcels within the boundaries of the District currently do not benefit from the improvements and are therefore not assessed.

**Total Assessable Front Footage** – the total number of Front Feet within the District, adjusted for corner parcels, Multi-Family Residential and Single-Family Residential Parcels will be assessed as calculated in accordance with the methodology set out in Section C of this Report.

**Total Assessable Acreage** – the total Acreage within the District, adjusted for Multi-Family Residential and Single-Family Residential Parcels that will be assessed as calculated in accordance with the methodology set out in Section C of this Report.

**Total Single-Family Residential Parcels** – the total number of parcels currently being used as Single-Family Residences.

**Applied Assessment Rates** – The applied assessment rates for each of the District’s land use types.

**Maximum Assessment Rates per Front Foot** – The maximum dollar amount that can be assessed per Adjusted Front Foot for the District’s land use type for the current fiscal year.

**Maximum Assessment Rates per Acre** – The maximum dollar amount that can be assessed per Adjusted Acreage Foot for the District’s land use type for the current fiscal year.

**Maximum Assessment Rate per SF Residential Unit** – The maximum dollar amount that can be assessed per Single Family Unit within the District for the current fiscal year.

**Potential Maximum Assessment** – The total amount that is expected to be assessed against all parcels within the District for the Current Fiscal Year.

## **FUND BALANCE INFORMATION:**

### **OPERATING RESERVE**

**Beginning Operating Reserve Balance 7-1-2018 (est.)** - The anticipated beginning balance of cash and receivables net of any unpaid prior year obligations for each Zone. These beginning balances shall be used to fund each Zone's expenditures from July 1, 2018 to December 31, 2018, as the Operating Reserve is required to compensate for the approximate six-month delay between the start of the District's fiscal year and the receipt of the collections from the County. All Rehabilitation Reserve balances, if any, are excluded from the Operating Reserve balances and shall be shown separately in the Report.

**Replenish from FY 18/19 Levy** – This amount is added to the levy in order to replenish the Operating Reserve. Due to the six-month delay from the District's receipt of assessment collections, the Operating Reserve balance shall be sufficiently funded to provide for expenditures from the period of July 1, 2018 (the beginning of the Fiscal Year) through December 31, 2018. If zero, this line item may not be shown in the budget.

**Use for FY 18/19 Expenses** – The amount of the Operating Reserve to be used to fund FY 18/19 expenses. Portions of the Operating Reserve may be slated for current year expenditures in order to reduce the Ending Operating Reserve Balance to an amount no greater than the expected District costs for the period of July 1, 2018 (the beginning of the Fiscal Year) through December 31, 2018. If zero, this line item may not be shown in the budget.

**Transfer from/(to) the Rehab Reserve** — The amount of Operating Reserve monies to be transferred to or from the Rehabilitation Reserve. Periodically, funds held in a Rehabilitation Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Rehabilitation Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Parks and Recreation Department or equivalent, in order to provide for the maintenance and operation of the improvements. If zero, this line item may not be shown in the budget.

**Ending Operating Reserve Balance 6-30-2019 (est.)** - This amount represents the anticipated Operating Reserve balance/(deficit) for each Zone as of June 30, 2019. The size of each Zone's Operating Reserve is limited by Streets and

Highways Code 22569 which states that an Operating Reserve shall not exceed the estimated costs of maintenance, service and incidental expenses from the first day of the fiscal year (July 1) to the date that the Agency expects to receive the first apportionment of collections from the County, which is estimated to be December 31. Therefore, each Zone may retain an Operating Reserve amounting to the District's first six-months of expenses in order to meet ongoing obligations until the first collections are received from the County. All Rehabilitation Reserve balances, if any, are excluded from the Operating Reserve balances and shall be shown separately in the Report.

### **REHABILITATION RESERVE**

**Beginning Rehab Reserve Balance 7-1-2018 (est.)** — The projected balance of funds in the Rehabilitation Reserve as of July 1, 2018. Streets and Highways Code 22660 allows the District to generate and accumulate funds over several years to fund District improvements that cannot be conveniently raised from a single year's assessment.

**Collect from FY 18/19 Levy** — This amount is added to the levy to accumulate funding of future year rehabilitation projects, replacements, restorations or upgrades of District improvements. If zero, this line item may not be shown in the budget.

**Use for FY 18/19 Rehab Projects** – The amount of Rehabilitation Reserve monies expected to be transferred out of the Rehabilitation Reserve to fund the costs of installation, replacement or planned upgrades of District improvements for the current year. If zero, this line item may not be shown in the budget.

**Transfer from/(to) the Operating Reserve** — The amount of Rehabilitation Reserve monies to be transferred to or from the Operating Reserve. Periodically, funds held in a Rehabilitation Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Rehabilitation Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Parks and Recreation Department, in order to provide for the maintenance and operation of the improvements. If zero, this line item may not be shown in the budget.

**Ending Rehab Reserve Balance 6-30-2019 (est.)** - The projected balance of funds in the Rehabilitation Reserve as of June 30, 2019. These funds shall be used to provide for future year rehabilitation projects, replacements, restorations or upgrades of District improvements which cannot be conveniently raised from a single year's assessment.

Should the District have no Rehabilitation Reserve balances or related activity, no Rehabilitation Reserve information shall be presented in the Report.

## **E. REHABILITATION RESERVE – CAPITAL IMPROVEMENT PLAN**

*Streets and Highways Code 22660* allows the District to generate and accumulate funds over several years to fund District improvements that cannot be conveniently raised from a single year's assessment. A five-year Capital Improvement Plan showing the projected costs of the rehabilitation, restoration and/or replacement of District improvements and other allowable costs, excluding FY 2018/19, is shown below.

Repair and/or replacement of streetscape and hardscape: \$2,500 in FY 2019/20; replacement, repair, renovation and/or refurbishment of plants, landscaping and related materials: \$5,000 in FY 2019/20 and \$10,000 in each of FYs 2020/21, 2021/22 and 2022/23; replacement and/or repair of lighting fixtures: \$10,000 in FY 2019/20.

From time to time, funds held in a Rehabilitation Reserve may be needed to respond to changing needs due to the condition of the improvements or other factors. Accordingly, any or all funds held in a Rehabilitation Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Parks and Recreation Department or equivalent, in order to provide for the maintenance and / or operation of the improvements.

## **APPENDIX A – DISTRICT BOUNDARY MAP**

The boundary map for the District has previously been submitted to the Clerk of the City in the format required under the 1972 Act and is, by reference, hereby made part of this Report. These District Boundary Maps are available for inspection at the office of the City Clerk during normal business hours.

For general reference purposes, a summary of the District's Boundaries is presented herein.

**VICINITY MAP**  
NOT TO SCALE

FILED IN THE OFFICE OF THE CITY CLERK THIS \_\_\_\_\_ DAY OF \_\_\_\_\_, 2006.  
I HEREBY CERTIFY THAT THIS MAP SHOWING THE BOUNDARIES OF HISTORIC LANDSCAPING AND LIGHTING DISTRICT, CITY OF ROSEVILLE, COUNTY OF PLACER, STATE OF CALIFORNIA, WAS APPROVED BY THE CITY COUNCIL OF THE CITY OF ROSEVILLE AT A REGULAR MEETING THEREOF, HELD ON THE \_\_\_\_\_ DAY OF \_\_\_\_\_, 2006, BY ITS RESOLUTION NO. \_\_\_\_\_.

CITY CLERK  
CITY OF ROSEVILLE

## **APPENDIX B — 2018/19 ASSESSMENT ROLL**

Parcel identification, for each lot or parcel within the District, shall be the parcel as shown on the Placer County Assessor's map for the year in which this Report is prepared.

A listing of parcels to be assessed within this District, along with the proposed assessment amounts, shall be submitted to the City Clerk, under a separate cover, and by reference is made part of this Report.

Non-assessable lots or parcels may include areas of public streets and other roadways (typically not assigned an APN by the County); dedicated public easements, open space areas and rights-of-ways including public greenbelts and parkways; utility rights-of-ways; common areas; landlocked parcels, small parcels vacated by the County, bifurcated lots, and any other property that cannot be developed, excepting common area parcels. These types of parcels are considered to receive little or no benefit from the improvements and are therefore exempted from assessment.

At the conclusion of the public hearing for the District and the proposed assessments, approval of the Report (as submitted or as modified) confirms the method of apportionment and the assessment rate to be levied against each eligible parcel and thereby constitutes the approved levy and collection of assessments for FY 2018/19. The listing of parcels and the amount of assessment to be levied shall be submitted to the County Auditor/Controller and included on the FY 2018/19 property tax roll for each parcel.

If any parcel submitted for collection is identified by the County Auditor/Controller to be an invalid parcel number for the Current Fiscal Year, a corrected parcel number and/or new parcel numbers will be identified and resubmitted to the County Auditor/Controller. The assessment amount to be levied and collected for the resubmitted parcel or parcels shall be based on the method of apportionment and assessment rate approved in this Report. Therefore, if a single parcel has changed to multiple parcels, the assessment amount applied to each of the new parcels shall be recalculated and applied according to the approved method of apportionment and assessment rate rather than a proportionate share of the original assessment.

## RESOLUTION NO. 18-205

### **A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, AMENDING AND/OR APPROVING THE ENGINEER'S ANNUAL LEVY REPORT FOR THE INFILL AREA LANDSCAPING AND LIGHTING DISTRICT, FISCAL YEAR 2018/2019**

The City Council of the City of Roseville, California (hereafter referred to as the "City Council") does resolve as follows:

**WHEREAS**, The City Council has, by previous Resolutions, ordered the preparation of the Engineer's Annual Levy Report (hereafter referred to as the "Report") for said district known and designated as: Infill Area Landscaping and Lighting District (hereinafter referred to as the "District"), pursuant to the provisions of the *Landscaping and Lighting Act of 1972, being Part 2 Division 15, of the Streets and Highways Code of the State of California, beginning with Section 22500* (hereinafter referred to as the "Act"), and,

**WHEREAS**, there has now been presented to this City Council the Report as required by *Chapter 3, Section 22623* of said Act, and as previously directed by Resolution; and,

**WHEREAS**, this City Council has carefully examined and reviewed the Report as presented (or amended), and is satisfied with each and all of the items and documents as set forth therein, and is satisfied that the levy has been spread in accordance with the benefits received from the improvements, operation, maintenance and services to be performed, as set forth in said Report.

**NOW, THEREFORE, BE IT RESOLVED, DETERMINED, AND ORDERED BY THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, FOR INFILL AREA LANDSCAPING AND LIGHTING DISTRICT, AS FOLLOWS:**

**Section 1** That the above recitals are all true and correct.

**Section 2** That the Report as presented, is hereby approved (as amended), and is ordered to be filed in the Office of the City Clerk as a permanent record and to remain open to public inspection.

**Section 3** That the City Clerk shall certify to the passage and adoption of this Resolution, and the minutes of this meeting shall so reflect the presentation and final approval of the Report.

**RESOLUTION NO. 18-205**

**PASSED, APPROVED, AND ADOPTED THIS** \_\_\_\_\_ day of \_\_\_\_\_, 2018.

## RESOLUTION NO. 18-206

### **A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA ORDERING THE LEVY AND COLLECTION OF ASSESSMENTS WITHIN THE INFILL AREA LANDSCAPING AND LIGHTING DISTRICT, FOR FISCAL YEAR 2018/2019**

The City Council of the City of Roseville, California (hereafter referred to as the “City Council”) does resolve as follows:

**WHEREAS**, the City Council of City of Roseville, California, has, by previous Resolutions, initiated proceedings, and declared its intention to levy assessments, and approved the Engineer’s Annual Levy Report (hereinafter referred to as the “Report”) that describes the assessments against parcels of land within the Infill Area Landscaping and Lighting District (hereinafter referred to as the “District”) for the Fiscal Year commencing July 1, 2018, and ending June 30, 2019, pursuant to the provisions of the *Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the California Streets and Highways Code, commencing with Section 22500* (hereinafter referred to as the “Act”) to pay for the maintenance and services of all improvements and facilities related thereto; and,

**WHEREAS**, the Engineer selected by the City Council has prepared and filed with the City Clerk, and the City Clerk has presented to the City Council, a Report in connection with the proposed levy and collection of assessments upon eligible parcels of land within the District, and the City Council did by previous Resolution approve such Report; and,

**WHEREAS**, the City Council desires to levy and collect assessments against parcels of land within the District for the Fiscal Year commencing July 1, 2018, and ending June 30, 2019, to pay for the maintenance and services of all improvements and facilities related thereto; and,

**WHEREAS**, this City and its legal counsel have reviewed Proposition 218 and found that these assessments comply with applicable provisions of Articles XIIC and XIID of the California State Constitution.

**NOW, THEREFORE, BE IT RESOLVED, DETERMINED, AND ORDERED BY THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, FOR THE INFILL AREA LANDSCAPING AND LIGHTING DISTRICT, AS FOLLOWS:**

**Section 1** Following notice duly given, the City Council has held a full and fair public hearing regarding the District, the levy and collection of assessments, the Report prepared in connection therewith, and considered all oral and written statements, protests and communications made or filed by interested persons regarding these matters.

**Section 2** Based upon its review (and amendments, as applicable) of the Report, a copy of which has been presented to the City Council and which has been filed with the City Clerk, the City Council hereby finds and determines that:

- i) the land within the District will be benefited by the operation, maintenance and servicing of the improvements located within the boundaries of the District;

- ii) the District includes all of the lands receiving such special benefit; and,
- iii) the net amount to be assessed upon the lands within the District in accordance with the assessment for the Fiscal Year commencing July 1, 2018 and ending June 30, 2019 is apportioned by a formula and method which fairly distributes the net amount among all eligible parcels in proportion to the estimated special benefits to be received by each parcel from the improvements and services.

**Section 3** The Report and assessments as presented to the City Council and on file in the Office of the City Clerk are hereby confirmed as filed.

**Section 4** The maintenance, operation and servicing of the improvements and appurtenant facilities shall be performed pursuant to the Act. The City Council hereby orders the improvements to be made, which improvements are briefly described as follows: maintenance, servicing, administration and operation of the landscape corridors adjacent to property within the Pheasant Run, Cirby Oaks II and Reuter Ranch subdivisions, other public improvements within the street right of way areas and all appurtenant facilities related thereto within the District. The Engineer's Annual Levy Report describes all new improvements or substantial changes in existing improvements.

**Section 5** The County Auditor of the County of Placer shall enter on the County Assessment Roll, opposite each eligible parcel of land, the amount of levy so apportioned by the formula and method outlined in the Report, and such levies shall be collected at the same time and in the same manner as the County taxes are collected, pursuant to *Chapter 4, Article 2, Section 22646* of the Act. After collection by the County, the net amount of the levy shall be paid to the City Treasurer.

**Section 6** The City Treasurer shall deposit all money representing assessments collected by the County for the District to the credit of a fund for the Infill Area Landscaping and Lighting District and such money shall be expended only for the maintenance, operation and servicing of the improvements, together with other expenses as described in Section 4.

**Section 7** The adoption of this Resolution constitutes the District levy for the Fiscal Year commencing July 1, 2018, and ending June 30, 2019.

**Section 8** The City Clerk's designee, Willdan Financial Services, is hereby authorized and directed to file the levy with the County Auditor subsequent to the adoption of this Resolution, pursuant to Chapter 4, Article 1, Section 22641 of the Act. The City Clerk is directed to deliver a certified copy of this adopted Resolution to Willdan Financial Services within two weeks of adoption via either e-mail to mashley@willdan.com or US Mail to: Willdan Financial Services, 27368 Via Industria, Suite 200, Temecula, CA 92590 Attn: Mickey Ashley.

**RESOLUTION NO. 18-206**

**PASSED, APPROVED, AND ADOPTED THIS** \_\_\_\_\_ day of \_\_\_\_\_, 2018.

## I. OVERVIEW

---

### A. INTRODUCTION

The City of Roseville (“City”) annually levies and collects special assessments in order to maintain the improvements within the City’s existing Infill Area Landscaping and Lighting District (“District”). The District was formed and is levied annual assessments pursuant to the Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the California Streets and Highways Code (the “Act”).

The Engineer’s Report (“Report”) describes the District, any new annexations, changes to the District, and the proposed assessments for the period of July 1, 2018 through June 30, 2019. The special benefit assessments are based on historical and estimated costs to maintain the District improvements. These assessments, which provide a direct and special benefit to properties within the District, will provide funding for the operation and maintenance of District improvements.

The District consists of three (3) zones of benefit, Zones A, B and C (individually the “Zone” and collectively the “Zones”). The improvements that benefit properties within each Zone and the costs to maintain and service those improvements are identified and budgeted separately by Zone. The total cost of landscape maintenance within a Zone is equitably spread among only the benefiting parcels.

The word “parcel,” for the purposes of this Report, refers to an individual property assigned its own Assessor’s Parcel Number (“APN”) by the Placer County Assessor’s Office. The Placer County Auditor/Controller uses Assessor’s Parcel Numbers and specific Tax Code Accounts, to identify on the County’s tax roll, properties assessed for special district benefit assessments.

Following approval of the Report, the City Council will by resolution, order the improvements to be made, if any, and confirm the levy and collection of assessments pursuant to the Act. The assessment rates and method of apportionment described in this Report, as approved or modified by the City Council, defines the assessments to be applied to each parcel within the District and respective Zones for Fiscal Year (“FY”) 2018/19. The assessments as approved will be submitted to the Placer County Auditor/Controller to be included on the FY 2018/19 property tax roll for each parcel.

If any parcel submitted for collection is identified by the County Auditor/Controller to be an invalid parcel number for the current fiscal year, a corrected parcel number and/or new parcel numbers will be identified and resubmitted to the County Auditor/Controller. The assessment amount to be levied and collected for the resubmitted parcel or parcels shall be based on the method of apportionment and assessment rates approved by the City Council.

## **B. COMPLIANCE WITH CURRENT LEGISLATION**

All assessments described in this Report and approved by the City Council are prepared in accordance with the Act and are in compliance with the substantive and procedural requirements of the California State Constitution Articles XIIC and XIID (“Articles XIIC and XIID”) and the provisions of the Proposition 218 Omnibus Implementation Act [Government Code Section 53750 and following] (the “Implementation Act”). Articles XIIC and XIID and the Implementation Act collectively are hereinafter referred to as “Proposition 218”.

Pursuant to the California Constitution Article XIID Section 5, certain existing assessments are exempt from the substantive and procedural requirements of Article XIID Section 4 and property owner balloting for the assessments is not required until such time that the assessments are increased. Specifically, the City determined that all improvements and the annual assessments originally established for the District were part of the conditions of property development and approved by the original property owner (developer). As such, pursuant to Article XIID Section 5(b), all the property owners approved the existing District assessments at the time the assessments were created (originally imposed pursuant to a 100% landowner petition). Therefore, the pre-existing assessment amounts (the maximum assessment rates of Zones A, B, & C identified in this Report) are exempt from the procedural requirements Article XIID Section 4, provided the assessments are not increased above these previously approved maximum assessment rates.

The District and all Zones therein have been formed pursuant to the Act. Pursuant to the Act, an annual Public Hearing is conducted by the City Council to accept property owner and public comments, to review the Engineer’s Annual Levy Report prior to approving the annual assessments to be levied on the County tax rolls. The assessments described in this Report have been prepared in accordance with the Act.

## **C. DESCRIPTION OF DISTRICT BOUNDARIES**

The three Zones within the District are comprised of three non-contiguous residential subdivisions, namely Pheasant Run, Cirby Oaks II and Reuter Ranch, are located in the southern portion of the City and are within the boundaries of the City’s “Infill Planning Area”. A general depiction of the boundaries of each Zone can be found in Appendix A of this Report.

#### **D. IMPROVEMENTS AUTHORIZED BY THE 1972 ACT**

As applicable or may be applicable to this proposed District, the 1972 Act defines improvements to mean one or any combination of the following:

- The installation or planting of landscaping.
- The installation or construction of statuary, fountains, and other ornamental structures and facilities.
- The installation or construction of public lighting facilities.
- The installation or construction of any facilities which are appurtenant to any of the foregoing or which are necessary or convenient for the maintenance or servicing thereof, including, but not limited to, grading, clearing, removal of debris, the installation or construction of curbs, gutters, walls, sidewalks, or paving, or water, irrigation, drainage, or electrical facilities.
- The maintenance or servicing, or both, of any of the foregoing.
- The acquisition of any existing improvement otherwise authorized pursuant to this section.

Incidental expenses associated with the improvements including, but not limited to:

- The cost of preparation of the report, including plans, specifications, estimates, diagram, and assessment;
- The costs of printing, advertising, and the publishing, posting and mailing of notices;
- Compensation payable to the County for collection of assessments;
- Compensation of any engineer or attorney employed to render services;
- Any other expenses incidental to the construction, installation, or maintenance and servicing of the improvements;
- Any expenses incidental to the issuance of bonds or notes pursuant to Section 22662.5.
- Costs associated with any elections held for the approval of a new or increased assessment.

The 1972 Act defines "Maintain" or "maintenance" to mean furnishing of services and materials for the ordinary and usual maintenance, operation, and servicing of any improvement, including:

- Repair, removal, or replacement of all or any part of any improvement.
- Providing for the life, growth, health, and beauty of landscaping, including cultivation, irrigation, trimming, spraying, fertilizing, or treating for disease or injury.

- The removal of trimmings, rubbish, debris, and other solid waste.
- The cleaning, sandblasting, and painting of walls and other improvements to remove or cover graffiti.

Furthermore, the 1972 Act specifies that where the cost of improvements (other than maintenance and operations) is greater than can be conveniently raised from a single annual assessment, an assessment to be levied and collected in annual installments. In that event, the governing body may choose to do any of the following:

- Provide for the accumulation of the moneys in an improvement fund until there are sufficient moneys to pay all or part of the cost of the improvements.
- Provide for a temporary advance to the improvement fund from any available and unencumbered funds of the local agency to pay all or part of the cost of the improvements and collect those advanced moneys from the annual installments collected through the assessments.
- Borrow an amount necessary to finance the estimated cost of the proposed improvements. The amount borrowed, including amounts for bonds issued to finance the estimated cost of the proposed improvements.

## **E. DESCRIPTION OF IMPROVEMENTS AND BENEFITS**

This District, by special benefit assessments, provides funding for the maintenance and operation of certain landscaping improvements located within the public right-of-way's and dedicated easements:

The District provides all services necessary to maintain the landscaped corridors adjacent to the privately-owned parcels comprising the three subdivisions. Improvements include shrubs, trees and other landscaping vegetation, as well as irrigation controllers, automatic valves and irrigation systems. Services provided include all necessary services, operations, and maintenance required in keeping the improvements in a healthy, vigorous condition and in proper working order.

The District encompasses three subdivisions, each of which is located in a separate Zone. The Zones have specific improvements and costs associated with those improvements that benefit the parcels within each respective Zone. The total cost of landscape maintenance within a Zone is equitably spread among only the benefiting parcels within the Zone and only parcels that receive a special benefit from the improvements are assessed.

The specific locations of the improvements within each Zone of the District are described as follows:

**Zone A – Pheasant Run**

Maintenance of 6,880 square feet of landscaping and related improvements within the Pheasant Run subdivision.

**Zone B – Cirby Oaks**

Maintenance of 7,447 square feet of landscaping and related improvements within the Cirby Oaks II subdivision.

**Zone C – Reuter Ranch**

Maintenance of 24,700 square feet of landscaping and related improvements within the Reuter Ranch subdivision. A larger amount of landscaping benefits the properties within Reuter Ranch and typically results in a larger per parcel assessment for these properties as compared to Zones A and B.

## II. METHOD OF APPORTIONMENT

---

### A. GENERAL

The Act permits the establishment of assessment districts by agencies for the purpose of providing certain public improvements which include the construction, maintenance and servicing of public lights, landscaping and appurtenant facilities. The Act further requires that the cost of these improvements be levied according to benefit rather than assessed value:

*"The net amount to be assessed upon lands within an assessment district may be apportioned by any formula or method which fairly distributes the net amount among all assessable lots or parcels in proportion to the estimated benefits to be received by each such lot or parcel from the improvements."*

The formula used for calculating assessments in each Zone of the District therefore reflects the composition of the parcels, and the improvements and services provided, to fairly apportion the costs based on estimated benefit to each parcel.

### B. SPECIAL BENEFIT ANALYSIS

In conjunction with the provisions of the 1972 Act, the California Constitution Article XIID addresses several key criteria for the levy of assessments, notably:

Article XIID Section 2d defines District as follows:

"District means an area determined by an agency to contain all parcels which will receive a special benefit from a proposed public improvement or property-related service";

Article XIID Section 2i defines Special Benefit as follows:

"Special benefit" means a particular and distinct benefit over and above general benefits conferred on real property located in the district or to the public at large. General enhancement of property value does not constitute "special benefit."

Article XIID Section 4a defines proportional special benefit assessments as follows:

"An agency which proposes to levy an assessment shall identify all parcels which will have a special benefit conferred upon them and upon which an assessment will be imposed. The proportionate special benefit derived by each identified parcel shall be determined in relationship to the entirety of the capital cost of a public improvement, the maintenance and operation expenses of a public improvement,

or the cost of the property related service being provided. No assessment shall be imposed on any parcel which exceeds the reasonable cost of the proportional special benefit conferred on that parcel.”

These improvements will directly benefit the parcels to be assessed within the District. The assessments and method of apportionment is based on the premise that the assessments will be used to construct and install landscape and lighting improvements within the District as well as provide for the annual maintenance of those improvements, and the assessment revenues generated by District will be used solely for such purposes.

Each of the proposed improvements; the associated costs and assessments have been reviewed, identified and allocated based on special benefit pursuant to the Act. All improvements associated with the Zones were necessary and required through the conditions of property development. Therefore, the improvements and the annual costs of ensuring the maintenance and operation of the improvements are of direct and special benefit to the properties.

The method of apportionment (method of assessment) is based on the premise that each assessed parcel within these Zones receives special benefit from the improvements. The desirability and security of properties is enhanced by well-maintained landscaping in close proximity to those properties.

The special benefits associated with all landscaping improvements are specifically:

- Enhanced desirability of properties through association with the improvements.
- Improved aesthetic appeal of properties providing a positive representation of the area and properties.
- Enhanced adaptation of the urban environment within the natural environment from adequate green space and landscaping.
- Environmental enhancement through improved erosion resistance, dust and debris control, and fire prevention.
- Increased sense of pride in ownership of property within the Zones resulting from well-maintained improvements associated with the properties.
- Enhanced quality of life through well-maintained green belts and landscaped areas.
- Reduced criminal activity and property-related crimes (especially vandalism) against properties in the Zones through well-maintained surroundings and amenities including abatement of graffiti.
- Enhanced environmental quality of the parcels by moderating temperatures, providing oxygenation and attenuating noise.

All of the preceding special benefits allowed the property to be developed for the enjoyment of the property owners and contribute to a specific enhancement and desirability of each of the assessed parcels within the Zones.

The improvements are for the special benefit, enhancement and use of properties within the Zones. Although the improvements include public easements, rights-of-way, streets and other amenities available or visible to the public at large, the construction and installation of these improvements are only necessary for the development of properties within the Zones and are not required nor necessarily desired by any properties or developments outside the Zone's boundaries. Therefore, any public access or use of the improvements by others is incidental and there is no measurable general benefit to properties outside the Zones or to the public at large.

### **C. RATE AND METHOD OF APPORTIONMENT**

Pursuant to the Act, the costs of each Zone of the District must be spread to each parcel based upon a benefit formula. Each assessable parcel in the District receives a direct and special benefit from the improvements in the Zone. This direct and special benefit was determined to be equal for all dwelling units within each Zone; costs for each Zone shall be calculated separately within each respective Zone. Each single-family residence is equal to one dwelling unit (unit) and the formula used to arrive at each parcel's annual assessment is described below. Public parcels lying within the landscape corridors are considered to receive no benefit from the improvements and are therefore not assessed.

Costs associated with each Zone are to be charged only to assessable parcels within the respective Zone as follows:

$$\frac{\text{Balance to Levy in Zone}}{\text{Total Units in Zone}} = \text{Assessment Per Unit in Zone}$$

The Maximum Annual Assessment Rates are not to exceed \$193.32 per unit for Zone A and \$200.00 per unit for Zones B and C.

### D. DESCRIPTION OF BUDGET ITEMS

Description of the terms used in the preceding Budget, Assessment Rates and Fund Balance tables are listed below:

#### **BUDGET:**

##### **DIRECT COSTS**

**Contract Maintenance - Landscaping** - Includes all regularly scheduled contract labor, materials, supplies and equipment required to properly maintain and ensure the satisfactory condition or maintenance of all landscaping corridors, street medians, entryways, irrigation and related drainage systems as well as maintenance of appurtenant facilities (the "improvements").

**Utilities** - The furnishing of water and electricity required for the operation and maintenance of the improvements.

**Repair & Maintenance – Landscaping** - This line item includes repairs that are generally unforeseen and not normally included in the annual maintenance contract costs. This may include repair of damaged amenities due to vandalism, storms, etc. If zero, this line item may not be shown in the budget.

**Rehab Reserve Project Expenditures** – Expected costs for installation, replacement or planned upgrades of District improvements for the current year that were previously funded or accumulated in the Rehabilitation Reserve. The Rehabilitation Reserve is used to accumulate funds for costs associated with the future rehabilitation or replacement of District improvements that cannot be

conveniently raised from a single year's assessment. If zero, this line item may not be shown in the budget.

### **ADMINISTRATION COSTS**

**City Administration** – Estimated costs incurred by the City Finance Department and other Departments in preparing the annual budget for the Engineer's Report, together with other financial information required to determine the annual assessment. These costs would also include the preparation, posting and publishing of public notices required for City Council action relating to the District, as well as costs to perform legal review of documents.

**Contract Administration – Park's Dept** – Estimated Costs of Park and Recreation Department staff to coordinate and oversee the maintenance contracts and overall repair and maintenance of the District. This amount also includes the cost of the Department's estimates and analysis of certain budget items, estimated costs and useful lives of certain District Improvements.

**County Auditor Fees** - A fee of 1% of the total levy amount that is charged to the District by the County for placing assessments on property tax bills.

**Consulting and Professional Services** – Includes the costs and expenses of contracting with various professionals to provide legal, engineering and district administration services directly related to the District, including the calculation of the annual assessment amounts and the preparation of the Engineer's Report.

**Public Hearing Publishing Costs** – Includes the out of pocket costs to publish public notices required for City Council action relating to the District.

**Total Direct and Administration Costs** – The total expected costs of the District.

### **BUDGET ADJUSTMENTS**

**Replenishment/(Use) of Operating Reserve** – A "Replenishment" increases the levy in order to replenish the Operating Reserve. On the other hand, a "Use" of the Operating Reserve decreases the levy by drawing funds from the Operating Reserve for current year expenditures. If zero, this line item may not be shown in the budget. Further information regarding the function of the Operating Reserve is provided under "FUND BALANCE INFORMATION" in the following pages of this Section.

**Contribution for / (Use of) Rehab Reserve** — A "Contribution" increases the levy in order to generate funding for the Rehabilitation Reserve. This reserve allows for the accumulation of funds for the possible rehabilitation projects or replacements in future years. On the other hand, a "Use of" of the Rehabilitation Reserve provides current year funding of rehabilitation projects or replacements from available funds within the Rehabilitation Reserve. If zero, this line item may not be

shown in the budget. Further information regarding the function of the Rehabilitation Reserve is provided under “FUND BALANCE INFORMATION” in the following pages of this Section.

**Rounding Adjustment** – The necessary rounding adjustment(s) due to limitations of the County property tax system that requires even penny levy amounts to be placed on the secured tax roll.

**BALANCE TO LEVY** - This is the total amount to be levied and collected through assessments for the current fiscal year for each zone. The Balance to Levy represents the sum of the total District costs together with any applicable adjustments to the budget as described above.

## **ASSESSMENT RATES:**

### **APPLIED ASSESSMENT RATES**

**Number of Assessable Units** - The total number of residential units that are expected to be assessed. Non-assessable lots or parcels include government-owned land, public utility-owned property, land principally encumbered by public right-of-way's or easements, common areas, and/or parcels within the boundaries of the District currently do not benefit from the improvements and are therefore not assessed.

**Applied Assessment Rate per Unit** - The per unit assessment rates to be applied to the non-exempt parcels within the District for the current fiscal year.

**Maximum Assessment Rate per Unit** - The per unit maximum assessment rates for current fiscal year.

**Potential Maximum Assessment Per Zone** – The total amount that can be assessed against all parcels within each Zone for the current fiscal year based upon the expected number of units to be assessed.

## FUND BALANCE INFORMATION:

### OPERATING RESERVE

**Beginning Operating Reserve Balance 7-1-2018 (est.)** - The anticipated beginning balance of cash and receivables net of any unpaid prior year obligations for each Zone. These beginning balances shall be used to fund each Zone's expenditures from July 1, 2018 to December 31, 2018, as the Operating Reserve is required to compensate for the approximate six-month delay between the start of the District's fiscal year and the receipt of the collections from the County. All Rehabilitation Reserve balances, if any, are excluded from the Operating Reserve balances and shall be shown separately in the Report.

