UH.01.GP.04	Chalkboard prompt	Small panel at upper right of house front	Wrapped (Wall)	Bolted	26.00	24.00	Lambda high resolution digital output, wrapped over 1/4" or 3/8" MDF substrate. Machine screws through mounting surface into threaded inserts embedded in substrate.
UH.01.GP.05	Chalkboard panel	Panel with chalkboard paint for low-tech interactive		Bolted	26.00	48.00	
UH.01.GP.06	Chalkboard panel	Panel with chalkboard paint for low-tech interactive		Bolted	26.00	24.00	
UH.01.GP.07	Stormwater savings tips	Topic Panel on house exterior (opposite UH.02.GP.02)	Wrapped (Wall)	Bolted	26.50	49.38	Lambda high resolution digital output, wrapped over 1/4" or 3/8" MDF substrate. Machine screws through mounting surface into threaded inserts embedded in substrate.
UH.01.GP.08	Energy saving tips	Topic Panel on house exterior (opposite UH.03.GP.01)	Wrapped (Wall)	Bolted	26.50	49.38	Lambda high resolution digital output, wrapped over 1/4" or 3/8" MDF substrate. Machine screws through mounting surface into threaded inserts embedded in substrate.
UH.01.GP.09	Wastewater tips	Topic Panel on house exterior (wall near toilet)	Wrapped (Wall)	Bolted	26.50	49.38	Lambda high resolution digital output, wrapped over 1/4" or 3/8" MDF substrate. Machine screws through mounting surface into threaded inserts embedded in substrate.
UH.01.GP.10	Water saving tips	Topic Panel on house exterior (wall near kitchen)	Wrapped (Wall)	Bolted	26.50	49.38	Lambda high resolution digital output, wrapped over 1/4" or 3/8" MDF substrate. Machine screws through mounting surface into threaded inserts embedded in substrate.
UH.01.GP.11	How Do You Compare?	Topic Panel adjacent to Intro Panel	Wrapped (Wall)	Bolted	26.50	49.38	Lambda high resolution digital output, wrapped over 1/4" or 3/8" MDF substrate. Machine screws through mounting surface into threaded inserts embedded in substrate.
UH.02.GP.01	Small Steps Add Up	Background graphic for What's your impact? interactive	Wrapped (Wall)	Bolted	26.50	49.38	Lambda high resolution digital output, wrapped over 1/4" or 3/8" MDF substrate. Machine screws through mounting surface into threaded inserts embedded in substrate.
UH.02.GP.02	You Make a Difference	Topic Panel	Wrapped (Wall)	Bolted	26.50	49.38	Lambda high resolution digital output, wrapped over 1/4" or 3/8" MDF substrate. Machine screws through mounting surface into threaded inserts embedded in substrate.
UH.03.GP.01	Crank Up the Power	Topic Panel	Wrapped (Wall)	Bolted	26.50	49.38	Lambda high resolution digital output, wrapped over 1/4" or 3/8" MDF substrate. Machine screws through mounting surface into threaded inserts embedded in substrate.
UH.04.GP.01	Topic panel	Topic panel serves as instructions for water and wastewater	Wrapped (Wall)	Bolted	26.50	49.38	Lambda high resolution digital output, wrapped over 1/4" or 3/8" MDF substrate. Machine screws through mounting surface into threaded inserts embedded in substrate.
UH.05.GP.01	Toilet interactive	Toilet seat graphic	Second Surface	VHB	16.00	18.00	Lambda high resolution digital output second surface on 1/8" Lexan (matte finish) with eased edges. 1" wide 3M VHB foam tape.
UH.06.GP.01	Sort That Trash!	Topic panel with intro/instructions (at far left of display)	Wrapped (Wall)	Bolted	26.50	49.38	Lambda high resolution digital output, wrapped over 1/4" or 3/8" MDF substrate. Machine screws through mounting surface into threaded inserts embedded in substrate.
UH.06.GP.02	Backsplash graphic	Sits behind the sink and holds the light for the interactive	Wrapped (Wall)	Bolted	46.00	6.25	Lambda high resolution digital output, wrapped over 1/4" or 3/8" MDF substrate. Machine screws through mounting surface into threaded inserts embedded in substrate.

2.0 Component List - Graphics Schedule

Code (Area.No.Type.No)	Working Title	Description	Graphic Type	Mounting	gWidth"	gHeight"	Production Description
UH.06.GP.03	Header above sink	Horizontal header graphic over sink	Wrapped (Wall)	Bolted	42.00	12.00	Lambda high resolution digital output, wrapped over 1/4" or 3/8" MDF substrate. Machine screws through mounting surface into threaded inserts embedded in substrate.
UH.06.GP.04	FOG	Vertical panel to right of sink	Wrapped (Wall)	Bolted	10.50	42.00	Lambda high resolution digital output, wrapped over 1/4" or 3/8" MDF substrate. Machine screws through mounting surface into threaded inserts embedded in substrate.
UH.06.GP.05	Disposal/fruit stickers	Small topic panel to the left of sink	Wrapped (Wall)	Bolted	26.00	24.00	Lambda high resolution digital output, wrapped over 1/4" or 3/8" MDF substrate. Machine screws through mounting surface into threaded inserts embedded in substrate.
UH.06.GP.06	Waste reduction tips/infographics	Large panel to the left of sink	Wrapped (Wall)	Bolted	26.00	48.00	Lambda high resolution digital output, wrapped over 1/4" or 3/8" MDF substrate. Machine screws through mounting surface into threaded inserts embedded in substrate.
UH.07.GP.01	Slow the Flow	Long reader rail	Second Surface	VHB	168.00	18.00	Lambda high resolution digital output second surface on 1/8" Lexan (matte finish) with eased edges. 1" wide 3M VHB foam tape.
UH.07.GP.02	Stream window cling	Window cling below reader rail	Window Film	Cling	192.00	29.00	3M Scotchcal Clear View Graphic Film IJ8150 applied directly to building window. Vinyl window cling.
UH.07.GP.03	Spinner graphic #1	Graphic on rotating drum	Second Surface		9.00	21.25	Lambda high resolution digital output second surface on 1/8" Lexan (matte finish) with eased edges.
UH.07.GP.04	Spinner graphic #2	Graphic on rotating drum	Second Surface		9.00	21.25	Lambda high resolution digital output second surface on 1/8" Lexan (matte finish) with eased edges.
UH.07.GP.05	Spinner graphic #3	Graphic on rotating drum	Second Surface		9.00	21.25	Lambda high resolution digital output second surface on 1/8" Lexan (matte finish) with eased edges.
UH.07.GP.06	Spinner graphic #4	Graphic on rotating drum	Second Surface		9.00	21.25	Lambda high resolution digital output second surface on 1/8" Lexan (matte finish) with eased edges.
TL.01.GP.01	Tech Lab	Orientation signage	Wrapped (Wall)	Z-Clip	32.25	93.38	Lambda high resolution digital output, wrapped over 1/4" or 3/8" MDF substrate. Offset Z-clip aluminum extrusion secured to graphic substrate and mounting surface.
TL.01.GP.02	Dimensional letters		Dimensional Letters	Pin Mounted	90.00	24.00	Acrylic or Metal, laser cut and painted. Provide 1/8" pin mounts and paper template.
TL.05.GP.01	Circular graphic behind hand sanitizer		Phenolic Resin	Bolted	15.00	15.00	CHPL graphic sign material composed of several layers of phenolic resin impregnated kraft filler paper, with digitally imaged graphic. Machine screws through mounting surface into threaded inserts embedded in substrate.

3.0 Component List - Furniture

<i>Code (Area.No.Type.No)</i>	<i>Working Title</i>	<i>Casework Type</i>	<i>Fabrication Description</i>

WS.05.AV.01	Trash sorting interactive	Trash sorting Application	Custom Application
WS.05.AV.02	Trash sorting interactive	Trash Sorting hardware	65" Touch Table Monitor, PC
WA.02.AV.01	Water pipe	Visitors turn a wheel to simulate the flow of water on a screen on the pipe	Custom Application
WA.02.AV.02	Water pipe	42" LED screen on water pipe	NEC ME431 43" class Monitor or sim , PC
WW.05.AV.01	Meet the microbes	Touchscreen interactive where visitors can explore different microbes involved in wastewater treatement	Custom Application
WW.05.AV.02	Meet the microbes	Meet the Microbes AV equioment	PC, Projector, lens, touch interface TBD
UH.02.AV.01	Monitor showing energy savings	What's your impact? monitor	Liliput #TK1040-NP/C/T-A 10" LCD Monitor or Sim, with media player

5.0 Component List - Interactives

Code (Area.No.Type.No) Working Title		Description	Type	Spec
WS.03.IN.01	Garbage truck cab	A button on the reader rail will flash lights and play the sound of a bin being emptied into a hopper	Push Button Audio	Brightsign AU355 or Sim, Happ small round burtttons, speakers: TBD
WS.04.IN.01	Explore waste	Low-tech interactive: lift the lid on paint can	Flip Door	Graphic mounted to acrylic with stereo glass hinges
WS.04.IN.02	Explore waste	The opening is covered by a graphic so kids can't crawl inside	Flip Door	Graphic mounted to acrylic with stereo glass hinges
WS.04.IN.03	Explore waste	Trigger static or lights or a quick burst of sound	Push Button Audio	Brightsign AU355 or Sim, Happ small round burtttons, speakers: TBD
WS.04.IN.04	Explore waste	Explore waste flip doors	Flip Door	Graphic mounted to acrylic with stereo glass hinges
WS.04.IN.05	Explore waste	Visitors can lift up some boxes (that function as sliders/lift and drop) to learn about how much paper and cardboard we throw away!	Slider	Custom graphics in channels to allow one to slide away to reveal another
WA.04.IN.01	LED Interactive	Visitors can trigger LED lights hidden on the illustration that show water sources	Other	Custom computer game with physical manipulateable elements
WA.04.IN.02	Lift doors on wall illustration	Visitors can lift some doors on the illustration to reveal information	Flip Door	Custom graphics in channels to allow one to slide away to reveal another
ST.02.IN.01	Only rain down the storm drain	Ball interactive	Other	Custom Balls and Chutes
RE.03.IN.01	Powering Roseville	Custom interactive and 2 10" Monitors	Other	Custom computer game with physical manipulateable elements
UH.02.IN.01	What's your impact? Interactive	Interactive	Other	Custom game with physical manipulateable elements
UH.03.IN.01	Crank interactive	Refurbish existing energy crank and add new objects	Other	Refurbished hand crank generator
UH.04.IN.01	Water Savings interactive	Leak interactive	Other	Sensor, switch, and audio player
UH.05.IN.01	Toilet interactive	Visitors lift lid of the toilet to trigger a flushing sound and reveal a graphic	Other	Sensor, switch, and audio player, Lilliput TK700-NP/C 7" or Sim
UH.06.IN.01	Waste savings interactive	Sort waste items into correct bin interactive	Other	Custom sorting game with physical manipulateable elements
UH.07.IN.01	Stormwater spinner interactive	Spinner interactive on reader rail	Graphic spinner	Custom rotating drum with graphics

6.0 Component List - Objects

Code (Area.No. Type.No)	Working Title	Description	Object Source
VS.01.OB.01	Welcome desk	A retractable barrier will be added to the desk	City's Fabricator
WS.03.OB.01	Garbage truck cab	Garbage truck cab	City of Roseville
RE.02.OB.01	Power on the line	Fabricated or Recycled wood utility pole	Fabricator/ALT: City of Roseville
RE.02.OB.02	Power on the line	Hard hat, safety glasses, boots, harness, hot stick	City of Roseville
UH.03.OB.01	Energy crank [existing, modified]	Refurbish existing energy crank and add new objects	Update and Re-use existing
TL.01.OB.01	Plex holder for changing information	Acrylic Brochure holder	Fabricator
TL.03.OB.01	Magnetic board	Magnetic sheet to replace cork for mounting flyer, etc.	Fabricator
TL.04.OB.01	Literature/brochure rack	Existing wood case with open, staggered shelves to display brochures	Re-use existing
TL.05.OB.01	Hand sanitizer station		Re-use existing

SPEQ-S

Small Cylinder Track Head

Availability:
9/8/17 SPEQ-S

SPEQ Small Cylinder Track Head

Features

Designed to let the interior design and not the lighting take center stage, the SPEQ track head from Amerlux balances clean, minimal aesthetic design with industry leading optical performance. The fixture has no visible heat sink or venting and has snoot perfectly matched to provide excellent glare control while maintaining the clean fixture lines. The integral driver is fully featured with low end dimming and full 2.5 KV surge protection (not a lamp driver!) Perfect for Galleries, Retail and Commercial interiors SPEQ uses high end optical designs to ensure your space is lit perfectly and efficiently.

Product Overview

Type:	Track Accent & Display
Wattage:	9W, 15W
Lumen Output:	1,310 max (15W, Spot optic), 89.5 lm/W
CBCP:	9,393 max (15W, Spot optic)
Color Temp:	2200K, 2700K, 3000K, 3500K, 4000K
CRI:	83 typ. & 90+ typ. CrispWhite & 3K Class A LED's available
Dimming:	TRIAC & ELV (120V) - 5% Dim

MURRO LED WALL WASH

HORIZONTAL TRACK WALL WASH LED

APPLICATION

Wall wash lighting for retail, commercial & hospitality environments

CONSTRUCTION:

Die-cast heatsink
Extruded driver enclosure
No exposed wiring
Powder coat paint

ELECTRICAL:

Electronic constant current LED driver, 120v input
ELV and Triac dimming standard, 120v
See following pages for more information.

This product complies with IEEE C62.41 for surge endurance up to 2.5KV. Amerlux® recommends using additional surge protection with this unit (supplied by others), surge damage is not covered by warranty.

OPTICS:

0-180° tilt, 180° rotation
Wall wash beam spread
LED:

Color Temp Options: 2700K, 3000K, 3500K, 4000K

CRI: 83 typ. (2700K, 3000K, 3500K, 4000K)

90+ typ. (2700K, 3000K)

CrispWhite LED available

R9 Values: 11 (83CRI), 55 (90+CRI)

Binning: 3 MacAdam

Lumen Maintenance: >70% of initial lumens @ 50,000 hrs

Rev-A-Lock Cabinet Security

Introducing the revolutionary peace of mind accessory for any parent or grandparent, the Rev-A-Lock. This security device is one-of-a-kind with powerful magnetic locks. The lock assembly can attach to wood, glass, metal, and particleboard cabinets for a guaranteed safeguard from curious little hands. To open the cabinet, simply hold the magnetic key against the cabinet door to disengage the lock. The RL Series also features an unlocking device that allows a disabling of the lock so cabinets can be opened without the key.

Series Name: **RAL-101-1**

Short Description: **Rev-A-Lock Cabinet Security System Starter Set**

Width (min to max): **1 7/32"**

Depth (min to max): **1 5/8"**

Height (min to max): **1 13/32"**

Door Mountable: **Required, Included**

Installation Type: **Door/Wall Mount**

Mount Type: **Cabinet door**

LumiSheet[™]

LED Light Panel

CUSTOMIZABLE

- // Any size or shape up to 59" x 118" (1.5m x 3m)
- // Can be used in "frameless" designs
- // Multiple color temperatures, Tunable White, & RGB options available

BRIGHT & EVEN ILLUMINATION

- // 3D V-Cutting technology
- // High brightness (2,000 - 10,000 LUX)
- // Superior consistent light quality

LONG LIFESPAN

- // Patented heat sink technology to maximize LED lifespan (70,000 hours)

ENERGY EFFICIENT

- // Low power consumption (70% less than fluorescent)
- // Energy saving and maintenance free

WARRANTY

- // Advanced 3-year warranty

PERFECT BACKLIGHTING SOLUTION

LumiSheet[™] is designed to emit a bright, even output of light across the entire surface of the panel. Unlike traditional light panels, which have the light source mounted on the exterior of the Light Guide Plate (LGP), LumiSheet[™] integrates high brightness LEDs and the heat sink into our exclusive 3D V-cut LGP which makes it possible to produce "frameless", rectangular or special shaped LED light panels for various application needs.

Choose between multiple color temperatures, Tunable White, and RGB LEDs to fit the needs of your application.

Integrated High Quality LEDs

LumiSheet[™] integrates high quality 12V, constant voltage LEDs into the perimeter of the LumiSheet[™] panel without the use of rigid frame materials. This process allows the LEDs to conform to almost any shape.

3D V-Groove Light Guide Plate (LGP)

LumiSheet[™] utilizes crystal clear acrylic combined with a patented 3D V-groove etched grid pattern that provides even illumination to almost any shape imaginable.

Integrated Thermal Management

All LEDs create heat which is detrimental to their life span. LumiSheet[™] implements a patented technology which integrates the heat sink into the LGP that is easily conformable, allowing for customizable shapes.

PROFILE OF LUMISHEET™

FRONT VIEW

SPECIFICATIONS

ATTENTION! PLEASE REVIEW THE PRODUCT HANDLING, INSTALLATION & INTEGRATION ADVISORY ON PAGE 8

ELECTRICAL								
Input Voltage	12 Volt DC - Constant Voltage (24 Volt DC - Check Availability)							
Power Consumption	4.0 Watts / ft (single color LEDs)			5.0 Watts / ft (Tunable White LEDs)			5.0 Watts / ft (RGB LEDs)	
Wire Size	20 AWG 2 wire (Standard LEDs)			20 AWG 3 wire (Tunable White LEDs)			22 AWG 4 wire (RGB LEDs)	
Wiring	Each panel must have direct connection to power supply. Do not wire panels in series.							
Wire Length	Standard 5' (1500mm) & 10' (3000mm). Custom options available up to 20' (6000mm)							
Connector	2.1/5.5mm barrel plug [White Stripe / Center Pin +] (Standard White LEDs)		3-pin molex / bare wires [White - Power, Grey - Warm White, Black - Cool White] (Tunable White LEDs)		No connector (RGB LEDs)		Custom connection types available	
Certifications	UL Listed & UL Recognized, MRI Compliant – no ferrous metals							
PHYSICAL								
**Color Temperature	~2700K 	~3000K 	~3500K 	~4100K 	~5300K 	~6300K 	*Tunable White (TW) 2700K-6500K 	†Color Adjustable (RGB) 
CRI	80+ CRI (90+ CRI available on custom 12V DC orders in 3000K, 3500K, 4100K, or 5300K only)							
Mounting Examples	Wall mounted with screws, Z-clips, U-channel, mirror clips or standoffs							
Operating Temperature	-30 °C (-22 °F) ~ +40 °C (+104 °F)							
Environment	Dry location only (Standard)							
Thickness	8MM (Standard), other thicknesses available depending on the application							
Minimum Size	2" W x 2" L x 5/16" D (50mm x 50mm x 8mm)							
Maximum Size	59" W x 118" L x 5/16" D (1499mm x 2997mm x 8mm)							
Weight	1.95 lbs/sq. ft. (8mm LGP)					9.54 kg/sq. M (8mm LGP)		
POWER & CONTROLS								
Compatible with full range (100 - 0%), flicker-free power and control components. Please contact Evo-Lite for optimal solutions to fit your requirements.								

* Tunable White CCT LED Control: Our Tunable White LEDs utilize separate warm and cool white channels for color mixing. 3rd party controls must account for proportional balancing/mixing of the two channels. Example: 2700K (Warm White) = 2700K 100% ON & 6500K (Ultra White) OFF, Balancing/Mixing of both = 2700K 50% ON & 6500K 50% ON, 6500K = 2700K OFF & 6500K 100% ON. Both channels cannot be allowed to operate at 100% simultaneously as the LED are not engineered to handle such high current.

** LED Kelvin temperatures listed in this literature have been derived from raw LED data. Actual Kelvin ratings can vary +/- 200K based upon environmental conditions including but not limited to inclusion into LGPs and the use of diffusion materials. A precise ANSI bin control system is utilized to help maintain LED conformity and to minimize variances.

† RGB + W is available upon request. Static red, green, and blue color options also available.

ELECTRICAL

Input Voltage	24 Volt DC - Constant Voltage
Power Consumption	11 W per sheet (8.65 W/ft ² ; 93.1 W/m ²); 0.026 watts per LED
Wires	20 AWG 2 wire (Grey Stripe wire (positive +), White wire (signal -))
Connector	Twelve integrated 2-pin connection blocks
Certification	UL Listed (E495221), CE Compliant (EMC and LVD), RoHS Certified, IP65

PHYSICAL

Color Temperature	2700K, 3000K, 3500K, 4100K, 5300K Contact Evo-Lite for custom color temperatures
CRI	92+ for 2700K, 95+ for 3000K, 3500K, 4100K, 5300K
Light Output	1100 lumens per sheet
Mounting	Screws can be used within circles marked on the sheet. Use mechanical fasteners when mounted vertically or suspended. 3M adhesive backing is a supplementary method.
Operating Temp.	-22° F ~ +158° F (-30° C ~ +70° C)
Environment	Wet location (IP65 rated)
Coverage	1.27 ft ² (0.118 m ²) per sheet / up to 10.18 ft ² (0.94 m ²) per Class 2 guidelines
Cut/Fold Line Spacing	0.66" (16.767 mm) short axis / 0.661" (16.786 mm) long axis
Single Sheet Size	19.800" x 9.252" (503.5 mm x 235 mm)
Weight	5.0 oz (141 g) per sheet
Customization Options Available	Pre-cut, pre-mounted, specific color temperatures, IP rating, sheet sizes and/or connector placement. Contact Evo-Lite with customization requests.

***NEVER CUT AURAGAMI LIGHT SHEET(S) WHILE POWERED.**

PACKING

Each Auragami® Light Sheet has a full 3M® adhesive backing, long and short sheet-to-sheet connection wires, and protective bumpers with silicone adhesive backing. Light sheets are sold as single sheets, boxes of four, and cartons of 40.

POWER INPUT KIT, SKU: AG1-24-SCW-PIK (SOLD SEPARATELY)

Power Inputs Kits (PIK) are required for easy connection of up to 8 sheets combined to a low voltage power source (sold separately).

FEATURES

Field Customizable	Maintains UL Listing when cut*
Full Integration Support	Included
Unique Power Distribution Grid	Groups or single LEDs can be cut* from any part of the Light Sheet
Flexible/Foldable PCB	Polyimide film substrate
Consistent Light Quality	Tight ANSI bin control LEDs
LED Quantity/Density	420 SMD type 2835 LEDs per sheet 332 LEDs per ft ² (3572 LEDs per m ²)
Energy Efficiency	100 lumens per watt
Long Lifespan	50,000 + hours
Advanced 5-Year Warranty	Included

POWER & CONTROLS

Compatible with full range (100%-0%), flicker-free power and control components. Quality tested for low end light output consistency across all LEDs. Please contact Evo-Lite for optimal solutions to fit your requirements.

PRODUCT WIRING & CONTROL ADVISORY

- To retain UL Listing, use only with UL Listed or UL Recognized Class 2, LPS or LVLE power supply.
- The Light Sheet's integrated connection blocks have a 4 A capacity. Do not exceed the load capacity of these connection blocks in any configuration.
- To retain Class 2 compliance per UL regulations, do not exceed 96 watts interconnected (88 watts for eight sheets). Best practices include allowing headroom for power supply longevity. Use only with Class 2 power supply.
- To avoid visible brightness variances due to voltage drop, the total distance should not exceed 6.5 feet (2 meters) from the power source input to the farthest end of any interconnected sheet.
- For optimal current flow through the interconnected sheets, connect adjacent Light Sheets with two sheet-to-sheet connection wires on each side.

PART	LIGHT SHEET DESCRIPTION	QTY
A	Auragami® Light Sheet (19.80" x 9.25" / 503.5 mm x 235 mm) with 3M® adhesive backing and 12 integrated connection blocks	1
PART	ACCESSORY PACK (INCLUDED: AG1-24-SCW-AP)	QTY
B	20 AWG short sheet-to-sheet connection wires 0.71" (18 mm)	2
C	20 AWG long sheet-to-sheet connection wires 3.75" (95 mm)	2
D	Protective bumpers with silicone adhesive backing	8
PART	POWER INPUT KIT (SOLD SEPARATELY: AG1-24-SCW-PIK)	QTY
E	20 AWG 2-conductor power input cable, 48" (1219.2 mm)	1
F	Wago same polarity, two port splicing connectors	2

AURAGAMI CUSTOMIZATION OPTIONS

Evo-Lite can customize the Auragami Light Sheet to meet your exact specifications. Minimum order quantities apply.

CUSTOMIZE:

- Specific color temperatures
- IP Ratings
- LED pitch and placement
- Connector type and placement
- Sheet size and shape
- Pre-cut custom shapes from standard sheets
- Pre-mounted sheets to quick install substrates
- Wattage / energy-efficiency
- Lumens / brightness
- PCB material type – flexible or rigid

CRL Recess Mount Glass Door Hinges

CLICK HERE TO VIEW
MORE CHOICES!

[View Larger Image](#)

Catalog Number: GDH86BL
Finish: BLACK

- Precision Machined and Quality Finished Hinge
Designed for 3/16" (5 mm) Glass
- Designed for 3/16" and 1/4" (5 and 6 mm) Glass
- Use Monolithic Tempered Glass

CRL Standard Mount Hinges are mounted in drilled holes in cabinet frame. Set screws secure glass in hinge openings. Includes nylon bushings for drilled holes. Use Cat. No. GDH5J1G Drill Jig with Cat. No. GDH5WDFAB drill bit for quick, easy installation. Hinges are made of steel and the maximum weight per pair is 16 lbs. (7 kg).

Additional Product Information:

CRL's Stereo Cabinet Hardware is specifically designed for the fabrication of cabinets used for electronic components, china or collectibles. All of the hardware is manufactured with precision to ensure a precise fit and years of service. The Hinges and Accessories are available in brass, chrome, and black which adapts to all wood finishes as well as other room décor. Our full line of Stereo Cabinet Accessories will enable you to coordinate the style and color for all your hardware requirements. All components are designed to work with 3/16" (5 mm) tempered glass.

SPECIFICATIONS:
Glass Height: Opening Minus 1/2" (12.7 mm)
Single Door Width: Opening Minus 3/32" (2.4 mm)
Double Door Width: Opening Divided by 2, Minus 5/64" (2 mm). Maximum Door Dimensions 18" (457 mm) W x 39" (991 mm) H.

Important Notes:

The dimensions are merely guidelines that should be satisfactory in most cases. For a very tight fit you should calculate your own dimensions.

Most shipping weights are approximate and have not been verified. If the exact weight is needed in order to determine shipping costs, and shipping costs are required in order for you to complete your order, please request this prior to submitting your order by contacting [CRL Customer Service](#). Product images shown are of the actual product or a close representation. Colors can vary depending on your computer's video card and on how your monitor's color is adjusted.

WAVELIGHT®

MODEL WVL-L – LED WAVELIGHT PROJECTOR

FEATURES:

REALISTIC, CONVINCING, WATER RIPPLE EFFECT

COMPACT, LIGHT WEIGHT, LOW POWER CONSUMPTION, NO LAMP CHANGES

ADJUSTABLE EFFECT SPEED, DMX CONTROL OPTION

EFFECT:

The PPS Wavelight has set the standard for realistic water ripple projection since 1999. Now PPS introduces a Wavelight with the latest high output LED technology. Advanced capabilities include multiple color options and DMX control.

HARDWARE:

Extremely compact (6" x 6" x 3.5") with high optical efficiency , wide beam spread and very low heat output. Operates on low voltage DC. Two rotating pattern wheels. adjustable for speed and direction. Adjustable focus. One or two LED light sources with extremely long lifetimes. Convection cooled with no fan and no noise. Sealed enclosure with no light spill. Highest quality gear motors for long life, smooth motion, and silent operation at all speeds. Built in gel or filter slot. Optional DMX control of LED intensity and effect motor speed.

APPLICATION:

The Wavelight brings the dynamic patterns of rippling water almost anywhere. This fixture creates compelling, realistic, moving pattern projection in places where it hasn't been practical before; in commercial and residential architecture, and themed environments with low ceilings and short throws. The small size, very low thermal output, silent operation, high optical efficiency, and wide pattern spread allow unobtrusive application either individually, or in arrays. Long life LED light sources now extend the Wavelight color palette, and eliminate lamp replacement, allowing even more flexible application. The available DMX control option can bring new realms of dynamic effect creation to almost any space.

VL-03 Very Low Profile clip set VL F3+M3+S3

INDUSTRY FIT:    

SPECIFICATION:

VERY LOW PROFILE RANGE

The Fastmount™ multi-award winning system has revolutionized the mounting of panels. Panels can easily be removed and refitted in any sequence time after time.

The VL-03 is ideal for mounting ceiling and wall panels in areas with minimal frame and panel thickness. The VL-03 clip set uses the patent pending super-groove system to mechanically engage into adhesive. Screw or adhesive combinations can be used.

BENEFITS

- Self-aligning secure mounting (min. 5kg per clip)
- Installation requires no special tools or skilled labour
- Uses a range of adhesives to suit the customer
- Fast installation
- Clip lead in for easy fitting
- Can be screw fixed with lateral adjustment

APPLICATIONS

- Mounting 6mm plywood panels with minimal clearance
- Inspection panels
- Soft or honeycomb cored panels with thin facings
- Mounting panels where no drilling is preferred

MATERIAL: Grey acetal copolymer

COUNCIL COMMUNICATION

CC #: 2580
File #: 0203-07

Title: Electric Generation Vapor Compressor – Sole Source Purchase Order
Contact: Matt Garner 916-746-1691 mgarner@roseville.ca.us

Meeting Date: 3/15/2023
Item #: 6.6.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council approve a sole source purchase order with American Compressor Company for two Howden Roots manufactured rotary lobe vapor compressors.

BACKGROUND

The Roseville Energy Park (REP) uses a Zero Liquid Discharge (ZLD) system to reduce the amount of water needed for the power generation process and to process water demineralization wastes. Rotary lobe vapor compressors are used in the ZLD to increase the efficiency of the process.

The ZLD vapor compressors are exposed to high chlorides content water, high temperatures and continuous service. These operating conditions cause erosion and other maintenance issues which staff contends with regularly. The current vapor compressors have been repaired multiple times and are reaching end of life. The requested vapor compressors will replace the current in-service compressors when they fail.

The rotary lobe vapor compressors that are installed are Howden Roots Model 1216 RGS. American Compressor Company is the sole factory authorized distributor of the vapor compressor model used in the REP Zero Liquid Discharge process. Because of this, staff recommends the approval of Sole Source purchase of two rotary lobe vapor compressors from American Compressor Company.

FISCAL IMPACT

The total cost of services will not exceed \$205,061.18. Funding is included in the Electric Fund budget for FY2022-23.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in

a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. Approval of a sole source purchase order meets the above criteria and is not subject to CEQA. No additional environmental review is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal E - Deliver exceptional city services

Goal F - Invest in well-planned infrastructure and growth

Respectfully Submitted,

Matt Garner, Power Generation Superintendent

Dan Beans, Electric Utility Director

Dominick Casey, City Manager

COUNCIL COMMUNICATION

CC #: 2577
File #: 0203-13

Title: Electric Bus Charging Equipment (RFQ 10-3338) – Contract Purchase Agreement
Contact: Becky Philipp 916-746-1110 bphilipp@roseville.ca.us

Meeting Date: 3/15/2023
Item #: 6.7.

RECOMMENDATION TO COUNCIL

Staff recommends City Council adopt a resolution to approve a contract purchase agreement (3002718) with Verdek LLC for the supply, delivery and commissioning of electric bus charging equipment, and authorize the City Manager to execute the agreement on behalf of the City of Roseville.

BACKGROUND

At the July 20, 2022 meeting, City Council approved the construction of the Zero Emissions Bus Depot Project to construct 30 bus stalls and 72 new light duty parking stalls. Nine of the bus stalls were planned to be electrified with the original project. Subsequently, the City was awarded a grant from the Federal Transit Administration for the purchase of additional busses and bus charging equipment. This RFQ will purchase charging equipment that will electrify 18 additional bus stalls.

The bid award is based on the lowest total cost. A formal request for bids was issued and the vendor responses are listed on the attached bid summary sheet.

FISCAL IMPACT

The estimated total award is \$861,847.74. Funding for this purchase comes from Federal Transit Administrations' Low or No Emission Vehicle Program grant. No General Fund resources will be used for the project.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) only applies to projects which have the potential to cause a significant effect on the environment. Where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA. (CEQA Guidelines §15061(b)(3)). Purchase of the electric bus charging equipment would not have a significant effect on the environment, and is therefore not

subject to CEQA. Previously, installation of the equipment, and construction of the charging area was determined to be categorically exempt from CEQA, per CEQA Guidelines Sections 15301, 15303 and 15304. The Exemption has been prepared and no further CEQA action is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Contract Purchase Agreement 3002718

Contract Terms and Conditions

1. To the fullest extent allowed by law, Contractor shall defend, indemnify, and save and hold harmless City, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from or arising out of Contractor's willful misconduct or negligent act or omission while engaged in the performance of obligations or exercise of rights created by this Agreement, except those matters arising from City's sole negligence or willful misconduct. The parties intend that this provision shall be broadly construed. Contractor's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.
2. Contractor is an independent contractor, and shall not be considered an officer, agent or employee of the City.
3. Without the written consent of the City, this Agreement is not assignable by Contractor either in whole or in part.
4. Time is of the essence of this Agreement.
5. At any time during the term of this Agreement, the City has the right to terminate this Agreement, provided Contractor is given thirty (30) days written notice. City's termination shall be without further liability to City; however, Contractor shall be entitled to all costs reasonably incurred prior to the date of termination. Contractor acknowledges that City may terminate this Agreement should funds not be appropriated by its governing body to continue services under this Agreement.
6. This Agreement may only be amended or modified in writing. It is integrated and contains the complete understanding of the parties.
7. All equipment, supplies and services sold to the City of Roseville shall conform to the general safety orders of the State of California.
8. Unless notified to the contrary, in writing, the City assumes that the Contractor has accepted the work in accordance with the plans and specifications (if any) and agrees to do the work in compliance with this Agreement.
9. All fair employment practices must be adhered to. In addition, if the project referenced on this service agreement is a Public Works project, all prevailing wage laws must be complied with. For prevailing wage contracts over \$25,000, copies of certified payroll must be submitted with invoices. Prevailing wage rates may be obtained from the State Department of Industrial Relations and/or the following website address: <http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm>.
10. Contractor agrees to the below insurance requirements:
 - a. Unless otherwise specified, the Contractor shall maintain the policies of insurance outlined in Attachment A, incorporated herein by this reference, in full force and effect during the term of this Agreement. The City of Roseville retains sole discretion in determining the types and proper levels of insurance coverage.
 - b. Form. Contractor shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made basis is subject to the approval of Risk Management and the City Attorney.
 - c. Additional Insureds. Contractor shall also provide a separate endorsement or

Contract Purchase Agreement 3002718

section of the policy showing City, its officers, agents, employees, and volunteers as additional insureds for each type of coverage, except for Workers' Compensation. Such insurance shall specifically cover the contractual liability of Contractor. The additional insured coverage under the Contractor's policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy, and shall not seek contribution from City's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office (ISO) CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be:

- (1) the minimum coverage and limits specified in this Agreement; or
 - (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.
- d. Cancellation/Modification. Contractor shall provide thirty (30) days written notice to City prior to cancellation or modification of any insurance required by this Agreement.
 - e. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of City (if agreed to in a written contract) before City's own insurance shall be called upon to protect it as a named insured.
 - f. Subcontractors. Contractor agrees to include in its contracts with all subcontractors the same requirements and provisions of this Agreement, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor's work. Furthermore, Contractor shall require its subcontractors to agree to be bound to Contractor and City in the same manner and to the same extent as Contractor is bound to City under this Agreement. Additionally, Contractor shall obligate its subcontractors to comply with these same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of City's indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request.
 - g. Self-Insured Retentions. All self-insured retentions (SIR) must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or City. City reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.
 - h. Waiver of Subrogation. Contractor hereby agrees to waive subrogation which any insurer of Contractor may acquire from Contractor by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability or Automobile Liability policy. All Workers Compensation, Commercial General Liability and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of City, its officers, agents, employees and volunteers for all work performed by Contractor, its employees, agents and subcontractors.
 - i. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve Contractor of liability in excess of such coverage, nor shall it preclude City from taking such other actions as are available to it under any other provisions of this Agreement or law.
11. Contractor shall comply with all federal, state and local laws and ordinances, including but not limited to the City's storm water regulations, as may be applicable to the performance of services under this Agreement. Failure to comply with local ordinances

Contract Purchase Agreement 3002718

may result in monetary fines and cancellation of this Agreement. Refer to www.roseville.ca.us/stormwater for links to more information on the City's storm water regulations.

12. In the event that the terms of any attachment or exhibit conflict with any terms of this Agreement, the terms of this Agreement shall control.
13. This Agreement may be executed in one or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. In the event that any signature is delivered by facsimile transmission or by e-mail delivery of a ".pdf" format data file, such signature shall create a valid and binding obligation of the party executing (or on whose behalf such signature is executed) with the same force and effect as if such facsimile or ".pdf" signature page were an original hereof.
14. If either party commences any legal action against the other party arising out of this Agreement or the performance thereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorneys' fees. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.
15. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.
16. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.
17. For purposes of this Agreement, the terms "Contractor," "Consultant," and "Supplier" are used interchangeably.
18. If the project referenced on this agreement is a Public Works project, then the following shall apply: No contractor or subcontractor may work on a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5. During the performance of this agreement, Contractor and its subcontractors shall have a continuing legal obligation to maintain current registration with the Department of Industrial Relations. Contractor is hereby notified that this project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.
19. If the project referenced on this agreement is a Public Works project, then the following shall apply: Contractor must submit all claims as defined in and in accordance with the claim resolution process set forth in Section 9204 of the Public Contract Code. Each such claim must be sent to the City by registered mail or certified mail with return receipt requested and must contain reasonable documentation to support the claim. All claims must be received prior to acceptance of the work.
20. Contractor certifies that Contractor, its employees, directors, officers, agents, subcontractors, vendors, and volunteers are not presently debarred, excluded, suspended, declared ineligible, voluntarily excluded, or proposed for debarment, exclusion, suspension or ineligibility by any federal, state, or local department or agency.
21. This Agreement may be amended via change order, but only if such change order is made in writing, approved by the City, and signed by both parties.
22. CONTRACTOR agrees to defend and indemnify CITY if, despite the parties intent and practice, any venue, agency, or court with competent jurisdiction determines that CONTRACTOR and/or any of its agents, officers, employees, volunteers, independent contractors, or subcontractors, are characterized as employee(s) of CITY.

CONTRACTOR and CITY agree that: (a) CONTRACTOR is free from the control and direction of CITY in connection with the performance of the work; (b) CONTRACTOR is providing services directly to CITY; (c) CONTRACTOR has and will maintain at all relevant times a business license; (d) CONTRACTOR maintains a business location that

Contract Purchase Agreement 3002718

is separate from CITY; (e) CONTRACTOR is customarily engaged in an independently established business of the same nature as that involved in the work performed hereunder; (f) CONTRACTOR actually contracts with other businesses to provide the same or similar services and maintains a clientele without restrictions from CITY; (g) CONTRACTOR advertises and holds itself out to the public as available to provide the same or similar services; (h) CONTRACTOR provides its own tools, vehicles, and equipment to perform the services; (i) CONTRACTOR has negotiated its own rates; (j) CONTRACTOR set its own hours and location of work in accomplishing CITY's on-call needs; and (k) CONTRACTOR has the right to control the manner and means of accomplishing the result desired and exercises its own expert independent judgement.

The supplier named hereon by the acceptance of this order agrees to the provisions of this document titled "Contract Purchase Agreement" and all accompanying terms, conditions, and attachments.

Insurance Submission Process

The City of Roseville Human Resources/Risk Management Department uses a service called EBIX to manage our insurance certificate tracking.

How It Works

- The vendor's contact information is entered into EBIX. EBIX will contact the vendor to request proof of insurance.
- The Vendor can forward the request to their Insurance Agent(s) if necessary.
- Vendor/Insurance Agent submits insurance to EBIX by email to roseville@ebix.com or by fax to (770) 325-5727. After faxing or emailing the certificate, please DO NOT send the certificate by mail to EBIX. Please do not mail, email or fax any certificates to the City of Roseville.
- Once submitted, EBIX reviews the insurance documentation. If there are deficiencies, EBIX will send a follow up letter or email requesting additional information.

Questions Regarding Insurance Submission: Contact EBIX at (951) 652-4239

COUNCIL COMMUNICATION

CC #: 2591

File #: 0203-01 & 0203-21

Title: Fleet Services - Purchase Order Increases, Contract Purchase Agreement Amendment, Reject all Bids

Contact: Brandy LeBeau 916-774-5531 blebeau@roseville.ca.us

Meeting Date: 3/15/2023

Item #: 6.8.

RECOMMENDATION TO COUNCIL

Sherman & Reilly 9013255

Staff recommends that the City Council authorize an increase of \$22,561 to the sole source purchase order 9013255 with Sherman and Reilly for shipping, handling, and sales tax costs for two (2) turret reel trailers (TRT) for the Electric construction and maintenance division. The revised total cost of the purchase order is \$319,375.

Sourcwell

Staff recommends that the City Council approve a purchase order to Altec Industries Inc. for one (1) Altec LR860-E70 overcenter articulating aerial device utilizing Sourcwell contract# 110421-ALT as a replacement for Fleet ID 09-360 approved in the FY2022-23 Fleet Replacement Fund budget. The total cost, including options and sales tax, is \$262,367.

Napa Ford 9012928

Staff recommends that the City Council authorize an increase of \$2,047 to purchase order 9012928 with Napa Ford to cover costs associated with modifying one (1) a Ford F250 utility body truck for the Public Works traffic signals division. The total cost of the purchase order for eight (8) trucks is \$696,392.

LEHR CPA 3001675

Staff recommends that the City Council adopt a resolution to authorize the City Manager to amend the contract purchase agreement with Stommel Inc. dba LEHR to extend the contract's end date until Final Payment.

RFQ 10-3341

Staff recommends that the City Council adopt a resolution to reject all bids for RFQ 10-3341 electric vehicles (EV) for the purchase of four (4) EVs. The lowest bidder was deemed non-responsive.

BACKGROUND

Sherman & Reilly 9013255

City Council approved the Sherman and Reilly TRT trailers on November 2, 2022. At that time, the shipping, handling, and sales tax cost was defined as international commercial terms (incoterms) and were not included in the total cost. Therefore, the additional cost of \$22,561 must be added to the sole source purchase order 9013255 to increase the purchase order to \$319,375.

The Electric construction and maintenance division utilizes these trailers for transporting and installing various cable sizes throughout the City for new residential and commercial installations, maintenance, and emergency replacements. These trailers provide the ability to install two or three cables pulled together in one conduit. Sherman and Reilly is the sole source manufacturer and distributor of the TRT trailers.

Sourcewell

Sourcewell is a public agency that offers competitively solicited purchasing contracts for products and equipment to all government, education, and non-profit agencies across the U.S. Altec Industries, Inc. is the sole manufacturer and distributor of Altec products. The City currently owns and operates more than twenty Altec vehicles. Fleet services have standardized on this brand due to price, factory training, and equipment needs of municipalities.

The Parks, Recreation & Libraries Department, Open Space division is purchasing one (1) Altec LR860-E70 overcenter articulating aerial device to replace Fleet ID 09-360. The aerial lift truck is used for tree trimming operations, removals, and storm emergency response.

Vehicle replacements are based on the Fleet Scoring System, which considers factors such as age, mileage, reliability, prior maintenance and repair costs, and current condition. Below are the vehicle replacement scores. A score of 23 or more indicates that the vehicle is eligible for replacement.

Vehicle ID	Replacement Score	Vehicle Condition
09-360	25	Meets City replacement criteria

Napa Ford 9012928

City Council approved the Napa Ford bid for eight (8) Superduty trucks with utility or flatbed bodies on October 19, 2022. The Public Works Traffic Signals division is adding one (1) new Electronic Technician position utilizing one (1) out of the eight (8) Ford F250 utility body trucks. Currently, the utility body is configured for a Senior Technician instead of the Electronics Technician design package. The modifications will require an additional \$2,047 to Napa Ford purchase order 9012928 to make these utility body modifications.

LEHR CPA 3001675

Current supply chain demands for vehicles and parts have led to longer lead times to complete police, fire, and public safety vehicles requiring customization before being placed into service. The amendment to contract purchase agreement 3001675 Stommel Inc. dba LEHR will extend the contract until all remaining 2022 vehicles are built and in service. The supplies needed for each vehicle include, but are not limited to, light bars, sirens, push bumpers, gun locks, flashing lights, decals, partitions, center consoles, computer stands, wiring, and mounting brackets.

RFQ 10-3341

The Public Works Alternative Transportation division and the Environmental Utilities' Utility

Exploration Center requested EVs in the current fiscal year to replace 10-136, 14-130, 14-131, and one (1) fleet addition.

A formal bid was issued with the following vendor response:

<u>Vendor</u>	<u>Total price (with all potential options)</u>
Subaru of San Bernardino San Bernardino, CA	\$40,231.00 each

After staff reviewed the bid, it was discovered that the formal invitation for bid and award, and the vehicle specification proposal were not included. The vendor was deemed non-responsive; the EV bid will go back out in April when the new model year is open for orders.

FISCAL IMPACT

Sherman & Reilly 9013255

The increase of \$22,561 to purchase order 9013255 is for shipping, handling, and sales tax for (2) Sherman and Reilly TRT trailers. The revised total purchase price is \$319,375. Funding is included in the FY2022-23 Electric Fund budget.

Sourcewell

The total cost for one (1) Altec LR860-E70 over-center articulating aerial device, including options and sales tax, is \$262,367. Funding is included in the FY2022-23 Fleet Replacement Fund budget.

Napa Ford 9012928

The increase of \$2,047 to purchase order 9012928 for modifications to the Ford F250 utility body truck is to modify the utility body. The total purchase price for all eight (8) Superduty trucks is \$696,392. Funding for the purchase order increase is included in the FY2022-23 Electric Fund budget.

LEHR CPA 3001675

There is no fiscal impact to extend the Stommel Inc. dba LEHR contract purchase order 3001675 to move the end date to Final Payment. Funding is included in the FY2022-23 Fleet Replacement Fund Budget.

RFQ 10-3341

There is no fiscal impact with the bid being rejected.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. The purchase of vehicles meets the above criteria and is not subject to CEQA. No additional environmental review is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal A – Remain fiscally responsible in a changing world.

Goal E – Deliver exceptional city services.

Goal F – Invest in well-planned infrastructure and growth.

Respectfully Submitted,

Brandy LeBeau, Fleet Manager

Jason Shykowski, Public Works Director

Dominick Casey, City Manager

COUNCIL COMMUNICATION

CC #: 2581
File #: 0203-10

Title: Pool Heater and Installation (RFQ 10-3340) - Contract Purchase Agreement
Contact: Sue Jessup 916-746-1107 sjessup@roseville.ca.us

Meeting Date: 3/15/2023
Item #: 6.9.

RECOMMENDATION TO COUNCIL

Staff recommends the City Council adopt a resolution to approve a contract purchase agreement (3002726) with National Aquatic Services, Inc., and authorize the City Manager to execute the agreement on behalf of the City of Roseville. Additionally, staff recommends Council approve change order authority for a 10% contingency.

BACKGROUND

The Parks, Recreation & Libraries Department (PRL) must replace one pool heater at the Roseville Aquatics Complex. The heater is used to heat the recreation pool, which is utilized by Roseville Aquatics programs and the California Capital Aquatics swim team. The programming that occurs in the recreation pool requires the water temperature remain in a specific range to meet regulatory and policy conditions for the health and safety of the users.

The current pool heater was purchased in 2009 and has operated past the life expectancy of 5-7 years. Previously, City staff made repairs totaling \$15,000 to replace the heat exchanger. The heater's burner plate has also been repaired, and cannot be repaired again. At this time City staff is recommending to update the heater to a newer technology. The improved technology will heat the pool water through a heat transfer system to eliminate corrosive pool water from circulating through the heater. The new heater will be more efficient and have a longer life expectancy.

If the heater is not replaced, it will ultimately lead to failure and the inability to heat the pool to proper temperature for recreational and competitive aquatics activities. Water temperatures affect chemical usage and balance within the pool, affecting user health and safety. It may also lead to loss of revenue and program cancellations for PRL programs such as swim lessons, recreational use, and California Capital Aquatics swim team meets, and regional swim competitions.

A formal bid was issued with the following responses:

Bidder

Grand Total

National Aquatic Services, Inc.

\$127,928.86

Oakley, CA

Aqua Source, Inc. \$128,934.96
Galt, CA

Knorr Systems, Inc. \$151,233.26
Santa Ana, CA

FISCAL IMPACT

The total cost of the equipment, including tax, is \$127,928.86. A 10% contingency will bring the total contract authority to a not-to-exceed amount of \$140,721.75. Funding is included in the RAC Pool Heater Capital Improvement Project in the Parks, Recreation and Library Capital Projects Fund.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) only applies to projects which have the potential to cause a significant effect on the environment. Where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA. (CEQA Guidelines §15061(b)(3).

Contract Terms and Conditions

1. To the fullest extent allowed by law, Contractor shall defend, indemnify, and save and hold harmless the City, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, resulting from or arising out of Contractor's willful misconduct or negligent act or omission while engaged in the performance of obligations or exercise of rights created by this Agreement, except those matters arising from City's sole or active negligence or willful misconduct. The parties intend that this provision shall be broadly construed. Contractor's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.
2. Contractor is an independent contractor, and shall not be considered an officer, agent or employee of the City.
3. Without the written consent of the City, this Agreement is not assignable by Contractor either in whole or in part.
4. Time is of the essence of this Agreement.
5. At any time during the term of this Agreement, the City has the right to terminate this Agreement, provided Contractor is given thirty (30) days written notice. City's termination shall be without further liability to City; however, Contractor shall be entitled to all costs reasonably incurred prior to the date of termination. Contractor acknowledges that City may terminate this Agreement should funds not be appropriated by its governing body to continue services under this Agreement.
6. This Agreement may only be amended or modified in writing. It is integrated and contains the complete understanding of the parties.
7. All equipment, supplies and services sold to the City of Roseville shall conform to the general safety orders of the State of California.
8. Unless notified to the contrary, in writing, the City assumes that the Contractor has accepted the work in accordance with the plans and specifications (if any) and agrees to do the work in compliance with this Agreement.
9. All prevailing wages and fair employment practices must be adhered to. For prevailing wage contracts over \$25,000, copies of certified payroll must be submitted with invoices. Prevailing wage rates may be obtained from the State Department of Industrial Relations and/or the following website address: <http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm>.
10. Contractor agrees to the below insurance requirements:
 - a. Unless otherwise specified, the Contractor shall maintain the policies of insurance outlined in Attachment A, incorporated herein by this reference, in full force and effect during the term of this Agreement. The City of Roseville retains sole discretion in determining the types and proper levels of insurance coverage.
 - b. Form. Contractor shall submit a certificate evidencing such coverage for the period covered by this Agreement in a form satisfactory to Risk Management and the City Attorney, prior to undertaking any work hereunder. Any insurance written on a claims made basis is subject to the approval of Risk Management and the City Attorney.
 - c. Additional Insureds. Contractor shall also provide a separate endorsement or

section of the policy showing City, its officers, agents, employees, and volunteers as additional insureds for each type of coverage (except Workers' Compensation) and for ongoing and completed operations. Such insurance shall specifically cover the contractual liability of Contractor. The additional insured coverage under the Contractor's policy shall be primary and noncontributory, as evidenced by a separate endorsement or section of the policy, and shall not seek contribution from City's insurance or self-insurance. In addition, the additional insured coverage shall be at least as broad as the Insurance Services Office (ISO) CG 20 01 Endorsement. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be:

- (1) the minimum coverage and limits specified in this Agreement; or
 - (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.
- d. Cancellation/Modification. Contractor shall provide thirty (30) days written notice to City prior to cancellation or modification of any insurance required by this Agreement.
 - e. Umbrella/Excess Insurance. The limits of insurance required in this Agreement may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of City (if agreed to in a written contract) before City's own insurance shall be called upon to protect it as a named insured.
 - f. Subcontractors. Contractor agrees to include in its contracts with all subcontractors the same requirements and provisions of this Agreement, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor's work. Furthermore, Contractor shall require its subcontractors to agree to be bound to Contractor and City in the same manner and to the same extent as Contractor is bound to City under this Agreement. Additionally, Contractor shall obligate its subcontractors to comply with these same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of City's indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request.
 - g. Self-Insured Retentions. All self-insured retentions (SIR) must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or City. City reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.
 - h. Waiver of Subrogation. Contractor hereby agrees to waive subrogation which any insurer of Contractor may acquire from Contractor by virtue of the payment of any loss under a Workers Compensation, Commercial General Liability or Automobile Liability policy. All Workers Compensation, Commercial General Liability and Automobile Liability policies shall be endorsed with a waiver of subrogation in favor of City, its officers, agents, employees and volunteers for all work performed by Contractor, its employees, agents and subcontractors.
 - i. Liability/Remedies. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve Contractor of liability in excess of such coverage, nor shall it preclude City from taking such other actions as are available to it under any other provisions of this Agreement or law.
11. Contractor shall comply with all federal, state and local laws and ordinances, including but not limited to the City's storm water regulations, as may be applicable to the

performance of services under this Agreement. Failure to comply with local ordinances may result in monetary fines and cancellation of this Agreement. Refer to www.roseville.ca.us/stormwater for links to more information on the City's storm water regulations.

12. In the event that the terms of any attachment or exhibit conflict with any terms of this Agreement, the terms of this Agreement shall control.
13. This Agreement may be executed in one or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. In the event that any signature is delivered by facsimile transmission or by e-mail delivery of a ".pdf" format data file, such signature shall create a valid and binding obligation of the party executing (or on whose behalf such signature is executed) with the same force and effect as if such facsimile or ".pdf" signature page were an original thereof.
14. If either party commences any legal action against the other party arising out of this Agreement or the performance thereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorneys' fees. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie. This Agreement shall be governed by and construed in accordance with the laws of the State of California.
15. This Agreement shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.
16. If any of the provisions contained in this Agreement are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the Agreement as a whole.
17. For purposes of this Agreement, the terms "Contractor," "Consultant," and "Supplier" are used interchangeably.
18. No contractor or subcontractor may work on a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5. During the performance of this agreement, Contractor and its subcontractors shall have a continuing legal obligation to maintain current registration with the Department of Industrial Relations. Contractor is hereby notified that this project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.
19. Contractor must submit all claims as defined in and in accordance with the claim resolution process set forth in Section 9204 of the Public Contract Code. Each such claim must be sent to the City by registered mail or certified mail with return receipt requested and must contain reasonable documentation to support the claim. All claims must be received prior to acceptance of the work.
20. Contractor certifies that Contractor, its employees, directors, officers, agents, subcontractors, vendors, and volunteers are not presently debarred, excluded, suspended, declared ineligible, voluntarily excluded, or proposed for debarment, exclusion, suspension or ineligibility by any federal, state, or local department or agency.
21. This Agreement may be amended via change order, but only if such change order is made in writing, approved by the City, and signed by both parties.
22. CONTRACTOR agrees to defend and indemnify CITY if, despite the parties intent and practice, any venue, agency, or court with competent jurisdiction determines that CONTRACTOR and/or any of its agents, officers, employees, volunteers, independent contractors, or subcontractors, are characterized as employee(s) of CITY.

CONTRACTOR and CITY agree that: (a) CONTRACTOR is free from the control and direction of CITY in connection with the performance of the work; (b) CONTRACTOR is providing services directly to CITY; (c) CONTRACTOR has and will maintain at all relevant times a business license; (d) CONTRACTOR maintains a business location that is separate from CITY; (e) CONTRACTOR is customarily engaged in an independently

established business of the same nature as that involved in the work performed hereunder; (f) CONTRACTOR actually contracts with other businesses to provide the same or similar services and maintains a clientele without restrictions from CITY; (g) CONTRACTOR advertises and holds itself out to the public as available to provide the same or similar services; (h) CONTRACTOR provides its own tools, vehicles, and equipment to perform the services; (i) CONTRACTOR has negotiated its own rates; (j) CONTRACTOR set its own hours and location of work in accomplishing CITY's on-call needs; and (k) CONTRACTOR has the right to control the manner and means of accomplishing the result desired and exercises its own expert independent judgement.

The supplier named hereon by the acceptance of this order agrees to the provisions of this document titled "Contract Purchase Agreement" and all accompanying terms, conditions, and attachments.

Asbestos-Containing Materials in City-Owned Buildings

California Health and Safety Code Section 25915 requires that all City of Roseville employees, contractors and lessees be notified annually of the presence of asbestos in City-owned buildings constructed prior to 1979. Please post this notice in an area(s) accessible to all employees, contractors and lessees. Contact Facility Maintenance & Operations at (916) 774-5740 for more information about Asbestos Containing Materials (ACMs) in specific City-owned buildings. For more information about asbestos refer to the OSHA website.

The City of Roseville is committed to maintaining a safe and healthy work environment. The City's Facility Maintenance & Operations staff conducts ongoing inspections to identify and safely manage previously installed asbestos-containing products. Renovation of City-owned buildings **MUST** be reviewed in advance by Facility Maintenance & Operations to ensure the City is in compliance with building codes, Americans with Disabilities Act and that no ACMs are disturbed without proper safeguards. Work that requires removal or repair of ACMs is restricted to trained and qualified persons only. **Facility Maintenance & Operations will need to approve the qualified contractors.**

Use the following measures to protect you and others from exposure to airborne asbestos:

- Presume all building materials contain asbestos until determined otherwise by Facility Maintenance & Operations.
- Do not install walls, closets, cabinets, ceilings.
- Do not remove, cut, drill, sand, grind or otherwise disturb any material in the buildings, including carpet and tile.
- Do not paint (this includes any walls, ceilings, floors and electrostatic painting of office furniture).
- Do not remove any items nailed or screwed to the walls (this includes pictures, cabinets, electrical, etc.).
- Do not go above ceilings, behind walls or into building spaces such as attics and crawlspaces unless these areas have been inspected and cleared by Facility Maintenance & Operations.
- Do not pull cable or wiring through above-ceiling spaces with asbestos.
- Do not install screws, pins, nails or hangers into asbestos ceiling or wall plaster.
- Be careful not to damage walls, ceilings or floors when moving furniture or equipment. It is recommended that Facility Maintenance & Operations be contacted prior to moving furniture or equipment.
- Do not brush, sweep or vacuum textured asbestos ceiling plaster or plaster debris.
- Immediately report any damage or deterioration of suspect building materials to Facility Maintenance & Operations or Risk Management.

It is important to note that the presence of asbestos does not mean you have been exposed. Exposure results when friable asbestos particles are inhaled or ingested. Asbestos becomes friable when material containing asbestos is drilled, sanded or disturbed by remodeling or demolition work or when the ACM has deteriorated. Intact, bonded, sealed or undisturbed asbestos does not pose a hazard.

Employees may review the asbestos survey reports, results of bulk sampling or air monitoring conducted in City-owned buildings. All asbestos data will be available by appointment with Facility Maintenance & Operations.

RE: Contractor and Grantee Compliance with Economic Sanctions Imposed in Response to Russia's Actions in Ukraine

Dear Vendor:

On March 4, 2022, Governor Gavin Newsom issued Executive Order N-6-22 (EO) regarding sanctions in response to Russian aggression in Ukraine. The EO is located at <https://www.gov.ca.gov/wp-content/uploads/2022/03/3.4.22-Russia-Ukraine-Executive-Order.pdf>.

The EO directs all agencies and departments that are subject to the Governor's authority to take certain immediate steps, including notifying all contractors and grantees of their obligations to comply with existing economic sanctions imposed by the U.S. government in response to Russia's actions in Ukraine, as well as any sanctions imposed under state law.

This correspondence serves as a notice under the EO that as a contractor or grantee, compliance with the economic sanctions imposed in response to Russia's actions in Ukraine is required, including with respect to, but not limited to, the federal executive orders identified in the EO and the sanctions identified on the U.S. Department of the Treasury website (<https://home.treasury.gov/policy-issues/financial-sanctions/sanctions-programs-and-country-information/ukraine-russia-related-sanctions>). Failure to comply may result in the termination of contracts or grants, as applicable.

Please note that for any agreements or grants valued at \$5 million or more you must report to the City of Roseville your compliance with economic sanctions including steps you have taken in response to Russia's actions in Ukraine, including, but not limited to, desisting from making new investments in, or engaging in financial transactions with, Russian entities, not transferring technology to Russia or Russian entities, and directly providing support to the government and people of Ukraine.

Sincerely,

DocuSigned by:

COUNCIL COMMUNICATION

CC #: 2599

File #: 0200

Title: Depository Banking Services and Merchant Services - Approval of Agreements

Contact: Dennis Kauffman 916-774-5313 dkauffman@roseville.ca.us

Meeting Date: 3/15/2023

Item #: 6.10.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council adopt a resolution authorizing the City Manager, or its designee, to execute a Primary Depository Banking and Merchant Services Agreement, including all other necessary and implementing terms, forms, and agreements arising therefrom, with U.S. Bank, N.A. (U.S. Bank), and its wholly owned subsidiary, Elavon Inc., for banking and merchant services. Staff also requests authorization for two (2) one (1) year renewals without further Council approval, provided that the applicable budget is approved by the City Council each year, or until staff determines that continuing with the same vendor is not in the City's best interest.

BACKGROUND

The City contracts with financial institutions/vendors to provide complete depository banking services and merchant credit card processing services. In late July 2022, the City issued a Request For Proposals ("RFP") requesting responses from qualified banking institutions interested in contracting for these services. After staff reviewed the four submitted proposals and conducted interviews, staff ranked U.S. Bank, N.A., and its wholly owned subsidiary, Elavon Inc., highest based on the established criteria in the RFP and recommends contracting with U.S. Bank (including Elavon, Inc.) for a three (3) year term, with two (2) optional one (1) year extensions.

FISCAL IMPACT

The estimated cost of the contemplated services, including merchant credit card processing services, is approximately \$100,000 per year, and approximately \$110,000 per year for optional renewal years. An incentive value from U.S. Bank N.A. of up to \$150,000 for the first year will offset any account analysis fees and other costs as outlined in the Primary Depository Banking and Merchant Services Agreement. The not-to-exceed total for the agreement is \$200,000 over the three (3) year period, a portion of which will be paid for by the General Fund. The cost of the remaining years of the services will be included in future proposed budgets, pending City Council approval.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. Banking Services meet the above criteria and are not subject to CEQA. No additional environmental review is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal A - Remain fiscally responsible in a changing world

Goal E - Deliver exceptional city services

Respectfully Submitted,

Kyle Horton, Accounting Supervisor

Dennis Kauffman, Assistant City Manager/Chief Financial Officer

Dominick Casey, City Manager

Banking Agreement

Banking Agreement Exhibits

Elavon Agreement and Exhibits

RESOLUTION NO. 23-100

APPROVING A PRIMARY DEPOSITORY BANKING AND MERCHANT SERVICES AGREEMENT, INCLUDING ANY AND ALL RELATED IMPLEMENTING TERMS, FORMS, AND AGREEMENTS, BY AND BETWEEN THE CITY OF ROSEVILLE AND U.S. BANK, N.A., INCLUDING ITS WHOLLY OWNED SUBSIDIARY, ELAVON INC., AND AUTHORIZING THE CITY MANAGER, OR ITS DESIGNEE, TO EXECUTE IT AND ANYTHING ELSE NECESSARY, INCLUDING ALL RELATED TERMS, AGREEMENTS, DOCUMENTS, AND AUTHORIZATIONS ON BEHALF OF THE CITY OF ROSEVILLE

WHEREAS, a Primary Depository Banking and Merchant Services Agreement, by and between the City of Roseville and U.S. Bank, N.A. (“U.S. Bank”), including relevant attachments incorporated therein or contemplated thereby, including, but not limited to an agreement for certain merchant services provided by Elavon Inc. (collectively, “AGREEMENT”) has been reviewed by the City Council; and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that said AGREEMENT is hereby approved and that the City Manager, or its designee, is authorized to execute the AGREEMENT and anything else necessary, including all related terms, agreements, documents, and authorizations, including, but not limited to, the merchant services agreement with Elavon Inc., on behalf of the City of Roseville; and

BE IT FURTHER RESOLVED that the City Manager or his designee is authorized to execute two (2) additional one (1) year renewals without further City Council approval, provided that the applicable budget is approved by the City Council each year, or until City staff determines that continuing with the same vendor is not in the City’s best interest; and

BE IT FURTHER RESOLVED that during the term of this AGREEMENT, the City of Roseville hereby authorizes the City Manager as well as the Assistant City Manager/Chief Financial Officer, to designate representatives, who individually or jointly will be authorized to represent and act on behalf of the City of Roseville in any and all matters of every kind arising under this AGREEMENT and appoint and designate from time to time a person or persons who may request withdrawals, create new accounts, and prepare orders for payment or transfers on behalf of the City of Roseville, and do all things, in their discretion, necessary to carry out and implement the City of Roseville’s banking and merchant services needs as contemplated and arising out of the AGREEMENT; and

BE IT FURTHER RESOLVED that the City Manager and the Assistant City Manager/Chief Financial Officer are authorized to do all things they determine necessary to effectuate and carry out the services contemplated herein, including designating and modifying authorized representatives.

PRIMARY DEPOSITORY BANKING AND MERCHANT SERVICES AGREEMENT

THIS "AGREEMENT" is made and entered into this ____ day of _____, _____, by and between the City of Roseville, a municipal corporation ("CITY"), and U.S. Bank, National Association, duly organized and authorized by law to do banking in the State of California and now carrying on such business in said State, hereinafter referred to as "BANK", (inclusive of, for only the limited services identified by agreement(s) incorporated by and made part hereof as described in exhibit(s) below, Elavon, Inc, a wholly-owned subsidiary of BANK) and designated BANK as a depository for certain of time and demand deposits of the CITY. CITY designates BANK as a depository beginning _____ and continuing until this AGREEMENT has been canceled, terminated, or otherwise expires in accordance with provisions herein.

W I T N E S S E T H:

WHEREAS, CITY desires professional services consisting of banking and merchant services; and

WHEREAS, BANK has prepared a proposal dated August 25, 2022, which describes the scope of work to be performed by BANK, the compensation for the work, and the schedule for performance of the work; and

WHEREAS, BANK is qualified and experienced to provide professional services related to banking and merchant services;

NOW, THEREFORE, the parties agree as follows:

1. Term. The initial term of this AGREEMENT shall be three (3) years, commencing [on _____, ____] [date of award] through February 28, 2026.

CITY may elect to extend the term of this AGREEMENT, in its sole discretion, for up to two (2) additional years by giving written notice to BANK no later than sixty (60) days before the expiration of the then current term. If CITY elects to extend the term, the compensation payable to BANK may be adjusted as negotiated by the parties in mutually agreeable written amendment to this AGREEMENT.

2. Depository. BANK agrees to act as depository for funds in accordance with applicable law and to collateralize daily all CITY time and demand deposits in accordance with applicable California law to the extent not insured by the Federal Deposit Insurance Corporation (FDIC) or its successor, and any further CITY restrictions as set by the “Depository Agreement” between the CITY and BANK, a copy of which is attached and incorporated herein.

3. Controlling Documents. The controlling documents, incorporated here and forming part of this AGREEMENT, for the relationship between the BANK and the CITY and all services to be provided in that relationship including applicable fees for all services (the “Controlling Documents”) are, in priority order:

EXHIBIT “A”	City’s Request for Proposal dated July 27, 2022 (the “RFP”) including the City’s General Contract Conditions (as negotiated and represented in this AGREEMENT);
EXHIBIT “B”	BANK’S Response to the RFP dated August 25, 2022 (the “PROPOSAL”);
EXHIBIT “C”	Master Services Agreement;
EXHIBIT “D”	Depository Agreement (“Your Deposit Account Agreement”);
EXHIBIT “E”	Any applicable BANK services agreements, service descriptions, and account and service documentation (collectively, “SERVICE AGREEMENTS”); and
EXHIBIT “F”	[Reserved.]

These Controlling Document are attached to and made a part of this AGREEMENT. Should any conflict arise among the terms of two or more Controlling Documents, such Controlling Documents will govern in the priority order set forth above.

BANK and CITY may from time to time enter into new SERVICE AGREEMENTS with respect to specific treasury management services, and other services contemplated by and arising out of and reasonably related to the services described in the RFP, PROPOSAL, and other Controlling Documents, as are deemed necessary to further define the rights and duties of the BANK and CITY with regard to certain defined services which may include service termination dates, authorization designations and codes, or such other covenants as required for the proper implementation of the proposed services. Such SERVICE AGREEMENTS shall be added to and become a part of this AGREEMENT, are subordinate to this AGREEMENT, and should any conflict arise, the terms of this AGREEMENT shall prevail.

4. (RESERVED).

5. Funds on Deposit. The CITY shall have the power at all times to determine and designate the character and amount of the funds which will be deposited in the BANK. CITY deposits shall never be the subject of any garnishment or attachment, except for by operation of law, order, or government agency of competent jurisdiction.

6. Designation of Authorized Representatives. During the term of this AGREEMENT, the CITY will through appropriate action of its City Council, designate representatives, who individually or jointly will be authorized to represent and act on behalf of the CITY in any and all matters of every kind arising under this AGREEMENT and appoint and designate from time to time a person or persons who may request withdrawals, create new accounts, and prepare orders for payment or transfers on behalf of the CITY. BANK shall, through appropriate action, designate primary representatives who individually or jointly are authorized to represent the BANK.

7. Audited Financials. BANK shall send to the CITY, on an annual basis, audited annual financial statements as soon as publicly available.

8. Indemnification. Any SERVICE AGREEMENTS or other BANK agreements, schedule, or disclosures are hereby modified to remove therefrom any agreement by CITY to indemnify the BANK and its affiliates, directors, officers, employees and agents and remove remedies available under law in the event of BANK negligence or breach of contract.

BANK shall defend, indemnify, and save and hold harmless CITY, its officers, agents, employees and volunteers from any claims, suits or actions of every name, kind and description brought forth, or on account of, injuries to or death of any person (including but not limited to workers and the public), or damage to property, to the extent resulting from or arising out of BANK's willful misconduct or negligent act or omission while engaged in the performance of obligations or exercise of rights created by this AGREEMENT, except to the extent those matters arising from CITY's willful misconduct or negligent acts or omission.

Notwithstanding any provision of this AGREEMENT stating that CITY waives or limits CITY'S right to make a claim against BANK or exculpates BANK from liability or limits BANK's liability, such a waiver, limitation, or exculpation shall be effective only to the extent authorized by the laws of the State of California. Notwithstanding any provision in any Exhibit or Controlling Document to this AGREEMENT stating that CITY will indemnify or hold harmless BANK, CITY shall not be obligated to indemnify and hold the BANK harmless. Notwithstanding any provision in any Exhibit or Controlling Document to this AGREEMENT stating that CITY will pay attorneys' fees incurred by BANK, CITY shall not be obligated to pay attorneys' fees.

9. Fees. Determination of charges for services rendered by BANK will be based on EXHIBIT "B", attached hereto and incorporated herein, dated August 25, 2022. Fees for new

services not defined in EXHIBIT “B” or otherwise in the Controlling Documents shall be negotiated by the BANK and CITY and mutually agreed upon in writing but in no case shall the charge be in excess of the then current published price by the BANK.

For its services provided hereunder, BANK shall be compensated on a time and expense or fixed fee basis in accordance with the budget estimate as described in EXHIBIT “B,” attached hereto and incorporated herein by this reference, or as described for specific services subject to SERVICE AGREEMENT(S). If not otherwise agreed to in specific SERVICE AGREEMENT(S), BANK shall otherwise submit one monthly invoice for its services. Such invoices shall be delineated by task, the person performing the services, and the hourly rate if applicable, which shall be stated in time increments of not greater than one tenth (1/10) hours. CITY shall pay invoices within thirty (30) days after receipt, if the services specified in the invoice have been satisfactorily completed.

Total compensation for all services performed and arising out of this AGREEMENT for the initial term shall not exceed two hundred thousand dollars (\$200,000.00). Total compensation for optional renewal years of this AGREEMENT shall not exceed one hundred ten thousand dollars (\$110,000.00) per year. Adjustment to the total compensation per year shall require a written amendment to this Agreement, subject to approval by the City Council. The Parties do not intend for the BANK to continue to provide Services without compensation when the total compensation amount is reached.

10. Insurance. BANK agrees to continuously maintain, in full force and effect, the following minimum policies of insurance during the term of this AGREEMENT.

COVERAGE

Workers’ Compensation
Commercial General Liability

LIMITS OF LIABILITY

Statutory
\$1,000,000 each occurrence
\$2,000,000 aggregate

	Personal Injury: \$1,000,000 each occurrence \$2,000,000 aggregate
Automobile Liability	Bodily Injury: \$500,000 per person \$1,000,000 per accident Property Damage: \$100,000 per occurrence
Professional Liability (errors and omissions)	\$1,000,000 per claim

BANK shall submit a certificate evidencing such coverage in a form satisfactory to the City Attorney of CITY, prior to undertaking any work hereunder. BANK shall also provide a separate endorsement form or section of the policy showing CITY, its officers, agents and employees as additional insured's for each type of coverage, except for Workers' Compensation and Professional Liability. The coverage shall be primary as to such additional insured's and no coverage of the CITY shall be called upon to contribute to a loss. In addition, the insurance policy may not contain language which prohibits additional insured's or other insurers from satisfying the self-insured retention or deductible. BANK shall provide thirty (30) days written notice to CITY prior to cancellation or modification of any insurance required by this AGREEMENT. BANK shall furnish a certificate for the period covered by this AGREEMENT. Any insurance written on a claims made basis is subject to the prior approval of the City Attorney. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve BANK of liability in excess of such coverage, nor shall it preclude CITY from taking such other actions as are available to it under any other provisions of this AGREEMENT or law.

11. Access to Records. Duly authorized representatives of CITY shall have right of reasonable access during normal business hours to BANK's files and records relating to the

services performed hereunder, and may review the files and records at appropriate stages during performance of the services.

12. Time is of the Essence. Time is of the essence of this AGREEMENT.

13. Compliance with Laws. BANK will comply with all federal, state and local laws, ordinances and policies as may be applicable to BANK and its performance of services under this AGREEMENT.

14. Ability to Perform. BANK agrees and represents that it has the time, ability and professional expertise to perform the services required under this AGREEMENT.

15. Assignment. BANK is employed to perform unique personal services and, except for assignments to a successor in interest by merger, consolidation, acquisition, change-in-control or similar transaction, BANK shall not assign this AGREEMENT without the prior written consent of CITY. BANK shall not employ or otherwise incur any obligation to pay other specialists or experts for services in connection with this AGREEMENT, without prior written consent of CITY. Notwithstanding the foregoing, BANK may, without notice or consent, in the ordinary course of business, subcontract for third party services or products that are not dedicated to CITY or are not material to a particular function constituting a part of the Services provided under the resulting contract.

15. Independent Contractor. BANK shall act as an independent contractor, and covenants and agrees that it will conduct itself consistent with such status, that it will neither hold itself out as, nor claim to be, an officer or employee of CITY by reason of this AGREEMENT.

16. Representations and Warranties. BANK warrants that it has not employed or retained any company or person, other than a bona fide employee working for BANK, to solicit

or secure this AGREEMENT, and that it has not paid or agreed to pay any company or person, other than a bona fide employee, any fee, commission, percentage, brokerage fee, gift or any other consideration, contingent upon or resulting from the award or making of this AGREEMENT. For breach or violation of this warranty, CITY shall have the right to terminate as void this AGREEMENT, without liability, or, in its discretion, to deduct from the AGREEMENT price or consideration, or otherwise recover, the full amount of such fee, commission, percentage, brokerage fee, gift or contingent fee.

17. Successors in Interest. This AGREEMENT shall be binding upon the heirs, successors, executors, administrators and assigns of the respective parties hereto.

18. Copyright, Ownership and Use of Materials. All tangible material created or delivered as a deliverable primarily for CITY pursuant to this AGREEMENT ("Material") is considered a work made for hire under the Copyright Act. To the extent such Material does not qualify as a work made for hire, BANK hereby assigns to CITY all right, title, and interest, including but not limited to all copyrights, in all Material created by BANK in its performance under this AGREEMENT. Material constitutes the scope of work outlined in EXHIBIT "___" and attached hereto, and all written and other tangible expressions, including but not limited to, drawings (including computer aided drawings), papers, documents, reports, surveys, renderings, exhibits, sketches, maps, models, prints, paintings or photographs, in any and all media or formats in which such materials have been created or are maintained. All Material furnished by BANK is, and shall remain, the property of CITY.

BANK shall execute any documents reasonably requested by the City to effectuate such assignment. In the event that BANK uses, employs, designates, or retains any person or entity who is not an employee of BANK, to perform any work required of it pursuant to this

AGREEMENT, BANK shall require said person or entity to execute an agreement containing the preceding paragraph.

19. Termination of AGREEMENT. CITY may terminate this AGREEMENT without cause by giving BANK ten (10) days advance written notice from the City Manager. BANK may terminate this AGREEMENT without cause by giving CITY ninety (90) days advance written notice. In the event of termination through no fault of BANK, CITY shall compensate BANK for services performed as of the date of termination, upon the release to CITY of all Material hereunder, in any and all media or formats in which such materials have been created or are maintained. BANK may also terminate or suspend any Services immediately without advance notice to CITY if any of the following occurs: (a) CITY becomes insolvent or files, or has filed against it, any bankruptcy or other insolvency, reorganization, liquidation or dissolution proceeding of any kind; (b) CITY has engaged in fraudulent or illegal activity; (c) CITY fails to maintain balances in accounts sufficient to cover overdrafts and fails to cure after receipt of written notice of such failure within a reasonable amount of time; (d) CITY violates, or is in default under, the terms of this Agreement or any other agreement with BANK and fails to cure after receipt of written notice of violation or default and a reasonable amount of time; (e) CITY fails to reasonably comply with security procedures or fails to provide information reasonably requested by BANK, and fails to cure after receipt of written notice thereof and a reasonable amount of time; (f) BANK determines it is impractical or illegal to provide any Services because of changes in laws, regulations or rules; (g) BANK, in good faith, is unable to satisfy itself that any Services have been properly authorized by CITY; or (h) BANK, in good faith, deems itself insecure. CITY retains the right to receive and use any MATERIAL, notwithstanding any termination or any dispute regarding the amount to be paid. Notwithstanding any termination,

the terms of this Agreement shall apply to all transactions which have been initiated prior to termination.

20. Attorney's Fees; Venue; Governing Law. If either party commences any legal action against the other party arising out of this AGREEMENT or the performance hereof, the prevailing party in such action shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorney's fees. Any action arising out of this AGREEMENT shall be brought in state or federal courts located in Placer County, California, regardless of where else venue may lie. This AGREEMENT shall be governed by and construed in accordance with the laws of the State of California.

21. Modification. This AGREEMENT and each provision contained herein may be waived, amended, supplemented or eliminated only by mutual written agreement of the parties.

22. Severability. If any of the provisions contained in this AGREEMENT are for any reason held invalid or unenforceable, such holding shall not affect the remaining provisions or the validity and enforceability of the AGREEMENT as a whole.

23. Notices. Any notices to parties required by this AGREEMENT shall be delivered personally or mailed, U.S. first class postage prepaid, addressed as follows:

CITY OF ROSEVILLE

ATTN: Dennis Kauffman
Finance Department
311 Vernon St., Roseville, CA 95678

BANK

ATTN: Charline M. Botelho
U.S. Bank
621 Capitol Mall, Sacramento, CA 95814

Either party may amend its address for notice by giving notice to the other party in writing.

24. Integrated Agreement. This is an integrated agreement and contains all of the terms, considerations, understanding and promises of the parties. It shall be read as a whole.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this AGREEMENT in duplicate by its City Manager and attested to by its City Clerk under the authority of Resolution No. _____, adopted by the Council of the City of Roseville on the ____ day of _____, 20__, and BANK has caused this AGREEMENT to be executed.

The City of Roseville (hereinafter “City”), is soliciting proposals from qualifying financial institutions to provide complete Depository Banking Services And Merchant Services. This will be a competitive negotiation process. Qualified financial institutions (hereinafter “Institution (s)” or “Proposer(s)”), that meet the requirements set forth in this Request for Proposals (hereinafter “RFP”), and are capable of providing the services requested are encouraged to participate.

The City intends for its banking partner to provide state-of-the-art technology to assure that its current banking needs would be met for all departments and allow the City to continue to incorporate technological changes and improvements into its operations over the period of the contract. Because all services are expected to be provided electronically, institutions outside the municipal boundaries of Roseville are encouraged to propose. The contract is to begin approximately March 1, 2023, and is to be for a three-year period with the City option to renew for one additional two-year renewal period.

