

AGENDA

March 15, 2023

AMENDED AGENDA

CITY COUNCIL
HOUSING AUTHORITY
6:00 p.m.
Council Chambers
311 Vernon Street
Roseville, California
www.roseville.ca.us

The meeting may be viewed on Comcast channel 14, Consolidated Communications channel 73, and AT&T U-Verse. City Council meetings are also video streamed live on the City's website at roseville.ca.us/watch and roseville.ca.us/agenda, and the City's YouTube channel at youtube.com/CityofRosevilleCa.

If you need a disability-related modification or accommodation to participate in this meeting, please contact Voice: 916-774-5200, TDD: 916-774-5220. Requests must be made as early as possible.

THE CITY OF ROSEVILLE WELCOMES YOUR PARTICIPATION

If an agenda item is open to public comment, such public comment shall be addressed to the chair of the meeting.

Public Comment - Speakers have three minutes under Public Comment to speak on issues that are not listed on the agenda and are within the City's jurisdiction. The Brown Act does not permit any action or discussion on items not listed on the agenda.

Consent Calendar - If applicable, the Consent Calendar consists of routine items that may be approved by one motion. Any person can remove an item from the Consent Calendar to be discussed separately.

Agenda Items - Speakers have five minutes to address items that are listed on the agenda.

Americans with Disabilities Act - Notify the City Clerk or Secretary at least 72 hours in advance if special assistance is required to participate in a meeting including the need of auxiliary aids or services.

Audio/Visual Presentations - If making a presentation regarding an agenda item, audio/visual materials must be submitted to the City Clerk or Secretary at least 72 hours in advance.

Security procedures are in place to attend Roseville City Council meetings. All attendees must successfully pass through a security metal detector. Any person with a prohibited item will not be allowed entry. Prohibited items include, but are not limited to: firearms (even with valid CCW), knives, pepper spray/mace, explosives of any kind/ any weapons and/or dangerous devices of any kind, illegal drugs and alcohol.

Bids / Purchases / Services

6.2. Mike Shellito Indoor Pool Replastering Project - Approval of Plans and Specifications and Authorization to Call for Bids

Memo from Park Development Project Manager Joel De Jong and Parks, Recreation & Libraries Director Jill Geller recommending the City Council approve the plans and specifications for the Mike Shellito Indoor Pool Replastering Project and authorize staff to call for bids. The project scope of work includes the removal and replacement of the plaster and tiles for both pools, replacement of drain grates to meet current safety codes, and minor repairs to existing pool lights. The architect's estimate for construction is \$349,425. Funding for the project is provided through General Fund year-end surplus funds from the FY2020-21 budget.

6.3. Sports Fencing Project - Approval of Plans and Specifications and Authorization to Call for Bids

Memo from Park Development Project Manager Joel De Jong and Parks, Recreation & Libraries Director Jill Geller recommending the City Council approve the plans and specifications for the Maidu, Central and Crabb Parks Sports Fencing Project and authorize staff to call for bids. The project scope of work includes the installation of new fencing on the sports fields and minor irrigation system adjustments to accommodate the new fences at the named parks. The architect's estimate for construction is \$501,160. Funding for the project is provided from a combination of \$250,000 in grant funds, provided by Placer Valley Tourism, and the balance through the City's General Fund Capital Reserve Fund.

6.4. Pleasant Grove Wastewater Treatment Plant Microturbine Service and Maintenance - Sole Source Contract Purchase Agreement

Memo from Senior Engineer Tracie Mueller and Environmental Utilities Director Richard Plecker recommending the City Council adopt RESOLUTION NO. 23-091 APPROVING A CONTRACT PURCHASE AGREEMENT, BY AND BETWEEN THE CITY OF ROSEVILLE AND CAL MICROTURBINE, INC., AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE (3002756). Staff requests Council approval of a sole source contract purchase agreement with Cal Microturbine, who is Capstone Turbine Corporation's exclusive Authorized Distributer in California, to provide service and maintenance of the Capstone microturbines installed at the Pleasant Grove Wastewater Treatment Plant. The cost of services is \$130,317 a year over a 10-year period for a total cost of \$1,303,170. Funding for this agreement will be provided from the annual approved Wastewater Operations Fund budget for the Pleasant Grove Wastewater Treatment Plant.

6.5. Utility Exploration Center Exhibit Fabrication and Installation Project – Award of Design-Assist Construction Agreement

Memo from Associate Engineer Rana Moore and Environmental Utilities Director Richard Plecker recommending the City Council adopt RESOLUTION NO. 23-097 APPROVING A DESIGN-ASSIST CONSTRUCTION AGREEMENT, BY AND BETWEEN MOEY, INC., AND THE CITY OF ROSEVILLE, AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE. Staff requests Council approve the award of a Design-Assist Construction Agreement to Moey, Inc. for the Utility Exploration Center Exhibit Fabrication and Installation project, as well as a smaller effort for the 116 S. Grant Street Tenant Improvements Project. The total contract value of the agreement with Moey Inc. is in the amount of \$1,391,980. Of this contract amount, \$1,387,570 is for the Utility Exploration Center (UEC) portion of the work, and \$4,410 is for the 116 S. Grant Street

Tenant Improvements Project. Additionally, this item requests approval for contract change order authority that could increase the contract amount by no more than 10% or \$139,198. Funding for both activities is included in the UEC Exhibit Fabrication and Installation Project budget and the Electric Fund.

6.7. Electric Bus Charging Equipment (RFQ 10-3338) – Contract Purchase Agreement

Memo from Buyer Becky Philipp and Assistant City Manager/Chief Financial Officer Dennis Kauffman recommending City Council adopt RESOLUTION NO. 23-087 APPROVING A CONTRACT PURCHASE AGREEMENT, BY AND BETWEEN THE CITY OF ROSEVILLE AND VERDEK LLC, AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE (3002718). Staff requests Council approve a contract purchase agreement with Verdek LLC to supply, deliver and commission electric bus charging equipment. The total award for the contract is \$861,847.74. Funding for this purchase comes from the Federal Transit Administration's Low or No Emission Vehicle Program grant. No General Fund resources will be used for the project.

6.8. Fleet Services - Purchase Order Increases, Contract Purchase Agreement Amendment, Reject all Bids

Memo from Fleet Manager Brandy LeBeau and Public Works Director Jason Shykowski recommending the City Council adopt RESOLUTION NO. 23-094 APPROVING CONTRACT PURCHASE AGREEMENT AMENDMENT, BY AND BETWEEN THE CITY OF ROSEVILLE AND STOMMEL, INC. DBA LEHR, AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE (3001675); and adopt RESOLUTION NO. 23-095 REJECTING ALL BIDS FOR ELECTRIC VEHICLES (RFQ 10-3341). Staff requests Council authorize an increase to the sole source purchase order with Sherman and Reilly, in the amount of \$22,561 for

shipping, handling, and sales tax, for two (2) turret reel trailers for the Electric Department's construction and maintenance division; the revised total amount of the purchase order is \$319,375; approve a purchase order to Altec Industries Inc. for one (1) Altec LR860-E70 overcenter articulating aerial device utilizing Sourcewell contract# 110421-ALT in the amount of \$262,367; authorize an increase to Napa Ford purchase order utilizing bid RFQ 10-3335 Superduty trucks with utility or flatbed bodies in the amount of \$2,047, for modifications to the utility body; the total amount of the purchase order for eight (8) trucks is \$696,392; approve an amendment to the contract purchase agreement with Stommel Inc. dba LEHR to extend the contract's end date to Final Payment; and reject all bids for RFQ 10-3341 electric vehicles (EV) for the purchase of four (4) EV's. Funding for the Sherman Reilly sole source purchase order increase and the Napa Ford purchase order increase is included in the FY2022-23 Electric Fund budget. Funding for the Altec truck purchase is included in the FY2022-23 Fleet Replacement Fund budget.

6.9. Pool Heater and Installation (RFQ 10-3340) - Contract Purchase Agreement

Memo from Buyer Sue Jessup and Assistant City Manager/Chief Financial Officer Dennis Kauffman recommending the City Council adopt RESOLUTION NO. 23-088 APPROVING A CONTRACT PURCHASE AGREEMENT, BY AND BETWEEN THE CITY OF ROSEVILLE AND NATIONAL AQUATIC SERVICES, INC., AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE (3002726). Staff requests Council approve a contract purchase agreement with National Aquatic Services, Inc. as the lowest responsive and responsible bidder for RFQ 10-3340 for the purchase of a pool heater and installation. The Parks, Recreation & Libraries Department has a requirement to replace one swimming pool heater at the Roseville Aquatics Complex (RAC) that has surpassed its useful life. The total cost of the equipment, including tax, is \$127,928.86. Funding is included in the RAC Pool Heater Capital Improvement Project in the Parks, Recreation and Library Capital Projects Fund. Additionally, staff requests Council approve change order authority for a 10% contingency, for a total contract authority not to exceed \$140,721.75.

Resolutions

6.10. Depository Banking Services and Merchant Services - Approval of Agreements

Memo from Accounting Supervisor Kyle Horton and Assistant City Manager/Chief Financial Officer Dennis Kauffman recommending the City Council adopt RESOLUTION NO. 23-100 APPROVING A PRIMARY DEPOSITORY BANKING AND MERCHANT SERVICES AGREEMENT, INCLUDING ANY AND ALL RELATED IMPLEMENTING TERMS, FORMS, AND AGREEMENTS, BY AND BETWEEN THE CITY OF ROSEVILLE

AND U.S. BANK, N.A., INCLUDING ITS WHOLLY OWNED SUBSIDIARY, ELAVON INC., AND AUTHORIZING THE CITY MANAGER, OR ITS DESIGNEE, TO EXECUTE IT AND ANYTHING ELSE NECESSARY, INCLUDING ALL RELATED TERMS, AGREEMENTS, DOCUMENTS, AND AUTHORIZATIONS ON BEHALF OF THE CITY OF ROSEVILLE. Staff requests Council approve a Primary Depository Banking and Merchant Services Agreement with U.S. Bank, N.A., including its wholly own subsidiary, Elavon Inc., for a three-year period with two optional one-year renewals. The estimated cost of the banking services, including merchant credit card processing services, is approximately \$100,000 per year for the initial term, and approximately \$110,000 per year for optional renewal years. An incentive value from U.S. Bank N.A. up to \$150,000 for the first year will offset any account analysis fees and other costs as outlined in the Primary Depository Banking and Merchant Services Agreement. The not-to-exceed total for the agreement is \$200,000 over the three (3) year period, a portion of which will be paid for by the General Fund. The cost of the remaining years of the services will be included in future proposed budgets, pending City Council approval.

6.11. U.S. Bureau of Reclamation Section 215 Water Contract - Approval of Contract and Letter of Agreement

Memo from Assistant Environmental Utilities Director Sean Bigley and Environmental Utilities Director Richard Plecker recommending the City Council adopt RESOLUTION NO. 23-099 APPROVING A SECTION 215 WATER CONTRACT AND LETTER OF AGREEMENT, BY AND BETWEEN THE CITY OF ROSEVILLE AND THE UNITED STATES BUREAU OF RECLAMATION, AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE. Staff requests Council approve the execution of a Section 215 Water Contract with the U.S. Bureau of Reclamation (Reclamation) to allow for up to 4,200 acre-feet of non-storable flood control water from Folsom Reservoir to be scheduled by the City for purposes of groundwater recharge using the City's Aquifer Storage and Recovery Wells. The proposed Section 215 Water Contract will allow for recharge activity from March 1, 2023, through February 29, 2024. Additionally, this item requests that City Council authorize the City Manager to execute an accompanying Letter of Agreement (LOA) between the City and Reclamation to allow \$5,000 to be placed as a deposit to reimburse specified future work performed by Reclamation for the Section 215 Water Contract from March 1, 2023, through February 29, 2028. For FY2022-23, the \$5,000 LOA deposit will be paid from the FY2022-23 Purchased Water budget line item of the Water Treatment Plant Section budget, which is funded by the Water Operations Fund with revenue from water utility sales.

6.12.2022 Housing Element Annual Progress Report and 2022 General Plan Annual Progress Report

Memo from Housing Manager Trisha Isom, Housing Analyst Sara Thornton, Senior Planner Lauren Hocker, and Economic Development Director Melissa Anguiano recommending the City Council adopt RESOLUTION NO. 23-090 APPROVING THE 2022 HOUSING ELEMENT ANNUAL PROGRESS REPORT AND APPROVING THE 2022 GENERAL PLAN ANNUAL PROGRESS REPORT. Staff requests Council approve an annual informational report on the status of the annual progress reports for the Housing Element and the General Plan progress implementation, as required by the State of California. The staff cost to develop the progress reports was included in the FY2022-23 adopted budget. There is no impact to the City's General Fund.

6.13. Pleasant Grove Wastewater Treatment Plant Energy Recovery Project - California Energy Commission Grant and Loan Amendment

Memo from Senior Engineer Tracie Mueller and Environmental Utilities Director Richard Plecker recommending the City Council adopt RESOLUTION NO. 23-096 APPROVING THE CALIFORNIA ENERGY COMMISSION GRANT/LOAN AMENDMENT AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE. Staff requests Council approval of the California Energy Commission (CEC) Grant Agreement Amendment 1 for the Pleasant Grove Wastewater Treatment Plant Energy Recovery Project which extends the completion date for the project. There is no financial impact or change with the approval of this grant amendment as it is only related to the term of the grant. The CEC grant amount is for \$3,000,000 and requires matching funds of \$3,000,000. The Energy Recovery Project construction cost is \$24,744,537. Funding for the Energy Recovery Project is provided under the capital improvement projects for the South Placer Wastewater Authority (SPWA) which has been authorized by the SPWA board. The Energy Recovery Project is jointly funded between Roseville and the other SPWA Regional Partners. The SPWA's approved project funding is sufficient to pay the anticipated total cost of the Energy Recovery Project.

6.14. Dry Creek Greenway East Phase 1 Trail Project - Professional Design Services Agreement Amendment

Memo from Associate Engineer Cathy Gosalvez and Public Works Director Jason Shykowski recommending the City Council adopt RESOLUTION NO. 23-093 APPROVING A SECOND AMENDMENT TO PROFESSIONAL DESIGN SERVICES AGREEMENT, BY AND BETWEEN THE CITY OF

ROSEVILLE AND PSOMAS, AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE. Staff requests Council approve a second amendment to the professional design services agreement with Psomas, Inc. for engineering and environmental permitting services for the Dry Creek Greenway East Phase 1 Trail Project. The project will construct a paved multi-use trail along Dry, Cirby, and Linda Creeks from Darling Way/Riverside Avenue to the existing Maidu Park Trail at Rocky Ridge Drive. The amendment to the agreement is for \$166,435. The Dry Creek Greenway East Trail Project is funded by federal, state and local sources: Solutions for Congested Corridors, Active Transportation Program, Congestion Mitigation and Air Quality, and Local Transportation Funds. No General Fund resources will be used for the project.

Ordinances (for introduction and adoption - appropriation/urgency measures)

6.15. Retirement of 2012 Series Electric System Revenue Refunding Certificates of Participation Bonds, Termination of Interest Rate Swap Agreement and Budget Adjustment

Memo from Interim Assistant Electric Utility Director Eric Campbell, Assistant City Manager/Chief Financial Officer Dennis Kauffman, and Electric Utility Director Dan Beans recommending the City Council adopt RESOLUTION NO. 23-092 AUTHORIZING TERMINATION OF SWAP AGREEMENT RELATED TO A 2012 ELECTRIC SYSTEM OBLIGATION, AND APPROVING RELATED OFFICIAL ACTIONS; and adopt ORDINANCE NO. 6627 AUTHORIZING CERTAIN AMENDMENTS TO THE FISCAL YEAR 2022-23 BUDGET AND DECLARING THIS ORDINANCE TO BE IMMEDIATELY EFFECTIVE AS AN APPROPRIATION MEASURE. Staff recommends Council authorize the retirement of the 2012 Series Electric System Revenue Refunding Certificates of Participation Bonds and termination of the associated interest rate swap, and approve a budget adjustment appropriating \$53,570,000 from the Electric Fund, including \$46 million from the Electric Rate Stabilization Fund. The recommended actions will reduce the Electric Department's outstanding debt, debt service, and the inherent risks with its associated interest rate swap.

6.16. Royer Recreation Building (Children's Art Center) – Budget Adjustment

Memo from Design & Construction Project Manager Rjahja Canlas and Public Works Director Jason Shykowski recommending the City Council adopt ORDINANCE NO. 6628 AUTHORIZING CERTAIN AMENDMENTS TO THE FISCAL YEAR 2022-23 BUDGET AND DECLARING THIS ORDINANCE TO BE IMMEDIATELY EFFECTIVE AS AN APPROPRIATION MEASURE. Staff requests Council approve a budget

adjustment to reallocate \$174,000 in previously appropriated and unspent funds for the Royer Recreation Building, from the FY2020-21 Parks, Recreation and Libraries and Golf Courses - Renovation and Restoration Project to the Children's Art Center Project, in the Facility Rehabilitation Fund. No additional funding is being requested.

6.17. Staffing Changes

Memo from Human Resources Manager Linda Hampton and Human Resources Director Stacey Peterson recommending the City Council adopt ORDINANCE NO. 6629 AMENDING ORDINANCE NO. 6589, THE SALARY ORDINANCE FOR MANAGEMENT EMPLOYEES, AS AMENDED BY APPENDIX "F" TO BE EFFECTIVE MARCH 25, 2023, AS AN URGENCY MEASURE; and adopt ORDINANCE NO. 6630 AMENDING ORDINANCE 6582, THE SALARY ORDINANCE FOR PERSONNEL REPRESENTED BY THE INTERNATIONAL BROTHERHOOD OF ELECTRICAL WORKERS, LOCAL 1245, AS AMENDED BY APPENDIX "C" TO BE EFFECTIVE MARCH 25, 2023, AS AN URGENCY MEASURE. The City engaged a consulting firm to conduct a job classification study of selected classes in the Parks, Recreation & Libraries (PRL) and Public Works departments. The study recommended adjustments to classifications to address recruitment challenges and support employee retention. In addition, Human Resources worked with PRL regarding some staffing changes to support their business needs. The recommended changes include the addition of 3.75 positions that will be funded through the elimination of one (1) limited-term position and two (2) 1500-hour temporary positions. Human Resources staff also recommend changes for the Electric Department including two (2) new classifications, a salary adjustment for one (1) classification to align salaries internally, and deletion of two positions vacated by a promotional process. The estimated total cost of the recommended position adjustments is \$82,148 for the remainder of FY2022-23 and \$305,120 annually ongoing. Of this amount, the General Fund impact is \$12,808 for the rest of FY2022-23 and \$47,573 annually ongoing.

CC #: 2594

File #: 0600-01

CONTACT: Linda Hampton 916-774-5215 lhampton@roseville.ca.us

6.18. Electric Department Fiscal Year 2022-23 Mid-year - Budget Adjustment

Memo from Interim Electric Finance Administrator Joanna Cucchi and Electric Utility Director Dan Beans recommending the City Council adopt ORDINANCE NO. 6626 AUTHORIZING CERTAIN AMENDMENTS TO THE FISCAL YEAR 2022-23 BUDGET AND DECLARING THIS ORDINANCE TO BE IMMEDIATELY EFFECTIVE AS AN APPROPRIATION MEASURE. Staff requests Council approve a mid-year budget adjustment for the Electric Department. This budget adjustment includes both adjustments to the operating and capital budgets and will result in a net decrease to the Electric Fund

expenditure budget of \$3,490,262 and an increase to the Electric Fund available fund balance.

6.19. North Central Roseville Specific Plan Roadway Improvement Project - Budget Adjustment

Memo from Assistant Engineer Karen Vences and Public Works Director Jason Shykowski recommending the City Council adopt ORDINANCE NO. 6625 AUTHORIZING CERTAIN AMENDMENTS TO THE FISCAL YEAR 2022-23 BUDGET AND DECLARING THIS ORDINANCE TO BE IMMEDIATELY EFFECTIVE AS AN APPROPRIATION MEASURE. Staff requests Council approve a budget adjustment in the amount of \$1,200,000 from the North Central Community Facilities District No. 1 Fund toward the Roseville Parkway Widening and Pleasant Grove Boulevard Triple Lefts Project (North Central Roseville Specific Plan Roadway Improvement Project). The recommended budget adjustment will augment the budget for staff time and professional services to complete project design for the widening of Roseville Parkway from Creekside Ridge Drive to East Gibson Drive from three lanes in each direction to four lanes, and provide triple left turn lanes on southbound Pleasant Grove Boulevard to eastbound Roseville Parkway. No General Fund resources will be used for this project.

END OF CONSENT CALENDAR

7. ORDINANCES

7.1. Roseville Soccer Complex - Award of Design-Build Construction Agreement and Budget Adjustment

Memo from Park Planning & Development Manager Tara Gee and Parks, Recreation & Libraries Director Jill Geller recommending Council adopt RESOLUTION NO. 23-098 APPROVING A DESIGN-ASSIST CONSTRUCTION AGREEMENT, BY AND BETWEEN ROBERT A. BOTHMAN, INC. DBA ROBERT A. BOTHMAN CONSTRUCTION, INC., AND THE CITY OF ROSEVILLE, AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE; and adopt ORDINANCE NO. 6631 AUTHORIZING CERTAIN AMENDMENTS TO THE FISCAL YEAR 2022-23 BUDGET AND DECLARING THIS ORDINANCE TO BE IMMEDIATELY EFFECTIVE AS AN APPROPRIATION MEASURE. Staff requests Council award an agreement to Bothman Construction, Inc. in the guaranteed maximum price amount of \$45,873,259. Initial funding for the project was approved in FY2018-19. Staff also requests approval of a budget adjustment in the amount of \$5,781,268. The budget adjustment appropriates \$3,000,000 from the West Roseville Neighborhood Park Fund, \$1,500,000 from the West Roseville City-wide Park Fund and \$1,281,268 from repayment by Placer Valley Tourism of funds used in the early efforts of the Soccer Complex at a different location. Maintenance for this facility will be budgeted in the Parks, Recreation & Libraries operations budget. In August 2022, the Council approved the master plan for the Roseville Soccer Complex which included 10 lighted artificial turf soccer fields, a universally accessible playground and support features such as off-street parking, restrooms, shade structures, concession/officials room and walkways. A Request for Proposals was issued in September 2022 seeking qualified Design-Assist contractors to partner with the City and the Design Consultant, Verde Design Group, on this project. Responses to the Request for Proposals were received in late October 2022. Interviews with three submitting contractor companies were conducted in November 2022. Negotiations on a GMP began in December 2022 and concluded in January 2023.

8. PUBLIC HEARING

NOTICE TO THE PUBLIC

City Council, when considering the matter scheduled for hearing, will take the following actions:

1. Open the Public Hearing
2. Presentation by Staff
3. Presentation by applicant or Appellant
4. Accept Public Testimony
5. Appellant or Applicant Rebuttal Period
6. Close the Public Hearing
7. City Council Comments and Questions
8. City Council Action

In the future, if you wish to challenge in court any of the matters on this agenda for which a public hearing is to be conducted, you may be limited to raising only those issues, which you, or someone else raised orally at the Public Hearing or in written correspondence received by the City on or before the hearing.

Public Hearings listed for continuance will be continued as noted and posting of this agenda serves as notice of continuation.

8.1. HOUSING AUTHORITY/CITY COUNCIL – FY2023-24 Annual Plan

Memo from Housing Supervisor Suzi Cook-Turner and Economic Development Director Melissa Anguiano recommending the City Council, acting as the Board of Directors for the Housing Authority, adopt RESOLUTION NO. 1-23 APPROVING THE FY2023-24 ANNUAL PLAN. Staff requests the Housing Authority Board approve the FY2023-24 Annual Plan. This item does not create any additional cost to the City's General Fund.

8.2. Community Development Block Grant Program – 2022 Annual Action Plan Substantial Amendment, Community Development Block Agreement Amendment, and Rating and Ranking Guidelines

Memo from Housing Manager Trisha Isom and Economic Development Director Melissa Anguiano recommending the City Council adopt RESOLUTION NO. 23-084 APPROVING THE PROPOSED AMENDMENT TO THE 2022 ANNUAL ACTION PLAN; and adopt RESOLUTION NO. 23-085 APPROVING A FIRST AMENDMENT TO COMMUNITY DEVELOPMENT BLOCK GRANT AGREEMENT, BY AND BETWEEN THE CITY OF ROSEVILLE AND PLACER VETERANS STAND DOWN, INC., AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE; and adopt RESOLUTION NO. 23-086 APPROVING THE CITY OF ROSEVILLE COMMUNITY

DEVELOPMENT BLOCK GRANT RATING AND RANKING GUIDELINES. Staff requests Council approval of a proposed Substantial Amendment to the 2022 Annual Action Plan, authorization for the City Manager to execute the First Amendment to Community Development Block Grant Agreement for Placer Veterans Stand Down Event, and approval of updated Rating and Ranking Guidelines for the Community Development Block Grant program. This will promote affordable housing and community development programs for low-income residents. This item does not impact the City's General Fund.

8.3. Hydroelectric Adjustment - Roseville Municipal Code Update

Memo from Interim Electric Utility Financial Administrator Joanna Cucchi and Electric Utility Director Dan Beans recommending the City Council introduce for first reading ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE AMENDING SECTION 14.24.052 OF CHAPTER 14.24 OF TITLE 14 OF THE ROSEVILLE MUNICIPAL CODE REGARDING HYDROELECTRIC ADJUSTMENT. This Roseville Municipal Code updates the hydroelectric adjustment calculation to reflect forecasted energy deliveries and update the annual expected energy from hydroelectric resources from 222 Gigawatt-Hour (GWh) to 277 GWh. Depending on the year, this could result in increased or decreased revenue. However, the revenue received will be more aligned with the impacts related to hydroelectric generation.

8.4. West Roseville Specific Plan Parcel F-22 (5251 Fiddymont Road) - Specific Plan Amendment and Development Agreement Amendment

Memo from Associate Planner Kinarik Shallow and Development Services Director Mike Isom recommending the City Council adopt RESOLUTION NO. 23-089 AMENDING THE WEST ROSEVILLE SPECIFIC PLAN; and introduce for first reading an ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE ADOPTING A TENTH AMENDMENT OF THE DEVELOPMENT AGREEMENT BY AND BETWEEN THE CITY OF ROSEVILLE, AND JEN CALIFORNIA 15, LLC, TAYLOR MORRISON OF CALIFORNIA, LLC, AND WEST ROSEVILLE DEVELOPMENT COMPANY, INC. RELATIVE TO THE WEST ROSEVILLE SPECIFIC PLAN AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE. The project is a request for a Specific Plan Amendment to reallocate affordable housing units among West Roseville Specific Plan (WRSP) Parcels F-22A and F-22B. No changes to the overall WRSP unit count will be made. In addition, a Tenth Amendment of the Fiddymont Land Venture Development Agreement is requested to address the revised affordable housing allocations. The entitlements will facilitate development of an apartment complex on each parcel. The eventual construction of the apartment complex projects would generate revenue to the

City through the payment of development impact fees. The project is not anticipated to result in any negative impacts to the City's General Fund.

Item #: 6.1.

RECOMMENDATION TO COUNCIL

Approve the minutes of the February 15, 2023 City Council Meeting.

BACKGROUND

Not applicable.

FISCAL IMPACT

There is no fiscal impact associated with this request.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. The City Council minutes are not subject to CEQA. No additional environmental review is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal B - Support community engagement and advocacy

Respectfully Submitted,

Helen Dreyer, Assistant City Clerk

Carmen Avalos, City Clerk

Dominick Casey, City Manager

ATTACHMENTS:

Description

February 15, 2023

MINUTES

February 15, 2023

CITY COUNCIL
6:00 p.m.
Council Chambers
311 Vernon Street
Roseville, California
www.roseville.ca.us

The meeting may be viewed on Comcast channel 14, Consolidated Communications channel 73, and AT&T U-Verse. City Council meetings are also video streamed live on the City's website at roseville.ca.us/watch and roseville.ca.us/agenda, and the City's YouTube channel at youtube.com/CityofRosevilleCa.

If you need a disability-related modification or accommodation to participate in this meeting, please contact Voice: 916-774-5200, TDD: 916-774-5220. Requests must be made as early as possible.

1. CALL TO ORDER

Mayor Bruce Houdesheldt called the meeting to order at 6:01 p.m.

2. ROLL CALL

Present: Bernasconi, Alvord, Roccucci, Mendonsa, Houdesheldt

3. PLEDGE OF ALLEGIANCE

Coast Guard Veteran Robert Elster led the Pledge of Allegiance.

4. MEETING PROCEDURES

City Clerk Carmen Avalos announced the procedures for addressing the City Council.

5. PRESENTATIONS

5.1. Resolution - Senator Jim Nielsen

Commend Senator Jim Nielsen for his more than 44 years of remarkable service and dedication to the people of California and to his 10 years of unwavering service and support for the City of Roseville. We congratulate Senator Jim Nielsen for all his accomplishments and wish him a long, healthy and joyous retirement.

CONTACT: Blair Hutchison 916-774-5266 bmhutchison@roseville.ca.us

Mayor Bruce Houdesheldt presented the resolution to Senator Jim Nielsen, who responded.

6. **PUBLIC COMMENTS**

Robert Elster spoke on the Placer Veterans Stand Down program to be held May 9-11.

Larry Belucci spoke on the impacts of homeless camps.

7. **CONSENT CALENDAR**

BEGINNING OF CONSENT CALENDAR

No public comment received.

Motion by Tracy Mendonsa, seconded by Pauline Roccucci, to approve the Consent Calendar as presented. The Motion Passed.

Roll call vote: Ayes: Alvord, Bernasconi, Houdesheldt, Mendonsa, Roccucci

Minutes

7.1. Minutes of Prior Meetings

Memo from Assistant City Clerk Helen Dreyer and City Clerk Carmen Avalos recommending the City Council approve the minutes of the January 11, 2023 Special Meeting City Council Legislative Platform Workshop, January 18, 2023 City Council Closed Session, January 18, 2023 City Council Meeting, February 1, 2023 City Council Closed Session, and February 1, 2023 City Council meeting.

Bids / Purchases / Services

7.2. Centrifuge Repair Parts and Replacement Equipment - Sole Source Purchase Order

Memo from Preventative Maintenance Coordinator Blaine Wiegel and Environmental Utilities Director Richard Plecker recommending the City Council adopt RESOLUTION NO. 23-052 APPROVING A SOLE SOURCE PURCHASE ORDER FOR CENTRIFUGE REPAIR PARTS AND REPLACEMENT EQUIPMENT. Staff requests Council approval of a sole source purchase order with GEA Westfalia in the amount of \$300,000 for the purchase of repair parts and replacement equipment of three GEA Westfalia separators for the three centrifuges in service at the Pleasant Grove Wastewater Treatment Plant. Funding will be provided from the Wastewater Operations Fund budget. This agreement would allow four optional renewal years at one-year intervals. Staff also requests authorization to utilize the optional renewal years of the contract without further Council approval, provided that the applicable budget is approved by the City Council each year, or until City staff determines that continuing with the same vendor is not in the City's best interest.

7.3. Outage Management System - Contract Purchase Agreement Amendment

Memo from Senior Electric Business Analyst Steve Hancock and Electric Utility Director Dan Beans recommending the City Council adopt RESOLUTION NO. 23-067 APPROVING AMENDMENT #2 TO CONTRACT PURCHASE AGREEMENT, BY AND BETWEEN THE CITY OF ROSEVILLE AND DATAVOICE INTERNATIONAL INC., AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE (3000172). Staff requests Council approve an amendment to the contract purchase agreement with Outage Management System and Interactive Voice Response to extend the end date to December 31, 2024 and increase the contract amount by \$20,000. The amendment will allow for integration with the Advanced Metering Infrastructure solutions. The total cost of services will not exceed \$460,429. Funding is included in the Electric Fund operating budget for FY2022-23.

Resolutions

7.4. 2023 Citywide Records Retention Schedule Update

Memo from Paralegal Gretchen Hakala and City Attorney Michelle Sheidenberger recommending the City Council adopt RESOLUTION NO. 23-068 ADOPTING THE 2023 CITYWIDE RECORDS RETENTION SCHEDULE. The Citywide Records Retention Schedule is updated and maintained by the City Attorney's office to direct City staff with regards to the retention of both physical and electronic records. California Government Code Section 34090 provides that certain City records, instruments or documents may be destroyed with the approval of the City Council by resolution and written consent of the City Attorney. This year's updates are routine in nature. There is no fiscal impact to the General Fund.

7.5. Electric Generation Cooling Tower Maintenance and Rehabilitation - Northern California Power Agency Support Services Program Agreement

Memo from Power Generation Superintendent Matthew Garner and Electric Utility Director Dan Beans recommending the City Council adopt RESOLUTION NO. 23-053 APPROVING A CONFIRMATION UNDER THE SUPPORT SERVICES PROGRAM AGREEMENT WITH NORTHERN CALIFORNIA POWER AGENCY, AND AUTHORIZING THE ELECTRIC UTILITY DIRECTOR AND CITY ATTORNEY TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE. Staff requests Council approve a Confirmation under the Support Services Program Agreement with the Northern California Power Agency for EvapTech, Inc. to perform cooling tower maintenance and rehabilitation at the Roseville Energy Park. The total cost of services will not exceed \$282,320. Funding is included in the Electric Fund budget for FY2022-23.

7.6. Advanced Metering Infrastructure Consulting - Professional Services Agreement Amendment

Memo from Advanced Metering Infrastructure Project Manager Caitlin Ornelas and Electric Utility Director Daniel Beans recommending the City Council adopt RESOLUTION NO. 23-058 APPROVING A FIFTH AMENDMENT TO PROFESSIONAL SERVICES AGREEMENT, BY AND BETWEEN THE CITY OF ROSEVILLE AND E SOURCE COMPANIES, LLC, AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE. Staff requests Council approve an amendment to the professional services agreement with E Source, formerly UtiliWorks Consulting, LLC, for Advanced Metering Infrastructure support, development and implementation services. The total cost of this amendment is \$695,101. This project is funded by the Electric and Environmental Utilities' Advanced Metering Infrastructure capital improvement project budgets in the Electric Fund and Water Fund, respectively.

7.7. International Swap and Derivatives Association - Master Agreement Amendment

Memo from Electric Business Analyst Long Zhang and Electric Utility Director Dan Beans recommending the City Council adopt RESOLUTION NO. 23-060 APPROVING THE THIRD AMENDMENT TO THE INTERNATIONAL SWAP AND DERIVATIVES ASSOCIATION, INC. 2011 MASTER AGREEMENT, BY AND BETWEEN THE CITY OF ROSEVILLE AND MACQUARIE ENERGY

LLC AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE. Staff requests Council approve the Third Amendment to the International Swap and Derivatives Association Master Agreement with Power and Gas Annexes with Macquarie Energy LLC. The amendment aims to provide more flexibility with credit support and meet new regulatory reporting requirements. There is no fiscal impact associated with the execution of the Third Amendment as it is only an amendment to an enabling agreement.

CONTACT: Long Zhang 916-774-5652 lzhang@roseville.ca.us

7.8. Roseville Parkway Extension Project - Purchase of Real Property

Memo from Associate Engineer Jesse Khatkar and Public Works Director Jason Shykowski recommending the City Council adopt RESOLUTION NO. 23-065 APPROVING AN AGREEMENT FOR SALE OF REAL PROPERTY, BY AND BETWEEN THE CITY OF ROSEVILLE AND 8501 ROSEVILLE PROPERTIES, LLC, AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT AND ALL RELATED ESCROW DOCUMENTS ON BEHALF OF THE CITY OF ROSEVILLE. Staff requests Council approve an agreement for Sale of Real Property for the purchase of property for the Roseville Parkway Extension project with 8501 Roseville Properties, LLC in the amount of \$175,000. The project will construct a new four-lane roadway and bridge connecting Roseville Parkway between Foothills Blvd and Washington Blvd. Construction of the Roseville Parkway Extension project is anticipated to begin in late spring/early summer of 2023. No General Fund resources will be used to complete the project.

7.9. On-Call Architectural Services - Professional Design Services Agreement

Memo from Design & Construction Project Manager Rjahja Canlas and Public Works Director Jason Shykowski recommending the City Council adopt RESOLUTION NO. 23-055 APPROVING AN ON-CALL PROFESSIONAL DESIGN SERVICES AGREEMENT, BY AND BETWEEN THE CITY OF ROSEVILLE AND MONIZ ARCHITECTURE, AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE. Staff requests Council approve a professional design services agreement for on-call architectural services with Moniz Architecture for architectural design services to meet project demands. Additionally, staff requests Council approve three additional one-year renewals without further City Council approval, provided that the applicable budget is approved by the City Council each year, or until City staff determines that continuing with the same vendor is not in the City's best interest. The initial term (approximately 18 months) commences on the date of award and runs through June 30, 2024. The authorization for the initial term is a not-to-exceed amount of \$50,000. The authorization for the optional one-year renewals is a not-to-exceed amount of \$50,000 per year. Work performed under this

agreement will utilize capital rehabilitation funds and/or capital improvement projects in the approved City budget.

7.10. Environmental Planning Services - On-Call Professional Services Agreement

Memo from Management Analyst Stacie Marchetti and Development Services Director Mike Isom recommending the City Council adopt RESOLUTION NO. 23-059 APPROVING AN ON-CALL PROFESSIONAL SERVICES AGREEMENT, BY AND BETWEEN THE CITY OF ROSEVILLE AND ECORP CONSULTING, INC., AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE. Staff requests Council approval of an on-call professional services agreement with ECORP Consulting, Inc. for environmental planning services related to California Environmental Quality Act compliance and environmental permitting. The total cost of the service is \$150,000 over three years; \$50,000 annually. The cost of these services are generally billable to full-cost development projects, and the various City enterprise funds and capital improvement projects requiring environmental permitting and CEQA compliance.

7.11. Placer Parkway Phase 1 - Funding Agreement

Memo from Senior Engineer Mark Johnson and Development Services Director Mike Isom recommending the City Council adopt RESOLUTION NO. 23-069 AUTHORIZING THE CITY MANAGER TO EXECUTE THE PROPOSED SOUTH PLACER REGIONAL TRANSPORTATION AUTHORITY (SPRTA) UPDATED "TIER 2 FUNDING COMMITMENT AGREEMENT" TO ALLOW ADVANCE FUNDING FROM PLACER COUNTY AND THE UNITED AUBURN INDIAN COMMUNITY FOR CONSTRUCTION OF PLACER PARKWAY PHASE 1 IMPROVEMENTS, WITH PORTIONS OF THE ADVANCED FUNDING TO BE REIMBURSED FROM ONGOING COLLECTION OF THE SPRTA TIER II DEVELOPER IMPACT FEE. The South Placer Traffic Model, developed in the 1990's and used by all jurisdictions in South Placer County, requires the construction of a limited access expressway from State Route 65 in Placer County to Highway 99 in Sutter County to relieve the general plan buildout conditions of Lincoln, Rocklin, Roseville and Placer County. The proposed agreement would allow Placer County to borrow funding for the first phase of the construction, from Highway 65 to Foothills Boulevard, and then be reimbursed by the South Placer Regional Transportation Authority (SPRTA) Tier 2 fee program. A similar request for authorization was approved by City Council on October 21, 2020. Due to project delays, the previous agreement was not executed by the SPRTA member agencies. The agreement language has been updated to reflect current cost estimates and authorization for the City Manager to execute the updated document. There is no fiscal impact to the City's General

Fund.

7.12. West Roseville Specific Plan Parcel F-31 – Lot 7 and Lot 8 - Summary Vacation

Memo from Associate Planner Kinarik Shallow and Development Services Director Mike Isom recommending the City Council adopt RESOLUTION NO. 23-066 ORDERING SUMMARY VACATION OF A PORTION OF A PUBLIC UTILITY EASEMENT AND PEDESTRIAN EASEMENT AT 1950 BLUE OAKS BOULEVARD. Staff requests Council approval of the summary vacation for a 10-foot-wide portion of the Public Utility Easement and a 10-foot-wide portion of the 35-foot-wide Pedestrian Easement for a retail development at 1950 Blue Oaks Boulevard. There will be no fiscal impact to the City.

7.13. On-Call Building Plan Review and Inspection Services - Professional Services Agreement

Memo from Management Analyst Stacie Marchetti and Development Services Director Mike Isom recommending the City Council adopt RESOLUTION NO. 23-056 APPROVING AN ON-CALL PROFESSIONAL SERVICES AGREEMENT, BY AND BETWEEN THE CITY OF ROSEVILLE AND BPR CONSULTING, AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE. Staff requests Council approve a professional services agreement with BPR Consulting Group, LLC for on-call Building Plan Check and Inspection Services. The total cost of the service is \$350,000 annually. Funding is included in the Development Service's budget in the General Fund. The full cost of these services is offset by administrative and building permit fees paid by the applicant of the building permit. There is no net General Fund impact associated with this request.

7.14. Public Outreach for Public Works Projects - On-Call Professional Services Agreement

Memo from Public Information Officer Helen Dyda and Deputy City Manager Megan Scheid recommending the City Council adopt RESOLUTION NO. 23-071 APPROVING AN ON-CALL PROFESSIONAL SERVICES AGREEMENT, BY AND BETWEEN THE CITY OF ROSEVILLE AND PROSIO COMMUNICATIONS, AND AUTHORIZING THE CITY MANAGER TO

EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE. Staff requests Council approve an On-Call Professional Services Agreement with Proso Communications to provide on-call public outreach for public works projects. The initial contract is for three years, with a not-to-exceed amount of \$250,000, with two optional one-year renewals, not to exceed \$100,000 for each optional year. Staff also requests authorization to utilize the optional renewal years of the contract without further Council approval, provided that the applicable budget is approved by the City Council each year, or until City staff determines that continuing with the same vendor is not in the City's best interest. Funding for this agreement is included in Public Works capital improvement project budgets in various funds.

Ordinances (for introduction and adoption - appropriation/urgency measures)

7.15. Creekview Bike Trail Open Space Parcels C-50 and C-51 - Reimbursement Agreement and Budget Adjustment

Memo from Assistant Transportation Planner Suzanne Engelke and Public Works Director Jason Shykowski recommending the City Council adopt RESOLUTION NO. 23-063 APPROVING A REIMBURSEMENT AGREEMENT, BY AND BETWEEN THE CITY OF ROSEVILLE AND ANTHEM UNITED CREEKVIEW DEVELOPMENTS LIMITED PARTNERSHIP, AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE; and adopt ORDINANCE NO. 6616 AUTHORIZING CERTAIN AMENDMENTS TO THE FISCAL YEAR 2022-23 BUDGET AND DECLARING THIS ORDINANCE TO BE IMMEDIATELY EFFECTIVE AS AN APPROPRIATION MEASURE. Staff request Council approve the Reimbursement Agreement for the Creekview Benchmark Post and Cable project between the City and Anthem United Creekwood Developments Limited Partnerships and approve a budget adjustment in the amount of \$31,850 to install post and cable fencing in Creekview Open Space parcels C50 and C 51. The developer, Anthem United Creekview Developments Limited Partnerships, will pay up front costs for the fencing of the trail at an estimated cost of \$31,850. Reimbursement will be provided through bike trail development fees collected for Creekview Specific Plan. There is no fiscal impact to the General Fund.

7.16. Fiscal Year 2022-23 - Budget Adjustments

Memo from Assistant Finance Director Scott Pettingell and Assistant City Manager/Chief Financial Officer Dennis Kauffman recommending the City Council adopt ORDINANCE NO. 6615 AUTHORIZING CERTAIN AMENDMENTS TO THE FISCAL YEAR 2022-23 BUDGET AND DECLARING THIS ORDINANCE TO BE IMMEDIATELY EFFECTIVE AS AN APPROPRIATION

MEASURE. Staff recommends that the City Council approve budget adjustments to the FY2022-23 budget. The recommended adjustments include a transfer of \$134,880 from the Community Facilities District 3 Municipal Services Fund to the General Fund, a transfer of \$46,039 from the Youth Sports Coalition Fund to the Citywide Park Fund, a transfer of \$876,144 from the General Capital Projects Fund to various funds as part of the closure of the Enterprise Resource Planning and Timekeeping projects, an \$210,000 revenue increase in the Traffic Safety Fund, and an \$85,871 expenditure decrease to the Vernon St. Roundabout Project in the Highway Users Tax Fund. The adjustments also include a \$6,277 increase to the Maidu Sports Complex Turf Conversion project in the Parks, Recreation, and Library Capital Projects Fund and the transfer of \$49,876 from the General Capital Projects Fund to the Parks, Recreation and Library Capital Projects Fund to prepare this project for closure. There are adequate resources available within all of the impacted funds. Combined, the recommended budget adjustments will increase available resources in the General Fund by \$528,850.

7.17. Sacramento Urban Area Security Initiative - Grant Award, Budget Adjustment and Sole Source Purchase Order

Memo from Management Analyst Mark Peinado and Police Chief Troy Bergstrom recommending the City Council adopt RESOLUTION NO. 23-070 ACCEPTING A GRANT AWARD FROM THE SACRAMENTO URBAN AREA SECURITY INITIATIVE (UASI), APPROVING THE CITY OF SACRAMENTO SUBAWARD AGREEMENT, AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE; adopt ORDINANCE NO. 6618 AUTHORIZING CERTAIN AMENDMENTS TO THE FISCAL YEAR 2022-23 BUDGET AND DECLARING THIS ORDINANCE TO BE IMMEDIATELY EFFECTIVE AS AN APPROPRIATION MEASURE, and approve a sole source purchase order to Meridian Rapid Defense Group for 16 anti-vehicle barriers and barrier trailer kit. Staff requests Council approve the City of Sacramento Subaward Agreement through the Fiscal Year 2020 Homeland Security Grant Program - Urban Area Security Initiative in the amount of \$152,940 to purchase 16 anti-vehicle barriers and barrier trailer kit to transport the barriers. The anti-vehicle barriers will be an essential tool to protect the community during the numerous events that are scheduled throughout the city every year. Staff also requests approval of a budget adjustment to appropriate \$25,855 of the funds into the Fleet Replacement Fund.

7.18. United States Department of Homeland Security - Grant Award and Budget Adjustment

Memo from Division Chief Ryan Harrigan and Fire Chief Rick Bartee

recommending the City Council adopt RESOLUTION NO. 23-057 ACCEPTING GRANT AWARDS FROM THE UNITED STATES DEPARTMENT OF HOMELAND SECURITY; and adopt ORDINANCE NO. 6614 AUTHORIZING CERTAIN AMENDMENTS TO THE FISCAL YEAR 2022-23 BUDGET AND DECLARING THIS ORDINANCE TO BE IMMEDIATELY EFFECTIVE AS AN APPROPRIATION MEASURE. Staff requests Council accept two grant awards from the United States Department of Homeland Security through the Placer County Office of Emergency Services in the amount of \$40,000 (FY2019-20) and \$41,000 (FY2020-21) for a total of \$81,000 and approve the associated budget adjustment for the purchase of a hazardous materials instrument. On May 18, 2022 City Council approved a \$76,000 and \$21,000 appropriation for the replacement of two separate chemical detectors currently used by the Fire Department that are no longer supported by the manufacturer. These funds will be reallocated to the purchase of this instrument which meets and exceeds the capability of the two instruments being replaced. The remainder of the \$187,395 total purchase cost will be paid through a combination of \$81,000 in grants awarded by Placer County Office of Emergency Services and \$9,395 in existing allocated funds within the Fire Department budget, with no net impact to the General Fund.

10. PUBLIC HEARING

10.1. North Central Roseville Specific Plan Parcel 42A (572 Gibson Drive) – Shea Properties Apartments Rezone Project

Memo from Associate Planner Escarlet Mar and Development Services Director Mike Isom recommending the City Council consider the Addendum to the 2035 General Plan Environmental Impact Report (SCH #2019080418, certified on August 5, 2020) and 2021 Housing Element Addendum; and adopt RESOLUTION NO. 23-061 AMENDING THE GENERAL PLAN TO CHANGE THE GENERAL PLAN LAND USE DESIGNATION ON CERTAIN REAL PROPERTY IN THE CITY OF ROSEVILLE; and adopt RESOLUTION NO. 23-062 AMENDING THE GENERAL PLAN TO CHANGE THE LAND USE

DESIGNATION ON CERTAIN REAL PROPERTY IN THE CITY OF ROSEVILLE; and adopt the two (2) findings of fact and introduce for first reading an ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE CHANGING THE ZONING OF CERTAIN REAL PROPERTY LOCATED WITHIN THE CITY OF ROSEVILLE; and adopt the five (5) findings of fact and introduce for first reading an ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE ADOPTING THE DEVELOPMENT AGREEMENT BY AND BETWEEN THE CITY OF ROSEVILLE AND ROSEVILLE LAND HOLDINGS, LLC AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE. The project entitlements will facilitate the eventual construction of a 360 affordable multi-family apartment complex on the project site. The project includes a request for a General Plan Amendment (Land Use Map only) and a Specific Plan Amendment (text and land use map only) to the North Central Roseville Specific Plan to reflect the changes to Parcel 42A, include 360 multi-family dwelling units to the plan area, and add two (2) new land uses to the list of permitted land uses within the Community Commercial and Business Professional land use designations; a Rezone from Business Professional/Special Area North Central (BP/SA-NC) to Multi-Family Housing/Special Area North Central (R3/SA-NC), and a Development Agreement by and between the City and Roseville Land Holdings, LLC to reflect the change in land use and document the requirements related to the provision of affordable housing units. The proposed project is not anticipated to result in any negative impacts to the City's General Fund.

COUNCIL COMMUNICATION

CC #: 2586

File #: 0707

Title: Mike Shellito Indoor Pool Replastering Project - Approval of Plans and Specifications and Authorization to Call for Bids

Contact: Joel De Jong 916-774-5924 jdejong@roseville.ca.us

Meeting Date: 3/15/2023

Item #: 6.2.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council approve the plans and specifications for the Mike Shellito Indoor Pool Replastering Project and authorize staff to call for bids.

BACKGROUND

The Mike Shellito Indoor Pool facility is located on Fairway Drive in the Highland Reserve Specific Plan. The facility was constructed in 2009 and contains two pools, a lap pool and a warming pool. Both pools' plaster finish has exceeded its useful life and is in need of replacement. The project scope of work includes the removal and replacement of the plaster and tiles for both pools, replacement of drain grates to meet current safety codes, and minor repairs to existing pool lights. Bids are scheduled to be opened in April. Staff plans to return to Council in May to seek approval to award the project. The project duration is anticipated at 90 days for completion, during which time the facility will be closed to the public.

FISCAL IMPACT

The architect's estimate for construction is \$349,425. Funding for the project is provided through General Fund year-end surplus funds from the FY2020-21 budget. Ongoing maintenance costs are funded through the Parks, Recreation & Libraries operating budget in the General Fund. There will be no additional maintenance cost as a result of this project.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) only applies to projects which have the potential to cause a significant effect on the environment. Where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA. (CEQA Guidelines §15061(b)(3).

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal A - Remain fiscally responsible in a changing world

Goal C - Maintain a safe and healthy community

Goal D - Enhance economic vitality

Goal E - Deliver exceptional city services

Respectfully Submitted,

Joel De Jong, Park Development Project Manager

Jill Geller, Director, Parks, Recreation & Libraries

Dominick Casey, City Manager

Notice to Bidders

DATE: March 16, 2023

TO: Prospective Bidders

FROM: Joel De Jong, Park Development Project Manager

RE: Mike Shellito Indoor Pool Replastering Project

Project Description: The City of Roseville is now accepting bid proposals for the Mike Shellito Indoor Pool Replastering Project. The scope of work includes, but is not limited to: pool replastering including tile replacement, drain grate replacement and other miscellaneous repairs for both the main lap pool and smaller warming pool.

Contract Documents: A Project Manual, including all Contract Documents and the Proposal forms for bidding this project, may be obtained online from the City of Roseville's website at www.roseville.ca.us/business/procurement_services/bids_rfps. All communications relative to this project shall be conducted through Public Purchase.

Potential bidders are advised to obtain all documents and specifications related to this project directly from the City of Roseville. The City of Roseville does not guarantee the accuracy of any forms, plans, or project manuals obtained through outside sources other than the City of Roseville. Furthermore, the City does not guarantee the distribution of any addendums or the accuracy of their content if obtained from a third party.

Bidders expressly assume the risk that their bid will be rejected from the use of project manuals or project plans obtained from third parties other than the City of Roseville.

Engineer's Estimate: The engineer's estimate for construction of the base bid items is \$349,425.00.

Pre-Bid Meeting: A job walk will be held at 10:00 a.m. on Wednesday, March 22, 2023 at 10210 Fairway Dr #1969, Roseville, CA 95678. This is not mandatory, but strongly encouraged to answer any questions. Bidders are expected to be familiar with the existing site conditions however, and may pose questions on any conditions they may discover that are not represented within the bid documents.

Questions: The deadline for submission of questions and clarifications regarding the Contract Documents is Friday, March 24, 2023 at 5:00 p.m. In order to meet the required timeline to issue addenda, questions will not be accepted after this date. Only Addenda issued by the City are binding. All questions shall be directed to the attention of Heather Buck via Public Purchase at <https://roseville.ca.us/rfp>.

Bid Deadline: Proposals will be received at the Office of the City Clerk, 311 Vernon Street, Roseville, California, until 3:00 p.m. April 4, 2023. The proposals will be publicly opened and read by the City Clerk or designee of the City of Roseville in the City Clerk's Office at 3:05 p.m. on that same day.

The July 2021 edition of the City of Roseville Parks Construction Standards will be applicable to this project. The successful bidder will be required to use the standards contained in the book for the construction of this project.

Parks, Recreation & Libraries
Park Development
316 Vernon Street, Suite 400
Roseville CA 95678

Notice to the apparent low bidder for the Mike Shellito Indoor Pool Replastering Project

In order to move forward with the award of this project, the City of Roseville requests that you submit the following documents:

1. Agreement (two sets of originals, single-side print) with either:
 - wet signatures from two corporate officers, or
 - wet signature from one corporate office plus the corporate seal
2. Public Works Faithful Performance Bond – fully executed and notarized
3. Public Works Labor and Materials Payment Bond – fully executed and notarized
4. Insurance Certificates
5. CDBG Supplement to Contract for Construction Forms

The Agreement, bond forms and insurance requirements are contained in this Project Manual.

We request that all documents be received by April 14, 2023.

Please contact us if you are unable to meet this deadline.

Send completed forms to:

City of Roseville - Parks, Recreation & Libraries Department
Attn: Joel De Jong
316 Vernon Street, Suite 400
Roseville CA 95678

The Parks, Recreation & Libraries Department requires submittal of all of the above executed documents prior to City Council bid award.

CITY OF ROSEVILLE

DEPARTMENT OF Parks, Recreation & Librarires

Name of Project: Mike Shellito Indoor Pool Replastering Project

NOTICE TO CONTRACTORS

NOTICE IS HEREBY GIVEN THAT sealed Proposals will be received at the Office of the City Clerk, 311 Vernon Street, Roseville, California, until April 4, 2023 at 3:00 p.m. Late Proposals will be rejected. No exceptions.

The Proposals will be publicly opened and read by the City Clerk or designee of the City of Roseville at 3:05 p.m. on April 4, 2023 at the Office of the City Clerk located at 311 Vernon Street, Roseville California for the following project:

Mike Shellito Indoor Pool Replastering Project.

A pre-bid meeting will be held at 10 A.M. on Wednesday, March 22, 2023 at
10210 Fairway Dr., Roseville, CA 95678. Meeting is non-mandatory.

A Project Manual, including all Contract Documents and the Proposal forms for bidding this project, may be obtained on-line from the City of Roseville's website at https://www.roseville.ca.us/business/procurement_services/bids_rfps. All communications relative to this project shall be conducted through Public Purchase.

Bids shall be submitted on the City's Proposal Forms included in the Project Manual, plainly endorsed with the Bidder's name together with signed acknowledgement of any and all addenda. Proposal Forms shall be securely sealed in a suitable envelope marked with the name and address of the Bidder, and marked in capital letters on the front and back of the envelope as

follows:

[NAME OF PROJECT]

(Name of Bidder)

(Address of Bidder)

Whether mailed or personally delivered, all bids shall be addressed to the City of Roseville, Office of the City Clerk, 311 Vernon Street, Roseville, California, 95678.

Each bid must be accompanied by a Bid Guaranty in the form of a Certificate of Deposit, Certified or Cashier's Check, Bidder's Bond or Irrevocable Standby Letter of Credit in an amount equal to at least ten percent (10%) of the Bidder's Grand Total Price. The Bid Guaranty will be retained by the City and applied to any and all damages sustained by the City in the event that the successful Bidder fails or refuses to enter into the Contract awarded to it and to furnish all required bonds and Certificates of Insurance. The City intends to award the Contract to the lowest responsible Bidder based on the Grand Total Bid Price for all components of the Project. To the extent allowed by law, the City reserves the right to reject any and all bids and/or to waive any irregularities or informalities in any bid or in the bidding procedure. The City specifically reserves the right to not award the Contract after the opening of bids.

Any bid may be withdrawn at any time prior to the time fixed in the public notice for the deadline submission of bids only by written request for the withdrawal of the bid filed with the City Clerk. The request shall be executed by the Bidder or his or her duly authorized representative. The withdrawal of a bid does not prejudice the right of the Bidder to file a new bid by the submission deadline. Whether or not bids are opened exactly at the time fixed in the public notice for opening bids, a bid will not be received after the deadline submission of bids

nor may any bid be withdrawn after the time fixed in the public notice for deadline for submission of bids. Immediately following the deadline for submission of bids all bids shall become the property of the City of Roseville and the City is under no obligation to return bids.

Bids will be examined and reported to the City Council within sixty (60) business days after the bid opening. Except as permitted by applicable law, no Bidder may withdraw its bid for a period of sixty (60) business days after the date of bid opening. Each Bidder will be notified of any award of the Contract by the City.

The City will affirmatively ensure non-discrimination on the basis of one or more of the following: race, religious creed, color, national origin, ancestry, physical disability, mental disability, medical condition, genetic information, marital status, sex, age, sexual orientation, or military and veteran status in the award and administration of contracts that it awards.

Pursuant to Public Contract Code Section 22300, the successful Bidder may submit certain securities in lieu of the City withholding retention of payments during the Project.

The City has determined that the Contractor shall possess a valid Class B, C-35 or C-53 Contractor's license at the time that the bid is submitted, as well as any other license classification as may be required by the laws of the California for the performance of the work specified in the Contract Documents. Said license shall be maintained during the Contract period. Failure to possess the specified license shall render the bid nonresponsive and will act as a bar to the award of the Contract to any Bidder not possessing such a license at the time of bid submittal. The Contractor shall provide certification of the license, its number and the expiration date on the proposal form.

The work is to be done in Placer County. Pursuant to California Labor Code Section 1773, the City has ascertained the General Prevailing Rate of Wages in the County in which the

work is to be done to be as determined by the Director of Industrial Relations of the State of California. The Contractor is hereby made aware that information regarding prevailing wage rates may be obtained from the State Department of Industrial Relations and/or the following website address: <http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm>. The Contractor is required to post a copy of the applicable wage rates at the job site. Attention is directed to Section 5 “Legal Relations and Responsibility” of the General Conditions.

Pursuant to Labor Code Section 1771.1(b), notice is hereby given that a contractor or subcontractor shall not be qualified to bid on, be listed in a bid proposal, subject to the requirements of Section 4104 of the Public Contract Code, or engage in the performance of any contract for public work, as defined in Labor Code Sections 1720, et seq., unless currently registered and qualified to perform public work pursuant to Labor Code Section 1725.5 or exempt from registration requirements pursuant to Labor Code Section 1725.5(f). It is not a violation of Labor Code Section 1771.1 for an unregistered contractor to submit a bid that is authorized by Section 7029.1 of the Business and Professions Code or by Section 10164 or 20103.5 of the Public Contract Code, provided the contractor is registered to perform work pursuant to Labor Code Section 1725.5 at the time the contract is awarded or is exempt from registration requirements pursuant to Labor Code Section 1725.5(f). The Contractor is hereby notified that this project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.

All questions prior to the deadline for bid submissions shall be directed to the attention of Joel De Jong via Public Purchase Q&A at Publicpurchase.com. The deadline for submissions of questions and clarifications regarding the Contract Documents is 10 calendar days before the deadline for

bid submissions. Only Addenda issued by the City are binding.

City Clerk, City of Roseville

Dated: _____

Published: _____

FOR COUNCIL APPROVAL
NOT FOR BIDDING

INSTRUCTIONS TO BIDDERS

SECTION 1. GENERAL

1-1.01 **GENERAL.** These Instructions to Bidders form a part of the Contract Documents. Capitalized terms are defined in the General Conditions Section 1.

1-1.02 **EXAMINATION OF PLANS, CONTRACT DOCUMENTS AND SITE OF THE WORK.** The Bidder shall examine carefully the site of the Work and all the Contract Documents, including these Instructions to Bidders, and shall inform itself of the conditions relating to the execution of the Work. Failure to do so will not relieve the successful Bidder of its obligation to enter into an Agreement and complete the Work in strict accordance with the Contract Documents. Conditions relating to the execution of the Work include the requirements of federal, state, and local laws, statutes and ordinances relative to the execution of Work, including, but not limited to, applicable regulations concerning prevailing wage rates, non-discrimination in the employment of labor, protection of the public, employee health and safety, and environmental protection.

The submission of a bid shall be conclusive evidence that the Bidder has investigated and is satisfied as to the conditions to be encountered, as to the character, quality, and scope of Work to be performed, the quantities of materials to be furnished, and as to the requirements of all the Contract Documents.

1-1.03 **EXISTING INFORMATION.** Where the Department has made investigations of site conditions, including subsurface conditions in areas where Work is to be performed under the Contract, such investigations are made only for the purpose of study and design. City does not represent that such conditions as found in these investigations or inferences or conclusions drawn as a result of these investigations will represent actual site

conditions and hereby disclaims any liability as a result of Contractor's or Bidder's reliance on such investigations. City will presume that all Bidders have conducted their own site investigations, including investigations of subsurface conditions. Where such investigations have been made, Bidders or Contractors may, upon written request, inspect the records of the Department as to such investigations subject to the conditions set forth in these Instructions to Bidders. Such inspection of records may be made only at the location noted above. The records of such investigations are not a part of the Contract Documents and are shown solely for the convenience of the Bidder or Contractor. The City assumes no responsibility whatsoever with respect to the sufficiency or accuracy of the investigations made, the records thereof, or of the interpretations set forth therein or made by the City in its use thereof. The City makes no warranty or guarantee, either express or implied, that the conditions indicated by such investigations or records are representative of those existing throughout such areas, or any part thereof, or that unforeseen developments may not occur, or that materials other than, or in proportions different from those indicated, may not be encountered.

No information derived from such inspection of records of investigations or compilation thereof made by the City, the Department or from the Engineer, or his or her assistants, will in any way relieve the Bidder or Contractor from properly examining the site and making such additional investigations as it may elect, or from properly fulfilling the terms of the Contract.

SECTION 2: BID REQUIREMENTS

2-1.01 **PROPOSAL FORMS.** The Department will furnish to each Bidder standard Proposal Forms, which, when filled out and executed may be submitted as the bid. Proposals shall include all pages in the Project Manual with page numbers marked “PROP” plus the Addendum acknowledgment form (front sheet) from all Addenda received by the Bidder. Proposals shall be removed from the Project Manual. The full Project Manual shall not be submitted with the proposal. Bids not presented on forms so furnished will be disregarded.

The Proposal and one (1) copy thereof shall be submitted as directed in the “Notice to Contractors” under sealed cover plainly marked as a Proposal, and identifying the project to which the Proposal relates and the date of the bid opening therefor. Proposals which are not properly marked may be disregarded.

All blank spaces in the Proposal must be completed, as required, in ink. All price information shall be shown, clearly legible, in figures where required.

The Bidder shall sign the Proposal in the blank space provided therefor. If the Bidder is the sole owner, the Proposal shall be signed by the owner. If the Bidder is a corporation, the legal name of the corporation and its State of incorporation shall be set forth and the Proposal shall be signed by at least two officers authorized to sign contracts on behalf of the corporation. If the Bidder is a partnership, the true name of the firm shall be set forth, the names and addresses of all partners shall be given and the Proposal shall be signed by a partner in the firm authorized to sign contracts on behalf of the partnership. If the Bidder is a joint venture, the Proposal shall be signed on behalf of each participating company by officers or other individuals who have the full and proper authorization to do so. If the Proposal is signed by an agent of the Bidder other than an officer of a corporation or a member of a partnership, a notarized Power of

Attorney must be on file with the City prior to opening of bids or must be submitted with the Proposal. If requested by the City, the Bidder shall promptly submit evidence satisfactory to the City of the authority of the person signing the Proposal.

2-1.02 **SUBMISSION OF BIDS.** Bids must be submitted at the prescribed time and location specified in the Notice to Contractors. Any submission received after the prescribed time shall be rejected, regardless of whether or not bids are opened exactly at the prescribed time.

Any unauthorized conditions or qualifications entered on, or changes made to, the Proposal may render it invalid and may cause its rejection.

No telegraphic, telephonic, or facsimile or other electronically transmitted bids will be considered.

2-1.03 **REQUIRED LISTING OF PROPOSED SUBCONTRACTORS.** Each Proposal shall list the name, address and Contractor license number of each Subcontractor to whom the Bidder proposes to subcontract portions of the Work in an amount in excess of one-half of one percent (0.5%) of its total bid, in accordance with Section 4100 to 4114, inclusive, of the Public Contract Code for the State of California. The Bidder shall list the Subcontractor's license number and the portion of the Work that will be done by each Subcontractor. If the Bidder fails to specify a Subcontractor for any portion of the Work, the Bidder agrees to perform that portion of the Work itself, and represents that it is qualified to perform that portion of the Work itself. The Bidder's attention is invited to other provisions of the Public Contract Code related to the imposition of penalties for a failure to observe its provisions by using unauthorized Subcontractors or by making unauthorized substitutions.

2-1.04 **CONTRACTOR'S LICENSING LAWS.** Attention is directed to the

provisions of Business and Professions Code Chapter 9 of Division 3 concerning the licensing of Contractors.

All Bidders at the time of bid submittal shall be licensed as Contractors in accordance with the laws of this State. Any Bidder or Contractor not so licensed is subject to the penalties imposed by such laws. The form of Contractor's license required is stated in the Notice to Contractors, provided that the City makes no representation as to whether the State may require other or additional licenses. It is the Bidder's and Contractor's responsibility to obtain the correct Contractor's licenses. Bidders shall be skilled and regularly engaged in the general class or type of Work called for under this Contract.

All Bidders and Contractors, including Subcontractors, shall have a current City business license before undertaking any Work.

2-1.05 **NONCOLLUSION DECLARATION.** By submitting a bid, the Bidder represents and warrants that such bid is genuine and not a sham or collusive or made in the interest or on the behalf of any person therein named, and that the Bidder has not, directly or indirectly, included or solicited any other Bidder to put in a sham bid, or any other person, firm, or corporation to refrain from bidding, and that the Bidder has not in any manner sought collusion to secure the Bidder an advantage over any other Bidder.

Bidders shall submit a properly completed and executed "Noncollusion Declaration" in the form required by Public Contract Code Section 7106 and provided with the Proposal (PROP-11).

2-1.06 **DISQUALIFICATION, REMOVAL OR OTHER PREVENTION OF BIDDING.** A bid may be rejected on the basis of a Bidder, any officer of such Bidder, or any employee of such Bidder who has a proprietary interest in such Bidder, having been disqualified,

removed, or otherwise prevented from bidding on, or completing a federal, state, or local project because of a violation of law or a safety regulation.

2-1.07 **PROPOSAL GUARANTY.** All bids shall be accompanied by one of the following forms of Bidder's security: Cash, a cashier's check, a certified check, or a Bidder's bond executed by an admitted California surety insurer, made payable to the City of Roseville, or any other form of security deemed acceptable by the City Attorney. The security shall be in an amount equal to at least ten percent (10%) of the amount bid. A bid will not be considered unless one of the form of Bidder's security is enclosed with it.

A Bidder's bond shall conform to the City's bond form in the Proposal and shall be properly filled out and executed.

2-1.08 **SCHEDULE OF BID PRICES.** Bidders are directed to submit unit and lump sum prices for all Work set forth in the Contract Documents on the Proposal Form entitled "Schedule of Bid Prices."

Unit prices and lump sum prices, as indicated, must be entered in the appropriate spaces provided in the Schedule of Bid Prices. If applicable, unit prices shall be multiplied by the quantities shown, and the total shall be inserted in the Amount column. In the event of any error or discrepancy between the unit price and the calculated amount, the unit prices shall govern.

The City may correct any mathematical errors apparent on the face of the bid.

The amounts shown in the Amount column must be added together in arriving at the Grand Total Bid Price.

Amounts for Allowance bid items must be entered in the exact amount in the Amount column.

The prices included within the Schedule of Bid Prices shall include all costs for labor,

materials, tools, equipment, services, Subcontractors, suppliers, taxes, insurance, shipment, delivery, overhead, profit, and all other costs necessary to perform the Work in accordance with the Contract Documents.

The Grand Total Bid Price shall be indicated in the Summary table form included with the Schedule of Bid Prices. The Grand Total Bid Price shall be the sum of the amounts bid for each of the designated portions of the Work, as more specifically described on the Schedule of Bid Prices form itself.

Full compensation for complying with the Contract Documents, including requirements of the Standard Specifications, the General Conditions, Supplemental Conditions, and all warranties, shall be considered included in the bid items and no additional compensation shall be allowed therefor.

Full compensation for completion of all work as shown on the plans, as specified in the Specifications, and as directed by the City, shall be considered included in the bid items and no additional compensation shall be allowed.

Bidders are strongly discouraged from submitting unbalanced bids. As used herein, the term “unbalanced bid” is defined as any bid that does not include a reasonable proportionate allocation of indirect costs and profit of each bid item indicated in the Schedule of Bid Prices. The City reserves the right to reject any unbalanced bid if the City determines that there is a reasonable doubt that an acceptance of the bid will not result in the lowest ultimate cost to the City with regard to the work or a disproportionate distribution of contract funds.

The City reserves the right to delete any bid item in its entirety and/or significantly reduce the quantity of Work under a bid item. The City makes no representation that any Work under a bid item will be performed during the course of the Project or that the Work will be

performed at the quantities included in the Schedule of Bid Prices. As provided in the General Conditions, for any deleted Work, Contractor shall not be entitled to payment of the indirect costs and profit included for said bid item. All bid items shall be considered distinct and severable from the remaining bid items, and each Bidder acts at its peril if its bid is unbalanced.

The City shall compare bids on the basis of the Grand Total Bid Price, which includes the base bid and any alternates designated on the Schedule of Bid Prices. Alternates may or may not be awarded, or may be awarded in any combination, at the City's discretion.

2-1.09 **WITHDRAWAL OF PROPOSALS.** Any bid may be withdrawn at any time prior to the time fixed in the Notice to Contractors for the opening of bids, provided that a request in writing, executed by the Bidder or its duly authorized representative, for the withdrawal of such bid is filed with the City Clerk. Facsimile and electronic mail requests are not acceptable. The withdrawal of a bid shall not prejudice the right of a Bidder to file a new bid. The withdrawal of any bid after the time fixed in the Notice to Contractors for the opening of bids will not be permitted.

2-1.10 **ADDENDUM.** Proposals shall include all costs and account for all Addenda issued prior to opening of bids. The Bidder is responsible for verifying that all issued Addenda have been received. An Addendum acknowledgment form for each Addendum shall be included as part of the Proposal submittal.

2-1.11 **PUBLIC OPENING OF PROPOSALS.** Proposals will be publicly opened and read at the time and place indicated in the Notice to Contractors. Bidders or their authorized agents are invited to be present.

2-1.12 **TRENCHING AND EXCAVATION WORK.** In accordance with the provisions of California Labor Code Section 6707, if the Work involves construction of a

pipeline, sewer, sewage disposal system, boring or jacking pits, or similar trenches or open excavations, which are five feet (5') or deeper, each bid submitted shall contain, as a bid item, adequate sheeting, shoring, and bracing, or equivalent method, for the protection of life or limb, which shall conform to all applicable safety orders.

FOR COUNCIL APPROVAL
NOT FOR BIDDING

SECTION 3: EVALUATION OF BIDS

3-1.01 **BID EVALUATION PROCESS.** Bids will be evaluated to determine the apparent low Bidder. The apparent low Bidder will be determined on the basis of the Grand Total Bid Price, as shown in the Schedule of Bid Prices. If additive or deductive alternates are used in the Schedule of Bid Prices, the apparent low Bidder will be the Bidder with the lowest total of the bid prices for base contract items plus the alternates designated by the City as those that will be used for determining the lowest bid price. However, the City reserves the right to (1) not award any alternates or (2) award any combination of alternates.

In case of discrepancy between the total of the base contract items and any specified alternates and the stated Grand Total Bid Price, the total of the base contract items plus specified alternates shall prevail. Any mathematical errors that appear on the face of the bid will be corrected by the City and the City will use the mathematically corrected addition. For example, if the mathematical total of Bidder's base contract items plus specified alternates equals \$1,000,000, but the Bidder has written \$1,250,000 as the Grand Total Bid Price, the City will consider \$1,000,000 to be the Bidder's Grand Total Bid Price for purposes of comparison to other Bidders and actual bid award. The City reserves its rights to reject or accept bids based on discrepancies between the stated Grand Total Bid Price and the actual mathematical total of the base contract bid items, plus specified alternates.

3-1.02 **REJECTION OF IRREGULAR PROPOSALS.** Proposals may be rejected in the City's sole discretion if they show any alterations of form, additions not called for, conditional bids, incomplete bids, erasures, or irregularities of any kind. However, the City reserves the right to waive any minor irregularities and informalities in any bid or in the bid procedure for any reason.

3-1.03 **COMPETITIVE BIDDING.** If more than one proposal is offered by any individual, firm, partnership, corporation, association, or any combination thereof, under the same or different names, all such proposals may be rejected. A party who has quoted prices on materials or Work to a Bidder is not thereby disqualified from quoting prices to other Bidders, or from submitting a bid directly for the materials or Work.

All Bidders are put on notice that any collusive agreement to control or affect the awarding of this Contract is in violation of the competitive bidding requirements of the City Charter, State Contract Act and the Business and Professions Code and may render void any Contract let under such circumstances.

3-1.04 **RELIEF OF BIDDERS.** If the Bidder claims a mistake was made in its bid, the Bidder shall give the Department written notice within five (5) Days after the opening of the bids of the alleged mistake, specifying in the notice in detail how the mistake occurred. No relief from a claimed mistaken bid shall be granted unless such mistake clearly appears on the face of the bid submitted to the City. Claimed mistakes on backup worksheets, spreadsheets, computerized bidding programs, or any other similar calculative bidding mistake which is not apparent on the face of the bid shall not under any circumstance be considered as a basis for relief. The burden of proving the occurrence of a mistake entitling a Bidder to relief from its bid rests entirely on the Bidder. Relief from bids shall be in the City's sole discretion.

SECTION 4: AWARD AND EXECUTION OF CONTRACT

4-1.01 **AWARD OF CONTRACT.** The City reserves the right to reject any and all proposals and to award (or not award) any combination of bid items at its option. Any such award will be to the lowest responsible Bidder whose proposal complies with the requirements prescribed for the bid items awarded. Such award, if made, will be made within sixty (60) business days after the opening of the proposals. If the lowest responsible Bidder refuses or fails to execute the Contract, or provide an acceptable Performance Bond, Payment Bond, and insurance certificate(s), the City may award the Contract to the second lowest responsible Bidder. Such award, if made, will be made within eighty-two (82) business days after the opening of proposals. If the second lowest responsible Bidder refuses or fails to execute the Contract, or provide an acceptable Performance Bond, Payment Bond, and insurance certificate(s), the City may award the Contract to the third lowest responsible Bidder. Such award, if made, will be made within one hundred four (104) business days after the opening of the proposals. The above time periods within which the award of Contract may be made are subject to extension for such further period as may be agreed upon in writing between the City and the Bidder concerned.

4-1.02 **RETURN OF BIDDER'S SECURITIES.** Within ten (10) Days after the award of the Contract, the City Clerk will return all Bidders' securities, other than Bidders' bonds, accompanying the proposals that are not to be further considered in making the award. Retained Bidders' securities will be held until the Contract has been fully executed, after which all Bidders' securities, except Bidders' bonds and any Bidders' securities that have been forfeited, will be returned.

4-1.03 **CONTRACT BONDS.** The successful Bidder shall furnish two (2)

bonds in the form contained in the section entitled Insurance Broker Information Packet and Bonds. One (1) bond shall secure the payment of the claims of laborers, mechanics or materialmen employed on the Work under the Contract, and the other bond shall guarantee the faithful performance of the Contract.

Each of the two (2) bonds shall be in a sum equal to one hundred percent (100%) of the Contract Price. If the Contract Price increases by the issuance of Change Orders, the penal amounts of the bonds required shall increase accordingly. Sureties on each of said bonds shall be satisfactory to the City.

All alterations, extensions of time, extra and additional Work, and other changes authorized by the Standard Specifications, the General Conditions, the Supplemental Conditions or any part of the Contract may be made without securing the consent of the surety or sureties on the Contract bonds.

Furthermore, the successful Bidder shall furnish a certificate from the County Clerk as required by California Civil Code of Procedure Section 995.660(a)(3).

4-1.04 **INSURANCE.** At the time of the execution of the Contract, the Contractor shall, at its own expense, procure, and at all times during the prosecution of the Work maintain in full force and effect Worker's Compensation Insurance, and Liability Insurance as specified in the General Conditions. The Contractor shall provide a Certificate of Insurance in the form contained in the section entitled Insurance Broker Information Packet.

4-1.05 **EXECUTION OF CONTRACT.** The Contract shall be signed by the successful Bidder and returned, together with all the required Contract bonds and insurance certificates, within fifteen (15) Days after the Contract has been awarded, or as otherwise directed, in writing, by the City.

If the Bidder is an individual, the Contract shall be executed personally by the Bidder. If the Bidder is a partnership, it is desirable that the Contract be executed by all of the partners, but it may be executed by one of them. If the Bidder is a corporation, it must be executed by two officers of the corporation consisting of (1) the chairman of the board, president or vice president; and (2) the secretary, assistant secretary, chief financial officer, treasurer or assistant treasurer, or by a person authorized by the corporation to execute written contracts on its behalf, and the corporate seal affixed thereto. In the alternative, a person other than an officer may sign the Contract, provided evidence satisfactory to the City is provided indicating the individual's authority to bind the corporation. If the corporate seal is not affixed to the Contract, or if it is executed by a person other than officers, or only by one officer, there must be attached to the Contract a certified copy of a resolution of the corporation authorizing such officer or person to execute written contracts for and on behalf of the corporation. If the Bidder is a joint venture, the Contract must be executed on behalf of each participating firm by officers or other individuals who have the full and proper authorization to do so.

4-1.06 **FAILURE TO EXECUTE CONTRACT.** Failure of the lowest responsible Bidder, the second lowest responsible Bidder, or the third lowest responsible Bidder to execute the Contract and file acceptable bonds and insurance as provided within fifteen (15) Days after the Contract has been awarded, or as otherwise directed, in writing, by the City, shall be just cause for annulment of the award and forfeiture of the Bidder's security. The successful Bidder may file with the City Clerk a written notice, signed by the Bidder or Bidder's authorized representative, specifying that the Bidder will refuse to execute the Contract if presented to Bidder. The filing of such notice shall have the same force and effect as the failure of the Bidder to execute the Contract and furnish acceptable bonds within the time prescribed.

SECTION 5: BID PROTEST PROCEDURES

5-1.01 **POLICY/PROCEDURES.** It is the policy of the City to consider fully and adjudicate promptly protests filed by prospective Bidders relating to the City's bidding procedure or award of the Contract. Protests shall be filed and processed in accordance with Section 4.12.150 of the Roseville Municipal Code. A Bidder's failure to follow the bid protest procedures may result in rejection of the protest by the City.

City of Roseville Business License No. _____

The undersigned Bidder herewith submits this Proposal and binds itself on award by the City of Roseville under this bid to execute a Contract in accordance with its bid and the Contract Documents.

The Notice to Contractors, Instructions to Bidders, Form of Agreement, Specifications, General Conditions, Supplemental Conditions, Contract Drawings, and Addenda, if any, are made part of this bid and all provisions thereof are hereby accepted, and all representations and warranties are required thereby are hereby affirmed.

The work to be done is described in the Bidding Documents entitled _____, City of Roseville, California.

This offer shall be irrevocable for a period of sixty (60) Days after the date on which bids are opened.

The undersigned Bidder understands that any clarification made to the above or any new and different conditions or information submitted on or with its Proposal, other than that requested, may render the bid non-responsive.

The undersigned, as Bidder, declares that the only persons or parties interested in this Proposal as principals are those named herein; that this Proposal is made without collusion with any other person, firm, or corporation; that the Bidder has carefully examined the location of the proposed Work, the attached Form of Agreement, and the plans, Specifications, and other Contract Documents; and agrees if this Proposal is accepted, that it will contract with the City of Roseville, in the form of a copy of the Agreement contained in the Project Manual, to provide all necessary machinery, tools, apparatus and other means of construction, and to do all the work and furnish all the materials specified in the Contract Documents, in the manner and time therein prescribed, and according to the requirements of the Director, as therein set forth, and that the Bidder will take in full payment therefore prices indicated in the Schedule of Bid Items, including all work modified by addendum numbers _____. (IF NONE, STATE NONE).

Bids are required for all Bid Items. The amount of the Bid for comparison purposes will be the total of all items awarded.

The Bidder shall set forth for each item of work, in clearly legible figures, an item ("unit") price and a total for the item in the respective spaces provided for this purpose in the Schedule of Bid Items.

The prices included within the Schedule of Bid Items include all costs for labor, materials, tools, equipment, services, Subcontractors, suppliers, taxes, insurance, shipment, delivery, overhead, profit, and for all other costs necessary to perform the Work in accordance

with the Contract Documents.

Accompanying this Proposal is _____.

(Notice: Insert the words "Cash \$_____", "Cashier's Check," "Certified Check," or "Bidder's Bond," as the case may be, in an amount equal to at least ten percent (10%) of the total of the Bid.)

NONCOLLUSION DECLARATION TO BE EXECUTED BY
BIDDER AND SUBMITTED WITH BID

The undersigned declares:

I am the _____ of _____, the party making the foregoing bid.

The bid is not made in the interest of, or on behalf of, any undisclosed person, partnership, company, association, organization, or corporation. The bid is genuine and not collusive or sham. The Bidder has not directly or indirectly induced or solicited any other Bidder to put in a false or sham bid. The Bidder has not directly or indirectly colluded, conspired, connived, or agreed with any Bidder or anyone else to put in a sham bid, or to refrain from bidding. The Bidder has not in any manner, directly or indirectly, sought by agreement, communication, or conference with anyone to fix the bid price of the Bidder or any other Bidder, or to fix any overhead, profit, or cost element of the bid price, or of that of any other Bidder. All statements contained in the bid are true. The Bidder has not, directly or indirectly, submitted his or her bid price or any breakdown thereof, or the contents thereof, or divulged information or data relative thereto, to any corporation, partnership, company, association, organization, bid depository, or to any member or agent thereof, to effectuate a collusive or sham bid, and has not paid, and will not pay, any person or entity for such purpose.

Any person executing this declaration on behalf of a Bidder that is a corporation, partnership, joint venture, limited liability company, limited liability partnership, or any other entity, hereby represents that he or she has full power to execute, and does execute, this declaration on behalf of the Bidder.

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct and that this declaration is executed on _____ [date], at _____ [city], _____ [state].

(Signature of Declarant)

DISQUALIFICATION QUESTIONNAIRE

The Bidder shall complete, under the penalty of perjury, the following questionnaire:

Has the Bidder, any officer of the Bidder, or any employee of the Bidder who has proprietary interest in the Bidder, ever been disqualified, removed, or otherwise prevented from bidding on, or completing a federal, state, or local government project because of a violation of law or a safety regulation?

PROP - 15

A G R E E M E N T

THIS AGREEMENT, is made and entered into this ____ day of _____,
20____, by and between the City of Roseville, a municipal corporation, ("CITY"), and
_____, a _____,
("CONTRACTOR"); and

W I T N E S E T H:

WHEREAS, the City Council of the CITY, at a meeting held on the ____ day of _____, 20____, approved plans and specifications for the _____

and directed the City Clerk to advertise for sealed proposals for doing said work and providing that bids be submitted on the ____ day of _____, 20____; and

WHEREAS, the City Clerk, thereafter duly and regularly caused a notice to be published in the manner and for the time prescribed by law; and

WHEREAS, CONTRACTOR, pursuant to the provisions of said notice duly filed a bid with the City Clerk, a true copy of which bid is now on file in the office of the City Clerk, and is hereby referred to and by this reference made a part hereof as fully as if set forth at length herein; and

WHEREAS, all bids received pursuant to said notice were opened and examined and publicly declared at the time specified in said advertisement for bids and at a meeting of the City Council held on the ____ day of _____, 20____, the Council found and

declared the bid of CONTRACTOR to be the lowest responsible bid and thereupon awarded a contract to CONTRACTOR to do the work referred to in the aforementioned specifications.

NOW, THEREFORE, the parties agree as follows:

1. THE WORK. CONTRACTOR agrees:

a. To do the work and furnish all the labor, materials, tools, supplies, equipment, superintendence, insurance, and bonds required for the _____

_____ in accordance with the Contract Documents (the Work).

b. To do and perform the Work contemplated hereby in a good and workmanlike manner under the direction of and to the satisfaction of the Director of Public Works of the City of Roseville.

2. PAYMENT. CITY shall pay CONTRACTOR _____

_____ dollars (\$ _____) for the Work to be done under this Agreement in accordance with the Contract Documents.

3. CONTRACT DOCUMENTS. The complete Agreement between the parties hereto consists of the following documents:

a. The advertisement for bids (including the notice to bidders, instructions to bidders and proposals);

b. The accepted bid;

c. Plans and specifications (including general conditions, supplemental conditions, special provisions and construction details);

d. Bonds and insurance required by the specifications; and

e. This contract.

All documents specified above are intended to operate so that any work called for in any one and not mentioned in the other, or vice versa, is to be executed the same as if mentioned in all said documents.

4. LIQUIDATED DAMAGES. In the event CONTRACTOR does not complete the Work within the time specified, CONTRACTOR agrees that CITY will suffer damages. Inasmuch as the actual damages which would result from such breach by CONTRACTOR under this Agreement are uncertain, and would be impractical or extremely difficult to fix, CONTRACTOR agrees that it shall pay, or CITY shall deduct from CONTRACTOR's fee, the amount of \$_____ per day as liquidated damages, in the event of such delay.

5. TIME OF COMPLETION. Time is of the essence of this Agreement. CONTRACTOR shall complete all Work under the Contract Documents within _____ Days of the date of this Contract. CONTRACTOR shall begin work by the date specified in the "Notice to Proceed" letter and shall diligently prosecute all of the Work under this Contract in all parts and requirements as defined in the Contract Documents.

6. SERVICE OF NOTICE. Any notice required or permitted to be given under this Agreement shall be deemed given when (a) personally delivered to the recipient identified below; (b) mailed by registered or certified mail, return receipt requested, postage pre-paid, to the address specified below; or (c) sent by facsimile, with confirmation of receipt, to the facsimile number identified below.

CITY OF ROSEVILLE

CONTRACTOR

CITY may also act through either its architect or construction manager if CITY expressly gives notice to CONTRACTOR, in writing, that CITY's designee has authority to act for CITY in a specific capacity.

7. DISPUTES. Disputes arising from this Agreement will be determined in accordance with the Contract Documents and Public Contract Code Sections 10240-10240.13.

8. GOVERNING LAW. This Agreement shall be governed by and construed in accordance with the laws of the State of California.

9. INDEPENDENT CONTRACTOR. CONTRACTOR shall act as an independent contractor, and covenants and agrees that it will conduct itself consistent with such status, that it will neither hold itself out as, nor claim to be, an officer or employee of CITY by reason of this Agreement.

10. SUCCESSORS IN INTEREST. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.

11. MODIFICATION. This Agreement and each provision contained herein may be waived, amended, supplemented or eliminated only by mutual written agreement of the parties.

12. SEVERABILITY. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.

13. INTEGRATED AGREEMENT. This is an integrated agreement and contains all of the terms, considerations, understanding and promises of the parties. It shall be read as a whole.

14. CONTRACTORS LICENSE LAW. CONTRACTORS ARE REQUIRED BY LAW TO BE LICENSED AND REGULATED BY THE CONTRACTORS' STATE LICENSE

BOARD WHICH HAS JURISDICTION TO INVESTIGATE COMPLAINTS AGAINST CONTRACTORS IF A COMPLAINT REGARDING A PATENT ACT OR OMISSION IS FILED WITHIN FOUR (4) YEARS OF THE DATE OF THE ALLEGED VIOLATION. A COMPLAINT REGARDING A LATENT ACT OR OMISISON PERTAINING TO STRUCUTRAL DEFECTS MUST BE FILED WITHIN TEN (10) YEARS OF THE DATE OF THE ALLEGED VIOLATION. ANY QUESTIONS CONCERNING A CONTRACTOR MAY BE REFERRED TO THE REGISTRAR, CONTRACTORS' STATE LICENSE BOARD, P.O. BOX 26000, SACRAMENTO, CALIFORNIA 95826.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this Agreement in duplicate by its City Manager and attestation by its City Clerk under authority of Resolution No. _____, adopted by the Council of the City of Roseville on the _____ day of _____, 20____, and CONTRACTOR has caused this Agreement to be duly executed.

FOR COUNCIL APPROVAL
NOT FOR BIDDING

NOTICE TO INSURANCE BROKER

Your client has been awarded a bid by the City Council of the City of Roseville to perform a public works project known as _____. The Contract Conditions for that project require your client (“the Contractor”) to return certain evidence of insurance and bonds to the City Attorney of the City within fifteen (15) days after the Bid award, unless otherwise directed by the City in writing, or else the Bid award may be terminated and awarded to another company.

This package contains the information you will need as an insurance broker to provide the appropriate insurance and bonds to the City. The insurance coverages the Contractor needs are specified in the section entitled “Insurance Requirements.” Please note that, in addition to the insurance certificate itself, copies of several endorsements must be actually furnished.

Please refer to the Supplemental Conditions for modifications of the General Conditions, if any, and the requirements of this insurance packet.

Please use the standard City of Roseville Bond Forms provided in this package.

The Bonds required must each be in the penal amount of: \$_____.

Bonds must be sent to the following staff person:

Insurance documents must be provided using one of the following methods:

- a. By email to roseville@ebix.com and riskmanagement@roseville.ca.us
- b. By fax to (770) 335-5727 and (916) 774-5461

After using one of these methods, please **DO NOT** send the insurance certificate(s) by mail.

When forwarding the documents, please refer to the project name so that the documents can be matched with the Contract for which they are submitted.

Thank you.

INS - 1

INSURANCE REQUIREMENTS

The following sections are quoted from the General Conditions:

5-1.23 **INSURANCE COVERAGE.**

A. **Evidence of Maintenance Required.** The Contractor shall, at its expense, procure and at all times maintain in full force and effect at a minimum the insurance required by this section on all of its operations; and the Contractor shall not allow any Subcontractor to commence work until similar insurance required of the Subcontractor has been obtained and filed. An original Certificate of Insurance, and copies of all required endorsements, all in a form approved by the Risk Manager, evidencing all required coverage or policies shall be filed after the award of the bid and prior to approval of the Contract by the City Council. Contractor shall provide ten (10) days prior written notice to the City of any reduction of coverage limits or cancellation of the coverage or policies shall be given to the City of Roseville as Certificate holder.

B. **Qualifying Insurers.** With the exception of the State Compensation Insurance Fund, all required insurance policies shall be issued by companies acceptable to the City and licensed to do business in the State of California and who hold a current policy holders alphabetic and financial size category rating of not less than AVII according to the most recent issue of Best's Insurance Reports.

C. **Insurance Required.**

1. **Commercial General Liability (CGL):** Insurance Services Office Form CG 00 01 covering CGL on an “occurrence” basis, including products and completed operations with limits of no less than Two Million Dollars (\$2,000,000) per occurrence for bodily injury, personal injury and property damage for projects under One Million Dollars (\$1,000,000) and

limits of no less than Five Million Dollars (\$5,000,000) per occurrence for bodily injury, personal injury and property damage for projects over One Million Dollars (\$1,000,000). If a general aggregate limit applies, either the aggregate limit shall apply separately to this project or the general aggregate limit shall be twice the required occurrence limit.

The Commercial General Liability insurance shall include the following, copies of which shall be provided:

a. Inclusion of the City of Roseville, and its officers, agents, employees, and volunteers, as additional insureds (except for workers' compensation) as respects services or operations under the Contract. The additional insured endorsement for the general liability policy shall be at least as broad as the ISO CG 2010 10 01 combined with ISO CGL Endorsement CG 2037 10 01. Any other endorsement must be approved in writing by the City. Endorsements must include coverage for on-going and completed operations, which coverage shall be maintained for four (4) years following completion of the Project. Endorsements shall cover the City of Roseville, its officers, agents, employees, and volunteers.

b. The insurance shall provide coverage for claims by one insured against another insured and the policies shall not contain any cross-suits exclusions, cross-liability exclusions, or insured versus insured exclusions. The policies shall not contain any classification exclusions purporting to deny coverage for any work to be performed by Contractor or any of its Subcontractors.

c. Stipulation that the insurance is primary and noncontributory, as evidenced by a separate endorsement (CG 20 01 04 13 or an equivalent) or section of the policy, and that neither the City nor its insurers will be called upon to contribute to a loss.

d. Such insurance shall specifically cover the contractual liability of

the Contractor.

e. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.

f. Waiver of subrogation endorsement.

g. The Contractor shall furnish a certificate for the period covered.

2. **Automobile Liability:** Insurance Services Office Form Number CA 0001 covering Code 1 (any auto), or if Contractor has no owned autos, Code 8 (hired) and Code 9 (non-owned), with limits of no less than One Million Dollars (\$1,000,000) per accident for bodily injury and property damage.

3. **Workers' Compensation:** In accordance with the provisions of the California Labor Code, Contractor is required to be insured against liability for Workers' Compensation or to undertake self-insurance. Statutory Workers' Compensation and Employers' Liability of at least One Million Dollars (\$1,000,000) shall cover all Contractors staff while performing any work incidental to the performance of this Agreement.

4. **Professional Liability:** Professional Liability (Errors and Omission) Insurance appropriate to Contractor's profession, with a limit of liability not less than One Million Dollars (\$1,000,000) per occurrence or claim and Two Million Dollars (\$2,000,000) aggregate to cover all design and engineering services rendered by Contractor pursuant to the Agreement. Coverage must commence from the first day that Contractor or any of its Subcontractors provided any design or engineering services in connection with the Project.

5. **Builder's Risk/Course of Construction Insurance Is ____ OR Is Not**

____ Required by Risk Management: The Contractor shall be responsible for all loss, damage or destruction whatsoever to the work called for by this Contract until the approval of a Notice of Completion or acceptance of the Work if no Notice of Completion is to be recorded.

The Contractor shall secure "All Risk" type of builder's Risk Insurance of the type covering one hundred percent (100%) of the value of the work performed under this Contract (the value is presumed to be the Contract amount unless otherwise stated in Supplemental Conditions) and all materials, equipment, or other items to be incorporated therein while the same are located at the construction site, a bonded warehouse, or its place of manufacture. At any time, the policy shall cover the value of the work completed. The policy shall cover hazards including the losses due to fire, explosion, hail, rain, lightning, flood (separate insurance as needed), vandalism, malicious mischief, wind, collapse, aircraft, and smoke.

The policies providing such insurance shall name the City as a loss payee as its respective interests may appear, and certified copies of such policies shall be filed with the City. The maximum deductible allowable under the Builder's All Risk policy shall be five percent (5%) of the Contract amount.

Builder's Risk Insurance is not required for coverage of losses in excess of five percent (5%) of the Contract amount for damages resulting from earthquake in excess of a magnitude of 3.5 on the Richter scale, or tidal waves. Coverage in the amount of five percent (5%) of the Contract amount for such losses is required.

6. **Pollution Coverage:** Contractor shall procure pollution liability coverage or other insurance covering claims for bodily injury or property damage arising out of the abatement, removal, storage, transportation, or other exposure to hazardous materials or

pollutants, in limits not less than Two Million Dollars (\$2,000,000). Contractor shall add the City and all parties required to be indemnified by Contractor as additional insured on all pollution liability policies.

7. **Higher Coverage Limits:** If Contractor maintains higher coverage limits than the amounts shown above, then the City requires and shall be entitled to coverage for the higher coverage limits maintained by Contractor. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to the City.

8. **Claims Made Coverage:** Liability insurance coverage may not be written on a “claims made” or modified occurrence basis. The Certificate of Insurance must clearly provide that the coverage is on an “occurrence” basis.

5-1.24 **OTHER INSURANCE PROVISIONS.**

A. The requirements of the Standard Specifications as to types and limits of insurance coverage to be maintained by the Contractor, and any approval of insurance by the City, are not intended to, and shall not in any manner limit or qualify the liabilities and obligations otherwise assumed by the Contractor pursuant to the Contract, including, but not limited to, the provisions concerning indemnification, nor preclude the City from taking any other action available to it under any other provision of the Contract or law.

B. The City acknowledges that some insurance requirements contained in these Standard Specifications may be fulfilled by self-insurance on the part of the Contractor. However, this shall not in any way limit liabilities assumed by Contractor under the Contract. Any self-insurance must be approved in writing by the City, in its sole discretion and shall not reduce the limits of liability. Any deductibles or self-insured retentions (“SIR”) must be declared on the certificate of insurance and approved by City in writing. Policies containing any

SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or City. City reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

C. The Contractor agrees to include in its contracts with all subcontractors the same requirements and provisions of this Contract, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor's work. Furthermore, the Contractor shall require its subcontractors to agree to be bound to the Contractor and the City in the same manner and to the same extent as the Contractor is bound to the City under this Contract. Additionally, the Contractor shall obligate its subcontractors to comply with these same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of the City's indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request. Alternatively, the Contractor may insure subcontractor(s) under its own policy.

D. The City, its officers, agents, employees, and volunteers are to be covered as insureds with respect to liability arising out of automobiles owned, leased, hired or borrowed by or on behalf of the Contractor; and with respect to liability arising out of work or operations performed by or on behalf of the Contractor including materials, parts or equipment furnished in connection with such work or operations. Coverage shall not extend to any indemnity coverage for the active negligence of the additional insured in any case where an agreement to indemnify the additional insured would be invalid under California Insurance Code Section 11580.04.

E. The limits of insurance required in this Contract may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be

endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of the City (if agreed to in a written contract) before the City's own insurance shall be called upon to protect it as a named insured.

F. The insurance procured by Contractor shall be subject to the approval of the City, but any acceptance of insurance certificates by the City shall in no way limit or relieve Contractor of its duties and responsibilities under the Agreement.

G. Contractor shall be responsible for all premiums, deductibles, and self-insured retention applicable to the insurance it is required to procure under the Contract. All deductibles or self-insured retentions over five hundred thousand dollars (\$500,000) must be approved by the City, in writing. Contractor shall be responsible for all deductibles, self-insured retention payments, and/or increased premiums incurred if the City's policies of insurance are forced to cover damages or respond to claims for which Contractor or its Subcontractors were obligated to provide insurance under the Contract.

H. Failure of the City to enforce in a timely manner any of the requirements of these insurance provisions shall not act as a waiver to enforcement of any of these provisions at a later date.

I. Contractor's indemnity obligations shall not be limited by these insurance provisions and shall survive the expiration of the Contract and the insurance provisions of the Contract shall likewise not be limited by the indemnity provisions of the Contract.

J. THE CITY RESERVES THE RIGHT TO WITHHOLD ANY PROGRESS PAYMENTS TO THE CONTRACTOR IN THE EVENT OF NONCOMPLIANCE WITH ANY INSURANCE REQUIREMENTS.

Bond No. _____
Premium \$ _____

**PUBLIC WORKS
FAITHFUL PERFORMANCE BOND**

(Project: _____)

WHEREAS, the City of Roseville ("CITY") has awarded a bid and contract to _____ as contractor ("PRINCIPAL") for the public work described as _____ (the "WORK"). The contract ("AGREEMENT"), for the public work described above, and all of its terms and conditions are incorporated by reference and made a part hereof; and

WHEREAS, the PRINCIPAL is required to furnish a bond in connection with the AGREEMENT guaranteeing its faithful performance; and

NOW, THEREFORE, we the undersigned PRINCIPAL and _____, a _____, admitted and duly authorized to transact business under the laws of the State of California, as SURETY ("SURETY"), are held and firmly bound unto the CITY or its successors and assigns in the sum of _____ dollars (\$ _____) (which amount is not less than 100% of the AGREEMENT price) to be paid to the CITY or its successors and assigns; and for which payment, well and truly to be made, we bind ourselves, our heirs, executors and administrators, successors or assigns jointly and severally, firmly by these presents.

The condition of this obligation is such that if the PRINCIPAL, or its heirs, executors, administrators, successors or assigns, shall abide by, and in all respects promptly and faithfully perform the covenants, conditions and provisions in said AGREEMENT and any alteration thereof made as therein provided, notice of which alterations to Surety being hereby waived, on its part to be kept and performed at the time and in the manner therein specified, and in all respects according to their true intent and meaning, and shall indemnify and save harmless CITY, its officers, agents, employees, volunteers as therein stipulated, then this obligation shall be null and void; otherwise, this obligation shall be and remain in full force and effect.

As condition precedent to the satisfactory completion of the contract, the obligation of the PRINCIPAL and SURETY under this Bond shall remain in effect for a period of one (1) year after the completion and acceptance of the WORK. During that time, if the PRINCIPAL, its heirs, executors, administrators, successors or assigns fails to make full, complete and satisfactory repair and replacement or totally protect the CITY from any loss or damage made evident during that year which results from or is caused by either defective materials or faulty workmanship in the prosecution of the WORK, then the obligation shall remain in full force and effect. However, anything in

this paragraph to the contrary notwithstanding, the obligation of the SURETY shall continue so long as any obligation of the PRINCIPAL remains.

No prepayment or delay in payments, and no change, extension, addition or alteration of any provision of the AGREEMENT or in the specifications agreed to between the PRINCIPAL and the CITY, or any forbearance on the part of the CITY shall operate to relieve the SURETY. The SURETY hereby waives the provisions of Section 2819 of the California Civil Code. The SURETY waives all rights of subrogation against the CITY or any person employed by the CITY. If the contract price increases by the issuance of change orders, the amount specified in this bond shall increase by the same amount.

Whenever PRINCIPAL shall be and declared by CITY to be in default under the AGREEMENT, SURETY shall promptly remedy the default, or shall promptly do one of the follow at CITY's election:

1. Undertake through its agents or independent contractors, reasonably acceptable to CITY, to complete the AGREEMENT in accordance with its terms and conditions and to pay and perform all obligations of PRINCIPAL under the AGREEMENT, including without limitation, all obligations with respect to warranties, guarantees, and the payment of liquidated damages.
2. Reimburse CITY for all costs CITY incurs in completing the AGREEMENT, and in correcting, repairing or replacing defects in materials or workmanship and/or materials and workmanship which do not conform to the specifications in the AGREEMENT.

SURETY's obligations hereunder are independent of the obligations of any other surety for the performance of the AGREEMENT, and suit may be brought against SURETY and such other sureties, jointly and severally, or against any one or more of them, or against less than all of them without impairing CITY's rights against the others.

No right of action shall accrue on this bond to or for the use of any person or corporation other than CITY or its successors or assigns.

As part of the obligation secured hereby and in addition to the face amount specified therefore, there shall be included costs and reasonable expenses and fees, including reasonable attorneys' fees, incurred by CITY in successfully enforcing such obligation, all to be taxed as costs and included in any judgment rendered.

**PUBLIC WORKS
LABOR AND MATERIALS PAYMENT BOND**

(Project: _____)

WHEREAS, the City of Roseville ("CITY"), has awarded a bid and contract to _____ as contractor ("PRINCIPAL"), for the public work described as _____ (the "WORK"). The contract ("AGREEMENT"), for the public work described above, and all of its terms and conditions are incorporated by reference and made a part hereof; and

WHEREAS, the PRINCIPAL is required to furnish a bond in connection with the AGREEMENT guaranteeing payment of persons who provide labor and material; and

NOW, THEREFORE, we the undersigned PRINCIPAL and _____, a _____, admitted and duly authorized to transact business under the laws of the State of California, as SURETY ("SURETY"), are held and firmly bound unto the CITY or its successors and assigns in the sum of _____ dollars (\$ _____) (which amount is not less than 100% of the AGREEMENT price) to be paid to the CITY or its successors and assigns; and for which payment, well and truly to be made, we bind ourselves, our heirs, executors and administrators, successors or assigns jointly and severally, firmly by these presents.

The condition of the obligation is such that if the PRINCIPAL, its subcontractors, heirs, executors, administrators, successors or assigns fails to pay any of the persons named in Section 8004 or 9100 of the Civil Code of the State of California, or the amounts due under the Unemployment Insurance Code of the State of California, or any amounts required to be deducted, withheld and paid over to the Employment Development Department from the wages of employees of the PRINCIPAL and its subcontractors pursuant to Section 13020 of the Unemployment Insurance Code, with respect to work or labor performed by any such claimant, that the SURETY will pay for the same, in an amount not exceeding the sum specified in this bond, and also, in case suit is brought upon the bond, shall pay reasonable attorneys' fees, to be fixed by the Court.

This bond shall inure to the benefit of any and all persons, companies, and corporations entitled to file a Stop Payment Notice pursuant to the provisions of Section 9350 et seq. of the Civil Code of the State of California, so as to give a right of action to them or their assigns in any suit brought upon this bond.

No prepayment or delay in payments, and no change, extension, addition or alteration of any provision of the AGREEMENT or in the specifications agreed to between the PRINCIPAL and the CITY, or any forbearance on the part of the CITY shall operate to relieve the SURETY. The SURETY hereby waives the provisions of Section 2819 of the California Civil Code. The SURETY waives all rights of subrogation against the CITY or any person employed by the CITY. If the contract price increases by the issuance of change orders, the amount specified in this bond shall increase by the same amount.

As part of the obligation secured hereby and in addition to the face amount specified therefore, there shall be included costs and reasonable expenses and fees, including reasonable attorneys' fees, incurred by CITY in successfully enforcing such obligation, all to be taxed as costs and included in any judgment rendered.

IN WITNESS WHEREOF, this instrument has been duly executed by the PRINCIPAL and SURETY above-named, on the _____ day of _____, 20__.

FOR COUNCIL APPROVAL
NOT FOR BIDDING

SECTION 1

DEFINITIONS AND TERMS

1-1.01 **GENERAL.** When the following abbreviations and terms or pronouns in place of them appear in the Contract Documents, the intent and meaning shall be interpreted as provided in this Section 1.

1-1.02 **ACCEPTANCE.** Formal Acceptance by resolution by the Roseville City Council of the Contract when completed in all respects in accordance with the Contract Documents and any modifications previously approved.

1-1.03 **ADDENDUM.** Written interpretation or revision to any of the Contract Documents issued by the City before the bid opening.

1-1.04 **AS-BUILT DOCUMENTS, AS-BUILT DRAWINGS AND RECORD DOCUMENTS.** As-Built Documents, As-Built Drawings and Record Documents are all contract documents modified to reflect changes during the construction phase. Specifically, As-Built Documents/Drawings are a revised set of drawings submitted by the Contractor upon Final Completion of a project. They reflect changes made in the Specifications and Working Drawings during the construction process, and show the exact dimensions, geometry, and location of all elements of the work completed under the Contract. Record Documents, on the other hand, are compiled by the Engineer or Architect based on the As-Built Documents/Drawings submitted by the Contractor. They reflect the Engineer or Architect's concurring review of what changes were denoted, why they were made and where they occurred and create a record set of drawings.

1-1.05 **ASSESSMENT.** A cost imposed on the Contractor for non-compliance

with certain contractual requirements.

1-1.06 **BENEFICIAL OCCUPANCY.** The taking possession of a portion of the Work by the City for its use and/or occupancy on other than a temporary or emergency basis.

1-1.07 **BID GUARANTY.** The cashier's, certified check, irrevocable standby letter of credit, deposit of securities, or Bidder's Bond, accompanying the bid submitted by the Bidder, as a guaranty that the Bidder will enter into an agreement with the City for the performance of the Work, if the Agreement is awarded to Bidder, and the Bidder will submit the required Contract Bonds and Certificate of Insurance. Also referred to as the Bidder's Security.

1-1.08 **BIDDER.** Individual, firm, partnership, limited liability company, corporation, joint venture, or any combination thereof, submitting a Proposal for the Work, acting directly, or through a duly authorized representative.

1-1.09 **BIDDING DOCUMENTS.** Includes the Notice to Bidders, Bidding Requirements, Contract Conditions, Drawings, and Addenda.

1-1.10 **CHANGE ORDER.** Any written order to the Contractor directing an addition, deletion, or modification of the Work, or an adjustment in the Contract Price or Contract Time provided in the Contract Documents and issued after the Agreement has been signed.

1-1.11 **CITY.** The City of Roseville.

1-1.12 **CITY ATTORNEY.** The City Attorney of the City.

1-1.13 **CITY CLERK.** The City Clerk of the City.

1-1.14 **CLAIM.** A separate demand by Contractor sent by registered mail or certified mail with return receipt requested, for one or more of the following: (a) a time extension, including, without limitation, for relief for damages or penalties for delay assessed by

the City; (b) payment by the City of money or damages arising from work done by, or on behalf of, Contractor pursuant to the Contract Documents and payment for which is not otherwise expressly provided or to which Contractor is not otherwise entitled; and (c) payment of an amount that is disputed by the City.

1-1.15 **CONSTRUCTION SCHEDULE.** A list or graphic display of construction activities required for completing the Work, in a format required by the Contract Documents. The duration, start and finish date, and sequence of significant activities, critical path, float and milestones must be indicated in the Construction Schedule.

1-1.16 **CONTRACT OR AGREEMENT.** The written agreement relating to the Work to be performed, the labor, materials, and equipment to be furnished, and the payment to be made therefor. The Agreement/Contract is part of and incorporates all of the Contract Documents.

1-1.17 **CONTRACT CONDITIONS.** Includes the General Conditions, Supplemental Conditions, and Specifications.

1-1.18 **CONTRACT DOCUMENTS.** Includes those documents that form the basis of the Contract, including but not limited to, Bidding Documents, the Bid or Proposal, Contract Bonds, the Contract, all required insurance certificates or endorsements, all bonds, all required certifications or statements, Change Orders, any Contract Amendment, any City Standard which is incorporated by reference and these City of Roseville General Conditions for Buildings and Grounds.

1-1.19 **CONTRACT DRAWINGS.** The official drawings including plans, elevations, sections, detail drawings, diagrams, plated, General Notes, information and schedules thereon, or exact reproductions thereof, showing the location, character, dimension, and details

of the Work. The Contract Drawings include any drawings or plates bound within the Supplemental Conditions.

1-1.20 **CONTRACT PRICE.** The total compensation to be paid to the Contractor in accordance with the terms of the Agreement.

1-1.21 **CONTRACT TIME.** The number of Days, or portion thereof, allowed for completion of the Work, including all authorized time extensions. The effective date for commencement of the Work specified in the Notice to Proceed shall define the beginning of the Contract Time.

1-1.22 **CONTRACTOR.** Individual, firm, partnership, limited liability company, corporation, joint venture, or any combination thereof, who has entered into the Agreement with City.

1-1.23 **DAY OR DAYS.** Unless otherwise designated, Day or Days as used in the Contract Documents will be understood to mean calendar Day or Days.

1-1.24 **DEPARTMENT.** The Department for Contract Administration, as identified in the Supplemental Conditions.

1-1.25 **DIRECT COSTS.** Those cost items (including labor, materials, equipment and any subcontractor's work) that are used in the actual performance of, and are specifically and uniquely attributable to the Work or changed Work. Direct Costs do not include Overhead. Direct Costs only include the following:

A. Payroll costs for employees in the direct employ of Contractor in the performance of the Work under schedules of job classifications agreed upon by City and Contractor. Payroll costs for employees not employed full time on the Work shall be apportioned on the basis of their time spent on the Work. Payroll costs shall include salaries and

wages plus the cost of fringe benefits which shall include social security contributions, unemployment, excise and payroll taxes, workers' compensation, health and retirement benefits, sick leave, vacation and holiday pay applicable thereto. Such employees may include superintendents and foremen at the site. The expenses of performing work after regular working hours, on Saturday, Sunday or legal holidays shall be included in the above only to the extent authorized by City in writing.

B. Cost of all materials and equipment furnished and incorporated in the Work, including costs of transportation and storage thereof, and suppliers' field services required in connection therewith. All trade discounts, rebates and refunds and all returns from sale of surplus materials and equipment shall accrue to City, and Contractor shall make provisions so that they may be obtained.

C. Payments made by Contractor to the subcontractors for work performed by subcontractors. If required by City, Contractor shall obtain competitive bids from subcontractors acceptable to Contractor and shall deliver such bids to City who will then determine which bids will be accepted. If a subcontract provides that the subcontractor is to be paid on the basis of cost of the work plus a fee, the subcontractor's cost of the work shall be determined in the same manner as Contractor's cost of the work. All subcontracts shall be subject to the other provisions of the Contract Documents insofar as applicable.

D. Costs of special consultants (including engineers, architects, testing laboratories, surveyors, and accountants) employed for services specifically, and only, related to the Work.

E. Supplemental costs including the following:

1. The proportion of necessary transportation, travel and subsistence

expenses of Contractor's employees incurred in discharge of duties connected with the Work.

2. Cost, including transportation and maintenance, of all materials, supplies, equipment, machinery, appliances, office and temporary facilities at the site and hand tools not owned by the workers, which are consumed in the performance of the Work, and cost, less market value of such items used but not consumed which remain the property of Contractor.

3. Rentals of all construction equipment and machinery and the parts thereof whether rented from Contractor or others in accordance with rental agreements approved by City, and the costs of transportation, loading, unloading, installation, dismantling and removal thereof, all in accordance with terms of said rental agreements. The rental of any such equipment, machinery or parts shall cease when the use thereof is no longer necessary for the Work.

4. Sales, consumer, use or similar taxes related to the Work, and for which Contractor is liable, imposed by laws and regulations.

5. The cost of utilities (including the meter and all associated installation costs), fuel and sanitary facilities at the site.

6. Cost of premiums for additional bonds and insurance required because of changes in the Work.

1-1-26 **DIRECTOR.** Director of the Department for Contract Administration or his or her designee.

1-1.27 **EMERGENCY.** Any sudden generally unforeseen occurrence (such as a fire, flood, storm, earthquake, civil disorder, or other natural and/or man-made disaster) that has the potential to adversely affect the safety of life, the Work, and/or adjacent property; to interrupt contracts essential to the performance of the Work; and/or to cause catastrophic failure of City

equipment and/or facilities.

1-1.28 **ENGINEER OR ARCHITECT.** Professional Engineer or Architect designated for a particular project responsible for signing and sealing the permit drawings, interpretation of the drawings where ambiguities exist, review of requests for information, design Change requests and Shop Drawings, resolution of errors and omissions, and finalization of Record Documents.

1-1.29 **FINAL COMPLETION.** When the project has been completed according to the terms and conditions set forth in the Contract Documents. Final Completion is not the same as Acceptance.

1-1.30 **FORCE ACCOUNT.** Payment by force account shall mean payment on the basis of the Contractor's time and materials.

1-1.31 **GENERAL NOTES.** The written instructions, provisions, conditions or other requirements appearing on the Contract Drawings and so identified thereon, which pertain to the performance of the Work.

1-1.32 **INSTALLATION, INSTALL.** Completely assembling, erecting, and/or connecting materials, parts, components, supplies, and related equipment specified or required for the completion of the Work.

1-1.33 **LABORATORY.** Established professional laboratories authorized by the City to test materials and Work involved in the Contract.

1-1.34 **LEGAL HOLIDAYS.** Those days designated as Federal holidays or declared by the City, or otherwise specified in the Contract Documents.

1-1.35 **LIQUIDATED DAMAGES.** The amount prescribed in the Contract Documents to be paid to the City or to be deducted from any payments due or to become due the

Contractor for each day's delay in completing the whole or any specified portion of the Work beyond the time allowed in the Supplemental Conditions.

1-1.36 **NOTICE OF COMPLETION.** A legal notice filed by the City with the Placer County Recorder's Office stating that construction has been completed and accepted by the City.

1-1.37 **NOTICE TO PROCEED.** A written notice given by the City to the Contractor fixing the date on which the Contract Time will commence to run.

1-1.38 **NOTICE OF TERMINATION.** Written notice from the City to the Contractor and/or its Surety terminating the Agreement, or a portion thereof, either for convenience of the City or for default due to the Contractor's failure to perform its contractual obligations.

1-1.39 **OVERHEAD.** Business or administrative expenses (including but not limited to office expenses, administrative staff, rent, insurance, utilities) not chargeable to a particular part of the Work. The term "Overhead" shall include all of the following:

A. Payroll costs and other compensation of Contractor's officers, executives, principals (of partnerships and sole proprietorships), general managers, engineers, architects, estimators, attorneys, auditors, accountants, purchasing and contracting agents, expeditors, timekeepers, clerks, and other personnel employed by Contractor whether at the Work Site or in Contractor's principal or a branch office for general administration of the Work and not specifically included in the agreed upon schedule of job classifications, all of which are to be considered administrative costs covered by the Contractor's fee.

B. Expenses of Contractor's principal and branch offices other than Contractor's office at the site.

C. Any part of Contractor's capital expenses, including interest on Contractor's capital employed for the Work and charges against Contractor for delinquent payments.

D. Cost of premiums for all bonds and for all insurance whether or not Contractor is required by the Contract Documents to purchase and maintain the same, except as provided in section 1-1.25.

E. Other overhead or general expense costs of any kind.

1-1.40 **PREMISES.** Shall mean the area within construction easements, easements, rights of entry and City owned property which surrounds the Work Site, limited by the property lines thereof. In some cases Premises may coincide with the Work Site.

1-1.41 **PROFESSIONAL ENGINEER.** An engineer licensed by the Board of Registration for Professional Engineers, State of California.

1-1.42 **PROJECT MANUAL.** A book containing all Contract Documents.

1-1.43 **PROPOSAL FORMS.** The approved forms upon which the City requires that each Bidder submit its bid with regard to the Agreement.

1-1.44 **REQUEST FOR INFORMATION (RFI).** A document issued by the Contractor requesting information concerning the Contract Documents.

1-1.45 **SAFETY.** Includes the practice of identifying potential hazards, assessing their risk, taking corrective action where possible, including and providing control measures such as engineering design, written procedures, and the personal protective equipment for workers in order to eliminate or reduce the risk for exposure in the workplace.

1-1.46 **SCHEDULE OF VALUES.** The breakdown of the Contract Price that will serve as the basis for Contractor's Applications of Payment. Any lump sum bid item

included within the Contract Price will be apportioned among values relating to specific components of the Work covered by said lump sum.

1-1.47 **SHOP DRAWINGS.** Drawings, plans, diagrams, schedules, and other data specifically prepared and submitted to the City by the Contractor, showing in detail: (a) the proposed fabrication and assembly of a special component of the Work; and (b) the Installation (form, fit and attachment details) of a special component of the Work. Shop Drawings shall be deemed to include Working Drawings, Product Data, literature, and applicable performance and test data.

1-1.48 **SPECIFICATIONS.** The technical Specifications for the Work prepared by the Director or an Engineer or Architect describing in detail the nature of the Work, its components, any performance standards, and how the Work is to be constructed.

1-1.49 **SUBCONTRACTOR.** Any individual, firm, partnership, limited liability company, corporation, joint venture, or combination thereof, other than employees of the Contractor, engaged by the Contractor to furnish services, labor, equipment and materials for a portion of the Work.

1-1.50 **SUBMITTALS.** Those documents required to be submitted by the Contractor for review by the City in accordance with the Contract Documents.

1-1.51 **SUPPLEMENTAL CONDITIONS.** The Supplemental Conditions are specific clauses modifying or supplementing these General Conditions.

1-1.52 **SUPPLIER.** Any individual, firm, partnership, limited liability company, corporation, joint venture, or combination thereof, other than employees of the Contractor, that supplies a tangible product as a portion of the Work, with services usually limited to delivery and/or required testing, and with manufacturing, fabrication, or production facilities located off

the Work Site.

1-1.53 **WORK.** The furnishing of all labor, and the furnishing and Installing of all materials, articles, supplies and equipment as specified, designated, or required by the Contract Documents.

1-1.54 **WORK SITE.** All or portion of the Premises that the Work is limited to as shown on the Contract Drawings or designated by the Director. Public streets are not included unless Work is being done within the street right-of-way.

1-1.55 **WORKING DRAWINGS.** Original drawings prepared by the Contractor and/or its Subcontractors or Suppliers, of any tier, illustrating Work required for construction that will not become an integral part of the completed Work. This includes, but is not limited to, drawings for temporary structures such as decking, bulkheads, excavation supports, utility support, groundwater control, forming, falsework, access roads, staging areas, staging plans, and diversion plans. A Working Drawing is one type of a Shop Drawing.

SECTION 2

CONTROL AND SCOPE OF THE WORK

2-1.01 **AUTHORITY OF DIRECTOR.** The Contract shall be performed in a manner satisfactory to the Director who shall decide all questions which may arise as to the quality or acceptability of materials furnished and Work performed and as to the manner of performance and rate of progress of the Work; all questions which may arise as to the interpretation of the Contract Documents; all questions as to the acceptable fulfillment of the Contract on the part of the Contractor; and all questions as to compensation. The Director shall have authority to enforce and make effective such decisions and orders in the event the Contractor fails to promptly carry out the same.

2-1.02 **INTENT OF CONTRACT DOCUMENTS.** The Contract Documents are complementary, and what is called for by one shall be as binding as if called for by all. The intent of the Contract Documents is to describe the details for the construction and completion of the Work. Where the Contract Documents describe portions of the Work in general terms, but not in complete detail, it is understood that only the best general practice shall be followed and that only materials and workmanship of the best quality are to be used. Any Work, materials, or equipment that are customarily provided, or that are reasonably inferable from the Contract Documents as being required to produce the intended result, shall be supplied, whether or not specifically called for. When words, which have a well-known technical or trade meaning are used to describe work, materials, or equipment, such words shall be interpreted in accordance with that meaning. Unless otherwise specified, the Contractor shall furnish all labor, materials, tools, equipment, and incidentals, and do all the Work involved in executing the Contract in a

satisfactory and workmanlike manner.

Reference to standard specifications, manuals or codes of any technical society, organization or association, or to the laws or regulations of any governmental authority, whether such reference be specific or by implication, shall mean the latest standard specification, manual, code, laws, or regulations in effect on the first published date of the Notice to Contractors, except as may be otherwise specifically stated. However, no provision of any referenced standard specification, manual or code (whether or not specifically incorporated by reference in the Contract Documents) shall be effective to change the duties and responsibilities of City or Contractor, or any of their consultants, agents, or employees from those set forth in the Contract Documents, nor shall it be effective to assign to City, or City's designated representative, any duty or authority to supervise or direct the furnishing or performance of the Work or any duty or authority to undertake responsibility contrary to other provisions of the Contract Documents.

The Contract Documents are divided into parts, divisions, sections and articles for convenience, organization and reference. Generally, there has been no attempt to divide the Specifications sections into work performed by the various building trades, work by separate Subcontractors, or work required for separate facilities in the project.

2-1.03 **EXAMINATION AND VERIFICATION OF CONTRACT**

DOCUMENTS. The Contractor shall thoroughly examine and become familiar with all of the various parts of the Contract Documents and shall determine the nature and location of the Work, the general and local conditions (including applicable laws) and all other matters which can in any way affect the cost, progress or performance of the Work under this Agreement. Failure to make an examination necessary for this determination shall not release the Contractor from the obligations of the Agreement. No oral agreement or conversation with any officer, or employee

of the City, or with the City's designated representative either before or after the execution of the Agreement, shall affect or modify any of the terms or obligations contained in the Contract Documents.

2-1.04 **CONTRACT DRAWINGS.** The Contract Drawings consist of general drawings and show such plans, elevations, sections, details and schedules as are necessary to give a graphic and pictorial description of the contemplated construction. All authorized alterations affecting the requirements and information given on the Contract Drawings shall be in writing.

2-1.05 **COORDINATION AND INTERPRETATION OF CONTRACT DOCUMENTS.** All Contract Documents are essential parts of the Contract, and a requirement occurring in one is as binding as though occurring in all. They are intended to be complementary, and to describe and provide for a complete Work.

In the event of inconsistencies between requirements contained in different components of the Contract Documents, the precedence of the Contract Documents shall be as follows to resolve conflicts:

1. Change Orders
2. The Contract (including Addenda)
3. The Supplemental Conditions
4. Specifications
5. Contract Drawings
6. The General Conditions

Should it appear that the Work to be done or any of the matters relative thereto are not sufficiently detailed or explained in the Contract Documents, the Contractor shall submit a

Request for Information (“RFI”) to the Director for such further explanations as may be necessary and shall conform to the written explanation given as if part of the Contract Documents. The decisions of the Director shall be final.

Contractor shall anticipate that it will be necessary to prepare and submit RFIs regarding the Contract Documents. The City will respond to each RFI by no later than fourteen (14) Days after receipt of the RFI, unless the RFI is of significant complexity. Furthermore, in the event that there are numerous RFIs pending, Contractor shall cooperate with the City in establishing a priority for responding to the RFIs, and potentially some RFIs may be responded to beyond the fourteen (14) Day period.

Each RFI prepared by Contractor shall be full and complete. Contractor shall prepare RFIs so as to not cause any delay to the progress of the Work and to not cause any impact to Contractor’s labor productivity in the field. Contractor shall not assert any Claims for delay or interference against the City if Contractor fails to timely submit any RFI to the City, after consideration of the response period allowed for by the City.

The response to an RFI shall not, by itself, constitute a writing that authorizes Contractor to perform any Work that causes an adjustment to either the Contract Price or the Contract Time. If Contractor believes that any response to any RFI should constitute a compensable change, Contractor shall provide a Notice of Potential Claim as provided in Section 7-1.03, below. Contractor’s failure to provide the required written notice shall constitute a waiver of the Contractor’s right to seek a compensable change based on the RFI response.

The Contractor shall examine all Contract Documents; shall verify all figures in the Contract Documents before laying out the Work; shall promptly notify the City of all errors, inconsistencies, and/or omissions that it discovers; and, in instances where such non-

conformities are discovered, shall obtain specific instructions in writing from the City before proceeding with the Work. Contractor's performance of any Work affected by such non-conformities prior to the City's decision shall be at the Contractor's risk. Any Work that is customarily provided or that is reasonably inferable shall not relieve the Contractor from performing such work at no additional expense and/or delay, and such Work shall be performed as if fully set forth in the Contract Documents.

2-1.06 **INDEPENDENT CONTRACTOR STATUS.** The Contractor shall independently perform all Work required by the Contract Documents and shall not be considered as an agent or employee of the City, nor shall the Contractor's Subcontractors or employees be considered as subagents of the City.

The Contractor and Contractor's Subcontractors shall be licensed in accordance with the laws of the State of California and as more particularly described in the bidding documents or elsewhere in the Contract Documents.

2-1.07 **ORDER OF WORK.** When required by the Contract Documents, the Contractor shall follow the sequence of operations set forth therein. Full compensation for conforming to such requirements will be considered as included in the prices paid for the various Contract items of work, and no additional compensation will be allowed therefor.

2-1.08 **SUBMITTALS.** It shall be the Contractor's responsibility to timely submit, so as to cause no delay in the Work, all Shop Drawings, descriptive data, manuals, instructions, affidavits, samples for the various trades as required by the Supplemental Conditions and Specifications, and offers of alternatives, if any. Such Submittals shall be checked and coordinated by the Contractor with the Work of other trades involved before they are submitted to the Director for examination.

The Contractor shall deliver at least one (1) electronic copy of the Submittals to the Director, and one (1) hard copy if requested. Work requiring the submittal of working drawings, descriptive data or samples shall not begin prior to approval of said Submittal by the Director.

The time allowed for review of each Submittal will be as indicated in the Supplemental Conditions. Review time will start upon receipt of the Submittal by the Director and will end upon the Director's mailing of the Submittals to the Contractor. Defective, incomplete or partial Submittals will be returned to the Contractor unreviewed.

Submittals shall be made by a letter of transmittal that shall contain a list of all matter submitted and identification of all variations from the Contract Documents contained in the Submittal. The letter and all items accompanying the same shall be fully identified as to project name and location, Contractor's name, district, county, and Contract number, with ample cross-references to the Contract Documents, to facilitate identification of items and their location in the Work.

All Shop Drawings and supporting data, catalogs, schedules, shall be submitted as the instruments of the Contractor, who shall be responsible for their accuracy and completeness. These Submittals may be prepared by the Contractor, Subcontractors, or Suppliers, but the Contractor shall ascertain that Submittals meet all of the requirements of the Contract Documents, while conforming to structural, space, and access conditions at the point of Installation. The Contractor shall check all Submittals before submitting them to the Director.

2-1.08A **SHOP DRAWINGS.** The Contractor shall submit an electronic copy (searchable PDF) of all Shop Drawings required by the Supplemental Conditions or Specifications, and one (1) hard copy, if requested by the Director. Shop Drawings shall also be provided separately in AutoCAD format using the latest version of AutoCAD. An electronic

copy will be returned to the Contractor either approved for use, as demonstrated by a stamp, or returned for correction and resubmittal. Materials, colors and/or samples will not be returned to the Contractor. Shop Drawings include any drawing, which requires execution by a draftsman as distinguished from printed matter. The size of Shop Drawings shall not exceed twenty-four inches (24") by thirty-six inches (36").

2-1.08B **DESCRIPTIVE DATA.** The Contractor shall submit an electronic copy (searchable PDF) of each set of manufacturer's brochures or other data required by the Supplemental Conditions or Specifications, and one (1) hard copy, if requested by the Director. The City will examine such Submittals and return either an electronic copy or a hard copy approved for use or returned for correction and resubmittal.

2-1.08C **SAMPLES.** The Contractor shall submit samples of articles, materials or equipment as required by the Supplemental Conditions or Specifications. The Work shall be in accordance with the approved samples. Samples shall be removed from City property when directed or may be incorporated in the Work if approved by the Director. Samples not removed by the Contractor will become the property of the City or, at the City's option, will be removed or disposed of by the City at the Contractor's expense.

2-1.08D **MANUALS, INSTRUCTIONS AND AFFIDAVIT.**

A. **Manuals and Instructions.** Where operation and maintenance manuals are required by the Supplemental Conditions, the Contractor shall submit two (2) sets of manuals, suitably bound, along with two (2) electronic copies in an approved format, to the Director within forty-five (45) Days after favorable review of the equipment or facilities. If operation and maintenance manuals are approved to be provided in PDF format, text shall be provided in searchable PDF format, making proper use of PDF for headings and heading levels,

paragraphs, tables, and lists. Submitted operation and maintenance manuals shall be a collected, organized, and indexed set of bookmarked PDF documents comprising each operation and maintenance manual that corresponds to a hardcopy binder. All manuals shall be marked to indicate the specific equipment furnished for this project and shall include at a minimum:

1. Equipment summary form
2. Cover/Title page
3. Table of contents
4. Operating procedures including start-up, shutdown, normal operation, all operating modes, emergency shutdown, and safety precautions
5. Lubrication instructions (if required)
6. Preventative maintenance procedures
7. Troubleshooting and corrective maintenance procedures
8. Reinstallation instructions
9. Overhaul instructions (if applicable)
10. Parts identification list with exploded view and associated cross references
11. Recommended spare parts list
12. Operator safety requirements
13. Electrical and control system wiring drawings, including panel wiring control (ladder) diagrams, logic diagrams, loop diagrams, and interconnection diagrams
14. Panel layout and assembly drawings

15. Mechanical drawings
16. Printouts of all software programs and configuration files
17. Factory and field test procedures and results

Operation and maintenance manuals for complex equipment shall also include:

18. Alternate specified operating modes
19. Emergency shutdown instructions
20. Normal shutdown instructions
21. Long term shutdown instructions

Operation and maintenance manuals for systems comprised of separate pieces of equipment shall include a system explanation of items 4, 7, 18, 19, 20, and 21 as well as the instructions for the separate pieces of equipment.

B. Affidavits. Where required in the Supplemental Conditions or Specifications, manufacturers of equipment shall provide field service as a part of this project. Equipment shall not be considered ready for full time operation until after the authorized factory-trained and qualified manufacturer's representative for the specific equipment has checked and adjusted the equipment and certified by written affidavit that the equipment has been properly Installed, tested, adjusted, lubricated, and calibrated, and is ready for full time operation. Acceptable affidavits shall be submitted prior to completion of the Work. Affidavits shall contain the following specific wording:

“The (Name of Equipment) has been properly installed, tested, adjusted, lubricated, and calibrated, and is ready for full time operation. The installation has been inspected and has been found to be in conformance with our (the manufacturer's) standards and requirements.”

No amplification, dilution, or modification of this specific wording will be permitted.

2-1.08E **ALTERNATIVES.** For convenience in designation in the Contract Documents, certain materials, articles, or equipment may be designated by a brand or a trade name or the name of the manufacturer together with catalog designation or other identifying information, hereinafter referred to generically as “designated by brand name.” Except in those instances where the product is designated to match others in use in a particular improvement, either completed or in the course of completion, an alternative material, article, or equipment which is of equal quality and of the required characteristics for the purpose intended may be proposed for use provided the Contractor complies with the following requirements:

A. The Contractor shall submit its proposal for an alternative in writing. Such request shall be made in ample time to permit review and approval without delaying the Work. The Contractor shall not be entitled to an adjustment of the Contract Time or an increase in the Contract Price based on any Contractor-proposed substitution.

B. No such proposal will be considered unless accompanied by complete information and descriptive data, necessary to determine the equality of the offered materials. The Contractor shall satisfy the Director as to the comparative quality, suitability, or performance of the offered material, articles, or equipment. In the event that the Director rejects the use of such alternative materials, articles, or equipment, then one of the particular products designated by brand name shall be furnished.

C. The burden of proof as to the quality and suitability of alternatives shall be upon the Contractor and it shall furnish all information necessary as required by the Director. The Director shall be the sole judge as to the quality and suitability of alternative articles or materials and such decisions shall be final. Where use of an alternative material

involves redesign of, or changes to, other parts of the Work, the cost and time required to effect such redesign or changes will be considered in evaluating the suitability of the alternative material. Cost of redesign by the City will be borne by the Contractor.

D. Whenever classification, rating or other certification by a body such as Underwriters Laboratories (UL) or the National Electrical Manufacturers Association (NEMA) is a part of the specification for any material, Contractor's request for use of alternative articles or materials shall be accompanied by reports from the listed or equivalent independent testing Laboratory indicating compliance with the Contract Documents. The cost of all testing required to prove equality of the material proposed shall be borne by the Contractor. Approval of an alternative shall be only for the characteristics or use named in such approval, and shall not be used to change or modify any requirement of the Contract Documents.

E. At its election, the City reserves the right to consider any Contractor proposed substitution as a Cost Reduction Proposal under Section 3-1.07 of these General Conditions in the event that there is a significant savings resulting from the substitution.

The Director will examine, with reasonable promptness, such Submittals, and return of Submittals to the Contractor shall not relieve the Contractor from responsibility for deviations and alternatives from the Contract Documents, nor shall it relieve the Contractor from responsibility for errors in the Submittals. A failure by the Contractor to identify in its letter of transmittal material deviations from the Contract Documents shall void the Submittal and any action taken thereon by the Director. When specifically requested by the Director, the Contractor shall resubmit such Shop Drawings, descriptive data and samples as may be required.

If any mechanical, electrical, structural, or other changes are required for the proper Installation and fit of alternative materials, articles, or equipment, or because of deviations from

the Contract, such changes shall not be made without the approval of the Director and shall be made without additional cost to the City.

2-1.09 **DISPOSAL OF MATERIAL OUTSIDE THE WORK SITE.** Unless otherwise stated elsewhere in the Contract Documents, the Contractor shall, at its own cost and expense, make its own arrangements for disposing of materials outside the Work Site.

Except when material is to be disposed of at a landfill or recycling center, when any material is to be disposed of outside the Work Site, the Contractor shall first obtain written permission from the City to dispose of the material at the intended location. The City's approval will be contingent upon the Contractor obtaining a written permit from the property owner on whose property the disposal is to be made. Prior to the disposal of any material at the intended location, the Contractor shall submit such permit or a certified copy thereof to the City, together with a written release from the property owner absolving the City from any and all responsibility related to the disposal of material on said property.

Disposal of Hazardous Materials must be done in accordance with all laws and regulations. Copies of all required regulatory documentation including copies of final manifests shall be supplied to the City.

2-1.10 **ACCESS TO THE WORK.** The Contractor shall satisfy itself that the jurisdictions through which its operations and haul routes pass will permit such operations with respect to the type of vehicle, laden weights, frequency and dimensions of loads, hours of operation and required traffic control. All necessary permits, licenses or bonds shall be obtained and paid for by the Contractor.

2-1.11 **TEMPORARY UTILITIES.** The Contractor shall make its own arrangements with utility companies for any temporary services it may require in performance of

the Work and shall pay all costs of these services directly to these utility organizations.

2-1.12 **UTILITY FACILITIES.** The Contractor shall protect from damage those utility facilities that are to remain in place, be Installed, relocated or otherwise arranged.

The Contractor's attention is directed to the possible existence of facilities not shown, and of facilities in a location different from that, which is indicated. The Contractor shall take steps to ascertain the exact location of all facilities prior to doing any Work, which may damage such facilities or interfere with their service. Where the location of a facility is indicated or inferred from the presence of visible facilities such as buildings, meters, and junction boxes, the Contractor shall make such excavations and explorations as are necessary to ascertain the correct location. Unless provided for elsewhere in the Contract Documents, the cost of such excavations and explorations will be considered as a part of the cost of other items of Work and no additional payment will be made. Such excavations and exploratory Work shall not entitle the Contractor to an extension of time.

If the Contractor discovers underground facilities not indicated or inferred from the Contract Documents, the Contractor shall immediately give the Director written notification of the existence of those facilities. The Contractor shall determine the exact location of the underground facilities and the cost of the work will be paid for in accordance with the Contract Documents. The underground facilities shall be protected from damage as directed by the Director and the cost of that work will be paid for as extra work. The Contractor shall, if directed by the Director, repair any damage, which may occur to the underground facilities. The cost of that repair work, not due to the failure of the Contractor to exercise reasonable care, will be paid for as extra work. Damage due to the Contractor's failure to exercise reasonable care shall be repaired at the Contractor's cost and expense.

Where it is determined by the City that the rearrangement of an underground facility, the existence of which is not shown on the Contract Drawings, is essential in order to accommodate the Work, the City will provide for the rearrangement of such facility by other forces or, when so ordered by Change Order, such rearrangement shall be performed by the Contractor and will be paid for as provided under a Change Order.

The Contractor shall be responsible for the maintenance of all utility facilities placed by the Contractor in temporary locations, and all utilities within the construction area not required to be relocated but which are required to be shored or supported during the construction period. The cost of such maintenance shall be borne by the Contractor, and no other compensation shall be due the Contractor for this Work.

The cost of providing and maintaining all necessary or required temporary structures, of making any necessary repairs, replacements, or similar operations, or furnishing indemnity or other bonds, if required, and all costs required by this Section shall be paid by the Contractor and shall be included in the prices bid in the schedule for other items of work.

2-1.13 **PRESERVATION AND CLEANING.** The Contractor shall clean up the Work at frequent intervals and at other times when directed by the Director. While finish Work is being accomplished, floors, Work areas and finished areas shall be kept clean, free of dust, construction debris and trash. Upon completion of the Work, the Contractor shall remove from the Premises its construction equipment and any waste materials not previously disposed of, leaving the Premises thoroughly clean and ready for final inspection.

2-1.14 **LIMITATIONS ON WORK SITE AND PREMISES.** The Contractor shall limit its construction operations to the Work Site unless otherwise shown on the Contract Drawings or specified. The Contractor shall perform no operation of any nature over or on the

Premises except such operations as are authorized by the Contract Documents or as authorized by the Director.

2-1.15 **DUST CONTROL.** During the performance of all Work under this Contract, the Contractor shall assume all responsibility for dust control and shall furnish all labor, equipment, and means required to carry out proper and efficient measures wherever and whenever dust control is necessary to prevent the operations from producing dust damage and nuisance to persons and property. Any claims resulting from dust damage or nuisance shall be borne solely by the Contractor. The Contractor shall comply with all applicable Air Quality Act requirements.

2-1.16 **SANITATION.** The Contractor shall provide sanitary facilities for all persons working on the Work.

2-1.17 **NIGHT WORK AND NORMAL WORKING HOURS.** Normal working hours at the construction site shall be between the hours of 7:00 a.m. and 7:00 p.m. Monday through Friday. Legal holidays are excluded. Certain utility connections and street operations are anticipated to require night Work by the Contractor during low usage periods. The Contractor may also be required to prosecute the Work at night if, at any time, the Director shall deem it necessary for the progress of the Work, or if emergencies arise. The Contractor shall promptly comply with any such requirements made in writing by the Director. The Contractor will also be permitted to Work at night if Contractor satisfies the Director of the need therefor, in order to maintain the required progress or protect the Work from the elements. Certain activities are required to be performed at night for nominal progress of the Work and/or are specified to be performed at night by other portions of the Supplemental Conditions. When required, ordered, or permitted to Work at night, the Contractor shall provide sufficient and

satisfactory lighting and other facilities therefor. The Contractor shall receive no extra payment for night Work, if specified or if required to be performed during the normal progress of the Work, but compensation shall be considered as having been included in the price stipulated for the Work.

If Contractor performs work during weekends, holidays or any non-normal work hours, Contractor shall pay for required City Inspectors.

2-1.18 **LINES AND GRADES.** Unless otherwise provided in the Supplemental Conditions, the Contractor shall lay out all Work, including structures and pipelines, and shall be responsible for any errors resulting therefrom. In all questions arising as to proper location of lines and grades, the Director's decision will be final.

As part of the bid price for the construction of the improvements, the Contractor shall provide and be responsible for the layout of all Work on this project. The Contractor shall provide all necessary surveys, field staking, and positioning for the construction of all components at the proper alignment, elevations, grades, and positions, as indicated on the Contract Drawings and as required for the proper operation and function. The Contractor shall stake its Work area limits. Contractor shall perform all construction staking using a land surveyor licensed in the State of California. Contractor shall provide a staking plan prior to commencement of Work for the City's review and maintain monuments, stakes, and marks, and shall update the plan as necessary. Director, or Director's designated representative, may verify the field condition. Errors or inconsistencies in the Contract Documents discovered by the Contractor shall be reported to the Director within twenty-four (24) hours and prior to constructive forms or related improvements. Any work Installed with this requirement shall be subject to removal and replacement at the Contractor's expense.

The Contractor's lay-out shall be based on existing structures, property lines, survey control, and bench marks established by the City. All structures and pipeline connections shall be Installed based on actual elevation of existing structures to which connections are made.

The Contractor shall supply such labor as required, at no extra charge, to aid and assist the Director in checking location and grades of the Work as set by the Contractor if the Director desires to perform this checking. This shall include moving materials and equipment located between monuments and the construction Work.

2-1.19 **ARCHEOLOGICAL DISCOVERIES.** Upon discovery of prehistoric or historic artifacts, or other indicators or examples of cultural resources discovered during the course of site preparation, grading, excavation, construction or other development activities, all operations within fifty feet (50') of the find shall cease until such time as the City provides the services of a qualified archeologist to evaluate the finds and recommend appropriate action.

Prehistoric materials can include flaked stone tools (e.g., projectile points, knives and choppers) or tool making debris of obsidian, chert, quartzite and other materials, culturally darkened soil (i.e., midden, which often contains heat affected rock, ash and charcoal, shellfish remains, and cultural materials), and stone milling equipment such as mortars, pestles and hand stones. Historic material may include wood, stone, concrete or adobe footings, walls and other structural remains; debris filled wells or privies; and deposits of wood, metal, glass, ceramics and other refuse.

2-1.20 **PRESERVATION OF MONUMENTS.** Any monuments or bench marks disturbed by construction operations shall be repaired per the City's standard and promptly re-established by a registered land surveyor or civil engineer. A plat for each monument shall be furnished to the Director after the plat has been recorded with the Placer

County Recorder's Office at no additional cost to the City. The recorded plat shall serve as a record of the re-establishment of said existing survey points.

2-1.21 **CONFORMITY WITH CONTRACT DOCUMENTS.** Work and materials shall conform to the lines, grades, cross sections, dimensions and material requirements, including tolerances, required by the Contract Documents. Although measurement, sampling and testing may be considered evidence as to such conformity, the City shall be the sole judge as to whether the Work or materials deviate from the Contract Documents. At its option, the City may elect to accept deviations from the Contract Documents with appropriate backcharge Assessments against the Contractor, and, if such an election is made, the City will provide written notice to the Contractor of such acceptance.

2-1.22 **FINAL CLEANUP.** Prior to final Acceptance of the Work, the Contractor shall thoroughly clean the Premises, remove all temporary structures built by or for the Contractor, and remove all equipment and surplus construction material and debris from the area. The entire project, before Acceptance by the City, shall be left in a neat and clean condition. All Work areas and temporary construction areas shall be returned to essentially the same conditions existing before the commencing of project construction.

2-1.23 **AS-BUILT DOCUMENTS AND DRAWINGS.** The Contractor shall maintain one set of the full size prints furnished by the City and mark thereon in color any deviations from plan dimensions, elevations, or orientations. Also, the Contractor shall locate on said prints, all underground facilities, such as piping, conduits and tanks by accurate field measurement from structure walls, corners, etc. The Contractor shall submit the prints and an electronic CD (searchable PDF or source file format such as AutoCAD) in good condition to the Director upon completion of the job as a condition of Acceptance of the project. Marked prints

shall be updated at least once each week and shall be available to the Director for review as to currency prior to developing partial payment estimates. After the completion of testing, but prior to Acceptance, the Contractor shall submit As-Built electrical drawings in color and an electronic CD showing all components and their wiring, and as specified in the Supplemental Conditions.

2-1.24 **SUPERINTENDENCE.** The Contractor shall supervise and direct the Work, which shall be performed in accordance with the requirements of the Contract Documents. The Contractor shall be solely responsible for implementation of all construction means, methods, techniques, sequences, and procedures and for coordination of all portions of the Work under the Agreement. The Contractor shall be solely responsible for the safety of its employees, Subcontractors of any tier, Suppliers, visitors to the Contractor, and other third parties associated with the Contractor.

The Contractor shall designate in writing before starting Work, an authorized representative who shall have the authority to represent and act for the Contractor.

When the Contractor is comprised of two (2) or more persons, firms, partnerships, or corporations functioning on a joint venture basis, said Contractor shall designate in writing before starting Work, the name of one authorized representative who shall have the authority to represent and act for the Contractor. Instances of misconduct, contract non-compliance, unsatisfactory performance, or incompetence by these personnel shall be grounds for the City to direct Contractor to dismiss them from the Project. Contractor shall immediately comply with the City's request for dismissal, at no cost to the City, and shall designate a replacement, which shall be subject to approval by the City.

Said authorized representative shall be present at the site of the Work at all times while Work is actually in progress on the Contract. When Work is not in progress and during periods

when Work is suspended, arrangements acceptable to the Director shall be made for any Emergency Work that may be required.

Whenever the Contractor or its authorized representative is not present on any particular part of the Work where it may be desired to give direction, orders will be given by the Director, which shall be received and obeyed by the superintendent or foremen who may have charge of the particular Work in reference to which the orders are given.

Any order given by the Director, not otherwise required by the Supplemental Conditions to be in writing, will on request of the Contractor, be given or confirmed by the Director in writing.

2-1.25 **CHARACTER OF WORKER.** If any Subcontractor or person employed by the Contractor shall appear to the Director to be incompetent or to act in a disorderly or improper manner, he or she shall be removed immediately on the requisition of the Director, and such person shall not again be employed on the Work.

2-1.26 **INSPECTION.** The Contractor shall at all times permit the Director to inspect the Work or any part thereof. The Contractor shall maintain proper facilities and provide safe access for such inspection by the Director to all parts of the Work, and to the shops where the Work is in preparation. Work shall not be covered up until authorized by the Director and the Contractor shall be solely responsible for notifying the Director where and when such Work is in readiness for inspection and testing. Should any such Work be covered without authorization, it shall, if so ordered, be uncovered at the Contractor's expense.

Unless otherwise designated as normal working hours, whenever the Contractor intends to perform Work on Saturday, Sunday, or a Legal Holiday, the Contractor shall give notice to the Director of such intention forty-eight (48) hours prior to performing such Work, or such longer

period as may be specified so that the Director may make necessary arrangements.

The observation and/or approval of the workmanship or materials by the City shall not relieve the Contractor of any obligations to fulfill the requirements of the Contract Documents. Workmanship and materials not meeting such requirements shall be corrected and unsuitable Work or material may be rejected, notwithstanding that such Work or materials have been previously observed and/or approved by the City, or payment therefor has been included in a progress estimate.

The City may order re-examination of questioned Work at any time before final Acceptance. If so ordered, the Contractor shall uncover the Work. If such work is found to be in accordance with the Contract Documents, the City will pay for the cost of uncovering, removing, recovering and replacing the parts removed; but if such Work so exposed or examined is not in accordance with the Contract Documents, the uncovering, removal, recovering and replacement shall be at the Contractor's expense. Work that has been covered prior to observation by the City does not qualify as re-examined work; the City may order such work uncovered for observation without payment of any costs.

2-1.27 **REMOVAL OF REJECTED AND UNAUTHORIZED WORK.** All Work which has been rejected shall be remedied, or removed and replaced by the Contractor in a manner acceptable to the Director and no compensation will be allowed the Contractor for such removal, replacement, or remedial Work.

Any Work done beyond the lines shown on the Contract Drawings or established by the Director, or any Work done without written authority will be considered as unauthorized Work and will not be paid for. Upon order of the Director, unauthorized Work shall be remedied, removed, or replaced at the Contractor's expense.

Upon failure of the Contractor to comply promptly with any order of the Director made under this section, the Director may cause rejected or unauthorized Work to be remedied, removed, or replaced, and the costs thereof will be deducted from any moneys due or to become due the Contractor.

FOR COUNCIL APPROVAL
NOT FOR BIDDING

SECTION 3

CHANGES IN THE WORK

3-1.01 **CHANGES.** The Director, without invalidating this Agreement and without notice to Contractor's surety, may order changes in the Work, consisting of additions or deletions, or other revisions. The Contract Price and the Contract Time shall be adjusted accordingly. All such changes in the Work, including in the Contract Price and the Contract Time, shall be authorized only by Contract Change Order, signed by the Director.

If Contractor claims that performance of any work entitles it to additional compensation or to an extension of time for performance of the Work, Contractor shall provide written notice to the City of any such claim prior to undertaking such work. Contractor shall provide written notice of any anticipated impacts to the Contract Price or Contract Time within three (3) Days of discovering such impact, by submitting a Notice of Potential Claim described in Section 7-1.03 below, or notice of delay as described in Section 6-1.09 below. If the Director refuses to issue a Change Order for such work, Contractor shall perform that work if directed or obligated to do so and shall submit a complete and specific Claim for additional compensation and/or extension of time for performance within fifteen (15) Days after such work is performed, as described in Section 7-1.03 below. Failure to provide written notice of claims prior to undertaking such work, failure to provide a timely Notice of Potential Claim, or failure to submit timely a complete and specific Claim for additional compensation and/or extension of the time for performance, shall be deemed a waiver and abandonment of any such Claim. No Claim, dispute or controversy shall interfere with the progress or performance of the Work and the Contractor shall proceed with the Work as directed by the Director. Failure to so proceed shall amount to a

default under this Agreement.

3-1.02 **PROPOSED CHANGE ORDERS.** The Contractor will be notified in writing of a proposed Change Order describing the intended change. Within fifteen (15) Days after receipt of a written request, the Contractor shall submit its proposed price to be added or deducted from the Contract Price due to the change and its estimate of the extent of the adjustment in the Contract Time, if any. The Contractor's proposed price to be added to or deducted from the Contract Price shall be supported by a detailed estimate of cost prepared by the Contractor, vendor or Supplier. The Contractor's proposed price submittal shall be accompanied by a statement of the time necessary for the changed Work, together with a description of how this time will be incorporated into the current Construction Schedule. The Contractor shall upon request by the Director permit inspection of its original Contract estimate, subcontract agreements or purchase orders relating to the change.

If agreement is reached on the adjustment in compensation as provided in Section 3-1.05, "Contract Price Adjustment," of these General Conditions, the Contractor shall proceed with the Work as changed at the agreed price.

If the Contractor and the Director fail to agree as to the adjustment in compensation for the performance of the changed Work, the Contractor, upon written order from the Director, shall proceed immediately with the changed Work and the Contract Price shall be adjusted in accordance with Section 3-1.06, "Force Account Payment," of these General Conditions.

If the Contractor fails to submit its cost estimate within such fifteen (15) Day period, the Contractor shall commence the Work as changed immediately upon receipt of written order of the Director, and the Contract Price will be adjusted in accordance with the Director's cost estimate for the changed Work.

3-1.03

EMERGENCY AND INDETERMINATE TYPE CHANGE

ORDERS. Changes in the Work made necessary by an Emergency, as determined by the Director, or changes of a kind where the extent of the Work cannot be determined until completed, may be authorized by the Director in writing. The Change Order shall state that it is issued pursuant to this Section 3-1.03. Upon receipt of an authorized Change Order or other written order of the Director, the Contractor shall proceed with the ordered Work and the Director will maintain a daily job record containing a detailed summary of all labor, materials and equipment required for the changed Work.

Within fifteen (15) Days after receiving a written request, the Contractor shall submit a detailed estimate of cost for the change and any requested change in Contract Time in the same manner as required for proposed Change Orders in Section 3-1.02 of these General Conditions.

3-1.04

EXECUTED CHANGE ORDER.

A Contract Change Order signed by both the Director and the Contractor is an “executed Contract Change Order.” By signing the Contract Change Order, the Contractor agrees that the specified compensation constitutes full compensation for the changed Work, including payment for interruption, disruption, acceleration, extended Overhead, delay or any other “impact” claim or “ripple effect” claim. The Contractor specifically understands and agrees that its execution of the Contract Change Order shall constitute a waiver of any right for the Contractor to claim any additional compensation with respect to the subject matter of the Contract Change Order.

3-1.05

CONTRACT PRICE ADJUSTMENT.

If a Contract Change Order provides for an adjustment to the Contract Price, the amount of such adjustment shall be determined by one of the following methods, or a combination thereof, as determined by the City and in its sole discretion:

A. Lump sum. The Contractor and the City may agree on a lump sum amount for the Change Order. At the City's request, the Contractor will provide pricing for the work. Maximum markups for Contract Change Orders paid for using lump sum pricing shall be paid for in the same manner and in the same amounts as markups for Force Account work, as described in Section 3-1.06 below.

B. Unit Prices. The unit prices set forth in the Contractor's Schedule of Bid Prices will be utilized where they are applicable and acceptable to the City. The Contractor's unit prices shall remain firm and shall not be subject to adjustment unless and until the actual quantity of work is increased or decreased by Contract Change Order in an amount greater than twenty-five percent (25%) from the estimated quantity indicated for such item. No markups will be given for Contract Change Orders paid for using unit prices.

Unit prices for new items included in the Contract Change Order but not included in the original bid shall be as mutually agreed upon or, in the absence of agreement, as determined by the City in the same manner as if the work were to be paid for on a Force Account basis, as described in Section 3-1.06 below.

C. Force Account. Where the City and the Contractor are unable to agree on lump sum pricing and if the City does not elect to utilize the unit prices in Contractor's bid, or such unit prices are not applicable, the changed work will be performed and tracked by the Contractor as Force Account work, as described in Section 3-1.06 below. The City will pay for such work, including markups, properly attributable to the change in accordance with those Force Account provisions.

D. Eliminated Items. The City reserves the right to delete any bid item of Work in its entirety. The City makes no representation that any work under a bid item of Work

will be performed, and all work may be subject to a Contract Change Order that deletes such work. Bid items are distinct and severable from the other bid items, and the Contractor shall not be entitled to any anticipated profit, unabsorbed Overhead, or other indirect expense attributable to the deleted item, except as provided immediately below with regard to Force Account mark-ups on the direct and verifiable costs incurred prior to the City's order that deletes the work.

Should any bid item of Work be eliminated in its entirety and not accounted for as described immediately above and, in the absence of an executed Contract Change Order covering such elimination, payment will be made to the Contractor for actual direct and verifiable costs incurred in connection with such eliminated bid item if incurred prior to the date of notification in writing by the City of such elimination. If acceptable material is ordered by the Contractor for the eliminated item prior to the date of notification of such elimination by the City, and if orders for such material cannot be canceled, it will be paid for at the actual direct and verifiable cost to the Contractor. Actual direct costs shall include documented vendor shipping fees, Supplier restocking fees, if applicable, and Contractor handling costs directly related to the eliminated item(s). In such case, the material paid for shall become the property of the City and the actual cost of any further handling will be paid for by the City. If the material is returnable to the vendor and if the City so directs, the material shall be returned and the Contractor will be paid for the actual direct cost of charges made by the vendor for returning the material. The actual direct cost of handling returned materials will also be paid for by the City. The actual direct and verifiable costs to be paid by the City as provided herein will be computed in the same manner as if the work were to be paid for on a Force Account basis, including the application of Force Account mark-ups to said costs.

3-1.06 **FORCE ACCOUNT PAYMENT.** When Work performed pursuant to a

Change Order is to be paid for on a Force Account basis, the Contractor's labor, materials and equipment used in the performance of such Work shall be subject to the approval of the City, and the compensation will be determined as set forth below in this section.

3-1.06A **LABOR.** The Contractor will be paid an amount based on the actual cost for the workers (including foremen when authorized by the Director) used in the actual and direct performance of the Work. All labor costs associated with Overhead, whether field or home office, are specifically excluded herein, as those labor costs are covered by the below mark-ups. The cost of labor, whether the employer is the Contractor, Subcontractor or other forces, shall include employer payments; assessment of benefits required by lawful labor union collective bargaining agreements; compensation insurance payments; contributions made to the State pursuant to the Unemployment Insurance Code; and for taxes paid to the Federal Government pursuant to the Social Security Act of August 14, 1935, as amended. No labor cost will be recognized at a rate in excess of the wages prevailing in the locality at the time the Work is performed, nor will the use of a labor classification, which would increase the cost, be permitted unless the Contractor establishes to the complete satisfaction of the Director the necessity for payment at a higher rate.