**Replenish from FY 18/19 Levy** – This amount is added to the levy in order to replenish the Operating Reserve. Due to the six-month delay from the District's receipt of assessment collections, the Operating Reserve balance shall be sufficiently funded to provide for expenditures from the period of July 1, 2018 (the beginning of the Fiscal Year) through December 31, 2018. If zero, this line item may not be shown in the budget.

**Use for FY 18/19 Expenses** – The amount of the Operating Reserve to be used to fund FY 18/19 expenses. Portions of the Operating Reserve may be slated for current year expenditures in order to reduce the Ending Operating Reserve Balance to an amount no greater than the expected District costs for the period of July 1, 2018 (the beginning of the Fiscal Year) through December 31, 2018. If zero, this line item may not be shown in the budget.

**Transfer from/(to) the Rehab Reserve** — The amount of Operating Reserve monies to be transferred to or from the Rehabilitation Reserve. Periodically, funds held in a Rehabilitation Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Rehabilitation Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Parks and Recreation Department or equivalent, in order to provide for the maintenance and operation of the improvements. If zero, this line item may not be shown in the budget.

**Ending Operating Reserve Balance 6-30-2019 (est.)** - This amount represents the anticipated Operating Reserve balance/(deficit) for each Zone as of June 30, 2019. The size of each Zone's Operating Reserve is limited by Streets and Highways Code 22569 which states that an Operating Reserve shall not exceed the estimated costs of maintenance, service and incidental expenses from the first day of the fiscal year (July 1) to the date that the Agency expects to receive the first apportionment of collections from the County, which is estimated to be December 31. Therefore, each Zone may retain an Operating Reserve amounting to the District's first six-months of expenses in order to meet ongoing obligations until the first collections are received from the County. All Rehabilitation Reserve

balances, if any, are excluded from the Operating Reserve balances and shall be shown separately in the Report.

### **REHABILITATION RESERVE**

**Beginning Rehab Reserve Balance 7-1-2018 (est.)** — The projected balance of funds in the Rehabilitation Reserve as of July 1, 2018. Streets and Highways Code 22660 allows the District to generate and accumulate funds over several years to fund District improvements that cannot be conveniently raised from a single year's assessment.

**Collect from FY 18/19 Levy** — This amount is added to the levy to accumulate funding of future year rehabilitation projects, replacements, restorations or upgrades of District improvements. If zero, this line item may not be shown in the budget.

**Use for FY 18/19 Rehab Projects** — The amount of Rehabilitation Reserve monies expected to be transferred out of the Rehabilitation Reserve to fund the costs of installation, replacement or planned upgrades of District improvements for the current year. If zero, this line item may not be shown in the budget.

**Transfer from/(to) the Operating Reserve** — The amount of Rehabilitation Reserve monies to be transferred to or from the Operating Reserve. Periodically, funds held in a Rehabilitation Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Rehabilitation Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Parks and Recreation Department, in order to provide for the maintenance and operation of the improvements. If zero, this line item may not be shown in the budget.

**Ending Rehab Reserve Balance 6-30-2019 (est.)** - The projected balance of funds in the Rehabilitation Reserve as of June 30, 2019. These funds shall be used to provide for future year rehabilitation projects, replacements, restorations or upgrades of District improvements which cannot be conveniently raised from a single year's assessment.

## **E. REHABILITATION RESERVE – CAPITAL IMPROVEMENT PLAN**

*Streets and Highways Code 22660* allows the District to generate and accumulate funds over several years to fund District improvements that cannot be conveniently raised from a single year's assessment. For each Zone showing a projected ending Rehabilitation Reserve balance, a five-year Capital Improvement Plan showing the projected costs of the rehabilitation, restoration and /or replacement of District improvements and other allowable costs, excluding FY 2018/19, is shown below.

**Zone A.** Repair and/or refurbish sound wall improvements: \$5,000 in FY 2020/21; and replace, repair, renovate and/or refurbish plants, landscaping and related materials: \$5,000, \$1,500 and \$5,000 in FYs 2019/20, 2020/21 and 2021/22, respectively.

**Zone B.** Repair and/or refurbish sound wall improvements: \$3,000, \$5,000, \$2,000 and \$1,000 in FYs 2019/20, 2020/21, 2021/22 and 2022/23, respectively; and replace, repair, renovate and/or refurbish plants, landscaping and related materials: \$5,000, \$3,000, \$5,000 and \$2,000 in FYs 2019/20, 2020/21, 2021/22 and 2022/23, respectively.

**Zone C.** Repair and/or refurbish sound wall improvements: \$6,300 in FY 2020/21; replace, repair, renovate and/or refurbish plants, landscaping and related materials: \$10,000, \$10,000 and \$5,000 in FYs 2019/20, 2021/22 and 2022/23, respectively.

Periodically, funds held in a Rehabilitation Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Rehabilitation Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Parks and Recreation Department or equivalent, in order to provide for the maintenance and operation of the improvements.

## **APPENDIX A – DISTRICT BOUNDARY MAP**

The Assessment Diagrams for the District have previously been submitted to the City Clerk in the format required under the Act and are, by reference, made part of this Report. The boundary maps are available for inspection at the office of the City Clerk during normal business hours.

For general reference purposes, a rendering of the District and Zone Boundaries are presented herein.

## APPENDIX B — 2018/19 ASSESSMENT ROLL

Parcel identification, for each lot or parcel within the District, shall be the parcel as shown on the Placer County Assessor's map for the year in which this Report is prepared.

A listing of parcels to be assessed within this District, along with the proposed assessment amounts, may be submitted to the City Clerk, under a separate cover, and by reference is made part of this Report.

Non-assessable lots or parcels may include areas of public streets and other roadways (typically not assigned an APN by the County); dedicated public easements, open space areas and rights-of-ways, including public greenbelts and parkways; utility rights-of-ways; small parcels vacated by the County, bifurcated lots, and other property that cannot be developed, excepting common area parcels. These types of parcels are considered to receive little or no benefit from the improvements and are therefore exempted from assessment.

At the conclusion of the public hearing for the District and the proposed assessments, approval of the Report (as submitted or as modified) confirms the method of apportionment and the assessment rate to be levied against each eligible parcel and thereby constitutes the approved levy and collection of assessments for FY 2018/19. The listing of parcels and the amount of assessment to be levied shall be submitted to the County Auditor/Controller and included on the FY 2018/19 property tax roll for each parcel.

If any parcel submitted for collection is identified by the County Auditor/Controller to be an invalid parcel number for the current fiscal year, a corrected parcel number and/or new parcel numbers will be identified and resubmitted to the County Auditor/Controller. The assessment amount to be levied and collected for the resubmitted parcel or parcels shall be based on the method of apportionment and assessment rate approved in this Report. Therefore, if a single parcel has changed to multiple parcels, the assessment amount applied to each of the new parcels shall be recalculated and applied according to the approved method of apportionment and assessment rate rather than a proportionate share of the original assessment.

## RESOLUTION NO. 18-207

### **A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, AMENDING AND/OR APPROVING THE ENGINEER'S ANNUAL LEVY REPORT FOR JOHNSON RANCH LANDSCAPING AND LIGHTING DISTRICT, FISCAL YEAR 2018/2019**

The City Council of the City of Roseville, California (hereafter referred to as the "City Council") does resolve as follows:

**WHEREAS**, The City Council has, by previous Resolutions, ordered the preparation of the Engineer's Annual Levy Report (hereafter referred to as the "Report") for said district known and designated as: Johnson Ranch Landscaping and Lighting District (hereinafter referred to as the "District"), pursuant to the provisions of the *Landscaping and Lighting Act of 1972, being Part 2 Division 15, of the Streets and Highways Code of the State of California, beginning with Section 22500* (hereinafter referred to as the "Act"), and,

**WHEREAS**, there has now been presented to this City Council the Report as required by *Chapter 3, Section 22623* of said Act, and as previously directed by Resolution; and,

**WHEREAS**, this City Council has carefully examined and reviewed the Report as presented (or amended), and is satisfied with each and all of the items and documents as set forth therein, and is satisfied that the levy has been spread in accordance with the benefits received from the improvements, operation, maintenance and services to be performed, as set forth in said Report.

**NOW, THEREFORE, BE IT RESOLVED, DETERMINED, AND ORDERED BY THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, FOR JOHNSON RANCH LANDSCAPING AND LIGHTING DISTRICT, AS FOLLOWS:**

**Section 1** That the above recitals are all true and correct.

**Section 2** That the Report as presented, is hereby approved (as amended), and is ordered to be filed in the Office of the City Clerk as a permanent record and to remain open to public inspection.

**Section 3** That the City Clerk shall certify to the passage and adoption of this Resolution, and the minutes of this meeting shall so reflect the presentation and final approval of the Report.

**RESOLUTION NO. 18-207**

**PASSED, APPROVED, AND ADOPTED THIS** \_\_\_\_\_ day of \_\_\_\_\_, 2018.

## RESOLUTION NO. 18-208

### **A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA ORDERING THE LEVY AND COLLECTION OF ASSESSMENTS WITHIN THE JOHNSON RANCH LANDSCAPING AND LIGHTING DISTRICT, FOR FISCAL YEAR 2018/2019**

The City Council of the City of Roseville, California (hereafter referred to as the “City Council”) does resolve as follows:

**WHEREAS**, the City Council of City of Roseville, California, has, by previous Resolutions, initiated proceedings, and declared its intention to levy assessments, and approved the Engineer’s Annual Levy Report (hereinafter referred to as the “Report”) that describes the assessments against parcels of land within the Johnson Ranch Landscaping and Lighting District (hereinafter referred to as the “District”) for the Fiscal Year commencing July 1, 2018, and ending June 30, 2019, pursuant to the provisions of the *Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the California Streets and Highways Code, commencing with Section 22500* (hereinafter referred to as the “Act”) to pay for the maintenance and services of all improvements and facilities related thereto; and

**WHEREAS**, the Engineer selected by the City Council has prepared and filed with the City Clerk, and the City Clerk has presented to the City Council, a Report in connection with the proposed levy and collection of assessments upon eligible parcels of land within the District, and the City Council did by previous Resolution approve such Report; and

**WHEREAS**, the City Council desires to levy and collect assessments against parcels of land within the District for the Fiscal Year commencing July 1, 2018, and ending June 30, 2019, to pay for the maintenance and services of all improvements and facilities related thereto.

**WHEREAS**, this City and its legal counsel have reviewed Proposition 218 and found that these assessments comply with applicable provisions of Articles XIIC and XIID of the California State Constitution; and,

**NOW, THEREFORE, BE IT RESOLVED, DETERMINED, AND ORDERED BY THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, FOR JOHNSON RANCH LANDSCAPING AND LIGHTING DISTRICT, AS FOLLOWS:**

**Section 1** Following notice duly given, the City Council has held a full and fair public hearing regarding the District, the levy and collection of assessments, the Report prepared in connection therewith, and considered all oral and written statements, protests and communications made or filed by interested persons regarding these matters.

**Section 2** Based upon its review (and amendments, as applicable) of the Report, a copy of which has been presented to the City Council and which has been filed with the City Clerk, the City Council hereby finds and determines that:

- i) the land within the District will be benefited by the operation, maintenance and servicing of the improvements located within the boundaries of the District.
- ii) the District includes all of the lands receiving such special benefit; and,
- iii) the net amount to be assessed upon the lands within the District in accordance with the assessment for the Fiscal Year commencing July 1, 2018, and ending June 30, 2019, is apportioned by a formula and method which fairly distributes the net amount among all eligible parcels in proportion to the estimated benefits to be received by each parcel from the improvements and services.

**Section 3** The Report and assessments as presented to the City Council and on file in the Office of the City Clerk are hereby confirmed as filed.

**Section 4** The maintenance, operation and servicing of the improvements shall be performed pursuant to the Act. The City Council hereby orders the improvements to be made, which improvements are briefly described as certain landscaping and open space areas, including floodway and stream course areas within the open space and all appurtenant facilities related thereto within the District. The Report describes the specific location of the improvement areas within the district.

**Section 5** The County Auditor of the County of Placer shall enter on the County Assessment Roll, opposite each eligible parcel of land, the amount of levy so apportioned by the formula and method outlined in the Report, and such levies shall be collected at the same time and in the same manner as the County taxes are collected, pursuant to *Chapter 4, Article 2, Section 22646* of the Act. After collection by the County, the net amount of the levy shall be paid to the City Treasurer.

**Section 6** The City Treasurer shall deposit all money representing assessments collected by the County for the District to the credit of a fund for the Johnson Ranch Landscaping and Lighting District and such money shall be expended only for the maintenance, operation and servicing of the improvements, together with any other expenses as described in Section 4.

**Section 7** The adoption of this Resolution constitutes the District levy for the Fiscal Year commencing July 1, 2018, and ending June 30, 2019.

**Section 8** The City Clerk's designee, Willdan Financial Services, is hereby authorized and directed to file the levy with the County Auditor subsequent to the adoption of this Resolution, pursuant to Chapter 4, Article 1, Section 22641 of the Act. The City Clerk is directed to deliver a certified copy of this adopted Resolution to Willdan Financial Services within two weeks of adoption via either e-mail to mashley@wilddan.com or US Mail to: Willdan Financial Services, 27368 Via Industria, Suite 200, Temecula, CA 92590 Attn: Mickey Ashley.

**RESOLUTION NO. 18-208**

**PASSED, APPROVED, AND ADOPTED THIS** \_\_\_\_\_ day of \_\_\_\_\_, 2018.

## I. OVERVIEW

---

### A. INTRODUCTION

The City of Roseville (“City”) annually levies and collects special assessments in order to maintain the improvements in the southeast section of the City of Roseville, known as Johnson Ranch Landscaping and Lighting District (“District”). The District was formed and is levied annual assessments pursuant to the Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the California Streets and Highways Code (the “Act”).

The Engineer’s Report (“Report”) describes the District, any new annexations, changes to the District, and the proposed assessments for the period of July 1, 2018 through June 30, 2019. The special benefit assessments are based on historical and estimated costs to maintain the District improvements. These assessments, which provide a direct and special benefit to properties within the District, will provide funding for the operation and maintenance of District improvements.

The District consists of five (5) zones of benefit, Zones A, B, C, D and E (individually the “Zone” and collectively the “Zones”). The improvements that benefit properties within each Zone and the costs to maintain and service those improvements are identified and budgeted separately by Zone. The total cost of landscape maintenance within a Zone is equitably spread among only the benefiting parcels.

The word “parcel,” for the purposes of this Report, refers to an individual property assigned its own Assessor’s Parcel Number (“APN”) by the Placer County Assessor’s Office. The Placer County Auditor/Controller uses Assessor’s Parcel Numbers and specific Tax Code Accounts, to identify on the County’s tax roll, properties assessed for special district benefit assessments.

Following approval of the Report, the City Council will by resolution, order the improvements to be made, if any, and confirm the levy and collection of assessments pursuant to the Act. The assessment rates and method of apportionment described in this Report as approved or modified by the City Council defines the assessments to be applied to each parcel within the District and respective Zones for Fiscal Year (“FY”) 2018/19. The assessments as approved will be submitted to the Placer County Auditor/Controller to be included on the FY 2018/19 property tax roll for each parcel.

If any parcel submitted for collection is identified by the County Auditor/Controller to be an invalid parcel number for the current fiscal year, a corrected parcel number and/or new parcel numbers will be identified and resubmitted to the County Auditor/Controller. The assessment amount to be levied and collected for the resubmitted parcel or parcels shall be based on the method of apportionment and assessment rates approved by the City Council.

## **B. COMPLIANCE WITH CURRENT LEGISLATION**

All assessments described in this Report and approved by the City Council are prepared in accordance with the Act and are in compliance with the substantive and procedural requirements of the California State Constitution Articles XIIC and XIID (“Articles XIIC and XIID”) and the provisions of the Proposition 218 Omnibus Implementation Act [Government Code Section 53750 and following] (the “Implementation Act”). Articles XIIC and XIID and the Implementation Act collectively are hereinafter referred to as “Proposition 218”.

Pursuant to the California Constitution Article XIID, Section 5, certain existing assessments are exempt from the substantive and procedural requirements of Article XIID Section 4 and property owner balloting for the assessments is not required until such time that the assessments are increased. Specifically, the City determined that all improvements and the annual assessments originally established for the District were part of the conditions of property development and approved by the original property owner (developer). As such, pursuant to Article XIID Section 5(b), all the property owners approved the existing District assessments at the time the assessments were created (originally imposed pursuant to a 100% landowner petition). Therefore, the pre-existing assessment amounts (the maximum assessment rates of Zones A, B, C & D identified in this Report) are exempt from the procedural requirements of Article XIID Section 4, provided the assessments are not increased above these previously approved maximum assessment rates.

In Fiscal Year 1999/00, the City initiated and conducted property owner protest ballot proceedings in accordance with Article XIID for Zone E in order to increase the assessment to cover additional costs for services. The proposed assessment increase presented to property owners included an annual inflationary factor of 3%. In Fiscal Year 1999/00 the maximum assessment rate was \$623.10 per acre. At the conclusion of the Public Hearing, all property owner ballots returned were tabulated and the City determine that a majority protest did not exist. The City Council then approved the increased assessment and the inflationary factor for maintaining the improvements within the District.

The District and all Zones therein have been formed pursuant to the Act. Pursuant to the Act, an annual Public Hearing is conducted by the City Council to accept property owner and public comments, to review the Engineer's Annual Levy Report prior to approving the annual assessments to be levied on the County tax rolls. The assessments described in this Report have been prepared in accordance with the Act.

### **C. DISTRICT BOUNDARIES**

The District lies within a portion of the Southeast Roseville Specific Plan, which is located in the southeast section of the City of Roseville. The District is generally located east of I-80 on the south side of Douglas Boulevard. See Appendix A for a rendering of the District boundary map.

### **D. IMPROVEMENTS AUTHORIZED BY THE 1972 ACT**

As applicable or may be applicable to this proposed District, the 1972 Act defines improvements to mean one or any combination of the following:

- The installation or planting of landscaping.
- The installation or construction of statuary, fountains, and other ornamental structures and facilities.
- The installation or construction of public lighting facilities.
- The installation or construction of any facilities which are appurtenant to any of the foregoing or which are necessary or convenient for the maintenance or servicing thereof, including, but not limited to, grading, clearing, removal of debris, the installation or construction of curbs, gutters, walls, sidewalks, or paving, or water, irrigation, drainage, or electrical facilities.
- The maintenance or servicing, or both, of any of the foregoing.
- The acquisition of any existing improvement otherwise authorized pursuant to this section.

Incidental expenses associated with the improvements including, but not limited to:

- The cost of preparation of the report, including plans, specifications, estimates, diagram, and assessment;
- The costs of printing, advertising, and the publishing, posting and mailing of notices;
- Compensation payable to the County for collection of assessments;
- Compensation of any engineer or attorney employed to render services;

- Any other expenses incidental to the construction, installation, or maintenance and servicing of the improvements;
- Any expenses incidental to the issuance of bonds or notes pursuant to Section 22662.5.
- Costs associated with any elections held for the approval of a new or increased assessment.

The 1972 Act defines "Maintain" or "maintenance" to mean furnishing of services and materials for the ordinary and usual maintenance, operation, and servicing of any improvement, including:

- Repair, removal, or replacement of all or any part of any improvement.
- Providing for the life, growth, health, and beauty of landscaping, including cultivation, irrigation, trimming, spraying, fertilizing, or treating for disease or injury.
- The removal of trimmings, rubbish, debris, and other solid waste.
- The cleaning, sandblasting, and painting of walls and other improvements to remove or cover graffiti.

Furthermore, the 1972 Act specifies that where the cost of improvements (other than maintenance and operations) is greater than can be conveniently raised from a single annual assessment, an assessment to be levied and collected in annual installments. In that event, the governing body may choose to do any of the following:

- Provide for the accumulation of the moneys in an improvement fund until there are sufficient moneys to pay all or part of the cost of the improvements.
- Provide for a temporary advance to the improvement fund from any available and unencumbered funds of the local agency to pay all or part of the cost of the improvements and collect those advanced moneys from the annual installments collected through the assessments.
- Borrow an amount necessary to finance the estimated cost of the proposed improvements. The amount borrowed, including amounts for bonds issued to finance the estimated cost of the proposed improvements.

## **E. DESCRIPTION OF THE IMPROVEMENTS AND BENEFITS**

### **Zones A, B and C**

Zones A, B and C of the District, by special benefit assessments, provide annual funding for the continual maintenance of certain landscaping, open space areas; including floodway and stream course areas as well as any the maintenance of bike trails. The specific locations of the floodways, stream courses and areas adjacent thereto to be maintained are described below:

- Parcel 70 - Floodway that feeds Cirby Creek and is located between Douglas Boulevard and Eureka Road. (7.76 acres) - Zone C
- Parcel 71 - Strap Ravine floodway between Douglas Boulevard and East Roseville Parkway. (3.38 acres) - Zone A
- Parcel 72 - Floodway between Roseville Parkway east to commercial development. (8.98 acres) - Zone C
- Parcel 73 - Recreational floodway in Strap Ravine between East Roseville Parkway and Sierra College Boulevard. (16.11 acres) - Zone A
- Parcels 74 & 75 - Recreational floodway that eventually feeds Linda Creek, beginning at Sierra College Boulevard then east to the Roseville City limits. (6.2 acres and 10.8 acres, respectively) - Zone B

## **Zone D**

Zone D of the District, by special benefit assessments, provides annual funding for the costs of mitigation monitoring and costs to maintain landscaped open space areas within certain wetland / riparian area(s) to comply with a Section 404 Permit. The issuance of this Section 404 permit was a condition of the development of the Johnson Ranch East Project, which represents the parcels comprising Zone D.

## **Zone E**

Zone E of the District, by special benefit assessments, provides annual funding for the maintenance of certain landscaping, bike trails and open space areas that include floodway and stream course areas and the costs of mitigation monitoring to comply with both a Section 404 Permit (Federal) and a 1603 Permit (State). The issuance of these permits was a condition of the development of Parcel 9. The specific locations of the floodway and stream courses to be maintained are described as:

- Parcel 76 - Streambed and floodway area located at Cirby Creek from the southwest side of Eureka Boulevard to the end of the Coker Development. (2.79 acres)

## II. METHOD OF APPORTIONMENT

---

### A. GENERAL

The Act permits the establishment of assessment districts by agencies for the purpose of providing certain public improvements which include the construction, maintenance and servicing of public lights, landscaping and appurtenant facilities. The Act further requires that the cost of these improvements be levied according to benefit rather than assessed value:

*“The net amount to be assessed upon lands within an assessment district may be apportioned by any formula or method which fairly distributes the net amount among all assessable lots or parcels in proportion to the estimated benefits to be received by each such lot or parcel from the improvements.”*

The formula used for calculating assessments in each Zone of the District therefore reflects the composition of the parcels, and the improvements and services provided, to fairly apportion the costs based on estimated benefit to each parcel.

### B. PROPOSITION 218 BENEFIT ANALYSIS

In conjunction with the provisions of the 1972 Act, the California Constitution Article XIID addresses several key criteria for the levy of assessments regarding Zone E, notably:

Article XIID Section 2d defines District as follows:

“District means an area determined by an agency to contain all parcels which will receive a special benefit from a proposed public improvement or property-related service”;

Article XIID Section 2i defines Special Benefit as follows:

“Special benefit” means a particular and distinct benefit over and above general benefits conferred on real property located in the district or to the public at large. General enhancement of property value does not constitute “special benefit.”

Article XIID Section 4a defines proportional special benefit assessments as follows:

“An agency which proposes to levy an assessment shall identify all parcels which will have a special benefit conferred upon them and upon which an assessment will be imposed. The proportionate special benefit derived by each identified parcel

shall be determined in relationship to the entirety of the capital cost of a public improvement, the maintenance and operation expenses of a public improvement, or the cost of the property related service being provided. No assessment shall be imposed on any parcel which exceeds the reasonable cost of the proportional special benefit conferred on that parcel.”

The method of apportionment (method of assessment) set forth in the Report is based on the premise that each assessed property receives special benefits from the improvements within the District, and the assessment obligation for each parcel reflects that parcel’s proportional special benefits as compared to other properties that receive special benefits.

### **C. DESCRIPTION OF METHOD OF APPORTIONMENT**

Pursuant to the Act, the costs of the District must be spread to each parcel based upon a benefit formula. Each assessable parcel in the District receives a direct and special benefit from the improvements in the District. The formula used to arrive at each parcel’s annual levy amount in each zone is as follows:

#### **Zones A and B**

Thirty percent (30%) of the total budgeted costs of Zones A & B are to be levied to floodway Parcel 82 (APN 458-020-001). The remaining Seventy percent (70%) of costs are then allocated equally on a per acre basis to all assessable parcels within these Zones. Acreage of common area parcels shall be apportioned to the remaining assessable parcels of a subdivision and/or parcel split(s) related to the creation of the common area parcel(s).

#### **Zones C, D and E**

The budgeted costs of Zones C, D and E are to be allocated equally on a per acre basis to all assessable parcels within each respective Zone. Acreage of common area parcels shall be apportioned to the remaining assessable parcels of a subdivision and/or parcel split(s) related to the creation of the common area parcel(s).

### **D. INFLATIONARY ADJUSTMENT FACTOR**

For Zone E only, if the proposed assessment rate increases over the prior fiscal year’s maximum assessment rate by a percentage no greater than the 3%, then the proposed assessment rate is not considered an increase.

### III. DISTRICT BUDGET

#### A. 2018/19 BUDGET

| DESCRIPTION                                     | ZONE A <sup>(1)</sup> | ZONE B <sup>(1)</sup> | ZONE C            | ZONE D          | ZONE E            |

## **D. DESCRIPTION OF BUDGET ITEMS**

Description of the terms used in the preceding Budget, Assessment Rates and Fund Balance tables are listed below:

### **BUDGET:**

#### **DIRECT COSTS**

**Contract Maintenance - Open Space** – Includes all regularly scheduled contract labor, materials, supplies and equipment required to properly maintain and ensure the satisfactory condition of all open space landscaping, irrigation, drainage systems, lighting, floodplain improvements and appurtenant facilities (the “improvements”).

**Mitigation Monitoring** – Costs associated with monitoring certain impacts to riparian areas in or near the District under the terms of a Section 404 or 1603 permit. If zero, this line item will not be shown in the budget.

**Utilities** - The furnishing of water and electricity required for the operation and maintenance of the improvements. If zero, this line item will not be shown in the budget.

**Maintenance - Bike Trails** - Costs associated with the resurfacing of the Bike trail. If zero, this line item will not be shown in the budget.

**Water Hyacinth Eradication** – Costs associated with the eradication of the Water Hyacinth plant in the creek beds. If zero, this line item will not be shown in the budget.

**Rehab Reserve Project Expenditures** – Expected costs for installation, replacement or planned upgrades of District improvements for the current year that were previously funded or accumulated in the Rehabilitation Reserve. The Rehabilitation Reserve is used to accumulate funds for costs associated with the future rehabilitation or replacement of District improvements that cannot be conveniently raised from a single year’s assessment. If zero, this line item may not be shown in the budget.

## **ADMINISTRATION COSTS**

**City Administration** – Estimated costs incurred by the City Finance Department and other Departments in preparing the annual budget for the Engineer's Report, together with other financial information required to determine the annual assessment. These costs would also include the preparation, posting and publishing of public notices required for City Council action relating to the District, as well as costs to perform legal review of documents.

**Contract Administration – Park's Dept** – Estimated costs of Park and Recreation Department staff to coordinate and oversee the maintenance contracts and overall repair and maintenance of the District. This amount also includes the cost of the Department's estimates and analysis of certain budget items, estimated costs and useful lives of certain District Improvements.

**Contract Administration – Open Space** – Estimated costs of City staff to coordinate and oversee the maintenance contracts and non-contract maintenance of the open space areas of the District. This amount also includes the cost of the Department's estimates and analysis of certain budget items.

**County Auditor Fees** - A fee of 1% of the total levy amount that is charged to the District by the County for placing assessments on property tax bills.

**Consulting and Professional Services** – Includes the costs and expenses of contracting with various professionals to provide legal, engineering and district administration services directly related to the District, including the calculation of the annual assessment amounts and the preparation of the Engineer's Report.

**Public Hearing Publishing Costs** – Includes the out of pocket costs to publish public notices required for City Council action relating to the District.

**Total Direct and Administration Costs** – The total expected costs of the District.

## **BUDGET ADJUSTMENTS**

**Replenishment/(Use) of Operating Reserve** – A "Replenishment" increases the levy in order to replenish the Operating Reserve. On the other hand, a "Use" of the Operating Reserve decreases the levy by drawing funds from the Operating Reserve for current year expenditures. If zero, this line item may not be shown in the budget. Further information regarding the function of the Operating Reserve is provided under "FUND BALANCE INFORMATION" in the following pages of this Section.

**Contribution for / (Use of) Rehab Reserve** — A “Contribution” increases the levy in order to generate funding for the Rehabilitation Reserve. This reserve allows for the accumulation of funds for the possible rehabilitation projects or replacements in future years. On the other hand, a “Use of” of the Rehabilitation Reserve provides current year funding of rehabilitation projects or replacements from available funds within the Rehabilitation Reserve. If zero, this line item may not be shown in the budget. Further information regarding the function of the Rehabilitation Reserve is provided under “FUND BALANCE INFORMATION” in the following pages of this Section.

**Rounding Adjustment** – The necessary rounding adjustment(s) due to limitations of the County property tax system that requires even penny levy amounts to be placed on the secured tax roll.

**BALANCE TO LEVY** - This is the total amount to be levied and collected through assessments for the current fiscal year for each zone. The Balance to Levy represents the sum of the total District costs together with applicable adjustments related to the Reserve Fund replenishments or reductions and/or Capital Improvement Fund activity.

**Parcel 82 Levy Recap** – A recap of the cost breakdown between certain parcels. Thirty percent (30%) of the total budgeted costs of Zones A & B are to be levied to floodway Parcel 82 (APN 458-020-001). 70% of costs are to be assessed to the remaining parcels.

## **ASSESSMENT RATES:**

### **APPLIED ASSESSMENT RATES**

**Number of Assessable Parcels** - The total number of parcels within each Unit that are expected to be assessed. Non-assessable lots or parcels include government-owned land, public utility-owned property, land principally encumbered by public rights-of-way or easements, common areas, and/or parcels within the boundaries of the District that currently do not benefit from the improvements due possibly to development restrictions.

**Total Assessable Acres – Non-Parcel 82 Properties** - The total number of acres within the Zones A and B that are to be assessed on an acreage basis for the current fiscal year; this acreage excludes Parcel 82.

**Applied Assessment Rates** - The assessment rates to be applied to the non-exempt parcels within the District for the current fiscal year.

**Maximum Assessment Rates** - The maximum assessment rates for current fiscal year.

**Maximum Potential Assessment** – The total amount that is expected to be assessed against all parcels within the District for the Current Fiscal Year.

## **FUND BALANCE INFORMATION:**

### **OPERATING RESERVE**

**Beginning Operating Reserve Balance 7-1-2018 (est.)** - The anticipated beginning balance of cash and receivables net of any unpaid prior year obligations for each Zone. These beginning balances shall be used to fund each Zone's expenditures from July 1, 2018 to December 31, 2018, as the Operating Reserve is required to compensate for the approximate six-month delay between the start of the District's fiscal year and the receipt of the collections from the County. All Rehabilitation Reserve balances, if any, are excluded from the Operating Reserve balances and shall be shown separately in the Report.

**Replenish from FY 18/19 Levy** – This amount is added to the levy in order to replenish the Operating Reserve. Due to the six-month delay from the District's receipt of assessment collections, the Operating Reserve balance shall be sufficiently funded to provide for expenditures from the period of July 1, 2018 (the beginning of the Fiscal Year) through December 31, 2018. If zero, this line item may not be shown in the budget.

**Use for FY 18/19 Expenses** – The amount of the Operating Reserve to be used to fund FY 18/19 expenses. Portions of the Operating Reserve may be slated for current year expenditures in order to reduce the Ending Operating Reserve Balance to an amount no greater than the expected District costs for the period of July 1, 2018 (the beginning of the Fiscal Year) through December 31, 2018. If zero, this line item may not be shown in the budget.

**Transfer from/(to) the Rehab Reserve** — The amount of Operating Reserve monies to be transferred to or from the Rehabilitation Reserve. Periodically, funds held in a Rehabilitation Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Rehabilitation Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Parks and Recreation Department or equivalent, in order to provide for the maintenance and operation of the improvements. If zero, this line item may not be shown in the budget.

**Ending Operating Reserve Balance 6-30-2019 (est.)** - This amount represents the anticipated Operating Reserve balance/(deficit) for each Zone as of June 30, 2019. The size of each Zone's Operating Reserve is limited by Streets and Highways Code 22569 which states that an Operating Reserve shall not exceed the estimated costs of maintenance, service and incidental expenses from the first day of the fiscal year (July 1) to the date that the Agency expects to receive the first apportionment of collections from the County, which is estimated to be December 31. Therefore, each Zone may retain an Operating Reserve amounting to the District's first six-months of expenses in order to meet ongoing obligations until the first collections are received from the County. All Rehabilitation Reserve balances, if any, are excluded from the Operating Reserve balances and shall be shown separately in the Report.