Through this contract the City intends to minimize banking costs, improve operational efficiency, and maximize its investment capabilities. This RFP, which represents the City’s cash management goals, also specifies all required qualifications, the required banking and merchant services, the estimated activity volumes on all accounts, the method of compensation, submission instructions, and contract award provisions. All qualified institutions are invited to submit a proposal.

Institutions responding to this RFP must be insured through the Federal Deposit Insurance Corporation (FDIC) and must be able to demonstrate a capacity to meet the City’s requirements as stated in the RFP through responses to the questions presented in the RFP.

1.1 CITY OVERVIEW

The City of Roseville is an incorporated city with a population of more than 151,000 residents, located in Placer County off of Interstate 80, approximately 16 miles northeast of Sacramento, California. The City of Roseville is a Charter city operating under the City Council/City Manager form of government.

1.2 PROPOSAL SUBMITTAL

RFP proposal submittals may be delivered to the Office of the City Clerk, Civic Center, 311 Vernon St., Roseville, CA 95678 via common carrier, hand delivered, or submitted via electronic mail to cityclerkroseville@roseville.ca.us by the specified proposal due date and time. Complete and attach the “Sealed Proposal” label (ATTACHMENT F) to the outside of the proposal packaging if delivering or hand carrying a hard copy of the proposal, so it is visible to the City Clerk. If submitting a proposal via electronic mail, then include the RFP title and RFP number in the subject line of the email. **NOTE:** The City Clerk’s office is only open until noon on Fridays.

1.3 CALIFORNIA SECRETARY OF STATE REGISTRATION

The City requires all corporations, limited liability companies and limited partnerships to be registered to do business in the State of California. On a separate sheet of paper, please include a screenshot of your “ACTIVE” status with your proposal submittal, which can be obtained by accessing this link: <https://businesssearch.sos.ca.gov/>.

1.4 INSTRUCTIONS

This RFP includes a description of the scope of services, proposal requirements, and instructions for submitting your proposal. Failure to follow these instructions may result in rejection of your proposal.

No oral representations or interpretations will be made to any proposer as to the meaning of this RFP.

Direct all inquiries regarding this RFP in writing no later than August 10, 2022, to Nick Rosas by accessing the RFP from the City's website at:

https://www.roseville.ca.us/business/procurement_services/bids_rfps

Do not contact other individuals or City departments in this regard. Information provided by anyone other than the above contact may be invalid and proposals which are submitted in accordance with such information may be declared non-responsive.

In the event that it becomes necessary to revise any part of this RFP, written addenda will be issued. Any amendment to this RFP is valid only if it is in writing and issued by the City department issuing the RFP. No oral interpretations or answers shall bind the City unless confirmed by the City in writing.

All addenda for this RFP will be distributed through PublicPurchase.com to proposers who have registered with PublicPurchase.com and who have downloaded the RFP. Additionally, the Notice of Intent to Award will be posted on PublicPurchase.com. **It is the proposer's sole responsibility to monitor PublicPurchase.com for possible addenda to this RFP and for the Notice of Intent to Award.** Failure of proposer to retrieve addenda or the Notice of Intent to Award from PublicPurchase.com shall not relieve him/her of the requirements contained therein or the timelines associated therewith. Additionally, failure of proposer to return a signed addendum, when required, may be cause for rejection of his/her proposal.

2.0 TENTATIVE RFP PROJECT SCHEDULE

The following represents the tentative schedule for this RFP. Any change in the scheduled dates for the Deadline for Final Questions or Proposal Submission Deadline will be advertised in the form of an addendum to this RFP. The schedule for the evaluation process and other future dates may be adjusted without notice.

RFP Released by the City.....	July 27, 2022
Deadline for Final Questions.....	August 10, 2022
City Responses to Written Questions.....	August 18, 2022
Proposal Submission Deadline.....	August 25, 2022 (3 PM PST)
Institution Interviews as needed.....	Week of September 5, 2022
Contract Negotiations.....	September 2022
Contract Approval by City Council.....	October 19, 2022
Commencement of Services.....	March 1, 2023

3.0 SCOPE OF SERVICES

3.1 Financial Overview and General Scope - The City currently maintains nine (9) accounts organized and reported in three reporting groups with the average monthly ledger balances as shown below:

• Concentration Account	\$ 19,000,000	
• Accounts Payable Account	ZBA	
• Payroll Account	ZBA	
• City Internal Account	\$	455

• Wittman EMS Fee Deposits	\$ 54,040
• Housing Authority Account	\$ 908,865
• Housing Authority Escrow Account	\$ 69,912

Each month's balances for a twelve-month period are detailed on Attachment A (Proposed Banking Fees) along with the service type and usage for each account. Housing Authority accounts are reported separately as it is an independent entity. The balance for the entire relationship averages \$23,432,127 and the \$19 million balance in the Concentration account is for the compensating balance. The majority of banking activity occurs in the City's Concentration Account which acts as the master account.

Besides property tax revenue, which is received in January and May, other tax and other service fee revenue is received throughout the year. The City utilizes an internal sweep mechanism with three (3) accounts and a commercial paper sweep. This RFP anticipates a move to a fee basis and a sweep to commercial paper or a money market mutual fund.

The City is extremely interested in obtaining and maintaining highly competitive interest rates. Market sweep rates and interest-bearing rates in interest bearing accounts and money market accounts as well as the ECR will be of particular interest to the City. These rates are required below in the RFP questions. The City reserves the right to change from fee basis to compensating balance basis throughout the contract period.

Most wires, securities transactions, transfers, and ACH transactions process through the Concentration Account. Utility credit card payments as well as other credit card payments are currently clearing through Elavon under a separate contract with funds deposited directly into that account.

Merchant services are included as a required service (Section 8.0) in this RFP. Historical spend information is found on Attachment B which is also to be used for proposed fees and costs for merchant services.

The City uses the Oracle Fusion Cloud ERP system and assumes the Proposer will have the ability to interface with this system. Utility payments are remotely posted in that office and information manually applied to the City utility system application internally. Other deposits from various departments are directed to Finance, verified and consolidated for one bank deposit. This process does not currently use remote deposit for checks. E-box payments are downloaded from the banking site to the cash receipts application. The e-lockbox is in place and handles an average of 12,991 items per month.

ACH is used to pay vendors and to receive tax and state payments as well as other payments.

Bi-weekly payroll checks are issued from the Payroll Account for approximately 1,300 total employees (which may rise above 1,500 in summer) and a gross monthly payroll of \$11.5 million. Direct deposit is not mandatory but used by approximately 96% of the total employees. Manual checks are still being written. The bank will be expected to follow standard SWACHA regulations for deposit of employee funds on the scheduled date as defined by the City.

Attachment A contains the banking services monthly volumes on a one-year aggregated relationship history. It records all activity in those months. No account analyses will be supplied to proposers for this RFP.

The Finance Department has total oversight of banking, accounts payable, and payroll operations as well as responsibility for the merchant services contract. All reporting and reconciliation will be accomplished through the Finance Department.

Any or all City funds may be maintained and invested by the City outside this contract. The City will be under no obligation to maintain time or demand funds in the bank except when fees are paid under a compensating balance basis. In the area of safekeeping/custody, the City averages approximately 160 CUSIPs and \$775 million par in book entry (non-ABS/MBS) securities.

3.2 Multiyear Agreement - The initial contract will be from date of award through February 28, 2026. The City reserves the right to renew the contract two additional years at its sole discretion. The Institution receiving the contract award for the initial contract will retain that contract award throughout the life of the contract, including the optional renewal years.

The initial contract will be awarded based on the prices determined through the initial contract negotiation process. Sixty days prior to the expiration date of the current contract, the City is willing to re-negotiate out-year pricing (increases and/or decreases) based on market fluctuations. The pricing for the two-year renewal will be evaluated based on what the City deems to be fair and reasonable pricing. Any requests made by the Institution for a price increase must be fully documented utilizing an appropriate Consumer or Producer Price Index or other relevant market data to justify a price change. In its request for price increases Institution shall cite sources, specific conditions, and document how those conditions affect the cost. The City is also willing to re-negotiate pricing if it is affected by catastrophic circumstances (example: unforeseen national/world crisis or acts of God).

Price adjustments will not be automatic. They must be mutually agreed upon by both the City and the Institution. The City will review the proposed pricing and determine if it is allowable, fair, reasonable, and in the best interest of the City to extend the agreement.

4.0 REQUIRED FINANCIAL INSTITUTION INFORMATION

4.1 To be qualified, the Proposer must be a federally or State of California chartered depository institution with full banking and merchant services. The Proposer must qualify as a designated California Depository.

A. Creditworthiness

In order to fulfill the City's fiduciary responsibility for public funds the proposal shall respond to and provide the following. The City wants to ensure that the successful Institution has the necessary facilities, ability, experience, and financial resources to provide the services specified herein in a satisfactory and timely manner.

- i. Provide a link to the audited annual financial statement for the most recent fiscal period. The bank will be required to submit an audited annual financial statement to the City each year of the contract period, as soon as it is publicly available. Provide the link and confirm agreement to this requirement.
- ii. Provide certification of the bank's Community Reinvestment Act (CRA) rating by its rating agency. The bank will be required to notify the City of any change in this rating during the contract period as soon as it is publicly available. Confirm agreement to this requirement.
- iii. Provide the most recent senior and subordinate debt ratings of the bank's holding company. If not rated, provide the bank's most recent four quarters rating from an independent rating agency such as Highline or Veribanc. The bank will be responsible for notifying the City within thirty

- (30) days of any change in any ratings during the contract period. Confirm agreement to this requirement.
- iv. Fully detail the insurance coverage carried (or self-funded) by the Proposer for worker's compensation and liability coverage.
 - v. Please list and explain any pending bankruptcies, liens, stop payment notices, judgments, lawsuits, arbitrations, mediations, foreclosures, and any similar actions filed or resolved in the past three (3) years.
 - vi. Please indicate whether a public entity has ever terminated a contract early with your institution for breach, and if so, please explain.

B. Customer Service and Community Service

Service is a critical element for the City and will be a primary focus of the evaluation. Describe the bank's customer service philosophy and approach to satisfying this need through the following responses.

- i. Describe the bank's philosophy of customer service. What is distinctive about the bank's approach to customer service? How will the bank satisfy the City's need for timely and effective customer service?
- ii. What role do the professionals in the local bank play to provide the City with relationship support?
- iii. What holding company support is provided (if applicable)? How are these representative support teams organized?
- iv. Is service and overall contract performance monitored at the holding company level?
- v. What is the bank's approach to service automation? How does the bank intend to support the new and ongoing automation needs of the City? How will this impact the City now and throughout the contract period?
- vi. Are there any new services planned which may impact the City? When are these planned to be available?
- vii. Is the bank offering any transition or retention incentives? Describe fully and quantify completely.
- viii. How has the bank prepared for natural or man-made disasters? What support will the bank be able to offer the City in a disaster situation to maintain stable banking functions?
- ix. The City requires the right to use a third-party auditor to review the City's accounts, collateral, transactions, and bank records at any reasonable time acceptable to the bank. Confirm agreement with this condition.
- x. What level of community service does the bank and its employees contribute to Roseville and its residents?
- xi. The bank will not be required to review or certify to a review of the City's Investment Policy, but a review of the policy is recommended. The investment policy can be found in the City's Financial Policies at the bottom of its Financial Transparency web site at:
<https://www.roseville.ca.us/cms/One.aspx?portalId=7964922&pageId=8916788>

C. References.

List references from three comparable California public entity banking clients and three merchant services clients (if not a client of both services). For each reference, include the length of time under contract, a client contact, title, and email address.

D. Depository and Service Agreements, Merchant Service Agreements

Provide a copy of **all** bank service agreements, including those for the Optional Services Section, which will be required to provide the services under the contract for services rendered.

Provide a copy of the Firm's standard merchant services agreement. A separate contract will be appropriate for merchant services, as part of the overall award, and will also be reviewed before award of contract.

The City anticipates that any City changes required on the Bank agreements will be made and agreed to before award of the contract. The Depository Agreement must be agreed to in totality before award of the contract.

- i. Provide all service agreements required for provision of the banking services (including all Required and Optional Services) proposed.
- ii. Provide the agreement for merchant services.

E. Banking Implementation timeline.

The contract period will commence approximately March 1, 2023. The City recognizes that not all services and funds will be transferred on or by this date but requires that all services be available for use by that date. The City will attempt to move the majority of funds into the bank within 60 days of the start date of the contract, if feasible. All funds and services are planned to be transferred by May 1, 2023.

Defaults in promised delivery of services, without reasons acceptable to the City, or failure to meet the terms or conditions of the depository contract without remedy, shall result in an event of default or the City having the option to terminate the contract, but the exercising of such option to terminate the contract does not limit any other remedies the City may have for damages or other relief under law.

- i. Provide a proposed, detailed timeline for implementation of the contract and transition activities. Include each activity required defined by its responsible party and any assigned responsibilities. Denote any limitations or potential delay points. The timeline must reflect the number of business days required to put the services in place or the end date of when such services will be in place and available to the City.

5.0 REQUIRED BANKING SERVICES

Required Banking Services - It is the City's intent that the contract negotiated between the City and the Depository selected through this process will encompass all the services and conditions required here. Additional or Alternative Services offered by the Proposer may be included in the Section 6.0. Alternative Services is provided for the Proposer to offer new or alternative services available but not currently contemplated by the City. Optional services for the City's review are presented for response in Section 7.0.

The Required Services are minimum requirements and any Proposer refusing or failing to provide such minimal services will not be considered for selection as the Depository.

A. Account Structure

A listing of the nine current accounts and services currently in use is found on ATTACHMENT A - Proposed Banking Fees (One by account Group and one for the total relationship). The City may be required or may desire to open additional accounts or close/change accounts during the contract period. Any new accounts shall be charged at the same contracted amount.

Under this contract, the City will require the option to determine to pay for services on a fee or compensating balance basis. It is anticipated that the City will initiate the contract on a fee basis with rates rising. The City wants all its funds to be continuously earning at the best, then-current market rates and is therefore using a sweep mechanism. The sweep is currently to commercial paper but a money market mutual fund striving to maintain a \$1 NAV will be considered.

Changes in interest rates will dictate the City's choice of payment methodologies on an ongoing basis. An automated, daily sweep to a AAA-rated money market mutual fund or commercial paper, if applicable and competitive, should be proposed in order to reach full investment goals and to minimize collateral requirements and balance-based fees.

If a money market fund is being proposed, the fund must be rated AAA by at least one nationally recognized rating service and must strive to maintain a \$1 NAV. If commercial paper is to be used for the sweep the paper must be rated A1/P1 or better. Neither a repurchase agreement nor an off-shore account of any type is acceptable as a sweep investment vehicle.

- i. Describe the bank's ability to provide a ZBA-Master sweep structure. Can the bank sweep from individual accounts or must the sweep go through a master account? How is interest applied in each structure? Indicate your recommended structure.
- ii. What is proposed as the sweep vehicle? (IntraFi will not be considered as a sweep vehicle.)
- iii. How will sweep activity be reported? On a detailed, daily basis or summarized on a monthly basis and how are these reported on the statement? Is a separate sweep account report available for the transactions? Define and provide a sample of the reporting for the sweep.
- iv. Will interest from the sweeps be applied at the account level if the sweep is from the individual accounts?
- v. If it is proposed, provide the prospectus for the money market sweep fund. A AAA-rated, SEC registered fund striving to maintain a \$1 NAV must be utilized for the sweep.
- vi. If the Bank cannot provide a sweep mechanism, or if alternative account types are proposed for the accounts, describe the account structure proposed including the type of accounts (interest bearing, money market, ZBA, etc.) along with the overall account structure.
- vii. The City expects highly competitive rates on all demand accounts and the ECR. If not a managed rate, for interest bearing accounts based on an index, provide the index.
- viii. Is the sweep processed as the last transaction of the day? If not, please describe.
- ix. Complete the following table with the rates for each category for the last twelve months and the current rate.

Type	Past 12 Months	Current Rate
ECR	%	%
Interest Bearing Accounts	%	%
Money Market Accounts	%	%
Sweep	%	%

B. Automated Cash Management Information Access

The City requires a single portal, web-based cash (treasury) information management service with prior and intra-day reporting. The City requires a high degree of automation within all service areas. Imaging of all checks, access and image retention is required. Imaging of paid items, deposit slips and deposit items also is required. Statements and account analyses should be available in electronic form along with access to archived information.

The City requires timely access to downloadable information for the City's accounting software (Oracle Fusion Cloud) for reconciliation and posting purposes.

Minimum on-line services must include balance reporting, lockbox, stop pays, ACH, positive pay, account transfers, and wire transfers. Daily balance reporting should include detail on all transactions with summary reporting on closing ledger and collected balances along with one-day float, at a minimum.

- i. Provide a link to the bank's online service portal and a demo sign-on.
- ii. Fully describe the bank's on-line service capabilities and systems, with examples.
- iii. Describe your search capabilities for historical transactions and reports as well as the ability to retrieve and download historical images.
- iv. Are all reporting processes and services web-based? Is paper back-up from the City needed on any type transactions?
- v. Does the bank currently provide banking services to other entities using the Oracle Fusion Cloud ERP system? Provide two public references using the Oracle Fusion Cloud including contact information.
- vi. Do the bank's systems include a cash forecasting module or capability?
- vii. Detail the availability and level of prior day and intra-day detail and summary reporting. When is prior day information available? Is intra-day information real-time or scheduled throughout the day for certain data?
- viii. Define all transaction and summary history access/retention features.
- ix. Can customized reports draw across reporting modules and activities? Describe the cross functionality features.
- x. Describe back-up procedures available to the City with any interruption in the automated system delivery of information or transaction input functions.
- xi. Describe provisions for off-site backup and continuation of services in local or regional disaster situations.
- xii. What mobile services are available? Describe.
- xiii. Describe all security protocols for online and mobile services.
- xiv. How and by whom is the administration of the security module established and maintained?
- xv. What are the hours of available technical support? Where is the technical support located? How is support provided?

C. Collection and Deposit Services

Standard commercial deposit services are required for certain accounts. Currently, geographically separate City departments make a daily deposit to Finance which then consolidates for one deposit delivered by armored car. The City does currently use one remote deposit scanner in the utility billing location. The City may consider additional sites under this contract.

Currently, the City contracts with Brinks armored car service under a separate City contract. The service makes multiple pickups at various departmental locations and then deposits all the deposits to City Hall. A consolidated deposit to the bank is made from City Hall. This process may be slightly altered to reduce float using location identification (on deposit slips) and location reporting through the bank, if available. The service is not paid for through the account analysis and the contractor may change during the bank contract period. Initially the City anticipates continuation of one business day deposit by the armored car service, but will evaluate possible changes. Deposits include checks and coin/currency. Change orders are currently sent to the City through the local branch by armored car but could be changed to online change orders.

The City acts as its own lockbox for utility payments which could change if the image lockbox optional service is implemented.

All check deposits are batched with tapes attached. Coin/currency is not rolled nor strapped. The City currently uses web-based utility payments through Invoice Cloud to collect credit card utility payments. The software aggregates transactions and then transfers data daily directly to the merchant services provider (currently Paymentech Merchant Services).

All deposits received by the bank's established deadline must be processed same day. Immediate verification is not required. The bank shall guarantee immediate credit on all incoming wire transfers, on-us items, and security maturities and coupons. All other checks clearing will be based on the bank's published availability schedule or remote processing schedule. Failure to timely credit the account will require payment reimbursement to the City at the then-current Fed Funds rate.

The City uses a 31-digit code on its deposit slip number in the MICR encoding to track deposits for reconciliation. Deposit tracking will be required under the new contract to speed deposits and improve deposit reporting.

The City does not currently utilize re-presentment of checks through ACH (RCK) but may consider its use during the contract period. Checks are currently represented automatically twice.

- i. What e-receivables programs does the bank have available? How would you suggest the City work into more e-receivables processing?
- ii. What is the bank's daily cut-off time at a local branch and vault?
- iii. Must deposits be made to a vault? If so, where is the vault located? What delay may occur with vault deposits or transfers? Describe the process if the vault is not located in Roseville. Where is the vault located?
- iv. Does the bank provide deposit location tracking through coded deposit bags or on coded deposit slips? Describe fully. Do daily online tracking reports include activity by location? Are all deposits designated by location and tracked as such through the reporting? Provide sample reports for location tracking on deposits.
- v. Does the bank require or prefer strapping and rolling? Are there cost options/benefits for separating cash and checks? Coin and check? Strapping/rolling?
- vi. Is there any limit to the number of deposits in one deposit bag? Are these handled as separate advices?
- vii. When are credit/debit advices sent to the City from the deposit locations? Are these advices sent electronically? (Preference will be given to electronic delivery.) Are images of originals provided with each advice?
- viii. Does the bank have any program to actively assist the City with collection for vendors or ongoing repetitive citizen payments preferably through ACH?

- ix. How does the bank handle discrepancies in deposit amounts? What dollar limits are used for decisioning? What settlement process is followed?
- x. How and when does notification of return items take place? List the elements reported.
- xi. Does the bank provide e-lockbox services? Describe fully. The City currently uses an E-Box service to facilitate collections. The service handles an average of 13,000 items per month.
- xii. What type deposit bags are used or required? Are these available from the bank? At what cost?
- xiii. Are dual verification security measures used on all receipt of deposits (immediate and post) at each deposit location?
- xiv. May deposits or credits be delayed for any reason? Describe.
- xv. If provisional credit is given on deposit before verification, when does verification occur?
- xvi. How much advance notice is required on coin and currency orders? Can orders be placed on line? Is there any minimum purchase requirement? What is the turn-around time on orders?
- xvii. Include a list of all the bank's deposit locations .
- xviii. Does the bank offer RCK (Re-presentment of Checks) with reissuance as an ACH debit? Describe.

D. Remote Electronic Check Acceptance

The City does currently use remote deposit for an average of 14,000 items per month and will continue this service for deposit of both consumer and commercial checks at the Utility Billing location. The City is anticipating the implementation at additional locations.

- i. Describe the bank's process and capabilities for remote capture. Describe equipment needs, capabilities, and limitations. A web-based system is required.
- ii. Does the bank provide remote deposit processing currently? Give two comparable public agency references including a contact name and number.
- iii. What is the final cut-off time? Are there any limitations on batch size or number of transmissions per day?
- iv. If a check is accepted and subsequently returned by the bank NSF, define the process.
- v. What options does the City have in scanners for use with the process in various volume locations?
- vi. Is the scanner equipment available through the contract: purchase or lease? List the equipment required along with its approximate cost(s).

E. Standard Disbursing Services

Standard disbursing capability for all disbursing accounts is required. Payment of all City checks without charge upon presentation especially for City employees is required. Checks are currently being written on the various accounts. The City requires positive pay services with payee name verification.

The City does not currently use integrated payables, electronic payables or virtual cards. The use of ACH has been limited for vendor payments and approximately 320 vendor checks are written weekly. Additionally checks are used for water utility refunds. The City prints its checks on blank check stock.

The City currently uses (250-300) purchasing cards from a separate vendor which may change under this contract, with average monthly spend of \$300,000 and 1,200 monthly transactions.

The City does not have a mandatory direct deposit policy but actively encourages its employees to move to direct deposit. Currently, 96% of the average 1,300 employees use direct deposit. Manual payroll checks are also occasionally written. Pay cards are not currently used.

- i. When is daily check clearing information available online through intra-day reporting? How long are transaction details maintained online?
- ii. Does the bank image all paid checks?
- iii. Describe any payment consolidation services (e-payables) available. What data transfer options are available for payment consolidation systems?
- iv. Define and illustrate the payee information provided the City for single and multiple payments.
- v. Describe the handling of exception or non-standard items through the payment consolidation process. Describe the error tolerance limitations and subsequent handling requirements.
- vi. Describe any options available for ease of check reconciliation.
- vii. Describe any virtual or SUA card programs available.

F. Stop Payments

The City currently averages 7 stop pays a month. An initial minimum of six months for the stop pay period is required. Currently the City has automatic renewals in place for all stop pays. An automated input process is required.

- i. Describe the stop pay process and any bank policy on stop pays.
- ii. How long is the initial stop pay? How long are the renewal periods?
- iii. How is a stop pay renewal or cancellation accomplished? Is a new stop pay required?
- iv. What is the deadline for same day action?
- v. Will the on-line system verify if the check was cleared before accepting the stop pay?

G. Positive Pay and Reconciliation

Positive pay is required on check writing accounts with payee verification. The City requires positive pay services with complete indemnification for fraudulent checks. The proposal must provide a fully automated and web compatible transmission process. Check register transmissions will be made as part of each check run. Manual check information must be able to be input and transmitted online.

The City requires that positive pay files be immediately applied and distributed to all tellers.

The City has three accounts with full reconciliation combined with payee positive pay services on two of the accounts. An average of 1,534 positive pay items are processed monthly.

- i. Describe data transmission file and timing requirements for posting check registers. Are file transmissions charged by file by detail item or both?
- ii. Is positive pay input for manual checks available on-line? Describe fully.
- iii. Is exception reporting and handling managed totally online? Describe.
- iv. At what specific time is positive pay exception information reported to the City? How is notification made? Is email notification available or must the City sign-on and check for exceptions?

- v. At what specific time is the positive pay response required for City exception elections?
- vi. Does the bank have payee positive pay? Describe.
- vii. Does the bank review and scrub exceptions such as encoding errors for possible repair before creating a City exception item?
- viii. Are all checks, including those received over-the-counter by the tellers, verified against the positive pay file before processing? How often is teller information updated? If not verified, what are the process, liability, and security on OTC transactions?
- ix. What is the bank's liability policy for fraudulent checks hitting the positive pay accounts?
- x. Can the bank provide fraud control paper check stock?
- xi. Describe your partial and full reconciliation services.
- xii. Describe your deposit reconciliation process and reports.
- xiii. Describe transmission file requirements.
- xiv. Is the bank currently able to create reports showing pending transactions which would then require further approval by City staff to upload to the City's system?
- xv. When are reconciliation reports available? Are they online and downloadable? How long are they maintained online? Do they contain images of checks?
- xvi. Provide samples of full reconciliation reports.
- xvii. Can the bank create a 'Post No Checks' block on accounts? Describe.

H. Wires and Internal Transfer Services

The City currently uses ACH rather than wires whenever possible but has approximately 43 outgoing and 10 incoming wires each month and an occasional international transaction. Most outgoing wires are non-repetitive and all are input online. Online input is required and online monitoring is preferred. The City uses wires for power purchases and paying agent transactions currently.

Incoming wire transfers must receive same day credit. Wire initiation and release must be available online. The City will require compensation for delays caused by bank errors at that day's Fed Funds rate.

- i. Can all wires and international transactions be initiated and monitored on-line?
- ii. Can repetitive templates be created and stored? Is there a template storage fee?
- iii. What level of security authorization/release do repetitive or non-repetitive wires require? Is authorization for repetitive and non-repetitive the same?
- iv. Is future dating of wires and transfers available? How far in advance?
- v. State wire access, posting, and cut-off times.
- vi. State the bank's policy on the use of ledger balances for outgoing wires in anticipation of scheduled activity or incoming wires.
- vii. Can internal account transfers be processed totally on-line?
- viii. Are book transfer debits/credits all handled online?

I. Optical Imaging

In an effort to reduce paper handling and storage, the City is focused on imaged documents. An average of 9,500 deposited items are stored monthly.

- i. Describe the bank's optical imaging services and list all the items captured along with their retention schedules.

- ii. What images are available on-line? When? How long are images available on line?

J. ACH Services

ACH service is currently used for payroll direct deposit (for 96% of an average 1300 total employees). The City also uses a direct debit draws for approximately 2,300 utility payments per month. The water utility bills on a daily cycle. ACH is used for some vendor payments and the City plans to expand this use. The City requires pre-notification and filters/blocks on all accounts.

- i. Is ACH service available for online individual transactions as well as file transmission? What are the cut-off times for each?
- ii. Describe how individual ACH transactions are input online? What security features are in place?
- iii. What is the policy and process for handling of ACH returned items?
- iv. Can ACH items and files be future dated?
- v. What specific filters and blocks are available on the accounts? Define and describe all your fraud filter and block options.
- vi. What policy, process and time requirements exist for file and item reversals and deletions?
- vii. Are ACH addenda shown in their entirety on-line and on detail reporting, reports and statements? How many characters are on the trailer file? Is the entire trailer printed on reports and statements? Does this require additional EDI or other service or access?
- viii. The City will require pre-noting. Is the pre-note charged as a standard ACH transaction?

K. Safekeeping/Custody Services

All City investments will be made by the City Finance Department or its investment adviser and written instructions for settlement will be given to or transmitted to the bank safekeeping area by an authorized individual. The bank will be required to provide book-entry safekeeping services through the bank or a correspondent. Correspondent processing is not preferable.

All securities must be cleared on a delivery versus payment (DVP) basis and ownership clearly and timely documented by receipts. All interest payments and maturities shall be given immediate collected credit.

The City anticipates an average of between 160 book entry securities in safekeeping at any time with an average par value of \$775 million in FRB or DTC safekeeping. Ownership of the securities must be perfected and evidenced by an original safekeeping receipt or access to online information directly to the City within one business day.

The bank's brokerage services will not be used for investment purchases in order to perfect DVP. Certificates of deposit may be purchased from the bank but these will be on a competitive basis.

- i. Is online trade input available?
- ii. Is online settlement monitoring available? Describe all options.
- iii. What safekeeping relationship is proposed? Will safekeeping be done in the bank or in a subsidiary or correspondent? Fully describe the transactions and relationship.
- iv. Identify any correspondent bank used for custody.
- v. If a correspondent is to be used, define the process and confirm same-day crediting/debiting on all transactions. Describe any additional City actions required.

- vi. Are safekeeping fees hard charged or available through the account analysis?
- vii. The City desires call and maturity notification. How and when can this be provided?
- viii. Will a security clear if incoming wires are expected where a wire number can be provided?
- ix. Are notifications sent on all transactions (purchase, sale, calls, and maturities)? When and how?
- x. What time are delivery instructions required? Is this a firm cut-off? Is there a fee charged for late instructions.

L. Collateral Requirements

The City requires a bank that is fiscally strong and able to provide the services described on an uninterrupted basis. As public funds the City falls under provisions of the California Government Code Title 5. Collateral will be in place at least two (2) days before any funds are transferred.

The bank will be responsible for the pricing of securities and daily monitoring and maintenance of margin levels. The City may minimize collateral costs through use of the sweep mechanism.

- i. Confirm agreement to the California collateral conditions noting any detailed exceptions to each.
- ii. Will there be a fee for collateral?

M. Account Analysis

A monthly account analysis report shall be provided for each account and on a relationship basis.

- i. Provide a sample account analysis.
- ii. State how and when the analysis will be available each month.
- iii. Is the analysis provided online?
- iv. How long is the analysis maintained on-line?

N. Monthly Statements

The bank shall provide monthly account statements on individual accounts and on a relationship basis. All accounts are on a monthly cycle using the calendar month as cut-off. Timeliness of reporting is critical.

- i. Provide a sample statement.
- ii. When and how are statements available? Are statements provided online?
- iii. When is the statement available online?
- iv. How long are statements maintained online?

O. Account Executive

To insure smooth contract implementation and continuation, a specific account executive and back-up must be assigned to the City account to coordinate services and expedite the solution of any problem. The account executive should meet with City staff semi-annually on banking matters at a minimum.

- i. Provide the outline for the client support structure to be provided to the City by the bank. What level of support is available from local representatives?
- ii. Explain how the proposed client support level will address problems and promote ongoing communications on a timely and efficient basis.
- iii. Is there a protocol and/or system for monitoring and providing solutions to individual problems?
- iv. Provide the names and titles of the proposed account executives as well as their locations.
- v. What kind of technical support is available after business hours and on weekends?

P. Overdrafts

Every effort will be made by the City to eliminate net aggregate daylight and overnight overdraft situations.

- i. State the bank's policy regarding aggregate overdraft charges and the fees, if any.

6.0 ADDITIONAL OR ALTERNATIVE SERVICES PROPOSED

Alternate Banking Services - The City is always investigating new processes to streamline and improve internal operations. The proposer should use this area, if desired, to illustrate any alternatives and new services which it feels would benefit the City.

7.0 OPTIONAL BANKING SERVICES PROPOSED

Optional Banking Services - The proposal must include a response to each question in this section and all fees associated with the services must be shown with fee proposal. If the service is not available, respond as "Not available".

The City continually investigates new services for use and possible inclusion under its banking services contract. The following services are not currently required but will be evaluated in terms of availability, feasibility, service levels, services provided and charges for current, or future, use under the contract.

The City will make its determination during the contract period as to whether a particular service will be used. If the service is initiated later in the contract period the services and charges stipulated in this proposal will be applied. If the bank currently does not offer the service but is planning to offer the service during the projected contract period, it should so stipulate along with the anticipated date of activation.

A. Commercial and Purchasing Cards

The City currently uses (250-300) purchasing cards from a separate vendor which may change under this contract, with average monthly spend of \$300,000 and 1,200 monthly transactions.. These may be assigned to specific individuals or be used by a defined group.

- i. Describe the bank's program for (a) commercial credit cards and (b) purchasing cards for issuance to specific individuals or for general use by an institution.
- ii. What controls are available?
- iii. What reporting is available? Is all reporting web-based?
- iv. What are the payment requirements?
- v. Is there an annual fee? Are there any additional fees?
- vi. Does the card provide for a rebates? On what basis?
- vii. Can these cards be assigned to an individual but tied to the City?

B. Lockbox

The City currently does not use any external lockbox service for receipt and collection of bills or other receivables. The work is performed by City staff. Consideration is being given to a lockbox service which could be used to collect payments and transmit daily files with detail for downloading to City customer files.

The current utility remittance document is shown below. The account number is up to 12 digits (all numeric). The utility currently processes 7,000 physical check payments mailed monthly with a monthly billing cycle.

0000555555000001605207

- i. Describe the proposed lockbox service. Describe the work flow and processing of payments at your facilities.
- ii. When and how is information available daily?
- iii. Describe the potential implementation timeline. When could the lockbox be implemented?
- iv. What level of technical assistance would be given to the City to implement the lockbox and design or redesign the remittance document?
- v. Where is the lockbox facility located? What city would be used for the remittance address?
- vi. When is mail collected and delivered to the facility? How many times daily? How many hours of operation each day?
- vii. Is all remittance information captured and reported? Describe.
- viii. Can the lockbox handle credit card remittances?
- ix. Describe the major components of your quality control checkpoints.
- x. Is image processing currently in place? Describe. Are there imaging costs for each item (check and remittance document)? Is there a separate fee assigned for the transmission of images?
- xi. Will mail be processed on all shifts including weekends?
- xii. Is there a formal procedure for responding to and correcting errors and problems? What is the average response time.
- xiii. Provide the names, contact names and telephone numbers of at least two comparable public lockbox clients.
- xiv. In the case of system failure, what are the back-up arrangements for processing? Are any delays expected in this situation?
- xv. Describe the data transmission format and provide a sample reports created Is their full MICR capture?
- xvi. What are the transmission times when information is available on the daily deposit(s)? Intra-day? How is the information made available?
- xvii. Who is responsible for handling adjustments and error resolution? How?

8.0 REQUIRED MERCHANT SERVICES

8.1 Required Merchant Services - The minimum qualifications required of Proposer with respect to its Merchant Services are:

- Must provide end-to-end Merchant Services including credit and charge transaction authorization, routing and settlement for all major credit card brands and debit cards, gift cards, and other payment options.
- Must provide PIN-based debit card processing services including access to all major debit card networks. The City does not currently accept pin-based debit transactions.
- Must be able to process individual card transactions ranging from a minimum of \$1.00 to a maximum of \$100,000.
- Must provide gross settlement using ACH to a designated City depository account no later than forty-eight (48) hours after the payment and credit records have been batched and transmitted.
- Must have online reporting capabilities that will produce at a minimum daily/monthly summary reporting by Terminal ID and/or Merchant ID location:
 - Total sales and transaction count by card type
 - Average size by card type
 - Total disputed charges by card type

- Must provide a detailed invoice for services on a monthly basis for all transaction costs (processing fees and other fees) associated with the payment and credit records processed. Sufficient back up documentation to support all costs invoiced, including breakout by Merchant ID, card type, transaction type, gross sales, returns, net sales, and transaction counts must be provided with the invoice.
- Must continuously comply with Payment Card Industry (PCI) Data Security Standards (DSS) and work with the City to assure compliance by the City.
 - Must provide detailed documentation of PCI requirements of the City.
 - Must provide a secure portal for uploading PCI requirements for the City.
- Must be able to provide a twenty-four (24) hour seven (7) day a week help desk for customer assistance to City departments.
- Must have the capability of servicing and/or replacing any non-functioning hardware within one business day after the City reports the problem.
- Must be able to provide electronic check processing services detailed below:
 - Electronic check conversion at the point of sale
 - Internet initiated check debits
 - Check guarantee/verification
- Must perform such other functions normally contemplated to be the function of a Merchant Service Provider.
- Must provide initial and on-going training to City personnel as required related to payment and credit/debit card processing requirements, charge backs, accessing reports and transaction data, equipment, PCI changes, and/or other processes and procedures which may be required.
- The Respondent's software/interface and/or platform(s) must have the capability of processing and accommodating various point-of-sale third party software applications and multiple merchant accounts, to include the City's current point of sale software Active Network.
- Must work with the City to implement new gateways involving third party software applications and provide interfacing and conversion strategies as applicable and required.

Respond to each of the following questions:

- A. Firm Stability and Background
 - i. Describe the Vendor's background as a merchant services provider including major lines of business and name, number and location of divisions or operating units. Provide a brief history and background.
 - ii. Is a third party used for any other segment of the service?
- B. Firm Competitive Position and Future Commitment to Providing Services
 - i. What differentiates the Vendor and its service from that of other Vendors?
 - ii. Explain the firm's representation on MasterCard or Visa boards or committees.
- C. References and Current Client Base
 - i. Specify the category and number of customers and merchant accounts for which the Vendor is currently providing merchant services. What was the total transaction count and dollar amount processed in 2020-2021?
 - ii. What is the daily average number of transactions currently processed? What is the maximum daily processing capacity?
 - iii. Where are the processing centers? Is the processing structure designed for redundancy?
 - iv. How would the City rank in volume among your customers, given the current number of transactions?

- v. Provide the names, email addresses and phone numbers of two public agency references with comparable volumes and communication capabilities who are currently using the card processing services. Please select a mix of long-standing and recently acquired customers.
- D. Relationship Representatives
- i. List the names, titles, and location, of the primary relationship representative(s) that would be directly involved in and responsible for the contract and its implementation.
 - ii. Describe the relationship management team's functional role and responsibility.
 - iii. What is the expected turn-around time on issue resolution?
 - iv. How often will the primary representative(s) meet with the City to assure that it is receiving the lowest discount/interchange rates?
- E. Card Acceptance/Interface Processing
- i. Does the Vendor support all major payment types, debit cards, gift cards, corporate cards, and other emerging options? Does support or cost vary for any of these?
 - ii. Describe the hardware necessary for acceptance of credit and debit cards for all types of transactions.
 - iii. Can the Vendor use the equipment currently owned and used by the City (Ingenico model iSC250 and Verifone models-VX520 and VX820)? If not, what equipment will be required?
 - iv. Does the Vendor provide the equipment on a lease or purchase basis? Describe the equipment maintenance plan on leases. What is the turn-around time on repairs/substitutions on leased equipment? What supplies will be provided under a maintenance contract, if utilized?
 - v. Describe software necessary for acceptance of credit and debit cards on all transaction types.
 - vi. Describe interface requirements and compatibility issues.
 - vii. The City uses Active Network for Parks, Recreation and Library services, as well as Converge, ACI, Daycare Works and Invoice Cloud, for the web-based payment options currently. Can the Vendor process transactions from this and various gateways? Describe.
 - viii. Indicate all payment gateways currently supported. What fees are applicable on setup?
 - ix. Describe the process to add additional third party gateways after initial implementation.
 - x. Describe telephone authorization options in the case of communication failures.
 - xi. How is PCI compliance tested and confirmed? How are merchants certified?
 - xii. What actions are taken to prevent our transactions from falling to a non-qualified category?
- F. Authorization Processing
- i. What authorization methods are supported and recommended?
 - ii. What are the procedures to reverse/recall an incorrect authorization?
 - iii. Describe any limitations on processing such as assigned “windows” for obtaining authorizations or settlement, number of files allowed per day, the number of transactions and/or dollar limits per file, or dollar amount per transaction authorized and settled?
 - iv. Does the Vendor maintain direct authorization and settlement links to the various card organizations, or utilize a third-party network for authorizations? Is your firm introducing to a direct processor or is it the direct processor?
 - v. Do merchants incur any monthly access fee to connect to the authorization network?
 - vi. Provide average response times for web and dial-up authorization methods for both peak and normal periods.
- G. Settlement Processing
- i. Describe the settlement process.
 - ii. Is all funding next day? Describe.

- iii. What is the daily cut-off time for sales transactions to be transmitted to meet settlement deadlines?
 - iv. Is settlement made by ACH or Fed wire? Can settlement details be passed on ACH addenda?
 - v. Do you allow for multiple settlement accounts by merchant?
 - vi. How will settlements appear on the City's bank statement?
 - vii. What level of transaction detail is available?
 - viii. Are settlements on gross amount and fees charged monthly?
- H. Ticket Retrieval and Chargebacks
- i. Describe the ticket retrieval request process along with turnaround times. Is this all online? Does the Vendor support full document imaging?
 - ii. What is the process for ticket retrieval? State the average elapsed time from receipt of a retrieval request to merchant receipt.
 - iii. Define the chargeback cycle. What percentage of chargebacks is currently handled without merchant involvement? Does the firm have a standard rule-based logic to facilitate dispute resolution processing?
 - iv. Does the Vendor have a designated contact person and department to specifically manage chargebacks?
 - v. What chargeback reporting is available?
 - vi. Are chargebacks and adjustments netted from daily proceeds, or are they debited separately?
 - vii. When will the City receive notification for chargebacks?
 - viii. Does the firm have the capability to archive and retrieve transaction information? What information is stored and for what period of time?
- I. Debit Card Processing
- i. Describe the debit card processing capabilities.
 - ii. Describe the firm's PINLESS debit card processing.
 - iii. Are debit card transactions routed automatically to the lowest cost network?
- J. Technical System Capabilities
- i. Is the firm's processing software CPS (Custom Payment Service) compliant?
 - ii. Does the firm's software provide for integration in interface alternatives (such as XML, SOAP, Java, C++, COM, Perl, etc.?)
 - iii. What is the process for handling test transactions? Are test cards provided and if so, what types? Is the testing system separate from live operations?
 - iv. Outline the security measures in place for the protection of data transmitted for processing. Are all the major verifications available (CVV for Visa, CID for AMEX, and CVC for MC)? Do you support CVV2 (Card Verification Value 2)?
 - v. Describe smart card transactions if it differs from other standard credit card transactions?
- K. Transmission Issues
- i. Describe the monitoring and notification process if a transmission fails.
 - ii. Does the processing system identify and eliminate duplicate transactions automatically?
- L. Security
- i. How are PCI compliance initiatives handled? How do you qualify merchants?
 - ii. How are clients made aware of new PCI initiatives and general information?
 - iii. What PCI training is available for IT and merchants' staff? Are there charges for these services?
- M. Disaster Recovery

- i. Is there a continuity plan for processing systems and platforms in a natural or man-made disaster situation? Describe local and system-wide back up and redundant systems.
- ii. What is the expected time frame to become operational should a catastrophic event occur at a merchant site?
- iii. What is the up-time percentage the last two years?

N. Information Reporting

Complete and timely online reporting is a critical factor. The City requires full online reporting and download capabilities including the ability to define and sort information at various levels. Reporting should be comprehensive and allow for customization. The firm should make every effort to fully describe and illustrate the reporting capabilities in their response. A link to the system is preferable for evaluation.

- i. Describe all reports available. Provide a sample of each detail and summary report available or a link to sample reports online. Are all reports available online?
- ii. Describe the daily and/or monthly reports available to the merchant and the City (for the overall relationship) for reconciliation purposes.
- iii. What is the delivery time frame for reports and statements?
- iv. Are reports archived? For how long? Can all reports be downloaded?
- v. Is historical information regarding sales, refunds, and chargebacks maintained in a database for access by the merchant? For how long?
- vi. Describe how multiple merchant numbers are reported and the flexibility afforded the merchant for customizing the reports. Can the City “roll up” multiple specific groups for reporting independent of other groups?

O. Implementation

- i. The agreement implementation target date for these services is March 20, 2023.
- ii. After initial implementation, how are new merchant accounts established?
- iii. How are updates of PCI and industry-related rules or regulatory changes distributed?
- iv. The City currently goes directly to the PCI Compliance site to get certified. What comparable PCI compliance tools are provided by the vendor? Is this part of the contract?
- v. What if any reprogramming fees will be necessary concerning equipment owned by the City?
- vi. What changes will be necessary for replacing, if applicable, gateways owned currently by the current provider?

P. Customer Service

- i. Is customer service available 24/7? How is it provided?
- ii. Describe the promotional support you provide. Are there any costs for this support?
- iii. Describe the firm’s customer service organizational structure. Will a specific customer service representative be assigned to handle this account?
- iv. Does the firm schedule periodic meetings with customers to review the service?
- v. Does your system identify and eliminate duplicate transactions automatically? Describe process.
- vi. Does the firm offer processing solutions to perform (a) deferred billing, (b) installment billing and (c) recurring billing?

Q. Pricing and Contracts

- i. Describe the firm’s overall pricing structure. Is the firm offering a fixed cost plus surcharges fee or an interchange plus fee?
- ii. List all of the firm’s possible “non-qualified surcharges” categories on the cost proposal (such as reward card fees, etc.)

- iii. When are discount fees deducted from the DDA account? Are discount fees calculated on gross or net sales?
- iv. Are order charge slips, signs and other supplies available? How are the orders handled? What is the normal shipping time?
- v. How are customers notified of association price adjustments?

9.0 ASSURANCE OF PRIMARY DESIGNATED PROJECT TEAM

Proposer shall assure that the designated primary project team, including sub-institution or sub-contractors (if any), is used for both the banking services and merchant services sections of this project. Departure or reassignment of, or substitution for, any member of the designated project team, sub-institution (s) or sub-contractor(s) shall not be made without the prior written approval of the City.

- i. Confirm that designated project teams will be, as much as practically possible, stable on both banking services and merchant services.

10.0 PROPOSAL FORMAT REQUIREMENTS

Each response to this RFP shall include the information described in this section. Provide the information in the specified order. Failure to include all of the information specified may be cause for rejection. Additional information may be provided, but should be succinct and relevant to the goals of this RFP. Any additional general information that a proposing Institution wishes to include that is not specifically requested should be included in an appendix to the proposal.

Institutions are encouraged to keep the proposals brief and to the point, but sufficiently detailed to allow evaluation of the project approach. Unauthorized conditions, omissions, limitations or provisions attached to a proposal may render the proposal non-responsive and may cause its rejection.

Proposers are warned against making erasures or alterations of any kind, without initialing each and every such change. Proposals that contain erasures or irregularities of any kind, without such initialing, or omissions, may be rejected.

Preference is for electronic submissions. If provided via regular mail, the proposal should be bound or contained in a loose leaf binder. Document pages shall be 8-1/2 inches by 11 inches in size or folded to such a size. Use section dividers, tabbed in accordance with this section as specified below.

10.1 **Cover Letter** with the following information:

- Title and number of this RFP
- Legal Name and Mailing Address of Institution (include physical location if mailing address is a PO Box)
- Contact Person, Telephone Number, Fax Number, and Email Address for all RFP questions
- A statement that the submitting Institution will perform the services and adhere to the requirements described in this RFP, including any addenda (reference the addenda by date and/or number).
- The letter should be signed by an individual legally authorized to bind the institution.

10.2 **Signature Requirements** - The attached Proposer's Certification (**Attachment C**) shall be executed by an official(s) legally authorized to bind the Institution which states that the proposal

is valid for ninety (90) days. Note: This is ninety (90) days following the closing date for the submission of proposals.

- Proposals submitted on behalf of a Partnership shall be signed in the firm name by a partner or the Attorney-in-Fact. If signed by the Attorney-in-Fact, there shall be attached to the proposal a Power-of-Attorney evidencing authority to sign proposals, dated the same date as the proposal and executed by all partners of the firm.
- Proposals which are submitted on behalf of a Corporation shall have the correct corporate name thereon and the actual signature of the authorized officer of the corporation written (not typed) below the corporate name. The title of the office held by the person signing for the corporation shall appear below the signature of the officer.

10.3 Response to Questions Sections 4.0 through 8.0

Complete responses to each question in Sections 4.0 through 8.0 should be made in the order requested and include all pertinent information to fully answer each question.

10.4 ATTACHMENT A - Completion of Proposed Banking Pricing Form

Attachment A is provided for proposed banking fees. Fees required by your institution to provide each service must be included on the Attachment (not simply on a pro forma). If additional categories are required by your institution then they should be added in the appropriate service section on the Attachment. All fees required by the bank to provide the required services should be shown on the Attachment and if additional fee categories are established by your institution these should be added into the sheet and priced accordingly.

The historical monthly usage averages for each fee category as defined by the current banking institution are provided in the hidden columns C through N. The Attachment is being provided in an Excel format to facilitate its completion.

Any Alternative or Optional Service being proposed should also be added to the Attachment with appropriate per item costs.

10.5 ATTACHMENT B – Completion of Proposed Merchant Services Pricing Form

Attachment B is provided for proposed Merchant Services fees. Monthly volume and dollar histories are shown. If additional categories are required by your institution then they should be added in the appropriate service section on the Attachment. The Attachment is being provided in an Excel format to facilitate its completion.

All fees required to provide the required services should be shown on the Attachment and all additional fee categories should be added into the sheet and priced.

10.6 Required City Statements/Documents –Provide written statements of assurance regarding the following requirements in the proposal:

- Assurance of Designated Project Team for non-substitution for the designated members of the team without approval by City staff (**Section 9.0**)
- The absence of a conflict of interest (**Section 14.9**)
- Indicate your ability and agreement to fulfill the indemnification and insurance requirements contained in the Primary Banking Services Agreement (**ATTACHMENT D**) (Please note that actual certificates of insurance are not required as part of your submittal.)

- A statement that nothing contained in the submitted proposal will be proprietary (Section 14.15 and 14.28).

Submit the following documents with proposal:

- Proof of registration with California Secretary of State
- Executed copy of Proposer's Certification (**Attachment C**)
- Executed copy of Non-collusion Declaration (**Attachment E**)

- 10.7 **Exceptions** –Provide any and all written proposed exceptions, alterations or amendments to the Scope of Services or requirements of this RFP, including the sample agreement (Attachment D). The nature and scope of the proposed exceptions may negatively affect the evaluation of your submittal and the City's determination of whether it is possible to successfully negotiate a contract with your institution.

11.0 SUBMITTAL INSTRUCTIONS

- 11.1 Your submittal package shall include the following:

- **One (1) original and four (4) printed copies** of your proposal; and
- **One (1) electronic copy** of your proposal in PDF format on flash drive.
- **OR**
If submitting your proposal via electronic mail, then send one (1) electronic copy of the proposal via email to cityclerkroseville@roseville.ca.us.

- 11.2 Proposals shall be submitted not later than the time and date indicated on the cover page of this RFP and in Section 2.0. If mailing the proposal, then it shall be submitted in a sealed envelope or container and clearly marked with the RFP title on the outside of the parcel. **Complete and attach the "Sealed Proposal" label (ATTACHMENT F) to the outside of the envelope or package containing your proposal.**

- 11.3 Proposals shall be delivered to:

City of Roseville
Attn: City Clerk Department
311 Vernon Street
Roseville, CA 95678

Or electronically mailed to: cityclerkroseville@roseville.ca.us

- 11.4 The City shall not be responsible for proposals delivered to a person or location other than that specified herein.
- 11.5 Postmarks will not be accepted and proposals received after the deadline date and time will not be accepted or considered. **No exceptions.**
- 11.6 The City reserves the right to waive minor defects and/or irregularities in proposals, and shall be the sole judge of the materiality of any such defect or irregularity.
- 11.7 All costs associated with proposal preparation shall be borne by the proposer.

12.0 EVALUATION CRITERIA

The following evaluation criteria and rating schedule will be used to determine the most highly qualified firm(s).

<u>Evaluation Criteria</u>	<u>Maximum Points Possible</u>
A. Experience and qualifications of firm and proposed staff/sub-institutions/sub-contractors (per Sections 4.0)	25
B. Understanding of the Project – Proposed Project Plan (Capability to provide services) (per Sections 5.0 through 8.0)	50
C. Proposed Cost (per Attachments A and B)	20
D. Earnings potential (Rates required in 5.0.A.ix.)	5
Total Possible Points:	100

13.0 SELECTION PROCESS

- 13.1 Award of the RFP shall be made to the responsible institution whose proposal is determined, through a formal evaluation panel process, to be the most advantageous to the City after the evaluation panel has taken into consideration the evaluation factors set forth in the RFP. A master averaged score sheet shall be created based on the selection committee's initial evaluation. Proposals shall be scored according to the criteria stated above.
- 13.2 Proposals submitted will be reviewed by a selection committee. Institutions that have submitted the best and most complete proposals may be invited to an interview. The number of Institutions invited to an interview may vary depending upon the number of proposals submitted.
- 13.3 Should the City elect to conduct interviews with any proposing institutions, the following criteria shall be considered and each proposer ranked by the evaluation panel during the interview process:
a) Quality of presentation, b) Ability to meet the City's business goals, c) Communication style.
- 13.4 The City reserves the right to make a selection after review of the proposals without oral interviews; therefore, the proposal should be submitted initially on the most favorable terms that the Institution might propose.
- 13.5 A contract will be negotiated with the Institution considered best meeting the City's need for this project. In the event a mutually satisfactory contract cannot be negotiated with the City's first choice, negotiations may be terminated and commenced with the Institution considered next best in meeting the City's needs for this particular project.

- 13.6 The selected Institution will be required to execute the City Primary Banking Services Agreement. The contract may further refine requirements and the scope of services and will provide for the terms and conditions of engagement.
- 13.7 The award of any contract is expressly contingent upon City Council approval and the availability of funds. City staff may not legally bind the City to a contract.
- 13.8 The City reserves the right to reject any or all proposals, or to waive minor irregularities in said proposals, or to negotiate minor deviations with the successful Institution(s). In the case of differences between written words and figures in a proposal, the amount stated in written words shall govern. In the case of a difference in unit price versus the extended figure, the unit price shall govern.
- 13.9 The City reserves the right to seek clarification on any or all proposal submittals to ensure the RFP specifications are met. Proposals may be rejected from any proposer who does not comply with the City's request for clarification.
- 13.10 Once a decision has been made to award the contract, then a formal notice of the intent to award to the recommended proposer(s) shall be made by the Department.
- 13.11 A City of Roseville business license as well as all applicable permits, licenses and certifications required by local, state or federal law are required before the award of contract.

14.0 GENERAL TERMS & CONDITIONS

- 14.1 **Standard Contract.** Upon completion of the evaluation and recommendation for award, the selected Institution will be required to execute the Primary Banking Services Agreement prepared by the City, **Attachment D**.
- 14.2 **Independent Contractor.** At all times the Institution shall represent itself to be an independent contractor offering such services to the general public and shall not represent itself, or its employees, to be an employee of the City. Therefore, the Institution shall assume all legal and financial responsibility for taxes, FICA, employee fringe benefits, workers' compensation, employee insurance, minimum wage requirements, overtime, etc., and agrees to indemnify, save, and hold the City, its officers, agents, and employees, harmless from and against, any and all loss, cost (including attorneys' fees), and damage of any kind related to such matters.
- 14.3 **Non-Appropriation.** The City may terminate any resulting contract at the end of any fiscal year, June 30th, without further liability other than payment of debt incurred during such fiscal year, should funds not be appropriated by its governing body to continue services for which the contract was intended.
- 14.4 **Conflict of Interest.** The Institution shall warrant that no official or employee of the City has an interest, has been employed or retained to solicit or aid in the procuring of the resulting contract, nor that any such person will be employed in the performance of such contract without immediate divulgence of such fact to the City. Institutions submitting a proposal in response to this RFP must disclose any actual, apparent, direct, indirect, or potential conflicts of interest that may exist with respect to the Institution or management or employees relative to the services to be provided to the City. Conflict of interest issues may require consultation with legal counsel.

If an Institution has no conflicts of interest, a statement to that effect must be included in the proposal (Section 10.6). Violation of this section shall be a material breach of the contract entitling the City to any and all remedies by law or in equity.

- 14.5 **Undue Influence.** The Institution shall warrant via an executed Proposer's Certification (**Attachment C**) that no undue influence or pressure is used against or in concert with any officer or employee of the City in connection with the award or terms of the contract that will be executed as a result of this RFP, including any method of coercion, confidential financial arrangement or financial inducement. No officer or employee of the City shall receive compensation, directly or indirectly, from the Institution, or from any officer, employee or agent of the Institution, in connection with the award of the contract or any work to be conducted as a result of this RFP. Violation of this section shall be a material breach of the contract entitling the City to any and all remedies by law or in equity.
- 14.6 **Non-Collusion.** Institution submitting proposals shall warrant via an executed Proposer's Certification (**Attachment C**) that their offer is made without any previous understanding, agreement or connection with any person, firm or corporation submitting a separate proposal for the same project and is in all respects fair, without outside control, collusion, fraud or otherwise illegal action. This condition shall not apply to proposals which are submitted by firms who have partnered with others to submit a cooperative proposal that clearly identifies a primary Institution and the associated sub-institutions or sub-contractors. Proposers shall also submit a properly completed and executed "Non-collusion Declaration" which is attached as **Attachment E**.
- 14.7 **Indemnification & Insurance Requirements.** The City's standard indemnification and insurance requirements are provided in the sample contract, included in **Attachment D**. All costs of complying with the insurance requirements shall be as included in your pricing. The selected Institution shall provide complete and valid insurance certificates within ten (10) days of the City's written request. Failure to provide the documents within the time stated may result in rejection of the Institution's proposal. If an institution takes exception to the indemnification and insurance requirements, then the nature and scope of the proposed exceptions may negatively affect the evaluation of that Institution's submittal and the City's determination of whether it is possible to successfully negotiate a contract with that institution. Submitting exceptions are at the institution's own risk.
- 14.8 **Cost of Preparing Proposal.** The City shall not pay any costs incurred by any Institution in preparing or submitting a proposal in response to this RFP.
- 14.9 **Proposals Property of the City.** All documents or materials submitted with or in conjunction with any proposal, including but not limited to electronic files, shall become the property of the City after the proposal submission deadline. No submission documents will be returned. During negotiations, the scope of services may be amended by the City and negotiated based upon ideas provided by other proposers or any other source.
- 14.10 **Proposals are Public Records.** All proposals submitted are subject to the public disclosure requirements under the laws of the State of California, unless the City identifies and exercises a right or obligation to exempt any record from public disclosure. However, proposals will not be disclosed until negotiations are complete and a recommendation for selection and award is made.
- 14.11 **Protests.**

(a) Protest Requirements

(1) Any proposer who is aggrieved in connection with the solicitation or award of a contract may file a protest with the City Clerk's office. The protest must be received in writing by the City Clerk's office within seven (7) calendar days after such aggrieved proposer 1) knows or should have known of the facts giving rise thereto or 2) the date of the notice of intent to award, whichever is sooner. In no event shall a protest be allowed after an award has been made by City Council. If the seventh calendar day falls on a weekend or City holiday, the protesting party may submit the protest prior to close of business on the first business day following such weekend or holiday. Failure to submit a timely protest shall bar consideration of a protest.

(b) Grounds for Protest

(1) The alleged grounds for protest shall be limited to the following: (a) computation errors, (b) violations of local, state, or federal law, or (c) the City's failure to follow the procedures specified in this Policy.

(2) The protest shall state all grounds claimed for the protest and include supporting documentation. Failure to clearly state the grounds for the protest and provide supporting documentation shall be deemed a waiver of all protest rights.

(c) Administrative Review

Upon receipt of the protest and after determining the protest was properly filed, the Department Director shall provide a copy of the protest to other proposers who might become aggrieved as a result of the protest and issue a written decision within fourteen (14) calendar days after receipt of the protest. The protest will be evaluated by the Department Director, the City Attorney's Office, and the Purchasing Manager. The protesting proposer shall promptly provide any information requested by City staff as part of such investigation. The decision shall either deny or uphold the protest and include reasons for the decision. The written decision shall be final.

(d) Stay of Action During a Protest

In the event a protest is filed under Section 14.16, the City shall not proceed further with the award of the contract until the protest is resolved, unless:

(1) The Director of Central Services makes a determination that the award of the contract without delay is necessary to protect a substantial interest of the City, or

(2) The City decides to reject all proposals and issue a new RFP.

14.12 **Rejection of RFP.** The City reserves the right to reject any or all proposals, to waive defects or irregularities in any proposal or in the RFP process, and to offer to negotiate or contract with any Institution in response to any RFP. This RFP does not constitute any form of offer to contract.

14.13 **Multiple Award.** The City reserves the right to award the contract to multiple institutions when applicable.

- 14.14 **Increasing/Decreasing Portions of RFP.** The City reserves the right to increase or decrease the amount of any portions of the work represented in the RFP and/or to omit portions of said work, as may be deemed necessary by the City.
- 14.15 **Rejection as Non-Responsive.** Proposals may be rejected as non-responsive at the City's sole discretion if there are alterations of form, the proposal is conditional or the proposal is incomplete.
- 14.16 **Modifying RFP.** The City reserves the right to modify any portion of, or to postpone or cancel this RFP at any time, and/or reject any and all submissions without indicating any reason.
- 14.17 **If no proposal is accepted,** the City may elect to have the services performed in some other manner.
- 14.18 **Rejecting Team Members, Firms or Sub-institutions.** The City reserves the right to reject individual team members, firms, sub-institutions or sub-contractors and request substitution prior to contract award.
- 14.19 **Local Business, Small Business, Minority and Women Owned Business.** Although no preferences will be given, the City highly encourages submission of proposals by local businesses, by small business owners, and by minority and women-owned businesses.
- 14.20 **Withdrawal of Proposals.** Proposals may be withdrawn prior to the date and time specified for proposal submission with a formal written notice by an authorized representative of the proposer delivered to the City Clerk's Office. Proposals submitted will become property of the City after the proposal submission deadline.
- Proposals may not be withdrawn for ninety (90) days after the due date unless the City enters into a contract with another Institution prior to the expiration of that ninety (90) day period.
- 14.21 **Prohibited Transmittals.** No telephone or facsimile proposals will be accepted. If a photocopy is submitted, the proposal must be signed in ink.
- 14.22 **Proposal Postponement and Amendment.** The City reserves the right to revise or amend the RFP or specifications up to the time set for opening of the proposals. Such revisions and amendments, if any, shall be announced by amendments to this RFP through the City's web site. Copies of such amendments shall be furnished to all prospective proposers. Prospective proposers are defined as those proposers who have registered and are on the City's RFP list for this service. If revisions and amendments require changes in quantities, prices or scope of services, the date set for opening of the proposals may be postponed by such number of days as in the opinion of the City shall enable proposers to revise their proposals. Proposals which fail to acknowledge a substantive addendum to the RFP, as determined by the City Attorney's Office, on the City supplied addendum form will be rejected as non-responsive. Any revisions or amendments to the RFP will become incorporated into any contract awarded pursuant to the RFP.
- 14.23 **Proprietary Information.** Proposers submitting a proposal in response to this RFP must provide a statement that nothing contained in the submitted proposal will be proprietary. (Section 10.6) However, if a proposer desires to claim a privilege against public disclosure for a trade secret or other proprietary information, such information must be submitted with the proposal in

a separate envelope marked “confidential.” The City Attorney’s Office will determine if the information is in fact proprietary, based on state and federal law. Note that under California law, a price proposal to a public agency is not a trade secret. The Institution shall defend, indemnify and hold harmless the City regarding any claim by any third party for the public disclosure of the “confidential” portion of the proposal.

- 14.24 **Right to Request Additional Information.** During the evaluation process, the City reserves the right, where it may serve the best interests of the City, to request additional information and clarifications from proposers. Such information will be requested in writing to the specific proposer. This information will become a part of the original proposal submitted by the specific proposer and will be used by the City in evaluating the proposal and will not be shared with other proposers during the evaluation and negotiation process.
- 14.25 **Modification of Proposals.** Modification of a proposal already received will be considered only if the modification is received prior to the deadline date for receiving proposals. All modifications shall be made in writing, executed, and submitted in the same form and manner as the original proposal.
- 14.26 **Examination of Contract Documents.** Each proposer shall thoroughly examine and be familiar with the terms of this RFP, the Primary Banking Services Agreement (**Attachment D**), legal and procedural documents, general conditions, specifications, and addenda (if any), which will constitute the contract documents. Submission of a proposal shall constitute acknowledgement, upon which the City may rely, that the proposer has thoroughly examined and is familiar with the contract documents. Failure or neglect of a proposer to receive or examine any of the contract documents shall in no way relieve the proposer of any obligation with respect to their proposal or to the contract. No claim for additional compensation will be allowed which is based upon lack of knowledge of any contract document.
- 14.27 **Non-Discrimination.** The City maintains various policies related to contractual service providers. Among these is an anti-discrimination policy, which requires that the City’s contractors not discriminate in hiring on the basis of gender, race, religion, sexual orientation, medical condition, and all other categories protected by law. Upon acceptance of a proposal, the City may request that the selected Institution sign a statement affirming its compliance with this policy.
- 14.28 **No Assignment or Modifications.** This awarded contract is to be binding on the successors and assigns of the parties hereto. The services called for herein are deemed unique and except as provided herein Institution shall not assign, transfer, subcontract, or otherwise substitute its interest in the agreement or any of its obligations herein without the written consent of the City. The Agreement may be modified only by a written amendment signed by the parties.
- 14.29 **Bankruptcy.** Upon filing for any bankruptcy or insolvency proceeding whether voluntary or involuntary, or upon the appointment of a receiver, trustee, or assignee for the benefit of creditors, the Institution must notify the City immediately. Upon learning the actions herein identified, the City reserves the right, at its sole discretion, to cancel the contract.
- 14.30 **Debarment.** Institution certifies that Institution, its employees, directors, officers, agents, subcontractors, vendors, consultants, and volunteers are not presently debarred, excluded,

suspended, declared ineligible, voluntarily excluded, or proposed for debarment, exclusion, suspension or ineligibility by any federal, state, or local department or agency.

PROPOSED MERCHANT SERVICES FEES

The ATTACHMENT B to be used for presentation of merchant services fees is attached as a separate Excel sheet to facilitate completion. All fees and categories of fees required to provide the services are to be shown on the sheet.

ATTACHMENT C

PROPOSER'S CERTIFICATION

I hereby propose to furnish the goods or services specified in the Request for Proposals ("RFP"). I agree that my proposal will remain firm for a period of up to ninety (90) days in order to allow the City of Roseville ("City") adequate time to evaluate the qualifications submitted.

I have carefully examined the Request for Proposals and any other documents accompanying or made a part of this RFP. The information contained in this proposal is true and correct to the best of my knowledge and is signed under penalty of perjury under the laws of the State of California. I further certify that I am duly authorized to submit this proposal on behalf of the firm as its authorized agent and that the firm is ready, willing and able to perform if awarded the contract.

I further certify that this proposal is made without prior understanding, agreement, connection, discussion, or conspiracy with any other person, firm or corporation submitting a proposal for the same product or service; that this proposal is fair and made without outside control, collusion, fraud or illegal action; that no officer, employee or agent of the City or any other proposer is financially interested in said proposal; that no undue influence or pressure was used against or in concert with any officer, employee or agent of the City in connection with the award or terms of the contract that will be executed as a result of this RFP; and that the undersigned executed this Proposer's Certification with full knowledge and understanding of the matters therein contained and was duly authorized to do so.

NONCOLLUSION DECLARATION TO BE EXECUTED BY PROPOSER AND SUBMITTED WITH THE PROPOSAL

The undersigned declares:

I am the _____ of _____, the party making the foregoing bid.

The bid is not made in the interest of, or on behalf of, any undisclosed person, partnership, company, association, organization, or corporation. The bid is genuine and not collusive or sham. The bidder has not directly or indirectly induced or solicited any other bidder to put in a false or sham bid. The bidder has not directly or indirectly colluded, conspired, connived, or agreed with any bidder or anyone else to put in a sham bid, or to refrain from bidding. The bidder has not in any manner, directly or indirectly, sought by agreement, communication, or conference with anyone to fix the bid price of the bidder or any other bidder, or to fix any overhead, profit, or cost element of the bid price, or of that of any other bidder. All statements contained in the bid are true. The bidder has not, directly or indirectly, submitted his or her bid price or any breakdown thereof, or the contents thereof, or divulged information or data relative thereto, to any corporation, partnership, company, association, organization, bid depository, or to any member or agent thereof, to effectuate a collusive or sham bid, and has not paid, and will not pay, any person or entity for such purpose.

Any person executing this declaration on behalf of a bidder that is a corporation, partnership, joint venture, limited liability company, limited liability partnership, or any other entity, hereby represents that he or she has full power to execute, and does execute, this declaration on behalf of the bidder.

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct and that this declaration is executed on _____ [date], at _____ [city], _____ [state].

August 25, 2022

Nick Rosas
Accounting Manager
City of Roseville
311 Vernon Street
Roseville, California 95678

Dear Nick,

Thank you for this opportunity to respond to your request for proposal for Depository, Banking and Merchant Card Services. We confirm we meet each of the mandatory requirements outlined in your request for proposals.

As you know, keeping pace with a changing financial landscape is vital in today's economy. As the City of Roseville looks to improve their operations, you can continue to rely on U.S. Bank for forward-looking, cost-conscious solutions. Our partnership began in 2012 and promises to flourish with the extension and expansion of the services discussed in this proposal. We are proposing a full array of products and services that fit your unique needs.

Advancing technology

The City will find our ability to innovate and adapt is central to our collective success as financial partners. Enlisting services from U.S. Bank means you benefit from the full force of our continued investment in technology. Ongoing expansion and the introduction of numerous electronic and technological enhancements help keep our products and services at the forefront of efficiency within the banking industry. We monitor trends, competitor activity and industry developments to remain agile in continuously upgrading our client experience. Our multi-year transformation roadmap focuses on a faster and easier banking experience for clients like the City. We have carefully considered your needs and objectives and offer a thoughtful discussion of treasury services in this proposal.

A compelling offer

We understand the City wants to minimize banking costs while achieving efficiencies. In addition to an aggressive fee schedule, we would like to offer the following incentives:

- Incentive 1: A competitive Earnings Credit Rate of 1.15%
- Incentive 2: A competitive sweep rate on Commercial Paper of 2.30%

- Incentive 3: A bonus of \$100,000 will be offered for the first year to offset any setup, new service or monthly maintenance fees. If the City decides to implement lockbox services, an additional \$50,000 will be offered (\$150,000 total) during the first year to offset any setup, new service or monthly maintenance fees.

The City will find our proposal demonstrates the value you need, the solutions you seek and competitive pricing to help meet your financial goals. As your U.S. Bank team, we ask for the privilege of not only continuing to provide these important services, but to provide additional services that best fit your needs. We are confident that our steadfast focus on your long-term success remains unmatched.

We look forward to continuing our successful partnership, as we work closely with you and your team.

Sincerely,

A handwritten signature in black ink, appearing to read "Charline Botelho".

Disclaimers

Acknowledging information provided in this response to City of Roseville RFP #10-026 is subject to the Freedom of Information Laws governing disclosure of public information, U.S. Bank requests to be contacted before information is made public in order to request redaction of designated specific "Confidential" information given this proposal may contain certain nonpublic information about U.S. Bancorp and its subsidiaries and affiliates that we deem proprietary and confidential. By accepting these materials, you agree to use this information only to evaluate the proposal and to hold such designated confidential material in confidence, sharing it only with your employees and advisors on a need-to-know for the purpose of choosing a service provider. Confidential information potentially included in our proposed response includes business contracts/agreements, proprietary information regarding product functionality, custom process flows, pricing, operational procedures, processing site locations, human resources statistical data, service quality statistics, service manuals, data security, disaster recovery details, SOC and SSAE18 reports, and implementation and disclosure documents. Publication of this information could create an unfair competitive disadvantage and/or regulatory concern. Where possible, such confidential information as outlined above will also be marked "Confidential" within our response.

The prices quoted in this proposal are firm and irrevocable for not less than 180 days until contract award and documentation. Thereafter, prices quoted will be held fixed for the four-year term of the contract. However, should volumes, quality of work provided by the City of Roseville, or regulatory requirements significantly change, this pricing agreement may be subject to mutual renegotiation for impacted items. Notwithstanding anything contained herein to the contrary, all Treasury Management Services provided to the City of Roseville are subject to U.S. Bank Treasury Management Services Terms and Conditions as provided for mutual negotiation, and as the same may be amended from time to time. Additional new services will be offered at the same agreed upon prices if bid, or at similar offered discounts if newly requested services not previously included. If City of Roseville terminates Master Service Agreement for convenience before expiration of initial term, the City of Roseville shall make U.S. Bank whole for any fees waived by U.S. Bank or other incentives provide U.S. Bank. The City of Roseville's make-whole obligation shall be prorated based on number of days remaining in initial term.

U.S. Bank does not agree to contract terms solely by delivering this response to the City of Roseville's RFP #10-026. Separate contract documentation will be mutually negotiated as provided by the City of Roseville within which the issued RFP, questions and answer responses, and this proposed response can be incorporated therein. This agreement can be terminated by either party with 30 days written notice.

By your acceptance of these materials, you also acknowledge that U.S. Bancorp and U.S. Bank are not committing to extend credit or render services to the City of Roseville or any other person or entity.

Regulatory disclaimer

Our proposal is contingent on U.S. Bank completion of required AML/KYC processes and enhanced due diligence review and approval. We look forward to working with you to obtain the appropriate information to complete that process.

Regulation W disclaimer: U.S. Bank N.A. is not responsible for the obligations of its affiliates.

This proposal includes data that shall not be disclosed outside the government and shall not be duplicated, used, or disclosed-in whole or in part for any purpose other than to evaluate this proposal. If, however, a contract is awarded to this offeror as a result of, or in connection with, the submission of this data, the government shall have the right to duplicate, use, or disclose the data to the extent provided in the resulting contract. This restriction does not limit the government's right to use information contained in this data if it is obtained from another source without restriction. The data subject to this restriction are contained on pages clearly marked as Confidential. This data is submitted with the expectation that it will be treated as confidential proprietary information.

Executive summary

The City and U.S. Bank already enjoy a successful partnership and we stand ready to deepen our long-term commitment. We can meet all of the requirements outlined in your Request for Proposal. By keeping your depository services with us, you will continue to improve your operational efficiencies, while also maintaining the services you now have in place. This means little to no disruption to the City and its employees.

Understanding your needs

The City needs a provider of comprehensive banking solutions with bench strength in both treasury services and with large municipalities and governments. The City can leverage our experience, our presence in California and our understanding of your operational complexities and challenges. For example, in a recent partnership with a new third-party vendor for the City, we were able to setup the services needed for this vendor to help the City with your deposits and online banking.

The City and U.S. Bank continue to expand our relationship with the recent mandate of Corporate Trust. The addition of this service is built upon the foundation of our longstanding partnership. The City is familiar with our ability to serve your needs with an engaged relationship team, integration resources and customer service group, each dedicated to supporting the City. Your U.S. Bank team can deliver innovation in processes, consistency in service and financial stability with continuity in performance and team.

Meeting your goals

The City wants to execute financial processes faster and better. We continue to develop a wide range of products and integrated delivery systems as our clients accept, adopt and anticipate more and more emerging technologies.

Your U.S. Bank team stands ready to examine your operations in a manner that facilitates more automation into daily processes, an important goal of the RFP process. This collaborative approach will include attainable transition steps to acclimate City employees to new functions. In addition, we are committed to examining current processes and assisting the City in identifying operational changes that can result in the biggest efficiency gains. We will work with you to prioritize tactics to achieve the greatest improvements in process in the shortest amount of time.

Superior team support with experience serving the public

Your relationship team, led by Charline Botelho, demonstrates the breadth and depth of experience that the City will encounter in daily interactions with us. Donna Chu serves as your treasury management consultant. This group exemplifies the foundation of our relationship-based service model. Those team members dedicated to serving the City include Senior Service Banker Shelby Teach whose background, perspective and understanding in government operations bring invaluable insight to meeting your needs.

The City will appreciate our expertise with government entities. Your relationship will always be served by our Government Banking division. The Government Banking division is comprised of more than 100 individuals with considerable banking knowledge with an average tenure of more than 18 years in banking, many of whom have public service experience. Extensive work in partnership with organizations of all shapes and sizes gives us a unique perspective in meeting the needs of the public sector. Not only do we specialize in banking government entities, but we also boast a team of bankers with previous experience working for and within a variety of state and municipal offices. This diverse expertise showcases our understanding of a government's detailed and specific requirements – like yours – and how much they differ from those of the private sector. Expect ongoing consultation from us as best practices emerge, regulations or statutes change, or other factors evolve that may affect your banking services.

Community commitment

As the City examines the enclosed offer in detail, consider the strength and dedication that position U.S. Bank to deliver the proposed banking services. The City benefits greatly from our ability to focus on perfecting financial functions for our clients. Our business model, operating philosophy and financial strength allow us to allocate significant resources, both in dollars and technology, toward the enhancement and development of products and services.

The City also understands our ongoing effort to be a good neighbor, an involved civic citizen and a caring public partner through financial support and employee volunteerism. With three branch offices and one mortgage office located in Roseville, we have more than 35 bankers within the City. We are both your neighbors and your citizens and remain actively engaged in developing, strengthening and energizing our communities.

Choose U.S. Bank

The City will partner with the financial institution most capable of providing the highest level of service at the lowest cost to the City. Our proposal delivers on that objective by offering minimized bank costs and a path to improved operational efficiency. We are confident you will find our continued focus on your long-term success unmatched and look forward to our continued partnership.

4.0 Required Financial Institution Information

4.1 To be qualified, the Proposer must be a federally or State of California chartered depository institution with full banking and merchant services. The Proposer must qualify as a designated California Depository.

As a national bank, U.S. Bank is exempt from any requirement to have a state registration or local business license. In accordance with 12 CFR 7.4007(a), “[a] national bank may receive deposits and engage in any activity incidental to receiving deposits[.]” Further, 12 CFR 7.4007(b) states that “[a] national bank may exercise its deposit-taking powers without regard to state law limitations concerning: . . . (6) State licensing or registration requirements (except for purposes of service of process)[.]” Upon request, U.S. Bank will provide documentation that shows the Office of the Comptroller of the Currency affirms that U.S. Bank is a validly existing national bank in Good Standing authorized to provide banking services in all states of the United States.

For the requested registration screenshots from the California Secretary of State, please review [Exhibit 01](#).

A. Creditworthiness

In order to fulfill the City’s fiduciary responsibility for public funds the proposal shall respond to and provide the following. The City wants to ensure that the successful Institution has the necessary facilities, ability, experience, and financial resources to provide the services specified herein in a satisfactory and timely manner.

- i. Provide a link to the audited annual financial statement for the most recent fiscal period. The bank will be required to submit an audited annual financial statement to the City each year of the contract period, as soon as it is publicly available. Provide the link and confirm agreement to this requirement.**

U.S. Bank acknowledges this requirement and will comply. The U.S. Bancorp Annual Report is available at [this link](#).

- ii. Provide certification of the bank’s Community Reinvestment Act (CRA) rating by its rating agency. The bank will be required to notify the City of any change in this rating during the contract period as soon as it is publicly available. Confirm agreement to this requirement.**

U.S. Bank National Association is proud to have received the highest rating, “Outstanding,” for our recent Community Reinvestment Act (CRA) examination from the Office of the Comptroller of the Currency (OCC). The examination period was January 1, 2012 through December 31, 2015. The company also received an “Outstanding” rating on each of the three individual CRA tests for Lending, Investment and Service. The most recent copy of our CRA evaluation can be found at [this link](#).

- iii. **Provide the most recent senior and subordinate debt ratings of the bank's holding company. If not rated, provide the bank's most recent four quarters rating from an independent rating agency such as Highline or Veribanc. The bank will be responsible for notifying the City within thirty (30) days of any change in any ratings during the contract period. Confirm agreement to this requirement.**

U.S. Bank acknowledges this requirement and will comply. U.S. Bancorp continues to deliver consistent, predictable, repeatable, industry-leading financial results. Our disciplined business operations at all levels give us confidence in the commitments and decisions we make, allowing us to do what's right for our shareholders, customers and communities. We have a proven track record of success, including the best debt ratings in the banking industry. We are focused on being the most trusted choice, getting better every day and unifying the customer experience in order to honor our commitment to strengthen financial futures together.