3-1.06B **MATERIALS.** Only materials furnished by the Contractor and necessarily used in the performance of the Work will be paid for. Such cost of materials may include the costs of procurement, transportation and delivery if necessarily incurred. If a cash or trade discount by the actual supplier is available to the Contractor, it shall be credited to the City. If materials are procured by the purchaser by any method which is not a direct purchase from and a direct billing by the actual supplier to such purchaser, the cost of such materials shall be deemed to be the price paid to the actual supplier plus the actual costs, if any, incurred in the

handling of such materials. If the materials are obtained from a supply or source owned wholly or in part by the purchaser, the cost of such materials shall not exceed the price paid by the purchaser for similar materials furnished from said source on Bid items or the current wholesale price for such materials delivered to the job site, less any discounts as provided herein, whichever is lower. If, in the opinion of the Director, the cost of materials is excessive, or if the Contractor fails to furnish satisfactory evidence of the cost to it from the actual supplier within sixty (60) Days after the date of delivery of the materials or within fifteen (15) Days after Acceptance of the Agreement, whichever occurs first, the cost of the materials shall be deemed to be the lowest current wholesale price at which similar materials are available in the quantities required, less any discounts provided herein. The Department reserves the right to furnish such materials required by the Change Order as it deems advisable, and the Contractor shall have no claim for cost or markups on material furnished by the Department.

3-1.06C **EQUIPMENT.** The Contractor will be paid an amount based on the actual cost for the use of equipment directly required and approved by the Director in the performance of the changed Work. No payment will be made for time while equipment is inoperative due to breakdowns or on Days when no Work is performed. In addition, the rental time shall include the time required to move the equipment to the Work from the nearest available source of such equipment, and to return it to the source. If such equipment is not moved by its own power, then loading and transportation costs will be paid. Moving time, loading and transportation costs will only be paid if the equipment is used exclusively on the changed Work during the time between move in and move out. Individual pieces of equipment having a replacement value of One Thousand Dollars (\$1000) or less shall be considered to be tools or small equipment, and no payment will be made therefore. For equipment owned,

furnished, or rented by the Contractor, no cost therefore shall be recognized in excess of the equipment rental rates published by Caltrans at the following website address:

<http://www.dot.ca.gov/hq/construc/equipmnt.html>. Equipment located at a Work Site and utilized on non-Force Account work shall not be eligible for standby payment, and shall be charged on a Force Account basis only when solely performing pre-approved Force Account work tasks.

3-1.06D **MARKUPS.** When a Change Order increases the cost of the Work, the Contractor may add the following maximum markups to its actual costs of labor, materials, or equipment rental:

15 percent for labor;

10 percent for materials; and

5 percent for equipment rental.

The above markups include full compensation, covering the costs of all supervision, bonds, profit, Overhead, and other general expenses not specifically designated as a direct cost in Sections 3-1.06A through 3-1.06C above. The total payment (i.e., direct cost plus applicable markups) shall be deemed to be the actual cost of such work and shall constitute full compensation therefor. The Contractor specifically understands and agrees that such payment shall include any Contractor costs for interruption, disruption, and acceleration, extended Overhead, Change Order management, delay or other “impact” claim or “ripple effect” claim.

When work paid for on a Force Account basis is performed by forces other than the Contractor’s own forces, the maximum allowable mark-ups for the Subcontractors’ costs shall be fifteen percent (15%) for the cost of labor, ten percent (10%) for the cost of materials, and five percent (5%) for the cost of rented equipment. In these situations where the work is being performed by Subcontractors, the Contractor will only be entitled to an additional five percent

(5%) mark-up and will not be entitled to receive the additional mark-ups specified in this section.

When a Change Order decreases the cost of the Work, the reduction in cost shall include a five percent (5%) markup on the estimated cost for furnishing the labor, materials and equipment, which would have been used on such Work, had the Change Order not been issued.

When a Change Order involves both added Work and deleted Work, the markup or markups to be used shall be as follows:

The actual costs of labor, materials, and equipment rental for added and deleted Work shall be calculated separately without adding markups. If the difference between the calculated costs for labor results in an increased cost, a markup of fifteen percent (15%) shall be applied to the increased cost. If the difference between the calculated costs of materials or equipment rental results in an increased cost, a markup of ten percent (10%) and five percent (5%) respectively, shall be applied to the increased costs of materials or equipment rental, as the case may be. If the difference between the calculated costs for labor, materials or equipment rental results in a decreased cost, a markup of five percent (5%) shall be applied to the decreased costs of labor, materials or equipment rental, as the case may be.

Contractor shall not add mark-ups on work performed and billed by City staff nor add mark-ups to successive iterations of proposed Change Order cost proposals returned to Contractor by the City due to incomplete or inaccurate information being originally submitted by the Contractor. If the Contract Price increases by the issuance of Change Orders, the penal amounts of the bonds required shall increase accordingly.

3-1.06E **RECORDS.** The Contractor shall maintain its records in such a manner as to provide a clear distinction between the direct costs of extra work paid for on a Force Account basis and the costs of other operations.

From the above records, the Contractor shall furnish the City completed daily extra work reports, on forms acceptable to the City, for each Day's extra work to be paid for on a Force Account basis. The daily extra work reports shall itemize the materials used, and shall cover the direct cost of labor and the charges for equipment rental, whether furnished by the Contractor, Subcontractor, or other forces. The daily extra work reports shall provide names and identifications and classifications of workers, the hourly rate of pay and hours worked, and also the size, type, and identification number of equipment, and hours operated. Daily extra work and Force Account reports (actual or claimed) shall be signed by both the City's and the Contractor's representatives within twenty-four (24) hours of the performance of the work.

Valid copies of vendor's invoices shall substantiate material charges. Such invoices shall be submitted with the daily extra work reports, or if not available, they shall be submitted with subsequent daily extra work reports. Should said vendor's invoices not be submitted within sixty (60) Days after the date of delivery of the material or within fifteen (15) Days after the Acceptance of the Agreement, whichever occurs first, the City reserves the right to establish the cost of such materials at the lowest current wholesale prices at which said materials were available in the quantities, less any discounts.

The City will compare its records with the completed daily extra work reports furnished by the Contractor and make any necessary adjustments. When these daily extra work reports are agreed upon and signed by both parties, said reports shall become the basis of payment for the work performed, but shall not preclude subsequent adjustment based on a later audit by the City.

The Contractor's cost records pertaining to Work paid for on a Force Account basis shall be open to inspection or audit by representatives of the City during the life of the Agreement and for a period of not less than three (3) years after the date of Agreement completion and the

Contractor shall retain such records for that period. Where payment for materials or labor is based on the cost thereof to forces other than the Contractor, the Contractor shall make every reasonable effort to insure that the cost records of such other forces will be open to inspection and audit by representatives of the City on the same terms and conditions as the cost records of the Contractor. If an audit is to be commenced more than sixty (60) Days after the date of Acceptance of the Agreement, the Contractor will be given fifteen (15) Days' notice of the time when such audit is to begin.

3-1.07 **COST REDUCTION PROPOSALS.** The City encourages the Contractor to submit Cost Reduction Proposals whenever the Contractor identifies areas and/or instances in which there can be savings to the Work. Contractor may submit to the City, in writing, proposals for modifying the plans, Specifications or other requirements of the Agreement for the sole purpose of reducing the total cost of construction, including the time for completion of the Work. The City may consider such Cost Reduction Proposals and, if accepted, the Agreement will be equitably adjusted. The City has no obligation to consider or accept Cost Reduction Proposals.

SECTION 4

CONTROL OF MATERIALS

4-1.01 **MATERIALS.** The Contractor shall furnish all materials required to complete the Work, except materials that are designated in the Supplemental Conditions to be furnished by the City and materials furnished by the City in accordance with Section 3, “Changes in the Work,” of these General Conditions.

Unless otherwise specified in the Supplemental Conditions, materials furnished by the Contractor for incorporation into the Work shall be new. When the quality or kind of materials, articles, or equipment is not particularly indicated, then the quality or kind thereof shall be similar to those that are indicated.

Articles or materials to be incorporated in the Work shall be stored in such a manner as to insure the preservation of their quality and fitness for the Work, and to facilitate inspection.

All materials which do not conform to the requirements of the Contract Documents as determined by the Director, will be rejected whether in place or not. Rejected material shall be removed immediately from the site of the Work, unless otherwise permitted by the Director. No rejected material, the defects of which have been subsequently corrected, shall be used in the Work, unless approval in writing has been given by the Director. Upon failure of the Contractor to comply promptly with any order of the Director made under these provisions, the Director shall have the authority to cause the removal and replacement of rejected material and to deduct the cost thereof from any moneys due or to become due the Contractor.

Manufacturer's warranties, guaranties, instruction sheets and parts lists, which are furnished with certain materials incorporated in the Work, shall be delivered to the Director

before Acceptance of the Contract.

Unless otherwise designated in the Supplemental Conditions or Specifications, materials furnished by the City will be delivered to the job site. Materials furnished by the City that are designated in the Supplemental Conditions as available at locations other than the job site shall be hauled to the site of the Work by the Contractor at its expense, including any necessary loading and unloading that may be involved.

The Contractor will be held responsible for all materials furnished to it, and shall pay all demurrage and storage charges. City-furnished materials lost or damaged from any cause whatsoever shall be replaced by the Contractor. The Contractor will be liable to the Department for the cost of replacing City-furnished material and such costs may be deducted from any moneys due or to become due the Contractor.

4-1.02 **PRODUCT AND REFERENCE STANDARDS.** When descriptive catalog designations, including manufacturer's name, product brand name, or model number are referred to in the Contract Documents, such designations shall be considered as being those found in industry publications in effect on the day the Notice to Contractors for the Work is dated, except as may be otherwise stated.

When standards or test designations of the Federal Government, trade societies, or trade associations are referred to in the Contract Documents by specific date of issue, these shall be considered as part of the Contract. When such references do not bear a date of issue, the edition in effect on the day the Notice to Contractors for the Work is dated shall be considered as part of the Contract.

4-1.03 **SAMPLING AND TESTING OF MATERIALS.** Unless otherwise specified, all tests shall be performed in accordance with the methods used by the State

Department of Transportation (Caltrans) and shall be made by the Director or his or her designated representative.

The State Department of Transportation has developed test methods for testing the quality of materials and Work. These test methods are identified by a California Test followed by the serial number. Copies of individual tests are available at the State Department of Transportation Laboratory, Sacramento, California, and will be furnished to interested persons upon request.

Whenever a reference is made in the Supplemental Conditions to a California Test by number, it shall mean the California test in effect on the day the Notice to Contractors for the Work is dated.

Whenever the Supplemental Conditions provide an option between two (2) or more test methods, the Director will determine the test method to be used.

Whenever a Supplemental Condition, manual, or test designation provides for test reports (such as certified mill test reports) from the manufacturer, copies of such reports, identified as to the lot of material, shall be furnished to the Director. The manufacturer's test reports shall supplement the inspection, sampling and testing provisions of this Section 4-1.03 and shall not constitute a waiver of the City's right to inspect. When material which cannot be identified with specific test reports is proposed for use, the Director may at his or her discretion, select random samples from the lot for testing. Testing specimens from the random samples, including those required for retest, shall be prepared in accordance with the referenced Supplemental Conditions and furnished by the Contractor at its expense. The number of such samples and test specimens shall be entirely at the discretion of the Director.

When requested by the Director, the Contractor shall furnish, without charge, samples of

all material entering into the Work, and no material shall be used prior to approval by the Director, except as provided in Section 4-1.04, "Certificates of Compliance," of these General Conditions.

A. Inspection and Access for Testing. The Contractor shall provide safe access for the Director and his or her inspectors to adequately inspect the quality of Work and conformance with the General and Supplemental Conditions. The Contractor shall provide adequate lighting, ventilation, ladders and other protective facilities as may be necessary for the safe performance of inspections.

The Contractor shall submit samples or specimens of such materials to be furnished or used in the Work as the Director may require. The Contractor shall furnish the Director all necessary labor and facilities for such things as excavation in the compacted fill to depths required to take samples.

Inspections, tests, or favorable review by the Director or others shall not relieve the Contractor from its obligations to perform the Work in accordance with the requirements of the Contract Documents.

Work covered without the favorable review or consent of the Director shall, if required by the Director, be uncovered for examination at the Contractor's expense.

If the Engineer, Architect, or Director considers it necessary or advisable that covered Work be inspected or tested by others, the Contractor, at the Director's request, will uncover, expose or otherwise make available for observation, inspection or testing as the Director may require, that portion of the Work in question, furnishing all necessary labor, materials, tools, and equipment. If it is found that such Work is defective, the Contractor will bear all the expenses of such uncovering, exposure, observation, inspection and testing and of

satisfactory reconstruction. If, however, such Work is not found to be defective and the Work was not covered without favorable review of the Director, the Contractor will be allowed an increase in the Contract Price or an extension of the Contract Time, or both, to cover its costs directly attributable to such uncovering, exposure, observation, inspection, testing, and reconstruction and an appropriate Change Order shall be issued.

Whenever the Contractor varies the period during which Work is carried on each Day, the Contractor shall give due notice to the Director so that proper inspection may be provided. Any Work done in the absence of the Director may be subject to rejection. Proper facilities for safe access for inspection to all parts of the Work shall at all times be maintained for the necessary use of the Director and other agents of the City. Authorized representatives and agents of the Director shall be permitted access to inspect all Work and materials wherever it is required for preparation of progress reports, and the Contractor shall provide proper facilities for such access and inspection.

It is the Contractor's responsibility to supervise the Work and complete the project in accordance with the Contract Documents. In the course of managing that effort, the Contractor shall generate its own punch lists as deemed necessary. The Director may prepare punch lists for the Director's own use in communicating with the Contractor; however, the Director shall be under no obligation to prepare punch lists for the Contractor. In general, the Director will prepare punch lists only after the Contractor has given the Director written notice that the subject Work is completed and tested in accordance with the Contract Documents and is ready for operation and/or use and/or occupancy. Failure of the Director to include an item in a punch list shall not relieve the Contractor of its duty to satisfactorily complete all Work required by the Contract Documents.

Upon Final Completion of the construction Work and request by the Contractor, the Director will conduct a final inspection as a basis for recommending to the City that the Work be accepted.

B. Field and Materials Testing. Where the Supplemental Conditions require Work to be specially field tested or approved, it shall be tested only in the presence of the Director after timely notice of its readiness for inspection and test, and the Work after testing shall be covered up only upon the consent thereto of the Director.

The results of any tests made are for the information of the Director. Regardless of any test results, the Contractor is solely responsible for the quality of workmanship and materials and for compliance with the requirements of the Contract Drawings and Supplemental Conditions.

Except as specifically required under the Supplemental Conditions, all tests by the Director of materials furnished by the Contractor will be done in accordance with commonly recognized standards of national organizations. The Contractor shall furnish such samples of all materials as required by the Director without charge. No material shall be used unless it has been favorably reviewed by the Director.

Where such inspection and testing are to be conducted by an independent Laboratory or agency, the sample or samples of materials to be tested shall be selected by such Laboratory or agency, or the Director, and not by the Contractor.

C. Costs of Testing.

1. Initial Services: The City shall furnish and pay for all initial testing services required by the Contract Documents. When initial tests indicate non-compliance with the Contract Documents, the cost of initial tests associated with that non-compliance will be

deducted by the City from the balance owed the Contractor. The Contractor shall furnish samples of materials for testing as may be required by the Director. Such samples shall be furnished without cost to the City.

2. Retesting: When initial tests indicate non-compliance with the Contract Documents, all subsequent retesting occasioned by the non-compliance shall be performed by the same testing Laboratory and the cost thereof will be deducted by the City from the balance owed the Contractor. Contractor shall be billed for each additional test.

3. Contractor Convenience Testing: Inspection or testing performed exclusively for the Contractor's convenience shall be the sole responsibility of the Contractor.

4. Additional Tests and Inspections: When in the opinion of the Director additional tests or inspections are required because of the manner in which the Contractor executes its Work, such tests and inspections shall be paid for by the City, but will be deducted from the Contract Price. Examples of such tests and inspections are tests of materials substituted for previously accepted materials or substituted for specified materials, retests made necessary by failure of material to comply with the requirements of the Specifications, load tests made necessary because of portions of the structure not fully meeting Specifications or plan requirements, etc.

4-1.04 **CERTIFICATES OF COMPLIANCE.** A Certificate of Compliance shall be furnished prior to the use of any materials for which the Supplemental Conditions require that such a Certificate be furnished. In addition, the Director may permit the use of certain materials or assemblies prior to sampling and testing if accompanied by a Certificate of Compliance. The Certificate shall be signed by the manufacturer of the material or the manufacturer of assembled materials and shall state that the materials involved comply in all

respects with the requirements of the Supplemental Conditions. A Certificate of Compliance shall be furnished with each lot of such materials delivered to the Work and the lot so certified shall be clearly identified in the Certificate.

All materials used on the basis of a Certificate of Compliance may be sampled and tested at any time. The fact that material is used on the basis of a Certificate of Compliance shall not relieve the Contractor of responsibility for incorporating material in the Work which conforms to the requirements of the Contract Documents and any such material not conforming to such requirements will be subject to rejection whether in place or not.

The Department reserves the right to refuse to permit the use of material on the basis of a Certificate of Compliance.

The form of the Certificate of Compliance and its disposition shall be as directed by the Director.

FOR COUNCIL APPROVAL
NOT FOR BIDDING

SECTION 5

LEGAL RELATIONS AND RESPONSIBILITY

5-1.01 **LAWS TO BE OBSERVED.** The Contractor shall keep informed of and observe, and comply with and cause all of its agents and employees to observe and comply with, all prevailing Federal and State laws, and rules and regulations made pursuant to said Federal and State laws, and county and municipal ordinances, and regulations, which in any way affect the conduct of the Contract. If any conflict arises between provisions of the Contract and any such law above referred to, the Contractor shall notify the Director at once in writing. To the fullest extent allowed by law, the Contractor shall defend, indemnify, and save and hold harmless the City or any of its officers, agents, employees, and volunteers against any claim or liability arising from or based on the violation of any such law, rule, or regulation, whether by itself or its agents or employees.

5-1.02 **HOURS OF LABOR.** Eight (8) hours labor constitutes a legal Day's work. The Contractor or Subcontractor shall, as a penalty to City, forfeit Twenty-five Dollars (\$25) for each worker employed in the execution of the contract by the respective Contractor or Subcontractor for each calendar day during which such worker is required or permitted to work more than eight (8) hours in any one (1) calendar day and forty (40) hours in any one (1) calendar week in violation of the provisions of the Labor Code, and in particular, Section 1810 to Section 1815, thereof, inclusive, except that Work performed by employees of Contractors in excess of eight (8) hours per day, and forty (40) hours during any one (1) week, shall be permitted upon public work upon compensation for all hours worked in excess of eight (8) hours per day at not less than one and one-half (1-1/2) times the basic rate of pay, as provided in said

Section 1815. In addition, Contractor and/or its Subcontractors may be required to pay double the basic rate of pay for all hours worked in excess of twelve (12) hours in any workday and under other circumstances. (See California Code of Regulations, Title 8, Sections 16100(c)(6) and (16200(a)(3)(F) and applicable Department of Industrial Relations prevailing wage determinations.)

5-1.03 **NONDISCRIMINATION.**

A. Attention is directed to Labor Code Section 1735, which reads as follows:

“A contractor shall not discriminate in the employment of persons upon public works on any basis listed in subdivision (a) of Section 12940 of the Government Code, as those bases are defined in Sections 12926 and 12926.1 of the Government Code, except as otherwise provided in Section 12940 of the Government Code. Every Contractor for public works who violates this section is subject to all the penalties imposed for a violation of this chapter.”

B. During the performance of this Contract, Contractor and its Subcontractors shall not unlawfully discriminate against any employee or applicant for employment because of race, religious creed, color, national origin, ancestry, physical disability, mental disability, medical condition, genetic information, marital status, sex, gender, gender identity, gender expression, age, sexual orientation, or military and veteran status. The Contractor and Subcontractors shall insure that the evaluation and treatment of their employees and applicants for employment are free of such discrimination. The Contractor and Subcontractors shall comply with the provisions of the California Fair Employment and Housing Act (Government Code §12900, et seq.) and the applicable regulations promulgated thereunder (California Code of Regulations, Title 2, §7285.0 et seq.) and other applicable State and Federal regulations and City

policies pertaining to nondiscrimination and affirmative action which are incorporated into this Agreement by reference and made a part hereof as if set forth in full. The Contractor and its Subcontractors shall give written notice of their obligations under this clause to labor organizations with which they have a collective bargaining or other agreement.

C. Contractor shall include the nondiscrimination and compliance provisions of this clause in all subcontracts to perform Work under the agreement.

5-1.04 **PREVAILING WAGE.** The Contractor and any Subcontractor shall comply with Labor Code Sections 1770 et seq. In accordance with said Section 1775 the Contractor and any Subcontractor under the Contractor shall, as a penalty, forfeit to the state or City not more than \$200 for each calendar day or portion thereof, for each worker paid less than the prevailing rate as determined by the Director of Industrial Relations for the work or craft in which such worker is employed for under the Contract by the Contractor or by any Subcontractor under the Contractor.

The amount of the penalty shall be determined by the Labor Commissioner based on consideration of both of the following: (a) whether the failure to pay the correct rate of per diem wages was a good-faith mistake and, if so, whether the error was promptly and voluntarily corrected when brought to the attention of the Contractor or Subcontractor; and (b) whether the Contractor or Subcontractor has a prior record of failing to meet its prevailing wage obligations.

The penalty may not be less than forty dollars (\$40) for each calendar day, or portion thereof, for each worker paid less than the prevailing wage rate, unless the failure of the Contractor or Subcontractor to pay the correct rate of per diem wages was a good faith mistake and, if so, the error was promptly and voluntarily corrected when brought to the attention of the Contractor or Subcontractor.

The penalty may not be less than eighty dollars (\$80) for each calendar day, or portion thereof, for each worker paid less than the prevailing wage rate, if the Contractor or Subcontractor has been assessed penalties within the previous three (3) years for failing to meet its prevailing wage obligations on a separate contract, unless those penalties were subsequently withdrawn or overturned.

The penalty may not be less than one hundred twenty dollars (\$120) for each calendar day, or portion thereof, for each worker paid less than the prevailing wage rate, if the Labor Commissioner determines that the violation was willful, as defined in subdivision (c) of Section 1777.1 of the Labor Code.

If the amount due under this section is collected from the Contractor or Subcontractor, any outstanding wage claim under Chapter 1 (commencing with Section 1720) of Part 7 of Division 2 of the Labor Code against the Contractor or Subcontractor shall be satisfied before applying that amount to the penalty imposed on that Contractor or Subcontractor pursuant to this section.

The determination of the Labor Commissioner as to the amount of the penalty shall be reviewable only for an abuse of discretion.

In addition to said penalty, the difference between such stipulated prevailing wage rates and the amount paid to each worker for each calendar day or portion thereof for which each worker was paid less than the stipulated prevailing wage shall be paid to each worker by the Contractor or Subcontractor.

If a worker employed by a Subcontractor on a public works project is not paid the general prevailing per diem wages by the Subcontractor, the Contractor is not liable for any penalties described above unless the Contractor had knowledge of that failure of the Subcontractor to pay

the specified prevailing rate of wages to those workers or unless the Contractor fails to comply with all of the following requirements:

1. The contract executed between the Contractor and the Subcontractor for the performance of work on the public works project shall include a copy of the provisions of Sections 1771, 1776, 177.5, 1813, and 1815 of the Labor Code.
2. The Contractor shall monitor the payment of the specified general prevailing rate of per diem wages by the Subcontractor to the employees, by periodic review of the certified payroll records of the Subcontractor.
3. Upon become aware of the Subcontractor's failure to pay its workers the specified prevailing rate of wages, the Contractor shall diligently take corrective action to halt or rectify the failure, including, but not limited to, retaining sufficient funds due the Subcontractor for work performed on the public works project.
4. Prior to making final payment to the Subcontractor for work performed on the public works project, the Contractor shall obtain an affidavit signed under penalty of perjury from the Subcontractor that the Subcontractor has paid the specified general prevailing rate of per diem wages to its employees on the public works project and any amount due pursuant to 1813 of the Labor Code.

Pursuant to Section 1775 of the Labor Code, the Division of Labor Standards Enforcement shall notify the Contractor on a public works project within fifteen (15) Days of the receipt by the Division of Labor Standards Enforcement of a complaint of the failure of a Subcontractor on that public works project to pay workers the general prevailing rate per diem wages.

Pursuant to the provisions of California Labor Code Section 1773, the City has obtained

the general prevailing rate of wages applicable to the categories of workers the City anticipates will be utilized for this project for straight time, overtime, Saturday, Sunday, and holiday Work. The holiday wage rate listed shall be applicable to all holidays recognized in the collective bargaining agreement of the particular craft, classification or type of worker concerned or, if no collective bargaining applies, those holidays identified in Government Code Section 6700. These wage rates may be obtained from the State Department of Industrial Relations and/or the following website address: <http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm>, which is incorporated herein as a part of this Contract.

Pursuant to Labor Code Section 1773.2, the general prevailing wage rates set forth above, which forms a part of this Contract, shall be posted by the Contractor at a prominent place at the site of the Work.

Pursuant to Labor Code Section 1773.6 and California Code of Regulations Section 16204, Title 8, changes in general prevailing wage determinations shall apply to the project only if issued by the Director of Industrial Relations prior to the City's bid issuance date.

The City will not recognize any claim for additional compensation because of the payment by the Contractor of any wage rate in excess of the prevailing wage rate set forth in the Contract. The possibility of wage increases is one of the elements to be considered by the Contractor in determining its Bid, and will not under any circumstances be considered as the basis of a claim against the City or Contract.

When both California and Federal prevailing wage rates apply, the Contractor and any Subcontractors shall pay their workers the higher of the two rates. The Contractor and any Subcontractors shall insert this clause in any lower tier contract.

5-1.05 **REGISTRATION REQUIRED AS QUALIFICATION TO BID.**

Pursuant to Labor Code Section 1771.1(b), notice is hereby given that a Contractor or Subcontractor shall not be qualified to bid on, be listed in a bid proposal, subject to the requirements of Section 4104 of the Public Contract Code, or engage in the performance of any contractor for public work, as defined in Labor Code Sections 1720, et seq., unless currently registered and qualified to perform public work pursuant to Labor Code Section 1725.5. It is not a violation of Labor Code Section 1771.1 for an unregistered contractor to submit a bid that is authorized by Section 7029.1 of the Business and Professions Code or by Section 10164 or 20103.5 of the Public Contract Code, provided the contractor is registered to perform public work pursuant to Section 1725.5.

5-1.06 **PAYROLL RECORDS.** The Contractor's attention is directed to the following provisions of Labor Code Section 1776. The Contractor shall be responsible for the compliance with these provisions by its Subcontractors.

A. The Contractor and each Subcontractor shall keep accurate and current payroll records, showing the name, address, social security number, work classification, straight time and overtime hours worked each day and week, and the actual per diem wages paid to each journeyman, apprentice, worker, or other employee employed by it in connection with the public work. Each payroll record shall contain or be verified by a written declaration that is made under penalty of perjury, stating both of the following:

1. The information contained in the payroll record is true and correct.
2. The employer has complied with the requirements of Section 1771, 1811, and 1815 for any work performed by his or her employees on the public works project.

B. The payroll records enumerated under subdivision (A) shall be available for inspection at all reasonable hours at the principal office of the Contractor on the following

basis:

1. A certified copy of an employee's payroll record shall be made available for inspection or furnished to such employee or his or her authorized representative on request.

2. A certified copy of all payroll records enumerated in subdivision (A) shall be made available for inspection or furnished upon request to a representative of the City, the Division of Labor Standards Enforcement, and the Division of Apprenticeship Standards of the Department of Industrial Relations. The City reserves the right to withhold any progress payments to the Contractor in the event of noncompliance with the subsection.

3. A certified copy of all payroll records enumerated in subdivision (A) shall be made available upon request by the public for inspection or for copies thereof. However, a request by the public shall be made through either the City, the Division of Apprenticeship Standards, or the Division of Labor Standards Enforcement. The public shall not be given access to such records at the principal office of the Contractor.

C. The certified payroll records shall be on forms provided by the Division of Labor Standards Enforcement or shall contain the same information as the forms provided by the Division.

D. Each Contractor shall file a certified copy of the records enumerated in subdivision (A) with the entity that requested the records within ten (10) Days after receipt of a written request.

E. Any copy of the records made available for inspection as copies and furnished upon request to the public or any public agency by the City, the Division of Apprenticeship Standards or the Division of Labor Standards Enforcement shall be marked or

obliterated to prevent disclosure of an individual's name, address and social security number.

The name and address of the Contractor awarded the Contract or Subcontractor performing the Contract shall not be marked or obliterated. Any copy of records made available for inspection by, or furnished to, a joint labor-management committee established pursuant to the federal Labor Management Cooperation Act of 1978 (Section 175a of Title 29 of the United States Code) shall be marked or obliterated only to prevent the disclosure of an individual's name and social security number. A joint labor-management committee may maintain an action in a court of competent jurisdiction against an employer who fails to comply with Section 1774. The court may award restitution to an employee for unpaid wages and may award the joint labor-management committee reasonable attorneys' fees and costs incurred in maintaining the action. An action under this subdivision may not be based on the employer's misclassification of the craft of a worker on its certified payroll records. Nothing in this subdivision limits any other available remedies for a violation of this section.

F. The Contractor shall inform the City of the location of the records enumerated under subdivision (A), including the street address, city and county, and shall, within five (5) business days, provide a notice of a change of location and address.

G. The Contractor shall have ten (10) Days in which to comply subsequent to receipt of written notice requesting the records enumerated in subdivision (A). In the event that the Contractor or Subcontractor fails to comply within the ten (10) Day period, the Contractor shall, as a penalty to the State or City, forfeit twenty-five (\$25) Dollars for each calendar day, or portion thereof, for each worker, until strict compliance is effectuated. Upon the request of the Division of Apprenticeship Standards or the Division of Labor Standards Enforcement, these penalties shall be withheld from any progress payment or final payment then due. A contractor

is not subject to a penalty assessment pursuant to this section due to the failure of a Subcontractor to comply with this section.

5-1.07 **SAFETY REQUIREMENTS.** It is the intent of the parties that the City is not an exposing, creating, controlling, or correcting employer under California Labor Code Section 6400. In accordance with generally accepted construction practices and State law, the Contractor shall have the authority and be solely and completely responsible for conditions on the Work Site, including safety of all persons and property during performance of the Work. Moreover, the Contractor shall be the controlling employer and has the authority and responsibility to enforce Work Site safety. The Contractor shall be responsible for conducting daily safety inspections and assuring all hazards and violations are abated. The Contractor is responsible for assuring that all Subcontractors adhere to the minimum Cal/OSHA safety requirements and that each Subcontractor has an effective Cal/OSHA IIPP (Illness and Injury Prevention Program) in place that specifically addresses all potential exposures, such as, but not limited to, fall protection, confined space, and trenching/shoring. These requirements shall apply continuously and not be limited to normal working hours. The Contractor shall be responsible for any delay costs or damages in the event the progress of Work is slowed or stopped due to a safety violation.

The Contractor shall designate a safety officer and have in place a health and safety plan in accordance with the laws of State of California and conduct safety meetings and document them in accordance with the law. The Contractor shall have the safety record available for inspection during working hours and shall submit job site safety meeting reports with each Application for Payment.

Prior to Contractor commencing construction project work on City property, Contractor

shall make available copies of its Health and Safety Plan (HASP) that meets or exceeds applicable Cal/OSHA regulations. The Contractor's HASP shall also meet or exceed the requirements of any applicable City-wide or departmental specific Injury and Illness Prevention Programs (IIPP) and other HASP programs, procedures, and plans. Potentially applicable HASP programs, procedures, and plans include, but are not limited to, the following:

1. Bloodborne Pathogens Exposure Control Plan;
2. Confined Space Entry Procedure;
3. Electrical Safety Program (Lockout/Tagout);
4. Emergency Action Plans (Site Specific);
5. Fire Prevention Plans (Site Specific);
6. Hazardous Waste Operations Emergency Response Plan (or Equivalent);
7. Hazard Communication Program (SDS's and Right-to-Know training);
8. Heat Illness & Prevention Plan;
9. Hearing Conservation Program;
10. Hot Work/Welding Procedure;
11. Job Hazard Analyses/Standard Operating Procedures;
12. Traffic Control & Flagging;
13. Excavation/Dig Safe Procedure;
14. Fall Protection Plan;
15. Personal Protective Equipment Plan;
16. Respirable Crystalline Silica Exposure Control Plan;
17. Respirator Program;
18. Soils Management Plan (for contaminated soils); and

19. Transite (Asbestos) Pipe Work Procedure.

Additionally, Contractor shall be responsible for complying with all City-wide and departmental specific safety requirements as identified in the Supplemental Conditions or presented at a pre-construction meeting.

Contractor shall inform City in advance of the quantity of chemical(s) to be used for the project and the total quantity of chemical(s) that will be brought onto City property. In addition, Contractor shall provide City with one copy of the Safety Data Sheet (SDS) for each chemical expected to be used to complete the project and for each chemical brought to the Work Site, regardless of whether such chemicals are ultimately used for the project.

The services of the Director in conducting construction review of the Contractor's performance is not intended to include review of the adequacy of the Contractor's Work methods, equipment, bracing or scaffolding, or safety measures, in, on, or near the construction site. If a City employee observes a safety violation, the City employee will report the violation to the Contractor who is then responsible for assuring the violation is abated.

The Contractor is hereby informed that Work on this project could be hazardous. The Contractor shall carefully instruct all personnel working in potentially hazardous Work areas as to potential dangers and shall provide such necessary safety equipment and instructions as are necessary to prevent injury to personnel and damage to property. Special care shall be exercised relative to Work underground.

All Work and materials shall be in strict accordance with all applicable State, City, County, and Federal Rules, Regulations, and Codes, and attention is drawn to the requirements of Cal/OSHA. The Contractor shall be solely responsible for compliance with all City, County and State blasting requirements and for any damages caused by its operations.

To ensure compliance with California Labor Code Section 6705, the Contractor shall submit to the City, at least five (5) Days in advance of excavation of any trench five feet (5') or more in depth, Working Drawings to the Director showing the design of shoring, bracing, sloping and other provisions to be made for worker protection from the hazard of caving ground during the excavation of such trench or trenches. If such Working Drawings vary from the shoring system standards established by the Cal/OSHA Construction Safety Orders of the Division of Industrial Safety, the plan shall be prepared and signed by a registered civil or structural engineer in the State of California. This in no way relieves the Contractor from the requirement of maintaining safety in all operations performed by the Contractor or the Contractor's Subcontractors and nothing in this section shall be deemed to allow the use of a shoring, sloping or protective system less effective than that required by the Cal/OSHA Construction Safety Orders of the Division of Industrial Safety Contractor's Working Drawings shall be subject to approval insofar as the details affect the character of the finished Work and for compliance with design requirements applicable to the construction when specified or called for, but details of the design will be left to Contractor who shall be responsible for the successful construction of the Work. The City shall approve Working Drawings before any Work involving such drawings is performed. Approval and/or acceptance by the City or its designated agent only constitutes acknowledgment of the submission and does not constitute review or approval of the designs, design assumptions or criteria, completeness of submissions, applicability to areas of intended use, nor implementation of the plans, which are solely the responsibility of the Contractor and its registered engineer.

The Contractor shall perform its Work as not to expose personnel to, or to discharge into the atmosphere from any source whatever, smoke, dust, asbestos, toxic chemicals or other air

contaminants in violation of the laws, rules, and regulations of the governmental entities having jurisdiction and shall bear full and exclusive responsibility for any release of hazardous or non-hazardous chemicals or substances during the course of the Work. The Contractor shall immediately report any such release to the City. The Contractor shall be solely responsible for all claims and expenses associated with the response to, removal and remediation of the release, including, without limitation, payment of any fines or penalties levied against the City by any agency as a result of such release and shall defend, indemnify, and save and hold harmless the City, its officers, agents, employees, and volunteers from any claims arising from such release. For purposes of this section only, the term "claims" shall include:

1. All notices, orders, directives, administrative or judicial proceedings, fines, penalties, fees, or charges imposed by any governmental agency with jurisdiction; and
2. Any claim, cause of action, or administrative or judicial proceeding brought against the City, its officers, agents, employees, and volunteers for any loss, cost (including reasonable attorneys' fees), damage or liability, sustained or suffered by any person or entity, including the City.

If the performance of the Work creates any hazardous wastes, those wastes shall be properly disposed of according to federal, state, and local laws, at the expense of the Contractor. The Contractor shall dispose of the wastes under its own EPA Generator Number. In no event shall the City be identified as the generator. The Contractor shall notify the City of any such hazardous wastes and the City reserves the right to a copy of the results of any tests conducted on the wastes, and, at its cost, to perform additional tests or examine those wastes, prior to disposition. The Contractor shall defend, indemnify, and save and hold harmless the City, its

officers, agents, employees, and volunteers from any claims arising from the disposal of the hazardous wastes, regardless of the absence of negligence or other malfeasance by the Contractor. Disposal of all Hazardous Materials must be done in accordance with all laws and regulations. Copies of required regulatory documentation including copies of final manifests shall be supplied to the City.

Contractors or Subcontractors removing one hundred or more square feet (100') of asbestos must be "Certified" in accordance with State law. All Work involving exposure to asbestos and all other hazardous materials shall be performed with protection of personnel in compliance with all applicable regulations and safety requirements including, but not limited to, California Code of Regulations Section 1529, Title 8.

Nothing in these General Conditions is to be construed to permit Work not conforming to governing codes. When Contract Documents differ from governing codes, the Contractor shall furnish and Install the higher standards called for without extra charge.

5-1.08 **SUBSURFACE EXCAVATIONS, NOTIFICATION.** The Contractor shall contact the regional notification center, "Underground Service Alert," and schedule its Work to allow ample time for the center to notify its members and, if necessary, for any member to field locate and mark its facilities. Without limiting the foregoing, the Contractor's attention is directed to Government Code Sections 4216 to 4216.9, and in particular Section 4216.2.

5-1.09 **PUBLIC SAFETY.** The Contractor shall assume all responsibility for public safety during the performance of its Work, and all costs arising therefrom shall be included in the Contract Price. Whenever the Contractor's operations create a condition hazardous to traffic or to the public, it shall furnish, erect and maintain, at its expense, such fences, barricades, lights, signs, and other devices and take such other protective measures as are

necessary to prevent accidents or damage or injury to the public. The Contractor shall establish the pedestrian detours with comparable lighting to the original pedestrian areas. The Contractor shall arrange for such flaggers as are necessary to give adequate warning to traffic or to the public of any dangerous conditions affecting traffic. For Work in a public right-of-way, the Contractor shall comply with the rules and regulations of the State, County, or local agency that owns the right-of-way.

The Contractor shall promptly and fully comply with and carry out, and shall without separate charge therefor to the City, all safety and first aid requirements prescribed by all applicable Federal, State, and local laws and regulations, rules, and orders. The Work shall be done in a safe manner; and the Contractor shall safeguard the safety and health of its employees, Subcontractors, and the people of local communities. The Contractor shall also be reasonable for ensuring that its Subcontractors comply with the provisions of this section.

Upon the failure of the Contractor to comply with any of the requirements of this section, the City shall have the authority, but not the duty, to stop the Work until such failure is remedied. The Contractor shall not be entitled to an adjustment of the Contract Time or an increase in the Contract Price due to any such suspensions.

When required by the Contract Documents, the Contractor shall construct, maintain, and remove detours for use of public traffic, without additional cost to the City, unless separate payment is specified in the Special Provisions.

The failure or refusal of the Contractor to construct and maintain detours at the proper time shall be sufficient cause for closing down the work until such detours are in satisfactory condition for use by public traffic.

Due care shall be exercised to avoid injury to existing improvements or facilities, utility

facilities, adjacent property and trees, shrubs, and other plants that are not to be removed.

Trees, shrubs and other plants that are not to be removed, and pole lines, fences, signs, survey markers and monuments, buildings and structures, conduits, pipe lines, sewer and waterlines, highway facilities, and any other improvements or facilities, under or above ground, that are within or adjacent to the work limit line shall be protected from injury or damage, and the Contractor shall provide and Install suitable safeguards to protect such objects from injury or damage. If such objects are injured or damaged by reason of the Contractor's operations, they shall be replaced or restored at the Contractor's expense. The facilities shall be replaced or restored to a condition as good as when the Contractor entered upon the Work Site, or as good as required by the Contract Documents if any such objects are part of the Work. The City may make or cause to be made such temporary repairs as are necessary to restore to service any damaged facility. The cost of such repairs shall be borne by the Contractor, and the costs may be deducted from any monies due or to become due to the Contractor under the Agreement.

The fact that any underground facilities is not shown on the Contract Drawings shall not relieve the Contractor of its responsibility pursuant to "Utility Facilities" in Section 2-1.12 elsewhere in the Contract Documents. It shall be the Contractor's responsibility, pursuant thereto, to ascertain the location of such underground improvements or facilities, which may be subject to damage by reason of its operations.

Full compensation for furnishing all labor, materials, tools, equipment and incidentals, and for doing all the Work involved in protecting or repairing property as specified in this section, shall be considered as included in the prices paid for the various Contract items of work and no additional compensation will be allowed therefor.

5-1.10 **EMERGENCIES.** In an Emergency affecting the safety of life, the

Work, or adjoining property, the Contractor, without special instructions or authorization from the City, shall act at its discretion to prevent such threatened loss or injury. In such an Emergency, the Contractor may perform such additional work as is reasonably required. Any compensation claimed by the Contractor on account of Work performed to an Emergency shall be determined in accordance with the provisions relating to Force Account payment contained elsewhere in the Contract Documents.

5-1.11 **APPRENTICES.** Attention is directed to Labor Code Sections 1777.5, 1777.6 and 1777.7 and Title 8, California Code of Regulations Section 200 et seq. In accordance with Section 1777.5, the Contractor shall secure the necessary certificates and shall contribute to the apprenticeship fund or funds, as provided therein. The Contractor shall require each Subcontractor who will perform work or labor or render service to the Contractor in or about the construction of the work to fully comply with Sections 1777.5 and 1777.6 of the Labor Code. To insure compliance and complete understanding of the law regarding apprentices, and specifically the required ratio thereunder, each Contractor or Subcontractor should, where some questions exist, contact the Division of Apprenticeship Standards, , or one of its branch offices prior to commencement of Work on the public works Contract. Responsibility for compliance with this section lies with the prime Contractor.

It is State and City policy to encourage the employment and training of apprentices on public works Contracts as may be permitted under local apprenticeship standards.

5-1.12 **FAIR LABOR STANDARDS ACT.** Attention is invited to the fact that the City has been advised by the Wage and Hour Division, U.S. Department of Labor, that Contractors engaged in construction Work are required to meet the provisions of the Fair Labor Standards Act of 1958 and as amended (52 Stat. 1060).

5-1.13 **WORKERS' COMPENSATION.** Pursuant to the requirements of Labor Code Section 1860, the Contractor will be required to secure the payment of workers' compensation to its employees in accordance with the provisions of Labor Code Section 3700.

Prior to the commencement of Work, the Contractor shall sign and file with the Director a certification in the following form:

“I am aware of the provisions of Labor Code Section 3700 which require every employer to be insured against liability for workers' compensation or to undertake self-insurance in accordance with the provisions of that code, and I will comply with such provisions before commencing the performance of the Work of this Contract.”

5-1.14 **AIR POLLUTION CONTROL AND ASBESTOS.** The Contractor shall comply with all air pollution control rules, regulations, ordinances and statutes which apply to any Work performed pursuant to the Contract, including any air pollution control rules, regulations, ordinances and statutes, specified in Government Code Section 11017.

In the absence of any applicable air pollution control rules, regulations, ordinances or statutes governing solvents, all solvents, including but not limited to the solvent portions of paints, thinners, curing compounds, and liquid asphalt used on the project shall comply with the applicable material requirements of the applicable Air Quality Management District. All containers of solvent, paint, thinner, curing compound, or liquid asphalt shall be labeled to indicate that the contents fully comply with said requirements.

Unless otherwise provided in the Supplemental Conditions, material to be disposed of shall not be burned, either inside or outside the Premises.

The Contractor shall also comply with all rules, regulations, statutes and ordinances

regarding asbestos removal and disposal, including but not limited to, 42 U.S.C. Sections 7401, 7412 and 7601, 40 C.F.R. Part 61, Subpart M, and California Code of Regulations Section 1529, Title 8.

If the Contractor discovers that a building to be demolished or renovated contains asbestos containing material, the Contractor shall immediately cease Work and notify the City.

5-1.15 **USE OF PESTICIDES.** The Contractor shall comply with all local, state and federal rules and regulations of the Department of Food and Agriculture, the Department of Health, the Department of Industrial Relations and all other agencies which govern the use of pesticides required in the performance of the Work.

Pesticides shall include but shall not be limited to herbicides, insecticides, fungicides, rodenticides, germicides, nematocides, bactericides, inhibitors, fumigants, defoliants, desiccants, soil sterilants, and repellents.

Any substance or mixture of substances intended for preventing, repelling, mitigating, or destroying weed, insects, diseases, rodents, or nematodes and any substance or mixture of substances intended for use as a plant regulator, defoliant or desiccant shall be considered as pesticide.

5-1.16 **SOUND AND LIGHT CONTROL REQUIREMENTS.** The Contractor shall comply with all local sound control, light control, and noise level rules, regulations and ordinances which apply to any Work performed pursuant to the Contract. Work shall not begin before 7 a.m. nor occur after 7 p.m., unless otherwise permitted by the City.

Each internal combustion engine, used for any purpose on the Work or related to the Work, shall be equipped with a muffler, in good working order, of a type recommended by the manufacturer. No internal combustion engine shall be operated on the project without said

muffler.

5-1.17 **WEIGHT LIMITATIONS.** Unless expressly permitted elsewhere in the Contract Documents, the Contractor shall not operate construction equipment or vehicles of any kind which, laden or unladen, exceed the maximum weight limits set forth in Division 15 of the Vehicle Code over completed or existing base, surfacing, pavement or structures.

5-1.18 **ENVIRONMENTAL CLEARANCES; MITIGATION MONITORING PROGRAMS; AND REGULATORY AGENCY PERMIT REQUIREMENTS.** The Department will obtain all environmental clearances and other authorizations necessary for this project as set forth in the Contract Documents. The Contractor shall comply with the provisions, including giving notices during construction when required, of said authorizations. In the event the obtaining of said authorizations delays completion of all or any portion of the Work, an extension of time determined pursuant to the provisions in Section 6-1.08, "Liquidated Damages," of these General Conditions will be granted.

Contractor shall comply with: (1) all mitigation identified in the mitigation monitoring program (attached to and adopted as a component of the mitigated negative declaration or Environmental Impact Report) to mitigate impacts to protected natural resources; and (2) all related permit requirements issued by the regulatory agencies authorizing the project. Contractor shall defend, indemnify, and save and hold harmless the City, its officers, agents, employees, and volunteers from any fines, claims, suits, actions or regulatory sanctions of every name, kind and description brought forth, or on account of, damage to protected natural resources from or arising out of Contractor's negligence or willful misconduct in the performance of this Agreement.

5-1.19 **PERMITS AND LICENSES.** The Contractor acknowledges and agrees that, prior to the submission of its bid for the Work, it fully familiarized itself with the

requirements of all applicable federal, state, county and municipal laws, codes, rules, and regulations, as well as the conditions of any required licenses and permits.

The Contractor shall procure all permits and licenses, including any applicable building permits (except those procured or to be procured by the City which are listed elsewhere in the Contract Documents), in coordination with the Director, pay all charges and fees, and give all notices necessary and incident to the due and lawful prosecution of the Work. Contractor shall be responsible for applying, paying all fees, and coordination for obtaining all permits for completion of the Work. All permits and licenses shall be obtained in sufficient time to prevent delays to the Work. Contractor will apply to the City for reimbursement for such permits costs. Accordingly, Contractor should not include the anticipated costs for permits in its bid, as the necessary permit costs will be reimbursed by the City.

The California Environmental Quality Act (Public Resources Code, Section 21000 to 21177) may be applicable to permits, licenses and other authorizations which the Contractor must obtain from State or local agencies in connection with performing the Work. The Contractor shall comply with the provisions of that Act in obtaining such permits, licenses and other authorizations, and all permits, licenses and other authorizations shall be obtained in sufficient time to prevent delays to the Work.

The Contractor shall maintain the applicable Contractor's license as identified in the Notice to Contractors and City business license for the duration of the Work.

5-1.20 **WATER POLLUTION.** The Contractor shall comply with all water pollution control rules, regulations, ordinances and statutes which apply to any Work performed pursuant to the Contract, including any water pollution control rules, regulations, and statutes, specified by the most current State of California NPDES General Permit for Stormwater

Discharges Associated with Construction Activity.

The Contractor shall take all necessary precaution to protect streams, vernal pools, ponds, reservoirs, and lakes from pollution with fuels, oils, bitumen, calcium chloride, and other harmful materials as consistent with the law. Also, the Contractor shall conduct and schedule operations so as to avoid discharging pollutants, such as but not limited to: sediment and silt to the storm drain system. The storm drain system consists of all facilities that are designed to convey stormwater to the Waters of the State as defined in the California Water Code. The storm drain system includes, but is not limited to, all streets, gutters, drain inlets, roadside ditches, streams, vernal pools, ponds, and lakes. Care shall be exercised to preserve roadside vegetation beyond the limits of construction.

5-1.21 **PROTECTION AND USE OF PROPERTY.** The Contractor shall be responsible for and provide and maintain all proper temporary walkways, covered walkways, barriers, roads, guards, railings, lights, warning signs, and take precaution at all times to avoid injury or damage to any person or any property, and upon completion of the Work, or at other times as directed, restore Premises and adjacent property to a proper condition. In the event of such injury or damage, Contractor shall report such injury and damage to City within forty-eight (48) hours of occurrence.

The Contractor shall protect adjoining property and nearby buildings, including City buildings, City roads, and public streets or roads, from dust, dirt, debris, or the nuisance arising out of the Contractor's operations or storage practices, and, if ordered by the Director, the Contractor shall provide and Install suitable safeguards, approved by the Director, to protect such objects from damage. If such objects are damaged by reason of the Contractor's operations, they shall be replaced or restored at the Contractor's expense.

If the Contractor damages any buildings, roads, utilities, or other property which belong to the City, or any Department or agency thereof, then the Director, at his or her option, may retain from the money due under the Contract an amount sufficient to insure repair of the damage.

The Director may make or cause to be made such temporary repairs as are necessary to restore to service any such damaged facility. The cost of such repairs shall be borne by the Contractor and may be deducted from any moneys due or to become due the Contractor under the Contract.

5-1.22 **RESPONSIBILITY FOR DAMAGE AND INDEMNIFICATION.**

The City of Roseville, its officers, agents, employees, and volunteers, including but not limited to the Director and his or her designee, shall not be answerable or accountable in any manner: for any loss or damage that may happen to the Work or any part thereof; for any loss or damage to any of the materials or other things used or employed in performing the Work; for injury to or death of any person, either workers or the public; or for damage to property from any cause which might have been prevented by the Contractor, its workers, or anyone employed by the Contractor or the Contractor's Subcontractors.

The Contractor shall be responsible for any liability imposed by law and for injuries to, or death of, any person including, but not limited to, workers and the public, or damage to property resulting from defects or obstructions, or from any cause whatsoever during the progress of the Work or at any time before its completion and final Acceptance.

To the fullest extent allowed by law, the Contractor shall defend (through counsel acceptable to the City), indemnify, and save and hold harmless the City, and its respective officers, agents, Subcontractors, employees, and volunteers, and the successors and assigns of

any of them, (hereinafter referred to as “Indemnitees”) from and against all claims, demands, liability, suits, actions, costs or expenses for any and all loss or damage, including but not limited to, personal injury, property damage, or economic loss, arising out of or resulting from allegations of (1) Contractor’s use of the City’s property or any activities or Work performed hereunder by the Contractor; (2) the Contractor’s performance of the Work under the Agreement; or (3) the Contractor’s breach of any provision of the Agreement. The duty of the Contractor to indemnify and save harmless includes the duties to defend as set forth in Civil Code Section 2778. The only exception to these provisions is that the Contractor’s obligations under this section will not apply to the extent that the claims, demands, liability, suits, actions, costs or expenses are caused by Indemnitees’ active negligence, willful misconduct, criminal acts, or for defects in design furnished by the Indemnitees, misconduct, criminal acts, or for defects in design furnished by the Indemnitees.

The Contractor waives any and all rights to any type of express or implied indemnity against the City, its officers, agents, employees, or volunteers.

The Contractor’s responsibility for such defense and indemnity obligations shall survive the termination or completion of this Contract for the full period of time allowed by law. The defense and indemnity obligations of this Contract are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Contract. The parties intend that the defense and indemnity obligations in this Contract shall be broadly construed.

Any person, firm or corporation that Contractor authorizes to Work on the City’s property including Subcontractors, shall be deemed to be an agent of the Contractor for purposes herein, shall be subject to all the applicable terms herein, and shall be within the scope of the Contractor’s indemnity obligation described herein.

In addition to any remedy authorized by law, so much of the money due the Contractor under and by virtue of the Contract as shall be considered necessary by the Department may be retained by the City until disposition has been made of such suits or claims for damages.

The retention of money due the Contractor shall be subject to the following:

A. The City will give the Contractor thirty (30) Days' notice of its intention to retain funds from any partial payment which may become due to the Contractor prior to Acceptance of the Contract. Retention of funds from any payment made after Acceptance of the Contract may be made without such prior notice to the Contractor.

B. No retention of additional amounts out of partial payments will be made if the amount to be retained does not exceed the amount being withheld from partial payments pursuant to Section 7-1.07, "Progress Payments," of these General Conditions.

C. If the City has retained funds and it is subsequently determined that the City is not entitled to be indemnified and saved harmless by the Contractor in connection with matter for which such retention was made, the Department shall be liable for interest on the amount retained at the legal rate of interest for the period of such retention.

5-1.23 **INSURANCE COVERAGE.**

A. **Evidence of Maintenance Required.** The Contractor shall, at its expense, procure and at all times maintain in full force and effect at a minimum the insurance required by this section on all of its operations; and the Contractor shall not allow any Subcontractor to commence work until similar insurance required of the Subcontractor has been obtained and filed. An original Certificate of Insurance, and copies of all required endorsements, all in a form approved by the Risk Manager, evidencing all required coverage or policies shall be filed after the award of the bid and prior to approval of the Contract by the City Council. Contractor shall

provide ten (10) days prior written notice to the City of any reduction of coverage limits or cancellation of the coverage or policies shall be given to the City of Roseville as Certificate holder.

B. Qualifying Insurers. With the exception of the State Compensation Insurance Fund, all required insurance policies shall be issued by companies acceptable to the City and licensed to do business in the State of California and who hold a current policy holders alphabetic and financial size category rating of not less than AVII according to the most recent issue of Best's Insurance Reports.

C. Insurance Required.

1. Commercial General Liability (CGL): Insurance Services Office Form CG 00 01 covering CGL on an "occurrence" basis, including products and completed operations with limits of no less than Two Million Dollars (\$2,000,000) per occurrence for bodily injury, personal injury and property damage for projects under One Million Dollars (\$1,000,000) and limits of no less than Five Million Dollars (\$5,000,000) per occurrence for bodily injury, personal injury and property damage for projects over One Million Dollars (\$1,000,000). If a general aggregate limit applies, either the aggregate limit shall apply separately to this project or the general aggregate limit shall be twice the required occurrence limit.

The Commercial General Liability insurance shall include the following, copies of which shall be provided:

a. Inclusion of the City of Roseville, and its officers, agents, employees, and volunteers, as additional insureds (except for workers' compensation) as respects services or operations under the Contract. The additional insured endorsement for the general liability policy shall be at least as broad as the ISO CG 2010 10 01 combined with ISO CGL

Endorsement CG 2037 10 01. Any other endorsement must be approved in writing by the City. Endorsements must include coverage for on-going and completed operations, which coverage shall be maintained for four (4) years following completion of the Project. Endorsements shall cover the City of Roseville, its officers, agents, employees, and volunteers.

b. The insurance shall provide coverage for claims by one insured against another insured and the policies shall not contain any cross-suits exclusions, cross-liability exclusions, or insured versus insured exclusions. The policies shall not contain any classification exclusions purporting to deny coverage for any work to be performed by Contractor or any of its Subcontractors.

c. Stipulation that the insurance is primary and noncontributory, as evidenced by a separate endorsement (CG 20 01 04 13 or an equivalent) or section of the policy, and that neither the City nor its insurers will be called upon to contribute to a loss.

d. Such insurance shall specifically cover the contractual liability of the Contractor.

e. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.

f. Waiver of subrogation endorsement.

g. The Contractor shall furnish a certificate for the period covered.

2. Automobile Liability: Insurance Services Office Form Number CA 0001 covering Code 1 (any auto), or if Contractor has no owned autos, Code 8 (hired) and Code 9

(non-owned), with limits of no less than One Million Dollars (\$1,000,000) per accident for bodily injury and property damage.

3. Workers' Compensation: In accordance with the provisions of the California Labor Code, Contractor is required to be insured against liability for Workers' Compensation or to undertake self-insurance. Statutory Workers' Compensation and Employers' Liability of at least One Million Dollars (\$1,000,000) shall cover all Contractors staff while performing any work incidental to the performance of this Agreement.

4. Professional Liability: Professional Liability (Errors and Omission) Insurance appropriate to Contractor's profession, with a limit of liability not less than One Million Dollars (\$1,000,000) per occurrence or claim and Two Million Dollars (\$2,000,000) aggregate to cover all design and engineering services rendered by Contractor pursuant to the Agreement. Coverage must commence from the first day that Contractor or any of its Subcontractors provided any design or engineering services in connection with the Project.

5. Builder's Risk/Course of Construction Insurance (If Required by Risk Management): The Contractor shall be responsible for all loss, damage or destruction whatsoever to the work called for by this Contract until the approval of a Notice of Completion or acceptance of the Work if no Notice of Completion is to be recorded.

The Contractor shall secure "All Risk" type of builder's Risk Insurance of the type covering one hundred percent (100%) of the value of the work performed under this Contract (the value is presumed to be the Contract amount unless otherwise stated in Supplemental Conditions) and all materials, equipment, or other items to be incorporated therein while the same are located at the construction site, a bonded warehouse, or its place of manufacture. At any time, the policy shall cover the value of the work completed. The policy shall cover hazards

including the losses due to fire, explosion, hail, rain, lightning, flood (separate insurance as needed), vandalism, malicious mischief, wind, collapse, aircraft, and smoke.

The policies providing such insurance shall name the City as a loss payee as its respective interests may appear, and certified copies of such policies shall be filed with the City. The maximum deductible allowable under the Builder's All Risk policy shall be five percent (5%) of the Contract amount.

Builder's Risk Insurance is not required for coverage of losses in excess of five percent (5%) of the Contract amount for damages resulting from earthquake in excess of a magnitude of 3.5 on the Richter scale, or tidal waves. Coverage in the amount of five percent (5%) of the Contract amount for such losses is required.

6. Pollution Coverage: Contractor shall procure pollution liability coverage or other insurance covering claims for bodily injury or property damage arising out of the abatement, removal, storage, transportation, or other exposure to hazardous materials or pollutants, in limits not less than Two Million Dollars (\$2,000,000). Contractor shall add the City and all parties required to be indemnified by Contractor as additional insured on all pollution liability policies.

7. Higher Coverage Limits: If Contractor maintains higher coverage limits than the amounts shown above, then the City requires and shall be entitled to coverage for the higher coverage limits maintained by Contractor. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to the City.

8. Claims Made Coverage: Liability insurance coverage may not be written on a "claims made" or modified occurrence basis. The Certificate of Insurance must clearly provide that the coverage is on an "occurrence" basis.

5-1.24 **OTHER INSURANCE PROVISIONS.**

A. The requirements of the Standard Specifications as to types and limits of insurance coverage to be maintained by the Contractor, and any approval of insurance by the City, are not intended to, and shall not in any manner limit or qualify the liabilities and obligations otherwise assumed by the Contractor pursuant to the Contract, including, but not limited to, the provisions concerning indemnification, nor preclude the City from taking any other action available to it under any other provision of the Contract or law.

B. The City acknowledges that some insurance requirements contained in these Standard Specifications may be fulfilled by self-insurance on the part of the Contractor. However, this shall not in any way limit liabilities assumed by Contractor under the Contract. Any self-insurance must be approved in writing by the City, in its sole discretion and shall not reduce the limits of liability. Any deductibles or self-insured retentions (“SIR”) must be declared on the certificate of insurance and approved by City in writing. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or City. City reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

C. The Contractor agrees to include in its contracts with all subcontractors the same requirements and provisions of this Contract, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor’s work. Furthermore, the Contractor shall require its subcontractors to agree to be bound to the Contractor and the City in the same manner and to the same extent as the Contractor is bound to the City under this Contract. Additionally, the Contractor shall obligate its subcontractors to comply with these

same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of the City's indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request. Alternatively, the Contractor may insure subcontractor(s) under its own policy.

D. The City, its officers, agents, employees, and volunteers are to be covered as insureds with respect to liability arising out of automobiles owned, leased, hired or borrowed by or on behalf of the Contractor; and with respect to liability arising out of work or operations performed by or on behalf of the Contractor including materials, parts or equipment furnished in connection with such work or operations. Coverage shall not extend to any indemnity coverage for the active negligence of the additional insured in any case where an agreement to indemnify the additional insured would be invalid under California Insurance Code Section 11580.04.

E. The limits of insurance required in this Contract may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of the City (if agreed to in a written contract) before the City's own insurance shall be called upon to protect it as a named insured.

F. The insurance procured by Contractor shall be subject to the approval of the City, but any acceptance of insurance certificates by the City shall in no way limit or relieve Contractor of its duties and responsibilities under the Agreement.

G. Contractor shall be responsible for all premiums, deductibles, and self-insured retention applicable to the insurance it is required to procure under the Contract. All deductibles or self-insured retentions over five hundred thousand dollars (\$500,000) must be approved by the City, in writing. Contractor shall be responsible for all deductibles, self-insured

retention payments, and/or increased premiums incurred if the City's policies of insurance are forced to cover damages or respond to claims for which Contractor or its Subcontractors were obligated to provide insurance under the Contract.

H. Failure of the City to enforce in a timely manner any of the requirements of these insurance provisions shall not act as a waiver to enforcement of any of these provisions at a later date.

I. Contractor's indemnity obligations shall not be limited by these insurance provisions and shall survive the expiration of the Contract and the insurance provisions of the Contract shall likewise not be limited by the indemnity provisions of the Contract.

J. THE CITY RESERVES THE RIGHT TO WITHHOLD ANY PROGRESS PAYMENTS TO THE CONTRACTOR IN THE EVENT OF NONCOMPLIANCE WITH ANY INSURANCE REQUIREMENTS.

5-1.25 **THIRD PARTY BENEFICIARY.** No provisions in the Contract Documents shall in any way inure to the benefit any third party (including the public at large or any member thereof) so as to constitute such person a third party beneficiary of the Contract, or of any term or condition or other provision of the Contract or otherwise give rise to any cause of action in any person not a party to the Agreement, except as expressly provided elsewhere in the Contract Documents.

5-1.26 **COORDINATION AND ACCESS.** The Contractor acknowledges that the City may award, or has already awarded, other construction contracts for additional work or may perform additional work with its own forces and that such work may affect the Work under this Agreement. Additionally, the Contractor acknowledges that the State and other public and private agencies may be granted a right-of-entry by the City for the purpose of constructing

facilities within and adjacent to the Work Site. It is the obligation of the Contractor to coordinate its Work with the work of others working within or adjacent to the City's property.

During performance of its Work, the Contractor shall not have exclusive access to or use of the work areas. The City may also require that certain facilities and areas be used concurrently by the Contractor and by other contractors working in the area. When two (2) or more contractors are employed on related or adjacent City work, each shall conduct its operations in such a manner as not to cause any unnecessary delay or hindrance to the other. Each contractor shall be responsible to the other for all damage to any work, to persons or property caused to the other by its operations, and for loss caused the other due to any unnecessary delays or failure to finish the work within the time specified for completion.

If any party of the Contractor's Work depends on the work of any other contractor and/or the City for proper execution and/or results, the Contractor shall promptly notify the City of any discrepancies and/or defects in said other work that would render its work unsuitable for proper execution and/or results prior to proceeding with the Contractor's own Work. If it becomes necessary, the City will resolve coordination and access problems.

The Contractor and its representative in charge of the Work shall familiarize themselves with the City's property and Work Site, and adjacent surroundings in the vicinity of said Work, and any private or public operations on adjoining properties.

5-1.27 **OCCUPANCY BY THE DEPARTMENT PRIOR TO**

ACCEPTANCE. The City may at any time notify the Contractor in writing that it intends to take Beneficial Occupancy of any portion of the Work even though the Work may not be substantially complete. Unless the reason for the City's taking Beneficial Occupancy is that the Contractor has not completed the Work (or portions thereof) in accordance with the Contract

Time, the City's Beneficial Occupancy shall relieve the Contractor from its responsibility for maintenance, loss or damage to that portion of the Work for which the City has taken Beneficial Occupancy other than that resulting from the Contractor's act or omission, negligence, willful misconduct or breach of warranty.

Should the Work (or portion thereof) not be completed in accordance with the Construction Schedule within the Contract Time (as adjusted under the terms of the Contract Documents), the City shall have the right, but not the obligation, to take Beneficial Occupancy of the Work. In such event, the Contractor shall not be entitled to any additional compensation on account of said occupancy by the City, nor shall the Contractor be relieved of any of its responsibilities under the Contract Documents, including, without limitation, Contractor's obligation to complete the Work in accordance with the Construction Schedule.

Beneficial Occupancy shall not be deemed an Acceptance by the City either of the Work or of any portion thereof, nor will it relieve the Contractor of full responsibility for correcting defective Work or materials found at any time before the formal written Acceptance of the entire Contract by the Director or during the full warranty period after such Acceptance, as provided in Section 7-1.12, "Warranty," of these General Conditions.

The City's Beneficial Occupancy shall not relieve the Contractor of its responsibility to maintain all insurance and bonds required under the Contract Documents until the entire project is accepted by the City.

5-1.28 **RIGHT TO OPERATE UNSATISFACTORY FACILITIES AND EQUIPMENT.** If, after Installation, the operation or use of the facilities or equipment to be furnished under this Contract proves to be unsatisfactory to the Director, the City shall have the right to operate and use such facilities or equipment until they can, without damage to the City,

be taken out of service for correction or replacement. Such period of use of the defective facilities or equipment, pending correction or replacement, shall in no way decrease the warranty period required for the acceptable corrected or replaced facilities or equipment.

5-1.29 **CONTRACTOR'S RESPONSIBILITY FOR THE WORK.** Except as otherwise provided herein, the Contractor shall have the charge and care of the Work and shall bear the risk of injury or damage to any part of the Work by the action of the elements or from any other cause whether arising from the execution or from the nonexecution of the Work until the Acceptance of the Contract by the Director. The Contractor shall rebuild, repair, restore, and make good all injuries or damages to any portion of the Work occasioned by any cause before its completion and Acceptance, and shall bear the expense thereof. In case of suspension of Work from any cause whatever, the Contractor shall be responsible for the Work and it shall also be responsible for all materials, and shall properly store them if necessary, and shall provide suitable drainage and erect temporary structures where necessary.

The Contractor will be relieved of responsibility for any injury or damage to the Work caused by the following:

- A. An earthquake in excess of a magnitude of 3.5 on the Richter Scale or a tidal wave, when the effect of such has been proclaimed a disaster or state of emergency by the Governor of the State of California or by the President of the United States, or was of such magnitude at the site of the Work as to have been sufficient to have caused a proclamation of disaster or state of emergency, had it occurred in a populated area.
- B. Occupancy and use by the Department or the public prior to the completion of the entire project.
- C. Acts of the Federal Government or the public enemy.

5-1.30 **RESPONSIBILITY FOR UTILITIES.** The Contractor shall be responsible at its own cost for any and all Work, expense or special precautions caused or required by the existence or proximity of utilities encountered in performing the Work, including without limitation, repair of any or all damage and all hand or exploratory excavation required. The Contractor is cautioned that such utilities may include communication cables or electrical cables which may be high voltage, and when working or excavating in the vicinity of such cables, or the ducts enclosing such cables, the Contractor shall undertake at its own cost any special precautions required. Suitable warning signs, barricades, and safety devices shall be erected as necessary or required.

However, if during the course of the Work the Contractor encounters utility Installations which are not shown or indicated in the Contract Documents or which are found in a location substantially different from that shown, and such utilities are not reasonably apparent from visual examination, then the Contractor shall promptly notify the Director in writing. Where necessary for the Work of the Contract, the Director shall issue a written order to the Contractor to make such adjustments, rearrangement, repair, removal, alteration, or special handling of such utility, including repair of the damaged utility. The Contractor shall perform the Work described in such written order, and compensation therefor will be made in accordance with Section 3 of these General Conditions relating to changes in the Work. Except for the items of cost specified in said Section 3, the Contractor shall receive no compensation for any other cost, damage, delay, interference, or hindrance to him or her due to the presence of such utility. If the Contractor fails to give the notice specified above and thereafter acts without instructions for the Director, then the Contractor shall be liable for any or subsequent to discovery thereof, and the Contractor shall repair and make good such damage at its own cost.

The precise location of underground facilities can only be determined by careful probing or hand digging in compliance with Article 6 of the Cal/OSHA Construction Safety Orders which states in part:

“Prior to opening an excavation, effort shall be made to determine whether underground installations, i.e., sewer, water, fuel, electric lines, etc., will be encountered, and if so, where such underground installations are located. When the excavation approaches the approximate location of such an installation, the exact location shall be determined by careful probing or hand digging, and, when it is uncovered, adequate protection shall be provided for the existing installation.”

The location of known existing utilities and pipelines are shown on the Contract Drawings in their approximate locations. Some of the locations include multiple conduits. The Contractor shall exercise care in avoiding damage to those facilities which are to remain in service subsequent to the construction of the particular new facility involved and the Contractor will be held responsible for any repairs if damaged. The Contractor shall also exercise care in maintaining those pipes and facilities required for continuing operation of the existing facilities until such time as they can be abandoned. There is no guarantee that all utilities or obstructions are shown on the Contract Drawings or that the locations indicated are accurate.

The Contractor shall exercise extreme caution in working in the area adjacent to the existing pipelines and utility services. It is essential that all the existing facilities be maintained in service. Construction of the connections between the existing facilities and the new facilities shall be at times and during periods acceptable to the City. The Contractor shall advise the Director in writing of its proposed Construction Schedule for these connections at least forty-eight (48) hours in advance.

The Contractor shall uncover all piping and conduits, to a point one foot (1') below the pipe, where crossings, interferences, or connections are shown on the Contract Drawings, prior to trenching or excavating for any pipe or structures, to determine actual elevations. New pipelines shall be laid to such grade as to clear all existing facilities which are to remain in service. If the Contractor does not expose all required utilities, it shall not be entitled to additional compensation for Work necessary to avoid interferences nor for repair to damaged utilities. Excavations around underground electrical ducts and conduits shall be performed using extreme caution to prevent injury or damage to workers and to the electrical ducts or conduits.

5-1.31 **PROPERTY RIGHTS IN MATERIALS.** Nothing in the Contract shall be construed as vesting in the Contractor any right of property in the materials used after they have been attached or affixed to the Work or soil or after partial payment has been made as provided in Section 7-1.07, "Progress Payments," of these General Conditions for material delivered on the ground or stored subject to or under the control of the City and unused. All such material shall become the property of the City upon being so attached or affixed or upon payment for materials delivered on the ground or stored subject to or under the control of the City and unused, as provided in said Section 7-1.07.

5-1.32 **COURT ORDERED DELAY.** If, pursuant to court order, the Department temporarily suspends performance of all or any portion of the Work, an extension of time determined pursuant to the provisions in Section 6-1.08, "Liquidated Damages," of these General Conditions will be granted.

5-1.33 **NO PERSONAL LIABILITY.** Neither the Director, nor any other officer or authorized employee of the City, shall be personally responsible for any liability arising under or by virtue of the Contract.

5-1.34 **RIGHTS IN LAND AND IMPROVEMENTS.** The Contractor shall make no arrangements with any person or entity to permit occupancy or use of any land, structure or building within the limits of the Work, for any purpose whatsoever, either with or without compensation, in conflict with any agreement between the City and any third party owner, former owner, or tenant of such land, structure or buildings. The Contractor shall not occupy City-owned property outside the limit of the Work shown on the Contract Drawings unless it obtains prior approval.

5-1.35 **ANTITRUST CLAIMS.** The Contractor's attention is directed to the following provision of Public Contract Code Section 7103.5(b), which is applicable to the Contractor and its Subcontractors:

“ In entering into a public works contract or a subcontract to supply goods, services, or materials pursuant to a public works contract, the contractor or subcontractor offers and agrees to assign to the awarding body all rights, title, and interest in and to all causes of action it may have under Section 4 of the Clayton Act (15 U.S.C. Sec. 15) or under the Cartwright Act (Chapter 2 [commencing with Section 16700] of Part 2 of Division 7 of the Business and Professions Code), arising from purchases of goods, services, or materials pursuant to the public works contract or the subcontract. This assignment shall be made and become effective at the time the awarding body tenders final payment to the contractor, without further acknowledgement by the parties.”

5-1.36 **RIGHTS TO DRAWINGS, TECHNICAL DATA PATENTS.** Shop

Drawings and Working Drawings submitted to the City by the Contractor, Subcontractor or any lower tier Subcontractor pursuant to the Agreement, are the property of the City and the City may use, and disclose in any manner and for any purpose, Shop Drawings and Working Drawings delivered under the Contract.

Technical Data including manuals or instructional materials, computer or microprocessor software which are delivered or submitted to the City by the Contractor, Subcontractor, or any lower tier Subcontract pursuant to the Contract are the property of the City, and the City may use or disclose same in any manner and for any purpose.

The Contractor shall assume all costs arising from the use of patented materials, equipment, devices, or processes used on or incorporated in the Work, and shall defend, indemnify and save and hold harmless the City, and its duly authorized representatives, from all suits at law, or in equity, and actions of every nature for, or on account of the use of any patented materials, equipment, devices or processes. In case some materials, equipment, devices or processes are held to constitute an infringement and their use enjoined, the Contractor, at its expense, shall:

1. Secure for the City the right to continue using said materials, equipment, devices or processes by suspension of the injunction or by procuring a license or licenses; or
2. Replace such materials, equipment, devices, processes; or
3. Modify them so that they become non-infringing or remove the enjoined materials, equipment, devices or processes and refund the sums paid therefor without prejudice to any other rights of the City.

5-1.37 **PAYMENT OF TAXES.** Contractor shall pay all taxes and duties applicable to and assessable against any Work, equipment, materials, services, processes, and

operations incidental to or involved in the Agreement, including but not limited to, retail sales and use, transportation, export, import, business, and special taxes. The Contractor is responsible for ascertaining and acquainting itself with such taxes and making all necessary arrangements to pay them. The Contractor will maintain records that are auditable records, and these records shall be subject to the City's review to verify that Contractor's tax payments are current at all times.

The Contract Price paid for the Work shall include full compensation for all taxes which the Contractor is required to pay, whether imposed by Federal, State or local government, including, without being limited to, Federal excise tax. No tax exemption certificate nor any document designed to exempt the Contractor from payment of any tax will be furnished to the Contractor by the Department, as to any tax on labor, services, materials, transportation, or any other items furnished pursuant to the Contract.

The Contractor shall withhold and pay any and all sales and use taxes, withholding taxes, whether Federal, State, or local, Social Security taxes, State Unemployment Insurance charges and all other taxes which are now or hereafter may be required to be paid or withheld under any laws.

5-1.38 **GRATUITIES AND CONFLICT OF INTEREST.** The Contractor shall not offer or provide gratuities in the form of gifts, entertainment, loans, meals, rewards, and/or services to representatives of the City, including but not limited to, officers, employees, agents, Engineering Service Consultants, Consulting Engineers and Architects, Inspectors and/or Testing Agencies retained by the City. If it is found that the Contractor has violated this provision, the Contract may be subject to termination for default as defined elsewhere in these General Conditions.

During the term of the Contract and until the final payment has been made to the Contractor, the Contractor shall not employ or compensate in any manner whatsoever, the City's officers, employees and authorized representatives, agents, and any Engineering Service Consultants, Consulting Engineers and Architects, Inspectors, and/or Testing Agencies retained by the City. Any exception to the employment or compensation to any of the above named parties must be made in writing by the City. If the Contractor offers or provides employment or compensation to those named above during the term of the Contract, the Contract may be subject to termination for default.

5-1.39 **COOPERATION.** Should construction be under way by City forces or other forces or by other Contractors within or adjacent to the limits of the Work or should Work of any other nature be under way by such forces within or adjacent to said limits, the Contractor shall cooperate with all such forces to the end that any delay, interference or hindrance to their Work will be avoided. The right is reserved to perform other or additional Work at or near the site at any time, by the use of such forces.

5-1.40 **DIGGING TRENCHES OR OTHER EXCAVATIONS.** In the event any work involves digging trenches or other excavations that extend deeper than four feet (4') below the surface, City and Contractor shall comply with the following:

A. The Contractor shall promptly, and before the following conditions are disturbed, notify City in writing of any:

1. Material that the Contractor believes may be material that is hazardous waste, as defined in Section 25117 of the Health and Safety Code, that is required to be removed to a Class I, Class II, or Class III disposal site in accordance with provisions of existing law.

2. Subsurface or latent physical conditions at the site differing from those made available to Contractor for inspection as provided in the project proposal.

3. Unknown physical conditions at the site of any unusual nature, different materially from those ordinarily encountered and generally recognized as inherent in Work of the character provided for in the Contract.

B. The City shall promptly investigate the conditions, and if it finds that the conditions do materially so differ, or do involve hazardous waste, and cause a decrease or increase in the Contractor's cost of, or the time required for, performance of any part of the Work shall issue a Change Order under the procedures described in the Contract.

C. In the event that a dispute arises between the City and the Contractor whether the conditions materially differ, or involve hazardous waste, or cause a decrease or increase in the Contractor's cost of, or time required for, performance of any part of the Work, the Contractor shall not be excused from any scheduled completion date provided for by the Contract, but shall proceed with all work to be performed under the Contract. The Contractor shall retain any and all rights provided either by contract or by law which pertain to the resolution of disputes and protests between the contracting parties. However, no claim of the Contractor under this clause shall be allowed unless the Contractor has given the notice required by this Section. No claim by the Contractor for an equitable adjustment hereunder shall be allowed if asserted after final payment under this Contract.

5-1.41 **CONTRACTOR REGISTRATION.** No contractor or subcontractor may work on a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5. During the performance of this Contract, the Contractor and its subcontractors shall have a continuing legal obligation to maintain current

registration with the Department of Industrial Relations. The Contractor is hereby notified that this project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.

5-1.42 **CITY OF ROSEVILLE ENCROACHMENT PERMITS AND**

RIGHTS-OF-WAY. The Contractor need not obtain a separate encroachment permit from the City prior to construction within street rights-of-way or other City rights-of-way. Execution of the Contract by the City shall be deemed an encroachment permit for work required by the Contract within rights-of-way. All work shall conform to the rules and regulations of encroachment permits and shall be subject to the inspection and approval of the Director and City Engineer.

To the extent indicated in the Contract Drawings, the City will provide the rights-of-way over private lands or the site to enable the Contractor to perform its work. The Contractor shall be solely responsible for securing any additional rights-of-way desired by the Contractor. The City will not be a party to nor assume any liability for any separate agreements reached between the Contractor and any third parties with respect to these additional rights-of-way. The Contractor shall procure evidence that agreements are in place with said third parties before the Contractor uses those areas covered by the agreements. Any damage to such private lands caused by the Contractor's operations shall be the sole responsibility of the Contractor.

SECTION 6

PROSECUTION AND PROGRESS

6-1.01 **SUBLETTING AND SUBCONTRACTING.** The Contractor shall be responsible for all Work performed under the Contract. The Contractor shall give its personal attention to the fulfillment of the Contract and shall keep the Work under its control. Nothing in the Contract Documents shall create any contractual relationship between the City and any Subcontractor. The Contractor is fully responsible to the City for the acts and omissions of its Subcontractors of any tier. When any Subcontractor fails to prosecute a portion of the Work in a manner satisfactory to the Director, that Subcontractor shall not again be employed on the Work. Although the sections of the Contract may be arranged according to various trades, or general grouping of the Work, the Contractor is not obligated to sublet the Work in such manner. The Director will not arbitrate disputes among Subcontractors or between Contractor and one or more Subcontractors concerning responsibility for performing any part of the Work.

The on-site production of materials produced by other than the Contractor's own forces shall be considered as subcontracted. The erection, establishment or reopening of on-site plants for production of materials and the operation thereof in the production of materials for use on the Work shall conform to the requirements relating to labor set forth in the Contract Documents.

The Contractor shall also be responsible for coordinating the Work performed by Subcontractors and Suppliers.

The Contractor shall not substitute any person as Subcontractor in place of a Subcontractor listed on its bid proposal without the written approval of the Director. Substitutions must be in accordance with the provisions of the "Subletting and Subcontracting

Fair Practices Act” beginning with Public Contract Code Section 4100. Violations of this Act by the Contractor may subject it to penalties which may include cancellation of Contract, Assessment of ten percent (10%) of the Subcontractor's bid, and disciplinary action by the Contractors State License Board.

The Contractor shall pay any Subcontractors approved by the City for work that has been satisfactorily performed no later than seven (7) Days from the date of Contractor’s receipt of progress payments by the City. Within seven (7) Days after receipt from the City of funds attributable to work performed by a Subcontractor, Contractor shall release any retainage payments withheld to the Subcontractor. In the event Contractor does not make progress payments or release retention to Subcontractors in accordance with the time period specified herein, Contractor may be subject to prompt payment penalties per statute.

6-1.02 **ASSIGNMENT.** The performance of this Contract may not be assigned, except upon the written consent of the City Council of the City of Roseville. Consent will not be given to any proposed assignment which would relieve the original Contractor or its surety of their responsibilities under the Contract nor will the City consent to any assignment of a part of the Work under the Contract.

The Contractor may assign moneys due or to become due to it under the Contract and such assignment will be recognized by the City, if given proper notice thereof, to the extent permitted by law, but any assignment of moneys shall be subject to all proper set-offs in favor of the City and to all deductions provided for in the Contract and particularly all money withheld, whether assigned or not, shall be subject to being used by the City for the completion of the Work in the event that the Contractor should be in default therein.

6-1.03 **BEGINNING OF WORK.** After the execution of the Contract by both

parties, the City will issue the Notice to Proceed upon its determination that it is appropriate for the Contract Time to commence.

The Contractor shall begin Work within fifteen (15) Days after receiving the Notice to Proceed from the Director, subject to the requirements stated elsewhere in the Contract Documents regarding, among other things, the submittal of Baseline Schedule, and shall diligently prosecute the same to completion within the time limit provided in the Supplemental Conditions. Contractor shall also achieve any and all Contract milestones as described elsewhere in the Contract Documents.

The Contractor shall notify the Director, in writing, of its intent to begin Work at least seventy-two (72) hours before Work is begun. The notice shall be delivered to the Director and shall specify the date the Contractor intends to start. If the project has more than one (1) location of Work, a separate notice shall be given for each location.

The Contractor is not authorized to perform any Work until it has received a Notice to Proceed from the City. Should the Contractor begin Work in advance of receiving notice that the Contract has been approved as above provided, any Work performed by it in advance of the said date of approval shall be considered as having been done by the Contractor at its own risk and as a volunteer unless said Contract is so approved thereafter.

6-1.04 **PROGRESS SCHEDULE.**

A. Preliminary Progress Schedule. The Contractor shall submit to the Director, within twenty (20) Days after date of the Notice to Proceed, a Preliminary Progress Schedule covering the Contractor's activities over the first three (3) months of operation in detail and the remainder of the project in summary. The Preliminary Progress Schedule shall schedule the project within the Contract Time for completion of the Work, and shall be subject to

favorable review by the Director.

B. CPM Schedule. The Contractor shall submit an acceptable Critical Path Method (CPM) Schedule to the Director within thirty (30) Days after the receipt of the Notice to Proceed. Subsequent revisions to said schedule shall be submitted as set forth hereinafter. The requirement for the CPM schedule is included to allow for adequate planning and execution of the Work, to determine the critical nature of delays, and to assist the Director in appraising the reasonableness of the proposed schedule and evaluating progress of the Work. The CPM schedule submitted under this Section shall utilize a CPM format, either the precedence or arrow diagramming method. The definitions of CPM terms and functions shall be as provided in the Associated General Contractors of America book *CPM in Construction, A Manual for General Contractors*, or a favorably reviewed alternative publication or reference. No progress payment will be made prior to submission and acceptance of the CPM Schedule.

1. The CPM schedule system shall consist of diagrams and accompanying mathematical analyses. The diagrams shall show elements of the project in detail and an entire project summary. Diagrams shall show the order and interdependence of activities and sequence in which the Work is to be accomplished as planned by the Contractor. The basic concept of a network analysis diagram shall be followed to show how the start of a given activity is dependent on the completion of preceding activities and its completion restricts the start of following activities. Detailed network activities shall include, in addition to construction activities, the submittal and favorable review of samples of material and Shop Drawings, the procurement of critical materials and equipment, fabrication of special material and equipment, and their Installation and testing. All activities of the City and the Director that affect progress and required Contract dates for completion of all or parts of the Work shall be shown. The

selection and number of activities shall be subject to favorable review by the Director. Summary networks shall be time scaled. Durations shall be in Days and shall not exceed fifteen (15) Days, except for submittal and delivery items. Where the duration of continuous Work exceeds fifteen (15) Days, Work items in the Construction Schedule shall be subdivided by location, approximate stationing or other sub-element of the Work.

The graphic network diagram shall include for each activity, the description, activity number, the estimated duration in Days, and all activity relationship lines. The network diagram shall be drawn for the early start of activities. All significant Submittals shall be scheduled along with manual Submittals and training on all large or critical pieces of equipment. If the precedence technique is utilized, the schedule project shall include a calendar in Work Days, a network report sorted by early start and a logic table report sorted by preceding Work item. If the arrow technique is utilized, the schedule report shall include a calendar in Work Days, a network report sorted by early start, a network report sorted by I-J numbers, and a network sorted by slack time and I-J numbers.

2. The critical path shall be shown on all reports and on the graphic network diagram. The activities which constitute the critical path shall be identified.

3. The mathematical analysis of the network diagram shall include a tabulation of each activity. The following information shall be furnished as a minimum for each activity:

- (a) preceding and following event numbers
- (b) activity description and number
- (c) estimated duration of activities
- (d) earliest start date (by calendar date)

- (e) earliest finish date (by calendar date)
- (f) actual start date (by calendar date)
- (g) actual finish date (by calendar date)
- (h) latest start date (by calendar date)
- (i) latest finish date (by calendar date)
- (j) slack or float
- (k) percentage of activity completed

4. The program shall be capable of accepting revised completion dates as modified by approved time adjustments and recomputations of all tabulation dates and float accordingly.

5. Submission and review of the system shall be as follows:

(a) The complete network analysis system, consisting of the detailed network mathematical analysis and network diagrams, shall be submitted within thirty (30) Days after receipt of the Notice to Proceed.

(b) The Contractor shall participate in a review and evaluation of the proposed network diagrams and analysis by the Director. Any revisions necessary as a result of this review shall be resubmitted for review by the Director within ten (10) Days. When completed, the favorably reviewed schedule shall then be the schedule to be used by the Contractor for planning, organizing and directing the Work and for reporting progress. If the Contractor thereafter desires to make significant changes in its method of operating and scheduling, the Contractor shall notify the Director in writing stating the reasons for the change.

(c) The Contractor shall submit at monthly intervals a report of the actual construction progress. Each monthly report shall cover a period of approximately thirty

(30) Days ending around the 20th of each month. The monthly reports shall be submitted within ten (10) Days of the end of the reporting period.

(1) If the project is proceeding on schedule, the monthly update report may consist of a marked-up copy of the graphical network diagram. This submittal shall clearly indicate the status of any minor shifts in sequence or schedule and the estimated completion date or percent complete of all activities currently in progress. The Contract completion date shall also be indicated. The Contractor shall submit a narrative report relating to status of construction, the schedule, and factors which may affect the remainder of the schedule. The report shall show the activities or portions of activities completed during the reporting period. The report shall state the percentage of the Work actually completed and scheduled as of the report date and the progress along the critical path in terms of Days ahead or behind the allowable dates.

(2) If, in the opinion of the Director, the project is behind schedule, the monthly report shall include a revised network diagram and/or mathematical analysis showing the Contractor's proposed revised schedule. An analysis of the effect that the delay has on progress along other paths shall also be included in the report. The Contractor shall also submit a narrative report with each updated analysis which shall include but not to be limited to a description of current and anticipated problem areas, delaying factors and their impact, and an explanation of corrective actions taken or proposed.

(3) Periodic report shall be submitted in sufficient copies to cover Contractor needs plus five (5) copies and an available electronic copy to be retained by the Director.

6. To the extent that the favorably reviewed initial Construction Schedule, or revisions thereto, indicate anything not jointly agreed upon, it shall be deemed to be not favorably reviewed by the Director. Any omission of Work from the detailed schedule, otherwise required for Contract compliance, will not excuse the Contractor from completing such Work within any applicable completion date. The CPM schedule shall be generated by computer methods.

C. Schedule Review. Once each month, on a date mutually agreed upon, but no later than seven (7) business days after the monthly schedule progress report date, a Work Site meeting will be held to review the Construction Schedule and job progress. The Contractor shall also attend weekly meetings scheduled by the Director to review the progress of the Work in the preceding week and in the subsequent week, coordinate the Work with public agencies or other Contractors as required, and allow the Director to plan his or her activities for testing, inspection, etc.

D. Schedule Revisions. The conditions under which the Director will require revisions of the Construction Schedule include the following:

1. When delay in completion of any Work item or sequence of Work items results in an estimated extension of project completion by either twenty (20) business days or by ten percent (10%) of the remaining duration of time to complete the Contract, whichever is less.

2. When delays in Submittals or deliveries make replanning or rescheduling of the Work necessary.

3. When the schedule does not represent actual prosecution and progress of the Work.

4. When any change to the sequence of activities, the completion date for major portions of the Work, or when changes occur which affect the critical path.

5. When Contract Amendments or a Change Order necessitates schedule revision, the Contractor shall submit a schedule analysis of all Change Order Work with its proposal.

E. Cash Flow Projection. A cash flow projection shall be submitted with the Construction Schedule. This cash flow projection shall be revised and resubmitted when revisions of the Construction Schedule will result in changes to the projected cash flow.

F. Schedules showing project completion dates earlier than specified in the Supplemental Conditions will be rejected unless justification can be provided for early completion.

6-1.05 **SCHEDULE OF VALUES.** Prior to preparation of the first estimate for a progress payment, the Contractor shall submit for favorable review by the Director a detailed Schedule of Values or cost breakdown of the Work under each bid item awarded. The breakdown will then become the basis for partial payment determination. Elements of Work shall be grouped by structure, pipeline, system, etc. Within each grouping, Work should be itemized by readily measurable quantities of Work complete in place. For example, concrete should be in units of cubic yards including form Work and reinforcing steel. Move-on costs, bond and insurance costs, and Overhead costs shall not be considered an item of cost for this purpose but shall be prorated over items of Work. In the event the Schedule of Values is not favorable reviewed by the Director, another Schedule of Values shall be submitted that is mutually acceptable to the Contractor and the Director.

6-1.06 **CITY'S RIGHT TO STOP WORK.** The Director shall have the

authority to order the Contractor, in writing, to suspend the Work wholly or in part, for such period as the Director may deem necessary due to the failure on the part of the Contractor to correct Work that is not in accordance with the requirements of the Contract Documents or if Contractor persistently fails to carry out Work in accordance with the Contract Documents.

The Contractor shall immediately comply with the written order of the Director to suspend the Work wholly or in part. The suspended Work shall be resumed when conditions are favorable and methods are corrected, as ordered or approved in writing by the Director.

Any stoppage of work under this section shall be at the Contractor's sole expense, and the Contractor shall have no claim against the City based on the Contractor's failure to perform the Work in accordance with the Contract Documents.

In addition to the City's right to stop Work, the City may order the Contractor to submit to the City at no additional cost to the City, additional information concerning Contractor's planned Work if the Contractor fails to promptly correct Work that is not in accordance with the requirements of the Contract Documents or persistently fails to carry out Work in accordance with the Contract Documents. The additional information ordered by the City may include, but is not limited to, preparation of Submittals or Working Drawings not otherwise required to be submitted under the Contract Documents.

In the event the City discovers that the Contractor has created an unsafe condition the City may arrange for other work forces to remedy the condition. Such remedial work shall be at the sole discretion of the City. If this action is required, the City may unilaterally terminate Work under the Contract, and will pay only for the quantities of Work actually performed, less the cost of the City's remedial Work. In the event that Work is not halted, the Contractor must take immediate steps to correct the situation. There will be no extra payment for Work required

to correct unsafe conditions.

The right of the City to suspend the Work shall not give rise to a duty on the part of the City to exercise this right for the benefit of the Contractor or any other person or entity. This right shall be in addition to and not in restriction or derogation of the City's other rights under the Contract Documents.

In the event of a suspension of Work under any of the conditions set forth in this Section 6-1.06, such suspension of Work shall not relieve the Contractor of its legal responsibilities as set forth in these General Conditions.

6-1.07 **TIME OF COMPLETION.** The Contractor shall complete the entire Work, including Installation, repairs, startup, troubleshooting, painting, and touchup, training, submittal or record drawings, and manuals, cleanup, demobilization, and all other Work within the number of Days set forth in the Supplemental Conditions. The time for completion includes an allowance for working time lost due to normal inclement weather.

Extensions of time may be allowed for unusual inclement weather under the provisions hereinafter described. Unusual inclement weather is weather which adversely affects "controlling" operations or the critical path of construction and which meets one of the following criteria:

A. For the particular calendar month in question, the number of individual Days with rainfall exceeding 0.10 inches exceeds the average number of such Days for that month over the immediately preceding five (5) years of record by at least three (3) Days.

B. For the particular calendar month in question, the total cumulative rainfall for that month exceeds the average cumulative rainfall for that month over the immediately preceding five (5) years of record by at least two inches (2").

Rainfall shall be measured at a publicly operated, maintained, and reported station in reasonable proximity to the construction site. A claim for delay shall indicate the period of rainfall which is claimed as “unusual,” the specific dates during which the unusual rainfall and subsequent wet soil conditions prevented Work, and the specific critical path tasks adversely affected by such unusual weather. A claim for delay due to unusual inclement weather shall be filed within ten (10) Days of the apparent end of the unusual inclement rainfall period, whether or not the monthly totals are available at that time. The burden of proof that weather meets the criteria for unusual weather shall be solely the responsibility of the Contractor.

It is the responsibility of the Contractor to order materials required for the Work properly and promptly on a Notice to Proceed. If evidence presented demonstrates that, in spite of the Contractor's efforts, government-established priorities controls delay material deliveries, suitable extension of time will be made.

If performance of extra Work ordered by the City or failure of the City to provide the necessary site for Installation affects construction tasks which are “controlling” or which are on the “critical path” of the Construction Schedule, suitable extensions of time will be made.

The Contractor shall not be entitled to a time extension for delays in activities on non-critical paths of the favorably reviewed schedule unless the duration of the excusable delay exceeds the total float of the activities being delayed. If the duration of an excusable delay does exceed the total float of the activities affected by the delay, the Contractor shall be entitled to an extension equal to the difference.

C. Determination that a day is a non-working day by reason of inclement weather or conditions resulting immediately therefrom, shall be made by the Director.

6-1.08 **LIQUIDATED DAMAGES.** It is agreed by the parties to the Contract

that in case all the Work called for under the Contract in all parts and requirements is not completed within the number of Days as set forth in the Supplemental Conditions, damage will be sustained by the City and that it is and will be impracticable and extremely difficult to ascertain and determine the actual damage which the City will sustain in the event of and by reason of such delay; and it is therefore agreed that the Contractor will pay to the City, the monetary amount indicated in the Supplemental Conditions in dollars (U.S.) per day for each and every calendar day of delay in completing the Work in excess of the number of Days prescribed and the number of additional calendar days, if any, authorized by Contract Change Order; and the Contractor agrees to pay said Liquidated Damages herein provided for, and further agrees that the City may deduct the amount thereof from any moneys due or that may become due the Contractor under the Contract.

It is further agreed that in case the Work is not finished and completed in all parts and requirements within the number of Days specified, the City shall have the right to increase the number of Days or not, as it may deem best to serve the interest of the City, and if it decides to increase the said number of Days, it shall further have the right to charge to the Contractor, its heirs, assigns or sureties and to deduct from the final payment for the Work all of any part, as it may deem proper, of the actual cost of engineering, inspection, superintendence, and other Overhead expenses which are directly chargeable to the Contract, and which accrue during the period of such extension, except that cost of preparation of final statement shall not be included in such charges.

6-1.09 **DELAYS AND EXTENSIONS TO THE WORK.** The Contractor must complete all Work within the time specified in the Agreement. The Contractor will be granted an extension of time and will not be assessed with liquidated damages or the cost of engineering

and inspection for any delay in substantially completing the Work (or parts thereof) beyond the time set forth in the Agreement, provided that such delay was caused by unforeseeable causes beyond the control and without the fault or negligence of the Contractor. Examples of such causes include acts of public enemy, fire, floods, abnormal weather (as described below), earthquakes, epidemics, quarantine restrictions, strikes, labor disputes and freight embargoes, fire, changes made pursuant to the provisions of "Changes in the Work" under Section 3 of these General Conditions or acts or neglect of the City not contemplated by the Contract Documents. In all cases, any extension of time is conditioned on the following:

1. That the cause is not due to the fault or negligence of the Contractor, and the Contractor has taken reasonable precautions to prevent and minimize the effects thereof; and
2. That the Contractor notifies the Director in writing within three (3) Days from the beginning of such delay specifying the nature of the delay and the measures that have been or will be taken to prevent or minimize the delay. Failure to submit written notice within this time period shall constitute an absolute waiver of any claim for a time extension.

No extension of time will be granted for a delay caused by a shortage of materials, unless the Contractor furnishes to the City documentary proof that it has diligently made every effort to obtain such materials from all known sources within reasonable reach of the work and further proof, as acceptable to the Director, that the inability to obtain such materials when originally planned did in fact cause a delay in Final Completion of the entire Work which could not be compensated for by revising the sequence of the Contractor's operations. Only the physical shortage of material will be considered as a cause for extension of time, and no consideration

will be given to any claim that material could not be obtained at a reasonable, practical or economical cost or price, unless it is shown to the satisfaction of the City that such material could have been obtained only at exorbitant prices entirely out of line with current rates, taking into account the quantities involved and the usual practices in obtaining such quantities.

No extension of time will be granted for a delay caused by Contractor's staff turnovers, understaffing or insufficient quantity of qualified staff able to perform the necessary work.

The term "shortage of materials," as used in this section, shall apply only to materials, articles, parts or equipment which are standard items and shall not apply to materials, parts, articles or equipment which are processed, made, constructed, fabricated or manufactured to meet the specific requirements of the Contract Documents.

No extensions of time will be granted for delays that have no measureable impact on the completion of the Work (or parts thereof) under the Contract Documents. When extensions of time are granted, they will be limited to the period equivalent to the actual number of Days lost on the critical path or controlling operations of the Construction Schedule, taking into account the extent to which that delay could be decreased by reasonable mitigation measures by the Contractor. All requests for extensions of time must be supported with a critical path analysis showing the critical path and impacts to it. Contractor's failure to submit this analysis will be sufficient cause for denial of any request for a time extension.

Within a reasonable period of time after the Contractor submits the notice and information required by this section, the City will determine whether an extension of time is justified and, if so, the number of days for the extension.

Abnormal weather may be a valid basis for a time extension under the Agreement. "Abnormal Weather" occurs when the number of days of rain above 0.5 inches in a 24 hour

period exceeds the average for such rainfall in a particular month as determined by the National Weather Service. The Contractor will only be entitled to, at most, a time extension for the number of days of rain exceeding the average for that month in the locale where the Work is to be performed. If delays are caused by the Contractor or those for whom the Contractor is responsible, the Contractor will only be entitled to, at most, a time extension for the number of rain days exceeding the average for the month when the Work should have been performed.

In addition, before a time extension may be granted for abnormal weather, the Contractor must establish that the rain either significantly impacted at least sixty percent (60%) of the planned work of the controlling operations for a particular day or prohibited at least five (5) hours of work on the controlling operations planned for that day. Contractor shall employ reasonably methods to mitigate the impact of abnormal weather (i.e., dewatering, protection of site, etc.) The occurrence of rain during non-work hours or having minimal impact to work on the controlling operation shall not constitute a day of abnormal weather.

In the event that the project experiences favorable weather for a particular month (e.g., the number of actual rain days in a month less than that indicated above for allowable rain days per months), the additional float resulting from such favorable weather shall accrue to the project.

Any Contractor claim for damages or additional compensation based on delay shall be limited to only those circumstances where the Contractor has fulfilled each of the following three (3) requirements:

1. Contractor has established its entitlement to a time extension pursuant to the provisions described above regarding delay and extensions to the Work.
2. The delay was caused solely by the City's issuance of changes made pursuant to the

provisions of “Changes in the Work” under Section 3 of these General Conditions or by acts or neglect of the City.

3. The delay was unreasonable under the circumstances and not within the contemplation of the parties.

It is expressly understood and agreed that delays caused by the City will be non-compensable when there are concurrent delays caused by the Contractor. Also, the Contractor shall have no entitlement to additional compensation for any delay where there have been concurrent delays caused by non-compensable delays, including, but not limited to, fire, floods, earthquakes, epidemics, quarantine restrictions, strikes, labor disputes, and freight embargoes.

Contractor’s damages and/or additional compensation for delays will consist solely of the extended costs of maintaining the Contractor’s Work Site presence. The Contractor will not be entitled to any extended home office overhead.

Compensation for idle time of equipment will be determined in the same manner as determinations are made for equipment used in the performance of extra work paid for on a Force Account basis with the following exceptions:

1. The time for which compensation will be paid will be the actual normal working hours during which such delay conditions exists, but in no case will exceed eight (8) hours in any one day.
2. The days for which compensation will be paid will be each calendar day of the work week (defined elsewhere in the Contract Documents) and Legal Holidays, during the existence of such delay, except that when rental of the equipment is paid for under the provisions in Section 3-1.06C, “Force Account Payment – Equipment,” of these General Conditions, no payment will be made for delays in accordance with the

provisions of this section.

Actual loss shall be understood to include no items of expense other than idle time of personnel, cost of extra moving of equipment, and cost of longer hauls. Compensation for idle time of equipment will be determined as provided in this section and compensation for idle time of personnel will be determined pursuant to Section 3-1.06A, "Force Account Payment – Labor," of these General Conditions. No markup will be added in either case for Overhead and profit. The cost of extra moving of equipment and the cost of longer hauls will be paid for as extra work as provided pursuant to "Changes to the Work" elsewhere in the Contract Documents.

6-1.10 **TERMINATION.**

6-1.10A **TERMINATION OF AGREEMENT – CONVENIENCE OF CITY.** The Department reserves the right to terminate the Contract at any time and for any reason if the Director determines that to do so would be in the best interest of the City. Any termination which is not based on the circumstances set forth in Section 6.1-10B below shall be effected by delivery to the Contractor of a Notice of Termination specifying the extent to which performance of Work under the Contract is terminated, and the date upon which such termination becomes effective.

Upon the Contractor's receipt of a written Notice of Termination for convenience, the Contractor shall cease Work as to those portions of the project so terminated and shall undertake the steps outlined in Section 6-1.10B below.

1. Acceptance of the Contract as hereinafter specified shall not relieve the Contractor of responsibility for damage to materials except as follows:
 - a. The Contractor's responsibility for damage to materials for which partial payment has been made as provided in Section 7-1.07, "Progress

Payments,” of these General Conditions and for materials furnished by the City for use in the Work and unused shall terminate when the Director certifies that such materials have been stored in the manner and at the locations he or she has directed.

- b. The Contractor's responsibility for damage to materials purchased by the City subsequent to the issuance of the notice that the Contract is to be terminated shall terminate when title and delivery of such materials has been taken by the City.
- c. When the Director determines that the Contractor has completed the Work under the Contract directed to be completed prior to termination and such other Work as may have been ordered to secure the project for termination, the Contractor will recommend that the City formally accept the Work, and immediately upon and after such Acceptance by the City, the Contractor will not be required to perform any further Work thereon and shall be relieved of its contractual responsibilities for injury to persons or damage to property which occurs after the formal Acceptance of the project by the City.

2. The total compensation to be paid to the Contractor shall be determined by the Director on the basis of the following:

- a. The reasonable cost to the Contractor, without profit, for all Work performed under the Contract, including mobilization, demobilization and Work done to secure the project for termination. Reasonable cost will include a reasonable allowance for project Overhead and general

administrative Overhead not to exceed a total of seven percent (7%) of Direct Costs of such Work.

- b. A reasonable allowance for profit on the cost of the Work performed as determined under subsection (a), provided the Contractor establishes to the satisfaction of the Director that it is reasonably probable that it would have made a profit had the Contract be completed and provided further, that the profit allowed shall in no event exceed four percent (4%) of said cost.
- c. The reasonable cost to the Contractor of handling material returned to the vendor, delivered to the Department or otherwise disposed of as directed by the Director.
- d. A reasonable allowance for the Contractor's administrative costs in determining the amount payable due to termination of the Contract.

All records of the Contractor and the Contractor's Subcontractors, necessary to determine compensation in accordance with this Section, shall be open to inspection or audit by representatives of the Department at all times after issuance of the notice that the Contract is to be terminated and for a period of three (3) years, and such records shall be retained for that period.

After Acceptance of the Work by the Director, the Director may make payments on the basis of interim estimates pending issuance of the Final Statement, when in his or her opinion the amount thus paid, together with all amounts previously paid or allowed, will not result in total compensation in excess of that to which the Contractor will be entitled. All payments, including payment upon the Final Statement, shall be subject to deduction for prior payments and amounts, if any, to be kept or retained under the provisions of the Contract.

In the event that the City terminates this Contract under Section 6-1.10B below and it is determined for any reason that there was not sufficient cause to do so, the City's termination automatically will convert to a termination for convenience under this section and the terms and conditions outlined in this section automatically will be applied to effectuate the Contract termination. Thus, damages to which a Contractor may be entitled as a result of an improper default termination will be limited to the amounts provided for in this section.

The provisions of this section shall be included in all subcontracts.

6-1.10B **TERMINATION OF AGREEMENT - FOR CAUSE.** An

"Event of Default" as referred to in this section shall occur if the Contractor:

1. Fails to maintain progress of the Work in accordance with the requirements of the Contract Documents; or
2. Fails to prosecute the Work or any of its components in accordance with the Contract Documents; or
3. Persistently or repeatedly fails or refuses to supply sufficient properly skilled workers or proper material to permit the performance of the Work in accordance with the Contract Documents; or
4. Fails to make prompt payment to Subcontractors or Suppliers in accordance with the respective agreements between the Contractor and the Subcontractor and Contractor and Supplier; or
5. Fails to comply with applicable laws, ordinances or rules, regulations or orders of a public authority having jurisdiction over the Work; or
6. Abandons, assigns or sublets the Contract without approval of the City; or
7. Becomes bankrupt or is subject to appointment of a receiver on behalf of the

Contractor; or

8. Otherwise is guilty of a substantial breach of a provision of the Contract Documents.

Upon the City's reasonable belief that there has been an Event of Default by the Contractor, the City may elect to give the Contractor written notice thereof. The Contractor thereafter shall cure the default as soon as possible and in no event after ten (10) Days from the Contractor's receipt of the City's written notice.

If the Contractor does not timely cure its default, the City may, without waiver of any of its other rights and remedies, elect to terminate the Contract, or portion thereof.

Upon the City's election to terminate the Contract, or portion thereof, the City shall have the right to complete the Work, or portion involved, by whatever means and methods it deems expedient, including the hiring of others on such terms as the City deems advisable. The City shall have the right to take possession of the Contractor's materials, plant, tools, equipment and property of any kind provided by or on behalf of the Contractor for the purpose of the Work, or a portion of them, without being responsible to the Contractor for wear and tear. The Contractor shall have no rights in such property during its use by the City. The City shall not be required to obtain the lowest prices for completing the Work or a portion of it but shall make such expenditures as, in the City's sole judgment, best accomplish such completion.

The expense of completing such Work or portion thereof, together with a reasonable charge for engineering, managerial and administrative services, as certified by the City, shall be charged to the Contractor, and the expense so charged shall be deducted by the City out of such monies as may be due or may at any time thereafter become due to the Contractor. In case such expense is more than the sum which otherwise would have been payable to the Contractor under the Agreement, then the Contractor or its surety or sureties shall promptly pay the amount of

such excess so due. When the City terminates the Contract under this section, the Contractor shall not be entitled to receive any further payments until the Work is completed and there has been a final settlement of costs of completing the Work covered by such notice of default.

The City will issue to the Contractor a written notice specifying that the Contract, or portion thereof, is terminated. Upon receipt of said written notice and, except as otherwise directed in writing by the City, the Contractor shall:

1. Stop all Work under the Contract; or if partial termination, stop Work relating to the terminated portion of the Agreement;
2. Perform Work the City deems necessary to secure the Work Site for termination including measures to leave the Work Site in a safe condition;
3. Remove equipment from the site of Work, as specified by the City;
4. Take such action as is reasonably necessary to protect materials from damage;
5. Notify all Subcontractors and Suppliers that the Contract or portion thereof is being terminated and that their contracts or orders are not to be further performed unless otherwise authorized in writing by the City;
6. Provide the City with an inventory list of all materials previously produced, purchased or ordered from Suppliers for use in the Work and not yet used in the Work, including its storage location, and such other information as the City may request;
7. Dispose of materials not used in the Work as directed by the Director. It shall be the Contractor's responsibility to provide the City (a) with good title to all materials purchased by the City hereunder, including materials for which partial payment has been made by the City and (b) with bills of sale or other documents of title for such

materials;

8. Subject to the prior written approval of the City, settle all outstanding liabilities and all claims arising out of Subcontractors or orders for materials terminated hereunder. To the extent directed by the City, the Contractor shall assign to the City all rights, title and interests of the Contractor under subcontracts or orders for materials terminated hereunder. The City shall be at liberty to negotiate with and engage any Subcontractors who had contracted with the Contractor for the Work;
9. Furnish the City with the documentation required to be furnished by the Contractor under the provisions of the Contract Documents, including, on projects as to which Federal funds are involved, all documentation required under the Federal requirements included in the Agreement; and
10. Take such other actions as the City may direct.

If only a portion of the Work has been terminated, the Contractor shall perform the remainder of the Work in conformity with the Contract Documents and in such a manner as not to interfere with the City or others in their performance and completion of the portion of the Work which was terminated.

The City may recover from the Contractor the amount of any loss or damage, including consequential damages, suffered or incurred as a result of the Contractor's default.

SECTION 7

ACCEPTANCE AND PAYMENT

7-1.01 **ACCEPTANCE.** When the Contractor believes that the entire Work is fully and finally completed, including the satisfactory completion of inspections, tests, and documentation specified in the Contract Documents and completion of all punch list and clean-up items, the Contractor shall submit to the City a written request for final Acceptance within fifteen (15) Days thereafter, specifying that the Work is fully and finally completed and the date on which it was completed. Within thirty (30) Days after receipt of the request for final Acceptance, the City will inspect the Work and will either:

1. Reject the request for final Acceptance, specifying the defective and/or uncompleted portions of the Work; or
2. Notify the Contractor that the Work will be accepted by Resolution of the City Council of the City of Roseville, and a Notice of Completion will be caused to be recorded by the City Clerk; or
3. Notify the Contractor that the Work has been accepted by the City but no Notice of Completion will be recorded.

If the City rejects the request for final Acceptance, the Contractor shall promptly remedy the defective and/or uncompleted portions of the Work. Thereafter, the Contractor shall again submit a written request for final Acceptance of the Work, specifying a new date based on the date the defective and/or uncompleted portions of the Work were corrected. Thereafter, the foregoing procedure shall apply successively until the City has verified that the Work is fully and finally completed and accepted the Work by Resolution of the City Council or by written

notification from the Director. Immediately upon such Acceptance, the Contractor shall be relieved of the duty of maintaining the Work as a whole.

All warranties commence upon final Acceptance of the Work. The City's final Acceptance of the Work shall not be construed as an acceptance by the City of any latent defects discovered with regard to the Contractor's work. Furthermore, Contractor's obligations under Section 5-1.22 "Responsibility for Damage and Indemnification" shall still remain applicable after the City's grant of final Acceptance of the Work.

Prior to final Acceptance, the Contractor shall submit to the City the Record Documents and Operation and Maintenance Manuals as specified in the Contract Documents.

7-1.02 **SCOPE OF PAYMENT.** The Contractor shall accept the compensation provided in the Contract as full payment for furnishing all labor, materials, tools, equipment, and incidentals necessary to the completed Work and for performing all Work contemplated and embraced under the Contract; also for loss or damage arising from the nature of the Work, or from the action of the elements, or from any unforeseen difficulties which may be encountered during the prosecution of the Work until the Acceptance by the Director and for all risks of every description connected with the prosecution of the Work, also for all expenses incurred in consequence of the suspension or discontinuance of the Work as provided in the Contract; and for completing the Work according to the Contract. Neither the payment of any estimate nor of any retained percentage shall relieve the Contractor of any obligation to make good any defective Work or material.

No compensation will be made in any case for loss of anticipated profits.

7-1.03 **NOTICE OF POTENTIAL CLAIM.** The Contractor shall not be entitled to the payment of any additional compensation for any act or failure to act by the City,

including failure or refusal to issue a Change Order, or for the happening of any event, thing, occurrence or other cause unless the Contractor has given the City due written Notice of Potential Claim as hereinafter specified, provided, however, that compliance with this Section 7-1.03 shall not be a prerequisite as to matters within the scope of the notice provisions in Section 6-1.07, "Time of Completion," or the notice provisions in Section 6-1.08, "Liquidated Damages," of these General Conditions, nor to any claim which is based on differences in measurement or errors of computation as to correct quantities.

The written Notice of Potential Claim shall set forth the reasons for which the Contractor believes additional compensation will or may be due, the nature of the costs involved, and, insofar as possible, the amount of the potential claim. The said Notice as above required must have been given to the Director prior to the time that the Contractor shall have performed the Work giving rise to the potential claim for additional compensation, if based on an act or failure to act by the Director, or in all other cases within seven (7) Days after the happening of the event, thing, occurrence or other cause giving rise to the potential claim.

If the Notice of Potential Claim does not include complete information about the claim or the parties do not execute a Contract Change Order in connection with the Notice of Potential Claim, Contractor shall submit complete information about its claim for additional compensation and/or extension of time for performance within fifteen (15) Days after such work is performed. Failure to provide written notice of claim prior to undertaking such work or failure to timely submit a complete and specific information about the claim for additional compensation and/or extension of the time for performance shall be deemed a waiver and abandonment of such claim.

If there is a dispute over any claim, the Contractor shall continue to Work during the dispute resolution process in a diligent and timely manner as directed by the City, and shall be

governed by all applicable provision of the Agreement.

The Contractor shall maintain cost records of all Work that is the basis of any dispute. On a daily basis, Contractor shall submit to City completed daily forms, the format of which will be acceptable to the City, with respect to the Contractor's costs of performing the disputed work. These daily forms shall itemize all of Contractor's costs in performing the disputed work, including, but not limited to, all costs relating to materials, labor and equipment with respect to the disputed work. These daily forms shall provide names or identification and classification of affected workers, the hourly rate of pay and hours worked, and also the size, type, and identification number of equipment and hours operated. Said daily work forms shall be duly signed and verified by the Contractor or its authorized representative. The City's receipt of the Contractors' daily forms shall not constitute an approval of the Contractor's claim. Contractor's failure to submit the daily forms on a daily basis shall constitute a waiver of the Contractor's right to claim any additional compensation for the disputed work.

Each Contractor claim shall include full and complete information concerning the Claim. Contractor shall provide a clear, concise recital of the basis, upon which the claim is asserted, including a designation of the provisions of the Contract Documents upon which the claim is based. Contractor shall also include a statement as to the amount of time and/or compensation sought pursuant to the claim; if Contractor's claim arises from an ongoing occurrence, Contractor shall so state in its claim, including a description of the specific Work activities affected by the claim. All costs, expenses or damages and extensions of time claimed shall be described in reasonable detail under the circumstances together with complete supporting documentation.

The City will review any timely Notice of Potential Claim and supporting information

submitted by Contractor. In conducting this review, the City shall have the right to require the Contractor to submit such additional or supporting documents, data and other information as the City may require.

If an agreement can be reached which resolves the Contractor's claim, the parties will execute a Contract Change Order to document the resolution of the claim. If the parties cannot reach agreement with respect to the Contractor's claim, the Contractor shall still be obligated to comply with the claim identification provisions identified in these General Conditions, including but not limited to Section 7-1.04.

It is the intention of this Section 7-1.03 that differences between the parties arising under and by virtue of the Contract be brought to the attention of the Director at the earliest possible time in order that such matters may be settled, if possible, or other appropriate action promptly taken. The Contractor hereby agrees that it shall have no right to additional compensation for any Claim that may be based on any such act, failure to act, event, thing or occurrence for which no timely written Notice of Potential Claim as herein required was filed.

7-1.04 **CLAIMS.** Contractor must submit all Claims, for which it has previously submitted a Notice of Potential Claim, prior to Acceptance of the Work. Each such Claim must be sent to the City by registered mail or certified mail with return receipt requested and must contain reasonable documentation to support the Claim.

Upon receipt of a Claim, the City shall conduct a reasonable review of the Claim and, within a period not to exceed forty-five (45) Days, or such further time as mutually agreed upon or necessary pursuant to Public Contract Code Section 9204, the City shall provide the Contractor a written statement identifying what portion of the Claim is disputed and what portion is undisputed. If the City does not respond to a Claim from the Contractor within the time

specified herein, such Claim shall be deemed rejected in its entirety.

Any payment due on an undisputed portion of the Claim shall be processed and made within sixty (60) Days after the City issues its written statement.

If the Contractor disputes the City's written response, or if the City does not respond within the time specified herein, the Contractor may demand in writing an informal conference to meet and confer for settlement of the issues in dispute. Upon receipt of a demand in writing sent by registered mail or certified mail, return receipt requested, the City shall schedule a meet and confer conference within thirty (30) Days for settlement of the dispute.

Within ten (10) business days following the conclusion of the meet and confer conference, if the claim or any portion of the claim remains in dispute, the City shall provide the Contractor a written statement identifying the portion of the Claim that remains in dispute and the portion that is undisputed. Any payment due on an undisputed portion of the Claim shall be processed and made within sixty (60) Days after the City issues its written statement. Any disputed portion of the Claim, as identified by the Contractor in writing, shall be submitted to nonbinding mediation, with the City and the Contractor sharing the associated costs equally. The City and the Contractor shall mutually agree to a mediator within ten (10) business days after the disputed portion of the Claim has been identified in writing. If the parties cannot agree upon a mediator, each party shall select a mediator and those mediators shall select a qualified neutral third party to mediate with regard to the disputed portion of the Claim. Each party shall bear the fees and costs charged by its respective mediator in connection with the selection of the neutral mediator. If mediation is unsuccessful, the parts of the Claim remaining in dispute shall be resolved in accordance with Section 7-1.05 below.

7-1.05 **DISPUTE RESOLUTION PROCEDURE.** All Claims not resolved

pursuant to Section 7-1.04, shall be resolved pursuant to Public Contract Code Section 10240, et seq.

7-1.06 **STOP PAYMENT NOTICES.** The City, by and through the Department or other appropriate office or officers, may at its option and at any time retain out of any amounts due the Contractor, sums sufficient to cover claims, filed pursuant to Civil Code Section 9350, et seq., including an amount to provide for the reasonable cost of any litigation thereunder.

7-1.07 **PROGRESS PAYMENTS.** Within fifteen (15) Days after the effective date in the Notice to Proceed, but in any event prior to Contractor's first Application for Payment, the Contractor shall submit to the City a detailed Schedule of Values.

Upon its approval, the Schedule of Values will form a basis for determining the compensation payable to the Contractor based on its actual progress of Work with respect to each Lump Sum bid item. The City, prior to any progress payment being made, must approve the Schedule of Values.

At the Director's discretion the approved Schedule of Values may be used as the basis for calculating the adjustment in compensation for a lump sum bid item due to changes ordered by the Director. When an ordered change increases or decreases the quantities shown in an approved Schedule of Values, at the Director's discretion, the adjustment in compensation may be determined in the same manner specified for increases and decreases in the quantity of a bid item of work in accordance with Section 3-1.05(B), "Contract Price Adjustment," of these General Conditions.

The Contractor once in each month shall submit an Application for Payment, for approval by the Director. Contractor's Applications shall be based on the Schedule of Values submitted to the City. These applications shall be supported by: (1) documentation requested by the City to

substantiate the payment request; (2) statutory releases from Contractor and all Subcontractors and suppliers pursuant to Civil Code Sections 8132 and 8138; and (3) certified payroll records for the period for which payment is requested. Specifically, the Contractor will submit conditional waivers upon progress payment executed by all contractors and suppliers that will be receiving sums sought in the instant payment request and also submit unconditional waivers upon progress payment executed by all contractors and suppliers that have been paid to the date of the payment request. The Contractor shall certify that the Work for which payment is requested has been accomplished. When requested by the City, the Contractor shall submit receipts, invoices and other documentation that the City requires to be furnished for purpose of evaluating the application.

The City will pay the Contractor within thirty (30) Days after its receipt of an undisputed and properly submitted Application for Payment, after deducting all previous payments, retention, and other sums as described in the Contract Documents. Within seven (7) Days of its receipt of the Contractor's Application for Payment, the City will determine whether it complies with the provisions of the Contract Documents. As appropriate, the City will return the application to the Contractor accompanied by a document prepared by the City setting forth the reasons for the rejection. Thereafter, the Contractor shall correct and resubmit the Application for Payment. Progress payments may be withheld for Work that is not performed in accordance with the Contract Documents.

The City may deduct the following from each progress payment:

1. An amount equal to one hundred and twenty-five percent (125%) of the amount claimed under any stop payment notice or other lien filed against the Contractor, which includes an amount to provide for the reasonable cost of any litigation

thereunder.

2. Any Liquidated Damages or Assessments that have accrued as of the date of the Application for Payment.
3. Any sums expended by the City in performing any of the Contractor's obligations under the Agreement that the Contractor has failed to perform.
4. Any other sums that the City is entitled to recover from the Contractor under the terms of the Contract including damages to the City's property.
5. The failure of the City to deduct any of the above identified sums from a progress payment shall not constitute a waiver of the City's right to such sums.

No such estimate or payment shall be construed to be an acceptance of any defective Work or improper materials.

Under no circumstances will the City make payment to unlicensed Contractors. As a condition of payment, the Contractor is required to maintain the applicable Contractor's license as identified in the Notice to Contractors for the duration of the Work.

7-1.08 **PAYMENT FOR MATERIALS AND EQUIPMENT ON HAND.**

Partial payments may be made to the extent of seventy-five percent (75%) of the cost of materials and equipment plus delivery to be incorporated in the Work, provided that such materials and equipment meet the requirements of the Contract Documents and are delivered to acceptable sites on the plant site or at other sites in the vicinity that are acceptable to the City and only with the prior written approval by the City. Such delivered costs of stored or stockpiled materials and equipment may be included in the next progress payment after the following conditions are met:

- A. Equipment and materials will only be eligible if given conditional or final

Acceptance by the Director and are in apparent compliance with favorably reviewed Submittals.

B. Only equipment or materials which have received favorable review of Shop Drawings will qualify.

C. The material or equipment has been stored or stockpiled adequately protected against damage in a manner acceptable to the Director at an approved site.

D. The Contractor has furnished the Director with acceptable evidence of the quantity and the quality of such stored or stockpiled materials or equipment with identification of where they will be incorporated into the project with Specification reference.

E. The Contractor has furnished the Director with satisfactory evidence that the material or equipment and transportation costs have been paid.

F. The Contractor has furnished the City legal title (free of liens or encumbrances of any kind) and lien releases to the material or equipment so stored or stockpiled.

G. The Contractor has furnished the City evidence that the material or equipment so stored or stockpiled is insured against loss by damage to or disappearance of such materials at any time prior to use in the Work.

It is understood and agreed that the transfer of title and the City payment for such stored or stockpiled materials or equipment shall in no way relieve the Contractor of its responsibility for furnishing and placing such materials or equipment in accordance with the requirements of the Contract Documents.

In no case will the amount of progress payments for materials or equipment on hand exceed the Contract Price for such materials or equipment or the Contract Price for the Contract item in which the material is intended to be used.

No partial payment will be made for stored or stockpiled living or perishable plant

materials.

The Contractor shall bear all costs associated with the progress payment of stored or stockpiled materials or equipment in accordance with the provisions of this Section.

7-1.09 **RETENTION ON PROGRESS PAYMENTS.** From each progress payment estimate, five percent (5%) will be deducted and held in retention by the City. The remainder, less any deductions described in Section 7-1.07, "Progress Payments," of these General Conditions, will be paid to the Contractor as progress payments.

Pursuant to Public Contract Code Section 22300, the successful Bidder may submit Securities in lieu of retention payments by the City. Upon the Contractor's request, the City will make payment of funds withheld from progress payments, pursuant to the requirements of California Public Contract Code Section 22300, if the Contractor deposits in escrow with the City or with a bank acceptable to the City, securities eligible for investment under California Government Code Section 16430, bank or savings and loan certificates of deposit, interest bearing demand deposit accounts, standby letters of credit, or any other security mutually agreed to by the Contractor and the City, upon the following conditions:

1. The Contractor shall bear the expenses of the City and the escrow agent in connection with the escrow deposit made.
2. Securities or certificates of deposit to be placed in escrow shall be of a value at least equivalent to the amounts of retention to be paid to the Contractor pursuant to this section.
3. Contractor shall enter into an escrow agreement satisfactory to the City, which agreement shall be substantially similar to the form provided in California Public Contract Code section 22300.

4. The Contractor shall obtain the written consent of the surety to such agreement.

7-1.10 **FINAL PAYMENT.** Final payment will be made only after Contractor has achieved Final Completion of the Work pursuant to the provisions of Section 7-1.01, “Acceptance,” of these General Conditions. Before final payment can be made, the Contractor shall have furnished the City with the following:

1. All Record Documents, catalogues, instruction sheets and information as required by the Contract Documents.
2. Conditional Waivers and Releases Upon Final Payment executed by Contractor and all Subcontractors and Suppliers, as provided by Civil Code Section 8136. Unconditional Waivers and Releases Upon Final Payment, as provided in Civil Code Section 8138, executed by Contractor and all Subcontractors and Suppliers, must be provided for all Subcontractors and Suppliers that have been paid in full.

Within thirty (30) Days of the date of the City’s Acceptance of the Work, the Contractor shall prepare and submit a Final Invoice, showing the proposed total amount due the Contractor, segregated by Bid item quantities, Change Order Work, and other basis for payments; deductions made or to be made for prior payment; and amounts previously retained. Prior invoices and payments shall be subject to correction in the proposed Invoice for Final Payment. Payments to the Contractor will be made only for actual quantities of the Contract items of work constructed in accordance with the Contract Documents.

The City will review the Contractor’s proposed Final Invoice and necessary changes or corrections will be forwarded to the Contractor. Within ten (10) Days thereafter, the Contractor

shall submit a revised proposed Final Invoice incorporating changes or corrections made by the City together with any new claims resulting therefrom. Upon approval by the City, the corrected proposed Final Invoice will become the approval Final Invoice.

If agreements are reached on all questions regarding the Final Invoice, the City will pay the entire sum found due on the approved application. However, the City will withhold sums sufficient to pay all unsettled claims for which stop payment notices have been filed pursuant to Section 9350, et seq. of the California Civil Code, together with the reasonable cost of any litigation thereunder.

Final payment will be made within thirty (30) Days after receipt of an approved Final Invoice and other required Submittals referenced above or within sixty (60) Days after Acceptance of the work by the City, whichever is later, provided, however, that if an approved Final Invoice has not been submitted within sixty (60) Days after Acceptance of the Work by the City, the City may elect to make payment of sums not in dispute without prejudice to the right of either the City or the Contractor in connection with such disputed sums. Notwithstanding the foregoing, if a Notice of Completion is recorded, final payment shall not be made prior to the expiration of the thirty-five (35) calendar day lien period. The start of this lien period is the date the Placer County Recorder's Office records the Notice of Completion.

The City may withhold from the Final Payment an amount not to exceed one hundred fifty percent (150%) of any amount in dispute between the City and the Contractor.

The making of Final Payment shall not operate to release the Contractor or its sureties from obligations arising under the Contract, the Contract bonds and warranties as herein provided. Specifically, the making of final payment shall not constitute a waiver and release of claims by the City arising from:

1. Unsettled or future liens;
2. Failure of the Work to comply with the requirements of the Contract Documents;
3. The terms of any warranties required by or contained in the Contract Documents;
4. The right to any insurance proceeds or the right to make any insurance or bond claims;
5. Any claims with respect to Contractor's obligations of indemnity with respect to claims asserted by third parties; or
6. Any latent deficiencies with the Work or Contractor's fraud.

7-1.11 **CLERICAL ERRORS.** Notwithstanding the provisions of Section 7-1.10, "Final Payment," of these General Conditions, for a period of three (3) years after Acceptance of the Work, all estimates and payments made pursuant to said Section 7-1.10, are subject to correction for clerical errors in the calculations involved in the determination of quantities and payments. The Contractor and the City agree to pay to the other any sum due under the provisions of this Section 7-1.11, provided, however, if the total sum to be paid is less than \$100, no such payment shall be made.

7-1.12 **WARRANTY.** Notwithstanding inspections and Acceptance by the City of Work furnished under the Contract Documents, the Contractor hereby unconditionally guarantees that all materials and equipment furnished will be of good quality and new, that the Work will be free from defects in workmanship and materials and that the Work will conform to the requirements of the Contract Documents. Work not conforming to these requirements, including substitutions not properly approved and authorized, may be considered defective.

This warranty by the Contractor is in addition to any warranties or guarantees required elsewhere in the Contract Documents. This warranty shall be in effect notwithstanding any disclaimers, or limiting or conditional terms contained in such separate warranties furnished by manufacturers or suppliers.

The Contractor hereby agrees to repair or replace any and all Work, together with any other adjacent Work which may be displaced in so doing, that may prove to be not in accordance with the requirements of the Contract or that may be defective in its workmanship or material during the greater of a period of one (1) year after Acceptance of the Work by the City or the period specified in the Special Conditions, without any expense whatsoever to the City, ordinary wear and tear and unusual abuse or neglect excepted.

The Contractor further agrees, that within ten (10) Days after being notified in writing by the Department of any Work not in accordance with the requirements of the Contract Documents or of any defects in the Work, the Contractor will commence and prosecute with due diligence all Work necessary to fulfill the terms of this warranty, and to complete such Work within a reasonable period of time. In the event Contractor fails to comply, it does hereby authorize the Department to proceed to have such Work done at the Contractor's expense and the Contractor will honor and pay the cost and charges therefore upon demand. The Department shall be entitled to all costs and expenses, including reasonable attorneys' fees, necessarily incurred upon the Contractor's refusal to honor and pay the above costs and charges.

All warranties set forth in the Contract Documents shall be deemed cumulative and not alternative or exclusive. Nothing contained in this section shall be construed to establish a period of limitation with respect to any other obligation, which Contractor has under the Contract Documents or under any separate warranty or guaranty required thereby. The establishment of a

specific warranty period relates only to the specific obligation of Contractor to correct defective Work, and it has no relationship to the time within which its obligation to comply with the Contract Documents or applicable provision of law may be sought to be enforced, nor to the time within which proceedings may be commenced to establish Contractor's liability with respect to its obligations other than specifically to correct the Work. Without limiting the foregoing, it is understood and agreed that Contractor shall remain responsible for latent defects with its work, regardless of the expiration of any warranty period set forth in the Contract Documents.

7-1.13 **WARRANTY OF TITLE.** No material, supplies, or equipment for the Work under this Contract shall be purchased subject to any chattel mortgage, security agreement, or under a conditional sale or other agreement by which an interest therein or any part thereof is retained by the seller or supplier. The Contractor warrants good title to all material, supplies, and equipment Installed or incorporated in the Work and agrees upon completion of all Work to deliver the Premises, together with all improvements and appurtenances constructed or placed thereon by it, to the City free from any claim, liens, security interest, or charges, and further agrees that neither the Contractor nor any person, firm, or corporation furnishing any materials or labor for any Work covered by this Contract shall have any right to a lien upon the Premises or any improvement or appurtenances thereon. Provided, that this shall not preclude the Contractor from Installing metering devices and other equipment of utility companies, the title of which is commonly retained by the utility company. In the event of the Installation of any such metering device or equipment, the Contractor shall advise the City as to the legal owner thereof. Nothing contained in this paragraph, however, shall defeat or impair the right of such persons furnishing materials or labor under any bond given by the Contractor for their protection or any rights under any law permitting such persons to look to funds due the Contractor in the hands of the City.

The provisions of this paragraph shall be inserted in all subcontracts and material Contracts, and notice of its provisions shall be given to all persons furnishing materials for the Work when no formal Contract is entered into for such materials.

SUPPLEMENTAL CONDITIONS

Project: MIKE SHELLITO INDOOR POOL
REPLASTERING PROJECT

Scope of Supplemental Conditions

1. The Work shall be performed in accordance with the General Conditions and Department Standards, except as the General Conditions may be modified by the following additional City Standards, incorporated herein by this reference, if so indicated.

	COMMUNITY DESIGN GUIDELINES 311 Vernon Street, Roseville, CA 95678
	SPECIFICATIONS FOR COMMERCIAL CONSTRUCTION (ELECTRIC) 2090 Hilltop Circle, Roseville, CA 95747
X	PARKS CONSTRUCTION STANDARDS 316 Vernon Street, Suite 400, Roseville, CA 95678
X	DESIGN AND CONSTRUCTION STANDARDS 311 Vernon Street, Roseville, CA 95678
	OTHER

Above documents are available at: www.roseville.ca.us.

2. Numbering in these Supplemental Conditions conforms to that in the General Conditions. The existence of a section in these Supplemental Conditions means that the corresponding section in the General Conditions is modified in some respect. Unless otherwise specified, the modified General Condition is deleted entirely and the provisions of these Supplemental Conditions are substituted.

SECTION 1. DEFINITIONS AND TERMS

1-1.24 **DEPARTMENT.** Section 1-1.24 of the General Conditions is amended to include the following:

The Department for Contract Administration is the Parks, Recreation & Librarians Department of the City of Roseville.

FOR COUNCIL APPROVAL
NOT FOR BIDDING

SECTION 2. CONTROL AND SCOPE OF THE WORK

2-1.08 **SUBMITTALS.** Section 2-1.08 of the General Conditions is amended to include the following:

The time allowed for review of each submittal is 10 Days after receipt of the submittal by the Director.

FOR COUNCIL APPROVAL
NOT FOR BIDDING

SECTION 3. CHANGES IN THE WORK

There are no amendments to the General Conditions.

FOR COUNCIL APPROVAL
NOT FOR BIDDING

SECTION 4. CONTROL OF MATERIALS

There are no amendments to the General Conditions.

FOR COUNCIL APPROVAL
NOT FOR BIDDING

SECTION 5. LEGAL RELATIONS AND RESPONSIBILITY

5-1.14 **AIR POLLUTION CONTROL AND ASBESTOS.** Section 5-1.14 of the General Conditions is amended to include the following:

To the best of the City's knowledge, asbestos IS NOT present in the vicinity of the Project. Additional information shall be made available to Contractor upon request.

FOR COUNCIL APPROVAL
NOT FOR BIDDING

SECTION 6. PROSECUTION AND PROGRESS

6-1.04 **PROGRESS SCHEDULE.** Section 6-1.04F of the General Conditions is amended to include the following:

Progress schedules showing project completion dates more than 0 Days earlier than specified in Section 6-1.07 shall be rejected.

6-1.07 **TIME OF COMPLETION.** Section 6-1.07 of the General Conditions is amended to include the following:

The Contractor shall begin Work within 10 business days after receiving a Notice to Proceed and shall diligently prosecute the Work to completion. The Work shall be completed within 60 business days of the Notice to Proceed.

If landscaping plants require an establishment period, that period will be N/A calendar days. Start of the establishment should be as outlined in the Specifications.

6-1.08 **LIQUIDATED DAMAGES.** Section 6-1.08 of the General Conditions is amended to include the following:

The amount of Liquidated Damages is the sum of \$ 800 per Day.

SECTION 7: ACCEPTANCE AND PAYMENT

There are no amendments to the General Conditions.

SUMMARY OF WORK

PART 1 - GENERAL

All applicable portions of Division 1, including the drawings and general provisions of the contract, the general and supplementary conditions and Division 1 specification sections which apply to work of this section as if printed herein.

1.02 DESCRIPTION

- A. Section Includes:
1. Description of the Work (refer to 1.03).
 2. Duties of the Contractor (refer to 1.04).
 3. Permits and fees (refer to 1.06).
 4. Layout of work (refer to 1.07).

1.03 WORK COVERED BY CONTRACT DOCUMENTS

- A. This project consists of the removal/demolition of the existing indoor swimming pool select tile finishes and plaster finishes and other miscellaneous items shown on plans. Construction of new swimming pool select tile finishes and plaster finishes and other miscellaneous items as shown on plans. All other items as required to provide a completely operational aquatic facility. Project is located at 10210 Fairway Drive, Roseville, CA 95678.
- B. Work of this contract generally consists of demolition, new construction and such other items not mentioned that are required by the Contract Documents, law and governmental codes and regulations.
- C. For convenience, the Specifications are divided into sections as set forth in the Table of Contents, but such segregation shall not be considered as limiting the work of any subcontract or trade, and the Owner will not be responsible for any division of work by subcontracts. Unless otherwise provided, the Contractor shall be solely responsible for all subcontract arrangements of work regardless of the locations of provisions in the Specifications.
- D. Compensation for bid items not specifically identified in these Special Provisions shall include all labor, materials, tools, equipment, safety measures, and supervision required to complete the work to grades and dimensions shown on the plans or staked in the field. There shall be no compensation except for bid items specified in the Bidder's Proposal. The cost of all work in the Contract Documents not specifically identified as a bid item or described within a bid item shall be included in related bid items, and no additional compensation shall become due the Contractor by nature of compliance with the Contract Documents except as provided for in the General Conditions of the Contract for Construction, under "Changes in the Work."

1.04 CONTRACTOR DUTIES

- A. Construct the work under a single prime contract in strict conformity with the Contract Documents.
- B. Accept the site and the character of the work as they exist on the first day of work under this Contract.
- C. Coordinate work of employees and subcontractors.
- D. Expedite the work to assure compliance with schedules.
- E. Coordinate the work with that of other contractors and work done by the Owner.
- F. Comply with orders and instructions of the Owner's Representative.

1.05 CONTRACTOR FURNISHED PRODUCTS

- A. Contractor Responsibilities:
 - 1. Designate needed submittals and delivery date for each product in progress schedule. Coordinate deliveries with Owner's Representative.
 - 2. Receive product(s) at site. Store until incorporated into the work.
 - 3. Inspect deliveries jointly with Owner's Representative, record shortages and damaged or defective items.
 - 4. Protect product(s) from damage, theft and from exposure to the elements.
 - 5. Assemble, install, connect, adjust and/or finish product(s) as required under provisions of the Contract Documents.
 - 6. Repair or replace products damaged or stolen subsequent to receipt, at no cost to the Owner.

1.06 PERMITS AND FEES

- A. The Contractor shall obtain and pay for all permits, fees and licenses required by all government agencies and necessary for successful completion of the work. The Contractor shall maintain copies of all required permits on site and shall, upon request, furnish the Owner with copies thereof.

1.07 LAYOUT OF WORK

- A. Field surveys for control of all grading and construction shall be the responsibility of the Contractor. All such surveys, including construction staking, shall be under the supervision of a California licensed surveyor or civil engineer. Staking shall be performed on all items ordinarily requiring grade and alignment at intervals normally accepted by the agencies and trades involved. Payment for construction survey staking shall be considered as included in the various items of work and no additional allowance will be made thereof. Bench marks shall be provided by the Owner as shown on Drawings.

SECTION 013300

SUBMITTALS

PART 1 - GENERAL

All applicable portions of Division 1, including the drawings and general provisions of the contract, the general and supplementary conditions and Division 1 specification sections which apply to work of this section as if printed herein.

1.01 DESCRIPTION

A. Section Includes:

1. Submit to the Architect shop drawings, product data and samples required under the various Sections of these Specifications.
2. Prepare and submit with Construction Schedule, a separate schedule listing dates for submission and dates reviewed shop drawings, product data and samples will be needed for each product.

1.02 PRODUCT HANDLING

- A. Make all submittals of Shop Drawings, Samples, and requests for substitution in accordance with the provisions of these Specifications.

PART 2 - PRODUCTS

2.01 SCHEDULE OF SUBMITTALS

- A. Compile a complete schedule of all submittals required for the project, complete with major division and subdivision headings and broken into individual trades. Format shall be 8-1/2" x 11". The schedule shall be in such a form as to allow for notations next to each required submittal including, but not necessarily limited to, submission dates, action taken, approvals and re-submittals. Submit such a schedule to the Architect for his comments and approval. The approved Schedule of Submittals shall be kept current at all times and an updated copy shall be kept in the Project Field Office for review.

2.02 SHOP DRAWINGS AND PRODUCT INFORMATION SUBMITTALS

- A. Unless otherwise specifically directed by the Architect, make all Shop Drawings accurately to a scale sufficiently large to show all pertinent features of the item and its' method of connection and interface to the Work.
- B. Submit all Shop Drawings in the form of four (4) blue-line prints of each Shop Drawing. In the case of Product Information, submit no less than four (4) copies for review. Where contents of submitted product information include data not pertinent to the submittal, clearly indicate which portion is being submitted for review.
- C. Submittals are required on all items to ensure the latest and most complete manufacturer's data is available. The Contractor assumes full responsibility for problems which could have been noted on valid submittals not furnished.

- D. In the event that an item or items specified by the Architect will not be available in time for installation during orderly progress of the Work, so notify the Architect prior to receipt of bids. Verify that all items specified will be available. Costs of delays because of non-availability of materials will be back-charged as necessary and shall not be borne by the Owner.
- E. Of the four (4) bluelines required; two bluelines will be returned to the Contractor upon completion of the Architect's review, one will be sent to the Owner and the other will be kept on file in the Architect's office.

2.03 SAMPLES

- A. Unless otherwise specifically directed by the Architect, all Samples shall be of the precise article proposed to be furnished.
- B. Submit all Samples in the quantity which is required to be returned, plus one (1) which will be retained by the Architect.

2.04 CALCULATIONS

- A. Where required, the Contractor shall retain a licensed Civil or Structural Engineer to provide structural calculations sufficient to show the adequacy of all members and connections to be reviewed.

2.05 COLORS

- A. Unless the precise color and pattern is specifically described in the Contract Documents, whenever a choice of color or pattern is available in a specified product submit accurate color charts and pattern charts to the Architect for his review and selection.
- B. Unless all available colors and patterns have identical costs and identical wearing capabilities and are identically suitable for the installation, completely describe the relative costs and capabilities of each.

2.06 MANUALS

- A. Where manuals are required to be submitted upon completion of the installation, prepare all such manuals in durable plastic binders approximately 8-1/2" x 11" in size and with at least the following features:
 - 1. Identification readable through the outside of the cover, stating the general nature of the manual and the project to which it pertains.
 - 2. Neatly typewritten Index near the front of the manual, furnishing immediate information as to location in the manual of all data regarding the installation.
 - 3. Complete instruction regarding operation and maintenance of all equipment involved.
 - 4. Complete nomenclature of all replaceable parts, their part numbers, current cost and name and address of the Vendors of the parts.
 - 5. Copy of all guarantees and warranties issued on the installation.

6. Copy of the approved Shop Drawings with all data concerning changes made during construction.
- B. Where contents of manuals include manufacturer's catalog, clearly indicate the precise items included in this installation and delete, or otherwise clearly indicate, all manufacturer's data with which this installation is not concerned.
- C. Unless otherwise specifically directed by the Architect, deliver two (2) copies of the manual to the Owner and one (1) copy to the Architect.

2.07 RECORD DRAWINGS

- A. Where required by the Contract Documents or where changes to the Contract Documents have been made by change order, revision to clarification drawings, or where minor changes to the Contract were required because of unforeseen conditions or as may be required by the Architect, prepare accurate Record Drawings indicating all pertinent data and dimensions necessary to adequately describe the contract deviations to the Owner for his future use.

2.08 SUBSTITUTIONS

- A. Reference in the Contract Documents to any material, product, or process by name, make or catalog number shall be interpreted as establishing a standard of quality and design intent and not construed as prohibiting substitutions of any other such material, product, or process, provided such substitution is specifically approved by the Architect prior to receipt of bids. Requests for substitutions shall be submitted no later than ten (10) working days prior to bid date.
- B. Acceptance of substitutions will not relieve the Contractor from responsibility for complying with the Contract Documents.
- C. At the discretion of the Architect, testing of samples of materials proposed for substitutions may be required. The testing shall be done by an independent testing laboratory selected by the Owner, the costs of which shall be borne by the Contractor.
- D. At the discretion of the Architect, the Contractor may be required to furnish a written guarantee, in addition to that already required, ensuring the satisfactory performance of the proposed substitutes.
- E. All additional labor and materials which may be required for the proper installation of any substitution, or required as a consequence of any substitution, will be provided at no additional cost to the Owner.
- F. Bids shall be based upon the data given in the Contract Documents, or upon previously approved items or techniques as "approved equals" by the Architect. Where calculations or shop drawings are required for approval, allowance shall be made for meeting the requirements of the Contract Documents and all applicable codes and ordinances.
- G. Bidders may, in addition, submit separate bids using materials and equipment of other manufacturers, providing the difference in cost is stated for each item proposed to be substituted.

- H. Provide to the Architect all information necessary and required to evaluate proposed substitutions. Do not base bid on the assumptions that a material will be approved as equal by the Architect unless the item has been specifically approved for this Work by the Architect prior to the receipt of bids.
- I. The Contractor assumes full responsibility that substituted items or procedures will meet the job requirements and is responsible for the cost of redesign and of modifications to this and all other parts of the work caused by substituted items.
- J. Submittals will be checked for general conformance with the design concept of the project, but acceptance does not guarantee quantities shown and does not supersede requirements to properly install work. Submittals for proposed alternatives will be judged not only for the acceptability of the items themselves, but of the items as they are used under the conditions of this particular project.

PART 3 - EXECUTION

3.01 IDENTIFICATION OF SUBMITTALS OR SUBSTITUTIONS

- A. Completely identify each submittal and re-submittal by showing at least the following information:
 - 1. Name and address of entity submitting information, plus name and telephone number of individual who may be contacted for further information.
 - 2. Name of project for this Work.
 - 3. Drawing number and Specification Section number to which the submittal applies.
 - 4. Number of all submittals sequentially, whether this is an original submittal or a re-submittal, and if a re-submittal, what number re-submittal.

3.02 COORDINATION

- A. Prior to submittal for Architect's review:
 - 1. Fully coordinate all submittals by determining and verifying all field dimensions and conditions, materials, catalog numbers, and similar data.
 - 2. Coordinate as required with all other trades and with all public agencies involved.
 - 3. Secure all necessary prior approvals and signify by stamp, or other means, that they have been secured.
 - 4. Clearly indicate all deviations from Contract Documents.

3.03 TIMING OF SUBMITTALS

- A. Make all submittals within ten (10) days of the date of the award of the contract for the Work, and far enough in advance of scheduled dates of installation to provide adequate time for all required reviews, both by the Architect and his consultants, for securing necessary approvals, for possible revision and re-submittal, and for placing of orders and securing delivery. In scheduling, allow a minimum of ten (10) full working days for the Architect's review. Cost of delays occasioned by the tardiness of submittals will be back-charged as necessary.

3.04 ARCHITECT'S REVIEW

- A. The Architect's review will be only for conformance with the design concept and with the information given in the Contract Documents. The Architect's review and approval of Shop Drawings and Samples shall not relieve the Contractor of responsibility for deviation from the requirements of the Contract Documents unless the Contractor has informed the Architect in writing of such deviation at the time of submittal and the Architect has given written approval to the specific deviation, nor shall the Architect's approval relieve the Contractor from responsibility for errors and omissions in the Shop Drawings and Samples. Should the Architect be required to review any submittal more than three (3) separate times due to the inadequacy of the submittal and due to no fault of the Architect, the Contractor shall render to the Architect the Architect's direct cost for review of all subsequent re-submittals.

3.05 COMPLIANCE WITH APPROVALS

- A. Do not commence any portion of the Work requiring approval of Shop Drawings or Samples by the Architect until the submittal has been approved by the Architect. All such portions of the Work shall be in accordance with the approved Shop Drawings and Samples.

END OF SECTION

FOR COUNCIL APPROVAL
NOT FOR BIDDING

SECTION 015000

TEMPORARY FACILITIES AND CONTROLS

PART 1 - GENERAL

All applicable portions of Division 1, including the drawings and general provisions of the contract, the general and supplementary conditions and Division 1 specification sections which apply to work of this section as if printed herein.

1.01 DESCRIPTION

- A. Section Includes: Temporary facilities and controls required for this work include, but are not limited to: temporary utilities such as water, electricity and telephone; field offices and sheds; haul roads; enclosures such as fences, barricades, and canopies; sanitary facilities; scaffolding and safety equipment. All such temporary facilities shall be located for convenience and safety and maintained in a safe and sanitary condition at all times until completion of the Contract, then removed from the site and disposed of as required or as directed.

1.02 COMPLIANCE WITH CODES AND REGULATIONS

- A. Compliance with all requirements of pertinent safety regulations is described in the General Conditions of the Contract for Construction and shall include, but not necessarily be limited to: Federal Occupational Health Administration (OSHA) and latest edition, Uniform Building Code (with California Amendments) and ADA (American Disability Act).

1.03 PRODUCT HANDLING

- A. Use all means necessary to maintain all temporary facilities and controls in proper and safe condition throughout progress of the work. In the event of damage or loss, immediately make all repairs and replacements necessary and at no additional cost to the Owner.

PART 2 - PRODUCTS

2.01 TEMPORARY UTILITIES

- A. General:
1. Provide and pay all costs for all utilities required for performance of the work.
 2. Provide safe distribution of required utilities to the job areas for use of all trades.
- B. Temporary Water: Furnish and install all necessary temporary piping and, upon completion of the work, remove all such temporary piping.
- C. Temporary Electricity: Furnish and install all necessary temporary wiring; furnish and install distribution boxes within 100 feet of each portion of the work so located that the individual trades may use their own construction-type extension cords to obtain adequate power and lighting at all points where required by inspectors and for safety.

- D. Telephone: Maintain in the Contractor's field office or in a protected location on the job site for the use of the subcontractors; the telephone may be coin operated.

2.02 ACCESS FACILITIES

- A. The Contractor shall provide access facilities to the construction area as are necessary and required for carrying out the work and the same shall be kept passable at all times. Contractor shall be responsible for any damage to streets, curbs and sidewalks due to the use of such facilities, and such damaged portions shall be repaired as required to place them in the same condition as existed prior to the commencement of the work. Contractors shall comply in every respect with applicable Building Codes regarding the use of public streets and sidewalks and provide the proper barricading and lighting of public thoroughfares surrounding the construction activities.

2.03 ENCLOSURES, FENCES, BARRICADES AND CANOPIES

- A. Furnish, install, and maintain for the duration of construction, all required scaffolds, fences, barricades, canopies, warning signs, steps, bridges, platforms and other temporary construction necessary for proper completion of the work in compliance with all pertinent safety regulations. In addition, it is recommended that all existing improvements which are not to be altered or removed be protected by means of temporary barricades or other suitable means.

2.04 PUMPING

- A. Keep the site, excavations, and structures free of accumulation of water at all times, whether from underground seepage, rainfall, drainage, or broken utility lines.

2.05 SANITARY FACILITIES

- A. Furnish and install all required temporary toilet buildings with sanitary toilets for use of all workmen. Comply with all minimum requirements of the Health Department or other public agency having jurisdiction. Maintain in a sanitary condition at all times.

2.06 FIRE PROTECTION

- A. Temporary fire extinguishers shall be provided and available at the job site in accordance with the appropriate NFPA Bulletins and good practice.

PART 3 - EXECUTION

3.01 SPECIAL CONDITIONS OF THE SITE

- A. The area to be set aside for the use of the Contractor is indicated on the Drawings as "Limit of Work." Except for sub-surface utility work, curb and gutter, temporary roads and any other work specifically shown or noted, the Contractor shall confine his exterior operations within the limits-of-work so indicated.
- B. Work shall not proceed for the site or buildings until all temporary work such as utilities, barricades, field office and sanitary facilities are furnished and installed.

- C. Parking of vehicles by construction personnel shall be limited to areas outside the limits-of-work in locations as designated by the Owner's Representative.

3.02 MATERIAL STORAGE AND PROTECTION

- A. During the progress of the work, products and materials shall be neatly stored in accordance with the appropriate manufacturer's recommendations and shall be properly cared for and protected from weather, vandalism and theft.
- B. All installed products and materials shall be adequately protected until such time as the Owner accepts the Project.

3.03 CONDITIONS AT THE SITE

- A. The Contractor shall make all necessary inspections of the job site and of the work to be fully aware of the conditions of all temporary facilities and controls at all times.
- B. The Contractor shall take all steps necessary to prohibit any part of the premises, the buildings, or structures to be overloaded by setting thereon any material or equipment, or performing thereon any of his work, which could cause any loss, damage, and/or injury to person or property.
- C. The Contractor shall make a close inspection of all materials as delivered and shall promptly return all defective materials without waiting for their rejection by the Architect.

3.04 REMOVAL

- A. Maintain all temporary facilities and controls as long as needed for the safe and proper completion of the work. Remove all such temporary facilities and controls as rapidly as progress of the work will permit, or as directed by the Architect.

3.05 RESTORATION OF AREAS

- A. Upon completion of the project, all temporary facilities shall be removed from the site and all areas not otherwise improved but which were adversely affected by the Contractor's work shall be returned to their original condition to the satisfaction of the Architect.

3.06 FINAL SITE CLEAN-UP

- A. Prior to final inspection, thoroughly clean the entire site and restore to a neat, acceptable condition. Remove from the entire site all construction waste and unused materials, dunnage, loose rock and stones, excess earth, roots, weeds, and all debris of any description resulting from the work. Hose down and scrub where necessary all new concrete and asphalt pavement and paved walks, and all existing concrete and asphalt pavement and walks dirtied as a result of the work. Thoroughly remove mortar drippings from concrete walks and other pavements, where they occur.

END OF SECTION

SECTION 017700

CLOSEOUT PROCEDURES

PART 1 - GENERAL

All applicable portions of Division 1, including the drawings and general provisions of the contract, the general and supplementary conditions and Division 1 specification sections which apply to work of this section as if printed herein.

1.01 DESCRIPTION

- A. Section Includes: The work includes, but is not necessarily limited to, performing all operations necessary for and properly incidental to closing out the project and assisting in Owner's final inspection as hereinafter specified.

1.02 FINAL COMPLETION

- A. When the Contractor considers the work, or a designated portion of the work complete, submit written request to Owner's Representative for inspection. By submittal of request, Contractor certifies that:
1. Contract Documents have been reviewed.
 2. Work has been completed in accordance with the Contract Documents and is ready for inspection.
 3. Equipment systems have been tested, adjusted, balanced and are fully operational.
- B. Submit request a minimum of five (5) working days in advance of requested inspection date. Contractor shall be responsible for allowing sufficient time during contract period to complete inspections and any corrections.
- C. Should Owner's Representative inspection find work incomplete, Owner's Representative will notify Contractor in writing, listing observed deficiencies.
- D. Contractor shall remedy listed deficiencies and send a request for final inspection. At the Owner's option, a reinspection(s) of the work to identify additional deficiencies, if any, may be required. Owner's costs associated with reinspection(s) are subject to provisions of Article 1.04 of this Section.
- E. When Owner confirms work is complete, and close-out submittals as referred to in Article 1.05 of this Section are provided, Owner's Representative will notify Contractor of date of completion in writing.

1.03 REINSPECTIONS

- A. Should status of completion of work require reinspection(s) by Owner due to failure of work to comply with Contractor's claims on initial inspection, Owner may deduct the amount of compensation for reinspection services from final payment to Contractor. Observed deficiencies in excess of ten (10) will be reason for reinspection.

- B. Inspections initiated at the request of the Owner will not be subject to the provisions of this Article.

1.04 CLOSE-OUT SUBMITTALS

- A. Project Record Documents
- B. Operation and Maintenance Data
- C. Warranties and Guarantees
- D. Spare Parts and Maintenance Materials
- E. Evidence of Payment and Lien Releases along with a list of all subcontractors which contributed labor or materials to the project.
- F. Other data and materials as may be required in individual Sections of the Specifications.

1.05 APPLICATION FOR FINAL PAYMENT

- A. Submit application for final payment in accordance with provisions of the Contract for Construction.

PART 2 - PRODUCTS

NOT USED

PART 3 - EXECUTION

NOT USED

END OF SECTION

SECTION 020500

DEMOLITION

PART 1 - GENERAL

All applicable portions of Division 1, including the drawings and general provisions of the contract, the general and supplementary conditions and Division 1 specification sections which apply to work of this section as if printed herein.

1.01 DESCRIPTION

A. Section Includes:

1. Demolition and removal of indoor swimming pool select tile and all plaster finishes and other items as indicated on the Drawings.

- B. Site Visitation: In preparing a proposal, visit the site, carefully examine the Drawings and Specifications, and determine that the work can be properly executed in accordance with the Contract Documents. No allowance will be made for any error through negligence in observing the site conditions.

PART 2 - PRODUCTS

NOT USED

PART 3 - EXECUTION

3.01 TREATMENT OF EXISTING FACILITIES

- A. Protection: Use necessary procedures, caution and covering to protect from damage existing facilities, equipment and accessories not noted to be replaced or restored. Maintain active utilities traversing the project site in operating condition.
- B. Replacement: In the event of damage, immediately notify the Owner, and make all repairs and replacements necessary to the approval of the Engineer without change in contract amount or time.

3.02 REMOVAL OF DEBRIS

- A. All items noted for demolition shall be immediately removed from the project site and hauled and dumped in compliance with all local codes and regulations, including payment of any associated fees.

