

AGENDA

January 18, 2023

CITY COUNCIL
6:00 p.m.
Council Chambers
311 Vernon Street
Roseville, California
www.roseville.ca.us

The meeting may be viewed on Comcast channel 14, Consolidated Communications channel 73, and AT&T U-Verse. City Council meetings are also video streamed live on the City's website at roseville.ca.us/watch and roseville.ca.us/agenda, and the City's YouTube channel at youtube.com/CityofRosevilleCa.

If you need a disability-related modification or accommodation to participate in this meeting, please contact Voice: 916-774-5200, TDD: 916-774-5220. Requests must be made as early as possible.

THE CITY OF ROSEVILLE WELCOMES YOUR PARTICIPATION

If an agenda item is open to public comment, such public comment shall be addressed to the chair of the meeting.

Public Comment - Speakers have three minutes under Public Comment to speak on issues that are not listed on the agenda and are within the City's jurisdiction. The Brown Act does not permit any action or discussion on items not listed on the agenda.

Consent Calendar - If applicable, the Consent Calendar consists of routine items that may be approved by one motion. Any person can remove an item from the Consent Calendar to be discussed separately.

Agenda Items - Speakers have five minutes to address items that are listed on the agenda.

Americans with Disabilities Act - Notify the City Clerk or Secretary at least 72 hours in advance if special assistance is required to participate in a meeting including the need of auxiliary aids or services.

Audio/Visual Presentations - If making a presentation regarding an agenda item, audio/visual materials must be submitted to the City Clerk or Secretary at least 72 hours in advance.

Security procedures are in place to attend Roseville City Council meetings. All attendees must

successfully pass through a security metal detector. Any person with a prohibited item will not be allowed entry. Prohibited items include, but are not limited to: firearms (even with valid CCW), knives, pepper spray/mace, explosives of any kind/ any weapons and/or dangerous devices of any kind, illegal drugs and alcohol.

7.3. Electric Control System Historian Software – Sole Source Contract Purchase Agreement

Memo from Senior Electric Technology Systems Analyst Leonard Ladd and Electric Utility Director Daniel Beans recommending the City Council adopt RESOLUTION NO. 23-026 APPROVING A SOLE SOURCE CONTRACT PURCHASE AGREEMENT, BY AND BETWEEN THE CITY OF ROSEVILLE AND OSISOFT LLC, AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE (3002637). Staff requests Council approval of a sole source contract purchase agreement with OSISoft LLC to monitor and analyze Roseville electric distribution and generation real-time data and systems. This agreement includes the annual support and additional licenses for operational expansion. The estimated cost of this contract is \$153,928.50. Funds are available in the FY2022-23 Electric Fund budget.

7.4. Real-Time Crime Center Integration Software - Sole Source Service Agreement

Memo from Management Analyst Mark Peinado and Police Chief Troy Bergstrom recommending the City Council adopt RESOLUTION NO. 23-024 APPROVING A SERVICE AGREEMENT BETWEEN THE CITY OF ROSEVILLE AND FUSUS, INC., AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE. Staff requests Council approve a sole source purchase and service agreement with Fusus, Inc., for the purchase and deployment of the Fusus platform for use in the Roseville Police Department's Real-Time Crime Center. The cost of this software purchase is \$74,999 per year for 3 years, for a total of \$224,997. Funding for this purchase has been approved in the Police Department's FY2022-23 operating budget in the General Fund.

7.5. Firing Range Target System - Sole Source Contract Purchase Agreement

Memo from Management Analyst Mark Peinado and Police Chief Troy Bergstrom recommending the City Council adopt RESOLUTION NO. 23-010 APPROVING A SOLE SOURCE CONTRACT PURCHASE AGREEMENT, BY AND BETWEEN THE CITY OF ROSEVILLE AND ACTION TARGET, INC., AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE. Staff requests Council approval of

a sole source contract purchase agreement to Action Target, Inc. for the purchase of a Firing Range Target System in the amount of \$204,479.98. The fixed turning target and lateral moving target systems are proprietary to the vendor, Action Target, Inc. No other vendor makes the requested range/targeting system. Funding for this purchase has been approved in the amount of \$190,000 from the Equipment Replacement Fund. There are sufficient funds in the FY2022-23 Police Department's operating budget in the General Fund to cover the remaining \$14,479.98. No additional funds are being requested.

7.7. Custodial Services - Contract Purchase Agreement

Memo from Administrative Technician Darci Carpenter and Public Works Director Jason Shykowski recommending the City Council adopt RESOLUTION NO. 23-019 APPROVING A CONTRACT PURCHASE AGREEMENT, BY AND BETWEEN THE CITY OF ROSEVILLE AND PRIDE INDUSTRIES ONE, INC. DBA PRIDE INDUSTRIES, AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE (3002641). Staff requests Council approve a contract purchase agreement with Pride Industries One, Inc. to provide custodial and floor care services in accordance with Custodial Services RFP 01-059 at a number of City facilities. The total annual value of the initial agreement with Pride Industries One, Inc. is \$862,979.71, not to exceed annual budgeted amounts. The bid allowed for four optional renewal years at one-year intervals. Staff requests authorization to utilize the optional renewal years of the bid contract without further Council approvals until the contract expires or until City staff determines that continuing with the same vendor is not in the City's best interest. Funding for this agreement is included in the Custodial Services Division FY2022-23 budget in the Facility Services Fund, and will be included in future year proposed budgets.

7.8. 60kV Cable (RFQ 10-3336) - Purchase Order

Memo from Buyer Sue Jessup and Assistant City Manager/Chief Financial Officer Dennis Kauffman recommending the City Council approve a purchase order with OneSource Supply Solutions, LLC as the lowest responsive and responsible bidder for the purchase of 60kV cable in response to RFQ 10-3336. The cable is needed for undergrounding of a section of 60kv network to allow for the construction of the Roseville Parkway Extension Project. The cost of the cable and associated reels is \$99,109.20 plus tax of \$7,680.97, for a total of \$106,790.17. There is sufficient budget in the capital improvement project for the costs associated with the recommended purchase.

7.9. Ultraviolet Disinfection Equipment - Increase to Sole Source Purchase Order

Memo from Preventative Maintenance Coordinator Blaine Wiegel and Environmental Utilities Director Richard Plecker recommending the City Council authorize an increase to the sole source purchase order with Trojan Technologies in the amount of \$48,400. This increase is needed to cover the shipping costs of the ultraviolet disinfection equipment for the Pleasant Grove Wastewater Treatment Plant, making the total amount of the purchase order \$2,228,829. Funding will be provided from the approved Pleasant Grove UV project budget financed by South Placer Wastewater Authority.

7.14. Landfill Water Quality and Gas Monitoring and Reporting Services - Professional Services Agreement

Memo from Compliance Administrator Michelle White and Environmental Utilities Director Richard Plecker recommending the City Council adopt RESOLUTION NO. 23-001 APPROVING A PROFESSIONAL SERVICES AGREEMENT, BY AND BETWEEN THE CITY OF ROSEVILLE AND JACOBS ENGINEERING GROUP INC., AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE. Staff requests approval of a professional services agreement with Jacobs Engineering Group, Inc. for 2023 Water Quality and Landfill Gas Monitoring and Reporting Services and Other Regulatory-Required Technical Assistance. The agreement requires multiple ground and surface water samplings and landfill gas emissions monitoring to ensure the levels of emissions do not pose a public health hazard. These services are needed to remain in compliance with state and federal requirements for closed landfills. The cost of \$260,010 is budgeted in the FY2022-23 Waste Services Operation Fund budget.

7.15. Roseville Transit Agency Safety Plan Update

Memo from Alternative Transportation Manager Ed Scofield and Public Works Director Jason Shykowski recommending the City Council adopt RESOLUTION NO. 23-021 APPROVING THE UPDATED ROSEVILLE TRANSIT AGENCY SAFETY PLAN, AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE. Staff requests Council approval for the updated Roseville Transit Agency Safety Plan that will update the Injury & Illness Prevention Plan to include the City's latest changes, add additional safety language as required by the Bipartisan Infrastructure Law, and authorization for the City Manager to approve future minor changes to this document without further Council action. This amendment will not result in a direct fiscal impact. However, having an updated Agency Safety Plan allows the City to maintain compliance with Federal Transit Administration requirements to receive federal funding.

7.17. Reservation of Funds for Development of Affordable Housing Projects - Amendment

Memo from Housing Manager Trisha Isom and Economic Development Director Melissa Anguiano recommending the City Council adopt RESOLUTION NO. 23-038 APPROVING THE AMENDED RESERVATION OF \$7,500,000 IN AFFORDABLE HOUSING FUNDS FOR DEVELOPMENT OF AFFORDABLE HOUSING PROJECTS. Staff requests Council approval to reserve a total of \$7,500,000 in affordable housing funds to increase funding support for two affordable housing projects on the City's Affordable Housing Pipeline report. The increased reservation will fully fund two affordable housing projects as initially requested through the City's notice of funding availability process. The City's Local Housing Trust Fund receives funding from developer in-lieu fees, payoffs from resales and payoffs from developer subsidy loans. The Housing Division has funding available in the Local Housing Trust Fund (LHTF), which will be used to match state-awarded LHTFs. No General Fund resources will be used.

HOFFMAN, AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT AND ALL RELATED ESCROW DOCUMENTS ON BEHALF OF THE CITY OF ROSEVILLE; and adopt RESOLUTION NO. 23-034 APPROVING AN AGREEMENT FOR ACQUISITION OF REAL PROPERTY AND ESCROW INSTRUCTIONS, BY AND BETWEEN THE CITY OF ROSEVILLE AND JOEY L. STETSON AND LISA A. STETSON, AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT AND ALL RELATED ESCROW DOCUMENTS ON BEHALF OF THE CITY OF ROSEVILLE; and adopt RESOLUTION NO. 23-035 APPROVING AN AGREEMENT FOR ACQUISITION OF REAL PROPERTY AND ESCROW INSTRUCTIONS, BY AND BETWEEN THE CITY OF ROSEVILLE AND CHARLES THOMAS ECKSTROM IV AND JENNIFER ECKSTROM, AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT AND ALL RELATED ESCROW DOCUMENTS ON BEHALF OF THE CITY OF ROSEVILLE; and adopt RESOLUTION NO. 23-036 APPROVING AN AGREEMENT FOR ACQUISITION OF REAL PROPERTY AND ESCROW INSTRUCTIONS, BY AND BETWEEN THE CITY OF ROSEVILLE AND DALE P. MCAFEE AND BRENDA MCAFEE, AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT AND ALL RELATED ESCROW DOCUMENTS ON BEHALF OF THE CITY OF ROSEVILLE; and adopt RESOLUTION NO. 23-037 APPROVING AN

AGREEMENT FOR ACQUISITION OF REAL PROPERTY AND ESCROW INSTRUCTIONS, BY AND BETWEEN THE CITY OF ROSEVILLE AND DAVID EDWIN SCHMIDT AND JANET LYNN SCHMIDT, AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT AND ALL RELATED ESCROW DOCUMENTS ON BEHALF OF THE CITY OF ROSEVILLE; and adopt ORDINANCE NO. 6598 AUTHORIZING CERTAIN AMENDMENTS TO THE FISCAL YEAR 2022-23 BUDGET AND DECLARING THIS ORDINANCE TO BE IMMEDIATELY EFFECTIVE AS AN APPROPRIATION MEASURE. Staff requests Council approve an Agreement for Sale of Wetland Mitigation Credits from Riparian Ranch, LLC in the amount of \$152,000 as mitigation for impacts to riparian salmonid habitat, Agreements for Acquisition of Real Property and Escrow Instructions for the purchase of property for the Dry Creek Greenway East Trail Project with SFC Windscape Investors, L.P. in the amount of \$1,800, with Jacqueline Rice in the amount of \$16,000, with the Baldwins in the amount of \$45,400, with the Haugens in the amount of \$36,300, with the Lees in the amount of \$82,600, with the Hoffmans in the amount of \$12,500, with the Stetsons in the amount of \$30,000, with the Eckstroms in the amount of \$13,800, with the McAfees in the amount of \$325,000 and with the Schmidts in the amount of \$424,500. The total budget adjustment request is for \$1,500,000 from the Local Transportation Fund which will fund mitigation credit purchases, professional services and right-of-way acquisitions. The Dry Creek Greenway East trail project is a proposed paved multi-use trail along Dry, Cirby, and Linda Creeks from Darling Way/Riverside Avenue to the City limits at S. Cirby Way/Old Auburn Road. The Dry Creek Greenway East Trail Project is funded by federal, state and local sources: Solutions for Congested Corridors, Active Transportation Program, Congestion Mitigation and Air Quality, and Local Transportation Funds. No General Fund resources will be used for the project.

7.28. Fleet Truck Purchases - Grant Award, Purchase Orders, and Budget Adjustment

Memo from Fleet Manager Brandy LeBeau and Public Works Director Jason Shykowski recommending the City Council adopt RESOLUTION NO. 23-020 ACCEPTING A GRANT AWARD AND APPROVING GRANT AGREEMENTS, BY AND BETWEEN THE CITY OF ROSEVILLE AND THE PLACER COUNTY AIR POLLUTION CONTROL DISTRICT, AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT AND ALL RELATED FORMS ON BEHALF OF THE CITY OF ROSEVILLE; and adopt ORDINANCE NO. 6604 AUTHORIZING CERTAIN AMENDMENTS TO THE FISCAL YEAR 2022-23 BUDGET AND DECLARING THIS ORDINANCE TO BE IMMEDIATELY EFFECTIVE AS AN APPROPRIATION MEASURE. Staff requests Council accept the grant awards from the Placer County Air Pollution Control District – Clean Air Grant Program in the amount of \$163,215 and authorize the City Manager or his Designee to execute the required documents on behalf of the City. Additionally, staff requests approval of a budget adjustment in the amount of \$163,215 to fund a portion of the new Compressed Natural Gas (CNG) refuse trucks. Staff

also requests approval of purchase orders to Dobbs Heavy Duty Holdings LLC dba Western Truck Center for four (4) Autocar CNG trucks with New Way Sidewinder and RotoPac automated side-loading bodies utilizing Sourcewell contract# 060920-ATC for the Autocar chassis and Sourcewell contract# 091219-NWY for the New Way body in the amount of \$1,839,575; approve a purchase order to Altec Industries, Inc, for (3) Altec AT40G articulating telescoping aerial devices utilizing Sourcewell contract# 110421-ALT in the amount of \$661,107; and approve a sole source purchase order to Global Rental Co Inc. for the purchase of a rent-to-own 2022 Altec AT40G articulating telescoping aerial device in the amount of \$126,970. The FY2022-23 Fleet Replacement Fund and Electric Fund budgets include funding for these vehicles.

9.3. Fiscal Year 2021-22 Year-End Report and FY2022-23 Budget Adjustment

Memo from Assistant Finance Director Scott Pettingell and Assistant City Manager/Chief Financial Officer Dennis Kauffman recommending the City Council accept a year-end report for FY2021-22 for the General Fund, the enterprise operating funds, and revenues in select other funds; and adopt ORDINANCE NO. 6595 AUTHORIZING CERTAIN AMENDMENTS TO THE FISCAL YEAR 2022-23 BUDGET AND DECLARING THIS ORDINANCE TO BE IMMEDIATELY EFFECTIVE AS AN APPROPRIATION MEASURE. Staff requests Council approve a budget adjustment which includes an appropriation of \$31.5 million of General Fund resources for the Roseville Sports Complex (\$15 million), General Fund Capital Reserve Fund (\$4.5 million), Pension Trust Fund (\$4.5 million), Blue Oaks Widening (\$4 million), General Fund contingency replenishment (\$750,000), Police Department mobile data computers (\$700,000), Sports Field Fencing (\$565,000), Development Services Stabilization Reserve (DSSR) (\$518,000), Maidu Soccer Field parking lot (\$450,000), General Plan update (\$279,000), Vernon Atlantic Multimodal Safety Improvement Project (\$180,000), and the Royer Park Playground (\$123,000). This budget adjustment also includes an appropriation of \$250,000 in grant funds from Placer Valley Tourism for the Sports Field Fencing Project. There are adequate resources available in the General Fund to fund the recommended appropriations.

10. PUBLIC HEARING

NOTICE TO THE PUBLIC

City Council, when considering the matter scheduled for hearing, will take the following actions:

1. Open the Public Hearing
2. Presentation by Staff
3. Presentation by applicant or Appellant
4. Accept Public Testimony
5. Appellant or Applicant Rebuttal Period
6. Close the Public Hearing
7. City Council Comments and Questions
8. City Council Action

In the future, if you wish to challenge in court any of the matters on this agenda for which a public hearing is to be conducted, you may be limited to raising only those issues, which you, or someone else raised orally at the Public Hearing or in written correspondence received by the City on or before the hearing.

Public Hearings listed for continuance will be continued as noted and posting of this agenda serves as notice of continuation.

10.1. Advanced Metering Infrastructure - Roseville Municipal Code Amendment and User and Regulatory Fee Amendment

Memo from Interim Electric Finance Administrator Joanna Cucchi and Electric Utility Director Dan Beans recommending the City Council adopt RESOLUTION NO. 23-015 ADOPTING AN AMENDED SCHEDULE OF USER AND REGULATORY FEES; and introduce for first reading an ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE AMENDING CHAPTER 14.24 OF TITLE 14 OF THE ROSEVILLE MUNICIPAL CODE REGARDING ELECTRICAL ENERGY to incorporate Section 14.24.053 adopting a monthly rate for opt-out customers. Staff requests Council approve the Advanced Metering Infrastructure (AMI) advanced meter opt out fee and amending the 2022-2023 Master Schedule of User and Regulatory Fees to include the AMI advanced meter opt-out fee. The proposed opt-out program is estimated to collect approximately \$70,000 annually and will recover the costs associated with implementing the program. The discounted opt-out for low income rate participants will be funded through the utility's public benefits program, which includes funding required to be set aside for these types of programs, in the Electric Fund.

10.2. North Industrial Plan Area Parcel 56 (2200 Freedom Way) Blue Oaks Commerce Center – Major Project Permit Stage 1 Modification and Major Project Permit Stage 2 Appeal

Memo from Associate Planner Escarlet Mar and Development Services Director Mike Isom recommending the City Council consider the Addendum to the Blue Oaks Commerce Center Initial Study and Mitigated Negative Declaration; and adopt RESOLUTION NO. 23-023 DENYING THE APPEAL FROM THE SEPTEMBER 22, 2022 APPROVAL BY THE PLANNING COMMISSION; ADOPTING THE TWO (2) FINDINGS OF FACT AND APPROVING THE MAJOR PROJECT PERMIT STAGE 1

MODIFICATION SUBJECT TO TEN (10) CONDITIONS OF APPROVAL; AND ADOPTING THE TWO (2) FINDINGS OF FACT AND APPROVING THE MAJOR PROJECT PERMIT STAGE 2 SUBJECT TO NINETY-THREE (93) CONDITIONS OF APPROVAL. Based on the September 22, 2022 Planning Commission hearing, staff recommends Council deny the appeal of the Planning Commission's approval of entitlements related to the Blue Oaks Commerce Center project. The proposed project includes a request for approval of a Major Project Permit (MPP) Stage 1 Modification and MPP Stage 2 to allow construction of four (4) industrial buildings totaling approximately 310,000 square feet in size, which will be located on two (2) parcels totaling 23.94-acres in size. The development of the site will not result in negative impacts to the City's General Fund.

Bids / Purchases / Services

6.2. Fire Safety Equipment and Supplies - Purchase Order Increase

Memo from Assistant Fire Chief Jason Rizzi and Fire Chief Rick Bartee recommending the City Council adopt RESOLUTION NO. 22-445 APPROVING AN INCREASE IN THE PURCHASE ORDER FOR FIRE SAFETY EQUIPMENT AND SUPPLIES. Staff requests Council increase the value of the existing Council approved purchase order with L.N. Curtis & Sons to a not-to-exceed amount of \$750,000 for fire safety equipment and supplies, for purchases made on an as-needed basis by the Fire Department, utilizing the League of Oregon Cities contract through National Purchasing Partners. Staff also requests authorization to continue renewing the contract without further Council approval, upon verification of the approved optional renewal years on the piggyback contract, until the contract expires or until staff determines that continuing with the same vendor is not in the City's best interest. The total estimated cost for Fire Department supplies will be \$750,000 for the remaining initial term of the cooperative agreement from July 1, 2022 to March 17, 2023. Funding is included in the Fire Department's FY2022-23 budget in the General Fund and will also be recommended in future fiscal year budgets.

6.3. Adventure Club Modular Buildings - Contract Purchase Agreements

Memo from Parks, Recreation & Libraries Superintendent Rob Nakamura and Parks, Recreation & Libraries Director Jill Geller recommending the City Council adopt RESOLUTION NO. 22-429 APPROVING A CONTRACT PURCHASE AGREEMENT, BY AND BETWEEN THE CITY OF ROSEVILLE AND CLASS LEASING, LLC, AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE (3002611); and adopt RESOLUTION NO. 22-430 APPROVING A CONTRACT PURCHASE AGREEMENT, BY AND BETWEEN THE CITY OF ROSEVILLE AND CLASS LEASING, LLC, AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE (3002631). Staff requests Council approve piggyback contract purchase agreements with Class Leasing LLC in the amounts of \$390,932.97 and \$394,212.98. Class Leasing LLC will provide the new Adventure Club modular facilities at Westbrook Elementary School and Rex Fortune Elementary Schools to provide before and after school services. Both new elementary schools are scheduled to open in August of 2023. An interfund loan from the Fleet Replacement Fund to the Youth Development Fund was approved by City Council on September 7, 2022 to purchase and install the Adventure Club facilities. Staff also requests authorization to approve change order requests in an amount not to exceed 10% of the contract amount. There is no General Fund impact.

6.4. Martha Riley Library Boiler Replacement Project - Change Order Authority

Memo from Project Coordinator Rebecca McCoy and Public Works Director Jason Shykowski recommending the City Council adopt RESOLUTION NO. 22-426 APPROVING AN INCREASE IN CHANGE ORDER AUTHORITY. Staff requests Council approve an increase to the change order authority for the Martha Riley Library Boiler Replacement Project. On August 8, 2021, Council awarded the Martha Riley Library Boiler Replacement project to Mesa Energy Systems, Inc. dba EMCOR Services Mesa Energy \$145,692 as well as a 10% (\$14,569.20) construction contingency bringing the total contract amount to \$160,261.20. Due to increased material costs throughout the project, staff is requesting authorization to approve change orders for an amount not to exceed 15% of the contract amount (\$21,853.80) and authorization for the Public Works Director to approve change order requests as needed. The updated maximum contract amount will be \$167,545.80. Funding for change orders is available in the existing Capital Improvement Project budget. This request has no additional fiscal impact to the General Fund.

6.6. Fleet Services Management Information System Replacement - Contract Purchase Agreement

Memo from Management Analyst Brandy LeBeau and Public Works Director Jason Shykowski recommending the City Council adopt RESOLUTION NO. 22-437 APPROVING A CONTRACT PURCHASE AGREEMENT, BY AND BETWEEN THE CITY OF ROSEVILLE AND TT FASTER LLC DBA FASTER ASSET SOLUTIONS, AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE (3002584). Staff requests approval of a contract with FASTER Asset Solutions for the Fleet Management Information System Replacement Project not to exceed \$217,855. Additionally, staff requests approval for a 10% contingency, not to exceed \$21,785, should other items surface that increase costs. Funding for this project was approved in the FY2019-20 budget, and sufficient resources are available to cover the contract and requested contingency. This project will not impact the General Fund. Funds are provided by the Fleet Services and Fleet Replacement Funds.

6.7. Pest Control Management - Contract Purchase Agreement

Memo from Administrative Technician Darci Carpenter and Public Works Director Jason Shykowski recommending the City Council adopt RESOLUTION NO. 22-443 APPROVING A CONTRACT PURCHASE AGREEMENT, BY AND BETWEEN THE CITY OF ROSEVILLE AND NEIGHBORLY PEST MANAGEMENT, INC., AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE (3002597). Staff requests Council approve a contract purchase agreement with Neighborly Pest Management, Inc. to provide pest control services on a scheduled and as-needed basis. The total amount of the agreement is \$150,000. Staff also requests

authorization to utilize the optional renewal years of the bid contract without further City Council approval, provided that the applicable budget is approved by the City Council each year, or until City staff determines that continuing with the same vendor is not in the City's best interest. Funding is included in the Building Maintenance, Environmental Utilities, Electric, Street Maintenance, and Park Maintenance FY2022-23 budgets.

6.9. Submersible Pumps and Associated Parts - Sole Source Purchase Order

Memo from Associate Engineer Rana Moore and Environmental Utilities Director Richard Plecker recommending the City Council adopt RESOLUTION NO. 22-422 APPROVING A PURCHASE ORDER FOR SUBMERSIBLE PUMPS AND PARTS. Staff requests Council approve a sole source purchase order for submersible pumps and associated parts for the Pump Station 26 and Force Main Capacity Improvement Project in the amount of \$165,048.77. In addition, staff requests authority for the City Manager or his designee to approve up to a ten percent (10%) contingency in the amount of \$16,504.88 for unforeseen inflated material and/or shipping costs, bringing the total of the request to \$181,553.65. Funding is provided from the South Placer Wastewater Authority budget.

Resolutions

6.12. Barton Road Water Treatment Plant Solar Energy and Storage System Project - Grant Application Amendments

Memo from Environmental Utilities Assistant Director Sean Bigley and Environmental Utilities Director Richard Plecker recommending the City Council adopt RESOLUTION NO. 22-428 AMENDING RESOLUTION 22-206 AND APPROVING A GRANT APPLICATION TO THE UNITED STATES DEPARTMENT OF COMMERCE, ECONOMIC DEVELOPMENT ADMINISTRATION, AND AUTHORIZING THE CITY MANAGER OR HIS DESIGNEE TO EXECUTE ALL RELATED FORMS AND AGREEMENTS ON BEHALF OF THE CITY OF ROSEVILLE. Staff requests Council approve the Barton Road Water Treatment Plant Solar Energy and Storage System Project grant application under the Department of Commerce, Economic Development Administration's (EDA) Economic Adjustment Assistance Program that was submitted by the City on July 4, 2022; and provide an update on the initial review of Roseville's grant application by the EDA and proposed changes to the City's grant application to increase competitiveness. If the City's Department of Commerce, Economic Development Administration grant application is approved, the revised total project costs will be \$6,592,877, with \$4,615,013.90 in federal grant funds and \$1,977,863.10 in local matching funds from the Water Rehabilitation Fund which is funded by water utility sales.

6.13. Schedule of User and Regulatory Fees - Addition of Hydrant Backflow Assembly Deposit

Memo from Water Distribution Superintendent Michael Simi and Environmental Utilities Director Richard Plecker recommending the City Council adopt RESOLUTION NO. 22-455 ADOPTING AN AMENDED SCHEDULE OF USER AND REGULATORY FEES. Staff requests Council approve adding a new initial deposit fee for rental of a hydrant backflow meter assembly. Expenses for these devices and potential revenue from deposits are in the Water Operations Fund. The only fiscal impact related to the addition of this user fee is that the Water Utility would recover more of the costs related to the rental of these devices.

6.14. Pleasant Grove Wastewater Treatment Plant Energy Recovery Project - Natural Gas Service Agreement

Memo from Senior Engineer Tracie Mueller and Environmental Utilities Director Richard Plecker recommending the City Council adopt RESOLUTION NO. 22-454 APPROVING A NATURAL GAS SERVICE AGREEMENT, BY AND BETWEEN PACIFIC GAS AND ELECTRIC COMPANY AND THE CITY OF ROSEVILLE, AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE. Staff requests Council approval of a Pacific Gas & Electric Company (PG&E) Natural Gas Service Agreement for the Pleasant Grove Wastewater Treatment Plant Energy Recovery Project's microturbines and authorization of the City Manager to execute the agreement on behalf of the City. The cost will be based on natural gas usage at PG&E's Gas Schedule G-EG Noncore Natural Gas Service. Staff anticipates the costs under this agreement will be approximately \$6,000 in FY2022-23 and approximately \$11,000 in FY2023-24 paid to PG&E from the Wastewater Operations Fund, which will be offset by reduced power costs.

6.17. Northwest Roseville Specific Plan Parcel 27 - Workout and Settlement Agreement Amendment

Memo from Development Services Director Mike Isom recommending the City Council adopt RESOLUTION NO. 22-441 THE SEVENTH AMENDMENT TO THE WORKOUT AND SETTLEMENT AGREEMENT REGARDING DELINQUENT SPECIAL TAXES AND SPECIAL ASSESSMENTS LEVIED UPON NWRSP PARCEL 27. Staff requests Council approval of the Seventh Amendment to the Workout and Settlement Agreement with CC Drive, LLC, regarding delinquent special taxes and special assessments levied upon Northwest Roseville Specific Plan Parcel 27. The original agreement was designed to cure the tax defaulted status of this parcel, which is located in the Northwest Roseville Community Facilities District No. 1. The purpose of the proposed seventh amendment is to provide the landowner with additional time to make a lump sum payment of back taxes owed on the property by extending the payment due date from December 10, 2022 to December 10, 2024. The agreement will delay payment of back taxes for Parcel 27A but will not negatively impact bond payments nor increase special taxes for other properties located within the same district. This item has no General Fund impact.

6.22.401 Oak Street Demolition Project - Change Order Authority

Memo from Project Coordinator Rebecca McCoy and Public Works Director Jason Shykowski recommending the City Council adopt RESOLUTION NO. 22-422 APPROVING CHANGE ORDER AUTHORITY. Staff requests Council approve change order authority for the 401 Oak Street Demolition Project. On July 21, 2021, Council awarded the 401 Oak Street Demolition Project to Double B Demolition in the amount of \$550,000. At the time of contract award, staff did not request change order authority. Due to contaminated soil at the site, staff is requesting authorization to approve change orders for an amount not to exceed 15% (\$82,500) of the contract amount and authorization for the Public Works Director to approve change order requests as needed. The updated maximum contract amount will be \$632,500. Funding for change orders is available in the existing capital improvement project budget. This request has no additional fiscal impact to the General Fund.

6.26. Washington Boulevard/Andora Bridge Widening Phase 1 (Washington Boulevard Bikeway and Pedestrian Pathways Project) - Notice of Completion

Memo from Assistant Engineer Karen Vences and the Public Works Director Jason Shykowski recommending the City Council adopt RESOLUTION NO. 22-423 ACCEPTING THE PUBLIC WORK KNOWN AS THE WASHINGTON BOULEVARD/ANDORA BRIDGE WIDENING PHASE 1 (WASHINGTON BOULEVARD BIKEWAY AND PEDESTRIAN PATHWAYS PROJECT), APPROVING THE "NOTICE OF COMPLETION", AND AUTHORIZING THE PUBLIC WORKS DIRECTOR TO EXECUTE SAID NOTICE ON BEHALF OF THE CITY OF ROSEVILLE. The project widened Washington Boulevard from Sawtell Road to just north of Kaseberg Drive, and from just north of the Andora Underpass to Pleasant Grove Boulevard. Additionally, the project constructed a multi-use path on the east side of Washington Boulevard from just north of All America City Boulevard to the existing path at the Andora Undercrossing, installed a new traffic signal at Kaseberg Drive, and improved pedestrian and bicycle crossings at existing traffic signals along Washington Boulevard between Junction Boulevard and Pleasant Grove Boulevard. The project was funded by an Active Transportation Program grant, a Congestion Mitigation Air Quality grant, Local Transportation Fund, Electric Fund - Traffic Signal Maintenance, and Traffic Mitigation Fund resources. No General Fund resources were used for this project.

6.30. Communication Software Licensing - License Agreement Amendments and Budget Adjustment

Memo from Management Analyst Mark Peinado and Police Chief Troy Bergstrom recommending the City Council adopt RESOLUTION NO. 22-453 APPROVING AGREEMENT AMENDMENTS BY AND BETWEEN THE CITY OF ROSEVILLE AND TYLER TECHNOLOGIES INC.; and adopt ORDINANCE NO. 6575 AUTHORIZING CERTAIN AMENDMENTS TO THE FISCAL YEAR 2022-23 BUDGET AND DECLARING THIS ORDINANCE TO BE IMMEDIATELY EFFECTIVE AS AN APPROPRIATION MEASURE. Staff requests Council approve two amendments authorizing payment of \$106,667 to Tyler Technologies Inc. for software and services provided by Tyler Technologies. Additionally, staff requests Council approve a budget adjustment in the amount of \$33,691. The Encoder interface cost of \$3,720 is to be paid from the Fire Station Alerting System Replacement Project Capital Improvement Project. The Lenslock Body Worn Camera Interface is \$14,400 to be paid from the Police Department's General Fund budget. Mobility Crewforce is \$9,196 to be paid by the Fire Department's General Fund budget. The cost of the Mobility Shieldforce is \$79,351; the Police Department has a credit of \$45,660.33 with Tyler Technologies that will be applied to the invoice bringing the cost of Mobility Shieldforce to \$33,690.67. The recommend budget adjustment will increase the software budget in the Supplemental Law Enforcement Fund by \$33,691.

7. ORDINANCES

7.1. Roseville Electric Energy Surcharge - Roseville Municipal Code Amendment

Memo from Interim Electric Finance Administrator Joanna Cucchi and Electric Utility Director Dan Beans recommending the City Council introduce for first reading an ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE AMENDING SECTIONS 14.24.040, 14.24.050 AND 14.24.055 OF CHAPTER 14.24 OF TITLE 14 OF THE ROSEVILLE MUNICIPAL CODE REGARDING ELECTRICAL ENERGY. Staff requests Council approve amendments to Section 14.24 of the Municipal Code to reflect Roseville Electric Utility's recommended 8% energy cost surcharge for all customer groups effective February 1, 2023 through December 31, 2024. The proposed rate changes will result in approximately \$25 million in additional revenue for the Electric Fund over the 23 month implementation. The proposed change aligns the revenues collected from customers with the costs of operating the utility to maintaining financial strength and stability consistent with City Council priorities.

Roll call vote: Ayes: Alvord, Bernasconi, Houdesheldt, Mendonsa, Roccucci

8.2. Kaiser Inpatient Bed Tower Project - Northeast Roseville Specific Plan Parcel 12 (1600 Eureka Road) - Specific Plan Amendment and Development Agreement Amendment

Memo from Associate Planner Kinarik Shallow and Development Services Director

Mike Isom recommending the City Council consider the Kaiser Permanente Roseville Medical Center Inpatient Bed Tower Project Final Supplemental Environmental Impact Report; and adopt RESOLUTION NO. 22-424 to CONSIDER A CERTIFIED FINAL SUPPLEMENTAL ENVIRONMENTAL IMPACT REPORT RELATING TO THE KAISER PERMANENTE ROSEVILLE MEDICAL CENTER CAMPUS INPATIENT BED TOWER PROJECT, AND ASSOCIATED FINDINGS OF FACT, STATEMENT OF OVERRIDING CONSIDERATIONS, AND MITIGATION MEASURES; and adopt RESOLUTION NO. 22-425 AMENDING THE NORTHEAST ROSEVILLE SPECIFIC PLAN; and introduce for first reading an ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE ADOPTING A FIRST AMENDMENT OF THE DEVELOPMENT AGREEMENT BY AND BETWEEN THE CITY OF ROSEVILLE AND KAISER FOUNDATION HOSPITALS AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE. The project entitlements will facilitate an expansion of the Kaiser Permanente Roseville Medical Center located at 1600 Eureka Road. The project includes a request for a Specific Plan Amendment (text only) to the Northeast Roseville Specific Plan to modify the minimum setback requirements and an Amendment to the Development Agreement by and between the City of Roseville and Kaiser Foundation Hospitals to address the increased use intensity and vested entitlements. Associated with this request was a Major Project Permit (MPP) Stage 1 Modification and MPP Stage 2, which were approved by the Planning Commission on November 10, 2022, to allow construction of an approximate 278,000-square-foot, six-story inpatient bed tower building; a new 800 stall four-level parking garage with rooftop parking; relocation of the northwest corner loop road; new main hospital entrance and drop off area; expansion of the existing Emergency Department to add 36 new treatment bays; and a new generator yard and internal upgrades to the existing Central Utility Plant. The project is not anticipated to result in any negative impacts to the City's General Fund.

Senior Vice President and Area Manager of the Roseville Medical Center, Kim Menzel, spoke in support of the project.

Roseville Medical Center Physician-in-Chief Dr. Rich Florio spoke in support of the project.

Mayor Krista Bernasconi closed the public hearing.

8.3. Formation of Parkside at Sierra Vista Community Facilities District No. 1 (Public

Facilities)

Memo from Management Analyst Jeannine Thrash and Assistant City Manager/Chief Financial Officer Dennis Kauffman recommending the City Council adopt RESOLUTION NO. 22-433 A RESOLUTION CALLING SPECIAL ELECTION OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE REGARDING PARKSIDE AT SIERRA VISTA COMMUNITY FACILITIES DISTRICT NO. 1 (PUBLIC FACILITIES); and adopt RESOLUTION NO. 22-434 A RESOLUTION DECLARING RESULTS OF SPECIAL ELECTION AND DIRECTING RECORDING OF NOTICE OF SPECIAL TAX LIEN REGARDING PARKSIDE AT SIERRA VISTA COMMUNITY FACILITIES DISTRICT NO. 1 (PUBLIC FACILITIES); and adopt RESOLUTION NO. 22-435 A RESOLUTION OF FORMATION OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE TO FORM PARKSIDE AT SIERRA VISTA COMMUNITY FACILITIES DISTRICT NO. 1 (PUBLIC FACILITIES); and adopt RESOLUTION NO. 22-436 A RESOLUTION DETERMINING NECESSITY TO INCUR BONDED INDEBTEDNESS OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE FOR PARKSIDE AT SIERRA VISTA COMMUNITY FACILITIES DISTRICT NO. 1 (PUBLIC FACILITIES); and adopt ORDINANCE NO. 6573 OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE LEVYING SPECIAL TAXES WITHIN CITY OF ROSEVILLE PARKSIDE AT SIERRA VISTA COMMUNITY FACILITIES DISTRICT NO. 1 (PUBLIC FACILITIES). A developer, FD-24 LLC, has requested to form a Community Facilities District within the Sierra Vista Specific Plan in order to fund certain authorized facilities and fees in the future. The project is approximately 11 acres and will develop 135 medium density residential for-rent units. Because the project consists of for-rent single family homes, bonds will not be issued until after a change in ownership of any parcel within the district. The bond authorization request will be taken to Council at that time. Formation of the district will not impact the City's General Fund.

Title: Distribution Transformers, 15kV Cable, and Dead-front Padmount Switchgear - Increase to Purchase Orders

Contact: Ozro Corulli 916-774-5586 ocorulli@roseville.ca.us

Meeting Date: 1/18/2023

Item #: 7.2.

RECOMMENDATION TO COUNCIL

Recommend Council approve increased total purchase order authority for the following Purchase Orders:

- Distribution Transformers (RFQ 10-3177) from \$12,000,000 to \$15,000,000
- Dead-front Padmount Switchgear (RFQ 10-3184) from \$5,000,000 to \$7,000,000
- 15kV Cable (RFQ 10-3253) from \$10,000,000 to \$14,000,000

BACKGROUND

After formal bids were issued, purchase orders were awarded to multiple vendors for Distribution Transformers (RFQ 10-3177) and Dead-front Padmount Switchgear (RFQ 10-3184) on October 17, 2018 (both with final optional renewal years expiring on June 30, 2023) and for 15kV Cable (RFQ 10-3253) on May 20, 2020 (with final optional renewal year expiring on June 30, 2025). The Electric Department has an ongoing need for the materials purchased on these purchase orders in order to support new development, distribution system upgrades and maintenance activities.

The original spending estimates for each of these Purchase Orders was based on the best information at the time. Since then, new development activity has nearly doubled (which represents the majority of the materials purchased under these Purchase Orders) and equipment pricing has increased substantially since contract award due to the rise in raw material costs and pandemic related supply chain issues.

FISCAL IMPACT

The recommended increases in total Purchase Order authority for each of the Purchase Orders are as follows:

- Distribution Transformers (RFQ 10-3177) from \$12,000,000 to \$15,000,000

- Dead-front Padmount Switchgear (RFQ 10-3184) from \$5,000,000 to \$7,000,000
- 15kV Cable (RFQ 10-3253) from \$10,000,000 to \$14,000,000

Purchase of these materials is done on an as-needed basis; there are no guaranteed spending amounts for any of the contracts. Funding is included in the Electric Fund budget for FY2022-23 and future year funding will be included in proposed Electric Department budgets.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. The increase in spending authority on these purchase orders meets the above criteria and is not subject to CEQA. No additional environmental review is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal E - Deliver exceptional city services

Goal F - Invest in well-planned infrastructure and growth

File #: 0203-06

Title:	Electric Control System Historian Software – Sole Source Contract Purchase Agreement
Contact:	Leonard Ladd 916-774-5699 lladd@roseville.ca.us

Meeting Date: 1/18/2023
Item #: 7.3.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council adopt a resolution to approve a sole source contract purchase agreement (3002637) with OSISoft, LLC to provide annual software support and to purchase additional licenses for Roseville Electric Utility, and authorize the City Manager to execute it.

BACKGROUND

Roseville Electric Utility utilizes Process Information (PI) System software to collect, store and analyze Distribution and Generation industrial control system data. The electric utility has been utilizing this application since 2006 to support compliance reporting, equipment troubleshooting, manual data logging, and monitoring of overall system performance. OSISoft provides this proprietary software and is the sole source for licensing and support. This sole source service agreement with OSISoft LLC allows Roseville Electric Utility to maintain, support, and expand the PI System.

FISCAL IMPACT

The total cost of the professional service agreement is \$153,928.50. Funding is included in the FY2022-23 Electric Fund budget.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. The approval of the sole source contract purchase agreement with OSISoft, LLC meets the above criteria and is not subject to CEQA. No additional environmental review is required.

Insurance Submission Process

The City of Roseville Human Resources/Risk Management Department uses a service called EBIX to manage our insurance certificate tracking.

How It Works

- The vendor's contact information is entered into EBIX. EBIX will contact the vendor to request proof of insurance.
- The Vendor can forward the request to their Insurance Agent(s) if necessary.
- Vendor/Insurance Agent submits insurance to EBIX by email to roseville@ebix.com or by fax to (770) 325-5727. After faxing or emailing the certificate, please DO NOT send the certificate by mail to EBIX. Please do not mail, email or fax any certificates to the City of Roseville.
- Once submitted, EBIX reviews the insurance documentation. If there are deficiencies, EBIX will send a follow up letter or email requesting additional information.

Questions Regarding Insurance Submission: Contact EBIX at (951) 652-4239

Questions Regarding Insurance Requirements Contact Risk Management at (916) 774-5202

**Recommended
Hardware and
System Requirements**

The recommended system requirements for PI software can be found on the OSIsoft Customer Portal:

<https://my.osisoft.com>

You may also obtain this information by contacting OSIsoft Technical Support by calling +1 (510) 297-5828 or log a case through your customer portal. These should be used as guidelines. A validation of these requirements is required prior to the acceptance of the Terms and Conditions.

Terms and Conditions

Any order submitted to OSIsoft, LLC by or on behalf of City of Roseville ("Customer") will be governed by the Software License and Services Agreement by and between OSIsoft, LLC. and City of Roseville dated 1/28/2022 (Agreement# 2003072SLA) and any corresponding pricing agreements. Customer and any party submitting such order(s) agree to be bound by the SLA, and Customer agrees that it will be responsible for any such third parties acting on its behalf.

**Software and SRP
Conditions**

1. Note that the terms and conditions of the SLA or other agreements executed by OSIsoft and Customer will be the sole and exclusive terms and conditions governing Customer's purchase and license of Products and Services from OSIsoft.
2. The prices quoted herein are in US \$, delivered DAP Licensee location and are valid for the period set forth above.
3. This Quote does not include hardware, cables, generic or third-party software, or any other such supplies required to use the licensed software.
4. Except for taxes quoted and paid by OSIsoft on its net income, all amounts due pursuant to OSIsoft's invoices are net of, and Licensee will be solely responsible for, any shipping charges and withholding, use, sales, value-added, import, and any other taxes, fees, tariffs, or duties associated with this Quote or Licensee's use of the OSIsoft products and technical support services.
5. OSIsoft reserves the right to change our price list as we deem necessary.
6. OSIsoft's standard annual SRP subscription renewal rate is 15% of current list price.

INTRODUCTION

OSIsoft, LLC ("Seller") is submitting the present Quote to City of Roseville ("Purchaser").

Payment Terms: Net due in 30 days

In accordance with the terms of your agreement with us - timely payment of annual fees for our Software Reliance Program ("SRP") is required to continue receiving the benefits of our SRP program, including but not limited to accessing product downloads, submitting service requests and creating technical support cases. Avoiding lapses and late payments of SRP also serves to eliminate possible restrictions with regard to additional software license purchases.

SUMMARY

*Final invoiced price is subject to following conditions:

- Taxes may apply.
- Software provided by download. If physical media shipment is requested, additional charges will apply.
- Total Software Reliance Program (SRP) price is estimate based on the dates indicated.
- Final SRP price will be prorated according to the date the order is processed.

Total Software License Fees: 49,500.00

*Projected Prorated SRP: 6,435.00

*Total Price (USD): 55,935.00

Thank you for your business!

**Purchase Order
(PO) Requirements****Pre-Requisites:**

- Ensure Licensee (End-User) has an executed Software License and Services Agreement (SLA) with OSIsoft LLC
- Ensure that the PO is issued to the OSIsoft Legal Entity 'OSIsoft, LLC' and in USD currency
- Provide complete **Bill-To** and **Ship-To** (destination of software, download, or service) information: (Full Company legal name and address)
- Provide complete Licensee (**End-User**) information: (Full Company legal name, address, and phone number)

Steps to Submit a Purchase Order (PO):

1. Sign in to <http://my.osisoft.com>. If you do not have access, reach out to your Account Team or your Site PI Admin
2. Select "Quotes" tab
3. Click Submit PO against Quote # Q-157579
4. Review Quote pdf and click Next
5. Upload PO and any other necessary documents
6. Fill all the fields on PO form accurately. Provide Bill-To, Ship-To and upload Tax Exempt Certificate if needed.
7. Click Submit. We will begin processing your order after the submission.

End-User Name: [City of Roseville](#)
End-User Customer #: 5008799 - REP

6. OSIsoft's standard annual SRP subscription renewal rate is 15% of current list price.

OSIsoft Agreement # 2003072SLA

Corporate Family Software License and Services Agreement

1/28/22

("Effective Date")

This Corporate Family Software License and Services Agreement ("Agreement") is between the parties signing below. "We," "us" or "our" refers to OSIsoft, LLC, and "you" or "your" refers to your company as indicated below and your affiliates as defined in this agreement.

Company Name: City of Roseville	OSIsoft, LLC
Tax ID: 0506129101	
Address: 2090 Hilltop Circle Roseville, California 95747-9704 United States	1600 Alvarado Street San Leandro, CA 94577 USA
Sign:	Sign: /CustSig2
Name:	Name:
Title:	Title:
Date:	Date:

WHEREAS you, as City of Roseville/Roseville Energy Park, and we entered into a Software License and Services Agreement effectively dated December 6, 2006, amended by a Corporate Family Amendment effective September 26, 2008, adding Roseville Electric as a licensee affiliate, OSIsoft agreement no. 1014155 ("the former SLA"), and

WHEREAS you and we now wish to supersede and replace the former SLA with this Agreement, and transfer all of the licensed software thereunder and all attendant rights and responsibilities regarding the licensed software and services thereto to this Agreement,

You and we agree as follows:

The former SLA is superseded and replaced by this Agreement on its effective date, for licensee and all of its affiliates, and all software and services thereunder are transferred to the terms and conditions of this Agreement.

License. We do not sell our software or your copy of it – we only license it. Subject to the terms and conditions of this Agreement, we grant you a nonexclusive, nontransferable license to use our software and accompanying documentation in accordance with the Product Usage Terms as specified at www.osisoft.com that correspond with the software licenses you purchase from us. Any software you receive from us via file transfer protocol or other electronic delivery method is automatically governed by this Agreement regardless of whether we reference this Agreement during or in connection with any such electronic delivery, unless we state that another agreement

applies. An affiliate means any legal entity that controls, is controlled by, or is under common control with you and that is added to this Agreement. Control of an entity means having ownership of more than fifty percent (50%) of the shares or voting rights of such entity. You may add affiliates to this Agreement by providing us physical or electronic written notice that contains the company name, address, contact information for a lead contact person and such other information that we may reasonably request. We have provided a form for these requests at: www.osisoft.com. If a company you add as an affiliate to this Agreement no longer meets the ownership requirements stated above, you agree to promptly notify us in writing. You agree that any affiliate you add will be bound by this Agreement and that you will be responsible if they breach this Agreement.

Online Services. Any of our online services that you purchase or use will be governed by the agreement presented to you when you register for the applicable service.

Audit Rights. You agree that upon our request, you will provide us with a written certification that you are using our software pursuant to this Agreement, and you will also allow us to reasonably audit your records and facilities to confirm that your use of our software is in compliance with this Agreement. We will conduct our audit during regular business hours at your facilities and we will not unreasonably interfere with your business operations. If we discover that you are using our software beyond your purchased license levels, you agree that you will immediately pay for your over usage at our then-current list price. If the unpaid or underpaid fees exceed five percent (5%) of the total license fees owed by you during the twelve (12) consecutive month period preceding the audit, then you agree to reimburse us for the reasonable costs of conducting the audit.

Support, Maintenance and Field Services. We offer both (i) field services, including, for example, training classes, installation, migration and on-site training, and (ii) support and maintenance services as described in our Software Reliance Program ("SRP") terms available from our website at www.osisoft.com. You may enroll in SRP by paying the then-current applicable fees. Orders for field services that will be provided by our local affiliate must be placed directly with that entity. If you purchase any field services from us or from our affiliates we warrant that the deliverables will comply with our applicable description of services for a period of 90-days following our performance. You agree to supply us with access to and use of all information, computer systems, and facilities reasonably necessary for us to render any on-site services under this Agreement. We will comply with all reasonable safety rules and procedures you provide to us in advance.

Ordering and Delivery. This Agreement will govern all of your orders for our software and SRP services that you submit directly to us or to one of our authorized resellers. In addition, this Agreement shall govern any field services orders that you submit directly to us or our affiliates. Since this Agreement states all of the terms and conditions applicable to each order, you and we both agree that any additional terms and conditions that may be included with your order will not apply. Each order will contain the information necessary for us to process it. We will inform you of what information we require in our quotes or on our website from time to time. Orders will only be binding on us once we expressly accept it or when we deliver what you ordered. You will be responsible for any contractors submitting orders to us on your behalf. We reserve the right to refuse, cancel or delay shipment to you if you (i) fail to make any payment as provided in this agreement or under the terms of payment set in any invoice or otherwise agreed to between you and us; (ii) fail to meet our credit or financial requirements; or (iii) otherwise fail to comply with the terms and conditions of this Agreement. Our software and SRP deliverables shall be delivered at place (DAP INCOTERMS 2020) to your location. You understand that our software and services will evolve over time and that nothing in this Agreement will prevent us from changing or discontinuing any product or service. Unless we notify you that you do not meet our then-current

credit standards and policies, you will pay our invoices within thirty (30) days of the invoice date. If we notify you, invoices will be due upon receipt. All fees are non-cancelable, non-contingent and non-refundable except as expressly stated in this Agreement. You will pay all amounts due under our invoices in U.S. currency, free of any and all currency controls or other restrictions. All past due amounts under our invoices will incur a charge the lower of 1.5% per month or the highest rate permitted by applicable law on the amount that is past due, beginning as of ten (10) days after the applicable due date. Except for taxes paid by us on our net income, unless otherwise agreed in this Agreement, all amounts due pursuant to our invoices are net of, and you will be solely responsible for any shipping charges, use, sales, value-added, import or other taxes, fees, tariffs or duties associated with this Agreement or your use of our software and/or SRP services. You will pay all these amounts in addition to the license and services fees we invoice you. For clarity, if you are required by applicable law to deduct or withhold taxes due to us, you will (i) withhold the legally required amount from payment; (ii) remit the withheld tax to the applicable taxing authority; and (iii) within sixty (60) days of payment, deliver to us original documentation or a certified copy evidencing remittance of withheld tax. If you do not provide evidence of payment of withheld taxes, you will reimburse us for the tax withheld from payment to us. You will comply with all applicable law, including income tax treaties and protocols, in determining the amount of tax to withhold. This subsection does not apply when you order from one of our authorized resellers. However, you agree to comply with any payment term you may have agreed with such reseller.

Limited Warranty. We warrant that, for a period of one (1) year after delivery, our software will function in accordance with the accompanying documentation in all material respects. As your sole and exclusive remedy and our entire liability for any breach of this limited warranty, we will repair or replace, at no additional charge to you, any of our software that fails to meet it. We also warrant that we either own all right, title and interest to our software, or have sufficient rights to grant you the licenses provided in this Agreement. These limited warranties shall automatically become null and void if anyone other than us modifies our software in any way. EXCEPT AS EXPRESSLY PROVIDED IN THIS SECTION, WE MAKE NO WARRANTIES OF ANY KIND, EITHER EXPRESS OR IMPLIED, AND WE EXPRESSLY DISCLAIM ANY AND ALL SUCH OTHER WARRANTIES, INCLUDING WITHOUT LIMITATION THE IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, QUIET ENJOYMENT AND NONINFRINGEMENT. IF YOUR LOCAL LAW DOES NOT ALLOW OUR EXCLUSION OF IMPLIED WARRANTIES, THEN ANY IMPLIED WARRANTIES, GUARANTEES, OR CONDITIONS LAST ONLY DURING THE TERM OF THE LIMITED WARRANTY AND ARE LIMITED AS MUCH AS YOUR LOCAL LAW ALLOWS. IF YOUR LOCAL LAW REQUIRES A LONGER LIMITED WARRANTY TERM, DESPITE THIS AGREEMENT, THEN THAT LONGER TERM WILL APPLY, BUT YOU CAN EXERCISE ONLY THE REMEDIES THAT ARE DESCRIBED IN THIS AGREEMENT.

Defense of Infringement Claims. We will defend any action brought against you to the extent that it is based upon a claim that our software infringes any patent, copyright or trade secret (as defined by the United States Uniform Trade Secret Act), and will pay any costs, damages and reasonable attorneys' fees attributable to such claim that are finally awarded or paid in settlement in any such action, provided that: (i) you promptly notify us in writing of the claim; (ii) you grant us sole control of the defense and settlement of the claim; and (iii) you provide us with all assistance, information and authority reasonably required for the defense and settlement of the claim, at our expense. If your use of any of our software is, or in our opinion is likely to be, subject to the type of infringement claim specified above, we may, at our sole option and expense: (i) procure for you the right to continue using our software; (ii) replace or modify our software so it is non-infringing, but retains substantially the same functionality; or (iii) if neither (i) nor (ii) can be accomplished

despite our reasonable efforts, then we may terminate your rights and our obligations under this agreement with respect to such software and refund to you the unamortized portion of the license fees paid for such software based on a straight-line three (3) year depreciation from the date you received the software. We will have no liability for infringement claims of any kind arising from (i) any use of our software beyond the scope of this agreement or any accompanying documentation; (ii) your use of our software in combination with any products not developed by us, to the extent the claim is such combined use; (iii) your failure to use updated or modified versions of our software provided or made available by us without additional charge; or (iv) our compliance with designs or specifications of a published standard or as provided by you. THE PROVISIONS OF THIS SECTION SET FORTH OUR SOLE AND EXCLUSIVE OBLIGATIONS AND YOUR SOLE AND EXCLUSIVE REMEDIES WITH RESPECT TO INFRINGEMENT OF THE INTELLECTUAL PROPERTY RIGHTS OF OTHERS.

Subject to the Limitations of Liability section below, to the fullest extent allowed by law, we shall indemnify, and save and hold harmless you, your officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to tangible property, resulting from or arising out of our willful misconduct or negligent act or omission while engaged on your premises in the performance of obligations or exercise of rights created by this Agreement, except those matters arising from your sole negligence or willful misconduct.

Limitations of Liability. EXCEPT FOR LIABILITY ARISING FROM OUR DEFENSE OF INFRINGEMENT CLAIMS OBLIGATIONS EXPRESSLY PROVIDED IN THIS AGREEMENT, EVEN IF ANY REMEDY SET FORTH HEREIN FAILS ITS ESSENTIAL PURPOSE AND REGARDLESS OF WHETHER A CLAIM ARISES UNDER CONTRACT, TORT (INCLUDING NEGLIGENCE), BREACH OF WARRANTY, STRICT LIABILITY OR OTHERWISE, AND WHETHER OR NOT WE HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH LOSS OR DAMAGES, IN NO EVENT SHALL WE BE LIABLE FOR LOSS OF PROFIT, LOSS OF USE, LOSS OF DATA, LOSS OF REVENUE, LOSS OF CONTRACTS, INCREASED COSTS AND EXPENSES, WASTED EXPENDITURE, COST OF REPLACEMENT, OR ANY SPECIAL, INDIRECT OR CONSEQUENTIAL LOSSES OF ANY KIND. OUR TOTAL CUMULATIVE LIABILITY TO YOU WILL NOT EXCEED THE TOTAL LICENSE FEES PAID BY YOU TO US UNDER THIS AGREEMENT DURING THE TWELVE (12) MONTH PERIOD IMMEDIATELY BEFORE THE LIABILITY AROSE, OR TWO HUNDRED FIFTY THOUSAND DOLLARS (\$250,000), WHICHEVER IS GREATER. Both you and we agree that the allocation of risk contained in this Section is an essential basis of this Agreement.

Confidential Information. Confidential information means our software and any accompanying documentation, in addition to any business information (including any pricing information) or technical information that is marked as “confidential” or “proprietary” at the time we provide it to you. Your confidential information also includes proprietary information related to your operations in whatever form that you disclose to us in connection with this Agreement. Our confidential information shall also include, without limitation, any software you develop that references our confidential information. Neither you nor we may use the other’s confidential information except as expressly provided in this Agreement, and you and we will use commercially reasonable measures to maintain each other’s confidential information in confidence. In all events you and we both agree that these measures will be at least as protective as those you and we each take in protecting our own confidential information of similar importance. Confidential information will not include information which: (i) is, or becomes, publicly available without a breach of this agreement; (ii) the receiver of the information lawfully knew without an obligation to keep

confidential; (iii) is received from another source who, to the best of receiver's knowledge, can disclose it lawfully to the receiver; (v) is independently developed; (vi) is a comment or suggestion either you or we volunteer about the other's business, products or services; or (vii) you or we have approved in writing for use or publication. The City of Roseville's obligation to keep information confidential will not apply if disclosure is required by state or federal law or regulations, including without limitation, the California Public Records Act. Before any disclosure is made under this Act, you must seek the highest level of protection available and, when possible, give us enough prior notice to provide a reasonable chance to seek a protective order.

Transfer or Assignment of Software. You must obtain our written consent prior to: (i) moving our software from one location to another or (ii) assigning this Agreement or any software licenses to any third party or affiliate. Assignment will include any direct or indirect change in control (as defined in the first paragraph of this agreement) you or your affiliates may undergo. We may condition our consent to include updating our software to the then-current version, paying our then-current license fees, and purchasing a one-year subscription to SRP at our then-current rate. For an assignment or transfer to a third party or an affiliate, we may require your proposed assignee to execute our then-current license agreement. Except as otherwise specified in writing by us with our written consent, orders submitted by any assignee shall be in accordance with our then-current list price. Any attempted assignment, whether by operation of law or as a result of any change in control or otherwise without complying with this paragraph, will be null and void.

Export Compliance. You acknowledge that your use or disclosure of our software, accompanying documentation, and related technical data (collectively "OSIsoft Technology") are subject to U.S. export laws and regulation that may restrict the export and re-export of software and technology of U.S. origin and that you will comply with all applicable U.S. laws, rules, and regulations. You agree that, if you, your parent, or any corporate affiliate that owns, directly or indirectly, 50% or more of you becomes subject to U.S. sanctions, we may terminate this Agreement as required by U.S. law and retrieve OSIsoft Technology from you and/or your facility within the time required by U.S. law.

Term and Termination. This Agreement will remain in effect unless one of us terminates it as provided in this paragraph. You may voluntarily terminate your license to our software under this Agreement at any time by destroying all copies of our software and accompanying documentation within your possession or control. Either of us may terminate this Agreement if the other breaches any material term, and such breach remains uncured for thirty (30) days after receiving written notice of it. In the event of any termination of this Agreement, you and we both agree to return, or at the other's request, destroy, all of the other party's confidential information within ten (10) business days. At our request you agree to return or destroy all copies of our software and accompanying documentation that you possess or control. Termination of this Agreement by either you or us will be a nonexclusive remedy for breach, without prejudice to any other right or remedy you or we may have. You do not need to terminate this Agreement in order to pursue remedies (including damages) against us in the event you believe we have breached this Agreement. The paragraphs entitled "Audit Rights", "Limitation of Liability", "Confidential Information" and "General" will survive the termination of this Agreement.

General. You and we are each other's independent contractors. Neither you nor we have the power to bind the other or incur obligations on the other's behalf without the other's prior written authorization. Unless otherwise specified in this Agreement, all notices required or permitted under this Agreement shall be sent to the receiving party's address specified above (or such other address specified by the receiving party in writing) and will be deemed effective upon receipt. We

shall not be liable for any failure or delay in our performance under this Agreement due to causes beyond our reasonable control. If you or we have a dispute relating to this Agreement, including without limitation its existence, validity or termination, you and we agree that it will be submitted to and finally resolved by arbitration under the Commercial Rules of the American Arbitration Association (the "AAA"). The arbitration panel shall consist of a single arbitrator experienced in the enterprise software industry, selected and agreed to by both you and us. If you and we cannot agree on the selection of an arbitrator, then the AAA shall appoint the arbitrator. The arbitration will be in Sacramento, California, and shall be conducted in English. The arbitrator will apply the substantive law of California, and shall provide detailed written findings of fact and conclusions of law in support of any award or decision. Judgment upon any such award or decision may be enforced in any court of competent jurisdiction. Notwithstanding the foregoing, we may file an action in any court of competent jurisdiction to enforce our intellectual property rights in our software, accompanying documentation, and related services without first submitting our claim to arbitration. The prevailing party in any action or arbitration shall be entitled to recover all attorneys' fees and costs including, without limitation, arbitration fees and fees of experts. If for any reason any part of this Agreement is found unenforceable, the remainder of this Agreement will be enforced to the maximum extent permissible. You consent to our use of your non-stylized corporate name in our marketing literature and customer lists. You may withdraw such consent at any time with written notice. This Agreement is the entire agreement between you and us with respect to all of our software, documentation and services. It supersedes and replaces any prior understanding or agreements (except agreements pertaining to our trial or beta software) related to any of our software, documentation or services, from the effective date forward. Neither you nor we may amend this Agreement except in writing with express reference to this Agreement and is signed by both you and us. In no event will any purported amendment or agreement be binding on us unless it is signed by one of our corporate officers. The failure by either you or us to enforce any provision of this Agreement shall not waive future enforcement of that or any other provision. You and we hereby agree that this Agreement and any documentation, agreements and/or correspondence ancillary thereto be written in English. This Agreement may be executed in counterparts, each of which will be deemed an original, but all of which together will constitute one and the same instrument.

A large, light gray watermark of the OSIsoft logo is centered on the page. The logo consists of the letters "OSI" in a bold, sans-serif font, followed by the word "soft" in a lighter, lowercase sans-serif font.

COUNCIL COMMUNICATION

CC #: 2498

File #: 0203-12

Title: Real-Time Crime Center Integration Software - Sole Source Service Agreement

Contact: Amanda Jones 916-774-5025 ajones@roseville.ca.us
Mark Peinado 916-774-5021 mcpeinado@roseville.ca.us

Meeting Date: 1/18/2023

Item #: 7.4.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council adopt a resolution to approve a sole source purchase and deployment of the Fusus platform for use in the Roseville Police Department's Real Time Crime Center (RTCC) and authorize the City Manager to execute a service agreement with Fusus, Inc.

BACKGROUND

The City of Roseville Police Department is building a Real Time Crime Center (RTCC) with the purpose of displaying and integrating available technologies to assist with making field response to active incidents faster, more efficient, and safer for police personnel and our citizens.

The build of the RTCC includes the deployment of an integration software platform. The Fusus platform will integrate multiple applications into a single, easy-to-use, interactive display. Several alternatives were explored and it was determined that the software platform offered by Fusus is the best fit for our operation. FususONE, the company's flagship enterprise software management system is the only platform of its kind on the market, with no comparable alternatives that meet the needs of the Roseville PD RTCC.

The Fusus platform integrates multiple existing software applications, and places them in a single, map-based interactive display. The integration of our Computer Aided Dispatch (CAD) system allows users to visualize in real-time, all of the available technology based resources in relation to calls for service. The Fusus platform also has robust, built-in tools to assist RTCC personnel in analyzing video quicker and more efficiently, and provides a secure avenue for two-way communication between the RTCC and responding units. Fusus also offers a community camera registry that provides individuals or businesses the option to share camera information with the Roseville Police Department, at their own discretion.

The vendor approached the department and offered a significant cost savings if we signed a non-binding letter of commitment by the end of the calendar year with the final agreement contingent upon Council approval. This item is for approval of the service agreement.

FISCAL IMPACT

The total cost of the Fusus purchase includes the Fusus Pro Package software, associated hardware, integrations, training, and deployment is \$74,999 per year for 3 years, for a total of \$224,997. Funding for this purchase has been approved in the Police Department's FY2022-23 operating budget in the General Fund.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. The purchase and installation of Fusus software meets the above criteria and is not subject to CEQA. No additional environmental review is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal C - Maintain a safe and healthy community

Goal E - Deliver exceptional city services

Respectfully Submitted,

Mark Peinado, Management Analyst

Troy Bergstrom, Police Chief

Dominick Casey, City Manager

RESOLUTION NO. 23-024

APPROVING A SERVICE AGREEMENT BETWEEN THE CITY OF ROSEVILLE AND
FUSUS, INC., AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF
OF THE CITY OF ROSEVILLE

WHEREAS, a Service Agreement for the purchase and deployment of Fusus Real-Time Crime Center Integration software, between the City of Roseville and Fusus, Inc., has been reviewed by the Council;

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that said service agreement is approved and that the City Manager is authorized to execute it on behalf of the City of Roseville.

PASSED AND ADOPTED by the Council of the City of Roseville this ____ day of _____, 2023, by the following vote on roll call:

AYES COUNCILMEMBERS:

NOES COUNCILMEMBERS:

ABSENT COUNCILMEMBERS:

MAYOR

ATTEST:

City Clerk

December 1, 2022

Chief Troy Bergstrom
Roseville Police Department
1051 Junction Blvd
Roseville, CA 95678

Subject: Service Agreement Proposal

Dear Chief Bergstrom

Fusus is honored that the Roseville Police Department is considering our organization to support its community safety initiatives by providing a platform to view public and community video sources for incident situational awareness and investigations.

As an incentive, Fusus is providing the Roseville Police Department six additional AI Cores **at no cost, a \$30,000 value**, as well as Enterprise Package functionality to include Fusus Alert, Fusus Notify and Fusus Tips, **at no cost, an \$18,000 value** if this non-binding Service Agreement Proposal is signed and returned to Fusus by close of business December 30, 2022. In all, Fusus is providing **\$48,000 in discounts** for features, functionality and hardware at no cost, if this non-binding Service Agreement Proposal is signed and returned to Fusus by close of business December 30, 2022.

Fusus will provide a video and data collaboration platform to expedite intelligence gathering and efficiency of response to situations as they unfold throughout the community. Further, the platform is tied to a community-facing website portal for video camera registry, providing a tool for identifying the location of cameras in proximity to incidents, as well as a means for efficient outreach to collect recorded video and image files from camera owners both public and private.

Upon execution of this Service Agreement Proposal and subsequent City Council approval, this Service Agreement Proposal shall become a binding Service Agreement and the project will initiate and consist of the following:

Thirty-Day No Charge Proof of Concept Period:

- a. Provide and install five (5) fususCORE™ Pro Appliances
- b. Provide and install two (2) fususCORE™ Pro AI Appliances
- c. Floorplan Integration for designated locations in fususONE™
- d. Provide access to software and training of users
- e. Integration of the Department's CAD into fususONE™

At the conclusion of the Thirty-Day No Charge Proof of Concept Period, and with customer approval (Written Notice to Proceed), full deployment will begin.

The Service Agreement and related software subscription will be for thirty-six (36) months, commencing upon customer's Written Notice to Proceed.

1. Initial Scope of Work: The following fūsus Pro Package software and associated hardware will be delivered and installed as part of this agreement.
 - a. fūsusONE™: Initial setup, access and training of users to include up to 500 data points and 500 public/private video feeds
 - b. fūsusCORE™: Installation and setup of fūsusCORE™ Appliances less the quantity installed in proof of concept:
 - i. Fifteen (15) fūsusCORE Pro™ Appliances
 - i. Seven (7) fūsusCORE Elite AI™ Appliances
 - c. fūsusREGISTRY™: Creation of a custom website portal for community members to register privately owned cameras
 - d. fūsusVAULT™: Implementation of a CJIS compliant evidence vault for the storage of up to 5TB of videos and still images captured via the fūsusONE™ platform
 - e. fūsusOPS™: Implementation of our smart-phone app which provides viewing of live camera feeds and setting up and transmitting the location of teams for special events and critical incident management
 - f. fūsusTIPS™: Implementation of our SMS service that provides text communications of pictures, audio and video directly into fūsusVault™
 - g. fūsusNOTIFY™: Implementation of our SMS text service that provides text notifications to community members
 - h. fūsusAlert™: Implementation of our iOS/Android application which provides panic alerting to fūsusONE™ along with geolocation of persons in distress and automatic docking of nearby camera assets in the fūsusONE™ platform
 - i. fūsusANALYTICS™: Implementation of our crime and incident heat mapping and analysis platform
 - j. fūsusCONNECT Call-Out: One (1) month of fūsus call-out to businesses within the jurisdiction to assist with camera registration and integration
 - k. fūsusCONNECT Microsite: Development of an agency specific website landing page to assist with building camera registration and integration of community video assets
 - l. Remote Configuration of fūsus Core(s)
 - m. Integration of all current and future video feeds
 - n. Integration of Computer Aided Dispatch, AVL, drone feeds, covert cameras, and license plate readers as required

Note: fūsus™ will provide continuing data and IoT integrations at no additional charge for the life of the agreement

2. Payment and Subscription Terms:

- | | |
|--|-----------------|
| a. Payment 1: Due Upon Written Notice to Proceed | \$74,999 |
| b. Payment 2: Due Upon 1 st Anniversary of Written Notice to Proceed | \$74,999 |
| c. Payment 3: Due Upon 2 nd Anniversary of Written Notice to Proceed | \$74,999 |

Invoices for payments 2 and 3 will be sent 60 days prior to their respective due dates.

Note: Additional fūsusCORE™ appliances and camera streams may be purchased for the following per unit price schedule.

- a. CORE Lite: \$200/each
- b. CORE Lite Extended: \$300/each
- c. CORE Pro: \$600/each
- d. CORE Pro Extended: \$1000/each
- e. CORE Elite: \$4,000/each
- f. CORE Elite AI: \$5,000/each
- g. Additional 500 Streams: \$25,000 per year

3. Bill of Materials Included with the Service: As part of the annual subscription price, each system will include the following:

- a. fūsusONE™ SaaS
- b. Unlimited video alerts, access, and video download
- c. fūsusCORE™ warranty and technical support for the life of the agreement
- d. Unlimited fūsusOPS Application for Android and iOS Devices

Subscription to fūsusONE™ includes all the following:

- a. Unlimited Users for Your Agency to fūsusONE™ – Real-Time Crime Center in the Cloud
- b. Unlimited Access for Your Agency to the fūsusONE™ Dashboard
- c. Floorplan Integration for designated locations in fūsusONE™
- d. Ongoing Integration Services with the CAD System
- e. Installation and Technical Phone Support
- f. Provide a Full Solution Warranty for the Life of the Agreement
- g. Live U.S.-Based Phone Technical Support for the Life of the Agreement

4. Technical Requirements:

- a. Camera live-sharing compatibility will be assessed for each location before CORE delivery.
- b. The customer will designate a primary POC for the deployment of the fūsus™ solution.
- c. Minimum network speed of .5 mb/s for live video sharing will be required for each CORE location.

5. Terms and Conditions:

The use of and access to fūsus™ products and services is subject to the fūsus™ Terms of Service V08.30.2022 found at <https://www.fusus.com/fusus-terms-of-service>.

This Service Agreement Proposal is a non-binding commitment, and acceptance of the Service Agreement Proposal is contingent upon City Council approval. Upon City Council approval, this Service Agreement Proposal shall become a binding Service Agreement.

This Termination for Convenience Clause asserts that the customer may, at its sole discretion, terminate the Service Agreement with thirty (30) days of written notice to Fūsus. Services will be reimbursed on a pro-rated basis from the last day of the term through the agreement's remainder. The cost of any unreturned or unserviceable fūsusCORE(s), as listed above in Section 2, will be deducted from the refund.

This Non-appropriation Clause asserts that the customer may terminate the Service Agreement, upon thirty (30) days' notice to Fūsus, if the customer's governing body does not appropriate funds for this Service Agreement. A refund will be provided for any unused portion of the paid subscription, after the 30-day notice period through the remainder of the term.

We are privileged to work with you on this project. Should you have any questions at any time, please feel free to call (765) 237-1769 or email me at jdw@fus.us.

Respectfully,

John Watson
Vice President of Sales

Approved (Signature):

DOMINICK CASEY CITY MANAGER Date 12/05/2022

Fusus Terms of Service

Terms and Conditions Governing a Subscriber's Use of the Fūsus Software, and all Fūsus Solutions and Services Provided via the Software, including but not limited to the FūsusONE, FūsusREGISTRY, FūsusOPS, FūsusALERT, FūsusTIPS, FūsusNOTIFY, FūsusCORE, FūsusVAULT, FūsusCONNECT and FūsusNOTIFY product offerings.

1. Introduction:

A. Subscribers to the Terms.

The following Terms of Service Agreement (the "Terms" or the "Agreement") is a binding agreement between Fūsus Inc. ("Fūsus") and you, a user of the Fūsus Software ("Software") and/or a Subscriber to the FūsusONE Real Time Interoperability Solution ("Solution"), as presented in the accompanying Offer Letter, which You agree to, either as an individual of at least eighteen years of age, or as an organizational entity, or as an associational entity, in accordance with your status and existence ("You" or "Subscriber"). These Terms govern Your use of the Fūsus Software, the Solution, and all other solutions, services and networks owned or controlled by Fūsus (all of which are included in the definition of "Content" provided in Section 1 below), which are provided to You via the Software. When You accessed this Software, and/or when You registered Your account on the Software ("Account") and/or when You clicked the "AGREED" box on the Software login page, You acknowledged Your understanding of these Terms and Your voluntary consent to be bound by these Terms.

(1) Individual Subscribers.

If You are an individual, You hereby represent and warrant to Fūsus that You are at least eighteen (18) years of age or and otherwise capable of entering into and performing legal agreements, and that You agree to be bound by the Terms.

(2) Entity Subscribers.

If You are going to use the Solution on behalf of a public entity, business entity, corporate entity, organizational entity, or associational entity, You hereby represent to Fūsus that You have the authority to bind that entity to these Terms as the Subscriber, and Your acceptance of these Terms will be treated as acceptance by that public, business, corporate, organizational, or associational entity as the Subscriber. In that event, You acknowledge and understand that "You" and "Your" will refer to that public, business, corporate, organizational, or associational entity as the Subscriber, which Subscriber is bound to these Terms, along with all officers, directors, employees, contractors, agents, or volunteers in and under Subscriber's control and/or supervision, who are also bound to these Terms.

B. Updates to the Terms.

When using the Software, the Solution, and/or any other solutions and/or services provided by Fūsus via the Software, You will be subject to any updates and revisions to these Terms. Fūsus reserves the right, at Fūsus's sole discretion and without prior notice to You, to update, amend, change, modify, add, or remove portions of these Terms at any time by posting the updated Terms ("Updates"). Unless otherwise stated in writing by Fūsus, all Updates shall be effective immediately upon posting on the Software, and Your continued use of the Fūsus

Software after the posting of any Updates to these Terms constitutes Your binding acceptance of such changes. You acknowledge and agree that it is Your responsibility to ensure that You are current and up-to-date in Your understanding of and compliance with these Terms, notwithstanding whether or not Fūsus has posted any notice of Updates to these Terms on the Software, and you acknowledge, understand, and agree that You must periodically check these Terms for Updates. Additional posted policies, guidelines or rules applicable to specific services and features, may be posted from time to time (“Policies”). All such Policies are hereby incorporated by reference into these Terms. In the case of any inconsistency between these Terms and any other document that has been incorporated by reference herein, these Terms shall control.

2. CONTENT.

A. Content Defined.

The Software contains the Solution and may contain other solutions and products and services, as well as a variety of materials and other items relating to the Solution and to Fūsus’s other products and services, and similar items from our licensors and other third parties, including all layout, information, text, data, files, images, scripts, designs, graphics, button icons, instructions, illustrations, photographs, audio clips, music, sounds, pictures, videos, advertising copy, URLs, technology, software, interactive features, the “look and feel” of the Software and of the Solution, and the compilation, assembly, and arrangement of the materials of the Software and any and all copyrightable material (including source and object code), trademarks, logos, trade names, service marks, company names, and trade identities of various parties, including those owned by Fūsus and those owned by third parties and licensed to Fūsus for use on the Software (collectively, “Trademarks”), and other forms of intellectual property included in the Software, in the Solution, and/or in any other product or solution or service provided by Fūsus. All of the foregoing, including the Solution and any other solutions, products, and/or services provided by Fūsus through the Software is defined and referred to collectively in these Terms as “Content”.

B. Ownership.

The Software (including any past, present, and future versions) and the Content are owned by Fūsus or controlled by Fūsus through licenses granted to Fūsus by its licensors. All right, title, and interest in and to the Content available via the Software is the property of Fūsus or of our licensors, and is protected by U.S. federal copyright, trademark, patent, and trade secrets laws and by other federal and state intellectual property, and unfair competition laws. In addition to Fūsus’s copyright ownership of the Content, Fūsus owns a copyright in the selection, compilation, assembly, arrangement, and enhancement of the Content on the Software. “Intellectual Property Rights,” as used in these Terms, means any and all rights belonging to Fūsus and existing under patent law, copyright law, semiconductor chip protection law, trade secret law, trademark law, unfair competition law, publicity rights law, privacy rights law, and any and all other proprietary rights, and any and all applications, renewals, extensions and restorations thereof, now or hereafter in force and effect worldwide, in any intellectual property, which includes, but is not limited to, patentable inventions, ideas, and processes, trade secrets, trademarks, trade names, copyrightable works, and any confidential information. As between You and Fūsus, Fūsus retains all its respective titles, interests, and ownership in the Software and the Content, and You understand and acknowledge that neither You nor any other Subscriber acquires any ownership in any Intellectual Property Rights regarding the Software or the Content under these Terms.

C. Limited License Granted to You.

Subject to Your strict and ongoing compliance with Your Subscription Agreement and with these Terms, Fūsus

grants You a limited, non-exclusive, revocable, non-assignable, and non-transferable license to use the Software and the Solution (the “Limited License”). The foregoing Limited License does not give You any ownership of, or any other intellectual property interest in, any Content (including, but not limited to, the Solution), and Fūsus reserves the right to suspend or terminate, at any time and for any reason, Your Limited License without any advance notice to You, and without any liability. This Agreement and any Additional Terms include only narrow, limited grants of rights to Content and to use and access the Software. No right or license may be construed, under any legal theory, by implication, estoppel, industry custom, or otherwise. All rights not expressly granted to You are reserved by Fūsus. Any unauthorized use of any Content or the Software for any purpose is strictly prohibited.

3. SUBSCRIBER-GENERATED CONTENT: CONTENT YOU SUBMIT.

A. Your Ownership of Subscriber-Generated Content.

Fūsus may provide a Subscriber the opportunity to post, upload, display, publish, distribute, transmit, broadcast, or otherwise make available on or submit through the Software (collectively, “submit”) messages, text, illustrations, files, images, graphics, photos, comments, sounds, music, videos, information, content, ratings, reviews, data, questions, suggestions, personally identifiable information, or other information or materials created by a Subscriber (collectively, “Subscriber-Generated Content”). Subject to the rights and license You grant to Fūsus under these Terms (see below), You retain whatever legally cognizable right, title, and interest that You have in Your Subscriber-Generated Content. You understand and acknowledge that Fūsus has no obligation to monitor or enforce Your intellectual property rights to Your Subscriber-Generated Content. (hereinafter, “PII”).

B. Fūsus’s Enforcement Rights in Subscriber-Generated Content.

You grant Fūsus the exclusive right to protect and enforce its licensed rights to Your Subscriber-Generated Content while it is posted on the Software, including the right to bring and control enforcement actions in Your name and on Your behalf at Fūsus’s cost and expense.

C. Your Representations and Warranties and Your Indemnification Obligations for Your Subscriber-Generated Content.

Each time You submit any Subscriber-Generated Content, You represent and warrant that You are the sole author and owner of the intellectual property and other rights to the Subscriber-Generated Content, or You have a lawful right to submit the Subscriber-Generated Content.

4. REPORTING INTELLECTUAL PROPERTY INFRINGEMENT.

DMCA Notice for Copyright Infringement.

Fūsus will respond appropriately to notices of alleged copyright infringement that comply with the Digital Millennium Copyright Act (“DMCA”), as set forth below. If You own a copyright in a work (or represent such a copyright owner) and believe that the copyright in that work has been infringed by an improper posting of it as part of Subscriber-Generated Content on the Software, then You may send us a written notice that includes all of the following:

- (1) a subject line that says: "DMCA Copyright Infringement Notice"; and
- (2) a description of the copyrighted work that You claim has been infringed or, if multiple copyrighted works are covered by a single notification, a representative list of such works; and
- (3) a description of the location of the infringing material on the Software; and
- (4) Your full name, address, telephone number, and e-mail address; and
- (5) a statement by You that You have a good faith belief that use of the allegedly infringing material in the manner complained of is not authorized by the copyright owner; and
- (6) a statement by You, made under penalty of perjury, that all the information in Your notice is accurate, and that You are the copyright owner (or, if You are not the copyright owner, then Your statement must indicate that You are authorized to act on the behalf of the owner); and,
- (7) Your physical signature or, if sent within an email (rather than in a physical document or a digital document attached to an email), the characters "/s/" followed by Your full typed name, which will serve as Your electronic signature.

Fūsus may elect to not respond to DMCA Notices that do not substantially comply with all of the foregoing requirements, and Fūsus may elect to remove allegedly infringing material that comes to its attention via notices that do not substantially comply with the DMCA.

B. Mode of Communication.

Fūsus will only respond to DMCA Notices that it receives by mail or e-mail at the addresses below: **By Mail:**

Fūsus
ATTN: DMCA Notice
5550 Triangle Pky, Suite 100 Peachtree Corners, GA 30092

By E-Mail:

helpdesk@fusus.com

We may send the information that You provide in Your DMCA Notice to the person who provided the allegedly infringing work. That person may elect to send us a DMCA Counter-Notification.

Without limiting Fūsus's other rights, Fūsus may, in appropriate circumstances, terminate a repeat infringer's access to the Software and any other Software owned or operated by Fūsus.

C. DMCA Counter-Notification regarding Copyright Infringement.

If access on the Software to a work that You submitted to Fūsus is disabled or the work is removed as a result of a DMCA Notice, and if You believe that the disabled access or removal is the result of mistake or misidentification, then You may send us a DMCA Counter-Notification to the addresses above. Your DMCA Counter-Notification should contain the following information:

- (1) a subject line that says: "DMCA Counter-Notification"; and
- (2) a description of the material that has been removed or to which access has been disabled and the location at which the material appeared on the Software before it was removed or disabled; and
- (3) a statement made under penalty of perjury that You have a good faith belief that the material was removed or disabled as a result of mistake or misidentification; and
- (4) Your full name, address, telephone number, e-mail address, and the username of Your Account; and
- (5) a statement that You consent to the jurisdiction of the Federal District Court for the judicial district in which Your address is located (or, if the address is located outside the U.S.A., to the jurisdiction of the United States District Court for the District of Georgia), and that You will accept service of process from the person who provided DMCA notification to us or an agent of such person; and
- (6) Your physical signature or, if sent within an email (rather than in a physical document or a digital document attached to an email), the characters "/s/" followed by Your full typed name, which will serve as Your electronic signature.

Please note that the DMCA provides that any person who knowingly materially misrepresents that material or activity was removed or disabled by mistake or misidentification may be subject to liability.

If we receive a DMCA Counter-Notification, then we may replace the material that we removed (or stop disabling access to it) in not less than 10 and not more than 14 business days following receipt of the DMCA Counter-Notification. However, we will not do this if we first receive notice at the addresses above that the party who sent us the DMCA Copyright Infringement Notice has filed a lawsuit asking a court for an order restraining the person who provided the material from engaging in infringing activity relating to the material on the Software. You should also be aware that we may forward the DMCA Counter-Notification to the party who sent us the DMCA Copyright Infringement Notice.

D. Reporting Infringement of Other Intellectual Property.

If You own intellectual property other than a copyright and believe that Your intellectual property has been infringed by an improper posting or distribution of it on the Software, then You may send Fūsus a written notice to one of the addresses set forth in Section 4.A. above that includes all of the following:

- (1) a subject line that says: "Intellectual Property Infringement Notice"; and
- (2) a description of the intellectual property that You claim has been infringed, or a list of the intellectual
- (3) property if multiple works have been infringed; and a description of the location of the infringing material on the Software; and

(4) Your full name, address, telephone number, and e-mail address; and

(5) a statement by You that You have a good faith belief that use of the allegedly infringing material in the manner complained of is not authorized by the owner; and

(6) a statement by You, made under penalty of perjury, that all the information in Your notice is accurate, and that You are the owner (or, if You are not the owner, then Your statement must indicate that You are authorized to act on the behalf of the owner); and,

(7) Your physical signature or, if sent within an email (rather than in a physical document or a digital document attached to an email), the characters “//s//” followed by Your full typed name, which will serve as Your electronic signature.

Fūsus will act on such notices in its sole discretion. Any User of the Software that fails to respond satisfactorily to Fūsus with regard to any such notice is subject to suspension or termination. We may send the information that You provide in Your notice to the person who provided the allegedly infringing material.

4. YOUR ACCOUNT AT FŪSUS.

A. Registration.

To access the Solution through the Software, You not only must execute a Subscription Agreement, but also You must become a registered user of the Software by establishing an Account. The Software's practices governing any resulting collection and use of Your personal information in Your Account are disclosed in its Privacy Policy.

B. Usernames and Passwords.

If You register for any feature of the Software that requires a password and/or username, such as the Solution, then You will select Your own password at the time of registration (or we may send You an email notification with a randomly generated initial password) and You agree to the following:

(1) You will not use a username (or e-mail address) that is already being used by someone else, that may impersonate another person, that belongs to another person, that violates the intellectual property or other right of any person or entity, or that is offensive (Fūsus may reject the use of any password, username, or email address for any reason in our sole discretion); and

(2) You will provide accurate, current, and complete registration information about Yourself in connection with the registration process and, as permitted, to maintain and update it continuously and promptly to keep it accurate, current, and complete for as long as You use the features to which the registration relates; and

(3) You are solely responsible for all activities that occur on the Software under Your Account, password, and username, whether or not You authorize the activity (except to the extent that any activity occurs due to unauthorized use of Your password and username by another person or entity), and, accordingly, if You are an entity Subscriber, You are solely responsible for the actions of all persons subject to Your control and/or supervision who access the Software and the Content through Your subscription; and

(4) You are solely responsible for maintaining the confidentiality of Your password and for restricting access to Your

computers, phones, pads, tablets, or other Internet Access Devices, so that unauthorized persons may not access any password protected portion of the Software using Your name, username, or password; and

(5) You will immediately notify Fūsus of any unauthorized use of Your Account, password, or username, or any other breach of security; and

(6) You will not sell, transfer, or assign Your Account or any Account rights.

Fūsus shall have no liability for any loss or damage (of any kind and under any legal theory) to You or any third party arising from Your inability or failure for any reason to comply with any of the foregoing security obligations.

C. Termination in the Event of Non-appropriation.

If You are a public entity and do not appropriate funds for this agreement, then this agreement and all Your obligations terminate. A refund will be provided for any unused portion of the paid subscription, after the 30-day notice period through the remainder of the term.

D. Software Access Charges.

Fūsus reserves the right, upon reasonable notice, to charge for access to some or all of the Software, charge for access to premium functionality or Content on some or all of the Software, or require a subscription or registration to access some or all of the Software. Fūsus further retains the right to change the terms and conditions for accessing the Software or portions of the Software; and the right to restrict access to the Software or portions of the Software, in whole or in part, based on any lawful eligibility requirements Fūsus may elect to impose (e.g., geographic or demographic limitations). Fūsus may modify, revalue, or make the registration free at its sole discretion without advance notice or liability.

E. Your Use of an Internet Access Device and Third-Party Components.

You understand and agree that Your use of any Internet Access Device and/or all third-party hardware, software, services, telecommunication services (including Internet connectivity), or other items used by You to access the Software ("Third-Party Components") are the sole and exclusive responsibility of You, including all costs of Your use of such Third-Party Components, and that Fūsus has no responsibility for such third-party components, services, or Your relationships with such third parties. You agree that You shall at all times comply with the lawful terms and conditions of Your agreements with such third parties. Fūsus does not represent or warrant that the Software and the Content are compatible with any specific third-party hardware or software or any other Third-Party Components. You are responsible for providing and maintaining an operating environment as reasonably necessary to accommodate and access the Software.

F. Wireless Features.

The Software may offer certain features and services that are available to You via Your wireless Internet Access Device. These features and services may include the ability to access the Software's features and upload content to the Software, receive messages from the Software, and download applications to Your wireless Internet Access Device (collectively, "Wireless Features"). Standard messaging, data, and other fees may be charged by Your carrier to participate in Wireless Features. Fees and charges may appear on Your wireless bill or be deducted from

Your pre-paid balance. Your carrier may prohibit or restrict certain Wireless Features and certain Wireless Features may be incompatible with Your carrier or wireless Internet Access Device. You should check with Your carrier to find out what plans are available and how much they cost. Contact Your carrier directly with questions regarding these issues. You understand and acknowledge that Fūsus has no responsibility or liability for Your ability or inability to access or take advantage of any Wireless Features due to Your carrier, Your phone service plan, Your Internet Access Device, or any other Third-Party Component.

G. Customer Service.

Fūsus acknowledges the importance of response times for critical systems when technical issues arise. As such, Fūsus shall provide technical support during normal business hours from 9am to 5pm ET, and via an on-call after-hours support team which is available on a 24/7/365 basis. When technical issues arise, Subscriber may contact Fūsus Technical Support via phone at: (844) 226-9226 ext. 2 or via email at: helpdesk@fusus.com. Fūsus will make every effort in all circumstances to respond to Subscriber technical support inquiries in a timely fashion. For after-hours support requests, Subscriber shall notify Fūsus of the priority of their request when it is submitted. The priority shall determine the guaranteed response time as detailed below:

- (1) Priority 1 – Technical concerns impacting a single or multiple users that require immediate resolution during critical incidents or major events at the Agency/Organization. Fūsus to return customer's call or email within 2 hours, including holidays and weekends.
- (2) Priority 2 – Technical concerns impacting multiple users, non-critical/major events. Fūsus to return customer's call or email within 24 hours.
- (3) Priority 3 – Technical concerns impacting a single user, non-critical/major events. Fūsus to return customer's call or email within 1 business day.

5. YOUR GENERAL REPRESENTATIONS AND WARRANTIES.

A. You represent and warrant the following in respect of this Agreement:

- (1) You have the necessary authority to enter into this Agreement; and
- (2) If You are an individual, You are over the age of eighteen; and
- (3) You shall cooperate with all of the instructions, rules, and procedures that apply to Your Fūsus Account;
- (4) You have provided and will continue to provide true, accurate, current, and complete Account registration information; and
- (5) You will respect and abide by all of Your obligations under this Agreement, and You will perform Your obligations under this Agreement diligently; and
- (6) If You are an entity Subscriber, You will monitor and closely supervise all of the persons under Your employment, including all officers, directors, employees, contractors, agents, and legal representatives who access the Software and the Content through Your subscription to ensure their compliance with these Terms,

and You understand, acknowledge, and agree that You are entirely responsible for such compliance by all persons subject to Your control and/or supervision; and

- (7) You will comply with all laws and regulations applicable to this Agreement and to the Software and Content, include all laws regarding personal rights of privacy and publicity.

B. Expressed Warranty.

Products manufactured by Fūsus are warranted to be free from defects in material and workmanship under normal use and service. This warranty is applicable to any of Fūsus's products provided as part of the Software as a Service agreement with Subscriber, or purchased by Subscriber for use with their subscription, that Subscriber returns to Fūsus during the period of the initial term of the agreement.

- (1) Real-Time Crime Center in the Cloud Subscribers (RTC3): All equipment issued as part of a RTC3 project, including fususCORE™ appliances and peripherals, are warranted for the duration of the initial agreement and will be repaired or replaced at Fūsus's cost with an appropriate Request to Merchant (RMA) authorization.
- (2) Security Operations Center in the Cloud Subscribers (SOC2): All equipment issued as part of a SOC2 project, including fususCORE™ appliances and peripherals, are warranted for one (1) year from the original date of shipment to Subscriber or its authorized reseller. Extended annual warranty periods purchased by Subscriber for coverage after the first year must be purchased prior to the original shipment of hardware to be considered valid. All warranted hardware will be repaired or replaced at Fūsus's cost with an appropriate Request to Merchant (RMA) authorization.

Fūsus's obligations, with respect to such applicable warranty returns, are limited to repair, replacement, or refund of the purchase price actually paid for the product, at Fūsus's sole option. Fūsus shall bear round-trip shipment costs of defective items found to be covered by this warranty. Defective products or parts thereof may be replaced with either new, factory refurbished, or remanufactured parts. Defective parts, which have been replaced, shall become Fūsus property. This warranty does not extend to any product sold by Fūsus which has been subjected to misuse, neglect, accident, improper installation by a non-authorized 3rd party, or a use for purposes not included or not in accordance with installation procedures and instructions furnished by Fūsus, or which has been repaired or altered by persons other than Fūsus or which has been damaged by secondary causes, including but not limited to, improper voltages, adverse environment conditions, improper handling, or products which have had their serial number or any part thereof altered, defaced, or removed.

6. INDEMNIFICATION AND LIABILITY

A. Fūsus shall indemnify, defend and hold the Customer and its officials, agents and employees harmless from and against any and all claims, damages, losses, injuries and expenses (including reasonable attorneys' fees), relating to or arising out of: (i) any act or omission of Fūsus, its officers, employees, subcontractors, or agents in connection with the performance of the Services; (ii) any security breach or other breach of a covenant, representation or warranty made by Fūsus under this Contract; and (iii) use by Fūsus of any intellectual property in connection with the Services (whether such intellectual property is owned by Fūsus or a third party) or the incorporation by Fūsus of intellectual property into the Services.

7. GENERAL PROVISIONS.

A. Severability and Interpretation.

If any provision of this Agreement, is for any reason deemed invalid, unlawful, void, or unenforceable by a court of competent jurisdiction, then that provision will be deemed severable from this Agreement, and the invalidity of the provision will not affect the validity or enforceability of the remainder of this Agreement which will remain in full force and effect.

B. Communications.

Whenever You communicate with Fūsus electronically, such as via e-mail, You consent to receive communications from Fūsus electronically. Please note that, except as set forth in the provisions of this Agreement regarding the DMCA, Fūsus is obligated to respond to inquiries that it receives.

C. Assignment.

Fūsus may assign its rights and obligations under this Agreement, in whole or in part, to any party at any time without any notice. This Agreement may not be assigned by You, and You may not delegate Your duties under these Terms, without the prior written consent of an officer of Fūsus.

D. No Waiver.

Except as expressly set forth in this Agreement, no failure or delay by You or Fūsus in exercising any rights or remedies under this Agreement will operate as a waiver of that or any other right or remedy.

E. No Partnership or Joint Venture.

Neither this Agreement, nor any terms and conditions contained herein shall be construed as creating a partnership, joint venture, franchise or agency relationship between You and Fūsus.

F. Complete Agreement.

This Agreement contains Your entire understanding with Fūsus with respect to the subject matter and supersedes any and all prior oral or written proposals or understanding.

COUNCIL COMMUNICATION

CC #: 2475
File #: 0203-12

Title: Firing Range Target System - Sole Source Contract Purchase Agreement
Contact: Scott Christian 916-774-5099 schristian@roseville.ca.us
Mark Peinado 916-774-5021 mcpeinado@roseville.ca.us

Meeting Date: 1/18/2023
Item #: 7.5.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council adopt a resolution to approve a sole-source contract purchase agreement to Action Target, Inc. in the amount of \$204,479.98 for a Firing Range Target System.

BACKGROUND

The Roseville Police Department indoor shooting range, also known as the James A. Hall Firing Range, was built in 1998. The shooting range was installed a year after the Roseville Police Department (RPD) moved to 1051 Junction Blvd from 401 Oak St, in 1997. The shooting range equipment was built and installed by the Meggitt Corporations. All equipment inside the shooting range is the original equipment and technology from the original installation in 1998. Though the range backstop is professionally mined for lead removal, the range equipment has never been upgraded. All maintenance of the range has been handled by RPD or City of Roseville personnel. The shooting range is not only used by RPD, but also by many surrounding law enforcement agencies. During the 24 year lifespan of the indoor shooting range, the range has had countless thousands of rounds of ammunition fired in it. Much of the range equipment is worn out, damaged, and in need of replacement. RPD has depleted its original supply of spare parts from 1998.

If approved, the existing target holders and the target carrier system would be removed from the shooting range. All metal target carrier/target holders would be recycled by the City of Roseville. A new stationary target holder system would be installed by Action Target, Inc., along with a lateral moving (left and right) target carrier system. Additionally, the inside walls of the shooting range would be steel plated out to a distance of 20 feet from the backstop, thus making the walls bulletproof. The range would also be outfitted with two mobile target carriers to assist more realistic training. The fixed turning target and lateral moving target systems are proprietary to the vendor, Action Target, Inc.

FISCAL IMPACT

The total cost for the Firing Range Target System will be \$204,479.98. Funding for this purchase has been approved in the amount of \$190,000 from the Equipment Replacement Fund. There are sufficient funds in the FY2022-23 Police Department's operating budget in the General Fund to cover the remaining \$14,479.98. No additional funds are being requested.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. The purchase of a firing range target system meets the above criteria and is not subject to CEQA. No additional environmental review is required.

This Contract Purchase Agreement is sent for your review and acceptance. Notify the Buyer via email of any needed changes to the company name, address, and contact information. The Buyer will update the agreement prior to you signing the document.

Return signed copies of the agreement to the Buyer noted on the agreement. Alterations or modifications to the agreement are not allowed. Upon receipt of all necessary documents, the City will sign the agreement and return a fully executed copy to you. Receipt of the signed copy will be your notice to proceed with the work in accordance with the terms and conditions of the agreement. Work must not begin until the contract has been fully executed.

The following guidelines must be followed for the signature block on the agreement:

Sole proprietorship - **By owner**
Partnership - **Any general partner**
Corporation - **Two options:**

(1) A signature from the President and the corporate seal; **OR**

(2) One signature from the Chairman of the Board, President, or any Vice President **AND** one signature from the Secretary, any Assistant Secretary, Chief Financial Officer, or any Treasurer or Assistant Treasurer of the corporation

*General Manager, Office Manager and/or Sales Manager are not corporate officer titles. The agreement will be rejected if not signed in accordance with these guidelines.

Insurance requirements:

The City's insurance requirements are referenced on Attachment A of the agreement. By signing the agreement, you are confirming that your company has the minimum insurance limits required.

Contract Purchase Agreement 3002599

Contract Terms and Conditions

1. To the fullest extent allowed by law, Contractor shall defend, indemnify, and save and hold harmless the City, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from or arising out of Contractor's willful misconduct or negligent act or omission while engaged in the performance of obligations or exercise of rights created by this Agreement, except those matters arising from City's sole or active negligence or willful misconduct. The parties intend that this provision shall be broadly construed. Contractor's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.
2. Contractor is an independent contractor, and shall not be considered an officer, agent or employee of the City.
3. Without the written consent of the City, this Agreement is not assignable by Contractor either in whole or in part.
4. Time is of the essence of this Agreement.
5. At any time during the term of this Agreement, the City has the right to terminate this Agreement, provided Contractor is given thirty (30) days written notice. City's termination shall be without further liability to City; however, Contractor shall be entitled to all costs reasonably incurred prior to the date of termination. Contractor acknowledges that City may terminate this Agreement should funds not be appropriated by its governing body to continue services under this Agreement.
6. This Agreement may only be amended or modified in writing. It is integrated and contains the complete understanding of the parties.
7. All equipment, supplies and services sold to the City of Roseville shall conform to the general safety orders of the State of California.
8. Unless notified to the contrary, in writing, the City assumes that the Contractor has accepted the work in accordance with the plans and specifications (if any) and agrees to do the work in compliance with this Agreement.
9. All prevailing wages and fair employment practices must be adhered to. For prevailing wage contracts over \$25,000, copies of certified payroll must be submitted with invoices. Prevailing wage rates may be obtained from the State Department of Industrial Relations and/or the following website address: <http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm>.
10. Contractor agrees to the below insurance requirements:
 - a. Unless otherwise specified, the Contractor shall maintain the policies of insurance outlined in Attachment A, incorporated herein by this reference, in full force and effect during the term of this Agreement. The City of Roseville retains sole discretion in determining the types and proper levels of insurance coverage.

Contract Purchase Agreement 3002599

- b. Form. Contractor shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made basis is subject to the approval of Risk Management and the City Attorney.
- c. Additional Insureds. Contractor shall also provide a separate endorsement or section of the policy showing City, its officers, agents, employees, and volunteers as additional insureds for each type of coverage (except Workers' Compensation) and for ongoing and completed operations. Such insurance shall specifically cover the contractual liability of Contractor. The additional insured coverage under the Contractor's policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy, and shall not seek contribution from City's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office (ISO) CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be:
 - (1) the minimum coverage and limits specified in this Agreement; or
 - (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.
- d. Cancellation/Modification. Contractor shall provide thirty (30) days written notice to City prior to cancellation or modification of any insurance required by this Agreement.
- e. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of City (if agreed to in a written contract) before City's own insurance shall be called upon to protect it as a named insured.
- f. Subcontractors. Contractor agrees to include in its contracts with all subcontractors the same requirements and provisions of this Agreement, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor's work. Furthermore, Contractor shall require its subcontractors to agree to be bound to Contractor and City in the same manner and to the same extent as Contractor is bound to City under this Agreement. Additionally, Contractor shall obligate its subcontractors to comply with these same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of City's indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request.
- g. Self-Insured Retentions. All self-insured retentions (SIR) must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or City. City reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.
- h. Waiver of Subrogation. Contractor hereby agrees to waive subrogation which any insurer of Contractor may acquire from Contractor by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability or Automobile Liability policy. All Workers Compensation, Commercial General

Contract Purchase Agreement 3002599

Liability and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of City, its officers, agents, employees and volunteers for all work performed by Contractor, its employees, agents and subcontractors.

- i. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve Contractor of liability in excess of such coverage, nor shall it preclude City from taking such other actions as are available to it under any other provisions of this Agreement or law.
11. Contractor shall comply with all federal, state and local laws and ordinances, including but not limited to the City's storm water regulations, as may be applicable to the performance of services under this Agreement. Failure to comply with local ordinances may result in monetary fines and cancellation of this Agreement. Refer to www.roseville.ca.us/stormwater for links to more information on the City's storm water regulations.
12. In the event that the terms of any attachment or exhibit conflict with any terms of this Agreement, the terms of this Agreement shall control.
13. This Agreement may be executed in one or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. In the event that any signature is delivered by facsimile transmission or by e-mail delivery of a ".pdf" format data file, such signature shall create a valid and binding obligation of the party executing (or on whose behalf such signature is executed) with the same force and effect as if such facsimile or ".pdf" signature page were an original thereof.
14. If either party commences any legal action against the other party arising out of this Agreement or the performance thereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorneys' fees. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.
15. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.
16. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.
17. For purposes of this Agreement, the terms "Contractor," "Consultant," and "Supplier" are used interchangeably.
18. No contractor or subcontractor may work on a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5. During the performance of this agreement, Contractor and its subcontractors shall have a continuing legal obligation to maintain current registration with the Department of Industrial Relations. Contractor is hereby notified that this project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.
19. Contractor must submit all claims as defined in and in accordance with the claim resolution process set forth in Section 9204 of the Public Contract Code. Each such claim must be sent to the City by registered mail or certified mail with return receipt requested and must contain reasonable documentation to support the claim. All claims must be received prior to acceptance of the work.
20. Contractor certifies that Contractor, its employees, directors, officers, agents,

Contract Purchase Agreement 3002599

subcontractors, vendors, and volunteers are not presently debarred, excluded, suspended, declared ineligible, voluntarily excluded, or proposed for debarment, exclusion, suspension or ineligibility by any federal, state, or local department or agency.

21. This Agreement may be amended via change order, but only if such change order is made in writing, approved by the City, and signed by both parties.
22. CONTRACTOR agrees to defend and indemnify CITY if, despite the parties intent and practice, any venue, agency, or court with competent jurisdiction determines that CONTRACTOR and/or any of its agents, officers, employees, volunteers, independent contractors, or subcontractors, are characterized as employee(s) of CITY.

CONTRACTOR and CITY agree that: (a) CONTRACTOR is free from the control and direction of CITY in connection with the performance of the work; (b) CONTRACTOR is providing services directly to CITY; (c) CONTRACTOR has and will maintain at all relevant times a business license; (d) CONTRACTOR maintains a business location that is separate from CITY; (e) CONTRACTOR is customarily engaged in an independently established business of the same nature as that involved in the work performed hereunder; (f) CONTRACTOR actually contracts with other businesses to provide the same or similar services and maintains a clientele without restrictions from CITY; (g) CONTRACTOR advertises and holds itself out to the public as available to provide the same or similar services; (h) CONTRACTOR provides its own tools, vehicles, and equipment to perform the services; (i) CONTRACTOR has negotiated its own rates; (j) CONTRACTOR set its own hours and location of work in accomplishing CITY's on-call needs; and (k) CONTRACTOR has the right to control the manner and means of accomplishing the result desired and exercises its own expert independent judgement.

The supplier named hereon by the acceptance of this order agrees to the provisions of this document titled "Contract Purchase Agreement" and all accompanying terms, conditions, and attachments.

Insurance Submission Process

The City of Roseville Human Resources/Risk Management Department uses a service called EBIX to manage our insurance certificate tracking.

How It Works

- The vendor's contact information is entered into EBIX. EBIX will contact the vendor to request proof of insurance.
- The Vendor can forward the request to their Insurance Agent(s) if necessary.
- Vendor/Insurance Agent submits insurance to EBIX by email to roseville@ebix.com or by fax to (770) 325-5727. After faxing or emailing the certificate, please DO NOT send the certificate by mail to EBIX. Please do not mail, email or fax any certificates to the City of Roseville.
- Once submitted, EBIX reviews the insurance documentation. If there are deficiencies, EBIX will send a follow up letter or email requesting additional information.

Questions Regarding Insurance Submission: Contact EBIX at (951) 652-4239

Questions Regarding Insurance Requirements Contact Risk Management at (916) 774-5202

Asbestos-Containing Materials in City-Owned Buildings

California Health and Safety Code Section 25915 requires that all City of Roseville employees, contractors and lessees be notified annually of the presence of asbestos in City-owned buildings constructed prior to 1979. Please post this notice in an area(s) accessible to all employees, contractors and lessees. Contact Facility Maintenance & Operations at (916) 774-5740 for more information about Asbestos Containing Materials (ACMs) in specific City-owned buildings. For more information about asbestos refer to the OSHA website.

The City of Roseville is committed to maintaining a safe and healthy work environment. The City's Facility Maintenance & Operations staff conducts ongoing inspections to identify and safely manage previously installed asbestos-containing products. Renovation of City-owned buildings **MUST** be reviewed in advance by Facility Maintenance & Operations to ensure the City is in compliance with building codes, Americans with Disabilities Act and that no ACMs are disturbed without proper safeguards. Work that requires removal or repair of ACMs is restricted to trained and qualified persons only. **Facility Maintenance & Operations will need to approve the qualified contractors.**

Use the following measures to protect you and others from exposure to airborne asbestos:

- Presume all building materials contain asbestos until determined otherwise by Facility Maintenance & Operations.
- Do not install walls, closets, cabinets, ceilings.
- Do not remove, cut, drill, sand, grind or otherwise disturb any material in the buildings, including carpet and tile.
- Do not paint (this includes any walls, ceilings, floors and electrostatic painting of office furniture).
- Do not remove any items nailed or screwed to the walls (this includes pictures, cabinets, electrical, etc.).
- Do not go above ceilings, behind walls or into building spaces such as attics and crawlspaces unless these areas have been inspected and cleared by Facility Maintenance & Operations.
- Do not pull cable or wiring through above-ceiling spaces with asbestos.
- Do not install screws, pins, nails or hangers into asbestos ceiling or wall plaster.
- Be careful not to damage walls, ceilings or floors when moving furniture or equipment. It is recommended that Facility Maintenance & Operations be contacted prior to moving furniture or equipment.
- Do not brush, sweep or vacuum textured asbestos ceiling plaster or plaster debris.
- Immediately report any damage or deterioration of suspect building materials to Facility Maintenance & Operations or Risk Management.

It is important to note that the presence of asbestos does not mean you have been exposed. Exposure results when friable asbestos particles are inhaled or ingested. Asbestos becomes friable when material containing asbestos is drilled, sanded or disturbed by remodeling or demolition work or when the ACM has deteriorated. Intact, bonded, sealed or undisturbed asbestos does not pose a hazard.

Employees may review the asbestos survey reports, results of bulk sampling or air monitoring conducted in City-owned buildings. All asbestos data will be available by appointment with Facility Maintenance & Operations.

TERMS & CONDITIONS

Action Target Inc. may be referred to as "Action Target" or "ATI" throughout this proposal.

PROPOSAL DATE Oct 17, 2022

PROPOSAL VALIDITY 30 days from Oct 17, 2022

PAYMENT TERMS

1. PO with Milestones
2. ATI reserves the right to adjust installation costs based upon the actual site conditions encountered.
3. Unless explicitly itemized, price does not include bonds, fees, assessments, licenses, permits, mandatory wage requirements, other regulatory costs that may be applicable to the job site, or anything else not expressly identified in this proposal.
4. Price applies to range equipment and systems only. It does not include site preparation, construction, trusses/baffle supports, electrical, conduit, or any other work not directly contained in ATI's scope of work.

Steel Pricing Terms

The Parties acknowledge that the Total Contract Price includes an estimated costs for steel to be utilized in the ATI equipment being provided as part of this Agreement. If the actual price for steel at the time ATI orders the steel for this project is less than the amounts estimated in the current Total Contract Price, ATI agrees to adjust the Total Contract Price accordingly and credit Customer the difference. ATI will utilize the "Notice to Proceed" as the time frame to assess the cost of steel for the project, including Industry Indexes and then current quotes from ATI's steel suppliers.

HVAC Terms

If any changes to scope, design, or layout are requested by the Customer which require a change to be made to the HVAC equipment ordered after the contract execution, customer agrees to pay ATI for any increased costs incurred from such changes. Also, if drawings are not approved by customer within five (5) months of signed contract, customer agrees to pay ATI the difference in HVAC equipment pricing. Current HVAC equipment cost increases estimated to be between 2% and 5% per month. "

SHIPPING TERMS

1. FOB destination: prepaid.
2. Shipping costs are estimates and subject to change; actual shipping costs will be subject to availability and rates at time of purchase.

DELIVERY & INSTALLATION TERMS

1. Manufacturing shall take no fewer than 18 weeks
2. Full Installation estimated 7 working days.
3. Installation cost is based upon having forklift and scissor lift access. If forklift and scissor lift access is not available, the installation cost will increase.

ACTION TARGET
RESPONSIBILITIES

- 1. Consultation and recommendation of optimal range design.
 - 2. Design of ranges for complete ballistic containment.
 - 3. Procurement, engineering, cutting and painting of ballistic steel plate.
 - 4. Manufacture of targets and control systems.
 - 5. Provision of sound attenuation material as called out on ATI drawings.
 - 6. Design, engineering, and supply of HVAC systems provided by ATI. (if applicable to this project)
-

**CUSTOMER
RESPONSIBILITIES**

1. Buyer to verify the ceiling structure within the range is capable of containing any errant type secondary bullet impacts.
 2. All conduit, A.C. wiring, A.C. electrical connections, lighting, and any duct work is specifically excluded from this proposal and scope of work. If conflict with HVAC, plumbing or electrical equipment occurs, it will be the owner's / contractor's responsibility to resolve issues in a timely manner. Any delays from these may require a change order for additional install time.
 3. Engineered stamped drawings for all hanging points, seismic engineering/components and/or ATI provided equipment.
 4. Permits, licenses, special insurance requirements, bonds (when applicable), regulatory costs, or any other special fees unknown at this time.
 5. Concrete work including slabs, footings, and walls, floor trenching and wall notching (if applicable).
 6. Structural work of any kind, including structural supports, canopies, etc.
 7. Engineering of ceiling or roof structures, trusses, beams cross-members, columns or pillars to accommodate baffle, trap, target systems, lighting and HVAC equipment weight loads. Weights and load points will be provided in ATI drawings for utilization by the general contractor, engineer or architect.
 8. Drop ceiling behind the safety ceiling at the firing line or other light fixtures in this area.
 9. Temporary lighting and power (including 3 phase, if necessary).
 10. Supplying of electrical services, electrical outlets, conduit(s), junction boxes, disconnects, stub-outs and lighting of any kind.
 11. 120-volt power to the control panel, control conduits, and dedicated analog phone line to DDC panel, labor to assist ATI's control technician with pulling in all necessary low voltage cable (all control conduits are required to have pull strings installed prior to arrival of ATI's start-up technician), labor and hardware to install DDC control panels in the building and on the roof, dedicated 120-volt circuit to the control pipe and wire for the evaporative cooler section fill and drain valves.
 12. Power and disconnect switches to all equipment per local code and manufacturer's requirements on the equipment, VFDs for the electrical contractor to mount and wire (ATI will only supply low voltage wire connections).
 13. Range lighting controls and wiring. (unless specifically called out in quote)
 14. Gas, water, and drain piping to the ventilation equipment set by ATI;
 15. Cutting, coring, sealing and/or patching of any wall surfaces, roof surfaces, and or concrete (if applicable).
 16. Additional fees related to "customization" of product or work otherwise identified as "custom".
 17. Action Target MUST have temporary internet access at the facility to program HVAC controls. HVAC maintenance personnel must be present for commissioning to learn troubleshooting for post sign-off.
 18. Any other work, materials or equipment that is not expressly included in the ATI Work.
 19. Disposal of construction waste.
 20. Wash area and restroom facilities.
-

**TERMS &
CONDITIONS
CLAUSE**

This is a summary of standard Action Target Inc. Terms and Conditions. Action Target Inc. reserves the right to change, modify or add to these Terms and Conditions in the final customer contract.

TRUSTED PARTNER WARRANTY™

3-YEAR COMPREHENSIVE COVERAGE

Action Target's 3-year Trusted Partner Warranty is peace of mind for gun ranges. It is uninterrupted training for those that serve. It is a resounding pledge from Action Target to its customer's success as the Trusted Partner at Every Level™.

Our Promise

The comprehensive Trusted Partner Warranty covers both parts and labor due to manufacturing to product defects.

FIXED LATERAL 360

UNIQUE FEATURES, ADVANCED TRAINING

The Fixed Lateral 360 system allows inverted targets to be repositioned laterally along a fixed rail, spaced apart or in groups, without the use of tools. Used in conjunction with the DRM Pro™ target system, these targets can represent bystanders or threats to simulate real-world scenarios.

360° Turning

Targets can turn 90, 180, and 360 degrees in the blink of an eye.

Ballistic

Exposed downrigger is built using AR500 steel to resist damage from bullets.

Quiet

Electric motor operates quietly, preventing shooters from anticipating movement.

Connected

Integrates with our range control software for advanced features and functionality.

LEARN MORE

ActionTarget.com/Fixed-Lateral-360

FEATURES

- 360° Turning
- Ballistic AR500 Steel Downrigger
- Connected to Range Control
- Advanced Quick Release Clamp
- Lateral Repositioning
- Electrical

DRM PRO

ENHANCED TRAINING AT YOUR FINGERTIPS

The DRM Pro is a state-of-the-art running man target. Equipped with two independent target carriers, variable speeds up to 20 fps, and programmable scenarios, this system offers shooters the most realistic training available.

Fast

Targets travel at speeds up to 20 FPS for realistic training.

Smart Device Control

The DRM Pro may be controlled on any Wi-Fi enabled device and provides access to service logs for maintenance.

Configuration

Inverted: System is installed behind the last row of ceiling baffles.

Two in One

Dual runners on parallel tracks provide enhanced dynamic training.

Connected

System connects with central range control and nearly any smart device.

Powerful

Heavy-duty inductive motors and hardened pulleys are built to last in any environment.

FEATURES

- Control Interface Runs on Any Smart Device
- Integrates with Range Control Software
- Variable Speeds Up to 20 FPS
- Target Positions are Accurate Within 6"

WALL BAFFLES

KEEP ERRANT ROUNDS SAFELY CONTAINED

A critical safety priority for any indoor range is making sure bullets cannot escape outside the range. Wall baffles provide an extra level of protection to wall structures and ensure that all rounds are contained within the range.

Safe

Wall baffles provide ballistic protection for wall structures and can contain thousands of rifle and handgun bullets, preventing errant rounds from escaping the shooting range.

Customizable

Action Target's wall baffles are compatible with various fascia options, range sizes, and ballistic ratings.

Modular Design

Individual baffles may be replaced as necessary, which keeps maintenance costs low.

Fascia

Wall baffle fascia helps contain splatter and provides sound abatement for the range.

Wood Panel

A layer of wood over the baffle contains bullet splatter, keeping shooters and range staff safe.

Air Gap

A wood or steel furring within the baffle provides space for bullets to splatter.

Ballistic Steel Baffles

Steel baffles prevent bullets from escaping the range and protect structural walls from projectiles fired at oblique angles. ATI Class 1 (handgun) and ATI Class 2 (rifle) options are available.

Wall Deflectors

Wall deflectors are installed in front of the bullet trap and over wall seams to keep rounds within the range. Deflectors are comprised of two components that are precisely engineered to direct rounds downrange. Deflectors are also designed with replaceable wear plates.

FEATURES

- Prevents Splatter
- Customizable
- Modular
- 180° Training

TECHNICAL DATA SHEET

PORTABLE BULLET TRAP

DESCRIPTION

Portable bullet traps extend the life of the shoot house by capturing rounds in an easy to maintain facade. Strategic placement of bullet traps can significantly reduce the amount of rounds fired into the shoot house. The trap is large enough to accept standard size paper and cardboard targets and they are easily attached with staples or pins. Replaceable rubber fascia and steel backplates are also available.

USE

The system is used inside MATCH™ shoot houses to extend the life of the walls and reduce the frequency of recommended inspections. It can also be used in other applications to collect lead fired at paper or cardboard targets. The portable bullet trap should only be used in front of another ballistic surface (such as a bullet trap, berm, or ballistic wall).

Paper and cardboard targets can be attached directly to the rubber face of the portable bullet trap and quickly repositioned anywhere to enhance the training environment.

SPECIFICATIONS

- Impact Plate Construction: 1/2" AR500 steel
- Total Weight: 340 lbs
- Facade: 2" SBR rubber
- Standard Features:
 - Replaceable rubber facade
 - Easy empty tray
 - Brass deflecting wheel base
- Available Options:
 - All terrain wheel base

AFTERMARKET SERVICES

TURNKEY CONVENIENCE, COMPLIANCE, AND SAFETY

Managing a range requires a lot of effort and attention to detail. Action Target eliminates much of that effort with our turnkey range solutions. From scheduled maintenance and cleanings to managing metals recycling and compliance documentation, Action Target's services streamline your operations.

Recycling & Disposal Programs

Metals Recycling

Recycling your metals with Action Target is easy and efficient. Simply contact Action Target to schedule a pickup. We will be there within 72 hours, at which time your London Metals Exchange (LME) spot pricing will be locked in.

- **Fast and Convenient Pickup**
- **Simple Brass and Lead Packaging**
- **Best in Class Payment Structure and Loyalty Bonus**
- **10% BONUS for Action Target equipment and services**

Range Waste Disposal

Genesis is connected to SmartRange Axis™ range control software through Action Target's cloud network. This allows Action Target to update content remotely, troubleshoot on the fly, and provide expedited customer support.

Rubber Berm Trap Cleaning

Transparent pricing

Action Target uses a simple, transparent, all-inclusive pricing structure based on the size of your trap to give you the best return on your metals. 100% of the metals value belongs to you. Opt for a check or credit at our store with a 10% loyalty discount. Store credit can be applied to Action Target products, services, and range equipment.

Proprietary Process

We have developed a proprietary process to clean your rubber berm traps with the safety and profitability of your range in mind.

Convenience

This complete turnkey solution integrates with our Metals Recycling and Filter Disposal Programs. We also provide all the necessary containers, pallets, packaging, and other transport materials, simplifying your role in the process.

Maintenance & Cleaning Programs

Range Visits

Action Target works with you to build a plan that determines the appropriate number of annual visits your range requires. These visits include a number of specialized services to keep your range running at peak condition.

Range Cleaning

With staff and client safety as our top priority, we provide cleaning services to help you maintain a safe and sanitary range.

Range Maintenance

We provide resources to help you maintain your range. From maintenance schedules to operation and maintenance manuals, we ensure you are prepared to properly care for your equipment.

Action Target Store

Paper and Cardboard Targets

With more than 1,000 target designs, we offer a greater selection than anyone else in the industry.

Target Backers

We stock a variety of backers to fit any target system.

Steel Targets

We offer a wide variety of innovative steel targets.

Eye and Ear Protection

Keep your customers safe with quality ear and eye protection designed for target shooting and tactical situations.

Firearm Storage and Cleaning

Keep your rental guns secure and working smoothly with our selection of firearms storage, cleaning, and lubrication gear.

Range Cleaning Products

Keep your range safe and clean with products designed to remove lead from hands, shoes, floors, and other surfaces.

HVAC Filters

Specifically designed to filter lead and high loading conditions found in indoor firing range applications.

Customer Support

24/7 Support

Action Target Customer Service is always on call and ready to help with warranty issues, replacement parts, and anything else you need to keep your range running at peak performance. We stand behind our work and we stand behind you.

Nation-Wide Representatives

Regionally-located customer service technicians provide fast industry-leading service in all states.

Remote Access

Many of our products are remotely-accessible, allowing our team to quickly troubleshoot and provide assistance. This speeds up the maintenance process, ensuring minimum downtime.

Inventory

We maintain a parts inventory to minimize service lead times. Additionally, our team works with you to ensure you have the necessary parts on-site to maximize the effectiveness of technician visits.

3-year Warranty

We at Action Target stand behind our products with the industry's best warranty. Our 3 year trusted partner warranty is 3x the protection of industry-standard warranties and 3x the peace of mind for customers.

RE: Contractor and Grantee Compliance with Economic Sanctions Imposed in Response to Russia's Actions in Ukraine

Dear Vendor:

On March 4, 2022, Governor Gavin Newsom issued Executive Order N-6-22 (EO) regarding sanctions in response to Russian aggression in Ukraine. The EO is located at <https://www.gov.ca.gov/wp-content/uploads/2022/03/3.4.22-Russia-Ukraine-Executive-Order.pdf>.

The EO directs all agencies and departments that are subject to the Governor's authority to take certain immediate steps, including notifying all contractors and grantees of their obligations to comply with existing economic sanctions imposed by the U.S. government in response to Russia's actions in Ukraine, as well as any sanctions imposed under state law.

This correspondence serves as a notice under the EO that as a contractor or grantee, compliance with the economic sanctions imposed in response to Russia's actions in Ukraine is required, including with respect to, but not limited to, the federal executive orders identified in the EO and the sanctions identified on the U.S. Department of the Treasury website (<https://home.treasury.gov/policy-issues/financial-sanctions/sanctions-programs-and-country-information/ukraine-russia-related-sanctions>). Failure to comply may result in the termination of contracts or grants, as applicable.

Please note that for any agreements or grants valued at \$5 million or more you must report to the City of Roseville your compliance with economic sanctions including steps you have taken in response to Russia's actions in Ukraine, including, but not limited to, desisting from making new investments in, or engaging in financial transactions with, Russian entities, not transferring technology to Russia or Russian entities, and directly providing support to the government and people of Ukraine.

Sincerely,

DocuSigned by:

COUNCIL COMMUNICATION

CC #: 2495
File #: 0203-05

Title: Motorola Solutions - Sole Source Purchase Order
Contact: Scott Christian 916-774-5099 schristian@roseville.ca.us
Mark Peinado 916-774-5021 mcpeinado@roseville.ca.us

Meeting Date: 1/18/2023
Item #: 7.6.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council approve a sole source purchase order to Motorola Solutions Inc. for the purchase of 10 portable radios for a total amount of \$75,567.11.

BACKGROUND

The Roseville Police Department have increased their staffing for FY2022-23. Specifically, the Police Department has added one Animal Control Officer, two Police Sergeants, and 7 Police Officers. Due to these new positions, additional equipment is needed to fulfill the needs of these jobs, to include, portable radios. The Roseville Police Department has been using portable radios from Motorola Solutions for over 20 years, and continues to do so.

FISCAL IMPACT

The total estimated cost for the radios is \$75,567.11. Funding has been approved in the Police Department's FY2022-23 operating budget in the General Fund.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. The purchase of radios meets the above criteria and is not subject to CEQA. No additional environmental review is required.

COUNCIL COMMUNICATION

CC #: 2493
File #: 0203-04

Title: Custodial Services - Contract Purchase Agreement
Contact: Darci Carpenter 916-774-5702 drcarpenter@roseville.ca.us

Meeting Date: 1/18/2023
Item #: 7.7.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council adopt a resolution authorizing the City Manager to execute a Contract Purchase Agreement (3002641) with Pride Industries One, Inc. on behalf of the City of Roseville.

Staff further requests the City Council authorize the City Manager or his designee to execute four (4) additional one (1) year renewals without further City Council approval, provided that the applicable budget is approved by the City Council each year, or until City staff determines that continuing with the same vendor is not in the City's best interest.

BACKGROUND

The Facility Services Division released Custodial Services RFP 01-059 to provide the City custodial and floor care services on a scheduled and as-needed basis at a number of City facilities. Ten companies submitted proposals. The proposals were evaluated on overall proposal submission, proposed cost, qualifications, and experience. The five (5) highest rated proposals moved on to the interview process. Pride Industries One, Inc. was rated the highest and staff is recommending Pride Industries be awarded a contract purchase agreement with the City of Roseville.

FISCAL IMPACT

The total annual value of the initial agreement with Pride Industries One, Inc. is \$862,979.71, not to exceed annual budgeted amounts. Funding for this agreement is included in the Custodial Services Division FY2022-23 budget in the Facility Services Fund, and will be included in future year proposed budgets. Projected spending for the four optional renewal years with Pride Industries One, Inc. is as follows: FY2023-24, \$949,277.68; FY2024-25, \$1,044,205.45; FY2025-26, \$1,148,625.99; and FY2026-27, \$1,263,488.59.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) only applies to projects which have the potential to cause a significant effect on the environment. Where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA. (CEQA Guidelines §15061(b)(3)).

Description

Resolution 23-019

3002641 CPA PRIDE INDUSTRIES

RESOLUTION NO. 23-019

APPROVING A CONTRACT PURCHASE AGREEMENT, BY AND BETWEEN THE CITY OF ROSEVILLE AND PRIDE INDUSTRIES ONE, INC. DBA PRIDE INDUSTRIES, AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE

WHEREAS, a contract purchase agreement (3002641) for Custodial Services, by and between the City of Roseville and Pride Industries One, Inc. dba Pride Industries, has been reviewed by the City Council; and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that said agreement is approved and the City Manager is authorized to execute it on behalf of the City of Roseville.

BE IT FURTHER RESOLVED that the City Manager or his designee is authorized to execute four (4) additional one (1) year renewals without further City Council approval, provided that the applicable budget is approved by the City Council each year, or until City staff determines that continuing with the same vendor is not in the City's best interest.

PASSED AND ADOPTED by the Council of the City of Roseville this ____ day of _____, 2023, by the following vote on roll call:

This Contract Purchase Agreement is sent for your review and acceptance. Notify the Buyer via email of any needed changes to the company name, address, and contact information. The Buyer will update the agreement prior to you signing the document.

Return signed copies of the agreement to the Buyer noted on the agreement. Alterations or modifications to the agreement are not allowed. Upon receipt of all necessary documents, the City will sign the agreement and return a fully executed copy to you. Receipt of the signed copy will be your notice to proceed with the work in accordance with the terms and conditions of the agreement. Work must not begin until the contract has been fully executed.

The following guidelines must be followed for the signature block on the agreement:

Sole proprietorship - **By owner**
Partnership - **Any general partner**
Corporation - **Two options:**

(1) A signature from the President and the corporate seal; **OR**

(2) One signature from the Chairman of the Board, President, or any Vice President **AND** one signature from the Secretary, any Assistant Secretary, Chief Financial Officer, or any Treasurer or Assistant Treasurer of the corporation

*General Manager, Office Manager and/or Sales Manager are **not** corporate officer titles. The agreement will be rejected if not signed in accordance with these guidelines.

Insurance requirements:

The City's insurance requirements are referenced on Attachment A of the agreement. By signing the agreement, you are confirming that your company has the minimum insurance limits required.

Contract Purchase Agreement 3002641

Contract Terms and Conditions

1. To the fullest extent allowed by law, Contractor shall defend, indemnify, and save and hold harmless City, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, to the extent and to the degree resulting from or arising out of Contractor's willful misconduct or negligent act or omission while engaged in the performance of obligations or exercise of rights created by this Agreement, except those matters arising from City's sole negligence or willful misconduct. The parties intend that this provision shall be broadly construed. Contractor's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.
2. Contractor is an independent contractor, and shall not be considered an officer, agent or employee of the City.
3. Without the written consent of the City, this Agreement is not assignable by Contractor either in whole or in part.
4. Time is of the essence of this Agreement.
5. At any time during the term of this Agreement, the City has the right to terminate this Agreement, provided Contractor is given thirty (30) days written notice. City's termination shall be without further liability to City; however, Contractor shall be entitled to all costs reasonably incurred prior to the date of termination. Contractor acknowledges that City may terminate this Agreement should funds not be appropriated by its governing body to continue services under this Agreement.
6. This Agreement may only be amended or modified in writing. It is integrated and contains the complete understanding of the parties.
7. All equipment, supplies and services sold to the City of Roseville shall conform to the general safety orders of the State of California.
8. Unless notified to the contrary, in writing, the City assumes that the Contractor has accepted the work in accordance with the plans and specifications (if any) and agrees to do the work in compliance with this Agreement.
9. All fair employment practices must be adhered to. In addition, if the project referenced on this service agreement is a Public Works project, all prevailing wage laws must be complied with. For prevailing wage contracts over \$25,000, copies of certified payroll must be submitted with invoices. Prevailing wage rates may be obtained from the State Department of Industrial Relations and/or the following website address: <http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm>.
10. Contractor agrees to the below insurance requirements to the extent such coverage is triggered by an indemnified claim:
 - a. Unless otherwise specified, the Contractor shall maintain the policies of insurance outlined in Attachment A, incorporated herein by this reference, in full force and effect during the term of this Agreement. The City of Roseville retains sole discretion in determining the types and proper levels of insurance

Contract Purchase Agreement 3002641

coverage.

- b. Form. Contractor shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made basis is subject to the approval of Risk Management and the City Attorney.
- c. Additional Insureds. Contractor shall also provide a separate endorsement or section of the policy showing City, its officers, agents, employees, and volunteers as additional insureds for each type of coverage, except for Workers' Compensation. Such insurance shall specifically cover the contractual liability of Contractor. The additional insured coverage under the Contractor's policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy, and shall not seek contribution from City's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office (ISO) CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be:
 - (1) the minimum coverage and limits specified in this Agreement; or
 - (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.
- d. Cancellation/Modification. Contractor shall provide ten (10) days written notice to City prior to cancellation or modification of any insurance required by this Agreement.
- e. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of City (if agreed to in a written contract) before City's own insurance shall be called upon to protect it as a named insured.
- f. Subcontractors. Contractor agrees to include in its contracts with all subcontractors the same requirements and provisions of this Agreement, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor's work. Furthermore, Contractor shall require its subcontractors to agree to be bound to Contractor and City in the same manner and to the same extent as Contractor is bound to City under this Agreement. Additionally, Contractor shall obligate its subcontractors to comply with these same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of City's indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request.
- g. Self-Insured Retentions. All self-insured retentions (SIR) must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or City. City reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.
- h. Waiver of Subrogation. Contractor hereby agrees to waive subrogation which any insurer of Contractor may acquire from Contractor by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability or

Contract Purchase Agreement 3002641

Automobile Liability policy. All Workers Compensation, Commercial General Liability and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of City, its officers, agents, employees and volunteers for all work performed by Contractor, its employees, agents and subcontractors.

- i. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve Contractor of liability in excess of such coverage, nor shall it preclude City from taking such other actions as are available to it under any other provisions of this Agreement or law.
11. Contractor shall comply with all federal, state and local laws and ordinances, including but not limited to the City's storm water regulations, as may be applicable to the performance of services under this Agreement. Failure to comply with local ordinances may result in monetary fines and cancellation of this Agreement. Refer to www.roseville.ca.us/stormwater for links to more information on the City's storm water regulations.
12. In the event that the terms of any attachment or exhibit conflict with any terms of this Agreement, the terms of this Agreement shall control.
13. This Agreement may be executed in one or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. In the event that any signature is delivered by facsimile transmission or by e-mail delivery of a ".pdf" format data file, such signature shall create a valid and binding obligation of the party executing (or on whose behalf such signature is executed) with the same force and effect as if such facsimile or ".pdf" signature page were an original hereof.
14. If either party commences any legal action against the other party arising out of this Agreement or the performance thereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorneys' fees. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.
15. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.
16. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.
17. For purposes of this Agreement, the terms "Contractor," "Consultant," and "Supplier" are used interchangeably.
18. If the project referenced on this agreement is a Public Works project, then the following shall apply: No contractor or subcontractor may work on a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5. During the performance of this agreement, Contractor and its subcontractors shall have a continuing legal obligation to maintain current registration with the Department of Industrial Relations. Contractor is hereby notified that this project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.
19. If the project referenced on this agreement is a Public Works project, then the following shall apply: Contractor must submit all claims as defined in and in accordance with the claim resolution process set forth in Section 9204 of the Public Contract Code. Each such claim must be sent to the City by registered mail or certified mail with return receipt requested and must contain reasonable documentation to support the claim. All claims

Contract Purchase Agreement 3002641

must be received prior to acceptance of the work.

20. Contractor certifies that Contractor, its employees, directors, officers, agents, subcontractors, vendors, and volunteers are not presently debarred, excluded, suspended, declared ineligible, voluntarily excluded, or proposed for debarment, exclusion, suspension or ineligibility by any federal, state, or local department or agency.
21. This Agreement may be amended via change order, but only if such change order is made in writing, approved by the City, and signed by both parties.
22. CONTRACTOR agrees to defend and indemnify CITY if, despite the parties intent and practice, any venue, agency, or court with competent jurisdiction determines that CONTRACTOR and/or any of its agents, officers, employees, volunteers, independent contractors, or subcontractors, are characterized as employee(s) of CITY.

CONTRACTOR and CITY agree that: (a) CONTRACTOR is free from the control and direction of CITY in connection with the performance of the work; (b) CONTRACTOR is providing services directly to CITY; (c) CONTRACTOR has and will maintain at all relevant times a business license; (d) CONTRACTOR maintains a business location that is separate from CITY; (e) CONTRACTOR is customarily engaged in an independently established business of the same nature as that involved in the work performed hereunder; (f) CONTRACTOR actually contracts with other businesses to provide the same or similar services and maintains a clientele without restrictions from CITY; (g) CONTRACTOR advertises and holds itself out to the public as available to provide the same or similar services; (h) CONTRACTOR provides its own tools, vehicles, and equipment to perform the services; (i) CONTRACTOR has negotiated its own rates; (j) CONTRACTOR set its own hours and location of work in accomplishing CITY's on-call needs; and (k) CONTRACTOR has the right to control the manner and means of accomplishing the result desired and exercises its own expert independent judgement.

The supplier named hereon by the acceptance of this order agrees to the provisions of this document titled "Contract Purchase Agreement" and all accompanying terms, conditions, and attachments.

Insurance Submission Process

The City of Roseville Human Resources/Risk Management Department uses a service called EBIX to manage our insurance certificate tracking.

How It Works

- The vendor's contact information is entered into EBIX. EBIX will contact the vendor to request proof of insurance.
- The Vendor can forward the request to their Insurance Agent(s) if necessary.
- Vendor/Insurance Agent submits insurance to EBIX by email to roseville@ebix.com or by fax to (770) 325-5727. After faxing or emailing the certificate, please DO NOT send the certificate by mail to EBIX. Please do not mail, email or fax any certificates to the City of Roseville.
- Once submitted, EBIX reviews the insurance documentation. If there are deficiencies, EBIX will send a follow up letter or email requesting additional information.

Questions Regarding Insurance Submission: Contact EBIX at (951) 652-4239

Questions Regarding Insurance Requirements Contact Risk Management at (916) 774-5202

Asbestos-Containing Materials in City-Owned Buildings

California Health and Safety Code Section 25915 requires that all City of Roseville employees, contractors and lessees be notified annually of the presence of asbestos in City-owned buildings constructed prior to 1979. Please post this notice in an area(s) accessible to all employees, contractors and lessees. Contact Facility Maintenance & Operations at (916) 774-5740 for more information about Asbestos Containing Materials (ACMs) in specific City-owned buildings. For more information about asbestos refer to the OSHA website.

The City of Roseville is committed to maintaining a safe and healthy work environment. The City's Facility Maintenance & Operations staff conducts ongoing inspections to identify and safely manage previously installed asbestos-containing products. Renovation of City-owned buildings **MUST** be reviewed in advance by Facility Maintenance & Operations to ensure the City is in compliance with building codes, Americans with Disabilities Act and that no ACMs are disturbed without proper safeguards. Work that requires removal or repair of ACMs is restricted to trained and qualified persons only. **Facility Maintenance & Operations will need to approve the qualified contractors.**

Use the following measures to protect you and others from exposure to airborne asbestos:

- Presume all building materials contain asbestos until determined otherwise by Facility Maintenance & Operations.
- Do not install walls, closets, cabinets, ceilings.
- Do not remove, cut, drill, sand, grind or otherwise disturb any material in the buildings, including carpet and tile.
- Do not paint (this includes any walls, ceilings, floors and electrostatic painting of office furniture).
- Do not remove any items nailed or screwed to the walls (this includes pictures, cabinets, electrical, etc.).
- Do not go above ceilings, behind walls or into building spaces such as attics and crawlspaces unless these areas have been inspected and cleared by Facility Maintenance & Operations.
- Do not pull cable or wiring through above-ceiling spaces with asbestos.
- Do not install screws, pins, nails or hangers into asbestos ceiling or wall plaster.
- Be careful not to damage walls, ceilings or floors when moving furniture or equipment. It is recommended that Facility Maintenance & Operations be contacted prior to moving furniture or equipment.
- Do not brush, sweep or vacuum textured asbestos ceiling plaster or plaster debris.
- Immediately report any damage or deterioration of suspect building materials to Facility Maintenance & Operations or Risk Management.

It is important to note that the presence of asbestos does not mean you have been exposed. Exposure results when friable asbestos particles are inhaled or ingested. Asbestos becomes friable when material containing asbestos is drilled, sanded or disturbed by remodeling or demolition work or when the ACM has deteriorated. Intact, bonded, sealed or undisturbed asbestos does not pose a hazard.

Employees may review the asbestos survey reports, results of bulk sampling or air monitoring conducted in City-owned buildings. All asbestos data will be available by appointment with Facility Maintenance & Operations.

**RESOLUTIONS OF
THE BOARD OF DIRECTORS OF
PRIDE INDUSTRIES**

April 27, 2022

Delegation of Signature Authority

WHEREAS, pursuant to Article IX, Section 1 of the Bylaws of PRIDE Industries (the "Corporation"), the Board of Directors of the Corporation (the "Board") may authorize any officer or officers, or any employee or employees in conjunction with one or more officers to enter into any contract or sign checks for payment of money, notes, or other evidence of indebtedness in the name and on behalf of the Corporation; and

WHEREAS, the Board annually reviews and approves a Signing Authority Limits policy and procedure for direct monetary expenditures that delegates certain signing authority to officers of the Corporation; and

WHEREAS, the Board has reviewed and wishes to approve the revised Signing Authority Limits policy and procedure attached hereto as **Exhibit A**; and

WHEREAS, on an ongoing basis, the Corporation submits proposals to, and enters into contracts, amendments, and other agreements and instruments with, various government and private organizations for the purposes of providing mission-related services or facility services to these organizations in exchange for compensation (collectively, "Proposals and Contracts") and may require authority from the Board of the delegation to execute such documents; and

WHEREAS, the Board wishes to delegate certain authority to officers of the Corporation to execute such Proposals and Contracts.

NOW, THEREFORE, BE IT RESOLVED, that the Signing Authority Limits Policy and Procedure for Monetary Expenditures, attached hereto as **Exhibit A** is hereby adopted and approved.

FURTHER RESOLVED, that Signature Authority – Contracts and Proposals, attached hereto as **Exhibit B** is hereby approved and adopted.

CERTIFICATION

I certify that this is a true and correct copy of the Resolutions presented to and adopted by the Board of Directors of PRIDE Industries, at a meeting duly called and held in Roseville, California on April 27, 2022, at which a quorum was present and voted.

By: 
Bob Olsen, Chairman

Dated: 4/27/22

Exhibit A

Signing Authority Limits Policy and Procedure for Monetary Expenditures.

PRIDE INDUSTRIES POLICY AND PROCEDURE

FROM: PRIDE Industries Board of Directors

SUBJECT: Signing Authority Limits – Monetary Expenditures

EFFECTIVE: April 27, 2022.

I. Policy

It is the policy of the Board of Directors ("Board") of PRIDE Industries and PRIDE Industries One, Inc. (collectively "PRIDE") to set signing authority limits on contracts and other document related to the business and all property of PRIDE. The purpose of this policy is to assure that the management of PRIDE are able to efficiently conduct the day-to-day business of PRIDE and that there is appropriate executive and Board oversight of business transactions.

II. Procedure

A. Annual Review: This policy shall be reviewed and amended as needed at least annually by the Board.

B. Limits and Signatories: The following signing authority limits shall apply for expenditures:

1. Five Hundred Thousand (\$500,000) and below: Chief Operating Officer or Chief Financial Officer, in addition, the Chief Financial Officer may further delegate signature authority for amounts below Two Hundred and Fifty Thousand Dollars (\$250,000).
2. Above Five Hundred Thousand (\$500,000), but not more than One Million Dollars (\$1,000,000): The signatures of both the Chief Financial Officer and Chief Operating Officer are required.
3. Above One Million Dollars (\$1,000,000), but not more than Three Million Dollars (\$3,000,000): President/Chief Executive Officer. The signature of the Chief Financial Officer is also required.
4. Amounts in excess of Three Million Dollars (\$3,000,000): shall require Finance Committee approval. The signatures of the Chair of the Finance Committee and President/Chief Executive Officer are required.

Any acquisition of debt in an amount over Three Million Dollars (\$3,000,000) shall require Board approval. Amounts below Three Million Dollars (\$3,000,000) require the signatures of the President/Chief Executive Officer and the Chief Financial Officer.

Exhibit B

Signature Authority – Proposals and Contracts

PRIDE INDUSTRIES POLICY AND PROCEDURE

FROM: PRIDE Industries Board of Directors

SUBJECT: Signing Authority – Proposals and Contracts

EFFECTIVE: April 27, 2022

I. Policy

It is the policy of the Board of Directors ("Board") of PRIDE Industries and PRIDE Industries One, Inc. (collectively "PRIDE") to set signing authority limits on proposals, customer contracts, other documents related to customer agreements, and grant agreements. The purpose of this policy is to assure that the management of PRIDE are able to efficiently conduct the day-to-day business of PRIDE and that there is appropriate executive and Board oversight of business transactions.

II. Procedure

A. Annual Review: This policy shall be reviewed and amended as needed at least annually by the Board.

B. Limits and Signatories: The following signing authority limits shall apply for proposals, customer contracts, other documents related to customer agreements, and grant agreements:

1. The lesser of Forty Million Dollars (\$40,000,000) in annual sales or Two Hundred Million Dollars (\$200,000,000) in total contract value and below: President/Chief Executive Officer, Chief Financial Officer, Chief Operations Officer or Vice President of Contracts can sign on behalf of PRIDE. In addition, the Chief Operations Officer may further delegate signature authority for up to the lesser of One Million Dollars (\$1,000,000) in annual sales or Five Million Dollars (\$5,000,000) in total contract value down to the manager level within PRIDE.
2. Above Forty Million Dollars (\$40,000,000) and in annual sales or Two Hundred Million Dollars (\$200,000,000) in total contract value: the signatures of both Chief Operations Officer and either President/Chief Executive Officer or Chief Financial Officer are required.

C. Data Security and Confidentiality: The Chief Financial Officer is hereby authorized as the data security and confidentially designee.

COUNCIL COMMUNICATION

CC #: 2478
File #: 0203-07

Title: 60kV Cable (RFQ 10-3336) - Purchase Order
Contact: Sue Jessup 916-746-1107 sjessup@roseville.ca.us

Meeting Date: 1/18/2023
Item #: 7.8.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council approve a purchase order with OneSource Supply Solutions, LLC as the lowest responsive and responsible bidder for the purchase of 60kV cable in response to RFQ 10-3336 to provide cable for the future Roseville Parkway Extension Project.

BACKGROUND

The Roseville Parkway Extension Project requires a multi-department effort. The Electric Department is managing the relocation of a section of 60kV line currently in conflict with the future alignment of Roseville Pkwy. This section must be placed underground to allow for the construction of a new overpass that will span Industrial Blvd. and the Union Pacific Railroad. Undergrounding the 60kv line will allow for the preservation of the 60kV network.

The City issued a formal request for bids in October 2022. After evaluating all of the bid submittals, OneSource Supply Solutions, LLC was deemed the lowest responsive and responsible bidder, and provided all required documentation. ILJIN Electric USA, Inc. was deemed nonresponsive because they failed to submit the required Addendum and Formal Invitation for Bid and Award page.

A formal bid was issued with the following vendor responses:

<u>Bidder</u>	<u>Unit Price</u>
OneSource Supply Solutions, LLC Antioch, CA	\$99,109.20
General Pacific Fairview, OR	\$110,523.02
ILJIN Electric USA, Inc. Houston, TX	\$53,690.00

Maydwell & Hartzell
Elk Grove, CA

\$103,404.00

The Okonite Company
San Ramon, CA

\$483,860.00

FISCAL IMPACT

The cost of the cable and associated reels is \$99,109.20 plus tax of \$7,680.97, for a total of \$106,790.17. The Roseville Parkway Extension Project (500078) is funded by the Traffic Mitigation Fee Fund (3151), and the project has a sufficient budget available to cover the costs associated with this recommended procurement.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. The purchase of 60kV cable meets the above criteria and is not subject to CEQA. No additional environmental review is required.

COUNCIL COMMUNICATION

CC #: 2500
File #: 0203-09

Title: Ultraviolet Disinfection Equipment - Increase to Sole Source Purchase Order
Contact: Blaine Wiegel 916-746-1833 bwiegel@roseville.ca.us

Meeting Date: 1/18/2023
Item #: 7.9.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council approve an increase to the sole source purchase order with Trojan Technologies to cover shipping costs of the ultraviolet (UV) disinfection equipment for the Pleasant Grove Wastewater Treatment Plant (WWTP).

BACKGROUND

The increased cost of \$48,400 to sole source purchase order 9013557 will cover shipping UV equipment to the Pleasant Grove WWTP. The Pleasant Grove WWTP has standardized the use of the Trojan system UV3000Plus for the final disinfection stage of the wastewater treatment process. The current UV system was constructed with four treatment channels to convey treated water for disinfection. When constructed, three of the four channels were fitted with equipment, and the fourth channel was built for system expansion to plant designed flow rates and was to be equipped when the treatment flow approached the capacity of the first three channels. Growth in the Pleasant Grove WWTP service area is now generating sufficient flow to justify equipping the fourth channel. Trojan Technologies is the sole manufacture and distributor of the UV3000Plus.

FISCAL IMPACT

The estimated cost of UV equipment and shipping is \$2,228,829, (\$2,023,600 for equipment, \$156,829 for tax, and \$48,400 for freight). The funding source will be provided from the Environmental Utilities approved Pleasant Grove UV project budget 500165, which is financed by South Placer Wastewater Authority.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. Approval of a purchase order increase meets the above criteria and is not subject to CEQA. No additional environmental review is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal C - Maintain a safe and healthy community

Goal E - Deliver exceptional city services

Goal F - Invest in well-planned infrastructure and growth

COUNCIL COMMUNICATION

CC #: 2477
File #: 0900-02

Title: 2022 Sewer Collection System Cured-in-Place Pipe Rehabilitation Project -
Approval of Plans and Specifications and Authorization to Call for Bids
Contact: Jonathan Cummings 916-774-5566 jcummings@roseville.ca.us

Meeting Date: 1/18/2023
Item #: 7.10.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council:

1. Approve the Project's construction plans and specifications; and
2. Authorize staff to advertise the Project and accept bids from prospective bidders.

BACKGROUND

The Environmental Utilities Department has an ongoing repair and maintenance program for its sewer collection system. Close circuit television (CCTV) was used to inspect 26 miles of the pipeline interior and, based on severity of defects, segments of pipeline were prioritized for repair. To date, the rehabilitation program has repaired over 19 miles of defective sewer pipeline.

This year's plan is to repair approximately 18,900 linear feet of the sewer collection system that has cracked and/or deteriorated pipe. Additionally, the rehabilitation will include repair of approximately 483 service laterals to provide a seal between the repaired sewer pipe and the lateral connection. The defective pipe and lateral connections will be repaired using ultraviolet (UV) light cured-in-place lining technology where the existing pipe is lined without excavation. Access to the pipe will be provided at existing manholes. Eliminating the need for excavation provides for minimal traffic and neighborhood or business disruption, and a significant cost saving.

A copy of the plans and specifications are available at the City Clerk's office for review.

FISCAL IMPACT

The total cost for this construction project is estimated to be \$3,567,600, which includes the construction cost, contingency for potential change orders, and secondary labor, and is within the existing project budget. Funding for this project is provided by the Wastewater Rehabilitation Fund.

ENVIRONMENTAL REVIEW

The proposed project involves the repair of an existing facility. This activity is categorically exempt from CEQA as a Class 1 Exemption (State CEQA Guidelines Section 15301). The Exemption has been prepared and no further CEQA action is required.

CITY OF ROSEVILLE
DEPARTMENT OF ENVIRONMENTAL UTILITIES
AQUIFER STORAGE AND RECOVERY WELL DRILLING
CAMPUS OAKS (WELL 13) AND MISTY WOOD (WELL 19)

NOTICE TO CONTRACTORS

NOTICE IS HEREBY GIVEN THAT sealed Proposals will be received at the Office of the City Clerk, 311 Vernon Street, Roseville, California, until Monday February 21, 2023 at 3:00 p.m. Late Proposals will be rejected. No exceptions.

The Proposals will be publicly opened and read by the City Clerk or designee of the City of Roseville at 3:05 p.m. on Monday February 21, 2023 at the Office of the City Clerk located at 311 Vernon Street, Roseville California for the following project: 2022 Sewer Collection System CIPP Rehabilitation Project. Due to current COVID-19 restrictions, no in-person attendance at the Proposal Opening is allowed. However, the Proposal Opening will be video recorded, and will be made available upon request.

A mandatory pre-bid meeting will be held on Thursday, January 12, 2023 at 10:00 a.m. via Microsoft Teams video call. Below is information on how to connect to this video call.

Computer link (note that Microsoft Teams does not need to be installed on the connecting computer as there is a web version available. Please copy the link provided into Google Chrome):

https://teams.microsoft.com/l/meetup-join/19%3ameeting_MjUyN2E4ZTAzMDEhZi00Y2Q1LTkxOTEtMDE2NzQ2ZjViNmY1%40thread.v2/0?context=%7b%22Tid%22%3a%22446c7c35-e59d-4e53-84df-3832018aec5a%22%2c%22Oid%22%3a%22af0f0088-b6af-4b92-adb0-053cceed276%22%7d

Conference call number and ID into the Microsoft Teams Meeting is included below in

case you do not have a microphone and/or speakers:

Phone (audio only): +1 213-282-6642

Phone Conference ID: 494 681 838#

Note that the City will be sharing a PowerPoint Presentation on Microsoft Teams so the City recommends that Potential Proposers connect via a computer if possible.

A Project Manual, including all Contract Documents and the Proposal forms for bidding this project, may be obtained on-line from the City of Roseville's website at www.roseville.ca.us/business/procurement_services/bids_rfps or directly at www.publicpurchase.com. All communications relative to this project shall be conducted through Public Purchase.

Bids shall be submitted on the City's Proposal Forms included in the Project Manual, plainly endorsed with the Bidder's name together with signed acknowledgement of any and all addenda. Proposal Forms shall be securely sealed in a suitable envelope marked with the name and address of the Bidder, and marked in capital letters on the front and back of the envelope as follows:

2022 Sewer Collection System CIPP Rehabilitation Project

(Name of Bidder)

(Address of Bidder)

Whether mailed or personally delivered, all bids shall be addressed to the City of Roseville, Office of the City Clerk, 311 Vernon Street, Roseville, California, 95678.

Each bid must be accompanied by a Bid Guaranty in the form of a Certificate of Deposit, Certified or Cashier's Check, Bidder's Bond or Irrevocable Standby Letter of Credit in an

amount equal to at least ten percent (10%) of the Bidder's Grand Total Price. The Bid Guaranty will be retained by the City and applied to any and all damages sustained by the City in the event that the successful Bidder fails or refuses to enter into the Contract awarded to it and to furnish all required bonds and Certificates of Insurance. The City intends to award the Contract to the lowest responsible Bidder based on the Grand Total Bid Price for all components of the Project. To the extent allowed by law, the City reserves the right to reject any and all bids and/or to waive any irregularities or informalities in any bid or in the bidding procedure. The City specifically reserves the right to not award the Contract after the opening of bids.

Any bid may be withdrawn at any time prior to the time fixed in the public notice for the deadline submission of bids only by written request for the withdrawal of the bid filed with the City Clerk. The request shall be executed by the Bidder or his or her duly authorized representative. The withdrawal of a bid does not prejudice the right of the Bidder to file a new bid by the submission deadline. Whether or not bids are opened exactly at the time fixed in the public notice for opening bids, a bid will not be received after the deadline submission of bids nor may any bid be withdrawn after the time fixed in the public notice for deadline for submission of bids. Immediately following the deadline for submission of bids all bids shall become the property of the City of Roseville and the City is under no obligation to return bids.

Bids will be examined and reported to the City Council within sixty (60) business days after the bid opening. Except as permitted by applicable law, no Bidder may withdraw its bid for a period of sixty (60) business days after the date of bid opening. Each Bidder will be notified of any award of the Contract by the City.

The City will affirmatively ensure non-discrimination on the basis of one or more of the following: race, religious creed, color, national origin, ancestry, physical disability, mental

disability, medical condition, genetic information, marital status, sex, age, sexual orientation, or military and veteran status in the award and administration of contracts that it awards.

Pursuant to Public Contract Code Section 22300, the successful Bidder may submit certain securities in lieu of the City withholding retention of payments during the Project.

The City has determined that the Contractor shall possess a valid Class A - General Engineering, or Class C-34 - Pipeline Contractor's license at the time that the bid is submitted, as well as any other license classification as may be required by the laws of the California for the performance of the work specified in the Contract Documents. Said license shall be maintained during the Contract period. Failure to possess the specified license shall render the bid nonresponsive and will act as a bar to the award of the Contract to any Bidder not possessing such a license at the time of bid submittal. The Contractor shall provide certification of the license, its number and the expiration date on the proposal form.

The work is to be done in Placer County. Pursuant to California Labor Code Section 1773, the City has ascertained the General Prevailing Rate of Wages in the County in which the work is to be done to be as determined by the Director of Industrial Relations of the State of California. The Contractor is hereby made aware that information regarding prevailing wage rates may be obtained from the State Department of Industrial Relations and/or the following website address: <http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm>. The Contractor is required to post a copy of the applicable wage rates at the job site. Attention is directed to Section 5 “Legal Relations and Responsibility” of the General Conditions.

Pursuant to Labor Code Section 1771.1(b), notice is hereby given that a contractor or subcontractor shall not be qualified to bid on, be listed in a bid proposal, subject to the requirements of Section 4104 of the Public Contract Code, or engage in the performance of any

contract for public work, as defined in Labor Code Sections 1720, et seq., unless currently registered and qualified to perform public work pursuant to Labor Code Section 1725.5 or exempt from registration requirements pursuant to Labor Code Section 1725.5(f). It is not a violation of Labor Code Section 1771.1 for an unregistered contractor to submit a bid that is authorized by Section 7029.1 of the Business and Professions Code or by Section 10164 or 20103.5 of the Public Contract Code, provided the contractor is registered to perform work pursuant to Labor Code Section 1725.5 at the time the contract is awarded or is exempt from registration requirements pursuant to Labor Code Section 1725.5(f). The Contractor is hereby notified that this project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.

All questions prior to the deadline for bid submissions must be submitted via the Public Purchase website at <https://www.publicpurchase.com>. The deadline for submissions of questions and clarifications regarding the Contract Documents is seven (7) calendar days before the deadline for bid submissions. Only Addenda issued by the City are binding.

City Clerk, City of Roseville

Published: _____

INSTRUCTIONS TO BIDDERS

SECTION 1. GENERAL

1-1.01 **GENERAL.** These Instructions to Bidders form a part of the Contract Documents. Capitalized terms are defined in the General Conditions Section 1.

1-1.02 **EXAMINATION OF PLANS, CONTRACT DOCUMENTS AND SITE OF THE WORK.** The Bidder shall examine carefully the site of the Work and all the Contract Documents, including these Instructions to Bidders, and shall inform itself of the conditions relating to the execution of the Work. Failure to do so will not relieve the successful Bidder of its obligation to enter into an Agreement and complete the Work in strict accordance with the Contract Documents. Conditions relating to the execution of the Work include the requirements of federal, state, and local laws, statutes and ordinances relative to the execution of Work, including, but not limited to, applicable regulations concerning prevailing wage rates, non-discrimination in the employment of labor, protection of the public, employee health and safety, and environmental protection.

The submission of a bid shall be conclusive evidence that the Bidder has investigated and is satisfied as to the conditions to be encountered, as to the character, quality, and scope of Work to be performed, the quantities of materials to be furnished, and as to the requirements of all the Contract Documents.