	Standard & Poor's	Moody's Investor Service
U.S. Bank National Association		
Short-term unsecured senior debt	A-1+	P-1
Long-term unsecured senior debt	AA-	A1
U.S. Bancorp (holding company)		
Short-term unsecured senior debt	A-1	N/A
Long-term unsecured senior debt	A+	A2

Last change in ratings: July 2021

- iv. **Fully detail the insurance coverage carried (or self-funded) by the Proposer for worker's compensation and liability coverage.**

U.S. Bancorp is a diversified financial service holding company and the parent company of U.S. Bank National Association. It secures a variety of insurance coverages that are consistent and reasonable for an organization of its type and size. Deductibles, self-insured retentions and risk management philosophy are reviewed by the board of directors on an annual basis.

U.S. Bancorp has insurance policies for the following categories:

- General Liability
- Automobile Liability
- Property
- Professional Liability (Errors & Omissions)
- Financial Institution Bond (Crime/Fidelity)
- Electronic Computer Crime
- Cyber Liability
- Employers Liability

- Workers' Compensation

All participating insurance carriers are required to have an A.M. Best rating of A-VII.

v. Please list and explain any pending bankruptcies, liens, stop payment notices, judgments, lawsuits, arbitrations, mediations, foreclosures, and any similar actions filed or resolved in the past three (3) years.

At any given time, including the present, U.S. Bank National Association is involved in disputes and litigation which normally occur in banking operations, and which often involve claims for money damages or injunctive relief. These pending cases are generally not considered unusual in number or amount, and based on past experiences in similar litigation, should not have a material adverse effect on the financial position of U.S. Bank nor impact the delivery of banking services to the City. As a practice, U.S. Bank does not comment on pending litigation except as set forth in the public filings of U.S. Bancorp, the parent corporation of U.S. Bank. For information about the material litigation of U.S. Bancorp and its subsidiaries, please refer to our most recent annual report.

vi. Please indicate whether a public entity has ever terminated a contract early with your institution for breach, and if so, please explain.

U.S. Bank has hundreds of contracts with government entities, and it is likely that contracts have been terminated early. Such terminations are generally not considered unusual and may occur for a variety of reasons (e.g., termination for convenience, trial periods, appropriation limitations, etc.). U.S. Bank is unable to disclose information related to early terminations as that information constitutes contractual confidential information that may not be disclosed. We do not believe any such terminations will have an adverse effect on the bank's ability to provide services to the City.

B. Customer Service and Community Service

Service is a critical element for the City and will be a primary focus of the evaluation. Describe the bank's customer service philosophy and approach to satisfying this need through the following responses.

i. Describe the bank's philosophy of customer service. What is distinctive about the bank's approach to customer service? How will the bank satisfy the City's need for timely and effective customer service?

We pride ourselves on the service we provide to our customers.

Your Relationship Manager, Charline Botelho, oversees your relationship with U.S. Bank. Charline is located in the local market and can easily meet with the City when the need arises. For example, there was an instance in the past where the City was experiencing issues scanning utility payments, Charline was able to observe the process and make recommendations to help the City reduce errors.

It is her role to make sure all divisions of the bank (i.e., Institutional Trust & Custody, Corporate Trust, Corporate Payment Systems, etc.) understand your entire banking relationship. This ensures the City receives the best relationship pricing and rate considerations. As the need arises, she can bring in the different partners from U.S. Bank to help the City with your meeting these needs and help the City achieve your financial goals.

Commercial Customer Service (CCS) is also available to assist the City by answering inquiries and provides support for depository and loan servicing, as well as the following treasury management services:

- Account reconciliation
- Collection and concentration
- Disbursement
- Information reporting
- Images

A highly skilled and extensively trained service staff responds to the City's routine and complex inquiries through online access to our internal systems and product databases. Your requests are tracked in a call-tracking database, which is available for relationship managers and others who support you. This keeps your relationship manager in the know and allows for other service bankers to easily pick up your request where a colleague left off. This saves you valuable time and allows us to identify service and quality trends and opportunities for improvement.

To ensure we provide consistency and recognition, you will keep Shelby Teach as your assigned service team member. Each CCS team has a unique phone number, fax and shared email box. We ensure every call is answered promptly by a live service banker – the phones are not fronted by an interactive voice response (IVR) menu.

CCS personnel take ownership of your inquiry, with final resolution often occurring during the initial call. More complex issues are personally managed and tracked by the service banker who initially took the call, until it is resolved. Our servicing guidelines ensure you receive a call with a complete response or a call with an estimate of additional time required to resolve a complex issue. CCS is responsible for understanding your servicing needs and ensuring your daily needs are met within our servicing time commitments. This focus is indicative of our desire to exceed client expectations.

* Normal CCS hours are from 5 a.m. to 5 p.m. PT (7 a.m. to 7 p.m. CT), Monday through Friday

** Inquiries must be received before 4 p.m. local time

*** Wire transfers must be received by 1 p.m. PT according to Federal Reserve deadlines. All other monetary transactions must be received by 4 p.m. local time

ii. What role do the professionals in the local bank play to provide the City with relationship support?

Our local branch in Roseville is ready and available to assist the City and its' employees with their daily banking needs. Should the City have a special need or require out of the ordinary assistance, your relationship manager works with the branch manager to meet those needs.

iii. What holding company support is provided (if applicable)? How are these representative support teams organized?

Not applicable.

iv. Is service and overall contract performance monitored at the holding company level?

Not applicable.

v. What is the bank's approach to service automation? How does the bank intend to support the new and ongoing automation needs of the City? How will this impact the City now and throughout the contract period?

Relationship Manager Charline Botelho will conduct frequent touch point calls and meetings with appropriate City staff to proactively listen and address your needs or concerns. Our consultative approach is ongoing and tailored to the needs of each one of our clients, which means we meet as often as needed. Services will be adjusted as necessary to ensure price, efficiency and process

improvements. We will also work with you to help manage target account balances and excess depository balances to avoid wasting unused earnings credits. This will save you time, increase interest earnings, maximize ECR utilization and allow for full use of transition incentives.

In addition to your meetings throughout the year, your relationship manager is committed to conducting comprehensive annual reviews with you. This includes a thorough review of all products and services being used, account structure and costs. This review is meant to ensure all services and processes are meeting their intended needs and providing sufficient benefit to you. We will also use this time to offer suggestions such as removal, addition or modification of services and process improvements such as automation. Various product partners often participate in these reviews, providing you with a holistic review of your relationship with U.S. Bank and with your finances in general. During your Treasury Management review meetings, your treasury management consultant will review your current processes, discuss the City's goals on operational efficiencies, automations and/or integrations with Oracle. In addition, any enhancement, automation, new services or updates will be discussed at this time.

If the City decides to add services during the contract period that is not in the original contract, the fees for these services will be negotiated separately.

vi. Are there any new services planned which may impact the City? When are these planned to be available?

We are on a multi-year transformation roadmap focused on a faster and easier banking experience for our clients. Following are some highlights we think are most important to the City at this stage in your journey.

Customer experience transformation

We're working towards creating a frictionless experience for our clients in working with us. We've improved our on-demand and online experience to:

- Assess and buy treasury products tailored to your business needs
- View and make changes in real-time to existing products
- Track integrations online
- Electronically sign product agreements

Our Innovation Experience Studios use Agile processes to find continually develop new solutions in tune with our clients' needs.

SinglePoint reimaged

U.S. Bank is embarking on a transformational upgrade to our information reporting system to deliver a streamlined user experience. Currently in pilot, the new SinglePoint Experience has been redesigned to benefit clients like the City. We have enhanced our proven and trusted solution to be even more

responsive and flexible, giving you complete visibility of your financial activity – and personalize the experience for your employees.

Complete, customizable visibility of your financial activity

- | | |
|--|---|
| <ul style="list-style-type: none">▪ Streamlined interface▪ Enhanced automation▪ ADA compliant▪ Improved insights and actionable analytics▪ Intuitive DIY integration | <ul style="list-style-type: none">▪ Dashboards tailored to your business<ul style="list-style-type: none">• Complete 75% of user activity within Dashboard• Customizable workspace▪ Consistent experience across devices▪ Communication channels |
|--|---|

Payee Choice

The City can seamlessly offer your payees a choice of payments, ranging from fast electronic payments like Disbursements via Zelle® to traditional payment types like check. You can:

- Customize a payee enrollment website with your brand and payment options
- Initiate payment notices and communications to your customers
- Manage your internal users
- Track payment status, search payment history and export reports

Payee Choice puts your payees in control of the way they get paid, without burdening the City with obtaining and storing sensitive payment data or the creation of separate payment files based on payment type.

Real-time payments

With real-time payments, the City can transfer funds directly between financial institutions to your trading partners. Unlike wire transfers and ACH payments, funds can move at any time and settle instantly. This provides significant value for organizations that can benefit from 24/7 payment processing. Within SinglePoint you can send, receive and respond to:

- Real-time payment credits
- Requests for payment (RfP)
- Requests for information (RFI)
- Request for return of funds (RfRF)

You can also view the status of payments including remittance and payment acknowledgements and access multiple activity reports.

Application program interfaces (APIs)

A simple software connection, APIs allow two or more pieces of business applications to communicate with each other. U.S. Bank APIs directly integrate your business application to U.S. Bank. Our continually expanding suite of APIs includes:

- Account Validation—Instantly validate customer account information before a credit or debit request is submitted

- ACH Originations—Securely originate domestic ACH payment (credit) or collection (debit) requests directly
- Check Payables—A fast, easy and inexpensive way to enhance accounts payable (A/P) integration
- Corporate Account Information—Automatically updates status details of company deposit account data
- Disbursements via Zelle®—Quickly send payments to your customers using the Zelle® network with just an email address or U.S. mobile number
- Real-Time Payments—Securely originate payment requests without extensive knowledge of the RTP® Network or ISO 20022 format – making integration with U.S. Bank easier and faster than ever before

Automated integration

To provide an enhanced integration experienced for our clients, we're launching a new workflow tool to automate our internal processes later this year. In addition, we offer the ISO20022 standard for wire transfers, enabling the City to use a global standard file format to send payment instructions.

Account Validation

Reduce fraud, exceptions and returns with instant access to account status and ownership information. Account Validation can help the City:

- Ensure the account information you received is accurate
- Verify the account belongs to the party who sent it
- Determine the likelihood of a returned transaction due to insufficient funds based on past transactional data

One of the most powerful tools in mitigating fraud losses and transaction exceptions (e.g., rejects, administrative ACH returns), Account Validation is a last line of defense against fraud like Business Email Compromise (BEC) and payroll diversion, ensuring compliance with the Nacha rule that requires validation for the first time use of account information prior to initiating WEB debit transactions.

Intelligent routing

We'll identify the best payment type determined by your rules and preferences based on speed, dollar amount or payee preference. Clients can utilize existing connections to U.S. Bank to take advantage of new payment networks, such as Zelle® or Real-Time Payments®.

Request for payment

Currently being developed by The Clearing House, request for payment allows a biller to request payment from their customer. Clients can deliver messages via the Real-Time Payments rail, as well as receive the payment directly associated with the request while maintaining the integrity of the transaction. Requests would flow to the City using The Clearing House's system, Real-Time Payments.

- The pilot will allow billers to initiate requests for payment via their banks to their customers' banks
- Future enhancements will incorporate using the Zelle® Directory to identify customers or a biller directory

vii. Is the bank offering any transition or retention incentives? Describe fully and quantify completely.

To demonstrate our commitment to meet and exceed your expectations, we present the following incentives. In addition to our aggressive fee schedule, we are offering:

- 12 months treasury management services without charge on any new business awarded in this proposal, valued up to \$100,000
- 12 months treasury management services without charge on the existing business awarded in this proposal, valued up to \$100,000.
- This has the potential to reduce fees by \$150,000 in total (excluding pass-through fees such as Deposit Coverage and Postage) during the first year if the City decides to add on lockbox services
- An Earnings Credit Rate (ECR) of 115 basis points, which will be managed by U.S. Bank and will be subject to change as economic conditions may warrant

This offer is based on the entire scope of services and volumes indicated within this proposal and:

- This incentive is in exchange for a three-year service agreement with two one-year options to renew for a total of five years
- This includes the award of the totality of the new business in this proposal and continuing the existing business at U.S. Bank

viii. How has the bank prepared for natural or man-made disasters? What support will the bank be able to offer the City in a disaster situation to maintain stable banking functions?

The U.S. Bank Enterprise Resiliency Program is ISO 22301 certified, meeting or exceeding all relevant regulatory requirements.

To ensure high resiliency, availability and recoverability of data, software and services, U.S. Bank utilizes multiple geographically disperse (Kansas and Minnesota), production Tier-4 data centers. Additionally, U.S. Bank leverages a geo-graphically diverse model of operational sites to ensure resiliency against natural and man-made disasters and other disruptions.

General release statement

The Enterprise Resiliency program (Program) establishes and supports the U.S. Bancorp Business Continuity and Contingency Planning and Response program. The Program is designed to protect customers, assets and employees by evaluating the risks of significant adverse events; planning and

validating response strategies; actively monitoring of and reporting on the threat landscape and effectiveness of the control environment; and leading emergency response teams.

This Program ensures U.S. Bancorp and its affiliates meet the fiduciary responsibility to stakeholders and comply with regulatory requirements of the Federal Financial Institutions Examination Council (FFIEC), the Securities and Exchange Commission (SEC), the Office of the Comptroller of the Currency (OCC), the Federal Reserve Bank (FRB), the Financial Industry Regulatory Authority (FINRA), the Office of the Superintendent of Financial Institutions (OSFI), the Central Bank of Ireland (CBI) and the European Banking Authority (EBA). Additionally, U.S. Bancorp has met all recovery criteria as prescribed by the Interagency White Paper on Sound Practices to Strengthen the Resilience of the U.S. Financial System.

The U.S. Bancorp Board of Directors annually approves the U.S. Bancorp Enterprise Resiliency policy. Program status and any significant issues are reported annually to the U.S. Bancorp Board of Directors and quarterly to the Management Committee and senior executives.

Foundation of risk management

The enterprise resiliency program is supported by the Enterprise Resiliency group, a department of the U.S. Bancorp Risk Management and Compliance division. The group consists of over 40 risk management and business continuity professionals.

Risk assessments

Risk assessments are foundational to the enterprise resiliency program. The results of risk assessments drive the planning, exercising and emergency response components of the program. The following risk assessments are performed:

- Business impact analysis (BIA)—Measures the effects of resource loss and escalating losses over time to provide the basis for risk mitigation and business continuity planning
- Third-party resiliency assessment (TPA)—Evaluates the risks associated with processes performed by and/or technology provided by mission critical third parties to drive appropriate third-party outage mitigation and recovery planning
- Threat vulnerability assessment (TVA)—Assess the risk of major natural hazard events along with the impacts of those events on U.S. Bank corporate locations and the mission critical processes/technologies executed at those locations

Results of these risk analysis activities drive strategic recovery planning for continuity of operations for these processes. TPA occurs annually on the anniversary of the previous assessment or upon a significant change in the relationship. The BIA is completed annually, or upon significant change, for all critical business processes. TVA Assessments are completed biannually or upon significant change.

Risk mitigation planning

The Enterprise Resiliency group has established and maintains guidelines which incorporate industry best practices for the operational resiliency of critical business processes and technology. To achieve operational resiliency, business process and technology owners, in partnership with and under the guidance of the Enterprise Resiliency group, build and maintain response plans to address threats and risks identified by the assessment activities described above. The response plans are integrated into the overall U.S. Bancorp Risk Management framework.

Business continuity response plans

Our Business Continuity plans are developed and maintained to address operational resiliency and recovery strategies for such events as: pandemic/high employee absenteeism, natural and man-made hazard impacts, technology outages and other business disruptions.

In the event a business office or operational facility becomes or is likely to become non- operational an appropriate business continuity plan will be activated. The response strategy will vary based upon the nature of the disruption and work impacted.

Response strategies include:

- Transfer work—Work is transferred to another location out of the impacted area that does the same business function or has been cross trained
- Relocate people within business—Team members from the impacted location are relocated to another site
- Relocate to regional recovery center—A location, other than the normal facility, will be used to process data and/or conduct critical or necessary business functions
- Work from home—Team members will work from home on a bank-owned device

Business continuity response plans are reviewed and approved annually.

Disaster recovery response plans

Our technology infrastructure is designed and implemented to ensure high- availability and high-recoverability. Industry leading best practices and best-in-class technology components are utilized to operate a highly redundant, geographically dispersed network of data centers. All data is backed up to an out of region data center and all critical data is securely mirrored to an out of region data center.

Our Disaster Recovery plans are developed and maintained to address technology, infrastructure, application and data recovery and validation strategies in response to unplanned technology interruptions up to and including the loss of a data center.

Disaster recovery response plans are reviewed and approved annually.

Third-party provider outage response plans

Our vendor service plans are developed and maintained to address the risks from the loss of service from a critical third-party provider. Vendor service plans include pre-planned response activities including but not limited to communication strategies, alternative work plans and service resumption validation processes.

Vendor service plans are required to be reviewed and updated annually.

High absenteeism/pandemic response plans

The U.S. Bancorp Pandemic Preparation and Response plan is developed and maintained in partnership with senior leaders and other critical support departments to prepare for the possibility of pandemic flu in the same way that we prepare for other events that could affect our employees, customers and our communities. The plan was prepared in communication with public officials, pandemic planning experts, various state and local organizations, plus other financial institutions and businesses. The plan augments procedures already in place as part of the existing Enterprise Resiliency program and outlines strategies to mitigate the impact of a pandemic upon the company, its employees and customers.

Plan validation

In alignment with regulatory requirements, bank policy and industry best practices, resiliency plans are regularly exercised to demonstrate plan effectiveness and process/technology recoverability. Exercise scenarios include business continuity plan activation or activation simulation; local, regional, national and international crisis management and response team simulations; U.S. Bancorp and third-party joint exercises; and key/critical infrastructure/application disaster recovery.

Enterprise resiliency policy requires business continuity and vendor service plans to be exercised on an annual basis. Disaster recovery plans for mission critical and key applications are exercised on a quarterly basis. Results from each exercise are documented and reviewed by the Enterprise Resiliency group. Any issues or plan discrepancies are documented along with remediation plans.

Crisis management and adverse event response

The Enterprise Resiliency group's Crisis Management department manages and coordinates the enterprise response to adverse events that threaten to harm the organization, its stakeholders, employees, assets or reputation. The enterprise response focuses on the safety of all employees, customers and assets of U.S. Bancorp; minimizing disruption of service and/or inconvenience to customers; returning to a business-as-usual state as quickly as possible; and limiting any potential liability of our organization.

Employee training and awareness

Employee training and awareness is a critical component of the success of our Enterprise Resiliency program. The training and awareness program consists of both formal and informal activities, including but not limited to required biennial training courses; response team planning; participation in functional exercises of recovery plans; and localized evacuation procedure drills.

Audits/exams/ISO certification

Annual internal audits and periodic OCC/Federal Reserve exams are conducted on the U.S. Bancorp Enterprise Resiliency program. The enterprise resiliency program maintains an ISO 22301-Business Continuity Management certification.

Notifications

In the event of a major disaster at U.S. Bancorp that impacts your product or service, CCS will communicate with each client in a timely manner. Since it is impossible to anticipate every type of potential disaster, there can be no assurance that there will be no interruption of our business functions in all circumstances. The mission of the U.S. Bancorp Enterprise Resiliency program is to minimize the impact of any disruption.

SinglePoint – backup

The SinglePoint services may be accessible through an authorized user's smart phone, tablet, laptop or computer as long as there is an internet connection. If a SinglePoint server site goes down for a particular area, the application would automatically switch to a backup site.

Payroll – backup

If a situation occurs where the City cannot generate a payroll file for direct deposit, U.S. Bank has the capability to generate a backup plan to duplicate the last file sent.

Disclaimer

This document is subject to modification by U.S. Bancorp at any time.

- ix. The City requires the right to use a third-party auditor to review the City's accounts, collateral, transactions, and bank records at any reasonable time acceptable to the bank. Confirm agreement with this condition.**

U.S. Bank acknowledges this requirement and will comply.

- x. What level of community service does the bank and its employees contribute to Roseville and its residents?**

U.S. Bank has a rich history of community development within the cities we serve. Activities include California Capital Financial Development Corporation, Rural Community Assistance Corporation, Sacramento Asian Pacific Chamber of Commerce, Placer Community Foundation, Sacramento Metro Chamber of Commerce, Greater Sacramento Economic Council, Impact Foundry, Social Venture Partners and Economic Development of El Dorado County in Sacramento-Roseville-Folsom MSA. We also provide financial education in the Sacramento-Roseville-Folsom MSA.

- xi. **The bank will not be required to review or certify to a review of the City's Investment Policy, but a review of the policy is recommended. The investment policy can be found in the City's Financial Policies at the bottom of its Financial Transparency web site at:**
<https://www.roseville.ca.us/cms/One.aspx?portalId=7964922&pageId=8916788>

U.S. Bank acknowledges the City's Investment Policy.

C. References.

List references from three comparable California public entity banking clients and three merchant services clients (if not a client of both services). For each reference, include the length of time under contract, a client contact, title, and email address.

U.S. Bank is pleased to provide the following references:

Reference	Contact information
City of Lincoln Banking services and merchant card client since 2010	Sandra Cooke, Finance Manager ▪ sandra.cooke@lincolnca.gov ▪ 916-434-2427
City of Elk Grove Banking services and merchant card client since 2012	Matthew Paulin, Finance Director ▪ mpaulin@elkgrovecity.org ▪ 916-627-3221
County of Yolo Banking services and merchant card client since 2018	Sou Xiong, Treasury and Revenues Manager ▪ sou.xiong@yolocounty.org ▪ 530-666-8212 Tom Haynes, CFO ▪ tom.haynes@yolocounty.org ▪ 530.666.8190

D. Depository and Service Agreements, Merchant Service Agreements

Provide a copy of all bank service agreements, including those for the Optional Services Section, which will be required to provide the services under the contract for services rendered.

Please refer to the Exhibits section for the following agreements. As an existing client we will not require the City to execute new documents:

- [Exhibit 02, U.S. Bank Terms and Conditions](#)
- [Exhibit 03, U.S. Bank Master Services Agreement with Appendix A](#)
- [Exhibit 04, Your Deposit Account Agreement](#)

- [Exhibit 05, U.S. Bank Wire Transfer Authorization Form](#)
- [Exhibit 06, U.S. Bank ACH Payment Authorization Form](#)
- [Exhibit 07, U.S. Bank Customer Agreement for Account Validation](#)

For merchant services, we propose the use of our existing contract with the State of California that was executed in June of 2022. This Joinder to the State's agreement allows the City of Roseville to use previously negotiated terms and completed forms, saving the City time and expense that would otherwise be required when negotiating a new agreement. The Joinder also offers lower pricing on acquiring services by allowing the City to leverage transaction counts and volumes of the State. Please [click here](#) to review our agreement.

Provide a copy of the Firm's standard merchant services agreement. A separate contract will be appropriate for merchant services, as part of the overall award, and will also be reviewed before award of contract.

Elavon is responding to this RFP using the existing State contract terms and conditions signed in June of 2022. This Joinder to that agreement will save the City of Roseville time and money since contractual terms and forms are already completed. The Joinder also has lower pricing on acquiring services because of transactions and volumes of the State. For additional information, please [click here](#).

The City anticipates that any City changes required on the Bank agreements will be made and agreed to before award of the contract. The Depository Agreement must be agreed to in totality before award of the contract.

U.S. Bank acknowledges this requirement and will comply.

i. Provide all service agreements required for provision of the banking services (including all Required and Optional Services) proposed.

Please refer to the **Exhibits** section for the following agreements:

- [Exhibit 02, U.S. Bank Services Terms and Conditions](#)
- [Exhibit 03, U.S. Bank Master Services Agreement with Appendix A](#)
- [Exhibit 04, Your Deposit Account Agreement](#)
- [Exhibit 05, U.S. Bank Wire Transfer Authorization Form](#)
- [Exhibit 06, U.S. Bank ACH Payment Authorization Form](#)
- [Exhibit 07, U.S. Bank Customer Agreement for Account Validation](#)

ii. Provide the agreement for merchant services.

For merchant services, we propose the use of our existing contract with the State of California that was executed in June of 2022. Please [click here](#) to view the details of this Joinder to the State's agreement.

E. Banking Implementation timeline.

The contract period will commence approximately March 1, 2023. The City recognizes that not all services and funds will be transferred on or by this date but requires that all services be available for use by that date. The City will attempt to move the majority of funds into the bank within 60 days of the start date of the contract, if feasible. All funds and services are planned to be transferred by May 1, 2023.

Defaults in promised delivery of services, without reasons acceptable to the City, or failure to meet the terms or conditions of the depository contract without remedy, shall result in an event of default or the City having the option to terminate the contract, but the exercising of such option to terminate the contract does not limit any other remedies the City may have for damages or other relief under law.

i. Provide a proposed, detailed timeline for implementation of the contract and transition activities. Include each activity required defined by its responsible party and any assigned responsibilities. Denote any limitations or potential delay points. The timeline must reflect the number of business days required to put the services in place or the end date of when such services will be in place and available to the City.

As an existing client of U.S. Bank, we will work with the City on providing additional services that may help the City with your automation efforts and servicing needs.

For the new services, depending on the complexity, the City will be assigned an implementation coordinator or a project manager. During the implementation process for our complex services, we will following model will be used:

A collaborative partnership to customize your implementation	
Discovery meeting	We ensure we have an in-depth understanding of your workflows and related cash flows to appropriately finalize the solution set
Meeting your implementation team	Your dedicated team works with your employees throughout the process
Implementation strategy	A comprehensive plan designed to achieve your specified production date

A collaborative partnership to customize your implementation

Kick-off meeting	▪ Key stakeholders from U.S. Bank and the City are introduced ▪ Documentation can be presented for execution ▪ Preliminary timeline is discussed and agreed upon
Weekly touch point meetings	We meet with your key stakeholders throughout the process to ensure benchmarks are on track and any issues are quickly resolved
Completing documentation via SinglePoint	▪ Onboarding Tracker facilitates file exchange as we establish accounts and integrate services. Prepopulated forms streamline the process ▪ SinglePoint notifies you when documents are ready or require attention ▪ Agreements and/or questionnaires are completed and received by your implementation resource, which marks the start of the service set up
Test data transmissions	▪ We test for connectivity through a telecommunications handshake ▪ You transmit test files for each applicable service to ensure data is properly received ▪ Upon successful testing, we select a production date

Based on the proposal and new services suggested, we have provided a sample timeline below:

Solution	Business days
Account Validation	15-20
Check Payables	56-98
Scannable Wholesale Lockbox	42-84

For additional information, please review [Exhibit 08, Sample Implementation Schedule](#).

5.0 Required Banking Services

Required Banking Services - It is the City's intent that the contract negotiated between the City and the Depository selected through this process will encompass all the services and conditions required here. Additional or Alternative Services offered by the Proposer may be included in the Section 6.0. Alternative Services is provided for the Proposer to offer new or alternative services available but not currently contemplated by the City. Optional services for the City's review are presented for response in Section 7.0.

The Required Services are minimum requirements and any Proposer refusing or failing to provide such minimal services will not be considered for selection as the Depository.

A. Account Structure

A listing of the nine current accounts and services currently in use is found on ATTACHMENT A - Proposed Banking Fees (One by account Group and one for the total relationship). The City may be required or may desire to open additional accounts or close/change accounts during the contract period. Any new accounts shall be charged at the same contracted amount.

Under this contract, the City will require the option to determine to pay for services on a fee or compensating balance basis. It is anticipated that the City will initiate the contract on a fee basis with rates rising. The City wants all its funds to be continuously earning at the best, then-current market rates and is therefore using a sweep mechanism. The sweep is currently to commercial paper but a money market mutual fund striving to maintain a \$1 NAV will be considered.

Changes in interest rates will dictate the City's choice of payment methodologies on an ongoing basis. An automated, daily sweep to a AAA-rated money market mutual fund or commercial paper, if applicable and competitive, should be proposed in order to reach full investment goals and to minimize collateral requirements and balance-based fees.

If a money market fund is being proposed, the fund must be rated AAA by at least one nationally recognized rating service and must strive to maintain a \$1 NAV. If commercial paper is to be used for the sweep the paper must be rated A1/P1 or better. Neither a repurchase agreement nor an off-shore account of any type is acceptable as a sweep investment vehicle.

- i. **Describe the bank's ability to provide a ZBA-Master sweep structure. Can the bank sweep from individual accounts or must the sweep go through a master account? How is interest applied in each structure? Indicate your recommended structure.**

Zero Balance Accounts

U.S. Bank Zero Balance Accounts (ZBAs) allow the City to maximize the use of cash by intentionally maintaining a zero balance in all accounts and automatically controlling all cash from a single master account. Centrally managing liquidity in this way ensures maximum funds are available for you to make investments, pay down loans, protect from overdrafts and offset service fees. At the same time,

each business night, zero balance subsidiary accounts are automatically funded to cover the day's disbursements or swept to capture the day's deposits. An effective way to centrally control your cash so you can increase the productivity of your funds, ZBAs enable you to:

Save time and money

Eliminate the guesswork of predicting your funding needs. Funds are automatically transferred each business night, which eliminates manual transfers and overdrafts costs and leaves no idle balances.

Leverage up-to-date information for better business decisions

We give you an accurate position on your funds availability by rolling up the float from your sub-accounts daily.

Combine local capabilities with central control

You can consolidate your cash, while each of your entities maintains their own books and accounts. Disbursements are covered as needed. Collections are automatically rolled up to the master account.

Streamline reconciliation

The master account statement contains transfer transaction details, including the sub-account number for easy reconciliation. Monthly statements for each sub-account itemize transactions.

Centrally manage multiple accounts

Multi-tiered ZBAs let you separate cash between divisions, collections and disbursements, or any structure you choose. Up to nine tiers and unlimited accounts can be established in a single ZBA structure.

Meet your accounting needs

You can transfer balances on either a ledger or collected balance basis. A target balance other than zero may be maintained in the sub-account. Monitor the contribution of each entity for Sarbanes-Oxley (SOX) reporting or for allocating interest income or loan expense.

Increase security

With your funds concentrated in a single account, you have better security and control. One-way and two-way ZBA transfers easily support account segregation for collections or disbursements. You can better control your funding activity and help prevent fraud by blocking unallowed transactions.

Access daily information

You can monitor your ZBA transactions using information reporting options available through SinglePoint. Real-time and previous day reporting – as well as robust daily cash reporting – is available.

U.S. Bank provides sweep services to automatically move excess balances between deposit and investment or savings accounts and transfer funds between deposit account and loan. Transfers occur after all transactions have posted to the deposit account.

Sweep Services

Commercial Paper

The City currently has a commercial paper sweep, which automatically moves excess balances between a U.S. Bank checking account and a sweep account that invests in U.S. Bank National Association commercial paper. At the end of each business day, excess funds are transferred automatically from your U.S. Bank checking account to the sweep account.

- Establish your target balance—You choose the balance to maintain in your checking account and we invest any excess balances
- Meet a reasonable minimum investment requirement (Minimum investment of \$1,000 required)—Any balance above the target balance is automatically transferred
- Previous day cash position and transaction reporting—Previous day reporting on the sweep account reflects end-of-day balance in the sweep account (checking account typically reflects target balance amount)

The commercial paper investment made by the Commercial Paper Sweep Service is an unsecured, short-term promissory note issued by U.S. Bank National Association. Commercial paper is not FDIC insured.

ii. What is proposed as the sweep vehicle? (IntraFi will not be considered as a sweep vehicle.)

We recommend retaining your existing account structure, with an auto-sweep to our Commercial Paper with a rate of 2.30%. Should you decide to change investments, we can easily make the change to a First American Fund.

Money Fund

Automatically move excess balances between a U.S. Bank checking account and a sweep account that invests in a First American Funds money market mutual fund. At the end of each business day, after all transactions have posted to the checking account, excess funds are transferred automatically from your U.S. Bank checking account and invested the next business day. Checking accounts are funded to cover deficit balances on a same-day basis up to the amount of available money fund shares.

- Establish your target balance—You choose the balance to maintain in your checking account and we invest excess balances
- Invest in professionally managed mutual funds—Money mutual funds from First American Funds are highly rated and offer a relatively conservative and stable way to diversify excess cash.
- Current day cash position reporting—Monitor your sweep balance and sweep transfers via SinglePoint in real-time

We currently offer the City of Roseville the following Money Market Fund sweeps:

- First American US Government Obligations Money Market (Z) with a current rate of 1.90%

- First American US Treasury Obligations money market fund (Z) with a current rate of 2.00%

iii. How will sweep activity be reported? On a detailed, daily basis or summarized on a monthly basis and how are these reported on the statement? Is a separate sweep account report available for the transactions? Define and provide a sample of the reporting for the sweep.

SinglePoint's investments service provides the ability to view and manage Money Center account activity. It includes reporting and trading functionality as well as trade confirmations and Money Center investment statement delivery.

Investments in SinglePoint provides daily account position and investment activity detail reporting on Money Center accounts that reside on the InTrader system as well as full-function trading capability. The City can access all your investment information including the following:

- Online trading and reporting
- Hourly position summary and details for each account by currency
- Activity is retained for 45 calendar days
- All investment-related documents including statements, confirmations, interest/maturity notices, credit advices, money fund prospectuses, etc.

The City currently uses a Commercial Paper sweep, and this statement is provided to the on a monthly basis. For additional information, please refer to the following exhibits:

- [Exhibit 09, Money Center Sample Monthly Statement](#)
- [Exhibit 10, Commercial Paper Sweep Service](#)

iv. Will interest from the sweeps be applied at the account level if the sweep is from the individual accounts?

The current Commercial Paper sweep applies interest to post daily to the Concentration account. If the City decides to switch this to a First American Funds investment, the interest will post monthly to the Concentration account.

v. If it is proposed, provide the prospectus for the money market sweep fund. A AAA-rated, SEC registered fund striving to maintain a \$1 NAV must be utilized for the sweep.

Please refer to the following exhibits:

- [Exhibit 11, FGZXX-MC Prospectus](#)
- [Exhibit 12, FUZXX-MC Prospectus](#)

vi. If the Bank cannot provide a sweep mechanism, or if alternative account types are proposed for the accounts, describe the account structure proposed including the type of accounts (interest bearing, money market, ZBA, etc.) along with the overall account structure.

We can provide a sweep mechanism.

vii. The City expects highly competitive rates on all demand accounts and the ECR. If not a managed rate, for interest bearing accounts based on an index, provide the index.

We are offering the City an ECR floor rate of 1.15% that is based on the City's overall relationship with U.S. Bank. During your annual account reviews, your relationship manager will review your rate to ensure it continues to remain competitive.

For the interest on your sweep account, we offer the following rates:

- Commercial Paper: 2.30%
- First American Funds (US Government Obligations money market fund (Z): 1.90%
- First American US Treasury Obligations money market fund (Z): 2.00%

viii. Is the sweep processed as the last transaction of the day? If not, please describe.

Yes, all items are paid prior to excess funds sweeping to your investment account.

viii. Complete the following table with the rates for each category for the last twelve months and the current rate.

The City has had the following rates for the past 12 months:

ECR rate has ranged from a low of 0.65% to 0.75%. Because of the current rate environment, we have been able to adjust rates accordingly.

Interest rate on Commercial Paper has ranged from a low of 0.001% to 1.20%. Because of the current rate environment, we have been able to adjust rates accordingly.

Type	Past 12 months	Current rate
ECR	.65%	.75%
Interest Bearing Accounts	.001%	.005%
Money Market Accounts	.001%	2.00%
Sweep	.001%	1.40%

B. Automated Cash Management Information Access

The City requires a single portal, web-based cash (treasury) information management service with prior and intra-day reporting. The City requires a high degree of automation within all service areas. Imaging of all checks, access and image retention is required. Imaging of paid items, deposit

slips and deposit items also is required. Statements and account analyses should be available in electronic form along with access to archived information.

The City requires timely access to downloadable information for the City's accounting software (Oracle Fusion Cloud) for reconciliation and posting purposes.

Minimum on-line services must include balance reporting, lockbox, stop pays, ACH, positive pay, account transfers, and wire transfers. Daily balance reporting should include detail on all transactions with summary reporting on closing ledger and collected balances along with one-day float, at a minimum.

i. Provide a link to the bank's online service portal and a demo sign-on.

The City may view our online demo through the following website: www.usbank.com/sptdemo.

Note: If you have any trouble viewing the latest version of the online demo, try refreshing your browser.

ii. Fully describe the bank's on-line service capabilities and systems, with examples.

The City has been utilizing SinglePoint since establishing their accounts with U.S. Bank.

SinglePoint enables the City to achieve new levels of efficiency by bringing our powerful banking services together into one easy-to-use website with a single point of access for all your global treasury management service needs. A fully integrated, wholly owned online suite of treasury management services, SinglePoint does not require dedicated PCs or software installation.

In one location, you can:

- View, manipulate and download images
- Transfer and manage payments
- Process and deposit collections
- Prevent fraud
- Manage employees' system use

**Access all your
treasury needs
with one user ID
and password**

- Monitor account activity
- Transfer and manage money
- Act globally
- Prevent fraud
- Control access and stay informed

Monitor account activity - Account reconciliation - Adjustments - Image access - Image file delivery - Information reporting - Lockbox wholesale - Lockbox image look - VantagePoint® - Account services - Asset-based loan information - Returned item decisioning - General ledger reconciliation - Cash forecasting - Mobile SinglePoint - Reports file delivery	Act globally - International ACH and wire transfer - International remittance calculator - Foreign Exchange Web (FX Web) Global trade - International information reporting
Transfer and manage money - ACH services - Cash vault - Electronic cash letter deposit - On-Site Electronic Deposit - Wire and book transfers - Real-time payments - Check payables - Investments and trusts - Disbursements via Zelle®	Prevent fraud - Positive pay services - Issue maintenance - Stop payments - IP whitelist service - IBM® Security Trusteer Rapport™
	Control access and stay informed - Customer service - External messaging - System administration - Dashboard and personal settings - LaunchPoint - Service guide

The City may initiate ACH, account transfer and wire transfer services from separate pages within SinglePoint. However, our systems are integrated, so each transaction type requires only the information unique to that type of transaction. The remaining fields are checked and populated from a common data source.

Reports and transmissions may be scheduled through SinglePoint at any time throughout the day. Reports are delivered via transmission or secure email at the specified time. Fax and email reporting options allow users to receive current and/or prior day reporting at a preset time without logging in. Certain time-critical functions, such as positive pay approvals and positive pay decisions, can also be accessed via a web-enabled mobile device through Mobile SinglePoint.

All the tools you need to manage your program in one place		
Mobile SinglePoint	Designed specifically for users who need access to cash management tools when they're away from a computer. View: - Key balance information on domestic and international accounts - Current day reports (e.g., ACH Summary and Detail, Wire Detail and Lockbox Summary)	
SinglePoint External Messaging	Enhance process efficiencies by utilizing over 200 unique messages, configured and routed to various destinations, including email addresses and SMS messages to mobile devices, ensuring key items receive attention.	
SinglePoint Information Reporting	Manage your financial position with superior reporting tools. SinglePoint provides account summary, detail and transaction information. The City will benefit from:	
	- Simplified daily account reconciliation - Easy funds transfers - Customizable searching - Flexible standard and special reporting	- Customize reports with robust filtering - Manage delivery of reports via email or transmission - Current-day returned item decisioning

All the tools you need to manage your program in one place

Data retention	▪ Previous day data—60 calendar days ▪ Current day data—10 calendar days ▪ Additional retention periods available
System administration	Administrators can add, copy and reuse user profiles to set up new users. They can also modify user entitlements, account access and transaction limits at any time with immediate updates. Dual system administration offers added control – all changes to user access or limits require a second system administrator approval to process.
Security	SinglePoint protects account information with the most current and proven technology available, including: ▪ 256-bit AES encryption ▪ TLS 1.2 ▪ Individual client IDs, passwords and digital signatures ▪ Time-based tokens required to access payment services (ACH and wire transfer)

iii. Describe your search capabilities for historical transactions and reports as well as the ability to retrieve and download historical images.

SinglePoint retains previous day data for 60 days and current day data for 10 days. It allows inquiry by date range for the previous 60 days with standard retention. Additional retention periods for previous day information are available for an account-level charge for either 12 or 24 months.

The City may download data directly from SinglePoint. Data can be exported in:

- BAI2
- Comma separated value (CSV) format
- Human readable formats like PDF or text

SinglePoint Image Access

The City can retrieve and review sharp, detailed images of all paid checks, deposit tickets, deposited checks, paper debit and credit memos online. Images of returned deposited items, advices, image cash letter (ICL) deposited items and ICL administrative returns are also available. Ease of use is built into each component.

The flexible search tool lets you search by transaction type, account number (or all accounts), check number, amount or date. Prefilled dropdown selections make criteria selection fast. Sort search results by any column with one click. Search results can also be downloaded for further research.

- Images are retrieved in seconds and can be viewed immediately if they are less than 90 days old

- Paid check images can be viewed by 7 a.m. the day after they are paid
- Images older than 90 days and photocopies can be requested online from our archive, where we store seven years of images
- Requests for digital archived images appear in an image inbox and can be shared with others

The image viewer offers front and back, zoomed in and out, rotate and inverted views. You can zoom directly to the endorsement, signature line, routing number or bank-of-first deposit. You can save images for historical reference and paid check confirmation. Front and back images can be saved as standard PNG or ZIP files. You can print multiple images at a time.

SinglePoint Image File Delivery

Another option for the City would be to receive a transmission of images and associated index information on a daily, weekly or monthly basis using standard internet-based File Transfer Protocol (FTP) methods. Images can be imported into your own image archive – allowing you to quickly and easily research and respond to customer inquiries.

- Daily transmissions available by 10 a.m. PT the day after images are captured
- Weekly, monthly and custom transmissions available by 6 a.m. PT the third day after capture cycle ends
- Single-use transmissions of historical images available within 48 hours from 4 p.m. PT of submission date

SinglePoint Information Reporting

SinglePoint provides on demand online image enhanced reporting for 60 days, with optional retention for 90 days, including:

- Detailed report and transaction search results
- Positive pay services
- Stop payments (cleared checks only)

iv. Are all reporting processes and services web-based? Is paper back-up from the City needed on any type transactions?

Depending on the report, the report may be provided through SinglePoint for the City to view, save or printed. Some reports are available may be transmitted directly to the City to download. Paper reports are also available for the account analysis, paper statements or account reconciliation services.

v. Does the bank currently provide banking services to other entities using the Oracle Fusion Cloud ERP system? Provide two public references using the Oracle Fusion Cloud including contact information.

U.S. Bank is pleased to provide the following references:

Reference	Contact information
King County, Washington	Nora Bennett, Finance Manager ▪ nora.bennett@kingcounty.gov ▪ 206-477-0081
Oregon Health Science University	Bryce Stadick, Director, Treasury ▪ stadickb@ohsu.edu ▪ 503-494-2234

vi. Do the bank's systems include a cash forecasting module or capability?

Yes. SinglePoint Cash Forecasting provides the ability to create and view a cash forecast and compare it to the bank actuals on SinglePoint. This module will allow the City to forecast their future cash position by:

- Manually entering future transactions
- Importing future transactions
- Having SinglePoint forecast future transactions based on historical transactions

SinglePoint can also place scheduled payment transactions (ACH batches, book transfers and wire transfers) into the forecast. Additionally, by creating a forecast, SinglePoint will calculate a forecast variance each day. SinglePoint can also help identify historical trends that may help determine future forecast data. In addition, the City can view the following information:

- Manage a cash forecast up to 18 months into the future
- View the daily variance of your cash forecast vs. actuals
- View historical trends in a graphical format
- Create Account Groups to view accounts in different ways
- Create Categories to group and view transactions in different ways

vii. Detail the availability and level of prior day and intra-day detail and summary reporting. When is prior day information available? Is intra-day information real-time or scheduled throughout the day for certain data?

Previous day reporting

SinglePoint

Previous day information is available by 6 a.m. PT; however, the data is often available sooner.

BAI information reporting transmission

Previous day BAI Transmission information is available by 6 a.m. PT.

SinglePoint Previous Day Information Reporting

Available by 4 a.m. PT

BAI Transmission information available by 5 a.m. PT

Transaction types	▪ Ledger Balance ▪ Opening Collected Balance ▪ One Day Float ▪ Two Day Float ▪ Three Day + Float ▪ Collected + One Day Float ▪ Total Credits	▪ Total Number of Credits ▪ Total Debits ▪ Total Number of Debits ▪ MTD Average Collected ▪ MTD Average Negative Collected ▪ Opening Ledger Balance (optional)
Transaction detail	▪ ACH debit and credit transactions (addenda are reported on the EDI Remittance report or can be added to previous and current day reporting) ▪ ACH originated item detail reporting (reporting of items within a settlement can be added to previous day reporting)	
	▪ Coin and currency purchases ▪ Complete wire transfer transaction details ▪ Controlled Disbursement presentments ▪ Checks paid ▪ Deposited items returned	▪ Location numbers ▪ Lockbox deposits ▪ Wire transfer credits ▪ Wire transfer debits ▪ ZBA credits
Reports	▪ Previous Day Summary and Detail ▪ Previous Day Detail ▪ Previous Day Summary ▪ Previous Day International Summary and Detail ▪ Previous Day International Summary ▪ Previous Day International Detail	▪ DDA Checks Paid ▪ ACH Return and NOC ▪ ACH Healthcare Claim Payment ▪ ACH Secured Funds Pledge ▪ ZBA Daily Cash ▪ ZBA Accounting

Additional reporting options

- Investment reporting—Previous day positions are updated by 3 a.m. PT

Current day reporting

SinglePoint Current Day Information Reporting

Wire transfer information

Updated continuously and in real time

SinglePoint Current Day Information Reporting

SinglePoint updates information at different times for different applications and different processing sites.	ACH data	Updated four times during business hours: by 5 a.m., 8 a.m., noon and 3 p.m. PT
	Deposit reporting	Continuous and updated according to site-specific schedules
	Lockbox	
	Controlled Disbursement	Data updated twice daily
	Foreign exchange and global trade, Federal Reserve Bank Settlement Activity	Updated upon login to banking system
	Other items, such as ATM, phone and branch-initiated transactions	
	Disbursements by Zelle®	Updated in real time
Transaction types	▪ Opening ledger balance ▪ Opening collected balance ▪ Current day credits ▪ Number of credits ▪ Current day debits ▪ Number of debits	▪ Interim Ledger ▪ Interim collected ▪ Interim one-day float ▪ Interim two-day float ▪ Interim three + day Float
Transaction detail	▪ ACH transactions ▪ Wire transfer transactions ▪ Controlled Disbursement check debits ▪ Lockbox deposits ▪ Other paper deposits ▪ Book transfers	▪ Foreign exchange and global trade ▪ Federal Reserve Bank settlement activity ▪ Other items, such as ATM, phone and branch-initiated transactions ▪ Disbursements by Zelle® ▪ Real-time payments
Reports	▪ Current Day Summary and Detail ▪ Current Day Detail ▪ Current Day Summary ▪ ACH Summary and Detail ▪ Controlled Disbursement/Draft Summary	▪ Controlled Disbursement/Draft Detail ▪ Lockbox Summary ▪ Lockbox Detail ▪ Wire Transfer Detail ▪ Wire Transfer Detail New (Only new data since last report was retrieved)

Additional reporting options

- Investment reporting—Current day activity is updated hourly between 6:30 a.m. and 3:30 p.m. PT, with final file at 5 p.m. PT

viii. Define all transaction and summary history access/retention features.

SinglePoint retains previous day data for 60 days and current day data for 10 days. Additional retention periods for previous day information are available for an account-level charge for either 12 or 24 months. Images within the Image Access module are retained for seven years.

ix. Can customized reports draw across reporting modules and activities? Describe the cross functionality features.

Yes. The City may customize reports through the Information Reporting or VantagePoint module.

Information Reporting

SinglePoint allows the City to create custom reports based on your specified criteria. Your users can build and save filters, with the ability to share with other users. Available criteria include:

- Remove and reorder accounts
- Date range
- Transaction types (BAI codes):
 - Summary code groups
 - Transaction detail groups
 - Individual BAI codes
 - Transaction amount or range of amount
 - Transaction reference number or range of transaction reference numbers

Exporting files in Excel and CSV format allows you to remove fields and designate field position order for further customization. There is no charge for customizing or emailing scheduled reports; however, a charge will be incurred for direct transmission.

VantagePoint

U.S. Bank VantagePoint gives the City a more strategic view of your accounts receivable (A/R) and working capital cycle. VantagePoint is an integrated receivables solution powered by SinglePoint, our wholly owned online business banking portal.

VantagePoint

View Receivables Summary

- View Receivables Activity
- Manage Transactions
- Remittance Reassociation
- Manage Settings
- Transaction Search
- View Reports
- Manage File Transmissions

LaunchPoint (11 New)

- Customer Service

Receivables Summary

[Help with this page](#)

Receivables summary information is shown below. You can view summary information by transaction type or status. If you have accounts with different retention periods the reported data will match the retention period assigned to each account.

Using customized business rules, exception queues and configurable workflows, VantagePoint can centralize your incoming receivables information, enabling you to efficiently view, manage and post payments to your A/R system. Exception management is centralized within a unified, intuitive view that's easily accessed online. VantagePoint can currently report any combination of the following receivables transaction types:

- Incoming ACH credits (with or without addenda)
- Incoming wire credits
- E-lockbox (consumer online bill pay) receipts
- Real-Time Payments (RTP), eBill Service (hosted web portal)
- On-Site Electronic Deposit (remote deposit)
- Wholesale lockbox items
- Elavon merchant card

Data from each different payment type is presented in a uniform way allowing users to easily locate the desired information visually.

VantagePoint also allows the City to automate your manual A/R processes to help create efficiencies and potentially reduce costs. You can improve days sales outstanding (DSO) through automated receivables management and accelerated cash flow recognition.

Authorized users can view enhanced reporting that aggregates data from multiple channels into one intuitive interface. Exceptions consolidate into a single, streamlined interface with configurable queues and workflows. You can easily view transaction details and images to assist with research and exception management when payments are received with incomplete or missing remittance data. When sent by email, you can automatically match remittance information to electronic payments, decreasing manual exception resolution tasks. Successful matches are included in your next posting file. VantagePoint's optional AR Matching service can match invoice detail to an open A/R file to further support a high automated posting rate when the file is generated.

Real-time access to your payment data gives the City a comprehensive view of your capital position across multiple receivables channels. You can easily identify payers that contribute to delays in your cash application process. You will be able to make informed, efficient decisions from a consolidated perspective using wholistic data.

VantagePoint uses the same intuitive design as other solutions you access through SinglePoint. SinglePoint offers unsurpassed platform stability, web security and customer service.

x. Describe back-up procedures available to the City with any interruption in the automated system delivery of information or transaction input functions.

Customer Service

Customer service can help the City reload reports (within a 14-day timeframe) if there was a file interruption with the automated system delivery. Depending on the reports, similar information may be provided through SinglePoint's Information Reporting module for the City to utilize as a backup.

Transmissions

For transaction input for the City's positive pay and ACH service, SinglePoint Issue Maintenance and ACH Origination modules offer alternative input and file upload options for the City to utilize if the direct transmission was not available due to connectivity or service issues.

In the instance if the City was not able to provide a payroll file, U.S. Bank has the capability to duplicate your last payroll file for processing your employee's direct deposits.

xi. Describe provisions for off-site backup and continuation of services in local or regional disaster situations.

In case of disaster, SinglePoint will automatically recover at the Energy Park Operation Center (EPOC) within two hours. The main URL will be redirected to the EPOC site, and the replicated

database will be brought up and rolled forward. EPOC's application servers will then continue processing as normal. EPOC's servers are dedicated to disaster recovery events/exercises.

xii. What mobile services are available? Describe.

We designed Mobile SinglePoint for your on-the-go employees, delivering the same security and efficiency as SinglePoint. The City's users' access SinglePoint modules from their mobile device, allowing them to:

- View key balance information for all your accounts
- Access current day reports
- Initiate and approve transactions, batches and templates, as well as transfers
- Review and decision positive pay and ACH positive pay items quickly and confidently – with images
- Initiate a repetitive wire transfer or an ACH batch from a template
- Transfer funds between accounts

The City can search for individual transactions, including the status and associated detail and view messages from us.

Users' access mirrors their entitlements on SinglePoint. Approval or initiation functions for wire transfer or ACH require a token-generated password.

Mobile SinglePoint works on both iOS and Android OS devices.

- All devices must connect directly to our server
- We recommend using a scrolling-enabled device with a minimum screen size of 240x260

xiii. Describe all security protocols for online and mobile services.

Security Components

SinglePoint takes a multi-layered approach to mitigate risk. These layers are built into SinglePoint system design, services we offer to our clients and back-office controls. In addition, we publish several best practices documents for our clients on LaunchPoint in the Did You Know section. By building multiple layers of security, we can address the multiple levels of protection needed. Security features include requirements for dual authorization for wire transfers and ACH origination, plus extensive dual authorization options. Clients can expand their security through requiring tokens for all services, downloading Trusteer Rapport security software or setting up the IP Whitelist service.

System design

There are multiple levels of security built into the way the SinglePoint system is designed to function and how users can access it.

- 256-bit AES encryption
- TLS 1.2
- Data is not stored on the user's workstation
- Password access is required - User passwords are case sensitive
- Users must enter challenge questions - Challenge question answers are case sensitive
- Sessions time out after a period of inactivity
- Token security code is required for certain services such as ACH, Wire Transfer and Investments
- PIN entry is required when initiating wire transfers
- Automatic removal of user's payment initiation entitlement if the user does not initiate a payment for 100 days (Note: this is monitored for ACH and Wire Transfer payment initiation)
- Required notification via email when certain security events occur

SinglePoint Mobile

Our SinglePoint users may use Bio-authentication to login to the application with a fingerprint or facial ID.

xiv. How and by whom is the administration of the security module established and maintained?

System administrators are authorized by the signers of the Master Service Agreement. System administrators can modify user entitlements, account access and transaction limits at any time with immediate updates or change user status for interim periods. Entitlements can be assigned by service area, function and account access. For our government clients, we recommend dual administration, meaning if one system administrator adds/deletes or modifies a user, another system administrator approves. In addition, system administrators can set user payment limits for ACH, book transfers and wire transfers, as shown below.

Service	Entitlements	Access and limits
ACH	Batches: ▪ Initiate batches ▪ Approve batches	▪ Access to accounts ▪ Providence level limits ▪ User level batch initiation limits ▪ Per batch
	Templates: ▪ Create template ▪ Approve template ▪ Export template	▪ Daily cumulative limit ▪ User level batch approval limits ▪ Per batch ▪ Daily cumulative limit

Service	Entitlements	Access and limits
ACH additional services	Allow access to the ACH activity schedule, control totals, positive pay warehouse search services	Access to accounts
Account reconciliation	Allow access to account reconciliation reports	Access to accounts
Book transfer	▪ Initiate ▪ Approve	Access to only U.S. Bank accounts
Cash vault	▪ Allow access to online ordering ▪ Allow access to reports	Access to cash vault locations
External messaging	Enable messages	Delivery options: ▪ Primary email ▪ Secondary email ▪ Mobile device ▪ LaunchPoint page ▪ Fax

**xv. What are the hours of available technical support? Where is the technical support located?
How is support provided?**

We may provide assistance identifying potential technical issues related to accessing banking services and provide suggestions to the City depending on the issue. Technical changes may occur to ensure your systems are compatible with our banking systems. It would be expected that you have technical resources available (your IT department) to advise and/or implement any suggested changes. In some cases, these technical issues are the result of network settings or problems on the City's end and U.S. Bank would not be able to assist with troubleshooting steps.

- SinglePoint Technical Support is available until 5:30 p.m. PT
- SinglePoint Information Reporting support is available 5 a.m. – 5 p.m. PT, Monday through Friday
- CCS teams provide customer service each business day, from 5 a.m. – 5 p.m. PT

C. Collection and Deposit Services

Standard commercial deposit services are required for certain accounts. Currently, geographically separate City departments make a daily deposit to Finance which then consolidates for one deposit delivered by armored car. The City does currently use one remote deposit scanner in the utility billing location. The City may consider additional sites under this contract.

Currently, the City contracts with Brinks armored car service under a separate City contract. The service makes multiple pickups at various departmental locations and then deposits all the deposits to City Hall. A consolidated deposit to the bank is made from City Hall. This process may be slightly altered to reduce float using location identification (on deposit slips) and location reporting through the bank, if available. The service is not paid for through the account analysis and the contractor may change during the bank contract period. Initially the City anticipates continuation of one business day deposit by the armored car service, but will evaluate possible changes. Deposits include checks and coin/currency. Change orders are currently sent to the City through the local branch by armored car but could be changed to online change orders.

The City acts as its own lockbox for utility payments which could change if the image lockbox optional service is implemented.

All check deposits are batched with tapes attached. Coin/currency is not rolled nor strapped. The City currently uses web-based utility payments through Invoice Cloud to collect credit card utility payments. The software aggregates transactions and then transfers data daily directly to the merchant services provider (currently Paymentech Merchant Services).

All deposits received by the bank's established deadline must be processed same day. Immediate verification is not required. The bank shall guarantee immediate credit on all incoming wire transfers, on-us items, and security maturities and coupons. All other checks clearing will be based on the bank's published availability schedule or remote processing schedule. Failure to timely credit the account will require payment reimbursement to the City at the then-current Fed Funds rate.

The City uses a 31-digit code on its deposit slip number in the MICR encoding to track deposits for reconciliation. Deposit tracking will be required under the new contract to speed deposits and improve deposit reporting.

The City does not currently utilize re-presentment of checks through ACH (RCK) but may consider its use during the contract period. Checks are currently represented automatically twice.

- i. **What e-receivables programs does the bank have available? How would you suggest the City work into more e-receivables processing?**

U.S. Bank e-receivable programs include our E-Lockbox, eBill and VantagePoint services.

E-Lockbox

U.S. Bank E-Lockbox electronically receives consumer-initiated payments originating from the payment network that include bill consolidators serving online banking bill pay at consumers' banks and from third-party payment providers.

Payment initiation, processing and routing

- E-lockbox integration involves setting up your organization (biller ID) on the payment network.
- The setup information reaches out to more than 120 payment originators that include all consumer banks who offer online bill pay, as well as third-party payment consolidators; this enables consumer-initiated payments to be remitted electronically for settlement into your account at U.S. Bank.
- Payment originators perform payment processing and routing based on the e-lockbox profile configured and integrated at U.S. Bank; if the consumer-initiated payment does not match your profile (e.g., incorrect entry of payee name, address; account number that doesn't match your provided schema), the payment will be remitted as a paper check.
- Consumer payments that match your e-lockbox criteria are routed electronically through the payment network to U.S. Bank.

Payment settlement

- We receive payment transaction information from the payment network that includes credits and reversals (debits), where applicable.
- Credit is made to your account on the same day it is received by U.S. Bank.

Remittance reporting

- Our e-lockbox support operations group receives e-lockbox files from the payment network daily.
- Customized remittance files are defined and generated within VantagePoint, our online integrated receivables management tool.

Returns & Notifications of Change (NOCs)

Payment returns and NOCs are submitted via VantagePoint. You can initiate the return or NOC from within the individual transaction detail screens or in bulk by selecting from a list of E-Lockbox transactions and adding them to a folder. You then select the return reason or enter the corrected information for the NOC to each item in the folder.

eBill

U.S. Bank eBill Service is a full-service, turnkey, digital bill presentment and payment solution built with the consumer and biller in mind. It streamlines operations, reduces costs and meets customers' needs by providing a secure, simple and fast way to view and pay their bills – how, when and where they want. Our eBill Service is a highly configurable solution allowing the City to present bills digitally and collect payments from multiple payment channels and payment methods. A back-office interface

provides you consolidated electronic remittance and settlement reporting to update your accounts receivable system. Examples of uses for the City would be your utilities, business licensing and fees.

Our eBill Service's proven capability is demonstrated by the more than 1,000 current entities using the platform. We provide electronic bill presentment and payment via all channels and methods. Our solution channels include real-time API, mobile, online web, point of sale, Text2Pay, Facebook Messenger, Amazon Alexa, Google Home, IVR and call center. Funding sources include credit card, debit card and ACH. Reporting of eBill activity can be included in VantagePoint, our integrated receivables management tools.

VantagePoint

VantagePoint, our integrated receivables management solution, can currently report transaction detail for wholesale lockbox items, incoming ACH credits, incoming wire credits, e-lockbox (online bill pay) receipts, Real-Time Payments (RTP), eBill Service, On-Site Electronic Deposit and Elavon merchant card. Additional payment types are being added over time. For merchant data, the MID is available for inclusion on reports/files. You may define custom CSV reports and data files to automate posting. Business rules and workflow functionality can help streamline your receivables posting process, while more sophisticated AR Matching can match invoice detail to an open A/R file to further support a high automated posting rate when the file is generated.

To integrate with your systems, the City can select a proprietary format for your file, or choose an industry standard, such as ANSI X12. By consolidating your receivables data in a single transmission, you eliminate the need to manage multiple files and transmissions.

Working Capital Engagement

Our suggestion for the City to move towards e-receivables, is to do a working capital mapping session with your treasury management consultant (TMC) or your receivables solution engineer (RSE). During this process, your current receivables processed will be mapped out, analyzed and the City's goals will be discussed. The TMC or RSE will then provide a plan back to the City based off your goals to help you move towards e-receivables.

ii. What is the bank's daily cut-off time at a local branch and vault?

Branch services

The cutoff times for branch cash services vary by market. No cutoff times are before 2 p.m. local time. The current pandemic has made branch hours less predictable; it is always best to call first to ensure branch availability.

Cash vault

We must receive the deposit before the 4 p.m. deposit (dock) deadline for same-day ledger credit.

iii. Must deposits be made to a vault? If so, where is the vault located? What delay may occur with vault deposits or transfers? Describe the process if the vault is not located in Roseville. Where is the vault located?

It is recommended the City utilize our Sacramento Cash Vault for your deposits as you do today. We recommend the City utilize an armor courier to deliver the deposits to our Cash Vault. Any deposits received before the cutoff time of 4 p.m. will receive same day credit.

iv. Does the bank provide deposit location tracking through coded deposit bags or on coded deposit slips? Describe fully. Do daily online tracking reports include activity by location? Are all deposits designated by location and tracked as such through the reporting? Provide sample reports for location tracking on deposits.

DTS Connex is available to U.S. Bank cash vault customers at our cash vault processing locations. This service is offered through partnership between U.S. Bank and a third-party vendor, International Financial Services, Inc. (IFS). It offers deposit tracking and change orders for cash transactions processed at our cash vaults. Deposits are tracked from the time they are prepared at the location through to the processing of deposits at U.S. Bank. Change order requests are managed from a single application.

DTS Connex increases customer efficiency by:

- Streamlining deposit preparation and change order processes
- Tracking store operations, banking partners and armored courier vendor performance
- Providing a central location for managing and reporting of cash vault deposits and orders
- Reducing time to research deposit adjustments and reconcile account information

The screenshot shows the DTS Connex web application. At the top, there's a navigation bar with links like Home, Create, Manage, Analyze & Report, Admin, and Training. Below this is a search bar with the text "Search at bank" and date filters for "From 8/1/2022" and "To 8/19/2022". A message below the search bar says "Enter a location #, bag #, deposit amount, transaction id. You can also enter terms like adjustment, late credit, no pickup, etc. Finally, you can use combinations of these. Click Here for Keywords and Examples." Below the search bar, it says "Next Page of Data >> Now showing 500 deposits at a time (1 up to 500 on-screen)".

Tracking information is provided daily through SinglePoint Information Reporting or through the DTS portal. Samples of these reports are provided in the following exhibits:

- [Exhibit 13, Deposit Tracking Previous Day Cash Vault Sample Report](#)
- [Exhibit 14, Deposit Tracking System, Sample Report](#)

v. Does the bank require or prefer strapping and rolling? Are there cost options/benefits for separating cash and checks? Coin and check? Strapping/rolling?

We do not require strapping of currency. U.S. Bank cash vaults accept loose and rolled coin for deposits. Mixed coin deposits greater than \$25 must be in its own bag and will be charged a Loose Coin Bag fee. Pricing does not change for separating cash and checks, coin and checks or rolled and/or strapped currency.

vi. Is there any limit to the number of deposits in one deposit bag? Are these handled as separate advices?

We recommend separating cash and checks; however, they can be sent in mixed deposits. Each deposit bag should only contain one deposit and one deposit ticket. Multiple deposits included in the same bag may cause errors.

vii. When are credit/debit advices sent to the City from the deposit locations? Are these advices sent electronically? (Preference will be given to electronic delivery.) Are images of originals provided with each advice?

Cash vault deposit and adjustment advices may be viewed electronically through SinglePoint through the Information Reporting or Image Access module. Advices are available as soon as the next business day and are available to the City for 60 days through the Information Reporting module and up to seven years on the Image Access module.

viii. Does the bank have any program to actively assist the City with collection for vendors or ongoing repetitive citizen payments preferably through ACH?

Yes, through SinglePoint's ACH Origination module, the City may save vendor or citizen payment information through templates. An authorized user can create and maintain templates of repetitive transactions or one-time transactions through this module.

ix. How does the bank handle discrepancies in deposit amounts? What dollar limits are used for decisioning? What settlement process is followed?

Branch services

Tellers process cash deposit discrepancies of less than or equal to \$50, adjust the original cash amount listed on the deposit slip, adjust the total deposit amount and initial the correction on the deposit slip. For cash deposit discrepancies greater than \$50:

- Tellers process in-person deposits, adjust the original cash amount listed on the deposit slip, adjust the total deposit amount and initial the correction on the deposit slip
- Tellers process deposits made via night drop, drop off and armored car delivered deposits by completing a separate adjustment advice

- If requested, adjustment advices will be returned with your monthly bank statement and labeled as miscellaneous credits or debits

Cash vault

Bankers identify all discrepancies and adjust your account for differences over \$10.

For item processing and proof corrections, bankers identify all discrepancies and adjust your account for differences greater than \$1.

x. How and when does notification of return items take place? List the elements reported.

Check Return Notification

U.S. Bank has a range of special instructions available to help customers reduce their processing and handling costs related to returned items. They may be established only for analyzed business demand deposit accounts used for check deposits. The returned item special instruction features the City can set up, in any combination, are:

Automatic Redeposit

First time returned items for NSF or uncollected funds reasons can be automatically re-deposited. A customer may elect to have all items or just those that meet a minimum dollar threshold re-deposited. All re-deposited items are assigned four days of float. U.S. Bank uses a blind re-deposit process whereby automatically re-deposited items do not post to the customer's checking account and no advice is printed. If a customer wants notification on items automatically re-deposited, they must be set up additional special instructions such as email or fax notification, transmission or other reporting options which are outlined later within this detail section.

Advice Options

- The City may elect to have:
 - Original advices mailed to an alternate address other than the main address on file at the bank.
 - Duplicate advice copies can be mailed, emailed or faxed (Fax Copies) to as many as three different addresses or fax numbers, with an additional option of receiving copies of the items. Check image copies include the front and back of the item (default), with a choice of just the front. Faxed image copies are sent one item (front and back) per page, with the option to receive three check per page reduced in size. Duplicate advice copies include only chargebacks and will match the original advice totals.

Fax Notification

The City may choose from hourly (default) or end of day faxes advising them of their returned deposited items. Automated faxed notification is a continuous listing of returned items that will not necessarily match the original advice total. Image copies of returned items (front and back) are also

available with this option. The default is one item per page with an option to reduce the size of the images to fit three per page. Fax notification options include:

- Re-deposits only
- Chargebacks only
- All returned items

Email Notification

The City may choose to receive an hourly or end-of-day email notification of their returned deposited items. Email notifications are sent via secure email. The email detail page includes all returned and re-deposited items. Optional check image copies include the front and back images of each item (default) or just the front, with a choice of all items, chargebacks only or re-deposits only. Email notifications may include multiple items depending on the number of returned items being processed. Email address length is limited to 40 characters. Email notifications with images or duplicate advices can be set up for as many e-mail addresses as the customer requires. (See sample [here](#)).

Posting

The City may choose from the following chargeback posting options:

- Debit an alternate account
- One debit per item
- One debit per account per day for the total amount of the returned items processed (Note: this option is recommended for Information Reporting Previous Day if they view returned items)
- One debit per customer location per day

Maker Information

The maker (check writer's) name can be keyed into the U.S. Bank returned item processing system so that it appears on the advice and/or summary report sent to the customer. The first initial and last name (up to 13 characters) will be keyed on to the advice. Please note that maker name keying is only available on chargeback items.

Locations Processing

Customers with multiple locations, stores or divisions depositing into the same checking account may receive returned item information reported by location number. This service requires that customers provide their location, store or division numbers within:

- The deposit tickets' Magnetic Ink Character Recognition (MICR) line. Identifier numbers of up to 10 digits can be preprinted within the auxiliary on-us field of the MICR line on deposit tickets and must be included.
- Within the customer's endorsement on the back of the check.

When this service is implemented, the customer's location numbers are set up within the returned item processing system. Unique special returned item instructions may be established for each

location. Customers may also define instructions for items processed as an unidentified location (999).

Transmission

U.S. Bank Returned Deposited Item Transmission is an automated method of receiving returned item information. The detail within the transmission can be downloaded into a company's system for tracking returned item activity and adding information into a database which tracks bad checks.

The City has the option of receiving a text only or text and image transmission:

Standard Transmission

The City may wish to receive a daily transmission, in a standard format, for uploading data into their reporting systems. The transmission is a standard format including MICR and other information.

Image Transmission

The City may include images along with the standard text file related to the returned deposited items. The data and images are provided within a 'Zipped' file. Customers will receive the front and back images of the returned items and have a choice of receiving an image of the advice.

Transmissions will occur before 10 p.m. PT (at the end of the processing day). There will be one transmission per day. The information that customers may receive via transmission includes:

- Choice of receiving only returned items or include redeposit information
- Site indicator (M - Minneapolis or P - Portland)
- Returned Item Sequence Number
- MICR information—Account number, routing transit number, check serial number and amount of item
- Deposit information—Deposit bank number, account number and deposit date (if captured through the "All Items" file)
- Alternate charge account information
- Return reason code
- Maker information—Includes 13 characters: first initial and last name. If not readable "N/A" is keyed (Maker information is optional with per item fee)
- Posting Date
- Store Number

Image Transmission

Returned Item Images within the transmission

If receiving the image transmission, the text is the same as listed above. Along with the text file, the returned items images are housed in a zipped file which includes the front and back image of each returned item. Note: The City will need software to unzip the file.

Items are identified by using the site indicator combined with the sequence number and source code found within the text file. The images are formatted as Y300.P.aaaaaaa.bb99999.cnnn.TIFF:

- aaaaaaaa = Customer Name
- bb = site M1 (Minneapolis) or P3 (Portland)
- 99999 = sequence number
- c = F (front) or B (back)
- nnn = Source Number

Returned item advice images within the transmission

Advice images are optional and identified by the site indicator and sequence number found in the text file.

The images are formatted as Y300.P.aaaaaaa.bb99999.TIFF:

- aaaaaaaa = Customer Name
- bb = site A1 (Minneapolis) or A3 (Portland)
- 99999 = sequence number

The images are in a TIFF format. TIFF was selected because it is one of the most popular and flexible of public domain image file formats. TIFF is also portable and does not favor a particular operating system.

Reports

Summary report

The City may a large volume of returns and/or with location processing may choose to receive a daily summary report. This hardcopy report lists each chargeback item and is mailed to a customer daily. For customers with location processing, the report is sorted by location number and includes a report for each location as well as an overall summary report. Re-deposited items and maker information will be reflected in the report if the City also subscribes to these add-on services.

SinglePoint Image Access

The City may access returned item information by account including MICR account and Routing number, Check Number, Return Reason (if requested otherwise it defaults to NSF), Amount, Date, Advice Number and images of the items. Using the search functionality customers can select returns, re-deposits or both types. Image Access contains 90 days of historical information.

SinglePoint Returned Item Decisioning

The City can view returned items current day and decision whether to allow redeposit or change to chargeback any eligible items returned for NSF or UCF. Returned Item Decisioning is available between 5:30 a.m. and 4:30 p.m. PT. Items not decisioned by 4:30 p.m. PT default to redeposit.

Requalified Items

The City may choose to have items requalified and rerouted to another financial institution or return item processor for handling. In these cases, the returned item will not be charged directly to the customer's U.S. Bank account. This service allows a customer to centralize its return item processing at one provider, regardless of where the item was originally deposited. U.S. Bank sends requalified items in a cash letter per its usual check clearing channels.

ACH Return Notification

U.S. Bank offers three options for the City to receive your ACH Return and NOC reporting: SinglePoint, data transmission and fax.

The ACH Returns and NOC report include previous day settled items. Information about NOCs and returns is available on SinglePoint by 8 a.m. PT.

**ACH returns are listed in SinglePoint with key data
from the batch header and specific details about each item:**

▪ Company name and company ID number	▪ Receiver's account number
▪ Date and processing cycle of the item	▪ Individual ID and name
▪ Settlement date of the transaction	▪ Amount
▪ Transaction code	▪ Return reason code and description
▪ Originating RDFI	▪ Addenda information

Automated NOC update service

ACH transactions originated through SinglePoint that generate Notifications of Change (NOCs) from the receiving institution automatically update the ACH template in SinglePoint. SinglePoint reports transactions that were automatically updated by U.S. Bank, based on NOC information.

Additional return and notification of change items are sent from other financial institutions with the same day ACH items. These items appear on the ACH return reports the following business day. Clients may opt to add another return settlement later in the day and receive those additional items in a current day ACH Return and NOC report in SinglePoint and/or via transmission file.

Current day ACH detail information is updated on SinglePoint at 5 a.m., 8 a.m., noon, 2:30 p.m. and 4:30 PT.

ACH Return and NOC reports transmitted via direct file transmission

We recommend a Nacha formatted file for the return and NOC items, which allows the most flexibility for automating the process and importing the information into internal systems. ACH return and NOC items cannot be reported separately. The SinglePoint ACH Return and NOC report in standard reporting allows users to filter the report to generate reports that contain only NOC items or only ACH return items. Clients may also sort by SEC code and other parameters.

xi. Does the bank provide e-lockbox services? Describe fully. The City currently uses an E-Box service to facilitate collections. The service handles an average of 13,000 items per month.

Yes, U.S. Bank provides e-lockbox services. The City can receive consumer-initiated payments electronically with e-lockbox. The payment network consists of more than 120 payment originators, including all consumer banks who offer online bill pay, as well as third-party payment consolidators.

Payment initiation, processing and routing

- We establish the City (biller ID) on the payment network

- Payment originators perform payment processing and routing based on your e-lockbox profile; if the consumer-initiated payment does not match your profile (e.g., incorrect entry of payee name, address), it will be remitted as a paper check
- Consumer payments matching your e-lockbox criteria are routed electronically through the payment network to U.S. Bank

Payment settlement

- We receive transaction information – including credits and reversals (debits) where applicable – from the payment network
- Credits are made to your account on the same day they are received

Remittance reporting

- Our e-lockbox Support Operations team receives daily files from the payment network
- You receive a consolidated remittance file each day by 8:30 a.m. PT that can be posted to your A/R system
- Remittance file transmissions or downloads are available through VantagePoint. Reports can be limited to e-lockbox payments or consolidated with other receivables payments

xii. What type deposit bags are used or required? Are these available from the bank? At what cost?

Branch services

Tamper evident polyurethane (poly) deposit bags must be used for night drop, drop off and armored carrier delivery of branch cash deposits. Any bags accepted via cash vault will also be accepted at our branch locations.

Cash vault

We require tamper-evident polyurethane (poly) deposit bags with tamper-evident security features in accordance with the Federal Reserve Bank's Cash Services. DTS Connex vendor IFS offers DTS deposit bags for purchase. For security purposes, we do not accept locking zipper deposit bags.

Deposit bag requirements

All currency deposits must be packaged in clear plastic bags designed for one-time use.

- Plastic bag material must be a minimum of five-mil or the equivalent in strength and durability
- Bags must bear identification – including U.S. Bank, vault name, deposit amount, location name and location number
- Bag must be clear enough that contents are easily distinguishable through the packaging material
- Bags must be securely sealed
- The seal on the bag must be tamper-evident so unauthorized access is easily detectable

We prefer clients purchase polybags from an external vendor.

For additional details on fees, please refer to [Attachment A, Proposed Bank Fees](#).

xiii. Are dual verification security measures used on all receipt of deposits (immediate and post) at each deposit location?

Branch services

One employee will be present when opening deposit bags for post-verification. Employees who accept and process deposits must also initial the drop-off deposit log, in order to have documentation that more than one employee handled the deposit.

Cash vault

We employ a dual control environment for processing cash transactions (two bank employees or one bank employee plus a security camera).

We employ stringent performance monitoring, generating reports to quickly identify areas of concern. In addition, employee background checks, fingerprinting and surprise audits are conducted.

xiv. May deposits or credits be delayed for any reason? Describe.

Branch services

Cutoff times for branch cash services vary by market, with no cutoff times before 2 p.m. local time. Branch deposits dropped off for post-verification shortly before cutoff or branch closing may be held for processing the next business day.

Cash vault

We must receive the deposit before the 4 p.m. local time deposit (dock) deadline for same-day ledger credit. Deposits appear on SinglePoint and BAI Transmission previous day balance reporting on the following business day. Cash only deposits may appear on SinglePoint and BAI transmission current day balance reporting, if processed by 2:30 p.m. PT and depositing to a non-Focal Point Plus account.

Deposits requiring special handling may have a different deadline, varying by vault; please check with your U.S. Bank representative if you think this applies to your deposits. It is your carrier's responsibility to deliver your deposit to the vault before the cutoff time. U.S. Bank will not be responsible for delayed credit due to late armored carrier deliveries.

xv. If provisional credit is given on deposit before verification, when does verification occur?

Tellers are not able to immediately issue receipts for post-verified or drop-off deposits, nor will provisional credit be given for the deposit. Processing and verification of the deposit takes place before the branch closes for the day. Once verified, the deposit will be logged and recorded.

xvi. How much advance notice is required on coin and currency orders? Can orders be placed on line? Is there any minimum purchase requirement? What is the turn-around time on orders?

Branch services

The lead time on the placement of change orders varies. Please work with the local branch management to determine the appropriate lead time for placement of your order requests. Large orders, such as those containing a large volume of currency and/or coin rolls, or special purpose change orders typically require up to one week or more prior notice. Check with your local branch for specific details on order deadlines to ensure timely delivery.

For branch services, change orders should be placed in minimum increments of full straps of currency and full rolls and boxes of coin whenever possible. Settlement options include cash for cash exchange, U.S. Bank check or debit to a U.S. Bank account.

Cash vault

Both coin and currency can be ordered. We offer full and partial straps of currency as well as individual rolls of coin, full boxes of coin and full bags of loose coin for ordering. Delivery lead times are determined by your armored courier and not by U.S. Bank.

Cash vaults provide strapped and loose currency. We prefer orders of full boxed coin, but individual rolls of coin are also available. Discounts are offered for ordering full straps of currency and full boxes of rolled coin. There is a minimum order of \$1 and all orders must be whole dollars. In all cases, we debit the change order amount to your account on the day the order is scheduled for pickup by the courier.

SinglePoint Cash vault

SinglePoint's Cash Vault service provides the ability to view reports and manage Cash Vault order activity for the City.

Cash Vault Reporting in SinglePoint provides daily account activity and detail reporting on Cash Vault Transactions. SinglePoint customers can view the following information:

- Cash Vault Deposits
- Cash Vault Adjustments
- Coin and Currency Purchased

Cash Vault Ordering in SinglePoint allows real-time multi-vault and location ordering of coin and currency. It also provides the ability to view order activity as well as reorder and cancel orders. The U.S. Bank SinglePoint Cash Vault service is powerful, convenient, fast and flexible for the user.

- Powerful, with comprehensive order activity and detail available for up to one year.