3.03 SAFETY BARRICADES

- A. Provide substantial barricades around and at all areas and openings as soon as such areas and openings are created. Barricades must be adequate to block access and give warning to the general public.

3.04 CLEAN-UP

- A. Upon completion of the work of this Section, immediately remove all broken concrete, debris and rubbish occasioned by this work to the approval of the Engineer.

END OF SECTION

FOR COUNCIL APPROVAL
NOT FOR BIDDING

SECTION 131100

SWIMMING POOL GENERAL REQUIREMENTS

PART 1 GENERAL

1.01 WORK INCLUDED

- A. The scope of the work included under this Section of the Specifications shall include swimming pool renovation as illustrated on the Drawings and specified herein. The General and Supplementary Conditions of the Specifications shall form a part and be included under this Section of the Specifications. The Swimming Pool Contractor shall provide all supervision, labor, material, equipment, machinery, plant and any and all other items necessary to complete the work. **ALL OF THE WORK IN SECTIONS 131100 - 131106 IS TO BE THE RESPONSIBILITY OF ONE EXPERIENCED SWIMMING POOL CONTRACTOR PRIMARILY ENGAGED IN THE CONSTRUCTION OF COMMERCIAL PUBLIC-USE SWIMMING POOLS. A SWIMMING POOL CONTRACTOR SHALL BE CONSIDERED PRIMARILY ENGAGED AS REQUIRED HEREIN IF THE CONTRACTOR DERIVED 50% OF ITS ANNUAL REVENUE FROM PUBLIC-USE SWIMMING POOL CONSTRUCTION FOR EACH OF THE LAST FIVE YEARS. THE CONTRACTOR MUST HAVE ALSO, IN THE LAST FIVE YEARS CONSTRUCTED AT LEAST FIVE (5) COMMERCIALLY DESIGNED MUNICIPAL AND PUBLIC-USE SWIMMING POOLS, EACH OF WHICH SHALL HAVE INCORPORATED A MINIMUM SIZE OF 6,000 SQUARE FEET OF WATER SURFACE AREA WITH A CONCRETE AND CERAMIC TILE PERIMETER OVERFLOW GUTTER AND SELF-MODULATING BALANCE TANK.** The Swimming Pool Contractor shall furnish and install the swimming pool tile and plaster finishes and all accessories necessary for a complete, functional swimming pool system, as herein described. Work shall include start-up, instruction of Owner's personnel, as-built drawings and warranties as required.

1.02 CODES, RULES, PERMITS, FEES

- A. The swimming pool renovation shall be constructed in strict accordance with the applicable provisions set forth by authorities having jurisdiction over swimming pool construction and operation in the State of California.
- B. The Swimming Pool Contractor shall give all necessary notices, obtain all permits, and pay all government sales taxes, fees, and other costs in connection with their work; file all necessary plans, prepare all documents and obtain all necessary approvals of governmental departments having jurisdiction; obtain all required certificates of inspection for their work and deliver same to the Designated Representative before request for acceptance and final payment for the work.
- C. The Swimming Pool Contractor shall include in the work any labor, materials, services, apparatus, or drawings in order to comply with all applicable laws, ordinances, rules and regulations, whether or not shown on Drawings and/or specified.

- D. The Swimming Pool Contractor shall submit all required documents and materials to all Governmental Departments having jurisdiction for any deferred approval items or substituted materials or products to obtain final approval to installation.

1.03 DESCRIPTION OF WORK

- A. Furnish and install swimming pool finishes, including ceramic tile and marble plaster or other waterproof finishes.
- B. After the initial filling of the swimming pool system(s), should any repairs, continuing work, or other Subcontractor responsibility require drainage or partial drainage of the swimming pool systems, the Swimming Pool Contractor shall be responsible for any subsequent refilling and shall complete the project with the swimming pool system(s) full of water, water in chemical balance, complete in every way, and in full operation.

1.04 ASSIGNED RESPONSIBILITIES AND RELATED WORK

- A. It is the intent of this section of the Specifications to clarify Work responsibilities of the trades directly and indirectly involved in construction of the pool systems. All labor, equipment, materials and supplies furnished by the Swimming Pool Contractor and other Subcontractors per the contractual agreement with the General Contractor and Owner and shall be as directed by the Owner through their Designated Representative.
- B. **THE SWIMMING POOL CONTRACTOR SHALL NOT SUBCONTRACT ANY PORTION OF THE SWIMMING POOL CONSTRUCTION TO ANYONE OTHER THAN A SUBCONTRACTOR THAT SATISFIES THE REQUIREMENTS OF SECTION 131100.**
- C. References to "swimming pool systems" shall include the swimming pools, equipment, and accessories.
- D. The Owner will provide one complete water filling of the swimming pool(s), but will not assume any responsibility for the swimming pool system(s) until they have been proved fully operational, complete in every way and accepted by the Designated Representative.

1.05 INTENT

- A. It is the intention of these specifications and Drawings to call for finished work, tested and ready for operation. Wherever the work "provide" is used, it shall mean "furnish and install complete and ready for use."
- B. Minor details not usually shown or specified, but necessary for proper installation and operation, shall be included in the work, the same as if herein specified or shown.

1.06 SCHEDULE OF VALUES

- A. Provide a Schedule of Values for all work specified in each of the technical specifications listed in the table below, regardless of whether the work is performed by the swimming pool contractor or others. Values listed shall be fully burdened, with contractor general conditions, overhead, profit and bonds included. Payments for swimming pool work

completed shall not be approved until Schedule of Values has been submitted to and approved by Architect.

SWIMMING POOL SCHEDULE OF VALUES			
No.	Section #	Description	Value
1.	131104	Swimming Pool Ceramic Tile	
2.	131105	Swimming Pool Plaster	
3.	131106	Swimming Pool Equipment	
Total			

1.07 SUBMITTAL PROCEDURES

- A. General: Electronic copies of CAD Drawings of the Contract Drawings will not be provided by Architect for Subcontractor's use in preparing submittals.
- B. Coordination: Coordinate preparation and processing submittals with performance construction activities.
 1. Coordinate each submittal with fabrication, purchasing, testing, delivery, other submittals, and related activities that require sequential activity. Coordinate transmittal of different types of submittals for related parts of the Work so processing will not be delayed because of need to review submittals concurrently for coordination.
 - a. Architect reserves the right to withhold action on a submittal requiring coordination with other submittals until related submittals are received.
- C. Submittals Schedule: Comply with requirements in Division 1 Section "Construction Progress Documentation" for list of submittals and time requirements for schedules performance of related construction activities.
- D. Processing Time: Allow enough time for submittal review, including time for re-submittals as follows. Time for review shall commence on Architect's receipt of submittal.
 1. Initial Review: Allow fifteen (15) days for initial review of each submittal. Allow additional time if processing must be delayed to permit coordination with subsequent submittals. Architect will advise Contract when a submittal being processed must be delayed for coordination.
 2. Concurrent Review: Where concurrent review of submittals by Architect's consultants, Owner, or other parties is required, allow twenty-one (21) days for initial review of each submittal.
 3. Direct Transmittal to Consultant: Where the Contract Documents indicate that submittals may be transmitted directly to Architect's consultants, provide duplicate copy of transmittal to Architect. Submittal will be returned to Architect before being returned to Subcontractor.
 4. If intermediate submittal is necessary, process it in same manner as initial submittal.
 5. Allow fifteen (15) days for processing each submittal.

6. No extension of the Contract Time will be authorized because of failure to transmit submittals enough in advance of the Work to permit processing.
- E. Identification: Place a title block on each submittal for identification.
1. Indicate name of firm or entity that prepared each submittal on title block.
 2. Provide a space on title block to record Subcontractor's review and approval markings and action take by Architect.
 3. Include the following information on title block for processing and recording action taken: (See Attached Sample)
 - a. Project name.
 - b. Date.
 - c. Name and address of Subcontractor.
 - d. Name of Subcontractor.
 - e. Name of Supplier.
 - f. Name of Manufacturer.
 - g. Unique identifier, including revision number.
 - h. Number and title of appropriate Specification Section.
 - i. Drawing number and detail references, as appropriate.
 - j. Other necessary identification.

Architect's Review Stamp and Comments

- F. Deviations: Highlight, encircle, or otherwise identify deviations from the Contract documents on submittal.
- G. On all catalogue or cut sheets identify which model or type is being submitted.
- H. Transmittal: Package each submittal individually and appropriately for transmittal and handling. Product data and shop drawings shall be packaged within a three-ring binder and colored samples shall be packaged on a heavy cardboard. Transmit each submittal using a transmittal form.
 - 1. On an attached separate sheet, prepared on Subcontractor's letterhead, record relevant information, request for data, revisions other than those requested by Architect on previous submittals and deviations from requirements of the Contract documents, including minor variations and limitations. Include the same label information as the related submittal.
 - 2. Include Subcontractor's certification stating that information submitted complies with requires of the Contract Documents.
 - 3. Transmittal Form: Provide locations on form for the following information:
 - a. Project name.
 - b. Date.
 - c. Destination (To:).
 - d. Source (From:).
 - e. Names of Subcontractor, manufacturer, and supplier.
 - f. Category and type of submittal.
 - g. Submittal purpose and description.
 - h. Remarks.
- I. Distribution: Furnish copies of final submittals to manufacturers, Subcontractors, suppliers, fabricators, installers, authorities having jurisdiction and others as necessary for performance of construction activities. Show distribution on transmittal forms.
- J. Use for Construction: Use only final submittals with mark indicating action taken by Architect in connection with construction.

1.08 SUBSTITUTIONS

- A. To obtain approval to use unspecified products, bidders shall submit requests for substitution at least ten (10) days prior to bid date. Requests shall only be considered if they clearly describe the product for which approval is asked, including all data necessary to demonstrate acceptability. All unspecified products and equipment will be considered on an "or equal" basis at the discretion of the Designated Representative. Requests for substitution received after the specified deadline will not be considered. Where a conflict exists between the requirements of the General Conditions / Special Conditions / Division 1 concerning substitutions and the requirements of this Article, this Article (Section 131100, Article 1.08) shall govern.
- B. Where the Swimming Pool Contractor proposes to use an item of equipment other than that specified or detailed on the Drawings which requires any redesign of the structure,

pipng or any other part of the layout, all such redesign and all new drawings (stamped by California Licensed Engineer) and detailing required shall be prepared by the Swimming Pool Contractor, at their own expense, submitted for review and approval by the Designated Representative prior to bid.

1.09 DRAWINGS

- A. Drawings are diagrammatic and indicate the general arrangement of the systems and work included in the Subcontractor. Drawings are not to be scaled. The architectural drawings and details shall be examined for exact dimensions. Where they are not definitely shown, this information shall be obtained from the Designated Representative.

1.10 SWIMMING POOL CONTRACTOR

- A. The swimming pool construction work as herein described and specified in Division 13 of the Project Manual shall be the complete responsibility of a qualified and specifically licensed (C-53 license classification within the State of California) Swimming Pool Contractor with extensive experience in commercial public use swimming pool installations.
- B. The Swimming Pool Contractor certifies that it meets the qualifications and experience requirements established in Swimming Pool General Requirements, Section 131100, as follows:
1. Contractor has derived 50% of its annual revenue from public-use swimming pool construction for each of the last five (5) years.
 2. Contractor has, in the last five (5) years, constructed at least five (5) commercially designed municipal and public-use swimming pools, each of which have incorporated a minimum size of 6,000 square feet of water surface area with a concrete and ceramic tile perimeter overflow gutter and self-modulating balance tank.
 3. The following list of projects meet the requirements of section (b) above and the contact as reference by the Contractor, the Awarding Authority of their agent or designee.

1.11 OPERATING INSTRUCTIONS

- A. The Swimming Pool Contractor shall determine from actual samples of pool water supplied by the Owner, the proper water management program necessary for maximum operating efficiency and comfort. The Swimming Pool Contractor shall provide the services of experienced personnel familiar with this type of pool system operation, in conformance with Section 131105 of the Specifications.

1.12 MAINTENANCE MANUALS

- A. The Swimming Pool Contractor shall provide six (6) bound sets for delivery to the Designated Representative of instructions for operating and maintaining all systems and equipment included in this Contract. Manufacturer's advertising literature or catalog pictures will not be acceptable for operating and maintenance instructions.
- B. Bound in ring binders shall be all parts lists, periodic maintenance instructions and troubleshooting guidelines for all pool equipment, including but not limited to filters, pumps, controllers, water chemistry control equipment, etc.

1.13 SECURE FROM THE OWNER

- A. A complete Owner-furnished filling of the swimming pools.
- B. The Owner's assistance, as specified herein, from the time of start-up until final written acceptance of the swimming pool system(s).
- C. Chemicals as required for swimming pool operation after Swimming Pool Contractor completes initial water chemistry balance and water treatment during the maintenance period described in Section 131105 of the Specifications.

1.14 WARRANTY

- A. The Swimming Pool Contractor shall warrant all swimming pool finishes and systems against defects in material and workmanship for a period of one year after the date of acceptance by the Owner. Any repair or replacement required due to defective material or workmanship will be promptly corrected by the Swimming Pool Contractor.

SECTION 131104

SWIMMING POOL CERAMIC TILE

PART 1 – GENERAL

1.01 WORK INCLUDED

- A. Swimming pool ceramic tile detailed on the Drawings, including, but not limited to, the following:
1. Waterline Tile.
 2. Lane Line / Target Tile / 4'-6" Depth Tile.
 3. Depth Marker Tile (at waterline).
 4. Trim Tile (at steps)

1.02 QUALITY ASSURANCE

- A. Qualifications of Workers:
1. The entity performing the work of this Section shall have been successfully engaged in the respective trade for at least five (5) years immediately prior to commencement of the Work.
 2. For actual construction operations, use only trained and experienced workers with a minimum of three (3) years experience with the materials and methods specified.
 3. Provide at least one person who shall be present at all times during execution of the work of this Section, with a minimum of five (5) years experience with the type of materials being installed, the referenced standards, and who shall direct all Work performed under this Section.
- B. Standards: In addition to complying with all pertinent codes and regulations:
1. Manufacture of all tile shall be in accordance with ANSI A-137.1.
 2. Install ceramic tile in accordance with the recommendations contained in the 2023 "Handbook for Ceramic Tile Installation" of the Tile Council of America, Inc.
- C. Tolerances: Install all swimming pool ceramic tile straight, true, plumb and square within a tolerance horizontally of one in 200 and a tolerance vertically of one in 500. Waterline and gutter bullnose tile shall be level to 1/8" (+/- 1/16") around entire perimeter of swimming pools.

1.03 SUBMITTALS AND SUBSTITUTIONS

- A. Provide submittals in conformance with the requirements of Section 013300.
- B. Samples: Submit samples of each color and pattern in the specified groups. Character samples can be representative for review prior to screening of actual tile.

- C. Master Grade Certificate: Prior to opening ceramic tile containers, submit a Master Grade Certificate, signed by the manufacturer of the tile used and issued when the shipment is made, stating the grade, kind of tile, identification marks for the tile containers, and the name and location of the Project.
- D. Specifications: Submit manufacturer's recommended installation specifications for the Work.
- E. Submit proof of qualifications as specified in Article 1.02.A of this Section.

1.04 PRODUCT HANDLING

- A. Delivery: Deliver all materials to the Project Site in the manufacturer's original unopened containers with all labels intact and legible.
- B. Storage: Store all materials under cover in a manner to prevent damage and contamination, and store only the specified materials at the Project site.
- C. Protection: Use all means necessary to protect swimming pool ceramic tile before, during and after installation and to protect the installed Work specified in other Sections.
- D. Replacements: In the event of damage, immediately make all repairs and replacements necessary to the approval of the Owner's Representative.

PART 2 – PRODUCTS

2.01 TILE

- A. Waterline Face Tile: (Replace any damaged to match existing)
 - 1. Material: All waterline face tile shall be glazed ceramic tile (Group III standard) as manufactured by Dal-Tile or approved equal.
 - 2. Size: 6 x 6 inches (match existing).
 - 3. Color: Dal-Tile #O-129, 'Sky Blue'. Contact Kylee Midura at kylee.midura@daltile.com (951) 757-4919. (Match existing)
- B. Lane Line / Target Tile / 4'-6" Depth Tile:
 - 1. Material: Group 3 quality, frost proof unglazed ceramic mosaic tile with absorption rate of less than 1% as manufactured by Dal-Tile or approved equal.
 - 2. Size: 1 x 1 inches.
Color: Dal-Tile #D-311, 'Black' for racing lane lines and end wall targets; #D-023 'Galaxy Blue' for 4'-6" depth tile.
- C. Depth Marker Tile (at waterline): (Replace any damaged to match existing)
 - 1. Material: Group 3 quality, frost proof unglazed ceramic mosaic tile with absorption rate of less than 1% as manufactured by Inlays Inc. or approved

- equal.
- 2. Size: 6 x 6 inches.
- 3. Color: Inlays Inc. 'NO' Series 'SM' and 'AB' Series 'SM'.

D. Trim Tile (on underwater steps):

- 1. Material: Group 3 quality, frost proof unglazed ceramic mosaic tile with absorption rate of less than 1% as manufactured by Dal-Tile or approved equal.
- 2. Size: 1 x 1 inches with S-812 quarter round. Color: Dal-Tile #D-311 'Black'.
- 3. Size: 2 x 6 inches with integral quarter round. Color: Black, non-slip. Inlays #CPC00022.

2.02 MORTAR

- A. Laticrete 3701 fortified mortar #LCR-37-1017.
- B. Site mortar mix shall comply with ASTM C270 standards
 - 1. Sand for Mortar: Comply with requirements of fine aggregate for concrete.
 - 2. Cement: Type I Portland Cement, conforming to ASTM C150.
 - 3. Hydrated Lime: Conforming to ASTM C206 or 207, Type S.
 - 4. Water: From a potable source.
- C. Water: From potable source.
- D. Mortar shall meet ASTM C627 standards.

2.03 THIN SET MORTAR

- A. Laticrete 254 Platinum. Laticrete, Custom or equal.
- B. Water from potable source.
- C. Mortar shall meet ASTM C627.

2.03 GROUT

- A. All tile grout shall be waterproof grout complying with the recommendations of TCA and ANSI A118.6 (4) standards. Grout color shall be grey for dark backgrounds, white for light backgrounds (verify colors with Architect).

2.04 OTHER MATERIALS

- A. All other materials, not specifically described but required for a complete and proper installation of ceramic tile as indicated on the Drawings, shall be new, first quality of their respective kinds, and subject to the approval of the Owner's Representative.

PART 3 – EXECUTION

3.01 SURFACE CONDITIONS

A. Inspection:

1. Prior to all Work of this Section, carefully inspect the installed Work of other trades and verify that all such Work is complete to the point where this installation may properly commence.
2. Verify that ceramic tile can be installed in accordance with the original design and all referenced standards.

B. Discrepancies:

1. In the event of discrepancy, immediately notify the Owner's Representative.
2. Do not proceed with installation in areas of discrepancy until all such discrepancies have been fully resolved.
3. Failure to notify the Owner's Representative and give written notice of discrepancies shall constitute acceptance by the Contractor of existing conditions as fit and proper to receive its Work.

3.02 INSTALLATION

A. Method:

1. Install all ceramic tile in strict accordance with installation method P601-90 of the 2023 Handbook for Ceramic Tile Installation of the Tile Council of America, Inc.
2. Be certain to install all ceramic tile perfectly level, flush, plumb, and to the finish grades and elevations indicated on the Drawings.

B. Interface:

1. Carefully establish and follow the required horizontal and vertical elevations to insure proper and adequate space for the work and materials of other trades.
2. Coordinate and cooperate as required with other trades to insure proper and adequate interface of ceramic tile Work with the Work of other trades.

3.03 GROUTING

- A. Follow grout manufacturer's recommendations as to grouting procedures and precautions.
- B. Remove all grout haze, observing grout manufacturer's recommendations as to use of acid and chemical cleaners.

3.04 EXTRA STOCK

- A. Provide one (1) unopened box of extra tile for 2.01A and 2.01B for Owners use at a future time.

3.05 CLEAN-UP

- A. Upon completion of the swimming pool ceramic tile installation, thoroughly clean and polish the exposed surfaces of tile work. Completely clean work area of debris and rubbish occasioned by this Work and dispose of to the approval of the Owner's Representative.

END OF SECTION

FOR COUNCIL APPROVAL
NOT FOR BIDDING

SECTION 131105

SWIMMING POOL PLASTER

PART 1 GENERAL

1.01 WORK INCLUDED

- A. Swimming pool plaster and waterproofing of swimming pool structures as indicated on the Drawings and herein specified.
- B. Start-up and operation instructions to Owner's operations and maintenance personnel and properly balance swimming pool water chemistry until the Owner takes occupancy.

1.02 QUALITY ASSURANCE

- A. Qualifications of Workers:
 - 1. The entity performing the work of this Section shall have been successfully engaged in the respective trade for at least five (5) years immediately prior to commencement of the Work.
 - 2. For actual construction operations, use only trained and experienced workers with a minimum of three (3) years' experience with the materials and methods specified.
 - 3. Provide at least one person who shall be present at all times during execution of the work of this Section, with a minimum of five (5) years' experience with the type of materials being installed, the referenced standards, and who shall direct all Work performed under this Section.
- B. Standards: Swimming pool plaster shall conform with requirements of Chapter 31B of California Building Code, latest edition. In addition, meet requirements of applicable portions of most current edition of the "Technical Manual," National Plasterers Council, Wauconda, Illinois.
- C. Start-up:
 - 1. Furnish a swimming pool water chemistry consultant, with a minimum of five (5) years' experience, possessing either AFO (Aquatic Facility Operator) or CPO (Certified Pool Operator) certification(s), to supervise and properly balance swimming pool water chemistry.
 - 2. Demonstrate to the Owner's Representative that all systems are fully operational and that calcium hardness, total alkalinity, chlorine residual and pH levels are within specified limits.
 - 3. Standards: Furnish labor and chemicals as required to condition the water properly to the following specifications:
 - a. Calcium Hardness: 200-400 parts per million (PPM)
 - b. Total Alkalinity: 80-100 PPM
 - c. Chlorine Residual: 1.00 to 2.0 PPM

d. pH Factor: 7.2 to 7.6

1.03 SUBMITTALS AND SUBSTITUTIONS

- A. Provide submittals in conformance with the requirements of Section 013300.
- B. Submit proof of qualifications as specified in Article 1.02.A and 1.02.C.1 of this Section.

1.04 PRODUCT HANDLING

- A. Delivery: Deliver materials to the Project Site in the manufacturer's original unopened containers with all labels intact and legible.
- B. Storage: Store materials under cover in a manner to prevent damage and contamination, and store only the specified materials at the Project Site.
- C. Protection: Use all means necessary to protect the swimming pool plaster before, during, and after installation and to protect the installed Work specified in other Sections.
- D. Replacements: In the event of damage, immediately make all repairs and replacements necessary to the approval of the Owner's Representative.

1.05 ENVIRONMENTAL CONDITIONS

- A. No plastering shall be done under unsuitable conditions of weather or temperature. No plastering shall be done when prevailing temperature is 40 degrees Fahrenheit or less.
- B. Do not install plaster during rain and, if rain commences after plastering has begun, immediately protect the plaster from rain by all means necessary until the plaster has set.
- C. Do not install plaster during wind greater than 10 mph and, if wind commences after plastering has begun, immediately protect the plaster from wind by all means necessary until the plaster has set.

PART 2 PRODUCTS

2.01 CEMENT / AGGREGATE

- A. Luna Quartz® tiny pebble finish by Wet Edge Technologies. Altima® quartz finish by Wet Edge Technologies. Pebble-Fina® pool finish by Pebble Technologies.

2.02 COLOR

- A. All swimming pool plaster shall be white in color. Wet Edge Technologies shall be Luna Quartz® "Polar White". Wet Edge Technologies shall be Altima® "White". Pebble Technology shall be Pebble-Fina® "Classico". Contractor to obtain written approval on selected pebble color from the local Health Department prior to installation. Submit cut sheet, color sample and written approval for review by Architect and Owner.

2.03 WATER

- A. Water for swimming pool plaster shall be clean and free from injurious amounts of acid, alkali, and organics.

PART 3 EXECUTION

3.01 SURFACE CONDITIONS

- A. Inspection:
 - 1. Prior to Work of this Section, carefully inspect the installed Work of other trades and verify that all such Work is complete to the point where this installation can properly commence.
 - 2. Verify that swimming pool plaster can be installed in accordance with the original design and all referenced standards, including proprietary application techniques and application training/certifications.
- B. Discrepancies:
 - 1. In the event of discrepancy, immediately notify the Owner's Representative.
 - 2. Do not proceed with installation in areas of discrepancy until all such discrepancies have been fully resolved.
 - 3. Failure to notify the Owner's Representative and give written notice of discrepancies shall constitute acceptance by the Contractor of existing conditions as fit and proper to receive the Work.

3.02 REMOVAL OF EXISTING TILE AND PLASTER FINISHES

- A. Surfaces to receive new tile and plaster shall have all existing finishes removed by use of chipping gun or pick down to original concrete/shotcrete surfaces, exposing a clean rough surface for installation of new finishes per plans.

3.03 INSTALLATION OF POOL PLASTER

- A. Outdoor Pool:
 - 1. Completion of other work: **DO NOT** commence plastering of swimming pool until the following conditions have been met:
 - a. The Health Department and/or other governing agencies have approved the pool for plaster.
 - b. All concrete pool deck construction is complete and the pool decks have been thoroughly cleaned.
 - c. All landscaping in areas adjacent to the pool(s) or spa(s) is complete and the landscape irrigation system is operable.
 - d. All painting in the pool area is complete.
 - e. All welding and grinding in locations adjacent to the pool area are complete.

- f. The backwash sewer connection is complete.
- g. Pool area perimeter fencing installation is complete.
- h. All trash and debris have been removed from areas adjacent to the pool, particularly those areas that are normally upwind from the pool.
- i. All dust raising construction and/or activities in areas adjacent to the pool are complete or mitigated.
- j. The circulation pump(s) is/are operational.
- k. The mechanical system has been flushed sufficiently to remove all dirt and debris from the piping system.
- l. All necessary chemicals (Chlorine, pH adjuster, Sodium Bicarbonate and Calcium Chloride or any other required chemicals) are on site and ready for use.
- m. Obtain written approval from the Owner's Representative and the Architect.

B. Contractor accepts all liability from damage done to the pool plaster if the pool is plastered before the completion of the above listed items or without the written approval of the Owner's Representative and the Architect.

C. **POOL PLASTER AUTHORIZATION FORM:**

- 1. The pool at **Mike Shellito Indoor Pool** is hereby approved for the installation of the pool plaster. Pursuant to the requirements of specification section 131105, paragraph 3.03.

Owner

Date

Architect / Project Manager

Date

E. Preparation:

- 1. Do not apply plaster over dirt, rust, scale, grease, moisture, scuffed surfaces or conditions otherwise detrimental to the formation of a durable plaster finish.
- 2. Consult with manufacturer on application to specific surfaces being treated. Follow manufacturer's recommendation for curing of cast-in-place concrete or shotcrete surfaces prior to application of plaster.
- 3. Protect ceramic tile, decking, deck equipment, gratings, fittings and other items by suitable covering or masking.
- 4. Mask or remove all hardware, hardware accessories, machined surfaces, plates, lighting fixtures and similar items in place not to receive pool plaster. Following completion of plaster for each space or area remove masking. Re-install all removed items utilizing workers skilled in the trades involved.

F. Application:

- 1. Finish shall be applied to a uniform thickness of 3/8" to 1/2" over the entire surface. The

walls shall be scratch-coated followed by a finish coat. Material applied to the floor after the walls have been applied shall be accelerated to assure uniform setting time throughout the pool surface.

2. Float the plaster to a uniform plane and trowel to a smooth, dense, impervious surface using extreme care to avoid stains.
3. Take special care in finishing around pool fittings, making sure to mask off or plug openings so as not to fill such openings with excess plaster. Be certain to completely enclose pool fittings with plaster to insure a leak-proof seal around pipes, fittings, lights, anchors, etc.
4. Accurately interface with the finish planes of items installed by other trades.
5. Quartz-cement plaster is to be applied by a licensed applicator as approved by the manufacturer, and in accordance with manufacturer's training.

3.04 CURING

- A. Preparation: Anticipate the need for required equipment and have all such equipment immediately available for use upon completion of pool plastering.
- B. Pool Filling:
 1. After the plaster has sufficiently dried and before drying has proceeded to a damaging point, cure the plaster by gradually filling the pool with water, preventing all damage to finished plaster surfaces.
 2. Flow the water continuously until the pool is filled.
 3. When the weather is hot and/or water pressure is low, keep the pool walls damp while the pool is filling.
 4. Coordinate with Contractor to ensure that the pool is continuously monitored while filling to prevent overflow.

3.05 EQUIPMENT ACTIVATION

- A. All water chemistry and filtration mechanical equipment shall be operational upon filling of pool after plaster. Chemicals and other related support items as supplied by Contractor, shall be in supply at start-up.
- B. For the first seven (7) calendar days after completion of the pool plaster, brush all plastered surfaces at least twice a day and coordinate with General Contractor to ensure that the plaster is carefully maintained after the initial seven-day period. In addition, coordinate with the Contractor to ensure that pool filtration equipment is continuously running during the initial seven-day period.
- C. Start-up and provide qualified personnel to operate pool equipment for a period not less than seven (7) days after the pool is placed in operation, or until the Owner takes occupancy of the facility or letter of substantial completion. During this time, Contractor shall instruct and supervise the Owner's personnel in the various operating and maintenance techniques involved. Contractor shall be responsible for supply of chemicals during this not less than seven (7) day period and at time of turnover to Owner, chemical storage tanks shall be full. (Owner's personnel shall be fully trained and capable of

assuming swimming pool maintenance tasks, training may begin before Owner takes occupancy).

3.06 CLEAN-UP

- A. Upon completion of swimming pool plaster, remove all materials, equipment and debris occasioned by this Work and leave the job site in a clean and presentable condition. Perform all such clean-up to the approval of the Owner's Representative.

3.07 WARRANTY

- A. All applicators must provide a minimum of five (5) year warranty for application and workmanship additional to the manufacturer's warranty for product.

END OF SECTION

FOR COUNCIL APPROVAL
NOT FOR BIDDING

SECTION 131106

SWIMMING POOL EQUIPMENT

PART 1 GENERAL

1.01 WORK INCLUDED

- A. Swimming pool equipment items required for this Work as indicated on the Drawings and specified herein.

1.02 QUALITY ASSURANCE

- A. Qualifications of Workers:
 - 1. The entity performing the work of this Section shall have been successfully engaged in the respective trade for at least five (5) years immediately prior to commencement of the Work.
 - 2. For actual construction operations, use only trained and experienced workers with a minimum of three (3) years experience with the materials and methods specified.
 - 3. Provide at least one person who shall be present at all times during execution of the work of this Section, with a minimum of five (5) years experience with the type of materials being installed, the referenced standards, and who shall direct all Work performed under this Section.
- B. All equipment supplied or work performed shall comply with regulations governing public swimming pools and spas as contained within Chapter 31 of California Building Code, latest edition.

1.03 SUBMITTALS AND SUBSTITUTIONS

- A. Provide submittals in conformance with the requirements of Section 013300.
- B. Required submittals include:
 - 1. Swimming Pool Fittings as specified in Article 2.01 of this Section.
 - 2. Swimming Pool Deck Equipment as specified in Article 2.02 of this Section.
- C. Submit proof of qualifications as specified in Article 1.02.A of this Section.
- D. The equipment shown on the plans represent the first listed items in the technical specifications. The Contractor shall be responsible for all required field coordination and installation of any approved equal product to provide a fully working and warranted system. The Contractor shall submit detailed shop drawings for any products used other than the first listed specified items. Contractor provided shop drawings shall include details and quality equal to the original plans and construction documents. The Contractor shall provide any and all required engineering including but not limited to structural and anchorage requirements for any proposed equipment other than the first

listed specified equipment. The Contractor is responsible to provide a factory certified representative(s) to start-up and provide on-site training for all swimming pool mechanical equipment provided.

1.04 PRODUCT HANDLING

- A. Protection: Use all means necessary to protect swimming pool equipment items before, during and after installation and to protect the installed work specified in other Sections.
- B. Replacements: In the event of damage, immediately make all repairs and replacements necessary to the approval of the Owner's Representative.

PART 2 – PRODUCTS

2.01 FITTINGS

- A. (N) Main Drain Frame & Grate (18" x 18"), two (2) total. Lawson Aquatics #MLD-FGD-1818. Provide (N) main drain frame and grate 12" x 12", two (2) total. Lawson Aquatics #MLD-FGD-1212, two (2) total. Provide VGBA certification provided to the Owner and Health Department.
- B. Floor Return Inlet 1-1/2" Adjustable: Swimquip #8417, United Industries, or approved equal. Twenty-seven (27) total. Replace all inlet covers and any damaged floor inlets complete due to demolition and construction.
- C. Provide new underwater light face rings to match existing. Tap all striped mounting screws for attachment of underwater lights to existing niches, utilizing stainless steel screws. Eighteen (18) lights total.

2.02 DECK EQUIPMENT

- A. (N) Recessed Grabrail Steps, Set of 3: KDI-Paragon #32102, no known equal. Five (5) sets required.

PART 3 EXECUTION

3.01 SURFACE CONDITIONS

- A. Inspection:
 - 1. Prior to installing the items of this Section, carefully inspect the installed Work of other trades and verify that all such Work is complete to the point where this installation may properly commence.
 - 2. Verify that the swimming pool equipment items may be installed in strict accordance with original design, pertinent codes and regulations, and the manufacturers' recommendations.

B. Discrepancies:

1. In the event of discrepancy, immediately notify the Owner's Representative.
2. Do not proceed with installation in areas of discrepancy until all such discrepancies are fully resolved.
3. Failure to notify the Owner's Representative and give written notice of discrepancies shall constitute acceptance by the Installer of existing conditions as fit and proper to receive its Work.

3.02 INSTALLATION

- A. Supply and install items of swimming pool equipment in strict accordance with applicable codes and regulations, the original design, and the manufacturer's published recommendations, anchoring firmly and securely for long life under hard use.
- B. Coordinate with other trades to insure all imbedded items are set plumb and flush. Railing ends must have anchor sockets and escutcheon plates. Be certain that deck equipment and railings are properly bonded prior to imbedding.
- C. All equipment shall be braced and/or anchored to resist a horizontal force acting in any direction using the criteria shown on the Drawings.

3.03 INSTRUCTION

- A. The Contractor shall provide a factory certified representative(s) to start-up and certify proper installation, operation and full warranty status of all swimming pool mechanical equipment. The Contractor shall provide not less than one 4-hour session of on-site training for facility staff in the operation and maintenance of the swimming pool mechanical equipment and systems, and shall be completed within the 7-day start-up period.

3.04 EQUIPMENT ACTIVATION

- A. All water chemistry and filtration mechanical equipment shall be operational upon filling of pool after plaster. Chemicals and other related support items as supplied by Contractor, shall be in supply at start-up.
- B. For the first seven (7) calendar days after completion of the pool plaster, brush all plastered surfaces at least twice a day and coordinate with General Contractor to ensure that the plaster is carefully maintained after the initial seven-day period. In addition, coordinate with the Contractor to ensure that pool filtration equipment is continuously running during the initial fourteen-day period.
- C. Start-up and provide qualified personnel to operate pool equipment for a period not less than seven (7) days after the pool is placed in operation, or until the Owner takes occupancy of the facility or letter of substantial completion. During this time, Contractor shall instruct and supervise the Owner's personnel in the various operating and maintenance techniques involved. Contractor shall be responsible for supply of chemicals during this not less than seven (7) day period and at time of turnover to Owner, chemical

storage tanks shall be full. (Owner's personnel shall be fully trained and capable of assuming swimming pool maintenance tasks, training may begin before Owner takes occupancy).

3.05 CLEAN-UP

- A. Upon completion of swimming pool equipment, remove all debris, materials and equipment occasioned by this Work to the approval of the Owner's Representative.

TEXT OF AB 626

Assembly Bill No. 626

CHAPTER 810

An act to add and repeal Section 9204 of the Public Contract Code, relating to public contracts.

[Approved by Governor September 29, 2016. Filed with Secretary of State September 29, 2016.]

LEGISLATIVE COUNSEL'S DIGEST

AB 626, Chiu. Public contracts: claim resolution.

Existing law prescribes various requirements regarding the formation, content, and enforcement of state and local public contracts. Existing law applicable to state public contracts generally requires that the resolution of claims related to those contracts be subject to arbitration. Existing law applicable to local agency contracts prescribes a process for the resolution of claims related to those contracts of \$375,000 or less.

This bill would establish, for contracts entered into on or after January 1, 2017, a claim resolution process applicable to any claim by a contractor in connection with a public works project. The bill would define a claim as a separate demand by the contractor for one or more of the following: a time extension for relief from damages or penalties for delay, payment of money or damages arising from work done pursuant to the contract for a public work, or payment of an amount disputed by the public entity, as specified.

This bill would require a public entity, defined to exclude certain state entities, upon receipt of a claim sent by registered or certified mail, to review it and, within 45 days, provide a written statement identifying the disputed and undisputed portions of the claim. The bill would authorize the 45-day period to be extended by mutual agreement. The bill would require any payment due on an undisputed portion of the claim to be processed within 60 days, as specified. The bill would require that the claim be deemed rejected in its entirety if the public entity fails to issue the written statement.

This bill would authorize, if the claimant disputes the public entity's written response or if the public entity fails to respond to a claim within the time prescribed, the claimant to demand to meet and confer for settlement of the issues in dispute. The bill would require any disputed portion of the claim that remains in dispute after the meet and confer conference to be subject to nonbinding mediation, as specified. The bill would provide that unpaid claim amounts accrue interest at 7% per annum. The bill would prescribe a procedure by which a subcontractor or lower tier contractor may make a claim through the contractor.

This bill would require the text of these provisions, or a summary, to be set forth in the plans or specifications for any public work which may give rise to a claim. The bill would specify that a waiver of these rights is void and contrary to public policy, except as specified. The bill would also specify that it does not impose liability on a public entity that makes loans or grants available through a competitive application process, for the failure of an awardee to meet its contractual obligations.

By increasing the duties of local agencies and officials, this bill would impose a state-mandated local program.

This bill would, on January 1, 2020, repeal the provision establishing the claim resolution process.

This bill would specify that these provisions constitute a matter of statewide concern.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

The people of the State of California do enact as follows:

SECTION 1. Section 9204 is added to the Public Contract Code, to read:

9204. (a) The Legislature finds and declares that it is in the best interests of the state and its citizens to ensure that all construction business performed on a public works project in the state that is complete and not in dispute is paid in full and in a timely manner.

(b) Notwithstanding any other law, including, but not limited to, Article 7.1 (commencing with Section 10240) of Chapter 1 of Part 2, Chapter 10 (commencing with Section 19100) of Part 2, and Article 1.5 (commencing with Section 20104) of Chapter 1 of Part 3, this section shall apply to any claim by a contractor in connection with a public works project.

(c) For purposes of this section:

(1) "Claim" means a separate demand by a contractor sent by registered mail or certified mail with return receipt requested, for one or more of the following:

(A) A time extension, including, without limitation, for relief from damages or penalties for delay assessed by a public entity under a contract for a public works project.

(B) Payment by the public entity of money or damages arising from work done by, or on behalf of, the contractor pursuant to the contract for a public works project and payment for which is not otherwise expressly provided or to which the claimant is not otherwise entitled.

(C) Payment of an amount that is disputed by the public entity.

(2) "Contractor" means any type of contractor within the meaning of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code who has entered into a direct contract with a public entity for a public works project.

(3) (A) "Public entity" means, without limitation, except as provided in subparagraph (B), a state agency, department, office, division, bureau, board, or commission, the California State University, the University of California, a city, including a charter city, county, including a charter county, city and county, including a charter city and county, district, special district, public authority, political subdivision, public corporation, or nonprofit transit corporation wholly owned by a public agency and formed to carry out the purposes of the public agency.

(B) "Public entity" shall not include the following:

(i) The Department of Water Resources as to any project under the jurisdiction of that department.

(ii) The Department of Transportation as to any project under the jurisdiction of that department.

(iii) The Department of Parks and Recreation as to any project under the jurisdiction of that department.

(iv) The Department of Corrections and Rehabilitation with respect to any project under its jurisdiction pursuant to Chapter 11 (commencing with Section 7000) of Title 7 of Part 3 of the Penal Code.

(v) The Military Department as to any project under the jurisdiction of that department.

(vi) The Department of General Services as to all other projects.

(vii) The High-Speed Rail Authority.

(4) "Public works project" means the erection, construction, alteration, repair, or improvement of any public structure, building, road, or other public improvement of any kind.

(5) "Subcontractor" means any type of contractor within the meaning of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code who either is in direct contract with a contractor or is a lower tier subcontractor.

(d) (1) (A) Upon receipt of a claim pursuant to this section, the public entity to which the claim applies shall conduct a reasonable review of the claim and, within a period not to exceed 45 days, shall provide the claimant a written statement identifying what portion of the claim is disputed and what portion is undisputed. Upon receipt of a claim, a public entity and a contractor may, by mutual agreement, extend the time period provided in this subdivision.

(B) The claimant shall furnish reasonable documentation to support the claim.

(C) If the public entity needs approval from its governing body to provide the claimant a written statement identifying the disputed portion and the undisputed portion of the claim, and the governing body does not meet within the 45 days or within the mutually agreed to extension of time following receipt of a claim sent by registered mail or certified mail, return receipt requested, the public entity shall have up to three days following the next duly publicly noticed meeting of the governing body after the 45-day period, or extension, expires to provide the claimant a written statement identifying the disputed portion and the undisputed portion.

(D) Any payment due on an undisputed portion of the claim shall be processed and made within 60 days after the public entity issues its written statement. If the public entity fails to issue a written statement, paragraph (3) shall apply.

(2) (A) If the claimant disputes the public entity's written response, or if the public entity fails to respond to a claim issued pursuant to this section within the time prescribed, the claimant may demand in writing an informal conference to meet and confer for settlement of the issues in dispute. Upon receipt of a demand in writing sent by registered mail or certified mail, return receipt requested, the public entity shall schedule a meet and confer conference within 30 days for settlement of the dispute.

(B) Within 10 business days following the conclusion of the meet and confer conference, if the claim or any portion of the claim remains in dispute, the public entity shall provide the claimant a written statement identifying the portion of the claim that remains in dispute and the portion that is undisputed. Any payment due on an undisputed portion of the claim shall be processed and made within 60 days after the public entity issues its written statement. Any disputed portion of the claim, as identified by the contractor in writing, shall be submitted to nonbinding mediation, with the public entity and the claimant sharing the associated costs equally. The public entity and claimant shall mutually agree to a mediator within 10 business days after the disputed portion of the claim has been identified in writing. If the parties cannot agree upon a mediator, each party shall select a mediator and those mediators shall select a qualified neutral third party to mediate with regard to the disputed portion of the claim. Each

party shall bear the fees and costs charged by its respective mediator in connection with the selection of the neutral mediator. If mediation is unsuccessful, the parts of the claim remaining in dispute shall be subject to applicable procedures outside this section.

(C) For purposes of this section, mediation includes any nonbinding process, including, but not limited to, neutral evaluation or a dispute review board, in which an independent third party or board assists the parties in dispute resolution through negotiation or by issuance of an evaluation. Any mediation utilized shall conform to the timeframes in this section.

(D) Unless otherwise agreed to by the public entity and the contractor in writing, the mediation conducted pursuant to this section shall excuse any further obligation under Section 20104.4 to mediate after litigation has been commenced.

(E) This section does not preclude a public entity from requiring arbitration of disputes under private arbitration or the Public Works Contract Arbitration Program, if mediation under this section does not resolve the parties' dispute.

(3) Failure by the public entity to respond to a claim from a contractor within the time periods described in this subdivision or to otherwise meet the time requirements of this section shall result in the claim being deemed rejected in its entirety. A claim that is denied by reason of the public entity's failure to have responded to a claim, or its failure to otherwise meet the time requirements of this section, shall not constitute an adverse finding with regard to the merits of the claim or the responsibility or qualifications of the claimant.

(4) Amounts not paid in a timely manner as required by this section shall bear interest at 7 percent per annum.

(5) If a subcontractor or a lower tier subcontractor lacks legal standing to assert a claim against a public entity because privity of contract does not exist, the contractor may present to the public entity a claim on behalf of a subcontractor or lower tier subcontractor. A subcontractor may request in writing, either on his or her own behalf or on behalf of a lower tier subcontractor, that the contractor present a claim for work which was performed by the subcontractor or by a lower tier subcontractor on behalf of the subcontractor. The subcontractor requesting that the claim be presented to the public entity shall furnish reasonable documentation to support the claim. Within 45 days of receipt of this written request, the contractor shall notify the subcontractor in writing as to whether the contractor presented the claim to the public entity and, if the original contractor did not present the claim, provide the subcontractor with a statement of the reasons for not having done so.

(e) The text of this section or a summary of it shall be set forth in the plans or specifications for any public works project that may give rise to a claim under this section.

(f) A waiver of the rights granted by this section is void and contrary to public policy, provided, however, that (1) upon receipt of a claim, the parties may mutually agree to waive, in writing, mediation and proceed directly to the commencement of a civil action or binding arbitration, as applicable; and (2) a public entity may prescribe reasonable change order, claim, and dispute resolution procedures and requirements in addition to the provisions of this section, so long as the contractual provisions do not conflict with or otherwise impair the timeframes and procedures set forth in this section.

(g) This section applies to contracts entered into on or after January 1, 2017.

(h) Nothing in this section shall impose liability upon a public entity that makes loans or grants available through a competitive application process, for the failure of an awardee to meet its contractual obligations.

(i) This section shall remain in effect only until January 1, 2020, and as of that date is

repealed, unless a later enacted statute, that is enacted before January 1, 2020, deletes or extends that date.

SECTION 2.

The Legislature finds and declares that it is of statewide concern to require a charter city, charter county, or charter city and county to follow a prescribed claims resolution process to ensure there are uniform and equitable procurement practices.

SECTION 3.

If the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code.

DEMOLITION/CONSTRUCTION NOTES

- THE CONTRACTOR SHALL COORDINATE DEMOLITION WITH OTHER TRADES, AND SHALL PROTECT ALL EXISTING WORK, BUILDINGS, UTILITIES, ETC. TO REMAIN AS REQUIRED FOR RENOVATION OF SWIMMING POOL.
- COORDINATE INGRESS/EGRESS AND HAUL ROUTES WITH THE OWNER PRIOR TO START OF WORK.
- POOL PLAN VIEWS AND SECTIONS ARE SHOWN FOR CONTRACTOR INFORMATION AND ASSISTANCE. THE CONTRACTOR IS RESPONSIBLE FOR INDIVIDUAL SQUARE FOOTAGE TAKE-OFFS AND ESTIMATIONS WITH REGARD TO DEMOLITION, PREPARATION, AS WELL AS MEANS AND METHODS OF CONSTRUCTION. CONTRACTOR SHALL VISIT THE SITE AS REQUIRED TO ACCOMPLISH THE WORK, AND TO BECOME FAMILIAR WITH SCOPE AND SERVICES OF WORK REQUIRED.
- COORDINATE PROPOSED CONTRACTOR STAGING AREA WITH THE OWNER PRIOR TO CONSTRUCTION. PROVIDE TEMPORARY PHONE, TOILET(S), FENCING, GATES, ETC. AS REQUIRED.
- REMOVE EXISTING LANE LINE TILE, STEP TRIM TILE, 4'-6" DEPTH TILE AND ALL PLASTER FINISHES DOWN TO ORIGINAL SOUND CONCRETE/SHOTCRETE. ANY CRACKS SHALL BE CHIPPED OUT TO A MINIMUM TO 3/4"x3/4" AND THEN FILLED FLUSH WITH NON-SHRINK GROUT. ALL EXPOSED REBAR, RUST SPOTS, ETC. SHALL BE EXPOSED, BUSHED DOWN 1/2" BELOW FINISH SURFACE, ZINC COATED AND FILLED FLUSH WITH NON-SHRINK GROUT. OTHER IMPERFECTIONS IN THE POOL SHELL SHALL BE REPAIRED PRIOR TO INSTALLING A NEW WHITE PLASTER FINISH. REMOVE AND REPLACE ANY DAMAGED 6" x 6" WATERLINE TILE TO MATCH EXISTING. PRICE 20 LINEAR FT. WITH BID.
- PROTECT EXISTING SURFACE SKIMMERS, WATER LEVEL NICHES AND ROPE ANCHORS.
- PROVIDE NEW TILE AND PLASTER FINISHES PER PLANS.
- REMOVE AND REPLACE ALL FLOOR INLET COVERS AND REPLACED ANY DAMAGED PER PLANS AND SPECIFICATIONS.
- REMOVE AND REPLACE ANY DAMAGED GRABRAIL STEPS PER PLANS.
- THE CONTRACTOR SHALL INSURE THAT ALL SURFACES ARE PREPARED TO RECEIVE PLASTER FINISH. WEATHER CONDITIONS SHALL BECOME A CRITICAL PART OF WORK AND SHALL BE TAKEN INTO CONSIDERATION AT THE TIME OF PLASTER APPLICATION.
- THE CONTRACTOR SHALL PROVIDE A SUFFICIENT NUMBER OF WORKERS TO INSURE THAT THE ENTIRE POOL CAN BE PLASTERED IN A SINGLE DAY OR SHALL PROVIDE CONTINUAL MISTING OF PLASTERED SURFACES TO INSURE THAT PLASTER IS NOT EXPOSED TO THE AIR FOR A PERIOD OF TIME WHICH WOULD CAUSE DAMAGE IN ANY WAY.
- THE OWNER SHALL IDENTIFY THE POOL FILL WATER SOURCE FROM CLOSEST FIRE HYDRANT AND SHALL PAY FOR THE WATER TO FILL THE POOL. THE CONTRACTOR IS RESPONSIBLE FOR FIRE HOSE, HOSES, FILLING AND PROTECTION OF PLASTER SURFACES. FILL SOURCE SHALL BE BLOW-OFF. INITIALLY TO PROVIDE A CLEAN DOMESTIC WATER SOURCE. THE CONTRACTOR SHALL PROVIDE CONTINUOUS FILL UNTIL THE WATER IS AT OPERATIONAL LEVEL. THE CONTRACTOR SHALL BE RESPONSIBLE FOR CLEANING AND BALANCING OF THE POOL WATER FOR A PERIOD OF NOT LESS THAN SEVEN (7) DAYS AFTER PLASTER. THE CONTRACTOR SHALL COORDINATE HIS EFFORTS WITH OWNERS STAFF TO PROVIDE INSTRUCTION AND TRAINING IN PROPER OPERATION OF POOL IN CONJUNCTION WITH NEW PLASTER SURFACES.
- THE CONTRACTOR SHALL REMOVE AND REPLACE THE EXISTING 12'x 12" AND 18' x 18" MAIN DRAIN FRAMES AND GRATES. THE CONTRACTOR SHALL PROVIDE VGBA CERTIFICATION TO THE OWNER AND HEALTH DEPARTMENT.
- CONTRACTOR IS TO PHOTOGRAPH AND DOCUMENT ON A PLAN ANY AND ALL EXISTING DAMAGED ITEMS/SURFACES FINISHES IN AND IMMEDIATELY AROUND THE WORK AREA AND ALONG ALL WORK PATHS FROM STAGING AREA PRIOR TO THE START OF WORK. CONTRACTOR IS TO SITE WALK ALL EXISTING DAMAGED AREAS WITH THE OWNER AND PROVIDE A COPY OF THE PHOTOGRAPHS AND DOCUMENTATION BEFORE WORK BEGINS. FAILURE TO PROVIDE THIS INFORMATION REPRESENTS ACCEPTANCE BY THE CONTRACTOR THAT ALL EXISTING SURROUNDING FINISHES (CONCRETE, AC PAVING, FLOORING, ETC.) AND ALL GATES, DOORS, PATHWAYS, ETC. ARE UNDAMAGED AND IN CLEAN AND FUNCTIONING CONDITION, AND CONTRACTOR ACCEPTS THE RESPONSIBILITY TO MAINTAIN AND CORRECT ANY DAMAGE LATER FOUND BY THE OWNER DURING CONSTRUCTION PERIOD IN THESE AREAS AT NO EXPENSE TO THE OWNER.
- PROVIDE NEW UNDERWATER LIGHT FACE RINGS TO MATCH EXISTING. RE-TAP ALL STRIPPED MOUNTING SCREWS FOR ATTACHMENT OF UNDERWATER LIGHTS TO EXISTING NICHES, UTILIZING STAINLESS STEEL SCREWS. EIGHTEEN (18) LIGHTS TOTAL.

COUNCIL COMMUNICATION

CC #: 2585
File #: 0704-01

Title: Sports Fencing Project - Approval of Plans and Specifications and Authorization to Call for Bids
Contact: Joel De Jong 916-774-5924 jdejong@roseville.ca.us

Meeting Date: 3/15/2023
Item #: 6.3.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council approve the plans and specifications for the Maidu, Central and Crabb Parks Sports Fencing Project and authorize staff to call for bids.

BACKGROUND

At the September 7, 2022 meeting, City Council approved a grant agreement between the City of Roseville and Placer Valley Tourism for \$250,000 towards the fencing at the Maidu soccer fields and the Crabb Park and Central Park ball fields. This project includes the installation of fencing enclosing the five Maidu Regional Park soccer fields and installs outfield fences at each of the Central Park and Crabb Park ball fields. Irrigation modifications to accommodate the new fencing are included. Additive alternates have been identified and include concrete mow bands under the fencing at each location, installation of warning tracks at the ball field fences, and a gravel walking shoulder along the fencing adjacent to the bike path at Maidu. Bids are scheduled to be opened in April. Staff plans to return to Council in May to seek approval to award the project.

FISCAL IMPACT

The architect's estimate for construction is \$501,160. Funding for the project is provided from a combination of \$250,000 in grant funds, provided by Placer Valley Tourism, and the balance through the City's General Fund Capital Reserve Fund (1012). Ongoing maintenance costs are currently funded through the Parks, Recreation & Libraries operating budget in the General Fund. There will be no additional maintenance cost as a result of this project.

ENVIRONMENTAL REVIEW

The proposed project involves the minor alteration of an existing facility and the construction of a limited number of small facilities. These activities are categorically exempt from CEQA as Class 1 (Existing Facilities) and 3 (New Construction or Conversion of Small Structures) Categorical Exemptions (State CEQA Guidelines Section 15301, 15302, and 15303). The Exemption has

been prepared and no further CEQA action is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal A - Remain fiscally responsible in a changing world

Goal C - Maintain a safe and healthy community

Goal D - Enhance economic vitality

Goal E - Deliver exceptional city services

Respectfully Submitted,

Joel De Jong, Park Development Project Manager

Jill Geller, Director, Parks, Recreation & Libraries

Notice to Bidders

DATE: March 16, 2023

TO: Prospective Bidders

FROM: Joel De Jong, Park Development Project Manager

RE: Sports Fencing Project

Project Description: The City of Roseville is now accepting bid proposals for the Sports Fencing Project. The scope of work includes, but is not limited to: Installation of new chain link fencing at three separate parks with sports fields, concrete mow curbs, associated irrigation modifications, and installation of various aggregate surfaces.

Contract Documents: A Project Manual, including all Contract Documents and the Proposal forms for bidding this project, may be obtained online from the City of Roseville's website at www.roseville.ca.us/business/procurement_services/bids_rfps. All communications relative to this project shall be conducted through Public Purchase.

Potential bidders are advised to obtain all documents and specifications related to this project directly from the City of Roseville. The City of Roseville does not guarantee the accuracy of any forms, plans, or project manuals obtained through outside sources other than the City of Roseville. Furthermore, the City does not guarantee the distribution of any addendums or the accuracy of their content if obtained from a third party.

Bidders expressly assume the risk that their bid will be rejected from the use of project manuals or project plans obtained from third parties other than the City of Roseville.

Engineer's Estimate: The engineer's estimate for construction of the base bid items is \$501,160.

Pre-Bid Meeting: There will be no pre-bid meeting for this project. Bidders are expected to be familiar with the existing site conditions however, and may pose questions on any conditions they may discover that are not represented within the bid documents.

Questions: The deadline for submission of questions and clarifications regarding the Contract Documents is Friday, March 31, 2023 at 5:00 p.m. In order to meet the required timeline to issue addenda, questions will not be accepted after this date. Only Addenda issued by the City are binding. All questions shall be directed to the attention of Joel De Jong via Public Purchase at <https://roseville.ca.us/rfp>.

Bid Deadline: Proposals will be received at the Office of the City Clerk, 311 Vernon Street, Roseville, California, until 3:00 p.m. April 11, 2023. The proposals will be publicly opened and read by the City Clerk or designee of the City of Roseville in the City Clerk's Office at 3:05 p.m. on that same day.

The July 2021 edition of the City of Roseville Parks Construction Standards will be applicable to this project. The successful bidder will be required to use the standards contained in the book for the construction of this project.

Parks, Recreation & Libraries
Park Development
316 Vernon Street, Suite 400
Roseville CA 95678

Notice to the apparent low bidder for the Sports Fencing Project

In order to move forward with the award of this project, the City of Roseville requests that you submit the following documents:

1. Agreement (two sets of originals, single-side print) with either:
 - wet signatures from two corporate officers, or
 - wet signature from one corporate office plus the corporate seal
2. Public Works Faithful Performance Bond – fully executed and notarized
3. Public Works Labor and Materials Payment Bond – fully executed and notarized
4. Insurance Certificates
5. CDBG Supplement to Contract for Construction Forms

The Agreement, bond forms and insurance requirements are contained in this Project Manual.

We request that all documents be received by April 21, 2023.

Please contact us if you are unable to meet this deadline.

Send completed forms to:

City of Roseville - Parks, Recreation & Libraries Department
Attn: Joel De Jong
316 Vernon Street, Suite 400
Roseville CA 95678

The Parks, Recreation & Libraries Department requires submittal of all of the above executed documents prior to City Council bid award.

Name of Project: Sports Fencing Project

NOTICE TO CONTRACTORS

NOTICE IS HEREBY GIVEN THAT sealed Proposals will be received at the Office of the City Clerk, 311 Vernon Street, Roseville, California, until April 11, 2023 at 3:00 p.m. Late Proposals will be rejected. No exceptions.

The Proposals will be publicly opened and read by the City Clerk or designee of the City of Roseville at 3:05 p.m. on April 11, 2023 at the Office of the City Clerk located at 311 Vernon Street, Roseville California for the following project:

Mike Shellito Indoor Pool Replastering Project.

A pre-bid meeting will be held at N/A

A Project Manual, including all Contract Documents and the Proposal forms for bidding this project, may be obtained on-line from the City of Roseville's website at https://www.roseville.ca.us/business/procurement_services/bids_rfps. All communications relative to this project shall be conducted through Public Purchase.

Bids shall be submitted on the City's Proposal Forms included in the Project Manual, plainly endorsed with the Bidder's name together with signed acknowledgement of any and all addenda. Proposal Forms shall be securely sealed in a suitable envelope marked with the name and address of the Bidder, and marked in capital letters on the front and back of the envelope as

follows:

[NAME OF PROJECT]

(Name of Bidder)

(Address of Bidder)

Whether mailed or personally delivered, all bids shall be addressed to the City of Roseville, Office of the City Clerk, 311 Vernon Street, Roseville, California, 95678.

Each bid must be accompanied by a Bid Guaranty in the form of a Certificate of Deposit, Certified or Cashier's Check, Bidder's Bond or Irrevocable Standby Letter of Credit in an amount equal to at least ten percent (10%) of the Bidder's Grand Total Price. The Bid Guaranty will be retained by the City and applied to any and all damages sustained by the City in the event that the successful Bidder fails or refuses to enter into the Contract awarded to it and to furnish all required bonds and Certificates of Insurance. The City intends to award the Contract to the lowest responsible Bidder based on the Grand Total Bid Price for all components of the Project. To the extent allowed by law, the City reserves the right to reject any and all bids and/or to waive any irregularities or informalities in any bid or in the bidding procedure. The City specifically reserves the right to not award the Contract after the opening of bids.

Any bid may be withdrawn at any time prior to the time fixed in the public notice for the deadline submission of bids only by written request for the withdrawal of the bid filed with the City Clerk. The request shall be executed by the Bidder or his or her duly authorized representative. The withdrawal of a bid does not prejudice the right of the Bidder to file a new bid by the submission deadline. Whether or not bids are opened exactly at the time fixed in the public notice for opening bids, a bid will not be received after the deadline submission of bids

nor may any bid be withdrawn after the time fixed in the public notice for deadline for submission of bids. Immediately following the deadline for submission of bids all bids shall become the property of the City of Roseville and the City is under no obligation to return bids.

Bids will be examined and reported to the City Council within sixty (60) business days after the bid opening. Except as permitted by applicable law, no Bidder may withdraw its bid for a period of sixty (60) business days after the date of bid opening. Each Bidder will be notified of any award of the Contract by the City.

The City will affirmatively ensure non-discrimination on the basis of one or more of the following: race, religious creed, color, national origin, ancestry, physical disability, mental disability, medical condition, genetic information, marital status, sex, age, sexual orientation, or military and veteran status in the award and administration of contracts that it awards.

Pursuant to Public Contract Code Section 22300, the successful Bidder may submit certain securities in lieu of the City withholding retention of payments during the Project.

The City has determined that the Contractor shall possess a valid Class A, C-13, or C-27 Contractor's license at the time that the bid is submitted, as well as any other license classification as may be required by the laws of the California for the performance of the work specified in the Contract Documents. Said license shall be maintained during the Contract period. Failure to possess the specified license shall render the bid nonresponsive and will act as a bar to the award of the Contract to any Bidder not possessing such a license at the time of bid submittal. The Contractor shall provide certification of the license, its number and the expiration date on the proposal form.

The work is to be done in Placer County. Pursuant to California Labor Code Section 1773, the City has ascertained the General Prevailing Rate of Wages in the County in which the

work is to be done to be as determined by the Director of Industrial Relations of the State of California. The Contractor is hereby made aware that information regarding prevailing wage rates may be obtained from the State Department of Industrial Relations and/or the following website address: <http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm>. The Contractor is required to post a copy of the applicable wage rates at the job site. Attention is directed to Section 5 “Legal Relations and Responsibility” of the General Conditions.

Pursuant to Labor Code Section 1771.1(b), notice is hereby given that a contractor or subcontractor shall not be qualified to bid on, be listed in a bid proposal, subject to the requirements of Section 4104 of the Public Contract Code, or engage in the performance of any contract for public work, as defined in Labor Code Sections 1720, et seq., unless currently registered and qualified to perform public work pursuant to Labor Code Section 1725.5 or exempt from registration requirements pursuant to Labor Code Section 1725.5(f). It is not a violation of Labor Code Section 1771.1 for an unregistered contractor to submit a bid that is authorized by Section 7029.1 of the Business and Professions Code or by Section 10164 or 20103.5 of the Public Contract Code, provided the contractor is registered to perform work pursuant to Labor Code Section 1725.5 at the time the contract is awarded or is exempt from registration requirements pursuant to Labor Code Section 1725.5(f). The Contractor is hereby notified that this project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.

All questions prior to the deadline for bid submissions shall be directed to the attention of Joel De Jong via Public Purchase Q&A at Publicpurchase.com. The deadline for submissions of questions and clarifications regarding the Contract Documents is 10 calendar days before the deadline for

bid submissions. Only Addenda issued by the City are binding.

City Clerk, City of Roseville

Dated: _____

Published: _____

FOR COUNCIL APPROVAL
NOT FOR BIDDING

INSTRUCTIONS TO BIDDERS

SECTION 1. GENERAL

1-1.01 **GENERAL.** These Instructions to Bidders form a part of the Contract Documents. Capitalized terms are defined in the General Conditions Section 1.

1-1.02 **EXAMINATION OF PLANS, CONTRACT DOCUMENTS AND SITE OF THE WORK.** The Bidder shall examine carefully the site of the Work and all the Contract Documents, including these Instructions to Bidders, and shall inform itself of the conditions relating to the execution of the Work. Failure to do so will not relieve the successful Bidder of its obligation to enter into an Agreement and complete the Work in strict accordance with the Contract Documents. Conditions relating to the execution of the Work include the requirements of federal, state, and local laws, statutes and ordinances relative to the execution of Work, including, but not limited to, applicable regulations concerning prevailing wage rates, non-discrimination in the employment of labor, protection of the public, employee health and safety, and environmental protection.

The submission of a bid shall be conclusive evidence that the Bidder has investigated and is satisfied as to the conditions to be encountered, as to the character, quality, and scope of Work to be performed, the quantities of materials to be furnished, and as to the requirements of all the Contract Documents.

1-1.03 **EXISTING INFORMATION.** Where the Department has made investigations of site conditions, including subsurface conditions in areas where Work is to be performed under the Contract, such investigations are made only for the purpose of study and design. City does not represent that such conditions as found in these investigations or inferences or conclusions drawn as a result of these investigations will represent actual site

conditions and hereby disclaims any liability as a result of Contractor's or Bidder's reliance on such investigations. City will presume that all Bidders have conducted their own site investigations, including investigations of subsurface conditions. Where such investigations have been made, Bidders or Contractors may, upon written request, inspect the records of the Department as to such investigations subject to the conditions set forth in these Instructions to Bidders. Such inspection of records may be made only at the location noted above. The records of such investigations are not a part of the Contract Documents and are shown solely for the convenience of the Bidder or Contractor. The City assumes no responsibility whatsoever with respect to the sufficiency or accuracy of the investigations made, the records thereof, or of the interpretations set forth therein or made by the City in its use thereof. The City makes no warranty or guarantee, either express or implied, that the conditions indicated by such investigations or records are representative of those existing throughout such areas, or any part thereof, or that unforeseen developments may not occur, or that materials other than, or in proportions different from those indicated, may not be encountered.

No information derived from such inspection of records of investigations or compilation thereof made by the City, the Department or from the Engineer, or his or her assistants, will in any way relieve the Bidder or Contractor from properly examining the site and making such additional investigations as it may elect, or from properly fulfilling the terms of the Contract.

SECTION 2: BID REQUIREMENTS

2-1.01 **PROPOSAL FORMS.** The Department will furnish to each Bidder standard Proposal Forms, which, when filled out and executed may be submitted as the bid. Proposals shall include all pages in the Project Manual with page numbers marked “PROP” plus the Addendum acknowledgment form (front sheet) from all Addenda received by the Bidder. Proposals shall be removed from the Project Manual. The full Project Manual shall not be submitted with the proposal. Bids not presented on forms so furnished will be disregarded.

The Proposal and one (1) copy thereof shall be submitted as directed in the “Notice to Contractors” under sealed cover plainly marked as a Proposal, and identifying the project to which the Proposal relates and the date of the bid opening therefor. Proposals which are not properly marked may be disregarded.

All blank spaces in the Proposal must be completed, as required, in ink. All price information shall be shown, clearly legible, in figures where required.

The Bidder shall sign the Proposal in the blank space provided therefor. If the Bidder is the sole owner, the Proposal shall be signed by the owner. If the Bidder is a corporation, the legal name of the corporation and its State of incorporation shall be set forth and the Proposal shall be signed by at least two officers authorized to sign contracts on behalf of the corporation. If the Bidder is a partnership, the true name of the firm shall be set forth, the names and addresses of all partners shall be given and the Proposal shall be signed by a partner in the firm authorized to sign contracts on behalf of the partnership. If the Bidder is a joint venture, the Proposal shall be signed on behalf of each participating company by officers or other individuals who have the full and proper authorization to do so. If the Proposal is signed by an agent of the Bidder other than an officer of a corporation or a member of a partnership, a notarized Power of

Attorney must be on file with the City prior to opening of bids or must be submitted with the Proposal. If requested by the City, the Bidder shall promptly submit evidence satisfactory to the City of the authority of the person signing the Proposal.

2-1.02 **SUBMISSION OF BIDS.** Bids must be submitted at the prescribed time and location specified in the Notice to Contractors. Any submission received after the prescribed time shall be rejected, regardless of whether or not bids are opened exactly at the prescribed time.

Any unauthorized conditions or qualifications entered on, or changes made to, the Proposal may render it invalid and may cause its rejection.

No telegraphic, telephonic, or facsimile or other electronically transmitted bids will be considered.

2-1.03 **REQUIRED LISTING OF PROPOSED SUBCONTRACTORS.** Each Proposal shall list the name, address and Contractor license number of each Subcontractor to whom the Bidder proposes to subcontract portions of the Work in an amount in excess of one-half of one percent (0.5%) of its total bid, in accordance with Section 4100 to 4114, inclusive, of the Public Contract Code for the State of California. The Bidder shall list the Subcontractor's license number and the portion of the Work that will be done by each Subcontractor. If the Bidder fails to specify a Subcontractor for any portion of the Work, the Bidder agrees to perform that portion of the Work itself, and represents that it is qualified to perform that portion of the Work itself. The Bidder's attention is invited to other provisions of the Public Contract Code related to the imposition of penalties for a failure to observe its provisions by using unauthorized Subcontractors or by making unauthorized substitutions.

2-1.04 **CONTRACTOR'S LICENSING LAWS.** Attention is directed to the

provisions of Business and Professions Code Chapter 9 of Division 3 concerning the licensing of Contractors.

All Bidders at the time of bid submittal shall be licensed as Contractors in accordance with the laws of this State. Any Bidder or Contractor not so licensed is subject to the penalties imposed by such laws. The form of Contractor's license required is stated in the Notice to Contractors, provided that the City makes no representation as to whether the State may require other or additional licenses. It is the Bidder's and Contractor's responsibility to obtain the correct Contractor's licenses. Bidders shall be skilled and regularly engaged in the general class or type of Work called for under this Contract.

All Bidders and Contractors, including Subcontractors, shall have a current City business license before undertaking any Work.

2-1.05 **NONCOLLUSION DECLARATION.** By submitting a bid, the Bidder represents and warrants that such bid is genuine and not a sham or collusive or made in the interest or on the behalf of any person therein named, and that the Bidder has not, directly or indirectly, included or solicited any other Bidder to put in a sham bid, or any other person, firm, or corporation to refrain from bidding, and that the Bidder has not in any manner sought collusion to secure the Bidder an advantage over any other Bidder.

Bidders shall submit a properly completed and executed "Noncollusion Declaration" in the form required by Public Contract Code Section 7106 and provided with the Proposal (PROP-11).

2-1.06 **DISQUALIFICATION, REMOVAL OR OTHER PREVENTION OF BIDDING.** A bid may be rejected on the basis of a Bidder, any officer of such Bidder, or any employee of such Bidder who has a proprietary interest in such Bidder, having been disqualified,

removed, or otherwise prevented from bidding on, or completing a federal, state, or local project because of a violation of law or a safety regulation.

2-1.07 **PROPOSAL GUARANTY.** All bids shall be accompanied by one of the following forms of Bidder's security: Cash, a cashier's check, a certified check, or a Bidder's bond executed by an admitted California surety insurer, made payable to the City of Roseville, or any other form of security deemed acceptable by the City Attorney. The security shall be in an amount equal to at least ten percent (10%) of the amount bid. A bid will not be considered unless one of the form of Bidder's security is enclosed with it.

A Bidder's bond shall conform to the City's bond form in the Proposal and shall be properly filled out and executed.

2-1.08 **SCHEDULE OF BID PRICES.** Bidders are directed to submit unit and lump sum prices for all Work set forth in the Contract Documents on the Proposal Form entitled "Schedule of Bid Prices."

Unit prices and lump sum prices, as indicated, must be entered in the appropriate spaces provided in the Schedule of Bid Prices. If applicable, unit prices shall be multiplied by the quantities shown, and the total shall be inserted in the Amount column. In the event of any error or discrepancy between the unit price and the calculated amount, the unit prices shall govern.

The City may correct any mathematical errors apparent on the face of the bid.

The amounts shown in the Amount column must be added together in arriving at the Grand Total Bid Price.

Amounts for Allowance bid items must be entered in the exact amount in the Amount column.

The prices included within the Schedule of Bid Prices shall include all costs for labor,

materials, tools, equipment, services, Subcontractors, suppliers, taxes, insurance, shipment, delivery, overhead, profit, and all other costs necessary to perform the Work in accordance with the Contract Documents.

The Grand Total Bid Price shall be indicated in the Summary table form included with the Schedule of Bid Prices. The Grand Total Bid Price shall be the sum of the amounts bid for each of the designated portions of the Work, as more specifically described on the Schedule of Bid Prices form itself.

Full compensation for complying with the Contract Documents, including requirements of the Standard Specifications, the General Conditions, Supplemental Conditions, and all warranties, shall be considered included in the bid items and no additional compensation shall be allowed therefor.

Full compensation for completion of all work as shown on the plans, as specified in the Specifications, and as directed by the City, shall be considered included in the bid items and no additional compensation shall be allowed.

Bidders are strongly discouraged from submitting unbalanced bids. As used herein, the term “unbalanced bid” is defined as any bid that does not include a reasonable proportionate allocation of indirect costs and profit of each bid item indicated in the Schedule of Bid Prices. The City reserves the right to reject any unbalanced bid if the City determines that there is a reasonable doubt that an acceptance of the bid will not result in the lowest ultimate cost to the City with regard to the work or a disproportionate distribution of contract funds.

The City reserves the right to delete any bid item in its entirety and/or significantly reduce the quantity of Work under a bid item. The City makes no representation that any Work under a bid item will be performed during the course of the Project or that the Work will be

performed at the quantities included in the Schedule of Bid Prices. As provided in the General Conditions, for any deleted Work, Contractor shall not be entitled to payment of the indirect costs and profit included for said bid item. All bid items shall be considered distinct and severable from the remaining bid items, and each Bidder acts at its peril if its bid is unbalanced.

The City shall compare bids on the basis of the Grand Total Bid Price, which includes the base bid and any alternates designated on the Schedule of Bid Prices. Alternates may or may not be awarded, or may be awarded in any combination, at the City's discretion.

2-1.09 **WITHDRAWAL OF PROPOSALS.** Any bid may be withdrawn at any time prior to the time fixed in the Notice to Contractors for the opening of bids, provided that a request in writing, executed by the Bidder or its duly authorized representative, for the withdrawal of such bid is filed with the City Clerk. Facsimile and electronic mail requests are not acceptable. The withdrawal of a bid shall not prejudice the right of a Bidder to file a new bid. The withdrawal of any bid after the time fixed in the Notice to Contractors for the opening of bids will not be permitted.

2-1.10 **ADDENDUM.** Proposals shall include all costs and account for all Addenda issued prior to opening of bids. The Bidder is responsible for verifying that all issued Addenda have been received. An Addendum acknowledgment form for each Addendum shall be included as part of the Proposal submittal.

2-1.11 **PUBLIC OPENING OF PROPOSALS.** Proposals will be publicly opened and read at the time and place indicated in the Notice to Contractors. Bidders or their authorized agents are invited to be present.

2-1.12 **TRENCHING AND EXCAVATION WORK.** In accordance with the provisions of California Labor Code Section 6707, if the Work involves construction of a

pipeline, sewer, sewage disposal system, boring or jacking pits, or similar trenches or open excavations, which are five feet (5') or deeper, each bid submitted shall contain, as a bid item, adequate sheeting, shoring, and bracing, or equivalent method, for the protection of life or limb, which shall conform to all applicable safety orders.

FOR COUNCIL APPROVAL
NOT FOR BIDDING

SECTION 3: EVALUATION OF BIDS

3-1.01 **BID EVALUATION PROCESS.** Bids will be evaluated to determine the apparent low Bidder. The apparent low Bidder will be determined on the basis of the Grand Total Bid Price, as shown in the Schedule of Bid Prices. If additive or deductive alternates are used in the Schedule of Bid Prices, the apparent low Bidder will be the Bidder with the lowest total of the bid prices for base contract items plus the alternates designated by the City as those that will be used for determining the lowest bid price. However, the City reserves the right to (1) not award any alternates or (2) award any combination of alternates.

In case of discrepancy between the total of the base contract items and any specified alternates and the stated Grand Total Bid Price, the total of the base contract items plus specified alternates shall prevail. Any mathematical errors that appear on the face of the bid will be corrected by the City and the City will use the mathematically corrected addition. For example, if the mathematical total of Bidder's base contract items plus specified alternates equals \$1,000,000, but the Bidder has written \$1,250,000 as the Grand Total Bid Price, the City will consider \$1,000,000 to be the Bidder's Grand Total Bid Price for purposes of comparison to other Bidders and actual bid award. The City reserves its rights to reject or accept bids based on discrepancies between the stated Grand Total Bid Price and the actual mathematical total of the base contract bid items, plus specified alternates.

3-1.02 **REJECTION OF IRREGULAR PROPOSALS.** Proposals may be rejected in the City's sole discretion if they show any alterations of form, additions not called for, conditional bids, incomplete bids, erasures, or irregularities of any kind. However, the City reserves the right to waive any minor irregularities and informalities in any bid or in the bid procedure for any reason.

3-1.03 **COMPETITIVE BIDDING.** If more than one proposal is offered by any individual, firm, partnership, corporation, association, or any combination thereof, under the same or different names, all such proposals may be rejected. A party who has quoted prices on materials or Work to a Bidder is not thereby disqualified from quoting prices to other Bidders, or from submitting a bid directly for the materials or Work.

All Bidders are put on notice that any collusive agreement to control or affect the awarding of this Contract is in violation of the competitive bidding requirements of the City Charter, State Contract Act and the Business and Professions Code and may render void any Contract let under such circumstances.

3-1.04 **RELIEF OF BIDDERS.** If the Bidder claims a mistake was made in its bid, the Bidder shall give the Department written notice within five (5) Days after the opening of the bids of the alleged mistake, specifying in the notice in detail how the mistake occurred. No relief from a claimed mistaken bid shall be granted unless such mistake clearly appears on the face of the bid submitted to the City. Claimed mistakes on backup worksheets, spreadsheets, computerized bidding programs, or any other similar calculative bidding mistake which is not apparent on the face of the bid shall not under any circumstance be considered as a basis for relief. The burden of proving the occurrence of a mistake entitling a Bidder to relief from its bid rests entirely on the Bidder. Relief from bids shall be in the City's sole discretion.

SECTION 4: AWARD AND EXECUTION OF CONTRACT

4-1.01 **AWARD OF CONTRACT.** The City reserves the right to reject any and all proposals and to award (or not award) any combination of bid items at its option. Any such award will be to the lowest responsible Bidder whose proposal complies with the requirements prescribed for the bid items awarded. Such award, if made, will be made within sixty (60) business days after the opening of the proposals. If the lowest responsible Bidder refuses or fails to execute the Contract, or provide an acceptable Performance Bond, Payment Bond, and insurance certificate(s), the City may award the Contract to the second lowest responsible Bidder. Such award, if made, will be made within eighty-two (82) business days after the opening of proposals. If the second lowest responsible Bidder refuses or fails to execute the Contract, or provide an acceptable Performance Bond, Payment Bond, and insurance certificate(s), the City may award the Contract to the third lowest responsible Bidder. Such award, if made, will be made within one hundred four (104) business days after the opening of the proposals. The above time periods within which the award of Contract may be made are subject to extension for such further period as may be agreed upon in writing between the City and the Bidder concerned.

4-1.02 **RETURN OF BIDDER'S SECURITIES.** Within ten (10) Days after the award of the Contract, the City Clerk will return all Bidders' securities, other than Bidders' bonds, accompanying the proposals that are not to be further considered in making the award. Retained Bidders' securities will be held until the Contract has been fully executed, after which all Bidders' securities, except Bidders' bonds and any Bidders' securities that have been forfeited, will be returned.

4-1.03 **CONTRACT BONDS.** The successful Bidder shall furnish two (2)

bonds in the form contained in the section entitled Insurance Broker Information Packet and Bonds. One (1) bond shall secure the payment of the claims of laborers, mechanics or materialmen employed on the Work under the Contract, and the other bond shall guarantee the faithful performance of the Contract.

Each of the two (2) bonds shall be in a sum equal to one hundred percent (100%) of the Contract Price. If the Contract Price increases by the issuance of Change Orders, the penal amounts of the bonds required shall increase accordingly. Sureties on each of said bonds shall be satisfactory to the City.

All alterations, extensions of time, extra and additional Work, and other changes authorized by the Standard Specifications, the General Conditions, the Supplemental Conditions or any part of the Contract may be made without securing the consent of the surety or sureties on the Contract bonds.

Furthermore, the successful Bidder shall furnish a certificate from the County Clerk as required by California Civil Code of Procedure Section 995.660(a)(3).

4-1.04 **INSURANCE.** At the time of the execution of the Contract, the Contractor shall, at its own expense, procure, and at all times during the prosecution of the Work maintain in full force and effect Worker's Compensation Insurance, and Liability Insurance as specified in the General Conditions. The Contractor shall provide a Certificate of Insurance in the form contained in the section entitled Insurance Broker Information Packet.

4-1.05 **EXECUTION OF CONTRACT.** The Contract shall be signed by the successful Bidder and returned, together with all the required Contract bonds and insurance certificates, within fifteen (15) Days after the Contract has been awarded, or as otherwise directed, in writing, by the City.

If the Bidder is an individual, the Contract shall be executed personally by the Bidder. If the Bidder is a partnership, it is desirable that the Contract be executed by all of the partners, but it may be executed by one of them. If the Bidder is a corporation, it must be executed by two officers of the corporation consisting of (1) the chairman of the board, president or vice president; and (2) the secretary, assistant secretary, chief financial officer, treasurer or assistant treasurer, or by a person authorized by the corporation to execute written contracts on its behalf, and the corporate seal affixed thereto. In the alternative, a person other than an officer may sign the Contract, provided evidence satisfactory to the City is provided indicating the individual's authority to bind the corporation. If the corporate seal is not affixed to the Contract, or if it is executed by a person other than officers, or only by one officer, there must be attached to the Contract a certified copy of a resolution of the corporation authorizing such officer or person to execute written contracts for and on behalf of the corporation. If the Bidder is a joint venture, the Contract must be executed on behalf of each participating firm by officers or other individuals who have the full and proper authorization to do so.

4-1.06 **FAILURE TO EXECUTE CONTRACT.** Failure of the lowest responsible Bidder, the second lowest responsible Bidder, or the third lowest responsible Bidder to execute the Contract and file acceptable bonds and insurance as provided within fifteen (15) Days after the Contract has been awarded, or as otherwise directed, in writing, by the City, shall be just cause for annulment of the award and forfeiture of the Bidder's security. The successful Bidder may file with the City Clerk a written notice, signed by the Bidder or Bidder's authorized representative, specifying that the Bidder will refuse to execute the Contract if presented to Bidder. The filing of such notice shall have the same force and effect as the failure of the Bidder to execute the Contract and furnish acceptable bonds within the time prescribed.

SECTION 5: BID PROTEST PROCEDURES

5-1.01 **POLICY/PROCEDURES.** It is the policy of the City to consider fully and adjudicate promptly protests filed by prospective Bidders relating to the City's bidding procedure or award of the Contract. Protests shall be filed and processed in accordance with Section 4.12.150 of the Roseville Municipal Code. A Bidder's failure to follow the bid protest procedures may result in rejection of the protest by the City.

City of Roseville Business License No. _____

The undersigned Bidder herewith submits this Proposal and binds itself on award by the City of Roseville under this bid to execute a Contract in accordance with its bid and the Contract Documents.

The Notice to Contractors, Instructions to Bidders, Form of Agreement, Specifications, General Conditions, Supplemental Conditions, Contract Drawings, and Addenda, if any, are made part of this bid and all provisions thereof are hereby accepted, and all representations and warranties are required thereby are hereby affirmed.

The work to be done is described in the Bidding Documents entitled _____, City of Roseville, California.

This offer shall be irrevocable for a period of sixty (60) Days after the date on which bids are opened.

The undersigned Bidder understands that any clarification made to the above or any new and different conditions or information submitted on or with its Proposal, other than that requested, may render the bid non-responsive.

The undersigned, as Bidder, declares that the only persons or parties interested in this Proposal as principals are those named herein; that this Proposal is made without collusion with any other person, firm, or corporation; that the Bidder has carefully examined the location of the proposed Work, the attached Form of Agreement, and the plans, Specifications, and other Contract Documents; and agrees if this Proposal is accepted, that it will contract with the City of Roseville, in the form of a copy of the Agreement contained in the Project Manual, to provide all necessary machinery, tools, apparatus and other means of construction, and to do all the work and furnish all the materials specified in the Contract Documents, in the manner and time therein prescribed, and according to the requirements of the Director, as therein set forth, and that the Bidder will take in full payment therefore prices indicated in the Schedule of Bid Items, including all work modified by addendum numbers _____. (IF NONE, STATE NONE).

Bids are required for all Bid Items. The amount of the Bid for comparison purposes will be the total of all items awarded.

The Bidder shall set forth for each item of work, in clearly legible figures, an item ("unit") price and a total for the item in the respective spaces provided for this purpose in the Schedule of Bid Items.

The prices included within the Schedule of Bid Items include all costs for labor, materials, tools, equipment, services, Subcontractors, suppliers, taxes, insurance, shipment, delivery, overhead, profit, and for all other costs necessary to perform the Work in accordance

with the Contract Documents.

Accompanying this Proposal is _____.

(Notice: Insert the words "Cash \$_____", "Cashier's Check," "Certified Check," or "Bidder's Bond," as the case may be, in an amount equal to at least ten percent (10%) of the total of the Bid.)

NONCOLLUSION DECLARATION TO BE EXECUTED BY
BIDDER AND SUBMITTED WITH BID

The undersigned declares:

I am the _____ of _____, the party making the foregoing bid.

The bid is not made in the interest of, or on behalf of, any undisclosed person, partnership, company, association, organization, or corporation. The bid is genuine and not collusive or sham. The Bidder has not directly or indirectly induced or solicited any other Bidder to put in a false or sham bid. The Bidder has not directly or indirectly colluded, conspired, connived, or agreed with any Bidder or anyone else to put in a sham bid, or to refrain from bidding. The Bidder has not in any manner, directly or indirectly, sought by agreement, communication, or conference with anyone to fix the bid price of the Bidder or any other Bidder, or to fix any overhead, profit, or cost element of the bid price, or of that of any other Bidder. All statements contained in the bid are true. The Bidder has not, directly or indirectly, submitted his or her bid price or any breakdown thereof, or the contents thereof, or divulged information or data relative thereto, to any corporation, partnership, company, association, organization, bid depository, or to any member or agent thereof, to effectuate a collusive or sham bid, and has not paid, and will not pay, any person or entity for such purpose.

Any person executing this declaration on behalf of a Bidder that is a corporation, partnership, joint venture, limited liability company, limited liability partnership, or any other entity, hereby represents that he or she has full power to execute, and does execute, this declaration on behalf of the Bidder.

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct and that this declaration is executed on _____ [date], at _____ [city], _____ [state].

(Signature of Declarant)

DISQUALIFICATION QUESTIONNAIRE

The Bidder shall complete, under the penalty of perjury, the following questionnaire:

Has the Bidder, any officer of the Bidder, or any employee of the Bidder who has proprietary interest in the Bidder, ever been disqualified, removed, or otherwise prevented from bidding on, or completing a federal, state, or local government project because of a violation of law or a safety regulation?

END OF PROPOSAL

FOR COUNCIL APPROVAL
NOT FOR BIDDING

PROP - 15

A G R E E M E N T

THIS AGREEMENT, is made and entered into this ____ day of _____,
20____, by and between the City of Roseville, a municipal corporation, ("CITY"), and
_____, a _____,
("CONTRACTOR"); and

W I T N E S E T H:

WHEREAS, the City Council of the CITY, at a meeting held on the ____ day of _____, 20____, approved plans and specifications for the _____

and directed the City Clerk to advertise for sealed proposals for doing said work and providing that bids be submitted on the ____ day of _____, 20____; and

WHEREAS, the City Clerk, thereafter duly and regularly caused a notice to be published in the manner and for the time prescribed by law; and

WHEREAS, CONTRACTOR, pursuant to the provisions of said notice duly filed a bid with the City Clerk, a true copy of which bid is now on file in the office of the City Clerk, and is hereby referred to and by this reference made a part hereof as fully as if set forth at length herein; and

WHEREAS, all bids received pursuant to said notice were opened and examined and publicly declared at the time specified in said advertisement for bids and at a meeting of the City Council held on the ____ day of _____, 20____, the Council found and

declared the bid of CONTRACTOR to be the lowest responsible bid and thereupon awarded a contract to CONTRACTOR to do the work referred to in the aforementioned specifications.

NOW, THEREFORE, the parties agree as follows:

1. THE WORK. CONTRACTOR agrees:

a. To do the work and furnish all the labor, materials, tools, supplies, equipment, superintendence, insurance, and bonds required for the _____

_____ in accordance with the Contract Documents (the Work).

b. To do and perform the Work contemplated hereby in a good and workmanlike manner under the direction of and to the satisfaction of the Director of Public Works of the City of Roseville.

2. PAYMENT. CITY shall pay CONTRACTOR _____

_____ dollars (\$ _____) for the Work to be done under this Agreement in accordance with the Contract Documents.

3. CONTRACT DOCUMENTS. The complete Agreement between the parties hereto consists of the following documents:

a. The advertisement for bids (including the notice to bidders, instructions to bidders and proposals);

b. The accepted bid;

c. Plans and specifications (including general conditions, supplemental conditions, special provisions and construction details);

d. Bonds and insurance required by the specifications; and

e. This contract.

All documents specified above are intended to operate so that any work called for in any one and not mentioned in the other, or vice versa, is to be executed the same as if mentioned in all said documents.

4. LIQUIDATED DAMAGES. In the event CONTRACTOR does not complete the Work within the time specified, CONTRACTOR agrees that CITY will suffer damages. Inasmuch as the actual damages which would result from such breach by CONTRACTOR under this Agreement are uncertain, and would be impractical or extremely difficult to fix, CONTRACTOR agrees that it shall pay, or CITY shall deduct from CONTRACTOR's fee, the amount of \$_____ per day as liquidated damages, in the event of such delay.

5. TIME OF COMPLETION. Time is of the essence of this Agreement. CONTRACTOR shall complete all Work under the Contract Documents within _____ Days of the date of this Contract. CONTRACTOR shall begin work by the date specified in the "Notice to Proceed" letter and shall diligently prosecute all of the Work under this Contract in all parts and requirements as defined in the Contract Documents.

6. SERVICE OF NOTICE. Any notice required or permitted to be given under this Agreement shall be deemed given when (a) personally delivered to the recipient identified below; (b) mailed by registered or certified mail, return receipt requested, postage pre-paid, to the address specified below; or (c) sent by facsimile, with confirmation of receipt, to the facsimile number identified below.

CITY OF ROSEVILLE

CONTRACTOR

CITY may also act through either its architect or construction manager if CITY expressly gives notice to CONTRACTOR, in writing, that CITY's designee has authority to act for CITY in a specific capacity.

7. DISPUTES. Disputes arising from this Agreement will be determined in accordance with the Contract Documents and Public Contract Code Sections 10240-10240.13.

8. GOVERNING LAW. This Agreement shall be governed by and construed in accordance with the laws of the State of California.

9. INDEPENDENT CONTRACTOR. CONTRACTOR shall act as an independent contractor, and covenants and agrees that it will conduct itself consistent with such status, that it will neither hold itself out as, nor claim to be, an officer or employee of CITY by reason of this Agreement.

10. SUCCESSORS IN INTEREST. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.

11. MODIFICATION. This Agreement and each provision contained herein may be waived, amended, supplemented or eliminated only by mutual written agreement of the parties.

12. SEVERABILITY. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.

13. INTEGRATED AGREEMENT. This is an integrated agreement and contains all of the terms, considerations, understanding and promises of the parties. It shall be read as a whole.

14. CONTRACTORS LICENSE LAW. CONTRACTORS ARE REQUIRED BY LAW TO BE LICENSED AND REGULATED BY THE CONTRACTORS' STATE LICENSE

BOARD WHICH HAS JURISDICTION TO INVESTIGATE COMPLAINTS AGAINST CONTRACTORS IF A COMPLAINT REGARDING A PATENT ACT OR OMISSION IS FILED WITHIN FOUR (4) YEARS OF THE DATE OF THE ALLEGED VIOLATION. A COMPLAINT REGARDING A LATENT ACT OR OMISISON PERTAINING TO STRUCUTRAL DEFECTS MUST BE FILED WITHIN TEN (10) YEARS OF THE DATE OF THE ALLEGED VIOLATION. ANY QUESTIONS CONCERNING A CONTRACTOR MAY BE REFERRED TO THE REGISTRAR, CONTRACTORS' STATE LICENSE BOARD, P.O. BOX 26000, SACRAMENTO, CALIFORNIA 95826.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this Agreement in duplicate by its City Manager and attestation by its City Clerk under authority of Resolution No. _____, adopted by the Council of the City of Roseville on the ____ day of _____, 20____, and CONTRACTOR has caused this Agreement to be duly executed.

INSURANCE BROKER INFORMATION PACKET

Project:_____

NOTICE TO CONTRACTOR:

For your convenience, this package contains the Requirements for Insurance and Bonds for this project, including the necessary City forms. You are required to return these forms in addition to the executed Contract within fifteen (15) calendar days after the award of the Bid, unless otherwise directed by City in writing. (See the Instructions to Bidders.)

Please insert the dollar amount of your accepted Bid into the blank on page INS-1 and present this entire package to your insurance broker if you are awarded the Bid.

FOR COUNCIL APPROVAL
NOT FOR BIDDING

NOTICE TO INSURANCE BROKER

Your client has been awarded a bid by the City Council of the City of Roseville to perform a public works project known as _____. The Contract Conditions for that project require your client (“the Contractor”) to return certain evidence of insurance and bonds to the City Attorney of the City within fifteen (15) days after the Bid award, unless otherwise directed by the City in writing, or else the Bid award may be terminated and awarded to another company.

This package contains the information you will need as an insurance broker to provide the appropriate insurance and bonds to the City. The insurance coverages the Contractor needs are specified in the section entitled “Insurance Requirements.” Please note that, in addition to the insurance certificate itself, copies of several endorsements must be actually furnished.

Please refer to the Supplemental Conditions for modifications of the General Conditions, if any, and the requirements of this insurance packet.

Please use the standard City of Roseville Bond Forms provided in this package.

The Bonds required must each be in the penal amount of: \$_____.

Bonds must be sent to the following staff person:

Insurance documents must be provided using one of the following methods:

- a. By email to roseville@ebix.com and riskmanagement@roseville.ca.us
- b. By fax to (770) 335-5727 and (916) 774-5461

After using one of these methods, please **DO NOT** send the insurance certificate(s) by mail.

When forwarding the documents, please refer to the project name so that the documents can be matched with the Contract for which they are submitted.

Thank you.

INS - 1

INSURANCE REQUIREMENTS

The following sections are quoted from the General Conditions:

5-1.23 **INSURANCE COVERAGE.**

A. **Evidence of Maintenance Required.** The Contractor shall, at its expense, procure and at all times maintain in full force and effect at a minimum the insurance required by this section on all of its operations; and the Contractor shall not allow any Subcontractor to commence work until similar insurance required of the Subcontractor has been obtained and filed. An original Certificate of Insurance, and copies of all required endorsements, all in a form approved by the Risk Manager, evidencing all required coverage or policies shall be filed after the award of the bid and prior to approval of the Contract by the City Council. Contractor shall provide ten (10) days prior written notice to the City of any reduction of coverage limits or cancellation of the coverage or policies shall be given to the City of Roseville as Certificate holder.

B. **Qualifying Insurers.** With the exception of the State Compensation Insurance Fund, all required insurance policies shall be issued by companies acceptable to the City and licensed to do business in the State of California and who hold a current policy holders alphabetic and financial size category rating of not less than AVII according to the most recent issue of Best's Insurance Reports.

C. **Insurance Required.**

1. **Commercial General Liability (CGL):** Insurance Services Office Form CG 00 01 covering CGL on an “occurrence” basis, including products and completed operations with limits of no less than Two Million Dollars (\$2,000,000) per occurrence for bodily injury, personal injury and property damage for projects under One Million Dollars (\$1,000,000) and

limits of no less than Five Million Dollars (\$5,000,000) per occurrence for bodily injury, personal injury and property damage for projects over One Million Dollars (\$1,000,000). If a general aggregate limit applies, either the aggregate limit shall apply separately to this project or the general aggregate limit shall be twice the required occurrence limit.

The Commercial General Liability insurance shall include the following, copies of which shall be provided:

a. Inclusion of the City of Roseville, and its officers, agents, employees, and volunteers, as additional insureds (except for workers' compensation) as respects services or operations under the Contract. The additional insured endorsement for the general liability policy shall be at least as broad as the ISO CG 2010 10 01 combined with ISO CGL Endorsement CG 2037 10 01. Any other endorsement must be approved in writing by the City. Endorsements must include coverage for on-going and completed operations, which coverage shall be maintained for four (4) years following completion of the Project. Endorsements shall cover the City of Roseville, its officers, agents, employees, and volunteers.

b. The insurance shall provide coverage for claims by one insured against another insured and the policies shall not contain any cross-suits exclusions, cross-liability exclusions, or insured versus insured exclusions. The policies shall not contain any classification exclusions purporting to deny coverage for any work to be performed by Contractor or any of its Subcontractors.

c. Stipulation that the insurance is primary and noncontributory, as evidenced by a separate endorsement (CG 20 01 04 13 or an equivalent) or section of the policy, and that neither the City nor its insurers will be called upon to contribute to a loss.

d. Such insurance shall specifically cover the contractual liability of

the Contractor.

e. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.

f. Waiver of subrogation endorsement.

g. The Contractor shall furnish a certificate for the period covered.

2. **Automobile Liability:** Insurance Services Office Form Number CA 0001 covering Code 1 (any auto), or if Contractor has no owned autos, Code 8 (hired) and Code 9 (non-owned), with limits of no less than One Million Dollars (\$1,000,000) per accident for bodily injury and property damage.

3. **Workers' Compensation:** In accordance with the provisions of the California Labor Code, Contractor is required to be insured against liability for Workers' Compensation or to undertake self-insurance. Statutory Workers' Compensation and Employers' Liability of at least One Million Dollars (\$1,000,000) shall cover all Contractors staff while performing any work incidental to the performance of this Agreement.

4. **Professional Liability:** Professional Liability (Errors and Omission) Insurance appropriate to Contractor's profession, with a limit of liability not less than One Million Dollars (\$1,000,000) per occurrence or claim and Two Million Dollars (\$2,000,000) aggregate to cover all design and engineering services rendered by Contractor pursuant to the Agreement. Coverage must commence from the first day that Contractor or any of its Subcontractors provided any design or engineering services in connection with the Project.

5. **Builder's Risk/Course of Construction Insurance Is ____ OR Is Not**

X **Required by Risk Management:** The Contractor shall be responsible for all loss, damage or destruction whatsoever to the work called for by this Contract until the approval of a Notice of Completion or acceptance of the Work if no Notice of Completion is to be recorded.

The Contractor shall secure "All Risk" type of builder's Risk Insurance of the type covering one hundred percent (100%) of the value of the work performed under this Contract (the value is presumed to be the Contract amount unless otherwise stated in Supplemental Conditions) and all materials, equipment, or other items to be incorporated therein while the same are located at the construction site, a bonded warehouse, or its place of manufacture. At any time, the policy shall cover the value of the work completed. The policy shall cover hazards including the losses due to fire, explosion, hail, rain, lightning, flood (separate insurance as needed), vandalism, malicious mischief, wind, collapse, aircraft, and smoke.

The policies providing such insurance shall name the City as a loss payee as its respective interests may appear, and certified copies of such policies shall be filed with the City. The maximum deductible allowable under the Builder's All Risk policy shall be five percent (5%) of the Contract amount.

Builder's Risk Insurance is not required for coverage of losses in excess of five percent (5%) of the Contract amount for damages resulting from earthquake in excess of a magnitude of 3.5 on the Richter scale, or tidal waves. Coverage in the amount of five percent (5%) of the Contract amount for such losses is required.

6. **Pollution Coverage:** Contractor shall procure pollution liability coverage or other insurance covering claims for bodily injury or property damage arising out of the abatement, removal, storage, transportation, or other exposure to hazardous materials or

pollutants, in limits not less than Two Million Dollars (\$2,000,000). Contractor shall add the City and all parties required to be indemnified by Contractor as additional insured on all pollution liability policies. *****POLLUTION COVERAGE NOT REQUIRED**

7. **Higher Coverage Limits:** If Contractor maintains higher coverage limits than the amounts shown above, then the City requires and shall be entitled to coverage for the higher coverage limits maintained by Contractor. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to the City.

8. **Claims Made Coverage:** Liability insurance coverage may not be written on a “claims made” or modified occurrence basis. The Certificate of Insurance must clearly provide that the coverage is on an “occurrence” basis.

5-1.24 **OTHER INSURANCE PROVISIONS.**

A. The requirements of the Standard Specifications as to types and limits of insurance coverage to be maintained by the Contractor, and any approval of insurance by the City, are not intended to, and shall not in any manner limit or qualify the liabilities and obligations otherwise assumed by the Contractor pursuant to the Contract, including, but not limited to, the provisions concerning indemnification, nor preclude the City from taking any other action available to it under any other provision of the Contract or law.

B. The City acknowledges that some insurance requirements contained in these Standard Specifications may be fulfilled by self-insurance on the part of the Contractor. However, this shall not in any way limit liabilities assumed by Contractor under the Contract. Any self-insurance must be approved in writing by the City, in its sole discretion and shall not reduce the limits of liability. Any deductibles or self-insured retentions (“SIR”) must be declared on the certificate of insurance and approved by City in writing. Policies containing any

SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or City. City reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

C. The Contractor agrees to include in its contracts with all subcontractors the same requirements and provisions of this Contract, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor's work. Furthermore, the Contractor shall require its subcontractors to agree to be bound to the Contractor and the City in the same manner and to the same extent as the Contractor is bound to the City under this Contract. Additionally, the Contractor shall obligate its subcontractors to comply with these same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of the City's indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request. Alternatively, the Contractor may insure subcontractor(s) under its own policy.

D. The City, its officers, agents, employees, and volunteers are to be covered as insureds with respect to liability arising out of automobiles owned, leased, hired or borrowed by or on behalf of the Contractor; and with respect to liability arising out of work or operations performed by or on behalf of the Contractor including materials, parts or equipment furnished in connection with such work or operations. Coverage shall not extend to any indemnity coverage for the active negligence of the additional insured in any case where an agreement to indemnify the additional insured would be invalid under California Insurance Code Section 11580.04.

E. The limits of insurance required in this Contract may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be

endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of the City (if agreed to in a written contract) before the City's own insurance shall be called upon to protect it as a named insured.

F. The insurance procured by Contractor shall be subject to the approval of the City, but any acceptance of insurance certificates by the City shall in no way limit or relieve Contractor of its duties and responsibilities under the Agreement.

G. Contractor shall be responsible for all premiums, deductibles, and self-insured retention applicable to the insurance it is required to procure under the Contract. All deductibles or self-insured retentions over five hundred thousand dollars (\$500,000) must be approved by the City, in writing. Contractor shall be responsible for all deductibles, self-insured retention payments, and/or increased premiums incurred if the City's policies of insurance are forced to cover damages or respond to claims for which Contractor or its Subcontractors were obligated to provide insurance under the Contract.

H. Failure of the City to enforce in a timely manner any of the requirements of these insurance provisions shall not act as a waiver to enforcement of any of these provisions at a later date.

I. Contractor's indemnity obligations shall not be limited by these insurance provisions and shall survive the expiration of the Contract and the insurance provisions of the Contract shall likewise not be limited by the indemnity provisions of the Contract.

J. THE CITY RESERVES THE RIGHT TO WITHHOLD ANY PROGRESS PAYMENTS TO THE CONTRACTOR IN THE EVENT OF NONCOMPLIANCE WITH ANY INSURANCE REQUIREMENTS.

Bond No. _____
Premium \$ _____

**PUBLIC WORKS
FAITHFUL PERFORMANCE BOND**

(Project: _____)

WHEREAS, the City of Roseville ("CITY") has awarded a bid and contract to _____ as contractor ("PRINCIPAL") for the public work described as _____ (the "WORK"). The contract ("AGREEMENT"), for the public work described above, and all of its terms and conditions are incorporated by reference and made a part hereof; and

WHEREAS, the PRINCIPAL is required to furnish a bond in connection with the AGREEMENT guaranteeing its faithful performance; and

NOW, THEREFORE, we the undersigned PRINCIPAL and _____, a _____, admitted and duly authorized to transact business under the laws of the State of California, as SURETY ("SURETY"), are held and firmly bound unto the CITY or its successors and assigns in the sum of _____ dollars (\$ _____) (which amount is not less than 100% of the AGREEMENT price) to be paid to the CITY or its successors and assigns; and for which payment, well and truly to be made, we bind ourselves, our heirs, executors and administrators, successors or assigns jointly and severally, firmly by these presents.

The condition of this obligation is such that if the PRINCIPAL, or its heirs, executors, administrators, successors or assigns, shall abide by, and in all respects promptly and faithfully perform the covenants, conditions and provisions in said AGREEMENT and any alteration thereof made as therein provided, notice of which alterations to Surety being hereby waived, on its part to be kept and performed at the time and in the manner therein specified, and in all respects according to their true intent and meaning, and shall indemnify and save harmless CITY, its officers, agents, employees, volunteers as therein stipulated, then this obligation shall be null and void; otherwise, this obligation shall be and remain in full force and effect.

As condition precedent to the satisfactory completion of the contract, the obligation of the PRINCIPAL and SURETY under this Bond shall remain in effect for a period of one (1) year after the completion and acceptance of the WORK. During that time, if the PRINCIPAL, its heirs, executors, administrators, successors or assigns fails to make full, complete and satisfactory repair and replacement or totally protect the CITY from any loss or damage made evident during that year which results from or is caused by either defective materials or faulty workmanship in the prosecution of the WORK, then the obligation shall remain in full force and effect. However, anything in

this paragraph to the contrary notwithstanding, the obligation of the SURETY shall continue so long as any obligation of the PRINCIPAL remains.

No prepayment or delay in payments, and no change, extension, addition or alteration of any provision of the AGREEMENT or in the specifications agreed to between the PRINCIPAL and the CITY, or any forbearance on the part of the CITY shall operate to relieve the SURETY. The SURETY hereby waives the provisions of Section 2819 of the California Civil Code. The SURETY waives all rights of subrogation against the CITY or any person employed by the CITY. If the contract price increases by the issuance of change orders, the amount specified in this bond shall increase by the same amount.

Whenever PRINCIPAL shall be and declared by CITY to be in default under the AGREEMENT, SURETY shall promptly remedy the default, or shall promptly do one of the follow at CITY's election:

1. Undertake through its agents or independent contractors, reasonably acceptable to CITY, to complete the AGREEMENT in accordance with its terms and conditions and to pay and perform all obligations of PRINCIPAL under the AGREEMENT, including without limitation, all obligations with respect to warranties, guarantees, and the payment of liquidated damages.
2. Reimburse CITY for all costs CITY incurs in completing the AGREEMENT, and in correcting, repairing or replacing defects in materials or workmanship and/or materials and workmanship which do not conform to the specifications in the AGREEMENT.

SURETY's obligations hereunder are independent of the obligations of any other surety for the performance of the AGREEMENT, and suit may be brought against SURETY and such other sureties, jointly and severally, or against any one or more of them, or against less than all of them without impairing CITY's rights against the others.

No right of action shall accrue on this bond to or for the use of any person or corporation other than CITY or its successors or assigns.

As part of the obligation secured hereby and in addition to the face amount specified therefore, there shall be included costs and reasonable expenses and fees, including reasonable attorneys' fees, incurred by CITY in successfully enforcing such obligation, all to be taxed as costs and included in any judgment rendered.

**PUBLIC WORKS
LABOR AND MATERIALS PAYMENT BOND**

(Project: _____)

WHEREAS, the City of Roseville ("CITY"), has awarded a bid and contract to _____ as contractor ("PRINCIPAL"), for the public work described as _____ (the "WORK"). The contract ("AGREEMENT"), for the public work described above, and all of its terms and conditions are incorporated by reference and made a part hereof; and

WHEREAS, the PRINCIPAL is required to furnish a bond in connection with the AGREEMENT guaranteeing payment of persons who provide labor and material; and

NOW, THEREFORE, we the undersigned PRINCIPAL and _____, a _____, admitted and duly authorized to transact business under the laws of the State of California, as SURETY ("SURETY"), are held and firmly bound unto the CITY or its successors and assigns in the sum of _____ dollars (\$ _____) (which amount is not less than 100% of the AGREEMENT price) to be paid to the CITY or its successors and assigns; and for which payment, well and truly to be made, we bind ourselves, our heirs, executors and administrators, successors or assigns jointly and severally, firmly by these presents.

The condition of the obligation is such that if the PRINCIPAL, its subcontractors, heirs, executors, administrators, successors or assigns fails to pay any of the persons named in Section 8004 or 9100 of the Civil Code of the State of California, or the amounts due under the Unemployment Insurance Code of the State of California, or any amounts required to be deducted, withheld and paid over to the Employment Development Department from the wages of employees of the PRINCIPAL and its subcontractors pursuant to Section 13020 of the Unemployment Insurance Code, with respect to work or labor performed by any such claimant, that the SURETY will pay for the same, in an amount not exceeding the sum specified in this bond, and also, in case suit is brought upon the bond, shall pay reasonable attorneys' fees, to be fixed by the Court.

This bond shall inure to the benefit of any and all persons, companies, and corporations entitled to file a Stop Payment Notice pursuant to the provisions of Section 9350 et seq. of the Civil Code of the State of California, so as to give a right of action to them or their assigns in any suit brought upon this bond.

No prepayment or delay in payments, and no change, extension, addition or alteration of any provision of the AGREEMENT or in the specifications agreed to between the PRINCIPAL and the CITY, or any forbearance on the part of the CITY shall operate to relieve the SURETY. The SURETY hereby waives the provisions of Section 2819 of the California Civil Code. The SURETY waives all rights of subrogation against the CITY or any person employed by the CITY. If the contract price increases by the issuance of change orders, the amount specified in this bond shall increase by the same amount.

As part of the obligation secured hereby and in addition to the face amount specified therefore, there shall be included costs and reasonable expenses and fees, including reasonable attorneys' fees, incurred by CITY in successfully enforcing such obligation, all to be taxed as costs and included in any judgment rendered.

FOR COUNCIL APPROVAL
NOT FOR BIDDING

SECTION 1

DEFINITIONS AND TERMS

1-1.01 **GENERAL.** When the following abbreviations and terms or pronouns in place of them appear in the Contract Documents, the intent and meaning shall be interpreted as provided in this Section 1.

1-1.02 **ACCEPTANCE.** Formal Acceptance by resolution by the Roseville City Council of the Contract when completed in all respects in accordance with the Contract Documents and any modifications previously approved.

1-1.03 **ADDENDUM.** Written interpretation or revision to any of the Contract Documents issued by the City before the bid opening.

1-1.04 **AS-BUILT DOCUMENTS, AS-BUILT DRAWINGS AND RECORD DOCUMENTS.** As-Built Documents, As-Built Drawings and Record Documents are all contract documents modified to reflect changes during the construction phase. Specifically, As-Built Documents/Drawings are a revised set of drawings submitted by the Contractor upon Final Completion of a project. They reflect changes made in the Specifications and Working Drawings during the construction process, and show the exact dimensions, geometry, and location of all elements of the work completed under the Contract. Record Documents, on the other hand, are compiled by the Engineer or Architect based on the As-Built Documents/Drawings submitted by the Contractor. They reflect the Engineer or Architect's concurring review of what changes were denoted, why they were made and where they occurred and create a record set of drawings.

1-1.05 **ASSESSMENT.** A cost imposed on the Contractor for non-compliance

with certain contractual requirements.

1-1.06 **BENEFICIAL OCCUPANCY.** The taking possession of a portion of the Work by the City for its use and/or occupancy on other than a temporary or emergency basis.

1-1.07 **BID GUARANTY.** The cashier's, certified check, irrevocable standby letter of credit, deposit of securities, or Bidder's Bond, accompanying the bid submitted by the Bidder, as a guaranty that the Bidder will enter into an agreement with the City for the performance of the Work, if the Agreement is awarded to Bidder, and the Bidder will submit the required Contract Bonds and Certificate of Insurance. Also referred to as the Bidder's Security.

1-1.08 **BIDDER.** Individual, firm, partnership, limited liability company, corporation, joint venture, or any combination thereof, submitting a Proposal for the Work, acting directly, or through a duly authorized representative.

1-1.09 **BIDDING DOCUMENTS.** Includes the Notice to Bidders, Bidding Requirements, Contract Conditions, Drawings, and Addenda.

1-1.10 **CHANGE ORDER.** Any written order to the Contractor directing an addition, deletion, or modification of the Work, or an adjustment in the Contract Price or Contract Time provided in the Contract Documents and issued after the Agreement has been signed.

1-1.11 **CITY.** The City of Roseville.

1-1.12 **CITY ATTORNEY.** The City Attorney of the City.

1-1.13 **CITY CLERK.** The City Clerk of the City.

1-1.14 **CLAIM.** A separate demand by Contractor sent by registered mail or certified mail with return receipt requested, for one or more of the following: (a) a time extension, including, without limitation, for relief for damages or penalties for delay assessed by

the City; (b) payment by the City of money or damages arising from work done by, or on behalf of, Contractor pursuant to the Contract Documents and payment for which is not otherwise expressly provided or to which Contractor is not otherwise entitled; and (c) payment of an amount that is disputed by the City.

1-1.15 **CONSTRUCTION SCHEDULE.** A list or graphic display of construction activities required for completing the Work, in a format required by the Contract Documents. The duration, start and finish date, and sequence of significant activities, critical path, float and milestones must be indicated in the Construction Schedule.

1-1.16 **CONTRACT OR AGREEMENT.** The written agreement relating to the Work to be performed, the labor, materials, and equipment to be furnished, and the payment to be made therefor. The Agreement/Contract is part of and incorporates all of the Contract Documents.

1-1.17 **CONTRACT CONDITIONS.** Includes the General Conditions, Supplemental Conditions, and Specifications.

1-1.18 **CONTRACT DOCUMENTS.** Includes those documents that form the basis of the Contract, including but not limited to, Bidding Documents, the Bid or Proposal, Contract Bonds, the Contract, all required insurance certificates or endorsements, all bonds, all required certifications or statements, Change Orders, any Contract Amendment, any City Standard which is incorporated by reference and these City of Roseville General Conditions for Buildings and Grounds.

1-1.19 **CONTRACT DRAWINGS.** The official drawings including plans, elevations, sections, detail drawings, diagrams, plated, General Notes, information and schedules thereon, or exact reproductions thereof, showing the location, character, dimension, and details

of the Work. The Contract Drawings include any drawings or plates bound within the Supplemental Conditions.

1-1.20 **CONTRACT PRICE.** The total compensation to be paid to the Contractor in accordance with the terms of the Agreement.

1-1.21 **CONTRACT TIME.** The number of Days, or portion thereof, allowed for completion of the Work, including all authorized time extensions. The effective date for commencement of the Work specified in the Notice to Proceed shall define the beginning of the Contract Time.

1-1.22 **CONTRACTOR.** Individual, firm, partnership, limited liability company, corporation, joint venture, or any combination thereof, who has entered into the Agreement with City.

1-1.23 **DAY OR DAYS.** Unless otherwise designated, Day or Days as used in the Contract Documents will be understood to mean calendar Day or Days.

1-1.24 **DEPARTMENT.** The Department for Contract Administration, as identified in the Supplemental Conditions.

1-1.25 **DIRECT COSTS.** Those cost items (including labor, materials, equipment and any subcontractor's work) that are used in the actual performance of, and are specifically and uniquely attributable to the Work or changed Work. Direct Costs do not include Overhead. Direct Costs only include the following:

A. Payroll costs for employees in the direct employ of Contractor in the performance of the Work under schedules of job classifications agreed upon by City and Contractor. Payroll costs for employees not employed full time on the Work shall be apportioned on the basis of their time spent on the Work. Payroll costs shall include salaries and

wages plus the cost of fringe benefits which shall include social security contributions, unemployment, excise and payroll taxes, workers' compensation, health and retirement benefits, sick leave, vacation and holiday pay applicable thereto. Such employees may include superintendents and foremen at the site. The expenses of performing work after regular working hours, on Saturday, Sunday or legal holidays shall be included in the above only to the extent authorized by City in writing.

B. Cost of all materials and equipment furnished and incorporated in the Work, including costs of transportation and storage thereof, and suppliers' field services required in connection therewith. All trade discounts, rebates and refunds and all returns from sale of surplus materials and equipment shall accrue to City, and Contractor shall make provisions so that they may be obtained.

C. Payments made by Contractor to the subcontractors for work performed by subcontractors. If required by City, Contractor shall obtain competitive bids from subcontractors acceptable to Contractor and shall deliver such bids to City who will then determine which bids will be accepted. If a subcontract provides that the subcontractor is to be paid on the basis of cost of the work plus a fee, the subcontractor's cost of the work shall be determined in the same manner as Contractor's cost of the work. All subcontracts shall be subject to the other provisions of the Contract Documents insofar as applicable.

D. Costs of special consultants (including engineers, architects, testing laboratories, surveyors, and accountants) employed for services specifically, and only, related to the Work.

E. Supplemental costs including the following:

1. The proportion of necessary transportation, travel and subsistence

expenses of Contractor's employees incurred in discharge of duties connected with the Work.

2. Cost, including transportation and maintenance, of all materials, supplies, equipment, machinery, appliances, office and temporary facilities at the site and hand tools not owned by the workers, which are consumed in the performance of the Work, and cost, less market value of such items used but not consumed which remain the property of Contractor.

3. Rentals of all construction equipment and machinery and the parts thereof whether rented from Contractor or others in accordance with rental agreements approved by City, and the costs of transportation, loading, unloading, installation, dismantling and removal thereof, all in accordance with terms of said rental agreements. The rental of any such equipment, machinery or parts shall cease when the use thereof is no longer necessary for the Work.

4. Sales, consumer, use or similar taxes related to the Work, and for which Contractor is liable, imposed by laws and regulations.

5. The cost of utilities (including the meter and all associated installation costs), fuel and sanitary facilities at the site.

6. Cost of premiums for additional bonds and insurance required because of changes in the Work.

1-1-26 **DIRECTOR.** Director of the Department for Contract Administration or his or her designee.

1-1.27 **EMERGENCY.** Any sudden generally unforeseen occurrence (such as a fire, flood, storm, earthquake, civil disorder, or other natural and/or man-made disaster) that has the potential to adversely affect the safety of life, the Work, and/or adjacent property; to interrupt contracts essential to the performance of the Work; and/or to cause catastrophic failure of City

equipment and/or facilities.

1-1.28 **ENGINEER OR ARCHITECT.** Professional Engineer or Architect designated for a particular project responsible for signing and sealing the permit drawings, interpretation of the drawings where ambiguities exist, review of requests for information, design Change requests and Shop Drawings, resolution of errors and omissions, and finalization of Record Documents.

1-1.29 **FINAL COMPLETION.** When the project has been completed according to the terms and conditions set forth in the Contract Documents. Final Completion is not the same as Acceptance.

1-1.30 **FORCE ACCOUNT.** Payment by force account shall mean payment on the basis of the Contractor's time and materials.

1-1.31 **GENERAL NOTES.** The written instructions, provisions, conditions or other requirements appearing on the Contract Drawings and so identified thereon, which pertain to the performance of the Work.

1-1.32 **INSTALLATION, INSTALL.** Completely assembling, erecting, and/or connecting materials, parts, components, supplies, and related equipment specified or required for the completion of the Work.

1-1.33 **LABORATORY.** Established professional laboratories authorized by the City to test materials and Work involved in the Contract.

1-1.34 **LEGAL HOLIDAYS.** Those days designated as Federal holidays or declared by the City, or otherwise specified in the Contract Documents.

1-1.35 **LIQUIDATED DAMAGES.** The amount prescribed in the Contract Documents to be paid to the City or to be deducted from any payments due or to become due the

Contractor for each day's delay in completing the whole or any specified portion of the Work beyond the time allowed in the Supplemental Conditions.

1-1.36 **NOTICE OF COMPLETION.** A legal notice filed by the City with the Placer County Recorder's Office stating that construction has been completed and accepted by the City.

1-1.37 **NOTICE TO PROCEED.** A written notice given by the City to the Contractor fixing the date on which the Contract Time will commence to run.

1-1.38 **NOTICE OF TERMINATION.** Written notice from the City to the Contractor and/or its Surety terminating the Agreement, or a portion thereof, either for convenience of the City or for default due to the Contractor's failure to perform its contractual obligations.

1-1.39 **OVERHEAD.** Business or administrative expenses (including but not limited to office expenses, administrative staff, rent, insurance, utilities) not chargeable to a particular part of the Work. The term "Overhead" shall include all of the following:

A. Payroll costs and other compensation of Contractor's officers, executives, principals (of partnerships and sole proprietorships), general managers, engineers, architects, estimators, attorneys, auditors, accountants, purchasing and contracting agents, expeditors, timekeepers, clerks, and other personnel employed by Contractor whether at the Work Site or in Contractor's principal or a branch office for general administration of the Work and not specifically included in the agreed upon schedule of job classifications, all of which are to be considered administrative costs covered by the Contractor's fee.

B. Expenses of Contractor's principal and branch offices other than Contractor's office at the site.

C. Any part of Contractor's capital expenses, including interest on Contractor's capital employed for the Work and charges against Contractor for delinquent payments.

D. Cost of premiums for all bonds and for all insurance whether or not Contractor is required by the Contract Documents to purchase and maintain the same, except as provided in section 1-1.25.

E. Other overhead or general expense costs of any kind.

1-1.40 **PREMISES.** Shall mean the area within construction easements, easements, rights of entry and City owned property which surrounds the Work Site, limited by the property lines thereof. In some cases Premises may coincide with the Work Site.

1-1.41 **PROFESSIONAL ENGINEER.** An engineer licensed by the Board of Registration for Professional Engineers, State of California.

1-1.42 **PROJECT MANUAL.** A book containing all Contract Documents.

1-1.43 **PROPOSAL FORMS.** The approved forms upon which the City requires that each Bidder submit its bid with regard to the Agreement.

1-1.44 **REQUEST FOR INFORMATION (RFI).** A document issued by the Contractor requesting information concerning the Contract Documents.

1-1.45 **SAFETY.** Includes the practice of identifying potential hazards, assessing their risk, taking corrective action where possible, including and providing control measures such as engineering design, written procedures, and the personal protective equipment for workers in order to eliminate or reduce the risk for exposure in the workplace.

1-1.46 **SCHEDULE OF VALUES.** The breakdown of the Contract Price that will serve as the basis for Contractor's Applications of Payment. Any lump sum bid item

included within the Contract Price will be apportioned among values relating to specific components of the Work covered by said lump sum.

1-1.47 **SHOP DRAWINGS.** Drawings, plans, diagrams, schedules, and other data specifically prepared and submitted to the City by the Contractor, showing in detail: (a) the proposed fabrication and assembly of a special component of the Work; and (b) the Installation (form, fit and attachment details) of a special component of the Work. Shop Drawings shall be deemed to include Working Drawings, Product Data, literature, and applicable performance and test data.

1-1.48 **SPECIFICATIONS.** The technical Specifications for the Work prepared by the Director or an Engineer or Architect describing in detail the nature of the Work, its components, any performance standards, and how the Work is to be constructed.

1-1.49 **SUBCONTRACTOR.** Any individual, firm, partnership, limited liability company, corporation, joint venture, or combination thereof, other than employees of the Contractor, engaged by the Contractor to furnish services, labor, equipment and materials for a portion of the Work.

1-1.50 **SUBMITTALS.** Those documents required to be submitted by the Contractor for review by the City in accordance with the Contract Documents.

1-1.51 **SUPPLEMENTAL CONDITIONS.** The Supplemental Conditions are specific clauses modifying or supplementing these General Conditions.

1-1.52 **SUPPLIER.** Any individual, firm, partnership, limited liability company, corporation, joint venture, or combination thereof, other than employees of the Contractor, that supplies a tangible product as a portion of the Work, with services usually limited to delivery and/or required testing, and with manufacturing, fabrication, or production facilities located off

the Work Site.

1-1.53 **WORK.** The furnishing of all labor, and the furnishing and Installing of all materials, articles, supplies and equipment as specified, designated, or required by the Contract Documents.

1-1.54 **WORK SITE.** All or portion of the Premises that the Work is limited to as shown on the Contract Drawings or designated by the Director. Public streets are not included unless Work is being done within the street right-of-way.

1-1.55 **WORKING DRAWINGS.** Original drawings prepared by the Contractor and/or its Subcontractors or Suppliers, of any tier, illustrating Work required for construction that will not become an integral part of the completed Work. This includes, but is not limited to, drawings for temporary structures such as decking, bulkheads, excavation supports, utility support, groundwater control, forming, falsework, access roads, staging areas, staging plans, and diversion plans. A Working Drawing is one type of a Shop Drawing.

SECTION 2

CONTROL AND SCOPE OF THE WORK

2-1.01 **AUTHORITY OF DIRECTOR.** The Contract shall be performed in a manner satisfactory to the Director who shall decide all questions which may arise as to the quality or acceptability of materials furnished and Work performed and as to the manner of performance and rate of progress of the Work; all questions which may arise as to the interpretation of the Contract Documents; all questions as to the acceptable fulfillment of the Contract on the part of the Contractor; and all questions as to compensation. The Director shall have authority to enforce and make effective such decisions and orders in the event the Contractor fails to promptly carry out the same.

2-1.02 **INTENT OF CONTRACT DOCUMENTS.** The Contract Documents are complementary, and what is called for by one shall be as binding as if called for by all. The intent of the Contract Documents is to describe the details for the construction and completion of the Work. Where the Contract Documents describe portions of the Work in general terms, but not in complete detail, it is understood that only the best general practice shall be followed and that only materials and workmanship of the best quality are to be used. Any Work, materials, or equipment that are customarily provided, or that are reasonably inferable from the Contract Documents as being required to produce the intended result, shall be supplied, whether or not specifically called for. When words, which have a well-known technical or trade meaning are used to describe work, materials, or equipment, such words shall be interpreted in accordance with that meaning. Unless otherwise specified, the Contractor shall furnish all labor, materials, tools, equipment, and incidentals, and do all the Work involved in executing the Contract in a

satisfactory and workmanlike manner.

Reference to standard specifications, manuals or codes of any technical society, organization or association, or to the laws or regulations of any governmental authority, whether such reference be specific or by implication, shall mean the latest standard specification, manual, code, laws, or regulations in effect on the first published date of the Notice to Contractors, except as may be otherwise specifically stated. However, no provision of any referenced standard specification, manual or code (whether or not specifically incorporated by reference in the Contract Documents) shall be effective to change the duties and responsibilities of City or Contractor, or any of their consultants, agents, or employees from those set forth in the Contract Documents, nor shall it be effective to assign to City, or City's designated representative, any duty or authority to supervise or direct the furnishing or performance of the Work or any duty or authority to undertake responsibility contrary to other provisions of the Contract Documents.

The Contract Documents are divided into parts, divisions, sections and articles for convenience, organization and reference. Generally, there has been no attempt to divide the Specifications sections into work performed by the various building trades, work by separate Subcontractors, or work required for separate facilities in the project.

2-1.03 **EXAMINATION AND VERIFICATION OF CONTRACT**

DOCUMENTS. The Contractor shall thoroughly examine and become familiar with all of the various parts of the Contract Documents and shall determine the nature and location of the Work, the general and local conditions (including applicable laws) and all other matters which can in any way affect the cost, progress or performance of the Work under this Agreement. Failure to make an examination necessary for this determination shall not release the Contractor from the obligations of the Agreement. No oral agreement or conversation with any officer, or employee

of the City, or with the City's designated representative either before or after the execution of the Agreement, shall affect or modify any of the terms or obligations contained in the Contract Documents.

2-1.04 **CONTRACT DRAWINGS.** The Contract Drawings consist of general drawings and show such plans, elevations, sections, details and schedules as are necessary to give a graphic and pictorial description of the contemplated construction. All authorized alterations affecting the requirements and information given on the Contract Drawings shall be in writing.

2-1.05 **COORDINATION AND INTERPRETATION OF CONTRACT DOCUMENTS.** All Contract Documents are essential parts of the Contract, and a requirement occurring in one is as binding as though occurring in all. They are intended to be complementary, and to describe and provide for a complete Work.

In the event of inconsistencies between requirements contained in different components of the Contract Documents, the precedence of the Contract Documents shall be as follows to resolve conflicts:

1. Change Orders
2. The Contract (including Addenda)
3. The Supplemental Conditions
4. Specifications
5. Contract Drawings
6. The General Conditions

Should it appear that the Work to be done or any of the matters relative thereto are not sufficiently detailed or explained in the Contract Documents, the Contractor shall submit a

Request for Information (“RFI”) to the Director for such further explanations as may be necessary and shall conform to the written explanation given as if part of the Contract Documents. The decisions of the Director shall be final.

Contractor shall anticipate that it will be necessary to prepare and submit RFIs regarding the Contract Documents. The City will respond to each RFI by no later than fourteen (14) Days after receipt of the RFI, unless the RFI is of significant complexity. Furthermore, in the event that there are numerous RFIs pending, Contractor shall cooperate with the City in establishing a priority for responding to the RFIs, and potentially some RFIs may be responded to beyond the fourteen (14) Day period.

Each RFI prepared by Contractor shall be full and complete. Contractor shall prepare RFIs so as to not cause any delay to the progress of the Work and to not cause any impact to Contractor’s labor productivity in the field. Contractor shall not assert any Claims for delay or interference against the City if Contractor fails to timely submit any RFI to the City, after consideration of the response period allowed for by the City.

The response to an RFI shall not, by itself, constitute a writing that authorizes Contractor to perform any Work that causes an adjustment to either the Contract Price or the Contract Time. If Contractor believes that any response to any RFI should constitute a compensable change, Contractor shall provide a Notice of Potential Claim as provided in Section 7-1.03, below. Contractor’s failure to provide the required written notice shall constitute a waiver of the Contractor’s right to seek a compensable change based on the RFI response.

The Contractor shall examine all Contract Documents; shall verify all figures in the Contract Documents before laying out the Work; shall promptly notify the City of all errors, inconsistencies, and/or omissions that it discovers; and, in instances where such non-

conformities are discovered, shall obtain specific instructions in writing from the City before proceeding with the Work. Contractor's performance of any Work affected by such non-conformities prior to the City's decision shall be at the Contractor's risk. Any Work that is customarily provided or that is reasonably inferable shall not relieve the Contractor from performing such work at no additional expense and/or delay, and such Work shall be performed as if fully set forth in the Contract Documents.

2-1.06 **INDEPENDENT CONTRACTOR STATUS.** The Contractor shall independently perform all Work required by the Contract Documents and shall not be considered as an agent or employee of the City, nor shall the Contractor's Subcontractors or employees be considered as subagents of the City.

The Contractor and Contractor's Subcontractors shall be licensed in accordance with the laws of the State of California and as more particularly described in the bidding documents or elsewhere in the Contract Documents.

2-1.07 **ORDER OF WORK.** When required by the Contract Documents, the Contractor shall follow the sequence of operations set forth therein. Full compensation for conforming to such requirements will be considered as included in the prices paid for the various Contract items of work, and no additional compensation will be allowed therefor.

2-1.08 **SUBMITTALS.** It shall be the Contractor's responsibility to timely submit, so as to cause no delay in the Work, all Shop Drawings, descriptive data, manuals, instructions, affidavits, samples for the various trades as required by the Supplemental Conditions and Specifications, and offers of alternatives, if any. Such Submittals shall be checked and coordinated by the Contractor with the Work of other trades involved before they are submitted to the Director for examination.

The Contractor shall deliver at least one (1) electronic copy of the Submittals to the Director, and one (1) hard copy if requested. Work requiring the submittal of working drawings, descriptive data or samples shall not begin prior to approval of said Submittal by the Director.

The time allowed for review of each Submittal will be as indicated in the Supplemental Conditions. Review time will start upon receipt of the Submittal by the Director and will end upon the Director's mailing of the Submittals to the Contractor. Defective, incomplete or partial Submittals will be returned to the Contractor unreviewed.

Submittals shall be made by a letter of transmittal that shall contain a list of all matter submitted and identification of all variations from the Contract Documents contained in the Submittal. The letter and all items accompanying the same shall be fully identified as to project name and location, Contractor's name, district, county, and Contract number, with ample cross-references to the Contract Documents, to facilitate identification of items and their location in the Work.

All Shop Drawings and supporting data, catalogs, schedules, shall be submitted as the instruments of the Contractor, who shall be responsible for their accuracy and completeness. These Submittals may be prepared by the Contractor, Subcontractors, or Suppliers, but the Contractor shall ascertain that Submittals meet all of the requirements of the Contract Documents, while conforming to structural, space, and access conditions at the point of Installation. The Contractor shall check all Submittals before submitting them to the Director.

2-1.08A **SHOP DRAWINGS.** The Contractor shall submit an electronic copy (searchable PDF) of all Shop Drawings required by the Supplemental Conditions or Specifications, and one (1) hard copy, if requested by the Director. Shop Drawings shall also be provided separately in AutoCAD format using the latest version of AutoCAD. An electronic

copy will be returned to the Contractor either approved for use, as demonstrated by a stamp, or returned for correction and resubmittal. Materials, colors and/or samples will not be returned to the Contractor. Shop Drawings include any drawing, which requires execution by a draftsman as distinguished from printed matter. The size of Shop Drawings shall not exceed twenty-four inches (24") by thirty-six inches (36").

2-1.08B **DESCRIPTIVE DATA.** The Contractor shall submit an electronic copy (searchable PDF) of each set of manufacturer's brochures or other data required by the Supplemental Conditions or Specifications, and one (1) hard copy, if requested by the Director. The City will examine such Submittals and return either an electronic copy or a hard copy approved for use or returned for correction and resubmittal.

2-1.08C **SAMPLES.** The Contractor shall submit samples of articles, materials or equipment as required by the Supplemental Conditions or Specifications. The Work shall be in accordance with the approved samples. Samples shall be removed from City property when directed or may be incorporated in the Work if approved by the Director. Samples not removed by the Contractor will become the property of the City or, at the City's option, will be removed or disposed of by the City at the Contractor's expense.

2-1.08D **MANUALS, INSTRUCTIONS AND AFFIDAVIT.**

A. **Manuals and Instructions.** Where operation and maintenance manuals are required by the Supplemental Conditions, the Contractor shall submit two (2) sets of manuals, suitably bound, along with two (2) electronic copies in an approved format, to the Director within forty-five (45) Days after favorable review of the equipment or facilities. If operation and maintenance manuals are approved to be provided in PDF format, text shall be provided in searchable PDF format, making proper use of PDF for headings and heading levels,

paragraphs, tables, and lists. Submitted operation and maintenance manuals shall be a collected, organized, and indexed set of bookmarked PDF documents comprising each operation and maintenance manual that corresponds to a hardcopy binder. All manuals shall be marked to indicate the specific equipment furnished for this project and shall include at a minimum:

1. Equipment summary form
2. Cover/Title page
3. Table of contents
4. Operating procedures including start-up, shutdown, normal operation, all operating modes, emergency shutdown, and safety precautions
5. Lubrication instructions (if required)
6. Preventative maintenance procedures
7. Troubleshooting and corrective maintenance procedures
8. Reinstallation instructions
9. Overhaul instructions (if applicable)
10. Parts identification list with exploded view and associated cross references
11. Recommended spare parts list
12. Operator safety requirements
13. Electrical and control system wiring drawings, including panel wiring control (ladder) diagrams, logic diagrams, loop diagrams, and interconnection diagrams
14. Panel layout and assembly drawings

15. Mechanical drawings
16. Printouts of all software programs and configuration files
17. Factory and field test procedures and results

Operation and maintenance manuals for complex equipment shall also include:

18. Alternate specified operating modes
19. Emergency shutdown instructions
20. Normal shutdown instructions
21. Long term shutdown instructions

Operation and maintenance manuals for systems comprised of separate pieces of equipment shall include a system explanation of items 4, 7, 18, 19, 20, and 21 as well as the instructions for the separate pieces of equipment.

B. Affidavits. Where required in the Supplemental Conditions or Specifications, manufacturers of equipment shall provide field service as a part of this project. Equipment shall not be considered ready for full time operation until after the authorized factory-trained and qualified manufacturer's representative for the specific equipment has checked and adjusted the equipment and certified by written affidavit that the equipment has been properly Installed, tested, adjusted, lubricated, and calibrated, and is ready for full time operation. Acceptable affidavits shall be submitted prior to completion of the Work. Affidavits shall contain the following specific wording:

“The (Name of Equipment) has been properly installed, tested, adjusted, lubricated, and calibrated, and is ready for full time operation. The installation has been inspected and has been found to be in conformance with our (the manufacturer's) standards and requirements.”

No amplification, dilution, or modification of this specific wording will be permitted.

2-1.08E **ALTERNATIVES.** For convenience in designation in the Contract Documents, certain materials, articles, or equipment may be designated by a brand or a trade name or the name of the manufacturer together with catalog designation or other identifying information, hereinafter referred to generically as “designated by brand name.” Except in those instances where the product is designated to match others in use in a particular improvement, either completed or in the course of completion, an alternative material, article, or equipment which is of equal quality and of the required characteristics for the purpose intended may be proposed for use provided the Contractor complies with the following requirements:

A. The Contractor shall submit its proposal for an alternative in writing. Such request shall be made in ample time to permit review and approval without delaying the Work. The Contractor shall not be entitled to an adjustment of the Contract Time or an increase in the Contract Price based on any Contractor-proposed substitution.

B. No such proposal will be considered unless accompanied by complete information and descriptive data, necessary to determine the equality of the offered materials. The Contractor shall satisfy the Director as to the comparative quality, suitability, or performance of the offered material, articles, or equipment. In the event that the Director rejects the use of such alternative materials, articles, or equipment, then one of the particular products designated by brand name shall be furnished.

C. The burden of proof as to the quality and suitability of alternatives shall be upon the Contractor and it shall furnish all information necessary as required by the Director. The Director shall be the sole judge as to the quality and suitability of alternative articles or materials and such decisions shall be final. Where use of an alternative material

involves redesign of, or changes to, other parts of the Work, the cost and time required to effect such redesign or changes will be considered in evaluating the suitability of the alternative material. Cost of redesign by the City will be borne by the Contractor.

D. Whenever classification, rating or other certification by a body such as Underwriters Laboratories (UL) or the National Electrical Manufacturers Association (NEMA) is a part of the specification for any material, Contractor's request for use of alternative articles or materials shall be accompanied by reports from the listed or equivalent independent testing Laboratory indicating compliance with the Contract Documents. The cost of all testing required to prove equality of the material proposed shall be borne by the Contractor. Approval of an alternative shall be only for the characteristics or use named in such approval, and shall not be used to change or modify any requirement of the Contract Documents.

E. At its election, the City reserves the right to consider any Contractor proposed substitution as a Cost Reduction Proposal under Section 3-1.07 of these General Conditions in the event that there is a significant savings resulting from the substitution.

The Director will examine, with reasonable promptness, such Submittals, and return of Submittals to the Contractor shall not relieve the Contractor from responsibility for deviations and alternatives from the Contract Documents, nor shall it relieve the Contractor from responsibility for errors in the Submittals. A failure by the Contractor to identify in its letter of transmittal material deviations from the Contract Documents shall void the Submittal and any action taken thereon by the Director. When specifically requested by the Director, the Contractor shall resubmit such Shop Drawings, descriptive data and samples as may be required.

If any mechanical, electrical, structural, or other changes are required for the proper Installation and fit of alternative materials, articles, or equipment, or because of deviations from

the Contract, such changes shall not be made without the approval of the Director and shall be made without additional cost to the City.

2-1.09 **DISPOSAL OF MATERIAL OUTSIDE THE WORK SITE.** Unless otherwise stated elsewhere in the Contract Documents, the Contractor shall, at its own cost and expense, make its own arrangements for disposing of materials outside the Work Site.

Except when material is to be disposed of at a landfill or recycling center, when any material is to be disposed of outside the Work Site, the Contractor shall first obtain written permission from the City to dispose of the material at the intended location. The City's approval will be contingent upon the Contractor obtaining a written permit from the property owner on whose property the disposal is to be made. Prior to the disposal of any material at the intended location, the Contractor shall submit such permit or a certified copy thereof to the City, together with a written release from the property owner absolving the City from any and all responsibility related to the disposal of material on said property.

Disposal of Hazardous Materials must be done in accordance with all laws and regulations. Copies of all required regulatory documentation including copies of final manifests shall be supplied to the City.

2-1.10 **ACCESS TO THE WORK.** The Contractor shall satisfy itself that the jurisdictions through which its operations and haul routes pass will permit such operations with respect to the type of vehicle, laden weights, frequency and dimensions of loads, hours of operation and required traffic control. All necessary permits, licenses or bonds shall be obtained and paid for by the Contractor.

2-1.11 **TEMPORARY UTILITIES.** The Contractor shall make its own arrangements with utility companies for any temporary services it may require in performance of

the Work and shall pay all costs of these services directly to these utility organizations.

2-1.12 **UTILITY FACILITIES.** The Contractor shall protect from damage those utility facilities that are to remain in place, be Installed, relocated or otherwise arranged.

The Contractor's attention is directed to the possible existence of facilities not shown, and of facilities in a location different from that, which is indicated. The Contractor shall take steps to ascertain the exact location of all facilities prior to doing any Work, which may damage such facilities or interfere with their service. Where the location of a facility is indicated or inferred from the presence of visible facilities such as buildings, meters, and junction boxes, the Contractor shall make such excavations and explorations as are necessary to ascertain the correct location. Unless provided for elsewhere in the Contract Documents, the cost of such excavations and explorations will be considered as a part of the cost of other items of Work and no additional payment will be made. Such excavations and exploratory Work shall not entitle the Contractor to an extension of time.

If the Contractor discovers underground facilities not indicated or inferred from the Contract Documents, the Contractor shall immediately give the Director written notification of the existence of those facilities. The Contractor shall determine the exact location of the underground facilities and the cost of the work will be paid for in accordance with the Contract Documents. The underground facilities shall be protected from damage as directed by the Director and the cost of that work will be paid for as extra work. The Contractor shall, if directed by the Director, repair any damage, which may occur to the underground facilities. The cost of that repair work, not due to the failure of the Contractor to exercise reasonable care, will be paid for as extra work. Damage due to the Contractor's failure to exercise reasonable care shall be repaired at the Contractor's cost and expense.

Where it is determined by the City that the rearrangement of an underground facility, the existence of which is not shown on the Contract Drawings, is essential in order to accommodate the Work, the City will provide for the rearrangement of such facility by other forces or, when so ordered by Change Order, such rearrangement shall be performed by the Contractor and will be paid for as provided under a Change Order.

The Contractor shall be responsible for the maintenance of all utility facilities placed by the Contractor in temporary locations, and all utilities within the construction area not required to be relocated but which are required to be shored or supported during the construction period. The cost of such maintenance shall be borne by the Contractor, and no other compensation shall be due the Contractor for this Work.

The cost of providing and maintaining all necessary or required temporary structures, of making any necessary repairs, replacements, or similar operations, or furnishing indemnity or other bonds, if required, and all costs required by this Section shall be paid by the Contractor and shall be included in the prices bid in the schedule for other items of work.

2-1.13 **PRESERVATION AND CLEANING.** The Contractor shall clean up the Work at frequent intervals and at other times when directed by the Director. While finish Work is being accomplished, floors, Work areas and finished areas shall be kept clean, free of dust, construction debris and trash. Upon completion of the Work, the Contractor shall remove from the Premises its construction equipment and any waste materials not previously disposed of, leaving the Premises thoroughly clean and ready for final inspection.

2-1.14 **LIMITATIONS ON WORK SITE AND PREMISES.** The Contractor shall limit its construction operations to the Work Site unless otherwise shown on the Contract Drawings or specified. The Contractor shall perform no operation of any nature over or on the

Premises except such operations as are authorized by the Contract Documents or as authorized by the Director.

2-1.15 **DUST CONTROL.** During the performance of all Work under this Contract, the Contractor shall assume all responsibility for dust control and shall furnish all labor, equipment, and means required to carry out proper and efficient measures wherever and whenever dust control is necessary to prevent the operations from producing dust damage and nuisance to persons and property. Any claims resulting from dust damage or nuisance shall be borne solely by the Contractor. The Contractor shall comply with all applicable Air Quality Act requirements.

2-1.16 **SANITATION.** The Contractor shall provide sanitary facilities for all persons working on the Work.

2-1.17 **NIGHT WORK AND NORMAL WORKING HOURS.** Normal working hours at the construction site shall be between the hours of 7:00 a.m. and 7:00 p.m. Monday through Friday. Legal holidays are excluded. Certain utility connections and street operations are anticipated to require night Work by the Contractor during low usage periods. The Contractor may also be required to prosecute the Work at night if, at any time, the Director shall deem it necessary for the progress of the Work, or if emergencies arise. The Contractor shall promptly comply with any such requirements made in writing by the Director. The Contractor will also be permitted to Work at night if Contractor satisfies the Director of the need therefor, in order to maintain the required progress or protect the Work from the elements. Certain activities are required to be performed at night for nominal progress of the Work and/or are specified to be performed at night by other portions of the Supplemental Conditions. When required, ordered, or permitted to Work at night, the Contractor shall provide sufficient and

satisfactory lighting and other facilities therefor. The Contractor shall receive no extra payment for night Work, if specified or if required to be performed during the normal progress of the Work, but compensation shall be considered as having been included in the price stipulated for the Work.

If Contractor performs work during weekends, holidays or any non-normal work hours, Contractor shall pay for required City Inspectors.

2-1.18 **LINES AND GRADES.** Unless otherwise provided in the Supplemental Conditions, the Contractor shall lay out all Work, including structures and pipelines, and shall be responsible for any errors resulting therefrom. In all questions arising as to proper location of lines and grades, the Director's decision will be final.

As part of the bid price for the construction of the improvements, the Contractor shall provide and be responsible for the layout of all Work on this project. The Contractor shall provide all necessary surveys, field staking, and positioning for the construction of all components at the proper alignment, elevations, grades, and positions, as indicated on the Contract Drawings and as required for the proper operation and function. The Contractor shall stake its Work area limits. Contractor shall perform all construction staking using a land surveyor licensed in the State of California. Contractor shall provide a staking plan prior to commencement of Work for the City's review and maintain monuments, stakes, and marks, and shall update the plan as necessary. Director, or Director's designated representative, may verify the field condition. Errors or inconsistencies in the Contract Documents discovered by the Contractor shall be reported to the Director within twenty-four (24) hours and prior to constructive forms or related improvements. Any work Installed with this requirement shall be subject to removal and replacement at the Contractor's expense.

The Contractor's lay-out shall be based on existing structures, property lines, survey control, and bench marks established by the City. All structures and pipeline connections shall be Installed based on actual elevation of existing structures to which connections are made.

The Contractor shall supply such labor as required, at no extra charge, to aid and assist the Director in checking location and grades of the Work as set by the Contractor if the Director desires to perform this checking. This shall include moving materials and equipment located between monuments and the construction Work.

2-1.19 **ARCHEOLOGICAL DISCOVERIES.** Upon discovery of prehistoric or historic artifacts, or other indicators or examples of cultural resources discovered during the course of site preparation, grading, excavation, construction or other development activities, all operations within fifty feet (50') of the find shall cease until such time as the City provides the services of a qualified archeologist to evaluate the finds and recommend appropriate action.

Prehistoric materials can include flaked stone tools (e.g., projectile points, knives and choppers) or tool making debris of obsidian, chert, quartzite and other materials, culturally darkened soil (i.e., midden, which often contains heat affected rock, ash and charcoal, shellfish remains, and cultural materials), and stone milling equipment such as mortars, pestles and hand stones. Historic material may include wood, stone, concrete or adobe footings, walls and other structural remains; debris filled wells or privies; and deposits of wood, metal, glass, ceramics and other refuse.

2-1.20 **PRESERVATION OF MONUMENTS.** Any monuments or bench marks disturbed by construction operations shall be repaired per the City's standard and promptly re-established by a registered land surveyor or civil engineer. A plat for each monument shall be furnished to the Director after the plat has been recorded with the Placer

County Recorder's Office at no additional cost to the City. The recorded plat shall serve as a record of the re-establishment of said existing survey points.

2-1.21 **CONFORMITY WITH CONTRACT DOCUMENTS.** Work and materials shall conform to the lines, grades, cross sections, dimensions and material requirements, including tolerances, required by the Contract Documents. Although measurement, sampling and testing may be considered evidence as to such conformity, the City shall be the sole judge as to whether the Work or materials deviate from the Contract Documents. At its option, the City may elect to accept deviations from the Contract Documents with appropriate backcharge Assessments against the Contractor, and, if such an election is made, the City will provide written notice to the Contractor of such acceptance.

2-1.22 **FINAL CLEANUP.** Prior to final Acceptance of the Work, the Contractor shall thoroughly clean the Premises, remove all temporary structures built by or for the Contractor, and remove all equipment and surplus construction material and debris from the area. The entire project, before Acceptance by the City, shall be left in a neat and clean condition. All Work areas and temporary construction areas shall be returned to essentially the same conditions existing before the commencing of project construction.

2-1.23 **AS-BUILT DOCUMENTS AND DRAWINGS.** The Contractor shall maintain one set of the full size prints furnished by the City and mark thereon in color any deviations from plan dimensions, elevations, or orientations. Also, the Contractor shall locate on said prints, all underground facilities, such as piping, conduits and tanks by accurate field measurement from structure walls, corners, etc. The Contractor shall submit the prints and an electronic CD (searchable PDF or source file format such as AutoCAD) in good condition to the Director upon completion of the job as a condition of Acceptance of the project. Marked prints

shall be updated at least once each week and shall be available to the Director for review as to currency prior to developing partial payment estimates. After the completion of testing, but prior to Acceptance, the Contractor shall submit As-Built electrical drawings in color and an electronic CD showing all components and their wiring, and as specified in the Supplemental Conditions.

2-1.24 **SUPERINTENDENCE.** The Contractor shall supervise and direct the Work, which shall be performed in accordance with the requirements of the Contract Documents. The Contractor shall be solely responsible for implementation of all construction means, methods, techniques, sequences, and procedures and for coordination of all portions of the Work under the Agreement. The Contractor shall be solely responsible for the safety of its employees, Subcontractors of any tier, Suppliers, visitors to the Contractor, and other third parties associated with the Contractor.

The Contractor shall designate in writing before starting Work, an authorized representative who shall have the authority to represent and act for the Contractor.

When the Contractor is comprised of two (2) or more persons, firms, partnerships, or corporations functioning on a joint venture basis, said Contractor shall designate in writing before starting Work, the name of one authorized representative who shall have the authority to represent and act for the Contractor. Instances of misconduct, contract non-compliance, unsatisfactory performance, or incompetence by these personnel shall be grounds for the City to direct Contractor to dismiss them from the Project. Contractor shall immediately comply with the City's request for dismissal, at no cost to the City, and shall designate a replacement, which shall be subject to approval by the City.

Said authorized representative shall be present at the site of the Work at all times while Work is actually in progress on the Contract. When Work is not in progress and during periods

when Work is suspended, arrangements acceptable to the Director shall be made for any Emergency Work that may be required.

Whenever the Contractor or its authorized representative is not present on any particular part of the Work where it may be desired to give direction, orders will be given by the Director, which shall be received and obeyed by the superintendent or foremen who may have charge of the particular Work in reference to which the orders are given.

Any order given by the Director, not otherwise required by the Supplemental Conditions to be in writing, will on request of the Contractor, be given or confirmed by the Director in writing.

2-1.25 **CHARACTER OF WORKER.** If any Subcontractor or person employed by the Contractor shall appear to the Director to be incompetent or to act in a disorderly or improper manner, he or she shall be removed immediately on the requisition of the Director, and such person shall not again be employed on the Work.

2-1.26 **INSPECTION.** The Contractor shall at all times permit the Director to inspect the Work or any part thereof. The Contractor shall maintain proper facilities and provide safe access for such inspection by the Director to all parts of the Work, and to the shops where the Work is in preparation. Work shall not be covered up until authorized by the Director and the Contractor shall be solely responsible for notifying the Director where and when such Work is in readiness for inspection and testing. Should any such Work be covered without authorization, it shall, if so ordered, be uncovered at the Contractor's expense.

Unless otherwise designated as normal working hours, whenever the Contractor intends to perform Work on Saturday, Sunday, or a Legal Holiday, the Contractor shall give notice to the Director of such intention forty-eight (48) hours prior to performing such Work, or such longer

period as may be specified so that the Director may make necessary arrangements.

The observation and/or approval of the workmanship or materials by the City shall not relieve the Contractor of any obligations to fulfill the requirements of the Contract Documents. Workmanship and materials not meeting such requirements shall be corrected and unsuitable Work or material may be rejected, notwithstanding that such Work or materials have been previously observed and/or approved by the City, or payment therefor has been included in a progress estimate.

The City may order re-examination of questioned Work at any time before final Acceptance. If so ordered, the Contractor shall uncover the Work. If such work is found to be in accordance with the Contract Documents, the City will pay for the cost of uncovering, removing, recovering and replacing the parts removed; but if such Work so exposed or examined is not in accordance with the Contract Documents, the uncovering, removal, recovering and replacement shall be at the Contractor's expense. Work that has been covered prior to observation by the City does not qualify as re-examined work; the City may order such work uncovered for observation without payment of any costs.

2-1.27 **REMOVAL OF REJECTED AND UNAUTHORIZED WORK.** All Work which has been rejected shall be remedied, or removed and replaced by the Contractor in a manner acceptable to the Director and no compensation will be allowed the Contractor for such removal, replacement, or remedial Work.

Any Work done beyond the lines shown on the Contract Drawings or established by the Director, or any Work done without written authority will be considered as unauthorized Work and will not be paid for. Upon order of the Director, unauthorized Work shall be remedied, removed, or replaced at the Contractor's expense.

Upon failure of the Contractor to comply promptly with any order of the Director made under this section, the Director may cause rejected or unauthorized Work to be remedied, removed, or replaced, and the costs thereof will be deducted from any moneys due or to become due the Contractor.

FOR COUNCIL APPROVAL
NOT FOR BIDDING

SECTION 3

CHANGES IN THE WORK

3-1.01 **CHANGES.** The Director, without invalidating this Agreement and without notice to Contractor's surety, may order changes in the Work, consisting of additions or deletions, or other revisions. The Contract Price and the Contract Time shall be adjusted accordingly. All such changes in the Work, including in the Contract Price and the Contract Time, shall be authorized only by Contract Change Order, signed by the Director.

If Contractor claims that performance of any work entitles it to additional compensation or to an extension of time for performance of the Work, Contractor shall provide written notice to the City of any such claim prior to undertaking such work. Contractor shall provide written notice of any anticipated impacts to the Contract Price or Contract Time within three (3) Days of discovering such impact, by submitting a Notice of Potential Claim described in Section 7-1.03 below, or notice of delay as described in Section 6-1.09 below. If the Director refuses to issue a Change Order for such work, Contractor shall perform that work if directed or obligated to do so and shall submit a complete and specific Claim for additional compensation and/or extension of time for performance within fifteen (15) Days after such work is performed, as described in Section 7-1.03 below. Failure to provide written notice of claims prior to undertaking such work, failure to provide a timely Notice of Potential Claim, or failure to submit timely a complete and specific Claim for additional compensation and/or extension of the time for performance, shall be deemed a waiver and abandonment of any such Claim. No Claim, dispute or controversy shall interfere with the progress or performance of the Work and the Contractor shall proceed with the Work as directed by the Director. Failure to so proceed shall amount to a

default under this Agreement.

3-1.02 **PROPOSED CHANGE ORDERS.** The Contractor will be notified in writing of a proposed Change Order describing the intended change. Within fifteen (15) Days after receipt of a written request, the Contractor shall submit its proposed price to be added or deducted from the Contract Price due to the change and its estimate of the extent of the adjustment in the Contract Time, if any. The Contractor's proposed price to be added to or deducted from the Contract Price shall be supported by a detailed estimate of cost prepared by the Contractor, vendor or Supplier. The Contractor's proposed price submittal shall be accompanied by a statement of the time necessary for the changed Work, together with a description of how this time will be incorporated into the current Construction Schedule. The Contractor shall upon request by the Director permit inspection of its original Contract estimate, subcontract agreements or purchase orders relating to the change.

If agreement is reached on the adjustment in compensation as provided in Section 3-1.05, "Contract Price Adjustment," of these General Conditions, the Contractor shall proceed with the Work as changed at the agreed price.

If the Contractor and the Director fail to agree as to the adjustment in compensation for the performance of the changed Work, the Contractor, upon written order from the Director, shall proceed immediately with the changed Work and the Contract Price shall be adjusted in accordance with Section 3-1.06, "Force Account Payment," of these General Conditions.

If the Contractor fails to submit its cost estimate within such fifteen (15) Day period, the Contractor shall commence the Work as changed immediately upon receipt of written order of the Director, and the Contract Price will be adjusted in accordance with the Director's cost estimate for the changed Work.

3-1.03

EMERGENCY AND INDETERMINATE TYPE CHANGE

ORDERS. Changes in the Work made necessary by an Emergency, as determined by the Director, or changes of a kind where the extent of the Work cannot be determined until completed, may be authorized by the Director in writing. The Change Order shall state that it is issued pursuant to this Section 3-1.03. Upon receipt of an authorized Change Order or other written order of the Director, the Contractor shall proceed with the ordered Work and the Director will maintain a daily job record containing a detailed summary of all labor, materials and equipment required for the changed Work.

Within fifteen (15) Days after receiving a written request, the Contractor shall submit a detailed estimate of cost for the change and any requested change in Contract Time in the same manner as required for proposed Change Orders in Section 3-1.02 of these General Conditions.

3-1.04

EXECUTED CHANGE ORDER.

A Contract Change Order signed by both the Director and the Contractor is an “executed Contract Change Order.” By signing the Contract Change Order, the Contractor agrees that the specified compensation constitutes full compensation for the changed Work, including payment for interruption, disruption, acceleration, extended Overhead, delay or any other “impact” claim or “ripple effect” claim. The Contractor specifically understands and agrees that its execution of the Contract Change Order shall constitute a waiver of any right for the Contractor to claim any additional compensation with respect to the subject matter of the Contract Change Order.

3-1.05

CONTRACT PRICE ADJUSTMENT.

If a Contract Change Order provides for an adjustment to the Contract Price, the amount of such adjustment shall be determined by one of the following methods, or a combination thereof, as determined by the City and in its sole discretion:

A. Lump sum. The Contractor and the City may agree on a lump sum amount for the Change Order. At the City's request, the Contractor will provide pricing for the work. Maximum markups for Contract Change Orders paid for using lump sum pricing shall be paid for in the same manner and in the same amounts as markups for Force Account work, as described in Section 3-1.06 below.