### **REHABILITATION RESERVE**

**Beginning Rehab Reserve Balance 7-1-2018 (est.)** — The projected balance of funds in the Rehabilitation Reserve as of July 1, 2018. Streets and Highways Code 22660 allows the District to generate and accumulate funds over several years to fund District improvements that cannot be conveniently raised from a single year's assessment.

**Collect from FY 18/19 Levy** — This amount is added to the levy to accumulate funding of future year rehabilitation projects, replacements, restorations or upgrades of District improvements. If zero, this line item may not be shown in the budget.

**Use for FY 18/19 Rehab Projects** – The amount of Rehabilitation Reserve monies expected to be transferred out of the Rehabilitation Reserve to fund the costs of installation, replacement or planned upgrades of District improvements for the current year. If zero, this line item may not be shown in the budget.

**Transfer from/(to) the Operating Reserve** — The amount of Rehabilitation Reserve monies to be transferred to or from the Operating Reserve. Periodically, funds held in a Rehabilitation Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Rehabilitation Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Parks and Recreation Department, in order to provide for the maintenance and operation of the improvements. If zero, this line item may not be shown in the budget.

**Ending Rehab Reserve Balance 6-30-2019 (est.)** - The projected balance of funds in the Rehabilitation Reserve as of June 30, 2019. These funds shall be used to provide for future year rehabilitation projects, replacements, restorations or upgrades of District improvements which cannot be conveniently raised from a single year's assessment.

#### **E. REHABILITATION RESERVE – CAPITAL IMPROVEMENT PLAN**

*Streets and Highways Code 22660* allows the District to generate and accumulate funds over several years to fund District improvements that cannot be conveniently raised from a single year's assessment. For each Zone showing a projected ending Rehabilitation Reserve balance, a five-year Capital Improvement Plan showing the projected costs of the rehabilitation, restoration and /or replacement of District improvements and other allowable costs, excluding FY 2018/19, is shown below.

**Zone B.** General Open Space, creek rehabilitation: \$300 in FY 2019/20.

**Zone D.** General Open Space, creek rehabilitation: \$100 in FY 2019/20.

Periodically, funds held in a Rehabilitation Reserve may be needed to respond to changing maintenance needs of the District or other factors. Accordingly, any or all funds held in a Rehabilitation Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Parks and Recreation Department or equivalent, in order to provide for the maintenance and operation of the improvements.

## APPENDIX A – DISTRICT BOUNDARY MAP

The Assessment Diagrams for the District have previously been submitted to the Clerk of the City in the format required under the Act and are, by reference, made part of this Report. The boundary maps are available for inspection at the office of the City Clerk during normal business hours.

For general reference purposes, a one-page rendering of the District's Boundaries is presented herein.

## APPENDIX B — 2018/19 ASSESSMENT ROLL

Parcel identification, for each lot or parcel within the District, shall be the parcel as shown on the Placer County Assessor's map for the year in which this Report is prepared.

A listing of parcels to be assessed within this District, along with the proposed assessment amounts, may be submitted to the City Clerk, under a separate cover, and by reference is made part of this Report.

Non-assessable lots or parcels may include areas of public streets and other roadways (typically not assigned an APN by the County); dedicated public easements, open space areas and rights-of-ways, including public greenbelts and parkways; utility rights-of-ways; small parcels vacated by the County, bifurcated lots, and other property that cannot be developed, excepting common area parcels. These types of parcels are considered to receive little or no benefit from the improvements and are therefore exempted from assessment.

At the conclusion of the public hearing for the District and the proposed assessments, approval of the Report (as submitted or as modified) confirms the method of apportionment and the assessment rate to be levied against each eligible parcel and thereby constitutes the approved levy and collection of assessments for FY 2018/19. The listing of parcels and the amount of assessment to be levied shall be submitted to the County Auditor/Controller and included on the FY 2018/19 property tax roll for each parcel.

If any parcel submitted for collection is identified by the County Auditor/Controller to be an invalid parcel number for the current fiscal year, a corrected parcel number and/or new parcel numbers will be identified and resubmitted to the County Auditor/Controller. The assessment amount to be levied and collected for the resubmitted parcel or parcels shall be based on the method of apportionment and assessment rate approved in this Report. Therefore, if a single parcel has changed to multiple parcels, the assessment amount applied to each of the new parcels shall be recalculated and applied according to the approved method of apportionment and assessment rate rather than a proportionate share of the original assessment.

## RESOLUTION NO. 18-209

### **A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, AMENDING AND/OR APPROVING THE ENGINEER'S ANNUAL LEVY REPORT FOR THE NORTH CENTRAL ROSEVILLE SPECIFIC PLAN LANDSCAPING AND LIGHTING DISTRICT, FISCAL YEAR 2018/2019**

The City Council of the City of Roseville, California (hereafter referred to as the "City Council") does resolve as follows:

**WHEREAS**, the City Council has, by previous Resolutions, ordered the preparation of the Engineer's Annual Levy Report (hereafter referred to as the "Report") for said district known and designated as: North Central Roseville Specific Plan Landscaping and Lighting District (hereafter referred to as the "District") pursuant to the provisions of the *Landscaping and Lighting Act of 1972, being Part 2 of Division 15 of the Streets and Highways Code of California, beginning with Section 22500* (hereafter referred to as the "Act"); and,

**WHEREAS**, there has now been presented to this City Council the Report as required by *Chapter 3, Section 22623* of said Act, and as previously directed by Resolution; and,

**WHEREAS**, this City Council has carefully examined and reviewed the Report as presented (or amended), and is satisfied with each and all of the items and documents as set forth therein, and is satisfied that the levy has been spread in accordance with the benefits received from the improvements, operation, maintenance and services to be performed, as set forth in said Report; and,

**NOW, THEREFORE, BE IT RESOLVED, DETERMINED, AND ORDERED BY THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, FOR NORTH CENTRAL ROSEVILLE SPECIFIC PLAN LANDSCAPING AND LIGHTING DISTRICT, AS FOLLOWS:**

**Section 1** That the above recitals are all true and correct.

**Section 2** That the Report as presented, is hereby approved (as amended), and is ordered to be filed in the Office of the City Clerk as a permanent record and to remain open to public inspection.

**Section 3** That the City Clerk shall certify to the passage and adoption of this Resolution and the minutes of this meeting shall so reflect the presentation of and final approval of the Report.

**RESOLUTION NO. 18-209**

**PASSED, APPROVED, AND ADOPTED THIS \_\_\_\_\_ DAY OF \_\_\_\_\_, 2018.**

## RESOLUTION NO. 18-210

### **A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, ORDERING THE LEVY AND COLLECTION OF ASSESSMENTS WITHIN THE NORTH CENTRAL ROSEVILLE SPECIFIC PLAN LANDSCAPING AND LIGHTING DISTRICT, FISCAL YEAR 2018/2019**

The City Council of the City of Roseville, California (hereafter referred to as the “City Council”) does resolve as follows:

**WHEREAS**, the City Council of City of Roseville, California, has, by previous Resolutions, initiated proceedings, and declared its intention to levy assessments, and approved the Engineer’s Annual Levy Report (hereinafter referred to as the “Report”) that describes the assessments against parcels of land within the North Central Roseville Specific Plan Landscaping and Lighting District (hereinafter referred to as the “District”) for the Fiscal Year commencing July 1, 2018, and ending June 30, 2019, pursuant to the provisions of the *Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the California Streets and Highways Code, commencing with Section 22500* (hereinafter referred to as the “Act”) to pay for the maintenance and services of all improvements and facilities related thereto; and,

**WHEREAS**, the Engineer selected by the City Council has prepared and filed with the City Clerk, and the City Clerk has presented to the City Council, a Report in connection with the levy and collection of assessments upon eligible parcels of land within the District, and the City Council did by previous Resolution approve such Report; and,

**WHEREAS**, the City Council desires to levy and collect assessments against parcels of land within the District for the Fiscal Year commencing July 1, 2018, and ending June 30, 2019, to pay for the maintenance and services of all improvements and facilities related thereto; and,

**WHEREAS**, the City Council and its legal counsel have reviewed Proposition 218 and found that these assessments comply with applicable provisions of Articles XIIC and XIID of the California State Constitution.

**NOW, THEREFORE, BE IT RESOLVED, DETERMINED, AND ORDERED BY THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, FOR NORTH CENTRAL ROSEVILLE SPECIFIC PLAN LANDSCAPING AND LIGHTING DISTRICT, AS FOLLOWS:**

**Section 1** Following notice duly given, the City Council has held a full and fair Public Hearing regarding the District, the levy and collection of assessments, the Report prepared in connection therewith, and considered all oral and written statements, protests and communications made or filed by interested persons regarding these matters.

**Section 2** Based upon its review (and amendments, as applicable) of the Report, a copy of which has been presented to the City Council and which has been filed with the City Clerk, the City Council hereby finds and determines that:

- i) the land within the District will be benefited by the operation, maintenance and servicing of the improvements located within the boundaries of the District; and,

- ii) the District includes all of the lands receiving such special benefit; and,
- iii) the net amount to be assessed upon the lands within the District in accordance with the assessment for the Fiscal Year commencing July 1, 2018 and ending June 30, 2019 is apportioned by a formula and method which fairly distributes the net amount among all eligible parcels in proportion to the estimated special benefits to be received by each parcel from the improvements and services.

**Section 3** The Report and assessments as presented to the City Council and on file in the Office of the City Clerk are hereby confirmed as filed.

**Section 4** The maintenance, operation and servicing of the improvements and appurtenant facilities shall be performed pursuant to the Act. The City Council hereby orders the improvements to be made, which improvements are briefly described as follows: the maintenance and operation of and the furnishing of services, materials or improvements for certain landscaped areas including open space areas, parkways, slopes and medians and other public improvements within the street right of way areas, including, but not limited to trees, shrubs, turf and other ornamental vegetation, drainage and irrigation systems, and other appurtenant facilities. The Engineer's Annual Levy Report, as ordered by previous Resolution, provides a full and complete description of all improvements and any or all substantial changes to the improvements within the District.

**Section 5** The County Auditor of the County of Placer shall enter on the County Assessment Roll opposite each eligible parcel of land the amount of levy so apportioned by the formula and method outlined in the Report, and such levies shall be collected at the same time and in the same manner as the County taxes are collected, pursuant to *Chapter 4, Article 2, Section 22646* of the Act. After collection by the County, the net amount of the levy shall be paid to the City Treasurer.

**Section 6** The City Treasurer shall deposit all money representing assessments collected by the County for the District to the credit of a fund for the North Central Roseville Specific Plan Landscaping and Lighting District and such money shall be expended only for the maintenance, operation and servicing of the landscaping, lighting and appurtenant facilities, together with other expenses as described in Section 4.

**Section 7** The adoption of this Resolution constitutes the District levy for the Fiscal Year commencing July 1, 2018 and ending June 30, 2019.

**Section 8** The City Clerk's designee, Willdan Financial Services, is hereby authorized and directed to file the levy with the County Auditor subsequent to the adoption of this Resolution, pursuant to Chapter 4, Article 1, Section 22641 of the Act. The City Clerk is directed to deliver a certified copy of this adopted Resolution to Willdan Financial Services within two weeks of adoption via either e-mail to [mashley@willdan.com](mailto:mashley@willdan.com) or US Mail to: Willdan Financial Services, 27368 Via Industria, Suite 200, Temecula, CA 92590 Attn: Mickey Ashley.

## I. OVERVIEW

---

### A. INTRODUCTION

The City of Roseville (“City”) annually levies and collects special assessments in order to maintain the improvements within the existing North Central Roseville Specific Plan Landscaping and Lighting District (“District”) within the City. The District was formed in 1990. The District was formed and is levied annual assessments pursuant to the Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the California Streets and Highways Code (the “Act”).

This Engineer’s Annual Levy Report for Fiscal Year 2018/19 (“Report”) describes the District, any annexations, changes to the District, and the proposed assessments for the period of July 1, 2018 through June 30, 2019. The maintenance, operation and servicing of the improvements associated with specific areas of the City that provide a special benefit to the properties in that area are identified as Zones. The costs of the improvements and services are identified and budgeted separately for each Zone and each parcel within a Zone is assessed proportionately for only those improvements and services that are a direct and special benefit to the properties within the Zone. The budgets and assessments are based on the estimated cost (considering historical costs) to maintain the District improvements that provide a direct and special benefit to properties within the District.

The District consists of four landscaping benefit Zones:

- District Wide Benefit Zone
- Local Benefit Zone
- Zone F
- Zone G

In 2003, the City initiated and conducted property owner protest ballot proceedings, in accordance with the Act and Proposition 218, for the territory now known as Zones F & G. After the results of the ballots were tabulated, the City determined that a majority protest did not exist. The City then approved the annexation of Zones F and G, the maximum assessment rates and annual inflationary adjustment factor.

In 2004, the City initiated and conducted property owner protest ballot proceedings, in accordance with the Act and Proposition 218, to reengineer Zones A, B, C, D & E and approve the maximum assessment rates and annual inflationary adjustment factor. After the results of the ballots were tabulated, the City determined that a majority protest did not exist. The City then approved the Engineer’s Annual Levy Report for FY 2004/05, which reconstituted the

reengineered zones into the respective District Wide Benefit Zone or Local Benefit Zone.

Zones A, B, C, D and E were reengineered in order to more accurately identify the Zones and areas of special benefit within this portion of the District. These zones were combined into two new Zones based primarily on level of service, similarity of improvement types, and the proximity to improvements.

The word “parcel,” for the purposes of this Report, refers to an individual property assigned its own Assessor’s Parcel Number (“APN”) by the Placer County Assessor’s Office. The Placer County Auditor/Controller uses Assessor’s Parcel Numbers and specific Tax Code Accounts, to identify on the County’s tax roll, properties assessed for special district benefit assessments.

Following approval of the Report, the City Council will by resolution, order the improvements to be made, if any, and confirm the levy and collection of assessments pursuant to the Act. The assessment rates and method of apportionment described in this Report as approved or modified by the City Council defines the assessments to be applied to each parcel within the District and respective Zones for Fiscal Year (“FY”) 2018/19. The assessments as approved will be submitted to the Placer County Auditor/Controller to be included on the FY 2018/19 property tax roll for each parcel.

If any parcel submitted for collection is identified by the County Auditor/Controller to be an invalid parcel number for the current fiscal year, a corrected parcel number and/or new parcel numbers will be identified and resubmitted to the County Auditor/Controller. The assessment amount to be levied and collected for the resubmitted parcel or parcels shall be based on the method of apportionment and assessment rates approved by the City Council.

## **B. COMPLIANCE WITH CURRENT LEGISLATION**

All assessments described in this Report and approved by the City Council are prepared in accordance with the Act and are in compliance with the substantive and procedural requirements of the California State Constitution Articles XIII C and XIII D (“Articles XIII C and XIII D”) and the provisions of the Proposition 218 Omnibus Implementation Act [Government Code Section 53750 and following] (the “Implementation Act”). Articles XIII C and XIII D and the Implementation Act collectively are hereinafter referred to as “Proposition 218”.

In compliance with the provisions of Proposition 218, property owner ballot proceedings have been conducted for all Zones within the District; such proceedings approved and confirmed the Maximum Assessments and the Inflationary Adjustment Factor as described in this Report.

The District and all Zones therein have been formed pursuant to the Act. Pursuant to the Act, an annual Public Hearing is conducted by the City Council to accept property owner and public comments, to review the Engineer's Annual Levy Report prior to approving the annual assessments to be levied on the County tax rolls.

### **C. DESCRIPTION OF DISTRICT BOUNDARIES**

The District is located north of downtown Roseville between Interstate 80 and Washington Boulevard and generally encompasses the area within the North Central Roseville Specific Plan ("NCRSP") and two small residential developments in close proximity to the NCRSP near the corner of Diamond Oaks Road and Washington Boulevard. See Appendix A for District boundary map.

**District Wide Zone** This Zone includes all assessable property within the District with the exception of Zone F and Zone G.

**Local Benefit Zone** This Zone includes all single family residential property within the District with the exception of Zone F and Zone G.

**Zone F** This Zone, which comprises the Diamond Oaks Unit No. 10 development, was created on January 8, 2003 through Resolution 03-2 and was first levied in FY 2003/04. Zone F was comprised of Assessor Parcel Number ("APN") 015-020-040 prior to being subdivided into 39 residential lots.

**Zone G** This Zone, which comprises the Diamond Oaks Unit No. 14 development, was created on May 28, 2003 through Resolution 03-220 and was first levied in FY 2003/04. Zone G was comprised of APNs 017-041-034 & 015-020-006 prior to being subdivided into 76 residential lots and 1 non-residential parcel.

### **D. IMPROVEMENTS AUTHORIZED BY THE 1972 ACT**

As applicable or may be applicable to this proposed District, the 1972 Act defines improvements to mean one or any combination of the following:

- The installation or planting of landscaping.
- The installation or construction of statuary, fountains, and other ornamental structures and facilities.
- The installation or construction of public lighting facilities.

- The installation or construction of any facilities which are appurtenant to any of the foregoing or which are necessary or convenient for the maintenance or servicing thereof, including, but not limited to, grading, clearing, removal of debris, the installation or construction of curbs, gutters, walls, sidewalks, or paving, or water, irrigation, drainage, or electrical facilities.
- The maintenance or servicing, or both, of any of the foregoing.
- The acquisition of any existing improvement otherwise authorized pursuant to this section.

Incidental expenses associated with the improvements including, but not limited to:

- The cost of preparation of the report, including plans, specifications, estimates, diagram, and assessment;
- The costs of printing, advertising, and the publishing, posting and mailing of notices;
- Compensation payable to the County for collection of assessments;
- Compensation of any engineer or attorney employed to render services;
- Any other expenses incidental to the construction, installation, or maintenance and servicing of the improvements;
- Any expenses incidental to the issuance of bonds or notes pursuant to Section 22662.5.
- Costs associated with any elections held for the approval of a new or increased assessment.

The 1972 Act defines "Maintain" or "maintenance" to mean furnishing of services and materials for the ordinary and usual maintenance, operation, and servicing of any improvement, including:

- Repair, removal, or replacement of all or any part of any improvement.
- Providing for the life, growth, health, and beauty of landscaping, including cultivation, irrigation, trimming, spraying, fertilizing, or treating for disease or injury.
- The removal of trimmings, rubbish, debris, and other solid waste.
- The cleaning, sandblasting, and painting of walls and other improvements to remove or cover graffiti.

Furthermore, the 1972 Act specifies that where the cost of improvements (other than maintenance and operations) is greater than can be conveniently raised from a single annual assessment, an assessment to be levied and collected in annual installments. In that event, the governing body may choose to do any of the following:

- Provide for the accumulation of the moneys in an improvement fund until there are sufficient moneys to pay all or part of the cost of the improvements.
- Provide for a temporary advance to the improvement fund from any available and unencumbered funds of the local agency to pay all or part of the cost of the improvements and collect those advanced moneys from the annual installments collected through the assessments.
- Borrow an amount necessary to finance the estimated cost of the proposed improvements. The amount borrowed, including amounts for bonds issued to finance the estimated cost of the proposed improvements.

## **E. DESCRIPTION OF THE IMPROVEMENTS AND MAINTENANCE**

The District provides and ensures the continued maintenance, servicing, administration and operation of various landscaping and lighting improvements, and associated appurtenances that benefit parcels within the District. Services provided include all necessary service, operations, administration and maintenance required to keep the improvements in a healthy, vigorous, and satisfactory condition.

Specific improvements include all ground cover, turf, shrubs, trees, gardens, play areas and play equipment, picnic areas, bike paths, pedestrian trails, walls and fences, park maintenance facilities, irrigation and drainage systems, graffiti removal, and associated appurtenances. Improvements in each Zone include:

**District Wide Zone** This Zone provides for the maintenance of landscaping, fences, sound walls and other improvements within the arterial parkway right of ways, also described as scenic corridors, including but not limited to Roseville Parkway, Pleasant Grove Boulevard, Harding Boulevard and the east side of Washington Boulevard, pedestrian and bike pathways.

**Local Benefit Zone** This Zone provides for the maintenance of landscaping and other improvements within the local street right of ways. This Zone is primarily a combination of the old Zone C and Zone D, which provided similar maintenance.

**Zone F** Maintenance of parkway and perimeter landscaping and block wall adjacent to the development on the west side of Diamond Oaks Road; Parkway and perimeter landscaping, bike trails, block wall and wood fence adjacent to the development on the east side of Washington Boulevard; Open Space designated as Lot

“B”, and; Landscaping within Lot “C”, “E” and “F” within the Diamond Oaks Unit No. 10 project.

### **Zone G**

Maintenance of parkway and perimeter landscaping, bike path and masonry sound wall adjacent to the development on the south side of Pleasant Grove Boulevard; maintenance of parkway and perimeter landscaping, bike path and masonry sound wall adjacent to the development on the west side of Washington Boulevard from Pleasant Grove Boulevard to Emerald Oak Road; maintenance of the masonry sound wall on the western perimeter of the development; installation and maintenance of perimeter landscaping on the west side of the development located on Open Space Parcel C between Emerald Oak Road and the masonry sound wall adjacent to the railroad right of way; and maintenance of Open Space, cobble swale (Lot “B”) and post and cable fencing for Lots “A”, “B”, and “C” within the Diamond Oaks Unit No. 14 project.

All assessable parcels identified as being within each Zone, share in both the cost and the benefits of the improvements. The costs associated with the improvements are equitably spread among all benefiting parcels within each Zone. Only parcels that receive direct and special benefit from the improvements are assessed, and each parcel is assessed in proportion to the estimated benefit received. The funds collected are to be dispersed and used for only the services and operation provided each Zone of the District.

## II. METHOD OF APPORTIONMENT

---

### A. GENERAL

The Act permits the establishment of assessment districts by agencies for the purpose of providing certain public improvements which include the construction, maintenance and servicing of public lights, landscaping and appurtenant facilities. The Act further requires that the cost of these improvements be levied according to benefit rather than assessed value:

*“The net amount to be assessed upon lands within an assessment district may be apportioned by any formula or method which fairly distributes the net amount among all assessable lots or parcels in proportion to the estimated benefits to be received by each such lot or parcel from the improvements.”*

The formula used for calculating assessments in each Zone of the District therefore reflects the composition of the parcels, and the improvements and services provided, to fairly apportion the costs based on estimated benefit to each parcel.

### B. SPECIAL BENEFIT ANALYSIS

In conjunction with the provisions of the 1972 Act, the California Constitution Article XIID addresses several key criteria for the levy of assessments, notably:

Article XIID Section 2d defines District as follows:

“District means an area determined by an agency to contain all parcels which will receive a special benefit from a proposed public improvement or property-related service”;

Article XIID Section 2i defines Special Benefit as follows:

“Special benefit” means a particular and distinct benefit over and above general benefits conferred on real property located in the district or to the public at large. General enhancement of property value does not constitute “special benefit.”

Article XIID Section 4a defines proportional special benefit assessments as follows:

“An agency which proposes to levy an assessment shall identify all parcels which will have a special benefit conferred upon them and upon which an assessment will be imposed. The proportionate special benefit derived by each identified

parcel shall be determined in relationship to the entirety of the capital cost of a public improvement, the maintenance and operation expenses of a public improvement, or the cost of the property related service being provided. No assessment shall be imposed on any parcel which exceeds the reasonable cost of the proportional special benefit conferred on that parcel.”

This District was formed to establish and provide for the improvements that enhance the presentation of the surrounding properties and developments. These improvements will directly benefit the parcels to be assessed within the District. The assessments and method of apportionment is based on the premise that the assessments will be used to construct and install landscape and lighting improvements within the District as well as provide for the annual maintenance of those improvements, and the assessment revenues generated by District will be used solely for such purposes.

The City has initiated and conducted property owner protest ballot proceedings in accordance with the Act and Proposition 218 for all Zones within the District. Each of the proposed improvements; the associated costs and assessments have been carefully reviewed, identified and allocated based on special benefit pursuant to the provisions of Article XIID and the Act. All improvements associated with the Zones have been identified as necessary, required and/or desired for the orderly development of the properties to their full potential. As such, these improvements would be necessary and required of individual property owners for the development of such properties and the ongoing operation, servicing and maintenance of these improvements would be the financial obligation of those properties. Therefore, the improvements and the annual costs of ensuring the maintenance and operation of the improvements are of direct and special benefit to the properties.

The method of apportionment (method of assessment) is based on the premise that each assessed parcel within these Zones receives special benefit from the improvements. The desirability and security of properties is enhanced by well-maintained landscaping in close proximity to those properties.

The special benefits associated with all landscaping improvements are specifically:

- Enhanced desirability of properties through association with the improvements.
- Improved aesthetic appeal of properties providing a positive representation of the area and properties.
- Enhanced adaptation of the urban environment within the natural environment from adequate green space and landscaping.
- Environmental enhancement through improved erosion resistance, dust and debris control, and fire prevention.

- Increased sense of pride in ownership of property within the Zones resulting from well-maintained improvements associated with the properties.
- Enhanced quality of life through well-maintained green belts and landscaped areas.
- Reduced criminal activity and property-related crimes (especially vandalism) against properties in the Zones through well-maintained surroundings and amenities including abatement of graffiti.
- Enhanced environmental quality of the parcels by moderating temperatures, providing oxygenation and attenuating noise.

All of the preceding special benefits allow the property to be developed for the enjoyment of the property owners and contribute to a specific enhancement and desirability of each of the assessed parcels within the Zones.

The improvements are for the special benefit, enhancement and use of properties within the Zones. Although the improvements include public easements, rights-of-way, streets and other amenities available or visible to the public at large, the construction and installation of these improvements are only necessary for the development of properties within the Zones and are not required nor necessarily desired by any properties or developments outside the Zone's boundaries. Therefore, any public access or use of the improvements by others is incidental and there is no measurable general benefit to properties outside the Zones or to the public at large. In making this determination, it should be noted that all parkway and perimeter landscaping within the City is both funded and maintained by a special district, individual property owners or through some type of association.

### **C. DESCRIPTION OF THE METHOD OF APPORTIONMENT**

Pursuant to the Act, the costs of each Zone may be apportioned by any formula or method that fairly distributes the net amount to be assessed, among all assessable parcels within the Zone in proportion to the estimated special benefits to be received by each such parcel from the improvements. The special benefit formula used for each Zone should reflect the composition of the parcels, and the improvements and services provided, to fairly proportion the Zone's costs based on estimated special benefit to each parcel within the Zone. All assessable parcels within each Zone shall receive a direct special benefit from the services and improvements provided by the Zone.

Considering the composition of the parcels within the Zone, each parcel is assigned an Equivalent Dwelling Unit ("EDU"), which reflects each parcel's estimated special benefit from the improvements as compared to other parcels within the Zone. Because all assessable parcels within each Zone are

considered to benefit from the Zone improvements on an EDU basis, the amounts to levy to each Zone is then spread to each assessable parcel within the Zone on an EDU method as shown in the table below. Acreage of common area parcels shall be apportioned to the remaining assessable parcels of a subdivision and/or parcel split(s) related to the creation of the common area parcel(s).

The following formulas are used to calculate the assessment for each parcel:

| ASSIGNED EDU | PROPERTY CLASS                    |
|--------------|-----------------------------------|
| 1.0 per unit | Single-Family Residential Parcels |
| 0.6 per unit | Multi-Family Residential Parcels  |
| 7.0 per acre | Non-Residential Parcels           |

For each Zone, the Applied Assessment Rate per Equivalent Dwelling Unit for each parcel in the Zone is the result of dividing the total Balance to Levy for each Zone, by the sum of the Zone EDU's for the fiscal year. This Applied Assessment Rate is multiplied by each parcel's individual EDU to determine the parcel's levy amount. The assessment cannot be greater than the current maximum assessment rate, as adjusted for the inflation factor.

$$\text{Total Balance to Levy} / \text{Total EDU} = \text{Rate per EDU}$$

$$\text{Parcel EDU} \times \text{Rate per EDU} = \text{Parcel Levy Amount}$$

#### **D. INFLATIONARY ADJUSTMENT FACTOR**

Any new or increase in assessments require certain noticing and meeting requirements by law. Prior to the passage of Proposition 218, legislative changes in the Brown Act defined a new or increased assessment to exclude certain conditions. These conditions included any assessment that does not exceed an assessment formula or range of assessments previously adopted by the agency or approved by the voters in the area where the assessment is imposed. This definition and conditions were later confirmed through Senate Bill 919 (the implementing legislation for Proposition 218).

The purpose of establishing an assessment range formula is to provide for reasonable increases and inflationary adjustment to annual assessments without requiring costly noticing and mailing procedures, which could add to the District costs and assessments. As part of the District formation, balloting of property owners is required, pursuant to Proposition 218. The property owner ballots included an Assessment to be approved, as well as the approval of an assessment range formula.

The assessment range formula shall be applied to all future assessments within the District. Generally, if the proposed annual assessment (levy per unit or rate) for the current fiscal year is less than or equals to the “Maximum Assessment” (or “Adjusted Maximum Assessment”), then the proposed annual assessment is not considered an increased assessment. The Maximum Assessment is equal to the initial Assessment approved by property owners adjusted annually by the following criteria:

1. Beginning in the second fiscal year and each fiscal year thereafter, the Maximum Assessment will be calculated.
2. The new Adjusted Maximum Assessment for the year represents the prior year’s approved Maximum Assessment increased by three percent (3.0%).

The Maximum Assessment is adjusted annually and is calculated independent of the District’s annual budget and proposed annual assessment. Any proposed annual assessment less than or equal to this Maximum Assessment is not considered an increased assessment, even if the proposed assessment is greater than the assessment applied in the prior fiscal year.

The approved base year maximum assessment rates and annual inflationary adjustment factors for all Zones are shown in the table below:

| Zone                       | Year of Approved Maximum Rate and Annual Inflator (Base Year) | Maximum Assessment Rate per EDU (Base Year) | Annual Inflationary Adjustment Factor |
|----------------------------|---------------------------------------------------------------|---------------------------------------------|---------------------------------------|
| District-Wide Benefit Zone | FY 2004/05                                                    | \$40.82                                     | 3.00%                                 |
| Local Benefit Zone         | FY 2004/05                                                    | 43.92                                       | 3.00%                                 |
| Zone F                     | FY 2003/04                                                    | 481.35                                      | 3.00%                                 |
| Zone G                     | FY 2003/04                                                    | 264.22                                      | 3.00%                                 |

## D. DESCRIPTION OF BUDGET ITEMS

Description of the terms used in the preceding Budget, Assessment Rates and Fund Balance tables are listed below:

### BUDGET:

#### DIRECT COSTS

**Contract Maintenance - Landscaping** - Includes all regularly scheduled contract labor, materials, supplies and equipment required to properly maintain and ensure the satisfactory condition or maintenance of all landscaping improvements, irrigation and related drainage systems, as well as maintenance of appurtenant facilities (the "improvements").

**Repair & Maintenance - Landscaping/Parks** - This line item includes repairs that are generally unforeseen and not normally included in the annual maintenance contract costs. This may include repair of damaged amenities due to vandalism, storms, etc. If zero, this line item may not be shown in the budget.

**Utilities** - The furnishing of water and electricity required for the operation and maintenance of the improvements.

**Maintenance – Bike Trails** – Costs to perform the necessary maintenance of the bike trails within the District. If zero, this line item may not be shown in the budget.

**Maintenance – Open Space** – Costs to perform the necessary maintenance of the open space areas within the District. If zero, this line item may not be shown in the budget.

**Rehab Reserve Project Expenditures** – Expected costs for installation, replacement or planned upgrades of District improvements for the current year that were previously funded or accumulated in the Rehabilitation Reserve. The Rehabilitation Reserve is used to accumulate funds for costs associated with the future rehabilitation or replacement of District improvements that cannot be conveniently raised from a single year's assessment. If zero, this line item may not be shown in the budget.

## **ADMINISTRATION COSTS**

**City Administration** – Estimated costs incurred by the City Finance Department and other Departments in preparing the annual budget for the Engineer's Report, together with other financial information required to determine the annual assessment. These costs would also include the preparation, posting and publishing of public notices required for City Council action relating to the District, as well as costs to perform legal review of documents.

**Contract Administration – Park's Dept** – Estimated Costs of Park and Recreation Department staff to coordinate and oversee the maintenance contracts and overall repair and maintenance of the District. This amount also includes the cost of the Department's estimates and analysis of certain budget items, estimated costs and useful lives of certain District Improvements.

**County Auditor Fees** - A fee of 1% of the total levy amount that is charged to the District by the County for placing assessments on property tax bills.

**Consulting and Professional Services** – Includes the costs and expenses of contracting with various professionals to provide legal, engineering and district administration services directly related to the District, including the calculation of the annual assessment amounts and the preparation of the Engineer's' Report.

**Public Hearing Publishing Costs** –Includes the out of pocket costs to publish public notices required for City Council action relating to the District.