- Convenient access to order coin and currency at any time and view a running grand total of an order.
- Fast orders are placed or canceled real-time with immediate responses.
- Flexible customization of entitlements allows for each user to have access to the locations and vaults that they need for ordering.

xvii. Include a list of all the bank's deposit locations

Branch Location	Address	Hours	Distance from City Hall
Roseville, California	221 Estates Drive Roseville, California 95678	▪ Monday to Friday • 9 a.m. to 5 p.m. PT ▪ Saturday • 9 a.m. to 1 p.m. PT	0.9 miles
Sunrise Avenue Safeway	989 Sunrise Avenue Roseville, California 95661	▪ Monday to Friday • 10 a.m. to 6 p.m. PT ▪ Saturday • 10 a.m. to 2 p.m. PT	2.2 miles
Woodcreek Oaks Safeway	9045 Woodcreek Oaks Boulevard Roseville, California 95678	▪ Monday to Friday • 10 a.m. to 6 p.m. PT ▪ Saturday • 10 a.m. to 2 p.m. PT	5.8 miles

xviii. Does the bank offer RCK (Re-presentment of Checks) with reissuance as an ACH debit? Describe.

We do not offer a RCK service. However, we can process RCK transmissions sent by our ACH origination clients.

D. Remote Electronic Check Acceptance

The City does currently use remote deposit for an average of 14,000 items per month and will continue this service for deposit of both consumer and commercial checks at the Utility Billing location. The City is anticipating the implementation at additional locations.

i. Describe the bank's process and capabilities for remote capture. Describe equipment needs, capabilities, and limitations. A web-based system is required.

Our remote deposit capture product is a robust, scalable and highly configurable web-based application. On-Site Electronic Deposit supports simple deployments with small volumes and complex, multi-user deployments with high volumes.

Access both components via SinglePoint

Deposit Module

- Separate staff duties by assigning workflow based on units of work: scan, key, balance and approve
- System configuration facilitates depositing into one or many U.S. Bank deposit accounts
- Mobile users (and their checks) can be incorporated into the approval process

EDM system			
Dedicated management modules	▪ Reports ▪ Returns search	▪ Research ▪ Administration	▪ Deposit review ▪ Help functionality
Stores and configures your information	▪ Post-deposit repository of data and information ▪ Complete and maintain set-up and configuration information ▪ Aggregates and stores depository information for reporting and archiving		
Organization hierarchy	With virtually no structure or depth limit, your set up reflects your organizational structure. With a greater number of member levels, more granular data is stored in EDM and more detailed access controls are available. ▪ Members—Organizational levels, such as companies, merchants, stores, terminals or groups that describe each point of transaction capture that transmits data ▪ Users—Individuals who manage or view a particular member's data We help you determine your optimal hierarchy structure. The system administrator role is assigned to the highest member in your hierarchy. They: ▪ Configure EDM and add new roles and users ▪ Manage all user set-up and administration		

On-Site Electronic Deposit process

ii. Does the bank provide remote deposit processing currently? Give two comparable public agency references including a contact name and number.

Yes. U.S. Bank is pleased to provide the following references:

Reference	Contact information
City of Elk Grove	Matthew Paulin, Finance Director ■ mpaulin@elkgrovecity.org ■ 916-627-3221
County of Yolo	Sou Xiong, Treasury and Revenues Manager ■ sou.xiong@yolocounty.org ■ 530-666-8212 Tom Haynes, CFO ■ tom.haynes@yolocounty.org ■ 530.666.8190

iii. What is the final cut-off time? Are there any limitations on batch size or number of transmissions per day?

The following table illustrates the deposit deadlines (in Pacific Time) for same-day ledger credit of funds:

Deadline description	Deposit deadline	Bank processing time ¹
First deadline	6 a.m.	8 a.m.
Morning	8 a.m.	10 a.m.
Mid-morning	9 a.m.	11 a.m.
Mid-day	11 a.m.	Noon
Early afternoon	Noon	2 p.m.
Late afternoon	2 p.m.	4 p.m.
Early evening	4 p.m.	6 p.m.
End-of-day	8 p.m.	10 p.m.

¹. Bank processing time is an estimate.

There is no limit on the number of checks or batches included in a single deposit. However, by default, only 300 checks or items can be contained in any one batch within On-Site Electronic Deposit.

To clarify, a unit of work is the batch. The batch size is variable and can be configured to provide the operator a warning when a specified number of checks have been scanned and a hard-stop based on batch size can be configured where the batch will end. Using these options, you can control the batch size. Within On-Site Electronic Deposit, we will aggregate all batches (by deposit identifier, if utilized) within a business day into a single deposit.

iv. If a check is accepted and subsequently returned by the bank NSF, define the process.

Our standard service is a chargeback to the deposit account with a first return. We currently process returned items at the St. Paul, Minnesota operations center.

The City can establish special instructions for redeposit, email notification, phone call, fax, store number, alternate address, second copy, alternate charge account or transmission of returned item information. Special instructions are available by account or location. As your returned items are processed, they go through a number of steps to determine processing procedures.

- MICR line of return item read and compared against cleared item file created during initial deposit process
- Returned item matched to associated deposit ticket on cleared items file
- Following match, system accesses returned item special instructions
- Returned items processed in accordance with special instructions (e.g., redeposit, assign a store number, send to company for collection, etc.)

- Returned items are forwarded attached to an advice (for reconciliation purposes, a single advice matches a single debit on your bank statement)

Processing may result in receipt of multiple advices and debits on any given day. Multiple advices can be the result of many factors including segregation by store number, reject processing (bad MICR, mutilated item) and multiple cycles. Special instructions are available to allow a consolidated debit for multiple advices by location or by account.

v. What options does the City have in scanners for use with the process in various volume locations?

On-Site Electronic Deposit supports multiple scanners for imaging of check and associate items (remittance coupons).

Scanner		Features	
	Digital Check CheXpress® (CX) 30	▪ Captures front and rear image ▪ Franking cartridge included ▪ Front (preferred) or rear single item check exit	
	Scanner dimensions		Document size
9.38" L x 3.92" W x 7.47" H		▪ Min: 2.20" x 4.17" ▪ Max: 4.25" x 8.98"	

Standard manufacturer warranty: two years

Warranty upgrade

- Upgrades standard warranty period to next day Advance Unit Exchange (AUE)
- Must be purchased within 30 days of the original scanner order

Business need

- Single item scanner
- Small desktop footprint
- Low-cost solution targeted for low check volume
- Automatic franking function to identify processed items

Scanner		Features	
	RDM EC9611i™	■ IP-addressable (network) scanner ■ Captures front and rear image ■ Franking cartridge included	
	Scanner dimensions		Document size
	9.3" L x 6.0" W x 6.9" H		■ Min: 2" x 4" ■ Max: 4" x 9"

Standard manufacturer warranty: two years

Warranty upgrade

- Additional two years beyond the standard manufacturer warranty (total of four years)
- Must be purchased within 30 days of the original equipment order

Business need

- Single item scanner
- Stand-alone USB connected device
- Single 10/100 Ethernet port
- Automatic franking function to identify processed items
- Lower cost for low check volume and clients on any network or thin client environment such as Citrix

Scanner	Features
 EC 9603i™ 30	▪ IP-addressable (network) scanner ▪ Rated at 30 documents per minute (dpm) ▪ Single item or batch mode processing ▪ Captures front and rear image ▪ Duplicate check detection ▪ 30 item document feeder ▪ Franking cartridge included
Scanner dimensions	Document size
9.3" L x 6.0" W x 6.9" H	▪ Min: 2.5" x 4.8" ▪ Max: 4.9" x 9"

Standard manufacturer warranty: two years

Warranty upgrade

- Additional two years beyond the standard manufacturer warranty (total of four years)
- Must be purchased within 30 days of the original equipment order

Business need

- Batch processing
- Stand-alone USB connected device with built-in two-port USB peripheral hub
- Two-port 10/100 Ethernet switch
- Automatic franking function identifies processed items
- Lower cost for low check volume and clients on any network or thin client environment such as Citrix

Scanner	Features
 Epson CaptureOne™ 30/60/90 TM-S1000	▪ Rated at 30, 60 or 90 dpm ▪ Processes items in single or batch mode. ▪ Captures front and rear image ▪ Duplicate check detection ▪ 100 item document feeder ▪ Franking cartridge included ▪ Field upgradeable from 30 to 60 or 90 dpm
Scanner dimensions	Document size
14" L x 6.3" W x 6.9" H	▪ Min: 2.5" x 4.8" ▪ Max: 4.9" x 9"

Standard manufacturer warranty: two years

Warranty upgrade

- Additional one or two years beyond the standard manufacturer warranty
- Must be purchased within 90 days of the original scanner order

Business need	
▪ Batch processing ▪ High check volume	▪ Supports franking in single item and batch scanning mode ▪ On-off switch

Scanner	Features
 Digital Check TellerScan® (TS) 240: 50 / 100	▪ Rated at 50 and 100 dpm ▪ Processes items in single or batch mode ▪ Captures front and rear image ▪ Duplicate check detection ▪ 100 item document feeder ▪ Franking cartridge included (TS 240: 50 only) ▪ The 100 dpi model is capable of ink jet printing to record deposit information
Scanner dimensions	Document size
11.1" L x 5.10" W x 7.5" H	▪ Min: 2.12" x 3.19" ▪ Max: 4.25" x 8.98"

Standard manufacturer warranty: two years

Warranty upgrade

- Upgrades standard warranty period to next day AUE
- Must be purchased at the time of the original scanner order

Business need

- Batch processing
- High check volume
- Compact design conserves desk space

Scanner

Digital Check
SmartSource Adaptive
2.0

Features

- Vertical paper feed allows for a variety of documents to be scanned, including checks, remittance coupons and full-page documents
- Rated up to 78 documents per minute (dpm) and 105 dpm for checks
- Processes items in single or batch mode
- Captures front and rear image
- Duplicate check detection
- 100 item document feeder (30 page-sized items)
- Franking cartridge included

Scanner dimensions

15.6" L x 6.4" W x 11.3" H

Document size

- Min: 2.0" x 2.9"
- Max: 8.5" x 14.2"

Standard manufacturer warranty: two years

Warranty upgrade

- Upgrades standard warranty period to next day AUE
- Must be purchased at the time of the original scanner order

Business need

- Batch processing
- High check volume
- Compact, vertical-based design conserves workspace
- Create a single document archive scanning full page documents, along with remittance coupons and checks

vi. Is the scanner equipment available through the contract: purchase or lease? List the equipment required along with its approximate cost(s).

A bonus of \$100,000 will be offered for the first year to offset any setup, new services, or monthly maintenance fees. Please refer to Attachment A for pricing.

E. Standard Disbursing Services

Standard disbursing capability for all disbursing accounts is required. Payment of all City checks without charge upon presentation especially for City employees is required. Checks are currently being written on the various accounts. The City requires positive pay services with payee name verification.

The City does not currently use integrated payables, electronic payables or virtual cards. The use of ACH has been limited for vendor payments and approximately 320 vendor checks are written weekly. Additionally checks are used for water utility refunds. The City prints its checks on blank check stock.

The City currently uses (250-300) purchasing cards from a separate vendor which may change under this contract, with average monthly spend of \$300,000 and 1,200 monthly transactions.

The City does not have a mandatory direct deposit policy but actively encourages its employees to move to direct deposit. Currently, 96% of the average 1,300 employees use direct deposit. Manual payroll checks are also occasionally written. Pay cards are not currently used.

i. When is daily check clearing information available online through intra-day reporting? How long are transaction details maintained online?

U.S. Bank branch cashed checks may be available in real time. Otherwise, cleared checks will be available to the City the following business day. SinglePoint retains check images for up to 60 days through the previous day module and up to seven years through the Image Access module. Transaction details are available for 60 days and may be extended up to 12 or 24 months through extended retention.

ii. Does the bank image all paid checks?

Yes, we capture an image of every paid item processed.

iii. Describe any payment consolidation services (e-payables) available. What data transfer options are available for payment consolidation systems?

Our e-payables programs include our Consolidated Payables, Payee Choice and Virtual Pay services.

Consolidated Payables

Consolidated Payables simplifies the payment process by combining the City's multiple payment types into a single payment origination file. The City may one data file to U.S. Bank with all the payment information for any combination of ACH, wires, checks, virtual cards, RTP and Zelle® payments. The bank facilitates the production and distribution of the payments and related remittance information.

Consolidated Payables streamlines those processes and helps clients move toward the electronic origination of all payments. This service allows the City to originate electronic payments and optimizes your working capital by:

- Offering bank-defined flat and industry standards to exchange payments
- Reducing manual processing and the chance for human error
- Reducing the costs of making disbursements
- Providing greater control over the timing of payments and improving cash forecasting

With consolidated payables, the City can send your payment instructions in a data format produced by Oracle Fusion, which reduces the need to revise databases or financial systems to distribute payment instructions. Our data translation supports industry standards, such as ISO 20022 and ANSI X12, bank-defined standard flat files and proprietary formats.

Payee Choice

Payee Choice is a vendor-hosted payment hub used to simplify one-time or recurring payments to consumers or businesses by allowing the payees to choose how they get paid. The City may use a module accessed via SinglePoint to upload payment instructions, manage payees and customize a payment choice website for their payees. Payees visit a client-branded payment choice website to choose their payment method (ACH, RTP, Zelle®, Push to Card, Prepaid card or check) and provide any additional information needed to receive payment (e.g. bank account information, home address). Payments are sent via the chosen method and information is stored for future use. Payee Choice also supports data transmission for clients wishing to automate payment instruction files sent to Payee Choice, plus receipt of outbound reports from Payee Choice.

Virtual Pay

Please refer to question vii. below for additional information on Virtual Pay.

iv. Define and illustrate the payee information provided the City for single and multiple payments.

Payee information may be provided by the City through your Accounts Payables module from Oracle Fusion for our consolidated payment, payee choice or Virtual pay services. This information would need to include the payee's information and the amount to be paid. Depending on the service, payment type may also be requested.

In addition, the City has the option to save payee information through the ACH Origination or Wire Transfer modules in SinglePoint through templates. This information would include the payee's name, banking account information and other pertinent information for the payment. This information provided by the City may be used for single or multiple payments within these different channels.

v. Describe the handling of exception or non-standard items through the payment consolidation process. Describe the error tolerance limitations and subsequent handling requirements.

For the Consolidated Payables service, exceptions would be handled in the normal route by the payment origination type. Checks may be reissued, or the City may place a stop payment. ACH payments would receive an ACH Return or a Notification of Change (NOC) report to notify the City of any exceptions. Virtual Cards payments may be returned if not processed within the allotted time. Wires would be returned if a confirmation was not received or if the banking information was not correct.

Exceptions for the Payee Choice or the Virtual Pay service would be instances where the Payee either did not choose a payment method or did not process the payment in the allotted time. In these situations, the City would be provided with a report on transactions that were not processed. The City has the option to try to pay these individuals or businesses again or pay through an alternative method.

vi. Describe any options available for ease of check reconciliation.

U.S. Bank Account Reconciliation delivers the City prompt and accurate computer-generated reports on paid and outstanding checks. Our services reduce your clerical work, help reduce fraud and give you more time. Designed to fit with your computerized accounting system, flexible reporting options benefit a wide variety of accounting cycles. We provide your information via hard copy report, data transmission or online through SinglePoint Account Reconciliation.

We provide two options to help reduce or virtually eliminate staff time for reconciliation. Both offer flexible cutoff times to allow you to customize the statement period.

U.S. Bank Partial Reconciliation

We provide a list of paid checks and missing items in numerical order on the reconciliation. The Paid Only report provides detail including date paid, dollar amount and check number of each check.

The City can add positive pay to partial ARP. While positive pay is optional, we strongly recommend you take advantage of this service as a component of your overall ARP package. Positive pay is the best and most affordable protection against fraudulent check activity. If you choose not to use positive pay, you are responsible for and more susceptible to, fraudulent activity within your accounts.

U.S. Bank Full Account Reconciliation

We provide a set of comprehensive reports listing all outstanding and paid checks, along with all other check activity. Information can be provided via SinglePoint ARP, data transmission and hardcopy. With full reconciliation, you simply forward us the register information on all checks issued, along with a list of deleted or canceled items. Your issue information is compared to your account activity to produce the reports. Since we automatically adjust and correct mis-encoded items, the service virtually balances your checking account for you.

The City currently utilizes our full reconciliation service.

vii. Describe any virtual or SUA card programs available.

U.S. Bank Virtual Pay is a commercial card payment solution that combines the control and automation of client purchasing and payables systems with the simplified payment and incentive opportunity of virtual cards. Virtual Pay extends the value of purchasing card programs by further automating your Accounts Payable payment processes, replacing traditional paper check payments with cardless U.S. Bank virtual accounts.

Virtual Pay allows you to use your current business practices, which may include processing purchase orders, receipts, approvals, coding and invoices in your system. Once approved, payments are ready for processing. provides these payments to U.S. Bank via a file, online form or through an API. We then use one or a combination of the options below, depending on supplier preference, to accommodate payment to your suppliers:

Supplier-initiated payments

- Single-Use Account (SUA)—Unique account numbers are assigned to each approved payment transaction; users can request and access a virtual account on their mobile device
- Pre-Authorized Limit (PAL) account—We dynamically raise credit limits on supplier-dedicated cards from zero to the amount of the payment appearing on the approved payment file

Supplier-initiated payments process flow:

Buyer-initiated payments (Straight-Through Processing–STP)

- Funds are automatically deposited into a merchant bank account, less interchange.
- We provide reconciliation functionality in our tools to automatically match processed supplier payment transactions with your authorized payments.

Buyer-initiated payments process flow:

Virtual Pay can accommodate both supplier-initiated and buyer-initiated payments without the need for separate file integration.

Benefits

Virtual Pay provides significant benefits for, including:

- Increased control and security through SUAs and authorization controls
- Extended Days Payable Outstanding
- Reduced costs for by eliminating checks
- Increased savings for by using a streamlined automated reconciliation process
- Potential for additional incentive
- No contract required – this product is included under your current CAL-card program

In addition, your suppliers will benefit by:

- Reduced Days Sales Outstanding
- Receives payment typically within 48 hours of processed payment
- Automated payment reconciliation

F. Stop Payments

The City currently averages 7 stop pays a month. An initial minimum of six months for the stop pay period is required. Currently the City has automatic renewals in place for all stop pays. An automated input process is required.

i. Describe the stop pay process and any bank policy on stop pays.

The City can place stop payments in SinglePoint or by calling CCS. Stop payments may be requested at any time during business hours. We cannot guarantee a stop payment will be enforced during the first 24 hours, because the check may have already been cashed by a teller.

Within SinglePoint's Stop Payment module, we also provide a check paid inquiry function to verify if a check has cleared the account before placing the stop payment. SinglePoint checks the last 90 days of posted check transactions to verify nonpayment. If the check has been paid in the last 90 days, a message displays indicating the check has been paid.

For manual stop payments (paper checks), the system doesn't verify if a check has been paid before it accepts the stop payment.

ii. How long is the initial stop pay? How long is are the renewal periods?

The default for a SinglePoint Stop Payment is 12 months; optional expiration periods of six or 24 months are available. The City can use SinglePoint to either renew the existing stop payment or place a new stop payment after the original stop has expired. You can also access a weekly report that displays stop payments set to expire that week.

For manual stop payments (paper checks), the length of a stop payment order is 24 months. The City can choose to either renew the existing stop payment or initiate a new stop payment when the current order expires.

The renewal period can be for up to 24 months for online or manual stop payments.

iii. How is a stop pay renewal or cancellation accomplished? Is a new stop pay required?

The City can use SinglePoint or CCCS to either renew or cancel the existing stop payment, or place a new stop payment after the original stop has expired. You can also access a weekly report that displays stop payments set to expire that week. For renewals, they are treated like a new stop payment.

iv. What is the deadline for same day action?

Stop payments may be requested at any time during business hours. We cannot guarantee a stop payment will be enforced during the first 24 hours, because the check may have already been cashed by a teller.

v. Will the on-line system verify if the check was cleared before accepting the stop pay?

SinglePoint provides a check paid inquiry function to verify the check has not cleared before placing the stop payment. SinglePoint checks the last 90 days of posted check transactions to verify nonpayment. If the check has been paid in the last 90 days, a message displays indicating the check has been paid.

For manual stop payments (paper checks), the system doesn't verify if a check has been paid before it accepts the stop payment.

G. Positive Pay and Reconciliation

Positive pay is required on check writing accounts with payee verification. The City requires positive pay services with complete indemnification for fraudulent checks. The proposal must provide a fully automated and web compatible transmission process. Check register transmissions will be made as part of each check run. Manual check information must be able to be input and transmitted online.

The City requires that positive pay files be immediately applied and distributed to all tellers.

The City has three accounts with full reconciliation combined with payee positive pay services on two of the accounts. An average of 1,534 positive pay items are processed monthly.

- i. Describe data transmission file and timing requirements for posting check registers. Are file transmissions charged by file by detail item or both?**

U.S. Bank Account Reconciliation

Account reconciliation services	Types of transactions	Delivery methods	Cycle schedule	Delivery timing
Partial reconciliation	▪ Paid checks ▪ Miscellaneous debits ▪ Miscellaneous credits ▪ Stop payments	▪ SinglePoint ▪ Data transmission ▪ Paper	▪ Monthly ▪ Weekly ▪ Custom calendar	▪ SinglePoint: Two business days after the reconciliation cycle date ▪ Data transmission: Two business days after the reconciliation date ▪ Paper: Five days after the reconciliation cycle date, plus mail time
Full reconciliation	▪ Paid checks ▪ Outstanding checks ▪ Stop payments ▪ Cancelled checks ▪ Miscellaneous checks ▪ Miscellaneous debits	▪ SinglePoint ▪ Data transmission ▪ Paper	▪ Monthly ▪ Weekly ▪ Custom calendar	▪ SinglePoint: Two business days after the reconciliation cycle date ▪ Data transmission: Two business days after the reconciliation date ▪ Paper: Eight days after the reconciliation cycle date, plus mail time

Account reconciliation services	Types of transactions	Delivery methods	Cycle schedule	Delivery timing
Deposit reconciliation	Deposits	- SinglePoint - Data transmission - Paper	- Monthly - Weekly - Custom calendar	Five business days after reconciliation cycle date
Daily checks paid	Paid checks	- Data transmission - SinglePoint	Daily	- Data transmission: 5 a.m. PT - SinglePoint: 8 a.m. PT
Outstanding issues file	Outstanding Issues	- Data transmission - SinglePoint	- Daily - Monthly	- Data transmission: 7 a.m. PT - SinglePoint: 8 a.m. PT
Stale date processing and reporting	Cancelled checks (due to stale date)	Data transmission SinglePoint	Dependent on reconciliation cycle	- Data transmission: Two business days after the reconciliation date - SinglePoint: Four business days after the reconciliation cycle date

ii. Is positive pay input for manual checks available on-line? Describe fully.

Yes, the City may utilize SinglePoint's Issue Maintenance module for manual inputs of check information for positive pay.

U.S. Bank SinglePoint Issue Maintenance enables the City to:

- Enter check issue and cancel information online, from the browser, throughout the day
- Upload files with issue and cancel information in the U.S. Bank standard format (CSV) or create a customized delimited or fixed length format (limit of 5000 items per file upload)
- Enter payee names to support Teller Payee Positive Pay and Payee Positive Pay service options
- Retrieve up to 45 days of issue-cancel history
- Search on issue-cancel history by using search criteria such as date, dollar amount and serial number
- View Data Transmitted File Confirmation information

iii. Is exception reporting and handling managed totally online? Describe.

Yes, check exceptions are available through SinglePoint's Positive Pay module. The City has from 9 a.m.-3 p.m. each business day to view "unmatched" or exception items and decide if you would like to pay or return the item. If an item is not decided by 3 p.m., the system will utilize the default decision.

iv. At what specific time is positive pay exception information reported to the City? How is notification made? Is email notification available or must the City sign-on and check for exceptions?

We notify the City of exception items by 9 a.m. each business day of any positive pay exception items. Email notifications are available via SinglePoint external messaging.

v. At what specific time is the positive pay response required for City exception elections?

The City must submit your pay/return decisions by 3 p.m. account processing time.

vi. Does the bank have payee positive pay? Describe.

Yes. U.S. Bank offers payee positive pay at the teller line as part of our reconciliation service. As an additional service, payee positive pay can be implemented for the back office. These services allow for the payee's name verification, serial number and dollar amount when checks are presented for payment. Payee positive pay service is available only through SinglePoint.

vii. Does the bank review and scrub exceptions such as encoding errors for possible repair before creating a City exception item?

Our full reconciliation service provides reporting for scrub exceptions such as encoding errors. Depending on the situation, a check may be corrected for an encoding error and be presented through the Positive Pay module as an exception item for the authorized user at the City to review.

viii. Are all checks, including those received over-the-counter by the tellers, verified against the positive pay file before processing? How often is teller information updated? If not verified, what are the process, liability, and security on OTC transactions?

Yes. All positive pay accounts utilize teller positive pay. Our bankers verify serial numbers, dollar amounts and payee names (if provided) at the teller line. They don't cash mismatched items. Teller information updates:

- Data transmission—Every 20 minutes
- SinglePoint Issue Maintenance—Every five minutes

All checks for a Positive Pay account are verified for over the counter by tellers for checks that are cashed at U.S. Bank branches. For checks that are cashed or deposited through non-U.S. Bank branches, we verify the information through our backroom positive pay.

ix. What is the bank's liability policy for fraudulent checks hitting the positive pay accounts?

The City will need to take full advantage of fraud prevention tools, such as Payee Positive Pay, available to protect its accounts. If a fraudulent item is paid from your accounts despite the City properly using the fraud prevention tools available, we will work with the City to understand the nature of the fraud and provide assistance collecting from the bank of first deposit as the law and policy allows. Liability between the Bank and the City will be fact dependent.

x. Can the bank provide fraud control paper check stock?

U.S. Bank offers multiple options for the City's check stock. We have a preferred check stock vendor for the City to order checks from or we can provide a Check Payables service to the City.

Check Payables

Check Payables is an outsourced check printing solution that is available via data transmission or via SinglePoint Check Payables. Check Payables creates efficiencies by:

- Reducing the risk of fraud by eliminating the need to store check stock in house
- Eliminating the need to acquire and maintain check printing and mailing equipment

With the data transmission solution, the City may transmits a data file to the bank with all of their payment information for checks. The bank facilitates the production and distribution of the check disbursements through our vendor RevSpring. The bank will also provide a checks-issued file to our Account Reconciliation and Positive Pay services to ease management of the check clearing process and help reduce check fraud.

Fraud controls are available at multiple points in the check production process. File transmissions are sent via Value Added Network or SFTP. Your data is protected by robust U.S. Bank IT security controls.

Our check printing vendor's data centers are SOC2, Tier III facilities with 24/7 physical security. They have biometric iris scanners, man trap and digital video surveillance, as well as N+1 redundancies in power and connectivity, including:

- Preeminent data security processes
- A complete disaster recovery plan
- SOC2 audit
- Full production and data processing redundancy

Fraud controls on your account and the payment processes are for check stock safety features and positive pay account protection features.

Check stock with built-in safety features provides multi-layered risk and fraud protection

- Artificial coin reactive watermark
- Microprinting
- Heat sensitive ink
- Void pantograph
- Security screen backer

Every check payables account is set up on positive pay to help detect check fraud. With positive pay, we electronically match checks presented to checks you have issued. The City sends data in the check printer's checks issued that will populate our positive pay system on the day of check production.

The optional myEasyView web portal provides visibility into your check printing file from within two hours of transmission through the point when checks are printed and mailed out. You can monitor not only the status of the check file, but also drill into the detailed checks within the file to perform validation steps.

xi. Describe your partial and full reconciliation services.

Yes. Full ARP with positive pay and partial reconciliation with and without positive pay services are offered.

Please refer to question (i) above for additional information on these services.

xii. Describe your deposit reconciliation process and reports.

U.S. Bank offers two deposit reconciliation tools for the City, which track deposits by a specific location or deposit ID number.

Deposit Reconciliation allows multiple locations to make deposits into a single U.S. Bank account and still identify deposited funds by location, store, department or day of deposit. This increases your control over depository activity while allowing single account usage. Deposits are reconciled with your checking account statement. The success of this service depends on your consistent use of unique, MICR-encoded deposit tickets for each location. This service provides a variety of reconciliation reports to assist with reconciling deposited items.

Deposit Recap, the simpler of the two options, allows you to track deposits made by all your locations into a single account. Through the use of unique, pre-encoded deposit tickets for each location, this service provides deposit details and subtotals by your locations on the checking account statement.

xiii. Describe transmission file requirements.

Please refer to [Exhibit 15, Account Reconciliation Issue Input File Specifications](#).

xiv. Is the bank currently able to create reports showing pending transactions which would then require further approval by City staff to upload to the City's system?

U.S. Bank can provide notifications to users who have the entitlements to approve transactions for the issue maintenance module through email, text or fax within external messaging.

xv. When are reconciliation reports available? Are they online and downloadable? How long are they maintained online? Do they contain images of checks?

Reconciliation reports have the same cycle as the City's account statement.

U.S. Bank is able to provide the City positive pay services on full account reconciliation program (ARP) and partial ARP accounts, as well as accounts not set up for reconciliation services.

We also offer account reconciliation online reporting through SinglePoint and may be downloaded. You can select from a variety of report options, including reconciliation summary reports, reconciliation data files containing the detailed disbursement transactions, daily checks paid and outstanding check files. The reports are available for three statement cycles. The City may extend the reporting to six statement cycles with extended retention.

Images of cancelled checks are available through Information Reporting, Image Access or Image File Delivery services.

xvi. Provide samples of full reconciliation reports.

Please refer to

- [Exhibit 16, SinglePoint Account Reconciliation User Guide](#)
- [Exhibit 17, Full Reconciliation Direct Transmission Sample Reports](#)

xvii. Can the bank create a 'Post No Checks' block on accounts? Describe.

U.S. Bank can place a check filter blocking all checks to post to an account. The check filter service mitigates risk and helps reduce losses due to check fraud. It allows U.S. Bank account holders to

prevent check transactions over a customer-specified dollar amount or block all checks from posting to an account. Any check presented where the dollar amount is more than the established threshold will be returned Refer to Maker. The City determines the maximum allowable dollar amount or blocks all check transactions from posting to an account.

H. Wires and Internal Transfer Services

The City currently uses ACH rather than wires whenever possible but has approximately 43 outgoing and 10 incoming wires each month and an occasional international transaction. Most outgoing wires are non-repetitive and all are input online. Online input is required and online monitoring is preferred. The City uses wires for power purchases and paying agent transactions currently.

Incoming wire transfers must receive same day credit. Wire initiation and release must be available online. The City will require compensation for delays caused by bank errors at that day's Fed Funds rate.

i. Can all wires and international transactions be initiated and monitored on-line?

Yes, SinglePoint Wire Transfer module provides the City with a real-time interface for initiation (domestic and international), confirmation and wire transfer advice reporting.

ii. Can repetitive templates be created and stored? Is there a template storage fee?

SinglePoint saves a free-form wire transfer to a wire transfer template via the "Save as Template" feature. We support two wire repetitive initiation types:

Repetitive

For clients who frequently transfer funds from one account to another, repetitive wires offer convenience and speed. The wire detail is preprogrammed with predetermined receiving bank, beneficiary account name and beneficiary account number. An assigned repeat code specifies the debit and credit accounts. Only the date and amount variables change when a transfer is initiated.

Semi-repetitive

Similar to repetitive wires, semi-repetitive wires also allow variable text information to be included with each transfer.

We do not charge a template storage fee.

iii. What level of security authorization/release do repetitive or non-repetitive wires require? Is authorization for repetitive and non-repetitive the same?

Security safeguards for each U.S. Bank wire initiation method are described in the following table.

Initiation method	Security
Voice	▪ We issue a user PIN, which is required to request wire transfers ▪ We perform callbacks on all non-repetitive wire transfers initiated exceeding \$10,000 ▪ You grant individuals callback approval authority as set forth in the Wire Transfer Agreement ▪ Dollar amount limits are set for users for initiation and approval
Internet: SinglePoint	▪ A password and user ID are required to log in to SinglePoint ▪ A VeriSign token is required to enter the wire transfer service within SinglePoint ▪ We issue a user PIN, which is required to request wire transfers ▪ A secondary authorization (approver) is required on all free-form wire transfers ▪ Dollar amount limits are set for users for initiation and approval ▪ Cumulative dollar amount limits per day for initiation and approval are also available ▪ 128-bit SSL encryption through the browser encrypts the entire SinglePoint session
CPU to CPU: Batch Wire and Direct Wire	Security procedures for wire initiation approval and submission are defined, managed and maintained at your site prior to the wires being sent to us for processing.

Limits may be set for each user on repetitive and non-repetitive wires. Non-repetitive wires require a confirmers approval before the wire is sent for processing.

iv. Is future dating of wires and transfers available? How far in advance?

Yes. Our wire transfer system warehouses instructions for domestic and international USD wire transfers with effective dates up to 30 days in the future. International foreign currency wire transactions can be warehoused up to 30 days when initiated through SinglePoint; indicative rate flow is used, so a new rate is applied on send date. International foreign currency wire transfers using a contract cannot be future dated.

v. State wire access, posting, and cut-off times.

Cutoff times for same-day wire transfer initiation (Pacific Time)

Cutoff times vary by type of wire transfer.

	Voice and phone	Direct wire	Batch wire translation	Batch wire standard	SinglePoint	SWIFT
Domestic same-day						
Internal/book	4 p.m.		2:45 p.m.	3:15 p.m.	4 p.m.	

	Voice and phone	Direct wire	Batch wire translation	Batch wire standard	SinglePoint	SWIFT
Drawdown	3:15 p.m.				3:15 p.m.	N/A
Fedwire						3:15 p.m.
Federal tax payment	12:30 p.m.		N/A		12:30 p.m.	N/A
Domestic future-day						
Book	4:30 p.m.	N/A	2:45 p.m.	3:15 p.m.	No deadline	No deadline
Drawdown						N/A
Fedwire						No deadline
Federal tax payment	12:30 p.m.		N/A			N/A
International same-day*						
U.S. dollar	3:15 p.m.**		2:45 p.m.	3:15 p.m.	3:15 p.m.**	
Foreign currency					2 p.m.	
International future-day*						
U.S. dollar	4 p.m.	N/A	2:45 p.m.	3:15 p.m.	No deadline	
Foreign currency	N/A					

* Same-day, in international terms, means the wire transfer will be sent to the foreign bank today. International wires to major foreign banks generally post the funds to the beneficiary account within two business days. For some countries and/or smaller banks, a few extra days may be required.

** For international same-day U.S. Dollar direct wire, SinglePoint and SWIFT initiations, the cutoff for payments exceeding \$1 million may require a 2:30 p.m. PT cutoff.

Incoming wire transfer deadlines

We grant immediate credit for transfers received by cutoff.

- Domestic
 - Internal/book—4 p.m. PT
 - Drawdown and Fedwire—3:45 p.m. PT
- International
 - U.S. dollar—4 p.m. PT
 - Foreign currency—2 p.m. PT

vi. State the bank's policy on the use of ledger balances for outgoing wires in anticipation of scheduled activity or incoming wires.

To facilitate wire transfers and other routine business, U.S. Bank can establish an intraday limit for the City to ensure the movement of funds as needed. These limits are set for control purposes. Decisions to release wires with daylight overdrafts are made on a discretionary basis. However, to protect your interests, we'll consult with you on wires exceeding the established daylight overdraft limit.

vii. Can internal account transfers be processed totally on-line?

Yes. SinglePoint Book Transfers enable the City to manage your financial position and easily move funds between U.S. Bank accounts. Your funds are immediately available upon completion of a book transfer; for maximum flexibility, funds movement can also be future dated, up to 30 days in advance. Users can create book transfers on a single page or from a template.

You can send up to 25 book transfers from a single page using the batch book transfer option, including transfers from a single account or multiple accounts and enter the same account multiple times. Up to 500 book transfers can be sent at one time by importing a comma-separated value (CSV) file of book transfers or by using data transmission methods.

An approval process provides up to two levels of control. Approvers can view full details of each book transfer and confirm approval or make modifications to single or multiple book transfers. Approval levels can be set separately for different users and template or non-template transfers.

Users can create templates for commonly used book transfer details and add a schedule to the template so that transfers are automatically initiated based on scheduled dates. Virtually all your account information is pre-filled with default values and is otherwise selectable from dropdown lists. You only need to select a source, a destination, a value date and the amount.

viii. Are book transfer debits/credits all handled online?

Yes. Please see question vii. The City also has the option to transfer between accounts through CCS.

I. Optical Imaging

In an effort to reduce paper handling and storage, the City is focused on imaged documents. An average of 9,500 deposited items are stored monthly.

i. Describe the bank's optical imaging services and list all the items captured along with their retention schedules.

SinglePoint Image Access

The City can retrieve and review sharp, detailed images of all paid checks, deposit tickets, deposited checks, paper debit and credit memos online. Images of returned deposited items, advices, image

cash letter (ICL) deposited items and ICL administrative returns are also available. Ease of use is built into each component.

The flexible search tool lets you search by transaction type, account number (or all accounts), check number, amount or date. Prefilled dropdown selections make criteria selection fast. Sort search results by any column with one click. Search results can also be downloaded for further research.

- Images are retrieved in seconds and can be viewed immediately if they are less than 90 days old
- Paid check images can be viewed by 7 a.m. local time the day after they are paid
- For Controlled Disbursement accounts, same-day images can be viewed by late afternoon the day they are paid
- Images older than 90 days and photocopies can be requested online from our archive, where we store seven years of images
- Requests for digital archived images appear in an image inbox and can be shared with others

The image viewer offers front and back, zoomed in and out, rotated and inverted views. You can zoom directly to the endorsement, signature line, routing number or bank-of-first deposit. You can save images for historical reference and paid check confirmation. Front and back images can be saved as standard PNG or ZIP files. You can print multiple images at a time.

SinglePoint Image File Delivery

The City can receive a transmission of images and associated index information on a daily, weekly or monthly basis using standard internet-based File Transfer Protocol (FTP) methods. Images can be imported into your own image archive – allowing you to quickly and easily research and respond to customer inquiries.

- Daily transmissions available by 10 a.m. PT the day after images are captured
- Weekly, monthly and custom transmissions available by 6 a.m. PT the third day after capture cycle ends
- Single-use transmissions of historical images available within 48 hours from 4 a.m. PT of the submission date

SinglePoint Information Reporting

SinglePoint provides online image enhanced reporting for 60 days, with optional retention for 90 days, including:

- Detailed report and transaction search results
- Positive pay services
- Stop payments (cleared checks only)

ii. What images are available on-line? When? How long are images available on line?

Please refer to question i.

J. ACH Services

ACH service is currently used for payroll direct deposit (for 96% of an average 1300 total employees). The City also uses a direct debit draws for approximately 2,300 utility payments per month. The water utility bills on a daily cycle. ACH is used for some vendor payments and the City plans to expand this use. The City requires pre-notification and filters/blocks on all accounts.

i. Is ACH service available for online individual transactions as well as file transmission? What are the cut-off times for each?

The City may initiate a transaction via:

- ACH Direct File Transmission—Accepts industry standard and proprietary data formatted files and provides confirmation notice that file was received
- SinglePoint ACH Origination—Allows manual entry of transactions and import in Nacha, comma-separated value (CSV) and fixed length file formats (immediate detailed audit and activity reporting available)
- Third-party service providers—Originate ACH transactions through U.S. Bank using third-party service provider
- ACH Origination via API—ACH origination via API allows clients to send payment instructions for ACH transactions to U.S. Bank using a Representational State Transfer (REST) Application Programming Interface (API)

U.S. Bank ACH initiation cutoff times (Pacific Time)

Input method	Standard ACH deadlines	Same day ACH deadlines for transit items*	Same day transfer deadlines for on-us items (U.S. Bank accounts only)
SinglePoint ACH Origination (web)	7 p.m.	11:45 a.m.	▪ 3 p.m. for afternoon posting ▪ 9 p.m. for end-of-day posting
ACH direct file transmission – Nacha Format	9:30 p.m.	12:30 p.m.	▪ 3 p.m. for afternoon posting ▪ 11:30 p.m. for end-of-day posting
ACH via data translation services	6 p.m.	11:15 a.m.	Not applicable
Consolidated payables			
ACH adjustment requests	5 p.m.	11 a.m.	1 and 5 p.m.
ACH positive pay exception decisions	5 p.m.		
ACH Origination via API	8:30 p.m.	Noon	Not applicable

*The deadline for same business day on-us processing when sending a file in EDI or custom format is 2 p.m. PT.

Our ACH data warehouse retains future-dated transactions for up to 30 days from the initial transaction.

You may schedule future-dated transactions through SinglePoint ACH Origination up to 10 years into the future. SinglePoint stores ACH file information in its own database until two days prior to the effective date, at which time SinglePoint queues the files for processing in the ACH system. SinglePoint's scheduled transactions do not affect your risk limits until they are queued for processing two days prior to the effective date.

We follow established Nacha guidelines for posting ACH entries and making funds available on the effective date. We send and receive files from the ACH network operators several times throughout the day.

- Credit transactions posted from morning processing windows by 5 a.m. PT (at which point they are considered collected and affect collected balance)
- Debit transactions memo-posted during same windows and hard-posted at end of day (debit transactions also affect collected balance)
- Transactions received from the ACH network with a same day effective date are posted during the afternoon and affect collected balance)

ii. Describe how individual ACH transactions are input online? What security features are in place?

Individual ACH items may be input online on a template format through SinglePoint's ACH Origination module. Authorized users must have a token and entitlement to this module to create a template. The City may opt to have additional approval levels enable, such as having one person create a template, a second person approve and initiate and a third person approve.

iii. What is the policy and process for handling of ACH returned items?

We match ACH return items to a combination of the following on the control file

- Trace number
- Credit versus debit transaction code
- Receiving financial institution routing and transit number
- Dollar amount
- Account number

Report options include:

- ACH Settlement report
- ACH Return and Notification of Change (NOC) report via special reports
- ACH Return and NOC report via standard reporting (includes advanced filter, sort and export)

If one of these fields does not match, the returned item becomes an unresolved return.

- U.S. Bank ACH reviews each unresolved return; if the returned item is still unresolved, we may then settle the amount to the City's settlement account
- Exceptions do not appear in your information reporting since they are handled manually due to the original item no longer existing within the ACH system
- We manually fax all Unresolved ACH Return reports to you. The volume of unresolved returns is very low

ACH return item processing is completed at end of day, at which time funds are posted to the account. ACH Return reports are available the next business day, from SinglePoint's special reports menu. ACH returns can also be reported back to you via fax or transmission. The ACH Return Transmission reports previous day settled returns or current day returns that settle at the end of the day and is available by 7 a.m. PT.

Additional return and NOC items are sent from other financial institutions with Same Day ACH items. These items appear on the ACH Return reports the following business day. If you opt to receive your return and NOC information in a Nacha formatted file via direct file transmission, you may opt to add another return settlement later in the day and receive those additional items in another transmission file.

To assist with the collection of returned items, we offer a redeposit service. You instruct us to automatically redeposit and represent an ACH transaction returned for nonsufficient funds (NSF RO1) or uncollected funds (UCF RO9). Items can be redeposited up to two times per Nacha rules and you can determine the number of days or day of the month to schedule the redeposit. You can also specify a minimum and/or maximum dollar amount for the transactions you want redeposited. Reporting of items using this service is available from SinglePoint Special Reports, by fax or by transmission.

iv. Can ACH items and files be future dated?

Yes, ACH items and files may be future dated 30 days in advance. These items will be stored in our warehouse.

v. What specific filters and blocks are available on the accounts? Define and describe all your fraud filter and block options.

U.S. Bank offers several ways for the City to protect your accounts from ACH transactions.

ACH Filter, ACH Block, ACH Positive Pay & eCheck Block

Our ACH filter and block service protects the City's deposit accounts against unauthorized ACH debit and credit transactions. Business eCheck block allows you to block WEB and TEL payment types and the converted check payment types ARC, POP and RCK.

Additionally, SinglePoint ACH Positive Pay allows you to add new authorizations to your accounts online. Authorizations are rules established by you to determine which incoming ACH credits and debits should be allowed to post to your accounts.

UPIC (Universal Payment Identification Code)

We also offer the UPIC® secure account identifier – a unique account number that allows ACH credit transactions to post to a designated U.S. Bank account while blocking ACH debits from your account. A UPIC looks and acts just like a regular bank account. It masks your account number, allowing you to receive electronic credit payment without revealing sensitive bank information to your business associates. Using a UPIC, you can publish account information freely to encourage your trading partners to send electronic payments without the fear of fraud on your business demand deposit account (DDA). Only credit transactions can be sent using a UPIC account number, which helps protect your account from fraud.

vi. What policy, process and time requirements exist for file and item reversals and deletions?

The City has several options for requesting an adjustment to your file, batch or items. You can submit adjustment requests to our ACH operations area through SinglePoint ACH Adjustments or by emailing a request form to our ACH operations group. We recommend clients use the SinglePoint ACH Adjustments, which allow specific users to be entitled to the service and access information on requests that have been submitted. Under the ACH rules, ACH reversals must be completed within five banking days of the settlement date of the original transaction. After five days, the letter of indemnity service option can be used to request that the other bank returns the transaction. However, the other bank is under no obligation to do so.

Note: Same day effective dated transactions destined for other banks are submitted to the ACH network operator midday. This allows very limited time to delete these transactions. Reversals of Same Day ACH payments are allowed.

A file, batch or item previously transmitted to the ACH operator may be reversed up to five days after settlement date for errors specified under the Nacha rules and within the timeframes specified by the rules.

- If the item, file or batch is still in the ACH warehouse and has not been released for processing, U.S. Bank processes the adjustment as requested
- If the item, file or batch has already been processed, we attempt the adjustment or notify you that the adjustment may not be completed as requested
- If an item is past the five banking-day timeline for reversals, our ACH Customer Service department issues a letter of indemnity to the receiving bank to recall the funds

Note: Same day effective dated transactions destined for other banks are submitted to the ACH network operator midday so the timeframe to delete transactions is very limited. Reversals of Same Day ACH payments are allowed.

Reversals received other than through the adjustment service, such as a file of transmitted reversals, are processed during the next available processing cycle.

Users must have a unique Company ID, User ID and Password to submit requests through SinglePoint ACH Adjustments. The adjustment request is then managed online and completed under dual review procedures by authorized members of the U.S. Bank ACH Operations group. For email requests, standard forms are provided and require the signature of an authorized signer.

The ACH Settlement report, available through SinglePoint's Special Report menu, provides details of adjustment requests and confirms when the request was processed. You may also call U.S. Bank to verify your reversal or deletion adjustment has been received and processed.

vii. Are ACH addenda shown in their entirety on-line and on detail reporting, reports and statements? How many characters are on the trailer file? Is the entire trailer printed on reports and statements? Does this require additional EDI or other service or access?

Yes, SinglePoint displays remittance information associated with received ACH or financial EDI transactions. The first 80 characters of the addenda are displayed. The City can access the following special reports menu which offers a comprehensive view of remittance information detail via:

- ACH Transaction Capture
- ACH Received Item
- EDI Remittance
- ACH Addenda Reporting (BAI)
- ACH Healthcare Remittance

Each report summarizes remittance information and provides additional detail to update internal accounts receivable systems.

U.S. Bank can also transmit a Nacha formatted file of received ACH transactions, which includes addenda.

viii. The City will require pre-noting. Is the pre-note charged as a standard ACH transaction?

We recommend processing prenotes for each distinct type of ACH transaction. The prenote is an excellent way to ensure that the bank routing transit number and receiver account number are valid. We suggest initiating prenotes three business days in advance of live transmission, in accordance with Nacha rules.

Prenotes do not validate the identity of the receiver, we recommend using a live micro-transaction or Account Validation to establish the identity of the receiver if this is desired.

For clients who have been utilizing any kind of NOC correction service with another financial institution (and have not been updating their system of record) we recommend sending prenotes as part of the integration process, prior to sending any live transactions.

K. Safekeeping/Custody Services

All City investments will be made by the City Finance Department or its investment adviser and written instructions for settlement will be given to or transmitted to the bank safekeeping area by an authorized individual. The bank will be required to provide book-entry safekeeping services through the bank or a correspondent. Correspondent processing is not preferable.

All securities must be cleared on a delivery versus payment (DVP) basis and ownership clearly and timely documented by receipts. All interest payments and maturities shall be given immediate collected credit.

The City anticipates an average of between 160 book entry securities in safekeeping at any time with an average par value of \$775 million in FRB or DTC safekeeping. Ownership of the securities must be perfected and evidenced by an original safekeeping receipt or access to online information directly to the City within one business day.

The bank's brokerage services will not be used for investment purchases in order to perfect DVP. Certificates of deposit may be purchased from the bank but these will be on a competitive basis.

i. Is online trade input available?

Yes. The City and your authorized investment managers are able to enter trades directly through our online portal, Pivot.

Pivot's trade feature allows for customized access by users, multiple trades submission for a single account, dual-approval functionality and status updates throughout the trading process. Trades may be entered through Pivot up to 31 days in advance and can be modified or canceled until the morning of the order date. Pivot also grants the ability to control the processing of trades, along with:

- Easy, intuitive direct entry of trade information
- Trading only in the security types appropriate for you
- Options for up to two approvers
- Quick, accessible viewing in pending trades and in holdings report
- Confidence that trades are settled promptly
- Email reminders of future-dated trades

All trade activity submitted via Pivot's trading feature can also be accessed in a single report with multiple sorting and customization options. Use of our secure online client portal for trade processing

allows you to automate manual processes that can lead to operational and settlement risk while reducing operating costs.

Based on the needs of you and your investment managers, U.S. Bank can accept trade communications via SWIFT messaging, email, electronic file transfer or DTCC's (DTC) Institutional Delivery (ID) System. We interface with a number of investment-specific systems such as Advent and Envestnet.

We encourage the use of the DTCC/ID System for all eligible trades because it allows investment managers to affirm their trades, which generate an affirmation or matched affirmation confirmation for the agent bank to use as authority to settle a given trade. No phone or written authorization is needed when this method is used.

ii. Is online settlement monitoring available? Describe all options.

Yes. U.S. Bank settles on a contractual basis; accounts are debited or credited on the settlement date, whether or not the trade is completed on the actual date. Your client service team will resolve any problems that may arise when settling trades, ensuring all securities are received and funds collected, thereby minimizing the occurrences of failed trades. Contractual settlement makes our clients' failed trades transparent while the U.S. Bank Trade Services staff resolves issues with brokers, depositories and investment managers. However, we do have the capability to settle on an actual basis if desired.

In addition, Pivot's trade feature allows for customized access by users, multiple trades submission for a single account, dual-approval functionality and status updates throughout the trading process.

Finally, the City and authorized users have access to a real-time Pending Trades report which shows any pending or projected trade activity in your accounts:

Contents of the Pending Trades report

▪ Account number	▪ Entry date
▪ Settlement date	▪ CUSIP
▪ SEDOL	▪ Maturity date
▪ Broker number	▪ Price
▪ Trade amount	▪ Account name
▪ Trade date	▪ Trade type
▪ Ticker	▪ Description
▪ Broker	▪ Units
▪ Accrued interest	

iii. What safekeeping relationship is proposed? Will safekeeping be done in the bank or in a subsidiary or correspondent? Fully describe the transactions and relationship.

U.S. Bank will expand the existing custody and safekeeping relationship. We feature a comprehensive system for safekeeping and securities settlement management. Our approach features direct memberships, contractual settlement, a dedicated Trade Services department and a highly automated trust system that functions in real time. Our clients will see their trades as executed, regardless of what is happening in the market. Additional benefits of our safekeeping and securities settlement management services include:

Direct memberships

U.S. Bank is a direct participant of DTC and the Federal Reserve. The Bank is an escrow bank member of the Options Clearing Corporation. Assets are also maintained at U.S. Bank division vaults.

Security position reconciliation

Trade positions for settlements with outside depositories are reconciled daily using the U.S. Bank trust system and net settlements are made with each depository. Global asset positions are reconciled weekly.

Integrated system

Major capital expenditures have been made to integrate the primary system supporting trust and securities accounting, with the securities movement and control system, reporting system, benefit payment system and other trust-related systems, resulting in a trust and custody system with greater capabilities and less prone to error.

Automation

The U.S. Bank trust system is highly automated and functions in real time (as opposed to a batch environment, which significantly limits same-day trade activity). The system, which is upgraded quarterly, automatically establishes a communication network between DTC and U.S. Bank when registering assets. The network completes the following tasks:

- Sends confirmations daily for all trades
- Creates pending items from these confirmations
- Transmits affirmations back to U.S. Bank
- Settles pending items automatically
- Provides daily activity reports
- Automatically processes dividend and interest notifications
- Provides position reconciliation
- Creates securities movement and controls pending items for trades settling at DTC

Trade services advantage

U.S. Bank Trade Services is a centralized, tenured team that works directly with externally managed accounts. The City will continue to benefit from a dedicated team member and a centralized team to

ensure they are always working with an individual with extensive knowledge of the securities industry, with a close relationship with brokers and investment managers.

Trade communication

Based on your needs and those of your investment managers, U.S. Bank can accept trade communications via our online portal, Pivot, as well as SWIFT messaging, fax, email, electronic file transfer or DTCC's (DTC) Institutional Delivery (ID) System. We interface with a number of investment-specific systems such as Advent and Envestnet.

We encourage the use of the ID System for all eligible trades because it allows investment managers to affirm their trades, generating an affirmation or matched affirmation confirmation for the agent bank to use as authority to settle a given trade. No phone or written authorization is needed when this method is used.

Contractual settlement

U.S. Bank settles on a contractual basis; accounts are debited or credited on the settlement date, whether or not the trade is completed on the actual date. Your custody team will resolve any problems that may arise when settling trades, ensuring all securities are received and funds collected, thereby minimizing the occurrences of failed trades. Contractual settlement makes clients' failed trades transparent while the U.S. Bank Trade Services staff resolves issues with brokers, depositories and investment managers.

iv. Identify any correspondent bank used for custody.

U.S. Bank will provide all custody services in house.

v. If a correspondent is to be used, define the process and confirm same-day crediting/debiting on all transactions. Describe any additional City actions required.

Not applicable.

vi. Are safekeeping fees hard charged or available through the account analysis?

The custody and safekeeping charges would be charged directly to the City. These charges would not be part of the account analysis.

vii. The City desires call and maturity notification. How and when can this be provided?

The City can utilize the U.S. Bank online reporting tool, Pivot, to schedule the Holdings Detail report on a daily basis.

Included Pivot data points

- | | | |
|-------------|--------------------|-----------------|
| ■ Call date | ■ Ex-Dividend date | ■ Current price |
|-------------|--------------------|-----------------|

Included Pivot data points

- | | | |
|-----------------|-------------------------|----------------|
| ▪ Call price | ▪ Dividend record date | ▪ Pricing date |
| ▪ Maturity date | ▪ Dividend payable date | ▪ Issue date |

The U.S. Bank trust system auto-posts anticipated income to your income accounts. Income is contractually posted to accounts on payable date, except for variable or floating rate issues. Trust income processing is primarily exception-based processing. We perform pre- and post-reconciliation between the U.S. Bank trust system and our depositories and paying agents to ensure accurate and timely posting of income.

After payable date, the Trust Income department uses daily suspense reports to review any outstanding credits received from the custodians and ensures the funds are posted to your account. If the depository fails to deliver the funds, the income specialist will initiate a claim on your behalf. In most cases, the specialist will not contact you unless there are unforeseen circumstances in which the funds cannot be collected.

For maturities, the U.S. Bank trust system auto-pends, then auto-posts all maturity payments to your accounts based on maturity date information in the security maintenance file for maturing securities. We will match and balance payments against depository funds received by the end of the day. Any payments that have not been received from the depositories are reversed and re-pended in your accounts until receipt of funds is verified.

U.S. Bank receives call announcements (full and partial) from the depositories. In the case of partial calls, we will run an impartial lottery that selects the accounts and quantities to be called for each security. We then send notification(s) to your administrators (based on tickler information) within 24 hours of receiving the valid call announcement. Each notification will delineate quantity held, pay date, principal and interest rates to be paid and quantity called and publication date (for partial calls). Our Corporate Actions team sets up an event on the trust system, which will auto-pend the payment transaction. Trading of the called securities will be frozen but may be lifted upon request for full calls only. Payments will auto-post to your accounts on the pay date. U.S. Bank will match and balance payments against depository funds received by the end of the day. Any payments that have not been received from the depositories are reversed and re-pended in your accounts, until receipt of funds is verified.

viii. Will a security clear if incoming wires are expected where a wire number can be provided?

U.S. Bank settles on a contractual basis; accounts are debited or credited on the settlement date, whether or not the trade is completed on the actual date. Your client service team will resolve any problems that may arise when settling trades, ensuring all securities are received and funds collected, thereby minimizing the occurrences of failed trades. Contractual settlement makes our clients' failed trades transparent while the U.S. Bank Trade Services staff resolves issues with brokers, depositories and investment managers. However, we do have the capability to settle on an actual basis if desired.

ix. Are notifications sent on all transactions (purchase, sale, calls, and maturities)? When and how?

Yes. U.S. Bank provides a suite of transaction reports through our online portal, Pivot including:

- Transactions Detail
- Transactions Summary
- Transactions Global
- Transactions Interest and Dividends

These reports can be scheduled to be sent to authorized users on a daily basis.

x. What time are delivery instructions required? Is this a firm cut-off? Is there a fee charged for late instructions.

Transaction deadlines are included in the table below. Trades will be processed on a best effort basis if received after the cut-off time.

Transaction deadlines	
Transaction type	Instruction deadline (PT)
Equities, corporate and municipal bonds, commercial paper, medium-term notes, collateralized mortgage issues, zero-coupon bonds – already at DTCC	11 a.m. on settlement date
Federal Reserve book-entry securities; includes treasuries, agencies, GNMMAs	10:30 a.m. on settlement date
Sub-custodian book-entry securities; not eligible for Fed or DTCC	10 a.m. on settlement date
Sub-custodian physical securities	9 a.m. on settlement date minus 1
Purchase of physical securities to be held in the Milwaukee vault; includes private placements	One day prior to settlement date
Sale of physical securities held in the Milwaukee vault; proper documents must be included if asset is in client name	Two days prior to settlement date
Mutual fund (money market) trades	Varies by individual fund
Affirmed ID confirms	
T+2 settlement	8 a.m. on T+1 **Must be affirmed no later than 8 a.m. on T+1
Next-day settlement	1 p.m. on trade day
**Any trade affirmed on settlement date as well as any trades that settle on a “next day” or “same day” basis must be communicated by fax or email to the Trade Services team and a follow-up phone call confirming receipt is required.	
Automated transmission-SWIFT/Trade Hub/Bloomberg, TOEINT/interface	
T+2 settlement	8 a.m. on T+1

Transaction deadlines	
Next-day settlement	1 p.m. on trade day
Same-day settlement	11 a.m. on settlement day
Pair-offs	10 a.m. on day prior to settlement date
Tri-party repo	12 p.m. on settlement date
Manual fax/email trade instructions	
T+2 settlement	6 a.m. on T+1
Next-day settlement	1 p.m. on trade date
Same-day settlement	10 a.m. on settlement date
Swaps/futures/options	10 a.m. on settlement date
Pair-offs	10 a.m. on day prior to settlement date
Tri-party repo	12 p.m. on settlement date
**Any trade affirmed on settlement date as well as any trades that settle on a "next day" or "same day" basis must be communicated by fax or email to the Trade Services team and a follow-up phone call confirming receipt is required.	
Open-end mutual fund trades	
Instructions received via fax or email	11:30 a.m. on trade date
Instructions received via TOEINT/interface	12 p.m. on trade date
**Some funds may require an earlier cutoff. A list of those funds can be provided upon request.	
**First time purchases may take an additional one to five business days to be processed.	

L. Collateral Requirements

The City requires a bank that is fiscally strong and able to provide the services described on an uninterrupted basis. As public funds the City falls under provisions of the California Government Code Title 5. Collateral will be in place at least two (2) days before any funds are transferred.

The bank will be responsible for the pricing of securities and daily monitoring and maintenance of margin levels. The City may minimize collateral costs through use of the sweep mechanism.

i. Confirm agreement to the California collateral conditions noting any detailed exceptions to each.

We confirm agreement to the California collateral requirements.

ii. Will there be a fee for collateral?

Please refer to the following attachments:

- [Attachment A, Proposed Bank Fees](#)
- [Attachment B Proposed Merchant Services Fees](#)

M.Account Analysis

A monthly account analysis report shall be provided for each account and on a relationship basis.

i. Provide a sample account analysis.

Please refer to [Exhibit 18, Sample Account Analysis](#).

ii. State how and when the analysis will be available each month.

SinglePoint offers your account analysis statements online as part of the Special Reports module. Statements are available on the seventh business day each month and, like our paper statements, contain 12 months of history summarizing balances, earnings credit and net service charges. Statements within SinglePoint are available in PDF, TXT, CSV or an 822-file format.

iii. Is the analysis provided online?

Yes.

iv. How long is the analysis maintained on-line?

Statements contain 12 months' history, including:

- Summarizing balances
- Earnings credits
- Net service charges

N. Monthly Statements

The bank shall provide monthly account statements on individual accounts and on a relationship basis. All accounts are on a monthly cycle using the calendar month as cut-off. Timeliness of reporting is critical.

i. Provide a sample statement.

Please refer to [Exhibit 19, Sample Monthly Statement](#).

ii. When and how are statements available? Are statements provided online?

SinglePoint provides statements on the first day of the month following month end. Users can request a message alert for notification.

- DDA statements in PDF and TXT formats are available by 6 a.m. PT of the second day following month end. If the end of month falls on a Friday, the statement should be available on Monday.
- DDA statements with check and/or deposit ticket images are available in PDF format only.

- CSV formatted statements are available by 6 a.m. PT

iii. When is the statement available online?

Please refer to question ii.

iv. How long are statements maintained online?

Statements are available for 12 months online through SinglePoint.

O. Account Executive

To insure smooth contract implementation and continuation, a specific account executive and back-up must be assigned to the City account to coordinate services and expedite the solution of any problem. The account executive should meet with City staff semi-annually on banking matters at a minimum.

i. Provide the outline for the client support structure to be provided to the City by the bank. What level of support is available from local representatives?

The City is familiar with our ability to serve your needs with an engaged relationship team, integration resources and customer service group, each dedicated to supporting the City. Your U.S. Bank team can deliver innovation in processes, consistency in service and financial stability with continuity in performance and team.

Superior team support with experience serving the public

Your relationship team, led by Charline Botelho, demonstrates the breadth and depth of experience that the City will encounter in daily interactions with us. Donna Chu serves as your treasury management consultant. This group exemplifies the foundation of our relationship-based service model. Those team members dedicated to serving the City include Shelby Teach, senior service banker, whose background, perspective and understanding in government operations bring invaluable insight to meeting your needs.

ii. Explain how the proposed client support level will address problems and promote ongoing communications on a timely and efficient basis.

The City will receive daily servicing support from Relationship Manager, Charline Botelho and our CCS team, including a dedicated Senior Service Banker, Shelby Teach. CCS is dedicated to providing depository, loan and treasury management support at a premier level of service, including timely, thorough and responsive measures to ensure your satisfaction.

You may contact your service banker for your depository, loan and treasury management servicing to ensure the most appropriate action is taken and your satisfaction is achieved. Your service banker will

take ownership of your inquiry with final resolution often occurring during the initial call. If a request cannot be immediately resolved, we will discuss expectations for the time of resolution. If more technical research is required for issue resolution, she contacts the appropriate area within U.S. Bank to assist, including your relationship manager to ensure she is also kept up to date on the situation.

iii. Is there a protocol and/or system for monitoring and providing solutions to individual problems?

Yes, the City may contact Shelby Teach or her team. Every member of her team has a thorough knowledge of your services, business practices and key contacts for treasury services-related issues and they are empowered to escalate for more detailed support.

Three-tier escalation process	
First level: Commercial Customer Service (CCS)	
When an issue is identified, your first step is to report it to CCS, who enters it into our call tracking system and attempts to resolve it. If the service banker is unable to resolve the issue, CCS escalates it to a product-specific Level Two support team.	
Second level: Escalation to appropriate operations/integration managers	
Level Two support team resolves issue and updates tracking data, or if not resolved, interested parties are brought together to assist in resolution.	Parties could include: ▪ CCS team leader or site manager ▪ Relationship manager ▪ Treasury management consultant ▪ Treasury management support manager ▪ Operations manager
Third level: Escalation to senior management	
If the issue is still unresolved, it is escalated to senior management.	Reasons for escalation at this stage include: ▪ Issues with unacceptably prolonged closure ▪ Issues for clients experiencing abnormally high quantity and/or frequency of service quality or system performance issues ▪ Chronic, recurring issues ▪ Issues that risk/may risk the client relationship

The issue is escalated by an appropriate manager (as listed in Level Two) sending an email summarizing the situation to the Operation Servicing Issues group. An appointed senior management banker then logs the issue and engages appropriate operations (or other groups) in the research and resolution of the issue.

Three-tier escalation process

All open issues are reviewed in the Treasury Management Operations Service Quality meeting every Friday. The purpose of the meeting is to review actual performance relative to all operations and IT service level agreements (SLAs). SLAs relate to system availability, accuracy and responsiveness. IT and operations managers speak to causes and remedial actions in process relative to missed SLAs.

iv. Provide the names and titles of the proposed account executives as well as their locations.

Charline Botelho

Senior Vice President, Relationship Manager
Sacramento, California

Donna Chu

Vice President, Treasury Management Consultant
Tucson, Arizona

Shelby Teach

Senior Service Banker
Portland, Oregon

v. What kind of technical support is available after business hours and on weekends?

U.S. Bank 24-Hour Banking provides general service around the clock. Bankers do not have access to your account signers, nor the customized knowledge your CCS team has, but they can perform servicing for anything that could cause potential loss (e.g., stop payment, fraud or card maintenance).

We may provide assistance identifying potential technical issues related to accessing banking services and provide suggestions to the City depending on the issue. Technical changes may occur to ensure your systems are compatible with our banking systems. It would be expected that you have technical resources available (your IT department) to advise and/or implement any suggested changes. In some cases, these technical issues are the result of network settings or problems on the City end and U.S. Bank would not be able to assist with troubleshooting steps.

P. Overdrafts

Every effort will be made by the City to eliminate net aggregate daylight and overnight overdraft situations.

i. State the bank's policy regarding aggregate overdraft charges and the fees, if any.

Daylight overdrafts

As required by the Federal Reserve, we monitor real-time daylight overdrafts by account and client relationship. If the City has a zero-balance account (ZBA), we aggregate the balances within the hierarchy.

Daylight overdraft limits

We can establish an intraday limit for the City in order to facilitate wire transfers and other routine business that requires movement of funds. Daylight limits are set for control purposes and the decision to release wires is based on a discretionary basis. In the event your wires exceed the established daylight overdraft limit, we will contact the City for further action to cover the funds.

Daylight overdraft fee

Currently, we do not charge the City for daylight overdrafts.

Overdrafts

We access overdraft reports daily and will notify your Relationship Manager, Charline Botelho, who will contact the City to determine the course of action to cover the insufficient funds. Once a determination has been made, Charline Botelho will proceed to pay or return items, based on your feedback.

Overdraft fee (negative collected)

We charge an overdraft fee plus a percentage (Prime rate plus 4%) of the negative collected balance on your account.

Federal Reserve error

In the event there is an error at the Federal Reserve and the U.S. Bank image cash letter (Fed receipt plus) file is sent beyond our established service level agreement, we hold the late items and include them in the next day's presentments, so you are not negatively impacted.

Overdraft charges

If an account becomes overdrawn, we assess an overdraft fee whether the item is paid or returned. In most instances, the fees are charged through the analysis system and can be offset by the earnings credit allowance.

A charge for negative collected balances may apply. The negative collected balance for each day is totaled and divided by the number of days in the month to produce an average negative collected balance. The fee is calculated as follows:

$$\frac{(\text{Average Negative Collected Balance} \times \text{Rate}) \times \text{Actual Days in the Month}}{360}$$

* Our standard negative collected funds rate charged is Prime plus 4%. This fee can be offset with earnings credit.

Please refer to [Attachment A, Proposed Bank Fees](#) for per-item fees.

Overdraft bank error

Relationship Manager Charline Bohelto and other departments take appropriate action for overdrafts that result from a bank error.

Fee cap – Controlled Disbursement

We charge the City fees for overdrafts and nonsufficient funds per account, based on product / service.

Overdraft interest

We address interest on overdrafts.

Direct charge or earnings credit

We apply earnings credit allowance balances to offset fees and assesses the remainder of the fees as direct charges.

6.0 Additional or Alternative Services Proposed

Alternate Banking Services - The City is always investigating new processes to streamline and improve internal operations. The proposer should use this area, if desired, to illustrate any alternatives and new services which it feels would benefit the City.

Automated Escheatment

U.S. Bank Automated Escheatment Service is a full, end-to-end solution for unclaimed property and escheatment. Automated Escheatment Service includes visibility and reporting of aging property to help prevent it from becoming unclaimed. In addition, all aspects of the escheatment process from liability analysis to due diligence mailings to state filings and remittance are covered. Delivered through our SinglePoint® 2.0 platform, this unique and differentiated service benefits the City with:

- Integration with our check payables solutions
- An automated workflow
- An exceptions-based design – requiring minimal client interaction

Our streamlined process allows payees to digitally claim their property, increasing the probability of successful claims.

Account validation

This solution can help you reduce fraud, exceptions and returns. By providing instant access to account status and ownership information, account validation can help clients:

- Ensure the account information you received is accurate
- Verify the account belongs to the party who sent it
- Determine the likelihood of a returned transaction due to insufficient funds based on past transactional data

The Account Validation Inquiry screen requires (please see the visual):

- Account status
- Account ownership with status
- ABA routing number
- Account number
- Amount
- Check serial number
- Business name
- TIN
- Address (city, state, zip code)

Account Validation Inquiry

Select the inquiry type and fill out the fields. Then click Submit.

Payee Choice

The City may use a payment management website hosted by our vendor Incedo, Inc. to:

- Customize a consumer enrollment website with the City's brand and payment options
- Initiate payment notice and communications to your customers
- Manage the City's users
- Track payment status, search payment history and export reports

The process is simple:

- When the City is ready to send payments, you upload a file with basic payment information (student/consumer name, email, dollar amount)
- Customized emails are then sent to students/consumer payees, letting them know a payment is pending and directing them to the City -branded enrollment website
- Your customers access the enrollment website, choose a payment method and provide any additional details. Payment methods include direct deposit, Zelle® or check
- Once your customer provides their payment choice, Incedo submits payment information back to U.S. Bank for initiation through standard payment channels (ACH, Disbursements via Zelle®, check or prepaid card)

Since this is a new payment process, you will need to notify your customers of the options, so they know what communications to expect.

Real Time Payments (RTP)

Real-Time Payments (RTP) was built to address the struggles and inefficiencies when making business-to-business (B2B) payments. It allows payment originators to make payments to their trading partners in real-time 24/7. The service has also built real-time messaging capabilities that foster straight through processing by allowing users to send a Request for Payment (RFP), Request for Information (RFI) or Payment Acknowledgement for both sender and receiver.

Real-Time Payments:

- Provides payment control. You can send payments 24/7
- Keeps you informed. Payment acknowledgement for sender and receiver
- Streamline exception processing. Take control of your payments by using real-time messaging capabilities within the network
- Provides fast payment delivery. Your payments post to recipients within seconds

- Tracks payment status. Powerful transaction and recipient status reporting (reports can be easily uploaded to your A/P system)

ClickPay

ClickPay allows a client to streamline the check acceptance process and enhance the payment experience for their customers by allowing them to submit payment by sending check images via their mobile phone (This service is currently in the early adopter phase). For example, a customer of the City could utilize this service to make their utility payment.

How Does it work?

- Payer takes a picture of the front & back of their check from their mobile device
- Mobile App reads the routing and account number from the check and automatically populates payor's banking info
- Payment processed through Image Cash Letter to the City checking account

How does it help clients and end-user?

- Payer feels comfortable paying by check, from the comfort of home
- Payer receives confirmation that the biller has received their payment
- The City does not need to manually process or scan paper checks
- ClickPay reduces retail lockbox traffic; check-only exceptions

7.0 OPTIONAL BANKING SERVICES PROPOSED

Optional Banking Services - The proposal must include a response to each question in this section and all fees associated with the services must be shown with fee proposal. If the service is not available, respond as “Not available”.

The City continually investigates new services for use and possible inclusion under its banking services contract. The following services are not currently required but will be evaluated in terms of availability, feasibility, service levels, services provided and charges for current, or future, use under the contract.

The City will make its determination during the contract period as to whether a particular service will be used. If the service is initiated later in the contract period the services and charges stipulated in this proposal will be applied. If the bank currently does not offer the service but is planning to offer the service during the projected contract period, it should so stipulate along with the anticipated date of activation.

A. Commercial and Purchasing Cards

The City currently uses (250-300) purchasing cards from a separate vendor which may change under this contract, with average monthly spend of \$300,000 and 1,200 monthly transactions. These may be assigned to specific individuals or be used by a defined group.

i. Describe the bank’s program for (a) commercial credit cards and (b) purchasing cards for issuance to specific individuals or for general use by an institution.

The U.S. Bank Purchasing Card provides a cost effective, time saving payment option for your business-to-business procurement needs, while streamlining the purchasing process and supporting your supply chain management strategies. By using purchasing cards to place orders, the costs associated with processing requisitions, purchase orders and check requests are dramatically reduced. Simplification of the purchasing process includes policy compliance, supplier negotiations, transaction monitoring, security, reporting and payment.

Additional features of the U.S. Bank Purchasing Card

- | | |
|--|---|
| <ul style="list-style-type: none">▪ Worldwide acceptance▪ Online reallocation tool▪ Comprehensive spend reporting▪ Financial systems integration▪ Tokenization for mobile payments | <ul style="list-style-type: none">▪ Transaction and spend limits▪ Enhanced data capabilities▪ Experienced technical consultants▪ Tax and compliance management tools |
|--|---|

Complex purchasing programs require a comprehensive array of payment products. U.S. Bank matches the products to your needs. Side-by-side with traditional purchasing card accounts, we offer global solutions, procurement solutions for high dollar purchases and solutions that provide

sophisticated order management and integration with financial systems. Our purchasing solutions offer sophisticated spending controls at the cardholder and billing account levels as well as card integration and reconciliation capabilities with leading eProcurement providers.

Central bill accounts

We also offer a variety of central bill accounts (CBAs) to meet specific spending needs:

- Ghost accounts—Offer organizations all the same features and benefits of commercial cards, but without the actual plastic card. This provides an added degree of protection against potential card misuse
- Central Travel System (CTS) accounts—Centrally billed charge accounts to which all airline ticket purchases can be made. No card is issued; only your organization and/or your travel agency can issue airline tickets against the account. You will receive one easy-to-understand billing statement that outlines transaction detail for each charge. In addition, CTS offers the flexibility of unlimited subaccounts, so you can budget and separate expenses accordingly
- Event Planner cards—Created to meet the unique needs of your event and meeting planners. Our clients use event planner cards for charges such as room rental, audio-visual equipment, internet and teleconferencing services, transportation/group shuttles, event food and beverage, special event admission fees, or any other meeting-related expenditure not normally covered using an individual corporate travel card (U.S. programs only)
- Supplier accounts—Designated accounts assigned to key suppliers which your employees can use to make purchases exclusively at the designated supplier. Other suppliers in the merchant category code could be blocked from individual accounts to discourage spending at competing suppliers

Virtual Pay

The U.S. Bank Virtual Pay program combines the control and automation of client purchasing and payables systems with the simplified payment and incentive opportunity of commercial cards. Using Pre-Authorized Limit (PAL) and Single-Use Accounts, it enables the following benefits:

Benefits of Virtual Pay

- | | |
|--|---|
| <ul style="list-style-type: none">▪ Increased automation and visibility of payments▪ Reduction of paper including check payments▪ Increased control and reduced risk | <ul style="list-style-type: none">▪ Enhanced working capital optimization▪ Improved days payable outstanding▪ Increased incentive opportunities |
|--|---|

CAL-Card

The State of California's CAL-Card program is a purchasing card program.

Individual/Department Card

A card can be issued to an individual, or we can issue a department card to the City that may be used by multiple users of a department for authorized purchases. There will not be a cardholder name embossed on the plastic but rather a department or company name. A program administrator's name is required to be tied to the account. Please note that without an assigned individual's name and

signature on the card plastic, merchants may not accept it for payment processing because of the increased opportunity for fraud and misuse.

ii. What controls are available?

Our commercial card programs allow you to predetermine spending and transaction limits on each card, eliminating the need for requisition and purchase order approvals while enhancing security. We authorize every transaction at the point of sale, using controls your program administrators have specified. You decide how tight controls should be and we customize the program. All controls can be set down to the individual cardholder level and can be modified on an ongoing basis.

Some of the control features we provide include:

Merchant category code (MCC) blocking

To prevent purchases of specific commodities and services, we will block the MCCs that represent these items. We can establish universal MCC blocking for uniformity across all cards or set unique limits at the cardholder level. We can also set up MCC Group blocking consisting of a cluster of MCCs. We recommend that you choose blocking that fits the spending requirements for the majority of your cardholders and only use cardholder blocking on an exception basis.

Velocity monitoring

Velocity monitoring allows you to limit the number of transactions or dollar amounts per day, month, cycle, quarter, year or other (refresh date or date to clear and number of days).

Cardholder single-purchase limit

This limit restricts the amount of a single purchase made by the cardholder. Generally, a single purchase can be comprised of a single item or of multiple items purchased at one time at a particular location. For example, if a cardholder's single-transaction limit is set at \$500 and a cardholder attempts to purchase several items for a total of \$550, the transaction request is declined. Single purchase limits can also be assigned to specific MCCs.

Cardholder monthly spending limit

The monthly limit is the maximum dollar amount authorized for a cardholder within a 30-day billing cycle. Spending limits may vary between cardholders depending upon their level and projected usage. Spending limits are replenished automatically the day following your chosen cycle date.

ATM blocking

Cash advance capability may be blocked or limited either universally or at the cardholder level.

Expiration dates

You may set predetermined expiration dates on cards used for specific projects. Your program administrators may also cancel any card account at any time using Access Online, or by calling the customer service department or the account coordinator team.

Declining balance capability

U.S. Bank commercial cards can be set up so employees draw down from a pre-set amount using the card's declining balance feature. This allows you to set per-project dollar limits tied to a particular project or budget. The declining balance feature allows you to impose a pre-determined credit limit on your corporate-billed accounts. The card becomes inactive at the expiration date or when the declining balance limit is depleted.

Adjusting controls

Your program administrators can request changes to any of the above controls at any time using Access Online or by contacting customer service. Changes affecting a large number of cardholders can be processed more efficiently by requesting the changes through the account coordinator team.

Account maintenance effective dating

This Access Online feature provides entitled users with the ability to define effective dates for temporary and future permanent account maintenance requests. You will gain more control of your card accounts by controlling when a maintenance request is updated. Program administrators may use effective dating to change authorization limits, demographic information, account information, default accounting code and MCC blocking.

In addition to restricting spend through Access Online, we also assist in monitoring spend for out of policy activity through U.S. Bank Payment Analytics tool. Payment Analytics is a web-based solution that enhances auditing practices by looking beyond the traditional card controls to provide 100% commercial card transaction monitoring. Using customizable rule templates, you can automatically review all card transactions and flag suspected card misuse and out-of-policy spending. By automatically running policy rules on all transactions, Payment Analytics makes cardholder transaction monitoring dramatically more targeted, efficient and effective. Program administrators can receive email notifications of possible non-compliance and spend violations, so they can safeguard against commercial card misuse and improve purchasing practices.

iii. What reporting is available? Is all reporting web-based?

Comprehensive reporting is vital to the City for effectively managing your payment programs. With the Access Online reporting tool, you can run predefined standard reports or create organization-driven ad hoc reports with six years of transaction data available online and offline for a total of 15 years.

Access Online provides immediate access to your transaction data, allowing you to run reports whenever needed. The highly intuitive user interface makes it easy for you to access your vital program data. Users simply select from a list of reports, define specific selection and sort options, plus choose an output type.

Report categories

Available report categories include:

Program Management reports

Support general program management activities and allows you to monitor compliance with organization policy. Program performance indicators highlight important trends that you can use to proactively manage your accounts. Program administrators gain access to information on every type of account activity.

Financial Management reports

Allow you to access transaction management activity information; can be used to determine if cardholders are properly managing their accounts and ensure that expenses are assigned to the proper cost centers.

Supplier Management reports

Allow you to manage supplier relationships, support supplier negotiations and manage spending by category. Used to analyze the overall effectiveness of your supplier strategies and identify overall performance issues and opportunities. The City is armed with actual program performance information that can be leveraged to drive supplier behavior and positively impact supplier negotiations.