B. Unit Prices. The unit prices set forth in the Contractor's Schedule of Bid Prices will be utilized where they are applicable and acceptable to the City. The Contractor's unit prices shall remain firm and shall not be subject to adjustment unless and until the actual quantity of work is increased or decreased by Contract Change Order in an amount greater than twenty-five percent (25%) from the estimated quantity indicated for such item. No markups will be given for Contract Change Orders paid for using unit prices.

Unit prices for new items included in the Contract Change Order but not included in the original bid shall be as mutually agreed upon or, in the absence of agreement, as determined by the City in the same manner as if the work were to be paid for on a Force Account basis, as described in Section 3-1.06 below.

C. Force Account. Where the City and the Contractor are unable to agree on lump sum pricing and if the City does not elect to utilize the unit prices in Contractor's bid, or such unit prices are not applicable, the changed work will be performed and tracked by the Contractor as Force Account work, as described in Section 3-1.06 below. The City will pay for such work, including markups, properly attributable to the change in accordance with those Force Account provisions.

D. Eliminated Items. The City reserves the right to delete any bid item of Work in its entirety. The City makes no representation that any work under a bid item of Work

will be performed, and all work may be subject to a Contract Change Order that deletes such work. Bid items are distinct and severable from the other bid items, and the Contractor shall not be entitled to any anticipated profit, unabsorbed Overhead, or other indirect expense attributable to the deleted item, except as provided immediately below with regard to Force Account mark-ups on the direct and verifiable costs incurred prior to the City's order that deletes the work.

Should any bid item of Work be eliminated in its entirety and not accounted for as described immediately above and, in the absence of an executed Contract Change Order covering such elimination, payment will be made to the Contractor for actual direct and verifiable costs incurred in connection with such eliminated bid item if incurred prior to the date of notification in writing by the City of such elimination. If acceptable material is ordered by the Contractor for the eliminated item prior to the date of notification of such elimination by the City, and if orders for such material cannot be canceled, it will be paid for at the actual direct and verifiable cost to the Contractor. Actual direct costs shall include documented vendor shipping fees, Supplier restocking fees, if applicable, and Contractor handling costs directly related to the eliminated item(s). In such case, the material paid for shall become the property of the City and the actual cost of any further handling will be paid for by the City. If the material is returnable to the vendor and if the City so directs, the material shall be returned and the Contractor will be paid for the actual direct cost of charges made by the vendor for returning the material. The actual direct cost of handling returned materials will also be paid for by the City. The actual direct and verifiable costs to be paid by the City as provided herein will be computed in the same manner as if the work were to be paid for on a Force Account basis, including the application of Force Account mark-ups to said costs.

3-1.06 **FORCE ACCOUNT PAYMENT.** When Work performed pursuant to a

Change Order is to be paid for on a Force Account basis, the Contractor's labor, materials and equipment used in the performance of such Work shall be subject to the approval of the City, and the compensation will be determined as set forth below in this section.

3-1.06A **LABOR.** The Contractor will be paid an amount based on the actual cost for the workers (including foremen when authorized by the Director) used in the actual and direct performance of the Work. All labor costs associated with Overhead, whether field or home office, are specifically excluded herein, as those labor costs are covered by the below mark-ups. The cost of labor, whether the employer is the Contractor, Subcontractor or other forces, shall include employer payments; assessment of benefits required by lawful labor union collective bargaining agreements; compensation insurance payments; contributions made to the State pursuant to the Unemployment Insurance Code; and for taxes paid to the Federal Government pursuant to the Social Security Act of August 14, 1935, as amended. No labor cost will be recognized at a rate in excess of the wages prevailing in the locality at the time the Work is performed, nor will the use of a labor classification, which would increase the cost, be permitted unless the Contractor establishes to the complete satisfaction of the Director the necessity for payment at a higher rate.

3-1.06B **MATERIALS.** Only materials furnished by the Contractor and necessarily used in the performance of the Work will be paid for. Such cost of materials may include the costs of procurement, transportation and delivery if necessarily incurred. If a cash or trade discount by the actual supplier is available to the Contractor, it shall be credited to the City. If materials are procured by the purchaser by any method which is not a direct purchase from and a direct billing by the actual supplier to such purchaser, the cost of such materials shall be deemed to be the price paid to the actual supplier plus the actual costs, if any, incurred in the

handling of such materials. If the materials are obtained from a supply or source owned wholly or in part by the purchaser, the cost of such materials shall not exceed the price paid by the purchaser for similar materials furnished from said source on Bid items or the current wholesale price for such materials delivered to the job site, less any discounts as provided herein, whichever is lower. If, in the opinion of the Director, the cost of materials is excessive, or if the Contractor fails to furnish satisfactory evidence of the cost to it from the actual supplier within sixty (60) Days after the date of delivery of the materials or within fifteen (15) Days after Acceptance of the Agreement, whichever occurs first, the cost of the materials shall be deemed to be the lowest current wholesale price at which similar materials are available in the quantities required, less any discounts provided herein. The Department reserves the right to furnish such materials required by the Change Order as it deems advisable, and the Contractor shall have no claim for cost or markups on material furnished by the Department.

3-1.06C **EQUIPMENT.** The Contractor will be paid an amount based on the actual cost for the use of equipment directly required and approved by the Director in the performance of the changed Work. No payment will be made for time while equipment is inoperative due to breakdowns or on Days when no Work is performed. In addition, the rental time shall include the time required to move the equipment to the Work from the nearest available source of such equipment, and to return it to the source. If such equipment is not moved by its own power, then loading and transportation costs will be paid. Moving time, loading and transportation costs will only be paid if the equipment is used exclusively on the changed Work during the time between move in and move out. Individual pieces of equipment having a replacement value of One Thousand Dollars (\$1000) or less shall be considered to be tools or small equipment, and no payment will be made therefore. For equipment owned,

furnished, or rented by the Contractor, no cost therefore shall be recognized in excess of the equipment rental rates published by Caltrans at the following website address:

<http://www.dot.ca.gov/hq/construc/equipmnt.html>. Equipment located at a Work Site and utilized on non-Force Account work shall not be eligible for standby payment, and shall be charged on a Force Account basis only when solely performing pre-approved Force Account work tasks.

3-1.06D **MARKUPS.** When a Change Order increases the cost of the Work, the Contractor may add the following maximum markups to its actual costs of labor, materials, or equipment rental:

15 percent for labor;

10 percent for materials; and

5 percent for equipment rental.

The above markups include full compensation, covering the costs of all supervision, bonds, profit, Overhead, and other general expenses not specifically designated as a direct cost in Sections 3-1.06A through 3-1.06C above. The total payment (i.e., direct cost plus applicable markups) shall be deemed to be the actual cost of such work and shall constitute full compensation therefor. The Contractor specifically understands and agrees that such payment shall include any Contractor costs for interruption, disruption, and acceleration, extended Overhead, Change Order management, delay or other “impact” claim or “ripple effect” claim.

When work paid for on a Force Account basis is performed by forces other than the Contractor’s own forces, the maximum allowable mark-ups for the Subcontractors’ costs shall be fifteen percent (15%) for the cost of labor, ten percent (10%) for the cost of materials, and five percent (5%) for the cost of rented equipment. In these situations where the work is being performed by Subcontractors, the Contractor will only be entitled to an additional five percent

(5%) mark-up and will not be entitled to receive the additional mark-ups specified in this section.

When a Change Order decreases the cost of the Work, the reduction in cost shall include a five percent (5%) markup on the estimated cost for furnishing the labor, materials and equipment, which would have been used on such Work, had the Change Order not been issued.

When a Change Order involves both added Work and deleted Work, the markup or markups to be used shall be as follows:

The actual costs of labor, materials, and equipment rental for added and deleted Work shall be calculated separately without adding markups. If the difference between the calculated costs for labor results in an increased cost, a markup of fifteen percent (15%) shall be applied to the increased cost. If the difference between the calculated costs of materials or equipment rental results in an increased cost, a markup of ten percent (10%) and five percent (5%) respectively, shall be applied to the increased costs of materials or equipment rental, as the case may be. If the difference between the calculated costs for labor, materials or equipment rental results in a decreased cost, a markup of five percent (5%) shall be applied to the decreased costs of labor, materials or equipment rental, as the case may be.

Contractor shall not add mark-ups on work performed and billed by City staff nor add mark-ups to successive iterations of proposed Change Order cost proposals returned to Contractor by the City due to incomplete or inaccurate information being originally submitted by the Contractor. If the Contract Price increases by the issuance of Change Orders, the penal amounts of the bonds required shall increase accordingly.

3-1.06E **RECORDS.** The Contractor shall maintain its records in such a manner as to provide a clear distinction between the direct costs of extra work paid for on a Force Account basis and the costs of other operations.

From the above records, the Contractor shall furnish the City completed daily extra work reports, on forms acceptable to the City, for each Day's extra work to be paid for on a Force Account basis. The daily extra work reports shall itemize the materials used, and shall cover the direct cost of labor and the charges for equipment rental, whether furnished by the Contractor, Subcontractor, or other forces. The daily extra work reports shall provide names and identifications and classifications of workers, the hourly rate of pay and hours worked, and also the size, type, and identification number of equipment, and hours operated. Daily extra work and Force Account reports (actual or claimed) shall be signed by both the City's and the Contractor's representatives within twenty-four (24) hours of the performance of the work.

Valid copies of vendor's invoices shall substantiate material charges. Such invoices shall be submitted with the daily extra work reports, or if not available, they shall be submitted with subsequent daily extra work reports. Should said vendor's invoices not be submitted within sixty (60) Days after the date of delivery of the material or within fifteen (15) Days after the Acceptance of the Agreement, whichever occurs first, the City reserves the right to establish the cost of such materials at the lowest current wholesale prices at which said materials were available in the quantities, less any discounts.

The City will compare its records with the completed daily extra work reports furnished by the Contractor and make any necessary adjustments. When these daily extra work reports are agreed upon and signed by both parties, said reports shall become the basis of payment for the work performed, but shall not preclude subsequent adjustment based on a later audit by the City.

The Contractor's cost records pertaining to Work paid for on a Force Account basis shall be open to inspection or audit by representatives of the City during the life of the Agreement and for a period of not less than three (3) years after the date of Agreement completion and the

Contractor shall retain such records for that period. Where payment for materials or labor is based on the cost thereof to forces other than the Contractor, the Contractor shall make every reasonable effort to insure that the cost records of such other forces will be open to inspection and audit by representatives of the City on the same terms and conditions as the cost records of the Contractor. If an audit is to be commenced more than sixty (60) Days after the date of Acceptance of the Agreement, the Contractor will be given fifteen (15) Days' notice of the time when such audit is to begin.

3-1.07 **COST REDUCTION PROPOSALS.** The City encourages the Contractor to submit Cost Reduction Proposals whenever the Contractor identifies areas and/or instances in which there can be savings to the Work. Contractor may submit to the City, in writing, proposals for modifying the plans, Specifications or other requirements of the Agreement for the sole purpose of reducing the total cost of construction, including the time for completion of the Work. The City may consider such Cost Reduction Proposals and, if accepted, the Agreement will be equitably adjusted. The City has no obligation to consider or accept Cost Reduction Proposals.

SECTION 4

CONTROL OF MATERIALS

4-1.01 **MATERIALS.** The Contractor shall furnish all materials required to complete the Work, except materials that are designated in the Supplemental Conditions to be furnished by the City and materials furnished by the City in accordance with Section 3, “Changes in the Work,” of these General Conditions.

Unless otherwise specified in the Supplemental Conditions, materials furnished by the Contractor for incorporation into the Work shall be new. When the quality or kind of materials, articles, or equipment is not particularly indicated, then the quality or kind thereof shall be similar to those that are indicated.

Articles or materials to be incorporated in the Work shall be stored in such a manner as to insure the preservation of their quality and fitness for the Work, and to facilitate inspection.

All materials which do not conform to the requirements of the Contract Documents as determined by the Director, will be rejected whether in place or not. Rejected material shall be removed immediately from the site of the Work, unless otherwise permitted by the Director. No rejected material, the defects of which have been subsequently corrected, shall be used in the Work, unless approval in writing has been given by the Director. Upon failure of the Contractor to comply promptly with any order of the Director made under these provisions, the Director shall have the authority to cause the removal and replacement of rejected material and to deduct the cost thereof from any moneys due or to become due the Contractor.

Manufacturer's warranties, guaranties, instruction sheets and parts lists, which are furnished with certain materials incorporated in the Work, shall be delivered to the Director

before Acceptance of the Contract.

Unless otherwise designated in the Supplemental Conditions or Specifications, materials furnished by the City will be delivered to the job site. Materials furnished by the City that are designated in the Supplemental Conditions as available at locations other than the job site shall be hauled to the site of the Work by the Contractor at its expense, including any necessary loading and unloading that may be involved.

The Contractor will be held responsible for all materials furnished to it, and shall pay all demurrage and storage charges. City-furnished materials lost or damaged from any cause whatsoever shall be replaced by the Contractor. The Contractor will be liable to the Department for the cost of replacing City-furnished material and such costs may be deducted from any moneys due or to become due the Contractor.

4-1.02 **PRODUCT AND REFERENCE STANDARDS.** When descriptive catalog designations, including manufacturer's name, product brand name, or model number are referred to in the Contract Documents, such designations shall be considered as being those found in industry publications in effect on the day the Notice to Contractors for the Work is dated, except as may be otherwise stated.

When standards or test designations of the Federal Government, trade societies, or trade associations are referred to in the Contract Documents by specific date of issue, these shall be considered as part of the Contract. When such references do not bear a date of issue, the edition in effect on the day the Notice to Contractors for the Work is dated shall be considered as part of the Contract.

4-1.03 **SAMPLING AND TESTING OF MATERIALS.** Unless otherwise specified, all tests shall be performed in accordance with the methods used by the State

Department of Transportation (Caltrans) and shall be made by the Director or his or her designated representative.

The State Department of Transportation has developed test methods for testing the quality of materials and Work. These test methods are identified by a California Test followed by the serial number. Copies of individual tests are available at the State Department of Transportation Laboratory, Sacramento, California, and will be furnished to interested persons upon request.

Whenever a reference is made in the Supplemental Conditions to a California Test by number, it shall mean the California test in effect on the day the Notice to Contractors for the Work is dated.

Whenever the Supplemental Conditions provide an option between two (2) or more test methods, the Director will determine the test method to be used.

Whenever a Supplemental Condition, manual, or test designation provides for test reports (such as certified mill test reports) from the manufacturer, copies of such reports, identified as to the lot of material, shall be furnished to the Director. The manufacturer's test reports shall supplement the inspection, sampling and testing provisions of this Section 4-1.03 and shall not constitute a waiver of the City's right to inspect. When material which cannot be identified with specific test reports is proposed for use, the Director may at his or her discretion, select random samples from the lot for testing. Testing specimens from the random samples, including those required for retest, shall be prepared in accordance with the referenced Supplemental Conditions and furnished by the Contractor at its expense. The number of such samples and test specimens shall be entirely at the discretion of the Director.

When requested by the Director, the Contractor shall furnish, without charge, samples of

all material entering into the Work, and no material shall be used prior to approval by the Director, except as provided in Section 4-1.04, "Certificates of Compliance," of these General Conditions.

A. Inspection and Access for Testing. The Contractor shall provide safe access for the Director and his or her inspectors to adequately inspect the quality of Work and conformance with the General and Supplemental Conditions. The Contractor shall provide adequate lighting, ventilation, ladders and other protective facilities as may be necessary for the safe performance of inspections.

The Contractor shall submit samples or specimens of such materials to be furnished or used in the Work as the Director may require. The Contractor shall furnish the Director all necessary labor and facilities for such things as excavation in the compacted fill to depths required to take samples.

Inspections, tests, or favorable review by the Director or others shall not relieve the Contractor from its obligations to perform the Work in accordance with the requirements of the Contract Documents.

Work covered without the favorable review or consent of the Director shall, if required by the Director, be uncovered for examination at the Contractor's expense.

If the Engineer, Architect, or Director considers it necessary or advisable that covered Work be inspected or tested by others, the Contractor, at the Director's request, will uncover, expose or otherwise make available for observation, inspection or testing as the Director may require, that portion of the Work in question, furnishing all necessary labor, materials, tools, and equipment. If it is found that such Work is defective, the Contractor will bear all the expenses of such uncovering, exposure, observation, inspection and testing and of

satisfactory reconstruction. If, however, such Work is not found to be defective and the Work was not covered without favorable review of the Director, the Contractor will be allowed an increase in the Contract Price or an extension of the Contract Time, or both, to cover its costs directly attributable to such uncovering, exposure, observation, inspection, testing, and reconstruction and an appropriate Change Order shall be issued.

Whenever the Contractor varies the period during which Work is carried on each Day, the Contractor shall give due notice to the Director so that proper inspection may be provided. Any Work done in the absence of the Director may be subject to rejection. Proper facilities for safe access for inspection to all parts of the Work shall at all times be maintained for the necessary use of the Director and other agents of the City. Authorized representatives and agents of the Director shall be permitted access to inspect all Work and materials wherever it is required for preparation of progress reports, and the Contractor shall provide proper facilities for such access and inspection.

It is the Contractor's responsibility to supervise the Work and complete the project in accordance with the Contract Documents. In the course of managing that effort, the Contractor shall generate its own punch lists as deemed necessary. The Director may prepare punch lists for the Director's own use in communicating with the Contractor; however, the Director shall be under no obligation to prepare punch lists for the Contractor. In general, the Director will prepare punch lists only after the Contractor has given the Director written notice that the subject Work is completed and tested in accordance with the Contract Documents and is ready for operation and/or use and/or occupancy. Failure of the Director to include an item in a punch list shall not relieve the Contractor of its duty to satisfactorily complete all Work required by the Contract Documents.

Upon Final Completion of the construction Work and request by the Contractor, the Director will conduct a final inspection as a basis for recommending to the City that the Work be accepted.

B. Field and Materials Testing. Where the Supplemental Conditions require Work to be specially field tested or approved, it shall be tested only in the presence of the Director after timely notice of its readiness for inspection and test, and the Work after testing shall be covered up only upon the consent thereto of the Director.

The results of any tests made are for the information of the Director. Regardless of any test results, the Contractor is solely responsible for the quality of workmanship and materials and for compliance with the requirements of the Contract Drawings and Supplemental Conditions.

Except as specifically required under the Supplemental Conditions, all tests by the Director of materials furnished by the Contractor will be done in accordance with commonly recognized standards of national organizations. The Contractor shall furnish such samples of all materials as required by the Director without charge. No material shall be used unless it has been favorably reviewed by the Director.

Where such inspection and testing are to be conducted by an independent Laboratory or agency, the sample or samples of materials to be tested shall be selected by such Laboratory or agency, or the Director, and not by the Contractor.

C. Costs of Testing.

1. Initial Services: The City shall furnish and pay for all initial testing services required by the Contract Documents. When initial tests indicate non-compliance with the Contract Documents, the cost of initial tests associated with that non-compliance will be

deducted by the City from the balance owed the Contractor. The Contractor shall furnish samples of materials for testing as may be required by the Director. Such samples shall be furnished without cost to the City.

2. Retesting: When initial tests indicate non-compliance with the Contract Documents, all subsequent retesting occasioned by the non-compliance shall be performed by the same testing Laboratory and the cost thereof will be deducted by the City from the balance owed the Contractor. Contractor shall be billed for each additional test.

3. Contractor Convenience Testing: Inspection or testing performed exclusively for the Contractor's convenience shall be the sole responsibility of the Contractor.

4. Additional Tests and Inspections: When in the opinion of the Director additional tests or inspections are required because of the manner in which the Contractor executes its Work, such tests and inspections shall be paid for by the City, but will be deducted from the Contract Price. Examples of such tests and inspections are tests of materials substituted for previously accepted materials or substituted for specified materials, retests made necessary by failure of material to comply with the requirements of the Specifications, load tests made necessary because of portions of the structure not fully meeting Specifications or plan requirements, etc.

4-1.04 **CERTIFICATES OF COMPLIANCE.** A Certificate of Compliance shall be furnished prior to the use of any materials for which the Supplemental Conditions require that such a Certificate be furnished. In addition, the Director may permit the use of certain materials or assemblies prior to sampling and testing if accompanied by a Certificate of Compliance. The Certificate shall be signed by the manufacturer of the material or the manufacturer of assembled materials and shall state that the materials involved comply in all

respects with the requirements of the Supplemental Conditions. A Certificate of Compliance shall be furnished with each lot of such materials delivered to the Work and the lot so certified shall be clearly identified in the Certificate.

All materials used on the basis of a Certificate of Compliance may be sampled and tested at any time. The fact that material is used on the basis of a Certificate of Compliance shall not relieve the Contractor of responsibility for incorporating material in the Work which conforms to the requirements of the Contract Documents and any such material not conforming to such requirements will be subject to rejection whether in place or not.

The Department reserves the right to refuse to permit the use of material on the basis of a Certificate of Compliance.

The form of the Certificate of Compliance and its disposition shall be as directed by the Director.

FOR COUNCIL APPROVAL
NOT FOR BIDDING

SECTION 5

LEGAL RELATIONS AND RESPONSIBILITY

5-1.01 **LAWS TO BE OBSERVED.** The Contractor shall keep informed of and observe, and comply with and cause all of its agents and employees to observe and comply with, all prevailing Federal and State laws, and rules and regulations made pursuant to said Federal and State laws, and county and municipal ordinances, and regulations, which in any way affect the conduct of the Contract. If any conflict arises between provisions of the Contract and any such law above referred to, the Contractor shall notify the Director at once in writing. To the fullest extent allowed by law, the Contractor shall defend, indemnify, and save and hold harmless the City or any of its officers, agents, employees, and volunteers against any claim or liability arising from or based on the violation of any such law, rule, or regulation, whether by itself or its agents or employees.

5-1.02 **HOURS OF LABOR.** Eight (8) hours labor constitutes a legal Day's work. The Contractor or Subcontractor shall, as a penalty to City, forfeit Twenty-five Dollars (\$25) for each worker employed in the execution of the contract by the respective Contractor or Subcontractor for each calendar day during which such worker is required or permitted to work more than eight (8) hours in any one (1) calendar day and forty (40) hours in any one (1) calendar week in violation of the provisions of the Labor Code, and in particular, Section 1810 to Section 1815, thereof, inclusive, except that Work performed by employees of Contractors in excess of eight (8) hours per day, and forty (40) hours during any one (1) week, shall be permitted upon public work upon compensation for all hours worked in excess of eight (8) hours per day at not less than one and one-half (1-1/2) times the basic rate of pay, as provided in said

Section 1815. In addition, Contractor and/or its Subcontractors may be required to pay double the basic rate of pay for all hours worked in excess of twelve (12) hours in any workday and under other circumstances. (See California Code of Regulations, Title 8, Sections 16100(c)(6) and (16200(a)(3)(F) and applicable Department of Industrial Relations prevailing wage determinations.)

5-1.03 **NONDISCRIMINATION.**

A. Attention is directed to Labor Code Section 1735, which reads as follows:

“A contractor shall not discriminate in the employment of persons upon public works on any basis listed in subdivision (a) of Section 12940 of the Government Code, as those bases are defined in Sections 12926 and 12926.1 of the Government Code, except as otherwise provided in Section 12940 of the Government Code. Every Contractor for public works who violates this section is subject to all the penalties imposed for a violation of this chapter.”

B. During the performance of this Contract, Contractor and its Subcontractors shall not unlawfully discriminate against any employee or applicant for employment because of race, religious creed, color, national origin, ancestry, physical disability, mental disability, medical condition, genetic information, marital status, sex, gender, gender identity, gender expression, age, sexual orientation, or military and veteran status. The Contractor and Subcontractors shall insure that the evaluation and treatment of their employees and applicants for employment are free of such discrimination. The Contractor and Subcontractors shall comply with the provisions of the California Fair Employment and Housing Act (Government Code §12900, et seq.) and the applicable regulations promulgated thereunder (California Code of Regulations, Title 2, §7285.0 et seq.) and other applicable State and Federal regulations and City

policies pertaining to nondiscrimination and affirmative action which are incorporated into this Agreement by reference and made a part hereof as if set forth in full. The Contractor and its Subcontractors shall give written notice of their obligations under this clause to labor organizations with which they have a collective bargaining or other agreement.

C. Contractor shall include the nondiscrimination and compliance provisions of this clause in all subcontracts to perform Work under the agreement.

5-1.04 **PREVAILING WAGE.** The Contractor and any Subcontractor shall comply with Labor Code Sections 1770 et seq. In accordance with said Section 1775 the Contractor and any Subcontractor under the Contractor shall, as a penalty, forfeit to the state or City not more than \$200 for each calendar day or portion thereof, for each worker paid less than the prevailing rate as determined by the Director of Industrial Relations for the work or craft in which such worker is employed for under the Contract by the Contractor or by any Subcontractor under the Contractor.

The amount of the penalty shall be determined by the Labor Commissioner based on consideration of both of the following: (a) whether the failure to pay the correct rate of per diem wages was a good-faith mistake and, if so, whether the error was promptly and voluntarily corrected when brought to the attention of the Contractor or Subcontractor; and (b) whether the Contractor or Subcontractor has a prior record of failing to meet its prevailing wage obligations.

The penalty may not be less than forty dollars (\$40) for each calendar day, or portion thereof, for each worker paid less than the prevailing wage rate, unless the failure of the Contractor or Subcontractor to pay the correct rate of per diem wages was a good faith mistake and, if so, the error was promptly and voluntarily corrected when brought to the attention of the Contractor or Subcontractor.

The penalty may not be less than eighty dollars (\$80) for each calendar day, or portion thereof, for each worker paid less than the prevailing wage rate, if the Contractor or Subcontractor has been assessed penalties within the previous three (3) years for failing to meet its prevailing wage obligations on a separate contract, unless those penalties were subsequently withdrawn or overturned.

The penalty may not be less than one hundred twenty dollars (\$120) for each calendar day, or portion thereof, for each worker paid less than the prevailing wage rate, if the Labor Commissioner determines that the violation was willful, as defined in subdivision (c) of Section 1777.1 of the Labor Code.

If the amount due under this section is collected from the Contractor or Subcontractor, any outstanding wage claim under Chapter 1 (commencing with Section 1720) of Part 7 of Division 2 of the Labor Code against the Contractor or Subcontractor shall be satisfied before applying that amount to the penalty imposed on that Contractor or Subcontractor pursuant to this section.

The determination of the Labor Commissioner as to the amount of the penalty shall be reviewable only for an abuse of discretion.

In addition to said penalty, the difference between such stipulated prevailing wage rates and the amount paid to each worker for each calendar day or portion thereof for which each worker was paid less than the stipulated prevailing wage shall be paid to each worker by the Contractor or Subcontractor.

If a worker employed by a Subcontractor on a public works project is not paid the general prevailing per diem wages by the Subcontractor, the Contractor is not liable for any penalties described above unless the Contractor had knowledge of that failure of the Subcontractor to pay

the specified prevailing rate of wages to those workers or unless the Contractor fails to comply with all of the following requirements:

1. The contract executed between the Contractor and the Subcontractor for the performance of work on the public works project shall include a copy of the provisions of Sections 1771, 1776, 177.5, 1813, and 1815 of the Labor Code.
2. The Contractor shall monitor the payment of the specified general prevailing rate of per diem wages by the Subcontractor to the employees, by periodic review of the certified payroll records of the Subcontractor.
3. Upon become aware of the Subcontractor's failure to pay its workers the specified prevailing rate of wages, the Contractor shall diligently take corrective action to halt or rectify the failure, including, but not limited to, retaining sufficient funds due the Subcontractor for work performed on the public works project.
4. Prior to making final payment to the Subcontractor for work performed on the public works project, the Contractor shall obtain an affidavit signed under penalty of perjury from the Subcontractor that the Subcontractor has paid the specified general prevailing rate of per diem wages to its employees on the public works project and any amount due pursuant to 1813 of the Labor Code.

Pursuant to Section 1775 of the Labor Code, the Division of Labor Standards Enforcement shall notify the Contractor on a public works project within fifteen (15) Days of the receipt by the Division of Labor Standards Enforcement of a complaint of the failure of a Subcontractor on that public works project to pay workers the general prevailing rate per diem wages.

Pursuant to the provisions of California Labor Code Section 1773, the City has obtained

the general prevailing rate of wages applicable to the categories of workers the City anticipates will be utilized for this project for straight time, overtime, Saturday, Sunday, and holiday Work. The holiday wage rate listed shall be applicable to all holidays recognized in the collective bargaining agreement of the particular craft, classification or type of worker concerned or, if no collective bargaining applies, those holidays identified in Government Code Section 6700. These wage rates may be obtained from the State Department of Industrial Relations and/or the following website address: <http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm>, which is incorporated herein as a part of this Contract.

Pursuant to Labor Code Section 1773.2, the general prevailing wage rates set forth above, which forms a part of this Contract, shall be posted by the Contractor at a prominent place at the site of the Work.

Pursuant to Labor Code Section 1773.6 and California Code of Regulations Section 16204, Title 8, changes in general prevailing wage determinations shall apply to the project only if issued by the Director of Industrial Relations prior to the City's bid issuance date.

The City will not recognize any claim for additional compensation because of the payment by the Contractor of any wage rate in excess of the prevailing wage rate set forth in the Contract. The possibility of wage increases is one of the elements to be considered by the Contractor in determining its Bid, and will not under any circumstances be considered as the basis of a claim against the City or Contract.

When both California and Federal prevailing wage rates apply, the Contractor and any Subcontractors shall pay their workers the higher of the two rates. The Contractor and any Subcontractors shall insert this clause in any lower tier contract.

5-1.05 **REGISTRATION REQUIRED AS QUALIFICATION TO BID.**

Pursuant to Labor Code Section 1771.1(b), notice is hereby given that a Contractor or Subcontractor shall not be qualified to bid on, be listed in a bid proposal, subject to the requirements of Section 4104 of the Public Contract Code, or engage in the performance of any contractor for public work, as defined in Labor Code Sections 1720, et seq., unless currently registered and qualified to perform public work pursuant to Labor Code Section 1725.5. It is not a violation of Labor Code Section 1771.1 for an unregistered contractor to submit a bid that is authorized by Section 7029.1 of the Business and Professions Code or by Section 10164 or 20103.5 of the Public Contract Code, provided the contractor is registered to perform public work pursuant to Section 1725.5.

5-1.06 **PAYROLL RECORDS.** The Contractor's attention is directed to the following provisions of Labor Code Section 1776. The Contractor shall be responsible for the compliance with these provisions by its Subcontractors.

A. The Contractor and each Subcontractor shall keep accurate and current payroll records, showing the name, address, social security number, work classification, straight time and overtime hours worked each day and week, and the actual per diem wages paid to each journeyman, apprentice, worker, or other employee employed by it in connection with the public work. Each payroll record shall contain or be verified by a written declaration that is made under penalty of perjury, stating both of the following:

1. The information contained in the payroll record is true and correct.
2. The employer has complied with the requirements of Section 1771, 1811, and 1815 for any work performed by his or her employees on the public works project.

B. The payroll records enumerated under subdivision (A) shall be available for inspection at all reasonable hours at the principal office of the Contractor on the following

basis:

1. A certified copy of an employee's payroll record shall be made available for inspection or furnished to such employee or his or her authorized representative on request.

2. A certified copy of all payroll records enumerated in subdivision (A) shall be made available for inspection or furnished upon request to a representative of the City, the Division of Labor Standards Enforcement, and the Division of Apprenticeship Standards of the Department of Industrial Relations. The City reserves the right to withhold any progress payments to the Contractor in the event of noncompliance with the subsection.

3. A certified copy of all payroll records enumerated in subdivision (A) shall be made available upon request by the public for inspection or for copies thereof. However, a request by the public shall be made through either the City, the Division of Apprenticeship Standards, or the Division of Labor Standards Enforcement. The public shall not be given access to such records at the principal office of the Contractor.

C. The certified payroll records shall be on forms provided by the Division of Labor Standards Enforcement or shall contain the same information as the forms provided by the Division.

D. Each Contractor shall file a certified copy of the records enumerated in subdivision (A) with the entity that requested the records within ten (10) Days after receipt of a written request.

E. Any copy of the records made available for inspection as copies and furnished upon request to the public or any public agency by the City, the Division of Apprenticeship Standards or the Division of Labor Standards Enforcement shall be marked or

obliterated to prevent disclosure of an individual's name, address and social security number.

The name and address of the Contractor awarded the Contract or Subcontractor performing the Contract shall not be marked or obliterated. Any copy of records made available for inspection by, or furnished to, a joint labor-management committee established pursuant to the federal Labor Management Cooperation Act of 1978 (Section 175a of Title 29 of the United States Code) shall be marked or obliterated only to prevent the disclosure of an individual's name and social security number. A joint labor-management committee may maintain an action in a court of competent jurisdiction against an employer who fails to comply with Section 1774. The court may award restitution to an employee for unpaid wages and may award the joint labor-management committee reasonable attorneys' fees and costs incurred in maintaining the action. An action under this subdivision may not be based on the employer's misclassification of the craft of a worker on its certified payroll records. Nothing in this subdivision limits any other available remedies for a violation of this section.

F. The Contractor shall inform the City of the location of the records enumerated under subdivision (A), including the street address, city and county, and shall, within five (5) business days, provide a notice of a change of location and address.

G. The Contractor shall have ten (10) Days in which to comply subsequent to receipt of written notice requesting the records enumerated in subdivision (A). In the event that the Contractor or Subcontractor fails to comply within the ten (10) Day period, the Contractor shall, as a penalty to the State or City, forfeit twenty-five (\$25) Dollars for each calendar day, or portion thereof, for each worker, until strict compliance is effectuated. Upon the request of the Division of Apprenticeship Standards or the Division of Labor Standards Enforcement, these penalties shall be withheld from any progress payment or final payment then due. A contractor

is not subject to a penalty assessment pursuant to this section due to the failure of a Subcontractor to comply with this section.

5-1.07 **SAFETY REQUIREMENTS.** It is the intent of the parties that the City is not an exposing, creating, controlling, or correcting employer under California Labor Code Section 6400. In accordance with generally accepted construction practices and State law, the Contractor shall have the authority and be solely and completely responsible for conditions on the Work Site, including safety of all persons and property during performance of the Work. Moreover, the Contractor shall be the controlling employer and has the authority and responsibility to enforce Work Site safety. The Contractor shall be responsible for conducting daily safety inspections and assuring all hazards and violations are abated. The Contractor is responsible for assuring that all Subcontractors adhere to the minimum Cal/OSHA safety requirements and that each Subcontractor has an effective Cal/OSHA IIPP (Illness and Injury Prevention Program) in place that specifically addresses all potential exposures, such as, but not limited to, fall protection, confined space, and trenching/shoring. These requirements shall apply continuously and not be limited to normal working hours. The Contractor shall be responsible for any delay costs or damages in the event the progress of Work is slowed or stopped due to a safety violation.

The Contractor shall designate a safety officer and have in place a health and safety plan in accordance with the laws of State of California and conduct safety meetings and document them in accordance with the law. The Contractor shall have the safety record available for inspection during working hours and shall submit job site safety meeting reports with each Application for Payment.

Prior to Contractor commencing construction project work on City property, Contractor

shall make available copies of its Health and Safety Plan (HASP) that meets or exceeds applicable Cal/OSHA regulations. The Contractor's HASP shall also meet or exceed the requirements of any applicable City-wide or departmental specific Injury and Illness Prevention Programs (IIPP) and other HASP programs, procedures, and plans. Potentially applicable HASP programs, procedures, and plans include, but are not limited to, the following:

1. Bloodborne Pathogens Exposure Control Plan;
2. Confined Space Entry Procedure;
3. Electrical Safety Program (Lockout/Tagout);
4. Emergency Action Plans (Site Specific);
5. Fire Prevention Plans (Site Specific);
6. Hazardous Waste Operations Emergency Response Plan (or Equivalent);
7. Hazard Communication Program (SDS's and Right-to-Know training);
8. Heat Illness & Prevention Plan;
9. Hearing Conservation Program;
10. Hot Work/Welding Procedure;
11. Job Hazard Analyses/Standard Operating Procedures;
12. Traffic Control & Flagging;
13. Excavation/Dig Safe Procedure;
14. Fall Protection Plan;
15. Personal Protective Equipment Plan;
16. Respirable Crystalline Silica Exposure Control Plan;
17. Respirator Program;
18. Soils Management Plan (for contaminated soils); and

19. Transite (Asbestos) Pipe Work Procedure.

Additionally, Contractor shall be responsible for complying with all City-wide and departmental specific safety requirements as identified in the Supplemental Conditions or presented at a pre-construction meeting.

Contractor shall inform City in advance of the quantity of chemical(s) to be used for the project and the total quantity of chemical(s) that will be brought onto City property. In addition, Contractor shall provide City with one copy of the Safety Data Sheet (SDS) for each chemical expected to be used to complete the project and for each chemical brought to the Work Site, regardless of whether such chemicals are ultimately used for the project.

The services of the Director in conducting construction review of the Contractor's performance is not intended to include review of the adequacy of the Contractor's Work methods, equipment, bracing or scaffolding, or safety measures, in, on, or near the construction site. If a City employee observes a safety violation, the City employee will report the violation to the Contractor who is then responsible for assuring the violation is abated.

The Contractor is hereby informed that Work on this project could be hazardous. The Contractor shall carefully instruct all personnel working in potentially hazardous Work areas as to potential dangers and shall provide such necessary safety equipment and instructions as are necessary to prevent injury to personnel and damage to property. Special care shall be exercised relative to Work underground.

All Work and materials shall be in strict accordance with all applicable State, City, County, and Federal Rules, Regulations, and Codes, and attention is drawn to the requirements of Cal/OSHA. The Contractor shall be solely responsible for compliance with all City, County and State blasting requirements and for any damages caused by its operations.

To ensure compliance with California Labor Code Section 6705, the Contractor shall submit to the City, at least five (5) Days in advance of excavation of any trench five feet (5') or more in depth, Working Drawings to the Director showing the design of shoring, bracing, sloping and other provisions to be made for worker protection from the hazard of caving ground during the excavation of such trench or trenches. If such Working Drawings vary from the shoring system standards established by the Cal/OSHA Construction Safety Orders of the Division of Industrial Safety, the plan shall be prepared and signed by a registered civil or structural engineer in the State of California. This in no way relieves the Contractor from the requirement of maintaining safety in all operations performed by the Contractor or the Contractor's Subcontractors and nothing in this section shall be deemed to allow the use of a shoring, sloping or protective system less effective than that required by the Cal/OSHA Construction Safety Orders of the Division of Industrial Safety Contractor's Working Drawings shall be subject to approval insofar as the details affect the character of the finished Work and for compliance with design requirements applicable to the construction when specified or called for, but details of the design will be left to Contractor who shall be responsible for the successful construction of the Work. The City shall approve Working Drawings before any Work involving such drawings is performed. Approval and/or acceptance by the City or its designated agent only constitutes acknowledgment of the submission and does not constitute review or approval of the designs, design assumptions or criteria, completeness of submissions, applicability to areas of intended use, nor implementation of the plans, which are solely the responsibility of the Contractor and its registered engineer.

The Contractor shall perform its Work as not to expose personnel to, or to discharge into the atmosphere from any source whatever, smoke, dust, asbestos, toxic chemicals or other air

contaminants in violation of the laws, rules, and regulations of the governmental entities having jurisdiction and shall bear full and exclusive responsibility for any release of hazardous or non-hazardous chemicals or substances during the course of the Work. The Contractor shall immediately report any such release to the City. The Contractor shall be solely responsible for all claims and expenses associated with the response to, removal and remediation of the release, including, without limitation, payment of any fines or penalties levied against the City by any agency as a result of such release and shall defend, indemnify, and save and hold harmless the City, its officers, agents, employees, and volunteers from any claims arising from such release. For purposes of this section only, the term "claims" shall include:

1. All notices, orders, directives, administrative or judicial proceedings, fines, penalties, fees, or charges imposed by any governmental agency with jurisdiction; and
2. Any claim, cause of action, or administrative or judicial proceeding brought against the City, its officers, agents, employees, and volunteers for any loss, cost (including reasonable attorneys' fees), damage or liability, sustained or suffered by any person or entity, including the City.

If the performance of the Work creates any hazardous wastes, those wastes shall be properly disposed of according to federal, state, and local laws, at the expense of the Contractor. The Contractor shall dispose of the wastes under its own EPA Generator Number. In no event shall the City be identified as the generator. The Contractor shall notify the City of any such hazardous wastes and the City reserves the right to a copy of the results of any tests conducted on the wastes, and, at its cost, to perform additional tests or examine those wastes, prior to disposition. The Contractor shall defend, indemnify, and save and hold harmless the City, its

officers, agents, employees, and volunteers from any claims arising from the disposal of the hazardous wastes, regardless of the absence of negligence or other malfeasance by the Contractor. Disposal of all Hazardous Materials must be done in accordance with all laws and regulations. Copies of required regulatory documentation including copies of final manifests shall be supplied to the City.

Contractors or Subcontractors removing one hundred or more square feet (100') of asbestos must be "Certified" in accordance with State law. All Work involving exposure to asbestos and all other hazardous materials shall be performed with protection of personnel in compliance with all applicable regulations and safety requirements including, but not limited to, California Code of Regulations Section 1529, Title 8.

Nothing in these General Conditions is to be construed to permit Work not conforming to governing codes. When Contract Documents differ from governing codes, the Contractor shall furnish and Install the higher standards called for without extra charge.

5-1.08 **SUBSURFACE EXCAVATIONS, NOTIFICATION.** The Contractor shall contact the regional notification center, "Underground Service Alert," and schedule its Work to allow ample time for the center to notify its members and, if necessary, for any member to field locate and mark its facilities. Without limiting the foregoing, the Contractor's attention is directed to Government Code Sections 4216 to 4216.9, and in particular Section 4216.2.

5-1.09 **PUBLIC SAFETY.** The Contractor shall assume all responsibility for public safety during the performance of its Work, and all costs arising therefrom shall be included in the Contract Price. Whenever the Contractor's operations create a condition hazardous to traffic or to the public, it shall furnish, erect and maintain, at its expense, such fences, barricades, lights, signs, and other devices and take such other protective measures as are

necessary to prevent accidents or damage or injury to the public. The Contractor shall establish the pedestrian detours with comparable lighting to the original pedestrian areas. The Contractor shall arrange for such flaggers as are necessary to give adequate warning to traffic or to the public of any dangerous conditions affecting traffic. For Work in a public right-of-way, the Contractor shall comply with the rules and regulations of the State, County, or local agency that owns the right-of-way.

The Contractor shall promptly and fully comply with and carry out, and shall without separate charge therefor to the City, all safety and first aid requirements prescribed by all applicable Federal, State, and local laws and regulations, rules, and orders. The Work shall be done in a safe manner; and the Contractor shall safeguard the safety and health of its employees, Subcontractors, and the people of local communities. The Contractor shall also be reasonable for ensuring that its Subcontractors comply with the provisions of this section.

Upon the failure of the Contractor to comply with any of the requirements of this section, the City shall have the authority, but not the duty, to stop the Work until such failure is remedied. The Contractor shall not be entitled to an adjustment of the Contract Time or an increase in the Contract Price due to any such suspensions.

When required by the Contract Documents, the Contractor shall construct, maintain, and remove detours for use of public traffic, without additional cost to the City, unless separate payment is specified in the Special Provisions.

The failure or refusal of the Contractor to construct and maintain detours at the proper time shall be sufficient cause for closing down the work until such detours are in satisfactory condition for use by public traffic.

Due care shall be exercised to avoid injury to existing improvements or facilities, utility

facilities, adjacent property and trees, shrubs, and other plants that are not to be removed.

Trees, shrubs and other plants that are not to be removed, and pole lines, fences, signs, survey markers and monuments, buildings and structures, conduits, pipe lines, sewer and waterlines, highway facilities, and any other improvements or facilities, under or above ground, that are within or adjacent to the work limit line shall be protected from injury or damage, and the Contractor shall provide and Install suitable safeguards to protect such objects from injury or damage. If such objects are injured or damaged by reason of the Contractor's operations, they shall be replaced or restored at the Contractor's expense. The facilities shall be replaced or restored to a condition as good as when the Contractor entered upon the Work Site, or as good as required by the Contract Documents if any such objects are part of the Work. The City may make or cause to be made such temporary repairs as are necessary to restore to service any damaged facility. The cost of such repairs shall be borne by the Contractor, and the costs may be deducted from any monies due or to become due to the Contractor under the Agreement.

The fact that any underground facilities is not shown on the Contract Drawings shall not relieve the Contractor of its responsibility pursuant to "Utility Facilities" in Section 2-1.12 elsewhere in the Contract Documents. It shall be the Contractor's responsibility, pursuant thereto, to ascertain the location of such underground improvements or facilities, which may be subject to damage by reason of its operations.

Full compensation for furnishing all labor, materials, tools, equipment and incidentals, and for doing all the Work involved in protecting or repairing property as specified in this section, shall be considered as included in the prices paid for the various Contract items of work and no additional compensation will be allowed therefor.

5-1.10 **EMERGENCIES.** In an Emergency affecting the safety of life, the

Work, or adjoining property, the Contractor, without special instructions or authorization from the City, shall act at its discretion to prevent such threatened loss or injury. In such an Emergency, the Contractor may perform such additional work as is reasonably required. Any compensation claimed by the Contractor on account of Work performed to an Emergency shall be determined in accordance with the provisions relating to Force Account payment contained elsewhere in the Contract Documents.

5-1.11 **APPRENTICES.** Attention is directed to Labor Code Sections 1777.5, 1777.6 and 1777.7 and Title 8, California Code of Regulations Section 200 et seq. In accordance with Section 1777.5, the Contractor shall secure the necessary certificates and shall contribute to the apprenticeship fund or funds, as provided therein. The Contractor shall require each Subcontractor who will perform work or labor or render service to the Contractor in or about the construction of the work to fully comply with Sections 1777.5 and 1777.6 of the Labor Code. To insure compliance and complete understanding of the law regarding apprentices, and specifically the required ratio thereunder, each Contractor or Subcontractor should, where some questions exist, contact the Division of Apprenticeship Standards, , or one of its branch offices prior to commencement of Work on the public works Contract. Responsibility for compliance with this section lies with the prime Contractor.

It is State and City policy to encourage the employment and training of apprentices on public works Contracts as may be permitted under local apprenticeship standards.

5-1.12 **FAIR LABOR STANDARDS ACT.** Attention is invited to the fact that the City has been advised by the Wage and Hour Division, U.S. Department of Labor, that Contractors engaged in construction Work are required to meet the provisions of the Fair Labor Standards Act of 1958 and as amended (52 Stat. 1060).

5-1.13 **WORKERS' COMPENSATION.** Pursuant to the requirements of Labor Code Section 1860, the Contractor will be required to secure the payment of workers' compensation to its employees in accordance with the provisions of Labor Code Section 3700.

Prior to the commencement of Work, the Contractor shall sign and file with the Director a certification in the following form:

“I am aware of the provisions of Labor Code Section 3700 which require every employer to be insured against liability for workers' compensation or to undertake self-insurance in accordance with the provisions of that code, and I will comply with such provisions before commencing the performance of the Work of this Contract.”

5-1.14 **AIR POLLUTION CONTROL AND ASBESTOS.** The Contractor shall comply with all air pollution control rules, regulations, ordinances and statutes which apply to any Work performed pursuant to the Contract, including any air pollution control rules, regulations, ordinances and statutes, specified in Government Code Section 11017.

In the absence of any applicable air pollution control rules, regulations, ordinances or statutes governing solvents, all solvents, including but not limited to the solvent portions of paints, thinners, curing compounds, and liquid asphalt used on the project shall comply with the applicable material requirements of the applicable Air Quality Management District. All containers of solvent, paint, thinner, curing compound, or liquid asphalt shall be labeled to indicate that the contents fully comply with said requirements.

Unless otherwise provided in the Supplemental Conditions, material to be disposed of shall not be burned, either inside or outside the Premises.

The Contractor shall also comply with all rules, regulations, statutes and ordinances

regarding asbestos removal and disposal, including but not limited to, 42 U.S.C. Sections 7401, 7412 and 7601, 40 C.F.R. Part 61, Subpart M, and California Code of Regulations Section 1529, Title 8.

If the Contractor discovers that a building to be demolished or renovated contains asbestos containing material, the Contractor shall immediately cease Work and notify the City.

5-1.15 **USE OF PESTICIDES.** The Contractor shall comply with all local, state and federal rules and regulations of the Department of Food and Agriculture, the Department of Health, the Department of Industrial Relations and all other agencies which govern the use of pesticides required in the performance of the Work.

Pesticides shall include but shall not be limited to herbicides, insecticides, fungicides, rodenticides, germicides, nematocides, bactericides, inhibitors, fumigants, defoliants, desiccants, soil sterilants, and repellents.

Any substance or mixture of substances intended for preventing, repelling, mitigating, or destroying weed, insects, diseases, rodents, or nematodes and any substance or mixture of substances intended for use as a plant regulator, defoliant or desiccant shall be considered as pesticide.

5-1.16 **SOUND AND LIGHT CONTROL REQUIREMENTS.** The Contractor shall comply with all local sound control, light control, and noise level rules, regulations and ordinances which apply to any Work performed pursuant to the Contract. Work shall not begin before 7 a.m. nor occur after 7 p.m., unless otherwise permitted by the City.

Each internal combustion engine, used for any purpose on the Work or related to the Work, shall be equipped with a muffler, in good working order, of a type recommended by the manufacturer. No internal combustion engine shall be operated on the project without said

muffler.

5-1.17 **WEIGHT LIMITATIONS.** Unless expressly permitted elsewhere in the Contract Documents, the Contractor shall not operate construction equipment or vehicles of any kind which, laden or unladen, exceed the maximum weight limits set forth in Division 15 of the Vehicle Code over completed or existing base, surfacing, pavement or structures.

5-1.18 **ENVIRONMENTAL CLEARANCES; MITIGATION MONITORING PROGRAMS; AND REGULATORY AGENCY PERMIT REQUIREMENTS.** The Department will obtain all environmental clearances and other authorizations necessary for this project as set forth in the Contract Documents. The Contractor shall comply with the provisions, including giving notices during construction when required, of said authorizations. In the event the obtaining of said authorizations delays completion of all or any portion of the Work, an extension of time determined pursuant to the provisions in Section 6-1.08, "Liquidated Damages," of these General Conditions will be granted.

Contractor shall comply with: (1) all mitigation identified in the mitigation monitoring program (attached to and adopted as a component of the mitigated negative declaration or Environmental Impact Report) to mitigate impacts to protected natural resources; and (2) all related permit requirements issued by the regulatory agencies authorizing the project. Contractor shall defend, indemnify, and save and hold harmless the City, its officers, agents, employees, and volunteers from any fines, claims, suits, actions or regulatory sanctions of every name, kind and description brought forth, or on account of, damage to protected natural resources from or arising out of Contractor's negligence or willful misconduct in the performance of this Agreement.

5-1.19 **PERMITS AND LICENSES.** The Contractor acknowledges and agrees that, prior to the submission of its bid for the Work, it fully familiarized itself with the

requirements of all applicable federal, state, county and municipal laws, codes, rules, and regulations, as well as the conditions of any required licenses and permits.

The Contractor shall procure all permits and licenses, including any applicable building permits (except those procured or to be procured by the City which are listed elsewhere in the Contract Documents), in coordination with the Director, pay all charges and fees, and give all notices necessary and incident to the due and lawful prosecution of the Work. Contractor shall be responsible for applying, paying all fees, and coordination for obtaining all permits for completion of the Work. All permits and licenses shall be obtained in sufficient time to prevent delays to the Work. Contractor will apply to the City for reimbursement for such permits costs. Accordingly, Contractor should not include the anticipated costs for permits in its bid, as the necessary permit costs will be reimbursed by the City.

The California Environmental Quality Act (Public Resources Code, Section 21000 to 21177) may be applicable to permits, licenses and other authorizations which the Contractor must obtain from State or local agencies in connection with performing the Work. The Contractor shall comply with the provisions of that Act in obtaining such permits, licenses and other authorizations, and all permits, licenses and other authorizations shall be obtained in sufficient time to prevent delays to the Work.

The Contractor shall maintain the applicable Contractor's license as identified in the Notice to Contractors and City business license for the duration of the Work.

5-1.20 **WATER POLLUTION.** The Contractor shall comply with all water pollution control rules, regulations, ordinances and statutes which apply to any Work performed pursuant to the Contract, including any water pollution control rules, regulations, and statutes, specified by the most current State of California NPDES General Permit for Stormwater

Discharges Associated with Construction Activity.

The Contractor shall take all necessary precaution to protect streams, vernal pools, ponds, reservoirs, and lakes from pollution with fuels, oils, bitumen, calcium chloride, and other harmful materials as consistent with the law. Also, the Contractor shall conduct and schedule operations so as to avoid discharging pollutants, such as but not limited to: sediment and silt to the storm drain system. The storm drain system consists of all facilities that are designed to convey stormwater to the Waters of the State as defined in the California Water Code. The storm drain system includes, but is not limited to, all streets, gutters, drain inlets, roadside ditches, streams, vernal pools, ponds, and lakes. Care shall be exercised to preserve roadside vegetation beyond the limits of construction.

5-1.21 **PROTECTION AND USE OF PROPERTY.** The Contractor shall be responsible for and provide and maintain all proper temporary walkways, covered walkways, barriers, roads, guards, railings, lights, warning signs, and take precaution at all times to avoid injury or damage to any person or any property, and upon completion of the Work, or at other times as directed, restore Premises and adjacent property to a proper condition. In the event of such injury or damage, Contractor shall report such injury and damage to City within forty-eight (48) hours of occurrence.

The Contractor shall protect adjoining property and nearby buildings, including City buildings, City roads, and public streets or roads, from dust, dirt, debris, or the nuisance arising out of the Contractor's operations or storage practices, and, if ordered by the Director, the Contractor shall provide and Install suitable safeguards, approved by the Director, to protect such objects from damage. If such objects are damaged by reason of the Contractor's operations, they shall be replaced or restored at the Contractor's expense.

If the Contractor damages any buildings, roads, utilities, or other property which belong to the City, or any Department or agency thereof, then the Director, at his or her option, may retain from the money due under the Contract an amount sufficient to insure repair of the damage.

The Director may make or cause to be made such temporary repairs as are necessary to restore to service any such damaged facility. The cost of such repairs shall be borne by the Contractor and may be deducted from any moneys due or to become due the Contractor under the Contract.

5-1.22 **RESPONSIBILITY FOR DAMAGE AND INDEMNIFICATION.**

The City of Roseville, its officers, agents, employees, and volunteers, including but not limited to the Director and his or her designee, shall not be answerable or accountable in any manner: for any loss or damage that may happen to the Work or any part thereof; for any loss or damage to any of the materials or other things used or employed in performing the Work; for injury to or death of any person, either workers or the public; or for damage to property from any cause which might have been prevented by the Contractor, its workers, or anyone employed by the Contractor or the Contractor's Subcontractors.

The Contractor shall be responsible for any liability imposed by law and for injuries to, or death of, any person including, but not limited to, workers and the public, or damage to property resulting from defects or obstructions, or from any cause whatsoever during the progress of the Work or at any time before its completion and final Acceptance.

To the fullest extent allowed by law, the Contractor shall defend (through counsel acceptable to the City), indemnify, and save and hold harmless the City, and its respective officers, agents, Subcontractors, employees, and volunteers, and the successors and assigns of

any of them, (hereinafter referred to as “Indemnitees”) from and against all claims, demands, liability, suits, actions, costs or expenses for any and all loss or damage, including but not limited to, personal injury, property damage, or economic loss, arising out of or resulting from allegations of (1) Contractor’s use of the City’s property or any activities or Work performed hereunder by the Contractor; (2) the Contractor’s performance of the Work under the Agreement; or (3) the Contractor’s breach of any provision of the Agreement. The duty of the Contractor to indemnify and save harmless includes the duties to defend as set forth in Civil Code Section 2778. The only exception to these provisions is that the Contractor’s obligations under this section will not apply to the extent that the claims, demands, liability, suits, actions, costs or expenses are caused by Indemnitees’ active negligence, willful misconduct, criminal acts, or for defects in design furnished by the Indemnitees, misconduct, criminal acts, or for defects in design furnished by the Indemnitees.

The Contractor waives any and all rights to any type of express or implied indemnity against the City, its officers, agents, employees, or volunteers.

The Contractor’s responsibility for such defense and indemnity obligations shall survive the termination or completion of this Contract for the full period of time allowed by law. The defense and indemnity obligations of this Contract are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Contract. The parties intend that the defense and indemnity obligations in this Contract shall be broadly construed.

Any person, firm or corporation that Contractor authorizes to Work on the City’s property including Subcontractors, shall be deemed to be an agent of the Contractor for purposes herein, shall be subject to all the applicable terms herein, and shall be within the scope of the Contractor’s indemnity obligation described herein.

In addition to any remedy authorized by law, so much of the money due the Contractor under and by virtue of the Contract as shall be considered necessary by the Department may be retained by the City until disposition has been made of such suits or claims for damages.

The retention of money due the Contractor shall be subject to the following:

A. The City will give the Contractor thirty (30) Days' notice of its intention to retain funds from any partial payment which may become due to the Contractor prior to Acceptance of the Contract. Retention of funds from any payment made after Acceptance of the Contract may be made without such prior notice to the Contractor.

B. No retention of additional amounts out of partial payments will be made if the amount to be retained does not exceed the amount being withheld from partial payments pursuant to Section 7-1.07, "Progress Payments," of these General Conditions.

C. If the City has retained funds and it is subsequently determined that the City is not entitled to be indemnified and saved harmless by the Contractor in connection with matter for which such retention was made, the Department shall be liable for interest on the amount retained at the legal rate of interest for the period of such retention.

5-1.23 **INSURANCE COVERAGE.**

A. **Evidence of Maintenance Required.** The Contractor shall, at its expense, procure and at all times maintain in full force and effect at a minimum the insurance required by this section on all of its operations; and the Contractor shall not allow any Subcontractor to commence work until similar insurance required of the Subcontractor has been obtained and filed. An original Certificate of Insurance, and copies of all required endorsements, all in a form approved by the Risk Manager, evidencing all required coverage or policies shall be filed after the award of the bid and prior to approval of the Contract by the City Council. Contractor shall

provide ten (10) days prior written notice to the City of any reduction of coverage limits or cancellation of the coverage or policies shall be given to the City of Roseville as Certificate holder.

B. Qualifying Insurers. With the exception of the State Compensation Insurance Fund, all required insurance policies shall be issued by companies acceptable to the City and licensed to do business in the State of California and who hold a current policy holders alphabetic and financial size category rating of not less than AVII according to the most recent issue of Best's Insurance Reports.

C. Insurance Required.

1. Commercial General Liability (CGL): Insurance Services Office Form CG 00 01 covering CGL on an "occurrence" basis, including products and completed operations with limits of no less than Two Million Dollars (\$2,000,000) per occurrence for bodily injury, personal injury and property damage for projects under One Million Dollars (\$1,000,000) and limits of no less than Five Million Dollars (\$5,000,000) per occurrence for bodily injury, personal injury and property damage for projects over One Million Dollars (\$1,000,000). If a general aggregate limit applies, either the aggregate limit shall apply separately to this project or the general aggregate limit shall be twice the required occurrence limit.

The Commercial General Liability insurance shall include the following, copies of which shall be provided:

a. Inclusion of the City of Roseville, and its officers, agents, employees, and volunteers, as additional insureds (except for workers' compensation) as respects services or operations under the Contract. The additional insured endorsement for the general liability policy shall be at least as broad as the ISO CG 2010 10 01 combined with ISO CGL

Endorsement CG 2037 10 01. Any other endorsement must be approved in writing by the City. Endorsements must include coverage for on-going and completed operations, which coverage shall be maintained for four (4) years following completion of the Project. Endorsements shall cover the City of Roseville, its officers, agents, employees, and volunteers.

b. The insurance shall provide coverage for claims by one insured against another insured and the policies shall not contain any cross-suits exclusions, cross-liability exclusions, or insured versus insured exclusions. The policies shall not contain any classification exclusions purporting to deny coverage for any work to be performed by Contractor or any of its Subcontractors.

c. Stipulation that the insurance is primary and noncontributory, as evidenced by a separate endorsement (CG 20 01 04 13 or an equivalent) or section of the policy, and that neither the City nor its insurers will be called upon to contribute to a loss.

d. Such insurance shall specifically cover the contractual liability of the Contractor.

e. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.

f. Waiver of subrogation endorsement.

g. The Contractor shall furnish a certificate for the period covered.

2. Automobile Liability: Insurance Services Office Form Number CA 0001 covering Code 1 (any auto), or if Contractor has no owned autos, Code 8 (hired) and Code 9

(non-owned), with limits of no less than One Million Dollars (\$1,000,000) per accident for bodily injury and property damage.

3. Workers' Compensation: In accordance with the provisions of the California Labor Code, Contractor is required to be insured against liability for Workers' Compensation or to undertake self-insurance. Statutory Workers' Compensation and Employers' Liability of at least One Million Dollars (\$1,000,000) shall cover all Contractors staff while performing any work incidental to the performance of this Agreement.

4. Professional Liability: Professional Liability (Errors and Omission) Insurance appropriate to Contractor's profession, with a limit of liability not less than One Million Dollars (\$1,000,000) per occurrence or claim and Two Million Dollars (\$2,000,000) aggregate to cover all design and engineering services rendered by Contractor pursuant to the Agreement. Coverage must commence from the first day that Contractor or any of its Subcontractors provided any design or engineering services in connection with the Project.

5. Builder's Risk/Course of Construction Insurance (If Required by Risk Management): The Contractor shall be responsible for all loss, damage or destruction whatsoever to the work called for by this Contract until the approval of a Notice of Completion or acceptance of the Work if no Notice of Completion is to be recorded.

The Contractor shall secure "All Risk" type of builder's Risk Insurance of the type covering one hundred percent (100%) of the value of the work performed under this Contract (the value is presumed to be the Contract amount unless otherwise stated in Supplemental Conditions) and all materials, equipment, or other items to be incorporated therein while the same are located at the construction site, a bonded warehouse, or its place of manufacture. At any time, the policy shall cover the value of the work completed. The policy shall cover hazards

including the losses due to fire, explosion, hail, rain, lightning, flood (separate insurance as needed), vandalism, malicious mischief, wind, collapse, aircraft, and smoke.

The policies providing such insurance shall name the City as a loss payee as its respective interests may appear, and certified copies of such policies shall be filed with the City. The maximum deductible allowable under the Builder's All Risk policy shall be five percent (5%) of the Contract amount.

Builder's Risk Insurance is not required for coverage of losses in excess of five percent (5%) of the Contract amount for damages resulting from earthquake in excess of a magnitude of 3.5 on the Richter scale, or tidal waves. Coverage in the amount of five percent (5%) of the Contract amount for such losses is required.

6. Pollution Coverage: Contractor shall procure pollution liability coverage or other insurance covering claims for bodily injury or property damage arising out of the abatement, removal, storage, transportation, or other exposure to hazardous materials or pollutants, in limits not less than Two Million Dollars (\$2,000,000). Contractor shall add the City and all parties required to be indemnified by Contractor as additional insured on all pollution liability policies.

7. Higher Coverage Limits: If Contractor maintains higher coverage limits than the amounts shown above, then the City requires and shall be entitled to coverage for the higher coverage limits maintained by Contractor. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to the City.

8. Claims Made Coverage: Liability insurance coverage may not be written on a "claims made" or modified occurrence basis. The Certificate of Insurance must clearly provide that the coverage is on an "occurrence" basis.

5-1.24 **OTHER INSURANCE PROVISIONS.**

A. The requirements of the Standard Specifications as to types and limits of insurance coverage to be maintained by the Contractor, and any approval of insurance by the City, are not intended to, and shall not in any manner limit or qualify the liabilities and obligations otherwise assumed by the Contractor pursuant to the Contract, including, but not limited to, the provisions concerning indemnification, nor preclude the City from taking any other action available to it under any other provision of the Contract or law.

B. The City acknowledges that some insurance requirements contained in these Standard Specifications may be fulfilled by self-insurance on the part of the Contractor. However, this shall not in any way limit liabilities assumed by Contractor under the Contract. Any self-insurance must be approved in writing by the City, in its sole discretion and shall not reduce the limits of liability. Any deductibles or self-insured retentions (“SIR”) must be declared on the certificate of insurance and approved by City in writing. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or City. City reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

C. The Contractor agrees to include in its contracts with all subcontractors the same requirements and provisions of this Contract, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor’s work. Furthermore, the Contractor shall require its subcontractors to agree to be bound to the Contractor and the City in the same manner and to the same extent as the Contractor is bound to the City under this Contract. Additionally, the Contractor shall obligate its subcontractors to comply with these

same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of the City's indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request. Alternatively, the Contractor may insure subcontractor(s) under its own policy.

D. The City, its officers, agents, employees, and volunteers are to be covered as insureds with respect to liability arising out of automobiles owned, leased, hired or borrowed by or on behalf of the Contractor; and with respect to liability arising out of work or operations performed by or on behalf of the Contractor including materials, parts or equipment furnished in connection with such work or operations. Coverage shall not extend to any indemnity coverage for the active negligence of the additional insured in any case where an agreement to indemnify the additional insured would be invalid under California Insurance Code Section 11580.04.

E. The limits of insurance required in this Contract may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of the City (if agreed to in a written contract) before the City's own insurance shall be called upon to protect it as a named insured.

F. The insurance procured by Contractor shall be subject to the approval of the City, but any acceptance of insurance certificates by the City shall in no way limit or relieve Contractor of its duties and responsibilities under the Agreement.

G. Contractor shall be responsible for all premiums, deductibles, and self-insured retention applicable to the insurance it is required to procure under the Contract. All deductibles or self-insured retentions over five hundred thousand dollars (\$500,000) must be approved by the City, in writing. Contractor shall be responsible for all deductibles, self-insured

retention payments, and/or increased premiums incurred if the City's policies of insurance are forced to cover damages or respond to claims for which Contractor or its Subcontractors were obligated to provide insurance under the Contract.

H. Failure of the City to enforce in a timely manner any of the requirements of these insurance provisions shall not act as a waiver to enforcement of any of these provisions at a later date.

I. Contractor's indemnity obligations shall not be limited by these insurance provisions and shall survive the expiration of the Contract and the insurance provisions of the Contract shall likewise not be limited by the indemnity provisions of the Contract.

J. THE CITY RESERVES THE RIGHT TO WITHHOLD ANY PROGRESS PAYMENTS TO THE CONTRACTOR IN THE EVENT OF NONCOMPLIANCE WITH ANY INSURANCE REQUIREMENTS.

5-1.25 **THIRD PARTY BENEFICIARY.** No provisions in the Contract Documents shall in any way inure to the benefit any third party (including the public at large or any member thereof) so as to constitute such person a third party beneficiary of the Contract, or of any term or condition or other provision of the Contract or otherwise give rise to any cause of action in any person not a party to the Agreement, except as expressly provided elsewhere in the Contract Documents.

5-1.26 **COORDINATION AND ACCESS.** The Contractor acknowledges that the City may award, or has already awarded, other construction contracts for additional work or may perform additional work with its own forces and that such work may affect the Work under this Agreement. Additionally, the Contractor acknowledges that the State and other public and private agencies may be granted a right-of-entry by the City for the purpose of constructing

facilities within and adjacent to the Work Site. It is the obligation of the Contractor to coordinate its Work with the work of others working within or adjacent to the City's property.

During performance of its Work, the Contractor shall not have exclusive access to or use of the work areas. The City may also require that certain facilities and areas be used concurrently by the Contractor and by other contractors working in the area. When two (2) or more contractors are employed on related or adjacent City work, each shall conduct its operations in such a manner as not to cause any unnecessary delay or hindrance to the other. Each contractor shall be responsible to the other for all damage to any work, to persons or property caused to the other by its operations, and for loss caused the other due to any unnecessary delays or failure to finish the work within the time specified for completion.

If any party of the Contractor's Work depends on the work of any other contractor and/or the City for proper execution and/or results, the Contractor shall promptly notify the City of any discrepancies and/or defects in said other work that would render its work unsuitable for proper execution and/or results prior to proceeding with the Contractor's own Work. If it becomes necessary, the City will resolve coordination and access problems.

The Contractor and its representative in charge of the Work shall familiarize themselves with the City's property and Work Site, and adjacent surroundings in the vicinity of said Work, and any private or public operations on adjoining properties.

5-1.27 **OCCUPANCY BY THE DEPARTMENT PRIOR TO**

ACCEPTANCE. The City may at any time notify the Contractor in writing that it intends to take Beneficial Occupancy of any portion of the Work even though the Work may not be substantially complete. Unless the reason for the City's taking Beneficial Occupancy is that the Contractor has not completed the Work (or portions thereof) in accordance with the Contract

Time, the City's Beneficial Occupancy shall relieve the Contractor from its responsibility for maintenance, loss or damage to that portion of the Work for which the City has taken Beneficial Occupancy other than that resulting from the Contractor's act or omission, negligence, willful misconduct or breach of warranty.

Should the Work (or portion thereof) not be completed in accordance with the Construction Schedule within the Contract Time (as adjusted under the terms of the Contract Documents), the City shall have the right, but not the obligation, to take Beneficial Occupancy of the Work. In such event, the Contractor shall not be entitled to any additional compensation on account of said occupancy by the City, nor shall the Contractor be relieved of any of its responsibilities under the Contract Documents, including, without limitation, Contractor's obligation to complete the Work in accordance with the Construction Schedule.

Beneficial Occupancy shall not be deemed an Acceptance by the City either of the Work or of any portion thereof, nor will it relieve the Contractor of full responsibility for correcting defective Work or materials found at any time before the formal written Acceptance of the entire Contract by the Director or during the full warranty period after such Acceptance, as provided in Section 7-1.12, "Warranty," of these General Conditions.

The City's Beneficial Occupancy shall not relieve the Contractor of its responsibility to maintain all insurance and bonds required under the Contract Documents until the entire project is accepted by the City.

5-1.28 **RIGHT TO OPERATE UNSATISFACTORY FACILITIES AND EQUIPMENT.** If, after Installation, the operation or use of the facilities or equipment to be furnished under this Contract proves to be unsatisfactory to the Director, the City shall have the right to operate and use such facilities or equipment until they can, without damage to the City,

be taken out of service for correction or replacement. Such period of use of the defective facilities or equipment, pending correction or replacement, shall in no way decrease the warranty period required for the acceptable corrected or replaced facilities or equipment.

5-1.29 **CONTRACTOR'S RESPONSIBILITY FOR THE WORK.** Except as otherwise provided herein, the Contractor shall have the charge and care of the Work and shall bear the risk of injury or damage to any part of the Work by the action of the elements or from any other cause whether arising from the execution or from the nonexecution of the Work until the Acceptance of the Contract by the Director. The Contractor shall rebuild, repair, restore, and make good all injuries or damages to any portion of the Work occasioned by any cause before its completion and Acceptance, and shall bear the expense thereof. In case of suspension of Work from any cause whatever, the Contractor shall be responsible for the Work and it shall also be responsible for all materials, and shall properly store them if necessary, and shall provide suitable drainage and erect temporary structures where necessary.

The Contractor will be relieved of responsibility for any injury or damage to the Work caused by the following:

- A. An earthquake in excess of a magnitude of 3.5 on the Richter Scale or a tidal wave, when the effect of such has been proclaimed a disaster or state of emergency by the Governor of the State of California or by the President of the United States, or was of such magnitude at the site of the Work as to have been sufficient to have caused a proclamation of disaster or state of emergency, had it occurred in a populated area.
- B. Occupancy and use by the Department or the public prior to the completion of the entire project.
- C. Acts of the Federal Government or the public enemy.

5-1.30 **RESPONSIBILITY FOR UTILITIES.** The Contractor shall be responsible at its own cost for any and all Work, expense or special precautions caused or required by the existence or proximity of utilities encountered in performing the Work, including without limitation, repair of any or all damage and all hand or exploratory excavation required. The Contractor is cautioned that such utilities may include communication cables or electrical cables which may be high voltage, and when working or excavating in the vicinity of such cables, or the ducts enclosing such cables, the Contractor shall undertake at its own cost any special precautions required. Suitable warning signs, barricades, and safety devices shall be erected as necessary or required.

However, if during the course of the Work the Contractor encounters utility Installations which are not shown or indicated in the Contract Documents or which are found in a location substantially different from that shown, and such utilities are not reasonably apparent from visual examination, then the Contractor shall promptly notify the Director in writing. Where necessary for the Work of the Contract, the Director shall issue a written order to the Contractor to make such adjustments, rearrangement, repair, removal, alteration, or special handling of such utility, including repair of the damaged utility. The Contractor shall perform the Work described in such written order, and compensation therefor will be made in accordance with Section 3 of these General Conditions relating to changes in the Work. Except for the items of cost specified in said Section 3, the Contractor shall receive no compensation for any other cost, damage, delay, interference, or hindrance to him or her due to the presence of such utility. If the Contractor fails to give the notice specified above and thereafter acts without instructions for the Director, then the Contractor shall be liable for any or subsequent to discovery thereof, and the Contractor shall repair and make good such damage at its own cost.

The precise location of underground facilities can only be determined by careful probing or hand digging in compliance with Article 6 of the Cal/OSHA Construction Safety Orders which states in part:

“Prior to opening an excavation, effort shall be made to determine whether underground installations, i.e., sewer, water, fuel, electric lines, etc., will be encountered, and if so, where such underground installations are located. When the excavation approaches the approximate location of such an installation, the exact location shall be determined by careful probing or hand digging, and, when it is uncovered, adequate protection shall be provided for the existing installation.”

The location of known existing utilities and pipelines are shown on the Contract Drawings in their approximate locations. Some of the locations include multiple conduits. The Contractor shall exercise care in avoiding damage to those facilities which are to remain in service subsequent to the construction of the particular new facility involved and the Contractor will be held responsible for any repairs if damaged. The Contractor shall also exercise care in maintaining those pipes and facilities required for continuing operation of the existing facilities until such time as they can be abandoned. There is no guarantee that all utilities or obstructions are shown on the Contract Drawings or that the locations indicated are accurate.

The Contractor shall exercise extreme caution in working in the area adjacent to the existing pipelines and utility services. It is essential that all the existing facilities be maintained in service. Construction of the connections between the existing facilities and the new facilities shall be at times and during periods acceptable to the City. The Contractor shall advise the Director in writing of its proposed Construction Schedule for these connections at least forty-eight (48) hours in advance.

The Contractor shall uncover all piping and conduits, to a point one foot (1') below the pipe, where crossings, interferences, or connections are shown on the Contract Drawings, prior to trenching or excavating for any pipe or structures, to determine actual elevations. New pipelines shall be laid to such grade as to clear all existing facilities which are to remain in service. If the Contractor does not expose all required utilities, it shall not be entitled to additional compensation for Work necessary to avoid interferences nor for repair to damaged utilities. Excavations around underground electrical ducts and conduits shall be performed using extreme caution to prevent injury or damage to workers and to the electrical ducts or conduits.

5-1.31 **PROPERTY RIGHTS IN MATERIALS.** Nothing in the Contract shall be construed as vesting in the Contractor any right of property in the materials used after they have been attached or affixed to the Work or soil or after partial payment has been made as provided in Section 7-1.07, "Progress Payments," of these General Conditions for material delivered on the ground or stored subject to or under the control of the City and unused. All such material shall become the property of the City upon being so attached or affixed or upon payment for materials delivered on the ground or stored subject to or under the control of the City and unused, as provided in said Section 7-1.07.

5-1.32 **COURT ORDERED DELAY.** If, pursuant to court order, the Department temporarily suspends performance of all or any portion of the Work, an extension of time determined pursuant to the provisions in Section 6-1.08, "Liquidated Damages," of these General Conditions will be granted.

5-1.33 **NO PERSONAL LIABILITY.** Neither the Director, nor any other officer or authorized employee of the City, shall be personally responsible for any liability arising under or by virtue of the Contract.

5-1.34 **RIGHTS IN LAND AND IMPROVEMENTS.** The Contractor shall make no arrangements with any person or entity to permit occupancy or use of any land, structure or building within the limits of the Work, for any purpose whatsoever, either with or without compensation, in conflict with any agreement between the City and any third party owner, former owner, or tenant of such land, structure or buildings. The Contractor shall not occupy City-owned property outside the limit of the Work shown on the Contract Drawings unless it obtains prior approval.

5-1.35 **ANTITRUST CLAIMS.** The Contractor's attention is directed to the following provision of Public Contract Code Section 7103.5(b), which is applicable to the Contractor and its Subcontractors:

“ In entering into a public works contract or a subcontract to supply goods, services, or materials pursuant to a public works contract, the contractor or subcontractor offers and agrees to assign to the awarding body all rights, title, and interest in and to all causes of action it may have under Section 4 of the Clayton Act (15 U.S.C. Sec. 15) or under the Cartwright Act (Chapter 2 [commencing with Section 16700] of Part 2 of Division 7 of the Business and Professions Code), arising from purchases of goods, services, or materials pursuant to the public works contract or the subcontract. This assignment shall be made and become effective at the time the awarding body tenders final payment to the contractor, without further acknowledgement by the parties.”

5-1.36 **RIGHTS TO DRAWINGS, TECHNICAL DATA PATENTS.** Shop

Drawings and Working Drawings submitted to the City by the Contractor, Subcontractor or any lower tier Subcontractor pursuant to the Agreement, are the property of the City and the City may use, and disclose in any manner and for any purpose, Shop Drawings and Working Drawings delivered under the Contract.

Technical Data including manuals or instructional materials, computer or microprocessor software which are delivered or submitted to the City by the Contractor, Subcontractor, or any lower tier Subcontract pursuant to the Contract are the property of the City, and the City may use or disclose same in any manner and for any purpose.

The Contractor shall assume all costs arising from the use of patented materials, equipment, devices, or processes used on or incorporated in the Work, and shall defend, indemnify and save and hold harmless the City, and its duly authorized representatives, from all suits at law, or in equity, and actions of every nature for, or on account of the use of any patented materials, equipment, devices or processes. In case some materials, equipment, devices or processes are held to constitute an infringement and their use enjoined, the Contractor, at its expense, shall:

1. Secure for the City the right to continue using said materials, equipment, devices or processes by suspension of the injunction or by procuring a license or licenses; or
2. Replace such materials, equipment, devices, processes; or
3. Modify them so that they become non-infringing or remove the enjoined materials, equipment, devices or processes and refund the sums paid therefor without prejudice to any other rights of the City.

5-1.37 **PAYMENT OF TAXES.** Contractor shall pay all taxes and duties applicable to and assessable against any Work, equipment, materials, services, processes, and

operations incidental to or involved in the Agreement, including but not limited to, retail sales and use, transportation, export, import, business, and special taxes. The Contractor is responsible for ascertaining and acquainting itself with such taxes and making all necessary arrangements to pay them. The Contractor will maintain records that are auditable records, and these records shall be subject to the City's review to verify that Contractor's tax payments are current at all times.

The Contract Price paid for the Work shall include full compensation for all taxes which the Contractor is required to pay, whether imposed by Federal, State or local government, including, without being limited to, Federal excise tax. No tax exemption certificate nor any document designed to exempt the Contractor from payment of any tax will be furnished to the Contractor by the Department, as to any tax on labor, services, materials, transportation, or any other items furnished pursuant to the Contract.

The Contractor shall withhold and pay any and all sales and use taxes, withholding taxes, whether Federal, State, or local, Social Security taxes, State Unemployment Insurance charges and all other taxes which are now or hereafter may be required to be paid or withheld under any laws.

5-1.38 **GRATUITIES AND CONFLICT OF INTEREST.** The Contractor shall not offer or provide gratuities in the form of gifts, entertainment, loans, meals, rewards, and/or services to representatives of the City, including but not limited to, officers, employees, agents, Engineering Service Consultants, Consulting Engineers and Architects, Inspectors and/or Testing Agencies retained by the City. If it is found that the Contractor has violated this provision, the Contract may be subject to termination for default as defined elsewhere in these General Conditions.

During the term of the Contract and until the final payment has been made to the Contractor, the Contractor shall not employ or compensate in any manner whatsoever, the City's officers, employees and authorized representatives, agents, and any Engineering Service Consultants, Consulting Engineers and Architects, Inspectors, and/or Testing Agencies retained by the City. Any exception to the employment or compensation to any of the above named parties must be made in writing by the City. If the Contractor offers or provides employment or compensation to those named above during the term of the Contract, the Contract may be subject to termination for default.

5-1.39 **COOPERATION.** Should construction be under way by City forces or other forces or by other Contractors within or adjacent to the limits of the Work or should Work of any other nature be under way by such forces within or adjacent to said limits, the Contractor shall cooperate with all such forces to the end that any delay, interference or hindrance to their Work will be avoided. The right is reserved to perform other or additional Work at or near the site at any time, by the use of such forces.

5-1.40 **DIGGING TRENCHES OR OTHER EXCAVATIONS.** In the event any work involves digging trenches or other excavations that extend deeper than four feet (4') below the surface, City and Contractor shall comply with the following:

A. The Contractor shall promptly, and before the following conditions are disturbed, notify City in writing of any:

1. Material that the Contractor believes may be material that is hazardous waste, as defined in Section 25117 of the Health and Safety Code, that is required to be removed to a Class I, Class II, or Class III disposal site in accordance with provisions of existing law.

2. Subsurface or latent physical conditions at the site differing from those made available to Contractor for inspection as provided in the project proposal.

3. Unknown physical conditions at the site of any unusual nature, different materially from those ordinarily encountered and generally recognized as inherent in Work of the character provided for in the Contract.

B. The City shall promptly investigate the conditions, and if it finds that the conditions do materially so differ, or do involve hazardous waste, and cause a decrease or increase in the Contractor's cost of, or the time required for, performance of any part of the Work shall issue a Change Order under the procedures described in the Contract.

C. In the event that a dispute arises between the City and the Contractor whether the conditions materially differ, or involve hazardous waste, or cause a decrease or increase in the Contractor's cost of, or time required for, performance of any part of the Work, the Contractor shall not be excused from any scheduled completion date provided for by the Contract, but shall proceed with all work to be performed under the Contract. The Contractor shall retain any and all rights provided either by contract or by law which pertain to the resolution of disputes and protests between the contracting parties. However, no claim of the Contractor under this clause shall be allowed unless the Contractor has given the notice required by this Section. No claim by the Contractor for an equitable adjustment hereunder shall be allowed if asserted after final payment under this Contract.

5-1.41 **CONTRACTOR REGISTRATION.** No contractor or subcontractor may work on a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5. During the performance of this Contract, the Contractor and its subcontractors shall have a continuing legal obligation to maintain current

registration with the Department of Industrial Relations. The Contractor is hereby notified that this project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.

5-1.42 **CITY OF ROSEVILLE ENCROACHMENT PERMITS AND**

RIGHTS-OF-WAY. The Contractor need not obtain a separate encroachment permit from the City prior to construction within street rights-of-way or other City rights-of-way. Execution of the Contract by the City shall be deemed an encroachment permit for work required by the Contract within rights-of-way. All work shall conform to the rules and regulations of encroachment permits and shall be subject to the inspection and approval of the Director and City Engineer.

To the extent indicated in the Contract Drawings, the City will provide the rights-of-way over private lands or the site to enable the Contractor to perform its work. The Contractor shall be solely responsible for securing any additional rights-of-way desired by the Contractor. The City will not be a party to nor assume any liability for any separate agreements reached between the Contractor and any third parties with respect to these additional rights-of-way. The Contractor shall procure evidence that agreements are in place with said third parties before the Contractor uses those areas covered by the agreements. Any damage to such private lands caused by the Contractor's operations shall be the sole responsibility of the Contractor.

SECTION 6

PROSECUTION AND PROGRESS

6-1.01 **SUBLETTING AND SUBCONTRACTING.** The Contractor shall be responsible for all Work performed under the Contract. The Contractor shall give its personal attention to the fulfillment of the Contract and shall keep the Work under its control. Nothing in the Contract Documents shall create any contractual relationship between the City and any Subcontractor. The Contractor is fully responsible to the City for the acts and omissions of its Subcontractors of any tier. When any Subcontractor fails to prosecute a portion of the Work in a manner satisfactory to the Director, that Subcontractor shall not again be employed on the Work. Although the sections of the Contract may be arranged according to various trades, or general grouping of the Work, the Contractor is not obligated to sublet the Work in such manner. The Director will not arbitrate disputes among Subcontractors or between Contractor and one or more Subcontractors concerning responsibility for performing any part of the Work.

The on-site production of materials produced by other than the Contractor's own forces shall be considered as subcontracted. The erection, establishment or reopening of on-site plants for production of materials and the operation thereof in the production of materials for use on the Work shall conform to the requirements relating to labor set forth in the Contract Documents.

The Contractor shall also be responsible for coordinating the Work performed by Subcontractors and Suppliers.

The Contractor shall not substitute any person as Subcontractor in place of a Subcontractor listed on its bid proposal without the written approval of the Director. Substitutions must be in accordance with the provisions of the "Subletting and Subcontracting

Fair Practices Act” beginning with Public Contract Code Section 4100. Violations of this Act by the Contractor may subject it to penalties which may include cancellation of Contract, Assessment of ten percent (10%) of the Subcontractor's bid, and disciplinary action by the Contractors State License Board.

The Contractor shall pay any Subcontractors approved by the City for work that has been satisfactorily performed no later than seven (7) Days from the date of Contractor’s receipt of progress payments by the City. Within seven (7) Days after receipt from the City of funds attributable to work performed by a Subcontractor, Contractor shall release any retainage payments withheld to the Subcontractor. In the event Contractor does not make progress payments or release retention to Subcontractors in accordance with the time period specified herein, Contractor may be subject to prompt payment penalties per statute.

6-1.02 **ASSIGNMENT.** The performance of this Contract may not be assigned, except upon the written consent of the City Council of the City of Roseville. Consent will not be given to any proposed assignment which would relieve the original Contractor or its surety of their responsibilities under the Contract nor will the City consent to any assignment of a part of the Work under the Contract.

The Contractor may assign moneys due or to become due to it under the Contract and such assignment will be recognized by the City, if given proper notice thereof, to the extent permitted by law, but any assignment of moneys shall be subject to all proper set-offs in favor of the City and to all deductions provided for in the Contract and particularly all money withheld, whether assigned or not, shall be subject to being used by the City for the completion of the Work in the event that the Contractor should be in default therein.

6-1.03 **BEGINNING OF WORK.** After the execution of the Contract by both

parties, the City will issue the Notice to Proceed upon its determination that it is appropriate for the Contract Time to commence.

The Contractor shall begin Work within fifteen (15) Days after receiving the Notice to Proceed from the Director, subject to the requirements stated elsewhere in the Contract Documents regarding, among other things, the submittal of Baseline Schedule, and shall diligently prosecute the same to completion within the time limit provided in the Supplemental Conditions. Contractor shall also achieve any and all Contract milestones as described elsewhere in the Contract Documents.

The Contractor shall notify the Director, in writing, of its intent to begin Work at least seventy-two (72) hours before Work is begun. The notice shall be delivered to the Director and shall specify the date the Contractor intends to start. If the project has more than one (1) location of Work, a separate notice shall be given for each location.

The Contractor is not authorized to perform any Work until it has received a Notice to Proceed from the City. Should the Contractor begin Work in advance of receiving notice that the Contract has been approved as above provided, any Work performed by it in advance of the said date of approval shall be considered as having been done by the Contractor at its own risk and as a volunteer unless said Contract is so approved thereafter.

6-1.04 **PROGRESS SCHEDULE.**

A. **Preliminary Progress Schedule.** The Contractor shall submit to the Director, within twenty (20) Days after date of the Notice to Proceed, a Preliminary Progress Schedule covering the Contractor's activities over the first three (3) months of operation in detail and the remainder of the project in summary. The Preliminary Progress Schedule shall schedule the project within the Contract Time for completion of the Work, and shall be subject to

favorable review by the Director.

B. CPM Schedule. The Contractor shall submit an acceptable Critical Path Method (CPM) Schedule to the Director within thirty (30) Days after the receipt of the Notice to Proceed. Subsequent revisions to said schedule shall be submitted as set forth hereinafter. The requirement for the CPM schedule is included to allow for adequate planning and execution of the Work, to determine the critical nature of delays, and to assist the Director in appraising the reasonableness of the proposed schedule and evaluating progress of the Work. The CPM schedule submitted under this Section shall utilize a CPM format, either the precedence or arrow diagramming method. The definitions of CPM terms and functions shall be as provided in the Associated General Contractors of America book *CPM in Construction, A Manual for General Contractors*, or a favorably reviewed alternative publication or reference. No progress payment will be made prior to submission and acceptance of the CPM Schedule.

1. The CPM schedule system shall consist of diagrams and accompanying mathematical analyses. The diagrams shall show elements of the project in detail and an entire project summary. Diagrams shall show the order and interdependence of activities and sequence in which the Work is to be accomplished as planned by the Contractor. The basic concept of a network analysis diagram shall be followed to show how the start of a given activity is dependent on the completion of preceding activities and its completion restricts the start of following activities. Detailed network activities shall include, in addition to construction activities, the submittal and favorable review of samples of material and Shop Drawings, the procurement of critical materials and equipment, fabrication of special material and equipment, and their Installation and testing. All activities of the City and the Director that affect progress and required Contract dates for completion of all or parts of the Work shall be shown. The

selection and number of activities shall be subject to favorable review by the Director. Summary networks shall be time scaled. Durations shall be in Days and shall not exceed fifteen (15) Days, except for submittal and delivery items. Where the duration of continuous Work exceeds fifteen (15) Days, Work items in the Construction Schedule shall be subdivided by location, approximate stationing or other sub-element of the Work.

The graphic network diagram shall include for each activity, the description, activity number, the estimated duration in Days, and all activity relationship lines. The network diagram shall be drawn for the early start of activities. All significant Submittals shall be scheduled along with manual Submittals and training on all large or critical pieces of equipment. If the precedence technique is utilized, the schedule project shall include a calendar in Work Days, a network report sorted by early start and a logic table report sorted by preceding Work item. If the arrow technique is utilized, the schedule report shall include a calendar in Work Days, a network report sorted by early start, a network report sorted by I-J numbers, and a network sorted by slack time and I-J numbers.

2. The critical path shall be shown on all reports and on the graphic network diagram. The activities which constitute the critical path shall be identified.

3. The mathematical analysis of the network diagram shall include a tabulation of each activity. The following information shall be furnished as a minimum for each activity:

- (a) preceding and following event numbers
- (b) activity description and number
- (c) estimated duration of activities
- (d) earliest start date (by calendar date)

- (e) earliest finish date (by calendar date)
- (f) actual start date (by calendar date)
- (g) actual finish date (by calendar date)
- (h) latest start date (by calendar date)
- (i) latest finish date (by calendar date)
- (j) slack or float
- (k) percentage of activity completed

4. The program shall be capable of accepting revised completion dates as modified by approved time adjustments and recomputations of all tabulation dates and float accordingly.

5. Submission and review of the system shall be as follows:

(a) The complete network analysis system, consisting of the detailed network mathematical analysis and network diagrams, shall be submitted within thirty (30) Days after receipt of the Notice to Proceed.

(b) The Contractor shall participate in a review and evaluation of the proposed network diagrams and analysis by the Director. Any revisions necessary as a result of this review shall be resubmitted for review by the Director within ten (10) Days. When completed, the favorably reviewed schedule shall then be the schedule to be used by the Contractor for planning, organizing and directing the Work and for reporting progress. If the Contractor thereafter desires to make significant changes in its method of operating and scheduling, the Contractor shall notify the Director in writing stating the reasons for the change.

(c) The Contractor shall submit at monthly intervals a report of the actual construction progress. Each monthly report shall cover a period of approximately thirty

(30) Days ending around the 20th of each month. The monthly reports shall be submitted within ten (10) Days of the end of the reporting period.

(1) If the project is proceeding on schedule, the monthly update report may consist of a marked-up copy of the graphical network diagram. This submittal shall clearly indicate the status of any minor shifts in sequence or schedule and the estimated completion date or percent complete of all activities currently in progress. The Contract completion date shall also be indicated. The Contractor shall submit a narrative report relating to status of construction, the schedule, and factors which may affect the remainder of the schedule. The report shall show the activities or portions of activities completed during the reporting period. The report shall state the percentage of the Work actually completed and scheduled as of the report date and the progress along the critical path in terms of Days ahead or behind the allowable dates.

(2) If, in the opinion of the Director, the project is behind schedule, the monthly report shall include a revised network diagram and/or mathematical analysis showing the Contractor's proposed revised schedule. An analysis of the effect that the delay has on progress along other paths shall also be included in the report. The Contractor shall also submit a narrative report with each updated analysis which shall include but not to be limited to a description of current and anticipated problem areas, delaying factors and their impact, and an explanation of corrective actions taken or proposed.

(3) Periodic report shall be submitted in sufficient copies to cover Contractor needs plus five (5) copies and an available electronic copy to be retained by the Director.

6. To the extent that the favorably reviewed initial Construction Schedule, or revisions thereto, indicate anything not jointly agreed upon, it shall be deemed to be not favorably reviewed by the Director. Any omission of Work from the detailed schedule, otherwise required for Contract compliance, will not excuse the Contractor from completing such Work within any applicable completion date. The CPM schedule shall be generated by computer methods.

C. Schedule Review. Once each month, on a date mutually agreed upon, but no later than seven (7) business days after the monthly schedule progress report date, a Work Site meeting will be held to review the Construction Schedule and job progress. The Contractor shall also attend weekly meetings scheduled by the Director to review the progress of the Work in the preceding week and in the subsequent week, coordinate the Work with public agencies or other Contractors as required, and allow the Director to plan his or her activities for testing, inspection, etc.

D. Schedule Revisions. The conditions under which the Director will require revisions of the Construction Schedule include the following:

1. When delay in completion of any Work item or sequence of Work items results in an estimated extension of project completion by either twenty (20) business days or by ten percent (10%) of the remaining duration of time to complete the Contract, whichever is less.

2. When delays in Submittals or deliveries make replanning or rescheduling of the Work necessary.

3. When the schedule does not represent actual prosecution and progress of the Work.

4. When any change to the sequence of activities, the completion date for major portions of the Work, or when changes occur which affect the critical path.

5. When Contract Amendments or a Change Order necessitates schedule revision, the Contractor shall submit a schedule analysis of all Change Order Work with its proposal.

E. Cash Flow Projection. A cash flow projection shall be submitted with the Construction Schedule. This cash flow projection shall be revised and resubmitted when revisions of the Construction Schedule will result in changes to the projected cash flow.

F. Schedules showing project completion dates earlier than specified in the Supplemental Conditions will be rejected unless justification can be provided for early completion.

6-1.05 **SCHEDULE OF VALUES.** Prior to preparation of the first estimate for a progress payment, the Contractor shall submit for favorable review by the Director a detailed Schedule of Values or cost breakdown of the Work under each bid item awarded. The breakdown will then become the basis for partial payment determination. Elements of Work shall be grouped by structure, pipeline, system, etc. Within each grouping, Work should be itemized by readily measurable quantities of Work complete in place. For example, concrete should be in units of cubic yards including form Work and reinforcing steel. Move-on costs, bond and insurance costs, and Overhead costs shall not be considered an item of cost for this purpose but shall be prorated over items of Work. In the event the Schedule of Values is not favorable reviewed by the Director, another Schedule of Values shall be submitted that is mutually acceptable to the Contractor and the Director.

6-1.06 **CITY'S RIGHT TO STOP WORK.** The Director shall have the

authority to order the Contractor, in writing, to suspend the Work wholly or in part, for such period as the Director may deem necessary due to the failure on the part of the Contractor to correct Work that is not in accordance with the requirements of the Contract Documents or if Contractor persistently fails to carry out Work in accordance with the Contract Documents.

The Contractor shall immediately comply with the written order of the Director to suspend the Work wholly or in part. The suspended Work shall be resumed when conditions are favorable and methods are corrected, as ordered or approved in writing by the Director.

Any stoppage of work under this section shall be at the Contractor's sole expense, and the Contractor shall have no claim against the City based on the Contractor's failure to perform the Work in accordance with the Contract Documents.

In addition to the City's right to stop Work, the City may order the Contractor to submit to the City at no additional cost to the City, additional information concerning Contractor's planned Work if the Contractor fails to promptly correct Work that is not in accordance with the requirements of the Contract Documents or persistently fails to carry out Work in accordance with the Contract Documents. The additional information ordered by the City may include, but is not limited to, preparation of Submittals or Working Drawings not otherwise required to be submitted under the Contract Documents.

In the event the City discovers that the Contractor has created an unsafe condition the City may arrange for other work forces to remedy the condition. Such remedial work shall be at the sole discretion of the City. If this action is required, the City may unilaterally terminate Work under the Contract, and will pay only for the quantities of Work actually performed, less the cost of the City's remedial Work. In the event that Work is not halted, the Contractor must take immediate steps to correct the situation. There will be no extra payment for Work required

to correct unsafe conditions.

The right of the City to suspend the Work shall not give rise to a duty on the part of the City to exercise this right for the benefit of the Contractor or any other person or entity. This right shall be in addition to and not in restriction or derogation of the City's other rights under the Contract Documents.

In the event of a suspension of Work under any of the conditions set forth in this Section 6-1.06, such suspension of Work shall not relieve the Contractor of its legal responsibilities as set forth in these General Conditions.

6-1.07 **TIME OF COMPLETION.** The Contractor shall complete the entire Work, including Installation, repairs, startup, troubleshooting, painting, and touchup, training, submittal or record drawings, and manuals, cleanup, demobilization, and all other Work within the number of Days set forth in the Supplemental Conditions. The time for completion includes an allowance for working time lost due to normal inclement weather.

Extensions of time may be allowed for unusual inclement weather under the provisions hereinafter described. Unusual inclement weather is weather which adversely affects "controlling" operations or the critical path of construction and which meets one of the following criteria:

A. For the particular calendar month in question, the number of individual Days with rainfall exceeding 0.10 inches exceeds the average number of such Days for that month over the immediately preceding five (5) years of record by at least three (3) Days.

B. For the particular calendar month in question, the total cumulative rainfall for that month exceeds the average cumulative rainfall for that month over the immediately preceding five (5) years of record by at least two inches (2").

Rainfall shall be measured at a publicly operated, maintained, and reported station in reasonable proximity to the construction site. A claim for delay shall indicate the period of rainfall which is claimed as “unusual,” the specific dates during which the unusual rainfall and subsequent wet soil conditions prevented Work, and the specific critical path tasks adversely affected by such unusual weather. A claim for delay due to unusual inclement weather shall be filed within ten (10) Days of the apparent end of the unusual inclement rainfall period, whether or not the monthly totals are available at that time. The burden of proof that weather meets the criteria for unusual weather shall be solely the responsibility of the Contractor.

It is the responsibility of the Contractor to order materials required for the Work properly and promptly on a Notice to Proceed. If evidence presented demonstrates that, in spite of the Contractor's efforts, government-established priorities controls delay material deliveries, suitable extension of time will be made.

If performance of extra Work ordered by the City or failure of the City to provide the necessary site for Installation affects construction tasks which are “controlling” or which are on the “critical path” of the Construction Schedule, suitable extensions of time will be made.

The Contractor shall not be entitled to a time extension for delays in activities on non-critical paths of the favorably reviewed schedule unless the duration of the excusable delay exceeds the total float of the activities being delayed. If the duration of an excusable delay does exceed the total float of the activities affected by the delay, the Contractor shall be entitled to an extension equal to the difference.

C. Determination that a day is a non-working day by reason of inclement weather or conditions resulting immediately therefrom, shall be made by the Director.

6-1.08 **LIQUIDATED DAMAGES.** It is agreed by the parties to the Contract

that in case all the Work called for under the Contract in all parts and requirements is not completed within the number of Days as set forth in the Supplemental Conditions, damage will be sustained by the City and that it is and will be impracticable and extremely difficult to ascertain and determine the actual damage which the City will sustain in the event of and by reason of such delay; and it is therefore agreed that the Contractor will pay to the City, the monetary amount indicated in the Supplemental Conditions in dollars (U.S.) per day for each and every calendar day of delay in completing the Work in excess of the number of Days prescribed and the number of additional calendar days, if any, authorized by Contract Change Order; and the Contractor agrees to pay said Liquidated Damages herein provided for, and further agrees that the City may deduct the amount thereof from any moneys due or that may become due the Contractor under the Contract.

It is further agreed that in case the Work is not finished and completed in all parts and requirements within the number of Days specified, the City shall have the right to increase the number of Days or not, as it may deem best to serve the interest of the City, and if it decides to increase the said number of Days, it shall further have the right to charge to the Contractor, its heirs, assigns or sureties and to deduct from the final payment for the Work all of any part, as it may deem proper, of the actual cost of engineering, inspection, superintendence, and other Overhead expenses which are directly chargeable to the Contract, and which accrue during the period of such extension, except that cost of preparation of final statement shall not be included in such charges.

6-1.09 **DELAYS AND EXTENSIONS TO THE WORK.** The Contractor must complete all Work within the time specified in the Agreement. The Contractor will be granted an extension of time and will not be assessed with liquidated damages or the cost of engineering

and inspection for any delay in substantially completing the Work (or parts thereof) beyond the time set forth in the Agreement, provided that such delay was caused by unforeseeable causes beyond the control and without the fault or negligence of the Contractor. Examples of such causes include acts of public enemy, fire, floods, abnormal weather (as described below), earthquakes, epidemics, quarantine restrictions, strikes, labor disputes and freight embargoes, fire, changes made pursuant to the provisions of "Changes in the Work" under Section 3 of these General Conditions or acts or neglect of the City not contemplated by the Contract Documents. In all cases, any extension of time is conditioned on the following:

1. That the cause is not due to the fault or negligence of the Contractor, and the Contractor has taken reasonable precautions to prevent and minimize the effects thereof; and
2. That the Contractor notifies the Director in writing within three (3) Days from the beginning of such delay specifying the nature of the delay and the measures that have been or will be taken to prevent or minimize the delay. Failure to submit written notice within this time period shall constitute an absolute waiver of any claim for a time extension.

No extension of time will be granted for a delay caused by a shortage of materials, unless the Contractor furnishes to the City documentary proof that it has diligently made every effort to obtain such materials from all known sources within reasonable reach of the work and further proof, as acceptable to the Director, that the inability to obtain such materials when originally planned did in fact cause a delay in Final Completion of the entire Work which could not be compensated for by revising the sequence of the Contractor's operations. Only the physical shortage of material will be considered as a cause for extension of time, and no consideration

will be given to any claim that material could not be obtained at a reasonable, practical or economical cost or price, unless it is shown to the satisfaction of the City that such material could have been obtained only at exorbitant prices entirely out of line with current rates, taking into account the quantities involved and the usual practices in obtaining such quantities.

No extension of time will be granted for a delay caused by Contractor's staff turnovers, understaffing or insufficient quantity of qualified staff able to perform the necessary work.

The term "shortage of materials," as used in this section, shall apply only to materials, articles, parts or equipment which are standard items and shall not apply to materials, parts, articles or equipment which are processed, made, constructed, fabricated or manufactured to meet the specific requirements of the Contract Documents.

No extensions of time will be granted for delays that have no measureable impact on the completion of the Work (or parts thereof) under the Contract Documents. When extensions of time are granted, they will be limited to the period equivalent to the actual number of Days lost on the critical path or controlling operations of the Construction Schedule, taking into account the extent to which that delay could be decreased by reasonable mitigation measures by the Contractor. All requests for extensions of time must be supported with a critical path analysis showing the critical path and impacts to it. Contractor's failure to submit this analysis will be sufficient cause for denial of any request for a time extension.

Within a reasonable period of time after the Contractor submits the notice and information required by this section, the City will determine whether an extension of time is justified and, if so, the number of days for the extension.

Abnormal weather may be a valid basis for a time extension under the Agreement. "Abnormal Weather" occurs when the number of days of rain above 0.5 inches in a 24 hour

period exceeds the average for such rainfall in a particular month as determined by the National Weather Service. The Contractor will only be entitled to, at most, a time extension for the number of days of rain exceeding the average for that month in the locale where the Work is to be performed. If delays are caused by the Contractor or those for whom the Contractor is responsible, the Contractor will only be entitled to, at most, a time extension for the number of rain days exceeding the average for the month when the Work should have been performed.

In addition, before a time extension may be granted for abnormal weather, the Contractor must establish that the rain either significantly impacted at least sixty percent (60%) of the planned work of the controlling operations for a particular day or prohibited at least five (5) hours of work on the controlling operations planned for that day. Contractor shall employ reasonably methods to mitigate the impact of abnormal weather (i.e., dewatering, protection of site, etc.) The occurrence of rain during non-work hours or having minimal impact to work on the controlling operation shall not constitute a day of abnormal weather.

In the event that the project experiences favorable weather for a particular month (e.g., the number of actual rain days in a month less than that indicated above for allowable rain days per months), the additional float resulting from such favorable weather shall accrue to the project.

Any Contractor claim for damages or additional compensation based on delay shall be limited to only those circumstances where the Contractor has fulfilled each of the following three (3) requirements:

1. Contractor has established its entitlement to a time extension pursuant to the provisions described above regarding delay and extensions to the Work.
2. The delay was caused solely by the City's issuance of changes made pursuant to the

provisions of “Changes in the Work” under Section 3 of these General Conditions or by acts or neglect of the City.

3. The delay was unreasonable under the circumstances and not within the contemplation of the parties.

It is expressly understood and agreed that delays caused by the City will be non-compensable when there are concurrent delays caused by the Contractor. Also, the Contractor shall have no entitlement to additional compensation for any delay where there have been concurrent delays caused by non-compensable delays, including, but not limited to, fire, floods, earthquakes, epidemics, quarantine restrictions, strikes, labor disputes, and freight embargoes.

Contractor’s damages and/or additional compensation for delays will consist solely of the extended costs of maintaining the Contractor’s Work Site presence. The Contractor will not be entitled to any extended home office overhead.

Compensation for idle time of equipment will be determined in the same manner as determinations are made for equipment used in the performance of extra work paid for on a Force Account basis with the following exceptions:

1. The time for which compensation will be paid will be the actual normal working hours during which such delay conditions exists, but in no case will exceed eight (8) hours in any one day.
2. The days for which compensation will be paid will be each calendar day of the work week (defined elsewhere in the Contract Documents) and Legal Holidays, during the existence of such delay, except that when rental of the equipment is paid for under the provisions in Section 3-1.06C, “Force Account Payment – Equipment,” of these General Conditions, no payment will be made for delays in accordance with the

provisions of this section.

Actual loss shall be understood to include no items of expense other than idle time of personnel, cost of extra moving of equipment, and cost of longer hauls. Compensation for idle time of equipment will be determined as provided in this section and compensation for idle time of personnel will be determined pursuant to Section 3-1.06A, "Force Account Payment – Labor," of these General Conditions. No markup will be added in either case for Overhead and profit. The cost of extra moving of equipment and the cost of longer hauls will be paid for as extra work as provided pursuant to "Changes to the Work" elsewhere in the Contract Documents.

6-1.10 **TERMINATION.**

6-1.10A **TERMINATION OF AGREEMENT – CONVENIENCE OF CITY.** The Department reserves the right to terminate the Contract at any time and for any reason if the Director determines that to do so would be in the best interest of the City. Any termination which is not based on the circumstances set forth in Section 6.1-10B below shall be effected by delivery to the Contractor of a Notice of Termination specifying the extent to which performance of Work under the Contract is terminated, and the date upon which such termination becomes effective.

Upon the Contractor's receipt of a written Notice of Termination for convenience, the Contractor shall cease Work as to those portions of the project so terminated and shall undertake the steps outlined in Section 6-1.10B below.

1. Acceptance of the Contract as hereinafter specified shall not relieve the Contractor of responsibility for damage to materials except as follows:
 - a. The Contractor's responsibility for damage to materials for which partial payment has been made as provided in Section 7-1.07, "Progress

Payments,” of these General Conditions and for materials furnished by the City for use in the Work and unused shall terminate when the Director certifies that such materials have been stored in the manner and at the locations he or she has directed.

- b. The Contractor's responsibility for damage to materials purchased by the City subsequent to the issuance of the notice that the Contract is to be terminated shall terminate when title and delivery of such materials has been taken by the City.
- c. When the Director determines that the Contractor has completed the Work under the Contract directed to be completed prior to termination and such other Work as may have been ordered to secure the project for termination, the Contractor will recommend that the City formally accept the Work, and immediately upon and after such Acceptance by the City, the Contractor will not be required to perform any further Work thereon and shall be relieved of its contractual responsibilities for injury to persons or damage to property which occurs after the formal Acceptance of the project by the City.

2. The total compensation to be paid to the Contractor shall be determined by the Director on the basis of the following:

- a. The reasonable cost to the Contractor, without profit, for all Work performed under the Contract, including mobilization, demobilization and Work done to secure the project for termination. Reasonable cost will include a reasonable allowance for project Overhead and general

administrative Overhead not to exceed a total of seven percent (7%) of Direct Costs of such Work.

- b. A reasonable allowance for profit on the cost of the Work performed as determined under subsection (a), provided the Contractor establishes to the satisfaction of the Director that it is reasonably probable that it would have made a profit had the Contract be completed and provided further, that the profit allowed shall in no event exceed four percent (4%) of said cost.
- c. The reasonable cost to the Contractor of handling material returned to the vendor, delivered to the Department or otherwise disposed of as directed by the Director.
- d. A reasonable allowance for the Contractor's administrative costs in determining the amount payable due to termination of the Contract.

All records of the Contractor and the Contractor's Subcontractors, necessary to determine compensation in accordance with this Section, shall be open to inspection or audit by representatives of the Department at all times after issuance of the notice that the Contract is to be terminated and for a period of three (3) years, and such records shall be retained for that period.

After Acceptance of the Work by the Director, the Director may make payments on the basis of interim estimates pending issuance of the Final Statement, when in his or her opinion the amount thus paid, together with all amounts previously paid or allowed, will not result in total compensation in excess of that to which the Contractor will be entitled. All payments, including payment upon the Final Statement, shall be subject to deduction for prior payments and amounts, if any, to be kept or retained under the provisions of the Contract.

In the event that the City terminates this Contract under Section 6-1.10B below and it is determined for any reason that there was not sufficient cause to do so, the City's termination automatically will convert to a termination for convenience under this section and the terms and conditions outlined in this section automatically will be applied to effectuate the Contract termination. Thus, damages to which a Contractor may be entitled as a result of an improper default termination will be limited to the amounts provided for in this section.

The provisions of this section shall be included in all subcontracts.

6-1.10B **TERMINATION OF AGREEMENT - FOR CAUSE.** An

"Event of Default" as referred to in this section shall occur if the Contractor:

1. Fails to maintain progress of the Work in accordance with the requirements of the Contract Documents; or
2. Fails to prosecute the Work or any of its components in accordance with the Contract Documents; or
3. Persistently or repeatedly fails or refuses to supply sufficient properly skilled workers or proper material to permit the performance of the Work in accordance with the Contract Documents; or
4. Fails to make prompt payment to Subcontractors or Suppliers in accordance with the respective agreements between the Contractor and the Subcontractor and Contractor and Supplier; or
5. Fails to comply with applicable laws, ordinances or rules, regulations or orders of a public authority having jurisdiction over the Work; or
6. Abandons, assigns or sublets the Contract without approval of the City; or
7. Becomes bankrupt or is subject to appointment of a receiver on behalf of the

Contractor; or

8. Otherwise is guilty of a substantial breach of a provision of the Contract Documents.

Upon the City's reasonable belief that there has been an Event of Default by the Contractor, the City may elect to give the Contractor written notice thereof. The Contractor thereafter shall cure the default as soon as possible and in no event after ten (10) Days from the Contractor's receipt of the City's written notice.

If the Contractor does not timely cure its default, the City may, without waiver of any of its other rights and remedies, elect to terminate the Contract, or portion thereof.

Upon the City's election to terminate the Contract, or portion thereof, the City shall have the right to complete the Work, or portion involved, by whatever means and methods it deems expedient, including the hiring of others on such terms as the City deems advisable. The City shall have the right to take possession of the Contractor's materials, plant, tools, equipment and property of any kind provided by or on behalf of the Contractor for the purpose of the Work, or a portion of them, without being responsible to the Contractor for wear and tear. The Contractor shall have no rights in such property during its use by the City. The City shall not be required to obtain the lowest prices for completing the Work or a portion of it but shall make such expenditures as, in the City's sole judgment, best accomplish such completion.

The expense of completing such Work or portion thereof, together with a reasonable charge for engineering, managerial and administrative services, as certified by the City, shall be charged to the Contractor, and the expense so charged shall be deducted by the City out of such monies as may be due or may at any time thereafter become due to the Contractor. In case such expense is more than the sum which otherwise would have been payable to the Contractor under the Agreement, then the Contractor or its surety or sureties shall promptly pay the amount of

such excess so due. When the City terminates the Contract under this section, the Contractor shall not be entitled to receive any further payments until the Work is completed and there has been a final settlement of costs of completing the Work covered by such notice of default.

The City will issue to the Contractor a written notice specifying that the Contract, or portion thereof, is terminated. Upon receipt of said written notice and, except as otherwise directed in writing by the City, the Contractor shall:

1. Stop all Work under the Contract; or if partial termination, stop Work relating to the terminated portion of the Agreement;
2. Perform Work the City deems necessary to secure the Work Site for termination including measures to leave the Work Site in a safe condition;
3. Remove equipment from the site of Work, as specified by the City;
4. Take such action as is reasonably necessary to protect materials from damage;
5. Notify all Subcontractors and Suppliers that the Contract or portion thereof is being terminated and that their contracts or orders are not to be further performed unless otherwise authorized in writing by the City;
6. Provide the City with an inventory list of all materials previously produced, purchased or ordered from Suppliers for use in the Work and not yet used in the Work, including its storage location, and such other information as the City may request;
7. Dispose of materials not used in the Work as directed by the Director. It shall be the Contractor's responsibility to provide the City (a) with good title to all materials purchased by the City hereunder, including materials for which partial payment has been made by the City and (b) with bills of sale or other documents of title for such

materials;

8. Subject to the prior written approval of the City, settle all outstanding liabilities and all claims arising out of Subcontractors or orders for materials terminated hereunder. To the extent directed by the City, the Contractor shall assign to the City all rights, title and interests of the Contractor under subcontracts or orders for materials terminated hereunder. The City shall be at liberty to negotiate with and engage any Subcontractors who had contracted with the Contractor for the Work;
9. Furnish the City with the documentation required to be furnished by the Contractor under the provisions of the Contract Documents, including, on projects as to which Federal funds are involved, all documentation required under the Federal requirements included in the Agreement; and
10. Take such other actions as the City may direct.

If only a portion of the Work has been terminated, the Contractor shall perform the remainder of the Work in conformity with the Contract Documents and in such a manner as not to interfere with the City or others in their performance and completion of the portion of the Work which was terminated.

The City may recover from the Contractor the amount of any loss or damage, including consequential damages, suffered or incurred as a result of the Contractor's default.

SECTION 7

ACCEPTANCE AND PAYMENT

7-1.01 **ACCEPTANCE.** When the Contractor believes that the entire Work is fully and finally completed, including the satisfactory completion of inspections, tests, and documentation specified in the Contract Documents and completion of all punch list and clean-up items, the Contractor shall submit to the City a written request for final Acceptance within fifteen (15) Days thereafter, specifying that the Work is fully and finally completed and the date on which it was completed. Within thirty (30) Days after receipt of the request for final Acceptance, the City will inspect the Work and will either:

1. Reject the request for final Acceptance, specifying the defective and/or uncompleted portions of the Work; or
2. Notify the Contractor that the Work will be accepted by Resolution of the City Council of the City of Roseville, and a Notice of Completion will be caused to be recorded by the City Clerk; or
3. Notify the Contractor that the Work has been accepted by the City but no Notice of Completion will be recorded.

If the City rejects the request for final Acceptance, the Contractor shall promptly remedy the defective and/or uncompleted portions of the Work. Thereafter, the Contractor shall again submit a written request for final Acceptance of the Work, specifying a new date based on the date the defective and/or uncompleted portions of the Work were corrected. Thereafter, the foregoing procedure shall apply successively until the City has verified that the Work is fully and finally completed and accepted the Work by Resolution of the City Council or by written

notification from the Director. Immediately upon such Acceptance, the Contractor shall be relieved of the duty of maintaining the Work as a whole.

All warranties commence upon final Acceptance of the Work. The City's final Acceptance of the Work shall not be construed as an acceptance by the City of any latent defects discovered with regard to the Contractor's work. Furthermore, Contractor's obligations under Section 5-1.22 "Responsibility for Damage and Indemnification" shall still remain applicable after the City's grant of final Acceptance of the Work.

Prior to final Acceptance, the Contractor shall submit to the City the Record Documents and Operation and Maintenance Manuals as specified in the Contract Documents.

7-1.02 **SCOPE OF PAYMENT.** The Contractor shall accept the compensation provided in the Contract as full payment for furnishing all labor, materials, tools, equipment, and incidentals necessary to the completed Work and for performing all Work contemplated and embraced under the Contract; also for loss or damage arising from the nature of the Work, or from the action of the elements, or from any unforeseen difficulties which may be encountered during the prosecution of the Work until the Acceptance by the Director and for all risks of every description connected with the prosecution of the Work, also for all expenses incurred in consequence of the suspension or discontinuance of the Work as provided in the Contract; and for completing the Work according to the Contract. Neither the payment of any estimate nor of any retained percentage shall relieve the Contractor of any obligation to make good any defective Work or material.

No compensation will be made in any case for loss of anticipated profits.

7-1.03 **NOTICE OF POTENTIAL CLAIM.** The Contractor shall not be entitled to the payment of any additional compensation for any act or failure to act by the City,

including failure or refusal to issue a Change Order, or for the happening of any event, thing, occurrence or other cause unless the Contractor has given the City due written Notice of Potential Claim as hereinafter specified, provided, however, that compliance with this Section 7-1.03 shall not be a prerequisite as to matters within the scope of the notice provisions in Section 6-1.07, "Time of Completion," or the notice provisions in Section 6-1.08, "Liquidated Damages," of these General Conditions, nor to any claim which is based on differences in measurement or errors of computation as to correct quantities.

The written Notice of Potential Claim shall set forth the reasons for which the Contractor believes additional compensation will or may be due, the nature of the costs involved, and, insofar as possible, the amount of the potential claim. The said Notice as above required must have been given to the Director prior to the time that the Contractor shall have performed the Work giving rise to the potential claim for additional compensation, if based on an act or failure to act by the Director, or in all other cases within seven (7) Days after the happening of the event, thing, occurrence or other cause giving rise to the potential claim.

If the Notice of Potential Claim does not include complete information about the claim or the parties do not execute a Contract Change Order in connection with the Notice of Potential Claim, Contractor shall submit complete information about its claim for additional compensation and/or extension of time for performance within fifteen (15) Days after such work is performed. Failure to provide written notice of claim prior to undertaking such work or failure to timely submit a complete and specific information about the claim for additional compensation and/or extension of the time for performance shall be deemed a waiver and abandonment of such claim.

If there is a dispute over any claim, the Contractor shall continue to Work during the dispute resolution process in a diligent and timely manner as directed by the City, and shall be

governed by all applicable provision of the Agreement.

The Contractor shall maintain cost records of all Work that is the basis of any dispute. On a daily basis, Contractor shall submit to City completed daily forms, the format of which will be acceptable to the City, with respect to the Contractor's costs of performing the disputed work. These daily forms shall itemize all of Contractor's costs in performing the disputed work, including, but not limited to, all costs relating to materials, labor and equipment with respect to the disputed work. These daily forms shall provide names or identification and classification of affected workers, the hourly rate of pay and hours worked, and also the size, type, and identification number of equipment and hours operated. Said daily work forms shall be duly signed and verified by the Contractor or its authorized representative. The City's receipt of the Contractors' daily forms shall not constitute an approval of the Contractor's claim. Contractor's failure to submit the daily forms on a daily basis shall constitute a waiver of the Contractor's right to claim any additional compensation for the disputed work.

Each Contractor claim shall include full and complete information concerning the Claim. Contractor shall provide a clear, concise recital of the basis, upon which the claim is asserted, including a designation of the provisions of the Contract Documents upon which the claim is based. Contractor shall also include a statement as to the amount of time and/or compensation sought pursuant to the claim; if Contractor's claim arises from an ongoing occurrence, Contractor shall so state in its claim, including a description of the specific Work activities affected by the claim. All costs, expenses or damages and extensions of time claimed shall be described in reasonable detail under the circumstances together with complete supporting documentation.

The City will review any timely Notice of Potential Claim and supporting information

submitted by Contractor. In conducting this review, the City shall have the right to require the Contractor to submit such additional or supporting documents, data and other information as the City may require.

If an agreement can be reached which resolves the Contractor's claim, the parties will execute a Contract Change Order to document the resolution of the claim. If the parties cannot reach agreement with respect to the Contractor's claim, the Contractor shall still be obligated to comply with the claim identification provisions identified in these General Conditions, including but not limited to Section 7-1.04.

It is the intention of this Section 7-1.03 that differences between the parties arising under and by virtue of the Contract be brought to the attention of the Director at the earliest possible time in order that such matters may be settled, if possible, or other appropriate action promptly taken. The Contractor hereby agrees that it shall have no right to additional compensation for any Claim that may be based on any such act, failure to act, event, thing or occurrence for which no timely written Notice of Potential Claim as herein required was filed.

7-1.04 **CLAIMS.** Contractor must submit all Claims, for which it has previously submitted a Notice of Potential Claim, prior to Acceptance of the Work. Each such Claim must be sent to the City by registered mail or certified mail with return receipt requested and must contain reasonable documentation to support the Claim.

Upon receipt of a Claim, the City shall conduct a reasonable review of the Claim and, within a period not to exceed forty-five (45) Days, or such further time as mutually agreed upon or necessary pursuant to Public Contract Code Section 9204, the City shall provide the Contractor a written statement identifying what portion of the Claim is disputed and what portion is undisputed. If the City does not respond to a Claim from the Contractor within the time

specified herein, such Claim shall be deemed rejected in its entirety.

Any payment due on an undisputed portion of the Claim shall be processed and made within sixty (60) Days after the City issues its written statement.

If the Contractor disputes the City's written response, or if the City does not respond within the time specified herein, the Contractor may demand in writing an informal conference to meet and confer for settlement of the issues in dispute. Upon receipt of a demand in writing sent by registered mail or certified mail, return receipt requested, the City shall schedule a meet and confer conference within thirty (30) Days for settlement of the dispute.

Within ten (10) business days following the conclusion of the meet and confer conference, if the claim or any portion of the claim remains in dispute, the City shall provide the Contractor a written statement identifying the portion of the Claim that remains in dispute and the portion that is undisputed. Any payment due on an undisputed portion of the Claim shall be processed and made within sixty (60) Days after the City issues its written statement. Any disputed portion of the Claim, as identified by the Contractor in writing, shall be submitted to nonbinding mediation, with the City and the Contractor sharing the associated costs equally. The City and the Contractor shall mutually agree to a mediator within ten (10) business days after the disputed portion of the Claim has been identified in writing. If the parties cannot agree upon a mediator, each party shall select a mediator and those mediators shall select a qualified neutral third party to mediate with regard to the disputed portion of the Claim. Each party shall bear the fees and costs charged by its respective mediator in connection with the selection of the neutral mediator. If mediation is unsuccessful, the parts of the Claim remaining in dispute shall be resolved in accordance with Section 7-1.05 below.

7-1.05 **DISPUTE RESOLUTION PROCEDURE.** All Claims not resolved

pursuant to Section 7-1.04, shall be resolved pursuant to Public Contract Code Section 10240, et seq.

7-1.06 **STOP PAYMENT NOTICES.** The City, by and through the Department or other appropriate office or officers, may at its option and at any time retain out of any amounts due the Contractor, sums sufficient to cover claims, filed pursuant to Civil Code Section 9350, et seq., including an amount to provide for the reasonable cost of any litigation thereunder.

7-1.07 **PROGRESS PAYMENTS.** Within fifteen (15) Days after the effective date in the Notice to Proceed, but in any event prior to Contractor's first Application for Payment, the Contractor shall submit to the City a detailed Schedule of Values.

Upon its approval, the Schedule of Values will form a basis for determining the compensation payable to the Contractor based on its actual progress of Work with respect to each Lump Sum bid item. The City, prior to any progress payment being made, must approve the Schedule of Values.

At the Director's discretion the approved Schedule of Values may be used as the basis for calculating the adjustment in compensation for a lump sum bid item due to changes ordered by the Director. When an ordered change increases or decreases the quantities shown in an approved Schedule of Values, at the Director's discretion, the adjustment in compensation may be determined in the same manner specified for increases and decreases in the quantity of a bid item of work in accordance with Section 3-1.05(B), "Contract Price Adjustment," of these General Conditions.

The Contractor once in each month shall submit an Application for Payment, for approval by the Director. Contractor's Applications shall be based on the Schedule of Values submitted to the City. These applications shall be supported by: (1) documentation requested by the City to

substantiate the payment request; (2) statutory releases from Contractor and all Subcontractors and suppliers pursuant to Civil Code Sections 8132 and 8138; and (3) certified payroll records for the period for which payment is requested. Specifically, the Contractor will submit conditional waivers upon progress payment executed by all contractors and suppliers that will be receiving sums sought in the instant payment request and also submit unconditional waivers upon progress payment executed by all contractors and suppliers that have been paid to the date of the payment request. The Contractor shall certify that the Work for which payment is requested has been accomplished. When requested by the City, the Contractor shall submit receipts, invoices and other documentation that the City requires to be furnished for purpose of evaluating the application.

The City will pay the Contractor within thirty (30) Days after its receipt of an undisputed and properly submitted Application for Payment, after deducting all previous payments, retention, and other sums as described in the Contract Documents. Within seven (7) Days of its receipt of the Contractor's Application for Payment, the City will determine whether it complies with the provisions of the Contract Documents. As appropriate, the City will return the application to the Contractor accompanied by a document prepared by the City setting forth the reasons for the rejection. Thereafter, the Contractor shall correct and resubmit the Application for Payment. Progress payments may be withheld for Work that is not performed in accordance with the Contract Documents.

The City may deduct the following from each progress payment:

1. An amount equal to one hundred and twenty-five percent (125%) of the amount claimed under any stop payment notice or other lien filed against the Contractor, which includes an amount to provide for the reasonable cost of any litigation

thereunder.

2. Any Liquidated Damages or Assessments that have accrued as of the date of the Application for Payment.
3. Any sums expended by the City in performing any of the Contractor's obligations under the Agreement that the Contractor has failed to perform.
4. Any other sums that the City is entitled to recover from the Contractor under the terms of the Contract including damages to the City's property.
5. The failure of the City to deduct any of the above identified sums from a progress payment shall not constitute a waiver of the City's right to such sums.

No such estimate or payment shall be construed to be an acceptance of any defective Work or improper materials.

Under no circumstances will the City make payment to unlicensed Contractors. As a condition of payment, the Contractor is required to maintain the applicable Contractor's license as identified in the Notice to Contractors for the duration of the Work.

7-1.08 **PAYMENT FOR MATERIALS AND EQUIPMENT ON HAND.**

Partial payments may be made to the extent of seventy-five percent (75%) of the cost of materials and equipment plus delivery to be incorporated in the Work, provided that such materials and equipment meet the requirements of the Contract Documents and are delivered to acceptable sites on the plant site or at other sites in the vicinity that are acceptable to the City and only with the prior written approval by the City. Such delivered costs of stored or stockpiled materials and equipment may be included in the next progress payment after the following conditions are met:

- A. Equipment and materials will only be eligible if given conditional or final

Acceptance by the Director and are in apparent compliance with favorably reviewed Submittals.

B. Only equipment or materials which have received favorable review of Shop Drawings will qualify.

C. The material or equipment has been stored or stockpiled adequately protected against damage in a manner acceptable to the Director at an approved site.

D. The Contractor has furnished the Director with acceptable evidence of the quantity and the quality of such stored or stockpiled materials or equipment with identification of where they will be incorporated into the project with Specification reference.

E. The Contractor has furnished the Director with satisfactory evidence that the material or equipment and transportation costs have been paid.

F. The Contractor has furnished the City legal title (free of liens or encumbrances of any kind) and lien releases to the material or equipment so stored or stockpiled.

G. The Contractor has furnished the City evidence that the material or equipment so stored or stockpiled is insured against loss by damage to or disappearance of such materials at any time prior to use in the Work.

It is understood and agreed that the transfer of title and the City payment for such stored or stockpiled materials or equipment shall in no way relieve the Contractor of its responsibility for furnishing and placing such materials or equipment in accordance with the requirements of the Contract Documents.

In no case will the amount of progress payments for materials or equipment on hand exceed the Contract Price for such materials or equipment or the Contract Price for the Contract item in which the material is intended to be used.

No partial payment will be made for stored or stockpiled living or perishable plant

materials.

The Contractor shall bear all costs associated with the progress payment of stored or stockpiled materials or equipment in accordance with the provisions of this Section.

7-1.09 **RETENTION ON PROGRESS PAYMENTS.** From each progress payment estimate, five percent (5%) will be deducted and held in retention by the City. The remainder, less any deductions described in Section 7-1.07, "Progress Payments," of these General Conditions, will be paid to the Contractor as progress payments.

Pursuant to Public Contract Code Section 22300, the successful Bidder may submit Securities in lieu of retention payments by the City. Upon the Contractor's request, the City will make payment of funds withheld from progress payments, pursuant to the requirements of California Public Contract Code Section 22300, if the Contractor deposits in escrow with the City or with a bank acceptable to the City, securities eligible for investment under California Government Code Section 16430, bank or savings and loan certificates of deposit, interest bearing demand deposit accounts, standby letters of credit, or any other security mutually agreed to by the Contractor and the City, upon the following conditions:

1. The Contractor shall bear the expenses of the City and the escrow agent in connection with the escrow deposit made.
2. Securities or certificates of deposit to be placed in escrow shall be of a value at least equivalent to the amounts of retention to be paid to the Contractor pursuant to this section.
3. Contractor shall enter into an escrow agreement satisfactory to the City, which agreement shall be substantially similar to the form provided in California Public Contract Code section 22300.

4. The Contractor shall obtain the written consent of the surety to such agreement.

7-1.10 **FINAL PAYMENT.** Final payment will be made only after Contractor has achieved Final Completion of the Work pursuant to the provisions of Section 7-1.01, “Acceptance,” of these General Conditions. Before final payment can be made, the Contractor shall have furnished the City with the following:

1. All Record Documents, catalogues, instruction sheets and information as required by the Contract Documents.
2. Conditional Waivers and Releases Upon Final Payment executed by Contractor and all Subcontractors and Suppliers, as provided by Civil Code Section 8136. Unconditional Waivers and Releases Upon Final Payment, as provided in Civil Code Section 8138, executed by Contractor and all Subcontractors and Suppliers, must be provided for all Subcontractors and Suppliers that have been paid in full.

Within thirty (30) Days of the date of the City’s Acceptance of the Work, the Contractor shall prepare and submit a Final Invoice, showing the proposed total amount due the Contractor, segregated by Bid item quantities, Change Order Work, and other basis for payments; deductions made or to be made for prior payment; and amounts previously retained. Prior invoices and payments shall be subject to correction in the proposed Invoice for Final Payment. Payments to the Contractor will be made only for actual quantities of the Contract items of work constructed in accordance with the Contract Documents.

The City will review the Contractor’s proposed Final Invoice and necessary changes or corrections will be forwarded to the Contractor. Within ten (10) Days thereafter, the Contractor

shall submit a revised proposed Final Invoice incorporating changes or corrections made by the City together with any new claims resulting therefrom. Upon approval by the City, the corrected proposed Final Invoice will become the approval Final Invoice.

If agreements are reached on all questions regarding the Final Invoice, the City will pay the entire sum found due on the approved application. However, the City will withhold sums sufficient to pay all unsettled claims for which stop payment notices have been filed pursuant to Section 9350, et seq. of the California Civil Code, together with the reasonable cost of any litigation thereunder.

Final payment will be made within thirty (30) Days after receipt of an approved Final Invoice and other required Submittals referenced above or within sixty (60) Days after Acceptance of the work by the City, whichever is later, provided, however, that if an approved Final Invoice has not been submitted within sixty (60) Days after Acceptance of the Work by the City, the City may elect to make payment of sums not in dispute without prejudice to the right of either the City or the Contractor in connection with such disputed sums. Notwithstanding the foregoing, if a Notice of Completion is recorded, final payment shall not be made prior to the expiration of the thirty-five (35) calendar day lien period. The start of this lien period is the date the Placer County Recorder's Office records the Notice of Completion.

The City may withhold from the Final Payment an amount not to exceed one hundred fifty percent (150%) of any amount in dispute between the City and the Contractor.

The making of Final Payment shall not operate to release the Contractor or its sureties from obligations arising under the Contract, the Contract bonds and warranties as herein provided. Specifically, the making of final payment shall not constitute a waiver and release of claims by the City arising from:

1. Unsettled or future liens;
2. Failure of the Work to comply with the requirements of the Contract Documents;
3. The terms of any warranties required by or contained in the Contract Documents;
4. The right to any insurance proceeds or the right to make any insurance or bond claims;
5. Any claims with respect to Contractor's obligations of indemnity with respect to claims asserted by third parties; or
6. Any latent deficiencies with the Work or Contractor's fraud.

7-1.11 **CLERICAL ERRORS.** Notwithstanding the provisions of Section 7-1.10, "Final Payment," of these General Conditions, for a period of three (3) years after Acceptance of the Work, all estimates and payments made pursuant to said Section 7-1.10, are subject to correction for clerical errors in the calculations involved in the determination of quantities and payments. The Contractor and the City agree to pay to the other any sum due under the provisions of this Section 7-1.11, provided, however, if the total sum to be paid is less than \$100, no such payment shall be made.

7-1.12 **WARRANTY.** Notwithstanding inspections and Acceptance by the City of Work furnished under the Contract Documents, the Contractor hereby unconditionally guarantees that all materials and equipment furnished will be of good quality and new, that the Work will be free from defects in workmanship and materials and that the Work will conform to the requirements of the Contract Documents. Work not conforming to these requirements, including substitutions not properly approved and authorized, may be considered defective.

This warranty by the Contractor is in addition to any warranties or guarantees required elsewhere in the Contract Documents. This warranty shall be in effect notwithstanding any disclaimers, or limiting or conditional terms contained in such separate warranties furnished by manufacturers or suppliers.

The Contractor hereby agrees to repair or replace any and all Work, together with any other adjacent Work which may be displaced in so doing, that may prove to be not in accordance with the requirements of the Contract or that may be defective in its workmanship or material during the greater of a period of one (1) year after Acceptance of the Work by the City or the period specified in the Special Conditions, without any expense whatsoever to the City, ordinary wear and tear and unusual abuse or neglect excepted.

The Contractor further agrees, that within ten (10) Days after being notified in writing by the Department of any Work not in accordance with the requirements of the Contract Documents or of any defects in the Work, the Contractor will commence and prosecute with due diligence all Work necessary to fulfill the terms of this warranty, and to complete such Work within a reasonable period of time. In the event Contractor fails to comply, it does hereby authorize the Department to proceed to have such Work done at the Contractor's expense and the Contractor will honor and pay the cost and charges therefore upon demand. The Department shall be entitled to all costs and expenses, including reasonable attorneys' fees, necessarily incurred upon the Contractor's refusal to honor and pay the above costs and charges.

All warranties set forth in the Contract Documents shall be deemed cumulative and not alternative or exclusive. Nothing contained in this section shall be construed to establish a period of limitation with respect to any other obligation, which Contractor has under the Contract Documents or under any separate warranty or guaranty required thereby. The establishment of a

specific warranty period relates only to the specific obligation of Contractor to correct defective Work, and it has no relationship to the time within which its obligation to comply with the Contract Documents or applicable provision of law may be sought to be enforced, nor to the time within which proceedings may be commenced to establish Contractor's liability with respect to its obligations other than specifically to correct the Work. Without limiting the foregoing, it is understood and agreed that Contractor shall remain responsible for latent defects with its work, regardless of the expiration of any warranty period set forth in the Contract Documents.

7-1.13 **WARRANTY OF TITLE.** No material, supplies, or equipment for the Work under this Contract shall be purchased subject to any chattel mortgage, security agreement, or under a conditional sale or other agreement by which an interest therein or any part thereof is retained by the seller or supplier. The Contractor warrants good title to all material, supplies, and equipment Installed or incorporated in the Work and agrees upon completion of all Work to deliver the Premises, together with all improvements and appurtenances constructed or placed thereon by it, to the City free from any claim, liens, security interest, or charges, and further agrees that neither the Contractor nor any person, firm, or corporation furnishing any materials or labor for any Work covered by this Contract shall have any right to a lien upon the Premises or any improvement or appurtenances thereon. Provided, that this shall not preclude the Contractor from Installing metering devices and other equipment of utility companies, the title of which is commonly retained by the utility company. In the event of the Installation of any such metering device or equipment, the Contractor shall advise the City as to the legal owner thereof. Nothing contained in this paragraph, however, shall defeat or impair the right of such persons furnishing materials or labor under any bond given by the Contractor for their protection or any rights under any law permitting such persons to look to funds due the Contractor in the hands of the City.

The provisions of this paragraph shall be inserted in all subcontracts and material Contracts, and notice of its provisions shall be given to all persons furnishing materials for the Work when no formal Contract is entered into for such materials.

SUPPLEMENTAL CONDITIONS

Project: MIKE SHELLITO INDOOR POOL
REPLASTERING PROJECT

Scope of Supplemental Conditions

1. The Work shall be performed in accordance with the General Conditions and Department Standards, except as the General Conditions may be modified by the following additional City Standards, incorporated herein by this reference, if so indicated.

	COMMUNITY DESIGN GUIDELINES 311 Vernon Street, Roseville, CA 95678
	SPECIFICATIONS FOR COMMERCIAL CONSTRUCTION (ELECTRIC) 2090 Hilltop Circle, Roseville, CA 95747
X	PARKS CONSTRUCTION STANDARDS 316 Vernon Street, Suite 400, Roseville, CA 95678
X	DESIGN AND CONSTRUCTION STANDARDS 311 Vernon Street, Roseville, CA 95678
	OTHER

Above documents are available at: www.roseville.ca.us.

2. Numbering in these Supplemental Conditions conforms to that in the General Conditions. The existence of a section in these Supplemental Conditions means that the corresponding section in the General Conditions is modified in some respect. Unless otherwise specified, the modified General Condition is deleted entirely and the provisions of these Supplemental Conditions are substituted.

SECTION 1. DEFINITIONS AND TERMS

1-1.24 **DEPARTMENT.** Section 1-1.24 of the General Conditions is amended to include the following:

The Department for Contract Administration is the Parks, Recreation & Librarians Department of the City of Roseville.

FOR COUNCIL APPROVAL
NOT FOR BIDDING

SECTION 2. CONTROL AND SCOPE OF THE WORK

2-1.08 **SUBMITTALS.** Section 2-1.08 of the General Conditions is amended to include the following:

The time allowed for review of each submittal is 10 Days after receipt of the submittal by the Director.

FOR COUNCIL APPROVAL
NOT FOR BIDDING

SECTION 3. CHANGES IN THE WORK

There are no amendments to the General Conditions.

FOR COUNCIL APPROVAL

SECTION 00 31 46 PERMITS

PART 1 - GENERAL

1.01 General Requirements

- A. The requirements set forth in the General Conditions shall be in addition to the standards provided herein.
- B. The requirements set forth in the Supplemental Conditions shall be in addition to the standards provided herein.
- C. The intent of this Section is to furnish bidders with the known list of required permits for the Work under the Contract Documents. Bidders should note that the list is not necessarily complete and that additional requirements may exist or arise.

1.02 Permits

- A. The Contractor shall obtain copies of the following permits from the Project Manager. Copies of these shall be obtained prior to start of work and shall be kept on the jobsite.
 - 1. State Water Resources Control Board General Permit for Discharges of Storm Water Associated with Construction Activity:

The City has prepared and submitted the SWPPP and Notice of Intent (NOI) to the State Water Resources Control Board. Prior to starting construction, Contractor shall obtain coverage under and comply with the General Permit for Discharges of Storm Water Associated with Construction Activity (Construction General Permit Order 2009-0009-DWQ). The City will prepare and submit the NOT when permanent BMP's have been installed.

- 2. City of Roseville Department of Development Services, Grading Permit for all Work related to this project.
- B. Contractor shall comply with the conditions of these permits, and will be solely responsible for all costs associated with meeting permit conditions unless specifically specified otherwise in these Contract Documents.
- C. A copy of the permit is included in the Appendix of the Project Manual. A trench/excavation permit must be on file with the City. Submit a copy of the notification letter to CAL OSHA, which outlines the project, and contracted scope of work.

SECTION 01 10 00

SUMMARY OF WORK

PART 1 - GENERAL

1.01 General

- A. The requirements set forth in the General Conditions shall be in addition to the standards provided herein.
- B. The requirements set forth in the Special Conditions shall be in addition to the standards provided herein.

1.02 Project Description

- A. Project Name and address:

Central Park – 10200 Fairway Drive, Roseville CA
Crabb Park – 1000 Scarborough Drive, Roseville CA
Maidu Park – 1550 Maidu Drive, Roseville CA

- B. Project description/scope of work:

The scope of this project includes ... The addition of warning track and outfield fence for Central Park and Crabb Park, and perimeter fencing for Maidu Park soccer fields and aggregate walking shoulder along bike trail. Renovation of the irrigation system to reflect the fence and warning track additions at all locations.

- C. The Contractor, prior to submission of his bid, shall visit the site and become familiar with the physical site conditions, the plans and specifications. All existing site conditions, apparent in a detailed, on-site inspection, shall be a part of the project. Submission of a bid shall represent the Contractor's acknowledgment of the existing site conditions and its effect on the implementation of the contract documents.

1.03 Engineering

- A. Field Engineering, as a part of this contract, shall include:
 - 1. Layout of the work and establishment of lines and grades.
 - 2. Said work to be performed by a California Registered Civil Engineer or a California licensed Land Surveyor.
 - 3. When discrepancies between the drawings and actual site conditions are discovered, notify the Inspector for instruction on how to proceed.
 - 4. All work shall:
 - a) Establish indicated layout in relation to the property survey and existing reference points.

- b) Establish and preserve permanent reference points during the course of construction.
- c) Set locations and elevations of all site elements as required for proper completion of the work.

1.04 Permits, Fees and Notices

- A. The Contractor and/or his assigned Subcontractors shall obtain any and all required permits (beyond those provided in the Appendix) from all governing authorities, including other City Departments, prior to start of construction.

1.05 Construction Plans

- A. Any discrepancies or omissions found in the Contract Documents shall be reported to the City's project manager immediately. The City's project manager will clarify discrepancies or omissions, in writing, within a reasonable time.
- B. In resolving inconsistencies among two or more sections of the Contract Documents, precedence shall be given in the following order:
 - 1. Notice to Contractors
 - 2. Special Provisions
 - 3. City of Roseville Parks Construction Standards
 - 4. City of Roseville Design and Construction Standards
 - 5. DrawingsAddenda shall take precedence over all sections referenced therein. Figure dimensions on Drawings shall take precedence over scale dimensions. Detailed Drawings shall take precedence over general Drawings.

1.06 Definitions

- A. The term "accepted" where used within, shall mean accepted in writing by the City of Roseville's Project Manager.
- B. The term "Inspector", where noted, shall mean the project representative, appointed by the City of Roseville, who will oversee the project on a day-to-day basis.
- C. The term "Project Manager", where noted, shall mean the project representative appointed by the Parks Department.
- D. The term "Consultant", where noted, shall mean the prime Consultant listed on the cover sheet of these Specifications.
- E. The term "accepted equal", where used herein, shall mean the equal in the opinion of the Project Manager, in consultation with the Consultant, when necessary, and as accepted in writing by the Project Manager.
- F. The term "Project Owner", where used herein, shall mean the landowner or developer.
- G. The term "provide", where used herein, shall mean furnish and install complete.

February 2023

- H. The term “as selected”, where used herein, shall mean as selected by the Consultant and as accepted by the Project Manager.
- I. The term “substantially complete”, where used herein, shall mean the state of which the project can be used in the manner of which it is intended with the exception of minor items as determined by the Project Manager.
- J. See Section 1 of the General Conditions for additional definitions and terms.

1.07 Standards

- A. Numerous standards are referenced in these contract documents. The referenced standards shall be the current edition as of the date of these contract documents. Also, see Section 4 - 1.02 of the General Conditions.
- B. The codes adopted by the City, County, State and federal agencies shall govern minimum requirements for this project. Where codes conflict with these Specifications, the more stringent shall apply, and such conflicts shall be brought to the attention of the Project Manager. Caltrans Standards shall be applied where specifically referenced. In the absence of specific reference requirements in the contract documents, the applicable codes shall govern.
- C. In addition to the standards noted in individual sections of these Specifications, standards of the following organizations shall be noted by initials only.
 - 1. ANSI: American National Standards Institute.
 - 2. ASTM: American Society for Testing and Materials.

1.08 Submittals

- A. All submittals shall be submitted at one time within ten (10) working days from issuance of Notice to Proceed. The review time for submittals shall be as noted in Section 2 - 1.04 of the Special Conditions. Items returned for re- submittal shall be returned to the City within two weeks
- B. The Contractor shall include a cover sheet indicating the following (A sample is provided in Section 5: Forms):
 - 1. Drawing sheet or specification section reference (by section, paragraph and sub-paragraph numbers);
 - 2. Item description;
 - 3. Indication whether this item is “as specified” or “proposed substitution” and
 - 4. A space for itemized response summary, e.g. “reviewed” or “resubmit”.
- C. Contractor shall provide submittals electronically in PDF file format and physical product samples as required in specifications. It shall be the Contractor’s responsibility to ensure that the summary sheet is included in the submittal package. Incomplete submittal packages (i.e., the lack of a summary sheet or lack an appropriate product sample) will not be reviewed.
- D. Proposed substitution requests must include a comparison between the originally specified item and the proposed substitute. The burden of proof of

compliance for proposed substitutions with project requirements rests with the Contractor. Coordination of the installation of accepted substitutions, including incidental changes/modifications to accommodate proposed products shall be at no additional cost to the Owner.

- E. Where required in specified Section of these Specifications, submittals shall include proof of order of site furnishings, play equipment or other materials within two weeks (ten working days) of receipt of the returned, approved submittal. Submittals of orders shall be made at one time. Exceptions will be considered, with justification.

1.09 Tests

- A. In addition to Section 4 - 1.03 of the General Conditions, testing and inspections may be performed by a private testing laboratory. The testing laboratory, provided by the City, shall be under the direction of a California registered civil engineer. All work shall conform to requirements set forth by ASTM B329, and shall be acceptable to the City.
- B. Copies of the laboratory reports/results of each test or inspection shall be provided to the Project Manager, Inspector and Contractor.

1.10 Temporary Facilities

- A. Sanitary provisions shall be the responsibility of the Contractor. Existing restroom facilities shall be not utilized by the Contractor, his Sub-contractors, or employees thereof, unless specifically accepted by the Project Manager. Provide chemical toilets or water closets and urinals connected to the sewer in a location accepted by the Project Manager.
- B. Barricades shall be the responsibility of the Contractor and shall be erected as necessary to protect the property, the construction and the public from hazards due to construction.
- C. Signs, other than those identified in these Specifications, shall be prohibited. Notices, required by law, shall be posted and maintained.

1.11 Utilities

- A. All utility fees, including, but not limited to, connection fees, installation fees, meters, monthly service fees and cost of utilities used during the course of construction and establishment are considered a direct cost and are the responsibility of the Contractor until project acceptance by City Council.

1.12 Dust/Noise Control Requirements

- A. Dust and other air pollution nuisances on or adjacent to the site shall be abated, per Section 2 - 1.07 of the General Conditions. Dirt shall not be allowed to accumulate on streets or sidewalks nor be washed into sewer.

February 2023

- B. Noise from construction operations shall be kept to a minimum. Allowable hours of operations shall be from 7 a.m. to 7 p.m. Monday through Friday. Work on weekends and holidays must be approved by the project manager. Work on weekends and holidays shall not begin before 8 a.m. and must be completed by 8 p.m.

1.13 Tree Replacement Schedule

- A. Trees damaged or removed without prior approval shall be replaced at an inch per inch basis on-site, except otherwise accepted. New stock shall follow the table provided:

Plant Size	Inch Value
3 Five Gallon Stock	One Inch
1 Fifteen Gallon Stock	One Inch
1 24" Box Stock	Two Inches
1 36" Box Stock	Three Inches

1.14 Inspection of Construction

- A. In addition to the routine inspections performed by the Parks Inspector, portions of work may be inspected by the other city departments. Notify the Parks Inspector and Project Manager a minimum of 48 hours prior to date of inspection.
- B. The Parks Inspector shall be the main line of communication between the site superintendent, the project manager and other City department inspectors. Changes in scope of work or standards shall be approved by the project manager.
- C. Refer to the parks inspection record. This shall be issued at the Pre-Construction meeting and shall be utilized by the Contractor throughout the course of construction. A completed "hard card" shall be submitted to the Project Manager along with required turn in items (See 1.19 this Section) upon final acceptance of the project. The Notice of Completion shall not be filed until all record documents have been received and accepted.

1.15 Adverse Impacts to Site Conditions Due to Construction

- A. Impacts that affect the site conditions to the detriment of the park or streetscape construction or long term viability of the site shall be mitigated by the contractor prior to acceptance of the project. Such impacts shall include, but are not limited to:
1. Soil compaction in non-structural areas;
 2. Diesel or gas fuel leaks/spillage;
 3. Buried concrete or other construction debris;
 4. Hazardous material contamination;

5. Lime treatment in planting areas;
6. and more.

1.16 Pre-final (Punch List) Review

- A. Notify, in writing, to the Parks Construction Inspector, that the work is substantially complete. Substantially complete is defined as “the state of work where it may be used in a suitable and intended manner with exception of minor corrections”. Partial acceptances will not be granted. Items to be reviewed as a part of substantial completion include:
 1. All construction items
 2. Installation of all site furnishings, including lights and signs
 3. Seeding or sodding of all turf areas
 4. All planting, including weeding of planted areas
 5. The irrigation system is fully functioning as designed and as confirmed by the landscape irrigation audit.
- B. Within five working days of receipt of notification, the Parks Construction Inspector will confirm substantial completion. The Parks Construction Inspector will schedule the punch list walk (pre-final review) within five working days after the project has been determined as substantially complete. A formal punch list will be developed at the punch list walk. The Parks Construction Inspector will provide a copy of the formal punch list to the Contractor within five working days of punch list walk. Performance of the punch list walk does not automatically trigger the start of establishment.
 1. If at any point during this review that it becomes apparent that the Contractor has not properly prepared for the site review, the inspection shall immediately be terminated and re-scheduled at such a time as the site has been readied for a review. Any costs for the re-scheduling of the review shall be the responsibility of the Contractor. Lack of site preparation could delay start of the establishment period.
- C. Concurrent to the pre-final review, the City will make a formal request for all required turn-in items to be submitted to the City. All turn-in items shall be submitted to the City (single point of contact), at one time and only by appointment. Do not drop off the turn-in items at the front counter and without an appointment.
- D. Once all turn-in items have been confirmed to be complete and accurate, the establishment period may be considered to begin. The City shall have sole discretion in determining the appropriateness of the commencement of the establishment period and shall notify the developer/contractor in writing of the start and end dates. Portions of the project will not be accepted for establishment prior to the substantial completion of the entire project.

February 2023

1.17 Establishment Period

- A. The duration of the establishment period shall be:
 - 1. For sodded turf in parks: Forty-five (45) calendar days commencing between March 1st and October 31st and sixty (60) calendar days commencing between November 1st and February 28th, and until the Notice of Completion (NOC) for City-built parks has been approved by the City Council, or the deed transferring property ownership, has been recorded at the County for Developer-built parks.
- B. Active maintenance is required throughout the entire establishment period. Active maintenance is defined as:
 - 1. All areas within the project site shall be protected against damage including vandalism, erosion, trespass, rodents and other acts. Immediately repair all damaged areas.
 - 2. All walkways and paved areas shall be kept clean and all debris within planting and turf areas shall be immediately removed.
 - 3. Automatic irrigation controller shall be fully utilized and irrigation system monitored and adjusted as described in Section 32 84 00 4.03.
 - 4. All plant and turf maintenance as described in Section 32 90 00 3.11
- C. Prior to the start of the final thirty (30) days of establishment:
 - 1. All punch list items shall be completed.
 - 2. All certifications and testing shall be completed.
 - 3. All plantings and turf shall be thriving and in a healthy condition.
 - 4. The lack of active maintenance prior to the final thirty (30) days may constitute a delay in the start of the final thirty (30) days of the establishment period.

1.18 Final Review

- A. One (1) week prior to the end of the establishment period, a final on-site review shall be conducted to review project readiness for final turn-over. All punch list items must be satisfactorily addressed prior to the final review.
- B. The project shall be prepared and cleaned per Section 2 - 1.12 of the General Conditions; the turf shall be mowed; and the irrigation heads shall be adjusted appropriately one day prior to the scheduled final review.
- C. Acceptance of the project shall be considered "field accepted" and a recommendation will be forwarded to the City Council for "final acceptance" per Section 7 - 1.01 of the General Conditions.
- D. An unaccepted project shall extend the establishment period until such time as the unaccepted portions of the project have been reviewed and field accepted by the Inspector and Project Manager.
- E. Turn over for City maintenance shall occur only after:

1. The specified duration of the establishment period has been successfully completed.
 2. If required, the deed transferring property ownership, has been recorded at the County.
 3. A Notice of Completion (NOC) for city-built parks and for streetscapes has been approved by the City Council.
- F. Contractor shall provide a written guarantee covering all improvements associated with this project. See 1.19 – Warranties and Guarantees.

1.19 Record Documents

- A. Record documents or as-built plans shall be maintained on-site and updated routinely as specified in Section 2 - 1.13 of the General Conditions. Record documents shall include **all items under the contracted scope of work.**
- B. Record documents shall be submitted:
1. one full size set of final as-built drawings (verified/initialed by the Parks Inspector during the establishment period)
 2. one set of 11 x 17 reductions of the complete as-built package; and
 3. two sets 11 x 17 laminated reductions of the irrigation plan illustrating with colors the individual controller stations; and
 4. one USB storage device containing PDF scanned images (in color) of the verified/initialed as-built drawings.
 5. For City of Roseville CIP projects, SWPPP binder.

1.20 Warranties and Guarantees

- A. Warranties are required under various Sections of these Specifications. Prior to final acceptance, the Contractor shall assemble all warranties into a single, bound or stapled package. All warranties shall be clearly labeled and the number of years highlighted. Also, see Sections 7 - 1.10 and 7 - 1.11 of the General Conditions.
1. Warranties for equipment shall be submitted in the manufacturer's standard form and shall be countersigned by the subcontractor or supplier and the Contractor.
 2. All other warranties shall be provided in the following format, written on subcontractor's or supplier's letterhead, signed by the subcontractor or supplier and countersigned by the Contractor:

WARRANTY FOR _____ YEARS

"We hereby warrant that the product which we have installed at project name has been done in accordance with the contract documents, and that the work, as installed will fulfill the warranty requirements included in the Specifications.

We agree to repair or replace any or all of our work, together with any other adjacent work which may be displaced by so doing, that may prove to be defective in its workmanship or material within the warranty period stated above commencing from the date of final acceptance of the above named project by the City of Roseville's City Council, without additional expense to the City, ordinary wear and tear and unusual abuse or neglect excepted.

In the event of failure to comply with the above conditions within thirty (30) days of notification by the City, we collectively or separately do hereby authorize the City to proceed with the repairs or replacement of such defects at our expense. Payment of said costs and charges will be forwarded to the City upon demand.

Signed: _____
Subcontractor or Supplier _____ Date

Countersigned: _____
Contractor _____ Date

- B. Guarantees shall be a minimum of one (1) year for all plant material, including trees and shrubs. The guarantee shall state that plant materials (trees & shrubs) to be free of all defects or disease and all plants are in a healthy and thriving condition at the completion of the contract. Deciduous plant material shall be warranted beyond the time of contract completion until such time as growth becomes evident.

PART 2 - PRODUCTS

Intentionally left blank.

PART 3 - EXECUTION

Intentionally left blank.

END OF SECTION

FOR COUNCIL APPROVAL
NOT FOR BIDDING

SECTION 03 30 00 SITE CONCRETE

PART 1 - GENERAL

1.01 General Requirements

- A. The requirements set forth in the General Conditions shall be in addition to the standards provided herein.
- B. The requirements set forth in the Supplemental Conditions shall be in addition to the standards provided herein.
- C. The standards set forth in the City of Roseville Design and Construction Standards and the City of Roseville Parks Construction Standards, latest editions, shall be in addition to the standards provided herein.

1.02 Description

- A. Furnish all labor, materials and equipment for the complete installation of all concrete mowstrip as shown in the Plans and as specified herein.

1.03 References

- A. Caltrans Standard Specifications, latest edition.
- B. California Building Code (CBC) and California Administrative Code (Title 24), latest editions.

1.04 Quality Assurance

- A. For all flatwork, the Contractor shall pour a six-foot by six-foot (6" x 6") sample of each type of finish specified for review and acceptance by the Project Manager prior to pouring any concrete. The accepted samples shall remain on-site and intact until all concrete work has been completed. The quality of the concrete work shall be measured by the accepted samples.
- B. During the course of construction, a qualified testing laboratory shall obtain samples as determined by the Inspector and conforming to federal and state codes and standards. Such costs shall be paid for by the City. Re-tests and removal of below acceptable strength concrete shall be borne by the Contractor. The Contractor shall cooperate with the testing during the course of obtaining such samples.
- C. Variances in surface grades of more than 1/8", as measured by a straight edge ten feet (10") long, shall be corrected to the satisfaction of the Inspector. Remove all areas where standing water occurs, including any surface irregularities.

1.05 Handling and Storage

- A. Comply with ATSM C-94, “Specifications for Ready Mix Concrete” for the batch, mix and transport of concrete.
- B. Mix and deliver only the amount that will be poured immediately.

1.06 Record Drawings

- A. The Contractor shall keep an accurate record of the as-built conditions of the site concrete. These records shall be updated daily and kept at the construction site. At any time, the Inspector may examine the conditions of the “as-builts” to ensure compliance of the above.

PART 2 - PRODUCTS

2.01 Concrete

- A. Concrete for mowstrips shall conform to the provisions of Section 90-2 “Minor Concrete” of the Caltrans Standard Specifications. Cementitious material shall be „Type II Modified” and shall contain no less than 505 pounds of cementitious material per cubic yard. Aggregate shall be not greater than one-inch or smaller than 3/8-inch. Submit concrete analysis for review and acceptance prior to placement of concrete.

2.02 Concrete Forms

- A. All forms shall be new at the start of the project and shall be construction grade Douglas Fir. Minimum size lumber shall be 2 x 6.
- B. Radius bends shall be formed by spring steel forms or laminated boards, as required.
- C. Plywood shall be 5/8”, Class I, exterior grade as outlined in APA “Guide to Plywood Grades”. Omit mill oiling treatment.