1-1.03 **EXISTING INFORMATION.** Where the Department has made investigations of site conditions, including subsurface conditions in areas where Work is to be performed under the Contract, such investigations are made only for the purpose of study and design. City does not represent that such conditions as found in these investigations or inferences or conclusions drawn as a result of these investigations will represent actual site

conditions and hereby disclaims any liability as a result of Contractor's or Bidder's reliance on such investigations. City will presume that all Bidders have conducted their own site investigations, and reviewed all available supplemental materials.. Where such investigations have been made, Bidders or Contractors may, upon written request, inspect the records of the Department as to such investigations subject to the conditions set forth in these Instructions to Bidders. Such inspection of records, if they exist, have been uploaded to the Public Purchase website for this RFP as "supplemental materials". The supplemental materials are not a part of the Contract Documents and are shown solely for the convenience of the Bidder or Contractor. The City assumes no responsibility whatsoever with respect to the sufficiency or accuracy of the investigations made, the records thereof, or of the interpretations set forth therein or made by the City in its use thereof. The City makes no warranty or guarantee, either express or implied, that the conditions indicated by such investigations or records are representative of those existing throughout such areas, or any part thereof, or that unforeseen developments may not occur, or that materials other than, or in proportions different from those indicated, may not be encountered.

No information derived from such inspection of records of investigations or compilation thereof made by the City, the Department or from the Engineer, or his or her assistants, will in any way relieve the Bidder or Contractor from properly examining the site and making such additional investigations as it may elect, or from properly fulfilling the terms of the Contract.

SECTION 2: BID REQUIREMENTS

2-1.01 **PROPOSAL FORMS.** The Department will furnish to each Bidder standard Proposal Forms (included in this document under section PROP), which, when filled out and executed may be submitted as the bid. Proposals shall include all pages in the Project Manual with page numbers marked “PROP” plus the Addendum acknowledgment form (front sheet) from all Addenda received by the Bidder. Proposals shall be removed from the Project Manual. The full Project Manual shall not be submitted with the proposal. Bids not presented on forms so furnished will be disregarded.

The Proposal and one (1) copy thereof shall be submitted as directed in the “Notice to Contractors” under sealed cover plainly marked as a Proposal, and identifying the project to which the Proposal relates and the date of the bid opening therefor. Proposals which are not properly marked may be disregarded.

All blank spaces in the Proposal must be completed, as required, in ink. All price information shall be shown, clearly legible, in figures where required.

The Bidder shall sign the Proposal in the blank space provided therefor. If the Bidder is the sole owner, the Proposal shall be signed by the owner. If the Bidder is a corporation, the legal name of the corporation and its State of incorporation shall be set forth and the Proposal shall be signed by at least two officers authorized to sign contracts on behalf of the corporation. If the Bidder is a partnership, the true name of the firm shall be set forth, the names and addresses of all partners shall be given and the Proposal shall be signed by a partner in the firm authorized to sign contracts on behalf of the partnership. If the Bidder is a joint venture, the Proposal shall be signed on behalf of each participating company by officers or other individuals who have the full and proper authorization to do so. If the Proposal is signed by an agent of the

Bidder other than an officer of a corporation or a member of a partnership, a notarized Power of Attorney must be on file with the City prior to opening of bids or must be submitted with the Proposal. If requested by the City, the Bidder shall promptly submit evidence satisfactory to the City of the authority of the person signing the Proposal.

2-1.02 **SUBMISSION OF BIDS.** Bids must be submitted at the prescribed time and location specified in the Notice to Contractors. Any submission received after the prescribed time shall be rejected, regardless of whether or not bids are opened exactly at the prescribed time.

Any unauthorized conditions or qualifications entered on, or changes made to, the Proposal may render it invalid and may cause its rejection.

No telegraphic, telephonic, or facsimile or other electronically transmitted bids will be considered.

2-1.03 **REQUIRED LISTING OF PROPOSED SUBCONTRACTORS.** Each Proposal shall list the name, address and Contractor license number of each Subcontractor to whom the Bidder proposes to subcontract portions of the Work in an amount in excess of one-half of one percent (0.5%) of its total bid, in accordance with Section 4100 to 4114, inclusive, of the Public Contract Code for the State of California. The Bidder shall list the Subcontractor's license number and the portion of the Work that will be done by each Subcontractor. If the Bidder fails to specify a Subcontractor for any portion of the Work, the Bidder agrees to perform that portion of the Work itself, and represents that it is qualified to perform that portion of the Work itself. The Bidder's attention is invited to other provisions of the Public Contract Code related to the imposition of penalties for a failure to observe its provisions by using unauthorized Subcontractors or by making unauthorized substitutions.

2-1.04 **CONTRACTOR'S LICENSING LAWS.** Attention is directed to the provisions of Business and Professions Code Chapter 9 of Division 3 concerning the licensing of Contractors.

All Bidders at the time of bid submittal shall be licensed as Contractors in accordance with the laws of this State. Any Bidder or Contractor not so licensed is subject to the penalties imposed by such laws. The form of Contractor's license required is stated in the Notice to Contractors, provided that the City makes no representation as to whether the State may require other or additional licenses. It is the Bidder's and Contractor's responsibility to obtain the correct Contractor's licenses. Bidders shall be skilled and regularly engaged in the general class or type of Work called for under this Contract.

All Bidders and Contractors, including Subcontractors, shall have a current City business license before undertaking any Work.

2-1.05 **NONCOLLUSION DECLARATION.** By submitting a bid, the Bidder represents and warrants that such bid is genuine and not a sham or collusive or made in the interest or on the behalf of any person therein named, and that the Bidder has not, directly or indirectly, included or solicited any other Bidder to put in a sham bid, or any other person, firm, or corporation to refrain from bidding, and that the Bidder has not in any manner sought collusion to secure the Bidder an advantage over any other Bidder.

Bidders shall submit a properly completed and executed "Noncollusion Declaration" in the form required by Public Contract Code Section 7106 and provided with the Proposal (PROP-11).

2-1.06 **DISQUALIFICATION, REMOVAL OR OTHER PREVENTION OF BIDDING.** A bid may be rejected on the basis of a Bidder, any officer of such Bidder, or any

employee of such Bidder who has a proprietary interest in such Bidder, having been disqualified, removed, or otherwise prevented from bidding on, or completing a federal, state, or local project because of a violation of law or a safety regulation.

2-1.07 **PROPOSAL GUARANTY.** All bids shall be accompanied by one of the following forms of Bidder's security: Cash, a cashier's check, a certified check, or a Bidder's bond executed by an admitted California surety insurer, made payable to the City of Roseville, or any other form of security deemed acceptable by the City Attorney. The security shall be in an amount equal to at least ten percent (10%) of the amount bid. A bid will not be considered unless one of the form of Bidder's security is enclosed with it.

A Bidder's bond shall conform to the City's bond form in the Proposal and shall be properly filled out and executed.

2-1.08 **SCHEDULE OF BID PRICES.** Bidders are directed to submit unit and lump sum prices for all Work set forth in the Contract Documents on the Proposal Form entitled "Schedule of Bid Prices."

Unit prices and lump sum prices, as indicated, must be entered in the appropriate spaces provided in the Schedule of Bid Prices. If applicable, unit prices shall be multiplied by the quantities shown, and the total shall be inserted in the Amount column. In the event of any error or discrepancy between the unit price and the calculated amount, the unit prices shall govern. The City may correct any mathematical errors apparent on the face of the bid.

The amounts shown in the Amount column must be added together in arriving at the Grand Total Bid Price.

Amounts for Allowance bid items must be entered in the exact amount in the Amount column.

The prices included within the Schedule of Bid Prices shall include all costs for labor, materials, tools, equipment, services, Subcontractors, suppliers, taxes, insurance, shipment, delivery, overhead, profit, and all other costs necessary to perform the Work in accordance with the Contract Documents.

The Grand Total Bid Price shall be indicated in the Summary table form included with the Schedule of Bid Prices. The Grand Total Bid Price shall be the sum of the amounts bid for each of the designated portions of the Work, as more specifically described on the Schedule of Bid Prices form itself.

Full compensation for complying with the Contract Documents, including requirements of the Standard Specifications, the General Conditions, Supplemental Conditions, and all warranties, shall be considered included in the bid items and no additional compensation shall be allowed therefor.

Full compensation for completion of all work as shown on the plans, as specified in the Specifications, and as directed by the City, shall be considered included in the bid items and no additional compensation shall be allowed.

Bidders are strongly discouraged from submitting unbalanced bids. As used herein, the term “unbalanced bid” is defined as any bid that does not include a reasonable proportionate allocation of indirect costs and profit of each bid item indicated in the Schedule of Bid Prices. The City reserves the right to reject any unbalanced bid if the City determines that there is a reasonable doubt that an acceptance of the bid will not result in the lowest ultimate cost to the City with regard to the work or a disproportionate distribution of contract funds.

The City reserves the right to delete any bid item in its entirety and/or significantly reduce the quantity of Work under a bid item. The City makes no representation that any Work

under a bid item will be performed during the course of the Project or that the Work will be performed at the quantities included in the Schedule of Bid Prices. As provided in the General Conditions, for any deleted Work, Contractor shall not be entitled to payment of the indirect costs and profit included for said bid item. All bid items shall be considered distinct and severable from the remaining bid items, and each Bidder acts at its peril if its bid is unbalanced.

The City shall compare bids on the basis of the Grand Total Bid Price, which includes the base bid and any alternates designated on the Schedule of Bid Prices. Alternates may or may not be awarded, or may be awarded in any combination, at the City's discretion.

2-1.09 **WITHDRAWAL OF PROPOSALS.** Any bid may be withdrawn at any time prior to the time fixed in the Notice to Contractors for the opening of bids, provided that a request in writing, executed by the Bidder or its duly authorized representative, for the withdrawal of such bid is filed with the City Clerk. Facsimile and electronic mail requests are not acceptable. The withdrawal of a bid shall not prejudice the right of a Bidder to file a new bid. The withdrawal of any bid after the time fixed in the Notice to Contractors for the opening of bids will not be permitted.

2-1.10 **ADDENDUM.** Proposals shall include all costs and account for all Addenda issued prior to opening of bids. The Bidder is responsible for verifying that all issued Addenda have been received. An Addendum acknowledgment form for each Addendum shall be included as part of the Proposal submittal.

2-1.11 **PUBLIC OPENING OF PROPOSALS.** Proposals will be publicly opened and read at the time and place indicated in the Notice to Contractors. Bidders or their authorized agents are invited to be present.

2-1.12 **TRENCHING AND EXCAVATION WORK.** In accordance with the

provisions of California Labor Code Section 6707, if the Work involves construction of a pipeline, sewer, sewage disposal system, boring or jacking pits, or similar trenches or open excavations, which are five feet (5') or deeper, each bid submitted shall contain, as a bid item, adequate sheeting, shoring, and bracing, or equivalent method, for the protection of life or limb, which shall conform to all applicable safety orders.

2-1.13 **SUPERINTENDENT QUALIFICATIONS.** Bidder shall submit on the form provided, requested information that will assist the City to determine if the proposed project Superintendent has the experience and qualifications required for performing the work. Evaluation of qualifications will be based on the information provided in the SUPERINTENDENT'S QUALIFICATIONS AND EXPERIENCE FORM and verification checks of that information. The City reserves the right to reject the Lowest Bidder's Proposal in the event that a) Proposed project Superintendent does not meet minimum experience qualifications, b) upon conducting Reference Verification, the available experience provided does not satisfy the City that the Bidder is qualified to carry out the terms of the Contract, or c) false information has been provided on the experience form. The City's decision as to qualifications of the Bidder shall be final. It is required that the superintendent named is assigned to the Project and is on the job at all times during construction activities.

SECTION 3: EVALUATION OF BIDS

3-1.01 **BID EVALUATION PROCESS.** Bids will be evaluated to determine the apparent low Bidder. The apparent low Bidder will be determined on the basis of the Grand Total Bid Price, as shown in the Schedule of Bid Prices. If additive or deductive alternates are used in the Schedule of Bid Prices, the apparent low Bidder will be the Bidder with the lowest total of the bid prices for base contract items plus the alternates designated by the City as those that will be used for determining the lowest bid price. However, the City reserves the right to (1) not award any alternates or (2) award any combination of alternates.

In case of discrepancy between the total of the base contract items and any specified alternates and the stated Grand Total Bid Price, the total of the base contract items plus specified alternates shall prevail. Any mathematical errors that appear on the face of the bid will be corrected by the City and the City will use the mathematically corrected addition. For example, if the mathematical total of Bidder's base contract items plus specified alternates equals \$1,000,000, but the Bidder has written \$1,250,000 as the Grand Total Bid Price, the City will consider \$1,000,000 to be the Bidder's Grand Total Bid Price for purposes of comparison to other Bidders and actual bid award. The City reserves its rights to reject or accept bids based on discrepancies between the stated Grand Total Bid Price and the actual mathematical total of the base contract bid items, plus specified alternates.

3-1.02 **REJECTION OF IRREGULAR PROPOSALS.** Proposals may be rejected in the City's sole discretion if they show any alterations of form, additions not called for, conditional bids, incomplete bids, erasures, or irregularities of any kind. However, the City reserves the right to waive any minor irregularities and informalities in any bid or in the bid procedure for any reason.

3-1.03 **COMPETITIVE BIDDING.** If more than one proposal is offered by any individual, firm, partnership, corporation, association, or any combination thereof, under the same or different names, all such proposals may be rejected. A party who has quoted prices on materials or Work to a Bidder is not thereby disqualified from quoting prices to other Bidders, or from submitting a bid directly for the materials or Work.

All Bidders are put on notice that any collusive agreement to control or affect the awarding of this Contract is in violation of the competitive bidding requirements of the City Charter, State Contract Act and the Business and Professions Code and may render void any Contract let under such circumstances.

3-1.04 **RELIEF OF BIDDERS.** If the Bidder claims a mistake was made in its bid, the Bidder shall give the Department written notice within five (5) Days after the opening of the bids of the alleged mistake, specifying in the notice in detail how the mistake occurred. No relief from a claimed mistaken bid shall be granted unless such mistake clearly appears on the face of the bid submitted to the City. Claimed mistakes on backup worksheets, spreadsheets, computerized bidding programs, or any other similar calculative bidding mistake which is not apparent on the face of the bid shall not under any circumstance be considered as a basis for relief. The burden of proving the occurrence of a mistake entitling a Bidder to relief from its bid rests entirely on the Bidder. Relief from bids shall be in the City's sole discretion.

SECTION 4: AWARD AND EXECUTION OF CONTRACT

4-1.01 **AWARD OF CONTRACT.** The City reserves the right to reject any and all proposals and to award (or not award) any combination of bid items at its option. Any such award will be to the lowest responsible Bidder whose proposal complies with the requirements prescribed for the bid items awarded. Such award, if made, will be made within sixty (60) business days after the opening of the proposals. If the lowest responsible Bidder refuses or fails to execute the Contract, or provide an acceptable Performance Bond, Payment Bond, and insurance certificate(s), the City may award the Contract to the second lowest responsible Bidder. Such award, if made, will be made within eighty-two (82) business days after the opening of proposals. If the second lowest responsible Bidder refuses or fails to execute the Contract, or provide an acceptable Performance Bond, Payment Bond, and insurance certificate(s), the City may award the Contract to the third lowest responsible Bidder. Such award, if made, will be made within one hundred four (104) business days after the opening of the proposals. The above time periods within which the award of Contract may be made are subject to extension for such further period as may be agreed upon in writing between the City and the Bidder concerned.

4-1.02 **RETURN OF BIDDER'S SECURITIES.** Within ten (10) Days after the award of the Contract, the City Clerk will return all Bidders' securities, other than Bidders' bonds, accompanying the proposals that are not to be further considered in making the award. Retained Bidders' securities will be held until the Contract has been fully executed, after which all Bidders' securities, except Bidders' bonds and any Bidders' securities that have been forfeited, will be returned.

4-1.03 **CONTRACT BONDS.** The successful Bidder shall furnish two (2)

bonds in the form contained in the section entitled Insurance Broker Information Packet and Bonds. One (1) bond shall secure the payment of the claims of laborers, mechanics or materialmen employed on the Work under the Contract, and the other bond shall guarantee the faithful performance of the Contract.

Each of the two (2) bonds shall be in a sum equal to one hundred percent (100%) of the Contract Price. If the Contract Price increases by the issuance of Change Orders, the penal amounts of the bonds required shall increase accordingly. Sureties on each of said bonds shall be satisfactory to the City.

All alterations, extensions of time, extra and additional Work, and other changes authorized by the Standard Specifications, the General Conditions, the Supplemental Conditions or any part of the Contract may be made without securing the consent of the surety or sureties on the Contract bonds.

Furthermore, the successful Bidder shall furnish a certificate from the County Clerk as required by California Civil Code of Procedure Section 995.660(a)(3).

4-1.04 **INSURANCE.** At the time of the execution of the Contract, the Contractor shall, at its own expense, procure, and at all times during the prosecution of the Work maintain in full force and effect Worker's Compensation Insurance, and Liability Insurance as specified in the General Conditions. The Contractor shall provide a Certificate of Insurance in the form contained in the section entitled Insurance Broker Information Packet.

4-1.05 **EXECUTION OF CONTRACT.** The Contract shall be signed by the successful Bidder and returned, together with all the required Contract bonds and insurance certificates, within ten (10) Working Days after the Contract has been awarded, or as otherwise directed, in writing, by the City.

If the Bidder is an individual, the Contract shall be executed personally by the Bidder. If the Bidder is a partnership, it is desirable that the Contract be executed by all of the partners, but it may be executed by one of them. If the Bidder is a corporation, it must be executed by two officers of the corporation consisting of (1) the chairman of the board, president or vice president; and (2) the secretary, assistant secretary, chief financial officer, treasurer or assistant treasurer, or by a person authorized by the corporation to execute written contracts on its behalf, and the corporate seal affixed thereto. In the alternative, a person other than an officer may sign the Contract, provided evidence satisfactory to the City is provided indicating the individual's authority to bind the corporation. If the corporate seal is not affixed to the Contract, or if it is executed by a person other than officers, or only by one officer, there must be attached to the Contract a certified copy of a resolution of the corporation authorizing such officer or person to execute written contracts for and on behalf of the corporation. If the Bidder is a joint venture, the Contract must be executed on behalf of each participating firm by officers or other individuals who have the full and proper authorization to do so.

4-1.06 **FAILURE TO EXECUTE CONTRACT.** Failure of the lowest responsible Bidder, the second lowest responsible Bidder, or the third lowest responsible Bidder to execute the Contract and file acceptable bonds and insurance as provided within ten (10) Working Days after the Contract has been awarded, or as otherwise directed, in writing, by the City, shall be just cause for annulment of the award and forfeiture of the Bidder's security. The successful Bidder may file with the City Clerk a written notice, signed by the Bidder or Bidder's authorized representative, specifying that the Bidder will refuse to execute the Contract if presented to Bidder. The filing of such notice shall have the same force and effect as the failure of the Bidder to execute the Contract and furnish acceptable bonds within the time prescribed.

SECTION 5: BID PROTEST PROCEDURES

5-1.01 **POLICY/PROCEDURES.** It is the policy of the City to consider fully and adjudicate promptly protests filed by prospective Bidders relating to the City's bidding procedure or award of the Contract. Protests shall be filed and processed in accordance with Section 4.12.150 of the Roseville Municipal Code. A Bidder's failure to follow the bid protest procedures may result in rejection of the protest by the City.

PROPOSAL TO THE DEPARTMENT OF ENVIRONMENTAL UTILITIES

for

2022 Sewer Collection System CIPP Rehabilitation Project

Name of Bidder _____ Business Phone _____

Business Address _____

Place of Business _____

Contractor's License No. _____

License Expiration Date _____

License Classification Type _____

DIR Registration No. _____

Type of business organization: _____

*If a Corporation, incorporated under the laws of the State of: _____

City of Roseville Business License No. _____

The undersigned Bidder herewith submits this Proposal and binds itself on award by the City of Roseville under this bid to execute a Contract in accordance with its bid and the Contract Documents.

The Notice to Contractors, Instructions to Bidders, Form of Agreement, Specifications,

General Conditions, Supplemental Conditions, Contract Drawings, and Addenda, if any, are made part of this bid and all provisions thereof are hereby accepted, and all representations and warranties are required thereby are hereby affirmed.

The work to be done is described in the Bidding Documents entitled 2022 Sewer Collection System CIPP Rehabilitation Project, City of Roseville, California.

This offer shall be irrevocable for a period of sixty (60) Days after the date on which bids are opened.

The undersigned Bidder understands that any clarification made to the above or any new and different conditions or information submitted on or with its Proposal, other than that requested, may render the bid non-responsive.

The undersigned, as Bidder, declares that the only persons or parties interested in this Proposal as principals are those named herein; that this Proposal is made without collusion with any other person, firm, or corporation; that the Bidder has carefully examined the location of the proposed Work, the attached Form of Agreement, and the plans, Specifications, and other Contract Documents; and agrees if this Proposal is accepted, that it will contract with the City of Roseville, in the form of a copy of the Agreement contained in the Project Manual, to provide all necessary machinery, tools, apparatus and other means of construction, and to do all the work and furnish all the materials specified in the Contract Documents, in the manner and time therein prescribed, and according to the requirements of the Director, as therein set forth, and that the Bidder will take in full payment therefore prices indicated in the Schedule of Bid Items, including all work modified by addendum numbers _____. (IF NONE, STATE NONE).

Bids are required for all Bid Items. The amount of the Bid for comparison purposes will

be the total of all items awarded.

The Bidder shall set forth for each item of work, in clearly legible figures, an item (“unit”) price and a total for the item in the respective spaces provided for this purpose in the Schedule of Bid Items.

The prices included within the Schedule of Bid Items include all costs for labor, materials, tools, equipment, services, Subcontractors, suppliers, taxes, insurance, shipment, delivery, overhead, profit, and for all other costs necessary to perform the Work in accordance with the Contract Documents.

Accompanying this Proposal is _____.

(Notice: Insert the words “Cash \$_____,” “Cashier's Check,” “Certified Check,” or “Bidder's Bond,” as the case may be, in an amount equal to at least ten percent (10%) of the total of the Bid.)

END OF SCHEDULE OF BID ITEMS

NONCOLLUSION DECLARATION

TO BE EXECUTED BY BIDDER AND SUBMITTED WITH BID

The undersigned declares:

I am the _____ of _____, the party making the foregoing bid.

The bid is not made in the interest of, or on behalf of, any undisclosed person, partnership, company, association, organization, or corporation. The bid is genuine and not collusive or sham. The Bidder has not directly or indirectly induced or solicited any other Bidder to put in a false or sham bid. The Bidder has not directly or indirectly colluded, conspired, connived, or agreed with any Bidder or anyone else to put in a sham bid, or to refrain from bidding. The Bidder has not in any manner, directly or indirectly, sought by agreement, communication, or conference with anyone to fix the bid price of the Bidder or any other Bidder, or to fix any overhead, profit, or cost element of the bid price, or of that of any other Bidder. All statements contained in the bid are true. The Bidder has not, directly or indirectly, submitted his or her bid price or any breakdown thereof, or the contents thereof, or divulged information or data relative thereto, to any corporation, partnership, company, association, organization, bid depository, or to any member or agent thereof, to effectuate a collusive or sham bid, and has not paid, and will not pay, any person or entity for such purpose.

Any person executing this declaration on behalf of a Bidder that is a corporation, partnership, joint venture, limited liability company, limited liability partnership, or any other entity, hereby represents that he or she has full power to execute, and does execute, this declaration on behalf of the Bidder.

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct and that this declaration is executed on _____ [date], at _____ [city], _____ [state].

(Signature of Declarant)

DISQUALIFICATION QUESTIONNAIRE

The Bidder shall complete, under the penalty of perjury, the following questionnaire:

Has the Bidder, any officer of the Bidder, or any employee of the Bidder who has proprietary interest in the Bidder, ever been disqualified, removed, or otherwise prevented from bidding on, or completing a federal, state, or local government project because of a violation of law or a safety regulation?

CONTRACTOR'S QUALIFICATIONS AND EXPERIENCE

Instructions and Requirements: Given the importance of timely and successful completion of the Project to the City and its residents, the Proposer must provide qualifying company project experience, as well as, project training and experience for their assigned Superintendent to be considered a responsible Proposer for this specific procurement. The proposing company and qualified superintendent must meet the minimum requirements described below.

Proposing Company's Minimum Experience/Qualifications:

- a. Proposers must provide project experience for installation Cured in Place Pipe (CIPP) projects over the last five (5) years.
- b. Project references must show a minimum of 50,000 Linear Feet of CIPP installations (cumulative over the last five years). These project references may be with a different superintendent that proposed for this Project.
- c. CIPP project references must be similar pipe size to this project (6-inch to 18-inch diameter).

Superintendent's Minimum Training and Experience/Qualifications:

- a. Proposer's Superintendent must provide project experience if supervising Cured in Place Pipe (CIPP) projects over the last five (5) years.
- b. Project references must show a minimum of 50,000 Linear Feet of CIPP installations (cumulative over the last five years). These project references may be with prior companies.
- c. CIPP project references must be similar pipe size to this project (6-inch to 18-inch diameter).
- d. Superintendent must provide evidence of specialized training in the Ultra Violet (UV)

curing of Cured-In-Place-Pipe (CIPP) processes and equipment.

SUPERINTENDENTS NAME: Describe the Superintendent's training in UV Cured in Place Pipe (CIPP). Include what company provided the training, what equipment/systems were included, duration of course and any other information about the training that will be relevant to this project:

Training Certification: _____

Training Certification Number/Date: _____

Demonstrate proposing company and superintendent's relevant project experience by providing previous project experience on the form included below. Duplicate and complete as many of the following project reference forms as needed.

END OF PROPOSAL

AGREEMENT

THIS AGREEMENT, is made and entered into this ____ day of _____, 20____, by and between the City of Roseville, a municipal corporation, (“CITY”), and _____, a _____, (“CONTRACTOR”); and

W I T N E S S E T H:

WHEREAS, the City Council of the CITY, at a meeting held on the ____ day of _____, 20____, approved plans and specifications for the _____
2022 Sewer Collection System CIPP Rehabilitation Project
and directed the City Clerk to advertise for sealed proposals for doing said work and providing that bids be submitted on the ____ day of _____, 20____; and

WHEREAS, the City Clerk, thereafter duly and regularly caused a notice to be published in the manner and for the time prescribed by law; and

WHEREAS, CONTRACTOR, pursuant to the provisions of said notice duly filed a bid with the City Clerk, a true copy of which bid is now on file in the office of the City Clerk, and is hereby referred to and by this reference made a part hereof as fully as if set forth at length herein; and

WHEREAS, all bids received pursuant to said notice were opened and examined and publicly declared at the time specified in said advertisement for bids and at a meeting of the City Council held on the ____ day of _____, 20____, the Council found and declared the bid of CONTRACTOR to be the lowest responsible bid and thereupon awarded a

contract to CONTRACTOR to do the work referred to in the aforementioned specifications.

NOW, THEREFORE, the parties agree as follows:

1. THE WORK. CONTRACTOR agrees:

a. To do the work and furnish all the labor, materials, tools, supplies, equipment, superintendence, insurance, and bonds required for the _____

in accordance with the Contract Documents (the Work).

b. To do and perform the Work contemplated hereby in a good and workmanlike manner under the direction of and to the satisfaction of the Director of Public Works of the City of Roseville.

2. PAYMENT. CITY shall pay CONTRACTOR _____

_____ dollars (\$ _____) for the Work to be done under this Agreement in accordance with the Contract Documents.

3. CONTRACT DOCUMENTS. The complete Agreement between the parties hereto consists of the following documents:

a. The advertisement for bids (including the notice to bidders, instructions to bidders and proposals);

b. The accepted bid;

c. Plans and specifications (including general conditions, supplemental conditions, special provisions and construction details);

d. Bonds and insurance required by the Insurance Broker Information Packet section of this document; and

e. This contract.

All documents specified above are intended to operate so that any work called for in any one and not mentioned in the other, or vice versa, is to be executed the same as if mentioned in all said documents.

4. LIQUIDATED DAMAGES. In the event CONTRACTOR does not complete the Work within the time specified, CONTRACTOR agrees that CITY will suffer damages. Inasmuch as the actual damages which would result from such breach by CONTRACTOR under this Agreement are uncertain, and would be impractical or extremely difficult to fix, CONTRACTOR agrees that it shall pay, or CITY shall deduct from CONTRACTOR's fee, the amount of \$1,500.00 per day as liquidated damages, in the event of such delay.

5. TIME OF COMPLETION. Time is of the essence of this Agreement. CONTRACTOR shall complete all Work under the Contract Documents within 300 Days of the date of this Contract. CONTRACTOR shall begin work by the date specified in the "Notice to Proceed" letter and shall diligently prosecute all of the Work under this Contract in all parts and requirements as defined in the Contract Documents.

6. SERVICE OF NOTICE. Any notice required or permitted to be given under this Agreement shall be deemed given when (a) personally delivered to the recipient identified below; (b) mailed by registered or certified mail, return receipt requested, postage pre-paid, to the address specified below; or (c) sent by facsimile, with confirmation of receipt, to the facsimile number identified below.

<u>CITY OF ROSEVILLE</u>	<u>CONTRACTOR</u>
<u>Jonathan Cummings</u>	_____
<u>City of Roseville</u>	_____
<u>2005 Hilltop Circle, Suite 130</u>	_____
<u>Roseville CA, 95747</u>	_____

CITY may also act through either its architect or construction manager if CITY expressly gives notice to CONTRACTOR, in writing, that CITY's designee has authority to act for CITY in a specific capacity.

7. DISPUTES. Disputes arising from this Agreement will be determined in accordance with the Contract Documents and Public Contract Code Sections 10240-10240.13.

8. GOVERNING LAW. This Agreement shall be governed by and construed in accordance with the laws of the State of California.

9. INDEPENDENT CONTRACTOR. CONTRACTOR shall act as an independent contractor, and covenants and agrees that it will conduct itself consistent with such status, that it will neither hold itself out as, nor claim to be, an officer or employee of CITY by reason of this Agreement.

10. SUCCESSORS IN INTEREST. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.

11. MODIFICATION. This Agreement and each provision contained herein may be waived, amended, supplemented or eliminated only by mutual written agreement of the parties.

12. SEVERABILITY. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.

13. INTEGRATED AGREEMENT. This is an integrated agreement and contains all of the terms, considerations, understanding and promises of the parties. It shall be read as a whole.

14. CONTRACTORS LICENSE LAW. CONTRACTORS ARE REQUIRED BY LAW TO BE LICENSED AND REGULATED BY THE CONTRACTORS' STATE LICENSE

BOARD WHICH HAS JURISDICTION TO INVESTIGATE COMPLAINTS AGAINST CONTRACTORS IF A COMPLAINT REGARDING A PATENT ACT OR OMISSION IS FILED WITHIN FOUR (4) YEARS OF THE DATE OF THE ALLEGED VIOLATION. A COMPLAINT REGARDING A LATENT ACT OR OMISSION PERTAINING TO STRUCTURAL DEFECTS MUST BE FILED WITHIN TEN (10) YEARS OF THE DATE OF THE ALLEGED VIOLATION. ANY QUESTIONS CONCERNING A CONTRACTOR MAY BE REFERRED TO THE REGISTRAR, CONTRACTORS' STATE LICENSE BOARD, P.O. BOX 26000, SACRAMENTO, CALIFORNIA 95826.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this Agreement in duplicate by its City Manager and attestation by its City Clerk under authority of Resolution No. _____, adopted by the Council of the City of Roseville on the _____ day of _____, 20____, and CONTRACTOR has caused this Agreement to be duly executed.

INSURANCE BROKER INFORMATION PACKET

2022 Sewer Collection System CIPP Rehabilitation Project

TABLE OF CONTENTS for INSURANCE BROKER INFORMATION PACKET

	<u>Page</u>
Notice to Contractor	INS 1
Notice to Insurance Broker	INS 2
Insurance Requirements	INS 3
Public Works Faithful Performance Bond	INS 10
Public Works Payment Bond	INS 15

NOTICE TO CONTRACTOR

For your convenience, this package contains the Requirements for Insurance and Bonds for this project, including the necessary City forms. You are required to return these forms in addition to the executed Contract within fifteen (15) calendar days after the award of the Bid, unless otherwise directed by City in writing. (See the Instructions to Bidders.)

Please insert the dollar amount of your accepted Bid into the blank on page INS-2 and present this entire package to your insurance broker if you are awarded the Bid.

NOTICE TO INSURANCE BROKER

Your client has been awarded a bid by the City Council of the City of Roseville to perform a public works project known as the 2022 Sewer Collection System CIPP Rehabilitation Project.

The Contract Amount is \$_____

The Contract Conditions for this project require your client (“the Contractor”) to return certain evidence of insurance and bonds to the City Attorney of the City within fifteen (15) days after the Bid award, unless otherwise directed by the City in writing, or else the Bid award may be terminated and awarded to another company.

This package contains the information you will need as an insurance broker to provide the appropriate insurance and bonds to the City. The insurance coverages the Contractor needs are specified in the section entitled “Insurance Requirements.” Please note that, in addition to the insurance certificate itself, copies of several endorsements must be actually furnished.

Please refer to the Supplemental Conditions for modifications of the General Conditions, if any, and the requirements of this insurance packet.

Please use the standard City of Roseville Bond Forms provided in this package.

The Bonds required must each be in the penal amount of: \$_____.

Bonds must be sent to the following staff person:

Jonathan Cummings
2005 Hilltop Circle, Suite 130
Roseville, CA 95747

Insurance documents must be provided using one of the following methods:

- a. By email to roseville@ebix.com and riskmanagement@roseville.ca.us
- b. By fax to (770) 335-5727 and (916) 774-5461

After using one of these methods, please **DO NOT** send the insurance certificate(s) by mail.

When forwarding the documents, please refer to the project name so that the documents can be matched with the Contract for which they are submitted.

Thank you.

INSURANCE REQUIREMENTS

The following sections are quoted from the General Conditions:

5-1.23 INSURANCE COVERAGE.

A. Evidence of Maintenance Required. The Contractor shall, at its expense, procure and at all times maintain in full force and effect at a minimum the insurance required by this section on all of its operations; and the Contractor shall not allow any Subcontractor to commence work until similar insurance required of the Subcontractor has been obtained and filed. An original Certificate of Insurance, and copies of all required endorsements, all in a form approved by the Risk Manager, evidencing all required coverage or policies shall be filed after the award of the bid and prior to approval of the Contract by the City Council. Contractor shall provide ten (10) days prior written notice to the City of any reduction of coverage limits or cancellation of the coverage or policies shall be given to the City of Roseville as Certificate holder.

B. Qualifying Insurers. With the exception of the State Compensation Insurance Fund, all required insurance policies shall be issued by companies acceptable to the City and licensed to do business in the State of California and who hold a current policy holders alphabetic and financial size category rating of not less than AVII according to the most recent issue of Best's Insurance Reports.

C. Insurance Required.

1. **Commercial General Liability (CGL):** Insurance Services Office Form CG 00 01 covering CGL on an “occurrence” basis, including products and completed operations with limits of no less than Two Million Dollars (\$2,000,000) per occurrence for bodily injury,

personal injury and property damage for projects under One Million Dollars (\$1,000,000) and limits of no less than Five Million Dollars (\$5,000,000) per occurrence for bodily injury, personal injury and property damage for projects over One Million Dollars (\$1,000,000). If a general aggregate limit applies, either the aggregate limit shall apply separately to this project or the general aggregate limit shall be twice the required occurrence limit.

The Commercial General Liability insurance shall include the following, copies of which shall be provided:

a. Inclusion of the City of Roseville, and its officers, agents, employees, and volunteers, as additional insureds (except for workers' compensation) as respects services or operations under the Contract. The additional insured endorsement for the general liability policy shall be at least as broad as the ISO CG 2010 10 01 combined with ISO CGL Endorsement CG 2037 10 01. Any other endorsement must be approved in writing by the City. Endorsements must include coverage for on-going and completed operations, which coverage shall be maintained for four (4) years following completion of the Project. Endorsements shall cover the City of Roseville, its officers, agents, employees, and volunteers.

b. The insurance shall provide coverage for claims by one insured against another insured and the policies shall not contain any cross-suits exclusions, cross-liability exclusions, or insured versus insured exclusions. The policies shall not contain any classification exclusions purporting to deny coverage for any work to be performed by Contractor or any of its Subcontractors.

c. Stipulation that the insurance is primary and noncontributory, as evidenced by a separate endorsement (CG 20 01 04 13 or an equivalent) or section of the policy, and that neither the City nor its insurers will be called upon to contribute to a loss.

d. Such insurance shall specifically cover the contractual liability of the Contractor.

e. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.

f. Waiver of subrogation endorsement.

g. The Contractor shall furnish a certificate for the period covered.

2. **Automobile Liability:** Insurance Services Office Form Number CA 0001 covering Code 1 (any auto), or if Contractor has no owned autos, Code 8 (hired) and Code 9 (non-owned), with limits of no less than One Million Dollars (\$1,000,000) per accident for bodily injury and property damage.

3. **Workers' Compensation:** In accordance with the provisions of the California Labor Code, Contractor is required to be insured against liability for Workers' Compensation or to undertake self-insurance. Statutory Workers' Compensation and Employers' Liability of at least One Million Dollars (\$1,000,000) shall cover all Contractors staff while performing any work incidental to the performance of this Agreement.

4. **Professional Liability:** Professional Liability (Errors and Omission) Insurance appropriate to Contractor's profession, with a limit of liability not less than One Million Dollars (\$1,000,000) per occurrence or claim and Two Million Dollars (\$2,000,000) aggregate to cover all design and engineering services rendered by Contractor pursuant to the Agreement. Coverage must commence from the first day that Contractor or any of its

Subcontractors provided any design or engineering services in connection with the Project.

5. **Builder's Risk/Course of Construction Insurance Is X OR Is Not _____ Required by Risk Management:** The Contractor shall be responsible for all loss, damage or destruction whatsoever to the work called for by this Contract until the approval of a Notice of Completion or acceptance of the Work if no Notice of Completion is to be recorded.

The Contractor shall secure "All Risk" type of Builder's Risk Insurance of the type covering one hundred percent (100%) of the value of the work performed under this Contract (the value is presumed to be the Contract amount unless otherwise stated in Supplemental Conditions) and all materials, equipment, or other items to be incorporated therein while the same are located at the construction site, a bonded warehouse, or its place of manufacture. At any time, the policy shall cover the value of the work completed. The policy shall cover hazards including the losses due to fire, explosion, hail, rain, lightning, flood (separate insurance as needed), vandalism, malicious mischief, wind, collapse, aircraft, and smoke.

The policies providing such insurance shall name the City as a loss payee as its respective interests may appear, and certified copies of such policies shall be filed with the City. The maximum deductible allowable under the Builder's All Risk policy shall be five percent (5%) of the Contract amount.

Builder's Risk Insurance is not required for coverage of losses in excess of five percent (5%) of the Contract amount for damages resulting from earthquake in excess of a magnitude of 3.5 on the Richter scale, or tidal waves. Coverage in the amount of five percent (5%) of the Contract amount for such losses is required.

6. **Pollution Coverage:** Contractor shall procure pollution liability coverage or other insurance covering claims for bodily injury or property damage arising out of the

abatement, removal, storage, transportation, or other exposure to hazardous materials or pollutants, in limits not less than Two Million Dollars (\$2,000,000). Contractor shall add the City and all parties required to be indemnified by Contractor as additional insured on all pollution liability policies.

7. **Higher Coverage Limits:** If Contractor maintains higher coverage limits than the amounts shown above, then the City requires and shall be entitled to coverage for the higher coverage limits maintained by Contractor. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to the City.

8. **Claims Made Coverage:** Liability insurance coverage may not be written on a “claims made” or modified occurrence basis. The Certificate of Insurance must clearly provide that the coverage is on an “occurrence” basis.

5-1.24 **OTHER INSURANCE PROVISIONS.**

A. The requirements of the Standard Specifications as to types and limits of insurance coverage to be maintained by the Contractor, and any approval of insurance by the City, are not intended to, and shall not in any manner limit or qualify the liabilities and obligations otherwise assumed by the Contractor pursuant to the Contract, including, but not limited to, the provisions concerning indemnification, nor preclude the City from taking any other action available to it under any other provision of the Contract or law.

B. The City acknowledges that some insurance requirements contained in these Standard Specifications may be fulfilled by self-insurance on the part of the Contractor. However, this shall not in any way limit liabilities assumed by Contractor under the Contract. Any self-insurance must be approved in writing by the City, in its sole discretion and shall not reduce the limits of liability. Any deductibles or self-insured retentions (“SIR”) must be

declared on the certificate of insurance and approved by City in writing. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or City. City reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

C. The Contractor agrees to include in its contracts with all subcontractors the same requirements and provisions of this Contract, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor's work. Furthermore, the Contractor shall require its subcontractors to agree to be bound to the Contractor and the City in the same manner and to the same extent as the Contractor is bound to the City under this Contract. Additionally, the Contractor shall obligate its subcontractors to comply with these same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of the City's indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request. Alternatively, the Contractor may insure subcontractor(s) under its own policy.

D. The City, its officers, agents, employees, and volunteers are to be covered as insureds with respect to liability arising out of automobiles owned, leased, hired or borrowed by or on behalf of the Contractor; and with respect to liability arising out of work or operations performed by or on behalf of the Contractor including materials, parts or equipment furnished in connection with such work or operations. Coverage shall not extend to any indemnity coverage for the active negligence of the additional insured in any case where an agreement to indemnify the additional insured would be invalid under California Insurance Code Section 11580.04.

E. The limits of insurance required in this Contract may be satisfied by a

combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of the City (if agreed to in a written contract) before the City's own insurance shall be called upon to protect it as a named insured.

F. The insurance procured by Contractor shall be subject to the approval of the City, but any acceptance of insurance certificates by the City shall in no way limit or relieve Contractor of its duties and responsibilities under the Agreement.

G. Contractor shall be responsible for all premiums, deductibles, and self-insured retention applicable to the insurance it is required to procure under the Contract. All deductibles or self-insured retentions over five hundred thousand dollars (\$500,000) must be approved by the City, in writing. Contractor shall be responsible for all deductibles, self-insured retention payments, and/or increased premiums incurred if the City's policies of insurance are forced to cover damages or respond to claims for which Contractor or its Subcontractors were obligated to provide insurance under the Contract.

H. Failure of the City to enforce in a timely manner any of the requirements of these insurance provisions shall not act as a waiver to enforcement of any of these provisions at a later date.

I. Contractor's indemnity obligations shall not be limited by these insurance provisions and shall survive the expiration of the Contract and the insurance provisions of the Contract shall likewise not be limited by the indemnity provisions of the Contract.

**J. THE CITY RESERVES THE RIGHT TO WITHHOLD ANY
PROGRESS PAYMENTS TO THE CONTRACTOR IN THE EVENT OF
NONCOMPLIANCE WITH ANY INSURANCE REQUIREMENTS.**

Bond No. _____

PUBLIC WORKS

FAITHFUL PERFORMANCE BOND

(Project: 2022 Sewer Collection System CIPP Rehabilitation Project)

WHEREAS, the City of Roseville ("CITY") has awarded a bid and contract to _____
as contractor ("PRINCIPAL") for the public work described as 2022 Sewer Collection
System CIPP Rehabilitation Project (the "WORK"). The
contract ("AGREEMENT"), for the public work described above, and all of its terms and
conditions are incorporated by reference and made a part hereof; and

WHEREAS, the PRINCIPAL is required to furnish a bond in connection with the
AGREEMENT guaranteeing its faithful performance; and

NOW, THEREFORE, we the undersigned PRINCIPAL and _____
_____, a _____, admitted
and duly authorized to transact business under the laws of the State of California, as
SURETY ("SURETY"), are held and firmly bound unto the CITY or its successors and
assigns in the sum of _____
dollars (\$_____) (which amount is not less than 100% of the

AGREEMENT price) to be paid to the CITY or its successors and assigns; and for which payment, well and truly to be made, we bind ourselves, our heirs, executors and administrators, successors or assigns jointly and severally, firmly by these presents.

The condition of this obligation is such that if the PRINCIPAL, or its heirs, executors, administrators, successors or assigns, shall abide by, and in all respects promptly and faithfully perform the covenants, conditions and provisions in said AGREEMENT and any alteration thereof made as therein provided, notice of which alterations to Surety being hereby waived, on its part to be kept and performed at the time and in the manner therein specified, and in all respects according to their true intent and meaning, and shall indemnify and save harmless CITY, its officers, agents, employees, volunteers as therein stipulated, then this obligation shall be null and void; otherwise, this obligation shall be and remain in full force and effect.

As condition precedent to the satisfactory completion of the contract, the obligation of the PRINCIPAL and SURETY under this Bond shall remain in effect for a period of one (1) year after the completion and acceptance of the WORK. During that time, if the PRINCIPAL, its heirs, executors, administrators, successors or assigns fails to make full, complete and satisfactory repair and replacement or totally protect the CITY from any loss or damage made evident during that year which results from or is caused by either defective materials or faulty workmanship in the prosecution of the WORK, then the obligation shall remain in full force and effect. However, anything in this paragraph to the contrary notwithstanding, the obligation of the SURETY shall

continue so long as any obligation of the PRINCIPAL remains.

No prepayment or delay in payments, and no change, extension, addition or alteration of any provision of the AGREEMENT or in the specifications agreed to between the PRINCIPAL and the CITY, or any forbearance on the part of the CITY shall operate to relieve the SURETY. The SURETY hereby waives the provisions of Section 2819 of the California Civil Code. The SURETY waives all rights of subrogation against the CITY or any person employed by the CITY. If the contract price increases by the issuance of change orders, the amount specified in this bond shall increase by the same amount.

Whenever PRINCIPAL shall be and declared by CITY to be in default under the AGREEMENT, SURETY shall promptly remedy the default, or shall promptly do one of the follow at CITY's election:

1. Undertake through its agents or independent contractors, reasonably acceptable to CITY, to complete the AGREEMENT in accordance with its terms and conditions and to pay and perform all obligations of PRINCIPAL under the AGREEMENT, including without limitation, all obligations with respect to warranties, guarantees, and the payment of liquidated damages.
2. Reimburse CITY for all costs CITY incurs in completing the AGREEMENT, and in correcting, repairing or replacing defects in materials or workmanship

and/or materials and workmanship which do not conform to the specifications in the AGREEMENT.

SURETY's obligations hereunder are independent of the obligations of any other surety for the performance of the AGREEMENT, and suit may be brought against SURETY and such other sureties, jointly and severally, or against any one or more of them, or against less than all of them without impairing CITY's rights against the others.

No right of action shall accrue on this bond to or for the use of any person or corporation other than CITY or its successors or assigns.

As part of the obligation secured hereby and in addition to the face amount specified therefore, there shall be included costs and reasonable expenses and fees, including reasonable attorneys' fees, incurred by CITY in successfully enforcing such obligation, all to be taxed as costs and included in any judgment rendered.

PUBLIC WORKS

LABOR AND MATERIALS PAYMENT BOND

(Project: 2022 Sewer Collection System CIPP Rehabilitation Project)

WHEREAS, the City of Roseville ("CITY"), has awarded a bid and contract to _____
as contractor ("PRINCIPAL"), for the public work described as 2022 Sewer Collection
System CIPP Rehabilitation Project (the "WORK"). The
contract ("AGREEMENT"), for the public work described above, and all of its terms and
conditions are incorporated by reference and made a part hereof; and

WHEREAS, the PRINCIPAL is required to furnish a bond in connection with the
AGREEMENT guaranteeing payment of persons who provide labor and material; and

NOW, THEREFORE, we the undersigned PRINCIPAL and _____
_____, a _____, admitted
and duly authorized to transact business under the laws of the State of California, as
SURETY ("SURETY"), are held and firmly bound unto the CITY or its successors and
assigns in the sum of _____
dollars (\$ _____) (which amount is not less than 100% of the
AGREEMENT price) to be paid to the CITY or its successors and assigns; and for which

payment, well and truly to be made, we bind ourselves, our heirs, executors and administrators, successors or assigns jointly and severally, firmly by these presents.

The condition of the obligation is such that if the PRINCIPAL, its subcontractors, heirs, executors, administrators, successors or assigns fails to pay any of the persons named in Section 8004 or 9100 of the Civil Code of the State of California, or the amounts due under the Unemployment Insurance Code of the State of California, or any amounts required to be deducted, withheld and paid over to the Employment Development Department from the wages of employees of the PRINCIPAL and its subcontractors pursuant to Section 13020 of the Unemployment Insurance Code, with respect to work or labor performed by any such claimant, that the SURETY will pay for the same, in an amount not exceeding the sum specified in this bond, and also, in case suit is brought upon the bond, shall pay reasonable attorneys' fees, to be fixed by the Court.

This bond shall inure to the benefit of any and all persons, companies, and corporations entitled to file a Stop Payment Notice pursuant to the provisions of Section 9350 et seq. of the Civil Code of the State of California, so as to give a right of action to them or their assigns in any suit brought upon this bond.

No prepayment or delay in payments, and no change, extension, addition or alteration of any provision of the AGREEMENT or in the specifications agreed to between the PRINCIPAL and the CITY, or any forbearance on the part of the CITY shall

operate to relieve the SURETY. The SURETY hereby waives the provisions of Section 2819 of the California Civil Code. The SURETY waives all rights of subrogation against the CITY or any person employed by the CITY. If the contract price increases by the issuance of change orders, the amount specified in this bond shall increase by the same amount.

As part of the obligation secured hereby and in addition to the face amount specified therefore, there shall be included costs and reasonable expenses and fees, including reasonable attorneys' fees, incurred by CITY in successfully enforcing such obligation, all to be taxed as costs and included in any judgment rendered.

SECTION 1

DEFINITIONS AND TERMS

1-1.01 **GENERAL.** When the following abbreviations and terms or pronouns in place of them appear in the Contract Documents, the intent and meaning shall be interpreted as provided in this Section 1.

1-1.02 **ACCEPTANCE.** Formal Acceptance by resolution by the Roseville City Council of the Contract when completed in all respects in accordance with the Contract Documents and any modifications previously approved.

1-1.03 **ADDENDUM.** Written interpretation or revision to any of the Contract Documents issued by the City before the bid opening.

1-1.04 **AS-BUILT DOCUMENTS, AS-BUILT DRAWINGS AND RECORD DOCUMENTS.** As-Built Documents, As-Built Drawings and Record Documents are all contract documents modified to reflect changes during the construction phase. Specifically, As-Built Documents/Drawings are a revised set of drawings submitted by the Contractor upon Final Completion of a project. They reflect changes made in the Specifications and Working Drawings during the construction process, and show the exact dimensions, geometry, and location of all elements of the work completed under the Contract. Record Documents, on the other hand, are compiled by the Engineer or Architect based on the As-Built Documents/Drawings submitted by the Contractor. They reflect the Engineer or Architect's concurring review of what changes were denoted, why they were made and where they occurred and create a record set of drawings.

1-1.05 **ASSESSMENT.** A cost imposed on the Contractor for non-compliance

with certain contractual requirements.

1-1.06 **BENEFICIAL OCCUPANCY.** The taking possession of a portion of the Work by the City for its use and/or occupancy on other than a temporary or emergency basis.

1-1.07 **BID GUARANTY.** The cashier's, certified check, irrevocable standby letter of credit, deposit of securities, or Bidder's Bond, accompanying the bid submitted by the Bidder, as a guaranty that the Bidder will enter into an agreement with the City for the performance of the Work, if the Agreement is awarded to Bidder, and the Bidder will submit the required Contract Bonds and Certificate of Insurance. Also referred to as the Bidder's Security.

1-1.08 **BIDDER.** Individual, firm, partnership, limited liability company, corporation, joint venture, or any combination thereof, submitting a Proposal for the Work, acting directly, or through a duly authorized representative.

1-1.09 **BIDDING DOCUMENTS.** Includes the Notice to Bidders, Bidding Requirements, Contract Conditions, Drawings, and Addenda.

1-1.10 **CHANGE ORDER.** Any written order to the Contractor directing an addition, deletion, or modification of the Work, or an adjustment in the Contract Price or Contract Time provided in the Contract Documents and issued after the Agreement has been signed.

1-1.11 **CITY.** The City of Roseville.

1-1.12 **CITY ATTORNEY.** The City Attorney of the City.

1-1.13 **CITY CLERK.** The City Clerk of the City.

1-1.14 **CLAIM.** A separate demand by Contractor sent by registered mail or certified mail with return receipt requested, for one or more of the following: (a) a time extension, including, without limitation, for relief for damages or penalties for delay assessed by

the City; (b) payment by the City of money or damages arising from work done by, or on behalf of, Contractor pursuant to the Contract Documents and payment for which is not otherwise expressly provided or to which Contractor is not otherwise entitled; and (c) payment of an amount that is disputed by the City.

1-1.15 **CONSTRUCTION SCHEDULE.** A list or graphic display of construction activities required for completing the Work, in a format required by the Contract Documents. The duration, start and finish date, and sequence of significant activities, critical path, float and milestones must be indicated in the Construction Schedule.

1-1.16 **CONTRACT OR AGREEMENT.** The written agreement relating to the Work to be performed, the labor, materials, and equipment to be furnished, and the payment to be made therefor. The Agreement/Contract is part of and incorporates all of the Contract Documents.

1-1.17 **CONTRACT CONDITIONS.** Includes the General Conditions, Supplemental Conditions, and Specifications.

1-1.18 **CONTRACT DOCUMENTS.** Includes those documents that form the basis of the Contract, including but not limited to, Bidding Documents, the Bid or Proposal, Contract Bonds, the Contract, all required insurance certificates or endorsements, all bonds, all required certifications or statements, Change Orders, any Contract Amendment, any City Standard which is incorporated by reference and these City of Roseville General Conditions for Buildings and Grounds.

1-1.19 **CONTRACT DRAWINGS.** The official drawings including plans, elevations, sections, detail drawings, diagrams, plated, General Notes, information and schedules thereon, or exact reproductions thereof, showing the location, character, dimension, and details

of the Work. The Contract Drawings include any drawings or plates bound within the Supplemental Conditions.

1-1.20 **CONTRACT PRICE.** The total compensation to be paid to the Contractor in accordance with the terms of the Agreement.

1-1.21 **CONTRACT TIME.** The number of Days, or portion thereof, allowed for completion of the Work, including all authorized time extensions. The effective date for commencement of the Work specified in the Notice to Proceed shall define the beginning of the Contract Time.

1-1.22 **CONTRACTOR.** Individual, firm, partnership, limited liability company, corporation, joint venture, or any combination thereof, who has entered into the Agreement with City.

1-1.23 **DAY OR DAYS.** Unless otherwise designated, Day or Days as used in the Contract Documents will be understood to mean calendar Day or Days.

1-1.24 **DEPARTMENT.** The Department for Contract Administration, as identified in the Supplemental Conditions.

1-1.25 **DIRECT COSTS.** Those cost items (including labor, materials, equipment and any subcontractor's work) that are used in the actual performance of, and are specifically and uniquely attributable to the Work or changed Work. Direct Costs do not include Overhead. Direct Costs only include the following:

A. Payroll costs for employees in the direct employ of Contractor in the performance of the Work under schedules of job classifications agreed upon by City and Contractor. Payroll costs for employees not employed full time on the Work shall be apportioned on the basis of their time spent on the Work. Payroll costs shall include salaries and

wages plus the cost of fringe benefits which shall include social security contributions, unemployment, excise and payroll taxes, workers' compensation, health and retirement benefits, sick leave, vacation and holiday pay applicable thereto. Such employees may include superintendents and foremen at the site. The expenses of performing work after regular working hours, on Saturday, Sunday or legal holidays shall be included in the above only to the extent authorized by City in writing.

B. Cost of all materials and equipment furnished and incorporated in the Work, including costs of transportation and storage thereof, and suppliers' field services required in connection therewith. All trade discounts, rebates and refunds and all returns from sale of surplus materials and equipment shall accrue to City, and Contractor shall make provisions so that they may be obtained.

C. Payments made by Contractor to the subcontractors for work performed by subcontractors. If required by City, Contractor shall obtain competitive bids from subcontractors acceptable to Contractor and shall deliver such bids to City who will then determine which bids will be accepted. If a subcontract provides that the subcontractor is to be paid on the basis of cost of the work plus a fee, the subcontractor's cost of the work shall be determined in the same manner as Contractor's cost of the work. All subcontracts shall be subject to the other provisions of the Contract Documents insofar as applicable.

D. Costs of special consultants (including engineers, architects, testing laboratories, surveyors, and accountants) employed for services specifically, and only, related to the Work.

E. Supplemental costs including the following:

1. The proportion of necessary transportation, travel and subsistence

expenses of Contractor's employees incurred in discharge of duties connected with the Work.

2. Cost, including transportation and maintenance, of all materials, supplies, equipment, machinery, appliances, office and temporary facilities at the site and hand tools not owned by the workers, which are consumed in the performance of the Work, and cost, less market value of such items used but not consumed which remain the property of Contractor.

3. Rentals of all construction equipment and machinery and the parts thereof whether rented from Contractor or others in accordance with rental agreements approved by City, and the costs of transportation, loading, unloading, installation, dismantling and removal thereof, all in accordance with terms of said rental agreements. The rental of any such equipment, machinery or parts shall cease when the use thereof is no longer necessary for the Work.

4. Sales, consumer, use or similar taxes related to the Work, and for which Contractor is liable, imposed by laws and regulations.

5. The cost of utilities (including the meter and all associated installation costs), fuel and sanitary facilities at the site.

6. Cost of premiums for additional bonds and insurance required because of changes in the Work.

1-1-26 **DIRECTOR.** Director of the Department for Contract Administration or his or her designee.

1-1.27 **EMERGENCY.** Any sudden generally unforeseen occurrence (such as a fire, flood, storm, earthquake, civil disorder, or other natural and/or man-made disaster) that has the potential to adversely affect the safety of life, the Work, and/or adjacent property; to interrupt contracts essential to the performance of the Work; and/or to cause catastrophic failure of City

equipment and/or facilities.

1-1.28 **ENGINEER OR ARCHITECT.** Professional Engineer or Architect designated for a particular project responsible for signing and sealing the permit drawings, interpretation of the drawings where ambiguities exist, review of requests for information, design Change requests and Shop Drawings, resolution of errors and omissions, and finalization of Record Documents.

1-1.29 **FINAL COMPLETION.** When the project has been completed according to the terms and conditions set forth in the Contract Documents. Final Completion is not the same as Acceptance.

1-1.30 **FORCE ACCOUNT.** Payment by force account shall mean payment on the basis of the Contractor's time and materials.

1-1.31 **GENERAL NOTES.** The written instructions, provisions, conditions or other requirements appearing on the Contract Drawings and so identified thereon, which pertain to the performance of the Work.

1-1.32 **INSTALLATION, INSTALL.** Completely assembling, erecting, and/or connecting materials, parts, components, supplies, and related equipment specified or required for the completion of the Work.

1-1.33 **LABORATORY.** Established professional laboratories authorized by the City to test materials and Work involved in the Contract.

1-1.34 **LEGAL HOLIDAYS.** Those days designated as Federal holidays or declared by the City, or otherwise specified in the Contract Documents.

1-1.35 **LIQUIDATED DAMAGES.** The amount prescribed in the Contract Documents to be paid to the City or to be deducted from any payments due or to become due the

Contractor for each day's delay in completing the whole or any specified portion of the Work beyond the time allowed in the Supplemental Conditions.

1-1.36 **NOTICE OF COMPLETION.** A legal notice filed by the City with the Placer County Recorder's Office stating that construction has been completed and accepted by the City.

1-1.37 **NOTICE TO PROCEED.** A written notice given by the City to the Contractor fixing the date on which the Contract Time will commence to run.

1-1.38 **NOTICE OF TERMINATION.** Written notice from the City to the Contractor and/or its Surety terminating the Agreement, or a portion thereof, either for convenience of the City or for default due to the Contractor's failure to perform its contractual obligations.

1-1.39 **OVERHEAD.** Business or administrative expenses (including but not limited to office expenses, administrative staff, rent, insurance, utilities) not chargeable to a particular part of the Work. The term "Overhead" shall include all of the following:

A. Payroll costs and other compensation of Contractor's officers, executives, principals (of partnerships and sole proprietorships), general managers, engineers, architects, estimators, attorneys, auditors, accountants, purchasing and contracting agents, expeditors, timekeepers, clerks, and other personnel employed by Contractor whether at the Work Site or in Contractor's principal or a branch office for general administration of the Work and not specifically included in the agreed upon schedule of job classifications, all of which are to be considered administrative costs covered by the Contractor's fee.

B. Expenses of Contractor's principal and branch offices other than Contractor's office at the site.

C. Any part of Contractor's capital expenses, including interest on Contractor's capital employed for the Work and charges against Contractor for delinquent payments.

D. Cost of premiums for all bonds and for all insurance whether or not Contractor is required by the Contract Documents to purchase and maintain the same, except as provided in section 1-1.25.

E. Other overhead or general expense costs of any kind.

1-1.40 **PREMISES.** Shall mean the area within construction easements, easements, rights of entry and City owned property which surrounds the Work Site, limited by the property lines thereof. In some cases Premises may coincide with the Work Site.

1-1.41 **PROFESSIONAL ENGINEER.** An engineer licensed by the Board of Registration for Professional Engineers, State of California.

1-1.42 **PROJECT MANUAL.** A book containing all Contract Documents.

1-1.43 **PROPOSAL FORMS.** The approved forms upon which the City requires that each Bidder submit its bid with regard to the Agreement.

1-1.44 **REQUEST FOR INFORMATION (RFI).** A document issued by the Contractor requesting information concerning the Contract Documents.

1-1.45 **SAFETY.** Includes the practice of identifying potential hazards, assessing their risk, taking corrective action where possible, including and providing control measures such as engineering design, written procedures, and the personal protective equipment for workers in order to eliminate or reduce the risk for exposure in the workplace.

1-1.46 **SCHEDULE OF VALUES.** The breakdown of the Contract Price that will serve as the basis for Contractor's Applications of Payment. Any lump sum bid item

included within the Contract Price will be apportioned among values relating to specific components of the Work covered by said lump sum.

1-1.47 **SHOP DRAWINGS.** Drawings, plans, diagrams, schedules, and other data specifically prepared and submitted to the City by the Contractor, showing in detail: (a) the proposed fabrication and assembly of a special component of the Work; and (b) the Installation (form, fit and attachment details) of a special component of the Work. Shop Drawings shall be deemed to include Working Drawings, Product Data, literature, and applicable performance and test data.

1-1.48 **SPECIFICATIONS.** The technical Specifications for the Work prepared by the Director or an Engineer or Architect describing in detail the nature of the Work, its components, any performance standards, and how the Work is to be constructed.

1-1.49 **SUBCONTRACTOR.** Any individual, firm, partnership, limited liability company, corporation, joint venture, or combination thereof, other than employees of the Contractor, engaged by the Contractor to furnish services, labor, equipment and materials for a portion of the Work.

1-1.50 **SUBMITTALS.** Those documents required to be submitted by the Contractor for review by the City in accordance with the Contract Documents.

1-1.51 **SUPPLEMENTAL CONDITIONS.** The Supplemental Conditions are specific clauses modifying or supplementing these General Conditions.

1-1.52 **SUPPLIER.** Any individual, firm, partnership, limited liability company, corporation, joint venture, or combination thereof, other than employees of the Contractor, that supplies a tangible product as a portion of the Work, with services usually limited to delivery and/or required testing, and with manufacturing, fabrication, or production facilities located off

the Work Site.

1-1.53 **WORK.** The furnishing of all labor, and the furnishing and Installing of all materials, articles, supplies and equipment as specified, designated, or required by the Contract Documents.

1-1.54 **WORK SITE.** All or portion of the Premises that the Work is limited to as shown on the Contract Drawings or designated by the Director. Public streets are not included unless Work is being done within the street right-of-way.

1-1.55 **WORKING DRAWINGS.** Original drawings prepared by the Contractor and/or its Subcontractors or Suppliers, of any tier, illustrating Work required for construction that will not become an integral part of the completed Work. This includes, but is not limited to, drawings for temporary structures such as decking, bulkheads, excavation supports, utility support, groundwater control, forming, falsework, access roads, staging areas, staging plans, and diversion plans. A Working Drawing is one type of a Shop Drawing.

SECTION 2

CONTROL AND SCOPE OF THE WORK

2-1.01 **AUTHORITY OF DIRECTOR.** The Contract shall be performed in a manner satisfactory to the Director who shall decide all questions which may arise as to the quality or acceptability of materials furnished and Work performed and as to the manner of performance and rate of progress of the Work; all questions which may arise as to the interpretation of the Contract Documents; all questions as to the acceptable fulfillment of the Contract on the part of the Contractor; and all questions as to compensation. The Director shall have authority to enforce and make effective such decisions and orders in the event the Contractor fails to promptly carry out the same.

2-1.02 **INTENT OF CONTRACT DOCUMENTS.** The Contract Documents are complementary, and what is called for by one shall be as binding as if called for by all. The intent of the Contract Documents is to describe the details for the construction and completion of the Work. Where the Contract Documents describe portions of the Work in general terms, but not in complete detail, it is understood that only the best general practice shall be followed and that only materials and workmanship of the best quality are to be used. Any Work, materials, or equipment that are customarily provided, or that are reasonably inferable from the Contract Documents as being required to produce the intended result, shall be supplied, whether or not specifically called for. When words, which have a well-known technical or trade meaning are used to describe work, materials, or equipment, such words shall be interpreted in accordance with that meaning. Unless otherwise specified, the Contractor shall furnish all labor, materials, tools, equipment, and incidentals, and do all the Work involved in executing the Contract in a

satisfactory and workmanlike manner.

Reference to standard specifications, manuals or codes of any technical society, organization or association, or to the laws or regulations of any governmental authority, whether such reference be specific or by implication, shall mean the latest standard specification, manual, code, laws, or regulations in effect on the first published date of the Notice to Contractors, except as may be otherwise specifically stated. However, no provision of any referenced standard specification, manual or code (whether or not specifically incorporated by reference in the Contract Documents) shall be effective to change the duties and responsibilities of City or Contractor, or any of their consultants, agents, or employees from those set forth in the Contract Documents, nor shall it be effective to assign to City, or City's designated representative, any duty or authority to supervise or direct the furnishing or performance of the Work or any duty or authority to undertake responsibility contrary to other provisions of the Contract Documents.

The Contract Documents are divided into parts, divisions, sections and articles for convenience, organization and reference. Generally, there has been no attempt to divide the Specifications sections into work performed by the various building trades, work by separate Subcontractors, or work required for separate facilities in the project.

2-1.03 **EXAMINATION AND VERIFICATION OF CONTRACT**

DOCUMENTS. The Contractor shall thoroughly examine and become familiar with all of the various parts of the Contract Documents and shall determine the nature and location of the Work, the general and local conditions (including applicable laws) and all other matters which can in any way affect the cost, progress or performance of the Work under this Agreement. Failure to make an examination necessary for this determination shall not release the Contractor from the obligations of the Agreement. No oral agreement or conversation with any officer, or employee

of the City, or with the City's designated representative either before or after the execution of the Agreement, shall affect or modify any of the terms or obligations contained in the Contract Documents.

2-1.04 **CONTRACT DRAWINGS.** The Contract Drawings consist of general drawings and show such plans, elevations, sections, details and schedules as are necessary to give a graphic and pictorial description of the contemplated construction. All authorized alterations affecting the requirements and information given on the Contract Drawings shall be in writing.

2-1.05 **COORDINATION AND INTERPRETATION OF CONTRACT DOCUMENTS.** All Contract Documents are essential parts of the Contract, and a requirement occurring in one is as binding as though occurring in all. They are intended to be complementary, and to describe and provide for a complete Work.

In the event of inconsistencies between requirements contained in different components of the Contract Documents, the precedence of the Contract Documents shall be as follows to resolve conflicts:

1. Change Orders
2. The Contract (including Addenda)
3. The Supplemental Conditions
4. Specifications
5. Contract Drawings
6. The General Conditions

Should it appear that the Work to be done or any of the matters relative thereto are not sufficiently detailed or explained in the Contract Documents, the Contractor shall submit a

Request for Information (“RFI”) to the Director for such further explanations as may be necessary and shall conform to the written explanation given as if part of the Contract Documents. The decisions of the Director shall be final.

Contractor shall anticipate that it will be necessary to prepare and submit RFIs regarding the Contract Documents. The City will respond to each RFI by no later than fourteen (14) Days after receipt of the RFI, unless the RFI is of significant complexity. Furthermore, in the event that there are numerous RFIs pending, Contractor shall cooperate with the City in establishing a priority for responding to the RFIs, and potentially some RFIs may be responded to beyond the fourteen (14) Day period.

Each RFI prepared by Contractor shall be full and complete. Contractor shall prepare RFIs so as to not cause any delay to the progress of the Work and to not cause any impact to Contractor’s labor productivity in the field. Contractor shall not assert any Claims for delay or interference against the City if Contractor fails to timely submit any RFI to the City, after consideration of the response period allowed for by the City.

The response to an RFI shall not, by itself, constitute a writing that authorizes Contractor to perform any Work that causes an adjustment to either the Contract Price or the Contract Time. If Contractor believes that any response to any RFI should constitute a compensable change, Contractor shall provide a Notice of Potential Claim as provided in Section 7-1.03, below. Contractor’s failure to provide the required written notice shall constitute a waiver of the Contractor’s right to seek a compensable change based on the RFI response.

The Contractor shall examine all Contract Documents; shall verify all figures in the Contract Documents before laying out the Work; shall promptly notify the City of all errors, inconsistencies, and/or omissions that it discovers; and, in instances where such non-

conformities are discovered, shall obtain specific instructions in writing from the City before proceeding with the Work. Contractor's performance of any Work affected by such non-conformities prior to the City's decision shall be at the Contractor's risk. Any Work that is customarily provided or that is reasonably inferable shall not relieve the Contractor from performing such work at no additional expense and/or delay, and such Work shall be performed as if fully set forth in the Contract Documents.

2-1.06 **INDEPENDENT CONTRACTOR STATUS.** The Contractor shall independently perform all Work required by the Contract Documents and shall not be considered as an agent or employee of the City, nor shall the Contractor's Subcontractors or employees be considered as subagents of the City.

The Contractor and Contractor's Subcontractors shall be licensed in accordance with the laws of the State of California and as more particularly described in the bidding documents or elsewhere in the Contract Documents.

2-1.07 **ORDER OF WORK.** When required by the Contract Documents, the Contractor shall follow the sequence of operations set forth therein. Full compensation for conforming to such requirements will be considered as included in the prices paid for the various Contract items of work, and no additional compensation will be allowed therefor.

2-1.08 **SUBMITTALS.** It shall be the Contractor's responsibility to timely submit, so as to cause no delay in the Work, all Shop Drawings, descriptive data, manuals, instructions, affidavits, samples for the various trades as required by the Supplemental Conditions and Specifications, and offers of alternatives, if any. Such Submittals shall be checked and coordinated by the Contractor with the Work of other trades involved before they are submitted to the Director for examination.

The Contractor shall deliver at least one (1) electronic copy of the Submittals to the Director, and one (1) hard copy if requested. Work requiring the submittal of working drawings, descriptive data or samples shall not begin prior to approval of said Submittal by the Director.

The time allowed for review of each Submittal will be as indicated in the Supplemental Conditions. Review time will start upon receipt of the Submittal by the Director and will end upon the Director's mailing of the Submittals to the Contractor. Defective, incomplete or partial Submittals will be returned to the Contractor unreviewed.

Submittals shall be made by a letter of transmittal that shall contain a list of all matter submitted and identification of all variations from the Contract Documents contained in the Submittal. The letter and all items accompanying the same shall be fully identified as to project name and location, Contractor's name, district, county, and Contract number, with ample cross-references to the Contract Documents, to facilitate identification of items and their location in the Work.

All Shop Drawings and supporting data, catalogs, schedules, shall be submitted as the instruments of the Contractor, who shall be responsible for their accuracy and completeness. These Submittals may be prepared by the Contractor, Subcontractors, or Suppliers, but the Contractor shall ascertain that Submittals meet all of the requirements of the Contract Documents, while conforming to structural, space, and access conditions at the point of Installation. The Contractor shall check all Submittals before submitting them to the Director.

2-1.08A **SHOP DRAWINGS.** The Contractor shall submit an electronic copy (searchable PDF) of all Shop Drawings required by the Supplemental Conditions or Specifications, and one (1) hard copy, if requested by the Director. Shop Drawings shall also be provided separately in AutoCAD format using the latest version of AutoCAD. An electronic

copy will be returned to the Contractor either approved for use, as demonstrated by a stamp, or returned for correction and resubmittal. Materials, colors and/or samples will not be returned to the Contractor. Shop Drawings include any drawing, which requires execution by a draftsman as distinguished from printed matter. The size of Shop Drawings shall not exceed twenty-four inches (24”) by thirty-six inches (36”).

2-1.08B **DESCRIPTIVE DATA.** The Contractor shall submit an electronic copy (searchable PDF) of each set of manufacturer's brochures or other data required by the Supplemental Conditions or Specifications, and one (1) hard copy, if requested by the Director. The City will examine such Submittals and return either an electronic copy or a hard copy approved for use or returned for correction and resubmittal.

2-1.08C **SAMPLES.** The Contractor shall submit samples of articles, materials or equipment as required by the Supplemental Conditions or Specifications. The Work shall be in accordance with the approved samples. Samples shall be removed from City property when directed or may be incorporated in the Work if approved by the Director. Samples not removed by the Contractor will become the property of the City or, at the City's option, will be removed or disposed of by the City at the Contractor's expense.

2-1.08D **MANUALS, INSTRUCTIONS AND AFFIDAVIT.**

A. **Manuals and Instructions.** Where operation and maintenance manuals are required by the Supplemental Conditions, the Contractor shall submit two (2) sets of manuals, suitably bound, along with two (2) electronic copies in an approved format, to the Director within forty-five (45) Days after favorable review of the equipment or facilities. If operation and maintenance manuals are approved to be provided in PDF format, text shall be provided in searchable PDF format, making proper use of PDF for headings and heading levels,

paragraphs, tables, and lists. Submitted operation and maintenance manuals shall be a collected, organized, and indexed set of bookmarked PDF documents comprising each operation and maintenance manual that corresponds to a hardcopy binder. All manuals shall be marked to indicate the specific equipment furnished for this project and shall include at a minimum:

1. Equipment summary form
2. Cover/Title page
3. Table of contents
4. Operating procedures including start-up, shutdown, normal operation, all operating modes, emergency shutdown, and safety precautions
5. Lubrication instructions (if required)
6. Preventative maintenance procedures
7. Troubleshooting and corrective maintenance procedures
8. Reinstallation instructions
9. Overhaul instructions (if applicable)
10. Parts identification list with exploded view and associated cross references
11. Recommended spare parts list
12. Operator safety requirements
13. Electrical and control system wiring drawings, including panel wiring control (ladder) diagrams, logic diagrams, loop diagrams, and interconnection diagrams
14. Panel layout and assembly drawings

15. Mechanical drawings
16. Printouts of all software programs and configuration files
17. Factory and field test procedures and results

Operation and maintenance manuals for complex equipment shall also include:

18. Alternate specified operating modes
19. Emergency shutdown instructions
20. Normal shutdown instructions
21. Long term shutdown instructions

Operation and maintenance manuals for systems comprised of separate pieces of equipment shall include a system explanation of items 4, 7, 18, 19, 20, and 21 as well as the instructions for the separate pieces of equipment.

B. Affidavits. Where required in the Supplemental Conditions or Specifications, manufacturers of equipment shall provide field service as a part of this project. Equipment shall not be considered ready for full time operation until after the authorized factory-trained and qualified manufacturer's representative for the specific equipment has checked and adjusted the equipment and certified by written affidavit that the equipment has been properly Installed, tested, adjusted, lubricated, and calibrated, and is ready for full time operation. Acceptable affidavits shall be submitted prior to completion of the Work. Affidavits shall contain the following specific wording:

“The (Name of Equipment) has been properly installed, tested, adjusted, lubricated, and calibrated, and is ready for full time operation. The installation has been inspected and has been found to be in conformance with our (the manufacturer's) standards and requirements.”

No amplification, dilution, or modification of this specific wording will be permitted.

2-1.08E **ALTERNATIVES.** For convenience in designation in the Contract Documents, certain materials, articles, or equipment may be designated by a brand or a trade name or the name of the manufacturer together with catalog designation or other identifying information, hereinafter referred to generically as “designated by brand name.” Except in those instances where the product is designated to match others in use in a particular improvement, either completed or in the course of completion, an alternative material, article, or equipment which is of equal quality and of the required characteristics for the purpose intended may be proposed for use provided the Contractor complies with the following requirements:

A. The Contractor shall submit its proposal for an alternative in writing. Such request shall be made in ample time to permit review and approval without delaying the Work. The Contractor shall not be entitled to an adjustment of the Contract Time or an increase in the Contract Price based on any Contractor-proposed substitution.

B. No such proposal will be considered unless accompanied by complete information and descriptive data, necessary to determine the equality of the offered materials. The Contractor shall satisfy the Director as to the comparative quality, suitability, or performance of the offered material, articles, or equipment. In the event that the Director rejects the use of such alternative materials, articles, or equipment, then one of the particular products designated by brand name shall be furnished.

C. The burden of proof as to the quality and suitability of alternatives shall be upon the Contractor and it shall furnish all information necessary as required by the Director. The Director shall be the sole judge as to the quality and suitability of alternative articles or materials and such decisions shall be final. Where use of an alternative material

involves redesign of, or changes to, other parts of the Work, the cost and time required to effect such redesign or changes will be considered in evaluating the suitability of the alternative material. Cost of redesign by the City will be borne by the Contractor.

D. Whenever classification, rating or other certification by a body such as Underwriters Laboratories (UL) or the National Electrical Manufacturers Association (NEMA) is a part of the specification for any material, Contractor's request for use of alternative articles or materials shall be accompanied by reports from the listed or equivalent independent testing Laboratory indicating compliance with the Contract Documents. The cost of all testing required to prove equality of the material proposed shall be borne by the Contractor. Approval of an alternative shall be only for the characteristics or use named in such approval, and shall not be used to change or modify any requirement of the Contract Documents.

E. At its election, the City reserves the right to consider any Contractor proposed substitution as a Cost Reduction Proposal under Section 3-1.07 of these General Conditions in the event that there is a significant savings resulting from the substitution.

The Director will examine, with reasonable promptness, such Submittals, and return of Submittals to the Contractor shall not relieve the Contractor from responsibility for deviations and alternatives from the Contract Documents, nor shall it relieve the Contractor from responsibility for errors in the Submittals. A failure by the Contractor to identify in its letter of transmittal material deviations from the Contract Documents shall void the Submittal and any action taken thereon by the Director. When specifically requested by the Director, the Contractor shall resubmit such Shop Drawings, descriptive data and samples as may be required.

If any mechanical, electrical, structural, or other changes are required for the proper Installation and fit of alternative materials, articles, or equipment, or because of deviations from

the Contract, such changes shall not be made without the approval of the Director and shall be made without additional cost to the City.

2-1.09 **DISPOSAL OF MATERIAL OUTSIDE THE WORK SITE.** Unless otherwise stated elsewhere in the Contract Documents, the Contractor shall, at its own cost and expense, make its own arrangements for disposing of materials outside the Work Site.

Except when material is to be disposed of at a landfill or recycling center, when any material is to be disposed of outside the Work Site, the Contractor shall first obtain written permission from the City to dispose of the material at the intended location. The City's approval will be contingent upon the Contractor obtaining a written permit from the property owner on whose property the disposal is to be made. Prior to the disposal of any material at the intended location, the Contractor shall submit such permit or a certified copy thereof to the City, together with a written release from the property owner absolving the City from any and all responsibility related to the disposal of material on said property.

Disposal of Hazardous Materials must be done in accordance with all laws and regulations. Copies of all required regulatory documentation including copies of final manifests shall be supplied to the City.

2-1.10 **ACCESS TO THE WORK.** The Contractor shall satisfy itself that the jurisdictions through which its operations and haul routes pass will permit such operations with respect to the type of vehicle, laden weights, frequency and dimensions of loads, hours of operation and required traffic control. All necessary permits, licenses or bonds shall be obtained and paid for by the Contractor.

2-1.11 **TEMPORARY UTILITIES.** The Contractor shall make its own arrangements with utility companies for any temporary services it may require in performance of

the Work and shall pay all costs of these services directly to these utility organizations.

2-1.12 **UTILITY FACILITIES.** The Contractor shall protect from damage those utility facilities that are to remain in place, be Installed, relocated or otherwise arranged.

The Contractor's attention is directed to the possible existence of facilities not shown, and of facilities in a location different from that, which is indicated. The Contractor shall take steps to ascertain the exact location of all facilities prior to doing any Work, which may damage such facilities or interfere with their service. Where the location of a facility is indicated or inferred from the presence of visible facilities such as buildings, meters, and junction boxes, the Contractor shall make such excavations and explorations as are necessary to ascertain the correct location. Unless provided for elsewhere in the Contract Documents, the cost of such excavations and explorations will be considered as a part of the cost of other items of Work and no additional payment will be made. Such excavations and exploratory Work shall not entitle the Contractor to an extension of time.

If the Contractor discovers underground facilities not indicated or inferred from the Contract Documents, the Contractor shall immediately give the Director written notification of the existence of those facilities. The Contractor shall determine the exact location of the underground facilities and the cost of the work will be paid for in accordance with the Contract Documents. The underground facilities shall be protected from damage as directed by the Director and the cost of that work will be paid for as extra work. The Contractor shall, if directed by the Director, repair any damage, which may occur to the underground facilities. The cost of that repair work, not due to the failure of the Contractor to exercise reasonable care, will be paid for as extra work. Damage due to the Contractor's failure to exercise reasonable care shall be repaired at the Contractor's cost and expense.

Where it is determined by the City that the rearrangement of an underground facility, the existence of which is not shown on the Contract Drawings, is essential in order to accommodate the Work, the City will provide for the rearrangement of such facility by other forces or, when so ordered by Change Order, such rearrangement shall be performed by the Contractor and will be paid for as provided under a Change Order.

The Contractor shall be responsible for the maintenance of all utility facilities placed by the Contractor in temporary locations, and all utilities within the construction area not required to be relocated but which are required to be shored or supported during the construction period. The cost of such maintenance shall be borne by the Contractor, and no other compensation shall be due the Contractor for this Work.

The cost of providing and maintaining all necessary or required temporary structures, of making any necessary repairs, replacements, or similar operations, or furnishing indemnity or other bonds, if required, and all costs required by this Section shall be paid by the Contractor and shall be included in the prices bid in the schedule for other items of work.

2-1.13 **PRESERVATION AND CLEANING.** The Contractor shall clean up the Work at frequent intervals and at other times when directed by the Director. While finish Work is being accomplished, floors, Work areas and finished areas shall be kept clean, free of dust, construction debris and trash. Upon completion of the Work, the Contractor shall remove from the Premises its construction equipment and any waste materials not previously disposed of, leaving the Premises thoroughly clean and ready for final inspection.

2-1.14 **LIMITATIONS ON WORK SITE AND PREMISES.** The Contractor shall limit its construction operations to the Work Site unless otherwise shown on the Contract Drawings or specified. The Contractor shall perform no operation of any nature over or on the

Premises except such operations as are authorized by the Contract Documents or as authorized by the Director.

2-1.15 **DUST CONTROL.** During the performance of all Work under this Contract, the Contractor shall assume all responsibility for dust control and shall furnish all labor, equipment, and means required to carry out proper and efficient measures wherever and whenever dust control is necessary to prevent the operations from producing dust damage and nuisance to persons and property. Any claims resulting from dust damage or nuisance shall be borne solely by the Contractor. The Contractor shall comply with all applicable Air Quality Act requirements.

2-1.16 **SANITATION.** The Contractor shall provide sanitary facilities for all persons working on the Work.

2-1.17 **NIGHT WORK AND NORMAL WORKING HOURS.** Normal working hours at the construction site shall be between the hours of 7:00 a.m. and 7:00 p.m. Monday through Friday. Legal holidays are excluded. Certain utility connections and street operations are anticipated to require night Work by the Contractor during low usage periods. The Contractor may also be required to prosecute the Work at night if, at any time, the Director shall deem it necessary for the progress of the Work, or if emergencies arise. The Contractor shall promptly comply with any such requirements made in writing by the Director. The Contractor will also be permitted to Work at night if Contractor satisfies the Director of the need therefor, in order to maintain the required progress or protect the Work from the elements. Certain activities are required to be performed at night for nominal progress of the Work and/or are specified to be performed at night by other portions of the Supplemental Conditions. When required, ordered, or permitted to Work at night, the Contractor shall provide sufficient and

satisfactory lighting and other facilities therefor. The Contractor shall receive no extra payment for night Work, if specified or if required to be performed during the normal progress of the Work, but compensation shall be considered as having been included in the price stipulated for the Work.

If Contractor performs work during weekends, holidays or any non-normal work hours, Contractor shall pay for required City Inspectors.

2-1.18 **LINES AND GRADES.** Unless otherwise provided in the Supplemental Conditions, the Contractor shall lay out all Work, including structures and pipelines, and shall be responsible for any errors resulting therefrom. In all questions arising as to proper location of lines and grades, the Director's decision will be final.

As part of the bid price for the construction of the improvements, the Contractor shall provide and be responsible for the layout of all Work on this project. The Contractor shall provide all necessary surveys, field staking, and positioning for the construction of all components at the proper alignment, elevations, grades, and positions, as indicated on the Contract Drawings and as required for the proper operation and function. The Contractor shall stake its Work area limits. Contractor shall perform all construction staking using a land surveyor licensed in the State of California. Contractor shall provide a staking plan prior to commencement of Work for the City's review and maintain monuments, stakes, and marks, and shall update the plan as necessary. Director, or Director's designated representative, may verify the field condition. Errors or inconsistencies in the Contract Documents discovered by the Contractor shall be reported to the Director within twenty-four (24) hours and prior to constructive forms or related improvements. Any work Installed with this requirement shall be subject to removal and replacement at the Contractor's expense.

The Contractor's lay-out shall be based on existing structures, property lines, survey control, and bench marks established by the City. All structures and pipeline connections shall be Installed based on actual elevation of existing structures to which connections are made.

The Contractor shall supply such labor as required, at no extra charge, to aid and assist the Director in checking location and grades of the Work as set by the Contractor if the Director desires to perform this checking. This shall include moving materials and equipment located between monuments and the construction Work.

2-1.19 **ARCHEOLOGICAL DISCOVERIES.** Upon discovery of prehistoric or historic artifacts, or other indicators or examples of cultural resources discovered during the course of site preparation, grading, excavation, construction or other development activities, all operations within fifty feet (50') of the find shall cease until such time as the City provides the services of a qualified archeologist to evaluate the finds and recommend appropriate action.

Prehistoric materials can include flaked stone tools (e.g., projectile points, knives and choppers) or tool making debris of obsidian, chert, quartzite and other materials, culturally darkened soil (i.e., midden, which often contains heat affected rock, ash and charcoal, shellfish remains, and cultural materials), and stone milling equipment such as mortars, pestles and hand stones. Historic material may include wood, stone, concrete or adobe footings, walls and other structural remains; debris filled wells or privies; and deposits of wood, metal, glass, ceramics and other refuse.

2-1.20 **PRESERVATION OF MONUMENTS.** Any monuments or bench marks disturbed by construction operations shall be repaired per the City's standard and promptly re-established by a registered land surveyor or civil engineer. A plat for each monument shall be furnished to the Director after the plat has been recorded with the Placer

County Recorder's Office at no additional cost to the City. The recorded plat shall serve as a record of the re-establishment of said existing survey points.

2-1.21 **CONFORMITY WITH CONTRACT DOCUMENTS.** Work and materials shall conform to the lines, grades, cross sections, dimensions and material requirements, including tolerances, required by the Contract Documents. Although measurement, sampling and testing may be considered evidence as to such conformity, the City shall be the sole judge as to whether the Work or materials deviate from the Contract Documents. At its option, the City may elect to accept deviations from the Contract Documents with appropriate backcharge Assessments against the Contractor, and, if such an election is made, the City will provide written notice to the Contractor of such acceptance.

2-1.22 **FINAL CLEANUP.** Prior to final Acceptance of the Work, the Contractor shall thoroughly clean the Premises, remove all temporary structures built by or for the Contractor, and remove all equipment and surplus construction material and debris from the area. The entire project, before Acceptance by the City, shall be left in a neat and clean condition. All Work areas and temporary construction areas shall be returned to essentially the same conditions existing before the commencing of project construction.

2-1.23 **AS-BUILT DOCUMENTS AND DRAWINGS.** The Contractor shall maintain one set of the full size prints furnished by the City and mark thereon in color any deviations from plan dimensions, elevations, or orientations. Also, the Contractor shall locate on said prints, all underground facilities, such as piping, conduits and tanks by accurate field measurement from structure walls, corners, etc. The Contractor shall submit the prints and an electronic CD (searchable PDF or source file format such as AutoCAD) in good condition to the Director upon completion of the job as a condition of Acceptance of the project. Marked prints

shall be updated at least once each week and shall be available to the Director for review as to currency prior to developing partial payment estimates. After the completion of testing, but prior to Acceptance, the Contractor shall submit As-Built electrical drawings in color and an electronic CD showing all components and their wiring, and as specified in the Supplemental Conditions.

2-1.24 **SUPERINTENDENCE.** The Contractor shall supervise and direct the Work, which shall be performed in accordance with the requirements of the Contract Documents. The Contractor shall be solely responsible for implementation of all construction means, methods, techniques, sequences, and procedures and for coordination of all portions of the Work under the Agreement. The Contractor shall be solely responsible for the safety of its employees, Subcontractors of any tier, Suppliers, visitors to the Contractor, and other third parties associated with the Contractor.

The Contractor shall designate in writing before starting Work, an authorized representative who shall have the authority to represent and act for the Contractor.

When the Contractor is comprised of two (2) or more persons, firms, partnerships, or corporations functioning on a joint venture basis, said Contractor shall designate in writing before starting Work, the name of one authorized representative who shall have the authority to represent and act for the Contractor. Instances of misconduct, contract non-compliance, unsatisfactory performance, or incompetence by these personnel shall be grounds for the City to direct Contractor to dismiss them from the Project. Contractor shall immediately comply with the City's request for dismissal, at no cost to the City, and shall designate a replacement, which shall be subject to approval by the City.

Said authorized representative shall be present at the site of the Work at all times while Work is actually in progress on the Contract. When Work is not in progress and during periods

when Work is suspended, arrangements acceptable to the Director shall be made for any Emergency Work that may be required.

Whenever the Contractor or its authorized representative is not present on any particular part of the Work where it may be desired to give direction, orders will be given by the Director, which shall be received and obeyed by the superintendent or foremen who may have charge of the particular Work in reference to which the orders are given.

Any order given by the Director, not otherwise required by the Supplemental Conditions to be in writing, will on request of the Contractor, be given or confirmed by the Director in writing.

2-1.25 **CHARACTER OF WORKER.** If any Subcontractor or person employed by the Contractor shall appear to the Director to be incompetent or to act in a disorderly or improper manner, he or she shall be removed immediately on the requisition of the Director, and such person shall not again be employed on the Work.

2-1.26 **INSPECTION.** The Contractor shall at all times permit the Director to inspect the Work or any part thereof. The Contractor shall maintain proper facilities and provide safe access for such inspection by the Director to all parts of the Work, and to the shops where the Work is in preparation. Work shall not be covered up until authorized by the Director and the Contractor shall be solely responsible for notifying the Director where and when such Work is in readiness for inspection and testing. Should any such Work be covered without authorization, it shall, if so ordered, be uncovered at the Contractor's expense.

Unless otherwise designated as normal working hours, whenever the Contractor intends to perform Work on Saturday, Sunday, or a Legal Holiday, the Contractor shall give notice to the Director of such intention forty-eight (48) hours prior to performing such Work, or such longer

period as may be specified so that the Director may make necessary arrangements.

The observation and/or approval of the workmanship or materials by the City shall not relieve the Contractor of any obligations to fulfill the requirements of the Contract Documents. Workmanship and materials not meeting such requirements shall be corrected and unsuitable Work or material may be rejected, notwithstanding that such Work or materials have been previously observed and/or approved by the City, or payment therefor has been included in a progress estimate.

The City may order re-examination of questioned Work at any time before final Acceptance. If so ordered, the Contractor shall uncover the Work. If such work is found to be in accordance with the Contract Documents, the City will pay for the cost of uncovering, removing, recovering and replacing the parts removed; but if such Work so exposed or examined is not in accordance with the Contract Documents, the uncovering, removal, recovering and replacement shall be at the Contractor's expense. Work that has been covered prior to observation by the City does not qualify as re-examined work; the City may order such work uncovered for observation without payment of any costs.

2-1.27 **REMOVAL OF REJECTED AND UNAUTHORIZED WORK.** All Work which has been rejected shall be remedied, or removed and replaced by the Contractor in a manner acceptable to the Director and no compensation will be allowed the Contractor for such removal, replacement, or remedial Work.

Any Work done beyond the lines shown on the Contract Drawings or established by the Director, or any Work done without written authority will be considered as unauthorized Work and will not be paid for. Upon order of the Director, unauthorized Work shall be remedied, removed, or replaced at the Contractor's expense.

Upon failure of the Contractor to comply promptly with any order of the Director made under this section, the Director may cause rejected or unauthorized Work to be remedied, removed, or replaced, and the costs thereof will be deducted from any moneys due or to become due the Contractor.

SECTION 3

CHANGES IN THE WORK

3-1.01 **CHANGES.** The Director, without invalidating this Agreement and without notice to Contractor's surety, may order changes in the Work, consisting of additions or deletions, or other revisions. The Contract Price and the Contract Time shall be adjusted accordingly. All such changes in the Work, including in the Contract Price and the Contract Time, shall be authorized only by Contract Change Order, signed by the Director.

If Contractor claims that performance of any work entitles it to additional compensation or to an extension of time for performance of the Work, Contractor shall provide written notice to the City of any such claim prior to undertaking such work. Contractor shall provide written notice of any anticipated impacts to the Contract Price or Contract Time within three (3) Days of discovering such impact, by submitting a Notice of Potential Claim described in Section 7-1.03 below, or notice of delay as described in Section 6-1.09 below. If the Director refuses to issue a Change Order for such work, Contractor shall perform that work if directed or obligated to do so and shall submit a complete and specific Claim for additional compensation and/or extension of time for performance within fifteen (15) Days after such work is performed, as described in Section 7-1.03 below. Failure to provide written notice of claims prior to undertaking such work, failure to provide a timely Notice of Potential Claim, or failure to submit timely a complete and specific Claim for additional compensation and/or extension of the time for performance, shall be deemed a waiver and abandonment of any such Claim. No Claim, dispute or controversy shall interfere with the progress or performance of the Work and the Contractor shall proceed with the Work as directed by the Director. Failure to so proceed shall amount to a

default under this Agreement.

3-1.02 **PROPOSED CHANGE ORDERS.** The Contractor will be notified in writing of a proposed Change Order describing the intended change. Within fifteen (15) Days after receipt of a written request, the Contractor shall submit its proposed price to be added or deducted from the Contract Price due to the change and its estimate of the extent of the adjustment in the Contract Time, if any. The Contractor's proposed price to be added to or deducted from the Contract Price shall be supported by a detailed estimate of cost prepared by the Contractor, vendor or Supplier. The Contractor's proposed price submittal shall be accompanied by a statement of the time necessary for the changed Work, together with a description of how this time will be incorporated into the current Construction Schedule. The Contractor shall upon request by the Director permit inspection of its original Contract estimate, subcontract agreements or purchase orders relating to the change.

If agreement is reached on the adjustment in compensation as provided in Section 3-1.05, "Contract Price Adjustment," of these General Conditions, the Contractor shall proceed with the Work as changed at the agreed price.

If the Contractor and the Director fail to agree as to the adjustment in compensation for the performance of the changed Work, the Contractor, upon written order from the Director, shall proceed immediately with the changed Work and the Contract Price shall be adjusted in accordance with Section 3-1.06, "Force Account Payment," of these General Conditions.

If the Contractor fails to submit its cost estimate within such fifteen (15) Day period, the Contractor shall commence the Work as changed immediately upon receipt of written order of the Director, and the Contract Price will be adjusted in accordance with the Director's cost estimate for the changed Work.

EMERGENCY AND INDETERMINATE TYPE CHANGE

ORDERS. Changes in the Work made necessary by an Emergency, as determined by the Director, or changes of a kind where the extent of the Work cannot be determined until completed, may be authorized by the Director in writing. The Change Order shall state that it is issued pursuant to this Section 3-1.03. Upon receipt of an authorized Change Order or other written order of the Director, the Contractor shall proceed with the ordered Work and the Director will maintain a daily job record containing a detailed summary of all labor, materials and equipment required for the changed Work.

Within fifteen (15) Days after receiving a written request, the Contractor shall submit a detailed estimate of cost for the change and any requested change in Contract Time in the same manner as required for proposed Change Orders in Section 3-1.02 of these General Conditions.

3-1.04 **EXECUTED CHANGE ORDER.** A Contract Change Order signed by both the Director and the Contractor is an “executed Contract Change Order.” By signing the Contract Change Order, the Contractor agrees that the specified compensation constitutes full compensation for the changed Work, including payment for interruption, disruption, acceleration, extended Overhead, delay or any other “impact” claim or “ripple effect” claim. The Contractor specifically understands and agrees that its execution of the Contract Change Order shall constitute a waiver of any right for the Contractor to claim any additional compensation with respect to the subject matter of the Contract Change Order.

3-1.05 **CONTRACT PRICE ADJUSTMENT.** If a Contract Change Order provides for an adjustment to the Contract Price, the amount of such adjustment shall be determined by one of the following methods, or a combination thereof, as determined by the City and in its sole discretion:

A. Lump sum. The Contractor and the City may agree on a lump sum amount for the Change Order. At the City's request, the Contractor will provide pricing for the work. Maximum markups for Contract Change Orders paid for using lump sum pricing shall be paid for in the same manner and in the same amounts as markups for Force Account work, as described in Section 3-1.06 below.

B. Unit Prices. The unit prices set forth in the Contractor's Schedule of Bid Prices will be utilized where they are applicable and acceptable to the City. The Contractor's unit prices shall remain firm and shall not be subject to adjustment unless and until the actual quantity of work is increased or decreased by Contract Change Order in an amount greater than twenty-five percent (25%) from the estimated quantity indicated for such item. No markups will be given for Contract Change Orders paid for using unit prices.

Unit prices for new items included in the Contract Change Order but not included in the original bid shall be as mutually agreed upon or, in the absence of agreement, as determined by the City in the same manner as if the work were to be paid for on a Force Account basis, as described in Section 3-1.06 below.

C. Force Account. Where the City and the Contractor are unable to agree on lump sum pricing and if the City does not elect to utilize the unit prices in Contractor's bid, or such unit prices are not applicable, the changed work will be performed and tracked by the Contractor as Force Account work, as described in Section 3-1.06 below. The City will pay for such work, including markups, properly attributable to the change in accordance with those Force Account provisions.

D. Eliminated Items. The City reserves the right to delete any bid item of Work in its entirety. The City makes no representation that any work under a bid item of Work

will be performed, and all work may be subject to a Contract Change Order that deletes such work. Bid items are distinct and severable from the other bid items, and the Contractor shall not be entitled to any anticipated profit, unabsorbed Overhead, or other indirect expense attributable to the deleted item, except as provided immediately below with regard to Force Account mark-ups on the direct and verifiable costs incurred prior to the City's order that deletes the work.

Should any bid item of Work be eliminated in its entirety and not accounted for as described immediately above and, in the absence of an executed Contract Change Order covering such elimination, payment will be made to the Contractor for actual direct and verifiable costs incurred in connection with such eliminated bid item if incurred prior to the date of notification in writing by the City of such elimination. If acceptable material is ordered by the Contractor for the eliminated item prior to the date of notification of such elimination by the City, and if orders for such material cannot be canceled, it will be paid for at the actual direct and verifiable cost to the Contractor. Actual direct costs shall include documented vendor shipping fees, Supplier restocking fees, if applicable, and Contractor handling costs directly related to the eliminated item(s). In such case, the material paid for shall become the property of the City and the actual cost of any further handling will be paid for by the City. If the material is returnable to the vendor and if the City so directs, the material shall be returned and the Contractor will be paid for the actual direct cost of charges made by the vendor for returning the material. The actual direct cost of handling returned materials will also be paid for by the City. The actual direct and verifiable costs to be paid by the City as provided herein will be computed in the same manner as if the work were to be paid for on a Force Account basis, including the application of Force Account mark-ups to said costs.

3-1.06 **FORCE ACCOUNT PAYMENT.** When Work performed pursuant to a

Change Order is to be paid for on a Force Account basis, the Contractor's labor, materials and equipment used in the performance of such Work shall be subject to the approval of the City, and the compensation will be determined as set forth below in this section.

3-1.06A **LABOR.** The Contractor will be paid an amount based on the actual cost for the workers (including foremen when authorized by the Director) used in the actual and direct performance of the Work. All labor costs associated with Overhead, whether field or home office, are specifically excluded herein, as those labor costs are covered by the below mark-ups. The cost of labor, whether the employer is the Contractor, Subcontractor or other forces, shall include employer payments; assessment of benefits required by lawful labor union collective bargaining agreements; compensation insurance payments; contributions made to the State pursuant to the Unemployment Insurance Code; and for taxes paid to the Federal Government pursuant to the Social Security Act of August 14, 1935, as amended. No labor cost will be recognized at a rate in excess of the wages prevailing in the locality at the time the Work is performed, nor will the use of a labor classification, which would increase the cost, be permitted unless the Contractor establishes to the complete satisfaction of the Director the necessity for payment at a higher rate.

3-1.06B **MATERIALS.** Only materials furnished by the Contractor and necessarily used in the performance of the Work will be paid for. Such cost of materials may include the costs of procurement, transportation and delivery if necessarily incurred. If a cash or trade discount by the actual supplier is available to the Contractor, it shall be credited to the City. If materials are procured by the purchaser by any method which is not a direct purchase from and a direct billing by the actual supplier to such purchaser, the cost of such materials shall be deemed to be the price paid to the actual supplier plus the actual costs, if any, incurred in the

handling of such materials. If the materials are obtained from a supply or source owned wholly or in part by the purchaser, the cost of such materials shall not exceed the price paid by the purchaser for similar materials furnished from said source on Bid items or the current wholesale price for such materials delivered to the job site, less any discounts as provided herein, whichever is lower. If, in the opinion of the Director, the cost of materials is excessive, or if the Contractor fails to furnish satisfactory evidence of the cost to it from the actual supplier within sixty (60) Days after the date of delivery of the materials or within fifteen (15) Days after Acceptance of the Agreement, whichever occurs first, the cost of the materials shall be deemed to be the lowest current wholesale price at which similar materials are available in the quantities required, less any discounts provided herein. The Department reserves the right to furnish such materials required by the Change Order as it deems advisable, and the Contractor shall have no claim for cost or markups on material furnished by the Department.

3-1.06C **EQUIPMENT.** The Contractor will be paid an amount based on the actual cost for the use of equipment directly required and approved by the Director in the performance of the changed Work. No payment will be made for time while equipment is inoperative due to breakdowns or on Days when no Work is performed. In addition, the rental time shall include the time required to move the equipment to the Work from the nearest available source of such equipment, and to return it to the source. If such equipment is not moved by its own power, then loading and transportation costs will be paid. Moving time, loading and transportation costs will only be paid if the equipment is used exclusively on the changed Work during the time between move in and move out. Individual pieces of equipment having a replacement value of One Thousand Dollars (\$1000) or less shall be considered to be tools or small equipment, and no payment will be made therefore. For equipment owned,

furnished, or rented by the Contractor, no cost therefore shall be recognized in excess of the equipment rental rates published by Caltrans at the following website address:

<http://www.dot.ca.gov/hq/construc/equipmnt.html>. Equipment located at a Work Site and utilized on non-Force Account work shall not be eligible for standby payment, and shall be charged on a Force Account basis only when solely performing pre-approved Force Account work tasks.

3-1.06D **MARKUPS.** When a Change Order increases the cost of the Work, the Contractor may add the following maximum markups to its actual costs of labor, materials, or equipment rental:

15 percent for labor;

10 percent for materials; and

5 percent for equipment rental.

The above markups include full compensation, covering the costs of all supervision, bonds, profit, Overhead, and other general expenses not specifically designated as a direct cost in Sections 3-1.06A through 3-1.06C above. The total payment (i.e., direct cost plus applicable markups) shall be deemed to be the actual cost of such work and shall constitute full compensation therefor. The Contractor specifically understands and agrees that such payment shall include any Contractor costs for interruption, disruption, and acceleration, extended Overhead, Change Order management, delay or other “impact” claim or “ripple effect” claim.

When work paid for on a Force Account basis is performed by forces other than the Contractor’s own forces, the maximum allowable mark-ups for the Subcontractors’ costs shall be fifteen percent (15%) for the cost of labor, ten percent (10%) for the cost of materials, and five percent (5%) for the cost of rented equipment. In these situations where the work is being performed by Subcontractors, the Contractor will only be entitled to an additional five percent

(5%) mark-up and will not be entitled to receive the additional mark-ups specified in this section.

When a Change Order decreases the cost of the Work, the reduction in cost shall include a five percent (5%) markup on the estimated cost for furnishing the labor, materials and equipment, which would have been used on such Work, had the Change Order not been issued.

When a Change Order involves both added Work and deleted Work, the markup or markups to be used shall be as follows:

The actual costs of labor, materials, and equipment rental for added and deleted Work shall be calculated separately without adding markups. If the difference between the calculated costs for labor results in an increased cost, a markup of fifteen percent (15%) shall be applied to the increased cost. If the difference between the calculated costs of materials or equipment rental results in an increased cost, a markup of ten percent (10%) and five percent (5%) respectively, shall be applied to the increased costs of materials or equipment rental, as the case may be. If the difference between the calculated costs for labor, materials or equipment rental results in a decreased cost, a markup of five percent (5%) shall be applied to the decreased costs of labor, materials or equipment rental, as the case may be.

Contractor shall not add mark-ups on work performed and billed by City staff nor add mark-ups to successive iterations of proposed Change Order cost proposals returned to Contractor by the City due to incomplete or inaccurate information being originally submitted by the Contractor. If the Contract Price increases by the issuance of Change Orders, the penal amounts of the bonds required shall increase accordingly.

3-1.06E **RECORDS.** The Contractor shall maintain its records in such a manner as to provide a clear distinction between the direct costs of extra work paid for on a Force Account basis and the costs of other operations.

From the above records, the Contractor shall furnish the City completed daily extra work reports, on forms acceptable to the City, for each Day's extra work to be paid for on a Force Account basis. The daily extra work reports shall itemize the materials used, and shall cover the direct cost of labor and the charges for equipment rental, whether furnished by the Contractor, Subcontractor, or other forces. The daily extra work reports shall provide names and identifications and classifications of workers, the hourly rate of pay and hours worked, and also the size, type, and identification number of equipment, and hours operated. Daily extra work and Force Account reports (actual or claimed) shall be signed by both the City's and the Contractor's representatives within twenty-four (24) hours of the performance of the work.

Valid copies of vendor's invoices shall substantiate material charges. Such invoices shall be submitted with the daily extra work reports, or if not available, they shall be submitted with subsequent daily extra work reports. Should said vendor's invoices not be submitted within sixty (60) Days after the date of delivery of the material or within fifteen (15) Days after the Acceptance of the Agreement, whichever occurs first, the City reserves the right to establish the cost of such materials at the lowest current wholesale prices at which said materials were available in the quantities, less any discounts.

The City will compare its records with the completed daily extra work reports furnished by the Contractor and make any necessary adjustments. When these daily extra work reports are agreed upon and signed by both parties, said reports shall become the basis of payment for the work performed, but shall not preclude subsequent adjustment based on a later audit by the City.

The Contractor's cost records pertaining to Work paid for on a Force Account basis shall be open to inspection or audit by representatives of the City during the life of the Agreement and for a period of not less than three (3) years after the date of Agreement completion and the

Contractor shall retain such records for that period. Where payment for materials or labor is based on the cost thereof to forces other than the Contractor, the Contractor shall make every reasonable effort to insure that the cost records of such other forces will be open to inspection and audit by representatives of the City on the same terms and conditions as the cost records of the Contractor. If an audit is to be commenced more than sixty (60) Days after the date of Acceptance of the Agreement, the Contractor will be given fifteen (15) Days' notice of the time when such audit is to begin.

3-1.07 **COST REDUCTION PROPOSALS.** The City encourages the Contractor to submit Cost Reduction Proposals whenever the Contractor identifies areas and/or instances in which there can be savings to the Work. Contractor may submit to the City, in writing, proposals for modifying the plans, Specifications or other requirements of the Agreement for the sole purpose of reducing the total cost of construction, including the time for completion of the Work. The City may consider such Cost Reduction Proposals and, if accepted, the Agreement will be equitably adjusted. The City has no obligation to consider or accept Cost Reduction Proposals.

SECTION 4

CONTROL OF MATERIALS

4-1.01 **MATERIALS.** The Contractor shall furnish all materials required to complete the Work, except materials that are designated in the Supplemental Conditions to be furnished by the City and materials furnished by the City in accordance with Section 3, “Changes in the Work,” of these General Conditions.

Unless otherwise specified in the Supplemental Conditions, materials furnished by the Contractor for incorporation into the Work shall be new. When the quality or kind of materials, articles, or equipment is not particularly indicated, then the quality or kind thereof shall be similar to those that are indicated.

Articles or materials to be incorporated in the Work shall be stored in such a manner as to insure the preservation of their quality and fitness for the Work, and to facilitate inspection.

All materials which do not conform to the requirements of the Contract Documents as determined by the Director, will be rejected whether in place or not. Rejected material shall be removed immediately from the site of the Work, unless otherwise permitted by the Director. No rejected material, the defects of which have been subsequently corrected, shall be used in the Work, unless approval in writing has been given by the Director. Upon failure of the Contractor to comply promptly with any order of the Director made under these provisions, the Director shall have the authority to cause the removal and replacement of rejected material and to deduct the cost thereof from any moneys due or to become due the Contractor.

Manufacturer's warranties, guaranties, instruction sheets and parts lists, which are furnished with certain materials incorporated in the Work, shall be delivered to the Director

before Acceptance of the Contract.

Unless otherwise designated in the Supplemental Conditions or Specifications, materials furnished by the City will be delivered to the job site. Materials furnished by the City that are designated in the Supplemental Conditions as available at locations other than the job site shall be hauled to the site of the Work by the Contractor at its expense, including any necessary loading and unloading that may be involved.

The Contractor will be held responsible for all materials furnished to it, and shall pay all demurrage and storage charges. City-furnished materials lost or damaged from any cause whatsoever shall be replaced by the Contractor. The Contractor will be liable to the Department for the cost of replacing City-furnished material and such costs may be deducted from any moneys due or to become due the Contractor.

4-1.02 **PRODUCT AND REFERENCE STANDARDS.** When descriptive catalog designations, including manufacturer's name, product brand name, or model number are referred to in the Contract Documents, such designations shall be considered as being those found in industry publications in effect on the day the Notice to Contractors for the Work is dated, except as may be otherwise stated.

When standards or test designations of the Federal Government, trade societies, or trade associations are referred to in the Contract Documents by specific date of issue, these shall be considered as part of the Contract. When such references do not bear a date of issue, the edition in effect on the day the Notice to Contractors for the Work is dated shall be considered as part of the Contract.

4-1.03 **SAMPLING AND TESTING OF MATERIALS.** Unless otherwise specified, all tests shall be performed in accordance with the methods used by the State

Department of Transportation (Caltrans) and shall be made by the Director or his or her designated representative.

The State Department of Transportation has developed test methods for testing the quality of materials and Work. These test methods are identified by a California Test followed by the serial number. Copies of individual tests are available at the State Department of Transportation Laboratory, Sacramento, California, and will be furnished to interested persons upon request.

Whenever a reference is made in the Supplemental Conditions to a California Test by number, it shall mean the California test in effect on the day the Notice to Contractors for the Work is dated.

Whenever the Supplemental Conditions provide an option between two (2) or more test methods, the Director will determine the test method to be used.

Whenever a Supplemental Condition, manual, or test designation provides for test reports (such as certified mill test reports) from the manufacturer, copies of such reports, identified as to the lot of material, shall be furnished to the Director. The manufacturer's test reports shall supplement the inspection, sampling and testing provisions of this Section 4-1.03 and shall not constitute a waiver of the City's right to inspect. When material which cannot be identified with specific test reports is proposed for use, the Director may at his or her discretion, select random samples from the lot for testing. Testing specimens from the random samples, including those required for retest, shall be prepared in accordance with the referenced Supplemental Conditions and furnished by the Contractor at its expense. The number of such samples and test specimens shall be entirely at the discretion of the Director.

When requested by the Director, the Contractor shall furnish, without charge, samples of

all material entering into the Work, and no material shall be used prior to approval by the Director, except as provided in Section 4-1.04, "Certificates of Compliance," of these General Conditions.

A. Inspection and Access for Testing. The Contractor shall provide safe access for the Director and his or her inspectors to adequately inspect the quality of Work and conformance with the General and Supplemental Conditions. The Contractor shall provide adequate lighting, ventilation, ladders and other protective facilities as may be necessary for the safe performance of inspections.

The Contractor shall submit samples or specimens of such materials to be furnished or used in the Work as the Director may require. The Contractor shall furnish the Director all necessary labor and facilities for such things as excavation in the compacted fill to depths required to take samples.

Inspections, tests, or favorable review by the Director or others shall not relieve the Contractor from its obligations to perform the Work in accordance with the requirements of the Contract Documents.

Work covered without the favorable review or consent of the Director shall, if required by the Director, be uncovered for examination at the Contractor's expense.

If the Engineer, Architect, or Director considers it necessary or advisable that covered Work be inspected or tested by others, the Contractor, at the Director's request, will uncover, expose or otherwise make available for observation, inspection or testing as the Director may require, that portion of the Work in question, furnishing all necessary labor, materials, tools, and equipment. If it is found that such Work is defective, the Contractor will bear all the expenses of such uncovering, exposure, observation, inspection and testing and of

satisfactory reconstruction. If, however, such Work is not found to be defective and the Work was not covered without favorable review of the Director, the Contractor will be allowed an increase in the Contract Price or an extension of the Contract Time, or both, to cover its costs directly attributable to such uncovering, exposure, observation, inspection, testing, and reconstruction and an appropriate Change Order shall be issued.

Whenever the Contractor varies the period during which Work is carried on each Day, the Contractor shall give due notice to the Director so that proper inspection may be provided. Any Work done in the absence of the Director may be subject to rejection. Proper facilities for safe access for inspection to all parts of the Work shall at all times be maintained for the necessary use of the Director and other agents of the City. Authorized representatives and agents of the Director shall be permitted access to inspect all Work and materials wherever it is required for preparation of progress reports, and the Contractor shall provide proper facilities for such access and inspection.

It is the Contractor's responsibility to supervise the Work and complete the project in accordance with the Contract Documents. In the course of managing that effort, the Contractor shall generate its own punch lists as deemed necessary. The Director may prepare punch lists for the Director's own use in communicating with the Contractor; however, the Director shall be under no obligation to prepare punch lists for the Contractor. In general, the Director will prepare punch lists only after the Contractor has given the Director written notice that the subject Work is completed and tested in accordance with the Contract Documents and is ready for operation and/or use and/or occupancy. Failure of the Director to include an item in a punch list shall not relieve the Contractor of its duty to satisfactorily complete all Work required by the Contract Documents.

Upon Final Completion of the construction Work and request by the Contractor, the Director will conduct a final inspection as a basis for recommending to the City that the Work be accepted.

B. Field and Materials Testing. Where the Supplemental Conditions require Work to be specially field tested or approved, it shall be tested only in the presence of the Director after timely notice of its readiness for inspection and test, and the Work after testing shall be covered up only upon the consent thereto of the Director.

The results of any tests made are for the information of the Director. Regardless of any test results, the Contractor is solely responsible for the quality of workmanship and materials and for compliance with the requirements of the Contract Drawings and Supplemental Conditions.

Except as specifically required under the Supplemental Conditions, all tests by the Director of materials furnished by the Contractor will be done in accordance with commonly recognized standards of national organizations. The Contractor shall furnish such samples of all materials as required by the Director without charge. No material shall be used unless it has been favorably reviewed by the Director.

Where such inspection and testing are to be conducted by an independent Laboratory or agency, the sample or samples of materials to be tested shall be selected by such Laboratory or agency, or the Director, and not by the Contractor.

C. Costs of Testing.

1. Initial Services: The City shall furnish and pay for all initial testing services required by the Contract Documents. When initial tests indicate non-compliance with the Contract Documents, the cost of initial tests associated with that non-compliance will be

deducted by the City from the balance owed the Contractor. The Contractor shall furnish samples of materials for testing as may be required by the Director. Such samples shall be furnished without cost to the City.

2. Retesting: When initial tests indicate non-compliance with the Contract Documents, all subsequent retesting occasioned by the non-compliance shall be performed by the same testing Laboratory and the cost thereof will be deducted by the City from the balance owed the Contractor. Contractor shall be billed for each additional test.

3. Contractor Convenience Testing: Inspection or testing performed exclusively for the Contractor's convenience shall be the sole responsibility of the Contractor.

4. Additional Tests and Inspections: When in the opinion of the Director additional tests or inspections are required because of the manner in which the Contractor executes its Work, such tests and inspections shall be paid for by the City, but will be deducted from the Contract Price. Examples of such tests and inspections are tests of materials substituted for previously accepted materials or substituted for specified materials, retests made necessary by failure of material to comply with the requirements of the Specifications, load tests made necessary because of portions of the structure not fully meeting Specifications or plan requirements, etc.

4-1.04 **CERTIFICATES OF COMPLIANCE.** A Certificate of Compliance shall be furnished prior to the use of any materials for which the Supplemental Conditions require that such a Certificate be furnished. In addition, the Director may permit the use of certain materials or assemblies prior to sampling and testing if accompanied by a Certificate of Compliance. The Certificate shall be signed by the manufacturer of the material or the manufacturer of assembled materials and shall state that the materials involved comply in all

respects with the requirements of the Supplemental Conditions. A Certificate of Compliance shall be furnished with each lot of such materials delivered to the Work and the lot so certified shall be clearly identified in the Certificate.

All materials used on the basis of a Certificate of Compliance may be sampled and tested at any time. The fact that material is used on the basis of a Certificate of Compliance shall not relieve the Contractor of responsibility for incorporating material in the Work which conforms to the requirements of the Contract Documents and any such material not conforming to such requirements will be subject to rejection whether in place or not.

The Department reserves the right to refuse to permit the use of material on the basis of a Certificate of Compliance.

The form of the Certificate of Compliance and its disposition shall be as directed by the Director.

SECTION 5

LEGAL RELATIONS AND RESPONSIBILITY

5-1.01 **LAWS TO BE OBSERVED.** The Contractor shall keep informed of and observe, and comply with and cause all of its agents and employees to observe and comply with, all prevailing Federal and State laws, and rules and regulations made pursuant to said Federal and State laws, and county and municipal ordinances, and regulations, which in any way affect the conduct of the Contract. If any conflict arises between provisions of the Contract and any such law above referred to, the Contractor shall notify the Director at once in writing. To the fullest extent allowed by law, the Contractor shall defend, indemnify, and save and hold harmless the City or any of its officers, agents, employees, and volunteers against any claim or liability arising from or based on the violation of any such law, rule, or regulation, whether by itself or its agents or employees.

5-1.02 **HOURS OF LABOR.** Eight (8) hours labor constitutes a legal Day's work. The Contractor or Subcontractor shall, as a penalty to City, forfeit Twenty-five Dollars (\$25) for each worker employed in the execution of the contract by the respective Contractor or Subcontractor for each calendar day during which such worker is required or permitted to work more than eight (8) hours in any one (1) calendar day and forty (40) hours in any one (1) calendar week in violation of the provisions of the Labor Code, and in particular, Section 1810 to Section 1815, thereof, inclusive, except that Work performed by employees of Contractors in excess of eight (8) hours per day, and forty (40) hours during any one (1) week, shall be permitted upon public work upon compensation for all hours worked in excess of eight (8) hours per day at not less than one and one-half (1-1/2) times the basic rate of pay, as provided in said

Section 1815. In addition, Contractor and/or its Subcontractors may be required to pay double the basic rate of pay for all hours worked in excess of twelve (12) hours in any workday and under other circumstances. (See California Code of Regulations, Title 8, Sections 16100(c)(6) and (16200(a)(3)(F) and applicable Department of Industrial Relations prevailing wage determinations.)

5-1.03 **NONDISCRIMINATION.**

A. Attention is directed to Labor Code Section 1735, which reads as follows:

“A contractor shall not discriminate in the employment of persons upon public works on any basis listed in subdivision (a) of Section 12940 of the Government Code, as those bases are defined in Sections 12926 and 12926.1 of the Government Code, except as otherwise provided in Section 12940 of the Government Code. Every Contractor for public works who violates this section is subject to all the penalties imposed for a violation of this chapter.”

B. During the performance of this Contract, Contractor and its Subcontractors shall not unlawfully discriminate against any employee or applicant for employment because of race, religious creed, color, national origin, ancestry, physical disability, mental disability, medical condition, genetic information, marital status, sex, gender, gender identity, gender expression, age, sexual orientation, or military and veteran status. The Contractor and Subcontractors shall insure that the evaluation and treatment of their employees and applicants for employment are free of such discrimination. The Contractor and Subcontractors shall comply with the provisions of the California Fair Employment and Housing Act (Government Code §12900, et seq.) and the applicable regulations promulgated thereunder (California Code of Regulations, Title 2, §7285.0 et seq.) and other applicable State and Federal regulations and City

policies pertaining to nondiscrimination and affirmative action which are incorporated into this Agreement by reference and made a part hereof as if set forth in full. The Contractor and its Subcontractors shall give written notice of their obligations under this clause to labor organizations with which they have a collective bargaining or other agreement.

C. Contractor shall include the nondiscrimination and compliance provisions of this clause in all subcontracts to perform Work under the agreement.

5-1.04 **PREVAILING WAGE.** The Contractor and any Subcontractor shall comply with Labor Code Sections 1770 et seq. In accordance with said Section 1775 the Contractor and any Subcontractor under the Contractor shall, as a penalty, forfeit to the state or City not more than \$200 for each calendar day or portion thereof, for each worker paid less than the prevailing rate as determined by the Director of Industrial Relations for the work or craft in which such worker is employed for under the Contract by the Contractor or by any Subcontractor under the Contractor.

The amount of the penalty shall be determined by the Labor Commissioner based on consideration of both of the following: (a) whether the failure to pay the correct rate of per diem wages was a good-faith mistake and, if so, whether the error was promptly and voluntarily corrected when brought to the attention of the Contractor or Subcontractor; and (b) whether the Contractor or Subcontractor has a prior record of failing to meet its prevailing wage obligations.

The penalty may not be less than forty dollars (\$40) for each calendar day, or portion thereof, for each worker paid less than the prevailing wage rate, unless the failure of the Contractor or Subcontractor to pay the correct rate of per diem wages was a good faith mistake and, if so, the error was promptly and voluntarily corrected when brought to the attention of the Contractor or Subcontractor.

The penalty may not be less than eighty dollars (\$80) for each calendar day, or portion thereof, for each worker paid less than the prevailing wage rate, if the Contractor or Subcontractor has been assessed penalties within the previous three (3) years for failing to meet its prevailing wage obligations on a separate contract, unless those penalties were subsequently withdrawn or overturned.

The penalty may not be less than one hundred twenty dollars (\$120) for each calendar day, or portion thereof, for each worker paid less than the prevailing wage rate, if the Labor Commissioner determines that the violation was willful, as defined in subdivision (c) of Section 1777.1 of the Labor Code.

If the amount due under this section is collected from the Contractor or Subcontractor, any outstanding wage claim under Chapter 1 (commencing with Section 1720) of Part 7 of Division 2 of the Labor Code against the Contractor or Subcontractor shall be satisfied before applying that amount to the penalty imposed on that Contractor or Subcontractor pursuant to this section.

The determination of the Labor Commissioner as to the amount of the penalty shall be reviewable only for an abuse of discretion.

In addition to said penalty, the difference between such stipulated prevailing wage rates and the amount paid to each worker for each calendar day or portion thereof for which each worker was paid less than the stipulated prevailing wage shall be paid to each worker by the Contractor or Subcontractor.

If a worker employed by a Subcontractor on a public works project is not paid the general prevailing per diem wages by the Subcontractor, the Contractor is not liable for any penalties described above unless the Contractor had knowledge of that failure of the Subcontractor to pay

the specified prevailing rate of wages to those workers or unless the Contractor fails to comply with all of the following requirements:

1. The contract executed between the Contractor and the Subcontractor for the performance of work on the public works project shall include a copy of the provisions of Sections 1771, 1776, 177.5, 1813, and 1815 of the Labor Code.
2. The Contractor shall monitor the payment of the specified general prevailing rate of per diem wages by the Subcontractor to the employees, by periodic review of the certified payroll records of the Subcontractor.
3. Upon become aware of the Subcontractor's failure to pay its workers the specified prevailing rate of wages, the Contractor shall diligently take corrective action to halt or rectify the failure, including, but not limited to, retaining sufficient funds due the Subcontractor for work performed on the public works project.
4. Prior to making final payment to the Subcontractor for work performed on the public works project, the Contractor shall obtain an affidavit signed under penalty of perjury from the Subcontractor that the Subcontractor has paid the specified general prevailing rate of per diem wages to its employees on the public works project and any amount due pursuant to 1813 of the Labor Code.

Pursuant to Section 1775 of the Labor Code, the Division of Labor Standards Enforcement shall notify the Contractor on a public works project within fifteen (15) Days of the receipt by the Division of Labor Standards Enforcement of a complaint of the failure of a Subcontractor on that public works project to pay workers the general prevailing rate per diem wages.

Pursuant to the provisions of California Labor Code Section 1773, the City has obtained

the general prevailing rate of wages applicable to the categories of workers the City anticipates will be utilized for this project for straight time, overtime, Saturday, Sunday, and holiday Work. The holiday wage rate listed shall be applicable to all holidays recognized in the collective bargaining agreement of the particular craft, classification or type of worker concerned or, if no collective bargaining applies, those holidays identified in Government Code Section 6700. These wage rates may be obtained from the State Department of Industrial Relations and/or the following website address: <http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm>, which is incorporated herein as a part of this Contract.

Pursuant to Labor Code Section 1773.2, the general prevailing wage rates set forth above, which forms a part of this Contract, shall be posted by the Contractor at a prominent place at the site of the Work.

Pursuant to Labor Code Section 1773.6 and California Code of Regulations Section 16204, Title 8, changes in general prevailing wage determinations shall apply to the project only if issued by the Director of Industrial Relations prior to the City's bid issuance date.

The City will not recognize any claim for additional compensation because of the payment by the Contractor of any wage rate in excess of the prevailing wage rate set forth in the Contract. The possibility of wage increases is one of the elements to be considered by the Contractor in determining its Bid, and will not under any circumstances be considered as the basis of a claim against the City or Contract.

When both California and Federal prevailing wage rates apply, the Contractor and any Subcontractors shall pay their workers the higher of the two rates. The Contractor and any Subcontractors shall insert this clause in any lower tier contract.

5-1.05 **REGISTRATION REQUIRED AS QUALIFICATION TO BID.**

Pursuant to Labor Code Section 1771.1(b), notice is hereby given that a Contractor or Subcontractor shall not be qualified to bid on, be listed in a bid proposal, subject to the requirements of Section 4104 of the Public Contract Code, or engage in the performance of any contractor for public work, as defined in Labor Code Sections 1720, et seq., unless currently registered and qualified to perform public work pursuant to Labor Code Section 1725.5. It is not a violation of Labor Code Section 1771.1 for an unregistered contractor to submit a bid that is authorized by Section 7029.1 of the Business and Professions Code or by Section 10164 or 20103.5 of the Public Contract Code, provided the contractor is registered to perform public work pursuant to Section 1725.5.

5-1.06 **PAYROLL RECORDS.** The Contractor's attention is directed to the following provisions of Labor Code Section 1776. The Contractor shall be responsible for the compliance with these provisions by its Subcontractors.

A. The Contractor and each Subcontractor shall keep accurate and current payroll records, showing the name, address, social security number, work classification, straight time and overtime hours worked each day and week, and the actual per diem wages paid to each journeyman, apprentice, worker, or other employee employed by it in connection with the public work. Each payroll record shall contain or be verified by a written declaration that is made under penalty of perjury, stating both of the following:

1. The information contained in the payroll record is true and correct.
2. The employer has complied with the requirements of Section 1771, 1811, and 1815 for any work performed by his or her employees on the public works project.

B. The payroll records enumerated under subdivision (A) shall be available for inspection at all reasonable hours at the principal office of the Contractor on the following

basis:

1. A certified copy of an employee's payroll record shall be made available for inspection or furnished to such employee or his or her authorized representative on request.

2. A certified copy of all payroll records enumerated in subdivision (A) shall be made available for inspection or furnished upon request to a representative of the City, the Division of Labor Standards Enforcement, and the Division of Apprenticeship Standards of the Department of Industrial Relations. The City reserves the right to withhold any progress payments to the Contractor in the event of noncompliance with the subsection.

3. A certified copy of all payroll records enumerated in subdivision (A) shall be made available upon request by the public for inspection or for copies thereof. However, a request by the public shall be made through either the City, the Division of Apprenticeship Standards, or the Division of Labor Standards Enforcement. The public shall not be given access to such records at the principal office of the Contractor.

C. The certified payroll records shall be on forms provided by the Division of Labor Standards Enforcement or shall contain the same information as the forms provided by the Division.

D. Each Contractor shall file a certified copy of the records enumerated in subdivision (A) with the entity that requested the records within ten (10) Days after receipt of a written request.

E. Any copy of the records made available for inspection as copies and furnished upon request to the public or any public agency by the City, the Division of Apprenticeship Standards or the Division of Labor Standards Enforcement shall be marked or

obliterated to prevent disclosure of an individual's name, address and social security number.

The name and address of the Contractor awarded the Contract or Subcontractor performing the Contract shall not be marked or obliterated. Any copy of records made available for inspection by, or furnished to, a joint labor-management committee established pursuant to the federal Labor Management Cooperation Act of 1978 (Section 175a of Title 29 of the United States Code) shall be marked or obliterated only to prevent the disclosure of an individual's name and social security number. A joint labor-management committee may maintain an action in a court of competent jurisdiction against an employer who fails to comply with Section 1774. The court may award restitution to an employee for unpaid wages and may award the joint labor-management committee reasonable attorneys' fees and costs incurred in maintaining the action. An action under this subdivision may not be based on the employer's misclassification of the craft of a worker on its certified payroll records. Nothing in this subdivision limits any other available remedies for a violation of this section.

F. The Contractor shall inform the City of the location of the records enumerated under subdivision (A), including the street address, city and county, and shall, within five (5) business days, provide a notice of a change of location and address.

G. The Contractor shall have ten (10) Days in which to comply subsequent to receipt of written notice requesting the records enumerated in subdivision (A). In the event that the Contractor or Subcontractor fails to comply within the ten (10) Day period, the Contractor shall, as a penalty to the State or City, forfeit twenty-five (\$25) Dollars for each calendar day, or portion thereof, for each worker, until strict compliance is effectuated. Upon the request of the Division of Apprenticeship Standards or the Division of Labor Standards Enforcement, these penalties shall be withheld from any progress payment or final payment then due. A contractor

is not subject to a penalty assessment pursuant to this section due to the failure of a Subcontractor to comply with this section.

5-1.07 **SAFETY REQUIREMENTS.** It is the intent of the parties that the City is not an exposing, creating, controlling, or correcting employer under California Labor Code Section 6400. In accordance with generally accepted construction practices and State law, the Contractor shall have the authority and be solely and completely responsible for conditions on the Work Site, including safety of all persons and property during performance of the Work. Moreover, the Contractor shall be the controlling employer and has the authority and responsibility to enforce Work Site safety. The Contractor shall be responsible for conducting daily safety inspections and assuring all hazards and violations are abated. The Contractor is responsible for assuring that all Subcontractors adhere to the minimum Cal/OSHA safety requirements and that each Subcontractor has an effective Cal/OSHA IIPP (Illness and Injury Prevention Program) in place that specifically addresses all potential exposures, such as, but not limited to, fall protection, confined space, and trenching/shoring. These requirements shall apply continuously and not be limited to normal working hours. The Contractor shall be responsible for any delay costs or damages in the event the progress of Work is slowed or stopped due to a safety violation.

The Contractor shall designate a safety officer and have in place a health and safety plan in accordance with the laws of State of California and conduct safety meetings and document them in accordance with the law. The Contractor shall have the safety record available for inspection during working hours and shall submit job site safety meeting reports with each Application for Payment.

Prior to Contractor commencing construction project work on City property, Contractor

shall make available copies of its Health and Safety Plan (HASP) that meets or exceeds applicable Cal/OSHA regulations. The Contractor's HASP shall also meet or exceed the requirements of any applicable City-wide or departmental specific Injury and Illness Prevention Programs (IIPP) and other HASP programs, procedures, and plans. Potentially applicable HASP programs, procedures, and plans include, but are not limited to, the following:

1. Bloodborne Pathogens Exposure Control Plan;
2. Confined Space Entry Procedure;
3. Electrical Safety Program (Lockout/Tagout);
4. Emergency Action Plans (Site Specific);
5. Fire Prevention Plans (Site Specific);
6. Hazardous Waste Operations Emergency Response Plan (or Equivalent);
7. Hazard Communication Program (SDS's and Right-to-Know training);
8. Heat Illness & Prevention Plan;
9. Hearing Conservation Program;
10. Hot Work/Welding Procedure;
11. Job Hazard Analyses/Standard Operating Procedures;
12. Traffic Control & Flagging;
13. Excavation/Dig Safe Procedure;
14. Fall Protection Plan;
15. Personal Protective Equipment Plan;
16. Respirable Crystalline Silica Exposure Control Plan;
17. Respirator Program;
18. Soils Management Plan (for contaminated soils); and

19. Transite (Asbestos) Pipe Work Procedure.

Additionally, Contractor shall be responsible for complying with all City-wide and departmental specific safety requirements as identified in the Supplemental Conditions or presented at a pre-construction meeting.

Contractor shall inform City in advance of the quantity of chemical(s) to be used for the project and the total quantity of chemical(s) that will be brought onto City property. In addition, Contractor shall provide City with one copy of the Safety Data Sheet (SDS) for each chemical expected to be used to complete the project and for each chemical brought to the Work Site, regardless of whether such chemicals are ultimately used for the project.

The services of the Director in conducting construction review of the Contractor's performance is not intended to include review of the adequacy of the Contractor's Work methods, equipment, bracing or scaffolding, or safety measures, in, on, or near the construction site. If a City employee observes a safety violation, the City employee will report the violation to the Contractor who is then responsible for assuring the violation is abated.

The Contractor is hereby informed that Work on this project could be hazardous. The Contractor shall carefully instruct all personnel working in potentially hazardous Work areas as to potential dangers and shall provide such necessary safety equipment and instructions as are necessary to prevent injury to personnel and damage to property. Special care shall be exercised relative to Work underground.

All Work and materials shall be in strict accordance with all applicable State, City, County, and Federal Rules, Regulations, and Codes, and attention is drawn to the requirements of Cal/OSHA. The Contractor shall be solely responsible for compliance with all City, County and State blasting requirements and for any damages caused by its operations.

To ensure compliance with California Labor Code Section 6705, the Contractor shall submit to the City, at least five (5) Days in advance of excavation of any trench five feet (5') or more in depth, Working Drawings to the Director showing the design of shoring, bracing, sloping and other provisions to be made for worker protection from the hazard of caving ground during the excavation of such trench or trenches. If such Working Drawings vary from the shoring system standards established by the Cal/OSHA Construction Safety Orders of the Division of Industrial Safety, the plan shall be prepared and signed by a registered civil or structural engineer in the State of California. This in no way relieves the Contractor from the requirement of maintaining safety in all operations performed by the Contractor or the Contractor's Subcontractors and nothing in this section shall be deemed to allow the use of a shoring, sloping or protective system less effective than that required by the Cal/OSHA Construction Safety Orders of the Division of Industrial Safety Contractor's Working Drawings shall be subject to approval insofar as the details affect the character of the finished Work and for compliance with design requirements applicable to the construction when specified or called for, but details of the design will be left to Contractor who shall be responsible for the successful construction of the Work. The City shall approve Working Drawings before any Work involving such drawings is performed. Approval and/or acceptance by the City or its designated agent only constitutes acknowledgment of the submission and does not constitute review or approval of the designs, design assumptions or criteria, completeness of submissions, applicability to areas of intended use, nor implementation of the plans, which are solely the responsibility of the Contractor and its registered engineer.

The Contractor shall perform its Work as not to expose personnel to, or to discharge into the atmosphere from any source whatever, smoke, dust, asbestos, toxic chemicals or other air

contaminants in violation of the laws, rules, and regulations of the governmental entities having jurisdiction and shall bear full and exclusive responsibility for any release of hazardous or non-hazardous chemicals or substances during the course of the Work. The Contractor shall immediately report any such release to the City. The Contractor shall be solely responsible for all claims and expenses associated with the response to, removal and remediation of the release, including, without limitation, payment of any fines or penalties levied against the City by any agency as a result of such release and shall defend, indemnify, and save and hold harmless the City, its officers, agents, employees, and volunteers from any claims arising from such release. For purposes of this section only, the term “claims” shall include:

1. All notices, orders, directives, administrative or judicial proceedings, fines, penalties, fees, or charges imposed by any governmental agency with jurisdiction; and
2. Any claim, cause of action, or administrative or judicial proceeding brought against the City, its officers, agents, employees, and volunteers for any loss, cost (including reasonable attorneys’ fees), damage or liability, sustained or suffered by any person or entity, including the City.

If the performance of the Work creates any hazardous wastes, those wastes shall be properly disposed of according to federal, state, and local laws, at the expense of the Contractor. The Contractor shall dispose of the wastes under its own EPA Generator Number. In no event shall the City be identified as the generator. The Contractor shall notify the City of any such hazardous wastes and the City reserves the right to a copy of the results of any tests conducted on the wastes, and, at its cost, to perform additional tests or examine those wastes, prior to disposition. The Contractor shall defend, indemnify, and save and hold harmless the City, its

officers, agents, employees, and volunteers from any claims arising from the disposal of the hazardous wastes, regardless of the absence of negligence or other malfeasance by the Contractor. Disposal of all Hazardous Materials must be done in accordance with all laws and regulations. Copies of required regulatory documentation including copies of final manifests shall be supplied to the City.

Contractors or Subcontractors removing one hundred or more square feet (100') of asbestos must be "Certified" in accordance with State law. All Work involving exposure to asbestos and all other hazardous materials shall be performed with protection of personnel in compliance with all applicable regulations and safety requirements including, but not limited to, California Code of Regulations Section 1529, Title 8.

Nothing in these General Conditions is to be construed to permit Work not conforming to governing codes. When Contract Documents differ from governing codes, the Contractor shall furnish and Install the higher standards called for without extra charge.

5-1.08 **SUBSURFACE EXCAVATIONS, NOTIFICATION.** The Contractor shall contact the regional notification center, "Underground Service Alert," and schedule its Work to allow ample time for the center to notify its members and, if necessary, for any member to field locate and mark its facilities. Without limiting the foregoing, the Contractor's attention is directed to Government Code Sections 4216 to 4216.9, and in particular Section 4216.2.

5-1.09 **PUBLIC SAFETY.** The Contractor shall assume all responsibility for public safety during the performance of its Work, and all costs arising therefrom shall be included in the Contract Price. Whenever the Contractor's operations create a condition hazardous to traffic or to the public, it shall furnish, erect and maintain, at its expense, such fences, barricades, lights, signs, and other devices and take such other protective measures as are

necessary to prevent accidents or damage or injury to the public. The Contractor shall establish the pedestrian detours with comparable lighting to the original pedestrian areas. The Contractor shall arrange for such flaggers as are necessary to give adequate warning to traffic or to the public of any dangerous conditions affecting traffic. For Work in a public right-of-way, the Contractor shall comply with the rules and regulations of the State, County, or local agency that owns the right-of-way.

The Contractor shall promptly and fully comply with and carry out, and shall without separate charge therefor to the City, all safety and first aid requirements prescribed by all applicable Federal, State, and local laws and regulations, rules, and orders. The Work shall be done in a safe manner; and the Contractor shall safeguard the safety and health of its employees, Subcontractors, and the people of local communities. The Contractor shall also be reasonable for ensuring that its Subcontractors comply with the provisions of this section.

Upon the failure of the Contractor to comply with any of the requirements of this section, the City shall have the authority, but not the duty, to stop the Work until such failure is remedied. The Contractor shall not be entitled to an adjustment of the Contract Time or an increase in the Contract Price due to any such suspensions.

When required by the Contract Documents, the Contractor shall construct, maintain, and remove detours for use of public traffic, without additional cost to the City, unless separate payment is specified in the Special Provisions.

The failure or refusal of the Contractor to construct and maintain detours at the proper time shall be sufficient cause for closing down the work until such detours are in satisfactory condition for use by public traffic.

Due care shall be exercised to avoid injury to existing improvements or facilities, utility

facilities, adjacent property and trees, shrubs, and other plants that are not to be removed.

Trees, shrubs and other plants that are not to be removed, and pole lines, fences, signs, survey markers and monuments, buildings and structures, conduits, pipe lines, sewer and waterlines, highway facilities, and any other improvements or facilities, under or above ground, that are within or adjacent to the work limit line shall be protected from injury or damage, and the Contractor shall provide and Install suitable safeguards to protect such objects from injury or damage. If such objects are injured or damaged by reason of the Contractor's operations, they shall be replaced or restored at the Contractor's expense. The facilities shall be replaced or restored to a condition as good as when the Contractor entered upon the Work Site, or as good as required by the Contract Documents if any such objects are part of the Work. The City may make or cause to be made such temporary repairs as are necessary to restore to service any damaged facility. The cost of such repairs shall be borne by the Contractor, and the costs may be deducted from any monies due or to become due to the Contractor under the Agreement.

The fact that any underground facilities is not shown on the Contract Drawings shall not relieve the Contractor of its responsibility pursuant to "Utility Facilities" in Section 2-1.12 elsewhere in the Contract Documents. It shall be the Contractor's responsibility, pursuant thereto, to ascertain the location of such underground improvements or facilities, which may be subject to damage by reason of its operations.

Full compensation for furnishing all labor, materials, tools, equipment and incidentals, and for doing all the Work involved in protecting or repairing property as specified in this section, shall be considered as included in the prices paid for the various Contract items of work and no additional compensation will be allowed therefor.

5-1.10 **EMERGENCIES.** In an Emergency affecting the safety of life, the

Work, or adjoining property, the Contractor, without special instructions or authorization from the City, shall act at its discretion to prevent such threatened loss or injury. In such an Emergency, the Contractor may perform such additional work as is reasonably required. Any compensation claimed by the Contractor on account of Work performed to an Emergency shall be determined in accordance with the provisions relating to Force Account payment contained elsewhere in the Contract Documents.

5-1.11 **APPRENTICES.** Attention is directed to Labor Code Sections 1777.5, 1777.6 and 1777.7 and Title 8, California Code of Regulations Section 200 et seq. In accordance with Section 1777.5, the Contractor shall secure the necessary certificates and shall contribute to the apprenticeship fund or funds, as provided therein. The Contractor shall require each Subcontractor who will perform work or labor or render service to the Contractor in or about the construction of the work to fully comply with Sections 1777.5 and 1777.6 of the Labor Code. To insure compliance and complete understanding of the law regarding apprentices, and specifically the required ratio thereunder, each Contractor or Subcontractor should, where some questions exist, contact the Division of Apprenticeship Standards, , or one of its branch offices prior to commencement of Work on the public works Contract. Responsibility for compliance with this section lies with the prime Contractor.

It is State and City policy to encourage the employment and training of apprentices on public works Contracts as may be permitted under local apprenticeship standards.

5-1.12 **FAIR LABOR STANDARDS ACT.** Attention is invited to the fact that the City has been advised by the Wage and Hour Division, U.S. Department of Labor, that Contractors engaged in construction Work are required to meet the provisions of the Fair Labor Standards Act of 1958 and as amended (52 Stat. 1060).

5-1.13 **WORKERS' COMPENSATION.** Pursuant to the requirements of Labor Code Section 1860, the Contractor will be required to secure the payment of workers' compensation to its employees in accordance with the provisions of Labor Code Section 3700.

Prior to the commencement of Work, the Contractor shall sign and file with the Director a certification in the following form:

“I am aware of the provisions of Labor Code Section 3700 which require every employer to be insured against liability for workers' compensation or to undertake self-insurance in accordance with the provisions of that code, and I will comply with such provisions before commencing the performance of the Work of this Contract.”

5-1.14 **AIR POLLUTION CONTROL AND ASBESTOS.** The Contractor shall comply with all air pollution control rules, regulations, ordinances and statutes which apply to any Work performed pursuant to the Contract, including any air pollution control rules, regulations, ordinances and statutes, specified in Government Code Section 11017.

In the absence of any applicable air pollution control rules, regulations, ordinances or statutes governing solvents, all solvents, including but not limited to the solvent portions of paints, thinners, curing compounds, and liquid asphalt used on the project shall comply with the applicable material requirements of the applicable Air Quality Management District. All containers of solvent, paint, thinner, curing compound, or liquid asphalt shall be labeled to indicate that the contents fully comply with said requirements.

Unless otherwise provided in the Supplemental Conditions, material to be disposed of shall not be burned, either inside or outside the Premises.

The Contractor shall also comply with all rules, regulations, statutes and ordinances

regarding asbestos removal and disposal, including but not limited to, 42 U.S.C. Sections 7401, 7412 and 7601, 40 C.F.R. Part 61, Subpart M, and California Code of Regulations Section 1529, Title 8.

If the Contractor discovers that a building to be demolished or renovated contains asbestos containing material, the Contractor shall immediately cease Work and notify the City.

5-1.15 **USE OF PESTICIDES.** The Contractor shall comply with all local, state and federal rules and regulations of the Department of Food and Agriculture, the Department of Health, the Department of Industrial Relations and all other agencies which govern the use of pesticides required in the performance of the Work.

Pesticides shall include but shall not be limited to herbicides, insecticides, fungicides, rodenticides, germicides, nematocides, bactericides, inhibitors, fumigants, defoliants, desiccants, soil sterilants, and repellents.

Any substance or mixture of substances intended for preventing, repelling, mitigating, or destroying weed, insects, diseases, rodents, or nematodes and any substance or mixture of substances intended for use as a plant regulator, defoliant or desiccant shall be considered as pesticide.

5-1.16 **SOUND AND LIGHT CONTROL REQUIREMENTS.** The Contractor shall comply with all local sound control, light control, and noise level rules, regulations and ordinances which apply to any Work performed pursuant to the Contract. Work shall not begin before 7 a.m. nor occur after 7 p.m., unless otherwise permitted by the City.

Each internal combustion engine, used for any purpose on the Work or related to the Work, shall be equipped with a muffler, in good working order, of a type recommended by the manufacturer. No internal combustion engine shall be operated on the project without said

muffler.

5-1.17 **WEIGHT LIMITATIONS.** Unless expressly permitted elsewhere in the Contract Documents, the Contractor shall not operate construction equipment or vehicles of any kind which, laden or unladen, exceed the maximum weight limits set forth in Division 15 of the Vehicle Code over completed or existing base, surfacing, pavement or structures.

5-1.18 **ENVIRONMENTAL CLEARANCES; MITIGATION MONITORING PROGRAMS; AND REGULATORY AGENCY PERMIT REQUIREMENTS.** The Department will obtain all environmental clearances and other authorizations necessary for this project as set forth in the Contract Documents. The Contractor shall comply with the provisions, including giving notices during construction when required, of said authorizations. In the event the obtaining of said authorizations delays completion of all or any portion of the Work, an extension of time determined pursuant to the provisions in Section 6-1.08, “Liquidated Damages,” of these General Conditions will be granted.

Contractor shall comply with: (1) all mitigation identified in the mitigation monitoring program (attached to and adopted as a component of the mitigated negative declaration or Environmental Impact Report) to mitigate impacts to protected natural resources; and (2) all related permit requirements issued by the regulatory agencies authorizing the project. Contractor shall defend, indemnify, and save and hold harmless the City, its officers, agents, employees, and volunteers from any fines, claims, suits, actions or regulatory sanctions of every name, kind and description brought forth, or on account of, damage to protected natural resources from or arising out of Contractor’s negligence or willful misconduct in the performance of this Agreement.

5-1.19 **PERMITS AND LICENSES.** The Contractor acknowledges and agrees that, prior to the submission of its bid for the Work, it fully familiarized itself with the

requirements of all applicable federal, state, county and municipal laws, codes, rules, and regulations, as well as the conditions of any required licenses and permits.

The Contractor shall procure all permits and licenses, including any applicable building permits (except those procured or to be procured by the City which are listed elsewhere in the Contract Documents), in coordination with the Director, pay all charges and fees, and give all notices necessary and incident to the due and lawful prosecution of the Work. Contractor shall be responsible for applying, paying all fees, and coordination for obtaining all permits for completion of the Work. All permits and licenses shall be obtained in sufficient time to prevent delays to the Work. Contractor will apply to the City for reimbursement for such permits costs. Accordingly, Contractor should not include the anticipated costs for permits in its bid, as the necessary permit costs will be reimbursed by the City.

The California Environmental Quality Act (Public Resources Code, Section 21000 to 21177) may be applicable to permits, licenses and other authorizations which the Contractor must obtain from State or local agencies in connection with performing the Work. The Contractor shall comply with the provisions of that Act in obtaining such permits, licenses and other authorizations, and all permits, licenses and other authorizations shall be obtained in sufficient time to prevent delays to the Work.

The Contractor shall maintain the applicable Contractor's license as identified in the Notice to Contractors and City business license for the duration of the Work.

5-1.20 **WATER POLLUTION.** The Contractor shall comply with all water pollution control rules, regulations, ordinances and statutes which apply to any Work performed pursuant to the Contract, including any water pollution control rules, regulations, and statutes, specified by the most current State of California NPDES General Permit for Stormwater

Discharges Associated with Construction Activity.

The Contractor shall take all necessary precaution to protect streams, vernal pools, ponds, reservoirs, and lakes from pollution with fuels, oils, bitumen, calcium chloride, and other harmful materials as consistent with the law. Also, the Contractor shall conduct and schedule operations so as to avoid discharging pollutants, such as but not limited to: sediment and silt to the storm drain system. The storm drain system consists of all facilities that are designed to convey stormwater to the Waters of the State as defined in the California Water Code. The storm drain system includes, but is not limited to, all streets, gutters, drain inlets, roadside ditches, streams, vernal pools, ponds, and lakes. Care shall be exercised to preserve roadside vegetation beyond the limits of construction.

5-1.21 **PROTECTION AND USE OF PROPERTY.** The Contractor shall be responsible for and provide and maintain all proper temporary walkways, covered walkways, barriers, roads, guards, railings, lights, warning signs, and take precaution at all times to avoid injury or damage to any person or any property, and upon completion of the Work, or at other times as directed, restore Premises and adjacent property to a proper condition. In the event of such injury or damage, Contractor shall report such injury and damage to City within forty-eight (48) hours of occurrence.

The Contractor shall protect adjoining property and nearby buildings, including City buildings, City roads, and public streets or roads, from dust, dirt, debris, or the nuisance arising out of the Contractor's operations or storage practices, and, if ordered by the Director, the Contractor shall provide and Install suitable safeguards, approved by the Director, to protect such objects from damage. If such objects are damaged by reason of the Contractor's operations, they shall be replaced or restored at the Contractor's expense.

If the Contractor damages any buildings, roads, utilities, or other property which belong to the City, or any Department or agency thereof, then the Director, at his or her option, may retain from the money due under the Contract an amount sufficient to insure repair of the damage.

The Director may make or cause to be made such temporary repairs as are necessary to restore to service any such damaged facility. The cost of such repairs shall be borne by the Contractor and may be deducted from any moneys due or to become due the Contractor under the Contract.

5-1.22 **RESPONSIBILITY FOR DAMAGE AND INDEMNIFICATION.**

The City of Roseville, its officers, agents, employees, and volunteers, including but not limited to the Director and his or her designee, shall not be answerable or accountable in any manner: for any loss or damage that may happen to the Work or any part thereof; for any loss or damage to any of the materials or other things used or employed in performing the Work; for injury to or death of any person, either workers or the public; or for damage to property from any cause which might have been prevented by the Contractor, its workers, or anyone employed by the Contractor or the Contractor's Subcontractors.

The Contractor shall be responsible for any liability imposed by law and for injuries to, or death of, any person including, but not limited to, workers and the public, or damage to property resulting from defects or obstructions, or from any cause whatsoever during the progress of the Work or at any time before its completion and final Acceptance.

To the fullest extent allowed by law, the Contractor shall defend (through counsel acceptable to the City), indemnify, and save and hold harmless the City, and its respective officers, agents, Subcontractors, employees, and volunteers, and the successors and assigns of

any of them, (hereinafter referred to as “Indemnitees”) from and against all claims, demands, liability, suits, actions, costs or expenses for any and all loss or damage, including but not limited to, personal injury, property damage, or economic loss, arising out of or resulting from allegations of (1) Contractor’s use of the City’s property or any activities or Work performed hereunder by the Contractor; (2) the Contractor’s performance of the Work under the Agreement; or (3) the Contractor’s breach of any provision of the Agreement. The duty of the Contractor to indemnify and save harmless includes the duties to defend as set forth in Civil Code Section 2778. The only exception to these provisions is that the Contractor’s obligations under this section will not apply to the extent that the claims, demands, liability, suits, actions, costs or expenses are caused by Indemnitees’ active negligence, willful misconduct, criminal acts, or for defects in design furnished by the Indemnitees, misconduct, criminal acts, or for defects in design furnished by the Indemnitees.

The Contractor waives any and all rights to any type of express or implied indemnity against the City, its officers, agents, employees, or volunteers.

The Contractor’s responsibility for such defense and indemnity obligations shall survive the termination or completion of this Contract for the full period of time allowed by law. The defense and indemnity obligations of this Contract are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Contract. The parties intend that the defense and indemnity obligations in this Contract shall be broadly construed.

Any person, firm or corporation that Contractor authorizes to Work on the City’s property including Subcontractors, shall be deemed to be an agent of the Contractor for purposes herein, shall be subject to all the applicable terms herein, and shall be within the scope of the Contractor’s indemnity obligation described herein.

In addition to any remedy authorized by law, so much of the money due the Contractor under and by virtue of the Contract as shall be considered necessary by the Department may be retained by the City until disposition has been made of such suits or claims for damages.

The retention of money due the Contractor shall be subject to the following:

A. The City will give the Contractor thirty (30) Days' notice of its intention to retain funds from any partial payment which may become due to the Contractor prior to Acceptance of the Contract. Retention of funds from any payment made after Acceptance of the Contract may be made without such prior notice to the Contractor.

B. No retention of additional amounts out of partial payments will be made if the amount to be retained does not exceed the amount being withheld from partial payments pursuant to Section 7-1.07, "Progress Payments," of these General Conditions.

C. If the City has retained funds and it is subsequently determined that the City is not entitled to be indemnified and saved harmless by the Contractor in connection with matter for which such retention was made, the Department shall be liable for interest on the amount retained at the legal rate of interest for the period of such retention.

5-1.23 **INSURANCE COVERAGE.**

A. Evidence of Maintenance Required. The Contractor shall, at its expense, procure and at all times maintain in full force and effect at a minimum the insurance required by this section on all of its operations; and the Contractor shall not allow any Subcontractor to commence work until similar insurance required of the Subcontractor has been obtained and filed. An original Certificate of Insurance, and copies of all required endorsements, all in a form approved by the Risk Manager, evidencing all required coverage or policies shall be filed after the award of the bid and prior to approval of the Contract by the City Council. Contractor shall

provide ten (10) days prior written notice to the City of any reduction of coverage limits or cancellation of the coverage or policies shall be given to the City of Roseville as Certificate holder.

B. Qualifying Insurers. With the exception of the State Compensation Insurance Fund, all required insurance policies shall be issued by companies acceptable to the City and licensed to do business in the State of California and who hold a current policy holders alphabetic and financial size category rating of not less than AVII according to the most recent issue of Best's Insurance Reports.

C. Insurance Required.

1. Commercial General Liability (CGL): Insurance Services Office Form CG 00 01 covering CGL on an “occurrence” basis, including products and completed operations with limits of no less than Two Million Dollars (\$2,000,000) per occurrence for bodily injury, personal injury and property damage for projects under One Million Dollars (\$1,000,000) and limits of no less than Five Million Dollars (\$5,000,000) per occurrence for bodily injury, personal injury and property damage for projects over One Million Dollars (\$1,000,000). If a general aggregate limit applies, either the aggregate limit shall apply separately to this project or the general aggregate limit shall be twice the required occurrence limit.

The Commercial General Liability insurance shall include the following, copies of which shall be provided:

a. Inclusion of the City of Roseville, and its officers, agents, employees, and volunteers, as additional insureds (except for workers’ compensation) as respects services or operations under the Contract. The additional insured endorsement for the general liability policy shall be at least as broad as the ISO CG 2010 10 01 combined with ISO CGL

Endorsement CG 2037 10 01. Any other endorsement must be approved in writing by the City. Endorsements must include coverage for on-going and completed operations, which coverage shall be maintained for four (4) years following completion of the Project. Endorsements shall cover the City of Roseville, its officers, agents, employees, and volunteers.

b. The insurance shall provide coverage for claims by one insured against another insured and the policies shall not contain any cross-suits exclusions, cross-liability exclusions, or insured versus insured exclusions. The policies shall not contain any classification exclusions purporting to deny coverage for any work to be performed by Contractor or any of its Subcontractors.

c. Stipulation that the insurance is primary and noncontributory, as evidenced by a separate endorsement (CG 20 01 04 13 or an equivalent) or section of the policy, and that neither the City nor its insurers will be called upon to contribute to a loss.

d. Such insurance shall specifically cover the contractual liability of the Contractor.

e. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.

f. Waiver of subrogation endorsement.

g. The Contractor shall furnish a certificate for the period covered.

2. Automobile Liability: Insurance Services Office Form Number CA 0001 covering Code 1 (any auto), or if Contractor has no owned autos, Code 8 (hired) and Code 9

(non-owned), with limits of no less than One Million Dollars (\$1,000,000) per accident for bodily injury and property damage.

3. Workers' Compensation: In accordance with the provisions of the California Labor Code, Contractor is required to be insured against liability for Workers' Compensation or to undertake self-insurance. Statutory Workers' Compensation and Employers' Liability of at least One Million Dollars (\$1,000,000) shall cover all Contractors staff while performing any work incidental to the performance of this Agreement.

4. Professional Liability: Professional Liability (Errors and Omission) Insurance appropriate to Contractor's profession, with a limit of liability not less than One Million Dollars (\$1,000,000) per occurrence or claim and Two Million Dollars (\$2,000,000) aggregate to cover all design and engineering services rendered by Contractor pursuant to the Agreement. Coverage must commence from the first day that Contractor or any of its Subcontractors provided any design or engineering services in connection with the Project.

5. Builder's Risk/Course of Construction Insurance (If Required by Risk Management): The Contractor shall be responsible for all loss, damage or destruction whatsoever to the work called for by this Contract until the approval of a Notice of Completion or acceptance of the Work if no Notice of Completion is to be recorded.