**Total Direct and Administration Costs** – The total expected costs of the District.

## **BUDGET ADJUSTMENTS**

**Replenishment/(Use) of Operating Reserve** – A "Replenishment" increases the levy in order to replenish the Operating Reserve. On the other hand, a "Use" of the Operating Reserve decreases the levy by drawing funds from the Operating Reserve for current year expenditures. If zero, this line item may not be shown in

the budget. Further information regarding the function of the Operating Reserve is provided under “FUND BALANCE INFORMATION” in the following pages of this Section.

**Contribution for / (Use of) Rehab Reserve** — A “Contribution” increases the levy in order to generate funding for the Rehabilitation Reserve. This reserve allows for the accumulation of funds for the possible rehabilitation projects or replacements in future years. On the other hand, a “Use of” of the Rehabilitation Reserve provides current year funding of rehabilitation projects or replacements from available funds within the Rehabilitation Reserve. If zero, this line item may not be shown in the budget. Further information regarding the function of the Rehabilitation Reserve is provided under “FUND BALANCE INFORMATION” in the following pages of this Section.

**Rounding Adjustment** – The necessary rounding adjustment(s) due to limitations of the County property tax system that requires even penny levy amounts to be placed on the secured tax roll.

**BALANCE TO LEVY** - This is the total amount to be levied and collected in the District through assessments for the current fiscal year. The Balance to Levy represents the sum of the total District costs together with any applicable adjustments to the budget as described above.

#### **ASSESSMENT RATES:**

##### **APPLIED ASSESSMENT RATES**

**Total Assessable Single-Family Units** - The total number of assessable single-family units within the District for the current fiscal year. Since each single family residential parcel is in both the District-Wide Benefit Zone and the Local Benefit Zone, the single-family EDUs are only added once to arrive at the "Total Equivalent Dwelling Units"

**Total Assessable Multi-Family Units** - The total number of assessable multi-family units within the District for the current fiscal year.

**Total Assessable Non-Residential Acres** - The total assessable non-residential acres within the District for the current fiscal year.

**Total Equivalent Dwelling Units (“EDUs”)** - Total assessable EDUs within the District for the current fiscal year.

**Applied Assessment Rates per EDU** - The assessment rates per EDU to be applied to the non-exempt parcels within the applicable Zone for the current fiscal year.

**Maximum Assessment Rates per EDU** - The maximum assessment rates per EDU to for the parcels of within the applicable Zone for the current fiscal year.

**Potential Maximum Assessment Per Zone** – The total amount that can be assessed against all parcels within each Zone for the current fiscal year based upon the expected number of parcels to be assessed.

## **FUND BALANCE INFORMATION:**

### **OPERATING RESERVE**

**Beginning Operating Reserve Balance 7-1-2018** - The District's anticipated beginning balance of cash and receivables net of any unpaid prior year obligations. These beginning balances shall be used to fund the District's expenditures from July 1, 2018 to December 31, 2018, as the Operating Reserve is required to compensate for the approximate six-month delay between the start of the District's fiscal year and the receipt of the collections from the County. All Rehabilitation Reserve balances, if any, are excluded from the Operating Reserve balances and shall be shown separately in the Report.

**Replenish from FY 18/19 Levy** – This amount is added to the levy in order to replenish the Operating Reserve. Due to the six-month delay from the District's receipt of assessment collections, the Operating Reserve balance shall be sufficiently funded to provide for expenditures from the period of July 1, 2018 (the beginning of the Fiscal Year) through December 31, 2018. If zero, this line item may not be shown in the budget.

**Use for FY 18/19 Expenses** – The amount of the Operating Reserve to be used to fund FY 18/19 expenses. Portions of the Operating Reserve may be slated for current year expenditures in order to reduce the Ending Operating Reserve Balance to an amount no greater than the expected District costs for the period of July 1, 2018 (the beginning of the Fiscal Year) through December 31, 2018. If zero, this line item may not be shown in the budget.

**Transfer from/(to) the Rehab Reserve** — The amount of Operating Reserve monies to be transferred to or from the Rehabilitation Reserve. Periodically, funds held in a Rehabilitation Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Rehabilitation Reserve are subject to transfer into the Operating Reserve, at the discretion of the Parks and Recreation Department or equivalent, in order to provide for the maintenance and operation of the improvements. If zero, this line item may not be shown in the budget.

**Ending Operating Reserve Balance 6-30-2019 (est.)** - This amount represents the anticipated Operating Reserve balance/(deficit) for each Zone as of June 30, 2019. The size of each Zone's Operating Reserve is limited by Streets and Highways Code 22569 which states that an Operating Reserve shall not exceed

the estimated costs of maintenance, service and incidental expenses from the first day of the fiscal year (July 1) to the date that the Agency expects to receive the first apportionment of collections from the County, which is estimated to be December 31. Therefore, each Zone may retain an Operating Reserve amounting to the District's first six-months of expenses in order to meet ongoing obligations until the first collections are received from the County. All Rehabilitation Reserve balances, if any, are excluded from the Operating Reserve balances and shall be shown separately in the Report.

## **REHABILITATION RESERVE**

**Beginning Rehab Reserve Balance 7-1-2018** — The projected balance of funds in the Rehabilitation Reserve as of July 1, 2018. Streets and Highways Code 22660 allows the District to generate and accumulate funds over several years to fund District improvements that cannot be conveniently raised from a single year's assessment.

**Collect from FY 18/19 Levy** — This amount is added to the levy to accumulate funding of future year rehabilitation projects, replacements, restorations or upgrades of District improvements. If zero, this line item may not be shown in the budget.

**Use for FY 18/19 Rehab Projects** — The amount of Rehabilitation Reserve monies expected to be transferred out of the Rehabilitation Reserve to fund the costs of installation, replacement or planned upgrades of District improvements for the current year. If zero, this line item may not be shown in the budget.

**Transfer from/(to) the Operating Reserve** — The amount of Rehabilitation Reserve monies to be transferred to or from the Operating Reserve. Periodically, funds held in a Rehabilitation Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Rehabilitation Reserve are subject to transfer into the Operating Reserve, at the discretion of the Parks and Recreation Department or equivalent, in order to provide for the maintenance and operation of the improvements. If zero, this line item may not be shown in the budget.

**Ending Rehab Reserve Balance 6-30-2019** — The projected balance of funds in the Rehabilitation Reserve as of June 30, 2019. These funds shall be used to provide for future year rehabilitation projects, replacements, restorations or upgrades of District improvements which cannot be conveniently raised from a single year's assessment. Should the District have no Rehabilitation Reserve or related activity, the Rehabilitation Reserve information may not be presented in the Report.

## **E. REHABILITATION RESERVE – CAPITAL IMPROVEMENT PLAN**

*Streets and Highways Code 22660* allows the District to generate and accumulate funds over several years to fund District improvements that cannot be conveniently raised from a single year's assessment. For each Zone showing a projected ending Rehabilitation Reserve balance, a five-year Capital Improvement Plan showing the projected costs of the rehabilitation, restoration and /or replacement of District improvements and other allowable costs, excluding FY 2018/19, is shown below.

**District Wide Zone.** Replace, repair, renovate and/or refurbish plants, landscaping, irrigation and related materials: \$15,000, \$12,000, \$15,000 and \$12,000 in FYs 2019/20, 2020/21, 2021/22 and 2022/23, respectively; and Grid tree pruning, removal and replacement of declining trees \$15,000 in each of FYs 2019/20, 2020/21, 2021/22 and 2022/23.

**Local Benefit Zone.** Replace, repair, renovate and/or refurbish plants, landscaping, irrigation and related materials: \$6,000, \$15,000, \$15,000 and \$10,000 in FYs 2019/20, 2020/21, 2021/22 and 2022/23, respectively and repair, replace and/or refurbish sound wall improvements: \$10,000 in FY 2019/20.

**Zone F.** Replace, repair, renovate and/or refurbish plants, landscaping, irrigation and related materials: \$3,000 in each of FYs 2019/20, 2020/21, 2021/22 and 2022/23, and replace irrigation controller: \$9,000 in FY 2019/20.

**Zone G.** Replace, repair, renovate and/or refurbish plants, landscaping, irrigation and related materials: \$8,500, \$10,000, \$10,000 and \$5,000 in FYs 2019/20, 2020/21, 2021/22 and 2022/23, respectively, and replace irrigation controller(s): \$14,000 in FY 2019/20.

Periodically, funds held in a Rehabilitation Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Rehabilitation Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Parks and Recreation Department or equivalent, in order to provide for the maintenance and operation of the improvements.

## APPENDIX A – DISTRICT BOUNDARY MAP

The boundary map for the District has previously been submitted to the Clerk of the City in the format required under the Act and is, by reference, hereby made part of this Report. These District Boundary Maps are available for inspection at the office of the City Clerk during normal business hours.

For general reference purposes, a rendering of the District's Boundaries is presented herein.

## APPENDIX B — 2018/19 ASSESSMENT ROLL

Parcel identification, for each lot or parcel within the District, shall be the parcel as shown on the Placer County Assessor's map for the year in which this Report is prepared.

Due to the size of the Assessment Roll, a listing of parcels to be assessed within this District, along with the proposed assessment amounts, may be submitted to the City Clerk, under a separate cover, and by reference is made part of this Report.

Non-assessable lots or parcels may include areas of public streets and other roadways (typically not assigned an APN by the County); dedicated public easements, open space areas and rights-of-ways, including public greenbelts and parkways; utility rights-of-ways; small parcels vacated by the County, bifurcated lots, and other property that cannot be developed, excepting common area parcels. These types of parcels are considered to receive little or no benefit from the improvements and are therefore exempted from assessment.

At the conclusion of the public hearing for the District and the proposed assessments, approval of the Report (as submitted or as modified) confirms the method of apportionment and the assessment rate to be levied against each eligible parcel and thereby constitutes the approved levy and collection of assessments for FY 2018/19. The listing of parcels and the amount of assessment to be levied shall be submitted to the County Auditor/Controller and included on the FY 2018/19 property tax roll for each parcel.

If any parcel submitted for collection is identified by the County Auditor/Controller to be an invalid parcel number for the current fiscal year, a corrected parcel number and/or new parcel numbers will be identified and resubmitted to the County Auditor/Controller. The assessment amount to be levied and collected for the resubmitted parcel or parcels shall be based on the method of apportionment and assessment rate approved in this Report. Therefore, if a single parcel has changed to multiple parcels, the assessment amount applied to each of the new parcels shall be recalculated and applied according to the approved method of apportionment and assessment rate rather than a proportionate share of the original assessment.

## RESOLUTION NO. 18-211

### **A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, AMENDING AND/OR APPROVING THE ENGINEER'S ANNUAL LEVY REPORT FOR NORTHWEST ROSEVILLE SPECIFIC PLAN LANDSCAPING AND LIGHTING DISTRICT, FISCAL YEAR 2018/2019**

The City Council of the City of Roseville, California (hereafter referred to as the "City Council") does resolve as follows:

**WHEREAS**, The City Council has, by previous Resolutions, ordered the preparation of the Engineer's Levy Report (hereafter referred to as the "Report") for said district known and designated as: Northwest Roseville Specific Plan Landscaping and Lighting District (hereinafter referred to as the "District"), pursuant to the provisions of the *Landscaping and Lighting Act of 1972, being Part 2 Division 15, of the Streets and Highways Code of the State of California, beginning with Section 22500* (hereinafter referred to as the "Act"), and,

**WHEREAS**, there has now been presented to this City Council the Report as required by *Chapter 3, Section 22623* of said Act, and as previously directed by Resolution; and,

**WHEREAS**, this City Council has carefully examined and reviewed the Report as presented (or amended), and is satisfied with each and all of the items and documents as set forth therein, and is satisfied that the levy has been spread in accordance with the benefits received from the improvements, operation, maintenance and services to be performed, as set forth in said Report.

**NOW, THEREFORE, BE IT RESOLVED, DETERMINED, AND ORDERED BY THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, FOR NORTHWEST ROSEVILLE SPECIFIC PLAN LANDSCAPING AND LIGHTING DISTRICT, AS FOLLOWS:**

**Section 1** That the above recitals are all true and correct.

**Section 2** That the Report as presented, is hereby approved (as amended), and is ordered to be filed in the Office of the City Clerk as a permanent record and to remain open to public inspection.

**Section 3** That the City Clerk shall certify to the passage and adoption of this Resolution, and the minutes of this meeting shall so reflect the presentation and final approval of the Report.

**RESOLUTION NO. 18-211**

**PASSED, APPROVED, AND ADOPTED THIS** \_\_\_\_\_ day of \_\_\_\_\_, 2018.

## RESOLUTION NO. 18-212

### **A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA ORDERING THE LEVY AND COLLECTION OF ASSESSMENTS WITHIN THE NORTHWEST ROSEVILLE SPECIFIC PLAN LANDSCAPING AND LIGHTING DISTRICT, FOR FISCAL YEAR 2018/2019**

The City Council of the City of Roseville, California (hereafter referred to as the “City Council”) does resolve as follows:

**WHEREAS**, the City Council of City of Roseville, California, has, by previous Resolutions, initiated proceedings, and declared its intention to levy assessments, and approved the Engineer’s Levy Report (hereinafter referred to as the “Report”) that describes the assessments against parcels of land within the Northwest Roseville Specific Plan Landscaping and Lighting District (hereinafter referred to as the “District”) for the Fiscal Year commencing July 1, 2018, and ending June 30, 2019, pursuant to the provisions of the *Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the California Streets and Highways Code, commencing with Section 22500* (hereinafter referred to as the “Act”) to pay for the maintenance and services of all improvements and facilities related thereto; and

**WHEREAS**, the Engineer selected by the City Council has prepared and filed with the City Clerk, and the City Clerk has presented to the City Council, a Report in connection with the proposed levy and collection of assessments upon eligible parcels of land within the District, and the City Council did by previous Resolution approve such Report; and

**WHEREAS**, the City Council desires to levy and collect assessments against parcels of land within the District for the Fiscal Year commencing July 1, 2018, and ending June 30, 2019, to pay for the maintenance and services of all improvements and facilities related thereto.

**WHEREAS**, this City and its legal counsel have reviewed Proposition 218 and found that these assessments comply with applicable provisions of Articles XIIC and XIID of the California State Constitution; and,

**NOW, THEREFORE, BE IT RESOLVED, DETERMINED, AND ORDERED BY THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, FOR NORTHWEST ROSEVILLE SPECIFIC PLAN LANDSCAPING AND LIGHTING DISTRICT, AS FOLLOWS:**

**Section 1** Following notice duly given, the City Council has held a full and fair public hearing regarding the District, the levy and collection of assessments, the Report prepared in connection therewith, and considered all oral and written statements, protests and communications made or filed by interested persons regarding these matters.

**Section 2** Based upon its review (and amendments, as applicable) of the Report, a copy of which has been presented to the City Council and which has been filed with the City Clerk, the City Council hereby finds and determines that:

- i) the land within the District will be benefited by the operation, maintenance and servicing of the improvements located within the boundaries of the District;
- ii) the District includes all of the lands receiving such special benefit; and,
- iii) the net amount to be assessed upon the lands within the District in accordance with the assessment for the Fiscal Year commencing July 1, 2018, and ending June 30, 2019, is apportioned by a formula and method which fairly distributes the net amount among all eligible parcels in proportion to the estimated benefits to be received by each parcel from the improvements and services.

**Section 3** The Report and assessments as presented to the City Council and on file in the Office of the City Clerk are hereby confirmed as filed.

**Section 4** The maintenance, operation and servicing of the improvements shall be performed pursuant to the Act. The City Council hereby orders the improvements to be made, which improvements are briefly described as follows: turf, ground cover, shrubs and trees, irrigation systems, drainage systems, natural areas, open space areas, public pedestrian paths, entry monuments, fencing, lighting systems, other public improvements within the street right of way areas and all appurtenant facilities related thereto within the District. The Engineer's Levy Report describes all new improvements or substantial changes in existing improvements.

**Section 5** The County Auditor of the County of Placer shall enter on the County Assessment Roll, opposite each eligible parcel of land, the amount of levy so apportioned by the formula and method outlined in the Report, and such levies shall be collected at the same time and in the same manner as the County taxes are collected, pursuant to *Chapter 4, Article 2, Section 22646* of the Act. After collection by the County, the net amount of the levy shall be paid to the City Treasurer.

**Section 6** The City Treasurer shall deposit all money representing assessments collected by the County for the District to the credit of a fund for the Northwest Roseville Specific Plan Landscaping and Lighting District and such money shall be expended only for the maintenance, operation and servicing of the improvements, together with other expenses as described in Section 4.

**Section 7** The adoption of this Resolution constitutes the District levy for the Fiscal Year commencing July 1, 2018, and ending June 30, 2019.

**Section 8** The City Clerk's designee, Willdan Financial Services, is hereby authorized and directed to file the levy with the County Auditor subsequent to the adoption of this Resolution, pursuant to Chapter 4, Article 1, Section 22641 of the Act. The City Clerk is directed to deliver a certified copy of this adopted Resolution to Willdan Financial Services within two weeks of adoption via either e-mail to mashley@willdan.com or US Mail to: Willdan Financial Services, 27368 Via Industria, Suite 200, Temecula, CA 92590 Attn: Mickey Ashley.

## I. OVERVIEW

---

### A. INTRODUCTION

The City of Roseville (“City”) annually levies and collects special assessments in order to provide and maintain the improvements within the Northwest Roseville Specific Plan Area, known as Northwest Roseville Specific Plan Landscaping and Lighting District (“District”) within the City. The District was formed and is levied annual assessments pursuant to *the Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the California Streets and Highways Code* (the “1972 Act” or the “Act”).

This Engineer’s Levy Report (“Report”) describes the District, any new annexations, changes to the District, and the proposed assessments for the period of July 1, 2018 through June 30, 2019. The assessments are based on the historical and estimated costs to maintain the improvements that provide a direct and special benefit to properties within the District. The District consists of two (2) benefit zones (“Zones”). The improvements that benefit properties within each Zone and the costs of those improvements are identified and budgeted separately. Each parcel is assessed proportionately for the estimated costs of the parcel’s respective Zone.

The word “parcel,” for the purposes of this Report, refers to an individual property assigned its own Assessor’s Parcel Number by the Placer County Assessor’s Office. The Placer County Auditor/Controller (“County Auditor/Controller”) uses Assessor’s Parcel Numbers and specific Tax Code Accounts, to identify on the County’s tax roll, properties assessed for special district benefit assessments.

Following consideration of public comments at a public hearing, and a final review of the Report, the City Council may order amendments to the Report or confirm the Report as submitted. After final approval of the Report, and confirmation of the assessments, the assessment information will be submitted to the County Auditor/Controller. The County Auditor/Controller will include the assessments on the property tax roll for fiscal year 2018/19.

If any parcel submitted for collection is identified by the County Auditor/Controller to be an invalid parcel number for the current fiscal year, a corrected parcel number and/or new parcel numbers will be identified and resubmitted to the County Auditor/Controller. The assessment amount to be levied and collected for the resubmitted parcel or parcels shall be based on the method of apportionment and assessment rate approved by the City Council.

## **B. COMPLIANCE WITH CURRENT LEGISLATION**

All assessments described in this Report and approved by the City Council are prepared in accordance with the 1972 Act and are in compliance with the provisions of the *California Constitution Article XIID* (Proposition 218). Pursuant to the *California Constitution Article XIID* (“*Article XIID*”) *Section 5*, certain existing assessments are exempt from the substantive and procedural requirements of *Article XIID Section 4* and property owner balloting for the assessments is not required until such time that the assessments are increased. Specifically, the City determined that all improvements and the annual assessments established for the original District were part of the conditions of property development and approved by the original property owner (developer). As such, pursuant to *Article XIID Section 5(b)*, the property owners approved these existing District assessments at the time the assessments were created (originally imposed pursuant to a 100% landowner petition). Therefore, the pre-existing assessment amounts (the maximum assessment rates of the original Zones A and B identified in this Report) are exempt from the procedural requirements *Article XIID Section 4*.

The District and all Zones therein have been formed pursuant to the 1972 Act. Pursuant to the 1972 Act, an annual Public Hearing is conducted by the City Council to accept property owner and public comments and to review the Report prior to approving the annual assessments to be levied on the County tax rolls. The assessments described in this Report have been prepared in accordance with the 1972 Act.

In November 2004, the City initiated and conducted property owner protest ballot proceedings, in accordance with the 1972 Act and Article XIID, to annex into Zone A, and approve the maximum assessment of \$100 per residential unit. At the conclusion of the Public Hearing, the City determined that a majority protest did not exist. The City then approved the Engineer’s Report, through the adoption of Resolution No. 04-507, which annexed the Dunmore Junction territory to Zone A. Dunmore Junction was first assessed by the District in FY 2005/06.

In April 2005, the City initiated and conducted property owner protest ballot proceedings, in accordance with the 1972 Act and Article XIID, to annex into Zones B, and approve the maximum assessment of \$147.20 per residential unit. At the conclusion of the Public Hearing, the City determined that a majority protest did not exist. The City then approved the Engineer’s Report, through the adoption of Resolution No. 05-165, which annexed the Legacy subdivision territory to Zone B. The Legacy subdivision was first assessed by the District in FY 2005/06.

### **C. DESCRIPTION OF DISTRICT BOUNDARIES**

The Northwest Roseville Specific Plan Landscaping and Lighting District lies west of the existing urban area of the City of Roseville. The District is generally bounded by Baseline Road to the north, Fiddymont Road to the west and Washington Boulevard to the east. The City annexed in Dunmore Junction, which is generally located on the east side of Porter Drive, south of Junction Boulevard and north of Lawton Avenue. The City also annexed in Legacy Subdivision, which is generally located on the northwest corner of Washington Boulevard and Junction Boulevard. For general reference purposes, renderings of the District's Boundaries are presented in Appendix A of the Report.

### **D. IMPROVEMENTS AUTHORIZED BY THE 1972 ACT**

As applicable or may be applicable to this proposed District, the 1972 Act defines improvements to mean one or any combination of the following:

- The installation or planting of landscaping.
- The installation or construction of statuary, fountains, and other ornamental structures and facilities.
- The installation or construction of public lighting facilities.
- The installation or construction of any facilities which are appurtenant to any of the foregoing or which are necessary or convenient for the maintenance or servicing thereof, including, but not limited to, grading, clearing, removal of debris, the installation or construction of curbs, gutters, walls, sidewalks, or paving, or water, irrigation, drainage, or electrical facilities.
- The maintenance or servicing, or both, of any of the foregoing.
- The acquisition of any existing improvement otherwise authorized pursuant to this section.

Incidental expenses associated with the improvements including, but not limited to:

- The cost of preparation of the report, including plans, specifications, estimates, diagram, and assessment;
- The costs of printing, advertising, and the publishing, posting and mailing of notices;
- Compensation payable to the County for collection of assessments;
- Compensation of any engineer or attorney employed to render services;
- Any other expenses incidental to the construction, installation, or maintenance and servicing of the improvements;

- Any expenses incidental to the issuance of bonds or notes pursuant to Section 22662.5.
- Costs associated with any elections held for the approval of a new or increased assessment.

The 1972 Act defines "Maintain" or "maintenance" to mean furnishing of services and materials for the ordinary and usual maintenance, operation, and servicing of any improvement, including:

- Repair, removal, or replacement of all or any part of any improvement.
- Providing for the life, growth, health, and beauty of landscaping, including cultivation, irrigation, trimming, spraying, fertilizing, or treating for disease or injury.
- The removal of trimmings, rubbish, debris, and other solid waste.
- The cleaning, sandblasting, and painting of walls and other improvements to remove or cover graffiti.

Furthermore, the 1972 Act specifies that where the cost of improvements (other than maintenance and operations) is greater than can be conveniently raised from a single annual assessment, an assessment to be levied and collected in annual installments. In that event, the governing body may choose to do any of the following:

- Provide for the accumulation of the moneys in an improvement fund until there are sufficient moneys to pay all or part of the cost of the improvements.
- Provide for a temporary advance to the improvement fund from any available and unencumbered funds of the local agency to pay all or part of the cost of the improvements and collect those advanced moneys from the annual installments collected through the assessments.
- Borrow an amount necessary to finance the estimated cost of the proposed improvements. The amount borrowed, including amounts for bonds issued to finance the estimated cost of the proposed improvements.

## **E. DESCRIPTION OF IMPROVEMENTS AND SERVICES**

### **Zone A**

Zone A of the District, by special benefit assessments, is to provide funding for the maintenance of the following improvements: landscaped street medians and landscaped corridors adjacent to property within the District including but not limited to, plantings, sound walls, and project identification signs; the maintenance of the vernal pool preserves identified in the Northwest Roseville Specific Plan; the installation and maintenance of bike trails within the Northwest Roseville Specific Plan Area; and the installation of park improvements and/or the payment of debt service related to the installation of bike trails and/or park improvements within the

Northwest Roseville Specific Plan Area.

## **Zone B**

Zone B of the District, by special benefit assessments, is to provide funding for the following:

- The maintenance of the landscaped street buffers or medians, certain natural areas within the subdivision and landscape corridors adjacent to the property within the Zone (including, but not limited to, planting, screen walls, project identification signs, and drainage and wetlands areas within the property).
- The perpetual maintenance of the landscape strips adjacent to the Sierra Crossing subdivision contiguous to Foothills Boulevard and Booth Road, including but not limited to maintenance of the planting, screen walls, and project identification signs.
- The maintenance of the natural border adjoining and contiguous to the westerly border of Sierra Crossing.
- The maintenance of the wetland preserve area.
- The on-going maintenance of the landscape strips adjacent to the Legacy subdivision contiguous to Junction Boulevard, Washington Boulevard and Sawtell Road, including but not limited to maintenance of the planting, screen walls, and project identification signs.
- The maintenance of natural border adjoining and contiguous to the westerly border of the Legacy subdivision.

## II. METHOD OF APPORTIONMENT

---

### A. GENERAL

The 1972 Act permits the establishment of assessment districts by agencies for the purpose of providing certain public improvements, which include the construction, maintenance, and servicing of public lights, landscaping and appurtenant facilities. The 1972 Act further requires that the cost of these improvements be levied according to benefit rather than assessed value:

*“The net amount to be assessed upon lands within an assessment district may be apportioned by any formula or method which fairly distributes the net amount among all assessable lots or parcels in proportion to the estimated benefits to be received by each such lot or parcel from the improvements.”*

The formula used for calculating assessments reflects the composition of the parcels, and the improvements and services provided, to fairly apportion the costs based on estimated benefit to each parcel.

### B. DESCRIPTION OF METHOD OF APPORTIONMENT

Pursuant to the Act, the costs of the District may be apportioned by any formula or method that fairly distributes the net amount to be assessed, among all assessable parcels in proportion to the estimated special benefits to be received by each such parcel from the improvements. The special benefit formula used for any special benefit assessment should reflect the composition of the parcels, and the improvements and services provided, to fairly apportion the costs based on estimated special benefit to each parcel. All assessable parcels in the District receive a direct special benefit from the services and improvements provided by the District.

Each parcel within this District has been assigned an Equivalent Benefit Unit (EBU), which reflects each parcel's estimated special benefit from the improvements as compared to other parcels within each Zone of the District. The levy amount is spread evenly to each assessable parcel in the District, on a per benefit unit (per parcel) method.

The Levy per Equivalent Benefit Unit (Rate) applied to each parcel is the result of dividing the total Balance to Levy, by the sum of the District's EBUs, for the fiscal year. This Rate is multiplied by each parcel's individual EBU to determine the parcel's levy amount.

The following formulas are used to calculate the assessment for each parcel:

### **Zone A**

*Total number of lots based on final filed maps, divided into the total annual estimated costs of Zone A.*

### **Zone B**

*Total number of lots based on final filed maps, divided into the total annual estimated costs of Zone B.*

The Maximum Annual Assessment is not to exceed \$100.00 per unit for Zone A and \$147.20 per unit for Zone B.

## **C. PROPOSITION 218 BENEFIT ANALYSIS**

In conjunction with the provisions of the 1972 Act, the California Constitution Article XIID addresses several key criteria for the levy of assessments regarding the Dunmore Junction subdivision Legacy subdivision annexations to the District, notably:

Article XIID Section 2d defines District as follows:

“District means an area determined by an agency to contain all parcels which will receive a special benefit from a proposed public improvement or property-related service”;

Article XIID Section 2i defines Special Benefit as follows:

“Special benefit” means a particular and distinct benefit over and above general benefits conferred on real property located in the district or to the public at large. General enhancement of property value does not constitute “special benefit.”

Article XIID Section 4a defines proportional special benefit assessments as follows:

“An agency which proposes to levy an assessment shall identify all parcels which will have a special benefit conferred upon them and upon which an assessment will be imposed. The proportionate special benefit derived by each identified parcel shall be determined in relationship to the entirety of the capital cost of a public improvement, the maintenance and operation expenses of a public improvement, or the cost of the property related service being provided. No assessment shall be imposed on any parcel which exceeds the reasonable cost of the proportional special benefit conferred on that parcel.”

Each of the proposed improvements, the associated costs and assessments have been carefully reviewed, identified and allocated based on special benefit pursuant to the provisions of the Constitution and 1972 Act. All improvements associated with this District have been identified as necessary, required and/or desired for the orderly development of the properties within the District to their full potential, consistent with the proposed development plans and applicable portions of the City General Plan and the Northwest Roseville Specific Plan. As such, the improvements for which each property shall be assessed would be necessary and required of individual property owners for the development of such properties and the ongoing operation, servicing and maintenance of these improvements would be the financial obligation of those properties. Therefore, the improvements and the annual costs of ensuring the maintenance and operation of the improvements are of direct and special benefit to the properties.

The method of apportionment (method of assessment) is based on the premise that each assessed parcel within the District receives benefit from the improvements. Well-maintained landscaping and recreational facilities in close proximity to those properties enhances the desirability of those properties.

The special benefits associated with the landscape improvements and associated appurtenants are specifically:

- Enhanced desirability of properties through association with the improvements.
- Improved aesthetic appeal of properties providing a positive representation of the area and properties.
- Enhanced adaptation of the urban environment within the natural environment from adequate green space and landscaping.
- Environmental enhancement through improved erosion resistance, dust and debris control, and fire prevention.
- Increased sense of pride in ownership of property within the District resulting from well-maintained improvements associated with the properties.
- Enhanced quality of life through well-maintained green belts, landscaped areas and recreational facilities.
- Reduced criminal activity and property-related crimes (especially vandalism) against properties in the District through well-maintained surroundings and amenities including abatement of graffiti.
- Enhanced environmental quality of the parcels by moderating temperatures, providing oxygenation and attenuating noise.

All of the preceding special benefits allow the property to be developed for the enjoyment of the property owners and contribute to a specific enhancement and desirability of each of the assessed parcels within the District.

The improvements are for the special benefit, enhancement and use of properties within the District and the Northwest Roseville Specific Plan Area. Although the improvements include public easements, rights-of-way and other amenities available or visible to the public at large, it has been determined that the additional improvements installed in connection with this development and those installed as part of the overall Northwest Roseville Specific Plan, are only necessary for the development of properties within the specific plan area and were not required nor necessarily desired by any properties or developments outside the Northwest Roseville Specific Plan Area. Therefore, this District being part of that plan, receives similar and proportional special benefits from both the improvements installed in connection with developing properties in this District as well as existing and future shared amenities within the District. Any public access or use of the improvements by others is incidental and there is no measurable general benefit to properties outside the specific plan area or to the public at large.

### III. DISTRICT BUDGET

#### A. 2018/19 BUDGET

| DESCRIPTION                                  | Zone A <sup>(1)</sup> | Zone B <sup>(2)</sup> | TOTAL                 |
|----------------------------------------------|-----------------------|-----------------------|-----------------------|
| <b><u>DIRECT COSTS</u></b>                   |                       |                       |                       |
| Contract Maintenance - Landscaping           | 187,000.00            | 12,200.00             | \$199,200.00          |
| Repair & Maintenance - Landscaping/Parks     | 93,418.00             | 1,447.00              | 94,865.00             |
| Utilities                                    | 120,351.00            | 3,811.50              | 124,162.50            |

### D. DESCRIPTION OF BUDGET ITEMS

#### BUDGET:

#### DIRECT COSTS

**Contract Maintenance - Landscaping** - Includes all regularly scheduled contract labor, materials, supplies and equipment required to properly maintain and ensure the satisfactory condition or maintenance of all landscaping corridors, street medians, entryways, irrigation and related drainage systems as well as maintenance of appurtenant facilities (the "improvements").

**Repair & Maintenance – Landscaping / Parks** - This line item includes repairs that are generally unforeseen and not normally included in the annual maintenance contract costs. This may include repair of damaged amenities due to vandalism, storms, etc. If zero, this line item may not be shown in the budget.

**Utilities** - The furnishing of water and electricity required for the operation and maintenance of the improvements.

**Stormwater Management / Drainage** - This line item includes costs to properly maintain certain drainage and / or wetlands areas within the District. If zero, this line item may not be shown in the budget.

**Rehab Reserve Project Expenditures** – Expected costs for installation, replacement or planned upgrades of District improvements for the current year that were previously funded or accumulated in the Rehabilitation Reserve. The Rehabilitation Reserve is used to accumulate funds for costs associated with the future rehabilitation or replacement of District improvements that cannot be conveniently raised from a single year's assessment. If zero, this line item may not be shown in the budget.