PART 3 - EXECUTION

3.01 Poured-In-Place Concrete Forms

- A. Concrete for hardscape or flatwork shall be placed on subgrade compacted to 95% relative compaction. Prior to placement of concrete, a soils compaction test must be performed by an accepted soils testing professional on a representative number of locations along the flatwork area. The City or project owner shall provide the initial test. The results of these tests must be available and meet acceptable levels prior to pouring. Re-tests and re-work of any area, as directed by the soils professional, shall be the responsibility of the Contractor.
- B. Construct forms to conform to the shapes, dimensions and details shown on the Plans. All forms shall be true to lines, plumb, level and square.
- C. Forms shall not leak, spread, shift or settle when concrete is placed.

February 2023

- D. All forms shall carry dead and live loads and shall not deflect more than 1/8" between supports after placement of concrete.
- E. All forms shall be thoroughly soaked a minimum of twelve (12) hours prior to pouring of concrete. Forms shall be treated per manufacturer's recommendations.
- F. Reuse of forms may be allowed at the discretion of the Inspector. Reused forms shall be cleaned and free of defects that would affect the final concrete finish.
- G. Concrete footings shall be formed only when excavations slump or cave in. Over-excavate the trench or footing diameter to accommodate the forms' installation and removal. Apply water to moisten soil. Do not allow water to create mud or ponding.

3.02 Placement of Concrete

- A. Do not pour concrete in weather below 40 degrees F. or when temperatures are predicted to fall below freezing within 24 hours, except with prior authorization.
- B. Concrete shall be transit mixed according to ASTM C-94. Limit the quantity of water to the required strength. Concrete shall be of a consistency that it flows slowly into the forms.
- C. Mixing of concrete shall be continuous commencing from the time water is added to the mix until such time that the concrete is poured. All concrete shall be placed within an hour of the time when water is first added.
- D. Concrete shall be deposited up to the finished height of the forms and up to the adjacent joint. No partial pours will be allowed. Excess material shall be dumped on-site and later removed by the Contractor.
- E. Thoroughly compact the concrete manually spading and tamping concrete into all corners of the forms and by utilizing a high-speed mechanical vibrator. Retain a standby vibrator on-site during the course of concrete work. When utilizing the vibrator, take precautions to avoid impact on the forms.
- F. After obtaining uniform compaction, screen tamper all flatwork surfaces, screed and bull float to ensure that large aggregates are pushed below the surface. When it is practical to work on the surface, wood float, steel trowel paving to a uniform surface.
- G. Concrete elements shall not exceed the following tolerances:
 - 1. Linear: 1/8"
 - 2. Slab deviation: 1/8" in 10"

3.03 Removal of Forms

- A. Forms shall remain in place as follows:
 - 1. For mass concrete work: 5 days.
 - 2. For other flatwork and other concrete work: 3 days.

- B. Remove all bolts, nails, ties, wires, etc. a minimum of one inch (1”) below the surface of the concrete. Remove imprints, irregularities or other such defects and patch as directed by the Inspector.

3.04 Curing and Protection

- A. Allow adequate time for the concrete to cure. In temperatures above 75 degrees F., ensure that the concrete surface remains wet for a period of seven (7) days minimum.
- B. Protect all concrete from damage during the curing period. This shall include damage from sun, rain, flowing water, frost, mechanical injury, tire tracks, footprints, oil stains, etc. Should such damage occur, Contractor shall take immediate action to repair damage to the satisfaction of the City.

3.05 Clean-Up

- A. During the course of this work, the area shall be kept clear and free of debris as realistically possible. Upon completion of concrete work, completely remove from the site all used forms, hardware, spillage, rejected work and other materials.
- B. Remove from site furnishing posts all concrete “slobber”. Re-touch posts as necessary for a clean finish.

END OF SECTION

SECTION 12 93 00 SITE FURNISHINGS

PART 1 - GENERAL

1.01 General Requirements

- A. The requirements set forth in the General Conditions shall be in addition to the standards provided herein.
- B. The requirements set forth in the Supplemental Conditions shall be in addition to the standards provided herein.

1.02 Description

- A. Furnish all labor, materials and equipment for the complete installation of all site furniture, including play equipment and play surfacing, as shown on the Plans and as specified herein.

1.03 References

- A. Nothing in the Plans or Specifications is to be construed to permit work not conforming to regulating codes and standards. The Contractor shall furnish without extra charge any material and labor, when required, by the compliance with these rules and regulations, even though the work was not mentioned in these particular Specifications or shown on the Plans.

1.04 Submittals

- A. Submittals for specified items are required. The Contractor shall submit a materials summary sheet indicating which items will be installed as specified and which items are proposed for substitutions. The Contractor shall submit proof of order within ten (10) working days of the Notice to Proceed, indicating all specified materials have been ordered, noting "as specified" or "substitution proposed". For the following items, also provide:

1. Infield Mix

1.05 Record Drawings

- A. The Contractor shall keep an accurate record of the as-built conditions of the miscellaneous site amenities. These records shall be updated daily and kept at the construction site. At any time, the Inspector may examine the conditions of the "as-builts" to ensure compliance of the above.

PART 2 - PRODUCTS

2.01 Materials

- A. Infield Mix shall be 60/40 red lava/ screened clay mix as distributed by Cascade Rock, 916-383-1300 or accepted equal.

PART 3 - EXECUTION

3.01 Installation

- A. Contractor to provide experienced workers or subcontractors to install all site furnishings, including the play equipment and play surfacing described in these Specifications. The workers or subcontractor must demonstrate that at least five (5) similar play structures and five (5) play surface applications similar to that specified for this project have been installed in the last three (3) years.

3.02 Cleaning

- A. Thoroughly clean all areas where work has occurred. Remove from the site excess material, debris and rubbish.
- B. Take all precautions to protect completed work. Immediately repair or replace all damaged areas due to tire ruts, erosion, compaction failure, etc. Keep all erosion control measures intact.

PART 4 - WARRANTY

4.01 General

- A. Contractor shall warranty all site amenities included under this Section.
- B. Contractor shall also provide a written warranty covering all materials, equipment and workmanship furnished by him to be free of all defects after installation is accepted, including all defective parts that may have been found.
- C. Submit written warranty on company letterhead addressed to the City when providing As-built drawings.
- D. Contractor shall submit to the City, upon completion of work, a Certificate of Compliance by a third party certified playground inspector for the installation of the play structure and safety surfacing. Certification shall include testing for compliance of ASTM 1292 (Impact Attenuation of Surfacing Systems under and around Play Equipment). All tests, including re-tests, shall be the responsibility of the Contractor. Submit all test results to the City.
- E. Submit maintenance manual for poured-in-place resilient surfacing.
- F. Contractor shall submit to the City, upon completion of work, a Certificate of Compliance from the manufacturer of the play structure for the installation of the play structure.

- G. Contractor shall submit to the City, upon completion of work, critical fall criterion used to certify all play surfacing material.
- H. Attach cut sheets of installed items to the warranty.

END OF SECTION

FOR COUNCIL APPROVAL
NOT FOR BIDDING

FOR COUNCIL APPROVAL

SECTION 32 31 13 CHAIN LINK FENCING

PART 1 - GENERAL

1.01 General Requirements

- A. The requirements set forth in the General Conditions shall be in addition to the standards provided herein.
- B. The requirements set forth in the Special Conditions shall be in addition to the standards provided herein.

1.02 Description

- A. Furnish all labor, materials and equipment for the complete installation of the chain link fence system, including gates as shown on the Plans and as specified herein.

1.03 References

- A. Caltrans Standard Specifications, latest edition.

PART 2 - PRODUCTS

2.01 General

- A. Wire used in the fabric shall be galvanized and shall have a tensile strength of 80,000 lbs. Per square inch based on cross sectional areas of the wire. One sample shall be tested without removing bends caused by weaving of the wire with the mesh. A second test shall be conducted on a wire strand carefully straightened. The tensile strength is finally determined as the average reading between the two tests. Wire to match fabric selection.
- B. Fabric shall be 1-3/4" 9-gauge nominal wire mesh, hot-dipped galvanized or black vinyl coated after weaving as shown on the plans. Conform to ASTM A392, with tensile strength as described in 2.01A above. Fabric shall be knuckled top and bottom with single width to full height of fence.
- C. Ties/Fasteners shall be 9-gauge aluminum or black powder coated wire.
- D. Fittings, clips, bolts, bands, bars, post tops/covers and other hardware necessary for a complete fence system shall be galvanized or black powder coated.
- E. Where fencing is shown on the Plans to be black vinyl or powder coated, all appurtenances, including fabric, posts, rails, clips, bands, fittings, etc., necessary for a complete fence system shall be black vinyl or powder coated. Vinyl or powder coating shall be the industry standard for this type of finish.

2.02 Posts and Rails

- A. Posts and rails shall be hot-dipped galvanized per ASTM A53 or black powder coated, to match fabric and as shown on the Plans. All posts shall be installed with moisture-proofed caps on the top.
- B. Size and lengths of posts shall be as shown in the City of Roseville Design and Construction Standards PK-40, latest edition.

2.03 Gates

- A. Fabric and finish to match fence.
- B. Hinges and latches shall be industrial strength, heavy duty and shall fit snugly around post. Latches shall be lockable.
- C. Size and lengths of posts shall be as shown in the City of Roseville Design and Construction Standards PK-40, latest edition.

PART 3 - EXECUTION

3.01 Post Installation

- A. Posts are to be spaced evenly as shown on the City Standard and set plumb and true to lines with the top line uniform as shown in the City of Roseville Design and Construction Standards PK-40, latest edition.
- B. All posts shall be set in concrete as shown in the City of Roseville Design and Construction Standards PK-40, latest edition.
- C. Where nicks on vinyl or powder coated finished occurs due to installation, the Contractor shall re-finish and patch damaged areas immediately.

3.02 Fabric

- A. Attach fabric using fabric bands or clips spaced approximately 14" apart. Connections to top rails and tension wires shall utilize wire ties placed 24" on center.
- B. For corner and vertical end connections, install stretcher bars banded to posts and gate frames at 24" apart (maximum).
- C. All fabric to be stretched tight, free from sags and bulges.

3.03 Rails

- A. For splices along the top rail, provide couplings every 20'. The coupling shall produce a continuous brace from end to end of each stretch of fence. Install a heavy spring at every fifth coupling to allow for expansion or contraction.
- B. Utilize the appropriate fittings to ensure that all rails are rigidly clamped to end and corner posts.
- C. Clamp mid and bottom rails at each post.

February 2023

3.04 Gates

- A. Gates shall be installed consistent with the City Standard detail. Verify grade conditions along the fence bottom to ensure proper use of the gate(s).
- B. Gate openings shall be face-to-face dimensions and shall swing according to the Plans.

3.05 Cleaning

- A. Thoroughly clean all areas where work has occurred. Remove from the site excess material, debris and rubbish.
- B. Take all precautions to protect completed work. Immediately repair or replace all damaged areas due to tire ruts, erosion, compaction failure, etc. Keep all erosion control measures intact.

SECTION 32 84 00 IRRIGATION SYSTEM

PART 1 - GENERAL

1.01 General Requirements

- A. The requirements set forth in the General Conditions shall be in addition to the standards provided herein.
- B. The requirements set forth in the Supplemental Conditions shall be in addition to the standards provided herein.

1.02 Description

- A. Furnish all labor, materials and equipment for the complete installation of an automated irrigation system, including all necessary appurtenances for proper operation, noted or implied, as shown on the Plans and as specified herein.
- B. Water usage, meter costs, connection fees, testing and other associated utility costs are considered direct costs and is the responsibility of the Contractor until the project is accepted.
- C. Installation of the water meter shall be by the City.

1.03 Related Work

- A. Section 32 90 00: Planting
- B. Section 26 00 00: Site Electrical

1.04 Quality Assurance

- A. All work shall comply with local and state laws, codes, regulations and requirements which govern any portion or all of the work contained in this Section. These include, but are not limited to, the latest editions of:
 - 1. City of Roseville Park Construction Standards,
 - 2. City of Roseville Design and Construction Standards,
 - 3. City of Roseville Electric Department Standard Specifications,
 - 4. Local, state and federal electrical codes, manuals and guidelines, and
 - 5. Local, state and federal plumbing codes, manuals and guidelines.

1.05 Submittals

- A. Submittals for specified items are not required for Parks or Streetscape projects, unless specifically listed below. However, submittals are required for any proposed substitutions or deviations from the parks Plans or Specifications. For Streetscapes, no substitutions will be accepted. The Contractor shall submit a materials summary sheet indicating which items will be installed as specified

and which items are proposed for substitutions. The Contractor shall submit proof of order within ten (10) working days of the Notice to Proceed, indicating all specified materials have been ordered, noting “as specified” or “substitution proposed”. Submittals are required on the following items:

1. Controller, Flow Sensor(s), and Master Valve(s).
2. Filter (Recycled water)
- 3.

1.06 Explanation of Drawings

- A. The drawings are diagrammatic and do not reflect all offsets, fittings and other miscellaneous items required for a complete and operable irrigation system. It shall be the Contractor’s responsibility to investigate all existing site conditions, become thoroughly familiar with the site, and provide all labor, materials and equipment required for the installation of the irrigation system.
- B. Avoid conflicts between other trades and the installation of the irrigation system. Minor adjustments to avoid such conflicts shall be made in the field. Major discrepancies between actual field conditions and the Plans shall be brought to the attention of the Project Manager. The lack of notification shall indicate that the Contractor assumes full responsibility for any revision deemed necessary to ensure proper installation.

1.07 Product Delivery, Handling and Storage

- A. All materials shall be delivered bearing manufacturer’s label with size, type and model number (if applicable) clearly marked.
- B. All pipe shall be delivered in a vehicle which allows the material to lie flat without concentrated weight or stress at any point.
- C. Unload all materials with care so as to avoid damage. Store materials in a covered area and do not expose PVC pipe to extreme sun or heat. Store pipe lying flat.
- D. Do not install any material that has been damaged. Replace all material found to be damaged.

1.08 Record Drawings

- A. The Contractor shall keep an accurate record of the as-built conditions of the irrigation system. These records shall be updated daily and kept at the construction site. At any time, the Inspector may examine the conditions of the “as-builts” to ensure compliance of the above.
- B. Dimensions shall be recorded from two (2) permanent points of reference.
- C. The City may at its discretion withhold progress payments to the Contractor if the as-built records are not updated to the satisfaction of the City.

February 2023

PART 2 - PRODUCTS**2.01 General**

- A. All materials specified shall be new, bearing the brand name, type, serial numbers and model number as shown on the Plans and as specified herein, unless otherwise accepted in writing.

2.02 Backfill Material

- A. Backfill shall be clean, screened, on-site material, free from organic material, large clods of earth and/or rock larger than one (1) inch in diameter, trash, debris, rubbish, tree trunks, broken concrete or asphalt and other unacceptable material.
- B. Material larger than one (1) inch shall be removed from site and legally disposed. All removal shall be the responsibility of the Contractor.

2.03 Pipe**A. PVC Pressurized Mainline**

1. For lines three inch (3") or larger: polyvinyl chloride (PVC) 1120-1220, SDR 21, Class 200 rubber gasketed pipe, and NSF accepted per Standard No. 14, Type I, Grade I. Conform to:

Material	ASTM
Pipe	D1784, D2241
Rubber Gasket	F477

2. For lines two and one half inches (2-1/2") or smaller: Schedule 40 polyvinyl chloride (PVC) 1120-1220, and NSF accepted per Standard No. 14, Type I, Grade I. Conform to:

Material	ASTM
Pipe	D1784, D1785

B. PVC Non-Pressurized Lateral Lines

1. Schedule 40 polyvinyl chloride (PVC) 1120-1220, SDR 21.0, NSF accepted per Standard No. 14, Type 1, Grade II.

C. Recycled Water

1. Pipes shall meet the standards outlined in Sections 2.08, A and B above, unless otherwise noted in the City of Roseville Design and Construction Standards for recycled water, latest edition.
2. All pipes containing recycled water shall be purple, NSF accepted and conform to the City of Roseville Design and Construction Standards, latest edition.

2.04 Fittings and Nipples

- A. Fittings for Mainline Pipe:

1. For all control valves on mainlines three inches (3") and larger, use painted, ductile iron saddle taps with double stainless steel straps and nuts Model #202 by Romac Industries, Inc. or accepted equal.
 2. For all other connections on mainlines three inches (3") and larger mainline pipe, use glued schedule 80 fittings.
 3. For all connections on mainlines two and one half inches (2-1/2") or smaller, use glued schedule 40 fittings.
- B. Fittings for Solvent Weld Pipe:
1. Schedule 40 for 2 1/2" pipes or smaller and Schedule 80 for 3" pipe and larger polyvinyl chloride (PVC), standard weight, conforming to ASTM D2466-73. Use Schedule 80 for all recycled water systems.
 2. Weld-on #P-70 primer and Weld-on #711 gray glue or accepted equal.
 3. Teflon tape for all threaded PVC fittings.
- C. Plastic Nipples shall be Schedule 80, Type 1, Grade 1, polyvinyl chloride (PVC), threaded at both ends, and conforming to ASTM D1784 -85. Nipples shall be uniformly gray.
- D. Fittings for Recycled Pipe:
1. Fittings shall meet the standards outlined in Sections 2.09, A, B and C above, unless otherwise noted in the City of Roseville Design and Construction Standards for recycled water, latest edition.

2.05 Swing Joints

- A. Swings joints shall be as shown in the City Parks Construction Standard detail. Schedule 40 threaded PVC triple swing joints or an accepted equal.

2.06 Electric Remote Control Valve

- A. Sizes as shown on the Plans. All valves shall be Rainbird PEB series or accepted equal and shall contain the following:
1. a globe-type electric remote control, normally closed diaphragm type with slow opening and closing action,
 2. encapsulated solenoid type actuation,
 3. a minimum rating of twenty-four (24) volts,
 4. sixty (60) cycle,
 5. two to five (2-5) watts,
 6. a manual flow adjustment with shut-off provisions,
 7. provisions for an external "bleed" of the diaphragm chamber for manual operation.
 8. a ball valve on the inlet.
 9. Schedule 80 PVC threaded fittings from saddle tap to POC to valve.
- B. Valve boxes shall be rectangular, rigid plastic valve boxes with lockable lids and extensions by Carson Industries, LLC or accepted equal. Valve box shall

February 2023

be sized appropriately to house entire valve assembly with space to accommodate maintenance access.

1. Boxes shall be colored green in potable applications, and purple for recycled water applications.
 2. Valve boxes used on recycled water systems shall be permanently colored purple through the manufacturer. Boxes painted purple will be rejected.
 3. Label lids using heat branded identification, T:Turf, S:Shrubs, B:Bubblers
- C. Controller station identification number shall be standard yellow tags with permanent numbers by Christy or accepted equal.

2.07 Irrigation Heads

- A. All irrigation heads shall conform to type, size, precipitation rate, gallons per minute discharge, pressure and throw radius as shown on the Plans, unless otherwise accepted in writing.
- B. In all available models, all irrigation heads shall have stainless steel risers, unless otherwise approved in writing.
- C. For recycled water applications, irrigation heads shall be colored purple, have debris pocket, and wiper seals with 3 touch points.
- D. Irrigation heads shall have built-in pressure regulation for pop up sprays and/or water-efficient heads.
- E. Include built-in check valve where applicable to prevent low head drainage.

2.08 Automatic Irrigation Controller

- A. Existing automatic controller is Calsense CS3000. Additional 2-Wire Decoders shall be CS-2W-2ST – 2 Station 2-Wire Decoders.

2.09 Control Wires

- A. 2-Wire Cable shall be Regency's Hunter Decoder Cable or Paige 7354D, or approved equal.
- B. Wire connections shall be 3M Scotchcast 3570G-N Connector Sealing Packs, or approved equal.

PART 3 - EXECUTION

3.01 Site Conditions

- A. Prior to start of irrigation work, review the site conditions to verify that stub- outs, points of connections, sizes of the points of connections, water pressure and other essential items necessary for irrigation work to commence are as shown on the Plans and as indicated in the Specifications.
- B. Notify the Inspector immediately of any existing conditions which are unacceptable for the commencement of irrigation work.

3.02 Coordination of Work

- A. Coordinate all work with other trades.
- B. The irrigation plan is diagrammatic. Whenever possible, locate all pipes in planted or turf areas. Do not scale off of the Plans. Where field conditions have changed, notify the Inspector immediately.

3.03 Excavation and Trenching

- A. Trenches shall be dug straight and in such a manner as to completely support the pipe continuously along the bottom of the trench. In rocky conditions, over-excavation and placement of clean bedding material may be required to ensure protruding rocks do not place undue stress on pipes. Trench layout shall follow that shown on the Plans, except where accepted by the City.
- B. The following minimum cover shall be provided for pipe:

Pipe Type	Minimum Cover
Pressurized Mainlines	24"
Non- Pressurized Lateral Lines	18"
Domestic Water Lines	24"
Control wires	24"
PVC Sleeves under Paving	18"
PVC Sleeves under Auto X-ings	24"

- C. Install detection wire, looped in and out of valve boxes and attached to all irrigation mainlines.
- D. High voltage wires shall not be installed in the same irrigation water line trench.

3.04 Testing and Flushing

- A. Pressure Testing shall occur only when the following conditions can be fulfilled:

Item Description	Condition
Quick coupler valves	Installed and capped
Electric remote control valves	Installed
Flow valve	Installed and open
Ball/Gate valves	Installed and open
Lateral lines	Disconnected
Welded PVC joints	Cured at least 24 hours
Pipe	Center loaded with backfill
Concrete Thrust Blocks	Installed and cured at least 48 hours
Couplings and fittings	Exposed
Detection wire	Installed

- B. A pressure gauge shall be installed at the lowest point of the line. Continuous pressure shall be applied at a rate of 125 psi for all mainlines. The pressure shall remain stable for a minimum of two hours with no detectable leakage. Upon completion of the test, a complete examination of the line shall be conducted by the City. Leaks resulting from the test shall be repaired and the

February 2023

line shall be re-tested. This process shall be repeated until the line passes the leakage test.

- C. All lines and risers shall be flushed prior to final installation of irrigation heads. All control valves shall be left open during the flushing process.

3.05 Backfilling and Compacting

- A. Backfilling of trenches shall not occur until all tests and reviews have been performed. See inspection record contained in the Parks Construction Standards, latest edition. Any trench that is prematurely backfilled may be required to be re-dug for review.
- B. Compaction of the trenched areas shall meet the following compaction rates of 95% in areas to receive paving and 85% in areas to be planted.
- C. Do not flood trenches unless otherwise accepted by the City.
- D. Sunken trenches shall be re-finished flush with the adjacent grades.

3.06 Pipe Installation

- A. Install irrigation pipe in planted areas whenever possible.
- B. All pipe and fittings shall be cleaned and free from dirt, dust and moisture.
- C. Pipe may be assembled along the trench at grade to avoid undue strain on the pipe or the fittings. All solvent weld connections shall be primed before applying glue. Snake the pipe within the trench to compensate for expansion and contraction.
- D. All PVC pipe and metal valve connections shall be made with threaded fittings consistent with drawings PK-15 and PK-16 of the City of Roseville Parks Construction Standards.
- E. All PVC-to-PVC threaded connections shall be made with Teflon tape.
- F. Install concrete thrust blocks in locations where rubber gasketed irrigation mainlines change directions, e.g. ells, tees; as required on other lines and fittings; and at the termination point of the mainline. Do not conduct a pressure test within 48 hours of the thrust block pours. The size of the thrust blocks shall be per manufacturer's instructions and shall be adequate in size to absorb thrusts up to the maximum internal water pressure. Refer to 3.18 Thrust Blocks.
- G. Use glued fittings for all connections inside of a sleeve and within 20' of a sleeve.

3.07 Electric Remote Control Valves

- A. Install per local codes, manufacturer's instructions, City of Roseville Design and Construction Standards and as shown on the Plans.
- B. Install one (1) electric remote control valve per box and whenever possible, group valve boxes together. Align boxes in a straight and neat row and flush to finish grade. Provide a minimum of six (6) inches between boxes.

- C. All valves shall be tagged for easy identification of valve number. Valve box lids shall be permanently marked identifying valve number and controller letter with heat branding using stencils in a uniform location on all boxes throughout.
- D. Each valve shall be separately saddle tapped. Manifolder valves shall be rejected.
- E. Locate valve boxes outside of turf areas, adjacent to paving, i.e. sidewalks, hardscape, etc. except where shown on the Plans.
- F. Provide a minimum of eighteen (18) inches of a complete set of spare control wires, looped, within all control valve boxes.

3.08 Irrigation Heads

- A. Install all heads where shown on the Plans and as specified herein.
- B. Turf rotary pop-up heads shall be placed two (2) inches from any edge of adjacent walkway, concrete mow band, concrete curb, header board or other hardscape edging, or as required by current WELO regulations.
- C. Rotary pop-up heads shall be installed flush with the top of finish grades of turf or planting areas.
- D. Sprinkler head riser nipples sizes shall match or be the same as the riser opening of the sprinkler body.
- E. Install sprinkler heads with internal check valves where heads are located in low drainage areas, i.e. bottom of berms, bottom of drainage swales, toe of slopes, etc.
- F. Install all heads perpendicular to ground surface with an offset from the edge of pavement as indicated in the details.

3.09 Control Wires

- A. Wherever possible, install control wires in common trenches with mainline. The wires shall be taped in bundles at ten (10) feet on center and laid to the side of the pipe. Provide slack between ties to allow for contraction.
- B. Wire valve to controller as shown on the plans.
- C. Where runs are long, provide an extra three (3) feet of extra ground and control wires looped at 200' intervals. Snake wires within trenches to allow for contraction.
- D. Line splices shall occur in valve boxes at grade, label and allowed only on lengths greater than 2500'. Show locations on as-built plans.
- E. Do not wrap wire around pipe or allow any wiring to be placed in concrete or concrete thrust blocks.
- F. Install two (2) spare wires starting from the controller, looped to each valve box to the furthest valve box, without splices.

February 2023

3.10 Coverage Test

- A. Prior to planting, the Contractor shall perform a coverage test to confirm that water coverage is complete and adequate, and produces no overspray onto hardscapes. Irrigation pressure readings at the head or emission device may also be taken as part of the coverage test to confirm adequate system hydraulics.
- B. The coverage test shall be performed on the entire irrigation system and shall be performed in the presence of the Parks Inspector. The irrigation system must be connected to the City water system through the water meter. Temporary connections are not allowed. On recycled water systems, the coverage test shall take place only after successful completion of the cross-connection test, with the recycled water meter in place.
- C. On Park projects containing turf, a comprehensive survey of the Distribution Uniformity (Low Quarter) of each irrigation zone containing turf shall be performed by a third-party, certified irrigation auditor prior to planting of turf. The irrigation system must be 100% complete, including functionality of the irrigation controller and booster pump, if present. The irrigation auditor shall prepare and submit a report listing each zone's Distribution Uniformity, including actual mapping data of individual catch cans recorded on irrigation plan sheets, and noting any potential deficiencies in the system leading to any inadequate findings. Reported deficiencies in Distribution Uniformity will be evaluated by the Project Manager and may require corrective measures prior to approval of turf planting. Deficiencies caused by improper installation shall be corrected at no additional cost to City.

3.11 Clean Up

- A. Each phase of work shall be immediately cleaned up. Excess equipment, material, etc., shall be legally disposed of and removed from site. All concrete, asphalt and/or decomposed granite paving shall be kept free of soil. Damage to such surfaces shall be immediately repaired to the satisfaction of the City.

PART 4 - GUARANTEE**4.01 General**

- A. Contractor shall provide a written guarantee covering all materials, equipment and workmanship furnished by him to be free of all defects after installation is accepted, including all defective parts that may have been found.
- B. All paved areas shall be swept clean and planted areas shall be weed-free.
- C. All irrigation heads shall be properly adjusted. Debris and refuse shall be removed from site prior to inspection.

4.02 Pre-Final (Punch List) Review

- A. See Section 01 10 00 1.16 - Summary of Work for notification process.

4.03 Final Review

- A. The Contractor shall demonstrate to the City, valve by valve, the entire irrigation system to be operable. All heads shall be adjusted/flushed and all drip zones shall be flushed prior to the on-site review. Any item requiring adjustments shall be completed immediately and to the satisfaction of the City.
- B. Provide necessary training to City staff in the proper operations and maintenance of the booster pump.
- C. The date of final acceptance by the City Council or the recordation of the property transfer shall signify the start date of the warranty period. Final acceptance shall include the project in total and will not segregate any specific item or trade included in the construction of the project.

TEXT OF AB 626

Assembly Bill No. 626

CHAPTER 810

An act to add and repeal Section 9204 of the Public Contract Code, relating to public contracts.

[Approved by Governor September 29, 2016. Filed with Secretary of State September 29, 2016.]

LEGISLATIVE COUNSEL'S DIGEST

AB 626, Chiu. Public contracts: claim resolution.

Existing law prescribes various requirements regarding the formation, content, and enforcement of state and local public contracts. Existing law applicable to state public contracts generally requires that the resolution of claims related to those contracts be subject to arbitration. Existing law applicable to local agency contracts prescribes a process for the resolution of claims related to those contracts of \$375,000 or less.

This bill would establish, for contracts entered into on or after January 1, 2017, a claim resolution process applicable to any claim by a contractor in connection with a public works project. The bill would define a claim as a separate demand by the contractor for one or more of the following: a time extension for relief from damages or penalties for delay, payment of money or damages arising from work done pursuant to the contract for a public work, or payment of an amount disputed by the public entity, as specified.

This bill would require a public entity, defined to exclude certain state entities, upon receipt of a claim sent by registered or certified mail, to review it and, within 45 days, provide a written statement identifying the disputed and undisputed portions of the claim. The bill would authorize the 45-day period to be extended by mutual agreement. The bill would require any payment due on an undisputed portion of the claim to be processed within 60 days, as specified. The bill would require that the claim be deemed rejected in its entirety if the public entity fails to issue the written statement.

This bill would authorize, if the claimant disputes the public entity's written response or if the public entity fails to respond to a claim within the time prescribed, the claimant to demand to meet and confer for settlement of the issues in dispute. The bill would require any disputed portion of the claim that remains in dispute after the meet and confer conference to be subject to nonbinding mediation, as specified. The bill would provide that unpaid claim amounts accrue interest at 7% per annum. The bill would prescribe a procedure by which a subcontractor or lower tier contractor may make a claim through the contractor.

This bill would require the text of these provisions, or a summary, to be set forth in the plans or specifications for any public work which may give rise to a claim. The bill would specify that a waiver of these rights is void and contrary to public policy, except as specified. The bill would also specify that it does not impose liability on a public entity that makes loans or grants available through a competitive application process, for the failure of an awardee to meet its contractual obligations.

By increasing the duties of local agencies and officials, this bill would impose a state-mandated local program.

This bill would, on January 1, 2020, repeal the provision establishing the claim resolution process.

This bill would specify that these provisions constitute a matter of statewide concern.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

The people of the State of California do enact as follows:

SECTION 1. Section 9204 is added to the Public Contract Code, to read:

9204. (a) The Legislature finds and declares that it is in the best interests of the state and its citizens to ensure that all construction business performed on a public works project in the state that is complete and not in dispute is paid in full and in a timely manner.

(b) Notwithstanding any other law, including, but not limited to, Article 7.1 (commencing with Section 10240) of Chapter 1 of Part 2, Chapter 10 (commencing with Section 19100) of Part 2, and Article 1.5 (commencing with Section 20104) of Chapter 1 of Part 3, this section shall apply to any claim by a contractor in connection with a public works project.

(c) For purposes of this section:

(1) "Claim" means a separate demand by a contractor sent by registered mail or certified mail with return receipt requested, for one or more of the following:

(A) A time extension, including, without limitation, for relief from damages or penalties for delay assessed by a public entity under a contract for a public works project.

(B) Payment by the public entity of money or damages arising from work done by, or on behalf of, the contractor pursuant to the contract for a public works project and payment for which is not otherwise expressly provided or to which the claimant is not otherwise entitled.

(C) Payment of an amount that is disputed by the public entity.

(2) "Contractor" means any type of contractor within the meaning of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code who has entered into a direct contract with a public entity for a public works project.

(3) (A) "Public entity" means, without limitation, except as provided in subparagraph (B), a state agency, department, office, division, bureau, board, or commission, the California State University, the University of California, a city, including a charter city, county, including a charter county, city and county, including a charter city and county, district, special district, public authority, political subdivision, public corporation, or nonprofit transit corporation wholly owned by a public agency and formed to carry out the purposes of the public agency.

(B) "Public entity" shall not include the following:

(i) The Department of Water Resources as to any project under the jurisdiction of that department.

(ii) The Department of Transportation as to any project under the jurisdiction of that department.

(iii) The Department of Parks and Recreation as to any project under the jurisdiction of that department.

(iv) The Department of Corrections and Rehabilitation with respect to any project under its jurisdiction pursuant to Chapter 11 (commencing with Section 7000) of Title 7 of Part 3 of the Penal Code.

(v) The Military Department as to any project under the jurisdiction of that department.

(vi) The Department of General Services as to all other projects.

(vii) The High-Speed Rail Authority.

(4) "Public works project" means the erection, construction, alteration, repair, or improvement of any public structure, building, road, or other public improvement of any kind.

(5) "Subcontractor" means any type of contractor within the meaning of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code who either is in direct contract with a contractor or is a lower tier subcontractor.

(d) (1) (A) Upon receipt of a claim pursuant to this section, the public entity to which the claim applies shall conduct a reasonable review of the claim and, within a period not to exceed 45 days, shall provide the claimant a written statement identifying what portion of the claim is disputed and what portion is undisputed. Upon receipt of a claim, a public entity and a contractor may, by mutual agreement, extend the time period provided in this subdivision.

(B) The claimant shall furnish reasonable documentation to support the claim.

(C) If the public entity needs approval from its governing body to provide the claimant a written statement identifying the disputed portion and the undisputed portion of the claim, and the governing body does not meet within the 45 days or within the mutually agreed to extension of time following receipt of a claim sent by registered mail or certified mail, return receipt requested, the public entity shall have up to three days following the next duly publicly noticed meeting of the governing body after the 45-day period, or extension, expires to provide the claimant a written statement identifying the disputed portion and the undisputed portion.

(D) Any payment due on an undisputed portion of the claim shall be processed and made within 60 days after the public entity issues its written statement. If the public entity fails to issue a written statement, paragraph (3) shall apply.

(2) (A) If the claimant disputes the public entity's written response, or if the public entity fails to respond to a claim issued pursuant to this section within the time prescribed, the claimant may demand in writing an informal conference to meet and confer for settlement of the issues in dispute. Upon receipt of a demand in writing sent by registered mail or certified mail, return receipt requested, the public entity shall schedule a meet and confer conference within 30 days for settlement of the dispute.

(B) Within 10 business days following the conclusion of the meet and confer conference, if the claim or any portion of the claim remains in dispute, the public entity shall provide the claimant a written statement identifying the portion of the claim that remains in dispute and the portion that is undisputed. Any payment due on an undisputed portion of the claim shall be processed and made within 60 days after the public entity issues its written statement. Any disputed portion of the claim, as identified by the contractor in writing, shall be submitted to nonbinding mediation, with the public entity and the claimant sharing the associated costs equally. The public entity and claimant shall mutually agree to a mediator within 10 business days after the disputed portion of the claim has been identified in writing. If the parties cannot agree upon a mediator, each party shall select a mediator and those mediators shall select a qualified neutral third party to mediate with regard to the disputed portion of the claim. Each

party shall bear the fees and costs charged by its respective mediator in connection with the selection of the neutral mediator. If mediation is unsuccessful, the parts of the claim remaining in dispute shall be subject to applicable procedures outside this section.

(C) For purposes of this section, mediation includes any nonbinding process, including, but not limited to, neutral evaluation or a dispute review board, in which an independent third party or board assists the parties in dispute resolution through negotiation or by issuance of an evaluation. Any mediation utilized shall conform to the timeframes in this section.

(D) Unless otherwise agreed to by the public entity and the contractor in writing, the mediation conducted pursuant to this section shall excuse any further obligation under Section 20104.4 to mediate after litigation has been commenced.

(E) This section does not preclude a public entity from requiring arbitration of disputes under private arbitration or the Public Works Contract Arbitration Program, if mediation under this section does not resolve the parties' dispute.

(3) Failure by the public entity to respond to a claim from a contractor within the time periods described in this subdivision or to otherwise meet the time requirements of this section shall result in the claim being deemed rejected in its entirety. A claim that is denied by reason of the public entity's failure to have responded to a claim, or its failure to otherwise meet the time requirements of this section, shall not constitute an adverse finding with regard to the merits of the claim or the responsibility or qualifications of the claimant.

(4) Amounts not paid in a timely manner as required by this section shall bear interest at 7 percent per annum.

(5) If a subcontractor or a lower tier subcontractor lacks legal standing to assert a claim against a public entity because privity of contract does not exist, the contractor may present to the public entity a claim on behalf of a subcontractor or lower tier subcontractor. A subcontractor may request in writing, either on his or her own behalf or on behalf of a lower tier subcontractor, that the contractor present a claim for work which was performed by the subcontractor or by a lower tier subcontractor on behalf of the subcontractor. The subcontractor requesting that the claim be presented to the public entity shall furnish reasonable documentation to support the claim. Within 45 days of receipt of this written request, the contractor shall notify the subcontractor in writing as to whether the contractor presented the claim to the public entity and, if the original contractor did not present the claim, provide the subcontractor with a statement of the reasons for not having done so.

(e) The text of this section or a summary of it shall be set forth in the plans or specifications for any public works project that may give rise to a claim under this section.

(f) A waiver of the rights granted by this section is void and contrary to public policy, provided, however, that (1) upon receipt of a claim, the parties may mutually agree to waive, in writing, mediation and proceed directly to the commencement of a civil action or binding arbitration, as applicable; and (2) a public entity may prescribe reasonable change order, claim, and dispute resolution procedures and requirements in addition to the provisions of this section, so long as the contractual provisions do not conflict with or otherwise impair the timeframes and procedures set forth in this section.

(g) This section applies to contracts entered into on or after January 1, 2017.

(h) Nothing in this section shall impose liability upon a public entity that makes loans or grants available through a competitive application process, for the failure of an awardee to meet its contractual obligations.

(i) This section shall remain in effect only until January 1, 2020, and as of that date is

repealed, unless a later enacted statute, that is enacted before January 1, 2020, deletes or extends that date.

SECTION 2.

The Legislature finds and declares that it is of statewide concern to require a charter city, charter county, or charter city and county to follow a prescribed claims resolution process to ensure there are uniform and equitable procurement practices.

SECTION 3.

If the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code.

SHEET TITLE:

COVER SHEET

SHEET

1 OF 14 SHEETS

1. THE CONTRACTOR SHALL NOT BEGIN ANY WORK SHOWN ON THESE PLANS UNTIL THE CITY PLANNERS' SIGNATURE OF APPROVAL IS AFFIXED HEREON AND ALL APPLICABLE PERMITS HAVE BEEN OBTAINED.
2. CONTRACTOR SHALL ASSUME SOLE AND COMPLETE RESPONSIBILITY FOR CONSTRUCTION OF THIS PROJECT, INCLUDING SAFETY OF ALL PERSONS AND PROPERTY. THIS REQUIREMENT SHALL APPLY CONTINUOUSLY AND NOT BE LIMITED TO NORMAL WORKING HOURS. THE CONTRACTOR SHALL DEFEND, INDEMNIFY AND HOLD THE CITY, OWNER, ENGINEER, AND LANDSCAPE ARCHITECT HARMLESS FROM ANY AND ALL LIABILITY, REAL OR ALLEGED, IN CONNECTION WITH THE PERFORMANCE OF WORK ON THIS PROJECT, EXCEPTING LIABILITY ARISING FROM SOLE NEGLIGENCE OF THE CITY, OWNER, ENGINEER, OR LANDSCAPE ARCHITECT.
3. THE CONTRACTOR IS HEREBY NOTIFIED THAT PRIOR TO COMMENCING CONSTRUCTION, HE SHALL CONTACT ALL UTILITY COMPANIES FOR VERIFICATION OF THE CONSTRUCTION SITE OF THE LOCATIONS OF ALL UNDERGROUND FACILITIES WHERE SUCH FACILITIES MAY CONFLICT WITH PLACEMENT OF IMPROVEMENTS SHOWN ON THE PLAN. CALL UNDERGROUND SERVICE ALERT AT 800-642-2444 PRIOR TO ANY EXCAVATION.
4. EACH PHASE OF THE PROJECT MUST BE CALLED TO U.S.A. AND CONTINUING EXCAVATION REPORTED EVERY 14 CALENDAR DAYS, AS THE MARKINGS ARE NOT PERMANENT AND WILL FADE OUT. IF THE U.S.A. NOTIFICATIONS ARE NOT KEPT UP TO DATE, THE EXCAVATION MAY BE STOPPED AND A NEW TWO WORKING DAYS NOTICE WILL BE REQUIRED BEFORE CONTINUING THE EXCAVATION.
5. UNLESS OTHERWISE NOTED ON THE DRAWINGS, SPECIFICATIONS OR SPECIFIED IN THE SPECIAL PROVISIONS, THE CONTRACTOR SHALL MAINTAIN IN SERVICE ALL DRAINAGE, WATER, SEWER AND GAS LINES, INCLUDING HOUSE SERVICES, POWER, LIGHTING, TELEPHONE AND CABLE T.V. CONDUITS. CONTRACTOR MAY, AT HIS/HER COST, ARRANGE FOR DISCONNECTION OF HOUSE SERVICES OR OTHER FACILITIES.
6. CONTRACTOR WILL BE RESPONSIBLE FOR PROTECTING ALL EXISTING UTILITIES ON ALL PROJECTS BEING CONSTRUCTED INSIDE OR OUTSIDE OF PUBLIC RIGHTS-OF-WAY. THE UTILITY OWNER MAY ELECT TO PROVIDE THE NECESSARY PROTECTIVE MEASURES THEMSELVES AND BILL THE CONTRACTOR FOR THIS COST. EXISTING UTILITIES WILL FURTHER TRAFFIC CONTROL DEVICES, CONDUITS, STREET LIGHTS, AND ANY RELATED APPURTENANCES.
7. VERIFY ALL DIMENSIONS, DISTANCES AND GRADES IN THE FIELD AND BRING ANY DISCREPANCIES TO THE ATTENTION OF THE LANDSCAPE ARCHITECT PRIOR TO COMMENCING WITH THE WORK.
8. PROVIDE ALL CLEARING, DEMOLITION, REMOVAL, AND SITE PREPARATION NECESSARY FOR THE PROPER EXECUTION OF ALL WORK SHOWN ON THESE DRAWINGS AND DESCRIBED IN THE SPECIFICATIONS.
9. THE CONTRACTOR WILL BE HELD TO HAVE EXAMINED THE SITE AND TO HAVE COMPARED IT WITH THE DRAWINGS AND SPECIFICATIONS, TO HAVE CAREFULLY EXAMINED ALL THE CONTRACTOR DOCUMENTS, AND IS TO HAVE SATISFIED THEMSELVES AS TO THE CONDITIONS UNDER WHICH THE WORK IS TO BE PERFORMED BEFORE ENTERING INTO THIS CONTRACT. NO ALLOWANCE SHALL SUBSEQUENTLY BE MADE ON BEHALF OF THE CONTRACTOR ON ACCOUNT OF AN ERROR ON HIS/HER PART OR HIS/HER NEGLIGENCE OR FAILURE TO ACQUAINT THEMSELVES WITH THE CONDITIONS OF THE SITE OR THE STREETS OR ROADS APPROACHING THE SAME.
10. CONTRACTOR WILL ARRANGE FOR AND PAY ALL NECESSARY PERMITS FOR THE WORK SHOWN ON THESE PLANS AND INDICATED IN THE SPECIFICATIONS.
11. CONTRACTOR WILL PROVIDE POSITIVE DRAINAGE IN ALL AREAS, MIN. 2% IN PLANTING AREAS). CONTRACTOR SHALL BRING ANY DISCREPANCIES TO THE ATTENTION OF THE LANDSCAPE ARCHITECT PRIOR TO COMMENCING WITH ANY FURTHER WORK.
12. CONTRACTOR WILL REMOVE FROM THE SITE ALL DEBRIS AND UNSUITABLE MATERIAL GENERATED DURING AND BY THEIR OPERATIONS.
13. CONTRACTOR SHALL PROTECT EXISTING DRAINAGE PATTERNS UNLESS OTHERWISE NOTED ON THE DRAWINGS.
14. ALL WRITTEN DIMENSIONS WILL SUPERSEDE SCALED DISTANCES. DIMENSIONS ARE FROM FACE OF BUILDINGS, CURBS, WALLS, PROPERTY LINES OR AS NOTED ON THE DRAWINGS.
15. CONTRACTOR WILL VERIFY LOCATION OF ALL EXISTING UTILITIES BEFORE COMMENCING WITH WORK. ANY DISRUPTION OR DAMAGE TO UTILITIES CAUSED BY WORK UNDER THIS CONTRACT WILL BE CORRECTED BY THE CONTRACTOR.
16. TEMPORARY WATER AND ELECTRICAL SUPPLY WILL BE MADE AVAILABLE ONSITE FROM THE OWNER. CONTACT THE OWNER'S REPRESENTATIVES FOR EXACT LOCATION.
17. CONTRACTOR WILL PROVIDE PORTABLE SANITARY FACILITIES ADEQUATE FOR ALL WORKERS. FACILITIES ARE SUBJECT TO APPROVAL BY THE HEALTH DEPARTMENT.
18. THIS PROJECT MUST COMPLY WITH ALL REQUIREMENTS OF LOCAL OR STATE (AB325) REQUIREMENTS, WHICHEVER IS APPLICABLE FOR WATER CONSERVATION OR LANDSCAPED AREAS.
19. ALL GROUND-MOUNTED MECHANICAL EQUIPMENT TO BE SCREENED WITH LANDSCAPING. REFER TO LANDSCAPE DRAWINGS FOR DETAILS.
20. REFER TO LANDSCAPE DRAWINGS FOR EXTERIOR LIGHTING AT ENTRIES, RECREATION CENTER, TOT LOT, AND OPEN SPACE AREAS. LIGHTING TO BE LOW VOLTAGE.
21. THE PARKING LOT STRIPING AND SIGNING SHALL BE MAINTAINED IN A VISIBLE AND LEGIBLE MANNER.
22. ALL COMPLEX SIGNAGE IS NOT A PART OF THIS SUBMITTAL. A SEPARATE SIGN PERMIT APPLICATION SHALL SUBMITTED.
23. BUILDING PERMIT PLANS SHALL COMPLY WITH ALL APPLICABLE CODE REQUIREMENTS (UNIFORM BUILDING CODE - UBC, UNIFORM MECHANICAL CODE - UMC, UNIFORM PLUMBING CODE - UPC, AND NATIONAL ELECTRICAL CODE - NEC), CALIFORNIA TITLE 24 AND THE AMERICANS WITH DISABILITIES ACT - ADA REQUIREMENTS, THE ROSEVILLE BUILDING SECURITY ORDINANCE, AND ALL STATE AND FEDERALLY MANDATED REQUIREMENTS IN EFFECT AT THE TIME OF SUBMITTAL FOR BUILDING PERMITS. (CONTACT THE BUILDING DEPARTMENT FOR APPLICABLE CODE EDITIONS).
24. PROVIDE A MINIMAL CLEARANCE OF 3' AROUND ALL FIRE HYDRANTS, FIRE SPRINKLER CONNECTIONS AND VALVES.

A CHAIN LINK FENCE
NOT TO SCALE
PR-22073-40

- NOTES:
1. All posts, rails, fabric, clamps and hardware to be high-quality, hot-dipped galvanized.
 2. Chain link mesh size is 1-3/4", 9 gauge, galvanized.
 3. Operable parts shall be operable with one hand and should not require tight grasping, pinching or twisting of wrist. Force required to activate shall be 5lb maximum.
 4. For Kick-plate: parts creating horizontal or vertical joints in kick-plate/gate surfaces shall be within 1/8" of the same plane as the other and be free of sharp or abrasive edges.
 5. Installation to be completed in accordance with manufacturer's specifications.
 6. Contractor to submit shop drawings for access gate and all hardware for review and approval by Landscape Architect.
 7. After site preparation and grading, soils engineer shall review actual soils conditions and may call for revised footing depths.

- NOTES:
1. FENCE POST CENTERED IN MOWSTRIP. PROVIDE 3/8" FELT EXPANSION JOINT AROUND POST AT CONCRETE.
 2. 4" X 6" CONCRETE MOWSTRIP.
 3. COMPACTED SUB-GRADE TO 90% RELATIVE COMPACTION.
 4. 1/4" RADIUS TOOLED EDGE, TYP.
 5. FINISH GRADE.
 6. COMPACTED BASE ROCK, DEPTH AND SPECIFICATIONS PER PROJECT SOILS REPORT.
1. SEE LAYOUT PLAN FOR ADJACENT PAVEMENT SURFACES.

COUNCIL COMMUNICATION

CC #: 2584
File #: 0203-09

Title: Pleasant Grove Wastewater Treatment Plant Microturbine Service and Maintenance - Sole Source Contract Purchase Agreement
Contact: Tracie Mueller 916-774-5688 trmueller@roseville.ca.us

Meeting Date: 3/15/2023
Item #: 6.4.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council adopt a resolution to approve a sole source contract purchase agreement with Cal Microturbine for service and maintenance of the Pleasant Grove Wastewater Treatment Plant Capstone microturbines, and authorize the City Manager to execute it.

BACKGROUND

The Pleasant Grove Wastewater Treatment Plant Energy Recovery Project is completing construction and new microturbines manufactured by Capstone Turbine Corporation (Capstone) which were installed as part of the project. Capstone's exclusive Authorized Distributer, Cal Microturbine supplied the microturbines and provided start up services. The factory-supplied warranty expires on March 16, 2023, and the project specifications required submittal of a ten-year warranty and services agreement for the City's consideration. Evaluation of the cost and services included in the Capstone Factory Protection Plan – End User Agreement attached to the contract purchase agreement was reviewed by staff and found to be appropriate for the Environmental Utilities' needs for parts and maintenance of the microturbines, including a complete overhaul of the equipment in the fifth year of the ten-year agreement. This contract purchase agreement allows Environmental Utilities to have a contract in place to keep the microturbines in continual operation, which will be used to help power the Pleasant Grove Wastewater Treatment Plant and help with the payback on investment for the Energy Recovery Project.

FISCAL IMPACT

The total cost of the 10-year agreement is \$1,303,170. The cost of the service agreement for FY2023-24 is \$130,170. Funding for the first year of the agreement will be provided by the approved Wastewater Operations Fund budget for the Pleasant Grove Wastewater Treatment Plant. Future funding is contingent on the approval of the respective annual budgets.

ENVIRONMENTAL REVIEW

Implementation of the PGWWTP Energy Recovery Project was previously evaluated in the Pleasant Grove Wastewater Treatment Plant Expansion and Energy Recovery Project Final Initial Study/Mitigated Negative Declaration (IS/MND) (SCH# 2016122040) (certified by the City Council on April 6, 2017), and the Addendum to the IS/MND (SCH# 2016122040) (certified by the City Council on November 7, 2018). The services included in the contract purchase agreement for the microturbines is consistent with the project evaluated in the certified Final IS/MND and the Addendum, and consequently no additional CEQA action is required for the agreement approval.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal F - Invest in well-planned infrastructure and growth

Respectfully Submitted,

Tracie Mueller, Senior Engineer

Richard Plecker, Environmental Utilities Director

Dominick Casey, City Manager

Description

Resolution 23-091

Contract Purchase Agreement

RESOLUTION NO. 23-091

APPROVING A CONTRACT PURCHASE AGREEMENT, BY AND BETWEEN THE CITY OF ROSEVILLE AND CAL MICROTURBINE, INC., AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE

WHEREAS, a Contract Purchase Agreement (3002756) to provide service and maintenance of the Capstone microturbines installed at the Pleasant Grove Wastewater Treatment Plant, by and between the City of Roseville and Cal Microturbine, Inc., has been reviewed by the City Council.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that said contract purchase agreement is approved and that the City Manager is authorized to execute it on behalf of the City of Roseville.

PASSED AND ADOPTED by the Council of the City of Roseville this ____ day of _____, 2023, by the following vote on roll call:

This Contract Purchase Agreement is sent for your review and acceptance. Notify the Buyer via email of any needed changes to the company name, address, and contact information. The Buyer will update the agreement prior to you signing the document.

Return signed copies of the agreement to the Buyer noted on the agreement. Alterations or modifications to the agreement are not allowed. Upon receipt of all necessary documents, the City will sign the agreement and return a fully executed copy to you. Receipt of the signed copy will be your notice to proceed with the work in accordance with the terms and conditions of the agreement. Work must not begin until the contract has been fully executed.

The following guidelines must be followed for the signature block on the agreement:

Sole proprietorship - By owner

Partnership - Any general partner

Corporation - Two options:

(1) A signature from the President and the corporate seal; **OR**

(2) One signature from the Chairman of the Board, President, or any Vice President **AND** one signature from the Secretary, any Assistant Secretary, Chief Financial Officer, or any Treasurer or Assistant Treasurer of the corporation

*General Manager, Office Manager and/or Sales Manager are **not** corporate officer titles. The agreement will be rejected if not signed in accordance with these guidelines.

Insurance requirements:

The City's insurance requirements are referenced on Attachment A of the agreement. By signing the agreement, you are confirming that your company has the minimum insurance limits required.

Contract Purchase Agreement 3002756

Contract Terms and Conditions

Negotiated Ts&Cs for Cal Microturbine, revised 2/23/2023

1. To the fullest extent allowed by law, Contractor shall defend, indemnify, and save and hold harmless City, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from or arising out of Contractor's willful misconduct or negligent act or omission while engaged in the performance of obligations or exercise of rights created by this Agreement, except those matters arising from City's sole negligence or willful misconduct. The parties intend that this provision shall be broadly construed. Contractor's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.
2. Contractor is an independent contractor, and shall not be considered an officer, agent or employee of the City.
3. Without the written consent of the City, this Agreement is not assignable by Contractor either in whole or in part.
4. Time is of the essence of this Agreement.
5. At any time during the term of this Agreement, the City has the right to terminate this Agreement, provided Contractor is given thirty (30) days written notice. City's termination shall be without further liability to City; however, Contractor shall be entitled to all costs reasonably incurred prior to the date of termination. Contractor acknowledges that City may terminate this Agreement should funds not be appropriated by its governing body to continue services under this Agreement.
6. This Agreement may only be amended or modified in writing. It is integrated and contains the complete understanding of the parties.
7. All equipment, supplies and services sold to the City of Roseville shall conform to the general safety orders of the State of California.
8. Unless notified to the contrary, in writing, the City assumes that the Contractor has accepted the work in accordance with the plans and specifications (if any) and agrees to do the work in compliance with this Agreement.
9. All fair employment practices must be adhered to. In addition, if the project referenced on this service agreement is a Public Works project, all prevailing wage laws must be complied with. For prevailing wage contracts over \$25,000, copies of certified payroll must be submitted with invoices. Prevailing wage rates may be obtained from the State Department of Industrial Relations and/or the following website address: <http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm>.
10. Contractor agrees to the below insurance requirements:
 - a. Unless otherwise specified, the Contractor shall maintain the policies of insurance outlined in Attachment A, incorporated herein by this reference, in full force and effect during the term of this Agreement. The City of Roseville retains sole discretion in determining the types and proper levels of insurance

Contract Purchase Agreement 3002756

coverage.

- b. Form. Contractor shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made basis is subject to the approval of Risk Management and the City Attorney.
- c. Additional Insureds. Contractor shall also provide a separate endorsement or section of the policy showing City, its officers, agents, employees, and volunteers as additional insureds for each type of coverage, except for Workers' Compensation. Such insurance shall specifically cover the contractual liability of Contractor. The additional insured coverage under the Contractor's policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy, and shall not seek contribution from City's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office (ISO) CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be:
 - (1) the minimum coverage and limits specified in this Agreement; or
 - (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.
- d. Cancellation/Modification. Contractor shall provide thirty (30) days written notice to City prior to cancellation or modification of any insurance required by this Agreement.
- e. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of City (if agreed to in a written contract) before City's own insurance shall be called upon to protect it as a named insured.
- f. Subcontractors. Contractor agrees to include in its contracts with all subcontractors the same requirements and provisions of this Agreement, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor's work. Furthermore, Contractor shall require its subcontractors to agree to be bound to Contractor and City in the same manner and to the same extent as Contractor is bound to City under this Agreement. Additionally, Contractor shall obligate its subcontractors to comply with these same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of City's indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request.
- g. Self-Insured Retentions. All self-insured retentions (SIR) must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or City. City reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.
- h. Waiver of Subrogation. Contractor hereby agrees to waive subrogation which any insurer of Contractor may acquire from Contractor by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability or

Contract Purchase Agreement 3002756

Automobile Liability policy. All Workers Compensation, Commercial General Liability and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of City, its officers, agents, employees and volunteers for all work performed by Contractor, its employees, agents and subcontractors.

- i. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve Contractor of liability in excess of such coverage, nor shall it preclude City from taking such other actions as are available to it under any other provisions of this Agreement or law.
 - j. Nothing in the end user agreement terms shall be construed as a waiver of any recovery rights under the insurance coverage provided as required in Attachment A.
11. Contractor shall comply with all federal, state and local laws and ordinances, including but not limited to the City's storm water regulations, as may be applicable to the performance of services under this Agreement. Failure to comply with local ordinances may result in monetary fines and cancellation of this Agreement. Refer to www.roseville.ca.us/stormwater for links to more information on the City's storm water regulations.
 12. In the event that the terms of any attachment or exhibit conflict with any terms of this Agreement, the terms of this Agreement shall control.
 13. This Agreement may be executed in one or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. In the event that any signature is delivered by facsimile transmission or by e-mail delivery of a ".pdf" format data file, such signature shall create a valid and binding obligation of the party executing (or on whose behalf such signature is executed) with the same force and effect as if such facsimile or ".pdf" signature page were an original hereof.
 14. If either party commences any legal action against the other party arising out of this Agreement or the performance thereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorneys' fees. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.
 15. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.
 16. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.
 17. For purposes of this Agreement, the terms "Contractor," "Consultant," and "Supplier" are used interchangeably.
 18. If the project referenced on this agreement is a Public Works project, then the following shall apply: No contractor or subcontractor may work on a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5. During the performance of this agreement, Contractor and its subcontractors shall have a continuing legal obligation to maintain current registration with the Department of Industrial Relations. Contractor is hereby notified that this project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.
 19. If the project referenced on this agreement is a Public Works project, then the following

Contract Purchase Agreement 3002756

shall apply: Contractor must submit all claims as defined in and in accordance with the claim resolution process set forth in Section 9204 of the Public Contract Code. Each such claim must be sent to the City by registered mail or certified mail with return receipt requested and must contain reasonable documentation to support the claim. All claims must be received prior to acceptance of the work.

20. Contractor certifies that Contractor, its employees, directors, officers, agents, subcontractors, vendors, and volunteers are not presently debarred, excluded, suspended, declared ineligible, voluntarily excluded, or proposed for debarment, exclusion, suspension or ineligibility by any federal, state, or local department or agency.
21. This Agreement may be amended via change order, but only if such change order is made in writing, approved by the City, and signed by both parties.
22. CONTRACTOR agrees to defend and indemnify CITY if, despite the parties intent and practice, any venue, agency, or court with competent jurisdiction determines that CONTRACTOR and/or any of its agents, officers, employees, volunteers, independent contractors, or subcontractors, are characterized as employee(s) of CITY.

CONTRACTOR and CITY agree that: (a) CONTRACTOR is free from the control and direction of CITY in connection with the performance of the work; (b) CONTRACTOR is providing services directly to CITY; (c) CONTRACTOR has and will maintain at all relevant times a business license; (d) CONTRACTOR maintains a business location that is separate from CITY; (e) CONTRACTOR is customarily engaged in an independently established business of the same nature as that involved in the work performed hereunder; (f) CONTRACTOR actually contracts with other businesses to provide the same or similar services and maintains a clientele without restrictions from CITY; (g) CONTRACTOR advertises and holds itself out to the public as available to provide the same or similar services; (h) CONTRACTOR provides its own tools, vehicles, and equipment to perform the services; (i) CONTRACTOR has negotiated its own rates; (j) CONTRACTOR set its own hours and location of work in accomplishing CITY's on-call needs; and (k) CONTRACTOR has the right to control the manner and means of accomplishing the result desired and exercises its own expert independent judgement.

The supplier named hereon by the acceptance of this order agrees to the provisions of this document titled "Contract Purchase Agreement" and all accompanying terms, conditions, and attachments.

After using one of these methods, please **DO NOT** send the certificate by mail.

April, 2022

RE: Contractor and Grantee Compliance with Economic Sanctions Imposed in Response to Russia's Actions in Ukraine

Dear Vendor:

On March 4, 2022, Governor Gavin Newsom issued Executive Order N-6-22 (EO) regarding sanctions in response to Russian aggression in Ukraine. The EO is located at <https://www.gov.ca.gov/wp-content/uploads/2022/03/3.4.22-Russia-Ukraine-Executive-Order.pdf>.

The EO directs all agencies and departments that are subject to the Governor's authority to take certain immediate steps, including notifying all contractors and grantees of their obligations to comply with existing economic sanctions imposed by the U.S. government in response to Russia's actions in Ukraine, as well as any sanctions imposed under state law.

This correspondence serves as a notice under the EO that as a contractor or grantee, compliance with the economic sanctions imposed in response to Russia's actions in Ukraine is required, including with respect to, but not limited to, the federal executive orders identified in the EO and the sanctions identified on the U.S. Department of the Treasury website (<https://home.treasury.gov/policy-issues/financial-sanctions/sanctions-programs-and-country-information/ukraine-russia-related-sanctions>). Failure to comply may result in the termination of contracts or grants, as applicable.

Please note that for any agreements or grants valued at \$5 million or more you must report to the City of Roseville your compliance with economic sanctions including steps you have taken in response to Russia's actions in Ukraine, including, but not limited to, desisting from making new investments in, or engaging in financial transactions with, Russian entities, not transferring technology to Russia or Russian entities, and directly providing support to the government and people of Ukraine.

Sincerely,

DocuSigned by:

Shannon Wiest

NUMBER/TYPE OF TURBINES (1) – C800 SS HPDG GC	
GAS PACKS or FGB N/A	OTHER
ANNUAL PRICE: \$ 130,317.00	BILLING CYCLE: Annual

A. Factory Protection Plan Types and Optional Services

FACTORY PROTECTION PLAN TYPES ¹	
☒ Plan D – 10 year or 79,999 system hours, Parts & Labor, with Overhaul	☐ < 4000 hrs/yr. ☐ 4000-6000 hrs/yr. ☒ >6000 hrs/yr.

¹ See Section B below for description of included services for each type of Factory Protection Plan.

² The Services shall expire as specified by the Plan elected, either by years or by total run hours, whichever comes first.

Note:

1. Above pricing is only valid if executed prior to the expiration of the Manufacturer's Warranty term on the associated Microturbine Equipment.

B. Description of Factory Protection Plan Services:

FACTORY PROTECTION PLAN INCLUDED SERVICES:	PLAN A	PLAN B	PLAN C	PLAN D	Other
Maintenance Parts:					
Scheduled maintenance parts as needed. ¹	✓	✓	✓	✓	✓
Scheduled maintenance engine overhaul.	NO	NO	✓	✓	NO
Unscheduled maintenance parts as needed.	✓	✓	✓	✓	✓
Maintenance Labor:					
Scheduled maintenance labor.	No	✓	No	✓	✓
Unscheduled maintenance labor.	No	✓	No	✓	✓
Additional Services:					
Priority response to unscheduled maintenance service requests. ²	No	✓	No	✓	✓
System software upgrades as released by Capstone.	✓	✓	✓	✓	✓
Installation of system software upgrades.	No	✓	No	✓	✓

¹. Pursuant to the then current Capstone Standard Maintenance Schedule (Capstone document number 440386 Rev C dated June 2020).

². Cal Microturbine's response time shall use best efforts to ensure no more than 72 hours from notification from the City.

C. Service Conditions

1. Sites must be clean, free of debris and any other obstructions, well lit, and operating in an environment that will not cause equipment damage or excessive usage or need for replacement of consumables and filters outside the parameters of Capstone's standard service intervals.

2. Sites must be installed in accordance with all Capstone installation requirements. Installation must be performed or supervised by a currently certified Capstone Factory Trained Installer (FTI). A completed Installation Check List (ICL), signed by the FTI who performed/supervised the installation, must be on file with Capstone.

3. Sites must be commissioned in accordance with all Capstone specifications, and Capstone must have an approved Commissioning Checklist on file. Commissioning must be performed or supervised by a Capstone Authorized Service Provider (ASP), currently certified for the applicable equipment model(s).

4. Sites must be safe for personnel access and performance of all required troubleshooting and scheduled and unscheduled maintenance procedures. Where installation conditions require assistive equipment to access equipment and/or perform procedures (e.g. forklifts, ladders, etc.), site conditions and site standard operating procedures must allow for safe usage of such equipment.

5. Fuel must meet Capstone's then current Capstone Fuel Specification as defined in Capstone Technical Reference 410002 Capstone Microturbine Fuel Requirements Technical Reference.

6. For purposes of this Service Agreement, Purchasers shall communicate directly with Cal Microturbine, and Capstone shall communicate directly with Cal Microturbine. Cal Microturbine shall coordinate any communications between Purchaser and Capstone.

D. Term of Agreement

1. *Start of Services:* The Services shall commence on March 17, 2023.

2. *End of Services:* The Services shall expire as specified by the plan elected, either by years or by total run hours, whichever comes first.

E. Payment Terms

1. Payment for the Service Agreement will be made in equal annual installments as listed for each site. The first installment is due upon the Start of Services Date (see Section D above). The remaining periodic payments will be due 30 days prior to the start of each succeeding billing period.

2. Unless otherwise provided for in the payment descriptions above, payments for Services are due 30 calendar days from date of the invoicing, are stated in U.S. dollars, and exclude sales and other taxes.

3. Overdue payments shall be subject to a late charge, calculated from the date of invoice on the date of payment, equal to the lesser of 1.5% per month or the highest applicable rate allowed by law. The foregoing shall in no way limit any other remedy that may be available to Cal Microturbine, Inc.

4. Purchaser's obligations to Cal Microturbine, Inc. to pay in full all amounts owed to Cal Microturbine, Inc. as of the termination or expiration of this Agreement shall survive the termination for any reason or expiration of this Agreement.

5. Cal Microturbine, Inc. may adjust pricing for the services provided hereunder upon written notice to Purchaser should the total Consumer Price Index (CPI) exceed 3% for the 12 months immediately preceding.

6. All prices/discounts set forth are provided with the expectation that the contract will continue to be in effect for the entire duration of its specified term. However, in the event that the contract is cancelled prior to the contract end date, client will be subject to (i) reimbursement to Capstone for any amounts owed pertaining to parts shipped and/or services provided, and (iii) any additional cancellation fees which Capstone may deem appropriate to be charged on a case by case basis, not to exceed the value of one annual payment.

F. Excluded Services

The following are specifically excluded from the Agreement:

1. Changes to the original design and configuration (alterations from "as commissioned").
2. Application engineering and installation; correction of latent or discovered defects or equipment failure due to application engineering, installation, settings and/or connections. For example, damages due to inadequate ventilation.
3. Operation of the Covered Equipment outside of Capstone's operating guidelines defined in the Covered Equipment's Capstone User Manual provided during installation.
4. Usage/consumption of consumables (i.e. filters) outside the parameters of Capstone's standard service intervals as defined in the Capstone User Manual provided during installation.
5. Operation of Covered Equipment on a day-to-day basis.
6. Emissions testing or testing of exhaust gas.
7. Fuel analysis or laboratory analysis to confirm fuel composition.
8. Operator classroom training.
9. Any expenses resulting from failure to meet, or incurred as a result of, correcting deficiencies in order to meet Service Conditions specified in Section C above.

10. Large tooling required to support performing Services on the Covered Equipment, e.g. assistive lifting devices, crane or forklift rentals, etc.
11. Any expenses resulting from improper maintenance of Covered Equipment performed by any non-Capstone Authorized Service Provider.
12. Any expenses resulting from Force Majeure events.
13. Any expenses resulting from power quality disturbances (e.g. sags, surges, and harmonics) in grid-connected operation.
14. Any services requested by or performed by Purchaser which are determined, in Capstone's sole discretion, to be outside the scope of this Agreement. Capstone shall notify the Purchaser if requested work is outside the scope of this Agreement, provide cost for such work and obtain written approval from the Purchaser prior to performing work outside the scope of this Agreement.
15. Internet connection or related fees.
16. Balance of plant equipment: Cal Microturbine will provide Services for the Covered Equipment listed in Exhibit 1 only, as may be amended by the parties from time to time in writing.

Pursuant to this Services Agreement (the "Agreement"), Purchaser hereby authorizes Cal Microturbine, Inc. to provide the services described above (the "Services"), including the provision of any necessary parts (the "Parts"), on the Capstone Turbine generator systems, controls and/ or accessories identified above (the "Covered Equipment") in accordance with and subject to the terms and conditions described above.

1. The price, payment terms and scope of services for each of the Services (the "Scope of Services") are set forth in above section. If repairs or additional labor outside of the applicable Scope of Services are determined to be necessary and the required repairs are authorized by Purchaser, then additional labor and other costs and expenses will be (i) billed by CM to Purchaser at the then effective CM Factory Service Rates, as such terms and provisions are revised by CM from time to time and (ii) Parts will be billed at the then prevailing Capstone list price. If any action of CM is required outside the scope of this Agreement, mobilization charges will be as described in Capstone's then current Factory Service Rates.
2. This Agreement shall continue in effect for the term indicated in Section D of this Agreement unless Cal Microturbine terminates this Agreement by delivering to Purchaser written notice in the event of: (i) Purchaser's breach of any material term or condition of this Agreement and Purchaser has failed to remedy the breach within thirty (30) days following written notice of such breach by Cal Microturbine; or (ii) Purchaser's failure to pay when due any amount owed by Purchaser to Cal Microturbine under any agreement with Cal Microturbine. If Purchaser fails to pay when due any amount owed by Purchaser to Cal Microturbine and this Agreement is not terminated Immediately by Cal Microturbine, Cal Microturbine may delay or cease performance of Services under this Agreement until payment in full is received or other payment arrangements are agreed to, at Cal Microturbine's reasonable discretion..
3. **Cal Microturbine Services Warranty.** Cal Microturbine agrees that it will comply with applicable laws and regulations relating to its provision of the Services and such Services will be provided in a professional and workmanlike manner consistent with the applicable Scope of Services and with generally accepted industry standards and practices with regard to the type of services provided hereunder. Cal Microturbine on behalf of Capstone Turbine provides the warranties with respect to Parts and labor provided by Cal Microturbine for the applicable Covered Product.
4. **Purchaser's Representations.** Purchaser represents, warrants, and covenants that: (i) it has the right, power, and authority to enter into this Agreement and to perform fully its obligations hereunder; (ii) the making of this Agreement does not violate any agreement existing between it and any other person or entity; (iii) it has obtained or will obtain all licenses and permits necessary for Cal Microturbine to perform the Services; (iv) all information provided by Purchaser to Cal Microturbine related to the Services and its ability to pay for the Services is complete and accurate; (v) it will arrange for Cal Microturbine's access to the facilities where the Covered Equipment is located as needed to perform the Services; and (vi) it will perform all of its obligations under this Agreement to the reasonable satisfaction of Cal Microturbine.
5. **Purchaser's Obligations.** In addition to all other obligations stated in this Agreement, when requested, Purchaser shall provide Cal Microturbine with: (i) records and information concerning the Covered Equipment; and

(ii) any special tools or instruments needed for the Covered Equipment which Purchaser already possesses. Purchaser shall designate an authorized representative who shall be available to Cal Microturbine at all times while Cal Microturbine is performing the Services on Purchaser's premises. Purchaser agrees that the Scope of Services excludes all trade labor work and any supervision, management or regulation of Purchaser's employees, agents or contractors and work related thereto, and it does not include responsibility for planning, scheduling, monitoring or management of the work to be performed by Purchaser. Purchaser agrees that any written or oral reports and advice provided by Cal Microturbine to Purchaser in connection with the provision of Services shall be utilized solely by Purchaser and shall not be used or conveyed by Purchaser to any third party without a need to know for proper operation or maintenance for the Covered Equipment.

6. **Disclaimer.** EXCEPT AS SET FORTH IN SECTION 3, THE SERVICES ARE PROVIDED ON AN "AS IS" BASIS AND NO OTHER WARRANTIES, EXPRESS, IMPLIED OR STATUTORY ARE GIVEN FOR THE SERVICES, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OF MERCHANTABILITY, NON-INFRINGEMENT OR FITNESS FOR A PARTICULAR PURPOSE, AND ALL SUCH WARRANTIES ARE EXPRESSLY DISCLAIMED.

7. **Limitation of Liability in General.**

7.1 THE EXCLUSIVE REMEDY OF PURCHASER UNDER THIS AGREEMENT SHALL BE THE: CORRECTION OF NON-CONFORMITIES OF SERVICES; THE CORRECTION OF NON-CONFORMITIES OF PARTS; OR AS OTHERWISE PROVIDED IN THE SERVICE-RELATED WARRANTY.

7.2 Independent of, severable from, and to be enforced independently of any other enforceable provision of this Agreement, NEITHER PARTY SHALL BE LIABLE TO THE OTHER FOR INCIDENTAL, CONSEQUENTIAL, INDIRECT, SPECIAL, PUNITIVE, OR EXEMPLARY DAMAGES OF ANY KIND, OR FOR LOST GOODWILL, LOST PROFITS, LOST BUSINESS, COST OF COVER OR OTHER INDIRECT ECONOMIC DAMAGES.

7.3 The limitations of Cal Microturbine's obligations and Purchaser's remedies, as provided for in this Section, shall prevail over any conflicting or inconsistent provisions contained in any of the documents comprising this Agreement or any other document issued by Purchaser hereto or in any conflicting or inconsistent statement made by any representative of Cal Microturbine.

7.4 The rights, remedies and obligations of the Parties set forth in this Agreement, together with the attached exhibits, are the exclusive rights, remedies and obligations of the Parties hereunder and are in lieu of any other right, remedy, or obligation available at law or in equity.

8. **Dispute Resolution.** The Parties agree to work in good faith to resolve any disputes informally for a reasonable period of time prior to the initiation of formal dispute resolution procedures or proceedings.

9. **Confidential Information, Intellectual Property Rights.** Purchaser shall not, directly or indirectly, modify or disassemble for the purpose of reverse engineering any Covered Equipment or components thereof. All intellectual property rights and confidential information relating to the Covered Equipment, and any information provided by Cal Microturbine to Purchaser under this Agreement, shall remain the sole property of Cal Microturbine. To the extent that the Parties have entered into a nondisclosure agreement ("NOA"), the terms of such NOA are Incorporated into this Agreement. Purchaser's obligations related to confidentiality shall remain in effect and continue to bind Purchaser for five (5) years after the expiration or termination of this Agreement and Purchaser's obligation to maintain the secrecy of Cal Microturbine ' trade secret information shall continue for so long as such information is entitled to trade secret protection under California law. Purchaser acknowledges that a breach of its confidentiality obligations will cause irreparable rights, Cal Microturbine shall be entitled to temporary and permanent injunctive relief for the protection of its confidential information and intellectual property rights without posting a bond and without having to prove any actual damages.

10. **Miscellaneous**

10.1 **Governing Law.** This Agreement is governed by the laws of the State of California (as such laws are applied to contracts made and performed entirely within California, without regard to California 's conflicts of laws, provisions) and federal laws applicable to patents and trademarks.

10.2 Survival. All provisions of this Agreement will survive its termination to the fullest extent necessary to give the Parties the full benefit of the bargain expressed in this Agreement. Notwithstanding the foregoing, Purchaser agrees that upon completion of the Services, any and all Service-Related Warranties shall expire as of such date.

10.3 Assignment. Purchaser may not assign this Agreement without the prior written consent of Cal Microturbine. Cal Microturbine may assign this Agreement to an entity wholly-owned by Cal Microturbine without the consent of Purchaser. Upon termination or expiration of Cal Microturbine's Agreement with Capstone Turbine Corporation, this contract to provide Services shall automatically be assigned to Capstone or to another distributor designated by Capstone.

10.4 Severability. If any provision of this Agreement or the terms and conditions set forth herein is declared or found to be illegal, unenforceable, or void, the remaining provisions of this Agreement shall remain in full force and effect, subject to the immediately following provisions. In the event any provision of this Agreement is declared or found to be illegal, unenforceable or void, the Parties agree to negotiate in good faith a substitute provision that is legal and enforceable and is as nearly as possible consistent with the intentions underlying the original provision. If the remainder of the Agreement is not materially affected by such declaration or finding and is capable of substantial performance, then such remainder will be enforced to the extent permitted by law.

10.5 Independent Review and Advice. Each Party has full knowledge of the contents of this Agreement its legal consequences and any and all rights which each may have with respect to one another. Each Party has had the opportunity to receive Independent legal advice with respect to this Agreement and each Party enters into this Agreement of its own free will. The Parties expressly agree that there are no expectations contrary to the Agreement and no usage of trade or regular practice in the industry shall be used to modify any of the terms and provisions of the Agreement.

10.6 Entire and Sole Agreement. This Agreement constitutes the complete agreement with respect to the Services and supersedes all prior or contemporaneous proposals, agreements, representations, discussions and literature, written or oral, concerning the Services. This Agreement is not intended to change or alter any of the rights, duties, obligations, liabilities or limitations set forth in any other agreements between the Parties. The Parties' obligations with respect to confidential information reverse engineering and/or trade secrets shall be governed by, if applicable, the Direct Sales Agreement.

10.7 Waiver. No waiver by either Party of any term contained herein (or any breach thereof) shall be effective unless it is in writing executed by the party waiving such term (or any breach thereof). No waiver shall be deemed or construed as a further or continuing waiver of any such term (or any breach thereof) on any other occasion or as a waiver of any other term (or any breach thereof) on the same or any other occasion. The delay or failure of any Party in providing written notice hereunder shall not constitute a waiver by such Party of any default or any further default under the Agreement.

10.8 Amendments . This Agreement may not be modified or amended except in writing signed by a duly authorized representative of each Party.

10.9 Force Majeure. Each Party's performance shall be suspended (other than the obligation to pay monies due) for so long as such performance is hindered by events beyond its reasonable control. ("**Force Majeure**"), such as, but not limited to riots, forma labor disputes, national or civil wars, insurrections, rebellions, terrorist acts, embargoes, civil disturbances, earthquakes, dispositions or orders of governmental authority, acts of civil or military authority, fires, strikes, delays in transportation, and acts of God. Any delays resulting from a Force Majeure shall extend the time for performance correspondingly. If a failure to perform results from a governmental law, rule, regulation, disposition or order and the affected Party is unable to perform, after making reasonable efforts to comply, the matter shall be deemed a Force Majeure.

10.10 No Third-Party Beneficiaries. None of the terms of this Agreement are intended to confer to or benefit any person or entity other than the Parties to this Agreement any rights, remedies or other benefits under or by reason of this Agreement.

1. Introduction

1.1. Purpose and Scope

This document lists standard maintenance intervals for Capstone C200 and C1000 Series MicroTurbine® systems and major accessories.

All maintenance procedures must be performed by an **Authorized Service Provider (ASP)**.

	NOTE Refer to specific Work Instructions to replace components or to complete the maintenance listed. Many procedures are linked to Work Instructions or other documents.
---	--

Scheduled maintenance intervals assume the microturbine is operating in controlled environmental conditions. Systems operating in extreme or unusual conditions may require different service and maintenance intervals. Actual service intervals are dependent on system load demands, site conditions, fuel quality, and performance of routine preventive maintenance.

Maintenance intervals shown in hours are elapsed operating hours. Maintenance intervals shown in months are elapsed calendar months.

1.2. Capstone Document Links

The following is a list of helpful Capstone documents linked in these Work Instructions. For your convenience, a link to a Work Instruction or other document is placed with most maintenance operations.

Click on the document number (in blue) to view the linked document.

- ☐ [400003](#) Recommended Tools, Capstone MicroTurbine

1.3. Safety Procedures

Become familiar with general safety precautions in the C200 and C1000 Series MicroTurbine User's Manual (**400008/400024**). Follow all warnings and cautions in this and referenced Work Instructions to reduce the risk of death, injury or equipment damage.

Before performing most service and maintenance procedures:

- ☐ Close main fuel supply valve as required or instructed for procedure.
- ☐ Disconnect system from the utility. Isolate and lock out the utility (if applicable).
- ☐ Isolate and lock out any other sources of power to the microturbine. For example, connections to the solid state relays in the microturbine Communications Bay.
- ☐ If battery pack is installed, set and lock battery pack circuit breaker OFF, and disconnect/unplug battery cables.
- ☐ Ensure above power sources are OFF and the system has been disconnected for at least 10 minutes to reduce electric shock hazards.
- ☐ Maintain proper microturbine frame electrical ground.
- ☐ Verify with digital VOM that no voltage is present on the DC bus.
- ☐ Do not work on energized equipment unless specifically instructed to do so.
- ☐ Do not work on hot surfaces.
- ☐ For Hazardous Locations (HazLoc) Package applications (e.g., ATEX or CID2), the pressurized enclosure shall not be opened unless:
 - the system is not in operation;
 - the surrounding/adjacent area is known to be free of flammable materials;
 - the local atmosphere is not explosive;
 - the microturbine indicated internal temperature is below 450°C (842°F);
 - all devices have been isolated and de-energized for five minutes.

Warning labels similar to the following are attached to systems in these applications.

1.4. Safety Symbols

Capstone uses the following symbols with safety warning messages to alert you to potential hazards to people or equipment, and to provide additional information for proper equipment operation.

	HIGH VOLTAGE WARNING: Identifies a high voltage hazard that can result in personal injury or death.
	ELECTRIC SHOCK WARNING: Identifies a hazardous voltage area that can cause personal injury or death from electric shock if touched.
	FLAMMABLE MATERIAL WARNING: Identifies a flammable or explosive material hazard that can result in personal injury or death. No open flame or smoking allowed.
	SUFFOCATION WARNING: Identifies asphyxiation hazard that can result in personal injury or death.
	HOT SURFACE/AREA WARNING: Identifies a hot surface or area that can result in personal injury.
	CORROSIVE MATERIAL WARNING: Identifies corrosive material hazard that can result in personal injury.
	ACOUSTIC EMISSIONS WARNING: Identifies sound level hazard that can result in personal injury. Hearing protection is required.
	PACEMAKER WARNING: The turbine generator produces a magnetic field that can be harmful to pacemaker wearers. Pacemaker wearers must stay more than 30 cm (12 in.) away from an operating turbine engine.
	NOTE: Clarifies instructions or highlights important information.

2. Maintenance During Storage

2.1. Basic Storage Requirements (up to 6 Months)

1. For initial inspection purposes or maintenance tasks during storage, carefully remove original packaging/crating. Do not destroy or discard packaging materials. Reinstall packaging after initial inspection and before placing system into storage.
2. Keep system as dry as possible. Prevent moisture from entering protective packaging.
3. Maintain batteries. Refer to **Battery Maintenance** below.
4. Store system at temperature between -40°C (-40°F) and 65°C (149°F), and at relative humidity of 40 percent or less, if possible.
5. **For liquid fuel systems:** Purge all fuel from system before storage.

2.2. Extended Storage Requirements (6 Months or longer)

1. Perform tasks listed under **Basic Storage Requirements** above.
2. For maintenance tasks during extended storage, carefully remove original packaging/crating. Do not destroy or discard packaging materials. Reinstall packaging between maintenance activities while system is in storage. Intake and exhaust sealing caps for desiccant **MUST** remain installed during storage, except as necessary to replace desiccant.
3. If storage time will extend beyond six months, replace desiccant and perform manual engine rotation check at the beginning of extended storage time. Refer to Desiccant Kit Replacement Work Instruction (**440297**) and Locked Rotor Identification Work Instruction (**440289**).
4. Replace desiccant and perform manual engine rotation check every 12 months and whenever intake and exhaust sealing caps are removed. Refer to Desiccant Kit Replacement Work Instruction (**440297**) and Locked Rotor Identification Work Instruction (**440289**). Note that rotation alone will not prevent sticking from occurring.
5. Keep system as dry as possible. Prevent moisture from entering protective packaging.
6. In high humidity conditions (greater than 60 percent relative humidity continuous long term), consult with local commercial water damage prevention and remediation providers to prepare/preserve system(s) for high humidity conditions.
7. Maintain batteries. Refer to Battery Maintenance below.
8. Repack system in original packaging/crating or equivalent before shipping system to final installation site.

2.3. Battery Maintenance (If Equipped)

Microturbines equipped with the Dual Mode option are equipped with sealed lead acid (SLA) batteries. During system operation, battery packs are charged automatically. During periods of

Capstone Turbine Corporation
Maintenance Guide: Capstone C200/C1000 Series Microturbine

extended system down time or during storage, battery packs will self-discharge and require periodic recharging (**440073**).

If possible, do not store battery-equipped systems or battery packs at temperatures above 40°C (104°F). Battery life may be shortened during long-term storage above this temperature.

Fully charge the battery pack before placing system into storage, at recharge intervals shown in the table and again when the system is put into or returned to service.

If battery-equipped systems will be stored for 6 months or longer, recharge the battery pack as shown in the following table. Charging the battery pack during storage will reduce the possibility of shortened battery life during storage up to one year. Battery life may be reduced during storage times longer than one year even with proper battery maintenance.

Recharge intervals for battery packs in storage with the battery circuit breaker/isolation switch OFF depend on ambient storage temperatures. Do not exceed the battery pack recharge intervals shown in the following table. Recharge intervals also apply to UCB/JUCB batteries stored unplugged from UCB/JUCB.

Storage Temperature	Recharge Interval (Days)
< 20°C (68°F)	180
20°C (68°F) to 30°C (86°F)	90
30°C (86°F) to 40°C (104°F)	45
40°C (104°F) to 50°C (122°F)	20
50°C (122°F) to 60°C (140°F)	5

The battery circuit breaker acts as an isolation switch to allow battery disconnection for system service or for long-term system storage. Set battery circuit breaker to **OFF** under any of the following conditions:

- while performing microturbine maintenance/service tasks;
- when transporting the microturbine;
- if microturbine will not be operated for a period longer than 14 days.

2.3.1. Sleep Mode

Batteries start the microturbine and produce transient power immediately after start-up when operating in Stand Alone mode.

They must be recharged more often and maintained at a higher state of charge (SoC) while the system is in Sleep mode. Ambient storage temperatures determine recharge intervals during Sleep Mode as specified in the following table.

If battery voltage is 180VDC or less, perform a Grid Connect Idle Recharge at the intervals shown in the table. If the microturbine cannot be operated, use the Capstone External Battery Charger (**440073**, **440276** HazLoc) to recharge the battery pack.

NOTE

Recharge intervals in the following table do not apply to UCB/JUCB batteries.

Ambient Temperature	Recharge Interval (Days)
< 20°C (68°F)	35
20°C (68°F) to 30°C (86°F)	22
30°C (86°F) to 40°C (104°F)	15
40°C (104°F) to 50°C (122°F)	10
50°C (122°F) to 60°C (140°F)	7

NOTE

If the system will be in Stand Alone Sleep Mode for more than 5 to 7 days, disconnect modem (if installed) to avoid UCB/JUCB battery discharge.

2.3.2. Automatic Battery Charge

The microturbine system will maintain the battery pack at approximately 80 percent SoC during operation. This allows for sourcing and power transient sinking in Stand Alone Mode. After an **OFF** command, the system will continue to run and will recharge the battery to at least 95 percent SoC or for 45 minutes, whichever occurs first.

2.3.3. Equalization Charge

During normal use, battery cell capacity and charge becomes unequal. The microturbine can be programmed to perform an equalization charge cycle to maintain a consistent charge across all cells. The time to complete an equalization charge may be up to 4 hours.

Use **Capstone Remote Monitoring Software (CRMS)** to set charge intervals (see appropriate CRMS Manual (Table 1).

If the system is not operating or is in storage, and is connected to the electric utility grid, command a manual equalization charge as follows:

From **Display Panel**

System Data Menu: Enter Password.

Navigate to:

Stand Alone > Local Batt Chg > Enable: Press **Accept**

From **CRMS/CRMS-APS**

Select **Settings:** Battery Management

Set **Equalization Charge** slider to **Enable**

3. General Maintenance Procedures

3.1. General Cleaning and Inspection

During any site visit perform the following:

1. Inspect all enclosure panel/door seals and exhaust stack seal(s)/gasket(s). Ensure all gaskets are present, intact and that there are no gaps between gaskets and doors. Replace any damaged seal(s)/gasket(s).
2. Inspect all air intake paths – engine combustion air and electronics cooling air. Remove dirt and debris, clean air paths as necessary.
3. Inspect all engine exhaust paths. Remove dirt and debris, clean exhaust paths as necessary.
4. Inspect and remove debris from enclosure interior. Use vacuum cleaner and/or damp, lint-free cloths as necessary to remove debris.
5. Inspect all fuel system fittings and components for leaks. Tighten fittings, repair leaks, and/or replace damaged components, as required.
6. Inspect and secure any loose cables and harnesses.
7. Ensure that no cables or flexible conduits rest on either the brake resistors or High Power Connection Module (HPCM).
8. Inspect surrounding area (3m/10ft radius where possible) for excessive dirt, dust or other sources of air contamination. Clean surrounding area thoroughly to reduce dirt and dust intake into microturbine. Refresh gravel at sites where gravel is used to reduce fine ground-level dirt.
9. Inspect enclosure sides and roof for damage and chipped/peeling paint. Touch up paint if necessary.

3.2. Site Air Quality, Air Filter and Internal Component Maintenance

All air contains pollutants. While many of these pollutants are harmless to the microturbine system, some air-borne substances will or can cause serious engine damage.

Pollutant particles range in size from small chemical and smoke particles (such as suspended salts, minerals and corrosive compounds) to large substances (such as industrial dusts and insects).

Environmental and seasonal variations affect air quality. Agricultural activity, natural vegetation growth (sap, pollen, seeding, etc.), construction, and nearby industrial operations all contribute to air-borne particulates. High concentrations of these particles is considered *adverse air quality*.

Capstone provides air filters for standard applications to trap harmful particles in the engine intake air. Aluminum mesh filters trap particles larger than 15 microns in the enclosure and heatsink air

flow. Engine intake air and enclosure air filters require periodic cleaning or replacement as shown in the maintenance tables.

Particles will cling to surfaces inside the system enclosure. When mixed with naturally occurring moisture, this particle buildup may form restrictions to air flow over heatsinks and other components that rely on cooling air flow. Overheating can occur, and lead to reduced performance and/or system shutdown or failure. Other electronic and mechanical devices can be adversely affected by poor air quality. Corrosion, caked-on dirt or discolored component surfaces may be signs of adverse air quality.

3.2.1. Site-Specific Air Filter Replacement Interval Evaluation

At sites where adverse air quality exists, establish a site-specific air filter and heatsink cleaning service interval as follows.

1. Establish a site air quality profile for new/newly commissioned systems.
 - a. Evaluate environmental air for obvious pollutants. Observe any active agricultural, industrial, heavy construction activity, vehicle exhaust or natural pollution sources such as bodies of water, large trees, dense insect populations, etc.
 - b. Create a short written description of obvious site pollutants and save with system maintenance records.
 - c. Check engine air filter differential air pressure value (CRMS-Maintenance Edition, Microturbine Data Window 3, parameter 219) via remote access every 30 days or 750 running hours for one year to establish a seasonal-cyclic baseline for long-term, routine inspection. A value greater than .289 psia (8" WC) indicates a warning to replace the filter. A value of .4335 (12" WC) indicates a clogged filter that must be replaced immediately. When filters are replaced, examine filters carefully and note filter condition (amount of clogging) and contaminants present. See Figure 1 (CRMS-Maintenance Edition v5.6 shown; other versions similar).

Data Window
Parameter 219

System: Unit_1				MicroTurbine Data 3			
No	Parameter (Units)	Value	Record	No	Parameter (Units)	Value	Record
217	KiloVoltAmperesReactive	0	OFF				
218	KiloVoltAmperes	0	OFF				
219	Diff Air Pressure (psia)	0.00	OFF				
220	Over Freq Delta Power (W)	0	OFF				
221	Inverter Master	0	OFF				

Figure 1. Engine Air Filter Differential

2. Use site profile information to supplement air filter inspection and replacement intervals listed in scheduled maintenance tables.
3. Also monitor system for "9043" fault declarations, which may indicate that IGBT heat sinks are overheating due to contaminant buildup and require cleaning.

4. Fuel System Inspection and Maintenance

4.1. Gaseous Fuel Fittings and Components

Inspect the entire fuel system for leaks according to the maintenance schedule and whenever a fuel system component is loosened, disconnected or replaced.

1. Inspect all fittings, connections, filters, valves, and gas compressors for leaks, from the fuel supply inlet into the microturbine. Tighten fittings, repair leaks, and/or replace damaged components, as required.
2. To leak check upstream of the microturbine internal fuel shutoff valve, check the fuel line and all fittings for leaks using a leak detector such as Snoop®, soapy water, or a gas sniffer. Capstone kit 610125-1XX contains Loctite® #567 and instructions for use with NPT fittings (**440147**).
3. To check the fuel system downstream of the microturbine internal fuel shutoff valve, proceed as follows:

	⚠ ELECTRICAL WARNING ELECTRICAL HAZARD! Use extreme caution and wear appropriate PPE (Personal Protective Equipment) when working on energized equipment. Failure to obey this warning may result in personal injury or death.
--	---

- a. Start engine.
 - b. With engine running at idle, use leak detector to check fuel tubes and fittings, fuel regulator (if installed), fuel filter and manifold connections for leaks. If using a liquid leak solution, absorb excess liquid with shop towels to ensure no liquid drops onto the electronic controllers.
 - c. If a gaseous fuel leak is found, stop the system immediately. Close the main fuel supply valve. Repair the leak. Tighten fittings to specified torque (**440072**). Capstone kit 610125-1XX contains Loctite® #567 and instructions for use with NPT fittings (**440147**).
 - d. If a compression fitting cannot be sealed, do not tighten past specified torque (**440072**). Order and install a replacement tube and fitting.
4. After tightening or replacing a fitting, open fuel supply inlet valve, start engine, and confirm that leak has been repaired.

	NOTE When compressor is operating at 0 kW demanded load, compressor bottom sight glass must be ½-full and top sight glass must be empty.
---	---

5. **For LPNG microturbines:** Check oil levels in primary oil separator, and add or remove oil as needed. See note above regarding turbine operation and required oil levels.
6. If a gaseous fuel leak persists, contact Capstone Technical Support.

4.2. Liquid Fuel Fittings and Components

	⚠ WARNING FUEL EXPOSURE HAZARD! Wear appropriate personal protective equipment including fuel-resistant gloves and eye protection when handling fuel system components. Exposure to liquid fuel may cause skin and eye irritation or injury.
---	---

Inspect the entire fuel system for leaks according to the maintenance schedule and whenever a fuel system component is loosened, disconnected or replaced. Leak check fuel filter housing after fuel filter inspection.

1. Inspect all fittings, connections, filters, fuel pumps, and valves from the fuel supply inlet into the microturbine for fuel build-up and/or leaks. Tighten fittings, repair leaks, and/or replace leaking or damaged components.
2. Check for excessive fuel build-up on surfaces of components and assemblies where fuel may drip and accumulate. Evidence of fuel leakage may include small liquid puddles or oily dirt smudges. Tighten fittings and/or replace leaking or damaged components.
3. If a liquid fuel leak persists, contact Capstone Technical Support.
4. Check oil level in air assist compressor.
 - a. If system is operating, compressor sight-glass should be 1/2 covered by oil. If level is lower, add oil.
 - b. If system is not operating, check oil as follows:
 - i. Make sure compressor vent cycle is complete.
 - ii. Open test valve to vent pressure from the aftercooler and pipework.
 - iii. Make sure that compressor pressure gauge indicates 0 psi.
 - iv. Oil should completely cover sight-glass. If level is lower, add oil.

5. Scheduled Maintenance Tables

Following are the Scheduled Maintenance Tables for Capstone Model C200/C1000 Series systems. For each system type addressed, the first table covers the first 80,000 hours of operation, and the following table covers 80,000 hours to 160,000 hours.

5.1. Capstone System Scheduled Maintenance Tables

Following are the Microturbine system maintenance tables. Maintenance tables for Microturbine Accessories following Section 5.2.

Capstone Turbine Corporation • 16640 Stagg Street • Van Nuys • CA 91406 • USA
Maintenance Guide: Capstone C200/C1000 Series Microturbine

6. Responsibility

It is the responsibility of Capstone to:

- Make these procedures available to Authorized Service Providers so they can successfully complete this task.

It is the responsibility of the Authorized Service Provider to:

- Read this document, understand its contents, and effectively complete procedures.
- Upon completion of service, submit a Field Service Report (420006) or Interactive Field Service Report (420006) to service@capstoneturbine.com.

7. Capstone Technical Support

If you have questions or need assistance, please contact Capstone Customer Service:

- E-mail: service@capstoneturbine.com
- Toll Free Telephone: (866) 4-CAPSTONE or (866) 422-7786
- Direct Telephone: (818) 407-3600

7.1. Capstone Document Library

The latest revisions of all Capstone product documents are available on our website. Select this link and login: http://documents.capstoneturbine.com/_login.

Capstone values your feedback. Please email comments or suggestions for improving documentation to techpubs@capstoneturbine.com and enter "Documentation" in the subject line.

COUNCIL COMMUNICATION

CC #: 2595

File #: 0900-02 & 0900-03

Title: Utility Exploration Center Exhibit Fabrication and Installation Project – Award of Design-Assist Construction Agreement

Contact: Rana Moore 916-774-5581 rcmoores@roseville.ca.us

Meeting Date: 3/15/2023

Item #: 6.5.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council:

1. Award a Design-Assist Construction Agreement for the UEC Exhibit Fabrication and Installation project with Moey Inc. in the amount of \$1,391,980; and
2. Adopt a resolution authorizing the City Manager to execute the Design-Assist Construction agreement for the project and provide change order authority of 10% of the contract amount.

BACKGROUND

The Utility Exploration Center (UEC) is an environmental learning center operated by the City of Roseville's utilities. The exhibits have not had a major overhaul since the UEC opened in 2008. Since opening, the UEC has served over 600,000 program participants through facilitated school tours, visitor center permanent and changing exhibits, special events, green living workshops, and outreach programs.

Roseville Electric Utility purchased a four-story, 56,248 square foot building at 116 S. Grant Street in January 2020. Development of the building has enabled the utility to provide a one-stop shop for all customer service needs, and is planned to include utility demonstration exhibits that will highlight utility topics or initiatives.

This Design-Assist Construction Agreement is for services to demolish existing UEC exhibits, to fabricate and install updated exhibits for the UEC, and to install a portion of the exhibits for the building at 116 S. Grant Street.

On October 12, 2022, a request for proposals (RFP) for construction services of the exhibits, using a Design-Assist project delivery method, was published. On November 21, 2022, five proposals were received by the City Clerk's office. Based upon review of the proposals by the Proposal Evaluation Committee, two shortlisted proposers were selected for interview. Moey Inc. was identified as the highest ranked using the evaluation criteria outlined in the RFP. Staff therefore recommends that the contract be awarded to Moey Inc.

FISCAL IMPACT

The total contract value of the agreement with Moey Inc. is in the amount of \$1,531,178.00. Of this contract amount, \$1,526,327.00 is for the UEC Exhibit Fabrication and Installation Project, and \$4,851.00 is for the 116 S. Grant Street Tenant Improvements Project. Funding for this agreement is as follows:

1. UEC Exhibit Fabrication and Installation Project budget (#500065) which is funded as follows: Roseville Electric Fund (50%), Water Rehabilitation Fund (16.67%), Wastewater Rehabilitation Fund (16.67%), and Waste Services Rehabilitation Fund (16.66%).
2. 116 S. Grant Street Building: Roseville Electric's 116 S. Grant Street Tenant Improvements Project budget (#500160) is in the Electric Fund.

No additional funds are required at this time.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) only applies to projects which have the potential to cause a significant effect on the environment. Where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA. (CEQA Guidelines §15061(b)(3).

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal B - Support community engagement and advocacy

Respectfully Submitted,

Rana Moore, Associate Engineer

Richard Plecker, Environmental Utilities Director

Dominick Casey, City Manager

RESOLUTION NO. 23-097

APPROVING A DESIGN-ASSIST CONSTRUCTION AGREEMENT, BY AND BETWEEN
MOEY, INC., AND THE CITY OF ROSEVILLE, AND AUTHORIZING THE CITY
MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE

WHEREAS, a Design-Assist Construction Agreement for the Utility Exploration Center Exhibit Fabrication and Installation Project, by and between Moey, Inc., and the City of Roseville, has been reviewed by the City Council; and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that said agreement is hereby approved.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is authorized to approve change orders for the project, consistent with the contract terms, provided that the net cost of all change orders shall not exceed ten percent (10%) of the contract price.

PASSED AND ADOPTED by the Council of the City of Roseville this ____ day of _____, 20_, by the following vote on roll call:

DESIGN-ASSIST CONSTRUCTION AGREEMENT

UTILITY EXPLORATION CENTER EXHIBIT FABRICATION AND INSTALLATION

This Design-Assist Construction Agreement (“Agreement”) is made and entered into on this _____ day of _____, 2023, by and between the CITY of Roseville, a municipal corporation (“CITY”), and MOEY INC., hereinafter referred to as “CONTRACTOR”).

RECITALS

WHEREAS, CITY issued a Request for Proposals for the Utility Exploration Center Exhibit Fabrication and Installation RFP #08-106 (“RFP”), which is incorporated fully herein by reference, pursuant to which CITY solicited proposals from design-assist contractors to construct the Utility Exploration Center Exhibit Fabrication and Installation Project; and

WHEREAS, CONTRACTOR has submitted a proposal, dated December 19, 2022 attached hereto and made a part hereof as Exhibit B – “Contractor’s Proposal”, and CITY has selected CONTRACTOR to provide design and construction services as set forth in this Agreement; and

WHEREAS, CONTRACTOR is ready, willing and able to perform the aforementioned services required in accordance with the terms and conditions of this Agreement; and

NOW, THEREFORE, CITY and CONTRACTOR agree as follows:

ARTICLE 1 - DEFINITIONS OF LANGUAGE USED, WORDS AND TERMS

Where used in the Contract Documents, the following words and terms shall have the meanings indicated. The meanings shall be applicable to the singular, plural, masculine and feminine of the words and terms.

The Contract Documents include the terms “as allowed,” “as approved,” “as ordered”, “as directed” or terms of like effect to authorize an exercise of professional judgment by the CITY, Construction Manager or Designer. The adjectives/terms “reasonable,” “suitable,” “acceptable,” “proper,” “satisfactory,” and “of like effect” are used to describe an action or determination of the CITY, Construction Manager or Designer as to the Work. It is intended that such exercise of professional judgment, action or determination will be solely to evaluate, in general, the Work for compliance with the requirements of and information in the Contract Documents and conformance with the design concept of the completed Project as a functioning whole as shown or indicated in the Contract Documents (unless there is a specific statement indicating otherwise). The use of any such term is not intended to and shall not be effective to assign to CITY, Construction Manager or Designer any duty or authority to supervise or direct the performance of the Work or any duty or authority contrary to the other provisions of the Contract Documents.

Specification Section Paragraphs entitled "Section Includes" summarize briefly what is generally included in the section. Requirements of Specifications are not limited by "Section Includes" paragraphs.

Specifications and Drawings have been partially streamlined by intentionally omitting words and phrases, such as "the Contractor shall," "in conformity therewith," "shall be" following "as indicated," "a," "an," "the" and "all." The phrases "by CITY’s Representative", “by Designer”, and “by Construction Manager” modify words such as "accepted," "directed," "selected," "inspected," "permitted," “submit”,

“report”, and “satisfactory” when they are unmodified. Words "Contractor shall" are implied when direction is stated.

Colons (:) are used to introduce a list of particulars, an amplification, or an illustrative quotation. When used after designation of product, colons are used in place of words “shall be.”

Whether the term or phrase is capitalized or in all capitals (for example, Contractor or CONTRACTOR) in the Contract Documents shall be deemed to be the same for purposes of the Definitions of Language Used, Words and Terms.

- 1.1. **“Agreement” or “Contract”** means this Design-Assist Construction Agreement, its exhibits, and all amendments and/or modifications hereto executed by the parties. The defined terms “Contract” and “Agreement” may be used throughout interchangeably and should be considered as one in the same defined term.
- 1.2. **“Allowance” or “Construction Allowance”** is an amount of money set aside under the Contract for a special purpose identified and defined in the Contract Documents. Voluntary Allowance items are described by Contractor in Exhibit C – Guaranteed Maximum Price, Fee, and Cost of Work and are included in the total GMP.
- 1.3. **“Applicable Laws”** means all laws, codes, ordinances, rules and regulations of **governmental** authorities having jurisdiction over the Site and/or the Work.
- 1.4. **“Application for Payment”** means the document prepared by CONTRACTOR and **submitted** to CITY showing CONTRACTOR’s entitlement to progress payments, the requirements of which are more fully described in Article 8 hereof.
- 1.5. **“Architect/Engineer”** means a licensed professional(s) (and/or entity(ies)), who provides architectural and/or engineering services as may be required by the Work. The Architect/Engineer shall be registered in the State of California and the architect and/or engineer of record for the Work pursuant to their design responsibilities.
- 1.6. **“Asbestos”** is any material that contains more than one percent asbestos and is friable or is releasing asbestos fibers into the air above current action levels established by the United States Occupational Safety and Health Administration.
- 1.7. **“Authorized Representatives”** means the Design-Assist Team and those individuals appointed by CITY and CONTRACTOR from time to time in accordance with the provisions of Article 4.2.1.
- 1.8. **“Beneficial Occupancy” or “Beneficial Occupation”** is a term that can be used to describe a distinct portion of the Work, that in the CITY’s Representative’s opinion, is capable of being used for its intended purpose, even though it may have some minor deficiencies, including outstanding punch list items to complete.
- 1.9. **“Business Day”** means any day when the office of the CITY Clerk of the CITY of Roseville is open for business.
- 1.10. **“Certificate of Substantial Completion”** means a certificate prepared by CONTRACTOR in accordance with Article 8.13 and forwarded to CITY.
- 1.11. **“Certificate of Final Completion”** means a certificate prepared by CONTRACTOR and forwarded to CITY stating that the Project is finally complete and that CONTRACTOR is entitled to Final Payment in accordance with Article 8.14 hereof.
- 1.12. **“Change Directive”, “Change Order”, or “Construction Change Directive (CCD)”** is a written order prepared by the Construction Manager and signed by the CITY, directing a change in the Work and stating a proposed basis for adjustment, if any, in the Contract GMP amount or

Contract Time.

- 1.13. **“Change Proposal”** means a proposal for a Change Order submitted by CONTRACTOR to CITY, either at the request of CITY, or at CONTRACTOR's own initiative.
- 1.14. **“CITY”** refers to the CITY of Roseville, the governing body of which is termed the “CITY Council”.
- 1.15. **“CITY’s Representative”** is the person(s) designated by the Director of the CITY’s Environmental Utilities Department who has been duly authorized to exercise control and supervision of the Work. A CITY’s Representative generally will be either a professional engineer or architect, depending on the nature of the Work, but is not required to be a professional engineer or architect. The CITY may change the individual(s) acting as the CITY’s Representative(s), or delegate one or more specific functions to one or more specific CITY’s Representative at any time without notice and without liability to Contractor. Each CITY’s Representative is the beneficiary of all Contractor obligations to CITY, including without limitation, all releases and indemnities
- 1.16. **“Claim”**. A demand or assertion by the Contractor seeking an adjustment of the GMP or Contract Times, or both, or other relief with respect to the terms of the Contract. A demand for money or services by a third party is not a Claim.
- 1.17. **“Construction Documents”** means the plans and specifications prepared by the Design Assist Team for the Project, approved by CITY, and incorporated into this Agreement by reference after such approval, to be used to construct the Project. The Construction Documents shall set forth in detail all items necessary to complete the construction of the Project in accordance with the Contract Documents (subject to their completion following commencement of the Construction Phase). All amendments and modifications to the Plans and Specifications must be approved by CITY prior to incorporation into this Agreement. CONTRACTOR’s attention is hereby directed to the confidentiality requirements of Article 2.12.
- 1.18. **“Construction Consultant”**. The CITY may retain a Construction Consultant(s) as it deems necessary to assist/advise the CITY staff and/or other CITY consultants during the progress of the Work. Any Construction Consultant retained by CITY for this Project will not have any formal contract administration responsibilities. The Construction Consultant(s) is the beneficiary of all Contractor obligations to CITY, including without limitation, all releases and indemnities.
- 1.19. **“Construction Manager”** is the person designated, in writing, by the CITY to act as its representative at the Site and to perform administrative functions relating to this Agreement. The Construction Manager shall also furnish inspection services as provided by the contract between the Construction Manager and the CITY. All contact between the Contractor and the CITY shall be through the Construction Manager; unless otherwise specified or directed. Only the CITY may modify the Agreement. The CITY may assign all or part of the CITY’s Representative’s duties, rights and responsibilities to the Construction Manager. The Construction Manager is the beneficiary of all Contractor obligations to CITY, including without limitation, all releases and indemnities.
- 1.20. **“Construction Phase”** means the period beginning with the issuance of the Construction Notice to Proceed (NTP) and ending on the date of Final Completion of the Project.
- 1.21. **“Construction Work”** means that portion of the Work consisting of the provision of labor, materials, equipment and services in connection with the construction of the Project as set forth in the Contract Documents.
- 1.22. **“Contingency Costs”** means those items of Cost of the Work attributable to a contingency for which CITY is responsible and which are payable by CITY to CONTRACTOR pursuant to a

Change Order as provided in Article 9.7-CHANGE ORDERS ON ACCOUNT OF CONTINGENCIES.

- 1.23. **“Contract”** means this Design-Assist Construction Agreement, its exhibits, and all amendments and/or modifications hereto executed by the parties. The defined terms “Contract” and “Agreement” may be used throughout interchangeably and should be considered as one in the same defined term.
- 1.24. **“Contract Documents”** means 1) this document (Agreement) and its Exhibits, 2) the Technical Specifications, and 3) Project Drawings, all of which form the entire integrated agreement between CITY and CONTRACTOR. In the event of a conflict between any of these documents, this Agreement controls, followed by its Exhibits.
- 1.25. **“Contract Time”** The number of days or the dates stated in the Agreement to: (i) achieve Milestones, (ii) achieve Substantial Completion; and (iii) complete the Work so that it is ready for final payment as evidenced by Construction Manager’s written recommendation of final payment. See Exhibit H - COMPLETION TIMES AND LIQUIDATED DAMAGES.
- 1.26. **“CONTRACTOR”** means the individual or entity identified in the preamble to this Agreement.
- 1.27. **“CONTRACTOR’S Plant and Equipment”** means the equipment, material, supplies and all other items, except labor, brought onto the Site by the Contractor to carry out the Work, but not to be incorporated in the Work.
- 1.28. **“CONTRACTOR Event of Default”** shall have the meaning set forth in Article 14.1 hereof.
- 1.29. **“Cost of the Work”** consists of those items of Work, which are paid for by CITY to CONTRACTOR, and consist of those categories of costs set forth as allowable on Exhibit C.
- 1.30. **“County”** refers to Placer County where the Site is located.
- 1.31. **“CPM”** means a critical path method schedule in the form of precedents, networks and time sequences.
- 1.32. **“Day” or “Days”** means calendar days, including legal holidays, Saturdays and Sundays, unless specifically noted otherwise. The day shall be 24 hours measured from midnight to the next midnight.
- 1.33. **“Defective Work”** refers to Work that does not meet the requirements of the Contract Documents and has been identified to the Contractor by the Construction Manager in writing because the Work:
- a. Does not meet the requirements of or conform to the Contract Documents; or
 - b. Does not meet the requirements of any applicable inspection, reference standard, test, or approval referred to in the Contract Documents; or
 - c. Has been damaged prior to Construction Manager’s or Engineer’s recommendation of final payment (unless responsibility for the protection thereof has been assumed by CITY as of the Substantial Completion date in accordance with the Contract Documents).
- Punch list or other minor corrective items of work that are not in compliance with the Contract Documents do not meet to the definition of “Defective Work” as used in these Contract Documents. For work to be deemed “Defective Work,” the Construction Manager must have notified the Contractor in writing of a defective item of the Work.
- 1.34. **“Design-Assist Team”** includes the following: Designer; CONTRACTOR; and/or others as coordinated by CONTRACTOR and CITY.

- 1.35. **“Design Development Documents”** means the drawings, specifications and other documents prepared by the Design-Assist Team for CITY's review and approval prior to the preparation of the Construction Documents. The Design Development Documents shall illustrate the scale and relationship of Project components, outline the nature and structural exterior and three dimensional scale of the Project and shall fix and describe in detail the configuration and character of the Project concerning all items of the Project necessary for the complete and final preparation of the Construction Documents in accordance with the requirements of the Contract Documents, including architectural and electrical systems, materials and such other elements as may be appropriate. CONTRACTOR's attention is hereby directed to the confidentiality requirements of Article 2.12.
- 1.36. **“Design Materials”** means any and all documents, shop drawings, electronic information, data, plans, drawings, sketches, illustrations, specifications, descriptions, models and other information developed, prepared, furnished, delivered or required to be delivered by CONTRACTOR to CITY under the Contract Documents or developed or prepared by CONTRACTOR specifically to discharge its duties under the Contract Documents. CONTRACTOR's attention is hereby directed to the confidentiality requirements of Article 2.12.
- 1.37. **“Design-Assist Work”** means that portion of the Work consisting of the design-assist services required to be provided in connection with the Designer's design of the Project as set forth in the Contract Documents, which shall be performed consistent with the standards of care set forth herein.
- 1.38. **“Designer”** means design professional(s) (and/or entity(ies)), retained by CITY, who provides design services as may be required by the Work. The Designer may be substituted or replaced at the discretion of CITY. The Designer may also be referred to as the “CITY's Representative” if the definition is used in a Designer role and capacity. The CITY may assign all or part of the CITY's Representative's duties, rights and responsibilities to the Designer. Such representatives shall act within the scope of the particular duties delegated to them.
- 1.39. **“Direct”** is an action of the CITY or Construction Manager by which the Contractor is ordered to perform or refrain from performing work under the Agreement.
- 1.40. **“Drawings”**, also referred to as **“Plans”** are that part of the Contract Documents consisting of the graphical and technical requirements of the Agreement as included on the plan, profile, section and detail sheets, included in a response to Request for Information or any revisions issued by Engineer. Drawings, or reproductions thereof, show the location, character, dimensions and details of the Work to be done. Shop drawings and other Contractor submittals are not Drawings as so defined.
- 1.41. **“Engineer”**. The engineer designated by the CONTRACTOR to have professional design control over the Work or a specified portion of the Work, acting either directly or through duly authorized representatives. As applicable, the engineer will be the Engineer of Record for the design. The Engineer may also furnish inspection services as provided by the Agreement.
- 1.42. **“Equipment”** (Construction) is all machinery and equipment, together with the necessary supplies for upkeep and maintenance, including tools and apparatus necessary for the proper construction and acceptable completion of the Work contemplated. Equipment (Installation) is all material or articles used in equipping a facility or apparatus required to fulfill a functional design.
- 1.43. **“Execution”** means field or site performance, workmanship, installation, erection, application, field fabrication, quality control, and protection of installed products on the Site.

- 1.44. **“Excusable Delay”** shall have the meaning set forth in Article 7.3.3.
- 1.45. **“Extra Work”** is new or unforeseen work, or added work of a different character or function; or that involves revisions of the details of the Work on which Contractor based its GMP. If the extra work increases the Contractor’s Cost of the Work and/or time to perform the Work, and is approved by the CITY via a written Change Order, the GMP and/or Contract Times shall be adjusted as provided in the Contract Documents. Extra Work shall not include Work which is shown, detailed or specified in the Contract Documents or which constitutes “Incidental Work” as defined within the Contract Documents definition below.
- 1.46. **“Fee”**, if applicable, means the fee payable to CONTRACTOR pursuant to this Agreement and as part of the GMP, if shown on Exhibit C – GUARANTEED MAXIMUM PRICE, COST OF WORK AND FEE attached hereto.
- 1.47. **“Field Directive”** is a change in the scope of the Agreement that does not cause an increase in the Cost of the Work, nor an adjustment to the GMP or the Contract Time(s), unless the Construction Manager determines the Field Directive warrants a Change Order.
- 1.48. **“Field Order”** is a written instruction given to the Contractor by Construction Manager authorizing work that is a change to the scope of Work to be performed on a time and material basis or a lump sum cost agreed to between CITY and the Contractor and documented in a Change Order.
- 1.49. **“Final Acceptance”** is the formal approval by CITY in accepting a portion of the Contractor’s work as completed.
- 1.50. **“Final Completion”** means the date when the work is 100% complete in accordance with the terms and conditions of the Contract Documents, including completion of all Punch list items as certified by the Construction Manager.
- 1.51. **“Force Majeure”** includes industry wide or nationwide labor dispute (excluding labor shortage), fire, unusual delay in transportation or delivery, unavoidable casualty, flood (assuming CONTRACTOR has taken reasonable precautions), earthquake, epidemic, civil disturbance, war, freight embargo, riot, sabotage (by persons other than CONTRACTOR or Subcontractors), material shortage or any other similar act or condition, in each case only to the extent the event in question is beyond the reasonable control of and without the fault or negligence of CONTRACTOR. It is expressly agreed that the following matters shall not constitute Force Majeure:
- a. Lack of or inability to use funds for any reason;
 - b. Any occurrence which results from the wrongful act, or wrongful omission, of the affected party, or the failure by the affected party to act in a prudent and proper manner and in accordance with good and accepted industry practices;
 - c. Any failure by the affected party to reach agreement with any third party necessary to enable the affected party to perform its obligations under this Agreement;
 - d. An event or circumstance, where the event or circumstance, or its effects on the affected party, or the resulting inability of the affected party to perform its obligations could have been prevented, overcome or remedied by the exercise by the affected party of the standard of care and diligence consistent with that of a reasonable and prudent person;
 - e. Breakdown of Contractor’s Equipment;
 - f. Strike or industrial action of Contractor’s employees or those of subcontractors; or
 - g. Adverse weather conditions including, without limitation, wet weather, unless the

weather is unusually severe for the Site.

- 1.52. **“Governmental Approvals”** means those CITY approvals necessary for the completion of the Project, including, but not limited to, modification of existing zoning, vacation of certain streets and/or alleys, and modifications to or variances from applicable building or zoning regulations.
- 1.53. **“Guaranteed Maximum Price” or “GMP”** means the amount set forth on Exhibit C- GUARANTEED MAXIMUM PRICE, FEE, AND COST OF WORK hereto, which may be increased or decreased in accordance with the provisions of the Contract Documents.
- 1.54. **“Hazardous Materials”** means those items identified on Exhibit E-HAZARDOUS MATERIALS hereto.
- 1.55. **“Holidays”** are the legal holidays as designated by the CITY including: New Year’s Day, Martin Luther King Jr. Day, President’s Day, Memorial Day, Independence Day, Labor Day, Columbus Day, Veteran’s Day, Thanksgiving Day, the day after Thanksgiving and Christmas Day.
- 1.56. **Incidental Work.** Incidental work includes reasonably implied parts of the not shown on Drawings nor described in Specifications, but which is necessary or normally or customarily required as a part of the Work shown on the Drawings or described in the Specifications to provide a complete installation which is fully connected and tied into the existing facilities and processes and is fully functional and operational. Incidental work shall be treated as if fully described in Specifications and shown on Drawings, and expense thereof shall be included in the GMP. Incidental work shall be performed by Contractor and included in the Cost of the Work without an increase in the GMP.
- 1.57. **“Indemnified Parties”** includes, but is not limited to, CITY, its agents, officers, employees, and volunteers.
- 1.58. **“Inspector”** shall mean the person(s), firm(s), or agency(ies) employed by the CITY to perform inspection during construction of the Work, under the direction of the Construction Manager. It shall also mean any representative of the CITY who will perform inspections of the Work for code compliance and quality assurance reporting in addition to those inspections performed by the CITY’s Representative and/or the Engineer. Said inspector may be the Construction Manager or may be another representative of the CITY.
- 1.59. **“Liquidated Damages”** means the damages payable by CONTRACTOR to CITY in the event CONTRACTOR does not achieve project Milestones Final Completion of the Project by the date required on the Schedule, as adjusted, as more fully described in Article 7.5 and Exhibit H- COMPLETION TIMES AND LIQUIDATED DAMAGES hereof.
- 1.60. **“Modification”** means an amendment to this Agreement executed by the parties after the date hereof.
- 1.61. **“Non-Excusable Delay”** shall have the meaning set forth in Article 7.3.2.
- 1.62. **“Notice of Completion”** is the formal action taken by the CITY in determining that the Contractor’s Work has been completed, or as delegated pursuant to a CITY Council resolution, accepting the Work as fully completed. The written notice is signed by the CITY and filed with the County Recorder.
- 1.63. **“Notice to Proceed” (NTP)** is the written notice given by the CITY to the Contractor fixing the date on which the Contract Times will commence to run and on which Contractor shall start to perform the Work under the Contract Documents.
- 1.64. **“Or Equal”** means any product, equipment, material, thing, service, mean/method or service which is proposed by the Contractor for use in the Work, which is equal to or better than, and is

as suitable as the product, equipment, material, thing, service, mean/method or service specified in the Contract Documents as to function, performance, reliability, quality, schedule and general configuration. Any “or equal” substitutions must be approved by the CITY.

- 1.65. **“Owner”** refers to the CITY, or authorized representative as approved by the CITY.
- 1.66. **“Party”** shall mean CITY or CONTRACTOR individually, and **“Parties”** shall mean CITY and CONTRACTOR collectively.
- 1.67. **“Payment and Performance Bonds”** means the payment bond and performance bond issued by an admitted Surety covering the faithful performance and completion of the Construction Work, including payment for all materials and labor furnished or supplied in connection with the Construction Work, by CONTRACTOR. Such bonds shall be in the form described in Exhibit G-BOND FORMS.
- 1.68. **“Plans”**. See “Drawings”.
- 1.69. **“Project”** means the design and construction of the project described in the Recitals, together with all on-site infrastructure, site improvements and appurtenances to be designed, constructed and installed in connection therewith, as more fully set forth and described in the Contract Documents and as required thereby or reasonably inferred therefrom.
- 1.70. **“Project Manager”** means the person assigned by the Director of the CITY’s administering department to monitor the Project and Work.
- 1.71. **“Proposal”** is the offer of a Proposer to perform the Work pursuant to completed prescribed Bid Proposal requirements and forms, properly executed and guaranteed, and timely submitted.
- 1.72. **“Punch List”** means those minor items of Work to be completed after Substantial Completion and prior to Final Completion, which do not prevent the Project from being used for the purpose for which it is intended and which will not prevent beneficial occupancy or use.
- 1.73. **“Reference Specifications”** are those standards, rules, method of tests or analysis, codes, and specifications of other agencies, engineering societies, or industrial associations referred to in the Contract Documents.
- 1.74. **“Request for Information”** also referred to as “Request for Clarification”. A Request for Information (RFI) is issued by the Contractor to the Construction Manager requesting additional information necessary to clarify or amplify an item in the Contract Documents that the Contractor believes is not clearly shown or called for in the Drawings or Specifications or other portions of the Contract Documents, or to address problems which have arisen under field conditions. A RFI is not to be used for request for materials/equipment substitutions or value engineering/cost reduction incentive proposals.
- 1.75. **“Request for Quotation”** is a request for a proposed cost made to the Contractor by the CITY to add, delete or change the Work. A Request for Quote (RFQ) shall not be deemed to be a direction to proceed with any addition, deletion or change to the Work.
- 1.76. **“Retention”** means the amount withheld from progress payments from CITY to CONTRACTOR from time to time, as more fully described in Article 8.6-RETENTION, ESCROW AGREEMENT, FINAL PAYMENTS hereof.
- 1.77. **“Samples”** refers to physical examples of materials, equipment, or workmanship that are representative of some portion of the Work and which establish the standards by which such portion of the Work will be judged.
- 1.78. **“Schedule”** means the schedule pursuant to the Proposal and/or other Contract Documents to which CONTRACTOR has agreed to complete the Work. The Schedule shall be adjusted

pursuant to the provisions of the Contract Documents. In the event the Schedule is not contained within the Proposal, then CONTRACTOR shall provide to CITY, within fifteen (15) days of issuance of a Notice To Proceed by CITY, with a complete milestone schedule identifying, among other things, critical paths (if any) and total calendar days until Substantial and Final Completion. In the event the Schedule is contained in the Proposal, the start of the Schedule shall be adjusted by the CONTRACTOR to reflect the date of the Notice To Proceed.

- 1.79. **“Scheduled Date of Substantial Completion”** means the date CONTRACTOR has agreed to achieve Substantial Completion of the Project in accordance with the Schedule, as adjusted.
- 1.80. **“Scope Change Costs”** means those items of Cost of the Work attributable to changes in scope of the Work and payable by CITY to CONTRACTOR pursuant to a Change Order, as provided in Article 9-CHANGES IN THE WORK.
- 1.81. **“Separate Contractors”** means those individuals or entities (including, but not limited to, concessionaires) who have entered into arrangements with CITY for the provision of labor, materials or other services in connection with the Project.
- 1.82. **“Shop Drawings (Submittals)”** are drawings, diagrams, illustrations, schedules, performance charts, instructions, brochures, and other data which are prepared by the Contractor or any subcontractor, manufacturer, supplier, or distributor and which illustrate some portion of the Work.
- 1.83. **“Site”** is the real property on which the Project will be located.
- 1.84. **“Specifications”** are that part of the Contract Documents consisting of written descriptions of the technical features of materials, equipment, construction systems, standards, and workmanship.
- 1.85. **“Specify”** refers to information described, shown, noted or presented in any manner in any part of the Agreement.
- 1.86. **“State”** is the State of California.
- 1.87. **“State of California Specifications”** are the State of California Department of Transportation Standard Specifications in effect as documented in the Specifications and/or Drawings. Also referred to as State Standard Specifications and Caltrans Standard Specifications.
- 1.88. **“Subcontract”** means an agreement between CONTRACTOR and another person or entity engaged to perform a portion of the Work.
- 1.89. **“Subcontractor”** means an individual or entity who has entered into an agreement with CONTRACTOR or another Subcontractor for the provision of labor, materials or other services required to be performed by CONTRACTOR under the Contract Documents.
- 1.90. **“Subcontractor-KEY”**. Key subcontractors are defined as a subcontractor who will perform greater than or equal to twenty-five percent (25%) of the GMP.
- 1.91. **“Subcontractor-MAJOR”**. Major subcontractors are defined as a subcontractor who will perform greater than five percent (5%) of the GMP.
- 1.92. **“Subcontractor-LISTED”**. Listed subcontractors are defined as a subcontractor who will perform greater than one half percent (>0.5%) of the GMP.
- 1.93. **“Submittals”** are the information which is specified for submission to the Construction Manager in accordance with the Contract Documents.
- 1.94. **“Substantial Completion”** means the stage in the progress of the Work when the Work or a designated portion thereof is sufficiently complete in accordance with the Contract Documents

so that CITY may use the Project for its intended purpose. Determination of Substantial Completion is solely at the discretion of the CITY. Substantial Completion does not mean complete in accordance with the Agreement nor shall Substantial Completion of all or any part of the Project entitle the Contractor to Final Completion under the Agreement.

- 1.95. **“Surety”** means one or more issuers of the Payment and Performance Bonds, each of which shall be admitted and licensed to do business in the State of California.
- 1.96. **“Surveyor”** means a land surveyor licensed in the State of California.
- 1.97. **“Trade Names”**. Where a certain product is called by its Trade Name, it is intended as a guide for type and quality.
- 1.98. **“Typical Details”** are details of standard structures, devices or instructions referred to on the Plans and Specifications by title or number and developed by the Engineer.
- 1.99. **“Underground Facilities”** means all underground pipelines, including but not limited to, conduits, ducts, cables, wires, manholes, vaults, tanks, tunnels, or other such facilities or attachments, and any encasements containing such facilities, including those that convey electrical, gases, steam, liquid petroleum products, telephone or other communications, cable television, water, wastewater, storm water, other liquids or chemicals, or traffic or other control systems.
- 1.100. **“Unit Price Work”** is work to be paid for on the basis of unit prices.
- 1.101. **“Utility”** is a public or private fixed works for, including but not limited to, the transportation of fluids, gasses, power, signals, or communications.
- 1.102. **“Work” or “Scope of Work”** means the Project, inclusive of all labor, materials and services required to be performed or provided by CONTRACTOR officers, employees, agents, Subcontractors or Suppliers pursuant to the provisions of this Agreement and its Exhibits.
- 1.103. **“Work Day”**. A working day is defined as any day, except Saturdays, Sundays and CITY’s Legal Holidays. Any work scheduled by the Contractor on non-working days (Saturdays, Sundays, and CITY Legal Holidays) shall be verified with the CITY at least 72 hours in advance. Depending on the circumstances, the CITY may request Contractor compensation for inspection work, at an hourly rate, for any work performed on non-working days and for overtime.

ARTICLE 2 - SCOPE OF WORK / PROJECT REQUIREMENTS

2.1 Scope of Work Summary

The CITY, in conjunction with its Designer and other consultants, developed the Design-Assist and Construction Contract Documents for the Utility Exploration Center Exhibit Fabrication and Installation. The scope of the project includes fabrication, shipping, and installation of new exhibitory for the Utility Exploration Center, as more fully described in Contractor’s proposal, attached hereto as Exhibit B and incorporated herein.

2.2 Performance of Work

CONTRACTOR shall perform the Work in accordance with this Agreement. CONTRACTOR covenants and agrees that it shall be responsible for performing and completing, and for causing all Subcontractors to perform and complete, the Work in accordance with the Contract Documents, standard professional and trade practices, Local Ordinances, and Applicable Laws. CONTRACTOR covenants that the Work

and the materials provided thereunder shall be appropriate for the purposes stated in the Request for Proposal and Proposal. Although it is the responsibility of CONTRACTOR to conform the Work to Applicable Laws at all times, to the extent there is a change in one or more Applicable Laws after the date of execution of this Contract, and such change has the effect of increasing the cost or time of performance of the Work, such change may be the subject of a Change Order under the provisions of Article 9-CHANGES IN THE WORK hereof.

2.3 Standards of Performance

The Work shall be performed by CONTRACTOR in accordance with the professional standards applicable to projects, buildings or work of complexity, quality and scope comparable to the Work and the Project. CONTRACTOR may make such additions or substitutions to personnel and responsibilities as it deems necessary or appropriate in order to carry out its responsibilities hereunder, provided such personnel shall be suitably qualified. Nothing in this Agreement shall be construed to create any contractual liability with CITY toward any Subcontractor.

2.4 Execution, Correlation and Intent

2.4.1 Execution of Agreement.

Execution of this Agreement by CONTRACTOR is a representation that CONTRACTOR has visited the Site, become familiar with the local conditions under which the Work is to be performed and correlated personal observations with requirements of the Contract Documents.

2.4.2 Intent of Contract Documents.

The intent of the Contract Documents is to include all items necessary for the proper execution and completion of the Work by CONTRACTOR. The Contract Documents are complementary and what is required by one shall be as binding as if required by all; performance by CONTRACTOR shall be required only to the extent consistent with the Contract Documents and reasonably inferable from them as being necessary to produce the intended results. Any work, materials or equipment that may reasonably be inferred from the requirements of the Contract will be furnished and performed whether or not specifically called for. When words or phrases that have a well-known technical or construction industry or trade meaning are used to describe Work, materials or equipment, such words or phrases shall be interpreted in accordance with that meaning

2.4.3 Organization of Material.

Organization of the Design Materials into divisions, sections and articles, and arrangement of drawings does not necessarily control CONTRACTOR in dividing the Construction Work among Subcontractors or in establishing the extent of Construction Work performed by any trade.

2.4.4 Resolving Conflicts

In resolving conflicts resulting from errors or discrepancies in any of the Contract Documents, the order of precedence shall be as follows:

- A. Permits from other agencies specifically required for the performance of the Work as may be required by law,
- B. Supplemental Agreements and Change Orders, the one dated later having the precedence over another dated earlier,
- C. Agreement,

- D. General Requirements (Division 1),
- E. Technical Specifications (Division 2 and all other Divisions following),
- F. Contract Drawings,
- G. CITY of Roseville's most current version of Construction Standards and Design Standards and Amendments to the Current Version,
- H. Other Referenced Standard Specifications, and
- I. Other Referenced Standard Plans.

With reference to the Drawings, the order of precedence is as follows:

- A. Addenda/Change Order drawings govern over any other drawings,
- B. Enumerated dimensions govern over scaled dimensions,
- C. Detail drawings govern over general drawings, and
- D. Contract Drawings govern over standard drawings/plans.

The provisions of the Contract Documents shall take precedence over any Laws or Regulations applicable to the performance of the work unless such an interpretation of the provisions of the Contract Documents would result in a violation of such Law or Regulation.

2.4.5 Meaning of Words

Unless otherwise stated in this Agreement, words which have well-known technical or construction industry meanings are used in accordance with such recognized meanings.

2.5 Contractor Services and Facilities

2.5.1 General.

CONTRACTOR shall provide everything required for the orderly progress and proper execution and completion of the Work and the Project in accordance with the requirements of the Contract Documents, whether temporary or permanent and whether or not incorporated or to be incorporated into the Work, including, but not limited to, services, labor, materials, equipment, furnishings, tools, construction equipment and machinery, utilities, transportation and other facilities and services.

2.5.2 Supervision

CONTRACTOR shall supervise and direct the Work in accordance with its best skill and attention. CONTRACTOR shall be solely responsible for and have control over construction means, methods, techniques, sequences and procedures. CONTRACTOR shall be responsible to CITY for the acts and omissions of, and whenever this Contract refers to the negligence, fault or omission of CONTRACTOR, such term shall include the negligence, fault or omission of, CONTRACTOR's employees, Subcontractors and their agents and employees, and other persons performing portions of the Work under an agreement with CONTRACTOR. CONTRACTOR shall not be relieved of obligations to perform the Work in accordance with the Contract Documents by tests, inspections or approvals required or performed by persons other than CONTRACTOR.

2.5.3 Coordination

CONTRACTOR shall coordinate construction requirements with Governmental agencies, utilities, and all other parties either involved in infrastructure improvements or otherwise affected by the design and construction requirements.

2.5.4 Design-Assist Development Coordination

CONTRACTOR understands and agrees that all Design Development Documents and time schedules prepared by Designer must be coordinated with CONTRACTOR and CITY. CONTRACTOR shall participate and provide recommendations in the development of the drawings and other documents to fix and describe the size and character of the Project in its entirety as to structural, and electrical systems, materials and other essentials in CONTRACTOR's capacity as a general contractor and not as a design professional, focusing on constructability and cost implications of the evolving design.

2.5.5 Construction Documents Coordination. [reserved]

2.5.6 Cooperation

CONTRACTOR shall cooperate with the Designer, and CITY's financial, design and construction consultants and all other designated representatives during the design and construction of the Project.

2.5.7 Management

CONTRACTOR shall implement suitable management systems and work plans for the Project relative to Project safety, quality assurance and managing and controlling the Work.

2.5.8 Reports

CONTRACTOR shall prepare and submit to CITY monthly progress reports on the Work accomplished during the previous monthly period, which reports shall be prepared in a manner and in a format reasonably acceptable to CITY. Such reports shall be furnished at the time of submission of each monthly Application for Payment. As part of such report, CONTRACTOR shall provide an updated Schedule, including CPM, if any, illustrating the progress that has been made, by reference to the initial CPM, and specifying whether the Work is on schedule or behind schedule and actions being taken to correct Schedule slippage. The monthly report shall also set forth CONTRACTOR's projected progress for the forthcoming month.

2.6 Labor and Materials; Liens (Stop Payment Notice Claims); Indemnity

Unless otherwise provided in the Contract Documents, CONTRACTOR shall provide and pay for labor, materials, equipment, tools, construction equipment and machinery, water, heat, utilities, transportation, and other facilities and services necessary for the proper execution and completion of the Work, whether temporary or permanent and whether or not incorporated or to be incorporated in the Work.

CONTRACTOR shall enforce strict discipline and good order among CONTRACTOR's employees, subcontractors, and other persons carrying out the Work. CONTRACTOR shall not permit employment of unfit persons or persons not skilled in tasks assigned to them.

CONTRACTOR shall not permit any Subcontractor, materialman, or laborer to place liens on the Project covering any portion of the Work for which CITY has made payment to CONTRACTOR. If any liens (e.g., stop payment notice claims) are imposed, CITY may withhold payment in the amount of 125% of the claim until such time an unconditional release is provided in a form satisfactory to CITY.

CONTRACTOR shall indemnify, defend, and hold harmless CITY regarding any claim or lien that

proceeds to, or is the subject of litigation. CITY may withhold payment(s) pending compliance with this provision.

2.7 Local Conditions; Environmental Site Conditions

2.7.1 Local Conditions

CONTRACTOR represents that it has taken steps reasonably necessary to ascertain the nature and location of the Work, and that it has investigated and satisfied itself as to the general and local conditions which are applicable to the Work such as (a) conditions bearing on transportation, disposal, handling and storage of materials; (b) the availability of labor, water, power and roads; (c) normal weather conditions; (d) observable physical conditions at the Site; (e) the surface conditions of the ground; and (f) the character of equipment and facilities needed prior to and during the performance of the Work. To the extent CONTRACTOR encounters subsurface or concealed conditions which differ materially from that actually known by CONTRACTOR on the date of this Agreement or from those ordinarily found to exist and generally recognized as inherent in the activities of the character provided in the Contract Documents; then CONTRACTOR shall give notice to CITY promptly before conditions are disturbed and in no event later than two (2) Days after the first observance of the conditions if a Change Order is contemplated by CONTRACTOR due to such condition. Such materially different conditions may entitle CONTRACTOR to an equitable adjustment in the GMP and/or Schedule pursuant to the Change Order provisions of this Agreement.

2.7.2 Hazardous Materials

The Parties' agreement as to the handling of Hazardous Materials discovered at the Site (and not brought there by CONTRACTOR or any Subcontractor) is set forth in Exhibit E-HAZARDOUS MATERIALS hereto, and the only duties and responsibilities of CONTRACTOR in connection therewith are as therein specified, notwithstanding any other provision of this Agreement.

2.8 Legal Requirements

CONTRACTOR shall comply with all Applicable Laws, and shall give applicable **notices** pertaining thereto.

2.8.1 Governmental Approvals

CONTRACTOR shall comply with Applicable Laws, and shall give applicable notices pertaining thereto. Except with respect to Governmental Approvals, CONTRACTOR shall prepare and file all documents required to obtain the necessary approvals of governmental authorities having jurisdiction over the Work and/or the Project and shall secure and pay for permits and governmental fees, licenses and inspections necessary for the proper execution of the Work and completion of the Project. Notwithstanding the foregoing, CITY has informed CONTRACTOR that fees in connection with building permits, street use permits, and similar permits relating to construction will be waived and are not to be included in the GMP. If and to the extent charges for such permits are imposed in the future, such charges shall be paid by CITY, or shall be the subject of a Change Order to the Contract in accordance with the Change Order provisions of this Agreement.

2.8.2 Permits, Fees and Notices

Unless otherwise provided in the Contract Documents, and subject to the provisions of Article 2.8-Legal Requirements hereof, CONTRACTOR shall secure all permits, governmental fees, licenses and inspections necessary for the proper execution and completion of the Work. To the extent there is a

change in the type or cost of any of such permits, fees, licenses or inspection occurring after execution of this Agreement, there shall be an equitable adjustment in the GMP and Schedule on account of such change in accordance with the Change Order provisions. CONTRACTOR shall comply with and give notices required by Applicable Laws.

2.8.3 Patents, Trademarks, Copyrights

CONTRACTOR shall pay, as a Cost of the Work, all-applicable royalties and license fees on any matters arising in connection with the Work. CONTRACTOR shall defend all suits or claims for infringement of patent, trademark, and copyrights against the Indemnified Parties, and shall save the Indemnified Parties harmless from loss on account thereof for any and all matters arising in connection with the Work or the Project (such costs to be paid as Cost of the Work), except with respect to any particular design process or the product of a particular manufacturer or manufacturers specified and required by CITY, other than pursuant to the recommendation or suggestion of CONTRACTOR or a subcontractor; provided however, if CONTRACTOR has reason to believe that the design, process or product so specified is an infringement of a patent, CONTRACTOR shall be responsible for any loss resulting unless CONTRACTOR has provided CITY with prompt written notice of CONTRACTOR's belief, and CITY has nevertheless elected to go forward with such design, process or product so specified.

2.9 Warranty

CONTRACTOR warrants to CITY that any and all materials, equipment and furnishings incorporated in the Work will be of good quality and new unless otherwise required or permitted by the Contract Documents, that the Construction Work will be free from defects not inherent in the quality required or permitted, and that the Construction Work will conform with the requirements of the Contract Documents. Construction Work not conforming to these requirements, including substitutions not properly approved and authorized, may be considered defective by CITY at its sole discretion.

CONTRACTOR shall warranty the Construction Work for a period of one-year commencing upon recording of the notice of completion. If within this one-year warranty period any of the Work is found to be defective or not in accordance with the requirements of the Contract Documents, CONTRACTOR shall correct it promptly after receipt of written notice from CITY to do so. CITY shall give such notice promptly after discovery of the condition. CONTRACTOR shall bear the cost of correction. CONTRACTOR's attention is directed to Article 11.13-Payment, Performance, and Warranty Bonds and Exhibit G-BOND FORMS regarding Warranty Bond requirements.

2.10 Use of Site.

2.10.1 Beneficial Use

CITY shall be permitted beneficial use of the Work.

2.10.2 Access by CITY

CONTRACTOR shall afford CITY and its authorized designees access to the Project Site at all times, subject to reasonable prior notice for access outside of normal business hours.

2.10.3 Rubbish; Debris; Cleanup

During the performance of all on-site Work, CONTRACTOR shall at all times, as a Cost of the Work, keep the Site and adjacent streets, properties and sidewalks free from waste materials, debris and/or rubbish, and shall employ adequate dust control measures. If accumulation of such materials, debris,

rubbish or dust constitutes a nuisance or safety hazard or is otherwise objectionable in the reasonable opinion of CITY, CONTRACTOR shall promptly remove them. Upon Substantial Completion of the Work, or any portion or component thereof, CONTRACTOR shall remove from the Site, or applicable portion thereof, all tools, construction equipment, machinery, surplus materials, waste materials and rubbish and shall leave the Site in a "broom clean" condition. If CONTRACTOR fails to clean up as provided in the Contract Documents, CITY may do so and the cost thereof shall be charged to CONTRACTOR as a Cost of the Work.

2.10.4 Noise and Night Work

CONTRACTOR shall comply with CITY's noise ordinance.

2.11 Taxes

CONTRACTOR shall pay, as Cost of the Work, all existing and future applicable federal, state and local sales, consumer, use and similar taxes, whether direct or indirect, relating to, or incurred in connection with, the performance of the Work (excluding taxes based on CONTRACTOR's income). In the event CONTRACTOR is obligated to pay any new or increased taxes or duties adopted after the date hereof, the amount of such new or increased taxes shall increase the GMP pursuant to the Change Order provisions of this Contract. In the event CONTRACTOR receives the benefit of a tax exemption or tax reduction taking effect after the date hereof, the amount of such exemption or reduction shall decrease the GMP pursuant to the Change Order provisions of this Contract

2.12 Ownership of Documents and Materials, and Confidentiality

CITY shall have unlimited rights to copy and use in connection with the Project all Design Materials, including the right to use same on the Project at no additional cost to CITY, regardless of degree of completion, provided that said services performed have been fully paid for as required by the terms of this Agreement. CONTRACTOR and its Subcontractors shall keep all design documents confidential, and shall not disclose such documents except as may be required in performance of the Work or pursuant to legal process.

2.13 Value Engineering

CONTRACTOR shall suggest to CITY value engineering to reduce the cost of the Project, which CITY may accept at its sole discretion.

2.13.1 Acceptance of Value Suggestions

To the extent that CONTRACTOR provides value engineering suggestions or comments with respect to the Project's design, CONTRACTOR and CITY acknowledges that such services are professional design services. CITY shall refer all such suggestions and comments to the Designer for review and evaluation prior to CITY's acceptance thereof. CITY shall cause the Designer to revise the Project's design documents to reflect all value engineering suggestions and comments accepted by CITY without delay or disruption to the timely and orderly progress of the Work, including revisions needed to address the impact of an agreed value engineering solution on other portions of the Work. The GMP and Contract Time shall be adjusted if necessary by Change Order promptly after CONTRACTOR's review and pricing of the change to the Work reflected in the revised design documents.

2.13.2 Subcontractors Bids

CONTRACTOR shall make recommendations to the Designer regarding the appropriate quality of materials, equipment, component systems and types of construction for the most reasonable prices for inclusion in the Construction Documents, and CONTRACTOR shall also recommend to the Designer and CITY reasonable adjustments in the scope of the Project so that the total cost bid by the bidding Subcontractors will not exceed the estimate.

2.14 Design Development Documents and Construction Documents.

2.14.1 General

The Design-Assist Team understands that all construction documents, working drawings and specifications must be coordinated with, submitted to, and approved by, CITY prior to construction. CONTRACTOR shall allow CITY a minimum of fourteen (14) days for review of Submittals and corrections made thereto. CONTRACTOR shall work with the Design-Assist Team to prepare, for the approval of CITY, working drawings and specifications setting forth in detail the requirements for the construction of the Project in its entirety. CITY's review of the Design Development Documents and the Construction Documents shall not relieve CONTRACTOR from its responsibilities under this Agreement, or be deemed to be an approval or waiver by CITY of any deviation from, or of CONTRACTOR's failure to comply with, any provision or requirement of the Contract Documents, unless such deviation or failure has been identified as such in writing in the document submitted for approval by CONTRACTOR and approved by CITY. CONTRACTOR shall comply with all CITY construction standards as deemed applicable by the CITY. CONTRACTOR shall provide CITY with a complete, accurate, full size, and current set of as built drawings in a hard copy acceptable to City prior to Final Completion.

The Architect/Engineer is the entity professionally responsible for the design of the Project. CONTRACTOR acknowledges that CONTRACTOR has an architect or engineer on staff or under contract. CONTRACTOR is responsible for any errors in the design or failure of the design to comply with applicable laws, codes, rules and regulations, or lawful orders of public authorities.

2.14.2 Reliance on Approvals

CONTRACTOR shall be entitled to rely on the approvals of CITY with respect to the Design Materials. If CITY revokes, modifies or otherwise changes in a material way its approval of a given system after such system has been designed and approved, or modifies the original Scope of Work in a material manner requiring modification to one or more systems which have been designed and approved, CONTRACTOR shall be entitled to a Change Order in accordance with the provisions of Article 9-CHANGES IN THE WORK hereof. No Change Order shall be issued to the extent such modification is due to the fault or neglect of CONTRACTOR.

2.14.3 Review of Contract Documents and Field Conditions

CONTRACTOR shall take field measurements and verify field conditions and shall carefully compare such field conditions and other information known to CONTRACTOR with the Contract Documents before commencing activities. CONTRACTOR shall perform the Work in accordance with the Contract Documents and submittals approved in accordance with the procedures set forth in this Agreement.

2.15 Shop Drawings, Product Data, Samples and Other Submittals.

2.15.1 Documents and Samples at the Site

From and after commencement of the Construction Work, CONTRACTOR shall maintain at the site one (1) record copy of the Construction Documents, and any and all amendments thereto, in good order and marked to record changes and selections made during the Construction Phase. In addition, CONTRACTOR shall maintain at the site approved shop drawings, product data, samples and similar required submittals. These shall be provided to CITY upon completion of the Work.

2.15.2 Shop Drawings

Shop Drawings are drawings, diagrams, schedules and other data specially prepared for the Work by CONTRACTOR, a Subcontractor, manufacturer, supplier or distributor to illustrate some portion of the Work.

2.15.3 Product Data

Product Data includes illustrations, standard schedules, performance charts, instructions, brochures, diagrams and other information furnished by CONTRACTOR to illustrate materials or equipment for some portion of the Work.

2.15.4 Samples

Samples are physical examples, which illustrate materials, equipment or workmanship and establish standards by which the Work will be judged.

2.15.5 Submittals are not Contract Documents.

Shop Drawings, Product Data, Samples and similar submittals are not Contract Documents. The purpose of their submittal is to demonstrate for those portions of the Work for which submittals are required the way CONTRACTOR proposes to conform the construction to the Construction Documents.

2.15.6 Submission of items listed in Article 2.15.5

Requirements and procedures for submittal of shop drawings, product and equipment data are covered in technical specification section 01322 and 01330.

2.15.7 Responsibility

CONTRACTOR shall not be relieved of responsibility for the deviations from requirements of the Contract Documents by CITY's approval of Shop Drawings, Product Data, Samples or similar submittals unless CONTRACTOR has specifically informed CITY of such deviation at the time of the submittal and CITY has given written approval to the specific deviation. CONTRACTOR shall not be relieved of responsibility for errors or omissions in Shop Drawings, Product Data, Samples or similar submittals by CITY's approval thereof.

2.16 Tests and Inspections

2.16.1 Initial Tests and Inspections

Tests, inspections and approvals of portions of the Construction Work shall be made as required by the Contract Documents, Applicable Laws or normal construction practices and/or as directed by CITY. Unless otherwise provided, CONTRACTOR shall make arrangements for such tests, inspections and approvals with an independent testing laboratory or entity acceptable to CITY, or with the appropriate public authority. The costs of such tests, inspections and approvals shall be a cost paid by

CONTRACTOR. CONTRACTOR shall give CITY timely notice of when and where tests and inspections are to be made so that CITY may observe such procedures. All costs of tests, inspections or approvals imposed upon CONTRACTOR by changes in Applicable Laws occurring after execution of this Agreement shall be an increase to the GMP in accordance with the Change Order provisions herein.

2.16.2 Additional Tests and Inspections

If CITY, or any other public authority having jurisdiction, determines that portions of the Construction Work require additional testing, inspection or approval beyond that required by Article subsection 2.16.1 above, CITY will instruct CONTRACTOR to make arrangements for such additional testing, inspection or approval by an entity acceptable to CITY, and CONTRACTOR shall give timely notice to CITY of when and where tests and inspections are to be made so CITY may observe such procedures. If such additional tests and/or inspections reveal failure of the portions of the Work to comply with the requirements of the Contract Documents, the costs of such tests and required correction shall be paid as a Cost of the Work, subject to the limitations set forth in Article 2.19-CORRECTION OF WORK hereof. If the additional tests and/or inspections show that the portions of the Work comply with the requirements of the Contract Documents, the costs thereof shall be an increase to the GMP in accordance with the Change Order provisions of this Agreement.

2.16.3 Required Certificates

Required certificates of testing, inspection or approval shall, unless otherwise required by the Contract Documents, be secured by CONTRACTOR and promptly delivered to CITY.

2.16.4 Timing of Testing

Tests or inspections conducted pursuant to the Contract Documents shall be made promptly to avoid unreasonable delay in the Work.

2.17 Cutting and Patching

2.17.1 Cutting and Patching of the Work

CONTRACTOR shall be responsible for cutting, fitting, or patching required to complete the Work or to make its parts fit together properly.

2.17.2 Damage to Work of CITY or Separate Contractors

CONTRACTOR shall not damage or endanger a portion of the completed Work, fully or partially completed construction of CITY, or work or construction by Separate Contractor(s) by cutting, patching or otherwise altering such construction or work, or by excavation. CONTRACTOR shall not cut or otherwise alter such construction by CITY or a Separate Contractor except with written consent of CITY and of such Separate Contractor, such consent not to be unreasonably withheld.

2.18 Uncovering of Construction Work.

2.18.1 Uncovering

If a portion of the Construction Work is covered contrary to CITY's written request to observe such work prior to it being covered or contrary to requirements of the Contract Documents, it must, if directed in writing by CITY, be uncovered for CITY's observation and be replaced without change in the Schedule or GMP. The costs of such uncovering and replacement shall be Cost of the Work, subject to the limitation set forth in Article 2.19-CORRECTION OF WORK hereof.

2.18.2 Covering of Work Requested to be Observed

If a portion of the Construction Work has been covered, which CITY has not specifically requested to observe prior to being covered, CITY may request to see such Construction Work and it shall be uncovered by CONTRACTOR. If such Construction Work is in accordance with the Contract Documents, costs of uncovering and replacement shall, by appropriate Change Order, be charged to CITY and shall increase the GMP. An appropriate time extension shall also be given. If such Construction Work is not in accordance with the Contract Documents, CONTRACTOR shall pay such costs as Cost of the Work, unless such condition was caused by CITY or a Separate Contractor in which event CITY shall be responsible for payment of such costs by appropriate Change Order, and an appropriate time extension shall also be given.

2.19 Correction of Work

2.19.1 Work Rejected by CITY

CONTRACTOR shall promptly correct Construction Work rejected by CITY or failing to conform to the requirements of the Contract Documents, whether observed before or after Substantial Completion and whether or not fabricated, installed or completed. CONTRACTOR shall bear the costs of correcting such rejected Construction Work, as a Cost of the Work, including additional testing and inspection and compensation for services and expenses of CITY made necessary thereby.

2.19.2 Removal of Work

CONTRACTOR shall remove from the Site portions of the Construction Work, which are not in accordance with the requirements of the Contract Documents and are neither corrected by CONTRACTOR nor accepted by CITY. The costs incurred in removing such Work shall be a Cost of the Work, subject to the limitation set forth in Article 2.19-CORRECTION OF WORK hereof.

2.19.3 Failure to Correct Nonconforming Work

If CONTRACTOR fails to correct nonconforming Construction Work within a reasonable time, CITY may correct it in accordance with the terms of this Agreement. If CONTRACTOR does not proceed with correction of such nonconforming Construction Work within a reasonable time fixed by written notice from CITY, CITY may remove it and store the salvageable materials or equipment at CONTRACTOR's expense. If CONTRACTOR does not pay costs of such removal and storage within ten (10) Days after written notice, CITY may, upon ten (10) additional Days written notice, sell such materials and equipment at auction or at private sale and shall account for the proceeds thereof, after deducting costs and damages that should have been borne by CONTRACTOR, including compensation for services and expenses made necessary thereby. If such proceeds of sale do not cover costs which CONTRACTOR should have borne, CONTRACTOR shall pay such excess to CITY. If such proceeds are in excess of the costs which CONTRACTOR should have borne, such excess shall be paid by CITY to CONTRACTOR. If such costs arise during the performance of the Work, such costs shall be charged against the Cost of the Work. If such costs arise after Substantial Completion, such costs shall be payable as provided in Article 8.1-GUARANTEED MAXIMUM PRICE.

2.19.4 Damaged or Destroyed Work

CONTRACTOR shall bear the cost of correcting destroyed or damaged construction, whether completed or partially completed, of CITY or Separate Contractors caused by CONTRACTOR's correction or removal of Construction Work which is not in accordance with the requirements of the Contract Documents. If such costs arise during the performance of the Work, such costs shall be charged against

the Cost of the Work. If such costs arise after Substantial Completion, such costs shall be payable as provided in Article 8.1-GUARANTEED MAXIMUM PRICE.

2.19.5 No Limitation

Nothing contained in this Article 2.19-CORRECTION OF WORK shall be construed to establish a period of limitation with respect to other obligations which CONTRACTOR might have under the Contract Documents.

2.19.6 Acceptance of Nonconforming Work

If CITY prefers to accept Work, which is not in accordance with the requirements of the Contract Documents, CITY may do so instead of requiring its removal and correction, in which case the GMP will be reduced as appropriate and equitable. Such adjustment shall be effected whether or not final payment has been made.

2.20 Contractor Registration

No contractor or subcontractor may work on a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5. During the performance of this Contract, CONTRACTOR and its subcontractors shall have a continuing legal obligation to maintain current registration with the Department of Industrial Relations. CONTRACTOR is hereby notified that this Project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.

ARTICLE 3 - CONTRACT ADMINISTRATION

3.1 Administration of the Contract

The CITY's Representative and the Construction Manager will provide administration of the Agreement as hereinafter described. If the status of any of the above parties should change, the CITY will provide written notice to the Contractor of such change.

3.2 CITY's Representative

3.2.1 General

The CITY's Representative has the authority to act on behalf of the CITY on change orders, field orders, progress payments, Contract Decisions, acceptability of the Contractor's work, and early possession.

3.2.2 Change Orders

The CITY's Representative has the authority to accept or reject change orders and cost proposals submitted by the Contractor or as recommended by the Construction Manager.

3.2.3 Progress Payments

CITY's Representative has the authority to accept or reject requests for progress payments which have been submitted by the Contractor and recommended by the Construction Manager.

3.2.4 Contract Decisions

Should CONTRACTOR disagree with the Construction Manager's decision with respect to the Agreement, the CONTRACTOR may appeal to the CITY's Representative in accordance with the provisions of the Agreement.

3.2.5 Acceptability of Work

The CITY's Representative has the authority to make the final determination of the acceptability of the Work.

3.3 Construction Manager

3.3.1 General

The Construction Manager is a representative of the CITY employed to act as advisor and consultant to the CITY in construction matters related to the Agreement. The term Construction Manager may include more than one individual to perform contract administration and construction observation. Hereinafter, the term Construction Manager includes any and all representatives working under the direction of the Construction Manager.

All instructions to the Contractor and all communications from the Contractor to the CITY or the CITY's Representative shall be forwarded through the Construction Manager. The Construction Manager will have authority to act on behalf of the CITY only to the extent provided in the Contract Documents. The CITY has delegated its authority to the Construction Manager to make initial decisions regarding questions which may arise as to the quality or acceptability of materials furnished and work performed, and as to the manner of performance and rate of progress of the Work. The Construction Manager shall make initial decisions with respect to the Contractor's fulfillment of the Agreement and the Contractor's entitlement to compensation. The Contractor shall look initially to the Construction Manager in matters relating to the Agreement.

The Construction Manager's authority to act under Article 3-CONTRACT ADMINISTRATION, herein, and any decision made by it in good faith either to exercise or not to exercise such authority, shall not be interpreted or construed as control of or responsibility for any of the Work performed under this Agreement.

3.3.2 On-Site Representative

The Construction Manager will observe the progress, quality, and quantity of the Work to determine, in general, if the Work is proceeding in accordance with the provisions of the Contract Documents. The Construction Manager shall not be responsible for the superintendence of the construction site conditions; construction means, methods, appliances techniques, sequences, or procedures; operation of equipment; Contractor's personnel; or for safety practices or unsafe practices, precautions, and programs in connection with the Work.