The Contractor shall secure "All Risk" type of builder's Risk Insurance of the type covering one hundred percent (100%) of the value of the work performed under this Contract (the value is presumed to be the Contract amount unless otherwise stated in Supplemental Conditions) and all materials, equipment, or other items to be incorporated therein while the same are located at the construction site, a bonded warehouse, or its place of manufacture. At any time, the policy shall cover the value of the work completed. The policy shall cover hazards

including the losses due to fire, explosion, hail, rain, lightning, flood (separate insurance as needed), vandalism, malicious mischief, wind, collapse, aircraft, and smoke.

The policies providing such insurance shall name the City as a loss payee as its respective interests may appear, and certified copies of such policies shall be filed with the City. The maximum deductible allowable under the Builder's All Risk policy shall be five percent (5%) of the Contract amount.

Builder's Risk Insurance is not required for coverage of losses in excess of five percent (5%) of the Contract amount for damages resulting from earthquake in excess of a magnitude of 3.5 on the Richter scale, or tidal waves. Coverage in the amount of five percent (5%) of the Contract amount for such losses is required.

6. Pollution Coverage: Contractor shall procure pollution liability coverage or other insurance covering claims for bodily injury or property damage arising out of the abatement, removal, storage, transportation, or other exposure to hazardous materials or pollutants, in limits not less than Two Million Dollars (\$2,000,000). Contractor shall add the City and all parties required to be indemnified by Contractor as additional insured on all pollution liability policies.

7. Higher Coverage Limits: If Contractor maintains higher coverage limits than the amounts shown above, then the City requires and shall be entitled to coverage for the higher coverage limits maintained by Contractor. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to the City.

8. Claims Made Coverage: Liability insurance coverage may not be written on a "claims made" or modified occurrence basis. The Certificate of Insurance must clearly provide that the coverage is on an "occurrence" basis.

5-1.24 **OTHER INSURANCE PROVISIONS.**

A. The requirements of the Standard Specifications as to types and limits of insurance coverage to be maintained by the Contractor, and any approval of insurance by the City, are not intended to, and shall not in any manner limit or qualify the liabilities and obligations otherwise assumed by the Contractor pursuant to the Contract, including, but not limited to, the provisions concerning indemnification, nor preclude the City from taking any other action available to it under any other provision of the Contract or law.

B. The City acknowledges that some insurance requirements contained in these Standard Specifications may be fulfilled by self-insurance on the part of the Contractor. However, this shall not in any way limit liabilities assumed by Contractor under the Contract. Any self-insurance must be approved in writing by the City, in its sole discretion and shall not reduce the limits of liability. Any deductibles or self-insured retentions (“SIR”) must be declared on the certificate of insurance and approved by City in writing. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or City. City reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

C. The Contractor agrees to include in its contracts with all subcontractors the same requirements and provisions of this Contract, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor’s work. Furthermore, the Contractor shall require its subcontractors to agree to be bound to the Contractor and the City in the same manner and to the same extent as the Contractor is bound to the City under this Contract. Additionally, the Contractor shall obligate its subcontractors to comply with these

same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of the City's indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request. Alternatively, the Contractor may insure subcontractor(s) under its own policy.

D. The City, its officers, agents, employees, and volunteers are to be covered as insureds with respect to liability arising out of automobiles owned, leased, hired or borrowed by or on behalf of the Contractor; and with respect to liability arising out of work or operations performed by or on behalf of the Contractor including materials, parts or equipment furnished in connection with such work or operations. Coverage shall not extend to any indemnity coverage for the active negligence of the additional insured in any case where an agreement to indemnify the additional insured would be invalid under California Insurance Code Section 11580.04.

E. The limits of insurance required in this Contract may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of the City (if agreed to in a written contract) before the City's own insurance shall be called upon to protect it as a named insured.

F. The insurance procured by Contractor shall be subject to the approval of the City, but any acceptance of insurance certificates by the City shall in no way limit or relieve Contractor of its duties and responsibilities under the Agreement.

G. Contractor shall be responsible for all premiums, deductibles, and self-insured retention applicable to the insurance it is required to procure under the Contract. All deductibles or self-insured retentions over five hundred thousand dollars (\$500,000) must be approved by the City, in writing. Contractor shall be responsible for all deductibles, self-insured

retention payments, and/or increased premiums incurred if the City's policies of insurance are forced to cover damages or respond to claims for which Contractor or its Subcontractors were obligated to provide insurance under the Contract.

H. Failure of the City to enforce in a timely manner any of the requirements of these insurance provisions shall not act as a waiver to enforcement of any of these provisions at a later date.

I. Contractor's indemnity obligations shall not be limited by these insurance provisions and shall survive the expiration of the Contract and the insurance provisions of the Contract shall likewise not be limited by the indemnity provisions of the Contract.

J. THE CITY RESERVES THE RIGHT TO WITHHOLD ANY PROGRESS PAYMENTS TO THE CONTRACTOR IN THE EVENT OF NONCOMPLIANCE WITH ANY INSURANCE REQUIREMENTS.

5-1.25 **THIRD PARTY BENEFICIARY.** No provisions in the Contract Documents shall in any way inure to the benefit any third party (including the public at large or any member thereof) so as to constitute such person a third party beneficiary of the Contract, or of any term or condition or other provision of the Contract or otherwise give rise to any cause of action in any person not a party to the Agreement, except as expressly provided elsewhere in the Contract Documents.

5-1.26 **COORDINATION AND ACCESS.** The Contractor acknowledges that the City may award, or has already awarded, other construction contracts for additional work or may perform additional work with its own forces and that such work may affect the Work under this Agreement. Additionally, the Contractor acknowledges that the State and other public and private agencies may be granted a right-of-entry by the City for the purpose of constructing

facilities within and adjacent to the Work Site. It is the obligation of the Contractor to coordinate its Work with the work of others working within or adjacent to the City's property.

During performance of its Work, the Contractor shall not have exclusive access to or use of the work areas. The City may also require that certain facilities and areas be used concurrently by the Contractor and by other contractors working in the area. When two (2) or more contractors are employed on related or adjacent City work, each shall conduct its operations in such a manner as not to cause any unnecessary delay or hindrance to the other. Each contractor shall be responsible to the other for all damage to any work, to persons or property caused to the other by its operations, and for loss caused the other due to any unnecessary delays or failure to finish the work within the time specified for completion.

If any party of the Contractor's Work depends on the work of any other contractor and/or the City for proper execution and/or results, the Contractor shall promptly notify the City of any discrepancies and/or defects in said other work that would render its work unsuitable for proper execution and/or results prior to proceeding with the Contractor's own Work. If it becomes necessary, the City will resolve coordination and access problems.

The Contractor and its representative in charge of the Work shall familiarize themselves with the City's property and Work Site, and adjacent surroundings in the vicinity of said Work, and any private or public operations on adjoining properties.

5-1.27 **OCCUPANCY BY THE DEPARTMENT PRIOR TO**

ACCEPTANCE. The City may at any time notify the Contractor in writing that it intends to take Beneficial Occupancy of any portion of the Work even though the Work may not be substantially complete. Unless the reason for the City's taking Beneficial Occupancy is that the Contractor has not completed the Work (or portions thereof) in accordance with the Contract

Time, the City's Beneficial Occupancy shall relieve the Contractor from its responsibility for maintenance, loss or damage to that portion of the Work for which the City has taken Beneficial Occupancy other than that resulting from the Contractor's act or omission, negligence, willful misconduct or breach of warranty.

Should the Work (or portion thereof) not be completed in accordance with the Construction Schedule within the Contract Time (as adjusted under the terms of the Contract Documents), the City shall have the right, but not the obligation, to take Beneficial Occupancy of the Work. In such event, the Contractor shall not be entitled to any additional compensation on account of said occupancy by the City, nor shall the Contractor be relieved of any of its responsibilities under the Contract Documents, including, without limitation, Contractor's obligation to complete the Work in accordance with the Construction Schedule.

Beneficial Occupancy shall not be deemed an Acceptance by the City either of the Work or of any portion thereof, nor will it relieve the Contractor of full responsibility for correcting defective Work or materials found at any time before the formal written Acceptance of the entire Contract by the Director or during the full warranty period after such Acceptance, as provided in Section 7-1.12, "Warranty," of these General Conditions.

The City's Beneficial Occupancy shall not relieve the Contractor of its responsibility to maintain all insurance and bonds required under the Contract Documents until the entire project is accepted by the City.

5-1.28 **RIGHT TO OPERATE UNSATISFACTORY FACILITIES AND EQUIPMENT.** If, after Installation, the operation or use of the facilities or equipment to be furnished under this Contract proves to be unsatisfactory to the Director, the City shall have the right to operate and use such facilities or equipment until they can, without damage to the City,

be taken out of service for correction or replacement. Such period of use of the defective facilities or equipment, pending correction or replacement, shall in no way decrease the warranty period required for the acceptable corrected or replaced facilities or equipment.

5-1.29 **CONTRACTOR'S RESPONSIBILITY FOR THE WORK.** Except as otherwise provided herein, the Contractor shall have the charge and care of the Work and shall bear the risk of injury or damage to any part of the Work by the action of the elements or from any other cause whether arising from the execution or from the nonexecution of the Work until the Acceptance of the Contract by the Director. The Contractor shall rebuild, repair, restore, and make good all injuries or damages to any portion of the Work occasioned by any cause before its completion and Acceptance, and shall bear the expense thereof. In case of suspension of Work from any cause whatever, the Contractor shall be responsible for the Work and it shall also be responsible for all materials, and shall properly store them if necessary, and shall provide suitable drainage and erect temporary structures where necessary.

The Contractor will be relieved of responsibility for any injury or damage to the Work caused by the following:

- A. An earthquake in excess of a magnitude of 3.5 on the Richter Scale or a tidal wave, when the effect of such has been proclaimed a disaster or state of emergency by the Governor of the State of California or by the President of the United States, or was of such magnitude at the site of the Work as to have been sufficient to have caused a proclamation of disaster or state of emergency, had it occurred in a populated area.
- B. Occupancy and use by the Department or the public prior to the completion of the entire project.
- C. Acts of the Federal Government or the public enemy.

5-1.30 **RESPONSIBILITY FOR UTILITIES.** The Contractor shall be responsible at its own cost for any and all Work, expense or special precautions caused or required by the existence or proximity of utilities encountered in performing the Work, including without limitation, repair of any or all damage and all hand or exploratory excavation required. The Contractor is cautioned that such utilities may include communication cables or electrical cables which may be high voltage, and when working or excavating in the vicinity of such cables, or the ducts enclosing such cables, the Contractor shall undertake at its own cost any special precautions required. Suitable warning signs, barricades, and safety devices shall be erected as necessary or required.

However, if during the course of the Work the Contractor encounters utility Installations which are not shown or indicated in the Contract Documents or which are found in a location substantially different from that shown, and such utilities are not reasonably apparent from visual examination, then the Contractor shall promptly notify the Director in writing. Where necessary for the Work of the Contract, the Director shall issue a written order to the Contractor to make such adjustments, rearrangement, repair, removal, alteration, or special handling of such utility, including repair of the damaged utility. The Contractor shall perform the Work described in such written order, and compensation therefor will be made in accordance with Section 3 of these General Conditions relating to changes in the Work. Except for the items of cost specified in said Section 3, the Contractor shall receive no compensation for any other cost, damage, delay, interference, or hindrance to him or her due to the presence of such utility. If the Contractor fails to give the notice specified above and thereafter acts without instructions for the Director, then the Contractor shall be liable for any or subsequent to discovery thereof, and the Contractor shall repair and make good such damage at its own cost.

The precise location of underground facilities can only be determined by careful probing or hand digging in compliance with Article 6 of the Cal/OSHA Construction Safety Orders which states in part:

“Prior to opening an excavation, effort shall be made to determine whether underground installations, i.e., sewer, water, fuel, electric lines, etc., will be encountered, and if so, where such underground installations are located. When the excavation approaches the approximate location of such an installation, the exact location shall be determined by careful probing or hand digging, and, when it is uncovered, adequate protection shall be provided for the existing installation.”

The location of known existing utilities and pipelines are shown on the Contract Drawings in their approximate locations. Some of the locations include multiple conduits. The Contractor shall exercise care in avoiding damage to those facilities which are to remain in service subsequent to the construction of the particular new facility involved and the Contractor will be held responsible for any repairs if damaged. The Contractor shall also exercise care in maintaining those pipes and facilities required for continuing operation of the existing facilities until such time as they can be abandoned. There is no guarantee that all utilities or obstructions are shown on the Contract Drawings or that the locations indicated are accurate.

The Contractor shall exercise extreme caution in working in the area adjacent to the existing pipelines and utility services. It is essential that all the existing facilities be maintained in service. Construction of the connections between the existing facilities and the new facilities shall be at times and during periods acceptable to the City. The Contractor shall advise the Director in writing of its proposed Construction Schedule for these connections at least forty-eight (48) hours in advance.

The Contractor shall uncover all piping and conduits, to a point one foot (1') below the pipe, where crossings, interferences, or connections are shown on the Contract Drawings, prior to trenching or excavating for any pipe or structures, to determine actual elevations. New pipelines shall be laid to such grade as to clear all existing facilities which are to remain in service. If the Contractor does not expose all required utilities, it shall not be entitled to additional compensation for Work necessary to avoid interferences nor for repair to damaged utilities. Excavations around underground electrical ducts and conduits shall be performed using extreme caution to prevent injury or damage to workers and to the electrical ducts or conduits.

5-1.31 **PROPERTY RIGHTS IN MATERIALS.** Nothing in the Contract shall be construed as vesting in the Contractor any right of property in the materials used after they have been attached or affixed to the Work or soil or after partial payment has been made as provided in Section 7-1.07, "Progress Payments," of these General Conditions for material delivered on the ground or stored subject to or under the control of the City and unused. All such material shall become the property of the City upon being so attached or affixed or upon payment for materials delivered on the ground or stored subject to or under the control of the City and unused, as provided in said Section 7-1.07.

5-1.32 **COURT ORDERED DELAY.** If, pursuant to court order, the Department temporarily suspends performance of all or any portion of the Work, an extension of time determined pursuant to the provisions in Section 6-1.08, "Liquidated Damages," of these General Conditions will be granted.

5-1.33 **NO PERSONAL LIABILITY.** Neither the Director, nor any other officer or authorized employee of the City, shall be personally responsible for any liability arising under or by virtue of the Contract.

5-1.34 **RIGHTS IN LAND AND IMPROVEMENTS.** The Contractor shall make no arrangements with any person or entity to permit occupancy or use of any land, structure or building within the limits of the Work, for any purpose whatsoever, either with or without compensation, in conflict with any agreement between the City and any third party owner, former owner, or tenant of such land, structure or buildings. The Contractor shall not occupy City-owned property outside the limit of the Work shown on the Contract Drawings unless it obtains prior approval.

5-1.35 **ANTITRUST CLAIMS.** The Contractor's attention is directed to the following provision of Public Contract Code Section 7103.5(b), which is applicable to the Contractor and its Subcontractors:

“ In entering into a public works contract or a subcontract to supply goods, services, or materials pursuant to a public works contract, the contractor or subcontractor offers and agrees to assign to the awarding body all rights, title, and interest in and to all causes of action it may have under Section 4 of the Clayton Act (15 U.S.C. Sec. 15) or under the Cartwright Act (Chapter 2 [commencing with Section 16700] of Part 2 of Division 7 of the Business and Professions Code), arising from purchases of goods, services, or materials pursuant to the public works contract or the subcontract. This assignment shall be made and become effective at the time the awarding body tenders final payment to the contractor, without further acknowledgement by the parties.”

5-1.36 **RIGHTS TO DRAWINGS, TECHNICAL DATA PATENTS.** Shop

Drawings and Working Drawings submitted to the City by the Contractor, Subcontractor or any lower tier Subcontractor pursuant to the Agreement, are the property of the City and the City may use, and disclose in any manner and for any purpose, Shop Drawings and Working Drawings delivered under the Contract.

Technical Data including manuals or instructional materials, computer or microprocessor software which are delivered or submitted to the City by the Contractor, Subcontractor, or any lower tier Subcontract pursuant to the Contract are the property of the City, and the City may use or disclose same in any manner and for any purpose.

The Contractor shall assume all costs arising from the use of patented materials, equipment, devices, or processes used on or incorporated in the Work, and shall defend, indemnify and save and hold harmless the City, and its duly authorized representatives, from all suits at law, or in equity, and actions of every nature for, or on account of the use of any patented materials, equipment, devices or processes. In case some materials, equipment, devices or processes are held to constitute an infringement and their use enjoined, the Contractor, at its expense, shall:

1. Secure for the City the right to continue using said materials, equipment, devices or processes by suspension of the injunction or by procuring a license or licenses; or
2. Replace such materials, equipment, devices, processes; or
3. Modify them so that they become non-infringing or remove the enjoined materials, equipment, devices or processes and refund the sums paid therefor without prejudice to any other rights of the City.

5-1.37 **PAYMENT OF TAXES.** Contractor shall pay all taxes and duties applicable to and assessable against any Work, equipment, materials, services, processes, and

operations incidental to or involved in the Agreement, including but not limited to, retail sales and use, transportation, export, import, business, and special taxes. The Contractor is responsible for ascertaining and acquainting itself with such taxes and making all necessary arrangements to pay them. The Contractor will maintain records that are auditable records, and these records shall be subject to the City's review to verify that Contractor's tax payments are current at all times.

The Contract Price paid for the Work shall include full compensation for all taxes which the Contractor is required to pay, whether imposed by Federal, State or local government, including, without being limited to, Federal excise tax. No tax exemption certificate nor any document designed to exempt the Contractor from payment of any tax will be furnished to the Contractor by the Department, as to any tax on labor, services, materials, transportation, or any other items furnished pursuant to the Contract.

The Contractor shall withhold and pay any and all sales and use taxes, withholding taxes, whether Federal, State, or local, Social Security taxes, State Unemployment Insurance charges and all other taxes which are now or hereafter may be required to be paid or withheld under any laws.

5-1.38 **GRATUITIES AND CONFLICT OF INTEREST.** The Contractor shall not offer or provide gratuities in the form of gifts, entertainment, loans, meals, rewards, and/or services to representatives of the City, including but not limited to, officers, employees, agents, Engineering Service Consultants, Consulting Engineers and Architects, Inspectors and/or Testing Agencies retained by the City. If it is found that the Contractor has violated this provision, the Contract may be subject to termination for default as defined elsewhere in these General Conditions.

During the term of the Contract and until the final payment has been made to the Contractor, the Contractor shall not employ or compensate in any manner whatsoever, the City's officers, employees and authorized representatives, agents, and any Engineering Service Consultants, Consulting Engineers and Architects, Inspectors, and/or Testing Agencies retained by the City. Any exception to the employment or compensation to any of the above named parties must be made in writing by the City. If the Contractor offers or provides employment or compensation to those named above during the term of the Contract, the Contract may be subject to termination for default.

5-1.39 **COOPERATION.** Should construction be under way by City forces or other forces or by other Contractors within or adjacent to the limits of the Work or should Work of any other nature be under way by such forces within or adjacent to said limits, the Contractor shall cooperate with all such forces to the end that any delay, interference or hindrance to their Work will be avoided. The right is reserved to perform other or additional Work at or near the site at any time, by the use of such forces.

5-1.40 **DIGGING TRENCHES OR OTHER EXCAVATIONS.** In the event any work involves digging trenches or other excavations that extend deeper than four feet (4') below the surface, City and Contractor shall comply with the following:

A. The Contractor shall promptly, and before the following conditions are disturbed, notify City in writing of any:

1. Material that the Contractor believes may be material that is hazardous waste, as defined in Section 25117 of the Health and Safety Code, that is required to be removed to a Class I, Class II, or Class III disposal site in accordance with provisions of existing law.

2. Subsurface or latent physical conditions at the site differing from those made available to Contractor for inspection as provided in the project proposal.

3. Unknown physical conditions at the site of any unusual nature, different materially from those ordinarily encountered and generally recognized as inherent in Work of the character provided for in the Contract.

B. The City shall promptly investigate the conditions, and if it finds that the conditions do materially so differ, or do involve hazardous waste, and cause a decrease or increase in the Contractor's cost of, or the time required for, performance of any part of the Work shall issue a Change Order under the procedures described in the Contract.

C. In the event that a dispute arises between the City and the Contractor whether the conditions materially differ, or involve hazardous waste, or cause a decrease or increase in the Contractor's cost of, or time required for, performance of any part of the Work, the Contractor shall not be excused from any scheduled completion date provided for by the Contract, but shall proceed with all work to be performed under the Contract. The Contractor shall retain any and all rights provided either by contract or by law which pertain to the resolution of disputes and protests between the contracting parties. However, no claim of the Contractor under this clause shall be allowed unless the Contractor has given the notice required by this Section. No claim by the Contractor for an equitable adjustment hereunder shall be allowed if asserted after final payment under this Contract.

5-1.41 **CONTRACTOR REGISTRATION.** No contractor or subcontractor may work on a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5. During the performance of this Contract, the Contractor and its subcontractors shall have a continuing legal obligation to maintain current

registration with the Department of Industrial Relations. The Contractor is hereby notified that this project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.

5-1.42 **CITY OF ROSEVILLE ENCROACHMENT PERMITS AND RIGHTS-OF-WAY.** The Contractor need not obtain a separate encroachment permit from the City prior to construction within street rights-of-way or other City rights-of-way. Execution of the Contract by the City shall be deemed an encroachment permit for work required by the Contract within rights-of-way. All work shall conform to the rules and regulations of encroachment permits and shall be subject to the inspection and approval of the Director and City Engineer.

To the extent indicated in the Contract Drawings, the City will provide the rights-of-way over private lands or the site to enable the Contractor to perform its work. The Contractor shall be solely responsible for securing any additional rights-of-way desired by the Contractor. The City will not be a party to nor assume any liability for any separate agreements reached between the Contractor and any third parties with respect to these additional rights-of-way. The Contractor shall procure evidence that agreements are in place with said third parties before the Contractor uses those areas covered by the agreements. Any damage to such private lands caused by the Contractor's operations shall be the sole responsibility of the Contractor.

SECTION 6

PROSECUTION AND PROGRESS

6-1.01 **SUBLETTING AND SUBCONTRACTING.** The Contractor shall be

responsible for all Work performed under the Contract. The Contractor shall give its personal attention to the fulfillment of the Contract and shall keep the Work under its control. Nothing in the Contract Documents shall create any contractual relationship between the City and any Subcontractor. The Contractor is fully responsible to the City for the acts and omissions of its Subcontractors of any tier. When any Subcontractor fails to prosecute a portion of the Work in a manner satisfactory to the Director, that Subcontractor shall not again be employed on the Work. Although the sections of the Contract may be arranged according to various trades, or general grouping of the Work, the Contractor is not obligated to sublet the Work in such manner. The Director will not arbitrate disputes among Subcontractors or between Contractor and one or more Subcontractors concerning responsibility for performing any part of the Work.

The on-site production of materials produced by other than the Contractor's own forces shall be considered as subcontracted. The erection, establishment or reopening of on-site plants for production of materials and the operation thereof in the production of materials for use on the Work shall conform to the requirements relating to labor set forth in the Contract Documents.

The Contractor shall also be responsible for coordinating the Work performed by Subcontractors and Suppliers.

The Contractor shall not substitute any person as Subcontractor in place of a Subcontractor listed on its bid proposal without the written approval of the Director. Substitutions must be in accordance with the provisions of the "Subletting and Subcontracting Fair Practices Act" beginning with Public Contract Code Section 4100. Violations of this Act by the Contractor may subject it to penalties which may include cancellation of Contract, Assessment of ten percent (10%) of the Subcontractor's bid, and disciplinary action by the Contractors State License Board.

The Contractor shall pay any Subcontractors approved by the City for work that has been satisfactorily performed no later than seven (7) Days from the date of Contractor's receipt of progress payments by the City. Within seven (7) Days after receipt from the City of funds attributable to work performed by a Subcontractor, Contractor shall release any retainage payments withheld to the Subcontractor. In the event Contractor does not make progress payments or release retention to Subcontractors in accordance with the time period specified herein, Contractor may be subject to prompt payment penalties per statute.

6-1.02 **ASSIGNMENT.** The performance of this Contract may not be assigned, except upon the written consent of the City Council of the City of Roseville. Consent will not be given to any proposed assignment which would relieve the original Contractor or its surety of their responsibilities under the Contract nor will the City consent to any assignment of a part of the Work under the Contract.

The Contractor may assign moneys due or to become due to it under the Contract and such assignment will be recognized by the City, if given proper notice thereof, to the extent permitted by law, but any assignment of moneys shall be subject to all proper set-offs in favor of the City and to all deductions provided for in the Contract and particularly all money withheld, whether assigned or not, shall be subject to being used by the City for the completion of the Work in the event that the Contractor should be in default therein.

6-1.03 **BEGINNING OF WORK.** After the execution of the Contract by both parties, the City will issue the Notice to Proceed upon its determination that it is appropriate for the Contract Time to commence.

The Contractor shall begin Work within fifteen (15) Days after receiving the Notice to Proceed from the Director, subject to the requirements stated elsewhere in the Contract

Documents regarding, among other things, the submittal of Baseline Schedule, and shall diligently prosecute the same to completion within the time limit provided in the Supplemental Conditions. Contractor shall also achieve any and all Contract milestones as described elsewhere in the Contract Documents.

The Contractor shall notify the Director, in writing, of its intent to begin Work at least seventy-two (72) hours before Work is begun. The notice shall be delivered to the Director and shall specify the date the Contractor intends to start. If the project has more than one (1) location of Work, a separate notice shall be given for each location.

The Contractor is not authorized to perform any Work until it has received a Notice to Proceed from the City. Should the Contractor begin Work in advance of receiving notice that the Contract has been approved as above provided, any Work performed by it in advance of the said date of approval shall be considered as having been done by the Contractor at its own risk and as a volunteer unless said Contract is so approved thereafter.

6-1.04 **PROGRESS SCHEDULE.**

A. **Preliminary Progress Schedule.** The Contractor shall submit to the Director, within twenty (20) Days after date of the Notice to Proceed, a Preliminary Progress Schedule covering the Contractor's activities over the first three (3) months of operation in detail and the remainder of the project in summary. The Preliminary Progress Schedule shall schedule the project within the Contract Time for completion of the Work, and shall be subject to favorable review by the Director.

B. **CPM Schedule.** The Contractor shall submit an acceptable Critical Path Method (CPM) Schedule to the Director within thirty (30) Days after the receipt of the Notice to Proceed. Subsequent revisions to said schedule shall be submitted as set forth hereinafter. The

requirement for the CPM schedule is included to allow for adequate planning and execution of the Work, to determine the critical nature of delays, and to assist the Director in appraising the reasonableness of the proposed schedule and evaluating progress of the Work. The CPM schedule submitted under this Section shall utilize a CPM format, either the precedence or arrow diagramming method. The definitions of CPM terms and functions shall be as provided in the Associated General Contractors of America book *CPM in Construction, A Manual for General Contractors*, or a favorably reviewed alternative publication or reference. No progress payment will be made prior to submission and acceptance of the CPM Schedule.

1. The CPM schedule system shall consist of diagrams and accompanying mathematical analyses. The diagrams shall show elements of the project in detail and an entire project summary. Diagrams shall show the order and interdependence of activities and sequence in which the Work is to be accomplished as planned by the Contractor. The basic concept of a network analysis diagram shall be followed to show how the start of a given activity is dependent on the completion of preceding activities and its completion restricts the start of following activities. Detailed network activities shall include, in addition to construction activities, the submittal and favorable review of samples of material and Shop Drawings, the procurement of critical materials and equipment, fabrication of special material and equipment, and their Installation and testing. All activities of the City and the Director that affect progress and required Contract dates for completion of all or parts of the Work shall be shown. The selection and number of activities shall be subject to favorable review by the Director. Summary networks shall be time scaled. Durations shall be in Days and shall not exceed fifteen (15) Days, except for submittal and delivery items. Where the duration of continuous Work exceeds fifteen (15) Days, Work items in the Construction Schedule shall be subdivided by location,

approximate stationing or other sub-element of the Work.

The graphic network diagram shall include for each activity, the description, activity number, the estimated duration in Days, and all activity relationship lines. The network diagram shall be drawn for the early start of activities. All significant Submittals shall be scheduled along with manual Submittals and training on all large or critical pieces of equipment. If the precedence technique is utilized, the schedule project shall include a calendar in Work Days, a network report sorted by early start and a logic table report sorted by preceding Work item. If the arrow technique is utilized, the schedule report shall include a calendar in Work Days, a network report sorted by early start, a network report sorted by I-J numbers, and a network sorted by slack time and I-J numbers.

2. The critical path shall be shown on all reports and on the graphic network diagram. The activities which constitute the critical path shall be identified.

3. The mathematical analysis of the network diagram shall include a tabulation of each activity. The following information shall be furnished as a minimum for each activity:

- (a) preceding and following event numbers
- (b) activity description and number
- (c) estimated duration of activities
- (d) earliest start date (by calendar date)
- (e) earliest finish date (by calendar date)
- (f) actual start date (by calendar date)
- (g) actual finish date (by calendar date)
- (h) latest start date (by calendar date)

- (i) latest finish date (by calendar date)
- (j) slack or float
- (k) percentage of activity completed

4. The program shall be capable of accepting revised completion dates as modified by approved time adjustments and recomputations of all tabulation dates and float accordingly.

5. Submission and review of the system shall be as follows:

(a) The complete network analysis system, consisting of the detailed network mathematical analysis and network diagrams, shall be submitted within thirty (30) Days after receipt of the Notice to Proceed.

(b) The Contractor shall participate in a review and evaluation of the proposed network diagrams and analysis by the Director. Any revisions necessary as a result of this review shall be resubmitted for review by the Director within ten (10) Days. When completed, the favorably reviewed schedule shall then be the schedule to be used by the Contractor for planning, organizing and directing the Work and for reporting progress. If the Contractor thereafter desires to make significant changes in its method of operating and scheduling, the Contractor shall notify the Director in writing stating the reasons for the change.

(c) The Contractor shall submit at monthly intervals a report of the actual construction progress. Each monthly report shall cover a period of approximately thirty (30) Days ending around the 20th of each month. The monthly reports shall be submitted within ten (10) Days of the end of the reporting period.

(1) If the project is proceeding on schedule, the monthly update report may consist of a marked-up copy of the graphical network diagram. This

submittal shall clearly indicate the status of any minor shifts in sequence or schedule and the estimated completion date or percent complete of all activities currently in progress. The Contract completion date shall also be indicated. The Contractor shall submit a narrative report relating to status of construction, the schedule, and factors which may affect the remainder of the schedule. The report shall show the activities or portions of activities completed during the reporting period. The report shall state the percentage of the Work actually completed and scheduled as of the report date and the progress along the critical path in terms of Days ahead or behind the allowable dates.

(2) If, in the opinion of the Director, the project is behind schedule, the monthly report shall include a revised network diagram and/or mathematical analysis showing the Contractor's proposed revised schedule. An analysis of the effect that the delay has on progress along other paths shall also be included in the report. The Contractor shall also submit a narrative report with each updated analysis which shall include but not to be limited to a description of current and anticipated problem areas, delaying factors and their impact, and an explanation of corrective actions taken or proposed.

(3) Periodic report shall be submitted in sufficient copies to cover Contractor needs plus five (5) copies and an available electronic copy to be retained by the Director.

6. To the extent that the favorably reviewed initial Construction Schedule, or revisions thereto, indicate anything not jointly agreed upon, it shall be deemed to be not favorably reviewed by the Director. Any omission of Work from the detailed schedule, otherwise required for Contract compliance, will not excuse the Contractor from completing

such Work within any applicable completion date. The CPM schedule shall be generated by computer methods.

C. Schedule Review. Once each month, on a date mutually agreed upon, but no later than seven (7) business days after the monthly schedule progress report date, a Work Site meeting will be held to review the Construction Schedule and job progress. The Contractor shall also attend weekly meetings scheduled by the Director to review the progress of the Work in the preceding week and in the subsequent week, coordinate the Work with public agencies or other Contractors as required, and allow the Director to plan his or her activities for testing, inspection, etc.

D. Schedule Revisions. The conditions under which the Director will require revisions of the Construction Schedule include the following:

1. When delay in completion of any Work item or sequence of Work items results in an estimated extension of project completion by either twenty (20) business days or by ten percent (10%) of the remaining duration of time to complete the Contract, whichever is less.

2. When delays in Submittals or deliveries make replanning or rescheduling of the Work necessary.

3. When the schedule does not represent actual prosecution and progress of the Work.

4. When any change to the sequence of activities, the completion date for major portions of the Work, or when changes occur which affect the critical path.

5. When Contract Amendments or a Change Order necessitates schedule revision, the Contractor shall submit a schedule analysis of all Change Order Work

with its proposal.

E. Cash Flow Projection. A cash flow projection shall be submitted with the Construction Schedule. This cash flow projection shall be revised and resubmitted when revisions of the Construction Schedule will result in changes to the projected cash flow.

F. Schedules showing project completion dates earlier than specified in the Supplemental Conditions will be rejected unless justification can be provided for early completion.

6-1.05 **SCHEDULE OF VALUES.** Prior to preparation of the first estimate for a progress payment, the Contractor shall submit for favorable review by the Director a detailed Schedule of Values or cost breakdown of the Work under each bid item awarded. The breakdown will then become the basis for partial payment determination. Elements of Work shall be grouped by structure, pipeline, system, etc. Within each grouping, Work should be itemized by readily measurable quantities of Work complete in place. For example, concrete should be in units of cubic yards including form Work and reinforcing steel. Move-on costs, bond and insurance costs, and Overhead costs shall not be considered an item of cost for this purpose but shall be prorated over items of Work. In the event the Schedule of Values is not favorable reviewed by the Director, another Schedule of Values shall be submitted that is mutually acceptable to the Contractor and the Director.

6-1.06 **CITY'S RIGHT TO STOP WORK.** The Director shall have the authority to order the Contractor, in writing, to suspend the Work wholly or in part, for such period as the Director may deem necessary due to the failure on the part of the Contractor to correct Work that is not in accordance with the requirements of the Contract Documents or if Contractor persistently fails to carry out Work in accordance with the Contract Documents.

The Contractor shall immediately comply with the written order of the Director to suspend the Work wholly or in part. The suspended Work shall be resumed when conditions are favorable and methods are corrected, as ordered or approved in writing by the Director.

Any stoppage of work under this section shall be at the Contractor's sole expense, and the Contractor shall have no claim against the City based on the Contractor's failure to perform the Work in accordance with the Contract Documents.

In addition to the City's right to stop Work, the City may order the Contractor to submit to the City at no additional cost to the City, additional information concerning Contractor's planned Work if the Contractor fails to promptly correct Work that is not in accordance with the requirements of the Contract Documents or persistently fails to carry out Work in accordance with the Contract Documents. The additional information ordered by the City may include, but is not limited to, preparation of Submittals or Working Drawings not otherwise required to be submitted under the Contract Documents.

In the event the City discovers that the Contractor has created an unsafe condition the City may arrange for other work forces to remedy the condition. Such remedial work shall be at the sole discretion of the City. If this action is required, the City may unilaterally terminate Work under the Contract, and will pay only for the quantities of Work actually performed, less the cost of the City's remedial Work. In the event that Work is not halted, the Contractor must take immediate steps to correct the situation. There will be no extra payment for Work required to correct unsafe conditions.

The right of the City to suspend the Work shall not give rise to a duty on the part of the City to exercise this right for the benefit of the Contractor or any other person or entity. This right shall be in addition to and not in restriction or derogation of the City's other rights under

the Contract Documents.

In the event of a suspension of Work under any of the conditions set forth in this Section 6-1.06, such suspension of Work shall not relieve the Contractor of its legal responsibilities as set forth in these General Conditions.

6-1.07 **TIME OF COMPLETION.** The Contractor shall complete the entire Work, including Installation, repairs, startup, troubleshooting, painting, and touchup, training, submittal or record drawings, and manuals, cleanup, demobilization, and all other Work within the number of Days set forth in the Supplemental Conditions. The time for completion includes an allowance for working time lost due to normal inclement weather.

Extensions of time may be allowed for unusual inclement weather under the provisions hereinafter described. Unusual inclement weather is weather which adversely affects “controlling” operations or the critical path of construction and which meets one of the following criteria:

A. For the particular calendar month in question, the number of individual Days with rainfall exceeding 0.10 inches exceeds the average number of such Days for that month over the immediately preceding five (5) years of record by at least three (3) Days.

B. For the particular calendar month in question, the total cumulative rainfall for that month exceeds the average cumulative rainfall for that month over the immediately preceding five (5) years of record by at least two inches (2”).

Rainfall shall be measured at a publicly operated, maintained, and reported station in reasonable proximity to the construction site. A claim for delay shall indicate the period of rainfall which is claimed as “unusual,” the specific dates during which the unusual rainfall and subsequent wet soil conditions prevented Work, and the specific critical path tasks adversely

affected by such unusual weather. A claim for delay due to unusual inclement weather shall be filed within ten (10) Days of the apparent end of the unusual inclement rainfall period, whether or not the monthly totals are available at that time. The burden of proof that weather meets the criteria for unusual weather shall be solely the responsibility of the Contractor.

It is the responsibility of the Contractor to order materials required for the Work properly and promptly on a Notice to Proceed. If evidence presented demonstrates that, in spite of the Contractor's efforts, government-established priorities controls delay material deliveries, suitable extension of time will be made.

If performance of extra Work ordered by the City or failure of the City to provide the necessary site for Installation affects construction tasks which are “controlling” or which are on the “critical path” of the Construction Schedule, suitable extensions of time will be made.

The Contractor shall not be entitled to a time extension for delays in activities on non-critical paths of the favorably reviewed schedule unless the duration of the excusable delay exceeds the total float of the activities being delayed. If the duration of an excusable delay does exceed the total float of the activities affected by the delay, the Contractor shall be entitled to an extension equal to the difference.

C. Determination that a day is a non-working day by reason of inclement weather or conditions resulting immediately therefrom, shall be made by the Director.

6-1.08 **LIQUIDATED DAMAGES.** It is agreed by the parties to the Contract that in case all the Work called for under the Contract in all parts and requirements is not completed within the number of Days as set forth in the Supplemental Conditions, damage will be sustained by the City and that it is and will be impracticable and extremely difficult to ascertain and determine the actual damage which the City will sustain in the event of and by

reason of such delay; and it is therefore agreed that the Contractor will pay to the City, the monetary amount indicated in the Supplemental Conditions in dollars (U.S.) per day for each and every calendar day of delay in completing the Work in excess of the number of Days prescribed and the number of additional calendar days, if any, authorized by Contract Change Order; and the Contractor agrees to pay said Liquidated Damages herein provided for, and further agrees that the City may deduct the amount thereof from any moneys due or that may become due the Contractor under the Contract.

It is further agreed that in case the Work is not finished and completed in all parts and requirements within the number of Days specified, the City shall have the right to increase the number of Days or not, as it may deem best to serve the interest of the City, and if it decides to increase the said number of Days, it shall further have the right to charge to the Contractor, its heirs, assigns or sureties and to deduct from the final payment for the Work all of any part, as it may deem proper, of the actual cost of engineering, inspection, superintendence, and other Overhead expenses which are directly chargeable to the Contract, and which accrue during the period of such extension, except that cost of preparation of final statement shall not be included in such charges.

6-1.09 **DELAYS AND EXTENSIONS TO THE WORK.** The Contractor must complete all Work within the time specified in the Agreement. The Contractor will be granted an extension of time and will not be assessed with liquidated damages or the cost of engineering and inspection for any delay in substantially completing the Work (or parts thereof) beyond the time set forth in the Agreement, provided that such delay was caused by unforeseeable causes beyond the control and without the fault or negligence of the Contractor. Examples of such causes include acts of public enemy, fire, floods, abnormal weather (as described below),

earthquakes, epidemics, quarantine restrictions, strikes, labor disputes and freight embargoes, fire, changes made pursuant to the provisions of “Changes in the Work” under Section 3 of these General Conditions or acts or neglect of the City not contemplated by the Contract Documents.

In all cases, any extension of time is conditioned on the following:

1. That the cause is not due to the fault or negligence of the Contractor, and the Contractor has taken reasonable precautions to prevent and minimize the effects thereof; and
2. That the Contractor notifies the Director in writing within three (3) Days from the beginning of such delay specifying the nature of the delay and the measures that have been or will be taken to prevent or minimize the delay. Failure to submit written notice within this time period shall constitute an absolute waiver of any claim for a time extension.

No extension of time will be granted for a delay caused by a shortage of materials, unless the Contractor furnishes to the City documentary proof that it has diligently made every effort to obtain such materials from all known sources within reasonable reach of the work and further proof, as acceptable to the Director, that the inability to obtain such materials when originally planned did in fact cause a delay in Final Completion of the entire Work which could not be compensated for by revising the sequence of the Contractor’s operations. Only the physical shortage of material will be considered as a cause for extension of time, and no consideration will be given to any claim that material could not be obtained at a reasonable, practical or economical cost or price, unless it is shown to the satisfaction of the City that such material could have been obtained only at exorbitant prices entirely out of line with current rates, taking into account the quantities involved and the usual practices in obtaining such quantities.

No extension of time will be granted for a delay caused by Contractor's staff turnovers, understaffing or insufficient quantity of qualified staff able to perform the necessary work.

The term "shortage of materials," as used in this section, shall apply only to materials, articles, parts or equipment which are standard items and shall not apply to materials, parts, articles or equipment which are processed, made, constructed, fabricated or manufactured to meet the specific requirements of the Contract Documents.

No extensions of time will be granted for delays that have no measureable impact on the completion of the Work (or parts thereof) under the Contract Documents. When extensions of time are granted, they will be limited to the period equivalent to the actual number of Days lost on the critical path or controlling operations of the Construction Schedule, taking into account the extent to which that delay could be decreased by reasonable mitigation measures by the Contractor. All requests for extensions of time must be supported with a critical path analysis showing the critical path and impacts to it. Contractor's failure to submit this analysis will be sufficient cause for denial of any request for a time extension.

Within a reasonable period of time after the Contractor submits the notice and information required by this section, the City will determine whether an extension of time is justified and, if so, the number of days for the extension.

Abnormal weather may be a valid basis for a time extension under the Agreement. "Abnormal Weather" occurs when the number of days of rain above 0.5 inches in a 24 hour period exceeds the average for such rainfall in a particular month as determined by the National Weather Service. The Contractor will only be entitled to, at most, a time extension for the number of days of rain exceeding the average for that month in the locale where the Work is to be performed. If delays are caused by the Contractor or those for whom the Contractor is

responsible, the Contractor will only be entitled to, at most, a time extension for the number of rain days exceeding the average for the month when the Work should have been performed.

In addition, before a time extension may be granted for abnormal weather, the Contractor must establish that the rain either significantly impacted at least sixty percent (60%) of the planned work of the controlling operations for a particular day or prohibited at least five (5) hours of work on the controlling operations planned for that day. Contractor shall employ reasonably methods to mitigate the impact of abnormal weather (i.e., dewatering, protection of site, etc.) The occurrence of rain during non-work hours or having minimal impact to work on the controlling operation shall not constitute a day of abnormal weather.

In the event that the project experiences favorable weather for a particular month (e.g., the number of actual rain days in a month less than that indicated above for allowable rain days per months), the additional float resulting from such favorable weather shall accrue to the project.

Any Contractor claim for damages or additional compensation based on delay shall be limited to only those circumstances where the Contractor has fulfilled each of the following three (3) requirements:

1. Contractor has established its entitlement to a time extension pursuant to the provisions described above regarding delay and extensions to the Work.
2. The delay was caused solely by the City's issuance of changes made pursuant to the provisions of "Changes in the Work" under Section 3 of these General Conditions or by acts or neglect of the City.
3. The delay was unreasonable under the circumstances and not within the contemplation of the parties.

It is expressly understood and agreed that delays caused by the City will be non-compensable when there are concurrent delays caused by the Contractor. Also, the Contractor shall have no entitlement to additional compensation for any delay where there have been concurrent delays caused by non-compensable delays, including, but not limited to, fire, floods, earthquakes, epidemics, quarantine restrictions, strikes, labor disputes, and freight embargoes.

Contractor's damages and/or additional compensation for delays will consist solely of the extended costs of maintaining the Contractor's Work Site presence. The Contractor will not be entitled to any extended home office overhead.

Compensation for idle time of equipment will be determined in the same manner as determinations are made for equipment used in the performance of extra work paid for on a Force Account basis with the following exceptions:

1. The time for which compensation will be paid will be the actual normal working hours during which such delay conditions exists, but in no case will exceed eight (8) hours in any one day.
2. The days for which compensation will be paid will be each calendar day of the work week (defined elsewhere in the Contract Documents) and Legal Holidays, during the existence of such delay, except that when rental of the equipment is paid for under the provisions in Section 3-1.06C, "Force Account Payment – Equipment," of these General Conditions, no payment will be made for delays in accordance with the provisions of this section.

Actual loss shall be understood to include no items of expense other than idle time of personnel, cost of extra moving of equipment, and cost of longer hauls. Compensation for idle time of equipment will be determined as provided in this section and compensation for idle time

of personnel will be determined pursuant to Section 3-1.06A, “Force Account Payment – Labor,” of these General Conditions. No markup will be added in either case for Overhead and profit. The cost of extra moving of equipment and the cost of longer hauls will be paid for as extra work as provided pursuant to “Changes to the Work” elsewhere in the Contract Documents.

6-1.10 **TERMINATION.**

6-1.10A **TERMINATION OF AGREEMENT – CONVENIENCE OF**

CITY. The Department reserves the right to terminate the Contract at any time and for any reason if the Director determines that to do so would be in the best interest of the City. Any termination which is not based on the circumstances set forth in Section 6.1-10B below shall be effected by delivery to the Contractor of a Notice of Termination specifying the extent to which performance of Work under the Contract is terminated, and the date upon which such termination becomes effective.

Upon the Contractor’s receipt of a written Notice of Termination for convenience, the Contractor shall cease Work as to those portions of the project so terminated and shall undertake the steps outlined in Section 6-1.10B below.

1. Acceptance of the Contract as hereinafter specified shall not relieve the Contractor of responsibility for damage to materials except as follows:
 - a. The Contractor's responsibility for damage to materials for which partial payment has been made as provided in Section 7-1.07, “Progress Payments,” of these General Conditions and for materials furnished by the City for use in the Work and unused shall terminate when the Director certifies that such materials have been stored in the manner and at the locations he or she has directed.

- b. The Contractor's responsibility for damage to materials purchased by the City subsequent to the issuance of the notice that the Contract is to be terminated shall terminate when title and delivery of such materials has been taken by the City.
- c. When the Director determines that the Contractor has completed the Work under the Contract directed to be completed prior to termination and such other Work as may have been ordered to secure the project for termination, the Contractor will recommend that the City formally accept the Work, and immediately upon and after such Acceptance by the City, the Contractor will not be required to perform any further Work thereon and shall be relieved of its contractual responsibilities for injury to persons or damage to property which occurs after the formal Acceptance of the project by the City.

2. The total compensation to be paid to the Contractor shall be determined by the Director on the basis of the following:

- a. The reasonable cost to the Contractor, without profit, for all Work performed under the Contract, including mobilization, demobilization and Work done to secure the project for termination. Reasonable cost will include a reasonable allowance for project Overhead and general administrative Overhead not to exceed a total of seven percent (7%) of Direct Costs of such Work.
- b. A reasonable allowance for profit on the cost of the Work performed as determined under subsection (a), provided the Contractor establishes to the

satisfaction of the Director that it is reasonably probable that it would have made a profit had the Contract be completed and provided further, that the profit allowed shall in no event exceed four percent (4%) of said cost.

- c. The reasonable cost to the Contractor of handling material returned to the vendor, delivered to the Department or otherwise disposed of as directed by the Director.
- d. A reasonable allowance for the Contractor's administrative costs in determining the amount payable due to termination of the Contract.

All records of the Contractor and the Contractor's Subcontractors, necessary to determine compensation in accordance with this Section, shall be open to inspection or audit by representatives of the Department at all times after issuance of the notice that the Contract is to be terminated and for a period of three (3) years, and such records shall be retained for that period.

After Acceptance of the Work by the Director, the Director may make payments on the basis of interim estimates pending issuance of the Final Statement, when in his or her opinion the amount thus paid, together with all amounts previously paid or allowed, will not result in total compensation in excess of that to which the Contractor will be entitled. All payments, including payment upon the Final Statement, shall be subject to deduction for prior payments and amounts, if any, to be kept or retained under the provisions of the Contract.

In the event that the City terminates this Contract under Section 6-1.10B below and it is determined for any reason that there was not sufficient cause to do so, the City's termination automatically will convert to a termination for convenience under this section and the terms and conditions outlined in this section automatically will be applied to effectuate the Contract

termination. Thus, damages to which a Contractor may be entitled as a result of an improper default termination will be limited to the amounts provided for in this section.

The provisions of this section shall be included in all subcontracts.

6-1.10B **TERMINATION OF AGREEMENT - FOR CAUSE.** An

“Event of Default” as referred to in this section shall occur if the Contractor:

1. Fails to maintain progress of the Work in accordance with the requirements of the Contract Documents; or
2. Fails to prosecute the Work or any of its components in accordance with the Contract Documents; or
3. Persistently or repeatedly fails or refuses to supply sufficient properly skilled workers or proper material to permit the performance of the Work in accordance with the Contract Documents; or
4. Fails to make prompt payment to Subcontractors or Suppliers in accordance with the respective agreements between the Contractor and the Subcontractor and Contractor and Supplier; or
5. Fails to comply with applicable laws, ordinances or rules, regulations or orders of a public authority having jurisdiction over the Work; or
6. Abandons, assigns or sublets the Contract without approval of the City; or
7. Becomes bankrupt or is subject to appointment of a receiver on behalf of the Contractor; or
8. Otherwise is guilty of a substantial breach of a provision of the Contract Documents.

Upon the City’s reasonable belief that there has been an Event of Default by the Contractor, the City may elect to give the Contractor written notice thereof. The Contractor

thereafter shall cure the default as soon as possible and in no event after ten (10) Days from the Contractor's receipt of the City's written notice.

If the Contractor does not timely cure its default, the City may, without waiver of any of its other rights and remedies, elect to terminate the Contract, or portion thereof.

Upon the City's election to terminate the Contract, or portion thereof, the City shall have the right to complete the Work, or portion involved, by whatever means and methods it deems expedient, including the hiring of others on such terms as the City deems advisable. The City shall have the right to take possession of the Contractor's materials, plant, tools, equipment and property of any kind provided by or on behalf of the Contractor for the purpose of the Work, or a portion of them, without being responsible to the Contractor for wear and tear. The Contractor shall have no rights in such property during its use by the City. The City shall not be required to obtain the lowest prices for completing the Work or a portion of it but shall make such expenditures as, in the City's sole judgment, best accomplish such completion.

The expense of completing such Work or portion thereof, together with a reasonable charge for engineering, managerial and administrative services, as certified by the City, shall be charged to the Contractor, and the expense so charged shall be deducted by the City out of such monies as may be due or may at any time thereafter become due to the Contractor. In case such expense is more than the sum which otherwise would have been payable to the Contractor under the Agreement, then the Contractor or its surety or sureties shall promptly pay the amount of such excess so due. When the City terminates the Contract under this section, the Contractor shall not be entitled to receive any further payments until the Work is completed and there has been a final settlement of costs of completing the Work covered by such notice of default.

The City will issue to the Contractor a written notice specifying that the Contract, or

portion thereof, is terminated. Upon receipt of said written notice and, except as otherwise directed in writing by the City, the Contractor shall:

1. Stop all Work under the Contract; or if partial termination, stop Work relating to the terminated portion of the Agreement;
2. Perform Work the City deems necessary to secure the Work Site for termination including measures to leave the Work Site in a safe condition;
3. Remove equipment from the site of Work, as specified by the City;
4. Take such action as is reasonably necessary to protect materials from damage;
5. Notify all Subcontractors and Suppliers that the Contract or portion thereof is being terminated and that their contracts or orders are not to be further performed unless otherwise authorized in writing by the City;
6. Provide the City with an inventory list of all materials previously produced, purchased or ordered from Suppliers for use in the Work and not yet used in the Work, including its storage location, and such other information as the City may request;
7. Dispose of materials not used in the Work as directed by the Director. It shall be the Contractor's responsibility to provide the City (a) with good title to all materials purchased by the City hereunder, including materials for which partial payment has been made by the City and (b) with bills of sale or other documents of title for such materials;
8. Subject to the prior written approval of the City, settle all outstanding liabilities and all claims arising out of Subcontractors or orders for materials terminated hereunder.

To the extent directed by the City, the Contractor shall assign to the City all rights,

- title and interests of the Contractor under subcontracts or orders for materials terminated hereunder. The City shall be at liberty to negotiate with and engage any Subcontractors who had contracted with the Contractor for the Work;
9. Furnish the City with the documentation required to be furnished by the Contractor under the provisions of the Contract Documents, including, on projects as to which Federal funds are involved, all documentation required under the Federal requirements included in the Agreement; and
 10. Take such other actions as the City may direct.

If only a portion of the Work has been terminated, the Contractor shall perform the remainder of the Work in conformity with the Contract Documents and in such a manner as not to interfere with the City or others in their performance and completion of the portion of the Work which was terminated.

The City may recover from the Contractor the amount of any loss or damage, including consequential damages, suffered or incurred as a result of the Contractor's default.

SECTION 7

ACCEPTANCE AND PAYMENT

7-1.01 **ACCEPTANCE.** When the Contractor believes that the entire Work is fully and finally completed, including the satisfactory completion of inspections, tests, and documentation specified in the Contract Documents and completion of all punch list and clean-up items, the Contractor shall submit to the City a written request for final Acceptance within fifteen (15) Days thereafter, specifying that the Work is fully and finally completed and the date on which it was completed. Within thirty (30) Days after receipt of the request for final Acceptance, the City will inspect the Work and will either:

1. Reject the request for final Acceptance, specifying the defective and/or uncompleted portions of the Work; or
2. Notify the Contractor that the Work will be accepted by Resolution of the City Council of the City of Roseville, and a Notice of Completion will be caused to be recorded by the City Clerk; or
3. Notify the Contractor that the Work has been accepted by the City but no Notice of Completion will be recorded.

If the City rejects the request for final Acceptance, the Contractor shall promptly remedy the defective and/or uncompleted portions of the Work. Thereafter, the Contractor shall again submit a written request for final Acceptance of the Work, specifying a new date based on the date the defective and/or uncompleted portions of the Work were corrected. Thereafter, the foregoing procedure shall apply successively until the City has verified that the Work is fully and finally completed and accepted the Work by Resolution of the City Council or by written

notification from the Director. Immediately upon such Acceptance, the Contractor shall be relieved of the duty of maintaining the Work as a whole.

All warranties commence upon final Acceptance of the Work. The City's final Acceptance of the Work shall not be construed as an acceptance by the City of any latent defects discovered with regard to the Contractor's work. Furthermore, Contractor's obligations under Section 5-1.22 "Responsibility for Damage and Indemnification" shall still remain applicable after the City's grant of final Acceptance of the Work.

Prior to final Acceptance, the Contractor shall submit to the City the Record Documents and Operation and Maintenance Manuals as specified in the Contract Documents.

7-1.02 **SCOPE OF PAYMENT.** The Contractor shall accept the compensation provided in the Contract as full payment for furnishing all labor, materials, tools, equipment, and incidentals necessary to the completed Work and for performing all Work contemplated and embraced under the Contract; also for loss or damage arising from the nature of the Work, or from the action of the elements, or from any unforeseen difficulties which may be encountered during the prosecution of the Work until the Acceptance by the Director and for all risks of every description connected with the prosecution of the Work, also for all expenses incurred in consequence of the suspension or discontinuance of the Work as provided in the Contract; and for completing the Work according to the Contract. Neither the payment of any estimate nor of any retained percentage shall relieve the Contractor of any obligation to make good any defective Work or material.

No compensation will be made in any case for loss of anticipated profits.

7-1.03 **NOTICE OF POTENTIAL CLAIM.** The Contractor shall not be entitled to the payment of any additional compensation for any act or failure to act by the City,

including failure or refusal to issue a Change Order, or for the happening of any event, thing, occurrence or other cause unless the Contractor has given the City due written Notice of Potential Claim as hereinafter specified, provided, however, that compliance with this Section 7-1.03 shall not be a prerequisite as to matters within the scope of the notice provisions in Section 6-1.07, "Time of Completion," or the notice provisions in Section 6-1.08, "Liquidated Damages," of these General Conditions, nor to any claim which is based on differences in measurement or errors of computation as to correct quantities.

The written Notice of Potential Claim shall set forth the reasons for which the Contractor believes additional compensation will or may be due, the nature of the costs involved, and, insofar as possible, the amount of the potential claim. The said Notice as above required must have been given to the Director prior to the time that the Contractor shall have performed the Work giving rise to the potential claim for additional compensation, if based on an act or failure to act by the Director, or in all other cases within seven (7) Days after the happening of the event, thing, occurrence or other cause giving rise to the potential claim.

If the Notice of Potential Claim does not include complete information about the claim or the parties do not execute a Contract Change Order in connection with the Notice of Potential Claim, Contractor shall submit complete information about its claim for additional compensation and/or extension of time for performance within fifteen (15) Days after such work is performed. Failure to provide written notice of claim prior to undertaking such work or failure to timely submit a complete and specific information about the claim for additional compensation and/or extension of the time for performance shall be deemed a waiver and abandonment of such claim.

If there is a dispute over any claim, the Contractor shall continue to Work during the dispute resolution process in a diligent and timely manner as directed by the City, and shall be

governed by all applicable provision of the Agreement.

The Contractor shall maintain cost records of all Work that is the basis of any dispute. On a daily basis, Contractor shall submit to City completed daily forms, the format of which will be acceptable to the City, with respect to the Contractor's costs of performing the disputed work. These daily forms shall itemize all of Contractor's costs in performing the disputed work, including, but not limited to, all costs relating to materials, labor and equipment with respect to the disputed work. These daily forms shall provide names or identification and classification of affected workers, the hourly rate of pay and hours worked, and also the size, type, and identification number of equipment and hours operated. Said daily work forms shall be duly signed and verified by the Contractor or its authorized representative. The City's receipt of the Contractors' daily forms shall not constitute an approval of the Contractor's claim. Contractor's failure to submit the daily forms on a daily basis shall constitute a waiver of the Contractor's right to claim any additional compensation for the disputed work.

Each Contractor claim shall include full and complete information concerning the Claim. Contractor shall provide a clear, concise recital of the basis, upon which the claim is asserted, including a designation of the provisions of the Contract Documents upon which the claim is based. Contractor shall also include a statement as to the amount of time and/or compensation sought pursuant to the claim; if Contractor's claim arises from an ongoing occurrence, Contractor shall so state in its claim, including a description of the specific Work activities affected by the claim. All costs, expenses or damages and extensions of time claimed shall be described in reasonable detail under the circumstances together with complete supporting documentation.

The City will review any timely Notice of Potential Claim and supporting information

submitted by Contractor. In conducting this review, the City shall have the right to require the Contractor to submit such additional or supporting documents, data and other information as the City may require.

If an agreement can be reached which resolves the Contractor's claim, the parties will execute a Contract Change Order to document the resolution of the claim. If the parties cannot reach agreement with respect to the Contractor's claim, the Contractor shall still be obligated to comply with the claim identification provisions identified in these General Conditions, including but not limited to Section 7-1.04.

It is the intention of this Section 7-1.03 that differences between the parties arising under and by virtue of the Contract be brought to the attention of the Director at the earliest possible time in order that such matters may be settled, if possible, or other appropriate action promptly taken. The Contractor hereby agrees that it shall have no right to additional compensation for any Claim that may be based on any such act, failure to act, event, thing or occurrence for which no timely written Notice of Potential Claim as herein required was filed.

7-1.04 **CLAIMS.** Contractor must submit all Claims, for which it has previously submitted a Notice of Potential Claim, prior to Acceptance of the Work. Each such Claim must be sent to the City by registered mail or certified mail with return receipt requested and must contain reasonable documentation to support the Claim.

Upon receipt of a Claim, the City shall conduct a reasonable review of the Claim and, within a period not to exceed forty-five (45) Days, or such further time as mutually agreed upon or necessary pursuant to Public Contract Code Section 9204, the City shall provide the Contractor a written statement identifying what portion of the Claim is disputed and what portion is undisputed. If the City does not respond to a Claim from the Contractor within the time

specified herein, such Claim shall be deemed rejected in its entirety.

Any payment due on an undisputed portion of the Claim shall be processed and made within sixty (60) Days after the City issues its written statement.

If the Contractor disputes the City's written response, or if the City does not respond within the time specified herein, the Contractor may demand in writing an informal conference to meet and confer for settlement of the issues in dispute. Upon receipt of a demand in writing sent by registered mail or certified mail, return receipt requested, the City shall schedule a meet and confer conference within thirty (30) Days for settlement of the dispute.

Within ten (10) business days following the conclusion of the meet and confer conference, if the claim or any portion of the claim remains in dispute, the City shall provide the Contractor a written statement identifying the portion of the Claim that remains in dispute and the portion that is undisputed. Any payment due on an undisputed portion of the Claim shall be processed and made within sixty (60) Days after the City issues its written statement. Any disputed portion of the Claim, as identified by the Contractor in writing, shall be submitted to nonbinding mediation, with the City and the Contractor sharing the associated costs equally. The City and the Contractor shall mutually agree to a mediator within ten (10) business days after the disputed portion of the Claim has been identified in writing. If the parties cannot agree upon a mediator, each party shall select a mediator and those mediators shall select a qualified neutral third party to mediate with regard to the disputed portion of the Claim. Each party shall bear the fees and costs charged by its respective mediator in connection with the selection of the neutral mediator. If mediation is unsuccessful, the parts of the Claim remaining in dispute shall be resolved in accordance with Section 7-1.05 below.

7-1.05 **DISPUTE RESOLUTION PROCEDURE.** All Claims not resolved

pursuant to Section 7-1.04, shall be resolved pursuant to Public Contract Code Section 10240, et seq.

7-1.06 **STOP PAYMENT NOTICES.** The City, by and through the Department or other appropriate office or officers, may at its option and at any time retain out of any amounts due the Contractor, sums sufficient to cover claims, filed pursuant to Civil Code Section 9350, et seq., including an amount to provide for the reasonable cost of any litigation thereunder.

7-1.07 **PROGRESS PAYMENTS.** Within fifteen (15) Days after the effective date in the Notice to Proceed, but in any event prior to Contractor's first Application for Payment, the Contractor shall submit to the City a detailed Schedule of Values.

Upon its approval, the Schedule of Values will form a basis for determining the compensation payable to the Contractor based on its actual progress of Work with respect to each Lump Sum bid item. The City, prior to any progress payment being made, must approve the Schedule of Values.

At the Director's discretion the approved Schedule of Values may be used as the basis for calculating the adjustment in compensation for a lump sum bid item due to changes ordered by the Director. When an ordered change increases or decreases the quantities shown in an approved Schedule of Values, at the Director's discretion, the adjustment in compensation may be determined in the same manner specified for increases and decreases in the quantity of a bid item of work in accordance with Section 3-1.05(B), "Contract Price Adjustment," of these General Conditions.

The Contractor once in each month shall submit an Application for Payment, for approval by the Director. Contractor's Applications shall be based on the Schedule of Values submitted to the City. These applications shall be supported by: (1) documentation requested by the City to

substantiate the payment request; (2) statutory releases from Contractor and all Subcontractors and suppliers pursuant to Civil Code Sections 8132 and 8138; and (3) certified payroll records for the period for which payment is requested. Specifically, the Contractor will submit conditional waivers upon progress payment executed by all contractors and suppliers that will be receiving sums sought in the instant payment request and also submit unconditional waivers upon progress payment executed by all contractors and suppliers that have been paid to the date of the payment request. The Contractor shall certify that the Work for which payment is requested has been accomplished. When requested by the City, the Contractor shall submit receipts, invoices and other documentation that the City requires to be furnished for purpose of evaluating the application.

The City will pay the Contractor within thirty (30) Days after its receipt of an undisputed and properly submitted Application for Payment, after deducting all previous payments, retention, and other sums as described in the Contract Documents. Within seven (7) Days of its receipt of the Contractor's Application for Payment, the City will determine whether it complies with the provisions of the Contract Documents. As appropriate, the City will return the application to the Contractor accompanied by a document prepared by the City setting forth the reasons for the rejection. Thereafter, the Contractor shall correct and resubmit the Application for Payment. Progress payments may be withheld for Work that is not performed in accordance with the Contract Documents.

The City may deduct the following from each progress payment:

1. An amount equal to one hundred and twenty-five percent (125%) of the amount claimed under any stop payment notice or other lien filed against the Contractor, which includes an amount to provide for the reasonable cost of any litigation

thereunder.

2. Any Liquidated Damages or Assessments that have accrued as of the date of the Application for Payment.
3. Any sums expended by the City in performing any of the Contractor's obligations under the Agreement that the Contractor has failed to perform.
4. Any other sums that the City is entitled to recover from the Contractor under the terms of the Contract including damages to the City's property.
5. The failure of the City to deduct any of the above identified sums from a progress payment shall not constitute a waiver of the City's right to such sums.

No such estimate or payment shall be construed to be an acceptance of any defective Work or improper materials.

Under no circumstances will the City make payment to unlicensed Contractors. As a condition of payment, the Contractor is required to maintain the applicable Contractor's license as identified in the Notice to Contractors for the duration of the Work.

7-1.08 **PAYMENT FOR MATERIALS AND EQUIPMENT ON HAND.**

Partial payments may be made to the extent of seventy-five percent (75%) of the cost of materials and equipment plus delivery to be incorporated in the Work, provided that such materials and equipment meet the requirements of the Contract Documents and are delivered to acceptable sites on the plant site or at other sites in the vicinity that are acceptable to the City and only with the prior written approval by the City. Such delivered costs of stored or stockpiled materials and equipment may be included in the next progress payment after the following conditions are met:

- A. Equipment and materials will only be eligible if given conditional or final

Acceptance by the Director and are in apparent compliance with favorably reviewed Submittals.

B. Only equipment or materials which have received favorable review of Shop Drawings will qualify.

C. The material or equipment has been stored or stockpiled adequately protected against damage in a manner acceptable to the Director at an approved site.

D. The Contractor has furnished the Director with acceptable evidence of the quantity and the quality of such stored or stockpiled materials or equipment with identification of where they will be incorporated into the project with Specification reference.

E. The Contractor has furnished the Director with satisfactory evidence that the material or equipment and transportation costs have been paid.

F. The Contractor has furnished the City legal title (free of liens or encumbrances of any kind) and lien releases to the material or equipment so stored or stockpiled.

G. The Contractor has furnished the City evidence that the material or equipment so stored or stockpiled is insured against loss by damage to or disappearance of such materials at any time prior to use in the Work.

It is understood and agreed that the transfer of title and the City payment for such stored or stockpiled materials or equipment shall in no way relieve the Contractor of its responsibility for furnishing and placing such materials or equipment in accordance with the requirements of the Contract Documents.

In no case will the amount of progress payments for materials or equipment on hand exceed the Contract Price for such materials or equipment or the Contract Price for the Contract item in which the material is intended to be used.

No partial payment will be made for stored or stockpiled living or perishable plant

materials.

The Contractor shall bear all costs associated with the progress payment of stored or stockpiled materials or equipment in accordance with the provisions of this Section.

7-1.09 **RETENTION ON PROGRESS PAYMENTS.** From each progress payment estimate, five percent (5%) will be deducted and held in retention by the City. The remainder, less any deductions described in Section 7-1.07, “Progress Payments,” of these General Conditions, will be paid to the Contractor as progress payments.

Pursuant to Public Contract Code Section 22300, the successful Bidder may submit Securities in lieu of retention payments by the City. Upon the Contractor’s request, the City will make payment of funds withheld from progress payments, pursuant to the requirements of California Public Contract Code Section 22300, if the Contractor deposits in escrow with the City or with a bank acceptable to the City, securities eligible for investment under California Government Code Section 16430, bank or savings and loan certificates of deposit, interest bearing demand deposit accounts, standby letters of credit, or any other security mutually agreed to by the Contractor and the City, upon the following conditions:

1. The Contractor shall bear the expenses of the City and the escrow agent in connection with the escrow deposit made.
2. Securities or certificates of deposit to be placed in escrow shall be of a value at least equivalent to the amounts of retention to be paid to the Contractor pursuant to this section.
3. Contractor shall enter into an escrow agreement satisfactory to the City, which agreement shall be substantially similar to the form provided in California Public Contract Code section 22300.

4. The Contractor shall obtain the written consent of the surety to such agreement.

7-1.10 **FINAL PAYMENT.** Final payment will be made only after Contractor has achieved Final Completion of the Work pursuant to the provisions of Section 7-1.01, “Acceptance,” of these General Conditions. Before final payment can be made, the Contractor shall have furnished the City with the following:

1. All Record Documents, catalogues, instruction sheets and information as required by the Contract Documents.
2. Conditional Waivers and Releases Upon Final Payment executed by Contractor and all Subcontractors and Suppliers, as provided by Civil Code Section 8136. Unconditional Waivers and Releases Upon Final Payment, as provided in Civil Code Section 8138, executed by Contractor and all Subcontractors and Suppliers, must be provided for all Subcontractors and Suppliers that have been paid in full.

Within thirty (30) Days of the date of the City’s Acceptance of the Work, the Contractor shall prepare and submit a Final Invoice, showing the proposed total amount due the Contractor, segregated by Bid item quantities, Change Order Work, and other basis for payments; deductions made or to be made for prior payment; and amounts previously retained. Prior invoices and payments shall be subject to correction in the proposed Invoice for Final Payment. Payments to the Contractor will be made only for actual quantities of the Contract items of work constructed in accordance with the Contract Documents.

The City will review the Contractor’s proposed Final Invoice and necessary changes or corrections will be forwarded to the Contractor. Within ten (10) Days thereafter, the Contractor

shall submit a revised proposed Final Invoice incorporating changes or corrections made by the City together with any new claims resulting therefrom. Upon approval by the City, the corrected proposed Final Invoice will become the approval Final Invoice.

If agreements are reached on all questions regarding the Final Invoice, the City will pay the entire sum found due on the approved application. However, the City will withhold sums sufficient to pay all unsettled claims for which stop payment notices have been filed pursuant to Section 9350, et seq. of the California Civil Code, together with the reasonable cost of any litigation thereunder.

Final payment will be made within thirty (30) Days after receipt of an approved Final Invoice and other required Submittals referenced above or within sixty (60) Days after Acceptance of the work by the City, whichever is later, provided, however, that if an approved Final Invoice has not been submitted within sixty (60) Days after Acceptance of the Work by the City, the City may elect to make payment of sums not in dispute without prejudice to the right of either the City or the Contractor in connection with such disputed sums. Notwithstanding the foregoing, if a Notice of Completion is recorded, final payment shall not be made prior to the expiration of the thirty-five (35) calendar day lien period. The start of this lien period is the date the Placer County Recorder's Office records the Notice of Completion.

The City may withhold from the Final Payment an amount not to exceed one hundred fifty percent (150%) of any amount in dispute between the City and the Contractor.

The making of Final Payment shall not operate to release the Contractor or its sureties from obligations arising under the Contract, the Contract bonds and warranties as herein provided. Specifically, the making of final payment shall not constitute a waiver and release of claims by the City arising from:

1. Unsettled or future liens;
2. Failure of the Work to comply with the requirements of the Contract Documents;
3. The terms of any warranties required by or contained in the Contract Documents;
4. The right to any insurance proceeds or the right to make any insurance or bond claims;
5. Any claims with respect to Contractor's obligations of indemnity with respect to claims asserted by third parties; or
6. Any latent deficiencies with the Work or Contractor's fraud.

7-1.11 **CLERICAL ERRORS.** Notwithstanding the provisions of Section 7-1.10, "Final Payment," of these General Conditions, for a period of three (3) years after Acceptance of the Work, all estimates and payments made pursuant to said Section 7-1.10, are subject to correction for clerical errors in the calculations involved in the determination of quantities and payments. The Contractor and the City agree to pay to the other any sum due under the provisions of this Section 7-1.11, provided, however, if the total sum to be paid is less than \$100, no such payment shall be made.

7-1.12 **WARRANTY.** Notwithstanding inspections and Acceptance by the City of Work furnished under the Contract Documents, the Contractor hereby unconditionally guarantees that all materials and equipment furnished will be of good quality and new, that the Work will be free from defects in workmanship and materials and that the Work will conform to the requirements of the Contract Documents. Work not conforming to these requirements, including substitutions not properly approved and authorized, may be considered defective.

This warranty by the Contractor is in addition to any warranties or guarantees required elsewhere in the Contract Documents. This warranty shall be in effect notwithstanding any disclaimers, or limiting or conditional terms contained in such separate warranties furnished by manufacturers or suppliers.

The Contractor hereby agrees to repair or replace any and all Work, together with any other adjacent Work which may be displaced in so doing, that may prove to be not in accordance with the requirements of the Contract or that may be defective in its workmanship or material during the greater of a period of one (1) year after Acceptance of the Work by the City or the period specified in the Special Conditions, without any expense whatsoever to the City, ordinary wear and tear and unusual abuse or neglect excepted.

The Contractor further agrees, that within ten (10) Days after being notified in writing by the Department of any Work not in accordance with the requirements of the Contract Documents or of any defects in the Work, the Contractor will commence and prosecute with due diligence all Work necessary to fulfill the terms of this warranty, and to complete such Work within a reasonable period of time. In the event Contractor fails to comply, it does hereby authorize the Department to proceed to have such Work done at the Contractor's expense and the Contractor will honor and pay the cost and charges therefore upon demand. The Department shall be entitled to all costs and expenses, including reasonable attorneys' fees, necessarily incurred upon the Contractor's refusal to honor and pay the above costs and charges.

All warranties set forth in the Contract Documents shall be deemed cumulative and not alternative or exclusive. Nothing contained in this section shall be construed to establish a period of limitation with respect to any other obligation, which Contractor has under the Contract Documents or under any separate warranty or guaranty required thereby. The establishment of a

specific warranty period relates only to the specific obligation of Contractor to correct defective Work, and it has no relationship to the time within which its obligation to comply with the Contract Documents or applicable provision of law may be sought to be enforced, nor to the time within which proceedings may be commenced to establish Contractor's liability with respect to its obligations other than specifically to correct the Work. Without limiting the foregoing, it is understood and agreed that Contractor shall remain responsible for latent defects with its work, regardless of the expiration of any warranty period set forth in the Contract Documents.

7-1.13 **WARRANTY OF TITLE.** No material, supplies, or equipment for the Work under this Contract shall be purchased subject to any chattel mortgage, security agreement, or under a conditional sale or other agreement by which an interest therein or any part thereof is retained by the seller or supplier. The Contractor warrants good title to all material, supplies, and equipment Installed or incorporated in the Work and agrees upon completion of all Work to deliver the Premises, together with all improvements and appurtenances constructed or placed thereon by it, to the City free from any claim, liens, security interest, or charges, and further agrees that neither the Contractor nor any person, firm, or corporation furnishing any materials or labor for any Work covered by this Contract shall have any right to a lien upon the Premises or any improvement or appurtenances thereon. Provided, that this shall not preclude the Contractor from Installing metering devices and other equipment of utility companies, the title of which is commonly retained by the utility company. In the event of the Installation of any such metering device or equipment, the Contractor shall advise the City as to the legal owner thereof. Nothing contained in this paragraph, however, shall defeat or impair the right of such persons furnishing materials or labor under any bond given by the Contractor for their protection or any rights under any law permitting such persons to look to funds due the Contractor in the hands of the City.

The provisions of this paragraph shall be inserted in all subcontracts and material Contracts, and notice of its provisions shall be given to all persons furnishing materials for the Work when no formal Contract is entered into for such materials.

[END OF GENERAL CONDITIONS]

TEXT OF AB 626

Assembly Bill No. 626

CHAPTER 810

An act to add and repeal Section 9204 of the Public Contract Code, relating to public contracts.

[Approved by Governor September 29, 2016. Filed with Secretary of
State September 29, 2016.]

LEGISLATIVE COUNSEL'S DIGEST

AB 626, Chiu. Public contracts: claim resolution.

Existing law prescribes various requirements regarding the formation, content, and enforcement of state and local public contracts. Existing law applicable to state public contracts generally requires that the resolution of claims related to those contracts be subject to arbitration. Existing law applicable to local agency contracts prescribes a process for the resolution of claims related to those contracts of \$375,000 or less.

This bill would establish, for contracts entered into on or after January 1, 2017, a claim resolution process applicable to any claim by a contractor in connection with a public works project. The bill would define a claim as a separate demand by the contractor for one or more of the following: a time extension for relief from damages or penalties for delay, payment of money or damages arising from work done pursuant to the contract for a public work, or payment of an amount disputed by the public entity, as specified.

This bill would require a public entity, defined to exclude certain state entities, upon receipt

of a claim sent by registered or certified mail, to review it and, within 45 days, provide a written statement identifying the disputed and undisputed portions of the claim. The bill would authorize the 45-day period to be extended by mutual agreement. The bill would require any payment due on an undisputed portion of the claim to be processed within 60 days, as specified. The bill would require that the claim be deemed rejected in its entirety if the public entity fails to issue the written statement.

This bill would authorize, if the claimant disputes the public entity's written response or if the public entity fails to respond to a claim within the time prescribed, the claimant to demand to meet and confer for settlement of the issues in dispute. The bill would require any disputed portion of the claim that remains in dispute after the meet and confer conference to be subject to nonbinding mediation, as specified. The bill would provide that unpaid claim amounts accrue interest at 7% per annum. The bill would prescribe a procedure by which a subcontractor or lower tier contractor may make a claim through the contractor.

This bill would require the text of these provisions, or a summary, to be set forth in the plans or specifications for any public work which may give rise to a claim. The bill would specify that a waiver of these rights is void and contrary to public policy, except as specified. The bill would also specify that it does not impose liability on a public entity that makes loans or grants available through a competitive application process, for the failure of an awardee to meet its contractual obligations.

By increasing the duties of local agencies and officials, this bill would impose a state-mandated local program.

This bill would, on January 1, 2020, repeal the provision establishing the claim resolution

process.

This bill would specify that these provisions constitute a matter of statewide concern.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

The people of the State of California do enact as follows:

SECTION 1. Section 9204 is added to the Public Contract Code, to read:

9204. (a) The Legislature finds and declares that it is in the best interests of the state and its citizens to ensure that all construction business performed on a public works project in the state that is complete and not in dispute is paid in full and in a timely manner.

(b) Notwithstanding any other law, including, but not limited to, Article 7.1 (commencing with Section 10240) of Chapter 1 of Part 2, Chapter 10 (commencing with Section 19100) of Part 2, and Article 1.5 (commencing with Section 20104) of Chapter 1 of Part 3, this section shall apply to any claim by a contractor in connection with a public works project.

(c) For purposes of this section:

(1) "Claim" means a separate demand by a contractor sent by registered mail or certified mail with return receipt requested, for one or more of the following:

(A) A time extension, including, without limitation, for relief from damages or penalties for

delay assessed by a public entity under a contract for a public works project.

(B) Payment by the public entity of money or damages arising from work done by, or on behalf of, the contractor pursuant to the contract for a public works project and payment for which is not otherwise expressly provided or to which the claimant is not otherwise entitled.

(C) Payment of an amount that is disputed by the public entity.

(2) "Contractor" means any type of contractor within the meaning of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code who has entered into a direct contract with a public entity for a public works project.

(3) (A) "Public entity" means, without limitation, except as provided in subparagraph (B), a state agency, department, office, division, bureau, board, or commission, the California State University, the University of California, a city, including a charter city, county, including a charter county, city and county, including a charter city and county, district, special district, public authority, political subdivision, public corporation, or nonprofit transit corporation wholly owned by a public agency and formed to carry out the purposes of the public agency.

(B) "Public entity" shall not include the following:

(i) The Department of Water Resources as to any project under the jurisdiction of that department.

(ii) The Department of Transportation as to any project under the jurisdiction of that department.

(iii) The Department of Parks and Recreation as to any project under the jurisdiction of that department.

(iv) The Department of Corrections and Rehabilitation with respect to any project under its jurisdiction pursuant to Chapter 11 (commencing with Section 7000) of Title 7 of Part 3 of the

Penal Code.

(v) The Military Department as to any project under the jurisdiction of that department.

(vi) The Department of General Services as to all other projects.

(vii) The High-Speed Rail Authority.

(4) "Public works project" means the erection, construction, alteration, repair, or improvement of any public structure, building, road, or other public improvement of any kind.

(5) "Subcontractor" means any type of contractor within the meaning of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code who either is in direct contract with a contractor or is a lower tier subcontractor.

(d) (1) (A) Upon receipt of a claim pursuant to this section, the public entity to which the claim applies shall conduct a reasonable review of the claim and, within a period not to exceed 45 days, shall provide the claimant a written statement identifying what portion of the claim is disputed and what portion is undisputed. Upon receipt of a claim, a public entity and a contractor may, by mutual agreement, extend the time period provided in this subdivision.

(B) The claimant shall furnish reasonable documentation to support the claim.

(C) If the public entity needs approval from its governing body to provide the claimant a written statement identifying the disputed portion and the undisputed portion of the claim, and the governing body does not meet within the 45 days or within the mutually agreed to extension of time following receipt of a claim sent by registered mail or certified mail, return receipt requested, the public entity shall have up to three days following the next duly publicly noticed meeting of the governing body after the 45-day period, or extension, expires to provide the claimant a written statement identifying the disputed portion and the undisputed portion.

(D) Any payment due on an undisputed portion of the claim shall be processed and made

within 60 days after the public entity issues its written statement. If the public entity fails to issue a written statement, paragraph (3) shall apply.

(2) (A) If the claimant disputes the public entity's written response, or if the public entity fails to respond to a claim issued pursuant to this section within the time prescribed, the claimant may demand in writing an informal conference to meet and confer for settlement of the issues in dispute. Upon receipt of a demand in writing sent by registered mail or certified mail, return receipt requested, the public entity shall schedule a meet and confer conference within 30 days for settlement of the dispute.

(B) Within 10 business days following the conclusion of the meet and confer conference, if the claim or any portion of the claim remains in dispute, the public entity shall provide the claimant a written statement identifying the portion of the claim that remains in dispute and the portion that is undisputed. Any payment due on an undisputed portion of the claim shall be processed and made within 60 days after the public entity issues its written statement. Any disputed portion of the claim, as identified by the contractor in writing, shall be submitted to nonbinding mediation, with the public entity and the claimant sharing the associated costs equally. The public entity and claimant shall mutually agree to a mediator within 10 business days after the disputed portion of the claim has been identified in writing. If the parties cannot agree upon a mediator, each party shall select a mediator and those mediators shall select a qualified neutral third party to mediate with regard to the disputed portion of the claim. Each party shall bear the fees and costs charged by its respective mediator in connection with the selection of the neutral mediator. If mediation is unsuccessful, the parts of the claim remaining in dispute shall be subject to applicable procedures outside this section.

(C) For purposes of this section, mediation includes any nonbinding process, including, but

not limited to, neutral evaluation or a dispute review board, in which an independent third party or board assists the parties in dispute resolution through negotiation or by issuance of an evaluation. Any mediation utilized shall conform to the timeframes in this section.

(D) Unless otherwise agreed to by the public entity and the contractor in writing, the mediation conducted pursuant to this section shall excuse any further obligation under Section 20104.4 to mediate after litigation has been commenced.

(E) This section does not preclude a public entity from requiring arbitration of disputes under private arbitration or the Public Works Contract Arbitration Program, if mediation under this section does not resolve the parties' dispute.

(3) Failure by the public entity to respond to a claim from a contractor within the time periods described in this subdivision or to otherwise meet the time requirements of this section shall result in the claim being deemed rejected in its entirety. A claim that is denied by reason of the public entity's failure to have responded to a claim, or its failure to otherwise meet the time requirements of this section, shall not constitute an adverse finding with regard to the merits of the claim or the responsibility or qualifications of the claimant.

(4) Amounts not paid in a timely manner as required by this section shall bear interest at 7 percent per annum.

(5) If a subcontractor or a lower tier subcontractor lacks legal standing to assert a claim against a public entity because privity of contract does not exist, the contractor may present to the public entity a claim on behalf of a subcontractor or lower tier subcontractor. A subcontractor may request in writing, either on his or her own behalf or on behalf of a lower tier subcontractor, that the contractor present a claim for work which was performed by the subcontractor or by a lower tier subcontractor on behalf of the subcontractor. The subcontractor requesting that the

claim be presented to the public entity shall furnish reasonable documentation to support the claim. Within 45 days of receipt of this written request, the contractor shall notify the subcontractor in writing as to whether the contractor presented the claim to the public entity and, if the original contractor did not present the claim, provide the subcontractor with a statement of the reasons for not having done so.

(e) The text of this section or a summary of it shall be set forth in the plans or specifications for any public works project that may give rise to a claim under this section.

(f) A waiver of the rights granted by this section is void and contrary to public policy, provided, however, that (1) upon receipt of a claim, the parties may mutually agree to waive, in writing, mediation and proceed directly to the commencement of a civil action or binding arbitration, as applicable; and (2) a public entity may prescribe reasonable change order, claim, and dispute resolution procedures and requirements in addition to the provisions of this section, so long as the contractual provisions do not conflict with or otherwise impair the timeframes and procedures set forth in this section.

(g) This section applies to contracts entered into on or after January 1, 2017.

(h) Nothing in this section shall impose liability upon a public entity that makes loans or grants available through a competitive application process, for the failure of an awardee to meet its contractual obligations.

(i) This section shall remain in effect only until January 1, 2020, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2020, deletes or extends that date.

SECTION 2.

The Legislature finds and declares that it is of statewide concern to require a charter city, charter county, or charter city and county to follow a prescribed claims resolution process to ensure there are uniform and equitable procurement practices.

SECTION 3.

If the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code.

Above documents are available at: www.roseville.ca.us

2. Numbering in these Supplemental Conditions conforms to that in the General Conditions. The existence of a section in these Supplemental Conditions means that the corresponding section in the General Conditions is modified in some respect. Unless otherwise specified, the modified General Condition is deleted entirely and the provisions of these Supplemental Conditions are substituted.

SECTION 1. DEFINITIONS AND TERMS

1-1.21 **CONTRACT TIME.** Section 1-1.21 of the General Conditions is replaced with the following:

The number of Days, or portion thereof, allowed for completion of the Work, including all authorized time extensions. Contract Time is based on calendar Days which includes weekend and Legal Holidays. The effective date for commencement of the Work specified in the Notice to Proceed shall define the beginning of the Contract Time.

1-1.24 **DEPARTMENT.** Section 1-1.24 of the General Conditions is amended to include the following:

The Department for Contract Administration is the Environmental Utilities Department of the City of Roseville.

SECTION 2. CONTROL AND SCOPE OF THE WORK

2-1.08 **SUBMITTALS.** Section 2-1.08 of the General Conditions is amended to include the following:

The Contractor shall submit all material submittals within the timelines included in the Specifications.

The time allowed for review of each submittal is 14 Days after receipt of the submittal by the Director.

SECTION 3. CHANGES IN THE WORK

There are no amendments to the General Conditions.

SECTION 4. CONTROL OF MATERIALS

There are no amendments to the General Conditions.

SECTION 5. LEGAL RELATIONS AND RESPONSIBILITY

5-1.14 **AIR POLLUTION CONTROL AND ASBESTOS.** Section 5-1.14 of the General Conditions is amended to include the following:

To the best of the City's knowledge, asbestos is not present in the vicinity of the Project. Additional information shall be made available to Contractor upon request.

5-1.19 **PERMIT AND LICENSES.** Section 5-1.19 of the General Conditions the General Conditions is amended to include the following:

The Contractor acknowledges and agrees that, prior to the submission of its' bid for Work, it fully familiarized itself with the applicable Avoidance and Minimization Measures of the City's Streambed Alteration Agreement for Routine Maintenance (Notification No. 1600-2016-0099-R2) with the California Department of Fish & Wildlife, which shall be made available to the Contractor upon request. For all Work performed within a dedicated riparian area, the Contractor shall adhere to the following measures:

2.29 **Decontamination Sites.** Contractor shall perform decontamination of vehicles, watercraft, and other project gear and equipment in a suitable location (i.e. City Corporation Yard) where runoff can be contained and not allowed to pass into Department jurisdictional areas and other sensitive habitat areas.

2.31 **Minimize Vehicle Parking.** Vehicles may enter and exit the work area as necessary for project activities, but may not be parked overnight within ten (10) feet of the drip line of any trees; nor shall vehicles be parked where mechanical fluid leaks may potentially enter the waters of the state.

2.34 Operating Equipment and Vehicle Leaks. Any equipment or vehicles driven and/or operated within or adjacent to the stream shall be checked and maintained daily to prevent leaks of materials that could be deleterious to aquatic and terrestrial life or riparian habitat.

2.35 Stationary Equipment Leaks. Stationary equipment such as motors, pumps, generators, and welders, located within or adjacent to the stream shall be positioned over drip pans or other secondary containment. Stationary heavy equipment shall have suitable containment to handle a catastrophic spill/leak.

2.36 Equipment Maintenance and Fueling. No equipment maintenance or fueling shall be done within or near any stream channel or lake margin where petroleum products or other pollutants from the equipment may enter these areas.

2.41 Mud, Silt and Other Pollutants. Contractor shall prevent water containing mud, silt or other pollutants from grading, aggregate washing, equipment washing, or other activities to enter a lake or stream or to be placed in locations that may be subjected to high storm flows.

2.52 Pollution and Litter. Contractor shall comply with all litter and pollution laws. All contractors, subcontractors, and employees shall also obey these laws and it shall be the responsibility of Permittee to ensure compliance.

2.52.1 Permittee shall not allow water containing mud, silt, or other pollutants from grading, aggregate washing, or other activities to enter a lake, streambed, or flowing stream or be placed in locations that may be subjected to high storm flows.

2.52.2 The Permittee or its contractors shall not dump any litter or

construction debris within the riparian/stream zone. All such debris and waste shall be removed from the worksite daily and properly disposed of at an appropriate disposal site.

2.52.3 Spoil sites shall not be located within a lake, streambed, or flowing stream or locations that may be subjected to high storm flows, where spoil shall be washed back into a lake, streambed, or flowing stream where it will impact streambed habitat and aquatic or riparian vegetation.

2.52.4 Raw cement/concrete or washings thereof, asphalt, paint, or other coating material, oil or other petroleum products, or any other substances which could be hazardous to fish and wildlife resources resulting from project related activities shall be prevented from contaminating the soil and/or entering the waters of the State. These materials, placed within or where they may enter a lake, streambed, or flowing stream by Permittee or any party working under contract or with the permission of Permittee, shall be removed immediately.

2.52.5 No broken concrete, cement, debris, soil, silt, sand, bark, slash, sawdust, rubbish, or washings thereof, oil or petroleum products, or other organic or earthen material from any construction or associated activity of whatever nature shall be allowed to enter into or be placed where it may be washed by rainfall or runoff into waters of the State. When operations are completed, any excess materials or debris shall be removed from the work area. No rubbish shall be deposited within 100 feet of the high water mark of any lake, streambed, or flowing stream.

2.52.6 No equipment maintenance or fueling shall be done within or

near any lake, streambed, or flowing stream where petroleum products or other pollutants from the equipment may enter these areas under any flow.

5-1.23 **INSURANCE COVERAGE.** Replace part 4 of Section 5-1.23 within the General Conditions with the following:

4. Professional Liability: Not required.

SECTION 6. PROSECUTION AND PROGRESS

6-1.04 **PROGRESS SCHEDULE.** Section 6-1.04A of the General Conditions is modified to delete the first sentence and replace with the following:

The Contractor shall submit to the Director, within ten (10) calendar days after date of the Notice to Proceed, a Preliminary Progress Schedule covering the Contractor's activities over the first thirty (30) calendar days of operation in detail and the remainder of the project summary.

6-1.04 **PROGRESS SCHEDULE.** Section 6-1.04F of the General Conditions is amended to include the following:

Progress schedules showing project completion dates more than 30 Days earlier than specified in Section 6-1.07 shall be rejected.

6-1.04 **PROGRESS SCHEDULE.** Amend Section 6-1.04 of the General Conditions to include the following:

G. **3-Week Look-Ahead Schedule.** The Contractor shall prepare and distribute a 3-Week Look Ahead Schedule weekly the day prior to the weekly progress meeting. The schedule shall include the current week as Week 1 and two additional weeks. The 3-Week Look Ahead schedule shall be presented by the Contractor during the weekly construction progress meeting.

6-1.07 **TIME OF COMPLETION.** Section 6-1.07 of the General Conditions is amended to include the following:

The Contractor shall begin Work within 21 business days after receiving a

Notice to Proceed and shall diligently prosecute the Work to completion. The Work shall be completed within the Time of Completion required by the Agreement.

If landscaping plants require an establishment period, that period will be 60 calendar days. Start of the establishment should be as outlined in the Specifications.

6-1.08 **LIQUIDATED DAMAGES.** Section 6-1.08 of the General Conditions is amended to include the following:

The amount of Liquidated Damages is included in the Agreement.

SECTION 7: ACCEPTANCE AND PAYMENT

7-1.02 **SCOPE OF PAYMENT.** Section 7-1.02 of the General Conditions is amended to include the following:

Unless special payment is specifically provided in the Measurement and Payment Section, all incidental work and expense in connection with the Completion of Work under the Contract will be considered a subsidiary obligation of the Contractor and all such costs shall be included in the appropriate items in the Schedule of Bid Items in connection with which costs are incurred.

[END OF SUPPLEMENTAL CONDITIONS]

SPECIAL PROVISIONS

Table of Contents for Special Provisions

Section 1: American Iron and Steel Requirement	<u>SP</u> 1
Section 2: Governor's Executive Order N-6-22 (EO)	2

SECTION 1. AMERICAN IRON AND STEEL REQUIREMENT

American Iron and Steel Requirement P.L. 113-76, Section 436

P.L. 113-76, Consolidated Appropriations Act, 2014 (Act), includes an “American Iron and Steel (AIS)” requirement in section 436 that requires Clean Water State Revolving Loan Fund (CWSRF) and Drinking Water State Revolving Loan Fund (DWSRF) assistance recipients to use iron and steel products that are produced in the United States for projects for the construction, alteration, maintenance, or repair of a public water system or treatment works.

The Act states:

Sec. 436. (a)(1) None of the funds made available by a State water pollution control revolving fund as authorized by title VI of the Federal Water Pollution Control Act (33 U.S.C. 1381 et seq.) or made available by a drinking water treatment revolving loan fund as authorized by section 1452 of the Safe Drinking Water Act (42 U.S.C. 300j–12) shall be used for a project for the construction, alteration, maintenance, or repair of a public water system or treatment works unless all of the iron and steel products used in the project are produced in the United States.

(2) In this section, the term “iron and steel products” means the following products made primarily of iron or steel: lined or unlined pipes and fittings, manhole covers and other municipal castings, hydrants, tanks, flanges, pipe clamps and restraints, valves, structural steel, reinforced precast concrete, and construction materials.

(b) Subsection (a) shall not apply in any case or category of cases in which the Administrator of the Environmental Protection Agency (in this section referred to as the “Administrator”) finds that—

(1) applying subsection (a) would be inconsistent with the public interest;

(2) iron and steel products are not produced in the United States in sufficient and reasonably available quantities and of a satisfactory quality; or

(3) inclusion of iron and steel products produced in the United States will increase the cost of the overall project by more than 25 percent.

(c) If the Administrator receives a request for a waiver under this section, the Administrator shall make available to the public on an informal basis a copy of the request and information available to the Administrator concerning the request, and shall allow for informal public input on the request for at least 15 days prior to making a finding based on the request. The Administrator shall make the request and accompanying information available by electronic means, including on the official public Internet Web site of the Environmental Protection Agency.

(d) This section shall be applied in a manner consistent with United States obligations under international agreements.

(e) The Administrator may retain up to 0.25 percent of the funds appropriated in this Act for the Clean and Drinking Water State Revolving Funds for carrying out the provisions described in subsection (a)(1) for management and oversight of the requirements of this section.

(f) This section does not apply with respect to a project if a State agency approves the engineering plans and specifications for the project, in that agency's capacity to approve such plans and specifications prior to a project requesting bids, prior to the date of the enactment of this Act.

The following guidance excerpt has been provided from EPA:

Complete guidance may be downloaded from: <https://www.epa.gov/cwsrf/state-revolving-fund-american-iron-and-steel-ais-requirement>

Covered Iron and Steel Products

11) What is an iron or steel product?

For purposes of the CWSRF and DWSRF projects that must comply with the AIS requirement, an iron or steel product is one of the following made primarily of iron or steel that is permanently incorporated into the public water system or treatment works:

- Lined or unlined pipes or fittings; Manhole Covers;
- Municipal Castings (defined in more detail below); Hydrants;
- Tanks;
- Flanges;
- Pipe clamps and restraints; Valves;
- Structural steel (defined in more detail below); Reinforced precast concrete; and
- Construction materials (defined in more detail below).

12) What does the term 'primarily iron or steel' mean?

'Primarily iron or steel' places constraints on the list of products above. For one of the listed products to be considered subject to the AIS requirements, it must be made of greater than 50% iron or steel, measured by cost. The cost should be based on the material costs.

13) Can you provide an example of how to perform a cost determination?

For example, the iron portion of a fire hydrant would likely be the bonnet, body and shoe, and the cost then would include the pouring and casting to create those components. The other material costs would include non-iron and steel internal workings of the fire hydrant (i.e., stem, coupling, valve, seals, etc.). However, the assembly of the internal workings into the hydrant body would not be included in this cost calculation. If one of the listed products is not made primarily of iron or steel, United States (US) provenance is not required. An exception to this definition is reinforced precast concrete, which is addressed in a later question.

14) If a product is composed of more than 50% iron or steel, but is not listed in the above list of items, must the item be produced in the US? Alternatively, must the iron or steel in such a product be produced in the US?

The answer to both question is no. Only items on the above list must be produced in the US. Additionally, the iron or steel in a non-listed item can be sourced from outside the US.

15) What is the definition of steel?

Steel means an alloy that includes at least 50 percent iron, between .02 and 2 percent carbon, and may include other elements. Metallic elements such as chromium, nickel, molybdenum, manganese, and silicon may be added during the melting of steel for the purpose of enhancing properties such as corrosion resistance, hardness, or strength. The definition of steel covers carbon steel, alloy steel, stainless steel, tool steel and other specialty steels.

16) What does ‘produced in the United States’ mean?

Production in the United States of the iron or steel products used in the project requires that all manufacturing processes, including application of coatings, must take place in the United States, with the exception of metallurgical processes involving refinement of steel additives. All manufacturing processes includes processes such as melting, refining, forming, rolling, drawing, finishing, fabricating and coating. Further, if a domestic iron and steel product is taken out of the US for any part of the manufacturing process, it becomes foreign source material. However, raw materials such as iron ore, limestone and iron and steel scrap are not covered by the AIS requirement, and the material(s), if any, being applied as a coating are similarly not covered. Non-iron or steel components of an iron and steel product may come from non-US sources. For example, for products such as valves and hydrants, the individual non-iron and steel components do not have to be of domestic origin.

17) Are the raw materials used in the production of iron or steel required to come from USsources?

No. Raw materials, such as iron ore, limestone, scrap iron, and scrap steel, can come from non- US sources.

18) If an above listed item is primarily made of iron or steel, but is only at the construction site temporarily, must such an item be produced in the US?

No. Only the above listed products made primarily of iron or steel, permanently incorporated into the project must be produced in the US. For example trench boxes, scaffolding or equipment, which are removed from the project site upon completion of the project, are not required to be made of U.S. Iron or Steel.

19) What is the definition of ‘municipal castings’?

Municipal castings are cast iron or steel infrastructure products that are melted and cast. They typically provide access, protection, or housing for components incorporated into utility owned drinking water, storm water, wastewater, and surface infrastructure. They are typically made of grey

or ductile iron, or steel. Examples of municipal castings are:

- Access Hatches; Ballast Screen;
- Benches (Iron or Steel); Bollards;
- Cast Bases;
- Cast Iron Hinged Hatches, Square and Rectangular; Cast Iron Riser Rings;
- Catch Basin Inlet; Cleanout/Monument Boxes; Construction Covers and Frames; Curb and Corner Guards;
- Curb Openings;
- Detectable Warning Plates; Downspout Shoes (Boot, Inlet);
- Drainage Grates, Frames and Curb Inlets; Inlets;
- Junction Boxes; Lampposts;
- Manhole Covers, Rings and Frames, Risers; Meter Boxes;
- Service Boxes;
- Steel Hinged Hatches, Square and Rectangular; Steel Riser Rings;
- Trash receptacles;
- Tree Grates;
- Tree Guards;
- Trench Grates; and
- Valve Boxes, Covers and Risers.

20) What is 'structural steel'?

Structural steel is rolled flanged shapes, having at least one dimension of their cross-section three inches or greater, which are used in the construction of bridges, buildings, ships, railroad rolling stock, and for numerous other constructional purposes. Such shapes are designated as wide-flange shapes, standard I-beams, channels, angles, tees and zeos. Other shapes include H-piles, sheet piling, tie plates, cross ties, and those for other special purposes.

21) What is a 'construction material' for purposes of the AIS requirement?

Construction materials are those articles, materials, or supplies made primarily of iron and steel, that are permanently incorporated into the project, not including mechanical and/or electrical components, equipment and systems. Some of these products may overlap with what is also considered "structural steel". This includes, but is not limited to, the following products: wire rod, bar, angles, concrete reinforcing bar, wire, wire cloth, wire rope and cables, tubing, framing, joists, trusses, fasteners (i.e., nuts and bolts), welding rods, decking, grating, railings, stairs, access ramps, fire escapes, ladders, wall panels, dome structures, roofing, ductwork, surface drains, cable hanging systems, manhole steps, fencing and fence tubing, guardrails, doors, and stationary screens.

22) What is not considered a 'construction material' for purposes of the AIS requirement?

Mechanical and electrical components, equipment and systems are not considered construction materials. Mechanical equipment is typically that which has motorized parts and/or is powered by a motor. Electrical equipment is typically any machine powered by electricity and includes components that are part of the electrical distribution system. The following examples (including their appurtenances necessary for their intended use and operation) are NOT considered construction materials: pumps, motors, gear reducers, drives (including variable frequency drives

(VFDs)), electric/pneumatic/manual accessories used to operate valves (such as electric valve actuators), mixers, gates, motorized screens (such as traveling screens), blowers/aeration equipment, compressors, meters, sensors, controls and switches, supervisory control and data acquisition (SCADA), membrane bioreactor systems, membrane filtration systems, filters, clarifiers and clarifier mechanisms, rakes, grinders, disinfection systems, presses (including belt presses), conveyors, cranes, HVAC (excluding ductwork), water heaters, heat exchangers, generators, cabinetry and housings (such as electrical boxes/enclosures), lighting fixtures, electrical conduit, emergency life systems, metal office furniture, shelving, laboratory equipment, analytical instrumentation, and dewatering equipment.

23) If the iron or steel is produced in the US, may other steps in the manufacturing process take place outside of the US, such as assembly?

No. Production in the US of the iron or steel used in a listed product requires that all manufacturing processes must take place in the United States, except metallurgical processes involving refinement of steel additives.

24) What processes must occur in the US to be compliant with the AIS requirement for reinforced precast concrete?

While reinforced precast concrete may not be at least 50% iron or steel, in this particular case, the reinforcing bar and wire must be produced in the US and meet the same standards as for any other iron or steel product. Additionally, the casting of the concrete product must take place in the US. The cement and other raw materials used in concrete production are not required to be of domestic origin.

If the reinforced concrete is cast at the construction site, the reinforcing bar and wire are considered to be a construction material and must be produced in the US.

Certification and Compliance

The attached “Contractor’s American Iron and Steel Certification” must be executed and included in Envelope 1 of the bid package. Failure to complete the certification will result in Envelope 2 remaining sealed and the bid being returned. The contractor will supply to the loan recipient manufacturers’ certifications for each iron and steel item documenting/asserting that all manufacturing processes occurred in the United States. Such certifications will be submitted with shop drawings.

Waiver Process

The statute permits EPA to issue waivers for a case or category of cases where EPA finds (1) that applying these requirements would be inconsistent with the public interest; (2) iron and steel products are not produced in the US in sufficient and reasonably available quantities and of a satisfactory quality; or (3) inclusion of iron and steel products produced in the US will increase the cost of the overall project by more than 25 percent.

In order to implement the AIS requirements, EPA has developed an approach to allow for effective and efficient implementation of the waiver process to allow projects to proceed in a timely manner. The framework is described in the guidance document found at:

<https://www.epa.gov/cwsrf/american-iron-and-steel-requirement-waiver-process>

De Minimis Materials Waiver

The EPA has granted a nationwide waiver of the AIS requirements of the Consolidated Appropriations Act under the authority of Section 436(b)(1) (public interest waiver) for de minimis incidental components of eligible infrastructure projects. For many of these incidental components, the country of manufacture and the availability of alternatives is not always readily or reasonably identifiable prior to procurement in the normal course of business; for other incidental components, the country of manufacture may be known but the miscellaneous character in conjunction with the low cost, individually and (in total) as typically procured in bulk, mark them as properly incidental. Examples of incidental components could include small washers, screws, fasteners (i.e., nuts and bolts), miscellaneous wire, corner bead, ancillary tube, etc. Examples of items that are clearly not incidental include significant process fittings (i.e., tees, elbows, flanges, and brackets), distribution system fittings and valves, force main valves, pipes for sewer collection and/or water distribution, treatment and storage tanks, large structural support structures, etc.

Funds used for such de minimis incidental components cumulatively may comprise no more than a total of 5 percent of the total cost of the total materials used in and incorporated into a project; the cost of an individual item may not exceed 1 percent of the total cost of the total materials used in and incorporated into a project. Contractors who wish to use this waiver should determine the costs of all items installed or supplied for the project. The contractor must retain relevant documentation (i.e., invoices) for each of these items in their project files, and must summarize the items in monthly draw requests to the owner: the total cost of all materials, the total cost of “incidental” materials, and the calculations by which they determined the percentage of incidental products installed or supplied for the project. None of the products specifically listed as “Covered Iron and Steel Products” are incidental. None of the products identified in detail in the technical specifications are considered incidental.

Construction Contract Language

All contracts must have a clause requiring compliance with the AIS requirements of the Act. The following is an example of what could be included in all contracts in projects that use SRF funds. No claim regarding the legality of this clause with regard to federal, state or local laws is made.

The Contractor acknowledges to and for the benefit of __ (“Owner”) that it understands

the goods and services under this Agreement are being funded with monies made available by the Clean Water State Revolving Fund that have statutory requirements commonly known as "American Iron and Steel;" that requires all of the iron and steel products used in the project to be produced in the United States ("American Iron and Steel Requirement") including iron and steel products provided by the Contractor pursuant to this Agreement. The Contractor hereby represents and warrants to and for the benefit of the Owner that (a) the Contractor has reviewed and understands the American Iron and Steel Requirement, (b) all of the iron and steel products used in the project will be and/or have been produced in the United States in a manner that complies with the American Iron and Steel Requirement, unless a waiver of the requirement is approved, and (c) the Contractor will provide any further verified information, certification or assurance of compliance with this paragraph, or information necessary to support a waiver of the American Iron and Steel Requirement, as may be requested by the Owner or the State. Notwithstanding any other provision of this Agreement, any failure to comply with this paragraph by the Contractor shall permit the Owner to recover as damages against the Contractor any loss, expense, or cost (including without limitation attorney's fees) incurred by the Owner resulting from any such failure (including without limitation any impairment or loss of funding, whether in whole or in part, from the State or any damages owed to the State by the Owner). While the Contractor has no direct contractual privity with the State, as a lender to the Owner for the funding of its project, the Owner and the Contractor agree that the State is a third-party beneficiary and neither this paragraph (nor any other provision of this Agreement necessary to give this paragraph force or effect) shall be amended or waived without the prior written consent of the State.

CONTRACTOR’S

AMERICAN IRON AND STEEL CERTIFICATION

As the contractor for the Aquifer Storage and Recovery Well Drilling: Campus Oaks (Well 13) and Misty Wood (Well 19) project, I certify that I have read, understand and will comply with the “American Iron and Steel (AIS)” requirements of section 436 of P.L. 113-76, Consolidated Appropriations Act, 2014 (Act) that requires Clean Water State Revolving Loan Fund (CWSRF) and Drinking Water State Revolving Loan Fund (DWSRF) assistance recipients to use iron and steel products that are produced in the United States for projects for the construction, alteration, maintenance, or repair of a public water system or treatment works.

SECTION 2. GOVERNOR NEWSOM EXECUTIVE ORDER N-6-22 (EO)

April, 2022

RE: Contractor and Grantee Compliance with Economic Sanctions Imposed in Response to Russia's Actions in Ukraine

Dear Vendor:

On March 4, 2022, Governor Gavin Newsom issued Executive Order N-6-22 (EO) regarding sanctions in response to Russian aggression in Ukraine. The EO is located at <https://www.gov.ca.gov/wp-content/uploads/2022/03/3.4.22-Russia-Ukraine-Executive-Order.pdf>.

The EO directs all agencies and departments that are subject to the Governor's authority to take certain immediate steps, including notifying all contractors and grantees of their obligations to comply with existing economic sanctions imposed by the U.S. government in response to Russia's actions in Ukraine, as well as any sanctions imposed under state law.

This correspondence serves as a notice under the EO that as a contractor or grantee, compliance with the economic sanctions imposed in response to Russia's actions in Ukraine is required, including with respect to, but not limited to, the federal executive orders identified in the EO and the sanctions identified on the U.S. Department of the Treasury website (<https://home.treasury.gov/policy-issues/financial-sanctions/sanctions-programs-and-country-information/ukraine-russia-related-sanctions>). Failure to comply may result in the termination of contracts or grants, as applicable.

Please note that for any agreements or grants valued at \$5 million or more you must report to the City of Roseville your compliance with economic sanctions including steps you have taken in response to Russia's actions in Ukraine, including, but not limited to, desisting from making new investments in, or engaging in financial transactions with, Russian entities, not transferring technology to Russia or Russian entities, and directly providing support to the government and people of Ukraine.

Sincerely,

DocuSigned by:

SPECIFICATIONS FOR CONSTRUCTION

**Specifications for the Construction of the City of Roseville
2022 Sewer Collection System CIPP Rehabilitation Project**

Prepared by

December 2022

TABLE OF CONTENTS for TECHNICAL SPECIFICATIONS

	<u>Page</u>
Summary of Work	10:1
Measurement and Payment	20:1
Control of Work	30:1
Special Provisions	40:1
Maintenance of Flow in Existing Sewers	50:1
Site Preparation	100:1
Fiberglass/Ultraviolet Light Cured-In-Place Pipe (UV CIPP)	200:1

SECTION 10

SUMMARY OF WORK

PART 1 - GENERAL

1.01 LOCATION OF WORK

- A. The Work is located within the City of Roseville, in the areas shown on the Contract Drawings.

1.02 SCOPE OF WORK

- A. The Work to be performed under this contract shall consist of rehabilitating approximately 18,900 lineal feet of wastewater pipe segments ranging in diameter from 6- to 15- inches, using Ultraviolet Cured-In-Place-Pipe (UV CIPP) lining method. The Work also includes rehabilitating existing 4-inch service lateral connections using UV curable and resin impregnated flexible brim-style lateral seals. All Work performed shall be completed with trenchless technology. The Contractor shall furnish all labor, materials, equipment and incidentals required to construct specified section of the 2022 Sewer Collection System CIPP Rehabilitation Project (Project), in conformance to the most recent version of City of Roseville Design and Construction Standards and as specified for the Contract Documents.

1.03 ABBREVIATIONS AND REFERENCES

Where reference is made to a specification or standard by one of the above-mentioned or other associations, it is understood that the specification or standard in effect at the time of the bid opening shall apply.

1.04 CONSTRUCTION LAYOUT

- A. The Contractor shall furnish at its own expense all stakes, templates, platforms, ranges, gages, equipment, tools, materials, and all labor required in laying out any and all parts of the Work based on information within the Contract Drawings and the physical location of existing sewer manholes, cleanouts and other appurtenances.

1.05 WORK SITE

- A. The Contractor shall confine its operations within the limits of existing street rights-of-way or easements.
- B. The Contractor shall coordinate easement access with the City's Inspector prior to entry.
- C. In the event the Contractor finds it necessary to encroach onto adjoining private property, the Contractor shall make all necessary arrangements with the owner of the property for such encroachment. A copy of any written agreements entered into between Contractor and the property owner concerning encroachment onto private property shall be submitted prior to beginning any work on the property described in the agreement.

END OF SECTION

SECTION 20

MEASUREMENT AND PAYMENT

PART 1 - GENERAL

1.01 GENERAL

- A. All estimated quantities stipulated in the Schedule of Bid Items or other Contract Documents are approximate and are to be only used for the following purposes: (a) as a basis for estimating the probable cost of the Work, and (b) for comparison of the bids submitted for the Work. The actual amounts of work completed and materials furnished under unit price items may differ from the estimated quantities. The basis of payment for Work and materials will be the actual amount of Work completed and materials furnished. Contractor agrees to make no claim for damages, anticipated profits, or otherwise on account of any difference between the amounts of work actually completed and materials actually furnished and the estimated amounts therefore as long as the difference is within 25% (+ or -) of the stated quantities within the Schedule of Bid Items.
- B. Contractor shall take all measurements, if any, and compute all payment quantities (including, for lump sum items, all extensions and arithmetic calculations based on the accepted cost breakdown). The Engineer will verify and approve measurements and quantities.
- C. Additional Payment requirements are contained in Section 7, Acceptance and Payment, of the General Conditions.

1.02 UNITS OF MEASUREMENT

- A. Measurements shall be in accordance with United States Standard Measures.

1.03 UNIT PRICED ITEMS

- A. Materials and items of work which are to be paid for on the basis of measurement will be measured in accordance with the method stipulated in the particular sections involved. In determining quantities, all measurements shall be made in a horizontal plane

unless otherwise specified. Measurement of the completed work shall be in accordance with, and by instruments and devices calibrated to United States Standard Measures, and the units of measurement for payment, and the limit thereof, shall be made as shown on the Contract Drawings, Specifications, General Conditions, and Supplementary Conditions.

1.04 LUMP SUM ITEMS

- A. The quantities of work performed under lump sum bid items will not be measured except to evaluate percent complete for each lump sum bid item as determined by the Engineer to be necessary for the purpose of determining reasonable progress payments. Such measurement, as is determined to be necessary, shall be performed by the Contractor in accordance with Paragraph 1.03 of this Section, UNIT PRICED ITEMS.

PART 2 - DESCRIPTION OF BID ITEMS

2.01 GENERAL

- A. The bid amounts for each bid item will be used for comparative bid analysis. The bid amounts will also form the basis of progress payments. Each Lump Sum bid amount will undergo further breakdown as described later in this section. Bid items are not intended to be exclusive descriptions of work categories and the Contractor shall determine and include in its pricing all materials, labor, and equipment necessary to complete each bid item (work phase) as shown and specified.

2.02 BID ITEM 1 - Mobilization, DEMOBILIZATION, Bonds, Insurance, and Permits

- A. Measurement for payment of mobilization, demobilization, bonds, insurance and permits costs shall be on a lump sum basis. The cost shall not exceed **8 percent** of the total amount of the Grand Total Bid Price.
- B. Payment of the Lump Sum bid price shall be full compensation for all costs associated with initiating the Contract, exclusive of the cost of materials. Payment shall include compensation for all insurance, bonds, site preparation, photographs, furnishing of temporary

facilities, safety plans, submittals, permits (no fee required for City's permit) and in general the costs associated with establishing the Work on site to assure that it is proceeding in a continuous manner, including move out, repairs and restoration of all structures, and all other items in the jobsite that are damaged or altered as a result of the installation of the Work described in the Contract Documents, and final cleanup of job site after the Work is completed and accepted by the City.

2.03 BID ITEMS 2 through 5 – CIPP Liner

A. Measurement

1. Cured-In-Place Pipe (CIPP) of the size specified for each bid item in the Schedule of Bid Items will be measured in place on a linear foot basis. Measurement for payment does not signify that the line is accepted.
2. Measurement of pipelines will be along the horizontal centerline of the pipe to the inside face of structures.
3. Contractor shall determine the minimum tube length necessary to effectively span the designated run between manholes, unless otherwise specified. Contractor shall field verify the lengths in the field prior to curing, to insure that the tube will have sufficient length to extend the entire length of run.

B. Payment

1. Payment for furnishing and installing the CIPP liner will be made for the respective quantities as determined above at the unit price in the Schedule of Bid Items. This price and payment shall be full compensation for cleaning and preparing existing pipe (including Closed Circuit Television [CCTV] inspection and report that is to be submitted prior to installing the liner material), storing material, installing material, bypass pumping, removal and disposal of styrene and other hazardous air pollutant, inspection, CCTV inspection after installing liner, coordination required for Eletroscan inspection by the City, and all else incidental thereto, for which separate payment is not provided under other items in the Schedule of Bid Items.

2. Payment will be made only when the work has passed final Electrosan inspection, as well as acceptance of CIPP liner corresponding hardening documentation, field sample testing, and post-installation CCTV, in addition to the surrounding work area restored to original conditions. No proportional payment shall be made for pipe or other materials on the site but not yet installed and accepted.

2.04 BID ITEM 6 – Lateral Reinstatement

A. Measurement

1. Measurement for lateral connections will be on a per lateral basis for active laterals. Most service laterals will have a cleanout for access. Where a cleanout exist, Contractor shall reinstate the service lateral from outside the sewer main, which may require performing cleaning operations to thoroughly clear the lateral of debris or foreign material to allow for unobstructed deployment of reinstatement equipment. In the case where a cleanout cannot be located, the Contractor shall reinstate the service lateral from inside the sewer main. The Contractor can assume 10% of all service laterals will be missing a cleanout.

B. Payment

1. Payment for lateral reinstatements will be made for the number of “active” service laterals connected as determined above at the unit price bid per the Schedule of Bid Items. This price and payment shall be full compensation for all work necessary to reinstate the lateral and all else incidental thereto for which separate payment is not provided under other items.

2.05 BID ITEM 7 – Cut Lateral Protrusion

A. Measurement

1. Measurement for cutting existing intruding laterals will be on a lump sum basis.

B. Payment

1. Payment of the Lump Sum bid price shall be full compensation for all costs associated with the cutting of the intruding laterals. This price and payment shall be full compensation for all work necessary to cut and remove excess material from the lateral and all else incidental thereto for which separate payment is not provided under other items. No payments will be made without approval and acceptance of Work by the Engineer.

2.06 BID ITEMS 8 through 12 – Top Hat

A. Measurement

1. Top Hat of the size specified for each bid item in the Schedule of Bid Items will be measured on a per lateral installation basis. Measurement for payment does not signify that the Top Hat installed is accepted.

B. Payment

1. Payment for furnishing and installing brim-style lateral seal Top Hats will be made for the respective quantities as determined above at the unit price in the Schedule of Bid Items. This price and payment shall be full compensation for cleaning and preparing existing service lateral (including Closed Circuit Television [CCTV] inspection and report that is to be submitted prior to installing the Top Hat material), storing material, installing material, bypass pumping, removal and disposal of styrene and other hazardous air pollutant, inspection, CCTV inspection after installation, and all else incidental thereto, for which separate payment is not provided under other items in the Schedule of Bid Items.
2. Payment will be made only when the work has passed final inspections, which includes acceptance of Top Hat corresponding field sample testing, and post-installation CCTV, in addition to the surrounding work area restored to original conditions. No proportional payment shall be made for pipe or other materials on the site but not yet installed and accepted.

2.07 BID ITEMS 13 through 29 – Traffic Control

A. Measurement

1. Measurement for payment of traffic control including traffic control plans shall be on a lump sum basis by Area as defined by the Drawings. Traffic control payments shall be paid progressively, per work completed during each payment cycle. The payments shall be pro-rated based on the percent of work completed, including pipe completely lined and laterals reinstated per payment cycle.

B. Payment

1. Payment of the Lump Sum price bid shall be full compensation for all costs associated with traffic control for pedestrian, vehicular, and homeowner safety including traffic control plans, submitted to Public Works Engineering for review and approval.

2.08 BID ITEM 30 – Quality Assurance Field Sample and Testing CIPP Liner

A. Measurement

1. Measurement for the each required Quality Assurance Field Sample and Testing will be on a per sample basis.

B. Payment

1. Payment of the each bid price shall be full compensation for all costs associated with the additional material required to obtain the sample, the cutting, the shipping, the testing, and the reporting of the test results for each required sample. This price and payment shall be full compensation for all work necessary to provide required sample test result to the City. No payment will be made without verification of positive sample results by the Engineer. Payment will not be made for any sample that does not meet the specified requirements.

2.09 BID ITEM 31 – Quality Assurance Field Sample and Testing Top Hats

A. Measurement

1. Measurement for each required Quality Assurance Field Sample and Testing will be on a per sample basis. One (1) Top Hat, per manufactured batch (tracked by serial number), will require sample testing according to the manufacturer recommendations.

B. Payment

1. Payment of the each bid price shall be full compensation for all costs associated with the additional material required to obtain the sample, the cutting, the shipping, the testing, and the reporting of the test results for each required sample. This price and payment shall be full compensation for all work necessary to provide required sample test result to the City. No payment will be made without verification of positive sample results by the Engineer. Payment will not be made for any sample that does not meet the specified requirements.

END OF SECTION

SECTION 30

CONTROL OF WORK

PART 1 - GENERAL

1.01 GENERAL

- A. Additional Control of Work requirements are contained in Section 2, Control and Scope of the Work in the General Conditions.

1.02 MAINTENANCE OF TRAFFIC

- A. Contractor shall submit a traffic control plan (TCP) to the City of Roseville Public Works department (311 Vernon Street) at least three (3) weeks prior to commencing work within City streets. TCP shall conform to the most recent version of the California Manual on Uniform Traffic Control Devices (CAMUTCD).
- B. Unless permission to close a street is received in writing from the proper authority, place all equipment and material so that vehicular and pedestrian traffic may be maintained at all times. If the construction operations cause traffic hazards, repair the road surface, provide temporary ways, or take other measures for safety satisfactory to the Engineer.
- C. Where Work is within and/or immediately adjacent to any street, no materials may be stockpiled on the roadway.
- D. Detours around construction will be subject to the approval of the Engineer. Where detours are permitted, provide all necessary barricades and signs as required to divert the flow of traffic. Expedite construction operations while traffic is detoured. Periods when traffic is being detoured will be strictly controlled by the City. At least one lane of traffic in each direction shall be maintained within the street.
- E. Take precautions to prevent injury to the public due to open manholes or facilities. Night watchmen may be required where special hazards exist. Contractor shall be fully responsible for damage or injuries.

1.03 CARE AND PROTECTION OF PROPERTY

- A. Parking of vehicles and equipment or storage of material on unpaved surfaces under the dripline of trees shall not occur at any time.

1.04 EMERGENCY AND PRIVATE ACCESS

- A. Vehicle and pedestrian access to driveways, houses, and other properties along the streets, alleys, and easements within the limits of the Project shall be maintained. Access for emergency vehicles shall be available along all streets within the construction area at all times.
- B. The Contractor shall conduct its operations so as to offer the least possible obstruction and inconvenience to the general public and property owners.

1.05 PROTECTION OF EXISTING STRUCTURES AND UTILITIES

- A. Contractor shall assume full responsibility for the protection of all buildings, structures, and utilities, public or private, including but not limited to poles, signs, services to buildings, utilities in the street, gas pipes, water pipes, hydrants, valves, sewers, manholes, drains and electric and telephone cables, whether or not they are shown on the Contract Drawings. Immediately repair any damage resulting from the construction operations.
- B. Assistance will be given to the Contractor as requested in determining the location of existing services. Contractor shall maintain services to buildings and pay costs or charges resulting from damage thereto.
- C. Contractor shall notify all utility companies in writing at least 48 hours (excluding Saturdays, Sundays and Legal holidays) before excavating in any public way. Also notify Underground Services Alert (USA), telephone (800) 227-2600 at least 48 hours prior to start of work.

1.06 WATER FOR CONSTRUCTION PURPOSES

- A. In locations where public water supply is available, the Contractor may be allowed to use water after obtaining the appropriate permission, which may require obtaining a Hydrant Permit.

- B. The Contractor shall obtain a hydrant permit from the Environmental Utilities Department and pay the refundable deposit. The express approval of the Engineer shall be obtained before water is used. Waste of water shall be sufficient cause for withdrawing the privilege of unrestricted use.

1.07 MAINTENANCE OF FLOW

- A. Provide a temporary installation to ensure that the flow of sewers and laterals, drains and water courses interrupted during the progress of the Work are provided alternate flow/conveyance routes in accordance with Section 50, Maintenance of Flow in Existing Sewers. Contractor shall consider design of bypass system in development of TCPs. In some cases, Contractor may need to install temporary trench with trench plates for bypass piping if located within roadways as determine by the City.

1.08 CLOSED CIRCUIT TELEVISION (CCTV) INSPECTION

- A. Scope of Work
 - 1. The internal inspection of gravity lines by CCTV shall be required at all locations where CIPP lining is to be and has been installed, where new pipe has been installed, and where existing pipe is to be and has been repaired and/or replaced. This includes areas where point-repairs and lateral seal are to be and have been performed.

- 2. This Work shall consist of performing the following CCTV inspections for all Work:

Pre-Lining Cleaning and Inspection: This CCTV inspection shall be performed prior to the lining operations or other required Work after all the necessary corrections to the pipeline have been made and final cleaning has been completed. The Contractor shall thoroughly clean pipe segment using industry methods such as hydro-flushing or equal, prior to initial CCTV inspection. It shall be the responsibility of the Contractor to verify the host pipe material and diameter based on pre-lining CCTV inspection. It is also the responsibility of the Contractor to inform the Engineer about damaged connections in which lateral seals cannot be properly installed, and any pipe bends or other issues that will prevent proper installation of CCTV liners.

During Lining: The light train shall be equipped with a CCTV camera for visual inspection of the resin curing process.

Post-Lining Mainline Pipe: This CCTV inspection shall be performed in the same direction as the pre-lining CCTV after the pipeline has been lined, the laterals have been reinstated, manholes are restored, and all other mainline lining operations including cleanup have been completed.

Post-Lining Lateral Inspection: Contractor shall televise the installed lateral seals ensuring a full inspection both of the main line edges and the lateral line seal.

3. For all CCTV inspections, the Contractor shall inspect the sewer pipe interior using a color CCTV camera and document the inspection in digital MP4 format with audio location and date information, inspection title information, and hard copy inspection logs. All inspection documentation shall include the upstream and downstream access manhole number identification, length of pipe inspected, date of inspection, and pipe material. Contractor shall provide a list and photographs for each of the access manholes where the CCTV camera will be inserted. Where imperfections in the pipe occur, the Engineer will utilize the industry acceptance criteria provided by NASSCO (National Association of Sewer Service Companies) regarding the size and orientation of these defects to be included in their CCTV inspection report submittal and in order to discern if they can be deemed as commercially acceptable. If they are not deemed acceptable they must be brought into compliance with this standard.
4. All pipes shall be clean and free of standing water and debris from construction prior to CCTV inspection. During the CCTV inspection, the Contractor shall provide temporary dry condition in the sewer pipelines. Bypassing requirements are as provided in Section 50, Maintenance of Flow in Existing Sewers.
5. Contractor shall submit and maintain a copy of all inspection documentation (USB Flash Drive, databases, and logs) for the duration of the Work and warranty period.
6. The Contractor shall provide experienced personnel NASSCO certified and trained in identifying pipe size and material, locating bends, breaks, obstacles and service connections by CCTV. The interior of the pipelines shall be carefully inspected to determine the location of any condition

which may prevent the proper installation of the liner into the pipeline or laterals. It shall be verified in writing to the Engineer so that these conditions can be corrected.

B. Preliminary Submittals

1. The Contractor shall submit the following information for review at the Pre-Construction Meeting: An example of their CCTV inspection work consisting of two USB Flash Drive in MP4 format or approved equal of previous sewer inspection work complete with audio commentary and hardcopy inspection log(s). Samples shall be with the same camera and lighting equipment proposed for this work.
2. The Contractor shall be responsible for modifications to their equipment and/or inspection procedures to achieve report material of acceptable quality. No work shall commence prior to approval of the material by the Engineer. Once accepted, the report material shall serve as a standard for the remaining work.

Provide resume of experienced personnel that will be inspecting and documenting CCTV inspections. Include formal training including NASSCO Pipeline Assessment Certification Program Certification and prior experience for review and approval by the City. Work should not begin until the City has approved the CCTV personnel.

C. Submittals

1. The Contractor shall submit to the Engineer two (2) copies of unedited pre-installation inspection data (videos, inspection reports, etc., on USB flash drive) for every sewer main segment after cleaning and prior to lining prior to ordering of lining material. All inspections shall be recorded digitally and submitted in USB Flash Drive MP4 format or approved equal.
2. The Contractor shall submit to the Engineer, for acceptance and approval, two (2) copies of unedited post-installation inspection data (videos, inspection reports, etc., on USB flash drive) and associated curing reports for every sewer main segment within 10 working days of the liner installation. All inspections shall be recorded digitally and submitted in USB Flash Drive MP4 format or approved equal.

3. The Engineer will review the submitted material, not for accuracy of content, but to make sure that the required information is provided and the recording is of acceptable quality. If the Engineer determines that the CCTV is defective or not of adequate quality, the Contractor shall CCTV inspect again at the Contractor's expense.

D. CCTV Inspection Equipment

1. CCTV Camera(s) shall be intrinsically safe and shall be operative in 100 percent humidity conditions. The CCTV camera shall record in color digital MP4 format with audio or approved equal. Lighting intensity shall be remote controlled and shall be adjusted to minimize reflective glare. Lighting and camera quality shall provide a clear, in-focus picture of the entire inside periphery of the sewer pipeline. The camera shall have an articulated head and be adjustable for height in order to have the camera centered in the pipe being televised. The camera used shall have a lens system capable of turning in an angle equal to the angle of the lateral pipe, therefore ensuring a full inspection both of the main line edges and the lateral line seal. The camera shall have the capability of taking color still photos, and have pan and tilt capabilities.

E. USB Flash Drive

1. All CCTV inspection shall be recorded digital format or approved equal, DVD or VHS recording for transfer to digital will not be permitted. Two USB Flash Drives shall be submitted to the Engineer upon completion of the inspection. The audio portion of the recording shall be sufficiently free from electrical interference and background noise to provide complete intelligibility of the oral report. If the Engineer determines that the recording is defective or not of adequate quality, the Contractor shall perform the CCTV inspection again at the Contractor's expense.

F. Footage Counter

1. A footage counter device, which measures the distance traveled by the camera in the sewer, shall be accurate to plus or minus 2 feet in 1,000 feet. This counter shall be displayed on the recorded image at all times while inspecting pipe.

G. Titling

1. Equipment shall include geotagging capabilities to the extent that computer generated data, (i.e., footage, date, size, address and location, provided City mainline identification, etc.) as determined by the City, can be overlaid onto the image on the television monitor and permanently recorded on the inspection video.

H. Inspection Methods

1. The Contractor shall record on the titling at the start of the inspection video, the street location, upstream and downstream manhole number identifications from the Contract Documents, date, and time of the inspection.
2. The Development Services Inspector (or the Engineer) shall be present at all video inspections and have access to observe the CCTV monitor at all times.
3. The system of cabling employed to transport the camera and transmit its signal shall not obstruct the camera's view.
4. It shall be the Contractor's responsibility to locate and retrieve any non-functional, failed and/or stuck CCTV equipment at their expense.

I. Inspection Direction and Rate

1. The camera shall be driven or pulled through the sewer in either direction, but all inspections at each location shall be in the same direction. Maximum rate of travel shall be 30 feet per minute when recording.

J. Image Perspective

1. The camera image shall be down the center axis of the pipe when the camera is in motion. The Contractor will be required to provide a 360-degree view of the pipe interior. Direct views of points of interest shall also be recorded and shall include, but not be limited to, lateral connections, defects in the new pipe (including, but not limited to, bumps, folds, tears, dimples, etc.).

K. Quality Control Review

1. The Engineer will review the inspection video and logs to ensure compliance with the requirements listed in this section and the other Contract Documents.

2. If the sewer line is not adequately cleaned or dewatered making the visual inspection inadequate in the opinion of the Engineer, the Contractor shall clean the pipe by hydro-flushing, bypass of flow and re-inspect by CCTV at the Contractor's expense.
3. Existing defects which may affect the integrity or strength of the pipe in the opinion of the Engineer will be repaired or the pipe replaced by City staff and re-inspected by CCTV for Engineer's review and approval at the Contractor's expense.

1.09 Electro Scanning Surveys

A. Scope of Work

1. Acceptance testing of all repairs, relining, and renewal, will be performed using electro scanning surveys by the City. The inspection by the City will consist of pre- and post-lining installation surveys.
2. Once each segment that has been rehabilitated and is ready for electro scanning inspection, Contractor is responsible for contacting the Engineer for testing. The City is responsible for conducting the Electroscan tests for which the contractor bears no expense.
3. The City will be responsible for filling the pipes full with water for the pre- and post-lining installation surveys to ensure the probe can achieve a full 360-degree scan on the pipe wall.
4. Contractor is responsible to correct unacceptable defects identified by the Engineer.

B. Electro Scanning Survey Method

1. The electro scanning inspection test will be conducted by the City on one hundred percent (100%) of the total linear footage of mainline pipe, including a pre- and post-lining inspection survey, with results available to the Contractor within three business days of the test completion.
2. The electro scanning inspection testing will be conducted in accordance with the manufacturer's recommended practices, and in accordance with the *Operations and Maintenance of Wastewater Collection Systems, Volume 1*, Seventh Edition, 2016, ISBN 978-1-59371-066-8 and ASTM

F2550-13, Standard Practice for Locating Leaks in Sewer Pipes by Measuring the Variation of Electric Current Flow through the Pipe Wall.

3. The surveys will be performed within the following testing parameters:
 - a. Pipe will be fully charged with water by the City's crew at the location of the probe to ensure a full 360-degree scan of the pipe wall.
 - b. Total Current readings will be a MINIMUM of 2800mA when probe is in a concrete manhole when starting the scan, and will not drop below 1000 mA after entering the lined pipe.
 - c. Speed will not exceed 40 feet per minute.

C. Determination of Defects and Acceptability

1. The following limits shall be used to determine the significance of detected defects:
 - a. Defect current below the "Small Threshold" (<100 mA) are considered acceptable, however, areas where low current is detected for long stretches of pipe may require further investigation by the Contractor at no cost to City.
 - b. Defect current above the "Small Threshold" >100 mA, will be initially considered "unacceptable defects." Unacceptable defects need to be further investigated by the Contractor and reviewed. If the defect is deemed unacceptable, the entire pipe segment shall be removed and replaced with a new pipe segment at no cost to the City.
 - c. If lateral connection rehabilitation is not required, the Contractor will not be held liable for any defect current detected at the lateral. If lateral connections exists, the City recommends laterals be sealed prior to electro scanning inspection.
2. All pipes with defects above the "Small Threshold" shall be retested after Contractor has addressed the defect at no additional cost to City.

3. CIPP installations shall be considered acceptable when no defect current are detected above the “Small Threshold” level, contingent upon other requirements of this section and other Contract Documents being met.

1.10 CLEANING OF THE SEWER LINES

Because of the age and possible condition of the sewer lines, the Contractor shall exercise extreme caution when cleaning the sewers.

A. Requirements

1. The Contractor shall clean the sewers specified for CCTV inspection, electroscan inspection, and rehabilitation. Remove all debris, roots, and grease accumulations to the specifications of the CIPP lining manufacturer and to the satisfaction of the Engineer. All materials dislodged during cleaning shall be removed from the sewer and disposed of by the Contractor. Sewer cleaning methods may include, but not be limited to, high pressure hydraulic cleaning. Contractor shall not wash, flush or discharge any debris from the sewer cleaning operation downstream of the setup point of cleaning operations.
2. During all cleaning cycles or other related work that requires the Contractor to operate a vactor within the sewer pipe (including cleaning of all the pipe segments after restoring services), all service clean-out caps shall be removed (opened). The cost associated with cap removal shall be the Contractor’s sole responsibility and shall be included in the cost the Contractor bids for cleaning and lining the pipe. The City will not allow separate work claims to be filed by the Contractor for removing and replacing caps.
3. The maximum allowable vactor pressure the Contractor intends to use should be communicated to the City (for approval), prior to the Contractor commencing with the cleaning operation.
4. CCTV inspection is required following cleaning operations to confirm debris and/or grease removal. If, during the CCTV inspection, the sewers and manholes are not, in the opinion of the Engineer, adequately cleaned, the CCTV inspection

shall stop and the areas in question shall be cleaned, or re-cleaned and re-CCTVed by the Contractor at their expense.

B. Major Blockage

1. A major blockage shall be defined as an obstruction within the sewer, which cannot be removed by cleaning with commercially available hydraulic or mechanical cleaning equipment. If a major blockage is discovered during cleaning, Contractor shall submit a proposed method for major blockage removal to the Engineer for approval.
 - a. Hydraulic and Mechanical Cleaning
 - i. All hydraulic cleaning equipment shall be truck mounted. Water jet cleaning equipment shall include a water tank, auxiliary engine, pumps, and hydraulically driven hose reel. The Contractor shall provide a minimum of 600 feet of high-pressure hose and a selection of high velocity nozzles, each having a minimum flow capacity of 60 gallons per minute at working pressures of 1000 to 1500 pounds per square inch. Pressure to the nozzle shall be regulated by a relief valve adjustable from 1 to 1500 psi. Nozzles shall be capable of producing a jet stream angle of 15 to 45 degrees from the horizontal. The Contractor shall also provide a high velocity gun with sufficient discharge and pressure to thoroughly clean manhole interiors.
 - ii. Sewer pigs and tires, which are propelled by water, shall be readily collapsible at any time during the cleaning operations to protect against flooding of the sewer lines. The Contractor shall provide pigs in sizes consistent with the pipe diameters encountered. Each pig shall have a flexible scraper at its periphery to ensure the total removal of grease. Sewer pigs, which are not readily collapsible, are prohibited.
 - iii. Mechanically powered equipment such as bucket machines shall be provided in pairs and shall be belt-driven or employ an overload device. Power rodding machines shall be a

"continuous rod" type capable of rodding distances of up to 1000 feet in one setup. Rodding machines shall have the ability to spin the rod either clockwise or counterclockwise and be able to be pushed straight out or pulled back without rotating the machine. It shall be capable of pulling pipe-size swabs or brushes back through the sewer for cleaning and flushing purposes. The rodding machine shall have a positive drive and shall be capable of producing a 2000-pound pull. The rod shall be specifically designed for use with the rodding machine.

b. Root Removal

- i. The Contractor shall employ sewer cleaning equipment to cut all roots encountered back to the pipe surface.

c. Debris Removal

- i. The Contractor shall provide suitable equipment to remove all debris dislodged during cleaning operations from the nearest downstream manhole. Equipment or methods, which require a member or members of the Contractor's crew to physically excavate debris from within the manhole, is prohibited. All debris shall be promptly removed from the sewer from the nearest manhole and shall be disposed of off-site in a lawful manner at a location approved by the Engineer. Hauling containers shall be watertight. The City's Dry Creek Wastewater Treatment Plant located at 1800 Booth Road in Roseville is available for disposal of debris. Arrangements shall be made with City staff.

PART 2 - MATERIALS

Not Used

PART 3 - EXECUTION

- A. The Contractor shall at all times conduct their Work so as to prevent any blockage and minimize surcharging in the sewer manholes and connecting sewer pipelines. Damage to existing facilities as a result of the Contractor's work shall be promptly repaired in kind at the Contractor's expense. It shall be the Contractor's responsibility to locate and retrieve any lost or broken cleaning equipment at their expense. Any damage resulting in or repairs required from lost or broken equipment shall be at the Contractor's expense.
- B. The Contractor shall select the most effective cleaning method using current industry standards and according to the prevailing site condition.
- C. During cleaning operations, the Contractor shall provide a means of catching and removing the dislodged debris and/or any resin (from the liner installation process, the cutting process and cleaning operations) conveyed downstream with the sewer flow. The method chosen shall not allow the transport of debris to downstream and adjacent sewer reaches.
- D. Re-cleaning. Where the sewer is not adequately cleaned as determined by the Engineer through pre-lining CCTV inspection review, Contractor shall remove all equipment or materials from the sewer, re-clean and re-CCTV the sewer at no additional expense to the City.

END OF SECTION

SECTION 40

SPECIAL PROVISIONS

PART 1 - GENERAL

1.01 CONSTRUCTION SEQUENCE

- A. Contractor to complete all Work in any one Area before starting any other portion of the Work.

1.02 GENERAL OBLIGATIONS OF THE CONTRACTOR

- A. General obligations of the Contractor shall be as set forth in the Contract Documents.

1.03 SITE INVESTIGATION

- A. The Contractor is responsible to verify existing conditions within the Work area, the type of equipment required to perform the Work. Any failure of the Contractor to acquaint itself with the available information will not relieve the Contractor from the responsibility for estimating properly the difficulty or cost of successfully performing the Work. The Engineer assumes no responsibility for any conclusions or interpretation made by the Contractor on the basis of the information made available by the Engineer.

1.04 COORDINATION WITH LOCAL AGENCIES

- A. Contractor shall supply the Local Police Department, Fire Department, School Departments, and the Public Works Department with the following information:
 - 1. A list of streets and intersections where work will be in progress to be supplied at intervals as required by the Engineer.
 - 2. Areas where approved detours are in effect, if any.
- B. Reimburse the City for the actual cost of the services of City's personnel required during other than regular working hours.

1.05 PUBLIC UTILITIES

- A. Contractor shall notify Underground Services Alert (USA), telephone (800) 227-2600 at least 48 hours before digging, trenching, blasting, demolishing, boring, backfilling, grading, landscaping or other earth moving operations in any public ways, rights of way and easements.

1.06 PROGRESS SCHEDULE

- A. Contractor shall submit a progress schedule before starting any Work, in accordance with 6-1.04 of the General Conditions.

1.07 PERMITS

- A. Contractor shall obtain all necessary permits required for proper execution of the Work. Contractor shall fill out all forms and furnish all documentation required to obtain the permits. A copy of each permit shall be submitted. The cost of fees for permits issued by the City of Roseville will be waived. Work shall not commence on any phase of the Work requiring a permit until the permit is obtained.
- B. Obtain required encroachment permits for excavations within streets or sidewalk areas.
- C. Obtain required potable or recycled water hydrant permit for construction water purposes. A refundable deposit is required due to Contractor responsibility to cover all costs associated with damages and/or lost equipment as specified in the terms of each program.
- D. For all work performed within a riparian area dedicated by the California Department of Fish & Wildlife, the Contractor shall work in accordance to the Avoidance and Minimization Measures of the City's Streambed Alteration Agreement For Routine Maintenance (Notification No. 1600-2016-0099-R2) as set forth in the Contract Documents.

END OF SECTION

SECTION 50

MAINTENANCE OF FLOW IN EXISTING SEWERS

SECTION 1. GENERAL

1.01 SCOPE OF WORK

- A. The Work covered by this Section consists of furnishing all labor, supervision, tools, equipment, appliances, and materials to perform all operations in connection with pumping of wastewater and wet weather flows around pipe segment(s) when bypass pumping is required. The purpose of bypass pumping is to prevent sewage overflows and provide reliable sewer service to the users of the sanitary sewer at all times. The Contractor shall maintain sewage flow in the construction area in order to prevent back-up and/or overflow into upstream pipe segments and laterals, adjacent ditches, storm drains, and waterways.
- B. Bypass pumping is the installation and operation of bulkheads, plugs, hoses, piping, temporary manholes and sumps, and pumps to maintain wastewater flow and prevent backup and overflow. Bypass pumping provides continuous sewer service to the users of the sanitary sewer system while maintenance or construction operations are in progress by diverting flow when necessary around the construction location and pumping it to a downstream manhole
- C. Protections:
 - 1. All bypass flows shall be discharged as approved by the Engineer. No bypassing to the ground surface, receiving waters, storm drains, or bypassing which results in soil or groundwater contamination or any potential health hazards shall be permitted.
 - 2. All pumps, generators, and other equipment shall be placed on new plastic tarps to protect against gasoline, oil, and hydraulic fluid spills.
 - 3. Bypass pumping shall be done by the Contractor in such manner as will not damage public or private property or create a nuisance or health menace.
- D. Contractor's Responsibilities:
 - 1. Sanitary sewer mains shall remain in service at all times throughout the duration of the Work. Contractor shall be

responsible for diverting flow away from the limits of construction through the use of bypass pumping with prior approval by the Engineer.

2. Contractor shall maintain pedestrian and vehicular traffic and comply with ADA regulations for access to all residential and commercial property unless written approval is otherwise obtained from the property owner allowing for reduced access.
3. Contractor shall repair, without cost to the City and/or private property owner, any damage that may result from their negligence, inadequate or improper installation, maintenance and operation of bypassing system, including mechanical or electrical failures.
4. Contractor shall be responsible for immediate cleanup should any spill occur, regardless of amount and reimburse the City for any litigation fee or fine resulting from sanitary sewer overflow.

1.02 FLOW CONDITIONS

- B. The Engineer has determined current (approximate) peak wet weather flows for the pipe segments to be rehabilitated. The flow data is listed on within the Drawings. The City is not responsible for any deviations in quantity of sewage flow at any time during the construction period.

1.03 BYPASS PUMPING SYSTEM DESIGN CRITERIA

- C. Design a system of pumps and piping operating on site to maintain a minimum 50% over capacity of the peak wet weather flow. All piping, joints, and accessories shall be designed to withstand at least twice the shutoff head of the pump.
- D. Contractor shall have a standby pump, equal in capacity to the largest pump in the system, piped, plumbed and ready for operation. Standby pumps shall be fueled and operational at all times.
- E. The Contractor shall maintain onsite a sufficient number of valves, tees, elbows, connections, tools, sewer plugs, piping, hoses and other parts of system hardware to ensure immediate repair or modification of any part of the system as necessary.
- F. Discharge manifolds are acceptable.

- G. Intake manifolds are not acceptable. Use separate intakes for each pump with debris control. Provide adequate intake line spacing (center to center) to avoid vortexing.
- H. Provide a float switch, battery operated high level alarm with notification to cell phones and warning light.
- I. Provide redundant air release valves.
- J. Provide enough fuel to sustain an 8-hour bypass.
- K. Provide odor control as required.
- L. Engines shall be equipped with mufflers and/or plywood/Styrofoam noise panels enclosing the engines to meet maximum noise requirements.

1.04 SUBMITTALS

- A. Submittals shall comply with the requirements in the Contract Documents.
- B. The Contractor shall submit a written plan and drawings for the design, implementation and sequencing of bypass pumping for review and approval of the Engineer. A plan for each line segment(s) around which flows are being bypassed is required. The plan shall include but not be limited to details of the following:
 - 1. Project information including the project name and location (from plan cover sheet).
 - 2. Contact information for general contractor/submitting entity. Company name, contact person (24 hours per day), phone number(s), and fax number(s) shall be included.
 - 3. Staffing plan.
 - 4. Sufficient detail to show the location, number and size of pumps; the number, location, size and type of hoses and/or rigid piping; and the location of the downstream discharge. Any special features including lighting where pipes or hoses cross roadways, drainage features, temporary trenches, support bridges, etc. Temporary manholes, sumps, and connections required for bypass pumping.
 - 5. Staging areas for pumps including a schematic showing the arrangement and layout of the pumping and bypassing facilities at various stages in the Work.
 - 6. Sewer plugging method and types of plugs.

7. Proposed plan for disruption of sewer service laterals.
 8. Calculations for selection of bypass pump(s) and pipe size(s) based on wastewater flows, including static lift, friction losses, and flow velocity, and pump curves showing pump operating range.
 9. Length, size, material, location, elevation and method of installation of suction/discharge, temporary manholes, or temporary sumps (if required).
 10. Pump manufacturer, model, sizes, capacity, and number of each size to be on site and power requirements.
 11. Standby power generator size and location.
 12. Downstream discharge plan, including method of covering manhole opening and securing manhole from the public.
 13. Method of protecting discharge manholes or structures from erosion and damage.
 14. Thrust and restraint block sizes and locations.
 15. Sections showing suction and discharge pipe depth, embedment, select fill and special backfill.
 16. Proposed noise control and exhaust control plans for pumping equipment.
 17. Any temporary pipe supports and anchoring required.
 18. Schedule for installation of and maintenance of bypass pumping lines.
- C. Approval of submitted plans for sewer connection and temporary rerouting shall in no way relieve the Contractor of their responsibility for the protection of adjacent properties, downstream drainage systems and water tributaries against sewage spill.

SECTION 2. PRODUCTS

2.01 EQUIPMENT AND MATERIALS

- A. Internal and/or external bypass pumping operations shall use 100% leak-proof pipe such as yellow mine or HDPE with positive restrained joints. Discharge hose will only be allowed in short sections and by specific permission of the Engineer. Lay-flat type hoses are prohibited.
- B. All pumps shall be fully automatic and solids handling, self-priming or submersible pumps in good working order with a working pressure gauge on the discharge. Self-priming pumps shall not require the use of foot-valves or vacuum pumps in the priming system. All pumps used must be constructed to allow dry running for long periods of

time to accommodate the cyclical nature of effluent flows. The Contractor shall provide the necessary start/stop controls for each pump. A back- up pump of the same capacity as the primary pump shall be maintained on site at all times to be used in the event that the primary pump fails. No wastewater shall be allowed to drain or stand in earthen sump pits.

- C. The Contractor shall be required to demonstrate that the pumping system is in good working order and is sufficiently sized to successfully handle flows by performing a test run approved by the Engineer prior to beginning the Work. All discharge piping shall pass an air test of 3.5 psi for a minimum of 60 seconds.
- D. The Contractor shall be required to have all materials, equipment, and labor necessary to complete the repair or replacement on the job site prior to isolating the wastewater manhole and beginning bypass pumping operations.

SECTION 3. EXECUTION

3.01 CONSTRUCTION METHODS

- A. Maintain sewage flow to prevent backup or overflow onto streets, yards and unpaved areas or into buildings, adjacent ditches, storm drains, and waterways. The Contractor shall take all necessary steps to prevent flooding of public or private property. Maintaining flow inside the existing pipe during rehabilitation operations is preferred.
- B. It is the sole responsibility of the Contractor to locate and identify all existing sewer lines and services and to provide any and all labor, material, equipment, techniques, and methods to bypass pump as necessary for his construction methods and to monitor the effectiveness of this installed system and its effect on adjacent facilities.
- C. Any time the bypass pump(s) are operating, an experienced operator shall be on site to monitor the operation: adjust pump speed, valves, etc.; maintain and make minor repairs to the system; and report problems.
- D. Pumps must be inspected daily for ragging. Discharge piping must be inspected daily for ragging.

- E. Where work requires bypassing beyond working hours, the Contractor shall operate bypass pumping and man the system for twenty-four (24) hours per day.
- F. Spill protection and secondary containment is required for the temporary flow management system (including piping and pumps). This shall include diapers at all pipe joints.
- G. Pumps shall be sound attenuated to produce no more than 70 decibels at a distance of 20 feet.
- H. Temporary plugs used for bypass pumping shall be reinforced with secondary plugs in the event that the primary plug is compromised. Plugs shall be redundantly tethered to ensure that they are not lost in the wastewater collector system. Deviations from these requirements will be reviewed by the Engineer.
- I. Plugs shall be properly maintained and fully operational during all bypass pumping activities.
- J. Contractor is responsible for retrieving any bypass pumping equipment, including temporary plugs that enter the wastewater system.
- K. Contractor shall ensure that no damage will be caused to private property as a result of bypass pumping operations. Access to adjacent properties shall be maintained at all times. Ramps, steel plates, or other methods shall be employed by the Contractor to facilitate traffic over surface piping. High traffic commercial properties may require alternate methods.
- L. Protect equipment and piping from vandalism and vehicular damage.
- M. Contractor shall complete the Work as quickly as possible and satisfactorily pass all tests, inspections, and repair all deficiencies prior to discontinuing bypass pumping operations and returning flow to the sewer manhole or line segment.
- N. The Contractor will monitor levels to ensure the system does not surcharge above allowable levels.
- O. During bypass pumping, do not allow sewage to be leaked, dumped, or spilled in or onto any area outside of the existing sanitary sewer system.

- P. In the event of accidental spill or overflow, immediately stop the discharge and take action to clean up and disinfect the spill. Promptly notify the City so that required reporting can be made to the appropriate regulatory agency.
- Q. In the event of accidental spill or overflow, the Contractor is responsible for any damages that may have occurred to public or private property including cleaning, disinfection, and other corrections to the satisfaction of the Engineer at no cost to the City.
- R. Contractor shall not intentionally damage, alter, or remove portions of the existing sewer system structures for the purpose of installing a bypass pumping system without specific approval from the Engineer or Inspector. If a structure is damaged, it shall be reconstructed or replaced to the satisfaction of the Engineer at no additional cost to the City.
- S. The Contractor shall be responsible for any and all damage that results directly or indirectly from the interference of storm water runoff to bypassing equipment, piping, and/or appurtenances.
- T. When bypass pumping operations are complete, prior to breaking down bypass ramps and/or hard piping, all pumps and piping shall be drained into the sanitary sewer prior, flushed with clean water until all discharge is clear. Once flushed, hard piping shall be pigged using air to remove water.
- U. After the work has been completed, flow shall be restored to normal.

3.02 CONTRACTOR'S RESPONSIBILITIES REGARDING SANITARY SEWER OVERFLOWS

- A. The Contractor shall ensure that raw sewage will not spill on the ground or into any bodies of water, channels, creeks, or conduits of conveyance of storm water during the performance of this work. The Contractor is responsible for any sewer discharge to the surface due to failure of any component of the bypass pumping system, including but not limited to pumps, pipes, hoses, instrumentation, and power loss. Prior to removal of the bypass pumping pipe, the Contractor shall empty all sewage into the sewer system
- B. The Contractor shall be responsible for and shall indemnify and hold the City harmless for any sanitary sewer overflow occurring as the result of the work performed.

- C. The Contractor is responsible for and shall indemnify and hold the Owner harmless for any sanitary sewer discharge to the environment due to a failure in the equipment and/or bypassing operation.
- D. In the event of a sanitary sewer overflow, the Contractor shall contact the City's representative immediately. If there is a sanitary sewer discharge to the environment due to a failure in the equipment and/or bypassing operation, the Contractor shall reimburse the City all costs related in any way to compliance with laws, regulatory requirements, and/or court orders and decrees associated with the overflow or discharge event. The costs include but not limited to water quality monitoring, signage, cleanup, fines, legal fees, claims and reporting.
 - 1. In the event that the peak flows during the bypass pumping operation exceed the projected peak flow figures previously provided by the City and a sanitary sewer overflow event occurs when the Contractor's equipment is operating correctly, the Contractor will not be held liable for the sanitary sewer overflow or discharge.

3.03 SCHEDULING

- A. Service to laterals may be disrupted for a period of no more than 8 hours. Laterals within residential areas may only be out of service between the hours of 8:00 am and 5:00 pm, Monday through Friday. Laterals within business areas shall be addressed on a case by case basis. If Contractor feels that it is necessary to disrupt lateral services for a period longer than 8 hours, Contractor shall provide alternate means of service without disrupting use of the service by the owner/resident.
- B. The Contractor shall submit a written bypass plan and drawings for review and approval of the Engineer at least 21 days before installation of the bypass system.
- C. The Contractor must coordinate maintenance of existing flow with the City and obtain approval of Work associated with maintaining existing flow from the City at least one week prior to the implementation of bypass operations.
- D. The Contractor shall notify the Engineer 48 hours prior to commencing or shutting down any approved bypassing pumping operations.

- E. The Contractor shall perform leakage and pressure tests of the bypass pumping discharge piping using clean water prior to actual operation. The pressure shall comply with these specifications. The Engineer will be given 24 hour notice prior to testing.
- F. The bypassing system shall not be shut down between shifts, on holidays or weekends, or during work stoppages without written permission from the Engineer.
- G. Contractor or Subcontractor responsible for bypass pumping shall have a representative on site whose only duty is to maintain and monitor the bypass pumping system until the bypassing of that specific pipeline is no longer required.
- H. The Contractor shall report any bypass pumping activities not included in the submitted plan to the Engineer prior to proceeding with these activities.
- I. The Contractor shall cease bypass pumping operations when directed by the Engineer.

END OF SECTION

SECTION 100

SITE PREPARATION

PART 1 - GENERAL

1.01 SCOPE OF WORK

- A. Contractor shall furnish all labor, materials and equipment required and perform all site preparation to provide access to the manholes and cleanouts to complete the Work as shown on the Drawings and as specified herein.
- B. Contractor shall obtain all permits required for site preparation work prior to proceeding with the Work.
- C. Full compensation for furnishing all labor, materials, tools, equipment, incidentals and permits, and for doing all Work involved in this section shall be considered as included in the prices paid for various contract items of Work; therefore, no additional compensation will be allowed.

END OF SECTION

SECTION: 220

FIBERGLASS/ULTRAVIOLET LIGHT CURED-IN-PLACE PIPE (UV CIPP)

PART 1 - GENERAL

1.01 SCOPE OF WORK

- A. This section covers the work necessary to furnish and install, complete and place, glass fiber reinforced flexible liner cured-in-place pipe and brim-style lateral seal (Top Hat) with ultraviolet light (UV CIPP) for the rehabilitation of 6 to 15-inch diameter wastewater pipe mainline segments and 4 to 6-inch diameter laterals installed using "Trenchless Technology", i.e., no excavation or surface restoration is necessary for this Work.
- B. The Contractor shall furnish all labor, equipment, incidentals, and materials necessary to complete the lining of sanitary sewers as specified herein and as shown on the Drawings in conformance to the most recent version and amendments of City of Roseville Design and Construction Standards and as specified in the Contract Documents.
- C. The Work includes the review of preparation of the construction site, cleaning, flushing and pre-lining inspection (CCTV) of pipes and manholes, bypass pumping of sewage flows in mains and service laterals, protection of existing facilities, installation of CIPP lining, CCTV inspection prior to curing, UV curing of CIPP liner, styrene and hazardous gas removal, pipe sealing and finish work at manholes, reinstatement of service connections, cleaning of pipe segments after restoring services, quality control required testing, post-lining CCTV inspection, protection of the site and personnel during the life of the Contract, installation of warning lights and barricades, traffic control, dust control and maintenance of detours, cleanup of the work site, repair or replacement of any damaged surfaces such as paving, seeding, sodding and graveling, and coordination with the City's electro scan survey.
- D. It is the intent of this specification to provide for the reconstruction of sanitary sewer mains by the installation of a resin-impregnated, glass fiber reinforced flexible liner that is pulled into the original pipeline/conduit and expanded to fit tightly against said pipeline/conduit by air pressure into the existing gravity sewer line. The liner shall be cured with ultraviolet (UV) light and the finished UV CIPP shall be such that when the resin cures, the total wall thickness shall be a homogeneous and monolithic fiberglass and resin composite matrix chemically resistant to withstand internal exposure to municipal wastewater. When formed, the liner shall extend over the length of the pipe between manholes in a continuous, tight fitting,

watertight pipe-within-a-pipe. The UV CIPP liner shall be designed assuming a fully deteriorated pipe.

- E. Refer to the Proposal Section in the Project Manual for Superintendent's Minimum Training and Experience/Qualification requirements.

1.02 REFERENCED STANDARDS

The following standards are incorporated into this technical specification by reference. In case of conflict between the requirements of this section and those of the listed documents, the more stringent requirement shall prevail.