## **ADMINISTRATION COSTS**

**City Administration** – Estimated costs incurred by the City Finance Department and other Departments in preparing the annual budget for the Engineer's Report, together with other financial information required to determine the annual assessment. These costs would also include the preparation, posting and publishing of public notices required for City Council action relating to the District, as well as costs to perform legal review of documents.

**Contract Administration – Park's Dept** – Estimated Costs of Park and Recreation Department staff to coordinate and oversee the maintenance contracts and overall repair and maintenance of the District. This amount also includes the cost of the Department's estimates and analysis of certain budget items, estimated costs and useful lives of certain District Improvements.

**County Auditor Fees** - A fee of 1% of the total levy amount that is charged to the District by the County for placing assessments on property tax bills.

**Consulting and Professional Services** – Includes the costs and expenses of contracting with various professionals to provide legal, engineering and district administration services directly related to the District, including the calculation of the annual assessment amounts and the preparation of the Engineer's Report.

**Public Hearing Publishing Costs** – Includes the out of pocket costs to publish public notices required for City Council action relating to the District.

**Total Direct and Administration Costs** – The total expected costs of the District.

## **BUDGET ADJUSTMENTS**

**Replenishment/(Use) of Operating Reserve** – A "Replenishment" increases the levy in order to replenish the Operating Reserve. On the other hand, a "Use" of the Operating Reserve decreases the levy by drawing funds from the Operating Reserve for current year expenditures. If zero, this line item may not be shown in the budget. Further information regarding the function of the Operating Reserve is provided under "FUND BALANCE INFORMATION" in the following pages of this Section.

**Contribution for /(Use of) Rehab Reserve** — A “Contribution” increases the levy in order to generate funding for the Rehabilitation Reserve. This reserve allows for the accumulation of funds for the possible rehabilitation projects or replacements in future years. On the other hand, a “Use of” of the Rehabilitation Reserve provides current year funding of rehabilitation projects or replacements from available funds within the Rehabilitation Reserve. If zero, this line item may not be shown in the budget. Further information regarding the function of the Rehabilitation Reserve is provided under “FUND BALANCE INFORMATION” in the following pages of this Section.

**Rounding Adjustment** – The necessary rounding adjustment(s) due to limitations of the County property tax system that requires even penny levy amounts to be placed on the secured tax roll.

**BALANCE TO LEVY** - This is the total amount to be levied and collected through assessments for the current fiscal year for each zone. The Balance to Levy represents the sum of the total District costs together with any applicable adjustments to the budget as described above.

## **ASSESSMENT RATES:**

**Number of Assessable Units** - The total number of assessable units within the District for the Current Fiscal Year.

**Applied Assessment Rates per Unit** - The assessment rates to be applied to each parcel within the District for the current fiscal year.

**Maximum Assessment Rates per Unit** - The maximum assessment rates for the current fiscal year.

**Potential Maximum Assessment Per Zone** – The total amount that can be assessed against all parcels within each Zone for the current fiscal year based upon the expected number of units to be assessed.

## FUND BALANCE INFORMATION:

### OPERATING RESERVE

**Beginning Operating Reserve Balance 7-1-2018 (est.)** - The anticipated beginning balance of cash and receivables net of any unpaid prior year obligations for each Zone. These beginning balances shall be used to fund each Zone's expenditures from July 1, 2018 to December 31, 2018, as the Operating Reserve is required to compensate for the approximate six-month delay between the start of the District's fiscal year and the receipt of the collections from the County. All Rehabilitation Reserve balances, if any, are excluded from the Operating Reserve balances and shall be shown separately in the Report.

**Replenish from FY 18/19 Levy** – This amount is added to the levy in order to replenish the Operating Reserve. Due to the six-month delay from the District's receipt of assessment collections, the Operating Reserve balance shall be sufficiently funded to provide for expenditures from the period of July 1, 2018 (the beginning of the Fiscal Year) through December 31, 2018. If zero, this line item may not be shown in the budget.

**Use for FY 18/19 Expenses** – The amount of the Operating Reserve to be used to fund FY 18/19 expenses. Portions of the Operating Reserve may be slated for current year expenditures in order to reduce the Ending Operating Reserve Balance to an amount no greater than the expected District costs for the period of July 1, 2018 (the beginning of the Fiscal Year) through December 31, 2018. If zero, this line item may not be shown in the budget.

**Transfer from/(to) the Rehab Reserve** — The amount of Operating Reserve monies to be transferred to or from the Rehabilitation Reserve. Periodically, funds held in a Rehabilitation Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Rehabilitation Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Parks and Recreation Department or equivalent, in order to provide for the maintenance and operation of the improvements. If zero, this line item may not be shown in the budget.

**Ending Operating Reserve Balance 6-30-2019 (est.)** - This amount represents the anticipated Operating Reserve balance/(deficit) for each Zone as of June 30, 2019. The size of each Zone's Operating Reserve is limited by Streets and Highways Code 22569 which states that an Operating Reserve shall not exceed the estimated costs of maintenance, service and incidental expenses from the first day of the fiscal year (July 1) to the date that the Agency expects to receive the first apportionment of collections from the County, which is estimated to be December 31. Therefore, each Zone may retain an Operating Reserve amounting to the District's first six-months of expenses in order to meet ongoing obligations until the first collections are received from the County. All Rehabilitation Reserve

balances, if any, are excluded from the Operating Reserve balances and shall be shown separately in the Report.

### **REHABILITATION RESERVE**

**Beginning Rehab Reserve Balance 7-1-2018 (est.)** — The projected balance of funds in the Rehabilitation Reserve as of July 1, 2018. Streets and Highways Code 22660 allows the District generate and accumulate funds over several years to fund District improvements that cannot be conveniently raised from a single year's assessment.

**Collect from FY 18/19 Levy** — This amount is added to the levy to accumulate funding of future year rehabilitation projects, replacements, restorations or upgrades of District improvements. If zero, this line item may not be shown in the budget.

**Use for FY 18/19 Rehab Projects** – The amount of Rehabilitation Reserve monies expected to be transferred out of the Rehabilitation Reserve to fund the costs of installation, replacement or planned upgrades of District improvements for the current year. If zero, this line item may not be shown in the budget.

**Transfer from/(to) the Operating Reserve** — The amount of Rehabilitation Reserve monies to be transferred to or from the Operating Reserve. Periodically, funds held in a Rehabilitation Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Rehabilitation Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Parks and Recreation Department, in order to provide for the maintenance and operation of the improvements. If zero, this line item may not be shown in the budget.

**Ending Rehab Reserve Balance 6-30-2019 (est.)** - The projected balance of funds in the Rehabilitation Reserve as of June 30, 2019. These funds shall be use to provide for future year rehabilitation projects, replacements, restorations or upgrades of District improvements which cannot be conveniently raised from a single year's assessment.

Should the District have no Rehabilitation Reserve balances or related activity, no Rehabilitation Reserve information shall be presented in the Report.

## **E. REHABILITATION RESERVE – CAPITAL IMPROVEMENT PLAN**

*Streets and Highways Code 22660* allows the District to generate and accumulate funds over several years to fund District improvements that cannot be conveniently raised from a single year's assessment. For each Zone showing a projected ending Rehabilitation Reserve balance, a five-year Capital Improvement Plan showing the projected costs of the rehabilitation, restoration and /or replacement of District improvements and other allowable costs, excluding FY 2018/19, is shown below.

**Zone A.** Repair, replacement and/or refurbishment of fencing improvements: \$30,000 and \$20,000 in FYs 2021/22 and 2022/23, respectively; replacement, repair, renovation and/or refurbishment of plants, landscape & related materials: \$5,000, \$10,000, \$20,000 and \$20,000 in FYs 2019/20, 2020/21, 2021/22 and 2022/23, respectively; and, grid tree pruning, removal and replacement of declining trees \$25,000 in each of FYs 2019/20, 2020/21, 2021/22 and 2022/23.

**Zone B.** The Zone's projected reserves are not sufficient to fund capital improvement expenditures.

From time to time, funds held in a Rehabilitation Reserve may be needed to respond to changing needs due to the condition of the improvements or other factors. Accordingly, any or all funds held in a Rehabilitation Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Parks and Recreation Department or equivalent, in order to provide for the maintenance and / or operation of the improvements.

## APPENDIX A – DISTRICT BOUNDARY MAP

The boundary map of the District and Zones have previously been submitted to the Clerk of the City in the format required under the Act and are, by reference, hereby made part of this Report. The boundary maps are available for inspection at the office of the City Clerk during normal business hours.

For general reference purposes, a rendering of the District's Boundaries is represented herein.

## APPENDIX B — 2018/19 ASSESSMENT ROLL

Parcel identification, for each lot or parcel within the District, shall be the parcel as shown on the Placer County Assessor's map for the year in which this Report is prepared.

Due to the size of the Assessment Roll, a listing of parcels to be assessed within this District, along with the proposed assessment amounts, shall be submitted to the City Clerk, under a separate cover, and by reference is made part of this Report.

Non-assessable lots or parcels may include areas of public streets and other roadways (typically not assigned an APN by the County); dedicated public easements, open space areas and rights-of-ways including public greenbelts and parkways; utility rights-of-ways; common areas; landlocked parcels, small parcels vacated by the County, bifurcated lots, and any other property that cannot be developed. These types of parcels are considered to receive little or no benefit from the improvements and are therefore exempted from assessment.

At the conclusion of the public hearing for the District and the proposed assessments, approval of the Report (as submitted or as modified) confirms the method of apportionment and the assessment rate to be levied against each eligible parcel and thereby constitutes the approved levy and collection of assessments for FY 2018/19. The listing of parcels and the amount of assessment to be levied shall be submitted to the County Auditor/Controller and included on the FY 2018/19 property tax roll for each parcel.

If any parcel submitted for collection is identified by the County Auditor/Controller to be an invalid parcel number for the current fiscal year, a corrected parcel number and/or new parcel numbers will be identified and resubmitted to the County Auditor/Controller. The assessment amount to be levied and collected for the resubmitted parcel or parcels shall be based on the method of apportionment and assessment rate approved in this Report. Therefore, if a single parcel has changed to multiple parcels, the assessment amount applied to each of the new parcels shall be recalculated and applied according to the approved method of apportionment and assessment rate rather than a proportionate share of the original assessment.

## RESOLUTION NO. 18-213

### **A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, AMENDING AND/OR APPROVING THE ENGINEER'S ANNUAL LEVY REPORT FOR OLYMPUS POINTE LANDSCAPING AND LIGHTING DISTRICT, FISCAL YEAR 2018/2019**

The City Council of the City of Roseville, California (hereafter referred to as the "City Council") does resolve as follows:

**WHEREAS**, The City Council has, by previous Resolutions, ordered the preparation of the Engineer's Levy Report (hereafter referred to as the "Report") for said district known and designated as: Olympus Pointe Landscaping and Lighting District (hereinafter referred to as the "District"), pursuant to the provisions of the *Landscaping and Lighting Act of 1972, being Part 2 Division 15, of the Streets and Highways Code of the State of California, beginning with Section 22500* (hereinafter referred to as the "Act"); and,

**WHEREAS**, there has now been presented to this City Council the Report as required by *Chapter 3, Section 22623* of said Act, and as previously directed by Resolution; and,

**WHEREAS**, this City Council has carefully examined and reviewed the Report as presented (or amended), and is satisfied with each and all of the items and documents as set forth therein, and is satisfied that the levy has been spread in accordance with the benefits received from the improvements, operation, maintenance and services to be performed, as set forth in said Report.

**NOW, THEREFORE, BE IT RESOLVED, DETERMINED, AND ORDERED BY THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, FOR OLYMPUS POINTE LANDSCAPING AND LIGHTING DISTRICT, AS FOLLOWS:**

**Section 1** That the above recitals are all true and correct.

**Section 2** That the Report as presented, is hereby approved (as amended), and is ordered to be filed in the Office of the City Clerk as a permanent record and to remain open to public inspection.

**Section 3** That the City Clerk shall certify to the passage and adoption of this Resolution, and the minutes of this meeting shall so reflect the presentation and final approval of the Report.

**RESOLUTION NO. 18-213**

**PASSED, APPROVED, AND ADOPTED THIS** \_\_\_\_\_ day of \_\_\_\_\_, 2018.

## RESOLUTION NO. 18-214

### **A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA ORDERING THE LEVY AND COLLECTION OF ASSESSMENTS WITHIN THE OLYMPUS POINTE LANDSCAPING AND LIGHTING DISTRICT, FOR FISCAL YEAR 2018/2019**

The City Council of the City of Roseville, California (hereafter referred to as the “City Council”) does resolve as follows:

**WHEREAS**, the City Council of City of Roseville, California, has, by previous Resolutions, initiated proceedings, and declared its intention to levy assessments, and approved the Engineer’s Levy Report (hereinafter referred to as the “Report”) that describes the assessments against parcels of land within the Olympus Pointe Landscaping and Lighting District (hereinafter referred to as the “District”) for the Fiscal Year commencing July 1, 2018, and ending June 30, 2019, pursuant to the provisions of the *Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the California Streets and Highways Code, commencing with Section 22500* (hereinafter referred to as the “Act”) to pay for the maintenance and services of all improvements and facilities related thereto; and,

**WHEREAS**, the Engineer selected by the City Council has prepared and filed with the City Clerk, and the City Clerk has presented to the City Council, a Report in connection with the proposed levy and collection of assessments upon eligible parcels of land within the District, and the City Council did by previous Resolution approve such Report; and,

**WHEREAS**, the City Council desires to levy and collect assessments against parcels of land within the District for the Fiscal Year commencing July 1, 2018, and ending June 30, 2019, to pay for the maintenance and services of all improvements and facilities related thereto; and,

**WHEREAS**, this City and its legal counsel have reviewed Proposition 218 and found that these assessments comply with applicable provisions of Articles XIIC and XIID of the California State Constitution.

**NOW, THEREFORE, BE IT RESOLVED, DETERMINED, AND ORDERED BY THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, FOR OLYMPUS POINTE LANDSCAPING AND LIGHTING DISTRICT, AS FOLLOWS:**

**Section 1** Following notice duly given, the City Council has held a full and fair public hearing regarding the District, the levy and collection of assessments, the Report prepared in connection therewith, and considered all oral and written statements, protests and communications made or filed by interested persons regarding these matters.

**Section 2** Based upon its review (and amendments, as applicable) of the Report, a copy of which has been presented to the City Council and which has been filed with the City Clerk, the City Council hereby finds and determines that:

- i) the land within the District will be benefited by the operation, maintenance and servicing of the improvements located within the boundaries of the District;

- ii) the District includes all of the lands receiving such special benefit; and,
- iii) the net amount to be assessed upon the lands within the District in accordance with the assessment for the Fiscal Year commencing July 1, 2018 and ending June 30, 2019 is apportioned by a formula and method which fairly distributes the net amount among all eligible parcels in proportion to the estimated special benefits to be received by each parcel from the improvements and services.

**Section 3** The Report and assessments as presented to the City Council and on file in the Office of the City Clerk are hereby confirmed as filed.

**Section 4** The maintenance, operation and servicing of the improvements and appurtenant facilities shall be performed pursuant to the Act. The City Council hereby orders the improvements to be made, which improvements are briefly described as follows: project identification signs and surrounding landscape and hardscape, special street materials, sculpture and sculpture park, special lighting for the project identification signs, sculpture and sculpture park, landscape street medians, special street signs, other public improvements within the street right of way areas and all appurtenant facilities related thereto within the District. The Engineer's Annual Levy Report, as ordered by previous Resolution, provides a full and complete description of all improvements and any or all substantial changes to the improvements within the District.

**Section 5** The County Auditor of the County of Placer shall enter on the County Assessment Roll, opposite each eligible parcel of land, the amount of levy so apportioned by the formula and method outlined in the Report, and such levies shall be collected at the same time and in the same manner as the County taxes are collected, pursuant to *Chapter 4, Article 2, Section 22646* of the Act. After collection by the County, the net amount of the levy shall be paid to the City Treasurer.

**Section 6** The City Treasurer shall deposit all money representing assessments collected by the County for the District to the credit of a fund for the Olympus Pointe Landscaping and Lighting District and such money shall be expended only for the maintenance, operation and servicing of the improvements, together with any other expenses described in Section 4.

**Section 7** The adoption of this Resolution constitutes the District levy for the Fiscal Year commencing July 1, 2018, and ending June 30, 2019.

**Section 8** The City Clerk's designee, Willdan Financial Services, is hereby authorized and directed to file the levy with the County Auditor subsequent to the adoption of this Resolution, pursuant to Chapter 4, Article 1, Section 22641 of the Act. The City Clerk is directed to deliver a certified copy of this adopted Resolution to Willdan Financial Services within two weeks of adoption via either e-mail to mashley@willdan.com or US Mail to: Willdan Financial Services, 27368 Via Industria, Suite 200, Temecula, CA 92590 Attn: Mickey Ashley.

## I. OVERVIEW

---

### A. INTRODUCTION

The City of Roseville (“City”) annually levies and collects special assessments in order to maintain the certain public improvements within the Olympus Pointe Landscaping and Lighting District (“District”) within the City. The District, which was formed in 1989, is levied annual assessments pursuant to the Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the California Streets and Highways Code (the “Act”).

The Engineer’s Report (“Report”) describes the District boundaries, any new annexations, improvements maintained by the District and the proposed assessments for the period of July 1, 2018 through June 30, 2019.

The District consists of two (2) benefit Zones (“Zones”). The improvements that benefit properties within each Zone and the costs associated with those improvements are identified and budgeted separately. Each parcel within a Zone is assessed proportionately for only those improvements and services that are a direct and special benefit to the properties within the respective Zone. The assessments are based on the historical and estimated cost to maintain the improvements that provide a direct and special benefit to properties within the District.

The word “parcel,” for the purposes of this Report, refers to an individual property assigned its own Assessor’s Parcel Number (“APN”) by the Placer County Assessor’s Office.

Following approval of the Report, the City Council will by resolution, order the improvements to be made, if any, and confirm the levy and collection of assessments herein pursuant to the Act. The assessment rates and method of apportionment described in this Report as approved or modified by the City Council defines the assessments to be applied to each parcel within the District and respective Zones for Fiscal Year (“FY”) 2018/19. The assessments as approved will be submitted to the Placer County Auditor/Controller to be included on the property tax roll for each parcel.

If any parcel submitted for collection is identified by the County Auditor/Controller to be an invalid parcel number for the current fiscal year, a corrected parcel number and/or new parcel numbers will be identified and resubmitted to the County Auditor/Controller. The assessment amount to be levied and collected for the resubmitted parcel or parcels shall be based on the method of apportionment and assessment rate approved by the City Council.

## **B. COMPLIANCE WITH CURRENT LEGISLATION**

All assessments described in this Report and approved by the City Council are prepared in accordance with the Act and are in compliance with the substantive and procedural requirements of the California State Constitution Articles XIIC and XIID (“Article XIIC” and “Article XIID”) and the provisions of the Proposition 218 Omnibus Implementation Act [Government Code Section 53750 and following] (the “Implementation Act”). Articles XIIC and XIID and the Implementation Act collectively are hereinafter referred to as “Proposition 218”.

The District’s Maximum Assessment Rates for all Zones and the Inflationary Adjustment Factor were previously approved and confirmed through property owner ballot proceedings and as such, comply with the provisions of Proposition 218.

Pursuant to the Act, an annual Public Hearing is conducted by the City Council to accept property owner and public comments, to review the Engineer’s Annual Levy Report prior to approving the annual assessments to be levied on the County tax rolls.

## **C. CLARIFICATION OF ZONE DESIGNATIONS**

In order to increase consistency with the City’s other districts and to facilitate presentation within the Engineer’s Report, the names of both Zones were redesignated, commencing with FY 2007/2008, as follows:

- The “Non-Residential/Multi-Family Residential Zone” was redesignated to “Zone A”. <sup>(1)</sup>
- The “Residential Zone” was redesignated to “Zone D”. <sup>(2)</sup>

(1) Prior to FY 2005/2006, this territory was known as “Zone A”. In FY 2005/2006, Zone A was redesignated to the “Non-Residential/Multi-Family Residential Zone”.

(2) Prior to FY 2005/2006, this territory was known as “Zones B & C”. In FY 2005/2006, Zones B & C were combined and redesignated to the “Residential Zone”.

## **D. GENERAL DESCRIPTION OF DISTRICT**

The Olympus Pointe Landscaping and Lighting District is located in the City of Roseville at the southerly edge of Placer County, northeast of the intersection of Interstate 80 and Douglas Boulevard. The site is generally bounded by Interstate 80 on the west, East Roseville Parkway and Olympus Drive to the north, Douglas Boulevard to the south and Sierra College Boulevard to the east. See Appendix A for a rendering of the District boundary map.

The District consists of two zones as described below. These zones were established by the City through a District reengineering commencing with the FY 2005/2006 levy. Additional information regarding the reengineering is provided in Section III of the Report.

### **Zone A**

Zone A includes land zoned for non-residential and multi-family residential uses. The Zone comprises the majority of the District and is primarily west and south of East Roseville Parkway, east of Interstate 80 north of Douglas Boulevard. This Zone contains 581.78 acres of assessable land that was originally designated as “Zone A”. The area was then redesignated as the “Non-Residential/Multi-Family Zone” commencing with the FY 2005/06 and then redesignated back to “Zone A” commencing with the FY 2007/08 levy.

### **Zone D**

Zone D includes two single-family residential developments on the eastern side of the District. The Zone is bisected by Olympus Drive and Sierra College Boulevard on the District’s eastern boundary and includes 468 developed single-family residences. Originally, each residential development was designated as separate zone (Zones B and C). The area was redesignated as the “Residential Zone” commencing with the FY 2005/2006 levy and then redesignated to the “Zone D” commencing with the FY 2007/2008 levy.

## **E. IMPROVEMENTS AUTHORIZED BY THE 1972 ACT**

As applicable or may be applicable to this proposed District, the 1972 Act defines improvements to mean one or any combination of the following:

- The installation or planting of landscaping.
- The installation or construction of statuary, fountains, and other ornamental structures and facilities.
- The installation or construction of public lighting facilities.

- The installation or construction of any facilities which are appurtenant to any of the foregoing or which are necessary or convenient for the maintenance or servicing thereof, including, but not limited to, grading, clearing, removal of debris, the installation or construction of curbs, gutters, walls, sidewalks, or paving, or water, irrigation, drainage, or electrical facilities.
- The maintenance or servicing, or both, of any of the foregoing.
- The acquisition of any existing improvement otherwise authorized pursuant to this section.

Incidental expenses associated with the improvements including, but not limited to:

- The cost of preparation of the report, including plans, specifications, estimates, diagram, and assessment;
- The costs of printing, advertising, and the publishing, posting and mailing of notices;
- Compensation payable to the County for collection of assessments;
- Compensation of any engineer or attorney employed to render services;
- Any other expenses incidental to the construction, installation, or maintenance and servicing of the improvements;
- Any expenses incidental to the issuance of bonds or notes pursuant to Section 22662.5.
- Costs associated with any elections held for the approval of a new or increased assessment.

The 1972 Act defines "Maintain" or "maintenance" to mean furnishing of services and materials for the ordinary and usual maintenance, operation, and servicing of any improvement, including:

- Repair, removal, or replacement of all or any part of any improvement.
- Providing for the life, growth, health, and beauty of landscaping, including cultivation, irrigation, trimming, spraying, fertilizing, or treating for disease or injury.
- The removal of trimmings, rubbish, debris, and other solid waste.
- The cleaning, sandblasting, and painting of walls and other improvements to remove or cover graffiti.

Furthermore, the 1972 Act specifies that where the cost of improvements (other than maintenance and operations) is greater than can be conveniently raised from a single annual assessment, an assessment to be levied and collected in annual installments. In that event, the governing body may choose to do any of the following:

- Provide for the accumulation of the moneys in an improvement fund until there are sufficient moneys to pay all or part of the cost of the improvements.

- Provide for a temporary advance to the improvement fund from any available and unencumbered funds of the local agency to pay all or part of the cost of the improvements and collect those advanced moneys from the annual installments collected through the assessments.
- Borrow an amount necessary to finance the estimated cost of the proposed improvements. The amount borrowed, including amounts for bonds issued to finance the estimated cost of the proposed improvements.

## **F. DESCRIPTION AND LOCATION OF IMPROVEMENTS**

This District, through the levy special assessments, provides funding for the maintenance and operation of the following improvements located within the public rights-of-way and dedicated easements: project identification signs, including surrounding landscape and hardscape; special street materials; sculptures and sculpture park; special street signs; special lighting for the project identification signs and special illuminated street signs; and landscaped street medians (the “Improvements”). The specific locations of the improvements within the district are described as follows:

### **1. Zone A**

#### **a. Landscaped Median Islands:**

- Eureka Road from Douglas Boulevard to Taylor Road Connector
- Sunrise Avenue from southern boundary of the Northeast Roseville Specific Plan (the “NERSP”) to East Roseville Parkway
- East Roseville Parkway from Douglas Boulevard to Rocky Ridge Drive
- Douglas Boulevard from eastern boundary of NERSP to Rocky Ridge Drive

#### **b. Project identification signs (granite entryways) and special paving materials:**

- Eureka Road at Douglas Boulevard
- East Roseville Parkway at Douglas Boulevard
- Eureka Road at Taylor Road

#### **c. Sculpture and Sculpture Park:**

- Aris Demetrio’s original sculpture located on Parcel 14
- Sculpture park (0.85 acres located on Parcel 14)

#### **d. Special street signs:**

- Eureka Road at Sunrise Avenue, Rocky Ridge Drive, Lead Hill Drive and Douglas Boulevard

- Lead Hill Drive at Rocky Ridge Drive
- Sunrise Avenue at Auto Mall entrance
- East Roseville Parkway at Taylor Road, Lead Hill Drive, Olympus Drive and Douglas Boulevard
- Olympus Drive at Sierra College Boulevard

## **2. Zone D**

### **a. Landscaped Frontage:**

- Southern side of Olympus Drive from East Roseville Parkway to Sierra College Boulevard, excluding any landscaping not within or adjacent to the Zone
- Northern side of Olympus Drive from the Zone boundary (the former Zone C boundary), which is 175 feet southwest of Corniche Lane, to Sierra College Boulevard, western side of Sierra College Boulevard from Olympus Drive to the Zone boundary (the former Zone C boundary), which is approximately 600 feet.

### **b. Project identification signs and special paving materials:**

- Sierra College Boulevard at Olympus Drive

## **G. DESCRIPTION OF MAINTENANCE AND SERVICES**

Maintenance means the furnishing of services and materials for the ordinary and usual maintenance, operation and servicing of the Improvements and appurtenant facilities, including repair, removal or replacement of all or part of any of Improvements or appurtenant facilities; providing for the life, growth, health and beauty of the Improvements including cultivation, irrigation, trimming, mowing, spraying, fertilizing and treating for disease or injury; the removal of trimmings, rubbish, debris and other solid waste.

Servicing means the furnishing of water and electricity for the Improvements including any decorative lighting and the furnishing of electric current or energy, gas or other illuminating agent for the special street signs.

## II. METHOD OF APPORTIONMENT

---

### A. GENERAL

The Act permits the establishment of assessment districts by public agencies for the purpose of providing certain public improvements, which include the construction, maintenance, and servicing of street lights, traffic signals and landscaping facilities. Streets and Highways Code Section 22573 requires that maintenance assessments be levied according to benefit rather than the assessed value.

*“The net amount to be assessed upon lands within an assessment district may be apportioned by any formula or method which fairly distributes the net amount among all assessable lots or parcels in proportion to the estimated benefits to be received by each such lot or parcel from the improvements.”*

In addition, Article XIID and the Implementation Act require that a parcel’s assessment may not exceed the reasonable cost for the proportional special benefit conferred to that parcel. Article XIID and the Implementation Act further provide that only special benefits are assessable and the City must separate the general benefits from the special benefits. They also require that publicly owned properties, which specifically benefit from the improvements, be assessed.

### B. BENEFIT ANALYSIS

In conjunction with the provisions of the 1972 Act, the California Constitution Article XIID addresses several key criteria for the levy of assessments, notably:

Article XIID Section 2d defines District as follows:

“District means an area determined by an agency to contain all parcels which will receive a special benefit from a proposed public improvement or property-related service”;

Article XIID Section 2i defines Special Benefit as follows:

“Special benefit” means a particular and distinct benefit over and above general benefits conferred on real property located in the district or to the public at large. General enhancement of property value does not constitute “special benefit.”

Article XIID Section 4a defines proportional special benefit assessments as follows:

“An agency which proposes to levy an assessment shall identify all parcels which will have a special benefit conferred upon them and upon which an assessment will be imposed. The proportionate special benefit derived by each identified parcel shall be determined in relationship to the entirety of the capital cost of a public improvement, the maintenance and operation expenses of a public improvement, or the cost of the property related service being provided. No assessment shall be imposed on any parcel which exceeds the reasonable cost of the proportional special benefit conferred on that parcel.”

The City initiated and conducted property owner protest ballot proceedings in accordance with Article XIID and the Implementation Act for both the Non-Residential/Multi-Family Zone (Zone A) and the Residential Zone (Zone D). Each Zone’s Improvements, the associated costs and assessments had been reviewed, identified and allocated based on special benefit pursuant to the provisions of the Constitution and Act.

All Improvements associated with these Zones have been identified as necessary, required and/or desired for the orderly development of the properties to their full potential. As such, these Improvements would be necessary and required of individual property owners for the development of such properties and the ongoing operation, servicing and maintenance of these Improvements would be the financial obligation of those properties. Therefore, the Improvements and the annual costs of ensuring the maintenance and operation of the Improvements are of direct and special benefit to the properties.

The method of apportionment (method of assessment) is based on the premise that each of the assessed parcels within these Zones receives special benefit from the Improvements maintained and financed by the assessments. Specifically, the assessments associated with the Zones are for the maintenance of the Improvements installed as part of the original development of the parcels within the Zones. The desirability and security of properties within each Zone is enhanced by the close proximity of these amenities to those properties.

The annual assessments outlined in this Report are proposed to cover the estimated costs to provide all necessary service, operation, administration, and maintenance required to keep the Zone Improvements in a healthy, vigorous, and satisfactory condition.

The special benefits associated with these improvements are specifically:

- Enhanced desirability of properties through association with the improvements.
- Improved aesthetic appeal of properties within the Zones providing a positive representation of the area.
- Enhanced adaptation of the urban environment within the natural environment from adequate green space and landscaping.

- Environmental enhancement through improved erosion resistance, and dust and debris control.
- Increased sense of pride in ownership of property within the District resulting from well-maintained improvements associated with the properties.
- Reduced criminal activity and property-related crimes (especially vandalism) against properties in the District through well-maintained surroundings and amenities including abatement of graffiti.
- Enhanced environmental quality of the parcels within the Zones by moderating temperatures, providing oxygenation and attenuating noise.

All of the preceding special benefits allowed the property to be developed for the enjoyment of the property owners and contribute to an ongoing specific enhancement and desirability of each of the assessed parcels within the Zones.

The improvements are for the special benefit, enhancement and use of properties within the Zones. Although the improvements include public easements, rights-of-way, streets and other amenities available or visible to the public at large, the construction and installation of these Improvements were only necessary for the development of properties within the Zones and were not required nor necessarily desired by any properties or developments outside the Zone's boundaries. Therefore, any public access or use of the Improvements by others is incidental and there is no measurable general benefit to properties outside the Zones or to the public at large. In making this determination, it should be noted that all parkway and perimeter landscaping within the City is both funded and maintained by a special district, individual property owners or through some type of association.

### **C. ASSESSMENT METHODOLOGY**

To establish the special benefit to the individual lots and parcels within the District an Equivalent Benefit Unit ("EBU") system is used. The EBU method of apportioning benefit is typically seen as the most appropriate and equitable assessment methodology for districts formed under the Act, as the benefit to each parcel from the Improvements are apportioned as a function of land use type, size and development. Acreage of common area parcels shall be apportioned to the remaining assessable parcels of a subdivision and/or parcel split(s) related to the creation of the common area parcel(s).

## EBU Application Table

| Land Use                  | EBU per Unit/Acre |
|---------------------------|-------------------|
| Single Family Residential | 1.00 per Unit     |
| Multi-Family Residential  | 1.00 per Acre     |
| Non-Residential           | 1.00 per Acre     |
| Exempt                    | 0.00 per Acre     |

### 1. Definitions and Formulas Related to the Product Type EBU Method

Single-Family Residential — This land use is defined as a fully subdivided residential parcel that is part of a final tract map.

Multi-Family Residential — This land use is defined as a residential parcel anticipated to have or has more than one residential unit.

Non-Residential — Parcels that are not considered Single Family Residential, Multi-Family Residential or Exempt.

Exempt Parcels — This land use identifies properties that are not assessed and are assigned 0.0 EBU per acre. This land use classification may include, but is not limited, to lots or parcels identified as public streets and other roadways (typically not assigned an APN by the County); dedicated public easements, open space areas, greenbelts, parkways, park properties and other publicly owned properties that are part of the District Improvements. These types of parcels are considered to receive little or no benefit from the Improvements and are therefore exempted from assessment.