In accordance with the provisions of these Contract Documents, the Construction Manager will make decisions relative to all matters of interpretation or execution of the Contract Documents.

3.3.3 Observation and Inspections of Construction

The Construction Manager shall observe the construction and shall have the authority to reject work and materials which do not conform to the Contract Documents, and to require special inspection or testing. Observation and inspection by the Construction Manager or an inspector is not an authorization to

revoke, alter, or waive any requirements of the Specifications. Observation and inspection is the authorization to call the attention of the Contractor to any failure of the Work, materials or workmanship to conform to the Contract Documents. The Construction Manager shall have this authority including the ability to reject materials or, in any emergency, suspend the Work. The Contractor may appeal any such issue which it disagrees with to the Construction Manager for decision. If the decision of the Construction Manager is not satisfactory to the Contractor, the Contractor may appeal such decision to the CITY's Representative.

3.3.4 Acceptability of the Work

The Construction Manager has the authority to make a recommendation as to the acceptability of the Work.

3.3.5 Change Orders

The Construction Manager has the authority to initiate change orders; to reject change orders proposed by the Contractor; to negotiate and recommend acceptance of change orders to the CITY; or to order minor changes in the Work that result in no cost to the CITY.

3.3.6 Construction Schedule

The Construction Manager has the authority to review and recommend acceptance of the progress schedule submitted by the Contractor at the start of the Work and subsequent significant revisions for conformance to the specified sequence of Work and logic.

3.3.7 Progress Payments

The Construction Manager has the authority to recommend acceptance or rejection of requests for progress payments which have been submitted by the Contractor.

3.3.8 Final Payment

The Construction Manager, with the assistance of the CITY's Representative and the Designer, will conduct inspections to determine the date of Final Completion of the Work, and the Construction Manager will receive and forward to the CITY, for the CITY's review, written warranties and related documents required by the Agreement and assembled by the Contractor.

3.3.9 Contract Interpretation by the Construction Manager

Notwithstanding any omission from the Specifications or the Drawings it shall be the duty of the Contractor to call the Construction Manager's attention to apparent errors or omissions upon discovery by the Contractor and request instructions in writing before proceeding with the Work. The Contractor shall not unreasonably take advantage of any errors or omissions found by Contractor. If the Contractor discovers any errors or omissions that it believes affect the time or cost of performing the Work, it shall be entitled to request a Change Order. Contractor shall promptly notify the Construction Manager in writing of any design, materials, or specified method that the Contractor identifies as defective or insufficient. The Construction Manager may, by appropriate written instructions, correct errors and supply omitted information, which instructions shall be as binding upon the Contractor as though contained in the original Specifications or Drawings when incorporated into Change Orders. Such instructions shall be incorporated into the Agreement in accordance with the Change Order provisions of the Agreement.

Any discrepancies discovered by the Contractor between the Contract Documents and Site conditions or any inconsistencies or ambiguities in the Contract Documents shall be promptly reported, in writing, to the Construction Manager. Questions regarding the meaning and intent of the Contract Documents shall be referred in writing by the Contractor to the Construction Manager with a Request for Information (RFI).

Work done by the Contractor after its discovery of such errors, omissions, discrepancies, inconsistencies or ambiguities without such notice and prior to response from the Construction Manager shall be done at the Contractor's risk and shall not be reimbursed as a Cost of the Work, nor be a basis for an increase in the GMP.

3.4 Designer

3.4.1 General

The Designer will have the authority to act on behalf of the CITY only to the extent provided in the Contract Documents. The Designer shall not be responsible or have authority for the superintendence of construction site conditions; construction means, methods, appliances techniques, sequences, or procedures; operation of equipment; Contractor's personnel; or for safety practices or unsafe practices; precautions and programs in connection with the Work; or for any failure of the Contractor to comply with laws, regulations, rules, ordinances, codes, or orders applicable to the Contractor furnishing and performing the Work.

3.4.2 Interpretations

The Designer has the authority to be the initial interpreter of the technical requirements of the Contract Documents. Either party to the Agreement may make written request to the Construction Manager for interpretations necessary for the proper execution or progress of the Work. The Construction Manager shall refer such written requests to the Designer, who will render such interpretations. Where the Contractor has requested an interpretation from the Construction Manager, or been notified by the Construction Manager that such interpretation has been requested by the CITY, any work done before receipt of such interpretations, if not in accordance with same, shall be removed and replaced or adjusted as directed by the Construction Manager without additional expense to CITY and shall not be reimbursed as a Cost of the Work, or be a basis for an increase in the GMP.

3.4.3 Acceptability of the Work

The Designer has the authority to make a recommendation as to the acceptability of the Work. The Designer has the authority to recommend acceptance regarding the remediation or retention of Defective Work.

3.4.4 Submittal

The Designer shall receive, through the Construction Manager, shop drawings, product data and samples for review.

The Designer has the authority to review and take other appropriate action upon the Contractor's submittal such as shop drawings, product data and samples, but only for conformance with the design concept of the Work and the information given in the Contract Documents.

ARTICLE 4 - CITY'S RIGHTS AND RESPONSIBILITIES

4.1 General

CITY, acting through the CITY's Representative or the Construction Manager, shall have the authority to act as the sole judge of the Work and materials with respect to both quantity, quality function, performance and reliability as set forth in the Agreement except as delegated to the Construction Manager in these Contract Documents.

4.2 Information and Services Required of CITY

4.2.1 CITY Designation of Authorized Representative

Both Parties shall designate, from time to time, one or more representatives authorized to act on their behalf with respect to the Project, together with the scope of his/her respective authority. CONTRACTOR shall not be entitled to rely on directions from anyone outside the scope of that person's authority as set forth in written delegations pursuant to this Agreement. Directions and decisions made by Authorized Representative(s) of CITY shall be subject to any further approval(s) required by any provisions of CITY's Charter or the Roseville Municipal Code.

4.2.2 Communication

During the term of this Contract, CITY shall communicate with Subcontractors, suppliers and others performing any part of the Work only through CONTRACTOR's Authorized Representative.

4.2.3 CITY'S instruction to CONTRACTOR

Wherever CITY is identified in the contract documents in reference to providing the CONTRACTOR with instruction, the "CITY" reference could mean, Construction Manager, Engineer, or Representative acting on behalf of the CITY as delegated in that instance.

4.3 Activities on Site by CITY or Separate Contractors

4.3.1 Observation and Inspection

In addition to the Construction Manager's designated representative, the CITY may provide one or more inspectors to the Construction Manager to observe the Work and with the same authority as provided for in Article 3.3.3, Observation and Inspections of Construction.

Separate and independent from the observations and inspections above, the Work may be inspected by Building Officials, Fire Officials, Roseville Electric and/or Pacific Gas and Electric for code compliance. Such inspectors shall have the authority provided to them by their jurisdiction. Any design deficiencies or additional work required by these code inspections not required by the Contract Documents may be incorporated into the Work in accordance with the Change Order provisions of the Agreement

4.3.2 CITY'S Right to Award Separate Contracts

CITY reserves the right to perform work or operations related to the Project with the CITY'S own forces, and to award separate contracts to Separate Contractors in connection with the Project or other work on the Site. If the Contractor claims that delay, damage, or additional cost is involved because of such action by the CITY, the Contractor shall make such claim as provided elsewhere in the Contract Documents. When separate agreements are awarded for different portions of the Project or other work on the Site, the

term "Contractor" in the Contract Documents in each case shall mean the contractor who executes each separate Agreement.

4.3.3 Integration of the Work with Separate Contractors

Following the request of CITY, CONTRACTOR shall prepare a plan in order to integrate the work performed by Separate Contractors with the performance of the Work, and shall submit such plan to CITY for approval. The plan shall be fair and reasonable for CONTRACTOR and the Separate Contractors, and CONTRACTOR shall work with the Separate Contractors to reach agreement on such plan. CONTRACTOR shall arrange the performance of the Work so that the Work and the work of the Separate Contractors are, to the extent applicable, properly integrated, jointed in an acceptable manner, and performed in the proper sequence so that any disruption or damage to the Work or to any work of Separate Contractors is avoided.

4.3.4 Coordination

CONTRACTOR shall provide for the coordination of the activities of CONTRACTOR and its Subcontractors with the activities of the Separate Contractors. CONTRACTOR shall participate with all Separate Contractors and CITY in reviewing and coordinating the schedules of the Separate Contractors with the Schedule. CONTRACTOR shall make any revisions to the Schedule deemed necessary to properly incorporate the work of the Separate Contractors with the Work. To the extent (a) the date of Substantial Completion is extended by such Schedule revision; (b) CONTRACTOR is required to perform its Work materially out of sequence, and in a manner which is not as efficient or cost effective as originally planned; or (c) the Scope of Work is increased, an equitable adjustment in the GMP and the Schedule shall be made in accordance with the Change Order provisions of this Agreement.

4.3.5 Use of Site

CONTRACTOR shall afford CITY and all Separate Contractors reasonable opportunity for storage of materials and equipment and performance of their work. CONTRACTOR shall also connect and coordinate its Work and operations with CITY and all Separate Contractors' operations as required by the Contract Documents. CITY shall direct the Separate Contractors to cooperate with CONTRACTOR and to avoid actions or omissions, which could interfere with or delay the activities of CONTRACTOR.

4.3.6 Deficiency in Work of Contractors

If part of CONTRACTOR's Work depends upon proper execution or results upon construction or operations by CITY or a Separate Contractor, CONTRACTOR shall, prior to proceeding with that portion of the Work, promptly report to the Separate Contractor and CITY apparent discrepancies or defects in such other construction that would render it unsuitable for proper execution and results by CONTRACTOR. CONTRACTOR and the Separate Contractor shall use good faith efforts to resolve any such discrepancies or defects or any disagreements relating thereto. Failure of CONTRACTOR to report such discrepancies or defects shall constitute acceptance by CONTRACTOR of the work of Separate Contractors as fit and proper to receive CONTRACTOR's Work (except as to those defects or discrepancies that are not apparent).

4.4 Claims Involving Separate Contractors

In the event that CONTRACTOR unnecessarily and unreasonably delays the work of Separate Contractors by not cooperating with them as required hereby, or by not affording them reasonable opportunity to perform their work as stated herein, CONTRACTOR shall, in such event, pay, as Cost of the Work, all reasonable direct incremental costs and expenses incurred by such Separate Contractors due

to any such delays. If any Separate Contractor shall assert a claim or bring an action against CITY alleging damage due to the fault or neglect of CONTRACTOR, CITY shall immediately notify CONTRACTOR, who shall defend such claim. If it is determined that CONTRACTOR was at fault, CONTRACTOR shall pay all costs of defense, including attorney's fees, as well as any resulting judgment or settlement, as a Cost of the Work.

4.5 Assignment of Separate Contracts

If CITY determines that it wishes to assign to CONTRACTOR one or more contracts between CITY and a Separate Contractor, it shall give CONTRACTOR written notice of such desire, including in such notice a copy of such contract for CONTRACTOR's review and approval. The Separate Contractor shall be fully qualified to perform the work under the to-be-assigned contract, shall possess the financial capability to perform its obligations under such to-be-assigned contract, and shall provide one hundred percent (100%) payment and performance bonds covering such work from sureties meeting the standards set forth in Article 11-Insurance and Bonds; Indemnification hereof. Such contract shall contain provisions similar to those contained in CONTRACTOR's agreements with its Subcontractors with respect to liability, indemnification, retention, payment, labor, warranty, and other material items. Upon CONTRACTOR's approval of the assignment of such contract, which approval shall not be unreasonably withheld, delayed or conditioned, such Separate Contractor shall cease to be a Separate Contractor and shall thereafter be deemed to be a Subcontractor of CONTRACTOR, and the GMP shall be increased by Change Order in the amount of (a) such assigned contract, and (b) the additional Fee pursuant to the provisions of Article 9.6-Change Orders on Account of Scope Change.

4.6 CITY's Right to Stop the Work

If CONTRACTOR persistently fails to correct Work which is not in accordance with the requirements of the Contract Documents and this Agreement or persistently fails to carry out the Work in accordance with the Contract Documents, CITY, by written order signed by CITY, may deliver a notice to CONTRACTOR setting forth that such a persistent and material failure is occurring and has occurred, and demanding that CONTRACTOR commence a cure of such persistent and material failure within twenty (20) Days and diligently pursue such cure thereafter. In the event that the cure is not commenced and pursued diligently, CITY may, by written notice to CONTRACTOR, order CONTRACTOR to stop the Work, or any portion thereof, until the use for such order has been eliminated; provided, however, that the right of CITY to stop the Work shall not give rise to a duty on the part of CITY to exercise this right for the benefit of CONTRACTOR or any other person or entity and shall not give rise to any liability of CITY to CONTRACTOR resulting from any delay (except to the extent that such order is found to be improper).

If CONTRACTOR fails to correct an unsafe condition as specified in Article 12-SAFETY: PROTECTION OF PERSONS AND PROPERTY, the CITY shall have the right to notify the Contractor through the Construction Manager that an unsafe condition may exist and must be corrected or the Work in question can be stopped immediately. CITY's has a right to stop the work, until the condition is corrected to the satisfaction of the CITY.

4.7 CITY's Right to Carry Out the Work

If CONTRACTOR defaults or neglects to carry out the Work in accordance with the Contract Documents and fails within a seven (7) Day period after receipt of written notice from CITY to commence and diligently continue correction of such default or neglect with diligence and promptness, CITY may, after such seven (7) Day period, give CONTRACTOR a second written notice to correct such deficiencies within such second seven (7) Day period. If CONTRACTOR within such second seven (7) Day period

after receipt of such second notice fails to commence and diligently continue to correct any deficiencies, CITY, without prejudice to other remedies CITY may have, may correct such deficiencies. In such case an appropriate Change Order shall be issued deducting from payments then or thereafter due to CONTRACTOR the cost of correcting such deficiencies, including Compensation for additional services and expenses made necessary by such default, neglect or failure. If payments then or thereafter due to CONTRACTOR are insufficient to cover such amounts, CONTRACTOR shall pay the difference to CITY.

The CITY also reserves the right to perform and suspend any portion of the Work due to an emergency threatening the safety of the Work, public, CITY, and any property or equipment. No deductive Change Order shall be issued for an emergency not caused by Contractor.

4.8 Non-Responsibility of the CITY

CITY shall not be held responsible for the care or protection of any material or parts of the Work prior to the Final Acceptance, except as expressly provided in the Contract Documents.

ARTICLE 5 - CONTRACTOR RIGHTS AND RESPONSIBILITIES

5.1 Status of Contractor and Subcontractors

5.1.1 Contractor

It is stipulated and agreed that the Contractor shall be an independent contractor in the performance of this Agreement and shall have complete charge of persons engaged in performance of the Work. The Contractor shall perform the Work in accordance with its own means, methods, and appliances subject to compliance with the requirements of the Agreement.

5.1.2 Subcontractors

If any part of the Work to be done under this Agreement is subcontracted, the subcontract shall be in writing and shall provide that all Work to be performed thereunder shall be performed in accordance with the terms of the Contract Documents. The subcontracting of any or all of the Work to be done will in no way relieve the Contractor of any part of its responsibility under the Agreement. Subcontractors will not be recognized as having a direct relationship with the CITY. The persons engaged in the Work, including employees of subcontractors and suppliers, will be considered employees of the Contractor and their work shall be subject to the provisions of the Agreement. References in the Contract Documents to actions required of subcontractors, manufacturers, suppliers, or any person other than the Contractor, the CITY or the Construction Manager shall be interpreted as requiring that the Contractor shall require such subcontractor, manufacturer, supplier or person to perform the specified action.

The Contractor shall only employ subcontractors that are properly licensed in accordance with State law and are registered with the California Department of Industrial Relations (DIR).

Prior to commencement of any work by a subcontractor, the Contractor shall submit to the Construction Manager:

- A. Verification that the subcontractor is properly licensed for the work it will perform.
- B. Upon CITY'S request, copies of subcontract agreements.
- C. Copies of subcontractor's insurance certificates and endorsements.

5.2 Contractor's Representative

The Contractor shall provide in writing, a request to the CITY to delegate authority to an individual to serve in the capacity of authorized representative and shall wait to receive written confirmation from the CITY, before the authorized representative can start work. The authorized representative shall be qualified for the duties required and have complete authority to represent and to act for the Contractor. Said authorized representative has the authority to act in matters relating to the Agreement, and shall be personally present at the Site at all times while work is actually in progress on the Agreement. During periods when the Work is suspended, arrangements acceptable to the Construction Manager shall be made for any emergency work that may be required. The Contractor's authorized representative shall be fluent and proficient in the English language in order to understand, receive, and carry out oral and written communications or instructions relating to all job functions and responsibilities. All communications to and from the Contractor's authorized representative shall be binding as if given to or by the Contractor.

Contractor shall provide its authorized representative's contact information which shall include the representative's name, office street address, office telephone number, mobile phone number, home phone number, email address and the office mailing address if different from the street address.

The Contractor's authorized representative shall give its personal attention to and shall supervise the Work to the end that it shall at all reasonable times be prosecuted faithfully; and when the authorized representative is not personally present on the Work, the representative shall at all reasonable times be represented by a competent designated alternate, superintendent or foreman (approved in writing by the CITY, to act in this capacity) who shall receive and obey all instructions or orders given under this Agreement, and who shall have full authority to supply materials, tools, and labor without delay, and who shall be the legally appointed representative of the Contractor. The Contractor shall be liable for the faithful observation of any instructions delivered to the Contractor or to its authorized representative.

5.3 Supervision and Superintendence

CONTRACTOR shall supervise, inspect, and direct the Work competently and efficiently, devoting such attention thereto and applying such skills and expertise as may be necessary to perform the Work in accordance with the Contract Documents. Contractor shall be solely responsible for the engineering, means, methods, techniques, sequences, and procedures of construction.

At all times during the progress of the Work, Contractor shall assign a competent resident Superintendent who shall not be replaced without written notice to Owner except under extraordinary circumstances.

5.4 Documents and Samples at the Site.

CONTRACTOR shall maintain at the site for CITY one record copy of the drawings, specifications, addenda, Change Order and other Modifications, in good order and marked currently to record changes and selections made during construction, and in addition approved Shop Drawings, Product Data, Samples and similar required submittals. CONTRACTOR shall also prepare one reproducible set of as-built drawings. These shall be provided to CITY upon completion of the Work.

5.5 Use and Protection of CITY'S Site and Adjacent Property

5.5.1 Designated Areas

With the approval of the Construction Manager, the Contractor may use designated portions of the CITY'S Site for storage of construction equipment, materials and field offices provided the Contractor does not interfere with CITY'S operations. The Contractor will not be allowed to unreasonably encumber

the Site or adjacent areas with its materials and/or equipment. The CITY will not accept any responsibility for damage to or loss of the Contractor's equipment or materials stored on any Project related site caused by vandalism, nature, or otherwise, suffered by the Contractor. Protection of all construction equipment, stores, and supplies shall be the sole responsibility of the Contractor. Where additional work space is desired by the Contractor or where the CITY cannot provide the space to the Contractor, it shall be the Contractor's sole responsibility and expense to obtain such a space for its use.

5.5.2 Contractor's Site Access

All workers or representatives of the Contractor, subcontractors or suppliers are admitted to the Site only for the proper execution of the Work and have no tenancy without the express written permission of the CITY. Furthermore, no persons may occupy property owned by the CITY outside the limit of the Work, as indicated on the Drawings, without the express written permission of the CITY.

5.5.3 Provisions for Handling Emergencies

It is possible that emergencies may arise during the progress of the Work, which may require special treatment or make advisable extra shifts of labor forces to continue the Work for twenty-four (24) hours per day. These emergencies may be caused by damage or possible damage to nearby existing structures or property by reason of the work under construction, or by storm, accidents, or leakage. The Contractor shall be prepared in case of such emergencies to make all necessary repairs and shall promptly execute such work when required; such emergency work will be reimbursed as a Cost of the Work and the GMP increased accordingly.

Upon start of the Work, Contractor shall provide means for immediate emergency notification of Contractor's designated representative and designated emergency alternates.

5.5.1 Debris, Trash, and Construction Wastes

The Contractor shall keep the Site reasonably free from debris, trash and construction wastes to permit Contractor to perform construction services efficiently, safely and without interfering with the use of adjacent land areas, and as further stipulated in the Contract Documents. When the Work is Substantially Complete, or a portion of the Work has been completed, Contractor shall remove all debris, trash, construction wastes, materials, equipment, machinery and tools arising from the Work or applicable portions thereof to permit CITY to occupy the Project or a portion of the Project for its intended use. Contractor shall provide a finished cleaning of all areas acceptable to the CITY before releasing any area to the CITY for occupancy.

5.6 Compliance with Laws

The CITY is a municipal corporation in the State of California and is subject to the applicable provisions of law relating to public contracts as a Charter CITY. It is agreed that all provisions of law applicable to public contracts are a part of these Contract Documents to the same extent as though set forth herein and will be complied with by Contractor.

The Contractor shall at all times observe and comply with all existing laws, ordinances, regulations, orders and decrees; and shall protect, indemnify, and defend the CITY, the Construction Manager, the Designer, the Funding Agencies and all of their officers, officials, employees, agents, volunteers, and servants against any claim or liability arising from or based upon the violation of any such law, ordinance, regulation, order, or decree, whether by the Contractor itself, employees, or its subcontractors.

The Contractor, shall at its own cost and expense, observe and keep itself and its subcontractors fully informed of all existing and future legislated State and Federal Laws and CITY and County ordinances and regulations which in any manner affect those engaged or employed in the Work, or the materials and equipment used in the Work, or which in any way affect the conduct of the Work, and all such orders and decrees of bodies or tribunals having any jurisdiction or authority over the same.

If any discrepancy or inconsistency is discovered in the Drawings, Specifications, or in any other part of this Agreement, in relation to any law, ordinance, regulation, order or decree, the Contractor shall immediately report the same to the Construction Manager in writing.

Attention is directed to the following specific regulations and requirements that are hereby included in the Contract Documents. This list of regulations is not warranted to be complete and the burden of ascertaining legal requirements that must be satisfied shall rest solely with the Contractor.

5.6.1 Prevailing Wages

For purposes of this Agreement, CONTRACTOR and its Subcontractors shall comply with all applicable prevailing wage laws, e.g., but not limited to, California Labor Code Sections 1770 et seq. In accordance with said Section 1775, CONTRACTOR shall forfeit as a penalty to the CITY Two Hundred Dollars (\$200) for each calendar Day or portion thereof for each worker paid less than the prevailing rates for such work or craft in which such worker is employed for any work done on-Site under the Agreement by CONTRACTOR or by any Subcontractor in violation of the provisions of the Labor Code and in particular, Labor Code Sections 1770 to 1780, inclusive. In addition to said penalty and pursuant to said Section 1775, the difference between such stipulated prevailing wage rates and the amount paid to each worker for each calendar Day or portion thereof for which each worker was paid less than the stipulated prevailing wage shall be paid to each worker by CONTRACTOR or the applicable Subcontractor.

Pursuant to the provisions of California Labor Code Sections 1773, the Department has identified the source, stated below, of the General Prevailing Rate of Wages applicable to the work to be done, for straight time, overtime, and holiday work. The holiday wage rate listed shall be applicable to all holidays recognized in the collective bargaining agreement of the particular craft, classification or type of worker concerned. These wage rates may be obtained from the State Department of Industrial Relations and/or the following website address: <http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm>, which is a part of this Agreement.

Pursuant to Labor Code Section 1773.2, General Prevailing Wage Rates set forth above, which forms a part of this Agreement, shall be posted by CONTRACTOR at a prominent place at the Site. Prevailing wage rates to be posted at the Site will be furnished by the Department. The possibility of wage increases is one of the elements to be considered by CONTRACTOR in determining its Proposal, and will not under any circumstances be considered as the basis of a claim against CITY or the Agreement.

5.6.2 DIR Registration

California Labor Code section 1725.5 requires the Contractor and all lower-tier subcontractors performing public works services to be currently registered with the California DIR, as specified in California Labor Code section 1725.5. California Labor Code section 1771.1 provides that a contractor or subcontractor shall not be qualified to bid on, be listed in a bid proposal (subject to the requirements of Section 4104 of the California Public Contract Code), or engage in the performance of any contract for public work, unless currently registered and qualified to perform public work pursuant to California Labor Code section 1725.5. The Contractor shall list the Contractor's current DIR registration number, and the current DIR registration number of all subcontractors, as part of its Bid Proposal.

Further information can be found on DIR's website at <http://www.dir.ca.gov/Public-Works/Contractors.html>. The above summary is provided solely for informational purposes, and does not in any way affect the Contractor's and subcontractors' obligation to comply in all respects with all other applicable laws and regulations. The Contractor shall disseminate these provisions to every lower-tier subcontractor.

5.6.3 Apprentices on Public Work Projects

The Contractor and any subcontractor or subconsultant shall comply with California Labor Code section 1777.5 et seq., and implementing regulations set forth in Title 8 of the California Code of Regulations, governing the employment of apprentices. Contractor and any subcontractor or subconsultant performing Public Work will be subject to penalties for apprenticeship violations in accordance with Labor Code section 1777.7. Please refer to the link below for guidance in meeting your obligation to satisfy the apprentice requirements for this Project:
<https://www.dir.ca.gov/das/DASApprenticesOnPublicWorksSummaryOfRequirements.htm>.

5.6.1 Receipt of Workers' Wages, Fee for Registering or Placing Persons in Public Works

The Contractor and any subcontractor or subconsultant shall comply with California Labor Code sections 1778 and 1779 of the California Labor Code, which read as follows:

Section 1778. "Every person, who individually or as a representative of an awarding or public body or officer, or as a contractor or subcontractor doing public work, or agent or officer thereof, who takes, receives or conspires with another to take or receive, for his own use or the use of any other person any portion of the wages of any workman or working subcontractor, in connection with services rendered upon any public work is guilty of a felony."

Section 1779. "Any person or agent or officer thereof who charges, collects, or attempts to charge or collect, directly or indirectly, a fee or valuable consideration for registering any person for public work, or for giving information as to where such employment may be procured, or for placing, assisting in placing, or attempting to place, any person in public work, whether the person is to work directly for the State, or any political subdivision or for a contractor or subcontractor doing public work is guilty of a misdemeanor."

5.6.2 Travel and Subsistence Payments

Each worker needed to execute the Work must be paid travel and subsistence payments as defined in the applicable collective bargaining agreements filed in accordance with Section 1773.1 of the California Labor Code.

5.6.3 Workday

In accordance with the provisions of Division 2, Part 7, Chapter 1, Article 3 of the Labor Code, State of California, and in particular Sections 1810 to 1815 inclusive, thereof, eight (8) hours labor shall constitute a days' work and no laborer, worker, or mechanic in the employ of said Contractor, or any subcontractor doing or contracting to do any part of the Work contemplated by this Agreement, shall be required or permitted to work more than eight (8) hours in any one calendar day, and forty (40) hours in any one calendar week unless compensated at not less than time and a half as set forth in California Labor Code Section 1815. However, if the prevailing wage determination requires a higher rate of pay for overtime than is required under said Section 1815, then the overtime rate must be paid, as specified in California Code of Regulation Title 8, Group 3, Section 16200(a)(3)(F). The Contractor and each subcontractor shall also keep an accurate record showing the names and actual hours worked of all workers employed by

them in connection with the work contemplated by this Agreement, which record shall be open at all reasonable hours for the inspection of the CITY or its officers or agents and by the Division of Labor Standards Enforcement of the Department of Industrial Relations, their deputies or agents; and it is hereby further agreed that said Contractor shall forfeit as a penalty to the CITY, the sum of the greater of (i) Twenty-Five and No/100 Dollars (\$25.00) or (ii) the maximum penalty allowable by statute for each laborer, worker or mechanic employed in the execution of this Agreement by the Contractor or by any subcontractor for each calendar day during which such laborer, worker or mechanic is required or permitted to labor more than eight (8) hours in any one calendar day and forty (40) hours in one calendar week in violation of these provisions.

5.6.4 Labor Discrimination

The Contractor and any subcontractor or subconsultant shall comply with California Labor Code Section 1735, which reads as follows:

Section 1735. “No discrimination shall be made in the employment of persons upon public works because of the race, religious creed, color, national origin, ancestry, physical disability, mental disability, medical condition, marital status, or sex of such persons, except as provided in Section 12940 of the Government Code, and every contractor for public works violating this Section is subject to all the penalties imposed for violation of this chapter.”

Contractor agrees that it shall not discriminate against any person on account of their sex, race, color, religious creed, ancestry, national origin, disability, medical condition, marital status, age, gender, military or veteran status, genetic information, or sexual orientation in violation of the Fair Employment and Housing Act or the Unruh Civil Rights Act. Upon a final determination by a court of competent jurisdiction that the Grantee has violated either of these Acts, the CITY may, at its option, (1) withhold payments to Contractor under this Agreement until Contractor complies; or (2) suspend or terminate this Agreement. Contractor shall include the provisions of this paragraph in every subcontract, including procurement of materials and lease of equipment, unless specifically exempted by the CITY.

5.6.5 Asbestos Related Work

All work involving asbestos containing material must be performed in accordance with California Labor Code, Sections 6501.5 through 6510, inclusive, and California Administrative Code, Title 8, Section 5208 and all other pertinent laws, rules, regulations, codes, ordinances, decrees and orders.

5.6.6 Compliance with Environmental Laws

During construction, the Contractor shall comply with all pertinent requirements of Federal, State, and local environmental laws and regulations, including, but not limited to, the Federal Clean Air Act, State and local air pollution and noise ordinances, construction site erosion control regulations.

5.6.7 Public Records Act

5.6.7.1 Ownership and Disclosure

Except as otherwise provided herein, all records, documents, drawings, plans, specifications, and all other information relating to the conduct of CITY’S business, including information submitted by the Contractor (“Records”), shall become the exclusive property of CITY and shall be deemed public records. Said Records are subject to the provisions of the California Public Records Act (Government Code § 6250 et seq.). The CITY’S use and disclosure of its records are governed by this Act. The CITY will use its best efforts to inform the Contractor of any request for any financial records or documents marked “Trade Secret,” “Confidential” or “Proprietary” provided by the Contractor to CITY. The CITY

will not advise as to the nature or content of documents entitled to protection from disclosure under the California Public Records Act.

5.6.7.2 Litigation Related to Disclosure

In the event of litigation concerning the disclosure of any Records, CITY'S sole involvement will be as a stakeholder, retaining the Records until otherwise ordered by a court. The submitting party, at its sole expense and risk, shall be fully responsible for any and all fees for prosecuting or defending any action concerning the Records and shall indemnify and hold CITY harmless from all costs and expenses including attorney's fees in connection with any such action.

5.7 Certified Electricians

Workers performing work for an electrical contractor installing, constructing, or maintaining any electrical system covered by the National Electrical Code shall be certified as a General Electrician per California Labor Code Section 3099.

5.8 Contractor's Safety Responsibility

The Contractor shall be solely and completely responsible for conditions of the jobsite, including safety of all persons and property during performance of the Work. This requirement shall apply continuously and not be limited to normal working hours. Safety provisions shall conform to U.S. Department of Labor (OSHA), the California Occupational Safety and Health Act (Cal OSHA), and all other applicable Federal, State, County, and local laws, ordinances, codes, including but not limited to the requirements set forth in Article 12 – SAFETY: PROTECTION OF PERSONS AND PROPERTY, and any regulations that may be detailed in other parts of these Contract Documents. In the event of conflicting requirements, the most stringent requirement as it pertains to the Contractor's safety responsibility, shall be followed by the Contractor. Refer to Article 12 - SAFETY: PROTECTION OF PERSONS AND PROPERTY

5.9 Nonstandard Working Hours

The Contractor may be required to prosecute the Work at night or outside of the normal working hours defined in Section 01130-1.3.c Hours of Work and Overtime. Such work may be required due to project or operational constraints as defined in Section 01130 or if emergencies arise as provided for in Article 5.5.3-Provisions for Handling Emergencies. When required, ordered, or permitted to work at night, the Contractor shall provide sufficient and satisfactory lighting and other facilities therefore. Except as provided in 5.5.3-Provisions for Handling Emergencies, for work outside of the normal working hours, the Contractor shall receive no extra payment, but compensation shall be considered as having been included in the GMP stipulated for the Work, except for authorized work performed outside of the Agreement.

5.10 Cooperation with Other Contractors

This paragraph shall serve as notice to the Contractor that the CITY may allow other contracts for other work at or near the Site of this Work. The Contractor shall afford other Contractors reasonable opportunity for the delivery and storage of their materials and the execution of their work, and shall properly connect and coordinate its work with theirs.

Should construction be under way by other forces or by other Contractors within or adjacent to the limits of the work or in the vicinity of the work to be done under this Agreement, the Contractor shall so conduct its operations as to interfere to the least possible extent with the work of such other forces or Contractors.

Any difference or conflicts which may arise between the Contractor and any other forces or Contractors, creating delays or hindrance to each other, shall be adjusted as determined by the Construction Manager.

ARTICLE 6 - SUBCONTRACTORS

6.1 Incorporation of Contract Documents

CONTRACTOR may enter into Subcontracts with various Subcontractors for portions of the Work. The Subcontracts shall require each Subcontractor to assume towards CONTRACTOR all the obligations and responsibilities which CONTRACTOR assumes towards CITY, including the indemnity and insurance requirements, to the extent they apply to the scope of the Subcontractor's Work. All Subcontracts shall incorporate the terms of this Agreement and the Contract Documents to the extent applicable to the Work to be performed by the Subcontractor. Furthermore, CONTRACTOR shall require its Subcontractors to agree to be bound to CONTRACTOR and CITY in the same manner and to the same extent as CONTRACTOR is bound to CITY under this Agreement. Additionally, CONTRACTOR shall obligate its Subcontractors to comply with these same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of CITY's indemnity and insurance provisions will be furnished to the Subcontractor or a tertiary subcontractor upon request.

6.2 Approval of Subcontractors

Those portions of the Construction Work that the CONTRACTOR does not intend to perform with CONTRACTOR's own personnel shall be performed under Subcontracts. A proposed list of Subcontractors shall be submitted to CITY for approval. Proposed Subcontractors will be deemed accepted unless CITY objects in writing within five (5) days after submission by CONTRACTOR.

ARTICLE 7 - TIME AND PROGRESS OF THE WORK

7.1 Commencement of Work

Within five (5) calendar days after execution of the Agreement, written Notice to Proceed will be issued by the City to Contractor. Notwithstanding other provisions of the Agreement, the Contractor shall not be obligated to perform the Work, and the City shall not be obligated to accept or pay for such Work performed by the Contractor, prior to City's issuance of the Notice to Proceed. The Contractor shall provide the required Agreement bonds and evidences of insurance prior to the City's execution of this Agreement and prior to commencement of any Work.

The Contractor shall commence execution of the Work within five (5) days after the date established in the Notice to Proceed for the commencement of Contract Time.

The Contractor shall give the Construction Manager written notice not less than five (5) working days in advance of the actual date on which the Work is to begin on the Site (excluding Preconstruction Services performed under the Agreement) will be started. The Contractor shall be entirely responsible for any delay in the Work which may be caused by its failure to give such notice.

7.2 Contract Time

All time limits for Substantial Completion, and Final Completion as stated in the Contract Documents are of the essence of the Agreement. The counting of Working or Calendar Days shall begin five (5) Calendar Days from the date of the Notice to Proceed. The Contractor shall prosecute the Work so that

the various portions of the Work shall be complete and ready for use within the times specified in Exhibit H-COMPLETION TIMES AND LIQUIDATED DAMAGES. It is expressly understood and agreed by and between the Contractor and the City that the Contract Time(s) for Contract Milestones, Substantial Completion of the Work and for Final Completion are reasonable times taking into consideration the average climatic and economic conditions and other factors prevailing in the locality and the nature of the Work known as of the date this Agreement is entered into.

7.3 Delays

7.3.1 Notice of Delays

When the Contractor foresees a delay in the prosecution of the Work and, in any event, promptly upon the occurrence of a delay to its Work, the Contractor shall notify the Construction Manager in writing of the occurrence of delay, providing the estimated extent of the delay and its cause. The Contractor shall take immediate steps to prevent or mitigate, if possible, the occurrence or continuance of the delay.

The Contractor agrees that no claim shall be made for any occurrence of delay that is not the subject of a written notice and that is not submitted to the attention of the Construction Manager within ten (10) calendar days of its occurrence. The City may accept a delay with more than ten (10) calendar days of notice if the City finds that the Contractor was acting in good faith and the City was not prejudiced by the Contractor's failure to timely provide the required notice.

7.3.2 Non-Excusable Delays

Non-excusable delays in the prosecution of the Work are delays which were caused by the Contractor, or by its subcontractors and suppliers, at any tier level, or delays which could have been avoided by the exercise of care, prudence, and diligence on the part of the Contractor or its subcontractors or suppliers, at any tier level. The Contractor shall receive no compensation or time extension for such delay. The determination of Non-Excusable Delays shall be made solely by the Construction Manager. In the event that the Contractor is not in agreement with the Construction Manager's decision, the Contractor may appeal the decision by submitting to the City (for consideration), evidence that supports the Contractor's claim for an Excusable Delay consideration.

7.3.3 Excusable Delays

Excusable Delays in the prosecution or completion of the Work are delays which are not caused by or within the control of Contractor and which could not have been avoided by the exercise of care, prudence, foresight, and diligence on the part of the Contractor or its subcontractors or suppliers, at any tier level. In addition, before a delay will be deemed an "Excusable Delay," the delay must prevent the Contractor from proceeding with at least seventy-five (75%) percent of the normal labor and equipment force for at least five (5) hours per day toward completion of the current critical activity item(s) on the latest approved progress schedule submitted by Contractor in accordance with the Contract Documents. The Contractor shall receive no compensation for such delay unless such delay also qualifies as a Compensable Delay, as described below. The following are examples of Excusable Delays:

- A. Site Availability; Failure or inability of CITY to make available any or all of the Site in accordance with the requirements of the Schedule.
- B. Regulatory and Governmental Authority; Failure or inability of CITY or CONTRACTOR to obtain necessary zoning changes, variances, code changes, permits or approvals from any governmental authority, or failure to obtain any street or alley vacations required for the performance of the Work, except to the extent due to the fault or neglect of CONTRACTOR.

- C. Separate Contractor's Acts or Omissions; Delays resulting solely from the acts or omissions of Separate Contractors; provided however, only to the extent Separate Contractors perform their work improperly and not in accordance with any applicable critical path schedule.
- D. Force Majeure; Delays resulting from Force Majeure.
- E. Differing Site Conditions; Differing, unusual or concealed site conditions that could not reasonably have been anticipated by CONTRACTOR in preparing the Schedule.
- F. Hazardous Materials; Delays resulting from the existence or discovery of Hazardous Materials on the Site not brought to the site by CONTRACTOR or any Subcontractor.
- G. Applicable Laws; Delays resulting from changes in Applicable Laws occurring after the date of execution of this Agreement.
- H. CITY Acts or Omissions; Delays occurring solely due to the acts or omissions of CITY and those within the control of CITY, including, but not limited to, Separate Contractors.
- I. Abnormal Delays; Delays caused by fire, unusual storms, floods, tidal waves, earthquakes, strikes, labor disputes, freight embargoes, and shortages of materials shall be considered as Excusable Delays insofar as they prevent the Contractor from proceeding with at least seventy-five (75%) percent of the normal labor and equipment force for at least five (5) hours per day toward completion of the current critical activity item(s) on the latest favorably reviewed progress schedule.
- J. Weather Delays; Delays caused by inclement weather conditions or the conditions resulting from inclement weather shall be considered as "Excusable Delays" if they prevent the Contractor from proceeding with seventy-five (75%) percent of the normal labor and equipment force engaged in the current critical activity item for a period of at least five (5) hours per day toward completion of such operation or operations, and the crew is dismissed as a result thereof.
- K. Material Shortages; Upon the Contractor's submission of satisfactory proof to the Construction Manager, shortages of material may be considered an "Excusable Delay" upon the satisfaction of the conditions set forth herein. The Contractor must demonstrate that the Contractor has made every effort to obtain such materials from all known sources within reasonable reach of the proposed Work. Only the physical shortage of material, caused by unusual and unforeseeable circumstances, will be considered as eligible for an "Excusable Delay," and no consideration will be given to any claim that the material could not be obtained at a reasonable, practical, or economical cost or price, unless it is shown to the satisfaction of the Construction Manager that such material could have been obtained only at exorbitant prices entirely out of line with current rates, taking into account the quantities involved and usual practices in obtaining such quantities. A time extension for shortage of material will not be considered for material ordered or delivered late or whose availability is affected by virtue of the Contractor's or its subcontractor's or supplier's mishandling of the procurement for such material. The above provisions apply equally to equipment to be installed in the Work. Nothing herein is intended to affect the Contractor also needing to demonstrate that the delay must prevent the Contractor from proceeding with at least seventy-five (75%) percent of the normal labor and equipment force for at least five (5) hours per day toward completion of the current critical activity item(s) on the latest favorably reviewed progress schedule.

7.3.4 Compensable Delays

Compensable Delays in the prosecution or completion of the Work are delays which meet each of the following three elements: (1) delays which result from causes beyond the control of the Contractor and which could not have been avoided by the reasonable exercise of care, prudence, and diligence on the part of the Contractor or its subcontractors or suppliers, at any tier level; (2) delays that prevent the Contractor from proceeding with at least seventy-five (75%) percent of the normal labor and equipment force for at least five (5) hours per day toward completion of the current critical activity item(s) on the latest approved progress schedule; and (3) delays that are caused by one of the following three causes:

- A. CITY Acts or Omissions; Delays due to the actions and/or inactions of the City, Construction Manager, Designer or any of their agents or employees.
- B. Differing Site Conditions; Delays due to differing site conditions as defined in Article 7.3.3.E-DIFFERING SITE CONDITIONS.
- C. Separate Contractor's Acts or Omissions; Delays due to other contractors employed by the City who interfere with the Contractor's prosecution of the Work as defined above.

7.3.5 Concurrent Delays

Concurrent delays are those delay periods when the prosecution of the Work is delayed during the same period of time due to causes from a combination of the delays defined in Article 7.3.2-NON-EXCUSABLE DELAYS, Article 7.3.3-EXCUSABLE DELAYS, or Article 7.3.4-COMPENSABLE DELAYS. During such concurrent delay periods, time extensions will be granted in accordance with Article 7.4-TIME EXTENSIONS; however, the Contractor will be granted a non-compensable time extension, and the City shall not assess its actual costs as defined in Article 7.4.1-NON-EXCUSABLE DELAYS, nor will the City assess Liquidated Damages.

7.4 Time Extensions

7.4.1 Non-Excusable Delays

The Contractor shall receive no compensation or time extension for Non-Excusable Delays.

7.4.2 Excusable or Compensable Delays

If the Contractor is delayed in the performance of its Work as defined in Article 7.3.3-EXCUSABLE DELAYS, or Article 7.3.4-COMPENSABLE DELAYS, then the Contract Time(s) will be extended by the City for such time that, the Contractor shows, and the City agrees (which agreement will not be unreasonably withheld), the Project's critical path completion dates will be delayed, provided that the Contractor strictly fulfills the following:

- A. The Contractor shall have provided written notification, in accordance with Article 7.3.1-NOTICE OF DELAYS;
- B. The Contractor shall have submitted in writing a request for an extension of time to the Construction Manager stating at a minimum the cause of the delay and the estimated number of days being requested. The Contractor's request for a time extension shall be submitted within fifteen (15) days of the Contractor furnishing its written notice pursuant to Article 7.3.1-NOTICE OF DELAYS. In the case of an Excusable Delay or Compensable Delay that allegedly is impacting the Contractor's operations for a period longer than fifteen (15) days, the Contractor shall update its request for a time extension, including updating its time impact analysis, every thirty (30) days until the delay is no longer allegedly impacting the Contractor's operations.

- C. If the Contractor maintains that the delay at issue is a Compensable Delay, the Contractor shall submit an estimate of the additional compensation for Field Overhead and Indirect Home Office Overhead (per Article 7.4.4-FIELD OVERHEAD AND INDIRECT HOME OFFICE OVERHEAD FOR COMPENSABLE DELAYS that it is seeking in regard to the alleged delay. This estimate shall be included with the Contractor's request for time extension that is described in paragraph B, above. In the case of a Compensable Delay that allegedly is impacting the Contractor's operations for a period longer than fifteen (15) days, the Contractor shall update its estimate of additional compensation every thirty (30) days until the delay is no longer allegedly impacting the Contractor's operations.
- D. If requested by the Construction Manager, the Contractor shall provide sufficient information to the Construction Manager to assess the cause or effect of the alleged delay (as well as additional compensation in the case of Compensable Delay), or to determine if other concurrent delays affected the Work. Such additional information shall be furnished within fifteen (15) days of the Construction Manager's request for additional information.
- E. Time extensions due to Excusable or Compensable Delays will be granted only if such delays involve controlling critical path operations which would prevent completion of the whole Work within the specified Contract Time(s), as described in the above conditions for determination of "Excusable Delay" or "Compensable Delay."

Construction Manager will, in writing, approve or reject the Contractor's request for a time extension within fifteen (15) days of the latter of (i) the Construction Manager's receipt of the Contractor's complete request for a time extension; or (ii) the Construction Manager's receipt of the additional information referenced in paragraph C, above. If Construction Manager does not provide a written response within such fifteen (15) day time period, the Contractor's request shall be deemed denied by the City.

If the Construction Manager determines that the Contractor is entitled to a time extension, during such approved extension of time, neither extra compensation for inspection and administration nor damages for delay will be charged to the Contractor.

7.4.3 Weather Delays

For Weather Delays, the Contractor will be granted a non-compensable time extension for weather caused delays, pursuant to Article 7.3.3.J-WEATHER DELAYS, over and above an allowance as provided for in Exhibit H-Completion Times and Liquidated Damages. No time extensions for weather delays will be granted until the total number of weather days exceeds this allowance.

Should the Contractor fail to complete the Work within the time specified in the Agreement, as extended in accordance with this clause if appropriate, the Contractor shall pay to the City liquidated damages in accordance with Article 7.5-Liquidated Damages.

7.4.4 Field Overhead and Indirect Home Office Overhead for Compensable Delays

The Contractor shall be compensated for field overhead and indirect home office overhead expenses due to Compensable Delays for periods of time when the Work is delayed as defined in Article 7.3.4-COMPENSABLE DELAYS. However, no payment shall be made for compensable delays which occur during a concurrent delay as defined in Article 7.3.5-CONCURRENT DELAYS. As a condition precedent to payment for field overhead and indirect home office overhead, the Contractor must fulfill all conditions as provided in Article 7.4.2-EXCUSABLE OR COMPENSABLE DELAYS. Compensation will be calculated in accordance with 7.4.4.1 and 7.4.4.2 below. No additional markup for overhead or profit shall be provided for such field overhead and indirect home office overhead expenses.

Payment to the Contractor for indirect overhead expenses will be made only if the extended Contract Time period granted for the compensable delay(s) is required to complete the Work following the depletion of the original Contract Time period and any time extensions granted other than compensable time extensions. Payment for field overhead and indirect home office overhead shall be calculated as follows:

7.4.4.1 Field Overhead

For those allowable delay periods as described in Article 7.4.4-FIELD OVERHEAD AND INDIRECT HOME OFFICE OVERHEAD FOR COMPENSABLE DELAYS, the Contractor shall be reimbursed for its field overhead based on:

- A. Actual invoice costs for on-site field offices and temporary utilities as described in Section 015000, TEMPORARY FACILITIES AND UTILITIES.
- B. Actual labor costs as shown in Exhibit C, GUARANTEED MAXIMUM PRICE, COST OF WORK AND FEE, for field office staff.
- C. Fair rental values acceptable to the Construction Manager as described in Article 9.6-Cost Determination, for construction equipment idled due to the delay.
- D. Actual Errors and Omissions insurance costs attributable to delay periods.

7.4.4.2 Indirect Home Office Overhead

For those delay periods as described in the introduction of Article 7.4.4-FIELD OVERHEAD AND INDIRECT HOME OFFICE OVERHEAD FOR COMPENSABLE DELAYS, the Contractor shall be reimbursed for its indirect home office overhead based on the following formula:

$$[\text{Guaranteed Maximum Price (\$)} \div \text{Contract Time Period (Calendar Days)}] \times 0.03 = \text{Daily Indirect Home Office Overhead (\$/Calendar Day)}$$

As it is impractical to determine the actual home office overhead, such reimbursement shall encompass full payment for any and all indirect home office overhead expenses for such periods of time for the Contractor and all subcontractors. Distribution of the markup amount among the Contractor and all subcontractors and suppliers is the responsibility of the Contractor.

7.5 Liquidated Damages

City and the Contractor recognize that time is of the essence of this Agreement and that the City will suffer financial loss if the Work is not completed within the times specified in Exhibit H-COMPLETION TIMES AND LIQUIDATED DAMAGES, plus any extensions thereof allowed in accordance with Article 7.4-TIME EXTENSIONS. It is hereby understood and agreed that it is and will be difficult and/or impossible to ascertain and determine the actual damage which the City will sustain in the event of and by reason of the Contractor's failure to fully perform the Work or to fully perform all of its Agreement obligations that have accrued by the times for completion as specified in Exhibit H-COMPLETION TIMES AND LIQUIDATED DAMAGES.

It is, therefore, agreed in accordance with California Government Code Section 53069.85 that the Contractor will forfeit and pay to the City liquidated damages in the amount set forth in Exhibit F, COMPLETION TIMES AND LIQUIDATED DAMAGES, per day for each and every calendar day that expires after the times for completion specified for each construction milestone except as otherwise provided by extension of time pursuant to Article 7.4-TIME EXTENSIONS. It is further understood and agreed in accordance with California Government Code Section 53069.85 that the liquidated damages sum specified in this provision is not manifestly unreasonable under the circumstances existing at the

time this Agreement was made, and that the City may deduct liquidated damages sums in accordance with this provision from any payments due or that may become due the Contractor.

Liquidated damages will continue to accrue at the stated rate until the completion of any defined completion milestone(s) and Final Completion of Work, all as set forth in Exhibit H, COMPLETION TIMES AND LIQUIDATED DAMAGES. Accrued liquidated damages may be deducted by the City from amounts due or that become due to the Contractor for performance of the Work. Liquidated damages may not be waived or reduced by the City unless expressly waived or reduced in writing by the City.

ARTICLE 8 - PAYMENT AND COMPLETION

8.1 Guaranteed Maximum Price (“GMP”) and GMP Shared Savings

CITY shall pay for CONTRACTOR's performance under this Agreement the Cost of the Work and Fee (as described in Exhibit C-GUARANTEED MAXIMUM PRICE, FEE, AND COST OF WORK hereto); provided, however, that the sum of the Cost of the Work and the Fee shall not exceed the GMP, as adjusted by Change Order/Directive in accordance with the Contract Documents. CONTRACTOR bears the risk of its increased costs due to market price increases (including escalating costs for materials).

8.2 Shared Savings

CONTRACTOR shall be compensated for actual work completed based on the Cost of Work and Fee up to the amount of the GMP. If CONTRACTOR's actual total Cost of the Work and Fee is less than the GMP, upon Final Completion, the CONTRACTOR shall be entitled to receive a negotiated percentage of the GMP Savings as described in Exhibit C-GUARANTEED MAXIMUM PRICE, FEE, AND COST OF WORK hereto. “GMP” Savings shall mean the positive difference, if any, when the actual Total Cost of the Work and Fee is subtracted from the GMP; provided, however, that unused Allowance monies, if any, shall not be subject to shared savings.

8.3 Schedule of Values

Contractor will be required to submit a complete schedule of values upon selection of proposal to facilitate contract negotiation within ten (10) days of notice. Schedule of values should set forth the various portions of the Work, and the portions of the GMP allocated to each portion.

8.4 Applications for Payment

CONTRACTOR shall deliver to CITY not more than once each month an Application for Payment covering the Cost of Work and Fee applicable to the Work performed during the immediately preceding month. With each Application for Payment CONTRACTOR shall submit such evidence as may be necessary to demonstrate costs incurred on account of Cost of the Work during such month and the percentage of completion of each category of Work. CITY may reject requests for payment, or portions thereof, for Work, or portions thereof, not performed or completed.

8.5 Amount of Progress Payments

CITY shall pay CONTRACTOR the actual Cost of the Work and Fee, if any, through the period covered by the Application for Payment, less Retention as set forth in Article 8.6 below, provided that the aggregate payment amount before retention will not exceed the percentage of completion of the Work multiplied by the GMP (excluding items of the GMP not subject to retention). CITY may additionally

withhold from progress payments such amounts pursuant to stop payment notice claims as required by law and CITY administrative regulation 4.01.

8.6 Retention, Escrow Agreement, Final Payment

Five percent (5%) Retention shall be withheld from each progress payment until the expiration of thirty-five (35) days following the recordation of the notice of completion; provided however, CITY shall continue to retain such amount as required by law and/or CITY administrative regulation 4.01.

CONTRACTOR may elect to establish an escrow account for securities in-lieu of the five percent (5%) Retention in a form of escrow agreement compliant with law and subject to approval by the CITY Attorney (form of escrow agreement is attached as Exhibit F–IN LIEU OF SECURITIES ESCROW AGREEMENT. Release of Retention monies shall constitute the Final Payment.

8.7 Early Release of Subcontractor Retention. [reserved]

8.8 Payment for On-Site and Off-Site Stored Materials.

8.8.1 Payment for Materials:

8.8.1.1 Payment may be made for those materials delivered to the site but not incorporated in the work to the extent that the materials are included in the Construction Schedule as cost-loaded material delivery activities.

8.8.1.2 Payment for materials delivered will not be made before the respective shop drawings, installation instructions and O&M manuals have been submitted, reviewed, and accepted in accordance with Section 01330, Submittal Procedures.

8.8.1.3 To receive payment for materials delivered to the site, but not incorporated in the work, it shall be necessary for the CONTRACTOR to submit to the OWNER, at least 7 days prior to the end of said month, a list of such materials.

8.8.1.4 At their sole discretion, the OWNER will approve items for which payment as for On-Site and Off-Site Stored Materials is to be made.

8.8.1.5 The list of materials and invoices shall be clearly identified by referencing the associated activity on the cost loaded schedule.

8.8.1.6 Payment for materials delivered to the site or a bonded warehouse will be made in an amount equal to the respective suppliers' invoices(s) for the actual net cost for the item(s) delivered plus delivery charges in accordance with payment terms of the Agreement.

8.8.1.7 The CONTRACTOR's actual net cost for the materials must be supported by invoices of suppliers.

8.8.2 Proper storage and protection of materials shall be provided by the CONTRACTOR. Final payment shall be made only for materials actually incorporated in the work and, upon acceptance of the work, all materials remaining for which advance payments had been made shall revert to the CONTRACTOR, unless otherwise agreed, and payments made for these items shall be deducted from the final payment for the work.

8.9 Title to Construction Work

CONTRACTOR warrants that title to all Construction Work covered by an Application for Payment shall pass to CITY no later than the time of payment. CONTRACTOR further warrants that upon submittal of an Application for Payment, all Construction Work for which Applications for Payment have been

previously issued and payments received from CITY shall, to the best of CONTRACTOR's knowledge, information and belief, be free and clear of liens, claims, security interests or encumbrances in favor of CONTRACTOR, Subcontractors, material suppliers, or other persons or entities making a claim by reason of having provided labor, materials or equipment relating to the Construction Work.

8.10 Withholding of Payment

CITY may withhold payment on account of an Application for Payment if required or authorized by any Applicable Law, or to the extent necessary to protect CITY from loss because of:

- A. defective Work not remedied;
- B. third party claims filed or reasonable evidence indicating probable filing of such claims;
- C. failure of CONTRACTOR to make payments of undisputed amounts to Subcontractors for labor, materials or equipment;
- D. damage to CITY or to a Separate Contractor caused by the fault or neglect of CONTRACTOR to the extent not reimbursed by insurance; or
- E. reasonable evidence that the Work will not be Substantially Completed within the Contract Time due to Inexcusable Delay, and that the unpaid balance of the GMP would not be adequate to cover liquidated damages for the anticipated Inexcusable Delay.

8.11 Failure of Payment; Interest

In accordance with Public Contract Code §20104.50, CITY shall pay CONTRACTOR interest on any progress payment, which is made by CITY more than thirty (30) days after CITY receives an undisputed and properly submitted written payment request. Said interest shall be equal to the rate set forth in Code of Civil Procedure §685.010(a), and shall begin to accrue upon the expiration of said thirty (30) day period. Any written request for a progress payment which CITY determines to be disputed, improper or not suitable for payment for any reason shall be returned to CONTRACTOR within seven (7) days after receipt by CITY, along with a written statement of the reason or reasons why such request is disputed, improper or not suitable for payment.

8.12 Occupancy by CITY Prior to Acceptance

CITY reserves the right to Beneficial Occupancy and without charge by CONTRACTOR. In those areas of the Work which are completed, CITY may store materials, equipment, and supplies, and may perform partial operation.

8.13 Substantial Completion

When CONTRACTOR considers the entire Work complete and ready for its intended use, CONTRACTOR shall certify in writing to CITY that the entire Work is substantially complete provide CITY with a Certificate of Substantial Completion. Within a reasonable time thereafter, CITY and CONTRACTOR shall make an inspection of the Work to determine the status of completion. If CITY does not consider the Work substantially complete, CITY will notify CONTRACTOR in writing giving reasons therefor. If CITY considers the Work substantially complete, CITY will accept a corresponding partial Certificate of Substantial Completion. There shall be attached to the Certificate a Punch List of items to be completed or corrected before Final Acceptance and Final Payment.

8.14 Final Completion

When the Work is fully completed, CONTRACTOR shall provide CITY with a Certificate of Final Completion and shall request final inspection in writing. Additionally, CONTRACTOR shall provide legally effective releases or waivers satisfactory to CITY of all lien rights arising out of or liens filed in connection with the Work. Within ten (10) calendar days of receipt of such completed request form, CITY shall make final inspection. If following final inspection, CITY determines that the Work (including all Punch List items) has been fully completed, CITY will process a Notice of Completion. If CITY determines that the Work is not complete after receipt of certification from CONTRACTOR, CONTRACTOR shall be notified in writing of deficiencies. After the deficiencies have been corrected, the procedure for final inspection as set forth above shall again be initiated by CONTRACTOR. In the event CITY determines the Work is fully completed, CITY shall initiate process of attaining a notice of completion.

8.15 Waiver of Claims at Final Payment

Acceptance of final payment by CONTRACTOR shall constitute a waiver of all claims by CONTRACTOR, except those previously made in writing and identified as unsettled at the time of final payment.

8.16 Construction Allowance Items

CONTRACTOR must have prior written authorization from CITY to begin work on allowance item scope. Upon approval of an invoice for work covered by an allowance item, the CITY shall pay for CONTRACTOR's performance under this Agreement the actual Cost of the Work and Fee (as described in Exhibit D - CONSTRUCTION ALLOWANCE ITEMS AND AMOUNTS hereto). When the approved invoices for the actual Cost of the Work is more or less than the amount of an allowance item, the Contract GMP will be adjusted by Change Order; provided, however, that the sum of the actual total cost of each allowance item shall not exceed the approved Allowance Amount of each, as adjusted by Change Order/Directive in accordance with the Contract Documents.

8.17 Contingency [reserved]

8.18 Audits and Access to Records.

The Contractor must maintain all books, records, documents, and other evidence directly pertinent to the performance of the Work in accordance with generally accepted accounting principles and practices. The Contractor must also maintain all financial information and data used by the Contractor in the preparation or support of any cost submission, including the Contractor's estimate, any Change Order, Dispute, Claim, Pay Application, or other request for equitable adjustment. City and its representatives will have access upon five (5) business days advanced written notice, during normal business hours, to all Contractor's books, summary reports, records, accounts, estimates, documents, detailed financial information, certified payroll records, AIS records and all other information and documentation relevant to the Work for the purposes of inspection, audit, and copying. The Contractor will, at no cost to City, provide reasonable facilities for such access, and inspection purposes. The City will arrange for and pay all costs of copying.

The Contractor agrees to include and make the requirements of this article, applicable to all subcontractors listed in their DESIGNATION OF SUBCONTRACTORS list.

Audits conducted pursuant to this article, will be in accordance with general accepted auditing standards and established procedures and guidelines of the reviewing or audit agency.

The Contractor agrees to provide requested information and reports resulting from access to records to City, subject to execution of an appropriate confidentiality order if requested.

Records must be maintained and made available during the performance of the Work and for four (4) years after Final Payment, and until final settlement of all Disputes or Claims, whichever occurs later.

The right of access provisions of this article, applies to all financial records pertaining to the Agreement:

- A. To the extent the records pertain directly to Agreement performance;
- B. To the extent required for verification of the costs incurred where such costs are the basis for billings pursuant to the Agreement including Change Orders;
- C. To the extent there is credible evidence that Contractor has violated the federal False Claims Act and the California False Claims Act or that fraud, gross abuse, or corrupt practices may be involved; and
- D. If the Agreement is terminated for default or convenience.

Access to records is not limited to the required retention periods. City's Authorized Representative or designee must be granted access to records at any reasonable time for as long as the records are required to be maintained.

In the event that City's audit determines that Contractor has billed for any costs that are ineligible for reimbursement or for any reason should not have been paid, or the Contractor's fee has been improperly applied or calculated, Contractor shall promptly refund all improper payments following receipt of City's written notice and explanation of the alleged overpayments or improper fee and shall be responsible to pay City for the City's reasonable costs to perform the audit unless the Contractor establishes that the overpayment or improper fee was the result of an unintentional, inadvertent clerical error.

ARTICLE 9 - CHANGES IN THE WORK

9.1 Contract Held Valid.

Any change in the Scope of Work or deviation from the Contract Documents including, without limitation, Extra Work or Omitted Work, shall not invalidate the original Contract, and shall be performed under the terms of the Contract Documents. The difference in cost of the work affected by such change will be added to or deducted from the Guaranteed Maximum Price (GMP), as the case may be.

9.2 Execution of Changes

- A. Only the Contractor or the City may initiate changes in scope of Work or deviation from Contract Documents.
- B. Changes in the Work may be accomplished after execution of the Contract where they are documented by an executed Field Directive, Field Order, or Change Order in accordance with applicable provisions of the Contract Documents.
- C. Changes in the Work shall be performed under applicable provisions of the Contract Documents. If unit prices are stated in the Contract Documents or subsequently agreed upon, and if quantities originally contemplated are so changed in a proposed Change Order or Change Directive that application of such unit prices to quantities of Work proposed will cause substantial inequity to CITY or CONTRACTOR, the applicable unit prices for such change order/directive shall be equitably adjusted. No GMP adjustment on account of a Change Order shall include CONTRACTOR's or Subcontractor's profit, Fee, home office overhead or a formula allocation of indirect costs unless otherwise specifically allowed

hereunder.

- D. The prices agreed upon and any agreed upon adjustment in Contract Time shall be incorporated in the written order issued by the City, which shall be written so as to show acceptance on the part of the Contractor as evidenced by its signature. By signature of the Change Order, the Contractor acknowledges that the adjustments to the GMP and Contract Time contained in the Change Order are in full satisfaction and accord and so waives any right to claim any further cost and time impacts at any time during and after completion of the Contract for the changes encompassed by the Change Order.

9.3 Definitions

9.3.1 Incidental Work

Incidental work includes reasonably implied parts of the work not shown on Drawings nor described in Specifications, but which is necessary or normally or customarily required as a part of the Work shown on the Drawings or described in the Specifications to provide a complete installation which is fully connected and tied into the existing facilities and processes and is fully functional and operational. Incidental work shall be treated as if fully described in Specifications and shown on Drawings, and expense thereof shall be included in the Guaranteed Maximum Price (GMP). Incidental work shall be performed by Contractor and included in the Cost of the Work without an increase in the GMP.

9.3.2 Extra Work

New or unforeseen work, or added work of a different character or function; or that involves revisions of the details of the Work on which Contractor based its GMP. If the extra work increases the Contractor's Cost of the Work and/or time to perform the Work, and is approved by the City via a written Change Order, the GMP and/or Contract Times shall be adjusted as provided in the Contract Documents. Extra Work shall not include Work which is shown, detailed or specified in the Contract Documents or which constitutes "Incidental Work" as defined within the Contract Documents definition above.

9.4 Change Directives

Changes in the Work may be directed by a Construction Change Directive prepared and signed by the OWNER'S REPRESENTATIVE. A Construction Change Directive signed by the CONTRACTOR indicates agreement of the CONTRACTOR with the actions specified in the Directive, including the inclusion or absence of an adjustment in Contract Amount or Contract Time or the method for determining them. The following procedures shall apply with respect to Change Directives.

- A. Upon receipt of a Change Directive signed by CITY, CONTRACTOR shall promptly proceed with the change in the Work involved and advise CITY of CONTRACTOR's agreement or disagreement with the method, if any, provided in the Change Directive for determining the proposed adjustment in the GMP or the Schedule. If CONTRACTOR receives a written communication signed by CITY which CONTRACTOR believes is a Change Directive but is not so identified, it shall not proceed with the change in the Work until it receives from CITY a written confirmation that such communication is in fact a Change Directive.
- B. A Change Directive signed by CONTRACTOR indicates the agreement of CONTRACTOR with the contents thereof, and shall convert the Change Directive to a Change Order.
- C. If CONTRACTOR does not respond promptly or disagrees with the method for adjustment in the GMP or Schedule, the method and adjustment shall be determined as provided in these

contract documents. In such case, CONTRACTOR shall keep and present, in such form as CITY may request, an itemized accounting, together with appropriate supporting data.

- D. Pending final determination of cost to CITY, amounts not in dispute shall be included in Applications for Payment. The amount of credit to be allowed by CONTRACTOR to CITY for a deletion or change which results in a net decrease in the GMP shall be actual net cost. When both additions and credits covering related Work or substitutions are involved in a change, the allowance for Fee shall be figured on the basis of net increase, if any, with respect to that change.
- E. If CITY and CONTRACTOR do not agree with the adjustment in the Schedule or the GMP, such disagreement shall be submitted for dispute resolution in accordance with the provisions of this Contract.

9.5 Contract Modification Procedures

9.5.1 Request for Proposal (RFP)

- A. The City may issue a Request for Proposal (RFP) to the Contractor in connection with the City considering an addition to, or deletion from, or other change in the Work. RFPs shall not be deemed to be directions to proceed with any addition, deletion or change to the Work.
- B. Whenever the Contractor is required to prepare a cost proposal in response to an RFP, and whenever Contractor is entitled to submit a cost proposal and elects to do so, Contractor shall prepare and submit to City for consideration a cost proposal using a form provided by the CM or the Contractor may submit another form if deemed acceptable to the Construction Manager. All cost proposals must contain a complete breakdown of costs of credits, deducts, and extras; and itemize materials, labor, equipment, special services, taxes, and markups. All Subcontractor Work shall be so indicated. Individual entries on the Cost Proposal form shall follow the cost items defined in Cost Determination in this Section. The Contractor shall provide all required cost information requested by an RFP within fourteen (14) days after receiving the RFP.
- C. Upon receipt of the Contractor's cost proposal, which shall include a detailed itemized breakdown as prescribed in this Section, the Construction Manager will act promptly thereon. If Construction Manager takes no exception to the cost proposal, Construction Manager will prepare Change Order for City and Contractor signatures, provided that City has elected to proceed with the changed Work. If a cost proposal is not acceptable to the Construction Manager, the Construction Manager will indicate to Contractor the unacceptable items in the proposal. Except as otherwise provided in this Section, Contractor shall have seven (7) days in which to respond to Construction Manager with a revised cost proposal.
- D. If the parties do not agree on the price or time adjustment in response to an RFP, City may issue a unilateral change order pursuant to the Agreement, Article 9.5.3-FIELD ORDER-FORCE ACCOUNT WORK. Contractor shall perform the changed Work, notwithstanding any claims or disagreements of any nature, with the understanding that it preserves all rights to pursue adjustments to the GMP and/or Contract Time in connection with the change.
- E. When the necessity to proceed with a change does not allow the Construction Manager sufficient time to conduct a proper check of the Contractor's cost proposal (or revised cost proposal), Construction Manager may order Contractor to proceed with the change, with the understanding that parties will negotiate in good faith to determine the value of the change at the earliest practical date. In this event, the value of change, with corresponding equitable

adjustment to the GMP, shall not be more than any increase or less than any decrease proposed by the Contractor's cost proposal.

9.5.2 Field Directive/Supplemental Instruction Resulting from RFI's, Submittals or other instructions from the Designer and/or City

- A. The Contractor may be issued a Field Directive or Supplemental Instructions resulting from an RFI, Submittal or other instructions from the Designer and/or City.
- B. If the Contractor is satisfied with Field Directive or Supplemental Instruction and does not request change in the GMP or Contract Time, then the Field Directive or Supplemental Instruction shall be executed by the Contractor without a Change Order.
- C. If the Contractor believes the Field Directive/Supplemental Instruction results in additional Cost of the Work or a change in the GMP or Contract Time, then Contractor must notify the Construction Manager within ten (10) days following receipt of Field Directive/Supplemental Instruction and before proceeding with this work. If the Construction Manager considers Contractor's notice to be justified, the instructions of the Field Directive/Supplemental Instructions will be revised or a proposed Change Order will be issued for the City's consideration. The Contractor shall have no claim for additional compensation or extension of the schedule because of any such additional instructions unless the Contractor provides the Construction Manager written notice thereof within the time frame specified above, unless the City is not Prejudiced by Contractor's untimely notice. In addition, the Contractor shall within fifteen (15) days from the date of the Contractor furnishing written notice provide a detailed justification and analysis as well as estimated pricing and Time Impact Analysis to support any request for time extension. Should the work at issue impact Contractor's operations for a period longer than fifteen (15) days, Contractor shall update its request for additional compensation and/or additional time, every thirty (30) days until the disputed work is no longer allegedly impacting Contractor's operations. In addition, Contractor shall comply with the requirements of the Agreement concerning Records of Disputed Work and Submission of Disputed Work Costs, respectively.
- D. Should the Contractor proceed with the work affected before receipt of a response from the Construction Manager, any portion of the work which is not done in accordance with the City's interpretation, clarifications, instructions, or decisions is at Contractor's risk.
- E. If the Contractor and Construction Manager still do not agree on the Field Directive's impact to the GMP or Contract Time, then Contractor may appeal to the Owner for decision. If the Owner concurs with the Construction Manager's position, the Contractor will be directed again in writing to make the changes covered in the Field Directive/Supplemental Instructions and Contractor shall do so notwithstanding any claims or disagreements of any nature. Contractor may file a Notice of Potential Claim and Claim in accordance with the Agreement.

9.5.3 Field Order- Force Account Work

- A. If either the amount of work or payment for a Change Order cannot be determined or agreed upon beforehand, the City may direct by issuing a unilateral Change Order or Field Order that the work be done on a force account basis. The term "force account" shall be understood to mean that payment for the work will be made based on an accounting of the Contractor's Cost of the Work as described in the Agreement, Exhibit C-Guaranteed Maximum Price, Cost of Work and Fee, and Article 9.6-Cost Determination.

- B. Prior to the commencement of force account work, the Contractor shall notify the Construction Manager of its intent to begin work. The Contractor shall maintain accurate cost records, separate from the cost categories for the balance of the Work, which depict all costs incurred for the authorized force account work. Upon request by the Construction Manager or City, these cost records must be made available for review as provided in the Agreement.
- C. All subcontractors that expend labor, equipment and materials on force account work shall record those costs daily by using a form provided by or approved by the Construction Manager. The subcontractor reports, if found to be correct, shall be signed by the subcontractor, Contractor and Construction Manager, or inspector, and a copy of which shall be furnished to the Construction Manager no later than the working day following the subcontractor's performance of said work. The Daily Extra Work Report sheet shall thereafter be considered the true record of force account work provided by the subcontractor. If the Construction Manager, or inspector, does not agree with the labor, equipment and/or materials listed on the subcontractor's daily force account report, the Construction Manager, or inspector, shall sign-off on the items on which they are in agreement. The Construction Manager shall then review the items of disagreement and will advise the Contractor, in writing, of its determination. If the Contractor disagrees with this determination, it shall have the right to file a claim notice per the Agreement.
- D. The Contractor shall maintain its records in such a manner as to provide a clear distinction between the direct costs of subcontractor work paid for on a force account basis and the costs of other operations.
- E. To receive partial payments and final payment for force account work, the Contractor shall submit, in a manner approved by the Construction Manager, detailed and complete documented verification of the Contractor's and any of its subcontractor's Costs of the Work involved in the force account pursuant to the pertinent unilateral Change Order or Field Order. Such costs shall be submitted within thirty (30) days after said work has been performed. No payments will be made for work billed and submitted to the Construction Manager after the thirty (30) day period has expired, unless City is not prejudiced by Contractor's untimely billing and submittal of costs.

9.5.4 Construction Change Directive (CCD)

- A. CCD is a written order prepared by the Construction Manager and signed by the City, directing a change in the Work and stating a proposed basis for adjustment, if any, in the Contract Price or Contract Time.
- B. If at any time the City believes in good faith that a timely Change Order will not be agreed upon using the foregoing procedures, the City may issue a CCD with its recommended cost and/or time adjustment. Upon receipt of CCD, Contractor shall promptly proceed with the change of Work involved and concurrently respond to City's CCD within ten (10) calendar days.
- C. Contractor's response must be any one of following:
 - 1. Return CCD signed, thereby accepting City's response, time, and cost.
 - 2. Submit a (revised if applicable) Cost Proposal with supporting documentation (if applicable, reference original Cost Proposal number followed by letter A, B, etc. for each revision), if City so requests.
 - 3. Give notice of intent to submit a Claim as described in the Agreement.

- D. If the CCD provides for an adjustment to the Contract Sum, the adjustment shall be based on one of the following methods:
 - 1. Mutual acceptance of a lump sum properly itemized and supported by sufficient substantiating data to permit evaluation.
 - 2. Unit prices stated in the Contract Documents or subsequently agreed upon.
 - 3. Cost to be determined in a manner agreed by the City and Contractor.
 - 4. Cost to be determined pursuant to Article 9.6-Cost Determination.
- E. A CCD signed by Contractor indicates the agreement of Contractor therewith, including adjustment in Contract Sum and Contract Time or the method for determining them. Such agreement shall be effective immediately and shall be recorded as a Change Order.
- F. If Contractor does not respond promptly or disagrees with the method for adjustment in the Contract Sum, the method and the adjustment shall be determined by Construction Manager on the basis of reasonable expenditures and savings of those performing the Work attributable to the change including, in case of an increase in the Contract Sum, an allowance for overhead and profit in accordance with Articles 9.6.3 and 9.6.4-Allowable Markups. If the parties still do not agree on the price for a CCD, Contractor may file a Claim in accordance with the Agreement. Contractor shall keep and present, in such form as Construction Manager may prescribe, an itemized accounting together with appropriate supporting data. Unless otherwise provided in the Contract Documents, costs for the purposes of this paragraph shall be limited to those provided in Article 9.6-Cost Determination.
- G. Pending final determination of cost to the City, amounts not in dispute may be included in Applications for Payment.

9.5.5 Documentation for All Changes

- A. Upon request of the Construction Manager, the Contractor shall provide the following information to support the request for change in cost or time:
 - 1. Copy of original quotations, purchase order or invoices to verify costs included in original pricing.
 - 2. Copy of all quotations, purchase order or actual invoices to support new costs submitted.
 - 3. Copy of all insurance and bond costs resulting from change.
 - 4. Copy of all quantity takeoff sheets for materials, labor and equipment.
 - 5. Certified payroll records.
 - 6. A list of equipment with manufacturer's name and model number and the alphanumeric designation used in the Equipment Rental Rates prepared by the California Department of Transportation, unless the equipment is included in the Agreement, Exhibit C-Guaranteed Maximum Price, Cost of Work and Fee.
 - 7. Invoices for all non-owned rental equipment.
 - 8. Other information, as reasonably required, to document the labor, equipment and materials used.
- B. Correlation of Other Items:

1. Contractor shall revise Application for Payment forms to record each authorized Change Order or CCD as a separate line item and adjust the GMP on the next monthly progress billing.
2. Contractor shall revise the Progress Schedules prior to the next monthly pay period to reflect the effects of all authorized Change Orders or CCDs.
3. Contractor shall enter changes in Project Record Documents prior to the next monthly pay period and provide a copy to the Owner with progress billing.

9.6 Cost Determination

With respect to Change Orders which increase or decrease the Scope of Work described in Exhibit B-Contractor's Technical Proposal, are not due to the errors or omissions of CONTRACTOR and are not attributable to Excusable Delays or the contingencies set forth in Article 9.7 below, the GMP shall be increased (or decreased) by the following "Scope Change Costs":

9.6.1 Contractor's Direct Cost Categories

The Contractor's allowed direct costs are found in the Agreement, Exhibit C-Guaranteed Maximum Price, Cost of Work and Fees.

9.6.2 Subcontractor's Direct Cost Categories

The categories described below are defined to be direct costs for subcontractors at all tier levels.

No other type of costs will be allowable as a direct cost. Direct costs shall not include any labor costs or indirect costs pertaining to the subcontractor's managers or superintendents, their office and engineering staffs, the cost of their offices, facilities, vehicles, or anyone not directly employed on such work, nor small tools (as defined in item C-Subcontractor's Construction Equipment Rental Cost of this Article 9.6.2) nor supplies. All such items are considered indirect costs which form a part of the Contractor's and subcontractors' overhead expenses.

A. Subcontractor's Direct Field Labor

1. The cost of labor for workers (including forepersons when authorized by the Construction Manager) used in actual and direct performance of the work by the subcontractor will be the sum of the following:
 - a. The actual wages paid plus any employer payments to, or on behalf of workers for fringe benefits including health and welfare, pension, vacation and similar purposes.
 - b. All payments imposed by State and Federal Laws including, but not limited to, workers' compensation insurance, and social security payments. The rates used for workers' compensation insurance shall be actual rates paid by the subcontractor for each specific craft and broken down by wage rate if applicable to that craft.
 - c. General Liability insurance burden, if applied to subcontractor's payroll. By formal submittal, the subcontractor shall provide adequate backup information to Construction Manager to verify this burden rate is indicative of the actual rates paid by the Contractor as a percent of labor.
2. Except as otherwise may be agreed to in writing by the Construction Manager, the

actual wages and benefits paid for manual classifications of subcontractor's on- site workers will not, in the aggregate, be less than the current applicable wage for each classification as established by the State of California Department of Industrial Relations.

3. Specifically prohibited from the subcontractor's labor costs are other payroll burden factors such as small tools (as defined in item C below), bonuses of any kind and safety incentives.
4. Subcontractor shall include the actual travel and/or subsistence costs, if any, as a separate line item under the labor cost category. Except as otherwise may be agreed to in writing by the Construction Manager, the actual travel and/or subsistence costs will not be less than established in the State of California Department of Industrial Relations.

B. Subcontractor's Materials

1. The cost of all materials, including all factory testing, freight and delivery costs of materials, accepted by the City and used in performing the work will be the cost to the subcontractor from the supplier thereof. All discounts for early payment shall accrue to the subcontractor unless the City's payment to subcontractor is paid to subcontractor before discount payment is due in which case discount savings will be fully credited to City on next progress billing. All rebates and all returns from the sale of surplus materials shall be credited to the Cost of the Work.
2. At the request of the Construction Manager, the subcontractor will obtain more than one quote for materials to be used to complete change order or force account work. Copies of all quotes shall be shown to the Construction Manager.
3. For materials used in construction of the Project which may have additional uses on other projects for the subcontractor's benefit, such as dimensional lumber, beams and plywood to form concrete or temporary diversion pipes, the subcontractor shall submit a material unit cost to cover use of these types of materials for the approval of the City prior to delivery to the Work Site. This unit cost shall take into account the use of such materials on other past and future projects.

C. Subcontractor's Construction Equipment Rental Cost

1. The cost of construction machinery and equipment for changes shall be based on fair rental cost or equivalent rental cost of owned equipment. Such costs will be allowed for only those days or hours during which the equipment is in actual use. Payment shall be based on actual rental and transportation invoices but shall not exceed the rental rates listed for such equipment in the State of California Department of Transportation publication entitled "Labor Surcharge and Equipment Rental Rates" which is in effect on the date upon which the work is performed. City-operated equipment rates shall not exceed the rates in the aforesaid Rental Rate publication plus the labor costs as provided in this section.
2. The aforesaid rental rates shall be deemed to include the cost of fuel, power, oil, lubrication, supplies, small tools, necessary attachments, repairs and maintenance of all kinds, depreciation, storage, insurance, labor except for construction equipment operators and any and all costs to the subcontractor incidental to the use of such construction equipment. All equipment must be in good working condition and suitable for the purpose for which it is to be used, as judged solely by the Construction Manager. Rental time will not be allowed while equipment is inoperative due to breakdowns.
3. Compensation for idle time of equipment through delays caused by the City will be

made consistent with Section 8-1.09, Right of Way Delays, of the Caltrans Standard Specifications.

4. Small Tools. Individual pieces of equipment or tools having a replacement value of \$500 or less, whether or not consumed by use, are considered to be small tools and no rental payment will be made unless it can be demonstrated that the particular item is needed and purchased by the subcontractor solely for the completion of the Change Order work.
5. The rental time to be paid for equipment used to complete change order and force account work will be the time the equipment is in operation on the change order or force account work being performed or an approved outside rental rate from an equipment rental company provided such rental rate was approved by the Construction Manager prior to the equipment's transportation to the project for use in the change order or force account work.
6. For equipment not already on the project site to complete other portions of the Work, loading and transporting costs will be allowed for equipment approved by the Construction Manager to complete change order or force account work. The cost of transporting equipment in low bed trailers shall not exceed the hourly rates charged by established haulers in the area. The cost of transporting equipment shall not exceed the applicable minimum established rates of the California Department of Transportation.

D. Special Services used by Subcontractor

When the Construction Manager and the Contractor, by agreement, determine that special service or item of extra Work cannot be performed by forces of a subcontractor, service or extra Work item may be performed by a specialist. These types of services will be paid based on current market rates, subject to Construction Manager approval, which approval will not unreasonably be withheld.

9.6.3 Allowable Mark-Ups – Contractor's Subcontractor(s)

The subcontractors shall be entitled to compensation for indirect field and home office overhead costs, and profit for Change Order work. This compensation shall be in the form of markup percentages applied to the direct cost of the Change Order increase or decrease of work, as further described below. The maximum markup which will be allowed for the subcontractor's combined overhead and profit will be:

- A. For work by its own organization, the subcontractor may add up to the following percentages:
 - Direct Field Labor: 15 percent
 - Materials: 10 percent
 - Equipment (owned or rented): 10 percent
 - Special Services: 10 percent
- B. For all such work done by sub-tier subcontractors, such sub-subcontractors may add the same percentages as the subcontractor as listed in (9.6.4.A) above to its actual net increase in costs for combined overhead and profit. The subcontractor may then add up to five percent (5%) of the sub-subcontractor's total for its combined overhead and profit. No additional mark-ups will be allowed for further tier-ed subcontracts below a sub-subcontractor.
- C. When both additional and deleted work are involved in any one change order, the combined overhead and profit shall be calculated on the basis of the net change, whether an increase or decrease. For Change Order work which results in a net decrease in cost a minimum of five

percent (5%) markup shall be added by the subcontractor to the sum of the direct labor, materials and equipment as a deduction for overhead, profit, and reduction in bond and insurance. The subcontractor shall not be entitled to nor claim for anticipated profits on work that has been omitted.

- D. To the total of the subcontractor's actual costs and fees allowed herein under, not more than two percent (2%) shall be added for additional bonds, if bonds were required by the Contractor. The compensable percentage for the subcontractor's bonds shall be based on the subcontractor's actual bond costs, as substantiated through documentation formally submitted to the Construction Manager.
- E. The added fixed fees shall be considered to be full compensation, covering the cost of general supervision, overhead, profit, small tools, incidentals and any other general expenses. The above fixed fees represent the maximum limits which will be allowed, and they include, but are not limited, to the subcontractors' indirect field and home office expenses and all other costs for cost proposal preparation, schedule analysis and preparation, operation and maintenance manual documentation, and record documents and change order administration.

9.6.4 Materials On Order at Time of Change Order

If acceptable material is ordered by the subcontractor for the deleted work prior to the date of notification of such deletion by the Construction Manager, and if orders for such material cannot be canceled, the subcontractor will be paid at the actual cost. In such case, the material paid for shall become the property of the City and City will pay for the actual cost of any further handling. If the material is returnable to the vendor, and if the Construction Manager so directs, the material shall be returned and the subcontractor will be paid for the actual costs of charges made by the vendor for returning the material. The actual cost of handling returned material will be paid for by the City.

9.6.5 Disallowed Costs in Change Order and Force Account Work

Disallowed subcontractor costs in Change Orders include, but are not limited to:

- A. Interest cost of any type other than those mandated by statute;
- B. Change Order preparation and review costs;
- C. Meetings related to Change Orders;
- D. Schedule preparation costs;
- E. Submittal preparation costs;
- F. Accounting and Invoicing costs related to Change Orders;
- G. Developing and/or updating as-built drawings.

9.7 Change Orders on Account of Contingencies

With respect to Change Orders which are attributable to the following contingencies, the GMP shall be adjusted (increased or decreased) by the following **"Contingency Costs,"** consisting of the following:

9.7.1 Taxes

With respect to new, increases, or decreases in taxes arising after the date of this Agreement (other than taxes assessed based on the income of CONTRACTOR), the Change Order shall consist of the incremental amount of such new, increased or decreased taxes only.

9.7.2 Permit Fees

With respect to increases or decreases in fees for permits or other governmental certificates or instruments arising after the date of this Agreement, the Change Order shall consist of the incremental amount of such increases or decreases. To the extent this Agreement states that a permit or certificate is not required and CONTRACTOR is later required to procure such permit or certificate, all out-of-pocket costs reasonably associated therewith shall be included in the Change Order

9.8 Change Orders on Account of Excusable Delays

9.8.1 Construction Delay Costs

With respect to Change Orders, which are attributable to Excusable Delays, and subject to the exceptions set forth in Article 9.8.2 below, the GMP shall be increased by the following “Delay Costs”:

- A. Increased allowable labor costs resulting from wage increases paid due to the delay;
- B. Premiums for overtime and extra shifts incurred in accelerating the Work, but only if acceleration is required in advance by CITY;
- C. Additional general conditions costs which would not have been incurred but for the delay (itemized, and not based on a formula allocation);
- D. Demobilization and remobilization costs; and
- E. Additional items of Cost of the Work attributable to the Excusable Delay and which would not have been incurred but for the Excusable Delay.

9.8.2 Exceptions

With respect to the Excusable Delays described in Article 7.4.2, the following exceptions to the cost provisions of Article 9.8.1 above shall apply:

- A. Failure or inability of CITY to make available any or all of the Site in accordance with the requirements of the Schedule is not a compensable delay if such Excusable Delay occurs prior to the commencement of the Construction Work.
- B. Failure or inability of CITY or CONTRACTOR to obtain necessary zoning changes, variances, code changes, permits or approvals from any governmental authority; is not a compensable delay if such Excusable Delay occurs prior to the commencement of the Construction Work.
- C. Changes in Applicable Laws. Additional compensation shall only be paid if the change in Applicable Law is not a change in law of general application (e.g., CAL/OSHA), but is a change in law specifically affecting the Project.

9.9 Change Orders on Account of Differing Site Conditions

If CONTRACTOR encounters conditions described in Article 7.3.3-Excusable Delays, in addition to the increase in the GMP on account of delay costs incurred by CONTRACTOR (as described in Section 9.8.1), the GMP shall also be increased by the additional Cost of the Work attributable to such conditions which would not have been incurred but for such conditions.

9.10 Cost Pricing Data and Access To Records

- A. All cost and pricing data submitted by the Contractor with respect to any change, prospective or executed, or any claim for extra compensation shall be a true, complete, accurate and current representation of actual cost and pricing of the work. The Construction Manager may require a formal certification as to cost and pricing data submitted by the Contractor.
- B. The Construction Manager shall have access to the records of Contractor and Subcontractors as provided in Article 8.18-Audits and Access to Records.

9.11 Time Extensions on Account of Change Orders.

CONTRACTOR shall be entitled to a time extension in connection with any Change Order to the extent its time of performance is extended due to such Change Order. CONTRACTOR shall present to CITY a CPM analysis showing how the Change Order affects the critical path of the Work.

9.12 Force Majeure

There shall be no additional compensation to CONTRACTOR on account of Force Majeure.

ARTICLE 10 - CORRECTION OF WORK

10.1 Correction of Work Prior to Completion

Prior to the date of Final Completion, CONTRACTOR shall correct Work which (a) CITY reasonably rejects as being defective or nonconforming to the requirements of the Contract Documents in a written notice delivered to CONTRACTOR or (b) CONTRACTOR recognizes is defective or nonconforming to the Contract Documents. If other portions of the Work are adversely affected by or are damaged by such defective Work, CONTRACTOR shall also correct, repair or replace such affected or damaged Work, as well as any other property of CITY or others damaged by such defective or nonconforming Work. Prior to the date of Final Completion, the cost of correcting any damaged or defective work shall be paid as a Cost of the Work.

10.2 Correction of Work After Completion

For defects identified by CITY and for which CITY has notified CONTRACTOR within a period of twelve (12) months after the date of Final Completion, or within such longer period as may be provided by special warranties contained in the Contract Documents, CONTRACTOR shall re-execute, correct, repair or replace all Work found to be defective or nonconforming to the Contract Documents (whether arising from a construction defect, error, omission or deficiency). If other portions of the Work are adversely affected by or damaged by such defective Work, CONTRACTOR shall also correct, repair or replace such affected or damaged Work, as well as any other property of CITY or others damaged by such defective or nonconforming Work.

10.3 Acceptance of Nonconforming Work

If CITY prefers to accept Work, which is not in accordance with the requirements of the Contract Documents, CITY may do so instead of requiring its removal and correction, in which case the GMP will be reduced as appropriate and equitable. Such adjustment shall be effected whether or not final payment has been made.

10.4 No Effect on Limitations

Nothing contained in this Article shall be construed to establish a period of limitation with respect to other obligations, which CONTRACTOR may have under the Contract Documents.

ARTICLE 11 - INSURANCE AND BONDS; INDEMNIFICATION

11.1 Insurance to be provided by CONTRACTOR

CONTRACTOR shall, at all times, maintain in full force and effect at a minimum the insurance required by this section; and CONTRACTOR shall not allow any subcontractor to commence Work until similar insurance required of the subcontractor has been obtained and filed.

11.2 Evidence of Coverage

CONTRACTOR shall, at all times, maintain in full force and effect at a minimum the insurance required by this section; and CONTRACTOR shall not allow any subcontractor to commence Work until similar insurance required of the subcontractor has been obtained and filed. An original Certificate of Insurance, and copies of all required endorsements, all in a form approved by the Risk Manager, evidencing all required coverage or policies shall be filed after the award of the bid and prior to approval of the Contract by the City Council. CONTRACTOR shall provide ten (10) Days prior written notice to CITY of any reduction of coverage limits or cancellation of the coverage or policies shall be given to the City of Roseville as Certificate holder.

11.3 Qualifying Insurers

With the exception of the State Compensation Insurance Fund, all required insurance policies shall be issued by companies licensed to do business in the State of California and who hold a current policy holders alphabetic and financial size category rating of not less than AVII according to the most recent issue of Best's Insurance Reports.

11.4 Summary of Insurance Requirements

Commercial General Liability, automobile liability, and worker's compensation insurance shall be maintained as shown in the table below.

Table 1: Summary of Insurance Required

Coverage	Limits
Commercial General Liability Minor Construction Projects	\$2,000,000 each occurrence \$4,000,000 aggregate Personal Injury: \$2,000,000 each occurrence \$4,000,000 aggregate
Comprehensive Automobile Liability For bodily injury (including death) and property damage which provides	Total limits of not less than One Million Dollars (\$1,000,000) combined single limits per accident, applicable to all owned, non-owned, and hired vehicles
Statutory Workers' Compensation and Employer's Liability Insurance	Limits of not less than One Million Dollars (\$1,000,000) per occurrence.
Builder's Risk/Course of Construction Insurance	All Risk" type of builder's Risk Insurance of the type covering one hundred percent (100%) of the value of the Work performed under this Contract
Professional Liability Submittals prepared by licensed California Engineer	Limit per claim of at least \$2,000,000, and a \$4,000,000 in the aggregate for errors and omissions.

11.4.1 Subcontractors

The minimum amount of insurance coverage for Subcontractors who are NOT Listed Subcontractors in Attachment 3 to the RFP "Statement of Subcontractors" shall be as follows: The bodily injury, personal injury and property damage liability of the Commercial General Liability insurance shall provide coverage in the following limits of liability: \$2,000,000 on account of any one occurrence for bodily injury and property damage, \$2,000,000 personal and advertising injury limit with an annual general aggregate limit of not less than \$4,000,000, and \$2,000,000 products and completed operations aggregate, combined single limit. The Automobile Liability insurance policy shall provide minimum limits of \$1,000,000 per accident as a combined single limit arising out of the ownership, maintenance, or use of any owned or non-owned vehicles. These minimum amounts of insurance coverage do not preclude the Contractor from requiring higher limits or additional insurance coverage as it deems necessary. Furthermore, CONTRACTOR shall require its Subcontractors to agree to be bound to CONTRACTOR and CITY in the same manner and to the same extent as CONTRACTOR is bound to CITY under Section 11.4 and Section 11.5.2 of this Agreement.

11.5 Commercial General Liability.

11.5.1 Coverage or Endorsements

The Commercial General Liability policy shall include coverage or endorsements for:

- A. Completed operations.

- B. Losses related to independent contractors, products and equipment.
- C. Explosion, collapse and underground hazards.

11.5.2 Copies to be Provided

The Commercial General Liability Insurance shall include the following, copies of which shall be provided:

- A. Inclusion of the CITY of Roseville, and its officers, agents, employees and volunteers, as additional insured (except for workers' compensation as respects services or operations under the Contract. The additional insured endorsement for the general liability policy shall be at least as broad as the Insurance Services Office ("ISO") CG 20 38 04 13 or an equivalent, blanket endorsement or section of the policy. Endorsements must include coverage for on-going and completed operations. Endorsements shall cover the CITY of Roseville, its officers, agents, employees, and volunteers.
- B. Cross liability and severability of interest clauses providing that the insurance applies separately to each insured except with respect to the limits of liability.
- C. Stipulation that the insurance is primary and noncontributory, as evidenced by a separate endorsement (CG 20 01 04 13 or an equivalent) or section of the policy, and that neither CITY nor its insurers will be called upon to contribute to a loss.
- D. Such insurance shall specifically cover the contractual liability of the CONTRACTOR.
- E. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.
- F. Waiver of subrogation endorsement.
- G. CONTRACTOR shall furnish a certificate for the period covered.

11.5.3 Claims Made Coverage – Special Notice

SPECIAL NOTICE - CLAIMS MADE COVERAGE:

Liability insurance coverage may not be written on a "claims made" basis. The Certificate of Insurance must clearly provide that the coverage is on an "occurrence" basis.

11.6 Comprehensive Automobile Liability

Comprehensive Automobile Liability for bodily injury (including death) and property damage which provides total limits of not less than One Million Dollars (\$1,000,000) combined single limits per accident, applicable to all owned, non-owned, and hired vehicles.

11.7 Statutory Workers' Compensation and Employer's Liability Insurance

Statutory Workers' Compensation and Employer's Liability Insurance, including a waiver of subrogation endorsement and a Broad Form "All-States" Endorsement for all employees engaged in services or operations under the Contract. The employer's liability insurance shall provide limits of not less than One Million Dollars (\$1,000,000) per occurrence. Both the worker's compensation and employer's liability policies shall contain the Insurer's waiver of subrogation in favor of CITY, its officers, agents, employees, and volunteers.

11.8 Builder's Risk/Course of Construction Insurance

CONTRACTOR shall be responsible for all loss, damage or destruction whatsoever to the Work called for by this Contract until the approval of a Notice of Completion. CONTRACTOR shall secure "All Risk" type of builder's Risk Insurance of the type covering one hundred percent (100%) of the value of the Work performed under this Contract (the value is presumed to be the Contract amount unless otherwise stated in Supplemental Conditions) and all materials, equipment, or other items to be incorporated therein while the same are located at the construction site, a bonded warehouse, or its place of manufacture. At any time, the policy shall cover the value of the Work completed. The policy shall cover hazards including the losses due to fire, explosion, hail, rain, lightning, flood (separate insurance as needed), vandalism, malicious mischief, wind, collapse, aircraft, and smoke.

The policies providing such insurance shall name CITY as a loss payee as its respective interests may appear, and certified copies of such policies shall be filed with CITY. The maximum deductible allowable under the Builder's All Risk policy shall be five percent (5%) of the Contract amount.

Builder's Risk Insurance is not required for coverage of losses in excess of five percent (5%) of the Contract amount for damages resulting from earthquake in excess of a magnitude of 3.5 on the Richter scale, or tidal waves. Coverage in the amount of five percent (5%) of the Contract amount for such losses is required.

If the project does not involve new or major reconstruction, at the option of CITY, an Installation Floater may be acceptable. For such projects, a Property Installation Floater shall be obtained that provides for the improvement, remodel, modification, alteration, conversion or adjustment to existing buildings, structures, processes, machinery and equipment. The Property Installation Floater shall provide property damage coverage for any building, structure, machinery or equipment damaged, impaired, broken, or destroyed during the performance of the Work, including during transit, installation, and testing at the CITY's site.

11.9 Contractor's Pollution Liability Insurance

Contractor's Pollution Liability Insurance. The Contractor shall obtain Pollution Liability Insurance. This insurance shall be written in comprehensive form either as a separate policy or as an endorsement to Contractor's general liability coverage and shall cover liability for bodily injury, property damage, and environmental damage resulting from pollution and related cleanup costs incurred, all arising out of any Work to be performed under the Agreement, including liability for and defense of lawsuits and regulatory actions. Coverage shall be provided for both Work performed on Site, as well as during the transport of hazardous materials. Coverage shall apply to sudden as well as gradual pollution conditions, including without limitation conditions resulting from the escape or release of smoke, vapors, fumes, acids, alkalis, toxic chemicals, liquids, or gases, natural gas, waste materials, or other irritants, contaminants, or pollutants, including asbestos. The liability limits shall be not less than:

- Combined Single Limit for each occurrence: \$2,000,000.
- General Aggregate: \$2,000,000.

If the coverage required is written on a claims-made coverage form:

- The retroactive date must be shown, and this date must be before the award date of the Agreement.
- Insurance must be maintained, and evidence of insurance must be provided for at least five (5) years after final payment.
- If coverage is canceled or non-renewed, and not replaced with another claims-made

policy form with a retroactive date prior to the Agreement award date, the Contractor must purchase extended reporting period coverage for a minimum of five (5) years after Final Payment.

- A copy of the claims reporting requirements must be submitted to the City for review.

11.10 Professional Liability Insurance

All submittals required of the Contractor which are to be prepared by a licensed California engineer shall be prepared only by a licensed engineer who is covered by a professional liability insurance policy issued by a California-admitted carrier or a carrier authorized to do business in California with a Best's rating of A-: VII or better, with an limit per claim of at least \$2,000,000, and a \$4,000,000 in the aggregate for errors and omissions. Such insurance shall be maintained in effect by said engineer at all times while performing Work on the Project and for at least three (3) years after Final Completion of the Project. Contractor shall submit an insurance certificate for such engineer prior to beginning Work for approval by the City.

11.11 Other Insurance Provisions.

- A. The requirements of the Contract Conditions as to types and limits of insurance coverage to be maintained by CONTRACTOR, and any approval of insurance by CITY, are not intended to, and shall not in any manner limit or qualify the liabilities and obligations otherwise assumed by CONTRACTOR pursuant to the Contract, including, but not limited to, the provisions concerning indemnification, nor preclude CITY from taking any other action available to it under any other provision of the Contract or law.
- B. CITY acknowledges that some insurance requirements contained in the Contract Conditions may be fulfilled by self-insurance on the part of CONTRACTOR. However, this shall not in any way limit liabilities assumed by CONTRACTOR under the Contract. Any self-insurance must be approved in writing by CITY, in its sole discretion and shall not reduce the limits of liability. Any deductibles or self-insured retentions ("SIR") must be declared on the certificate of insurance and approved by CITY in writing. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or CITY. CITY reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.
- C. CONTRACTOR agrees to include in its contracts with all subcontractors the same requirements and provisions of this Contract, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor's work. Furthermore, CONTRACTOR shall require its subcontractors to agree to be bound to CONTRACTOR and CITY in the same manner and to the same extent as CONTRACTOR is bound to CITY under this Contract. Additionally, CONTRACTOR shall obligate its subcontractors to comply with these same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of CITY'S indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request. Alternatively, CONTRACTOR may insure subcontractor(s) under its own policy.
- D. CITY, its officers, agents, employees and volunteers are to be covered as insureds with respect to liability arising out of automobiles owned, leased, hired or borrowed by or on behalf of CONTRACTOR; and with respect to liability arising out of work or operations performed by or on behalf of CONTRACTOR including materials, parts or equipment furnished in connection with such work or operations. Coverage shall not extend to any

indemnity coverage for the active negligence of the additional insured in any case where an agreement to indemnify the additional insured would be invalid under California Insurance Code Section 11580.04. In addition, the insurance policy may not contain language which prohibits additional insureds or other insurers from satisfying the self-insured retention or deductible.

- E. The limits of insurance required in this Contract may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of CITY (if agreed to in a written contract) before the CITY'S own insurance shall be called upon to protect it as a named insured.
- F. In the event CONTRACTOR retains the Architect/Engineer, CONTRACTOR shall require its Architect/Engineer to provide professional liability (errors and omissions) insurance (certificate and additional insured endorsement) in the amount of \$2,000,000.
- G. CITY RESERVES THE RIGHT TO WITHHOLD ANY PROGRESS PAYMENTS TO CONTRACTOR IN THE EVENT OF NONCOMPLIANCE WITH ANY INSURANCE REQUIREMENTS.

11.12 Payment, Performance and Warranty Bonds

CONTRACTOR shall furnish and deliver to CITY Performance, Labor & Materials, and Warranty Bonds issued by a surety prior to, and as a condition precedent to, commencement of the Construction Work on the Site; provided, however, the Warranty Bond shall be waived if such bond is not required pursuant to CITY'S request for proposals for the Project. The Labor & Materials and Performance Bonds shall be in a penal sum equal to one hundred percent (100%) of the GMP, and the Warranty Bond shall be in the penal sum equal to ten percent (10%) of the GMP. All bonds shall be in the form as set forth in Exhibit G hereto. All premiums for the Performance, Labor & Materials, and Warranty Bonds shall be a Cost of the Work. CITY shall have the right to withhold any payment(s) under this Agreement until CONTRACTOR has fully complied with this sub-section.

Table 2: Summary of Bonding Requirements

Bond Type	Requirement
Performance	100% of the Total Contract Price
Labor and Materials	100% of the Total Contract Price
Warranty	One year following the date of Final Completion Penal sum equal to ten percent (10%) of the GMP

11.13 Indemnification

To the fullest extent allowed by law, CONTRACTOR shall defend, indemnify, and hold harmless, CITY, its officers, employees, agents, and volunteers, and each and every one of them, from and against all actions, damages, claims, losses, expenses or other liabilities of every type and description, including reasonable attorney fees, to which they may be subjected or put, by reason of, or resulting from, the performance of the Work, whether upon or off the Work, including the loss of use thereof, that is caused in whole or in part by willful or reckless misconduct and/or any negligent or wrongful act or omission of CONTRACTOR, any Subcontractor, and anyone directly or indirectly employed by any of them or anyone for whose acts any of them may be liable, whether or not it is caused in part by a party

indemnified hereunder, except for such claims arising from the sole or active negligence of CITY. The parties intend that this provision shall be broadly construed.

CONTRACTOR's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.

ARTICLE 12 - SAFETY: PROTECTION OF PERSONS AND PROPERTY

12.1 Contractor's Responsibility for Site Safety

It is the intent of the parties that CITY is not an exposing, creating, controlling, or correcting employer under California Labor Code Section 6400. In accordance with generally accepted fabrication and construction practices and all applicable Laws and Standards and Codes, CONTRACTOR shall have the authority and be solely and completely responsible for the safety of all property utilized and all persons performing under this Agreement. Moreover, the CONTRACTOR shall be the controlling employer and has the authority and responsibility to enforce safety for all fabrication, construction work, and Work performed under this Agreement.

The services of CITY'S contract administrator, if any, in conducting a review of CONTRACTOR's performance under this Agreement is not intended to include a review of the adequacy of CONTRACTOR's work methods, equipment or safety measures. If CITY and/or its contract administrator observes a safety violation related to the CONTRACTOR's performance under this Agreement, then CITY and/or its contract administrator will report the violation to the CONTRACTOR who is then responsible for assuring the violation is abated.

- A. CONTRACTOR shall be responsible for initiating, maintaining and providing supervision of safety precautions and programs in connection with the Work, and shall also comply with any and all insurance carrier-mandated safety requirements and programs.
- B. CONTRACTOR is hereby informed that work on this Project could be hazardous. CONTRACTOR shall carefully instruct all personnel performing under this Agreement in potentially hazardous work areas as to potential dangers and shall provide such necessary safety equipment and instructions as are necessary to prevent injury to personnel and damage to property.
- C. All Equipment, Work and materials provided under this Agreement shall be in strict accordance with all applicable Laws and Standards and Codes, and attention is drawn to the requirements of CAL/OSHA.
- D. CONTRACTOR shall perform under this Agreement so as not to expose personnel to, or to discharge into the atmosphere from any materials brought to the Site by CONTRACTOR, smoke, dust, asbestos, toxic chemicals or other air contaminants in violation of applicable Laws and Standards and Codes.
- E. The Contractor shall indemnify, defend and hold CITY and Construction Manager, Designer, Funding Agencies and their respective officers, officials, employees, agents and volunteers or other authorized representatives harmless to the full extent permitted by law concerning liability related to the Contractor's safety obligations in accordance with Article 11.14-Indemnification.
- F. If death or serious injuries or serious damages occur, the accident shall be reported immediately by telephone or messenger to both the Construction Manager and the CITY. In addition, the Contractor shall furnish the Construction Manager with a copy of the Employer's Report of

Injury immediately following any incident requiring the filing of said report during the prosecution of the Work under this Agreement. The Contractor shall also furnish the Construction Manager with a copy of the Employer's Report of Injury involving any subcontractors on this Project. The Contractor shall make all reports as are, or may be, required by any authority having jurisdiction, and permit all safety inspections of the Work being performed under this Agreement.

- G. If a claim is made by anyone against the Contractor or any subcontractor on account of any accident, the Contractor shall promptly report the facts in writing to the Construction Manager, giving full details of the claim.

12.2 Safety Program

The Contractor shall establish, implement, and maintain a written injury prevention program as required by Labor Code Section 6401.7. Before beginning the Work, the Contractor shall file with the Construction Manager a written Contractor Safety Program that provides for the implementation of all of the Contractor's safety responsibilities in connection with the Work at the Site and the coordination of that program and its associated procedures and precautions with safety programs, precautions and procedures of each of its subcontractors and other Contractors performing work at the Site. The Contractor shall be solely responsible for initiating, maintaining, monitoring, coordinating, and supervising all safety programs, precautions, and procedures in connection with the Work and for coordinating its programs, precautions, and procedures of the other contractors and subcontractors performing the Work at the Site. The Safety Program should contain all the necessary elements for the Contractor to administer its program on the Site

The Contractor's compliance with requirements for safety and/or the Construction Manager's acceptance for filing of the Contractor's Safety Program shall not relieve or decrease the liability of the Contractor for safety. The Construction Manager's review of the Contractor's Safety Program is only to determine if the above listed elements are included in the program. The Contractor's completion of review of the Safety Program does not confirm adequacy of the Program to protect workers. The Contractor is solely responsible to determine adequacy of the program to protect workers per the applicable Labor Code Section.

12.3 Safety Supervisor

The Contractor shall appoint an employee as safety supervisor who is qualified and authorized to supervise and enforce compliance with the Safety Program. The Contractor shall notify the Construction Manager in writing prior to the commencement of work of the name of the person who will act as the Contractor's safety supervisor and furnish the safety supervisor's resume to the Construction Manager.

The Contractor will, through and with its Safety Supervisor, ensure that all of its employees and its subcontractors of any tier, fully comply with the Project Safety Policies. The Safety Supervisor shall be a full-time employee of the Contractor whose responsibility shall be for supervising compliance with applicable safety requirements on the Site and for developing and implementing safety training classes for all job personnel. The CITY shall have the authority to require removal of the Contractor's Safety Supervisor if the representative is judged to be improperly or inadequately performing the duties; however, this authority shall not in any way affect the Contractor's sole responsibility for performing this work safely, nor shall it impose any obligation upon the CITY to ensure the Contractor performs its work safely.

12.4 Applicable Laws

The Contractor shall comply with all applicable laws and regulations of any public body having jurisdiction for the safety of persons or property or to protect them from damage, injury or loss and shall erect and maintain all necessary safeguards for such safety and protection.

12.5 Safety Notices

In connection with the performance of the Work, CONTRACTOR shall provide notices and comply with all Applicable Laws bearing on the safety of persons and property and their protection from damage, injury or loss. The Contractor shall notify owners of adjacent property and of underground facilities and utility districts when prosecution of the Work may affect them and shall cooperate with them in the protection, removal, relocation, and replacement of their property.

12.6 Reasonable Precautions

CONTRACTOR shall take all precautions and implement all safety measures and requirements imposed by any Applicable Law. Without limiting the generality of the foregoing, CONTRACTOR shall take necessary precautions for the safety of, and shall provide necessary protection to prevent damage, injury or loss to:

- A. Employees on the Work and other persons who may be affected thereby;
- B. The Work and materials and equipment to be incorporated therein, whether in storage on or off the Site under care, custody or control of CONTRACTOR; and
- C. Other property at the Site or adjacent thereto, such as trees, shrubs, lawns, walks, pavements, roadways, structures and utilities not designated for removal, relocation or replacement in the course of the Construction Work.

12.7 Specific Precautions

12.7.1 Confined Spaces

The Project requires work in confined spaces and requires compliance with CAL/OSHA and Federal OSHA requirements. Confined spaces for the purposes of this article shall be as defined by the Division of Industrial Safety. Work within confined spaces of this Project is subject to the definitions and applicable provisions of Section 5156 et seq., Title 8, Division 1, Chapter 4, Subchapter 7, Group 16, Article 108 of California Code of Regulations, and Title 29 Part 1926 of the Code of Federal Regulations.

In addition, the CITY classifies the following existing facilities as confined space: the interior of pipelines, vaults, manholes, reservoirs and any other such structure or space which is similarly surrounded by confining surfaces as to permit the accumulation of dangerous gases or vapors. The confined spaces are “permit” confined spaces as defined by OSHA and CAL/OSHA and therefore entry is allowed only through compliance with a confined space entry permit program by the Contractor that meets the requirements of 8 C.C.R. Section 5157. While the above-mentioned locations have been identified as permit confined spaces, other permit confined spaces may exist. It shall be the responsibility of the Contractor to identify and classify these confined spaces.

It is anticipated that the Contractor may encounter hazardous conditions within these permit confined spaces which include, but are not limited to the following:

- A. Exposure to hydrogen sulfide, methane, carbon dioxide and other gases and vapors

commonly found in municipal sewers which could have or has the potential of having Immediate Danger to Life or Health Conditions (IDLH).

- B. Exposure to atmosphere containing insufficient oxygen to support human life.
- C. Exposure to combustible, flammable and/or explosive atmosphere.
- D. Exposure to sewage which may contain bacteriological, chemical and other constituents harmful to humans.
- E. Work in conditions where engulfment or entrapment may occur.
- F. Work in environments which may be slippery and/or have uneven work surfaces.
- G. Work in structures where workers may trip, slip and/or fall several feet.
- H. Exposure to an oxygen enriched environment.

12.7.2 Excavation Safety

- A. Section 6705. In accordance with the provisions of Section 6705 of the Labor Code, the Contractor shall submit, in advance of excavation of any trench or trenches five feet or more in depth, a detailed plan showing the design of shoring, bracing, sloping, or other provisions to be made for worker protection from the hazard of caving ground during the excavation of such trench or trenches. If such plans vary from the shoring system standards set forth in the Construction Safety Orders of the Division of Industrial Safety in Title 8, Subchapter 4, Article 6, California Code of Regulations, the plans shall be prepared and signed by a registered civil or structural engineer employed by the Contractor, and all costs therefore shall be included in the price named in the Agreement for completion of the Work as set forth in the Contract Documents. Nothing in this article shall be deemed to allow the use of a shoring, bracing, sloping, or other protective system less effective than that required by the Construction Safety Orders. Nothing in this article shall be construed to impose a tort liability on the CITY, the Designer, the Construction Manager, nor any of their officers, officials, employees, agents, consultants or volunteers. The CITY'S review of the Contractor's excavation plan is only for general conformance to the Construction Safety Orders.

Prior to commencing any excavation, the Contractor shall designate in writing to the Construction Manager the "competent person(s)" with the authority and responsibilities designated in the Construction Safety Orders.

- B. Section 6707. Pursuant to the provisions of California Labor Code Section 6707, each Proposal submitted in response to this RFBP shall contain, as a separate cost item, adequate sheeting, shoring, and bracing, or equivalent method, for the protection of life or limb in trenches and open excavation, exceeding five (5) feet, which shall conform to applicable safety orders. By entering an amount for this cost item below, the Proposer warrants that its action does not convey tort liability to the City, the Designer, the Construction Manager, the Funding Agencies and their respective officers, employees, agents, and subconsultants.

12.7.1 Equipment Safety Provisions

The completed Work shall include the specified permanent safety devices, such as machinery guards and similar safety items, required by the State and Federal (OSHA) industrial authorities and applicable local and national codes. Further, any features of the Work, including CITY-selected equipment, subject to

such safety regulations shall be fabricated, furnished, and installed in compliance with these requirements. All equipment furnished shall be grounded and provided guards and protection as required by safety codes. Where vapor-tight or explosion-proof electrical installation is required by safety codes, this shall be provided. Contractors and manufacturers of equipment shall be held responsible for compliance with the requirements included herein. The Contractor shall notify all equipment suppliers and subcontractors of the provisions of this paragraph.

12.7.1 Use of Explosives

Use of explosives is prohibited, unless approved in advance in writing by CITY. CITY may impose reasonable conditions on the use of explosives.

12.7.1 Loading Capacity

The Contractor shall determine safe loading capacities and shall not overload any structure, building, pipe or other existing facility beyond its safe capacity during construction. In addition to any requirements imposed by law, the Contractor shall shore up, brace, underpin and protect as may be necessary all foundations and other parts of all existing structures, facilities and improvements on the Site or adjacent to the Site which are in any way affected by the Contractor's excavations or other operations connected with the Work. Prior to commencing any work which in any way affects adjoining or adjacent land or buildings thereon, or public utilities, the Contractor shall notify the Construction Manager to discuss responsibilities for properly notifying the owners/occupants of adjacent land and the protective measures taken by the Contractor. Upon request of the Construction Manager, the Contractor shall meet with the recipient of any notice or attend local public meetings as proper public outreach on local impacts caused by completion of the Work should be communicated to any parties that may be affected prior to commencing any work.

12.8 Safety Violations

Should the Contractor fail to correct an unsafe condition, the CITY shall have the right to notify the Contractor through the Construction Manager that an unsafe condition may exist and must be corrected or the Work in question can be stopped in accordance with Article 4.6, CITY's Right to Stop the Work, until the condition is corrected to the satisfaction of the CITY. No extension of time or additional compensation will be granted as a result of any stop order so issued. The notification and suspension of such Work or the failure to provide such notification and suspension by the CITY shall not relieve the Contractor of its sole responsibility and liability for safety and the correction of any unsafe conditions.

The CITY shall have the authority to require the removal from the Project of any worker and the foreman and/or superintendent in responsible charge of the work where safety violations occur. The CITY also delegates such authority to the Construction Manager as well.

12.9 Public Safety and Convenience

The Contractor shall conduct its work so as to ensure the least possible obstruction to traffic and inconvenience to the general public and the residents in the vicinity of the Work and to ensure the protection of persons and property. No road or street shall be closed to the public except with the permission of the Construction Manager and the written approval by the proper governmental authority. Fire hydrants on or adjacent to the Work shall be accessible to firefighting equipment. Temporary provisions shall be made by the Contractor to ensure the use of sidewalks, private and public driveways and proper functioning of gutters, sewer inlets, drainage ditches and culverts, irrigation ditches and natural water courses.

12.10 Emergencies

In an emergency affecting the safety of persons or property, CONTRACTOR shall act, at CONTRACTOR's discretion, to prevent threatened damage, injury or loss. Additional costs or extensions of time caused by CONTRACTOR on account of an emergency not caused by the fault or neglect of CONTRACTOR shall be determined as provided in Article 9.8-Change Orders on Account of Excusable Delay.

12.11 Safeguards

CONTRACTOR shall erect and maintain, as required by existing conditions and performance of the Work, reasonable safeguards for safety and protection, including posting danger signs and other warnings against hazards, promulgating safety regulations and notifying CITY and users of adjacent sites and utilities, and shall comply fully with the requirements of CAL/OSHA.

12.12 Security

CONTRACTOR shall take any and all precautions that may be reasonably necessary to render all portions of the Work, the Site and any adjacent areas affected by the Work secure in all material respects, to decrease the likelihood of accidents, and to avoid vandalism and other contingencies which are liable to delay the Work or give rise to claims or liabilities. CONTRACTOR shall furnish and install all necessary facilities to provide safe means of access to all points where Work is being performed. CONTRACTOR shall take all precautions and measures as may be reasonably necessary to secure the Project at all hours, including evenings, holidays and non-work hours. Such precautions may include provision of security guards.

12.13 Damage to Property at the Site

CONTRACTOR shall be responsible for any and all damage or loss to property at the Site, except to the extent caused by the acts or omissions of CITY or its representatives, agents or employees. The costs and expenses incurred by CONTRACTOR under this Article shall be paid as a Cost of the Work to the extent that such costs and expenses are in excess of or are not covered by required insurance, and to the extent of any deductibles. If such damage or loss is caused by CONTRACTOR, payment of such costs as Cost of the Work shall be limited by the provisions of Article 2.19.4 hereof.

12.14 Damage to Property of Others

- A. CONTRACTOR shall avoid damage, as a result of CONTRACTOR's operations, to existing sidewalks, curbs, streets, alleys, pavements, utilities, adjacent property, the work of Separate Contractors and the property of CITY. CONTRACTOR shall repair any such damage caused by the operations of CONTRACTOR, which costs shall be paid as a Cost of the Work to the extent that such costs and expenses are in excess of or are not covered by required insurance, and to the extent of any deductible.
- B. Failure of CONTRACTOR to Repair Damage. If CONTRACTOR fails to commence the repair of damage to property as set forth in this Article, and/or diligently pursue such repair, then CITY, after ten (10) Days prior written notice to CONTRACTOR (provided CONTRACTOR has not commenced such repair during such ten (10) Day period), may elect to repair such damages with its own forces and to deduct from payments due or to become due to CONTRACTOR amounts paid or incurred by CITY in correcting such damage.

12.15 Remedy of Damage

CONTRACTOR shall promptly remedy damage and loss to property referred to in Article 12.14-Damage to Property of Others (items B and C) caused in whole or in part by CONTRACTOR, or anyone employed by or in control of CONTRACTOR, or any Subcontractor. All costs incurred by CONTRACTOR in connection with its obligations under this Section shall be cost of the Work, but shall not increase the GMP.

ARTICLE 13 - DISPUTES

13.1 Disputes between CITY and CONTRACTOR

In the event of any dispute arising between CITY and CONTRACTOR regarding any part of the Contract or the Contract Documents, or the Parties' obligations or performance thereunder, and subject to any claims presentation requirements set forth in the Contract Documents, either Party may institute the dispute resolution procedures set forth herein. The Parties shall continue performance of their respective obligation hereunder notwithstanding the existence of a dispute.

13.2 Dispute Resolution Procedures

CONTRACTOR must submit all claims as defined in and in accordance with the claim resolution process set forth in Section 9204 of the Public Contract Code. Each such claim must be sent to CITY by registered mail or certified mail with return receipt requested and must contain reasonable documentation to support the claim. All claims must be received prior to acceptance of the Work and will be handled in accordance with the procedures set forth in Section 9204 of the Public Contract Code.

ARTICLE 14 - EVENTS OF DEFAULT AND REMEDIES; TERMINATION

14.1 CONTRACTOR Events of Default

The following shall be considered "CONTRACTOR Events of Default":

- A. If CONTRACTOR fails or neglects to carry out the Work in accordance with the provisions of the Contract Documents, and fails, after seven (7) Days' notice from CITY, to commence a cure to correct such failure or neglect and thereafter diligently pursue such cure to completion;
- B. If CONTRACTOR materially breaches this Agreement and fails, after seven (7) Days' notice from CITY, to commence a cure to correct such breach and thereafter diligently pursue such cure to completion (such breach to include, but not be limited to, failure to make payment to Subcontractors for materials or labor in accordance with the respective agreements between CONTRACTOR and the Subcontractors or violation of Applicable Laws);
- C. If a custodian, trustee or receiver is appointed for CONTRACTOR, or if CONTRACTOR becomes insolvent or bankrupt, is generally not paying its debts as they become due or makes an assignment for the benefit of creditors, or CONTRACTOR causes or suffers an order for relief to be entered with respect to it under applicable bankruptcy law or applies for or consents to the appointment of a custodian, trustee or receiver for CONTRACTOR, or bankruptcy, reorganization, arrangement or insolvency proceedings, or other proceedings

for relief under any bankruptcy or similar law or laws for the relief of debtors, are instituted by or against CONTRACTOR, and in any of the foregoing cases such action is not discharged or terminated within sixty (60) Days of its institution.

14.2 Remedies of CITY upon a CONTRACTOR Event of Default.

14.2.1 Termination of Contract

Upon the occurrence of a CONTRACTOR Event of Default, CITY shall have the right to terminate this Contract upon an additional seven (7) Days written notice to CONTRACTOR, provided that CONTRACTOR has not commenced a cure within such seven (7) Day period.

14.2.2 Without prejudice to any other rights or remedies of CITY, CITY may:

- A. Take possession of the Site and of all materials, equipment, tools and construction equipment thereon owned by CONTRACTOR;
- B. Accept assignment of Subcontracts; and
- C. Finish the work by whatever reasonable method CITY may deem expedient.
- D. When CITY terminates the Contract as aforesaid, CONTRACTOR shall not be entitled to receive further payment until the Work is finished. If the unpaid balance of the GMP exceeds costs incurred in finishing the Work, such excess shall be paid to CONTRACTOR, up to the amount due CONTRACTOR for work performed prior to termination. If such costs exceed the unpaid balance of the GMP, CONTRACTOR shall pay the difference to CITY.

14.3 Recourse to Payment and Performance Bonds

Upon the occurrence of a CONTRACTOR Event of Default and termination of this Contract by CITY, CITY may call upon the Surety to perform its/their obligations under the Payment and Performance Bonds, if applicable.

14.4 Remedies not Exclusive

Except as otherwise provided in this Agreement, no remedy hereunder is intended to be exclusive of any other remedy, but each and every such remedy shall be cumulative and shall be in addition to any other available legal or equitable remedy, existing now or hereafter. No delay or omission to exercise any right or power accruing shall impair any such right or power nor shall it be construed to be a waiver of any Event of Default or acquiescence therein, and every such right and power may be exercised from time to time as often as may be deemed expedient.

14.5 Termination or Suspension for Convenience.

14.5.1 Termination for Convenience.

CITY may, without cause, terminate this Contract, or any portion of Work to be performed hereunder at any time by a notice in writing from CITY to CONTRACTOR for CITY'S convenience. In such case, CITY shall pay to CONTRACTOR all funds due CONTRACTOR for work performed up to the date of termination, plus all demobilization and close-out costs, including, but not limited to, any amounts payable to Subcontractors for early termination, plus reasonable overhead and profit on Work performed. All funds due hereunder, including unpaid Retention, shall be released within thirty (30) Days of

termination of the Contract for convenience, subject to any withholding required or authorized by any Applicable Law. In no event shall such amounts owed to CONTRACTOR exceed the GMP.

14.5.2 Suspension for Convenience

CITY may, without cause, order CONTRACTOR in writing to suspend, delay or interrupt the Work in whole or in part for such period of time as CITY may determine. An adjustment shall be made for increases in the cost of performance of the Work, including Fee on the increased cost of performance, caused by the suspension, delay or interruption, in accordance with the Change Order provisions of this Contract. No adjustment shall be made to the extent (1) the performance is, was or would have been so suspended, delayed or interrupted by another cause for which CONTRACTOR is responsible or (2) that an equitable adjustment to the GMP and/or Schedule is made or denied under another provision of this Contract. Adjustments made in the cost of performance may have a mutually agreed fixed or percentage Fee.

ARTICLE 15 - MISCELLANEOUS PROVISIONS

15.1 Governing Law

This Contract shall be construed with and governed by the laws of the State of California.

15.2 Successors and Assigns

CITY and CONTRACTOR respectively bind themselves, their partners, shareholders, successors, assigns and legal representatives to the other Party hereto and to shareholders, successors, assigns and legal representatives of such other Party in respect to covenants, agreements and obligations contained in the Contract Documents. Neither Party shall assign the Contract without the prior written consent of the other.

15.3 Notice

Any notices to Parties required by this Agreement shall be delivered or mailed, U.S. first class, postage prepaid, addressed as follows:

If to CITY:	If to CONTRACTOR:
City of Roseville c/o Rana Moore P.E Associate Engineer Environmental Utilities – Technical Services 2005 Hilltop Circle, Suite 130 Roseville, CA 95747 RCMoore@roseville.ca.us (916) 223-2867	Moey, Inc. c/o Christa Jagnanan 232 3rd Street, #E301 Brooklyn, NY christa@moeyinc.com (718) 237-1496

Address for Notice may be changed by Notice to the other Party.

15.4 Modifications

No Modifications or Change Orders shall be valid unless in writing and signed by CITY and CONTRACTOR.

15.5 Interpretation

Any and all headings of this Agreement are for convenience of reference only and do not modify, define or limit the provisions thereof. Words of any gender shall be deemed and construed to include correlative words of the other gender. Words importing the singular number shall include the plural number and vice versa, unless the context shall otherwise be deemed to include all supplements and/or amendments to any such exhibits or documents entered into in accordance with the terms hereof and thereof. All references to any person or entity shall be deemed to include any person or entity succeeding to the rights, duties and obligations of such person or entity in accordance with the terms of this Agreement. Where reference is made in this Agreement to another Contract Document, the reference refers to that provision as amended or supplemented by the other provisions of the Contract Documents. In the event of any conflict between or among the Contract Documents, the provisions of this Agreement shall govern.

15.6 Severability

If any provision of this Agreement is held to be inoperative or unenforceable as applied in any particular case because it conflicts with any other provision hereof or any constitution, statute, ordinance, rule of law or public policy, or for any other reason, such holding shall not have the effect of rendering the provision in question inoperative or unenforceable in any other case, or of rendering any other provision herein contained inoperative or unenforceable to any extent whatever. The invalidity of any one or more phrases, sentences, clauses or sections contained in this Agreement shall not affect the remaining portions of this Agreement or any part hereof, and they shall otherwise remain in full force and effect.

15.7 Whole Agreement

This Agreement, the Exhibits hereto and the Contract Documents, specifications and Drawings shall constitute the entire agreement between the Parties, and no inducements, considerations, promises or other references shall be implied in this Agreement that are not expressly addressed herein

15.8 Accounting Records

CONTRACTOR shall keep full and detailed accounts and exercise such controls as may be necessary for proper financial management under this Agreement; the accounting and control systems shall be reasonably satisfactory to CITY. CITY and CITY'S accountants shall be afforded access to CONTRACTOR's records, books, correspondence, instructions, drawings, receipts, Subcontracts, vouchers, memoranda and other data relating to this Agreement, and CONTRACTOR shall preserve these for a period of three (3) years after final payment, or for such longer period as may be required by law.

15.9 No Waiver

Neither the inspection by CITY or its agents, nor any order or certificate for payment of money, nor payment for, nor acceptance of the whole or any part of the work by CITY, nor any extensions of time, nor any position taken by CITY or its agents shall operate as a waiver of any provision of this Agreement or of any power herein reserved to CITY or any right to damages herein provided, nor shall any waiver of any breach of this Agreement be held to be a waiver of any other or subsequent breach.

15.10 CONTRACTOR Shall Assume Risks

Until the Final Completion or acceptance by CITY of all Work under this Contract, the Work shall be under CONTRACTOR's responsible care and charge. CONTRACTOR shall rebuild, repair, restore and make good all injuries, damages, corrections, and repairs occasioned or rendered necessary by accidental causes of any nature, to all or any portions of the Work, except as otherwise stipulated.

15.11 General Liability of CONTRACTOR

Except as otherwise herein expressly stipulated, CONTRACTOR shall perform all the work and furnish all the labor, materials, tools power and light, and appliances, necessary or proper for performing and completing the Work herein required in the manner within the time herein specified. The mention of any specific duty or liability of CONTRACTOR shall not be construed as a limitation or restriction of any general liability or duty of CONTRACTOR and, any reference to any specific duty or liability shall be construed to be the purpose of explanation.

15.12 Attorney's Fees and Venue

If either Party commences any legal action against the other Party arising out of this Agreement or the performance thereof, the prevailing Party shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorney's fees. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie. To the extent permitted by applicable law, each Party waives any defense that it may have based on lack of *in personam* jurisdiction or *forum nonconveniens*.

15.13 Third Party Beneficiaries

There are no third party beneficiaries to this Agreement.

IN WITNESS WHEREOF, the CITY of Roseville, a municipal corporation, has authorized the execution of this Agreement in duplicate by its CITY Manager and attested to by its CITY Clerk under the authority of Resolution No. _____, adopted by the Council of the CITY of Roseville on the ____ day of _____, 20____, and CONTRACTOR has caused this Agreement to be executed.

EXHIBIT A - ASSEMBLY BILL NO. 626

Assembly Bill No. 626

CHAPTER 810

An act to add and repeal Section 9204 of the Public Contract Code, relating to public contracts.

[Approved by Governor September 29, 2016. Filed with Secretary of State September 29, 2016.]

LEGISLATIVE COUNSEL'S DIGEST

AB 626, Chiu. Public contracts: claim resolution.

Existing law prescribes various requirements regarding the formation, content, and enforcement of state and local public contracts. Existing law applicable to state public contracts generally requires that the resolution of claims related to those contracts be subject to arbitration. Existing law applicable to local agency contracts prescribes a process for the resolution of claims related to those contracts of \$375,000 or less.

This bill would establish, for contracts entered into on or after January 1, 2017, a claim resolution process applicable to any claim by a contractor in connection with a public works project. The bill would define a claim as a separate demand by the contractor for one or more of the following: a time extension for relief from damages or penalties for delay, payment of money or damages arising from work done pursuant to the contract for a public work, or payment of an amount disputed by the public entity, as specified.

This bill would require a public entity, defined to exclude certain state entities, upon receipt of a claim sent by registered or certified mail, to review it and, within 45 days, provide a written statement identifying the disputed and undisputed portions of the claim. The bill would authorize the 45-day period to be extended by mutual agreement. The bill would require any payment due on an undisputed portion of the claim to be processed within 60 days, as specified. The bill would require that the claim be deemed rejected in its entirety if the public entity fails to issue the written statement.

This bill would authorize, if the claimant disputes the public entity's written response or if the public entity fails to respond to a claim within the time prescribed, the claimant to demand to meet and confer for settlement of the issues in dispute. The bill would require any disputed portion of the claim that remains in dispute after the meet and confer conference to be subject to nonbinding mediation, as specified. The bill would provide that unpaid claim amounts accrue interest at 7% per annum. The bill would prescribe a procedure by which a subcontractor or lower tier contractor may make a claim through the contractor.

This bill would require the text of these provisions, or a summary, to be set forth in the plans or specifications for any public work which may give rise to a claim. The bill would specify that a waiver of these rights is void and contrary to public policy, except as specified. The bill would also specify that it does not impose liability on a public entity that makes loans or grants available through a competitive application process, for the failure of an awardee to meet its contractual obligations.

By increasing the duties of local agencies and officials, this bill would impose a state-mandated local program.

This bill would, on January 1, 2020, repeal the provision establishing the claim resolution process.

This bill would specify that these provisions constitute a matter of statewide concern.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

The people of the State of California do enact as follows:

SECTION 1. Section 9204 is added to the Public Contract Code, to read: 9204. (a) The Legislature finds and declares that it is in the best interests of the state and its citizens to ensure that all construction business performed on a public works project in the state that is complete and not in dispute is paid in full and in a timely manner.

(b) Notwithstanding any other law, including, but not limited to, Article 7.1 (commencing with Section 10240) of Chapter 1 of Part 2, Chapter 10 (commencing with Section 19100) of Part 2, and Article 1.5 (commencing with Section 20104) of Chapter 1 of Part 3, this section shall apply to any claim by a contractor in connection with a public works project.

(c) For purposes of this section:

(1) "Claim" means a separate demand by a contractor sent by registered mail or certified mail with return receipt requested, for one or more of the following:

(A) A time extension, including, without limitation, for relief from damages or penalties for delay assessed by a public entity under a contract for a public works project.

(B) Payment by the public entity of money or damages arising from work done by, or on behalf of, the contractor pursuant to the contract for a public works project and payment for which is not otherwise expressly provided or to which the claimant is not otherwise entitled.

(C) Payment of an amount that is disputed by the public entity.

(2) "Contractor" means any type of contractor within the meaning of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code who has entered into a direct contract with a public entity for a public works project.

(3) (A) "Public entity" means, without limitation, except as provided in subparagraph (B), a state agency, department, office, division, bureau, board, or commission, the California State University, the University of California, a city, including a charter city, county, including a charter county, city and county, including a charter city and county, district, special district, public authority, political subdivision, public corporation, or nonprofit transit corporation wholly owned by a public agency and formed to carry out the purposes of the public agency.

(B) "Public entity" shall not include the following:

(i) The Department of Water Resources as to any project under the jurisdiction of that department.

(ii) The Department of Transportation as to any project under the jurisdiction of that department.

(iii) The Department of Parks and Recreation as to any project under the jurisdiction of that department.

(iv) The Department of Corrections and Rehabilitation with respect to any project under its jurisdiction pursuant to Chapter 11 (commencing with Section 7000) of Title 7 of Part 3 of the Penal

Code.

(v) The Military Department as to any project under the jurisdiction of that department.

(vi) The Department of General Services as to all other projects.

(vii) The High-Speed Rail Authority.

(4) "Public works project" means the erection, construction, alteration, repair, or improvement of any public structure, building, road, or other public improvement of any kind.

(5) "Subcontractor" means any type of contractor within the meaning of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code who either is in direct contract with a contractor or is a lower tier subcontractor.

(d) (1) (A) Upon receipt of a claim pursuant to this section, the public entity to which the claim applies shall conduct a reasonable review of the claim and, within a period not to exceed 45 days, shall provide the claimant a written statement identifying what portion of the claim is disputed and what portion is undisputed. Upon receipt of a claim, a public entity and a contractor may, by mutual agreement, extend the time period provided in this subdivision.

(B) The claimant shall furnish reasonable documentation to support the claim.

(C) If the public entity needs approval from its governing body to provide the claimant a written statement identifying the disputed portion and the undisputed portion of the claim, and the governing body does not meet within the 45 days or within the mutually agreed to extension of time following receipt of a claim sent by registered mail or certified mail, return receipt requested, the public entity shall have up to three days following the next duly publicly noticed meeting of the governing body after the 45-day period, or extension, expires to provide the claimant a written statement identifying the disputed portion and the undisputed portion.

(D) Any payment due on an undisputed portion of the claim shall be processed and made within 60 days after the public entity issues its written statement. If the public entity fails to issue a written statement, paragraph (3) shall apply.

(2) (A) If the claimant disputes the public entity's written response, or if the public entity fails to respond to a claim issued pursuant to this section within the time prescribed, the claimant may demand in writing an informal conference to meet and confer for settlement of the issues in dispute. Upon receipt of a demand in writing sent by registered mail or certified mail, return receipt requested, the public entity shall schedule a meet and confer conference within 30 days for settlement of the dispute.

(B) Within 10 business days following the conclusion of the meet and confer conference, if the claim or any portion of the claim remains in dispute, the public entity shall provide the claimant a written statement identifying the portion of the claim that remains in dispute and the portion that is undisputed. Any payment due on an undisputed portion of the claim shall be processed and made within 60 days after the public entity issues its written statement. Any disputed portion of the claim, as identified by the contractor in writing, shall be submitted to nonbinding mediation, with the public entity and the claimant sharing the associated costs equally. The public entity and claimant shall mutually agree to a mediator within 10 business days after the disputed portion of the claim has been identified in writing. If the parties cannot agree upon a mediator, each party shall select a mediator and those mediators shall select a qualified neutral third party to mediate with regard to the disputed portion of the claim. Each party shall bear the fees and costs charged by its respective mediator in connection with the selection of the neutral mediator. If mediation is unsuccessful,

the parts of the claim remaining in dispute shall be subject to applicable procedures outside this section.

(C) For purposes of this section, mediation includes any nonbinding process, including, but not limited to, neutral evaluation or a dispute review board, in which an independent third party or board assists the parties in dispute resolution through negotiation or by issuance of an evaluation. Any mediation utilized shall conform to the timeframes in this section.

(D) Unless otherwise agreed to by the public entity and the contractor in writing, the mediation conducted pursuant to this section shall excuse any further obligation under Section 20104.4 to mediate after litigation has been commenced.

(E) This section does not preclude a public entity from requiring arbitration of disputes under private arbitration or the Public Works Contract Arbitration Program, if mediation under this section does not resolve the parties' dispute.

(3) Failure by the public entity to respond to a claim from a contractor within the time periods described in this subdivision or to otherwise meet the time requirements of this section shall result in the claim being deemed rejected in its entirety. A claim that is denied by reason of the public entity's failure to have responded to a claim, or its failure to otherwise meet the time requirements of this section, shall not constitute an adverse finding with regard to the merits of the claim or the responsibility or qualifications of the claimant.

(4) Amounts not paid in a timely manner as required by this section shall bear interest at 7 percent per annum.

(5) If a subcontractor or a lower tier subcontractor lacks legal standing to assert a claim against a public entity because privity of contract does not exist, the contractor may present to the public entity a claim on behalf of a subcontractor or lower tier subcontractor. A subcontractor may request in writing, either on his or her own behalf or on behalf of a lower tier subcontractor, that the contractor present a claim for work which was performed by the subcontractor or by a lower tier subcontractor on behalf of the subcontractor. The subcontractor requesting that the claim be presented to the public entity shall furnish reasonable documentation to support the claim. Within 45 days of receipt of this written request, the contractor shall notify the subcontractor in writing as to whether the contractor presented the claim to the public entity and, if the original contractor did not present the claim, provide the subcontractor with a statement of the reasons for not having done so.

(e) The text of this section or a summary of it shall be set forth in the plans or specifications for any public works project that may give rise to a claim under this section.

(f) A waiver of the rights granted by this section is void and contrary to public policy, provided, however, that (1) upon receipt of a claim, the parties may mutually agree to waive, in writing, mediation and proceed directly to the commencement of a civil action or binding arbitration, as applicable; and (2) a public entity may prescribe reasonable change order, claim, and dispute resolution procedures and requirements in addition to the provisions of this section, so long as the contractual provisions do not conflict with or otherwise impair the timeframes and procedures set forth in this section.

(g) This section applies to contracts entered into on or after January 1, 2017.

(h) Nothing in this section shall impose liability upon a public entity that makes loans or grants available through a competitive application process, for the failure of an awardee to meet its contractual obligations.

(i) This section shall remain in effect only until January 1, 2020,

and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2020, deletes or extends that date.

SEC. 2. The Legislature finds and declares that it is of statewide concern to require a charter city, charter county, or charter city and county to follow a prescribed claims resolution process to ensure there are uniform and equitable procurement practices.

SEC. 3. If the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7(commencing with Section 17500) of Division 4 of Title 2 of the Government Code.

Moey is proud to be a certified Woman Owned Business

November 14, 2022

Dear City of Roseville:

Moey Inc. is extremely excited about collaborating on the fabrication and installation of exhibits at the Roseville Utility Exploration Center. For more than twenty years, Moey has created world-class exhibits and experiences in a diversity of settings. We work with museums, nature centers, science centers, state parks, the National Park Service, and educational institutions. We would love to help bring the new exhibits at the Roseville Utility Exploration Center to life.

Moey is one of the world's premier ideation, design, AV, and fabrication companies. Our diverse staff includes content developers, designers, software programmers, AV technicians, fabricators, artists, and more. And we work closely together in a design studio and fabrication shop in Gowanus, Brooklyn. We are passionate about what we do, and about the institutions, missions, and audiences we serve.

Moey brings experience on projects in the state of California. These include completed work for Storyland and the Fresno Zoo, as well as current conversations with the Modesto Children's Museum and the Morro Bay State Park Museum of Natural History.

Attached please find our response to the City of Roseville California RFP #08-106, Utility Exploration Center Exhibit Fabrication and Installation. Moey will perform the services and adhere to the requirements described in the RFP. For further information regarding this proposal, please contact me, Molly Lenore, President of Moey Inc: (646) 246-6845; molly@moeyinc.com.

Our team will bring vision, expertise, passion and dedication to this project. We look forward to working with you on outstanding experiences for the visitors of the Roseville Utility Exploration Center!

Sincerely,

A handwritten signature in black ink, appearing to read 'Molly Lenore', with a stylized, flowing script.

Molly Lenore

TAB A: GENERAL INFORMATION

Moey is one of the world's premier ideation, design, AV, fabrication and new technology companies and we are passionate about storytelling, science, nature, education and technology. Moey Inc. co-founders Molly Lenore and Joey Stein first collaborated at New York's American Museum of Natural History where they created interactive spaces and large-scale interactive sculptures. Their work was integral in evolving the world-class museum into an immersive multimedia environment.

Their drive to push the limits of technology, and to further improve and inform visitor and user experience, led to the founding of Moey, Inc. in 2003. Moey, Inc. has been in continuous operation providing exhibit design, technology, and fabrication services for nearly 20 years.

In that time, Moey Inc. has created innovative, dynamic and meaningful technology-based exhibits across the country and beyond-for planetariums, science centers, children's museums, artists, scientists and corporate clients. Additionally, Moey has designed and built numerous exhibits at visitor and nature centers for clients including New York State Parks and the National Park Service.

We provide the following services:

- Exhibition, Graphic, and Interaction Design
- Content Development and Writing
- Photo Editing and Licensing
- Project Management
- Full Fabrication capabilities
- AV Integration
- 3D Rendering and Visualizations
- Complete Video and Editing capabilities
- Rapid Prototyping, 3D Printing, Laser Cutting
- Software and Application Development
- Technology/Interactive/Media Design and Production
- Animation and Special Effects
- Systems Design & Engineering
- Custom Hardware and Electronic Development

Moey, Inc. is proud to be a certified women-owned and LGBTQ-owned business. Moey, Inc. is a corporation in good standing under the laws of New York State.

Moey's in-house team of engineers and fabricators

Moey handles most exhibit fabrication in-house. Our team of carpenters, engineers, model-makers, painters and metalworkers is well equipped to build top notch exhibits. We partner with Coloredge for museum-quality graphics output.

Moey staff includes the following in-house teams:

Exhibit design/detailing: 5 people

AV integration: 2 people

Software development: 2 people

Interactive design: 2 people

Model Makers: 2 people

Engineering: 2 people

Fabrication: 7 people

Content Development: 1 person

Facilities

Audiovisual Technical Services: 1000 sq ft

Equipment: AV Benches for the development and testing of AV equipment

Electrical Technical Services, Lighting Technical Services: 500 sq ft

Electrical Benches for the development and testing of AC/DC wiring, circuitry, etc.

Exhibit Design/Detailing, Graphic Design, 3D Printing: 1175 sq ft

6 computer work stations with Adobe Creative Cloud, Rhino, Fusion360, AutoCAD and a variety of specialized CAD, CAM, design, media software; 3D Printers

Exhibit Fabrication and Cabinetry Work, Sculpted figures and casting, Model Fabrication, Shipping and Installation, Shop set-up area, Custom artwork creation, Artifact mounting: 3420 sq ft

Full fabrication shop for all types of exhibit fabrication. Equipment includes: CNC,

TAB A: GENERAL INFORMATION

Laser Cutter, Panel Saw, Table Saw, Horizontal Band Saw, Wide Belt Drum Sander, Miter Saw, Edge Sander, Router Table, Spray Booth, Drill Press, Planer, Jointer

Metalworking, welding and finishing: 470 sq ft

Full metal shop with complete fabrication capabilities. Equipment includes: Tig Welder 1, Tig Welder 2, Mig Welder 1, Mig Welder 2, Horizontal Miter Head Band Saw, Cold Saw, Vertical Belt Sander, Disk Sander, Fixturing Table, Oxy/Acetylene Torch, Drill Press, Magnetic Drill Press

Moey Shop

The fact that Moey is based in Brooklyn, NY, limits the footprint of our shop, but we are extremely efficient, smart, and use every inch of our facilities in the most efficient way possible. We have a modular setup that allows us to reconfigure equipment as needed for each stage of production. Our space can be divided into seven isolated zones to ensure there is no risk of one process disrupting other processes or finished goods.

We are excited to share that Moey recently purchased a building that will add 30,000 square feet to our footprint. This new space is currently undergoing renovation to become a dedicated fabrication and staging facility.

TAB B: FIRM QUALIFICATIONS

TAB B: FIRM QUALIFICATIONS - KEY PERSONNEL

Creative Director - Molly Lenore

Responsible for overall project design, narrative development, and execution. Founded Moey in 2003.

AV Producer - Joseph Stein

Oversees design and development of all exhibit media and technology, including audiovisual network. Founded Moey in 2003.

Project Manager - Liz Shaw

Responsible for managing communication with client and stakeholders, defining project requirements, and overseeing deliverables and project schedule. Joined Moey in 2015.

Exhibit Designer - Molly Orlovich

Creates exhibit sketches, renders, and elevations at each stage of the design process. Joined Moey in 2016.

Graphic Designer - Jennifer Cooke

Makes design updates, prepares files for printing, and oversees art acquisition and custom illustration. Joined Moey in 2007.

Content Developer - Dan Marwit

Leads stakeholder interviews and workshops, researches content, develops exhibit narrative and copy for digital and physical elements. Joined Moey in 2018.

Exhibit Engineer - Eric Muench

Oversees all exhibit fabrication and development of construction documents. Joined Moey in 2012.

Exhibit Detailer - Ian Smith-Foy

Develops construction drawings in conjunction with Exhibit Designer and Exhibit Engineer. Joined Moey in 2018.

Production Coordinator - T Grossmeyer

Liaison between design team and fabrication team. Coordinates projects to make sure everything stays on track. Joined Moey in 2018.

TAB B: FIRM QUALIFICATIONS - KEY PERSONNEL

Interaction Engineer - Bruno Kruze

Designs and develops technology experiences. Joined Moey in 2022.

Creative Developer - Ash Tiwari

Develops games and experiences for touchscreen and physical interactives. Joined Moey in 2021.

UX/UI Designer - Kensuke Sato

Develops storyboards, wireframes and user interface designs for digital and interactive media. Joined Moey in 2018.

Systems Architect - Michael Cooper

Designs and implements system architecture for software and hardware projects. Joined Moey in 2015.

Fabrication Shop Supervisor - Michael West

Oversees fabrication team to ensure that all project needs are met on time and on budget. Joined Moey in 2020.

Model Maker/Sculptor - Zoe Logan

Designs and builds models of natural history subjects in a variety of custom fabrications. Fabricates and installs all exhibit elements. Joined Moey in 2020.

Shop Technician - Don Hover

Fabricates and installs all exhibit elements. Joined Moey in 2020.

Graphics printing - Coloredge

Subcontractor who specializes in high end graphics printing for exhibit environments. Worked with Moey since 2005.

TAB B: FIRM QUALIFICATIONS - SUBCONTRACTOR

Graphic Shop Supervisor **ColorEdge** (*subcontractor*)

Moey, Inc. uses ColorEdge as our graphic production partner for output of museum-quality graphics. They are the approved graphics vendor for the American Museum of Natural History and numerous other world-class institutions.

ColorEdge is the largest provider of visual marketing solutions for premier brands and retailers. Ranked #1 among “2017’s Top Shops” by Wide Format Imaging magazine, ColorEdge uses the most advanced manufacturing technologies and production processes to create high-impact visual spaces for retailers, museums, events, arenas and corporate environments. In addition to large format imaging and digital display solutions, ColorEdge provides end-to-end, full-service creative services including graphic design, pre-media, studio photography, CGI/3D imaging, creative retouching, package prototyping, and digital asset management.

The ColorEdge story, one of excellence and lasting commitment, began in the 1970s, when ColorEdge excelled as a top tier photo processor. Over the next 20 years, they grew to become a powerhouse in visual imaging, serving not just the world’s top luxury brands, but also some of the most discriminating artists, like Annie Leibovitz. With locations in New York City, Atlanta, Los Angeles and New Jersey, ColorEdge is always up to the task, creatively and logistically.

Our key contact at ColorEdge is Michael Morabito, National Manager of Prepress.

TAB C: LAKE MINNEWASKA VISITOR CENTER

PROJECT DETAILS

Location: Kerhonkson, NY

Size: 1500 square feet

Client: Open Space Institute, Peter Karis (845) 489-5401

Completion Date: October 8, 2020

Original Budget: \$450,000

Final Cost: \$700,000

Moey's work on the Lake Minnewaska Visitor Center began while Open Space Institute was early in their fundraising process for the project. New exhibits were added to the scope as funds became available. None of the original line items exceeded their original budget.

Key personnel:

In-house:

Exhibit Designers: Molly Lenore, Molly Orlovich

Audio Visual Systems Developer: Joseph Stein

Engineer: Eric Muench

Graphics Printing: ColorEdge, iZone

Graphics Shop Supervisor: Michael Morabito

Exhibit Specialist (Graphics): Tim Kar

PROJECT NARRATIVE

Lake Minnewaska is the centerpiece “sky lake” of the 24,000-acre Minnewaska State Park Preserve, one of New York’s premier parks. Minnewaska’s “preserve” designation entrusts the park to protect the area’s globally unique ecology and nationally recognized human history. The visitor center engages people in discovering interests in these topics and venturing into the park prepared to safely pursue them. Exhibits include a wide variety of engagement types that feature integrated ADA solutions and opportunities for younger and older visitors to explore interests together, all of which is tightly packed into a 1,500sf footprint. Moey designed, built, transported, and installed the exhibit almost entirely with in-house staff.

PRODUCTION INCLUDED

- ADA-compliant circulation and physical builds
- Diversity of tactile elements, including natural specimens and historic artifacts
- Highly robust 3D modeling, including of the park topography, an oversized moth, and a before-and after-fire pine cone
- High number of custom mechanical interactives, including several packed into a unit with pull-out drawers that is itself mechanically interactive
- Several electronic interactives, ranging from push-button audio elements to dynamic touchscreens exploring ecological communities and trail orientation
- Management of subcontractors for illustrations in print graphics, model fabrication and 3D printing

TAB C: JONES BEACH ENERGY AND NATURE CENTER

PROJECT DETAILS

Location: Wantagh, NY

Size: Building Interior: 11,500 sq ft; Exterior Porches 6,000 sq ft; Gardens 33,000 sq ft

Client: New York State Office of Parks, Recreation, and Historic Preservation, Matthew Davidson, (518) 474-0440

Substantial Completion Date: September 24, 2020. The vast majority of exhibits were installed by this date. Three exhibits required custom-designed and fabricated aquariums. Moey worked with JBENC staff to engineer these items to the center's specifications, and fabricated them for install in August 2021.

Original Budget: \$4,225,000

Final Cost: \$4,400,000

A \$175,000 contingency was used to add additional models, graphics, and interactives to the exhibits beyond what was included in the original scope. None of the original line items exceeded their original budget.

PROJECT NARRATIVE

The Jones Beach Energy and Nature Center is located at Jones Beach State Park, a barrier island park on Long Island, NY with more than 6 Million visitors per year. The Center links the natural beauty of Jones Beach with the state's efforts in forging a renewable energy future. Its interpretive opportunities cover 53,500 sf of indoor and outdoor spaces that include exhibits, interpretive walking paths, gardens, and a content-based playground. Moey fabricated and installed components across all Center environments and ensured their ADA-compliance, including in creating raised park maps on waysides for tactile legibility. The components ranged from finely detailed scale models to aquariums, large, climbable sculptures, and outdoor interactives. Much of this work required the consideration of humidity, wind, sand and other challenging weather conditions, and all of it involved coordination with architects, landscape architects, and contractors including in the configuration of infrastructure for power, data, plumbing, and animal care.

PRODUCTION INCLUDED

- Coordination with building architecture firm, landscape architecture firm, and general contractor
- Specification of power, data, and plumbing runs to all exhibit locations
- Configuration of mechanical rooms to support AV and animal care
- Precise placement of exterior exhibits, including a human sundial and oversized compass rose
- Stonework fabrication of large and finely detailed elements, including full scale whale skeleton, natural textures wall, and pathway of footprint impressions
- Outdoor interactives, including play-based solar-powered elements
- Immersive interactives, including a wind tunnel

TAB C: JONES BEACH ENERGY AND NATURE CENTER

- Extensive tactile elements, including in outdoor wayfinding
- Several finely detailed scale models, including of an energy-efficient home, the barrier island dune and marsh system, and of the Energy and Nature Center itself
- Exhibit fabrication, including graphics, AV, and kids' exploration equipment
- Supervision of large fiberglass elements, including whale and seal sculptures
- Supervision of aquarium installations

Exterior signage with braille and other tactile elements is placed throughout the garden

TAB C: JONES BEACH ENERGY AND NATURE CENTER

Exhibit view with wave motion interactive, kids activities table, and models of sea life

Walk-in model of energy efficient home construction, built to local building code

TAB C: ENERGY LAB MOBILE EXPERIENCE CENTER

PROJECT DETAILS

Location: Travels across the country

Size: 1300 square feet, housed inside a tractor-trailer

Client: Cyril Keating, RedPeg Marketing Executive Vice President, 571-385-6100

Completion Date: September 30, 2010

Final Cost: \$750,000

Key personnel:

In-house:

Exhibit Designer: Molly Lenore

Audio Visual Systems Developer: Joseph Stein

Engineers: Rory Nugent, Glen Duncan

Graphic Designer: Molly Lenore

Fabrication Shop Supervisor: Eric Muench

Audio Visual Technician: Michael Cooper

TAB C: ENERGY LAB MOBILE EXPERIENCE CENTER

PROJECT NARRATIVE

Energy Lab is a high tech inspirational set of experiences designed to challenge and awaken the next generation to the critical issues of electricity generation and the enormous potential from renewable sources. Moey was responsible for all exhibit design, media and technology, including software, hardware, animation, graphics, fabrication, audio, user testing and installation. The exhibit consists of four sections: Earth, Wind, Fire, and Water. Each teaches a different lesson about our energy use and delivers an important conservation message through Moey-designed custom interactives. Geared towards high school students, the Energy Lab travels the country in an 18 wheeler, making stops at different locations along the way.

PRODUCTION INCLUDED

- Design and fabrication of custom interactives and immersive environments
- Creation of unique custom electro-mechanical interactives with a variety of non traditional user interfaces and sensor driven environments
- Content development focusing on alternative energies in different sectors
- All exhibits were modular, mobile and designed to be easy to set up, break down, and update remotely.

TAB C: HEALTH INSIDE OUT

PROJECT DETAILS

Location: Wichita, KS

Size: 1,500 square feet

Client: Exploration Place, Victoria Mitchell, (316) 660-0663

Completion Date: April 20, 2022

Final Cost: \$850,000

Key personnel:

In-house:

Exhibit Designers: Molly Lenore

Project Manager: Liz Shaw

Audio Visual Systems Developer: Joey Stein

Fabrication Engineer: Eric Muench

Content Developer: Dan Marwit

Graphic Designer: Jen Cooke

Exhibit Detailer: Ian Smith-Foy

Audio Visual Producer: Kensuke Sato

TAB C: HEALTH INSIDE OUT

Fabrication Shop Supervisor: Michael West

Exhibit Specialist (Fabrication): T Grossmeyer

Audio Visual Technician: Michael Cooper

Model-maker/Sculptor: Zoe Logan

PROJECT NARRATIVE

Health Inside Out is a fun-time arcade where families learn about being healthy through rides, games, and amusements. Its presence in the 2,500sf Grand Hall has transformed an underutilized space into a must-do destination at the hub of the Exploration Place building. Visitors grab vaccine hammers to play Whack-A-Virus, and aim for healthy targets in Nutrition Skee-ball. They ride an Emotional Roller Coaster through their feelings, fly a real helicopter ambulance, and much more. Being healthy makes it possible to experience life. Learning about it should be fun.

PRODUCTION INCLUDED

- Concept development and exhibit writing
- Exhibit design and development
- Graphic design and illustration
- Development of custom digital interactives and UX/UI
- Fabrication and installation
- Modification of Bell helicopter to be suitable for young visitors
- Customization of existing arcade games to deliver exhibit content

Linear Media/Animations

Connected Worlds is one of the largest, most complex responsive environments ever created for a museum. It occupies 2,300sf of New York Hall of Science's iconic Great Hall and surrounds visitors with six fourteen-foot-tall interactive screens, which present distinct, interactive natural environments, or worlds, fed by a central, thirty-eight-foot-tall digital waterfall.

- [Overview Video](#)
- Moey Scope:
 - AV installation and integration
 - Interface and user tracking programming
 - Show control programming

Nokia Future X Emulator Nokia joined forces with the historic Bell Labs to produce disruptive innovations that improve the quality of life. To demonstrate groundbreaking technologies, Nokia Bell Labs needed a groundbreaking theater. Moey created the Future X Emulator, specially commanded by a new sleeve device. A facilitator powers on and controls a 36-foot high, 270-degree projection. Audiences are immersed at once in visions of the future, complete with full-surround audio and a rumbling floor.

TAB D: AUDIO, AUDIOVISUAL, AND MULTIMEDIA

Keck Observatory National Academy of Sciences wanted to honor the W.M. Keck Foundation with a model and video of one of the foundation's proudest achievements, the twin Keck Telescope on Mauna Kea, Hawaii. Moey was honored to produce both the 3D model and video tribute. The client requested a fully silent movie, so Moey ensured that the emotional impact was achieved using only the on-screen visual content.