- A. American Society for Testing and Materials (ASTM)

ASTM F2019:	Standard Practice for Rehabilitation of Existing Pipelines and Conduits by the Pulled in Place Installation of Glass Reinforced Plastic (GRP) Cured-in-Place Thermosetting Resin Pipe (CIPP)
ASTM F1216:	Standard Practice for Rehabilitation of Existing Pipelines and Conduits by the Inversion and Curing of a Resin-Impregnated Tube
ASTM F1743:	Standard Practice for Rehabilitation of Existing Pipelines and Conduits by Pulled-in-Place Installation of Cured-in-Place Thermosetting Resin Pipe (CIPP)
ASTM D5813:	Standard Specification for Cured-in Place Thermosetting Resin Sewer Piping Systems
ASTM D543:	Standard Practices for Evaluating the Resistance of Plastics to Chemical Reagents and Testing Method of Plastics to Chemical Reagents
ASTM D578:	Standard specifications for Glass Fiber Strands
ASTM D638:	Standard Test Method for Tensile Properties of Plastics
ASTM D790:	Standard Test Methods for Flexural Properties of Unreinforced and Reinforced Plastics and Electrical Insulating Materials
ASTM D1600:	Abbreviations of Terms Relating to Plastics

ASTM D2990: Standard Test Methods for Tensile, Compressive, and Flexural Creep and Creep-Rupture of Plastics

ASTM C581: Standard Practice for Determining Chemical Resistance of Thermosetting Resins Used in Glass Fiber Reinforced Structures, Intended for Liquid Service

B. International Standards Organization (ISO)

ISO 11296-4: Plastics Piping Systems for renovation of underground non- pressure drainage and sewerage networks – Part 4; Lining with Cured-in-Place Pipes

ISO 178: Plastics - Determination of Flexural Properties

ISO 899-2: Plastics – Determination of Creep Behavior

ISO 7685: Glass Reinforced Thermosetting Plastics (GRP) Pipes – Determination of Initial Specific Ring Stiffness

1.03 QUALITY ASSURANCE

- A. Work performed under this section shall conform to the Contract Documents and shall comply with all standards, rules and regulations, laws and ordinances of the City and all other authorities having jurisdiction, as amended. That which is necessary to make the Work comply with the above requirements shall be provided without additional cost to the City.
- B. A pre-liner shall be added during manufacturing to protect the resin from contact with water.
- C. The finished UV CIPP liner shall be continuous over the entire length of run between two manholes and shall be free from visual defects and other acceptance requirements included in paragraph 3.18 of this section. The finished liner shall meet or exceed the requirements of Section 2.02-Liner Design Criteria of this specification.
- D. The Contractor shall keep a log (on-site) and shall document curing scheduling and UV exposure during the installation of the pipe liner. The Contractor shall submit this information to the City's Engineer.
- E. The Contractor shall televise the installed liner before curing of the liner and after existing services have been reconnected and manhole work has been completed per the CCTV Inspection requirements in Section 30. The Contractor shall repair all damages or other items not meeting the

Acceptance Requirements under paragraph 3.18 of this section that are identified at its own expense.

- F. In addition to CCTV inspections, this Project includes quality control inspections by the City with the use of Electro Scanning Surveys as described in Section 30.
- G. Refer to paragraph 3.18 in this section for acceptance requirements.

1.04 SUBMITTALS

- A. In addition to the experience and certification requirements submitted for the Superintendent with the bid, the Contractor's staff experience shall meet as a minimum the following requirements and shall be submitted prior to the start of construction. A least one of the submitted and approved staff members for each category below shall be onsite doing the Work at all times. The inability to document such experience may be grounds for rejecting the Contractor's proposed staff:
 - 1. Installer(s): At least one (1) person other than the Superintendent shall have a minimum experience of installation of at least 5,000 LF of 6-inch or greater CIPP in the last three (3) years.
 - 2. Lateral Cutter Technician(s): A minimum project experience of reinstating at least 150 laterals in the last three (3) years.
- B. Before any pipe rehabilitation products are delivered to the job site, the Contractor shall submit to the Engineer a complete list of all material proposed to be submitted, furnished and installed. The Contractor shall not permit the commencing of the fabrication of the UV CIPP tubes for this Project or any sewer lining component to be brought onto the job site until it has been approved via submittal response by the Engineer. The following information shall be submitted:
 - 1. UV CIPP System Manufacturer's certification that the materials to be used on the project meet the appropriate qualifications-based requirements of ASTM D5813 for the type of UV CIPP System proposed. Included in this certification package shall be the Manufacturer's recommendations for the shipping, storage and handling of all the components of the UV CIPP System throughout the construction process; as well as the Manufacturer's recommended UV-light intensity level(s) and exposure times for the initiator chemistry used and the internal pressure(s) to be used throughout the various phases of the installation process. Manufacturer must be ISO 9001 certified.

2. UV CIPP System Manufacturer's product specific data for the resin and initiator chemistry system, including:
 - a. Resin trade name with formulation specific numbering.
 - b. Resin Infrared Spectrographic documentation.
 - c. Resin physical properties testing documentation; Short-term (Initial) Flexural Strength and the Short-term (Initial) and Time Dependent Flexural Modulus obtained in accordance with the appropriate ASTM Standard for the UV CIPP product being installed.
 - d. Safety Data Sheets (SDSs) for all hazardous chemicals used or expected to be on-site.
3. UV CIPP System Manufacturer's product specific data for the glass fiber tube for this Project; including the maximum allowable pulling force that will not damage the tube or compromise the physical properties of the finished UV CIPP.
 - a. Tube trade name with fabrication specific numbering.
 - b. Finished UV CIPP physical properties testing documentation (results of the qualification-based testing) using the resin system above with the proposed tube construction: Short-term (Initial) Flexural Strength and the Short-term (Initial) and Time Dependent Flexural Modulus in accordance with the appropriate ASTM or ISO standard.
4. System Manufacturer's UV CIPP product specific qualification-based testing to further verify the in-ground performance requirements.
 - a. Strain Corrosion Resistance testing documentation using the submitted resin system for any UV CIPP product proposed that incorporates a fiber-reinforced tube construction; having a demonstrated minimum retention factor for the design life requirements contained later herein.
 - b. Chemical Corrosion Resistance testing documentation per paragraphs 6.4.1 and 6.4.2 of the ASTM standard D5813 for all types of UV CIPP construction.
5. Manufacturer's product specific information on the pre-liner or outer polymeric membrane (film) designed to encapsulate the resin system in the tube and provide for a water-tight, styrene emission abatement barrier on this Project. Also included shall be specific information on the inner polymeric membrane, whether permanent or temporary, that is designed for the UV CIPP System's

installation process which should be designed to provide for the abatement of any styrene gas, volatile organic compounds (VOCs), and hazardous air pollutants (HAP) emissions during the transportation and installation process.

6. Manufacturer's product specific data and instructions for all end sealing materials and grout to be used at the manholes. Material shall be shown in the product literature to be compatible with (or formulated for) the environmental service conditions of the manhole/pipe being lined and capable of serving for the design life of the UV CIPP liner installed.
7. Contractor's satisfactory written certification of compliance with the manufacturer's standards for all materials and conformance with the methods of the manufacturer and ASTM requirements.
8. Design calculations for the reach specific wall thickness designs in accordance with accepted engineering design methodologies for the pipe geometry of the pipe structure. Calculations shall be completed and sealed by an engineer with a demonstrated proficiency in the design of UV CIPP (i.e. close-fit un-bonded liners) and licensed in California. Calculations shall follow the UV CIPP Design Criteria described later herein. Favorable review of the design calculation by the Engineer is required prior to liner manufacturing.
9. Test data for third party, long term Flexural Creep Modulus in accordance with ASTM D2990 and this section.
10. Project Work Plan including:
 - a. Work sequence and schedule duration for all required Work.
 - b. Listing and layout of equipment to be used on site.
 - c. Designated storage location that will protect the liner from pre-mature curing prior to installation.
 - d. Odor control plan that will ensure that project specific odors will be minimized at the project site and surrounding area.
 - e. Detailed method for addressing field sampling requirements, including location and size of each sample, method of removal, and method of liner repair.
 - f. Detailed method for addressing resin and catalyst mixing, sampling and quality assurance testing requirements

during the wet-out process.

- g. The method and equipment used to reinstate connecting sewers.
- h. Manhole connection details including how the liner/manhole connection will be sealed.
- i. Emergency Plan that includes the following and shall be kept on site during the entire duration of active UV CIPP installation:
 - j. The procedures that will be followed in event of a health and safety emergency, pump failure, sewer overflows, service backups, and sewage spillage.
 - k. Addresses the dangers associated with sewer rehabilitation work.
 - l. Identifies the on-site designated Health and Safety Officer.
 - m. List of the rehabilitation equipment that shall be inspected on daily basis.
 - n. Description of proposed methods and equipment to be used to repair unacceptable UV CIPP defects and for removing failed UV CIPP. These shall be as developed by the UV CIPP System manufacturer to ensure that the required service life of the UV CIPP will still be achieved after the repair(s) is/are made. These repairs shall not be implemented without approval of the Engineer.
 - o. The Emergency Plan shall also include availability and accessibility of backup equipment such as air compressors, light train components, and lateral cutters.
- 11. Shop drawings which detail short and long term properties (providing all supporting test data) of all component materials and construction.
- 12. Inspection log of existing pipe inside diameters for liner fit.

C. The Contractor shall submit the following within an Area Work Plan at least 21 days prior to starting Work in each Area:

- 1. Contractor's UV CIPP installation site plan including site layout, field verified reach lengths, equipment location, access points, termination points for each reach, and method of UV CIPP insertion (e.g. pulled-in-place).
- 2. List of identified insertion manholes and inspection logs for each manhole.
- 3. Preliminary CCTV video inspection per Section 30.

4. Specific Traffic Control Plans and Detailed Bypass Plan by Area per Section 30 and Section 50.
- D. The Contractor shall submit to the City's Engineer the following information for each UV CIPP reach within seven (7) calendar days of installation of the UV CIPP:
1. Hardening Documentation (Curing Logs): This documentation shall be in the form of a log of the light intensity(s) and length of exposure time as the light train moves along the length of the subject reach of pipe. This log shall also be imprinted with the air pressure maintained inside of the liner during the hardening process. The data shall be recorded in a digital format that is tamper proofed per this section and Section 30.
- E. The Contractor shall submit the following information prior to Final Acceptance:
1. Documentation demonstrating that the required quality control plan for each reach of UV CIPP installed was properly executed. Include documentation from pre, during, and post installation CCTV Inspections.
 2. Documentation of the test results from the Quality Assurance samples taken of the installed UV CIPP demonstrating compliance with the Manufacturer's stated Short-term Flexural Strength and Flexural Modulus; and with the minimum finished wall thickness of 3 mm.
 3. Documentation of any corrective actions that were taken to address any defects and/or cosmetic blemishes to the UV CIPP that was required of the Contractor following the UV CIPP System Manufacturer's recommendations and as approved by the Engineer.
 4. Warranty per paragraph 1.07 of this section.

1.05 PRODUCT HANDLING

- A. Protection: The Contractor shall use all means necessary to protect sewer lining materials before, during and after installation and to protect the installed work and materials. In the event of damage, immediately make all repairs and/or replacements necessary to the approval of the Engineer, at no additional cost to the City.

1.06 EXISTING SEWER SYSTEM

- A. Active Sewers: The Contractor shall maintain in operating condition all active sanitary sewers encountered in the sewer lining installation.
- B. Connections to Existing Sewers and Manholes: The Contractor shall make all required connections to existing sewers and manholes and carry out such work in accordance with these Contract Documents. Extreme care to prevent debris from entering into existing sewers to be lined shall be exercised.

1.07 WARRANTY

- A. The Contractor shall warrant all work to be free from defects in workmanship and materials for a period of one (1) year from the date of final acceptance of all Work by City Council.
- B. During the warranty period, any defects which will affect the integrity or strength of the UV CIPP, collect solids, reduce hydraulic flow capabilities, or reduce CCTV or cleaning access of the lined collection pipes shall be repaired at the Contractor's expense in a manner mutually agreed upon by the City and the Contractor.

PART 2 - PRODUCT REQUIREMENTS

2.01 PRODUCTS

The liner pipe material shall be designed for use in gravity sanitary sewers and shall be in conformance with all applicable sections of ASTM F2019 specifications. Materials and procedures used in the UV CIPP rehabilitation process shall be equal to or exceed the manufacturer's standards. The CIPP design shall assume no bonding to the original pipe wall. The hydraulic profile shall be maintained as large as possible. The pipe liner shall have at a minimum the full flow capacity of the original pipe before rehabilitation. Calculated capacities may be derived using a commonly accepted roughness coefficient for the existing pipe material taking into consideration its age and condition.

- A. UV CIPP Tube
 - 1. The UV CIPP tube shall consist of one or more layers of glass fiber reinforced materials capable of carrying resin, withstanding installation pressures and curing temperatures. The UV CIPP tube should be compatible with the resin system to be used on this Project. The material should be able to stretch to fit minor irregular pipe sections.

2. The UV CIPP tube should be fabricated under controlled conditions to a size that, when installed, will tightly fit the internal circumference and the length of the original conduit. The tube shall have sufficient strength to bridge missing pipe sections, with the use of a reinforcing cloth sleeve if necessary and have a minimum service life of 50 years.
3. Contractor shall verify the lengths in the field before cutting the UV CIPP tube to length. Continuous individual liners can be made over one or more manhole to manhole sections. The Contractor shall measure the inside diameter of the existing pipe in the field so that the liner can be lined in a tight fitted condition.
4. The UV CIPP tube shall be uniform in thickness and when subjected to the manufacturer's recommended installation pressures shall meet or exceed the designed wall thickness.
5. Interior and exterior layers shall be styrene barriers, as well as protect and contain the resin used in the liner.
6. A protective layer shall be installed on the exterior of the liner to prevent liner damage during the installation process and block external UV light penetration causing the liner to cure prematurely. It shall be robust enough to survive the rigors of the sliding of the tube into its final position in the pipe to be renewed.
7. The liner shall be constructed of with an inner layer material capable of giving the exposed inside surface a resin rich layer.
8. The wall color of the interior pipe surface of UV CIPP after installation shall be a light reflective color so that a clear detailed examination with CCTV inspection may be made. The inner wall of the liner shall be light blue, light green, light red (vitrified clay color), or natural. Other colors are not acceptable including but not limited to white, yellow, black, blue, and light purple. The tube shall be marked for distance at regular intervals along its entire length. Such markings shall include the manufacturer's name or identifying symbol.
9. The interior wall of the finished UV CIPP shall be compatible with the resin system used, translucent enough that the resin is clearly visible, and shall be firmly bonded to the glass fibers or other material when it is to become a permanent part of the finished UV CIPP. It shall also be formulated to create an impermeable barrier or membrane against the leaching of any volatile components of

the resin system such as styrene, VOCs, and HAP prior to resin hardening taking place.

10. The tube shall be saturated with the appropriate resin using a vacuum-assisted resin bath to allow for the lowest possible amount of air entrapment.
11. The fiberglass within the liner shall be a non-corrosive material and shall be free from tears, holes, cuts, foreign materials and other surface defects and subject to inspection by the City. Its glass fibers must extend in a longitudinal direction to ensure minimal longitudinal stretching during the pull-in process.
12. The tube shall have an allowance for the required circumferential and longitudinal stretching during installation.
13. The finished liner shall fit tightly and neatly against the existing pipe walls. The liner shall be fabricated from materials which, when cured, will be suitable for continuous service in sewerage environments, external exposure to soil bacteria, and chemical attack which may be due to materials in the surrounding ground or sewage within.
14. At time of manufacture, each lot of UV CIPP tube shall be inspected and certified to be free of defects.

B. Resin

1. The resin used shall be compatible with the rehabilitation process used, and designed for a wastewater environment. The resin shall be able to cure in the presence or absence of water.
2. The resin used to impregnate the liner shall produce a cured liner pipe resistant to shrinkage, corrosion, abrasion and shall have a proven resistance to municipal wastewater.
3. The resin shall be a chemically resistant, UV cured resin that when properly cured meets the minimum requirements given herein or those that are to be utilized in the design of the UV CIPP System for this Project. When combined with the UV CIPP tube, the resin system shall provide a UV CIPP that complies with the chemical resistance requirements specified in ASTM F2019, Section 5.2.6. The chemical resistance tests shall be completed in accordance with ASTM D543.

4. When combined with the UV CIPP tube, the resin system shall provide a UV CIPP that meets the structural requirements of ASTM F2019, the minimum physical properties specified in this section paragraph 2.02.E below and those properties which are to be utilized in the design of the lining system for this Project.
5. Resins may contain pigments, dyes, or colors that do not interfere with visual inspection of the resin-impregnated UV CIPP or its required properties.
6. The impregnation equipment shall contain devices to secure a proper distribution of resin.
7. Following impregnation, the fabric liner shall be exposed to a resin thickening procedure.

C. End Seals

1. Preformed Hydrophilic Gasket - The ends of the installed CIPP entering and exiting the manholes or other access structures shall be sealed with a preformed neoprene rubber gasket material that possesses significant expansive properties that are activated by the presence of any water at the host pipe-CIPP interface to provide for a watertight seal. Hydrophilic caulks, hydraulic cements and quick-set cement products are not acceptable for this application. Acceptable materials shall be those products that have a demonstrated performance for the environmental service conditions of the host pipe, and are capable of undergoing alternate wet and dry ground conditions without deleterious effects.
2. Resin Epoxy Mixture – A resin epoxy mixture that is recommended by the liner manufacturer, is compatible with the liner/resin system and that can help to provide a watertight seal shall be available on-site if needed in combination with the hydrophilic gasket. Hydraulic cements and quick-set cement products are not acceptable. Acceptable materials shall be approved epoxy type products that will bond, not crack, dry up, slough off, or shrink over time, and provide a smooth transition at the manhole invert and sidewalls.
3. The end sealing material shall be compatible with the pipe liner pipe and shall provide a watertight seal.
4. The grout applied shall have non-shrink characteristics.

D. Top Hats (Brim-Style Lateral Seals)

1. The cured insert shall consist of materials chemically resistant to domestic sewage.
2. Fiberglass materials shall be corrosion resistant E-glass (ECR-glass). The fiber glass material shall be factory impregnated with Polyester resin, and in its pre-impregnated state delivered to the job site in sealed bags.
3. When the laminate is mounted on the applicator; Epoxy resins or other proprietary products shall be used to secure a permanent bond between the laminate and liner and the existing lateral pipe.
4. The laminate shall be constructed with sufficient flexibility, ensuring complete lateral conformity to the main pipe in angles ranging from 45 and 90 degrees.
5. The laminates shall be 100% saturated with resin and have sufficient thickness to ensure a watertight seal.
6. The laminate shall be fabricated to fit the specific size of the lateral pipe.

2.02 LINER DESIGN CRITERIA

- A. Each UV CIPP shall be designed to withstand internal and/or external loads as dictated by the site and pipe conditions. Unless specified differently in the Contract Documents, the design thickness of the UV CIPP shall be derived using the standard engineering methodology as found in ASTM F1216, Appendix X1, but in no case shall be less than 3 mm. The thickness should be increased in 0.5-mm increments as necessary to meet ASTM F1216/F2019 design formula. The thickness calculations, signed and sealed by a registered professional engineer, shall be submitted to the City prior to UV CIPP installation.
- B. The layers of the finished UV CIPP shall be uniformly bonded. It shall not be possible to separate any two layers with a probe or point of a knife blade so that the layers separate cleanly or such that the knife blade moves freely between the layers. If separation of the layers occurs during testing of the field samples, new samples will be cut. Any reoccurrence may be cause for rejection of the Work.
- C. The Enhancement Factor 'K' to be used in the UV CIPP design shall be assigned a value of 7. All existing pipes shall be considered fully deteriorated.

- D. Long-term testing in general accordance with ASTM D2990 must have been performed for flexural creep of the UV CIPP pipe material to be installed. This is a performance test of the materials (UV CIPP tube and resin) and general workmanship of the installation and curing as defined within the relevant ASTM standard. Such testing results are to be used to determine the long-term, time dependent flexural modulus to be utilized in the product design. A percentage of the instantaneous flexural modulus value (as measured by ASTM D790 testing) shall be used in design calculations for external buckling. The percentage, or the long-term creep retention value utilized, shall be verified by this testing. Retention values exceeding 50% of the short-term test results shall not be applied unless substantiated by qualified third party test data to the City's satisfaction. The materials supplied shall be of a quality equal to or better than the materials used in the long-term test with respect to the initial flexural modulus used in the UV CIPP design.
- E. The UV CIPP and Top Hats shall meet the following minimum strength requirements:

FIBERGLASS SYSTEM CURED BY UV: MINIMUM PHYSICAL PROPERTIES			
STRUCTURAL / MECHANICAL PROPERTY	ASTM TEST METHOD	ASTM MINIMUM SHORT TERM VALUE	ASTM MINIMUM LONG TERM VALUE
Flexural Strength	D790	6,500 psi.	
Flexural Modulus	D790	725,000 psi.	362,500 psi.
Tensile Strength	D638	9,000 psi.	

- F. The required UV CIPP wall thickness shall be based at a minimum on the physical properties paragraph 2.02.E. of this section shown above and in accordance with ASTM F2019 and the design equations in the Appendix X1 of ASTM F1216, but no less than 3 mm with the following design parameter considerations:

DESIGN PARAMETER	VALUE
Design Safety Factor (typically used value)	2.0
Retention Factor for Long-Term Flexural Modulus to be used in Design (or as determined by long-term tests described in Section 2.02.D and approved by the City)	50% max

DESIGN PARAMETER	VALUE
Ovality* (calculated from (X1.1 of ASTM F1216)	% ⁽¹⁾
Enhancement Factor, K	7.0
Groundwater Depth (above invert of pipe)	feet ⁽¹⁾
Soil Depth (above crown of pipe)	feet
Soil Modulus	psi ⁽¹⁾
Soil Density	lb/ft ³ ⁽¹⁾
Live Load	e.g. H-20 Highway
Design Condition (partially or fully deteriorated)*	*
* Design conditions of pipeline shall be assumed as fully deteriorated (See ASTM F1216 Appendix X1). The City will be sole judge as to pipe conditions and parameters utilized in design.	
(1) In the absence of other information and to ensure uniformity in bidding, the following assumptions shall be used: ovality = 2% groundwater depth at half depth to invert; soil modulus = 1000 psi; soil density = 120 lb/ft ³ .	

PART 3 - EXECUTION

3.01 GENERAL

- A. This section is intended to provide the Contractor with general guidance on the methods to be used to install the sewer pipe using the deformed and reformed pipe liner method, the UV CIPP liner method, and the Top Hat CIP fiberglass lateral seal method. Nothing contained herein shall relieve the Contractor from completing the pipe rehabilitation in the most feasible, efficient and safe manner, using required materials to meet the existing pipe lines and grades and to the requirements of the Contract Documents.

3.02 REVIEW EXISTING CONDITIONS

- A. Review Existing Conditions
 - 1. Prior to ordering, fabrication, or the commencement of lining any pipes, the Contractor shall perform a site review, pre-cleaning and pre-lining inspection of the pipes and access manholes to verify existing field conditions.

B. Line Obstruction

1. It shall be the responsibility of the Contractor to clear the line of obstructions or collapsed pipe that will prevent the insertion of the linear or CCTV camera. If inspection reveals an obstruction that cannot be removed by conventional sewer cleaning equipment, then the Contractor shall immediately notify the City's Engineer. The Contractor may be asked to make a point repair excavation to uncover and remove or repair the obstruction as extra work, or this work may be performed by City Staff. The Contractor shall not proceed with any extra work without written direction from the City's Engineer.

C. Discrepancies

1. In the event of discrepancy from what is included the Contract Documents, the Contractor shall immediately notify the Engineer.
2. The Contractor shall not proceed with the installation in areas of discrepancy until all such discrepancies have been fully resolved with the City or City's Engineer.

3.03 FIELD MEASUREMENTS

- A. The Contractor shall make all necessary measurements in the field to ensure precise fit of items in accordance with the Contract Documents.

3.04 INSPECTION OF PIPE LINER

- A. No pipe shall be lined without proper notification of the Engineer. Each pipe liner shall be subject to inspection by the City, immediately prior to installation. Defective liner will be rejected and replaced at the Contractor's expense.

3.05 PREPARATION

The following installation procedures shall be adhered to unless otherwise approved by the Engineer.

- A. Safety

Contractor shall complete all Work in strict accordance with all applicable current OSHA standards and manufacturer's safety requirements. It shall be the Contractor's responsibility to comply with OSHA Standards and Regulations pertaining to all aspects of the Work. Particular attention is

drawn to those safety requirements working with hazardous/combustible materials, scaffolding and entering confined spaces.

1. Persons near CIPP installation sites have reported odors and illness symptoms (i.e., nausea, headache, vomiting, difficulty breathing, eye and nasal irritation, etc.). The recommendation is that person at or near CIPP sites minimize dermal and inhalation exposures, monitor emissions, use appropriate personal protective equipment, and capture emissions and confirm this by monitoring.

B. Off-set Joints

1. Off-set joints greater than 0.5-inches shall be ground to provide a smooth transition. Mechanical grinding equipment suitable for use on the existing pipe shall be used to grind off-set joints. After grinding operations have been performed, the pipe shall be thoroughly cleaned of debris. A recorded inspection of the repaired location shall be performed and submitted to the Engineer for review on a USB Flash Drive.

C. Intruding Taps

1. Intruding taps or services shall be trimmed flush with the inside of the main sewer wall. Mechanical grinding equipment suitable for use on the existing pipe shall be used. Trimming shall not cause damage to the lateral or service beyond the inside face of the main sewer.
2. After grinding operations have been performed, the pipe shall be thoroughly cleaned of debris. A recorded inspection of the repaired location shall be performed and submitted to the Engineer for review on a USB Flash Drive.

D. Sewer Bypassing and Dewatering

1. Contractor shall be responsible for bypassing sewer flow around their Work and dewatering of sewer lines in accordance with Section 50.

3.06 EQUIPMENT

- A. All equipment specified shall be in good working condition and manufactured or fabricated to withstand the severity of the Work.
- B. A CCTV camera shall be located on the ultraviolet light train assembly.

- C. The Contractor shall provide a minimum of two (2) complete, functional cutters for lateral reinstatement plus spare key components on the jobsite at all times.

3.07 PROTECTION OF EXISTING UTILITIES

- A. The Contractor shall protect the manholes to withstand forces generated by equipment, water or air pressure used while inserting the liner.
- B. The Contractor shall be fully responsible for any damages to existing utilities caused by the Contractor's operations.

3.08 PUBLIC NOTIFICATION

The Contractor shall make every effort to maintain service usage throughout the duration of the Project. In the event that a service will be out of service, the maximum amount of time of "no service" shall be 8 hours for any property served by the sewer. A public notification program shall be implemented, and shall as a minimum, require the Contractor to be responsible for contacting each home or business connected to the sanitary sewer and informing them of the Work to be conducted, and when the sewer will be off-line. The Contractor shall also provide the following:

- A. Written notice to be delivered to each home or business 48 hours prior to the beginning of Work being conducted in the Area, and a local telephone number of the Contractor they can call to discuss the Project or any problems which could arise. The notice shall be submitted to the Engineer for approval.
- B. Personal contact with any home or business, as well as the City Engineer, which cannot be reconnected within the time stated in the written notice.

3.09 DELIVERY, STORAGE AND HANDLING:

- A. Contractor shall protect, store, and handle materials during transportation and delivery, while stored on-site, and during installation following manufacturer's recommendations.
- B. The resin impregnated UV CIPP liner shall be maintained at a proper temperature and protected from sunlight in facilities to prevent premature curing at all times prior to installation. Any UV CIPP showing evidence of premature curing shall be rejected for use and will be removed from the site immediately. The use of promoters must be pre-approved by the City.

- C. If any part of the UV CIPP material becomes damaged before or during insertion, it shall be repaired or replaced at the Contractor's expense before the Work may proceed.

3.10 INSTALLATION

- A. Contractor shall be an approved licensed installer of the UV CIPP liner system.
- B. The liner shall be installed through the existing manholes, in accordance with the manufacturer's recommendations and procedures and Contract Document requirements. The CIPP liner shall be continuous over the entire length between manholes and cleanouts, and be as free from visual defects. The pipe liner shall be finished at the manholes wall to allow for a water tight seal.
- C. UV CIPP installation shall be in accordance with ASTM F2019, Section 6.2, and the following:
 - 1. Liner protection: Prior to inserting the liner, and if required based on the condition of the host pipe surface, a plastic sheet at least 10 mils thick (0.254 mm) shall be pulled into the host pipe to protect the liner from damage as the liner is pulled in.
 - 2. Liner Insertion: The liner shall be pulled-in through an existing manhole or approved access point and shall fully extend to the next designated manhole or termination point. The pulling speed and pressures shall not exceed manufacturer's recommended limits. Care shall be exercised not to damage the liner during the pulling phase.
 - 3. Liner Inflation: The liner shall then be inflated with air and sufficient pressure to hold the liner tight to the host pipe wall.
 - 4. Reinforcing cloth sleeves capable of withstanding installation air pressures shall be used on exposed liner outside the host pipe to prevent over expansion and damage to liner.
 - 5. Liner Inspection: After insertion and inflation, the Contractor shall inspect the entire length of liner prior to commencement of the curing process. Contractor shall use the CCTV camera located on the ultraviolet light assembly to enable the video inspection of the liner and to ensure that the liner has been properly inflated and any liner problems can be identified before curing begins.

3.11 CURING

UV CIPP and Top Hat curing shall be in accordance with applicable ASTM F2019, Section 6.7, with the following modifications:

- A. The ultraviolet curing lamps shall operate in a sufficient frequency range to ensure the curing of the resin. The speed of the light train system shall be in accordance with the manufacturer's recommendation.
- B. The Contractor shall submit a documented record of time, rate of travel of the ultraviolet light assembly, and internal temperatures and pressures during the curing process to the Engineer.
- C. The Contractor shall take precautions to minimize the release of styrene gas, VOCs, and HAP generated during the setup and UV CIPP lining process, and prevent such odors from entering structures, businesses, or other types of establishments, through service connections or other plumbing fixtures.
- D. For resin not encapsulated in the tube, the capture and disposal of any process water or condensate resulting from the installation and flushing of the CIPP is required.
- E. Styrene air emissions shall comply with Federal, State and District requirements.

3.12 FINISH WORK AT MANHOLES

- A. Where the UV CIPP is installed through an intermediate manhole uninterrupted, the invert shall be maintained smooth through the manhole, with approximately the bottom half of the UV CIPP continuous through the manhole. The invert of the manhole shall be shaped and grouted as necessary to support the liner. The cost of this Work shall be included in the UV CIPP unit price.
- B. Finishing at Ends:
 - 1. Final trimming of the UV CIPP at any manhole/access point shall be done in such a manner as to provide a long-term mechanical connection between the UV CIPP and the host pipe.
 - 2. The seal between the UV CIPP and the host pipe at manhole shall be water-tight for the stated service life (50 years) of the UV CIPP installation using the preformed hydrophilic gasket. No water shall be able to migrate between the UV CIPP and the host pipe.

3. If the hydrophilic gasket fails to make a water tight seal, the Contractor shall apply a resin mixture that provides a watertight seal.
4. If the UV CIPP terminates on either side of a manhole, the invert through shall be built up to remove any flow restrictions and to form a continuous invert through the manhole.
5. The cost for furnishing all labor, materials, tools, equipment, and incidentals, and for doing all Work involved in providing a water tight seal between the liner and the manhole shall be considered as included in the contract prices paid for sanitary sewer main pipe liner installation and no additional compensation will be allowed.

3.13 REINSTATE LATERALS AND SERVICES

- A. Accurate location of the lateral and service connections shall be made by inspection of the pre-installation video. Contractor shall determine the location of all sewer service connections in the field by CCTV inspection prior to lining of the sewer.
- B. After the UV CIPP has been installed and fully cured, all existing active lateral sewers and services shall be reinstated unless otherwise indicated by the City. The reinstatement of laterals shall be done without excavation unless otherwise specified by the Engineer. Laterals shall be located for reinstatement from the cleanout unless an existing cleanout does not exist. Reinstatements shall be performed from the lateral or a lateral deployable drill to locate the lateral for reinstatement from inside the main for all laterals with existing cleanouts. For laterals without cleanouts, the Contractor shall locate the lateral based on CCTV and/or physical staking. For the sites where cleanouts cannot be located, the Contractor shall reinstate the service laterals from inside the sewer main.
- C. A remote cutting tool shall reopen all existing active service connections in each length of sewer by cutting a hole matching the shape of the service connection. A fully restored service connection shall exhibit a nearly full-geometry hole, free from burrs or projections and with a smooth and crack-free edge. The hole shall be 95 percent minimum and 100 percent maximum of the original service connection opening. The invert of the service connection shall match the bottom of the reinstated service opening and shall produce no interruption of the flow from the lateral.
- D. Coupons of pipe material resulting from service tap cutting shall be collected at the next manhole downstream of the pipe rehabilitation

operation prior to leaving the site. Coupons shall not be allowed to pass through the system.

- E. Contractor may use “brushing” as a technique to smooth edges of reinstated lateral openings.
- F. The Contractor shall re-open any service lateral that does not meet these requirements as evidenced by the post-rehabilitation inspections at no additional cost to the City.
- G. If sewer and/ or service connection is damaged during the restatement and trimming operation, the Contractor shall repair the damage. Any repair shall be approved by the City prior to beginning repair work.

3.14 INSTALLATION AND CURING OF TOP HATS (BRIM-STYLE LATERAL SEALS)

- A. Contractor shall be an approved licensed installer of the service lateral connections sealing system.
- B. Preparation:
 - 1. Deposits on the pipe wall in the lateral pipe shall be removed. The removal shall reach at least 12 inches into the lateral from the main pipe to allow the lateral bladder’s inflation.
 - 2. Following the mainline lining, the lateral shall be opened 100% so there is no flow restriction between the lateral and rehabilitated sewer main. Overcuts cannot exceed one inch from the edge of the lateral.
 - 3. Prior to installation of the lateral seal, the area in and around the lateral shall be checked for debris from the cutting operation or debris left in the lateral from the time of blockage. Where such debris are found, initial cleaning of the area by high pressure hydraulic cleaning is required.
- C. Installation:
 - 1. Bypassing: The Contractor shall be responsible for bypassing of sewage as needed during lateral seal installation per Section 50.
 - 2. Protection: Sheltered in a covered area, protected from UV-light radiation, the laminate shall be removed from its packaging and placed on the prepared applicator.

3. The edges of the laminate shall next be coated with an additional suitable bonding agent to ensure a seal between the laminate, the mainline liner, and the lateral pipe.
4. Sufficient air pressure shall be supplied to tightly press the laminate up against the mainline and lateral.
5. When sufficient air pressure is reached, the UV-light curing system shall be activated from the time recommended by the manufacturer to complete a successful cure.
6. When cured, the liner tube shall extend a minimum of 6 inches into the service lateral forming a continuous, one-piece, tight-fitting, corrosion-resistant and verifiable non-leaking lateral connection liner.

3.15 CUTTING OF EXISTING PROTRUDING CIPP LINED SERVICE

- A. In locations shown on the Drawings, Contractor shall cut existing CIPP lined service within an existing lined CIPP sewer main. The intruding service shall be trimmed flush with the inside of the main sewer wall. The existing sewer main CIPP liner shall be protected and trimming shall not cause damage to the lateral or service beyond the inside face of the main sewer.
- B. After trimming operations have been performed, the sewer main shall be thoroughly cleaned of debris.
- C. A recorded inspection of the repaired location shall be performed and submitted to the Engineer for review on a USB Flash Drive.

3.16 QUALITY ASSURANCE PROCEDURES

- A. UV CIPP installation shall be inspected by post-lining video inspection in accordance with ASTM F2019, Section 7.3 and Section 30. No infiltration of groundwater should be observed. All service entrances should be unobstructed and accounted for.
- B. In addition to CCTV inspections, this Project includes quality control inspections with the use of Electro Scanning Surveys as described by Section 30. Acceptance testing of all repairs, relining, and renewal, shall be performed using electro scan inspection and shall be performed by the City.

- C. Refer to paragraph 3.18, Acceptance Requirements in this section, for complete requirements for acceptance.
- D. Field Samples
 - 1. Field sampling procedures shall be in accordance with ASTM F2019.
 - 2. For every reach of mainline, two (2) samples (one upstream and one downstream), and representative samples of lateral seals per Section 20 shall be processed and tested. The UV CIPP physical properties shall be tested in accordance with ASTM F2019, Section 7. The flexural properties must meet or exceed the values listed in paragraph 2.02.E. of this section and the values submitted to the City by the Contractor for this project's UV CIPP wall design, whichever is greater.
 - 3. Flexural testing of the collected samples shall be conducted in accordance with ASTM D790, latest version, with only the structural portion of the UV CIPP being tested.
 - 4. Testing shall be completed by an accredited, independent laboratory and paid for by the Contractor. Testing results shall be provided to the City within seven (7) days of receipt of such results.
 - 5. Wall thickness of samples shall be determined in a manner consistent with 7.1.4 of ASTM F2019. The minimum wall thickness at any point shall not be less than 87.5% of the specified design thickness calculated in paragraph 2.02.E of this section. The average wall thickness shall not be less than the specified thickness.

3.17 CLEAN-UP

- A. Contractor shall restore or replace all removed or damaged paving, curbing, sidewalks, gutters, shrubbery, fences, sod or other disturbed surfaces or structures to a condition equal to that before the Work began, to the satisfaction of the Engineer and appropriate property owner, and shall furnish all labor and material incidental thereto. All such work shall be the full responsibility of the Contractor and there shall be no additional cost claim by the Contractor for such restoration work.
- B. Surplus liner material, tools and temporary structures shall be removed by the Contractor. All dirt, rubbish and other materials from cleaning, and construction operations shall be legally disposed of by the Contractor and the construction site shall be left clean to the satisfaction of the City.

3.18 ACCEPTANCE REQUIREMENTS

- A. Acceptance of the UV CIPP installed on this Project shall be based on compliance with the Contract Documents as demonstrated with submitted quality control reports, curing logs, post-installation inspection videos and laboratory quality assessment test results, and the City's electro scan inspection.
- B. The finished UV CIPP liner shall meet the following requirements for acceptance:
- C. The finished UV CIPP liner shall be continuous over the entire length of an insertion run and be free from visual defects such as foreign inclusions, dry spots, pinholes, leaks, cracks, delamination, lifts, unsecured joints, serious abrasion, kinking, flattening, holes, blisters, wrinkles, and other defects which in the opinion of the Engineer are not acceptable and would impair the serviceability of the new piping system. The UV CIPP shall be homogeneous across the entire wall thickness containing no intermediate or encapsulated elastomeric layers and free of any leakage from the surrounding ground to the inside of the UV CIPP. No material shall be included in the tube that may cause delamination in the cured CIPP. No dry or unsaturated layers shall be evident.
- D. The UV CIPP shall fit tightly to the internal circumference of the existing pipe; there should be no visible annular space at the lateral openings.
- E. Wrinkles or fins are undesirable cosmetic defects that may affect the operation of the subject reach of pipe. If wrinkles are detected in the installed liner, the Contractor shall provide photographs and dimensions of the wrinkle including height, length, and direction. Wrinkles in the finished liner pipe which cause a backwater greater than one (1) inch, or reduce the hydraulic capacity or access of the pipe as determined by the Engineer are unacceptable and shall be removed or repaired by the Contractor at no additional cost to the City. Wrinkles in the finished liner pipe that reduce the structural stability of the pipe are unacceptable. If a void between the wrinkle and the pipe exists, the Contractor shall repair or replace that section of the pipe at no additional cost to the City. Methods of repair shall be proposed by the Contractor and submitted to the Engineer for review and approval.
- F. Hardened "lifts" in the finished UV CIPP are unacceptable and must be repaired in accordance with the UV CIPP manufacturer's recommendation for the type of UV CIPP System that was used.
- G. All cut lateral and service connections shall be free of burrs, frayed edges, or any restriction preventing free flow of wastewater. A fully restored

service connection shall exhibit a nearly full-geometry hole, free from burrs or projections and with a smooth and crack-free edge. The hole shall be 95 percent minimum and 100 percent maximum of the original service connection opening. The invert of the service connection shall match the bottom of the reinstated service opening and shall produce no interruption of the flow from the lateral.

1. The UV CIPP lateral seal shall fit tightly to the internal circumference of the existing pipe and lateral. The invert of the service connection shall produce no interruption of the flow from the lateral.

H. The following shall be completed and fully approved by the Engineer prior to the Work being accepted and final retention payment made:

1. Quality Assurance Field Sample Testing Results: Passing test results for each required field sample.
2. Curing Logs: A complete copy of the curing logs as specified in this section shall be certified by the Contractor and submitted.
3. Post-lining CCTV Inspection: Post-lining CCTV inspections of both mainline pipes and laterals shall be conducted per the requirements listed in Section 30. Once all the requirements of the CCTV inspections are met, the Work shall be deemed partially complete, contingent upon the other requirements in this section and the other Contract Documents being met.
4. Electro Scanning Surveys: Electro scan surveys shall be conducted per the requirements listed in Section 30. UV CIPP installations shall be considered acceptable when no anomalies are detected in the post electro scan survey above the "Small Threshold" level as defined in Section 30, contingent upon the other requirements of this section and other Contract Documents being met.

I. Correction of failed liner or liner pipe deemed unacceptable, as a result of the post CCTV video inspection, electro scanning, and/or test reports for structural values, thickness, chemical resistance, or other requirements of this section, shall be the responsibility of the Contractor, at no extra cost to the City. The minimum criteria of this section shall not be lowered to compromise with lower than the required test values, unless approved in writing. Method of correction/repair shall be approved by the City Engineer and may require field demonstration prior to installation or a repair, removal and replacement of a CIPP liner, installation of a new pipe, and/or installation of a new lateral.

CITY OF ROSEVILLE - PUBLIC IMPROVEMENTS REQUIREMENTS

GENERAL:

1.

ALL CONSTRUCTION AND MATERIALS SHALL CONFORM TO THESE PLANS AND THE LATEST EDITION AND AMMENDMENTS OF THE CITY OF ROSEVILLE DESIGN AND CONSTRUCTION STANDARDS.
2.

THE CITY OF ROSEVILLE IS A MEMBER OF THE UNDERGROUND SERVICE ALERT (U.S.A.) ONE-CALL SYSTEM. THE CONTRACTORS SHALL NOTIFY THE U.S.A. CENTER 48 HOURS IN ADVANCE OF PERFORMING ANY EXCAVATION WORK BY CALLING 1-800-227-2600.
3.

THE CONTRACTOR SHALL MARK IN WHITE PAINT ALL AREAS TO BE EXCAVATED PRIOR TO CONTACTING U.S.A. ANY AREAS NOT MARKED WILL NOT BE SUBJECT TO U.S.A., AND THE CONTRACTOR SHALL BE RESPONSIBLE FOR ANY DAMAGE RESULTING FROM EXCAVATION.
4.

THE CONTRACTOR SHALL EXPOSE AND VERIFY LOCATIONS AND ELEVATIONS OF EXISTING UNDERGROUND UTILITIES PRIOR TO CONSTRUCTION OF THE NEW IMPROVEMENTS CONNECTING TO OR IN THE VICINITY OF THE SAME.
5.

THE CONTRACTOR SHALL BE RESPONSIBLE FOR THE PROTECTION OF ALL EXISTING MONUMENTS AND OTHER SURVEY MARKERS ON THE JOB SITE.
6.

THE CONTRACTOR SHALL PLACE BOXED SURVEY MONUMENTS WITH 1-1/2" BRONZE HEAD SET IN CONCRETE (STD. DWG. ST-36) AT LOCATIONS SHOWN ON THESE PLANS.
7.

A.C. SURFACE SHALL BE CUT TO A NEAT, STRAIGHT LINE PARALLEL WITH THE STREET CENTERLINE AND THE EXPOSED EDGE SHALL BE TACKED WITH EMULSION PRIOR TO PAVING. THE EXPOSED BASE MATERIAL SHALL BE GRADED, RECOMPACTED, AND RESEALED PRIOR TO PAVING.
8.

ANY EXISTING CONCRETE SURFACE TO BE REMOVED SHALL BE SAW CUT TO A NEAT, STRAIGHT LINE.
9.

THE CONTRACTOR SHALL SUBMIT A TRAFFIC CONTROL PLAN THAT SHALL BE ACCEPTED BY THE ENGINEERING DIVISION OF PUBLIC WORKS BEFORE START OF WORK IN RIGHT-OF-WAY AND SHALL BE IN ACCORDANCE WITH CALIFORNIA MUTCD LATEST EDITION. AT LEAST ONE LANE IN EACH DIRECTION SHALL REMAIN OPEN TO TRAFFIC UNLESS OTHERWISE SHOWN ON THE PLANS. TRAFFIC CONTROL HOURS ARE SUBJECT TO LIMITATION BY THE CITY. TRAFFIC CONTROL WITH LANE CLOSURES THAT AFFECT TRAFFIC FLOW MAY REQUIRE NIGHT WORK. IF, AS A PART OF TRAFFIC CONTROL MEASURES, A ROADWAY CLOSURE HAS BEEN APPROVED, THE CONTRACTOR SHALL NOTIFY DEVELOPMENT SERVICES CONSTRUCTION INSPECTOR 72 HOURS IN ADVANCE OF SETTING UP THIS CLOSURE.
10.

CURB RAMPS CONFORMING TO ALL ADA AND TITLE 24 REQUIREMENTS SHALL BE PLACED AT ALL NEW STANDARD CURB RETURNS (STANDARD DRAWING ST-27) AND STANDARD TYPE A-7 DRIVEWAYS. WHERE EXISITING RAMPS DO NOT MEET CURRENT ADA AND

TITLE 24 REQUIREMENTS, THE RAMPS SHALL BE UPGRADED IN CONFORMANCE WITH MINIMUM TITLE 24 REQUIREMENTS. WHERE EXISTING RAMPS DO NOT INCLUDE DETECTABLE WARNING PANELS (TRUNCATED DOMES), PANELS SHALL BE RETROFITTED PER THE CONSTRUCTION STANDARDS.

11.

DRAIN INLETS NOT WITHIN A PAVED AREA SHALL HAVE A 12" WIDE COLLAR OF 6" THICK P.C.C. OR 2" THICK A.C.
12.

PRIOR TO THE CERTIFICATE OF COMPLETION ON ALL SINGLE-FAMILY RESIDENTIAL SUBDIVISIONS, THE DEVELOPER SHALL SUBMIT A LETTER FROM THE POST OFFICE STATING THAT ITS REQUIREMENTS FOR MAILBOX CLUSTER PADS HAVE BEEN SATISFIED.
13.

ALL UNDERGROUND UTILITIES WITHIN EXISTING OR PROPOSED CITY OF ROSEVILLE EASEMENTS SHALL REQUIRE A MINIMUM OF 90% COMPACTION ON THE TRENCH BACKFILL. COMPACTION OF BACKFILL BY JETTING IS NOT PERMITTED IN CITY OF ROSEVILLE RIGHT OF WAY AND EASEMENT AREAS OR WITHIN DEDICATED RECLAIMED WATER, STORM, SEWER OR WATER EASEMENTS AND MAINS.
14.

THE CONTRACTOR SHALL CONDUCT A PRE-CONSTRUCTION MEETING ONE-WEEK PRIOR TO STARTING WORK. MEMBERS OF THE CITY OF ROSEVILLE DEVELOPMENT SERVICES DEPARTMENT, ENVIRONMENTAL UTILITIES DEPARTMENT AND ALL OTHER UTILITY REPRESENTATIVES SHALL BE NOTIFIED BY THE CONTRACTOR AS TO THE DATE AND LOCATION OF THE MEETING.
15.

PRIOR TO EXCAVATION OF TRENCHES 5 FEET OR DEEPER, THE CONTRACTOR SHALL SUBMIT TO THE DEVELOPMENT SERVICES DEPARTMENT OR ENVIRONMENTAL UTILITIES DEPARTMENT INSPECTOR A COPY OF THE COMPANY'S ANNUAL CALOSHA TRENCHING PERMIT AND A COPY OF THE COMPANY'S LETTER INFORMING CALOSHA OF THE TIME THE TRENCHING IS COMMENCING AND THE LOCATION OF THE WORK.
16.

ALL PAINTED TRAFFIC STRIPES, ARROWS, AND PAVEMENT MARKINGS SHALL BE CONSTRUCTED WITH THERMOPLASTIC MATERIAL TO THE SPECIFICATIONS SET FORTH IN CHAPTER 3 OF THE CALIFORNIA MUTCD LATEST EDITION. NON-REFLECTIVE PAVEMENT MARKERS SHALL CONSIST OF CERAMIC MARKERS ONLY CONFORMING TO CHAPTER 3 OF THE CALIFORNIA MUTCD LATEST EDITION.
17.

THE DEVELOPERS CONTRACTOR SHALL TAKE EXTREME CARE TO PROTECT EXISTING SITE AND ADJACENT IMPROVEMENTS FROM DAMAGE. THE CONTRACTOR SHALL BE RESPONSIBLE TO REPAIR OR MAKE REPLACEMENT OF ALL CRACKED AND OTHERWISE PRE-EXISTING DAMAGED PUBLIC IMPROVEMENTS ALONG THE FRONTAGE OF THE PROJECT SITE AND ANY DAMAGE RESULTING FROM CONSTRUCTION TO CURRENT CITY STANDARDS AND AT THEIR OWN EXPENSE. THE EXTENT OF THE REPAIRS SHALL BE DETERMINED BY THE DEVELOPMENT SERVICES CONSTRUCTION INSPECTOR AND SHALL BE COMPLETED PRIOR TO THE CITY ACCEPTANCE OF THE IMPROVEMENTS.

18. WHERE COMBINATIONS OF SIDEWALK OR CURB AND GUTTER ARE PLACED CONTIGUOUS TO EXISTING, ALL ADJOINING EXISTING CONCRETE VERTICAL FACES SHALL BE DOWELED. ALL ABUTTING SIDEWALK ENDS SHALL BE DOWELED MID-SECTION VERTICALLY WITH TWO DOWELS FOR FOUR THROUGH SIX-FOOT WIDE SIDEWALK AND THREE DOWELS FOR WIDER SIDEWALK. ABUTTING CURB AND GUTTER ENDS SHALL BE DOWELED TWICE, 18 INCHES APART AT GUTTER PAN MID-SECTION. DOWEL CONNECTIONS OF LONGITUDINAL RUNS OF SIDEWALK TO BACK OF CURB SHALL BE THREE FEET ON CENTER. ALL DOWELS SHALL BE 16 INCHES LONG, GRADE 60; #4 REBAR PENETRATING FOUR INCHES. THE DOWEL HOLE SHALL BE 5/8-INCH DIAMETER AT A SLIGHT HORIZONTAL ANGLE FROM PERPENDICULAR. THE PENETRATING PORTION OF THE DOWEL AND THE ENTIRE (CLEANED) VERTICAL SURFACE OF THE ADJOINING, EXISTING CONCRETE SHALL BE THOROUGHLY COATED WITH STATE STANDARD TWO-PART EPOXY.

19. WHEN SAWCUTTING WITHIN THE STREET FOR TRENCHING OR OTHER PURPOSES, CONTRACTOR SHALL GRIND 1½" OF PAVEMENT BETWEEN THE LANE LINES (FROM LANE STRIPE TO LANE STRIPE) UPON COMPLETION OF THE SAWCUTTING AND OR TRENCHING WORK. WHERE THE SAWCUTTING OCCURS BETWEEN THE CURB AND GUTTER AND NEAREST LANE STRIPE (INCLUDING BIKE LANES), THE SAME 1 ½" GRIND SHALL BE REQUIRED. CONTRACTOR TO PLACE A PETROMAT FABRIC OR APPROVED EQUAL BY THE CITY OF ROSEVILLE AND OVERLAY FROM LANE STRIPE TO LANE STRIPE, OR CURB TO LANE STRIPE AND RESTRIPE OR REPLACE ANY DELINEATORS REMOVED DURING THE GRIND.

20. ALL PUBLICLY MAINTAINED STORM DRAIN ON PRIVATE PROPERTY SHALL BE A MINIMUM OF 12 INCHES IN DIAMETER AND SHALL BE RCP CL IV, UNLESS OTHERWISE APPROVED BY THE CITY ENGINEER.

21. FOR RESIDENTIAL SUBDIVISIONS, UNLESS OTHERWISE APPROVED BY DEVELOPMENT SERVICES ENGINEERING, THE FINAL GRADING OF THE PROJECT SITE SHALL BE CONSTRUCTED TO ACCOMMODATE A MAXIMUM DRIVEWAY SLOPE OF 14% FOR EACH RESIDENTIAL LOT, AS MEASURED FROM THE BACK OF THE SIDEWALK TO THE GARAGE (20-FT SET BACK). IT WILL REMAIN THE RESPONSIBILITY OF THE BUILDERS/DEVELOPER TO DESIGN A HOUSE THAT PROVIDES SUITABLE ACCESS TO THE PARCEL.

22. THE CONTRACTOR SHALL PLACE FILTER FABRIC BETWEEN THE INITIAL BEDDING AND BACKFILL AND THE TRENCH BACKFILL FOR SANITARY SEWERS DEPTH GREATER THAN 15 FEET MEASURED TO THE PIPE INVERT.

EROSION / SEDIMENT CONTROL:

1.

ALL EROSION AND SEDIMENT CONTROL MEASURES SHALL BE IMPLEMENTED BY OCTOBER 5 OR AS APPROVED BY THE CITY ENGINEER AND SPECIFIED ON THE GRADING PLANS.

2. STRAW BALES SHALL BE STOCKPILED ON SITE AT A RATE OF 1.5 BALES PER ACRE BY SEPTEMBER 25. MEASURES SHALL BE PROVIDED TO KEEP STRAW DRY.

3. ALL SLOPES GREATER THAN 10:1 SHALL BE COVERED WITH BROADCAST STRAW AT A RATE OF 50 BALES OR 4000 POUNDS PER ACRE. FOR SLOPES 4:1 OR STEEPER, STRAW SHALL BE PRESSED IN PLACE. THE ENGINEERING DIVISION SHALL APPROVE OTHER METHODS.

4. SLOPES STEEPER THAN 4:1 AND ADJACENT TO CITY RIGHT OF WAY, FLOOD PLAINS, NATURAL DRAINAGES, PARK LAND OR DESIGNATED OPEN SPACE SHALL BE HYDROSEEDDED.

5. ALL BARE AREAS, REGARDLESS OF SLOPE, WITHIN 50 FEET OF NATURAL DRAINAGES SHALL BE COVERED WITH STRAW AND PRESSED IN PLACE.

6. WHERE REQUIRED, BROADCAST SEED SHALL BE APPLIED AS FOLLOWS:

- a.

BLANDO BROME

12
- b.

ROSE CLOVER

9

7. AREAS WITH SANDY, DRY SOIL SHALL BE:

- a.

ZORRO ANNUAL FESCUE

6 LBS/ACRE
- b.

ROSE CLOVER

9 LBS/ACRE

8. 16-20-0 FERTILIZER OR EQUIVALENT SHALL BE APPLIED AT A RATE OF 500 POUNDS PER ACRE. IF HYDROSEEDING/MULCHING IS USED, SEED QUANTITIES SHALL BE INCREASED BY 30 PERCENT.

9. NO GRADING OR TRENCHING, EXCEPT AS REQUIRED FOR EROSION OR SEDIMENT CONTROL, SHALL OCCUR WITHIN 35 FEET FROM THE CENTERLINE OF PERENNIAL AND INTERMITTENT DRAINAGE SWALES BETWEEN OCTOBER 5 AND APRIL 1 EXCEPT AS APPROVED BY THE DEPARTMENT OF FISH AND GAME.

10. ALL EROSION AND SEDIMENT CONTROL MEASURES SHALL BE CHECKED FOLLOWING ALL STORMS TO ENSURE THAT ALL MEASURES ARE FUNCTIONING PROPERLY.

11. SEDIMENT AND TRASH ACCUMULATED IN DRAINAGES OR DETENTION BASINS SHALL BE REMOVED AS SOON AS POSSIBLE. IN ADDITION, OIL AND MATERIAL FLOATING ON WATER SURFACE MUST BE SKIMMED WEEKLY AND THE DEBRIS PROPERLY DISPOSED OF.

12. CONSTRUCTION ACTIVITIES OCCURRING BETWEEN OCTOBER 15 AND APRIL 1 SHALL HAVE EROSION AND SEDIMENT CONTROL MEASURES IN PLACE OR CAPABLE OF BEING PLACED WITHIN 24 HOURS. THE CONTRACTOR SHALL ENSURE THAT THE CONSTRUCTION SITE IS PREPARED PRIOR TO THE ONSET OF ANY STORM.

CITY OF ROSEVILLE - PUBLIC IMPROVEMENTS REQUIREMENTS

13. THE CONTRACTOR SHALL ESTABLISH A SPECIFIC SITE WITHIN THE DEVELOPMENT FOR MAINTENANCE AND STORAGE OF EQUIPMENT OR ANY OTHER ACTIVITY THAT MAY ADVERSELY CONTRIBUTE TO THE WATER QUALITY OF THE RUNOFF. THIS AREA SHALL HAVE A BERM LOCATED AROUND ITS PERIMETER. THIS AREA SHALL BE RESTORED TO ACCEPTABLE CONDITION UPON COMPLETION OF PROJECT.
14. HYDROSEEDING MAY BE CONSIDERED AS AN ALTERNATIVE TO BROADCAST STRAW SUBJECT TO THE ENGINEERING DIVISION BASED ON A REVIEW OF THE EXISTING SITE CONDITIONS (LOCATION, SLOPES, PROXIMITY TO STREAMS) AND TIME OF YEAR.

AIR QUALITY:

THE FOLLOWING NOTES ARE PROVIDED AS REFERENCE TO APPLICABLE PLACER COUNTY AIR POLLUTION CONTROL DISTRICT ADOPTED RULES AND REGULATIONS. COMPLIANCE WITH ALL APPLICABLE APCD RULES IS THE SOLE RESPONSIBILITY OF THE CONTRACTOR. AIR QUALITY RULES ARE ENFORCED SOLELY BY THE PLACER COUNTY AIR POLLUTION CONTROL DISTRICT.

1. CONSTRUCTION EQUIPMENT EXHAUST EMISSIONS SHALL NOT EXCEED PLACER COUNTY APCD RULE 202 VISIBLE EMISSION LIMITATIONS. OPERATORS OF VEHICLES AND EQUIPMENT FOUND TO EXCEED OPACITY LIMITS ARE TO BE IMMEDIATELY NOTIFIED BY APCD TO CEASE OPERATIONS AND THE EQUIPMENT MUST BE REPAIRED WITHIN 72 HOURS. (BASED ON APCD RULE 202)
2. THE CONTRACTOR SHALL SUSPEND ALL GRADING OPERATIONS WHEN FUGITIVE DUST EXCEEDS PLACER COUNTY APCD RULE 228 (FUGITIVE DUST) LIMITATIONS. THE PRIME CONTRACTOR SHALL BE RESPONSIBLE FOR HAVING AN INDIVIDUAL WHO IS CARB-CERTIFIED TO PERFORM VISIBLE EMISSIONS EVALUATIONS (VEE). THIS INDIVIDUAL SHALL EVALUATE COMPLIANCE WITH RULE 228 ON A WEEKLY BASIS. IT IS TO BE NOTED THAT FUGITIVE DUST IS NOT TO EXCEED 40% OPACITY AND NOT GO BEYOND THE PROPERTY BOUNDARY AT ANY TIME. LIME OR OTHER DRYING AGENTS UTILIZED TO DRY OUT WET GRADING AREAS SHALL NOT EXCEED PLACER COUNTY APCD RULE 228 FUGITIVE DUST LIMITATIONS. OPERATORS OF VEHICLES AND EQUIPMENT FOUND TO EXCEED OPACITY LIMITS WILL BE NOTIFIED BY APCD AND THE EQUIPMENT MUST BE REPAIRED WITHIN 72 HOURS. ALL PROJECTS IN EXCESS OF 5 ACRES SHALL HAVE AN APPROVED DUST CONTROL PLAN FROM THE PLACER COUNTY AIR POLLUTION CONTROL DISTRICT. (BASED ON APCD RULE 228)
3. DURING CONSTRUCTION, TRAFFIC SPEEDS ON ALL UNPAVED SURFACES SHALL BE LIMITED TO 15 MILES PER HOUR OR LESS. (BASED ON APCD RULE 228 / SECTION 401.2)
4. DURING CONSTRUCTION, NO OPEN BURNING OF REMOVED VEGETATION SHALL BE ALLOWED UNLESS PERMITTED BY THE PCAPCD. ALL REMOVED VEGETATIVE MATERIAL SHALL BE EITHER CHIPPED ON SITE OR TAKEN TO AN APPROPRIATE RECYCLING

SITE, OR IF A SITE IS NOT AVAILABLE, A LICENSED DISPOSAL SITE. (BASED ON APCD RULE 310)

5. A PERSON SHALL NOT DISCHARGE INTO THE ATMOSPHERE VOLATILE ORGANIC COMPOUNDS (YOC'S) CAUSED BY THE USE OR MANUFACTURE OF CUTBACK OR EMULSIFIED ASPHALTS FOR PAVING, ROAD CONSTRUCTION OR ROAD MAINTENANCE, UNLESS SUCH MANUFACTURE OR USE COMPLIES WITH THE PROVISIONS RULE 217. (BASED ON APCD RULE 217).
6. PROCESSES THAT DISCHARGE 2 POUNDS PER DAY OR MORE OF AIR CONTAMINANTS, AS DEFINED BY HEALTH AND SAFETY CODE SECTION 39013, TO THE ATMOSPHERE MAY REQUIRE A PERMIT. PERMITS MAY BE REQUIRED FOR BOTH CONSTRUCTION AND OPERATION. DEVELOPERS/CONTRACTORS SHOULD CONTACT THE DISTRICT PRIOR TO CONSTRUCTION AND OBTAIN ANY NECESSARY PERMITS PRIOR TO THE ISSUANCE OF A BUILDING PERMIT. (BASED ON THE CALIFORNIA HEALTH & SAFETY CODE SECTION 39013: [HTTP://WWW.LEGINFO.CA.GOV/CGI-BIN/DISPLAYCODE?SECTION~HSC&GROUP=39001-40000&FILE=39010-39060](http://www.leginfo.ca.gov/cgi-bin/DisplayCode?section=hsc&group=39001-40000&file=39010-39060))

GENERAL FIRE DEPARTMENT NOTES:

1. PRIOR TO COMBUSTIBLE MATERIALS BEING BROUGHT TO THE SITE, FIRE APPARATUS ACCESS ROADS SHALL BE PROVIDED TO WITHIN 150 FEET OF ALL PORTIONS OF THE EXTERIOR WALLS OF THE FIRST STORY OF ANY STRUCTURES AND COMBUSTIBLE STORAGE PILES. FIRE APPARATUS ACCESS ROADS SHALL BE FULLY PAVED AND SHALL BE DESIGNED TO SUPPORT THE IMPOSED WEIGHT OF A FIRE APPARATUS (34 TONS GVW). ACCESS ROADS SHALL BE PROVIDED WITH A MINIMUM 20-FOOT ROADWAY WIDTH AND 13 FOOT 6-INCH VERTICAL CLEARANCE.
2. CONSTRUCTION MATERIAL AND VEHICLES SHALL NOT OBSTRUCT FIRE APPARATUS ACCESS TO FIRE APPARATUS ROADS, FIRE HYDRANTS OR THE BUILDING.
3. TEMPORARY ABOVE GROUND FUEL STORAGE TANKS MAY BE USED ON CONSTRUCT/ON SITES FOR DIESEL FUEL ONLY AND SHALL NOT EXCEED 1, 000-GALLON LIQUID CAPACITY. SUCH INSTALLATIONS SHALL COMPLY WITH ALL APPLICABLE PROVISIONS OF THE CITY FIRE CODE. A FIRE DEPARTMENT PERMIT SHALL BE OBTAINED PRIOR TO THE PLACEMENT OF SUCH TANKS ON THE SITE.
4. THE STREET ADDRESS OF THE CONSTRUCTION SITE SHALL BE CLEARLY IDENTIFIED AT ALL ENTRANCES INTO THE PROJECT. SUCH NUMBERS SHALL BE CLEARLY VISIBLE FROM THE STREET FRONTING THE PROPERTY AND SHALL CONTRAST IN COLOR WITH THEIR BACKGROUND (MINIMUM 6-INCH LETTERING).
5. FIRE SAFETY DURING CONSTRUCT/ON. CHAPTER 33 OF THE CALIFORNIA FIRE CODE REQUIRES CERTAIN SAFETY PROCEDURES TO BE FOLLOWED DURING NEW CONSTRUCT/ON AND REMODELS. THIS ARTICLE

CONCERNS FIRE SAFETY IN THE FOLLOWING AREAS: ACCESS, WATER SUPPLY, EXTINGUISHERS, STANDPIPES, DEBRIS, MOTORIZED EQUIPMENT, HEATING DEVICES, SMOKING, CUTTING AND WELDING, FLAME PRODUCING EQUIPMENT, FLAMMABLE LIQUIDS, ASPHALT AND TAR KETTLES, TEMPORARY WIRING, EMERGENCY TELEPHONE MODIFICATION OF EXISTING SYSTEMS, EXITS, BURNING OF ANY MATERIAL, AND FIRE WATCH. IT IS YOUR RESPONSIBILITY TO BECOME FAMILIAR WITH THESE REQUIREMENTS AND SEE THAT ALL PERSONS ON THE JOB SITE COMPLY.

6. THE BURNING OF COMBUSTIBLE CONSTRUCTION MATERIAL AND TRASH IS PROHIBITED.
7. A MINIMUM 3-FOOT CLEAR SPACE SHALL BE PROVIDED AND MAINTAINED AROUND FIRE PROTECTION EQUIPMENT.
8. AT ALL FIRE HYDRANT LOCATIONS, A BLUE REFLECTIVE PAVEMENT MARKER SHALL BE INSTALLED ONE FOOT OFF PAVED CENTERLINE OR MEDIAN ON THE HYDRANT SIDE OF THE ROADWAY.
9. IF SITE SURVEY OR EARTH MOVING WORK RESULTS IN THE DISCOVERY OF HAZARDOUS MATERIALS IN CONTAINERS, OR WHAT APPEARS TO BE HAZARDOUS WASTES RELEASED INTO THE GROUND, THE CONTRACTOR OR APPLICANT SHALL IMMEDIATELY REPORT THE FINDING TO THE ROSEVILLE FIRE DEPARTMENT VIA PHONE AT (916) 774-5800. ALL SUSPECTED AREAS SHALL BE MARKED OFF WITH APPROVED SIGNAGE OR CAUTION TAPE UNTIL SUCH TIME THAT A REPRESENTATIVE FROM THE FIRE DEPARTMENT DETERMINES WHETHER THE RELEASE IS REPORTABLE OR NOT AND IF SITE REMEDIATION IS REQUIRED.
10. THE REQUIRED MINIMUM FIRE FLOW FOR THE PROTECTION OF THE PROPOSED PROJECT IS 1,500 GALLONS PER MINUTE WITH 20 POUNDS PER SQUARE INCH RESIDUAL WATER PRESSURE REMAINING IN THE SYSTEM.
11. FIRE HYDRANTS SHALL BE INSTALLED AND IN SERVICE CAPABLE OF PROVIDING THE REQUIRED FIRE FLOW PRIOR TO ANY COMBUSTIBLE CONSTRUCT/ON OR ON-SITE STORAGE OF COMBUSTIBLE MATERIALS.
12. ALL FIRE HYDRANTS SHALL BE "BAGGED" OR OUT-OF-SERVICE UNTIL THE ABOVE FOUR (4) INSPECTIONS ARE COMPLETED.
13. WATER SUPPLY CONTROL VALVES SHALL NOT BE CLOSED BY THE CONTRACTOR UPON ACCEPTANCE OF THE FIRE-FLOW TEST BY THE FIRE DEPARTMENT, UNLESS ENVIRONMENTAL UTILITIES AND THE FIRE DEPARTMENT ARE CONTACTED AND ADVISED OF THE CLOSURE.

14. TESTING OF ALL FIRE SYSTEMS SHALL BE PERFORMED PRIOR TO THE SALES OFFICE CAN BE OPENED FOR BUSINESS.
15. FRAMING CONSTRUCTION CANNOT COMMERCE UNTIL ACCESS ROADS AND PUBLIC FIRE HYDRANTS ARE APPROVED BY THE FIRE DEPARTMENT.
16. IF THIS PROJECT WILL BE PHASED, THE FIRE DEPARTMENT REQUIREMENTS FOR ACCESS AND CIRCULATION THROUGHOUT SHALL BE APPROVED BY THE CITY FOR SUCH PROPOSAL. ACCESS ROAD SHALL COMPLY IN ACCORDANCE WITH THE CALIFORNIA FIRE CODE AND THE CITY OF ROSEVILLE'S AMENDMENTS. A SEPARATE PHASING PLAN SHALL BE REVIEWED AND APPROVED BY THIS DEPARTMENT.

SPECIAL NOTES:

1. THE CONTRACTOR SHALL BE RESPONSIBLE TO REPAIR OR MAKE REPLACEMENT OF DAMAGED PRIVATE PROPERTY IMPROVEMENTS RESULTING FROM CONSTRUCTION AT THEIR OWN EXPENSE. THE EXTENT OF THE REPAIRS SHALL BE DETERMINED BY THE DEVELOPMENT SERVICES CONSTRUCTION INSPECTOR AND SHALL BE COMPLETED PRIOR TO THE CITY ACCEPTANCE OF THE IMPROVEMENTS

COUNCIL COMMUNICATION

CC #: 2484
File #: 0203-04

Title: Citywide Plotter Replacement - Contract Purchase Agreement
Contact: Brian Johnson 916-774-5141 bjohnson@roseville.ca.us

Meeting Date: 1/18/2023
Item #: 7.11.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council adopt a resolution approving the Contract Purchase Agreement (3002678) with J.J.R. Enterprises, Inc. dba Caltronics Business Systems and authorizing the City Manager to execute it.

BACKGROUND

There are nine (9) large format plotters and/or scanners throughout the City that have reached their end of life. These machines are used for a variety of purposes which include, but are not limited to, public safety large scale aerial wall maps, planning and development related maps, scanning of as-built drawings and printing of presentation posters.

Many of the City's current plotters have begun to fail or function in a sub-optimal manner so it is in the interest of the City that these units are replaced to increase plotting speed and productivity output for City staff and the services they support.

The City is leveraging an existing competitive bid contract (National Association of State Procurement Officials (NASPRO) Contract #140597) and includes all related hardware, software, ink, installation, training, e-waste recycling, as well as five years of support care packs. The total cost is \$136,353.88.

FISCAL IMPACT

The total cost of \$136,353.88 will be funded through the FY2022-23 Information Technology Replacement Fund budget.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines

§15060(c)(3) and §15378. Approval of a Contract Purchase Agreement for citywide plotter replacement meets the above criteria is not subject to CEQA. No additional environmental review is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal E - Deliver exceptional city services

Goal F - Invest in well-planned infrastructure and growth

Respectfully Submitted,

Brian Johnson, Information Technology Program Manager

Hong Sae, Chief Information Officer

Dominick Casey, City Manager

Description

Resolution 23-014

Contract Purchase Agreement

RESOLUTION NO. 23-014

APPROVING A CONTRACT PURCHASE AGREEMENT, BY AND BETWEEN THE CITY OF ROSEVILLE AND J. J. R. ENTERPRISES, INC. DBA CALTRONICS BUSINESS SYSTEMS, AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE

WHEREAS, a contract purchase agreement (3002678), to upgrade plotter and scanning devices, utilizing the National Association of State Procurement Officials (NASPO) contract #140597, by and between the City of Roseville and J. J. R. Enterprises, Inc. dba Caltronics Business Systems, has been reviewed by the City Council.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that said contract purchase agreement is approved and that the City Manager is authorized to execute it on behalf of the City of Roseville.

PASSED AND ADOPTED by the Council of the City of Roseville this ____ day of _____, 2023, by the following vote on roll call:

AYES COUNCILMEMBERS:

NOES COUNCILMEMBERS:

ABSENT COUNCILMEMBERS:

MAYOR

ATTEST:

City Clerk

This Contract Purchase Agreement is sent for your review and acceptance. Notify the Buyer via email of any needed changes to the company name, address, and contact information. The Buyer will update the agreement prior to you signing the document.

Return signed copies of the agreement to the Buyer noted on the agreement. Alterations or modifications to the agreement are not allowed. Upon receipt of all necessary documents, the City will sign the agreement and return a fully executed copy to you. Receipt of the signed copy will be your notice to proceed with the work in accordance with the terms and conditions of the agreement. Work must not begin until the contract has been fully executed.

The following guidelines must be followed for the signature block on the agreement:

Sole proprietorship - By owner

Partnership - Any general partner

Corporation - Two options:

(1) A signature from the President and the corporate seal; OR

(2) One signature from the Chairman of the Board, President, or any Vice President AND one signature from the Secretary, any Assistant Secretary, Chief Financial Officer, or any Treasurer or Assistant Treasurer of the corporation

***General Manager, Office Manager and/or Sales Manager are not corporate officer titles.** The agreement will be rejected if not signed in accordance with these guidelines.

Insurance requirements:

The City's insurance requirements are referenced on Attachment A of the agreement. By signing the agreement, you are confirming that your company has the minimum insurance limits required.

Contract Terms and Conditions

1. To the fullest extent allowed by law, Consultant agrees to indemnify, including the cost to defend City, and its officers, agents, employees and volunteers from any and all claims, demands, costs or liability that arise out of, or pertain to, or relate to the negligence, recklessness, or willful misconduct of Consultant and its agents in the performance of services under this contract, but this indemnity does not apply to liability for damages for death or bodily injury to persons, injury to property, or other loss, arising from the sole negligence, willful misconduct or defects in design by City or the agents, servants, or independent contractors who are directly responsible to City, or arising from the active negligence of City. Consultant's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.
2. Consultant is an independent contractor, and shall not be considered an officer, agent or employee of the City.
3. Without the written consent of the City, this Agreement is not assignable by Consultant either in whole or in part.
4. Time is of the essence of this Agreement.
5. At any time during the term of this Agreement, the City has the right to terminate this Agreement, provided Consultant is given thirty (30) days written notice. City's termination shall be without further liability to City; however, Consultant shall be entitled to all costs reasonably incurred prior to the date of termination. Consultant acknowledges that City may terminate this Agreement should funds not be appropriated by its governing body to continue services under this Agreement.
6. This Agreement may only be amended or modified in writing. It is integrated and contains the complete understanding of the parties.
7. All equipment, supplies and services sold to the City of Roseville shall conform to the general safety orders of the State of California.
8. Unless notified to the contrary, in writing, the City assumes that the Consultant has accepted the work in accordance with the plans and specifications (if any) and agrees to do the work in compliance with this Agreement. Any work product created for City pursuant to this Agreement is deemed owned by City.
9. All prevailing wages and fair employment practices must be adhered to. For prevailing wage contracts over \$25,000, copies of certified payroll must be submitted with invoices. Prevailing wage rates may be obtained from the State Department of Industrial Relations and/or the following website address:
<http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm>
10. Consultant agrees to the below insurance requirements:
 - a. Unless otherwise specified, the Consultant shall maintain the policies of insurance outlined in Attachment A, incorporated herein by this reference, in full force and effect during the term of this Agreement. The City of Roseville retains sole discretion in determining the types and proper levels of insurance coverage.
 - b. Form. Consultant shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made basis is subject to the approval of Risk Management and the City Attorney.
 - c. Additional Insureds. Consultant shall also provide a separate endorsement or section of the policy showing City, its officers, agents, employees, and volunteers as additional insureds for each type of coverage, except for Workers' Compensation and Professional Liability. Such insurance shall specifically cover the contractual liability of Consultant.

The additional insured coverage under the Consultant's policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy, and shall not seek contribution from City's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office (ISO) CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be:

- (1) the minimum coverage and limits specified in this Agreement; or
 - (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater
- d. Cancellation/Modification. Consultant shall provide thirty (30) days written notice to City prior to cancellation or modification of any insurance required by this Agreement.
 - e. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of City (if agreed to in a written contract) before City's own insurance shall be called upon to protect it as a named insured.
 - f. Subconsultants. Consultant agrees to include in its contracts with all subconsultants the same requirements and provisions of this Agreement, including the indemnity and insurance requirements, to the extent they apply to the scope of the subconsultants work. Furthermore, Consultant shall require its subconsultants to agree to be bound to Consultant and City in the same manner and to the same extent as Consultant is bound to City under this Agreement. Additionally, Consultant shall obligate its subconsultants to comply with these same provisions with respect to any tertiary subconsultant, regardless of tier. A copy of City's indemnity and insurance provisions will be furnished to the subconsultant or tertiary subconsultant upon request.
 - g. Self-Insured Retentions. All self-insured retentions (SIR) must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or City. City reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.
 - h. Waiver of Subrogation. Consultant hereby agrees to waive subrogation which any insurer of Consultant may acquire from Consultant by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability or Automobile Liability policy. All Workers Compensation, Commercial General Liability and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of City, its officers, agents, employees and volunteers for all work performed by Consultant, its employees, agents and sub consultants.
 - i. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve Consultant of liability in excess of such coverage, nor shall it preclude City from taking such other actions as are available to it under any other provisions of this Agreement or law.
11. Consultant shall comply with all federal, state, local laws, ordinances and policies as may be applicable to the performance of services under this Agreement. Failure to comply with local ordinances may result in monetary fines and cancellation of this Agreement.
 12. In the event that the terms of any attachment or exhibit conflict with any terms of this Agreement, the terms of this Agreement shall control.
 13. This Agreement may be executed in one or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. In the event that any signature is delivered by facsimile transmission or by e-mail delivery of a ".pdf" format data file, such signature shall create a valid and binding obligation of the party executing (or on whose behalf such signature is executed) with the same force and effect as if such facsimile or ".pdf" signature page were an original thereof.

14. If either party commences any legal action against the other party arising out of this Agreement or the performance thereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorneys' fees. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.
15. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.
16. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.
17. For purposes of this Agreement, the terms "Contractor," "Consultant," and "Supplier" are used interchangeably.
18. Consultant agrees that any and all information furnished by City shall be deemed proprietary and confidential. All such information, to the extent previously, presently or subsequently disclosed to Consultant and/or processed and derived by Consultant services is the property of City and such property shall be deemed and treated as "Confidential Information" of City. Consultant acknowledges that such Confidential Information may contain information provided and/or generated by third-parties. Consultant agrees that such Confidential Information shall not be disclosed to any third party without written permission from City, except as required by law. Consultant shall not use the Confidential Information except to perform Consultant's services as directed by City.
19. All facilities, devices, networks and services used to store, deliver, process, backup or purge Confidential Information will employ administrative, physical, technical, and procedural safeguards and best practices at a level sufficient to secure Confidential Information from unauthorized access, destruction, use, modification, or disclosure. Such measures will be no less protective than those used to secure Consultant's own information of a similar type, and in no event less than reasonable in view of the type and nature of the information involved. It is the City's expectation that Consultant, at its own expense, shall perform annual audits for any data centers that house Confidential Information, using an independent third-party audit that meets industry standards applicable to the services under this Agreement, and provide the audit report or certification upon request to City.
20. Consultant will retain Confidential Information until deleted by City or City-authorized third party, or for a time period mutually agreed upon by the parties to this Agreement.
21. Upon termination or expiration of this Agreement, Consultant will ensure that all Confidential Information is securely transferred to City within thirty (30) calendar days. Consultant will ensure that any transfer of Confidential Information is accomplished by methods that are compatible with the relevant City systems, and that City will have access to all Confidential Information during any such transfer. Consultant shall securely dispose of all Confidential Information when requested by City and Consultant will provide written notification to City once all Confidential Information has been securely disposed of.
22. Consultant shall report to City any data compromise or unauthorized access to Confidential Information within twenty-four (24) hours after Consultant discovers such data compromise or unauthorized access. Consultant will take commercially reasonable measures to address any such data compromise or unauthorized access in a timely manner. Except as otherwise required by law, Consultant will not provide notice to end users or other entities of any such data compromise or unauthorized access without written permission from City. Consultant will promptly reimburse City in full for all fees and costs incurred by City in any investigation, remediation or litigation resulting from any such data compromise or unauthorized access, including identity protection and restoration services for each person, who in the City's sole discretion, could be impacted by identity theft.
23. Consultant may not advertise that City is a client, list City as a reference or otherwise use City's name, logos, trademarks, or service marks without prior written permission from City.

24. Consultant acknowledges that services rendered under this agreement (including but not limited to service levels and operational levels) shall be performed in accordance with industry standards.
25. If the project referenced on this agreement is a Public Works project, then the following shall apply: No contractor or subcontractor may work on a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5. During the performance of this agreement, Contractor and its subcontractors shall have a continuing legal obligation to maintain current registration with the Department of Industrial Relations. Contractor is hereby notified that this project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.
26. If the project referenced on this agreement is a Public Works project, then the following shall apply: Contractor must submit all claims as defined in and in accordance with the claim resolution process set forth in Section 9204 of the Public Contract Code. Each such claim must be sent to the City by registered mail or certified mail with return receipt requested and must contain reasonable documentation to support the claim. All claims must be received prior to acceptance of the work.
27. Consultant certifies that Consultant, its employees, directors, officers, agents, subcontractors, vendors, and volunteers are not presently debarred, excluded, suspended, declared ineligible, voluntarily excluded, or proposed for debarment, exclusion, suspension or ineligibility by any federal, state, or local department or agency.
28. This Agreement may be amended via change order, but only if such change order is made in writing, approved by the City, and signed by both parties.
29. CONSULTANT agrees to defend and indemnify CITY if, despite the parties intent and practice, any venue, agency, or court with competent jurisdiction determines that CONSULTANT and/or any of its agents, officers, employees, volunteers, independent contractors, or subcontractors, are characterized as employee(s) of CITY.

CONSULTANT and CITY agree that: (a) CONSULTANT is free from the control and direction of CITY in connection with the performance of the work; (b) CONSULTANT is providing services directly to CITY; (c) CONSULTANT has and will maintain at all relevant times a business license; (d) CONSULTANT maintains a business location that is separate from CITY; (e) CONSULTANT is customarily engaged in an independently established business of the same nature as that involved in the work performed hereunder; (f) CONSULTANT actually contracts with other businesses to provide the same or similar services and maintains a clientele without restrictions from CITY; (g) CONSULTANT advertises and holds itself out to the public as available to provide the same or similar services; (h) CONSULTANT provides its own tools, vehicles, and equipment to perform the services; (i) CONSULTANT has negotiated its own rates; (j) CONSULTANT set its own hours and location of work in accomplishing CITY's on-call needs; and (k) CONSULTANT has the right to control the manner and means of accomplishing the result desired and exercises its own expert independent judgement.

The supplier named hereon by the acceptance of this order agrees to the provisions of this document titled "Contract Purchase Agreement" and all accompanying terms, conditions, and attachments.

Insurance Submission Process

The City of Roseville Human Resources/Risk Management Department uses a service called EBIX to manage our insurance certificate tracking.

How It Works

- The vendor's contact information is entered into EBIX. EBIX will contact the vendor to request proof of insurance.
- The Vendor can forward the request to their Insurance Agent(s) if necessary.
- Vendor/Insurance Agent submits insurance to EBIX by email to roseville@ebix.com or by fax to (770) 325-5727. After faxing or emailing the certificate, please DO NOT send the certificate by mail to EBIX. Please do not mail, email or fax any certificates to the City of Roseville.
- Once submitted, EBIX reviews the insurance documentation. If there are deficiencies, EBIX will send a follow up letter or email requesting additional information.

Questions Regarding Insurance Submission: Contact EBIX at (951) 652-4239

Questions Regarding Insurance Requirements Contact Risk Management at (916) 774-5202

COUNCIL COMMUNICATION

CC #: 2497

File #: 0400-04-12-1

Title: Sierra Vista II Sewer Lift Station Project - Notice of Completion

Contact: Ignacio Vizcarra 916-774-5578 ivizcarra@roseville.ca.us

Meeting Date: 1/18/2023

Item #: 7.12.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council adopt the attached resolution accepting Sierra Vista II, Sewer Lift Station, CWJ # 190463, as complete and authorizing the City Engineer to execute the Notice of Completion.

BACKGROUND

The Engineering Division has made a final inspection of the above project and has found the roadway infrastructure work complete in accordance with the improvement plans and City Specifications.

FISCAL IMPACT

The actions requested as part of this action have no impact to the City's General Fund. Construction costs were paid by the developer.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. Approval of a Notice of Completion meets the above criteria and is not subject to CEQA. No additional environmental review is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal F - Invest in well-planned infrastructure and growth

Respectfully Submitted,

Ignacio Vizcarra, Senior Construction Inspector

Mike Isom, Development Services Director

Dominick Casey, City Manager

RESOLUTION NO. 23-022

RESOLUTION OF THE COUNCIL OF THE CITY OF ROSEVILLE ACCEPTING THE PUBLIC WORK KNOWN AS SIERRA VISTA II, SEWER LIFT STATION PROJECT, APPROVING THE "NOTICE OF COMPLETION", AND AUTHORIZING AND DIRECTING THE CITY ENGINEER TO EXECUTE SAID NOTICE ON BEHALF OF THE CITY OF ROSEVILLE, THEREFORE, AND ACCEPTING A PORTION OF THE DEDICATIONS OFFERED ON THE RECORDED MAP OF THE SUBDIVISION.

BE IT RESOLVED by the Council of the City of Roseville as follows:

1. The "Notice of Completion" on file in the City Clerk's Department relative to that public work known as the Sierra Vista II, Sewer Lift Station is hereby approved and the public work accepted.
2. A portion of the right-of-way and easements offered for dedication on the final map of Sierra Vista –KT Properties Phase 2 Large Lot Subdivision recorded in Book FF of Maps, Page 18, in the office of the recorder of Placer County, is hereby accepted by the City in part as said dedications relates to the improvement plan set known as Sierra Vista II Sewer Lift Station.
3. The City Engineer is hereby authorized and directed to execute said Notice on behalf of the City of Roseville.

PASSED AND ADOPTED by the Council of the City of Roseville, this____day of_____, 20____, by the following vote on roll call:

Bond No. 9328372
Premium \$11,531/annum

**SIERRA VISTA SPECIFIC PLAN MITIGATION FEE PROGRAM
FAITHFUL PERFORMANCE BOND**
(Project: Sierra Vista Phase II - Lift Station (PL 13-0096))

WHEREAS, the City of Roseville ("CITY") and Lennar Homes of California, Inc. ("DEVELOPER") have entered into an Infrastructure Fee Credit/Fee Reimbursement Agreement whereby DEVELOPER is required to construct certain public infrastructure and to furnish a faithful performance bond in favor of CITY guaranteeing the construction of said public infrastructure; and

WHEREAS, DEVELOPER has entered into a contract with Lennar Homes of California, Inc. as contractor ("PRINCIPAL") for the work described as Sierra Vista Phase II - Lift Station (PL 13-0096) (the "WORK"). The contract ("AGREEMENT"), for the WORK described above, and all of its terms and conditions are incorporated by reference and made a part hereof; and

WHEREAS, PRINCIPAL is required to furnish a bond in connection with the AGREEMENT guaranteeing its faithful performance; and

NOW, THEREFORE, we the undersigned PRINCIPAL and Fidelity and Deposit Insurance Company, a Illinois corporation, admitted and duly authorized to transact business under the laws of the State of California, as SURETY ("SURETY"), are held and firmly bound unto DEVELOPER or CITY or its successors and assigns in the sum of Four million two hundred seventy thousand eight hundred and 00/100 dollars (\$ 4,270,800.00) (which amount is not less than 100% of the AGREEMENT price) to be paid to DEVELOPER or CITY or its successors and assigns; and for which payment, well and truly to be made, we bind ourselves, our heirs, executors and administrators, successors or assigns jointly and severally, firmly by these presents.

The condition of this obligation is such that if PRINCIPAL, or its heirs, executors, administrators, successors or assigns, shall abide by, and in all respects promptly and faithfully perform the covenants, conditions and provisions in said AGREEMENT and any alteration thereof made as therein provided, notice of which alterations to SURETY being hereby waived, on its part to be kept and performed at the time and in the manner therein specified, and in all respects according to their true intent and meaning, and shall indemnify and save harmless DEVELOPER or CITY, its officers, agents, employees, volunteers as therein stipulated, then this obligation shall be null and void; otherwise, this obligation shall be and remain in full force and effect.

As condition precedent to the satisfactory completion of the contract, the obligation of PRINCIPAL and SURETY under this Bond shall remain in effect for a

period of one (1) year after the completion and acceptance of the WORK. During that time, if PRINCIPAL, its heirs, executors, administrators, successors or assigns fails to make full, complete and satisfactory repair and replacement or totally protect DEVELOPER or CITY from any loss or damage made evident during that year which results from or is caused by either defective materials or faulty workmanship in the prosecution of the WORK, then the obligation shall remain in full force and effect. However, anything in this paragraph to the contrary notwithstanding, the obligation of SURETY shall continue so long as any obligation of PRINCIPAL remains.

No prepayment or delay in payments, and no change, extension, addition or alteration of any provision of the AGREEMENT or in the specifications agreed to between the PRINCIPAL and DEVELOPER, or any forbearance on the part of the DEVELOPER or CITY shall operate to relieve SURETY. SURETY hereby waives the provisions of Section 2819 of the California Civil Code. SURETY waives all rights of subrogation against the DEVELOPER or CITY or any person employed by the DEVELOPER or CITY. If the contract price increases by the issuance of change orders, the amount specified in this bond shall increase by the same amount.

Whenever PRINCIPAL shall be and declared by DEVELOPER or CITY to be in default under the AGREEMENT, SURETY shall promptly remedy the default, or shall promptly do one of the following at DEVELOPER's or CITY's election:

1. Undertake through its agents or independent contractors, reasonably acceptable to DEVELOPER or CITY, to complete the AGREEMENT in accordance with its terms and conditions and to pay and perform all obligations of PRINCIPAL under the AGREEMENT, including without limitation, all obligations with respect to warranties, guarantees, and the payment of liquidated damages.
2. Reimburse DEVELOPER or CITY for all costs DEVELOPER or CITY incurs in completing the AGREEMENT, and in correcting, repairing or replacing defects in materials or workmanship and/or materials and workmanship which do not conform to the specifications in the AGREEMENT.

SURETY's obligations hereunder are independent of the obligations of any other surety for the performance of the AGREEMENT, and suit may be brought against SURETY and such other sureties, jointly and severally, or against any one or more of them, or against less than all of them without impairing DEVELOPER's or CITY's rights against the others.

No right of action shall accrue on this bond to or for the use of any person or corporation other than DEVELOPER or CITY or its successors or assigns.

As part of the obligation secured hereby and in addition to the face amount specified therefore, there shall be included costs and reasonable expenses and fees, including reasonable attorneys' fees, incurred by DEVELOPER or CITY in successfully

enforcing such obligation, all to be taxed as costs and included in any judgment rendered.

IN WITNESS WHEREOF, this instrument has been duly executed by the
PRINCIPAL and SURETY above-named, on the 18th day of November,
2020.

COUNCIL COMMUNICATION

CC #: 2501
File #: 0800-02

Title: Wastewater Treatment Plant Capacity Analysis Consulting Services - Professional Services Agreement Amendment
Contact: Rana Moore 916-774-5581 rcmoores@roseville.ca.us

Meeting Date: 1/18/2023
Item #: 7.13.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council adopt a resolution to approve the First Amendment to Professional Services Agreement with Woodard & Curran Inc. in the amount of \$355,819 for the Dry Creek and Pleasant Grove Wastewater Treatment Plant (WWTP) Capacity Evaluation Project and authorize the City Manager to execute it.

BACKGROUND

Per recommendations from the South Placer Regional Wastewater 2020 Systems Evaluation report, prior to any further improvements at the City's wastewater treatment plants, process-specific sampling, process modeling, and stress-testing should be conducted. This analysis will provide a sound basis for the planning of new facilities, as well as the rehabilitation of existing facilities, and is integral to determining required future capital improvement projects during phased expansions.

On March 3, 2021, Woodard & Curran Inc. was awarded a Professional Services Agreement to conduct the Dry Creek and Pleasant Grove Wastewater Treatment Plant Capacity Evaluation.

This amendment request is due to the following:

1. Woodard & Curran's original scope, schedule, and budget were based on the capacity evaluation for Pleasant Grove WWTP and Dry Creek WWTP occurring simultaneously, with a project completion date of August 2023. Due to delays in final completion and process stabilization of the Pleasant Grove WWTP Expansion Project, the capacity evaluation efforts at each of the two treatment plants are now on separate schedules. Pleasant Grove WWTP capacity analysis is delayed until the expansion is complete and stabilized, resulting in labor cost escalations and an extended project schedule through August 2025.
2. The number of process fundamentals training sessions was increased to accommodate staff schedules.
3. Due to staffing shortages in the City's environmental treatment laboratory, a larger than anticipated contract with an outside laboratory was necessary to complete the sampling and

analytical campaign. Unit costs for laboratory services were also considerably higher when formally procured in fall of 2021 versus unit costs quoted in fall of 2020 during project procurement.

4. In order to provide a foundation for fees related to wastewater capacity upgrade projects, the City has asked Woodard & Curran to complete a "Capacity Improvements Evaluation" in advance of completing the Dry Creek dynamic process modeling and facilities plan. The City has requested that for the new analysis, conditions at the near-term, 20-year planning horizon (original scope), and future buildout be evaluated.

FISCAL IMPACT

The total not-to-exceed change in Woodard & Curran's contract for extending and expanding services is \$355,819. This project is funded by the South Placer Wastewater Authority, and this contract amendment of \$355,819 can be accommodated within the existing Dry Creek and Pleasant Grove WWTP Capacity Evaluation Project budget. This amendment would bring the total project budget from 1,034,153 to 1,390, 153. No additional funding is required at this time.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) only applies to projects which have the potential to cause a significant effect on the environment. Where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA. (CEQA Guidelines §15061(b)(3)).

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal F - Invest in well-planned infrastructure and growth

Respectfully Submitted,

Rana Moore, Associate Engineer

Richard Plecker, Environmental Utilities Director

Dominick Casey, City Manager

Description

Resolution 23-025

Amendment One

RESOLUTION NO. 23-025

APPROVING A FIRST AMENDMENT TO PROFESSIONAL SERVICES AGREEMENT, BY
AND BETWEEN THE CITY OF ROSEVILLE AND WOODARD & CURRAN INC., AND
AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF
THE CITY OF ROSEVILLE

WHEREAS, a first amendment to professional services agreement for wastewater treatment plant capacity analysis consulting services, by and between the City of Roseville and Woodard & Curran Inc., has been reviewed by the City Council; and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that said first amendment is hereby approved and that the City Manager is authorized to execute it on behalf of the City of Roseville.

PASSED AND ADOPTED by the Council of the City of Roseville this ____ day of _____, 20__, by the following vote on roll call:

AYES COUNCILMEMBERS:

NOES COUNCILMEMBERS:

ABSENT COUNCILMEMBERS:

MAYOR

ATTEST:

City Clerk

**FIRST AMENDMENT TO
PROFESSIONAL SERVICES AGREEMENT**

Wastewater Treatment Plant Capacity Analysis Consulting Services

THIS FIRST AMENDMENT TO AGREEMENT is made and entered into this ____ day of _____, 20__, by and between the City of Roseville, a municipal corporation (“CITY”), and Woodard & Curran Inc., a Maine corporation (“CONSULTANT”); and

W I T N E S S E T H:

WHEREAS, CITY and CONSULTANT previously entered into a Professional Services Agreement dated May 19, 2021 (“Agreement”) regarding consulting services for a wastewater treatment plant capacity analysis (“Project”); and

WHEREAS, CITY desires to amend the Agreement to include additional services as described in CONSULTANT’s letter/proposal dated November 30, 2022, which is attached hereto as Exhibit “A” and incorporated herein by reference; and

WHEREAS, CONSULTANT is willing and able to provide such additional services.

NOW, THEREFORE, the parties agree as follows:

1. CONSULTANT shall provide additional services as described in Exhibit “A” of this First Amendment to Agreement.
2. Section 2 of the Agreement is amended by adding an additional paragraph to read as follows:

“CITY shall pay three hundred fifty-five thousand, eight hundred nineteen dollars (\$355,819), in consideration of the additional services as set forth in Exhibit “A” to the First Amendment to Agreement. This brings the total not to exceed contract amount to one million, three hundred ninety thousand, one hundred thirty-seven dollars (\$1,390,137).”

3. All other provisions of the Agreement shall remain unchanged and in full force and effect.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this First Amendment to Agreement in duplicate by its City Manager and attested to by its City Clerk under the authority of Resolution No. _____, adopted by the Council of the City of Roseville on the ____ day of _____, 20__, and CONSULTANT has caused this First Amendment to Agreement to be executed.

Re: Dry Creek and Pleasant Grove WWTP Capacity Evaluation
Proposed Amendment

Dear Rana:

The following is written to propose an Amendment to our current Agreement for Engineering Services for Dry Creek and Pleasant Grove WWTP Capacity Evaluation. The following describes the project understanding, explanation of change, proposed scope changes and proposed fee budget changes.

Project Understanding

The purpose of the Project is to perform a capacity analysis and facilities planning for the Dry Creek (DC) and Pleasant Grove (PG) Wastewater Treatment Facilities. The need for this analysis was identified through a previous Systems Evaluation Update which found that the DC plant was at or potentially over its rated design capacity. The preliminary treatment plant assessments conducted under the Systems Evaluation Update identified significantly higher wastewater loadings to the DC plant and the PG plant compared to design criteria and loading assessments developed in 2009. Based on the documented flows and loadings, the Systems Evaluation Update recommended that SPWA conduct a capacity analysis of the two plants to confirm current hydraulic capacity and biological treatment capacity. The analysis will provide a sound basis for the planning of new facilities and is integral to determining required future capital improvement projects during phased expansions.

During project scoping meetings with the City, key project objectives were identified:

1. Confirm hydraulic capacity and process loading capacities for both the DC and PG plants.
2. Identify limiting unit processes at each plant
3. Identify operational changes to improve capacity, performance, and reliability at each plant
4. Develop process models and provide process simulation tools for operator training, process control, and evaluation of plant upgrades
5. Prepare capital facilities plans incorporating capacity, condition (replacement and rehabilitation) needs, and regulatory drivers.

Based on these objectives, Woodard & Curran and the City of Roseville entered into an Agreement dated May 18, 2021 for a detailed engineering analysis consisting of four phases of work:

- Phase 1: Desktop Capacity Analysis
- Phase 2: Dynamic Process Model Development
- Phase 3: Facilities Planning for Dry Creek WWTP
- Phase 4: Facilities Planning for Dry Creek WWTP

Explanation of Change

Through the execution of the first two Phases of the Work, the City and Woodard & Curran identified several aspects of the project that changed from what was required at the time of the Agreement. These changes are described below, identified by the Phase and Task numbers described in the scope of the Agreement.

1. Phase 1; Task 1.2 - Process Fundamentals Training: The Process Fundamentals Training was completed on September 28, 29 and 30, 2021. The training course was originally budgeted as three 4-hour sessions for a total of 12 hours of instruction time. To accommodate Roseville staff schedules, the training sessions were divided into two classes of 10.5 hours each for a total instruction time of 21 hours. The budget impact is an additional 9 hours for Paul Dombrowski and 9 hours for Athena Pervissian, as well as an additional \$2,100 in travel and other direct costs.
2. Phase 1, Task 1.4, Phase 2, Task 2.1, Phase - Wastewater Sampling Campaign: The original scope and budget for the wastewater characterization (Task 1.4) included the following assumptions:

Task 1.4 Assumptions:

- *Woodard & Curran will prepare a brief sampling and analysis plan for implementation by City staff.*
- *Dry weather sampling will be conducted under Phase 2, Task 2.1.*
- *The sampling programs will proceed concurrently at both DC and PG.*
- *City staff will conduct all field sampling and data collection.*
- *City laboratories will be used for standard analytical work.*
- *Woodard & Curran will contract for outside laboratory services as needed to augment the capacity of the City's laboratory for this additional workload.*

As the first sampling and analytical campaign came together, there were several changes to these original assumptions:

- Due to limited plant laboratory capacity, all analytical work was performed by the outside contract laboratory.

- Due to limited plant staff time, additional services were provided by the contract laboratory for sample pick-up and compositing of samples.
 - Based on a review of key data needs, an additional sample location was added at the Plant Drain.
 - Additional Woodard & Curran labor needed to coordinate the sampling campaign with the Contracted Laboratory (Cal Test) and City staff.
 - Unit costs for laboratory services were considerably higher when formally procured in fall of 2021 versus unit costs quoted in fall of 2020.
3. Phase 1 and 2: Multiple Tasks – Decoupling of DC and PG: Due to ongoing construction at the PG plant, the City and Woodard & Curran identified the need to delay the start of the capacity analysis for the PG plant. The reason for delaying the start is because the PG plant is currently undergoing major construction that was originally planned to be completed in June 2022 but which is now anticipated to be completed with the process stabilized with representative operating conditions by June 2023. To allow for the collection of 6-months of data needed for the analysis would result in a start date for the capacity assessment of December 2023. Woodard & Curran's original scope, schedule, and budget was based on the capacity assessment for both PG and Dry Creek (DC) occurring simultaneously with a project completion date of August 2023. The delay or "decoupling" of PG impacts our scope, schedule, and budget with a revised completion date of August 2025.

The reason for the change is the loss of combined efficiencies from decoupling of Pleasant Grove from Dry Creek. The project was set up to conduct the desktop evaluations, wastewater sampling campaigns, hydraulic model development, process model development, and associated workshops and review meetings concurrently. Many of the subtask budgets were shared between the two plants to improve efficiency and reduce costs. With the need to defer the Pleasant Grove work approximately 24 months, we will need to conduct additional workshops, incur additional travel costs, and prepare separate Tech Memos and summary reports.

In order to keep the budgets separate for the two plants and provide a work breakdown structure that can be easily tracked, we are proposing to modify the scope and budget. This would take the four current project phases and re-structure them into six phases.

- Phases 1-3 will be for Dry Creek:
 - (1) Desk Top Analysis;
 - (2) Detailed Modelling;
 - (3) Facilities Plan
- Phases 4-6 will be for Pleasant Grove:
 - (4) Desk Top Analysis;
 - (5) Detailed Modelling;
 - (6) Facilities Plan

In addition to a loss of efficiency there is also an escalation in labor cost due to decoupling of Pleasant Grove from Dry Creek. Woodard & Curran's original proposal

was based on 2020 labor rates which we had proposed to hold through the duration of the original schedule. With the extended schedule thought August 2025, we are requesting a labor rate escalation of the 2020 rates increasing 5 percent in 2023, 10 percent in 2024, and 15 percent in 2025 to cover staff costs.

4. Phase 3; Task 3.3 – Dry Creek Facilities Plan – Evaluation of WPCF Upgrade Alternatives: In order to provide a foundation for fees related to wastewater capacity upgrade projects, the City has asked Woodard & Curran to complete a “Capacity Improvements Evaluation” in advance of completing the dynamic process modeling and facilities plan at the DC plant. Modifications to the scope are proposed to add the “Capacity Improvements Evaluation” that includes alternatives and budgetary cost analysis for improvements at the Dry Creek WWTF to support the Roseville Capacity Fee Analysis. While some of the scope and analysis of the Capacity Improvements Evaluation was included in the current Agreement, it was planned to be completed subsequent to the Dynamic Process Model (Phase 2) and as part of Dry Creek Facilities Plan (Phase 3).

The proposed scope changes are based on a call between Woodard & Curran and Roseville on August 23, 2022. In summary, Woodard & Curran understands that Roseville is looking to accelerate the delivery of Woodard & Curran’s evaluation and recommendations for capital improvements at the Dry Creek plant that pertain to providing increased plant capacity. We also understand that for the new analysis, Roseville would like W&C to evaluate conditions at the near-term, 20-year planning horizon (as was in our original scope) and future buildout.

Proposed Scope Changes

Proposed scope changes to the Agreement are described below.

1. Phase 1; Task 1.2 – Process Fundamentals Training: Increased the total amount of time for the training sessions.
2. Wastewater Sampling Campaigns (4 total): Increased the level of effort for sampling campaigns as described in the “Explanation of Change” section above.
3. Phase 1 and 2; Multiple Tasks – Decoupling of DC and PG: Increase the level effort for these Phases by performing the analysis on the two plants at separate times and the anticipated increase in labor rates for the extended schedule as described in the “Explanation of Change” section above. Also added phases to the Work as described in “Explanation of Change” section above.
4. Phase 3; Task 3.3 – Dry Creek Facilities Plan – Evaluation of WPCF Upgrade Alternatives: The capacity improvements evaluation would result in additional level of effort and a new technical memorandum deliverable that describes the following:
 - Near Term Improvements: These are the “low hanging fruit” that would provide increased capacity with modest capital cost (i.e. no major structural additions/expansion). We will prepare capital cost estimates and estimate the additional capacity provided and the approximate timeline relative to growth projections (i.e. how far into the future does it get Roseville) for the following upgrades:

- New blowers
- New aeration control system
- Outfit the existing mechanical aeration reactors with hyperbolic mixer/aerators
- Clarifier baffling improvements
- Long Term Improvements (20-year horizon):
 - Identify and evaluate up to 3 alternatives for increasing capacity. Improvements based on condition assessment and rehabilitation needs are not included.
 - Prepare a capital and life-cycle cost for the 3 alternatives.
 - Influent Flow and Load projections are anticipated to be based on the projections shown in Figure 3-1 and 3-2 from the Technical Memorandum No. 7, SPWA Wastewater Treatment Plant Expansion Evaluations, date July 6, 2020 with potentially minor adjustments to the unit flow and pollutant loads on an equivalent dwelling unit (EDU) basis. In addition, we would confirm or modify growth projections from the 2020 Memo as provided by Roseville.
 - Recommend an alternative to Roseville based on the life-cycle cost analysis.
 - Provide a preliminary conceptual figure illustrating recommended alternative.
- Full Buildout Improvements:
 - Update the hydraulic model to identify hydraulic capacity alternatives needed for full buildout.
 - Prepared a capital and life-cycle cost for up to 3 alternatives. We assume that the 3 alternatives evaluated for the 20 year-horizon would be the same as at full buildout and would be expanded in a modular/phased way to meet the additional capacity required with the influent flow and load projections at buildout.
 - Influent Flow and Loads projections are anticipated to be based on the projections shown in Figure 3-1 and 3-2 from the Technical Memorandum No. 7, SPWA Wastewater Treatment Plant Expansion Evaluations, date July 6, 2020.
 - Recommend an alternative to Roseville based on the life-cycle cost analysis.
 - Provide a preliminary conceptual figure illustrating recommended alternative

Proposed Fee Budget Changes

Woodard & Curran proposes an increase in the current budget as described in Table Below:

Description	Budget Increase
1. Process Fundamentals Training	\$ 6,600
2. Wastewater Sampling Campaigns (4 Total)	\$ 147,400
3. Decoupling of Dry Creek and Pleasant Grove Evaluations	\$ 132,519
4. Capacity Improvements Evaluation	\$ 69,300
Proposed Total Increase	\$ 355,819
Original Budget	\$ 1,034,318
Proposed Total Budget	\$ 1,390,137

Thank you for the opportunity to submit our proposed Amendment to you. If you have any questions, please feel free to contact Jon Himlan via phone (781-635-7011) or email (jhimlan@woodardcurran.com).

Sincerely,

WOODARD & CURRAN, INC.

COUNCIL COMMUNICATION

CC #: 2473
File #: 0800-02

Title: Landfill Water Quality and Gas Monitoring and Reporting Services - Professional Services Agreement
Contact: Michelle White 916-774-5774 mjwhite@roseville.ca.us

Meeting Date: 1/18/2023
Item #: 7.14.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council adopt a resolution to approve a professional services agreement with Jacobs Engineering Group, Inc. for 2023 Water Quality and Landfill Gas Monitoring and Reporting Services and other Regulatory-Required Technical Assistance and authorize the City Manager to execute the agreement on behalf of the City.

BACKGROUND

The closure of the Roseville Sanitary Landfill was completed in late 1995 in accordance with Waste Discharge Requirements (WDR) Order No. 94-015 and the California Code of Regulations Article 5, Title 23. From these regulations came state-mandated post-closure requirements to establish a groundwater and landfill gas-monitoring program for the site.

Since 1994, the City has conducted groundwater monitoring at the landfill and has hired the engineering firm Jacobs Engineering Group, Inc. (Jacobs) to review data and report on the nature of any release from the landfill to the groundwater. Jacobs' annual water quality report has established baseline water quality parameters and evaluates the effectiveness of the landfill closure. Generally, it takes a number of years of groundwater monitoring and analysis to determine if a landfill closure has been effective. At this time, further monitoring and reporting is required.

The agreement also includes the preparation of the Year 2023 Reports and regulatory assistance including:

- Data compilation and analysis for all data collected between January 2023 and December 2023 for water quality and landfill gas monitoring.
- Semi-annual and annual report preparation and submission to the Regional Water Quality Control Board (RWQCB) for approval.
- Regulatory assistance for Saugstad Park in the amount of \$9,516 is also included in the overall agreement budget.
- Antelope Creek evaluation of cost-effective methods to protect the creek bank from potential erosion.

Staff believes that award of this sole source agreement is in the best interest of the City for the following reasons:

- Jacobs' staff includes the original engineer that assisted with the closure of the landfill site in 1994. Closed landfills can be extremely technical and nuanced sites and having historical knowledge of the site when reviewing monitoring well results is critical to ensuring that the City maintains compliance with the closed landfill site monitoring and reporting plan.
- Jacobs has developed an excellent working relationship with representatives of the Department of Resource Recycling and Recovery (CalRecycle), the RWQCB, and Placer County Environmental Health (Local Enforcement Agency). Representatives from these three agencies have developed a trust in Jacobs's abilities, performance, and recommendations as to the best course of action to take when dealing with issues from the site.
- Their work to date has been excellent. Staff is confident the firm's comprehensive understanding of Roseville's landfill gas and water issues will ensure the City a successful, state-approved landfill closure. Jacobs has also been a fiscally-responsible consultant, consistently coming in under budget and actively researching and networking with industry and regulators to potentially use this site as a source of revenue for the City.

FISCAL IMPACT

The cost of \$260,010 is budgeted in the FY2022-23 Waste Services Operation Fund budget. Funding for the water quality and landfill gas monitoring and reporting services are included in the solid waste service rates.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) only applies to projects which have the potential to cause a significant effect on the environment. Where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA. (CEQA Guidelines §15061(b)(3)).

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal C - Maintain a safe and healthy community
Goal E - Deliver exceptional city services

Resolution 23-001

PSA - Jacobs Engineering

RESOLUTION NO. 23-001

APPROVING A PROFESSIONAL SERVICES AGREEMENT, BY AND BETWEEN THE CITY OF ROSEVILLE AND JACOBS ENGINEERING GROUP INC., AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE

WHEREAS, a professional services agreement for 2023 Water Quality and Landfill Gas Monitoring and Reporting Services, by and between the City of Roseville and Jacobs Engineering Group Inc., has been reviewed by the City Council; and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that said professional services agreement is hereby approved and that the City Manager is authorized to execute it on behalf of the City of Roseville.

PASSED AND ADOPTED by the Council of the City of Roseville this ____ day of _____, 2023, by the following vote on roll call:

AYES COUNCILMEMBERS:

NOES COUNCILMEMBERS:

ABSENT COUNCILMEMBERS:

MAYOR

ATTEST:

City Clerk

PROFESSIONAL SERVICES AGREEMENT

2023 Water Quality and Landfill Gas Monitoring and Reporting Services

THIS AGREEMENT is made and entered into this ____ day of _____, 20__,
by and between the City of Roseville, a municipal corporation (“CITY”), and Jacobs
Engineering Group Inc., a Delaware corporation (“CONSULTANT”); and

W I T N E S S E T H:

WHEREAS, CITY desires professional services consisting of Water Quality and Landfill
Gas Monitoring and Reporting Services; and

WHEREAS, CONSULTANT has prepared a proposal dated October 17, 2022, which
describes the scope of work to be performed by CONSULTANT, the budget for the work, and
the schedule for performance of the work; and

WHEREAS, CONSULTANT is qualified and experienced to provide such professional
services.

NOW, THEREFORE, the parties agree as follows:

1. Services. CONSULTANT shall perform, at the direction of CITY, the scope of
services as described in EXHIBIT “A,” attached hereto and incorporated herein by this
reference.
2. Compensation. For its services provided hereunder, CONSULTANT shall be
compensated on a time and expense basis in accordance with the budget estimate as described in

EXHIBIT "B," attached hereto and incorporated herein by this reference. Total compensation shall not exceed two hundred sixty thousand, ten dollars (\$260,010).

CONSULTANT shall submit one monthly invoice for its services. Such invoices shall be delineated by task, the person performing the services, and the hourly rate, which shall be stated in time increments of not greater than one tenth (1/10) hours. CITY shall pay invoices within thirty (30) days after receipt, if the services specified in the invoice have been satisfactorily completed.

3. Indemnification. To the fullest extent allowed by law, CONSULTANT shall defend, indemnify, and save and hold harmless CITY, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from or arising out of CONSULTANT's willful misconduct or negligent act or omission while engaged in the performance of obligations or exercise of rights created by this Agreement, except those matters arising from CITY's sole negligence or willful misconduct. The parties intend that this provision shall be broadly construed.

CONSULTANT agrees to defend and indemnify CITY if, despite the parties intent and practice, any venue, agency, or court with competent jurisdiction determines that CONSULTANT and/or any of its agents, officers, employees, volunteers, independent contractors, or subcontractors, are characterized as employee(s) of CITY.

CONSULTANT's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by

law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.

4. Insurance. CONSULTANT agrees to continuously maintain, in full force and effect, the following minimum policies of insurance during the term of this Agreement.

<u>COVERAGE</u>	<u>LIMITS OF LIABILITY</u>
Workers' Compensation	Statutory
Commercial General Liability	\$1,000,000 each occurrence \$2,000,000 aggregate Personal Injury: \$1,000,000 each occurrence \$2,000,000 aggregate
Automobile Liability	\$1,000,000 combined single limit
Professional Liability (errors and omissions)	\$1,000,000 per claim \$2,000,000 aggregate

a. Form. CONSULTANT shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made basis is subject to the approval of Risk Management and the City Attorney.

b. Additional Insureds. CONSULTANT shall also provide a separate endorsement form or section of the policy showing CITY, its officers, agents, employees and volunteers as additional insureds for each type of coverage, except for Workers' Compensation and Professional Liability. Such insurance shall specifically cover the contractual liability of CONSULTANT. The additional insured coverage under the CONSULTANT's policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy, and shall not seek contribution from CITY's insurance or self-insurance. In addition, the

additional insured coverage shall be at least as broad as the Insurance Services Office (“ISO”) CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds.

c. Cancellation/Modification. CONSULTANT shall provide ten (10) days written notice to CITY prior to cancellation or modification of any insurance required by this Agreement.

d. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of CITY (if agreed to in a written contract) before CITY’s own insurance shall be called upon to protect it as a named insured.

e. Subcontractors. CONSULTANT agrees to include in its contracts with all subcontractors the same requirements and provisions of this Agreement, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor’s work. Furthermore, CONSULTANT shall require its subcontractors to agree to be bound to CONSULTANT and CITY in the same manner and to the same extent as CONSULTANT is bound to CITY under this Agreement. Additionally, CONSULTANT shall obligate its subcontractors to comply with these same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of CITY’s indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request.

f. Self-Insured Retentions. All self-insured retentions (“SIR”) must be disclosed to Risk Management for approval and shall not reduce the limits of liability.

Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or CITY. CITY reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

g. Waiver of Subrogation. CONSULTANT hereby agrees to waive subrogation which any insurer of CONSULTANT may acquire from CONSULTANT by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability or Automobile Liability policy. All Workers Compensation, Commercial General Liability and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of CITY, its officers, agents, employees and volunteers for all worked performed by CONSULTANT, its employees, agents and subcontractors.

h. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve CONSULTANT of liability in excess of such coverage, nor shall it preclude CITY from taking such other actions as are available to it under any other provisions of this Agreement or law.

5. Records. CONSULTANT and its subcontractors shall maintain all files and records relating to the services performed hereunder during the term of this Agreement and for a period of not less than one (1) year after the date of termination or expiration. Provided, however, that in the event of litigation or settlement of claims arising from the performance of this Agreement, CONSULTANT and its subcontractors shall maintain all files and records until such litigation, appeals or claims are resolved. Duly authorized representatives of CITY shall have right of access during normal business hours and after reasonable notice to CONSULTANT's and subcontractors' files and records relating to the services performed

hereunder, and may review and copy the files and records at appropriate stages during performance of the services and during the one (1) year period following termination or expiration of this Agreement. CONSULTANT shall include this provisions in its contracts with all subcontractors.

6. Time is of the Essence. Time is of the essence of this Agreement.

7. Prevailing Wages. When applicable, for purposes of this Agreement, CONSULTANT and its subcontractors shall comply with all applicable prevailing wage laws, e.g., but not limited to, California Labor Code Sections 1770 et seq. In accordance with said Section 1775, CONSULTANT shall forfeit as a penalty to the City two hundred dollars (\$200) for each calendar day or portion thereof for each worker paid less than the prevailing rates for such work or craft in which such worker is employed for any work done on-site under the Agreement by CONSULTANT or by any subcontractor in violation of the provisions of the Labor Code and in particular, Labor Code Sections 1770 to 1780, inclusive. In addition to said penalty and pursuant to said Section 1775, the difference between such stipulated prevailing wage rates and the amount paid to each worker for each calendar day or portion thereof for which each worker was paid less than the stipulated prevailing wage shall be paid to each worker by CONSULTANT or the applicable subcontractor.

Pursuant to the provisions of California Labor Code Section 1773, the contracting department has identified the source, stated below, of the general prevailing rate of wages applicable to the site to be done, for straight time, overtime, and holiday work. The holiday wage rate listed shall be applicable to all holidays recognized in the collective bargaining agreement of the particular craft, classification or type of worker concerned. These wage rates

may be obtained from the State Department of Industrial Relations and/or the following website address: <http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm>.

Pursuant to Labor Code Section 1773.2, general prevailing wage rates set forth above, which forms a part of this Agreement, shall be posted by CONSULTANT at a prominent place at the work site. Prevailing wage rates to be posted at the work site will be furnished by the contracting department. The possibility of wage increases is one of the elements to be considered by CONSULTANT in determining its proposal, and will not under any circumstances be considered as the basis of a claim against CITY or the Agreement.

8. Compliance with Laws. CONSULTANT shall comply with all federal, state and local laws, ordinances and policies as may be applicable to the performance of services under this Agreement.

9. Ability to Perform. CONSULTANT agrees and represents that it has the time, ability and professional expertise to perform the services required under this Agreement. The standard of care applicable to CONSULTANT's services will be the degree of skill and diligence normally employed by professional engineers or consultants performing the same or similar services at the time said services are performed. CONSULTANT will reperform any services not meeting this standard without additional compensation.

10. Governing Agreement. In the event of any conflict between this Agreement and its EXHIBITS, the provisions of this Agreement shall govern. In the event of any conflict between any of the EXHIBITS, the provisions of the first in order of attachment shall govern.

11. Assignment. CONSULTANT is employed to perform unique personal services. CONSULTANT shall not assign this Agreement without the prior written consent of CITY.

CONSULTANT shall not employ or otherwise incur any obligation to pay other specialists or experts for services in connection with this Agreement, without prior written consent of CITY.

12. Independent Contractor. CONSULTANT, inclusive of its agents, officers, employees, volunteers, independent contractors, and subcontractors, shall act as an independent contractor, and covenants and agrees that it will conduct itself consistent with such status, that it will neither hold itself out as, nor claim to be, an officer or employee of CITY by reason of this Agreement.

CONSULTANT and CITY agree that: (a) CONSULTANT is free from the control and direction of CITY in connection with the performance of the work; (b) CONSULTANT is providing services directly to CITY; (c) CONSULTANT has and will maintain at all relevant times a business license; (d) CONSULTANT maintains a business location that is separate from CITY; (e) CONSULTANT is customarily engaged in an independently established business of the same nature as that involved in the work performed hereunder; (f) CONSULTANT actually contracts with other businesses to provide the same or similar services and maintains a clientele without restrictions from CITY; (g) CONSULTANT advertises and holds itself out to the public as available to provide the same or similar services; (h) CONSULTANT provides its own tools, vehicles, and equipment to perform the services; (i) CONSULTANT has negotiated its own rates; (j) CONSULTANT set its own hours and location of work in accomplishing CITY's on-call needs; and (k) CONSULTANT has the right to control the manner and means of accomplishing the result desired and exercises its own expert independent judgement.

13. Representations and Warranties. CONSULTANT warrants that it has not employed or retained any company or person, other than a bona fide employee working for CONSULTANT, to solicit or secure this Agreement, and that it has not paid or agreed to pay any

company or person, other than a bona fide employee, any fee, commission, percentage, brokerage fee, gift or any other consideration, contingent upon or resulting from the award or making of this Agreement. For breach or violation of this warranty, CITY shall have the right to terminate as void this Agreement, without liability, or, in its discretion, to deduct from the Agreement price or consideration, or otherwise recover, the full amount of such fee, commission, percentage, brokerage fee, gift or contingent fee.

14. Successors in Interest. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.

15. Copyright, Ownership and Use of Materials. All tangible material ("Material") created or delivered pursuant to this Agreement is considered a work made for hire under the Copyright Act. To the extent such Material does not qualify as a work made for hire, CONSULTANT hereby assigns to CITY all right, title, and interest, including but not limited to all copyrights, in all Material created by CONSULTANT in its performance under this Agreement. Material constitutes the scope of work outlined in Exhibit A and attached hereto, and all written and other tangible expressions, including but not limited to, drawings (including computer aided drawings), papers, documents, reports, surveys, renderings, exhibits, sketches, maps, models, prints, paintings or photographs, in any and all media or formats in which such materials have been created or are maintained. All Material furnished by CONSULTANT is, and shall remain, the property of CITY.

CONSULTANT shall execute any documents necessary to effectuate such assignment. In the event that CONSULTANT uses, employs, designates, or retains any person or entity who is not an employee of CONSULTANT, to perform any work required of it pursuant to this

Agreement, CONSULTANT shall require said person or entity to execute an agreement containing the preceding paragraph.

16. Termination of Agreement. The City may terminate this Agreement without cause by giving CONSULTANT ten (10) days advance written notice from the City Manager. CONSULTANT may terminate this Agreement without cause by giving CITY thirty (30) days advance written notice. In the event of termination through no fault of CONSULTANT, CITY shall compensate CONSULTANT for services performed as of the date of termination, upon the release to CITY of all Material hereunder, in any and all media or formats in which such materials have been created or are maintained. CITY retains the right to receive and use any Material, notwithstanding any termination or any dispute regarding the amount to be paid.

17. Attorney's Fees; Venue; Governing Law. If either party commences any legal action against the other party arising out of this Agreement or the performance hereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorney's fees. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.

18. Modification. This Agreement and each provision contained herein may be waived, amended, supplemented or eliminated only by mutual written agreement of the parties.

19. Severability. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.

20. Notices. Any notices to parties required by this Agreement shall be delivered personally or mailed, U.S. first class postage prepaid, addressed as follows:

CITY OF ROSEVILLE

Subject: Proposal for 2023 Water Quality and Landfill Gas Monitoring and Reporting Services and Other Regulatory-Required Technical Assistance for the Closed City of Roseville Sanitary Landfill and Related Solid Waste Services Technical and Regulatory Assistance

Dear Mr. Whittington,

Jacobs Engineering Group Inc. (Jacobs) is pleased to provide this proposal to the City of Roseville (City) for regulatory-required water quality and landfill gas monitoring and reporting services during 2023 and additional regulatory-required technical support for compliance at the closed Roseville Landfill located at Galleria Boulevard and Berry Street. This letter presents the proposed scope of work and fees for Jacobs to provide these services in accordance with the following documents:

- The *Post-Closure Maintenance Plan* (PCMP), initially approved for the landfill closure in 1994/1995, and revised in November 2020
- Waste Discharge Requirements (WDRs) and Monitoring and Reporting Program (MRP), Order Number R5-2019-0054, revised June 7, 2019 (Revised MRP)

For cost efficiency, Jacobs proposes to continue using the following subcontractors for recurring scope in 2023: Blaine Tech Services Inc. (Blain Tech) for groundwater sampling and Eurofins Environment Testing Southwest, LLC (Eurofins) for laboratory services. Blaine Tech has been performing the same work for this site under Jacobs since 2013 and is screened and approved through our health and safety program. Eurofins has provided laboratory analytical services during 2022.

We appreciate the opportunity to continue to provide the City with consulting services for the landfill. As we have for nearly three decades, Jacobs will continue to perform water quality and landfill gas services work to meet regulatory deadlines with continuous efforts toward cost efficiencies. This proposal assumes that contract terms will be mutually agreed to as in previous years.

As requested by the City, Jacobs has included budget for additional technical and regulatory support for other related solid waste services, as directed by the City, separated into two separate tasks: Regulatory Assistance for the Roseville Landfill and Regulatory Assistance for Saugstad Park. The tasks for this work are summarized separately from the 2023 water quality and landfill gas monitoring and reporting services.

Scope of Work

Task A.1: Regulatory Assistance

Jacobs will continue to provide regulatory interface and support to the City, as directed by the City's project manager. This work will primarily consist of communicating with regulatory agencies regarding the status of the landfill gas and water quality monitoring and reporting programs, and coordinating and participating in meetings with the regulatory agencies and the City to discuss program status and concerns. As in previous years, this general regulatory assistance will be performed on a time-and-materials basis within the allowable budget as directed by the City. For this level of effort, Jacobs has assumed a total of 1 hour per month for 12 months (duration of this scope of work) for the project manager or senior technical consultant to interface with both Placer County Environmental Health as the Local Enforcement Agency (LEA) on issues related to landfill gas and public health and the Regional Water Quality Control Board, Central Valley Region (CVRWQCB) regarding groundwater, surface water, and storm water runoff quality. Additionally, Jacobs has assumed that up to two meetings would be held at the City office or landfill with the Jacobs project manager and one senior technical consultant attending. Meeting topics may include general landfill concerns, water quality issues, or regulatory issues affecting the landfill or reporting. For these two meetings, 24 total hours are budgeted for the project team for preparing, attending strategy discussions with the City, attending meetings, providing summary-level action item notes, and providing as-needed follow-up documentation.

Task A.2: Groundwater and Surface Water Monitoring and Landfill Annual Facility Inspection

Subtask A.2.1: Groundwater and Surface Water Quality Sampling and Analyses

Jacobs will continue to manage and subcontract with Blaine Tech to provide labor, materials, equipment, and consumable supplies in order to conduct groundwater and surface water monitoring and sampling. Eurofins will conduct laboratory sample analysis in accordance with the Revised MRP dated June 7, 2019. Attachment A includes the analyte list, analytical method, and the sampling event. Prior to field sampling, Jacobs will coordinate sample bottles and chains of custody with the laboratory for delivery with proper sample containers, required preservatives, labels, and collection and submission requirements. One week prior to field sampling activities, Jacobs will notify CVRWQCB of the sampling date. Groundwater and surface water sampling activities will be conducted semiannually in the first and third quarters of 2023 for the 13 groundwater monitoring wells and three surface water locations. Each of the two sampling events is assumed to be completed within 3 days. Table B-1 of Attachment B provides a list of groundwater and surface water monitoring locations and their sampling frequencies. The sampling team will measure depth to groundwater, perform groundwater sampling, obtain field parameters, fill the required sample containers, maintain field notes in accordance with the Revised MRP, and ship the samples daily to the laboratory for analysis. The sampling team will obtain field water quality parameters, perform surface water sampling, and fill the required sample containers at surface water locations. At the completion of the sampling event, field notes, calibration logs, inspection notes, and chain-of-custody forms will be compiled. Laboratory data will be validated as part of Jacobs's quality assurance/quality control program for incorporation into the First Semiannual and Second Semiannual/Annual Monitoring Reports discussed in Subtasks A.3.1 and A.3.2, respectively.

Jacobs will coordinate the groundwater and surface water monitoring Subtask A.2.1 to coincide with the landfill gas sampling described in Task A.4 ideally. However, scheduling or weather conditions may prevent the work for these tasks from being conducted concurrently. Thus, additional hours and separate mobilization costs are included for each of these tasks.

Subtask A.2.2: Annual Facility Inspection, Annual Facility Inspection Completion Report, and Landfill Standard Observations

Jacobs will perform one annual facility inspection of the landfill during third quarter 2023. The Revised MRP requires that the City conduct an annual facility inspection by September 30 each year and complete repairs by October 31 of each year. The annual facility inspection will include the City and two Jacobs staff, and will be up to 4 hours in duration. The City is responsible for completing the repairs identified during the inspection by October 31. This scope assumes that the City will send photos of the completed repairs to Jacobs to complete the Annual Facility Inspection Report by October 31.

The City will remain responsible for conducting landfill standard observations (the Revised MRP indicates a frequency of quarterly, but the City historically performs monthly observations) and significant storm event (2 inches or more precipitation within a 24-hour period) inspections in accordance with the Revised MRP. Jacobs will assist the City in monitoring the precipitation throughout the rainy season and will notify the City if a significant storm event occurs. The City will provide the landfill standard observations to Jacobs for review and inclusion in the First Semiannual and Second Semiannual/Annual Monitoring Reports (Subtasks A.3.1 and A.3.2, respectively), consistent with their current observation forms and processes.

Deliverables

Jacobs will provide the City with an e-mail documenting applicable observations and recommendations from the annual facility inspection for the City's review. After receiving photos of the completed repairs from the City, Jacobs will provide the City with an electronic draft of the Annual Facility Inspection Completion Report for review. The City will provide comments on the Annual Facility Inspection Completion Report within 1 week. Jacobs will incorporate comments received from the City and will finalize the Annual Facility Inspection Report. For additional cost efficiency, Jacobs will distribute on behalf of the City an electronic version of the final report to the City, CVRWQCB, and the LEA on or before the November 15, 2023 deadline. The Annual Facility Inspection Completion Report also will be included as an appendix in the Second Semiannual/Annual Monitoring Report as described in Subtask A.3.2 and uploaded into the CVRWQCB's GeoTracker system as required.

Task A.3: Groundwater and Surface Water Quality Reporting

The groundwater and surface water quality reporting for 2023 consists of preparing and submitting the First Semiannual Monitoring Report to CVRWQCB by August 1, 2023 (Subtask A.3.1) and the Second Semiannual/Annual Monitoring Report by February 1, 2024 (Subtask A.3.2).

Subtask A.3.1: 2023 First Semiannual Monitoring Report

The 2023 First Semiannual Report will be prepared in accordance with Revised MRP, Reporting Section B.3.a. The report will present a summary of groundwater, surface water, and landfill gas monitoring data, as well as an evaluation of the effectiveness of the corrective action program. The report will include the following:

- Compliance summary
- Summary of standard observations and facility monitoring results
- Landfill gas monitoring results and discussion
- Groundwater and surface water monitoring results
- Updated figures, tables, and text from the previous annual report to reflect the most recent data

Mr. Devin Whittington
October 17, 2022
Page 4 of 9

- Contour maps of groundwater elevations, total volatile organic compounds (VOCs), total dissolved solids, and stiff diagrams
- Evaluation of the corrective action progress and effectiveness

Deliverables

Jacobs will provide the City with an electronic version of the draft report and cover letter (to be signed by the City's designated official) for review. The cover letter will be addressed to the CVRWQCB. The City will provide Jacobs with comments on the report within 2 weeks, with a PDF of the signed cover letter for distribution with the report to the regulatory agencies. Jacobs will incorporate comments received from the City and will finalize the report for distribution to the CVRWQCB and the LEA. Jacobs will notify the CVRWQCB that the final report and data have been uploaded into the CVRWQCB's GeoTracker system, as required. For additional cost efficiency, Jacobs will distribute on behalf of the City an electronic version of the final report to the City and the LEA. Jacobs assumes that the City will not need hard copies, but only electronic copies. The final version of the First Semiannual Report will be submitted to the CVRWQCB on or before the August 1, 2023 deadline, assuming receipt of comments from the City on the draft report within 2 weeks of delivery from Jacobs.

Subtask A.3.2: 2023 Second Semiannual/Annual Monitoring Report

The 2023 Second Semiannual/Annual Monitoring Report will be prepared in accordance with the Revised MRP, Reporting Section B.3.b. The report will include the elements required in the semiannual report and the following:

- Summary of standard observations and facility monitoring results
- Year-end summary showing groundwater, surface water, and landfill gas monitoring results for the year indicating changes made or observed since the previous annual report
- Tabular and graphical summaries of the monitoring results, including representative time-series plots
- Hydrographs of each well showing the elevation of groundwater, top and bottom of the screened interval, and pump intake
- Historical monitoring data
- Updated statistical analysis along with new concentration limits
- Annual Facilities Inspection Completion Report (formerly called the Winterization Report, Section A.2.2)

Deliverables

Jacobs will provide the City with an electronic version of the draft report and cover letter (to be signed by the City's designated official) to review. The cover letter will be addressed to the CVRWQCB. The City will provide Jacobs with comments on the report within 2 weeks, with a PDF of the signed cover letter for distribution with the report to the regulatory agencies. Jacobs will incorporate comments received from the City and will finalize the report for distribution to the CVRWQCB and the LEA. Jacobs will notify the CVRWQCB that the final report and data have been uploaded into the CVRWQCB's GeoTracker system as required. For additional cost efficiency, Jacobs will distribute on behalf of the City an electronic version of the final report to the City, CVRWQCB, and LEA. The final version of the Second Semiannual/Annual Monitoring Report will be submitted to CVRWQCB on or before the February 1, 2024 deadline assuming receipt of comments from the City on the draft report within 2 weeks of delivery from Jacobs.

Task A.4: Landfill Gas Monitoring and Reporting

Landfill gas monitoring will be performed using the approved procedures and methods described in the PCMP semiannually for 15 permanent landfill gas monitoring wells and annually for 18 utility locations. In addition, six sampling location are monitored semiannually at the Pearl Creek Apartment. Table B-2 of Attachment B provides a list of landfill gas monitoring locations and their sampling frequencies.

One Jacobs staff member will monitor the landfill gas monitoring locations listed in Table B-2 for methane, carbon dioxide, oxygen, and soil gas pressure using a LandTEC GEM 5000 or equivalent and VOCs using a MiniRae 3000 or equivalent. The instruments will arrive calibrated and will be checked in the field before monitoring begins. Landfill gas sampling activities are assumed to be completed in 1 day. A summary of the field activities and results will be provided semiannually in accordance with California Code of Regulations (CCR) Title 27, Section 20934, and will include the following:

- The concentrations of methane and VOCs as measured at each monitoring well/probe and within each on-site structure
- The documentation of date, time, barometric pressure, atmospheric temperatures, general weather conditions, and probe pressures at the time the sample was taken or the probe was monitored
- The names of the sampling personnel, apparatus utilized, and brief description of the methods used
- Summary of visual inspections and repairs
- Figure showing gas monitoring locations

The report will be submitted to the LEA within 90 days of each monitoring event as required by CCR Title 27, Section 20934. Jacobs will perform gas monitoring and sampling during the first and third quarters 2023.

Deliverables

Jacobs will provide the City with an electronic draft version of each landfill gas monitoring report to review within 60 days of completion of a monitoring event. The City will provide comments on the report within 2 weeks. Jacobs will incorporate comments received from the City and will finalize the report. Jacobs will submit an electronic copy of the report to the City, LEA, and CVRWQCB. Additionally, a copy will be included as an appendix in the First Semiannual and Second Semiannual/Annual Water Quality Monitoring Reports described in Task A.3.

If applicable for the monitoring events, Jacobs will submit notification of detected exceedances of the reporting limit to the LEA and City by e-mail, followed by written notification along with the barometric pressure data corresponding to the exceedance. Note that exceedances are not anticipated; therefore, this scope and budget do not include confirmation sampling and analyses responding to any exceedances beyond the notification immediately following the detection. Should additional actions be required attributable to an exceedance, this activity could be addressed under Task A.7 (Contingency) or separately, as directed by the City.

Task A.5: Area B and Antelope Creek Evaluation

During the 2012 iso-settlement survey, it was first noted that the eastern edge of Area B may potentially be affected by erosion from Antelope Creek. This area has been monitored during the annual facility inspection/winterization inspection. In 2021 and 2022, Jacobs conducted several inspections and geomorphic analysis on the creek. The City has removed some vegetation as well as a sandbar that was pushing the creek closer to Area B.

Jacobs will perform several tasks to evaluate changes to the creek bank and Area B, and will include the following actions:

- Conduct inspections following significant rain events, as previously defined, to confirm the creek bank is not being compromised.
- Evaluate other potential cost-effective methods of protecting the creek bank.

Deliverables

Jacobs will provide the City with an e-mail update with the findings following significant rain events.

Task A.6: Financial Assurance

CCR Title 27, Sections 22212 and 22222 require that the City set aside funds to be used for post-closure maintenance and for corrective action in the case of a release. This requirement is reflected in Section F of the WDR, which states that the financial assurances report is due to the CVRWQCB by June 2 annually.

At the request of the City, Jacobs will prepare financial assurance support, including:

- Updated costs for post-closure maintenance and corrective actions.
- An addendum to the PCMP, if estimated costs or activities change and are required by regulatory agencies.

Task A.7: Landfill Contingency

A contingency budget has been included for the 2023 water quality and landfill gas work, as in previous years, to be used as directed by the City to address additional landfill environmental concerns should they arise. For example, if there is an exceedance of perimeter landfill gas monitoring well action levels, this task can be activated by the City to address the exceedance as required by regulations. Alternatively, for example, this task may be used to evaluate and replace a failed pump in a groundwater monitoring well or to optimize the parameters list found in Table C.3 of the Revised MRP according to ongoing field conditions.

The budget for this task consists of up to 50 hours of labor and approximately \$2,500 to cover expenses such as travel to meetings and to the landfill site, as well as renting or repairing field equipment. This task will be billed on a time-and-materials basis, as directed by the City project manager, up to the task budget limit.

Task B.1: Saugstad Park Regulatory Assistance

The City may require regulatory assistance with ongoing discussions regarding Saugstad Park. Jacobs will provide regulatory interface and support to the City, as directed by the City's project manager. This work will primarily consist of communicating with regulatory agencies regarding Saugstad Park activities and coordinating and participating in meetings with the regulatory agencies and the City to discuss status and concerns. Similar to Task A.1, this general regulatory assistance will be performed on a time-and-materials basis within the allowable budget as directed by the City. For this level of effort, Jacobs has assumed a total of 1 hour per month for 12 months (duration of this scope of work) for the project manager or senior technical consultant to interface with Placer County Environmental Health as the LEA and the CVRWQCB. Additionally, Jacobs included a budget up to 50 hours of labor and \$2,500 to cover expenses for other regulatory requirements, such as landfill gas monitoring or preparation of technical memoranda.

Project Team

This project will be managed by Mr. Dan Chern, an environmental/civil engineer, with senior consulting advisory from Ms. Janet Goodrich, a registered civil engineer in California, both of whom are based out of our Sacramento office. Dan has more than 19 years of experience in environmental remediation, hydrogeology, surface water and groundwater monitoring, water quality sampling and analysis, and compliance reporting. Janet has more than 30 years of experience in the landfill and solid waste industries, and she has supported the Roseville Landfill environmental monitoring program for 28 years. Brian Schroth, listed below, has also supported the City of Roseville on water quality and reporting aspects for more than a decade, and has successfully led the development of revised monitoring approaches and parameters for the revised WRDs/MRP.

Key staff members for this project include previous project team members experienced in landfill regulations, engineering, water quality and landfill gas monitoring, closed landfill maintenance, and compliance reporting. Involvement of these dedicated staff will maintain a high level of project continuity and work efficiency. Jacobs proposes to use the following core project team members for 2023:

- Project Manager – Dan Chern
- Water Quality Senior Review – Brian Schroth, PhD, PG, CH
- Landfill Gas and Landfill Cap System Senior Review – Janet Goodrich, PE
- Solid Waste Senior Technical Consultant – Jordan Norris, PMP and Josh Mooneyham, PE
- Water Quality Sampling Lead/Project Chemist – Lindsey Xayachack

COVID-19

In response to the Coronavirus (COVID-19) outbreak, Jacobs has taken appropriate steps to ensure the health and well-being of our people as well as the continuity of our business operations around the globe. Jacobs has adopted mitigation strategies and protocols based on recognized world standards and guidelines, applying appropriate travel restrictions and abiding by state and municipal proclamations/declarations regarding shelter in place and/or business closures. Based on the foregoing, this proposal, including the schedule of activities, is contingent on being able to appropriately and safely staff and perform (including travel), in light of the Coronavirus outbreak.

Cost Proposal

Jacobs proposes to complete this work on a time-and-materials basis according to the budget for this work as presented in Table 1, assuming the same terms and conditions as Resolution 21-484, Professional Services Agreement, dated December 15, 2021. Jacobs' billing and expense rates are presented in Attachment C. This proposal includes an expanded billing rate schedule. The expanded schedule covers the same staff we have used for the Roseville Landfill projects traditionally and allows Jacobs to provide more cost-effective and diverse labor ranges on our work for this project, as well as other work that we may perform for the City Environmental Utilities Department. Jacobs is proposing a modest annual 3 percent increase from 2023 labor rates starting in 2024, similar to Resolution 21-484. The proposed total project costs this year include a project contingency budget to address unplanned regulatory compliance activities, water quality or landfill gas management concerns, or additional monitoring requirements, and will only be activated at the direction of the City. The period of performance is from contract award, assumed to begin on February 1, 2023.

The proposed task and subtask structure and budget are summarized as follows:

Table 1. City of Roseville 2023 Water Quality and Landfill Gas Monitoring, Reporting Service, and Saugstad Park Waste Regulatory Assistance
Roseville Landfill, Roseville, California

Task	Cost
<i>Task A – Roseville Landfill 2023 Water Quality and Landfill Gas Services</i>	
Task A.1 – Regulatory Assistance	\$8,527
Task A.2 – MRP Required Sampling and Inspections	\$59,674
Subtask A.2.1 – Water Quality Sampling and Analysis	\$52,640
Subtask A.2.2 – Annual Facility Inspection and Report	\$7,034
Task A.3 – Water Quality Reports	\$127,276
Subtask A.3.1 – First Semiannual Report	\$50,496
Subtask A.3.2 – Second Semiannual/Annual Report	\$76,780
Task A.4 – Landfill Gas Services	\$11,444
Task A.5 – Area B and Antelope Creek Evaluation	\$14,547
Task A.6 – Financial Assurance	\$16,182
Task A.7 – Contingency	\$12,844
<i>Task A Subtotal</i>	<i>\$250,494</i>
<i>Task B – Saugstad Park</i>	
Task B.1 – Saugstad Park Regulatory Assistance	\$9,516
<i>Task B Subtotal</i>	<i>\$9,516</i>
Total All Tasks	\$260,010

Note:

Budget developed on a time-and-materials basis.

Mr. Devin Whittington

October 17, 2022

COUNCIL COMMUNICATION

CC #: 2496

File #: 0721

Title: Roseville Transit Agency Safety Plan Update

Contact: Ed Scofield 916-869-9109 ecscofield@roseville.ca.us

Meeting Date: 1/18/2023

Item #: 7.15.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council approve the updated Roseville Transit Agency Safety Plan that will update the Injury & Illness Prevention Plan to include the City's latest plan, add additional safety language as required by the Bipartisan Infrastructure Law, and authorize the City Manager to approve future minor and non-substantive changes to this document without further Council action.

BACKGROUND

On August 19, 2020, the City Council approved Roseville Transit's Agency Safety Plan. This plan was developed in response to the passage of the Moving Ahead for Progress in the 21st Century (MAP-21) Act, which required recipients of 49 U.S.C. Chapter 53 funding to develop and implement a Public Transportation Agency Safety Plan (PTASP). The City continues to receive transit funding under the following Chapter 53 programs:

- Urbanized Area Formula Program (§ 5307),
- Buses and Bus Facilities Program (§ 5339), and
- Enhanced Mobility of Seniors & People with Disabilities Program (§ 5310).

The purpose of the PTASP is to improve public transportation safety by guiding transit agencies to more effectively and proactively manage safety risks in their systems.

Since approval of Roseville Transit's Agency Safety Plan in 2020, staff provides regular reviews of the document to ensure accuracy and inclusion of the most updated information. As part of a review completed in December of 2022, it was noted that an updated version of Attachment 3 of the safety plan, Roseville's Injury & Illness Prevention Plan, is available and should replace the current version in the safety plan. Also, additional requirements were established for the PTASP, as part of the Bipartisan Infrastructure Law signed into law on November 15, 2021, that necessitate minor updates to the plan. Through the PTASP regulation (49 C.F.R. § 673), the FTA requires transit agencies to form a safety committee to implement a safety management system to manage safety risk, to help agencies maintain or improve their safety performance.

Staff is seeking Council approval for Amendment 1 to the Roseville Transit Agency Safety Plan that will update Attachment 3 to include the City's latest Injury & Illness Prevention Plan, add additional safety language as required by the Bipartisan Infrastructure Law and authorization for the City Manager to approve future minor changes to this document without further Council action.

FISCAL IMPACT

This amendment will not result in a direct fiscal impact. However, having an updated Agency Safety Plan allows the City to maintain compliance with FTA requirements to receive funding under 49 U.S.C. Chapter 53.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) only applies to projects which have the potential to cause a significant effect on the environment. Where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA. (CEQA Guidelines §15061(b)(3)).

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal A - Remain fiscally responsible in a changing world

Goal C - Maintain a safe and healthy community

Goal E - Deliver exceptional city services

Respectfully Submitted,

Ed Scofield, Alternative Transportation Manager

Jason Shykowski, Public Works Director

Dominick Casey, City Manager

Description

Resolution 23-021

Approved Roseville Transit Safety Plan

RESOLUTION NO. 23-021

APPROVING THE UPDATED ROSEVILLE TRANSIT AGENCY SAFETY PLAN, AND
AUTHORIZING THE CITY MANAGER TO EXECUTE IT
ON BEHALF OF THE CITY OF ROSEVILLE

WHEREAS, on August 19, 2020, the City Council approved Roseville Transit's Agency Safety Plan; and

WHEREAS, this plan was developed in response to the passage of the Moving Ahead for Progress in the 21st Century (MAP-21) Act, which required recipients of 49 U.S.C. Chapter 53 funding to develop and implement a Public Transportation Agency Safety Plan; and

WHEREAS, staff provides regular reviews of the document to ensure accuracy and inclusion of the most updated information; and

WHEREAS, as part of a review completed in December of 2022, it was noted that an updated version of Attachment 3 of the safety plan, Roseville's Injury & Illness Prevention Plan, is available and should replace the current version in the safety plan; and

WHEREAS, as part of the Bipartisan Infrastructure Law signed into law on November 15, 2021, PTASP regulation (49 C.F.R. § 673) requires transit agencies to update the safety plan to include language related to a safety management system to manage safety risk, to help agencies maintain or improve their safety performance; and

WHEREAS, the updated Roseville Transit Agency Safety Plan has been reviewed by the City Council; and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that said updated Roseville Transit Agency Safety Plan is hereby approved.

BE IT FURTHER RESOLVED, that the City Manager is authorized to approve future minor and non-substantive changes to this document without further City Council approval.

PASSED AND ADOPTED by the Council of the City of Roseville this ____ day of _____, 2023, by the following vote on roll call:

Executive Summary

Moving Ahead for Progress in the 21st Century (MAP-21) grants the Federal Transit Administration (FTA) the authority to establish and enforce a comprehensive framework to oversee the safety of public transportation throughout the United States. As a component of this safety oversight framework, MAP-21 requires recipients of FTA Chapter 53 funding to develop and implement a Public Transportation Agency Safety Plan (PTASP) based on the Safety Management Systems (SMS) approach. As a recipient of FTA Chapter 53 funding, the City of Roseville is required to develop and implement a PTASP.

This document serves as the City of Roseville's PTASP required by 49 U.S.C. § 5329. The purpose of this PTASP is to be a comprehensive agency safety plan that is consistent with FTA's PTASP final rule under 49 C.F.R. § 673. The plan includes the following requirements:

- ✓ An approval by the agency's Accountable Executive and the City Council;
- ✓ The designation of a Chief Safety Officer;
- ✓ The documented processes of the City's SMS, including the City's Safety Management Policy (SMP) and processes for Safety Risk Management (SRA), Safety Assurance (SA), and Safety Promotion (SP);
- ✓ An Employee Safety Reporting Program (ESRP);
- ✓ Performance targets based on the safety performance measures established in FTA's National Public Transportation Safety Plan (NSP);
- ✓ Criteria to address all applicable requirements and standards set forth in FTA's Public Transportation Safety Program and the NSP; and
- ✓ A process and timeline for conducting an annual review and update of the safety plan.

Annual Review and Update of the Roseville Transit Agency Safety Plan

This plan addresses all applicable requirements and standards as set forth in FTA's Public Transportation Safety Program and the National Public Transportation Safety Plan.

This Plan will be jointly reviewed and updated by key staff with the assistance of subject matter experts, each April. The Accountable Executive will approve any changes, then forward on to the City Council for approval.

In addition to the annual review and update process, the Roseville Transit Agency Safety Plan is also reviewed or updated on an ad-hoc basis when there is a determination made that the approaches in this plan are ineffective in mitigating safety deficiencies, there are significant changes to service delivery, there are new processes or procedures implemented that impact safety, there is a substantial change in financial resources available to the City of Roseville, and/or there is a significant change in the City's organizational structure.

The Roseville Transit Agency Safety Plan is a living document that is updated annually and incorporates by reference the following City policies and procedures:

- City of Roseville Injury and Illness Prevention Program (Attachment #3)
- [Chapter 3.16](#) of the Roseville Municipal Code

The City of Roseville's contracted transit operator, MV Transportation, Inc. (MV), has established safety policies and procedures, identified in its Safety Policy Manual (Attachment #4).

3. Safety Performance Targets

The City of Roseville has developed Safety Performance Targets consistent with performance measures established by FTA in the National Public Transportation Safety Plan. In the most recent version, the 2017 NSP3, FTA adopted four initial Safety Performance Measures: (1) Fatalities, (2) Injuries, (3) Safety Events, and (4) System Reliability. These targets were developed based data specific to Roseville, the region, and the state of California.

The Roseville Short Range Transit Plan 2018-2025 (SRTP) identifies safety performance goals, objectives and standards related to Safety Performance Targets. The SRTP identifies the following standards under the goal to provide safe, reliable, and high quality transportation:

- passenger injuries = <1 per 100K boardings (~ 250,000 Vehicle Revenue Miles (VRM))
- all accidents = < 1per 25K miles
- reliable transit service = >10,000 miles per road call

Per the California State Highway Safety Report (2018) the State target is 0.995 traffic fatalities per 100M vehicle miles traveled.

This information was used to develop the Safety Performance Targets below.

Safety Performance Targets for all Roseville Transit modes						
Fatalities		Injuries		Safety Events		System Reliability
Total	Rate	Total	Rate	Total	Rate	
0	<1 per 100,000,000 VRM	0	< 1 per 250,000 VRM	0	< 1 per 25,000 VRM	>10,000 miles between major mechanical failures
Fatalities & Injures: transit customers, transit employees, and any public involved in related safety events. Safety Events: Collisions (vehicle-to-vehicle, vehicle-to-person, vehicle-to-object), Fires, and Evacuations for life safety reasons. Major Mechanical System Failures: Major mechanical system failures prevent a vehicle from completing or starting a scheduled revenue trip because actual movement is limited or because of safety concerns. Examples of major bus failures include breakdowns of brakes, doors, engine cooling systems, steering, axles, and suspension.						

The contracted transit operator provides monthly Incident Report Logs and Daily Breakdown Logs to the City of Roseville Alternative Transportation Division. This information is available on an internal shared drive and the Alternative Transportation Division reviews this data and reports safety performance measures to the National Transit Database (NTD) as required. The current safety measures reported to NTD include number of fatalities, injuries and safety events for all Roseville modes.

Safety Performance Target Coordination

MPO Coordination: The Sacramento Area Council of Governments (SACOG), the City's MPO, receives and reviews the City of Roseville's Transit Asset Management (TAM) Plan annually, which includes performance targets related to safety. The TAM Plan must also be approved and adopted by the City of Roseville. The City's Alternative Transportation Manager attends bimonthly SACOG meetings where SACOG staff are updated regarding safety performance targets on an as-needed basis.

State DOT Coordination: The California DOT conducts regular audits of the City of Roseville related to public transportation safety. These include: Motor Carrier Unit of the California Highway Patrol (CHP) annual Safety Compliance Report (CHP-343), and State of California Department of Motor Vehicles "Driver Pull Notice Program".

Targets Transmitted to the State	State Entity Name	Date Targets Transmitted
	CA DOT	4/27/21 <i>Targets will be shared with the State Annually/Upon Request.</i>
Targets Transmitted to the Metropolitan Planning Organization	Metropolitan Planning Organization Name	Date Targets Transmitted
	SACOG	4/27/21 <i>Targets will be shared with the MPO Annually/Upon Request.</i>

4. Safety Management Policy

Safety Management Policy Statement

The City of Roseville is committed to public transportation safety. We will continue to implement, develop, and improve strategies, management systems, and processes to ensure that all our public transportation activities uphold the highest level of safety performance and meet required safety standards.

We will develop and embed a safety culture in all our activities that recognizes the importance and value of effective safety management and acknowledges at all times that safety is paramount.

We will clearly explain for all staff their accountabilities and responsibilities for the development and operation of the Safety Management System (SMS).

For passengers and employees, we will minimize the safety risk associated with transit service to as low as reasonably practicable and we will work to comply with all legislative and regulatory requirements and standards. We also will work to ensure that all employees are provided with adequate and appropriate safety information and training, are competent in safety matters, and are only allocated tasks commensurate with their skills.

We have established safety performance targets to help us measure the overall effectiveness of our processes and ensure we meet our safety objectives. We will keep employees informed about safety performance goals and objectives to ensure continuous safety improvement.

Safety Management Policy Communication

During the initial implementation of the Roseville Transit Agency Safety Plan, the Safety Management Policy will be communicated to all transit-involved employees, including contract staff, to explain the agency's safety culture and describe how the SMS works under the plan.

The City's Injury and Illness Prevention Program and safety culture is communicated upon hire, and is assigned and tracked through RoseU, the City's online training platform.

The Chief Safety Officer, or designee, is the resource person for providing a transit agency-wide perspective on the City's approach to safety management policy communication. The extent of the safety training needs will depend on the safety responsibilities of the individual staff members and the nature of tasks performed.

Authorities, Accountabilities, and Responsibilities	
Accountable Executive	<u>City Manager</u> - As established under RMC Sec. 2.10, the City manager shall supervise the administrative affairs of the City. The City manager shall be charged with the preservation of the public peace and health, the safety of persons and properties, the enforcement of law, and the development and utilization of the City's resources. The City manager shall keep the council informed of the condition and needs of the City and shall make such reports and recommendations as the City manager may deem desirable and perform such other duties as may be prescribed by the City charter or required by ordinance or resolution of the council not inconsistent with the charter. The City Manager serves as the Accountable Executive, meeting the requirements of 49 C.F.R. §673.5 and §673.23(d)(1). This individual: • has the responsibility for carrying out the Roseville Transit Agency Safety Plan (ASP) and Transit Asset Management (TAM) Plan; • has control or direction over the human and capital resources needed to develop and maintain both the Roseville Transit ASP, in accordance with 49 U.S.C. 5329(d), and the Roseville's TAM Plan in accordance with 49 U.S.C. 5326; and • is accountable for ensuring that the Roseville Transit Safety Management System (SMS) is effectively implemented, and action is taken, as necessary, to address substandard performance in Roseville Transit's SMS. The City Manager may delegate specific responsibilities, but the ultimate accountability for the City of Roseville's transit safety performance cannot be delegated and always rests with the City Manager.
Chief Safety Officer	The City Manager serves as the Chief Safety Officer, meeting the requirements of 49 C.F.R. §673.5 and §673.23(d)(2). This individual has the authority and responsibility for day-to-day implementation and operation of Roseville Transit's SMS. The City Manager may designate responsibilities of this role to key staff that hold a direct line of reporting to the Accountable Executive.
Agency Leadership and Executive Management	<u>City Council</u> - The City of Roseville is a Council-Manager form of government in which responsibilities are vested in the City Council and the City Manager. In this form of government, the City Council's role is that of a legislative policy-making body which determines not only the local laws that regulate community life, but also determines public policy and gives direction to the City Manager. <u>Transportation Commission</u> – This eight-member commission is established by the City Council to study various issues that affect Roseville residents. The Transportation Commission reviews and makes recommendations to the City Council related to the community's

	transportation needs. The Transportation Commission also reviews Roseville Transit's performance measures.
Key Staff	<u>City Attorney</u> - plans, organizes, directs and reviews the activities and operations of the City Attorney's Office including civil and criminal matters; to coordinate assigned activities with other departments and outside agencies; and to provide highly responsible and complex legal support to the City Council, boards and commissions, the City Manager and City department heads. <u>Human Resources Director</u> - plans, organizes, and directs the City's Human Resources Department services in the areas of recruitment and selection, classification and compensation, employee and labor relations including collective bargaining, organizational and employee development, policy development and administration, benefits, legal compliance, and risk management; provides expert professional assistance to City Executives and departmental management in areas of responsibility; and coordinates assigned activities with other departments, outside agencies, and the community. The Human Resources Director is designated as the Program Administrator of the City's Injury and Illness Prevention Program (IIPP). <u>Public Works Director</u> - plans, organizes, directs and reviews the activities and operations of the Public Works Department including the City's Engineering Division, Street Maintenance Division, Fleet Services Division Facilities Services Division, and Alternative Transportation Division; coordinates assigned activities with other departments and outside agencies; and provides highly responsible and complex administrative support to the Assistant City Manager. <u>Alternative Transportation Manager</u> - plans, organizes, directs and coordinates the public transportation activities of the Alternative Transportation Division with the Public Works Department. <u>Alternative Transportation Analyst</u> - provides highly responsible administrative and technical duties for development, administration, and implementation of transit-related programs. <u>Fleet Manager</u> - plans, organizes, directs and coordinates the activities of the Fleet Services Division within the Public Works Department and coordinates fleet maintenance activities with other divisions and departments. <u>Risk Manager</u> - plans, organizes, directs and coordinates the activities of the Risk Management Division within the Human Resources Department including safety, liability, property, workers' compensation and unemployment programs.

	<u>Public Information Officer</u> - plans, organizes, coordinates and implements City-wide communications program operations within the Public Affairs & Communications Department; serves in Emergency Operations Center public information section in the event of emergency in Roseville; directs communication content with print, electronic, video, and news media. <u>Transit Operator - General Manager (Contractor)</u> - provides overall management and supervision of transit operations under the terms of the transit operator contract. <u>Transit Operator - Safety & Training Manager (Contractor)</u> - ensures agency safety compliance and regulations are met on behalf of the contracted transit operator. <u>Occupational Health and Safety (OHS) Committee</u> - a working group of management employees that recommend policy direction, provide oversight on the implementation of established procedures and identify safety related resources within individual departments to be used throughout the organization.
--	---

Employee Safety Reporting Program

Per City's Injury and Illness Prevention Program (IIPP), employees are encouraged to promptly report any and all hazards and/or safety issues to management in order to assure that hazards and safety issues are addressed and corrected in a timely manner. It is the intent of the City to encourage and solicit employee input and participation in the Safety Program by identifying hazards and safety issues without fear of reprisal. However, should employees wish to remain anonymous, the City has provided mechanisms by which employees can report hazards or safety issues without identifying themselves.