### 2. Zone Benefit Formula

The benefit formula applied to parcels within each Zone is based on the preceding Equivalent Benefit Unit (EBU) Application Table. Each parcel's EBU correlates the parcel's special benefit received as compared to all other parcels benefiting from the Improvements.

The following formula is used to calculate the EBU for each parcel (proportional benefit).

$$\text{Parcel Type EBU} \times \text{Units/Acres} = \text{Parcel EBU}$$

The total number of Equivalent Benefit Units (EBUs) is the sum of all individual EBUs applied to parcels within each Zone that receive a special benefit from the Improvements. An assessment amount per EBU (Assessment Rate) for each Zone is established by taking the total costs associated with the Zone's Improvements and dividing that amount by the total number of EBUs within each Zone of all parcels benefiting from those Improvements. This Rate is then applied back to each individual parcel based on their assigned EBUs to determine the parcel's proportionate special benefit and assessment obligation from those Improvements.

$$\text{Zone Budget/ Total EBU} = \text{Assessment per EBU}$$

$$\text{Assessment per EBU} \times \text{Parcel EBU} = \text{Maximum Parcel Assessment Amount}$$

#### **D. ASSESSMENT RANGE FORMULA**

The purpose of establishing an Assessment Range Formula is to provide for reasonable increases and inflationary adjustment to annual assessments rather than initiating protest ballot proceedings to approve small increases in annual costs. This District provides for an annual adjustment to the Maximum Assessment Rate in an amount equal to three percent (3%).

The Maximum Assessment Rate is adjusted annually and is calculated independent of the District's annual budget and proposed annual assessment. Any proposed annual assessment rate (less than or equal to this Maximum Assessment Rate) is not considered an increased assessment, even if the proposed assessment is greater than the assessment applied in the prior fiscal year.

Although the Maximum Assessment Rate will increase each year, the actual assessment rate may go up and down as compared to the previous year(s). The Maximum Assessment Rate adjustment is designed to allow for the adjustment of the annual assessment for inflation in order to maintain the original purchasing power of the District budget. The Maximum Assessment Rate calculated each year does not require or facilitate an increase to the annual assessment and neither does it restrict assessments to the adjusted maximum amount. If the budget and assessment for the fiscal year do not require an increase, or the increase is less than the adjusted Maximum Assessment Rate, then the required budget and assessment may be applied without additional property owner balloting. If the budget and assessments calculated requires an increase greater than the adjusted Maximum Assessment Rate, then the assessment is considered an increased assessment and would be subject to Proposition 218 balloting requirements.

## E. BASE MAXIMUM ASSESSMENT RATES

The base assessment rates and the annual inflationary adjustment to each Zone are listed in the table below:

| Zone   | Base Year  | Base Year<br>Maximum<br>Assessment<br>Rate per EBU | Annual<br>Inflationary<br>Adjustment <sup>(1)</sup> |
|--------|------------|----------------------------------------------------|-----------------------------------------------------|
| Zone A | FY 2005/06 | \$296.65                                           | 3.00%                                               |
| Zone D | FY 2005/06 | 99.76                                              | 3.00%                                               |

(1) The Annual Inflationary Adjustment commences with the Fiscal Year 2006/2007 assessments.

### III. DISTRICT BUDGET

#### A. 2018/19 BUDGET

| DESCRIPTION                                          | ZONE A               | ZONE D              |
|------------------------------------------------------|----------------------|---------------------|
| <b><u>DIRECT COSTS</u></b>                           |                      |                     |
| Contract Maintenance - Landscaping                   | \$56,744.00          | \$22,556.00         |
| Contract Maintenance - Parks                         | 2,800.00             | n/a                 |
| Repair & Maintenance - Landscaping/Parks             | 30,000.00            | 11,000.00           |
| Utilities                                            | 32,455.50            | 13,650.00           |
| Maintenance - Parks City Staff                       | 7,320.00             | 0.00                |
| Rehab Reserve Project Expenditures - Walls & Medians | <u>55,000.00</u>     | <u>20,000.00</u>    |
| <b>Total Direct Costs</b>                            | <b>\$184,319.50</b>  | <b>\$67,206.00</b>  |
| <b><u>ADMINISTRATION COSTS</u></b>                   |                      |                     |
| City Administration                                  | \$7,829.41           | \$1,025.60          |
| Contract Administration - Park's Dept                | 13,000.00            | 3,000.00            |
| County Auditor Fees                                  | 1,451.13             | 685.62              |
| Consulting & Professional Services                   | 3,328.93             | 436.07              |
| Consultant Incidental Expenses                       | 85.00                | 50.00               |
| Public Hearing Publishing Costs                      | <u>782.00</u>        | <u>58.00</u>        |
| <b>Total Administrative Costs</b>                    | <b>\$26,476.47</b>   | <b>\$5,255.29</b>   |
| <b>Total Direct and Administration Costs</b>         | <b>\$210,795.97</b>  | <b>\$72,461.29</b>  |
| <b><u>BUDGET ADJUSTMENTS <sup>(1)</sup></u></b>      |                      |                     |
| Replenishment/(Use) of Operating Reserve             | (\$10,682.91)        | \$16,100.71         |
| Contribution for /(Use of) Rehab Reserve             | (55,000.00)          | (20,000.00)         |
| Rounding Adjustment                                  | <u>(1.62)</u>        | <u>0.00</u>         |
| <b>Total Adjustments</b>                             | <b>(\$65,684.53)</b> | <b>(\$3,899.29)</b> |
| <b>BALANCE TO LEVY</b>                               | <b>\$145,111.44</b>  | <b>\$68,562.00</b>  |

(1) Table C. 2018/19 FUND BALANCE INFORMATION provides additional budget information.

#### B. 2018/19 ASSESSMENT RATES

| DESCRIPTION                                               | ZONE A           | ZONE D          |

| Transfer from/(to) the Operating Reserve                 | 147,728.01          | 18,470.55          |
| <b>Ending Rehab Reserve Balance 6-30-2019 (est.)</b>     | <b>\$127,988.72</b> | <b>\$41,114.06</b> |

## D. DESCRIPTION OF BUDGET ITEMS

Description of the terms used in the preceding Budget, Assessment Rates and Fund Balance tables are listed below:

### BUDGET:

#### DIRECT COSTS

**Contract Maintenance - Landscaping** – Includes all regularly scheduled contract labor, materials, supplies and equipment required to properly maintain and ensure the satisfactory condition or maintenance of all landscaping improvements, irrigation and related drainage systems, as well as maintenance of appurtenant facilities (the “improvements”). Cost to maintain improvements within the District’s entryway areas are not included in this amount.

**Contract Maintenance - Parks** - Includes all regularly scheduled contract labor, materials, supplies and equipment required to properly maintain and ensure the satisfactory condition or maintenance of park improvements, as well as maintenance of appurtenant facilities (the “improvements”).

**Repair & Maintenance - Landscaping/Parks** - This line item includes repairs or maintenance items that are generally unforeseen and not normally included in the annual maintenance contract costs. This may include repair of damaged amenities due to vandalism, storms, etc.

**Maintenance - Parks City Staff** - This line item includes maintenance items that are performed by the Parks staff.

**Utilities** - The furnishing of water and electricity required for the operation and maintenance of the improvements.

**Rehab Reserve Project Expenditures** – Expected costs for installation, replacement or planned upgrades of District improvements for the current year that were previously funded or accumulated in the Rehabilitation Reserve. The Rehabilitation Reserve is used to accumulate funds for costs associated with the future rehabilitation or replacement of District improvements that cannot be conveniently raised from a single year's assessment. If zero, this line item may not be shown in the budget.

### **ADMINISTRATION COSTS**

**City Administration** – Estimated costs incurred by the City Finance Department and other Departments in preparing the annual budget for the Engineer's Report, together with other financial information required to determine the annual assessment. These costs would also include the preparation, posting and publishing of public notices required for City Council action relating to the District, as well as costs to perform legal review of documents.

**Contract Administration – Park's Dept** – Estimated Costs of Park and Recreation Department staff to coordinate and oversee the maintenance contracts and overall repair and maintenance of the District. This amount also includes the cost of the Department's estimates and analysis of certain budget items, estimated costs and useful lives of certain District Improvements.

**County Auditor Fees** - A fee of 1% of the total levy amount that is charged to the District by the County for placing assessments on property tax bills.

**Consulting and Professional Services** – Includes the costs and expenses of contracting with various professionals to provide legal, engineering and district administration services directly related to the District, including the calculation of the annual assessment amounts and the preparation of the Engineer's' Report.

**Consultant Incidental Expenses** - Includes out of pocket costs related to district administration.

**Public Hearing Publishing Costs** –Includes the out of pocket costs to publish public notices required for City Council action relating to the District.

**Total Direct and Administration Costs** – The total expected costs of the District.

## **BUDGET ADJUSTMENTS**

**Replenishment/(Use) of Operating Reserve** – A “Replenishment” increases the levy in order to replenish the Operating Reserve. On the other hand, a “Use” of the Operating Reserve decreases the levy by drawing funds from the Operating Reserve for current year expenditures. If zero, this line item may not be shown in the budget. Further information regarding the function of the Operating Reserve is provided under “FUND BALANCE INFORMATION” in the following pages of this Section.

**Contribution for / (Use of) Rehab Reserve** — A “Contribution” increases the levy in order to generate funding for the Rehabilitation Reserve. This reserve allows for the accumulation of funds for the possible rehabilitation projects or replacements in future years. On the other hand, a “Use of” of the Rehabilitation Reserve provides current year funding of rehabilitation projects or replacements from available funds within the Rehabilitation Reserve. If zero, this line item may not be shown in the budget. Further information regarding the function of the Rehabilitation Reserve is provided under “FUND BALANCE INFORMATION” in the following pages of this Section.

**Rounding Adjustment** – The necessary rounding adjustment(s) due to limitations of the County property tax system that requires even penny levy amounts to be placed on the secured tax roll.

**BALANCE TO LEVY** - This is the total amount to be levied and collected through assessments for the current fiscal year for each zone. The Balance to Levy represents the sum of the total District costs together with any applicable adjustments to the budget as described above.

## **ASSESSMENT RATES:**

### **APPLIED ASSESSMENT RATES**

**Total Assessable Acreage** - The total acreage within each zone expected to be assessed in the current fiscal year.

**Total Assessable Units** - The total number of assessable single-family units within each zone expected to be assessed in the current fiscal year.

**Total Equivalent Benefit Units (“EBUs”)** - Total assessable EBUs within the District for the current fiscal year. Each assessable parcel is assigned EBUs as follows:

| Land Use                  | EBU per Unit/Acre |
|---------------------------|-------------------|
| Single Family Residential | 1.00 per Unit     |
| Multi-Family Residential  | 1.00 per Acre     |
| Non-Residential           | 1.00 per Acre     |
| Exempt                    | 0.00 per Acre     |

**Applied Assessment Rate per Equivalent Benefit Unit (EBU)** - The assessment rate per EBU to be applied to the applicable Zone for the current fiscal year.

**Maximum Assessment Rate per Equivalent Benefit Unit (EBU)** - The maximum assessment rate per EBU that can be applied to the applicable Zone for the current fiscal year.

**Potential Maximum Assessment Per Zone** – The total amount that can be assessed to all parcels within each Zone for the current fiscal year based upon the expected number of assessable units and acres.

## **FUND BALANCE INFORMATION:**

### **OPERATING RESERVE**

**Beginning Operating Reserve Balance 7-1-2018 (est.)** - The anticipated beginning balance of cash and receivables net of any unpaid prior year obligations for each Zone. These beginning balances shall be used to fund each Zone’s expenditures from July 1, 2018 to December 31, 2018, as the Operating Reserve is required to compensate for the approximate six-month delay between the start of the District’s fiscal year and the receipt of the collections from the County. All Rehabilitation Reserve balances, if any, are excluded from the Operating Reserve balances and shall be shown separately in the Report.

**Replenish from FY 18/19 Levy** – This amount is added to the levy in order to replenish the Operating Reserve. Due to the six-month delay from the District’s receipt of assessment collections, the Operating Reserve balance shall be sufficiently funded to provide for expenditures from the period of July 1, 2018 (the beginning of the Fiscal Year) through December 31, 2018. If zero, this line item may not be shown in the budget.

**Use for FY 18/19 Expenses** – The amount of the Operating Reserve to be used to fund FY 18/19 expenses. Portions of the Operating Reserve may be slated for current year expenditures in order to reduce the Ending Operating Reserve Balance to an amount no greater than the expected District costs for the period of July 1, 2018 (the beginning of the Fiscal Year) through December 31, 2018. If zero, this line item may not be shown in the budget.

**Transfer from/(to) the Rehab Reserve** — The amount of Operating Reserve monies to be transferred to or from the Rehabilitation Reserve. Periodically, funds held in a Rehabilitation Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Rehabilitation Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Parks and Recreation Department or equivalent, in order to provide for the maintenance and operation of the improvements. If zero, this line item may not be shown in the budget.

**Ending Operating Reserve Balance 6-30-2019 (est.)** - This amount represents the anticipated Operating Reserve balance/(deficit) for each Zone as of June 30, 2019. The size of each Zone's Operating Reserve is limited by Streets and Highways Code 22569 which states that an Operating Reserve shall not exceed the estimated costs of maintenance, service and incidental expenses from the first day of the fiscal year (July 1) to the date that the Agency expects to receive the first apportionment of collections from the County, which is estimated to be December 31. Therefore, each Zone may retain an Operating Reserve amounting to the District's first six-months of expenses in order to meet ongoing obligations until the first collections are received from the County. All Rehabilitation Reserve balances, if any, are excluded from the Operating Reserve balances and shall be shown separately in the Report.

## **REHABILITATION RESERVE**

**Beginning Rehab Reserve Balance 7-1-2018 (est.)** — The projected balance of funds in the Rehabilitation Reserve as of July 1, 2018. Streets and Highways Code 22660 allows the District to generate and accumulate funds over several years to fund District improvements that cannot be conveniently raised from a single year's assessment.

**Collect from FY 18/19 Levy** — This amount is added to the levy to accumulate funding of future year rehabilitation projects, replacements, restorations or upgrades of District improvements. If zero, this line item may not be shown in the budget.

**Use for FY 18/19 Rehab Projects** – The amount of Rehabilitation Reserve monies expected to be transferred out of the Rehabilitation Reserve to fund the costs of

installation, replacement or planned upgrades of District improvements for the current year. If zero, this line item may not be shown in the budget.

**Transfer from/(to) the Operating Reserve** — The amount of Rehabilitation Reserve monies to be transferred to or from the Operating Reserve. Periodically, funds held in a Rehabilitation Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Rehabilitation Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Parks and Recreation Department, in order to provide for the maintenance and operation of the improvements. If zero, this line item may not be shown in the budget.

**Ending Rehab Reserve Balance 6-30-2019 (est.)** - The projected balance of funds in the Rehabilitation Reserve as of June 30, 2019. These funds shall be used to provide for future year rehabilitation projects, replacements, restorations or upgrades of District improvements which cannot be conveniently raised from a single year's assessment.

Should the District have no Rehabilitation Reserve or related activity, the Rehabilitation Reserve information may not be presented in the Report.

#### **E. REHABILITATION RESERVE – CAPITAL IMPROVEMENT PLAN**

*Streets and Highways Code 22660* allows the District to generate and accumulate funds over several years to fund District improvements that cannot be conveniently raised from a single year's assessment. For each Zone showing a projected ending Rehabilitation Reserve balance, a Capital Improvement Plan showing the projected costs of the rehabilitation, restoration and /or replacement of District improvements and other allowable costs for each of the four years following FY 2018/19, is shown below.

**Zone A.** Rehabilitation, renovation and/or replacement costs of median improvements are projected to be \$13,000 in each of FYs 2019/20, 2020/21, 2021/22 and 2022/23; replacement, renovation, repair and/or refurbishment of plants, landscape & related materials are projected to be \$10,000 in each of FYs 2019/20, 2020/21, 2021/22 and 2022/23; and replacement of irrigation controller(s) \$12,000 in each of FYs 2019/20, 2020/21 and 2022/23. Total Rehabilitation costs for FYs 2019/20 through 2022/23 are \$128,000.

**Zone D.** Rehabilitation, renovation and/or replacement costs of project entryway improvements are projected to be \$10,000, \$10,000 and \$5,000 in FYs 2019/20, 2020/21 and 2021/22, respectively. Replacement, repair, renovation and/or refurbishment of plants, landscape & related materials are projected to be \$3,000, \$3,500, \$5,500 and \$5,000 in FYs 2019/20, 2020/21, 2021/22 and 2022/23, respectively. Total Rehabilitation costs for FYs 2019/20 through 2022/23 are \$42,000.

Periodically, funds held in a Rehabilitation Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Rehabilitation Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Parks and Recreation Department or equivalent, in order to provide for the maintenance and operation of the improvements.

## APPENDIX A – DISTRICT BOUNDARY MAP

The boundary map for the District has previously been submitted to the Clerk of the City in the format required under the Act and is, by reference, hereby made part of this Report. These District Boundary Maps are available for inspection at the office of the City Clerk during normal business hours.

For general reference purposes, a rendering of the District's Boundaries is presented herein.

## APPENDIX B — 2018/19 ASSESSMENT ROLL

Parcel identification, for each lot or parcel within the District, shall be the parcel as shown on the Placer County Assessor's map for the year in which this Report is prepared.

A listing of parcels to be assessed within this District, along with the proposed assessment amounts, may be submitted to the City Clerk, under a separate cover, and by reference is made part of this Report.

Non-assessable lots or parcels may include areas of public streets and other roadways (typically not assigned an APN by the County); dedicated public easements, open space areas and rights-of-ways, including public greenbelts and parkways; utility rights-of-ways; small parcels vacated by the County, bifurcated lots, and other property that cannot be developed, excepting common area parcels. These types of parcels are considered to receive little or no benefit from the improvements and are therefore exempted from assessment.

At the conclusion of the public hearing for the District and the proposed assessments, approval of the Report (as submitted or as modified) confirms the method of apportionment and the assessment rate to be levied against each eligible parcel and thereby constitutes the approved levy and collection of assessments for FY 2018/19. The listing of parcels and the amount of assessment to be levied shall be submitted to the County Auditor/Controller and included on the FY 2018/19 property tax roll for each parcel.

If any parcel submitted for collection is identified by the County Auditor/Controller to be an invalid parcel number for the current fiscal year, a corrected parcel number and/or new parcel numbers will be identified and resubmitted to the County Auditor/Controller. The assessment amount to be levied and collected for the resubmitted parcel or parcels shall be based on the method of apportionment and assessment rate approved in this Report. Therefore, if a single parcel has changed to multiple parcels, the assessment amount applied to each of the new parcels shall be recalculated and applied according to the approved method of apportionment and assessment rate rather than a proportionate share of the original assessment.

## RESOLUTION NO. 18-215

### **A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, AMENDING AND/OR APPROVING THE ENGINEER'S ANNUAL LEVY REPORT FOR THE RIVERSIDE AVENUE LANDSCAPING AND LIGHTING DISTRICT, FISCAL YEAR 2018/2019**

The City Council of the City of Roseville, California (hereafter referred to as the "City Council") does resolve as follows:

**WHEREAS**, The City Council has, by previous Resolutions, ordered the preparation of the Engineer's Annual Levy Report (hereafter referred to as the "Report") for said district known and designated as: Riverside Avenue Landscaping and Lighting District (hereinafter referred to as the "District"), pursuant to the provisions of the *Landscaping and Lighting Act of 1972, being Part 2 Division 15, of the Streets and Highways Code of the State of California, beginning with Section 22500* (hereinafter referred to as the "Act"), and,

**WHEREAS**, there has now been presented to this City Council the Report as required by *Chapter 3, Section 22623* of said Act, and as previously directed by Resolution; and,

**WHEREAS**, this City Council has carefully examined and reviewed the Report as presented (or amended), and is satisfied with each and all of the items and documents as set forth therein, and is satisfied that the levy has been spread in accordance with the benefits received from the improvements, operation, maintenance and services to be performed, as set forth in said Report.

**NOW, THEREFORE, BE IT RESOLVED, DETERMINED, AND ORDERED BY THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, FOR RIVERSIDE AVENUE LANDSCAPING AND LIGHTING DISTRICT, AS FOLLOWS:**

**Section 1** That the above recitals are all true and correct.

**Section 2** That the Report as presented, is hereby approved (as amended), and is ordered to be filed in the Office of the City Clerk as a permanent record and to remain open to public inspection.

**Section 3** That the City Clerk shall certify to the passage and adoption of this Resolution, and the minutes of this meeting shall so reflect the presentation and final approval of the Report.

**RESOLUTION NO. 18-215**

**PASSED, APPROVED, AND ADOPTED THIS** \_\_\_\_\_ day of \_\_\_\_\_, 2018.

## RESOLUTION NO. 18-216

### **A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA ORDERING THE LEVY AND COLLECTION OF ASSESSMENTS WITHIN THE RIVERSIDE AVENUE LANDSCAPING AND LIGHTING DISTRICT, FOR FISCAL YEAR 2018/2019**

The City Council of the City of Roseville, California (hereafter referred to as the “City Council”) does resolve as follows:

**WHEREAS**, the City Council of City of Roseville, California, has, by previous Resolutions, initiated proceedings, and declared its intention to levy assessments, and approved the Engineer’s Annual Levy Report (hereinafter referred to as the “Report”) that describes the assessments against parcels of land within the Riverside Avenue Landscaping and Lighting District (hereinafter referred to as the “District”) for the Fiscal Year commencing July 1, 2018, and ending June 30, 2019, pursuant to the provisions of the *Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the California Streets and Highways Code, commencing with Section 22500* (hereinafter referred to as the “Act”) to pay for the maintenance and services of all improvements and facilities related thereto; and

**WHEREAS**, the Engineer selected by the City Council has prepared and filed with the City Clerk, and the City Clerk has presented to the City Council, a Report in connection with the proposed levy and collection of assessments upon eligible parcels of land within the District, and the City Council did by previous Resolution approve such Report; and

**WHEREAS**, the City Council desires to levy and collect assessments against parcels of land within the District for the Fiscal Year commencing July 1, 2018 and ending June 30, 2019, to pay for the maintenance and services of all improvements and facilities related thereto.

**WHEREAS**, this City and its legal counsel have reviewed Proposition 218 and found that these assessments comply with applicable provisions of Articles XIIC and XIID of the California State Constitution; and,

**NOW, THEREFORE, BE IT RESOLVED, DETERMINED, AND ORDERED BY THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, FOR RIVERSIDE AVENUE LANDSCAPING AND LIGHTING DISTRICT, AS FOLLOWS:**

**Section 1** Following notice duly given, the City Council has held a full and fair public hearing regarding the District, the levy and collection of assessments, the Report prepared in connection therewith, and considered all oral and written statements, protests and communications made or filed by interested persons regarding these matters.

**Section 2** Based upon its review (and amendments, as applicable) of the Report, a copy of which has been presented to the City Council and which has been filed with the City Clerk, the City Council hereby finds and determines that:

- i) the land within the District will be benefited by the operation, maintenance and servicing of the improvements located within the boundaries of the District;
- ii) the District includes all of the lands receiving such special benefit; and,
- iii) the net amount to be assessed upon the lands within the District in accordance with the assessment for the Fiscal Year commencing July 1, 2018, and ending June 30, 2019, is apportioned by a formula and method which fairly distributes the net amount among all eligible parcels in proportion to the estimated benefits to be received by each parcel from the improvements and services.

**Section 3** The Report and assessments as presented to the City Council and on file in the Office of the City Clerk are hereby confirmed as filed.

**Section 4** The maintenance, operation and servicing of the improvements shall be performed pursuant to the Act. The City Council hereby orders the improvements to be made, which improvements are briefly described as follows: the improvements within the District include: maintenance, servicing, administration and operation of landscape, lighting and streetscape improvements, other public improvements within the street right of way areas and all appurtenant facilities related thereto within the District. The Engineer's Annual Levy Report describes all new improvements or substantial changes in existing improvements.

**Section 5** The County Auditor of the County of Placer shall enter on the County Assessment Roll, opposite each eligible parcel of land, the amount of levy so apportioned by the formula and method outlined in the Report, and such levies shall be collected at the same time and in the same manner as the County taxes are collected, pursuant to *Chapter 4, Article 2, Section 22646* of the Act. After collection by the County, the net amount of the levy shall be paid to the City Treasurer.

**Section 6** The City Treasurer shall deposit all money representing assessments collected by the County for the District to the credit of a fund for the Riverside Avenue Landscaping and Lighting District and such money shall be expended only for the maintenance, operation and servicing of the improvements, together with other expenses as described in Section 4.

**Section 7** The adoption of this Resolution constitutes the District levy for the Fiscal Year commencing July 1, 2018, and ending June 30, 2019.

**Section 8** The City Clerk's designee, Willdan Financial Services, is hereby authorized and directed to file the levy with the County Auditor subsequent to the adoption of this Resolution, pursuant to Chapter 4, Article 1, Section 22641 of the Act. The City Clerk is directed to deliver a certified copy of this adopted Resolution to Willdan Financial Services within two weeks of adoption via either e-mail to mashley@willdan.com or US Mail to: Willdan Financial Services, 27368 Via Industria, Suite 200, Temecula, CA 92590 Attn: Mickey Ashley.

## I. OVERVIEW

---

### A. INTRODUCTION

The City of Roseville (“City”) annually levies and collects special assessments in order to maintain the improvements within the Riverside Avenue Landscaping and Lighting District (“District”). The District was formed in January of 2007 and is levied annual assessments pursuant to *the Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the California Streets and Highways Code* (“1972 Act”).

The Engineer’s Report (“Report”) describes the District, any new annexations, changes to the District, and the proposed assessments for the period of July 1, 2018 through June 30, 2019. The special benefit assessments are based on historical and estimated costs to maintain the District improvements. These assessments, which provide a direct and special benefit to properties within the District, will provide funding for the operation and maintenance of District improvements.

The word “parcel,” for the purposes of this Report, refers to an individual property assigned its own Assessor’s Parcel Number (“APN”) by the Placer County Assessor’s Office. The Placer County Auditor/Controller uses Assessor’s Parcel Numbers and specific Tax Code Accounts, to identify on the County’s tax roll, properties assessed for special district benefit assessments.

Following approval of the Report, the City Council will by resolution, order the improvements to be made and confirm the levy and collection of assessments herein pursuant to the Act. The assessment rates and method of apportionment described in this Report as approved or modified by the City Council defines the assessments to be applied to each parcel within the District for Fiscal Year (“FY”) 2018/19. The assessments as approved will be submitted to the Placer County Auditor/Controller to be included on the property tax roll for each parcel.

If any parcel submitted for collection is identified by the County Auditor/Controller to be an invalid parcel number for the Current Fiscal Year, a corrected parcel number and/or new parcel numbers will be identified and resubmitted to the County Auditor/Controller. The assessment amount to be levied and collected for the resubmitted parcel or parcels shall be based on the method of apportionment and assessment rate approved by the City Council.

## **B. COMPLIANCE WITH CURRENT LEGISLATION**

The City Council, pursuant to the provisions of the “Landscaping and Lighting Act of 1972”, being Division 15, Part 2 of the Streets and Highways Code of the State of California, beginning with Section 22500 (the “1972 Act”); Article XIID of the Constitution of the State of California (“Article XIID”); and the Proposition 218 Omnibus Implementation Act, beginning with Government Code Section 53750 (the “Implementation Act”) (the 1972 Act, Article XIID and the Implementation Act are referred to collectively as the “Assessment Law”) initiated proceedings for the formation of the District on November 15, 2006 and to levy and collect annual assessments against lots and parcels within the District for FY 2007/08. On January 17, 2007, pursuant to Assessment Law, the City conducted a Public Hearing and tabulated the returned ballots. The City determined that a majority protest did not exist and approved the District’s maximum assessment rate and annual inflationary adjustment factor.

Pursuant to the Act, an annual Public Hearing is conducted by the City Council to accept property owner and public comments, to review the Engineer’s Annual Levy Report prior to approving the annual assessments to be levied on the County tax rolls. The assessments described in this Report have been prepared in accordance with the Act and Assessment Law.

## **C. DESCRIPTION OF DISTRICT BOUNDARIES**

The proposed territory within the District consists of all lots, parcels and subdivisions of land as shown on the Boundary Map titled “Boundary Map of Riverside Avenue Landscaping and Lighting District” contained within this report in Appendix A-1.

The District is bounded by Douglas Boulevard to the north, Darling Way to the south and includes parcels that front Riverside Avenue. It is centrally located between Interstate 80 and Downtown Roseville, and is east of the Union Pacific Railroad.

The District currently has a mix of different types of land uses including automotive related retail and car lots, community/neighborhood retail, offices, services, and residential units.

## **D. IMPROVEMENTS AUTHORIZED BY THE 1972 ACT**

As applicable or may be applicable to this proposed District, the 1972 Act defines improvements to mean one or any combination of the following:

- The installation or planting of landscaping.
- The installation or construction of statuary, fountains, and other ornamental structures and facilities.
- The installation or construction of public lighting facilities.

- The installation or construction of any facilities which are appurtenant to any of the foregoing or which are necessary or convenient for the maintenance or servicing thereof, including, but not limited to, grading, clearing, removal of debris, the installation or construction of curbs, gutters, walls, sidewalks, or paving, or water, irrigation, drainage, or electrical facilities.
- The maintenance or servicing, or both, of any of the foregoing.
- The acquisition of any existing improvement otherwise authorized pursuant to this section.

Incidental expenses associated with the improvements including, but not limited to:

- The cost of preparation of the report, including plans, specifications, estimates, diagram, and assessment;
- The costs of printing, advertising, and the publishing, posting and mailing of notices;
- Compensation payable to the County for collection of assessments;
- Compensation of any engineer or attorney employed to render services;
- Any other expenses incidental to the construction, installation, or maintenance and servicing of the improvements;
- Any expenses incidental to the issuance of bonds or notes pursuant to Section 22662.5.
- Costs associated with any elections held for the approval of a new or increased assessment.

The 1972 Act defines "Maintain" or "maintenance" to mean furnishing of services and materials for the ordinary and usual maintenance, operation, and servicing of any improvement, including:

- Repair, removal, or replacement of all or any part of any improvement.
- Providing for the life, growth, health, and beauty of landscaping, including cultivation, irrigation, trimming, spraying, fertilizing, or treating for disease or injury.
- The removal of trimmings, rubbish, debris, and other solid waste.
- The cleaning, sandblasting, and painting of walls and other improvements to remove or cover graffiti.

Furthermore, the 1972 Act specifies that where the cost of improvements (other than maintenance and operations) is greater than can be conveniently raised from a single annual assessment, an assessment to be levied and collected in annual installments. In that event, the governing body may choose to do any of the following:

- Provide for the accumulation of the moneys in an improvement fund until there are sufficient moneys to pay all or part of the cost of the improvements.

- Provide for a temporary advance to the improvement fund from any available and unencumbered funds of the local agency to pay all or part of the cost of the improvements and collect those advanced moneys from the annual installments collected through the assessments.
- Borrow an amount necessary to finance the estimated cost of the proposed improvements. The amount borrowed, including amounts for bonds issued to finance the estimated cost of the proposed improvements.

## **E. DESCRIPTION OF THE IMPROVEMENTS AND MAINTENANCE**

The District, through the levy of special assessments, is to provide funding for ongoing maintenance, operation and servicing of landscaping and lighting improvements located within the public rights-of-ways and dedicated easements located within the District. These improvements may include, but are not limited to, all materials, equipment, utilities, labor, and appurtenant facilities related to the ongoing maintenance of the improvements. The improvements to be maintained and services are generally described as follows:

### **Landscaping Improvements**

The general landscaping improvements in the District are to be consistent with the improvements on Vernon Street located north of the District, which intersects Riverside Avenue. As a gateway to downtown Roseville, Riverside Avenue's compatibility with Vernon Street links the downtown area and Riverside Gateway area together.

The landscaping improvements have been designed to enhance the area within the District and may include, but are not limited to ground cover, shrubs and plants, trees, irrigation and drainage systems, ornamental lighting, masonry walls or other fencing, hardscape improvements, monuments and landmarks, mid-block bulbs, bulb-outs, and associated appurtenants located within the street rights-of-way and public areas within the District. Specifically, the proposed landscape improvement areas for this District are:

- Landscaping and hardscape improvements within the public rights-of-way of the streets within the District including, but not limited to, Riverside Avenue including the corners of Riverside Avenue and Second Street, Third Street, Fourth Street, Fifth Street, Sixth Street, Darling Way, Fern Street, Cherry Street, and Bonita Street.
- Decorative banners along Riverside Avenue.
- Transit facilities including bus stop seating and decorative shelters.
- Roundabout improvements including plantings, paving, and landmark feature located at the intersection of Vernon St., Douglas Blvd., and Riverside Ave.
- A Gateway feature located at the intersection of Darling Way and Riverside Avenue.

- Various amenities associated with the landscape improvements and public areas within the District, including, but not limited to, trash receptacles, street furniture, bike racks, entry signs, sidewalks, fencing, and retaining walls.

Specifically not included as District improvements are those improvements located on private property, improvements and facilities that are outside the boundaries of the District and/or area funded by other sources available to the City.