- [Final Video](#)
- Moey Scope:
 - Narrative development and storyboarding
 - Videography & aerial filming
 - Editing and post production

Interactive Digital Media

Lake Minnewaska is the centerpiece sky lake of Minnewaska State Park Preserve, one of New York's premier parks. Its preserve designation entrusts the park to protect the area's globally unique ecology, and its history reaches back to a hotel era that predates the establishment of the state park system itself. Much of the existence of the park, at 24,000 acres and counting, is thanks to the Open Space Institute, which helped secure the land over decades and preserve its features, including its historic carriage roads. OSI shepherded the visitor center project. Inside, visitors find everything they need to become inspired by, and go see, Minnewaska's beauty and significance. A mix of traditional, hands-on, and multimedia engagements invite visitors across generations to find their love of the land.

Energy Lab Designed in support of President Obama's "Educate to Innovate" mission, the Energy Lab enables the Army National Guard to bring STEM learning about alternative energy sources to high school youth across the U.S. For the experience, Moey designed four interactive games that explore the possibilities of wind, water, sun, and earth in producing energy. Real results are seen in the simulated city of Energytown. The entire experience, which debuted in Alexandria, VA, packs up and travels on one eighteen wheeler.

TAB E: PROJECT UNDERSTANDING

Moey is very excited about the City's objective to educate residents about their utilities and their own ability to improve their community. We strongly believe in the power of exhibits to achieve such an objective. Exhibits bring people together to enjoyably engage in fully immersive learning and learn from each other as they pursue their interests and share their discoveries. The designs produced by Bart Exhibition Design certainly demonstrate this potential. Moey would be enthusiastic to work with Bart and the City to realize the Utility Exploration Center vision and broadening its appeal to new audiences. We look forward to helping as many families, residents, teens, and rate-payers as possible understand and appreciate their partnership with their utilities in a big system we all share.

Observations & Considerations

In the Design Book provided in the RFP materials, we see a lot of excitement packed into a fairly tight footprint. Fabricated elements that clearly mark and organize the space will go a long way toward helping people navigate, make sense of, and remember the experience. Similarly, such elements can help arrange content into digestible chunks, increasing the potential of their messaging power. Well planned AV production can also operate in the same way by organizing an experience that unfolds over time, whether visitors access it interactively or passively. Bart's designs already achieve these aims in many ways in the physical space. They create distinct environments while composing a total, unified one. We look forward to exploring cost-effective materials and build strategies here. Meanwhile, we will also push for the garbage truck to become enterable. It's our estimation that visitors will expect to open the door, climb in, and have a memorable experience in the cab.

We also look forward to producing AV that works with Bart's graphic palette to strike the same distinct-but-unified balance. We imagine the AV to be simple in its interactive operation requirements, and in the amounts of interpretive information they deliver at any given time. Currently, designs have placed one key interactive in each exhibit area, in addition to introductory AV displays and signage. Between these and the physical elements in the exhibit, there will be a lot for people to do and make meaning from. The Content Manual very clearly defines the principle goals, messaging, and experiences of each AV element. We will want to collaboratively refine these as we move into early storyboarding, and ensure that we push into production design with precise objectives.

In approaching fabrication, Moey will draw on its years of experience in creating

TAB E: PROJECT UNDERSTANDING

relevant projects. These include building an interactive frame house inside the Jones Beach Energy and Nature Center, a puzzle-cut topographic model for the Lake Minnewaska Visitor Center, and large-scale graphics for the New York City Department of Environmental Protection. In creating media we will build on experience in producing interactives of all kinds. These include a documentary for the Keck Observatory and a mixed live action-animation piece promoting a forthcoming technology that senses, analyzes, and alerts people to wildfires in seconds. We will also bring to this project an appreciation for the content. This comes from our experiences on projects such as Hempstead State Park Resiliency and Education Center, and Shirley Chisholm State Park, a park built on a landfill. We will also incorporate new learning from projects we are currently working on, such as the Niagara Falls Visitor Center, and Thousand Springs State Park in Idaho, where pure water emerges from a volcanic-rock aquifer after an estimated 300 years.

Fabrication Process

Moey will start its process by closely reviewing the Final Designs and flagging any important observations. We will overlap this with initial research into materials and potential engineering solutions, and we'll share all of this with you as we go along. At the same time, we will skip forward to the first Demolition task, and discern if any to-be removed materials can be reused. If so, we will fold these into our initial explorations and communicate them with you.

As our research progresses, we will coordinate with Bart to discuss any impact our findings might have on design changes. This may also include an initial order of operations assessment, in which we consider which parts of the exhibit will need to be built first, second, third, and so on, depending on lode, travel, building access, etc. We will develop this into a rough project execution plan, which we will collaboratively refine as we move forward. Meanwhile, our research will lead us into prototyping. This will include securing and providing production samples for review, and also testing any key mechanical engineering in our shop, which we can share by video or video call. We will assemble all of this in the appropriate documents, review them with you, and deliver them in two drafts to the Department of Buildings and other relevant agencies as required.

During the construction documents process, we will also begin fabricating key elements of the designs in our shop. Once the documents are approved, we will already be in motion on this next phase of work. As we build, we will share progress

TAB E: PROJECT UNDERSTANDING

with our collaborators. This may include discoveries of unforeseen issues as well as opportunities. Part of work will also involve building our fabrications in ways that can easily be sectioned, transported, and built on site. As we progress toward installation, we will develop punch lists with you and communicate about which boxes have been checked and which remain and why. We will also schedule site visits to plan the installation of all work, and ultimately, we will send our crew, along with Moey leadership, to install the exhibit and perfect the positioning and final details of every item in your space. Finally, we will stay in touch with you regarding any staff training necessary and remediation as required.

AV Process

At the same time that our shop begins reviewing Final Designs, our AV team will begin its production process by drafting treatment documents, one per AV component. These documents will reiterate and refine the program descriptions in the Content Manual, and include likely tech equipment and power and data needs, as well as flowcharts that plan visitor use and suggestive lo-res imagery. Following discussions with the team, we will push forward into UX/UI design. The goal here will be to completely map the user experience (UX) of each component and create style guides for their graphic user interfaces (UI). This will involve translating the flowcharts into wireframes that demonstrate every possible path a user might take in each interactive. Meanwhile, we will also begin storyboarding any new videos, animations, or voiceovers we will need to produce. We will share all this progress as we go along, and also in a benchmark deliverable.

Toward the end of UX/UI design we will determine what software platforms best suit the desired experiences, and we will begin experimenting with programming just to make sure. We will also further flesh-out the wireframes into UI comps for review, and produce animatics, slide decks, and other visual representations of new-production videos. For these videos, we will also begin identifying rights issues, securing interviews and locations, and locking down other logistics as required. We will share this with you for review.

Once the UI comps have been finalized, the UI designer will work closely with the software programmer to implement and test the visualizations and their interactivity. We will share videos of their progress for discussion and feedback. Meanwhile, we will share drafts of screen text and voice over scripts, animation storyboards and sample videos, and other pertinent materials with you. Concurrently,

TAB E: PROJECT UNDERSTANDING

we will begin executing video shoots, as required, and assembling and sharing edits of new videos in a series of passes for review. At the same time, we will final-specify the tech hardware and power and data needs. We will also acquire archival video, voice over recording samples, and other outside content to be incorporated. We will share these with you for comments and feedback.

Once the hardware has been approved, we will order it to the Moey studio, unless it makes more sense to ship it directly to your location. We will then set up an approximation of the actual installations and test our software on for as long as the schedule allows. During this time we will carefully monitor the testing for bugs or glitches of any kind, and resolve them before they're installed on your floor. We will also make dutiful notes of the AV integration arrangement so that they can be installed expeditiously on site. Moey can pack, ship, and install all equipment. Meanwhile, we will also continue editing new videos and animations in collaboration with you, and move them into post production after we reach picture-lock together. We will share progress in post with you as well, especially if music needs to be composed or any graphic overlays need to be added.

Accessibility

Importantly, Moey has extensive experience in universal design solutions, including in building components for visitors with impairments in mobility, vision, hearing, and motor function. Our philosophy is that ADA should be integrated from the start, wherever possible. This initiates planning with everyone in mind, and leads to an inclusive concept that remains open to important improvements. If possible, we recommend including user testing with specific ADA audiences.

Project Management

Moey utilizes a project management process that blends a traditional approach with an agile one. We will advance your project through phases with milestone deliverables for you to review, and we will take your comments as goals for each next deliverable. Meanwhile, within each phase we will rapidly iterate and test ideas for leading designs and fabrication strategies (two to four weeks per component), and we will share this work with you through ongoing communication. This will allow us to maintain flexibility and incorporate stakeholder feedback early and often, before the submission of full deliverables. The project manager will be your direct point of contact at Moey and will make sure the in-house team is aware of your goals at every step of the process.

TAB F: CONTRACTOR'S PROJECT APPROACH AND PLAN

Project Kick-Off:

Upon project award, Moey will prepare the agenda for the post award conference which will include the site review, inspection of all City-furnished material, overview of the exhibits, and preliminary schedule. All discussions as well as assessments of the site conditions and government-furnished property will be included in a post-conference report.

Travel and Communication Plan:

We will make the following trips to the work site at minimum, with additional trips as needed:

- Post-Award Site Visit
- Building Prep Site Visit
- Installation
- Punchlist if tasks cannot be completed during original Installation trip

Communication methodology:

- Moey will designate one Project Manager to traffic all communication. Moey requests that the client identify one contact to handle all communication on their side.
- Bi-Weekly meetings will be held over video conference for the duration of the project. Minutes will be distributed over email after each meeting.
- Moey will establish a shared online drive where all project files will be organized and maintained.
- Requests for Information (RFIs) will be submitted in writing and responses will be tracked on the shared drive.
- Each RFI and submittal will be numbered and include a cover sheet with details. Moey will maintain logs of all RFIs and Submittals and their response status.
- Dedicated video conferences will be scheduled to review each deliverable.
- Additional conference calls and video conferences will be scheduled as needed to address specific issues.

Quality and RFI Management:

Moey's approach to quality management begins at the pre-fabrication submittal phase and continues through final installation punchlists. At every stage we focus on clear communication and documentation. The RFI process will continue throughout the project, but the initial focus is to identify all quality requirements for the final exhibits prior to the beginning of the development of shop drawings.

TAB F: CONTRACTOR'S PROJECT APPROACH AND PLAN

Overall Schedule and approach:

Moey will plan the schedule to prioritize finalization of long-lead items. Developing and finalizing the AV plan for the fully functional system will be completed early on to allow for procurement and testing time. Shop drawings for each exhibit area will be developed and submitted in rolling waves to allow for the soonest possible procurement of materials and starts for fabrication. The dates shown in the schedule for shop drawing tasks indicate the dates by which all shop drawings at each level will be submitted.

We have the following work crews available during fabrication and installation:

- Millwork & mechanical interactives: 1 crew for construction, 1 crew for finishing processes
- Metalwork: 2 crews
- Model-making: 1 crew
- AV studio testing: 3 AV technicians
- Graphic Production: Outside suppliers for direct print graphics that can't be handled in-house.
- On-site installation: We will have 2 crews working on site simultaneously, one for installation of millwork, casework and graphics and another focusing on the large scale scenic installations
- On-site AV integration: 1 crew for cable runs, 4 techs for integration, commissioning and training

Fabrication:

During production, fabricated work and AV programs will be reviewed weekly. The vast majority of Moey's work is produced in-house. Subcontractors will be used for graphics printing.

We typically build and engineer exhibits as modular segments that bolt or clip together on site. For built walls, we will create a modular frame that can be assembled on site and clad with the wall materials. Bases will be segmented while display surfaces will be kept intact and installed into the base on site. We fully test all AV exhibits and control systems prior to installation, including integration into finalized exhibits at our studio.

Prior to each biweekly conference call, the Project Manager, Shop Supervisor, and AV Producer will prepare a status update report documenting:

TAB F: CONTRACTOR'S PROJECT APPROACH AND PLAN

- Work completed to date with photos
- Videos of physical mock-ups and AV tests, including Audio Description hardware
- Any quality issues identified, and plan to address these issues
- Two week look ahead for upcoming work
- Schedule update

Work will be evaluated to ensure it has been produced in accordance with the approved shop drawings, project specifications, accessibility standards, and best practices for fabrication and audiovisual production.

Shop Inspections:

One week prior to the Pre-Fabrication and Pre-Delivery shop inspections, the Project Manager will provide an agenda for the visit. After the inspection, a report will be prepared documenting all topics discussed, and issues identified, and a plan and timeline for addressing issues. For the Pre-Installation Shop Inspection, the report will include minutes from the Pre-Installation meeting and final installation schedule.

Building Prep, Primary, and Punchlist, Installation:

One week prior to each site visit, the Project Manager will provide an agenda that will include a schedule and sequence of activities for the visit, key action items, and items requiring discussion. After each visit, Moey will issue a report including:

- Documentation of work activities conducted while on site, with photos/videos when applicable
- Draft operations manuals
- Punchlist

The final as-built documentation, user manuals, and operating and maintenance manuals will be provided within 2 weeks of the Punchlist Installation visit.

Training and Support

After the installation is complete, Moey will train your staff in maintaining all fabricated elements and operating all software and tech hardware. We will also provide you with a user manual and terms of support we'll define together. Our support will include an individual's name and phone number for troubleshooting calls.

TAB F: CONTRACTOR'S PROJECT APPROACH AND PLAN

Potential Issues:

Risk analysis and management is an ongoing process that will continue for the duration of the contract. At present we identify the following risks:

Delay in delivery of approved, final artwork from Exhibit Designers. Timely delivery of artwork files 5 weeks after approved shop drawings is critical to maintaining the fabrication schedule. We propose working with the designers to develop a method for rolling delivery of artwork as shop drawings for different exhibit areas are approved. The establishment of a government project manager with authority to enforce the schedule of internal approvals and on-time deliverables between different contractors is also critical.

Supply chain disruptions are occurring with both raw materials and AV hardware. Our proposed schedule fast tracks completion of the AV production plans so equipment orders can be placed as soon as possible. We are distributors for a number of AV suppliers and can frequently find in-stock alternatives for backordered equipment. For raw materials, we conduct an analysis of availability upon contract award and then prioritize shop drawings for the longest lead materials.

Fabrication delays: To mitigate potential delays in the fabrication process, we identify potential subcontractors for different areas of production during the shop drawing development phase. While our intention is to fabricate all items other than graphics internally, identifying subcontractor options early gives us options to recover from unforeseen delays. This will allow us to scale up production if required.

The AV media specified for this project involves extensive research, creative direction, and production, as many of the assets identified are for reference only and not prescriptive content available to be used. Moey has staff content developers, AV producers, and software developers in-house, which will allow us to dedicate a team to fast-tracking the AV production plans and media development. This will allow media production to run simultaneously with shop drawing development and fabrication.

Attachment 1 – PROPOSER’S CERTIFICATION

I hereby propose to furnish the goods or services specified in the Request for Proposals (“RFP”). I agree that my proposal will remain firm for a period of up to ninety (90) days in order to allow the City of Roseville (“City”) adequate time to evaluate the qualifications submitted.

I have carefully examined the Request for Proposals and any other documents accompanying or made a part of this RFP. The information contained in this proposal is true and correct to the best of my knowledge and is signed under penalty of perjury under the laws of the State of California. I further certify that I am duly authorized to submit this proposal on behalf of the firm as its authorized agent and that the firm is ready, willing and able to perform if awarded the contract.

I further certify that this proposal is made without prior understanding, agreement, connection, discussion, or conspiracy with any other person, firm or corporation submitting a proposal for the same product or service; that this proposal is fair and made without outside control, collusion, fraud or illegal action; that no officer, employee or agent of the City or any other proposer is financially interested in said proposal; that no undue influence or pressure was used against or in concert with any officer, employee or agent of the City in connection with the award or terms of the contract that will be executed as a result of this RFP; and that the undersigned executed this Proposer’s Certification with full knowledge and understanding of the matters therein contained and was duly authorized to do so.

Attachment 3 – SUBCONTRACTOR LIST

In accordance with the Public Contract Code, Part 1, Chapter 4, Subletting and Subcontracting, Contractors must list the name and business address of each subcontractor who will perform work or labor or render service to the prime contractor in or about the construction of the work or improvement, or who will specially fabricate and install a portion of the work or improvement according to detailed drawings contained in the plans and specifications, in an amount in excess of one-half of one percent (0.5%) of the prime contractor's total bid, or in the case of bids or offers for the construction of streets and highways, including bridges, in excess of one-half of one percent (0.5%) of the prime contractor's total bid or ten thousand dollars (\$10,000) whichever is greater. If subcontractors will not be used, proposer must write "NONE".

Attachment 5 – NO CONFLICT OF INTEREST DECLARATION

The undersigned proposer certifies that no undue influence or pressure is used against or in concert with any officer or employee of the City in connection with the award or terms of the Agreement that will be executed as a result of this RFP, including any method of coercion, confidential financial arrangement or financial inducement. No officer or employee of the City shall receive compensation, directly or indirectly, from the proposer, or from any officer, employee or agent of the proposer, in connection with the award of the Agreement or any Work to be conducted as a result of this RFP. Violation of these requirements shall be a material breach of the contract entitling the City to any and all remedies by law or in equity.

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct and that this declaration is executed on November 18 [date], at Brooklyn [city],
New York [state].

Attachment 8 – NON-COLLUSION DECLARATION TO BE EXECUTED BY BIDDER AND SUBMITTED WITH BID

The undersigned declares:

I am the President of Moey, Inc., the party making the foregoing bid.

The bid is not made in the interest of, or on behalf of, any undisclosed person, partnership, company, association, organization, or corporation. The bid is genuine and not collusive or sham. The bidder has not directly or indirectly induced or solicited any other bidder to put in a false or sham bid. The bidder has not directly or indirectly colluded, conspired, connived, or agreed with any bidder or anyone else to put in a sham bid, or to refrain from bidding. The bidder has not in any manner, directly or indirectly, sought by agreement, communication, or conference with anyone to fix the bid price of the bidder or any other bidder, or to fix any overhead, profit, or cost element of the bid price, or of that of any other bidder. All statements contained in the bid are true. The bidder has not, directly or indirectly, submitted his or her bid price or any breakdown thereof, or the contents thereof, or divulged information or data relative thereto, to any corporation, partnership, company, association, organization, bid depository, or to any member or agent thereof, to effectuate a collusive or sham bid, and has not paid, and will not pay, any person or entity for such purpose.

Any person executing this declaration on behalf of a bidder that is a corporation, partnership, joint venture, limited liability company, limited liability partnership, or any other entity, hereby represents that he or she has full power to execute, and does execute, this declaration on behalf of the bidder.

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct and that this declaration is executed on November 18 [date], at Brooklyn [city], New York [state].

(Signature of Declarant)

TAB H: EXCEPTIONS

Moey does not propose any exceptions, alterations, or amendments to the Scope of Services in the RFP.

TAB I: COMPETENCY OF PROPOSERS

Moey has never had any past or pending bankruptcies, liens, stop payment notices, judgments, lawsuits, arbitrations, mediations, foreclosures, or any similar actions filed. No client has ever terminated a contract with Moey for breach.

- Question 5: What was the intended budget?
Answer: We are unable to share this information.
- Question 6: Is the 3rd party estimator an exhibit fabricator who is allowed to bid on the project?
Answer: No, they are an independent estimator and are not a fabricator.
- Question 7: Can Volume 6 of 7 - Component Lists be shared in Excel?
Answer: Yes, we will share that. Please see the Excel spreadsheet included as a separate attachment to this Addendum 1.
- Question 8: Can you address the intended budget and 3rd party estimator eligibility questions above?
Answer: The 3rd party estimator is an Independent estimator and will not be bidding on the project. The budget is not something we can share.
- Question 9: Questions are due on the 4th, when will you be providing responses?
Answer: The goal is to have questions answered by November 9, 2022.
- Question 10: Printing and delivering 8 copies will take more than a day. That only leaves one business day to accommodate responses. Would you please consider extending the deadline to the 18th?
Answer: We will extend the deadline to 3:00PM on Monday, November 21st. We encourage all questions to be posted ASAP.
- Question 11: Is the Final Completion Date set based on a major milestone\opening or is there flexibility in this Final Date?
Answer: Hopefully we will stay within our timeframe, but there is flexibility.
- Question 12: Are the California Business Registration and Roseville Business License required for submission, or just for the awarded firm?
Answer: Awarded firm. Registration and licenses will need to be obtained between selection and the award of the contract.

Please include a signed copy of this addendum with your proposal.

I acknowledge receipt of Addendum One

Attachment 4 – GUARANTEED MAXIMUM PRICE, COST OF WORK AND FEE

Utility Exploration Center Exhibit Fabrication and Installation

1.0 TOTAL PROPOSED GUARANTEED MAXIMUM PRICE (GMP)

The undersigned proposes and agrees to contract with the City to perform all of the Work for the Design-Build Construction of the **Utility Exploration Center Exhibit Fabrication and Installation** including subsidiary obligations as defined in the Contract, for a **Guaranteed Maximum Price (“GMP”)** of
one million, three hundred and ninety one thousand, nine hundred and eighty _____ dollars (\$ 1,391,980 .00),
U.S. Currency.

Subject to the provisions of this Proposal and the Contract, the costs and expenses which the Contractor may include in the Cost of Work for purposes of determining that aspect of the Contractor’s compensation are as set forth below. The Contractor’s total compensation, including Fee and allowable mark-ups, shall not exceed the GMP.

The GMP may be adjusted by Change Order in accordance with the Agreement.

2.0 BREAKDOWN OF GUARANTEED MAXIMUM PRICE

Proposer provides the breakdown of the Contractor’s GMP by major items of work as shown in **Table 2.1** on the following page. The cost breakdown should sum to a total that equals the GMP given in this Attachment 4 Section 1.0 – Total Proposed Guaranteed Maximum Price. Contractor must include all costs required to complete the work within the scope area items listed.

Note that Add-Alternative (Add-Alt) line items are items of work that may be awarded as part of the contract, depending upon budget.

Roseville Utility Exploration Center Exhibits

Prices are to include costs for project management, CAD/ engineering, graphics management, samples, and maintenance manuals, per line item.		Please provide pricing only in the empty spaces

* Other:

Relocation of 1 existing green house frame to offsite Roseville Electric building - \$4,410.00

CA Sales/Use Tax - \$99,070.00

3.0 SCHEDULE OF VALUES

Contractor will be required to submit a complete schedule of values upon selection to facilitate contract negotiation within ten (10) days of notice.

- A. The Schedule of values must include a detailed breakdown of quantities and prices of work and materials required to perform and complete the contract, including Contractor Allowance Items.
- B. The Schedule of Values shall provide a cost breakdown for each element detailed in the approved Construction Schedule. The total of the price breakdown must agree with the GMP. The elements listed and price breakdown shall not be front end loaded or unbalanced, shall be subject to adjustment between the ENGINEER and the CONTRACTOR, and will be used as a basis for progress payments.
- C. Acceptance of the Schedule of values shall not relieve the CONTRACTOR of the responsibility of performing all the work needed to complete the project at the GMP.

Volume 2 – Agreement incorporates additional details and definitions that pertain to the Guaranteed Maximum Price, Fee, and Cost of Work.

4.0 COST OF THE WORK

The term "Cost of Work" means the sum of all costs necessarily incurred and paid by the Contractor for labor, materials, equipment, subcontractors, special services, bonds, liability, workers' compensation and errors and omissions insurance, direct job overhead expenses, taxes and other necessary expenses incurred in the performance of the work, that do not exceed the GMP.

4.1 Hourly Field Labor and Management and Administrative Labor

Table 4.1A: Hourly Rates. Contractor Name: Moey, Inc.

Craft	Classification	Hourly Rate	Overtime Daily /Saturday Rate (1.5 X)	Overtime Sunday /Holiday Rate (2 X)
Architect/Engineer	Exempt	\$225.00	n/a	n/a
Artifact Mounter (Journeyman)	Non-exempt	\$125.00	\$187.50	\$250.00
Audiovisual Producer	Exempt	\$150.00	n/a	n/a

Table 4.1B: On-Site Management and Administrative Labor Rates

Management and Administrative Position	Hourly Rate
Fabrication Shop Supervisor	\$98.00
Site Superintendent	\$125.00
Project Manager	\$120.00
Office Administrator	\$75.00

4.2 Direct Job Overhead Expenses

The Contractor will be paid for the actual cost of job overhead expenses which may include such expenses as office trailers, storage vans, temporary fencing/security, toilets, dumpsters, waste removal, water, utility power, jobsite landline telephone costs, jobsite internet provider costs, reasonable room and board subsistence for employees who live farther than 40 miles from the Work Site or as required by California prevailing wage laws, copy machine, water cooler and any office furniture required for the Work needs, including mobilization and demobilization of same. There will be no warranty reserve.

5.0 PROPOSER'S VOLUNTARY COST ALLOWANCES

The Proposer is allowed to propose allowances for minor portions of the Work. Proposers are limited to a maximum of three (3) proposed allowances and the total amount for all proposed allowances cannot exceed Twenty Thousand Dollars (\$20,000.00).

Each proposed allowance description should be well-defined. There are no scoring points assigned to any proposed allowances, but they may be discussed during the final negotiations with the highest ranked Proposer. Proposers are not required to propose any voluntary allowance item. Allowances shall not be considered for compensation as proposed shared savings as defined in Section 6.0 of this Attachment 4.

The following Proposer's cost allowances and allowance amounts are included in the GMP:

Utility Exploration Center Exhibit Fabrication and Installation
Request for Proposals – ATTACHMENT 4

Page 33

Table 5.1: Proposer's Voluntary Cost Allowances

Item#	Allowance Description	Allowance Amount
1	n/a	\$
2		\$
3		\$
	Total of Allowances:	\$

6.0 PROPOSED SHARED SAVINGS

In the event the final Cost of Work, plus the Proposed Total Fee Mark-up for General Overhead and Profit, is less than the GMP, as adjusted by the Change Orders, the undersigned Proposer proposes a sharing of the savings as follows.

45 % of the savings to the City* *In the event CONTRACTOR receives the benefit of a tax exemption or tax reduction taking effect after the date hereof, the amount of such exemption or reduction shall decrease the GMP pursuant to the Change Order provisions of this Contract.

55 % of the savings to the Contractor

Percent of Savings to the contractor must be a minimum of 20% plus the Total Fee Markup percentage for General Overhead and Profit as shown in the Section 1 of this Attachment 4.

“GMP” Savings shall mean the positive difference, if any, when the actual Total Cost of the Work and Fee is subtracted from the GMP; provided, however, that unused Allowance monies, if any, shall not be subject to shared savings.

Should there be savings shared, City will pay the Contractor its share of the savings at the same time as the final retention payment.

7.0 ITEMS NOT INCLUDED IN THE COST OF WORK:

- A. Salaries and other compensation of Contractor's personnel stationed at Contractor's principal office or offices other than the Site, except as specifically provided in this Attachment 4 Table 4.3 On-Site Management and Administrative Labor Rates.
- B. Expenses of Contractor's principal office and offices, other than the Site office.
- C. Contractor's General Overhead and Expenses, except as specifically provided for in the Contract Documents.

- D. The capital expenses of Contractor, including interest on capital employed for the Work and charges to Contractor for delinquent payments.
- E. Hours in excess of fifty (50) hours per week for each full-time assigned supervisory and administrative personnel even if a supervisory or administrative employee works more than fifty (50) hours in a week.
- F. Costs due to correction of Defective Work, disposal of materials or equipment wrongfully supplied, and making good any damage to property.
- G. Costs that would cause the GMP to be exceeded.
- H. Any costs incurred after Owner's Final Acceptance of the Project.

8.0 CONTRACTOR'S FEE MARKUPS

- A. The undersigned Proposer proposes the following mark-up fees for general overhead and profit in the performance of all of the Design-Assist Construction work for the Utility Exploration Center Exhibit Fabrication and Installation Project, as shown in table 4-5.

Table 8.1: Contractor's Fee Mark-up Schedule

Attachment 4 Section	Cost Category	Fee Mark-Ups For General Overhead And Profit
4.1A	Hourly Field Labor	Included in hourly rates
4.1B	Management and Administrative Labor	Included in hourly rates
	Materials	15%
	Subcontractors	15%
4.2	Direct Job Overhead Expenses	15%

- B. Based on the above percentages for each cost category, the Proposed Total Fee Markup-for General Overhead and Profit percentage included in the Contractor's GMP is 15 %.

****END OF ATTACHMENT 4****

EXHIBIT C - GUARANTEED MAXIMUM PRICE, COST OF WORK, AND FEE

- A. **GUARANTEED MAXIMUM PRICE:** The Guaranteed Maximum Price as of the date of execution of this Agreement is \$1,391,980.00), U.S. Currency.
- B. **FEE AND CONTINGENCY:** The Fee and Contingency amounts, if any, are as detailed in the CONTRACTOR'S Proposal in Attachment 4-GUARANTEED MAXIMUM PRICE, COST OF WORK, and FEE.
- C. **COST OF THE WORK:**

Cost of the Work. The term "Cost of the Work" shall mean costs incurred by CONTRACTOR in the performance of the Work, that do not exceed the GMP. The following are categories of cost and expense to be paid by CITY to CONTRACTOR as Cost of the Work:

1. **Construction Costs.**

1.1. **Labor Costs.**

- 1.1.1. Wages of construction workers directly employed by CONTRACTOR to perform the construction of the Work at the Site or, with CITY'S agreement, at off-site workshops.
- 1.1.2. Wages or salaries of CONTRACTOR's supervisory and administrative personnel when stationed at the Site and wages, salaries and other costs of project management, pre-construction services, form design, foundation engineering, manpower planning, purchasing, estimating and data processing, whether performed at the Site or in CONTRACTOR's offices, including, but not limited to services rendered during the Design Phase of the Project.
- 1.1.3. Wages and salaries of CONTRACTOR's supervisory or administrative personnel engaged at factories, workshops or on the road, in expediting the production or transportation of materials or equipment required for the Work, but only for that portion of their time required for the Work.
- 1.1.4. Costs paid or incurred by CONTRACTOR for taxes, insurance, contributions, assessments and benefits required by law or collective bargaining agreements and, for personnel not covered by such agreements, customary benefits such as sick leave, medical and health benefits, holidays, vacations and pensions, provided such costs are based on wages and salaries included in subsections 1.1.1 through 1.1.3 above.

- 1.2. **Subcontract Costs.** Amounts due Subcontractors in accordance with the requirements of the Subcontracts.

- 1.3. **Costs of Materials and Equipment Incorporated in the Completed Construction.** Costs, including transportation, of materials and equipment incorporated or to be incorporated in the completed construction.

- 1.4. **Costs of other Materials and Equipment, Temporary Facilities, and Related Items.**

- 1.4.1. Costs, including transportation, installation, maintenance, dismantling and removal of materials, supplies, temporary facilities, machinery,

equipment and hand tools not customarily owned by the construction workers, which are provided by CONTRACTOR at the Site and fully consumed in the performance of the Work; and cost, less salvage value, on such items if not fully consumed, whether sold to others or retained by CONTRACTOR. Costs for items previously used by CONTRACTOR shall mean fair market value.

- 1.4.2. Rental charges for temporary facilities, machinery, equipment and hand tools not customarily owned by the construction workers, which are provided by CONTRACTOR at the Site, whether rented from CONTRACTOR or others, and costs of transportation, installation, minor repairs and replacements, dismantling and removal thereof. Rental charges for equipment owned by CONTRACTOR shall be at then prevailing rates.
- 1.4.3. Costs of removal of debris from the Site.
- 1.4.4. Costs of facsimiles, telegrams and long distance telephone calls, postage and delivery charges (whether originating at the Site or at the offices of CONTRACTOR or CONTRACTOR), telephone service at the Site and reasonable petty cash expenses of the Site office.

1.5. Premiums; Taxes; Fees; Royalties.

- 1.5.1. That portion directly attributable to this Agreement of premiums for insurance and the Payment and Performance Bonds.
- 1.5.2. Sales, use, gross receipts or similar taxes imposed by a governmental authority, which are related to the Work and for which CONTRACTOR is liable.
- 1.5.3. Fees and assessments for any permits, licenses and inspections required by the Contract Documents.
- 1.5.4. Fees of testing laboratories for tests required by the Contract Documents or government authorities.
- 1.5.5. Royalties and license fees paid for the use of a particular design, process or product required by the Contract Documents. The costs of defending suits or claims for infringement of patent rights arising from such requirement by the Contract Documents; payments made in accordance with legal judgments against CONTRACTOR or CONTRACTOR resulting from such suits or claims and payments of settlements in connection therewith.
- 1.5.6. Deposits lost for cause other than CONTRACTOR's negligence.
- 1.6. **Emergencies.** Costs incurred in taking action to prevent threatened damage, injury or loss in case of emergency affecting the safety of persons and property, as provided in Article 12.10-EMERGENCIES of this Agreement.
- 1.7. **Other Costs.** Other costs incurred in the performance of the Work, if and to the extent approved in writing by CITY, which approval shall not be unreasonably withheld.

2. Items not Included in Cost of the Work.

- 2.1. Salaries and other compensation of CONTRACTOR's personnel stationed at

CONTRACTOR's principal office or offices other than the Site, except as specifically provided in subsection 1 above.

- 2.2. Expenses of CONTRACTOR's principal office and offices, other than the Site office.
- 2.3. Overhead and general expenses, except as may be included in subsection 1 above.
- 2.4. The capital expenses of CONTRACTOR, including interest on capital employed for the Work.
- 2.5. Costs that would cause the GMP to be exceeded.

EXHIBIT D - CONSTRUCTION ALLOWANCE ITEMS AND AMOUNTS

- A. The following cost allowances and allowance amounts are included in the GMP as part of the Agreement:

Table D-1: Allowance Descriptions

Item#	Allowance Description	Allowance Amount
1	N/A	
2		
3		
	Total of Allowances:	

B. DUTIES OF CONTRACTOR

1. Plan allowance Work collaboratively with the Construction Manager and CITY's Representative to control allowance costs and avoid impacts to the Progress Schedule.
2. Advise Construction Manager at least fifteen (15) days in advance of the need to purchase materials to avoid impacts to Progress Schedule.
3. Obtain competitive proposals from material suppliers, including:
 - 3.1. Quantity.
 - 3.2. Complete description of product and services provided under allowance.
 - 3.3. Unit cost.
 - 3.4. Total amount of purchase.
 - 3.5. Taxes and delivery charges.
4. On notification of selection, enter into purchase agreement with designated supplier.
5. Arrange for delivery and unloading.
6. Install products in accordance with Contract Documents.
7. Maintain accurate cost records, separate from the cost categories for the balance of the Work, which depict the total cost incurred for each allowance item.
8. Monitor each allowance item total costs to date and immediately report to the Construction Manager should the total cost to date reach 80% of the total allowance amount of any allowance item amount shown in above table. Should the total cost of any allowance item reach 80% of the total allowance amount budgeted, the Contractor shall quantify and forecast the cost to complete the remaining known allowance item tasks and submit this forecasted quantity and completion cost to the Construction Manager.

C. DUTIES OF CONSTRUCTION MANAGER

1. Consult with Contractor and CITY in consideration of equipment or material and suppliers.
2. Provide Contractor with all required product, technical or design related information as it pertains to the allowance items.
3. Make equipment, supplier or system selection and request proposal from Contractor for these items covered by each allowance.
4. Notify Contractor of final equipment, supplier or system selection to allow Contractor to begin submittal and procurement.
5. Review cost to date information submitted by the Contractor and prepare Change Orders as required for CITY approval.

D. ADJUSTMENT OF COSTS

1. The Contractor shall not exceed the allowance amounts shown in above table without the written approval of the CITY. Should the Contractor exceed the allowance amounts without the written approval of the CITY, the Contractor will be responsible for all costs greater than the allowance amounts shown in above table.
2. Contractor will be paid the actual total cost of each allowance item as a Cost of the Work. When actual total cost is more or less than amount of allowance, the GMP will be adjusted by Change Order.

END OF EXHIBIT D

EXHIBIT E - HAZARDOUS MATERIALS

A. Certain Definitions.

1. “Hazardous Materials” means any substance:

- 1.1. The presence of which requires investigation or remediation under federal, state or local law, statute, regulation, ordinance, order, action, policy or common law;
- 1.2. Which is or becomes defined as a “hazardous waste,” “hazardous substance,” pollutant or contaminant under any federal, state or local law, statute, regulation, rule or ordinance or amendments thereto, including, without limitation, the Comprehensive Environmental Response, Compensation and Liability Act, 42 USC §§9601 et seq. (“CERCLA”), as amended, or the Resource, Conservation and Recovery Act, as amended, 42 USC §§6901 et seq. (“RCRA”);
- 1.3. Shall include the meaning provided in Section 100 of the Solid Waste Disposal Act (42 USC Section 6903 and/or Section 25117 of the California Health and Safety Code) as amended from time to time, or any other hazardous material, hazardous waste, hazardous substance, pollutant, and/or contaminant with requirements under federal, State of California, or local law, statute, regulation, rule, ordinance, order, action, policy or common law;
- 1.4. Which is petroleum, including crude oil or any fraction thereof not otherwise designated as a “hazardous substance” under CERCLA, including without limitation gasoline, diesel fuel or other petroleum hydrocarbons;
- 1.5. Which is toxic, explosive, corrosive, flammable, infectious, radioactive, carcinogenic, mutagenic, or otherwise hazardous and is or becomes regulated by any governmental authority or instrumentality;
- 1.6. The presence of which on the Site causes or threatens to cause a nuisance upon the Site or to the adjacent properties or poses or threatens to pose a hazard to the health or safety of persons on or about the Site; or
- 1.7. The presence of which on adjacent properties could constitute a trespass by CONTRACTOR or CITY.

2. “Underground Storage Tank” shall have the definition assigned to that term by RCRA §9001, 42 USC §6991, and also shall include:

- 2.1. Any tank of 1,100 gallons or less capacity used for storing motor fuel;
- 2.2. Any tank used for storing heating oil for consumption on the premises where stored;
- 2.3. Any septic tank; and any pipes connected to items A.2.1-A.2.3.

3. “Environmental Requirements” means all Applicable Laws, statutes, regulations, rules, ordinances, codes, licenses, permits, orders and similar items of all federal, state or local governmental agencies or other instrumentalities and all applicable judicial, administrative and regulatory decrees, judgments and orders relating to the protection of human health or the environment, including, without limitation:

- 3.1. All requirements, including but not limited to, those pertaining to reporting,

licensing, permitting, investigation and remediation of emissions, discharges, releases or threatened releases of Hazardous Materials into the air, surface water, ground water or land, or relating to the manufacture, processing, distribution, use, treatment, storage, disposal, transport or handling of Hazardous Materials; and

3.2. All requirements pertaining to the protection of the health and safety of employees or the public.

4. **“Environmental Damages”** means all claims, judgments, damages, losses, penalties, fines, liabilities, encumbrances, liens, costs and expenses of investigation and defense of any claim, including, without limitation, attorney's fees, which are incurred at any time as a result of the existence of Hazardous Materials upon, about or beneath the Site or migrating or threatening to migrate to or from the Site, and including, without limitation:

4.1. Damages for personal injury, or injury to property or to natural resources occurring upon or off the Site;

4.2. Fees incurred for the services of attorneys, consultants, CONTRACTOR, experts, laboratories and all other costs incurred in connection with the investigation or remediation of such Hazardous Materials or violation of Environmental Requirements; and

4.3. Liability to any third party or governmental agency or political subdivision to indemnify such party, agency or political subdivision for costs expended in connection with the items listed in subparagraph A.4.2.

5. **“Environmental Conditions”** means collectively, Hazardous Materials and Underground Storage Tanks existing on the Site and not brought there by CONTRACTOR or any Subcontractor.

B. Investigation of Site.

1. Upon written notice from CITY, CONTRACTOR shall prepare for approval and execution by CITY, one or more contracts (“Environmental Contracts”) with suitably qualified consultants and/or engineers (“Environmental Engineers”), for purposes of performing an investigation and analysis of the Site prior to demolition and excavation activities, to determine the presence of any Environmental Conditions on, in or under the Site. The Environmental Contracts shall provide for a commercially reasonable scope of investigation approved by CITY, and may provide for conducting the investigation and testing in phases acceptable to CITY. The Environmental Contracts shall also provide that the Environmental Engineers shall begin their tests and inspections at the Site as soon as CITY is able to arrange access to the Site, or any portions thereof, for such purposes. The Environmental Contracts shall provide that CONTRACTOR, acting as agent of CITY, shall coordinate the activities of the Environmental Engineers.

2. The Environmental Contracts shall provide that the Environmental Engineers shall prepare such reports, feasibility studies and remedial plans (“Environmental Assessments”) as may be reasonably necessary in order to identify and explain the quantity, scope and nature of the Environmental Conditions found to exist at the Site. The Environmental Assessments shall contain a detailed analysis of the Environmental Conditions discovered, and the actions (“Remedial Actions”) required for the response, removal, cleanup or remediation of such Environmental Conditions (i) which are

required by Environmental Requirements, or (ii) which are reasonably necessary to mitigate Environmental Damages.

3. The Environmental Contracts shall provide that the Environmental Engineers shall promptly provide CITY and CONTRACTOR with a copy of each Environmental Assessment, together with any other reports and test results generated pursuant to the Environmental Contracts. CONTRACTOR shall, promptly after receipt of the foregoing matters from the Environmental Engineers, prepare and submit to CITY a written report setting forth CONTRACTOR's understanding of whether and to what extent any recommended Remedial Actions may result in an amendment to the Schedule and the progress of the Work.
4. The Environmental Contracts shall provide that it shall be the responsibility of the Environmental Engineers to give any necessary notice to the appropriate regulatory agency or agencies of the presence of any Environmental Conditions; to pursue all necessary negotiations with such agencies concerning preparation and approval of a plan for clean-up to the extent required; and to obtain all necessary permits to perform any Remedial Actions.

C. Remedial Actions.

1. If so instructed by CITY, based upon the results of the Environmental Assessments, CONTRACTOR shall, as agent for CITY, obtain bids from remediation contractors ("Remediation Contractors") suitably qualified and approved by CITY, to perform the Remedial Actions selected by CITY and shall submit such bids to CITY, together with CONTRACTOR's recommendation of the Remediation Contractor(s) to be retained. If CITY elects to go forward with all or any portion of the Remedial Actions covered by the bids submitted, CITY will so advise CONTRACTOR in a written notice on or before the date which is sixty (60) Days after receipt of the foregoing matters from CONTRACTOR. Promptly after receipt of such notice, CONTRACTOR shall prepare for CITY's execution remediation contracts ("Remediation Contracts") with the Remediation Contractors identified in such notice.
2. CONTRACTOR, as agent for CITY, shall be responsible for coordinating the work and services performed by the Remediation Contractors, and coordinating such remediation work with the Work.
3. If in the course of performance of the Work, CONTRACTOR encounters on the Site any Hazardous Materials not previously disclosed and remediated by the Environmental Engineers or the Remediation Contractors, CONTRACTOR shall immediately suspend the Work in the area affected and promptly thereafter report the condition to CITY.

D. Payments: Liability of CONTRACTOR.

1. All payments due under the Environmental Contracts and the Remediation Contracts shall be made by CITY directly to the Environmental Engineers and the Remediation Contractors. Such payments will be based on requisitions, which requisitions shall be approved by CONTRACTOR prior to submission to CITY.
2. All payments due under the Environmental Contracts, the Remediation Contracts and for Environmental Damages, shall not be a part of the GMP, and shall be the sole responsibility of CITY, except as expressly provided otherwise in Section 5 hereof.
3. It is understood and agreed that with respect to any Environmental Conditions existing on the Site, CONTRACTOR is not, and shall not be deemed to be, a generator, arranger, operator, treater, storer, transporter or disposer of, or otherwise responsible for, any

such Environmental Conditions. It is understood and agreed that CONTRACTOR shall have no right to direct the means or methods of performance of any Environmental Engineer or Remediation Contractor.

4. CITY shall indemnify, defend and hold harmless CONTRACTOR, from and against any Environmental Damages asserted against or sustained by CONTRACTOR as a result of CONTRACTOR being deemed or determined to be a generator, arranger, operator, treater, storer, transporter or disposer of, or otherwise responsible for, any such Environmental Conditions.

E. Environmental Responsibilities of CONTRACTOR.

1. CITY acknowledges and agrees that CONTRACTOR shall not commence or continue any demolition or construction activities on any portion of the Site on or in which Remedial Actions are to be performed until such Remedial Actions are to the point where construction activities will not interfere with such Remedial Actions, as evidenced by appropriate certification by the applicable Environmental Engineer and/or Remediation CONTRACTOR and any required approval of any applicable government agency. CONTRACTOR agrees to use good faith diligent efforts to adjust and reschedule its activities at the Site so as to minimize, to the extent reasonably practical, the adverse effect on the progress of the Work resulting from any Remedial Actions.
2. CONTRACTOR shall not bring Hazardous Materials to the Site, and shall not include Hazardous Materials in any construction materials, unless permitted by Environmental Requirements. CONTRACTOR shall comply, and shall cause all Subcontractors to comply, with all Environmental Requirements regarding the generation, handling, storage, treatment and disposal of Hazardous Materials.
3. CONTRACTOR shall indemnify, defend and hold harmless the Indemnified Parties from and against any Environmental Damages asserted against or sustained by such parties as a result of any Environmental Conditions caused or created by CONTRACTOR or any Subcontractor, or of any violation by CONTRACTOR or the Subcontractors, of any Environmental Requirement arising out of the performance of the Work.

END OF EXHIBIT E-HAZARDOUS MATERIALS

EXHIBIT F - IN LIEU OF SECURITIES ESCROW AGREEMENT

(Form of agreement follows this page)

(Use is optional by CONTRACTOR)

ESCROW AGREEMENT FOR SECURITY DEPOSITS IN LIEU OF RETENTION
(Project: UTILITY EXPLORATION CENTER EXHIBIT FABRICATION AND INSTALLATION)

THIS ESCROW AGREEMENT is made and entered into on this ____ day of _____, 20__
by and between the:

CITY of Roseville, whose address is:
311 Vernon Street
Roseville, CA 95678

(hereinafter called "CITY"); and

_____, whose address is:

(hereinafter called "CONTRACTOR"); and

_____, whose address is:

(hereinafter called "ESCROW AGENT").

For the consideration hereinafter set forth, CITY, CONTRACTOR, and ESCROW AGENT agree
as follows:

1. Pursuant to Section 22300 of the Public Contract Code of the State of California,
CONTRACTOR has the option to deposit securities, subject to prior approval of CITY, with ESCROW
AGENT, as a substitute for retention earnings required to be withheld by CITY pursuant to the contract
for public works entered into between the CITY and CONTRACTOR for the Project in the amount of

_____ dollars

(\$_____) dated _____, (hereinafter referred to as the "Contract").

Alternatively, on written request of CONTRACTOR, CITY shall make payments of the retention
earnings directly to the ESCROW AGENT.

When CONTRACTOR deposits the securities as a substitute for Contract earnings, the ESCROW
AGENT shall notify CITY within ten (10) days of the deposit. The market value of the securities at the

time of the substitution shall be at least equal to the cash amount then required to be withheld as retention under the terms of the Contract between CITY and CONTRACTOR. Securities shall be held in the name of ESCROW AGENT, and shall designate CONTRACTOR as the beneficial owner, and shall be limited to those types of acceptable securities as described in Public Contract Code Section 22300.

2. CITY shall make progress payments to CONTRACTOR for those funds which otherwise would be withheld from progress payments pursuant to the Contract provisions, provided that ESCROW AGENT holds securities in the form and amount specified above.

3. When CITY makes payment of retentions earned directly to ESCROW AGENT, ESCROW AGENT shall hold them for the benefit of CONTRACTOR until the time that the escrow created under this Agreement is terminated. CONTRACTOR may direct the investment of the payments into securities. All terms and conditions of this Agreement and the rights and responsibilities of the parties shall be equally applicable and binding when CITY pays ESCROW AGENT directly.

4. CONTRACTOR shall be responsible for paying all fees for the expenses incurred by ESCROW AGENT in administering the Escrow Account and all expenses of CITY. These expenses and payment terms shall be determined by CITY, CONTRACTOR, and ESCROW AGENT.

5. The interest earned on the securities or the money market accounts held in escrow and all interest earning on that interest shall be for the sole account of CONTRACTOR and shall be subject to withdrawal by CONTRACTOR at any time and from time to time without notice to CITY.

6. CONTRACTOR shall have the right to withdraw all or any part of the principal in the Escrow Account only by written notice to ESCROW AGENT accompanied by written authorization from CITY to ESCROW AGENT that CITY consents to the withdrawal of the amount sought to be withdrawn by CONTRACTOR.

7. CITY shall have a right to draw upon the securities in the event of default by CONTRACTOR. Upon seven (7) days' written notice to ESCROW AGENT from CITY of the default, ESCROW AGENT shall immediately convert the securities to cash and shall distribute the cash as instructed by CITY.

8. Only upon receipt of written notification from CITY certifying that the Contract is final and complete, and that CONTRACTOR has complied with all requirements and procedures applicable to the Contract, ESCROW AGENT shall release to CONTRACTOR all securities and interest on deposit less escrow fees and charges of the Escrow Account. The escrow shall be closed immediately upon disbursement of all moneys and securities on deposit and payments of fees and charges.

9. ESCROW AGENT shall rely on the written notifications from CITY and CONTRACTOR pursuant to Sections (5) to (8), inclusive, of this Agreement and CONTRACTOR shall hold ESCROW AGENT harmless from ESCROW AGENT's release and disbursement of the securities and interest as set forth above.

10. The parties hereto mutually agree that this Agreement is substantially similar to the form under Public Contracts Code Section 22300.

11. The names of the persons who are authorized to give written notice or to receive written notice on behalf of CITY and on behalf of CONTRACTOR in connection with the foregoing, and exemplars of their respective signatures are as follows:

On behalf of CITY:

Title

Name

Signature

Address

On behalf of CONTRACTOR:

EXHIBIT G - BOND FORMS

There are three (3) bond forms that constitute Exhibit G following this index sheet.

1. Performance Bond
2. Labor and Material Bond
3. Warranty Bond

Bond No.	_____
Premium \$	_____

PUBLIC WORKS FAITHFUL PERFORMANCE BOND

(Project: _____)

WHEREAS, the City of Roseville ("CITY") has awarded a bid and contract to _____
as contractor ("PRINCIPAL") for the public work described as _____
_____ (the "WORK"). The
contract ("AGREEMENT"), for the public work described above, and all of its terms and
conditions are incorporated by reference and made a part hereof; and

WHEREAS, the PRINCIPAL is required to furnish a bond in connection with the AGREEMENT
guaranteeing its faithful performance; and

NOW, THEREFORE, we the undersigned PRINCIPAL and _____
_____, a _____, admitted
and duly authorized to transact business under the laws of the State of California, as SURETY
("SURETY"), are held and firmly bound unto the CITY or its successors and assigns in the sum
of _____
dollars (\$_____) (which amount is not less than 100% of the AGREEMENT
price) to be paid to the CITY or its successors and assigns; and for which payment, well and truly
to be made, we bind ourselves, our heirs, executors and administrators, successors or assigns
jointly and severally, firmly by these presents.

The condition of this obligation is such that if the PRINCIPAL, or its heirs, executors,
administrators, successors or assigns, shall abide by, and in all respects promptly and faithfully
perform the covenants, conditions and provisions in said AGREEMENT and any alteration
thereof made as therein provided, notice of which alterations to Surety being hereby waived, on
its part to be kept and performed at the time and in the manner therein specified, and in all
respects according to their true intent and meaning, and shall indemnify and save harmless
CITY, its officers, agents, employees, volunteers as therein stipulated, then this obligation shall
be null and void; otherwise, this obligation shall be and remain in full force and effect.

As condition precedent to the satisfactory completion of the contract, the obligation of the
PRINCIPAL and SURETY under this Bond shall remain in effect for a period of one (1) year
after the completion and acceptance of the WORK. During that time, if the PRINCIPAL, its
heirs, executors, administrators, successors or assigns fails to make full, complete and
satisfactory repair and replacement or totally protect the CITY from any loss or damage made
evident during that year which results from or is caused by either defective materials or faulty
workmanship in the prosecution of the WORK, then the obligation shall remain in full force and
effect. However, anything in this paragraph to the contrary notwithstanding, the obligation of the

SURETY shall continue so long as any obligation of the PRINCIPAL remains.

No prepayment or delay in payments, and no change, extension, addition or alteration of any provision of the AGREEMENT or in the specifications agreed to between the PRINCIPAL and the CITY, or any forbearance on the part of the CITY shall operate to relieve the SURETY. The SURETY hereby waives the provisions of Section 2819 of the California Civil Code. The SURETY waives all rights of subrogation against the CITY or any person employed by the CITY. If the contract price increases by the issuance of change orders, the amount specified in this bond shall increase by the same amount.

Whenever PRINCIPAL shall be and declared by CITY to be in default under the AGREEMENT, SURETY shall promptly remedy the default, or shall promptly do one of the follow at CITY's election:

1. Undertake through its agents or independent contractors, reasonably acceptable to CITY, to complete the AGREEMENT in accordance with its terms and conditions and to pay and perform all obligations of PRINCIPAL under the AGREEMENT, including without limitation, all obligations with respect to warranties, guarantees, and the payment of liquidated damages.
2. Reimburse CITY for all costs CITY incurs in completing the AGREEMENT, and in correcting, repairing or replacing defects in materials or workmanship and/or materials and workmanship which do not conform to the specifications in the AGREEMENT.

SURETY's obligations hereunder are independent of the obligations of any other surety for the performance of the AGREEMENT, and suit may be brought against SURETY and such other sureties, jointly and severally, or against any one or more of them, or against less than all of them without impairing CITY's rights against the others.

No right of action shall accrue on this bond to or for the use of any person or corporation other than CITY or its successors or assigns.

As part of the obligation secured hereby and in addition to the face amount specified therefore, there shall be included costs and reasonable expenses and fees, including reasonable attorneys' fees, incurred by CITY in successfully enforcing such obligation, all to be taxed as costs and included in any judgment rendered.

****END OF DOCUMENT – PERFORMANCE BOND****

Bond No.	_____
Premium \$	_____

PUBLIC WORKS LABOR AND MATERIALS PAYMENT BOND

(Project: _____)

WHEREAS, the City of Roseville ("CITY"), has awarded a bid and contract to _____
as contractor ("PRINCIPAL"), for the public work described as _____ (the "WORK"). The
contract ("AGREEMENT"), for the public work described above, and all of its terms and conditions are
incorporated by reference and made a part hereof; and

WHEREAS, the PRINCIPAL is required to furnish a bond in connection with the AGREEMENT
guaranteeing payment of persons who provide labor and material; and

NOW, THEREFORE, we the undersigned PRINCIPAL and _____
_____, a _____, admitted
and duly authorized to transact business under the laws of the State of California, as SURETY
("SURETY"), are held and firmly bound unto the CITY or its successors and assigns in the sum
of _____
dollars (\$_____) (which amount is not less than 100% of the AGREEMENT
price) to be paid to the CITY or its successors and assigns; and for which payment, well and truly
to be made, we bind ourselves, our heirs, executors and administrators, successors or assigns
jointly and severally, firmly by these presents.

The condition of the obligation is such that if the PRINCIPAL, its subcontractors, heirs,
executors, administrators, successors or assigns fails to pay any of the persons named in
Section 8004 or 9100 of the Civil Code of the State of California, or the amounts due under the
Unemployment Insurance Code of the State of California, or any amounts required to be
deducted, withheld and paid over to the Employment Development Department from the wages
of employees of the PRINCIPAL and its subcontractors pursuant to Section 13020 of the
Unemployment Insurance Code, with respect to work or labor performed by any such claimant,
that the SURETY will pay for the same, in an amount not exceeding the sum specified in this
bond, and also, in case suit is brought upon the bond, shall pay reasonable attorneys' fees, to be
fixed by the Court.

This bond shall inure to the benefit of any and all persons, companies, and corporations
entitled to file a Stop Payment Notice pursuant to the provisions of Section 9350 et seq. of the
Civil Code of the State of California, so as to give a right of action to them or their assigns in any
suit brought upon this bond.

No prepayment or delay in payments, and no change, extension, addition or alteration of any provision of the AGREEMENT or in the specifications agreed to between the PRINCIPAL and the CITY, or any forbearance on the part of the CITY shall operate to relieve the SURETY. The SURETY hereby waives the provisions of Section 2819 of the California Civil Code. The SURETY waives all rights of subrogation against the CITY or any person employed by the CITY. If the contract price increases by the issuance of change orders, the amount specified in this bond shall increase by the same amount.

As part of the obligation secured hereby and in addition to the face amount specified therefore, there shall be included costs and reasonable expenses and fees, including reasonable attorneys' fees, incurred by CITY in successfully enforcing such obligation, all to be taxed as costs and included in any judgment rendered.

IN WITNESS WHEREOF, this instrument has been duly executed by the PRINCIPAL and SURETY above-named, on the _____ day of _____, 20__.

MAINTENANCE BOND GUARANTEE AND WARRANTY SECURITY

(Project: _____)

WHEREAS, the City of Roseville ("CITY") and _____

_____ ("PRINCIPAL") have entered into a _____
(AGREEMENT") by which PRINCIPAL agrees to install and complete certain
designated public improvements and to guarantee and warrant the work for a period of one
year following its completion and acceptance, which agreement, dated _____,
20____, and identified as _____

(Name of Project)

is hereby referred to and made a part hereof; and

WHEREAS, said PRINCIPAL is required under the terms of said AGREEMENT to
furnish a bond to guarantee and warrant the work for a period of one year following its
completion and acceptance against any defective work or labor done, or defective materials
furnished, to comply with the terms of said AGREEMENT; and

NOW, THEREFORE, we, the PRINCIPAL and _____
a _____, admitted and duly authorized to transact business
under the laws of the State of California, as Surety ("SURETY"), are held and firmly bound unto
the CITY in the penal sum of _____ dollars
(\$ _____), lawful money of the United States, for the payment of
which sum well and truly to be made, we bind ourselves, our heirs, successors, executors and
administrators, jointly and severally, firmly by these presents.

The condition of this obligation is such that if the PRINCIPAL, his or its heirs, executors,
administrators, successors or assigns, shall abide by, and in all respects perform the covenants,
conditions and provisions in said AGREEMENT and any alteration thereof made as therein
provided, on his or its part to be kept and performed at the time and in the manner therein
specified, and in all respects according to their true intent and meaning, and shall indemnify and
save harmless CITY, its officers, agents and employees, as therein stipulated, then this
obligation shall be null and void; otherwise, this obligation shall be and remain in full force and
effect.

As part of the obligation secured hereby and in addition to the face amount specified
therefore, there shall be included costs and reasonable expenses and fees, including
reasonable attorneys' fees, incurred by CITY in successfully enforcing such obligation, all to be
taxed as costs and included in any judgment rendered.

The SURETY hereby stipulates and agrees that no change, extension of time, alteration or addition to the terms of the AGREEMENT or to the work to be performed thereunder or the specifications accompanying the same shall in any way affect SURETY'S obligations under this bond, and it does hereby waive notice of any such change, extension of time, alteration or addition to the terms of the agreement or to the work or to the specifications. The SURETY waives all rights of subrogation against the CITY or any person employed by the CITY. The SURETY hereby waives the provisions of Section 2819 of the Civil Code.

****IMPORTANT – RFP DELIVERY****

The City is not responsible for misdelivered proposals, and the proposer is strictly liable for its chosen method of delivery. It is the proposer's sole responsibility to make sure that proposals arrive at the proper location. Any proposal which does not actually arrive in the City Clerk's Office by the RFP due date and time will be rejected as non-responsive, even if properly addressed or delivered to another City Department.

Your proposal **MUST** be addressed and delivered as follows:

**City of Roseville
Attn: City Clerk Department
311 Vernon Street
Roseville, CA 95678**

The proposer is also directed to include the attached "Sealed Proposal" label on the outside of the package or envelope, so that it is visible when delivered to the City.

Or emailed to:
cityclerkroseville@roseville.ca.us

Note: Attachments to email submissions are limited to 25 megabytes.

CITY OF ROSEVILLE

****PREVAILING WAGE NOTIFICATION****

This is a prevailing wage project. Accordingly, all prevailing wage and fair employment laws and regulations shall be adhered to. For prevailing wage contracts over \$25,000.00, copies of certified payroll must be submitted with invoices. Prevailing wage rates may be obtained from the Department of Industrial Relations and/or the following website address:

<http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm>

CITY OF ROSEVILLE

****DEPARTMENT OF INDUSTRIAL RELATIONS** **CONTRACTOR REGISTRATION****

No contractor or subcontractor may be listed on a Proposal for or work on a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5. The Contractor shall provide proof of current registration with the Department of Industrial Relations for both itself and all listed subcontractors with their Proposal. The Contractor is hereby notified that this Project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.

CITY OF ROSEVILLE ENVIRONMENTAL UTILITIES

RFP FOR UTILITY EXPLORATION CENTER EXHIBIT FABRICATION AND INSTALLATION

1.0 INTRODUCTION

The City of Roseville (hereinafter “City”), is soliciting proposals for the Utility Exploration Center Exhibit Fabrication and Installation Project (hereinafter “UEC”). This will be a competitive negotiation process. Qualified individuals, firms, contractors, consultants or entities (hereinafter “Consultant(s)”), that meet the requirements set forth in this Request for Proposals (hereinafter “RFP”), and are capable of providing the services requested are encouraged to participate.

1.1 BACKGROUND

The UEC is an environmental learning center operated by the City of Roseville’s municipal utilities. This solicitation is for services to fabricate and install exhibits associated with the UEC, as the exhibits have not had a major overhaul since the Center opened in 2008.

The City supplies electric, water, wastewater, solid waste, recycled water, and stormwater services to Roseville residents. Provided under the umbrella of two City departments; Roseville Electric Utility and Environmental Utilities – these services have played an important role in the positive growth of the City. In January 2008, the City took their commitment to enhancing the quality of life for Roseville residents and businesses a step further by opening and jointly operating the Roseville Utility Exploration Center, a regional learning center committed to teaching sustainability in the home, school and community.

Since 2008, the UEC has served over 600,000 program participants through facilitated school tours, visitor center permanent and changing exhibits, special events, green living workshops, and outreach programs. The UEC’s mission is “to inspire stewardship of resources in everyday life by sharing the interconnectedness between utilities, customers, community and planet.” The Center’s vision is that “Roseville residents are amazed and inspired by what their utilities do every day. They see themselves as full partners in the safe and effective operation of the systems and services that support their health and quality of life.”

The UEC has a primary focus on Roseville, but also provides information to a regional constituency. Its target audiences for the exhibits are multi-generational families, school children, and rate payers seeking to understand utility services and programs.

1.2 CITY OVERVIEW

The City of Roseville is an incorporated city with a population of more than 145,000 residents, located in Placer County off of Interstate 80, approximately 16 miles northeast of Sacramento, California. The City of Roseville is a Charter city operating under the City Council/City Manager form of government.

1.3 PROJECT LOCATION

The UEC is located with the Martha Riley Library at 1501 Pleasant Grove Blvd, Roseville, CA 95747.

1.4 SCOPE OVERVIEW

The work includes, but is not limited to Production of Construction Documents, Permitting, and Construction of a new set of exhibits for the UEC. The services at the UEC will update approximately 3,200 sq.ft. of space, in addition to a media wall.

The Notice to Proceed is projected to be issued by February 22, 2023.

1.5 TENTATIVE SCHEDULE

The following represents the tentative schedule for this RFP. Any change in the scheduled dates for the Pre-Proposal, Deadline for Final Questions, or Proposal Submission Deadline will be advertised in the form of an addendum to this RFP. The schedule for the evaluation process and other future dates may be adjusted without notice.

Table 1: Tentative Schedule

Event	Date
RFP Released by the City	10/12/22
Pre-Proposal Conference (Attend Online) 10AM	10/25/22
Deadline for Final Questions	11/4/22
Proposal Submission Deadline 3PM	11/14/22 11/21/22
Anticipated Contractor Interviews as needed	12/5/22 – 12/9/22
Anticipated Contract Negotiations	12/12/22 – 12/16/22
Anticipated Contract Approval by City Council	2/15/2023
Anticipated Notice to Proceed	2/22/2023
Anticipated Final Completion	12/31/23

1.6 PROPOSAL SUBMITTAL

RFP proposal submittals may be delivered to the Office of the City Clerk, Civic Center, 311 Vernon St., Roseville, CA 95678 via common carrier, hand delivered, **or** submitted via electronic mail to cityclerkroseville@roseville.ca.us by the specified proposal due date and time. Complete and attach the “Sealed Proposal” label to the outside of the proposal packaging if delivering or hand carrying a hard copy of the proposal, so it is visible to the City Clerk.

If submitting a proposal via electronic mail, then include the RFP title and RFP number in the subject line of the email. NOTE: The maximum file size for attachments is 25 megabytes.

1.7 INSTRUCTIONS

This RFP includes a description of the scope of services, proposal requirements, and instructions for submitting your proposal. Failure to follow these instructions may result in rejection of your proposal.

No oral representations or interpretations will be made to any proposer as to the meaning of this RFP.

Direct all inquiries regarding this RFP via [PublicPurchase.com](https://www.roseville.ca.us/business/procurement_services/bids_rfps) by no later than November 4th, 2022 at 5pm.

A link to the RFP on Public Purchase can be found on the City's website at:

https://www.roseville.ca.us/business/procurement_services/bids_rfps

Do not contact other individuals or City departments in this regard. Information provided by anyone other than the above contact may be invalid and proposals which are submitted in accordance with such information may be declared non-responsive.

In the event that it becomes necessary to revise any part of this RFP, written addenda will be issued. Any amendment to this RFP is valid only if it is in writing and issued by the City department issuing the RFP. No oral interpretations or answers shall bind the City unless confirmed by the City in writing.

All addenda for this RFP will be distributed through [PublicPurchase.com](https://www.roseville.ca.us/business/procurement_services/bids_rfps) to proposers who have registered with PublicPurchase.com and who have downloaded the RFP. Additionally, the Notice of Intent to Award will be posted on PublicPurchase.com. **It is the proposer's sole responsibility to monitor PublicPurchase.com for possible addenda to this RFP and for the Notice of Intent to Award.** Failure of proposer to retrieve addenda or the Notice of Intent to Award from PublicPurchase.com shall not relieve him/her of the requirements contained therein or the timelines associated therewith. Additionally, failure of proposer to return a signed addendum, when required, may be cause for rejection of his/her proposal.

1.8 CALIFORNIA SECRETARY OF STATE REGISTRATION

The City requires all corporations, limited liability companies and limited partnerships to be registered to do business in the State of California. On a separate sheet of paper, please include a screenshot of your "ACTIVE" status with your proposal submittal (in Tab G), which can be obtained by accessing this link: <https://bizfileonline.sos.ca.gov/search/business>. All proposers must be registered with the Secretary of State or have a valid exemption by the time of award.

2.0 AVAILABLE INFORMATION

2.1 CONTRACT DOCUMENTS

The Contract Documents consist of:

- VOLUME 1 – Request for Proposals (this document) and all of the required forms and attachments.
- VOLUME 2 – Sample Agreement (Contract)
- VOLUME 3 – Content Manual
- VOLUME 4 – Design Book
- VOLUME 5 – Graphics Package

- VOLUME 6 – Component Lists
- VOLUME 7 - Cutsheets

Any Proposer planning to submit a Proposal, is responsible for examining with appropriate care, the complete Contract Documents and all Addenda, and is also responsible for informing themselves with respect to all conditions, which might in any way affect the cost or the performance of the Work. Failure to do so will be at the sole risk of the Proposer, and no relief shall be given for errors or omissions by the Proposer. The submission of a Proposal shall constitute an acknowledgment upon which City shall rely on as a confirmation that the Proposer has thoroughly examined and is familiar with the Contract Documents and that the Proposer has waived any objections or contentions regarding the Contract Documents and/or the Proposal submission requirements. The failure or neglect of a Proposer to receive or examine any of the Contract Documents shall in no way relieve it from any obligation with respect to its Proposal or to the Agreement. No claim for additional compensation will be allowed which is based upon a lack of knowledge of any Contract Documents.

2.2 SUPPLEMENTAL INFORMATION

Supplemental information that is available includes:

- Mahany Library and Utility Education Center As-Built – January 16, 2006

3.0 OPTIONAL PRE-PROPOSAL CONFERENCE

An optional pre-proposal conference has been scheduled for Tuesday, **October 25th, 2022 at 10am** via a Microsoft Teams video call. Below are instructions for connecting to this conference either through your computer or telephone.

- **Computer link:** Copy the below link into your internet browser.

[Click here to join the meeting](https://teams.microsoft.com/l/meetup-join/19%3ameeting_OGE0YjM3ZjQtZDE5S000TkYLTThiMGMtNzllMGUyOTY5YzFm%40thread.v2/0?context=%7b%22Tid%22%3a%22446c7c35-e59d-4e53-84df-3832018aec5a%22%2c%22Oid%22%3a%22c685cc1d-1464-49ab-8428-d44cc4d4666f%22%7d)

https://teams.microsoft.com/l/meetup-join/19%3ameeting_OGE0YjM3ZjQtZDE5S000TkYLTThiMGMtNzllMGUyOTY5YzFm%40thread.v2/0?context=%7b%22Tid%22%3a%22446c7c35-e59d-4e53-84df-3832018aec5a%22%2c%22Oid%22%3a%22c685cc1d-1464-49ab-8428-d44cc4d4666f%22%7d

The Microsoft Teams app does not need to be installed on the connecting computer as you will be presented an option to join using a web browser or the application.

- **Telephone: 1 213-282-6642**
- **Conference ID: 751 625 637#**

The City will be sharing a PowerPoint Presentation on the screen share of Microsoft Teams, therefore it is recommended that Potential Proposers connect via a computer if possible.

During the conference, potential proposers will have an opportunity to ask questions regarding the scope of the project or requirements of this RFP. To make the meeting more effective for all participants, attendees are strongly encouraged to review the RFP and associated documents prior to the meeting.

Substantial clarifications or changes required as a result of the meeting will be issued as an addendum to the RFP. A list of attendees will be distributed upon request.

4.0 SCOPE OF SERVICES

4.1 PROJECT OBJECTIVES

One of the City's strategic goals is to Support Community Engagement and Advocacy. This project supports that goal by updating the UEC to better educate and inform city residents about the City of Roseville Utilities and how they can individually make their community a better place. Additionally, the City has some specific objectives for the successful execution of the Utility Exploration Center Exhibit Fabrication and Installation Project.

1. Minimize impacts to library staff and visitors. Provide clear communications with project schedules and requirements. Provide information and answer library staff questions.
2. Minimize shutdown time of UEC by completing majority of fabrication offsite.
3. Streamline construction process by creating a teaming relationship with the Contractor through a Design-Assist contracting arrangement.

4.2 DESIGN-ASSIST

Design-assist is a project delivery method in which the construction team is engaged by the City to collaborate with the City hired Designer during the previously concluded design phase. It is intended to reduce the cost and time for construction, improve constructability and add value. This teaming arrangement is being implemented to fully capitalize on the strengths of all parties, detect and resolve constructability issues, identify and consider more efficient construction methods, and reduce change orders.

The Contractor is a Design-Assist Team member with responsibility to complete the following design assist activities, including development of Construction Plan Set, demolition and removal of existing exhibits (add-alternative), and fabrication, shipping, and installation of new exhibits.

Note that the Contractor's Engineer is the entity professionally responsible for the design and code compliance of the Project. City acknowledges that the Designer is not an architect or engineer. The Designer's review of or input for any design documents, or Designer's recommendation for any design concepts, is made solely in Designer's capacity as a designer and not as a licensed design professional. Designer is not responsible for any errors in the Engineer's design or failure of the design to comply with applicable laws, codes, rules and regulations, or lawful orders of public authorities.

4.3 TASK BREAKDOWN

Note that the scope of work is written to include Add-Alternatives (Add-Alt), which are items of work that may be awarded as part of the contract depending upon budget. Refer to Attachment 4 Guaranteed Maximum Price, Cost of Work and Fee for further information on which items are considered Add-Alts.

Task 1 – Pre-Construction:

Pre-Construction shall include, at a minimum:

- Conduct a constructability review of the Final Design Submittal Drawings and Specifications.
- Identify cost savings, added value alternative design, and construction solutions.
- Participate in a cooperative partnership relationship with City and Designer to develop a comprehensive construction plan that minimizes project risk and meets City's project objectives
- Develop the Project execution and management plan, including Project schedule.
- Based on the minimum requirements for the exhibit described in the plans and specifications provided with this RFP, develop the Construction Plan Set (including preparing and submitting intermediate design review packages as defined herein) and value-engineering activities in conjunction with City. It is anticipated that the Contractor is responsible for any design requiring a licensed engineer including but not limited to electrical and structural design.
 - Design shall be developed in a minimum of four submittals as follows:
 - Prototyping - Sample Production, Graphic Proofs, etc.
 - Plan-Check Ready Construction Documents
 - Draft Construction Documents
 - Final Construction Documents
 - A review meeting shall be held with the City for the Plan-Check Ready, Draft, and Final Construction Document submittals. After each submittal, City shall be given 2 weeks to provide review comments for adjudication by Contractor. Subsequent submittals shall include comments received and adjudication status for each comment in a separate review document.
- Apply for and obtain necessary permits as needed to complete the Project. City will pay for the fees associated with the permits required by City of Roseville directly to the permitting agencies.
- Resolve site logistics.

Deliverable shall include, at a minimum:

- Design shall be developed through the following submittals:
 - Prototyping (Sample Production, Graphic Proofs, etc.) – Prototyping may be distributed across the Draft and Final Construction Document Submittals described below.
 - Plan-Check Ready Construction Documents – Floor plans and all elements that require submittal for review by the Building Department and any other required permitting agency. Contractor shall produce as many resubmittals to the Building Department or any other required permitting agency as needed.
 - Draft Construction Documents – Partially complete plans and specifications which depict all project components with the intent to get City input on the design before proceeding with final detailing

- o Final Construction Documents – All comments from the Draft Construction Documents submittal and Building Department review addressed, and documents updated for use in construction.

Task 2 - Construction:

Construction shall include, at a minimum:

- Coordinate with Design-Assist Team and work collaboratively to resolve unforeseen site conditions/complications
- Provide continued value engineering and schedule efficiency input to the Design-Assist Team
- Contractor shall meet with the City’s Representative either in person, via video/online, or conference calls no less than once a week to review the work progress
- All tools and equipment, materials, secure storage, and subcontractors required for the installation
- Secure necessary construction permits and perform permit compliance activities
- Construct the Project in accordance with the Final Construction Documents
- Provide quality control and quality assurance during the construction of the Project
- Conduct startup, commissioning, and performance verification testing for all systems prior to shipment. Provide progress photos and/or video documentation and opportunities for site review by Owner/Designer
- Provide legible, usable project record drawings and specifications conforming to actual facilities constructed
- All Casework per shop drawings
- All exhibit surfaces shall be durable, washable including of pencil and pen markings
- Any separate interpretive panels shall be fabricated to meet or exceed the performance specifications as noted in the drawings and in the Component lists
- All exhibit elements and peripheral items
- Provide access to City of Roseville staff for inspection during fabrication and prior to crating and shipping

Deliverable shall include at a minimum:

- All casework, artwork, connector/fasteners, and all other exhibit elements and peripheral items
- Securely crate and ship work to UEC site for installation. Contractor shall be responsible for replacing all items damaged during shipping
- Contractor shall organize submittal data using the uniform numbering system as used in the design drawings
- Provide a reference and examples explaining numbering system with each submittal

(Add-Alt) Task 3 – Demolition and Space Prep:

Demolition shall include, at a minimum, the following:

- Coordinate with Owner any items to be recouped for future use
- Wherever possible, reuse or recycle elements that are to be removed from the current exhibits
- Removal and proper disposal of all necessary items per Bid Documents, including but not limited to:
 - Removal of select temporary wall systems covering windows
 - Demolish existing trash pile and assess for recyclability
 - Modify existing Customer Service Counter
 - Relocate existing fire extinguisher cabinet
 - Painting
 - Patch and repair walls as necessary

Task 4 – Installation, Inspection, and Final Acceptance:

Installation shall include, at a minimum, the following:

- Ensure exhibits are safely delivered to site free of damage
- Stage all necessary tools and equipment in designated area identified in the site reconnaissance map in preparation for the installation
- Verify facility preparation required in advance of installation is complete
- Prior to installation, cover the floor a durable material (plywood, etc.) such that the floor is protected from heavy equipment and other sources of damage
- House Frame
 - Remove existing graphic panels and assess for potential reuse
 - Detach indicated section of house frame from UEC floor such that it can be relocated to and installed at 116 S. Grant St., and remaining sections can be rotated and re-anchored within UEC. See Bid Documents for detailed plans
 - Transport and install indicated section of house frame at 116 S. Grant St. per Bid Documents
- Install all work per the approved Final Construction Documents
- Install all units with no visible scratching or warping
- Wall hanging assemblies shall be connected to wall studs and/or structural members
- Inspect to ensure all items have been properly installed and are ready for use as designed
- Coordinate all required inspections, and confirm inspections have been completed
- Prepare punchlist of items to be adjusted, repaired, or replaced and submit to City's Representative two days prior to final inspection. Contractor shall be responsible for cost

to repair any damage to the site caused by installation. Repairs must be complete prior to project closeout

Deliverables shall include, at a minimum, the following:

- Maintenance and Operation Manuals per project Specifications
- Provide necessary training to UEC staff on maintenance and repair procedures at a mutually agreed upon time
- “As-installed” drawings
- Punchlist - City Representative and Contractor to review Punchlist on-site

Inspection and Final Acceptance shall include at a minimum:

- Request Final Inspection with City Representative
- Upon issuance of ‘Certificate of Substantial Completion’, Contractor shall submit Final Invoice and any other item required or listed on Punchlist

5.0 ASSURANCE OF DESIGNATED PROJECT TEAM

Proposer shall assure that the designated project team, including sub-consultants or sub-contractors (if any), is used for this project. Departure or reassignment of, or substitution for, any member of the designated project team, sub-consultant(s) or sub-contractor(s) shall not be made without the prior written approval of the City.

6.0 PROPOSAL FORMAT REQUIREMENTS

Each response to this RFP shall include the information described in this section. Provide the information in the specified order. Failure to include all of the information specified may be cause for rejection. Additional information may be provided, but should be succinct and relevant to the goals of this RFP. **Any additional information that a proposing Consultant wishes to include that is not specifically requested should be included in an appendix to the proposal.**

There are two parts to the Proposal. Part 1 is the Proposer’s Technical Proposal and Required Proposal Form Attachments. Part 2 is the Cost Proposal. Part 2 should be submitted in a separate sealed envelope from Part 1. Both sealed envelopes shall be submitted simultaneously before the Proposal submission deadline. If submitting proposals electronically, include two separate attachments identified as Part 1 and Part 2. Note: City Clerk cannot receive emails with file attachments larger than 25 megabytes.

Consultants are encouraged to keep the proposals brief and to the point, but sufficiently detailed to allow evaluation of the project approach. Unauthorized conditions, omissions, limitations or provisions attached to a proposal may render the proposal non-responsive and may cause its rejection.

Proposers are warned against making erasures or alterations of any kind, without initialing each and every such change. Proposals that contain erasures or irregularities of any kind, without such initialing, or omissions, may be rejected.

If provided via regular mail, the proposal should be bound or contained in a loose leaf binder. Document pages shall be 8-1/2 inches by 11 inches in size or folded to such a size. Use section dividers, tabbed in accordance with this section as specified below.

6.1 PART 1 – TECHNICAL PROPOSAL

Cover Letter

Include the following information:

- Title of this RFP
- Name and Mailing Address of Firm (include physical location if mailing address is a PO Box)
- Contact Person, Telephone Number, Fax Number, and Email Address
- A statement that the submitting Consultant will perform the services and adhere to the requirements described in this RFP, including any addenda (reference the addenda by date and/or number).

Signature Requirements

The attached Proposer's Certification (**Attachment 1**) shall be executed by an official(s) legally authorized to bind the Consultant which states that the proposal is valid for ninety (90) days. Include the executed copy of the Proposer's Certification under Tab G. Note: This is ninety (90) days following the closing date for the receipt of all proposals.

- Proposals submitted on behalf of a Partnership shall be signed in the firm name by a partner or the Attorney-in-Fact. If signed by the Attorney-in-Fact, there shall be attached to the proposal a Power-of-Attorney evidencing authority to sign proposals, dated the same date as the proposal and executed by all partners of the firm.
- Proposals which are submitted on behalf of a Corporation shall have the correct corporate name thereon and the actual signature of the authorized officer of the corporation written (not typed) below the corporate name. The title of the office held by the person signing for the corporation shall appear below the signature of the officer.
- Proposals which are submitted on behalf of a Limited Liability Company ("LLC") shall be signed by the person or persons authorized to bind the LLC under the LLC's articles of organization.
- Proposals which are submitted by an Individual Doing Business under a firm name ("dba") shall be signed in the name of the individual doing business under the proper firm name and style.

TAB A: General Information (4 pages, or 2 double-sided sheets, max)

1. Describe company's qualifications, unique capabilities and/or strengths in providing the services and/or products similar to this RFP.

- a. Document any awards or accolades Proposer has received for exhibitory. Include name of project, the award or accolade, year received, and awarding organization.
2. Provide the following statistical information:
 - a. Calendar year Firm was founded / years of existence
 - b. Total staff size and breakdown by skill set
 - c. Total square footage of company's facility

TAB B: Firm's Qualifications (8 pages, or 4 double-sided sheets, max)

1. Provide an Organization Chart identifying personnel assigned to this project (name & title/role), and subcontractor(s) (company name & service/task).
2. Provide a brief summary of the role, qualifications and experience of each team member listed on the Organization Chart, and others essential to the successful completion of this project (e.g. lead person, project coordinator/manager, fabrication manager, lead interactive fabricator, etc) including length of service with the firm. All listed and other essential personnel shall have a minimum of five (5) years' experience in their assigned discipline. Full resumes may be included in an appendix if desired.
3. Provide statement of qualifications of sub-contractors.
 - a. Key Sub-Contractor staff and years of experience performing specific task
 - b. Years Contractor and/or company has been in business
 - c. Provide specific materials and/or task sub-contractor will provide/perform on the project
 - d. Provide a written description of the work performed, making clear in what ways it is similar in scope to this Project. In support of this descriptive narrative, provide high quality photographic images to illustrate the work on 8 ½" x 11" pages. Each image should be a minimum of 4" x 4" or the subject matter is clearly discernable. Provide before and after images (if applicable) demonstrating sub-contractor's skills in performing specific task.

TAB C: Experience and References (12 pages, or 6 double-sided sheets, max)

Provide three (3) successfully completed projects demonstrating proposer's qualifications, unique capabilities of delivering a project of similar size and scope as described in this RFP. Examples shall be of similar scale, size, budget, and completed within the past ten (10) years.

Include the following information for each reference project:

1. Project Name
2. Name of the agency, entity, or company for which the project was produced. Include the full name, title, address, phone and email address of the client reference for this Project. Proposer is responsible for ensuring that contact telephone numbers are current and accurate; incorrect or non-operable telephone numbers shall not be considered as meeting this minimum requirement.
3. Provide a written description comparing the work performed in the reference project to the scope of work for this project. Highlight features that are similar to this Project. The descriptive narrative

shall include at least four (4) high quality photographic images to illustrate the similar work on 8 ½” x 11” pages. Each image should be a minimum of 4” x 4” and the subject matter clearly discernible.

4. Summarize the Principal, Key Personnel, and/or Subcontractor(s)’ direct involvement as it relates to items listed below. Example project should list personnel who worked on project and their responsibility. Clearly identify which of these people are assigned to this project as well.
 - a. Project Management
 - b. Fabricator
 - c. Sub-contractors
5. Provide original schedule with target completion dates and actual completion dates.
6. Provide original budget and final cost. If final costs varied from the original budget, explain what changes were made, the reason for such changes, and how the cost for the changes was addressed.

TAB D: Audio, Audiovisual and/or Multimedia Program (4 pages, or 2 double-sided sheets, max)

Provide with Proposal website links which demonstrates your firm or subcontractor’s ability to produce high quality audio-visual and/or other multimedia programs. The sample should be accompanied by a statement of the proposer and/or subcontractor’s direct involvement in producing the audio-visual and/or other multimedia programs, including, however not limited to: video filming, editing, archival photography, storyboarding, script production, narration, and graphics.

TAB E: Project Understanding (4 pages, or 2 double-sided sheets, max)

Based on the available information, supplemental research, field observations, and experience with similar projects, provide a narrative describing your understanding of the services requested in this RFP, your general approach, and any major challenges to achieving the City’s stated goals.

Include any issues that you believe will require special consideration for this project. Also identify any unique approaches or strengths that your firm may have related to this project.

TAB F: Contractor’s Project Approach and Plan (6 pages, or 3 double-sided sheets, max)

1. Work Plan

Proposer shall develop a Work Plan and/or Work Schedule for task completion. Identify each major task, necessary subtask, and/or specific milestones by which progress can be measured and payments made. Note: Schedule may be presented on an 11x17 sheet.

- a. Activities: Discuss each of the activities (including meetings and outreach) you will conduct to achieve the scope, schedule and objectives defined and identified.
- b. Project Personnel: List all major personnel who will be working on the project and their titles and job descriptions.
- c. Facilities and Resources: Explain where the services will be provided.
- d. Travel and Communication Plan: Delineate plan for establishing contacts and travel and regularly scheduled meetings.

- e. Scope and Schedule: Provide a proposed Work Plan based on City of Roseville’s anticipated performance period (see below). Proposer shall develop a work plan for each Key Task, necessary subtask, and specific milestones by which progress can be measured.
- f. Commitment: Describe how your firm and key personnel will be committed to this project to ensure successful completion within the project timeframe. Points will be awarded based upon the level of commitment made, and reasonableness of proposed performance you outline.

Suggested Maximum Calendar Days by Key Task

Key Tasks	Number of Calendar Days
Finalization of Construction Documents & Permitting	100
Fabrication	147
Demolition	7
Site Prep	14
Installation	17
Close-out	5
Soft Opening	14

TAB G: Required Statements/Documents

Include statements of assurance regarding the following requirements in the proposal:

- Non-substitution for the designated members of the team without approval by City staff **(Section 5.0)**
- The absence of a conflict of interest **(Section 10.4)**
- Indicate your ability and agreement to fulfill the indemnification and insurance requirements contained in the sample contract **(Section 10.7)**. (Please note that actual certificates of insurance are not required as part of your submittal.)
- A statement that nothing contained in the submitted proposal will be proprietary. **(Section 10.23)**
- Proposer’s Certification **(Attachment 1)**

Submit the following documents with proposal:

- Proof of registration with California Secretary of State
- Executed copy of Proposer’s Certification (Attachment 1)
- Executed copy of Non-collusion Declaration (Attachment 8)

TAB H: Exceptions

Describe any and all proposed exceptions, alterations or amendments to the Scope of Services or other requirements of this RFP, including the Sample Contract **(Attachment 11)**. The nature and scope of your proposed exceptions may negatively affect the evaluation of your submittal and the City’s determination of whether it is possible to successfully negotiate a contract with your firm.

TAB I: Competency of Proposers

The City wants to ensure that the successful Consultants has the necessary facilities, ability, experience, and financial resources to provide the services specified herein in a satisfactory and timely manner. Please list and explain any pending bankruptcies, liens, stop payment notices, judgments, lawsuits, arbitrations, mediations, foreclosures, and any similar actions filed or

resolved in the past seven (7) years. Please indicate whether a client has ever terminated a contract with your firm for breach, and if so, please explain.

6.2 PART 2 – COST PROPOSAL

TAB J: Cost Proposal

Proposer shall submit all forms and information required as described in Section 6.9 in a separate sealed envelope, container, or e-mail, labeled as “Part 2”. See Section 7 for additional instruction for delivery and labeling.

If submitting digitally, include a statement that the cost proposal has been submitted in a separate PDF document within the email. Do not include any cost information within this tab in the Technical Proposal pdf document.

GUARANTEED MAXIMUM PRICE, COST OF WORK, AND FEE

Contractor must include in their GMP, any work which is not shown on the Design Drawings or outlined in the Technical Specifications but which is necessary or normally required as a part of the Work outlined in the Contract Documents, to provide a complete and fully operable installation. Contractor shall not be able to make any claim to the City for a Change Order, if Contractor does not include the cost of any such work.

Complete **Attachment 4** to provide a total cost proposal for all products and services to be delivered; GMP, breakdown of GMP, schedules of hourly rates, allowance items. Define any reimbursable expenses requested to be paid by the City.

OPTIONAL CONFIDENTIAL ENVELOPE

If a Proposer desires to claim a **privilege against public disclosure** as described in Section 10.23, for a trade secret or other proprietary information, such information must be submitted with the Part 2 Envelope (or container). Seal this statement in a separate envelope, clearly marked “CONFIDENTIAL ENVELOPE”, or submit in a separate PDF document within the email.

7.0 SUBMITTAL INSTRUCTIONS

7.1 Hard Copy or Electronic Copy Submittal

Your submittal package shall include the following:

- **One (1) original and seven (7) printed copies** of your proposal; and
- **One (1) electronic copy** of your proposal in PDF format on CD, flash drive or other electronic media

OR

If submitting your proposal via electronic mail, then send one (1) copy of the proposal to cityclerkroseville@roseville.ca.us.

7.2 Additional Proposal Submittal Requirements

- Proposals shall be submitted not later than the time and date indicated on the cover page of this RFP. If mailing the proposal, then it shall be submitted in a sealed envelope or container and clearly marked with the RFP title on the outside of the parcel. **Complete and attach the “Sealed Proposal” label to the outside of the envelope or package containing your proposal.**
- Proposals shall be delivered to:

City of Roseville
Attn: City Clerk Department
311 Vernon Street
Roseville, CA 95678

Or electronically mailed to: cityclerkroseville@roseville.ca.us

- The City shall not be responsible for proposals delivered to a person or location other than that specified herein.
- Postmarks will not be accepted and proposals received after the deadline date and time will not be accepted or considered. **No exceptions.**
- The City reserves the right to waive minor defects and/or irregularities in proposals, and shall be the sole judge of the materiality of any such defect or irregularity.
- All costs associated with proposal preparation shall be borne by the proposer.

8.0 EVALUATION CRITERIA

The following evaluation criteria and rating schedule will be used to determine the most highly qualified firm(s).

Tab	Evaluation Category	Maximum Score
	Part 1 – Technical Proposal and Proposal Forms	
A	General Information	30
B	Firm’s Qualifications	50
C	Experience and References	70
D	Audio, Audiovisual, and/or Multimedia Program	50
E	Project Understanding	40
F	Project Plan and Schedule Requirements	60
G	Required Statements	Pass/Fail
H	Exceptions ¹	Pass/Fail

I	Competency of Proposer	Pass/Fail
	Part 1 Maximum Score	300
	Part 2 – Cost Proposal & Optional Interviews	
J	Guaranteed Maximum Price (See scoring details below)	100
	Part 2 Maximum Score	100
	Total Maximum Score Parts 1 and 2	400
	Part 3 (OPTIONAL) Interviews if needed	100
	Total Possible Maximum Score	500

1. A “Pass” rating on Tab H – Exceptions does not mean the City accepts the Proposer’s exceptions to the Contract Documents during the evaluation and scoring.. A “Pass” rating only means the City may be willing to consider the Proposer’s exceptions to the Contract Documents for further review and possible negotiation at any point in time during this procurement process. The City reserves the right to “Fail” a Proposer’s Proposal at any point during this procurement process depending on the quantity, type, severity, etc. of the Proposer’s exceptions to the Contract Documents.

Points Scoring Formulas for Part 2 (Envelope 2) of the Proposal.

The Part 2 scoring will order the Proposals received and score each using the following formulas:

- Total Proposed GMP Score
 - o Lowest GMP receives 80 Points
 - o GMP within 3% of Lowest GMP receives 80 Points
 - o GMP more than 3% and less than or equal to 6% of Lowest GMP receives 60 points
 - o GMP more than 6% and less than or equal to 10% of Lowest GMP receives 40 points
 - o GMP more than 10% and less than or equal to 13% of Lowest GMP receives 20 points
 - o GMP greater than 13% of Lowest GMP receives 0 Points
- Proposed Total Fee Mark-Up for General Overhead & Profit Score = 10 Points x Lowest Fee / Proposer’s Fee
- Proposed Shared Savings = 10 Points x Proposer’s % to Owner / Highest % to Owner

9.0 SELECTION PROCESS

- 9.1 Award of the contract shall be made to the responsible proposer whose proposal is determined, through a formal evaluation panel process, to be the most advantageous to the City after the evaluation panel has taken into consideration the evaluation factors set forth in the RFP. A master averaged score sheet shall be created based on the evaluation panel’s initial evaluation. Proposals shall be scored according to the criteria stated in the RFP.
- 9.2 Proposals submitted will be reviewed by a selection committee. Consultants that have submitted the best and most complete proposals may be invited to an interview. The number of Consultants invited to an interview may vary depending upon the number of proposals submitted.

- 9.3 Should the City elect to conduct interviews with any proposers, the following criteria shall be considered and each proposer ranked by the evaluation panel during the interview process: a) Quality of presentation, b) Ability to meet the City's business goals, c) Communication style.
- 9.4 The City reserves the right to make a selection after review of the proposals without oral interviews; therefore, the proposal should be submitted initially on the most favorable terms that the Consultant might propose.
- 9.5 A contract will be negotiated with the Consultant considered best meeting the City's need for this project. In the event a mutually satisfactory contract cannot be negotiated with the City's first choice, negotiations may be terminated and commenced with the Consultant considered next best in meeting the City's needs for this particular project.
- 9.6 The selected Consultant will be required to execute a City prepared contract. The contract may further refine the scope of services and will provide for the terms and conditions of employment.
- 9.7 The award of any contract is expressly contingent upon City Council approval and the availability of funds. City staff may not legally bind the City to a contract.
- 9.8 The City reserves the right to reject any or all proposals, or to waive minor irregularities in said proposals, or to negotiate minor deviations with the successful Consultant(s). In the case of differences between written words and figures in a proposal, the amount stated in written words shall govern. In the case of a difference in unit price versus the extended figure, the unit price shall govern.
- 9.9 The City reserves the right to seek clarification on any or all proposal submittals to ensure the RFP specifications are met. Proposals may be rejected from any proposer who does not comply with the City's request for clarification.
- 9.10 Once a decision has been made to award the contract, then a formal notice of the intent to award to the recommended proposer(s) shall be made by the Department.
- 9.11 A City of Roseville business license, Business Registration with the California Secretary of State, as well as all applicable permits, licenses and certifications required by local, state or federal law may be obtained after a proposal is submitted, and are required before the award of contract.

10.0 GENERAL TERMS & CONDITIONS

10.1 Standard Contract

Upon completion of the evaluation and recommendation for award, the selected Consultant will be required to execute an agreement prepared by the City, a sample of which is included as **Attachment 11**.

10.2 Independent Contractor

At all times the Consultant shall represent himself/herself to be an independent contractor offering such services to the general public and shall not represent himself/herself, or his/her employees, to be an employee of the City. Therefore, the Consultant shall assume all legal and financial responsibility for taxes, FICA, employee fringe benefits, workers' compensation, employee insurance, minimum wage requirements, overtime, etc., and agrees to indemnify, save, and hold the City, its officers, agents, and employees, harmless from and against, any and all loss, cost (including attorneys' fees), and damage of any kind related to such matters.

10.3 Non-Appropriation

The City may terminate any resulting contract at the end of any fiscal year, June 30th, without further liability other than payment for services satisfactorily rendered, in the City's sole opinion during such fiscal year, should funds not be appropriated by its governing body to continue services for which the contract was intended.

10.4 Conflict of Interest

The Consultant shall warrant that no official or employee of the City has an interest, has been employed or retained to solicit or aid in the procuring of the resulting contract, nor that any such person will be employed in the performance of such contract without immediate divulgence of such fact to the City. Consultants submitting a proposal in response to this RFP must disclose any actual, apparent, direct, indirect, or potential conflicts of interest that may exist with respect to the Consultant or the Consultant's management or employees relative to the services to be provided to the City. Conflict of interest issues may require consultation with legal counsel. If a Consultant has no conflicts of interest, a statement to that effect must be included in the proposal. Violation of this section shall be a material breach of the contract entitling the City to any and all remedies by law or in equity.

10.5 Undue Influence

The Consultant shall warrant via an executed Proposer's Certification (**Attachment 1**) that no undue influence or pressure is used against or in concert with any officer or employee of the City in connection with the award or terms of the contract that will be executed as a result of this RFP, including any method of coercion, confidential financial arrangement or financial inducement. No officer or employee of the City shall receive compensation, directly or indirectly, from the Consultant, or from any officer, employee or agent of the Consultant, in connection with the award of the contract or any work to be conducted as a result of this RFP. Violation of this section shall be a material breach of the contract entitling the City to any and all remedies by law or in equity.

10.6 Non-Collusion

Consultant submitting proposals shall warrant via an executed Proposer's Certification (**Attachment 1**) that their offer is made without any previous understanding, agreement or connection with any person, firm or corporation submitting a separate proposal for the same project and is in all respects fair, without outside control, collusion, fraud or otherwise illegal

action. This condition shall not apply to proposals which are submitted by firms who have partnered with others to submit a cooperative proposal that clearly identifies a primary consultant and the associated sub-consultants or sub-contractors. Proposers shall also submit a properly completed and executed “Non-collusion Declaration” which is attached as **Attachment 8**.

10.7 Indemnification & Insurance Requirements

The City’s standard indemnification and insurance requirements are provided in the sample contract, included in **Attachment 6**. All costs of complying with the insurance requirements shall be as included in your pricing. The selected Consultant shall provide complete and valid insurance certificates within ten (10) days of the City’s written request. Failure to provide the documents within the time stated may result in rejection of the Consultant’s proposal. If a proposer takes exception to the indemnification and insurance requirements, then the nature and scope of the proposed exceptions may negatively affect the evaluation of that proposer’s submittal and the City’s determination of whether it is possible to successfully negotiate a contract with that firm. Submitting exceptions are at the proposer’s own risk.

10.8 Cost of Preparing Proposal

The City will not pay any costs incurred by any Consultant in preparing or submitting a proposal in response to this RFP.

10.9 Proposals Property of the City

All documents or materials submitted with or in conjunction with any proposal, including but not limited to electronic files, shall become the property of the City after the proposal submission deadline. No submission documents will be returned. During negotiations, the scope of services may be amended by the City and negotiated based upon ideas provided by other proposers or any other source.

10.10 Proposals are Public Records

All proposals submitted are subject to the public disclosure requirements under the laws of the State of California, unless the City identifies and exercises a right or obligation to exempt any record from public disclosure. However, proposals will not be disclosed until negotiations are complete and a recommendation for selection and award is made.

10.11 Protests

(a) Protest Requirements

(1) Any proposer who is aggrieved in connection with the solicitation or award of a contract may file a protest with the City Clerk’s office. The protest must be received in writing by the City Clerk’s office within seven (7) calendar days after such aggrieved proposer 1) knows or should have known of the facts giving rise thereto or 2) the date of the notice of intent to award, whichever is sooner. In no event shall a protest be allowed after an award has been made by City Council. If the seventh calendar day falls on a weekend or City holiday, the protesting party may

submit the protest prior to close of business on the first business day following such weekend or holiday. Failure to submit a timely protest shall bar consideration of a protest.

(b) Grounds for Protest

(1) The alleged grounds for protest shall be limited to the following: (a) computation errors, (b) violations of local, state, or federal law, or (c) the City failed to follow the procedures specified in this Policy.

(2) The protest shall state all grounds claimed for the protest and include supporting documentation. Failure to clearly state the grounds for the protest and provide supporting documentation shall be deemed a waiver of all protest rights.

(c) Administrative Review

Upon receipt of the protest and after determining the protest was properly filed, the Department Director shall provide a copy of the protest to other proposers who might become aggrieved as a result of the protest and issue a written decision within fourteen (14) calendar days after receipt of the protest. The protest will be evaluated by the Department Director, the City Attorney's Office, and the Purchasing Manager. The protesting proposer shall promptly provide any information requested by City staff as part of such investigation. The decision shall either deny or uphold the protest and include reasons for the decision. The written decision shall be final.

(d) Stay of Action During a Protest

In the event a protest is filed under Section 10.11, the City shall not proceed further with the award of the contract until the protest is resolved, unless:

(1) The Director of Central Services makes a determination that the award of the contract without delay is necessary to protect a substantial interest of the City, or

(2) The City decides to reject all proposals and issue a new RFP.

10.12 Rejection of RFP

The City reserves the right to reject any or all proposals, to waive defects or irregularities in any proposal or in the RFP process, and to offer to negotiate or contract with any Consultant in response to any RFP. This RFP does not constitute any form of offer to contract.

10.13 Multiple Award

The City reserves the right to award the contract to multiple contractors when applicable.

10.14 Increasing/Decreasing Portions of RFP

The City reserves the right to increase or decrease the amount of any portions of the work represented in the RFP and/or to omit portions of said work, as may be deemed necessary by the City.

10.15 Rejection as Non-Responsive

Proposals may be rejected as non-responsive at the City's sole discretion if there are alterations of form, the proposal is conditional or the proposal is incomplete.

10.16 Modifying RFP

The City reserves the right to modify any portion of, or to postpone or cancel this RFP at any time, and/or reject any and all submissions without indicating any reason.

10.17 No Proposal Accepted

If no proposal is accepted, the City may elect to have the services performed in some other manner.

10.18 Rejecting Team Members, Firms or Sub-consultants

The City reserves the right to reject individual team members, firms, sub-consultants or sub-contractors and request substitution prior to contract award.

10.19 Local Business, Small Business, Minority and Women Owned Business

Although no preferences will be given, the City highly encourages submission of proposals by local businesses, by small business owners, and by minority and women-owned businesses.

10.20 Withdrawal of Proposals

Proposals may be withdrawn prior to the date and time specified for proposal submission with a formal written notice by an authorized representative of the proposer delivered to the City Clerk's Office. Proposals submitted will become property of the City after the proposal submission deadline.

Proposals may not be withdrawn for ninety (90) days after the due date unless the City enters into a contract with another Consultant prior to the expiration of that ninety (90) day period.

10.21 Prohibited Transmittals

No telephone or facsimile proposals will be accepted. If a photocopy is submitted, the proposal must be signed in ink.

10.22 Proposal Postponement and Amendment

The City reserves the right to revise or amend the RFP or specifications up to the time set for opening of the proposals. Such revisions and amendments, if any, shall be announced by amendments to this RFP through the City's web site. Copies of such amendments shall be furnished to all prospective proposers. Prospective proposers are defined as those proposers who have registered and are on the City's RFP list for this service. If revisions and amendments require changes in quantities, prices or scope of services, the date set for opening of the proposals may be postponed by such number of days as in the opinion of the City shall enable proposers to revise their proposals. Proposals which fail to acknowledge a substantive addendum to the RFP, as determined by the City Attorney's Office, on the City supplied addendum form will be rejected as non-responsive. Any revisions or amendments to the RFP will become incorporated into any contract awarded pursuant to the RFP.

10.23 Proprietary Information

Proposers submitting a proposal in response to this RFP must provide a statement that nothing contained in the submitted proposal will be proprietary. However, if a proposer desires to claim a privilege against public disclosure for a trade secret or other proprietary information, such information must be submitted with the proposal in a separate envelope marked "confidential." The City Attorney's Office will determine if the information is in fact proprietary, based on state and federal law. Note that under California law, a price proposal to a public agency is not a trade secret. The Consultant shall defend, indemnify and hold harmless the City regarding any claim by any third party for the public disclosure of the "confidential" portion of the proposal.

10.24 Right to Request Additional Information

During the evaluation process, the City reserves the right, where it may serve the best interests of the City, to request additional information and clarifications from proposers. Such information will be requested in writing to the specific proposer. This information will become a part of the original proposal submitted by the specific proposer and will be used by the City in evaluating the proposal and will not be shared with other proposers during the evaluation and negotiation process.

10.25 Modification of Proposals

Modification of a proposal already received will be considered only if the modification is received prior to the deadline date for receiving proposals. All modifications shall be made in writing, executed, and submitted in the same form and manner as the original proposal.

10.26 Examination of Contract Documents

Each proposer shall thoroughly examine and be familiar with the terms of this RFP, the sample contract attached as **Attachment 11**, legal and procedural documents, general conditions, specifications, and addenda (if any), which will constitute the contract documents. Submission of a proposal shall constitute acknowledgement, upon which the City may rely, that the proposer has thoroughly examined and is familiar with the contract documents. Failure or neglect of a proposer to receive or examine any of the contract documents shall in no way relieve the

proposer of any obligation with respect to their proposal or to the contract. No claim for additional compensation will be allowed which is based upon lack of knowledge of any contract document.

10.27 Non-Discrimination

The City maintains various policies related to contractual service providers. Among these is an anti-discrimination policy, which requires that the City's contractors not discriminate in hiring on the basis of gender, race, religion, sexual orientation, medical condition, and all other categories protected by law. Upon acceptance of a proposal, the City may request that the selected Consultant sign a statement affirming its compliance with this policy.

10.28 No Assignment or Modifications

This awarded contract is to be binding on the successors and assigns of the parties hereto. The services called for herein are deemed unique and except as provided herein Consultant shall not assign, transfer, subcontract, or otherwise substitute its interest in the agreement or any of its obligations herein without the written consent of the City. The Agreement may be modified only by a written amendment signed by the parties.

10.29 Bankruptcy

Upon filing for any bankruptcy or insolvency proceeding whether voluntary or involuntary, or upon the appointment of a receiver, trustee, or assignee for the benefit of creditors, the Consultant must notify the City immediately. Upon learning the actions herein identified, the City reserves the right, at its sole discretion, to cancel the contract.

10.30 Debarment

Consultant certifies that Consultant, its employees, directors, officers, agents, subcontractors, vendors, consultants, and volunteers are not presently debarred, excluded, suspended, declared ineligible, voluntarily excluded, or proposed for debarment, exclusion, suspension or ineligibility by any federal, state, or local department or agency.

Attachment 1 – PROPOSER’S CERTIFICATION

I hereby propose to furnish the goods or services specified in the Request for Proposals (“RFP”). I agree that my proposal will remain firm for a period of up to ninety (90) days in order to allow the City of Roseville (“City”) adequate time to evaluate the qualifications submitted.

I have carefully examined the Request for Proposals and any other documents accompanying or made a part of this RFP. The information contained in this proposal is true and correct to the best of my knowledge and is signed under penalty of perjury under the laws of the State of California. I further certify that I am duly authorized to submit this proposal on behalf of the firm as its authorized agent and that the firm is ready, willing and able to perform if awarded the contract.

I further certify that this proposal is made without prior understanding, agreement, connection, discussion, or conspiracy with any other person, firm or corporation submitting a proposal for the same product or service; that this proposal is fair and made without outside control, collusion, fraud or illegal action; that no officer, employee or agent of the City or any other proposer is financially interested in said proposal; that no undue influence or pressure was used against or in concert with any officer, employee or agent of the City in connection with the award or terms of the contract that will be executed as a result of this RFP; and that the undersigned executed this Proposer’s Certification with full knowledge and understanding of the matters therein contained and was duly authorized to do so.

Attachment 3 – SUBCONTRACTOR LIST

In accordance with the Public Contract Code, Part 1, Chapter 4, Subletting and Subcontracting, Contractors must list the name and business address of each subcontractor who will perform work or labor or render service to the prime contractor in or about the construction of the work or improvement, or who will specially fabricate and install a portion of the work or improvement according to detailed drawings contained in the plans and specifications, in an amount in excess of one-half of one percent (0.5%) of the prime contractor's total bid, or in the case of bids or offers for the construction of streets and highways, including bridges, in excess of one-half of one percent (0.5%) of the prime contractor's total bid or ten thousand dollars (\$10,000) whichever is greater. If subcontractors will not be used, proposer must write "NONE".

Attachment 4 – GUARANTEED MAXIMUM PRICE, COST OF WORK AND FEE

Utility Exploration Center Exhibit Fabrication and Installation

1.0 TOTAL PROPOSED GUARANTEED MAXIMUM PRICE (GMP)

The undersigned proposes and agrees to contract with the City to perform all of the Work for the Design-Build Construction of the **Utility Exploration Center Exhibit Fabrication and Installation** including subsidiary obligations as defined in the Contract, for a **Guaranteed Maximum Price (“GMP”)** of

_____ dollars (\$_____.00),
U.S. Currency.

Subject to the provisions of this Proposal and the Contract, the costs and expenses which the Contractor may include in the Cost of Work for purposes of determining that aspect of the Contractor’s compensation are as set forth below. The Contractor’s total compensation, including Fee and allowable mark-ups, shall not exceed the GMP.

The GMP may be adjusted by Change Order in accordance with the Agreement.

2.0 BREAKDOWN OF GUARANTEED MAXIMUM PRICE

Proposer provides the breakdown of the Contractor’s GMP by major items of work as shown in **Table 2.1** on the following page. The cost breakdown should sum to a total that equals the GMP given in this Attachment 4 Section 1.0 – Total Proposed Guaranteed Maximum Price. Contractor must include all costs required to complete the work within the scope area items listed.

Note that Add-Alternative (Add-Alt) line items are items of work that may be awarded as part of the contract, depending upon budget.

3.0 SCHEDULE OF VALUES

Contractor will be required to submit a complete schedule of values upon selection to facilitate contract negotiation within ten (10) days of notice.

- A. The Schedule of values must include a detailed breakdown of quantities and prices of work and materials required to perform and complete the contract, including Contractor Allowance Items.
- B. The Schedule of Values shall provide a cost breakdown for each element detailed in the approved Construction Schedule. The total of the price breakdown must agree with the GMP. The elements listed and price breakdown shall not be front end loaded or unbalanced, shall be subject to adjustment between the ENGINEER and the CONTRACTOR, and will be used as a basis for progress payments.
- C. Acceptance of the Schedule of values shall not relieve the CONTRACTOR of the responsibility of performing all the work needed to complete the project at the GMP.

Volume 2 – Agreement incorporates additional details and definitions that pertain to the Guaranteed Maximum Price, Fee, and Cost of Work.

4.0 COST OF THE WORK

The term "Cost of Work" means the sum of all costs necessarily incurred and paid by the Contractor for labor, materials, equipment, subcontractors, special services, bonds, liability, workers' compensation and errors and omissions insurance, direct job overhead expenses, taxes and other necessary expenses incurred in the performance of the work, that do not exceed the GMP.

4.1 Hourly Field Labor and Management and Administrative Labor

Craft	Classification	Hourly Rate	Overtime Daily /Saturday Rate (1.5 X)	Overtime Sunday /Holiday Rate (2 X)

Table 4.1B: On-Site Management and Administrative Labor Rates

Management and Administrative Position	Hourly Rate

4.2 Direct Job Overhead Expenses

The Contractor will be paid for the actual cost of job overhead expenses which may include such expenses as office trailers, storage vans, temporary fencing/security, toilets, dumpsters, waste removal, water, utility power, jobsite landline telephone costs, jobsite internet provider costs, reasonable room and board subsistence for employees who live farther than 40 miles from the Work Site or as required by California prevailing wage laws, copy machine, water cooler and any office furniture required for the Work needs, including mobilization and demobilization of same. There will be no warranty reserve.

5.0 PROPOSER'S VOLUNTARY COST ALLOWANCES

The Proposer is allowed to propose allowances for minor portions of the Work. Proposers are limited to a maximum of three (3) proposed allowances and the total amount for all proposed allowances cannot exceed Twenty Thousand Dollars (\$20,000.00).

Each proposed allowance description should be well-defined. There are no scoring points assigned to any proposed allowances, but they may be discussed during the final negotiations with the highest ranked Proposer. Proposers are not required to propose any voluntary allowance item. Allowances shall not be considered for compensation as proposed shared savings as defined in Section 6.0 of this Attachment 4.

The following Proposer's cost allowances and allowance amounts are included in the GMP:

Table 5.1: Proposer's Voluntary Cost Allowances

Item#	Allowance Description	Allowance Amount
1		\$
2		\$
3		\$
	Total of Allowances:	\$

6.0 PROPOSED SHARED SAVINGS

In the event the final Cost of Work, plus the Proposed Total Fee Mark-up for General Overhead and Profit, is less than the GMP, as adjusted by the Change Orders, the undersigned Proposer proposes a sharing of the savings as follows.

_____ % of the savings to the City

_____ % of the savings to the Contractor

Percent of Savings to the contractor must be a minimum of 20% plus the Total Fee Markup percentage for General Overhead and Profit as shown in the Section 1 of this Attachment 4.

“GMP” Savings shall mean the positive difference, if any, when the actual Total Cost of the Work and Fee is subtracted from the GMP; provided, however, that unused Allowance monies, if any, shall not be subject to shared savings.

Should there be savings shared, City will pay the Contractor its share of the savings at the same time as the final retention payment.

7.0 ITEMS NOT INCLUDED IN THE COST OF WORK:

- A. Salaries and other compensation of Contractor's personnel stationed at Contractor's principal office or offices other than the Site, except as specifically provided in this Attachment 4 Table 4.3 On-Site Management and Administrative Labor Rates.
- B. Expenses of Contractor's principal office and offices, other than the Site office.
- C. Contractor's General Overhead and Expenses, except as specifically provided for in the Contract Documents.

- D. The capital expenses of Contractor, including interest on capital employed for the Work and charges to Contractor for delinquent payments.
- E. Hours in excess of fifty (50) hours per week for each full-time assigned supervisory and administrative personnel even if a supervisory or administrative employee works more than fifty (50) hours in a week.
- F. Costs due to correction of Defective Work, disposal of materials or equipment wrongfully supplied, and making good any damage to property.
- G. Costs that would cause the GMP to be exceeded.
- H. Any costs incurred after Owner's Final Acceptance of the Project.

8.0 CONTRACTOR'S FEE MARKUPS

- A. The undersigned Proposer proposes the following mark-up fees for general overhead and profit in the performance of all of the Design-Assist Construction work for the Utility Exploration Center Exhibit Fabrication and Installation Project, as shown in table 4-5.

Table 8.1: Contractor's Fee Mark-up Schedule

Attachment 4 Section	Cost Category	Fee Mark-Ups For General Overhead And Profit
4.1A	Hourly Field Labor	%
4.1B	Management and Administrative Labor	Included in hourly rates
	Materials	%
	Subcontractors	%
4.2	Direct Job Overhead Expenses	%

- B. Based on the above percentages for each cost category, the Proposed Total Fee Markup-for General Overhead and Profit percentage included in the Contractor's GMP is _____%.

****END OF ATTACHMENT 4****

Attachment 5 – NO CONFLICT OF INTEREST DECLARATION

The undersigned proposer certifies that no undue influence or pressure is used against or in concert with any officer or employee of the City in connection with the award or terms of the Agreement that will be executed as a result of this RFP, including any method of coercion, confidential financial arrangement or financial inducement. No officer or employee of the City shall receive compensation, directly or indirectly, from the proposer, or from any officer, employee or agent of the proposer, in connection with the award of the Agreement or any Work to be conducted as a result of this RFP. Violation of these requirements shall be a material breach of the contract entitling the City to any and all remedies by law or in equity.

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct and that this declaration is executed on _____ [date], at _____ [city],
_____ [state].

(Signature of Declarant)

****END OF ATTACHMENT 5****

Attachment 6 – INDEMNIFICATION AND INSURANCE REQUIREMENTS

The undersigned proposer certifies that they both have the ability to, and agree to fulfill the indemnification and insurance requirements contained in the sample CONTRACT.

Please note that actual certificates of insurance are not required as part of your submittal

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct and that this declaration is executed on _____ [date], at _____ [city],

Attachment 8 – NON-COLLUSION DECLARATION TO BE EXECUTED BY BIDDER AND SUBMITTED WITH BID

The undersigned declares:

I am the _____ of _____, the party making the foregoing bid.

The bid is not made in the interest of, or on behalf of, any undisclosed person, partnership, company, association, organization, or corporation. The bid is genuine and not collusive or sham. The bidder has not directly or indirectly induced or solicited any other bidder to put in a false or sham bid. The bidder has not directly or indirectly colluded, conspired, connived, or agreed with any bidder or anyone else to put in a sham bid, or to refrain from bidding. The bidder has not in any manner, directly or indirectly, sought by agreement, communication, or conference with anyone to fix the bid price of the bidder or any other bidder, or to fix any overhead, profit, or cost element of the bid price, or of that of any other bidder. All statements contained in the bid are true. The bidder has not, directly or indirectly, submitted his or her bid price or any breakdown thereof, or the contents thereof, or divulged information or data relative thereto, to any corporation, partnership, company, association, organization, bid depository, or to any member or agent thereof, to effectuate a collusive or sham bid, and has not paid, and will not pay, any person or entity for such purpose.

Any person executing this declaration on behalf of a bidder that is a corporation, partnership, joint venture, limited liability company, limited liability partnership, or any other entity, hereby represents that he or she has full power to execute, and does execute, this declaration on behalf of the bidder.

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct and that this declaration is executed on _____ [date], at _____ [city], _____ [state].

****END OF ATTACHMENT 8****

**Attachment 9 – CONTRACTOR AND GRANTEE COMPLIANCE WITH ECONOMIC SANCTIONS
IMPOSED IN RESPONSE TO RUSSIA’S ACTIONS IN UKRAINE**

April, 2022

RE: Contractor and Grantee Compliance with Economic Sanctions Imposed in Response to Russia's Actions in Ukraine

Dear Vendor:

On March 4, 2022, Governor Gavin Newsom issued Executive Order N-6-22 (EO) regarding sanctions in response to Russian aggression in Ukraine. The EO is located at <https://www.gov.ca.gov/wp-content/uploads/2022/03/3.4.22-Russia-Ukraine-Executive-Order.pdf>.

The EO directs all agencies and departments that are subject to the Governor's authority to take certain immediate steps, including notifying all contractors and grantees of their obligations to comply with existing economic sanctions imposed by the U.S. government in response to Russia's actions in Ukraine, as well as any sanctions imposed under state law.

This correspondence serves as a notice under the EO that as a contractor or grantee, compliance with the economic sanctions imposed in response to Russia's actions in Ukraine is required, including with respect to, but not limited to, the federal executive orders identified in the EO and the sanctions identified on the U.S. Department of the Treasury website (<https://home.treasury.gov/policy-issues/financial-sanctions/sanctions-programs-and-country-information/ukraine-russia-related-sanctions>). Failure to comply may result in the termination of contracts or grants, as applicable.

Please note that for any agreements or grants valued at \$5 million or more you must report to the City of Roseville your compliance with economic sanctions including steps you have taken in response to Russia's actions in Ukraine, including, but not limited to, desisting from making new investments in, or engaging in financial transactions with, Russian entities, not transferring technology to Russia or Russian entities, and directly providing support to the government and people of Ukraine.

Sincerely,

DocuSigned by:

Project overview

Introduction

Discover a place where utilities meet life! The Roseville Utility Exploration Center (UEC) is a fun, interactive space where residents and visitors can explore, play, and learn about Roseville's unique municipal utilities while visitors also discover easy ways to live more sustainably.

The UEC opened to the public in 2008 and has hosted over 600,000 visitors in that time. The exhibits have been popular and well used for years and now are in need of a refresh. In the fall of 2021, BartXD was hired by the City of Roseville to update and redesign the exhibits for a new and returning audience. We have worked with the utility team to create the design you see. Thank you to everyone who has participated and helped with content, design direction, images, and feedback!

UEC audience

Currently, the main visitors for the UEC are multigenerational families with younger children, as well as kindergarten and early elementary school groups. While these groups will remain primary audiences, we also want to broaden the reach of the UEC to include the following:

- **New residents**
 - As more new residents move to Roseville, the UEC can be a place where they can learn about their community and the municipal utility that helps make it so special.
- **Older kids and teens**
 - The UEC is currently working on curriculum programs for middle school and high school. As part of this, the new exhibits can support messaging that reaches older tweens and teens.
- **All ratepayers**
 - While some of the interactive experiences may be directed to younger visitors, we will layer in messages for ratepayers so that they can learn about programs, utility issues, and other content that applies to their interests.

Add-alternates

Through the design process, the BartXD has worked with an independent estimator to ensure that the design fits within the allotted fabrication budget. However, with rising inflation and construction costs, we recognize the possibility that some components will exceed the budget. To address this possibility, we have marked a handful of components as add/alts.

These include:

- Milling the WO.02 map base
- South entrance window graphic, WO.03.GP.06
- Gobo projector in wastewater area

Client modifications and delivery

Roseville Environmental Utilities will provide several components and services for the project. Money has been allotted in the budget to cover these costs, but they will not be part of the fabricator's scope.

These include:

- Creating and supplying the audiovisual program for the LO.01 media wall, as well as any PA system required for events (microphone and audio)
- Modifying the VS.01 welcome desk
- Supplying and cutting the WS.03 garbage truck cab. Please note that the City will not be responsible for transporting the truck or for preparing it for display.
- [Option] Supplying and preparing the RE.02 utility pole. Note that it may make more sense for the fabricator to create a replica rather than use a real pole.
- Supplying the tactile objects for the RE.02 graphic panel.

About this submittal

This is BartXD's Bid Document content manual. The content, design, and graphic books pull together the details required for the successful fabrication and installation of the exhibits at the UEC. This includes detailed exhibit descriptions and elevations, revised text, graphic layouts, and audiovisual details.

Themes and goals

The mission of the UEC is “to inspire stewardship of resources in everyday life by sharing the interconnectedness between utilities, customers, community and planet.” The exhibits will support this mission, impressing visitors with the work that their utilities do every day and inspiring people to see themselves as partners toward a more sustainable future.

Main theme

The main theme is the underlying message behind the exhibition—the framework on which our story is built. The main theme is useful to our team for making decisions, but it is not necessarily intended to be seen by visitors. This is the main theme developed in the 2015 Interpretive Plan:

**I am part of a bigger system. My utilities partner with me
to keep my community beautiful and unique.
Nobody can do it alone—it takes all of us working together
to make a difference.**

Subthemes and Key Storylines/Concepts

Subthemes are statements that expand and support the main theme. Like the main theme, subthemes are tools we use as we develop the exhibition, not messages the visitor will necessarily see.

Key concepts work as touchstones to ensure the exhibit content does not stray from the subthemes. Each key concept is important, but they are not equally weighted.

Subtheme 1: Many Systems

As a resident of Roseville, I am part of many broad systems: I play a role in each and every one of my utilities, and also in my environment. Most important of all, I am part of my community.

Key concepts: Big picture/system thinking
 Interconnection and partnership

Subtheme 2: People Power

My utilities aren't magic. I can rely on them because of the outstanding planning and maintenance performed by utility employees, as well as the group efforts of my community.

Key concepts: Planning and foresight
 Careers in the utilities

Subtheme 3: All Our Choices Together

My choices alone may have a relatively small impact, but multiplied by the choices of my neighbors, we together impact how our utilities function and the quality of our lives here in Roseville.

Key concepts: Individual choices
 Collective action

Subtheme 4: We All Own Our Utilities

My utilities offer me a great value because I own them. As a public organization, they earn my trust to provide and manage these resources with my interests in mind, not those of shareholders.

Key concepts: What makes Roseville utilities unique
 Utilities offer great rates, reliability

Subtheme 5: Good Choices Add Up, Bad Ones Multiply

For good decisions to have an effect, we need the combined efforts of many people. Unfortunately, it takes far fewer people making poor decisions to effect negative change.

Key concepts: Individual choices
 Cumulative effects of individual actions
 Planning for the future

Subtheme 6: It's All Interconnected

Not only am I, as a utility user, closely interconnected to each of my utilities. My utilities themselves are closely interconnected to one another, using each other's resources and working together to make our community special.

Key concepts: Connection with the utilities
 Interconnection between the utilities

Goals and outcomes

These are some of the goals and outcomes that were developed in the 2015 Interpretive Plan. Visitors will come away feeling and knowing:

- "I had no idea how much these systems are all connected to me, and that my utilities are doing so much for me and the future of my community."
- "I'm amazed by and grateful for what great things can be done by great people, both in my community and in my utilities."
- "I should do the right thing because it benefits me, but also because it benefits my community when we all work together."
- "I can act today and make a difference."

Common threads

As BartXD met with the different utilities, we heard a number of common threads that informed our design and content.

- Invisible work
 - If everything is running well—if water turns on at the tap, if electricity stays on, if wastewater flows down the drain, if garbage and recycling go away on schedule—customers never know how much work the utilities are doing behind the scenes.
 - In addition, many of the things that utilities deal with are not visible to the naked eye: electricity, microbes, chemicals.
- Partnerships and connection
 - The customer's role in the utility: more and more, residents are empowered as partners with the utilities. Every individual has a responsibility to take action.
 - Roseville utilities are your trusted advisor as you make decisions, now and in the future.
 - The utilities are connected in many ways, large and small: for instance, recycled water from the wastewater treatment plants flows through the electrical power plant; in turn, electricity powers the process of cleaning wastewater and drinking water.
 - Roseville utilities connect outside our community: the grid and watersheds connect Roseville to other cities and states; mandates affect the actions that the utilities take.
- Pride
 - Roseville utilities pride themselves on their reliability and low rates.
 - Customers are proud of their municipal utilities—which they own.
 - Utility employees are proud of their jobs: this is good work.
 - Desire to share a vocation/jobs story with older kids and adults who may be looking for a career.
- Forethought and planning
 - Looking to the future: for more than fifty years, Roseville utilities have been making decisions to ensure the success now and into the future.
 - Controlling our own destiny through publicly-owned utilities.
- Where utilities meet life
 - Roseville utilities help us do the things we do every day.
 - Customers don't have to change everything about the way they live: there are little choices that people can make within their existing lifestyle.

Exhibit components and descriptions

In the pages that follow you will find descriptions of all major components for the exhibition.

Exhibit Coding

This content book serves as the exhibit script, containing the text, images, and objects that make up the interpretive exhibit. We have coded the exhibit as follows.

Each area of the exhibition is given an overall number and unique letter code:

- Area 1: Lobby (LO)
- Area 2: Visitor services (VS)
- Area 3: Welcome & Orientation (WO)
- Area 4: Waste Services (WS)
- Area 5: Water (WA)
- Area 6: Wastewater (WW)
- Area 7: Stormwater (ST)
- Area 8: Electric (RE)
- Area 9: Utilities in the Home (UH)
- Area 10: Tech Lab (TL)

Exhibits within each area are numbered: 01, 02, 03, etc.

The components within each exhibit are coded according to type:

- GP: graphic panel: any interpretive graphic, including panels, photo murals, dimensional letters
- EF: exhibit furniture: all physical exhibits and artistic theming that will be built by the exhibit fabricator
- AV: audiovisual: all multimedia experiences and equipment
- IN: interactives
- OB: objects, props, and artifacts that are purchased or supplied

These components are also numbered sequentially within each exhibit.

Text that will appear on graphic panels in the exhibition is indented and shown in blue to make it easy to see. We have included word counts for all text blocks and grade levels for text blocks over about 10 words.

Area 1: Lobby (LO)

Key topics

- Roseville is a special community—and its municipal utilities are one of the reasons that people love living here.
- “Where Utilities Meet Life:” people are a crucial part of the utility story.

Goals and objectives

- Visitors will be able to learn about Roseville and the utilities.
- The lobby will excite visitors and set the stage for what people will experience in the UEC.
- Residents will feel pride in and connection to their community and their utility.

Area description

Before visitors even walk inside the Utility Exploration Center, they can discover information about the utilities and their city. New exhibits in the lobby will improve the visibility of the UEC and will offer a space to display changing information. An upgraded, streamlined media wall replaces the old one. The wall plays a series of still images and short video clips and can be used during evening programs and events.

A prominent new entrance display will attract visitors and help them understand what the UEC is all about. The display consists of an archway that represents the network of utilities—often unnoticed by people—that keep Roseville running. Visitors can walk through a huge sewer pipe. Over visitors’ heads, replica electrical conduit and water mains snake beneath a recreated street.

LO.01 Media wall

Inside the lobby of the building, visitors can sit and enjoy a looping series of videos and images that play on a massive new screen. This space offers a location for the UEC to upload information about different utility-related topics.

The display will not have any audio or soundtrack during the day, but there can be an option to add sound during special events or programs.

The media wall includes new hardware and a robust and easy-to-use content management system (CMS) that will allow the UEC to easily update the on-screen content and images remotely.

Interpretive goals and outcomes

- Visitors will be able to learn about Roseville and the utilities.
- The display will allow for changing and changeable information.

Multi-media overview:

- CMS: BrightSign (brightsign.biz)
- Content overview: slideshow of images of utilities; information about upcoming events and programs; short clips (captions, no audio) of utility work. UEC is responsible for the creation of all on-screen content.

LO.01.AV.01 Digital signage program

The media wall content will run a looping series of images and announcements that can be changed and updated easily by the UEC. The program will be run through a BrightSign media player. BrightSign's player software is called BrightAuthor, but the player also works with other CMS solutions.

LO.01.AV.02 Monitor and AV hardware

A single Planar URX100 4K LED monitor will be secured to the existing steel frame and will largely fill the current footprint of the media wall. The content will be run through a BrightSign HD224 media player.

LO.02 Entrance display

The UEC currently has a bit of an identity problem: many visitors initially think the space is part of the library. To tackle that, we have created a new entrance experience: a large-scale replica pipe that visitors walk through to get to the UEC doors. The pipe is just one part of a "beneath your feet" cross-section that also shows a replica water pipe and electrical conduits that make up some of the utility infrastructure in Roseville. New dimensional letters will clearly show the name of the UEC.

An interpretive panel on the cutaway provides a small amount of content. Primarily a welcome and encouragement to explore, the text will prompt visitors to think about the unseen utility systems that flow through their city.

Interpretive goals and outcomes

- Visitors will feel excited to come in and explore the UEC!
- Visitors will be able to identify the entrance to the UEC.
- Visitors will think about the hidden work of the utilities that power their daily lives.

LO.02.EF.01 Themed pipe walkthrough with overhead utility cross-section

Positioned at the existing building column, this themed environment will help immerse visitors into the world of utilities. The display consists of a partial replica stormwater pipe that is accessible to all visitors and large enough for a family group to pass through. Over the sewer pipe sits a street cutaway: a simulated asphalt or concrete surface with curb, and several other utility pipes and mains beneath that.

Please see Appendix C for artistic references for the fabrication of this component.

LO.02.GP.01 Dimensional letters

Large dimensional letters will sit on the front of the street cutaway.

LO.02.GP.01.tx.01
Dimensional letters

Utility Exploration Center

LO.02.GP.02 Welcome panel

A welcome panel mounted to the building column invites visitors to explore the UEC.

Waste Services
Wastewater
Water

Digital announcement display [existing]

The UEC currently has a smaller monitor and a coin funnel located on one wall by the entrance. The monitor will be used as a digital advertisement board for upcoming workshops, events, activities, holiday closures, and other City announcements,

Area 2: Visitor services (VS)

Key topics

- Buy wisely: people can think about what they buy, with an eye toward purchasing sustainable goods.

Goals and objectives

- Visitors will feel welcomed to the UEC and will understand what their options are within the center.
- Staff will have the chance to interact with visitors and offer them help or information about activity kits and programs.

Area description

The exhibits throughout the UEC will help improve sightlines from the welcome desk so that staff can see visitors throughout the room.

The welcome desk and retail fixtures will be retained and repurposed to improve their usability: an additional opening will be added to the desk for easier staff access. The retail fixtures will be relocated closer to the entrance of the UEC. On the other side of the desk, lockable storage will give staff a place to keep the activity kits and other items.

VS.01 Welcome desk

The current welcome desk will remain in the UEC, but it will be adapted to offer additional usability to staff. A second opening into the desk will be added to the side of the desk nearest to the door, so staff can more easily exit and interact with visitors.

Interpretive goals and outcomes

- Visitors and UEC staff will have a space to interact.

VS.01.EF.01 Welcome desk (existing)

Roseville Environmental Utilities will make the modifications to the desk.

VS.01.OB.01 Retractable tape stanchion

A retractable belt stanchion will be added to the new desk opening. This will allow staff egress and ingress but will also keep visitors out of the desk.

VS.02 Retail space

The existing retail fixtures will be relocated to the other side of the welcome desk. It should be clear that these items are for sale, not for play.

A graphic panel encourages people to think more about what they buy and to consider the implications—positive and negative—of their purchases.

Interpretive goals and outcomes

- Visitors will consider the impact of their purchases.

VS.02.EF.01 **Retail fixtures [existing]**
VS.02.EF.02 **Retail fixtures [existing]**

VS.02.GP.01 **Topic panel**

A small graphic panel in the retail display will encourage visitors to think about the items that they purchase.

Protects people and the planet.

VS.03 Lockable storage

Storage for activity kits and other materials will be added to the side of the welcome desk, where the retail displays are currently located.

Staff want to make sure that the storage is maximized, but not so tall that it blocks sightlines from the library. Ideally, the locking system will match the current locks.

Interpretive goals and outcomes

- UEC staff will have a place to store activity kits and other items to share with visitors.

VS.03.EF.01 Storage

Storage will accommodate the current bins. Additional storage will be built into the welcome map base, for items that may not need to be out as regularly.

Current storage bins:

- (24) clear bins – 13 ½" L x 11 ½" W x 5" H
 - (10) purple handled tubs – 13" diameter x 10" H
 - (10) mesh bags average if filled 12" L x 8" W
 - (2) blue plastic bins 12" L x 8" W x 5" H
-

Area 3: Welcome & orientation (WO)

Key topics

- Everything is interconnected: the utilities to one another; and us to our utilities.
- The individual choices we make add up—and impact other choices.

Goals and objectives

- Visitors will be able to make decisions about their visit to the UEC.
- Visitors will gain a big picture view of how different actions affect the larger system.

Area description

Inside the UEC, the exhibits help orient visitors and give them a sense of the complex system of utilities that connect to each other and to the customers.

The windows on the far side of the room will feature colorful imagery of the utilities, giving visitors a visual sense of the stories in the exhibition.

A central map—three dimensional with a projection—provides a dynamic overview of Roseville and the utilities. Visitors can interact with this map to bring up information about electrical lines, water, sewer, and waste services routes.

WO.01 Exhibit intro panel

A vertical panel at the entrance to the UEC welcomes visitors and presents the main themes of the center. Similar panel types will introduce each of the utilities in their own sections of the exhibition, so visitors become familiar with where they can learn about each story.

Interpretive goals and outcomes

- Visitors will grasp the main themes of the UEC.

WO.01.GP.01 Intro graphic

The panel will be attached to the front of a building column so it doesn't need a platform.

WO.01.GP.01.tx.01

Panel title

Waste Services
Water

WO.02 Interactive utility map

What utilities operate in Roseville? Where are they located? This central map offers a place for visitors to explore Roseville utilities—and to see how the topography of the City influences utility infrastructure and helps bring water and electricity to our homes.

The map is not just flat: it is a three-dimensional model of the City, showing the change in elevation from the foothills to the east down to the lower-lying western boundaries of Roseville. The map is white, allowing us to project an interactive program on top of its contours¹. Using the interactive, visitors can explore the network of utilities that operates above and belowground in Roseville: sewer pipes, electrical conduit, water mains, the landfill. The map will include relevant and identifiable landmarks so new and long-time residents alike can orient themselves and see where they live, study, and work.

The map program will be triggered by a motion sensor, so it will turn on as visitors approach, and will activate with a subtle attract loop.

Interpretive goals and outcomes

¹ For an example of a similar map designed by Travis, see <https://www.youtube.com/watch?v=Jn5lRerIdOI>

- Visitors will be amazed how the utilities in Roseville interconnect and intersect to bring power, water, sewer, stormwater management, and trash pickup to residents.
- Visitors will be able to see how the natural topography of Roseville influences the utilities, and how the creeks and planned floodplains influence the flow of water across the landscape.

WO.02.EF.01 Map base and cabinetry

The base cabinetry will include built-in storage where staff could keep brochures, props, or other items.

[Add/alt]

The corian surface of the base can be milled to create texture and patterns suggesting geologic stratigraphy.

WO.02.GP.01 Backlit graphic

A backlit welcome panel on the front of the base provides the identity of the Utility Exploration Center.

WO.02.GP.01.tx.01

Panel title

Welcome to the Utility Exploration Center

WO.02.GP.01.tx.02

Brief statement

Word count: 18

Utilities are everywhere in Roseville. Explore and discover how utility services reach businesses and homes throughout the City.

WO.02.GP.01.im.01

Image: UEC branding [logo without tag]

WO.02.EF.02 Topographic map

The monochromatic 3D map will show the topography of Roseville. The topography may be exaggerated somewhat for effect but it will be to scale. A few callouts could be added to the map: showing the location of the UEC, for example, or other Roseville landmarks. The majority of the content will happen on the projection program.

WO.02.AV.01 Projection program

Imagery and animation are projection mapped onto the topo map. See below for a draft script that begins to envision the visitor experience.

Visitors can layer more than one utility onto the map to see where they intersect and connect.

Each utility's story will illustrate the complexity of the work and infrastructure, while also helping people understand how they rely on Roseville's utilities.

Reference: <https://data-roseville.opendata.arcgis.com/pages/applications>

WO.02.AV.01.tx.01

Draft interactive script

*Note that this is draft only. The AV contractor hired for fabrication will finalize the design and content of the interactive.

Interactive stage	On-screen text	Interactive/projection content
Attract loop	[looping questions on screen] How do water and electricity reach your house? Where does your sewage go? What happens to your trash and recyclables when they leave the curb? Where does Roseville's stormwater drain to? Touch to start!	The projection will be motion-activated. As visitors walk near, the projection features subtle animation along the map.
Interactive start	Select a utility to see its path through Roseville. [Selections] • Roseville Electric • Stormwater • Waste Services • Wastewater • Water	The animation on-screen will continue, perhaps cycling through the different utilities until visitors make a selection.

Roseville Electric	(1) The City generates its own electricity at Roseville Energy Park. We also purchase energy from the grid. (2) Electricity travels to substations. (3) Electricity travels on underground and aboveground lines to houses and businesses. [Fun fact] Roseville Electric uses recycled water from the Wastewater Utility to cool its machinery.	(1) The projection illuminates REP, with electrical lines radiating outward. (2) Several substations pop up on the map. (3) Electrical lines continue to radiate out. Houses light up as the energy reaches them. Several EVs in driveways on the map might honk their horns or unplug and drive off. Other fun moments could be added.
Stormwater	(1) Rain and snow fall on roads and sidewalks, becoming stormwater. (2) Our actions also impact stormwater runoff. (3) As stormwater travels, it picks up pollution and debris. Drains carry the untreated water out to Dry Creek and Pleasant Grove Creek. [Fun fact] Stormwater program staff restored a section of Dry Creek. Now it's home to salmon, birds, and other wildlife—and your actions can keep it healthy.	(1) Rain and snow fall across the map (2) Animations show people watering lawns, washing cars, trash gets caught in stormwater, etc. (3) Water flows across the City in storm drains to exit at the two creeks. A fun animation shows wildlife in the creek: salmon, frogs, wading birds.
Waste Services	(1) When you bring your cans to the curb, we show up. (2) Waste Services trucks drive routes across the City, picking up trash, recycling, and green waste and bringing it to the Materials	(1) A neighborhood lights up, with images of cans appearing on the map. (2) A fleet of trucks drive out of the Corp Yard and across the map. If possible, the trucks follow some routes

	Recovery Facility for sorting and disposal. [Fun fact] Waste Services workers cover more than 14,000 miles every week! That's like driving across the country five times!	and head to the landfill and back. Animation shows trucks in action, happily honking horns, etc.
Wastewater	(1) Everything that goes down the toilet or drain in your house gets cleaned by our Wastewater Utility. Waste flows along hundreds of miles of sewer lines to one of two regional treatment plants. (2) The Pleasant Grove and Dry Creek Treatment Plants remove waste from wastewater. (3) We release cleaned water into the creeks. A portion of water is used to water landscapes and for cooling at our energy park. [Fun fact] Most of Roseville's sewers flow by gravity alone!	(1) The sound of showers running, toilets flushing, and washing machines running triggers a flow of wastewater out along sewer pipes. (2) The two wastewater treatment plants are animated. (3) From the treatment plants, purple pipes connect to some parks and to the REP; a truck heads to the landfill, and outfall goes to the creeks.
Water	(1) Roseville gets a majority of its water from Folsom Lake. From there it gets sent directly to our treatment plant where it is treated to meet safe drinking water standards. (2) We also store water in huge tanks. (3) We pump water from underground aquifers. In wet years, we store excess water to underground aquifers, saving it to use during droughts.	(1) Folsom may not be visible on the map, but the Barton Road treatment plant can come to life with flowing water and sounds. (2) The water tanks get illuminated. (3) Well sites pop up, with water coming from the ground. (4) Water flows across major water mains, triggering water usage across the map: an animation of the dancing fountain at a shopping center could start up; a public swimming pool from

	(4) Drinking water flows through a separate system. So your water is clean, safe, and delicious! [Fun fact] Roseville slopes downward from east to west, so most of our water flows by gravity. This helps us keep rates low because we don't need electricity to move the water.	the aquatics complex could appear on the map with an animation of splashing; a kid playing in a sprinkler, etc.
--	---	--

WO.02.AV.02 Interactive touchscreen controls

WO.02.AV.03 Interactive touchscreen controls

Visitors can use two touchscreens on either side of the map to control the interactive program and overlay utility infrastructure onto the map.

WO.02.AV.04 Projection equipment

Two overhead projectors allow us to display data over the sculpted map. BartXD is testing this to ensure that the interactive works well in the lighting conditions of the UEC.

.....

WO.03 Window clings

The windows on the far side of the room are currently covered by temporary walls and opaque graphics. These walls will be removed and replaced by window cling graphics: colorful, large-scale images of each of the utilities. These window clings will allow some light in while also helping to keep heat load in the center low and preventing interference with the AV components.

We have also added an add-alternate window cling by the secondary entrance to provide a welcome message to visitors coming into the UEC from that direction.

Welcome message

[Welcome to the Utility Exploration Center](#)

Overhead pipes [Not in contract]

The exposed HVAC pipes and conduit that run overhead in the gallery could be painted and labeled like the pipes at the different utility plants.

**Note: a replica purple recycled water pipe is part of the exhibit scope. See WW.06.*

Area 4: Waste services (WS)

Key topics

- All waste impacts land resources and the environment—and we all play a part.
- Collection: Roseville sends its waste to the MRF, where items are sorted.
 - Demystifying what can be recycled, what is hazardous, what organics can be composted, etc.
- Smart waste services management and individual action can reduce what goes into the landfill.
 - Number one goal is diverting from landfill.
 - Second is creating a closed ecosystem where they can turn materials into recycled goods without having to send them elsewhere.

Goals and objectives

- Visitors will be inspired to make smart choices—to reduce and reuse to divert more from the landfill.
- Visitors will feel informed about how they can recycle, compost, and dispose of items and hazardous waste correctly.
- Visitors will understand how waste adds up and impacts Roseville and the landscape.

Area description

The things we discard have to go somewhere. This section of the exhibit tells the story of waste services. Roseville sends its waste to a shared MRF—a materials recovery facility—where recyclables and other items can be pulled out of the waste stream.

The permanent displays here will focus on how Roseville manages its waste, and how customers can reduce what goes into the landfill. The "Trash Mountain" has long been an icon of the UEC. The new exhibits will take up a smaller footprint but will still have a big impact. Young visitors will enjoy crawling through a low trash pile and poking their heads through a discarded washing machine. This is paired with a recreated core sample of landfill, showing layers of fill and cover.

A garbage truck cab will appear to be emerging from the wall. This will anchor a story about waste services collection in the City.

WS.01 Utility intro panel

A double-sided vertical panel anchors the story of the waste services utility. Here visitors can learn about what happens to the trash and recycling that gets picked up from their homes. The reverse side of the intro panel shows graphics of how much the average Roseville resident throws away in a year.

Interpretive goals and outcomes

- Visitors will understand the story of the waste services section of the exhibition.
- Visitors will be able to identify one of the purposes that the waste services utility serves in Roseville.

WS.01.EF.01 Panel base and platform

The intro panel sits on a base platform.

Word count: 41

Grade level: 5

The average Roseville resident throws away more than four pounds of trash every day. Recycling and composting help—but that's still a lot of garbage!

Most of our waste comes from discarded packaging, cardboard, and paper, plus food scraps and grass clippings.

WS.01.GP.02.im.01

A series of repeating trash bag icons show how much waste people throw away per year

Based on 4.8 pounds per day

Reference:

https://www.epa.gov/sites/default/files/2015-09/documents/2012_msw_fs.pdf

In one year, your waste adds up!

[Icon of one person standing by a mound of trash bags, labeled 1,750 pounds]

[Icon of a family of four standing by a mound that is approximately four times as large, labeled 7,000]

[Icon of Roseville with massive mound labeled more than 280,000,000 pounds!]

WS.01.GP.02.im.02

A simplified bar chart shows the general makeup of the waste Americans throw away annually

[*Note: this won't show the actual figures, as the numbers will shift slightly over time—but they will be somewhat to scale. Each "bar" is made up of the type of waste: a pile of banana peels/yard bags/other cartoonish food waste; a pile of Amazon boxes and newspapers; plastic bottles and clamshells; clothing and shoes; etc.]

Reference:

https://www.epa.gov/sites/default/files/2015-09/documents/2012_msw_fs.pdf

What is in our trash?

• Food waste and yard trimmings	28%
• Paper, cardboard, and packaging	27%
• Plastics	13%
• Textiles, leather, rubber	9%
• Metals	9%
• Wood	6%
• Glass	5%
• Other	3%

WS.02 Keep it out of the landfill!

The landfill is the final destination for Roseville's trash—and it is filling up fast. This exhibit looks at what people throw away, and how they can reduce their trash footprint.

A panoramic photomural of the Western Regional Sanitary Landfill serves as the backdrop to this display. In front of this image sits a "core sample," a vertical cutaway that suggests the accumulation of waste in the landfill.

Interpretive goals and outcomes

- Visitors will understand where their trash goes once it gets picked up at the curb.
- Visitors will feel a personal responsibility for keeping trash out of the landfill.

WS.02.GP.01 Photomural

A full-color photomural will depict the Western Regional Sanitary Landfill.

WS.02.GP.01.im.01

WS.02.EF.01 Trash tower and theming

Since 1979, the WPWMA landfill has been the repository for trash from Roseville, Lincoln, and Rocklin.

A vertical slice shows a core sample of landfill, showing how trash disposal—and types of refuse—have changed over time. The earliest landfill modules in the county didn't use plastic liners. Visitors may be surprised to see that organic matter in the landfill, compacted down, doesn't decompose well. Today, the utility is working with residents to remove food waste from the landfill by composting organics.

WS.02.GP.02 Topic panel

Graphics on the photomural help visitors understand what they're seeing in this display. What happens when the current landfill fills up? How is the waste services utility working to ensure that fewer recyclable and compostable items reach the landfill—and what can visitors do to help?

WS.02.GP.02.tx.01

Total word count: 78

- Each day, a layer of fill—soil and shredded material—gets placed on top of the trash to stop odors and pests.
- Trash in the landfill gets packed tightly.
- Modern landfills are lined to prevent liquids from contaminating the soil and water.
- In 1960, only six percent of trash got recycled nationally. Today over 30 percent of trash is recycled.
- Since 2000, the percentage of food and yard waste in our landfills has increased.
- What can you do to reduce your landfill waste?

WS.02.EF.02 Moment of discovery: chicken

A sculpture of a chicken will be placed in the Waste Services exhibit (sitting on top of the interactive screen) as a fun moment of discovery for visitors.

WS.03 Garbage truck cab

Everybody recognizes the garbage truck! This display lets visitors get up close and personal with some of the equipment that waste services workers use to collect trash.

The truck will appear to be driving out from the wall. A reader rail sits in front of the cab and displays information about waste services equipment.

Interpretive goals and outcomes

- Visitors will connect the familiar sight of a garbage truck with the story of waste services.

WS.03.EF.01 Exhibit platform

The truck cab sits on a platform that also provides a bit of a barrier to prevent climbing.

WS.03.OB.01 Truck cab

This will be supplied by Roseville Environmental Utilities.

WS.03.GP.01 Reader rail

A reader rail in front of the truck cab interprets the different types of waste collection trucks in Roseville.

Total word count: 63

1 and 2: **Side loaders** empty household waste and green waste cans. These are the most commonly used trucks.
3: **Rear loaders** pick up large items like couches.

- 4: **Roll-off trucks** haul commercial waste and large open-top waste.
- 5: **Organics trucks** collect food waste for composting.
- 6: **Hazardous waste trucks** pick up things that don't go into your garbage can, like batteries, electronics, and paint.
- 7: **Front loaders** pick up smaller dumpsters and commercial waste.

WS.03.GP.01.tx.03
Fun fact
Word count: 11

One residential side loader can collect trash and recycling from 1,000 cans a day!

WS.03.GP.01.ob.01
Button to trigger interactive: flashing lights or air brakes

Press to flash the truck's lights.

WS.03.IN.01 Truck interactive

Visitors can press a button on the reader rail to trigger flashing lights on the truck cab and the sound of a tipper mechanism emptying a bin.

WS.04 Explore waste

The existing "Trash Mountain" has been a popular exhibit for years but is in definite need of updating. Some of the items within the display have been well worn and damaged, and the written signage needs to be replaced.

This exhibit—taking up a smaller footprint—will replace the current trash mountain. It will retain much of the same intent as the original, showing various durable items. It will still encourage interactivity, exploration, and physical play. Visitors can crawl through a low tunnel and stick their heads up into an acrylic dome that sits on a discarded washing machine for a great photo op.

Other low-tech opportunities include doors and lids that visitors can lift to reveal messaging.

The fabricator of this exhibit will be tasked with using real trash and recyclables rather than purchasing new materials for inclusion in the pile.

Interpretive goals and outcomes

- Visitors will get an understanding of just how much trash they throw away.

- Visitors will connect their actions with the landfill.

WS.04.EF.01 Trash pile environment

A recreated pile of trash will encourage people—and especially children—to explore. The display will include real, replica, and sculpted elements set into a durable groundform. These will include large-scale and smaller-scale rubbish items, including electronics and other items that kids will readily recognize. These items can be used by staff as a scavenger hunt or look and find activity.

Visitors can crawl into a low tunnel through the trash and can peer through an acrylic dome that covers a discarded washing machine. The crawl-through will be large enough for an adult to go through. The path will be relatively straight for sightlines through.

A variety of low-tech interactives, described below, will be paired with simple graphics. Most of these interactive moments won't be explicitly called out: they will function as moments of discovery for visitors. A few of these items will be located against the wall by the photomural.

WS.04.IN.01 Low-tech interactive: Lift the lid

Visitors can lift the lid on a can of paint to read a message about hazardous waste.

WS.04.GP.01 Paint can graphic

The graphic sits on top of the open paint can.

WS.04.GP.01.tx.01

Panel text

WS.05 Trash sorting interactive

On a large multi-touch surface, visitors can use an interactive where they can sort and divert recyclable and compostable items from the waste stream. This interactive is based on the actual sorting line at the MRF, and it can be used collaboratively by multiple people at once.

On screen, a series of trash items move down a conveyor belt. Visitors can touch or swipe to select items for recycling or composting, removing those items from the landfill.

Interpretive goals and outcomes

- Visitors will be able to connect their trash with the work at the MRF.
- Visitors will be inspired to reduce their trash production.

WS.05.EF.01 Interactive base

WS.05.AV.01 AV program

WS.05.AV.01.tx.01

Draft interactive script (final script to be created by the AV contractor)

Interactive stage	On-screen text	Interactive/video content
Attract loop	Can you sort the trash? Touch to start	The screen can show an attract loop of trash whizzing by on a conveyor belt.
Interactive start	[Selection] One player or two? [Instruction screen] At the Materials Recovery Facility, workers sort trash on a conveyor belt. Can you keep recyclables out of the landfill? Touch any recyclables you see as they whiz by. [The game could be set so that visitors have to pick a specific type of recyclable.] Today, you have to sort [paper/plastic/glass/metal] [single player] See how many recyclables you can remove. Good luck! [multi-player]	Visitors select whether they want to play alone or competitively. The screen might show trash building up on the conveyor belt getting ready to sort.

	Who can remove the most recyclables? Good luck! [counts down] 3-2-1-SORT!	
Single or competitive play	[Encouragement on screen will prompt visitors] Do you see any glass? Is that a metal can? Have you missed any plastic bottles? [Incorrect sorts will be flagged] Oops, that's trash!	The game plays for a set amount of time (approximately 60 seconds) More and more trash goes by as the time ticks down, making it harder to flag your recyclables. A counter will show how many recyclables are being removed. Incorrect selections are shown in a separate counter.
Conclusion	Great job! You removed [amount] of [paper/plastic/metal/glass] before it could hit the landfill.	A conclusion screen shows the final score: correct and incorrect sorts, and winner if this was a competition. The winner could enjoy some fanfare and be designated as a Recycling Hero!

WS.05.AV.02

AV equipment

Area 5: Water (WA)

Key topics

- Roseville gets its reliable, delicious drinking water from two sources: surface water (from the Sierra Nevada: via Folsom Lake and Placer County sources) and groundwater (from aquifers).
- The utility is working to push innovation to ensure a supply of water even as demand grows.
- Water is a finite resource.

Goals and objectives

- Visitors will be proud and impressed by the foresight and planning that Roseville is doing to ensure safe drinking water into the future.

Area description

To many residents of Roseville, the three water utilities—drinking water, stormwater, and wastewater—all fit under the same category. The back wall of the UEC will be the place to explore these three stories, and to learn about the important work that each utility does. Visitors can walk through a series of curved backlit panels—suggesting a massive water pipe, sewer main, or stormwater pipe—to explore different water stories.

First, the story of drinking water in Roseville gets introduced at an area introduction panel. Next to this, an oversized water pipe juts from the floor, reaching toward the ceiling. This pipe has an interactive component to it, an embedded LED screen where visitors can simulate the flow of groundwater from the aquifer or see how water use changes in Roseville throughout the summer and winter.

Against one wall, a large custom illustration shows the two sources of water that supply Roseville: surface water from Folsom Reservoir and groundwater from deep underground reservoirs. This illustration is more than a flat graphic: it is an interactive where people can explore where the City's clean, delicious water comes from.

WA.01 Utility intro panel

A vertical panel anchors the story of the water utility. Here visitors can learn about the two sources of Roseville's drinking water, and the planning that goes on to ensure a safe, reliable source of water into the future.

Interpretive goals and outcomes

- Visitors will understand the story of water in this section of the exhibit.
- Visitors will grasp that the three water-related utilities each have their own crucial roles in the City.

WA.01.EF.01 Panel base and platform

This panel platform also holds the replica water pipe (WA.02).

WA.01.GP.01 Intro panel

Body copy

Word count: 54

Grade level: 5

Roseville's commitment to clean water goes back to 1909, when the new City bought out a private water company. In 1971, we built the Barton Road Water Treatment Plant. Through drought and floods, Water Utility employees make sure clean water flows. How do you think today's water planning will help Roseville in the future?

WA.01.GP.01.im.01

Image: photo of Water Utility workers at the well site

Source: Roseville Environmental Utilities 5B6A0415.jpg

WA.01.GP.01.tx.03

Fun fact

Content about flushing:

<https://www.roseville.ca.us/cms/One.aspx?portalId=7964922&pageId=17123419>

Word count: 25

Grade level: 4

Roseville's drinking water loops through more than 600 miles of pipes. The City flushes the pipes with high-pressure flow to keep them clear of sediment.

WA.02 Groundwater pipe

A tall blue water pipe anchors the story of Roseville drinking water. This pipe sits on the platform next to the utility intro panel.

The pipe is not just iconic—it also serves as an interactive. Visitors can turn a big wheel on the side of the pipe (like the ones at Groundwater Well 12) to trigger a video on an embedded LED screen that simulates the flow of water through the pipe.

Interpretive goals and outcomes

- Visitors will connect the sight of the drinking water pipes with their actions and the utility.

WA.02.EF.01 Replica water pipe

The pipe is safety blue to match the water utility’s infrastructure. It is printed with graphics to provide context.

To increase accessibility of this component, the pipe will include tactile arrows and lettering: pointing upward to indicate water pumping (marked “RECOVERY”) and downward to indicate aquifer recharging (marked “RECHARGE”).

WA.02.AV.01 Groundwater interactive

An interactive at the water pipe helps visitors understand the groundwater system. Visitors can turn a wheel on the pipe in one direction to start the “flow” of water (this is not actual water but a video on an embedded video screen). Bubbles on the screen pop up with information about groundwater pumping and average water usage throughout the year. When the pipe has reached its full capacity, visitors can turn the wheel in the other direction to recharge the aquifer.

WA.02.AV.01.tx.01

Draft interactive script [final script to be written by AV contractor]

Interactive stage	On-screen text	Interactive/video content
Attract loop	Fill the water pipes! Turn the wheel to start!	Video or animation of bubbles and flowing water move through the pipe, while the text on screen pops up. Running time: looping until interactive is triggered
Interactive start	[On-screen text] Water is a limited resource. Right now, Roseville gets most of its water from the Sierra. To supplement flow during droughts, Roseville stores and	When visitors turn the wheel, a stream of animated or filmed water flows through the pipe. The flow starts slowly but picks up speed. A counter could show gallons

	pumps water from underground reservoirs, called aquifers. [fact bubble] On a hot summer day, Roseville residents use around 50 million gallons of water! [question] Where and when do you use the most water? [instruction/prompt] Keep going! The pipe is almost full.	of water counting up from 0 to 55 million. The text appears in bubbles on the screen.
Aquifer recovery	[On-screen text] When Roseville has excess surface water, the utility can use it to replenish the underground basin. It's like a savings account for years with low precipitation. [Fact] Roseville's water treatment plant can treat up to 100 million gallons of water a day, covering future growth in the City!	When the pipe is full (55 million gallon flow), the flow reverses. The water starts to flow back in the opposite direction. The counter counts back from 55 million gallons to zero.
Conclusion	[On-screen text] As the population of Roseville grows and droughts become more frequent, groundwater is an important backup source. What can you do to save water?	The on-screen images return to bubbles and animated water before looping back to the attract.

WA.02.AV.02 AV equipment

WA.03 Curved graphics

A series of curved backlit panels form a sort of tunnel along the back wall of the UEC (see WA.05, WW.01, WW.02). This panel interprets a drinking water story; the others interpret wastewater.

Interpretive goals and outcomes

- Visitors will feel like they are part of the story of water in Roseville.
- Visitors will appreciate that freshwater is a limited resource.
- Visitors will think more about their consumption of water: it's a lot more than just what we drink!

WA.03.EF.01 Curved backlit panel

WA.03.GP.01 Interpretive graphics: A Finite Resource

This panel interprets how finite the world's supply of freshwater truly is.

WA.03.GP.01.tx.01

Panel title

Word count: 3

A finite resource

WA.03.GP.01.tx.02

Body copy

Word count: 72

Water was the first recyclable. The amount of water on Earth is nearly constant: it falls as rain or snow, soaks into the ground, evaporates into the air, and cycles.

But only three percent of our water is fresh—the rest is salt water. And just over one percent of fresh water can be used for drinking. The majority is locked in ice. As climate change makes droughts worse, how can we make sure there is enough water for everyone?