Confidential hazard reporting can be accomplished through written reports. Anonymous reporting can be mailed to the Chief Safety Officer, or designee, via internal mail or regular mail.

The City's Anti-Reprisal Policy, per the Injury and Illness Prevention Program, states that employees shall not be discharged or discriminated against in any manner for reporting of health and safety hazards to the City of Roseville or to appropriate governmental agencies. Managers and supervisors shall inform employees of this policy and encourage reporting of workplace hazards to management.

Roseville Municipal Code [Chapter 3.16](#) outlines the City's personnel discipline policy and describes employee behaviors that may result in disciplinary action.

The City's contracted transit operator provides policies and procedures for employee safety reporting in its employee handbook. Employees are encouraged to promptly report safety concerns to appropriate management, who then are responsible to communicate the concerns to the Chief Safety Officer, or designee.

Key city management and transit operator management communicate safety concerns on a continued basis, which include bi-monthly transit coordination meetings and vehicle coordination meetings.

5. Safety Risk Management

Safety Risk Management Process

Safety Hazard Identification

FTA defines a hazard in 49 C.F.R. § 673.5 as “any real or potential condition that can cause injury, illness, or death; damage to or loss of the facilities, equipment, rolling stock, or infrastructure of a public transportation system; or damage to the environment.” Employing this terminology for this PTASP, the City of Roseville uses both external and internal sources to identify safety hazards.

External Sources

State: External sources from the State of California include CHP reports and DMV driver pull reports. These reports are reviewed by the Chief Safety Officer, or designee, and oversight agencies.

FTA: Key Staff review safety guidance published by the FTA such as general directives, safety advisories, and safety bulletins and make recommendations to the Chief Safety Officer or designee, Accountable Executive and Agency Leadership as necessary.

Other: Other external hazard identification sources include reports from the public, regional alerts, and information from the industry and oversight authorities.

Internal Sources

The City of Roseville uses the following internal safety hazard identification methods:

- Employee Safety Reporting
- Safety Coordination Meetings
- The City of Roseville Website & City Alerts (Traffic, Transit, Roadway, Weather, Flood, Special Events, etc.)
- Individual Vehicle Records & Inspection Reports
- Road Operation Reports – Spot Checks and Ride Checks
- Facility Inspection Records
- On-board Radio Communication System
- On-board Video System
- Real-time and Historical Operational Performance Monitoring
- Dispatch/Breakdown Logs
- Equipment Inspection Records
- Drug and Alcohol Testing Procedures
- Training Records

- Intelligent Transportation System Monitoring (Street cameras)
- Investigation Reports

Hazards shall be prioritized and corrected when observed or discovered. Hazards that cannot be corrected with the resources available to managers or supervisors shall be reported to the Chief Safety Officer, or designee, and may be recorded in a Hazard Log.

Any identified hazard that poses an immediate risk to transit operations, the health and safety of employees or the public, or equipment must immediately be brought to the attention of the Chief Safety Officer, or designee, and placed through the Safety Risk Management process for safety risk assessment and mitigation. Otherwise, hazards that do not pose an immediate safety risk will be evaluated through the Safety Risk Management process.

The Chief Safety Officer, or designee, will investigate hazards per the procedures outlined in the City's Injury and Illness Prevention Program (IIPP).

Safety Risk Assessment

Once hazards have been identified, the Chief Safety Officer, or designee, will conduct an assessment to determine potential consequences and risk level. Factors to be considered are the likelihood of occurrence, the severity of the consequences should there be an occurrence, and the level of exposure to the hazard. The Chief Safety Officer, or designee, will assess risks subjectively by experienced personnel using a Safety Risk Assessment Matrix.

The following hazard severity levels apply:

- Catastrophic (1) - Could Result in one or more of the following: death, permanent total disability, irreversible significant environmental impact, or monetary loss equal to or exceeding \$10M.
- Critical (2) - Could result in one or more of the following: permanent partial disability, injuries or occupational illness that may result in hospitalization of at least three personnel, reversible significant environmental impact, or monetary loss equal to or exceeding \$1M but less than \$10M.
- Marginal (3) - Could result in one or more of the following: injuries or occupational illness resulting in one or more lost work day(s), reversible moderate environmental impact, or monetary loss equal to or exceeding \$100k but less than \$1M.
- Negligible (4) - Could result in one or more of the following: injuries or occupational illness not resulting in lost work day, minimum environmental impact. Or monetary loss less than \$100k.

Safety Risk probability and Safety Risk severity are combined into the Safety Risk Assessment Matrix to help prioritize safety risks according to the following Safety Risk Assessment Matrix table.

Safety Risk Assessment Matrix				
Likelihood/ Severity	Catastrophic (1)	Critical (2)	Marginal (3)	Negligible (4)
Frequent (A)	HIGH	HIGH	HIGH	MEDIUM
Probable (B)	HIGH	HIGH	MEDIUM	MEDIUM

Occasional (C)	HIGH	MEDIUM	MEDIUM	LOW
Remote (D)	MEDIUM	MEDIUM	LOW	LOW
Improbable (E)	LOW	LOW	LOW	LOW

Safety Risk Index	Criteria by Index
HIGH	<u>Unacceptable – Action Required:</u> Safety risk must be mitigated or eliminated.
MEDIUM	<u>Undesirable – Management Decision:</u> Executive management must decide whether to accept safety risk with monitoring or require additional action.
LOW	<u>Acceptable with Review:</u> Safety risk is acceptable pending management review.

Safety Risk Mitigation

The City of Roseville will use the results of safety risk assessments to help prioritize safety risks. Results of the risk assessment process will help determine whether the risk is being appropriately managed or controlled. If the risks are acceptable, the hazard will simply need monitoring. If the risks are unacceptable, steps will be taken to lower the risk to an acceptable or tolerable level, or to remove or avoid the hazard. The level of risk can be lowered by reducing the severity of the potential consequences, by reducing the likelihood of occurrence and/or by reducing the exposure to that risk.

Key strategies to minimize the types of risks that potentially exist include:

- Development and deployment of policies and procedures that address known hazards and risks,
- Discussion of other actions, strategies and procedures that might help safeguard against unknown/unforeseen risks,
- Training of drivers and other agency staff on all safety policies and procedures,
- Training of drivers and other agency staff on methodologies for handling emergencies, and
- Training of drivers and staff on proper and effective use of emergency equipment and communication technologies and protocol.

6. Safety Assurance

Safety Performance Monitoring and Measurement

As part of the Safety Assurance Process, the City of Roseville:

- **Monitors Safety Management System Compliance through:**
 - o Safety audits,
 - o Informal inspections,
 - o Regular review of on-board camera footage to assess drivers and specific incidents,
 - o Employee safety reporting program,
 - o Employee accountability processes,
 - o Investigation of safety occurrences,
 - o Safety review prior to the launch or modification of any facet of service,
 - o Daily data gathering and monitoring of data relating to the delivery of service,
 - o Regular vehicle inspections and preventative maintenance, and
 - o Continuous feedback between leadership at all levels of the agency.
- **Develops Effective Safety Risk Mitigations by:**
 - o Monitoring safety risk mitigations to determine if they have been implemented and are effective, appropriate, and working as intended;
 - o Establishing mechanisms for monitoring safety risk mitigations as part of the mitigation implementation process and assigns monitoring activities to the appropriate director, manager, or supervisor;
 - o Reviews the performance of safety risk mitigations during bimonthly safety coordination meetings and determines if specific safety risk mitigation is not implemented or performing as intended;
 - o Implementing actions to modify mitigations not performing as intended;
 - o Monitoring transit operations on a large scale to identify mitigations that may be ineffective or not implemented as intended by:
 - Reviewing results from accident, incident, and occurrence investigations,
 - Monitoring employee safety reporting,
 - Reviewing results of internal safety audits and inspections, and
 - Analyzing operational and safety data to identify emerging safety concerns.
- **Conducts investigations of safety events to identify causal factors by:**
 - o Maintaining documented policies and procedures for conducting safety investigations for events (accidents, incidents, and occurrences, as identified by FTA) ;
 - o Reviewing existing mitigation measures in place at the time of an event per investigation policies;
 - o Maintaining documentation of results of investigations, including determination of whether:
 - The accident was preventable or non-preventable,
 - Personnel requiring discipline or retraining;
 - Casual factors indicate that a safety hazard contributed or was present; and
 - The safety event was appeared to involve an underlying organization casual factor beyond individual employee behavior.

- **Monitors Information Reported through Internal Safety Reporting Programs.**

- o Key Staff routinely review safety data captured in employee safety reports, safety meeting minutes, customer complaints, and other safety communication channels. When necessary, the Chief Safety Officer, or designee, ensure that the issues and concerns are investigated or analyzed through the safety risk assessment process.
- o Key staff also review the results of internal and external reviews, including audits and assessments, with findings affecting safety performance, compliance with operations and maintenance procedures, or the effectiveness of safety risk mitigations. Key staff and the Chief Safety Officer, or designee, discuss relevant safety issues and concerns with the Accountable Executive and executive management and documents the results of these reviews in the Hazard Log.

In the event of a fatality, the City of Roseville complies with all FTA drug and alcohol requirements.

In California, every driver involved in an accident that results in death, injury, or property damage over \$1000, effective January 1, 2017, must report the accident on a Report of Traffic Accident Occurring in California (SR 1) form to DMV. The report forms are available at www.dmv.ca.gov, by calling 1-800-777-0133, and at CHP and DMV offices. Also, under California Vehicle Code §16002(b) the driver of a vehicle that is owned or operated by a publicly owned or operated transit system, or that is operated under contract with a publicly owned or operated transit system, and that is used to provide regularly scheduled transportation to the general public or for other official business of the system shall, within 10 days of the occurrence of the accident, report to the transit system any accident of a type otherwise required to be reported pursuant to subdivision (a) of Section 16000. MV requires driver notification to MV Dispatch immediately in the event of an accident and maintains records of any report filed pursuant to this paragraph. The MV General Manager notifies the City of Roseville immediately, or within 24 hours, based on the severity of the event.

Management of Change

The City of Roseville is a Small Public Transportation Provider and, therefore, is not required to have a management of change process.

Continuous Improvement

The City of Roseville is a Small Public Transportation Provider and, therefore, is not required to have a continuous improvement process.

7. Safety Promotion

Competencies and Training

The Chief Safety Officer, or designee, ensures that all employees receive the training provided to understand their specific roles and responsibilities for the implementation of the Safety Management System (SMS).

All employees are required to acquire the competencies and knowledge for the consistent application of their skills as they relate to safety performance objectives. The City of Roseville dedicates resources to conduct effective safety-related skill training. The scope of the safety training is appropriate to each employee's individual safety-related job responsibilities and their role in SMS. The City's Injury and Illness Prevention Program (IIPP) describes the City's Safety Training Program for City Employees. The City may have additional training requirements for contractors, which are described in any agreements between the City and the contractor. This includes training as described in the contract between the City of Roseville and the transit operator and identified in the transit operator's Safety Policy Manual. The contracted transit operator provides ongoing training, retraining, and safety education for all safety sensitive positions, including but not limited to vehicle operators, dispatchers, and supervisory personnel, which conform to regulation agency requirements, e.g., Federal and State Departments of Transportation, California Highway Patrol and other applicable agencies.

Vehicle maintenance safety-related skill training includes the following:

- Ongoing skill training
- Hazardous material spill prevention & control
- Training provided by vendors
- Heat illness prevention
- Back injury prevention
- Equipment safety training, including but not limited to:
 - o Forklift
 - o Aerial
 - o Crane
- Traffic control & flagging
- Welding safety
- Fire extinguisher
- Injury & Illness prevention
- Bloodborne pathogen exposure control
- Outdoor smoke protection plan
- Drug & alcohol recognition
- Fall protection
- CPR/AED & first aid
- Hearing conservation

The operations skill training for safety-sensitive positions, provided by the contracted transit operator, includes the following:

- New-hire bus vehicle operator classroom and hands-on skill training, including but not limited to:
 - o Hazard communication,
 - o Drug and alcohol policies and procedures,
 - o Pre-trip and post trip inspections,
 - o Lift operations and securement systems,
 - o Onboard video systems,
 - o Defensive driving and road safety,
 - o Vehicle operations,
 - o Accident and emergency procedures,
 - o Fatigue management,
 - o Bloodborne pathogens,
 - o Road safety, and
 - o Americans with Disabilities Act
- Driver refresher training, under the following conditions:
 - o Return To Work (from inactive status) – Required when a driver/operator returns from “inactive” status (from a period of 30 days or more). In these cases, the driver must receive a one-day/8 hours “general purpose” refresher training designed to remind the driver of the general standards and defensive driving guidelines and to ensure his/her proficiency.
 - o Post Accident / For cause – Required after every “preventable” accident, or whenever mandated by management for retraining / corrective purposes.
 - o Seasonal – Required annually at all divisions operating in seasonal adverse weather environments (i.e.: Winter driving, onset of adverse weather, etc.).
 - o Biannually – At a minimum of every two years, each driver/operator shall receive a “general purpose” refresher training.
- Ongoing training for drug & policy procedures for safety sensitive positions.
- Ongoing training for dispatchers, operations supervisors and managers.
- Other safety-related training, including:
 - o System, security & emergency preparedness plan,
 - o Heat illness prevention plan,
 - o Injury prevention program, and
 - o Hazardous materials safety data sheets.

Safety Communication

The primary goal of safety promotion at the City of Roseville is to develop a positive safety culture that allows the SMS to succeed. A positive safety culture of the City of Roseville is one which is clearly communicated throughout the organization. This approach will foster informed employees that understand safety risks and are provided with the necessary knowledge, training, and resources that allow them to work continuously to identify risks and enhance safety.

The City of Roseville uses communication tools tailored to meet the needs of the public, employees, and contractors. Some of the tools the City of Roseville uses to communicate safety messages include:

- Email
- Bulletin board postings
- Posters

- Public service announcements
- Staff meetings
- Public meetings
- Social media posts
- City of Roseville website
- Internal employee website (HUB)
- Newsletters

Roseville Transit's Public Participation Plan of the City of Roseville Title VI Program provides further guidance for public involvement associated with specified FTA funded activities. Additional information on employee safety communication is included in the IIPP.

The contracted transit operator may use the tools listed above or use other tools tailored specifically to meet the needs of the contracted transit employees to communicate safety messages.

8. Additional Information

The City of Roseville maintains documentation related to the implementation of its SMS; the programs, policies, and procedures used to carry out this ASP; and the results from its SMS processes and activities for three years after creation. They will be available to the FTA or other Federal or oversight entity upon request.

9. Definitions

Accident means an Event that involves any of the following: a loss of life; a report of a serious injury to a person; a collision of public transportation vehicles; and an evacuation for life safety reasons.

Accountable Executive means a single, identifiable person who has ultimate responsibility for carrying out the PTASP; responsibility for carrying out the agency's Transit Asset Management (TAM) Plan; and control or direction over the human and capital resources needed to develop and maintain both the agency's PTASP, in accordance with **49 U.S.C. 5329(d)**, and the City's TAM Plan in accordance with **49 U.S.C. 5326**.

Chief Safety Officer means an individual who has responsibility for safety and meets the requirements specified at 49 C.F.R. §673.5 and §673.23(d)(2).

Event means any Accident, Incident, or Occurrence.

FTA means the Federal Transit Administration, an operating administration within the United States Department of Transportation.

Hazard means any real or potential condition that can cause injury, illness, or death; damage to or loss of the facilities, equipment, rolling stock, or infrastructure of a public transportation system; or damage to the environment.

Incident means an event that involves any of the following: a personal injury that is not a serious injury; one or more injuries requiring medical transport; or damage to facilities, equipment, rolling stock, or infrastructure that disrupts the operations of Roseville Transit.

Investigation means the process of determining the causal and contributing factors of an accident, incident, or hazard, for the purpose of preventing recurrence and mitigating risk.

National Public Transportation Safety Plan means the plan to improve the safety of all public transportation systems that receive Federal financial assistance under **49 U.S.C. Chapter 53**.

National Transit Database: means Nation's source for information and statistics on the transit systems of the United States.

Occurrence means an Event without any personal injury in which any damage to facilities, equipment, rolling stock, or infrastructure does not disrupt the operations of Roseville Transit.

Performance Measure means an expression based on a quantifiable indicator of performance or condition that is used to establish targets and to assess progress toward meeting the established targets.

Performance Target means a quantifiable level of performance or condition, expressed as a value for the measure, to be achieved within a time period required by the Federal Transit Administration (FTA).

Public Transportation Agency Safety Plan means the documented comprehensive agency safety plan for a transit agency that is required by **49 U.S.C. 5329**.

Risk means the composite of predicted severity and likelihood of the potential effect of a hazard.

Risk Mitigation means a method or methods to eliminate or reduce the effects of hazards.

Roseville Transit Agency Safety Plan means the City of Roseville's Public Transportation Agency Safety Plan.

Safety Assurance means processes within the City's Safety Management System that functions to ensure the implementation and effectiveness of safety risk mitigation, and to ensure that the City meets or exceeds its safety objectives through the collection, analysis, and assessment of information.

Safety Management Policy means the City's documented commitment to safety, which defines the City's safety objectives and the accountabilities and responsibilities of its employees in regard to public transportation safety.

Safety Management System (SMS) means the formal, top-down, organization-wide approach to managing safety risk and assuring the effectiveness of the City's public transportation safety risk mitigation. SMS includes systematic procedures, practices, and policies for managing risks and hazards.

Safety Performance Target means a Performance Target related to safety management activities.

Safety Promotion means a combination of training and communication of safety information to support SMS as applied to the transit agency's public transportation system.

Safety Risk Assessment means the formal activity whereby the City determines Safety Risk Management priorities by establishing the significance or value of its public transportation safety risks.

Safety Risk Management means a process within the City's Public Transportation Agency Safety Plan for identifying hazards and analyzing, assessing, and mitigating safety risk.

Serious Injury means any injury which:

- Requires hospitalization for more than 48 hours, commencing within 7 days from the date of the injury was received;
- Results in a fracture of any bone (except simple fractures of fingers, toes, or noses);
- Causes severe hemorrhages, nerve, muscle, or tendon damage;
- Involves any internal organ; or
- Involves second- or third-degree burns, or any burns affecting more than 5 percent of the body surface.

Small Public Transportation Provider means a recipient or subrecipient of Federal financial assistance under **49 U.S.C. 5307** that has one hundred (100) or fewer vehicles in peak revenue service and does not operate a rail fixed guideway public transportation system.

State Safety Oversight Agency means an agency established by a State that meets the requirements and performs the functions specified by **49 U.S.C. 5329(e)** and the regulations set forth in **49 CFR part 674**.

Transit Asset Management Plan means the strategic and systematic practice of procuring, operating, inspecting, maintaining, rehabilitating, and replacing transit capital assets to manage their performance, risks, and costs over their life cycles, for the purpose of providing safe, cost-effective, and reliable public transportation, as required by **49 U.S.C. 5326** and **49 CFR part 625**.

Vehicle Revenue Miles means the hours that vehicles are scheduled to or actually travel while in revenue service. Vehicle revenue hours include: Layover / recovery time. Vehicle revenue hours exclude: Deadhead; Operator training; Vehicle maintenance testing; and School bus and charter services.

RESOLUTION NO. 20-332

APPROVING THE ROSEVILLE TRANSIT AGENCY SAFETY PLAN, AND
AUTHORIZING THE CITY MANAGER TO EXECUTE IT
ON BEHALF OF THE CITY OF ROSEVILLE

WHEREAS, Moving Ahead for Progress in the 21st Century (MAP-21), the federal transportation funding bill approved in 2012, requires recipients from 49 Federal Transit Administration (FTA) funding program to develop and implement a Public Transportation Agency Safety Plan; and

WHEREAS, with assistance from the FTA Technical Advisory Committee, Sacramento Area Council of Governments, and Caltrans, staff drafted the Roseville Transit Agency Safety Plan in according with federal guidelines; and

WHEREAS, the Roseville Transit Agency Safety Plan has been reviewed by the City Council; and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that said Roseville Transit Agency Safety Plan is hereby approved and that the City Manager, as Accountable Executive for the City of Roseville, is authorized to execute it on behalf of the City of Roseville.

PASSED AND ADOPTED by the Council of the City of Roseville this 19th day of August, 2020, by the following vote on roll call:

AYES COUNCILMEMBERS: Bernasconi, Alvord, Roccucci, Houdesheldt, Allard

NOES COUNCILMEMBERS: None

ABSENT COUNCILMEMBERS: None

FTA CERTIFICATIONS AND ASSURANCES

Public Transportation Agency Safety Plan (PTASP)

On or before December 31, 2020, applicants and recipients of Section 5307 grants and rail transit agencies that are subject to the State Safety Oversight Program must certify to Category 2: Public Transportation Agency Safety Plans. Due to the Coronavirus Disease 2019 (COVID-19) public health emergency, FTA has issued a Notice of Enforcement Discretion stating that FTA will refrain from taking enforcement action related to the PTASP regulation until January 1, 2021. While applicants and recipients are encouraged to certify by the original deadline of July 20, 2020, to the extent practical, those who do not certify compliance until December 31, 2020, remain eligible for Chapter 53 grant funds.

INJURY AND ILLNESS PREVENTION PROGRAM

MANAGEMENT APPROVAL

Adoption: The Injury and Illness Prevention Program (IIPP) is hereby approved and supersedes any previously adopted IIPP.

Ray Kerridge, City Manager

4-26-11
Date

INTRODUCTION

The City of Roseville makes all reasonable efforts to:

- Protect the health and safety of employees and the public;
- Provide safe workplaces and working conditions;
- Provide information to employees about health and safety hazards;
- Identify and correct health and safety hazards and encourage employees to report hazards to management;
- Provide information and safeguards to employees regarding hazards arising from City operations.

Per California Code of Regulations, Title 8, CCR 3203, the City of Roseville has adopted an Injury and Illness Prevention Program (IIPP) which describes specific requirements for program responsibility, compliance, communication, hazard assessment, accident/exposure investigation, hazard correction, training, and record keeping.

It is the policy of the City to provide for the continuous development, implementation and maintenance of a safety program that will enhance a safe and healthy work environment for all employees.

DEFINITIONS

Occupational Health and Safety Program

The Occupational Health and Safety Program consists of the IIPP and all support programs, policies, procedures, regulations and practices that serve to promote the safety efforts of the City. Safety Program elements may include, but are not limited to, occupational safety, facility safety, public safety, environmental health and safety, emergency preparedness, health and wellness promotion, liaison activities with Cal/OSHA and other regulatory agencies, and information services.

Positions/Titles

Program Administrator – The classification of Human Resources Director shall serve as the Program Administrator for the City's Safety Program. The Program Administrator reports directly to the Assistant City Manager.

Safety Officer – A management level classification within the Human Resources Department, as designated by the Human Resources Director, shall serve as the Safety Officer for the City's Safety Program. The Safety Officer reports directly to the Program Administrator.

Department Heads – All classifications charged with the lead management role for the major departments within the City organizational structure.

Managers – Second and third line management classifications within each major City department charged with the oversight of divisions and/or specific work groups within the department, such as Assistant Department Heads, Division Heads and Superintendent level classifications.

Supervisors – All classifications charged with the supervision of City employees.

Safety Representatives – Members of a department specific Safety Committee

Occupational Health and Safety Committee – Members of the citywide Occupational Health and Safety Committee who report to the Department Head Team.

NOTE: Due to the variety of job classifications within the City, some classifications and some working titles may not be designated as "supervisory" but are still the responsible "person-in-charge". These individuals are still responsible for carrying out all elements of the IIPP, because they are charged with the overall responsibility for a project, which includes enforcing safety and health programs, policies, procedures, regulations and work practices, and protecting employees, visitors, and the public from harm in connection with City operations.

Terminology

Shall – Denotes a requirement.

Should – Denotes a recommendation.

May – Denotes a permission; neither a requirement nor a recommendation.

Will - Denotes that something is required or mandatory, but allows the responsible employee or party some discretion as to when, where and how.

ROLES AND RESPONSIBILITIES

City Manager

Responsibility for health and safety rests with the City Manager. The City Manager is responsible for integrating safety into the culture of the City and providing program direction to ensure a safe, healthy, and secure work environment for employees and the public including persons with disabilities. This includes ensuring that the work environment is free from violence, threats, harassment, and intimidation for its employees, officers, agents and volunteers and that the public is protected from harm in connection with City operations.

Program Administrator and Safety Officer

The Program Administrator is:

Title: Human Resources Director
Address: 311 Vernon Street, Roseville, CA 95678
Telephone: (916) 774-5475 or 774-5202

The Program Administrator shall provide oversight and guidance in the implementation of the IIPP and shall ensure the integration of safety into the culture of the City. To assist in those efforts the Program Administrator shall designate a staff person to serve as the Safety Officer for the City.

It is important to note that it is *not* the Program Administrator's responsibility to manage the Safety Program. Responsibility for the implementation, administration, and management of the Safety Program rests with department heads, managers and supervisors. The Program Administrator and Safety Officer shall coordinate, oversee, support and assist department heads, managers and supervisors in all Safety Program efforts.

Department Heads

The role of department heads is critical to the success of the City's safety efforts and the integration of safety accountability into the culture of the City. Department heads must ensure the performance and compliance of all safety related programs, policies, regulations and practices by managers, supervisors and employees within their respective departments.

Managers and Supervisors

The role managers and supervisors play in the Safety Program is crucial to achieving the goal of a safe, healthy and secure work environment for employees and the public. Managers and supervisors must understand, and demonstrate by example, knowledge of all safety related programs, policies, procedures, regulations and work practices that pertain to their area(s) of supervision. They must ensure that all employees within their work groups are trained in and actively utilizing all safety related protocols in their daily work activities. In addition, managers and supervisors are tasked with cultivating an environment that supports all safety efforts and encourages employees to actively participate in Safety Program efforts by reporting unsafe work conditions without the fear of reprisal.

Employees

Ultimate responsibility for safety rests with the employees. The City has an obligation to provide training to employees in all areas of performance and safety and employees have a responsibility to observe the highest possible standards of safety in the performance of service and execution of all assigned duties.

Refer to Appendix "A" (Safety Program Roles and Responsibilities) for a detailed list of duties and responsibilities as they relate to the Safety Program.

Safety Representatives

Safety Representatives shall:

1. Attend and take an active role in Occupational Health and Safety Committee meetings and activities;
2. Periodically evaluate and forward to the Safety Officer recommendations on safety and training needs;
3. Participate as necessary in safety inspections, workshops or other training;
4. Observe and recommend corrective action(s) as appropriate of any departmental working condition(s) or practice(s) which may be deemed unsafe or unhealthy;
5. Consult with the Safety Officer on departmental safety matters requiring research and/or technical advice.

The Occupational Health and Safety Committee

The Occupational Health and Safety Committee shall:

1. Meet regularly, but not less than quarterly;
2. Maintain and make available written records of safety and health issues discussed at committee meetings. These records shall be maintained for a minimum of one (1) year;
3. Support the safety inspection program;
4. Participate in the development and implementation of safety training programs, as needed;
5. Review, evaluate and make recommendations as appropriate on reports submitted by the Safety Officer and/or other safety consultants;
6. Make recommendations to the Safety Officer and/or department heads on the committee's findings concerning safety hazards, practices, or other safety-related matters.

Refer to Appendix "B" (Administrative Regulation 2.04, "Occupational Health and Safety Committee By-Laws") for a description of the Committee's role in the Safety Program.

ANTI-REPRISAL POLICY

Employees shall not be discharged or discriminated against in any manner for reporting of health and safety hazards to the City of Roseville or to appropriate governmental agencies. Managers and supervisors shall inform employees of this policy and encourage reporting of workplace hazards to management.

VIOLENCE IN THE WORKPLACE

The City is concerned about the safety and security of its employees, officers, agents, volunteers and citizens of the community. The City has adopted a Zero Tolerance Policy for workplace violence because it recognizes that workplace violence is a growing problem nationally that needs to be addressed by all employers. Consistent with this policy, acts or threats of physical violence, including intimidation, harassment, and/or coercion which involve or affect the City or which occur on City property will not be tolerated.

To address this issue, the City has developed a policy that bans violence in the workplace. This policy provides a guideline for responding to violence or threats of violence in the workplace. It includes the general roles and responsibilities of employees, supervisors, the Human Resources Department, and Police Department. Each supervisor is responsible for ensuring that employees under their direction are trained in this policy.

Violations of this policy will lead to disciplinary action up to and including termination. Threats or acts of violence include conduct against persons or property that is sufficiently severe, offensive, or intimidating to alter the employment conditions at the City, or to create a hostile, abusive, or intimidating work environment for one or more City employees.

Refer to Appendix “C” (Administrative Regulation 1.06, “Violence in the Workplace Policy”).

COMPLIANCE

The City of Roseville will ensure that employees comply with safe and healthful work practices. Department heads, managers and supervisors are responsible for establishing and maintaining good health and safety practices. To ensure compliance:

- Employees shall be recognized for following safe and healthful work practices (e.g., oral acknowledgments, recognition at meetings, awards, etc.);
- The City shall maintain a Safety Incentive Program designed to foster safety in the workplace by all employees in all work situations;
- Employees shall be trained and retrained, as necessary or as required;
- Health and safety practices shall be integrated into employee job descriptions and performance appraisals;
- Disciplinary actions, as appropriate, shall be taken for failure to follow safe and healthful work practices;
- The anti-reprisal policy for employees reporting safety and health concerns as stated in this document shall be enforced.

Refer to Appendix “D” (General Safety Rules and Precautions – Municipal Code 3.13.060) for a list of safety rules and precautions common to all workplaces.

Refer to Appendix “E” (Safety Incentive Program) for program details.

COMMUNICATION

The City uses various forms of communication to relay information in readily understandable formats to all employees on matters relating to occupational safety and health, including, but not limited to:

- Training and Instruction;
- The City Occupational Health and Safety Committee;
- Departmental Safety Meetings;
- Tailgate Meetings;
- Information Distribution;
- Anonymous and Confidential Hazard Reporting.

The specifics for each venue are described below:

Training and Instruction

It is the policy of the City to encourage and provide vocational, safety and health and wellness education and training for all employees in order to maintain efficient, effective, and safe working conditions.

Such training programs may include lectures, demonstrations, assignment of reading materials, or other such devices or forums designed to improve the effectiveness and broaden the knowledge of City employees in the performance of their respective duties.

Responsibility for vocational training and observance of safe work practices shall be shared by the City, the respective departments, and the employees. In this regard, employees shall be responsible for attending, absorbing, and applying the information provided by training programs to daily work activities.

The City's Occupational Health and Safety Committee

In order to ensure that the goals and objectives of the Safety Program are effectively carried out, the City has established an Occupational Health and Safety Committee. The committee is comprised of the Safety Officer and safety representatives from designated departments, divisions, or work units. Each department will have a representative assigned to the Committee and those departments whose primary work environment is more administrative in nature will have one representative collectively who will ensure communication transpires both to and from the Committee. OHS Committee members will funnel information to departmental Safety Representatives as yet another venue to relay safety-related information and issues.

Department Safety Meetings

The purpose of Department Safety Meetings is to provide a forum for management level discussion of safety related issues and new program implementation. These meetings also provide a venue to resolve safety related concerns; to provide a means of evaluating the safety related performance of managers and supervisors; and, to provide a forum for the Safety Officer and/or safety representatives to voice suggestions and concerns dealing with safety within respective departments. The department heads, manager(s) and supervisor(s) should present these meetings and trainings based on the exposures and needs identified. Suggested topics include, but are not limited to: department and City emergency procedures; injury and incident

experience; results of various safety inspections; safety related projects; preventative and corrective actions of potentially serious incidents; items discussed in Occupational Health and Safety Committee meetings.

Tailgate Meetings

The purpose of a tailgate meeting is to provide safety training on new procedures and equipment, to discuss safety issues related to a current project, process or work practice, and to provide employees with a regular forum for reporting and discussing safety concerns. The managers and supervisors should conduct these health and safety meetings based on the exposures presented; however, employees and guest speakers are encouraged to present topics and participate in presentations. Suggested topics include, but are not limited to: past performance and current safety goals; lockout/tagout; office safety; emergency procedures; hearing conservation; proper lifting techniques and back injury prevention; hazard communication; machine guarding; fire prevention; vehicle safety; confined space entry; respiratory protection; chemical hazards; proper handling of hazardous materials and waste; and personal protective equipment. All tailgate safety meetings shall be documented. Documentation shall include the topic, date, presenter, list of the persons in attendance, and outline of key elements presented in meeting.

Refer to Appendix "F" (Weekly Tailgate Safety Meeting Report) for a sample reporting form.

Information Distribution

The Program Administrator and/or Safety Officer will publish or disseminate public notices, memorandums, emails, posters, manuals or newsletters to be used to inform employees on a variety of topics to include, but not limited to, specific safety information, occupational safety, facility safety, environmental health and safety, emergency preparedness, and health and wellness topics as well as off-the-job safety issues.

These notices may be posted on department bulletin boards, distributed electronically or provided to employees as hand-outs. Departments shall use bulletin boards and/or electronic media for posting information on safety in locations accessible to all employees. Information such as changes in protocol, safety bulletins, incident statistics, training announcements, and other safety information shall be distributed and/or posted as they become available. Department heads will ensure that all employees know the location(s) and have access to the location(s) of these notices.

Anonymous and Confidential Hazard Reporting

Communication is not limited to the dissemination of information to employees from management. Employees are encouraged to promptly report any and all hazards and/or safety issues to management in order to assure that hazards and safety issues are addressed and corrected in a timely manner. It is the intent of the City to encourage and solicit employee input and participation in the Safety Program by identifying hazards and safety issues without fear of reprisal. However, should employees wish to remain anonymous, the City has provided mechanisms by which employees can report hazards or safety issues without identifying themselves.

Confidential hazard reporting can be accomplished through a variety of formats. Written reports can be submitted into suggestion boxes located in building break rooms and other

common locations throughout the City. Any employee may call (916) 774-5555, the City's Safety Patrol Line, anonymously, or confidentially, to report a hazard or share a health and safety concern. In addition, anonymous reporting can be mailed to the Safety Officer via internal mail.

Refer to Appendix "G" (Safety Suggestion Form).

Reporting of hazardous substances in accordance with the California Hazard Communication Regulation (8 CAC 5194) is outlined in the City's "Hazard Communication Program."

Refer to Appendix "H" (Administrative Regulation 2.06, "Hazard Communication Program").

SCHEDULED AND PERIODIC INSPECTIONS

The City has the following procedures for identifying and evaluating workplace hazards, including scheduled periodic inspections to identify unsafe conditions and work practices. Managers and supervisors are responsible for seeing that periodic inspections are conducted, and to know which Cal/OSHA safety orders contained in Title 8 of the California Code of Regulations apply to their workplace. An inspection format that most closely relates to the environment being inspected shall be utilized. In addition, the Safety Officer may assist managers and supervisors in the development of self-inspection forms, checklists and guides for inspection and record keeping. Upon request, the Safety Officer will also conduct or arrange for third parties to conduct periodic assessments to assist managers and supervisors in identifying and correcting potential hazards.

Frequency

Comprehensive safety and health inspections of facilities, departments, divisions and work areas shall be conducted periodically, at least annually, as determined by the Safety Officer. The frequency of periodic inspections will depend on the activities or operations involved, the magnitude of the hazards, the proficiency of employees, changes in equipment or work processes, and the history of work-place injuries and illnesses or general liability claims within City facilities. Inspections shall be conducted whenever new substances, processes, procedures, or equipment are introduced to the workplace that represent a new occupational safety and/or health hazard; and whenever the City is made aware of a new or previously unrecognized hazard. Inspection recommendations include, but are not limited to:

- Fire Extinguishers – Monthly (required)
- Automated External Defibrillator (AED) – Quarterly
- Safety Eye Wash/Shower – Monthly (required)
- Hazardous Waste Storage Areas – Weekly (required)
- Office Buildings – Annual
- Vehicles – Daily/Monthly
- Forklifts – Daily by each individual operator
- Construction and/or high hazard operations – Every six (6) months

Inspection Teams

Inspections should be conducted by personnel who, through experience or training, are able to identify actual and potential hazards and understand safe work practices. Inspection teams may consist of any combination of the following:

- The department/division safety representative or an assigned representative knowledgeable about hazards and safe work practices within the department/division/facility being inspected;
- A member of the City's Fire Department or Building Department familiar with fire and building code enforcement;
- A member(s) of the Occupational Health and Safety Committee;
- The Safety Officer, or designee, who may also arrange for a consulting safety expert as appropriate for prevailing conditions (e.g., consulting safety engineer, Cal/OSHA inspector, etc.).

Scheduling Inspections

The coordination and scheduling of inspections shall be the responsibility of the Safety Officer. Arrangements for inspections shall be made in such a way as to minimize disruption of operations; however they shall be scheduled at times which will permit an accurate and representative view of equipment and work procedures in the department or division. Scheduled inspections are in addition to the everyday and periodic safety and health checks that are part of the routine duties of managers and supervisors.

Conducting Inspections

1. The inspection team shall carefully note the condition of the physical workplace(s), equipment and tools to ascertain the existence of unsafe practices or unhealthy/unsafe conditions. The standards for such evaluation shall include, but are not be limited to, Cal/OSHA regulations and/or City and department or division programs, policies, procedures or regulations.
2. Workplaces shall also be observed and employees on the job questioned as necessary to determine if proper personal safety equipment is available and used as required, and if safe working procedures are followed according to established standards, practices, and regulations.
3. Employees of any department or division may submit verbal and/or written recommendations regarding the existence of unsafe practices or unhealthy conditions.
4. The Safety Officer shall be responsible for obtaining and providing to members of the inspection team the standards and/or regulations which apply. The Safety Officer may also develop inspection checklists or other guides to facilitate the inspection process.

Refer to Appendix "I" for sample Safety Inspection Checklists.

Processing, Evaluation, and Handling of Inspection Results

1. Full and complete records of safety inspections shall be submitted to the Safety Officer, who shall review the findings and address deficiencies noted. Any safety hazards identified in the inspection records shall be addressed immediately and in accordance with hazard severity.
2. Should findings and recommendations warrant further review, the Safety Officer shall prepare a report summarizing the inspection findings and recommendations.
3. A copy of this report shall be furnished to each member of the inspection team, the department head, manager, supervisor, and/or Occupational Health and Safety Committee as appropriate.

4. In the event disagreement occurs among members of the inspection team as to whether an observed condition or practice is, in fact, unsafe, or as to the appropriate remedy for an unsafe condition or practice, said situation will be decided by the Safety Officer, or may be referred to outside consultation services at the Safety Officer's discretion.

Record Keeping of Scheduled and Periodic Inspections

Although Cal/OSHA requires that records of scheduled and periodic inspections to identify unsafe conditions and work practices be maintained for a minimum of one (1) year, the City shall retain these records for two (2) years, in case of third party litigation in accordance with the City's Record Retention Schedule. The records shall include:

- The name(s) of the person(s) conducting the inspection;
- Any description(s) of the unsafe condition(s) and work practice(s);
- The action(s) taken to correct the identified unsafe condition(s) and work practice(s).

Managers, supervisors or designated staff persons within the department are responsible for maintaining these records and providing a copy to the Safety Officer.

INJURY AND ILLNESS INVESTIGATIONS

The City investigates all accidents, occupational injuries and/or illnesses, as well as property damage incidents to reduce the potential for future incidents that could result in injury. The following standardized procedures for reporting and investigating occupational injuries, illnesses, and accidents are reviewed below.

Reporting Procedures

- Employees shall report all accidents, incidents, and exposures with the potential for injury or damage to their immediate supervisor as soon as possible.
- The supervisor shall contact the Human Resources Department immediately to report any deaths or serious injury or illness (defined as more than 24-hours' hospitalization for other than observation; permanent disfigurement; loss of body part; per Title 8 CCR 330).
- The Human Resources Department shall immediately report any death or serious injury or illness to Cal/OSHA per Title 8 CCR 342. Note: Immediately means as soon as practically possible but no longer than eight (8) hours from the City's receipt of knowledge of the serious injury or illness.
- Other incidents will be reported to Cal/OSHA on a case-by-case basis as determined by the Safety Officer.

For all other injuries, contact the immediate supervisor and/or the Human Resources Department.

Standardized Forms for Injuries

- Supervisors shall provide an Employee's Claim for Workers' Compensation Benefits (Form DWC-1) within twenty-four (24) hours to the injured employee immediately following any accident or notice of injury.
- The Supervisor's Report of Accident shall be completed by the supervisor for all injury/illness/exposures within twenty-four (24) hours and forwarded to the Human Resources Department.
- The Employer's Report of Occupational Injury or Illness (Cal/OSHA Form 5020) shall be completed by the Human Resources Department within five (5) days of receipt of a claim form or for cases when one workday or more is lost by an employee or when treatment of the employee is required by a physician in a medical facility.
- The supervisor shall complete and retain a copy of all Injury/Incident Investigation reports with a copy to the Safety Officer showing the management analysis of the loss and the corrective action taken.

Standardized Forms for Accident/Exposure Investigations

- Incidents involving theft, vandalism, potential liability exposure or other damage related issues shall be reported on the City's "Incident Report Form".
- Incidents involving vehicle and/or equipment accidents shall be reported on the City's "Vehicle/Equipment Accident Report".

Please note: The "Incident Report Form" and the "Vehicle/Equipment Accident Report" are to be used in situations where there is no employee injury OR in addition to, if appropriate, the "Supervisor's Report of Accident" in cases where there is an employee injury.

Refer to Appendix "J" (Supervisor's Report of Accident), Appendix "K" (Incident Report Form), and Appendix "L" (Vehicle/Equipment Accident Report).

All completed report forms are to be submitted to: The Human Resources Department

You may call (916) 774-5475 or (916) 774-5202 with any questions.

Investigation Steps

The supervisor should take the following steps in an investigation:

- Interview injured worker(s) and witness(es);
- Examine workplace factors associated with the accident/exposure;
- Take photographs as warranted;
- Determine the possible cause(s) of the accident/exposure;
- Take corrective action(s) to prevent the accident/exposure from recurring;
- Record the finding(s) and corrective action(s) taken.

The Safety Officer is available to assist in any aspect of the investigation.

HAZARD CORRECTION

The City has a commitment to correct unsafe or unhealthful work conditions in a timely manner, based on the severity of the hazard. Hazards or unsafe work conditions shall be prioritized by severity and corrected when observed or discovered. When an imminent hazard exists which cannot be immediately abated without endangering employee(s) and/or property, all exposed personnel will be removed from the area except those necessary to correct the existing condition. Necessary safeguards to correct the hazardous condition shall be provided to employees.

Unsafe conditions that cannot be corrected with the resources available to managers or supervisors shall be reported to the next level of management. If the correction is outside the authority of departmental maintenance and/or departmental funds are not available, the department head shall seek other resources from the City to make the necessary corrections.

Hazard Definitions

Catastrophic – May cause permanent disability, loss of life or body part. Condition should be corrected immediately.

Critical – May cause serious injury or illness resulting in temporary disability. Condition should be corrected as soon as possible.

Marginal – May cause minor (non-disabling) injury or illness. Condition should be corrected as soon as practicable.

Negligible – Probably would not affect personnel safety or health, but is, nevertheless, in violation of a program, policy, procedure or regulation. Condition should be corrected if it worsens or as routine maintenance schedules allow.

SAFETY TRAINING PROGRAM

The Safety Officer is responsible for oversight of the City's required safety training. Employees shall receive required training as per Federal and State mandates to include, but not limited to, all applicable training as outlined in Title 8 CCR Division 1, Chapter 4 (Construction Safety Orders) and Division 1, Chapter 7 (General Industry Safety Orders). Training in areas of personal protective equipment (PPE), safe work procedures and equipment employees are required to use in their respective work assignments is the responsibility of each department head, and respective managers and supervisors.

All training is managed through an online learning management system with oversight by the Safety Officer. This system manages all training provided to employees of the City, not just mandated training courses. The City's learning management system, Roseville University ("RoseU"), allows a manager, supervisor and employee to register to attend training courses, review required and recommended training, review training certification status, view and print completed training activities, and view upcoming training offerings.

Refer to Appendix "N" (Employee Training Analysis) for sample employee training documentation.

Training Content

Managers and supervisors shall ensure that employees are trained in:

- General and job-specific health and safety programs, policies, procedures, regulations, practices and hazards;
- Recognition and assessment of health and safety risks;
- Minimization of risks through sound safety practices and use of protective equipment;
- Process for reporting potential hazardous conditions.

The City has organized its Safety Training Program as described below:

Level 1 Training

- Includes general orientation provided by the Human Resources Department to all new employees;
- Includes information on the City's general health and safety programs, policies, procedures, regulations and practices; employee health and safety rights and responsibilities; health and safety services; including what an employee can expect in terms of further training;
- Includes what to do in the event of an accident including immediate injury reporting and how to obtain medical treatment;
- Includes a review of the City's workers' compensation program and the protection it affords injured workers;
- Includes information on the City's return-to-work policy and the efforts the City will make to help ensure all injured employees are returned to work with minimal risk and disruption.

Level 2 Training

- Provided at the department level by managers, supervisors, or safety representatives, to all employees concerning the special hazards that may be encountered relative to their specific duties;
- Training topics may include, but are not limited to, ergonomics, hazard communication (i.e., hazard identification, hazardous materials safety, hazard reporting), violence in the workplace, emergency response and evacuation procedures, fire and earthquake safety, rights and responsibilities, personal protection, and record keeping, as applicable;
- Industry experts may be used for aspects of Level 2 training that require special knowledge or expertise. These experts may be outside consultants or may be in-house staff with special knowledge, skill and/or training.

Level 3 Training

- Level 3 training is provided at the department level by managers, supervisors or identified instructors for those employees with specific high-hazard exposures including, but not limited to, public safety employees and those employees exposed to work environments involving construction, excavation, confined space, motor vehicle operation, heavy equipment and power tool operation;
- Level 3 training consists of information specific to the hazards and equipment used by these individuals;

- Training is by one or more of the following methods: class lecture, safety meetings (formal or informal), and/or hands-on instruction;
- Material safety data sheets, videos, pamphlets, booklets, class syllabus, and postings may be used to supplement training;
- Industry experts may be used for aspects of Level 3 training that require special knowledge or expertise. These experts may be outside consultants or may be in-house staff with special knowledge, skill and/or training.

Training Schedule

Training shall be provided:

- When the IIPP is first established;
- Whenever substantive changes are made to the IIPP;
- When new employees are hired;
- When employees are given new job assignments for which training has not previously been received;
- Whenever new substances, processes, procedures, or equipment are introduced to the workplace and represent a new hazard;
- Whenever new programs, policies, procedures or regulations are adopted;
- Whenever the City is made aware of a new or previously unrecognized hazard;
- When employees become supervisors (so that they can familiarize themselves with the safety and health hazards to which employees under their immediate direction and control may be exposed and to acquire knowledge and understanding of the unique role a supervisor has in the area of safety).

Training Resources

- The Safety Officer will assist department heads, managers and supervisors in providing health and safety training to employees on a variety of topics (the Safety Officer can also assist in locating industry experts to use in presenting material when necessary).
- The Safety Officer oversees the learning management system and standardized forms and procedures for documenting and maintaining safety training records.
- The Safety Officer has access to a safety DVD library, a collection of safety publications, and safety professionals to assist department heads, managers and supervisors in implementing training programs.

Training Records

- Documentation of health and safety training for each employee shall include: (1) name or other identifier, (2) training dates, (3) type(s) of training, (4) training providers, and (5) an outline of key elements presented in the training.
- Although Cal/OSHA requires this documentation be maintained for at least one (1) year, the City shall maintain this documentation for at least ten (10) years in accordance with the City's Record Retention Schedule.
- Managers, supervisors or designated staff persons within the department and the Safety Officer are responsible for maintenance of all training records.
- Training records shall be maintained through the City's learning management system ("RoseU").

RECORD KEEPING

Injury and Illness Records

City policy requires that a record-keeping system be instituted and maintained by the Safety Officer for all injury and illness records. The Human Resources Department shall be responsible for injury and illness record-keeping as required; requirements include:

1. Obtaining a report of every injury and/or illness requiring medical treatment;
2. Recording each recordable injury or illness on the Cal/OSHA Log Form 300 per the instructions on the log. Do not record first aid incidents;
3. Preparing a supplementary record of each occupational injury and illness on Cal/OSHA Form 301;
4. Preparing the Cal/OSHA summary form 300A every year and post it no later than February 1 with the Program Administrator's signature. The posting shall be posted where employees can see it and shall remain posted through April 30th;
5. Retaining all records for at least five (5) years.

The Safety Officer will review the log and records of occupational illnesses together with the reports of incidents that are not recordable with the Occupational Health and Safety Committee to identify patterns and repeat situations. Actions will be taken based on the analysis of these losses to reduce the potential for future losses.

Documentation of Inspection and Training Activities

Managers, supervisors or designated staff persons within the department shall maintain the following records of their activities relative to the IIPP for two (2) years, in case of third party litigation in accordance with the City's Record Retention Schedule.

Records of scheduled and periodic facility inspections shall include the following documentation:

- Name of person(s) conducting the inspection;
- The unsafe condition(s) or work practice(s) identified;
- The action(s) taken to correct the unsafe hazard(s) or work practice(s).

Records of training activities shall include the following documentation:

- Name of employee(s) trained;
- Date(s) of training;
- Type of training/brief description of training;
- Name of trainer.

The Safety Officer shall maintain inspection records a minimum of two (2) years and training records a minimum of ten (10) years as outlined by the City's Record Retention Schedule.

SAFETY PROGRAM ROLES AND RESPONSIBILITIES

Responsibility for safety is assigned to each and every employee of the City of Roseville; however, in order to achieve the specific requirements of the IIPP, key functions, tasks and responsibilities must be assigned to identified persons or levels of classification within the City. Though not all inclusive, this document serves to identify those key considerations and responsibilities, and shall function as a guide in identifying each employee's specific role in meeting the goals of the City's Safety Program and the requirements of the IIPP.

City Manager shall:

- Demonstrate a genuine interest and commitment to the Safety Program;
- Ensure department head involvement and commitment to the Safety Program;
- Convey an expectation that safety is everyone's responsibility;
- Provide support to the Program Administrator and the Safety Officer in the oversight and implementation of the IIPP;
- Provide support to department heads, managers and supervisors in Safety Program efforts.

Program Administrator and Safety Officer shall:

Compliance

- Support and create a culture that exemplifies behavioral changes in work habits and procedures that produces an injury/accident free and more productive workplace.
- Establish and participate in an Occupational Health & Safety Committee designed to comply with Cal/OSHA guidelines and serve as an integral part of the City Safety Program.
- Advocate and champion the enhancement of the performance management system to include safety accountability in the employee evaluation process.
- Incorporate safety into annual program goals and objectives of the City.
- Enforce City's Anti-Reprisal Policy for reporting by employees of health and safety hazards.
- Serve as liaison with governmental and regulatory agencies on safety-related issues.
- Implement, maintain and provide oversight to all programs, policies, procedures and regulations necessary for the operation of a meaningful City-wide Safety Program.
- Provide assistance to department heads, managers, supervisors and safety representatives in the research, development and distribution of safety and health and wellness programs, policies, procedures, regulations and guidelines.
- Develop policies and procedures to ensure prompt reporting of all work-related injuries and illnesses pursuant to Cal/OSHA regulations (Title 8 CCR 342(a)).
- Report serious injuries involving hospitalization or death of an employee as defined by Title 8 CCR 330, to the State Department of Industrial Relations within eight (8) hours of occurrence (Title 8 CCR 342(a)).

Appendix “A”

Safety Program Roles and Responsibilities

- Develop policies and procedures to ensure prompt reporting of all accidents involving property damage to ensure compliance with City safety and loss control efforts.
- Develop injury, illness and accident trend data and distribute and review with department heads and Loss/Control Safety Committee for use in safety and loss control efforts.
- Develop, maintain and enforce a policy on zero tolerance of violence in the workplace (Administrative Regulation 1.06).
- Investigate all reports of behavior by City employees that potentially constitute a violation of the City’s Violence in the Workplace Policy and ensure that investigative findings are referred to the Human Resources Director and/or Police Department as appropriate (Administrative Regulation 1.06).
- Maintain required safety training, inspection, investigation and injury records as required, and determine injuries as recordable/non-recordable as defined by Cal/OSHA (Title 8 CCR 14300 et seq.).
- Establish and maintain a Safety Incentive Program designed to foster safety and provide recognition of safety efforts.

Communication / Training

- Establish and promote a variety of forums for the distribution of safety-related information to all employees and ensure that the information is relayed in a readily understandable format and is easily accessible.
- Research, maintain and distribute current information on local, state, and federal safety and health and wellness regulations to department heads, managers, supervisors, safety representatives and others as necessary in a timely manner.
- Ensure that Occupational Health & Safety Committee meeting agendas, minutes and reports are prepared and distributed to Committee members, department heads, managers, supervisors and employees as appropriate.
- Establish and support a culture that encourages employees to report hazards, near misses and accidents without the fear of reprisal.
- Establish and provide oversight and assistance for a Safety Training Program to ensure compliance with all safety training requirements.
- Provide Level 1 Training as described in the IIPP to all new employees.

Inspection / Investigation / Hazard Identification and Correction

- Coordinate and provide oversight of periodic and scheduled safety inspections of City facilities and operations to identify unsafe conditions and work practices.
- Assist department heads, managers and supervisors in the development of safety and health inspection procedures, inspection forms, checklists, guides, and record keeping procedures.
- Assist department heads, managers and supervisors in arranging for third parties to conduct periodic safety assessments as requested or deemed necessary.
- Serve as a liaison and clearing house for regulatory agencies conducting inspections of City facilities, work sites and/or work practices.
- Review inspection and accident records/reports and prepare periodic summary reports.

Appendix “A”

Safety Program Roles and Responsibilities

- Ensure the City’s commitment to identification and correction of unsafe or unhealthy work conditions or practices through review and timely response to all safety and hazard identification reports.
- Establish, support, and maintain an injury/illness/accident report and investigation procedure for use by department heads, managers, and supervisors and provide assistance to department heads, managers and supervisors to investigate and report every accident or incident resulting in a serious injury to an employee.

Department Heads shall:

Compliance

- Provide support and demonstrate commitment to a Safety Program that encourages behavioral changes in work habits and procedures that produces an injury/accident free and more productive workplace.
- Utilize the performance management system to ensure the quality of safety performance by managers and supervisors.
- Incorporate safety into annual department goals and objectives and assure adequate funding for the implementation of safety and health and wellness programs, policies, procedures, regulations, equipment and training.
- Provide support and enforcement of the City’s Anti-Reprisal Policy for reporting by employees of health and safety hazards.
- Delegate the authority and provide support to individuals within the department to develop and implement appropriate health and safety programs, policies, procedures, regulations and work practices.
- Ensure the preparation, compliance and maintenance of specific safety and health and wellness programs, policies, procedures, regulations and work practices to be followed by all employees within the department and its various divisions and work units.
- Ensure participation and cooperation by all divisions and work units within the department in the Occupational Health & Safety Committee.
- Ensure prompt reporting of all work-related injury and illness incidents in compliance with Cal/OSHA regulations (Title 8 CCR 342(a)).
- Ensure prompt reporting of all accidents involving property damage to ensure compliance with City safety and loss control efforts.
- Review injury, illness and accident trend data and utilize the information in department safety and loss control efforts.
- Ensure an environment that is free from threats or acts of physical violence in accordance with the City’s Violence in the Workplace Policy (Administrative Regulation 1.06).
- Immediately report to Human Resources any notification of a threat or act of physical violence that potentially constitutes a violation of the City’s Violence in the Workplace Policy and assist in any subsequent investigation (Administrative Regulation 1.06).
- Provide support for and ensure compliance with the City’s record keeping requirements and processes relative to training, inspection, investigation and employee safety records.
- Provide support to all City-wide safety incentive programs and/or activities designed to foster awareness for safety.

Appendix “A”

Safety Program Roles and Responsibilities

Communication / Training

- Ensure that all safety and health and wellness programs, policies, procedures, regulations and work practices are included in a departmental orientation of all new employees; are the subject of periodic review with affected employees; and, are accessible to all employees in readily understandable formats, including, but not limited to bulletin board postings and electronic media venues (e.g. intranet).
- Review and distribute Occupational Health & Safety Committee meeting agendas, minutes and reports to subordinate staff and respond to safety-related information as appropriate.
- Ensure and promote a culture that encourages employees to report hazards, near misses and accidents without the fear of reprisal.
- Ensure that all supervisory staff have been fully trained in the IIPP, safety management responsibility and safety affecting their area responsibility, and that managers and supervisors provide required safety training to their employees.
- Ensure that managers and supervisors are providing Levels 2 and 3 training as described in the IIPP to include, but not limited to, general health and safety programs, policies, procedures, regulations, practices, hazards, personal protective equipment (PPE), and use of equipment employees are required to use in their respective work assignments.

Inspection / Investigation / Hazard Identification and Correction

- Ensure that managers and supervisors comply with and actively participate in the safety inspection process.
- Ensure that managers and supervisors are knowledgeable and in compliance with all safety and health inspection and record-keeping procedures.
- Ensure cooperation with third parties conducting safety and/or health inspections on behalf of the City.
- Ensure that the Safety Officer is notified of any inspection notification received from a regulatory agency, including, but not limited to, Cal/OSHA.
- Review inspection records/reports and ensure timely and appropriate follow-up and correction of any deficiencies noted.
- Consider and act upon appropriate recommendations from the Occupational Health & Safety Committee, Safety Officer or other safety consultants concerning the abatement of unsafe or unhealthy work conditions or practices within a timely manner.
- Provide support for and pursue resources necessary to correct or abate identified hazards.
- Ensure compliance and cooperation by managers and supervisors in the investigation of all accidents, occupational injuries and/or illnesses, and property damage incidents to reduce the potential for further injury, damage or losses and to ensure timely compliance with all reporting regulations.

Appendix “A”
Safety Program Roles and Responsibilities

Managers and Supervisors shall:

Compliance

- Demonstrate support for and implement and participate in all Safety Program components and work practices to produce an injury/accident free and more productive workplace.
- Maintain accountability for Safety Program efforts through recognition of employees who contribute to a safe workplace and discipline of employees who fail to follow safe work practices.
- Enforce health and safety rules fairly and uniformly and evaluate employees on compliance with safe work practices as part of the performance management process.
- Ensure that safety-related goals and objectives are implemented.
- Provide support and enforcement of the City's Anti-Reprisal Policy for reporting by employees of health and safety hazards.
- Develop written safety programs, policies, procedures, regulations, and work practices for all operations and exposures within the work unit(s).
- Ensure that all required safety programs, policies, procedures, regulations and work practices are in place by periodically reviewing documentation associated with work activities, exposures and hazards and through periodic review of the work practices of subordinate employees to ensure compliance.
- Establish emergency procedures for employees.
- Ensure that workplaces and equipment are safe, well maintained, and in compliance with external agency regulations, generally accepted safety practices and the City's programs, policies, procedures and regulations.
- Promote, participate and cooperate in Occupational Health & Safety Committee activities as required.
- Immediately report all incidents of work-related injury or illness to the department head and Human Resources as outlined in City policies and procedures to ensure compliance with Cal/OSHA regulations (Title 8 CCR 342(a)).
- Immediately report all accidents involving property damage to the department head and/or Safety Officer to ensure compliance with City safety and loss control efforts.
- Review injury, illness and accident trend data and utilize information in safety and loss control efforts.
- Promote an environment that is free from threats or acts of physical violence in accordance with the City's Violence in the Workplace Policy (Administrative Regulation 1.06).
- Immediately report to the department head and Human Resources any notification of a threat or act of physical violence that potentially constitutes a violation of the City's Violence in the Workplace Policy (Administrative Regulation 1.06).
- Ensure that training, inspection, investigation and employee safety records are maintained and retained for the designated period(s) of time.
- Provide support for and active participation in all City-wide safety incentive programs and/or activities designed to foster awareness for safety.

Appendix “A”

Safety Program Roles and Responsibilities

Communication / Training

- Implement safety communication practices that are readily understandable and accessible by all employees and ensure that workplace safety and health and wellness programs, policies, procedures, regulations and work practices are clearly communicated and understood by employees.
- Conduct regularly scheduled safety meetings designed to communicate and promote safety programs, policies, procedures and regulations; discuss loss history and lessons learned; obtain feedback from employees; and, integrate required safety training (updates and refresher training).
- Review and distribute Occupational Health & Safety Committee meeting agendas, minutes and reports to subordinate staff and respond to safety-related information as appropriate.
- Establish and promote a culture that encourages employees to report hazards, near misses and accidents without the fear of reprisal.
- Attend training and develop personal knowledge and skill in the administration of a Safety Program including the IIPP and all safety and health and wellness programs, policies, procedures, regulations and work practices required within their area of responsibility including, but not limited to:
 - ✓ Supervisor’s role in the Safety Program;
 - ✓ Hazards to employees;
 - ✓ Hazard recognition;
 - ✓ Safe work practices;
 - ✓ Accident investigation;
 - ✓ Safety inspections;
 - ✓ Training requirements.
- Provide all employees with Levels 2 and 3 training as described in the IIPP, including but not limited to, general health and safety programs, policies, procedures, regulations, practices, hazards, personal protective equipment (PPE), and use of equipment employees are required to use in their respective work assignments.
- Provide one-on-one safety coaching to employees as needed.

Inspection / Investigation / Hazard Identification and Correction

- Conduct and document routine and periodic safety inspections and ensure participation and compliance with any safety inspection scheduled by the Safety Officer or other regulatory agency.
- Schedule safety inspections based on the operations involved, the magnitude and nature of the hazards found, and the history of injuries and losses.
- Remain current on industry specific workplace safety and health standards and utilize organizational resources and applicable regulations as necessary in the inspection process.
- Ensure that personal protective equipment and operating equipment is inspected as recommended and required.
- Inspect work areas for proper housekeeping and for fire or other hazards and see that work areas are left in a safe condition at the end of each workday/shift.
- Periodically inspect and ensure that departmental safety supplies are replenished and in good working condition (first aid kits, fire extinguishers, etc.).

Appendix “A”

Safety Program Roles and Responsibilities

- Conduct inspections whenever new substances, processes, procedures or equipment are introduced to the workplace that represent a new occupational safety and/or health hazard; and, whenever a new hazard is identified.
- Cooperate with third parties conducting safety and/or health inspections on behalf of the City and ensure that corrective action(s) are taken.
- Immediately notify the department head and Safety Officer of any inspection notification received from a regulatory agency, including, but not limited to Cal/OSHA.
- Conduct timely and appropriate follow-up and correction to any deficiencies noted in inspection records/reports.
- Encourage employees to identify potential hazards and reinforce positive employee behavior by responding to and addressing employee-identified hazards in a timely manner.
- Respond to accidents and “near misses” as soon as they are reported and provide interim protection and safeguards while hazard correction is progressing.
- Review hazard identification documentation to ensure that corrective action is taken and completed.
- Prepare and submit hazard identification documentation to the department head and Safety Officer for review.
- Investigate all injuries and accidents (including property-related incidents) in a timely manner to determine causes(s) and take corrective/preventative action(s); document all investigations on the appropriate forms and submit the report(s) to department heads, the Safety Officer and/or Human Resources as appropriate.

Employees shall:

Compliance

- Demonstrate support for the Safety Program by taking personal responsibility for safety and applying a common-sense approach to safe work practices and conditions.
- Know and obey all City safety and health and wellness programs, policies, procedures, regulations and work practices.
- Know and follow emergency procedures.
- Perform work only when instructed and authorized to do the job safely.
- Use mechanical safeguards and personal protective equipment, methods and processes as directed and/or required for assigned task(s) and job exposure(s) and not interfere with other's use of safeguards and safe work practices.
- Maintain personal protective equipment in good condition and not remove, displace damage, destroy, or tamper with safety devices, safeguards, notices, or warnings.
- Institute acquired training into daily work practices.
- Participate and cooperate in Occupational Health & Safety Committee activities as required.
- Report all injuries immediately, regardless of severity, to ensure prompt medical treatment and notification to the workers' compensation administrator and compliance with Cal/OSHA regulations (Title 8 CCR 342(a)).
- Immediately report all accidents involving property damage to immediate supervisor.
- Comply with the City's Violence in the Workplace Policy (Administrative Regulation 1.06).

Appendix “A”

Safety Program Roles and Responsibilities

- Report all incidents of threats or acts of physical violence in accordance with the City’s Violence in the Workplace Policy (Administrative Regulation 1.06).
- Ensure that participation in training, investigation and inspection activities is properly documented for required record keeping purposes.
- Support all City-wide safety incentive programs by participation and recognition of co-workers for safety work practices.

Communication / Training

- Take personal responsibility for staying informed as to workplace safety and health and wellness programs, policies, procedures, regulations and work practices affecting work environments and practices.
- Report hazards, near misses and accidents as soon as possible to immediate supervisor or Safety Officer.
- Attend all safety and health and wellness training as scheduled and required, including, but not limited to:
 - ✓ New employee orientation;
 - ✓ When there is a job change with new hazards;
 - ✓ When new substances or procedures are introduced or recognized;
 - ✓ For specific job hazards;
 - ✓ Use of equipment.
- Use chemicals only after training on Material Safety Data Sheets (MSDS).

Inspection / Investigation / Hazard Identification and Correction

- Participate and cooperate in workplace safety inspections.
- Inspect personal protective equipment and operating equipment daily or before each use.
- Immediately notify supervisor of any inspection notification received from a regulatory agency, including, but not limited to Cal/OSHA.
- Look for unsafe acts, procedures, conditions, work practices and hazards and report such findings when identified.
- Report all incidents, including property damage incidents, to ensure appropriate and immediate action is taken to correct the hazard and to prevent a recurrence and possible injury.
- Participate in injury, incident and accident investigations to assist supervisors in determining cause(s) and taking corrective/preventative action(s).

CITY OF ROSEVILLE, CALIFORNIA

ADMINISTRATIVE REGULATION

APPROVED:

Number:

A.R. 2.04

Date Effective:

August 03, 1987

ALLEN E. JOHNSON, CITY MANAGER

Date Revised:

October 21, 1998

SUBJECT: LOSS CONTROL/SAFETY COMMITTEE BY-LAWS

I. NAME AND PURPOSE

A. Name

The Loss Control/Safety Committee is hereby named in these By-Laws.

B. Purpose

The purpose of the Loss Control/Safety Committee is consistent with the policy provided in the City Municipal Code Section 3.13.040, which provides for the continuous development, implementation and maintenance of a safety program that will enhance a safe and healthy work environment for all employees. Likewise, the Loss Control/Safety Committee is concerned with incorporation of safety practices into the provision of city services to the general public.

Duties of the Loss Control/Safety Committee include participating in conducting safety inspections; reviewing work injury accidents as assigned by the Risk Manager; investigating, developing and participating in the implementation of safety training programs; reviewing, evaluating and making recommendations as appropriate on reports submitted by the Risk Management Division; reviewing safety suggestions; and making recommendations to the Risk Management Division on the Committee's findings concerning safety hazards, practices or other safety related matters.

C. Scope of Authority

The Loss Control/Safety Committee is an advisory committee which advises the Risk Management Division on safety related issues. The Risk Management staff shall communicate the Committee actions and recommendations to the appropriate department heads and/or the City Manager.

Upon consensus agreement of the Committee, the Administrative Services Director may be consulted directly regarding activities of the Committee.

All employees, supervisors and managers are expected to work cooperatively with members of the Loss Control/Safety Committee.

II. MEMBERSHIP

A. Number

Thirteen (13) members representing designated departments.

The Risk Management Division will serve as staff to the Committee.

B. Departmental Representatives

A representative will be assigned from each of the following departments/divisions:

Wastewater Division; Streets Division; Equipment Maintenance Division;
Treatment Plant(s) (WTP or WWTP); Public Works; Water Division; Police
Department; Library Department; Fire Department; Electric Department; Building
Maintenance Division; Solid Waste Division; Parks & Recreation / Parks
Maintenance.

The Risk Management staff will serve as the Civic Center representative.

At all times the Committee shall include a minimum of four (4) representatives from the management classification.

C. Voting

Voting Committee members shall be the thirteen (13) department/division representatives. The Risk Management division shall vote only in the case of a tie by the department/division representatives unless otherwise permitted to vote by policy or regulation.

D. Qualifications for Membership

Only permanent City employees who have been employed at least six (6) months may serve on the Committee.

E. Length of Term

Each department/division representative shall service a one (1) year term on the Committee. Each department/division represented will be assigned a month for replacement of their designated representative as follows:

January	Wastewater Division
February	Streets Division
March	Equipment Maintenance Division
April	Treatment Plant(s)
May	Public Works (Engineering or Building Inspection)
June	Water Division
July	Police/Library
August	No rotation
September	Fire Department / Electric Department
October	Building Maintenance Division
November	Solid Waste Division
December	Parks & Recreation / Parks Maintenance

Each department/division representative will be responsible for the transition and orientation of the employee who will be replacing them on the Committee (i.e. escorting them to their first meeting; issuing copies of the By-Laws and past meeting minutes; answering questions, etc.) New members are to be brought to the meeting the month before the current representative's term ends. The new member's term starts the month of their department's rotation (see above). Assistance can be obtained from the Risk Management staff.

Refer to the attached Rotation Schedule diagram.

F. Filling Vacant Terms (Method of Appointment)

Two (2) months prior to the expiration of a member's term, Risk Management will notify the department/division that a new representative is needed. It will be the responsibility of the Department Head in concurrence with the Risk Manager to appoint a representative.

Department/division representation shall rotate; no member shall serve a consecutive term of membership unless approved in advance by the Risk Manager.

Should a member leave the Committee anytime other than the regularly scheduled rotation time a replacement shall be named by the department/division represented and they shall serve the remainder of the original representatives' term.

G. Regular Meetings

Meetings shall be held monthly on the fourth Wednesday of each month at 9:00 a.m.

Any change to the above shall be given to members at least one (1) week in advance (if possible).

Meeting agendas shall be distributed to members at least one (1) week in advance of each meeting along with the minutes from the previous meetings.

H. Quorum

A quorum shall be established as 50% of the voting membership. A quorum must exist for the Committee to take official action.

III. OFFICERS AND DUTIES

A. List of Officers and Assigned Duties

Chairperson: Conducts meetings; signs off on Committee correspondence; represents Committee on official business.

Vice-Chairperson: Acts as Chairperson in their absence. Assists Chairperson in fulfilling his/her duties.

Recording Secretary: A staff member of the Risk Management Division shall serve as the recording secretary of the Committee. Duties include taking meeting minutes; distribution of minutes, agendas and other Committee correspondence; scheduling of meetings (time and location); record keeping of all Committee documents.

Staff to Committee: The Risk Manager (or designee) shall serve as the staff representative to the Committee.

B. Elective Officers

The offices of Chairperson and Vice-Chairperson shall be filled by election.

C. Appointive Officers

The Recording Secretary and Staff to Committee shall be considered appointed officers. Such positions shall be appointed at the discretion of the Administrative Services Director.

D. Qualifications

To qualify for an elected office, a representative must have served on the current Committee at least three (3) months.

E. Term of Office

Elected officers shall serve a minimum of six (6) months and a maximum of eighteen (18) months from the date of election and shall rotate from the Committee according to their assigned monthly schedule (see II.D.)

F. Method of Electing New Officers

A minimum of two (2) nominations must be received for each office. Nominations will be open to all representatives on the Committee who have served a minimum of three (3) months.

An official ballot vote will be taken from nominations given.

Elections shall be held at the last meeting of the representative currently in office.

Should the Chairperson leave the Committee anytime other than their regularly scheduled rotation time, the Vice-Chairperson shall be appointed as the new Chairperson. He/she shall hold the office until their regular rotation time comes up. A new Vice-Chairperson will then be elected by the Committee and shall serve as stated in Section III.E.

IV. SUB-COMMITTEE

Sub-Committees shall be assigned as the need arises and shall serve as advisory committees to the Safety Committee.

V. ATTENDANCE OF MEMBERSHIP

Attendance at monthly meetings is mandatory. The representative's immediate supervisor or a predesignated alternate shall serve as his/her alternate and shall attend all meetings that the regular representative cannot attend. Should a representative miss three (3) meetings, a new representative shall be appointed.

Alternates shall not be voting members. Should a regular member be unable to attend a meeting that an issue is to be voted on a proxy vote (in writing) can be submitted.

VI. AMENDMENT TO BY-LAWS

Any member of the Committee can nominate that a change be made to the By-Laws; a second will be needed to put the issue to vote.

A change in the By-Laws shall take a 2/3 vote of the total voting membership.

VII. CONDUCT OF MEETINGS

- A. Roll Call
- B. Approval of Minutes of the Previous Meeting
- C. Loss Control / Safety Staff Monthly Report
- D. Training Report
- E. Reports of Sub-Committees
- F. Unfinished Business
- G. New Business
- H. Adjournment

CITY OF ROSEVILLE, CALIFORNIA

ADMINISTRATIVE REGULATION

APPROVED:

Number:

A.R. 1.06

Date Effective:

April 29, 1996

ALLEN E. JOHNSON, CITY MANAGER

Date Revised:

SUBJECT: VIOLENCE IN THE WORKPLACE POLICY

PURPOSE

To provide a policy to ban violence in the workplace.

POLICY

The City of Roseville is concerned about the safety and security of its employees and the citizens of the community. The City of Roseville has adopted this Zero Tolerance Policy for workplace violence because it recognizes that workplace violence is a growing problem nationally that needs to be addressed by all employers. Consistent with this policy, acts or threats of physical violence, including intimidation, harassment, and/or coercion which involve or affect the City of Roseville or which occur on City property will not be tolerated. Violations of this policy will lead to disciplinary action up to and including termination.

Threats or acts of violence include conduct against persons or property that is sufficiently severe, offensive, or intimidating to alter the employment conditions at the City of Roseville, or to create a hostile, abusive, or intimidating work environment for one or more City employees.

General examples of prohibited workplace violence include, but are not limited to, the following:

1. All threats or acts of violence occurring on City property, regardless of the relationship between the City and the parties involved in the incident.
2. All threats or acts of violence not occurring on City property but involving someone who is acting in the capacity of a representative of the City.
3. All threats or acts of violence not occurring on City property involving an employee of the City if the threats or acts of violence affect the legitimate interests of the City.

4. Any threats or acts resulting in the conviction of an employee or agent of the City, or of an individual performing services on the City's behalf on a contract or temporary basis, under any criminal code provision relating to threats or acts of violence that adversely affect the legitimate interests and goals of the City.

Specific examples of conduct that may be considered "threats or acts of violence" prohibited under this policy include, but are not limited to, the following:

1. Hitting or shoving an individual.
2. Threatening to harm an individual or his/her family, friends, associates, or their property.
3. The intentional destruction or threat of destruction of property owned, operated, or controlled by the City.
4. Making harassing or threatening telephone calls, letters or other forms of written or electronic communications.
5. Intimidating or attempting to coerce an employee to do wrongful acts that would affect the business interests of the City.
6. Harassing surveillance, also known as "stalking", the willful, malicious and repeated following of another person and making a credible threat with intent to place the other person in reasonable fear of his or her safety.
7. Making a suggestion or otherwise imitating that an act to injure persons or property is "appropriate", without regard to the location where such suggestion or imitation occurs.
8. Carrying weapons in a personal or city vehicle or on their person while in a duty status or on City property (on or off duty). Weapons are defined as all firearms and weapons which are illegal under California Penal Code, Section 12020, including but not limited to guns, nunchaku, bass knuckles, billy clubs, and switchblade knives.

While Public Safety employees of the City may be required as a condition of their work assignment to possess firearms, weapons or other dangerous devices, or permitted to carry them as authorized by law, it is the City's policy that such employees are to use them only in accordance with departmental operating procedures and all applicable State and Federal Laws.

The City of Roseville's prohibition against threats and acts of violence applies to all persons involved in the City's operation, including but not limited to, City personnel, contract and temporary workers, and consultants. Violations of this policy by any covered individual will be followed by disciplinary action up to and including termination.

EMPLOYEE OBLIGATIONS

Each employee of the City and every person on City property is encouraged to report incidents of threats or acts of physical violence of which he/she is aware.

Even without an actual threat, personnel should also report any behavior they have witnessed which they regard as threatening or violent, when that behavior is job related or might be carried out on a City controlled site, or is connected to City employment. Employees are responsible for making this report regardless of the relationship between the individual who initiated the threat or threatening behavior and the person or persons who were threatened or were the focus of the threatening behavior.

In cases where the reporting individual is not a City employee, the report should be made to the City of Roseville Police Department.

In cases where the reporting individual is a City employee, the report should be made to the reporting individual's immediate supervisor, or to a management level supervisory employee if the immediate supervisor is not available. The supervisor or management employee will immediately report the incident to the Risk Manager, who will interview the reporting employee and complete a Threat Incident Report with copies to the Administrative Services Director and the Roseville Police Department for any further necessary action.

General Safety Rules and Precautions

The following general safety rules shall apply in all City work places. Each department or other work unit shall prepare separate safety rules applicable to the specific nature of work in their area but not in conflict with these rules:

1. No employee shall be assigned to work under unsafe conditions or with unsafe tools or equipment. In the event that such a condition develops, it shall immediately be reported to the supervisor, who shall see that corrective action is taken.
2. Employees should pay strict attention to their work. Practical joking and horseplay will not be tolerated.
3. Warning signs and signals posted to point out dangerous conditions shall be obeyed by employees.
4. Employees shall not take shortcuts in or over dangerous places.
5. Extreme caution shall be exercised by employees operating power equipment such as cranes, lifts and hoists.
6. Compressed air or oxygen must never be directed at an employee or coworker.
7. Employees should not jump from truck beds, platforms, fences or other elevated places unless absolutely necessary to the performance of duty.
8. Because of the hazard inherent in running, employees should refrain from running unless absolutely necessary to the performance of duty.
9. Employees shall use safety equipment appropriate to the job, such as safety glasses, gloves, toe guards, hard hats, hearing protection and respiratory protection, if required or appropriate to the work performed.
10. Employees shall avoid wearing loose clothing and jewelry while working on or near equipment and machines.
11. All accidents, regardless of severity, personal or vehicular, shall be reported immediately to the supervisor.
12. Operators and passengers in City vehicles equipped with seat belts must wear them when the vehicle is in operation.
13. Cell phones and other electronic devices shall not be used while operating a vehicle.
14. The person in charge shall see that warning signs, lights, and other safety devices are provided for any work done in streets or other exposed locations.
15. Safeguards as required by the California Administrative Code, Title 8, General Industry Orders, shall be provided, reviewed and adhered to in all work situations.

Listed below are some common accidents and their causes. Each employee, supervisor, or other involved person should survey the work area and work procedures and enlist assistance from the Safety Officer or the Loss Control/Safety Committee as necessary to eliminate these or other unsafe conditions:

1. **Falls.** Slippery surfaces, uneven walkways, broken or missing railing on steps or landings;
2. **Strains.** Improper lifting techniques;
3. **Falling or Moving Objects.** Improper storage of equipment;
4. **Striking Against Dangerous Objects.** Drawers left open, improper disposal or storage of equipment;
5. **Electrical Shock.** Worn out equipment, plugs, or cords, ungrounded equipment;
6. **Vehicles.** Seat belts not used, excess speed, backing, brakes, signals, use of electronic devices while driving, etc.;
7. **Chemical Injury.** Improper knowledge of safety procedures, personal protective equipment not used.

City of Roseville Safety Incentive Program

I. Purpose

The Safety Incentive Program is designed to foster safety in the workplace by all employees in all work situations. It is imperative that each and every employee strive to keep safety first in their thoughts and actions, at work and at home. The Safety Incentive Program provides recognition to all employees who practice safety effectively by avoiding accidents in the workplace. The program also identifies employees and departments/divisions whom, by their efforts, demonstrate a high level of safety awareness and practice.

II. Safety Week

Each year, the City Council will declare a Safety Week for the City of Roseville.

III. City Safety Awards

A. Categories

1. Safest Equipment Operator - Heavy Equipment
Safest Equipment Operator – Light Equipment
Safest Equipment Operator – Public Safety/Emergency Response
 - a. Awards: \$250 and plaque - first place; \$150 and plaque second place. (1st place may not be awarded to same employees two years in row.) A rotating plaque will be awarded to the department/division, commemorating the first place recipients' achievements. Nominator Award: The nominators of winning 1st and 2nd place Safest Equipment Operators will receive a \$25.00 gift certificate to the Galleria Mall.
 - Eligibility (Safest Equipment Operator-Heavy Equipment): This award is designed to recognize accident-free individuals who operate heavy-duty equipment and specialized vehicles (i.e., dump trucks, backhoes, sweepers, cranes, line trucks, etc.) in potentially hazardous situations. The fiscal year just completed (July 1 - June 30) us the time considered in evaluating nominations. An must have been employed with the City 90% of the year in order to be eligible for nomination.

- Eligibility (Safest Equipment Operator-Light Equipment): This award is designated to recognize accident-free individuals who operate vehicles or equipment (i.e., automobiles, power tools, jack hammers, forklifts, chainsaws, etc.). The fiscal year just completed (July 1- June 30) is the time period considered in evaluating nominations. An employee must have been employed with the City 90% of year in order to be eligible for nomination.
 - Eligibility (Safest Equipment Operator-Public Safety/Emergency Response): This award is designated to recognize accident-free individuals who operate vehicles or equipment (i.e., fire engines, cars, motorcycles, vans, riot vehicles, etc.). The fiscal year just completed (July 1- June 30) is the time period considered in evaluating nominations. An employee must have been employed with the City 90% of the year in order to be eligible for nominations.
- b. All nominations must be submitted directly to the Risk Management Division. Nominations may be made in any of the three methods:
- Managers and supervisors may submit a nomination of an employee.
 - An employee can request their manager or supervisor to submit a nomination of behalf of the employee.
 - An employee may nominate another employee. Upon receipt, Risk Management will consult with the employee's supervisor for concurrence.
2. Best Safety Suggestion
- a. Awards: \$250 and plaque - first place; \$150 and plaque - second place. Employee plaque. There is no rotating departmental plaque in this category. Pizza parties will be held quarterly for submitters of implemented Safety Suggestions.
 - b. Procedure: The Risk Management Division will compile a list of all submitted safety suggestions.
 - c. Eligibility: All Safety suggestions submitted during the recently completed fiscal year will be evaluated. The best safety suggestion must have had a significant potential for reducing or preventing losses. The Safety Committee will review the list of safety suggestions absent the names of individuals associated with each suggestion. The Committee will establish an "A" list and a "B" list. The "A" list will be the listing of suggestions qualifying for the

safety incentive program monetary award. When looking at safety suggestions, the committee will take into consideration the following suggestions:

- How many employees are affected by implementation of this suggestion?
- How much of the community is affected?
- Are there any other low cost alternatives?
- Is this suggestion original, unique or innovative?
- The employee making the suggestion should not be involved in the implementation process of the suggestion.

3. Safest Department / Division – High Risk/Low Risk

- a. Awards: Department/ Division plaque (rotating).
Department/Division plaque (permanent). This award does not have to rotate each year. Awards will be recognized in both groups. Selected department/division will be allowed a budget of up to \$10 per employee (maximum \$400) to purchase an employee such award such as hats, patches, pins or to pay for a luncheon.
- b. Procedure: The Risk Management Division will prepare materials comparing the safety records of the departments and divisions.
- c. Eligibility: For the recently completed fiscal year, the evaluation will include workers' compensation, cost incurred injuries and general liability accidents charged to employee error. The Risk Manager will also report on the safety programs in the departments and divisions. Please refer to the High/Low Risk categories in the preceding pages for department/division classifications into each risk group.

4. Employee Safe Work Performance

- a. Awards – High Risk: Year 3: Employees will receive eight (8) hours of vacation credit. Year 4 and thereafter: Employees will receive four (4) hours of vacation credit for every year thereafter an employee remains accident free.
- b. Awards - Medium Risk: Year 4: Employees will receive eight (8) hours of vacation credit. Year 5 and thereafter: Employees will receive four (4) hours of vacation credit for every year thereafter an employee remains accident free.
- c. Awards - Low Risk: Year 5: Employees will receive (8) hours of vacation credit. Year 6 and thereafter: Employees will receive four (4) hours of vacation credit for every year thereafter an employee is accident-free.

- Procedure: The Risk Management Division will prepare data concerning the safety record of each employee.
- Eligibility: Employees must not have suffered a preventable, cost incurred workers' compensation injury or have been responsible for an accident which resulted in injuries or damages. An employee must have been employed and actively at work for 90% of the fiscal year. Awards in this category are based on an employee's cumulative safety record beginning July 1, 1985, as the base year. Employees who suffer an at fault injury or found to be responsible for an accident, will be returned to the beginning level (Year 1) in the cumulative award structure.
- At-Fault Accidents: The Risk Manager will make the initial determination regarding responsibility of Workers' Compensation injuries. An employee who disagrees with an at-fault finding may appeal the decision by scheduling a meeting with the Risk Manager.
- Vehicular/Equipment Accidents: The Accident Review Committee will make the determination regarding employee responsibility for vehicular/equipment accidents. The findings of this committee may be appealed to the Administrative Services Director.
- Job Share: Employees who job share must have been employed and actively at work for 90% of their regularly scheduled work hours. They will receive one-half of the normal award for vacation hours. In other words, if a regular employee would receive 8 hours, the job share employee will receive 4 hours.

The Safety Committee will review all nominees for the awards. An award may not be represented in a category in which there are insufficient nominations or where the nominations do not meet the eligibility criteria. Decisions for equipment operator may be based on percentage of time operating equipment, number of years without a preventable accident, degree of risk, etc.

5. Risk Manager's Special Award

- a. Given at the discretion of the Risk Manager to individuals, divisions or departments who deserve special recognition based on one time or extended period of safety, attitude or special acts. The number and frequency of the awards will be at the discretion of the Risk Manager.

6. Employee Safety Points

- a. Employees can earn points throughout the fiscal year for accomplishing various safety related goals (see categories and points listed below). At the end of the fiscal year, employees can redeem their safety points for prizes determined by Risk Management and the Safety Committee.

Category	Points
Winner of Safest Equipment Operator	500
2nd Place Winner of Safest Equipment Operator	300
No Preventable Injuries	500
No Preventable Vehicle/Equipment Accidents	500
Member of Safest Department	500
Risk Manager Award	500
Winning Safety Suggestion	500
2nd Place Winning Safety Suggestion	300
Implemented Safety Suggestion	300
Nominated for Safest Equipment Operator	300
Nominated Someone for Safest Equipment Operator	200
Safety Committee Chairperson	300
Safety Committee Vice-Chairperson	250
Safety Committee Member	200
Attended Safety Meeting	10 (520 pts. maximum)
Presented a Topic at a Tailgate Safety Meeting	50 (500 pts. maximum)
Attended a Safety Training Class	25
Presenting a Safety Training Class	100 (500 pts. maximum)

Overall Safest Employee of the Year (employee with highest # of points)	\$500.00

CITY OF ROSEVILLE, CALIFORNIA

ADMINISTRATIVE REGULATION

APPROVED:	Number:	A.R. 2.06
	Date Effective:	August 19, 1988
RAY KERRIDGE, CITY MANAGER	Date Revised:	February 6, 2007 April 15, 2011

SUBJECT: HAZARD COMMUNICATION PROGRAM

PURPOSE

It is the purpose of this Hazard Communication Program to provide information about potential exposure to hazardous substances at the job site. Title 8 of the California Code of Regulations (T8CCR), Section 5194, provides the requirements for developing, implementing, and maintaining compliance which all employers are legally obligated to follow.

POLICY

It is the policy of the City of Roseville to ensure all employees maintain a safe and healthful workplace. To ensure employees are aware of the specific hazardous substances they may be exposed to at their job site, each employee will have access to this Administrative Regulation in an electronic format, via the City's Intranet site, or a printed copy if desired.

PROCEDURE

This regulation applies to all employees of the City of Roseville and any contractors and their employees who may be potentially exposed to hazardous substances.

This regulation applies to all products containing hazardous substances which are known to be present in the workplace in such a manner that employees may be exposed under normal conditions of use, in the performance of their job, or in a reasonably foreseeable emergency.

I. Container Labeling

The policy requires that both original and secondary containers of hazardous substances be inspected for compliance. Original manufacturer containers will be checked upon receipt. It is the responsibility of the receiver to verify the manufacturer's label contains:

- a. The identity of hazardous substance(s) which accurately provides product identity information;
- b. Appropriate hazard warnings, including any Proposition 65 substance, if applicable; and

- c. Name and address of the manufacturer, importer, or other responsible party.

Further, to ensure that employees are aware of the hazards of the materials used in their work areas, it is our policy to label all secondary containers. The department representative will ensure that all secondary containers are properly labeled with:

- a. Identity of hazardous rating (i.e. caution, warning, danger); and
- b. Appropriate hazard warnings which are legible and clearly marked including those designated in California's Proposition 65.

Posters, signs, or other forms of warning may be used in lieu of labels if the department representative believes them to be adequate in informing co-workers.

II. Material Safety Data Sheet

The Purchasing Division or department representative responsible for ordering products will request a Material Safety Data Sheet (MSDS) for hazardous substances from all substance vendors by affixing a statement on all Purchase Orders, Service Agreements, and/or Contracts requiring that the MSDS accompany shipment of the product. Any new MSDS information and all updated sheets should be read by all employees who have cause to use that material. All MSDS information will be maintained by the respective department in which the product is being used. The information will be readily accessible at any time either electronically or by hard copy. Each department will review their MSDS information, at a minimum of, once a year for completeness.

In the event that a MSDS is not received at the time of the first shipment, the receiver will endeavor to secure a MSDS from the manufacturer. The department using the product will take additional precautions if MSDS is not available and inform employees of the product(s) hazardous content and applicable safety precautions.

Medical records pertaining to chemical exposure must be kept for thirty (30) years as required by Cal/OSHA, Section 3204, Access to Exposure and Medical Records. The Human Resources Department will be responsible for the maintenance of these files.

III. Employee Information and Training

Employees who have potential exposure to hazardous materials will attend a Hazardous Communication training to be conducted by their supervisor or department representative. Topics covered in these training sessions will include, but are not limited to:

- o An overview of this Regulation.
- o The rights and responsibilities afforded to the employee under this regulation.

- o Any operations in their workplace where hazardous substances are present.
- o Location and availability of the written Hazard Communication Program.
- o How to read labels and review MSDS's to obtain the appropriate information.
- o Physical and health effects of the hazardous substance found in their respective work location.
- o Methods and observation techniques used to determine the presence or release of hazardous substances in the workplace.
- o How to lessen or prevent exposure to these hazardous substances through the usage of control, work practices, and personal protective equipment.
- o Emergency and first aid procedures to follow if an exposure to hazardous substance occurs.

When new hazards are introduced, the department representative will review the new hazards as they relate to the respective work area and inform affected employees accordingly.

In addition, it is the responsibility of the department representative to ensure that new employees receive adequate training before they are assigned to work with potentially hazardous substances.

IV. List of Hazardous Substances

Each department representative is responsible for the maintenance of a list of hazardous substances used within his/her work area. In addition, a master list of all the hazardous substances used in the City will be accessible to all department representatives responsible for the implementation of this program. The department representative is required to review and update their respective list of hazardous substances with the citywide master list a minimum of once per year.

V. Non-Routine Tasks

Prior to the employee undertaking a non-routine task (such as cleaning a water reservoir tank), the supervisor in charge will be responsible to review the operation to be performed and review the appropriate MSDS of the hazardous substances associated with the task. Furthermore, the supervisor will ensure that appropriate administrative controls, engineering controls, and protective equipment are implemented and made available to the employee.

VI. Identification of Unlabeled Pipes

Pipes that are unlabeled will be identified as to their contents by means of drawings, schematics, labels, or batch tickets attached at the valves of the piping system.

VII. Contractors

The City's policy also covers those outside contractors who may be exposed to hazardous substances at the City's work site. To ensure that these outside contractors work safely at our work sites, it is the responsibility of the contracting department representative to inform them of the workplace hazards, to make MSDS information available for their inspection, and to familiarize them with our Hazard Communication Program.

Conversely, the contractor is required to provide a copy of the MSDS for each hazardous substance to be brought in, a minimum of five (5) working days, before any exposure to City employees. The department representative responsible for ordering and/or receiving shipments will ensure contractor compliance.

VIII. Conditions Requiring **911** Notifications (excerpt taken from the City of Roseville's Fire Prevention Standard G-03)

State law and fire code regulation requires immediate notification in the event of a chemical release. This standard is intended to provide specific guidelines to reporting parties as to conditions that would mandate notification via the **911** emergency dispatch number. Factors to consider in determining whether a release is significant or not include: quantity, toxicity, flammability, reactivity, and the location of the material. If doubt exists whether or not the release is "significant", emergency notification should be made.

The Roseville Fire Department defines the term "significant" in this context as:

1. A release or threatened release of a hazardous material or hazardous waste that may:
 - cause evacuation of any portion of a building, or
 - cause injury or chemical exposure to personnel or civilians that require decontamination, or immediate follow-up by a physician, or
 - cause contamination or threat of contamination on or outside of the property boundaries (i.e. storm drain, ground or air), or
 - not be controlled immediately after detection, or
 - mitigate the release using personal protective clothing/equipment, or
 - overwhelm or is expected to overwhelm the on-site response capabilities.

2. A fire or threat of fire.
3. An explosion or threat of explosion.
4. Activation of any fire sprinklers, smoke or chemical detection sensors.

This list is as comprehensive as is reasonably possible. The Roseville Fire Department will make the final determination as to whether a release is significant.

IX. Hazard Determination Procedure

The City has determined that hazard evaluations conducted by the substance manufacturer or importer represent the most reliable method of chemical hazard determination and, thus, does not intend to evaluate the hazards of purchased products.

This program will be monitored periodically by Human Resources Department staff to ensure that the policies are carried out and that the program is effective.

Safety Inspection - General Office Areas

1. Safety Inspection Checklist - General Office Areas

This checklist applies to all office environments, general work areas and public areas; it applies to:

All Administrative Offices areas located at the Civic Center, Corporation Yard or other locations; Library facilities; Adventure Club sites; Maidu Community Center and Interpretive/Museum facilities; the Roseville Utility Exploration Center; Mahany Facility Meeting Rooms; the Children's Art's Center at Royer Park; the Police Facility; and Information Technology offices.

Please complete this survey as requested. Print a copy of the checklist for use during your inspection tour. Mark potential hazards according to your judgment. Check all items that apply, and make comments where warranted. Be sure to document any corrective action(s) taken or needing to be taken. Identify the department/division and all locations covered by the inspection and the name(s) of personnel involved in conducting the inspection.

NOTE: Hazards which pose a risk of serious or substantial injury to employees must be corrected immediately. Other hazards should be corrected as soon as reasonably possible, but in no case later than fifteen (15) days from the date of discovery.

* **1. Department Name**

 6

* **2. Sub-Department/Division/Facility**

(If this inspection relates to the Civic Center or Corp Yard administrative office area for your department - and no other option here applies - please select that option.)

Safety Inspection - General Office Areas

2. Required Postings - Posted on bulletin boards or other appropriate location...

This section covers all required postings to ensure that employees have access to required safety information.

Please inspect all work areas in your respective department/division/work area and respond to the following questions. Make sure you add comments with an explanation and description of any corrective action(s) taken or needed to be taken and explain any "NO" responses. Mark "N/A" for any questions that do not apply.

1. Are up-to-date Labor and Industry workplace posters displayed in locations all employees can see? (i.e., Safety & Health Protection on the Job, Emergency Telephone Numbers, Workers' Compensation Notice to Employees, etc.)

For a reference list of posting requirements go to www.dir.ca.gov/wpnodp.html.

☐ Yes

☐ No - please explain and address corrective action to be taken

2. Are Material Safety Data Sheets (MSDS) readily available?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

3. Is poster containing information on where to go for medical treatment for a work-related injury on display?

☐ Yes

☐ No - please explain and address corrective action to be taken

Safety Inspection - General Office Areas

4. Is the summary of Work-Related Injuries and Illnesses (OSHA Form 300A) posted during the months of February, March an April?

☐ **Yes**

☐ **No - please explain and address corrective action to be taken**

--

Safety Inspection - General Office Areas

3. Fire Prevention, Emergency Exits, Emergency Response

This section covers fire hazards and emergency exit/response issues.

Please inspect all work areas in your respective department/division/work area and respond to the following questions. Make sure you add comments with an explanation and description of any corrective action(s) taken or needed to be taken and explain any "NO" responses. Mark "N/A" for any questions that do not apply.

1. Are emergency evacuation maps/plans in place and posted in readily accessible locations?

☐ Yes

☐ No - please explain and address corrective action to be taken

2. Are all portable fire extinguishers accessible, properly mounted and secured by brackets, tagged, sealed and fully charged? Have they been serviced in the last twelve (12) months?

☐ Yes

☐ No - please explain and address corrective action to be taken

Safety Inspection - General Office Areas

3. If your facility/inspection area is equipped with an Automated External Defibrillator (AED), are the battery and electrodes within their expiration dates? Expiration dates can be found on the battery and written at the top of the label located on the electrode package. Batteries and electrodes can be ordered through Purchasing.

Does the handle read "OK"? NOTE: If the handle does not read "OK", contact Human Resources immediately.

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

4. If your facility does not have an AED, do employees know where the nearest AED is located?

☐ Yes

☐ No - please explain and address corrective action to be taken

5. Are first aid supplies sanitary, orderly, and properly stocked?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

6. Are fire doors unlocked and closed at all times? (Fire doors are identified by a tag on the hinge side of the door.)

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

Safety Inspection - General Office Areas

7. Are all exit doors free of inappropriate locking devices?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

8. Are emergency exit doors free of all objects/storage items?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

9. Are exits properly marked and exit signs illuminated?

☐ Yes

☐ No - please explain and address corrective action to be taken

10. Have smoke detectors been inspected and tested? Have batteries been replaced within the last twelve (12) months?

☐ Yes

☐ No - please explain and address corrective action to be taken

Safety Inspection - General Office Areas

11. Are hazardous material containers properly marked to identify the hazard?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

12. Are work areas free of space heaters unless approved and provided for by Building Maintenance?

The use of portable space heaters is prohibited in conditioned space and non-conditioned space except where it is determined by Building Maintenance that the building HVAC system, or other City installed systems, cannot maintain approved temperature set point range. Building Maintenance will provide the space heater if it is determined that one is needed.

Before use, any portable electric space heater shall be inspected for the following:

Required Specifications:

1. Contains a non-glowing heat element;
2. Utilizes a cool-to-the-touch housing;
3. Contains a tip-over automatic shut-off;
4. Does not exceed 500 watts, or 5 amps;
5. Is UL approved.

Operational Requirements:

1. Must be connected to a power supply with adequate power cords;
2. Must be connected with a timer device that is set for normal business hours;
3. Must be used in the immediate proximity of the person responsible for such device;
4. Must be turned off or unplugged when not attended by the person responsible.

☐ Yes

☐ No - please explain and address corrective action to be taken

Safety Inspection - General Office Areas

4. Bookcases, Shelves, Cabinets, Storage, and Hanging Objects

This section covers storage and shelving safety hazards.

Please inspect all work areas in your respective department/division/work area and respond to the following questions. Make sure you add comments with an explanation and description of any corrective action(s) taken or needed to be taken and explain any "NO" responses. Mark "N/A" for any questions that do not apply.

1. Are all maps, screens, monitors, and other suspended objects securely attached?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

2. Are wall shelves stocked appropriately (storage material should not be protruding beyond edges or stacked on top of cabinets)?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

3. Are heavy bookcases, storage and file cabinets secured from tipping? (Cabinets and/or shelves 6' tall or higher must be secured to the wall.)

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

Safety Inspection - General Office Areas

4. Are file and desk drawers kept closed when not in use?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

5. Are all sprinkler heads clear of any storage material (should have 18" of clearance; 24" clearance from ceiling when no sprinklers)? Are they free from debris (dust/dirt)?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

Safety Inspection - General Office Areas

5. Electrical Hazards

This section covers hazards posed by electrical cords, fixtures, etc.

Please inspect all work areas in your respective department/division/work area and respond to the following questions. Make sure you add comments with an explanation and description of any corrective action(s) taken or needed to be taken and explain any "NO" responses. Mark "N/A" for any questions that do not apply.

1. Are cords and plugs in good condition; no exposed or taped wires?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

2. Are surge protectors in place for all computer equipment?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

3. Are extension cords being used, and if so, are they in good condition and approved for what they are being used for? (Multiple extension cords cannot be connected in a series.)

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

Safety Inspection - General Office Areas

4. Are all outlets and switches covered by wall-plates?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

5. Do electrical panels have 36" of unobstructed access?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

Safety Inspection - General Office Areas

6. Interior Walking Surfaces, Stairways, Ramps, and Corridors

This section covers hazards in pedestrian traffic areas.

Please inspect all work areas in your respective department/division/work area and respond to the following questions. Make sure you add comments with an explanation and description of any corrective action(s) taken or needed to be taken and explain any "NO" responses. Mark "N/A" for any questions that do not apply.

1. Are all building entrances, aisles and work areas free of trip and fall hazards (cords, wires, paper, equipment, boxes)?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

2. Are entrance mats in use during wet weather?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

3. Are all walking surfaces free of wet or oily (slippery) conditions?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

Safety Inspection - General Office Areas

4. Are all carpets and rugs secured and in good condition?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

5. Is flooring even (no holes/cracks) and is flooring kept dry?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

6. Are stairways, ramps and corridors illuminated?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

7. Are all stairways in good repair and are corridors and landings kept clear and free of storage?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

Safety Inspection - General Office Areas

8. Are stair treads in good condition?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

9. Where stairs or stairways exit directly into any area where vehicles may be operated, are adequate barriers and warnings provided to prevent employees from stepping into the path of traffic?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

10. Do ramps have non-slip surfaces?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

11. Are handrails and guardrails present where required and in good condition?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

Safety Inspection - General Office Areas

12. Are grates or similar type covers over floor openings such as floor drains, of such design that foot traffic or rolling equipment will not be affected by the grate spacing?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

Safety Inspection - General Office Areas

7. General Safety and Housekeeping

This section covers general housekeeping issues.

Please inspect all work areas in your respective department/division/work area and respond to the following questions. Make sure you add comments with an explanation and description of any corrective action(s) taken or needed to be taken and explain any "NO" responses. Mark "N/A" for any questions that do not apply.

1. Are all areas clean, free of clutter, and do they provide ample work space?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

2. Are all items of furniture, tables, desks and chairs in good condition (no splintering, sharp edges, loose joints, etc.)?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

3. Are step stools available where needed and in good condition (there should be no standing on chairs, tables, boxes, etc.)?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

Safety Inspection - General Office Areas

4. Are carts used to transport items in good condition and being utilized appropriately?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

5. Are good housekeeping practices in place?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

6. Are restrooms cleaned regularly and adequately supplied?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

7. If you have kitchen appliances in your facility, are they clean and in good working condition (refrigerators, ovens/stoves, microwaves)? Have these appliances been approved for use?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

Safety Inspection - General Office Areas

8. Please list additional safety items identified during your inspection.

Safety Inspection - Garages, Workshops and Other Facilities

1. Safety Inspection Checklist - Garages, Workshops and Other Facilities

This checklist applies to all work environments within the City that have operations that extend beyond a general office-type environment. This form applies to:

Electric facilities including substations and the Energy Park; Environmental Utility facilities including solid waste operations, treatment plants, lab and shop facilities; Central Services operations including vehicle and building maintenance and warehouse facilities; Parks & Recreation operations including park sites and park maintenance facilities, aquatic and recreation facilities and golf courses; Fire stations and Training Center; and Public Works Shop areas.

Please complete this survey as requested. Print a copy of the checklist for use during your inspection tour. Mark potential hazards according to your judgment. Check all items that apply, and make comments where warranted. Be sure to document any corrective action(s) taken or needing to be taken. Identify the department/division and all locations covered by the inspection and the names(s) of personnel involved in conducting the inspection.

NOTE: Hazards which pose a risk of serious or substantial injury to employees must be corrected immediately. Other hazards should be corrected as soon as reasonably possible, but in no case later than fifteen (15) days from the date of discovery.

* **1. Name of Department.**

 6

* **2. Specific Department/Division/Facility location.**

If the inspection site needs further narrative description, use Question #5 to elaborate.

 6

3. If this inspection covers an Electric Substation, please answer identifying the specific substation facility.

 6

4. If this inspection covers a Park Site, please answer identifying the Park name.

 6

5. Narrative description of inspection site/facility (if description is necessary beyond what has been identified above).

5

6

Safety Inspection - Garages, Workshops and Other Facilities

* 6. Name(s) of person(s) conducting inspection.

	5
	6

* 7. Date of Inspection.

Safety Inspection - Garages, Workshops and Other Facilities

2. Required Postings - Posted on bulletin boards or other appropriate location...

This section covers all required postings to ensure that employees have access to required safety information.

Please inspect all work areas in your respective department/division/work area and respond to the following questions. Make sure you add comments with an explanation and description of any corrective action(s) taken or needed to be taken and explain any "NO" responses. Mark "N/A" for any questions that do not apply.

1. Are up-to-date Labor and Industry workplace posters displayed in locations all employees can see? (i.e., Safety & Health Protection on the Job, Emergency Telephone Numbers, Workers' Compensation Notice to Employees, etc.)

For a reference list of posting requirements go to www.dir.ca.gov/wpnodp.html.

☐ Yes

☐ No - please explain and address corrective action to be taken

2. Are Material Safety Data Sheets (MSDS) readily available?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

3. Are Cal/OSHA Powered Industrial Truck Guideline posters displayed in areas adjacent to the vehicles' use area and adjacent to the vehicles' storage area as required by General Safety Order 3664?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

Safety Inspection - Garages, Workshops and Other Facilities

4. Are National Fire Protection Association (NFPA) Hazardous Materials Diamond signs posted on the exterior of the building(s) where hazardous materials are used or stored; do the signs display the appropriate hazard ratings?

☐ **Yes**

☐ **N/A**

☐ **No - please explain and address corrective action to be taken**

Safety Inspection - Garages, Workshops and Other Facilities

3. General Safety and Housekeeping

This section covers general housekeeping issues.

Please inspect all work areas in your respective department/division/work area and respond to the following questions. Make sure you add comments with an explanation and description of any corrective action(s) taken or needed to be taken and explain any "NO" responses. Mark "N/A" for any questions that do not apply.

1. Are all areas clean, free of clutter, and do they provide ample work space?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

2. Are heavy bookcases, storage and file cabinets secured from tipping? (Cabinets and/or shelving 6' tall or higher, must be secured to wall.)

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

3. Stored materials are orderly, do not overload the shelves, and do not extend beyond the shelving?

☐ N/A

☐ Yes

☐ No - please explain and address corrective action to be taken

Safety Inspection - Garages, Workshops and Other Facilities

4. Are all stairways in good repair and are corridors and landings kept clear and free of storage?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

5. Walking surfaces are in good repair and free from trip/fall hazards?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

6. Are all walking surfaces free of wet or oily (slippery) conditions?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

7. Are all sprinkler heads clear of any storage material (should have 18" of clearance; 24" clearance from ceiling when no sprinklers)? Are they free of debris (dust/dirt)?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

Safety Inspection - Garages, Workshops and Other Facilities

8. Are workshops free of apparent hazards and safety concerns?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

Safety Inspection - Garages, Workshops and Other Facilities

4. Emergency Response, Chemicals and Life Safety

This section covers fire hazards and emergency exit/response issues.

Please inspect all work areas in your respective department/division/work area and respond to the following questions. Make sure you add comments with an explanation and description of any corrective action(s) taken or needed to be taken and explain any "NO" responses. Mark "N/A" for any questions that do not apply.

1. Emergency evacuation procedures and routes are posted in readily accessible locations?

☐ Yes

☐ No - please explain and address corrective action to be taken

2. If your facility/inspection area is equipped with an Automated External Defibrillator (AED), are the battery and electrodes within their expiration dates? Expiration dates can be found on the battery and written at the top of the label located on the electrode package. Batteries and electrodes can be ordered through Purchasing.

Does the AED handle read "OK"? NOTE: If the handle does not read "OK", contact Human Resources immediately.

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

3. If your facility does not have an AED, do employees know where the nearest AED is located?

☐ Yes

☐ No - please explain and address corrective action to be taken

Safety Inspection - Garages, Workshops and Other Facilities

4. Exit doors are free of inappropriate locking devices?

☐ Yes

☐ No - please explain and address corrective action to be taken

5. Exits and walkways are unobstructed?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

6. Exits are clearly posted or otherwise identified?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

7. Spill containment is provided for stored hazardous and industrial materials?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

Safety Inspection - Garages, Workshops and Other Facilities

8. Spill response kits are available in hazardous and industrial material storage areas?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

9. Waste containers are closed and properly labeled regarding waste and accumulation dates?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

10. Work areas where chemicals are present are free of open beverages and food?

☐ Yes

☐ No - please explain and address corrective action to be taken

11. No noticeable leaks or spills are present?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

Safety Inspection - Garages, Workshops and Other Facilities

12. Eyewash/shower stations are accessible, operational and properly maintained?

☐ Yes

☐ No - please explain and address corrective action to be taken

13. Fire extinguishers are mounted, accessible, fully-charged and serviced within the last twelve (12) months?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

14. First aid kits are adequately stocked and contain only first aid supplies?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

15. Primary and secondary chemical containers are labeled to identify the contents and specific hazard?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

Safety Inspection - Garages, Workshops and Other Facilities

16. Flammable and combustible materials are stored in NFPA-approved containers/cabinets?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

Safety Inspection - Garages, Workshops and Other Facilities

5. Personal Protective Equipment (PPE)

This section covers operations that require employees to utilize personal protective equipment.

Please inspect all work areas in your respective department/division/work area and respond to the following questions. Make sure you add comments with an explanation and description of any corrective action(s) taken or needed to be taken and explain any "NO" responses. Mark "N/A" for any questions that do not apply.

* 1. Are employees covered by this inspection required to use PPE of any type? If the answer is "NO", scroll down and hit "NEXT" to go to the next section.

☐ Yes

☐ No

2. Employees are wearing appropriate PPE for tasks being completed (gloves, clothing, eye protection, etc.)?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

3. Eye protection is available (glasses, goggles, face shields) and worn when needed?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

4. Approved safety glasses are worn at all times in areas where there is a risk of eye injury?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

Safety Inspection - Garages, Workshops and Other Facilities

5. Hearing protection is provided (ear plugs, ear muffs) and worn appropriately when needed?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

6. Signs warning employees to wear PPE are posted?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

7. PPE is maintained in clean, usable condition and stored in a clean location for required individual(s)?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

Safety Inspection - Garages, Workshops and Other Facilities

6. Electrical Hazards

This section covers hazards posed by electrical cords, fixtures, etc.

Please inspect all work areas in your respective department/division/work area and respond to the following questions. Make sure you add comments with an explanation and description of any corrective action(s) taken or needed to be taken and explain any "NO" responses. Mark "N/A" for any questions that do not apply.

1. A 36" clearance is maintained in front of all electrical panels?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

2. Electrical cords and plugs are in good condition not frayed or taped?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

3. Surge protectors are in place for all computer equipment?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

Safety Inspection - Garages, Workshops and Other Facilities

4. Extension cords being used are in good condition and approved for what they are being used for? (Multiple extension cords cannot be connected in a series.)

☐ No - they are not used

☐ Yes - they are used and they are in good condition

Comments/Corrective Action

5. Wall plates are in place over outlets and switches?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

6. Electrical wiring, fixtures and equipment used outdoors is approved for exterior, wet environments and is protected by ground fault circuit interrupters (GFCI)?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action taken

Safety Inspection - Garages, Workshops and Other Facilities

7. Tools and Equipment

This section covers the use of common, miscellaneous tools and equipment.

Please inspect all work areas in your respective department/division/work area and respond to the following questions. Make sure you add comments with an explanation and description of any corrective action(s) taken or needed to be taken and explain any "NO" responses. Mark "N/A" for any questions that do not apply.

1. Tools and equipment are in good condition, kept clean and properly maintained?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

2. Are signs posted to keep unauthorized personnel out of machine/garage areas?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

3. Only Type I and Type II rated ladders are utilized and are labels are in place?

Type I - Heavy Duty Rating; 250lb load capacity

Type II - Medium Duty Rating; 225lb load capacity

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

Safety Inspection - Garages, Workshops and Other Facilities

4. Appropriate safety guards are in place, secure and arranged to prevent contact and hazards?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

5. Grinding wheel guards are in place and adjusted properly (tool/work rest 1/8 inch, tongue guard 1/4 inch)?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

6. Operating permits for all air compressors are current and posted?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

7. Is equipment and machinery securely placed and anchored when necessary to prevent tipping or other movement that could result in injury?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

Safety Inspection - Garages, Workshops and Other Facilities

8. Welding Operations

This section covers all welding operations and is specific to those departments/facilities that perform those operations.

Please inspect all work areas in your respective department/division/work area and respond to the following questions. Make sure you add comments with an explanation and description of any corrective action(s) taken or needed to be taken and explain any "NO" responses. Mark "N/A" for any questions that do not apply.

* **1. Do the operations/facilities covered by this inspection perform welding operations of any type? If the answer is "NO", scroll down and hit "NEXT" to go to the next section.**

☐ Yes

☐ No

2. Compressed gas cylinders are secured in an upright position with chains or straps?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

3. Welding ventilation systems are operational, clean and are filters regularly changed?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

4. Welding curtains are available and used when appropriate?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

Safety Inspection - Garages, Workshops and Other Facilities

5. Are signs reading: DANGER NO-SMOKING, MATCHES OR OPEN FLAMES, or the equivalent posted?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

Safety Inspection - Garages, Workshops and Other Facilities

9. Park Sites

This section is specific to park sites and would not apply to any other type of facility.

Please inspect all work areas in your respective department/division/work area and respond to the following questions. Make sure you add comments with an explanation and description of any corrective action(s) taken or needed to be taken and explain any "NO" responses. Mark "N/A" for any questions that do not apply.

- ★ **1. Does this inspection involve a park location? If the answer is "NO", scroll down and hit "NEXT" to go to the next section.**

☐ Yes

☐ No

- 2. Are City-owned fences intact and in good condition (no sharp points or protruding wires)?**

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

- 3. Are all picnic tables and benches sturdy and in good condition (no protruding nails, screws or splinters)?**

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

- 4. Is all play apparatus sturdy, in good condition and in compliance with all Federal, State, and local playground safety laws and regulations?**

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

Safety Inspection - Garages, Workshops and Other Facilities

5. Are all bleachers sturdy and in good condition (no protruding screws, metal points or splinters)?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

6. Are all play surfaces where children might land/fall unobstructed by rocks or other items that could cause injury?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

7. Are all shade structures sturdy and in good condition?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

8. Are all trees properly pruned and free of hazards?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

Safety Inspection - Garages, Workshops and Other Facilities

9. Are all BBQ's firmly attached and in good condition?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

10. Are all other structures sturdy and in good condition (flag poles, memorial walls, soccer goals, backstops, etc.)?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

11. Are all electrical outlets covered by plates?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

12. Do light fixtures have clean lenses and are they operating properly?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

Safety Inspection - Garages, Workshops and Other Facilities

13. Do electrical panels have 36" of unobstructed access?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

14. Are restrooms cleaned regularly and adequately supplied?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

15. Are walkways free of trip hazards and/or hazardous debris?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

Safety Inspection - Garages, Workshops and Other Facilities

10. Aquatic Facilities

This section covers aquatic facilities and is specific to those operations.

Please inspect all work areas in your respective department/division/work area and respond to the following questions. Make sure you add comments with an explanation and description of any corrective action(s) taken or needed to be taken and explain any "NO" responses. Mark "N/A" for any questions that do not apply.

- ★ **1. Do the operations/facilities covered by this inspection include aquatic operations? If the answer is "NO", scroll down and hit "NEXT" to go to the next section.**

☐ Yes

☐ No

- 2. Is the pool chemistry currently balanced?**

☐ Yes

☐ No - please explain and address corrective action to be taken

- 3. Is the chemical log up to date? Chemical tests must be conducted every two hours.**

☐ Yes

☐ No - please explain and address corrective action to be taken

- 4. Are the shade structures in good condition (no sharp edges, protruding wires, loose tie downs, etc.)?**

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

Safety Inspection - Garages, Workshops and Other Facilities

5. Is the water slide in good working condition (as recorded in the daily slide inspection binder)?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

6. Are the diving boards in good condition (no sharp edges, no slick surfaces on the board, no loose bolts, etc.)?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

7. Are the in-pool lights working and in good repair?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

Safety Inspection - Garages, Workshops and Other Facilities

11. Fire Station Facilities

This section covers fire station facilities and is specific to those operations.

Please inspect all work areas in your respective department/division/work area and respond to the following questions. Make sure you add comments with an explanation and description of any corrective action(s) taken or needed to be taken and explain any "NO" responses. Mark "N/A" for any questions that do not apply.

- ★ **1. Does this inspection pertain to one of the City's fire stations or the fire training center? If the answer is "NO", scroll down and hit "NEXT" to go to the next section.**

☐ Yes

☐ No

- 2. Are electrical service conductors located underground or elevated at no less than ten (10') feet above grade, sidewalks, or platforms; fifteen (15') feet above driveways; three (3') feet from windows, doors, porches; and is there adequate clearance from roof?**

☐ Yes

☐ N/A

☐ No - please explain and address corective action to be taken

- 3. Are warning signs posted to prevent unqualified personnel from coming in contact with the service conductors?**

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

- 4. Is the main disconnect grounded and equipped with over current protection?**

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

Safety Inspection - Garages, Workshops and Other Facilities

5. Are circuit breakers clearly identified as open or closed and are extra fuses available where fuses are used?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

6. Is there adequate illumination in and around the apparatus floor?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

7. Are light fixtures within the apparatus room installed and maintained in accordance with instructions?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

8. Are light fixtures and electrical equipment protected from physical damage?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

Safety Inspection - Garages, Workshops and Other Facilities

9. Is communication equipment and antennas in good, working condition?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

10. Are sleeping quarters separated from vehicle storage areas by one hour fire resistive construction and assemblies?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

11. Are kitchen sinks prohibited from use to decontaminate personnel or equipment?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

12. Are counter tops, chopping blocks, and other food handling surfaces clean, smooth, and free of breaks, open seams, cracks, chips, pits, and other imperfections?

☐ Yes

☐ N/A

☐ No - please review and address corrective action to be taken

Safety Inspection - Garages, Workshops and Other Facilities

13. Are perishable foods such as milk, milk products, eggs, meat, poultry, fish, etc., maintained at a temperature of 10 degrees or less?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

14. Are toilet facilities adequate for the number of personnel within the facility?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

15. Are lavatories adequately supplied with soap/cleansing agents, hand towels or warm air blowers?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

16. Are lavatory sinks and showers equipped with hot and cold running water and are these facilities in good working condition?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

Safety Inspection - Garages, Workshops and Other Facilities

17. Do floors in and around shower areas have adequate drainage?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

18. Is the exhaust on the clothes dryer(s) properly vented to the outside of the facility?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

19. Are fire department facilities provided with two separate exits remote from each other and arranged to minimize the possibility of both being blocked by any one single emergency or fire?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

20. Are pole openings suitably protected with guard rails and automatic closing devices?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

Safety Inspection - Garages, Workshops and Other Facilities

21. Are pole hole enclosures adequately illuminated with continuously lit fixtures or automatically operated upon opening the access door?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

22. Is the base of pole equipped with appropriate landing pads designed to absorb the shock received from the landing on the floor?

☐ Yes

☐ N/A

☐ No - please explain and address corrective action to be taken

Safety Inspection - Garages, Workshops and Other Facilities

12. Other Safety Issues Not Addressed in Prior Sections of this Survey

This section is for use to identify any other safety issues or concerns not addressed elsewhere in this safety assessment.

1. Please list additional safety concerns, questions, or suggestions you might have for consideration.

Commitment to Safety

Providing the highest level of safety for all MV Transportation employees, passengers, and the communities we serve is our core operating value. Safety is at the forefront of delivering the *Best Customer Experience* and is the first of our key components of successful performance.

Doing work safely must be the foundation of all operational activities. Safety standards will never be compromised, subordinated or diminished by any other goal. Safety is the process that drives all functions and activities and is at the center of everything we do at MV Transportation.

MV Transportation is committed to being the safest organization possible and is committed to an incident and injury free workplace and security excellence. We will review and continually improve our practices to continuously drive improvements in safety, health, environmental, and security performance.

Accountability is fundamental to our mission. Every individual at MV is responsible for working and acting safely and embracing safety as a lifestyle. Compliance with this Commitment, applicable laws, and other requirements is the responsibility of every employee and contractor acting on our behalf.

Safety leadership is a core responsibility of management and is the company's most important management value. Managers at all levels will set the standard in our industry, from the Chief Executive Officer to the first-level supervisor.

Every employee is responsible to:

- Promote and maintain a safe work environment for all personnel and our passengers.
- Act consistently to influence safe behaviors and eliminate unsafe behaviors, actions and decisions.
- Go above and beyond the minimum safety standards of his / her job.
- Directly participate in all aspects of our safety program.
- Abide by all applicable safety rules and regulations.
- Work with management to decrease our exposure to risk.
- Immediately report all incidents/accidents and hazards.
- Complete all assigned safety training programs to continuously enhance safety skillset.
- Intervene in an activity if it is observed that its being conducted with an unacceptable level of risk.
- Encourage and reinforce the safe behaviors of others.
- Resolve circumstances responsibly that require corrective action.
- Insist upon an unwavering commitment to safety.

MV leadership is committed to supporting this statement with the resources and accountability necessary to achieve safety excellence.

Tom Egan
Chief Executive Officer

Mark Collins
President and Chief Operating Officer

MV TRANSPORTATION, INC. CORPORATE POLICY STATEMENT

General policies of MV Transportation, Inc. are issued from time to time and are designed to provide general guidance to company managers in the conduct of the business. Policies may, from time to time, become dated or may no longer apply. In the event of questions, the policy should be referred to the General Counsel for interpretation. In the event a policy conflicts with the law, regulation or the terms of a contract with a customer, the policy will be subordinate to such law, regulation or contract term. Policies are only effective on the written approval of the Chief Executive Officer.

Safety Policy S-1 INCIDENTS - DETERMINING PREVENTABILITY

SCOPE: This policy affects all employees who operate Company vehicles or perform work on behalf of the company.

PURPOSE: The purpose of this policy is to provide a standard to evaluate each incident according to our Defensive Driving or Safe Work Standards so that errors made in either driver performance or safe work practices will be recognized and corrected during retraining.

POLICY: It is the policy of this Company that each incident be evaluated on an individual, objective basis using the guidelines outlined here. MV Transportation, Inc. adheres to a very strict interpretation of the definitions of preventability and defensive driving. Realistically speaking, most incidents can be prevented by our drivers/employees through diligent application of our driving standards and safe work practices. MV drivers and employees are held to a high standard of care by the law and Company practice.

1.1 Definition of Preventable Incident – an incident where the driver could have, but failed, to properly identify an incident-producing situation soon enough to take reasonable and prudent action to avoid a collision or an injury.

2.2 Definition of Defensive Driving - to drive in such a manner as to identify incident-producing situations soon enough to take reasonable and prudent action to avoid a collision. This is the MV Standard of Safe Driving Performance

WORKPLACE INCIDENTS

The following considerations apply to workplace incidents that cause (or could have caused) injury to either the employee or bystanders/other persons.

Considerations

Unsafe Acts: • Unauthorized operation of equipment • Unauthorized performance of a job or task • Running - Horse Play • Not following established procedures • Bypassing or failure to use safety devices • Not using protective equipment • Under influence of drugs or alcohol	Unsafe Conditions: • Ergonomic hazards • Environmental hazards • Inadequate housekeeping • Blocked walkways • Improper or damaged Personal Protective Equipment (PPE) • Inadequate machine guarding • Inadequate maintenance of machines or tools
Non-preventable if: • Mechanical defect in a machine or tool which could not have been detected or foreseen by the operating employee or through routine maintenance.	Preventable if: • Incident or injury can be attributed to an unsafe act or unsafe condition. • Employee performed a job or task for which he/she was either not trained or inadequately trained (would be a failure in the supervisory/training process). • Incident or injury occurred due to employee's failure to use (or improper use of) personal protective equipment. • Incident or injury occurred due to employee's use or attempted use of a vehicle, machine or tool that he/she knew was defective. • Employee's abuse of a machine or tool was such that it rendered the tool or machine defective.

VEHICLE INCIDENTS

A. Struck in Rear by Other Vehicle:

<u>Non-Preventable if:</u> • Driver's vehicle was legally and properly parked. • Driver was proceeding in his own lane of traffic at a safe and lawful speed. • Driver was stopped in traffic due to existing conditions or was stopped in compliance with traffic sign or signal or the directions of a police officer or other person legitimately controlling traffic. • Driver was in proper lane waiting to make turn.	<u>Preventable if:</u> • Driver was passing slower traffic near an intersection and had to make sudden stop. • Driver made sudden stop to park, load, or unload. • Driver rolled back into vehicle behind while starting on grade. • Driver made sudden stop to avoid striking other vehicle in the rear.
--	--

B. Struck While Parked: Non-Preventable if:

- Driver was properly parked in a location where parking was permitted.
- Vehicle was protected by emergency warning devices as required by DOT and state regulations or if driver was in the process of setting out or retrieving signals. These provisions shall apply to the use of the turn signals as emergency warning lights under DOT regulations.

C. Incidents at Intersections: Preventable if:

- Driver failed to control speed so that he could stop within available clear sight distance.
- Driver failed to check cross-traffic and wait for it to clear before entering intersection.
- Driver pulled out from side street in the face of oncoming traffic.
- Driver collided with person, vehicle, or object while making right or left turn.
- Driver collided with vehicle making turn in front of him.

D. Striking Other Vehicle in Rear: Preventable if:

- Driver failed to maintain safe following distance and have his vehicle under control.
- Driver failed to keep track of traffic conditions and note slowdowns.
- Driver failed to ascertain whether vehicle ahead was moving slowly, stopped, or slowing down for any reason.
- Driver misjudged rate of overtaking.
- Driver came too close before pulling out to pass.
- Driver failed to wait for car ahead to move into the clear before starting to move.
- Driver failed to leave sufficient room for passing vehicle to get safely back in line.
- Driver was over-driving his vision.

E. Sideswipe and Head-on Collisions: Preventable if:

- Driver was not entirely in his proper lane of travel.
- Driver did not pull to his right and slow down and stop for vehicle encroaching on his lane of travel when such action could have been taken without additional danger. (Buses with passengers should not run off the road.)

F. Squeeze Plays and Blackouts: Preventable if:

- Driver failed to yield right-of-way when necessary to avoid an accident.
- Driver failed to properly position vehicle in preparation for the turn

G. Backing Incidents: Preventable if:

- Driver backed up when backing could have been avoided by better planning of his route.
- Driver backed into traffic stream when such backing could have been avoided.
- Driver failed to get out of vehicle and check proposed path of backward travel.
- Driver failed to get out of vehicle periodically and recheck conditions when backing a long distance.
- Driver failed to sound horn and turn on 4-way flashers prior to and while backing.

H. Incidents Involving Rail-Operated Vehicles: Preventable if:

- Driver attempted to cross tracks directly ahead of train or streetcar.
- Driver ran into side of train or streetcar.
- Driver stopped or parked on or too close to tracks.
- Driver disregarded warning lights or devices.
- Driver failed to stop at crossing as required by regulations.

I. Incidents While Passing: Preventable if:

- Driver passed where view of road ahead was obstructed by hill, curve, vegetation, traffic, adverse weather conditions, etc.
- Driver attempted to pass in the face of closely approaching traffic.
- Driver failed to warn driver of vehicle being passed (e.g. horn, and/or turn signal indicators).
- Driver failed to signal change of lanes.
- Driver pulled out in front of other traffic over-taking from rear.
- Driver cut-in short returning to lane of travel.

J. Incidents While Being Passed: Preventable if:

- Driver failed to stay in his own lane and hold speed or reduce it to permit safe passing.

K. Incidents While Entering Traffic Stream: Preventable if:

- Driver failed to signal when pulling out from curb.
- Driver failed to check traffic before pulling out from curb.
- Driver failed to look back to check traffic if he was in position where mirrors did not show traffic conditions.
- Driver attempted to pull out in a manner that forced other vehicle(s) to change speed or direction.
- Driver failed to make full stop before entering from side street, alley or driveway.
- Driver failed to make full stop before crossing sidewalk.
- Driver failed to yield right-of-way to approaching traffic.

L. Pedestrian Incidents: Preventable if:

- Driver did not reduce speed in area of heavy pedestrian traffic.
- Driver was not prepared to stop.
- Driver failed to yield right-of-way to pedestrian.

M. Mechanical Defects Incidents: Preventable if:

- Defect was of a type which driver should have detected in making pre-trip or enroute inspection of vehicle.
- Defect was of a type which driver should have detected during the normal operation of the vehicle.
- Defect was caused by driver's abusive handling of the vehicle.

N. All Types of Incidents: Preventable if:

- Driver was not operating at a speed consistent with the existing conditions of road, weather and traffic.
- Driver failed to control speed so that he could stop within assured clear distance.
- Driver misjudged available clearance.

- Driver failed to yield right-of-way to avoid accident.
- Driver failed to accurately observe and recognize potentially existing hazardous conditions or events that could produce an accident.
- Driver was in violation of Company operating rules or special instruction, the regulations of any federal or state regulatory agency, or any applicable traffic laws or ordinances.

MV TRANSPORTATION, INC. CORPORATE POLICY STATEMENT

General policies of MV Transportation, Inc. are issued from time to time and are designed to provide general guidance to company managers in the conduct of the business. Policies may, from time to time, become dated or may no longer apply. In the event of questions, the policy should be referred to the General Counsel for interpretation. In the event a policy conflicts with the law, regulation or the terms of a contract with a customer, the policy will be subordinate to such law, regulation or contract term. Policies are only effective on the written approval of the Chief Executive Officer.

Safety Policy S-2

BLOODBORNE PATHOGENS AND OTHER INFECTIOUS AGENTS EXPOSURE CONTROL PLAN

SCOPE: The Bloodborne Pathogens standard applies to all workers who have the potential of becoming exposed to blood or other body fluids as a routine part of their assigned jobs, such as healthcare workers, law enforcement officers, firefighters, jailers, funeral homes employees, workers at uncontrolled hazardous waste remediation sites, and designated first aid responders (must have a certificate of training). In regard to MV Transportation, Inc. (MVT), this policy applies to all MVT employees and contractors on two levels:

- 1) Those with a reasonable expectation of occupational exposure as a routine part of their assigned jobs, such as those occupations mentioned in the above paragraph, for whom contact with human body fluids occurs as a result of their daily functions / operations.
- 2) All MVT employees are considered to have little chance of occupational exposure. "Good Samaritans" acts performed by undesignated individuals are not covered by the standard, but undesignated first aid responders (such as drivers, road supervisors, office personnel, and all levels of management), need to know exposure controls anyway, to protect themselves if they voluntarily respond in the event of an emergency either on or off the job or are involved in an incident.

In case of emergencies/incidents, all MVT employees should avoid personal involvement and first-hand exposure whenever possible, by calling appropriate health or law enforcement personnel (911) instead. If they do become exposed to bloodborne pathogens, they will be offered the "Hepatitis-B" vaccine no later than 24 hours after the exposure, as per OSHA requirements (See the "Hepatitis B Vaccine" section of this policy).

NOTE: All employees will have training in handling people and incidents involving body fluids from which, by definition, there is any chance of becoming infected with HIV (AIDS virus) or HBV (hepatitis B).

PURPOSE: The guidelines in this policy are designed to control exposure to bloodborne pathogens or infectious agents which might normally occur in the event of an incident involving extensive bleeding or release of other body fluids and constitutes MV Transportation's Exposure Control Cleanup Plan, as specified in 29 CFR 1910.1030, Bloodborne Pathogens.

POLICY: It is the policy of this Company to limit exposure to body fluids to employees and contractors. All employees who could potentially have contact with the body fluids of others will be trained in identifying Bloodborne Pathogen Hazards and preventing exposure to such hazard, as well as in handling clean-up of spills as required. Training will be provided by safety supervisors with guidance from Corporate Safety.

It is further the policy of this Company to be in full compliance with OSHA standard 1910.1030.

RESPONSIBILITY:

It is the responsibility of all Supervisors and Managers to ensure their respective areas of responsibility and/or locations are in compliance with this policy.

PROCEDURES:

Training: Training for all employees will be conducted prior to initial assignment to tasks where incidental occupational exposure may occur.

Training for employees, via video presentation, handouts, and policy manual, will include the following with an explanation of:

1. The OSHA standard for Bloodborne Pathogens.
2. Modes of transmission of bloodborne pathogens.
3. This Exposure Control Plan, (i.e. points of the plan, lines of responsibility, how the plan will be implemented, etc.).
4. Procedures which might cause exposure to blood or other potentially infectious materials at Company locations.
5. Control methods which will be used at locations to control exposure to blood or other potentially infectious materials (via use of record- keeping forms).
6. Personal protective equipment available at locations and who should be contacted concerning use.
7. Post Exposure evaluation and follow-up.
8. Signs and labels used.
9. Hepatitis B vaccine program.

All employees will participate in annual refresher training. Those employees who have not received training will not be permitted to work in clean up areas or other locations where body fluids may exist. Training will be conducted using video tapes, written material, etc.

Exposure Determination

All employees and contractors who work in potentially occupationally exposed areas will receive training on avoiding exposure to body fluids which could potentially contain pathogens. By definition, this category includes but is not limited to janitors, security guards and certain maintenance personnel such as bus cleaners who may come in contact with fluids during the clean-up process.

COMPLIANCE METHODS:

"Universal precautions" will be observed at MV Transportation locations and in buses in order to prevent contact with blood or other potentially infectious materials. All blood or other potentially infectious material will be considered infectious regardless of the perceived status of the source individual.

Engineering and work practice controls will be utilized to eliminate or minimize exposure to employees at this facility. Where occupational exposure remains after institution of these controls, personal protective equipment shall also be utilized. All controls will be reviewed by supervisors to be sure controls are effective, there is understanding by employees or contractors and compliance is in place.

Handwashing facilities must be available to the employees who incur exposure to blood or other potentially infectious materials. Antiseptic cleaner or towelette should be available and hands washed immediately after handling body fluids. Soap and water work just as well.

If personal protective gloves are worn, employees shall wash hands and any other potentially contaminated skin area immediately or as soon as feasible with soap and water.

If employees incur exposure to their skin or mucous membranes, then those areas shall be washed or flushed with water, as appropriate, as soon as feasible following contact.

Work Area Restrictions

In work areas where there is a reasonable likelihood of exposure to blood or other potentially infectious materials, employees are not to eat, drink, apply cosmetics or lip balm, smoke, or handle contact lenses. Food and beverages are not to be kept in refrigerators, freezers, shelves, cabinets, or on counter tops or bench tops where blood or other potentially infectious materials are present.

All procedures will be conducted in a manner which will minimize splashing, spraying, splattering, and generation of droplets of blood or other potentially infectious materials.

Contaminated Equipment

Equipment which has become contaminated with blood or other potentially infectious materials shall be examined prior to servicing and shall be decontaminated as necessary unless the decontamination of the equipment is not feasible. This process includes buses/vehicles which have been involved in accidents. Spills must be cleaned with soap and water. The area then can be sprayed with bleach solution (1-part household bleach to 10 parts of water).

Personal Protective Equipment (PPE)

Personal protective equipment will be provided without cost to employees. Personal protective equipment will be chosen based on the anticipated exposure to blood or other potentially infectious materials. For cleaning buses or other areas, protective clothing will be provided to employees.

Personal Protective Equipment:

- Face Shield
- Rubber Gloves
- Utility Gloves

All personal protective equipment will be cleaned, laundered, and disposed of by MVT. All garments which are penetrated by blood shall be removed immediately or as soon as feasible. All personal protective equipment will be removed prior to leaving the work area. Gloves shall be worn where it is reasonably anticipated that employees will have hand contact with blood, other potentially infectious materials, non- intact skin, and mucous membranes. Gloves will be used for cleaning body fluids from buses/vehicles or other locations.

Disposable gloves are not to be washed or decontaminated for re-use and are to be replaced as soon as practical when they become contaminated or as soon as feasible if they are torn, punctured, or when their ability to function as a barrier is compromised. Utility gloves may be decontaminated for re-use provided that the integrity of the glove is not compromised. Utility gloves will be discarded if they are cracked, peeling, torn, punctured, or exhibit other signs of deterioration or when their ability to function as a barrier is compromised.

Masks in combination with eye protection devices, such as goggles or glasses with solid side-shield, or chin-length face shields, are required to be worn whenever splashes, spray, splatter, or droplets of blood or other potentially infectious materials may be generated and eye, nose, or mouth contamination can reasonably be anticipated. Such protection is required when cleaning body fluids following an accident or in any other spill area.

All contaminated work surfaces will be decontaminated after completion of procedures and immediately or as soon as feasible after any spill of blood or other potentially infectious materials, as well as the end of the work shift if the surface may have become contaminated since the last cleaning. All bins, pails, cans, and similar receptacles shall be inspected and decontaminated monthly under strict supervision. Any broken glassware which may be contaminated will not be picked up directly with the hands. Tongs or trash collectors will be used.

Laundry Procedures

Laundry contaminated with blood or other potentially infectious materials will be handled as little as possible. Such laundry will be placed in appropriately marked bags at the location where it was used. Such laundry will not be sorted or rinsed in the area of use.

All employees who handle contaminated laundry will utilize personal protective equipment to prevent contact with blood or other potentially infectious materials.

The laundry company used by the MVT facility with the infected garments will be advised of same by the supervisor of the shift.

Hepatitis B Vaccine

All employees who have been identified as having exposure to blood or other potentially infectious materials will be offered the Hepatitis B vaccine, at no cost to the employee. The vaccine will be offered within

10 working days of their initial assignment to work involving the potential for occupational exposure to blood or other potentially infectious materials as a routine part of their duties (see Scope, Level 1) unless the employee has previously had the vaccine or who wishes to submit to antibody testing which shows the employee to have sufficient immunity.

Employees who decline the Hepatitis B vaccine will sign the waiver

which appears in Appendix A.

Employees who initially decline the vaccine but who later wish to have it may then have the vaccine provided at no cost. Supervisors have the responsibility for assuring vaccine is offered to the employee and that he or she signs the waiver if appropriate.

The vaccine will be offered within 24 hours of the exposure to all employees who become exposed while conducting specific tasks while on duty (i.e. janitors and bus clean-up crews) or responding to emergency situations (i.e. drivers and/or terminal employees). (see Scope, Level 2).

Employees who decline the Hepatitis B vaccine will sign the waiver which appears in Appendix A.

Post-Exposure Evaluation and Follow-Up

When the employee incurs an exposure incident, it will be reported to the Risk Management and Safety Departments as soon as practically possible, but no later than 24 hours after the exposure, via the Event Notification reporting procedures.

All employees who incur an exposure incident will be offered post-exposure evaluation and follow-up in accordance with the OSHA standard.

This follow-up will include the following:

1. Documentation of the route of exposure and the circumstances related to the incident.
 - a. If possible, the identification of the source individual and the status of the source individual if available.
 - b. The blood of the source individual will be tested (after consent is obtained) for HIV/HBV infectivity
2. Results of testing of the source individual will be made available to the exposed employee with the exposed employee informed about the applicable laws and regulations concerning disclosure of the identity and infectivity of the source individual.
3. The employee will be offered the option of having their blood collected for testing of the employees HIV/HBV serological status. The blood sample will be preserved for at least 90 days to allow the employee to decide if the blood should be tested for HIV serological status. However, if the employee decides prior to that time that testing will be conducted, then the appropriate action can be taken, and the blood sample discarded.
4. The employee will be offered post-exposure prophylaxis in accordance with the current recommendations of the U.S. Public Health Service.

Interaction with Health Care Professionals

A written opinion shall be obtained from the health care professional who evaluates employees. Written opinions will be obtained in the following instances:

- a. When the employee is sent to obtain the Hepatitis B vaccine.
- b. Whenever the employee is sent to a health care professional following an exposure incident.

Health care professionals shall be instructed to limit their opinions to:

- Whether the Hepatitis B vaccine is indicated and if the employee has received the vaccine, or for evaluation following an incident

- That the employee has been informed of the results of the evaluation, and
- That the employee has been told about any medical conditions resulting from exposure to blood or other potentially infectious materials.

See Appendix E for a sample form letter to health care professionals

Recordkeeping

All records required by the OSHA standard will be maintained by local management in a file labeled specifically for that purpose.

Medical Records:

- Employee's name and social security number.
- Copy of employee's vaccination status.
- Copy of results of all examinations and tests.

In the case of post-exposure follow-up:

- Healthcare professional's written opinion.
- Information provided to healthcare professional.
- Records are kept confidential and not disclosed without employee's written consent. Employee may obtain copies of their own records.
- Records maintained for duration of employment plus 30 years.

Training Records:

- Date of training session.
- Content and summary of training.
- Name and qualifications of the trainer.
- Names and job titles of attendees.
- Records must be retained at the training site or domicile for three years.

NOTE: Any employee who has received vaccination due to an exposure must be noted on the OSHA-300 logs at the time of the occurrence, in addition to the Exposure Incident Report.

Appendices:

- Declination Statement
- Exposure incident checklist
- Exposure incident report
- Source Individual medical release / refusal form and exposed employee medical release form
- Form letter to health care provider
- OSHA BBP Standard

Date Filed / Revision Date	Description of Change

MV TRANSPORTATION, INC. CORPORATE POLICY STATEMENT

General policies of MV Transportation, Inc. are issued from time to time and are designed to provide general guidance to company managers in the conduct of the business. Policies may, from time to time, become dated or may no longer apply. In the event of questions, the policy should be referred to the General Counsel for interpretation. In the event a policy conflicts with the law, regulation or the terms of a contract with a customer, the policy will be subordinate to such law, regulation or contract term. Policies are only effective on the written approval of the Chief Executive Officer.

Safety Policy S-3 ALTERING/ADDING EQUIPMENT ON VEHICLES

SCOPE: This policy applies to all employees of MV Transportation, Inc.

PURPOSE: The purpose of this policy is to prohibit the altering/modifying or adding on to any mechanical or electrical component of the bus that interferes with the safe operation of the bus without proper approval.

POLICY: It is the policy of this Company that no one will alter or disable any mechanical/electrical equipment on any bus without the express permission of the Maintenance Department, nor will drivers utilize personal electronic devices while operating buses.

PROCEDURE:

No one is to drill holes, cut into wires or otherwise alter or damage any part of the vehicle to install any electronic equipment, unless the maintenance department approves the modification. No one will remove, modify, alter or otherwise intentionally render non-functional any company-installed electronic equipment (including Video Cameras or MDT terminals)

No one is to utilize any device to override safety switches or operating equipment designed to protect MV vehicles from damage.

Anyone utilizing any device which can potentially cause damage or does damage any equipment on a bus will be subject to disciplinary action, up to and including termination.

A driver will not install a personal electronic device of any type on a Company-operated bus/vehicle nor will such equipment be utilized while operating a Company bus/vehicle. This policy includes radar detectors, citizen band (CB) radios, cellular phones or similar devices. (NOTE: this policy does not preclude a driver from carrying in his bag a cellular phone for emergency use).

This Company policy is supported by § 392.62 of the Federal Motor Carrier Safety Regulation which states, "No driver will engage in an activity tending to distract his attention from the operation of the vehicle".

The presence of earphones/listening devices for the specified electronic device in the interior of the bus will be prima facie evidence of violation of this policy.

MV TRANSPORTATION, INC. CORPORATE POLICY STATEMENT

General policies of MV Transportation, Inc. are issued from time to time and are designed to provide general guidance to company managers in the conduct of the business. Policies may, from time to time, become dated or may no longer apply. In the event of questions, the policy should be referred to the General Counsel for interpretation. In the event a policy conflicts with the law, regulation or the terms of a contract with a customer, the policy will be subordinate to such law, regulation or contract term. Policies are only effective on the written approval of the Chief Executive Officer.

Safety Policy S-4 BUSES AND BACKING

SCOPE: The policy applies to all MV employees who operate buses or other revenue vehicles.

RESPONSIBILITY: The operator has the responsibility for backing safely even though backing buses have the right-of-way.

POLICY / PURPOSE: It is the policy of this company that anyone backing a vehicle will use caution and be aware of the space around the vehicle. Buses and other vehicles will be positioned, whenever possible, to require as little or no backing as necessary. It is the policy of this company that all backing is the sole responsibility of the driver at the controls.

PROCEDURE: Before backing the operator will be sure the rear-view mirrors are in proper adjustment. The operator will then:

- Walk around the vehicle and make sure the way is clear of all hazards and obstacles. Get out of the bus/vehicle and look around. Ensure nothing is blocking the view of the rear-view mirrors.
- Turn on four-way flashers.
- Sound the horn a minimum of twice to attract attention to the backing maneuver.
- Continually scan both rear-view mirrors
- Back slowly at idle speed while covering your brake backing no further than necessary.
- When using a guide to assist with backing the driver still has full responsibility for backing the safely.
- While backing if driver becomes unsure of clear path, the driver must stop, and Get Out And Look (G.O.A.L.). The driver will not move the bus/vehicle until they are sure the path is safe. This also requires driver to be aware of any overhead or sideswipe hazard clearance.

Transit Operations Backing of transit vehicles is extremely hazardous and should be avoided whenever possible. Should it be necessary to back/reverse a transit vehicle, it shall be done with a ground guide (spotter) when possible and only with prior dispatch notification and approval.

MV TRANSPORTATION, INC. CORPORATE POLICY STATEMENT

General policies of MV Transportation, Inc. are issued from time to time and are designed to provide general guidance to company managers in the conduct of the business. Policies may, from time to time, become dated or may no longer apply. In the event of questions, the policy should be referred to the General Counsel for interpretation. In the event a policy conflicts with the law, regulation or the terms of a contract with a customer, the policy will be subordinate to such law, regulation or contract term. Policies are only effective on the written approval of the Chief Executive Officer.

Safety Policy S-5 BATTERY SAFETY

SCOPE: The requirements of this policy apply to all operations at MV Transportation, Inc., and especially Maintenance Facilities that involve the use, servicing, and/or storage of vehicle batteries. The requirements apply to both employees and contractors.

POLICY: It is the policy of this Company that anyone handling any batteries will follow safety regulations and Company safe work standards.

RESPONSIBILITY: The Division Maintenance Manager is responsible for ensuring the application and enforcement of all policies and procedures described in this policy. Shop Supervisors are responsible for following these procedures in their respective areas and operations.

PROCEDURE: The Division Maintenance Manager will ensure that all personnel working with batteries have received appropriate training, as described below in this policy. Only trained and authorized personnel will conduct operations in the battery shop of Maintenance Facilities.

The following practices will be observed in Maintenance Facility battery shops at all times:

1. Safety glasses or splash goggles and rubber gloves will be used for ALL battery work. Splash aprons and rubber boots shall be worn when handling or transferring electrolyte.
2. Flames and sparks (including cigarettes) are to be kept away from the vicinity of batteries and charging areas.
3. Caution must be exercised to avoid shorting of battery terminals with metal tools and objects.
4. The immediate charging area will be vented prior to charging, to remove acid vapors and gases. No work will be performed if excessive levels of acid vapors or gases are present as determined by the smell.
5. All battery storage areas will be conspicuously marked, to include signs designating them as hazardous areas.
6. Repairs to battery connections will not be made while the charging circuit is engaged.
7. Charging current will be turned off before connecting and disconnecting batteries to the charging lines.
8. Mixing Acid Solution - water will NEVER be added to an acid. Acid will be poured slowly into the water. This then becomes the acid solution product.
9. Sulfuric acid or hydrochloric acid will NOT be stored in areas where freezing temperatures are possible.
10. Acid solution will be kept at a level above the tops of the separators. Once a battery has received an initial filling of acid, clean water will be used to keep the acid above the separators.
11. The number of batteries and amount of acid will be limited to that necessary to perform a safe and effective operation.
12. Charging units will be periodically checked during operation.
13. First aid materials will be provided for neutralization of acid spills on the body. Posters and labels will clearly indicate the specific application of first aid materials.

14. Facilities shall be provided in each charging area for the rapid drenching or flushing of eyes and body. Such facilities must be capable of delivering an adequate volume of water for at least 15 minutes. The eye flush station will be flushed and tested monthly by the shop supervisors.

15. Spent batteries will be staged in an area away from heat and flames and stacked on pallets prior to disposal. Leaking batteries should be placed in special containers. Disposal will be in accordance with applicable local, state, and federal regulations through company vendors. Used batteries will not be permitted to accumulate over 30 days.

TRAINING: All battery shop personnel will be trained by supervisors or safety personnel in the specific hazards and control measures associated with battery shop operations. This training may be conducted in the classroom and on-the-job. Training will be documented regardless of how and where it is performed. Training, at a minimum, must cover the following material:

- Hazards of batteries and acid solutions
- Appropriate personal protective equipment
- Operation of the charging apparatus
- Preparation and handling of acid solutions
- Operation of venting mechanisms
- Handling acid solutions spills
- Location and use of first aid and drenching equipment
- Proper staging of spent batteries

INSPECTIONS: The Division Maintenance Manager will inspect battery shops and apparatus twice each year during general safety audits. He will also perform random inspections, as appropriate. The results of these inspections will be recorded. Division Maintenance Manager, shop supervisors, and employees are responsible for batteries and apparatus defects in their work area. Any problems must be reported to a supervisor and corrected immediately.

MV TRANSPORTATION, INC. CORPORATE POLICY STATEMENT

General policies of MV Transportation, Inc. are issued from time to time and are designed to provide general guidance to company managers in the conduct of the business. Policies may, from time to time, become dated or may no longer apply. In the event of questions, the policy should be referred to the General Counsel for interpretation. In the event a policy conflicts with the law, regulation or the terms of a contract with a customer, the policy will be subordinate to such law, regulation or contract term. Policies are only effective on the written approval of the Chief Executive Officer.

Safety Policy S-6 INSPECTION REPORT - PRE-TRIP AND POST-TRIP

SCOPE: This policy applies to all employees of MV Transportation, Inc. who operate revenue vehicles.

POLICY: It is the policy of this Company that before operating a revenue vehicle for any reason, the operator shall perform a pre-trip inspection according to Part 396.13 Federal Motor Carrier Safety Regulations and will be satisfied that the bus is in safe operating condition.

RESPONSIBILITY: The Pre-Trip inspection shall include the employee review of the last Driver Vehicle Inspection Report (DVIR) to make sure any defects or deficiencies noted by the previous driver, and written on DVIR, have been repaired and the signature of the mechanic certifying the repair is written on the DVIR.

When returning a vehicle/bus to a facility, the driver will perform a post-trip inspection and complete DVIR, reporting any defects or damage that may have been found or occurred during operation, as well as other locally-required information.

NOTE:

Operators moving a bus from one location to another at a terminal or garage must be satisfied that the bus is operable and safe.

MV TRANSPORTATION, INC. CORPORATE POLICY STATEMENT

General policies of MV Transportation, Inc. are issued from time to time and are designed to provide general guidance to company managers in the conduct of the business. Policies may, from time to time, become dated or may no longer apply. In the event of questions, the policy should be referred to the General Counsel for interpretation. In the event a policy conflicts with the law, regulation or the terms of a contract with a customer, the policy will be subordinate to such law, regulation or contract term. Policies are only effective on the written approval of the Chief Executive Officer.

Safety Policy S-7 BUS LOCK-OUT / TAG-OUT

SCOPE: The requirements of this section apply to all employees and contractors performing maintenance activities on MV Transportation buses in MV maintenance facilities.

PURPOSE: The purpose of this section is to establish safety procedures while working on, under, in the engine compartment, or underneath buses during repair, inspection or servicing.

POLICY: It is the policy of this Company that all Maintenance Facility Managers and Supervisors have the responsibility to ensure that all employees and contractors operating within the facility are aware of and adhere to the guidelines in this section.

PROCEDURES: All MV Transportation, Inc. employees and contractors working on, under, in the engine compartment, or underneath buses, will:

1. Place a "BUS LOCK-OUT TAG" (OR STEERING WHEEL COVER) on the steering wheel of the bus being serviced.
2. If the bus is so equipped:
 - Turn the "BATTERY DISCONNECT" switch to the OFF position with a "BUS LOCK-OUT TAG" attached during all such repair, inspection or servicing.
 - Place the "ENGINE START INTERLOCK" switch (located on the engine compartment's control panel) to the "OFF" position.
3. In vehicles equipped with ignition keys, the person working on, under, in the engine compartment, or underneath the vehicle will keep the ignition key in his/her pocket to prevent engine ignition by someone else.

When a "BUS LOCK-OUT TAG" is displayed on the steering wheel or the battery compartment of a bus, no attempt will be made to start the engine or move the bus in any manner.

Only the employee who placed the "BUS LOCK-OUT TAG" on the steering wheel or battery compartment switch may remove it.

NO ONE ELSE IS AUTHORIZED TO DO SO.

Every employee is to be issued "BUS LOCK-OUT TAGS" with their name permanently affixed.

The "BUS LOCK-OUT TAG" and the "BATTERY DISCONNECT" are to be used in combination with all other applicable safety precautions and practices

MV TRANSPORTATION, INC. CORPORATE POLICY STATEMENT

General policies of MV Transportation, Inc. are issued from time to time and are designed to provide general guidance to company managers in the conduct of the business. Policies may, from time to time, become dated or may no longer apply. In the event of questions, the policy should be referred to the General Counsel for interpretation. In the event a policy conflicts with the law, regulation or the terms of a contract with a customer, the policy will be subordinate to such law, regulation or contract term. Policies are only effective on the written approval of the Chief Executive Officer.

Safety Policy S-8 BUS HEADLIGHTS - FULL TIME USE

SCOPE: This policy applies to all employees of MV Transportation, Inc. who operate buses/revenue vehicles.

POLICY: It is the policy of the Company to operate all buses/vehicles with the headlights on in the day time as well as at night to promote safety and provide increased visibility of our vehicle to other motorists.

RESPONSIBILITY: All employees who operate a bus/vehicle are required to drive with the headlights on in the low beam position during daylight hours. During hours of darkness, both high and low beams will be used as driving conditions warrant.

Headlights are not to be flashed for any purpose such as when coming up behind a vehicle. Headlights are to be turned on after starting the bus and turned off when stopping the engine.

Note: The use of running lights and/or parking lights does not fulfill the policy requirement.

MV TRANSPORTATION, INC. CORPORATE POLICY STATEMENT

General policies of MV Transportation, Inc. are issued from time to time and are designed to provide general guidance to company managers in the conduct of the business. Policies may, from time to time, become dated or may no longer apply. In the event of questions, the policy should be referred to the General Counsel for interpretation. In the event a policy conflicts with the law, regulation or the terms of a contract with a customer, the policy will be subordinate to such law, regulation or contract term. Policies are only effective on the written approval of the Chief Executive Officer.

Safety Policy S-9 CELL PHONES / MOBILE COMMUNICATION DEVICE

SCOPE: This policy

PURPOSE: The purpose of this policy

POLICY: It is the policy of MV Transportation that the use of personal hand-held or hands-free mobile phones or e-mail devices while driving a company or client-owned vehicle is not permitted unless in the case of an emergency/imminent danger to life or persons. "Hands-free" earpieces (corded or wireless) shall not be worn or used at any time while driving.

While at the controls of a company vehicle or client-owned vehicle, personal mobile communication devices and hands-free devices must be "powered off" and stored out of reach of the driver.

The Company will not be liable for any sanctions or fines levied upon an employee or contractor as a consequence of non-compliance with this Policy or related local ordinances or laws.

The driver has the responsibility for compliance with this policy.

Non-compliance with this policy will be treated as a violation of company work rules in accordance with the MV Employee Handbook and shall result in discipline according to the terms and conditions contained therein.

Drivers will not use personal cellular phones while driving unless in case of "imminent danger" emergency. If there is an "imminent danger" or emergency while enroute and the driver needs to call for assistance (911), the driver can use the phone to make the initial call and then needs to pull over and stop as soon as possible in order to complete the call. Drivers will be instructed to use the dispatch center phone number as their contact number while at work. The dispatch centers will contact drivers via company radio in case of personal emergencies.

Drivers may use company-issued mobile communication devices or other "push-to-talk" devices (i.e.: Nextel radios) while driving only to the minimum extent necessary for business operations.

Safety Policy S-10 COMPLIANCE WITH FEDERAL AND STATE SAFETY REGULATIONS

SCOPE: These regulations govern all driving and non-driving operations at MV Transportation, Inc.

POLICY: It is the policy of MV Transportation, Inc. that company operations and all personnel will comply with all applicable requirements of Title 49 Code of Federal Regulations and in particular with the Federal Motor Carrier Safety Regulations' Parts 40, 325, 382, 383, 385-387, 390-396, 399 and 640 (or their individual States' equivalent) and with the provisions of Part 1910 of the Occupational Safety and Health Administration regulations.

PROCEDURE: Personnel will refer to the Regulations for interpretation of any covered rules regarding MV Transportation, Inc. driving and maintenance operations.

The Safety Department is available to provide further assistance.

Safety Policy S-11 COMPRESSED GASES - HANDLING & STORAGE

SCOPE: This policy applies to operations which involve the storage, use or handling of compressed gases or compressed gas cylinders.

POLICY: It is the policy of MV Transportation, Inc. that all employees comply with all applicable regulations promulgated by the Department of Transportation (DOT), or the Occupational Safety and Health Administration (OSHA).

RESPONSIBILITY: It is the responsibility of General Managers and Maintenance Managers to ensure that all MV Transportation, Inc. employees conform to established safe work practices when working with or handling compressed gases.

PROCEDURE: The following safe work practices are required for handling compressed gas containers:

Identification & Labeling:

1. Compressed gas containers must be labeled as required by DOT and OSHA.
2. No one will accept improperly marked or labeled cylinders.
3. MV employees are not to tamper with, deface, or remove any cylinder markings or labels. This does not include the use of special tags which indicate whether the cylinder is empty, full, or partially filled.
4. Color must not be used as the primary means of identifying cylinders. Although suppliers often paint cylinders for quick identification, MV employees should always examine the cylinder markings and labels before use.
5. A cylinder with illegible markings and labels will not be used. It should be separated from the other cylinders and returned to the supplier.

Cylinder Maintenance and Repair:

1. MV employees will not perform any maintenance or repair on cylinders.
2. MV employees shall not tamper with, obstruct, or remove any part of the cylinder, including pressure relief devices, container valves, or valve protection devices.

Proper Handling Practices:

1. Cylinders will never be used as supports or rollers.
2. Cylinders will not be placed or used in a manner which would make them part of an electrical circuit.
3. Cylinders will not be exposed to extreme heat or cold.
4. Cylinders that are leaking or damaged will not be shipped. In these cases, the supplier should be asked for advice.
5. If the cylinder or valves are significantly corroded, the gas supplier will be contacted for advice.
6. Cylinders will be refilled only with their original contents.
7. Cylinders will not be rolled while lying down, nor shall they be dragged. Suitable hand trucks should be used to transport cylinders.

8. Cylinder caps will not be used for lifting cylinders.
9. Container valves must be closed when not in use.
10. Valves will be opened slowly. Wrenches should not be used on valves, unless specifically designed for that application. Valves should not be hammered or forced.
11. All piping, hoses, and other connections will be gas tight.
12. Cylinders should not be completely emptied. Cylinders should be removed from service when they have approximately 20 psi pressure remaining.
13. The cylinder valve must be closed before removing a regulator.
14. ONLY regulators and hoses approved for a specific gas shall be used with that gas.
15. Hoses and connectors shall not be interchanged among different gases, unless approved by the gas supplier.