### **Public Lighting Improvements**

The lighting improvements may include, but are not limited to, the cost of providing, maintaining and servicing of lighting fixtures, poles, meters, conduits, electrical cable, and associated appurtenant facilities associated with:

- Lighting facilities within the landscaped areas and public areas including safety lights, security lights or ornamental lights installed as part of the District improvements; and
- Public street light improvements located on the streets within the District. Specifically excluded from the assessment are the street light energy costs. These costs are to be paid for by the City from other revenue sources.

Detailed maps and descriptions of the location and extent of the specific improvements to be maintained by the District are on file in the Office of Public Works and by reference are made part of this Report.

### **Description of Maintenance and Services**

Maintenance means the furnishing of services and materials for the ordinary and usual maintenance, operation and servicing of landscaping and street lighting improvements facilities and appurtenant facilities, including repair, removal or replacement of all or part of any of the landscaping and street lighting improvements, or appurtenant facilities; providing for the life, growth, health and beauty of landscaping improvements including cultivation, irrigation, trimming, mowing, spraying, fertilizing and treating for disease or injury; the removal of trimmings, rubbish, debris and other solid waste; and the cleaning sandblasting, and painting of walls and other improvements to remove or cover graffiti.

Servicing means the furnishing of water and electricity for the irrigation of the landscape improvements or appurtenant facilities and the furnishing of electric current or energy for the operation of the landscaping improvements or appurtenant facilities. The street lighting improvements shall be maintained to provide adequate illumination; however, the City will be paying the actual energy costs of the street lights.

## II. METHOD OF APPORTIONMENT

---

### A. GENERAL

The Implementation Act permits the establishment of assessment districts by agencies for the purpose of providing certain public improvements, which include the construction, maintenance, and servicing of landscaping improvements, street lights and traffic signals.

Streets and Highways Code Section 22573 requires that maintenance assessments be levied according to benefit rather than the assessed value.

*“The net amount to be assessed upon lands within an assessment district may be apportioned by any formula or method which fairly distributes the net amount among all assessable lots or parcels in proportion to the estimated benefits to be received by each such lot or parcel from the improvements.”*

In addition, Article XIID and the Implementation Act require that a parcel's assessment may not exceed the reasonable cost for the proportional special benefit conferred to that parcel. Article XIID and the Implementation Act further provides that only special benefits are assessable and the City must separate the general benefits from the special benefits. They also require that publicly owned properties that specifically benefit from the improvements be assessed.

### B. SPECIAL BENEFIT ANALYSIS

In conjunction with the provisions of the 1972 Act, the California Constitution Article XIID addresses several key criteria for the levy of assessments, notably:

Article XIID Section 2d defines District as follows:

“District means an area determined by an agency to contain all parcels which will receive a special benefit from a proposed public improvement or property-related service”;

Article XIID Section 2i defines Special Benefit as follows:

“Special benefit” means a particular and distinct benefit over and above general benefits conferred on real property located in the district or to the public at large. General enhancement of property value does not constitute “special benefit.”

Article XIID Section 4a defines proportional special benefit assessments as follows:

“An agency which proposes to levy an assessment shall identify all parcels which will have a special benefit conferred upon them and upon which an assessment will be imposed. The proportionate special benefit derived by each identified parcel shall be determined in relationship to the entirety of the capital cost of a public improvement, the maintenance and operation expenses of a public improvement, or the cost of the property related service being provided. No assessment shall be imposed on any parcel which exceeds the reasonable cost of the proportional special benefit conferred on that parcel.”

This District was formed to establish and provide for the improvements that enhance the presentation of the surrounding properties and developments. These improvements will directly benefit the parcels to be assessed within the District. The assessments and method of apportionment is based on the premise that the assessments will be used to construct and install landscape and lighting improvements within the District as well as provide for the annual maintenance of those improvements, and the assessment revenues generated by District will be used solely for such purposes.

The costs of the proposed improvements have been identified and allocated to properties within the District based on special benefit. The improvements to be provided by this District and for which properties will be assessed have been identified as an essential component and local amenity that provides a direct reflection and extension of the properties within the District which the property owners and residents have expressed a high level of support.

The method of apportionment (method of assessment) set forth in the Report is based on the premise that each assessed property receives special benefits from the landscape and lighting improvements within the District, and the assessment obligation for each parcel reflects that parcel's proportional special benefits as compared to other properties that receive special benefits.

To identify and determine the proportional special benefit to each parcel within the District, it is necessary to consider the entire scope of the improvements provided as well as the properties that benefit from those improvements. The improvements and the associated costs described in this Report, have been carefully reviewed and have been identified and allocated based on a benefit rationale and calculations that proportionally allocate the net cost of only those improvements determined to be of special benefit to properties within the District. The various public improvements and the associated costs have been identified as either “general benefit” (not assessed) or “special benefit”.

Proper maintenance and operation of parkway landscaping and streetlights provides special benefit to adjacent properties by providing community character, security, safety and vitality. In addition, these improvements will enhance the ability of property owners to attract and maintain customers as well as increase the viability of commercial development.

### **Landscaping Special Benefit**

Landscaping and appurtenant facilities, if well maintained, provide beautification, shade and enhancement of the desirability of the surroundings, and therefore increase property value. Specifically they provide a sense of ownership and a common theme in the community providing aesthetic appeal and increased desirability of properties.

Landscaping provides special benefit to those developments that are directly adjacent to the public streets.

### **Landscaping General Benefit**

The Improvements were installed to directly benefit the property owners in the District to enhance business and development opportunities. Therefore, it has been determined that there are no general benefits associated with the landscaping improvements.

### **Lighting Special Benefit**

The operation, maintenance and servicing of lighting along local streets and arterial streets of a development provide the following special benefits:

- Improved security of lots and parcels along the perimeter of the development;
- Improved nighttime visibility for the local access of emergency vehicles; and
- Improved safety and traffic circulation to and from parcels.

### **Street Lights General Benefit**

Similar to the landscaping improvements described above, the Improvements were installed to directly benefit the property owners in the District to enhance business and development opportunities. Therefore, it has been determined that there are no general benefits associated with lighting improvements.

## **C. ASSESSMENT METHODOLOGY**

To establish the special benefit to the individual parcels within the District, a formula that spreads the costs of the maintenance based on the special benefit must be established. The improvements have been reviewed and a formula has been established to apportion the maintenance costs based on benefit.

The method of assessment is based on the front footage of each parcel located within the District. The parcel's Front Footage was determined based on Assessor Parcel maps or other sources. Only Front Footage on Riverside Avenue was used.

Based on the above formula, the FY 2007/08 maximum assessment rate approved on January 17, 2007 through a property owner balloting (the “Initial Assessment Rate” or the “Base Year Maximum Assessment Rate”) is \$6.45 per each foot of frontage.

The following formulas were used to first calculate the District’s Initial Assessment Rate and then each parcel’s FY 2007/08 assessment (proportional benefit):

**Step 1:**

$$\text{Balance to Levy} \div \text{Total Front Footage} = \text{Maximum Front Footage Rate}$$

**Step 2:**

$$\text{Parcel Front Footage} \times \text{Maximum Front Footage Rate} = \text{Maximum Assessment}$$

The Total Front Footage was the sum of all the Front Feet within the District. The Initial Assessment Rate per Front Foot was established by taking the total cost of improvements (Balance to Levy) and dividing that amount by the Total Front Footage within the District. The Initial Assessment Rate per Front Foot, which is also the FY 2007/08 Maximum Front Footage Rate, is then applied back to each individual parcel’s Front Footage to determine the parcel’s proportionate special benefit and assessment obligation (The FY 2007/08 Maximum Assessment).

#### **D. ASSESSMENT RANGE FORMULA**

The purpose of establishing an Assessment Range Formula is to provide for reasonable increases and inflationary adjustment to annual assessment rates without requiring the District to go through the requirements of Proposition 218 in order to get a small increase in assessments. This District provides for an annual adjustment to the Maximum Assessment Rate of the lesser of the percentage change in the Local Consumer Price Index of the San Francisco-Oakland-San Jose Area for All Urban Consumers (the “CPI”) or three percent (3%) (the “Escalation Percentage”). The CPI in this adjustment shall be determined through CPI data from the Bureau of Labor Statistics from December to December, beginning with the period from December 2006 to December 2007.

The Assessment Range Formula shall be applied to all future assessments within the District beginning in fiscal year 2008/09. Generally, if the proposed annual assessment rate for the current fiscal year is less than or equal to the calculated Maximum Assessment Rate, then the proposed annual assessment is not considered an increased assessment. The Maximum Assessment Rate is equal to the FY 2007/08 Maximum Assessment Rate, which was approved on January 17, 2007 through a property owner balloting (the “Initial Assessment Rate” or “Base Year Assessment Rate”), and adjusted annually by the Escalation Percentage.

Beginning in the second fiscal year (Fiscal Year 2008/09) and each fiscal year thereafter, the Maximum Assessment Rate would be recalculated and a new Maximum Assessment Rate established within the District.

The Maximum Assessment Rate is adjusted annually and is calculated independent of the District’s annual budget and proposed annual assessment. Any proposed annual assessment is not considered an increased assessment, even if the proposed assessment is greater than the assessment applied in the prior fiscal year.

Although the Maximum Assessment Rate will increase each year, the actual assessment rate may remain unchanged. The Maximum Assessment Rate adjustment is designed to establish a reasonable limit on assessments. The Maximum Assessment Rate calculated each year does not require or facilitate an increase to the annual assessment rate and neither does it restrict assessments to the adjusted maximum amount. If the budget and assessment for the fiscal year do not require an increase, or the increase is less than the adjusted Maximum Assessment Rate, then the required budget and assessment may be applied without additional property owner balloting. If the budget and assessments calculated requires an increase greater than the adjusted Maximum Assessment, then the assessment is considered an increased assessment and would be subject to balloting.

### III. DISTRICT BUDGET

#### A. 2018/19 BUDGET

| DESCRIPTION                                      | AMOUNTS            |
|--------------------------------------------------|--------------------|
| <b><u>DIRECT COSTS</u></b>                       |                    |
| Contract Maintenance - Landscaping               | \$5,135.00         |
| Repair & Maintenance - Landscaping               | 6,500.00           |
| Repair & Maintenance - Lighting                  | 1,000.00           |
| Repair and Maintenance - Streetscape and Signage | 2,000.00           |
| Utilities                                        | 8,820.00           |
| Rehab Reserve Expenditures - Signage             | <u>10,000.00</u>   |
| <b>Total Direct Costs</b>                        | <b>\$33,455.00</b> |
| <b><u>ADMINISTRATION COSTS</u></b>               |                    |
| City Administration                              | \$1,584.00         |
| Contract Administration - Park's Dept            | 1,738.00           |
| County Auditor Fees                              | 407.62             |
| Consulting & Professional Services               | 3,394.00           |
| Consultant Incidental Expenses                   | 20.00              |
| Public Hearing Publishing Costs                  | <u>795.00</u>      |
| <b>Total Administrative Costs</b>                | <b>\$7,938.62</b>  |
| <b>Total Direct and Administration Costs</b>     | <b>\$41,393.62</b> |
| <b><u>BUDGET ADJUSTMENTS</u></b>                 |                    |
| Replenishment/(Use) of Operating Reserve         | \$9,369.57         |
| Contribution for /(Use of) Rehab Reserve         | (10,000.00)        |
| Rounding Adjustment                              | <u>(1.21)</u>      |
| <b>Total Adjustments</b>                         | <b>(\$631.64)</b>  |
| <b>BALANCE TO LEVY</b>                           | <b>\$40,761.98</b> |

The following page provides additional budget information

## B. 2018/19 ASSESSMENT RATES

| DESCRIPTION                                       | AMOUNTS         |
|---------------------------------------------------|-----------------|
| <b><u>FY 2018/19 ASSESSMENT RATES</u></b>         |                 |
| Number of Assessable Parcels                      | 75              |
| Total Assessable Front Footage                    | 4,865.76        |
| <b>Assessment Rates</b>                           |                 |
| Applied Assessment Rate per each Foot of Frontage | 8.377310        |
| Maximum Assessment Rate per each Foot of Frontage | 8.377560        |
| <b>Potential Maximum Assessment</b>               | <b>\$40,763</b> |

## C. 2018/19 FUND BALANCE INFORMATION

| DESCRIPTION                                                | AMOUNTS             |
|------------------------------------------------------------|---------------------|
| <b><u>OPERATING RESERVE</u></b>                            |                     |
| <b>Beginning Operating Reserve Balance 7-1-2018 (est.)</b> | <b>\$139,478.56</b> |
| add: Replenish from FY 18/19 Levy                          | 9,369.57            |
| less: Use for FY 18/19 Expenses                            |                     |
| Transfer from/(to) the Rehab Reserve                       | (128,151.31)        |
| <b>Ending Operating Reserve Balance 6-30-2019 (est.)</b>   | <b>\$20,696.82</b>  |
| <b><u>REHABILITATION RESERVE</u></b>                       |                     |
| <b>Beginning Rehab Reserve Balance 7-1-2018 (est.)</b>     | <b>\$1,301.69</b>   |
| add: Collect from FY 18/19 Levy                            |                     |
| less: Use for FY 18/19 Rehab Projects                      | (10,000.00)         |
| Transfer from/(to) the Operating Reserve                   | 128,151.31          |
| <b>Ending Rehab Reserve Balance 6-30-2019 (est.)</b>       | <b>\$119,453.00</b> |

## **D. DESCRIPTION OF BUDGET ITEMS**

Description of the terms used in the preceding Budget, Assessment Rates and Fund Balance tables are listed below:

### **BUDGET:**

#### **DIRECT COSTS**

**Contract Maintenance - Landscaping** - Includes all regularly scheduled contract labor, materials, supplies and equipment required to properly maintain and ensure the satisfactory condition or maintenance of all landscaping improvements, irrigation and related drainage systems, as well as maintenance of appurtenant facilities (the “improvements”).

**Repair & Maintenance - Landscaping** - This line item includes repairs that are generally unforeseen and not normally included in the annual maintenance contract costs. This may include repair of damaged amenities due to vandalism, storms, etc.

**Repair & Maintenance – Lighting** - This line item includes bulb replacement and repairs that are generally unforeseen. This may include repair of damaged amenities due to vandalism, storms, etc.

**Repair & Maintenance - Streetscape/Signage** - This line item includes repairs that are generally unforeseen and not normally included in the annual maintenance contract costs. This may include repair of damaged amenities due to vandalism, storms, etc.

**Utilities** - The furnishing of water and electricity required for the operation and maintenance of the improvements.

**Rehab Reserve Project Expenditures** – Expected costs for installation, replacement or planned upgrades of District improvements for the current year that were previously funded or accumulated in the Rehabilitation Reserve. The Rehabilitation Reserve is used to accumulate funds for costs associated with the future rehabilitation or replacement of District improvements that cannot be conveniently raised from a single year’s assessment. If zero, this line item may not be shown in the budget.

#### **ADMINISTRATION COSTS**

**City Administration** – Estimated costs incurred by the City Finance Department and other Departments in preparing the annual budget for the Engineer’s Report,

together with other financial information required to determine the annual assessment. These costs would also include the preparation, posting and publishing of public notices required for City Council action relating to the District, as well as costs to perform legal review of documents.

**Contract Administration – Park’s Dept** – Estimated Costs of Park and Recreation Department staff to coordinate and oversee the maintenance contracts and overall repair and maintenance of the District. This amount also includes the cost of the Department’s estimates and analysis of certain budget items, estimated costs and useful lives of certain District Improvements.

**County Auditor Fees** - A fee of 1% of the total levy amount that is charged to the District by the County for placing assessments on property tax bills.

**Consulting and Professional Services** – Includes the costs and expenses of contracting with various professionals to provide legal, engineering and district administration services directly related to the District, including the calculation of the annual assessment amounts and the preparation of the Engineer’s’ Report.

**Public Hearing Publishing Costs** –Includes the out of pocket costs to publish public notices required for City Council action relating to the District.

**Total Direct and Administration Costs** – The total expected costs of the District.

## **BUDGET ADJUSTMENTS**

**Replenishment/(Use) of Operating Reserve** – A “Replenishment” increases the levy in order to replenish the Operating Reserve. On the other hand, a “Use” of the Operating Reserve decreases the levy by drawing funds from the Operating Reserve for current year expenditures. If zero, this line item may not be shown in the budget. Further information regarding the function of the Operating Reserve is provided under “FUND BALANCE INFORMATION” in the following pages of this Section.

**Contribution for /(Use of) Rehab Reserve** — A “Contribution” increases the levy in order to generate funding for the Rehabilitation Reserve. This reserve allows for the accumulation of funds for the possible rehabilitation projects or replacements in future years. On the other hand, a “Use of” of the Rehabilitation Reserve provides current year funding of rehabilitation projects or replacements from available funds within the Rehabilitation Reserve. If zero, this line item may not be shown in the budget. Further information regarding the function of the Rehabilitation Reserve is provided under “FUND BALANCE INFORMATION” in the following pages of this Section.

**Rounding Adjustment** – The necessary rounding adjustment(s) due to limitations of the County property tax system that requires even penny levy amounts to be placed on the secured tax roll.

**BALANCE TO LEVY** - This is the total amount to be levied and collected through assessments for the current fiscal year for each zone. The Balance to Levy represents the sum of the total District costs together with any applicable adjustments to the budget as described above.

## **ASSESSMENT RATES:**

### **APPLIED ASSESSMENT RATE**

**Number of Assessable Parcels** - The total number of parcels that are expected to be assessed. Non-assessable lots or parcels include government-owned land, public utility-owned property, land principally encumbered by public rights-of-way or easements, common areas, and/or parcels within the boundaries of the District currently do not benefit from the improvements and are therefore not assessed.

**Total Assessable Front Footage** - The total amount of assessable Front Footage within the District in accordance with the Method of Assessment Section of this Report.

**Applied Assessment Rate** - The assessment rate to be applied to the front footage of each non-exempt parcel within the District for the current fiscal year.

**Maximum Assessment Rate** - The Maximum Assessment Rate per front foot for the current fiscal year.

**Potential Maximum Assessment** – The total amount that can be assessed against all non-exempt District parcels for the current fiscal year based upon the expected assessable front footage within the District.

## **FUND BALANCE INFORMATION:**

### **OPERATING RESERVE**

**Beginning Operating Reserve Balance 7-1-2018 (est.)** - The anticipated beginning balance of cash and receivables net of any unpaid prior year obligations for each Zone. These beginning balances shall be used to fund each Zone's expenditures from July 1, 2018 to December 31, 2018, as the Operating Reserve is required to compensate for the approximate six-month delay between the start of the District's fiscal year and the receipt of the collections from the County. All Rehabilitation Reserve balances, if any, are excluded from the Operating Reserve balances and shall be shown separately in the Report.

**Replenish from FY 18/19 Levy** – This amount is added to the levy in order to replenish the Operating Reserve. Due to the six-month delay from the District's receipt of assessment collections, the Operating Reserve balance shall be sufficiently funded to provide for expenditures from the period of July 1, 2018 (the beginning of the Fiscal Year) through December 31, 2018. If zero, this line item may not be shown in the budget.

**Use for FY 18/19 Expenses** – The amount of the Operating Reserve to be used to fund FY 18/19 expenses. Portions of the Operating Reserve may be slated for current year expenditures in order to reduce the Ending Operating Reserve Balance to an amount no greater than the expected District costs for the period of July 1, 2018 (the beginning of the Fiscal Year) through December 31, 2018. If zero, this line item may not be shown in the budget.

**Transfer from/(to) the Rehab Reserve** — The amount of Operating Reserve monies to be transferred to or from the Rehabilitation Reserve. Periodically, funds held in a Rehabilitation Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Rehabilitation Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Parks and Recreation Department or equivalent, in order to provide for the maintenance and operation of the improvements. If zero, this line item may not be shown in the budget.

**Ending Operating Reserve Balance 6-30-2019 (est.)** - This amount represents the anticipated Operating Reserve balance/(deficit) for each Zone as of June 30, 2019. The size of each Zone's Operating Reserve is limited by Streets and Highways Code 22569 which states that an Operating Reserve shall not exceed the estimated costs of maintenance, service and incidental expenses from the first day of the fiscal year (July 1) to the date that the Agency expects to receive the first apportionment of collections from the County, which is estimated to be December 31. Therefore, each Zone may retain an Operating Reserve amounting to the District's first six-months of expenses in order to meet ongoing obligations until the first collections are received from the County. All Rehabilitation Reserve balances, if any, are excluded from the Operating Reserve balances and shall be shown separately in the Report.

### **REHABILITATION RESERVE**

**Beginning Rehab Reserve Balance 7-1-2018 (est.)** — The projected balance of funds in the Rehabilitation Reserve as of July 1, 2018. Streets and Highways Code 22660 allows the District generate and accumulate funds over several years to fund District improvements that cannot be conveniently raised from a single year's assessment.

**Collect from FY 18/19 Levy** — This amount is added to the levy to accumulate funding of future year rehabilitation projects, replacements, restorations or upgrades of District improvements. If zero, this line item may not be shown in the budget.

**Use for FY 18/19 Rehab Projects** – The amount of Rehabilitation Reserve monies expected to be transferred out of the Rehabilitation Reserve to fund the costs of installation, replacement or planned upgrades of District improvements for the current year. If zero, this line item may not be shown in the budget.

**Transfer from/(to) the Operating Reserve** — The amount of Rehabilitation Reserve monies to be transferred to or from the Operating Reserve. Periodically, funds held in a Rehabilitation Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Rehabilitation Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Parks and Recreation Department, in order to provide for the maintenance and operation of the improvements. If zero, this line item may not be shown in the budget.

**Ending Rehab Reserve Balance 6-30-2019 (est.)** - The projected balance of funds in the Rehabilitation Reserve as of June 30, 2019. These funds shall be used to provide for future year rehabilitation projects, replacements, restorations or upgrades of District improvements which cannot be conveniently raised from a single year's assessment.

## E. REHABILITATION RESERVE – CAPITAL IMPROVEMENT PLAN

*Streets and Highways Code 22660* allows the District to generate and accumulate funds over several years to fund District improvements that cannot be conveniently raised from a single year's assessment. A five-year Capital Improvement Plan showing the projected costs of the rehabilitation, restoration and/or replacement of District improvements and other allowable costs, excluding FY 2018/19, is shown below.

| Description                                                                                                  | FY 2019/20      | FY 2020/21      | FY 2021/22      | FY 2022/23      | Total            |
|--------------------------------------------------------------------------------------------------------------|-----------------|-----------------|-----------------|-----------------|------------------|
| Hardscape, monument, landmark and/or gateway feature improvements                                            |                 | \$3,000         | \$3,000         | \$5,000         | \$11,000         |
| Street furniture, trash receptacle, bike rack and/or bus stop shelter improvements                           | \$1,000         |                 |                 | 7,500           | 8,500            |
| Plants, landscaping, irrigation and/or drainage system replacements                                          | 10,000          | 10,000          | 10,000          | 10,000          | 40,000           |
| Public street lights, lighting fixtures, poles/meters, safety, security and/or ornamental light replacements | 10,000          | 10,000          | 10,000          | 25,000          | 55,000           |
| Entry sign, decorative banner and/or hardware replacements                                                   |                 | 1,000           | 4,000           |                 | 5,000            |
| <b>Total</b>                                                                                                 | <b>\$21,000</b> | <b>\$24,000</b> | <b>\$27,000</b> | <b>\$47,500</b> | <b>\$119,500</b> |

From time to time, funds held in a Rehabilitation Reserve may be needed to respond to changing needs due to the condition of the improvements or other factors. Accordingly, any or all funds held in a Rehabilitation Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Parks and Recreation Department or equivalent, in order to provide for the maintenance and/or operation of the improvements.

## APPENDIX A – DISTRICT BOUNDARY MAP

The boundary map for the District has previously been submitted to the Clerk of the City in the format required under the Act and is, by reference, hereby made part of this Report. These District Boundary Maps are available for inspection at the office of the City Clerk during normal business hours.

For general reference purposes, a summary of the District's Boundaries is presented herein.

## APPENDIX B — 2018/19 ASSESSMENT ROLL

Parcel identification, for each lot or parcel within the District, shall be the parcel as shown on the Placer County Assessor's map for the year in which this Report is prepared.

A listing of parcels to be assessed within this District, along with the proposed assessment amounts, shall be submitted to the City Clerk, under a separate cover, and by reference is made part of this Report.

Non-assessable lots or parcels may include areas of public streets and other roadways (typically not assigned an APN by the County); dedicated public easements, open space areas and rights-of-ways including public greenbelts and parkways; utility rights-of-ways; common areas; landlocked parcels, small parcels vacated by the County, bifurcated lots, and any other property that cannot be developed. These types of parcels are considered to receive little or no benefit from the improvements and are therefore exempted from assessment.

At the conclusion of the public hearing for the District and the proposed assessments, approval of the Report (as submitted or as modified) confirms the method of apportionment and the assessment rate to be levied against each eligible parcel and thereby constitutes the approved levy and collection of assessments for FY 2018/19. The listing of parcels and the amount of assessment to be levied shall be submitted to the County Auditor/Controller and included on the FY 2018/19 property tax roll for each parcel.

If any parcel submitted for collection is identified by the County Auditor/Controller to be an invalid parcel number for the Current Fiscal Year, a corrected parcel number and/or new parcel numbers will be identified and resubmitted to the County Auditor/Controller. The assessment amount to be levied and collected for the resubmitted parcel or parcels shall be based on the method of apportionment and assessment rate approved in this Report. Therefore, if a single parcel has changed to multiple parcels, the assessment amount applied to each of the new parcels shall be recalculated and applied according to the approved method of apportionment and assessment rate rather than a proportionate share of the original assessment.

**City of Roseville**  
**Riverside Avenue Landscaping and Lighting District**  
**Fiscal Year 2018/19 Preliminary Assessment Roll**

## RESOLUTION NO. 18-217

### **A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, AMENDING AND/OR APPROVING THE ENGINEER'S ANNUAL LEVY REPORT FOR THE VERNON STREET LANDSCAPING AND LIGHTING DISTRICT, FISCAL YEAR 2018/2019**

The City Council of the City of Roseville, California (hereafter referred to as the "City Council") does resolve as follows:

**WHEREAS**, The City Council has, by previous Resolutions, ordered the preparation of the Engineer's Annual Levy Report (hereafter referred to as the "Report") for said district known and designated as: Vernon Street Landscaping and Lighting District (hereinafter referred to as the "District"), pursuant to the provisions of the *Landscaping and Lighting Act of 1972, being Part 2 Division 15, of the Streets and Highways Code of the State of California, beginning with Section 22500* (hereinafter referred to as the "Act"), and,

**WHEREAS**, there has now been presented to this City Council the Report as required by *Chapter 3, Section 22623* of said Act, and as previously directed by Resolution; and,

**WHEREAS**, this City Council has carefully examined and reviewed the Report as presented (or amended), and is satisfied with each and all of the items and documents as set forth therein, and is satisfied that the levy has been spread in accordance with the benefits received from the improvements, operation, maintenance and services to be performed, as set forth in said Report.

**NOW, THEREFORE, BE IT RESOLVED, DETERMINED, AND ORDERED BY THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, FOR VERNON STREET LANDSCAPING AND LIGHTING DISTRICT, AS FOLLOWS:**

**Section 1** That the above recitals are all true and correct.

**Section 2** That the Report as presented, is hereby approved (as amended), and is ordered to be filed in the Office of the City Clerk as a permanent record and to remain open to public inspection.

**Section 3** That the City Clerk shall certify to the passage and adoption of this Resolution, and the minutes of this meeting shall so reflect the presentation and final approval of the Report.

**RESOLUTION NO. 18-217**

**PASSED, APPROVED, AND ADOPTED THIS** \_\_\_\_\_ day of \_\_\_\_\_, 2018.

## RESOLUTION NO. 18-218

### **A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA ORDERING THE LEVY AND COLLECTION OF ASSESSMENTS WITHIN THE VERNON STREET LANDSCAPING AND LIGHTING DISTRICT, FOR FISCAL YEAR 2018/2019**

The City Council of the City of Roseville, California (hereafter referred to as the “City Council”) does resolve as follows:

**WHEREAS**, the City Council of City of Roseville, California, has, by previous Resolutions, initiated proceedings, and declared its intention to levy assessments, and approved the Engineer’s Annual Levy Report (hereinafter referred to as the “Report”) that describes the assessments against parcels of land within the Vernon Street Landscaping and Lighting District (hereinafter referred to as the “District”) for the Fiscal Year commencing July 1, 2018, and ending June 30, 2019, pursuant to the provisions of the *Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the California Streets and Highways Code, commencing with Section 22500* (hereinafter referred to as the “Act”) to pay for the maintenance and services of all improvements and facilities related thereto; and

**WHEREAS**, the Engineer selected by the City Council has prepared and filed with the City Clerk, and the City Clerk has presented to the City Council, a Report in connection with the proposed levy and collection of assessments upon eligible parcels of land within the District, and the City Council did by previous Resolution approve such Report; and

**WHEREAS**, the City Council desires to levy and collect assessments against parcels of land within the District for the Fiscal Year commencing July 1, 2018, and ending June 30, 2019, to pay for the maintenance and services of all improvements and facilities related thereto.

**WHEREAS**, this City and its legal counsel have reviewed Proposition 218 and found that these assessments comply with applicable provisions of Articles XIIC and XIID of the California State Constitution; and,

**NOW, THEREFORE, BE IT RESOLVED, DETERMINED, AND ORDERED BY THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, FOR VERNON STREET LANDSCAPING AND LIGHTING DISTRICT, AS FOLLOWS:**

**Section 1** Following notice duly given, the City Council has held a full and fair public hearing regarding the District, the levy and collection of assessments, the Report prepared in connection therewith, and considered all oral and written statements, protests and communications made or filed by interested persons regarding these matters.

**Section 2** Based upon its review (and amendments, as applicable) of the Report, a copy of which has been presented to the City Council and which has been filed with the City Clerk, the City Council hereby finds and determines that:

- i) the land within the District will be benefited by the operation, maintenance and servicing of the improvements located within the boundaries of the District;
- ii) the District includes all of the lands receiving such special benefit; and,
- iii) the net amount to be assessed upon the lands within the District in accordance with the assessment for the Fiscal Year commencing July 1, 2018, and ending June 30, 2019, is apportioned by a formula and method which fairly distributes the net amount among all eligible parcels in proportion to the estimated benefits to be received by each parcel from the improvements and services.

**Section 3** The Report and assessments as presented to the City Council and on file in the Office of the City Clerk are hereby confirmed as filed.

**Section 4** The maintenance, operation and servicing of the improvements shall be performed pursuant to the Act. The City Council hereby orders the improvements to be made, which improvements are briefly described as follows: the improvements within the District include: maintenance, servicing, administration and operation of landscape, lighting and streetscape improvements, other public improvements within the street right of way areas and all appurtenant facilities related thereto within the District. The Engineer's Annual Levy Report describes all new improvements or substantial changes in existing improvements.

**Section 5** The County Auditor of the County of Placer shall enter on the County Assessment Roll, opposite each eligible parcel of land, the amount of levy so apportioned by the formula and method outlined in the Report, and such levies shall be collected at the same time and in the same manner as the County taxes are collected, pursuant to *Chapter 4, Article 2, Section 22646* of the Act. After collection by the County, the net amount of the levy shall be paid to the City Treasurer.

**Section 6** The City Treasurer shall deposit all money representing assessments collected by the County for the District to the credit of a fund for the Vernon Street Landscaping and Lighting District and such money shall be expended only for the maintenance, operation and servicing of the improvements, together with other expenses as described in Section 4.

**Section 7** The adoption of this Resolution constitutes the District levy for the Fiscal Year commencing July 1, 2018, and ending June 30, 2019.

**Section 8** The City Clerk's designee, Willdan Financial Services, is hereby authorized and directed to file the levy with the County Auditor subsequent to the adoption of this Resolution, pursuant to *Chapter 4, Article 1, Section 22641* of the Act. The City Clerk is directed to deliver a certified copy of this adopted Resolution to Willdan Financial Services within two weeks of adoption via either e-mail to mashley@willdan.com or US Mail to: Willdan Financial Services, 27368 Via Industria, Suite 200, Temecula, CA 92590 Attn: Mickey Ashley.

**RESOLUTION NO. 18-218**

**PASSED, APPROVED, AND ADOPTED THIS** \_\_\_\_\_ day of \_\_\_\_\_, 2018.

## I. OVERVIEW

---

### A. INTRODUCTION

The City of Roseville (“City”) annually levies and collects special assessments in order to maintain the improvements within the Vernon Street Landscaping and Lighting District (“District”). The District was formed in January of 2001 and is levied annual assessments pursuant to *the Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the California Streets and Highways Code* (“1972 Act”).

The Engineer’s Report (“Report”) describes the District, any new annexations, changes to the District, and the proposed assessments for the period of July 1, 2018 through June 30, 2019. The special benefit assessments are based on historical and estimated costs to maintain the District improvements. These assessments, which provide a direct and special benefit to properties within the District, will provide funding for the operation and maintenance of District improvements.