Tax and Compliance Management reports

Assist you with monitoring expenditures, tracking variances and managing account allocations; can be used to ensure your programs are operating in accordance with U.S. Federal Government standards and requirements.

Administration reports

Provide program administrators easy access to basic program configuration information and helps them determine the impact the program structure may have on performance and utilization, including accounting code and user management.

User Activity Audit reports

Provide details of user actions taken within Access Online for transaction management related items, such as approval, rejection, reallocation and extraction, as well as user profile actions, such as login, account assignments, contact information, hierarchy changes and approval manager information.

Access Online Data Analytics

Use our interactive Data Analytics dashboard to:

- Analyze your program through four dynamic charts
 - Spend Analysis
 - Delinquency Management
 - Merchant Category Spend

- Average Purchase
- All charts and tables are interactive, allowing you to explore your data
- Easily identify trends and outliers through up to two years of spend history
- Filters allow you to focus on time periods ranging from annual to monthly
- Flexibility to view your data from the program level, or down to the lowest hierarchy
- Manage delinquency through intuitive charts, that allow you to initiate an email directly to a cardholder

Custom reporting

Flex Data Reporting puts the control in the user's hands so they can define what they want to see in a report. By setting the report context—date ranges, processing or reporting hierarchies and more—users are able to choose the amount of data they need. By defining report content (fields to include or calculate) users ensure only the information they need is in the report. Users can also define a logical grouping of data and at what level it should be subtotaled.

Report Scheduler

Available with our standard and ad hoc reports, Report Scheduler allows program administrators to schedule reports to run once or on a recurring basis. Additional features include:

- Reports can be delivered to multiple recipients
- Recipients can be notified via email when the report is available
- Access to functionality is controlled by Report Scheduler entitlement

Report formats

All reports are parameter-driven and offer a high degree of flexibility and variety of output formats, all fully exportable and viewable online in the following formats:

- Browser—Open in the user's existing internet browser, requiring no additional software. Some reports take advantage of drill-down links for additional detail
- PDF—Readily formatted for printing, downloading or email exchange
- Excel—Use a spreadsheet structure for ease of additional analysis, sorting and filtering and useful for export to third-party applications
- Active—Use dynamic HTML to display using the existing browser but also offer interactive features, including on-demand sorting, filtering, charts, graphs and export to XML and CSV

Reports can be delivered via the following methods:

- Internet—Access Online is a web-based system that allows users 24/7 access to reports
- Data file—We will provide a data file at a frequency level directed by you
- Access Online Data Exchange—Scheduled reports are only delivered through Access Online Data Exchange and can be retrieved from the Access Online Secure Mailbox
- You will receive email notification when reports are available for viewing
- Access Online provides Transport Layer Security (TLS 1.2) 256-bit data encryption

- We do not distribute actual reports via email for security reasons

Benefits

The Access Online Management Reporting:

- Meets your unique reporting needs with customized reporting tools
- Measures and monitors program performance
- Identifies unique spending patterns and preferred supplier opportunities
- Eliminates hard-copy report distribution
- Makes monitoring purchasing and travel program compliance easy
- Provides online access to 72 months of transaction data

iv. What are the payment requirements?

For purchasing card and Virtual Pay, payments are due within 45 days of statement date.

v. Is there an annual fee? Are there any additional fees?

No, U.S. Bank does not charge an annual card fee. For additional fees, please refer to [Exhibit 20, CAL-Card Financial Proposal](#).

vi. Does the card provide for a rebates? On what basis?

Yes, under the CAL-Card program, incentives are paid out on a quarterly basis and within 60 days after the end of the quarter. For more information, please refer to [Exhibit 20, CAL-Card Financial Proposal](#).

vii. Can these cards be assigned to an individual but tied to the City?

Yes, we offer corporate billing. Corporate billed accounts receive one central master statement which includes transaction level detail for each cardholder in that managing account, with cardholders receiving “memo statements” that provide transaction level information for their individual account.

B. Lockbox

The City currently does not use any external lockbox service for receipt and collection of bills or other receivables. The work is performed by City staff. Consideration is being given to a lockbox service which could be used to collect payments and transmit daily files with detail for downloading to City customer files.

The current utility remittance document is shown below. The account number is up to 12 digits (all numeric). The utility currently processes 7,000 physical check payments mailed monthly with a monthly billing cycle.

i. Describe the proposed lockbox service. Describe the work flow and processing of payments at your facilities.

Our national network of wholesale lockbox sites process more than 3 million payments each month for organizations throughout the United States. Lockbox services accelerate customer remittance handling by reducing time lost in mail float, processing and delivery. Early and frequent mail pickups reduce mail delivery times, which allows for earlier processing. Early availability of funds and detailed information empower you to make timely, informed business decisions.

- Cost-effective solution converts remittances into earning assets as quickly as possible
- Same-day deposit information makes your funds available sooner

We perform the back-office processing and deposit of items, which meet critical deadlines and maximize your funds availability, allowing you to focus on your organization. Payment processing and data capture are customized to your specifications. Detailed payment information is available through data transmission or SinglePoint so you can immediately update your accounts receivable records.

Image Look

An online extension of wholesale lockbox, Image Look provides sharp, detailed images of processed checks and invoices, allowing the City to boost productivity, reduce research time, improve customer service and accelerate your receivables. Images are retained online for 90 days, with options to extend up to 10 years.

- Flexible search criteria to locate payments and update your accounts receivable
- Same day information enables timely credit decisions

Web Decisioning

Web Decisioning reduces the time and manual effort involved with processing exception items. In instances where we are unable to process a payment according to your specifications, we notify you via email. You can immediately view and decision the transaction on SinglePoint. With online review:

- You eliminate delays associated with physical receipt all your exception items and associated documentation
- We immediately process transactions with your updated instructions

Scannable wholesale lockbox

If you receive a mix of wholesale and low-volume retail remittances, scannable wholesale is a cost-effective solution for processing both types of payments in one lockbox. The cost of data keying is reduced by machine capture of information from the OCR remittance document rather than by manual keying; we provide a formatted data file to update your accounts receivable system. Our cost-effective method converts remittances into earning assets as quickly as possible. We provide same-day information on your deposits, allowing you to use the funds as soon as they are available. Early and frequent mail pickups reduce mail delivery times, allowing for earlier processing.

Lockbox processing workflow

Various systemic quality control checkpoints occur in the processing workflow, including check amount verification, payee error detection and MICR repair. Your specific instructions are displayed online during the envelope extraction process. Work completed by a specific lockbox or operator can be flagged for second review by a senior operator or manager.

ii. When and how is information available daily?

We provide deposit and balance reporting through SinglePoint Information Reporting, which provides complete current day and prior day reporting. Optionally, SinglePoint can also provide remittance images and detail from lockbox sites.

Most clients use information reporting through SinglePoint to obtain daily lockbox deposit totals and availability information. SinglePoint offers a variety of output formats, including browser, PDF, CSV and BAI. Most lockbox clients elect to have lockbox detail delivered via file transmission. Specific lockbox reports are available via email or as a downloadable file from the Image Look browser application.

iii. Describe the potential implementation timeline. When could the lockbox be implemented?

A critical early objective of the client implementation process is to gain a thorough understanding of your processing and reporting requirements so that we establish accurate instructions and perform the appropriate programming to support your needs. The implementation process is as follows:

1. Treasury management and technical sales consultants gather basic information about the products and services requested.
2. You will designate a primary contact to work with us in coordinating the implementation.
3. An implementation coordinator is assigned to your account. The implementation project coordinator is your primary contact during the entire implementation process. For more complex implementations, a client implementation specialist also will be assigned.
4. Your assigned implementation personnel work with you to develop processing and reporting instructions specific to your lockbox.
5. A data transmission questionnaire is completed, if necessary. This completed document and a sample file format are required to begin the transmission setup process.
6. A technical analyst assigns a lockbox number and adds your specific instructions to the processing system.
7. Testing is required for data and image transmission. Managed File Services works with your technical support staff to establish and test our communications link.
8. After the communication link is established, lockbox provides a test file with sample transactions.
9. When testing is complete, a production date is selected. Our technical analysts are available to assist with issue resolution.
10. Your lockbox is put in queue for processing.
11. Your implementation personnel notify you when the lockbox is ready to begin processing payments. They also send an official notice with applicable passwords and instructions for image services.

Basic timeline	Action
Day 1	Treasury management sales consultant initiates a lockbox implementation request and implementation coordinator assigned
Day 2	Implementation coordinator contacts you and provides Lockbox Requirements Questionnaire

Basic timeline	Action
Day 3	You return completed Lockbox Requirements Questionnaire
Day 4	Implementation coordinator submits completed questionnaire to lockbox analyst for set up
Day 5	Lockbox Operations assigns new lockbox number
Day 5-10	Lockbox analyst completes set-up of new lockbox
Day 11	Implementation coordinator informs you of production date for new lockbox and provides necessary user guides and customer service contact information
Day 12	You distribute your new lockbox remittance address to your customers and new lockbox moves into production

The timeline changes if data or image transmission are included.

Transmission timeline	Action
Day 1	▪ Treasury management sales consultant initiates lockbox implementation request ▪ Technical implementation coordinator assigned
Day 2	Technical implementation coordinator contacts you and provides list of required documentation
Day 3-4	You return completed documentation to the technical implementation coordinator
Day 5-6	Technical implementation coordinator hosts a conference call to review and finalize all required documentation
Day 7	Technical implementation coordinator submits final requirements to lockbox analyst for set-up on lockbox platform and transmission build
Day 7-26	▪ Lockbox Operations assigns new lockbox number ▪ Lockbox analyst completes new lockbox set-up and transmission build ▪ Lockbox analyst transmits a test file to your test server
Day 26	Managed File Services analyst sends you testing instructions and invitations to test.
Day 30	You complete testing and provide signoff to the Managed File Services analyst and the technical implementation coordinator
Day 31-32	The technical implementation coordinator assigns the next available production date

Transmission timeline	Action
Day 35	The technical implementation coordinator provides necessary user guides and customer service contact information
Day 36	You distribute new lockbox remittance address to your customers
Day 37	New lockbox and transmissions move into production

iv. What level of technical assistance would be given to the City to implement the lockbox and design or redesign the remittance document?

Your assigned implementation team provides the necessary assistance and includes your:

- Relationship manager
- Treasury management sales consultant
- Implementation coordinator

Based upon the services selected, additional team members may include:

- Technical project manager
- Managed file services
- Development services
- Lockbox operations

Your implementation coordinator provides relevant user manuals and instructions for obtaining technical assistance at the conclusion of implementation. Based upon the services selected, a team member is assigned to provide product training.

v. Where is the lockbox facility located? What city would be used for the remittance address?

Your lockbox processing facility and remittance address would be located in Los Angeles.

vi. When is mail collected and delivered to the facility? How many times daily? How many hours of operation each day?

Post Office collection times (PT)						
Site	Monday – Friday		Saturday		Sunday and holidays	
Los Angeles	▪ 10:30 p.m. ▪ 12:30 a.m. ▪ 2:30 a.m. ▪ 4:30 a.m.	▪ 6:30 a.m. ▪ 10:30 a.m. ▪ 12:30 p.m. ▪ 5 p.m.	▪ 4:30 a.m. ▪ 6:30 a.m.	▪ 8:30 a.m. ▪ 5 p.m.	▪ 4:30 a.m. ▪ 6:30 a.m. ▪ 8:30 a.m.	▪ 5 p.m. ▪ 10:30 p.m.

vii. Is all remittance information captured and reported? Describe.

All payment and remittance information is captured and reported based on your unique processing requirements. Any items that cannot be processed based on your requirements, are returned to you daily for your resolution. You will work with your implementation team to create your unique processing and reporting requirements.

viii. Can the lockbox handle credit card remittances?

Yes, we accept American Express, Visa, MasterCard and Discover in our PCI compliant facilities.

Lockbox card processing details

- The City includes a credit card payment option on the coupon
- Coupons must not include the card security code (a three- or four-digit number, such as CVV, CVV2, CVC2 or CID)
- Coupon is mailed to the lockbox for processing
- Credit card payments are sorted from the check payments. Credit card data is input to Elavon's software for authorization, processing and settlement. Detail and error reports are then produced
- Coupons are imaged on the lockbox system; OCR information and amount paid are captured
- Detail records for the credit card transactions are included in daily remittance transmission file
- The first 12-digits of the credit card number are redacted
- Standard credit card reports are included in your daily package. You may also access additional information at the MerchantConnect website

ix. Describe the major components of your quality control checkpoints.

Lockbox processing workflow

- Mail is sorted by lockbox

- The City instructions are reviewed
- Envelope contents are extracted
- Images are captured for checks, coupons and correspondence documents
- Automated verification matches system read amounts to keyed amounts
- Supplemental data entry is completed
- Web Decisioning (optional) can be used to address exceptions real-time
- Deposit and related checks are submitted for deposit into client's account
- Outputs are generated and prepared for delivery

Various systemic quality control checkpoints occur in the processing workflow including check amount verification, payee error detection and MICR repair. Your specific instructions are displayed online during the envelope extraction process. A specific lockbox or work completed by a specific operator can be flagged for second review by a senior operator or manager.

x. Is image processing currently in place? Describe. Are there imaging costs for each item (check and remittance document)? Is there a separate fee assigned for the transmission of images?

Superior technical performance

U.S. Bank clients benefit from a technologically advanced, national wholesale lockbox platform. The state-of-the-art image-based platform allows our customers to move towards more electronic payment processing, saving time and money. Image fees for both the check and remittance documents are based on the online retention period chosen. If both online storage and image transmission are required there may be additional fees. Please see the pricing worksheet for specifics.

Benefits can include:

- Leverage our national network of wholesale lockbox processing sites—We deliver enhanced imaging and standardized reporting capabilities located in Chicago, Cincinnati, Denver, Los Angeles, Milwaukee, Portland, Seattle, St. Louis and St. Paul. We work with you to determine the best sites for your specific needs
- Accelerate funds availability—Our cost-effective solution converts remittances into earning assets as quickly as possible, providing same-day availability on your deposits so your organization can use funds faster
- Enhance your receivables management—Wholesale lockbox reduces clerical time for processing and depositing
- Improve balancing accuracy—Payment processing and data capture are customized and performed to your specifications. Detailed payment information is available through data transmission or through information reporting on SinglePoint so you can immediately update your accounts receivable records
- Add a convenient payment alternative—Allow customers to use a credit card for ad hoc payments, enhancing your volume of customer receipts

- Aid cash forecasting with up-to-date information—Intra-day lockbox deposit and check-clearing information are available via SinglePoint Information Reporting. Internet access to color images of your checks and remittances is available the same day payments are processed using Image Look, easily accessed through SinglePoint
- Streamline mail processing—Early and frequent mail pickups allow for earlier processing and reduce time lost in mail float
- Use complementary lockbox services—Web decisioning can reduce the time and manual effort involved with processing exception items. AR Matching can reduce the number of exception items you need to address. Split deposit consolidates mailed payments into a single lockbox while directing receipts into multiple U.S. Bank deposit accounts. Lockbox remote capture lets you scan checks and remittance documents and electronically transmit them to your lockbox

xi. Will mail be processed on all shifts including weekends?

Payments are processed and deposited on the same ledger day as received. The only exception to this practice is for clients who require their remittance detail by midmorning and specify that no further deposits be credited after that time. Ledger cut off is 5 p.m. local time for all sites. Weekend processing is available if required.

Payments are picked up multiple times daily and processed.

Post Office collection times (PT)						
Site	Monday – Friday		Saturday		Sunday and holidays	
Los Angeles	▪ 10:30 p.m.	▪ 6:30 a.m.	▪ 4:30 a.m.	▪ 8:30 a.m.	▪ 4:30 a.m.	▪ 5 p.m.
	▪ 12:30 a.m.	▪ 10:30 a.m.				
	▪ 2:30 a.m.	▪ 12:30 p.m.				
	▪ 4:30 a.m.	▪ 5 p.m.				
			▪ 6:30 a.m.	▪ 5 p.m.	▪ 6:30 a.m.	▪ 10:30 p.m.
					▪ 8:30 a.m.	

xii. Is there a formal procedure for responding to and correcting errors and problems? What is the average response time.

Your designated relationship manager acts as your primary contact. During the integration process, your treasury management consultant is your principal point of contact. After integration, you will receive technical support from one of the following groups:

- Primary support for lockbox processing issues is provided by lockbox customer service at your processing site (CCS is also available to aid with lockbox processing questions).
- Lockbox Customer Service may serve as your initial point of contact. In cases where reported issues fall outside the scope of lockbox operations, such as problems with banking applications or systemic issues, your lockbox customer service representative may refer you to CCS.

xiii. Provide the names, contact names and telephone numbers of at least two comparable public lockbox clients.

U.S. Bank is pleased to provide the following references:

Reference	Contact information
Fair Oaks Water District	Tom Gray, General Manager ▪ 916-967-5723 ▪ tgray@fowd.com
Department of Industrial Relations	German Garcia, Accounting Manager ▪ 415-703-4301 ▪ gmgarcia@dir.ca.gov

xiv. In the case of system failure, what are the back-up arrangements for processing? Are any delays expected in this situation?

Procedures are based on the length of outage.

- Multiple levels of backup are incorporated to manage the failure of an individual component (e.g., workstation, scanner, printer, server, etc.) or an individual site.
- Once a batch of work has been captured, it is backed up at a central hub site.
- In the case of the failure of an individual component, only the batch of work in process at the time of the failure would be impacted. The site maintains backup workstations, scanners, printers, servers and other critical hardware on-site for immediate replacement. In the event of a hardware failure, the work that was being processed would be re-run on another production device and the failed hardware would be replaced.
- In the case of a short-term lockbox system failure lasting eight hours or less, deposit preparation continues, awaiting system restoration. When the system is restored, prepared deposits are immediately processed.
- If the outage is likely to last for multiple days or weeks, then the site disaster recovery plan is implemented.
- If a site-level disaster recovery plan is implemented, all mail from the impacted site will be redirected to the St. Louis site. Because all processing instructions for all sites are maintained on a central system there would be no difference in the processing of the incoming work, or in any outputs generated by the system (e.g., information reporting, data or image transmissions, etc.). In the event of an extended outage at the St. Louis site, work from that site would be re-directed to the St. Paul or Cincinnati site.

xv. Describe the data transmission format and provide a sample reports created Is their full MICR capture?

The data transmission remittance reports are customized to each client's needs based on the information the client would like U.S. Bank to capture from the payments received. A sample report is not available due to the customization. MICR information may be captured for the remittance report.

xvi. What are the transmission times when information is available on the daily deposit(s)? Intraday? How is the information made available?

Availability is based on the type of deposit report:

Deposits totals with float assignment

Item processing provides deposit information in SinglePoint throughout the day. Lockbox deposits are typically available mid-morning and afternoon; the information is not always final. If you prefer to receive a final deposit notification in the morning, please be aware that mail received after the morning deposit cutoff will be held and processed the next day.

Deposit totals

Lockbox deposit totals post three times per day: mid-morning, afternoon and end of day. You may select one or more reporting deadlines for your lockbox. If you prefer to receive a final deposit notification in the morning, please be aware that mail received after the morning deposit cutoff will be held and processed the next business day. These totals are provided on the SinglePoint Lockbox Summary report and are also available by email.

Information on your lockbox deposit is available through SinglePoint's Current Day module and also through our Lockbox ImageLook service.

xvii. Who is responsible for handling adjustments and error resolution? How?

Our lockbox customer service groups will handle all of your service inquiries. There are customer service teams at each site to ensure they are familiar with your requirements. If needed for adjustment purposes, they will reach out to other financial institutions in the clearing stream as necessary.

8.0 Required Merchant Services

8.1 Required Merchant Services

The minimum qualifications required of Proposer with respect to its Merchant Services are:

Must provide end-to-end Merchant Services including credit and charge transaction authorization, routing and settlement for all major credit card brands and debit cards, gift cards, and other payment options.

U.S. Bank/Elavon meets this requirement.

Must provide PIN-based debit card processing services including access to all major debit card networks. The City does not currently accept pin-based debit transactions.

U.S. Bank/Elavon meets this requirement.

Must be able to process individual card transactions ranging from a minimum of \$1.00 to a maximum of \$100,000.

U.S. Bank/Elavon meets this requirement.

Must provide gross settlement using ACH to a designated City depository account no later than forty-eight (48) hours after the payment and credit records have been batched and transmitted.

U.S. Bank/Elavon meets this requirement.

Must have online reporting capabilities that will produce at a minimum daily/monthly summary reporting by Terminal ID and/or Merchant ID location:

Total sales and transaction count by card type

Average size by card type

Total disputed charges by card type

U.S. Bank/Elavon meets this requirement.

Must provide a detailed invoice for services on a monthly basis for all transaction costs (processing fees and other fees) associated with the payment and credit records processed. Sufficient back up documentation to support all costs invoiced, including breakout by

Merchant ID, card type, transaction type, gross sales, returns, net sales, and transaction counts must be provided with the invoice.

U.S. Bank/Elavon meets this requirement.

Must continuously comply with Payment Card Industry (PCI) Data Security Standards (DSS) and work with the City to assure compliance by the City.

U.S. Bank/Elavon meets this requirement.

Must provide detailed documentation of PCI requirements of the City.

U.S. Bank/Elavon meets this requirement.

Must provide a secure portal for uploading PCI requirements for the City.

U.S. Bank/Elavon meets this requirement.

Must be able to provide a twenty-four (24) hour seven (7) day a week help desk for customer assistance to City departments.

U.S. Bank/Elavon meets this requirement.

Must have the capability of servicing and/or replacing any non-functioning hardware within one business day after the City reports the problem.

U.S. Bank/Elavon meets this requirement.

Must be able to provide electronic check processing services detailed below:

Electronic check conversion at the point of sale

Internet initiated check debits

Check guarantee/verification

U.S. Bank/Elavon meets this requirement.

Must perform such other functions normally contemplated to be the function of a Merchant Service Provider.

U.S. Bank/Elavon meets this requirement.

Must provide initial and on-going training to City personnel as required related to payment and credit/debit card processing requirements, charge backs, accessing reports and transaction data, equipment, PCI changes, and/or other processes and procedures which may be required.

U.S. Bank/Elavon meets this requirement.

The Respondent's software/interface and/or platform(s) must have the capability of processing and accommodating various point-of-sale third party software applications and multiple merchant accounts, to include the City's current point of sale software Active Network.

U.S. Bank/Elavon meets this requirement.

Must work with the City to implement new gateways involving third party software applications and provide interfacing and conversion strategies as applicable and required.

U.S. Bank/Elavon meets this requirement.

Respond to each of the following questions:

A. Firm Stability and Background

- i. Describe the Vendor's background as a merchant services provider including major lines of business and name, number and location of divisions or operating units. Provide a brief history and background.**

The expertise, innovation and value U.S. Bank delivers are evident in the payment processing solutions provided by Elavon, Inc., a wholly owned subsidiary of U.S. Bank National Association. In serving more than 100 cities, 165 counties and 20 states, our capabilities and experience support the City's merchant services requirements.

U.S. Bancorp, with nearly 70,000 employees and \$591 billion in assets as of June 30, 2022, is the parent company of U.S. Bank National Association. Our Minneapolis-based company serves millions of customers locally, nationally and globally through a diversified mix of businesses: Consumer and Business Banking, Payment Services, Corporate & Commercial Banking and Wealth Management and Investment Services. We have been recognized for our approach to digital innovation, social responsibility and customer service. Learn more at usbank.com/about.

As a leader in banking and merchant services, we use a "One Bank" philosophy to drive the delivery of services across channels and products, including our payment solutions. Our outstanding track record of financial performance, coupled with our sound ethical business practices, have earned us the honor of being named a 2022 World's Most Ethical Company® by the Ethisphere Institute, a leading international think tank dedicated to the advancement of best practices in business. This is

our eighth consecutive year on this list. We were also named Fortune's 2022 "most admired superregional bank" for the 12th consecutive year. Within the Superregional Banks industry category, we topped the list in seven of the nine key attributes of reputation: People Management, Use of Corporate Assets, Social Responsibility, Quality of Management, Financial Soundness, Long-Term Investment Value and Quality of Products/Services.

Our size, strength and scale keep us well positioned for future growth. We are committed to invest in delivering innovative and remarkable solutions for our customers, shareholders, employees and communities as their most trusted financial partner.

ii. Is a third party used for any other segment of the service?

As one of the few providers in the industry that does not use third-party vendors for merchant services, we perform most processing, settlement and support functions using platforms that we own and manage. To deliver specialized services, we may choose to partner with certain approved third-party providers. If a third party is used, we oversee the performance of services and require that the third-party provider undergo an extensive certification and compliance process."

B. Firm Competitive Position and Future Commitment to Providing Services

i. What differentiates the Vendor and its service from that of other Vendors?

Performing most bankcard processing functions in-house and maintaining ownership of our gateway translates into better service and reliability for the City. For more than 20 years, we have been extending services through our Converge[®] gateway solution, a flexible and secure omni-commerce payment platform that can accept all payment types in multiple environments, providing an easy and cost-effective solution designed to grow with your business. We are confident that we will simplify The City's credit card processing needs by providing a stable, universal platform for Roseville.

ii. Explain the firm's representation on MasterCard or Visa boards or committees.

Our involvement with industry boards or committees includes, but is not limited to, membership and merchant advocacy in the following groups:

- Mastercard Global Fraud Advisory Council (GFAC)
- G2 Advisory Board
- Mastercard Point of Interaction (POI) Advisory Group
- Discover Acquirer Operations Committee
- Electronic Transactions Association (ETA)
- Merchant Acquirers' Committee (MAC)
- Financial Services Information Sharing and Analysis Center (FS-ISAC)

- Payment Card Industry Security Standards Council (PCI SSC)
- National Automated Clearing House Association (NACHA)
- Association of Financial Professionals (AFP)
- Merchant Advisory Group (MAG)

C. References and Current Client Base

i. Specify the category and number of customers and merchant accounts for which the Vendor is currently providing merchant services. What was the total transaction count and dollar amount processed in 2020-2021?

Our secure and scalable solutions drive commerce for more than 1.3 million customers across North America and Europe, including clients in the Retail, Services, Healthcare, Restaurants, Entertainment, Government, Education, Hotels, Travel and Airline industries. We process more than five billion transactions, valued at nearly \$450 billion, globally per year.

ii. What is the daily average number of transactions currently processed? What is the maximum daily processing capacity?

We process approximately 15 million transactions per day and average 200-250 transactions per second. Our peak processing volume in North America is 889 transactions per second (TPS), which represents only about three-fourths of the platform's engineered capacity.

iii. Where are the processing centers? Is the processing structure designed for redundancy?

Our processing platforms utilizes redundant and geographically dispersed data centers located within the U.S. We respectfully submit that data center locations are confidential and cannot be released through the RFP process.

iv. How would the City rank in volume among your customers, given the current number of transactions?

Within our organization, we have teams dedicated to government and public sector customers, recognizing that specialized resources are required for your success. As a leading provider in the government space, we have deployed solutions within a diverse set of use cases and environments, including more than 100 cities, 165 counties and 20 state government entities. We respectfully submit that rankings by volume and number of transactions are confidential and cannot be disclosed through the RFP process. In delivering services to the City, we will continue to leverage our expertise to provide focused support, consultation and enhancements to our payments processing capabilities.

- v. **Provide the names, email addresses and phone numbers of two public agency references with comparable volumes and communication capabilities who are currently using the card processing services. Please select a mix of long-standing and recently acquired customers.**

U.S. Bank is pleased to provide the following references:

Reference	Contact information
City of Lincoln Banking services and merchant card client since 2010	Sandra Cooke, Finance Manager ▪ sandra.cooke@lincolncal.org ▪ 916-434-2427
City of Elk Grove Banking services and merchant card client since 2012	Matthew Paulin, Finance Director ▪ mpaulin@elkgrovecity.org ▪ 916-627-3221
County of Yolo Banking services and merchant card client since 2018	Sou Xiong, Treasury and Revenues Manager ▪ sou.xiong@yolocounty.org ▪ 530-666-8212 Tom Haynes, CFO ▪ tom.haynes@yolocounty.org ▪ 530.666.8190

D. Relationship Representatives

- i. **List the names, titles, and location, of the primary relationship representative(s) that would be directly involved in and responsible for the contract and its implementation.**

Don Russell

Assistant Vice President, Public Sector Sales
Home-based

Meghan Elrod

Assistant Vice President, Public Sector Client Account Management
Home-based

In the event an Elavon employee is promoted, reassigned or otherwise leaves their role, secondary team members will maintain workflows and deadlines to ensure our commitments are met.

ii. Describe the relationship management team's functional role and responsibility.

As the City's sales representative, Don Russell builds relationships to determine program needs, identify opportunities and introduce products and services prior to and during the implementation process.

The City's account manager, Meghan Elrod, oversees all matters that relate to the City's service, ensures that the City is notified of compliance standing and changes to requirements and manages communication at all levels.

iii. What is the expected turn-around time on issue resolution?

Established issue resolution timeframes are define within the State's existing agreement, which can be found at [this link](#).

iv. How often will the primary representative(s) meet with the City to assure that it is receiving the lowest discount/interchange rates?

The frequency of our meetings can be semi-annual, quarterly or as often as required for adequate business review and interchange cost management.

E. Card Acceptance/Interface Processing

i. Does the Vendor support all major payment types, debit cards, gift cards, corporate cards, and other emerging options? Does support or cost vary for any of these?

U.S. Bank and Elavon provide support for all card types listed. Since rates vary by card type accepted, interchange categories, dues and assessment are variable; those fees are pass through to the merchant of record. Our solutions enable payment options that are supported by the card brands and only assess a processing fee.

ii. Describe the hardware necessary for acceptance of credit and debit cards for all types of transactions.

We support the various hardware, gateways and pin pads listed within the City's RFP. For the hardware offered under our existing agreement with the State, please refer to [this link](#).

iii. Can the Vendor use the equipment currently owned and used by the City (Ingenico model iSC250 and Verifone models-VX520 and VX820)? If not, what equipment will be required?

U.S. Bank and Elavon can support the equipment that is currently owned and used by the City as described within the RFP.

iv. Does the Vendor provide the equipment on a lease or purchase basis? Describe the equipment maintenance plan on leases. What is the turn-around time on repairs/substitutions on leased equipment? What supplies will be provided under a maintenance contract, if utilized?

U.S. Bank and Elavon can provide equipment for purchase and rental. Additional supplies can be order and equipment can be shipped over night. Warranties and service plans available through our contract with the State of California, which can be found at [this link](#).

v. Describe software necessary for acceptance of credit and debit cards on all transaction types.

The Converge gateway offers the ability to accept payments in-person, online, via mobile, or by mail/telephone order (MO/TO).

vi. Describe interface requirements and compatibility issues.

The Converge API offers the following integration methods:

- Hosted Payments
 - Hosted Payment Page
 - Lightbox
- Checkout.js
- XML API

Hosted Payments

This integration method is suitable for businesses that need a checkout page that is:

- Simple to use and implement
- Secure
- ADA Compliant
- Leaves sensitive information handling entirely to Converge

Hosted Payments Page (HPP)

The HPP template of Converge helps create modern and responsive checkout pages by linking websites to Converge-hosted checkout pages branded with the logos and color schemes of the businesses.

Lightbox

The Lightbox implementation of Hosted Payments uses an iframe to embed the payment form as an overlay to your online shop. When Lightbox is invoked, your online shop darkens out and the payment page appears as a floating element on top.

Checkout.js

Checkout.js gives the flexibility to customize checkout pages and the ability to use functional calls to submit transactions to Converge from a customer's web browser.

Checkout.js is ideal for businesses that want to:

- Fully control the design of their payment page
- Use Converge to securely collect customer data and process payments
- Maintain a consistent look and feel throughout their website

XML API

XML API integration is ideal for businesses that want to:

- Completely control the checkout process
- Directly integrate with Converge
- Collect payment data using their own servers and pass that information to Converge for processing

For additional details, please review the Converge Developer Guide available at [this link](#).

vii. The City uses Active Network for Parks, Recreation and Library services, as well as Converge, ACI, Daycare Works and Invoice Cloud, for the web-based payment options currently. Can the Vendor process transactions from this and various gateways? Describe.

U.S. Bank and Elavon can support the various solutions and integrations described.

viii. Indicate all payment gateways currently supported. What fees are applicable on setup?

U.S. Bank and Elavon pricing and applicable fees are provided within the State's agreement found at [this link](#).

ix. Describe the process to add additional third party gateways after initial implementation.

Today, we support more than 360 third-party gateways and can provide details on the processes as specific gateway partners are identified.

x. Describe telephone authorization options in the case of communication failures.

In the event of communication issues, we can support authorizations by phone, 24/7. A toll-free number and instructions are provided during implementation and training.

xi. How is PCI compliance tested and confirmed? How are merchants certified?

We adhere to the strictest PCI and data security standards, making cardholder data protection a key priority. Our solutions support the latest security technologies and committed to providing our Level-1, Level-2, Level-3 and Level-4 clients with direct support in their efforts to achieve and sustain PCI-DSS compliance.

We offer Level-4 merchants a comprehensive approach to securely manage cardholder data and validate compliance.

Our program is focused on the following three key areas:

- Education—materials and information to help you understand PCI DSS compliance
- Validation—tools to help you attest compliance with PCI DSS
- Financial Reimbursement—in the event of a breach, eligible businesses may receive financial reimbursement to cover certain payment network fines, assessments and the cost of a forensic audit

Through our partnership with Sysnet, we offer an exclusive assessment and managed security Service that dramatically reduces the cost associated with PCI compliance. In addition to cost reduction, the service provides continual monitoring, testing and vulnerability scans, as well as information security and awareness training.

xii. What actions are taken to prevent our transactions from falling to a non-qualified category?

We provide strategic account reviews on a regular basis to provide insight into the City's interchange categories and enable better management of pricing advantages.

By engaging in solid preparation for regulatory releases, we reduce the impact of these changes to our customers. Typically, the card brands make changes to their programs twice a year. These changes may require members and acquirers to make modifications to systems and message formats to comply with or take advantage of new programs that benefit their respective customers.

We invest extensively in resources and technical hours each year in preparing for association regulatory releases, ensuring that the platform is achieving results for our customers and complies with card brand rules. Further, while the card brands consider pre-release testing to be optional, our release process always includes rigorous pre-release testing. This consists of transmitting outgoing files to ensure proper format and to validate interchange-clearing programs and ensure that customers will not encounter problems when release code goes into production.

F. Authorization Processing

i. What authorization methods are supported and recommended?

For real-time authorizations with speed and accuracy, we recommend IP via Frame or Internet connectivity whenever possible. However, we are not a one size fits all processor. The Elavon network supports flexible connectivity options to best meet the City's processing needs.

ii. What are the procedures to reverse/recall an incorrect authorization?

The process to initiate an authorization reversal, or recall an incorrect authorization, is supported if a transaction authorization is completed, but not submitted for settlement. If the transaction is submitted for settlement, then a void, refund, or other similar transaction must be initiated to return the amount to the card balance. The platform will initiate a partial authorization reversal when it is determined that a final transaction amount is less than the amount of authorization.

iii. Describe any limitations on processing such as assigned “windows” for obtaining authorizations or settlement, number of files allowed per day, the number of transactions and/or dollar limits per file, or dollar amount per transaction authorized and settled?

There are no limitations or “windows” for authorization or settlements. Our authorization and settlement platform supports 24/7 processing and does not limit the number of transactions or batches that can be processed per day.

iv. Does the Vendor maintain direct authorization and settlement links to the various card organizations, or utilize a third-party network for authorizations? Is your firm introducing to a direct processor or is it the direct processor?

We maintain direct certifications with the payment networks to authorize and settle all card brands and do not use a third-party for this key component of our service offering.

v. Do merchants incur any monthly access fee to connect to the authorization network?

All applicable fees and network costs are described within the State contract available at [this link](#).

vi. Provide average response times for web and dial-up authorization methods for both peak and normal periods.

On our network, a transaction can be authorized in 2-4 seconds using wireless communication method or an internet communication method. Response time is measured from the time we receive a transaction authorization request to the time we provide an authorization response, excluding the time dependent upon third parties, point of sale systems (including any chip card and terminal interactions) or third-party delays.

The average existence time on our systems is 10-15 milliseconds. Average switch times to the Visa, Mastercard, Discover and American Express networks range from 30-60 milliseconds. It is not uncommon for customers with a dedicated connection to experience less than two seconds response time. Response times are similar during peak and non-peak hours.

G. Settlement Processing

i. Describe the settlement process.

The processing and settlement of all credit cards is supported through Elavon and funded via Automated Clearing House (ACH). When transactions are settled and funded to a U.S. Bank checking account, our Everyday Funding provides funds availability within hours of batch settlement every day, including holidays and weekends, at no additional charge. Transactions that are settled and funded to accounts at other financial institutes are subject to funds availability timeframes that vary, depending upon the depository bank's ACH windows.

ii. Is all funding next day? Describe.

Customers with a U.S. Bank checking account also have access to expedited funding through our Everyday Funding solution, which enables funding within hours of batch settlement every day, including holidays and weekends, at no additional charge. On weekdays, funds can arrive in as little as 90 minutes and no later than six hours after batch settlement. Batches settled over weekends and holidays are funded once per a day, providing funds availability during time periods that are not supported through traditional payments funding.

When depositing to accounts at other financial institutes, timeframes for funds availability may vary, depending upon the depository bank's Automated Clearing House (ACH) windows. When settlements are completed before 7 p.m. PT, funds are sent via ACH the same day. The ACH is then processed by the receiving bank, resulting in funds availability within two business days of settlement.

iii. What is the daily cut-off time for sales transactions to be transmitted to meet settlement deadlines?

When settlements are completed before 7 p.m. PT, funds are sent via ACH the same day.

iv. Is settlement made by ACH or Fed wire? Can settlement details be passed on ACH addenda?

Settled transactions are funded via ACH and ACH record detail includes our company ID with the depository bank, identifying the ACH as merchant services activity.

v. Do you allow for multiple settlement accounts by merchant?

Our settlement system allows each MID to have up to three DDAs; one for deposits, one for billing and one for chargebacks.

vi. How will settlements appear on the City's bank statement?

By default, settled batches post separately to the depository DDA, however, customer have the option of either "pay by batch" funding, or requesting a combined daily deposit as a lump sum, known as "pay by day" funding.

vii. What level of transaction detail is available?

Transaction details are available at various levels and formats, depending upon the reporting tool utilized. Settled transactions are funded with an ACH record detail that contains our company ID, identifying the ACH as merchant services activity, as well as information such as the batch settlement timestamp and amounts.

viii. Are settlements on gross amount and fees charged monthly?

Typically, settlements are funded on gross sales with fees charged monthly.

H. Ticket Retrieval and Chargebacks

i. Describe the ticket retrieval request process along with turnaround times. Is this all online? Does the Vendor support full document imaging?

In the event of a payment dispute between you and a cardholder or issuer, we assist with investigating and resolving the dispute. Chargebacks are normally initiated by the card issuer and transmitted through the payment networks to our merchant accounting and ADRP systems. Where possible, auto-decisioning logic that is based on payment network regulations is used to automatically debit our customer and represent the chargeback. Additional details regarding chargeback management solutions can be provided upon request.

ii. What is the process for ticket retrieval? State the average elapsed time from receipt of a retrieval request to merchant receipt.

Chargebacks that are not auto-decisioned by the ADRP system are grouped into work queues by payment network reason and usage codes. Chargebacks in the work queues are then researched by our Dispute Resolution team to determine if documentation is available to meet chargeback requirements for the transaction type and payment network.

The following steps describe our ticket retrieval process and turnaround time:

- A copy request is received from the issuer
- A copy request letter is generated and delivered to our customer, advising our customer to respond within 10 days of the “critical date,” which is the last and final day the copy request may be worked
- A reminder notice is sent if our customer’s account is set to receive reminder notices and no response to the original copy request letter is received by the 15th day of the cycle
- If our customer’s response to the copy request includes invalid data, a new request letter is generated
- If our customer has not responded by the 25th day of the cycle, we will fulfill the copy request using a substitute draft

iii. Define the chargeback cycle. What percentage of chargebacks is currently handled without merchant involvement? Does the firm have a standard rule-based logic to facilitate dispute resolution processing?

Our Dispute Resolution team is able to handle approximately 15% to 20% of chargebacks without customer involvement. Auto Decision functionality has been integrated into the system based upon payment brand regulations for specific reason codes. This logic allows the system to determine if items should be represented to the issuing bank or debited from our customer's DDA designed for chargebacks.

iv. Does the Vendor have a designated contact person and department to specifically manage chargebacks?

We have an experienced Chargeback team that handles all disputes, including retrieval requests, using our proprietary Automated Dispute Resolution Processing (ADRP) system. The Account Management team will work with the City to review chargeback activity and successes, as needed.

v. What chargeback reporting is available?

Chargeback reporting and statuses are available online through Payments Insider. Additional details regarding an optional chargeback management solution are available upon request.

vi. Are chargebacks and adjustments netted from daily proceeds, or are they debited separately?

Typically, chargebacks are debited separately; they are not netted from daily proceeds. The City can provide multiple demand deposit accounts (DDAs) for each merchant account and specify which DDA is to be debited for chargebacks. When notification of a dispute is received from the payment networks, we generate an automated clearing house (ACH) debit to the chargeback DDA.

vii. When will the City receive notification for chargebacks?

When we receive a chargeback, we will send notification to the City either by mail, fax, email or online notice. The timeframe in which the notification is received will vary depending upon the delivery method the City elects to use.

viii. Does the firm have the capability to archive and retrieve transaction information? What information is stored and for what period of time?

Payments Insider provides online access to transactional history up to two years from the transaction date. We can also retrieve offline, archived information through our research department. The time and cost to retrieve the data will depend on the quantity and age of the data requested.

I. Debit Card Processing

i. Describe the debit card processing capabilities.

Our platform supports debit card processing via the major U.S. networks, including Accel, AFFN, CU24, Interlink, Maestro, NETS, NYCE, PULSE, SHAZAM and STAR.

ii. Describe the firm's PINLESS debit card processing.

PINless capabilities exist as pin networks allow.

iii. Are debit card transactions routed automatically to the lowest cost network?

PIN debit is the preferred method of processing as it is more cost effective than routing to the traditional credit networks.

J. Technical System Capabilities

i. Is the firm's processing software CPS (Custom Payment Service) compliant?

Our solutions support various CPS programs in alignment with the card brands' rules and regulations. Elavon works with each card brand and many POS application providers to help ensure that best possible interchange rates are available to our customers and maintain compliance with all payment industry security and privacy requirements.

ii. Does the firm's software provide for integration in interface alternatives (such as XML, SOAP, Java, C++, COM, Perl, etc.?)

The City's current services do not require integration; however, we offer solutions that interface with systems using XML API, a JavaScript library or hosted payment pages.

iii. What is the process for handling test transactions? Are test cards provided and if so, what types? Is the testing system separate from live operations?

Should the City choose to implement new solutions, a test environment, test cards and resources from our Solution Engineering team are available. These tools and support are provided to assist developers in writing, testing and implementing an integration with our processing platform.

iv. Outline the security measures in place for the protection of data transmitted for processing. Are all the major verifications available (CVV for Visa, CID for AMEX, and CVC for MC)? Do you support CVV2 (Card Verification Value 2)?

To safeguard our customers and cardholder data, we use a combination of security measures including:

- Firewalls
- Intrusion detection systems
- Data loss prevention systems
- Data encryption
- File integrity monitoring systems
- Access controls
- Patch management controls and physical security controls to ensure unauthorized users do not access systems or data

Similarly, to monitor our network, we detect systems and monitor internet traffic, as well as network and host-based controls. Such controls are also used to monitor performance and stability.

In addition, we support risk management and fraud prevention services such as address verification service (AVS), card verification values (CVV2 (Visa)), card identification number CID (Discover/American Express) and card validation code 2 (CVC2) (Mastercard).

v. Describe smart card transactions if it differs from other standard credit card transactions?

We support smart card transactions in the U.S. and Canada and the process follows standard transactions flows.

K. Transmission Issues

i. Describe the monitoring and notification process if a transmission fails.

We have tracking processes to account for receipt of customer files sent directly to us. Once the file is received, we will generate a confirmation message that includes total debit and credit items and

total dollars for credits and debits for both Visa and Mastercard. In addition, the report is date and time stamped.

For customers settling terminals to our host, a GBOK or "Good Batch OK" number is returned to the customer's terminal when a batch settles successfully. The first three digits are the batch number, the next four are the month and day the batch settled and the last four are the hours and minutes that the batch settled.

When the customer manually settles to our network and the batch fails to be submitted properly, the terminal typically returns a message statement such as "SETTLEMENT FAILED" or "LOST COMM WITH HOST."

ii. Does the processing system identify and eliminate duplicate transactions automatically?

We will automatically resolve incorrect authorizations on behalf of our customers for systemic duplicates, or transactions that share the same amount, card number, reference number and authorization code. Transactions that are processed twice in error, but not yet settled can be voided at the point of sale or terminal. A credit or refund should be processed to correct duplicate or incorrect charges that have been settled.

L. Security

i. How are PCI compliance initiatives handled? How do you qualify merchants?

We are committed to providing our customers with the support required to achieve and sustain Payment Card Industry Data Security Standard (PCI DSS) compliance. Annual volume thresholds established by the card brands are used to qualify customers as PCI Level-1, Level-2, Level-3 or Level-4 merchants. Our teams track PCI DSS validation individually for PCI Level-1, Level-2 and Level-3 clients and work with the account management team and customer to ensure reminders are provided in advance of a validation due dates. For Level-4 clients, a managed PCI program and portal provide the monitoring, testing, scans and training required for PCI DSS compliance.

ii. How are clients made aware of new PCI initiatives and general information?

We provide education on trends, initiatives and general information through regular account reviews with our Account Management team, as well as newsletters and communications available through our Payments Insider reporting tool.

iii. What PCI training is available for IT and merchants' staff? Are there charges for these services?

For Level-4 customers, like the City, we offer a comprehensive approach to securely manage cardholder data and validate compliance. Our program is focused on the following three key areas:

- Education—Materials and information to help you understand PCI DSS compliance
- Validation—Tools to help you attest compliance with PCI DSS
- Financial Reimbursement—In the event of a breach, eligible businesses may receive financial reimbursement to cover certain payment network fines, assessments and the cost of a forensic audit

Through our partnership with Sysnet, we offer an exclusive assessment and managed security Service that dramatically reduces the cost associated with PCI compliance. In addition to cost reduction, the service provides continual monitoring, testing and vulnerability scans, as well as information security and awareness training.

M. Disaster Recovery

i. Is there a continuity plan for processing systems and platforms in a natural or man-made disaster situation? Describe local and system-wide back up and redundant systems.

The U.S. Bank Enterprise Resiliency Program is ISO 22301 certified; it meets or exceeds all relevant regulatory requirements.

To ensure high resiliency, availability and recoverability of data, software and services, U.S. Bank utilizes multiple geographically disperse, production Tier-4 data centers. Disaster Recovery plans are reviewed annually and tested quarterly. In the unlikely loss of one production data center, the most critical applications can be active in the other data center within five minutes or less.

U.S. Bank leverages a geographically diverse model of operational sites to ensure resiliency against natural and man-made disasters and other disruptions. Business Continuity plans are reviewed and updated at a minimum of annually and are exercised annually.

ii. What is the expected time frame to become operational should a catastrophic event occur at a merchant site?

In the unlikely loss of one production data center, the most critical applications can be active in the other data center within five minutes or less.

iii. What is the up-time percentage the last two years?

Our platform consistently meets or exceeds an uptime of 99.9% annually.

N. Information Reporting

Complete and timely online reporting is a critical factor. The City requires full online reporting and download capabilities including the ability to define and sort information at various levels. Reporting should be comprehensive and allow for customization. The firm should make every effort to fully describe and illustrate the reporting capabilities in their response. A link to the system is preferable for evaluation.

i. Describe all reports available. Provide a sample of each detail and summary report available or a link to sample reports online. Are all reports available online?

We provide an online reporting tool, Payments Insider, that enables users to view transactions and statements for both individual locations and role-based access to hierarchies defined by the City.

Users can search and sort by criteria, such as authorization code, amount, truncated card number, batch ID, location and date settled, or utilize Payments Insider's standard daily and period-end reports, including:

- Payments—Offers a holistic look at payment history for a selected period. Use filters to focus in on key data points like chargebacks, deposits, adjustments or fees.
- Batch/Sales—Summary and detail views of settlement activity with filters to focus on particular transaction types, settled amounts, transaction dates and more.
- Card Brand—A payment mix by card brand allows users to observe trends across card brands for rate reviews or look up individual transactions to determine when and how they were settled.
- Authorizations—Each time a card is used an authorization record is generated, but this does not mean the card was approved or the transaction settled. This report provides details on authorizations that may not have been settled, or cards that are declined, rejected or not accepted.
- Downgrades—This report can be used to see impacts in interchange qualification using a filter that allows users to focus in on specific reason codes or payment dates.
- Chargebacks—Reporting that shows reason codes with the when and why of a chargeback event as well as the impact using filters to focus on specific chargebacks, response dates or financial actions.

Payments Insider reports can be accessed in real-time via the online portal. Monthly billing statements and reports may be generated upon demand through Payments Insider or mailed upon request.

Additional detail regarding Payments Insider functionality and report types can be found within [Exhibit 21, Payments Insider Reporting Overview](#).

ii. Describe the daily and/or monthly reports available to the merchant and the City (for the overall relationship) for reconciliation purposes.

Payments Insider can be used to generate reports according to levels and hierarchies defined by the City. Tools such as monthly billing statements and Payments Insider's standard daily and period-end reports are available. To facilitate reconciliation, Payments Insider includes tools and filters that allow users to focus in on key data points, such as chargebacks, deposits, adjustments and fees.

iii. What is the delivery time frame for reports and statements?

Payments Insider reports containing transaction and settlement information are typically available within the following timeframes:

- Authorization reports—Approximately one hour after transaction is processed
- Settled transaction data—two to four hours after settlement
- Qualification data—24 hours after settlement
- Statements—Third business day of the month

iv. Are reports archived? For how long? Can all reports be downloaded?

Through Payments Insider, users can access two years' worth of data on multiple merchant IDs (MIDs) and download reports and statements in universal CSV or Excel formats.

v. Is historical information regarding sales, refunds, and chargebacks maintained in a database for access by the merchant? For how long?

Yes. Payments Insider provides users with online access to two years' worth of processing data.

vi. Describe how multiple merchant numbers are reported and the flexibility afforded the merchant for customizing the reports. Can the City "roll up" multiple specific groups for reporting independent of other groups?

Payments Insider users can view transaction details and monthly statements for both individual locations and hierarchies defined by the City's account structure. Access can be granted to users at any of level of the City's account structure, providing hierarchical reporting that aggregates data from multiple merchant accounts.

O. Implementation

i. The agreement implementation target date for these services is March 20, 2023.

Should the City choose to implement new locations or services, resources from our Implementation and Delivery teams are available to support the target date.

ii. After initial implementation, how are new merchant accounts established?

Following initial implementation, Account Management team members will continue to work closely with the City and serve as a primary point of contact when bringing new locations online.

iii. How are updates of PCI and industry-related rules or regulatory changes distributed?

The Account Management team will work with the City to share updates and disseminate industry-related rules or regulatory changes. We engage in planning and platform investment to maintain technical currency and prepare for regulatory releases. Our planning and technology resources are designed to minimize the impact of changes to our customers, while ensuring that they comply with and receive the benefits of new programs and capabilities.

iv. The City currently goes directly to the PCI Compliance site to get certified. What comparable PCI compliance tools are provided by the vendor? Is this part of the contract?

We offer Level-4 merchants, like the City, a comprehensive PCI program to securely manage requirements and validate compliance. Through our partnership with Sysnet, we offer an exclusive assessment and managed security service that provides continual monitoring, testing and vulnerability scans, as well as information security and awareness training.

v. What if any reprogramming fees will be necessary concerning equipment owned by the City?

Applicable fees have are provided within our existing contract with the State of California, which is available as [Exhibit 22, Elavon Master Services Agreement](#) or online at [this link](#).

vi. What changes will be necessary for replacing, if applicable, gateways owned currently by the current provider?

U.S. Bank and Elavon can support the existing equipment and gateways described within the City's RFP.

P. Customer Service

i. Is customer service available 24/7? How is it provided?

Our services include 24/7 technical support and customer service, which is available via a toll-free number. We also provide an Account Management team who conducts periodical reviews based upon the City's requirements.

ii. Describe the promotional support you provide. Are there any costs for this support?

All support is included without proposed pricing and is provided at no additional cost.

iii. Describe the firm's customer service organizational structure. Will a specific customer service representative be assigned to handle this account?

Yes. Meghan Elrod is assign work closely with the City to address all business needs and serve as a primary point of contact, responsible for:

- Bringing new locations online
- Reviewing statements and interchange status
- Providing back-office services and consultation related to processing needs

iv. Does the firm schedule periodic meetings with customers to review the service?

Yes. We provide regular account reviews to provide overviews and insight on the City's account activity, as well as education on trends, initiatives and general information.

v. Does your system identify and eliminate duplicate transactions automatically? Describe process.

Yes. We automatically resolve incorrect authorizations on behalf of our customers for systemic duplicates, or transactions that share the same amount, card number, reference number and authorization code. Transactions that are processed twice in error, but not yet settled can be voided at the point of sale or terminal. A credit or refund should be processed to correct duplicate or incorrect charges that have been settled.

vi. Does the firm offer processing solutions to perform (a) deferred billing, (b) installment billing and (c) recurring billing?

Yes. Our solutions support future payments or deferred billing, installments and recurring transactions.

Q. Pricing and Contracts

i. Describe the firm's overall pricing structure. Is the firm offering a fixed cost plus surcharges fee or an interchange plus fee?

We offer interchange plus pricing, as well as surcharging and Convenience Fee and Service Fee programs.

ii. List all of the firm's possible "non-qualified surcharges" categories on the cost proposal (such as reward card fees, etc.)

A matrix of non-qualified interchange categories is available upon request, noting that this document is comprised of more than 600-line items and subject to change based on bi-annual updates published by the card brands and payment networks.

iii. When are discount fees deducted from the DDA account? Are discount fees calculated on gross or net sales?

By default, processing fees are calculated on gross sales and debited from the billing DDA on a monthly basis. Alternate billing cycles (e.g., weekly) are supported, upon request.

iv. Are order charge slips, signs and other supplies available? How are the orders handled? What is the normal shipping time?

Supplies can be order through our 24/7 call center and sent according to the shipping option (e.g., overnight) requested by the City when placing the order.

v. How are customers notified of association price adjustments?

The card brands and payment networks provide notifications of any updates in October and April each year. Those notifications will be circulated and presented to Roseville ahead of the update.

9.0 Assurance of Primary Designated Project Team

Proposer shall assure that the designated primary project team, including sub-institution or subcontractors (if any), is used for both the banking services and merchant services sections of this project. Departure or reassignment of, or substitution for, any member of the designated project team, substitution (s) or sub-contractor(s) shall not be made without the prior written approval of the City.

- i. Confirm that designated project teams will be, as much as practically possible, stable on both banking services and merchant services.**

U.S. Bank/Elavon has reviewed this statement. Please refer to the following exhibits:

- [Exhibit 23, U.S. Bank Exceptions to City of Roseville RFP 10-026](#)
- [Exhibit 24, Elavon Exceptions to City of Roseville RFP 10-026](#)

10.0 Proposal Format Requirements

Each response to this RFP shall include the information described in this section. Provide the information in the specified order. **Failure to include all of the information specified may be cause for rejection.** Additional information may be provided, but should be succinct and relevant to the goals of this RFP. Any additional general information that a proposing Institution wishes to include that is not specifically requested should be included in an appendix to the proposal.

Institutions are encouraged to keep the proposals brief and to the point, but sufficiently detailed to allow evaluation of the project approach. Unauthorized conditions, omissions, limitations or provisions attached to a proposal may render the proposal non-responsive and may cause its rejection.

Proposers are warned against making erasures or alterations of any kind, without initialing each and every such change. Proposals that contain erasures or irregularities of any kind, without such initialing, or omissions, may be rejected.

Preference is for electronic submissions. If provided via regular mail, the proposal should be bound or contained in a loose leaf binder. Document pages shall be 8-1/2 inches by 11 inches in size or folded to such a size. Use section dividers, tabbed in accordance with this section as specified below.

10.1 Cover Letter with the following information:

Title and number of this RFP

Please refer to the Cover Letter.

Legal Name and Mailing Address of Institution (include physical location if mailing address is a PO Box)

Please refer to the Cover Letter.

Contact Person, Telephone Number, Fax Number, and Email Address for all RFP questions

Please refer to the cover letter. Fax numbers are not applicable.

A statement that the submitting Institution will perform the services and adhere to the requirements described in this RFP, including any addenda (reference the addenda by date and/or number).

U.S. Bank has reviewed the contents and requirements of City of Roseville RFP 10-026, including the addendum document titled Questions and Responses for RFP 10-026.

The letter should be signed by an individual legally authorized to bind the institution.

Please refer to the Cover Letter. Per the City's answer to Question #49, a digital signature has been applied.

10.2 Signature Requirements - The attached Proposer's Certification (Attachment C) shall be executed by an official(s) legally authorized to bind the Institution which states that the proposal is valid for ninety (90) days. Note: This is ninety (90) days following the closing date for the submission of proposals.

U.S. Bank agrees. Please refer to [Attachment C, Signed Proposer's Certification](#). Per the City's answer to Question #49, a digital signature has been applied.

Proposals submitted on behalf of a Partnership shall be signed in the firm name by a partner or the Attorney-in-Fact. If signed by the Attorney-in-Fact, there shall be attached to the proposal a Power-of-Attorney evidencing authority to sign proposals, dated the same date as the proposal and executed by all partners of the firm.

Not applicable.

Proposals which are submitted on behalf of a Corporation shall have the correct corporate name thereon and the actual signature of the authorized officer of the corporation written (not typed) below the corporate name. The title of the office held by the person signing for the corporation shall appear below the signature of the officer.

Please refer to [Attachment C, Signed Proposer's Certification](#). Per the City's answer to Question #49, a digital signature has been applied.

10.3 Response to Questions Sections 4.0 through 8.0

Complete responses to each question in Sections 4.0 through 8.0 should be made in the order requested and include all pertinent information to fully answer each question.

Please refer to Sections 4.0 through 8.0 as listed in the Table of Contents.

10.4 ATTACHMENT A - Completion of Proposed Banking Pricing Form

Attachment A is provided for proposed banking fees. Fees required by your institution to provide each service must be included on the Attachment (not simply on a pro forma). If additional categories are required by your institution then they should be added in the appropriate service section on the Attachment. All fees required by the bank to provide the

required services should be shown on the Attachment and if additional fee categories are established by your institution these should be added into the sheet and priced accordingly.

Please refer to **Attachment A**.

The historical monthly usage averages for each fee category as defined by the current banking institution are provided in the hidden columns C through N. The Attachment is being provided in an Excel format to facilitate its completion.

Please refer to [Attachment A, Proposed Bank Fees](#).

Any Alternative or Optional Service being proposed should also be added to the Attachment with appropriate per item costs.

Please refer to [Attachment A, Proposed Bank Fees](#).

10.5 ATTACHMENT B – Completion of Proposed Merchant Services Pricing Form Attachment B is provided for proposed Merchant Services fees. Monthly volume and dollar histories are shown. If additional categories are required by your institution then they should be added in the appropriate service section on the Attachment. The Attachment is being provided in an Excel format to facilitate its completion.

All fees required to provide the required services should be shown on the Attachment and all additional fee categories should be added into the sheet and priced.

Please refer to [Attachment B, Proposed Merchant Service Fees](#).

10.6 Required City Statements/Documents –Provide written statements of assurance regarding the following requirements in the proposal:

Assurance of Designated Project Team for non-substitution for the designated members of the team without approval by City staff (Section 9.0)

In the event of necessary change of designated project team members, U.S. Bank/Elavon will notify the City. Please refer to the following exhibits:

- [Exhibit 23, U.S. Bank Exceptions to City of Roseville RFP 10-026](#)
- [Exhibit 24, Elavon Exceptions to City of Roseville RFP 10-026](#)

The absence of a conflict of interest (Section 14.9)

U.S. Bank does not have any conflicts of interest to disclose.

Indicate your ability and agreement to fulfill the indemnification and insurance requirements contained in the Primary Banking Services Agreement (ATTACHMENT D) (Please note that actual certificates of insurance are not required as part of your submittal.)

U.S. Bank has reviewed and meets the requirements listed in Attachment D.

A statement that nothing contained in the submitted proposal will be proprietary (Section 14.15 and 14.28).

Submit the following documents with proposal:

Proof of registration with California Secretary of State

Please refer to [Exhibit 01, California Secretary of State Registration Screenshots](#).

Executed copy of Proposer's Certification (Attachment C)

Please refer to [Attachment C, Signed Proposer's Certification](#). Per the City's answer to Question #49, a digital signature has been applied.

Executed copy of Non-collusion Declaration (Attachment E)

Please refer to [Attachment E, Signed Noncollusion Declaration](#).

10.7 Exceptions –Provide any and all written proposed exceptions, alterations or amendments to the Scope of Services or requirements of this RFP, including the sample agreement (Attachment D). The nature and scope of the proposed exceptions may negatively affect the evaluation of your submittal and the City's determination of whether it is possible to successfully negotiate a contract with your institution.

Please refer to the following exhibits:

- [Exhibit 23, U.S. Bank Exceptions to City of Roseville RFP 10-026](#)
- [Exhibit 24, Elavon Exceptions to City of Roseville RFP 10-026](#)

The following exhibits were not requested by the City, but are included for your reference:

- [Exhibit 25, Elavon State of California Authorized User Set Up Form](#)
- [Exhibit 26, Elavon State of California Local Authorized User Addendum](#)

ATTACHMENT A
CITY OF ROSEVILLE
PROPOSED BANK FEES

*Monthly fees for each category for the the entire relationship are shown in the hidden columns C-M.
Provide all fees required to provide the services as deccribed in the RFP. Add any fees and
fee categories necessary.*

ATTACHMENT A
CITY OF ROSEVILLE - PROPOSED BANK FEES**

This amendment changes all references of an incentive of \$100,000 to be paid for the first year towards existing services, as well as any new products and services, to \$150,000 without any other requirements or stipulations. These funds will be used to offset the City's account analysis fees for a period of one year, or until funds are depleted.

This bonus is paid as a result of being awarded the depository business of the City of Roseville.

PROPOSER'S CERTIFICATION

I hereby propose to furnish the goods or services specified in the Request for Proposals ("RFP"). I agree that my proposal will remain firm for a period of up to ninety (90) days in order to allow the City of Roseville ("City") adequate time to evaluate the qualifications submitted.

I have carefully examined the Request for Proposals and any other documents accompanying or made a part of this RFP. The information contained in this proposal is true and correct to the best of my knowledge and is signed under penalty of perjury under the laws of the State of California. I further certify that I am duly authorized to submit this proposal on behalf of the firm as its authorized agent and that the firm is ready, willing and able to perform if awarded the contract.

I further certify that this proposal is made without prior understanding, agreement, connection, discussion, or conspiracy with any other person, firm or corporation submitting a proposal for the same product or service; that this proposal is fair and made without outside control, collusion, fraud or illegal action; that no officer, employee or agent of the City or any other proposer is financially interested in said proposal; that no undue influence or pressure was used against or in concert with any officer, employee or agent of the City in connection with the award or terms of the contract that will be executed as a result of this RFP; and that the undersigned executed this Proposer's Certification with full knowledge and understanding of the matters therein contained and was duly authorized to do so.

NONCOLLUSION DECLARATION TO BE EXECUTED BY PROPOSER AND SUBMITTED WITH THE PROPOSAL

The undersigned declares:

I am the _____ of _____, the party making the foregoing bid.

The bid is not made in the interest of, or on behalf of, any undisclosed person, partnership, company, association, organization, or corporation. The bid is genuine and not collusive or sham. The bidder has not directly or indirectly induced or solicited any other bidder to put in a false or sham bid. The bidder has not directly or indirectly colluded, conspired, connived, or agreed with any bidder or anyone else to put in a sham bid, or to refrain from bidding. The bidder has not in any manner, directly or indirectly, sought by agreement, communication, or conference with anyone to fix the bid price of the bidder or any other bidder, or to fix any overhead, profit, or cost element of the bid price, or of that of any other bidder. All statements contained in the bid are true. The bidder has not, directly or indirectly, submitted his or her bid price or any breakdown thereof, or the contents thereof, or divulged information or data relative thereto, to any corporation, partnership, company, association, organization, bid depository, or to any member or agent thereof, to effectuate a collusive or sham bid, and has not paid, and will not pay, any person or entity for such purpose.

Any person executing this declaration on behalf of a bidder that is a corporation, partnership, joint venture, limited liability company, limited liability partnership, or any other entity, hereby represents that he or she has full power to execute, and does execute, this declaration on behalf of the bidder.

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct and that this declaration is executed on _____ [date], at _____ [city], _____ [state].

U.S. Bank Commercial Paper Sweep Service

Transfer excess balances automatically between your checking and U.S. Bank Commercial Paper sweep account.

Overview

U.S. Bank Commercial Paper Sweep Service automatically moves excess balances between a U.S. Bank checking account and a sweep account that invests in U.S. Bank National Association Commercial Paper. At the end of each business day, excess funds are transferred automatically from your U.S. Bank checking account to the sweep account. Funds from the maturing commercial paper are available in the checking account on the next business day. Commercial Paper Sweep is an effective way to put excess cash to work and earn competitive interest rates.

Key features

- **Automate daily transfers.** Save valuable time spent transferring money between checking and investment accounts. Daily transfers into and out of your checking account and Commercial Paper Sweep account are automatic. Funds are available whenever you need them.
- **Enjoy competitive returns.** The Commercial Paper Sweep Service provides competitive interest rates to help you maximize your interest earnings on excess cash.
- **Establish your minimum checking account balance.** Choose a target account balance you want to maintain in your checking account. The U.S. Bank Commercial Paper Sweep Service will invest the funds that are in excess of your established target balance.
- **Meet a reasonable minimum investment requirement.** A minimum investment of \$1,000 is required to participate. The full balance above the checking account target balance you establish is automatically transferred as long as there is at least \$1,000 available to sweep.
- **Understand the risk.** The commercial paper investment made by the Commercial Paper Sweep Service is an unsecured, short-term promissory note issued by U.S. Bank National Association.
- **Access daily information.** Monitor your sweep transactions using information reporting options available through SinglePoint® Information Reporting.
- **Receive monthly account information.** You receive a monthly statement for your Commercial Paper Sweep account. Information on your checking account transactions is provided on your U.S. Bank checking account statement, or you can combine the two into a single statement.

For purposes of Section 15B of the Securities Exchange Act of 1934 (the "Act") (SEC Rule 15Ba1-1 et seq.) (the "Rule"), U.S. Bank, National Association (the "Bank"): (1) is not recommending and will not recommend an action to you; (2) is not providing and will not provide "advice" to you as defined in the Rule, and any information or communication from the Bank in respect of your accounts with the Money Center or the Safekeeping Departments of the Bank (the "Account(s)") or in respect of any securities transaction or potential securities transaction to be executed via the Account(s) is not intended to be and should not be construed as "advice" as defined in the Rule; and (3) the Bank is not acting as an advisor to you and does not owe you any fiduciary duty pursuant to Section 15B of the Act or otherwise with respect to any such Account(s), information, communication, transaction or potential transaction.

You should discuss any information or material provided to you by the Money Center in connection with trading, investing or other activity in the Account(s) with any and all of your internal or external advisors and experts that you deem appropriate before acting on any such information or material.

Account Reconciliation Standard Issue Input Specifications for Mainframe Data Transmission/FTP – 145 Characters – Legacy

Please use the standard layout format listed below to produce issue data for transmission to U.S. Bank for your Full Account Reconciliation and Positive Pay services. The file you create should follow the specifications listed below:

- Each record will contain **145 characters**.
- Text (Space Delimited) File.
- The decimal is implied.
- Each file may contain multiple accounts.
- You will need to create a total record for each account (after the detail records).

Detail Record¹

Field/Column	Position	Length/Column Width	Contents	Description
1/A	01-02	2	'01'	Record Code
2/B	03-14	12	Numeric	Account Number ²
3/C	15-24	10	Numeric	Serial/Check Number ²
4/D	25-36	12	\$\$\$\$\$\$\$\$\$¢¢	Amount ²
5/E	37-44	8	MMDDYYYY	Issue Date ²
6/F	45-45	1	Alpha/Numeric	Blank or "V" for Void
7/G	46-85	40	Alpha/Numeric	First Payee Name
8/H	86-125	40	Alpha/Numeric	Second Payee Name
9/I	126-145	20	Blank	Filler

Total Record³

Field/Column	Position	Length/Column Width	Contents	Description
1/A	01-02	2	'02'	Record Code
2/B	03-14	12	Numeric	Account Number ²
3/C	15-24	10	Numeric	Total Detail Records ²
4/D	25-36	12	\$\$\$\$\$\$\$\$\$¢¢	Total Amount ²
5/E-I	37-145	109	Blank	Filler ⁴

¹The Detail Record contains all of the issue data information.

²These fields/columns are right-justified and should be zero-filled. File will still process if not zero-filled.

³The Total Record is a summary of the information in the Detail Record. It is a count of items and a total dollar amount.

⁴Each record cannot exceed 145 characters, including the line feed/carriage return. Line feed/carriage return should be set at position 145.

For questions, call the ARP Installation Group at 800.306.1039 option 4, between the hours of 8 a.m. and 4 p.m. CT, Monday through Friday.

For transmission connectivity issues or questions, please contact DDS Questionnaire Hotline at 651.962.1925.

Input File Limits: ARP processing limitations currently include a limit of 50 files per Dataset Name (DSN) per hour with a maximum of 99 files per day. The total record count of all files received for a DSN cannot exceed 500,000 records per hour. If we receive files over the limit it **may** cause loss of data and downstream impacts to your ARP and Positive Pay services along with impacts to your payees and their ability to cash checks.

Financial Proposal for a
CAL-Card Program

PRESENTED TO
City of Roseville
Nick Rosas
Accounting Manager

SUBMITTED BY
Leslie Massey
Vice President

August 25, 2022
RFP # 10-026

Financial proposal

U.S. Bank proposes that City of Roseville (the City) participate in the NASPO ValuePoint program, a competitively bid and awarded consortium program for commercial card services available to political subdivisions in the State of California. This program has an established footing among many States and their political subdivisions and allows for participation by those entities that assume all responsibility and liability for their performance under the terms and conditions of the program. Each entity must be credit-qualified on its own and must sign a document developed by U.S. Bank for participation. The NASPO ValuePoint program offers the following incentives based on the projections provided by the City. If these projections are inaccurate, we reserve the right to revisit this offer.

We offer the City the CAL-Card program, which is a U.S. Bank Purchasing Card and Virtual Pay program offered in California through the NASPO ValuePoint public-funded agencies. The combined spend volume of the entire NASPO consortium results in significant financial benefits for all members.

The program allows the City to take advantage of a contract that has already been negotiated, saving valuable time for efficient implementation and training. The CAL-Card program offers a simplified quarterly rebate program and superior customer service. the City will also have a reliable financial partner in U.S. Bank—stable and strong in any economic environment.

Aspects of the program include:

Billing options

We offer central or decentralized billing options. You may elect for each department to receive a managing account statement with charges for its department charges, or a central account with combined billing of all charges for all accounts across the City. We allow our commercial card clients to choose between monthly or biweekly billing cycles and provide multiple statement delivery options to integrate with your data management needs.

Billing cycles

We offer 19 cycle dates, from the 6th through the 25th day of each month (exclusive of the 19th of each month). If the billing cycle date chosen falls on a Saturday, Sunday or holiday, the data is cycled at the end of the next business day.

Payment terms

Payment is due within 45 days of the statement date.

We offer a full spectrum of automated remittance options to take the burden out of the payment process. We recommend electronic payment (central pay system) and payment-in-full policies, offering you the greatest efficiency and simplicity. The type of payment may be split within the City.

Additional incentive and pricing provisions

The following provisions apply separately to each program in which organizations participate:

- Incentives are paid less credit losses, such as write offs. Fraud losses are absorbed by U.S. Bank.
- Incentives are to be paid quarterly.

Please refer to the **Local Agency Subscription Agreement** attached to this proposal for additional information regarding the participation of the City in the State of California, Department of General Services Participation Addendum.

Components for calculation

Our pricing proposal uses two components to calculate incentives:

- **Quarterly Sales Volume Incentive**—A volume incentive based on the City's quarterly spend.
- **Quarterly Speed of Payment Incentive**—A client held day¹ incentive based on the City's payment performance.

Volume incentive

The volume incentive is determined by the table below.

Standard Volume Incentive

Percentage
1.3500%

Client Held Days Payment Performance must be 45 or less

Credit Losses deducted from Rebate

Fraud Losses absorbed by U.S. Bank

Rebate payment: Quarterly

¹ Client held days are the number of days from the day U.S. Bank funds a charge transaction to the day payment for that transaction is posted, inclusive of the beginning and ending days, minus 15.

Prompt payment incentive

The prompt payment incentive is determined by the table below.

Prompt Payment Incentive

Client Held Days Payment Performance	Percentage	Client Held Days Payment Performance	Percentage	Client Held Days Payment Performance	Percentage
45	0.0000%	29	0.1600%	14	0.3100%
44	0.0100%	28	0.1700%	13	0.3200%
43	0.0200%	27	0.1800%	12	0.3300%
42	0.0300%	26	0.1900%	11	0.3400%
41	0.0400%	25	0.2000%	10	0.3500%
40	0.0500%	24	0.2100%	9	0.3600%
39	0.0600%	23	0.2200%	8	0.3700%
38	0.0700%	22	0.2300%	7	0.3800%
37	0.0800%	21	0.2400%	6	0.3900%
36	0.0900%	20	0.2500%	5	0.4000%
35	0.1000%	19	0.2600%	4	0.4100%
34	0.1100%	18	0.2700%	3	0.4200%
33	0.1200%	17	0.2800%	2	0.4300%
32	0.1300%	16	0.2900%	1	0.4400%
31	0.1400%	15	0.3000%	0	0.4500%
30	0.1500%				

Discount interchange programs

Current discount interchange includes large ticket transactions, merchant-specific negotiated rates with the card branded associations, transactions made in a foreign jurisdiction and merchant discounts for providing Level III data. We offer the City the following incentive on your discount interchange transactions:

Non-Standard Volume Incentive

Percentage
1.3500%

Client Held Days Payment Performance must be 45 or less

Credit Losses deducted from Rebate

Fraud Losses absorbed by U.S. Bank

Rebate payment: Quarterly

Prompt Payment Incentive

Client Held Days Payment Performance	Percentage	Client Held Days Payment Performance	Percentage	Client Held Days Payment Performance	Percentage
45	0.0000%	29	0.1600%	14	0.3100%
44	0.0100%	28	0.1700%	13	0.3200%
43	0.0200%	27	0.1800%	12	0.3300%
42	0.0300%	26	0.1900%	11	0.3400%
41	0.0400%	25	0.2000%	10	0.3500%
40	0.0500%	24	0.2100%	9	0.3600%
39	0.0600%	23	0.2200%	8	0.3700%
38	0.0700%	22	0.2300%	7	0.3800%
37	0.0800%	21	0.2400%	6	0.3900%

33	0.1200%	17	0.2800%	2	0.4300%
32	0.1300%	16	0.2900%	1	0.4400%
31	0.1400%	15	0.3000%	0	0.4500%
30	0.1500%				

Proposed fees

Below are our proposed fees for the City's program:

Purchasing Card and Virtual Pay	
Feature	Fee
Annual Card Fee	No Fee
Non-Sufficient Funds Fee	\$15.00 per occurrence
Cash Advance	2% (\$2.00 minimum)
Logo Embossing Fee; a two-week delay may occur with card issuance and implementation	No Fee
Delinquency Fee: ▪ Not Paid by Due Date on entire past due amount ▪ Not Paid by each subsequent Billing Cycle on the entire past due amount ▪ Minimum Late Fee	▪ 1% ▪ 2.5% ▪ \$2.00
Travel Accident Insurance Fee. Common Carrier Travel Accident Insurance for Corporate Travel and/or One Cards is provided at no charge with a benefit amount of two hundred fifty thousand U.S. Dollars (\$250,000.00). Entity and/or Participant must notify U.S. Bank of the use of Central Billing Accounts for booking of travel to ensure appropriate insurance coverage is in place.	No Fee
Foreign Transaction Fee, all Products. Fee applies to transactions taking place outside the United States not in U.S. dollars. U.S. Bank reserves the right to raise fee with sixty (60) days prior written notice to Entity.	1%

Confidentiality; Disclosures

U.S. Bank appreciates the opportunity to review the Request for Proposal (RFP) for City of Roseville's purchasing card and Virtual Pay program. We have attached a copy of the NASPO ValuePoint Agreement for your review and consideration. Please note that the agreement offers the following benefits:

- It is specifically tailored for the financial services and solutions offered in this proposal.
- It contains terms and conditions designed to promote compliance with federal and state laws and regulations such as the USA PATRIOT Act, FCRA, BSA/AML, etc.
- It provides U.S. Bank with the ability to offer more favorable economic incentives due to efficiencies gained in the contracting process and the administration of the program.

If the RFP results in a contract award to U.S. Bank, we propose that the NASPO ValuePoint Agreement govern this relationship. Accordingly, please note that we do not agree to be bound by any of the terms and conditions contained in the RFP unless and until such terms are incorporated into a final written agreement between the parties. This proposal represents the basis for a proposed business relationship and is not a contract for services. The incentive and fees provided in this proposal are predicated on the State of California's ongoing participation in the NASPO ValuePoint Agreement led by the State of Washington. Please note that the current NASPO ValuePoint Agreement is effective January 1, 2021 through December 31, 2025. All pricing elements, including incentives, are subject to final credit approval by U.S. Bank, and are subject to change if credit is conditional upon collateral pledge, pre-payment or guarantor.

The documents provided in this proposal contain proprietary and confidential information of U.S. Bancorp and its affiliates and shall not be duplicated, used, or disclosed, in whole or in part, for any purpose other than to evaluate this proposal.

U.S. Bancorp, its affiliates and subsidiaries retain ownership of the information contained in these documents. Any disclosure, publication or dissemination of the information by the recipient is prohibited without the prior written consent of U.S. Bank. If this proposal is subject to disclosure under a Freedom of Information Act, Sunshine Act or other applicable law, we request that these documents be afforded protection from disclosure to the maximum extent permissible under law as proprietary and confidential information.

Finally, please note that U.S. Bank National Association offers commercial card payment products in its own name and on behalf of its correspondent bank partners under the assumed name of Elan Financial Services (Elan). Please be advised that Elan, at the request of one or more of its partner banks, may submit separate responses to the RFP.

Exhibit “C”

Master Services Agreement

Customer Tax Identification Number:

I, , HEREBY CERTIFY that I am of ("Customer"),

I further certify that I have full power and lawful authority to execute this Master Services Agreement ("MSA") on behalf of Customer. I further certify that Customer has taken all action required by its resolutions and other organizational documents, records or agreements to authorize the individuals listed below to act on behalf of Customer in all transactions contemplated under this MSA. Customer shall not be bound by the terms and conditions for those specific services described, to the extent Customer elects not to use such service(s). Customer hereby agrees as follows:

DEPOSIT ACCOUNTS:

1. U.S. Bank National Association ("Bank") is hereby designated as Customer's banking depository. Customer has received a copy of the deposit account terms and conditions and agrees that such terms shall govern the deposit account services provided by Bank. All transactions between Customer and Bank involving any of Customer's accounts at Bank will be governed by the deposit account terms and conditions, this MSA and other disclosures provided to Customer. Customer agrees to provide Bank with a copy of documents requested by Bank.
2. Any one (1) of the persons whose names and signatures appear in Appendix A (individually, an "Account Signer") are hereby authorized to open, add, modify, or close accounts in the name of Customer or its subsidiaries or affiliates, or if applicable, as an agent for another entity, and to sign, on behalf of Customer, its subsidiaries or affiliates or as an agent for another entity, checks, drafts or other orders for the payment, transfer or withdrawal of any of the funds or other property of Customer, whether signed, manually or by use of a facsimile or mechanical signature or otherwise authorized, including those payable to the individual order of the person or persons signing or otherwise authorizing the same and including also those payable to the Bank or to any other person for application, or which are actually applied to the payment of any indebtedness owing to the Bank from the person or persons who signed such checks, drafts or other withdrawal orders or otherwise authorized such withdrawals; and are also authorized to endorse for deposit, payment or collection any check, bill, draft or other instrument made, drawn or endorsed to the accounts governed by this MSA for deposit into these accounts. The authorization contained in the preceding sentence includes transfers of funds or other property of Customer to accounts outside of those accounts Customer maintains at Bank. Any one of the Contract Signers (as defined below) is also authorized to execute any documentation that Bank may require to add or delete Account Signers.
3. Unless Customer otherwise advises Bank in writing and Bank has a reasonable opportunity to act on such writing, the Account Signers listed in Appendix A will be Account Signers on any future deposit accounts that Customer maintains with Bank.
4. Customer acknowledges and agrees that Bank is not required to obtain the consent of or otherwise contact an Account Signer for transactions other than those listed in paragraph 2 above, including, but not limited to, transfers between accounts Customer maintains at Bank, advances on loans Customer has with Bank and transfers to pay down loans Customer has with Bank.