General Storage Requirements:

1. Cylinders will be separated by type.
2. Empty containers will be separate from full ones.
3. Oxidizers will not be stored next to flammables.
4. Cylinders will not be exposed to excessive moisture, salt, corrosive chemicals or fumes.
5. Storage in the sun is allowed, provided that extreme temperatures do not prevail, and the supplier does not recommend against such a practice.
6. Containers shall be surrounded by a locked fence, wall, or other barrier, that will prevent tampering and damage.
7. Cylinders must not obstruct exits.
8. All cylinders will be protected from falling and be secured with chain.
9. Cylinders will be stored valve up.
10. Oxygen acetylene cylinders (Or Other Fuel Gas) are not to be stored together unless separated by a 1-hour fire resistant wall, i.e. 1/2" thick steel plate.
11. All oxygen acetylene cylinders must be chained to cart.
12. When not in use, valves will be turned off at cylinders.

Storage of Flammable Gases:

1. Flammable gases present increased hazards of fire and explosion. Such gases used by Greyhound include propane and acetylene. The following practices shall be observed for the storage and handling of compressed flammable gases:
 2. NO SMOKING signs shall be posted at the entrance to the storage area.
 3. Flammable gases shall be separated from oxidizers.
 4. Cylinders must be kept at least 20 feet from flammable liquids, highly combustible materials, and ignition sources.
 5. Spark-proof tools will be used for work on cylinder and piping connections.
 6. Quantities stored will be in compliance with local fire codes.

7. The storage area will be well-ventilated.
8. Approved portable fire extinguishers will be present.

Storage of Oxidizers:

1. Oxidizers will be separated from flammable and combustible materials.
2. Oil or grease will not be allowed to contaminate the cylinder, nor allowed to accumulate in the storage area.
3. Storage areas will be well ventilated.

INSPECTIONS:

Department supervisors are responsible for performing daily checks of compressed gas cylinders and storage areas. These daily checks need not be recorded.

Employees are responsible for examining cylinders and connections before use. Any problems should be reported to the supervisor immediately.

Date Filed / Revision Date	Description of Change

MV TRANSPORTATION, INC. CORPORATE POLICY STATEMENT

Safety Policy S-12 DRIVER REFRESHER TRAINING

SCOPE: This policy applies to all employees of MV Transportation, Inc. who operate buses or other revenue vehicles

POLICY: All MV operators will receive refresher or remedial training, as necessary, throughout their employment with the Company. This training will be conducted as outlined below and documented in local personnel files and training records using the Driver Refresher Training Report Form.

Only qualified personnel (General Managers, Operations Supervisors, Safety Managers, or Driver Instructors/BTWs) will administer driver refresher training courses. Under no circumstances will any driver be allowed to return to driving duties unless they demonstrate full proficiency in all applicable driving performance tasks

I. Refresher or Remedial training is mandatory under the following conditions:

- A. Return To Work (from inactive status) – Required when a driver/operator returns from “inactive” status (from a period of 30 days or more). In these cases, the driver must receive a one-day/8 hours “general purpose” refresher training designed to remind the driver of the general standards and defensive driving guidelines in effect at MVT and to ensure his/her proficiency.
- B. Post Accident / For cause – Required after every “preventable” accident, or whenever mandated by management for retraining / corrective purposes.
- C. Seasonal – Required annually at all divisions operating in seasonal adverse weather environments (i.e.: Winter driving, onset of adverse weather, etc.).
- D. Biannually – At a minimum of every two years, each driver/operator shall receive a “general purpose” refresher training designed to
- E. remind the driver's of MVT driving standards and validate the driver's proficiency with MVT defensive driving requirements.

II. Course content:

A. Return To Work: This refresher is mandatory for any driver who has been away from work for 30 days or more (sick leave, family leave, furlough, worker's compensation, etc.). Reviewing the most up-to-date videos and the behind-the-wheel assessment are important components of this type of refresher. Minimum content is as follows:

1. Safety standards review (Classroom): This training will include a thorough general review of our safety standards and defensive driving guidelines. This is accomplished through review of the applicable portions of the Driver Training School Curriculum and the applicable safety videos.
2. “Behind The Wheel” (BTW) Road Check: The Road-Check portion of the Return-to-Work Refresher is probably the most critical part of the refresher, as it offers the driver the hands-on opportunity to re-establish his or her familiarity with our standards, and with the maneuverability and dimensions of the bus. If the driver has developed any unsafe driving behaviors/habits, the instructor will also be able to identify what driving deficiencies are present, and correct them before certifying the refresher as “satisfactory.” The BTW portion will include a minimum of 30 miles or two hours, and cover city (urban), secondary, and freeway driving environments, with emphasis on city and freeway driving.

The time involved for completion of this refresher is variable. The driver must demonstrate his ability to perform all of the required tasks to standard. Particular attention will be given to the following areas:

- a) Pre/Post trip inspections
- b) Brake release procedures (Air brake vehicles)
- c) Gear selection & transmission use
- d) Proper Scanning Habits
- e) Turns & Intersections
- f) Merging & Lane changes
- g) Backing
- h) Speed Control
- i) Following Distance
- j) Use of Brakes
- k) Railroad Crossings
- l) Lift Operations
- m) Wheelchair Securement

Individual Divisions are free to also include any topics/material pertinent to local driving conditions (for example, driving in heavy traffic, mountain terrain, etc.).

B. Post-Accident / For Cause Remedial Training: This training is mandatory for any driver who has received a “preventable” rating for an accident/incident.

Because (by definition) the driver could have avoided the accident/incident, but failed to do so, it is imperative that the driver receives this remedial training as soon as possible, in order to prevent another similar occurrence. Therefore, the post-accident remedial training must be scheduled and given within 10 days following the formal accident rating.

Before the refresher commences, the investigating supervisor will review the accident report with the individual who will conduct the training (i.e.: a driver instructor or BTW instructor), discuss the accident’s cause(s) and contributing factors, and what specific driving standards were not applied correctly. They should then tailor the remedial training to correct the driving deficiencies and standards that contributed to the accident.

This training will include a review of the appropriate materials / videos, and behind-the-wheel training.

The amount of time needed for a post-accident refresher is variable, and it will depend on the driver’s ability to perform the appropriate tasks to standard. The driver must demonstrate his / her ability to perform all of the required tasks to standard before being allowed back to driving duties.

For instance, if the supervisor has determined that the driver did not perform a right turn correctly, the appropriate videos might include material on effective seeing habits, proper positioning of the vehicle, reference points, lane choice. The items highlighted on the refresher report would include “Positioning of the bus for turn,” “Use of Mirrors,” “Speed,” “Proper Use of Signals,” “Ability to Judge Bus Size,” “Use of Horns,” “Aggressive in Traffic,” “Aware of Hazards.” The driver instructor would then proceed with the behind-the-wheel training with a clear understanding of what driving deficiencies may need correcting, and ensure that the driver is able to perform the appropriate tasks to standard.

Currently, under normal circumstances, it is our practice to keep the driver in-service pending the outcome of the accident investigation.

However, if Division or Regional management feels the driver involved in the accident poses an imminent danger or threat to the safe operation of a bus (due to a serious driving deficiency or, possibly, a physical or mental impairment), do not hesitate to place the driver out-of-service until it has been determined that the driver is qualified to drive safely.

C. Seasonal Refreshers: These refreshers are conducted in preparation of operations during certain periods of the year. At a minimum, this refresher will be given in the fall, before the beginning of winter season, to all division’s drivers, and includes refresher topics appropriate for the region, imminent weather, environmental, and traffic conditions. The training will include topics/material appropriate for the season in question, using existing safety videos and lesson modules from the standard Driver Training School.

D. Bi-Annual Refresher: This is a mandatory bi-annual (every two years) general defensive driving refresher. All in-service drivers will attend this refresher every two years to ensure they are using appropriate defensive driving habits/techniques (have not become complacent) and will follow the same content requirements of the “Return To Work” refresher listed in “A” above.

Date Filed / Revision Date	Description of Change

MV TRANSPORTATION, INC. CORPORATE POLICY STATEMENT

General policies of MV Transportation, Inc. are issued from time to time and are designed to provide general guidance to company managers in the conduct of the business. Policies may, from time to time, become dated or may no longer apply. In the event of questions, the policy should be referred to the General Counsel for interpretation. In the event a policy conflicts with the law, regulation or the terms of a contract with a customer, the policy will be subordinate to such law, regulation or contract term. Policies are only effective on the written approval of the Chief Executive Officer.

Safety Policy S-13 DRIVER'S ANNUAL REVIEW OF DRIVING RECORD

SCOPE: This policy applies to all drivers for MV Transportation, Inc., including road call mechanics.

PURPOSE: The purpose of this policy is to achieve compliance with the Federal and State Motor Carrier Safety Regulations.

POLICY: It is the policy of this Company that all drivers submit, on an annual basis, a record of all violations of traffic laws committed while operating any type vehicle, other than parking violations, for which the driver has been convicted or forfeited bond during the preceding twelve (12) months, and that such record be reviewed by the Division General Manager and compared with the driver's Motor Vehicle Record.

PROCEDURE:

The General Manager will request each driver's Motor Vehicle Record at least annually and review it with the driving record submitted by each driver to determine whether the driver meets the minimal requirements for safe driving and be certain the driver is not disqualified from operating a motor vehicle.

The General Manager will review each driver's entire record including accident experience, road and ride observations, and the Driver Record of Violations submitted for the previous twelve months. The review will be completed by August 15 each year and the record retained in the driver's DOT qualification file.

The driver's manager/supervisor will conduct interviews with drivers whose records warrant counseling and corrective measures including refresher training. In considering counseling, great weight must be given to violations such as speeding, following too closely, reckless driving and improper or erratic lane changes. This counseling process will be properly and thoroughly documented.

Drivers convicted of two serious traffic violations as defined by the FMCSR, in a three-year period will be advised that they are subject to disqualification by the State issuing their drivers' licenses.

Supervisors will remind drivers that they are to notify the company of any moving violation they receive during the year, whether on or off-duty.

MV TRANSPORTATION, INC. CORPORATE POLICY STATEMENT

General policies of MV Transportation, Inc. are issued from time to time and are designed to provide general guidance to company managers in the conduct of the business. Policies may, from time to time, become dated or may no longer apply. In the event of questions, the policy should be referred to the General Counsel for interpretation. In the event a policy conflicts with the law, regulation or the terms of a contract with a customer, the policy will be subordinate to such law, regulation or contract term. Policies are only effective on the written approval of the Chief Executive Officer.

Safety Policy S-14 HAZARDOUS SUBSTANCE COMMUNICATIONS (RIGHT TO KNOW)

SCOPE: This policy applies to all employees of MV Transportation, Inc.

PURPOSE: The purpose of this program is to ensure that all MV Transportation, Inc. employees receive hazard communication training, and understand who to contact and where to go for environmental and safety information.

POLICY: It is the policy of this Company to recognize that Federal and state laws govern employees' access to information on very hazardous substances. MV Transportation, Inc. will provide federally and/or state mandated information, training and safety equipment to all employees that work with hazardous chemicals in order to reduce the possibility of accidental exposure and to comply with the requirements of the OSHA Hazard Communication Standard.

The Maintenance Department of MV Transportation, Inc. is responsible for maintaining all buses/vehicles in good working condition.

The Company uses certain chemicals that require specific precautions to be taken to protect employees' health. Therefore, it shall be the policy of MV Maintenance to communicate any hazards associated with the handling of hazardous chemicals to our employees and contractors and have Material Safety Data Sheets and a current Chemical Substance Inventory for all chemical substances in use at a given maintenance facility on hand for reference as needed.

Date Filed / Revision Date	Description of Change

MV TRANSPORTATION, INC. CORPORATE POLICY STATEMENT

General policies of MV Transportation, Inc. are issued from time to time and are designed to provide general guidance to company managers in the conduct of the business. Policies may, from time to time, become dated or may no longer apply. In the event of questions, the policy should be referred to the General Counsel for interpretation. In the event a policy conflicts with the law, regulation or the terms of a contract with a customer, the policy will be subordinate to such law, regulation or contract term. Policies are only effective on the written approval of the Chief Executive Officer.

Safety Policy S-15 MULTIPLE MOBILITY DEVICE UNLOADING

SCOPE: The policy applies to all MV employees who operate buses or other revenue vehicles.

PURPOSE: In the event that multiple passengers in mobility devices are being de-boarded at the same location, this policy is set forth to avoid passengers left in the vehicle from potentially driving off a deployed lift as they are waiting for the driver. In addition, this policy will reduce the hazard that a deployed lift represents to the walking, jogging and biking public.

POLICY:

Multiple de-boarding passengers with mobility devices.

1. Drivers shall un-secure only the mobility device that they intend to unload and take custody unless others must be unsecured and moved in order to get another device off.
2. Lift must be placed in stowed position as driver exits the vehicle with the passenger.
3. Lift will be re-deployed as the driver prepares the next passenger to de-board the vehicle.

TRAINING

All new drivers will be instructed on the use of the lift and de-boarding multiple mobility devices at the same location. This instruction will take place while the driver is undergoing MV new-hire training. All current and existing Drivers will have this revised policy made part of their annual safety meeting training sessions and covered at least once a year in future safety meetings. All Operators will sign an acknowledgement sheet confirming the training. The Acknowledgement Sheet will be maintained as part of their individual training file.

COMPLIANCE MONITORING

All General and Safety Managers will be responsible to ensure compliance with this policy by having their staff monitor compliance of their operators.

This policy only applies when de-boarding multiple passengers in mobility devices at the same location.

Any disregard of this policy will result in progressive discipline steps which is the same as any major infraction violation of employee rules as outlined in the MV employee handbook.

Date Filed / Revision Date	Description of Change

MV TRANSPORTATION, INC. CORPORATE POLICY STATEMENT

General policies of MV Transportation, Inc. are issued from time to time and are designed to provide general guidance to company managers in the conduct of the business. Policies may, from time to time, become dated or may no longer apply. In the event of questions, the policy should be referred to the General Counsel for interpretation. In the event a policy conflicts with the law, regulation or the terms of a contract with a customer, the policy will be subordinate to such law, regulation or contract term. Policies are only effective on the written approval of the Chief Executive Officer.

Safety Policy S-16 PASSENGER AND DRIVER SEATBELT POLICY

SCOPE: This policy applies to all employees of MV Transportation, Inc. who operate buses or other revenue vehicles

PURPOSE: The safety of our passengers and drivers is the company's paramount consideration and the reason for this policy, as traffic conditions may require the vehicle operator to make sudden stops, turns, or maneuvers. The wearing of a seatbelt ensures a safer ride and minimizes the potential for injuries to passengers and drivers.

POLICY: It is the policy of MV Transportation, Inc. that all persons (passengers and driver) being transported in vehicles equipped with passenger safety belts (seat belts) shall be required to properly don/wear the seatbelts prior to the vehicle's movement.

Drivers must check passengers prior to vehicle movement to ensure all seat belts are properly worn and fastened. Drivers will assist in fastening and unfastening seatbelts upon request or if the driver feels the belt is not worn correctly. This includes fastening the seatbelt/shoulder harness for those using wheelchairs/scooters. In addition to fastening seatbelt/shoulder harnesses for passengers in wheelchairs, the operator must secure all wheelchairs and scooters by ensuring that the wheels are properly restrained/tied-down and the brakes are locked prior to vehicle movement.

Customers who refuse to wear seatbelts or seatbelt/shoulder harnesses will not be transported. However, an exception may be made for customers whose disability prohibits them from wearing seatbelts provided the procedures set forth below are followed.

Passenger refusal or special request: If a passenger refuses a seatbelt or requests the belt be worn loosely because of a disability, the operator must call into dispatch and must not move the vehicle until cleared by a supervisor or dispatch. In vehicles equipped with DriveCam devices, the driver is also required to activate the DriveCam device via the manual activation button and restate the passenger's refusal to don the seatbelt or to have the seatbelt fastened in a loose manner.

Note: If the dispatch function is not performed by MV Transportation the drivers is still required to call in to dispatch, (for recording purposes only) and record the refusal on the DriveCam device.

TRAINING:

All new drivers will be instructed on the use of seat belts in vehicles equipped with seatbelts. This instruction will take place while the driver is undergoing MV new-hire training. All current and existing Drivers will have this revised policy made part of their annual safety meeting training sessions and covered at least once a year in future safety meetings. All Operators will sign an acknowledgement sheet confirming the training. The Acknowledgement Sheet will be maintained as part of their individual training file

COMPLIANCE MONITORING:

All General and Safety Managers will be responsible to ensure compliance with this policy by having their staff monitor compliance of their operators.

This policy only applies to vehicles equipped with seatbelts and shoulder harnesses. These devices are to be used by all riders, including those who use wheelchairs as well as those who use vehicle seats, if seatbelts and/or shoulder harnesses are provided at seating locations.

Any disregard of this policy will result in progressive discipline steps which is the same as any major infraction violation of employee rules as outlined in the MV employee handbook.

Date Filed / Revision Date	Description of Change

MV TRANSPORTATION, INC. CORPORATE POLICY STATEMENT

General policies of MV Transportation, Inc. are issued from time to time and are designed to provide general guidance to company managers in the conduct of the business. Policies may, from time to time, become dated or may no longer apply. In the event of questions, the policy should be referred to the General Counsel for interpretation. In the event a policy conflicts with the law, regulation or the terms of a contract with a customer, the policy will be subordinate to such law, regulation or contract term. Policies are only effective on the written approval of the Chief Executive Officer.

Safety Policy S-17 SUBJECT TITLE

SCOPE: This program applies to all MV Transportation, Inc. (MV) employees who wear any type of respirator (except a nuisance dust mask). Visitors and outside contractors are to also be informed of all identified respiratory hazards when in affected areas.

POLICY: It is the policy of MV Transportation to provide proper protective equipment in areas containing airborne concentrations of hazardous chemicals or other airborne contaminants.

IDENTIFICATION OF HAZARDS:

MV will attempt to utilize ventilation and other engineering controls to minimize airborne contaminants. Nevertheless, MV employees periodically may be exposed to circumstances which require the use of respiratory protection. Such situations will usually involve the use of solvents, paints, strippers, cleaning compounds, and certain fuel products. Welding, grinding, cutting, or other metal work may also require respiratory protection. The local Safety Manager and Facility Manager will determine the appropriate respiratory protection required for a given area of operation and post a list as follows:

The operations or areas listed in Table 1 have been identified as having the potential for respiratory hazards:

Area/Operation	Type of Respirator Required
Spot Painting	Half-face APR, equipped with HEPA filter cartridges

Table 1. Areas where Respiratory Protection is Required

Training in hazard recognition for employees will be conducted by local maintenance management. If conditions during a particular job are grossly different from those anticipated, the employee should contact his supervisor for instructions on the appropriate respiratory protective measures.

ACTION LEVELS: MV Transportation has established certain action levels, or criteria, concerning the use of respiratory protection. The following conditions will always require the use of respiratory protective equipment:

1. IDHL conditions (Immediately Dangerous to Life and Health).
2. Oxygen deficient (19.5% oxygen) or enriched (25% oxygen) atmospheres.
3. Atmospheres with exposures exceeding established exposure limits (PEL, REL, TLV)
4. Atmospheres containing or potentially containing airborne biological hazards.
5. The presence of toxic or irritating contaminants for which no exposure standards have been established.
6. Valid reports of previous injury, illness, or symptoms of exposure related to airborne contaminants at a particular location.
7. Presence or potential for release of flammable or explosive gases, vapors, or dusts.
8. Airborne asbestos concentrations of 0.01 fibers/cc or greater.
9. Unknown atmospheres determined to have a reasonable potential for any of the above conditions to exist.

Other conditions or combinations of conditions may require the use of respiratory protective equipment as well. Such determinations will be made by the local GM/maintenance manager in consultation with his/her Area Safety Director or VP of Safety.

SELECTION OF RESPIRATORY EQUIPMENT:

The General Manager/maintenance manager, in consultation with his/her Area Safety Director or VP of Safety will determine the appropriate respiratory protective equipment for each project or task. Selection will be based upon the anticipated hazards present at the work site. Only NIOSH-approved respiratory equipment will be used by all MV employees. Table 2 gives general guidelines for determining appropriate respiratory protection. The Purchasing Department will assist with all purchases of respiratory equipment.

Condition	Recommended Equipment
Particulate contamination only, less than 10x the PEL	Half-face APR, equipped with HEPA filter cartridges, or half-face supplied air respirator operated in continuous flow mode
Particulate contamination only, 10-50x the PEL	Full-face APR or PAPR, equipped with HEPA filter cartridges, or full-face supplied air respirator, operated in continuous flow mode
Chemical contaminants, 10-50X the PED and less than 1000 ppm (1%) regardless, skin or eye hazard	Half-face APR, equipped with approved chemical cartridges, or full-face supplied air irritant, splash or projectile respirator, operated in continuous flow mode
Concentrations of any particulate contaminant greater than 50x the PEL or greater than 100 ppm (1%) regardless, IDLH conditions, presence of contaminants with poor warning properties, oxygen deficiency or enrichment, or the presence of unknown atmospheres	Full-face supplied air respirators, operated in the positive pressure, pressure-demand mode (SCBA, airline)

Table 2. General Guidelines for the Selection of Respiratory Equipment

CHANGING OF RESPIRATOR CARTRIDGES:

HEPA cartridges are to be changed when breathing through them becomes difficult, or when they become wet or otherwise damaged. Chemical cartridges will be changed at the first sign of contaminant breakthrough, or when the cartridge becomes wet or damaged. In high-use conditions, chemical cartridges will be changed at least at the end of each workday.

CLEANING AND STORAGE OF RESPIRATORS:

Each employee will clean and disinfect any respirator they use. They will clean the respirator at least at the end of each work day that it is used. If a respirator is used by more than one employee, it will be fully cleaned and disinfected between each use.

Contaminant	Cartridge or Canister Color
Acid gases	White
Hydrocyanic acid gas	White with a 1/2 inch green stripe
Organic vapors	Black
Ammonia gas	Green
Acid gases and ammonia gas	Green with a 1/2 inch white stripe
Carbon monoxide	Blue
Acid gases and organic vapors	Yellow
Hydrocyanic acid gas and chloropicrin vapor	Yellow with a 1/2 inch blue stripe
Acid gases, organic vapors, and ammonia gases	Brown
Radionuclides	Purple (Magenta)
Particulates	Canister color previously designated, with a 1/2 inch gray stripe

Table 3. Color Codes for Respirator Cartridges and Canisters

Cleaning may require the use of special decontamination solutions or procedures. At a minimum, cleaning of cartridge-type respirators will consist of removing the respirator cartridges and washing the facepiece in a detergent solution, followed by a thorough rinse. Hood respirators should be thoroughly wiped out with a disinfectant solution and allowed to dry. Disinfection may be done with alcohol wipes or a solution of 2 tablespoons

Clorox to a gallon of water. The Clorox solution will be used to disinfect any respirator that is to be stored for more than three days.

After use, each respirator will be cleaned and disinfected, allowed to dry, and placed in a sealed plastic bag for storage. Respirators assigned to a single person shall be clearly marked. They will be stored in a single layer, in a manner that does not distort the facepiece, and objects shall not be placed on top of respirators.

Respirators should be placed on hook or hangers, and not left in the open work area.

INSPECTION OF RESPIRATORS:

Respirators will be inspected by employees for defects and missing parts prior to each use, and during each cleaning and disinfection procedure. Necessary repairs will be made, and missing parts will be replaced before the respirator is put into service. The Department Supervisor will also perform a monthly inspection of respirators to ensure that they are being properly maintained. The Facility Manager will also perform quarterly inspections, and random inspections as appropriate. Inspections will be documented and retained in facility file.

who use respirators should have an examination at least annually, or more often, as determined by the company physician. Employees who choose to be tested will receive the full results of all test and analyses performed.

FIT TESTING: All employees will be qualitatively fit-tested prior to using respirators. Employees may be fit-tested and approved for additional respirator types. No employee may wear any respirator without being fit-tested for that size and model. Fit-tests will be performed whenever there is significant change in the physical features of the respirator wearer.

PROHIBITED PRACTICES:

1. Certain conditions interfere with the proper sealing of the respirator face piece. Other practices may increase the user's risk of exposure or injury. The following practices are forbidden for MV employees wearing any respirators EXCEPT hood respirators:
2. Wearing of beards, sideburns, facial hair or headpieces
3. that extend beneath the sealing surface of the respirator face piece.
4. The following practices are forbidden for ALL MV employees wearing any type of respirator:
5. Eating, drinking, or smoking while wearing a respirator.
6. Wearing glasses or jewelry that interferes with the proper sealing of the respirator.
7. Wearing contact lenses while using respirators.
8. Wearing earrings while using respirators.
9. Wearing a shared respirator while suffering from an infectious disease.
10. Altering or modifying any part of function of a respirator in such a manner that would impair its designed functioning or void its NIOSH/MSHA approval.

TRAINING AND INFORMATION PROGRAM:

The Respiratory Training Program is designed to inform MV employees of the proper methods of evaluating and controlling exposures to airborne contaminants. They will also be trained by supervisors and local maintenance managers in the proper use and maintenance of respiratory equipment. All training must be documented, with a copy of such document kept on file at the facility

The following information will be covered in the training program:

1. A copy of the OSHA Respirator Protection Standard
2. A copy of this Company policy regarding respirators
3. Signs of symptoms of respiratory exposures

4. Types of airborne contaminants
5. Areas and operations requiring the use of respirators
6. Types of respirators
7. Methods for selecting respirators
8. Limitations of respirators
9. Inspection and maintenance of respirators (including hands-on exercises)
10. Qualitative fit testing

DEFINITIONS: Certain words and terminologies appear frequently in the OSHA standards, and in the material safety data sheets (MSDS). This section gives definitions for many such common terms. The meaning of these words is important in understanding how to select and use proper respiratory protection.

Aerosol - Any finely divided particulate matter that has a tendency to remain in the air. Aerosols can be solids (dusts, fumes) or liquids (mists, fogs).

Air-Purifying Respirator (APR) - Any respirator designed to filter, absorb, or otherwise remove contaminants from the surrounding atmosphere.

Air Sampling - Any process used to collect and analyze the contents of air in a given area.

Airline Respirator - A respirator designed so that air flows from a remote location (such as a compressor or air tank) through a hose, to the face piece.

Atmosphere-Supplying - Any respirator designed to receive air from a clean source, independent of the surrounding atmosphere

Canister - The filtering and/or absorbing element used in gas masks, usually resembling a large metal can with a threaded fitting on one end, and a hole for air intake in the other.

Cartridge - The filtering and/or absorbing element used in air purifying respirators. They may be short metal or plastic cylinders, and are usually threaded on one end, with a hole for air intake on the other.

Continuous Flow - Airflow design which forces a constant flow of air through the respirator face piece.

Demand Flow - Airflow design which requires a negative pressure inside the respirator face piece to open the admitting valve and allow fresh air to flow inside.

Dust - A finely divided solid produced by crushing, grinding, or abrading a material. It is not chemically different and it has the same basic properties as the original substance.

Dust Mask (Nuisance) - A mask designed to filter large particles from the air. Dust masks are not generally considered effective respiratory protection for most contaminants.

Fog - A liquid aerosol that has become concentrated enough to obscure vision.

Full Face Piece - A face piece designed to cover the entire front of the face.

Fume - A very fine, solid aerosol formed by heating metals to high temperatures. Fumes are mainly encountered when welding or cutting zinc and magnesium containing metals.

Half Face Piece - A face piece designed to cover the nose, mouth, and chin area of the wearer.

HEPA Filter - High Efficiency Particulate Air filter; used to remove very small aerosols from the air, including asbestos fibers and fumes.

Hood Respirator - A respirator designed to cover the wearer's entire head and shoulders. Air flows into the hood through a hose, and out the bottom of the hood.

Mist - A liquid aerosol.

Negative Pressure - A face piece design which allows the air inside the respirator face piece to fall below that of the atmosphere outside the face piece. If a leak develops contaminants will be drawn into the face piece.

Occupational Exposure Limit - An industry-accepted guideline for safe concentrations of an airborne contaminant. The PEL, TLV, and REL are all occupational exposure limits. The best practice is to use the lowest of the three values.

Organic Vapor - A gaseous form of matter, formed by the evaporation of an organic compound.

PAPR (Powered Air Purifying Respirator) - An air purifying respirator which uses a battery-driven fan to force air across the filter cartridges and through the user's face piece. PAPR allow easier breathing and are cooler to wear than standard APR.

PEL (Permissible Exposure Limit) - A value established by the Occupational Safety and Health Administration (OSHA). It is the maximum concentration of an airborne contaminant to which a worker may be safely exposed for an 8-hour day. The PEL is a legal, regulatory limit, not a recommendation.

Positive Pressure - A face piece design which ensures that the air pressure inside the respirator face piece is always greater than the pressure outside the face piece. This way, if a leak in the mask develops, air flows out of the face piece.

Pressure Demand Flow - Airflow design which maintains a pressure inside the face piece that is constantly greater than outside, even when the wearer is breathing heavily.

Protection Factor - A number which indicates the effectiveness of a respirator. The occupational exposure limit is multiplied by the protection factor to determine the highest concentration of a contaminant from which the respirator will protect a worker. The formula is $PF \times OEL = MUC$. (PF = Protection Factor, OEL = Occupational Exposure Limit, MUC = Maximum Use Concentration)

REL (Recommended Exposure Limit) - An occupational exposure limit published by the National Institute of Occupational Safety and Health (NIOSH). The REL is a guideline, not a legal limit.

SCBA (Self-Contained Breathing Apparatus) - Any of a variety of respirators designed to receive air and/or oxygen from compressed gas tanks carried in a harness on the back of the wearer.

STEL (Short-Term Exposure Limit) - The highest concentration of an airborne contaminant to which a worker may be exposed for 15 minutes or less.

TLV (Threshold Limit Value) - An occupational exposure limit published by the American Conference of Governmental Industrial Hygienists (ACGIH). The TLV is a guideline, not a legal limit.

SUPPLEMENT A: HOW TO PERFORM FIT TEST:

The fit test is necessary to ensure that a respirator provides the desired protection. The following text provides basic instructions for performing respirator fit tests. The fit testing should be conducted by a knowledgeable individual, capable of determining pass or fail criteria.

Fitting the Face Piece: The wearer should be shown how to put on the respirator, and adjust it properly. The tester should examine the mask to ensure that it appears to be correctly adjusted. The mask should be fairly comfortable. Straps should not be pulled too tight, causing them to dig into the skin. The respirator should allow the worker to wear any necessary safety equipment, such as hard hats, earmuffs, etc. If using a tight-fitting face piece (i.e. not using hood-type respirators) the wearer should not have any interfering facial hair, such as beards or stubble.

Positive Pressure Test (not applicable to hood respirators): The wearer should seal off the exhalation valve on the respirator, and exhale gently into the face piece. If the respirator fits properly, a slight pressure should develop in the mask, with no sign of leakage. The design of some respirators makes this test difficult.

Negative Pressure Test (not applicable to hood respirators): The wearer should seal off the cartridge inlets, inhale, and hold his breath for about 10 seconds. A vacuum should be created inside the face piece, collapsing it slightly. Air should not leak into the face piece.

Qualitative Fit Test (challenge atmosphere): The qualitative fit test places the respirator wearer in an atmosphere which contains a readily detectible contaminant. If the respirator fits properly, the wearer should not be able to detect the contaminant during the test.

The testing agent recommended is stannic chloride, the component found in ventilation smoke tubes. It is irritating and easy to detect in small concentrations. A saccharin mist may also be used. Respirators should be equipped with HEPA filter when using these agents.

Isoamyl acetate (banana oil) may also be used. Organic vapor cartridges should be used when testing with isoamyl acetate.

A. Setting Up The Test:

Select an open, well-ventilated area for the fit test. Suspend a plastic drum liner or trash bag from the ceiling, at a height that will allow a person to stand with their head and shoulders inside the liner or bag. Prepare a smoke tube by breaking off both ends, and attaching a rubber squeeze bulb to the end of the tube. Smoke should come from the open end of the tube when the bulb is squeezed. Respirator wearers should stand underneath the bag while smoke is pumped inside. Three or four puffs of smoke are usually sufficient. Stannic Chloride is an eye irritant. The eyes should remain closed during the test if the wearer is fitting a half-face respirator.

B. Exercises During Testing:

To ensure that the respirator will provide adequate protection, wearers should perform exercises that simulate work movements. The following paragraphs describe recommended exercises for fit testing.

Exercises for Tight-Fitting Face Pieces:

1. Breathe normally
2. Breathe deeply
3. Turn head from side to side
4. Look up and down
5. Shake head fairly rapidly
6. Talk, recite alphabet, or read a prepared text

Exercises for Hood Respirators:

Use the same exercises as for tight-fitting respirators, and:

1. Hold arms out in front, and move torso from side to side
2. Hold arms over head
3. Bend down and touch toes. (During this exercise the tester may have to puff additional smoke around the bottom of the hood since the wearer will likely be out of the bag.)

C. Fit Test Form:

The tester should complete the respirator fit test form, indicating the wearer's name, the size, brand, and model respirator used, test agent, name of tester, whether the wearer passed or failed the fit test, and the date. Both the tester and the respirator user

should sign the fit test form. The respirator fit test form should be filed in the employee's permanent personnel record. A copy should also be filed in the respiratory protection folder, under fit test records.

MV TRANSPORTATION, INC. CORPORATE POLICY STATEMENT

General policies of MV Transportation, Inc. are issued from time to time and are designed to provide general guidance to company managers in the conduct of the business. Policies may, from time to time, become dated or may no longer apply. In the event of questions, the policy should be referred to the General Counsel for interpretation. In the event a policy conflicts with the law, regulation or the terms of a contract with a customer, the policy will be subordinate to such law, regulation or contract term. Policies are only effective on the written approval of the Chief Executive Officer.

Safety Policy S-18 DRIVERS - PREPARED FOR WORK

SCOPE: This policy applies to all drivers for MV Transportation, Inc.

POLICY: It is the policy of this company that all drivers are professionals who come to work well rested and prepared to provide a full measure of customer service.

PROCEDURE:

The company is committed to the safety of its passengers and employees. All drivers must arrive at work on time and properly rested.

Drivers are to be licensed in the State where they have true, fixed, and permanent homes and principal residences, and to which they have the intention of returning after an absence involving an assignment.

Grooming and uniforms must be in accordance with company policy.

DOT Logs (where applicable), DOT medical card, and Driver's License must be valid and current.

Date Filed / Revision Date	Description of Change

MV TRANSPORTATION, INC. CORPORATE POLICY STATEMENT

General policies of MV Transportation, Inc. are issued from time to time and are designed to provide general guidance to company managers in the conduct of the business. Policies may, from time to time, become dated or may no longer apply. In the event of questions, the policy should be referred to the General Counsel for interpretation. In the event a policy conflicts with the law, regulation or the terms of a contract with a customer, the policy will be subordinate to such law, regulation or contract term. Policies are only effective on the written approval of the Chief Executive Officer.

Safety Policy S-19 DRIVERS - PROVIDING FIRST AID

SCOPE: This policy applies to all drivers for MV Transportation, Inc.

POLICY: It is the policy of this Company that in the event of an injury or illness involving a passenger, a driver will contact dispatch and have them call emergency medical response providers (911). MV Drivers are not trained in emergency medical response/treatment and are not expected nor encouraged to provide such services/assistance.

PROCEDURE:

The driver will attempt to identify any persons aboard, such as a doctor, nurse, or other person trained in medical treatment/first aid, who could assist an ill or injured passenger. If there is no professional help aboard, the driver is to summon professional medical help by calling dispatch, who, in turn, will call 911 for local emergency response.

No driver is required to make physical contact with any person where there is any evidence of spilled blood or other body fluids. This issue is covered under another policy relating to Blood-Borne Pathogens.

In the event a policy conflicts with the law, regulation or the terms of a contract with a customer, the policy will be subordinate to such law, regulation or contract term. Policies are only effective on the written approval of the Chief Executive Officer.

Safety Policy S-20 ENERGIZED CIRCUITS AND EQUIPMENT - SAFE WORK PRACTICES

SCOPE: This policy applies to all employees in work areas with electrical circuits or equipment operating at nominal voltages of 50 volts or more.

POLICY: It is the policy of MV Transportation, Inc. to recognize the serious hazards posed by energized electrical equipment and ensure that all employees will comply with all applicable requirements of national and local electrical codes.

Only experienced, certified electricians will be allowed to perform installation and repairs of electrical circuits and equipment. Lock-Out/Tag-Out (LO/TO) procedures as described in this manual will be used when working on energized circuits or equipment.

RESPONSIBILITY: It is the responsibility of all supervisors and employees to handle electrical equipment according to codes (national and local) as well as to use safe work practices.

PROCEDURES: The following procedures must be followed by all employees performing work on electrical circuits and equipment:

- Before any inspection or repairs are made to electrical equipment or circuits (including wall receptacles and lighting fixtures), it will be de-energized, and if necessary, locked out as described in this manual - Lockout/Tagout Procedures.
- Electrical work involving live circuits will not be performed in flammable or explosive atmospheres.
- Conductive clothing, such as jewelry and watches, will not be worn while performing electrical work unless adequately insulated.
- If work is to be performed near power lines, MV management will contact the power company to have the lines de-energized and grounded, if possible. The General Manager will also consult with facility electricians or electrical contractor.
- Unqualified employees and all equipment will be kept at least 10 feet from overhead power lines.
- When mechanical equipment is being operated near overhead power lines, employees standing on the ground will not touch the equipment.
- Portable ladders used for electrical work will not be constructed of metal, nor will they have metal strips or other conductive materials affixed to the side rails.
- No work, including the handling of power and extension cords, will be performed while the employee or his clothing is wet or damp.
- No electrical work will be performed outdoors during rainy weather.
- Adequate lighting must be in place for all work.
- Alerting techniques must be used to warn other workers in the area of any electrical hazard. Alerting techniques may be one of the following:
 - o Safety signs and tags
 - o Barricades
 - o The presence of another person acting as an attendant

ELECTRICAL EQUIPMENT AND TOOLS:

All tools and equipment which use or may come in contact with electrical currents must meet the following requirements:

- Tools and equipment will be kept in good working condition. Employees will inspect tools before each use and at the end of each shift. Defective equipment will be tagged and removed from service.
- Tools will be used consistently with their designated purpose.
- No attempt will be made to improvise insulation on tools, such as taping.

- Conductors and equipment shall be protected in accordance with their rated loads.
- Electrical cords will not be used for raising, lowering, or otherwise handling portable electric equipment.
- Proper fuse handling equipment should be used for removing and replacing fuses.
- Any ropes or lines used in electrical work must be non-conductive.

A. Splices:

- Power cords and conductors will be spliced or joined using properly designed connectors, or by soldering, brazing, or welding.
- All joints, splices, and free ends of power cords and conductors will be covered with an insulation equivalent to that of the conductor or with an insulating device suitable for the purpose.

B. Markings:

- Markings on electrical equipment will show voltage, wattage, and ratings as necessary.
- Each service, feeder, or over-current device must be legibly marked to indicate its purpose unless it is arranged so the purpose is evident.

C. Guarding:

- Live parts of electrical equipment operating at 50 volts or more will be guarded by approved cabinets or enclosures, or by locating the live parts so they are not subject to accidental contact.
- Entrances to guarded location containing live electrical parts will be marked with appropriate warning signs.

D. Grounding:

- The path to ground from circuits, equipment, and enclosures shall be permanent and continuous.
- Equipment located in wet or damp locations will be grounded.
- Equipment used in metal tanks or on metal floors will be grounded.
- A grounding electrode conductor must be used to connect both the equipment grounding conductor and the grounding electrode conductor to the grounded circuit conductor on the supply side of the system disconnecting means or over-current devices.
- Equipment and tools used in damp or wet area will be connected to circuits equipped with a Ground-Fault Interrupt system (GFI). This system will be installed and maintained by a qualified electrician.
- Double-insulated tools are exempted from grounding requirements.

E. Flexible Cords and Cables:

- Flexible cords and cables are not to be used as substitutes for fixed structural wiring where they are attached to building surfaces, concealed, or run through floors, walls, ceilings, doorways, windows, and similar openings.
- Flexible cords will be used only in continuous lengths, without splice or tap, except that hard service flexible cords No. 12 or larger may be repaired if properly
- spliced.
- Flexible cords must be connected so that strain relief is provided to prevent pull from being transmitted directly to joints or terminal screws.
- All extension cords will be UL-approved, of the three-prong grounding type, with the grounding prong intact.
- Employees will avoid kinking and excessively bending extension cords.
- The ground wire on plug adapters will not be cut and must be properly attached to wall outlet.
- No more than one plug adapter may be used on a duplex wall receptacle.

F. Work on Live Circuits:

- If work on live circuits is unavoidable, it will be performed only by a qualified, experienced electrician, and only with the approval of the General Manager. The electrician and the General Manager will determine appropriate protective measures which shall include but not be limited to the following:
 - o At least 2 people will be present during the work.
 - o Only double-insulated power tools, and insulated hand tools will be used.
 - o Work will be performed using the "one-hand rule". (The one-hand rule states that one hand will remain at the side or in the pocket, so in the event of contact with energized components, electrical current would be less likely to flow across the chest area. Current flow across the chest could result in cardiac arrest or other heart damage.)

Note: If two hands are necessary, certified lineman's gloves will be worn.

INSPECTIONS: The General Manager will inspect electrical circuits and apparatus each month during general safety audits.

NOTE: ALL RECEPTACLES WILL BE TESTED FOR REVERSE POLARITY.

Division supervisors and employees are responsible for examining tools and apparatus for defects in their work area. Such defects should include, but not be limited to, missing covers, frayed insulation, loose connections, burning smells, crackling noises, etc. Any problems should be reported to the Facility Manager for immediate correction.

Reference OSHA 29CFR 1910.301-308 and 29CFR 1910.331-335.

Date Filed / Revision Date	Description of Change

MV TRANSPORTATION, INC. CORPORATE POLICY STATEMENT

General policies of MV Transportation, Inc. are issued from time to time and are designed to provide general guidance to company managers in the conduct of the business. Policies may, from time to time, become dated or may no longer apply. In the event of questions, the policy should be referred to the General Counsel for interpretation. In the event a policy conflicts with the law, regulation or the terms of a contract with a customer, the policy will be subordinate to such law, regulation or contract term. Policies are only effective on the written approval of the Chief Executive Officer.

Safety Policy S-21 FACILITY EMERGENCY ACTION PLAN

SCOPE: This policy affects all MV Transportation, Inc. Divisions.

POLICY: It is the policy of this Company that each MV facility (Division) develops and implements a written Emergency Action Plan. This plan must address, at a minimum, the elements specified in the Minimum Requirements for Emergency Action Plans.

RESPONSIBILITY: All General Managers are required to develop, maintain, update and provide necessary training to ensure employees are aware of various life threatening situations, and know appropriate procedures to be followed during an emergency event. The Safety Department and the Area Safety Directors are available to assist as needed.

MINIMUM REQUIREMENTS FOR EMERGENCY ACTION PLANS:

Emergency Action Plans used by MV Transportation, Inc. (MVT) facilities must include the following elements:

- Persons responsible for implementing and updating the plan.
- Methods of notifying employees of emergency situation.
- Map of facility, clearly indicating exits.
- Methods to be used for marking exits.
- Requirements for keeping exits clear.
- Methods and routes of evacuation.
- Any codes used to identify specific events.
- Phone numbers for local police, fire and medical services.
- Phone numbers for any Facility Emergency Action personnel.
- Employee training and drills.
- Posting requirements.
- Inspection procedures.

Placement of buses/vehicles for security and safety.

Specific actions for dealing with the following emergencies/contingencies:

- Severe weather
- Bomb threats
- Fire and explosion
- Flooding
- Sabotage
- Snipers or shooters
- Procedures for plant shutdowns
- Hurricanes and tornadoes
- Civil strife
- Earthquakes
- Heighten security levels

A. General Requirements:

The Facility Emergency Action Plan is a written program addressing all the elements listed above. The plan should be simple and direct, using uniform emergency procedures (i.e.: evacuations). Emergency drills must be performed at least annually.

The emergency action plan needs to address the specific actions your location will take if an emergency occurs. Management and supervisory employees should be aware of any specific actions they or other designated employees are to take during the emergency. General Managers need to ensure all Division employees are knowledgeable/trained with the contents of the plan and the specific actions required from them in case of emergency. General Managers must provide an updated copy of the plan to their respective VP of Safety.

The VP of Safety and the Area Safety Directors are available to assist General Managers in drafting their Division's Emergency Action Plan.

EMERGENCY ACTION PLAN TEMPLATE:

The following is the template for MVT facilities' Emergency Action Plans. This template provides minimum requirements and can be modified to meet local requirements and/or operating environment.

Persons Responsible for Plan Implementation:

General Manager: The Facility Manager is responsible for maintaining and updating the plan. The General Manager must approve all revisions or changes to procedures specified in the written plan. This individual is responsible for ensuring that emergency equipment remains accessible, and is in good working order. The General Manager is also responsible for scheduling drills and employee training sessions. Training must be documented.

General Managers are responsible for the following:

- Inspecting and maintaining emergency equipment located in their respective areas.
- Ensure that all employees receive the necessary training and information specified under this plan.
- Properly maintain any signs, bulletin boards, posters, or other information posted in their area.
- Ensure the orderly evacuation or relocation of their employees during emergencies and drills.
- Document all training and retain such documentation in the Division's training file.

Employees: Division employees are responsible for attending scheduled training sessions, familiarizing themselves with the location of exits, understanding the facility's emergency notification systems, and following the instructions of this plan and their supervisors.

TEMPLATE / FORMAT

A. Facility Notification System:

The MV Transportation, Inc. facility located at _____ is equipped with a system of fire alarms. These alarms include smoke detectors and employee-activated alarms. Hearing any of these alarms indicates that an emergency situation has occurred somewhere in the facility. Instructions for appropriate action will be issued by management/dispatch. If instructions are not received immediately, employees should report to the parking lot or other designated safe location, and remain there until dismissed by their supervisors. Management is responsible to assure all employees are accounted for and out of the building.

The MV Transportation, Inc. facility located at _____ is also equipped with a facility-wide public address system. In the event of an emergency, instructions will be issued over the PA system, stating the nature of the emergency, and the appropriate action to be taken.

B. Facility Map:

A map of this facility (Appendix A), clearly identifying emergency exits, alarms, and equipment is posted on bulletin boards. Maps must be posted in all employee common areas and dorm rooms.

C. Marking of Exits:

All emergency exits at MV facilities shall be clearly marked; using illuminating signs (where applicable) marked "EXIT", in letters at least 6 inches high.

Doors that do not lead to exits, but might be mistaken as such shall be clearly marked "NOT AN EXIT."

D. Emergency Exits Requirements:

- MV facilities must be equipped with a sufficient number of exits to allow the rapid and orderly evacuation of all personnel.
- Emergency Exits and the approach to Exits must be kept clear at all times.
- Emergency Exits doors must remain unlocked at all times during hours of operations or while employees are present. They are to be unobstructed at all times.
- All Emergency Exits must discharge to a street or other open space (parking lot, etc) that gives ready access to a public way.
- Emergency Exits doors serving 50 or more people must swing in the direction of exit travel.
- In hazardous areas, or where there is a chance that one Emergency Exit may become blocked by fire or smoke, at least two separate and remote Emergency Exits must be in place.
- Doors to any employee work area must be designated so that workers cannot be locked inside a room at any time.

E. Methods and Routes of Evacuation:

- Evacuation involves removing employees or customers from the facility/building. It is used when conditions inside the facility buildings become threatening to the life, health and/or safety of occupants, such as in the instance of fires and explosions.
- Relocation involves moving employees from one facility to another. It is used in the event of external threats, such as severe weather, civil disorder or security contingency.
- Management should identify where to go when an emergency requires the evacuation of the facility or relocation to an alternate facility. Facility Evacuation Routes and Relocation Maps directing employees to the designated alternate location should be part of the written emergency plan (App. C & D). Management needs to identify essential equipment or supplies needed at the alternate site.
- The emergency action plan shall also include details on who (managers, supervisors, etc.) will perform specific duties, such as ensuring customers and employees receive instructions on how to safely exit the building.
- MV managers may initiate either employee evacuation or relocation in an emergency. When an evacuation or relocation order is issued, employees and customers will be instructed where to go. Employees should report to this location and remain there until further instructions by their manager or other competent authority. Supervisors must account for all members of their work crews.

F. Phone Numbers for Fire, Police and Medical Services:

The following numbers are provided for use in emergencies and must be posted for employees to see (Appendix E):

POLICE: _____

FIRE: _____

MEDICAL AID: _____

BUILDING SECURITY: _____

BUILDING MANAGER: _____

GENERAL MANAGER: _____

G. Employee Training and Drills:

All MV employees will receive initial training in the implementation of this Emergency Action Plan. Training will cover the contents of the plan and its required actions. Such training will be scheduled by the General Manager and documented at time of hire.

Subsequent training and drills will be performed and documented at least annually to ensure that employees remain familiar with the information in the emergency action plan, and proper evacuation and relocation procedures.

H. Posting Requirements:

Emergency exit information and emergency reporting information must be placed in a visible location in each work area. A copy of the Emergency Action Plan and the facility map should be located in an area where employees

congregate – near general bulletin board and time clock.

I. Inspection Procedures:

The General Manager will review the condition of the facility's emergency action preparedness program twice per year as part of a general safety audit. He will also perform random inspections as appropriate.

General Managers are responsible for ensuring the emergency equipment, posters, and information in their work area is kept in good condition and up-to-date. They will also ensure that all employed in their work crews receive appropriate training and orientation in the emergency action plan.

J. Facility Access Control:

Each facility must have designated procedures to control access to the facility. Facility access needs to be allowed or restricted as needed (i.e.: increased terror alert levels may dictate restricted access to the facility). Special consideration / regular inspection needs to be given to the following:

- Perimeter security fences
- Access gates/doors
- Employee-only areas
- Bus/vehicle holding lots
- Exterior/interior security cameras and lighting systems
- Vendor access procedures

K. Bomb Threats:

- Employees will receive training on bomb threat procedures. A copy of the telephone bomb threat checklist is attached (Appendix B).
- All bomb threats must be promptly reported via the MV Event Notification procedures.

L. Unattended Baggage/Packages:

All employees must be encouraged to maintain a high degree of awareness for unattended bags or packages, particularly if they appear out of place or hidden. If it looks out of place, question it and notify management or local law enforcement authorities / security personnel (as appropriate). Employees will receive training on unattended baggage and package procedures.

M. Suspicious Individuals Or Activity:

All employees must be encouraged to maintain a high degree of awareness of their surroundings and working environment, and to take note of suspicious individuals or activities. Employees will receive training on suspicious individuals or activities procedures.

N. Fire and Explosion:

In case of a fire or explosion, the following procedure should be used:

- Immediately trigger the fire alarm and contact management. Inform them of the location, size and status of the blaze. Managers will notify the fire department of the problem and dispatch additional personnel to assist in controlling the fire (as safety allows).
- Attempt to control the fire with the appropriate extinguisher, if this can be done safely. (implies mandatory fire extinguisher training annually)
- Wait for further instructions from management.
- Should evacuation or relocation be necessary:
- Shut down operations in the work area if these can be done safely.
- Report to the location specified in the PA announcement, or as directed by the facility manager.
- Remain at that location until instructed to go elsewhere.

O. Chemical Spills/Fuel Leaks:

On-site personnel will handle surface spills with absorbent. Immediately contact the Maintenance Department and your Area Safety Director if a spill cannot be handled by onsite personnel or if the spill impacts soil or waterway conveyance.

P. Flooding:

Flooding does not typically occur without warning. Some time for preparation is usually possible. The General Manager will determine the appropriate action to be taken in specific instances of flooding. Consideration should be given to facility shutdown procedures, protection of assets and individuals from flooding, employee parking access and electrical and fire hazards involved.

Q. Hurricanes, Tornadoes and Other Severe Weather:

Hurricanes and tornadoes involve damaging high winds, with possible lightening, rain, and hail damage. Hurricanes occur primarily off the Gulf and East coasts. Tornadoes can occur in any location, although they are most likely in the South and Midwest. Advance notice is usually given of hurricanes, but tornadoes can strike without warning.

- Hurricanes - The General Manager will develop and implement site-specific facility shutdown and hurricane preparation procedures for each facility subject to hurricanes. Guidelines are available from local government emergency preparedness units and from the MV Safety Department.

Facilities located in hurricane-prone areas need to strongly consider purchasing supplies that can be used to secure and protect their building prior to the onset of hurricane season (typically August through December). The supplies would include items such as plywood (window/doors protection), plastic sheeting, duct tape, sand-bags, etc. These supplies need to be stored onsite for ready use when needed.

- Tornadoes and Other Severe Weather - A tornado or severe weather warning will be issued over the PA system. Specific instructions will also be given at this time.

DO NOT GO OUTSIDE to look at tornadoes!

In the event of a tornado, all employees should move to center rooms and corridors, away from windows, skylights, and other areas where there is potential for flying glass. Employees should remain in this area until the all clear is given.

R. Earthquakes:

Earthquakes are most prevalent on the West Coast, although they may occur almost anywhere. Buildings in areas prone to earthquakes should have appropriate design features, and additional steps should be implemented to prevent shifting and falling of flammable materials

containers, compressed gas cylinders, equipment lifts, etc. The General Manager of such Divisions should prepare site-specific procedures for dealing with earthquakes.

S. Civil Strife:

Civil strife may result from a variety of sources, including demonstrations and strikes. The General Manager and other management personnel will work together to issue case-specific instructions for employed facing such situations. If incidents occur spontaneously on company property, they must be reported to corporate management immediately via the MV Event Notification protocols. All employees are expected to cooperate fully with management and law enforcement agencies during such events.

T. Sabotage:

Any incident of sabotage which results in fire, injuries or other emergency situations will be dealt with as a standard emergency as previously described, except that the following additional procedures will be followed:

- The area or item suspected of being sabotaged will not be disturbed until facility security, law enforcement and/or the facility managers have had the opportunity to inspect it.
- Incidents of suspected sabotage must be reported immediately to the General Manager. The GM will call police as appropriate.
- Employees involved in the incident will remain in the area until dismissed by facility management, unless it is unsafe to do so.

U. Procedures for Facility Shutdown:

Each facility must have written facility shutdown procedures. This procedure should include the following elements:

- Operation/department shutdown priorities.
- Turning off burners and other gas-operated equipment.
- De-energizing electrical equipment or circuits.
- Shutdown of fuel pumps / underground fuel tanks
- Storage of tools and equipment.
- Inventory procedures for shutdowns.
- Planned and unplanned shutdowns.
- Personnel responsibilities during shutdowns.
- Restoring operations.

Appendices:

A. Facility Map

B. Bomb Threat Checklist

C. Directions and Map to Evacuation Site

D. Directions and Map to Relocation Site

E. List of Emergency Phone Numbers

Date Filed / Revision Date	Description of Change

MV TRANSPORTATION, INC. CORPORATE POLICY STATEMENT

General policies of MV Transportation, Inc. are issued from time to time and are designed to provide general guidance to company managers in the conduct of the business. Policies may, from time to time, become dated or may no longer apply. In the event of questions, the policy should be referred to the General Counsel for interpretation. In the event a policy conflicts with the law, regulation or the terms of a contract with a customer, the policy will be subordinate to such law, regulation or contract term. Policies are only effective on the written approval of the Chief Executive Officer.

Safety Policy S-22 FLAMMABLE/COMBUSTIBLE LIQUIDS - HANDLING AND STORAGE

SCOPE: The guidelines contained in this section apply to all MV Transportation, Inc. facilities. The term "liquid", when used in this section refers to a flammable or combustible liquid.

PURPOSE: The objective of this policy is to establish procedures for the handling and storage of flammable materials that will prevent employee injury and damage to property.

POLICY: It is the policy of MV Transportation, Inc. that all employees will comply with proper storage and handling procedures for flammable and combustible materials, as described by the Occupational Safety and Health Administration (OSHA) and the Uniform Fire Code. MV Transportation, Inc. facilities will also comply with any additional requirements of local fire codes.

PROCEDURES: Many of the flammable materials used at MV facilities are stored in portable containers, or transferred to portable containers for use. Portable containers include glass bottles or jars, metal or approved plastic containers, safety cans, metal drums, approved portable tanks, and polyethylene containers. The classification of a liquid and the type of container will determine the maximum quantity of liquid permitted. Table 1 below lists the maximum quantities for various types of containers.

A. Labeling of Portable Containers:

All portable containers will be clearly labeled according to regulations. No other material shall be placed in the container, except that for which it is labeled.

B. Transferring Class I Liquids to and from Portable Containers:

Containers used for dispensing Class I flammable liquids shall be properly grounded. When transferring a liquid, both the dispenser and receiver should be bonded. When pouring a liquid from a portable container into a smaller container, they should be bonded. (An example would be pouring thinner from a safety can into a smaller can of paint.) Proper bonding and grounding minimizes the possibility of sparking produced by static electricity. Bonding and grounding can be accomplished by using alligator clips attached with a copper wire. The alligator clips are then attached to the containers to form a bond or ground.

C. Inspecting Portable Containers:

Portable containers should be inspected regularly to ensure that they remain in good working order. The facility manager will document the conditions of portable containers during periodic inspections.

Maintenance Center managers should perform frequent spot inspections. Employees should routinely examine containers before use. A general inspection should include the following items:

- Make sure all caps and bungs are in place.
- Examine the containers for holes, cracks, chips, and corrosion.
- Examine plastic and polyethylene containers for signs of softening and other degradation.
- Ensure that smaller portable containers are properly grounded both at the container and the grounding point.
- Ensure that smaller portable containers are equipped with jumpers for bonding.
- Examine all vents and pressure relief devices.
- Ensure that containers are properly labeled.

CONTAINER TYPE	FLAMMABLE LIQUIDS				
	Class 1A	Class 1B	Class 1C	Class II	Class III
Glass or approved plastic	1 pt	1 qt	1 gal	1 gal	1 gal
Metal (other than DOT drums)	1 gal	5 gal	5 gal	5 gal	5 gal
Safety cans	2 gal	5 gal	5 gal	5 gal	5 gal
Metal drums (DOT Spec)	60 gal	60 gal	60 gal	60 gal	60 gal
Approved portable tanks	660 gal	660 gal	660 gal	660 gal	660 gal

TABLE 1. CAPACITIES FOR PORTABLE CONTAINERS AND TANKS (from Table H-12, OSHA 1910.106)

D. Inspecting Safety Cans:

Safety cans are the recommended method of transferring small quantities of flammable materials. Safety cans may not have a capacity of more than 5 gallons. They are equipped with flame arresters inside the spouts, self-closing lids, bonding points and jumpers. There are a few points to consider when inspecting safety cans. In addition to the points given above, the following additional items should be included:

- Ensure that flame arresters are in the spouts
- Check gaskets around spouts; when the can is tipped, no more than a few drops of liquid should leak out
- Ensure that self-closing lids work properly

CONTAINER AND PORTABLE TANK STORAGE INSIDE FACILITIES:

Several general rules should be observed when storing flammable and combustible materials inside buildings. MV facilities do not currently utilize indoor storage tanks that exceed 660-gallon capacities. Should larger tanks be installed in a facility, additional considerations in Section 79 of the Uniform Fire Code and OSHA 1910-106 must be addressed.

General rules for storage and use of flammable and combustible containers and tanks include:

- Class I liquids may not be used in areas where traveling vapor may contact open flames or other ignition sources.
- All containers should be kept closed when not in use.
- Only empty containers previously used for storing flammable or combustible materials, shall be treated the same as flammable material containers. Only when containers have been thoroughly cleaned and certified

as free from explosive vapors, may the containers be treated as normal, empty vessels.

- Class I, II, or III-A liquids, including waste materials, may not be stored near exits, stairways, or any other location that could interfere with egress.
- Shelving used to store containers must be of substantial construction, adequately braced and anchored. Shelves should have a lip to prevent individual containers from easily sliding off.
- Class I-A liquids may not be stored in basements.

A. Storage in Open Areas:

Flammable and combustible materials must be stored in fireproof cabinets or specially designed storage rooms. Portable containers may be used to transfer flammable materials. Quantities should be kept to the minimum amount necessary. For spray-finishing operations, quantities of flammable materials remaining outside cabinets or storage rooms are limited to the quantity of materials required for a single day's operation.

B. Storage in Cabinets:

No more than 60 gallons of a Class I or II liquid, and no more than 120 gallons of a Class III liquid may be stored inside cabinets. Storage cabinets for flammable and combustible materials must meet the following requirements:

- Equipped with self-closing, tight-fitting doors
- Labeled in conspicuous letter, "Flammable - Keep Fire Away"

C. Metal Cabinets:

- Constructed of at least 18 gauge sheet metal
- Double-walled (including doors) with at least 1-1/2 inch air space
- Doors equipped with three-point locks
- Constructed with at least a 2" sill at the bottom of the cabinet

D. Wooden Cabinets:

- Constructed of at least 1" plywood
- Shall not break down or delaminate in a fire
- All joints rabbeted and fastened in two directions with flathead wood screws
- Double doors (if so designed) shall have a rabbeted overlap of at least 1"
- Hinges mounted in such a manner that they will not dislodge or loosen during a fire

E. Inside Storage Rooms:

Large quantities of flammable materials should be stored in rooms specially designed for the storage of flammable materials. A flammable materials storage room should have the following design features:

- Appropriately designed and installed sprinkler system. Openings to other rooms equipped with a liquid-tight sill or ramp at least 4" high; in lieu of a sill or ramp, the floor may be recessed at least 4", or open-grated trenches draining to a safe location may be used.
- Shelves, racks, dunnage, scuffing, and floor overlays shall be constructed of at least 1" wood.
- In rooms where Class I liquids are stored, electrical wiring, motors, and vent fans shall be approved for use in Class I, Division II Hazardous Locations; wiring and components for Class II and III areas must be approved for general use.
- Ventilation systems must provide a complete change of room air six times per hour.
- Ventilation switches must be installed outside the storage room; if Class I materials are stored inside the room, a pilot light must be installed adjacent to the ventilation switch.
- Each storage room must have at least one clear aisle, at least 3 feet wide.
- Containers over 30 gallons may not be stacked on top of each other.
- Dispensing shall be approved pump or self-closing faucet only.
- Where Class I liquids are dispensed, drip pans equipped with spark arresters should be placed underneath dispensers; they should be checked and emptied regularly.

In addition to these design features, the quantity of material that is permitted in a storage room is limited, based upon the classification of the liquid, and the type of fire protection provided.

Table 2 lists the maximum quantities of flammable materials allowed in a storage room:

Fire Protection Provided	Fire Resistance	Maximum Size	Total Allowable Quantities (gals/sq. ft of floor area)
Yes	2 hours	500 square ft.	10
No	2 hours	500 square ft.	4
Yes	1 hour	150 square ft.	5
No	1 hour	150 square ft.	2

Table 2. STORAGE IN INSIDE ROOMS

DEFINITIONS: Certain terms appear frequently during the discussion of flammable and combustible materials. Particularly when working with materials of these natures, it is critical to understand the meanings of these terms. The following definitions are offered to help in understanding this section, and the applicable laws and regulations related to flammable and combustible materials.

Approved - Listed by Underwriters Laboratories or approved by Factory Mutual Engineering Corp.

Combustible Liquid - any liquid with a flash point at or above 100° F.

Container - a vessel designed to contain a liquid, including, but not limited to, a can, barrel, drum, bucket, or pail.

Flammable Liquid - any liquid with a flash point below 100° F.

Flash Point - the lowest temperature at which a liquid gives off enough vapors within a test vessel to form an ignitable mixture.

Portable Tank - any closed vessel with a liquid capacity greater than 60 gallons, not intended for fixed installation.

Safety Can - an approved container that holds no more than 5 gallons and has a spring-closing lid and spout cover designed to relieve internal pressure when exposed to fire.

Liquid Class	Flash Point	Boiling Point
* 1A	<73° F	100° F
* 1B	<73° F	>=100° F
* 1C	73° F - 100° F	NA
II	100° F - 140° F	NA
IIIA	140° F - 200° F	NA
IIIB	200° F	NA

*Some common examples of Class I liquids include gasoline, isopropyl alcohol, and some paint thinners. Kerosene, some heating oils, and diesel fuels are examples of Class II liquids. Motor oils, transmission fluid, and similar combustible substances which will burn, but do not do so readily, are examples of Class III liquids.

Date Filed / Revision Date	Description of Change

MV TRANSPORTATION, INC. CORPORATE POLICY STATEMENT

General policies of MV Transportation, Inc. are issued from time to time and are designed to provide general guidance to company managers in the conduct of the business. Policies may, from time to time, become dated or may no longer apply. In the event of questions, the policy should be referred to the General Counsel for interpretation. In the event a policy conflicts with the law, regulation or the terms of a contract with a customer, the policy will be subordinate to such law, regulation or contract term. Policies are only effective on the written approval of the Chief Executive Officer.

Safety Policy S-23 OSHA RECORD-KEEPING REQUIREMENTS FOR INJURY AND ILLNESS

SCOPE: The requirements of this section apply to all employees and all incidents in the workplace which are OSHA reportable injuries or illnesses.

PURPOSE: The objective of this policy is to designate reporting at MV Transportation, Inc. to establish uniform guidelines to administer the reporting and record-keeping requirements of OSHA.

POLICY: It is the policy of MV Transportation, Inc. to comply with OSHA record-keeping requirements.

RESPONSIBILITIES:

Every General Manager will designate a responsible individual to maintain the required OSHA records (OSHA Form 300A & OSHA Form 101 or equivalent) for the Division. The General Manager is responsible for certifying and posting the OSHA Form 300 from February 1 to April 1 of each year as outlined in Posting Requirements of this section.

A. OSHA Form 300:

The Log and Summary, or the OSHA Form 300 and 300A, are a convenient means of recording injuries and illnesses and for noting the extent and final outcome of each case. All entries to the log must be made within six (6) working days after the receipt of information that a recordable injury or illness has occurred, however, not every injury or illness in the workplace is recordable. The log shows when the occupational injury or

illness occurred, to whom, the regular job of the injured or ill person at the time of injury or illness, how much time is lost, whether the case resulted in a fatality, etc. The log consists of three parts; a descriptive section which identifies the employee and briefly describes the injury or illness; a section covering the extent of the injuries; and a section covering the extent of illnesses. At the end of the calendar year, the section to the right of the dotted vertical line is used to summarize the injuries and illnesses for the preceding year. OSHA 300/300A Forms are available at the local Department of Labor Office or they can be ordered from Standard Register.

Determination of OSHA-recordable cases:

After every injury the records custodian will determine whether the case is OSHA-recordable. To determine if a case is recordable the following factors must be considered:

- Was there a death, illness, or injury?
- Was the injury or illness work related; that is, was the injury or illness a result from an event or exposure in the work environment;
- If the case is an illness, record it and check the appropriate illness category on the log; or
- If the case is an injury, decide if it is recordable.

Any of the following events, if they occur in the workplace, must be recorded on the OSHA Form 300/300A:

- Death
- Medical treatment (not just First Aid) – see definitions below
- Loss of consciousness
- Restriction of work or motion

□ Transfer to another job because of the injury

B. Supplementary Form (MV Report of Injury) For every recordable injury or illness entered on the OSHA 300/300A log, it is necessary to record additional information on the MV Report of Injury Form for supplementary information:

Every state in which MV Transportation operates requires a state notification form generally known as the Employers First Report of Accident, and since the form used by each state contains all of the items as required on the OSHA 1010 (a

supplementary OSHA report) MV Transportation will use the Workman's Compensation Form in lieu of the OSHA 101 to prevent duplicate reporting. The Supplementary Form must be completed within six (6) working days after the manager has received information that any injury or illness has occurred.

LOCATION AND MAINTENANCE OF RECORDS:

The General Manager are required to maintain the two forms (the Form 300 and the supplementary 300A) at each location/division.

A. Posting Requirements:

From February 1st to April 1st of each year the Facility Manager will cause to be posted in the work place where all employees can review, a copy of the year's totals as defined on the right side of the vertical line on the OSHA Form 300A. The General Manager is responsible to assure that the totals are correct. The General Manager will have to sign and certify that the totals are true.

During every year, the records should be filed in a special folder labeled "OSHA Form 300/300A, 20__". If a MV Division has no recordable injuries or illness during the year, zeros should be placed on the line titled "total" and the form posted as required.

B. Record Retention and Access:

All record-keeping forms must be retained for five (5) years after the end of the calendar year for which they relate. If the outcome of a case changes after the calendar year for which the injury or illness occurs, the changes should be made to the original Form 300. All record-keeping forms, both current and retained, must be made available for inspection and copying by the representative of state or federal OSHA.

REPORTING TO OSHA OF FATALITY OR INCIDENTS INVOLVING MULTIPLE HOSPITALIZATIONS:

In cases of incident resulting in one (1) or more fatalities or hospitalizations of three (3) or more employees at one time, the General Manager of the Division shall immediately notify the following personnel:

- Regional Vice President
- Area Safety Director
- VP of Safety,
- Make immediate notification of the incident via the MV Serious Event Notification System

These incidents must also be reported directly to the local OSHA area offices within 8 hours after the occurrence of the incident.

In these cases, these notifications shall be made ONLY by the Sr. VP of Safety or, in his absence, the VP of Safety, after coordination with the Company's Legal, Risk Management, and Human Resources Departments.

The report can be made either orally (by telephone) or in writing to the OSHA Area Director. In those states with approved safety and health plans, the report must be made to the state agency which has the enforcement responsibilities.

OSHA POSTER: A copy of the OSHA poster (OSHA 2203 or the combination poster from Human Resources) informing employees of their rights and responsibilities must be posted in a prominent location at each MV facility. A copy of the OSHA poster is available at local Department of Labor offices, or may be ordered from Lawson/Portal. Additional information regarding record-keeping can be obtained from the back of the OSHA 300 or the U.S. Department of Labor Publication entitled "A Brief Guide to Record-Keeping Requirements for Occupational Injuries and Illnesses". A copy of this publication is available at the local Department of Labor OSHA offices or the Government Printing offices.

DEFINITIONS:

Certification: The person who supervises the preparation of the Log and Summary of Occupational Injuries and Illnesses certifies that it is true and complete by signing the 1st page or by appending a statement to that effect to the annual summary.

Exposure: The reasonable likelihood that a worker is or was subject to some effect, influence, or safety hazard; or was in contact with a hazardous chemical or physical agent at a sufficient concentration and duration to produce an illness.

First aid: Any one-time treatment and subsequent observation of minor scratches, cuts, burns, splinters, and so forth, which do not ordinarily require medical care. Such treatment and observation are considered first aid even though provided by physician or registered professional personnel. See list of First Aid actions below.

First report of injury: A worker's compensation form which may qualify as a substitute for the supplementary record, OSHA No. 101.

Log and Summary (OSHA No. 300/300A): The OSHA record-keeping forms used to list injuries and illnesses and to note the extent of each case.

Lost workday cases: Cases which involve days away from work or days of restricted work activity or both.

Lost workdays: The number of workdays (consecutive or not) beyond the day of injury or onset of illness that the employee was away from work or limited to restricted work activity because of an occupational injury or illness.

- a. Lost workdays - away from work. The number of workdays (consecutive or not) on which the employee would have worked but could not because of occupational injury or illness.
- b. Lost workdays - restricted work activity. The number of workdays (consecutive or not) on which, because of injury or illness: (1) the employee was assigned to another job on a temporary basis; or (2) the employee worked at a permanent job less than full time; or (3) the employee worked at a permanently assigned job but could not perform all duties normally connected with it.

NOTE: The number of days away from work or days of restricted work activity does not include the day of injury or onset of illness or any days on which the employee was not regularly scheduled to work even though able to work.

Medical Treatment: Includes treatment of injuries administered by physicians, registered professional personnel, or lay persons (i.e., non-medical personnel). Medical treatment does not include first aid treatment (one-time treatment and subsequent observation of minor scratches, cuts, burns, splinters, and so forth, which do not ordinarily require medical care) even though provided by physician or registered professional personnel. See list of Medical Treatment actions below.

Occupational Illness: Any abnormal condition or disorder, other than one resulting from an occupational injury, caused by exposure to environmental factors associated with employment. It includes acute and chronic illnesses or diseases which may be caused by inhalation, absorption, ingestion, or direct contact. The following categories should be used to classify recordable occupational illnesses on the log in the columns indicated:

a. Column 7d. Poisoning (systemic effects of toxic materials):

Examples: Poisoning by lead, mercury, cadmium, arsenic, or other metals; poisoning by carbon monoxide, hydrogen sulfide, or other gases; poisoning by benzol, carbon tetrachloride, or other organic solvents; poisoning by insecticide sprays such as parathion, lead/arsenate; poisoning by other chemicals such as formaldehyde, plastics and resins, etc.

b. Column 7e. Disorder due to physical agents (other than toxic materials):

Examples: Heatstroke, sunstroke, heat exhaustion, and other effects of environmental heat; freezing, frostbite, and effects of exposure to low temperatures; effects of ionizing radiation (isotopes, X-Rays, radium); effects of non-ionizing radiation (welding flash, ultra-violet rays, microwaves, sunburn); etc.

c. Column 7f. Disorder associated with repeated trauma:

Examples: Noise-induced hearing loss; synovitis, tenosynovitis, and bursitis; raynaud's phenomena; and other conditions due to repeated motion, vibration, or pressure.

d. Column 7g. All other occupational illnesses:

Examples: Anthrax, brucellosis, infectious hepatitis, malignant and benign tumors, food poisoning, histoplasmosis, coccidioidomycosis, etc.

Occupational Injury: Any injury such as a cut, fracture, sprain, amputation, etc. which results from a work accident or from a single instantaneous exposure in the work environment.

- NOTE: Conditions resulting from animal bites, such as insect or snake bites, and from one-time exposure to chemicals are considered to be injuries.

Posting: The annual summary of occupational injuries and illnesses must be posted at each establishment by February 1 and remain in place until April 1 to provide employees with the record of their establishment's injury and illness experience for the previous calendar year. (Names of employees are not shown, only statistics.)

Recordable Cases: All work-related deaths and illnesses, and those work-related injuries which result in the following:

- loss of consciousness,
- restriction of work or motion,
- transfer to another job, or
- require medical treatment beyond first aid (see below).

Restriction of work or motion: Occurs when the employee, because of the result of a job-related injury or illness, is physically or mentally unable to perform all or any part of his or her normal assignment during all or any part of the workday.

Supplementary Record (OSHA no. 101): The form (or equivalent) on which additional information is recorded for each injury and illness entered on the log (MV Report of Injury).

Work Environment: Consists of the employer's premises and other locations where employees are engaged in work-related activities or are present as a condition of their employment. The work environment includes not only physical locations, but also the equipment or materials used by the employee during the course of his or her work, such as buses/vehicles.

MEDICAL TREATMENT:

The following actions are generally considered medical treatment. Work-related injuries for which this type of treatment was provided or should have been provided are almost always recordable:

1. Treatment of INFECTION;
2. Application of ANTISEPTICS during second or subsequent visit to medical personnel;
3. Treatment of SECOND OR THIRD DEGREE BURN(S);
4. Application of SUTURES (stitches);
5. Application of BUTTERFLY ADHESIVE DRESSING(S) or STERI-STRIP(S) in lieu of sutures;
6. Removal of FOREIGN BODIES EMBEDDED IN EYE;
7. Removal of FOREIGN BODIES FROM WOUND: if procedure is COMPLICATED because of depth of embedment, size, or location;
8. Use of PRESCRIPTION MEDICATIONS (except a single dose administered on first visit for minor injury or discomfort);
9. Use of hot or cold SOAKING THERAPY during second or subsequent visit to medical personnel;
10. Application of hot or cold COMPRESS(ES) during second or subsequent visit to medical personnel;
11. CUTTING AWAY DEAD SKIN (surgical debridement);

12. Application of HEAT THERAPY during second or subsequent visit to medical personnel;
13. Use of WHIRLPOOL BATH THERAPY during second or subsequent visit to medical personnel;
14. POSITIVE X-RAY DIAGNOSIS (fractures, broken bones, etc.);
15. ADMISSION TO A HOSPITAL or equivalent medical facility FOR TREATMENT.

FIRST AID TREATMENT:

The following are generally considered first aid treatment (e.g., one-time treatment and subsequent observation of minor injuries) and should not be recorded on the OSHA 300/300A Log and Summary (but MUST be reported to the Risk Management Department) if the work-related injury does not involve loss of consciousness, restriction of work or motion, or transfer to another job:

1. Application of ANTISEPTICS during first visit to medical personnel;
2. Treatment of FIRST DEGREE BURN(S);
3. Application of BANDAGE(S) during any visit to medical personnel;
4. Use of ELASTIC BANDAGE(S) during first visit to medical personnel;
5. Removal of FOREIGN BODIES NOT EMBEDDED IN EYE if only irrigation is required;
6. Removal of FOREIGN BODIES FROM WOUND; if procedure is UNCOMPLICATED, and performed, for example, by tweezers or other simple technique;
7. Use of NONPRESCRIPTION MEDICATIONS and administration of single doses of PRESCRIPTION MEDICATION on first visit for minor injury discomfort;
8. SOAKING THERAPY on initial visit to medical personnel or removal of bandages by SOAKING;
9. Application of hot or cold COMPRESS(ES) during first visit to medical personnel;
10. Application of OINTMENTS to abrasions to prevent drying or cracking;
11. Application of HEAT THERAPY during first visit to medical personnel;
12. Use of WHIRLPOOL BATH THERAPY during first visit to medical personnel;
13. NEGATIVE X-RAY DIAGNOSTICS;
14. OBSERVATION of injury during visit to medical personnel;

NOTE: Administration of TETANUS SHOT(S) or booster(s) by themselves, are not considered medical treatment. However, these shots are often given in conjunction with more serious injuries, making them recordable for other reasons.

Date Filed / Revision Date	Description of Change

MV TRANSPORTATION, INC. CORPORATE POLICY STATEMENT

General policies of MV Transportation, Inc. are issued from time to time and are designed to provide general guidance to company managers in the conduct of the business. Policies may, from time to time, become dated or may no longer apply. In the event of questions, the policy should be referred to the General Counsel for interpretation. In the event a policy conflicts with the law, regulation or the terms of a contract with a customer, the policy will be subordinate to such law, regulation or contract term. Policies are only effective on the written approval of the Chief Executive Officer.

Safety Policy S-24 OSHA INSPECTIONS - VOLUNTARY AND REGULATION ENFORCEMENT

SCOPE: This policy applies to all employees and facilities of MV Transportation, Inc.

POLICY: It is the policy of MV Transportation, Inc. to comply with pertinent OSHA regulations and to cooperate with authorized inspections consistent with federal and state law.

RESPONSIBILITY:

The Division General Manager is responsible for interacting with compliance officers and report any visit to the VP of Safety and the Sr. VP Safety immediately upon being notified of the compliance officer's presence on the premises.

The General Managers must be acquainted with the procedures described in this Safety Manual as well as pertinent OSHA Regulations.

The staff of the Safety Dept will provide assistance to General Managers in safety-related matters.

No employee is authorized to issue a written statement to any safety inspector setting forth the Company's position on any safety-related matter without the prior approval of the Company Legal Department and the Sr. VP of Safety.

PROCEDURES: There are two types of inspections generally undertaken by OSHA:

1. The Complaint Inspection. The OSHA office has received a complaint about a specific unsafe practice and an inspector is dispatched to investigate that matter and other compliance issues.
2. The General Schedule Inspection. This type is undertaken as part of a regular systematic program of inspections of a specific industry. (Greyhound is not in the manufacturing or chemical industries so is not high on the list of businesses to be inspected under this program.)

A Division is much more likely to experience a Complaint Inspection.

The General Manager will ascertain which type of investigation is being conducted and then follow the appropriate procedures set forth below.

Inspectors (compliance officers) usually arrive at facilities during regular business hours. Compliance officers must present their credentials to the highest Company official available on premises. U.S. Department of Labor credentials will include their photograph and serial number. Compliance officers must explain the nature, purpose and scope of the inspection, indicate the records and employees they wish to see, disrupt normal operations as little as possible, and confer with management on the results. The inspector should be asked if he or she has a warrant. It is not necessary and they probably do not.

No advance notice is usually given by inspectors. It is normally proper to allow an inspector to enter Company facilities at reasonable times. The inspector may take the time necessary to inspect all pertinent conditions and equipment, question management and any employee privately, take photographs and review records. The compliance officer will make notes of violations or apparent violations.

Representatives of both the Company and employees are authorized to accompany the compliance officer, but the compliance officer is in charge of the inspection and

questioning. He may deny the right of accompaniment to anyone who interferes with the investigation.

A supervisor or manager shall always accompany the inspector throughout the inspection tour and make/take appropriate notes & photographs to match those of the inspector. NOTE: Always try to make on the spot corrections of deficiencies noted by the inspector.

The inspector should be treated with courtesy and be shown to the area(s) in question without detours to other areas.

The inspector can be expected to confer with the General Manager before and after any inspection. The General Manager shall always request these conferences and write down what is said.

General Procedures Applicable to All Inspections:

1. Review of Documents:

The inspector may ask to review documents. The General Manager must distinguish between those documents which must be provided as a matter of law and those which the Company has discretion to initially withhold:

There are certain documents the inspector is entitled to review as a matter of law, for example, OSHA 300 logs (retained for the past 5 years), Hazard Communication Program and other documents required to be kept and produced under OSHA regulations. If the inspector asks, such documents should be produced for review.

The Company has greater discretion in producing other Company business documents, such as internal memoranda, internal safety programs, correspondence, personnel files and the like. Prior to producing any such documents, the General Manager shall consult with the VP of Safety. If in doubt, the Legal Department should be consulted. If the proper authorization cannot be obtained, the inspector shall be asked to put the request in writing to the Sr. VP of Safety.

All Division training documents should be kept in a single file with appropriate subheadings (forklift, hazard communication, fire extinguishers, etc.).

2. Interviews with Employees:

The General Manager must distinguish between interviews requested by the inspector and interviews requested by an employee:

- If an employee asks to talk with the inspector, the employee is entitled to have a private interview with the inspector.
- If the inspector asks to talk to employees, the General Manager has some discretion. If the employees are represented by a union, the inspector should be directed to talk to the union representative. If there is no union or no representative, a reasonable number of interviews should be allowed, provided operations are not greatly disrupted. The General Manager may suggest a different time and/or place for the interviews if the employees are needed on critical assignments.

If in doubt about any issue during the inspection, ask the inspector to wait and place a call to the VP of Safety.

3. Exit Interviews:

A proper exit interview is very important. A Complaint Inspection exit interview is the Company's opportunity to develop facts surrounding the good and bad points of the inspection. Ask questions and take notes.

A General Schedule Inspection is usually a fairly lengthy process and the Company must consider who to have in attendance at the exit interview. Some Complaint Inspections may last several days as well. In certain circumstances, higher level management should be present. In any event, the extent of the Company's compliance with all OSHA and other safety programs shall be stressed.

The inspector should be willing to discuss any open issues during the exit interview. The General Manager should take notes and should feel free to ask questions. If a citation is issued, the Sr. VP of Safety should be provided a copy the same day. Usually a citation will be mailed up to 6 months later. It shall be sent immediately to the Sr. VP of Safety.

4. Receipt of a Citation:

Any citation must be transmitted on the day received to the Sr. VP of Safety.

A contest to a citation must be filed within 15 working days. Any informal settlement discussions must be completed prior to the expiration of the 15 days. A phone call can be made to set up the meeting. A letter must follow to confirm the phone conversation. All settlements must be approved by the Sr. VP of Safety or the Legal Department.

Unless settled beforehand, all citations will be contested within 15 working days. No employee has the authority to waive the formal contest without prior written authorization from the Sr. VP of Safety or the Legal Department.

NOTE: THE CITATION WILL CONTAIN INSTRUCTIONS FOR EMPLOYEE POSTING. COPIES MUST BE POSTED.

OSHA Consultation Services: OSHA does offer free consultation services at the State level. Discuss any proposed consultation with the Sr. VP of Safety prior to contacting OSHA.

Date Filed / Revision Date	Description of Change

MV TRANSPORTATION, INC. CORPORATE POLICY STATEMENT

General policies of MV Transportation, Inc. are issued from time to time and are designed to provide general guidance to company managers in the conduct of the business. Policies may, from time to time, become dated or may no longer apply. In the event of questions, the policy should be referred to the General Counsel for interpretation. In the event a policy conflicts with the law, regulation or the terms of a contract with a customer, the policy will be subordinate to such law, regulation or contract term. Policies are only effective on the written approval of the Chief Executive Officer.

Safety Policy S-25 WELDING OPERATION - GAS AND ARC

SCOPE: This policy applies to all welding operations, whether by employee or contractor, conducted at MV Transportation facilities.

PURPOSE: To provide all employees with safe work practices in the use of welding equipment.

POLICY: It is the policy of this Company that all employees comply with safety requirements when using or storing welding equipment.

GENERAL SAFE WORK PRACTICES:

All welding and cutting operations, regardless of the particular method used, involve hazards of fire, burns, and other personal injuries. There are several safe-work practices and procedures which should be followed during any welding or cutting operation to minimize the impact of these hazards. The following describes such safety practices:

- Avoid breathing directly in the plume generated during welding.
- If welding metals containing more than 1% of cadmium, magnesium, zinc, beryllium, or lead, then respiratory protection should be used.
- Material Safety Data Sheets (MSDS) shall be available for all fluxes and cleaners.
- All filler metals and fusible granular fillers shall bear a label such as the one in Figure 1.

CAUTION!

Welding may produce fumes and gases hazardous to health. Avoid breathing these fumes and gases. Use adequate ventilation. See ANSI Z49.1-1967 Safety in Welding and Cutting, published by the American Welding Society.

Brazing metals containing cadmium shall bear a label such as the one in Figure 2.

WARNING!

CONTAINS CADMIUM – POISONOUS FUMES MAY FORM ON HEATING
Do not breathe fumes. Use only with adequate ventilation, such as exhaust ventilators, or air-supplied respirators. See ANSI Z49.1 – 1967. If Chest pain or fever develops after use, call a physician immediately.

Fluxes containing fluorides shall bear a label such as the one in Figure 3.

CAUTION CONTAINS FLUORIDES!

This flux when heated gives off fumes that may irritate eyes, nose and throat.

1. Avoid fumes – use only in well ventilated spaces.
2. Avoid contact of flux with eyes or skin.
3. Do not take internally.

A. Cleaning Compounds:

Many compounds used to clean metal may generate flammable or toxic vapors during welding and cutting operations. Hydrocarbon solvents and degreasers will typically generate flammable vapors. Chlorinated hydrocarbons, such as perchloroethylene and trichloroethylene, will break down into phosgene when heated. Phosgene is extremely dangerous to the lungs. The manufacturer's recommendations should always be followed, and the welding area should be adequately ventilated.

B. Ventilation for General Welding:

Mechanical ventilation must be provided for welders working under the following conditions:

- In spaces having less than 10,000 cubic feet of space per welder.
- In rooms with ceilings less than 16 feet high.
- In confined spaces or other areas where cross-ventilation is obstructed.

Ventilation must be maintained at a minimum rate of 2,000 cubic feet per minute, per welder. If local exhaust ventilation is used, then general ventilation may be maintained at a lesser rate. Natural ventilation is considered sufficient if none of the three conditions described above is present.

C. Ventilation in Booths and Hoods:

If booths (fixed enclosures) are used, then they must maintain ventilation rates of at least 100 feet per minute. Intakes should be mounted to the side of the welder (lateral or vertical slots) so that the welder's do not block the air flow.

D. Ventilation in Confined Spaces:

Ventilation in confined spaces must be sufficient to prevent the accumulation of toxic or flammable atmospheres, as well as oxygen deficiency. Makeup air must be clean and respirable. Ventilation must also be sufficient to keep airborne contaminants below the Permissible Exposure Limits (PEL). If this is not possible, then the appropriate respiratory protection must be used.

E. Ventilation for Welding and Cutting Toxic Metals:

Ventilation requirements for the welding and cutting of metals involving fluorine compounds, lead, zinc, beryllium, cadmium, mercury, or stainless steel must meet the same requirements as ventilation for confined spaces. Note that ventilation

requirements greater than those listed in previous sections may be required to accomplish this. Periodic air monitoring is necessary to determine whether airborne levels of these contaminants are acceptable.

F. Screens:

Arc welding produces ultraviolet radiation which can damage the skin and eyes. Even gas welding can generate light of damaging intensities. Employees in the welding area should be protected from these radiations. Screens are typically used to accomplish this. Screens should be installed so they do not restrict ventilation. It is recommended that screens be mounted approximately 2 feet from the floor, unless the work is being performed extremely low to the ground. Screens must be dropped to floor level. Signs warning employees not to watch the welding should be posted throughout the welding area.

ARC WELDING (INCLUDING MIG):

Arc welding involves the use of AC or DC current to generate an electrical arc, capable of melting the work and any filler metal used. Arc welding uses a relatively low voltage range typically less than 115 volts, and current, from 10-600 amps. The following procedures should be followed when working with arc welders:

- If using a gasoline or diesel-powered welding generator, exhaust should be vented to the outside.
- The open circuit voltage on DC welding machines should be less than 1900 volts.

- The open circuit voltage on AC welding machines should be less than 80 volts on manual machines, and less than 100 volts on automatic machines. (Higher voltages may be allowed in specific applications.)
- All parts of the arc welding machines must be grounded (except engine-driven machines).
- Electrical conduits carrying conductors may not be used for completing a work-lead circuit.
- Terminals for welding leads must be protected against accidental contact with workers and equipment.
- Chains, ropes, cranes, and elevators may not be used to carry welding current.
- In work involving several welding machines operating on the same piece of work, all DC machines must be connected with the same polarity, and all AC machines must be connected to the same phase of the supply circuit, and with the same instantaneous polarity.
- When not in use, electrode holders must be placed so that they do not come in contact with people or conducting objects.
- Cables that are spliced within ten feet of the holder will not be used.
- Cables should not be wound or wrapped around the welder's body.
- Machines that become wet must be thoroughly dried and tested before being placed back into service.
- Cables with damaged insulation or exposed conductors must be replaced or repaired.

METAL-INERT GAS WELDING (MIG):

MIG welding involves the use of an electrode and an inert gas for joining metals. A filler metal may or may not be used. The use of the inert gas prevents the formation of oxides, and reduces the splattering associated with other methods of welding. The inert gas typically generates additional ultraviolet radiation, requiring heavy shading or protective lenses. The compressed gas cylinder used to supply the inert gas should be handled safely. When welding in a confined area, the welder should bear in mind that the use of an inert gas increases the potential for oxygen deficiency and should take appropriate protective measures.

GAS WELDING:

Gas welding uses an oxygen-fuel gas mixture to melt the metals to be joined. A filler metal is typically used as well. This type of welding does not produce an electrical arc, nor does it involve the inherent potential for electric shock. Nevertheless, it does generate heat and light of sufficient intensity to damage unprotected eyes. The following general precautions should also be observed:

Hoses:

- Do not use unnecessarily long hoses.
- Ensure hoses are secured and tightened properly
- Repair leaks and other damage immediately. Leaks should be repaired by proper splicing, not by taping the hose.
- Examine hoses periodically. Check for leaks by submerging the hose in appropriate liquid.
- Protect hoses from slag, sparks, hot metal, grease and oil.
- Hoses showing signs of wear or damage shall be tested at twice their normal operating pressure, or at 300 psi, whichever is greater.

Torches:

- Use only tips recommended by the manufacturer.
- Ensure tips are secured correctly to the torch
- When changing torches, shut off the gas supply at the regulators, not by bending or crimping hoses. Turn off gas at cylinder, not at torch when work is complete.
- Use a friction lighter, pilot, or other appropriate means of igniting a torch. Do not use matches.
- Do not hang torches over regulators, so that they point towards the gas cylinders.
- When closing valves, do so in the order recommended by the manufacturer.

A. Special Precautions for Handling Acetylene:

- Acetylene is the most common fuel used for gas welding. It has many unique properties which require special attention for safe handling. Acetylene is shipped in compressed gas cylinders at 250-300 psi. These cylinders contain a porous filler and acetone. The acetylene is dissolved in the acetone. This is necessary because acetylene is not a very stable compound. If pure acetylene gas were placed under this pressure it would spontaneously explode. The acetone stabilizes the acetylene.
- Acetylene cylinders should always be stored and used in an upright position. Otherwise, the acetone may be drawn off, leaving acetylene gas in the cylinder, under an unsafe pressure.
- Excessive pressure in acetylene hoses must be avoided. Properly designed regulators should always be used. Acetylene cylinder regulators should not be opened more than one-and-a-half turns. Three-quarters of a turn is preferable. Pressure in the supply hoses should not exceed 15 psi.
- Acetylene also has one of the widest flammable ranges of any gas. It can form flammable mixtures with air in concentrations from 2.5% - 80%. When mixed with oxygen, acetylene forms explosive mixtures.

B. Special Procedures for Handling Oxygen:

Oxygen, although not flammable by itself, will support and accelerate the burning of other materials. For this reason, oxygen should not be stored with flammable or combustible gases. Oily rags and gloves should not be used with compressed or combustible gases. Oxygen can cause the spontaneous ignition of oily rags and other wastes. Lines used to carry oxygen should be designed and used for that purpose alone. Only regulators approved for use with oxygen cylinders should be used. Incidental oils and lubricants may explode on contact with high-pressure oxygen.

FIRE CONTROL:

The possibility of fire is an ever-present danger during welding and cutting operations. MV Transportation has established the following procedures to minimize the risk of fires and their attendant dangers:

- Suitable fire extinguishing equipment must be readily available at all times.
- No welding or cutting may take place in an unauthorized area, without the approval of the Maintenance Manager/Supervisor.
- Oxygen must never be used for ventilation.
- Objects to be welded should be taken to a safe place with no combustible materials or access to combustible materials for a 35-foot radius of the welding location.
- If the object to be welded or cut cannot be readily moved, then all movable fire hazards in the vicinity should be taken to a safe location.
- If the object to be welded or cut cannot be moved, and the surrounding flammable or combustible materials cannot be moved, then appropriate guards or shielding must be used to contain sparks, slag, and hot metal.
- Where practical, all combustible materials should be placed at least 35 feet away from the hot work area. If this is not practical, they should be protected with flameproof covers, or placed inside fireproof cabinets or otherwise effectively guarded.
- Ducts that might carry sparks to combustible materials
- (including filters) must be suitably shielded.
- Combustible walls must be adequately protected from welding by appropriate distance or guarding.
- Combustible materials on the opposite sides of walls must be protected from ignition by radiant heat.

A. Fire Watch:

It is not always possible to completely isolate all combustible materials from the welding or cutting operations. Every effort should be made to protect the combustible materials through guarding, wetting, or other suitable methods. If wetting is used with arc welding operations, additional steps must be taken to prevent electrical shocks to the welders. In addition to these precautions, a fire watch must be in place during all welding operations.

The fire watch consists of one or more employees whose sole duty is to observe the welding area for the outbreak of fire. Fire watch personnel must be equipped with adequate fire extinguishing equipment, as well as appropriate personal protective equipment. If a fire

breaks out, the fire watch personnel should first warn the welders, and stop all work in the area. If there is any doubt that the blaze is beyond the ability of fire watch personnel to control, the local fire department should be notified immediately. Fire watch personnel should attempt to extinguish the fire. Should the fire escape their control, then the building or area should be evacuated in accordance with the Division's Emergency Action Plan.

Fire watch personnel must not only keep watch while welding operations are underway but must also watch the area for 30 minutes after operations are complete. The department supervisor or General Manager may require a longer watch period, if appropriate.

WELDING OR CUTTING CONTAINERS AND TANKS:

The welding and cutting of containers and tanks pose a high risk of fire and explosion accidents. Empty containers often pose a greater danger than full containers. It is imperative that special precautions be observed when welding, cutting, or brazing such items.

MV employees will adhere to the following procedures for hot work on closed containers. Although, the Company prefers that tanks not be cut, employees will do so only under the most strict and controlled circumstances:

- Remove all ignition sources from the vicinity of the container.
- Remove any caps or bungs.
- Check the inside of the container for any rags, debris or trash, which might prevent proper draining. Ensure that lights used for the inspection are intrinsically safe.
- Place the container in a rack and allow it to drain completely.
- Steam the container for at least 10 minutes. Some substances may require longer steaming.
- Rinse the container for 5 minutes with a caustic soda solution.
- Rinse container with boiling water for 5 minutes.
- Wash the outside of the container with hot water.
- Allow the container to dry.
- Inspect the interior of the container. If it is not clean, repeat the process.
- Check the atmosphere inside the container with an explosimeter and oxygen meter to make sure that no flammable vapors are present.

Welding, cutting, or brazing of fuel tanks which cannot be removed for treatment by the above procedure should be performed in the following manner:

- Remove the fill cap.
- Drain remaining fuel from the tank by disconnecting the fuel line or opening the stopcock on the bottom of the tank.
- Rinse the inside of the tank with water, allowing the water to drain out, disposing of residue in the legally prescribed manner.
- Close the stopcock or plug the fuel line inlet.
- Fill the tank with water to within an inch or two of the level where the hot work is to be done. If work is to be done on the bottom of the tank, do not fill it with water.
- Clean all oil, grease, and other combustible material from the hot work area. Remove shield or guard rubber and other sensitive components.
- Using a compressed gas cylinder slowly fill the tank with enough carbon dioxide or nitrogen to inert the atmosphere.
- Check the inside of the tank with an oxygen meter. The oxygen meter should read less than 10%.
- Perform the welding, cutting, or brazing operation, with the fill cap remaining open. If a backflow valve is installed in the throat of the fill stem, block it open.
- Drain the water from the tank and allow it to dry thoroughly.
- Reconnect all lines and attachments and place a few gallons of fuel in the tank.
- Check the tank for signs of a fuel leak.
- If the tank is not leaking, refill and replace the fill cap.

PERSONAL PROTECTIVE EQUIPMENT:

Personal protective equipment for welders should be designed to prevent burns and eye injuries. In some instance, noise protection should also be provided. If unacceptable concentrations of airborne contaminants are present, then respiratory equipment should be used, as outlined in this Manual, Respiratory Protective Equipment. Common protective equipment that should be available to welders includes:

- Flame-resistant gauntlet gloves.
- Aprons made of leather or other flame-resistant material.
- Fire-resistant leggings, or high boots.
- Safety shoes or foot guards should be used when heavy loads are being handled.
- For overhead work, capes or shoulder covers of leather may be used. Skull caps may be worn under helmets to keep sparks out of the hair.
- Ear plugs or muffs may be used to keep sparks out of the ears. Safety hats or other head protection against sharp or heavy falling objects should be used.

Welding also generates intense light, from which the eyes must be protected. Table 1 below shows the appropriate lenses for given applications.

Welding Operation	Shade #
Shielded metal-arc welding 1/16,3/32,1/8,5/32-inch electrodes	10
Gas-shielded arc welding (non-ferrous 1/16,3/32,1/8,5/32-inch electrodes	11
Gas-shielded arc welding (ferrous) 1/16,3/32,1/8,5/32-inch electrodes	12
1/16,7/32,1/4-inch electrodes	12
5/16,3/8-inch electrodes	14
Atomic hydrogen welding	10-14
Carbon arc welding	14
Soldering	2
Torch brazing	3-4
Light cutting, up to 1 inch	3-4
Medium cutting, 1-6 inches	4-5
Heavy cutting, 6 inches	5-6
Gas Welding, light, up to 1/8 inch	4-5
Gas welding, medium, 1/8 to 1/2 inch	5-6
Gas welding, heavy, 1/2 inch and over	6-8

Table 1. Welding Eye Protection Lens Selection Guide

INSPECTIONS: The General Manager will document work practices and equipment conditions twice each year during his general safety audits. The results of this inspection will be recorded and kept on file. He may also perform random inspections to check compliance with proper work practices. The results of these random inspections will be recorded as well.

Department supervisors are responsible for performing daily checks of welding areas and operations. These daily checks need not be recorded. The department supervisor may also perform inspections as directed by the General Manager. Employees are responsible for complying with the work practices described in this section. Any problems should be reported to the department supervisor or foreman.

TRAINING: All employees involved in welding and cutting operations must receive training on this Safety Policy and in how to properly perform welding functions. The training shall document in writing and kept in local training files.

MV TRANSPORTATION, INC. CORPORATE POLICY STATEMENT

General policies of MV Transportation, Inc. are issued from time to time and are designed to provide general guidance to company managers in the conduct of the business. Policies may, from time to time, become dated or may no longer apply. In the event of questions, the policy should be referred to the General Counsel for interpretation. In the event a policy conflicts with the law, regulation or the terms of a contract with a customer, the policy will be subordinate to such law, regulation or contract term. Policies are only effective on the written approval of the Chief Executive Officer.

Safety Policy S-26

FIRE EXTINGUISHERS, PORTABLE - TRAINING, INSPECTION, AND MAINTENANCE

SCOPE: The requirements of the section apply to all MV Transportation, Inc. facilities.

PURPOSE: The purpose of this policy is to outline installation, training in use, inspection and maintenance procedures for portable fire extinguishers.

POLICY: It is the policy of the Company to ensure that employees have ready access to the proper type of fire extinguisher for emergency situations. The guidelines in this policy are adopted from the OSHA standard 29 CFR 1910.157, Portable Fire Extinguisher.

EXTINGUISHER SPECIFICATIONS AND PLACEMENT:

MV Transportation, Inc. provides portable fire extinguishers for use by employees in emergency situations. These extinguishers will be maintained in a fully functional condition. Safe practices will apply to use of all portable fire extinguishers at MV facilities:

- Extinguishers shall be mounted and marked so they are readily accessible to employees and may be reached and retrieved without injury.
- Fire extinguishers using carbon tetrachloride or chlorobromomethane shall not be used. Any such extinguisher currently in place will be removed and replaced with approved extinguishers.
- Any extinguishers that are of the soldered or riveted shell self-generating soda acid or foam type, or of the gas cartridge water type portable fire extinguisher, which are operated by inverting the extinguisher causing the
- cartridge to rupture or initiate an uncontrollable pressure generating reaction, must also be replaced. These types of extinguishers are subject to pressure detonations and are not approved for use.
- Extinguishers will be kept fully charged, have a current inspection tag, and be kept in their designated places at all times, except when in use. The location will be clearly marked for ready identification. Fire extinguishers and access to them will not be blocked.
- Extinguishers placed in various areas of the facility shall be appropriate for the types of fires anticipated. In general, a type ABC dry chemical extinguisher is recommended.
- Extinguishers used for Class A fires must be placed so employees do not have to travel more than 75 feet to reach an extinguisher.
- Extinguishers used for Class B fires must be placed so employees do not have to travel more than 50 feet to reach an extinguisher.
- Extinguishers used for Class C fires must be distributed based upon the appropriate hazard pattern for Class A or B fires.

If combustible metal shavings, flakes, powders, or similarly sized products are produced every two weeks, or more often, then "Class D" extinguishers must also be made available. They must be arranged so that no more than 75 feet of travel is required to reach an extinguisher. Class ABC extinguishers are not suitable for use against metal fires.

FIRE EXTINGUISHER CLASS AND APPLICATIONS:

- CLASS A - Common combustible solids, such as paper, wood, etc.
- CLASS B - Combustible and flammable liquids, such as gasoline, diesel, and other solvents
- CLASS C - Fires involving live electrical components
- CLASS D - Special purpose extinguishers used for fires involving flammable or combustible metals (e.g. magnesium)

INSPECTION AND MAINTENANCE:

MV Transportation, Inc. will use an inspection and maintenance program to ensure that fire extinguishers remain in good working order. This inspection procedure will include the following elements:

- The General Manager of each Division or their representative will visually inspect all fire extinguishers once each month. This includes all buses and MV owned and leased vehicles.
- This inspection shall be recorded on the Fire Extinguisher Inspection sticker / tag located on the front of the fire extinguisher.
- The facility fire extinguisher inspection shall also be recorded on a Monthly Extinguisher Inspection Record and filed in the fire extinguisher folder.
- Fire extinguishers will be given a full maintenance examination annually. A qualified service contractor, who shall furnish MV Transportation, Inc. with a copy of all inspection and maintenance activities performed, will perform this examination. This data will be filed in the fire extinguisher folder.
- Alternative extinguishing methods will be made available while extinguishers are being serviced.

A. Hydrostatic Testing:

MV Transportation, Inc. will use authorized contractors to perform hydrostatic testing. Test intervals are measured from the date the unit was filled and charged. Hydrostatic testing is also necessary immediately after any of the following have occurred:

- The unit has been repaired by soldering, welding, brazing, or the use of patching compounds;
- The cylinder or shell threads are damaged;
- Corrosion that has caused pitting, including corrosion under removable nameplate assemblies;
- The extinguisher has been burned in a fire;
- Calcium chloride extinguishing agent has been used in a stainless-steel shell.

When hydrostatic testing is performed on extinguishers equipped with shutoff nozzles at the end of the hose, the hose assembly shall also be tested. Carbon dioxide hose assemblies must be tested at 1,250 psi and dry chemical assemblies must be tested at 300 psi.

The General Manager will require the tester to furnish a certification record, indicating the date of the test, the signature of the tester, and the serial number or other identifier of the fire extinguisher. This certification will be maintained in the fire extinguisher folder until the next hydrostatic test, or until the extinguisher is removed from service.

TRAINING: MV Transportation, Inc. will train its employees in the proper use of fire extinguishers. This training shall be provided to employees upon their initial hiring and at least annually thereafter. This training shall be recorded in writing and kept in local training files. A copy of this training record should also be placed in the fire extinguisher folder.

Personnel selected for fire watch or emergency response duties involving fire extinguishing, shall be given additional training, which addresses the characteristics of fire, methods of controlling fires, and hands-on training in the use of fire extinguishers. This training will be documented in the Division's training records. A copy of the form will be placed in the Division training file and another in the fire extinguisher folder. Division Managers are encouraged to coordinate fire extinguisher training through their local Fire Department.

See OSHA Reference 29 CFR 1910.157.

MV TRANSPORTATION, INC. CORPORATE POLICY STATEMENT

General policies of MV Transportation, Inc. are issued from time to time and are designed to provide general guidance to company managers in the conduct of the business. Policies may, from time to time, become dated or may no longer apply. In the event of questions, the policy should be referred to the General Counsel for interpretation. In the event a policy conflicts with the law, regulation or the terms of a contract with a customer, the policy will be subordinate to such law, regulation or contract term. Policies are only effective on the written approval of the Chief Executive Officer.

Safety Policy S-27 SAFETY MEETINGS

SCOPE: This policy covers all employees of MV Transportation, Inc.

POLICY: It is the policy of MV Transportation, Inc. to seek and encourage its employees' assistance in identifying workplace hazards. One effective vehicle is through safety meetings, which provide employees an opportunity to provide input regarding safety issues and receive updated safety education/information. All MV Divisions will make possible the opportunity for employees to participate in safety meetings.

PROCEDURE:

- All Divisions will have regularly scheduled monthly safety meetings. These meetings will be open to all employees.
- General Managers will post in advance the time, date and location of all regularly scheduled safety meetings.
- Specific topics for the agenda must be posted with the announcement of the pending meeting.
- The agenda must cover only safety-related items. Agenda items will be directed by management.
- Employees must speak for themselves and cannot be represented by anyone else.
- The manager should advise concerned employees of the results of the meeting and indicate all corrective action taken since the last meetings.
- Care must be taken not to interfere with the collective bargaining rights of the respective unions. These safety meetings are not "committees" and not intended for the bargaining of safety-related issues. Their purpose is to allow individual employees to voice their concerns and to educate employees on relevant safe-work and incident/injury prevention practices.

Questions on safety meetings shall be directed to the Vice President of Safety.

Date Filed / Revision Date	Description of Change

MV TRANSPORTATION, INC. CORPORATE POLICY STATEMENT

General policies of MV Transportation, Inc. are issued from time to time and are designed to provide general guidance to company managers in the conduct of the business. Policies may, from time to time, become dated or may no longer apply. In the event of questions, the policy should be referred to the General Counsel for interpretation. In the event a policy conflicts with the law, regulation or the terms of a contract with a customer, the policy will be subordinate to such law, regulation or contract term. Policies are only effective on the written approval of the Chief Executive Officer.

Safety Policy S-28 MOBILITY DEVICE DROP OFF PROCEDURES

SCOPE: The policy applies to all MV employees who operate paratransit vehicles, buses or other revenue vehicles.

PURPOSE: The purpose of this policy is to communicate the proper procedure for dropping off wheelchair bound or mobility assisted passengers.

POLICY: The following steps must be taken when dropping off a wheelchair passenger.

- 1) Set up positioning of the vehicle upon arrival
- 2) Shift vehicle into PARK position and be sure to set the Parking Brake
- 3) Turn on lift switch
- 4) Remove wheelchair lift cover (if applicable)
- 5) Open lift doors and set lift at floor level position (unfold only)
- 6) Secure interior and exterior lift belt straps across the lift where applicable
- 7) Advise passenger you are going to remove the securement straps
- 8) Remove shoulder and mobility device securements, place in storage area/bag
- 9) Advise passenger you are about to move them onto the lift
- 10) Release interior lift strap
- 11) Guide them onto the lift.
- 12) If electric, turn off mobility device power. If manual, make sure their brakes are locked
- 13) Fasten & check interior lift straps
- 14) Inform them you are about to move the lift
- 15) Deploy lift
- 16) Open/release exterior lift strap once lift is at floor level
- 17) Guide them off the lift, and LOCK their brake.
- 18) Store the exterior lift safety belt. Stow the lift and close door.
- 19) Note: If using retractable lift straps ensure straps are retracted
- 20) Ensure they are safely delivered to their destination.
- 21) Remove the posey belt
- 22) Replace wheelchair lift cover (if applicable)
- 23) Turn off power to the lift
- 24) Check mirrors to ensure the wheelchair lift is closed and it is safe to proceed
- 25) Safely pull away from the curb, slow and smooth

NOTES:

NEVER lift a wheelchair, except for divisions that do stair assists, and then only using proper safety procedures.

Communicate movements and actions to your passenger

Treat your wheelchair passengers as people; make eye contact when you are communicating.

Date Filed / Revision Date	Description of Change

MV TRANSPORTATION, INC. CORPORATE POLICY STATEMENT

General policies of MV Transportation, Inc. are issued from time to time and are designed to provide general guidance to company managers in the conduct of the business. Policies may, from time to time, become dated or may no longer apply. In the event of questions, the policy should be referred to the General Counsel for interpretation. In the event a policy conflicts with the law, regulation or the terms of a contract with a customer, the policy will be subordinate to such law, regulation or contract term. Policies are only effective on the written approval of the Chief Executive Officer.

Safety Policy S-29 MOBILITY DEVICE PICK UP PROCEDURES

SCOPE: The policy applies to all MV employees who operate paratransit vehicles, buses or other revenue vehicles.

PURPOSE: The purpose of this policy is to communicate the proper procedure for picking up wheelchair bound or mobility assisted passengers.

POLICY: The following steps must be taken when picking up a wheelchair passenger.

***ALWAYS BE SURE TO GET THE PERMISSION OF THE MOBILITY DEVICE USER BEFORE TOUCHING OR MOVING THE MOBILITY DEVICE. LET THEM KNOW WHAT YOU WISH TO DO PRIOR TO DOING IT.**

- 1) Set up positioning of vehicle upon arrival
- 2) When vehicle is stopped, shift into PARK position and be sure to set the Parking Brake
- 3) Turn on lift power
- 4) Make sure mobility device area is free of hazards and ready for the passenger
- 5) Remove wheelchair lift cover (if applicable)
- 6) Take posey belt with you when exiting the bus
- 7) Introduce yourself to the client at eye level and make sure this is your passenger
- 8) Ask permission to inspect the brakes of the mobility device to ensure they are in good working condition. If not, bring to the attention of the passenger and make a note on the manifest. This is very important!
- 9) Secure posey belt on passenger (ask permission first). Notify Dispatch if passenger refuses lap belt/restraint. Please note passenger is allowed to refuse this safety device under the ADA.
- 10) Open and deploy wheelchair lift while ensuring both interior and exterior lift straps are in place across the width of the lift.
- 11) Open exterior lift belt strap leaving interior lift strap in place
- 12) Inform the passenger you are about to move them
- 13) Back the mobility device on to the lift
- 14) If electric, turn off power. If manual, make sure their brakes are locked!
- 15) Fasten exterior lift belt strap across the width of lift
- 16) Inform them you are about to move the lift
- 17) Operate the lift
- 18) Inform the passenger to remain on the lift until you enter the bus. Once inside of the vehicle release the interior lift belt strap and provide assistance off the lift
- 19) Back them into the wheelchair spot
- 20) Secure the mobility device with a 4 point tie down. If the passenger refuses. Do not move the bus and contact Dispatch for the assistance a Road Supervisor.
- 21) Secure the passenger with lap and shoulder harness. Notify dispatch if passenger refuses either belt and activate DriveCam (if available) to record refusal on camera.
- 22) Test the securement straps for tautness. DO NOT harshly shake or jostle the mobility device
- 23) Secure the lift straps across lift to prevent banging noise and prevent damage
- 24) Note: Retractable straps should be retracted
- 25) Stow the lift and close door
- 26) Replace the wheelchair lift cover (if applicable)
- 27) Return to the driver's seat
- 28) Put on driver's seat belt

- 29) Turn off the power to the lift
- 30) Check mirrors and ensure the lift is closed and it is safe to proceed
- 31) Safely pull away from the curb, slow and smooth

NEVER lift a wheelchair, except for divisions that do stair assists, and then only using proper safety procedures.

Communicate movements and actions to your passenger

Treat your wheelchair passengers as people; make eye contact when you are communicating with them.

Date Filed / Revision Date	Description of Change

MV TRANSPORTATION, INC. CORPORATE POLICY STATEMENT

General policies of MV Transportation, Inc. are issued from time to time and are designed to provide general guidance to company managers in the conduct of the business. Policies may, from time to time, become dated or may no longer apply. In the event of questions, the policy should be referred to the General Counsel for interpretation. In the event a policy conflicts with the law, regulation or the terms of a contract with a customer, the policy will be subordinate to such law, regulation or contract term. Policies are only effective on the written approval of the Chief Executive Officer.

Safety Policy S-30 INJURY INVESTIGATION - SUPERVISOR RESPONSIBILITY

SCOPE: This policy applies to all employees of MV Transportation, Inc.

PURPOSE: The purpose of this policy is to describe investigation procedures performed by supervisors in the event an employee is injured.

POLICY: It is the policy of MV Transportation, Inc. to investigate all incidents/injuries, to identify causes, and to correct deficiencies, if any.

RESPONSIBILITY:

Supervisors:

Begin the investigation immediately after receiving the first report of injury. Employees must report all injuries to management as soon as they occur.

- Visit the incident site, if possible, to determine where each object, person, and element in the event was located just prior to the mishap. Get the "big picture", as exact as possible.
- Interview all persons involved, beginning with the injured employee whenever possible. Assure the employee the purpose of the investigation is not to place blame but to establish cause in order to prevent a recurrence. Re-enact exactly what was being done in the moments leading up to the injury.
- Determine what type of injury was received. Evaluate against the exact activity and detailed sequence of actions leading to the injury. Does the action fit the injury?
- Review and record all physical evidence from the accident site. Site diagrams including photos and measurements of key elements and materials should be included.
- Record the facts surrounding the accident on the Supervisor's Investigation Report.

Analyze the facts to determine WHY the accident happened. Understanding injury causes is essential in the effort to eliminate future similar accidents. Several major types of causal factors exist and the investigation should seek answers in each category to ensure an in-depth analysis:

- Unsafe Acts - the actions of the individual that precede and bring about the accident.
- Unsafe Conditions - factors in the physical environment that contributed to the accident.
- Indirect Human Factors - conditions, characteristics or attitudes of the individual that influenced the accident.
- Knowledge or skill deficiency - did not understand the risk
- Improper attitude or motivation - aware of the risk but in a hurry to complete the job.
- Mental or physical state factors - risk was known and normally would not have been taken, but the individual was fatigued or inattentive.

Indirect Environmental Factors - the reason for the unsafe condition to exist in the environment.

- Actions of workers in general.
- Errors existing from design.
- Improper purchasing practices.
- Abnormal wear and tear on equipment.
- Failure to maintain.
- Failure to maintain properly.

Correct the problem/deficiency immediately!

- Make recommendations for corrective actions to improve the management system.

Submit reports as required to:

- Risk Management
- Regional Manager - Maintenance
- General Manager
- Area Safety Director

Additionally, OSHA must be notified within 8 hours in the event of a death or when 3 or more persons require hospitalization (See policy on OSHA Record-keeping).

Date Filed / Revision Date	Description of Change

MV TRANSPORTATION, INC. CORPORATE POLICY STATEMENT

General policies of MV Transportation, Inc. are issued from time to time and are designed to provide general guidance to company managers in the conduct of the business. Policies may, from time to time, become dated or may no longer apply. In the event of questions, the policy should be referred to the General Counsel for interpretation. In the event a policy conflicts with the law, regulation or the terms of a contract with a customer, the policy will be subordinate to such law, regulation or contract term. Policies are only effective on the written approval of the Chief Executive Officer.

Safety Policy S-31 SPEED LIMITS - ALL COMPANY VEHICLES

SCOPE: This policy applies to every employee or contractor operating Company vehicles.

PURPOSE: The purpose of this policy is to promote safe operations of Company equipment.

POLICY: It is the policy of this Company that all employees shall operate buses and other vehicles at speeds not to exceed 5 m.p.h. on MV property and that they will obey all other speed limits when on public highways.

PROCEDURE:

The maximum allowable vehicle speed on company facilities is 5 m.p.h. Slower speeds are to be used in and around customers, employees, or other areas having potential danger.

When operating under congested conditions, drivers will operate the Company vehicle at throttle idle speed with the brake covered and will remain especially alert for changing conditions.

On the public highways, all employees in Company vehicles will operate in accordance with posted, or at a lesser speed if conditions warrant.

Date Filed / Revision Date	Description of Change

MV TRANSPORTATION, INC. CORPORATE POLICY STATEMENT

General policies of MV Transportation, Inc. are issued from time to time and are designed to provide general guidance to company managers in the conduct of the business. Policies may, from time to time, become dated or may no longer apply. In the event of questions, the policy should be referred to the General Counsel for interpretation. In the event a policy conflicts with the law, regulation or the terms of a contract with a customer, the policy will be subordinate to such law, regulation or contract term. Policies are only effective on the written approval of the Chief Executive Officer.

Safety Policy S-32 ACCIDENT/INCIDENT REPORTING PROCEDURES

SCOPE: This policy affects all MV employees who operate company vehicles/buses, as well as managers and supervisors who investigate incidents.

POLICY: It is the policy of this Company to minimize injury, damages, pain and suffering for people involved in vehicular mishaps involving MV vehicles, to promptly report and to thoroughly investigate these occurrences.

PURPOSE: The guidelines in this policy designate the procedures for all employees to follow when an incident occurs and to ensure accurate and timely incident reporting.

An *Incident* is any MV mishap involving a MV employee, MV passenger, MV vehicle, MV equipment, or the environment. An incident may or may not result in injury or death to a person, damage to vehicles or property, or damage to the environment. This includes alleged incidents which are claimed to be caused by a MV employee, vehicle, or equipment; even though the MV employee, vehicle, or equipment is not affected.

PROCEDURE:

This procedure applies to all MV losses (other than Workers' Compensation) to include:

- Vehicular collision with any person, vehicle, or object
- Passenger/Customer/Client Incident/Injury
- MV Vehicle Physical Damage (including unknown yard physical damage)
- MV Property (buildings/contents) Losses (fire, tornado, flood, hurricane, vandalism, break-in, etc.).
- Environmental Exposures (i.e. fuel, oil, antifreeze, or other spills)
- Theft of MV vehicles, equipment, or property

When an incident could have been avoided, it was a preventable loss. MV Safety investigates "major" preventable incidents (see below for definition) to determine cause; and monitors preventable incidents to spot trends and to determine the trends' root causes. This includes examining driving and work procedures and revising them if found faulty; and identifying violations of MV, OSHA, DOT, FTA, or other procedures, rules or regulations.

INCIDENT TYPES

Major: An incident involving a transit vehicle or occurring on MV property involving one or more of the following:

- Fatality
- Pedestrian or Bicyclist incident/injury
- Passenger incident/injury involving lift
- Passenger incident/injury while entering/exiting vehicle
- Passenger incident/injury involving improper wheelchair securement
- MV Operator is cited for a moving violation
- Any injury (including to MV Operator) requiring immediate medical attention away from the scene
- Property damage equal to or exceeding \$5,000
- Environmental spills
- Vehicle roll-over/lay-over
- Vehicle fire

- Incidents with Operator allegation of equipment and/or maintenance failure
- Events with potential for negative public relations and/or news media coverage
- Incidents where Operator drug and/or alcohol use may be involved
- Incidents where fault is in question

Minor: All other incidents that do not meet the definition of a “major” incident.

INCIDENT REPORTING PROCEDURE:

1. All MV incidents shall be immediately reported from the scene.
2. Other than an hourly employee if at all possible, it is the responsibility of the General Manager to make sure a person responds to the accident who will ensure care for our driver and equipment, review of accident investigation and proper review of company liability.
3. Operator at scene shall immediately contact Dispatch and provide incident details.
4. Immediately Call Auto Hotline at (866) 688-7475
5. Complete the Initial Accident/Incident Claim Line Information Sheet to assist with gathering the details and to aid in the verbal phone notification.
6. After the phone notification, immediately scan and e-mail this report to claims@mvtransit.com. If unable to e-mail, fax to (214) 646-1858.

MAJOR INCIDENTS PROCEDURES:

In case of major incidents, in addition to the above, managers shall take the additional steps outlined below:

1. Obtain the following basic information:
 - a. Time and Place of incident
 - b. Driver name and Date of Hire
 - c. Vehicle number and type (cut-away, van, bus, sedan, etc.)
 - d. Injuries, if transported from scene –where to and by whom.
 - e. Damage description
 - f. Basic facts of collision, accident or incident.
2. Call and notify the following persons:
 - a. Director of Safety and/or
 - b. Vice President of Safety
 - c. Regional Vice President
3. General Manager or designee submits a “High Priority Event
4. Notification: Go to “Lawson Portal/Procedures and Forms/Safety/Report a Serious Incident” and enter the
5. required information.
6. Director of Safety and/or the Regional Vice President will continue the phone tree to the senior executives listed on a
7. need to know basis.
8. If the Director of Safety and/or the Regional Vice President or Vice President of Safety is not available, please contact the Sr. VP of Safety, or in his absence, the President of Operations. If the President of Operations is not available, contact another Corporate Officer or Director who will then continue the phone tree as necessary.

NOTES:

- *The only information given by MV employees should be to Police Officers present at the scene of the incident.* Operator does not discuss incident/loss with witnesses – Operator only discusses with police, MV Safety personnel, MV Risk Management personnel, and/or MV Third-Party Claims Administrator personnel.
- *Refer all other parties to Risk Management to handle any public and/or media questions.* For these situations, please make sure you can provide Risk Management with the name and phone number of the inquiring party. If necessary, Risk Management will involve the Director of Media Relations to communicate to the public and/or media.

INCIDENT/ACCIDENT/LOSS PROCEDURES

1. Pre-Planning:

a. General Managers/Dispatchers must be aware of all sources of assistance in handling incidents/losses. Before an incident/loss occurs, have contacts on hand for:

- Operator's family and/or emergency notification
- Local police department and/or local sheriff department
- Highway patrol/state police
- Local fire department and local ambulance service
- Tow truck, heavy equipment, and construction companies

MV Risk Management staff and MV Safety staff are excellent sources for help. Have their telephone numbers available.

b. General Managers post their home telephone numbers and cell phone numbers so they can be called when an emergency occurs. Emergency Telephone Numbers shall be posted next to all MV telephones and shall be available at all supervisors' home telephones. This should include a list of local and MV telephone numbers used in controlling emergencies.

c. Prominently place "reporting" decals in MV vehicles. The decals read, "Should you be involved in an accident or should any other incident occur, immediately contact Dispatch who shall immediately communicate with you and the 24-Hour ClaimLine, (866) 688-7475." Place these stickers on the dash and on the driver-side sun visor.

d. Equip MV vehicles with the following items:

1. Three (3) bi-directional emergency reflective triangles (not flares).
2. Incident Reporting Packets and color disposable flash cameras.
3. Fire extinguisher having an Underwriters' Laboratories rating of 5 B:C or more.

To order replacement incident reporting packets and cameras, go onto Portal, under Procedures and Forms, and under Risk Management – there is an Incident Reporting Packets bullet point. Click on that bullet point, complete your order information, and submit your order.

2. Incident/Loss Occurs:

A. MV Operator: If involved in an incident with an unattended vehicle,

a) Try to locate the owner.

b) If the owner cannot be located, Operator securely leaves a note on the vehicle with his/her name and address, and the company/division's name, address and phone number.

c) Operator obtains the vehicle identification number and license plate number of the other vehicle and includes that information when reporting the incident.

d) An Incident Reporting Packet which includes a color disposable flash camera is supplied to Operator. Operator takes pictures of damages.

e) Operator delivers used camera to General Manager/Dispatcher.

A. If involved in a Hit and Run Incident while on the job or in a company-owned vehicle and you record/obtain the adverse vehicle's license plate number or capture picture of adverse vehicle via camera or Drive Cam, it is mandatory that the police are called, and an incident report is filled out and filed with them. Once this is completed, please forward this information to Risk Management.

B. If otherwise involved in a vehicular incident, Operator exercises on-scene emergency control until properly relieved by a supervisor or company official. Control will be directed to prevent further threat to human life, damage to the environment, and/or damage to property.

For traffic control and to protect others:

1. Stop immediately and shut down vehicle (shift transmission into park, or neutral, shut off engine and set parking brakes).
2. Turn on four-way flashers.
3. Place emergency reflective triangles as soon as possible, but in any event within ten minutes.
4. Detour non-essential traffic.
5. Notify police/fire/ambulance. If necessary, direct a passerby to notify the proper authorities. Be sure to indicate if there are injured people at the emergency scene. Do not leave the scene except in an extreme emergency.
6. Do not move MV vehicle (unless there is a fire or spillage that may spread) until authorities arrive.
7. Do not allow any other vehicles to be moved until someone in authority arrives to verify the positions of the vehicles and the lengths and positions of skid marks. Calm down. Try to detach yourself from what has happened so you can be as objective and unemotional as possible. Don't smoke and caution others to not smoke; as there may be fumes that could cause an explosion or fire.
8. If safe, extinguish any controllable fire and/or shut off any leak.
9. Assist injured or endangered persons, but do not move them or permit them to get up unless absolutely necessary. Keep them warm and quiet until emergency help arrives.
10. Prevent fires by turning off ignitions, disconnecting battery cables, prohibiting smoking, or taking any other indicated action.
11. Prevent contact with spilled materials.
12. Do not touch (or permit others to touch) vehicles/objects in contact with downed power lines. Keep occupants in vehicles.
13. Keep sightseers back/away from emergency scene.
14. Follow the Incident Handling Procedure/Instructions contained in the Incident Reporting Packet.

3. Report incident/loss to dispatch and 24-hour Claim Line:

MV Operator at scene shall immediately contact Dispatch who shall immediately communicate with the Operator and 24-Hour Claim Line, (866) 688-7475 (See Incident reporting procedures above).

- Operator should never try to handle things alone.
- Call while the emergency is small and controllable.
- Dispatch shall provide a telephone number at which the Operator can be contacted. Usually this is the Dispatch number.
- Dispatch and Operator shall stay in telephone contact with the 24-Hour Claim Line until released.

4. Operator Takes Pictures of Scene and Damages:

MV vehicles are equipped with color disposable flash cameras:

- a. Photograph the causes of the incident.
- b. Photograph the incident scene before vehicles are towed or moved. Include surrounding landmarks / reference points in the pictures.
- c. If skid marks are long, start photographing 150 feet before skid marks begin and continue as you walk closer to the vehicle.
- d. Photograph vehicles, including points of impact, damaged areas, undamaged areas, and spilled materials.
- e. Do not photograph bloody or gory details.
- f. Make a sketch of the scene before any vehicles are moved. The important thing is to show the positions of the vehicles as they approached the scene and where they were following the collision.

5. Equipment Recovery: Division ensures proper damaged equipment handling and securement.

6. Operator Identifies Himself/Herself: Operator gives any other involved party his/her name, division name, division address, and division phone number; and if requested, insurance information from Insurance Identification Card located in glove box.

7. Operator Provides Local Authorities and Emergency Responders Details of Incident/Loss:

- a. Operator obtains any reports from authorities/police or emergency responders that must be completed.
- b. Operator cooperates with police officials but does not admit any responsibility to anyone except MV Risk Management personnel, MV Safety personnel, and/or MV Third-Party Claims Administrator personnel.
- c. Operator does not give a formal statement (written or recorded) to anyone until Operator has contacted MV Risk Management, and then, not unless approved by MV Risk Management. Operator never discusses incident with reporters. Supervisor who may respond will support this.
- d. Operator always notifies the police, no matter how minor an incident or collision may seem to be, even if it's just a minor "fender bender." Always report it to the police. If other party just wants to exchange information and not call the police, Operator calls in a report anyway.

8. Operator Obtains Names and Addresses of Witnesses:

- a. Operator gets names and addresses of all witnesses to the incident using Courtesy Information Cards contained in Incident Reporting Packet.
- b. Operator does not discuss incident with witnesses – Operator only discusses with police, MV Safety personnel, MV Risk Management personnel, and/or MV Third-Party Claims Administrator personnel.

9. Operator Completes Incident Report: Operator

completes "Incident Report" before leaving the incident scene. This report is critical, as it captures MV information, third- party claimant information, client/passenger information, police information, an incident description, an incident diagram, etc.

10. Operator Delivers: Incident Report, Used Camera, Courtesy Information Cards, and any other Incident Reporting Packet Items to General Manager/Dispatcher. Operator gives General Manager/Dispatcher Incident Report, Courtesy Information Cards, used camera, diagrams, sketches, etc.

11. General Manager/Dispatcher Forwards Items to MV Risk Management:

1. General Manager/Dispatcher immediately scans and e-mails items to claims@mvtransit.com.
 - If unable to e-mail, fax to (214) 646-1858.
 - General Managers retain originals for his/her records.
 - Several other reports may be completed from the information on these items, so it is important that the information is complete and accurate.
2. General Manager uploads any relevant photos and videos to OneDrive.
Note: OneDrive Procedure attached as an appendix to this policy.
3. General Manager/Dispatcher ensures that safety items in MV vehicles are immediately replaced/recharged prior to next dispatch: Incident Reporting Packet with color disposable flash camera, fire extinguisher, 3 bi- directional emergency reflective triangles, etc.

12. Loss Handling:

- a. MV Risk Management directs loss handling. General Managers ensure that all losses are immediately and properly reported. MV Risk Management or MV's Third- Party Claims Administrator initiates all claim filings. Except for thefts, break-ins, and stolen vehicles, General Managers shall not file reports or other information with local, state or federal authorities.
- b. Whenever there is any possibility of serious liability, the General Manager:
 1. Sends complete maintenance file on the vehicle to MV Risk Management
 2. Sends Operator's logs/time sheets to MV Risk Management
 3. Prints electronic control module data (if applicable) and sends to MV Risk Management

4. Risk Management ensures Drive Cam event (if applicable) is obtained

13. Damaged Equipment:

A. Probable Total Losses: General Manager obtains repair estimate and scans and e-mails it to claims@mvtransit.com.

1. If unable to e-mail, fax to (214) 646-1858. MV Risk Management contacts Fixed Assets and determines if MV vehicle is a total loss.
2. If MV vehicle is deemed a total loss, General Manager has any valuable/usable parts removed and then obtains salvage bids.
3. General Manager obtains approval from MV Risk Management before selling salvage.
4. General Manager processes Fixed Asset Action Form and forwards for required approvals.
5. When General Manager receives salvage proceeds, General Manager faxes copy of check to MV Risk Management and forwards check to Accounts Receivable utilizing the applicable MV Lockbox Remittance Form.

B. Repairable Losses: General Manager contacts Maintenance Manager. Maintenance Manager authorizes and controls all repairs following maintenance protocols. MV Risk Management distributes weekly reports that include its internal claim number for the damaged or total loss vehicle. General Manager approves all MV vehicle repair invoices. General Manager codes vehicle repair invoices to GL#7090 or GL#6150. General Manager forwards approved and coded MV vehicle repair invoices to Accounts Payable.

C. The following information explains what GL code to assign and what additional information will be required to avoid delaying payment.

1. 7090 Collision – This GL number should be used for all MV vehicle repairs made and/or parts purchased due to some type of collision. The MV Risk Management internal claim number is required to be on each invoice that is assigned this GL number. Failure to provide the claim number will prevent Risk Management from approving the invoice for payment and will delay timely payment to the vendor.
2. 6150 Outside Services – This GL number should be used for all MV vehicle body repairs made and/or parts purchased due to wear and tear over time. Examples would be rusted areas and faded paint. Repairs made to a vehicle that was purchased with pre-existing damage can also be coded to this GL number. An explanation will be required for each vehicle body repair invoice that is coded to this GL number. Invoices coded “6150” do not require a MV Risk Management internal claim number.

D. MV vehicle repairs (MV Damage):

Effective 1/1/08, the division is responsible for the full amount of the repairs. These invoices must be approved for payment by Risk Management.

E. MV Damage Subrogation:

If it is possible that MV can collect for damages caused by a responsible third party, General Manager scans and e-mails all information related to the incident to claims@mvtransit.com. If unable to e-mail, fax to (214) 646-1858.

1. Obtain a repair estimate and submit the estimate and photographs of the damage to Risk Management. These items will be used as documentation for MV's subrogation demand.
2. In addition to the damages, MV Risk Management will also attempt to collect “loss of use” from the responsible third party.
3. MV Risk Management compiles a formal claim for damages for submission to the responsible party. MV Risk Management follows up on collection. Damages and/or loss of use recovered through subrogation efforts will be credited to the division.
4. If an insurance company or its representative requests repair cost information, General Manager refers that person to MV Risk Management. Do not release cost information.

14. Alleged Equipment/Maintenance Failure:

Claims of equipment or maintenance failure are always referred to as "alleged" failure until an inspection of suspect systems by qualified personnel verifies or denies such claims. The following steps are followed in instances of alleged equipment or maintenance failure:

1. If Operator alleges a failure, contact MV Risk Management immediately.
2. Arrange to have vehicle towed to nearest MV division or area where vehicle can be secured. Do not let vehicle be driven.
3. Secure vehicle. Don't let anyone tamper with vehicle, including MV personnel.
4. Call MV Risk Management to direct investigation activity.
5. MV Risk Management will set up inspection with manufacturer's representative, expert (if applicable), and MV personnel.
6. Notify and coordinate inspection with field personnel.
7. Assist in the inspection of vehicle at formal inspection.
8. Send complete maintenance file on vehicle to MV Risk Management.
9. Send Operator's logs/time sheets to MV Risk Management.
10. Print electronic control module data and send to MV Risk Management.
11. Risk Management ensures Drive Cam event (if applicable) is obtained.

15. Stolen MV Vehicle.

General Manager/Dispatcher immediately reports loss to MV Risk Management.

- A. General Manager/Dispatcher immediately reports the loss to local police authorities. Direct the police authorities to enter the stolen vehicle on the NCIC. Note: If vehicle is ultimately recovered, General Manager/Dispatcher immediately reports recovery to local police authorities and directs them to remove from the NCIC; and General Manager/Dispatcher immediately reports recovery to MV Risk Management.
- B. General Manager obtains a copy of police report and faxes it to MV Risk Management.
- C. Instruct MV Operators on the following:
 - a) If anyone tries to take a vehicle, let them have it. Do not get into an altercation with them.
 - b) If a vehicle is taken or is missing, immediately phone MV Risk Management.
 - c) Report any suspicious activity to General Manager/Dispatcher.
- D. Depending on the circumstances regarding the missing vehicle, MV Risk Management may notify FBI, appropriate state Highway Patrol, FTA, and Federal DOT.

16. Break-Ins and other Property Losses.

- A. General Manager/Dispatcher immediately reports loss to MV Risk Management.
- B. General Manager/Dispatcher immediately reports loss to local police authorities.
- C. General Manager obtains a copy of police report and faxes it to MV Risk Management.

17. Post-Loss Procedures, Reports, and Correspondence.

- A. General Manager forwards all correspondence relating to an incident/loss to MV Risk Management. General Manager identifies the correspondence to MV Risk Management by indicating the Operator's name and the date of the loss.
- B. If lawsuit papers are received, General Manager immediately telephones MV Risk Management at (866) 665-1426. General Manager forwards the papers via overnight mail to: EVP, c/o MV Risk Management, 2024 College Street, Elk Horn, IA 51531, with a memo stating the person served and the date and time of service. The EVP of Risk Management can also be reached by telephone at (712) 764-3720.

18. Post-Accident Alcohol and Controlled Substances Testing

- A. Fatal Accidents: As soon as practicable following an accident involving the loss of human life, an employer shall conduct drug and alcohol tests on each surviving covered employee operating the transit vehicle at the time of the accident. The employer shall also drug and alcohol test any other covered employee whose performance could have contributed to the accident, as determined by the employer using the best information available at the time of the decision.

- B. Non-Fatal Accidents: As soon as practicable following an accident not involving the loss of human life in which a transit vehicle is involved, the employer shall drug and alcohol test each covered employee operating the transit vehicle at the time of the accident unless the employer determines, using the best information available at the time of the decision, that the covered employee's performance can be completely discounted as a contributing factor to the accident. The employer shall also drug and alcohol test any other covered employee whose performance could have contributed to the accident, as determined by the employer using the best information available at the time of the decision.
- C. "Accident" Definition: "Accident" means an occurrence associated with the operation of a vehicle (including operation of its lift), if as a result:
 - D. A Fatality; or
 - E. An individual suffers bodily injury and immediately receives medical attention away from the scene of the accident; or
 - F. With respect to an occurrence in which the transit vehicle involved is a bus, electric bus, van, or automobile, one or more vehicles (including non- FTA funded vehicles) incurs disabling damage as the result of the occurrence and such vehicle or vehicles are transported away from the scene by a tow truck or other vehicle; or
 - G. With respect to an occurrence in which the transit vehicle involved is a rail car, trolley car, trolley bus, or vessel, the transit vehicle is removed from operation.
- H. MV Division Management coordinates/arranges post-accident testing. If reasonable suspicion is suspected, all reasonable suspicion testing guidelines will be followed.

Test Results Obtained. Test results are obtained by Elk Horn Qualification and reported to MV Division Management, or vice versa. General Manager contacts MV Management concerning disposition of Operator.

Category:		OneDrive	Section No.:		
Author	By:	Shane Shelton	Approval	By:	
	Date:	8/16/2016		Date:	
Email:		Shane.shelton@mvtransit.com		Status:	PENDING
Revision Date:		8/18/2016		(active, inactive, pending)	

PLEASE NOTE: Any changes to this document will require manager-level approval

1.0 PURPOSE:

To give safety manager instructions on how to upload videos, photos and documents to the Claims Department via Microsoft OneDrive

2.0 RESPONSIBLE PARTIES:

MV Infrastructure Team

3.0 PROCEDURE INFORMATION:

User Provisioning (for the Claims Team Only):

1. The IT Infrastructure team will get a ticket from the Auto Claims Manager requesting that a user be given access to a divisional folder via the Help Desk.
2. The user will be provisioned according to the tickets directions.
3. The same process will be used for user moves and deletions.

End User Access Instructions:

1. Upon successful provisioning of the end user's account, the end user will receive an email from no-reply@sharepointonline.com with the Subject of "Sys_ClaimsMgmt has shared 'Division Number'"

2. The end user can click the "Division Number" hyperlink in the email body to go to the One Drive Login page. The example above shows you'd click the blue "121" number in the body of the email for Division 121.
3. This will take you to a sign-on page with your default browser. MV IT recommends you use Internet Explorer or Google Chrome of the best results.

The image shows the Office 365 login page. At the top is the Office 365 logo. Below it is the text "Work or school, or personal Microsoft account". There are two input fields: "Email or phone" and "Password". Below the "Email or phone" field is a checkbox labeled "Keep me signed in". Below the checkbox is a blue "Sign in" button. Below the button is a link "Can't access your account?". Below that is the text "Don't have an account assigned by your work or school?" and a link "Sign in with a Microsoft account". A large blue arrow points from the "Sign in" button to the "Sign in with a Microsoft account" link.

4. To sign in, use your MV Transportation email address: firstname.lastname@mvtransit.com. If your name is John Doe, your email will be john.doe@mvtransit.com. Once you've entered your email address into the email field, your browser will redirect you to the MV Transportation Office 365 login page as seen below.

The image shows the MV Transportation logo, which consists of a green map of the United States with a blue "MV" and a circular arrow around it.

Sign in with your organizational account

1. Your email address will already be populated, just enter your domain password. This is the same password you use to log into your MV desktop or laptop. Click Sign in.
2. This will then take you to the OneDrive folder you have access to. You will notice if you click outside of your folder, you will receive access denied messages. You will ONLY have access to the division you were assigned by the Auto Claims Manager.

3. From here you can open the folders you would need to upload into. Further instructions on uploading files are below. You can bookmark the page you accessed in step 6 to streamline logging in in the future.

Uploading Files:

1. Once you've completed Steps 1 – 7 above under the “End User Access Instructions”, you can now start to upload files. To do so, click the folder you want to upload to (in this example we'll use a photo upload). Click on the Photos Folder.

2. This will take you the Photos folder.

3. To upload a photo, click Upload -> Files

4. Browse to the location on your computer of the file you want to upload. In this example, we are uploading the one MV logo picture. Click on the file(s) you want to upload, you can upload multiple if need be at a time. Click Open to start the upload.

5. Your file will then upload into the folder you were in before you clicked the Upload -> Files button in step 3. We were in the Photos folder in this example, so the file uploaded into the Photos folder. If you want to upload a Video, start from the Videos folder and the same for the Documents folder.
6. That's it. You've now uploaded a file to Claims for review.

Labeling Uploaded Documents to OneDrive:

Please prefix all documents uploaded into OneDrive with the following coding. Please note that all photos need to be saved on a Word document. Then uploaded to OneDrive with the proper label; Pic – M16XXXX or Pic – “Ref Number”. The MV claimant number is provided on the Daily Incident Report or Weekly Incident Report.

1. Division Reports – DR-M166403 or DR-CG122
2. Police Report – PR-M166403 or PR-CG122
3. Photos – Pic-M166403 or Pic-CG122
4. Estimate – Est-M166403 or Est-CG122
5. Letter – Ltr-M166403 or Ltr – CG122
6. Video – Video-M166403 or Video-CG122
7. Invoice – Inv-M166403 or Inv-CG122
8. Tender – Tender-M166403 or Tender-CG122

4.0 REFERENCE DOCUMENTATION:

“MV” is to be understood as MV Transportation and/or its affiliated companies (collectively “Company”).

5.0 DOCUMENT CHANGE LOG:

Version	Date	Author	Change Description
1.0	8/16/2016	Shane Shelton	Original draft
1.1	8/18/2016	Shane Shelton	Added Coding
1.2	12/20/2016	Shane Shelton	Added photo saving wording under labeling

MV TRANSPORTATION, INC. CORPORATE POLICY STATEMENT

General policies of MV Transportation, Inc. are issued from time to time and are designed to provide general guidance to company managers in the conduct of the business. Policies may, from time to time, become dated or may no longer apply. In the event of questions, the policy should be referred to the General Counsel for interpretation. In the event a policy conflicts with the law, regulation or the terms of a contract with a customer, the policy will be subordinate to such law, regulation or contract term. Policies are only effective on the written approval of the Chief Executive Officer.

Safety Policy S-33 DRIVECAM

SCOPE: This policy applies to all employees who operate Company vehicles or perform work on behalf of the company.

PURPOSE: The purpose of this policy is to provide a standard to remediate improper driver behaviors while operating our vehicles. The goal is to proactively identify unsafe behaviors and improve them through coaching, retraining and, if necessary, disciplinary measures in accordance with the provisions of the Employee Handbook and applicable Collective Bargaining Agreements.

POLICY: All DriveCam events will be reviewed and evaluated for compliance with the company's policies and defensive driving standards. Drivers found acting in an improper and/or unsafe manner shall be coached towards behavior improvement and if necessary retrained and/or disciplined.

- A. Procedure: The heart of the Drive Cam program is the counseling and retraining process. In order to have a positive effect on driver behavior, events must be viewed and counseled daily, and corrective actions must be taken in a timely manner:
1. Identify the Vehicle Operator and review the driving behavior from the DriveCam Event Log.
 2. Schedule a counseling session with the Operator at the very first opportunity (whenever possible counseling should be completed within four business days based on employee schedule after the event appears on DriveCam Event Log):
 - a. Review event with Operator (1 on 1 with Operator).
 - b. Discuss how the Operator can prevent unsafe driving acts and perform safe driving acts using the Smith System and other defensive driving techniques received during his/her training.
 - c. Have the operator sign the DriveCam Event Log form and file in the operator's personnel file.
 - d. Develop a Corrective Action Plan to provide positive feedback and further help the Operator correct unsafe driving behavior and adopt safe driving habits.
- B. Remedial actions: Remedial actions for improper behaviors identified via the DriveCam event recorder shall, generally, be progressive in nature and based on the "Event Risk Score", taking in account both the individual event score and the cumulative score earned by the driver for a specific period of time. Safety Points shall be assessed for both certain individual Drive Cam events and whenever the cumulative "Event Risk Scores" reach certain thresholds/levels (See Table 1).

	Drive Cam Events Remedial Action	
INDIVIDUAL EVENTS	DC Event Risk Score	Action
	1-8	Documented Verbal Counseling/Coaching
	9-13	Written Counseling & Refresher Training
	14+	1 Safety Point & Refresher Training
	Cumulative Event Risk Scores in 30 Days*	
CUMULATIVE SCORES (* Rolling 30-day period)	24-30	1 Safety Point & Refresher Training
	31-43	2 Safety Points & Refresher Training
	44+	3 Safety Points & Refresher Training
	SPECIFIC VIOLATIONS	
SPECIFIC VIOLATIONS	Cell Phone Violations	Per Employee Handbook
	Improper Wheelchair securement	6 Safety Points / Termination
	DC Camera Tampering	6 Safety Points / Termination
	Traffic Control Devices	3 traffic control violations in a 30-day period will result in 2 safety points.

Table 1 – DriveCam Event Remedial Action

1. Depending on the driver's past history of Drive Cam events and his/her cumulative risk scores, he/she may be assessed Safety Points for both the individual DriveCam event and/or for reaching/breaking the cumulative risk score threshold level.
 - Example 1: Driver "A" has already experienced 2 DriveCam events for a total of 10 risk points. Within the 30-day period from the first event, driver "A" experiences a third DriveCam event with a risk score of 15. In this case, the driver would be retrained and be assessed 2 Safety Points, as follows:
 - o 1 point for the individual event (with a risk score of 15) and 1 point for reaching the cumulative "risk score" threshold of 25 risk points (10+15).
2. There shall be no "double-jeopardy". When an individual event's score puts a driver in either a 2 or 3 "Safety Points" cumulative band, he/she shall receive only the higher point assessment when reaching the cumulative band (see example below):
 - Example 2: Driver "B" has already experienced multiple DriveCam events for a total of 32 risk points. Within the 30-day period from the first event, driver "B" experiences one more DriveCam event, with an event risk score of 15. In this case the driver shall be assessed only 3 safety points for having reached the "44+ points" cumulative point band and will not be assessed the additional 1 safety point for the individual "high risk score" event.
3. Any policy violation that occurs where the sole or primary means of determining a violation of the Company's policies is a method/s other than Drive Cam, employees shall be disciplined in accordance with the appropriate MV policy, Employee Handbook or appropriate section of an applicable collective bargaining agreement.

Date Filed / Revision Date	Description of Change

MV TRANSPORTATION, INC. CORPORATE POLICY STATEMENT

General policies of MV Transportation, Inc. are issued from time to time and are designed to provide general guidance to company managers in the conduct of the business. Policies may, from time to time, become dated or may no longer apply. In the event of questions, the policy should be referred to the General Counsel for interpretation. In the event a policy conflicts with the law, regulation or the terms of a contract with a customer, the policy will be subordinate to such law, regulation or contract term. Policies are only effective on the written approval of the Chief Executive Officer.

Safety Policy S-34 AIR-BRAKE VEHICLE SECUREMENT

SCOPE: This policy applies to all employees of MV Transportation, Inc.

POLICY: It is the policy of this Company that all air-brake equipped vehicles shall be properly parked and secured whenever the bus operator is not in attendance of the vehicle or sitting in the driver's seat.

The use of wheel chocks is mandatory whenever parking air-brake equipped vehicles.

Whenever two operators are "in transition" on the same bus (i.e.: at a transfer terminal), the "outgoing" operator shall properly park/secure the bus and both "Incoming" and "Outgoing" operators shall ensure that:

- a) Gear is in "Neutral"
- b) Parking Brake is engaged
- c) Wheel Chock blocks are in place

All operators shall use the procedure set forth in this policy whenever they are parking the bus, whether during the duty day or at the end of their work-shift.

There shall be "Zero Tolerance" for violations of this policy. Violations of this policy shall be considered a "Major Incident" and will result in termination of employment, as detailed in the Employee Handbook.

PROCEDURE:

The following steps must take place any time an operator who was physically in control of the bus completed his or her driving duty and are parking the bus at a layover, transit terminal, bus depot, division's yard, etc.

1. Always park at a safe and designated stop.
2. Once you make a complete stop, while still holding the service brake put the bus gear in Neutral.
3. Engage the parking brake.
4. Turn the engine OFF.
5. Release the front door air valve.
 - a. Note: When you release the front door air valve your door handle will no longer be operational.
6. Open the front door manually.
7. Never reach through the driver's window to operate any controls/switches (i.e.: open or close doors, start, stop, etc.) from outside the bus. All "operating" actions must be accomplished only from the driver's compartment inside the vehicle.
8. Chock the wheels by placing the vehicle's chock blocks under the bus' front right wheel.

As a general rule, if an operator needs to leave the bus unattended for any reason, that bus shall be secured in the same manner as if parked for the day and leaving the bus for the night.

Should a Division not be able to abide by this policy due to local client requirements, they need to obtain an "exception to policy" approval in writing from their VP of Safety or the Company's SVP of Safety.

MV TRANSPORTATION, INC. CORPORATE POLICY STATEMENT

General policies of MV Transportation, Inc. are issued from time to time and are designed to provide general guidance to company managers in the conduct of the business. Policies may, from time to time, become dated or may no longer apply. In the event of questions, the policy should be referred to the General Counsel for interpretation. In the event a policy conflicts with the law, regulation or the terms of a contract with a customer, the policy will be subordinate to such law, regulation or contract term. Policies are only effective on the written approval of the Chief Executive Officer.

Safety Policy S-35 SAFE DRIVER AWARD RECOGNITION PROGRAM

SCOPE: This policy affects all full time drivers for MV.

PURPOSE: The purpose of this policy is to describe the recognition program for those drivers who have achieved the MV professional standard of safe driving performance.

POLICY: It is the policy of this Company that every full time driver will be recognized for driving safely and preventing incidents.

PROCEDURE:

I. QUALIFICATIONS FOR SAFE DRIVER AWARDS

A. Award Period:

To qualify for the following safe driver awards, a driver must complete 12 months of driving without a preventable incident or LOA longer than 30 days and injury from date of hire from a year to year basis. A LOA longer than 30 days will be added to the original anniversary date and this will be the new anniversary date.

Completion of the consecutive period means the driver has successfully completed one award year.

If a driver has one (1) or more preventable incidents during this period, he/she must begin again to accumulate the required 12 consecutive months of operation without a preventable incident. If the driver has a LOA longer than 30 days, the total days of leave will be added to the anniversary date and this will be the employee anniversary date going forward.

B. Subsequent Awards:

To qualify for the 1-year and subsequent awards, a driver must complete the twelve (12) consecutive months of driving without a preventable incident for each subsequent safe driver award year.

If, during any award year, a driver has a preventable incident, that award year must be completed and the driver must drive an additional twelve (12) consecutive months without a preventable incident in order to earn the award involved (i.e.: the anniversary date for the award will be pushed back 12 months).

All preventable collisions, passenger injuries, vehicle off-road, other "moving" accidents and incidents and preventable "on-the-job injuries" incurred by the driver will be recorded on the drivers' safe driving records. Accidents and incidents involving passenger falls while boarding or alighting will not affect this safe driving award records unless the driver contributed to such incident by failing to follow proper procedures.

SPECIAL CIRCUMSTANCES:

A. Absence from Active Service due to Sick Leave, Leave of Absence, Vacation, Furlough, etc.

Any absence from active service through leave of absence, furlough, injury, illness, or separation from driving for any reason, excluding earned vacations, for a period of thirty (30) consecutive days or longer, will cause the driver's anniversary date to be delayed by the time length of that absence period.

When a driver selects to take vacation while on sick leave, the award anniversary date will be delayed by the entire sick leave period (including vacation time), provided such period is of 30 days or more duration. However, if a portion or all of the vacation is taken immediately preceding or following sick leave without the driver having returned to work in between, delay of the anniversary date will only be made for that portion covering the sick leave period, and then only if the sick leave period consists of 30 days or more.

It should be noted that the driver's award date never changes unless sick leaves, leaves of absence or furloughs are involved.

B. Temporary Suspension

Temporary suspension, when applied for disciplinary measures, will be considered as time lost for safe driver award purposes, and the anniversary date will be delayed from the first day of suspension to its termination, but only when suspension consists of 30 days or more.

C. **Reinstatement**

Any driver who is discharged and later reinstated will be given credit for previously earned awards, plus any partial year earned before discharge, but will be required to drive the necessary time without a preventable incident after being reinstated before the next award can be earned. Lost time in such cases will be made effective from the date last at work prior to discharge, to the date of return to work following reinstatement, but is applicable only in such cases where the out of service period consists of 30 days or more.

D. **Re-employment**

Any driver who resigns in good standing and is rehired as a new employee will be given credit for previously earned awards, plus any partial year earned before resigning. The driver will be required to drive the necessary additional years, months and days without a preventable accident from date of rehire before the next award can be earned.

E. **Preventable Incidents**

For award purposes, a preventable Incident is any Incident in which a driver failed to do everything possible to prevent or avoid an accident. Our central defensive driving rule states:

"It is the responsibility of a professional driver to drive in such a manner as to identify accident producing situations soon enough to take reasonable and prudent action to avoid an accident."

MV safe driving standards protect drivers from being charged for an incident if there was nothing that reasonably could have been done to prevent it. However, such incidents are rare. The facts regarding each incident must be considered carefully before deciding whether or not it was preventable. Management rules on preventable incidents subject to guidelines in the MV Safety Manual (Safety Policy # 1 – Preventability Determination). Drivers may appeal rulings consistent with policy and contract language on the subject.

Responsibility to prevent or avoid incidents goes beyond carefully observing traffic rules and regulations. MV drivers are expected to drive so as to prevent becoming involved in incidents in spite of hazards of weather, road, traffic conditions, or the faults of other driver's and their failure to operate safely.

Please refer to the MV Safety Manual (Policy #1, Incidents - Determining Preventability) for guidelines in determining incident preventability.

MV TRANSPORTATION, INC. CORPORATE POLICY STATEMENT

General policies of MV Transportation, Inc. are issued from time to time and are designed to provide general guidance to company managers in the conduct of the business. Policies may, from time to time, become dated or may no longer apply. In the event of questions, the policy should be referred to the General Counsel for interpretation. In the event a policy conflicts with the law, regulation or the terms of a contract with a customer, the policy will be subordinate to such law, regulation or contract term. Policies are only effective on the written approval of the Chief Executive Officer.

Safety Policy S-36 MOBILITY IMPAIRED PASSENGERS - PERSONAL SAFETY RESTRAINTS

SCOPE: This policy applies to all employees and contractors of MV Transportation, Inc.

PURPOSE: The purpose of this policy is to outline the protocols and procedures relative to mobility-device users' use of personal restraint safety devices.

POLICY: The safety of our passengers is the Company's first and highest consideration. It is the policy of MV transportation, Inc. that all mobility-impaired passengers who are using a mobility device (i.e.: wheelchair, scooters, etc.) shall be offered and highly encouraged to use personal restraint safety devices (i.e.: seatbelts or "posey belts" – type safety devices) while being transported aboard company vehicles.

Should a passenger decline or refuse to use such safety devices, the driver shall notify his/her dispatcher of such refusal and a record of such refusal shall be made for documentation purposes.

PROCEDURE:

- A. Drivers shall offer and highly encourage the use of passenger securement devices (i.e.: seatbelt/Posey belt) to ALL passengers using a mobility device (i.e.: wheelchair, scooter, etc.) as a matter of standard operating procedure.
- B. Should a passenger refuse (or decline) the use of such restraint device, the driver and Division shall RECORD AND DOCUMENT ALL REFUSALS, as follows:
 1. Driver shall immediately notify his dispatcher of the passenger refusal of the restraint device:
 - a. ALL refusals shall immediately be called in to dispatch by the driver.
 - b. Drivers in DriveCam-equipped vehicles shall also activate the DriveCam device and state the passenger's refusal of the restraint device on the camera.
 2. The dispatcher shall record the refusal in a log. This refusal log can be of any suitable type or nature appropriate for the Division's operation (paper log, Excel spreadsheet, Trapeze, etc.).
 3. The refusal log, at a minimum, shall contain the following information:
 - a. Date
 - b. Driver name
 - c. Trip/Schedule Number
 - d. Time
 - e. Passenger Name
 - f. Trip Origin / Pick-up location
 - g. Trip Destination / Drop-off location
 - i. Notes detailing the event
- C. The refusal log shall be maintained at the Division and shall be made available for inspection and/or reference as needed in response to investigations of passenger "fall out of the wheelchair" injuries or incidents.
- D. Should a Division's contract not allow the use of lap-belts/safety restraints for wheelchair passengers, the Division GM needs to contact their respective VP of Safety for guidance. If the VP of Safety concurs that the contract does not allow the use of such safety/restraint devices, he/she will prepare and forward a Memorandum for file to the COO and Group President detailing the reasons why the division is precluded to follow the passenger securement procedures detailed in this policy.

MV TRANSPORTATION, INC. CORPORATE POLICY STATEMENT

General policies of MV Transportation, Inc. are issued from time to time and are designed to provide general guidance to company managers in the conduct of the business. Policies may, from time to time, become dated or may no longer apply. In the event of questions, the policy should be referred to the General Counsel for interpretation. In the event a policy conflicts with the law, regulation or the terms of a contract with a customer, the policy will be subordinate to such law, regulation or contract term. Policies are only effective on the written approval of the Chief Executive Officer.

Safety Policy S-37 NEW DRIVER ASSESSMENT / VALIDATION

SCOPE: This policy applies to all employees of MV Transportation, Inc. who operate buses or other revenue vehicles.

PURPOSE: To ensure new drivers are operating their vehicles in accordance with MV's standards of safe driving performance

POLICY: It is the policy of the Company that all new driver hires shall receive a formal and thorough evaluation of their driving skills and a safety performance review/assessment at 45 days and 75 days from their date of hire.