The word “parcel,” for the purposes of this Report, refers to an individual property assigned its own Assessor’s Parcel Number (“APN”) by the Placer County Assessor’s Office. The Placer County Auditor/Controller uses Assessor’s Parcel Numbers and specific Tax Code Accounts, to identify on the County’s tax roll, properties assessed for special district benefit assessments.

Following approval of the Report, the City Council will by resolution, order the improvements to be made and confirm the levy and collection of assessments herein pursuant to the Act. The assessment rates and method of apportionment described in this Report as approved or modified by the City Council defines the assessments to be applied to each parcel within the District for Fiscal Year (“FY”) 2018/19. The assessments as approved will be submitted to the Placer County Auditor/Controller to be included on the property tax roll for each parcel.

If any parcel submitted for collection is identified by the County Auditor/Controller to be an invalid parcel number for the Current Fiscal Year, a corrected parcel number and/or new parcel numbers will be identified and resubmitted to the County Auditor/Controller. The assessment amount to be levied and collected for the resubmitted parcel or parcels shall be based on the method of apportionment and assessment rate approved by the City Council.

## **B. COMPLIANCE WITH THE CURRENT LEGISLATION**

All assessments described in this Report and approved by the City Council are prepared in accordance with the 1972 Act and are in compliance with the provisions of the California Constitution Article XIID (Proposition 218).

The District has been formed pursuant to the Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the California Streets and Highways Code. Pursuant to the Act, an annual Public Hearing is conducted by the City Council to accept property owner and public comments, to review the Engineer's Annual Levy Report prior to approving the annual assessments to be levied on the County tax rolls. The assessments described in this Report have been prepared in accordance with the Act.

Prior to FY 2001/02, the City initiated (Resolution 00-523) and conducted property owner protest ballot proceedings (Resolution 01-22) in accordance with Article XIID of the California Constitution ("Article XIID") for the parcels within the District. An annual rate escalator was also included in the ballot that allows for an annual inflationary increase equal to the percentage change in the Consumer Price Index of the San Francisco-Oakland-San Jose Area as of January of each succeeding year (the "Escalation Percentage"). At the conclusion of the Public Hearing held on January 17, 2001, all property owner ballots returned were tabulated to determine if majority protest existed. The result of the protest proceeding was an approval of the assessment rate and the annual inflationary increase for maintaining the improvements within the District.

Pursuant to the Act, an annual Public Hearing is conducted by the City Council to accept property owner and public comments, to review the Engineer's Annual Levy Report prior to approving the annual assessments to be levied on the County tax rolls.

## **C. DESCRIPTION OF DISTRICT BOUNDARIES**

The District is located in downtown Roseville and includes all parcels that front along Vernon Street between Folsom Road and the Riverside/Douglas Boulevard. See Appendix A for District boundary map.

## **D. IMPROVEMENTS AUTHORIZED BY THE 1972 ACT**

As applicable or may be applicable to this proposed District, the 1972 Act defines improvements to mean one or any combination of the following:

- The installation or planting of landscaping.
- The installation or construction of statuary, fountains, and other ornamental structures and facilities.
- The installation or construction of public lighting facilities.

- The installation or construction of any facilities which are appurtenant to any of the foregoing or which are necessary or convenient for the maintenance or servicing thereof, including, but not limited to, grading, clearing, removal of debris, the installation or construction of curbs, gutters, walls, sidewalks, or paving, or water, irrigation, drainage, or electrical facilities.
- The maintenance or servicing, or both, of any of the foregoing.
- The acquisition of any existing improvement otherwise authorized pursuant to this section.

Incidental expenses associated with the improvements including, but not limited to:

- The cost of preparation of the report, including plans, specifications, estimates, diagram, and assessment;
- The costs of printing, advertising, and the publishing, posting and mailing of notices;
- Compensation payable to the County for collection of assessments;
- Compensation of any engineer or attorney employed to render services;
- Any other expenses incidental to the construction, installation, or maintenance and servicing of the improvements;
- Any expenses incidental to the issuance of bonds or notes pursuant to Section 22662.5.
- Costs associated with any elections held for the approval of a new or increased assessment.

The 1972 Act defines "Maintain" or "maintenance" to mean furnishing of services and materials for the ordinary and usual maintenance, operation, and servicing of any improvement, including:

- Repair, removal, or replacement of all or any part of any improvement.
- Providing for the life, growth, health, and beauty of landscaping, including cultivation, irrigation, trimming, spraying, fertilizing, or treating for disease or injury.
- The removal of trimmings, rubbish, debris, and other solid waste.
- The cleaning, sandblasting, and painting of walls and other improvements to remove or cover graffiti.

Furthermore, the 1972 Act specifies that where the cost of improvements (other than maintenance and operations) is greater than can be conveniently raised from a single annual assessment, an assessment to be levied and collected in annual installments. In that event, the governing body may choose to do any of the following:

- Provide for the accumulation of the moneys in an improvement fund until there are sufficient moneys to pay all or part of the cost of the improvements.

- Provide for a temporary advance to the improvement fund from any available and unencumbered funds of the local agency to pay all or part of the cost of the improvements and collect those advanced moneys from the annual installments collected through the assessments.
- Borrow an amount necessary to finance the estimated cost of the proposed improvements. The amount borrowed, including amounts for bonds issued to finance the estimated cost of the proposed improvements.

## **E. DESCRIPTION OF THE IMPROVEMENTS AND MAINTENANCE**

The District ensures the continued maintenance, servicing, administration and operation of various landscape, lighting and streetscape improvements and associated appurtenances that are required to keep the improvements in a healthy, vigorous, and satisfactory condition. The assessable parcels receive benefit from the above improvements within the District.

Specific improvements include installation, maintenance and servicing of public facilities, including, but not limited to street trees, sidewalks, curbs, gutters, parking stripes, turf, brick pavers, planters, gateways, benches, bike racks, signage, trash receptacles, and lighting throughout the boundaries of the District (the “Improvements”).

As applied herein, “installation” means the construction of public Improvements, including, but not limited to, land preparation, such as grading, leveling, cutting and filling, sod, landscaping, irrigation systems, sidewalks and drainage, lights, equipment, turf, brick pavers, planters, gateways, benches, bike racks and signage.

“Maintenance” means the furnishing of services and materials for the ordinary and usual maintenance, operation and servicing of any Improvement, including repair, removal or replacement of all or any part of any Improvement; providing for the life, growth, health, and beauty of landscaping, including cultivation, irrigation, trimming, spraying, fertilizing, or treating for disease or injury; the removal of trimmings, rubbish, debris, and other solid waste, and the cleaning, sandblasting, and painting of Improvements to remove or cover graffiti.

“Servicing” means the furnishing of electric current, or energy, gas or other illuminating agent for any public lighting facilities or for the lighting or operation of any other Improvements; or water for the irrigation of any landscaping, the operation of any fountains, or the maintenance of any other Improvements.

Plans and specification for the Improvements to be maintained are on file in the office of the Economic and Community Services Director at 311 Vernon Street, Roseville, CA 95678.

All assessable parcels identified as being within the District share in both the cost and the benefits of the improvements. The costs associated with the Improvements are equitably spread among all benefiting parcels within the District. Only parcels that receive direct benefit from the Improvements are assessed, and each parcel is assessed in proportion to the estimated benefit received. The funds collected are dispersed and used for only the services and operation provided to the District.

## II. METHOD OF APPORTIONMENT

---

### A. GENERAL

The 1972 Act permits the establishment of assessment districts by agencies for the purpose of providing certain public improvements which include the construction, maintenance and servicing of public lights, landscaping and appurtenant facilities. The 1972 Act further requires that the cost of these improvements be levied according to benefit rather than assessed value:

*“The net amount to be assessed upon lands within an assessment district may be apportioned by any formula or method which fairly distributes the net amount among all assessable lots or parcels in proportion to the estimated benefits to be received by each such lot or parcel from the improvements.”*

The formula used for calculating assessments in the District therefore reflects the composition of the parcels, and the Improvements and services provided, to fairly apportion the costs based on estimated benefit to each parcel.

### B. BENEFIT ANALYSIS

In conjunction with the provisions of the 1972 Act, the California Constitution Article XIID addresses several key criteria for the levy of assessments, notably:

Article XIID Section 2d defines District as follows:

“District means an area determined by an agency to contain all parcels which will receive a special benefit from a proposed public improvement or property-related service”;

Article XIID Section 2i defines Special Benefit as follows:

“Special benefit” means a particular and distinct benefit over and above general benefits conferred on real property located in the district or to the public at large. General enhancement of property value does not constitute “special benefit.”

Article XIIID Section 4a defines proportional special benefit assessments as follows:

“An agency which proposes to levy an assessment shall identify all parcels which will have a special benefit conferred upon them and upon which an assessment will be imposed. The proportionate special benefit derived by each identified parcel shall be determined in relationship to the entirety of the capital cost of a public improvement, the maintenance and operation expenses of a public improvement, or the cost of the property related service being provided. No assessment shall be imposed on any parcel which exceeds the reasonable cost of the proportional special benefit conferred on that parcel.”

This District was formed to establish and provide for the improvements that enhance the presentation of the surrounding properties and developments. These improvements will directly benefit the parcels to be assessed within the District. The assessments and method of apportionment is based on the premise that the assessments will be used to construct and install landscape and lighting improvements within the District as well as provide for the annual maintenance of those improvements, and the assessment revenues generated by District will be used solely for such purposes.

The costs of the proposed improvements have been identified and allocated to properties within the District based on special benefit. The improvements to be provided by this District and for which properties will be assessed have been identified as an essential component and local amenity that provides a direct reflection and extension of the properties within the District which the property owners and residents have expressed a high level of support.

The method of apportionment (method of assessment) set forth in the Report is based on the premise that each assessed property receives special benefits from the landscape and lighting improvements within the District, and the assessment obligation for each parcel reflects that parcel's proportional special benefits as compared to other properties that receive special benefits.

To identify and determine the proportional special benefit to each parcel within the District, it is necessary to consider the entire scope of the improvements provided as well as the properties that benefit from those improvements. The improvements and the associated costs described in this Report, have been carefully reviewed and have been identified and allocated based on a benefit rationale and calculations that proportionally allocate the net cost of only those improvements determined to be of special benefit to properties within the District. The various public improvements and the associated costs have been identified as either “general benefit” (not assessed) or “special benefit”. The City initiated and conducted property owner protest ballot proceedings in accordance with Article XIIID. Each of the proposed Improvements, the associated costs and assessments were identified and allocated based on special benefit pursuant to the provisions of Article XIIID and 1972 Act. Additionally, the Improvements and the annual costs

of ensuring the maintenance and operation of the Improvements are of direct and special benefit to the properties.

The City annually levies and collects special benefit assessments in order to maintain and service the District Improvements. The District provides for specific Improvements and services that include the maintenance and operation of landscaping and lighting Improvements and associated appurtenances located within the District's public rights-of-way and dedicated easements. The annual assessment is based on the historical and estimated cost to maintain the Improvements that provide a benefit to properties within these Districts. The Improvements within the District and the costs of those Improvements are identified and budgeted separately, including all expenditures, deficits, surpluses, revenues, and reserves.

All Improvements within the District and the properties associated with those Improvements were reviewed for benefit prior to the formation of the District. Because the Improvements affront the benefited parcels, it has been determined that there is no measurable general benefit to properties outside the District or to the public at large. In making this determination it should be noted that similar improvements within California are typically maintained by individual property owners, through some type of association or a special district as allowed by State Law since the on-going maintenance of these improvements are a special benefit to the properties associated with those improvements.

The method of apportionment (method of assessment) for the District is based on the premise that each of the assessed parcels within the District receives special benefit from the Improvements maintained and financed by District assessments. The presence of these Improvements and the close proximity of the Improvements to the properties within the District enhance the desirability and security of properties within the District.

The landscape Improvements provided by the District may include landscaped parkways, perimeters, entryways, local medians, slopes, internal amenities and appurtenant facilities. Street lighting Improvements may include all energy costs and necessary maintenance to the facilities related thereto. The annual assessments outlined in this Report are proposed to cover the estimated costs to provide all necessary service, operation, administration, and maintenance required to keep these Improvements in a healthy, vigorous, and satisfactory condition. The special benefits associated with the local landscaping Improvements are specifically:

The special benefits associated with all landscaping Improvements are specifically:

- Enhanced desirability of properties through association with the Improvements.
- Improved aesthetic appeal of properties providing a positive representation of the area and properties.

- Enhanced adaptation of the urban environment within the natural environment from adequate landscaping.
- Environmental enhancement through improved dust and debris control, and fire prevention.
- Increased sense of pride in ownership of property within the District resulting from well-maintained Improvements associated with the properties.
- Enhanced quality of life through well-maintained landscaped areas.
- Reduced criminal activity and property-related crimes (especially vandalism) against properties in the District through well-maintained surroundings and amenities including abatement of graffiti.
- Enhanced environmental quality of the parcels by moderating temperatures, providing oxygenation and attenuating noise.

The special benefits of street lighting are the convenience, safety, and security of property, improvements, and goods. Specifically:

- Enhanced deterrence of crime and the aid to police protection.
- Increased nighttime safety on streets and roads within the Districts.
- Improved ability of pedestrians and motorists to see.
- Improved ingress and egress to property.
- Reduced vandalism and other criminal acts and damage to Improvements or property.
- Improved traffic circulation and reduced nighttime accidents and personal property loss.
- Increased promotion of business during nighttime hours in the case of commercial properties.

All of the preceding special benefits contribute to a specific enhancement and desirability of each of the assessed parcels within the District.

### **C. DESCRIPTION OF THE METHOD OF APPORTIONMENT**

Pursuant to the 1972 Act, the costs of the District may be apportioned by any formula or method that fairly distributes the net amount to be assessed, among all assessable parcels within the District in proportion to the estimated special benefits to be received by each such parcel from the Improvements. The special benefit formula used should reflect the composition of the parcels, the Improvements and services provided to fairly proportion the costs based on estimated special benefit to each parcel within the District. All assessable parcels within the District shall

receive a direct special benefit from the services and Improvements provided by the District.

Article XIID of the California Constitution specifies that only special benefits are assessable and that the City must separate the general benefits from the special benefits conferred on any parcel. Since the District is a downtown business area and the Improvements that affront each District parcel primarily attract and retain an increased customer base, these benefits enhance the District parcels and there is no measurable benefit to the public at large. Therefore, 100% of the Improvements are considered special benefit to the District parcels. The cost of maintaining the Improvements is therefore identified as special benefit and has been allocated to the special assessments.

It was determined that a uniform assessment rate per foot of frontage upon Vernon Street would fairly distribute the net amount to be assessed due to the following reasons:

1. The assessments are based upon a specific property owner's special benefit received from the Improvements.
2. The special benefits should be directly related to the extent at which a property fronts the improvements, relative to other properties in the District.

The base assessment rate for the District was \$4.59 per linear foot in FY 2001/02 and was determined using the formula below.

$$\text{Assessment Rate Per Foot} = \frac{\text{Balance to Levy}}{\text{Total Feet of Frontage}}$$

The annual assessment amount for each parcel was then determined using the formula below:

$$\text{Parcel Front Footage} \times \text{Rate per Linear Foot} = \text{Parcel Assessment Amount}$$

#### **D. ANNUAL INFLATIONARY ADJUSTMENT**

Commencing with FY 2002/03, the maximum assessment rate shall increase by the percentage change in the Consumer Price Index of the San Francisco-Oakland-San Jose Area ("CPI") as of January of each succeeding year (the "Escalation Percentage"). Since the Department of Labor, Bureau of Labor Statistics does not publish a CPI for January; the CPI for preceding month shall be used since this is the CPI *available* in the month of January. The District's starting CPI Index of 184.1, December of 2000, is hereby established as the base CPI (the "Base Year CPI Index").

If the proposed assessment increases over the prior fiscal year by a percentage no greater than the Escalation Percentage as defined above, then the proposed assessment is not considered an increase. This assessment range formula shall be applied to all future assessments within the District. Generally, if the proposed annual assessment rate for the Current Fiscal Year is less than or equal to the calculated maximum assessment rate, then the proposed annual assessment is not considered an increased assessment.

#### **E. APPEALS AND INTERPRETATION**

Any property owner, who believes that the assessment levied on the subject property is in error as a result of incorrect information being used to apply the foregoing method of assessment, may file a written appeal with the Finance Director of the City of Roseville or his or her designee. Any such appeal is limited to correction of an assessment during the then Current Fiscal Year. Upon the filing of any such appeal, the Director of Housing and Redevelopment or his or her designee will promptly review the appeal and any information provided by the property owner. If the Director of Housing and Redevelopment or his or her designee finds that the assessment should be modified, the appropriate changes shall be made to the assessment roll. However, if any such changes are approved after the County of Placer's deadline for adjustments to the tax roll, the Director of Housing and Redevelopment or his or her designee is authorized to approve a refund of the reduction amount to the property owner. Any dispute over the decision of the Director of Housing and Redevelopment or his or her designee, shall be referred to the City Council of the City of Roseville and the decision of the City Council of the City of Roseville shall be final.

#### **F. DETERMINATION OF FRONT FOOTAGE**

The front footage of each assessable parcel is subject to revision and/or correction using measurements of front footage found on the then current Placer County Assessor's Parcel Maps or through direct measurement by City personnel. Any such correction that increases a Parcel Assessment shall not be considered an increased assessment subject to the procedural provisions of Article XIID.

### III. DISTRICT BUDGET

#### A. FY 2018/19 BUDGET

| DESCRIPTION                                      | AMOUNTS              |
|--------------------------------------------------|----------------------|
| <b><u>DIRECT COSTS</u></b>                       |                      |
| Contract Maintenance - Landscaping               | \$5,055.00           |
| Repair & Maintenance - Landscaping               | 8,400.00             |
| Repair & Maintenance - Lighting                  | 2,500.00             |
| Repair and Maintenance - Streetscape and Signage | 2,000.00             |
| Utilities                                        | 9,240.00             |
| Rehab Reserve Project Expenditures               | <u>20,000.00</u>     |
| <b>Total Direct Costs</b>                        | <b>\$47,195.00</b>   |
| <b><u>ADMINISTRATION COSTS</u></b>               |                      |
| City Administration                              | \$1,444.00           |
| Contract Administration - Park's Dept            | 2,434.00             |
| County Auditor Fees                              | 371.46               |
| Consulting & Professional Services               | 3,370.00             |
| Consultant Incidental Expenses                   | 20.00                |
| Public Hearing Publishing Costs                  | <u>775.00</u>        |
| <b>Total Administrative Costs</b>                | <b>\$8,414.46</b>    |
| <b>Total Direct and Administration Costs</b>     | <b>\$55,609.46</b>   |
| <b><u>BUDGET ADJUSTMENTS</u></b>                 |                      |
| Replenishment/(Use) of Operating Reserve         | \$1,537.47           |
| Contribution for /(Use of) Rehab Reserve         | (20,000.00)          |
| Rounding Adjustment                              | <u>(0.59)</u>        |
| <b>Total Adjustments</b>                         | <b>(\$18,463.12)</b> |
| <b>BALANCE TO LEVY</b>                           | <b>\$37,146.34</b>   |

The following page provides additional budget information

## B. FY 2018/19 ASSESSMENT RATES

| DESCRIPTION                                        | AMOUNTS         |
|----------------------------------------------------|-----------------|
| <b><u>FY 2018/19 ASSESSMENT RATES</u></b>          |                 |
| Number of Assessable Parcels                       | 61              |
| Total Assessable Front Footage                     | 5,370.76        |
| <b>Assessment Rates</b>                            |                 |
| Applied Assessment Rates per each Foot of Frontage | \$6.9164        |
| Maximum Assessment Rates per each Foot of Frontage | \$6.9165        |
| <b>Potential Maximum Assessment</b>                | <b>\$37,146</b> |

## C. FY 2018/19 FUND BALANCE INFORMATION

| DESCRIPTION                                                | AMOUNTS            |
|------------------------------------------------------------|--------------------|

| <b>Beginning Operating Reserve Balance 7-1-2018 (est.)</b> | <b>\$65,088.32</b> |
| add: Replenish from FY 18/19 Levy                          | 1,537.47           |
| less: Use for FY 18/19 Expenses                            |                    |
| Transfer from/(to) the Rehab Reserve                       | (38,821.06)        |
| <b>Ending Operating Reserve Balance 6-30-2019 (est.)</b>   | <b>\$27,804.73</b> |
| <b><u>REHABILITATION RESERVE</u></b>                       |                    |
| <b>Beginning Rehab Reserve Balance 7-1-2018 (est.)</b>     | <b>25,248.55</b>   |
| add: Collect from FY 18/19 Levy                            |                    |
| less: Use for FY 18/19 Rehab Projects                      | (20,000.00)        |
| Transfer from/(to) the Operating Reserve                   | 38,821.06          |
| <b>Ending Rehab Reserve Balance 6-30-2019 (est.)</b>       | <b>\$44,069.61</b> |

## D. DESCRIPTION OF BUDGET ITEMS

Description of the terms used in the preceding Budget, Assessment Rates and Fund Balance tables are listed below:

### BUDGET:

#### DIRECT COSTS

**Contract Maintenance - Landscaping** - Includes all regularly scheduled contract labor, materials, supplies and equipment required to properly maintain and ensure the satisfactory condition or maintenance of all landscaping corridors, street medians, entryways, irrigation and related drainage systems as well as maintenance of appurtenant facilities (the “improvements”).

**Repair & Maintenance – Landscaping** - This line item includes repairs that are generally unforeseen and not normally included in the annual maintenance contract costs. This may include repair of damaged amenities due to vandalism, storms, etc. If zero, this line item may not be shown in the budget.

**Repair & Maintenance – Lighting** - This line item includes bulb replacement and repairs that are generally unforeseen. This may include repair of damaged amenities due to vandalism, storms, etc.

**Repair & Maintenance - Streetscape/Signage** - This line item includes repairs that are generally unforeseen and not normally included in the annual maintenance contract costs. This may include repair of damaged amenities due to vandalism, storms, etc.

**Utilities** - The furnishing of water and electricity required for the operation and maintenance of the improvements.

**Rehab Reserve Project Expenditures** – Expected costs for installation, replacement or planned upgrades of District improvements for the current year that were previously funded or accumulated in the Rehabilitation Reserve. The Rehabilitation Reserve is used to accumulate funds for costs associated with the future rehabilitation or replacement of District improvements that cannot be conveniently raised from a single year’s assessment. If zero, this line item may not be shown in the budget.

## **ADMINISTRATION COSTS**

**City Administration** – Estimated costs incurred by the City Finance Department and other Departments in preparing the annual budget for the Engineer’s Report, together with other financial information required to determine the annual assessment. These costs would also include the preparation, posting and publishing of public notices required for City Council action relating to the District, as well as costs to perform legal review of documents.

**Contract Administration – Park’s Dept** – Estimated Costs of Park and Recreation Department staff to coordinate and oversee the maintenance contracts and overall repair and maintenance of the District. This amount also includes the cost of the Department’s estimates and analysis of certain budget items, estimated costs and useful lives of certain District Improvements.

**County Auditor Fees** - A fee of 1% of the total levy amount that is charged to the District by the County for placing assessments on property tax bills.

**Consulting and Professional Services** – Includes the costs and expenses of contracting with various professionals to provide legal, engineering and district administration services directly related to the District, including the calculation of the annual assessment amounts and the preparation of the Engineer's' Report.

**Public Hearing Publishing Costs** –Includes the out of pocket costs to publish public notices required for City Council action relating to the District.

**Total Direct and Administration Costs** – The total expected costs of the District.

### **BUDGET ADJUSTMENTS**

**Replenishment/(Use) of Operating Reserve** – A “Replenishment” increases the levy in order to replenish the Operating Reserve. On the other hand, a “Use” of the Operating Reserve decreases the levy by drawing funds from the Operating Reserve for current year expenditures. If zero, this line item may not be shown in the budget. Further information regarding the function of the Operating Reserve is provided under “FUND BALANCE INFORMATION” in the following pages of this Section.

**Contribution for /(Use of) Rehab Reserve** — A “Contribution” increases the levy in order to generate funding for the Rehabilitation Reserve. This reserve allows for the accumulation of funds for the possible rehabilitation projects or replacements in future years. On the other hand, a “Use of” of the Rehabilitation Reserve provides current year funding of rehabilitation projects or replacements from available funds within the Rehabilitation Reserve. If zero, this line item may not be shown in the budget. Further information regarding the function of the Rehabilitation Reserve is provided under “FUND BALANCE INFORMATION” in the following pages of this Section.

**Rounding Adjustment** – The necessary rounding adjustment(s) due to limitations of the County property tax system that requires even penny levy amounts to be placed on the secured tax roll.

**BALANCE TO LEVY** - This is the total amount to be levied and collected through assessments for the current fiscal year for each zone. The Balance to Levy represents the sum of the total District costs together with any applicable adjustments to the budget as described above.

## **ASSESSMENT RATES:**

### **APPLIED ASSESSMENT RATE**

**Number of Assessable Parcels** - The total number of parcels that are expected to be assessed. Non-assessable lots or parcels include government-owned land, public utility-owned property, land principally encumbered by public rights-of-way or easements, common areas, and/or parcels within the boundaries of the District currently do not benefit from the improvements and are therefore not assessed.

**Total Assessable Front Footage** - The total linear footage of that portion of each assessable parcel's boundary that is contiguous with Vernon Street.

**Applied Assessment Rate per Front Foot** - This amount represents the rate being applied to the front footage of each parcel for the Current Fiscal Year.

**Maximum Assessment Rate per Front Foot** - This amount represents the maximum rate that can be being applied to the front footage of each parcel for the Current Fiscal Year.

**Maximum Potential Assessment** – The total amount that is expected to be assessed against all parcels within the District for the Current Fiscal Year.

## **FUND BALANCE INFORMATION:**

### **OPERATING RESERVE**

**Beginning Operating Reserve Balance 7-1-2018 (est.)** - The anticipated beginning balance of cash and receivables net of any unpaid prior year obligations for each Zone. These beginning balances shall be used to fund each Zone's expenditures from July 1, 2018 to December 31, 2018, as the Operating Reserve is required to compensate for the approximate six-month delay between the start of the District's fiscal year and the receipt of the collections from the County. All Rehabilitation Reserve balances, if any, are excluded from the Operating Reserve balances and shall be shown separately in the Report.

**Replenish from FY 18/19 Levy** – This amount is added to the levy in order to replenish the Operating Reserve. Due to the six-month delay from the District's receipt of assessment collections, the Operating Reserve balance shall be sufficiently funded to provide for expenditures from the period of July 1, 2018 (the beginning of the Fiscal Year) through December 31, 2018. If zero, this line item may not be shown in the budget.

**Use for FY 18/19 Expenses** – The amount of the Operating Reserve to be used to fund FY 18/19 expenses. Portions of the Operating Reserve may be slated for current year expenditures in order to reduce the Ending Operating Reserve

Balance to an amount no greater than the expected District costs for the period of July 1, 2018 (the beginning of the Fiscal Year) through December 31, 2018. If zero, this line item may not be shown in the budget.

**Transfer from/(to) the Rehab Reserve** — The amount of Operating Reserve monies to be transferred to or from the Rehabilitation Reserve. Periodically, funds held in a Rehabilitation Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Rehabilitation Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Parks and Recreation Department or equivalent, in order to provide for the maintenance and operation of the improvements. If zero, this line item may not be shown in the budget.

**Ending Operating Reserve Balance 6-30-2019 (est.)** - This amount represents the anticipated Operating Reserve balance/(deficit) for each Zone as of June 30, 2019. The size of each Zone's Operating Reserve is limited by Streets and Highways Code 22569 which states that an Operating Reserve shall not exceed the estimated costs of maintenance, service and incidental expenses from the first day of the fiscal year (July 1) to the date that the Agency expects to receive the first apportionment of collections from the County, which is estimated to be December 31. Therefore, each Zone may retain an Operating Reserve amounting to the District's first six-months of expenses in order to meet ongoing obligations until the first collections are received from the County. All Rehabilitation Reserve balances, if any, are excluded from the Operating Reserve balances and shall be shown separately in the Report.

## **REHABILITATION RESERVE**

**Beginning Rehab Reserve Balance 7-1-2018 (est.)** — The projected balance of funds in the Rehabilitation Reserve as of July 1, 2018. Streets and Highways Code 22660 allows the District generate and accumulate funds over several years to fund District improvements that cannot be conveniently raised from a single year's assessment.

**Collect from FY 18/19 Levy** — This amount is added to the levy to accumulate funding of future year rehabilitation projects, replacements, restorations or upgrades of District improvements. If zero, this line item may not be shown in the budget.

**Use for FY 18/19 Rehab Projects** – The amount of Rehabilitation Reserve monies expected to be transferred out of the Rehabilitation Reserve to fund the costs of installation, replacement or planned upgrades of District improvements for the current year. If zero, this line item may not be shown in the budget.

**Transfer from/(to) the Operating Reserve** — The amount of Rehabilitation Reserve monies to be transferred to or from the Operating Reserve. Periodically, funds held in a Rehabilitation Reserve may be needed to respond to changing

maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Rehabilitation Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Parks and Recreation Department, in order to provide for the maintenance and operation of the improvements. If zero, this line item may not be shown in the budget.

**Ending Rehab Reserve Balance 6-30-2019 (est.)** - The projected balance of funds in the Rehabilitation Reserve as of June 30, 2019. These funds shall be used to provide for future year rehabilitation projects, replacements, restorations or upgrades of District improvements which cannot be conveniently raised from a single year's assessment. Should the District have no Rehabilitation Reserve balances or related activity, no Rehabilitation Reserve information shall be presented in the Report.

## E. REHABILITATION RESERVE – CAPITAL IMPROVEMENT PLAN

*Streets and Highways Code 22660* allows the District to generate and accumulate funds over several years to fund District improvements that cannot be conveniently raised from a single year's assessment. A five-year Capital Improvement Plan showing the projected costs of the rehabilitation, restoration and /or replacement of District improvements and other allowable costs, excluding FY 2018/19, is shown below.

| Description                                                                                 | FY 2019/20     | FY 2020/21     | FY 2021/22      | FY 2022/23      | Total           |
|---------------------------------------------------------------------------------------------|----------------|----------------|-----------------|-----------------|-----------------|
| Street furniture repair, replacement and/or refurbishment                                   |                |                |                 | \$5,000         | \$5,000         |
| Plants, landscaping & related materials repair, replacement renovation and/or refurbishment | \$4,100        | \$6,000        | \$7,000         | 6,000           | 23,100          |
| Light standard repair, replacement and/ or refurbishment                                    | 1,000          | 1,000          | 1,000           | 1,000           | 4,000           |
| Electrical outlets repair and/or replacement                                                | 3,000          | 2,000          | 3,000           | 4,000           | 12,000          |
| <b>Total</b>                                                                                | <b>\$8,100</b> | <b>\$9,000</b> | <b>\$11,000</b> | <b>\$16,000</b> | <b>\$44,100</b> |

From time to time, funds held in a Rehabilitation Reserve may be needed to respond to changing needs due to the condition of the improvements or other factors. Accordingly, any or all funds held in a Rehabilitation Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Parks and Recreation Department or equivalent, in order to provide for the maintenance and / or operation of the improvements.

## **APPENDIX A – DISTRICT BOUNDARY MAP**

The boundary map for the District has previously been submitted to the Clerk of the City in the format required under the 1972 Act and is, by reference, hereby made part of this Report. These District Boundary Maps are available for inspection at the office of the City Clerk during normal business hours.

For general reference purposes, a summary of the District's Boundaries is presented herein.

Assessment diagram

## APPENDIX B — 2018/19 ASSESSMENT ROLL

Parcel identification, for each lot or parcel within the District, shall be the parcel as shown on the Placer County Assessor's map for the year in which this Report is prepared.

A listing of parcels to be assessed within this District, along with the proposed assessment amounts, shall be submitted to the City Clerk, under a separate cover, and by reference is made part of this Report.

Non-assessable lots or parcels may include areas of public streets and other roadways (typically not assigned an APN by the County); dedicated public easements, open space areas and rights-of-ways including public greenbelts and parkways; utility rights-of-ways; common areas; landlocked parcels, small parcels vacated by the County, bifurcated lots, and any other property that cannot be developed. These types of parcels are considered to receive little or no benefit from the improvements and are therefore exempted from assessment.

At the conclusion of the public hearing for the District and the proposed assessments, approval of the Report (as submitted or as modified) confirms the method of apportionment and the assessment rate to be levied against each eligible parcel and thereby constitutes the approved levy and collection of assessments for FY 2018/19. The listing of parcels and the amount of assessment to be levied shall be submitted to the County Auditor/Controller and included on the FY 2018/19 property tax roll for each parcel.

If any parcel submitted for collection is identified by the County Auditor/Controller to be an invalid parcel number for the Current Fiscal Year, a corrected parcel number and/or new parcel numbers will be identified and resubmitted to the County Auditor/Controller. The assessment amount to be levied and collected for the resubmitted parcel or parcels shall be based on the method of apportionment and assessment rate approved in this Report. Therefore, if a single parcel has changed to multiple parcels, the assessment amount applied to each of the new parcels shall be recalculated and applied according to the approved method of apportionment and assessment rate rather than a proportionate share of the original assessment.

**City of Roseville**