TREASURY MANAGEMENT SERVICES:

5. Bank's treasury management services ("Treasury Management Service(s)") are described in the U.S. Bank Services Terms and Conditions, any supplements thereto, any implementation documents, user manuals, operating guides and other related documentation and disclosures provided by Bank, and any addendum to any of the foregoing (collectively the "Services Agreement"). Customer has received and reviewed the Services Agreement and desires to use one or more of the Treasury Management Services.
6. Any one (1) of the persons whose names and signatures appear in Appendix B (individually, a "Treasury Management Signer") are empowered in the name of and on behalf of the Customer to enter into all Treasury Management Services transactions contemplated in the Services Agreement including, but not limited to, selecting Treasury Management Services, appointing agents to act on behalf of Customer in the delivery of Treasury Management Services, signing additional documentation necessary to implement the Treasury Management Services and giving Bank instructions with regard to any Treasury Management Service, including without limitation, wire transfers, ACH transfers, and any other electronic or paper transfers from or to any account Customer may maintain with Bank. Bank may, at its discretion, require Customer to execute additional documentation to implement or amend certain Treasury Management Services. In such cases, documentation necessary to implement or amend such Services shall be signed by a Treasury Management Signer. Customer further acknowledges and agrees that Bank may implement or amend Services based on the verbal, written, facsimile, voice mail, email or other electronically communicated instructions that it believes in good faith to have been received from a Treasury Management Signer. Any one of the Contract Signers (as defined below) is also authorized to execute any documentation that Bank may require to add or delete Treasury Management Signers.

Master Services Agreement

MONEY CENTER AND SAFEKEEPING SERVICES:

7. Any one (1) of the persons referenced in Appendix M (individually, a "Money Center Signer") are each authorized and empowered in the name of and on behalf of the Customer to transact any and all depository and investment business through the Bank's Money Center division (the "Money Center") and any securities custodial business through the Bank's Safekeeping Department (the "Safekeeping Department"), which such person may at any time deem to be advisable, including, without limiting the generality of the foregoing, selecting any services that may from time to time be offered by the Money Center or the Safekeeping Department (collectively referred to herein as "Money Center Services" and "Safekeeping Services", respectively), appointing additional Money Center Signers or agents to act on behalf of Customer with respect to Money Center Services and Safekeeping Services, signing additional documentation necessary to implement the Money Center Services and Safekeeping Services and giving Bank instructions with regard to any Money Center Service and Safekeeping Service. Customer has received and reviewed the Services Agreement and may use one or more of the Money Center Services or Safekeeping Services from time to time. Bank may, at its discretion, require Customer to execute additional documentation to implement or amend certain Money Center Services or Safekeeping Services. In those cases, the required documentation shall be signed by a Money Center Signer. Customer further acknowledges and agrees that Bank may take any action with respect to any Money Center Services or Safekeeping Services requested by a Money Center Signer based on the verbal, written, facsimile, voice mail, email or other electronically communicated instructions that Bank believes in good faith to have been received from a Money Center Signer. Any one of the Money Center Signers is also authorized to execute any documentation that Bank may require to add or delete Money Center Signers.

FOREIGN EXCHANGE:

8. Bank is authorized by Customer to enter into foreign exchange transactions. Customer has received a copy of the Services Agreement and agrees that the terms contained in the Services Agreement, this MSA and other disclosures provided to Customer shall govern the foreign exchange services provided by Bank. Customer agrees to provide Bank with a copy of documents requested by Bank.

FOREIGN CURRENCY ACCOUNTS:

9. Bank is hereby designated as Customer's banking depository for one or more Foreign Currency Account(s) (the "Foreign Account(s)"). Any one (1) of the persons whose names and signatures appear in Appendix C (individually, a "Foreign Currency Account Signer") are hereby authorized to open, add, modify, or close any Foreign Account(s) in the name of Customer or its subsidiaries or affiliates and to make, on behalf of Customer, orders for payment or transfer of any of the funds or other property of Customer, whether signed, manually or by use of a facsimile or mechanical signature or otherwise authorized, including those payable to the individual order of the person or persons signing or otherwise authorizing the same. Customer hereby expressly authorizes and directs Bank to accept written and oral instructions any payment orders, by telephone or otherwise, consistent with the Services Agreement. Customer has received a copy of the Services Agreement and agrees that the terms contained in the Services Agreement, this MSA and other disclosures provided to Customer shall govern the Foreign Accounts. Any one of the Contract Signers (as defined below) is also authorized to execute any documentation that Bank may require to add or delete Foreign Currency Account Signers.

OTHER SERVICES:

10. A Contract Signer is authorized and empowered on behalf of Customer to transact any and all other depository and investment business with and through Bank, and, in reference to any such business, to make any and all agreements and to execute and deliver to Bank any and all contracts and other writings which such person may deem to be necessary or desirable.

GENERAL:

11. All Account Signers, Treasury Management Signers, Foreign Currency Account Signers and/or Money Center Signers (whether designated in this MSA or in a prior document [for example, a Certificate of Authority or a Treasury Management Services Agreement] executed by Customer) will remain in place until Bank receives written notice of any change and has a reasonable time to act upon Customer's written notice.
12. Any and all transactions by or in behalf of Customer with the Bank prior to the adoption of this MSA (whether involving deposits, withdrawals, Treasury Management Services, or otherwise) are in all respects ratified, approved and confirmed.
13. Customer agrees to furnish Bank with the names and signatures (either actual or any form or forms of facsimile or mechanical signatures adopted by the person authorized to sign) of the persons who presently are Account Signers, Treasury Management Signers, Foreign Currency Account Signers and/or Money Center Signers. Bank shall be indemnified and saved harmless by Customer from any claims, demands, expenses, loss or damage resulting from or growing out of honoring or relying on the signature or other authority (whether or not properly used and, in the case of any facsimile signature, regardless of when or by whom or by what means such signature may have been made or affixed) of any officer or person whose name and signature was so certified, or refusing to honor any signature or authority not so certified.

Each of the undersigned (individually and collectively, the "Contract Signers") certifies that, based on his or her review of Customer's books and records, Customer has, and at the time of adoption of this MSA had, full power and lawful authority to adopt the MSA and to confer the powers herein granted to the persons named, and that such persons have full power and authority to exercise the same.

Each of the Contract Signers further certifies that he or she has the full power and lawful authority to execute this MSA on behalf of Customer, its subsidiaries and affiliates, or if applicable, as an agent for another entity who has entered into an agreement with Customer authorizing Customer to act on such entity's behalf.

Master Services Agreement

Each of the Contract Signers further certifies that the Account Signers, Treasury Management Signers, Foreign Currency Account Signers and/or Money Center Signers have been duly elected to and now hold the offices of Customer set opposite their respective names, and the signatures appearing opposite their names are the authentic, official signatures of the said signer.

Customer agrees that document electronic signatures or signatures that are transmitted by facsimile or other electronic means shall be binding as of the date signed and to the same extent as original signatures. The parties agree to accept a digital image of this Agreement, as executed, as a true and correct original and admissible as best evidence for the purpose of state law, federal or state rules of evidence, and similar statutes and regulations

The MSA shall be effective as of the last date of the undersigned Contract Signers:

TERMS APPLICABLE TO ALL ACCOUNTS

THIS IS AN AGREEMENT

Welcome to U.S. Bank and thank you for opening an account with us. This Agreement provides the general rules that apply to the account(s) you have with U.S. Bank (“us”) described herein. Additional rules will be provided in:

- 1. disclosures we give you when you open your account for example our *Consumer Pricing Information and Business Pricing Information* disclosure(s) and other fee disclosures (Both can be obtained by stopping in a U.S. Bank branch or for the *Consumer Pricing Information* only, call 800.872.2657 to request a copy);
- 2. disclosures that are applicable to additional products and services (for example the *Digital Services Agreement*);
- 3. periodic statements;
- 4. user guides;
- 5. *Consumer Privacy Pledge* brochure;
- 6. any appropriate means such as direct mail and notices on or with your statement, including any statements or notices delivered electronically; and
- 7. disclosures we give you about ATM and Debit Card Overdraft Coverage (applicable to certain consumer accounts, refer to the **Insufficient Funds and Overdrafts** section on page 14 for details).

These things, together, are an agreement between you and U.S. Bank.

Please read this carefully and retain it for future reference. This brochure is revised periodically, so it may include changes from earlier versions.

By providing a written or electronic signature on a signature card or other agreement or contract, opening, or continuing to hold an account with us, you agree to the most recent version of this Agreement, which is available to you at your local U.S. Bank branch, at www.usbank.com, or by calling U.S. Bank 24-Hour Banking at a number listed on the last page of this booklet.

This Agreement represents the sole and exclusive agreement between you and us regarding the subject matter described herein and supersedes all previous and contemporaneous oral agreements and understandings. If any terms of your signature card, resolution, or certificate of authority are inconsistent with the terms of this Agreement, the terms of this Agreement will control. Any other variations to this Agreement must be acknowledged by us in writing.

If you have any questions, please call us. Our most commonly used phone numbers are printed on the back of this booklet.

DEFINITIONS

The following definitions apply in this Agreement except to the extent any term is separately defined for purposes of a specific section.

- The words “**we**,” “**our**,” and “**us**” mean **U.S. Bank National Association (“U.S. Bank”)**. We are a national bank. We are owned by **U.S. Bancorp**.

- **U.S. Bancorp and U.S. Bank** own or control other companies, directly and indirectly. The members of this family of companies are our “**affiliates**.” The words “**you**” and “**your**” mean each account owner and anyone else with authority to deposit, withdraw, or exercise control over an account. If there is more than one owner, then these words mean each account owner separately, and all account owners jointly.
- The term “**account**” means any savings, transaction (for example, checking, NOW Account), and time deposit (for example, certificate of deposit or CD) account or other type of account you have with us, wherever held or maintained.
- An “**owner**” is one who has the power to deal with an account in his, her or its own name. An “**agent**,” in contrast, is one whose power to withdraw from an account comes from, or is on behalf of, the owners. Authorized signers, designated corporate officers, trustees, attorneys-in-fact, and convenience signers are examples of agents.
- Entities such as corporations, limited liability companies, partnerships, estates, conservatorships, and trusts are not natural persons, and can only act through agents. In such cases, it is the “**entity**” that is the owner.
- “**Personal accounts**” are consumer accounts in the names of natural persons (individuals). They are to be distinguished from “**non-personal accounts**” which are accounts in the name of businesses, partnerships, trusts and other entities.
- An “**account cycle**” or “**statement cycle**” represents the period of time when your statement starts and ends. It’s approximately 30 days long but doesn’t necessarily align with the beginning and end of the month and won’t end on a weekend or holiday.

Except where it is clearly inappropriate, words and phrases used in this document should be interpreted so the singular includes the plural and the plural includes the singular.

CELLULAR PHONE CONTACT POLICY

By providing us with a telephone number for a cellular phone or other wireless device, including a number that you later convert to a cellular number, you are expressly consenting to receiving communications—including but not limited to prerecorded or artificial voice message calls, text messages, and calls made by an automatic telephone dialing system—from us and our affiliates and agents at that number. This express consent applies to each such telephone number that you provide to us now or in the future and permits such calls for non-marketing purposes. Calls and messages may incur access fees from your cellular provider.

MONITORING AND RECORDING COMMUNICATIONS

You acknowledge and agree that we, or anyone acting on our behalf, may monitor and/or record any communication between you and us, or anyone acting on our behalf, for quality control and other purposes. You also acknowledge and agree that this monitoring or recording may be done without any further notice to you. The communication that may be monitored or recorded includes telephone calls, cellular or mobile phone calls, electronic mail messages, text messages, instant or live chat, or any other communications in any form.

WAIVERS AND PRECEDENTS

Our Agreement with you gives us rights and duties. If we don’t take advantage of all our rights all the time that does not mean we lose them. For example:

- If we make funds available to you for withdrawal ahead of schedule, that does not mean we have to do it again.
- If we pay a check that is more than your account balance, that does not mean we have to do it again.

APPLICABLE LAW

Unless otherwise stated herein, your account and this Agreement will be governed by federal law and, unless superseded by federal law, by the law of the state in which your account is located. If you opened your account in person, it is located in the state in which you opened it. If you opened your account online, in the U.S. Bank Mobile App or by telephone and you reside in a state in which we have a branch at that time (or reside within 50 miles of a branch), it is located in the state in which the branch is located. If you reside anywhere else, then your Account is located in Minnesota.

CUSTOMER IDENTIFICATION PROGRAM NOTICE (USA PATRIOT ACT)

To help the government fight the funding of terrorism and money laundering activities, federal law requires all financial institutions to obtain, verify, and record information that identifies each person who opens an account.

What this means for you

When you open an account, we will ask for your name, address, date of birth, and other information that will allow us to identify you. We may also ask to see other identifying documents like a driver’s license or documents showing your existence as a legal entity.

Existing customers

Even if you have been a customer of ours for many years, we may ask you to provide this kind of information and documentation because we may not have collected it from you in the past or we may need to update our records.

Failure to Provide Information

If, for any reason, any owner is unable to provide the information necessary to verify their identity, their account(s) may be blocked or closed, which may result in additional fees assessed to the account(s).

OWNER’S AUTHORITY

Each owner of a personal account, or an agent for a non-personal account, acting alone, has the power to perform all the transactions available to the account. For example, each owner or agent can:

- 1. make withdrawals by whatever means are available for the account;
- 2. make deposits by whatever means are allowed for the account;
- 3. obtain and release information about the account;
- 4. sign or authenticate any document in connection with the account (for example, an owner can endorse a check payable to a co-owner for deposit to a joint account);

- 5. give rights to others to access the account (for example, any owner could grant a power of attorney to have access to the account); and
- 6. close the account.

In addition, if you share ownership of an account with someone else (for example, you have a joint or multi-party account), then each of you can endorse items for deposit to the account on behalf of another owner. If there is shared ownership of an account, it is the intention of all owners that each of you has complete and separate access and withdrawal rights to all the funds in the account irrespective of who had deposited the funds in the account.

AUTHORIZED ACCESS AND POWER OF ATTORNEY

Each owner of your account is independently permitted to authorize someone else to access your account. For example, the following persons will have access to your account:

- 1. Any person listed on a signature card, resolution, or certificate of authority as being authorized to make withdrawals or transfers, by check or otherwise, from your account;
- 2. Any person that you authorize to make withdrawals or transfers from the account by whatever means the account allows (for example, pre-authorized withdrawals, wire transfers, ATM card, or debit card transactions);
- 3. Any person you give rights to act on your behalf, such as a power of attorney;
- 4. Any person to whom you make your checkbook or your checking account number available for purposes of transacting business on the account. We discourage this type of “authorization” because it is possible that we will detect such transactions and treat them as unauthorized. If you give any such person “authority,” we are not responsible whether we honor the transactions or dishonor them; and
- 5. Any person to whom you make your ATM card or debit card personal identification number (PIN) available. Although we discourage this practice, by allowing this type of “authorization,” the person to whom you make your personal identification number (PIN) available may be able to access all of your accounts held with us by using the telephone, ATM, online or other banking access channels. If you give any person such “authority,” we are not responsible for actions they take with respect to your accounts.

We will use the word “agent” to mean any person who you authorize to act on your behalf, whether by following the process we require (for example, by designating an authorized signer on a signature card), or on your own (for example, by creating a power of attorney). If you name such an agent:

- 1. we may require that you use forms we approve and require each owner to sign the form to be effective;
- 2. the powers you give to your agent, and any limitations on those powers, are between you and your agent, even if we have express written notice of those powers. You understand and agree that we have no duty or responsibility to monitor the acts of your agent or ensure that the acts of your agent

are for your benefit. For example, if you only give your agent authority to pay your bills and your agent exceeds that authority, we are not responsible for that breach of authority;

3. you agree not to hold us responsible for any loss or damage you incur as a result of us following instructions given to us by your agent;
4. the owners of the account are responsible to us for any actions of your agent, regardless of whether those actions exceed the authority given or whether the agent is appointed by all the owners or less than all the owners;
5. the agency will end if the owner dies **and** we have actual knowledge of that death, or if there is more than one owner, the agency will end after the death of the last owner and we have actual knowledge of that death and, in either case, once we’ve had reasonable opportunity to act on it;
6. the agency will end after the owner notifies us in writing to end the agency and we have had a reasonable opportunity to act on it; and
7. if you authorize any third person, such as a bookkeeping service, an employee, or agent of yours to retain possession of or prepare items, you agree to assume full responsibility for any errors or wrongdoing performed or caused by such third person or any of its agents or employees if we should pay any such item.

YOU CANNOT TRANSFER AN ACCOUNT

You may not transfer an account to someone else without our express written permission. This does not limit your right to access your account by any permissible means.

CHANGE IN AUTHORIZED SIGNERS

Any owner, including one of the owners of a joint account, may add owners or authorized signers to an account; however, we have the right to require the signature of all owners to make the change. Only under special circumstances and subject to prior approval by us may an owner remove another owner or authorized signer from an account.

No change in owners or authorized signers is effective until we have received written notice of the change and have had adequate time to approve and act on it.

ADJUSTMENTS

If we (or you, or you and us together) make an error on your account, we can fix the error without first notifying you. For example, if:

- the dollar amount of your check is paid for the incorrect amount;
- a deposit is added incorrectly;
- we apply a deposit to the wrong account;

we can fix the error without any special notice to you, though such a correction will normally appear on your statement if the error and the correction occur on different business days.

For accounts coded as Consumer and Business accounts, we may not adjust for insignificant errors unless you request it. For all other account types including Corporate and Commercial accounts, we

may not adjust for deposit errors of \$50.00 or less unless we have agreed with you to a lower adjustment amount.

RETENTION OF DOCUMENTS

You should retain your copy of deposit receipts and other documents associated with your deposit(s). Should you claim that a deposit was incorrectly credited, we may request a copy of your receipt or other documents associated with your deposits.

LIABILITY FOR CHARGES AND OVERDRAFTS

All account owner(s) are responsible to repay to us any overdraft amount **and** any overdraft fees charged to an account, no matter which owner caused it or why. That repayment is due immediately, and we will take it from your next deposit or whenever funds become available in your account. If there is more than one owner, each owner is separately, and all owners are jointly, responsible for an overdraft and any account fees. (This means we can collect the total from any owner(s), on any of the owner(s) accounts, but we won’t collect it more than once). For more information on overdrafts please refer to the section titled **Insufficient Funds and Overdrafts**.

We list the charges that you may incur on your account in separate pricing information disclosures or agreements for your account.

TRANSACTION POSTING ORDER

We reserve the right to decide the order of the items we will pay and which items will be returned (if any). Our posting order may not be the same as the order in which you conducted a transaction and could result in overdraft fees, if you do not have available funds at the time the item is paid. Generally, we post the following three transaction types after the close of each business day in the following order:

1. Deposits we receive before the daily cutoff time will be posted before any withdrawals. (Refer to our Cutoff Time and/or Funds Availability section for cutoff time description.)
2. Your non-check withdrawals will be posted in date/time order, based on the date and time associated with each transaction. A date and time (if one is available) will be assigned to each transaction based on one of the following: (1) when the transaction was preauthorized (for example a debit card or ATM transaction was approved); **or** (2) when the transaction was processed by U.S. Bank (for example an ACH, or bill pay transaction for which there is no pre-authorization). If a date and time is not available, these transactions are posted to your account after all transactions with a valid date and time or check number are complete, and posted to your account in order of amount, starting with the lowest transaction amount first (frequently referred to as low-to-high).
3. Your checks will be posted in check number order, starting with the lowest number. (For example: on Monday we may receive and post check # 107; on Tuesday we may receive check # 102 and # 105, and those would be posted on Tuesday in the order of lowest check number (e.g., # 102) posting first).

DEPOSITS

When you make a non-cash deposit to your account, we give you credit for that deposit, but that credit is provisional (temporary). If the deposit needs to be collected from another financial institution, we must be paid before the credit becomes final. After a credit is

final it may still be reversed if the funds cannot be collected. See the sections titled **Returned Deposited and Cashed Items** and **Funds Availability**. All deposit receipts are issued subject to our count and verification of the items deposited. You should retain your copy of deposit receipts and other documents associated with your deposit(s). Should you claim that a deposit was incorrectly credited, we may request a copy of your receipt or other documents associated with your deposit.

Foreign Currency: Deposits received in a foreign currency, whether by check, wire-transfer, or otherwise, must be converted to U.S. dollars prior to being deposited into your account. U.S. Bank will convert your funds at an exchange rate established by U.S. Bank on the business day when such exchange is processed. Currency exchange rates are determined in our sole discretion based on factors such as market conditions and risk, economic and business factors. The exchange rate is an all-in rate which includes our profit, fees, costs, and charges. Currency exchange rates will be applied to these deposits without notice to you. You agree to this procedure and accept our determination of the currency exchange rates.

Foreign currency conversions can take time and exchange rates fluctuate at times significantly. You acknowledge and accept all risk that may result from such fluctuations. Your transaction is a retail transaction. Retail foreign exchange conversion rates are different from the wholesale exchange rates for large transactions between two banks as may be reported in *The Wall Street Journal* or elsewhere. Exchange rates offered by other banks or shown at other sources (including online sources) may be different from our exchange rates. The exchange rate you are offered may be different from, and likely inferior to, the rate paid by U.S. Bank to acquire the underlying currency. The exchange rate may also be different from a rate offered by U.S. Bank to a different customer, at a different time, for a different transaction amount, or in a different payment channel (checks, wire-transfers, etc.).

U.S. Bank sometimes relies on other financial institutions in the conversion process. In this event, the conversion will be in accordance with the policies and procedures of that bank and the funds will be converted at the exchange rate determined by that bank. Any fees or charges assessed by that bank will be passed on to you. Your final credit will be adjusted to reflect that final exchange rate less all fees or charges.

Foreign Checks: Checks and other items drawn off a foreign financial institution, whether negotiable in a foreign currency or in U.S. dollars may require special funds collection processing by us. As a result, funds availability may be delayed. If you deposit such an item, you agree that we may delay funds availability at our discretion until we are satisfied that we have received final payment of the item.

Deposits by Mail: If you make a deposit by mail, we have to receive it and have time to record it before it becomes effective. (See our **Funds Availability** section.)

Cutoff Time: A deposit made after our daily cutoff time on a business day, or on a day we are not open for all forms of business, will be considered deposited on the next full business day. (Refer to our **Funds Availability** section for cutoff time description.) The cutoff time applies to all accounts (savings, certificate of deposits, payments, etc.), not just checking accounts.

Endorsement: If you make a deposit to an account and you fail to endorse the item, we may add an endorsement on any item and you will be responsible for the item as if you endorsed it yourself.

We can refuse to accept any item or other type of deposit, for any reason, or no reason, or impose conditions on a deposit. For example, we can treat a deposit as an “inquiry” or take an item for “collection” instead of deposit. We may also decline to accept a large cash deposit or require you to make such a deposit at a location and time of our choosing.

RETURNED DEPOSITED AND CASHED ITEMS

The funds you deposit to your account are subject to normal collection processes even after we make the funds available to you for withdrawal (i.e., the check has “cleared”). If we do not collect the funds, or we need to return the funds, your deposit will be reversed and become your responsibility. **Returned items** are charged back to your account and a Return Item Advice notice is mailed to the primary account address on file.

For example:

- The deposit amount of the check is recorded incorrectly to your account. The person who wrote the check catches the error, and reports it to their bank, who in turn reports it to us. We would reverse the incorrect portion of the deposit and correct the mistake.
- A check you deposit has a forged endorsement. The person who wrote the check notices the forgery and reports it to their bank, who reports it to us. We would reverse the deposit and collection of the check would become your responsibility.
- This also applies to checks we might cash for you that you don’t deposit. For example, if you bring a check to us and take cash back from a deposit, or we simply cash the check and if that check “bounces” (is returned to us unpaid), we can take the money from your account to reimburse us for the check and you will have to collect it through other channels.

There will be one fee posted for the sum of all Returned Deposited Item or Cashed Check fees returned within a single transaction as well as applicable overdraft fees if sufficient funds are not in your account to cover your items.

CHECK 21

Check processing is getting faster as banks begin to process checks “electronically.” We are required by law to provide the notice in the following section (**“SUBSTITUTE CHECKS AND YOUR RIGHTS”**), which explains the differences between your original check (which might not be returned) and a substitute check, and your rights in the event the substitute check causes a loss that would have been avoided if the original check was still available.

SUBSTITUTE CHECKS AND YOUR RIGHTS

What is a substitute check?

To make check processing faster, federal law permits banks to replace original checks with “substitute checks”. These checks are similar in size to original checks with a slightly reduced image of the front and back of the original check. The front of the substitute check states: “This is a legal copy of your check. You can use it the same way you

would use the original check.” You may use the substitute check as proof of payment just like the original check.

Some or all of the checks that are returned to you from us may be substitute checks. This notice describes your rights you have when you receive substitute checks from us. The rights in this notice do not apply to original checks, photocopies of original checks, or to electronic debits to your account. However, you have rights under other laws with respect to those transactions.

What are my rights regarding substitute checks?

In certain cases, federal law provides a special procedure that allows you to request a refund for losses you suffer if a substitute check is posted to your account (for example, if you think that we withdrew the wrong amount from your account or that we withdrew money from your account more than once for the same check). The losses you may attempt to recover under this procedure may include the amount that was withdrawn from your account and fees that were charged as a result of the withdrawal (for example, overdraft fees).

The amount of your refund under this procedure is limited to the amount of your loss or the amount of the substitute check, whichever is less. You are also entitled to interest on the amount of your refund if your account is an interest-bearing account. If your loss exceeds the amount of the substitute check, you may be able to recover additional amounts under other law.

If you use this procedure, you may receive up to \$2,500.00 of your refund (plus interest, if your account earns interest) within ten business days after we received your claim and the remainder of your refund (plus interest, if your account earns interest) not later than 45 calendar days after we received your claim.

We may reverse the refund (including any interest on the refund) if we later are able to demonstrate that the substitute check was correctly posted to your account.

How do I make a claim for a refund?

If you believe that you have suffered a loss relating to a substitute check that you received and that was posted to your account, please call U.S. Bank 24-Hour Banking (see last page for phone numbers) or write to us at **U.S. Bank, 60 Livingston Ave, EP-MN-WS5D, St. Paul, MN 55107**. You must contact us within 40 calendar days of the date that we mailed (or otherwise delivered by a means to which you agreed) the substitute check in question or the account statement showing that the substitute check was posted to your account, whichever is later. We will extend this time period if you were not able to make a timely claim because of extenuating circumstances.

Your claim must include:

- 1. a description of why you have suffered a loss (for example, you think the amount withdrawn was incorrect);
- 2. an estimate of the amount of your loss;
- 3. an explanation of why the substitute check you received is insufficient to confirm that you suffered a loss; and
- 4. a copy of the substitute check or identifying information such as the check number and the name of the person to whom you wrote the check.

COPIES OF DOCUMENTS

We do not typically keep the original paper documents (like deposit slips) associated with your account for a long time. We image most of the documents that end up with us and destroy the paper originals. Electronic images is one type of media that is used, but as technology changes, there are and will be other imaging techniques. You agree that such images will be sufficient for all purposes.

See the section titled **CHECK 21**. To facilitate check imaging and electronic check collection, it is important that you take care with the transactions you create on paper. When completing a check, you must:

- 1. write clearly;
- 2. use black or dark blue ink in the date, pay to, amount, and signature fields; and
- 3. use only the space provided for your part of a transaction. (See the section on ENDORSEMENT STANDARDS.)

You agree to reimburse us for any losses and costs we incur as a result of a poor check image caused by a deficiency in the written check, whether due to your failure to follow these guidelines or otherwise. You also agree to reimburse us for any losses and costs we incur as a result of a poor check image caused by a deficiency in the written check that you accepted and deposited as the payee.

NIGHT DEPOSITORY

If you arrange for night depository services, you must comply with the following two rules and also comply with the rules in any separate night depository agreement.

- 1. **Use of Containers.** Each deposit placed in the depository must be contained in a sealed envelope, or in a bag or pouch that has been approved or supplied by us. Deposits are only processed to accounts held at U.S. Bank.
- 2. **Care.** You must take appropriate care when you put the container in our night depository or other facility to make sure the container is received by us.

Our responsibility for the security of the container and the drawer or facility is to use reasonable care. This means we are not automatically liable for just any loss, only for losses that result from our own negligence, only to the extent we caused a loss, and reduced by your contribution to any loss. In legal terms, we are a “bailee” until the point:

- when we open the container and inventory its contents (if that is what we are asked to do); or
- when you sign the receipt for or take custody of the container (if we do not open the container).

CHECKS

Post-Dated Checks. We are not responsible to you if we pay a check before its date, even if we have noticed that it is post-dated. If we, at our option, refuse to pay a check because it is presented before its date, you will have to pay, if applicable, the fee we charge for an overdraft. If you want to be sure we do not cash it before its date, you must stop its payment by following our rules for stop payments in the **STOP PAYMENTS** section of this Agreement and follow our procedures for revoking a stop payment request.

Stale-Dated Checks. A “stale-dated” check is one that is brought to us for payment more than six months after its date. We may pay, or refuse to pay, a check brought to us (“presented”) more than six months after its date. (The general rule is we will pay the check or may return the check for insufficient funds.) In addition, the check would be subject to an overdraft. If you do not want us to pay a stale-dated check, you must place a stop payment order on the check.

Check Legends. We are not required to honor any legends or memos you put on your checks, even if we are aware of them. By a “legend” or “memo” we mean a message, such as “not valid for more than \$50.00” or “do not pay more than ten days after date” or “paid in full”.

Check Forms. Checks are sorted and copied by high speed equipment. If you don’t buy your checks through us, you must get them approved by us or we will not be responsible if your checks do not process correctly. See the section titled **COPIES OF DOCUMENTS** for additional information on inks and related issues.

Deposits of Checks at ATMs

We reserve the right to refuse to credit your account for ATM deposits of the following items. If an item is refused the item or a substitute check may be returned via mail to the primary account address.

- 1. All the check payees are not listed on the account;
- 2. Checks payable to a business and the business name is not listed on the account. (Checks payable to a business must be deposited into an account that includes the name of the business on the associated account);
- 3. Improperly endorsed (for example, different endorser than payee);
- 4. Restrictive wording (on the deposited item);
- 5. Post-dated (greater than one day after the ATM network business day);
- 6. No date or incomplete date;
- 7. Altered in any way;
- 8. Photocopy of item;
- 9. Not signed by maker;
- 10. Traveler’s check with different counter signature;
- 11. Drawn on a foreign bank;
- 12. Missing the numeric amount and/or the written amount;
- 13. Numeric amount and written amount do not match;
- 14. No payee listed;
- 15. Federal tax refund checks not endorsed by payee or payees; and
- 16. Any other instrument which is not a check or negotiable instrument.

ENDORSEMENT STANDARDS

The payee of a check (the person to whom a check is payable) must sign (endorse) the check on the back in the space shown in the picture. If a check is transferred to someone else before it gets deposited or cashed, that person (the transferee) may also be required to sign the check.

Every bank that handles a check on its way to the bank that is asked to pay it also has to identify itself on the back of the check. The space

for those banks is to the right of the space shown for the payee and other “holders” (see picture below).

When you endorse a check, you must:

- 1. clearly sign your name;
- 2. use black or dark blue ink if possible;
- 3. never use a faint color, like red, pink or any pastel, or a gel ink (these do not copy well);
- 4. sign near the top of the space provided, or just below any other signature in that space;
- 5. stay out of the area below the space for endorser (most check forms have a line separating the endorsement area); and
- 6. keep any stamp within the area set aside for handwritten signatures.

The picture on this page shows you the correct endorsement area.

Why is this important?

If your endorsement of a check, or the endorsement of someone from whom you took the check, either:

- 1. causes a delay in a necessary notice to someone else, or
- 2. prevents someone from being identified quickly enough (and therefore cannot get notice or cannot get it in time).

You will be responsible for the check and the loss that occurs because it is not paid. It will then be up to you to try and recover from someone else who might be liable.

INSUFFICIENT FUNDS AND OVERDRAFTS

“Account Balance” means the funds in your account, including deposits and withdrawals made to date. Not all your transactions will be immediately reflected. As a result, only part of this balance may be available for withdrawal.

“Available Balance” means the amount of money that can be withdrawn at a point in time. **The Available Balance will be less than the Account Balance when there are pending transactions such as:**

- Funds held from deposits: These funds have been deposited but are not yet fully available for withdrawal or transfer.

Once these funds are available, they will be reflected in the Available Balance.

- Funds held for debit card authorizations: This reflects merchant-authorized requests for payment, when the final charge has not been submitted by the merchant. Debit card authorizations will be reflected as pending transactions from the time we receive the authorization until the merchant presents the item for payment, a completion message is received, or three business days, whichever occurs first. If the debit card transaction has not been presented for payment after three business days, it will be removed from your pending transactions and your Available Balance will no longer be reduced by the authorization amount. Once the final charges have been received and processed, they will be reflected in the Available Balance.
- Any other holds on funds in your account.

Note: The Available Balance does *not* reflect every transaction you have initiated or previously authorized. Items that may not be reflected in your Available Balance include, but are not limited to:

- Outstanding checks and authorized automatic withdrawals (such as recurring debit card transactions, transfers, and ACH transactions that we have not received for payment or processing).
- The final amount of a debit card purchase. For example, we may authorize a purchase amount from a restaurant or a gas station, but the authorized amount may be different from the final charge. Once a final charge has been received and processed, it will be reflected in the Available Balance. (Please refer to “Debit Card Transactions” subsection for more information about how these situations are handled.)
- Scheduled bill payments that have not yet been processed.
- Debit card transactions that have been previously authorized but not sent to us for payment from your account where we have released the transaction authorization hold and the transaction is sent for payment from your account at a later date.

“Insufficient funds” means you do not have enough available funds in your account to pay the withdrawals you are attempting from that account.

Having insufficient funds in your account could lead to returned items, which refers to any withdrawal or transfer that we return because it exceeds your Available Balance on a given day. Examples of withdrawals that could be returned may include any checks, ACH transactions, online or mobile bill payments, or any other debit from your account where we return it because it is for more than the Available Balance you have in your account at the time the transaction is presented to your account. We reserve the right to pay an insufficient funds withdrawal and overdraw your account, which may result in an Overdraft Paid Fee, or return the insufficient funds withdrawal, which may result in an Overdraft Returned Fee. Even if we’ve paid insufficient funds items before, we are not required to do it in the future.

“Overdraft” means a transaction has caused the Available Balance on an account to become a negative number. An overdraft can happen, for example,

- by writing a check without enough money in your checking account to pay the check, and we pay the item;
- by making a withdrawal from your account that exceeds your Available Balance;
- by using your U.S. Bank Debit Card for payment without enough money in your checking account to cover the amount authorized or the amount paid to the merchant. If any debit card transaction results in a negative Available Balance at the time it is presented for payment, even if your Available Balance was positive at the time the debit card transaction was authorized, you may be charged an Overdraft Paid Fee;
- by making a deposit, withdrawing money based on the credit received from that deposit, and then having that deposit reversed because the deposited item is later returned to us unpaid;
- by withdrawing money from your account and not having enough money left to pay any related charges posted to the account;
- when funds are credited to your account in error and you use the funds, and the reversal of the credit results in an overdraft; or
- when fees such as monthly maintenance fees are charged, and you do not have sufficient funds to cover.

Our Options: You do not have the right to withdraw funds that exceed the Available Balance on your account. When an item of yours overdraws an account, we can either pay or return the item. You cannot choose which items we pay or return, except as identified in your selection of “Overdraft Handling” (as identified later).

If we get a **batch, or multiple batches**, of such items in a day (for example, checks, ATM purchase transactions, and debit card purchase transactions typically come in batches), and if one, some or all of them would overdraw the account if paid, we will post items in accordance with the **“Transaction Posting Order”** section listed within this Agreement. This may result in processing larger dollar items before smaller dollar items, even though this would have the effect of reducing your Available Balance more quickly.

Our Fees: We charge an Overdraft Returned Fee for each withdrawal (e.g., in-person, ATM, automatic payment, or other paper or electronic withdrawal transaction) we return because it exceeds your Available Balance on a given day. We charge an Overdraft Paid Fee for each item or transaction we pay that causes the Available Balance to become negative or occurs while the Available Balance is negative on the checking account. Any Overdraft Returned Fees or Overdraft Paid Fees are deducted from your account on the next business day. We may charge you an Extended Overdraft Fee if your Available Balance remains negative for eight consecutive days; the fee will be charged on that day or the next business day, as applicable. See the current pricing information disclosure for information on fees and how fees will be assessed. The Extended Overdraft Fee may be suspended during a fraud investigation or dispute. Once the investigation or dispute is resolved, an Extended Overdraft Fee may be assessed if the account remains negative. If you want to avoid the inconvenience and extra expense of overdraft fees, refer to the section titled “Overdraft Protection Plans” on page 19 for information.

There are some circumstances that can take your account into a negative balance where we will not charge a fee, for example:

- If certain fees such as your monthly maintenance fee are the only items that resulted in the negative balance.
- If the negative Available Balance is less than our threshold. See your *Consumer Pricing or Business Pricing Information* disclosure for specific information. (Both can be obtained by stopping in a U.S. Bank branch or for the *Consumer Pricing Information* only, call 800.872.2657 to request a copy.)

Your responsibilities for overdrafts: If you have an overdraft on your account, you must deposit enough money into your account to pay both the overdraft amount and the fees we charge, and you must do so immediately. If you share ownership of your account with someone else, you are responsible to us for the overdraft, whether or not you personally caused the overdraft or benefited from it.

OVERDRAFT HANDLING

Consumer Checking and Money Market Accounts:

Most U.S. Bank Consumer checking and money market accounts come with Standard Overdraft Coverage. Under Standard Overdraft Coverage we will authorize and pay overdrafts for these types of transactions at our discretion:

- Checks and other transactions using your checking account number
- Automatic bill payments
- Recurring debit card transactions, for example setting up your debit card to automatically pay a monthly gym membership. We rely on the merchant to inform us if a debit card transaction is a one-time or a recurring transaction.

If we pay these transactions into overdraft, we may charge an Overdraft Paid Fee. If we do not pay these transactions, we may charge an Overdraft Returned Fee.

In addition to Standard Overdraft Coverage, you have the following options outlined below.

ATM and Debit Card Overdraft Coverage:

Upon opening your U.S. Bank Consumer checking OR money market account, you will receive a notice advising you of your choice to say ‘Yes’ or ‘No’ to ATM and Debit Card Overdraft Coverage.

If you say ‘Yes’

If you choose to say ‘Yes’, you allow U.S. Bank to authorize and pay ATM and everyday debit card transactions (purchases made with your debit card on a day-to-day basis) that may cause the Available Balance in your account to become negative. If this happens we may charge an Overdraft Paid Fee.

If you say ‘No’

If you choose to say ‘No’, you do not allow U.S. Bank to authorize and pay ATM and everyday debit card transactions into a negative Available Balance. If we do not authorize and pay an overdraft your transaction will be declined and you will not be charged a fee.

In limited circumstances, your ATM or everyday debit card transaction may be processed, resulting in your Available Balance becoming negative. These situations may include, but are not limited to:

- A debit card transaction is processed for more than the preauthorized amount. For example, we may authorize a purchase amount from a restaurant or a gas station, but the authorized amount may differ from the final charge (Please refer to “Debit Card Transactions” subsection for more information about how these situations are handled.);
- A debit card transaction that obtained an authorization based on a sufficient Available Balance in your account, but is sent to us for payment later when your Available Balance is no longer sufficient to cover the item;

In these situations, if you have chosen ‘No’ you will not be charged an Overdraft Paid Fee.

If you wish to discuss your options or change your account election at any time, contact a local U.S. Bank branch, call U.S. Bank 24-Hour Banking or visit [usbank.com](https://www.usbank.com). Please be aware it may take up to three business days to implement your request.

Requested Return:

You may ask us to place your account in *Requested Return* status. When you select this option, you are automatically choosing to say ‘No’ to ATM and Debit Card Overdraft Coverage (refer to **If you say ‘No’** for more details). In addition, we will attempt to return items which would result in an overdraft to your account such as checks, and automatic bill pay transactions.

- Note that when you select *Requested Return, an Overdraft Returned Fee may be charged for returned items*. You may also be charged fees by the merchant or service provider.
- Please understand we will not be able to return all items. **If we pay an item, for any reason, you will be charged the applicable Overdraft Paid Fee** (with the exception of ATM and everyday debit card transactions). These situations include, but are not limited to: recurring debit card transactions when a merchant had obtained an authorization for the first instance, but did not obtain a new authorization for subsequent occurrences (for example, a monthly gym membership); or other transactions/adjustments that may be processed in accordance with our Transaction Posting Order resulting in an insufficient Available Balance (Refer to **“Transaction Posting Order”** section listed within this Agreement). We rely on the merchant to inform us if a debit card transaction is a one-time or a recurring transaction.

If you wish to select *Requested Return*, contact a local U.S. Bank branch or call U.S. Bank 24-Hour Banking (see last page for phone numbers). Please be aware it may take up to three business days to implement your request.

Business Options for Checking and Money Market Accounts

For Business Checking and Business Money Market accounts, we will authorize and pay overdrafts for all types of transactions at our discretion. If we pay these transactions into overdraft, we may charge an Overdraft Paid Fee. If we do not pay these transactions, we may charge an Overdraft Returned Fee.

Requested Return

You may ask us to place your account in *Requested Return* status. When choosing this option, we will attempt to return and/or decline items which would result in an overdraft to your account.

- Note that when you select *Requested Return*, an **Overdraft Returned Fee may be charged for returned items**. You may also be charged fees by the merchant or service provider.
- Please understand we will not be able to return all items. **If we pay an item, for any reason, you may be charged an Overdraft Paid Fee.**

If you wish to request *Requested Return*, contact a local U.S. Bank branch or call U.S. Bank 24-Hour Banking (see last page for phone numbers). Please be aware it may take up to three business days to implement your request.

Other sections: While many other sections of this Agreement relate to these issues, these sections are particularly appropriate:

- Setoff (page 45)
- Security Interest in Accounts (page 46)
- Funds Availability: Your Ability to Withdraw Funds - All Accounts (page 49)
- Electronic Banking Agreement for Consumer Customers (page 55)
- Limits on Transfers (page 58)
- Electronic Banking Agreement for Business Customers (page 65)

OVERDRAFT PROTECTION PLANS

Consumer Overdraft Protection

U.S. Bank offers Overdraft Protection Plans to help you avoid the inconvenience of having a check returned, and/or a debit card purchase rejected, resulting in the expense of overdraft fees. These Overdraft Protection Plans allow an eligible account to be linked to a U.S. Bank Personal Checking Account(s) (“checking account(s)”) to cover overdraft situations when the Available Balance is insufficient to cover checks presented for payment **and/or** Available Balance has been reduced due to pending authorized debit card transactions, as specified in subsection “Debit Card Transactions”.

U.S. Bank lets you choose which eligible accounts are linked to your checking account for Overdraft Protection, and the order in which those accounts are accessed to transfer funds to your checking account. Some eligible accounts (e.g. depository accounts) do not have Overdraft Protection Transfer fees, and if you have deposit and credit accounts linked for Overdraft Protection, the first Overdraft Protection Account determines whether a fee is charged (if any).

You can choose to link up to three eligible U.S. Bank accounts to your personal checking account for Overdraft Protection. Owner(s) who are signers on the checking account must also be signers on the account(s) linked for Overdraft Protection.

Eligible accounts include:

- U.S. Bank Savings Account or Money Market Account
- U.S. Bank Reserve Line of Credit
- U.S. Bank Credit Card
- A secondary U.S. Bank Personal Checking Account
- U.S. Bank Personal Line of Credit
- U.S. Bank Home Equity Line of Credit
- Other U.S. Bank Lines of Credit

If you have linked eligible accounts, and the Available Balance in your checking account is or would be overdrawn by \$5.01 or more, the advance amount will transfer in multiples of \$50.00 and an Overdraft Protection Transfer Fee may be charged (fee waived

for transfers from a depository account). If, however, the Available Balance is or would be overdrawn by \$5.00 or less, the amount advanced will be \$5.00 **and** the Overdraft Protection Transfer Fee will be waived.

If the negative Available Balance in your checking account is caused by monthly fees, such as a maintenance fee or statement/image fee only, overdraft protection will not advance. (For example, the account is overdrawn due to a Monthly Maintenance Fee, overdraft protection will not advance. If additional transactions post, overdraft protection will advance to cover the negative Available Balance amount and an Overdraft Protection Transfer Fee may be charged.) If the account linked for Overdraft Protection does not have enough funds to cover the overdrawn amount, the current Available Balance will still be transferred to reduce the overdrawn amount.

If there is more than one account linked for Overdraft Protection and the Available Balance of the first linked account is not enough to cover the overdrawn balance, the next linked account will transfer funds in multiples of \$50.00 to cover the remaining overdrawn balance. When multiple accounts are linked as Overdraft Protection, the first account funds are transferred from determines the amount of the Overdraft Protection Transfer Fee (if any).

For each day an Overdraft Protection transfer occurs, a Bank fee will be charged to the checking account that received the transfer. (Refer to the *Consumer Pricing Information* disclosure Overdraft Protection Transfer Fee for fee amount. This disclosure can be obtained by contacting a U.S. Bank branch or calling 800.872.2657.) While no fee will be charged to your U.S. Bank savings account or secondary checking account, U.S. Bank Reserve Line of Credit, U.S. Bank Credit Card, U.S. Bank Personal Line of Credit, or U.S. Bank Home Equity Line of Credit, for any automated advance to cover an overdraft to your associated deposit account, you will incur an interest charge according to the terms of your agreement governing your credit account. Advances on a U.S. Bank Credit Card Overdraft Protection Plan account are subject to the standard cash advance interest rate, as well as the current cash advance fee. Please refer to your U.S. Bank Reserve Line of Credit, U.S. Bank Credit Card, U.S. Bank Personal Line of Credit or U.S. Bank Home Equity Line of Credit for information regarding interest charges.

When the Bank accesses funds from an eligible line of credit or credit card, these types of transfers may be subject to additional charges such as annual fees. In addition, you may be subject to interest that will accrue on the amounts advanced in accordance with your line of credit or cardmember agreement.

Business Banking Overdraft Protection

U.S. Bank offers Overdraft Protection Plans to help you avoid the inconvenience of having a check returned, and/or a debit card purchase rejected, resulting in the expense of overdraft fees. These Overdraft Protection Plans allow an eligible account to be linked to a U.S. Bank Business Checking Account(s) (“checking account(s)”) to cover overdraft situations when the Available Balance is insufficient to cover checks presented for payment and/or Available Balance has been reduced due to pending authorized debit card transactions, as specified in subsection “Debit Card Transactions”.

U.S. Bank lets you choose which eligible accounts are linked to your checking account for overdraft protection. Only one deposit product

and one credit product may link to a business checking account. If the checking account has both a credit product and a deposit product linked as overdraft protection, the system will always advance first from the credit product. Funds only draw from the deposit product if the credit product has insufficient available funds.

The name of the business on the business checking account must match the name of the business on the business credit overdraft protection plan account. The name(s) of the account signer(s) on the business checking account may also be required to match the account signer(s) on the business Overdraft Protection Plan account.

Eligible accounts include:

- U.S. Bank Business Savings or Money Market Account
- A secondary U.S. Bank Business Checking Account
- U.S. Bank Business Reserve Line of Credit
- U.S. Bank Business Credit Cards
- U.S. Bank Cash Flow Manager or Advantage Line
- If you have a U.S. Bank Business Savings, Business Money Market account, or secondary U.S. Bank Business Checking account linked as Overdraft Protection, any automatic advances will be in \$200.00 increments made to cover the overdraft. Automated transfers from a U.S. Bank deposit account are not assessed Overdraft Protection Transfer Fees.

If you have a U.S. Bank Business Reserve Line of Credit linked as overdraft protection, any automatic advances will be in \$200.00 increments made to cover the overdraft. Please refer to your U.S. Bank Business Reserve Line Agreement for information regarding interest charges.

U.S. Bank Business Credit Card linked as overdraft protection, any automatic advances will be in \$25.00 increments made to cover the overdraft. Advances on a U.S. Bank Business Credit Card Overdraft Protection Plan account are subject to the standard cash advance interest rate, as well as the current cash advance fee.

When the Bank accesses funds from an eligible line of credit or credit card, these types of transfers may be subject to additional charges such as annual fees. In addition, you may be subject to interest that will accrue on the amounts advanced in accordance with your line of credit or Cardmember Agreement. Please refer to your Cardmember Agreement for information regarding charges and fees.

Each time an overdraft protection transfer from a Business Reserve Line or a U.S. Bank Business Credit Card automatically transfers funds to the checking account, an Overdraft Protection Transfer Fee (daily fee) applies. The transfer fee amount posts as a separate transaction to the checking account.

Refer to the *Business Pricing Information* brochure for current fees. This brochure can be obtained by stopping in a U.S. Bank branch.

If you have a U.S. Bank Cash Flow Manager linked as overdraft protection, any automatic advances will be in \$100.00 increments made to cover the overdraft. While no Overdraft Protection Transfer Fee is charged to the Cash Flow Manager account for any automated advance to cover an overdraft to your associated deposit account, you will incur an interest charge according to the terms of your agreement governing your credit account. Please refer to your U.S. Bank Cash Flow Manager agreement for information regarding interest charges.

If the negative Available Balance is caused by a monthly maintenance fee, service fee or statement/image fee only, overdraft protection will not advance. (For example, the account is overdrawn due to a Monthly Maintenance fee, overdraft protection will not advance. If additional transactions post, overdraft protection will advance to cover the negative Available Balance amount and an Overdraft Protection Transfer Fee may be charged.)

Business Overdraft Protection Agreements

U.S. Bank also offers certain business customers overdraft protection through separate written agreement. The terms of such agreement shall govern those Business Overdraft Protection Plans.

REFUSING PAYMENT ON YOUR CHECKS

You must fill in an amount (in words and numbers) correctly and clearly, and sign your name on checks you write. You should fill in the date and name a payee on your checks. If you don’t name a payee, anyone can cash the check. If you fail to follow these rules, we may refuse to honor your checks.

When a check you write is presented to us by another bank for payment, we will generally accept the endorsements on the check, because if an endorsement is missing or forged, we have rights against the other bank that protect us. When a check of yours comes to us *other than through another bank*, we might not cash it if we are not comfortable with the endorsements on it or the identity of the person who presents it. This is especially true with an endorsement in the name of a business entity.

We may require anyone who presents a check for payment in person (other than an account owner presenting a check on his or her own account) to:

- pay a fee to cash the check if applicable; and
- give a fingerprint or thumbprint, and identification, as a condition of cashing a check.

If the presenter of the check refuses to comply with these requirements, or complies but later asserts that these requirements infringed on their legal rights, you understand and agree that imposing these requirements will not be considered a “wrongful dishonor” of your checks.

FUNDS TRANSFERS

Unless we have entered into a specific written agreement with you that provides otherwise, payment orders you give to us for the transfer of funds out of the account by wire transfer or otherwise, and payment orders we receive for the transfer of funds into the account, will be governed by this paragraph. In addition, your rights and obligations with respect to a payment order, and our rights and obligations, will be governed by (a) any separate written agreement with us; then (b) this section; and then, to the extent not specified in a separate written agreement or this Agreement; (c) by Article 4A of the Uniform Commercial Code (“UCC4A”) as enacted in the state in which you have your account with us.

We reserve the right to refuse to accept any payment order. Payment orders are accepted when they are executed by us. We may process any payment order request (as well as any amendment or cancellation request concerning a payment order) that we believe is transmitted or authorized by you if we act in compliance with a security procedure

agreed upon by you and us. Such payment orders will be deemed effective as if made by you, and you will be obligated to pay us in the amount of such orders, even though they are not transmitted or authorized by you. Unless we agree on another security procedure, you agree that we may confirm the authenticity and content of a payment order (among other ways) by placing a telephone call to you. If we cannot reach you, or if the payment order is not confirmed or approved in the manner we require, we may refuse to execute the payment order.

YOU AGREE THAT IF A PAYMENT ORDER OR CANCELLATION THEREOF IDENTIFIES THE BENEFICIARY BY BOTH NAME AND AN IDENTIFYING NUMBER, AND THE NAME AND NUMBER IDENTIFY DIFFERENT PERSONS OR ACCOUNT HOLDERS, EXECUTION AND PAYMENT TO THE BENEFICIARY OR CANCELLATION MAY BE MADE SOLELY ON THE BASIS OF THE IDENTIFYING NUMBER. YOU ALSO AGREE THAT IF A PAYMENT ORDER IDENTIFIES AN INTERMEDIARY BANK OR THE BENEFICIARY’S BANK BY BOTH NAME AND AN IDENTIFYING NUMBER AND THE NAME AND NUMBER IDENTIFY DIFFERENT PERSONS, EXECUTION OF THE PAYMENT ORDER BY ANY BANK MAY BE MADE SOLELY ON THE BASIS OF THE IDENTIFYING NUMBER.

If we receive a funds transfer into any account you have with us, we are not required to give you any notice of the receipt of the funds transfer. The funds transfer will appear on your next periodic statement. To confirm the completion of funds transfers, please contact us through U.S. Bank 24-Hour Banking (see last page for phone numbers), usbank.com or the U.S. Bank Mobile App. Prior to the acceptance of an outgoing payment order, the outgoing payment order may be cancelled, but may not be amended or modified, if the beneficiary’s bank is located within the United States of America and the outgoing payment order is to be paid in U.S. dollars. Other outgoing payment orders may not be cancelled, amended or modified. We must receive your cancellation in a reasonable time prior to the time we execute the outgoing payment order. Payment orders sent by Fedwire will be subject to the Federal Reserve’s Regulation J, and payment orders sent via other payment systems will be subject to the rules of those systems. You agree that we may record all telephone conversations and data transmissions received from, made for or made on behalf of you pursuant to or in connection with a payment order.

YOU AGREE THAT IF A PAYMENT ORDER, OR ANY CANCELLATION OR AUTHORIZATION RELATING THERETO, BUT FOR THE APPLICABILITY OF THE ELECTRONIC FUND TRANSFERS ACT OF 1978 (AS IN EFFECT FROM TIME TO TIME), CONSTITUTES A PORTION OF A FUNDS TRANSFER AS DEFINED IN UCC4A, ALL ACTIONS AND DISPUTES CONCERNING SUCH PAYMENT ORDER, CANCELLATION OR AUTHORIZATION SHALL BE DETERMINED PURSUANT TO UCC4A AND THIS AGREEMENT TO THE FULL EXTENT PERMITTED BY LAW. If an outgoing payment order in a foreign currency cannot be completed, the exchange rate that will apply to any refund due you will be the exchange rate in effect at the time on the day the refund is made. Additional fees may be deducted from a payment order amount by other banks involved in the funds transfer process.

We may route payment at our own discretion for each outgoing wire transfer. A wire transfer is irrevocable once payment has been transmitted to the beneficiary’s bank. At your request, we may request that the beneficiary’s bank return funds previously transferred. However, you acknowledge that the beneficiary’s bank is under no obligation to comply with this request.

WITHDRAWAL RIGHTS, OWNERSHIP OF ACCOUNT, AND BENEFICIARY DESIGNATION

The following rules govern the ownership and withdrawal rights of deposit accounts with the various titles given to them.

There are two primary issues that these rules control. The first is “withdrawal rights” and the second is “ownership.”

By “withdrawal rights” we mean who has access to the funds in the account for all purposes. These withdrawal rights will control, for example, whose instructions we must follow, whose checks we must pay, and whose withdrawal requests we must honor. These withdrawal rights do not control who actually owns the funds, as between multiple parties to an account.

By “ownership” we generally mean who owns the funds in the account. In particular, by selecting a particular ownership, you are expressing your intention of how and to whom your interest in the funds in the account should pass in the event of your death.

If you create a type of account, you retain the right to change or close the account to the extent of the withdrawal rights you retain in your own name.

We make no representations as to the appropriateness or effectiveness of any particular ownership or beneficiary designations. Our only responsibility is to permit access to the account as provided by the withdrawal rights. You must consult with your own attorney or financial advisor as to whether and how to effect any change in actual ownership of funds in the account.

Individual Account. This is an account in the name of one person. Such an account is also referred to as a “single ownership” account.

Withdrawal Rights. The holder of such an account is the only person who has the right to withdraw from the account, unless we permit the holder to designate an agent or attorney-in-fact to the account.

Ownership. The holder of such an account is presumed to be the owner. Holding such an account, by itself, creates no additional ownership rights nor survivorship rights (nor does such type of ownership create or extinguish any community property rights). In almost all instances this type of account will pass, on the death of the owner, through the estate of the owner. (You must consult your own estate planner to be sure.)

Agents and “Attorneys-in-Fact.” The owner of this type of account can nominate an authorized signer or attorney-in-fact.

Joint Account - With Survivorship. If your account is opened as a joint account, we will treat it as a joint account with right of survivorship unless our account records demonstrate a different type of ownership. This is an account in the names of two or more natural persons, with the following features:

Withdrawal Rights. Each joint tenant has complete and separate access to the funds and withdrawal rights, and each authorizes the other(s) to endorse for deposit any item payable to the joint tenant. Upon the death of any joint tenant, any surviving joint tenant will have complete withdrawal rights to the balance of the account. If there is more than one surviving joint tenant, such survivors remain as joint tenants with right of survivorship with the same withdrawal rights provided in this section.

Each joint tenant reserves the right to change the ownership of the account to the extent of that owner’s withdrawal rights.

Ownership. Each joint tenant is presumed to “own” the funds in proportion to that person’s net contribution to the account. Each joint tenant intends upon his or her death that the funds owned by such person will be owned by the survivor. If there is more than one survivor, the “ownership” of the decedent’s funds will be shared equally with such survivors.

Other Titles. In some states, it is advisable to add either “not as tenancy in common” or “not as a tenancy by the entirety” or both to insure the intention described above.

Agents and “Attorneys-in-Fact.” Any joint tenant can nominate an authorized signer or attorney-in-fact who can hold all the same withdrawal and deposit rights as the authorizing owner, except the authorized signer or attorney-in-fact will not be an owner (a joint tenant).

Joint Account with Survivorship - Arizona. A Joint Account with Survivorship in Arizona has a unique feature that will change the “ownership” rights on the death of one of the joint owners if there is more than one surviving joint tenant and one of the surviving joint tenants is the surviving spouse of the deceased joint tenant.

Withdrawal Rights. This rule will not change the withdrawal rights to the account on the death of a joint tenant; it only affects the actual ownership of the account balance, which will only affect the survivors, and will not affect our responsibilities under the account.

Ownership. If two or more parties survive and one is the surviving spouse of the deceased party, the amount to which the deceased party, immediately before death, was beneficially entitled by law belongs to the surviving spouse. If two or more parties survive and none is the spouse of the decedent, the amount to which the deceased party, immediately before death, was beneficially entitled by law belongs to the surviving parties in equal shares, and augments the proportion to which each surviving party, immediately before the deceased party’s death, was beneficially entitled under law, and the right of survivorship continues between the surviving parties.

Tenancy in Common Accounts. A Tenancy in Common account is another form of joint account without the survivorship feature. A Tenancy in Common account is also in the name of two or more individual owners.

Withdrawal Rights. Each joint tenant has complete and separate access to the funds and withdrawal rights, and each authorizes the other(s) to endorse for deposit any item payable to the joint tenant. Until we receive notice of the death of any joint tenant,

any tenant in common will have complete withdrawal rights to the entire account balance.

If more than one tenant in common survives the death of another tenant in common, such survivors remain as tenants in common between them.

Each tenant in common reserves the right to change the ownership of the account to the extent of that owner’s withdrawal rights.

Ownership. Each tenant in common is presumed to “own” the funds in proportion to that person’s net contribution to the account. However, because of the extreme difficulty in determining such proportions over time, you agree that upon the death of one tenant in common, the balance in the account at the time immediately before the death of the tenant in common will be deemed to be owned in equal shares between all tenants in common. After death and our receipt of notice of such death, the decedent’s share will be set aside for the estate of the decedent, and the survivor’s share in the account balance will be at the disposal of the surviving tenant in common.

Other Titles. In some states this account is referred to as Joint Tenancy WITHOUT Right of Survivorship.

Agents and “Attorneys-in-Fact.” Any tenant in common can nominate an authorized signer or attorney-in-fact who can hold all the same withdrawal and deposit rights as the authorizing owner, except the authorized signer or attorney-in-fact will not be an owner (a tenant in common).

Marital Account (Wisconsin). This account is an account established by two persons in Wisconsin who claim to be husband and wife. This account is, for such persons, the same as the Tenancy in Common account described above.

Marital Account with P.O.D. Beneficiaries (Wisconsin). This account is, first, the same as a Wisconsin Marital Account (which is, in turn, the same as a Tenancy in Common account described above).

Withdrawal Rights. During the lives of both parties to the marriage, the withdrawal rights will be the same as for the Marital Account. The beneficiaries have no withdrawal rights until the death of one of the marriage partners.

Ownership. Upon the death of one of the spouses, the surviving spouse owns 50% of the funds on deposit, and the P.O.D. beneficiary named by the deceased party (if that beneficiary is then surviving) owns the other 50%. Each spouse can name his or her own beneficiary.

If there is more than one beneficiary who is named by a party who survives, the shares of those beneficiaries will be equal.

On the death of one of the marriage partners, the account will have to be retitled and beneficiary shares will have to be redeposited or withdrawn.

Pay-on-Death Account. This is an account where one or more persons create the account and name one or more living persons as beneficiaries. Frequently the account title is A.B. Pay-on-Death to C.D. beneficiary.

Withdrawal Rights. The person who creates this type of account retains complete withdrawal rights in such an account during his or her lifetime and for his or her own benefit. The named beneficiary has no withdrawal rights to the account during the lifetime of the creator of the account. The owner can change or close the account, and change beneficiaries at any time.

On the death of the creator of the account, the beneficiary (on proof of death of the creator and proof of the identity as the named beneficiary), can withdraw the entire account balance. If there is more than one beneficiary who is named and survives the creator, the surviving beneficiaries acquire and can withdraw an equal share with the other surviving beneficiaries, without survivorship rights between beneficiaries. If a beneficiary dies before the creator, neither the beneficiary’s estate nor heirs acquire anything on the death of the owner.

If more than one person creates such an account, then such creators have complete and separate withdrawal rights between them during their joint lives, and the survivor of them will have complete withdrawal rights upon the death of the other creator. Named beneficiaries can withdraw a share of the account balance only upon the death of the last creator and only if such beneficiaries are then alive (and upon proof of the deaths of the creators and their own identity as the named beneficiaries). In effect, if more than one person creates this type of account, with one or more beneficiaries, the account has first all the incidents of a “Joint Account with Survivorship” and only after there is but one joint tenant does the account have the incidents of a “Pay-on-Death” account.

Ownership. The creator of this type of account is presumed to own the funds during his or her lifetime and intends that ownership to pass to the beneficiary only upon his or her death and only if the named beneficiary survives him or her. If there is more than one creator, the ownership between such creators is the same as that between joint tenants with right of survivorship, with the same incidents upon the death of a joint tenant.

If there is more than one beneficiary who is named and survives the creator(s), the creators intend his, her or their ownership rights to pass to the then surviving beneficiaries in equal shares, with no survivorship rights between them.

Other Titles. This type of account has other names such as “Tentative Trust,” “Totten Trust,” “In Trust For” and “Revocable Trust.” In states where one of these trust accounts is recognized, the creators of such accounts will be referred to as a “settlor” or “grantor.” Nevertheless, all the incidents of such an account, the rights of the grantor(s) and beneficiaries are exactly the same as described for “Pay-on-Death” accounts above. Only the names have been changed.

Revocable Trust or Pay-on-Death Account (not subject to the Nonprobate Transfers Law of Missouri)

In Missouri, a Revocable Trust or Pay-on-Death account may include an appendage to its title “not subject to the Nonprobate Transfers Law of Missouri.” This appendage does not change the features of the account as described above for Pay-on-Death accounts.

Registration in Beneficiary Form - Missouri

Adding the acronym **LDPS** (which stands for lineal descendants, per stirpes) to a Revocable Trust or Pay-on-Death account in Missouri, changes the rights of beneficiaries of such accounts. LDPS designation means that if a named beneficiary of such an account dies before the account owner, then the unnamed lineal descendants of that deceased beneficiary will acquire the share of the deceased beneficiary on the death of the owner per stirpes.

UTMA (Uniform Transfers to Minors Act) Account

This is an account in the name of an adult custodian (or possibly a corporate custodian) for the benefit of a person who is a minor at the time the account is created.

Withdrawal Rights. During the minority of the child (as defined under applicable UTMA laws), the custodian has all withdrawal rights, but is required by law to exercise those rights solely for the benefit of the child. We, however, have no duty or agreement whatsoever to monitor or insure that the acts of the custodian are for the child’s benefit.

The custodian is required to turn over the account balance when the child reaches the age of majority. The custodian authorizes us, at our discretion, to exercise the custodian’s duty to transfer funds to the child at the child’s request upon reaching the age of majority.

Ownership. The child/beneficiary is at all times the owner of the funds in the account.

UGMA (Uniform Gifts to Minors Act) Account

A few states have not adopted the Uniform Transfers to Minors Act. These few states have, for our purposes, an equivalent statute known as the Uniform Gifts to Minors Act, which has the same incidents as those described above for the UTMA account.

Fiduciary Account

A fiduciary account is an account opened by or taken over by an executor, administrator, personal representative, guardian, conservator, trustee, or other fiduciary in such capacity. Any fiduciary named as a signer on a fiduciary account shall be solely responsible for acting in accordance with the terms of the applicable laws, will, court order or trust instrument establishing and covering the fiduciary relationship, and we are not responsible for examining, or insuring compliance with the provisions of any such law or instrument.

Corporate, Partnership, Limited Liability Company and other Organizational Accounts

These are accounts opened by any business organization or association. We reserve the right to require the account holder(s) to furnish us with such resolutions, agreements or documents as we may reasonably request to evidence the authority of individuals to act on behalf of the account holder(s). We will honor such an authorization until we receive written notice of change from the governing body of the organization. It is mutually agreed that the power and authority of each person named as authorized to take action with respect to the account shall continue in full force and effect until we receive actual written notice of revocation, whether the same be brought about by dissolution of the account holder or otherwise.

PLEDGES AND SECURITY INTERESTS IN FAVOR OF OTHERS

You cannot give a security interest or pledge your account to someone other than us without first getting our express written consent. We are not required to give consent to a security interest or pledge to someone else.

Unless we agree in a separate writing otherwise a security interest or pledge to someone else must be satisfied or released before any right to withdraw from the account can be exercised, including any right that arises by surviving the death of an owner (for example, a surviving joint tenant or beneficiary of a pay-on-death account).

ACCRUAL OF INTEREST

We will begin to accrue interest on deposits drawn from other banks at the time we get credit for the deposit in the collection process, which is not necessarily the same time as the time we make funds available for withdrawal.

If your account (for example a savings account) earns a variable rate of interest, we can change that rate at any time without notice to you, except as specifically provided in writing in the account disclosure or agreement. If the interest rate for your account(s) or the index or other referenced rate upon which the interest rate for your account(s) is based, is at any time less than zero percent, you agree to pay all amounts of the negative interest or fees which we impose as compensation for the negative interest rate.

You can find out our current rates on accounts that earn interest in our branches, from U.S. Bank 24-Hour Banking, or at usbank.com. The telephone number is at the end of this booklet.

STOP PAYMENTS

Unless otherwise provided, the rules in this section cover stopping payment of items such as checks and drafts drawn on your account. Rules for stopping payment on other types of transfers of funds, such as consumer electronic fund transfers, are covered elsewhere in the **Electronic Banking Agreement for Consumer Customers** section.

Here is what you must do to stop a payment:

ACH Check Conversion

An ACH Check Conversion is a transaction that starts as a paper check that you give to a merchant. The merchant converts the check, using the information on the paper, to send an electronic message to a bank to immediately take the money from your account. The merchant is required to post a notice about ACH Check Conversion in a prominent and conspicuous location at the time of the transaction. You can stop payment on an ACH Check Conversion only if it has not yet been presented by the merchant.

Electronic Fund Transfers

You can stop payment of certain types of electronic transactions. Please refer to the Electronic Banking Agreement section for details.

Checks and drafts

If you want to stop payment of a check, you must stop by a U.S. Bank branch or call U.S. Bank 24-Hour Banking (see last page for phone numbers). Writing to us will take too much time and we will not

have time to act on your request before the check is paid. We will need the following information:

1. the account number the check is written on;
2. the check number;
3. the dollar amount;
4. the date; and
5. the name of the person you wanted to pay.

This information must be exact and correct. If it is not, we will not be responsible if the item is paid.

Who can stop a payment and for how long?

1. Any owner can stop payment of any check on the account whether that owner wrote the check or not (and assuming the item can still be stopped).
2. A stop payment order is effective for 24 months or longer, as determined at the time the stop payment order is placed. You must renew it prior to the expiration of the stop payment effective period or the item could get paid. We will not notify you when the stop payment effective period ends. Fees may be assessed for placing a stop payment order.
3. Only the owner who made the stop payment order can release it.
4. You must give us sufficient notice so that we have a reasonable period of time to act upon your request and verify that the item has not been paid.

Effect of a stop payment

When you stop payment of a check, you may still be obligated to the payee, and the payee may still have the right to collect on the check or the underlying transaction. If we have to defend ourselves for letting you stop payment on a check, you have to protect us by paying our expenses, including our reasonable attorney’s fees.

What if we don’t stop payment?

We cannot stop payment of a check that has already been paid.

If you ask us to stop payment of a check and we pay it anyway, we gain whatever rights the payee has against you. This means, if the check should have been paid, or the payee has the right to collect from you anyway, we can collect from you. Therefore, if we pay an item that should have been stopped, before we recredit your account, you will have to prove to us that by our payment you have suffered a loss and the cause is our failure to stop the payment.

What kinds of checks does this NOT apply to?

This section does not apply to items not drawn on your account, such as teller’s checks, official (cashier’s) checks, and accepted checks (e.g., certified checks). We have no responsibility to honor your request to stop payment of items not drawn on your account. If we agree to stop payment on these items, we may require you to provide us with additional security (for example, a bond or collateral) and you agree to indemnify us for any damages and costs we incur as a result of stopping payment of such items.

Fee

To stop a payment you must pay our fee, the amount of which is disclosed in the pricing information disclosure or agreement for your account.

DORMANT ACCOUNTS AND ESCHEAT

A **dormant account** is an account that has been inactive. Generally, subject to state law, “inactive” means there has been no deposit, withdrawal or other communication from you about the account for the period of time as follows:

- 1. after 11 months for a checking account;
- 2. after 23 months for a savings account including those that offer limited (no more than six per month) check writing options.

For security reasons, we may refuse a withdrawal or transfer from an account we internally classify as inactive if we cannot reach you in a timely fashion to confirm the transaction’s authorization.

We charge a dormant account fee, unless excluded by account type or prohibited or restricted by state law. The dollar amount and frequency is disclosed in our pricing information disclosure.

If your account has a zero balance, we reserve the right to close it. Any accounts linked as overdraft protection will be de-linked as part of the closure process. Refer to CLOSING YOUR ACCOUNT for additional information.

Escheat is the term that is used to describe the process of transferring an account balance to the state government after an account has been dormant and if our attempts to contact you fail.

The time period after which funds must escheat to the state varies from state to state. Once the funds are transferred to the state, you may be able to recover the funds from the state itself, but not from us.

As permitted by the state, we may deduct the cost of required due diligence from the balance of your account. This due diligence may include first class and certified mailings or public notices about your account’s pending escheatment, as required by state law.

SPECIAL PROVISIONS FOR THIRD-PARTY ACCOUNTS

If you have opened a deposit account on behalf of the beneficial owner(s) of the funds in the account (for example as an agent, nominee, guardian, executor, custodian or funds held in some other capacity for the benefit of others), those beneficial owners may be eligible for “pass-through” insurance from the FDIC. This means the account could qualify for more than the standard maximum deposit insurance amount (currently \$250,000 per depositor in the same ownership capacity). If the account has transactional features (such as check writing capabilities or the use of debit cards), as defined in 12 C.F.R. 370.2(j), you as the account holder must be able to provide a record of the interests of the beneficial owner(s) in accordance with 12 C.F.R. 370.5(a) and with the FDIC’s requirements as specified below.

The FDIC has published a Deposit Broker’s Processing Guide that describes the process to follow and the information you will need to provide in the event U.S. Bank fails. That information can be accessed on the FDIC’s website at <https://www.fdic.gov/deposit/deposits/brokers/> In addition, the FDIC published an Addendum to the Deposit Broker’s Processing Guide, section VIII, which is a good resource to understand the FDIC’s alternative recordkeeping requirements for pass-through insurance and is accessible at the website above. The Addendum sets forth the expectations of the

FDIC for pass-through insurance coverage of any deposit accounts, including those with transactional features. The Addendum will provide information regarding the records you keep on the beneficial owners of the funds, identifying information for those owners, and the format in which to provide the records to the FDIC upon failure of U.S. Bank. You must be able to provide this information in a timely manner in order to receive payment for the insured amount of pass-through deposit insurance coverage as soon as possible. You have an opportunity to validate the capability to deliver the required information in the appropriate format so that a timely calculation of deposit insurance coverage can be made. Please contact your account representative for details on the validation process.

You agree to cooperate fully with us and the FDIC in connection with determining the insured status of funds in such accounts at any time. In the event of failure of U.S. Bank, you agree to provide the FDIC with the information described above in the required format within 24 hours of the failure of U.S. Bank. As soon as the FDIC is appointed, a hold may be placed on your account so that the FDIC can conduct the deposit insurance determination; that hold will not be released until the FDIC obtains the necessary data to enable the FDIC to calculate the deposit insurance. You understand and agree that your failure to provide the necessary data to the FDIC may result in a delay in receipt of insured funds and legal claims against you from the beneficial owners of the funds in the account. If you do not provide the required data, your account may be held or frozen until the information is received, which could delay when the beneficial owners could receive funds. Notwithstanding other provisions in this Agreement, this section survives after a receiver is appointed for us, and the FDIC is considered a third-party beneficiary of this section.

CONSUMER ELECTRONIC CHECK REPRESENTMENT

If you write a check on a personal account that we return unpaid because of insufficient or uncollected funds, the depositor of the check or the depositor’s bank may resend (“represent”) the check to us electronically. That is, the depositor or the depositor’s bank may send us an electronic instruction (“electronic represented check”) to charge your account in the amount of the check.

Our Handling of Electronic Represented Checks. If we receive an electronic represented check from the depositor or the depositor’s bank, we will pay or return the electronic represented check as if the original paper check were being represented to us. The section titled “**Electronic Fund Transfers**” will not apply to any electronic represented check.

Ineligible or Unauthorized Electronic Represented Checks. For an electronic represented check to be charged to your account, all of the following must be true:

- the electronic represented check must relate to a paper check drawn on a personal account that we returned unpaid because of insufficient or uncollected funds;
- the paper check must not have contained an unauthorized signature or an alteration and must not have been a counterfeit;
- you must not have placed a stop payment on the paper check after we returned it unpaid but before it was collected electronically;

- the paper check must have been less than \$2500.00 in amount;
- the paper check must have been dated 180 days or less before the date on which the electronic represented check is sent to us;
- the electronic represented check must be for the face amount of the paper check only and may not include any collection fee charged by the depositor, the depositor’s bank, or a collection agency;
- the payee of the paper check must have given you notice that, if we returned the paper check unpaid because of insufficient or uncollected funds, the fee could be collected electronically; and
- the electronic represented check must have been sent to us no more than twice after the first time we returned the paper check, or no more than once after the second time we returned the paper check.

You may have the right to reverse any ineligible or unauthorized electronic represented check that we charged to your account. If you want to reverse an electronic represented check because you placed a stop payment on the paper check to which the electronic represented check relates after we returned the paper check unpaid but before it was collected electronically, you must notify us within 15 days after we send or make available to you the periodic statement that reflects payment of that electronic represented check. If you want to reverse an electronic represented check for any other reason, you must give us an ACH Claim Form within 15 days after we send or make available to you the periodic statement that reflects payment of that electronic represented check. An ACH Claim Form may be obtained by contacting U.S. Bank 24-Hour Banking or a local U.S. Bank branch. In your claim form, you must declare and swear under oath that the electronic represented check was ineligible or unauthorized. If we receive your notice or claim form within the 15-day period, we will recredit your account with the amount of the charge but will not be responsible for any other damages associated with the transaction.

Stop Payment. If you wish to stop payment of any electronic represented check, you must follow the procedures contained in the rules for stopping payment of checks, not the procedures contained in the rules for stopping payment on electronic loan or bill payments.

CHECKING ACCOUNTS AND “SUBACCOUNTS”

For regulatory accounting purposes we may designate two sub-accounts for a checking account; one sub-account is a savings (non-transaction) account and the other is a checking account. Checks and other third-party transfers are paid from the checking (transaction) account. As necessary, we transfer funds from the savings sub-account to the checking sub-account automatically. You cannot access the savings sub-account directly. This accounting device does not affect either the appearance or the operation of your checking account in any way.

TELEPHONE TRANSFERS

If you have more than one account with us, including a credit card or open-end loan account, you can transfer funds between your accounts by telephone. You will need to have a PIN, and enter your account numbers, and other qualifications, but if you meet them,

- 1. you can transfer funds between your accounts by calling our 24-hour phone banking (see last page of this booklet for phone numbers), and
- 2. telephone transfers may be made by the same account owners/signers and usually under the same conditions as generally applicable to withdrawals made in writing or by other means.

A transfer made by telephone is not immediately completed. It may take as long as one business day for us to verify the transaction and make the transfer. Consumer customers are assigned or can choose a PIN when requesting a ATM or Debit Card. Consumer customers without a debit card or ATM card can request a PIN by speaking to a 24-Hour Banking representative at 800.872.2657. A form is sent by 24-Hour Banking to the customer for completion and must be mailed back to the address on the form. A confirmation letter is mailed to the customer once the PIN has been established.

REAL-TIME PAYMENTS/PROHIBITION ON FOREIGN PAYMENTS

Real-Time Payments (“RTP”) is an electronic payment system which permits payment senders to send funds in real-time to payment receivers for deposit into the payment receiver’s account(s). This means that a payment receiver will have near immediate availability of funds sent using an RTP system. The RTP system is intended for domestic payments only. It prohibits payments which involve either a sender or receiver located outside the United States. You agree that to the extent you either send or receive payments through an RTP system, you will not use your accounts to do so on behalf of a person who is not a United States resident or otherwise domiciled in the United States and that you will comply with all regulations of the Office of Foreign Assets Control.

REQUIRED SIGNATURES

Signature Comparison. We process certain items mechanically, based on information encoded on checks and other transaction items, and we are not required to examine items and debits drawn on your account. We collect your signature to obtain your agreement to the rules we establish for your account, but this does not create any responsibility on our part to verify signatures on items and other charges to your account.

Number of Signatures. You agree that if you

- 1. require the signatures of two or more persons to open an account;
- 2. have an account in which more than one signature is required to complete a transaction;
- 3. authorize someone to transact some but not all transactions on your account;
- 4. authorize someone to transact business on your account for limited purposes and no others; or
- 5. use checks that require two or more signatures,

such arrangements are strictly between you and the other person(s) you authorize, whether we have notice of your arrangement (including in a form we provide you) or not. You cannot assert a claim against us for permitting a transaction so long as any one of

the owners or authorized persons sign or initiate the transaction, even if a person exercises more authority than you have given.

CHANGES TO OUR AGREEMENT WITH YOU

We may change any term of this Agreement. We will give you reasonable notice in writing or by any other method permitted by law. You agree that in any event 30 days written notice is reasonable.

If we notify you that the terms of your account have changed, and you continue to have your account after the effective date of the change, you have agreed to the new terms. For consumer customers, rules governing changes in interest rates are provided for separately in the Truth-in-Savings disclosure(s) or in another document.