PROCEDURES:

1. Complete a SF-3 (Driver Safety Profile and Record Summary) Form for each new driver in advance of the meeting with the driver.
2. Review DriveCam history/trends and overall safety record, in detail, with driver. Identify areas of "need improvement" or "good performance".
3. Conduct a thorough "Road Test" on each new driver and document on Form SF-1. Road Test shall be conducted by a certified BTW or other qualified individual (BTW is preferred).
4. The intent of the road test is to verify that the driver is operating the vehicle in accordance with our safe-driving performance standards (the standards taught in the driver training school and outlined in both the Student Guide and BTW manual).
5. Should the record review or the Road Test indicate areas of weakness and the need for additional training, the driver shall be scheduled for a full refresher training session addressing these areas within 10 days of this 45/75 day review.
6. Should a driver "fail" his/her "75-day" assessment, the Division General Manager, in coordination with the Area Safety Director, shall make a decision whether to retain and retrain the driver or take other administrative actions, up to and including separation from the Company.

These formal driver skills assessments shall be performed at the 45 day and 75-day timeframe. Note: It is critical that this final "75 day" assessment be completed before the end of the driver's "90 day probationary" period.

The intent of the process is to ensure all new drivers properly apply and execute the defensive driving standards they were taught in their Driver Training School courses and apply them properly during the course of their work.

Any exception to this policy must be approved by both the Regional Vice President and the VP of Safety for the division. The Sr. VP of Safety shall be the final decision maker in cases of non-concurrence.

MV TRANSPORTATION, INC. CORPORATE POLICY STATEMENT

General policies of MV Transportation, Inc. are issued from time to time and are designed to provide general guidance to company managers in the conduct of the business. Policies may, from time to time, become dated or may no longer apply. In the event of questions, the policy should be referred to the General Counsel for interpretation. In the event a policy conflicts with the law, regulation or the terms of a contract with a customer, the policy will be subordinate to such law, regulation or contract term. Policies are only effective on the written approval of the Chief Executive Officer.

Safety Policy S-38 PARKING CONE POLICY

SCOPE: This policy applies to all employees of MV Transportation, Inc. who operate paratransit vehicles.

The intent of this policy is to reduce backing/fixed object collisions by ensuring all drivers walk to the rear of their vehicle prior to movement and observe surroundings for hazards/obstacles. This policy has the additional benefit to provide other motorists/driver with a visual warning of the parked vehicle and possibly preventing "parked bus" collisions.

POLICY: It is the policy of this Company that whenever a driver parks his/her bus for more than five (5) minutes, for any reason, whether in revenue service, lunch breaks, or at end of duty, he/she shall place a high-visibility parking/safety cone on the ground at the left rear corner of the vehicle (driver's side, rear bumper). The driver shall pick up and secure the parking cone prior to departure from the parking position and after making sure there he/she is aware of any obstacles in his/her intended path of travel/movement.

RESPONSIBILITY: The operator has the responsibility for compliance with this policy, placing the parking cone in the proper position after parking the vehicle and retrieving the cone prior to departure.

PROCEDURE:

- 
- A. When parking the vehicle:
 - a. Park vehicle
 - b. Pick up parking cone from stowed position
 - c. Exit vehicle
 - d. Place cone on the ground one step (three feet) from the left rear corner of vehicle (rear driver side bumper)
 - B. When departing from parked position:
 - a. Move to left rear of vehicle
 - b. Observe for obstacles/hazards to safe movement
 - c. Remove cone from ground
 - d. Enter vehicle
 - e. Secure cone for movement (stow cone in safe position)
 - f. Depart

MV TRANSPORTATION, INC. CORPORATE POLICY STATEMENT

General policies of MV Transportation, Inc. are issued from time to time and are designed to provide general guidance to company managers in the conduct of the business. Policies may, from time to time, become dated or may no longer apply. In the event of questions, the policy should be referred to the General Counsel for interpretation. In the event a policy conflicts with the law, regulation or the terms of a contract with a customer, the policy will be subordinate to such law, regulation or contract term. Policies are only effective on the written approval of the Chief Executive Officer.

Safety Policy S-39

LOCATION SAFETY COMMITTEES

SCOPE: This policy shall apply to all operating divisions and facilities of the Company with more than 10 employees

POLICY: A Location Safety Committee (LSC) will be required and established at each division facility with more than 10 employees. Safety committees are not only a proven best safety practice but are also required by State and Federal regulations.

The primary function of the committee is to work as a team in creating and maintaining a safe work environment for fellow employees and helping with system safety and security at the division. The LSC is also responsible hazard reduction and hazard resolution.

Committee Members: The LSC shall be headed by either the Division's General Manager or Safety Manager and should be made up in equal numbers of member of management and hourly staff. A committee should not exceed 10 members.

An example of an LSC membership is below:

- General Manager
- Safety Manager
- Staff Person (Assistant Manager, Clerk, Dispatcher, etc.)
- Maintenance representative (required if maintenance performed at division)
- Drivers representatives (number of drivers should not exceed one driver per 25 vehicles)

It is recommended that staff and maintenance members

of the review board voluntarily serve one-year terms commensurate with the MV Transportation budget year. However, the General Manager and the Safety Manager are required positions on the committee.

Meetings: It is recommended that the Manager leading committee meetings establish the appropriate time and frequency for Safety committee meetings to fit the schedules and needs of the division. The committee should meet once a month at a minimum however less frequent meetings (i.e.: bi-monthly or quarterly) are allowed for divisions with less than 20 employees. At locations where vehicle incidents or workers' compensation frequency is high, the committee should meet more often than the minimum requirements (i.e.: bi-weekly). Agenda topics should include review of unsafe acts or conditions found at the facility, a review of DriveCam trends and most frequent violations, a review of incidents or "near misses" involving vehicle operations, equipment or employee injuries, as well as a review of old and new business.

LSC Committee activities: The committee should provide input/ideas to ensure a safe work environment is established and maintained. Employees exhibiting safe work habits will be identified and reported to the committee. The committee will determine the manner in which safe practices or behavior should be recognized at the facility. All unsafe conditions will be reported to the manager/supervisor and the committee will determine or recommend remedial/corrective action. The committee will encourage fellow employees to work in a safe manner, provide input/ideas for safety posters/messages at the workplace, and promote a safe work environment through input/ideas for safety topics at monthly safety meetings.

Other specific safety and security-related tasks of the LSC are as follows:

- Coordinate safety activities of the division.
- Meet to evaluate and resolve safety issues at the division level.
- Conduct special meetings as necessary at the request of Management.
- Compile pertinent location safety data to identify and assess operational risk.

- Review DriveCam trends and pertinent events/clips
- Review repeater trends/behavior and determine appropriate countermeasures to improve driving behaviors.
- Perform analyses to identify safety problems related to maintenance activities.
- Use Committee consensus to develop hazard resolutions.
- Review facility action plan for currency
- Coordinate and plan at least one annual emergency preparedness and fire drill.

MV TRANSPORTATION, INC. CORPORATE POLICY STATEMENT

General policies of MV Transportation, Inc. are issued from time to time and are designed to provide general guidance to company managers in the conduct of the business. Policies may, from time to time, become dated or may no longer apply. In the event of questions, the policy should be referred to the General Counsel for interpretation. In the event a policy conflicts with the law, regulation or the terms of a contract with a customer, the policy will be subordinate to such law, regulation or contract term. Policies are only effective on the written approval of the Chief Executive Officer.

Safety Policy S-40

FIXED-ROUTE SEATING

SCOPE: This policy applies to all drivers for MV Transportation, Inc.

POLICY: The safety of our passengers and operators is a major concern of MV Transportation. Traffic conditions may require the vehicle operator to make sudden stops, turns, or maneuvers.

The seating of passengers will ensure a safer ride. Passengers will be asked to take a seat if one is available prior to the movement of a vehicle. This will also be communicated through strategically placed signs within the interior of the vehicle.

Passengers have the right to refuse to take seat and will always provided transportation regardless.

PASSENGER REFUSAL:

If a passenger refuses to be seated, the operator must call into dispatch, and dispatch must make note of the refusal.

Note: If the dispatch function is not performed by MV Transportation the driver is still required to call in for recording purposes.

TRAINING:

All new drivers will be instructed on the seating policy in a fixed-route vehicle. This instruction will take place while the driver is undergoing MVT's new-hire training. All current and existing drivers will have this revised policy made part of their annual safety meeting training session and covered at least once a year in future safety meetings.

All operators will sign an acknowledgement sheet confirming the training. The Acknowledgement Sheet will be maintained as part of their individual training file.

COMPLIANCE MONITORING:

All General and Safety Managers will be responsible to ensure compliance with this policy by having their staff monitor compliance of their operators.

This policy only applies to fixed-route vehicles when an open seat is available.

This policy becomes effective 1/1/12

MV TRANSPORTATION, INC. CORPORATE POLICY STATEMENT

General policies of MV Transportation, Inc. are issued from time to time and are designed to provide general guidance to company managers in the conduct of the business. Policies may, from time to time, become dated or may no longer apply. In the event of questions, the policy should be referred to the General Counsel for interpretation. In the event a policy conflicts with the law, regulation or the terms of a contract with a customer, the policy will be subordinate to such law, regulation or contract term. Policies are only effective on the written approval of the Chief Executive Officer.

Safety Policy S-41

CURB STRIKE

SCOPE: This policy applies to all employees of MV Transportation, Inc. who operate buses or other revenue vehicles.

POLICY: It is the policy of MV Transportation, Inc. that anyone operating a vehicle will use caution and will be aware of the space around the vehicle. It is the policy of this company that avoiding striking the curb and fixed objects is the sole responsibility of the driver at the controls. Curb strikes may vary in severity, but they do have the potential to lead to claims. A curb strike will need to be called in as a preventable collision and confirmed as a "collision" on DriveCam online if certain criteria is met.

RESPONSIBILITY: The operator has the sole responsibility for maneuvering the vehicle safely and use reference point training to avoid striking fixed objects, to include but not limited to curbs.

PROCEDURE: In the event of a curb strike, this incident is required to be called in as a preventable accident and confirmed as a "collision" event on DriveCam if one of the below four items occur:

1. A passenger is significantly jostled and could potentially file a claim.
2. Any damage is caused to any part of the vehicle including the tires.
3. More than one of the vehicles' tires leaves the
4. designated roadway.
5. If the g-force recorded meets or exceeds .55 regardless if there is damage to the vehicle.

If the curb strike is minor and none of the above occurs, the division does not need to call the incident in as a reportable accident, and the division should select "no collision" on the DriveCam event. The DriveCam review team should then select "judgment error" which is a scored, coachable event that will require the driver to come in for coaching and/or retraining.

MV TRANSPORTATION, INC. CORPORATE POLICY STATEMENT

General policies of MV Transportation, Inc. are issued from time to time and are designed to provide general guidance to company managers in the conduct of the business. Policies may, from time to time, become dated or may no longer apply. In the event of questions, the policy should be referred to the General Counsel for interpretation. In the event a policy conflicts with the law, regulation or the terms of a contract with a customer, the policy will be subordinate to such law, regulation or contract term. Policies are only effective on the written approval of the Chief Executive Officer.

Safety Policy S-43

ROAD CALL VEHICLE SECUREMENT

SCOPE: This policy applies to all Maintenance and Utility Employees of MV Transportation, Inc. The intent of this policy is to ensure the security and personal safety of all MV Employees when performing maintenance or vehicle roadside assistance.

POLICY/PROCEDURE: It is the effected employee's responsibility to ensure that the vehicle and working environment is secure from controllable risks and hazards.

Any employee required to work near moving traffic must wear appropriate Personal Protective Equipment (PPE)

1. Safety vest – High visibility Class II required. Note: A high visibility uniform does not meet this requirement. A vest must be worn. If wearing protective weather gear, ensure it is highly visible from a minimum distance of 100 feet.

Upon arriving at the service location, the technician should:

1. Activate 4-way hazard lights on service vehicle.
2. Ascertain if the service can be performed in a safe manor to which the employee or vehicle is not immediately exposed to oncoming traffic or other hazards.
3. Place hazard triangles/Cones 10 feet and 50 feet behind the service vehicle, as well as 50 feet in front of the vehicle. All cones should be placed in the center of the lane.
4. Place wheel Chalks under both sides of the front tire away from traffic
5. Ensure the vehicle gear is placed.
6. Verify all brake systems are fully engaged (parking / emergency, etc.)
7. Instruct the operator to exit the seat unless they are required to operate any function of the bus and only at the direction of maintenance personnel.

When the Technician is ready to move the vehicle, they can do so only after verifying the parking brake is still engaged; he or she can then remove the wheel chocks, disengage the brake(s) and move the vehicle.

Before leaving the scene, retrieve the caution triangles and cones and use all safety precautions when preparing to reenter traffic.

MV TRANSPORTATION, INC. CORPORATE POLICY STATEMENT

General policies of MV Transportation, Inc. are issued from time to time and are designed to provide general guidance to company managers in the conduct of the business. Policies may, from time to time, become dated or may no longer apply. In the event of questions, the policy should be referred to the General Counsel for interpretation. In the event a policy conflicts with the law, regulation or the terms of a contract with a customer, the policy will be subordinate to such law, regulation or contract term. Policies are only effective on the written approval of the Chief Executive Officer.

Safety Policy S-44

STALL TESTING

SCOPE: This policy applies to all Maintenance Employees of MV Transportation, Inc.

POLICY: It is the policy of this Company any Maintenance Employee performing a stall test follow the procedures outlined below without exception.

PROCEDURE: Stall testing, while a common practice, is not without risk.

This type of test should only be conducted by trained technicians that understand when stall testing should be utilized as directed per manufacture's guidelines.

At no time should an untrained person be asked to conduct or assist on a stall test.

Stall tests should not be conducted in an area where personal injury or property damage may occur in the event of a procedural error.

When preparing for the test the steps below should always be followed:

- Only conduct stall tests as described by vehicle manufacture's procedures and only if trouble shooting processes states the stall testing is required.
- Testing should be conducted in a safe area, with no obstructions in front or behind vehicle. An open location in the parking lot should be utilized.
- Wheels must be chocked
 - Wheel chocks should be utilized. The standard orange wheel chocks used for securing an airbrake vehicle should not be used. Engine torque can cause the vehicle to roll over these types of chocks.
 - Wheel chock RWC-25, #245683 from Conney Safety is the approve wheel chock.
 - At least both front wheels should be chocked to prevent wheels from turning.
- If the vehicle does not have an interlock to prevent throttle application, the parking brake should be applied during the testing procedure.

The above steps must be followed anytime a stall test is conducted. Failure to follow the above steps will result in progressive disciplinary actions up to and including termination.

MV TRANSPORTATION, INC. CORPORATE POLICY STATEMENT

General policies of MV Transportation, Inc. are issued from time to time and are designed to provide general guidance to company managers in the conduct of the business. Policies may, from time to time, become dated or may no longer apply. In the event of questions, the policy should be referred to the General Counsel for interpretation. In the event a policy conflicts with the law, regulation or the terms of a contract with a customer, the policy will be subordinate to such law, regulation or contract term. Policies are only effective on the written approval of the Chief Executive Officer.

Safety Policy S-45

ELECTRONIC DISPLAYS – SAFETY VISION

SCOPE: This policy applies to all employees of MV Transportation, Inc. who are responsible for maintaining the Electronic Score Boards within their respective divisions. The Safety Vision program is an educational tool which allows a division to communicate to the drivers and staff with consistency and support from corporate initiatives. These displays are intended to promote safety through the use of slides, posters, videos, and real time social media feeds.

POLICY: It is the policy of MV Transportation that when deployed, the Electronic Safety Screens reflect correct and up to date information. The first several slides, referred to as the 'Score Board' display information that is tied into local and company-wide initiatives including, but not limited to, the Key Performance Indicator (KPI) Dashboard. As such, divisions shall maintain and update these key indicators on a daily basis. It is the policy of MV Transportation that all Safety Vision displays remain current and reflect accurate content. If a display is not functioning properly, a support request shall be completed and sent to MVFocusOnSafety.com or by notifying Safety Compliance.

RESPONSIBILITY:

The General Manager has the responsibility for to ensure that all displays are always on and up to date. The General Manager may designate the Safety Manager to update the Score Board slides where appropriate. The Area Safety Director is responsible for monitoring the displays in their region to ensure compliance.

PROCEDURE:

The Score Board is required to be accurate and updated on a daily basis. It shall consist of the following:

1. Division name and number
2. Number of accidents, month to date
3. Number of days without a preventable accident
4. Number of injury free days
5. Safety Meeting Schedule

DISPLAY CONTENT:

Non-Score Board slides are available to use as the division deems necessary. It is encouraged that locations use photographs of staff and events to recognize safety accomplishments, participation in monthly safety meetings, safety campaigns, pull outs, etc. At no time will the displays be used to convey negative content, specific to individuals. When regulated by Collective Bargaining Agreements, individuals' names shall not be posted. Birthdates should not be displayed unless the employee has provided consent. If using photographic evidence to educate and showcase poor behavior, the specific employee shall not be identifiable in the photographs unless consent was obtained prior to the posting. Corporate will maintain and update companywide content and may use the displays to convey campaigns and information to staff, with or without notice.

EMERGENCY ALERTS:

In the event of a natural disaster or emergency, Corporate may temporarily suspend local content in order to convey emergency instructions or information.

ASSIGNED EQUIPMENT:

Although the computer and display monitor may differ at each location, it shall not be repurposed for occasional or permanent use elsewhere once it has been installed and assigned to the Safety Vision project. If the display becomes defective, the division shall notify Safety Compliance via the before mentioned website as soon as practical. Because the equipment maintains a two-way communication with corporate, the system must remain online continuously. It should not be disconnected from the network at any time.

SUPPORT: Support and training instructions can be found for this device by going to MVFocusOnSafety.com. Support requests may also be submitted online at the same location.

MV TRANSPORTATION, INC. CORPORATE POLICY STATEMENT

General policies of MV Transportation, Inc. are issued from time to time and are designed to provide general guidance to company managers in the conduct of the business. Policies may, from time to time, become dated or may no longer apply. In the event of questions, the policy should be referred to the General Counsel for interpretation. In the event a policy conflicts with the law, regulation or the terms of a contract with a customer, the policy will be subordinate to such law, regulation or contract term. Policies are only effective on the written approval of the Chief Executive Officer.

Safety Policy S-46

SAFETY VEST

SCOPE: This policy applies to all employees of MV Transportation, Inc. except at divisions where the client contract does not allow for safety vests to be worn.

The intent of this policy is to ensure visibility and enhance the safety of all personnel in the yard, on the skills course, in the field outside of the vehicle or while completing service calls.

POLICY: It is the policy of MV that whenever employees are in the yard or on the skills course that each person will wear a company issued reflective vest. A safety vest is also required to be worn anytime a driver, mechanic, or utility employee is working in the yard regardless of the time of day. A vest should also be worn whenever a mechanic or utility worker is completing a road call. If, however, a mechanic or utility worker is wearing a uniform with reflective stripes during their shift, they would not be required to wear a reflective vest.

RESPONSIBILITY: All employees who have been issued a safety vest will be required to keep it clean and in good condition. If the vest needs to be replaced due to normal wear and tear, it should be done so in accordance with the division's uniform policy.

Any employee not wearing the required safety vest will receive discipline in accordance with company policy or the local Collective Bargaining Agreement.

1.0 Management Approval

1.1 Approving Authority

The City of Roseville Injury & Illness Prevention Plan will be reviewed and revised as necessary to ensure compliance with applicable regulations. All revisions are documented on Appendix B – Revision Log.

The Injury & Illness Prevention Safety Plan for the City of Roseville has been reviewed and approved by the following City representatives:

Dominick Casey, City Manager

6.05.19

Date

Kevin Payne, Assistant City Manager

6/6/19

Date

Stacey Peterson, Human Resources Director

6-11-19

Date

David Rawe, Risk Manager

6-11-19

Date

2.0 Purpose

The City of Roseville (COR) is committed to maintaining a workplace free from health and safety hazards; promoting safe working practices; and complying with all applicable federal, state and COR safety requirements. Employee and public safety is paramount to the City of Roseville.

This employee Injury and Illness Prevention Plan (IIPP) follows California Code of Regulations, Title 8, § 3203.

3.0 Responsibility

The COR City Manager has delegated Program Administration to the Human Resources Director or designee as the Safety Administrator who has the authority and responsibility for implementing the Injury and Illness Prevention Plan (IIPP) provisions and the authority to revise, amend and supplement COR safety policies as needed to respond to changing workplace conditions and regulations. Additionally, the Safety Administrator takes responsibility for:

- **General**
 - Preparing, updating, and implementing the IIPP;
 - Identifying working conditions and activities that require specific safety plans, programs or policies, and developing and implementing such as needed;
 - Ensuring policy and procedures are relevant, current and effective.
- **Inspections & Safety Plan Effectiveness**
 - Regular hazard identification inspections are completed; findings are reviewed; and identified hazards mitigated.
- **Communication**
 - Coordinating with departments, management, supervisors, and employees to meet the IIPP and all other COR safety policy and directive requirements;
 - Establishing procedures for employees to report workplace hazards, accidents, injuries, illnesses, and general safety concerns;
 - Leading the Health and Safety committee;
 - Implementing systems to encourage safety program participation
- **Training**
 - Ensuring health and safety training are scheduled, tracked and documented to meet COR and CalOSHA safety requirements.
- **Accidents**
 - Investigating accidents, injuries, illnesses, and exposures; and ensuring appropriate corrections are implemented.
- **Recordkeeping**
 - Managing safety record keeping.

4.0 Compliance

All COR employees, contract employees and volunteers must follow the approved safe work practices, policies, directives, and regulatory requirements.

4.1 The City Manager is responsible for all COR workers' health and safety and has the overall authority and responsibility for assuring that all IIPP provisions are effectively implemented. Responsibilities include:

- Holding management and supervisory positions accountable for safety;
- Ensuring that the program evaluates and addresses safety issues, potential exposure, and is in compliance with applicable government standards;
- Ensuring adequate funding to successfully operate the city safety program.

4.2 Department Heads are critical to the city's safety efforts and integrating safety accountability into COR culture. Department heads must:

- Provide active leadership and participation in the safety program;
- Hold supervisors accountable for safety;
- Ensure funding is allocated to assure an effective safety program;
- Work with the Safety Administrator to develop department specific safety policies as needed to respond to workplace conditions, applicable regulations, and operational best practices to create a safe work environment.

4.3 Managers/Supervisors/Leadworkers

All COR manager/supervisor/leadworker employees, in addition to any other duties, must follow, implement and enforce safe work practices.

Manager/Supervisor/Leadworker employees must:

- **General**
 - Recognize employees who perform safe and healthful work practices;
 - Understand the safety and health hazards to which employees under their immediate direction may be exposed;
 - Provide the necessary personal protective equipment to employees under their direction and train them on its use.
- **Inspections & Safety Plan Effectiveness**
 - Evaluate worker safety performance;
 - Identify and correct unsafe conditions and practices;
 - Conduct and document safety inspections;
 - Conduct special safety inspections if new substances, job tasks, or equipment introduce new hazards to their employees;
 - Conduct accident/incident investigations.
- **Communicate**
 - Explain safety program provisions and how COR workers are affected;
 - Ensure that employees under their direction know, understand and follow established safety guidelines.

- **Training**
 - Ensure all employees within their work group are trained in and actively use all safety related protocols in daily work activities;
 - Host and document tailgate meetings as required;
 - Provide training to workers with deficient safety performance;
 - Coordinate with the Safety Administrator to schedule, develop, implement, and document all workgroup safety training.
- **Accidents**
 - Report and document any injuries, property damages, near misses, unsafe conditions and unsafe practices in accordance with this policy within 24-hours following the current published HR procedures;
 - Ensure employees receive prompt medical attention for all occupational injuries/illnesses.
- **Enforcement**
 - Take appropriate corrective action or recommend discipline if workers do not comply with safe and healthful work practices;
 - Ensure employees are provided with safety resources including PPE and effective control measures;
 - Understand and enforce safety related programs, policies, procedures; regulations and work practices within their responsibilities.
- **Recordkeeping**
 - Maintain records according to COR recordkeeping and retention policy.

4.4 Employees are responsible for using safe work practices, following applicable directives, laws, policies and procedures, and for assisting in maintaining a safe work environment including reporting unsafe conditions or concerns to their supervisor or the Safety Administrator.

The current COR disciplinary process as maintained by the COR Human Resources Policy or applicable bargaining group memorandum of understanding will be followed in the event safe work practices or specific rules found in city safety policies are not followed.

Corrective actions or discipline may include:

- Retraining
- Verbal and written warnings
- Suspension
- Termination

4.5 Anti-Reprisal Policy

Employees must not be discharged, transferred or discriminated against in any manner for reporting health and safety hazards and concerns. Managers and supervisors must inform employees of this policy and encourage reporting workplace hazards to management.

The COR human resources and/or legal departments must investigate claims promptly, take appropriate corrective action and establish safeguards to prevent future similar reprisals.

5.0 Communication

The COR communicates with employees frequently on safety related topics using methods that assure all employees are provided relevant, understandable safety information (including translation where needed). Such methods may include:

- Verbal (one-on-one, group, etc.);
- Written (e.g. electronic, online written material, video, interactive, etc.);
- Workplace safety and health training, meetings, and tailgate meetings;
- Regularly scheduled safety meetings;
- Online resources, and other methods.

5.1 Occupational Health and Safety Committee

The COR Occupational Health and Safety (OHS) Committee must include the Safety Administrator, department safety representatives and others. The committee:

- Must meet regularly, but not less than quarterly, to
 - Review safety issues, hazard assessments/inspections, incidents, accidents, near miss and workplace hazard reports, and other topics;
 - To make appropriate recommendations to improve COR worker safety;
- Must take and maintain committee meeting records;
- May, at its discretion, conduct safety/risk inspections and assist with remedial solutions.

5.2 Reporting workplace hazards

The COR must provide several methods, including anonymous methods, for employees to report workplace hazards, acts, safety violations, and to make safety suggestions. Reporting procedures will be made available via the COR intranet site and must be published no less than annually in a form easily accessible to all employees.

Reporting methods must include procedures to assure anonymous reporting

- The Safety Administrator must review all report notifications within 7 days from receipt and will take prompt corrective action as appropriate;
- Safety suggestions must be addressed at the next safety committee meeting;
- The Safety Administrator may share hazard reports with the OHS Committee when appropriate, provided anonymity can be protected as needed.

6.0 Hazard Assessments

Periodic inspections must be completed to identify and evaluate workplace hazards. Inspections must be performed by persons with the appropriate skills and knowledge of the workplace to know what constitutes a hazardous condition.

6.1 Periodic hazard assessments must be performed

- At least annually and at a frequency appropriate for the potential work hazard exposures;
- When new substances, processes, procedures or equipment are introduced that present potential new hazards;
- When new previously unidentified hazards are recognized;
- When occupational injuries and illnesses occur;
- When workplace conditions warrant an inspection;
- Upon request or at the Safety Administrator's discretion.

Hazard assessment findings must be provided to the Safety Administrator within 7 days of the inspection date.

7.0 Hazard Correction

Unsafe or unhealthy work conditions, practices or procedures must be corrected in a timely manner based on the hazard severity. Workplace hazards and unsafe work practices are to be corrected as soon as they are identified by the employee discovering them or their supervisor, to the extent feasible. If not corrected on the discovery date, a target date for correction will be established based upon the following criteria:

- 7.1 Exigent circumstances** are those where a reasonable person with the same assigned job duties would believe that prompt action is necessary to execute the scope of their duties and that such actions may expose the worker or others to increased personal dangers. Example conditions may include *apprehending an armed suspect* and *entering a burning building for rescue*.

When exigent circumstances exist, COR emergency services workers may act within the scope of their job duties and training to manage the situation.

This exigent circumstance exception is intended for use by city emergency services (Fire Department and Police Department) as needed when carrying out their official duties for the city.

7.2 Imminent hazards are those conditions or practices posing an immediate threat to the life or health of employees, the public, or others who may be exposed. If not corrected, this activity or condition will likely cause a serious injury, serious illness, or fatality.

- If an imminent hazard is present, employees should stop activity, notify their supervisor, and take immediate corrective action as soon as possible;
- If unable or unsure what action to take, employees must notify their supervisor, who must take immediate corrective action;
- Report imminent hazards to the Safety Administrator on the Standard Report of Unsafe Condition or Practice form or other effective means;
- If it is necessary for employees to enter the area to correct the hazardous condition, they will be provided with the necessary protection and will be trained to perform these duties;
- If the imminent hazard cannot be corrected, the hazard area must be declared off-limits until the hazard is corrected. Barricades, signage, locks or other devices must be used to prevent access to the hazard area.

7.3 Serious hazards exist where a reasonable person would recognize a substantial probability that an employee or others will suffer physical harm.

- If a serious hazard is present, employees should stop activity, notify their supervisor, and take immediate corrective action as soon as possible;
- If unable or unsure what action to take, employees will notify their supervisor, who will take corrective action as soon as possible;
- All serious hazards unable to be corrected must be reported to the Safety Administrator using the COR standard Report of Unsafe Condition or Practice form or other effective means;
- If the serious hazard cannot be immediately corrected, the hazard area must be declared off-limits until the hazard is corrected. Barricades, signage, locks or other devices must be used to prevent access to the hazard area;
- In cases where exigent circumstances are present or cause the hazard, relevant department policies and procedures shall be followed (e.g. Fire Department, Police Department).

7.4 General hazards are those that may affect employee safety and health.

- General Hazards unable to be corrected are brought to the supervisor's attention using the COR standard Report of Unsafe Condition or Practice form;
- General Hazards will be corrected, as appropriate, as soon as possible.

7.5 Regulatory hazard/deficiency pertains to permits, posting, record keeping, reporting requirements, or procedure deficiencies not directly affecting employee safety and health.

- Regulatory hazards/deficiencies are brought to the supervisor's attention using the COR standard Report of Unsafe Condition or Practice form;
- These hazards are corrected as appropriate in a reasonable time frame.

All Imminent and Serious hazards must be tracked by the Safety Administrator and Safety Committee until corrected or otherwise fully mitigated.

8.0 Accidents/Injury/Illnesses

Workplace accidents, injuries, illnesses, hazardous substance exposures and near miss events must be investigated at the Safety Administrator or HR Department's discretion whenever the outcome:

- **Likely could have been** a severe injury or death;
- Results in a serious injury or a lost time of three or more days from work;
- Has significant direct costs (medical expenses, property damage, or other).

8.1 Workplace accidents, injuries, illnesses and hazardous substance exposures investigations

must be performed by persons with skills and knowledge appropriate to the incident being investigated. Such investigations must follow the current COR investigation and reporting procedures as directed by the Human Resources Department.

All hazards identified during an investigation must be:

- Shared with the Safety Administrator as Hazard Assessment findings; and
- Corrected promptly. See Section 6.0.

8.2 Accidents, injuries and illnesses

must be recorded by the Human Resources Department on the CalOSHA 300 log as required by California Code of Regulations, Title 8 Section 14300.7. Recordable criteria examples include:

- Loss of consciousness, injury or death;
- Serious injury or lost time of three or more days from work;
- Work related cases involving cancer, chronic irreversible disease, a fractured or cracked bone, or a punctured eardrum;
- Has significant direct costs (medical expenses, property damage, or other).

9.0 Training

All COR employees must be provided training and instruction on general and job-specific safety and health practices. Training and instruction are provided according to the following schedule:

- To all new employees and any employees given job assignments for which training has not previously been provided;
- When new substances, processes, procedures, or equipment are introduced and present a hazard or otherwise change the hazard profile;
- When anyone is made aware of a new or previously unrecognized hazard;
- To supervisors to familiarize them with the safety and health hazards to which employees under their immediate direction and control may be exposed;
- To all employees about the hazards specific to each employee's job assignment.

Employees must not participate in any high risk activities prior to receiving safe work practice training for the tasks and conditions involved in such activities.

10.0 Recordkeeping

- Hazard assessment findings must be kept in accordance with the COR record retention policy, but in no case retained for less than 1 year;
- Employee training records must be kept in accordance with the COR record retention policy, but in no case retained for less than 1 year;
- Safety committee meeting records must be kept in accordance with the COR record retention policy, but in no case retained for less than 1 year;

Appendix A – Definitions & Terminology

Abbreviations

- **COR** – City of Roseville
- **HR** – Human Resources Department
- **OHS** - City Occupational Health and Safety Committee

Terminology

- **Must** - Imposes an obligation, indicates a necessity to act.
- **Shall** - Imposes an obligation, indicates a necessity to act.
- **Should** - Denotes a recommendation.
- **May** - Denotes a permission; neither a requirement nor a recommendation.
- **Will** - Denotes that something is required or mandatory, but allows the responsible employee or party some discretion as to when, where and how.

Hazard Definitions

- **Imminent** - a condition or practice that poses an immediate threat to the life or health of employees or others who may be exposed. If not corrected, this activity or condition will likely cause a serious injury, serious illness, or fatality.
- **Serious** - a condition where there is a substantial probability that an employee or others will suffer physical harm.
- **General** - a condition that may negatively affect the safety and health of an employee or others.
- **Regulatory** - a condition that pertains to permits, posting, record keeping, reporting requirements, or procedure deficiencies not directly affecting employee safety and health.

General Definitions

- **Occupational Health and Safety Program** - includes the IIPP, and support plans, programs, policies, procedures, regulations and practices that serve to promote COR safety efforts. Safety Program elements may include occupational safety, facility safety, public safety, environmental health and safety, emergency preparedness, health and wellness promotion.
- **Program Administrator** - The Human Resources Director classification must serve as the Program Administrator for the COR Safety Program.
- **Safety Administrator** - A management level classification within the Human Resources Department serves as the Safety Officer for the COR Safety Program.
- **Department Heads** – A senior management role for the major City departments.
- **Managers** - Second and third line management classifications within each department charged with divisions and/or specific work group oversight within the department.
- **Supervisors** - All classifications charged with employee supervision. Note: for safety purposes, the term supervisor may include individual workers that direct other workers during work activities.
- **Safety Representatives** - Department-specific Safety Committee members.

COUNCIL COMMUNICATION

CC #: 2490
File #: 0709-01

Title: Junction Crossing Affordable Housing Project - Limited Partner Change Approval
Contact: Trisha Isom 916-746-1239 tisom@roseville.ca.us

Meeting Date: 1/18/2023
Item #: 7.16.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council adopt a resolution authorizing the City Manager, or his designee, to execute the necessary documents to agree with a change in the Limited Partner for the Junction Crossing affordable housing project.

BACKGROUND

On October 29, 2021, Junction Station, LP (the developer), acquired land located at 120 Pacific Street in Roseville, in order to develop and operate an 80-unit multifamily affordable housing project named Junction Station. The acquisition and development of the project was initially financed, in part, by a senior construction loan from Banner Bank and two subordinate loans from the City of Roseville: a \$3,760,000 Affordable Housing Loan; and a \$600,000 Housing Successor loan. Each of the City loans will mature 55 years after the project receives Certificate of Occupancy. The developer and financing participants anticipated that development of the project would also be funded with equity investment from a federal low-income housing tax credit investor. The developer was unable to close on an investment with a third-party investor at the time of the loan closing, so an affiliate of St. Anton Capital assumed the equity investor role at the loan closing as a temporary solution.

Since loan closing, the developer has identified Five Star Bank as the tax credit investor. As the tax credit investor, Five Star Bank plans to fund certain capital contributions to the developer that will enable them to receive further construction funding from Banner Bank, complete construction of the Project, and pay down the Banner Bank construction loan to its required "permanent" loan balance after completion and lease-up of the project. Banner Bank is requesting execution of the attached consent to the transaction (Attachment 1). In connection with the admission of Five Star Bank to the developer partnership as a tax credit investor, Five Star Bank requires that the loan documents with the City be updated to reflect certain typical investor-required protections. To that end, Five Star Bank created the attached loan document riders (Attachments 2 & 3) which add those investor-required protections to the existing City loan documents. The riders contain the following additions:

- certain notice and loan default cure rights be provided to the investor;

- the investor be permitted to transfer its limited partnership interest in the developer and remove the general partner of the developer in the event of certain defaults by the general partner;
- clarification that City loan documents not be cross-defaulted with other documents;
- the City deeds of trust specify that in the event of foreclosure, the properties remain subject to certain federally-imposed affordability requirements;
- the investor be permitted to direct the general partner of the developer to replace the project's property manager in certain instances; and
- the City consent to, and upon request subordinate to, refinancing of the Banner Bank loan.

Staff requests Council authorize the City Manager, or his designee, to execute the necessary documents to agree with a change in the Limited Partner for the Junction Crossing affordable housing project, as requested by Junction Station, LP. Approval of this request does not change the affordable housing project or loan terms. The borrowing entity, as well as all loan documents, stay the same. Construction of the Junction Crossing affordable project began in December 2021 and is well underway. The developer expects delivery of the 80 affordable units before the end of calendar year 2023.

FISCAL IMPACT

There is no fiscal impact to the City's General Fund associated with this approval.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) only applies to projects which have the potential to cause a significant effect on the environment. Where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA. (CEQA Guidelines §15061(b)(3)).

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal C - Maintain a safe and healthy community

- Junction Crossing Affordable Housing Rider
- Junction Crossing Housing Successor Rider

RESOLUTION NO. 23-017

APPROVING A CHANGE IN THE LIMITED PARTNER FOR THE JUNCTION CROSSING AFFORDABLE HOUSING PROJECT AND AUTHORIZING THE CITY MANAGER TO EXECUTE ALL NECESSARY DOCUMENTS NEEDED TO EFFECTUATE THE CHANGE

WHEREAS, On October 29, 2021, Junction Station, LP (the “developer”), acquired land located at 120 Pacific Street in Roseville, in order to develop and operate an 80-unit multifamily affordable housing project named Junction Station; and

WHEREAS, the acquisition and development of the project was initially financed, in part, by a senior construction loan from Banner Bank and two subordinate loans from the City of Roseville; and

WHEREAS, the developer was unable to close on an investment with a third-party investor at the time of the loan closing, so an affiliate of St. Anton Capital assumed the equity investor role at the loan closing as a temporary solution; and

WHEREAS, since loan closing, the developer has identified Five Star Bank as the tax credit investor, who is requiring loan document riders to the existing City loan documents; and

WHEREAS, as the tax credit investor, Five Star Bank plans to fund certain capital contributions to the developer that will enable them to receive further construction funding from Banner Bank, complete construction of the Project, and pay down the Banner Bank construction loan to its required “permanent” loan balance after completion and lease-up of the project; and

WHEREAS, Banner Bank is requesting execution of the attached consent to the transaction; and

WHEREAS, in connection with the admission of Five Star Bank to the developer partnership as a tax credit investor, Five Star Bank requires that the loan document riders with the City be updated to reflect certain typical investor-required protections; and

WHEREAS, said consent form and loan document riders have been reviewed by the City Council.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that a change to the Limited Partner for the Junction Crossing Affordable Housing Project is hereby approved and the City Manager is authorized to execute all necessary documents needed to effectuate the change.

PASSED AND ADOPTED by the Council of the City of Roseville this ____ day of _____, 20_, by the following vote on roll call:

JUNIOR LIENHOLDER'S CONSENT

CITY OF ROSEVILLE ("Junior Lienholder"), hereby (i) confirms its consent to that certain letter agreement dated _____ ("Letter Agreement"), by and between Junction Station, LP, a California limited partnership ("Borrower"), and Banner Bank, in its capacity as agent for California Public Finance Authority (in such capacity, "Senior Bond Lender"), and in its capacity as conventional lender (in such capacity, "Senior Conventional Lender"; and together with Senior Bond Lender, the "Senior Lender") (and any amendment to the Senior Security Instrument in connection therewith), (ii) confirms its consent to the transfer of the investor limited partner interests from "Blue Bronco" to "KCIC" (each as defined in the Letter Agreement), (iii) confirms its consent to the replacement of the Borrower's limited partnership agreement with the "Second A&R Partnership Agreement" described in the Letter Agreement; (iv) acknowledges and agrees that the Subordination and Intercreditor Agreement (City of Roseville) dated as of October 1, 2021 (the "Subordination Agreement"), by and among Borrower, Senior Lender and Junior Lienholder, which recorded in the Official Records of Placer County, California recorded on November 1, 2021, as Instrument No. 2021-0134679-00 in the Official Records, is and shall remain in full force and effect, and that neither the Letter Agreement, nor any amendment to the deed of trust to reflect the terms thereof, shall be construed to impair, or provide a defense to, any of the terms and provisions contained in the Subordination Agreement, and (v) acknowledges and agrees that the lien or charge of the Senior Security Instrument shall at all times remain senior to the liens or charges of the "Junior Loan Documents" described in the Subordination Agreement. All capitalized terms used herein and not otherwise defined shall have the meanings ascribed to such terms in the Subordination Agreement.

**SECOND MORTGAGE AFFORDABLE HOUSING FUND LOAN TAX CREDIT INVESTOR
RIDER**

This Tax Credit Investor Rider dated as of _____, 202__ (this “Rider”) is made a part of (a) that certain Disposition and Development Agreement dated January 9, 2019 by and between **JUNCTION STATION, LP** (the “Borrower”) and **CITY OF ROSEVILLE** (the “Lender”) (together with all addenda attached thereto, “Loan Agreement”), (b) that certain Affordable Housing Funds Promissory Note dated October 29, 2021 given by Borrower in favor of Lender in the amount of \$3,760,000 (“Note”), and (c) that certain Deed of Trust with Assignment of Rents, Security Agreement, and Fixture Filing Affordable Housing Funds Loan dated October 29, 2021 by Borrower for the benefit of Lender (the “Deed of Trust”), and any other documents executed in connection with the loan of \$3,760,000 from Lender to Borrower (the “Loan”) in connection with that certain 80 unit apartment complex owned by Borrower in Roseville, California (the “Project”) shall be collectively referred to herein as the “Loan Documents.”

Reference is made to that certain Second Amended and Restated Agreement of Limited Partnership of Borrower dated on or about _____, 202__ (the “Partnership Agreement”) pursuant to which **KCIC JUNCTION CROSSING LIHTC FUND 2022-2 LP**, a Delaware limited partnership, as nominee (the “Investor Limited Partner”) is admitted as the investor limited partner of Borrower.

Unless otherwise set forth herein, all capitalized terms not defined herein shall have the meanings set forth in the Loan Documents. In the event of a conflict or inconsistency between the provisions contained in the Loan Documents and this Rider, the provisions of this Rider shall prevail.

1. NOTICES

Prior to exercising any remedies in connection with any default under the Loan Documents, Lender shall provide Investor Limited Partner with written notice of any event of default under the Loan Documents at the following address:

KCIC Junction Crossing LIHTC Fund 2022-2 LP
c/o Key Community Investment Capital LLC
127 Public Square
Cleveland, Ohio, 44114
Attn: Christina Knuckles

With copies to:

Five Star Bank
3100 Zinfandel Dr., Suite 650
Rancho Cordova, CA 95670
Attention: Heather Luck

Kutak Rock LLP
1650 Farnam Street
Omaha, Nebraska 68102
Attn: Judith K. Crosby, Esq.

2. CURE

Notwithstanding anything to the contrary contained in the Loan Documents, the Investor Limited Partner shall have the right, but not the obligation, to cure any default of Borrower under any Loan Document, and Lender agrees to accept cures tendered by Investor Limited Partner, as follows: (a) with respect to any monetary default under the Loan Documents, Lender shall notify Investor Limited Partner in writing of such monetary default, and Investor Limited Partner shall have thirty (30) days after the receipt of said notice of such monetary default to cure or cause to be cured such monetary default; and (b) with respect to any nonmonetary default under the Loan Documents, Lender shall notify Investor Limited Partner in writing of such nonmonetary default, and Investor Limited Partner shall have ninety (90) days after the receipt of such notice of such nonmonetary default to cure or cause to be cured such default, and if such default is incapable of being cured within such 90 day period, Lender shall provide additional time needed to cure such default as long as such cure was commenced within such 90 day period and is being diligently completed. Lender agrees that the Loan Documents will not be considered to be in default until the expiration of all notice and cure periods provided to Borrower and Investor Limited Partner. Lender shall accept any cure tendered by the Investor Limited Partner as a cure by Borrower.

3. TRANSFERS; AMENDMENTS TO THE PARTNERSHIP AGREEMENT

Notwithstanding anything to the contrary contained in any Loan Document, (a) Investor Limited Partner shall be permitted to remove the general partner of Borrower for cause in accordance with the terms of the Partnership Agreement and shall be able to replace the general partner with a general partner selected by the Investor Limited Partner all without the consent or approval of the Lender, (b) Investor Limited Partner may transfer its limited partner interest in Borrower in accordance with the terms of the Partnership Agreement without the consent of Lender, and (c) the general partner of Borrower may exercise its purchase option to purchase the interest of the Investor Limited Partner in accordance with the terms of the Partnership Agreement without the consent of Lender (each, a "Permitted Transfer"), (d) no Permitted Transfer shall cause a default under any Loan Document or shall trigger any acceleration or due on sale clause under the Loan Documents, (e) Lender shall not receive any fee or other amounts from Borrower in connection with a Permitted Transfer and (f) the Partnership Agreement may be amended or modified in connection with a Permitted Transfer without the prior written consent of Lender.

4. NO CROSS-DEFAULT

Notwithstanding anything to the contrary contained in any Loan Document, no default shall occur under any Loan Document by reason of the failure of any party (other than Borrower), including (without limitation) any guarantors under any Loan Document, to perform, or the occurrence of a default by any such party, under any note, loan agreement, security agreement, purchase or sales agreement or any other agreement or document.

5. PARTIAL SUBORDINATION TO SECTION 42 EXTENDED USE COMMITMENT

Notwithstanding anything herein to the contrary, if the Lender takes title to the Project through foreclosure or deed of foreclosure, the Property shall remain subject to the provisions of Section 42(h)(6)(E)(ii) of the Internal Revenue Code or any similar successor provision of the Code. This section shall apply notwithstanding the order of recording of any of the Loan Documents and the Extended Use Commitment, executed in connection with the allocation of federal low income housing tax credits to the Borrower for the Project pursuant to Section 42 of such Code.

6. REPLACEMENT OF MANAGEMENT AGENT

The Lender acknowledges that Borrower's Investor Limited Partner has the right, under the Borrower's Partnership Agreement, to direct the general partner to remove the Project property management agent. Borrower agrees to give Lender notice of the proposed replacement management agent, and the Lender agrees to consent to same, assuming that such replacement property manager is acceptable to Borrower's Limited Partner and has experience in managing projects occupied by low-income households pursuant to Section 42 of the Internal Revenue Code.

7. PROJECT FINANCING.

Lender approves the following financing for the Project and the liens securing such financing: (i) \$15,800,000 loan from Banner Bank (the "First Mortgage Loan"). Lender consents to any refinancing of the First Mortgage Loan, upon such commercially reasonable terms approved by Borrower and agrees to subordinate the lien of its Deed of Trust to such refinanced loan.

8. MISCELLANEOUS

This Rider may be executed in counterparts, each of which shall be deemed an original, which together shall constitute one and the same instrument.

Investor Limited Partner is an express third-party beneficiary of this Rider. This Rider may be amended only in writing signed by the parties hereto and consented to in writing by the Investor Limited Partner.

This Rider may be executed in multiple counterparts, each of which shall be deemed to be an original.

RECORDING REQUESTED BY AND WHEN
RECORDED MAIL TO:

Kutak Rock LLP
1650 Farnam Street
Omaha, NE 68102
Attention: Judith K. Crosby

No fee for recording pursuant to
Government Code Section 27383

**THIRD MORTGAGE AFFORDABLE HOUSING FUND LOAN TAX CREDIT INVESTOR
RIDER**

This Tax Credit Investor Rider dated as of _____, 202__ (this "Rider") is made a part of (a) that certain Disposition and Development Agreement dated January 9, 2019 by and between **JUNCTION STATION, LP** (the "Borrower") and **CITY OF ROSEVILLE** (the "Lender") (together with all addenda attached thereto, "Loan Agreement"), (b) that certain Housing Successor Funds Promissory Note dated October 29, 2021 given by Borrower in favor of Lender in the amount of \$600,000 ("Note"), and (c) that certain Deed of Trust with Assignment of Rents, Security Agreement, and Fixture Filing Housing Successor Funds Loan dated October 29, 2021 by Borrower for the benefit of Lender (the "Deed of Trust"), and any other documents executed in connection with the loan of \$600,000 from Lender to Borrower (the "Loan") in connection with that certain 80 unit apartment complex owned by Borrower in Roseville, California (the "Project") shall be collectively referred to herein as the "Loan Documents."

Reference is made to that certain Second Amended and Restated Agreement of Limited Partnership of Borrower dated on or about _____, 202__ (the "Partnership Agreement") pursuant to which **KCIC JUNCTION CROSSING LIHTC FUND 2022-2 LP**, a Delaware limited partnership, as nominee (the "Investor Limited Partner") is admitted as the investor limited partner of Borrower.

Unless otherwise set forth herein, all capitalized terms not defined herein shall have the meanings set forth in the Loan Documents. In the event of a conflict or inconsistency between the provisions contained in the Loan Documents and this Rider, the provisions of this Rider shall prevail.

1. NOTICES

Prior to exercising any remedies in connection with any default under the Loan Documents, Lender shall provide Investor Limited Partner with written notice of any event of default under the Loan Documents at the following address:

KCIC Junction Crossing LIHTC Fund 2022-2 LP
c/o Key Community Investment Capital LLC
127 Public Square
Cleveland, Ohio, 44114
Attn: Christina Knuckles

With copies to:

Five Star Bank
3100 Zinfandel Dr., Suite 650
Rancho Cordova, CA 95670
Attention: Heather Luck

Kutak Rock LLP
1650 Farnam Street
Omaha, Nebraska 68102
Attn: Judith K. Crosby, Esq.

2. CURE

Notwithstanding anything to the contrary contained in the Loan Documents, the Investor Limited Partner shall have the right, but not the obligation, to cure any default of Borrower under any Loan Document, and Lender agrees to accept cures tendered by Investor Limited Partner, as follows: (a) with respect to any monetary default under the Loan Documents, Lender shall notify Investor Limited Partner in writing of such monetary default, and Investor Limited Partner shall have thirty (30) days after the receipt of said notice of such monetary default to cure or cause to be cured such monetary default; and (b) with respect to any nonmonetary default under the Loan Documents, Lender shall notify Investor Limited Partner in writing of such nonmonetary default, and Investor Limited Partner shall have ninety (90) days after the receipt of such notice of such nonmonetary default to cure or cause to be cured such default, and if such default is incapable of being cured within such 90 day period, Lender shall provide additional time needed to cure such default as long as such cure was commenced within such 90 day period and is being diligently completed. Lender agrees that the Loan Documents will not be considered to be in default until the expiration of all notice and cure periods provided to Borrower and Investor Limited Partner. Lender shall accept any cure tendered by the Investor Limited Partner as a cure by Borrower.

3. TRANSFERS; AMENDMENTS TO THE PARTNERSHIP AGREEMENT

Notwithstanding anything to the contrary contained in any Loan Document, (a) Investor Limited Partner shall be permitted to remove the general partner of Borrower for cause in accordance with the terms of the Partnership Agreement and shall be able to replace the general partner with a general partner selected by the Investor Limited Partner all without the consent or approval of the Lender, (b) Investor Limited Partner may transfer its limited partner interest in Borrower in accordance with the terms of the Partnership Agreement without the consent of Lender, and (c) the general partner of Borrower may exercise its purchase option to purchase the interest of the Investor Limited Partner in accordance with the terms of the Partnership Agreement without the consent of Lender (each, a "Permitted Transfer"), (d) no Permitted Transfer shall cause a default under any Loan Document or shall trigger any acceleration or due on sale clause under the Loan Documents, (e) Lender shall not receive any fee or other amounts from Borrower in connection with a Permitted Transfer and (f) the Partnership Agreement may be amended or modified in connection with a Permitted Transfer without the prior written consent of Lender.

4. NO CROSS-DEFAULT

Notwithstanding anything to the contrary contained in any Loan Document, no default shall occur under any Loan Document by reason of the failure of any party (other than Borrower), including (without limitation) any guarantors under any Loan Document, to perform, or the occurrence of a default by any such party, under any note, loan agreement, security agreement, purchase or sales agreement or any other agreement or document.

5. PARTIAL SUBORDINATION TO SECTION 42 EXTENDED USE COMMITMENT

Notwithstanding anything herein to the contrary, if the Lender takes title to the Project through foreclosure or deed of lieu of foreclosure, the Property shall remain subject to the provisions of Section 42(h)(6)(E)(ii) of the Internal Revenue Code or any similar successor provision of the Code. This section shall apply notwithstanding the order of recording of any of the Loan Documents and the Extended Use Commitment, executed in connection with the allocation of federal low income housing tax credits to the Borrower for the Project pursuant to Section 42 of such Code.

6. REPLACEMENT OF MANAGEMENT AGENT

The Lender acknowledges that Borrower's Investor Limited Partner has the right, under the Borrower's Partnership Agreement, to direct the general partner to remove the Project property management agent. Borrower agrees to give Lender notice of the proposed replacement management agent, and the Lender agrees to consent to same, assuming that such replacement property manager is acceptable to Borrower's Limited Partner and has experience in managing projects occupied by low-income households pursuant to Section 42 of the Internal Revenue Code.

7. PROJECT FINANCING

Lender approves the following financing for the Project and the liens securing such financing: (i) \$15,800,000 loan from Banner Bank (the "First Mortgage Loan"). Lender consents to any refinancing of the First Mortgage Loan, upon such commercially reasonable terms approved by Borrower and agrees to subordinate the lien of its Deed of Trust to such refinanced loan.

8. MISCELLANEOUS

This Rider may be executed in counterparts, each of which shall be deemed an original, which together shall constitute one and the same instrument.

Investor Limited Partner is an express third-party beneficiary of this Rider. This Rider may be amended only in writing signed by the parties hereto and consented to in writing by the Investor Limited Partner.

This Rider may be executed in multiple counterparts, each of which shall be deemed to be an original.

COUNCIL COMMUNICATION

CC #: 2507

File #: 0709-03-02

Title: Reservation of Funds for Development of Affordable Housing Projects - Amendment

Contact: Trisha Isom 916-746-1239 tisom@roseville.ca.us
Sara Thornton 916-774-5295 srthornton@roseville.ca.us

Meeting Date: 1/18/2023

Item #: 7.17.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council adopt a resolution approving the amended reservation of funds totaling \$7.5 million for the following affordable housing projects:

1. Increase reservation to \$2,000,000 from the City of Roseville Local Housing Trust Fund and \$2,000,000 from the State Local Housing Trust Fund toward the construction of Mercy Housing's affordable housing project, Pleasant Grove Apartments; and
2. Increase reservation to \$1,750,000 from the City of Roseville Local Housing Trust Fund and \$1,750,000 from the State Local Housing Trust Fund toward the construction of Bridge Housing's affordable housing project, Royer Street Apartments at 300 Taylor.

BACKGROUND

In July of 2021, City Council authorized staff to complete and submit an application for the California Housing and Community Development Department's (HCD) 2021 Local Housing Trust Fund (LHTF) notice of funding availability (NOFA). This funding provides matching grants to Local Housing Trust Funds established by cities and counties, Native American Tribes and incorporated 501(c)(3) non-profit organizations in order to expand funding sources and increase the supply of affordable housing. The 2021 application was submitted to HCD requesting the maximum \$5 million in matching funds. The requested amount, paired with City matching funds would assist all three projects and allow the developments to better compete for tax credit funding. To meet eligibility, the Roseville Housing Division released its own NOFA in June 2021 to identify qualified affordable housing developers and establish a pipeline of projects. The Housing Division received three responses to the NOFA, all of which were placed on the City's Affordable Housing Pipeline (Attachment 1) with initial funding commitments.

In January 2022, HCD issued a LHTF award letter in the amount to \$1,135,761. Although the City was not able to fully commit to the initial funding amounts requested for each of the affordable housing projects, in April 2022, Council approved funding reservations of \$2.5 million to each of

the projects listed in the Affordable Housing Pipeline. The reservations comprised of both City and state LHTF as well as City affordable housing funds in order to demonstrate a commitment of local funds and support all three projects in qualifying for additional affordable housing funding opportunities.

In April of 2022, City Council approved an application to the State for \$3,937,500 for the 2022 LHTF program utilizing the existing Affordable Housing Pipeline report. We were successful in our application and HCD awarded the City the requested amount in October of 2022. The new award will allow the City to fully fund all three affordable housing projects as initially committed. Once an agreement between the state and City has been executed for the 2022 award, staff will bring a budget adjustment to Council for approval.

Hampstead Partner's Prospera at Fiddymont loan documents and Regulatory Agreement were approved by Council on November 2, 2022. Staff is requesting an amended reservation at this time in order to submit new commitment letters to the two remaining developers in the Affordable Housing Pipeline. Applications for state funding will become available in February of 2023 and increased reservations of funds will allow for more competitive scoring and an increased chance of receiving funding. The requested amended reservations are as follows:

- Increase reservation for Mercy Housing's affordable housing project, Pleasant Grove Apartments, from \$2.5 million to a reservation of \$4 million - \$2 million from the City of Roseville Local Housing Trust Fund and \$2M from the State Local Housing Trust Fund; and
- Increase reservation for Bridge Housing's affordable housing project, 300 Taylor Apartments, from \$2.5 million to a reservation of \$3.5 million - \$1,750,000 from the City of Roseville Local Housing Trust Fund and \$1,750,000 from the State Local Housing Trust Fund.

After the 2022 LHTF application had been submitted, the state notified the City of an augmented 2021 LHTF award that equaled \$2,816,345. This augmented award amount results in excess funding to the LHTF. Early next year, staff will release a NOFA to the three affordable housing developers on the City's Affordable Housing Pipeline report to request new affordable housing project proposals. Once projects are successful in securing full funding, staff will bring forward the necessary loan and regulatory agreement documents required for development of the projects for Council review and consideration.

FISCAL IMPACT

The City's Local Housing Trust Fund receives funding from developer in-lieu fees, payoffs from resales and payoffs from developer subsidy loans. The Housing Division has funding available in the Local Housing Trust Fund, which will be used to match state-awarded LHTFs. No General Fund resources will be used for the Local Housing Trust Fund reservation of funds.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not

considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. The request for reservation of funds to develop affordable housing meets the above criteria and is not subject to CEQA. No additional environmental review is required.

Description

Resolution 23-038

Affordable Housing Pipeline

RESOLUTION NO. 23-038

APPROVING THE AMENDED RESERVATION OF \$7,500,000 IN AFFORDABLE HOUSING FUNDS FOR DEVELOPMENT OF AFFORDABLE HOUSING PROJECTS

WHEREAS, in July of 2021, City Council authorized staff to complete and submit an application for the California Housing and Community Development Department's (HCD) 2021 Local Housing Trust Fund (LHTF) notice of funding availability (NOFA); and

WHEREAS, in April 2022, Council approved funding reservations of \$2.5 million to each of the projects listed in the Affordable Housing Pipeline, three in total; and

WHEREAS, Bridge Housing's affordable housing project, 505 Royer Apartments, was required to have a name change and is now known as Royer Street Apartments at 300 Taylor; and

WHEREAS, Hampstead Partner's Prospera at Fiddymont loan documents and Regulatory Agreement were approved by Council on November 2, 2022; and

WHEREAS, staff is now requesting an amended reservation at this time in order to submit new commitment letters to the two remaining developers in the Affordable Housing Pipeline; and

WHEREAS, applications for state funding will become available in February of 2023 and an increased reservations of funds will allow for more competitive scoring and an increased chance of receiving funding.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville, that it hereby approves increasing the reservation of funds to \$2,000,000 from the City of Roseville Local Housing Trust Fund and \$2,000,000 from the State Local Housing Trust Fund for the construction of Mercy Housing's affordable housing project, Pleasant Grove Apartments; and increasing the reservation of funds to \$1,750,000 from the City of Roseville Local Housing Trust Fund and \$1,750,000 from the State Local Housing Trust Fund for the construction of Bridge Housing's affordable housing project, Royer Street Apartments at 300 Taylor.

Title: Communication Software Licensing - Agreement Amendment

Contact: Mark Peinado 916-774-5021 mcpeinado@roseville.ca.us
Claudia Harlan 916-774-5003 charlan@roseville.ca.us

Meeting Date: 1/18/2023

Item #: 7.18.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council adopt a resolution authorizing the City Manager to execute an agreement amendment with Tyler Technologies Inc. to provide Computer Aided Dispatch (CAD) export interface use with Fusus software.

BACKGROUND

The City has a software licensing agreement with Tyler Technologies Inc. (formerly known as New World Systems), effective November 6, 2014, for the purchase and installation of a public safety computer system, including computer-aided dispatch, police records, fire records, mobile computing and field reporting, related interfaces and services, support and maintenance.

The Police Department would like to amend the agreement to add Computer Aided Dispatch (CAD) export interface use with Fusus software to the agreement.

FISCAL IMPACT

The total cost for the CAD export interface installation is \$2,320. Funding has been approved in the Police Department's FY2022-23 operating budget in the General Fund.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. The agreement amendment meets the above criteria and is not subject to CEQA. No additional environmental review is required.

COUNCIL COMMUNICATION

CC #: 2492
File #: 0704-02

Title: Livestock Grazing License - Services Agreement Amendment
Contact: Eric Dexter 916-746-1769 edexter@roseville.ca.us

Meeting Date: 1/18/2023
Item #: 7.19.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council adopt a resolution to approve a first Amendment to the Livestock Grazing License agreement with Auburn Ravine Ranch, Inc. and authorize the City Manager to execute it on behalf of the City.

BACKGROUND

The City is the owner of approximately 228 acres of real property commonly referred to as Reason Farms Environmental Preserve located in the County of Placer, South of Sunset Blvd within the City of Roseville. When the preserve was created, a Conservation Easement was placed on the property and Placer Land Trust took ownership and holds the easement in perpetuity on 223 acres of the property. The City is responsible for maintaining the preserve. The Conservation Easement included an Operation and Maintenance Plan (O&M plan) approved by the City, Placer Land Trust and appropriate government authorities outlining the habitat management requirements. One of the requirements outlined in the Open Space O & M Plan is that the City shall appropriately graze livestock on the property to assist with habitat management. To achieve this requirement the Parks and Open Space Division distributed a request for proposals in 2018 for a Livestock Grazing License for the term of five years with an optional five year renewal. Auburn Ravine Ranch, Inc. was awarded this contract which is up for the second and final 5-year renewal.

When the preserve was formed, a third party, Placer Land Trust, became the holder of the conservation easement for the purpose of protecting the conservation values of the property. As part of the original agreement, the City and Placer Land Trust entered into a Grazing Revenue Agreement in which Placer Land Trust receives all revenue from grazing.

FISCAL IMPACT

Auburn Ravine Ranch pays \$6,300 per year for the grazing license. Placer Land Trust receives all revenue from grazing, which is utilized to manage and monitor the preserve in conjunction with the

City. There will be no impact to the General Fund.

ENVIRONMENTAL REVIEW

The proposed amendment is consistent with the agreement that was determined to be exempt from CEQA in 2017. The proposed project involves minor alteration in the condition of the land, water, and or vegetation which will not remove healthy, mature scenic trees. This activity is categorically exempt from CEQA as a Class 4 Exemption (State CEQA Guidelines Section 15304). The Exemption has been prepared and no further CEQA action is required.

Auburn, CA 95603

From: City of Roseville
Community Development Dept.
311 Vernon Street
Roseville, CA 95678

Project Title: Livestock Grazing License for Reason Farms Environmental Preserve

Project Location: Within the City owned and managed Al Johnson Wildlife Area, City of Roseville, Placer County, CA.

Project Description: The project is a proposal by the Parks, Recreation and Libraries Department, Open Space Division to enter into a License agreement for Preserve grazing services. Grazing is a Best Management Practice that reduces fire fuel load and thatch levels (dead plant material) and increases the potential for native plants to germinate and grow, and is required under the Preserve Management Plan.

Public Agency Approving Project: Roseville City Council

Agency Carrying Out Project: Parks, Recreation and Libraries Department, Open Space Division.

Reason why this Project is Exempt: This project is exempt as defined in Section 15304 (Minor Alterations to Land) of the State CEQA Guidelines which states that a project may be exempt from CEQA as a Class 4 Categorical Exemption if it consists of minor public or private alterations in the condition of land, water and/or vegetation which do not involve removal of healthy, mature, scenic trees.

The proposed grazing license is consistent with the above description and therefore the Class 4 Exemption applies.

Lead Agency Contact Person: Brian Castelluccio, Roseville Parks, Recreation and Libraries Department (916) 746-1755.

COUNCIL COMMUNICATION

CC #: 2488
File #: 0800-03

Title: Electric Generation Heat Recovery Steam Generator Maintenance and Rehabilitation
- Northern California Power Agency Support Services Program Agreement
Contact: Matt Garner 916-746-1691 mgarner@roseville.ca.us

Meeting Date: 1/18/2023
Item #: 7.20.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council adopt a resolution authorizing the Electric Utility Director and the City Attorney to execute a Confirmation under the Support Services Program Agreement (SSPA) with the Northern California Power Agency (NCPA) for Precision Iceblast Corporation to perform Heat Recovery Steam Generator deep cleaning and rehabilitation at the Roseville Energy Park (REP).

BACKGROUND

On May 5, 2021, the City Council adopted Resolution 21-194 which authorized the City Manager to execute the SSPA with NCPA, and appointed the Electric Utility Director and the City Attorney as designated representatives of the SSPA with authority to authorize Confirmations of \$74,999 or less. City Council approval is needed in this instance because the recommended Confirmation exceeds the City Council delegated spending limit of \$74,999 under the SSPA.

In combined cycle power plants like the REP, regular Heat Recovery Steam Generator (HRSG) cleaning is needed to maintain safe, efficient and reliable operation of the unit. HRSG cleaning improves combustion turbine efficiency, steam turbine output, and reduces power plant variable operations costs. This work involves a proprietary dry ice boiler tube cleaning process that removes contaminants and oxides that impede process flows and heat transfer. This maintenance requires the use of specialized equipment and exclusive processes that the electric utility does not provide as part of our regular maintenance work activities.

Precision Iceblast Corporation was selected in June 2021 through a competitively bid process managed by NCPA to perform HRSG deep cleaning for the benefit of its members, including Roseville Electric Utility.

FISCAL IMPACT

The total cost of services will not exceed \$687,492. Funding is included in the Electric Fund budget for FY2022-23.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. Adoption of a resolution authorizing execution of the Support Services Program Agreement meets the above criteria and is not subject to CEQA. No additional environmental review is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal E - Deliver exceptional city services

Goal F - Invest in well-planned infrastructure and growth

Resolution 23-012

NCPA SSPA Confirmation - Precision Iceblast

RESOLUTION NO. 23-012

APPROVING A CONFIRMATION UNDER THE SUPPORT SERVICES PROGRAM AGREEMENT WITH NORTHERN CALIFORNIA POWER AGENCY, AND AUTHORIZING THE ELECTRIC UTILITY DIRECTOR AND CITY ATTORNEY TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE

WHEREAS, on May 5, 2021, Council adopted Resolution No. 21-194 which authorized the City Manager to execute the Support Services Program Agreement (SSPA) with the Northern California Power Agency (NCPA), and appointed the Electric Utility Director and the City Attorney as designated representatives of the SSPA with authority to execute confirmations of \$74,999 or less; and

WHEREAS, City Council approval is required for any Confirmation under the NCPA Support Services Program Agreement over \$74,999; and

WHEREAS, in combined cycle power plants like the REP, regular Heat Recovery Steam Generator (HRSG) cleaning is needed to maintain safe, efficient and reliable operation of the unit. HRSG cleaning improves combustion turbine efficiency, steam turbine output, and reduces power plant variable operations costs; and

WHEREAS, Precision Iceblast Corporation was selected in June 2021 through a competitively bid process managed by NCPA to perform HRSG deep cleaning for the benefit of its members, including Roseville Electric Utility; and

WHEREAS, Confirmation No. 0268 under the NCPA Support Services Program Agreement with Precision Iceblast Corporation in the amount of \$687,492, has been reviewed by the City Council.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that Confirmation No. 0268 under the NCPA Support Services Program Agreement is hereby approved and the Electric Utility Director and City Attorney are hereby authorized to execute it on behalf of the City of Roseville.

PASSED AND ADOPTED by the Council of the City of Roseville this ____ day of _____, 20_, by the following vote on roll call:

CONFIRMATION UNDER THE NCPA SUPPORT SERVICES PROGRAM AGREEMENT

1. This is a Confirmation pursuant to the Support Services Program Agreement and subject to the terms and conditions of that agreement, except as expressly provided in this Confirmation. All capitalized terms have the meaning given to them in the Support Services Program Agreement.

2. The Participating Member for this Confirmation is the CITY OF ROSEVILLE in the amount of not-to-exceed \$686,147.00 for the Precision Iceblast Corporation work described in paragraph 3. The amount includes the proposal amount of \$623,770.00, plus a ten percent contingency of \$62,377.00. The dollar amount is not a guarantee that the full amount will be paid to Precision Iceblast Corporation, but is merely a limit of potential expenditures under this Confirmation.

3. The Participating Member requests the following described Support Services in the dollar amount specified. NCPA agrees to provide the following Support Services to the Participating Member:

Precision Iceblast Corporation shall provide Heat Recovery Steam Generator Deep Cleaning services for Unit One and Unit Two located at Philip Road, scaffolding for both units, and Confined Space Rescue Team services, as more fully detailed in the proposal dated September 19, 2022, copy attached as Exhibit "A".

4. The Participating Member executing this Confirmation agrees to pay for the Support Services in the not-to-exceed amount specified in paragraph 2 above; plus, the Administrative Cost of not to exceed \$1,345.00 (\$685.00 to develop the Confirmation and first month of administration, plus \$165 per month for four additional months) to be billed as costs are actually incurred, in accordance with the provisions of the Support Services Program Agreement. The total amount expended under this Confirmation will not exceed \$687,492.00.

5. A Security Account deposit is not required for this Confirmation.

2. PRECISION ICEBLAST

Precision Iceblast Corporation specializes in Power Generation and Heat Recovery Steam Generator Deep Cleaning services. We have been operating for over three decades in the power generation industry, developing inspections and cleaning projects in HRSG boilers applied in cogeneration and combined cycle plants.

In addition to HRSG cleaning services, we are contracted to carry out dry ice blasting projects, surface preparation services and painting equipment and installations in almost every industry. Our revolutionary technology is safer, more efficient, and environmentally friendly to clean any surface, including boiler tubes, the surface of mechanical and electrical equipment, industrial installations, static and rotating equipment.

In the Power Generation industry, Precision Iceblast has conducted over 1200 HRSG cleaning projects worldwide to date working on five different continents. We are a leader in HRSG boiler cleaning services and offer an integrated service for power plants that includes cleaning inspections, HRSG performance analysis and HRSG Deep Cleaning services for owners and O&M operators throughout the entire HRSG lifecycle.

3. INTRODUCTION

During the operation of Combined Cycle Plants or Cogeneration Plants, naturally the Heat Recovery Steam Generator (HRSG) will suffer fouling due to operational deposits and corrosion produced by the process, causing loss of thermal performance and output for the plant. Seeking to restore the performance of the HRSG and having a higher reliability and availability is critical to every plant. Precision Iceblast's patented deep cleaning method (HRSG DEEP CLEANING™) ensures safe cleaning of 95% of HRSG fin tube heating surfaces, providing better thermal efficiency for the HRSG and increasing overall output of the plant.

Fig 1.0 HRSG tubes before cleaning

Fig 1.1 HRSG tubes after cleaning

KEY BENEFITS OF THE HRSG DEEP CLEANING METHOD FOR YOUR PLANT

- ✓ Minimal of 50% back pressure reduction with most clients seeing upwards of 80% reduction.
- ✓ Dramatic reduction in Heat Rates with clients seeing up to 300 btu/kwh reductions.
- ✓ Dramatic increases in Gas Turbine and Steam Turbine MW Output with some clients seeing up to 25 MW gained after cleaning.
- ✓ Increases tube life and slows down corrosive processes that can cause tube failures during HRSG operation.
- ✓ Ensures no risk or damage to pressure parts, owners' equipment or bodily harm.
- ✓ No federal permitting required to perform tube cleaning.
- ✓ Provide complete turn-key solutions with minimal plant support.

4. SCOPE OF THE PROJECT

Precision Iceblast undertakes to carry out the scope of service referred to in this proposal for the customer City of Roseville. This proposal includes a cleaning and coating services (**Patented HRSG DEEP CLEANING™**) combined with ultra-high pressure CO2 dry ice for **two Vogt HRSG units, Horizontal gas flow, installed at your Roseville Energy Park facility located in Roseville, California.**

In more detail we highlight in Figure 1 the tube bundles in red color that will be cleaned with the HRSG DEEP CLEANING™ methodology.

Figure 1.2 – GENERIC HRSG DRAWING Highlighting the tube bundles that will be cleaned with PIC's HRSG DEEP CLEANING™ methodology.

Figure 1.3 – GENERIC HRSG DRAWING Highlighting the tube bundles that will be cleaned with PIC's HRSG DEEP CLEANING TM methodology.

Figure 1.4 –GENERIC HRSG DRAWING highlighting the scaffolding towers that will be assembled and disassembled by customer.

Figure 1.5 –GENERIC HRSG DRAWING highlighting the scaffolding towers that will be assembled and disassembled by customer.

5. METHODOLOGY AND WORK PROCEDURE

To obtain the best results possible, Precision Iceblast performs different techniques that aim to guarantee the cleaning efficiency of its customers' boiler tube modules between 90% to 95%. During a HRSG cleaning project, our technical team can perform the following procedures mentioned below. All these different processes and approaches will ensure that your HRSG is professionally cleaned. With thirty years of experience and performing over thousand HRSG boiler tube cleaning projects, regardless of the type of fouling found in the HRSG, we can ensure we provide the most detailed cleaning system with our ultra-high pressure dry ice blasting, our deep cleaning alignment tools, HRSG cleaning solution and specialized team we can ensure our process will provide the upmost return on investment over other methods of cleaning. Most importantly, this process is SAFE on all pressure parts and components of your HRSG. To ensure complete satisfaction, the PIC team will borescope inspect each module before and after cleaning to make sure all possible fouling is removed.

Deep Cleaning Procedure

In this procedure, our team of specialists will use deep cleaning alignment equipment that mainly includes an elongated alignment tool to create temporary access lanes between the tubes. The tool is configured to maximize the surface area that contacts the finned tubes, which in turn minimizes the amount of stress on any specific point on the finned tubes. As a result, when the wedge meets the finned tubes, the finned tubes will not be damaged. These tools are designed per site specific and are designed to create access two to three tubes past the middle point of the module. When cleaning from both sides of the module this allows for a four to six tube overlap ensuring all of the heating surface has been cleaned. In return this ensures the client optimal returns on investment.

After creating a temporary access lane between the HRSG tubes, sufficient space can be created between the tubes to insert specialized wands that allow all boiler tubes in the module to be cleaned. Once the access lane is created, a wand is used to blast ultra-high pressure compressed air and our PIC 56 blasting gun with dry ice to clean the tubes.

Fig. 1.6 Special wands with different blasting angle settings

Hard Deposits

For deposits that are difficult to remove, Precision Iceblast Corporation has developed its own biodegradable solution to help break down the deposits. This solution is lightly applied to the tubes with a low-pressure sprayer. After allowing the solution to break down the deposits (approximately 15 minutes), the tubes are then blasted with dry ice at ultra-high pressure to remove any loose material. This proprietary solution has been thoroughly tested and is highly effective and completely safe on all tubes. The solution is used on a very minimal basis and only used in units with extreme fouling issues. Most cleanings do not require the use of this solution. If all these processes still do not remove the fouling from the tubes, PIC will add crushed glass medium to the dry ice to create a process aggressive enough to remove the fouling.

Borescope Inspections

With every cleaning project, PIC provides a borescope inspection of each module being cleaned before cleaning, during cleaning and after cleaning is completed ensuring that each module is cleaned 100%. With the borescope inspection PIC will inspect each level at random spots ensuring the tube fouling has been removed ensuring the client the most optimal results possible. Once work is completed PIC will provide the client with all the before and after photos from each cleaning project in a final report which will include the borescope photos.

Blowdown Procedure

This procedure consists of performing a final blow down of the tube modules with ultra-high pressure compressed to eliminate the remaining fouling between the tubes, working the debris to the bottom floor of the boiler.

To perform the blowdown procedure, our team starts from the top of the module and blows out all the tube ties and areas of debris build. The blowdown procedure is performed with a wand or ball valve and controlled air.

The blowdown procedure is necessary for situations where the HRSG's tube modules are heavily deposited. Specifically, when there is a lot of fouling in the deep tubes.

Fig. 1.9 Blowdown procedure for horizontal flue gas, top-down direction

Fig. 2.0 Blowdown procedure for vertical flue gas, top-down direction

HRSG Final Cleaning Procedure

Upon completion of the cleaning, PIC's team of experts will use ultra-high pressure (350psi) compressed air to remove loose debris between HRSG tube modules. Blow down begins at the top of each module and all waste is directed to the bottom floor. The waste is removed from the boiler using buckets. After removing most of the debris, the PIC crew will blow out the bottom floor parts of the boiler. Vacuum cleaners are used to remove remaining debris and the process is repeated until all remaining debris is removed from the unit. After the final cleaning, scaffolding, or suspended equipment will be removed from the unit and then returned to HRSG in operating conditions for the plant.

6. COMPARISON OF CLEANING METHODS

Conventional Ice Blasting, Air lancing, Sand Blasting, and Chemical Cleaning

These type of cleaning methods mentioned above are performed at the access lane trying to clean in the inward direction of the tube module. These methods have been found to only clean the first one or two rows of tubes leaving most of the heating surfaces untouched with minimal, if any, efficiency results achieved. This type of process also has been found to cause tube failures due to buoyancy instability. This is caused by having a leading tube cleaned and performing to design and then feeding into a tube that is not cleaned and underperforming. Furthermore, these types of methods have been found to pack fouling into the middle of the module instead of removing the debris due to the nature of the process not being capable of cleaning past the first row of tubes.

Please see below photos for representation of cleanliness typically found with conventional cleaning methods. Figure 2.1 is before any type of cleaning methods performed showing heavy corrosion found in the tube module. Corrosion is one of the easiest types of fouling to remove due to the nature of being loosely adhered. Figure 2.2 is the results of conventional cleaning efforts. The first one to two rows of tubes were found to be cleaned, but no cleaning efforts were found beyond the second row of tubes. Also note the amount of debris that was pushed into the center of the module after conventional cleaning efforts.

Figure 2.1 Before Cleaning Efforts

Figure 2.2 After Conventional Cleaning Methods

09-19-2022 Roseville Energy Park

Explosion Cleaning, Pulse Waves, Det Cord, Acoustic, and Kinetic Cleaning Efforts

These type of cleanings efforts, just like conventional cleaning efforts, are also performed in the access lane trying to clean the tube module with inward cleaning efforts. These methods have been found to clean up to the third or fourth row of tubes leaving the inner tube module uncleaned. These types of methods also do not allow for thorough inspections of the tube modules after cleaning due to not having scaffolding in the unit. The front leading row of tubes look clean, but physically inspecting the modules inner tubes for cleanliness is impossible during this cleaning. These types of methods have been found to cause damage to penetration seals, expansion joints, gas baffling, and other pressure part items.

Please see below photos for representation of cleanliness typically found with these types of cleaning methods. Figure 2.3 illustrates these type of cleaning methods showing the front leading row of tubes appearing to be clean. Figure 2.4 illustrates the inner tubes from these type of cleaning efforts. The first three to four rows of tubes are found to be cleaned, but borescope inspections found no cleaning found beyond the fourth row of tubes. This example again was corrosion, which is a very easy fouling to remove and the cleaning efforts were found to be less than acceptable. In this scenario, PIC was contracted to perform our Patented Deep Cleaning process to clean after explosion cleaning where an additional 20 tons of debris was removed and reduced the differential pressure by an additional 3.5 inches per each unit.

Notes:

- This schedule includes the mobilization of equipment and crew of one team(s) of five employees per shift, to carry out the cleaning project of two HRSG units in twenty-four days on day shift. If preferred the client can add an additional team to work 24 hours a day for an additional cost to reduce the time to twelve days.

9. PROPOSAL VALUE

Cost For HRSG DEEP Cleaning Unit One:	\$ 159,890.00 USD
Cost for Scaffolding:	\$ 46,560.00 USD
Cost for HRSG DEEP Cleaning Unit Two:	\$ 159,890.00 USD
Cost for Scaffolding:	\$ 46,560.00 USD
Cost for Confined Space Rescue Team:	\$ 110,890.00 USD
Cost for Prevailing Wage if Needed:	\$ 99,980.00 USD
Additional Cost for 24/7 Coverage:	\$ 29,890.00 USD

\$ 623,770.

10. TERMS

Terms are 25% with Purchase Order, due 30 days prior to project start date. The remaining 75% will be due upon job completion, Net 15 days. A 2% penalty will occur after the initial 15 days of the due date of each invoice and then every 30 days thereafter. Extra costs will occur if Precision Iceblast Corporation's work is delayed as a result of the customer's actions or reasons beyond Precision Iceblast Corporation's control including but not limited to weather. If for any reason work is terminated early, Precision Iceblast Corporation will receive a mobilization charge plus be compensated for work that has already been performed and material costs for work that was not performed. A change order will need to be signed for any change from the original scope of work.

Extra costs will occur if Precision Iceblast Corporation's work is delayed as a result of the customer's actions or reasons beyond Precision Iceblast Corporation's control including but not limited to weather. If for any reason work is terminated early, Precision Iceblast Corporation will receive a mobilization charge plus be compensated for work that has already been performed and material costs for work that was not performed. A change order will need to be signed for any change from the original scope of work.

"This non-binding quote is provided for informational purposes only, and neither Customer nor PIC will have any obligation to the other (contractual or otherwise) with respect to the work described herein. If Customer and PIC wish to proceed, PIC will provide Customer a separate definitive written agreement to be signed by the parties that sets forth their respective rights and obligations."

Deadline to close the order.

We indicate that the order must be closed at least 90 days in advance so that we can guarantee the planning of the necessary resources

COUNCIL COMMUNICATION

CC #: 2482
File #: 0900-03

Title: Electric Landscape Improvements - Fiddymment Substation Project - Notice of Completion
Contact: Mitch Larkin 916-746-1601 mlarkin@roseville.ca.us

Meeting Date: 1/18/2023
Item #: 7.21.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council accept the Electric Landscape Improvements - Fiddymment Substation Project as complete and adopt a resolution authorizing the Electric Utility Director to file the attached Notice of Completion.

BACKGROUND

In 1997, Roseville Electric built the Fiddymment 230/60kV Substation, which is one of two substations used by Roseville Electric to deliver power from outside of the City to Roseville. When the substation was constructed, a minimal amount of landscaping was installed. Over the years, the landscaping has deteriorated and trash would collect in the seasonal vernal pool near the substation.

As part of this project, the City has worked with the California State Water Resources Control Board and the United States Army Corps of Engineers to remove and mitigate the vernal pool so it can be landscaped along with the rest of the frontage along Fiddymment Road. Additionally, Roseville Electric has performed a security evaluation on the Fiddymment Substation, which has identified the need for additional lighting that has been included in this project.

The Electric Department has conducted the final inspection of the Electric Landscape Improvements - Fiddymment Substation Project and has found that all contract work has been completed in accordance with the approved plans and specifications. This project is now ready for acceptance.

FISCAL IMPACT

The construction contract was awarded to Marina Landscape in the amount of \$566,000. City Council also approved a 15%, or \$84,900, contingency for a not-to-exceed total amount of \$650,900. There were a total of three negotiated change orders during construction, with a final contract value of \$607,662.77. Funding for this project was provided in the Electric Fund for

FY2020-21.

ENVIRONMENTAL REVIEW

The Electric Landscape Improvements - Fiddymment Substation project was subject to CEQA. CEQA compliance was accomplished with the preparation of the City of Roseville Electric Department 230-60-kV Fiddymment Substation Project Initial Study/Mitigated Negative Declaration (Adopted January 17, 1996) (SCH No. 1995012023). Because the Electric Landscape Improvements - Fiddymment Substation project is consistent with the project evaluated in the Roseville Electric Department 230-60-kV Fiddymment Substation Project Initial Study/Mitigated Negative Declaration, all applicable mitigation measures have been completed.

Meeting Date: 1/18/2023
Item #: 7.22.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council approve agreements for recruitment services with William Avery & Associates, Inc., GVP Ventures, Inc. dba Bob Murray & Associates, Cooperative Personnel Services dba CPS HR Consulting, Gallagher Benefit Services, Inc., City Management Advisors LLC dba Peckham & McKenney, Raffetis Financial Consultants, Inc., Ralph Andersen & Associates, and WBCP, Inc. to conduct executive recruitments on behalf of the City of Roseville, and adopt resolutions authorizing the City Manager to execute said agreements.

BACKGROUND

With anticipated management vacancies and other hard to recruit for positions, the City solicited proposals for Executive Recruitment Services. The City selected eight executive recruiting firms to be used on an on-call basis should an executive recruiter be needed. Due to the broad range of management positions within the organization, the City chose executive recruiting firms who specialized in certain areas. The goal is to have a number of firms that might be able to assist the City depending on the vacancy at that time.

The City selected Executive Search Firms/Consultants that are well versed in the executive search & recruitment process. The City was particularly interested in executive search firms/consultants who could offer creative, innovative approaches within fiscal parameters, with a proven track record, to support the City in recruiting and hiring the best candidates available for high level executive and hard to recruit City positions.

FISCAL IMPACT

The total cost of each recruitment is not to exceed \$32,000. Services would be paid on an as-needed basis by the department filling the anticipated vacancy.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in

a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. The proposed recruitment efforts meet the above criteria and are not subject to CEQA. No additional environmental review is required.

ATTEST:

City Clerk

AGREEMENT FOR RECRUITMENT SERVICES

THIS AGREEMENT is made and entered into this ____ day of _____, 20__, by and between the City of Roseville, a municipal corporation (“CITY”), and the recruitment firm GVP Ventures, Inc. dba Bob Murray & Associates, a California corporation (“RECRUITER”); and

WITNESSETH:

WHEREAS, CITY from time to time is in need of executive recruitment and search firms to provide recruitment and search services and assistance to the Roseville Human Resources Department (“HR”); and

WHEREAS, RECRUITER is willing to provide such services on a per recruitment task-based basis; and

NOW, THEREFORE, the Parties agree as follows:

1. Scope of Services and Duties. CITY retains RECRUITER to provide recruitment and search services from time to time upon the request of HR to advise, assist, and search for candidates for CITY employment, as more fully described in EXHIBIT “A” attached hereto and incorporated herein by reference.
2. Specific Work Assignments. RECRUITER shall receive work assignments from HR on an as-needed basis. The work assignments shall generally be communicated by written notice from HR to RECRUITER. If a work assignment is communicated orally, RECRUITER shall provide a written confirmation to HR describing the work assignment. CITY reserves the right to unilaterally assign similar work to other recruitment firms, as it deems prudent, and the use of RECRUITER shall in no way be considered an exclusive agreement to provide or use similar services. CITY makes no specific guarantee of a minimum or maximum number of hours or amount of tasks, assignments, or services. The assignment of any work hereunder is expressly contingent upon the availability of funds.
3. Fees for Services. For services performed under this Agreement, CITY shall pay RECRUITER in accordance with the fee schedules and rates included in EXHIBIT “A” and that in no event, inclusive of any and all fees, costs, reimbursable expenses, or any other charge, shall any single assignment and recruitment exceed thirty-two thousand dollars (\$32,000).
4. Statements and Payments. RECRUITER shall provide invoices to the CITY for all fees and expenses. The invoice(s) shall be itemized to include the task completed and a description of the services performed. Invoices shall be considered due and payable upon receipt, and shall be overdue 30 days after receipt.
5. Term; Termination; Amendments. This Agreement shall be effective upon approval by the Roseville City Council and shall continue in effect for a period of five (5) years,

or until terminated by either Party. This Agreement may be terminated by CITY, with or without cause, at any time upon written notice. RECRUITER may terminate this Agreement only upon the consent of CITY or upon 60 days written notice. Upon termination, RECRUITER shall turn over all client files to CITY. There shall be no amendment or modification to this Agreement except by written agreement between the Parties.

6. Independent Contractor. RECRUITER, inclusive of its agents, officers, employees, volunteers, independent contractors, and subcontractors, shall act as an independent contractor, and covenants and agrees that it will conduct itself consistent with such status, that it will neither hold itself out as, nor claim to be, an officer or employee of CITY by reason of this Agreement.

RECRUITER and CITY agree that: (a) RECRUITER is free from the control and direction of CITY in connection with the performance of the work; (b) RECRUITER is providing services directly to CITY; (c) RECRUITER has and will maintain at all relevant times a business license; (d) RECRUITER maintains a business location that is separate from CITY; (e) RECRUITER is customarily engaged in an independently established business of the same nature as that involved in the work performed hereunder; (f) RECRUITER actually contracts with other businesses to provide the same or similar services and maintains a clientele without restrictions from CITY; (g) RECRUITER advertises and holds itself out to the public as available to provide the same or similar services; (h) RECRUITER provides its own tools, vehicles, and equipment to perform the services; (i) RECRUITER has negotiated its own rates; (j) RECRUITER set its own hours and location of work in accomplishing CITY's on-call needs; and (k) RECRUITER has the right to control the manner and means of accomplishing the result desired and exercises its own expert independent judgement.

7. Insurance. RECRUITER agrees to continuously maintain, in full force and effect, the following minimum policies of insurance during the term of this Agreement.

<u>COVERAGE</u>	<u>LIMITS OF LIABILITY</u>
Workers' Compensation	Statutory
Commercial General Liability	\$1,000,000 each occurrence \$2,000,000 aggregate Personal Injury: \$1,000,000 each occurrence \$2,000,000 aggregate
Automobile Liability	\$1,000,000 combined single limit
Professional Liability (errors and omissions)	\$1,000,000 per claim \$2,000,000 aggregate

a. Form. RECRUITER shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City

Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made basis is subject to the approval of Risk Management and the City Attorney.

b. Additional Insureds. RECRUITER shall also provide a separate endorsement form or section of the policy showing CITY, its officers, agents, employees and volunteers as additional insureds for each type of coverage, except for Workers' Compensation and Professional Liability. Such insurance shall specifically cover the contractual liability of RECRUITER. The additional insured coverage under the RECRUITER's policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy, and shall not seek contribution from CITY's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office ("ISO") CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.

c. Cancellation/Modification. RECRUITER shall provide ten (10) days written notice to CITY prior to cancellation or modification of any insurance required by this Agreement.

d. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of CITY (if agreed to in a written contract) before CITY's own insurance shall be called upon to protect it as a named insured.

e. Subcontractors. RECRUITER agrees to include in its contracts with all subcontractors the same requirements and provisions of this Agreement, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor's work. Furthermore, RECRUITER shall require its subcontractors to agree to be bound to RECRUITER and CITY in the same manner and to the same extent as RECRUITER is bound to CITY under this Agreement. Additionally, RECRUITER shall obligate its subcontractors to comply with these same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of CITY's indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request.

f. Self-Insured Retentions. All self-insured retentions ("SIR") must be disclosed to Risk Management for approval and shall not reduce the limits of liability.

Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or CITY. CITY reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

g. Waiver of Subrogation. RECRUITER hereby agrees to waive subrogation which any insurer of RECRUITER may acquire from RECRUITER by virtue of the payment of

any loss under a Workers Compensation, Commercial General Liability or Automobile Liability policy. All Workers Compensation, Commercial General Liability and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of CITY, its officers, agents, employees and volunteers for all work performed by RECRUITER, its employees, agents and subcontractors.

h. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve RECRUITER of liability in excess of such coverage, nor shall it preclude CITY from taking such other actions as are available to it under any other provisions of this Agreement or law.

8. Indemnification. To the fullest extent allowed by law, RECRUITER shall defend, indemnify, and save and hold harmless CITY, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from or arising out of RECRUITER's willful misconduct or negligent act or omission while engaged in the performance of obligations or exercise of rights created by this Agreement, except those matters arising from CITY's sole negligence or willful misconduct. The parties intend that this provision shall be broadly construed.

RECRUITER agrees to defend and indemnify CITY if, despite the parties intent and practice, any venue, agency, or court with competent jurisdiction determines that RECRUITER and/or any of its agents, officers, employees, volunteers, independent contractors, or subcontractors, are characterized as employee(s) of CITY.

RECRUITER's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.

9. Notice. All notices, invoices, reports or other communication required by this Agreement shall be properly given if delivered in person, or sent by first class mail, facsimile, or overnight delivery to the following addresses:

CITY:

Human Resources Department
311 Vernon Street
Roseville, CA 95678

RECRUITER

Valerie Gaeta Phillips, President
1544 Eureka Road, Suite 280
Roseville, CA 95661

Either party may amend its address for notice by giving notice to the other party.

10. Assignment. RECRUITER is employed to perform unique personal services. RECRUITER shall not assign this Agreement without the prior written consent of CITY.

RECRUITER shall not employ or otherwise incur any obligation to pay other specialists or experts for services in connection with this Agreement, without prior written consent of CITY.

11. Attorney's Fees; Venue; Governing Law. If either party commences any legal action against the other party arising out of this Agreement or the performance hereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorney's fees. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.

12. Ability to Perform. RECRUITER agrees and represents that it has the time, ability and professional expertise to perform the services required under this Agreement.

13. Compliance with Laws. RECRUITER shall comply with all federal, state and local laws, ordinances and policies as may be applicable to the performance of services under this Agreement.

14. Governing Agreement. In the event of any conflict between this Agreement and its EXHIBITS, the provisions of this Agreement shall govern. In the event of any conflict between any of the EXHIBITS, the provisions of the first in order of attachment shall govern.

15. Successors in Interest. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.

16. Copyright, Ownership and Use of Materials. All tangible material ("Material") created or delivered pursuant to this Agreement is considered a work made for hire under the Copyright Act. To the extent such Material does not qualify as a work made for hire, RECRUITER hereby assigns to CITY all right, title, and interest, including but not limited to all copyrights, in all Material created by RECRUITER in its performance under this Agreement. Material constitutes the scope of work outlined in Exhibit A and attached hereto, and all written and other tangible expressions, including but not limited to, drawings (including computer aided drawings), papers, documents, reports, surveys, renderings, exhibits, sketches, maps, models, prints, paintings or photographs, in any and all media or formats in which such materials have been created or are maintained. All Material furnished by RECRUITER is, and shall remain, the property of CITY.

RECRUITER shall execute any documents necessary to effectuate such assignment. In the event that RECRUITER uses, employs, designates, or retains any person or entity who is not an employee of RECRUITER, to perform any work required of it pursuant to this Agreement, RECRUITER shall require said person or entity to execute an agreement containing the preceding paragraph.

17. Records. RECRUITER and its subcontractors shall maintain all files and records relating to the services performed hereunder during the term of this Agreement and for a period of not less than one (1) year after the date of termination or expiration. Provided, however, that

in the event of litigation or settlement of claims arising from the performance of this Agreement, RECRUITER and its subcontractors shall maintain all files and records until such litigation, appeals or claims are resolved. Duly authorized representatives of CITY shall have right of access during normal business hours and after reasonable notice to RECRUITER's and subcontractors' files and records relating to the services performed hereunder, and may review and copy the files and records at appropriate stages during performance of the services and during the one (1) year period following termination or expiration of this Agreement. RECRUITER shall include the provisions in its contracts with all subcontractors.

18. Time is of the Essence. Time is of the essence of this Agreement.

19. Representations and Warranties. RECRUITER warrants that it has not employed or retained any company or person, other than a bona fide employee working for RECRUITER, to solicit or secure this Agreement, and that it has not paid or agreed to pay any company or person, other than a bona fide employee, any fee, commission, percentage, brokerage fee, gift or any other consideration, contingent upon or resulting from the award or making of this Agreement. For breach or violation of this warranty, CITY shall have the right to terminate as void this Agreement, without liability, or, in its discretion, to deduct from the Agreement price or consideration, or otherwise recover, the full amount of such fee, commission, percentage, brokerage fee, gift or contingent fee.

20. Severability. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.

21. Integrated Agreement. This is an integrated Agreement and contains all of the terms, considerations, understandings and promises of the Parties. It shall be read as whole.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this Agreement in duplicate by its City Manager and attested to by its City Clerk under the authority of Resolution No. _____, adopted by the Council of the City of Roseville on the ____ day of _____, 20__, and RECRUITER has caused this Agreement to be executed.

CITY OF ROSEVILLE
ATTN: CITY CLERK DEPARTMENT
311 VERNON STREET
ROSEVILLE, CA 95678

To Whom It May Concern:

Thank you for inviting Bob Murray & Associates to submit a proposal to conduct on-call executive recruitment services on behalf of the City of Roseville. The following proposal details our qualifications and describes our process of identifying, recruiting, and screening outstanding candidates on your behalf. It also includes a proposed budget, timeline, guarantee, and sample recruitment brochure.

At Bob Murray & Associates, we pride ourselves on providing quality service to local governments, non-profit agencies, and private firms. Our recruitment process helps you to determine the direction of the search and the types of candidates you seek while capitalizing on our decades of experience and vast network of contacts to reach those candidates. Our expertise ensures that the candidates we present to the City of Roseville will match the criteria you have established, be a positive placement for your organization, and be outstanding in their field.

Your Project Leads would be Gary Phillips and Valerie Gaeta Phillips, who would not only direct and supervise the project team from beginning to end but also serve as the lead Recruiters. Mr. Phillips and Ms. Gaeta Phillips will perform all recruiter services and adhere to requirements described in RFP #11-015.

To learn first-hand of the quality of our service and our recruitment successes, we invite you to contact the references listed under the Experience and References section of the proposal.

We look forward to your favorable consideration of our qualifications. Please do not hesitate to contact us by phone at (916) 784-9080 or email valeriep@bobmurrayassoc.com, should you have any questions.

Sincerely,

Valerie Gaeta Phillips

Valerie Gaeta Phillips
President, Bob Murray & Associates

OUR FIRM'S QUALIFICATIONS

Bob Murray & Associates has a national reputation for conducting quality searches that result in the placement of candidates ideally suited to our clients' needs and the organizational culture. We have extensive experience working with counties, municipalities, special districts, and other organizations in the western half of the United States conducting recruitments for administration, building, development, engineering, human resources, legal, library, finance, fire, parks and recreation, planning, police, public affairs, public works, redevelopment, technology, and transportation professionals. We pride ourselves on providing quality service to local governments.

Bob Murray & Associates was founded in May 2000 and operated under the corporation MBN Services, Inc. until June 2014; our current corporation name is GVP Ventures, Inc. (dba Bob Murray & Associates). There were no personnel changes as a result of this change in corporation.

We are a woman and minority owned firm with a Small Business (Micro) Certification from the State of California. We are headquartered in Roseville and comprised of thirteen (13) team members that include Bob Murray, Founder; Valerie Gaeta-Phillips, President; Gary Phillips, Executive Vice President; Regan Williams, Senior Vice President; Joel Bryden, Vice President; Yasmin Beers, Carmen Valdez, Adele Fresé, and Nina Jamsen, Senior Executive Recruiters; Alex Kopack, Recruitment and Operations Manager; Christopher Harris and Kathy Lolas, Senior Recruitment Coordinators; and Gini Herndon, Contracts Administrator/Accounting. We are known throughout the industry, by clients and candidates alike, as the leading firm in terms of customer service. We pride ourselves on our responsiveness to clients and candidates and assure the City that you will receive the highest caliber of service from every member of our team.

ORGANIZATIONAL CHART

PROJECT UNDERSTANDING

We understand the challenges of recruiting and hiring the best candidates available for a broad range of high-level executive and hard to recruit City positions.

We have created a recruitment process that combines our ability to help you to determine the direction of the search and the types of candidates you seek with our experience recruiting outstanding candidates who are not necessarily looking for a job. Our proven expertise ensures that the candidates we present for your consideration will match the criteria you have established and will be outstanding in their field.

A significant portion of our process focuses on conducting thorough and confidential background investigations of the top 2-3 candidates to ensure that nothing about them is left undiscovered. We have candid discussions with references who have insight into the candidate's experience, style, and ethics; conduct a search of newspaper articles; and run credit, criminal and civil records reports. This ensures that the chosen candidate will not only be an excellent fit with the City of Roseville, but also that the selected candidate will reflect positively upon your organization.

When deemed necessary or appropriate, we will work with the Council and/or City staff to design a recruitment that is inclusive of stakeholders. We assist our clients to involve staff, community members and leaders, local organizations, and other individuals or groups, as appropriate, from the very beginning of the recruitment. In the past, we have held "Town Hall" meetings, helped our clients to design and distribute community surveys, and/or held individual meetings with specific individuals to provide the hiring authority with feedback regarding what is desired in the ideal candidate. Additionally, we have designed interview processes that allowed for stakeholder involvement while ensuring that the final hiring decision rested with the hiring authority. Such processes have included multiple interview panels, "Meet-and-Greet" or "Q&A" events, assessment centers, and the like. Each interview process is uniquely designed for our clients' needs, and our recruiter is always on-site for interview days to help facilitate the interview process.

THE RECRUITMENT PROCESS/PROJECT PLAN

Bob Murray & Associates' unique and client-oriented approach to executive search will ensure that the City of Roseville has quality candidates from which to select its high-level executive and hard to recruit City positions. Outlined below are the key steps in our recruitment process.

STEP 1 DEVELOPING THE CANDIDATE PROFILE

Our understanding of the City of Roseville's needs will be key to a successful search. We will work with the City Manager, and other stakeholders identified by the City, to learn as much as possible about the organization's expectations for each recruitment. We want to learn the values and culture of the organization, as well as understand the current issues, challenges and opportunities that face the City of Roseville. We also want to know the City's expectations regarding the knowledge, skills and abilities sought in the ideal candidate and will work with the City to identify expectations regarding education and experience. Additionally, we want to discuss expectations regarding compensation and other items necessary to complete the successful appointment of the ideal candidate. The profile we develop together at this stage will drive subsequent recruitment efforts.

STEP 2 ADVERTISING CAMPAIGN AND RECRUITMENT BROCHURE

After gaining an understanding of the City of Roseville's needs, we will design an effective advertising campaign appropriate for the recruitment. We will focus on professional journals that are specifically suited to the search. We will also develop a professional recruitment brochure on the City's behalf that will discuss the community, organization, position and compensation in detail. Once completed, we will mail the profile to an extensive audience, making them aware of the exciting opportunity with the City of Roseville.

Mr. Phillips and Ms. Gaeta Phillips will seek to reach candidates in communities and organizations with demographic profiles and populations served like that of the City of Roseville, to maximize the potential for individuals from a wide variety of backgrounds, cultures, physical abilities, life experiences, and gender to be considered for the Executive Recruiting Services position.

STEP 3 RECRUITING CANDIDATES

After cross-referencing the profile of the ideal candidate with our database and contacts in the field, we will conduct an aggressive outreach effort, including making personal calls to prospective applicants, designed to identify and recruit outstanding candidates. We recognize that the best candidate is often not looking for a new job and this is the person we actively seek to convince to become a candidate. Aggressively marketing the position to prospective candidates will be essential to the success of the search.

STEP 4 SCREENING CANDIDATES

Following the closing date for the recruitment, we will screen the resumes we have received. We will use the criteria established in our initial meetings as a basis upon which to narrow the field of candidates.

STEP 5 PERSONAL INTERVIEWS

We will conduct personal interviews with the top 10 to 12 candidates with the goal of determining which candidates have the greatest potential to succeed in your organization. During the interviews, we will explore each candidate's background and experience as it relates to the position. In addition, we will discuss the candidate's motivation for applying for the position and make an assessment of his/her knowledge, skills and abilities. We will devote specific attention to establishing the likelihood of the candidate's acceptance of the position if an offer of employment is made.

STEP 6 PUBLIC RECORD SEARCH

Following the interviews, we will conduct a review of published articles for each recommended candidate. Various sources will be consulted including Lexis-Nexis™, a newspaper/magazine search engine, Google, and social media. This alerts us to any further detailed inquiries we may need to make at this time.

STEP 7 RECOMMENDATION

Based on the information gathered through meetings with your organization and personal interviews with candidates, we will recommend a limited number of candidates for your further consideration. We will prepare a detailed written report on each candidate that focuses on the results of our interviews and public record searches. We will make specific recommendations, but the final determination of those to be considered will be up to you.

STEP 8 FINAL INTERVIEWS

Our years of experience will be invaluable as we help you develop an interview process that objectively assesses the qualifications of each candidate. We will adopt an approach that fits your needs, whether it is a traditional interview, multiple interview panel or assessment center process. We will provide you with suggested interview questions and rating forms and will be present at the interview/assessment center to facilitate the process. Our expertise lies in facilitating the discussion that can bring about a consensus regarding the final candidates.

We will work closely with your staff to coordinate and schedule interviews and candidate travel. Our goal is to ensure that each candidate has a very positive experience, as the manner in which the entire process is conducted will have an effect on the candidates' perception of your organization.

STEP 9 BACKGROUND CHECKS/DETAILED REFERENCE CHECKS

Based on final interviews we will conduct credit, criminal, civil litigation and motor vehicle record checks for the top one to three candidates. In addition, those candidates will be the subjects of detailed, confidential reference checks. In order to gain an accurate and honest appraisal of the candidates' strengths and weaknesses, we will talk candidly with people who have direct knowledge of their work and management style. We will ask candidates to forward the names of their supervisors, subordinates and peers for the past several years. Additionally, we make a point of speaking confidentially to individuals who we know have insight into a candidate's abilities, but who may not be on their preferred list of contacts. At this stage in the recruitment we will also verify candidates' degrees.

STEP 10 NEGOTIATIONS

We recognize the critical importance of successful negotiations and can serve as your representative during this process. We know what other organizations have done to put deals together with great candidates and will be available to advise you regarding current approaches to difficult issues such as housing and relocation. We will represent your interests and advise you regarding salary, benefits and employment agreements with the goal of putting together a deal that results in the appointment of your chosen candidate. Most often we can turn a very difficult aspect of the recruitment into one that is viewed positively by both you and the candidate.

STEP 11 COMPLETE ADMINISTRATIVE ASSISTANCE

Throughout the recruitment, we will provide the City Manager, and other stakeholders identified by the City, with updates on the status of the search. We will also take care of all administrative details on your behalf. Candidates will receive personal letters advising them of their status at each critical point in the recruitment. In addition, we will respond to inquiries about the status of their candidacy within twenty-four hours. Every administrative detail will receive our attention. Often, candidates judge our clients based on how well these details are handled.

TIMING

We are prepared to start work on this assignment immediately and anticipate that we will be prepared to make our recommendation regarding finalists within seventy-five to ninety days from the start of the search.

Task:

Week:

Contract Start Date:	TBD
Initial Meeting(s):	1 week from contract start date
Our firm develops recruitment brochure:	2 weeks from contract start date
City approves brochure:	4 weeks from contract start date
Job advertising and candidate sourcing:	8 weeks from contract start date
Our firm reviews application packets:	9 weeks from contract start date
Our firm conducts screening process:	10 weeks from contract start date
City approves candidates:	12 weeks from contract start date
City's interview panel convenes:	13 weeks from contract start date
Reference/Background Checks:	14 weeks from contract start date
Second Interviews by City, if necessary:	15 weeks from contract start date
Offer of Employment:	16 weeks from contract start date

COST PROPOSAL AND GUARANTEE

PROFESSIONAL FEE AND EXPENSES

The consulting fee for conducting on-call executive recruitment services on behalf of the City of Roseville is \$19,000 per recruitment, plus expenses. Services provided for in the fee consist of all steps outlined in this proposal including three (3) days of meetings on site. The City of Roseville will be responsible for reimbursing expenses Bob Murray & Associates incurs on your behalf. We estimate expenses for each project to be \$5,000. Reimbursable expenses include such items as the cost of recruiter travel; clerical support; brochure development; placement of ads; credit, criminal and civil background checks; education verification; and public records searches. Postage, printing, photocopying, and telephone charges are allocated costs and are included in the expense estimate.

We understand that you are seeking the estimated number of hours that we would require to provide our service, the billing rates of persons that will provide said services, and any other estimated additional costs; however, Bob Murray & Associates does not bill based on the number of hours. Our recruiters do not spend a minimum or maximum number of hours on each section of the recruitment process. Instead, they spend the amount of time necessary to exceed the expectations of our clients. The most hours are typically spent on candidate outreach, as this ensures a successful recruitment more than any other aspect of the recruitment process. Developing the candidate profile, as well as the initial interview process and reference checking/newspaper searches, are other areas where significant time is spent.

COSTS BY TASK

- a. Develop the Candidate Profile \$3,000
- b. Develop Advertising Campaign and Recruitment Brochure \$1,000
- c. Recruit Candidates \$4,500
- d. Screen Candidates \$1,000
- e. Conduct Personal Interviews \$4,000
- f. Conduct Public Record Search \$500
- g. Provide Recommendation \$2,000
- h. Assist with Final Interviews \$2,000
- i. Conduct Detailed Reference Checks \$1,000

GUARANTEE

We guarantee that should a recommended candidate selected for the position be terminated within the first year of employment we will conduct the search again at no cost (with the exception of expenses) to the City of Roseville. We are confident in our ability to recruit outstanding candidates and do not expect the City of Roseville to find it necessary to exercise this provision of our proposal.

RESOLUTION NO. 23-003

APPROVING AN AGREEMENT FOR RECRUITMENT SERVICES, BY AND BETWEEN
THE CITY OF ROSEVILLE AND CITY MANAGEMENT ADVISORS LLC DBA
PECKHAM & MCKENNEY EXECUTIVE SEARCH, AND AUTHORIZING THE CITY
MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE

City Clerk

AGREEMENT FOR RECRUITMENT SERVICES

THIS AGREEMENT is made and entered into this ____ day of _____, 20__, by and between the City of Roseville, a municipal corporation (“CITY”), and the recruitment firm City Management Advisors LLC dba Peckham & McKenney Executive Search, a California limited liability company (“RECRUITER”); and

WITNESSETH:

WHEREAS, CITY from time to time is in need of executive recruitment and search firms to provide recruitment and search services and assistance to the Roseville Human Resources Department (“HR”); and

WHEREAS, RECRUITER is willing to provide such services on a per recruitment task-based basis; and

NOW, THEREFORE, the Parties agree as follows:

1. Scope of Services and Duties. CITY retains RECRUITER to provide recruitment and search services from time to time upon the request of HR to advise, assist, and search for candidates for CITY employment, as more fully described in EXHIBIT “A” attached hereto and incorporated herein by reference.

2. Specific Work Assignments. RECRUITER shall receive work assignments from HR on an as-needed basis. The work assignments shall generally be communicated by written notice from HR to RECRUITER. If a work assignment is communicated orally, RECRUITER shall provide a written confirmation to HR describing the work assignment. CITY reserves the right to unilaterally assign similar work to other recruitment firms, as it deems prudent, and the use of RECRUITER shall in no way be considered an exclusive agreement to provide or use similar services. CITY makes no specific guarantee of a minimum or maximum number of hours or amount of tasks, assignments, or services. The assignment of any work hereunder is expressly contingent upon the availability of funds.

3. Fees for Services. For services performed under this Agreement, CITY shall pay RECRUITER in accordance with the fee schedules and rates included in EXHIBIT “A” and that in no event, inclusive of any and all fees, costs, reimbursable expenses, or any other charge, shall any single assignment and recruitment exceed thirty-two thousand dollars (\$32,000).

4. Statements and Payments. RECRUITER shall provide invoices to the CITY for all fees and expenses. The invoice(s) shall be itemized to include the task completed and a description of the services performed. Invoices shall be considered due and payable upon receipt, and shall be overdue 30 days after receipt.

5. Term; Termination; Amendments. This Agreement shall be effective upon approval by the Roseville City Council and shall continue in effect for a period of five (5) years,

or until terminated by either Party. This Agreement may be terminated by CITY, with or without cause, at any time upon written notice. RECRUITER may terminate this Agreement only upon the consent of CITY or upon 60 days written notice. Upon termination, RECRUITER shall turn over all client files to CITY. There shall be no amendment or modification to this Agreement except by written agreement between the Parties.

6. Independent Contractor. RECRUITER, inclusive of its agents, officers, employees, volunteers, independent contractors, and subcontractors, shall act as an independent contractor, and covenants and agrees that it will conduct itself consistent with such status, that it will neither hold itself out as, nor claim to be, an officer or employee of CITY by reason of this Agreement.

RECRUITER and CITY agree that: (a) RECRUITER is free from the control and direction of CITY in connection with the performance of the work; (b) RECRUITER is providing services directly to CITY; (c) RECRUITER has and will maintain at all relevant times a business license; (d) RECRUITER maintains a business location that is separate from CITY; (e) RECRUITER is customarily engaged in an independently established business of the same nature as that involved in the work performed hereunder; (f) RECRUITER actually contracts with other businesses to provide the same or similar services and maintains a clientele without restrictions from CITY; (g) RECRUITER advertises and holds itself out to the public as available to provide the same or similar services; (h) RECRUITER provides its own tools, vehicles, and equipment to perform the services; (i) RECRUITER has negotiated its own rates; (j) RECRUITER set its own hours and location of work in accomplishing CITY's on-call needs; and (k) RECRUITER has the right to control the manner and means of accomplishing the result desired and exercises its own expert independent judgement.

7. Insurance. RECRUITER agrees to continuously maintain, in full force and effect, the following minimum policies of insurance during the term of this Agreement.

<u>COVERAGE</u>	<u>LIMITS OF LIABILITY</u>
Workers' Compensation	Statutory
Commercial General Liability	\$1,000,000 each occurrence \$2,000,000 aggregate Personal Injury: \$1,000,000 each occurrence \$2,000,000 aggregate
Automobile Liability	\$1,000,000 combined single limit
Professional Liability (errors and omissions)	\$1,000,000 per claim \$2,000,000 aggregate

a. Form. RECRUITER shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City

Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made basis is subject to the approval of Risk Management and the City Attorney.

b. Additional Insureds. RECRUITER shall also provide a separate endorsement form or section of the policy showing CITY, its officers, agents, employees and volunteers as additional insureds for each type of coverage, except for Workers' Compensation and Professional Liability. Such insurance shall specifically cover the contractual liability of RECRUITER. The additional insured coverage under the RECRUITER's policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy, and shall not seek contribution from CITY's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office ("ISO") CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.

c. Cancellation/Modification. RECRUITER shall provide ten (10) days written notice to CITY prior to cancellation or modification of any insurance required by this Agreement.

d. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of CITY (if agreed to in a written contract) before CITY's own insurance shall be called upon to protect it as a named insured.

e. Subcontractors. RECRUITER agrees to include in its contracts with all subcontractors the same requirements and provisions of this Agreement, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor's work. Furthermore, RECRUITER shall require its subcontractors to agree to be bound to RECRUITER and CITY in the same manner and to the same extent as RECRUITER is bound to CITY under this Agreement. Additionally, RECRUITER shall obligate its subcontractors to comply with these same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of CITY's indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request.

f. Self-Insured Retentions. All self-insured retentions ("SIR") must be disclosed to Risk Management for approval and shall not reduce the limits of liability.

Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or CITY. CITY reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

g. Waiver of Subrogation. RECRUITER hereby agrees to waive subrogation which any insurer of RECRUITER may acquire from RECRUITER by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability or Automobile Liability policy. All Workers Compensation, Commercial General Liability and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of CITY, its officers, agents, employees and volunteers for all work performed by RECRUITER, its employees, agents and subcontractors.

h. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve RECRUITER of liability in excess of such coverage, nor shall it preclude CITY from taking such other actions as are available to it under any other provisions of this Agreement or law.

8. Indemnification. To the fullest extent allowed by law, RECRUITER shall defend, indemnify, and save and hold harmless CITY, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from or arising out of RECRUITER's willful misconduct or negligent act or omission while engaged in the performance of obligations or exercise of rights created by this Agreement, except those matters arising from CITY's sole negligence or willful misconduct. The parties intend that this provision shall be broadly construed.

RECRUITER agrees to defend and indemnify CITY if, despite the parties intent and practice, any venue, agency, or court with competent jurisdiction determines that RECRUITER and/or any of its agents, officers, employees, volunteers, independent contractors, or subcontractors, are characterized as employee(s) of CITY.

RECRUITER's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.

9. Notice. All notices, invoices, reports or other communication required by this Agreement shall be properly given if delivered in person, or sent by first class mail, facsimile, or overnight delivery to the following addresses:

CITY:

Human Resources Department
311 Vernon Street
Roseville, CA 95678

RECRUITER

Anton Dahlerbruch, Managing Member
300 Harding Boulevard, Suite 203D
Roseville, CA 95678

Either party may amend its address for notice by giving notice to the other party.

10. Assignment. RECRUITER is employed to perform unique personal services. RECRUITER shall not assign this Agreement without the prior written consent of CITY. RECRUITER shall not employ or otherwise incur any obligation to pay other specialists or experts for services in connection with this Agreement, without prior written consent of CITY.

11. Attorney's Fees; Venue; Governing Law. If either party commences any legal action against the other party arising out of this Agreement or the performance hereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorney's fees. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.

12. Ability to Perform. RECRUITER agrees and represents that it has the time, ability and professional expertise to perform the services required under this Agreement.

13. Compliance with Laws. RECRUITER shall comply with all federal, state and local laws, ordinances and policies as may be applicable to the performance of services under this Agreement.

14. Governing Agreement. In the event of any conflict between this Agreement and its EXHIBITS, the provisions of this Agreement shall govern. In the event of any conflict between any of the EXHIBITS, the provisions of the first in order of attachment shall govern.

15. Successors in Interest. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.

16. Copyright, Ownership and Use of Materials. All tangible material ("Material") created or delivered pursuant to this Agreement is considered a work made for hire under the Copyright Act. To the extent such Material does not qualify as a work made for hire, RECRUITER hereby assigns to CITY all right, title, and interest, including but not limited to all copyrights, in all Material created by RECRUITER in its performance under this Agreement. Material constitutes the scope of work outlined in Exhibit A and attached hereto, and all written and other tangible expressions, including but not limited to, drawings (including computer aided drawings), papers, documents, reports, surveys, renderings, exhibits, sketches, maps, models, prints, paintings or photographs, in any and all media or formats in which such materials have been created or are maintained. All Material furnished by RECRUITER is, and shall remain, the property of CITY.

RECRUITER shall execute any documents necessary to effectuate such assignment. In the event that RECRUITER uses, employs, designates, or retains any person or entity who is not an employee of RECRUITER, to perform any work required of it pursuant to this Agreement, RECRUITER shall require said person or entity to execute an agreement containing the preceding paragraph.

17. Records. RECRUITER and its subcontractors shall maintain all files and records relating to the services performed hereunder during the term of this Agreement and for a period of not less than one (1) year after the date of termination or expiration. Provided, however, that in the event of litigation or settlement of claims arising from the performance of this Agreement, RECRUITER and its subcontractors shall maintain all files and records until such litigation, appeals or claims are resolved. Duly authorized representatives of CITY shall have right of access during normal business hours and after reasonable notice to RECRUITER's and subcontractors' files and records relating to the services performed hereunder, and may review and copy the files and records at appropriate stages during performance of the services and during the one (1) year period following termination or expiration of this Agreement. RECRUITER shall include the provisions in its contracts with all subcontractors.

18. Time is of the Essence. Time is of the essence of this Agreement.

19. Representations and Warranties. RECRUITER warrants that it has not employed or retained any company or person, other than a bona fide employee working for RECRUITER, to solicit or secure this Agreement, and that it has not paid or agreed to pay any company or person, other than a bona fide employee, any fee, commission, percentage, brokerage fee, gift or any other consideration, contingent upon or resulting from the award or making of this Agreement. For breach or violation of this warranty, CITY shall have the right to terminate as void this Agreement, without liability, or, in its discretion, to deduct from the Agreement price or consideration, or otherwise recover, the full amount of such fee, commission, percentage, brokerage fee, gift or contingent fee.

20. Severability. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.

21. Integrated Agreement. This is an integrated Agreement and contains all of the terms, considerations, understandings and promises of the Parties. It shall be read as whole.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this Agreement in duplicate by its City Manager and attested to by its City Clerk under the authority of Resolution No. _____, adopted by the Council of the City of Roseville on the ____ day of _____, 20__, and RECRUITER has caused this Agreement to be executed.

RE: RFP#11-105 On-Call Executive Search Firms/Recruitment Consultants

Dear Ms. Hampton,

Thank you for considering Peckham & McKenney for Department Head, Assistant Department Head and other management position recruitments.

Peckham & McKenney, based in the City of Roseville, has successfully conducted numerous recruitments throughout California and western states. As a team of retired local government professionals, we are uniquely familiar with public sector positions, city services, the outreach necessary to attract excellent, long-term candidates, and the expectations for a successful search.

Attached is a detailed proposal in response to the City's RFP. Accordingly, we are excited for the opportunity to implement the processes that leads to the placement of candidates that "fit" the City's needs. As described in our attached proposal, Peckham & McKenney will perform the services described in the RFP #11-105, including the addenda.

We would be pleased to participate in an interview and/or call, or feel free to email us if there are any questions.

Sincerely,

A handwritten signature in blue ink that reads 'Tony'.

TAB A
PECKHAM & MCKENNEY EXECUTIVE SEARCH QUALIFICATIONS

Peckham & McKenney - Peckham & McKenney provides executive search services to local government agencies throughout the western United States and is headquartered in Roseville, California. Under the leadership of Anton “Tony” Dahlerbruch, continuing the values and principles as founded by Bobbi Peckham and Phil McKenney in June 2004, Peckham and McKenney has a strong and well-recognized reputation as a leader of successful local government recruitments. The team of Peckham & McKenney executive recruiters, based in northern and southern California, brings numerous decades of experience in local government and executive search to achieving effective placements that align with agency’s unique needs and interests. We are supported by administrative and research specialists, marketing and design professionals, a web technician, and distribution staff.

Since 2004, Peckham & McKenney has conducted more than 650 executive level recruitments in the states of Arizona, California, Colorado, Idaho, Nevada, New Mexico, Oregon, Utah, Washington, and Wyoming. On behalf of elected Councils, City Managers and Department Heads throughout the West, we have successfully placed hundreds of local government professionals including City and County Managers and Assistants, Police and Fire Chiefs, Department Heads, and mid-level Managers. In addition, Peckham & McKenney has placed hundreds of executives and organizational leaders in the areas of information technology, public safety (police and fire), community development and planning, economic development, public works and engineering, finance, human resources, city clerk, library services, parks and recreation, and community services.

Peckham & McKenney was established and performs on the premise that an executive search and consulting firm must be dedicated to providing its clients and candidates with professional service, responsive service, and a personal, hands-on approach. Our business philosophy centers upon the understanding that this is a “people” related industry and that attention to others’ needs are the key to providing effective customer service.

* In addition, Sterling Talent Solutions (www.sterlingtalentsolutions.ca) is utilized for executive and management background checks.

Bobbi (Peckham) McKenney and Phil McKenney additionally provide counsel.

Our Reputation - Peckham & McKenney is one of the most trusted and respected executive recruitment firms in the country. Time and again, we receive unsolicited compliments from clients and candidates relating to our integrity and high ethics, follow-through, and service. Not only are we committed to providing our clients with well-qualified candidates, but we also take pride in treating both our clients and candidates with utmost respect. This commitment has led to multi-year retainer agreements with a number of agencies, as well as numerous client and candidate testimonials about their experiences with us, which you can find on our website at www.PeckhamAndMcKenney.com.

“All about fit” - We recognize that every agency and community we serve is unique, and the candidate you ultimately select must “fit.” We take the time to become familiar with your community, organizational culture, and issues and challenges in order to identify and recruit the best candidates for your consideration. Nearly 89% of our placements stay in those positions for over five years, which is a testament to their “fit.”

Diversity Statement - Peckham & McKenney is committed to diversity in its broadest possible definition in every aspect of each executive recruitment our firm provides. Peckham & McKenney does not discriminate on the basis of race, color, religion, creed, sex/gender, national origin/ancestry, disability, pregnancy, sexual orientation (including transgender status), marriage or family status, military status, or age. We are fully compliant with all applicable federal and state employment laws and regulations in all of our recruitments.

Our average for female and minority placements is approximately 53%. Of that average, 37% of our placements are female. Firm founder Bobbi Peckham has a 30 year legacy as a champion of women seeking executive leadership positions within local government, succeeding in the field and promoting women as few others have. The Peckham & McKenney team continues to go to great lengths to support women, people of color, and all diversity in the management profession and in the recruitment and hiring processes.

In addition to all other outreach methods, our firm utilizes the National Diversity Network, which ensures placement of your opportunity with the following online platforms.

- African American Job Network
- Asian Job Network
- Disability Job Network
- Latino Job Network
- LGBT Job Network
- Retirement Job Network
- Veteran Job Network
- Women’s Job Network

Ethics Time and again, we receive unsolicited comments from clients and candidates relating to our integrity and high ethics.

- First, we believe in honesty. No client should ever appoint an individual without being fully knowledgeable of the candidate's complete background and history. Conversely, no candidate should ever enter into a new career opportunity without full disclosure of any organizational "issues."
- We strive to keep everyone involved in a recruitment process informed of the status. Not only do we provide regular updates to our clients, but we also have a reputation for keeping our candidates posted.
- As recruitment professionals, we do not recruit our placements -- *ever*. Should a placement of ours have an interest in a position for which we are recruiting, they may choose to apply. However, if they become a finalist, we ask that they speak to their supervisor to alert them of their intent.
- During an active engagement, we do not recruit staff from our client agencies for another recruitment. Nor do we "parallel process" a candidate, thereby pitting one client against another for the same candidate.
- We are retained only by client agencies and not by our candidates. While we have a reputation for being actively involved in the profession and providing training, workshops, and general advice to candidates, we represent only our clients. In addition, we *always* represent and speak of our clients in a positive manner; during the recruitment engagement as well as years after.

TAB D
RECRUITMENT UNDERSTANDING¹
THE SEARCH PROCESS

A standard search process for each recruitment takes 12- to 14-weeks. While we will customize the search and project schedule to fit the specific interests and needs of the City of Roseville, the search process by Peckham & McKenney typically includes the following steps:

Project Organization – Prior to beginning the recruitment, necessary documentation (insurance, business license, etc.) will be processed. We ask that the City identify a single point of contact that will serve as our liaison throughout the recruitment, providing necessary information to us, responding to our questions, and receiving and distributing all correspondence. A single point of contact will ensure timely and clear communication throughout the process.

We will request a conference call with the City Manager, hiring authority, and/or the appropriate City staff person(s) to discuss the process, listen to specific desires and expectations, and respond to any questions or concerns. We will discuss expected parameters of the search, the search timeline, and schedule future meeting dates. During this phase of the process, we will also discuss and determine with the City Manager or designee the extent of involvement of other individuals in the search process, reference and background checks of candidates, and the finalist interview process. Furthermore, during this phase, we will request compensation and benefits, organization charts, budget data, and high-resolution photos to be used in an attractive brochure to market the opportunity.

Your recruiter will provide recommendations on best practices as well as various other considerations. Please note that decisions on the extent of involvement of others as well as additional components to the finalist interview process such as preliminary reference checks can impact the search, search timeline, and potentially the cost of the recruitment process.

Development of Candidate Profile (virtual meeting #1) – This step provides for the development of the Candidate Profile(s) that will serve as a guide in the identification of potential candidates, outreach and recruitment efforts, screening and selection for the position. The Candidate Profile includes information relating to the City of Roseville; current and future issues and opportunities; expectations, goals, and objectives leading to the success of the new hire; and the background and experience, leadership style, skills and abilities, and personality traits of the ideal candidate. While the Candidate Profile is definitely and specifically tailored to each specific position, there will be basic, general city information that is included in every

¹ Please see the two Candidate Profiles (Sacramento County Deputy County Executive Public Safety & Justice and City of Hayward Assistant City Manager, attached to this Proposal, as examples of executive recruitments Peckham & McKenney has performed in the past.

Candidate Profiles; with concurrent or sequential recruitments, there will be economies of scale that may provide the City with fee reductions.

Your recruiter will develop the Candidate Profile following individual conversations with the City Manager, hiring authority, City's leadership and department team, and other individuals identified in the initial conference call (see Project Organization above).

The Candidate Profile will be provided to our point of contact for review. We ask that all revisions and corrections be provided to us in a timely manner in order to maintain the agreed-upon search timeline. Our marketing and design professional will then prepare an attractive marketing brochure incorporating the Candidate Profile. Upon completing the Candidate Profile, the brochure will be widely distributed, posted on the Peckham & McKenney website, and provided to the City for posting. Advertisements will be placed in the appropriate industry publications and/or websites, and our firm will assume responsibility for presenting your opportunity in an accurate and professional manner. Social media, including LinkedIn and other platforms, will be used as appropriate.

Recruitment –The main focus of our outreach will be direct phone contact with quality potential candidates. With decades of executive search experience, we have developed an extensive outreach database that is continuously updated and utilized. Our recruiting efforts will focus on direct and aggressive recruiting of individuals within the search parameters established during the Candidate Profile Development. We believe direct recruiting produces the most qualified candidates.

Throughout this active search process, we will regularly update the City of the recruitment status and share questions, concerns, and comments received from potential candidates as they consider the opportunity. By doing so, we “team” with the City to ensure that all issues and concerns of candidates are discussed and understood, thereby eliminating surprises once the resume filing deadline has occurred.

Applicants will be requested to submit an application consisting of a cover letter and resume. As applications are received, they will be promptly acknowledged within 48 hours, and we will personally respond to all inquiries. Once the resume filing deadline has passed, we will update the City on the status of the recruitment, the number of resumes received, and our intent for preliminary interviews.

Preliminary Interviews – Upon our review of the resumes received, supplemental questionnaires will be sent to candidates who appear most in alignment with the Candidate Profile. In the supplemental questionnaire, applicants will be asked to address a few questions pertaining to the position that are based on information learned during Candidate Profile Development. The supplemental questionnaire is intended, in part, to ascertain the applicant's familiarity with the City and writing ability. Overall, the supplemental questionnaire is utilized to ascertain the most qualified applicants for the position.

Following a thorough review of the supplemental questionnaires, we will conduct a telephone conversation (“preliminary interview”) with the individuals that most closely align with the Candidate Profile. Internet research will also be conducted so that we may probe the candidate regarding any areas of concern.

Candidates will be advised of the search schedule and updated regularly as to their status.

Recommendation of Candidates/Selection of Finalists (virtual meeting #2) – A bound report will be provided to the City Manager and/or the appropriate staff prior for discussion of our recommendation of leading candidates for the City to consider for an interview. This report will include a full listing of all candidates who applied for the position, as well as the cover letters, resumes, and supplemental materials of the recommended group of candidates for further consideration. We may include a first and second tier of candidates within our recommendation.

The purpose of the meeting is to provide an overview of each recommended candidate, as well as share any concerns or negative information, in order for the City to select finalists to interview. Once a group of finalists has been determined, we will revisit early decisions relating to the finalist interview process.

A one-day finalist interview process is standard for initial finalist interviews (with the leading 4 to 8 candidates), however, the City may want to consider multiple interview panels, tours, meet-and-greet sessions, one-on-one interviews, presentations, or other selection options. Your recruiter will again provide recommendations on the finalist interview process.

Peckham & McKenney will notify all candidates of their status. Those candidates selected as finalists will be notified and provided with all necessary information to attend finalist interviews with the City. We will prepare an interview schedule, provide a menu of potential interview questions, and confirm with our point of contact all necessary details. It is the City’s responsibility to assemble the interview panel.

If necessary, finalists will make their own travel plans and reservations. It is customary that the City reimburse finalists for round-trip airfare, car rental, and lodging necessary to attend the interviews with the City. We will confirm this with the City representatives at our meeting to recommend candidates.

Finalist Interview Process (on-site or virtual meeting #3) – Your recruiter will provide facilitation during the finalist interview process. An orientation session will be held at the beginning of the process, and we will facilitate a review and discussion of the finalists at the end of the day. Interview materials, including suggested interview questions, evaluation and ranking sheets will be provided. Again, a standard finalist interview process of the leading 4 to 8 candidates is typically conducted within one day. Should the process desired by the City require more than 1 day with your recruiter, an additional fee will be charged. Typically, the

City will then narrow the applicant pool to 2 to 3 candidates and independently conduct the second in-person, one-on-one interviews in order to make a final selection.

Qualification – Once the finalist candidate has been selected and a conditional offer has been made by the City of Roseville, a thorough background check will be conducted that is compliant with the Fair Credit Reporting Act and Investigative Consumer Reporting Agencies Act. Peckham & McKenney utilizes the services of Sterling Talent Solutions (www.sterlingtalentsolutions.ca), the world's largest company focused entirely on conducting background checks. A background check of this nature necessitates a candidate having a conditional offer of employment. This investigation will verify degree verification; certifications; and criminal, civil, credit, and motor vehicle records. We encourage our clients to consider further vetting the candidate through a Department of Justice LiveScan (California clients) in order to ensure that all known criminal history records (beyond seven years) are investigated.

Your recruiter will also personally contact professional references, and a full report will be provided. This comprehensive process ensures that only the most thoroughly screened candidate is hired. In addition, negotiation assistance will be provided as requested by the City of Roseville.

Peckham & McKenney's qualification process of internet-based research, background checking through Sterling Talent Solutions, and reference checking has proven successful for our clients through the years. In addition to relying on our services, clients are encouraged to utilize the background checking protocols they normally would use in hiring a position of this type. Enhanced reference checking and background investigation, if any, beyond the scope of this proposal is the City's responsibility.

Our ultimate goal is to exceed your expectations and successfully place a candidate who "fits" your organization and community's needs now and into the future.

TABLE
PROJECT PLAN
SEARCH SCHEDULE

This sample schedule anticipates a 14-week process for a search process. Your recruiter is responsible for each task of the search process. The search process can/will be tailored to achieve the interests of the City of Roseville relative to receiving input in preparation of the Candidate Profile and the interview process.

<u>ACTIVITY</u>	<u>TIME FRAME</u>
I. Project Organization • Conference call discussion of recruitment process • Formalize project schedule	Pre-Recruitment
II. Development of Candidate Profile • <u>Virtual meeting #1</u> with the City to discuss Candidate Profile • Develop Candidate Profile/Marketing Brochure and obtain approval • Develop advertising and recruiting plan	Two Weeks
III. Recruitment • Advertise, network, and electronically post in appropriate platforms • Distribute candidate profile to industry professionals • Post opportunity on City and Peckham & McKenney website • Focused outreach to individuals within the parameters of the Candidate Profile • Respond to all inquiries and acknowledge all resumes received within 48 hours	Six Weeks
IV. Preliminary Interviews • Screen resumes and conduct Internet research • Identify leading candidates and request supplemental questionnaires • Review supplemental questionnaires • Conduct preliminary interviews with leading candidates	Two Weeks
V. Recommendation of Candidates/Selection of Finalists • Provide written recommendation of candidates to the City • <u>Virtual meeting #2</u> to provide overview of recommended candidates • City selects finalist candidates for finalist interview process • Peckham & McKenney notifies all candidates of status in recruitment process	One Week
VI. Finalist Interview Process • <u>On-site or virtual meeting #3</u> to facilitate finalist interviews • Assist City throughout process and provide recommendations • City selects candidate or leading 2-3 candidates for further consideration • City conducts second interview process	Two Weeks
VII. Qualification • Conduct thorough background and reference checks on leading candidate • Provide negotiation assistance • Exceed expectations and successfully place candidate who “fits.”	One Week

Behind the scenes, Peckham & McKenney’s graphics designer, website/social media consultant, and office/administrative team support your recruiter in aspects of each search; your one point of contact throughout each search and the person responsible for each search is

the recruiter conducting the search. In support of the recruitment, we ask the City of Roseville to a) please be responsive and timely in communications, review of documents, etc., in order to help us maintain the schedule and b) provide a flip chart, easel and markers for the post-interview debriefing.

In today's competitive recruiting environment, our goal is to have a process that is efficient and effective; as such, we ask that the City of Roseville work with us to identify future meeting dates that will be published in the Candidate Profile. This will ensure that the momentum of the search process is consistent and that all parties are available thereby leading to a successful and timely outcome. At the conclusion of the process, we also respectfully request that the written public announcement of the appointment attribute the recruitment to Peckham & McKenney Executive Search.

TAB F **COST OF SERVICES**

Cost of Services

Peckham & McKenney is unique among recruiting firms for several reasons including having a fixed all-inclusive fee. Over years of experience, we have found that an all-inclusive fee is simpler, cost-effective, and efficient. This also provides that the client knows the full, complete fee for our service; we do not invoice “reimbursables” for any portion of the recruitment nor do we provide hourly rates or monthly invoices (please see below Process of Payment).

Because of the amount of outreach and direct work that will be necessary to find candidates in this very difficult job market, recognizing the generality of the positions in the City’s RFP, and acknowledging that searches may be concurrent, sequential and/or at various times through 2027, our fixed fee to conduct the search process for each position will range between \$24,500 and \$31,500. Our all-inclusive fee includes all professional fees and expenses (out-of-pocket costs associated with advertising, consultant travel, administrative support / printing / copying / postage / materials, telephone / technology, partial background checks on recommended candidates, and full background check on selected finalist only for each position).

The fee quoted above is for a full recruitment process as described in The Search Process, including 3 to 4 days of meetings. The first virtual meeting (1 to 2 days) is to develop the Candidate Profile; the second virtual meeting (1 day) is to provide a recommendation of candidates; and the third on-site or virtual meeting (1 day) is to facilitate finalist interviews.

Additional Service Costs

The following “menu” details fees for additional requested services. Some fees may be negotiated.

Additional meeting day (up to 4 days as detailed herein are included)	\$500 - \$1,000/mtg + travel exp
Each additional full background check	\$600/each
Community or staff survey	\$1,500
Additional placement within organization*	\$5,000 (if selected within 1 year)

*If the City of Roseville hires an additional candidate from among those recommended for another position within one year of the close of each recruitment, a fee of \$5,000 will be charged to the City.

Process of Payment

One-third of the all-inclusive fee is due as a retainer upon execution of the agreement. This retainer covers upfront and necessary expenses incurred by Peckham & McKenney on the City’s behalf for recruitment preparation, Candidate Profile preparation and advertising. If the retainer is not received by Peckham & McKenney within 30 days of execution of the agreement, we will suspend the recruitment process until payment is received. The second third of the full payment will be invoiced one month from contract execution, and it is due

within 30 days following the invoice date. The final third of the full payment will be invoiced two months from contract execution, and it is due within 30 days following the invoice date.

If the City of Roseville requires a different payment schedule, this must be agreed upon within the contract. Peckham & McKenney expects payment of all invoices in a timely manner.

Placement Guarantee Our placement record is particularly strong in that 89% of the candidates we have placed remain in those positions for over five years. In the unlikely event, however, that a candidate recommended by our firm (external candidates only) leaves your employment ***for any reason within the first year from the date of appointment*** (except in the event of budgetary cutbacks, promotion, position elimination, or illness/death), we agree to provide a one-time replacement at half (50%) of the fee.

Reopening the Recruitment Throughout the recruitment process, all of our efforts are made to ensure a successful placement of a candidate who fits the Candidate Profile. It is extremely rare that our recruitment process fails to produce a preferred candidate in the first instance. If the search process, however, does not produce a successful placement, and there is an understanding that the City of Roseville and Peckham & McKenney each take appropriate responsibility for the outcome, we will conduct a second recruitment process for each position at 50% of the respective search.

As Albert Einstein said, the definition of insanity is “doing the same thing over and over again and expecting different results.” Prior to reopening the recruitment again, we will thoroughly review with the City what adjustments in approach, compensation, or other variables may be necessary to ensure a successful outcome.

RESOLUTION NO. 23-004

APPROVING AN AGREEMENT FOR RECRUITMENT SERVICES, BY AND BETWEEN
THE CITY OF ROSEVILLE AND RALPH ANDERSEN & ASSOCIATES, AND
AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF
ROSEVILLE

WHEREAS, an Agreement for Recruitment Services, by and between the City of
Roseville and Ralph Andersen & Associates, has been reviewed by the City Council; and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that
said agreement is hereby approved and that the City Manager is authorized to execute it on
behalf of the City of Roseville.

PASSED AND ADOPTED by the Council of the City of Roseville this ____ day of
_____, 2023, by the following vote on roll call:

AYES COUNCILMEMBERS:

NOES COUNCILMEMBERS:

ABSENT COUNCILMEMBERS:

MAYOR

ATTEST:

City Clerk

AGREEMENT FOR RECRUITMENT SERVICES

THIS AGREEMENT is made and entered into this ____ day of _____, 20__, by and between the City of Roseville, a municipal corporation (“CITY”), and the recruitment firm Ralph Andersen & Associates, a California corporation (“RECRUITER”); and

WITNESSETH:

WHEREAS, CITY from time to time is in need of executive recruitment and search firms to provide recruitment and search services and assistance to the Roseville Human Resources Department (“HR”); and

WHEREAS, RECRUITER is willing to provide such services on a per recruitment task-based basis; and

NOW, THEREFORE, the Parties agree as follows:

1. Scope of Services and Duties. CITY retains RECRUITER to provide recruitment and search services from time to time upon the request of HR to advise, assist, and search for candidates for CITY employment, as more fully described in EXHIBIT “A” attached hereto and incorporated herein by reference.
2. Specific Work Assignments. RECRUITER shall receive work assignments from HR on an as-needed basis. The work assignments shall generally be communicated by written notice from HR to RECRUITER. If a work assignment is communicated orally, RECRUITER shall provide a written confirmation to HR describing the work assignment. CITY reserves the right to unilaterally assign similar work to other recruitment firms, as it deems prudent, and the use of RECRUITER shall in no way be considered an exclusive agreement to provide or use similar services. CITY makes no specific guarantee of a minimum or maximum number of hours or amount of tasks, assignments, or services. The assignment of any work hereunder is expressly contingent upon the availability of funds.
3. Fees for Services. For services performed under this Agreement, CITY shall pay RECRUITER in accordance with the fee schedules and rates included in EXHIBIT “A” and that in no event, inclusive of any and all fees, costs, reimbursable expenses, or any other charge, shall any single assignment and recruitment exceed thirty-two thousand dollars (\$32,000).
4. Statements and Payments. RECRUITER shall provide invoices to the CITY for all fees and expenses. The invoice(s) shall be itemized to include the task completed and a description of the services performed. Invoices shall be considered due and payable upon receipt, and shall be overdue 30 days after receipt.
5. Term; Termination; Amendments. This Agreement shall be effective upon approval by the Roseville City Council and shall continue in effect for a period of five (5) years, or until terminated by either Party. This Agreement may be terminated by CITY, with or without

cause, at any time upon written notice. RECRUITER may terminate this Agreement only upon the consent of CITY or upon 60 days written notice. Upon termination, RECRUITER shall turn over all client files to CITY. There shall be no amendment or modification to this Agreement except by written agreement between the Parties.

6. Independent Contractor. RECRUITER, inclusive of its agents, officers, employees, volunteers, independent contractors, and subcontractors, shall act as an independent contractor, and covenants and agrees that it will conduct itself consistent with such status, that it will neither hold itself out as, nor claim to be, an officer or employee of CITY by reason of this Agreement.

RECRUITER and CITY agree that: (a) RECRUITER is free from the control and direction of CITY in connection with the performance of the work; (b) RECRUITER is providing services directly to CITY; (c) RECRUITER has and will maintain at all relevant times a business license; (d) RECRUITER maintains a business location that is separate from CITY; (e) RECRUITER is customarily engaged in an independently established business of the same nature as that involved in the work performed hereunder; (f) RECRUITER actually contracts with other businesses to provide the same or similar services and maintains a clientele without restrictions from CITY; (g) RECRUITER advertises and holds itself out to the public as available to provide the same or similar services; (h) RECRUITER provides its own tools, vehicles, and equipment to perform the services; (i) RECRUITER has negotiated its own rates; (j) RECRUITER set its own hours and location of work in accomplishing CITY's on-call needs; and (k) RECRUITER has the right to control the manner and means of accomplishing the result desired and exercises its own expert independent judgement.

7. Insurance. RECRUITER agrees to continuously maintain, in full force and effect, the following minimum policies of insurance during the term of this Agreement.

<u>COVERAGE</u>	<u>LIMITS OF LIABILITY</u>
Workers' Compensation	Statutory
Commercial General Liability	\$1,000,000 each occurrence \$2,000,000 aggregate Personal Injury: \$1,000,000 each occurrence \$2,000,000 aggregate
Automobile Liability	\$1,000,000 combined single limit
Professional Liability (errors and omissions)	\$1,000,000 per claim \$2,000,000 aggregate

a. Form. RECRUITER shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made

basis is subject to the approval of Risk Management and the City Attorney.

b. Additional Insureds. RECRUITER shall also provide a separate endorsement form or section of the policy showing CITY, its officers, agents, employees and volunteers as additional insureds for each type of coverage, except for Workers' Compensation and Professional Liability. Such insurance shall specifically cover the contractual liability of RECRUITER. The additional insured coverage under the RECRUITER's policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy, and shall not seek contribution from CITY's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office ("ISO") CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.

c. Cancellation/Modification. RECRUITER shall provide ten (10) days written notice to CITY prior to cancellation or modification of any insurance required by this Agreement.

d. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of CITY (if agreed to in a written contract) before CITY's own insurance shall be called upon to protect it as a named insured.

e. Subcontractors. RECRUITER agrees to include in its contracts with all subcontractors the same requirements and provisions of this Agreement, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor's work. Furthermore, RECRUITER shall require its subcontractors to agree to be bound to RECRUITER and CITY in the same manner and to the same extent as RECRUITER is bound to CITY under this Agreement. Additionally, RECRUITER shall obligate its subcontractors to comply with these same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of CITY's indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request.

f. Self-Insured Retentions. All self-insured retentions ("SIR") must be disclosed to Risk Management for approval and shall not reduce the limits of liability.

Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or CITY. CITY reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

g. Waiver of Subrogation. RECRUITER hereby agrees to waive subrogation which any insurer of RECRUITER may acquire from RECRUITER by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability or Automobile Liability

policy. All Workers Compensation, Commercial General Liability and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of CITY, its officers, agents, employees and volunteers for all work performed by RECRUITER, its employees, agents and subcontractors.

h. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve RECRUITER of liability in excess of such coverage, nor shall it preclude CITY from taking such other actions as are available to it under any other provisions of this Agreement or law.

8. Indemnification. To the fullest extent allowed by law, RECRUITER shall defend, indemnify, and save and hold harmless CITY, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from or arising out of RECRUITER's willful misconduct or negligent act or omission while engaged in the performance of obligations or exercise of rights created by this Agreement, except those matters arising from CITY's sole negligence or willful misconduct. The parties intend that this provision shall be broadly construed.

RECRUITER agrees to defend and indemnify CITY if, despite the parties intent and practice, any venue, agency, or court with competent jurisdiction determines that RECRUITER and/or any of its agents, officers, employees, volunteers, independent contractors, or subcontractors, are characterized as employee(s) of CITY.

RECRUITER's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.

9. Notice. All notices, invoices, reports or other communication required by this Agreement shall be properly given if delivered in person, or sent by first class mail, facsimile, or overnight delivery to the following addresses:

CITY:

Human Resources Department
311 Vernon Street
Roseville, CA 95678

RECRUITER

Heather Renschler, President/CEO
5800 Stanford Ranch Road, Suite 410
Rocklin, CA 95765

Either party may amend its address for notice by giving notice to the other party.

10. Assignment. RECRUITER is employed to perform unique personal services. RECRUITER shall not assign this Agreement without the prior written consent of CITY. RECRUITER shall not employ or otherwise incur any obligation to pay other specialists or experts for services in connection with this Agreement, without prior written consent of CITY.

11. Attorney's Fees; Venue; Governing Law. If either party commences any legal action against the other party arising out of this Agreement or the performance hereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorney's fees. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.

12. Ability to Perform. RECRUITER agrees and represents that it has the time, ability and professional expertise to perform the services required under this Agreement.

13. Compliance with Laws. RECRUITER shall comply with all federal, state and local laws, ordinances and policies as may be applicable to the performance of services under this Agreement.

14. Governing Agreement. In the event of any conflict between this Agreement and its EXHIBITS, the provisions of this Agreement shall govern. In the event of any conflict between any of the EXHIBITS, the provisions of the first in order of attachment shall govern.

15. Successors in Interest. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.

16. Copyright, Ownership and Use of Materials. All tangible material ("Material") created or delivered pursuant to this Agreement is considered a work made for hire under the Copyright Act. To the extent such Material does not qualify as a work made for hire, RECRUITER hereby assigns to CITY all right, title, and interest, including but not limited to all copyrights, in all Material created by RECRUITER in its performance under this Agreement. Material constitutes the scope of work outlined in Exhibit A and attached hereto, and all written and other tangible expressions, including but not limited to, drawings (including computer aided drawings), papers, documents, reports, surveys, renderings, exhibits, sketches, maps, models, prints, paintings or photographs, in any and all media or formats in which such materials have been created or are maintained. All Material furnished by RECRUITER is, and shall remain, the property of CITY.

RECRUITER shall execute any documents necessary to effectuate such assignment. In the event that RECRUITER uses, employs, designates, or retains any person or entity who is not an employee of RECRUITER, to perform any work required of it pursuant to this Agreement, RECRUITER shall require said person or entity to execute an agreement containing the preceding paragraph.

17. Records. RECRUITER and its subcontractors shall maintain all files and records relating to the services performed hereunder during the term of this Agreement and for a period of not less than one (1) year after the date of termination or expiration. Provided, however, that in the event of litigation or settlement of claims arising from the performance of this Agreement, RECRUITER and its subcontractors shall maintain all files and records until such litigation, appeals or claims are resolved. Duly authorized representatives of CITY shall have right of

access during normal business hours and after reasonable notice to RECRUITER's and subcontractors' files and records relating to the services performed hereunder, and may review and copy the files and records at appropriate stages during performance of the services and during the one (1) year period following termination or expiration of this Agreement. RECRUITER shall include the provisions in its contracts with all subcontractors.

18. Time is of the Essence. Time is of the essence of this Agreement.

19. Representations and Warranties. RECRUITER warrants that it has not employed or retained any company or person, other than a bona fide employee working for RECRUITER, to solicit or secure this Agreement, and that it has not paid or agreed to pay any company or person, other than a bona fide employee, any fee, commission, percentage, brokerage fee, gift or any other consideration, contingent upon or resulting from the award or making of this Agreement. For breach or violation of this warranty, CITY shall have the right to terminate as void this Agreement, without liability, or, in its discretion, to deduct from the Agreement price or consideration, or otherwise recover, the full amount of such fee, commission, percentage, brokerage fee, gift or contingent fee.

20. Severability. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.

21. Integrated Agreement. This is an integrated Agreement and contains all of the terms, considerations, understandings and promises of the Parties. It shall be read as whole.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this Agreement in duplicate by its City Manager and attested to by its City Clerk under the authority of Resolution No. _____, adopted by the Council of the City of Roseville on the ____ day of _____, 20__, and RECRUITER has caused this Agreement to be executed.

Re: RFP #11-015 Executive Search Firms/Recruitment Consultants

Dear Ms. Peterson:

Ralph Andersen & Associates is pleased to submit our proposal to provide executive search services for the City of Roseville. Currently, Ralph Andersen & Associates has a master contract with the City of Roseville for On-Call Executive Recruitment Services that is due to expire January 9, 2023. The firm is also familiar with the area having an office in the neighboring community of Rocklin.

The executive recruitment techniques used by Ralph Andersen & Associates have been developed and used successfully with hundreds of clients for more than 50 years. With the reputation of Ralph Andersen & Associates you will have the opportunity to consider candidates located throughout the State of California, the Western Region, as well as from across the United States.

Our mission and commitment to the City of Roseville is to provide the highest quality of search services in the industry as measured by the comprehensive nature of our search process, the caliber of candidates we present, and the success of those candidates in our client's organizations.

The City of Roseville will have Ms. Heather Renschler, President/CEO of Ralph Andersen & Associates, as the Project Director. Ms. Renschler is legally able to bind the firm and is reachable at:

Ms. Heather Renschler
President/CEO
Ralph Andersen & Associates
5800 Stanford Ranch Road, Suite 410
Rocklin, California 95765
(916) 630-4900
fax (916) 630-4911
cell (916) 804-2885
email heather@ralphandersen.com

We are proud of how we market and represent our clients; all of the design, graphics, and printing of our marketing material is done in-house so we can control the quality and production timing. Samples included are the City of Manhattan Beach (Chief of Police) and the City of Scottsdale, Arizona (City Treasurer/CFO). For additional examples of our brochures, please visit the Career Opportunities page of our website at www.ralphandersen.com.

The Project Director, Ms. Heather Renschler, will perform the services and adhere to the requirements described in the City's RFP, including Addendum 1 dated September 9, 2022.

Thank you very much for your consideration of this proposal. We are ready to proceed upon notification of approval. You may reach me at (916) 630-4900 or more directly on my cell at (916) 804-2885 should you have any questions or need further clarification.

Sincerely,

RALPH ANDERSEN & ASSOCIATES

A. Firm Qualifications

Executive Summary

Attracting top talent has never been more complex and Ralph Andersen & Associates is highly qualified to assist the City of Roseville with recruiting for new high-level executive or hard to recruit positions. We have conducted more successful executive recruitments than any other firm since 1972. From helping you to create a competency-based interviewing framework for your new senior, executive, or other highly specialized position to assessing candidates and attracting top human capital, our search professionals offer an unparalleled depth of experience, national reach, and industry knowledge.

The City has requested our proposal to assist in the identification and recruitment of a highly qualified group of candidates for the new high-level executive or hard to recruit positions. In particular, the City is seeking a firm with the national reach and professional experience to clearly assess your organizational needs and formulate a strategy to deliver results.

At Ralph Andersen & Associates, we believe that gaining a complete understanding of our client's specific objectives and priorities is essential prior to launching any search assignment. This process includes the identification and incorporation of a variety of important details such as the candidate's desired skills and experience as well as the critical "soft skills" related to temperament, personality, management philosophy, and other factors that will ultimately determine the candidate's "fit" with the organization.

We begin each search by working closely with your leadership, stakeholders, staff, and, when appropriate, your community to ensure a complete picture of the desired candidate pool is developed. Our team-oriented approach matched with this 360-degree perspective means we ensure that a complete understanding of the organization's mission and culture translates into those specific traits and characteristics necessary to ensure the selected candidate is successful in the position.

We understand that the City expects aggressive, personalized outreach to identify a diverse and highly qualified applicant pool. We will begin with fully detailed profiles of the desired candidate's characteristics and build a recruitment strategy that is tailored to meet your specific needs. The resulting outreach and advertising campaign will incorporate the extensive use of personal outreach to recruit a diverse and highly qualified group of candidates.

Ralph Andersen & Associates has been providing practical, responsive executive search and management consulting services to the local public sector and related industries since 1972. With each new assignment, we earn our reputation as the nation's premier local government consulting organization.

- **Human Resources Consulting** — The firm provides a full range of contemporary human resources consulting including classification studies, compensation studies, benefits analysis, pay plan development, executive pay, and pay for performance. Key staff have proven success in working with labor groups and elected officials in identifying solutions and solving challenging problems. Services also include expert witness services for mediation and arbitration hearings. Our approach to consulting services is characterized by proven methods, extensive data collection, accurate analysis, and effective communication and messaging.

Services to be Completed by City Staff and/or Sub-Consultants

Ralph Andersen & Associates will not be using any Sub-Consultants in the performance of recruitments for the City of Roseville. We do, however, approach each search as a partnership with our municipal clients. We work together through various stages of the project.

The Project Director would need assistance from City staff in obtaining information to facilitate the development of the position profile and recruitment brochure. Depending on the position being recruited, assistance with setting up meetings and/or interviews with appropriate City staff or key stakeholders may also be needed.

Additionally, the City may also need to provide the following items:

- Current organization chart
- Updated position description
- Salary range and benefits package
- Relocation package – if available
- City electronic logo
- Pictures of the City of Roseville, Department, and staff (high resolution)
- Current budget information
- Current number of employees
- Opportunities and Challenges for the position (discussed during on-site visit)
- What the City of Roseville is looking for in ideal candidates (discussed during on-site visit)
- Education requirements, certifications, and years of required senior executive experience (discussed during on-site visit)
- Input from key stakeholders on ideal candidates (if requested by the City)
- The City of Roseville and its HR Representatives will review the search report on the top candidates as outlined in Task 5 and conduct finalist interviews as outlined in Task 6

Firm Organization

Ralph Andersen & Associates' organization chart is provided below. The firm's staff size has remained relatively consistent over the past five years and has ranged from its current size of 17 up to 22 employees.

- ⁽¹⁾Former City Manager
- ⁽²⁾Former Assistant City Manager
- ⁽³⁾Former Utility General Manager
- ⁽⁴⁾Former County Manager
- ⁽⁵⁾Former Chief of Police

Updated March 2022

Sub-Consultants / Sub-Contractors

Ralph Andersen & Associates will not be using any sub-consultants or sub-contractors.

D. Recruitment Understanding

The successful search process relies heavily on person-to-person contact to identify outstanding potential candidates and, in the evaluation phase, to gain a complete understanding of the background, experience, and management style of the top candidates. The executive recruitment techniques used by Ralph Andersen & Associates have been developed and used successfully with hundreds of clients for more than 50 years.

We feel that the key elements of the *full search* process, which can be tailored to fit the specific needs of the City and will include:

- Developing a comprehensive position profile based upon information obtained in various meetings with the City Manager, Human Resources Staff, and other designated staff as appropriate.
- Extensive personal outreach (both in person and via telephone) to highly qualified candidates in California, the Western United States, and nationally if desired.
- A marketing strategy that uses selected advertising to supplement the extensive candidate identification process, the Internet, and professional contacts throughout an expanded region.
- A screening process that narrows the field of candidates to those that most closely match the needs of the City and is based on screening interviews with the top candidates. Candidates' education, experience, and credentials are matched to the criteria established in the position profile.
- Candidates (if deemed qualified and viable by the Recruiter) would be screened via Zoom.
- Delivering a product in the form of a search report that recommends a top group of candidates and provides the decision-makers with detailed information about their backgrounds and experience.
- Assistance during the interview and selection process and in the negotiation of a compensation package.

Ralph Andersen & Associates has an outstanding reputation for being thorough and professional in the approach it takes in recruitments. Each candidate's match with the position is based on the individual's own set of professional experiences, management style, education and credentials, and overall fit with the organization and executive leadership.

Diversity, Gender Equity, and Social Media

Philosophical Approach / Match – Our approach to each recruitment is that we believe diversity is inclusive, not exclusive, and a successful search is one that offers a diverse pool of highly qualified candidates, regardless of ethnicity, gender or other personal characteristics. We also believe an equally important measure of recruitment success is whether the pool of candidates has gender balance.

More specifically, with many positions, we strongly believe in the concept of an organization having a “people person” at the helm of a department combined with the required technical attributes. These types of personal attributes also include a candidate’s ability to promote a healthy organization to the fullest and, of course, encouraging good work-life balance. In today’s competitive environment, top candidates are aspiring leaders with a strong public service focus, an appreciation for equity and diversity, technologically savvy, and willing to incorporate best practices. Additionally, we look for those individuals who have a proven track record of accomplishment with culture and organizational change in a thoughtful fashion. Also, we look for strategic alignment with the overall organizational needs.

Examples of Targeted Outreach for Minority Candidates – To increase the opportunity for a diverse candidate pool, we will do specific and targeted outreach. Two key examples would be the International Hispanic Network (IHN) and the National Forum for Black Public Administrators (NFBPA). We rely on these organizations to expand the candidate pool through specific advertisements and our outreach directly to their network.

Examples of Targeted Outreach for Gender Equity – To encourage gender equity in the candidate pool, we not only identify qualified women through our network but often use publications, newsletters, and websites specific to women in a particular profession. Additionally, the Project Director for the City of Roseville has been involved with Women in Government and often uses this source for distribution to an active and involved audience of local government professionals.

Knowing our Client’s Culture –We take great pride in knowing our client and the client’s culture. We work hard to match the needs of our client to candidates that submit for a specific position. We demonstrate this in the written text of the brochure and in our screening of candidates. A large part of our success is getting this right from the humanistic side.