WA.03.GP.01.im.01

Image: water flowing over a dam

Source: DSC08629.jpg

WA.04 Water above, water below

A wall display allows visitors to explore the sources of drinking water in Roseville. The exhibit features a custom illustration showing Roseville water sources from the aquifer belowground and Folsom aboveground. The illustration serves as the backdrop to an interactive where visitors can see where Roseville's different water sources come from.

The left hand side of the illustration holds several lift doors that visitors can flip open to discover more about the water story in the City.

Interpretive goals and outcomes

- Visitors will understand that water in Roseville comes from two primary sources, aboveground and belowground.
- Visitors will feel connected to their water sources in Roseville

WA.04.GP.01 Custom cutaway illustration

Done in a friendly, accessible style, the illustration will show Folsom Lake and the City of Roseville, with the groundwater aquifers below and well sites. This won't be a scale illustration but will suggest some recognizable City landmarks that kids can identify.

Visitors can lift several doors on the illustration to discover facts about Roseville's water. Other callouts will be printed directly on the illustration but won't be interactive.

Landmarks:

- UEC
- Roseville Corp yard
- Cosmos sculpture, Olympus Pointe Sculpture Park
- Golfland sunsplash amusement park
- Galleria Mall fountain
- Maidu regional park
- Legacy building/downtown

Word count: 25

Water conservation

Saving water is part of managing Roseville's supply. Taking simple actions at home helps. The more we save, the more we all have—rain or shine!

WA.05 Overhead curved panel

One final curved panel in this section “completes” the pipe environment. This does not have any written text on it, since it curves overhead, suspended from the ceiling.

WA.05.EF.01 Overhead pipe section

WA.05.GP.01 Curved backlit graphic

Area 6: Wastewater (WW)

Key topics

- What is wastewater?
 - It's everything that goes down the drain.
 - The wastewater utility collects and cleans water before releasing it back into the environment.
 - Addressing misconceptions.
- Demystifying the process
 - Wastewater is an enormous network of collection, distribution, and biological treatment.
- Closing the loop
 - Wastewater and treated recycled water connect the utility to Roseville Electric, stormwater, and parks and golf courses throughout the City.
 - Good things come from wastewater: fertilizer and recycled water.

Goals and objectives

- Visitors will understand that wastewater treats everything that flows down the drains and flushes down the toilet in their home.
- Visitors will be able to identify the purpose and use of purple pipes
- Visitors will appreciate the science and work—by people and microbes alike—that goes into cleaning our dirty water.

Area description

In this section about wastewater, visitors can discover what happens to the water and waste that they flush and rinse down the drain.

A series of backlit curved graphics reference water and sewer pipes. Inside this environment, visitors can discover what is in their wastewater. Many visitors will be surprised to discover the wastewater gets cleaned through a biological process. At a fun interactive display, visitors can “meet” and interact with some of the microbes that clean up the waste.

A purple “recycled water” pipe starts from this section and connects across the room, helping to show visitors how the utilities depend on each other: a billion gallons of purple pipe water—kept separate from drinking water—get recycled to keep Roseville landscapes healthy.

WW.01 Utility intro panel

This panel is located against the wall by the exit door (not in a platform like many of the other intro panels). It introduces visitors to the wastewater utility.

Interpretive goals and outcomes

- Visitors will understand the importance of the wastewater utility.

WW.01.GP.01 Utility intro panel

WW.01.GP.01.tx.01

Panel title and subtitle

Word count: 5

Wastewater Utility Speeding up nature's work

WW.01.GP.01.tx.02

Body copy

Word count: 50

Grade level: 5

What happens to the water after you shower, wash the dishes, or flush the toilet? In Roseville, it flows to a wastewater treatment plant to get cleaned.

The utility releases cleaned water back into the environment. Some water goes an extra step. Distributed through a network of purple pipes, this "recycled water" irrigates parks and golf courses.

WW.01.GP.01.im.01

Image showing the work that the wastewater utility does

Source: IMG_4999.jpg

WW.01.GP.01.tx.03

Fun fact

Word count: 14

Grade level: 6

The Wastewater Utility maintains more than 850 miles of sewer lines that run under Roseville.

WW.02 Curved graphics

Three curved backlit graphics (WW.02, WW.04, and WW.04) help tell the wastewater utility story. Wastewater is the sewer system that deals with everything that flows down our drains and flushes down our toilets.

Interpretive goals and outcomes

- Visitors will connect the sight of the wastewater treatment plants with their actions and the utility.

WW.02.EF.01 Curved backlit panel

WW.02.GP.01 Interpretive graphic: Misconceptions and FAQ

The tone of this panel will embrace the humorous nature of sewage, while challenging visitors' misconceptions about this crucial utility.

WW.02.GP.01.tx.01

Panel title

Word count: 4

We don't waste wastewater!

WW.02.GP.01.tx.02

Body copy

Word count: 64

Grade level: 8

Our Wastewater Utility treats millions of gallons of sewage every day. Lots of useful things come from wastewater. Recycled water keeps plants green in Roseville parks and cools the power plant that makes our electricity. The sludge that is captured gets treated and turned into fertilizer that farmers use. Digesters work on sludge like giant stomachs. They produce methane that generates electricity and fuels our garbage trucks.

WW.02.GP.01.im.01

Image: wastewater treatment plant in action

Source: E55B7946.jpg

WW.03 Curved graphics

This graphic interprets some of the steps that the utility takes to clean wastewater, through simple graphics or illustrations.

Interpretive goals and outcomes

- Visitors will understand the process of what happens after wastewater leaves their house.

WW.03.EF.01 Curved backlit panel

WW.03.GP.01 **Interpretive graphic**

WW.03.GP.01.tx.01

Panel title

Word count: 12

What happens to the water and waste that flow down your drain?

WW.03.GP.01.tx.02

Body copy

Word count: 27

Grade level: 5

There are lots of steps involved. Roseville treats millions of gallons of wastewater every day! It takes about 24 hours from start to finish.

WW.03.GP.01.im.01

Illustration showing steps to clean wastewater:

To be based on

<https://roseville.ca.us/cms/One.aspx?portalId=7964922&pageId=16829610>

Total word count: 132

1. Waste flows from your house through a pipe to the sewer, where it goes to one of two **Treatment Plants**. The plants are located to let gravity do most of the work to get sewage to them.
2. At the **Headworks**, large debris gets removed.
3. Sewage flows slowly through the **Primary Clarifiers** to separate the solids, called sludge, from the water.
4. The sludge goes to a **Digester**, which is like a giant stomach. The digester breaks down the sludge to create methane and nutrient-rich fertilizer.
5. In the **Aeration Basins**, microbes clean the water by eating organic material and converting it into gas, liquid, and more microbes.
6. At **Secondary Clarifiers**, the microbes settle to the bottom of the tank. The water is nearly clear!
7. Water flows through **Sand Filtration** to remove any remaining bits of sludge.
8. The last step is **Disinfection**. Ultraviolet light is used to kill off viruses and bacteria.

WW.04 Curved graphics

This final curved graphic, which sits near the WW.05 interactive, looks at how the utility keeps sewer pipes under Roseville flowing, through regular maintenance.

Interpretive goals and outcomes

- Visitors will think about the work it takes to keep wastewater moving through Roseville.

WW.04.EF.01 Curved backlit panel

WW.04.GP.01 Interpretive graphic

WW.04.GP.01.tx.01

Keep the sewers flowing

WW.04.GP.01.tx.02

Body copy

Reference:

<https://www.facebook.com/rosevilleutilities/videos/underneath-roseville-resides-hundreds-of-miles-of-sewer-pipe-the-sewer-pipe-syst/750927531660443/>

Word count: 69

Grade level: 4

There are no alligators in Roseville's sewers! But things that shouldn't get flushed find their way down the drain. The sewer mostly flows by gravity, with the occasional help of pump stations when a hill gets in the way. Oil and grease from cooking, along with wipes, build up on pipe walls. Tree roots grow into the pipes in search of water.

The utility inspects and maintains sewer lines and pump stations to keep everything moving.

WW.04.GP.01.im.01

Image: clogged pipe

Source: liftstation1.jpg

WW.05 Meet the microbes

This display makes the microscopic visible! A multi-touch display lets visitors peer into the water to interact with the microbes that clean up wastewater.

The display resembles an oversized droplet of water—a domed touchscreen or projection that visitors can explore. On the screen, a series of microbes appear to float by in the water. Visitors can touch on one of these to bring up a 3D model of it to learn about its purpose: certain microbes target certain particles.

Multi-media

- Additional work will be required to ensure that this interactive works within the lighting conditions of the space.

Interpretive goals and outcomes

- Visitors will understand that wastewater is cleaned through a largely biological process, not chemical. This is like what nature does—just on a faster, concentrated scale.

WW.05.EF.01 Interactive base

WW.05.AV.01 Interactive program

The interactive is largely open-ended to encourage repeat interaction. A number of microbes float around on the touch display. Visitors can touch a particular microbe to bring up a 3D model and learn about its properties—what conditions it likes to live in and the sort of work it does. The microbes show some “personality” as they move across the display, and the 3D model is more cartoonish than realistic.

WW.05.AV.01.tx.01

Draft interactive script

Reference from *Treatment Plant Operator* magazine:

https://www.tpomag.com/online_exclusives/2015/10/6_photos_of_creepy_crawly_waste_water_microorganisms; <https://www.tpomag.com/tags/bug-of-the-month>

Interactive stage	Interactive	Interactive/video content
Attract loop	What's in the wastewater? Touch to start	When not in use, the interactive will show slowly drifting microbes.
Main screen	Meet the microbes that clean up wastewater! Touch a microbe to learn more.	When triggered, the screen fills with a variety of microbes. The microbes behave in different ways: some might grow or multiply

	[Selections: • Suctorian • Tardigrade • Zooglea • Rotifer • Ciliate • Nitrosomonas and nitrobacter • Methanogens • Filamentous bacteria • Anammox]	before being flushed away. Others could go after different types of influent on screen. As visitors hover near one, it enlarges. When visitors touch a microbe, the interactive brings up a 3D model of that microbe that visitors can spin and examine.
Suctorian ²	I'm called a suctorian. When you see us, you know your sludge is healthy! Suctorians use hollow spines to suck gel out of protozoans.	A suctorian shakes its spines. The animation shows it pulling out a straw and sucking cytoplasm out of a protozoan
Tardigrade	Roar! I'm a tardigrade, also known as a water bear. I can be found in older sludge. I am tough, but water bears like me are sensitive to ammonia. Water bears prey on algae, nematodes, and rotifers.	A tardigrade waves its legs. The animation could show a water bear eating some algae.
Zooglea ³	Some call us glue, but we're really zooglea. I am common at the beginning of wastewater treatment—I help stick bacteria together!	A bunch of zooglea wiggles and stick together
Rotifer	Don't mess with me, I'm a rotifer! I prey on algae with my large mouth.	A rotifer nods her head. The animation shows her hunting and eating algae.

² <https://www.santabarbaraca.gov/civicax/filebank/blobdload.aspx?BlobID=238658>

³

https://www.tpomag.com/online_exclusives/2020/11/bug-of-the-month-zoogloea-the-glue-of-floc-formation

Ciliate ⁴	I'm a ciliate . I use little hairs to sweep bacteria and other debris that I eat.	A ciliate waves its stalk. The animation shows a ciliate sweeping bacteria toward its gullet.
Nitrosomonas and Nitrobacter ⁵	Meet the twins— nitrosomonas and nitrobacter . You'll find lots of us early in the wastewater cleaning process. We work as a team. First, nitrosomonas convert ammonia into nitrites, then nitrobacters turn those into nitrates.	A team of nitrosomonas and nitrobacter work together like a sports team: nitrosomonas convert ammonia to nitrites before passing them on to nitrobacter.
Methanogens ⁶	Burp! Excuse me, but I'm a methanogen . I work in the digester, turning sludge and other materials into methane gas. The utility uses this gas as a source of energy.	A methanogen eats a bunch of sludge and then belches out methane gas.
Filamentous bacteria ⁷	You can't have sludge without us filamentous bacteria . We round up the sludge particles to make clearer water in the secondary clarifier.	A group of filamentous bacteria lasso sludge with their filaments to form a grouping.
Anammox ⁸	I'm an anammox , and I do something cool. I take nitrites and ammonia and turn them directly into nitrogen gas. Did you know that most of the air you breathe consists of nitrogen?	A circular anammox sips up ammonia and breathes out nitrogen gas.

Purple pipes carry recycled water

WW.06.GP.01.tx.02

Body copy

Word count: 67

You have probably seen purple pipes like this in Roseville. This is recycled water. It is not treated to safe drinking standards, but it has plenty of other uses! The Wastewater Utility cleans and disinfects recycled water, making it safe for watering parks like the Inspiration Garden! The Electric Utility uses recycled water as it makes electricity. By using recycled water, we save precious drinking water resources.

WW.06.GP.01.im.01

Image: purple pipe at a park

Source: LX1C2500.jpg

Area 7: Stormwater (ST)

Key topics

- Stormwater is not treated—so we all have a direct impact on the environment through pollutants and runoff that go into stormwater drains.
- Much of what affects stormwater is too small to see with the naked eye.
- Our watershed connects us all.

Goals and objectives

- Visitors will learn how they can mitigate stormwater runoff in their homes through landscaping and other actions.
- Visitors will be inspired to visit one of the creeks that the stormwater division helps maintain in Roseville.
- Visitors will discover how animals and people benefit from clean creeks and riparian habitats.

Area description

The third and final partner in the water story is the stormwater division. Unlike drinking water and wastewater, stormwater is not treated—it's everything that flows from the gutters and storm drains into the creeks and watershed.

In this exhibit, visitors can learn about their watershed. The display is located near to the view of the new Inspiration Garden, helping to connect story and site.

A fun, colorful cutaway display shows how runoff moves across the landscape and enters the water. This consists of a large background graphic and a sculpted model of Roseville. Visitors can use an interactive here to drop balls that represent water and runoff into stormwater drains, only to see those balls emerge elsewhere in the landscape—including Roseville's creeks.

ST.01 Utility intro panel

A panel on the wall of this section introduces visitors to stormwater.

Interpretive goals and outcomes

- Visitors will understand what the stormwater division in Roseville does.

Proposed storylines

ST.01.GP.01 Utility intro panel

This panel will be attached directly to the wall so will not need a platform base.

ST.01.GP.01.tx.01

Panel title and subtitle

Word count: 8

Stormwater **Keeping pollution out of Roseville's waterways**

ST.01.GP.01.tx.02
Body copy
Word count: 45
Grade level: 7

When rain and water flow into the gutter, they become stormwater. Unlike other water, stormwater is not treated—it runs down the gutter, through the grates, and right to the creeks. Stormwater program staff work with residents to keep pollution and trash out of Roseville's waterways. Our actions impact stormwater directly!

ST.01.GP.01.im.01
Image showing the work that the stormwater utility does
Source: Roseville Environmental Utilities 6-DJI_0202.jpg

ST.01.GP.01.tx.03
Fast fact
Reference: <https://www.epa.gov/laws-regulations/summary-clean-water-act>
Word count: 22
Grade level: 7

The Stormwater department exists because of the Clean Water Act of 1972—it jump-started communities to think about pollution in their surface water.

ST.02 Interactive: only rain down the storm drain!

This interactive represents the journey of runoff as it flows through the watershed. The display consists of a stylized model of Roseville—not to scale, but with some recognizable landmarks or buildings.

Visitors can drop small balls that represent runoff into a stormwater drain. The balls flow through the pipe and emerge on the other side in a setting that suggests Dry Creek.

The balls come in different colors to represent different types of stormwater waste, and these could correspond with different receptacles: for instance, visitors can drop orange balls—representing green waste and leaf litter—into the orange tube to see them emerge near a waste services truck, destined for composting.

Messaging with this interactive interprets how pollutants impact the watershed, and the responsibilities that individuals have to keep those pollutants out of the water.

Interpretive goals and outcomes

- Visitors will understand that whatever they put into the stormwater system emerges directly into the creek.
- Visitors will feel inspired to keep the creeks clean and will learn what they can do at home to mitigate runoff from their driveways and gardens.

ST.02.EF.01 Stylized City model

The City model will show landscape, creek, and several types of buildings: residential and businesses. This will be stylized and durable to hold up to lots of tactile exploration. It will show a landscape that is native to Roseville (with oak trees instead of pines, etc.)

ST.02.IN.01 Ball interactive

These will be racquetballs: large enough that they won't be choking hazards for young kids, but not so large they get unwieldy.

ST.02.GP.01 Topic panel

A panel on the wall provides context and instructions to the interactive.

ST.02.GP.01.tx.01

Panel title

Word count: 4

Where does stormwater go?

ST.02.GP.01.tx.02

Body copy

Word count: 44

Grade level: 4

Storm drains aren't sewers. As water flows down the gutter, it picks up pollutants along the way. Stormwater doesn't get cleaned or filtered. What goes down the drain, comes out in the creek.

These balls represent different types of stormwater pollution. **Drop them where you think they should go.** What happens?

ST.02.GP.01.im.01

Image: stormwater system: drains or outlet pipes

Source: <https://www.istockphoto.com/photo/wastewater-gm824824072-133713425>

ST.02.GP.02 Housefront illustration

One of the houses has a cutaway illustration: a graphic of a home interior.

ST.03 Roseville's watershed: custom illustration

A custom illustration sits behind the interactive model. This features information about watersheds as well as providing the backdrop to the interactive. Lots of small imagery will be built into the illustration to provide a scavenger hunt or look-and-find puzzle for visitors to enjoy.

Interpretive goals and outcomes

- Visitors will understand that they are part of a watershed—the way that water flows across a landscape.
- Visitors will understand how their actions impact the stormwater division.

ST.03.GP.01 Custom illustration

Through this artwork, visitors can discover their part in the watershed.

The illustration will show rain falling on the ground and moving across the landscape—especially hard, impervious surfaces like driveways, parking lots, and roads—and out to the creeks. The creek will include illustrations of salmon and other wildlife and will also show people enjoying recreation in lands and watersheds restored by Roseville's stormwater division.

The illustration can be used like a scavenger hunt. It will feature lots of little examples of how our actions affect stormwater, positively and negatively, such as:

- People not picking up after their dogs versus people bagging their pets' waste.
- A person cleaning out their house painting brush out and letting water run into the street.
- Someone washing their car in the driveway.
- Someone gathering trash at a park before it blows into the creek.
- An automatic lawn sprinkler going on even when not needed.
- A native plant garden compared to an overfertilized lawn or garden.
- A vehicle leaking coolant.
- Roseville stormwater program staff interacting with a homeowner.

Callouts on the illustration can help visitors understand what they're seeing.

Custom illustration
Source: BartXD

ST.03.GP.01.tx.01

Scavenger hunt prompt

Word count: 24

Grade level: 3

Take a look at this illustration. What things might pollute stormwater? Can you find people who are helping to protect the water and land?

ST.03.GP.01.tx.02

Callouts point out specific actions or behaviors

- Rain and water pick up pollutants as they flow across hard surfaces like parking lots and streets.
- Yuck! Pet waste left on lawns and sidewalks washes into storm drains.
- Uh oh! Can you find cars leaking oil, gas, or coolant?
- Stormwater workers are here to help!
- What happens when water from your lawn flows into the street?
- Be a good neighbor. Pick up trash so it doesn't blow into stormwater grates.

ST.03.GP.02 Dimensional letters

These dimensional letters provide the title of the whole exhibit.

ST.03.GP.02.tx.01

Title

Word count: 6

Only rain down the storm drain

.....

Area 8: Electric (RE)

Key topics

- Power generation and distribution. Roseville Electric works every day to supply safe, reliable, affordable electricity to the City.
- The choices we make at home impact Roseville's electric grid and our energy resources, which include a diverse portfolio of both renewable and non-renewable resources.

Goals and objectives

- Visitors will understand that Roseville generates its own energy as well as purchasing it.
- Visitors will learn how and energy demand changes throughout the day.
- Visitors will feel inspired to make a change to reduce their energy usage.

Area description

The final utility section of the exhibition tells the story of electricity. Roseville is unique in the region in that it produces its own electricity and purchases some—the City's reliability and low rates are directly connected with the planning and work the utility does.

An exhibit looks at how utility workers maintain miles of underground and aboveground lines. Visitors can roleplay as they stand in the bucket like the ones linemen use.

Visitors can explore an exhibit to learn how the utility generates and distributes energy—and the challenges of maintaining an electric grid in an age where increasing numbers of houses have solar arrays.

RE.01 Utility intro panel

Most people switch on the lights and run appliances without ever thinking about where their electricity comes from. This vertical graphic panel introduces visitors to the people who make that energy possible: Roseville Electric. For more than 100 years, Roseville Electric has been supplying power to the City.

Interpretive goals and outcomes

- Visitors will understand the story of Roseville Electric—and that their electricity comes from this utility, not PG&E.

RE.01.EF.01 Panel base and platform

This panel platform also holds the mannequin and utility pole in the RE.02 display below.

RE.01.GP.01 Utility intro graphic

Word count: 8

Electric
The power to make a difference

RE.01.GP.01.tx.02

Body copy

Word count: 42

Grade level: 6

Day and night, Roseville Electric keeps the City powered. We make our own electricity, and we buy power from “the grid”—a network that stretches across several western states. Around 85 percent of Roseville’s lines run underground. That makes them especially reliable.

RE.01.GP.01.tx.03

Image showing the work that the electric utility does

Source: Roseville Electric, LX1C3917.jpg

RE.01.GP.01.tx.03

Fun fact

Word count: 21

Grade level: 7

Roseville Electric maintains 144 miles of overhead lines and 808 miles of underground cable—enough to stretch from here to Canada!

RE.02 Power on the line

This display lets visitors roleplay and imagine what it’s like to work for Roseville Electric.

A portion of the exhibit sits on the same platform as the intro panel. A themed display uses an actual utility pole. A full-size cutout of a working lineman is attached near the top of the pole.

On the opposite side of this display, located on the reverse of the intro panel, visitors can handle some replica lineman’s tools.

Interpretive goals and outcomes

- Visitors will make a connection between RE and the power that flows into their homes.

RE.02.EF.01 Scenic theming: utility pole and infrastructure

RE.02.OB.01 Objects to support theming

The utility pole that the lineman figure attaches to will be a physical replica: a weathered backyard pole with cross arms and glass insulators at the top. A transformer sits on the side of the pole.

The pole and box will be replicas, but the glass insulators can be real objects.

RE.02.GP.01 Cutout lineman figure

A cutout graphic figure is dressed in safety gear and a climbing harness and appears to be climbing up the utility pole.

RE.02.GP.01.im.01

[Callouts on the illustration]

- **A hard hat** protects from falling debris.
- **Safety glasses** shield our eyes.
- **A safety harness** clips to the boom truck.
- **Work boots** grip when climbing.

- **Fire-resistant clothing, gloves, and rubber sleeves** protect us from electricity.
- An insulated **hot stick** moves live wires.

RE.02.GP.02.tx.02

Body copy

Word count: 24

Grade level: 6

Can you imagine climbing a utility pole while wearing 50 pounds of equipment? That's just one job we do to keep the lights on!

RE.02.OB.02 Tactile safety gear

Tactile objects are attached to the silhouette on the panel. These will be safe for visitors to touch and interact with—they will not be removable.

Objects:

- Hard hat
- Gloves
- Safety harness
- Boots
- Tool belt
- Hot stick

RE.03 Powering Roseville

How does Roseville provide power to all its residents and businesses? A display along the wall near the Tech Lab lets visitors explore energy generation and distribution in Roseville in response to changing demand. The wall display consists of a large illustration of the City. The map is divided into eight zones (based loosely on existing neighborhoods) that are served by four electrical substations. The exact locations of substations will not be revealed.

Using a series of connections and wires, visitors can hook up the neighborhoods to the electric substations to light them up. As visitors explore the interactive, they can discover how looping systems in the City prevent outages.

Two “control screen” touchscreens on the map offer randomized scenarios so visitors can respond to changing demands, challenges, and surges. Can you keep the power flowing to Roseville?

Interpretive goals and outcomes

- Visitors will grasp the complexity of the grid in Roseville.

- Visitors will be able to see how energy gets from the power plant to their homes.

RE.03.EF.01 Exhibit furniture

The exhibit is themed out to suggest some of the infrastructure of the massive power plant at REP. It includes faux insulators and wires that help immerse visitors in the story of electricity generation and distribution.

The display also includes storage for the wires and connectors.

RE.03.GP.01 Backdrop graphics

The backdrop to this display is a simplified birds-eye illustration of Roseville.

RE.03.GP.01.im.01

The illustration is like a “diner map” of the City, with major areas of interest or landmarks shown in a fun, friendly treatment. These are not to scale.

Source: BartXD to create

Landmarks:

- Utility Exploration Center
- Vernon Street Town Square
- Maidu Regional Park
- Galleria (shopping complex)

Draft interactive script

Interactive stage	Interactive script	On-screen content
Attract loop	Can you keep the power flowing through Roseville?	Simple illustrations on-screen could show the connections plugging into each other, to demonstrate to pre-literate visitors how the interactive works.
Randomized scenarios		Randomized scenarios occur as visitors use the

		interactive. The first should happen within 10–15 seconds of the visitor first using the interactive [exact time to be determined by AV contractor]: long enough for visitors to get a handle on what they are supposed to do, but short enough that they don't walk away after plugging just a few wires in.
Scenario: grid maintenance	Routine maintenance A substation is scheduled for regular maintenance to keep it reliable. Can you get power to the neighborhood in a different way?	An animation or simple illustration shows workers at a substation, doing repairs. One of the substations on the wall becomes unavailable while this scenario is happening. The screen reverts when the scenario is addressed. [This scenario could be randomized to show up multiple times in slightly different ways: maintenance could affect underground lines, substations, utility poles, etc.]
Scenario: traffic accident [human-caused damage]	Accident! Uh oh, a car hit a utility pole and knocked power out in a neighborhood. Can you send electricity there in another way while workers fix the problem?	An animation or illustration shows a car crashing into a utility pole and damaging a transformer. On the wall panel itself, one of the neighborhoods goes dark. The situation rights itself when the scenario is addressed.

		[Other, human-caused scenarios could happen in a randomized way to offer variety: a mylar balloon gets tangled in the wires and causes a short, etc.]
Scenario: natural disaster	Lightning strike Boom, crash! A severe rainstorm knocks the power out. Can you restore electricity quickly?	This scenario is similar to the above traffic accident: one substation becomes unavailable and a neighborhood goes dark. [Other randomized scenarios based on natural disasters like this could include windstorms or wildfires]
Scenario: solar power reduces demand on the grid.	Solar power The sun is shining, and all the houses in one neighborhood have solar panels. They don't need electricity from the grid right now. Is that power needed somewhere else?	One neighborhood lights up without the need of a substation. Visitors can use that connection to power a different neighborhood. [Other randomized scenarios based on demand could include Roseville sending power out to other communities on the grid,
Scenario: heat wave demand	High Demand It's a heat wave and all the houses in this neighborhood turned their air conditioning on. Can you send them extra power to cover demand?	One neighborhood requires more power than usual to light up. Visitors have to reroute additional power to that section.

RE.04 Electricity in action

A photomural on the back wall features some simple annotated illustrations: of a turbine that generates energy, and of Roseville's other major energy sources.

RE.04.GP.01 Photomural

Where does Roseville's electricity come from?

RE.04.GP.01.tx.02

Annotations

Annual power content:

https://www.roseville.ca.us/government/departments/electric_utility/about_us/reports_publications/power_content_label

At Roseville Energy Park, two different kinds of turbines create electricity.

A simple-cycle gas turbine uses natural gas to generate electricity.

[Simple-cycle turbine annotations]

- Moving air gets sucked into the blades of the turbine, where it is compressed.
- Gas is added to the air and lit on fire. Bang!
- Hot exhaust blows out the other end of the turbine.

A combined-cycle gas turbine takes an extra step by recovering the heat to make steam. The steam then runs its own generator—so the process is more efficient.

[Combined-cycle turbine annotations]

- Moving air gets sucked into the blades of the turbine, where it gets compressed.
- Gas is added to the air and lit on fire. Bang!
- The hot exhaust boils water to make steam.
- The steam turns the blades of a second turbine.
- The water cools and gets used again and again.

[Source annotations]

Roseville gets its power from many sources.

- Renewables
- Hydroelectric
- Natural gas
- Nuclear

Every year, the utility puts out a report to tell you exactly where your electricity came from.

Area 9: Utilities in the home (UH)

Key topics

- The actions and decisions we make in our everyday lives at home—indoors and outdoors—and in our businesses add up to affect our utilities, and by extension our bills and our environment.

Goals and objectives

- Visitors will make emotional and intellectual connections between their daily lives and the work of the utilities.
- Visitors will come away with concrete tips for changes they can make at home.

Area description

This section of the exhibit brings the utilities home—literally! The Green House frames will be repurposed and reused to create a home environment that visitors can explore and interact with.

Different sections of the house will be lightly themed out to suggest different rooms: a kitchen, a bathroom. Each of the utilities will have space in the house with a low-tech, hands-on activity that helps visitors understand how they can save water and electricity and reduce waste in their homes. This story continues outside the house as well: a long reader rail by the windows addresses stormwater impacts relating to landscaping and outdoor activities.

One final exhibit in this section brings all these pieces together. At an interactive display, visitors can make a variety of at-home selections and choices—about everything from shutting off lights to replacing appliances—to see the cumulative impact of their decisions.

UH.01 Area intro and house exterior

A vertical panel introduces this section of the exhibition. Here visitors can connect utility actions directly to their homes—and think about how their actions can positively and negatively affect the utility and our environment.

Around the exterior of the house, a series of topic panels offer interpretation about how Roseville residents use energy and water and how visitors can save water and energy and reduce waste.

Across from the house entrance, we will use the existing graphic to hold additional panels: blocks of color and friendly prompts. Two panels—located down low—will serve as chalkboards for kids to draw and write.

Interpretive goals and outcomes

- Visitors will understand how the utilities connect with their homes.
- Visitors will be excited to explore and learn more about their energy, water, and waste choices.

UH.01.EF.01 Green House frame [existing]

Two sections of the Green House frame will be reused in this exhibition; the third section will be moved to the Legacy Building to serve as the backdrop to the house display there.

UH.01.EF.02 Panel base and platform

The panel base stands at the entrance to the house frame.

UH.01.GP.01 Area intro panel

A large vertical panel at the entrance of the house provides an overview to the messaging of this exhibit area.

Panel title
Word count: 8

How can you reduce stormwater pollution at home?

UH.01.GP.07.tx.02
Tip copy
Word count: 61
Grade level: 4

- Use compost and mulch to reduce the need for fertilizers and pesticides.
- Encourage good bugs in your yard—they'll eat pests!
- Water your lawn and garden only when dry.
- Bag up and throw away pet waste.
- Take your car to a carwash rather than washing it in the driveway.
- Soak up oil and antifreeze stains with cat litter, and throw it in the trash. Put a pan below vehicles that drip.

- Work with a stormwater expert to identify other steps you can take.

UH.01.GP.08 Topic panel: energy saving tips

This exterior panel is located on the other side of the Electrical display. The content features tips and information on how visitors can save energy at home.

UH.01.GP.08.tx.01

Panel title

Word count: 7

What can you do to save electricity?

UH.01.GP.08.tx.02

Body copy

Word count: 50

Grade level: 6

- Unplug devices when not in use. Some appliances like computers use electricity even when they are off.
- Heating and cooling are the biggest energy hogs in the house. Try setting your thermostat a few degrees cooler in the winter and warmer in the summer.
- Replace old appliances with energy-efficient ones.

UH.01.GP.08.im.01

Icon of electrical savings

Source: BartXD

UH.01.GP.09 Topic panel: wastewater tips

This topic panel is located on the exterior wall outside the bathroom display. It offers information about how visitors can help the wastewater utility at home.

UH.01.GP.09.tx.01

Panel title

Word count: 7

How can you help the Wastewater Utility?

UH.01.GP.09.tx.02

Body copy

Word count: 43

Grade level: 4

- Use non-toxic cleaners to keep chemicals out of wastewater.
- Don't flush wipes! Only pee, poo, and toilet paper should go in your toilet.
- Dispose of medications properly—don't flush them.
- Every bit of food that goes into the garbage disposal increases the odds of a sewer clog. Compost your food scraps instead of sending them down the drain.
- Never dump fats, oils, or grease down your drain.

UH.01.GP.09.im.01

Icon of wastewater savings

Grade level: 3

- Set up a Water Wise House Call with us. We will check your house for leaks.
- Install water-saving sinks, toilets, and showerheads.
- Shut off the faucet when you brush your teeth.

- Run your dishwasher and washing machine only when full.
- Outdoor irrigation is the biggest water user at home. Consider low-water landscaping.
- Water your lawn only when it needs it—and during the cool parts of the day.

UH.01.GP.10.im.01

Icon of water savings

Source: BartXD

UH.01.GP.11 Topic panel: how do you compare?

This panel sits adjacent to the main intro panel. It interprets the average Roseville resident's use of utilities—and challenges them to see what they can change!

UH.01.GP.11.tx.01

Panel title

Word count: 4

How do you compare?

UH.01.GP.11.tx.02

Body copy

Reference:

https://www.roseville.ca.us/government/departments/environmental_utilities/News/every_day_that_is_how_ofen_we_use_water

<https://www.electricitylocal.com/states/california/roseville/>

Word count: 58

Grade level: 1

The average resident in Roseville:

- Uses between 100 and 115 gallons of water per day.
- Takes an 8-minute shower.
- Uses about 573 kWh per month. That's enough to run a hair dryer, day and night, for almost 24 days!
- Throws away about 4.5 pounds of trash each day.
- Flushes the toilet an average of 5 times per day.

UH.02 Interactive: what's your impact?

In this hands-on display, visitors will be able to make a variety of choices that impact the utilities to see how their decisions add up. The interactive can also show the cumulative impact of those choices: if everyone in Roseville made the same choices, how would it affect the City and the utilities? We could also build in some social media prompts here so visitors could share the results of their choices online.

Interpretive goals and outcomes

- Visitors will feel empowered to look at the choices, big and small, that they can make at home.
- Visitors will think about the big picture and the cumulative impact of their individual actions.
- Visitors will come away with at least one tip or action that they can take at home.

UH.02.GP.01 Background graphic

A graphic panel sits behind the interactive with the title of the interactive,

UH.02.GP.01.tx.01

Title

Word count: 4

Small steps add up

UH.02.IN.01 Interactive

Using the interactive, visitors move sliders, press buttons, or toggle switches to make choices: turn off items that draw power when not in use; replace inefficient appliances, etc. A small monitor on the panel tallies the impact of the choices.

UH.02.AV.01 Monitor showing cumulative impacts

A small monitor on the interactive totals the impact of each visitor's choices. It can also show how much more impact happens if we all take small steps: one person saving a gallon of water a month may not seem like much, but if every person in Roseville did the same, that's nearly 150,000 gallons—enough to fill more than 10 standard swimming pools!

Interactive stage	On-screen text	On-screen content/images
Attract loop	How do your changes add up? Touch to start	The attract loop can include some simple animation—a light switching off, a tap turning off—to prompt visitors to interact.
Main screen	Try making choices on this model to see what happens.	As visitors toggle the switches and make selections on the house, the monitor shows the effect. Toggle options • Dishwasher • Clothing washer/dryer • Trash/compost • TV • Lightbulbs • Toilet
Cumulative effect	[The text on screen will reflect the choices made] Water [individual] You saved [X] gallons of water a month. [cumulative] If every house in Roseville did the same, we'd save [X] gallons of water! Electricity [individual] You cut your energy usage by [X] kilowatt hours. [cumulative] If every house in Roseville did the same, we'd save [X amount] of electricity! Waste	The screen is divided in two: one half shows the individual effect, the other half shows what would happen if every household in Roseville made that change (there are approximately 53,000 households in Roseville, so that will be the multiplier)

	[individual] You cut your waste by [X amount]. [cumulative] If every house in Roseville did the same, we'd reduce waste by [X amount]!	
--	--	--

It can be hard to feel like one person makes an impact. But your choices add up! What happens if we all make a small change?

UH.02.GP.01.tx.03

Tip copy

Word count: 30

Grade level: 7

Do you have questions about electricity, water, wastewater, stormwater, or waste services? Your utilities are here to help. We can offer guidance, programs, and even money-saving rebates. Get in touch!

UH.03 Electricity station

The existing energy crank will be updated with new appliances and messaging. Additional messaging could show visitors the biggest sources of energy usage in the house: in most houses, the HVAC is the biggest energy hog.

Interpretive goals and outcomes

- Visitors will understand what appliances in the home use the most electricity.

UH.03.OB.01 Energy crank [existing, refurbished]

This will be refurbished by the fabricator to connect with new appliances and run a little quieter when turned.

UH.03.IN.01 Interactive

Visitors turn the crank on the interactive to power up different electronics mounted to the graphic.

Small appliances and electronics to be powered up:

- Phone charger: backlit graphic of a generic phone plugged into a wall charger: 6 watts
- LED light bulb: (60-watt equivalent): 13 watts
- Air conditioner: Image of a 900-watt unit, istock 969223304 over a working fan (so air blows when the appliance is engaged)

UH.03.GP.01 Interpretive graphics

The background graphics provide information about energy usage and also instructions for how to use the interactive.

UH.03.GP.01.tx.01

Panel title

Word count: 4

Crank up the power

UH.03.GP.01.tx.02

Body copy

Word count: 41

Grade level: 5

How much electricity does it take to run a TV? What about an efficient LED light? Different appliances and electrical devices use different amounts of electricity.

Turn the crank to see how much energy you need to power up these items!

UH.04 Water station

A sink anchors the display about the water utility, showing how visitors can be more efficient in their water usage. Visitors can stop a drip—suggested through LED lighting—by turning the faucet and moving the handle on the toilet. The resulting water savings is shown on an electronic counter.

Interpretive goals and outcomes

- Visitors will discover at least one way they can save water at home.

UH.04.EF.01 Sink environment

Theming will suggest a bathroom sink. (Note that this part of the exhibit also holds the toilet, which is coded as UH.05.EF.01)

UH.04.IN.01 Interactive

The default position for the interactive will be a slow “drip” made from LED lighting. This leak can be connected to a small digital counter that tallies up the drip rate, showing how much water is lost over time. For instance, a typical leak of 10 drips per minute adds up to about a gallon a day, or 29 gallons a month! Visitors can turn the tap higher (up to about 120 drips per minute for 11 gallons a day) to see the water waste even faster, or they can turn the tap all the way off to stop the waste.

Visitors can also jiggle the handle on the toilet to stop it (temporarily) from running.

Reference: <https://water.usgs.gov/edu/activity-drip.html>

UH.04.GP.01 Topic panel

A topic panel on the wall by the toilet holds instructions for both the water and wastewater interactives.

UH.04.GP.01.tx.01

Body copy

Word count: 15

Grade level: 1

Help us keep these items out of the toilet! They don't break down—so they can clog pipes and cause overflows.

UH.05.GP.01.im.01

Icons of non-flushable items, with labels to ID them

- Baby wipes
- Dental floss
- Paper towels
- Q-tip/cotton swab
- Make-up removers or cotton balls

Source: BartXD

Word count: 34

Dental floss gets wrapped around items and causes blockages.

Even so-called “**flushable wipes**” don't break down in the toilet. Throw them out instead!

Paper towels, makeup removers, and cotton buds cause clogs in the sewer.

UH.06 Waste services station

In a kitchen environment, visitors can sort a variety of trash items into different bins to learn more about Roseville's recycling and organics composting programs.

The display holds a series of waste items, from food waste to paper goods to bottles to batteries. Visitors sort the items into the bin corresponding with the right category (trash, organics, hazardous waste), and a light on the interactive tells them if they got it right. Once the items have been sorted, they can automatically reset.

The items could be replaced or re-tagged if Roseville changes the way it manages different sorts of waste.

Interpretive goals and outcomes

- Visitors will feel confident about what they can compost, recycle, and dispose of in hazardous waste.

UH.06.EF.01 Kitchen environment

The kitchen environment includes a countertop compost bin and a replica pile of dishes with food scraps to help tell a story of organics composting in Roseville.

The kitchen will include a replica FOG can (fats, oils, and grease) sitting on the countertop as a tie to the wastewater utility. A replica produce sticker could be attached somewhere on the display.

UH.06.IN.01 Trash sorting interactive

The trash items can be tagged with an RFID or NFC that interacts with each bin. When an item is sorted correctly, a light on a backsplash turns green. When an item is sorted incorrectly, the light turns red.

To keep this interactive flexible, the bins will be three different colors. Each will have a spot for a changeable label, so the receptacle type can be updated if the City of Roseville changes what trash and recycling it accepts.

Bin labels

- Compost
- Trash/recycling
- Hazardous waste

Items, by appropriate bin (each item should include a photo and a written label of what the item is):

UH.06.GP.06 Topic panel: trash reduction tips

A large topic panel to the left of the sink (to the bottom left) includes content about how visitors can reduce waste at home.

UH.06.GP.05.tx.01
Panel title
Word count: 7

What can you do to reduce waste?

UH.06.GP.05.tx.02
Tips
Reference: <https://youtu.be/dyKOqyt9mzA>
Word count: 37
Grade level: 6

- Limit your food waste by planning before you grocery shop.
- Reduce packaging by buying non-perishable items in bulk.
- Avoid single-use items.
- Buy secondhand and donate used goods rather than throwing them away.
- Go digital to reduce paper.

UH.07 Stormwater station

A long reader rail along the window with a view to the garden interprets how landscaping and other outdoor actions can impact the stormwater utility.

The reader rail holds an interactive component where visitors can learn how to water their lawn and garden more efficiently. This is a spinner where visitors discover how to replace water and fertilizer-intensive plants and lawn with native species.

Interpretive goals and outcomes

- Visitors will discover landscaping tips that they can use at home.
- Visitors will think about how their outdoor activities impact the utilities.

Stormwater is not just a rainy-day problem

UH.07.GP.01.tx.02

Body copy

Word count: 43

Grade level: 7

When you think about pollution, what comes to mind? Stormwater pollution can include trash, yard clippings, pet waste—and lots of chemicals. This harms creeks, wildlife, and people. Stormwater doesn't stop at Roseville: it travels hundreds of miles through other communities as it flows to the ocean.

Word count: 32

Grade level: 7

River-friendly landscaping

Your garden can help prevent stormwater runoff. Native plants tend to use less water. You can solve common pest problems with non-toxic methods. These prevent pollutants from going into our stormwater system.

UH.07.GP.01.im.03

Instructions

Word count: 22

**Can you protect our creeks with a more sustainable choice?
Scan this QR code to learn more at the Stormwater division's website.**

UH.07.GP.01.tx.05

Spinner text

Word count: 11

Turn the spinners to compare potential stormwater pollutants with greener options.

UH.07.GP.02 Window cling graphic

Below the reader rail are some fun, colorful window clings showing a creek and wildlife: younger visitors will enjoy this display just for them!

UH.07.GP.02.im.01

Illustration of creek

Source: BartXD

UH.07.IN.01 Matching Interactive

A low-tech puzzle interactive about Integrated Pest Management will be attached to the reader rail. A bin on the rail holds two kinds of puzzle pieces: stormwater pollutants and more sustainable replacements. Visitors can select pieces to try to match them up on a frame on the reader rail. When they successfully make a match, the two pieces complete a picture!

Multiples of the puzzle pieces can be supplied in case some get damaged or go missing. The UEC can also create new matching pieces in the future if they want to refresh this component.

UH.07.GP.03 Matching graphics #1

UH.07.GP.03.tx.01

Spinner text 1: Fertilizer/compost

Pollutant: fertilizer

When fertilizer gets into the water, it causes algae to bloom.

Replacement: compost

Feed your landscaping with compost—it stays where it's placed. It also helps the environment because composting keeps those materials out of the landfill.

UH.07.GP.04 Matching graphics #2

UH.07.GP.04.tx.01

Spinner text 2: pesticides/beneficial insects

Pollutant: pesticides

Yuck! Pesticides in the creek hurt wildlife and can damage drinking water supplies.

Replacement: beneficial insect

Ladybugs, lacewings, and mantises provide natural pest control.

UH.07.GP.05 Matching graphics #3

UH.07.GP.05.tx.01

Spinner text 3: invasive/native

Pollutant: invasive plants

Invasive plants can take over a garden and choke out other plants.

Replacement: native plants

Native species have evolved to provide food and shelter to wildlife.

UH.07.GP.06 Matching graphics #4

UH.07.GP.06.tx.01

Spinner text 4: overwatering/mulch

Pollutant: overwatering

Only water when needed. Overwatering promotes excessive growth, which attracts pests.

Replacement: mulch

Hold water in your garden with mulch. This provides a slower, well structured growth that resists pests.

UH.08 Bench seating

A low bench will be available for seating just outside the house.

UH.08.EF.01 Seating

Area 10: Tech lab (TL)

Key topics

- Family and classroom activities and hands-on exploration.

Goals and objectives

- Classrooms will have space to work on guided or open-ended projects together.
- Families will be able to work collaboratively on activities or special events.

Area description

The tech lab offers a flexible space for UEC staff to host school groups and weekend activities.

TL.01 Orientation signage

The tech lab will display a signage panel that lets visitors know when it is open to the public; and what sort of activities they might be able to participate in.

Interpretive goals and outcomes

- Visitors will understand the purpose of the tech lab.
- Visitors will feel excited to visit the UEC for a tech lab event or activity weekend.

TL.01.GP.01 Graphic panel

The graphic includes permanent content about the Tech Lab. The panel also includes an acrylic sign holder where staff can print and display changing information about Tech Lab hours, or upcoming events and programs.

TL.01.GP.01.tx.01

Panel title

Word count: 2

Tech Lab

TL.01.GP.01.tx.02

Body copy

Word count: 42

Grade level: 7

Get ready to build, design, and have fun! The Tech Lab is a place for engineering activities and hands-on exploration. Our staff facilitate award-winning programs for school groups and other organizations. You can also join us for weekend activities and special events.

TL.01.GP.01.im.01

Image: kids interacting with Tech Lab activities

Source: E55B7976.jpg

TL.01.GP.01.tx.03

Fun fact

In the Tech Lab, we don't just teach facts: we teach students how to ask good questions and innovate. This helps prepare students for life, no matter what path they follow.

TL.01.OB.01

Object: plexiglass sign holder

This sign holder allows staff to print and display opening hours, schedules of events, or welcome signage for groups coming to the Tech Lab.

TL.01.GP.02 Dimensional letters

Magnetic board with dimensional letters

Dimensional letter text

Word count: 5

[Discover more at the UEC](#)

TL.02 Activity Kit Seating

Throughout the UEC will be spaces where families can gather and work on activity kits together. These will be low tables with three or more chairs.

**Note: while these are coded with the Tech Lab, they will be located throughout the center, not in the Tech Lab where there is already seating.*

Interpretive goals and outcomes

- Visitors will be excited to participate in open-ended play and exploration.

TL.02.EF.01 Tables (4 total) and chairs (12 total)

Currently we have designated four spots in the UEC for gathering and activities. However, these tables and chairs can be moved and relocated as needed.

TL.03 Announcement Board

A new magnetic board will replace the existing bulletin board near the entrance. This will display changing information about programs, events, and topics. It can also be used for the center's League of Explorers program.

TL.03.OB.01 Magnetic board

TL.04 Literature Rack

A literature rack will sit below the magnetic board.

TL.04.OB.01 Literature rack

TL.05 Hand Sanitizer Station

An off-the-rack hand sanitizer will be attached to a circular graphic with UEC branding.

TL.05.OB.01 Hand sanitizer**TL.05.GP.01 Circular graphic**

TL.05.GP.01.tx.01

Text

Word count: 10

[Keep it clean! For your safety, please use hand sanitizer.](#)

Exploration stations [NIC]

The tech lab can be the space for visitors to play and learn with the Big Blue blocks, erector sets, and other maker activities. A staff member will be available in the space when it is open to help visitors.

Appendix B: Artistic Reference

The pages below offer image and content references for the themed and artistic components that the fabricator will create for the exhibition.

Artistic reference 1: Entry pipe walkthrough with utility cross-section LO.02.EF.01

The display consists of a replica stormwater pipe that is accessible to all visitors and large enough for a family group to pass through. Over the pipe sits a street cutaway: a simulated asphalt surface with curb, and several other utility pipes beneath that.

Size: 9'- $\frac{7}{8}$ " wide x 10'-6 $\frac{3}{4}$ " high

Elements

- Large walkthrough concrete storm drain, based on a 96" pipe
 - Moment of discovery: produce stickers attached to walls of pipe
- Street section
 - Curb at left with stormwater catch basin below that leads to pipe
 - Street top surface appearing to be several inches of asphalt over a stone substrate
- Cutaway sections of conduit and pipe
 - 18" sewer pipe (green pipe)
 - 2" underground electrical conduit (yellow pipe)
 - 1" water main (blue pipe)

Reference photo

Artistic reference 2: Landfill tower and groundform theming

WS.02.EF.01

A vertical core sample of landfill shows how trash disposal—and refuge—have changed over time. A groundform connects this tower to the photomural behind.

Size: 8'-11 ¾" tall x 1'-10" wide

Elements

- Scenic garbage bags embedded into a groundform
- Landfill cutaway consists of layers of compacted trash within an acrylic housing.
From bottom to top:
 - a. Compacted clay or soil at the very bottom
 - b. Gravel layer with leachate collection pipe
 - c. Waste layer 1: compacted trash from the 1970s or 1980s: mostly unrecognizable, contains beer bottles, cans, newspapers and other unrecycled items
 - d. Daily cover layer: dark layer of soil or other fill
 - e. Waste layer 2: trash from the 1990s or 2000s: more plastics appear (water bottles), food stuffs
 - f. Daily cover layer: dark layer of soil or other fill
 - g. Waste layer 3: modern era. Contains few recyclables
 - h. Daily cover layer: dark layer of soil or other fill
 - i. Topped with cover soil

Reference photo

Full size version: https://www.wm.com/thinkgreen/pdfs/Anatomy_of_a_Landfill.pdf

Artistic reference 3: Trash pile environment

WS.04.EF.01

A recreated pile of trash will encourage people—and especially children—to explore. The display will include real, replica, and sculpted elements set into a durable groundform. These will include large-scale and smaller-scale rubbish items, including electronics and other items that kids will readily recognize. These items can be used by staff as a scavenger hunt or look and find activity.

Visitors can crawl into a low tunnel through the trash and can peer through an acrylic dome that covers a discarded washing machine.

Size: 7'-2" x 8' total

Elements

- Dirt-colored groundform holds a wide variety of secured, recognizable objects
- Crawl-through tunnel with rubber flooring (no rough edges inside to snag visitors)
- No new items will be purchased for this groundform: the fabricator should use recycled and collected materials.

Reference photo

Artistic reference 4: Chicken sculpture

WS.02.EF.02

A sculpture of a hen will be placed in the Waste Services exhibit as a fun moment of discovery for visitors and to reference the real chickens that can be found at the landfill.

Size: about 16: tall including comb

Elements

- Leghorn hen: classic whitish chicken with small red comb and wattle and yellow feet and beak
- Stance: leaning over slightly as if to peck insects on the ground

Reference photo

Artistic reference 5: Replica water pipe

WA.02.EF.01

A replica blue drinking water pipe stands vertically on the platform next to the introduction panel. This also holds the water interactive.

Size: 12'-10" tall x 2'6" wide at base

Elements

- Vertical pipe with scenic finish and faux welds at the joints
- Flange on side of pipe
- Wheel
- LED monitor covered with removable frame with scenic bolts
- To increase accessibility of this component, the pipe will include tactile arrows and lettering: pointing upward to indicate "water pumping" and downward to indicate "aquifer recharging."

Reference photos

Please note that the pipe color should be True Blue/Safety, not the color shown in this photograph.

TRUE BLUE/SAFETY

11SF

RGB: 0,94,145

Artistic reference 6: Recycled water pipe

WW.06

A purple recycled water pipe emerges from this section of the exhibit and travels across the ceiling to connect with the other side of the room (terminating at the window near the garden). The pipe will be “Irvine purple” in color to denote recycled water.

Elements

- Purple pipe

Reference photos

Artistic reference 7: Stylized city model

ST.02.EF.01

The city model will show landscape, creek, and several types of buildings: residential and businesses. This will be stylized and durable to hold up to lots of tactile exploration. It will show a landscape that is native to Roseville.

Size: 12' x 7'-8"

Elements

- Upper section showing stylized Roseville:
 - House with bathroom
 - Businesses
 - Roadway
 - Garbage truck collecting green waste
 - Stylized oak trees, rocks, grass
- Lower section showing stylized Dry Creek
 - Outfall pipe
 - "Water"
 - Rocks and trees
- Cutaway section showing pipe path
- Spots to drop balls and receptacles where the balls wind up

Reference photos

Artistic reference 8: Scenic theming: utility pole and infrastructure
RE.02.EF.01

A scenic weathered backyard power pole serves as the backdrop to the graphic cutout of a lineman. The display also includes a transformer and glass insulators.

Size: 10'-6" high (height to be verified by fabricator)

Elements

- Utility pole topped with cross arms and insulators
- Distribution transformer on side of pole

Reference photos

Appendix C: Multi-Media Content & Treatments

Below are descriptions for the content of multi-media components in this exhibition. See the design book for hardware recommendations and schematics.

AV Experience 1: Media Wall

LO.01

The media wall will run a looping series of images and announcements that can be changed and updated easily by the UEC.

Exhibit Purpose (Goals and Objectives)

- To inform visitors about upcoming and current events, programs, and activities at the UEC.
- To offer changeable content and imagery to support the UEC.

Visitor Experience

Visitors will not be able to interact with the media wall, but the program will loop. There is no audio with the program.

Run-Time

Changing based on the program. We recommend a looping length of 1–3 minutes total: long enough to not feel repetitive, but short enough to allow visitors to rewatch easily.

Draft Script

Program will be provided by UEC

Hardware

Planar URX100 4K LED monitor
BrightSign HD224 media player

AV Experience 2: Utility Map

WO.02

Imagery and animation relating to the utilities are projection mapped onto a dimensional topo map. Each utility's story will illustrate the complexity of the work and infrastructure, while also helping people understand how they rely on Roseville's utilities.

Exhibit Purpose (Goals and Objectives)

- To illustrate the complexity and interconnectivity of utility infrastructure.
- To help visitors visualize where their utilities come from.

Visitor Experience

As visitors approach the map, a motion sensor will trigger the projection to start. This will be a subtle animation to attract visitor attention.

Visitors can then use one of the two touchscreens to control the projection. On-screen, visitors can select the different utilities to see the infrastructure and pathways that the utilities take. Visitors (either using a single touchscreen or users on both touchscreens) can layer more than one utility onto the map to see where they intersect and connect. Visitors should not be able to negate each other's actions or choices—some work will need to be done by the AV contractor to ensure that the interactive can handle multiple people pressing buttons at the same time.

Run-Time

The run time is visitor driven, but we expect that most people will spend between 30 seconds and several minutes exploring the interactive.

Draft Script

Reference: <https://data-roseville.opendata.arcgis.com/pages/applications>

Interactive stage	On-screen text	Interactive/projection content
Attract loop	[looping questions on screen] How do water and electricity reach your house? Where does your sewage go? What happens to your trash when it leaves the curb? Where do Roseville's stormwater drain to? Touch to start!	The projection will be motion-activated. As visitors walk near, the projection features subtle animation along the map.
Interactive start	Select a utility to see its path through Roseville. [Selections] ● Roseville Electric ● Stormwater ● Waste Services ● Wastewater ● Water	The animation on-screen will continue, perhaps cycling through the different utilities until visitors make a selection.

Roseville Electric	(1) The city generates its own electricity at Roseville Energy Park. We also purchase energy from the grid. (2) Electricity travels to substations. (3) Electricity travels on underground and aboveground lines to houses and businesses. [Fun fact] Did you know? Roseville Electric uses recycled water from the Wastewater Utility to cool its machinery.	(1) The projection illuminates REP, with electrical lines radiating outward. (2) Several substations pop up on the map. (3) Electrical lines continue to radiate out. Houses light up as the energy reaches them. Several EVs in driveways on the map might honk their horns or unplug and drive off. Other fun moments could be added.
Stormwater	(1) Rain and snow fall on roads and sidewalks, becoming stormwater. (2) Our actions also impact stormwater runoff. (3) As stormwater travels, it picks up pollution and debris. Drains carry the water out to Dry Creek and Pleasant Grove Creek without being cleaned. [Fun fact] The Stormwater Utility restored a section of Dry Creek. It's home to salmon, birds, and other wildlife—and your actions can keep it healthy.	(1) Rain and snow fall across the map (2) Animations show people watering lawns, washing cars, trash gets caught in stormwater, etc. (3) Water flows across the city in storm drains to exit at the two creeks. A fun animation shows wildlife in the creek: salmon, frogs, wading birds.
Waste Services	(1) When you bring your cans to the curb, we show up. (2) Waste Service trucks drive routes across the city, picking up trash and green waste and bringing	(1) A neighborhood lights up, with images of cans appearing on the map. (2) A fleet of trucks drive out of the Corp Yard and across the map. If possible, the

	it to the Materials Recovery Facility for sorting and disposal. [Fun fact] Waste Services workers cover more than 14,000 miles every week! That's like driving across the country five times!	trucks follow some routes and head to the landfill and back. Animation shows trucks in action, happily honking horns, etc.
Wastewater	(1) Everything that goes down the toilet or drain in your house gets cleaned by our Wastewater Utility. Waste flows along hundreds of miles of sewer lines to one of two treatment plants. (2) The Pleasant Grove and Dry Creek treatment plants remove waste from wastewater. (3) We release cleaned water into the creeks. A portion of water is used to water landscapes and for cooling at our energy park. [Fun fact] Most of Roseville's sewers flow using gravity!	(1) The sound of showers running, toilets flushing, and washing machines running triggers a flow of wastewater out along sewer pipes. (2) The two wastewater treatment plants are animated. (3) From the treatment plants, purple pipes connect to some parks and to the REP; a truck heads to the landfill, and outfall goes to the creeks.
Water	(1) Roseville gets a majority of its water from Folsom Lake to the east. This is cleaned at our treatment plant. (2) We also store water in huge tanks. (3) We pump water from underground aquifers. In wet years, we flow excess water to underground aquifers, saving it to use during droughts. (4) Drinking water flows through its own, separate system. So your water is clean, safe, and delicious!	(1) Folsom may not be visible on the map, but the Barton Road treatment plant can come to life with flowing water and sounds. (2) The water tanks get illuminated. (3) Well sites pop up, with water coming from the ground. (4) Water flows across major water mains, triggering water usage across the map: an animation of the dancing fountain at a shopping center could start up; a public swimming pool from

	[Fun fact] Roseville slopes downward from east to west, so most of our water flows by gravity, which helps us keep rates low.	the aquatics complex could appear on the map with an animation of splashing; a kid playing in a sprinkler, etc.

Hardware

Two touchscreens
Projector
Motion sensor

AV Experience 3: Trash Sorting Interactive WS.05

On a large multi-touch surface, visitors can use an interactive to sort and divert recyclable and compostable items from the waste stream. This interactive is based on the sorting line at the MRF. It can be used collaboratively by multiple people at once.

Exhibit Purpose (Goals and Objectives)

- Visitors will be able to connect their trash with the work at the MRF.
- Visitors will be inspired to reduce their trash production.

Visitor Experience

On screen, a series of trash items move down a conveyor belt. Visitors can touch or swipe to select items for recycling or composting, removing those items from the landfill.

Run-Time

Each game should last approximately 60–90 seconds. The trash going by can speed up slightly over time, increasing the difficulty.

Draft Script

Interactive stage	On-screen text	Interactive/video content
Attract loop	Can you sort the trash? Touch to start	The screen can show an attract loop of trash whizzing by on a conveyor belt.
Interactive start	[Selection] One player or two? [Instruction screen] At the Materials Recovery Facility, workers sort trash on a conveyor	Visitors select whether they want to play alone or competitively.

	belt. Can you keep recyclables out of the landfill? Touch any recyclables you see as they whiz by. [The game could be set so that visitors have to pick a specific type of recyclable.] Today, you have to sort [paper/plastic/glass/metal] [single player] See how many recyclables you can remove. Good luck! [multi-player] Who can remove the most recyclables? Good luck! [counts down] 3-2-1-SORT!	The screen might show trash building up on the conveyor belt getting ready to sort.
Single or competitive play	[Encouragement on screen will prompt visitors] Do you see any glass? Is that a metal can? Have you missed any plastic bottles? [Incorrect sorts will be flagged] Oops, that's trash!	The game plays for a set amount of time (approximately 60 seconds) More and more trash goes by as the time ticks down, making it harder to flag your recyclables. A counter will show how many recyclables are being removed. Incorrect selections are shown in a separate counter.
Conclusion	Great job! You removed [amount] of [paper/plastic/metal/glass] before it could hit the landfill.	A conclusion screen shows the final score: correct and incorrect sorts, and winner if this was a competition. The winner could enjoy some fanfare and be designated as a Recycling Hero!

Hardware

Surface touchscreen

AV Experience 4: Groundwater interactive WA.02

An interactive at the water pipe helps visitors understand the groundwater system.

Exhibit Purpose (Goals and Objectives)

- To simulate the flow of groundwater and connect the sources of water to the water that visitors drink.
- To indicate the planning and forethought of the utility.

Visitor Experience

Visitors can turn a wheel on the pipe in one direction to start the “flow” of water (this is not actual water but a video on an embedded video screen). Bubbles on the screen pop up with information about groundwater pumping and average water usage throughout the year. When the pipe has reached its full capacity, visitors can turn the wheel in the other direction to recharge the aquifer.

Run-Time

The program should take approximately 120 seconds to complete (final time to be determined by media producer: fact bubbles can be edited or cut as needed.)

Draft Script

Interactive stage	On-screen text	Interactive/video content
Attract loop	Fill the water pipes! Turn the wheel to start!	Video or animation of bubbles and flowing water move through the pipe, while the text on screen pops up. Running time: looping until interactive is triggered
Interactive start	[On-screen text] Water is a limited resource. Right now, Roseville gets most of its water from the Sierra. To supplement flow during droughts, Roseville stores and	When visitors turn the wheel, a stream of animated or filmed water flows through the pipe. The flow starts slowly but picks up speed. A counter could show gallons of water counting up from 0 to 55 million.

	pumps water from underground reservoirs, called aquifers. [fact bubble] On a hot summer day, Roseville residents use around 50 million gallons of water! [question] Where and when do you use the most water? [instruction/prompt] Keep going! The pipe is almost full.	The text appears in bubbles on the screen.
Aquifer recovery	[On-screen text] When Roseville has excess surface water, the utility can use it to replenish the underground basin. It's like a savings account for years with low precipitation. [Fact] Roseville's water treatment plant can treat up to 100 million gallons of water a day, covering future growth in the city!	When the pipe is full (55 million gallon flow), the flow reverses. The water starts to flow back in the opposite direction. The counter counts back from 55 million gallons to zero.
Conclusion	[On-screen text] As the population of Roseville grows and droughts become more frequent, groundwater is an important backup source. What can you do to save water?	The on-screen images return to bubbles and animated water before looping back to the attract.

Hardware

LED monitor protected by acrylic sheet

AV Experience 5: Meet the Microbes

WW.05

This display makes the microscopic visible! A multi-touch display lets visitors peer into the water to interact with the microbes that clean up wastewater. The display resembles an oversized droplet of water—a domed touchscreen or projection that visitors can

explore. On the screen, a series of microbes appear to float by in the water. Visitors can touch on one of these to bring up a 3D model of it to learn about its purpose: certain microbes target certain particles.

Exhibit Purpose (Goals and Objectives)

- Visitors will understand that wastewater is cleaned through a largely biological process, not chemical.
- Visitors will enjoy meeting the microbes that clean their wastewater.

Visitor Experience

The interactive is largely open-ended to encourage repeat interaction. A number of microbes float around on the touch display. Visitors can touch a particular microbe to learn about its properties—what conditions it likes to live in and the sort of work it does.

The microbes will be slightly cartoonish but still recognizable. Each will act in ways that are appropriate to its behavior and biology.

Run-Time

Open-ended

Draft Script

Interactive stage	Interactive	Interactive/video content
Attract loop	What's in the wastewater? Touch to start	When not in use, the interactive will show slowly drifting microbes.
Main screen	Meet the microbes that clean up wastewater! Touch a microbe to learn more. [Selections: • Suctorian • Tardigrade • Zooglea • Rotifer • Ciliate • Nitrosomonas and nitrobacter • Methanogens • Filamentous bacteria • Anammox]]	When triggered, the screen fills with a variety of microbes. The microbes behave in different ways: some might grow or multiply before being flushed away. Others could go after different types of influent on screen. As visitors hover near one, it enlarges. When visitors touch a microbe, the interactive brings up a 3D model of that microbe that visitors can spin and examine.

Suctorina ⁹	I'm called a suctorian . When you see us, you know your sludge is healthy! Suctorians use hollow spines to suck gel out of protozoans.	A suctorian shakes its spines. The animation shows it pulling out a straw and sucking cytoplasm out of a protozoan
Tardigrade	Roar! I'm a tardigrade , also known as a water bear. I can be found in older sludge. I am tough, but water bears like me are sensitive to ammonia. Water bears prey on algae, nematodes, and rotifers.	A tardigrade waves its legs. The animation could show a water bear eating some algae.
Zooglea ¹⁰	Some call us glue, but we're really zooglea . I am common at the beginning of wastewater treatment—I help stick bacteria together!	A bunch of zooglea wiggles and stick together
Rotifer	Don't mess with me, I'm a rotifer ! I prey on algae with my large mouth.	A rotifer nods her head. The animation shows her hunting and eating algae.
Ciliate ¹¹	I'm a ciliate . I use little hairs to sweep bacteria and other debris that I eat.	A ciliate waves its stalk. The animation shows a ciliate sweeping bacteria toward its gullet.
Nitrosomonas and Nitrobacter ¹²	Meet the twins— nitrosomonas and nitrobacter . You'll find lots of us early in the wastewater cleaning process. We work as a team. First, nitrosomonas convert ammonia into nitrites, then nitrobacters turn those into nitrates.	A team of nitrosomonas and nitrobacter work together like a sports team: nitrosomonas convert ammonia to nitrites before passing them on to nitrobacter.

¹²

https://www.tpomag.com/online_exclusives/2021/07/bug-of-the-month-nitrosomonas-and-nitrification-in-wtpps

Methanogens ¹³	Burp! Excuse me, but I'm a methanogen . I work in the digester, turning sludge and other materials into methane gas. The utility uses this gas as a source of energy.	A methanogen eats a bunch of sludge and then belches out methane gas.
Filamentous bacteria ¹⁴	You can't have sludge without us filamentous bacteria . We round up the sludge particles to make clearer water in the secondary clarifier.	A group of filamentous bacteria lasso sludge with their filaments to form a grouping.
Anammox ¹⁵	I'm an anammox , and I do something cool. I take nitrites and ammonia and turn them directly into nitrogen gas. Did you know that most of the air you breathe consists of nitrogen?	A circular anammox sips up ammonia and breathes out nitrogen gas.

Hardware

Touch-responsive digital interactive
Rear projector

AV Experience 6: Powering Roseville

RE.03

How does Roseville provide power to all its residents and businesses? A display along the wall near the Tech Lab lets visitors explore energy generation and distribution in Roseville in response to changing demand.

Exhibit Purpose (Goals and Objectives)

- Visitors will grasp the complexity of the electrical grid in Roseville.
- Visitors will be able to see how energy gets from the power plant to their homes.
- Visitors will discover how looping systems in the city prevent outages.

Visitor Experience

The backdrop of the interactive is a large wall panel illustration of Roseville, showing substations, neighborhoods, and REP. Using a series of connections and wires, visitors can hook up the neighborhoods to the electric substations to light them up. Two “control screen” touchscreens on the map offer randomized scenarios so visitors can respond to changing demands, challenges, and surges.

¹⁴ https://water.mecc.edu/courses/Env108/Lesson8_print.htm

¹⁵ <https://microbewiki.kenyon.edu/index.php/Anammox>

Run-Time
Open-ended

RE.03.AV.01.tx.01
Draft interactive script

Interactive stage	Interactive script	On-screen content
Attract loop	Can you keep the power flowing through Roseville?	Simple illustrations on-screen could show the connections plugging into each other, to demonstrate to pre-literate visitors how the interactive works.
Randomized scenarios		Randomized scenarios occur as visitors use the interactive. The first should happen within 10–15 seconds of the visitor first using the interactive [exact time to be determined by AV contractor]: long enough for visitors to get a handle on what they are supposed to do, but short enough that they don't walk away after plugging just a few wires in.
Scenario: grid maintenance	Routine maintenance A substation is scheduled for regular maintenance to keep it reliable. Can you get power to the neighborhood in a different way?	An animation or simple illustration shows workers at a substation, doing repairs. One of the substations on the wall becomes unavailable while this scenario is happening. The screen reverts when the scenario is addressed. [This scenario could be randomized to show up multiple times in slightly different ways: maintenance could affect underground

		lines, substations, utility poles, etc.]
Scenario: traffic accident [human-caused damage]	Accident! Uh oh, a car hit a utility pole and knocked power out in a neighborhood. Can you send electricity there in another way while workers fix the problem?	An animation or illustration shows a car crashing into a utility pole and damaging a transformer. On the wall panel itself, one of the neighborhoods goes dark. The situation rights itself when the scenario is addressed. [Other, human-caused scenarios could happen in a randomized way to offer variety: a mylar balloon gets tangled in the wires and causes a short, etc.]
Scenario: natural disaster	Lightning strike Boom, crash! A severe rainstorm knocks the power out. Can you restore electricity quickly?	This scenario is similar to the above traffic accident: one substation becomes unavailable and a neighborhood goes dark. [Other randomized scenarios based on natural disasters like this could include windstorms or wildfires]
Scenario: solar power reduces demand on the grid.	Solar power The sun is shining, and all the houses in one neighborhood have solar panels. They don't need electricity from the grid right now. Is that power needed somewhere else?	One neighborhood lights up without the need of a substation. Visitors can use that connection to power a different neighborhood. [Other randomized scenarios based on demand could include Roseville sending power out to other communities on the grid,

Scenario: heat wave demand	High Demand It's a heat wave and all the houses in this neighborhood turned their air conditioning on. Can you send them extra power to cover demand?	One neighborhood requires more power than usual to light up. Visitors have to reroute additional power to that section.
----------------------------	---	---

Hardware

Touchscreen monitors (2)

AV Experience 7: What's Your Impact

UH.06

In this hands-on display, visitors will be able to make a variety of choices that impact the utilities to see how their decisions add up. The interactive can also show the cumulative impact of those choices: if everyone in Roseville made the same choices, how would it affect the city and the utilities? We could also build in some social media prompts here so visitors could share the results of their choices online.

Exhibit Purpose (Goals and Objectives)

- Visitors will feel empowered to look at the choices, big and small, that they can make at home.
- Visitors will think about the big picture and the cumulative impact of their individual actions.
- Visitors will come away with at least one tip or action that they can take at home.

Visitor Experience

Using the interactive, visitors move sliders, press buttons, or toggle switches to make choices: turn off items that draw power when not in use; replace inefficient appliances, etc. A small monitor on the interactive totals the impact of each visitor's choices. It can also show how much more impact happens if we all take small steps: one person saving a gallon of water a month may not seem like much, but if every person in Roseville did the same, that's nearly 150,000 gallons—enough to fill more than 10 standard swimming pools!

Run-Time

Open-ended

Draft Script

Interactive stage	On-screen text	On-screen content/images
Attract loop	How do your changes add up? Touch to start	The attract loop can include some simple animation—a light switching off, a tap

		turning off—to prompt visitors to interact.
Main screen	Try making choices on this model to see what happens.	As visitors toggle the switches and make selections on the house, the monitor shows the effect.
Cumulative effect	[The text on screen will reflect the choices made] Water [individual] You saved [X] gallons of water a month. [cumulative] If every house in Roseville did the same, we'd save [X] gallons of water! Electricity [individual] You cut your energy usage by [X] kilowatt hours. [cumulative] If every house in Roseville did the same, we'd save [X amount] of electricity! Waste [individual] You cut your waste by [X amount]. [cumulative] If every house in Roseville did the same, we'd reduce waste by [X amount]	The screen is divided in two: one half shows the individual effect, the other half shows what would happen if every household in Roseville made that change (there are approximately 53,000 households in Roseville, so that will be the multiplier)

1001 — Summary of Work

- A. The Work is located at 1501 Pleasant Grove Blvd in Roseville, California 95747.
- B. See section 1001.4 SCOPE OF WORK.

Whenever the following words appear in the General Specifications they shall be construed to have the following meaning:

- A. The Work is described in the following project documents:
1. Volume 1 – Request for Proposals
 2. Volume 2 – Sample Agreement (Contract)
 3. Volume 3 – Content Manual
 4. Volume 4 – Component Lists

- B. Refer to the Request for Proposals for the following supplemental information referenced from the Drawings and Specifications:

- Work to be done consists of furnishing all materials, all equipment, and performing the work required by the General Specifications and Drawings to complete the engineering, detailing, coordination, construction, and installation of selected exhibits for the Exhibition.

- A. The CONTRACTOR shall be solely responsible for coordination of all of the Work of this Contract.

- A. The CONTRACTOR may use existing facilities or equipment in the Work for construction purposes, only if the OWNER's written permission is obtained.
- B. Restore existing facilities and equipment used for temporary purposes to original condition in a manner satisfactory to OWNER.

	Bart Hays Exhibition Design 1041 Morse Drive Pacific Grove, CA 93950 612.423.5245	City of Roseville 2005 Hilltop Circle, Suite 130 Roseville, CA 95747 916.746.1750			9/9/2022 Issued for bid	Project Name & No. Roseville Utility Exploration Center Date 9/9/2022 Scale As Noted	Drawing Name General Notes & Specifications Designer TW, BH Sheet No. X-00-0.02

8. PUBLIC AUTHORITY

- A. The FABRICATOR shall give all notices and comply with all laws, ordinances, rules, and regulations bearing on the conduct of the work as drawn and specified. Contradictions between the contract, General Specifications, Drawings, and/or any “Public Authority” shall be brought to the attention of the DESIGNER immediately by the FABRICATOR. Any decisions will be followed through with written authorization by the OWNER that will be the only basis for price adjustments. If the FABRICATOR performs any work contrary to public laws, ordinances, rules, and regulations, he shall bear all costs arising therefrom for the necessary corrections.
- B. If, in the opinion of the FABRICATOR, any element within the exhibit that constitutes a hazard to the visitor in its operation, construction, or location, it shall be brought in writing to the DESIGNER’s attention immediately. Any decisions will be followed through with written authorization by the OWNER that will be the only basis for price adjustments.
- C. The FABRICATOR is responsible, at their expense, for arranging and obtaining all necessary permits and approvals.
- D. All deliveries, appointments, and scheduled events must be coordinated and approved by the owner prior to acceptance.

1002 — Project Constraints

1. MAINTENANCE OF OWNER’S OPERATIONS:

- A. Constraints listed herein involve limits on activities during construction. These limits relate to limiting impact on Utility Exploration Center and Martha Riley Community Library operations within the building.
- B. Continuous operation of OWNER's facilities is of importance. Schedule and conduct activities to enable existing facilities to operate continuously, unless otherwise specified.
- C. Work Plan:

1. The CONTRACTOR shall submit a detailed Work Plan and time schedule for all construction activities that will impact Utility Exploration Center and Martha Riley Community Library operability.

2. The Work Plan shall, at a minimum, identifying:

a. the date and time when each activity will occur;

- b. what equipment will be present including standby equipment;
what assistance will be required by OWNER’s personnel;
- c. an emergency backup plan identifying what action will be taken if Work cannot be completed within the allotted time;
and
- d. what individual will be in charge of the activity.

3. Submit Work Plan 10 working days prior to the scheduled activity.

- D. Shutdowns:

1. Coordinate proposed Work with OWNER and facility operations personnel before affecting Utility Exploration Center shutdowns. The CONTRACTOR shall provide written confirmation of the shutdown date and time five (5) working days prior to the actual shutdown.

2. Under no circumstances shall the CONTRACTOR cease Work at the end of a normal working day or at the end of a working week if such actions may inadvertently cause a cessation of any facility operating process, in which case, remain onsite until necessary repairs are complete.
- E. Do not block access to the Martha Riley Community Library or the Utility Exploration Center except after approval of OWNER.
- F. Do not proceed with Work affecting a facility's operation without obtaining OWNER's advance approval of the need for and duration of such Work.

2. HOURS OF WORK AND OVERTIME:

- A. Normal working hours at the Construction Site for the project shall be 7A.M. to 5P.M., weekdays, no work during the weekend nor during City observed holidays.
1. Conduct Work outside normal working hours only after obtaining prior written consent and approval from the OWNER.

a. CONTRACTOR shall request work-hour variations in writing, a minimum of ten (10) days prior to the start of the proposed work period.

b. CONTRACTOR shall not rely on approval of work outside of normal working hours without prior written consent of the OWNER. Approval shall be at the sole discretion of the OWNER.
2. CONTRACTOR will develop Project Schedule assuming work during normal working hours only.

- B. All overtime Work by the CONTRACTOR necessary to conform to the requirements of this Section and related Sections shall be performed by the CONTRACTOR, at no additional cost to the OWNER and shall be performed in accordance with the Agreement. The CONTRACTOR shall make no claims for extra compensation as a result thereof.

1003 — Project Meetings & Project Schedule

1. PRE-CONSTRUCTION CONFERENCE

- A. Upon receipt of the Notice to Proceed, or at an earlier time if mutually agreeable, the FABRICATOR will arrange a preconstruction conference to be attended by the CONTRACTOR's Superintendent or other project representative authorized to commit on the behalf of the CONTRACTOR and to direct the performance of the work by others, the OWNER, the DESIGNER or DESIGNER’s representative, and representatives of utilities, major subcontractors, and others involved in the execution of the work.
- B. The purpose of this conference will be to establish a working relationship and understanding between the parties and to discuss subjects as may be pertinent for the execution of the work.
- C. CONTRACTOR shall be prepared to discuss the following subjects, as a minimum:

1. Required schedules.

2. Status of Bonds and insurance.

3. Sequencing of critical path work items.

4. Progress payment procedures.

5. Project changes and clarification procedures.

6. Use of site, access, office and storage areas, security and temporary facilities.

7. Major product delivery and priorities.

8. CONTRACTOR’s safety plan and representative.

2. PROGRESS MEETINGS

- A. The CONTRACTOR will arrange and conduct progress meetings. The CONTRACTOR will prepare and circulate a draft agenda of each meeting. The DESIGNER may add items as appropriate to the draft agenda.
- B. The agenda of progress meetings shall include review of work progress, the latest Construction Schedule submittal (monthly), potential project delays, the status of key shop drawings, submittal reviews, information requests, safety concerns, record drawings, and extra work items.

Bart Exhibition Design	Roseville Utility Exploration Center		Final Design Bid Docs	Key Plan	Revisions	Sheet Number	
	Bart Hays Exhibition Design 1041 Morse Drive Pacific Grove, CA 93950 612.423.5245	City of Roseville 2005 Hilltop Circle, Suite 130 Roseville, CA 95747 916.746.1750			9/9/2022 Issued for bid	Project Name & No. Roseville Utility Exploration Center Date 9/9/2022 Scale As Noted	Drawing Name General Notes & Specifications Designer TW, BH Sheet No. X-00-0.03

- C. The CONTRACTOR is responsible for providing the OWNER with meeting minutes within 10 days of any meeting in which the OWNER takes part.

3. PROGRESS SCHEDULE

- A. The individual work activities in the schedule shall:
- Identify major submittals and submittals for long-lead time Critical Path items and associated review times. Ten (10) working days shall be used for OWNER review times, unless otherwise specified.
- B. Information on each activity shall include:
- Concise description of the activity.
 - Duration in working days.
 - The dates for the beginning and completion of each activity.
 - Total float.
 - Numerical designation of work items.
 - Cost with a breakdown by labor (by man-hours by trade), materials (by type and quantity), equipment (by type and hours) and overhead and profit.
 - Reference to associated Scope Area as described in Breakdown of Guaranteed Maximum Price.
- C. The schedule shall be referenced to calendar dates, and the beginning of the contract time shall be the date of receipt of the Notice to Proceed.
- D. The schedule shall indicate for every month the total dollar amount of work planned in such month. The sum of monthly amounts shall equal the total bid amount.
- E. Failure to include an activity required for the execution of the work shall not excuse the CONTRACTOR from completing the work and portions thereof within the specified times and at the price specified in the Contract Documents, and from meeting the constraints specified for sequence of work and control dates.

4. UPDATING THE CONSTRUCTION SCHEDULE

- A. The CONTRACTOR shall update the Construction Schedule prior to the progress and schedule review at the monthly progress meetings, as specified in Section 1003.2, Progress Meetings.
- B. The schedule update shall reflect progress to date. The schedule update shall incorporate all revisions to logic and duration, as described below.

5. ADJUSTMENT OF THE CONTRACT TIME AND CHANGE ORDERS

- A. Adjustments of the contract time due to delays, additional work, or any other cause will only be issued through a contract change order in accordance with the General Conditions.
- In the event the CONTRACTOR requests an adjustment of the contract time, the CONTRACTOR shall furnish such justification, Construction Schedule data, and supporting evidence as the OWNER may deem necessary, for a determination as to whether or not the CONTRACTOR is entitled to an adjustment of time under the provisions of the Contract.
 - The CONTRACTOR shall submit proof based on revised activity logic, durations, and costs with each request, plus photographic evidence for proof of delay if applicable.
- B. The Construction Schedule shall clearly indicate that the CONTRACTOR has used, in full, all the float time available for the work involved in the request and any delay that affects the critical path of the project.
- C. Total and free float is not for the exclusive use or benefit of either the OWNER or the CONTRACTOR, but is a resource available to both parties for the benefit of the project on a first needed basis.
- D. The CONTRACTOR shall not be entitled to additional compensation due to schedule impacts for change order work that extends the contract beyond the scheduled completion date, but not beyond the contract completion date.
- E. The OWNER's determination as to the adjustment of the contract time will be based upon the latest version of the Construction Schedule accepted at the time of the alleged delay, and all other relevant information.
- F. Actual delays in activities which, according to the Construction Schedule, do not affect the critical path work, will not be the basis for an adjustment to the contract time.
- G. If the Construction Schedule shows that the project is behind schedule (i.e., has negative float) then no time extensions will be allowed for contract change orders unless they create a critical path delay in excess of that already occurring. In that case, the time extension allowed will only be that amount which exceeds the already occurring delay.

1004 — Submittal Procedures

1. AS-INSTALLED DRAWINGS:

- A. The CONTRACTOR shall deliver to the OWNER one complete set of final As-Installed Drawings for OWNER records before the Contractor prepares their final invoice for all deliverables as called for in the contract.. The As-Installed Drawings will consist of a set of reproducible drawings of all CONTRACTOR supplied equipment (including control systems) and a marked-up set of As-Installed Drawings.
- B. Location Survey:
- The CONTRACTOR shall verify, via x-ray or equivalent, floor slab conditions and any in-floor or under floor infrastructure prior to drilling or making any new floor attachments.
 - The survey information shall be included on the record drawings and, as required, the CONTRACTOR shall not be allowed to cover the buried materials until after the OWNER's inspector has verified the information as accurate and complete, and is shown on the As-Installed Drawings.

2. REQUESTS FOR INFORMATION

- A. Requests for Information about the Contract Documents shall be directed in writing to the Owner's Representative named in the contract using a Request for Information (RFI) form as agreed to by the OWNER. Such requests shall not be transmitted directly to the OWNER from a Subcontractor or Supplier.
- B. A separate form shall be used for each specific item for which information is required. Requests for Information for more than one item using a single RFI form will be permitted only when the items are so functionally related that expediency indicates review of the group of items as a whole.
- C. The OWNER will reply in writing to the CONTRACTOR's Request for Information as soon thereafter as practicable.

3. CONSTRUCTION PHOTOGRAPHS

- A. Provide photographs showing the preconstruction site, construction progress, and the post-construction site.
- B. Format: Photographs shall be digital format
- Digital Format:
 - Digital photos shall be taken with a minimum 8 mega pixel density and provided in JPG format.

Bart Exhibition Design	Roseville Utility Exploration Center		Final Design Bid Docs	Key Plan	Revisions	Sheet Number	
	Bart Hays Exhibition Design 1041 Morse Drive Pacific Grove, CA 93950 612.423.5245 City of Roseville 2005 Hilltop Circle, Suite 130 Roseville, CA 95747 916.746.1750				9/9/2022 Issued for bid	Project Name & No. Roseville Utility Exploration Center Date 9/9/2022 Scale As Noted	Drawing Name General Notes & Specifications Designer TW, BH Sheet No. X-00-0.04
						X-00-0.04	

2. Photos should be properly labeled with the following (at a minimum):
 - a. Time and date stamped
 - b. Photograph orientation and location
 - c. Brief description of photo subject
- C. Preconstruction and Post-Construction Photographs
 1. Take representative photos of the preconstruction site and the property adjacent to the perimeter of the construction site. Particular emphasis shall be directed to utilities and structures both inside and outside the site, or as directed by OWNER.
 2. Take representative photos of the post-construction site and the property adjacent to the perimeter of the site. Particular emphasis shall be directed to structures both inside and outside the plant boundary, or as indicated by OWNER.
 3. Preconstruction and post-construction digital photo files shall be submitted accompanied by a text file that lists the file name, date photo was taken, and brief description of the photograph and location where the photograph was taken.
- D. Construction Progress Photographs
 1. Take daily photos, showing the representative process of the construction.
 - a. Photos should be of enough quality and quantity such that the OWNER can interpret the progress of work
 - b. Photos should encompass all areas and scopes of work performed in that week.
 - c. Daily construction progress digital photo files will be supplied to the OWNER on a minimum once weekly basis within five (5) days of the Friday of the week they were taken.
 2. Submit the construction progress photos monthly showing the progress of construction. Locations shall be selected by the contractor to best depict the progress of the work, or as indicated by OWNER.
 - a. Monthly digital photo files shall be submitted accompanied by a text file that lists the file name, date photo was taken, and brief description of the photograph and location where the photograph was taken.

1005 — QUALITY CONTROL

PART 1 - GENERAL

1. OBSERVATION AND SUPERVISION

- A. The ENGINEER or ENGINEER's appointed representative, as well as the DESIGNER, will review the Work and the CONTRACTOR shall provide facilities and access to the Work at all times as required to facilitate this review.
- B. Responsibility:
1. The CONTRACTOR shall be solely responsible to supervise and direct the entire Work competently and efficiently, devoting such attention thereto and applying such skills and expertise as may be necessary to complete the Work in accordance with the Contract Documents.
 2. The CONTRACTOR shall be solely responsible for the means, methods, techniques, sequences, quality control, and procedures of construction and safety precautions and programs incidental thereto.
 3. The foregoing includes work performed by the CONTRACTOR's Subcontractors.
 4. The CONTRACTOR shall be responsible to see that the finished Work complies accurately with the Contract Documents.
 5. CONTRACTOR shall be responsible for maintaining a complete hardcopy set of all project documents at the site at all times. Project documents shall include but are not limited to all drawings, specifications, submittals, requests for information (RFI), requests for change (RFC), change orders, and up to date project record drawings.
 6. Project documents as described above shall be onsite and available for OWNER or ENGINEER review at all times. Failure to maintain or make project documents available will result in the stoppage of work. Schedule and cost changes resulting from stoppage of work are the responsibility of the CONTRACTOR.
- C. Superintendent:
1. The CONTRACTOR shall designate in writing and submit for OWNER's approval a technically qualified, English-speaking Superintendent, who shall be onsite and responsible for the work, and who shall not be replaced without written acceptance of the OWNER.
 2. The Superintendent shall be the CONTRACTOR's representative at the job site and shall have authority to act on behalf of the CONTRACTOR.

3. All communications given to the Superintendent shall be as binding as if given to the CONTRACTOR.
4. The CONTRACTOR's Superintendent shall be present at the site of the Work at all times while work is in progress. Failure to observe this requirement shall be considered as suspension of the Work by the CONTRACTOR until such time as such Superintendent is again present at the site.
5. CONTRACTOR's Superintendent shall be responsible for maintaining a complete hardcopy set of all project documents.

2. RESPONSIBILITY

- A. The CONTRACTOR is responsible for conducting all testing and inspection specifically required by the Specifications and otherwise necessary to ensure compliance with the Contract Documents.
- B. The OWNER may conduct periodic independent testing and inspection to verify compliance with the Contract Documents.
- C. Retesting:
 - 1. The OWNER reserves the right to back-charge the CONTRACTOR for retesting of deficient or defective work or products upon written notification.
 - 2. Compensation for retesting on behalf of the OWNER will be made through deductions from the Progress Payments.
- D. The CONTRACTOR is responsible for correcting all defective work discovered prior to final acceptance of the Contract, despite the failure of the Inspector(s) to discover it.
- E. The OWNER shall employ a special inspector during construction on the types of work indicated in the Statement of Special Inspections in the Construction Documents.
 - 1. OWNER's REPRESENTATIVE shall provide special inspection as identified with "BY OWNER" in the Statement of Special Inspections.
 - 2. CONTRACTOR shall provide special inspection as identified with "BY CONTRACTOR" in the Statement of Special Inspections.

3. TESTS AND INSPECTIONS

- A. The CONTRACTOR shall be responsible for scheduling all inspections and tests required.

Bart Exhibition Design	Roseville Utility Exploration Center		Final Design Bid Docs	Key Plan	Revisions	Sheet Number	
	Bart Hays Exhibition Design 1041 Morse Drive Pacific Grove, CA 93950 612.423.5245	City of Roseville 2005 Hilltop Circle, Suite 130 Roseville, CA 95747 916.746.1750			9/9/2022 Issued for bid	Project Name & No. Roseville Utility Exploration Center Date 9/9/2022 Scale As Noted	Drawing Name General Notes & Specifications Designer TW, BH Sheet No. X-00-0.05

1. The ENGINEER shall be given a minimum 48 business hours' notice prior to any inspections or tests.

B. With the exception of the special inspections noted above to be paid for by the OWNER; the CONTRACTOR shall pay for all tests, inspections and special inspections including, but not limited to:

1. Standard inspections and tests necessary to comply with laws, ordinances, rules, regulations and orders of public authorities pursuant to General Conditions.

2. Tests of materials, inspections, and certifications required by the Specifications.

3. Testing, adjusting, and balancing of equipment and systems required by the Specifications.

4. Any testing performed by the CONTRACTOR for their own quality control.

5. Retests or re-inspections by the OWNER, if required, and tests or inspections required due to CONTRACTOR error or lack of required identifications of material.

6. Special Inspections as identified with "BY CONTRACTOR" in the Statement of Special Inspections in the Construction Documents.

C. All tests of materials shall be made in accordance with the commonly recognized standards of national technical organizations, and such other special methods and tests as are prescribed in the Contract Documents.

D. Along with the monthly progress pay application submittal, the CONTRACTOR shall provide to the OWNER a typed summary of all tests performed for the current month.

E. Purchase Orders:

1. One copy of each of the CONTRACTOR's purchase orders for materials forming a portion of the work shall be furnished to the DESIGNER, if requested.

2. Each such purchase order shall contain a statement that the materials included in the order are subject to inspection by the OWNER.

3. Materials purchased locally will be inspected at the point of manufacture or supply, and materials supplied from points more than 50 miles from the job site will be inspected upon arrival at the job, except when other inspection requirements are

provided for specific materials in other Sections of this Specification.

F. Samples:

1. The CONTRACTOR shall furnish samples of materials as are required by the DESIGNER and ENGINEER, without charge.

2. No material shall be used until the DESIGNER and ENGINEER have had the opportunity to test or examine such materials, with appropriate review periods. Review periods shall be shown within the Construction Schedule.

3. Samples will be secured and tested whenever necessary to determine the quality of the material.

4. AUTHORITY AND DUTIES OF INSPECTOR

A. Inspectors employed by the OWNER shall be authorized to inspect all work done and materials and equipment furnished to complement the CONTRACTOR furnished independent inspector.

1. Such inspection may extend to all or any part of the work, and to the preparation, fabrication, or manufacture of the materials and equipment to be used.

2. The Inspector will not alter or waive the provisions of the Contract Documents.

3. The Inspector will keep the DESIGNER informed as to the progress of the work and the manner in which it is being done.

4. The Inspector will call the CONTRACTOR's attention to nonconformance with the Contract Documents that the Inspector may have observed.

5. The Inspector will not be responsible for the adequacy or correctness of the CONTRACTOR's means, methods, techniques, sequences, or procedures for construction

6. The Inspector will not approve or accept any portion of the work, issue instructions contrary to the Contract Documents, or act as foreman for the CONTRACTOR.

7. The Inspector may reject defective materials, equipment, or work when it is not in compliance with the Contract Documents.

8. The Inspector will not be responsible for:

a. The CONTRACTOR's quality control program.

b. The CONTRACTOR's safety program.

c. Coordinating the work or activities of the CONTRACTOR or their Subcontractor.
- 1006 — TEMPORARY CONSTRUCTION FACILITIES AND UTILITIES
1. CONTRACTOR'S STAGING AREA AND WORK ACCESS PLAN
- A. The CONTRACTOR shall limit the location of the storage of equipment and materials to the staging area(s) designated on the Drawings and as directed by the OWNER.

B. The CONTRACTOR shall make their own arrangements for additional space that may be required and shall bear all associated costs.

C. Work Access Plan: The CONTRACTOR shall submit a work access plan showing the planned access route for deliveries of supplies and mobilization of workforce for OWNER's approval prior to mobilization.
2. STORAGE - GENERAL
- A. The CONTRACTOR shall provide any temporary storage required for the protection of equipment and materials as recommended by manufacturers of such materials.
3. PROJECT SECURITY
- A. The CONTRACTOR shall make adequate provision for the protection of the work area against fire, theft and vandalism, and for the protection of the public and OWNER personnel against exposure to injury, and for the security of any off-site storage areas.

B. All costs for this protection shall be included within the CONTRACTOR's bid.
4. DUST/AIR POLLUTION CONTROL
- A. The CONTRACTOR shall take whatever steps, procedures, or means as are required to prevent dust conditions being caused by

Bart Exhibition Design	Roseville Utility Exploration Center		Final Design Bid Docs	Key Plan	Revisions	Sheet Number	
	Bart Hays Exhibition Design 1041 Morse Drive Pacific Grove, CA 93950 612.423.5245 City of Roseville 2005 Hilltop Circle, Suite 130 Roseville, CA 95747 916.746.1750				9/9/2022 Issued for bid	Project Name & No. Roseville Utility Exploration Center Date 9/9/2022 Scale As Noted Drawing Name General Notes & Specifications Designer TW, BH Sheet No. X-00-0.06	
						X-00-0.06	

- operations in connection with the execution of the Work.
- B. Damage to personal property, etc., resulting from the CONTRACTOR's construction operations shall be borne by the CONTRACTOR at no cost to the OWNER.
 - C. The CONTRACTOR shall keep the streets and work area clean at all times by means of mechanical sweepers or hand sweeping. Water will be used for dust control only, and not for cleaning streets.
 - D. Burning of waste, rubbish, or other debris will not be permitted on or adjacent to site.

5. WASTE DISPOSAL

- A. The CONTRACTOR shall dispose of surplus materials, waste products, and debris and shall make necessary arrangements for such disposal.
- B. All waste disposal shall be done in accordance with applicable laws and regulations.
- C. Landfill Disposal:
 - 1. If the CONTRACTOR proposes to dispose of construction debris, excavation spoils, etc., at a landfill, the CONTRACTOR shall be responsible to provide and pay for all permits and analyses required by the landfill.
 - 2. If the analyses determine that the material is hazardous, then an equitable adjustment of the Contract for the cost of hazardous waste disposal will be made in accordance with the General Conditions, and the following:
 - a. Time extension or contract costs will not be granted for delays that could have been avoided by the CONTRACTOR redirecting their forces and equipment to perform other work on the contract.
- D. Disposal operations shall not create unsightly or unsanitary nuisances.
- E. The CONTRACTOR shall maintain the disposal site in a condition of good appearance and safety during the construction period.
- F. Prior to final acceptance of the work, the CONTRACTOR shall have completed the cleanup of the disposal site.

6. CLEAN UP

- A. Throughout the period of construction, the CONTRACTOR shall keep the work site free and clean of all rubbish and debris, and shall promptly remove from the site, or from property adjacent to the site of the work, all unused and rejected materials, surplus earth, concrete, plaster, and debris.
- B. Upon completion of the work, and prior to final acceptance, the CONTRACTOR shall remove from the vicinity of the work all plant, surplus material, and equipment belonging to the CONTRACTOR or used under their direction during construction.

7. TEMPORARY ENCLOSURES

- A. When sandblasting, spray painting, spraying of insulation, or other activities inconveniencing or dangerous to property or the health of employees, the public or construction workers, are in progress, the area of activity shall be enclosed adequately to contain the dust, over spray, or other hazard.
- B. In the event there are no permanent enclosures of the area, or such enclosures are incomplete or inadequate, the CONTRACTOR shall provide suitable temporary enclosures as required by the OWNER to meet field conditions in accordance with the recommendations of the owner-furnished equipment supplier (if applicable) and the CONTRACTOR's equipment supplier requirements.
- C. Said temporary or permanent enclosures shall be adequately ventilated to ensure the safety of the workers.

1007 — General Product Requirements

1. SCOPE

- A. All products furnished and installed under this contract shall conform to the general stipulations set forth in this Section except as otherwise specified in other Sections.

2. COORDINATION

- A. The CONTRACTOR shall coordinate all details of the products and equipment with other related parts of the work, including verification that all structures, piping, wiring, and equipment components are compatible. The CONTRACTOR shall be responsible to secure approval from the OWNER for all structural and other alterations in the work required to accommodate products or equipment differing in dimensions or other characteristics from that contemplated in the

Contract Drawings or Specifications.

3. DESIGN REQUIREMENTS

- A. Where CONTRACTOR design is specified, design and installation of systems, equipment, and components, including supports and anchorage, shall be in accordance with provisions of 2022 edition of the California Building Code (CBC).
- B. Proof of Compliance:
 - 1. Structural integrity and anchorage shall be certified by an approved calculation that demonstrates the adequacy of the anchorage system for seismic forces. This calculation may be based on principles of structural analysis and engineering mechanics, or based on similarity to approved shake-table tests.
 - 2. The CONTRACTOR shall submit for review and approval test data or calculations certified by a Civil or Structural Engineer registered in the State of California to show compliance with the above requirements.

4. WORKMANSHIP AND MATERIALS

- A. The CONTRACTOR shall guarantee all equipment against faulty or inadequate design, improper assembly or erection, defective workmanship or materials, and leakage, breakage, or other failure. Materials shall be suitable for service conditions.

5. SPECIAL TOOLS AND ACCESSORIES

- A. Equipment requiring periodic repair and adjustment shall be furnished complete with all special tools, instruments, and accessories required for proper maintenance. Equipment requiring special devices for lifting or handling shall be furnished complete with those devices.

6. PREPARATION FOR SHIPMENT

- A. All equipment shall be suitably packaged to facilitate handling and protect against damage during transit and storage. All equipment shall be boxed, crated, or otherwise completely enclosed and protected during shipment, handling, and storage. All equipment shall be protected from exposure to the elements and shall be kept thoroughly dry at all times.
- B. Painted surfaces shall be protected against impact, abrasion, discoloration, and other damage. All painted surfaces which are damaged prior to acceptance of equipment shall be repainted to the satisfaction of DESIGNER.

Bart Exhibition Design	Roseville Utility Exploration Center		Final Design Bid Docs	Key Plan	Revisions	Sheet Number	
	Bart Hays Exhibition Design 1041 Morse Drive Pacific Grove, CA 93950 612.423.5245 City of Roseville 2005 Hilltop Circle, Suite 130 Roseville, CA 95747 916.746.1750				9/9/2022 Issued for bid	Project Name & No. Roseville Utility Exploration Center Date 9/9/2022 Scale As Noted Drawing Name General Notes & Specifications Designer TW, BH Sheet No. X-00-0.07	X-00-0.07

- C. Each item of equipment shall be tagged or marked as identified in the delivery schedule or on the Shop Drawings. Complete packing lists and bills of material shall be included with each shipment.
- D. Written installation date required prior to delivery. City reserves the right to turn away deliveries that arrive at another time.

7. STORAGE

- A. Upon delivery, all equipment and material shall immediately be stored and protected until installed in the work.
- B. Equipment and materials shall not show any pitting, rust, decay, or other deleterious effects of storage when installed in the work.

8. INSTALLATION AND OPERATION

Installation shall take place at the site indicated in the fabrication contract. The FABRICATOR shall provide adequate personnel to install the exhibits, including the Project Manager. The FABRICATOR’s project manager shall ensure the safety of installation staff, site staff, and the fabricated elements. During installation, the worksite shall be treated as a construction zone and taped or roped off as needed. The Project Manager shall facilitate reviews and oversight of installation tasks throughout the installation.

- A. The FABRICATOR shall acquire on-site or ship to the site all required tools, materials, and equipment to accomplish the job.
- B. Shipping: The FABRICATOR shall pack and crate all materials which shall be shipped by their own or commercial carrier in such a manner that they shall arrive at the designated site undamaged. If exhibit elements are damaged in transit, the FABRICATOR shall bear the full responsibility for repair or replacement.
- C. Existing Work: The FABRICATOR shall request authorization from the OWNER prior to cutting, drilling, altering, or removing material within the building. Work that is replaced shall match existing work. Anything damaged or defaced within the building due to the FABRICATOR’s error during installation shall be restored to the original condition by the FABRICATOR. Restoration work shall be coordinated with the OWNER.
- D. Demolition: When specified in the Design Package, the FABRICATOR shall remove and dispose of existing exhibit structures, furniture, lighting, and other elements from the exhibit area.
- E. The FABRICATOR shall install exhibits in accordance with the design intent, the approved fabrication shop drawings, and in consultation with the OWNER. In the event that the OWNER reports

problems during or after shipment, delivery, and/or installation, the FABRICATOR shall: A) Determine the nature of the reported problem, damage, or production error and provide a proposal for a resolution to the OWNER for review and approval. B) Ensure that approved corrections or repairs are made in a satisfactory manner within the time scheduled by the OWNER.

- F. If required to protect visitors from entering construction areas, temporary construction walls should be constructed to meet local code requirements. OWNER will be provided with 24 hour access and any keys required for entry. Construction and finishes will be suitable for a public environment with no sharp edges or other hazards. A sign indicating this area is under renovation will be provided by the FABRICATOR.
- G. Equipment shall not be installed or operated except by, or with the guidance of, qualified personnel having the knowledge and experience necessary for proper results. When so specified, or when employees of the CONTRACTOR or their subcontractors are not qualified, such personnel shall be field representatives of the manufacturer of the equipment or materials being installed.
- H. All equipment installed under this Contract, including that furnished by OWNER shall be placed into successful operation according to the written instructions of the manufacturer or the instructions of the manufacturer’s field representative. All required adjustments, tests, operation checks, and other startup activity shall be provided.
- I. Acceptance of work in connection with the installation of equipment furnished by others will be subject to approval of the field representative. The CONTRACTOR shall be responsible for planning, supervising, and executing the installation of work, and the approval or acceptance of OWNER or the field representative will not relieve the CONTRACTOR of responsibility for defective work.

9. TESTING

- A. The functional test of each exhibit with electrical components shall continue for not less than eight (8) continuous hours without interruption.
- B. The functional test shall include checking for proper display, sound level, etc.
- C. The functional test shall include a demonstration of the proper performance of all exhibits.
- D. All parts shall operate satisfactorily in all respects, and in accordance with the specified requirements, for the full duration of

the eight-hour test period.

- E. If any part of a unit shows evidence of unsatisfactory or improper operation during the eight-hour test period, correction or repairs shall be made and the full eight-hour test operation, as specified herein, shall be repeated after all parts operate satisfactorily.

10. ENVIRONMENTAL PRACTICES

- A. Practicing waste reduction and recycling of waste.
- B. Using regionally local materials whenever possible, and using materials made from recycled or rapidly renewable resources Such as FSC certified wood and recycled content flooring.
- C. Maintaining good indoor environmental air quality through managing air contaminants, using less harmful low-VOC materials, and improving ventilation.
- D. Reducing the need for electricity through increased use of natural daylight for lighting or LED and low energy consumption electronics.
- E. Additionally, see the section on CLean up and Recycling below.

11. CLEAN UP AND RECYCLING

The FABRICATOR shall maintain all areas in a clean condition on a daily basis and provide means of preventing dirt or waste material from being tracked into adjacent areas of the building. The FABRICATOR shall practice waste reduction and recycling of waste whenever possible while performing the on-site work under this contract.

- A. The FABRICATOR shall provide bags and containers for the storage of their trash and recyclables. The FABRICATOR shall be responsible for removing waste materials generated during the installation from the park. The FABRICATOR shall not dispose of their waste in dumpsters or containers that belong to the OWNER or other FABRICATORS working on-site.
- B. Drilling and cutting shall be completed prior to the installation of artifacts, models, original art, and audiovisual equipment to avoid excessive dust and debris that may damage the sensitive items. On-site work shall be phased so that drilling, cutting, rough carpentry, sanding, and use of finishes or adhesives is accomplished, followed by a thorough cleanup and allowance for dust to settle and fumes to dissipate. Protective paper or plastic floor coverings that are torn or thoroughly soiled shall be replaced with clean material. Then, installation of the sensitive materials and

Bart Exhibition Design	Roseville Utility Exploration Center		Final Design Bid Docs	Key Plan	Revisions	Sheet Number	
	Bart Hays Exhibition Design 1041 Morse Drive Pacific Grove, CA 93950 612.423.5245	City of Roseville 2005 Hilltop Circle, Suite 130 Roseville, CA 95747 916.746.1750			9/9/2022 Issued for bid	Project Name & No. Roseville Utility Exploration Center Date 9/9/2022 Scale As Noted Drawing Name General Notes & Specifications Designer TW, BH Sheet No. X-00-0.08	X-00-0.08

- equipment can proceed.
- C. The FABRICATOR shall thoroughly clean exhibit surfaces to remove handprints, dust, and miscellaneous markings generated during the installation.
- D. The FABRICATOR shall handle all acrylic, glass, and graphic panels with clean gloves to minimize handprints of natural skin oils. Panels shall be thoroughly cleaned until all dust, prints, and smears are removed from the face and rear surfaces. Acceptable materials for cleaning acrylic are
Specified in the section Maintenance Kit below
- E. The FABRICATOR shall provide labor, materials, equipment, and supplies for the final cleaning of the exhibit site, including vacuuming the entire exhibit space. For carpeted spaces, vacuuming equipment shall be appropriate for professional cleaning of carpeting; shop vacuums are not acceptable. The use of equipment belonging to the owner is not acceptable.

1008 — MATERIALS AND FINISHES

1. COLOR AND FINISH SAMPLES

- A. Provide actual samples of all materials used in the exhibit such as woods, veneers, masonry, metal trim, laminates, fabrics, carpets, paints, and inks. Material shall be mounted on an 8-1/2" x 11" white illustration board, clearly labeled with the color name and number, the manufacturer's brand name, and other pertinent product identification, keyed to the drawings for location.
- B. One 8-1/2" x 11" mounted sample shall be provided for each type of digital output print and for each screen printing ink color and substrate combination used in the exhibit.
- C. Samples of specialized techniques such as sandblasted or etched graphics or finishes shall also be provided.

2. WOOD FABRICATION

- A. Materials and Quality
1. All wood shall be FSC (Forest Stewardship Council) certified.
2. All composite board products (e.g.:MDF, Medite, hardboard) shall have no added formaldehyde.

3. All woodwork for transparent finish shall conform to the "Premium Grade" requirements of the AWI Quality Standards.
4. Material and workmanship of all interior woodwork for paint finish shall conform to the "Premium Grade" requirements of the AWI Quality Standards.
5. All casework shall conform to the quality grade and species called for. Quality grade is as defined in AWI Quality Standards, section #400.
6. Laminate countertops and sides: The cores of high-pressure laminate countertops shall be of the thickness shown on the details, but not less than 3/4" thick particleboard.
7. All exposed surfaces of millwork and trim shall conform to AWI Standards, section #300.
8. All natural hardwoods used for railings, caps, and other details shall be free of knots, burls, and other internal defects unless otherwise noted. Hardwood species shall be as called for on the Drawings or General Specifications.
9. Plastic laminate coverings shall be Formica, Nevamar, Wilson-Art, Abet Laminati, or an approved equivalent. Samples of all colors specified shall be submitted for the DESIGNER's approval.
10. Ease the exposed edges to a radius of approximately 1.6 mm (1/16") unless otherwise shown.

B. Workmanship

1. Large casework and structures - All casework shall be fabricated, finished, and assembled in the FABRICATOR's shop. Structures too large for access into the exhibit area, or which would be damaged by shipment while assembled, shall be made in detachable sections with provisions for final assembly inside the exhibit space.
2. Fabrication Methods - All faceplates, panel ends, and doors shall be of mortise and tenon or doweled fabrication, glued under pressure, with nails only furnishing the pressure. All nails shall be properly set for filling. Filled areas shall be sanded smooth to receive laminate, paint, or other specified finish. Edges of panels and signs shall be filled, sanded smooth, and finished or covered with material matching the panel face. Edges shall not be left unfinished unless otherwise specified on the drawings.

3. Shelving - Unless otherwise specified in the Design Package, any shelving used as part of the interior of cabinets shall be 3/4" Birch plywood. At a minimum, audiovisual equipment shelving shall have 12" square center portions of perforated metal to allow ventilation around equipment. The FABRICATOR shall be responsible for ensuring that each shelf is fabricated of material of sufficient strength for the piece of equipment for which it is intended.
4. Architectural Millwork - Fabricate and assemble units complete in the shop, insofar as their dimensions will permit for transportation and proper handling. All woodwork shall be shop finished and delivered to the installation site with a protective covering. Use solid stock for frames, jambs, heads, stops, and edges. Where veneer plywood is used, trim exposed edges with hardwood without face nailings. Accurately fit and align separate parts. Provide ample screw, glue and-bolt blocks, draw-bolts, tongues, grooves, splines, dowels, tenons, mortises, and other means of fastening to render the work substantial, rigid, and permanently secured in the proper position. Provide material to permit scribing to walls, floors, and related work. Provide sufficient allowance for shrinkage occurring after installation. Provide mitered corners at doorframes with hairline joints. Fit and adjust doors to achieve smooth and noiseless operation. Exposed fasteners are unacceptable without prior approval from the DESIGNER. Countersink face nails and face screws, fill with plastic wood or wood plugs, sand flush to the surface, and finish without visible markings.

3. METAL FABRICATION

- A. Materials:
1. Parts shall be selected to conform to the design intent in dimension and appearance and be of adequate size for loading.
2. All exposed aluminum shall be free of scratches and protected by anodizing or other DESIGNER specified finish.
3. Final steelwork shall be approved by the DESIGNER before the work is accepted.
- B. Workmanship.
1. All work shall be finished so that painted surfaces will be smooth without filling where steel is to remain exposed.
2. For work that is to remain exposed and visible, welds shall be ground smooth to the satisfaction of the DESIGNER, and all weld spatter, etc., removed or ground smooth.
3. All items shall be fabricated and installed plumb, straight, level and in proper elevation, plane, location, and alignment with other work. All work shall be designed for adjustment to field

Bart	Roseville Utility Exploration Center		Final Design Bid Docs	Key Plan	Revisions	Sheet Number	
	Bart Hays Exhibition Design 1041 Morse Drive Pacific Grove, CA 93950 612.423.5245	City of Roseville 2005 Hilltop Circle, Suite 130 Roseville, CA 95747 916.746.1750			9/9/2022 Issued for bid	Project Name & No. Roseville Utility Exploration Center Date 9/9/2022 Scale As Noted	Drawing Name General Notes & Specifications Designer TW, BH Sheet No. X-00-0.09

variations, fitted with proper joints and intersections, and adequately anchored in place. All work shall be complete in every detail and in accordance with best practice.

- 4. Ease the exposed edges to a radius of approximately 0.8 mm (1/32") unless otherwise shown.

4. ACRYLIC FABRICATION

- A. Materials:
 - 1. Plastic glazing for artifact cases or vitrines shall be clear, UV-filtering cast acrylic sheet.
- B. Workmanship
 - 1. Acrylic products should be fabricated in accordance with the Drawings unless approved by the DESIGNER.
 - 2. All vitrine joints should be constructed with an open “V” Angle Joint Technique with Polymerizable Cement.
 - 3. Visible joints between plastics shall be free of bubbles, crazing, or distortion.
 - 4. Visible polished edges shall be free of imperfections. Edge polishing shall be done with polishing compound and not flame polished.
 - 5. Ease the exposed edges to a radius of approximately 1.6 mm (1/16") unless otherwise shown.

5. GLASS FABRICATION

- A. Material shall be cut to size as specified on the drawings, allowing for expansion and contraction. Surfaces shall be free of scratches, bubbles, stains, rough edges, or other imperfections.
- B. Laminated Safety Glass - All glass to be used for artifact case glazing shall be laminated. All exposed edges shall be eased and finely ground to be smooth, with broad surfaces free of imperfections.
- C. Tempered Safety Glass - All exposed edges shall be polished, with broad surfaces free of visible tong marks or any other imperfections.
- D. Anti-Reflective Glass - Anti-reflective glass, in thickness, glass color, and UV filtering properties as specified in the Design Package. All glass to be used for artifact case glazing shall be laminated. All exposed edges shall be eased and finely ground to be smooth, with broad surfaces free of imperfections.

- E. Grind and polish all exposed edges as required to prevent visitors from injuring themselves when walking past or brushing up against glass panels.

6. FINISH SURFACES

- A. Substrates: Surfaces scheduled to receive etching, sandblasting, paint, laminate, photo mounts, and graphic prints, shall be made true and even with joints and nail holes filled, and shall be primed, sealed, and properly supported to prevent warping or bending.
- B. Paint: All paint to be low or no VOC paint. All exposed surfaces to receive paint shall be finished smooth. The finished paint surface shall be without runs, sags, and other imperfections. Match colors specified on the drawings. Colors shall be consistent from surface-to-surface. Paint shall be applied under dry, dust-free conditions, in accordance with the manufacturer’s specifications. Edges, crevices, corners, and joints shall be thoroughly cleaned. Painting shall be of uniform thickness. All exposed edges of painted panels shall be filled, sanded, and painted to match the panel face unless otherwise specified on the drawings.
- C. Plastic Laminate: All laminate and substrate shall be stored together for at least 72 hours and assembled in an environment of approximately 70 degrees Fahrenheit and 50 percent relative humidity. The face of the substrates shall be sanded smooth and shall be free of grease, wax, dust, or other contaminants which interfere with adhesion. Control of the glue line and its thickness and uniformity of spread shall be given constant attention. Spot bonding shall never be used. Cover all areas where contact is made with adhesive. In all cases, the adhesive manufacturer’s instructions for use shall be followed. Avoid chipping of laminate by the saw blade. Finish smooth edges on curved cut by sawing the part oversize and finish it by routing, filing, or sanding. When cutting laminate, make certain to prevent hairline cracks or over-cutting at inside corners. Inside corners shall be rounded to prevent corner cracking.
- D. Veneer - All veneers shall be ordered in a minimum 3:1 ratio per square foot of plywood substrate required. Face veneer shall be flat sliced with adjacent pieces randomly matched. The maximum width of sapwood per flitch shall not exceed two inches. Panel face assembly shall be running matched. Veneer millwork shall not be sequence matched. All edges shall be veneer banded on all four edges for final use in the exhibit.
- E. Panel Edges and Backs, Concealed Areas - Finish in accordance with the following unless specified otherwise on the drawings.

- F. Concealed Areas - Those areas are completely enclosed by solid opaque framing and skin. No finish is required.
- G. Semi-Exposed Areas - Those areas only visible by opening doors or access panels. Finish with a wood sealer.
- H. Flat Panels, Framed - The backside of plywood or other framed material. A minimum of two coats of flat lacquer primer for the surface.
- I. Flat Panels, Unframed - The backside of plywood or other material without framing such as cabinet doors and applied panels. A minimum of three coats of paint, laminate backing sheet, or other finish equal in density and weight to that specified on the drawings for the exposed surface.
- J. Edges - All exposed edges of panels, plaques, and graphic prints shall be fitted and sanded smooth. Edges shall be finished to match adjoining surfaces as specified on the drawings.
- K. Panel Backs - Backs of panels shall be finished with a spray-applied lacquer finish or laminate backing sheet in color specified on the drawings.

7. GRAPHICS FABRICATION

The FABRICATOR shall provide fabrication of all two-dimensional exhibit graphics. Except as otherwise specified in the Design Package., Print-ready files shall be furnished to the fabrication FABRICATOR.

- A. The fabricator shall review the print-ready production files and the Graphic Schedule to ensure they align in both content and output (size and material) and notify the DESIGNER if there are any misalignments.
- B. The FABRICATOR will submit graphic proofs of each graphic type and color family, as designated by the DESIGNER. Samples must be of sufficient size to evaluate the output quality and accuracy, typically 11"x17" unless otherwise noted in the Design Package.
- C. One copy of each is to be delivered to the OWNER, and the DESIGNER. One copy should remain with the FABRICATOR.
- D. Upon approval of graphic proofs, the FABRICATOR will produce all final graphics for the Project, including digital prints. High-Pressure laminate graphics, printed wall murals, window clings, banners, cut out or dimensional letters, floor graphics, or other materials as specified in the Design Package.
- E. The DESIGNER will be responsible for the correctness of the graphic design layouts and will make corrections to the

Bart Exhibition Design	Roseville Utility Exploration Center		Final Design Bid Docs	Key Plan	Revisions	Project Name & No. Roseville Utility Exploration Center		Drawing Name General Notes & Specifications	Sheet Number X-00-0.10
	Bart Hays Exhibition Design 1041 Morse Drive Pacific Grove, CA 93950 612.423.5245 City of Roseville 2005 Hilltop Circle, Suite 130 Roseville, CA 95747 916.746.1750				9/9/2022 Issued for bid	Date 9/9/2022	Designer TW, BH	Sheet No. X-00-0.10	

- production-ready files in a timely manner if errors are found in the production phase. The DESIGNER is responsible for the correctness of text, fonts, graphic references and image selection, and color specifications.
- F. The FABRICATOR is responsible for the correctness and quality of graphic production and fabrication. To include print quality, laminating, framing, color consistency between production runs, etc.
- G. FABRICATOR will use the following specification for graphic output, Alternate methods will only be allowed if approved by the DESIGNER and OWNER in writing.
1. Inkjet Prints: Use archival inks on paper, fabric plastic films at high resolution with no visible dot patterns or banding.
 2. High-Pressure Laminate: Use 1/16” to 1” black phenolic backer with Matt finish and embedded fasteners as specified in the Design Package.
 3. Direct to Substrate prints: use substrates intended for Direct Printing, and provide a clear (non-yellowing) protective coating.
 4. Dimensional Letters Typemade from acrylic or aluminum in a thickness specified in the Design Package. Ensure parts are smooth and free from imperfections. All letters should be provided with mechanical fasteners. The FABRICATOR will ensure correct spacing and alignment using a template for mounting.
 5. Cut-Out Graphics: Contour cut graphics shall be produced in either High-Pressure Laminate or on aluminum unless otherwise noted in the Design Package. The Cut-Out shall follow the lines specified in the graphic files. All edges shall be smooth and finished.

8. DIGITAL MEDIA

- A. Scope of Work: The work includes the research, development, production and installation of electronic programs as specified in the Drawing and Content Packages.
- B. The electronic programs are not separate from the exhibit program but rather are an essential part of it.
- C. ALL PROGRAMS SHALL:
1. Be in the following language(s): English
 2. Accurately portray and convey the subjects covered.
 3. Have an "interpretive" rather than a "commercial" quality.
 4. Have the highest level of visual and sound quality.
 5. Be appropriate for the intended audience.

6. Employ a graphic approach for screen graphics that complements the graphic approach to exhibits and graphic panels.
 7. Any stock (third party) images or footage used shall meet the basic criteria above.
 8. CONTRACTOR must acquire all rights and permissions for images and footage for indefinite term of use.
- D. Provide all materials, equipment, labor and services necessary to complete the design, engineering, specification, supply, delivery, fabrication, assembly, integration, installation, setup, testing and training of the AV systems as specified herein and in the Contract Documents.
- E. Equipment: Unless otherwise specified, products and materials are to be:
1. New, of recent manufacture and carry full factory warranty: used, reconditioned or repaired equipment or materials are not acceptable.
 2. Commercial grade unless otherwise specified.
 3. Highly user friendly in operation.
 4. All Equipment is intended to be housed local to the individual exhibits. A media closet or rack room will not be provided.
 5. Each exhibit should have an easy to use power-up and power-down routine for daily use.
- F. Installation: The Contractor shall either deliver the final equipment and/or programs for installation by others, or travel to the specified location to install the equipment and/or programs. Where electronic programs are installed and integrated by the Contractor, the Contractor will provide technical support services during the installation period to ensure a smooth transition. This also applies to any post-installation review periods required by the Owner.
- G. Training: The Contractor shall provide an Operations and Maintenance manual and staff training for the upkeep of digital media. See Section 1010.8.

1009 — CLEANING

PART 1 - GENERAL

1. WORK INCLUDED

- A. This Section covers the work necessary for cleaning during construction and final cleaning on completion of the Work.

2. GENERAL

- A. At all times maintain areas covered by the Contract and public properties free from accumulations of waste, debris, and rubbish caused by construction operations.
- B. Pollution Control:
1. Conduct cleaning and disposal operations to comply with local ordinances and anti- pollution laws.
 2. Do not burn or bury rubbish and waste materials on project site.
 3. Volatile wastes shall be properly stored in covered metal containers and removed daily.
 4. Do not dispose of volatile wastes such as mineral spirits, oil, or paint thinner in storm or sanitary drains.
 5. Do not dispose of wastes into streams or waterways.
- C. Construction materials such as concrete forms and scaffolding shall be neatly stacked by the CONTRACTOR when not in use. The CONTRACTOR shall promptly remove splattered concrete, asphalt, oil, paint, corrosive liquids, and cleaning solutions from surfaces to prevent marring or other damage.
- D. Use only cleaning materials recommended by manufacturer of the surface to be cleaned.
- E. Use cleaning materials only on surfaces recommended by cleaning material manufacturers.

PART 2 - EXECUTION

3. CLEANING DURING CONSTRUCTION

- A. During execution of Work, clean site and public properties and dispose of waste materials, debris, and rubbish to assure that buildings, grounds, and public properties are maintained free from accumulations of waste materials and rubbish.
- B. Provide approved containers for collection and disposal of waste materials, debris, and rubbish. Empty containers within one day after they are full.
- C. Remove grease, dust, dirt, stains, labels, fingerprints, and other foreign materials from exposed and semi-exposed surfaces.

Bart Exhibition Design	Roseville Utility Exploration Center		Final Design Bid Docs	Key Plan	Revisions	Sheet Number	
	Bart Hays Exhibition Design 1041 Morse Drive Pacific Grove, CA 93950 612.423.5245	City of Roseville 2005 Hilltop Circle, Suite 130 Roseville, CA 95747 916.746.1750			9/9/2022 Issued for bid	Project Name & No. Roseville Utility Exploration Center Date 9/9/2022 Scale As Noted	Drawing Name General Notes & Specifications Designer TW, BH Sheet No. X-00-0.11

- D. Repair, patch, and touch up marred surfaces to specified finish to match adjacent surfaces.
- E. Vacuum clean all interior spaces, including inside cabinets. Broom clean paved surfaces, rake clean other surfaces of grounds.
- F. Handle materials in a controlled manner with as few handlings as possible; do not drop or throw materials from heights.
- G. Schedule cleaning operations so that dust and other contaminants resulting from cleaning process will not fall on wet, newly painted surfaces.
- H. Vacuum clean interior building areas when ready to receive finish painting and continue vacuum cleaning on an as-needed basis until building is ready for substantial completion or occupancy.

4. FINAL CLEANING

- A. At completion, leave project area clean and ready for use.
 - 1. Legally dispose of waste materials, debris and rubbish off the site.
 - 2. Remove grease, dust, dirt, stains, labels, fingerprints and other foreign materials from exposed and enclosed surfaces.
 - 3. Repair, patch and touch up all affected surfaces to match adjacent surfaces.
- B. Broom clean paved surfaces, rake clean other surfaces of grounds. Vacuum clean all interior surfaces, rake clean other surfaces of grounds.
- C. Refer to the requirements of the Contract Documents in addition to the requirements of this Section.
- D. See Section 1010, Project Closeout, for additional requirements.
- E. At the completion of Work on all Contracts and immediately prior to final inspection, cleaning of the entire Project will be accomplished according to the following provisions:
 - 1. The CONTRACTOR shall thoroughly clean, sweep, wash, and polish all work and equipment, including finishes. The cleaning shall leave the structures and site in a complete and finished condition to the satisfaction of the OWNER.
 - 2. Should the CONTRACTOR not remove rubbish or debris or not clean the building and site as specified above, the OWNER reserves the right to have the cleaning done at the expense of the CONTRACTOR.

- 3. In preparation for substantial completion of occupancy, conduct final inspection of sight-exposed interior and exterior surfaces, and of concealed spaces.
- 4. Remove grease, dust, dirt, stains, labels, fingerprints, and other foreign materials from sight-exposed interior and exterior finished surfaces; polish surfaces so designated to shine finish.
- 5. Repair, patch, and touch up marred surfaces to specified finish, to match adjacent surfaces.
- 6. Broom clean paved surfaces; rake clean other surfaces of grounds.
- 7. Replace air-handling filters if units were operated during construction.
- 8. Clean luminaires in accordance with manufacturer's recommendations. Clean all light fixtures.
- 9. Remove from the OWNER's property all temporary structures and all materials, equipment, and appurtenances not required as a part of, or appurtenant to, the completed work. See Section 1006 - Temporary Construction Facilities and Utilities.

1010 — Project Closeout

1. GENERAL

- A. Closeout is hereby defined to include general requirements near the end of the Contract Time, in preparation for Final Completion, Final Payment, normal termination of Contract, occupancy by OWNER and similar actions evidencing completion of the Work.
- B. At the end of the fabrication and installation phases, the FABRICATOR shall Closeout the project, Closeout includes returning any materials borrowed from the OWNER, collecting and delivering all source materials required to produce the Exhibition (graphic files, media, etc), and verifying the completion of any remaining punch list items.
- C. Where a conflict exists between this section and the Contract Documents, the conditions in the Contract Documents take precedence.

2. CERTIFICATION OF SUBSTANTIAL COMPLETION

- A. Prior to requesting the OWNER's [MR1] inspection for certification of each phase as Substantially Complete, the CONTRACTOR shall certify in writing that each phase of the Work is Substantially Complete and shall submit a list of known items still to be completed or corrected (CONTRACTOR's punchlist) prior to Contract Completion.
- B. The following items shall be completed:
 - 1. OWNER has been advised of any pending insurance changeover requirements.
 - 2. Specific warranties, maintenance agreements, final certifications and similar documents have been submitted.
 - 3. All tools, spare parts, extra stocks of materials, and similar physical items have been delivered to OWNER.
 - 4. Instruction of OWNER's operation/maintenance personnel and start up testing has been completed.
 - 5. Submittal and acceptance of all O&M manuals.

3. PUNCHLIST

- A. When the CONTRACTOR considers that the Work, or a portion or phase thereof which the OWNER agrees to accept separately, is Substantially Complete, the CONTRACTOR shall certify in writing that the work is Substantially Complete and shall prepare and submit to the DESIGNER a comprehensive list of items to be completed or corrected prior to Contract Completion (punchlist).
- B. The DESIGNER may add additional work items to the punchlist.
- C. Failure to include an item on the punchlist does not alter the responsibility of the CONTRACTOR to complete all Work in accordance with the Contract Documents.
- D. Upon receipt of the CONTRACTOR's punchlist, the DESIGNER will make an inspection to determine whether the Work or designated portion thereof is Substantially Complete.
- E. If the DESIGNER's inspection discloses any item, whether or not included on the CONTRACTOR's list, that is not in accordance with the requirements of the Contract Documents, the CONTRACTOR shall, upon notification by the DESIGNER and before an issuance of the Certificate of Operational Completion is provided, complete or

Bart Exhibition Design	Roseville Utility Exploration Center		Final Design Bid Docs	Key Plan	Revisions	Sheet Number			
	Bart Hays Exhibition Design 1041 Morse Drive Pacific Grove, CA 93950 612.423.5245	City of Roseville 2005 Hilltop Circle, Suite 130 Roseville, CA 95747 916.746.1750			9/9/2022 Issued for bid	Project Name & No. Roseville Utility Exploration Center	Drawing Name General Notes & Specifications	Date 9/9/2022	Designer TW, BH
					Scale As Noted	Sheet No. X-00-0.12			

correct such item.

- F. The CONTRACTOR shall then submit a request for another inspection by the DESIGNER.
- G. When the Work or designated portion thereof is accepted by the DESIGNER to be Substantially Complete, the DESIGNER will prepare a Certificate of Operational Completion.
- H. The date of Operational Completion shall be the date of the DESIGNER's inspection and acceptance.

4. AS-INSTALLED DRAWINGS

- A. The CONTRACTOR shall prepare and submit As-Installed Drawings for the OWNER.
 1. The CONTRACTOR shall make a record of changes during construction on prints of the Drawings provided by the OWNER for this purpose (As-Installed Drawings) as described in Section 01330, Submittal Procedures.
 2. DESIGNER will verify on a monthly basis and provide written verification that the As-Installed Drawings are being developed and kept updated prior to submitting CONTRACTOR'S progress payment to the OWNER.
 3. The reproducible drawings on which changed conditions are recorded shall be returned to the DESIGNER prior to Final Completion.

5. WARRANTIES

- A. The Contract Documents cover the CONTRACTOR's responsibility to remedy defects due to faulty workmanship and materials.
- B. Special warranties are required by various Sections of these Specifications. Assemble written warranties, label and submit to the DESIGNER.
 1. Equipment warranties shall be written in the manufacturer's standard form and shall be countersigned by the Subcontractor or supplier and the CONTRACTOR.
 2. All other warranties shall be written on the Subcontractor's or supplier's letterhead and shall be countersigned by the CONTRACTOR.

6. SPARE PARTS AND MAINTENANCE MATERIALS

- A. Spare parts and maintenance materials are required by various Sections of the Specifications.
1. Parts and materials shall be packaged so as to preclude damage in normal handling and storage.
 2. Packages shall be labeled with full description of contents and project name and clearly identified as to which item of equipment they belong to. CONTRACTOR shall maintain a spare parts inventory list which shall be provided to the OWNER prior to Final Completion.
 3. Submit packaged parts and materials to OWNER.
 4. Submit the value of all spare parts.

7. FINAL INSPECTION

- A. Prior to requesting DESIGNER's final inspection for certification of Final Completion and Final Payment, complete the following and list known exceptions (if any):
 - 1. Submit Final Payment request with final releases and supporting documentation not previously submitted and accepted.
 - 2. Submit copy of final punchlist of itemized work to be completed or corrected, stating that each item has been completed or otherwise resolved for acceptance, endorsed and dated by OWNER.
 - 3. Submit Consent of Surety.
 - 4. Revise and submit evidence of final, continuing insurance coverage complying with insurance requirements.
- B. Certify in writing that the work has been completed in accordance with the Contract Documents, and request DESIGNER's final inspection.
- C. Reinspection:
 - 1. Within seven (7) days after receipt of the CONTRACTOR's notice that the work has been completed, including punchlist items resulting from earlier inspections, and excepting incomplete items delayed because of acceptable circumstance, the OWNER will reinspect the work.
 - 2. Upon completion of reinspection, OWNER will either prepare a certificate of Final Completion or advise the CONTRACTOR of work not complete or obligations not fulfilled as required for

Final Completion.

3. If necessary, inspection procedure will be repeated.

8. OPERATION AND MAINTENANCE MANUAL

An Operations and Maintenance Manual and operational training are required for all exhibits to provide the OWNER with a comprehensive reference for the use and care of their exhibits.

Content of Operations and Maintenance Manual

- A. Title Page - Provide a title page with the name of the exhibit, the site, and the installation date.
- B. Table of Contents - Provide a list of contents.
- C. Contract Information - Provide name, physical and email addresses, and telephone number for all FABRICATORS and suppliers who produced work for the exhibit, identifying the portion of the work which they provided.
- D. Cleaning Instructions - Provide instructions for cleaning all exhibit structures, finishes, graphic panels, tactile models, and screen-printed material. Include brand names of recommended cleaning materials. Provide the name, physical and email addresses, telephone number, and website (if applicable) of the manufacturers or distributors of the cleaning products. Listed cleaning products shall correspond with supplies included in the Maintenance Kit furnished by the FABRICATOR. "Not to be Used" materials and techniques shall be identified.
- E. Repair Instructions - Describe specific techniques for repairing damage to exhibit surface materials such as wood and painted finishes, screen printed areas, plastic laminates, faux finishes, fabric, metal, acrylic, polycarbonate, and glass.
- F. Object Care and Handling - Provide information or direction for care, maintenance, and cleaning of the object mounts, including how to detach the object from the mount. Provide copies of all final object mount drawings
- G. Product List and Catalog Cuts - List brand names of off-the-shelf products purchased for use in the exhibit and the name, physical and email addresses, telephone number, and website address (if applicable). Provide legible scanned and printed copies of catalog cuts for all products listed.

Bart Exhibition Design	Roseville Utility Exploration Center		Final Design Bid Docs	Key Plan	Revisions	Project Name & No. Roseville Utility Exploration Center		Drawing Name General Notes & Specifications	Sheet Number X-00-0.13
	Bart Hays Exhibition Design 1041 Morse Drive Pacific Grove, CA 93950 612.423.5245	City of Roseville 2005 Hilltop Circle, Suite 130 Roseville, CA 95747 916.746.1750			9/9/2022 Issued for bid	Date 9/9/2022	Designer TW, BH	Scale As Noted	

- H. Warranties - Provide purchase receipts and manufacturer’s warranties for all off-the-shelf equipment purchased by the FABRICATOR.
- I. Access Instructions - Provide visuals clearly and sufficiently illustrating access to artifacts, desiccant, lighting equipment, mechanical devices, and audiovisual equipment within the exhibits. The illustrations shall include the exhibit number(s), step-by-step instructions, and any other information relevant to opening or dismantling the structures.
- J. Electrical and Mechanical Instructions - Provide maintenance and operational instructions for all electrical and mechanical equipment other than lighting and audiovisual equipment, or as specified in the Design Package.

9. AUDIOVISUAL OPERATIONS MANUAL

The FABRICATOR shall provide a separate notebook that contains the Audiovisual Operations Manual. This Manual describes the operation and simple troubleshooting of the audiovisual systems specified in the Design Package. Each copy shall include the owner’s operating/service manuals for each item of equipment used in the specified system.

Contents of the Audiovisual Operations Manual:

- a) Title Page - Provide a title page with the name of the exhibit, the site, and the installation date.
- b) Table of Contents - Provide a list of contents.
- c) Systems Block diagram(s), 11”x17”.
- d) Systems Overview description(s).
- e) Daily System Startup and Shutdown Procedures.
- f) Simple Troubleshooting steps.
- g) Access Instructions - Provide visuals clearly and sufficiently illustrating access to equipment. The illustrations shall include the exhibit number(s), step-by-step instructions, and any other information relevant to access the equipment for troubleshooting or maintenance.

10. AS-INSTALLED DRAWINGS

The purpose and general requirement of the As-Installed drawings shall be to provide detailed documentation of the actual, installed, completed exhibit conditions.

1. The drawings shall document and incorporate changes in content, materials, or fabrication details that were made in the exhibits prior to final completion, but which are not reflected in the most current drawings.
2. The As-Installed drawings shall be included in the Maintenance Manual and shall incorporate all final exhibit design and detail drawings.
3. All original drawings produced under this contract shall be the property of the OWNER.
4. As-Installed Exhibit Drawings - Include one copy of As-Installed Exhibit Drawings printed onto 11" x 17” sheets.

11. SPECIALIZED KEYS AND TOOLS

All keys to exhibit locks and specialized tools, including screwdrivers for tamper proof screws, wrenches for roto locks, Allen (hex) wrenches, or any other specialized tool which shall be used for case access, mobility, or security. All locks should be keyed alike and any specially tools should be limited to as few types or sizes as possible. Provide three copies of each type of key and tool. Each key and tool shall be identified with the exhibit component name and number.

A. Maintenance Kit

1. Container - A heavy-duty plastic storage container, with a lid.
2. Touch-up Materials - Bottles or cans of each paint, stain, wax, and other finishes used on the exhibit, with tightly fitted lids or caps, and clear identification of the contents on firmly attached labels. For each type of finish, provide appropriate solvents and brushes or other tools as required to apply the finish. Provide a minimum of one full quart of each paint and stain, and one full quart of each type of protective finish, such as polyurethane, except as otherwise specified in the Design drawings.
3. Cleaning Materials - Cleaning materials for each type of surface in the exhibit, including glass, acrylic, plastic laminate, metal, and wood. Provide one full bottle of each type of cleaner. Provide appropriate applicators for use

with each type of cleaning product in sufficient quantities to clean the entire exhibit for a minimum of 60 days. All cleaning materials shall be listed in the Maintenance Manual, with the manufacturer’s address, telephone number, and website address (if applicable). If the exhibit includes acrylic glazing or surfaces, provide the following materials for cleaning acrylic:

Brillianize, as manufactured by:

The Brillianize Company Kleenmaster Products
4966 Industrial Highway Benicia, California 94510
800-445-9344
707-751-0656

World Headquarters
351 Phelps Drive Irving, Texas 75038
972-281-1200
<https://www.kcprofessional.com/brands/wypall>

12. OPERATIONAL TRAINING

After inspection and acceptance of the installed exhibits, the FABRICATOR shall conduct operational training session(s) for the OWNER's staff at a predetermined mutually agreed upon time. The FABRICATOR shall provide an operational training session at a predetermined mutually agreed upon time. The training session shall include, but is not limited to:

1. Day-to-day cleaning of the exhibits - In addition, during the training session, the FABRICATOR shall provide and identify the components of the Maintenance Kit, assembled per the section entitled Maintenance Kit.
2. Minor repair and touch-up procedures
3. Access into exhibit structures, including operating locks and tamper proof hardware, opening hinged doors, removing and replacing cover panels, removing and inserting silica gel desiccant, changing lamps in lighting fixtures, and removing and replacing mounted artifacts, and models.
4. Start-up and shutdown procedures for audiovisual equipment, lighting, and other electrical equipment, including troubleshooting in the event of a power outage, lightning surge, or other potential hazards.

Exhibit Description:

A prominent new entrance display will attract visitors and help them understand what the UEC is all about. This is an imagined cutaway of the network of utilities under the street. Visitors can walk through a huge sewer pipe, while electrical conduit and water mains snake overhead—just some of the utility infrastructure that keeps Roseville going!

Welcome Desk Plan View

Birdseye View of Welcome Desk

Exhibit Description:

The welcome desk and retail fixtures will be retained and repurposed to improve their usability: an additional opening will be added to the desk for easier staff access. The retail fixtures will be relocated closer to the entrance of the UEC. On the other side of the desk, lockable storage will give staff a place to keep the activity kits and other items.

03. Welcome and Orientation

Exhibit Description:

Inside the UEC, the exhibits orient visitors and give them a sense of the complex system of utilities that connect to each other and to the customers. Through improved sightlines, visitors will get glimpses of the other displays throughout the space, exciting them to go and explore.

04. Waste Services

Panoramic photomural of landfill ties in with scenic elements.

Autocar ACX truck cab allows visitors to get up close and personal with their Roseville utilities.

Area intro panel introduces Roseville-Utilities Waste Services division.

Trash Tower shows a "core sample" of landfill. Visitors can observe layers of fill and notice how types of refuse have changed over time (e.g. introduction of plastics, elimination of food waste).

Visitors work together at the MRF—sorting interactive to divert recyclables from the waste stream.

Low tech interactive elements—
throughout trash pile. Open fridge or lift
paint can lid to reveal messaging.

- Crawlthrough with photo-op moments: guests can pop up in a discarded washing machine.

Exhibit Description:

The things we discard have to go somewhere. This section of the exhibit tells the story of solid waste, focusing on what happens to trash after it leaves the curb. The landfill is the final destination for Roseville's trash—and it's filling up fast. Through physical interactives, visitors can discover what people throw away and how they can reduce their own trash footprint.

05. Water

Exhibit Description:

The story of drinking water in Roseville is introduced with this section. Here, visitors can learn about the two sources of water to the city: surface water from Folsom Reservoir and groundwater from deep underground reservoirs. The utility has put years of planning and work to ensure that Roseville has clean, delicious water—even through droughts.

07. Stormwater

Exhibit Description:

The third utility in the water story is stormwater. Unlike the other two, stormwater is not treated—it’s everything that flows from the gutters and storm drains into the creeks and watershed. In this exhibit—located with a view to the garden outside—visitors can learn about their watershed.

08. Electric

—Area intro panel introducing visitors to Roseville Electric.

Entrance to Technology Lab.

Exhibit Description:

The final utility section of the exhibition tells the story of electricity. Roseville is unique in the region in that it both purchases and produces its electricity—the city’s reliability and low rates are directly connected with the planning and work the utility does every day.

COLOR PALETTE

Roseville Utility Exploration Center colors are inspired by the whimsical hues in the new logo. The bold color palette is not too serious or intimidating and makes this complex topic accessible to a wide audience. Each bright color represents one of the Roseville utilities and will be used to help visitors navigate the Exploration Center. These bold hues and clean graphics stand out against the neutral backdrop of plywood and steel finishes in the exhibits.

FONTS

Titles

The clean, rounded letterforms of the MONTSERRAT font offer a whimsical, yet legible display. The dropped crossbar give the capital ‘R’ and ‘P’ a playful quality and the perfectly circular ‘O’ and ‘C’ mimic the circular form in the pinwheel of the logo. The large dots on the lowercase ‘i’ reinforce this important shape.

Montserrat Bold:

Body Copy

BARLOW CONDENSED is a clean, contemporary font with a vintage feel. It has an industrial flair but its playful letterforms make the text accessible to a wide audience, delivering complicated information clearly and without distraction. Its condensed, vertical letterforms contrast with the horizontality of the pipes and other elements in the exhibits. Barlow Condensed is a versatile font with semibold and Extra Bold options for headers, and a variety of light weight fonts for fine tuning body copy. The condensed font relates to that used in the logo.

Barlow Condensed Semibold:

Your purchases have
POWER

Can what you buy make a difference?
Reusable and sustainable products help
people, your wallet, and the environment.
Where possible, avoid choosing items you
use once and throw away. See if you can
reuse, repair, or repurpose what you have.
The most sustainable option is the one
you already own!

Going green isn't always simple,
but even small changes can
make a positive impact. Make
the choice that is right for you.

Topic Panel
(12" wide x 12" tall)

WS.01.GP.02:
Reference cards - sustainable labels
(6" wide x 6" tall)

What does "green" mean?
Lots of products claim to be good
for the planet. Instead of words like
"natural" and "eco," look for logos to
help inform your choices.

WS.01.GP.02.tx.01

Comes from sustainable forests.

WS.01.GP.02.tx.02

Meets strict standards for how
it treats its workers, community,
and natural resources.

WS.01.GP.02.tx.03

Donates one percent of their sales
to environmental non-profits.

WS.01.GP.02.tx.04

Supports social, economic,
and environmental sustainability.

WS.01.GP.02.tx.05

Meets high standards for
sustainable energy consumption.

WS.01.GP.02.tx.06

Meets criteria for water efficiency.

WS.01.GP.02.tx.07

Offsets 100 percent of carbon emissions.

WS.01.GP.02.tx.08

Protects people and the planet.

WS.01.GP.02.tx.09

We love big trucks

It takes a lot of people—and work—to take out the trash. Seven types of garbage trucks haul waste in Roseville. How many do you see in your neighborhood?

PRESS

to flash the truck's lights.

SIDE LOADERS

empty household waste and green waste cans. These are the most commonly used trucks.

ORGANICS TRUCKS

collect food waste for composting.

HAZARDOUS WASTE TRUCKS

pick up things that don't go into your garbage can, like batteries, electronics, and paint.

REAR LOADERS

pick up large items like couches.

ROLL-OFF TRUCKS

haul commercial waste and large open-top waste.

FRONT LOADERS

Front loaders pick up smaller dumpsters and commercial waste

FUN FACT

One residential side loader can collect trash and recycling from 1,000 cans a day!

The unflushables!

Help us keep these items out of the toilet!
They don't break down—so they clog pipes
and cause overflows.

-  Dental floss gets wrapped around items and causes blockages.
-  Even so-called "flushable wipes" don't break down in the toilet. Throw them out instead!
-  Paper towels, makeup removers, and cotton buds cause clogs in the sewer.

POLLUTANT

Fertilizer

When fertilizer gets into the water, it causes algae to bloom.

POLLUTANT

Invasive plants

Invasive plants can take over a garden and choke out other plants.

POLLUTANT

Pesticides

Yuck! Pesticides in the creek hurt wildlife and can damage drinking water supplies.

POLLUTANT

Overwatering

Only water when needed. Overwatering promotes excessive growth, which attracts pests.

UH.07.GP.01:
Spinners (side 2)
(12" wide x 6" tall)

REPLACEMENT

Compost

Feed your landscaping with compost—it stays where it's placed. It also helps the environment because composting keeps those materials out of the landfill.

REPLACEMENT

Native plants

Native species have evolved to provide food and shelter to wildlife.

REPLACEMENT

Beneficial insect

Ladybugs, lacewings, and mantises provide natural pest control.

REPLACEMENT

Mulch

Hold water in your garden with mulch. This provides a slower, well structured growth that resists pests.

WW.03.GP.01	Treating Wastewater	Topic panel	Backlit	Edge Capture	36.00	163.25	Duratrans (or similar between) clear 1/8" lexan and 1/4" milk plex. Graphic set into 1/2" metal angle frame or "F" channel.
WW.04.GP.01	Keep the Sewers Flowing	Topic panel	Backlit	Edge Capture	36.00	163.25	Duratrans (or similar between) clear 1/8" lexan and 1/4" milk plex. Graphic set into 1/2" metal angle frame or "F" channel.
WW.05.GP.01	Meet the microbes	Reader rail with instructions	Backlit	Edge Capture	30.00	18.75	Duratrans (or similar between) clear 1/8" lexan and 1/4" milk plex. Graphic set into 1/2" metal angle frame or "F" channel.
WW.06.GP.01	Purple Pipes Carry Recycled Water	Small label (located near the Stormwater section)	Second Surface	VHB	10.00	6.00	Lambda high resolution digital output second surface on 1/8" Lexan (matte finish) with eased edges. 1" wide 3M VHB foam tape.

2.0 Component List - Graphics Schedule

Code (Area.No.Type.No)	Working Title	Description	Graphic Type	Mounting	gWidth"	gHeight"	Production Description
ST.01.GP.01	Keeping Pollution out of Roseville's Waterway	Intro graphic panel	Wrapped (Wall)	Z-Clip	28.00	106.00	Lambda high resolution digital output, wrapped over 1/4" or 3/8" MDF substrate. Offset Z-clip aluminum extrusion secured to graphic substrate and mounting surface.
ST.02.GP.01	Only rain down the storm drain	Topic panel: Where Does Stormwater Go?	Wrapped (Wall)	Z-Clip	24.00	66.00	Lambda high resolution digital output, wrapped over 1/4" or 3/8" MDF substrate. Offset Z-clip aluminum extrusion secured to graphic substrate and mounting surface.
ST.02.GP.02	Only rain down the storm drain	House cutaway (on modeled building)	Phenolic Resin	Bolted			CHPL graphic sign material composed of several layers of phenolic resin impregnated kraft filler paper, with digitally imaged graphic. Machine screws through mounting surface into threaded inserts embedded in substrate.
ST.03.GP.01	Roseville's watershed	Illustration wraps two walls behind city model	Wrapped (Wall)	Z-Clip	254.00	87.00	Lambda high resolution digital output, wrapped over 1/4" or 3/8" MDF substrate. Offset Z-clip aluminum extrusion secured to graphic substrate and mounting surface.
ST.03.GP.02	Roseville's watershed	Dimensional letters	Dimensional Letters	Pin Mounted	54.00	36.00	Acrylic or Metal, laser cut and painted. Provide 1/8" pin mounts and paper template.
RE.01.GP.01	Utility intro: The Power to Make a Difference	Intro graphic panel	Wrapped (Wall)	Inset Frame	32.25	93.38	Lambda high resolution digital output, wrapped over 1/4" or 3/8" MDF substrate. Graphic inset in 1/2" finished aluminum angle, secured from backside, Leave 1/8" reveal on all sides.
RE.02.GP.01	Power on the line	Cutout figure appears to be climbing utility pole	Phenolic Resin	Bolted	36.00	60.00	CHPL graphic sign material composed of several layers of phenolic resin impregnated kraft filler paper, with digitally imaged graphic. Machine screws through mounting surface into threaded inserts embedded in substrate.
RE.02.GP.02	Power on the line	Interpretive graphic (on reverse of intro panel)	Wrapped (Wall)	Inset Frame	32.25	93.38	Lambda high resolution digital output, wrapped over 1/4" or 3/8" MDF substrate. Graphic inset in 1/2" finished aluminum angle, secured from backside, Leave 1/8" reveal on all sides.
RE.03.GP.01	Powering Roseville	Backdrop graphics to interactive	Phenolic Resin	Bolted	90.00	47.00	CHPL graphic sign material composed of several layers of phenolic resin impregnated kraft filler paper, with digitally imaged graphic. Machine screws through mounting surface into threaded inserts embedded in substrate.
RE.03.GP.02	Powering Roseville	Dimensional letters	Dimensional Letters	Pin Mounted	72.00	24.00	Acrylic or Metal, laser cut and painted. Provide 1/8" pin mounts and paper template.
RE.03.GP.03	Powering Roseville	Focus panel: Keep the Electricity Flowing	Wrapped (Wall)	Z-Clip	22.00	32.00	Lambda high resolution digital output, wrapped over 1/4" or 3/8" MDF substrate. Offset Z-clip aluminum extrusion secured to graphic substrate and mounting surface.
RE.04.GP.01	Electricity in action	Wall photomural with simple illustrations	Wrapped (Wall)	Z-Clip	107.00	104.00	Lambda high resolution digital output, wrapped over 1/4" or 3/8" MDF substrate. Offset Z-clip aluminum extrusion secured to graphic substrate and mounting surface.
UH.01.GP.01	Utility Savings Starts With You	Intro graphic panel	Wrapped (Wall)	Inset Frame	32.25	93.38	Lambda high resolution digital output, wrapped over 1/4" or 3/8" MDF substrate. Graphic inset in 1/2" finished aluminum angle, secured from backside, Leave 1/8" reveal on all sides.
UH.01.GP.02	Color block with prompt	Vertical panel, located on right side of door opening	Wrapped (Wall)	Bolted	10.50	42.00	Lambda high resolution digital output, wrapped over 1/4" or 3/8" MDF substrate. Machine screws through mounting surface into threaded inserts embedded in substrate.
UH.01.GP.03	Color block with prompt	Horizontal panel, located on right side of door opening	Wrapped (Wall)	Bolted	42.00	12.00	Lambda high resolution digital output, wrapped over 1/4" or 3/8" MDF substrate. Machine screws through mounting surface into threaded inserts embedded in substrate.

2.0 Component List - Graphics Schedule

Code (Area.No.Type.No)	Working Title	Description	Graphic Type	Mounting	gWidth"	gHeight"	Production Description
UH.01.GP.04	Chalkboard prompt	Small panel at upper right of house front	Wrapped (Wall)	Bolted	26.00	24.00	Lambda high resolution digital output, wrapped over 1/4" or 3/8" MDF substrate. Machine screws through mounting surface into threaded inserts embedded in substrate.
UH.01.GP.05	Chalkboard panel	Panel with chalkboard paint for low-tech interactive		Bolted	26.00	48.00	
UH.01.GP.06	Chalkboard panel	Panel with chalkboard paint for low-tech interactive		Bolted	26.00	24.00	
UH.01.GP.07	Stormwater savings tips	Topic Panel on house exterior (opposite UH.02.GP.02)	Wrapped (Wall)	Bolted	26.50	49.38	Lambda high resolution digital output, wrapped over 1/4" or 3/8" MDF substrate. Machine screws through mounting surface into threaded inserts embedded in substrate.
UH.01.GP.08	Energy saving tips	Topic Panel on house exterior (opposite UH.03.GP.01)	Wrapped (Wall)	Bolted	26.50	49.38	Lambda high resolution digital output, wrapped over 1/4" or 3/8" MDF substrate. Machine screws through mounting surface into threaded inserts embedded in substrate.
UH.01.GP.09	Wastewater tips	Topic Panel on house exterior (wall near toilet)	Wrapped (Wall)	Bolted	26.50	49.38	Lambda high resolution digital output, wrapped over 1/4" or 3/8" MDF substrate. Machine screws through mounting surface into threaded inserts embedded in substrate.
UH.01.GP.10	Water saving tips	Topic Panel on house exterior (wall near kitchen)	Wrapped (Wall)	Bolted	26.50	49.38	Lambda high resolution digital output, wrapped over 1/4" or 3/8" MDF substrate. Machine screws through mounting surface into threaded inserts embedded in substrate.
UH.01.GP.11	How Do You Compare?	Topic Panel adjacent to Intro Panel	Wrapped (Wall)	Bolted	26.50	49.38	Lambda high resolution digital output, wrapped over 1/4" or 3/8" MDF substrate. Machine screws through mounting surface into threaded inserts embedded in substrate.
UH.02.GP.01	Small Steps Add Up	Background graphic for What's your impact? interactive	Wrapped (Wall)	Bolted	26.50	49.38	Lambda high resolution digital output, wrapped over 1/4" or 3/8" MDF substrate. Machine screws through mounting surface into threaded inserts embedded in substrate.
UH.02.GP.02	You Make a Difference	Topic Panel	Wrapped (Wall)	Bolted	26.50	49.38	Lambda high resolution digital output, wrapped over 1/4" or 3/8" MDF substrate. Machine screws through mounting surface into threaded inserts embedded in substrate.
UH.03.GP.01	Crank Up the Power	Topic Panel	Wrapped (Wall)	Bolted	26.50	49.38	Lambda high resolution digital output, wrapped over 1/4" or 3/8" MDF substrate. Machine screws through mounting surface into threaded inserts embedded in substrate.
UH.04.GP.01	Topic panel	Topic panel serves as instructions for water and wastewater	Wrapped (Wall)	Bolted	26.50	49.38	Lambda high resolution digital output, wrapped over 1/4" or 3/8" MDF substrate. Machine screws through mounting surface into threaded inserts embedded in substrate.
UH.05.GP.01	Toilet interactive	Toilet seat graphic	Second Surface	VHB	16.00	18.00	Lambda high resolution digital output second surface on 1/8" Lexan (matte finish) with eased edges. 1" wide 3M VHB foam tape.
UH.06.GP.01	Sort That Trash!	Topic panel with intro/instructions (at far left of display)	Wrapped (Wall)	Bolted	26.50	49.38	Lambda high resolution digital output, wrapped over 1/4" or 3/8" MDF substrate. Machine screws through mounting surface into threaded inserts embedded in substrate.
UH.06.GP.02	Backsplash graphic	Sits behind the sink and holds the light for the interactive	Wrapped (Wall)	Bolted	46.00	6.25	Lambda high resolution digital output, wrapped over 1/4" or 3/8" MDF substrate. Machine screws through mounting surface into threaded inserts embedded in substrate.

2.0 Component List - Graphics Schedule

Code (Area.No.Type.No)	Working Title	Description	Graphic Type	Mounting	gWidth"	gHeight"	Production Description
UH.06.GP.03	Header above sink	Horizontal header graphic over sink	Wrapped (Wall)	Bolted	42.00	12.00	Lambda high resolution digital output, wrapped over 1/4" or 3/8" MDF substrate. Machine screws through mounting surface into threaded inserts embedded in substrate.
UH.06.GP.04	FOG	Vertical panel to right of sink	Wrapped (Wall)	Bolted	10.50	42.00	Lambda high resolution digital output, wrapped over 1/4" or 3/8" MDF substrate. Machine screws through mounting surface into threaded inserts embedded in substrate.
UH.06.GP.05	Disposal/fruit stickers	Small topic panel to the left of sink	Wrapped (Wall)	Bolted	26.00	24.00	Lambda high resolution digital output, wrapped over 1/4" or 3/8" MDF substrate. Machine screws through mounting surface into threaded inserts embedded in substrate.
UH.06.GP.06	Waste reduction tips/infographics	Large panel to the left of sink	Wrapped (Wall)	Bolted	26.00	48.00	Lambda high resolution digital output, wrapped over 1/4" or 3/8" MDF substrate. Machine screws through mounting surface into threaded inserts embedded in substrate.
UH.07.GP.01	Slow the Flow	Long reader rail	Second Surface	VHB	168.00	18.00	Lambda high resolution digital output second surface on 1/8" Lexan (matte finish) with eased edges. 1" wide 3M VHB foam tape.
UH.07.GP.02	Stream window cling	Window cling below reader rail	Window Film	Cling	192.00	29.00	3M Scotchcal Clear View Graphic Film IJ8150 applied directly to building window. Vinyl window cling.
UH.07.GP.03	Spinner graphic #1	Graphic on rotating drum	Second Surface		9.00	21.25	Lambda high resolution digital output second surface on 1/8" Lexan (matte finish) with eased edges.
UH.07.GP.04	Spinner graphic #2	Graphic on rotating drum	Second Surface		9.00	21.25	Lambda high resolution digital output second surface on 1/8" Lexan (matte finish) with eased edges.
UH.07.GP.05	Spinner graphic #3	Graphic on rotating drum	Second Surface		9.00	21.25	Lambda high resolution digital output second surface on 1/8" Lexan (matte finish) with eased edges.
UH.07.GP.06	Spinner graphic #4	Graphic on rotating drum	Second Surface		9.00	21.25	Lambda high resolution digital output second surface on 1/8" Lexan (matte finish) with eased edges.
TL.01.GP.01	Tech Lab	Orientation signage	Wrapped (Wall)	Z-Clip	32.25	93.38	Lambda high resolution digital output, wrapped over 1/4" or 3/8" MDF substrate. Offset Z-clip aluminum extrusion secured to graphic substrate and mounting surface.
TL.01.GP.02	Dimensional letters		Dimensional Letters	Pin Mounted	90.00	24.00	Acrylic or Metal, laser cut and painted. Provide 1/8" pin mounts and paper template.
TL.05.GP.01	Circular graphic behind hand sanitizer		Phenolic Resin	Bolted	15.00	15.00	CHPL graphic sign material composed of several layers of phenolic resin impregnated kraft filler paper, with digitally imaged graphic. Machine screws through mounting surface into threaded inserts embedded in substrate.