CLOSING YOUR ACCOUNT

This section does not apply to an active time deposit (or certificate of deposit) account.

If you intend to close your account: If you intend to close your account with us, you should tell us; simply transferring all the money in your account and reducing your account balance to \$0.00 is insufficient notice and may result in additional fees charged to your account.

- If you close your account,
1. you are still responsible for transactions you arranged for, including those that arrive after the account is closed;
 2. you should pay special attention to pre-authorized electronic deposits to your account and payments from that account; you should reroute the deposits to another account and make other arrangements for the payments, with us and the other institutions involved;
 3. you should not close your account until all the transactions you arranged for have been cleared, and you should leave enough funds to clear them and the fees that might be due; and
 4. if it is an interest-bearing account, accrued interest will not be paid.

If your account is closed and you have a debit or ATM card associated with the account, you will need to either:

1. close the associated card; or
2. select a new account to be linked to your card.

If you do not designate a new account, the bank will automatically assign your ATM/debit card to a new account from any eligible account where you are an owner/joint owner. If there are no eligible accounts the card will be closed.

We can close your account:

We can close your account, ATM and debit card for any reason or for no reason at all. If we close your account, we will send you notice within ten days after closing and/or indicate the closure on your next account statement. We will send the collected account balance to you at your last known address as reflected in our account records. At our sole discretion we may, but are not required to, withhold a sufficient sum to cover any outstanding items and likely fees. If we withhold any money for such contingencies,

we will refund that to you after we are satisfied that no further withholding is necessary.

If your account is closed for any reason, you authorize us to re-open your account to process any transactions authorized prior to account closure, or for other purposes consistent with applicable law.

As part of the account closure, any accounts linked to the Checking Account as overdraft protection will be de-linked. If a U.S. Bank Reserve Line of Credit is linked as overdraft protection to a Checking Account that is closed for any reason, the Reserve Line will also be closed, and you must repay any remaining balance according to the monthly payment coupon included in your future periodic statements.

STATEMENTS AND NOTICES

Statements. We will periodically make available to you a paper or eStatement of your checking or savings account. These statements show the transactions that occurred in the time period covered by the statement. If you elect **not** to receive or review your statement, you are still responsible for having access to the information provided in the statement. At our option, a statement will not be produced in any statement period in which service charges, fees, reversals, refunds or interest are the only transactions on the account. When other activity exists, such as a deposit or withdrawal, a statement will be available to you and will include all transactions which have occurred since the last statement (this includes any service charges, fees, reversals, refunds or interest that occurred since the last available statement). At a minimum, all accounts will receive an annual statement. Regardless of how frequently a statement is made available, monthly service charges and other account fees will continue to be deducted from the account. In addition, applicable interest will continue to accrue and be paid periodically as disclosed in the product pricing information disclosure.

Combined Statements. If you have multiple accounts with us, we may at any time automatically combine your accounts on a single, easy-to-read monthly statement. We will only combine statements for accounts that have common ownership (meaning at least one owner is common across multiple accounts) and the same address and Social Security Number.

If you prefer to continue receiving separate statements, please contact U.S. Bank within 30 days of receiving your combined statement. You may reach us by calling one of the numbers listed on the back of this brochure, sending a letter to U.S. Bank, 60 Livingston Ave, EP-MN-WS5D, St. Paul, MN 55107, or sending a secured email by logging on to usbank.com and selecting “Contact Us”. Please include the following information in your correspondence: your name, account number(s) and the reference code “CMBSTMN.”

Your address. You must give us your correct address, and if you move or change your address, you must keep us advised. You are responsible for messages and statements we send to the most recent address you have given us. We may also update your address in our records without a request from you if we receive an address change notice from the U.S. Postal Service or if we receive updated address information from our mail services vendor.

If you agree to accept mail electronically, you must give us your accurate email address and keep us up to date with any changes to your address. You are responsible for keeping your email functioning properly, or advising us if it does not work.

Multiple owners. Periodic statements and notices that we make available to one owner or agent/signer of an account will be the same as providing statements and notices to all owners of an account. You agree to designate the primary address for purposes of receiving statements and other account correspondence. Each account owner agrees that we may send any legal notice or legal process affecting any owner or the account to the primary address designated on the account. Each account owner agrees to notify the other owners of any legal notice received at that address pertaining to such other account owner or to the account.

Your Duty to Examine Your Statement. As used in this section, the term “problem” means any error, alteration, counterfeit check, or unauthorized transaction (including, but not limited to, forged or missing signatures and excluding consumer electronic banking transactions) related to your account. Because you are in the best position to discover any problem, you agree to promptly examine your statement and report to us any problem on or related to your statement within 30 calendar days after we mail the statement (or make the statement available) to you. You agree that we will not be responsible for:

1. any problem that you do not report to us in writing within a reasonable time not to exceed 30 calendar days after we mail the statement (or make the statement available) to you;
2. subsequent problems or fraudulent items occurring after 30 days of the first occurrence; if you fail to report the problem within 30 days of the first occurrence reported on your statement;
3. results from a forgery, counterfeit or alteration so clever that a reasonable person cannot detect it (for example, unauthorized checks made with your facsimile or other mechanical signature device or that look to an average person as if they contain an authorized signature); or
4. as otherwise provided by law or regulation.

You agree to waive any rights to recovery you may have against us if you do not provide notice to us in the manner and within the time required by this Agreement. You may not start a legal action against us because of any problem unless: (a) you have given us the above notice and (b) the legal action begins within one year after we send or make your statement available to you. You agree that if the problem is the result of a series of events (for example, multiple forgeries over a period of time) then the date the first event occurred is the date from which the period to bring a legal action will begin to run. If you make a claim against us in connection with a problem, we reserve the right to conduct a reasonable investigation before re-crediting your account and you agree to fully cooperate in such investigation. Within 30 days of the date of mailing, you agree to complete and return an affidavit of unauthorized paper debit on the form we provide you along with any other information we may request. You further agree to file a police report if we request. If you refuse to sign such an affidavit or fail to return the affidavit and other requested documentation within 30 days of the date we mail it to you, you agree that we may consider the matter resolved

and reverse any provisional credit provided. At our sole discretion, we may, but are not obligated to, provisionally credit your account during the investigation for all or a portion of the amount claimed. Any provisional credit to your account may be reversed if you fail to fully cooperate in our investigation or, if as a result of our investigation, we determine that the charge to your account was proper. You agree to pay any fees assessed or accrued against your account during the investigation or that may arise upon reversal of any provisional credit.

For problems involving an electronic banking transaction, please refer to the **“Electronic Banking Agreement”** sections of this brochure.

This time period for you to examine your statement and report problems to us are without regard to our level of care or the commercial reasonableness of our practices, and without regard to whether cancelled checks are supplied to you.

Contact us if you do not receive your regular statement. If this is a business account, you agree that you will have at least two people review your statements, notices, and returned checks, or in the alternative, the person who reviews these will be someone who does not have authority to transact business on the account.

RETURN OF CANCELLED CHECKS

For some specific consumer and business checking accounts we currently offer two plans, with respect to the return of cancelled checks:

1. Check Safekeeping: paid checks that are not returned - your statement will show the check number, the amount, and the date it is paid; or
2. Image Checks on Statement: paid checks that are not returned - your statement will include a reduced image of the front of the check or front and back of a check in addition to the number, amount and date the check is paid as part of the statement; (See the **CHECK 21** section; the images sent with your statement are **not** substitute checks themselves, but some may be images of substitute checks.).

Option 1 is what you will get unless you specifically ask for option 2. The checking accounts for which these options are available vary. The products and our fee structures for each option are disclosed in the *Consumer Pricing Information* or *Business Pricing Information* disclosure or agreement for your account.

(Both can be obtained by stopping in a U.S. Bank branch or for the *Consumer Pricing Information* only, call 800.872.2657 to request a copy.)

If you take option 1 or 2, and you have need for a specific paper check, we can provide a substitute copy to you upon request.

CHECKS, CHECKING ACCOUNTS AND SAVINGS ACCOUNTS WITH DRAFT ACCESS

NOW Accounts: Transaction accounts are NOW Accounts on which you can write negotiable orders of withdrawal. Negotiable orders of withdrawal look and function like checks, and the rules governing checks also apply to them. Depending on account features, NOW Accounts may or may not bear interest. Although we have no intention of exercising this right, federal regulations

require that we reserve the right to require at least seven days’ written notice prior to withdrawal or transfer of any funds on your NOW Account.

SAVINGS ACCOUNTS

By the term “savings” account we mean an account that earns interest but has no specific maturity date or required notice period. (A maturity date or a required notice period is a characteristic of a time deposit or certificate of deposit.)

We will provide you with a periodic (quarterly, monthly, annually based on your account type and account activity) statement for your savings account and you must examine your statement for errors or forgeries just as you should for your checking account.

Savings Account Transaction Policy

We reserve the right to require seven days’ notice before any withdrawal from any savings account, though it is very unlikely we will require such notice and, if we do, we will require it for all savings accounts.

S.T.A.R.T. PROGRAM AGREEMENT
(New enrollment discontinued as of November 15, 2015)

Savings Today And Rewards Tomorrow®
S.T.A.R.T. is a program offered by U.S. Bank to help you achieve and maintain your savings goals. The following information provides the terms of the S.T.A.R.T. Program (the “Program”), the details you need to know to enroll in and manage your savings plan, as well as the terms for earning rewards under the Program. We may change these terms at any time, in which case we will provide you notice of those changes. Please read these terms carefully and contact us if you have any questions. By enrolling in the Program, you agree to these terms.

Enrollment Process and Eligibility

To be eligible for the Program, you must meet, and continue to meet, the following three requirements:

- 1. Open and/or maintain an active U.S. Bank Package, including:
 - A Silver, Gold or Platinum Package Checking account AND
 - A Package Money Market Savings account*Note: Account ownership must be identical for both the package checking and package money market savings accounts.*
- 2. Enroll in the Program.
- 3. Schedule and maintain a qualifying transfer from your Package Checking account to your Package Money Market Savings account.

Qualifying Transfers Options

A qualifying transfer must occur at least once per month from your Package Checking account (“checking account”) to your Package Money Market Savings account (“savings account”). Three transfer options are available for you to choose. You are required to set up at least one option but can utilize all three choices.

Note: Qualifying transfers may not be processed if your checking account has a negative Available Balance or if your balance would become negative as a result of the transfer.

1. Scheduled Transfer option: A recurring regularly scheduled transfer based on a specific amount transferred from the Package Checking to the Package Money Market Savings on a specific date(s) you select.

- Transfers can occur daily, weekly, every other week, or can be based on a specified date(s) or day(s) during the month. One-time or same-day transfers do not qualify.
- Example: Schedule a transfer of \$10.00 from your checking account to your savings account on the 1st of each month.

2. Transfers Based on Debit Card Purchases: A recurring transfer from the Package Checking account to the Package Money Market Savings account based on each number of U.S. Bank Debit Card purchases you make, transferred on the business day after the transaction is posted.

- Select a dollar amount between \$.25 and \$5.00 to transfer for each purchase transaction.
- The total number of debit card purchase transactions posted to your checking account each day will be multiplied by the per transaction dollar amount selected. That amount will be transferred from your Package Checking account to your Package Money Market Savings account.
- The debit card must be associated with the enrolled checking account. For joint checking accounts, more than one debit card can be designated and a separate transfer will occur for the activity of each card.
- Example: You have selected a transfer amount of \$.50. If five debit card purchases post on Tuesday, a transfer of \$2.50 will occur on Wednesday (from your checking account to your savings account).

3. Transfers Based on Credit Card Purchases: A recurring transfer based on the number of U.S. Bank Credit Card purchases you make, transferred on the business day after the transaction is posted.

- Select a dollar amount between \$.25 and \$5.00 to transfer from the Package Checking account to the Package Money Market Savings account for each credit card purchase transaction.
- The total number of credit card purchase transactions posted to your credit card each day will be multiplied by the dollar amount selected. That amount will be transferred from your Package Checking account to your Package Money Market Savings account.
- The credit card owner’s name must also be an owner on the enrolled S.T.A.R.T. checking account. For joint checking accounts, more than one credit card can be designated, and a separate transfer will occur for the activity of each card.
- All U.S. Bank-branded, co-branded or affinity credit cards are eligible.
- If more than one credit card is enrolled in S.T.A.R.T. for this transfer option, separate transfers will occur for the total purchases posted to each card.
- Example: You have selected a transfer amount of \$3.00. If two credit card purchases post on Monday, a transfer of \$6.00 will occur on Tuesday (from your checking account to your savings account).

S.T.A.R.T. Goals and Rewards

The Program offers two rewards that can be earned by achieving and maintaining a specific account balance – called your Goal Balance – in your savings account. Your Goal Balance is the account balance of your Package Money Market Savings account at time of enrollment, plus \$1,000.00. You must reach Goal 1 before you become eligible for Goal 2.

S.T.A.R.T. Goal 1: When you reach the Goal 1 Balance in your Package Money Market Savings account AND a qualifying transfer occurs within 35 days of meeting the Goal 1 Balance, you will earn a \$50.00 U.S. Bank Rewards Card.

S.T.A.R.T. Goal 2: When you maintain the Goal Balance in your Package Money Market Savings account for 12 consecutive months from the date of meeting Goal 1, you will earn a \$50.00 U.S. Bank Rewards Card.

Note: Reward(s) will be sent to the primary savings accountholder within 30 days of goal verification. Rewards will be reported as interest earned on IRS Form 1099-INT. The accountholder is responsible for any applicable taxes. If your savings account is subject to State or Federal tax withholding, the amount of your U.S. Bank Rewards Card will have taxes withheld. A customer is eligible to earn only one of each goal type, for a maximum reward of \$100.00.

Rewards Cards cannot be reloaded with additional funds, nor can they be used at an ATM. No cash access. Terms and conditions, including fees, apply. Rewards Cards are issued by U.S. Bank National Association pursuant to a license from Visa U.S.A. Inc. © 2021 U.S. Bank.

Monitor and Make Changes to your S.T.A.R.T. Selections
You can make changes to any transfer option, add or delete transfer selections, and monitor your goal progress: by accessing your account via online banking, speaking with a banker at a participating branch, or calling U.S. Bank 24-Hour Banking (see last page for phone numbers). Additionally, S.T.A.R.T. mobile or email alerts can be set up through online banking, and your monthly statements will provide S.T.A.R.T. progress information.

Program Termination

- Your participation in S.T.A.R.T. will end if:
- You notify your banker that you no longer wish to participate in the Program.
 - Your Package Checking account or Package Money Market Savings account is closed, is transferred to another product, or the account ownership does not match on both the checking and savings accounts.
 - A qualifying transfer is not scheduled for six consecutive months when working towards Goal 1 achievement.

TIME DEPOSITS

A time deposit is more commonly known as a certificate of deposit or CD. With a time deposit, you agree to keep your deposit with us for a specified period of time, or agree to give a required advance notice prior to withdrawal, and we agree to pay you interest at an

agreed upon rate, or an agreed formula for a rate, for that period of time.

We are not required to permit an early withdrawal from a time deposit, and if we do, it will be on condition that you pay an early withdrawal fee and penalty. The amount of that penalty will be disclosed to you when you open such an account.

All the features of your time deposit will be disclosed to you when you open the account. You can call 24-Hour Banking, visit a local U.S. Bank branch, or go to usbank.com to find out what CD products and terms we offer.

If your time deposit, including single maturity, automatically renewable or Individual Retirement Account CDs, remains inactive for a pre-determined period of time, as required by state, and our attempts to contact you fail we may transfer or escheat your funds to the state as required.

Escheat is the term that is used to describe the process of transferring an account balance to the state government after an account has been dormant for a pre-determined period of time, as required by state, and if our attempts to contact you fail.

The time period after which funds must escheat to the state varies from state to state. Once the funds are transferred to the state, you may be able to recover the funds from the state itself, but not from us.

As permitted by the state, we may deduct the cost of required due diligence from the balance of your account. This due diligence may include first class and certified mailings or public notices about your account’s pending escheatment, as required by state law.

LIMIT OF LIABILITY

We process millions of transactions every day, with the help of complicated technology and other companies. If we make a mistake and charged you more than we should have, or failed to give you credit you were due, we will correct the error, so long as you give us sufficient and timely notice and an opportunity to fix it. See the section above titled **Statements and Notices**, for your duty to pay attention to your statement and report any errors.

You agree – to the extent allowed by law – to waive any indirect, incidental, special, consequential and punitive damages for errors or mistakes we make in good faith. This includes damages that might otherwise be available in a tort or contract action, and whether the consequences are foreseeable or not.

ELECTRONIC MESSAGES AND AGREEMENTS

Many customers use the Internet and email as their primary form of communication with us. If you provide us with an email address, you agree that we may communicate with you via email and you further agree to notify us of any changes to your email address.

You agree that we may make agreements with you by electronic means. Your authorization and consent to such an agreement, or your delivery of instructions, may be made by use of certain numbers, codes, marks, signs, personal identification numbers (PINs), public or private keys or other means, acceptable to you and to us, to establish your identity and acceptance of the electronic communications. All electronic communications that meet these requirements will be deemed to be valid and authentic and you

intend and agree that those electronic communications will be given the same legal effect as written paper communications signed by you. You agree that electronic copies of communications are valid and you will not contest the validity of the originals or copies, absent proof of altered data or tampering.

You are not required to accept electronic communications; we want you to be aware that this is an option for you to accept. **We will never ask you for sensitive account information, such as, passwords, PINs, Social Security numbers or account numbers via email. If you receive an email that appears to be from U.S. Bank asking for this type of information, immediately forward the email in its entirety (not as an attachment) to fraud_help@usbank.com.**

LEVIES, GARNISHMENTS AND OTHER LEGAL PROCESS

We are a national bank with many locations. You agree that for purposes of this part, we may treat your funds as existing at any and all locations where legal process can be served upon us or on an appointed agent of ours on our behalf. You understand and agree that a creditor or governmental agency may attach your account by service of legal process on any of our locations, at any site designated by us for acceptance of service of process, on any appointed agent of ours, or any other method authorized by law, court rule, or regulation. We may accept and comply with legal process served by any means, whether in person, by mail, facsimile, electronic transmission, or other means. You agree that we may not contest such legal process.

If we are served with a garnishment, levy, execution, or other legal process of apparent validity (together referred to as “legal process”), you understand and agree that we will pay all amounts in the account, or release information about your account, in satisfaction of the legal process and in compliance with our understanding of applicable law. If your account is a joint account, for purposes of responding to legal process, we will consider each joint owner to have an undivided interest in the entire account. Therefore, you agree we may pay all amounts in the account in satisfaction of any legal process, even if it attaches to the interest of fewer than all the account owners. You agree that we may process a levy, garnishment, or other legal process served on us even if we do not process it on the same day it was received. If you believe your funds are exempt from legal process, or otherwise should not be subject to the legal process (for example, if you own funds and the legal process applies to another joint owner, you believe the court, garnishor, or levying authority lacks jurisdiction over you or the property, or you believe the garnishment or levy names the wrong party as garnishee), you agree that it is your responsibility to raise any defense to the legal process against the party who originated the legal process or seek reimbursement from a joint owner, and you agree that we have no obligation to do so.

If we are served with any legal process that tries to attach or in some way prevent you from freely using your funds, you give us the right, but we have no obligation, to hold any portion of the funds during any time necessary to determine to our satisfaction who has the legal right to the funds. If we are not able to determine whether the funds are subject to the legal process, you agree that we may deposit the funds with any court which we deem to have jurisdiction over us or the property in your account and ask that court to determine

to whom the funds belong. You consent to the jurisdiction of such court to determine the legal right to the property in your account and agree to reimburse us for our expenses, including attorney’s fees and expenses, arising out of the service of the legal process on us and our response to it.

If the legal process requires us to release information about one or more accounts for which combined statements are provided, we may release the entire combined statement even if other accounts on the statement are not covered by the legal process.

All legal process is subject to our rights of setoff and our security interest in your account. We will assess a service fee against your account for any legal process served on us regardless of whether the process is subsequently revoked, vacated, or released. Unless expressly prohibited by law, we will set off or enforce our security interest against your account for such fee prior to our honoring the legal process. We will not be liable to you if an attachment, a hold, or the payment of our fee from your account leaves insufficient funds to cover outstanding items. You agree to hold us harmless from any claim relating to or arising out of how we handle legal process pursuant to this part.

RESOLVING ACCOUNT DISPUTES AND ADVERSE CLAIMS

If a dispute arises concerning your account (including, for example, a dispute over who is an authorized signer or owner), or if we believe we have a claim against you or we have or receive a claim by a third party (including our affiliates) to all or a portion of the property (including money, certificates of deposit, securities and other investment property, financial assets, etc.) in your account, or if we have concerns regarding your account or the use of your account, we have the right to hold any portion of the property in your account until the dispute, claim, or concern is resolved to our satisfaction. We will not be liable to you if the hold we place on your account leaves insufficient funds to cover outstanding items. For purposes of this section, “account” includes any account you have with us or any of our affiliates (including, without limitation, agency, custody, safekeeping, brokerage, and revocable trust accounts). If the dispute, claim or concern remains unresolved, you agree that we may at our option deposit the property in your account with a court and ask the court to determine to whom the property belongs. If we deposit your property with a court, you agree that we may charge your account for our costs, including attorney’s fees and expenses.

INCREASED COSTS TO MAINTAIN YOUR ACCOUNT

If your account becomes subject to a receivership, court order or bankruptcy, and we are required to implement changes as to your account that increase our costs to maintain your account (for example, a requirement for us to pledge property to secure your account above the amount of any deposit insurance on your account), you agree to reimburse us for the additional costs and any expenses incurred by us (including legal fees) to implement such required changes as to your account.

CONSUMER REPORT DISPUTES

We may report information about your deposit accounts to Consumer Reporting Agencies (CRA). As a result, this may prevent you from

obtaining services at other financial institutions. If you believe we have inaccurately reported information to a CRA, you may submit a dispute by calling 844.624.8230 or by writing to:

U.S. Bank Attn: CBDH Management, P. O. Box 3447, Oshkosh, WI 54903-3447. In order for us to assist you with your dispute, you must provide: your name, address and phone number; the account number; the specific information you are disputing; the explanation of why it is incorrect; and any supporting documentation (e.g., affidavit of identity theft), if applicable.

ACCOUNT INFORMATION

Our Privacy Pledge discloses the information we share with other entities for marketing purposes. We also may be required to provide information about you and your account when and as required or permitted by law for other purposes, such as, for example:

- 1. reporting of interest you earn to federal and state tax authorities;
- 2. reporting of cash transactions that are at reportable limits;
- 3. investigating and reporting of transactions that we reasonably determine to be suspicious; and
- 4. responding to subpoenas, court orders, or government investigations.

SETOFF

We have the right under the law to set off amounts you owe us against your accounts with us. For purposes of this section, “account” includes any account you have with us or any of our divisions, departments, and affiliates (including, without limitation, agency, custody, safekeeping, securities, investment, brokerage, and revocable trust accounts) and “you” includes, without limitation, your revocable trust, any partnership in which you are a general partner, any prior or successor entity by way of an entity conversion, and any other series of your series limited liability company (as applicable). In addition to this legal right, you give us and our affiliates the contractual right to apply, without demand or prior notice, all or part of the property (including money, certificates of deposit, securities and other investment property, financial assets, etc.) in your accounts, against any debt any one or more of you owe us or our affiliates. If your account is a joint account, you agree we may consider each joint owner to have an undivided interest in the entire account, so we may exercise our contractual right of setoff against the entire account. This includes, for example, debts that now exist and debts that you may incur later, your obligations under a guaranty, and also includes all fees you owe us or our affiliates. We will not be liable to you if enforcing our rights of setoff against your account(s) leaves insufficient funds to cover outstanding items or other obligations. You agree to hold us harmless from any claim arising as the result of our enforcement of our rights of setoff in, or enforcement of our rights of setoff against, your account(s).

Our contractual right of setoff does not apply:

- 1. to an account that is an IRA or other tax-deferred retirement account;
- 2. to a debt that is created by a consumer credit transaction under a credit card plan (but this does not affect our rights under any consensual security interest); or
- 3. if our records demonstrate to our satisfaction that the right of withdrawal that a depositor/debtor has with us only

arises in a representative capacity (for example, only as an authorized signer, attorney-in-fact or a fiduciary) for someone else.

This right of setoff is in addition to any security interest that we or an affiliate of ours might have in your deposit account.

SECURITY INTEREST IN ACCOUNTS

You grant to us and our affiliates, a security interest in all your accounts with us, and all property in your accounts (including money, certificates of deposit, securities and other investment property, financial assets, etc.), to secure any amount you owe us or our divisions, department, and affiliates, now or in the future. This includes, for example, debts that now exist and debts that you may incur later, your obligations under a guaranty, and also includes all fees you owe us or our affiliates. For purposes of this section, “account” includes any account you have with us or any of our affiliates (including, without limitation, agency, custody, safekeeping, securities, investment, brokerage, and revocable trust accounts) and “you” includes, without limitation, your revocable trust, any partnership in which you are a general partner, any prior or successor entity by way of an entity conversion, and any other series of your series limited liability company (as applicable). In order to provide us and our affiliates with control over your account and all property in your account for purposes of perfecting the security interest granted above, you agree that we shall comply with any and all order, notices, requests and instructions originated by us or any of our affiliates directing disposition of the funds in your account without any further consent from you, even if such instructions are contrary to your instructions or demands or result in our dishonoring items which are presented for payment.

If your account is a joint account, you agree we may consider each joint owner to have an undivided interest in the entire account, so we may exercise our security interest against the entire account. We may enforce our security interest without demand or prior notice to you. You agree, for purposes of this security interest, that our affiliates may comply with any instructions we give them regarding your accounts held with them, without further consent. You also agree that we may comply with any instructions regarding your accounts that we receive from our affiliates pursuant to a security interest they have in your accounts with us. We will not be liable to you if enforcing our security interest against your account(s) leaves insufficient funds to cover outstanding items or other obligations.

You agree to hold us harmless from any claim arising as the result of our security interest in, or enforcement of our security interest against, your account(s).

SECURITY

It is your responsibility to protect the account numbers, including card numbers and electronic access devices (e.g., an ATM card, debit card, username and password or PIN) we provide to you for your account(s). Do not discuss, compare, or share information about your account number(s) with anyone unless you are willing to give him or her full use of your money. An account number can be used by thieves to encode your number on a false demand draft which looks like and functions like an authorized check.

If you furnish your access device and grant actual authority to make transfers to another person (a family member, coworker or employee, for example) who then exceeds that authority, you are liable for the transfers unless we have been notified that transfers by that person are no longer authorized.

Your account number can also be used to electronically remove money from your account. If you provide your account number in response to a telephone solicitation for the purpose of making a transfer (to purchase a service or merchandise, for example), payment can be made from your account even though you did not contact us directly and order the payment.

You must also take precaution in safeguarding your blank checks. Notify us at once if you believe your checks have been lost or stolen. As between you and us, if you are negligent in safeguarding your checks, you must bear the loss entirely yourself or share the loss with us (we may have to share some of the loss if we failed to use ordinary care and if we substantially contributed to the loss).

We reserve the right to place a hold on your account if we suspect irregular, fraudulent, unlawful or other unauthorized activity involved with your account. We may attempt to notify you of such a hold, but we are not required to provide notice prior to placing the hold. You agree that we may maintain such a hold until all claims against you or us to the funds held in your account, whether civil or criminal in nature, have been resolved fully in our sole satisfaction.

RESOLUTION OF DISPUTES BY ARBITRATION
PLEASE READ THIS PROVISION CAREFULLY. UNDER THIS PROVISION, YOU WAIVE YOUR RIGHTS TO TRY ANY COVERED CLAIM IN COURT BEFORE A JUDGE OR JURY AND TO BRING OR PARTICIPATE IN ANY CLASS OR OTHER REPRESENTATIVE ACTION.

The following provision applies to any claim, cause of action, proceeding, or any other dispute between you, on the one hand, and us, our respective parents, subsidiaries, affiliates, agents, employees, predecessors-in-interest, personal representatives, heirs and/or successors, and assigns, on the other hand (each a “Claim” as further defined under the heading “Claims Covered by Arbitration”), including all questions of law or fact related thereto.

Agreement to Arbitrate: Either you or we may elect in writing, and without the consent of the other, to arbitrate all Claims covered by this provision.

Claims Covered By Arbitration: Claims subject to our agreement to arbitrate shall include all of the following: (1) Claims related to or arising out of this account Agreement, or any prior or later versions of this account Agreement as well as any changes to the terms of this account Agreement; (2) Claims related to or arising out of any aspect of any relationship between us that is governed by this account Agreement, whether based in contract, tort, statute, regulation, or any other legal theory; and (3) Claims that relate to the construction, scope, applicability, or enforceability of this arbitration provision. Claims include Claims that arose before we entered into this account Agreement (such as Claims related to advertising) and after termination of this account Agreement.

Claims Not Covered By Arbitration: Claims subject to our agreement to arbitrate shall not include any Claim you file in a small claims court, so long as the Claim remains in such court and advances only an individual claim for relief.

Commencing an Arbitration: The party initiating arbitration must choose one of the following arbitration forums to administer the arbitration:

- The American Arbitration Association (“AAA”) under AAA’s Consumer Arbitration Rules, except as modified by this account Agreement. AAA’s Rules may be obtained from www.adr.org or 1-800-778-7879 (toll-free).
- JAMS/Endispute (“JAMS”) under JAMS’ Comprehensive Arbitration Rules & Procedures or Streamlined Arbitration Rules & Procedures, including JAMS’ Consumer Minimum Standards, except as modified by this account Agreement. JAMS’ Class Action Procedures shall not apply. JAMS’ rules may be obtained from www.jamsadr.com or 1-800-352-5267 (toll-free).

If the chosen arbitration forum is for any reason unable to serve, then the parties may agree to a comparable substitute organization. If the parties are unable to agree, then a court of competent jurisdiction shall appoint a substitute organization.

Arbitration Procedure: The arbitration shall be decided by a single neutral arbitrator selected in accordance with AAA’s or JAMS’ rules, as applicable. The arbitrator will decide the dispute in accordance with the terms of our account Agreement and applicable substantive law, including the Federal Arbitration Act and applicable statutes of limitation. The arbitrator shall honor claims of privilege recognized at law. The arbitrator may award damages or other relief (including injunctive relief) available to the individual claimant under applicable law. The arbitrator will not have the authority to award relief to, or against, any person or entity who is not a party to the arbitration. The arbitrator will take reasonable steps to protect customer account information and other proprietary or confidential information. Any arbitration hearing shall take place in the federal judicial district that includes your home address, unless you and we agree in writing to a different location or the arbitrator so orders. If all Claims are for \$10,000 or less, you may choose whether the arbitration will be conducted solely on the basis of documents submitted to the arbitrator, through a telephonic hearing, or by an in-person hearing in accordance with AAA’s or JAMS’ rules.

At your or our request, the arbitrator will issue a reasoned written decision sufficient to explain the essential findings and conclusions on which the award is based. The arbitrator’s award shall be final and binding, subject to judicial review only to the extent allowed under the Federal Arbitration Act. You or we may seek to have the award vacated or confirmed and entered as a judgment in any court having jurisdiction.

No Class Action or Joinder of Parties: You and we agree that no class action, private attorney general, or other representative claims may be pursued in arbitration, nor may such action be pursued in court if either you or we elect arbitration. Unless mutually agreed to by you and us, Claims of two or more persons may not be joined, consolidated, or otherwise brought together in the same arbitration (unless those persons are joint account

owners or beneficiaries on your account and/or related accounts, or parties to a single transaction or related transaction). If this specific paragraph is determined by the arbitrator to be unenforceable, then this entire provision shall be null and void.

Arbitration Costs: Unless the applicable arbitration rules at the time of filing a Claim are more favorable to you, we will advance (i) all arbitration costs in an arbitration that we commence, and (ii) the first \$2,500 in arbitration filing, administration, and arbitrator’s fees in an arbitration that you commence. To the extent allowed by applicable law and our agreements, the arbitrator may award arbitration costs and attorneys’ fees to the prevailing party.

Applicable Law: You and we agree that you and we are participating in transactions that involve interstate commerce and that this provision and any resulting arbitration are governed by the Federal Arbitration Act. To the extent state law applies, the laws of the state governing your account relationship apply. No state statute pertaining to arbitration shall apply.

Severability: Except as this provision otherwise provides, if any part of this provision is deemed to be invalid or unenforceable by the arbitrator, that part will be severed from the remainder of this provision and the remainder of this provision will be enforced.

ATTORNEY’S FEES

Where used, “attorney’s fees” includes our attorney’s fees, court costs, collection costs, and all related costs and expenses. Notwithstanding any provision in this Agreement to the contrary, any provision for attorney’s fees in this Agreement shall not be enforceable in any dispute governed by the laws of California or Oregon.

FUNDS AVAILABILITY: YOUR ABILITY TO WITHDRAW FUNDS – ALL ACCOUNTS

This funds availability policy applies to deposits into a checking or savings account made at a branch or ATM. This policy may not apply to deposits made remotely through a mobile or other electronic device.

Some sections of this disclosure apply to all accounts and all customers. There are special sections for New Accounts, Commercial Accounts, Wealth Management Accounts and Retail Consumer and Business Accounts. We will make that clear in the section headings.

Funds “availability” means your ability to withdraw funds from your account, whether those withdrawals are to be in cash, by check, automatic payment, or any other method we offer you for access to your account. If deposited funds are not “available” to you on a given day, you may not withdraw the funds in cash and we may not use the funds to pay items that you have written or honor other withdrawals you request. If we pay items that you have written or honor other withdrawals before funds are available to you, we may charge a fee for this. Please review the product pricing information disclosure for information regarding overdraft fees associated with your accounts.

Please remember that even after the item has “cleared,” we have made funds available to you, and you have withdrawn the funds,

you are still responsible for items you deposit that are returned to us unpaid and for any other problems involving your deposit. See our **Returned Deposited and Cashed Items** section.

DETERMINING THE AVAILABILITY OF A DEPOSIT – ALL ACCOUNTS

The day funds become available is determined by counting business days from the day of your deposit. Every day is a business day except Saturdays, Sundays, and federal holidays. If you make a deposit in person before our “cutoff time” on a business day we are open, we will consider that day to be the day of your deposit for purposes of calculating when your funds will become available. However, if you make a deposit after the cutoff time, or on a day we are not open, we will consider that the deposit was made on the next business day we are open.

Our cutoff times vary from branch to branch. The earliest cutoff time at any of our branches is 2:00 p.m. (local time at the branch).

If a deposit is made after 8:00 p.m. (local time at the ATM location) or on a day we are not open, we will consider the deposit to be made on the next business day we are open.

Deposits you send by mail are considered deposited on the business day it arrives if it arrives by the cutoff time at the branch of deposit. In all cases, availability of any deposit assumes that a requested withdrawal will not overdraw the account.

IMMEDIATE AVAILABILITY – ALL ACCOUNTS

The following types of deposits will usually be available for withdrawal immediately under normal circumstances:

- Cash (if deposited in person to an employee of ours);
- Electronic direct deposits;
- Wire transfers; and
- The first \$225.00 from the total of all other deposits made on any given day.

Cash and wire transfer deposits are subject to the **Special Rules for New Accounts** and the \$225.00 availability is subject to the rule in the section titled **Longer Delays May Apply**.

LONGER DELAYS MAY APPLY

Government Checks, Cashier’s Checks, and Other Types of Special Checks. If you make a deposit of one of the following items in person to one of our employees, our policy is to make the funds from those deposits available no later than the first business day after the day of deposit:

- State and local government checks that are payable to you;
- Cashier’s, certified, and teller’s checks that are payable to you; and
- Federal Reserve Checks, Federal Home Loan Checks, and U.S. Postal Money orders that are payable to you.

If you do not make your deposit in person to an employee of the bank (for example, if you mail us the deposit), funds from these deposits may be available no later than the second business day after the day of deposit. However, we may delay funds for a longer period of time, see section titled **Longer Delays May Apply – Safeguard Exceptions**.

Case-by-Case Delays. In some cases, we will not make all of the funds that you deposit available to you as provided above. Depending on the type of check that you deposit, funds may not be available until the second business day after the day of your deposit. The first \$225.00 of your deposit, however, will be available no later than the first business day after the day of deposit, and usually immediately.

If we are not going to make all of the funds from your deposit available on the first business day, we will notify you at the time you make your deposit. We will also tell you when the funds will be available. If your deposit is not made directly to one of our employees (including a deposit made at an ATM) or if we decide to take this action after you have left the premises, we will mail you the notice by the day after we receive your deposit.

If you will need the funds from a deposit right away, you should ask us when the funds will be available.

Safeguard Exceptions. In addition, funds you deposit by check may be delayed for a longer period under the following circumstances:

- We believe a check you deposit will not be paid.
- You deposit checks totaling more than \$5,525.00 on any one day.
- You redeposit a check that has been returned unpaid.
- You have overdrawn your account repeatedly in the last six months.
- There is an emergency, such as failure of computer or communications equipment.

We will notify you if we delay your ability to withdraw funds for any of these reasons, and we will tell you when the funds will be available. They will generally be available no later than the seventh business day after the day of your deposit.

RETAIL CONSUMER, BUSINESS AND COMMERCIAL ACCOUNTS

Our general availability policy for these accounts is to make funds available to you on the first business day after the day of deposit. We generally make some portion of a day’s deposits available for withdrawal immediately. See the previous section for the types and amounts of deposits that are available immediately.

WEALTH MANAGEMENT ACCOUNTS

Our general availability policy for **Private Client Accounts** is to make funds you deposit available to you immediately. This immediate availability policy includes all deposits at any ATM. The section above titled **Longer Delays May Apply** also applies to your accounts. If we impose a delay as provided in that section, then the sections titled **Cashing Checks** and **Other Accounts** may also apply.

DEPOSITS AT AUTOMATED TELLER MACHINES – RETAIL CONSUMER, BUSINESS AND COMMERCIAL ACCOUNTS

Our Machines. If you make a deposit at a deposit-accepting ATM identified as ours with the U.S. Bank name, your deposit will generally be available on the first business day after the day of deposit. However, in certain circumstances, and at U.S. Bank’s

discretion, the funds may not be available until the second business day after the day of deposit.

Partner ATMs. U.S. Bank has established alliances to expand ATM convenience. These partner ATMs display the U.S. Bank logo and are included in the definition of a U.S. Bank ATM. However, these ATMs generally do not accept deposits. If we permit a deposit at a partner ATM, your deposit will not be available until the fifth business day after the day of deposit.

Other Machines. Generally, deposits at an ATM that is not identified as ours with the U.S. Bank name are not permitted. If we permit a deposit at an ATM that is not identified as ours with the U.S. Bank name, your deposit will not be available until the fifth business day after the day of deposit.

SPECIAL RULES FOR NEW ACCOUNTS – RETAIL CONSUMER AND BUSINESS ACCOUNTS

If you are a new customer, the following special rules will apply during the first 30 days your account is open.

Funds from electronic direct deposits and deposits of cash and wire transfers to your account will be available on the day we receive the deposit. The first \$5,525.00 of a day’s total deposits of cashier’s, certified, teller’s, traveler’s, on-us checks (checks drawn on U.S. Bank), and federal, state and local government checks will be available on the first business day after the day of your deposit if the deposit meets certain conditions. For example, the checks must be payable to you (and you may have to use a special deposit slip). The excess amount over \$5,525.00 will be available on the fifth business day after the day of your deposit. If your deposit of these checks (other than a U.S. Treasury check) is not made in person to one of our employees, the first \$5,525.00 will not be available until the second business day after the day of your deposit.

Funds from all other check deposits will generally be available on the fifth business day after the day of your deposit. In certain instances, we may hold funds from other check deposits for longer than five business days. For example, if we receive a check that falls within the Safeguard Exception description above, we may delay funds for up to seven business days. If we do so, we will provide you with a hold notice at the time of deposit or when we learn that we will hold the funds from the deposit.

CASHING CHECKS

If we cash a check for you that is drawn on another bank, we may withhold the availability of a corresponding amount of funds that are already in your account. Those funds will be available at the time funds from the check we cashed would have been available if you had deposited it.

OTHER ACCOUNTS

If we accept for deposit a check that is drawn on another bank, we may make funds from the deposit available for withdrawal immediately but delay your availability to withdraw a corresponding amount of funds that you have on deposit in another account with us. The funds in the other account would then not be available for withdrawal until the day the deposited item would have been available, which will usually be the first business day after the day of deposit.

ADDITIONAL TERMS FOR BUSINESS ACCOUNTS

All other sections of this Agreement apply to consumer and business accounts alike, (except when a rule specifically says it will apply to consumers). The following sections apply to accounts used primarily for business purposes.

UNLAWFUL INTERNET GAMBLING AND OTHER ILLEGAL TRANSACTIONS

You agree that you, or anyone acting on your behalf, will not use your account, access device or banking relationship with us to facilitate illegal transactions such as those prohibited by the Unlawful Internet Gambling Act of 2006, or otherwise violate any law, rule or regulation applicable to you. If we identify a suspected illegal transaction, we may block such transactions, and further we may close your account or terminate our banking relationship with you.

DEPOSIT OF PRE-AUTHORIZED DRAFTS

A pre-authorized draft is an arrangement whereby you get authority from a person (a customer, usually) to access a deposit account owned by that person to pay a debt that person owes you. You deposit these “drafts” into a deposit account with us, and we collect them from your customers, who may have accounts with us or other banks. (These “drafts” are checks you create based on information your customer provides you, such as the customer’s name and account number, and the express permission your customer gave you to draw on his account.)

When you deposit these pre-authorized drafts, you make the following agreements and warranties:

1. You have express, verifiable and binding authorization from your customer to access his, her or its account for the amount you ask us to collect;
2. You will keep the proof of your authorization in retrievable form for not less than two years from: (a) the date of the authorization of a one-time draft; or (b) from the date of revocation of the authorization of recurring drafts. You agree to provide us with such proof upon our request;
3. We may reverse any credit given to you for any draft deposited to your account and returned to us regardless of when it is returned or the reason for the return. We may take funds in your account to pay the amount you owe us, and if there are insufficient funds in your account, you will still owe us the remaining balance.

EARNINGS CREDIT

Fees for services used by you may be assessed in full to your accounts or may be offset through account analysis by applying earnings credit to your service charges to determine a single monthly net service charge. Your earnings credit rate is established by us and will change from time to time. For business accounts, the variable earnings credit rate may be zero or a negative rate. If the earnings credit rate for any of your account(s) or the index or other referenced rate upon which the earnings credit rate for your account(s) is based is at any time less than zero percent, you agree to pay all amounts of the negative earnings credit or fees which we impose as compensation for the negative earnings credit rate. Your

net service charge could be zero if your earnings credit equals or exceeds your total charges in a given month. If your earnings credit is not sufficient to offset the amount due hereunder, you agree to pay such amounts to us upon demand.

WAIVER OF NOTIFICATION OF REDEPOSITED CHECKS

When you deposit checks to your account, you have a right to be notified whenever a check you deposit is returned unpaid. We offer a plan (to businesses who elect it) whereby we will automatically redeposit checks returned unpaid due to insufficient funds. To simplify collection of these items, you give up this right to notification for those items we redeposit. If these items are returned unpaid a second time, you will receive standard notification.

We may withhold the availability of funds represented by a redeposited check. We will notify you of such delay.

FACSIMILE SIGNATURES

You may wish to use a facsimile signature stamp or other mechanical signature device to sign checks or other orders relating to your accounts. If you do, we will, without contacting you, debit your account for items bearing an imprint that looks substantially like your authorized mechanical signature, whether or not such items bear the actual facsimile signature stamp. You agree to notify us and give us a sample imprint if you plan to use such a device. If you do not give us a sample, this section still applies to your use of the device. You are responsible for the security of any mechanical signature device. We will not be responsible for payment of unauthorized items bearing an imprint from, or similar to, your authorized mechanical signature.

DEPOSITS

Truncation, Substitute Checks, and Other Check Images: If you truncate an original check and create a substitute check or other replacement document, or other paper or electronic image of the original check, you warrant that no one will be asked to make payment on the original check, a substitute check or any other electronic or paper image, if the payment obligation relating to the original check has already been paid. You also warrant that any substitute check(s) you create conforms to the legal requirements and generally accepted specifications for substitute checks. You agree to retain the original check in conformance with the time requirements as outlined in your remote deposit capture agreement with us. You agree to indemnify us for any loss we may incur as a result of any truncated check transaction you initiate. We can refuse to accept substitute checks that have not previously been warranted by a bank or other financial institution in conformance with the Check 21 Act. Unless specifically stated in a separate agreement between you and us, we do not have to accept any other electronic or paper image of an original check.

Deposit Preparation, Sorting, and Endorsements: You agree to properly prepare, sort, and endorse all deposits according to requirements specified in any applicable user guides and Federal Regulation CC. We require that you include the external processing code of “6” in Position 44 of the MICR line for all remotely created checks, and we reserve the right to dishonor any remotely created check that does not meet the requirement. You agree to indemnify

us for any loss we incur that results from your failure to comply with these requirements.

Requalification: If you elect to have another bank or entity receive and process all of your returned checks, such other bank’s endorsement may be obscured by our depository bank endorsement. You understand and agree that any other endorsement placed on your checks that identify another bank as the depository bank or the bank to which checks should be returned may result in illegible or double endorsements, which may delay the return of your checks. You agree we shall not be liable for any such delays.

FRAUD PREVENTION MEASURES

We offer certain products and services, such as “positive pay,” and account blocks and filters that are designed to detect or deter fraud. Failure to use such services could substantially increase the likelihood of fraud. If you fail to implement any of these products or services, or if you fail to follow these or other precautions reasonable for your type of account or circumstances, you agree that you will be precluded from asserting any claims against us for paying any unauthorized, altered, counterfeit or other fraudulent item that such product, service or precaution was designed to detect or deter, and we will not be required to re-credit your account or otherwise have any liability for paying such items.

CUSTOMER SEGREGATED ACCOUNTS. Notwithstanding anything to the contrary in this Agreement or any other agreement, we will maintain all money designated as client money—by broker-dealers, future commission merchants, or derivatives clearing organizations—in customer segregated accounts in accordance with acknowledgement letters required by applicable SEC and CFTC rules and regulations.

ELECTRONIC BANKING AGREEMENT FOR CONSUMER CUSTOMERS

This section applies to payment orders and funds transfers governed by the Electronic Fund Transfer Act. When you enroll in online and mobile banking we will provide you with the U.S. Bank *Digital Services Agreement* that governs the use of all online and mobile services (“Digital Services”).

If you have any questions regarding electronic banking transactions or believe that an unauthorized transaction has occurred, please call U.S. Bank 24-Hour Banking (see last page for phone numbers), visit a local U.S. Bank branch or write to:

**U.S. Bank 24-Hour Banking
EP-MN-WS5D
60 Livingston Ave.
St. Paul, MN 55107**

Please read this disclosure carefully because it tells you your rights and obligations for the transactions listed. You should keep this notice for future reference.

TYPES OF TRANSACTIONS

These are the types of Electronic Fund Transfers that you can accomplish with us (assuming you make arrangements to do so).

Electronic Fund Transfers Initiated by Third Parties. You may authorize a third party to initiate electronic fund transfers between

your account and the third party’s account. These transfers to make or receive payment may be one-time occurrences or may recur as directed by you. These transfers may use the Automated Clearing House (ACH) or other payments network. Your authorization to the third party to make these transfers can occur in a number of ways. In all cases, these third-party transfers will require you to provide the third party with your account number and bank information. Thus, you should only provide your bank and account number information (whether over the phone, the Internet, or via some other method) to trusted third parties whom you have authorized to initiate these electronic fund transfers. Examples of these transfers include, but are not limited to:

Direct Deposits. You can arrange for direct deposits to your checking or savings account(s).

Prauthorized Payments. You can arrange to pay certain recurring bills from your checking or savings account(s).

Electronic check conversion. You may authorize a merchant or other payee to make a one-time electronic payment from your checking account using information from your check to pay for purchases or pay bills.

Electronic returned check charge. You may authorize a merchant or other payee to initiate an electronic fund transfer to collect a charge in the event a check is returned for insufficient funds.

Expanded Account Access

What it is. Any card or PIN (personal identification number) can be used to access up to five checking, savings, line of credit and credit card account(s) held in the same name at U.S. Bank or any of its bank affiliates; and any account you open with us and our affiliates may be accessed by your card or PIN. “Access” means use of a card or account number and PIN to conduct a transaction or obtain information at ATMs, over the telephone, through personal computer banking, or any other available method. If the card or PIN is for a joint account, that card or PIN can be used to access all the accounts linked to the card or PIN account, whether joint or individual. Expanded Account Access is also applicable to your Digital Services.

The “cards” that can get Expanded Account Access. All U.S. Bank Debit Cards and ATM cards (excluding prepaid cards), and all U.S. Bank-issued Credit Cards (including, but not limited to, co-branded credit cards, and all credit lines issued through U.S. Bank and U.S. Bank affiliates).

Fees and Charges for Expanded Account Access. There are no additional fees or charges just for Expanded Account Access, but fees applicable to each applicable account will continue to apply in accordance with the terms of the applicable account agreements. The fees and terms for each of your accounts will be as disclosed in the *Consumer Pricing Information* disclosure. (This document can be obtained by contacting a U.S. Bank branch or calling 800.872.2657.)

The fees and terms for your personal credit cards and lines of credit are disclosed in the applicable cardmember agreement.

How to Cancel. You can visit a branch or call the U.S. Bank 24-Hour Banking number at any time to cancel Expanded Account Access. If you cancel Expanded Account Access for any account, that account

will not be accessible by any card or PIN other than the card or PIN specifically designated for that account.

Account Access at Automated Teller Machines

You can access up to five checking, five savings, and five line(s) of credit or credit card accounts at U.S. Bank ATMs through all your cards held in the same name (excluding prepaid cards).

You may perform the following transactions at ATMs:

- Make cash withdrawals from your checking and savings accounts associated with your card. Cash denominations vary by ATM.
- Get cash advances from your credit card account using your U.S. Bank Debit Card or ATM card. (Refer to your cardmember agreement for any cash advance fees and finance charges that may apply.)
- Deposit funds to checking and savings accounts associated with your card. Deposit up to 30 checks and 50 bills in a single transaction. Instant availability for cash deposits if deposited before 6:00 p.m. local time in a non-envelope deposit ATM.
- Transfer funds from your account(s) associated with your card.
- Make payments to credit card or line of credit accounts from a deposit account associated with your card.
- Check the current balance of your checking, savings, credit card and line of credit accounts associated with your card.
- Request a statement showing your most recent deposit account transactions. (Refer to the *Consumer Pricing Information* disclosure regarding any fees for purchasing statements at ATMs. This disclosure can be obtained by contacting a U.S. Bank branch or calling 800.872.2657.)
- Change your ATM or debit card PIN.
- Make certain charitable contributions from a deposit account associated with your card.
- You may access your Home Equity Line of Credit or Personal Line of Credit for balance inquiries and making a payment to the respective line of credit at the ATM.

Some of these transactions are not available at all ATMs.

For customers with a Debit or ATM card that have accessed a Home Equity Line of Credit or a Personal Line of Credit through the expanded card access feature, cash withdrawals/advances and transferring from the Home Equity Line of Credit or Personal Line of Credit is not allowed.

Purchases at Merchants

You may use any of your U.S. Bank Debit Cards to make purchases at merchants that accept Visa® debit cards. You may use your U.S. Bank ATM Card and any of your U.S. Bank Debit Cards to make purchases by entering your PIN at participating merchants. You may also get cash from a merchant, if the merchant permits. Purchases made with your card will result in debits to your “primary” checking account. These transactions will be itemized on your monthly statement, including the merchant name, location, the date of purchase and the amount of the purchase.

Partial Debit Card Transactions

Some merchants may be enrolled in Visa’s Partial Authorization service. This means that if you chose ‘No’ to ATM and Debit Card Overdraft Coverage, your transaction may be approved for only

part of your total purchase amount. This occurs when you do not have a sufficient Available Balance, necessary to pay for the entire transaction, at the time of the purchase. Additionally, funds from your designated account(s) linked for Overdraft Protection (if applicable) may be considered when determining the amount that is authorized.

For example, if you attempt a \$30.00 transaction when your account has an Available Balance of \$20.00, your purchase may be approved for \$20.00 instead of the entire transaction being declined.

Other Electronic Transactions

In addition to transactions initiated by using your U.S. Bank Debit Card, there are other electronic banking transactions that you may arrange through your account. These include:

- Telephone/personal computer activated transfers of funds from your accounts with us to other accounts with us or to third parties. These include but are not limited to transfers made by telephone, text, online and mobile banking.
- Automatic transfer of funds between checking and savings accounts.
- Automatic periodic payments to third parties or us from checking or savings accounts (for example, monthly mortgage payments, installment loan payments, insurance payments, utility payments).
- Direct deposit to checking or savings accounts (for example, payroll checks, social security payments).
- Electronic check conversions from your checking account using a blank, partial or fully completed personal check at merchant locations.
- Payments made to your account through your U.S. Bank Debit Card.
- You can also use any of your U.S. Bank Debit Cards to obtain a cash advance from your checking account at any Visa® member bank anywhere in the world.

LIMITS ON TRANSFERS

New Accounts

Generally, you cannot make deposits at a non-U.S. Bank ATM. If we permit a deposit at an ATM that is not identified as ours with the U.S. Bank name, your deposit will not be available until the fifth business day after the day of deposit.

Security

For security reasons, there are limitations on the transactions that you may perform with any of your U.S. Bank Debit Cards or U.S. Bank ATM Cards per day. There are limitations on the number of transactions that can be performed per day and the limits may vary. For security reasons we do not disclose these limits. There are limitations on the dollar amount of cash withdrawals at ATMs and/or cash that you receive from merchants over the amount of your purchase. There are also limitations on the total dollar amount of purchases at merchants and/or cash advances at Visa® member banks you may perform during each 24-hour period beginning at 4:30 p.m. Central Time. Our standard transaction limits for ATM cards are \$300.00 per day for cash withdrawals and \$1,000.00 per day for purchases. Our standard transaction limits for debit cards are \$500.00 per day for cash withdrawals and \$1,000.00 per day for purchases and/or cash advances at banks. Our standard transaction

limits for receiving money through your U.S. Bank Debit Card are \$3,000.00 per transaction and \$10,000.00 per day. We may change these limitations based on periodic risk assessments and we reserve the right to make such changes without notice to you. Transfer limits are also subject to temporary reductions to protect the security of customer accounts or transfer systems.

Debit Card Transactions

When you use your U.S. Bank Debit Card (Debit Card) for payment, the merchant requests U.S. Bank to authorize the transaction amount. We rely on the merchant to inform us if a debit card transaction is a one-time or a recurring transaction. At the time of the request, we authorize (promise to pay) or decline the merchant’s request. If we authorize (promise to pay) we will reduce your Available Balance by the amount of the merchant’s authorization request. Some merchants (e.g., hotels, restaurants, gas stations, car rental agencies) request an authorization that is an estimated amount of the anticipated purchase instead of the full purchase amount. As a result, the reduction of your Available Balance may be less or greater than the final debit card transaction amount presented for payment. It is important to note that your Available Balance may change between the time a debit card transaction is authorized and when the debit card transaction is presented for payment.

Debit card authorizations will be reflected as pending transactions from the time we receive the authorization until the merchant presents the item for payment, a completion message is received, or three business days, whichever occurs first. If the debit card authorization has not been presented for payment after three business days, it will be removed from your pending transactions and your Available Balance will no longer be reduced by the authorization amount. Due to prior authorization (promise to pay), if the debit card transaction is presented for payment at a later date we will pay the item regardless of your Available Balance.

If any debit card transaction results in a negative Available Balance at the time it is presented for payment—even if your Available Balance was positive at the time the debit card transaction was authorized—you may be charged an Overdraft Paid Fee. For more information on Available Balance please see the section titled **INSUFFICIENT FUNDS AND OVERDRAFTS**.

Please know, it is your responsibility to ensure your account has a sufficient Available Balance to cover all transactions you conduct. We recommend keeping a record of your balance and deducting every transaction at the time you initiate it.

FEES

We will charge you fees for electronic fund transfers in accordance with the information found in our *Consumer Pricing Information* disclosure. (This disclosure can be obtained by contacting a U.S. Bank branch or calling 800.872.2657.) The fees may be changed at any time, subject to our giving you any notice required by law.

ATM Surcharges. When you use an ATM that is not identified as ours with the U.S. Bank name, and the ATM does not participate in the MoneyPass® Network, you may be charged a fee by the ATM operator or any network used to complete the transfer. To find MoneyPass ATM locations, please visit www.moneypass.com.

USING YOUR CARD FOR INTERNATIONAL TRANSACTIONS

You may use your U.S. Bank Debit Card or ATM card for retail purchases with international merchants, for international cash advances and all transactions performed at international ATMs that bear any of the network logos found on your card. Refer to our *Consumer Pricing Information* disclosure for fee information. (This disclosure can be obtained by contacting a U.S. Bank branch or calling 800.872.2657.) We may block transactions in certain foreign countries. Call us at 800.872.2657 for more information. Some merchant and ATM transactions, even if you and/or the merchant or ATM are located in the United States, are considered international transactions under the applicable network rules, in which case we will add International Processing Fees to those transactions.

U.S. Bank does not control how these merchants, ATMs and transactions are classified for this purpose. If the transaction requires a currency conversion, the exchange rate in effect when processed may differ from the rate in effect on the date of the transaction or the date of the posting to your Account.

Transactions processed through the Visa® system will be converted according to the applicable rules established by Visa®. The foreign currency transaction will be converted to U.S. Dollars by multiplying the amount of the foreign currency times (a) a rate selected by Visa® from the range of rates available in wholesale currency markets for the applicable central processing date, which rate may vary from the rate Visa® itself receives, or (b) the government-mandated rate in effect for the applicable central processing date. For transactions processed through other networks, the international currency transaction will be converted by that network in accordance with their rules.

Additional fees may apply. If you need to contact us about your card while outside of the United States, call us collect at 503.401.9991.

ADVISORY AGAINST ILLEGAL USE

You agree not to use your card(s) for illegal gambling or any other illegal purpose. Display of a payment card logo by, for example, an online merchant does not necessarily mean that transactions are lawful in all jurisdictions in which you may be located; therefore, we reserve the right to decline all online (Internet) gambling transactions.

DOCUMENTATION

Terminal transfers. You can get a receipt at the time you make any transfer to or from your account using automated teller machines or point-of-sale terminals. However, you may not get a receipt if the amount of the transfer is \$15.00 or less.

Pre-authorized credits. If you have arranged to have direct deposits made to your account at least once every 60 days from the same person or company, you can call U.S. Bank 24-Hour Banking, log in to the U.S. Bank Mobile App or visit our online banking site at usbank.com to find out whether or not the deposit has been made.

Periodic statements. You will get a monthly account statement unless there are no transfers in a particular month. In any case, you will get the statement at least quarterly for an account to or from which you have arranged for electronic access. In the event your account has become inactive as defined in the section titled Dormant Accounts

and Escheat (refer to page 31) and you have had no electronic activity, you will receive an annual statement.

PREAUTHORIZED PAYMENTS

If you have arranged for automatic periodic payments to be deducted from your checking or savings account and these payments vary in amount, you will be notified by the person you are going to pay ten calendar days prior to the payment date of the amount to be deducted. If the date upon which your payment is scheduled to be deducted changes, the person you are going to pay will notify you seven calendar days prior to the new scheduled date. To confirm the completion of automatic transfers, payments and/or direct deposits, please contact U.S. Bank 24-Hour Banking, log in to the U.S. Bank Mobile App or visit our online banking site at usbank.com.

Right to Stop Payment of Preauthorized Transfers

To stop a preauthorized electronic payment or transfer, please call U.S. Bank 24-Hour Banking (see last page for phone numbers). You must call in time for us to receive your request and to be able to act upon it, which in the case of these electronic payments, is at least three business days before the transfer is scheduled to occur. We may also require you to put your request in writing and forward it to us within 14 days after you call.

If you order us to stop one of these payments at least 3 business days before the transfer is scheduled, and we do not do so, we will be liable for your losses or damages.

OUR LIABILITY

Liability for failure to make transfers. If we do not complete a transfer to or from your account on time or in the correct amount according to our agreement with you, we will be liable for your losses or damages. However, there are some exceptions. We will not be liable, for instance:

1. If, through no fault of ours, you do not have enough money in your account to make the transfer.
2. If you have an overdraft line and the transfer would go over the credit limit.
3. If the automated teller machine where you are making the transfer does not have enough cash.
4. If the terminal or system was not working properly and you knew about the breakdown when you started the transfer.
5. If circumstances beyond our control (such as fire or flood) prevent the transfer, despite reasonable precautions that we have taken.
6. There may be other rules/limitations stated in our agreement(s) with you that excuse our failure to make a requested transfer (for example, the monthly limit on certain transfers out of non-transaction savings accounts; refer to Savings Accounts, Withdrawal section on page 39 for additional details).

Authorized Transactions

We assume that all transactions performed with your U.S. Bank ATM Card or any of your U.S. Bank Debit Cards and/or your personal identification number (PIN) are authorized unless you promptly notify us to the contrary. If you intentionally provide another person with the means to perform electronic banking transactions using your account, any resulting transactions will be treated as if they were

performed and authorized by you. Such treatment will continue until you notify U.S. Bank Fraud Liaison Center (see page 62) that the other person is no longer authorized to use your card and/or PIN (in which case the card and PIN will have to be deactivated).

UNAUTHORIZED TRANSACTIONS AND LOST OR STOLEN CARDS

An unauthorized transaction is one that another person conducts without your permission and from which you receive no benefit.

In order to avoid unauthorized transactions, please observe the following basic precautions:

- Do not keep your U.S. Bank ATM Card or U.S. Bank Debit Card and personal identification number (PIN) together. Do not write your PIN on your card.
- Do not provide your card or reveal your PIN to another person. If you do so, you authorize that person to conduct transactions using your card or PIN. You are liable for that person’s transactions until you notify U.S. Bank Fraud Liaison Center (see below) that the person is no longer authorized to use your card or PIN.
- Notify U.S. Bank Fraud Liaison Center or any U.S. Bank branch of the loss, theft or unauthorized use of your card or PIN.
- Notify U.S. Bank Fraud Liaison Center or any U.S. Bank branch if you think an electronic banking transaction is incorrectly reported on a receipt or statement. Failure to promptly notify U.S. Bank Fraud Liaison Center or any U.S. Bank branch of the loss, theft, or unauthorized use of your card or PIN will result in inconvenience to you and will hinder the efficient operation of your account.

**U.S. Bank Fraud Liaison Center
877.595.6256**

We reserve the right to cancel, block, and not renew your access device for any reason, with or without prior notice. Reasons for suspension of access may include, for example:

- Detection of suspicious or fraudulent activity;
- Lack of usage;
- Misuse; or
- Access devices returned as undeliverable by postal service.

CONSUMER LIABILITY FOR UNAUTHORIZED TRANSFERS

Zero Liability for All Transactions. Except as provided in the next paragraph, you are generally protected from all liability for unauthorized use of any of your U.S. Bank Debit Cards, the associated account numbers printed on them (including purchases made over the phone, online or in the U.S. Bank Mobile App) and your ATM card or its associated personal identification number (PIN). You still need to report the loss or theft of these cards, PINs, and any unauthorized transactions to us as soon as you can. This is necessary so you can get any unauthorized transactions reversed, prevent further unauthorized transactions, and avoid liability for subsequent purchases we could have prevented had you given us notice. This policy also protects you from liability for other types of electronic fund transfers. Please follow the section entitled **Error Resolution Notice** to report any unauthorized activity on your account.

After 60 Days from Statement Notice. If you fail to give us notice of an unauthorized electronic fund transfer within 60 days of when we first deliver a statement to you that discloses that unauthorized transaction, you will be liable for all unauthorized electronic fund transfers that occur after that 60-day period expires if we could have prevented such transaction had you reported it to us within the 60-day period. This rule applies to all forms of electronic fund transfers (including but not limited to ATM transactions, preauthorized withdrawals, online or mobile transactions, and purchases with any of your U.S. Bank Debit Cards, etc.) that occur after the 60-day period following the first statement notice.

If a good reason (such as a long trip or hospital stay) kept you from telling us, we may extend this time period.

MINNESOTA LIABILITY DISCLOSURE

If our records assign your account to a branch located in the State of Minnesota, you may bring a civil action against any person violating the consumer privacy and unauthorized withdrawal provisions of Minnesota Statutes § 47.69, and may recover, in addition to actual damages or \$500.00, whichever is greater, punitive damages when applicable, and the court costs and reasonable attorney’s fees incurred.

BUSINESS DAYS

Bank “business days” are Monday through Friday. Federal holidays are not included.

CONFIDENTIALITY

We will disclose information to third parties about your account as permitted by law or the transfers you make:

- 1. where it is necessary for completing transfers; or
- 2. in order to verify the existence and condition of your account for a third party, such as a credit bureau or merchant; or
- 3. in order to comply with government agency or court orders; or
- 4. if you give us your written permission; or
- 5. according to our privacy pledge, which generally permits us to share information with companies that perform marketing or other services on our behalf.

ERROR RESOLUTION NOTICE

In case of errors or questions about your electronic transfers, call U.S. Bank 24-Hour Banking at a number on the last page, visit any U.S. Bank branch or write us at the address listed below, as soon as you can, if you think your statement or receipt is wrong or if you need more information about a transfer listed on the statement or receipt. We must hear from you no later than 60 days after we sent the FIRST statement on which the problem or error appeared.

- 1. Tell us your name and account number (if any).
- 2. Describe the error or the transfer you are unsure about and explain as clearly as you can why you believe it is an error or why you need more information.
- 3. Tell us the dollar amount of the suspected error.

If you tell us orally, we may require that you send us your dispute or question in writing within ten business days. We will determine whether an error occurred within ten business days after we hear from you and will correct any error promptly. If we need more time, however, we may take up to 45 days to investigate your dispute or

question. If we decide to do this, we will credit your account within ten business days for the amount you think is in error, so that you will have the use of the money during the time it takes us to complete our investigation. If we ask you to put your dispute or question in writing and we do not receive it within ten business days, we might not provisionally credit your account.

For errors involving new accounts, point-of-sale, or foreign-initiated transactions, we may take up to 90 days to investigate your dispute or question. For new accounts, we may take up to 20 business days to credit your account for the amount you think is in error.

We will tell you the results within three business days after completing our investigation. If we decide that there was no error, we will send you a written explanation.

You may ask for copies of the documents that we used in our investigation. Write to us at:

**U.S. Bank
EP-MN-WS5D
60 Livingston Ave.
St. Paul, MN 55107**

Error resolution and contact information with respect to online and mobile banking services is provided in our *Digital Services Agreement*. The online banking site may be accessed by going to the U.S. Bank web site at usbank.com and following the directions to log in to online and mobile banking. More detailed information is available on request.

**NOTICE OF ATM/NIGHT DEPOSIT FACILITY
USER PRECAUTIONS**

As with all financial transactions, please exercise discretion when using an automated teller machine (ATM) or night deposit facility. For your own safety, be careful. The following suggestions may be helpful:

- 1. Prepare for your transactions at home (for instance, by filling out a deposit slip) to minimize your time at the ATM or night deposit facility.
- 2. Mark each transaction in your account record, but not while at the ATM or night deposit facility. Always save your ATM receipts. Do not leave them at the ATM or night deposit facility because they may contain important account information.
- 3. Compare your records with the account statements you receive.
- 4. Do not lend your ATM card to anyone.
- 5. Remember, do not leave your card at the ATM. Do not leave any documents at a night deposit facility.
- 6. Protect the secrecy of your Personal Identification Number (PIN). Protect your ATM card as though it were cash. Don’t tell anyone your PIN. Don’t give anyone information regarding your ATM card or PIN over the telephone. Never enter your PIN in any ATM that does not look genuine, has been modified, has a suspicious device attached, or is operating in a suspicious manner. Don’t write your PIN where it can be discovered. For example, don’t keep a note of your PIN in your wallet or purse.
- 7. Prevent others from seeing you enter your PIN by using your body to shield their view.
- 8. If you lose your ATM card or if it is stolen, promptly notify us. You should consult the other disclosures you have received

about electronic fund transfers for additional information about what to do if your card is lost or stolen.

- 9. When you make a transaction, be aware of your surroundings. Look out for suspicious activity near the ATM or night deposit facility, particularly if it is after sunset. At night, be sure that the facility (including the parking area and walkways) is well lighted. Consider having someone accompany you when you use the facility, especially after sunset. If you observe any problem, go to another ATM or night deposit facility.
- 10. Do not accept assistance from anyone you do not know when using an ATM or night deposit facility.
- 11. If you notice anything suspicious or if any other problem arises after you have begun an ATM transaction, you may want to cancel the transaction, pocket your card and leave. You might consider using another ATM or coming back later.
- 12. Do not display your cash; pocket it as soon as the ATM transaction is completed and count the cash later when you are in the safety of your own car, home, or other secure surrounding.
- 13. At a drive-up facility, make sure all the car doors are locked and all of the windows are rolled up, except the driver’s window. Keep the engine running and remain alert to your surroundings.
- 14. We want the ATM and night deposit facility to be safe and convenient for you. Therefore, please tell us if you know of any problem with a facility. For instance, let us know if a light is not working or there is any damage to a facility. Please report any suspicious activity or crimes to both the operator of the facility and local law enforcement officials immediately.

**ELECTRONIC BANKING AGREEMENT
FOR BUSINESS CUSTOMERS**

This section governs transactions initiated by you or your employees using a U.S. Bank Business Debit Card or ATM Card, or other U.S. Bank card products offered to business customers from time to time by U.S. Bank (“Business Debit Card(s)”). Your use of business debit cards is subject to the fees and terms of your checking and savings accounts as set forth elsewhere in this Agreement and in related brochures and fee schedules, which are available at any branch in your state. Some ATM networks impose an additional transaction fee unrelated to our fees and charges and may be assessed to your account. Other electronic transactions against your account, whether or not initiated or authorized by you will be governed by the specific Agreement between us related to such transactions and/or all applicable rules and regulations governing such transactions, including without limitation, the rules of the National Automated Clearing House Association (NACHA) as may be amended from time to time.

Under NACHA rules we cannot return an unauthorized electronic transaction (ACH debit) unless you notify us no later than 5:00 p.m. Central Time on the business day following the settlement date of the transaction. Otherwise, your sole recourse is to the originator of the transaction.

ACCOUNT ACCESS

Any business debit card or personal identification number (PIN) issued to or selected by you, except sole proprietors who choose to have a sole proprietor business debit card, may access only related business

checking or business savings accounts (for example, accounts with the same name or tax identification number). Sole proprietor business debit cards, however, can access up to five checking accounts, five savings accounts, and five line of credit or credit card accounts through Expanded Account Access. Sole proprietor cards may access business and personal accounts. For more information on Expanded Account Access, see the Consumer Electronic Banking Agreement.

Access methods will differ depending on the business debit card selected by you and approved by us. All business debit card services may not be available depending on the access method selected.

LIMITS ON TRANSFERS

New Accounts

Generally, you cannot make deposits at a non-U.S. Bank ATM. If we permit a deposit at an ATM that is not identified as ours with the U.S. Bank name, your deposit will not be available until the fifth business day after the day of deposit.

Security

For security reasons, there are limitations on the transactions that you may perform with any of your U.S. Bank Business Debit Cards or U.S. Bank Business ATM Cards, per day. There are limitations on the number of transactions that can be performed per day and the limits may vary. For security reasons we do not disclose these limits. There are limitations on the dollar amount of cash withdrawals at ATMs and/or cash that you receive from merchants over the amount of your purchase. There are also limitations on the total dollar amount of purchases at merchants and/or cash advances at Visa® member banks you may perform during each 24-hour period beginning at 4:30 p.m. Central Time. Our standard transaction limits for business ATM cards are \$500.00 per day for cash withdrawals and \$2,500.00 per day for purchases. Our standard transaction limits for business debit cards are \$500.00 per day for cash withdrawals and \$10,000.00 per day for purchases and/or cash advances at banks. Our standard transaction limits for receiving money through your U.S. Bank Debit Card are \$3,000.00 per transaction and \$10,000.00 per day. We may change these limitations based on periodic risk assessments and we reserve the right to make such changes without notice to you. Transfer limits are also subject to temporary reductions to protect the security of customer accounts or transfer systems.

Debit Card Transactions

When you use your U.S. Bank Business Debit Card (Debit Card) for payment, the merchant requests U.S. Bank to authorize the transaction amount. We rely on the merchant to inform us if a debit card transaction is a one-time or a recurring transaction. At the time of the request, we authorize (promise to pay) or decline the merchant’s request. If we authorize (promise to pay) we will reduce your Available Balance by the amount of the merchant’s authorization request. Some merchants (e.g., hotels, restaurants, gas stations, car rental agencies) request an authorization that is an estimated amount of the anticipated purchase instead of the full purchase amount. As a result, the reduction of your Available Balance may be less or greater than the final debit card transaction amount presented for payment. It is important to note that your Available Balance may change between the time a debit card transaction is authorized and when the debit card transaction is presented for payment.

Debit card authorizations will be reflected as pending transactions from the time we receive the authorization until the merchant presents the item for payment, a completion message is received, or three business days, whichever occurs first. If the debit card authorization has not been presented for payment after three business days, it will be removed from your pending transactions and your Available Balance will no longer be reduced by the authorization amount. Due to prior authorization (promise to pay), if the debit card transaction is presented for payment at a later date we will pay the item regardless of your Available Balance.

If any debit card transaction results in a negative Available Balance at the time it is presented for payment—even if your Available Balance was positive at the time the debit card transaction was authorized—you may be charged an Overdraft Paid Fee. For more information on Available Balance please see the section titled **INSUFFICIENT FUNDS AND OVERDRAFTS**.

Please know, it is your responsibility to ensure your account has a sufficient Available Balance to cover all transactions you conduct. We recommend keeping a record of your balance and deducting every transaction at the time you initiate it.

Account Access at Automated Teller Machines

You may use any of your Business Debit Cards (except as noted below in **Employee Debit Cards and ATM Cards**) to make the following transactions at ATMs:

- Make cash withdrawals from your checking and savings accounts. Cash denominations vary by ATM.
- Get cash advances from your credit card or line of credit account. (Refer to your cardmember agreement for any cash advance fees and finance charges that may apply.)
- Deposit funds to checking and savings accounts associated with your card. Deposit up to 30 checks and 50 bills in a single transaction. Instant availability for cash deposits if deposited before 6:00 p.m. local time in a non-envelope deposit ATM.
- Transfer funds from your account associated with your card.
- Make payments to credit card or line of credit accounts from a deposit account associated with your card.
- Check the current balance of your linked checking, savings, credit card and line of credit accounts.
- Request a statement showing your most recent deposit account transactions. (Refer to your account fee disclosures regarding any fees for purchasing statements at ATMs.)
- Change your ATM or debit card PIN.
- Make certain charitable contributions from a deposit account associated with your card.

Some of these transactions are not available at all ATMs.

Purchases at Merchants

You may use any of your Business Debit Cards (except as noted below in **Employee Debit Cards and ATM Cards**) to make purchases at Visa® merchants that accept debit cards. You may use any of your business debit cards to make purchases by entering your PIN at participating merchants. You may also get cash from a merchant, if the merchant permits. Purchases made with your card will result in debits to your “primary” checking account. These transactions will be itemized on your monthly statement, including the merchant name, location, the date of purchase and the amount of the purchase.

Employee Debit Cards and ATM Cards

Business debit cards issued to employees only allow ATM deposits at an automated teller machine. They do not allow ATM cash withdrawals. Employee ATM cards do not have purchase access at merchants.

Other Electronic Transactions

In addition to transactions initiated by using your business debit card, there are other electronic banking transactions that you may arrange through your account. These include:

- Telephone/personal computer activated transfers of funds from your accounts with us to other accounts with us or to third parties. These include but are not limited to transfers made by telephone, text, online and mobile banking.
- Automatic transfer of funds between checking and savings accounts.
- Automatic periodic payments to third parties or us from checking or savings accounts (for example, monthly mortgage payments, installment loan payments, insurance payments, utility payments).
- Direct deposit to checking or savings accounts (for example, payroll checks, social security payments).
- Electronic check conversions from your checking account using a blank, partial or fully completed personal check at merchant locations.
- Payments made to your account through your U.S. Bank Debit Card.
- You can also use any of your Business Debit Cards to obtain a cash advance from your checking account at any Visa® member bank anywhere in the world.

FEES

We will charge you fees for electronic fund transfers in accordance with the information found in our *Business Pricing Information* brochure. The fees may be changed at any time, subject to our giving you any notice required by law.

ATM Surcharges. When you use an ATM that is not identified as ours with the U.S. Bank name, and the ATM does not participate in the MoneyPass® Network, you may be charged a fee by the ATM operator or any network used to complete the transfer. To find MoneyPass ATM locations, please visit www.moneypass.com.

USING YOUR CARD FOR INTERNATIONAL TRANSACTIONS

You may use your business debit card for retail purchases with international merchants, for international cash advances and all transactions performed at international ATMs that bear any of the network logos found on your card. Refer to our *Business Pricing Information* brochure for fee information. (This brochure can be obtained by stopping into a U.S. Bank branch. We may block transactions in certain foreign countries. Call us at 800.673.3555 for more information.) Some merchant and ATM transactions, even if you and/or the merchant or ATM are located in the United States, are considered international transactions under the applicable network rules, in which case we will add International Processing Fees to those transactions. U.S. Bank does not control how these merchants, ATMs, and transactions are classified for this purpose. If

the transaction requires a currency conversion, the exchange rate in effect when processed may differ from the rate in effect on the date of the transaction or the date of the posting to your Account.

Transactions processed through the Visa® system will be converted according to the applicable rules established by Visa®. The foreign currency transaction will be converted to U.S. Dollars by multiplying the amount of the foreign currency times (a) a rate selected by Visa® from the range of rates available in wholesale currency markets for the applicable central processing date, which rate may vary from the rate Visa® itself receives, or (b) the government-mandated rate in effect for the applicable central processing date. For transactions processed through other networks, the international currency transaction will be converted by that network in accordance with their rules.

Additional fees may apply. If you need to contact us about your card while outside of the United States, call us collect at 503.401.9991.

BALANCE REQUIREMENTS

Transactions using your business debit card will be completed only if sufficient funds are available in the applicable account balance, overdraft protection or other linked credit facility to fully perform the transaction.

UNAUTHORIZED TRANSACTIONS AND LOST OR STOLEN CARDS AND SECURITY

You are solely responsible for maintaining the security of your business debit cards and PINs and their use by you and your employees and other agents. You shall be liable for the acts of your employees and agents related to your business debit cards, including business debit card applications and other service requests. If you provide another person with the means to perform transactions related to your accounts using your business debit card or PIN, any resulting transactions will be treated as if they were performed and authorized by you.

You are generally protected from all liability for unauthorized use of your business debit card.

The U.S. Bank Zero Liability policy is subject to certain conditions. If we determine that the unauthorized transaction was caused by your gross negligence or fraud, the U.S. Bank Zero Liability policy will not apply. You still need to report the loss or theft of these cards, PINs, and any unauthorized transactions to us as soon as you can. This is necessary so you can get any unauthorized transactions reversed, prevent further unauthorized transactions, and avoid liability for subsequent purchases we could have prevented had you given us notice.

You must report an unauthorized debit card transaction to us within a reasonable time, not to exceed 60 days, from the day we send or make your account statement available to you on which an unauthorized transaction is first reported. If you fail to give us notice of an unauthorized debit card transaction within 60 days of when we first deliver a statement to you that discloses that unauthorized transaction, you will be liable for all debit card transactions that occur after that 60-day period expires if we could have prevented such transaction had you reported it to us within the 60-day period.

Please be aware that consumer rights governed by the Electronic Fund Transfer Act do not apply to business accounts and we are not

liable to reimburse you for unauthorized or erroneous transactions that may occur on your business account via electronic fund transfer.