Track Record of Women and Minority Placements – Currently, and over past decades, Ralph Andersen & Associates has a long track record of placing women and minority candidates in key executive level positions. Our Women and Minority Placements listing can be provided upon request. We are very proud of our success assisting our clients in this fashion.

Social Media – Ralph Andersen & Associates has a presence on LinkedIn, Twitter, and Facebook and uses social media to supplement our outreach to potential candidates. We subscribe to an added software, “Recruiter Professional Services,” that requires the payment of an annual paid subscription. This allows us to search, view bios, and ultimately contact candidates more directly through LinkedIn. Most recently we have been testing the ability to target specific groups and professions through paid “tweets.” We have also used this method to reach candidates in geographic regions.

Sample Brochures

As requested, the following recruitment brochure are attached for your review:

- City of Manhattan Beach, California – Chief of Police
- City of Scottsdale, Arizona – City Treasurer/CFO

To see additional samples of our recruitment brochures, as well as our digital presence, please visit the Career Opportunities page of our website at www.ralphandersen.com.

E. Project Plan

Work Plan

The City has requested assistance with recruiting outstanding candidates for openings for high-level executive or hard to recruit positions within the City. Recruitments will be under the direction of Ms. Heather Renschler, Project Director. Other members of the firm will assist as needed. *For simplicity, the tasks in this work plan have been detailed as the “designated position.”*

Task 1 – Review Project Management Approach

Ms. Heather Renschler will be the Project Director on these search assignments. The first task will include established individual and/or group video meetings with the Hiring Authority and others (done via the Zoom Technologies application), as appropriate, to finalize the recruiting and selection process. This will include discussion of the project management for each search, review of the work plan, confirmation of timing, and communication methods. Working collaboratively with the Hiring Authority and the City’s Human Resources staff, this task will result in a more definitive timetable.

As part of our overall approach to this search, the Project Director will deliver regular status reports at each stage of the search. In addition, the Project Director will be highly accessible and responsive to client requests and inquiries.

Task 2 – Develop Electronic Position Profile

The position profile for the “designated position” is the guide for the entire search process. The development of the profile includes the collection of technical information and recruitment criteria.

Technical Information

The Project Director will conduct video meetings with the Hiring Authority, Human Resources Department, key staff members, and others as directed by the City to gain an understanding of the experience and professional background requirements desired in the “designated position.” These meetings, all done via video conferencing, will also help the Search Consultant gain an understanding of the work environment and the issues facing the City of Roseville.

Recruitment Criteria

The recruitment criteria are those personal and professional characteristics and experiences desired in the “designated position.” The criteria should reflect the goals and priorities of the City of Roseville.

Subsequent to the development and adoption of the candidate profile, the technical information and recruitment criteria will be documented in an information brochure prepared by Ralph Andersen & Associates. The electronic brochure will be reviewed by the City in draft format, revised as appropriate, and published for use throughout the search.

Task 3 – Outreach and Recruiting

This task is among the most important of the entire search. It is the focus of the activities of the Search Consultant and includes specific outreach and recruiting activities briefly described below.

Outreach

An accelerated outreach and advertising campaign will be developed. It will include the placement of ads in professional publications and Internet sites appropriate for the position being recruited. Specific Internet sites related to government will be used as a method of extending the specific outreach in a short period of time.

Additionally, the advertisement and the full text of the position profile (the recruitment brochure) will be placed on Ralph Andersen & Associates' website, which is accessed by a large number of qualified candidates. This method of outreach to potential applicants provides a confidential source that is monitored by many key level executives on an on-going basis.

Candidate Identification

Ralph Andersen & Associates will use their extensive contacts to focus the recruiting effort. In making these contacts, the Search Consultant will target those individuals who meet the criteria set by the City. Each of the candidates identified through the recruiting efforts will be sent an information brochure. Candidates will also be contacted directly to discuss the position and to solicit their interest in being considered.

Both the outreach and recruiting activities will result in applications and resumes from interested candidates. As they are received, resumes will be acknowledged and candidates will be advised of the general timing of the search process. The following tasks involve the actual selection process, once all resumes have been received.

Task 4 – Candidate Evaluation

This task will be conducted following the application closing date. It includes the following specific activities:

Screening

All of the applications will be carefully reviewed. Those that meet the recruitment criteria and minimum qualifications will be identified and subject to a more detailed evaluation. This evaluation will include consideration of such factors as professional experience, and size and complexity of the candidate's current organization as compared to the candidate profile.

Preliminary Research and Internet Review

The research staff of Ralph Andersen & Associates, under the direction of the Project Director, will conduct preliminary research and internet review for those candidates identified as the most qualified as a result of the screening process. This level of research will be done on a limited number of candidates to learn more about each candidate's public profile and related information that is available on the internet.

Preliminary Interviews via Video Technology

The Search Consultant will conduct preliminary interviews with the top group of candidates identified through the screening and preliminary research and Internet review processes. The interviews are extensive and designed to gain additional information about the

candidates' experience, management style, and "fit" with the recruitment criteria. Interviews will be conducted using video technology.

The screening portion of the candidate evaluation process typically reduces a field of applicants to approximately four (4) to six (6) individuals. Those individuals will be reviewed with the Hiring Authority and/or Human Resources Staff prior to proceeding with the individual interviews.

Task 5 – Search Report

After completing Task 4, all documentation will be supplied to the City electronically. No hard copies will be supplied to the City for any phase of this search engagement. The Project Director will prepare detailed information for review including resumes uploaded to a file sharing system (i.e., DropBox or ShareFile). The Project Director will conduct a video conference call (using Zoom) with the Hiring Authority or other designated representative to review the search report on the top candidates. The report divides all of the candidates into four groups including 1) the top group of candidates that are recommended to be interviewed via video by the Hiring Authority; 2) a backup group to the first group; 3) no further consideration group; and 4) lacks minimum qualifications. The search report will include candidate resumes and cover letters. The results of preliminary media research will be included.

Important to note, Ralph Andersen & Associates does not conduct in-person screening interviews with candidates. All interviews are done using video technology. Also, we typically conduct references on the selected top candidate. Periodically, we may recommend conducting references on the top two candidates to assist the governing body in the final selection and is done in the final stages of the search process. Verifications such as credit check, DMV Report and civil/criminal are typically conducted once a contingent offer is made to the selected candidate unless the finalist candidate(s) give explicit approval and sign a release to proceed. Verifications are not conducted on all finalists other than more standard education check before interviewing (Round #1) with the City.

The results of the Search Report will be a confirmed group of finalist candidates that the Hiring Authority.

Task 6 – Selection

The final selection process will vary depending upon the desires of the City. The typical services provided by Ralph Andersen & Associates in the selection process are described briefly below:

- The Project Director will coordinate the selection process for the finalist group of candidates. This includes handling the logistical matters with candidates and with the City.
- Ralph Andersen & Associates will prepare an electronic interview booklet (uploaded to a file sharing program such as DropBox or ShareFile) that includes the resume, cover letter, and preliminary media research for each candidate. In addition, this electronic information will contain suggested questions and areas for discussion based upon the recruitment criteria. Electronic copies of the interview booklet will be provided in advance of the candidate interviews. No hard copies of material will be provided. Should the City desire hard copies, a supplemental cost may apply.
- The Project Director will facilitate the Interviews to assist the City through the selection process. This assistance will include an initial orientation, candidate introductions, and facilitation of discussion of candidates after all interviews have been completed.
- Additionally, verifications will be made on the top two candidates and will include education verifications, Department of Motor Vehicle check, and credit check. Due to legislation, criminal checks ("Ban the Box") are only permissible when a contingent offer of employment

is made. The results of these verifications will be discussed with the City at the appropriate time.

- Reference checks will be conducted on the top candidate. The results of these reference checks will be discussed with the City at the appropriate time during a closed session.
- As needed, the Search Consultant is available to provide assistance to the City in the final selection as may be desired. This assistance may include providing or obtaining any additional information desired to assist in making the final selection decision.

Task 7 – Negotiation

The Project Director is available to assist the City in negotiating a compensation package with the selected candidate. This includes recommendations on setting compensation levels.

Task 8 – Close Out

After the City has reached agreement with the individual selected for the position, the Search Consultant will close out the search. These activities will include advising all of the finalist candidates of the status of the search by telephone.

Project Timing

Ralph Andersen & Associates will complete the search within 75 to 90 days from the execution of the agreement to the presentation of candidates. Negotiation with the top candidate will take an additional week or two after finalist interviews. We are prepared to begin this search upon verbal notification to proceed.

A brief overview of the recruitment schedule is presented on below (schedule does not include transition time by Selected Candidate to join the City).

F. Cost Proposal

Search efforts for the City will be tailored to meet the unique needs of each recruitment effort. The following is a range of fees set forth by Ralph Andersen & Associates for searches to be initiated beginning January 2023:

City of Roseville Recruitment Process Beginning January 2023	
Responsible Entity	Fixed Fee for Professional Services and Expenses*
Department Director	\$27,000 – \$28,000
Department Director – Public Safety	\$27,000 – \$28,000
Department Director – Technology	\$26,000 – \$27,000
Department Deputy Director	\$24,500 – \$26,500
Ralph Andersen & Associates reserves the right to adjust fees on an annual basis. *Expenses included in this fixed fee include such items as advertising, consultant interaction (video and/or on-site meetings as needed) clerical, graphic design, research, and long-distance telephone charges. On top candidates, Internet and Lexis/Nexis searches will be conducted. Additionally, education verifications, DMV check, wants and warrants, civil and criminal litigation search, and credit check will be conducted on the top two candidates. Reference checks will be conducted on the top candidate.	

Invoicing for Services – Ralph Andersen & Associates will bill the City in four installments as follows:

- Following kick-off and finalization of recruitment brochure (Payment #1)
- After the closing date (Payment #2)
- After finalist interviews (Payment #3)
- Upon placement (Payment #4)

Progress payments will be due upon receipt.

Brochure – A full color informational brochure will be developed for the City. All pictures will be the responsibility of the City. The City will also be responsible for ensuring that there are no copyright restrictions on the photographs supplied to Ralph Andersen & Associates and that the City will agree to pay any and all related charges or fines if a copyright violation is incurred either during the search itself or subsequently.

Exception – Any candidate travel is the full responsibility of the City.

Ralph Andersen & Associates' Guarantee

Ralph Andersen & Associates offers the industry-standard guarantee on our search services. If within a one-year period after appointment the high-level executive or hard to recruit position for the City of Roseville resigns or is dismissed for cause, we will conduct another search free of all charges for professional services. The City of Roseville would be expected to pay for the reimbursement of all incurred costs.

Should the initial outreach efforts not result in a successful placement, Ralph Andersen & Associates will continue the outreach efforts until the ideal candidate is found. The City will be responsible for expenses based on actual receipts.

RESOLUTION NO. 23-005

APPROVING AN AGREEMENT FOR RECRUITMENT SERVICES, BY AND BETWEEN
THE CITY OF ROSEVILLE AND WILLIAM AVERY & ASSOCIATES, INC., AND
AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF
THE CITY OF ROSEVILLE

WHEREAS, an Agreement for Recruitment Services, by and between the City of
Roseville and William Avery & Associates, Inc., has been reviewed by the City Council; and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that
said agreement is hereby approved and that the City Manager is authorized to execute it on
behalf of the City of Roseville.

PASSED AND ADOPTED by the Council of the City of Roseville this ____ day of
_____, 2023, by the following vote on roll call:

AYES COUNCILMEMBERS:

NOES COUNCILMEMBERS:

ABSENT COUNCILMEMBERS:

MAYOR

ATTEST:

City Clerk

AGREEMENT FOR RECRUITMENT SERVICES

THIS AGREEMENT is made and entered into this ____ day of _____, 20__, by and between the City of Roseville, a municipal corporation (“CITY”), and the recruitment firm William Avery & Associates, Inc., a California corporation (“RECRUITER”); and

WITNESSETH:

WHEREAS, CITY from time to time is in need of executive recruitment and search firms to provide recruitment and search services and assistance to the Roseville Human Resources Department (“HR”); and

WHEREAS, RECRUITER is willing to provide such services on a per recruitment task-based basis; and

NOW, THEREFORE, the Parties agree as follows:

1. Scope of Services and Duties. CITY retains RECRUITER to provide recruitment and search services from time to time upon the request of HR to advise, assist, and search for candidates for CITY employment, as more fully described in EXHIBIT “A” attached hereto and incorporated herein by reference.
2. Specific Work Assignments. RECRUITER shall receive work assignments from HR on an as-needed basis. The work assignments shall generally be communicated by written notice from HR to RECRUITER. If a work assignment is communicated orally, RECRUITER shall provide a written confirmation to HR describing the work assignment. CITY reserves the right to unilaterally assign similar work to other recruitment firms, as it deems prudent, and the use of RECRUITER shall in no way be considered an exclusive agreement to provide or use similar services. CITY makes no specific guarantee of a minimum or maximum number of hours or amount of tasks, assignments, or services. The assignment of any work hereunder is expressly contingent upon the availability of funds.
3. Fees for Services. For services performed under this Agreement, CITY shall pay RECRUITER in accordance with the fee schedules and rates included in EXHIBIT “A” and that in no event, inclusive of any and all fees, costs, reimbursable expenses, or any other charge, shall any single assignment and recruitment exceed thirty-two thousand dollars (\$32,000).
4. Statements and Payments. RECRUITER shall provide invoices to the CITY for all fees and expenses. The invoice(s) shall be itemized to include the task completed and a description of the services performed. Invoices shall be considered due and payable upon receipt, and shall be overdue 30 days after receipt.
5. Term; Termination; Amendments. This Agreement shall be effective upon approval by the Roseville City Council and shall continue in effect for a period of five (5) years, or until terminated by either Party. This Agreement may be terminated by CITY, with or without

cause, at any time upon written notice. RECRUITER may terminate this Agreement only upon the consent of CITY or upon 60 days written notice. Upon termination, RECRUITER shall turn over all client files to CITY. There shall be no amendment or modification to this Agreement except by written agreement between the Parties.

6. Independent Contractor. RECRUITER, inclusive of its agents, officers, employees, volunteers, independent contractors, and subcontractors, shall act as an independent contractor, and covenants and agrees that it will conduct itself consistent with such status, that it will neither hold itself out as, nor claim to be, an officer or employee of CITY by reason of this Agreement.

RECRUITER and CITY agree that: (a) RECRUITER is free from the control and direction of CITY in connection with the performance of the work; (b) RECRUITER is providing services directly to CITY; (c) RECRUITER has and will maintain at all relevant times a business license; (d) RECRUITER maintains a business location that is separate from CITY; (e) RECRUITER is customarily engaged in an independently established business of the same nature as that involved in the work performed hereunder; (f) RECRUITER actually contracts with other businesses to provide the same or similar services and maintains a clientele without restrictions from CITY; (g) RECRUITER advertises and holds itself out to the public as available to provide the same or similar services; (h) RECRUITER provides its own tools, vehicles, and equipment to perform the services; (i) RECRUITER has negotiated its own rates; (j) RECRUITER set its own hours and location of work in accomplishing CITY's on-call needs; and (k) RECRUITER has the right to control the manner and means of accomplishing the result desired and exercises its own expert independent judgement.

7. Insurance. RECRUITER agrees to continuously maintain, in full force and effect, the following minimum policies of insurance during the term of this Agreement.

<u>COVERAGE</u>	<u>LIMITS OF LIABILITY</u>
Workers' Compensation	Statutory
Commercial General Liability	\$1,000,000 each occurrence \$2,000,000 aggregate Personal Injury: \$1,000,000 each occurrence \$2,000,000 aggregate
Automobile Liability	\$1,000,000 combined single limit
Professional Liability (errors and omissions)	\$1,000,000 per claim \$2,000,000 aggregate

a. Form. RECRUITER shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made basis is subject to the approval of Risk Management and the City Attorney.

b. Additional Insureds. RECRUITER shall also provide a separate endorsement form or section of the policy showing CITY, its officers, agents, employees and volunteers as additional insureds for each type of coverage, except for Workers' Compensation and Professional Liability. Such insurance shall specifically cover the contractual liability of RECRUITER. The additional insured coverage under the RECRUITER's policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy, and shall not seek contribution from CITY's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office ("ISO") CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.

c. Cancellation/Modification. RECRUITER shall provide ten (10) days written notice to CITY prior to cancellation or modification of any insurance required by this Agreement.

d. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of CITY (if agreed to in a written contract) before CITY's own insurance shall be called upon to protect it as a named insured.

e. Subcontractors. RECRUITER agrees to include in its contracts with all subcontractors the same requirements and provisions of this Agreement, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor's work. Furthermore, RECRUITER shall require its subcontractors to agree to be bound to RECRUITER and CITY in the same manner and to the same extent as RECRUITER is bound to CITY under this Agreement. Additionally, RECRUITER shall obligate its subcontractors to comply with these same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of CITY's indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request.

f. Self-Insured Retentions. All self-insured retentions ("SIR") must be disclosed to Risk Management for approval and shall not reduce the limits of liability.

Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or CITY. CITY reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

g. Waiver of Subrogation. RECRUITER hereby agrees to waive subrogation which any insurer of RECRUITER may acquire from RECRUITER by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability or Automobile Liability policy. All Workers Compensation, Commercial General Liability and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of CITY, its officers, agents, employees and volunteers for all work performed by RECRUITER, its employees, agents and subcontractors.

h. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve RECRUITER of liability in excess of such coverage, nor shall it preclude CITY from taking such other actions as are available to it under any other provisions of this Agreement or law.

8. Indemnification. To the fullest extent allowed by law, RECRUITER shall defend, indemnify, and save and hold harmless CITY, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from or arising out of RECRUITER's willful misconduct or negligent act or omission while engaged in the performance of obligations or exercise of rights created by this Agreement, except those matters arising from CITY's sole negligence or willful misconduct. The parties intend that this provision shall be broadly construed.

RECRUITER agrees to defend and indemnify CITY if, despite the parties intent and practice, any venue, agency, or court with competent jurisdiction determines that RECRUITER and/or any of its agents, officers, employees, volunteers, independent contractors, or subcontractors, are characterized as employee(s) of CITY.

RECRUITER's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.

9. Notice. All notices, invoices, reports or other communication required by this Agreement shall be properly given if delivered in person, or sent by first class mail, facsimile, or overnight delivery to the following addresses:

CITY:

Human Resources Department
311 Vernon Street
Roseville, CA 95678

RECRUITER

Bill Avery, Owner/Principal
16 Lyndon Avenue, Suite 200
Los Gatos, CA 95030

Either party may amend its address for notice by giving notice to the other party.

10. Assignment. RECRUITER is employed to perform unique personal services. RECRUITER shall not assign this Agreement without the prior written consent of CITY. RECRUITER shall not employ or otherwise incur any obligation to pay other specialists or experts for services in connection with this Agreement, without prior written consent of CITY.

11. Attorney's Fees; Venue; Governing Law. If either party commences any legal action against the other party arising out of this Agreement or the performance hereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorney's fees. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.

12. Ability to Perform. RECRUITER agrees and represents that it has the time, ability and professional expertise to perform the services required under this Agreement.

13. Compliance with Laws. RECRUITER shall comply with all federal, state and local laws, ordinances and policies as may be applicable to the performance of services under this Agreement.

14. Governing Agreement. In the event of any conflict between this Agreement and its EXHIBITS, the provisions of this Agreement shall govern. In the event of any conflict between any of the EXHIBITS, the provisions of the first in order of attachment shall govern.

15. Successors in Interest. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.

16. Copyright, Ownership and Use of Materials. All tangible material ("Material") created or delivered pursuant to this Agreement is considered a work made for hire under the Copyright Act. To the extent such Material does not qualify as a work made for hire, RECRUITER hereby assigns to CITY all right, title, and interest, including but not limited to all copyrights, in all Material created by RECRUITER in its performance under this Agreement. Material constitutes the scope of work outlined in Exhibit A and attached hereto, and all written and other tangible expressions, including but not limited to, drawings (including computer aided drawings), papers, documents, reports, surveys, renderings, exhibits, sketches, maps, models, prints, paintings or photographs, in any and all media or formats in which such materials have been created or are maintained. All Material furnished by RECRUITER is, and shall remain, the property of CITY.

RECRUITER shall execute any documents necessary to effectuate such assignment. In the event that RECRUITER uses, employs, designates, or retains any person or entity who is not an employee of RECRUITER, to perform any work required of it pursuant to this Agreement, RECRUITER shall require said person or entity to execute an agreement containing the preceding paragraph.

17. Records. RECRUITER and its subcontractors shall maintain all files and records relating to the services performed hereunder during the term of this Agreement and for a period of not less than one (1) year after the date of termination or expiration. Provided, however, that in the event of litigation or settlement of claims arising from the performance of this Agreement, RECRUITER and its subcontractors shall maintain all files and records until such litigation, appeals or claims are resolved. Duly authorized representatives of CITY shall have right of access during normal business hours and after reasonable notice to RECRUITER's and subcontractors' files and records relating to the services performed hereunder, and may review and copy the files and records at appropriate stages during performance of the services and during the one (1) year period following termination or expiration of this Agreement. RECRUITER shall include the provisions in its contracts with all subcontractors.

18. Time is of the Essence. Time is of the essence of this Agreement.

19. Representations and Warranties. RECRUITER warrants that it has not employed or retained any company or person, other than a bona fide employee working for RECRUITER, to solicit or secure this Agreement, and that it has not paid or agreed to pay any company or person, other than a bona fide employee, any fee, commission, percentage, brokerage fee, gift or any other consideration, contingent upon or resulting from the award or making of this Agreement. For breach or violation of this warranty, CITY shall have the right to terminate as void this Agreement, without liability, or, in its discretion, to deduct from the Agreement price or consideration, or otherwise recover, the full amount of such fee, commission, percentage, brokerage fee, gift or contingent fee.

20. Severability. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.

21. Integrated Agreement. This is an integrated Agreement and contains all of the terms, considerations, understandings and promises of the Parties. It shall be read as whole.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this Agreement in duplicate by its City Manager and attested to by its City Clerk under the authority of Resolution No. _____, adopted by the Council of the City of Roseville on the ____ day of _____, 20__, and RECRUITER has caused this Agreement to be executed.

Carmen Avalos, City Clerk
City of Roseville
311 Vernon Street
Roseville, CA 95678

Dear Ms. Avalos

Thank you for the opportunity to submit our proposal in consideration for executive recruitment services for the City of Roseville. We feel well suited to fulfill your executive search requirements based on our track record of successful recruitments, our service approach, and overall recruitment expertise.

William Avery & Associates, Inc. (Avery Associates) is a successful and service focused Management Consulting firm based in Los Gatos, California. Incorporated in 1982, the firm specializes in Executive Search, Labor Relations and Human Resources/Management Consulting.

The firm currently includes two Principals and several key consultants. Bill Avery, the founder of Avery Associates, heads and manages the firm. He oversees the Labor Relations practice and is heavily involved in the search business including leading key searches. Paul Kimura focuses on and manages the Executive Search and Recruitment practice. Key staff members include Bill Lopez and Kristi Ward, who support the search practice and the firm's administrative staff includes Tomi Ewing and Jackie Collins. Temporary staff as needed augments the team.

Avery Associates is an executive recruitment firm that conducts searches for senior level personnel in the areas of municipal, county and special district management. Our collective background includes executive experience in the public sector and extensive experience in municipal recruitment. On an annual basis we complete 50-60 searches at all executive levels of local government.

PROPOSAL FOR THE CITY OF ROSEVILLE RECRUITMENT FOR EXECUTIVE SEARCH SERVICES

William Avery & Associates, Inc. – Overview

William Avery & Associates, Inc. (Avery Associates) is a successful and service focused Management Consulting firm based in Los Gatos, California. Incorporated in 1982, the firm specializes in Executive Search, Labor Relations and Human Resources/Management Consulting.

The firm currently includes two Principals and several key consultants. Bill Avery, the founder of Avery Associates, heads and manages the firm. He oversees the Labor Relations practice and is heavily involved in the search business including leading key searches. Paul Kimura focuses on and manages the Executive Search and Recruitment practice. Key staff members include Bill Lopez and Kristi Ward, who support the search practice and the firm's administrative staff includes Tomi Ewing and Jackie Collins. Temporary staff as needed augments the team.

Mr. Avery, having served in the past as a City Manager, provides the firm with direct experience and knowledge of city administration. Mr. Kimura's expertise in executive, technical and business recruitment, which he gained during his nineteen years of high technology experience, provides the basis for many of the recruitment strategies and tactics utilized by the firm. (Their profiles are attached.) Collectively and combined, the firms Principals offer exceptional expertise in the area of public sector recruitment and consulting.

Firm Qualifications/Experience – What Differentiates Avery Associates

Exceptional service delivery and a very high-quality work product provide excellent results for our clients. This begins with the initial client meetings, which lead to detailed timelines for deliverables followed by weekly recruitment status updates following initiation of the search. Our candidate outreach efforts are professionally and confidentially conducted. The evaluation materials we provide clients are routinely characterized as accurate, comprehensive and of very high quality. We believe more so than any other public sector recruitment firm. This is largely based on our interview system utilizing behavioral interview techniques, which we describe in our recruitment plan. This leads to a quality product with excellent end results for our clients.

The service element is based on two factors: The first is the collective service philosophy from all of our organizational team members. They are each dedicated to providing service and support to clients. The second factor is based on the high level of engagement and participation from the firm Principals in every search assignment. This hands-on involvement includes client interface, identifying and developing the ideal candidate profile and position specification, development of the search strategy, candidate outreach, interviewing and assessment, completion of reference interviews, candidate presentation, final interview facilitation and when desired, negotiation of employment terms with the successful candidate.

Recruitment Team for the City of Roseville

Bill Avery and Paul Kimura serve as the Principals in charge of all recruitment projects and will be personally involved with initial client meetings. Mr. Avery and/or Mr. Kimura will also have active involvement in the development of the position specification, outreach strategy, candidate outreach, qualifying, interviewing and assessment and referencing of candidates, presentation of candidates and participation in the final interview process with the client, and will be available throughout the search process to provide other related consulting services. Bill Lopez and Kristi Ward may serve as members of the project team based on the position being recruited. Their roles would involve assessment and proactive outreach, qualifying of candidates and referencing of candidates.

Mr. Avery and/or Mr. Kimura will be personally involved in the initial client meetings, development of the ideal candidate profile and search strategy, interviewing and assessment of candidates, the presentation of candidates, attendance at final interviews and will be available throughout the search process to provide other related consulting services. Their profiles are attached.

Recruitment Plan/Methodology

I. Position Profile and Organizational Assessment

The initial assessment phase is a critical component of the search process. Mr. Avery and/or Mr. Kimura will meet with the key decision makers to discuss the organizational needs and position requirements and to formalize the recruitment brochure.

Our goal for this aspect of the recruitment process is to:

- Understand the City priorities for the positions.
- Develop a clear understanding and consensus on the expertise, experience, education, performance attributes and operational style of the ideal candidate.
- Discuss the goals, objectives, deliverables, and challenges related to the positions.
- Gain insight of the various organizational dynamics and departmental issues that exist within the organization.
- Identify the compelling aspects to the opportunities.

The subsequent ideal candidate profile would be developed from the above discussions and incorporated into the formal position announcement. The candidate profile is also utilized in various other means as a marketing tool, for advertising copy, postings, and for other announcements.

II. Development of the Search Strategy

Our search strategy will be developed in conjunction with the organizational assessment. The final approach is based on your input and considerations during the assessment activity. We would incorporate the following elements into this search:

- Original research, which consists of identification and contact of current incumbents or other candidates who meet the profile, but are not actively seeking other employment.
- Development of a targeted candidate list based on our extensive database of key executive contacts, referrals and recommendations from key sources, and other current and former City Management personnel who have extensive contacts and networks in this area.
- Public information sources that include various membership listings such as Western City, ICMA and the various municipal organizations within the Western U.S.
- An extensive mailing campaign to current city managers and select assistant managers throughout the Western U.S.
- Print advertising in ICMA Newsletter, Jobs Available and any other print publications deemed appropriate by the City.
- Internet job postings on national public sector employment bulletin boards, City Management and Municipal association-based websites, and our company website.

III. Candidate Assessment

Our assessment process involves several “tiers” of evaluation. All candidates responding to this position will initially be evaluated based on their resume and if appropriate, an extensive phone “screening” by a member of the project team. Candidates who pass the initial “qualifying” criteria are then scheduled for a formal interview with Mr. Avery or Mr. Kimura. These extended personal interviews typically take one hour and a thorough discussion of their experience, accomplishments, management philosophy and interpersonal style takes place.

In interviewing candidates, we utilize a methodology based on “behavioral” interview techniques. Fundamentally, this approach explores a candidate’s past accomplishments and experiences that relate to the position being considered. The philosophy here is that the best indicator of future performance is to evaluate past behavior. This methodology allows the firm to “project” how a candidate would approach and address the key challenges in the new position.

Those individuals who best fit the position requirements will have a Candidate Assessment Report developed by the Principal who conducted the interview. Additionally, two initial

reference interviews are performed on these candidates. The reference interviews provide our clients with additional insights on the candidate's "behavior" and style.

IV. Candidate Presentation

Upon completion of formal interviews, a selection of candidates for presentation is made. We feel our extensive qualification, interview, and reference interviewing process and the knowledge gained during our initial assessment period; enable our client to proceed with fewer rather than more finalists. However, we will not restrict or limit the number of candidates recommended as this decision is related to the overall strength and depth of the candidate pool.

The final candidates are presented in our extensive candidate presentation "book". Each finalist will have a file consisting of a candidate summary sheet, the submitted cover letter and resume, the Candidate Assessment Report (based on the "behavioral" interview), and two candidate reference interviews. This extensive profile on each recommended candidate continually generates positive feedback from our clients as it provides extensive detail beyond just a resume.

The Candidate book also identifies other candidates who were given secondary consideration, which provides the client insight on others who were interviewed. Candidate summary sheets are created for everyone who submitted a resume would also be included. This provides the client an insight to the level and nature of response for their position.

V. Selection Process

Once the final candidate interview group is identified, we will assist in the structuring of the interview process and coordinate the interview scheduling activity. Our firm will also provide candidates with guidance related to travel planning, hotel accommodations, as well as other interview planning issues. Our firm will also develop potential interview questions and be in attendance during final interviews to help facilitate the process and to lead an end of day debrief and evaluation process.

VI. Position Closure and Follow-Up

Based on the firm's experience in human resource management and executive search, we are able to assist our clients in formulating appropriate compensation and other employment arrangements. We will be available throughout our retention to assist in this process.

As a matter of policy, Avery Associates monitors the transition and progress of any executive we place with a client. Within the first three to six months following the hired individual joining the City, we will speak with that individual to ensure the transition has effectively occurred. During the same period we will also review the individual's status with your office.

Consulting Fees

Avery Associates bids its services based on a Professional Services Project Fee and an out-of-pocket not-to-exceed expense budget. Our pricing proposal is based on the nature of the position being recruited. Based on the services described in our proposal, our fees are as follows:

<u>Position</u>	<u>Professional Services Fee</u>	<u>Not to Exceed Expenses</u>
City Manager (or other positions appointed by City Council)	*\$19,900	\$6,500
Assistant City Manager, Department Head	\$18,900	\$5,500
Deputy/Asst Dept Head/ Division Manager	\$18,400	\$5,500

*Should the City award multiple assignments to us concurrently, we would provide a discount to the combined Professional Services Fees by up to 10% and the combined not-to-exceed recruitment expense budgets by up to 15%.

In addition to the Professional Services Fee, normal and direct out-of-pocket expenses associated with the search are charged back to the client. We charge actual expenses and do not “mark up”. Expenses related to the search include print and website advertising costs, clerical time, supplies, printing, telephone, postage, background checks and all consultant travel for local and out-of-area candidate interviews. This expense limit is all-inclusive and would cover all of our costs, including travel, associated with the searches.

Insurance Requirements

State Farm:

General Liability - 2,000,000 limit, 10,000 deductible

Hired and Non-Owned **Automobile** – 2,000,000 coverage

ABSENT COUNCILMEMBERS:

MAYOR

ATTEST:

City Clerk

AGREEMENT FOR RECRUITMENT SERVICES

THIS AGREEMENT is made and entered into this ____ day of _____, 20__, by and between the City of Roseville, a municipal corporation (“CITY”), and the recruitment firm Cooperative Personnel Services dba CPS HR Consulting, a California Joint Powers Authority (“RECRUITER”); and

WITNESSETH:

WHEREAS, CITY from time to time is in need of executive recruitment and search firms to provide recruitment and search services and assistance to the Roseville Human Resources Department (“HR”); and

WHEREAS, RECRUITER is willing to provide such services on a per recruitment task-based basis; and

NOW, THEREFORE, the Parties agree as follows:

1. Scope of Services and Duties. CITY retains RECRUITER to provide recruitment and search services from time to time upon the request of HR to advise, assist, and search for candidates for CITY employment, as more fully described in EXHIBIT “A” attached hereto and incorporated herein by reference.

2. Specific Work Assignments. RECRUITER shall receive work assignments from HR on an as-needed basis. The work assignments shall generally be communicated by written notice from HR to RECRUITER. If a work assignment is communicated orally, RECRUITER shall provide a written confirmation to HR describing the work assignment. CITY reserves the right to unilaterally assign similar work to other recruitment firms, as it deems prudent, and the use of RECRUITER shall in no way be considered an exclusive agreement to provide or use similar services. CITY makes no specific guarantee of a minimum or maximum number of hours or amount of tasks, assignments, or services. The assignment of any work hereunder is expressly contingent upon the availability of funds.

3. Fees for Services. For services performed under this Agreement, CITY shall pay RECRUITER in accordance with the fee schedules and rates included in EXHIBIT “A” and that in no event, inclusive of any and all fees, costs, reimbursable expenses, or any other charge, shall any single assignment and recruitment exceed thirty-two thousand dollars (\$32,000).

4. Statements and Payments. RECRUITER shall provide invoices to the CITY for all fees and expenses. The invoice(s) shall be itemized to include the task completed and a description of the services performed. Invoices shall be considered due and payable upon receipt, and shall be overdue 30 days after receipt.

5. Term; Termination; Amendments. This Agreement shall be effective upon approval by the Roseville City Council and shall continue in effect for a period of five (5) years,

or until terminated by either Party. This Agreement may be terminated by CITY, with or without cause, at any time upon written notice. RECRUITER may terminate this Agreement only upon the consent of CITY or upon 60 days written notice. Upon termination, RECRUITER shall turn over all client files to CITY. There shall be no amendment or modification to this Agreement except by written agreement between the Parties.

6. Independent Contractor. RECRUITER, inclusive of its agents, officers, employees, volunteers, independent contractors, and subcontractors, shall act as an independent contractor, and covenants and agrees that it will conduct itself consistent with such status, that it will neither hold itself out as, nor claim to be, an officer or employee of CITY by reason of this Agreement.

RECRUITER and CITY agree that: (a) RECRUITER is free from the control and direction of CITY in connection with the performance of the work; (b) RECRUITER is providing services directly to CITY; (c) RECRUITER has and will maintain at all relevant times a business license; (d) RECRUITER maintains a business location that is separate from CITY; (e) RECRUITER is customarily engaged in an independently established business of the same nature as that involved in the work performed hereunder; (f) RECRUITER actually contracts with other businesses to provide the same or similar services and maintains a clientele without restrictions from CITY; (g) RECRUITER advertises and holds itself out to the public as available to provide the same or similar services; (h) RECRUITER provides its own tools, vehicles, and equipment to perform the services; (i) RECRUITER has negotiated its own rates; (j) RECRUITER set its own hours and location of work in accomplishing CITY's on-call needs; and (k) RECRUITER has the right to control the manner and means of accomplishing the result desired and exercises its own expert independent judgement.

7. Insurance. RECRUITER agrees to continuously maintain, in full force and effect, the following minimum policies of insurance during the term of this Agreement.

<u>COVERAGE</u>	<u>LIMITS OF LIABILITY</u>
Workers' Compensation	Statutory
Commercial General Liability	\$1,000,000 each occurrence \$2,000,000 aggregate Personal Injury: \$1,000,000 each occurrence \$2,000,000 aggregate
Automobile Liability	\$1,000,000 combined single limit
Professional Liability (errors and omissions)	\$1,000,000 per claim \$2,000,000 aggregate

a. Form. RECRUITER shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City

Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made basis is subject to the approval of Risk Management and the City Attorney.

b. Additional Insureds. RECRUITER shall also provide a separate endorsement form or section of the policy showing CITY, its officers, agents, employees and volunteers as additional insureds for each type of coverage, except for Workers' Compensation and Professional Liability. Such insurance shall specifically cover the contractual liability of RECRUITER. The additional insured coverage under the RECRUITER's policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy, and shall not seek contribution from CITY's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office ("ISO") CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.

c. Cancellation/Modification. RECRUITER shall provide ten (10) days written notice to CITY prior to cancellation or modification of any insurance required by this Agreement.

d. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of CITY (if agreed to in a written contract) before CITY's own insurance shall be called upon to protect it as a named insured.

e. Subcontractors. RECRUITER agrees to include in its contracts with all subcontractors the same requirements and provisions of this Agreement, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor's work. Furthermore, RECRUITER shall require its subcontractors to agree to be bound to RECRUITER and CITY in the same manner and to the same extent as RECRUITER is bound to CITY under this Agreement. Additionally, RECRUITER shall obligate its subcontractors to comply with these same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of CITY's indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request.

f. Self-Insured Retentions. All self-insured retentions ("SIR") must be disclosed to Risk Management for approval and shall not reduce the limits of liability.

Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or CITY. CITY reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

g. Waiver of Subrogation. RECRUITER hereby agrees to waive subrogation which any insurer of RECRUITER may acquire from RECRUITER by virtue of the payment of

any loss under a Workers Compensation, Commercial General Liability or Automobile Liability policy. All Workers Compensation, Commercial General Liability and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of CITY, its officers, agents, employees and volunteers for all work performed by RECRUITER, its employees, agents and subcontractors.

h. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve RECRUITER of liability in excess of such coverage, nor shall it preclude CITY from taking such other actions as are available to it under any other provisions of this Agreement or law.

8. Indemnification. To the fullest extent allowed by law, RECRUITER shall defend, indemnify, and save and hold harmless CITY, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from or arising out of RECRUITER's willful misconduct or negligent act or omission while engaged in the performance of obligations or exercise of rights created by this Agreement, except those matters arising from CITY's sole negligence or willful misconduct. The parties intend that this provision shall be broadly construed.

RECRUITER agrees to defend and indemnify CITY if, despite the parties intent and practice, any venue, agency, or court with competent jurisdiction determines that RECRUITER and/or any of its agents, officers, employees, volunteers, independent contractors, or subcontractors, are characterized as employee(s) of CITY.

RECRUITER's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.

9. Notice. All notices, invoices, reports or other communication required by this Agreement shall be properly given if delivered in person, or sent by first class mail, facsimile, or overnight delivery to the following addresses:

CITY:

Human Resources Department
311 Vernon Street
Roseville, CA 95678

RECRUITER

Melissa Asher, Senior Practice Leader,
Products & Services
2450 Del Paso Road, Suite 220
Sacramento, CA 95834

Either party may amend its address for notice by giving notice to the other party.

10. Assignment. RECRUITER is employed to perform unique personal services. RECRUITER shall not assign this Agreement without the prior written consent of CITY.

RECRUITER shall not employ or otherwise incur any obligation to pay other specialists or experts for services in connection with this Agreement, without prior written consent of CITY.

11. Attorney's Fees; Venue; Governing Law. If either party commences any legal action against the other party arising out of this Agreement or the performance hereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorney's fees. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.

12. Ability to Perform. RECRUITER agrees and represents that it has the time, ability and professional expertise to perform the services required under this Agreement.

13. Compliance with Laws. RECRUITER shall comply with all federal, state and local laws, ordinances and policies as may be applicable to the performance of services under this Agreement.

14. Governing Agreement. In the event of any conflict between this Agreement and its EXHIBITS, the provisions of this Agreement shall govern. In the event of any conflict between any of the EXHIBITS, the provisions of the first in order of attachment shall govern.

15. Successors in Interest. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.

16. Copyright, Ownership and Use of Materials. All tangible material ("Material") created or delivered pursuant to this Agreement is considered a work made for hire under the Copyright Act. To the extent such Material does not qualify as a work made for hire, RECRUITER hereby assigns to CITY all right, title, and interest, including but not limited to all copyrights, in all Material created by RECRUITER in its performance under this Agreement. Material constitutes the scope of work outlined in Exhibit A and attached hereto, and all written and other tangible expressions, including but not limited to, drawings (including computer aided drawings), papers, documents, reports, surveys, renderings, exhibits, sketches, maps, models, prints, paintings or photographs, in any and all media or formats in which such materials have been created or are maintained. All Material furnished by RECRUITER is, and shall remain, the property of CITY.

RECRUITER shall execute any documents necessary to effectuate such assignment. In the event that RECRUITER uses, employs, designates, or retains any person or entity who is not an employee of RECRUITER, to perform any work required of it pursuant to this Agreement, RECRUITER shall require said person or entity to execute an agreement containing the preceding paragraph.

17. Records. RECRUITER and its subcontractors shall maintain all files and records relating to the services performed hereunder during the term of this Agreement and for a period of not less than one (1) year after the date of termination or expiration. Provided, however, that

in the event of litigation or settlement of claims arising from the performance of this Agreement, RECRUITER and its subcontractors shall maintain all files and records until such litigation, appeals or claims are resolved. Duly authorized representatives of CITY shall have right of access during normal business hours and after reasonable notice to RECRUITER's and subcontractors' files and records relating to the services performed hereunder, and may review and copy the files and records at appropriate stages during performance of the services and during the one (1) year period following termination or expiration of this Agreement. RECRUITER shall include the provisions in its contracts with all subcontractors.

18. Time is of the Essence. Time is of the essence of this Agreement.

19. Representations and Warranties. RECRUITER warrants that it has not employed or retained any company or person, other than a bona fide employee working for RECRUITER, to solicit or secure this Agreement, and that it has not paid or agreed to pay any company or person, other than a bona fide employee, any fee, commission, percentage, brokerage fee, gift or any other consideration, contingent upon or resulting from the award or making of this Agreement. For breach or violation of this warranty, CITY shall have the right to terminate as void this Agreement, without liability, or, in its discretion, to deduct from the Agreement price or consideration, or otherwise recover, the full amount of such fee, commission, percentage, brokerage fee, gift or contingent fee.

20. Severability. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.

21. Integrated Agreement. This is an integrated Agreement and contains all of the terms, considerations, understandings and promises of the Parties. It shall be read as whole.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this Agreement in duplicate by its City Manager and attested to by its City Clerk under the authority of Resolution No. _____, adopted by the Council of the City of Roseville on the ____ day of _____, 20____, and RECRUITER has caused this Agreement to be executed.

Subject: On-Call Executive Search Firms/Recruitment Consultants

CPS HR Consulting (CPS HR) is pleased to have the opportunity to submit a proposal to assist the City of Roseville (City) with on-call executive search and recruitment services. We are uniquely qualified to undertake this effort as we have vast experience in assisting public agencies with executive search, screening, and placement.

We understand that each agency is unique, and our extensive experience allows us to tailor our process to specifically meet your needs. Our work with local government agencies throughout the United States gives us an in-depth understanding of government operations, programs, and services.

CPS HR offers a broad spectrum of human resource services while delivering personalized, results-oriented services, utilizing best practice methods of recruitment and selection strategies from our team of recruitment experts. Each recruitment is an opportunity to shape and prepare your organization for the future. We understand how important this transition is for you and are perfectly placed to assist you in this endeavor. Once this project begins, we will work with the City to tailor our process to highlight this exciting opportunity and attract the best possible candidates.

Contact Person Authorized to Sign Contracts	Contact Information (Address, Phone, and Email)
Melissa Asher, Senior Practice Leader of Products and Services	Physical: 2450 Del Paso Road, Suite 220, Sacramento, CA 95834 Mailing: 2450 Del Paso Road, Suite 160, Sacramento, CA 95834 (916) 471-3358; masher@cpshr.us

CPS HR will perform the services and adhere to the requirements described in the RFP, including any additional information provided in addendum #1. It is our commitment to work in partnership with your organization to a successful result.

Thank you for the opportunity to be considered for this assignment. This proposal is valid for a period of 90 days from the submittal due date of September 26, 2022. Should you have questions or comments about the information presented in this proposal, **please contact me at masher@cpshr.us or (916) 471-3358.**

Sincerely,

Melissa Asher, Senior Practice Leader, Products and Services

TAB A – Firm’s Qualifications

About CPS HR Consulting

CPS HR Consulting has been assisting organizations with their talent management needs for over 35 years. We have unique expertise in delivering HR management and consulting services, employment testing, and assessment services to government agencies throughout North America. Our core competency is its knowledge of and expertise in the public sector.

CPS HR offers clients a comprehensive range of competitively priced services, all of which can be customized to meet your organization’s specific needs. We are committed to supporting and developing strategic organizational leadership and human resource management in the public sector. We offer expertise in the areas of organizational strategy, recruitment and selection, training and development, and organization and workforce management.

CPS HR occupies a unique position among its competitors in the field of government consulting; as a Joint Powers Authority, whose charter mandates that we serve only public sector clients, we actively serve all government sectors including Federal, State, Local, Special Districts, Higher Education, and Non-Profit Organizations. This singular position provides CPS HR with a systemic and extensive understanding of how each government sector is inter-connected to each other and to their communities. That understanding, combined with our knowledge of public and private sector best practices, translates into meaningful and practical solutions for our clients’ operational and business needs.

With more than 85 full-time employees as well as 200+ project consultants and technical experts nationwide, CPS HR delivers breakthrough solutions that help public sector organizations impact the communities they serve. **CPS HR has worked with more than 1,200 government and public/non-profit clients throughout the United States and Canada.**

Our headquarters are located in Sacramento, California. We have regional offices in Austin, TX; Littleton, CO; and Orange County, CA.

Recruitment Experts

CPS HR specializes in the recruitment and selection of key professionals for cities, counties, special districts, and non-profits. Working in partnership with the governing body or selection team, we develop customized search strategies that focus on locating and recruiting qualified candidates who match the agency's unique needs. **We do not use subcontractor for these services.** Our wealth of recruitment experience has been gained through *more than 20 years* of placing top and mid-level executives in public agencies throughout the United States.

- **Unmatched Recruitment Experience for Government Agencies.** CPS HR has extensive experience in recruiting executive-level professionals for public agencies across the United States. As a public agency ourselves, we understand how to work with and within government. Our understanding of public sector culture and policy uniquely sets us apart from our competitors.
- **Focus on Diversity Recruiting.** In the past three years, 57% of the candidates placed by CPS HR are female, members of ethnic minorities or both. To continue this trend, CPS HR is constantly assessing the best methods for reaching the broadest network of possible candidates. To that end, we have just signed a contract with Zoom Info, a new sourcing platform, which includes a diversity sourcing filter.
- **Seasoned Executive Recruiters.** Our recruiters possess a high level of expertise in recruiting and placing executive-level professionals. Our staff of experts includes an exceptional group of full-time employees as well as a full complement of subject matter experts, intermittent employees, and part-time employees with a variety of public and private sector experience.
- **Detailed Needs Assessments.** We conduct a detailed needs assessment to identify 1) future organizational direction; 2) challenges facing the position; 3) the working style and organizational climate; and 4) required core and job specific competencies as well as personal and professional characteristics.
- **Success Recruiting Non-Job Seeking Talent.** We recognize that the very best candidates for some types of positions may not be looking for a career change, therefore, our recruitment team takes a very aggressive approach to identify and recruit such candidates.
- **Vast Pool of Public Agency Contacts.** CPS HR maintains a database of candidates and an extensive network of external resources to leverage for executive-level positions. We utilize our vast pool of public and non-profit contacts to deliver a strong list of competitive candidates who will be well prepared to assist you in the accomplishment of your specific mission and goals.
- **Satisfied Clients.** *Our executive search client satisfaction rating averages 4.6 on a scale of 5.* While many companies talk about client satisfaction, how many measure the impact of that through assessing client satisfaction by distributing written surveys and tying the results of these surveys to their performance management system? CPS HR Consulting does. A client satisfaction survey is sent at the end of every engagement requesting feedback on the quality of our staff, deliverables, and the overall consulting relationship.

TAB C: Qualifications of Team

Our Recruiting Team

Project Managers

CPS HR has assembled a strong project team, with each member selected for his/her specific expertise, experience working in the public sector and professionalism. We have selected **Ms. Pamela Derby** to be the Project Manager for **Executive level** recruitments and **Ms. Christina Peacock** to be the Project Manager for **Middle Management/Specialized** level recruitments. They will serve as the main point of contacts for the City coordinating all aspects of each project including the project staff, finalizing project plans and deliverables, organizing and securing resources, managing communications, monitoring project progress, resolving any problems, and ensuring timely and successful completion of the engagement.

Consultants and Roles

CPS HR has a uniquely qualified team of professionals to assist the City with recruitments. Ms. Derby will be joined by Executive Recruiters, **Andrew Nelson, Kylie Wilson, David Niemeyer, Fatima Nukic,** and **Rachael Danke**. Ms. Peacock will be joined by Principal Consultant, **Lisa Conner**, and Senior Consultants, **Michelle Pellegrino** and **Debbie Gutman**. Our team of professionals have decades of combined experience in providing recruitment and selection services. We are committed to meeting the highest professional standards of quality. Each of the team members has broad and deep experience in public sector and are readily available to assist the City with this project. Brief biographies of Project Staff are provided under *the following organizational graph*.

We are committed to providing each of our clients the same level of service excellence, and we take great care not to take on more work than this commitment allows. **We will not utilize subcontractors for these services.**

TAB D: Recruitment Understanding

Key Stakeholder Involvement

The Hiring Authority on behalf of the City of Roseville must be intimately involved in the recruitment and selection process. Our approach assumes their direct participation in key phases. At the discretion of the Hiring Authority, other key stakeholders may also be invited to provide input for the development of the candidate profile.

City's Needs

A critical first step in a successful search is for the Hiring Authority to define the professional and personal qualities required of the Incumbent. CPS HR has developed a very effective process that will permit the Hiring Authority to clarify the preferred future direction for the City; the specific challenges the City is likely to face in achieving this future direction; the working style and organizational climate the Hiring Authority wishes to establish with the Incumbent; and ultimately, the professional and personal qualities required of the Incumbent.

Commitment to Communication

Throughout the recruitment and selection process, we are strongly committed to keeping you fully informed of our progress. We will collaborate with you to provide updates on the status of the recruitment via your preferred method of communication (phone conference, email, etc.).

We place the highest level of importance on customer service and responding in a timely manner to all client and candidate inquiries. Our previous clients and candidates have expressed a sincere appreciation for our level of service and responsiveness to the management of the recruitment process. As a result, we have many long-term relationships with clients that have led to opportunities to assist them with multiple recruitments.

Aggressive, Proactive, and Robust Recruitment

We take an aggressive approach in identifying and recruiting the best available candidates. There are those candidates who would gladly rise to the professional challenge and apply for positions within your organization; however, some of the best candidates are often not actively seeking a new position and may only consider a change once we present them with your opportunity.

Evoking the sense of vision and opportunity in qualified persons is among the responsibilities of CPS HR, and we pride ourselves in our efforts to reach the best available potential candidates. We directly email the outreach brochure, post messages, and connect with potential candidates on business media such as LinkedIn, and of course, pick up the phone and call qualified individuals and referral sources.

Recruitment Process

As a public agency, CPS HR conducts only public sector recruitments, and has done so for the past 20+ years. We have conducted recruitments for jurisdictions from 5,000 to 10,000,000. Examples include our recently completed recruitments for the City of Littleton CO.

Earlier this year, CPS HR was retained by the City to conduct their City Manager search. Our process included individual conversations with each Council member, the Mayor, and all department heads to ascertain the attributes they were seeking in a new City Manager. In addition, we conducted discussions with several external stakeholders identified by the City Council and deployed an online survey that was made available to all staff and the public at large. This information was used to create an attractive recruitment brochure.

During the four-week marketing period, ads were placed on 12 applicable job site boards and an initial e-mail blast was sent to approximately 7,100 city management professionals. Follow-up contacts were then made with referral sources and individuals we considered to be a good fit for the ideal candidate attributes identified by the City. In all, there were 78 applicants. We then conducted comprehensive screening interviews with 16 candidates who most closely matched the City's profile. Media checks were conducted on all of the candidates chosen for screening. Of those 16, seven individuals were recommended for further consideration by the City Council.

CPS HR facilitated virtual interviews for those seven candidates with both the City Council and the leadership team. We assisted with the creation of questions and evaluation materials, the scheduling of candidates, preparing the panel members to conduct the interviews, and facilitating the debrief sessions and ranking of the candidates. Three candidates were identified out of this process as finalists. Reference checks were then conducted on each of the three finalists with prior supervisors, direct reports and colleagues.

A final two-day process was held in Littleton that included interviews with the leadership team, a community panel, and a panel of city managers, a staff meet and greet, community meet and greet, individual interviews with Council, and a collective interview with Council. CPS HR facilitated this entire process and produced all evaluation materials. After the Council identified a top candidate, CPS HR conducted a final background check and assisted with employment agreement negotiations. The success of this process lead the City to retain CPS HR to then conduct the recruitment for the Human Resources Director.

In addition to our standard process, CPS HR strives to attract the most highly qualified, diverse candidate pool possible. We are pleased that our diligent efforts have resulted in more than 57% of our executive level placements being people of color and/or female candidates within the past three years.

An excellent example of this was our recruitment for the Human Resources Manager for the Puget Sound Clean Air Agency (PSCAA). Several years ago, the City of Seattle instituted their Race and Social Justice Initiative. As a collaborating agency, PSCAA is committed to ensuring this policy is reflected in their hiring practices. While it is standard for CPS HR to research demographics and use that information in our outreach processes, we developed an outreach plan that went a

bit beyond our normal efforts. For example, we placed advertisements in several non-traditional publications including the Northwest Asian Weekly, Seattle Chinese Post, Seattle Chinese Times, and La Raza NW. In addition, we reached out to tribal nations throughout the state. This aggressive approach resulted in an applicant pool of 75 candidates – 66% female (typical for an HR position); 8% Asian; 11% Latino; 16% African American and 65% Caucasian. Our finalist candidate pool included two African American males, one African American female, two Latino females, one Asian female, one Caucasian female and one white male. PSCAA was extremely pleased with the results of the process and appointed a highly qualified Latino female who has served the agency in an exceptional manner.

TAB E: Project Plan

Scope of Work

Our proposed process is designed to provide the City of Roseville with the full range of services required to ensure the ultimate selection of a new hire uniquely suited to the City's needs. We offer three levels of service:

- Full Recruitment – All Phases I-III
- Partial Recruitment – Phase I and II
- Outreach Only Services

The phases are described below.

PHASE I – Strategic Recruitment Plan

The first step in this engagement is a thorough review of the City's needs, culture, and goals; the recruitment and selection process; and the schedule. CPS HR is prepared to meet with key stakeholders to obtain input in developing the ideal candidate profile and to assist us in understanding key issues and challenges. Activities for this phase at each recruitment level will include:

Executive Search

- Foster client collaboration.
- Create a tailored plan for your agency and unique position.
- Review of job duties and compensation for marketability.
- Define ideal candidate profile with Hiring Authority and key stakeholders.
- Identify testing/assessment needs.
- Conduct stakeholder engagement (surveys, focus group, community meetings).
- Leadership assessment

Middle Management/Specialized

- Foster client collaboration.
- Create a tailored plan for your agency and unique position.
- Review of job duties and compensation for marketability.
- Define ideal candidate profile with Hiring Authority and key stakeholders.
- Identify testing/assessment needs.

PHASE II – Marketing and Applicant Screening

The recruitment process is tailored to fit the City's specific wants and needs, with targeted advertising, combined with personal contacts with qualified individuals from our extensive database.

CPS HR will prepare, submit for your approval, and publish advertisements in appropriate magazines, journals, newsletters, job bulletins, and websites to attract candidates on a nationwide, regional, local, or targeted basis based on the recruitment strategy. CPS HR is focused on reaching a diverse candidate pool and would recommend publications/websites that are targeted to minority and female candidates.

CPS HR would execute the following tasks for this phase at each recruitment level including:

Executive Search

- Create an attractive and informative electronic flip book type of brochure to market the position.
- Conduct targeted research to identify ideal passive candidates.
- Execute active and passive sourcing of candidates through e-mail, phone, and social media.
- Devise advertising & marketing strategy.
- Develop innovative media campaigns.
- Review applicant resumes and ensure minimum qualifications are met utilizing client's applicant tracking system or CPS HR's applicant tracking system.
- Facilitate comprehensive screening interviews.

Middle Management/Specialized

- Create a two-page to four-page colored brochure.
- Identify advertising sources.
- Coordinate advertising placements.
- Create targeted marketing campaigns.
- Conduct active and passive sourcing of candidates through e-mail, phone, and social media.
- Review applicant resumes and ensure minimum qualifications are met utilizing the City's applicant tracking system or CPS HR's applicant tracking system, NEOGOV.
- Develop and administer secondary rated screening.
- Provide list of qualified candidates.

PHASE III – Selection

CPS HR will design a selection process based on information gathered in Phase I. We will meet with the City to review this process and discuss the City's preferred approach in assessing the final candidates.

We can coordinate all aspects of the selection process for the City. This includes preparing appropriate materials such as interview questions, evaluation manuals, and other assessment exercises; and facilitating the interviews.

CPS HR will be available to complete the following components of this phase at each recruitment level:

Executive Search

- Develop and facilitate all required selection processes including development of interview questions and/or assessments.
- Coordinate all candidate communication and scheduling.
- Train interview panel and handle onsite facilitation of interview process.
- Execute extensive background and reference checks.
- Provide assistance with contract negotiation.
- Facilitate appointment of selected candidate.
- Prepare a written report that summarizes the results of the recruitment process.

Middle Management/Specialized

- Develop interview questions and/or other requested selection tools.
- Develop and facilitate training of interview panel for the City's interview process.
- Coordinate all candidate communication and scheduling.
- Facilitate hiring interview process.
- Conduct professional reference checks available upon request.
- Facilitate appointment of selected candidate upon request.
- Prepare a written report that summarizes the results of the recruitment process

Outreach Services

Task 1 - Review and Finalize the Recruitment Process and Schedule

The first step in this engagement is a thorough review of the following with the Hiring Authority:

- Understand City's needs, culture, and goals.
- Discuss recruitment outreach process efforts to date, so we complement rather than duplicate efforts.
- Develop a schedule aligned with the recruitment process.

This will ensure that City's needs are met in the most complete manner possible.

Task 2 - Candidate Profile and Recruitment Strategy Development

This task will be accomplished during a discussion involving the relevant City stakeholders and CPS HR. It will result in the identification of the personal and professional attributes required for the position and will include the following activities:

- Development of a recruitment brochure, inclusive of photos that will highlight the unique benefits and favorable conditions that would attract a new incumbent. In this way, we can draw attention to the reasons why your position and region would be a great opportunity for a candidate.
- CPS HR will identify and provide City with a list of suggested advertising sources which may not have been considered previously to reach the best candidates.

CPS HR is focused on reaching a diverse candidate pool and would recommend publications/websites that are targeted to minority and female candidates.

Task 3 - Targeted Outreach

CPS HR will prepare an email distribution list containing prospective candidates and referral sources gleaned from our database and new research in targeted regional areas as well as with other public sector organizations. This will include a regional and statewide search. These individuals will receive a link to the recruitment brochure, along with a personal invitation to contact CPS HR should they have any questions about the position.

Based upon CPS HR's research and contact with prospective candidates, including the use of LinkedIn, CPS HR will also make personal phone calls to prospective applicants we identify as the most promising based on the candidate profile and requirements of the position.

Task 4 – Report

CPS HR will prepare a report summarizing all outreach activities. The report will contain a listing of all advertisements placed as well as all active and passive outreach efforts completed inclusive of how many candidates were targeted in each effort.

Project Timeline

The project team CPS HR has selected is prepared to begin work upon receipt of a fully-executed contractual agreement. Dependent on the recruitment level selected, recruitment and selection activities can be completed in two to four months. The precise schedule will depend on the placement of advertising in the appropriate professional journals, and the ability to schedule, as quickly as possible, the initial client kick off meeting. A proposed schedule of major milestones is presented below.

Full Recruitment Timeline:

Task Name	Phase I			Phase II								Phase III				
Weeks	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16
Executive Search																
Middle Management/ Specialized																

Partial Recruitment Timeline:

Task Name	Phase I			Phase II						
Weeks	1	2	3	4	5	6	7	8	9	10
Executive Search										
Middle Management/ Specialized										

TAB F – Cost Proposal

Professional Services

Our professional **fixed fee** covers all CPS HR services associated with the recruitment process selected (**Outreach Only, Partial Recruitment or Full Recruitment**), including the necessary field visits. Travel expenses for candidates who are invited forward in the interview process are not included in our current price proposal.

Service	Pricing
Full - Executive Recruitment*	\$25,000 Flat Fee
Partial - Executive Recruitment	\$19,000 Flat Fee
Full – Middle Management/Specialized	\$19,000 Flat Fee
Partial – Middle Management/Specialized	\$16,000 Flat Fee
Outreach Only	\$3,500 Flat Fee
Outreach Only Plus Brochure	\$5,000 Flat Fee (includes brochure)
Outreach Plus Advertising	\$7,500 Flat Fee (includes brochure and direct advertising)

**Professional fees would be billed and paid monthly.*

Optional Expense for Middle Management/Specialized Recruitments

The client has the option to utilize CPS HR Consulting's applicant tracking system, NEOGOV, to run their recruitment. The cost for utilizing this system is \$1,000 per recruitment. The client will have user access to be able to view candidate contact and application information. Additionally, CPS HR can export candidate data to allow the client to upload necessary information into their systems.

RESOLUTION NO. 23-007

APPROVING AN AGREEMENT FOR RECRUITMENT SERVICES, BY AND BETWEEN
THE CITY OF ROSEVILLE AND GALLAGHER BENEFIT SERVICES, INC., AND
AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF
THE CITY OF ROSEVILLE

WHEREAS, an Agreement for Recruitment Services, by and between the City of
Roseville and Gallagher Benefit Services, Inc., has been reviewed by the City Council; and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that
said agreement is hereby approved and that the City Manager is authorized to execute it on
behalf of the City of Roseville.

PASSED AND ADOPTED by the Council of the City of Roseville this ____ day of
_____, 2023, by the following vote on roll call:

AYES COUNCILMEMBERS:

NOES COUNCILMEMBERS:

ABSENT COUNCILMEMBERS:

MAYOR

ATTEST:

City Clerk

AGREEMENT FOR RECRUITMENT SERVICES

THIS AGREEMENT ("Agreement") is made and entered into this ____ day of _____, 20__, by and between the City of Roseville, a municipal corporation ("CITY"), and the recruitment firm Gallagher Benefit Services, Inc., a Delaware corporation ("RECRUITER"). CITY and RECRUITER are referred to in this Agreement individually as "Party" and collectively as "Parties".

WITNESSETH:

WHEREAS, CITY from time to time is in need of executive recruitment and search firms to provide recruitment and search services and assistance to the Roseville Human Resources Department ("HR"); and

WHEREAS, RECRUITER is willing to provide such services on a per recruitment task-based basis; and

NOW, THEREFORE, the Parties agree as follows:

1. Scope of Services and Duties. CITY retains RECRUITER to provide recruitment and search services from time to time upon the request of HR to advise, assist, and search for candidates for CITY employment, as more fully described in EXHIBIT "A" attached hereto and incorporated herein by reference.

2. Specific Work Assignments. RECRUITER shall receive work assignments from HR on an as-needed basis. The work assignments shall generally be communicated by written notice from HR to RECRUITER. If a work assignment is communicated orally, RECRUITER shall provide a written confirmation to HR describing the work assignment. CITY reserves the right to unilaterally assign similar work to other recruitment firms, as it deems prudent, and the use of RECRUITER shall in no way be considered an exclusive agreement to provide or use similar services. CITY makes no specific guarantee of a minimum or maximum number of hours or amount of tasks, assignments, or services. The assignment of any work hereunder is expressly contingent upon the availability of funds.

3. Fees for Services. For services performed under this Agreement, CITY shall pay RECRUITER in accordance with the fee schedules and rates included in EXHIBIT "A" and that in no event, inclusive of any and all fees, costs, reimbursable expenses, or any other charge, shall any single assignment and recruitment exceed thirty-two thousand dollars (\$32,000).

4. Statements and Payments. RECRUITER shall provide invoices to the CITY for all fees and expenses. The invoice(s) shall be itemized to include the task completed and a description of the services performed. Invoices shall be considered due and payable upon receipt, and shall be overdue 30 days after receipt.

5. Term; Termination; Amendments. This Agreement shall be effective upon approval by the Roseville City Council and shall continue in effect for a period of five (5) years, or until terminated by either Party. This Agreement may be terminated by CITY, with or without cause, at any time upon written notice. RECRUITER may terminate this Agreement only upon the consent of CITY or upon 60 days written notice. Upon termination, RECRUITER shall turn over all client files to CITY. There shall be no amendment or modification to this Agreement except by written agreement between the Parties.

6. Independent Contractor. RECRUITER, inclusive of its agents, officers, employees, volunteers, independent contractors, and subcontractors, shall act as an independent contractor, and covenants and agrees that it will conduct itself consistent with such status, that it will neither hold itself out as, nor claim to be, an officer or employee of CITY by reason of this Agreement.

RECRUITER and CITY agree that: (a) RECRUITER is free from the control and direction of CITY in connection with the performance of the work; (b) RECRUITER is providing services directly to CITY; (c) RECRUITER has and will maintain at all relevant times a business license; (d) RECRUITER maintains a business location that is separate from CITY; (e) RECRUITER is customarily engaged in an independently established business of the same nature as that involved in the work performed hereunder; (f) RECRUITER actually contracts with other businesses to provide the same or similar services and maintains a clientele without restrictions from CITY; (g) RECRUITER advertises and holds itself out to the public as available to provide the same or similar services; (h) RECRUITER provides its own tools, vehicles, and equipment to perform the services; (i) RECRUITER has negotiated its own rates; (j) RECRUITER set its own hours and location of work in accomplishing CITY's on-call needs; and (k) RECRUITER has the right to control the manner and means of accomplishing the result desired and exercises its own expert independent judgement.

7. Insurance. RECRUITER agrees to continuously maintain, in full force and effect, the following minimum policies of insurance during the term of this Agreement.

<u>COVERAGE</u>	<u>LIMITS OF LIABILITY</u>
Workers' Compensation	Statutory
Commercial General Liability	\$1,000,000 each occurrence \$2,000,000 aggregate Personal Injury: \$1,000,000 each occurrence \$2,000,000 aggregate
Automobile Liability	\$1,000,000 combined single limit
Professional Liability (errors and omissions)	\$1,000,000 per claim \$2,000,000 aggregate

a. Form. RECRUITER shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made basis is subject to the approval of Risk Management and the City Attorney.

b. Additional Insureds. RECRUITER shall also provide a separate endorsement form or section of the policy showing CITY, its officers, agents, employees and volunteers as additional insureds for the Commercial General Liability. Such insurance shall specifically cover the negligence tort liability of RECRUITER. The additional insured coverage under the RECRUITER's Commercial General Liability policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy, and shall not seek contribution from CITY's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office ("ISO") CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.

c. Cancellation/Modification. Any cancelled or non-renewed policy will be replaced with no coverage gap and a current Certificate of Insurance will be provided to the CITY.

d. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance.

e. Subcontractors. RECRUITER agrees to include in its contracts with all subcontractors the same requirements and provisions of this Agreement, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor's work. Furthermore, RECRUITER shall require its subcontractors to agree to be bound to RECRUITER and CITY in the same manner and to the same extent as RECRUITER is bound to CITY under this Agreement. Additionally, RECRUITER shall obligate its subcontractors to comply with these same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of CITY's indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request.

f. Self-Insured Retentions. All self-insured retentions ("SIR") must be disclosed to Risk Management for approval and shall not reduce the limits of liability.

CITY reserves the right to obtain a full certified copy of any insurance endorsements. The failure to exercise this right shall not constitute a waiver of such right.

g. Waiver of Subrogation. RECRUITER hereby agrees to waive subrogation which any insurer of RECRUITER may acquire from RECRUITER by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability or Automobile Liability policy. All Workers Compensation, Commercial General Liability and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of CITY, its officers, agents, employees and volunteers for all work performed by RECRUITER, its employees, agents and subcontractors.

h. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve RECRUITER of liability in excess of such coverage, nor shall it preclude CITY from taking such other actions as are available to it under any other provisions of this Agreement or law.

8. Indemnification. To the fullest extent allowed by law, RECRUITER shall defend, indemnify, and save and hold harmless CITY, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from or arising out of RECRUITER's willful misconduct or negligent act or omission while engaged in the performance of obligations or exercise of rights created by this Agreement, except those matters arising from CITY's sole negligence or willful misconduct. The parties intend that this provision shall be broadly construed.

RECRUITER agrees to defend and indemnify CITY if, despite the parties intent and practice, any venue, agency, or court with competent jurisdiction determines that RECRUITER and/or any of its agents, officers, employees, volunteers, independent contractors, or subcontractors, are characterized as employee(s) of CITY.

RECRUITER's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.

9. Notice. All notices, invoices, reports or other communication required by this Agreement shall be properly given if delivered in person, or sent by first class mail, facsimile, or overnight delivery to the following addresses:

CITY:

Human Resources Department
311 Vernon Street
Roseville, CA 95678

RECRUITER

Frank Rojas, Recruitment Manager
2835 Seventh Street
Berkeley, CA 94710

Either party may amend its address for notice by giving notice to the other party.

10. Assignment. RECRUITER is employed to perform unique personal services. RECRUITER shall not assign this Agreement without the prior written consent of CITY. RECRUITER shall not employ or otherwise incur any obligation to pay other specialists or experts for services in connection with this Agreement, without prior written consent of CITY.

11. Attorney's Fees; Venue; Governing Law. If either party commences any legal action against the other party arising out of this Agreement or the performance hereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorney's fees. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.

12. Ability to Perform. RECRUITER agrees and represents that it has the time, ability and professional expertise to perform the services required under this Agreement.

13. Compliance with Laws. RECRUITER shall comply with all federal, state and local laws, ordinances and policies as may be applicable to the performance of services under this Agreement.

14. Governing Agreement. In the event of any conflict between this Agreement and its EXHIBITS, the provisions of this Agreement shall govern. In the event of any conflict between any of the EXHIBITS, the provisions of the first in order of attachment shall govern.

15. Successors in Interest. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.

16. Copyright, Ownership and Use of Materials. All tangible material ("Material") created or delivered pursuant to this Agreement is considered a work made for hire under the Copyright Act. To the extent such Material does not qualify as a work made for hire, RECRUITER hereby assigns to CITY all right, title, and interest, including but not limited to all copyrights, in all Material created by RECRUITER in its performance under this Agreement. Material constitutes the scope of work outlined in Exhibit A and attached hereto, and all written and other tangible expressions, including but not limited to, drawings (including computer aided drawings), papers, documents, reports, surveys, renderings, exhibits, sketches, maps, models, prints, paintings or photographs, in any and all media or formats in which such materials have been created or are maintained. All Material furnished by RECRUITER is, and shall remain, the property of CITY. However, RECRUITER shall retain sole and exclusive ownership of all right, title, and interest in, and to, its intellectual property and derivatives thereof which no data or Confidential Information of the CITY was used to create and which was developed entirely using RECRUITER's own resources, including any and all pre-existing or independently developed know-how, methods, processes and other materials prepared by RECRUITER. To the extent RECRUITER's intellectual property is necessary for the CITY to use the deliverables, provided under this Agreement, RECRUITER grants to CITY a non-exclusive, royalty-free license to RECRUITER's intellectual property solely for CITY's use of such deliverables.

RECRUITER shall execute any documents necessary to effectuate such assignment. In the event that RECRUITER uses, employs, designates, or retains any person or entity who is not an employee of RECRUITER, to perform any work required of it pursuant to this Agreement, RECRUITER shall require said person or entity to execute an agreement containing the preceding paragraph.

17. Records. RECRUITER and its subcontractors shall maintain all files and records relating to the services performed hereunder during the term of this Agreement and for a period of not less than one (1) year after the date of termination or expiration. Provided, however, that in the event of litigation or settlement of claims arising from the performance of this Agreement, RECRUITER and its subcontractors shall maintain all files and records until such litigation, appeals or claims are resolved. Duly authorized representatives of CITY shall have right of access during normal business hours and after reasonable notice to RECRUITER's and subcontractors' files and records relating to the services performed hereunder, and may review and copy the files and records at appropriate stages during performance of the services and during the one (1) year period following termination or expiration of this Agreement. RECRUITER shall include the provisions in its contracts with all subcontractors.

18. Time is of the Essence. Time is of the essence of this Agreement.

19. Representations and Warranties. RECRUITER warrants that it has not employed or retained any company or person, other than a bona fide employee working for RECRUITER, to solicit or secure this Agreement, and that it has not paid or agreed to pay any company or person, other than a bona fide employee, any fee, commission, percentage, brokerage fee, gift or any other consideration, contingent upon or resulting from the award or making of this Agreement. For breach or violation of this warranty, CITY shall have the right to terminate as void this Agreement, without liability, or, in its discretion, to deduct from the Agreement price or consideration, or otherwise recover, the full amount of such fee, commission, percentage, brokerage fee, gift or contingent fee.

20. Severability. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.

21. Integrated Agreement. This is an integrated Agreement and contains all of the terms, considerations, understandings and promises of the Parties. It shall be read as whole.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this Agreement in duplicate by its City Manager and attested to by its City Clerk under the authority of Resolution No. _____, adopted by the Council of the City of Roseville on the ____ day of _____, 20__, and RECRUITER has caused this Agreement to be executed.

EXHIBIT “A”

September 26, 2022

City of Roseville
Attn: City Clerk Department
311 Vernon Street,
Roseville, CA 95678

Dear City Clerk Department,

Thank you for the opportunity to submit our proposal in response to RFP #11-015 - On-Call Executive Search Firms/Recruitment Consultants, to assist the City of Roseville with Executive Recruitment services. We are excited about the possibility of developing this partnership and supporting the City with upcoming executive searches. Koff & Associates (K&A) Recruiting, a Gallagher company, is uniquely qualified based on over 37 years of assisting public agencies with finding and placing candidates dedicated to public service.

Our unique selling proposition lies in K&A Recruiting's experience supporting public sector clients in California and throughout the USA. Through our investment in modern recruitment technology, we offer forward-thinking services that not only provide advanced extensive sourcing and outreach but allow us to tell the story of each project through easy-to-understand data.

Conducting countless executive search efforts has made K&A Recruiting an expert in identifying, targeting, recruiting, and successfully placing women and minority candidates in many of our recruitments. Diversity recruiting is an area of focus, and our firm has a vast pool of resources at our fingertips to provide outreach on an industry-wide basis to the public and private sector for qualified candidates nationwide. We pride ourselves on transparency, flexibility, and quality work.

We acknowledge the requirements outlined in the RFP, as well as Addendum 1 issued on September 9, 2022.

As K&A's Recruitment Manager, I can answer any questions you may have. You can reach me at (510) 495-0448 or frojas@koffassociates.com.

Sincerely,

Frank Rojas
Recruitment Manager

TAB A: FIRM'S QUALIFICATIONS

BUSINESS INFORMATION

Koff & Associates ("K&A") is a full spectrum, public-sector human resources and recruiting services firm founded by Gail Koff in 1984 and has been assisting cities, counties, special districts, other public agencies, and non-profit organizations.

As of April 30, 2021, we merged with Arthur J. Gallagher and are now officially a Gallagher Division. Our headquarters are in Berkeley, CA, and we have satellite offices in Southern California, the Central Valley, the Sacramento Region, and the Western US Region. GALLAGHER BENEFIT SERVICES, INC. is our legal name. It is a Delaware company, and the FEIN is 36-4291971.

EXPERIENCE AND QUALIFICATIONS

With 37 years of HR experience, K&A Recruiting knows public sector employment inside and out. We are familiar with public sector organizational structures, agency missions, operational and budgetary requirements, and staffing expectations. Our team is ready to support you at any level you wish – providing sourcing expertise, full-cycle recruitment at the start of your search through the start date of your newest employee, and everything in between.

We build enduring relationships	K&A Recruiting provides personal attention to and creates long-term relationships with our clients. Because we care about and understand your organization's people, culture, leadership, and unique needs, we identify highly qualified candidates to support your goals.
We value strength in diversity	We source top talent reflective of the communities you serve. With our focus on inclusion, networking and partnering with minority-based associations, utilizing bias-reducing tools, and drawing from our own employees' certification training, we are leaders in public sector Diversity and Inclusion.
We leverage innovative search technology	K&A Recruiting uses advanced programs and unique sourcing methods to identify candidates which traditional recruiting strategies might have missed. We continuously gather and analyze important data points and are always looking ahead at how we can use information technology to better serve you.

Our long list of clients indicates our firm's reputation as a quality organization that produces comprehensive, sound, and cost-effective results. K&A Recruiting is "hands on" and responsive with the ability and expertise to identify the ideal candidate(s) for the City of Roseville.

K&A Recruiting uses its vast network to leverage recommendations and referrals of past clients in combination with modern sourcing techniques and technology to build the best candidate pools in the market. We are a team of true recruiters with over 60 years of combined experience. Our work speaks for itself, and our primary goal is to provide professional and technical consulting assistance with integrity, honesty, and a commitment to excellence.

ORGANIZATIONAL CHART & INFORMATION

Our team consists of 36 employees as shown below in our organizational chart.

Over the last several years, our team has steadily grown from numbering in the twenties to the thirties. We expect continued increase in staffing and are actively hiring as business continues to grow. We merged with Arthur J. Gallagher and are now officially a Gallagher Division as of April 2021, and this gives us access to a huge additional network of professionals.

TAB D: RECRUITMENT UNDERSTANDING

RECRUITMENT PLAN

As we detail further in our Project Approach/Methodology in the next section, our recruitments start with developing the profile for the ideal job candidate. We coordinate with the City in identifying and developing organizational needs, vision, mission, goals, strengths, challenges, opportunities, and culture of the organization. We align these to the knowledge, skills, and abilities as well as the personal and professional attributes required of and priorities for the new incumbent. After meeting(s) with the Hiring Authority, there will be a consensus of the key qualifications and characteristics of the position and the process, action plan, and timetable to be utilized for the recruitment process.

Following the development of the candidate profile, an eye-catching recruitment brochure will be professionally produced in coordination with the City's feedback. This brochure features the organizational structure and services of the City, its mission and goals, pertinent facts regarding the position, and necessary and desirable candidate qualifications.

At the request of the City, at this stage K&A can facilitate community surveys or community outreach forums to encourage feedback from residents. A report of resident comments will be provided prior to first-round interviews.

After the job is posted and begins being advertised, our team will identify prospects, provide each potential candidate the recruitment brochure, document interested candidates in our recruitment project database, and eventually produce a report for the City, including candidate documents, interview notes, and an outline of the recruitment process. This report serves to further narrow the pool to the most highly qualified and establish the best organizational fit of each potential finalist. This screening process is designed to assess personal and professional attributes the City has identified and will focus on each candidate's ability, technical competency, and fit with the City's values, culture, and needs.

Next, we assist in scheduling and preparation for second round interviews. We develop and help select a menu of questions that help analyze candidates' qualifications and management/work styles. We will facilitate all necessary communications between the City and candidates as needed to ensure everyone is well prepared. Interview questions will elicit information about each candidate's technical skill set, experience, leadership skills, adaptability, political astuteness, self-awareness, and other important aspects of the ideal candidate profile.

Questions, evaluation tools, and additional materials will be assembled in intuitive and user-friendly interview packets. We will use evaluation criteria agreed to by the City. We will provide oversight during the panel interview process and facilitate a focused discussion with the City and their chosen interview panel at the beginning and conclusion of the interviews to identify the most qualified candidate(s) for final interviews.

Finally, K&A Recruiting provides a thorough and quality reference and background check process for our clients. We start by calling candidates' employment and professional references and having an in-depth discussion, covering their strongest business characteristics, work style, interpersonal skills, and position-specific knowledge. All references will be documented and presented in a concise, user-friendly manner.

Background checks are conducted in coordination with a third-party firm to verify educational degrees and employment records, **and** to confirm clear driving records, criminal records, and financial history/credit. Reports can be tailored to clients' needs upon request. Safety for clients and their communities is our priority, so rest assured that we, as well as our background contract firm, meet or exceed relevant reporting requirements.

K&A Recruiting can facilitate and lead the negotiations of the final terms and conditions of employment, such as the compensation package, benefits, and other perquisites (perks). We will notify all candidates not selected as finalists for the position.

TAB E: PROJECT PLAN

PROJECT APPROACH/METHODOLOGY

Our philosophy ensures thorough, thoughtful, and strategic sourcing, evaluation, selection, and vetting of candidates. We reach out directly to potential candidates, referral sources, professional associations, and user groups, etc. by using business media, outreach emails, general advertising, and most importantly picking up the phone and actively calling passive applicants. This strategy also includes focused advertising on websites and in publications specific to women and minority candidates.

K&A Recruiting will provide weekly progress reports to the City and participate in conference calls and onsite meetings as requested.

We are responsible for ensuring compliance, adhering to, and maintaining all legally mandated documentation throughout the process.

Step 1: Ideal Candidate Profile

Developing the profile for the ideal job candidate for the position is crucial for a successful search process.

We will coordinate with the City in identifying and developing:

- The various organizational needs, vision, mission, goals, strengths, challenges, opportunities, and culture of the organization;
- Position competency requirements, i.e., knowledge, skills, and abilities;
- Personal and professional attributes required of and priorities for the new incumbent;
- Type of working relationship senior leadership desire with the new incumbent;
- Advertising strategies in conjunction with a national and/or regional outreach campaign;
- Compensation levels; and
- Schedule of deliverables from K&A Recruiting.

After meeting(s) with the City, there will be a consensus of the key qualifications and characteristics of the position and the process, action plan, and timetable to be utilized for the recruitment process.

Brochure Design & Posting

Following the development of the candidate profile, an eye-catching recruitment brochure will be professionally produced in coordination with the City's feedback. The brochure will highlight the strengths of the City of Roseville and the surrounding community. The brochure will feature the organizational structure and services of the City, its mission and goals, pertinent facts regarding the position, and necessary and desirable candidate qualifications.

Step 2: Five Week Window of Application & Sourcing

K&A Recruiting can, at the request of the City, facilitate community surveys or community outreach forums to encourage feedback from residents. A report of resident comments will be provided to the City prior to first-round interviews.

Our effort will include a variety of activities designed to build the best available candidate pool. Our techniques and methodologies allow us to source from extensive pools of potential candidates and referral sources.

In coordination with the City, K&A Recruiting will:

- Identify prospects;
- Provide each potential candidate with access to the recruitment brochure;
- Capture interested candidates in our recruitment project database; and
- Provide representative data to the City, including candidate documents, interview notes, and an outline of the recruitment process.

Step 3: Recommendation of Candidates

K&A Recruiting will provide the City with a report of the leading candidates to further narrow the pool to the most highly qualified and establish the best organizational fit of each potential finalist. This screening process is specifically designed to assess the personal and professional attributes the City has identified and will focus on each candidate's ability, technical competency, and fit with the City's values, culture, and needs. Our assessment will consist of:

- Experience and qualifications;
- Cultural fit based on our understanding of essential intangibles;
- Clarity of any issues identified in the submitted documents;
- Reasons for position interest,
- The level of commitment to the position and the organization; and
- Other issues, including salary requirements.

Step 4: Interview Facilitation

We will advise and develop interviewing strategies and a menu of questions that will help analyze candidates' qualifications and management/work styles. We will facilitate all necessary communications with the Hiring Authority and candidates to ensure everyone is well prepared.

Interview questions will elicit information about each candidate's technical skill set, experience, leadership skills, adaptability, political astuteness, self-awareness, and other important aspects of the ideal candidate profile.

Questions, evaluation tools, and additional materials will be assembled in intuitive and user-friendly interview packets. We will use evaluation criteria agreed to by the City.

The Project Manager will coordinate interviews, interview schedules, and finalize the process. We will provide oversight during the panel interview process and facilitate a focused discussion with the City at the beginning and conclusion of the interviews to identify the most qualified candidate(s) for final interviews.

Step 5: Background, References, and Offer

K&A Recruiting provides a thorough and quality reference and background check process for our clients. We start by calling candidates' employment and professional references and having an in-depth discussion, covering their strongest business characteristics, work style, interpersonal skills, and position-specific knowledge. All references will be documented and presented in a concise, user-friendly manner.

Background checks are conducted in coordination with a third-party firm to verify educational degrees and employment records and confirm clear driving records, criminal records, and financial history/credit. Reports can be tailored to clients' needs upon request. Safety for clients and their communities is our priority, so rest assured that we, as well as our background contract firm, meet or exceed relevant reporting requirements.

K&A Recruiting can facilitate and lead the negotiations of the final terms and conditions of employment, such as the compensation package, benefits, and other perquisites (perks). We will notify all candidates not selected as finalists for the position.

Project Schedule

The following is a typical schedule for conducting recruitment efforts. Search efforts for executive recruitments generally take twelve to fourteen (12-14) weeks to complete, allowing time for all steps of the process and client schedules.

Weeks	2	4	6	8	10	12	14
Step 1							
Step 2							
Step 3							
Step 4							
Step 5							

Recruiting Process During Covid-19 Crisis

We will work to counterbalance market forces and build a pipeline of potential candidates through strong marketing and branding efforts, including videos, job postings, and a social media campaign. Our ongoing communication with candidates helps with reputation and keeps them engaged; so, when there is an opportunity that matches their background, we reduce the time-to-hire. As always, communication is key. Candidates who experience a warm, communicative recruitment experience are more likely to maintain their interest and are more likely to feel welcomed into the organization. The recruitment experience is the first impression your employee receives and is a crucial factor in employee engagement and tenure.

We have embraced the virtual interview. The push into virtual technologies due to the pandemic was generally new for many public agencies. Our crystal ball tells us that virtual interviewing is not going away regardless of how the public sector world evolves going forward beyond the pandemic. Although virtual interviewing may have become necessary during this crisis, it is not a temporary strategy that should fall to the wayside; how we communicate in virtual interviews is essential and will continue to be as we move forward.

To conduct an effective virtual interview, simple steps can be taken to ensure a predictable and high-quality process. We will be clear on exactly how the interview process will go and what candidates should expect. We are savvy at navigating the technology and can help with technical challenges on the fly. Coaching panel members to maintain a professional demeanor during virtual interviews and eliminate smartphone or other competing screen distractions, just as you would in person, can also help the process.

K&A Recruiting Organizational Diversity Statement

This statement reaffirms our commitment to affirmative action efforts and providing equal employment opportunities to all employees and applicants for employment in accordance with equal opportunity and affirmative action laws.

We affirm our personal and official support of these policies, which provide that K&A Recruiting is committed to implementing the affirmative action policies, programs, and procedures included in this plan to ensure that employment practices are free from discrimination. Employment practices include but are not limited to the following: hiring, promotion, demotion, transfer, recruitment or recruitment advertising, layoff, disciplinary action, termination, rates of pay or other forms of compensation, and selection for training, including apprenticeship. We will provide reasonable accommodation to applicants and employees with disabilities.

TAB F: COST PROPOSAL

PRICING PROPOSAL

Project

- Executive Recruitment Services

Professional Fee and Expenses

- Total not-to-exceed professional fee of \$25,000 per recruitment, which includes all professional services and expenses, including brochure development and design, advertising, printing and shipping, associated consultant travel if required, and background.
- Invoices will be billed monthly in four equal increments of \$6,250 per recruitment.

Note: Expenses do not include candidate travel.

Optional: Recruitment Video

In addition to the standard recruitment brochure, K&A can develop a Recruitment Video to better highlight the positive elements of the organization and community. These videos have proven to attract more job seekers and effectively expand the talent pool. Videos run approximately three-minutes in length and highlight the workplace environment, local landscape, and include interviews with selected staff. This video is optional and costs \$3,500.

Placement Guarantee

K&A Recruiting is committed to recommending only the most qualified candidates who meet all the necessary requirements and qualifications and are also a cultural fit for the City. We proactively recruit for each search effort until a successful candidate is placed.

Therefore, we promise to present to the City a selective pool of candidates that met or exceeded our standards during the thorough screening processes and have been identified as ideal matches for the position. Should the City disapprove of all final candidates or should none pass the final interview and reference check process, we will work to find a new slate of candidates at no added cost, with the possible exception of necessary advertising.

In addition, for full recruitments for executive and mid-management positions, should the incumbent leave the position or be terminated from employment within 12 months of hire due to performance issues, we commit to conducting a one-time additional executive search to identify a replacement and only charge related expenses as described in the Pricing Proposal.

Overall, K&A Recruiting's retention rate during the first 12 months of hire is robust and has been above 95% over the last 37 years.

GALLAGHER BENEFIT SERVICES, INC.

SECRETARY'S CERTIFICATE

RESOLUTION NO. 23-008

APPROVING AN AGREEMENT FOR RECRUITMENT SERVICES, BY AND BETWEEN
THE CITY OF ROSEVILLE AND WBCP, INC., AND AUTHORIZING THE CITY
MANAGER TO EXECUTE IT ON BEHALF OF
THE CITY OF ROSEVILLE

WHEREAS, an Agreement for Recruitment Services, by and between the City of Roseville and WBCP, Inc., has been reviewed by the City Council; and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that said agreement is hereby approved and that the City Manager is authorized to execute it on behalf of the City of Roseville.

PASSED AND ADOPTED by the Council of the City of Roseville this ____ day of _____, 2023, by the following vote on roll call:

AYES COUNCILMEMBERS:

NOES COUNCILMEMBERS:

ABSENT COUNCILMEMBERS:

MAYOR

ATTEST:

City Clerk

AGREEMENT FOR RECRUITMENT SERVICES

THIS AGREEMENT is made and entered into this ____ day of _____, 20__, by and between the City of Roseville, a municipal corporation (“CITY”), and the recruitment firm WBCP, Inc., an Oregon corporation (“RECRUITER”); and

WITNESSETH:

WHEREAS, CITY from time to time is in need of executive recruitment and search firms to provide recruitment and search services and assistance to the Roseville Human Resources Department (“HR”); and

WHEREAS, RECRUITER is willing to provide such services on a per recruitment task-based basis; and

NOW, THEREFORE, the Parties agree as follows:

1. Scope of Services and Duties. CITY retains RECRUITER to provide recruitment and search services from time to time upon the request of HR to advise, assist, and search for candidates for CITY employment, as more fully described in EXHIBIT “A” attached hereto and incorporated herein by reference.
2. Specific Work Assignments. RECRUITER shall receive work assignments from HR on an as-needed basis. The work assignments shall generally be communicated by written notice from HR to RECRUITER. If a work assignment is communicated orally, RECRUITER shall provide a written confirmation to HR describing the work assignment. CITY reserves the right to unilaterally assign similar work to other recruitment firms, as it deems prudent, and the use of RECRUITER shall in no way be considered an exclusive agreement to provide or use similar services. CITY makes no specific guarantee of a minimum or maximum number of hours or amount of tasks, assignments, or services. The assignment of any work hereunder is expressly contingent upon the availability of funds.
3. Fees for Services. For services performed under this Agreement, CITY shall pay RECRUITER in accordance with the fee schedules and rates included in EXHIBIT “A” and that in no event, inclusive of any and all fees, costs, reimbursable expenses, or any other charge, shall any single assignment and recruitment exceed thirty-two thousand dollars (\$32,000).
4. Statements and Payments. RECRUITER shall provide invoices to the CITY for all fees and expenses. The invoice(s) shall be itemized to include the task completed and a description of the services performed. Invoices shall be considered due and payable upon receipt, and shall be overdue 30 days after receipt.
5. Term; Termination; Amendments. This Agreement shall be effective upon approval by the Roseville City Council and shall continue in effect for a period of five (5) years, or until terminated by either Party. This Agreement may be terminated by CITY, with or without

cause, at any time upon written notice. RECRUITER may terminate this Agreement only upon the consent of CITY or upon 60 days written notice. Upon termination, RECRUITER shall turn over all client files to CITY. There shall be no amendment or modification to this Agreement except by written agreement between the Parties.

6. Independent Contractor. RECRUITER, inclusive of its agents, officers, employees, volunteers, independent contractors, and subcontractors, shall act as an independent contractor, and covenants and agrees that it will conduct itself consistent with such status, that it will neither hold itself out as, nor claim to be, an officer or employee of CITY by reason of this Agreement.

RECRUITER and CITY agree that: (a) RECRUITER is free from the control and direction of CITY in connection with the performance of the work; (b) RECRUITER is providing services directly to CITY; (c) RECRUITER has and will maintain at all relevant times a business license; (d) RECRUITER maintains a business location that is separate from CITY; (e) RECRUITER is customarily engaged in an independently established business of the same nature as that involved in the work performed hereunder; (f) RECRUITER actually contracts with other businesses to provide the same or similar services and maintains a clientele without restrictions from CITY; (g) RECRUITER advertises and holds itself out to the public as available to provide the same or similar services; (h) RECRUITER provides its own tools, vehicles, and equipment to perform the services; (i) RECRUITER has negotiated its own rates; (j) RECRUITER set its own hours and location of work in accomplishing CITY's on-call needs; and (k) RECRUITER has the right to control the manner and means of accomplishing the result desired and exercises its own expert independent judgement.

7. Insurance. RECRUITER agrees to continuously maintain, in full force and effect, the following minimum policies of insurance during the term of this Agreement.

<u>COVERAGE</u>	<u>LIMITS OF LIABILITY</u>
Workers' Compensation	Statutory
Commercial General Liability	\$1,000,000 each occurrence \$2,000,000 aggregate Personal Injury: \$1,000,000 each occurrence \$2,000,000 aggregate
Automobile Liability	\$1,000,000 combined single limit
Professional Liability (errors and omissions)	\$1,000,000 per claim \$2,000,000 aggregate

a. Form. RECRUITER shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made

basis is subject to the approval of Risk Management and the City Attorney.

b. Additional Insureds. RECRUITER shall also provide a separate endorsement form or section of the policy showing CITY, its officers, agents, employees and volunteers as additional insureds for each type of coverage, except for Workers' Compensation and Professional Liability. Such insurance shall specifically cover the contractual liability of RECRUITER. The additional insured coverage under the RECRUITER's policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy, and shall not seek contribution from CITY's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office ("ISO") CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.

c. Cancellation/Modification. RECRUITER shall provide ten (10) days written notice to CITY prior to cancellation or modification of any insurance required by this Agreement.

d. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of CITY (if agreed to in a written contract) before CITY's own insurance shall be called upon to protect it as a named insured.

e. Subcontractors. RECRUITER agrees to include in its contracts with all subcontractors the same requirements and provisions of this Agreement, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor's work. Furthermore, RECRUITER shall require its subcontractors to agree to be bound to RECRUITER and CITY in the same manner and to the same extent as RECRUITER is bound to CITY under this Agreement. Additionally, RECRUITER shall obligate its subcontractors to comply with these same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of CITY's indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request.

f. Self-Insured Retentions. All self-insured retentions ("SIR") must be disclosed to Risk Management for approval and shall not reduce the limits of liability.

Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or CITY. CITY reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

g. Waiver of Subrogation. RECRUITER hereby agrees to waive subrogation which any insurer of RECRUITER may acquire from RECRUITER by virtue of the payment of

any loss under a Workers Compensation, Commercial General Liability or Automobile Liability policy. All Workers Compensation, Commercial General Liability and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of CITY, its officers, agents, employees and volunteers for all work performed by RECRUITER, its employees, agents and subcontractors.

h. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve RECRUITER of liability in excess of such coverage, nor shall it preclude CITY from taking such other actions as are available to it under any other provisions of this Agreement or law.

8. Indemnification. To the fullest extent allowed by law, RECRUITER shall defend, indemnify, and save and hold harmless CITY, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from or arising out of RECRUITER's willful misconduct or negligent act or omission while engaged in the performance of obligations or exercise of rights created by this Agreement, except those matters arising from CITY's sole negligence or willful misconduct. The parties intend that this provision shall be broadly construed.

RECRUITER agrees to defend and indemnify CITY if, despite the parties intent and practice, any venue, agency, or court with competent jurisdiction determines that RECRUITER and/or any of its agents, officers, employees, volunteers, independent contractors, or subcontractors, are characterized as employee(s) of CITY.

RECRUITER's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.

9. Notice. All notices, invoices, reports or other communication required by this Agreement shall be properly given if delivered in person, or sent by first class mail, facsimile, or overnight delivery to the following addresses:

CITY:

Human Resources Department
311 Vernon Street
Roseville, CA 95678

RECRUITER

Wendi Brown, Founder/President
P.O. Box 909
360 Riverside Avenue
Gold Hill, OR 97525

Either party may amend its address for notice by giving notice to the other party.

10. Assignment. RECRUITER is employed to perform unique personal services. RECRUITER shall not assign this Agreement without the prior written consent of CITY.

RECRUITER shall not employ or otherwise incur any obligation to pay other specialists or experts for services in connection with this Agreement, without prior written consent of CITY.

11. Attorney's Fees; Venue; Governing Law. If either party commences any legal action against the other party arising out of this Agreement or the performance hereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorney's fees. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.

12. Ability to Perform. RECRUITER agrees and represents that it has the time, ability and professional expertise to perform the services required under this Agreement.

13. Compliance with Laws. RECRUITER shall comply with all federal, state and local laws, ordinances and policies as may be applicable to the performance of services under this Agreement.

14. Governing Agreement. In the event of any conflict between this Agreement and its EXHIBITS, the provisions of this Agreement shall govern. In the event of any conflict between any of the EXHIBITS, the provisions of the first in order of attachment shall govern.

15. Successors in Interest. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.

16. Copyright, Ownership and Use of Materials. All tangible material ("Material") created or delivered pursuant to this Agreement is considered a work made for hire under the Copyright Act. To the extent such Material does not qualify as a work made for hire, RECRUITER hereby assigns to CITY all right, title, and interest, including but not limited to all copyrights, in all Material created by RECRUITER in its performance under this Agreement. Material constitutes the scope of work outlined in Exhibit A and attached hereto, and all written and other tangible expressions, including but not limited to, drawings (including computer aided drawings), papers, documents, reports, surveys, renderings, exhibits, sketches, maps, models, prints, paintings or photographs, in any and all media or formats in which such materials have been created or are maintained. All Material furnished by RECRUITER is, and shall remain, the property of CITY.

RECRUITER shall execute any documents necessary to effectuate such assignment. In the event that RECRUITER uses, employs, designates, or retains any person or entity who is not an employee of RECRUITER, to perform any work required of it pursuant to this Agreement, RECRUITER shall require said person or entity to execute an agreement containing the preceding paragraph.

17. Records. RECRUITER and its subcontractors shall maintain all files and records relating to the services performed hereunder during the term of this Agreement and for a period of not less than one (1) year after the date of termination or expiration. Provided, however, that

in the event of litigation or settlement of claims arising from the performance of this Agreement, RECRUITER and its subcontractors shall maintain all files and records until such litigation, appeals or claims are resolved. Duly authorized representatives of CITY shall have right of access during normal business hours and after reasonable notice to RECRUITER's and subcontractors' files and records relating to the services performed hereunder, and may review and copy the files and records at appropriate stages during performance of the services and during the one (1) year period following termination or expiration of this Agreement. RECRUITER shall include the provisions in its contracts with all subcontractors.

18. Time is of the Essence. Time is of the essence of this Agreement.

19. Representations and Warranties. RECRUITER warrants that it has not employed or retained any company or person, other than a bona fide employee working for RECRUITER, to solicit or secure this Agreement, and that it has not paid or agreed to pay any company or person, other than a bona fide employee, any fee, commission, percentage, brokerage fee, gift or any other consideration, contingent upon or resulting from the award or making of this Agreement. For breach or violation of this warranty, CITY shall have the right to terminate as void this Agreement, without liability, or, in its discretion, to deduct from the Agreement price or consideration, or otherwise recover, the full amount of such fee, commission, percentage, brokerage fee, gift or contingent fee.

20. Severability. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.

21. Integrated Agreement. This is an integrated Agreement and contains all of the terms, considerations, understandings and promises of the Parties. It shall be read as whole.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this Agreement in duplicate by its City Manager and attested to by its City Clerk under the authority of Resolution No. _____, adopted by the Council of the City of Roseville on the ____ day of _____, 20__, and RECRUITER has caused this Agreement to be executed.

I. COVER LETTER.....

September 26, 2022

City of Roseville
Attn: City Clerk Department
311 Vernon Street
Roseville, CA 95678

RE: RFP #11-015 On-Call Executive Search Firms/Recruitment Consultants

It is our pleasure to submit this proposal for recruitment services to secure your ideal candidates for the City of Roseville's on-call recruitment needs. We trust our proposal will showcase our client-focused recruitment process and will act as a testament that we are passionate about what we do to make our clients happy. **After having partnered with the City of Roseville on critical recruitments such as (but not limited to) City Clerk, Power Engineer, Public Works Director, Electric Utility Director, and Assistant Finance Director, we are excited to be considered for these services and thankful for the opportunity to continue to work with the City.**

It has been proven that great employees are looking for great employers, not just a paycheck. WBCP provides a broader perspective to recruitment services – going beyond securing the ideal candidate – we brand your organization as an employer of choice. We use eye-catching marketing materials, innovative search practices, and responsive and respectful communications with your applicants and stakeholders. **We guarantee we will fill your positions, and we guarantee those placements for 12 - 24 months (depending on the position).** We provide a fair and equal recruitment process that also focuses on attracting ethnic and gender-diverse applicant pools.

WBCP is talented at working with you to identify the strengths, challenges, and opportunities of this job, the ideal candidate, and your community and organizational culture. WBCP will work with your stakeholders to design a recruitment strategy that will include a customized engagement process. We will have a series of meetings, discussions, stakeholder interviews, and survey(s) to get to know you, the organization, community, culture, and staff that any future selected candidates will lead.

My team and I know the California candidate marketplace and have worked with the City of Roseville on many recruitments. During these recruitments, we have gotten to know your City, leaders, and community quite well! Visit pages 5 - 14 of this proposal for a full list of successful recruitments WBCP has conducted.

Sam Sackman, WBCP's Vice President, and/or I will be the lead on these recruitments. I lived in California for over 35 years and have over 20 years of experience in executive search services, six years of which were working for the County of Orange, and I have owned and operated WBCP since 2004. **Sam Sackman lives and works out of our Roseville offices** and spent the latter part of her career working directly for Valley Water in the Executive Office gaining a deep understanding of the inner workings of executive-level positions. WBCP now has offices in Oregon, Washington, and California, including two offices in the South Bay Area, the Greater Sacramento Area, and Central California.

WBCP, Inc. staff are experts in the virtual and hybrid recruitment process. We are providing these services seamlessly and will be able to effectively support a virtual recruitment process or coordinate COVID-compliant in-person interviews and/or hybrid virtual and/or in-person interviews; WBCP is willing to travel during COVID.

I. COVER LETTER.....

Recruiting top talent has become the number-one topic amongst administrators. New and innovative recruitment strategies are critical to identifying and securing candidates with a deep understanding of how to assess and meet community needs and address future challenges. WBCP understands the complexity of community leadership, and we are prepared to provide a thorough, complete, and fair recruitment process to provide a diverse applicant pool. **Upon our 2021 year-end review, we found that over the last three years, 62% of our applicants and 56% of candidates placed in leadership positions with our clients came from diverse backgrounds.** In fact, because of our ability to reach diverse applicant pools, we were hired by two national Latino organizations to recruit for an Executive Director and other leadership positions: Latino Public Broadcasting and Radio Bilingüe (two of the largest Latino national nonprofit organization in the U.S.).

Clients choose our firm over others because of our ability to work with your support staff and stakeholder group (including boards, appointed/elected officials, and engaged constituents), manage all details of a recruitment process, and secure great candidates. Our dedication and commitment to the client are complemented by our deep understanding and ability to effectively navigate challenging political climates. Our clients have great things to say about the quality of the service we provide and the amazing candidates we find them. In fact, many of our clients are return customers. Please feel comfortable reaching out to these organizations to get their feedback directly.

DIVERSITY

56%

*of WBCP candidates
placed in leadership
positions come from a
diverse background*

Lastly, I love what I do, and I am passionate about finding exceptional candidates who are also passionate about serving others. My staff and I are driven and desire to exceed client expectations. I appreciate your consideration in retaining our services and hope to have an opportunity to work with you in the future. **WBCP will perform the services and adhere to the requirements described in the RFP, including any addenda.**

Best Regards,

VII. RECRUITMENT UNDERSTANDING.....

Roseville is an incredibly unique city in California and through WBCP's past recruitments with the city and with our Vice President, Sam Sackman, living in Roseville, we have a deep understanding of not only the services requested in this RFP, but the community that the City serves. Branding your organization as an employer of choice and branding your City as an ideal place to live, work, and play is critical to the recruitment process – we want to make sure we find the ideal candidates who are excited about the upcoming challenges the City may be facing and has a proven track record of resolving similar issues. WBCP will work with decision makers for each recruitment to take a deep dive into the accomplishments the City is looking for in the coming years to ensure we are finding the ideal candidates to empower those achievements.

VIII. SAMPLE BROCHURES.....

Click on the links below to see our marketing samples for similar positions. To see all of our brochures, visit www.wbcpinc.com/job-board

- [Assistant Finance Director - City of Roseville](#)
- [City Clerk - City of Roseville](#)

IX. RECRUITMENT STRATEGY / PHASES.....

WBCP knows how to customize your search strategy to meet your unique recruitment needs. We customize your recruitment based on the specific needs, target audience, and challenges for each recruitment; however, below is a baseline approach for most recruitments.

CLIENT & STAKEHOLDER MEETINGS

We require the Client and/or Search Committee, and other stakeholders identified by the Client, be involved in the initial and final phases of this recruitment. These are critical phases to ensure we obtain a clear sense of the priorities and the successful hire of the right candidate. WBCP will meet with various stakeholders as warranted by the Client and the level of the position in the organization. These meetings will allow us an opportunity to gather information and gain knowledge about the organization, community, and unique aspects of the recruitment to design the ideal candidate professional profile, advertising materials, and strategic approach

PHASE I

FEEDBACK OUTCOME / TIMELINE DEVELOPMENT

Following the Client/stakeholder meetings, we will develop a detailed timeline for the recruitment along with a proposed advertising plan for approval.

CREATIVE DEVELOPMENT

Immediately following the client feedback activities, we will draft the competencies for the recruitment and advertising material/recruitment brochure for the Client's review. This information will summarize what was learned from Client-related interviews and will be used to advertise the opening.

MARKETING STRATEGY & IMPLEMENTATION

WBCP will execute a customized marketing/ad plan once the job announcement is created. An ad plan could include the following (based on assumptions), and will be customized based on information gathered in Phase I:

ONLINE ADVERTISING – Including local and national job boards, associations, social media, and other industry-related job postings targeting ideal candidates; job boards that reach a desired geographic area and reach a diverse ethnicity.

E-DIRECT MAIL ADVERTISING – including WBCP's current database of potential applicants, we have access to other professional lists and will source more lists through associations, contacts, etc.

SOURCING/HEAD HUNTING – WBCP will contact individuals targeted and generate new contacts through referrals made by respected sources.

WBCP is a LinkedIn recruiter and we have access to over 350 million profiles via LinkedIn to assist us in targeting ideal candidates.

PHASE II

COMMUNICATION WITH CLIENT

We will provide weekly updates on the progress of this search unless the client prefers more or less frequent communications. We tailor our communications in accordance with our Client's needs.

IX. RECRUITMENT STRATEGY / PHASES.....

RESUME ASSESSMENT

WBCP will review resumes as they are received and/or at the close of the recruitment. Those candidates determined to be the most highly qualified will be selected for a screening interview.

SCREENING INTERVIEWS / REPORT TO CLIENT

WBCP does not restrict the number of applicants or candidates to be screened.

Rather, we interview candidates who meet our ideal candidate criteria; frequently this group amounts to 20 candidates, or on average 20% of the applicant pool. Following the completion of the phone screen interviews, we will develop a report/recommended shortlist of candidates, which includes: resumes, cover letters, and a one-page profile summary of candidates' professional history, including a brief overview of WBCP's assessment and the results of their phone screen. We will meet with the selection committee/Client to review this report and select candidates for interviews. In this meeting, we will review the recruitment plan and discuss the final stages of the selection process.

COMMUNICATION WITH CANDIDATES

WBCP will take responsibility for communicating with the applicants/candidates during each phase of the search process and Client should refer any inquiries from potential or existing applicants directly to WBCP.

SELECTION PROCESS

WBCP will design and administer an appropriate final selection process based on the needs of the Client (tailored to the need and recruitment). WBCP will facilitate the invitation and coordination of these meetings/interviews and provide additional assessment tools/recommendations such as interview questions, writing and presentation exercises, problem solving scenarios, etc.

COMMUNICATION WITH CLIENT

Following the interviews and the Client's top candidate(s) selection, we will assist the Client with facilitating a thorough background and reference check. A typical approach includes a review of federal, state, and local criminal background checks and academic verification by a licensed background agency. Reference checks are conducted over the phone by a senior consultant and a final report is provided to the Client. References are completed on candidate(s) being considered after initial/panel interviews.

NEGOTIATIONS

Once the client reviews and is comfortable with the findings in the background and reference report, we are available to assist with negotiations on compensation, benefits, start date, and other transition details.

PLEASE NOTE: Due to COVID-19 Guidelines, WBCP, Inc. is committed to providing services listed herein, typically these services are executed in-person, however, we will facilitate all services virtually as needed and have successfully managed many virtual and hybrid interviews (partial in-person/part virtual) since March 2020 for our clients.

X. SCOPE OF WORK.....

- Facilitate initial kick-off meeting with Client and other meetings that may include Executive Leadership, staff, community, and other stakeholders to assist with identifying the ideal candidate profile.
- Assist Client hiring authority/stakeholders in modifying the job description (as needed), and develop a recruitment announcement, marketing materials, and advertising plan for the recruitment.
- Attend all other meetings and engagements as needed or identified by the Client.
- Implement advertising plan including: publication, headhunting, direct mail, and other online and email marketing efforts.
- Provide timely updates and progress reports to the client regarding search services; every two weeks or as Client identifies is needed.
- Preliminary internet searches will be conducted on recommended candidates.
- Coordinate interview panel(s) as needed, or coordinate this process with Client.
- Receive and review applicants and screen those applicants to identify top candidates. Top screened paper applicants will be video/phone screened by recruiter to identify the key competencies (technical and interpersonal) to assist in identifying the top group of candidates who will be recommended at the Client/WBCP shortlist meeting.
- Facilitate shortlist meeting with Client – review and select candidates who will be invited to interview.
- Coordinate invitations to candidates.
- Develop interview questions and other selection details to meet specific needs and identify key competencies of candidates.
- Facilitate interviews with panel(s).
- Background and reference checks will be conducted with candidates who are identified as final candidates after initial Client interviews have been conducted. Background checks will typically include the following: criminal (local, state, and federal), education, credit, social security. References will be conducted based on a 360-degree perspective and will include staff, peers, and superiors. Onsite background services are available at an additional fee (see fees for details)
- Facilitate offer and negotiations with selected candidate; as directed by Client.

XI. GUARANTEE.....

(1) We guarantee successful placement, and will provide continued consulting services (however, client will pay for any additional direct cost expenses) until we are successful.

(2) If a candidate selected and appointed by the Client terminates employment for any reason before the completion of the **first 12 to 24 months of service (depending on the position)**, WBCP will provide the Client with the necessary consulting services required to secure a replacement. Professional consulting services will be provided at no cost to the Client; however, additional expenses will be covered by the Client. *The Guarantee is valid for one recruitment/replacement only.*

XII. RECRUITMENT TIMELINE.....

*BELOW IS A SAMPLE OF AN EXECUTIVE SEARCH TIMELINE THAT
WBCP WILL CUSTOMIZE FOR THIS RECRUITMENT*

Week 1:

- Secure services with search firm, WBCP, Inc.
- WBCP: review search parameters and recruiting processes with Client
 - Interview with hiring authority and other stakeholders for competencies
 - Identification of advertising venues and ideal candidate prospects
 - Calls, meetings, or coordination with other stakeholders for information gathering

Weeks 1 + 2:

- Develop and approvals: recruitment process, deadlines, ad plan and strategy, recruitment timeline and brochure
- Print coordination (if applicable)

Weeks 2 + 3:

- **OPEN RECRUITMENT AND AD PLAN:** Implement marketing plan and direct mail (if applicable)
- Secure panel member calendars
- Timeline may be extended if direct mail piece is included (i.e., print/postage)
- Finalize panel members and interview logistics and invitations to panel members

Weeks 4, 5, + 6:

- Receive applications –Collect and source applicants will continue until recruitment closes

Weeks 7 + 8:

- **CLOSE RECRUITMENT AND ADVERTISING**
- Conduct initial phone screen to identify shortlist of candidates
- Preliminary check on shortlist candidates (Google search)
- Candidate profiles developed and short list recommendations to client

Weeks 9 + 10:

- **MEETING – Client confirms selection of candidates to be advanced to panel interviews**
- Finalize questions, presentation, in-basket (as determined)
- Coordinates invitations with selected top candidates (shortlist)
- Produce panel candidate interview packets

Weeks 10 + 11:

- WBCP facilitates interview process – Interview process will be customized based on client and community needs:
 - **Day 1: Panel Interviews Conducted; Day 2: 2nd Interviews with executive leaders;**
 - 3rd interviews may be scheduled as needed with Boards/Commissions, etc.;
 - As needed schedule staff and/or community discussions/meetings

Week 12:

- WBCP conducts background and reference checks (backgrounds may be conducted by Client if current contract exists)
- WBCP conducts full reference checks for candidate(s) selected for Board/Commission interviews; or when Client is interested in making an offer

NEGOTIATIONS / HIRE:

- Hire date to accommodate possible candidate relocation
- Client (WBCP available to assist in process) conducts offer and facilitates salary negotiations with preferred candidate

RESOLUTION NO. 23-009

APPROVING AN AGREEMENT FOR RECRUITMENT SERVICES, BY AND BETWEEN
THE CITY OF ROSEVILLE AND RAFTELIS FINANCIAL CONSULTANTS, INC., AND
AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF
THE CITY OF ROSEVILLE

WHEREAS, an Agreement for Recruitment Services, by and between the City of
Roseville and Raftelis Financial Consultants, Inc., has been reviewed by the City Council; and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that
said agreement is hereby approved and that the City Manager is authorized to execute it on
behalf of the City of Roseville.

PASSED AND ADOPTED by the Council of the City of Roseville this ____ day of
_____, 2023, by the following vote on roll call:

AYES COUNCILMEMBERS:

NOES COUNCILMEMBERS:

ABSENT COUNCILMEMBERS:

MAYOR

ATTEST:

City Clerk

AGREEMENT FOR RECRUITMENT SERVICES

THIS AGREEMENT is made and entered into this ____ day of _____, 20__, by and between the City of Roseville, a municipal corporation (“CITY”), and the recruitment firm Raftelis Financial Consultants, Inc., a North Carolina corporation (“RECRUITER”); and

WITNESSETH:

WHEREAS, CITY from time to time is in need of executive recruitment and search firms to provide recruitment and search services and assistance to the Roseville Human Resources Department (“HR”); and

WHEREAS, RECRUITER is willing to provide such services on a per recruitment task-based basis; and

NOW, THEREFORE, the Parties agree as follows:

1. Scope of Services and Duties. CITY retains RECRUITER to provide recruitment and search services from time to time upon the request of HR to advise, assist, and search for candidates for CITY employment, as more fully described in EXHIBIT “A” attached hereto and incorporated herein by reference.
2. Specific Work Assignments. RECRUITER shall receive work assignments from HR on an as-needed basis. The work assignments shall generally be communicated by written notice from HR to RECRUITER. If a work assignment is communicated orally, RECRUITER shall provide a written confirmation to HR describing the work assignment. CITY reserves the right to unilaterally assign similar work to other recruitment firms, as it deems prudent, and the use of RECRUITER shall in no way be considered an exclusive agreement to provide or use similar services. CITY makes no specific guarantee of a minimum or maximum number of hours or amount of tasks, assignments, or services. The assignment of any work hereunder is expressly contingent upon the availability of funds.
3. Fees for Services. For services performed under this Agreement, CITY shall pay RECRUITER in accordance with the fee schedules and rates included in EXHIBIT “A” and that in no event, inclusive of any and all fees, costs, reimbursable expenses, or any other charge, shall any single assignment and recruitment exceed thirty-two thousand dollars (\$32,000).
4. Statements and Payments. RECRUITER shall provide invoices to the CITY for all fees and expenses. The invoice(s) shall be itemized to include the task completed and a description of the services performed. Invoices shall be considered due and payable upon receipt, and shall be overdue 30 days after receipt.
5. Term; Termination; Amendments. This Agreement shall be effective upon approval by the Roseville City Council and shall continue in effect for a period of five (5) years, or until terminated by either Party. This Agreement may be terminated by CITY, with or without

cause, at any time upon written notice. RECRUITER may terminate this Agreement only upon the consent of CITY or upon 60 days written notice. Upon termination, RECRUITER shall turn over all client files to CITY. There shall be no amendment or modification to this Agreement except by written agreement between the Parties.

6. Independent Contractor. RECRUITER, inclusive of its agents, officers, employees, volunteers, independent contractors, and subcontractors, shall act as an independent contractor, and covenants and agrees that it will conduct itself consistent with such status, that it will neither hold itself out as, nor claim to be, an officer or employee of CITY by reason of this Agreement.

RECRUITER and CITY agree that: (a) RECRUITER is free from the control and direction of CITY in connection with the performance of the work; (b) RECRUITER is providing services directly to CITY; (c) RECRUITER has and will maintain at all relevant times a business license; (d) RECRUITER maintains a business location that is separate from CITY; (e) RECRUITER is customarily engaged in an independently established business of the same nature as that involved in the work performed hereunder; (f) RECRUITER actually contracts with other businesses to provide the same or similar services and maintains a clientele without restrictions from CITY; (g) RECRUITER advertises and holds itself out to the public as available to provide the same or similar services; (h) RECRUITER provides its own tools, vehicles, and equipment to perform the services; (i) RECRUITER has negotiated its own rates; (j) RECRUITER set its own hours and location of work in accomplishing CITY's on-call needs; and (k) RECRUITER has the right to control the manner and means of accomplishing the result desired and exercises its own expert independent judgement.

7. Insurance. RECRUITER agrees to continuously maintain, in full force and effect, the following minimum policies of insurance during the term of this Agreement.

<u>COVERAGE</u>	<u>LIMITS OF LIABILITY</u>
Workers' Compensation	Statutory
Commercial General Liability	\$1,000,000 each occurrence \$2,000,000 aggregate Personal Injury: \$1,000,000 each occurrence \$2,000,000 aggregate
Automobile Liability	\$1,000,000 combined single limit
Professional Liability (errors and omissions)	\$1,000,000 per claim \$2,000,000 aggregate

a. Form. RECRUITER shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made basis is subject to the approval of Risk Management and the City Attorney.

b. Additional Insureds. RECRUITER shall also provide a separate endorsement form or section of the policy showing CITY, its officers, agents, employees and volunteers as additional insureds for each type of coverage, except for Workers' Compensation and Professional Liability. Such insurance shall specifically cover the contractual liability of RECRUITER. The additional insured coverage under the RECRUITER's policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy, and shall not seek contribution from CITY's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office ("ISO") CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.

c. Cancellation/Modification. RECRUITER shall provide ten (10) days written notice to CITY prior to cancellation or modification of any insurance required by this Agreement.

d. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of CITY (if agreed to in a written contract) before CITY's own insurance shall be called upon to protect it as a named insured.

e. Subcontractors. RECRUITER agrees to include in its contracts with all subcontractors the same requirements and provisions of this Agreement, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor's work. Furthermore, RECRUITER shall require its subcontractors to agree to be bound to RECRUITER and CITY in the same manner and to the same extent as RECRUITER is bound to CITY under this Agreement. Additionally, RECRUITER shall obligate its subcontractors to comply with these same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of CITY's indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request.

f. Self-Insured Retentions. All self-insured retentions ("SIR") must be disclosed to Risk Management for approval and shall not reduce the limits of liability.

Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or CITY. CITY reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

g. Waiver of Subrogation. RECRUITER hereby agrees to waive subrogation which any insurer of RECRUITER may acquire from RECRUITER by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability or Automobile Liability policy. All Workers Compensation, Commercial General Liability and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of CITY, its officers, agents, employees and volunteers for all work performed by RECRUITER, its employees, agents and subcontractors.

h. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve RECRUITER of liability in excess of such coverage, nor shall it preclude CITY from taking such other actions as are available to it under any other provisions of this Agreement or law.

8. Indemnification. To the fullest extent allowed by law, RECRUITER shall defend, indemnify, and save and hold harmless CITY, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from or arising out of RECRUITER's willful misconduct or negligent act or omission while engaged in the performance of obligations or exercise of rights created by this Agreement, except those matters arising from CITY's sole negligence or willful misconduct. The parties intend that this provision shall be broadly construed.

RECRUITER agrees to defend and indemnify CITY if, despite the parties intent and practice, any venue, agency, or court with competent jurisdiction determines that RECRUITER and/or any of its agents, officers, employees, volunteers, independent contractors, or subcontractors, are characterized as employee(s) of CITY.

RECRUITER's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.

9. Notice. All notices, invoices, reports or other communication required by this Agreement shall be properly given if delivered in person, or sent by first class mail, facsimile, or overnight delivery to the following addresses:

CITY:

Human Resources Department
311 Vernon Street
Roseville, CA 95678

RECRUITER

Julia Novak, Executive Vice President
19 Garfield Place, Suite 500
Cincinnati, OH 45202

Either party may amend its address for notice by giving notice to the other party.

10. Assignment. RECRUITER is employed to perform unique personal services. RECRUITER shall not assign this Agreement without the prior written consent of CITY. RECRUITER shall not employ or otherwise incur any obligation to pay other specialists or experts for services in connection with this Agreement, without prior written consent of CITY.

11. Attorney's Fees; Venue; Governing Law. If either party commences any legal action against the other party arising out of this Agreement or the performance hereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorney's fees. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.

12. Ability to Perform. RECRUITER agrees and represents that it has the time, ability and professional expertise to perform the services required under this Agreement.

13. Compliance with Laws. RECRUITER shall comply with all federal, state and local laws, ordinances and policies as may be applicable to the performance of services under this Agreement.

14. Governing Agreement. In the event of any conflict between this Agreement and its EXHIBITS, the provisions of this Agreement shall govern. In the event of any conflict between any of the EXHIBITS, the provisions of the first in order of attachment shall govern.

15. Successors in Interest. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.

16. Copyright, Ownership and Use of Materials. All tangible material ("Material") created or delivered pursuant to this Agreement is considered a work made for hire under the Copyright Act. To the extent such Material does not qualify as a work made for hire, RECRUITER hereby assigns to CITY all right, title, and interest, including but not limited to all copyrights, in all Material created by RECRUITER in its performance under this Agreement. Material constitutes the scope of work outlined in Exhibit A and attached hereto, and all written and other tangible expressions, including but not limited to, drawings (including computer aided drawings), papers, documents, reports, surveys, renderings, exhibits, sketches, maps, models, prints, paintings or photographs, in any and all media or formats in which such materials have been created or are maintained. All Material furnished by RECRUITER is, and shall remain, the property of CITY. However, Recruiter shall retain sole and exclusive ownership of all right, title, and interest in, and to, its intellectual property and derivatives thereof which no data or Confidential Information of the City was used to create and which was developed entirely using Recruiter's own resources, including any and all pre-existing or independently developed know-how, methods, processes and other materials prepared by Recruiter. To the extent Recruiter's intellectual property is necessary for the City to use the deliverables, provided under this Agreement, Recruiter grants to City a non-exclusive non-assignable, royalty-free license to Recruiter's intellectual property solely for City's use of such deliverables.

RECRUITER shall execute any documents necessary to effectuate such assignment. In the event that RECRUITER uses, employs, designates, or retains any person or entity who is not an employee of RECRUITER, to perform any work required of it pursuant to this Agreement, RECRUITER shall require said person or entity to execute an agreement containing the preceding paragraph.

17. Records. RECRUITER and its subcontractors shall maintain all files and records relating to the services performed hereunder during the term of this Agreement and for a period of not less than one (1) year after the date of termination or expiration. Provided, however, that in the event of litigation or settlement of claims arising from the performance of this Agreement, RECRUITER and its subcontractors shall maintain all files and records until such litigation, appeals or claims are resolved. Duly authorized representatives of CITY shall have right of access during normal business hours and after reasonable notice to RECRUITER's and subcontractors' files and records relating to the services performed hereunder, and may review and copy the files and records at appropriate stages during performance of the services and during the one (1) year period following termination or expiration of this Agreement. RECRUITER shall include the provisions in its contracts with all subcontractors.

18. Time is of the Essence. Time is of the essence of this Agreement.

19. Representations and Warranties. RECRUITER warrants that it has not employed or retained any company or person, other than a bona fide employee working for RECRUITER, to solicit or secure this Agreement, and that it has not paid or agreed to pay any company or person, other than a bona fide employee, any fee, commission, percentage, brokerage fee, gift or any other consideration, contingent upon or resulting from the award or making of this Agreement. For breach or violation of this warranty, CITY shall have the right to terminate as void this Agreement, without liability, or, in its discretion, to deduct from the Agreement price or consideration, or otherwise recover, the full amount of such fee, commission, percentage, brokerage fee, gift or contingent fee.

20. Severability. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.

21. Integrated Agreement. This is an integrated Agreement and contains all of the terms, considerations, understandings and promises of the Parties. It shall be read as whole.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this Agreement in duplicate by its City Manager and attested to by its City Clerk under the authority of Resolution No. _____, adopted by the Council of the City of Roseville on the ____ day of _____, 20__, and RECRUITER has caused this Agreement to be executed.

Subject: Proposal for On-Call Executive Search Firms/Recruitment Consultants (RFP#11-015)

Dear Ms. Avalos:

We are pleased to submit this proposal for executive search services. Our focus has always been to help local government and utility clients solve their financial, organizational, and technology challenges. We are dedicated to providing management consulting services, including executive search, to local governments and the utility industry.

The Novak Consulting Group (TNCG) and Raftelis have always shared a focus on delivering lasting solutions for local government agencies. In January 2020, TNCG joined Raftelis. Today, we provide our clients with wide-ranging capabilities and resources in financial, management, technology, and communications consulting for all areas of local government. Our clients now have the expertise of more than 140 of the country's leading local government consultants. We know that our combined capabilities and resources will provide added value to our clients. Raftelis already has experience with and knowledge about the City of Roseville through our prior work with the City on several projects, including performing an organizational assessment and providing strategic planning assistance to the City's Water Utility.

Our project team for the City comprises skilled professionals, seasoned in local government management with search experience across the country. Our team has completed over 210 searches, and we have had significant success in identifying and retaining ideal candidates who meet each organization's unique set of needs and expectations. Our recruitment strategy includes outreach to women, people of color, and other underrepresented groups through professional organizations such as the League of Women in Government, National Forum of Black Public Administrators, and the Local Government Hispanic Network, as well as through LinkedIn, with the goal of building a diverse candidate pool. Approximately 39% of our recruitments have resulted in the hiring of women and 21% of our recruitments have resulted in the hiring of people of color. We are confident our approach will result in a successful leader for the organization. Our mission is to strengthen communities, and we do this by helping them find the best leaders to help move their organizations forward. Raftelis agrees to perform the services and adhere to the requirements described in this RFP, including any addenda. On the following page, we provide our acknowledgement of the addenda.

We look forward to the opportunity to serve the City of Roseville. If you have any questions, please contact Catherine Tuck Parrish, our executive search practice leader, using the following contact information:

Catherine Tuck Parrish, Vice President
Phone: 240.832.1778 / Email: ctuckparrish@raftelis.com

Sincerely,

A handwritten signature in black ink, appearing to read 'Julia Novak'.

Julia Novak
Executive Vice President

Who We Are

RAFTELIS AND THE NOVAK CONSULTING GROUP, HELPING LOCAL GOVERNMENTS AND UTILITIES THRIVE

Local government and utility leaders partner with Raftelis to transform their organizations by enhancing performance, planning for the future, identifying top talent, improving their financial condition, and telling their story. We've helped more than 600 organizations in the last year alone. We provide trusted advice, and our experts include former municipal and utility leaders with decades of hands-on experience running successful organizations. People who lead local governments and utilities are innovators—constantly seeking ways to provide better service to the communities that rely on them. Raftelis provides management consulting expertise and insights that help bring about the change that our clients seek.

TNCG is Now Raftelis

The Novak Consulting Group and Raftelis have always shared a focus on delivering lasting solutions for local government agencies. In January 2020, TNCG joined Raftelis. Today, we provide our clients with wide-ranging capabilities and resources in financial, management, technology, and communications consulting for all areas of local government. Our clients now have the expertise of more than 140 of the country's leading local government and utility consultants, who have decades of experience. We know that our combined capabilities and resources will provide added value to our clients, and we're excited about what we can accomplish together.

[+ VISIT **RAFTELIS.COM** TO LEARN MORE](#)

We believe that Raftelis is the *right fit* for this project. We provide several key factors that will benefit the City and help to make this project a success.

RESOURCES & EXPERTISE

This engagement will require the resources necessary to effectively recruit for your unique position and the skillsets to complete all of the required components. With more than 140 consultants, Raftelis has one of the largest local government management and financial consulting practices in the nation. Our depth of resources will allow us to provide the City with the technical expertise necessary to meet your objectives. In addition to having many of the industry's leading management and financial consultants, we also have experts in key related areas, like stakeholder engagement and data analytics, to provide additional insights as needed.

DECADES OF COLLECTIVE EXPERIENCE

Our associates and subject matter experts have decades of experience in strengthening local municipalities and nonprofit organizations. They've served in a wide range of positions, from city manager to public works director to chief of police.

PERSONAL SERVICE FROM SENIOR-LEVEL CONSULTANTS

You appreciate it when deadlines are met, phone calls are returned, and your challenges are given in-depth, out-of-the-box thinking. While other firms may assign your business to junior-level people, our approach provides exceptional service from senior-level consultants.

NICHE EXPERTISE

Our expertise lies in strengthening public-sector organizations. We're consulting specialists rather than generalists, focusing our strengths to do a highly effective job for a specific group of clients.

Firm Capabilities

FINANCE

Meet your goals while maintaining a financially sustainable organization

- Rate, charge, and fee studies
- Financial and capital planning
- Cost of service and cost allocation
- Customer assistance programs
- Affordability analysis
- Utility valuation
- Budget development
- Financial condition assessments
- Debt issuance support
- Economic feasibility and analysis

COMMUNICATION

Communicate strategically to build an informed, supportive community

- Strategic communication planning
- Public involvement and community outreach
- Public meeting facilitation
- Graphic design and marketing materials
- Media and spokesperson training
- Risk and crisis communication
- Social media strategy
- Visual facilitation
- Virtual engagement

STRATEGIC PLANNING

Set the direction for the future of your organization and community

- Organization, department, and community-based strategic planning
- Effective Board / Commission / Council governance
- Retreat planning and facilitation

EXECUTIVE RECRUITMENT

Identify top talent to lead local governments and utilities

ORGANIZATION

Plan for long-term sustainability and operate with maximum efficiency

- Organizational and operational assessments
- Stormwater utility development and implementation support
- Performance measurement
- Staffing analysis
- Organizational climate and culture
- Asset management and operations
- Regional collaboration and service sharing
- Process improvement

TECHNOLOGY

Use your data and technology to improve experience and gain valuable insights

- Billing, permitting, and customer information audits
- Business process development
- Data management, analytics, and visualization
- Performance measurement and dashboarding
- Software solutions
- Website development
- Information technology assessments and strategic planning
- Customer management assessments and optimization
- CIS selection and implementation
- AMR/AMI feasibility studies
- Mobile workforce management
- Meter data management
- CMMS selection and implementation
- GIS optimization services
- Fleet management systems

Firm Organization Chart

Over the last five years, our firm has grown from 60 to 168 employees. Raftelis' staff consists of some of the most knowledgeable and skilled consulting professionals in the municipal consulting industry. The organizational chart below shows the full organization and reporting structure of our firm.

Qualifications of Team

WE HAVE DEVELOPED A TEAM OF CONSULTANTS WHO SPECIALIZE IN THE SPECIFIC ELEMENTS THAT WILL BE CRITICAL TO THE SUCCESS OF THE CITY'S RECRUITMENT.

Our team includes senior-level professionals to provide experienced project leadership with support from talented consultant staff. This close-knit group has frequently collaborated on similar successful recruitments, providing the City with confidence in our capabilities.

Here, we have included an organizational chart showing the structure of our project team. On the following pages, we have included resumes for each of our recruiting team members.

Recruitment Understanding

When organizations need to fill key positions, they turn to Raftelis and benefit from this guiding principle: meaningful hiring involves finding the right employee and preparing them for ongoing success. Our approach to executive search services comprises three key phases.

Inquiring, Understanding, and Defining

Each of our clients has a unique culture and set of objectives. Because selecting the right individual is critical to success, we begin our relationship by conducting a needs assessment to identify the specific benchmarks the search must accomplish. We will identify qualifications and requirements as well as map out the new hire's first-year goals, so both our client and the employee remain on the same track for success. We will build an accurate position profile, thus ensuring we attract the right people for the position.

Candidate Search and Evaluation

To reach the right candidates, Raftelis customizes each search process to fit the client's needs. Often, the professionals who best fit an open position are already employed and not searching for a traditional job posting. So, we leverage our extensive, diverse professional network to attract the best talent nationwide. We have been successful in identifying a candidate pool that is racially, ethnically, and gender diverse. We are committed to helping local government leadership positions reflect the communities they serve. We work closely with several organizations that support this goal, and we advertise in national publications that target people of color and women, including the National Forum of Black Public Administrators (NFBPA), Local Government Hispanic Network, and the League of Women in Government. We intentionally seek well-qualified women and people of color, so our clients have excellent choices. Once the right candidates are found, we help manage the hiring process from interviews to background checks. Our in-depth service empowers clients to achieve their goals at every step.

39% of our recruitments resulted in the hiring of **women**

21% of our recruitments resulted in the hiring of **people of color**

Supporting Success

We support the top candidate's long-term success by creating a goals-driven work plan actionable from day one. Many firms focus solely on finding qualified applicants, leaving the client on their own once the position is filled. Our team, however, uses the objectives gathered during the inquiry stage to prepare new hires for their first year. We follow up to ensure continued progress, productivity, and satisfaction for the employee and our client.

We take a tailored, goals-based approach to each recruitment. By looking beyond the hiring process, our holistic view ensures that each candidate will fit the role as well as the organization. In the end, we are not just looking for a successful professional; we are finding the right employee to be successful in their new position long after they are hired.

Project Plan

THE FOLLOWING PROVIDES A DETAILED DESCRIPTION OF OUR WORK PLAN FOR EXECUTIVE RECRUITMENTS.

Activity 1 – Develop Candidate Profile

We will begin this engagement by developing a clear picture of the ideal candidate for the position. We would first meet with the City Manager and Human Resources to discuss the recruitment timeline and process. We will also facilitate meetings to gather input from key staff in the relevant department(s). We will discuss not just the technical skills needed for the position, but what makes for the right organizational fit in terms of traits and experiences.

We generally conduct our initial work, candidate review meeting, and interviews in person and are well-situated to do that. However, we can facilitate this work via video calls, online mechanisms, or small group meetings to adhere to local public health protocols. We have done this successfully for all phases of recruitments based on our clients' needs.

Based on the information learned from our meetings, we will develop a recruitment plan that includes California and the nation. We will prepare a position profile that is unique to the City of Roseville. The profile will identify the organization's needs, the strategic challenges of the position, and the personal and professional characteristics of the ideal candidate. This document drives the recruitment. It focuses our efforts on the most capable candidates, and it helps us to persuade candidates to pursue the position.

We will also develop first-year organizational goals for the successful candidate. These goals will ensure that the applicants know what will be expected of them should they be hired, the City has thought about what it wants the person to accomplish in the first year, and the successful candidate can hit the ground running with a work plan. Once drafted, we will review the recruitment plan, position profile, and first-year goals with the hiring manager. Modifications will be made as necessary before recruitment begins.

DELIVERABLES:

- Detailed recruitment process documents, including recruitment plan, position profile, and first-year goals

Activity 2 – Conduct Active Recruitment and Screening

As part of the recruitment plan, we will identify key states and metro areas to focus our targeted recruitment. We will prepare and place advertisements in state and national publications and websites to attract candidates from throughout the United States. While this will be a national search, we will target our efforts to those key areas identified in the recruitment plan.

We will place job postings with national, state, and regional professional organizations such as International City/County Management Association (ICMA), Engaging Local Government Leaders (ELGL), National Forum for Black Public Administrators (NFBPA), League of Women in Government, Local Government Hispanic Network, national and state professional associations that are appropriate for the position, and other places as identified in the recruitment plan.

As soon as the advertisements are completed, we will begin the process of actively and aggressively marketing the position and identifying qualified candidates for assessment. We will pinpoint individuals and jurisdictions to reach out to directly through phone and email. We will also utilize social media (LinkedIn, Twitter, and Facebook) to broaden our reach. We have found that this combination of outreach is an effective way to reach top applicants, especially those who are not currently in the job market but may be willing to consider a move to an excellent organization like the City of Roseville.

We will reach out to the applicants in our extensive database as well as the prospective candidates we have targeted in previous recruitments for similar jurisdictions. We will also develop a list of additional candidates to pursue based on the City's unique needs. Our outreach includes seeking well-qualified women and people of color and encouraging them to apply.

As applications are received, we will acknowledge each one and keep applicants aware of the status of the process. We will screen each applicant against the position profile and first-year goals. We will conduct interviews via phone or videoconference with those who most closely meet the profile to learn more about their interest, qualifications, and experience for this position. A written summary of these candidates will be prepared and shared with the City. We will then meet with the hiring manager to review the entire list (if desired) as well as the most qualified candidates who have the requisite skills, experiences, and traits needed for success in the position. Based on the hiring manager's direction, we will finalize a list of candidates to invite for in-person interviews.

DELIVERABLES

- Placement of ads and job postings
- Targeted outreach to passive candidates
- Candidate review materials including screening results and internet search

Activity 3 – Support Interviews and Selection

Each person you wish to interview will then be contacted again by our recruitment team. We will plan and facilitate a multi-step interview process specific to the position. The process could include writing exercises, presentations, panel interviews, tours, and a department director or key staff meet-and-greet. A book that contains customized interview questions and information about each of the candidates invited to interview will be provided to those involved in the interview process. We will also facilitate pre- and post-interview briefings.

We will coordinate the logistics of the process and provide the candidates with the details along with any travel policy requirements or other information. We will also work with a City contact to ensure a suitable venue is arranged for the interviews. Expenses for the candidates will be borne and reimbursed directly by the City.

The City will select the top candidate. We can help make a well-informed choice by framing what we have learned about the candidates in the context of the position and its requirements. We will speak with candidates' references to confirm the strength of their credentials. We will also conduct a media check to review published information found in search engines, online publications, and social media. Reference and background checks will be performed on the top candidates, including but not limited to education, credentials, employment history, criminal background check, civil litigation check, and credit history.

We also can assist in negotiating the employment offer. We will provide information about best practices in salary and total compensation, and we will have obtained information on the candidate's salary. We will keep candidates apprised of their status and release them at the appropriate time.

DELIVERABLES

- Interview book materials including references and background checks

Recruitment Timeline

Included below is a draft timeline. We would review this with the City during Activity 1 and adjust it as necessary as we develop the recruitment plan for each position.

Cost Proposal

The total fixed fee to complete each recruitment, as outlined in this proposal, is \$31,000. This includes all professional fees and expenses for Raftelis. Should the City request additional recruitments beyond the terms of this engagement, an annual escalator tied to CPI will be applied.

We estimate the following additional costs to the City, which would be billed at cost.

Advertising	Approximately \$2,000-\$2,500
Background checks	Estimated at \$175-\$500/finalist
Finalists' interview travel	Borne and reimbursed directly to the finalists by the City

Advertising and background checks are invoiced as completed. The fixed fee will be invoiced as follows:

Activity 1 – \$6,690	After delivery of the recruitment documents • Recruitment plan • Recruitment brochure • First-year goals
Activity 2 – \$13,956	After the candidate review
Activity 3 – \$10,354	After the interviews are completed

Hourly rates for services beyond those identified in this proposal are as follows:

Staff	Hourly Rate
Recruiter	\$285
Recruitment Specialist	\$165

ADDITIONAL HIRES

Within six (6) months of the final interview process, should an additional candidate be hired by the City from the pool of candidates presented Raftelis for this project, the additional fee shall be one-third of the Professional Services Fee, but a minimum of \$15,000.

COUNCIL COMMUNICATION

CC #: 2472
File #: 0316-04

Title: 2022 Speed Limit Update - Roseville Municipal Code Amendment
Contact: Jana Cervantes 916-774-5498 jcervantes@roseville.ca.us

Meeting Date: 1/18/2023
Item #: 7.23.

RECOMMENDATION TO COUNCIL

This is a request to set the speed limits on certain roads in the City of Roseville. Two options are available for Council's consideration:

1. Introduce for first reading, an ordinance amending section 11.28.010 of Chapter 11.28 of Title 11 of the Roseville Municipal Code regarding speed limits that would be radar enforceable, or
2. Adopt an amended speed limit ordinance with speed limits modified as desired. However, roadway segments with lower speed limits than those recommended may not be radar enforceable.

Staff recommends option 1, approval of the attached speed limit ordinance.

BACKGROUND

State law establishes the process for setting speed limits for roadways in California. The California Vehicle Code (CVC) and the California Manual on Uniform Traffic Control Devices (CaMUTCD) contain the guidelines and processes that must be followed in order to make speed limits radar enforceable. Certain roadways are assigned speed limits by default (called "prima facie" speed limits), such as 25 mph for residential streets and business districts, 15 mph in alleys, and 65 mph on all other roadways. Those do not require any kind of study as they are established by law. To justify a posted speed limit other than 65 mph that is radar enforceable, local jurisdictions are required to conduct and approve an Engineering and Traffic Survey (ETS). An ETS is based on two factors; the measured 85th percentile speed (the speed at or below which 85% of the traffic is traveling) and whether or not "conditions not readily apparent to motorists" are present.

The California Department of Transportation (Caltrans) has an established set of standards and procedures for conducting an ETS. These standards require that for a speed limit to be radar enforceable, the posted speed limit should be set at the 5 mph increment nearest the 85th percentile speed. The recommended speed limit can be lowered an additional 5 mph if "conditions not readily apparent to motorists" are present. Conditions not readily apparent can be

a variety of things such as an accident history, numerous driveways along the roadway, adjacent land uses, bike lanes, etc. The CVC requires that speed surveys must be conducted every five to ten years, or when there is a major change to a roadway.

A new bill (AB 43) went into effect this year that allows local agencies more leeway when it comes to setting radar enforceable speed limits. The new law takes into account more "conditions not apparent to motorists," such as proximity to schools, bike and pedestrian activity, and roadway geometry. For the past ten years, the City of Roseville has already taken a very generous approach in reducing our speed limits down the additional 5 mph permitted by law. Therefore, we don't expect to see much change in our radar enforceable speed limits this year.

Next year, AB 43 may allow the City to identify "safety corridors" for roadways with high pedestrian/bicycle activity or in a business district with certain geometric characteristic and adjacent land uses. Identification of safety corridors within Roseville may enable the lowering of the speed limit further to enhance vulnerable road user safety while still being radar enforceable.

Staff has recently completed 45 ETS's (See Table 1, attached). There are 5 new roadways surveyed; 35 surveys with no change recommended; and 5 surveys with a proposed decrease. The proposed decreases are along Bob Doyle Drive, North Cirby Way, Old Auburn Road, Rocky Ridge Drive, and Taylor Road, due to a reduction of the 85th percentile speeds.

A summary of the speed surveys is shown in Table 1 and a copy of the complete set of speed surveys is available at the City Clerk's Office for Council's review. The CVC requires that posted speed limits be consistent with the results of the ETS to be radar enforceable. Public Works, Police, and the City Attorney are all in agreement that in order for the City to be in compliance with State law, posted speed limits need to be set using the State guidelines.

FISCAL IMPACT

The cost of completing speed limit surveys and changing the recommended speed limit signs is included in existing operating budgets.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) only applies to projects which have the potential to cause a significant effect on the environment. Where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA environment (CEQA Guidelines §15061(b)(3)).

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal C - Maintain a safe and healthy community

Goal E - Deliver exceptional city services

Respectfully Submitted,

Jana Cervantes, Senior Engineer

Jason Shykowski, Public Works Director

Dominick Casey, City Manager

ATTACHMENTS:

Description

Speed Limit Ordinance

Table 1 - 2022 Speed Limit Changes

ORDINANCE NO.

ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE AMENDING SECTION
11.28.010 OF CHAPTER 11.28 OF TITLE 11 OF THE ROSEVILLE MUNICIPAL CODE
REGARDING SPEED LIMITS

THE CITY OF ROSEVILLE ORDAINS:

SECTION 1. Section 11.28.010 of Chapter 11.28 of Title 11 of the Roseville Municipal Code is hereby amended to read as follows:

11.28.10 Change in speed limits set by state law.

Pursuant to authority contained in Sections 22357 and 22358 of the Vehicle Code, the city council determines upon the basis of an engineering and traffic survey that the prima facie speed limits set forth in this section would facilitate the orderly movement of vehicular traffic and would be reasonable and safe, except when passing school grounds, and it is determined that a speed limit greater than those hereinafter set forth would be more than is reasonable or safe. It is declared that the prima facie speed limits hereinafter set forth are established according to law:

1. Alexandra Drive:
 - a. Between East Roseville Parkway and Secret Ravine Parkway, 35 mph;
2. All-America City Boulevard:
 - a. Between Los Vegas Avenue and Washington Boulevard, 25 mph;
3. Angus Road:
 - a. Between Fiddyment Road and Casa Sedona Drive, 35 mph;

COUNCIL COMMUNICATION

CC #: 2491

File #: 0800-05 & 0201-01

Title: Legal Software Replacement - Budget Adjustment

Contact: Robin Bernhard 916-774-5127 rbernhard@roseville.ca.us

Meeting Date: 1/18/2023

Item #: 7.24.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council adopt an ordinance approving a budget adjustment appropriating \$39,930 from the Information Technology Replacement Fund for the implementation and Year 1 maintenance of legal software used by the City Attorney's Office.

BACKGROUND

The City Attorney's Office uses software for legal case management. The current solution, Citylaw, is due for replacement and the project team identified a potential solution. Approval of this ordinance will allow the project team to proceed with purchasing the selected software including licensing and professional services.

FISCAL IMPACT

The implementation and Year 1 maintenance costs are \$38,180 plus 10% contingency of \$1,750, for a total cost of \$39,930 funded through the Information Technology Replacement Fund. Future annual maintenance will be included in the City Attorney's Office operating budget in the General Fund. The estimated five year cost of ownership to the City is \$59,720.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. Approval of a budget adjustment meets the above criteria and is not subject to CEQA. No additional environmental review is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal A - Remain fiscally responsible in a changing world

Goal E - Deliver exceptional city services

Respectfully Submitted,

Robin Bernhard, IT Program Manager

Ordinance 6597

Budget Adjustment

ORDINANCE NO. 6597

ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE
AUTHORIZING CERTAIN AMENDMENTS TO THE FISCAL YEAR 2022-23
BUDGET AND DECLARING THIS ORDINANCE TO BE IMMEDIATELY
EFFECTIVE AS AN APPROPRIATION MEASURE

THE CITY OF ROSEVILLE ORDAINS:

SECTION 1. The City of Roseville Annual Budget, Fiscal Year 2022-23, is hereby amended as listed on the attached budget adjustment for legal software replacement.

SECTION 2. This ordinance is hereby declared to be an appropriation measure, immediately effective pursuant to the provisions of Section 5.03 of the Charter.

SECTION 3. The City Clerk is hereby authorized and directed to post a true copy of the foregoing ordinance in each of three (3) conspicuous locations in the City and she shall immediately after such posting enter in the ordinance book, under the record of the ordinance, a certificate under her hand stating the time and place of such publication by posting.

TOTAL				(39,930)	

Justification for Budget Adjustment:

This budget adjustment is requested to establish project #500319 - Citylaw Replacement. This budget will pay for funding of the implementation and Year 1 maintenance. City Law is a software application used by the City Attorney's Office (CAO) for legal case management and document storage. The City implemented CityLaw over 20 years ago and while functional, it does not offer all functionality that could be used by the current CAO staff. Year 1 replacement cost is funded from the IT-Rehab Fund while future years (starting with Year 2) will be funded from City Attorney's Departmental Operating Cost.

File #: 0214 & 0323 & 0201-01

Title: U.S. Department of Justice, Office of Community Oriented Policing Services - Grant Award and Budget Adjustment

Contact: Mark Peinado 916-774-5021 mcpeinado@roseville.ca.us
Doug Blake 916-746-1043 dblake@roseville.ca.us

Meeting Date: 1/18/2023

Item #: 7.25.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council adopt a resolution accepting the grant award from the Office of U.S. Department of Justice, Community Oriented Policing Services (COPS) in the amount of \$150,000 and authorizing the City Manager or his Designee to execute the required documents on behalf of the City. Additionally, Staff recommends that City Council adopt an ordinance approving a budget adjustment in the amount of \$150,000.

BACKGROUND

The Roseville Police Department has been awarded \$150,000 through the FY2022 Law Enforcement Agency De-Escalation Grant Program by the U.S. Department of Justice, Office of Community Oriented Policing Services (COPS). The COPS De-Escalation grant supports projects in police agencies across the country in their efforts to enhance training in de-escalation. The national goal is to influence, mitigate, and reduce unnecessary police use of force incidents through more scenario based de-escalation training. The grant specifically offers to fund Virtual-Reality (VR) systems that can be used as a very important tool in supporting an agency's training culture and scenario-based practice in the verbal aspects of de-escalation.

It is the goal of the Roseville Police Department to create, enhance and sustain a comprehensive de-escalation training program by obtaining a VR system for use in force options, tactical communication, duty to intervene and de-escalation skills training.

FISCAL IMPACT

The recommended budget adjustment will appropriate \$150,000 of grant funding in the City's Grants Fund. The budget adjustment will have no net impact on the City's General Fund.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. Acceptance of a grant award and approval of a budget adjustment meets the above criteria and are not subject to CEQA. No additional environmental review is required.

✓ Award Letter

October 13, 2022

Dear Troy Bergstrom,

On behalf of Attorney General Merrick B. Garland, it is my pleasure to inform you the Office of Community Oriented Policing Services (the COPS Office) has approved the application submitted by ROSEVILLE, CITY OF for an award under the funding opportunity entitled 2022 FY22 Law Enforcement Agency De-Escalation Grants -Community Policing Development Solicitation. The approved award amount is \$150,000.

Review the Award Instrument below carefully and familiarize yourself with all conditions and requirements before accepting your award. The Award Instrument includes the Award Offer (Award Information, Project Information, Financial Information, and Award Conditions) and Award Acceptance. For COPS Office and OVW funding the Award Offer also includes any Other Award Documents.

Please note that award requirements include not only the conditions and limitations set forth in the Award Offer, but also compliance with assurances and certifications that relate to conduct during the period of performance for the award. These requirements encompass financial, administrative, and programmatic matters, as well as other important matters (e.g., specific restrictions on use of funds). Therefore, all key staff should receive the award conditions, the assurances and certifications, and the application as approved by the COPS Office, so that they understand the award requirements. Information on all pertinent award requirements also must be provided to any subrecipient of the award.

Should you accept the award and then fail to comply with an award requirement, DOJ will pursue appropriate remedies for non-compliance, which may include termination of the award and/or a requirement to repay award funds.

Prior to accepting the award, your Entity Administrator must assign a Financial Manager, Grant Award Administrator, and Authorized Representative(s) in the Justice Grants System (JustGrants). The Entity Administrator will need to ensure the assigned Authorized Representative(s) is current and has the legal authority to accept awards and bind the entity to the award terms and conditions. To accept the award, the Authorized Representative(s) must accept all parts of the Award Offer in the Justice Grants System (JustGrants), including by executing the required declaration and certification, within 45 days from the award date.

To access your funds, you will need to enroll in the Automated Standard Application for Payments (ASAP) system, if you haven't already completed the enrollment process in ASAP. The Entity Administrator should have already received an email from ASAP to initiate this process.

Congratulations, and we look forward to working with you.

ROBERT CHAPMAN
Acting Director

Office for Civil Rights Notice for All Recipients

The Office for Civil Rights (OCR), Office of Justice Programs (OJP), U.S. Department of Justice (DOJ) has been delegated the responsibility for ensuring that recipients of federal financial assistance from the OJP, the Office of Community Oriented Policing Services (COPS), and the Office on Violence Against Women (OVW) are not engaged in discrimination prohibited by law. Several federal civil rights laws, such as Title VI of the Civil Rights Act of 1964 and Section 504 of the

Rehabilitation Act of 1973, require recipients of federal financial assistance to give assurances that they will comply with those laws. Taken together, these civil rights laws prohibit recipients of federal financial assistance from DOJ from discriminating in services and employment because of race, color, national origin, religion, disability, sex, and, for grants authorized under the Violence Against Women Act, sexual orientation and gender identity. Recipients are also prohibited from discriminating in services because of age. For a complete review of these civil rights laws and nondiscrimination requirements, in connection with DOJ awards, see <https://ojp.gov/funding/Explore/LegalOverview/CivilRightsRequirements.htm>.

Under the delegation of authority, the OCR investigates allegations of discrimination against recipients from individuals, entities, or groups. In addition, the OCR conducts limited compliance reviews and audits based on regulatory criteria. These reviews and audits permit the OCR to evaluate whether recipients of financial assistance from the Department are providing services in a nondiscriminatory manner to their service population or have employment practices that meet equal-opportunity standards.

If you are a recipient of grant awards under the Omnibus Crime Control and Safe Streets Act or the Juvenile Justice and Delinquency Prevention Act and your agency is part of a criminal justice system, there are two additional obligations that may apply in connection with the awards: (1) complying with the regulation relating to Equal Employment Opportunity Programs (EEOPs); and (2) submitting findings of discrimination to OCR. For additional information regarding the EEOP requirement, see 28 CFR Part 42, subpart E, and for additional information regarding requirements when there is an adverse finding, see 28 C.F.R. §§ 42.204(c), .205(c)(5).

The OCR is available to help you and your organization meet the civil rights requirements that are associated with DOJ grant funding. If you would like the OCR to assist you in fulfilling your organization's civil rights or nondiscrimination responsibilities as a recipient of federal financial assistance, please do not hesitate to contact the OCR at askOCR@ojp.usdoj.gov.

Project Description

It is the goal of the Roseville Police Department to use grant funding to create, enhance and sustain a comprehensive de-escalation training program by obtaining a Virtual Reality system for use in force options, tactical communication, duty to intervene and de-escalation skills training. If the Roseville Police Department obtained a VR system, we would be able to provide excellent training and a culture of skilled de-escalation for our officers and the variety of law enforcement entities and HHS workers that we serve with.

I have read and understand the information presented in this section of the Federal Award Instrument.

Financial Information

Conditional Budget Clearance

The financial review of the budget for this award is still pending. For further details on the reason for this conditional budget clearance contact your assigned COPS program manager. Please review your specific award conditions for limitations on drawing down funding pending final budget clearance.

Other Award Documents

No other award documents have been added.

Award Conditions

This award is offered subject to the conditions or limitations set forth in the Award Information, Project Information, Financial Information, and Award Conditions.

Restrictions on Internal Confidentiality Agreements: No recipient or subrecipient under this award, or entity that receives a contract or subcontract with any funds under this award, may require any employee or contractor to sign an internal confidentiality agreement or statement that prohibits or otherwise restricts the lawful reporting of waste, fraud, or abuse to an investigative or law enforcement representative of a federal department or agency authorized to receive such information. Consolidated Appropriations Act, 2022, Public Law 117-103, Division E, Title VII, Section 742.

Duplicative Funding: The recipient understands and agrees to notify the COPS Office if it receives, from any other source, funding for the same item or service also funded under this award.

Contract Provision: All contracts made by the award recipients under the federal award must contain the provisions required under 2 C.F.R. Part 200, Appendix II to Part 200—Contract Provisions for Non-Federal Entity Contracts Under Federal Awards. Please see appendices in the Award Owner's Manual for a full text of the contract provisions.

Award Monitoring Activities: Federal law requires that recipients receiving federal funding from the COPS Office must be monitored to ensure compliance with their award conditions and other applicable statutes and regulations. The COPS Office is also interested in tracking the progress of our programs and the advancement of community policing. Both aspects of award implementation—compliance and programmatic benefits—are part of the monitoring process coordinated by the U.S. Department of Justice. Award monitoring activities conducted by the COPS Office include site visits, enhanced office-based grant reviews,

alleged noncompliance reviews, financial and programmatic reporting, and audit resolution. As a COPS Office award recipient, you agree to cooperate with and respond to any requests for information pertaining to your award. This includes all financial records, such as general accounting ledgers and all supporting documents. All information pertinent to the implementation of the award is subject to agency review throughout the life of the award, during the close-out process and for three-years after the submission of the final expenditure report. 34 U.S.C. § 10385(a) and 2 C.F.R. §§ 200.334 and 200.337.

5

Authorized Representative Responsibility: The recipient understands that, in accepting this award, the Authorized Representatives declare and certify, among other things, that they possess the requisite legal authority to accept the award on behalf of the recipient entity and, in so doing, accept (or adopt) all material requirements throughout the period of performance under this award. The recipient further understands, and agrees, that it will not assign anyone to the role of Authorized Representative during the period of performance under the award without first ensuring that the individual has the requisite legal authority.

6

Termination: Recipient understands and agrees that the COPS Office may terminate funding, in whole or in part, for the following reasons:

- (1) When the recipient fails to comply with the terms and conditions of a Federal award.
 - (2) When an award no longer effectuates the program goals or agency priorities, to the extent such termination is authorized by law.
 - (3) When the recipient agrees to the termination and termination conditions.
 - (4) When the recipient provides the COPS Office written notification requesting termination including the reasons, effective date, and the portion of the award to be terminated. The COPS Office may terminate the entire award if the remaining portion will not accomplish the purposes of the award.
 - (5) Pursuant to any other termination provisions included in the award.
2. C.F.R. § 200.340.

7

Award Owner's Manual: The recipient agrees to comply with the terms and conditions in the applicable 2022 COPS Office Program Award Owner's Manual; DOJ Grants Financial Guide; COPS Office statute (34 U.S.C. § 10381, et seq.) as applicable; Students, Teachers, and Officers Preventing (STOP) School Violence Act of 2018 (34 U.S.C. § 10551, et seq.) as applicable; the requirements of 2 C.F.R. Part 200 (Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards) as adopted by the U.S. Department of Justice in 2 C.F.R. § 2800.101; 48 C.F.R. Part 31 (FAR Part 31) as applicable (Contract Cost Principles and Procedures); the Cooperative Agreement as applicable; representations made in the application; and all other applicable program requirements, laws, orders, regulations, or circulars.

8

Assurances and Certifications: The recipient acknowledges its agreement to comply with the Assurances and Certifications forms that were signed as part of its application.

9

Federal Civil Rights: The Applicant understands that the federal statutes and regulations applicable to the award (if any) made by the Department based on the application specifically include statutes and regulations pertaining to civil rights and nondiscrimination, and, in addition—