If you believe that an erroneous or unauthorized transaction has occurred using your business debit card, or if your card has been lost or stolen, or if you want to cancel a business debit card issued to you or your employee/agent, or if you want to change your PIN, you must immediately telephone us at:

I. INTRODUCTION

1. Definitions.

a. "Agent" means any director, officer, employee, representative, affiliate, third-party vendor or any other person or automation acting on behalf of the Customer with the actual, implied or apparent authority of Customer. Bank may rely on any grant of authority until it receives written notice of its revocation and is given a reasonable amount of time to act upon such notice.

b. "Bank" means U.S. Bank National Association and each subsidiary or affiliate of U.S. Bank that provides Services to Customer.

c. "Business Day" means any day on which a majority of Bank's offices are open to the public for substantially all banking functions. Saturdays, Sundays, federal or state holidays or any day recognized by a Federal Reserve Bank as a holiday shall not be considered a Business Day, even if Bank's offices are open.

d. "Customer" means the business entity, and any parent company, subsidiary or affiliate, for whom Bank provides a Service.

e. "Service" or "Services" means one or more global treasury management, foreign exchange, or money center and safekeeping services offered by Bank.

f. "Written," "writing" and other like terms mean, unless otherwise provided or required by context, both paper and electronic forms of communication such as emails, faxes, digital images and copies, electronic notices capable of being stored and printed, and similar electronic versions. To the extent permitted under applicable law or regulation, signatures may be made and delivered electronically, whether digitally or otherwise, which shall have the same legal validity and enforceability as manually executed signatures and are binding on the parties. The parties may rely on electronic forms of documents subject to any applicable law, regulation, or rule.

2. Other Agreements, Laws and Regulations. These terms and conditions and the Master Services Agreement (or existing Treasury Management Service Agreement or equivalent document executed by Customer) are collectively referred to herein as the "Agreement". The Services are provided to Customer subject to the following other documents, laws and regulations, which are hereby incorporated into and made part of this Agreement:

a. the setup materials, user guides, and any supplement thereto required by Bank to implement a specific Service (referred to in the Agreement as the "Implementation Documents");

b. the most current fee and availability schedule and other fee disclosures provided to Customer, including account statements;

c. the provisions of the then-current deposit account agreement and accompanying disclosures, which govern deposit accounts and other depository services;

d. the Uniform Commercial Code, as enacted in the State of Minnesota;

e. any applicable automated clearinghouse operating rules, including, without limitation, the National Automated Clearing House Association Operating Rules and Guidelines (the "NACHA Rules"), the Real-Time Payments Operating Rules, and the rules promulgated by the Electronic Check Clearing House Organization (the "ECCHO Rules") and The Clearing House; and

f. federal, state and local laws and regulations applicable to Bank or Customer, including, without limitation, Regulation CC promulgated by the Board of Governors of the Federal Reserve System, 12 CFR Section 229.1, et seq. ("Regulation CC"), all Operating Circulars promulgated by the Board of Governors of the Federal Reserve System, and the regulations overseen by the Office of Foreign Assets Control ("OFAC").

3. Change of Terms. Bank may change the terms of this Agreement at any time upon reasonable written notice to Customer or by any other method permitted by law. Customer's continued use of the Services after the effective date of any change to the terms shall be deemed Customer's consent to the revised terms. Any other variations to this Agreement must

be in writing and executed by Bank. In the event performance of the Services in accordance with the terms of this Agreement would result in violation of any present or future statute, regulation, government policy, or relevant clearing or central bank agreements or settlement systems to which Bank is subject, and which governs or affects the transactions contemplated by this Agreement, then this Agreement shall be deemed amended to the extent necessary to comply with such statute, regulation, policy, agreement or systems, and Bank shall incur no liability to Customer as a result of such violation or amendment. No course of dealing between Bank and Customer will constitute a modification of this Agreement or constitute an agreement between the Bank and Customer regardless of whatever practices and procedures Bank and Customer may use.

4. No Third-Party Beneficiaries/Third-Party Claims. Services provided by Bank are for the sole and exclusive benefit of Customer, and no other persons or organizations shall have any of the rights and remedies arising under this Agreement. Customer agrees to indemnify, defend and hold Bank harmless from and against any and all claims, demands, expenses, losses, liabilities and damages of third parties of any nature whatsoever, including, without limitation, reasonable attorney fees and court costs at trial or appeal arising directly or indirectly from any Service delivered to Customer pursuant to this Agreement.

5. Images. Bank may create a microfilm, optical disk, or other electronic image of the Agreement or Implementation Document. Bank may store the electronic image of such Agreement and/or Implementation Document in its electronic form and then destroy the paper original as part of Bank's normal business practices, with the electronic image deemed to be an original.

6. Foreign Account Tax Compliance Act. If a payment made by either party under this Agreement is or could become subject to the U.S. Federal withholding tax imposed by Sections 1471 through 1474 of the Internal Revenue Code of 1986, as amended ("FATCA"), then (i) each party shall provide to the other party such information, and shall disclose to the applicable governmental authorities such information, as may be required in order for such party to comply with all applicable requirements of FATCA and to determine that the other party has complied with FATCA, and (ii) a party that fails to comply with FATCA shall indemnify the other party for all costs, damages, and liabilities arising out of such party's failure to comply with FATCA. Customer is responsible for providing Bank with all necessary documentation to establish that payments to Customer are exempt from FATCA withholding.

7. Disclaimer of Warranties. BANK MAKES NO WARRANTIES, EXPRESS OR IMPLIED, IN LAW OR IN FACT, INCLUDING, WITHOUT LIMITATION, THE IMPLIED WARRANTIES OF FITNESS FOR A PARTICULAR PURPOSE AND OF MERCHANTABILITY, EITHER TO CUSTOMER OR TO ANY OTHER PARTY, WITH RESPECT TO THE SERVICES PROVIDED BY BANK OR ITS AGENTS OR WITH RESPECT TO SOFTWARE PRODUCTS PROVIDED OR MADE AVAILABLE TO THE CUSTOMER FOR ITS USE BY BANK IN CONNECTION WITH THIS AGREEMENT AND ANY SERVICE.

II. TERMS APPLICABLE TO ALL GLOBAL TREASURY MANAGEMENT, FOREIGN EXCHANGE AND MONEY CENTER AND SAFEKEEPING SERVICES

1. Services. Bank may provide Services that are not specifically included in the Services section of this Agreement. By accepting and using any Service, Customer agrees that the Service will be governed by this Agreement and any other conditions communicated to Customer by Bank. Certain Services included in this Agreement may not be available or may not be provided in certain market areas.

2. Proprietary Information. Customer acknowledges that this Agreement, all related documentation and computer programs and systems used in providing Services, and all information related thereto constitute proprietary property of Bank that is of great commercial value. Customer agrees that it shall not acquire any proprietary interest or rights therein as a result of its use of the Services and shall keep all such proprietary information strictly confidential.

3. Representations and Warranties. Customer and Bank each represent and warrant to the other, as of the date this Agreement is entered into and at the time any Service is used or performed, that: (a) it is validly existing and in good standing under the laws of the jurisdiction of its organization; (b) it has all requisite power and authority to execute and deliver, and to perform its obligations under, this Agreement and each Service used or performed by it; (c) this Agreement has been duly authorized and executed by it and constitutes its legal, valid and binding obligation; (d) any consent or authorization of any governmental authority or third party required to be obtained by it in connection with this Agreement or any Service used or performed by it has been obtained; and (e) the Services received are for business use only and are not primarily for personal, family or household use. In addition, Customer represents and warrants to Bank that this Agreement will not violate: (i) any law, rule, regulation, order, writ, judgment, injunction, decree or award binding on Customer; or (ii) the provisions of any agreement to which Customer is a party or is subject, or by which it, or its assets, is bound, or conflict with or constitute a default thereunder.

4. Financial Review. Bank's willingness to provide Services to Customer is dependent on the Customer's financial condition. Customer's financial condition is subject to review by Bank from time to time, and such reviews must be satisfactory to Bank in its sole discretion and opinion. Customer shall, upon request, provide to Bank any such information as Bank may require to perform any such review. Customer's failure to meet such standards or provide such information or assistance when requested shall constitute a breach of this Agreement and shall permit Bank to cease providing Services upon written notice to Customer.

5. Fees. Unless otherwise agreed to by Bank in writing, Customer shall pay Bank the fees, charges and assessments set forth for the Services provided in the most current fee schedules and other fee disclosures provided to Customer (including account statements), plus additional fees and expenses for extraordinary Services. The price schedule for each Service shall be deemed accepted by Customer upon provision of the Service to Customer. In addition, Customer shall pay Bank the amount of any taxes levied or leased on fees charged pursuant to this Agreement, including, without limitation, federal, state, or local privilege excise or sales taxes based on gross revenue, any taxes or amount in lieu thereof paid or payable by Bank, excluding Bank's income taxes and any assessments charged to Bank directly as a result of providing the Services. Bank may change the amount or type of service charges from time to time. Fees for Services used by Customer may be charged in full to Customer's account(s) or may be offset through account analysis by applying earnings credit to Customer's service charges to determine a single monthly net service charge. The applicable earnings credit rate is established by the Bank and will change from time to time without advance notice to Customer. Customer's net service charge could be zero if such earnings credit exceeds total charges in a given month, however excess earnings credits are not refundable as a payment and unused earnings credits shall be forfeited according to a schedule established by Bank or agreed to by the parties. If Customer's earnings credit is insufficient to offset the amount due hereunder, Customer agrees to pay such amount to Bank upon demand. If the earnings credit rate for Customer's account(s), or the index or other referenced rate upon which the earnings credit rate is based, is at any time less than zero percent, Customer agrees to pay all

amounts of the negative earnings credit or fees imposed by Bank as compensation for the negative earnings credit rate. Customer authorizes Bank to debit Customer's account(s) with Bank for any and all fees, expenses or other charges owed by Customer to Bank under this Agreement.

6. Deposit Accounts. Most Services require that Customer maintain one or more deposit accounts with Bank. All checks, wire transfers, ACH payments and other items deposited into such accounts are provisionally credited and taken subject to later verification by Bank and Bank's receipt of final settlement. Deposited items that are deposited and later returned unpaid will be charged against the account without prior notice. Customer agrees to pay Bank for any overdraft or overpayment in any of Customer's accounts. If the interest rate for any of Customer's deposit accounts, or the index or other referenced rate upon which the interest rate for such accounts is based, is at any time less than zero percent, Customer agrees to pay Bank all amounts of the negative interest or fees that Bank imposes as compensation for the less-than-zero interest rate. Customer authorizes Bank to charge any account Customer maintains with Bank for any amount remaining due under this Section.

7. Security Interest. Customer grants to Bank a consensual possessory security interest in Customer's deposit accounts maintained with Bank and the funds held therein to secure payment of all of Customer's obligations under this Agreement.

8. Accuracy and Timeliness of Information. Bank will use reasonable efforts to provide the information requested through the Services in a prompt fashion but shall not be liable for temporary failure to provide timely information. In such event, Customer shall be responsible for carrying out banking business through alternative delivery channels. Bank shall not be liable for any inaccurate or incomplete information with respect to transactions which have not been completely processed or posted to Bank's systems prior to being made available pursuant to the Services.

9. Authorized Signers and Users. Customer shall appoint certain Authorized Signer(s) in the Master Services Agreement or in such other format or document as may be agreed by Bank. Customer agrees that Authorized Signers shall be authorized to act on behalf of Customer in all actions taken under this Agreement and may enter into all transactions contemplated in this Agreement, including, without limitation, selecting Services for the benefit of Customer, appointing initial system administrator(s), and signing additional documentation that may be necessary to implement Services and giving instructions with regard to any Service, including, without limitation, wire transfers, ACH transfers and other electronic or paper transfers from or to any account Customer maintains with Bank. The Authorized Signer(s) or Customer's designated system administrator(s) shall appoint Agents to access or use the Services provided for the benefit of Customer ("Authorized Users"). Authorized Users may act on behalf of Customer for a particular Service in accordance with the relevant Implementation Documents or other document(s) establishing the Authorized Users' responsibilities or in accordance with the authority granted by Customer. Customer may revoke the authority of or change the Authorized Signers at any time upon prior written notice and execution of additional documentation required by Bank. Such change or revocation shall not be binding upon Bank until it has received the required written notice and has had a reasonable opportunity to act thereon. In any event, Bank may act on instructions that it believes in good faith were provided by an Authorized Signer or Authorized User, or anyone purporting to be an Authorized Signer or Authorized User.

10. Forms Approval and Service Implementation. Bank reserves the right to approve the form of Customer's checks, drafts, deposit slips and similar documentation. Prior to initiating a new account or Service, or at any other necessary time, Customer agrees to provide all information and conduct any test that Bank may reasonably request, including, without limitation, completing Implementation Documents and signature cards, providing corporate resolutions and other documents, and assessing test tapes and transmissions. Customer acknowledges that Services will not commence or continue until such time as an approved item or test is provided to Bank and determined by Bank to be satisfactory. Customer shall be responsible for initial product installation, whether or not Bank provides telephone or on-site installation support.

11. Security Procedures.

a. Introduction. Customer agrees that Bank may select, in its sole discretion, security procedures that must be used in connection with certain Service(s). Customer acknowledges and agrees that it has been informed of and understands Bank's security procedures, and that such security procedures are commercially reasonable. Customer agrees that its use of Bank's security procedures constitutes its agreement to such security procedures, regardless of whether Bank has communicated such security procedures to Customer. Customer represents and warrants that it will comply with Bank's security procedures. Customer agrees to be bound by any payment order, transaction or service change order that is acted upon by Bank in accordance with such security procedures. Customer understands that the security procedures are not intended for the purpose of detecting errors in the transmission or content of information controlled by Customer. If Customer selects certain security procedures to use in connection with a Service and those security procedures provide less protection against unauthorized transactions or activity than other security procedures offered by Bank in connection with such Service, the security procedures selected by Customer shall be deemed commercially reasonable to the same extent as the security procedures offered by Bank that provide greater protection. Customer acknowledges that, in order to meet the constantly evolving threat of account fraud, the Bank's security procedures also need to evolve over time. Bank reserves the right, and Customer agrees that Bank shall have the right, in its sole discretion, to issue new security procedures and/or to cancel or change any security procedures by giving verbal or written notice to Customer. The new or changed security procedures shall become effective upon notification unless Bank provides an effective date to Customer. Customer agrees that its use of such new or changed security procedures constitutes its agreement: (i) to use the new or changed security procedures, regardless of whether Bank has communicated the new or changed security procedures to Customer, and (ii) that such new or changed security procedures are commercially reasonable. Bank also reserves the right to periodically audit Customer's security procedures and information technology processes, and to mandate controls or suspend Services until Customer complies with such security procedures.

b. Access. Customer shall be solely responsible for designating authorized access to Services. Access to Services may be controlled through the use of user IDs, personal identification numbers, passwords, digital certificates/signatures, biometric authentication, private keys or other security devices ("Codes"). Customer is solely responsible for maintaining its own internal security and agrees to use the utmost care in selecting any company, individual or automation given access to one or more of the Services. Codes that are assigned to individual Authorized Users shall not be shared with any other person, including other Authorized Users and Customer shall not disclose any information regarding the Services that an unauthorized user would find helpful to obtain access to all or part of any Service. Customer assumes all risk of accidental disclosure or inadvertent use of any Codes, whether such disclosure or use arises out of Customer's negligent or deliberate acts or otherwise. If Customer or its Agents has reason to believe that any security procedures or Codes have or may become known by unauthorized persons (whether or not employed by Customer) or if Customer believes its network or computer systems have been compromised or its computers infected, Customer shall immediately notify Bank by telephone and confirm such verbal notification in writing to Bank within 24 hours. Bank will replace the security procedures and/or Codes in accordance with Bank's procedures. Customer shall be solely responsible for funds transfer instructions and other communications or transactions initiated before Bank received Customer's notice and had a reasonable time to act on such notice. Customer agrees to defend, indemnify and hold Bank harmless from and against any claims, losses, damages, costs, expenses, fines and other liabilities arising out of Customer's failure to maintain the security and confidentiality of the Codes or arising out of the unlawful use of any website or portal by Customer or any person or automation that obtains access to a website or portal using the Codes.

c. Confidentiality. Customer and Bank represent, warrant and mutually agree that all confidential information concerning the other party or parties that comes into its possession in connection with any of the Services will be maintained in strictest confidence and shall not be used or divulged to

any other party except as may be necessary or advisable for the due performance of any of the Services, as required by applicable law, or as otherwise agreed or consented to by the parties. Bank shall maintain physical, electronic, and procedural safeguards to keep Customer's confidential information secure. Customer's obligation to maintain the confidentiality of all security procedures shall survive the termination of any Service or this Agreement. Customer acknowledges that certain Services may involve the handling of confidential consumer information that may be subject to privacy laws and regulations, including unauthorized access or breach notification regulations. Customer agrees to notify Bank immediately if Customer sends or receives protected health information that requires the execution of a business associate agreement.

d. Verbal or Written Instructions. For some Services, Bank may choose to honor Customer's request to give Bank verbal or written instructions regarding the Services. Customer agrees that Bank may in good faith rely on such verbal or written instructions that purport to come from an authorized Agent of the Customer without independent verification by Bank.

e. Fraud prevention measures. Bank offers certain products, Services and security procedures, such as Positive Pay, account blocks or filters, and multi-factor authentication, that are designed to detect or deter fraud. Failure to use such products, Services or security procedures could substantially increase the likelihood of fraud. If Customer fails to implement any of these products, Services or security procedures, or if Customer fails to follow these or other precautions reasonable for its particular circumstances, Customer agrees that, except with respect to liability, loss or damage caused by Bank's own lack of good faith or failure to exercise ordinary care: (i) it will be precluded from asserting any claims against Bank for paying any unauthorized, altered, counterfeit or other fraudulent item that such product, Service, security procedure or precaution was designed to detect or deter; (ii) Bank will not be required to re-credit Customer's account or otherwise have any liability for paying such items; and (iii) Customer will pay all costs and expenses incurred by Bank for all efforts undertaken by Bank to recover any losses incurred by Customer.

f. Waiver of Security Procedures. Customer, after having been offered Bank's security procedures, may request that payment orders, transactions, or services orders be authenticated using a different security procedure. Bank, in its sole discretion, may elect to permit Customer to use such a security procedure. In such circumstances, Customer agrees that it shall be bound by any payment order, transaction, or service order authenticated by its selected security procedure whether or not such payment order, transaction, or service order is properly authorized.

12. Unsecured Electronic Transmissions and Instructions. Bank shall transmit to Customer information related to Services via secure electronic transmissions. If Customer elects to send or receive instructions or reports from Bank via unsecured electronic means, including, without limitation, facsimile transmission, voice mail, unsecured email, pager or other unsecured electronic or telephonic methods ("Electronic Transmission"), Customer acknowledges that such Electronic Transmissions are inherently insecure communication methods due to the possibility of error, delay and observation or receipt by unauthorized personnel. Bank may rely in good faith on Customer's instructions regarding how and to what number or email address Electronic Transmissions should be sent and may rely on any Electronic Transmission that it reasonably believes to have been initiated by the Customer. Should Customer elect to send or receive unsecured Electronic Transmissions to or from Bank, Customer assumes all risks, and Bank shall not be liable for any loss, that results from the nonreceipt, disclosure, alteration or unauthorized access of any such unsecured Electronic Transmission.

13. Account Blocks and Filters. ACH debit blocks and check blocks prevent ACH debits and checks from posting to Customer's account. ACH filters and check filters enable Customer to set various criteria to authorize certain transactions to post to Customer's account while excluding others. If an ACH debit or check filter is established by Customer, any ACH debit entry or check presented that does not specifically meet the criteria will be dishonored or sent back to the originator of the transaction. Customer acknowledges that the effectiveness of the filters is dependent on the accuracy and timeliness of the information provided by Customer. In addition, Customer acknowledges that payments to Bank and certain

Bank-approved vendors cannot be blocked and that certain ACH transactions such as returns, settlements or adjustments cannot be blocked per NACHA Rules. If Customer desires to modify a block or filter setting, Customer shall notify Bank at least 72 hours in advance of the changes taking effect.

14. Computer Equipment and Software. Many Services require the use of computer hardware and software or other equipment. Customer is responsible for maintaining its computer and equipment (including those provided by or through Bank for use with Services) in good working order. Customer shall ensure that computers and other equipment have the necessary compatibility and format to interface with Bank's systems, including, without limitation, the ability to support the Bank's security procedures. Customer agrees to install upgrades and other system enhancements within a reasonable time after being requested to do so by Bank. License agreements for necessary software shall either be embedded in the software or separately documented. Customer agrees to comply with all applicable software license agreements, whether or not such agreements have been executed by Customer. Customer has no rights or ownership in any software provided by or through Bank and shall not transfer, copy, alter, modify, reverse engineer, reproduce, or convey in any manner, in whole or in part, any such software. Customer shall return all software and user manuals associated with any software upon request. Bank makes no representations or warranties with respect to any equipment or software provided by Bank.

15. Transactions on Non-Business Days/Cutoff Times. Transactions, deposits, payment orders, entries or other requests by Customer received by Bank on a non-Business Day, after established cutoff deadlines, or during a maintenance window may be treated by Bank as received on the next Business Day or may not be processed at all. Bank may change any cutoff time or other deadline at any time. Bank will make a reasonable effort to notify Customer of any changes in advance.

16. Customer-Initiated Transactions and Instructions. Bank will honor Customer's transactions and instructions (including adjustments, amendments and cancellations) only when Customer has complied with this Agreement and related policies and procedures. Bank will be under no obligation to honor, either in whole or in part, and may, in its sole discretion, delay, suspend or reject any transaction or instruction that:

- a. exceeds Customer's collected or available funds on deposit with Bank;
- b. Bank has reason to believe may not be authorized by Customer;
- c. involves funds subject to a hold, dispute or legal process preventing their withdrawal;
- d. violates any provision of any applicable regulation of the Federal Reserve Bank or any other federal, state or local regulatory authority;
- e. requires Customer, at Bank's sole discretion, to complete an additional security procedure due to characteristics of such transaction or instruction before processing;
- f. requires Bank to complete regulatory or legal clearance requirements, such as OFAC screening; or
- g. Bank has reasonable cause not to honor, for the protection of either Bank or Customer.

17. Inconsistent Name and Account Number. If Customer or third party acting on Customer's instruction initiates a fund transfer instruction or payment order ("Payment Order") to Bank that describes the person to receive the proceeds of such Payment Order (the "Beneficiary"), the Beneficiary's bank, or an intermediary bank by name and an account or other identifying number, Bank and subsequent parties to the Payment Order, including the Beneficiary's bank, may rely on and act solely on the basis of such number, even though the name and number do not agree and even though Bank and subsequent parties know or have reason to know of the inconsistency. Customer's obligation to pay the amount of the Payment Order to Bank is not excused in such circumstances. With respect to incoming Payment Orders that do not include an account number recognizable to Bank, Bank may return the Payment Order to the sending financial institution without incurring any liability to Customer.

18. Intercompany Services/Authority to Transfer or Commingle Funds. In the event that Customer lists entities in an appendix to the

Master Services Agreement or in any other document, or otherwise requests Bank to provide Services to a parent company, subsidiary, affiliate, or other commonly owned company, Customer agrees that it shall be jointly and severally liable for such company's obligations under this Agreement. Customer hereby represents and warrants to Bank that any and all transfers and commingling of funds required or permitted by any Service or requested by Customer, and all other aspects of the performance hereby by Bank and Customer, have been duly authorized by all necessary parties, including, without limitation, the account holder of each account, and that Customer has obtained and shall maintain in its regular business records and make available to Bank upon reasonable demand, for a period of seven (7) years after termination of the Service, adequate documentary evidence of such authorization from the account holder of each account, executed by the duly authorized officer(s) of each such account holder in accordance with that account holder's bylaws and/or board resolutions. Customer further represents and warrants that each transfer or commingling of funds authorized hereunder is not in violation of any agreement, bylaw or board resolution of Customer or any of its affiliates or subsidiaries, nor is it in violation of any applicable federal, state, local law, regulation, of any decree, judgment, order of any judicial or administrative authority. Each representation and warranty contained herein shall be continuing and shall be deemed to be repeated upon Bank's effecting each transfer and commingling of funds authorized hereunder.

19. Customer Records. This Agreement and the performance of Services by Bank shall not relieve Customer of any obligation imposed by law, clearinghouse rules (including the NACHA Rules and ECCHO Rules), or by contract regarding the maintenance of records, or from employing adequate audit, accounting and review practices as are customarily followed by similar businesses. In addition, Customer shall retain and provide to Bank, upon request, all information necessary to remake or reconstruct any deposit, transmission, file or entry for thirty (30) days following receipt by Bank of the deposit, file, entry, transmission or other order affecting an account.

20. Account Communications and Review Period. Customer agrees to regularly and promptly review and verify all statements, reports, check payment records, wire transfer instructions, confirmations, adjustments, charges, and other transactions ("Account Communications"). Customer may receive or access Account Communications electronically, including without limitation, delivery by posting to a password-protected website or database. Customer acknowledges that any Account Communication provided by Bank through electronic delivery is deemed to constitute good and effective delivery when posted by Bank, regardless of whether Customer actually or timely receives or accesses such Account Communication. Unless a different review period is specified elsewhere in this Agreement, Customer shall, within a reasonable time, which in no event shall be greater than thirty (30) calendar days following the day Bank first mails, electronically transmits or otherwise makes data available to Customer ("Review Period"), notify Bank of any error or discrepancy between Customer's records and any Bank notice or statement, or any transaction or transfer Customer believes was not authorized. If Customer fails to notify Bank of such unauthorized transaction within the Review Period, Customer agrees that the failure to report any such errors or unauthorized transactions shall relieve Bank of any liability for the unreported erroneous or unauthorized transaction. In accordance with NACHA Rules, Customer must report an unauthorized ACH debit entry to the Customer's account by the established deadline on the Business Day following the settlement date of the unauthorized entry. Otherwise, Customer's sole recourse is to the originator of the transaction.

21. Monitoring and Recording Communications. Customer acknowledges and agrees that Bank, or anyone acting on Bank's behalf, may monitor and/or record any communication between Customer, or its Agent, and Bank, or anyone acting on Bank's behalf, for quality control, security and other purposes. Customer also acknowledges and agrees that this monitoring or recording may be done without any further notice to Customer or its Agent. The communication that may be monitored or recorded includes telephone calls, cellular or mobile phone calls, electronic mail messages, text messages, instant or live chat, or any other communications in any form.

22. Limitation of Bank's Liability for Services. Customer acknowledges that Bank's fees for Services are very small in relation to the amounts of transfers initiated through these Services and consequently Bank's willingness to provide such Services is based on the liability limitations contained in this Agreement. In addition to greater limitations on Bank's liability that may be provided elsewhere in this Agreement, Bank's liability related to any Service shall be limited exclusively to actual proven damages arising directly from its own gross negligence or willful misconduct. Bank will not, under any circumstances, be liable for any special, incidental, indirect, consequential, punitive or similar losses or damages, whether or not the likelihood of such losses or damages was known by either party at the time Customer first obtains Services from Bank or at the time any instruction or order is given to Bank pursuant to any Service, and whether such losses or damages arise from tort, contract, loss of investment opportunity, lost or reduced profits, or otherwise. Bank's maximum liability for any loss of interest shall be calculated using a rate equal to the average Federal Funds rate at the Federal Reserve Bank of New York for the period involved. Notwithstanding the foregoing, Bank shall not be liable for any losses or damages caused, in whole or in part, by the action or inaction of Customer, or any Agent or employee of Customer, whether or not such action or inaction constitutes negligence or a breach of this Agreement. Bank shall not be liable for any damage, cost, loss, liability or delay caused by a force majeure event, including but not limited to, accident, strike, labor dispute, fire, flood, war, riot, terrorist act, government restrictions, exchange or market rulings, market volatility, suspension of trading, equipment breakdown, electrical, telephone, Internet or mechanical failures, acts of nature, epidemic, any cause which is attributable to a third party, or any other cause or event that was beyond Bank's reasonable control whether or not reasonably foreseeable. Customer agrees that the fees charged for the performance of the Services shall be deemed to have been established in contemplation of these liability limitations.

23. Dispute Resolution.

a. Governing Law. Except as otherwise provided herein, this Agreement shall be governed by the laws of the State of Minnesota, without regard to conflicts of law principles.

b. Jury Trial Waiver. To the fullest extent permitted by law, Bank and Customer hereby agree to waive trial by jury in any judicial proceeding involving, directly or indirectly, any matter (whether in tort, contract or otherwise) in any way arising out of, related to or connected with these Services or this Agreement. Bank and Customer represent and warrant to each other that this jury trial waiver is knowingly, willingly and voluntarily given.

c. Jurisdiction and Venue. Customer consents to the jurisdiction of the courts of the State of Minnesota, waives any argument that such venue is inconvenient and agrees to bring litigation commenced in connection with this Agreement in either the District Court of Hennepin County or the United States District Court, District of Minnesota, Fourth Division.

d. Collection Costs. Should Bank have to undertake any action to recover any amount due under this Agreement for the Services, including, without limitation, fees, overdrafts or overpayment, Customer will be liable to Bank for the cost of such effort, plus reasonable attorney fees.

e. Adverse Claims. If Bank receives an adverse claim against any account, and Bank reasonably believes that it will not be protected if the claim is ignored, Customer agrees that Bank may place a hold on the affected account. Any such hold will remain in place only so long as reasonably necessary to resolve the claim or employ legal remedies to allow a court to decide such claim. Assuming compliance with this Section, Bank shall have no liability for dishonored transactions due to the hold, and Customer agrees to reimburse Bank all costs, including reasonable attorney fees, incurred due to such adverse claim.

24. Necessary Third-Party Service Providers.

a. Third-Party Networks. Some Services are provided by Bank through access to a third-party network. Such Services are dependent upon the availability of the third-party network on conditions acceptable to Bank. Bank reserves the right to discontinue the Service or provide the Service through an alternative third-party network and shall have no liability should such network become unavailable. Bank does not warrant and shall not

be responsible for Services received by Customer from any third-party network.

b. Third-Party Vendors. Customer agrees that Bank may, at its sole discretion and at any time without notice to Customer, engage third-party vendors to provide a Service, or portions thereof, to Customer, or to support Bank in its provision of a Service to Customer. Customer acknowledges that Bank's third-party vendors may perform certain functions offshore. Some Services and/or computer equipment and software are provided to Customer by a third-party vendor selected by Customer who is unaffiliated with Bank. In those cases, the third-party vendor is acting as Customer's Agent rather than an agent of Bank, and Customer agrees to be bound by such third party's acts or omissions. Bank does not warrant and shall not be responsible for Services provided by unaffiliated third-party vendors. Customer authorizes Bank to disclose to any third-party vendor of Customer or Bank information concerning Customer to the extent required to deliver the requested Service.

25. Notices. All written notices to Bank shall be delivered or mailed to the address designated by Bank. Notices, including but not limited to, Account Communications sent to Customer shall be delivered or mailed to Customer's current lead account address or other known address if deemed more appropriate by Bank under the circumstances. Notices may be delivered to some Customers in electronic format, including posting to Bank's website, delivery via facsimile to a number on file, or delivery to an electronic mail address on file or used by an Authorized Signer or Authorized User.

26. Severability. To the extent possible, each provision of this Agreement shall be interpreted in such manner as to be effective and valid under applicable law, but if any provision shall be held to be invalid, illegal or unenforceable, such provision shall be ineffective only to the extent of such invalidity, illegality or unenforceability, without rendering invalid, illegal or unenforceable the remainder of any such provision or the remaining provisions of this Agreement.

27. Waiver. A waiver by Bank or Customer of any term or provision shall not be construed as a waiver of such term or provision at any other time, or of any other term or provision. Bank's waiver of the enforcement of any of the terms of this Agreement with respect to any transaction or series of transactions will not affect Bank's right to enforce any of its rights with respect to other Customers or to enforce any of its rights with respect to later transactions with Customer.

28. Assignment. In addition to Section 24 above, Bank may at any time assign or delegate its rights and duties under this Agreement. Customer may not assign or transfer its rights or obligations hereunder to any other person or entity without Bank's written consent, which consent shall not be unreasonably withheld.

29. Termination. Any Services may be terminated by either party upon 30 days' prior written notice to the other. Bank may also terminate or suspend any Services immediately without notice to Customer if any of the following occurs: (a) Customer becomes insolvent or files, or has filed against it, any bankruptcy or other insolvency, reorganization, liquidation or dissolution proceeding of any kind; (b) a material adverse change occurs in Customer's business or financial condition; (c) Bank has reason to believe that Customer has engaged in fraudulent or illegal activity; (d) Customer fails to maintain balances in accounts sufficient to cover overdrafts; (e) Customer violates, or is in default under, the terms of this Agreement or any other agreement with Bank; (f) Customer fails to comply with security procedures or fails to provide information reasonably requested by Bank; (g) Bank determines it is impractical or illegal to provide any Services because of changes in laws, regulations or rules; (h) Bank, in good faith, is unable to satisfy itself that any Services have been properly authorized by Customer; or (i) Bank, in good faith, deems itself insecure. Notwithstanding any termination, the terms of this Agreement shall apply to all transactions which have been initiated prior to termination.

III. TERMS APPLICABLE TO ALL INTERNET-BASED SERVICES

1. Introduction. Bank offers a number of Services over the Internet. If requested by Customer and agreed to by Bank, Bank will grant Customer access to one or more of Bank's Internet Services in the manner established by Bank. Customer agrees that its use of Services from time to time offered by Bank via the Internet (collectively, the "Internet Services") shall be governed by:

- (i) this Section and all other relevant sections of this Agreement, including, without limitation, sections governing the specific Services that are offered online;
- (ii) the other agreements, laws and regulations described in Section I.2 of this Agreement; and
- (iii) the applicable Terms of Use, as defined in Section III.2 below.

2. Terms of Use. Bank may post terms or rules of use ("Terms of Use") governing Customer's use of the Internet Services on Bank's website(s) for accessing such Services. Such Terms of Use shall supplement and amend the terms set forth in this Section. In the event of a conflict between the Terms of Use and the rules set forth in this Agreement, the Terms of Use shall govern. Customer's initial use of an Internet Service shall constitute an acceptance of the Terms of Use posted on the website. Bank may change the Terms of Use for any Internet Service at any time by posting notice of such change via an alert or message on a broadcast or message page of the website ("Broadcast Message"). All changes shall have an effective date. Customer's use of the Internet Service after the effective date of any such change shall constitute an acceptance of the revised Terms of Use by Customer. Customer is responsible for establishing an internal procedure for reviewing the Broadcast Message page on a regular basis to obtain timely notice of changes to the Terms of Use. In the event that a specific Internet Service does not have Broadcast Message capability, Customer will be notified of any changes in accordance with Section II.25 hereof. Neither Bank nor Customer will contest the validity, enforceability, or admissibility of hard copy printouts of the Terms of Use for any website or notices of changes to such Terms of Use provided in accordance with this Section. Copies of such Terms of Use or notices, if introduced as evidence in tangible form in any judicial or administrative proceeding, will be admissible to the same extent and under the same conditions as other business records originated and maintained in documentary form.

3. Security Procedures. Customer agrees to use the Internet Services in accordance with the security procedures established by Bank. Bank reserves the right to reject any transaction or Service request that is not made in accordance with such procedures. Customer shall at all times use a Web browser that supports the level of encryption used by Bank as part of its security procedures. Due to emerging technologies and ensuing changes in security practices, Bank reserves the right to supplement or change its security procedures from time to time upon reasonable notice to Customer. Customer acknowledges and agrees that, notwithstanding anything to the contrary set forth in the Agreement, in matters of security, reasonable notice may be less than a day's notice or even, in some cases, notice after the fact. Customer is solely responsible for maintaining a secure work environment to ensure against the use of Internet Services by unauthorized individuals or unauthorized automated access. Security procedures to be followed by Customer include, without limitation, informing Authorized Users that any passwords should not be shared, securing physical access to the terminals used for Internet Services when an Authorized User has logged in to an application or system and, if applicable, identifying secure methods for controlling authorized automated access to an application or system.

4. System Administrator. Customer shall designate one or more System Administrator(s). The System Administrator shall be responsible for setting up Internet Services and for establishing internal security procedures related to such Internet Services, which may be made available through applications or systems offered by Bank, including, without limitation, accepting delivery of software, system-wide configuration of Bank accounts, appointing Authorized Users, establishing authority levels, authorization requirements and payment limits, and distributing and resetting IDs, passwords and other internal security devices related to the Internet Services. Customer represents and

warrants to Bank that any actions taken by the System Administrator in relation to the Internet Services including, without limitation, the appointment of Authorized Users and the access, automation and privileges granted to such Authorized Users, are duly authorized by Customer.

5. Other Customer Responsibilities.

a. Equipment and Software. Customer is responsible for obtaining (from Bank, in some instances), installing and maintaining the computer and communications equipment (including, without limitation, personal computers and modems), software, Web browsers, Internet access and communications services necessary to access and use the Internet Services in accordance with this Agreement.

b. Use of Internet Services. Customer shall use its access to Internet Services and websites operated by or on behalf of Bank only to conduct its business through or with Bank and agrees to limit access to those Agents who require access to Internet Services.

c. Antivirus Protection. Customer agrees to run antivirus software before transmitting data to or through any website. Customer may use any commercially available, industry recognized antivirus software of the type that detects and disinfects viruses automatically, without the need for the Customer to execute virus scanning for each file manually. Customer shall update its antivirus software on a regular basis and in no event less often than once every week.

d. Anti-malware Protection. Bank may offer complimentary anti-malware software for use with certain Services that is designed to detect, deter or destroy different types of malware. Failure to install anti-malware software offered by Bank could substantially increase the likelihood of fraud and other losses. If Customer fails to install software offered by Bank, Customer agrees that, except with respect to losses caused by Bank's own lack of good faith or failure to exercise ordinary care, it will be precluded from asserting claims against Bank for any losses caused by malware which such software would have detected, deterred or destroyed. Bank will not be required to re-credit Customer's account or otherwise have any liability for such losses.

e. Network Security. Customer agrees to install and utilize current industry-standard network security for its information technology systems that access Services via the Internet. Network security protection includes, but is not limited to, firewalls and intrusion detection systems. For certain Services, Bank may require Customer maintain specific network security protection in order to access the Services.

6. Disclaimer of Warranties. BANK PROVIDES ALL INTERNET SERVICES ON AN "AS IS," "AS AVAILABLE" BASIS AND MAKES NO REPRESENTATIONS OR WARRANTIES OF ANY KIND WITH RESPECT TO THE INTERNET SERVICES OR THE CONTENT OR SECURITY OF ANY WEBSITE. BANK DISCLAIMS ALL SUCH REPRESENTATIONS AND WARRANTIES, WHETHER EXPRESS, IMPLIED OR STATUTORY, INCLUDING, WITHOUT LIMITATION, ALL WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. WITHOUT LIMITING THE FOREGOING, BANK DOES NOT WARRANT THAT THE OPERATION OF ANY WEBSITE WILL BE UNINTERRUPTED OR ERROR-FREE. CUSTOMER IS RESPONSIBLE FOR TAKING APPROPRIATE PRECAUTIONS AGAINST DAMAGE TO ITS OPERATIONS WHICH COULD BE CAUSED BY INTERRUPTIONS OR MALFUNCTIONS OF ANY WEBSITE AND ASSUMES THE RISK OF SUCH OCCURRENCES.

IV. TERMS APPLICABLE TO SPECIFIC GLOBAL TREASURY MANAGEMENT SERVICES

The following are additional terms and conditions applicable to specific Treasury Management Services offered by Bank. Bank may change the number or type of Services offered at any time. Customer shall not be bound by the terms and conditions for the specific Services described in Sections IV, V and VI of this Agreement to the extent Customer is not using such Service(s).

A-1. EBILL SERVICE

eBill allows Customer's customers ("Payers") to make convenient payments to Customer through multiple channels, including, but not limited to, the Internet, an Interactive Voice Response (IVR) system, text message, chatbots or other forms of social media, or virtual assistants. In addition, Customer may distribute electronic invoices, bills or statements to Payers who can pay such invoices, bills or statements via multiple payment channels accessible through the eBill Service.

1. Internet.

a. "Customer Payment Site" means the interactive Internet payment site hosted by U.S. Bank National Association or its third-party vendor (collectively "Bank") where Payers may make payments to Customer over the Internet. Bank will configure, implement, host and support the Customer Payment Site. If Customer provides the content for the Customer Payment Site, Customer agrees to indemnify and hold Bank harmless for any content that violates applicable law or payment network rules. Upon request Bank will provide draft terms and conditions for Customer to provide to its customers on Customer Payment Site. Such terms and conditions are provided as is, without any representations or warranties. Customer shall be solely responsible for determining the suitability of such terms and conditions for Customer's use, as well as the final form and content of any terms and conditions it elects to post (if any).

b. Customer License. Bank shall have the right and license to use or sublicense Customer's name, trademarks, service marks, copyrights and logos and other textual information in connection with the Customer Payment Site solely for the purposes contemplated herein.

c. "Administrative Payment Center Website" means the interactive Internet site hosted by Bank where Customer may access reports, initiate payments on behalf of Payers, or initiate refunds. Bank will configure, implement, host and support the Administrative Payment Center Website. Customer shall be solely responsible for setting up Authorized Users, access entitlements and internal controls within the Administrative Payment Center Website.

d. Links. If applicable, Customer shall provide and maintain a secure link on its website to the Customer Payment Site. Customer shall be responsible for ensuring that the link to the Customer Payment Site takes Payer to the appropriate area within the Customer Payment Site. Customer shall be responsible for providing the agreed-upon data concerning Payer in a manner that meets Bank's encryption or security methods during the exchange. Customer and Bank agree to use industry-standard security procedures and technology to ensure the security of the Customer's website and the Customer Payment Site and to prevent data theft or unauthorized access.

e. Payer Authentication. Depending on the applicable payment processing channel, Customer shall be responsible for verifying the identity of each Payer prior to the time Payer is linked to the Customer Payment Site. Customer agrees that Payers shall not be granted access to the Customer Payment Site link until Customer has verified the identity of each Payer using a commercially reasonable fraud detection system. For every Payer that accesses the Customer Payment System, Bank relies on Customer to have completed such verification.

2. Compliance with laws and regulations. Customer agrees to comply with all applicable laws, rules and regulations, including without limitation, those issued by: (i) the National Automated Clearing House Association; (ii) the Real-Time Payments (RTP) System Operating Rules; (iii) the Zelle Network Participation Rules; (iv) any governmental entity, including (without limitation) the requirements contained in the Electronic Fund Transfer Act (including without limitation Section 1005.10, Preauthorized Drafts), the Americans with Disabilities Act, the Health Insurance

Portability and Accountability Act, Regulation E, the Electronic Signatures in Global and National Commerce Act, the Controlling the Assault of Non-Solicited Pornography And Marketing (CAN-SPAM) Act, and the Telephone Consumer Protection Act; and (vi) any other entity or association that issues or sponsors a payment device, including (without limitation) the requirements of the Payment Card Industry (PCI) Data Security Standard and any credit card association, including Visa and Mastercard. Customer further agrees to comply with all payment network regulations for ATM debit networks.

3. Payer Authentication / Authorization. For each payment channel, Bank shall authenticate a Payer's identity in the manner specified by Customer, and agreed to by Bank, in the Implementation Documents. Customer acknowledges and agrees that the authentication of the Payer's identity in such manner shall constitute a commercially reasonable fraud detection system and Bank shall have no liability for all payments so authenticated. Bank is not responsible for errors made by Payer or Customer and may rely on the information submitted or communicated by Payer or Customer. Customer agrees to defend, indemnify and hold Bank harmless from any claims related to Customer's or Payer's submission of inaccurate or incorrect information.

4. Payment Processing. Payments shall be processed in the manner mutually agreed to between Bank and Customer, which may include ACH debit entries, debit cards, credit cards or other payment processing methods. Customer shall at all times be considered the originator of Payer's payment. For ACH WEB debit transactions, upon Customer's request and if agreed to by Bank, Bank will validate receiving account and account status information by use of a commercially reasonable fraud detection system selected by Bank for the first use of new account information or of a change to existing account information. By requesting that Bank perform such validation, Customer consents to Bank disclosing any information necessary to perform such validation to Bank's third-party vendor. Depending on the applicable payment processing channel, payment processing may also be subject to the terms of any other agreement between Bank and Customer and between Customer and the payment transaction processor supported by Bank. Payments may be initiated through a number of channels including, but not limited to, the Customer Payment Site, IVR system text message, chatbots or other forms of social media, or virtual assistants. Bank will notify Customer of the payments that were initiated either through the Administrative Payment Center Website or by delivering a file in the manner set forth in the Implementation Documents. Customer acknowledges that all payments are subject to adjustment, return, reversal and/or chargeback in accordance with the rules governing the applicable payment processing channel. Customer agrees to be liable to Bank for any such adjustment, return, reversal or chargeback.

5. Recurring Payments. The eBill Service provides Customer with the ability to offer Payers the option of making fixed or variable recurring payments. If permitted by applicable regulations, Payers have the ability to initiate a payment that recurs on a fixed schedule selected by the Payer. Payers must be enrolled in eBill in order to initiate variable recurring payments.

6. Fees. In addition to Bank's standard fees, Customer agrees to pay additional fees and expenses for implementation of the eBill Service or other additional Services, if any, as may from time to time be disclosed to Customer by Bank. Customer also agrees to pay the applicable fees and expenses charged by the payment transaction processor supported by Bank, as set forth in Customer's agreement with such processor.

7. Convenience Fee, Service Fee and Surcharge

a. If permitted by applicable regulations, the eBill Service offers flexible fee or surcharge options that allow Customer or Bank to define and collect fees or surcharge to be charged to Payers in connection with the payment transaction. Payers are provided with the opportunity to stop the payment process if they do not wish to pay the fee.

b. If Customer desires to collect fees, Customer shall be responsible for ensuring that fee and surcharge assessments comply with the relevant laws, rules and regulations.

c. If agreed to by Bank and Customer, Bank may collect and retain the fees. In such case, Customer agrees that Bank may, in its sole discretion, set, adjust, manage and collect the fees as a means to wholly or partially

offset Bank fees that may otherwise have been incurred by Customer. Bank's willingness to collect fees shall be based on Customer's projected payment volume, average ticket, type of transactions, or other considerations such as changes to interchange fees and assessments. Bank may, in its sole discretion, establish or modify payment caps for sums paid by Payers. If the actual payment volume, average ticket, payment types or other considerations fail to meet Customer's stated projections or do not completely offset Bank fees, Customer agrees that Bank may, in its sole discretion, require Customer to wholly or partially reimburse Bank for any resulting shortfall in Bank fees.

8. Transaction Controls. Customer agrees to notify Bank of any material change or anticipated material change in daily dollar activity or type of transaction processing and obtain Bank's consent to such change. Bank may, in its sole discretion, immediately upon written notice to Customer, place a maximum dollar limit on the eBill transactions or require Customer to provide reasonable security for Bank's continued handling of such transactions.

9. Payer Communications. Customer agrees to obtain all consents necessary from Payers for Bank to process the Payers' data and communicate with Payers (e.g., confirmation Short Message Service ("SMS") or email) in the course of performing the eBill Service.

10. Customer Records. This Agreement and the performance of the eBill Service by Bank shall not relieve Customer of any obligation imposed by law, clearinghouse rules, payment card industry rules, or by contract regarding the maintenance of records, or from employing adequate audit, accounting and review practices as are customarily followed by similar businesses. In addition, Customer shall retain and provide to Bank, upon request, all information necessary to remake or reconstruct any transmission, file or entry for thirty (30) days following receipt by Bank of the deposit, file, entry, transmission or other order.

11. Bill Presentment and Distribution Service. If selected by Customer and agreed to by Bank, Customer may distribute invoices, statements, confirmations, regulatory notices, or other electronic communications to Payers via the eBill Distribution Service. Customer represents and warrants that it will not use or include any reference to untruncated credit card, social security, or bank account numbers, or Personal Health Information (as defined in the Health Insurance Portability and Accountability Act of 1996) in any electronic communications exchanged through the eBill Distribution Service. Customer shall indemnify and hold Bank harmless from and against any and all claims, demands, damages, losses, liabilities, penalties and expenses (including, without limitation, reasonable attorney fees and court costs at trial or on appeal) arising directly or indirectly from Customer's breach of the representation or warranty contained in this paragraph. Customer acknowledges and agrees that all electronic communications exchanged through the eBill Distribution Service may be received, processed, managed, and archived by third parties unaffiliated with Bank. Bank makes no representation or warranty, and assumes no responsibility, with respect to any actions or inactions of any unaffiliated third party in connection with Customer's use of the eBill Distribution Service.

12. Third-Party Vendor. Customer agrees that Bank may, at its sole discretion and at any time without notice to Customer, engage a third-party vendor to provide the eBill Service, or portions thereof, to Customer, or to support Bank in its provision of the eBill Service to Customer. Customer acknowledges that Bank's third-party vendor may perform certain functions offshore. Customer authorizes Bank to disclose to any third-party vendor information concerning Customer to the extent required to deliver the eBill Service.

13. Card Updater Service. Bank, or Bank's third-party vendor, participates in card updater programs offered by card issuers which enable Bank to update card information for Payers with expired or expiring cards. If selected by Customer and agreed to by Bank, Bank will provide Customer with updated card information for Payers when such information is available. Customer must be approved by card issuers, or by Bank in accordance with card issuer guidelines, prior to use. Such information will only be available for Payers who have elected recurring payments or for which another legitimate business need exists. Bank is not responsible for the accuracy or completeness of any information provided by the card issuers.

A-2. E-PAYMENT SERVICE

Customer may select the E-Payment Service that would allow its customers ("Payers") to make convenient payments to Customer through the Internet, an Integrated Voice Response (IVR) system or a 'live' call center. In addition, Customer may distribute electronic invoices, bills or statements to Payers who can pay such invoices, bills or statements via multiple payment channels accessible through the E-Payment Service. Customer agrees that this Service shall be governed by this Section and all other relevant sections of this Agreement. E-Payment Service is no longer available for new customers.

1. Internet.

a. "Customer Payment Site" means the interactive Internet payment site hosted by Bank where Payers may make payments to Customer over the Internet. Bank will configure, implement, host and support the Customer Payment Site. If Customer provides the content for the Customer Payment Site, Customer agrees to indemnify and hold Bank harmless for any content that violates applicable law or payment network rules.

b. Customer License. Bank shall have the right and license to use or sublicense Customer's name, trademarks, service marks, copyrights and logos and other textual information in connection with the Customer Payment Site solely for the purposes contemplated herein.

c. "Administrative Website" means the interactive Internet site hosted by Bank where Customer may access reports, initiate payments on behalf of Payers, or initiate refunds. Bank will configure, implement, host and support the Administrative Website. Customer shall be solely responsible for setting up Authorized Users, access entitlements and internal controls within the Administrative Website.

d. Links. Customer shall provide and maintain a secure link on its website to the Customer Payment Site. Customer shall be responsible for ensuring that the link to the Customer Payment Site takes Payer to the appropriate area within the Customer Payment Site. Customer shall be responsible for providing the agreed-upon data concerning Payer in a manner that meets Bank's encryption or security methods during the exchange. Customer and Bank agree to use industry-standard security procedures and technology to ensure the security of the Customer's website and the Customer Payment Site and to prevent data theft or unauthorized access.

e. Payer Authentication. Depending on the applicable payment processing channel, Customer shall be responsible for verifying the identity of each Payer prior to the time Payer is linked to the Customer Payment Site. Customer agrees that Payers shall not be granted access to the Customer Payment Site link until Customer has verified the identity of each Payer using a commercially reasonable fraud detection system. For every Payer that accesses the Customer Payment System, Bank may rely on Customer to have completed such verification.

2. Compliance with laws and regulations. Customer agrees to comply with all applicable laws, rules and regulations, including without limitation, those issued by: (i) the National Automated Clearing House Association; (ii) any governmental entity, including (without limitation) the requirements contained in the Electronic Fund Transfer Act, Regulation E, and the Electronic Signatures in Global and National Commerce Act; (iii) the American with Disabilities Act; and (iv) any other entity or association that issues or sponsors a payment device, including (without limitation) the requirements of the Payment Card Industry (PCI) Data Security Standard and any credit card association, including Visa and Mastercard. Customer further agrees to comply with all payment network regulations for ATM debit networks.

3. Interactive Voice Response (IVR). To make an automated payment via a touch-tone phone, Payers may access the IVR system by calling a toll-free number provided by Bank or Customer. Customer shall have previously submitted Payer registration data ("registration data") to Bank. In order to make a payment via the IVR system, Payers are required to input information that matches their user information submitted in the registration data. Unless otherwise agreed to in writing by Bank, the IVR system will no longer be available after October 31, 2022.

4. Call Center. If this option was selected by Customer, Payers may make a payment by phone by calling a 24-hour call center and speaking to 'live' Bank personnel. Bank shall authenticate a Payer's identity in the manner specified by Customer, and agreed to by Bank, in the Implementation Documents. Customer acknowledges and agrees that the authentication of the Payer's identity in such manner shall constitute a commercially reasonable fraud detection system and Bank shall have no liability for all payments so authenticated.

5. Payer Authorization. If payment is made via the Internet, Payer will be prompted to authorize the payment and print a confirmation once Payer has reviewed the payment data and input the information necessary to complete the payment. If payment is made via the IVR or call center, the confirmation number will be read to Payer. Bank is not responsible for the detection of errors made by Payer or Customer and may rely on the information submitted or communicated by Payer or Customer.

6. Payment Processing. Payments shall be processed in the manner mutually agreed to between Bank and Customer, which may include ACH debit entries, debit cards, credit cards or other payment processing methods. Customer shall at all times be considered the originator of Payer's payment. For ACH WEB debit transactions, upon Customer's request and if agreed to by Bank, Bank will validate receiving account and account status information by use of a commercially reasonable fraud detection system selected by Bank for the first use of new account information or of a change to existing account information. By requesting that Bank perform such validation, Customer consents to Bank disclosing any information necessary to perform such validation to Bank's third-party vendor. Depending on the applicable payment processing channel, payment processing may also be subject to the terms of any other agreement between Bank and Customer and between Customer and the payment transaction processor supported by Bank. Payments may be initiated through the Customer Payment Site, IVR system or Administrative Terminal. Bank will notify Customer of the payments that were initiated either through the Administrative Terminal or by delivering a file in the manner set forth in the Implementation Documents. Customer acknowledges that all payments are subject to adjustment, return, reversal and/or chargeback in accordance with the rules governing the applicable payment processing channel. Customer agrees to be liable to Bank for any such adjustment, return, reversal or chargeback.

7. Recurring Payments. The E-Payment Service provides Customer with the ability to offer Payers the option of making fixed or variable recurring payments. If permitted by applicable regulations, Payers have the ability to initiate a payment that recurs semi-weekly, weekly, semi-monthly, monthly or quarterly. Payers must be pre-registered in order to initiate variable recurring payments.

8. Fees. In addition to Bank's standard fees, Customer agrees to pay additional fees and expenses for implementation of the E-Payment Service or other additional Services, if any, as may from time to time be disclosed to Customer by Bank. Customer also agrees to pay the applicable fees and expenses charged by the payment transaction processor supported by Bank, as set forth in Customer's agreement with such processor.

9. Convenience Fee.

a. If permitted by applicable regulations, the E-Payment Service offers a flexible convenience fee option that allows Customer or Bank to define and collect a convenience fee to be charged to Payers in connection with the payment transaction. Payers are provided with the opportunity to stop the payment process if they do not wish to pay the convenience fee.

b. If Customer desires to collect the convenience fee, Customer shall be responsible for ensuring that convenience fee assessments comply with the relevant laws, rules and regulations.

c. If agreed to by Bank and Customer, Bank may collect and retain the convenience fee. Customer agrees that Bank may, in its sole discretion, set, adjust, manage and collect the convenience fee as a means to wholly or partially offset Bank fees that may otherwise have been incurred by Customer. Bank's willingness to collect the convenience fee shall be based on Customer's projected payment volume, average ticket, type of transactions, or other considerations such as changes to interchange fees

and assessments. Bank may, in its sole discretion, establish or modify payment caps for sums paid by Payers. If the actual payment volume, average ticket or other considerations fail to meet Customer's stated projections or do not completely offset Bank fees, Customer agrees that Bank may, in its sole discretion, require Customer to wholly or partially reimburse Bank for any resulting shortfall in Bank fees.

10. Transaction Controls. Customer agrees to notify Bank of any material change or anticipated material change in daily dollar activity or type of transaction processing and obtain Bank's consent to such change. Bank may, in its sole discretion, immediately upon written notice to Customer, place a maximum dollar limit on the E-Payment transactions or require Customer to provide reasonable security for Bank's continued handling of such transactions.

11. Payer Communications. Customer agrees to obtain all consents necessary from Payers for Bank to process the Payers' data and communicate with Payers (e.g., confirmation Short Message Service ("SMS") or email) in the course of performing the E-Payment Service. It is Customer's responsibility to ensure that its use of the E-Payment Service complies with end-user communication laws such as the Telephone Consumer Protection Act ("TCPA") and Controlling the Assault of Non-Solicited Pornography And Marketing ("CAN-SPAM") Act.

12. Transition to eBill Services. E-Payment Services are in the process of being phased out by Bank. Customer agrees to work in good-faith with Bank to complete the transition of Customer from E-Payment Services to eBill Services (Section IV.A-1) in accordance with the schedule agreed upon by Bank and Customer, but in any case by the final termination date (tentatively scheduled for December 31, 2022) as may later be established by Bank.

B. INFORMATION REPORTING AND TRANSACTION SERVICES

Information reporting and transaction Services may be provided by Bank to Customer through SinglePoint®, Global Trade or other applications or systems as may be introduced by Bank ("System(s)"). The System may also be used by Customer to automate many of the Services offered by Bank and also may provide access to other Bank systems that initiate transactions. Customer agrees that such use of the System shall be governed by this Section and all other relevant sections of this Agreement.

1. Introduction. If requested by Customer and agreed to by Bank, Bank will grant access to Bank's System(s) in the manner agreed to by Bank. Customer agrees to be bound by any terms of use and license agreements associated with these Systems.

2. Information Reporting. Bank is authorized to store, process, transmit and make available through Bank's agencies and Systems and through third-party data processing providers ("Providers") information regarding accounts designated by Customer. Bank or Providers will transmit to Customer information regarding its account(s) and/or other financial data through the System on a periodic basis. Customer may elect to receive data through one or more delivery mechanisms, including, without limitation, the Internet, Application Programming Interface (API), facsimile, CD-ROM or secure email or other data transmission options supported by Bank. Section II.12 shall apply in the event Customer elects to receive facsimile reports via an Electronic Transmission. Balance and related information for Customer's account(s) held at other financial institutions may be made available by these financial institutions or Providers that input information into Bank's System. Bank will use reasonable care in submitting data into the System but assumes no responsibility for the accuracy or timeliness of the account information and other financial data supplied by other financial institutions or Providers. Bank will make every reasonable effort to deliver information by the mutually agreed upon time but does not guarantee a specific delivery time. Accordingly, Bank's responsibility to Customer with respect to the delivery of information shall be to deliver such work as close to the agreed time as may be reasonably practicable.

3. Transaction Services. Customer may use SinglePoint®, Global Trade or other similar System to access treasury management or trade finance transaction Services offered by Bank for which Customer has enrolled. Depending on the type of Service or System feature offered by Bank and selected by Customer, access to the transaction Services may include, but are not limited to, ACH, cash vault, check payables, wire transfer payments, Real-Time Payments (RTP), Zelle disbursements, book transfers, positive pay services, investments, loan services, trust services, letter of credit services, adjustments, returns and exceptions management, receivables management, transaction research and annotation, and system administration. Customer agrees that use of the System for transaction Services shall be governed by this Section IV.B and all other sections of this Agreement that are applicable to the product or Service being accessed.

4. Security Procedures/System Administrator. Customer agrees to operate the System in accordance with Sections III.3 and III.4 of this Agreement.

5. Manuals. Bank will provide Customer with a manual in electronic format that will set forth the applicable System's policies and procedures with which Customer agrees to comply. Bank may, without prior notification, make amendments to any manual. Bank owns or has obtained all proprietary rights to the manuals and Customer agrees not to duplicate, distribute or otherwise copy Bank's manuals without Bank's prior written consent. Any manual will at all times remain the property of Bank and Bank reserves the right to request Customer to return all printed copies of such manual within thirty (30) days of termination of this Service.

6. Customer Responsibilities. Customer will purchase (from Bank, in some cases) and provide all equipment and software necessary to use the applicable System in accordance with this Agreement. Bank shall have no responsibility and makes no warranties for such equipment or software. Customer agrees to use the System solely to conduct its business with Bank and agrees to limit access to those Agents who require access to the System. Customer agrees that in addition to other limitations to Bank's

liability elsewhere in this Agreement, Bank shall not be liable for any loss or damage arising directly or indirectly from the following:

- a. any inaccuracy or incompleteness in the input of an order or instruction from the Customer;
- b. any failure by Customer to obtain a confirmation of an order or instruction; or
- c. any cancellation or attempted cancellation by Customer of an order or instruction.

7. International Information Reporting. If requested by Customer and agreed to by Bank, Bank may provide incoming international information reporting through Providers or via SWIFT, which shall be governed by the terms of this Section IV.B, other applicable sections of this Agreement, and other applicable agreements or law. Bank shall receive the international information reporting data through Providers or via SWIFT from Customer's account-servicing Bank ("Servicing Bank") and shall display such data to Customer using SinglePoint® or other similar System. If Customer makes a request to Bank for an off-schedule international information report from the Servicing Bank, Customer agrees that Bank shall have no liability if the Servicing Bank does not support the off-schedule request or does not respond to the request in a timely manner.

C. ELECTRONIC DEPOSIT SERVICES

Electronic Deposit Services provide Customer with the option of making electronic deposits using one or more products offered by Bank. Customer agrees that the Electronic Deposit Services shall be governed by this Section and other relevant sections of this Agreement.

1. Processing Options. Customer shall at all times maintain an account with Bank. Customer captures checks or check information received from its Payor Customers into Check Images and transmits the same to Bank for processing and collection. Bank will seek to collect such Check Images through the check collection system by presenting or exchanging Check Images, or using Check Images to create a Substitute Check, or a Photo-In-Lieu ("PIL") for collection.

2. Definitions.

a. "Check Image" means an electronic image of the front and back of an original paper check (including a paper Demand Draft), or an electronic image of a Substitute Check that is created by Customer, Bank or another bank or depository institution in the check collection system.

b. "Check Image Metadata" means information about the Check Image, as well as pointers to the actual image data (also known as image tags).

c. "Customer System" means the computer hardware and/or software and/or Web-based applications located at Customer's site that is used by Customer to prepare Electronic Deposits and to access the Electronic Deposit Services.

d. "Demand Draft" or "Remotely Created Check" means a paper item, other than a Substitute Check or PIL, which (i) is drawn on a Payor Customer account, (ii) does not bear the signature of the Payor Customer, and (iii) is authorized by the Payor Customer to be issued in the amount for which the item is drawn.

e. "Electronic Deposit" means electronic information (including Check Images, Check Image Metadata, MICR Data or dollar amount), obtained from capturing information from an original paper check and remittance documentation that is transmitted to Bank for deposit, processing and collection.

f. "Electronic Deposit Services" means an array of products and services that allow organizations that receive check payments and/or remittance payments to deposit all payments electronically at Bank, as further described in the applicable User Manual.

g. "Electronic Deposit System" means Bank's computer systems or databases that Customer may access in order to obtain Electronic Deposit Services.

h. "MICR Data" means information from the Magnetic Ink Character Recognition stylized printing on the bottom of checks comprising of routing, transit, account and check serial numbers.

i. "Payor Customers" means clients and/or customers of Customer that submit original paper checks or check information to Customer for payment obligations owed to Customer.

j. "Photo-In-Lieu" or "PIL" means a photocopy of the front of an original paper check created from a Check Image.

k. "Substitute Check" means a paper check document that meets the definition of a "substitute check" in the Check Collection for the 21st Century Act as implemented by Regulation CC of the Federal Reserve Board.

3. Customer Authorizations and Notifications. Customers shall adhere to any and all applicable laws, regulations and clearinghouse rules, including but not limited to, obtaining all necessary consents and authorizations from, and/or providing all necessary disclosures to its Payor Customers concerning the creation of Demand Drafts. Customer is solely responsible for ascertaining the content, method, and frequency of any required authorizations and notifications.

4. Determination of Items Eligible for Electronic Deposit.

Only a paper item, payable on demand, and drawn on or payable through or at an office of a bank, is eligible for deposit as a Check Image. Unless

permitted by applicable law, Customer represents and warrants to Bank that Customer shall not use the Electronic Deposit Services to transmit Electronically Created Items (as defined in Federal Reserve's Regulation CC). Without limiting the generality of the preceding sentence, the following items are not eligible for deposit as Check Images or an Electronic Deposit under the Electronic Deposit Services, and Customer must deposit these original paper items with Bank: (i) checks, including travelers checks, that are drawn on banks located outside of the United States; (ii) checks payable in a medium other than U.S. dollars; (iii) non-cash items (as defined under Section 229.2(u) of Federal Reserve's Regulation CC); (iv) promissory notes and similar obligations, such as savings bonds (unless explicitly permitted as an Electronic Deposit in the applicable User Manual); (v) checks issued by and drawn on Customer or an affiliate of Customer; and (vi) any other class of checks or drafts as identified by Bank to Customer from time to time in the User Manual.

5. Capture of Checks and Check Information.

a. For certain Electronic Deposit Services, Customer shall use scanning hardware and/or software that meets Bank's specifications. Depending on the type of Electronic Deposit Service or processing option(s) selected by Customer, in the event the condition of a paper check precludes a complete automated read, Customer shall be responsible for visually inspecting the Check Image. Customer shall be responsible for the repair of any MICR Data (if applicable) and for ensuring that any and all information on the front and back of a paper check is accurately captured and legible in the resulting Check Image, that the resulting Check Image contains an accurate record of all MICR Data required for a substitute check, and that the Check Image otherwise complies with any Check Image or MICR Data quality standards and guidelines that may be established by the American National Standards Institute (ANSI), ECCHO Rules, the Federal Reserve, other applicable regulatory agency or clearinghouse, or which Bank may provide to Customer from time to time. Customer acknowledges that current image technology may not capture all security features (e.g., watermarks) contained in the original paper checks and agrees to assume any and all losses resulting from claims based on security features that do not survive the image process.

b. Customer further acknowledges that Bank does not verify the accuracy, legibility or quality of the Check Image prior to processing an Electronic Deposit. Bank may, in its sole discretion, reject, repair, alter, amend, re-format or convert the Check Image Metadata or MICR Data submitted in an Electronic Deposit in accordance with general check collection practices and industry presentment standards, but Bank shall have no obligation to reject, repair, alter, amend, re-format or convert the Check Image Metadata or MICR Data. If Bank requires that Customer comply with certain formatting standards or other guidelines outlined in the applicable User Manual when submitting Electronic Deposits (for example, requiring use of the external processing code for identifying Remotely Created Checks) and Customer declines to implement, or comply with, such standards or guidelines, Customer acknowledges that Bank shall not be liable for any error or loss that results from Bank processing such Electronic Deposit or from Bank's re-formatting or conversion of the Electronic Deposit prior to processing.

c. Bank shall not be liable to Customer for failure to process an Electronic Deposit, or any error that results in processing or collecting an Electronic Deposit: (i) for which Customer has not provided Bank an accurate, complete and legible image of, or information from, the original paper check; (ii) for which Customer has failed to comply with formatting standards or other guidelines required by Bank; or (iii) which would violate this Agreement, the User Manual or any other agreement between Customer and Bank.

d. If Customer desires to make an Electronic Deposit outside of the contiguous United States, Customer shall seek Bank's prior approval. Bank may reject a deposit transaction or terminate the Electronic Deposit Services immediately if Customer fails to obtain Bank's prior approval. If Customer chooses to access Electronic Deposit Services from locations outside the contiguous United States, Customer is responsible for compliance with local laws. Customer agrees not to use the Electronic Deposit Services in any country that is subject to geographically-based restrictions imposed by OFAC.

6. Upload of Electronic Deposit to Bank.

a. Customer shall upload the Electronic Deposit transmission (containing one or more Electronic Deposits) to Bank prior to the daily cut-off time established by Bank from time to time for the receipt of Electronic Deposits. Any Electronic Deposit transmission received by Bank after its daily cut-off time shall be deemed to have been received by Bank at the opening of its next Business Day. Performance of the Electronic Deposit Services may be affected by external factors such as communication network latency. Customer is responsible for the transmission of the Electronic Deposit until the Electronic Deposit System reports a successful acknowledgement of receipt of the transmission.

b. An Electronic Deposit is received when the entire Electronic Deposit transmission in which that Electronic Deposit is contained is received by Bank in accordance with Section IV.C.6.a above. If only a portion of that Electronic Deposit transmission is received by Bank for any reason, including without limitation, a failure during the transmission to Bank, the Electronic Deposit transmission is deemed to have been not received by Bank with respect to any Electronic Deposit contained in that Electronic Deposit transmission (including any Check Image contained in the portion of that Electronic Deposit transmission that was received).

c. Bank will process Electronic Deposit transmission received from Customer either via Check Image or Substitute Check collection in accordance with the processing options selected by Customer. For each Check Image sent to Bank in an Electronic Deposit transmission, Customer agrees not to deposit or cash the original paper check nor re-deposit the Check Image at Bank or any other financial institution or other business.

d. A per item limit, dollar limit, or deposit limit may be established by Bank in its sole discretion and communicated to Customer. If any such limit is established, Bank shall have no obligation to process items or files in excess of the limit.

7. Funds Availability. Customer agrees that the transmission of Check Images using Electronic Deposit Services is not subject to the funds availability requirements of Regulation CC. Bank may, at any time, and in its sole discretion, provide a one-time notification to Customer if Bank intends to delay funds availability beyond ordinary Regulation CC funds availability time frames for items submitted by Customer using Electronic Deposit Services. In such instance, funds deposited will be available for withdrawal 3 business days after electronic transmission to Bank, subject to any holds placed on the account as permitted under this Agreement. Bank may, but is not required to, make such funds available sooner.

8. Collection of Check Images. Notwithstanding anything to the contrary in this Agreement, Bank may in its sole discretion determine the manner in which Bank will seek to collect a Check Image deposited by Customer for check collection. Without limiting the generality of the preceding sentence, Bank may, at its option: (i) present or transfer the Check Image to the paying bank, a Federal Reserve Bank, check clearinghouse, image share/exchange network, or other bank; (ii) create a Substitute Check or a PIL from the Check Image and collect such item, or (iii) request that Customer provide to Bank the original paper check from which the Check Image was created and then collect the original paper check. Depending on the collection method, the Check Image or physical item is subject to the rules of that clearinghouse, Federal Reserve Bank, or image share/exchange network or financial institution agreement.

9. Storage of Check Images. Bank shall store Check Images and other check information on the Electronic Deposit System in accordance with Bank's record retention schedule and shall make such information available to Customer according to the applicable User Manuals and fee schedule. If the Electronic Deposit Services are terminated, Customer may obtain Check Images or check information at the price outlined in the fee schedule.

10. Franking, Endorsement, Retention and Destruction of Original Paper Checks. Depending on the requirements outlined in the applicable User Manual, Bank may require, or strongly recommend, that Customer frank or mark the face of each original check after successfully capturing each Check Image to help ensure that an item is not deposited more than once either as a Check Image or physical check. Bank may require

Customer to restrictively endorse each check prior to capturing each Check Image. Customer shall destroy the original paper check based on guidelines identified in the applicable User Manual and shall employ commercially reasonable methods to securely store the original paper check until destruction. At Bank's request, Customer shall provide the original paper check to Bank if the original paper check has not been destroyed by Customer and Bank needs the original paper check to process a payment or resolve a dispute arising from an Electronic Deposit.

11. Representations and Warranties. With respect to each Check Image or Electronic Deposit that Customer transmits to Bank, Customer is deemed to make any representation or warranty that would have applied had Customer deposited the original paper check, including without limitation, that no party will receive a presentment or otherwise be charged for a paper check, whether presented in paper or electronic form, which Customer has converted to a Check Image such that such party is asked to make payment of a check which has already been paid. In addition Customer is deemed to make to Bank any representation, warranty or indemnification that Bank makes, under applicable law, clearinghouse rule, Federal Reserve Operating Circular, Federal Reserve Regulation (including without limitation Regulation CC), bi-lateral agreement or otherwise, to any person (including without limitation a collecting bank, a Federal Reserve Bank, a Receiving Depository Financial Institution, a paying bank, a returning bank, a depository bank in possession of the original paper check, the drawee, the drawer, any endorser, or any other transferee) when Bank transfers, presents or originates a Check Image, Substitute Check or PIL created from the Electronic Deposit.

12. Customer Responsibility. With respect to each Check Image, Electronic Deposit or other image that Customer transmits to Bank, Customer agrees to defend, indemnify and hold Bank harmless from and against any and all claims, demands, damages, losses, liabilities, penalties and expenses (including, without limitation, reasonable attorney fees and court costs at trial or on appeal) arising directly or indirectly: (a) from Customer's breach of a representation or warranty as set forth in Section IV.C.11 above; (b) as a result of any act or omission of Customer in the capturing, creation or transmission of the Check Image or Electronic Deposit, including without limitation, the encoding of the MICR Data from the original paper check; (c) from any duplicate, fraudulent or unauthorized check, Check Image, Substitute Check or PIL; (d) for any loss caused by Bank's acceptance of a Check Image, or creation of a Substitute Check or PIL instead of presentment of the original paper check; (e) out of Customer's deposit of an Electronically Created Item; or (f) from any other act or omission arising out of Bank's action or inaction taken pursuant to any request by Customer or pursuant to this Agreement. This Section IV.C.12 shall survive termination of the Agreement.

13. User Manual. Bank will provide Customer with one or more user guides ("User Manual") in paper or electronic format that will set forth the policies and procedures for the relevant Electronic Deposit Services product with which Customer agrees to comply. Bank may, without prior notification, make amendments to any User Manual. Bank may require that certain employees of Customer attend periodic training as a condition to using the Electronic Deposit Services.

14. Security Procedures and Right to Audit. Customer shall comply with all security procedures for the Electronic Deposit Services that are established by Bank or set forth in the applicable User Manual. Customer is solely responsible for (i) maintaining its own internal security procedures; (ii) safeguarding the security and confidentiality of any information that is obtained from Payor Customers' checks, Check Images and other information that is either printed from, stored on, or downloaded to, the Customer System, Electronic Deposit System, or Customer's other computer/data systems or portable media; and (iii) preventing errors or unauthorized access to the Customer System or the Electronic Deposit System. Bank reserves the right to periodically audit Customer's security procedures and information technology processes and to mandate controls.

15. Mobile Remote Deposit Services ("Mobile Services"). Depending on the type of Electronic Deposit Service selected by Customer, Mobile Services is an optional add-on service that will allow Customer to make remote check deposits and obtain check deposit history made through the Mobile Services using a supported mobile device. If Customer selects

Mobile Services, Customer will need to download and install a Mobile Service application on compatible and supported mobile phones, tablets or other devices (collectively, "Devices").

a. Description of Mobile Services. Mobile Services allow Customer to use a Device to take photographs of the front and back of the check and to transmit the Check Image to Bank in a secure data encrypted format using Customer's mobile service provider's cellular network or the Internet (collectively, "Network"). Certain Mobile Services may allow Customer to use a Device to enter remittance data and to take photographs of the front and back of remittance and general documents associated with the Check Image for reporting and research purposes.

b. Use of Mobile Services. Customer agrees to use Mobile Services in accordance with this Agreement, other user requirements provided in the User Manual and the downloaded mobile application. Bank reserves the right to modify the scope of Mobile Services at any time or change or upgrade Mobile Services from time to time, including the right to cease offering the Service on a previously supported Device. Bank also reserves the right to refuse any Electronic Deposit requested through the Service because a Check Image fails image quality standards, is detected as a duplicate item, or for any other reason in Bank's sole discretion. Customer understands and agrees that Mobile Services may not be accessible at all times due to Network connectivity or may have limited utility over some Networks, such as while roaming. Customer acknowledges and agrees that Bank may use geolocation technology to track that Mobile Services activity occurs within the contiguous United States.

c. Software. Customer agrees not to use Mobile Services or the content or information delivered through Mobile Services in any way that would infringe upon any third-party copyright, patent, trademark, trade secret, or other proprietary rights or rights of publicity or privacy, including any rights in the Mobile Services software. In the event Mobile Services is terminated or Customer's software license is revoked for any reason, Customer agrees to promptly delete the Mobile Services application from its Devices.

d. Service Limitations.

- i. Neither Bank nor Customer's mobile service providers can always foresee or anticipate technical or other difficulties related to Mobile Services, which may result in loss of data, personalization settings or other interruptions. Bank assumes no responsibility for the timeliness of any Mobile Services transmissions or communications, or the loss or failure to store any user data, communications or personalization settings in connection with a Device and Customer's use of Mobile Services.
- ii. Bank shall not be responsible for the operation, security, functionality or availability of any Device or Network that Customer utilizes to access Mobile Services. Transmission of a Check Image shall not be deemed received unless the Device reports a successful acknowledgement of receipt of the transmission. Customer agrees to exercise caution when utilizing Mobile Services on Devices and to train its Authorized Users to exercise good judgment and discretion when accessing or transmitting information.
- iii. Information about activity is synchronized between the Mobile Services software and Bank's Electronic Deposit System, however, deposit information available via the Mobile Services application may differ from the information that is available directly through the Electronic Deposit System. Information and features available directly through the Electronic Deposit System may not be available via the Mobile Services application and may be described using different terminology. The method of entering information via the Mobile Services application may also differ from the method of entering instructions through the Electronic Deposit System. Customer agrees that Bank shall not be liable for any errors or delays in the content as a result of Customer's use of the Mobile Services software.
- iv. Customer acknowledges that its mobile service carrier or provider may provide for fees, limitations and restrictions such as data usage charges or data throttling which may have an impact on Customer's

use of or interaction with Mobile Services. Customer agrees to be solely responsible for all such fees, limitations and restrictions.

e. Security.

- i. If Customer permits its employees or agents to use their own personal mobile devices to access Mobile Services, Customer assumes any and all risks associated with the use of personal mobile devices, including but not limited to, any risk that compromises the integrity of Customer's corporate network or sensitive business data. Customer is solely responsible for implementing policies that will help mitigate the risk of allowing employees to use personally-owned mobile devices, which may include but are not limited to, requiring that Devices are configured and managed with information assurance controls commensurate with the sensitivity of the underlying data and employing Mobile Device Management (MDM) software or other software that secures, monitors, manages and supports mobile devices deployed across operators, service providers and enterprises.
- ii. Customer shall ensure that its employees or agents exercise appropriate precautions surrounding the use and safeguarding of the Devices at all times. Customer agrees not to leave Devices unattended when logged into Mobile Services and to log off immediately at the completion of each access. Customer agrees that either a username and password or biometric verification are the agreed-upon security procedures and that such security procedures are commercially reasonable. If these security procedures are used to access Mobile Services, Customer agrees that any transactions using Mobile Services are hereby authorized. If Customer permits other persons to use a Device, login information or any other means to access Mobile Services, Customer will be responsible for the resulting transactions, and Bank shall have no liability for any damages Customer may incur.
- iii. Devices with internet capabilities are susceptible to viruses. Customer is responsible for ensuring that each Device is protected from and free from viruses, malicious software ("malware") and other harmful components which could result in damage to programs, files, or the Device, or could result in information being intercepted by a third party. Bank shall have no liability for any damages which may result from such viruses, malware or other harmful components.

D. ACH SERVICES

1. Introduction. If requested by Customer and agreed to by Bank, Customer or its Agent may initiate credit or debit Automated Clearing House ("ACH") transactions ("Entries") for payments ("Credit Entries") and/or collections ("Debit Entries") on Business Days to its accounts or the accounts of others ("Receivers") in accordance with Bank's security procedures and this Agreement. Bank will act as an Originating Depository Financial Institution ("ODFI") with respect to such Entries. Bank may process Entries directly, through one or more clearinghouses, or through the mechanism selected by Bank. Customer's rights and obligations with respect to such Entries are governed by applicable law and the NACHA Rules, as amended from time to time. Customer acknowledges that it shall be bound by the then-current version of the NACHA Rules and agrees not to initiate any Entry in violation of the NACHA Rules or applicable federal, state or international law, regulation or clearinghouse rules, including, without limitation, Regulation E of the Board of Governors of the Federal Reserve System, regulations promulgated by the Office of Foreign Assets Control, FinCEN, rules governing the Canadian, Mexican and European payments systems and Operating Circular 4 of the Federal Reserve Bank (collectively referred to herein as the "Rules"). Customer acknowledges and agrees that Bank shall have the right to examine Customer's books, records and systems to ensure Customer's compliance with the Rules and this Section IV.D and that Bank shall further have the right to suspend Services if Bank determines, in its sole and absolute discretion, that Customer is not complying with the Rules and/or this Section IV.D. Customer acknowledges that a copy of the NACHA Rules is available through NACHA at current NACHA prices. Bank shall have the right, in its sole discretion, to terminate or suspend ACH Services immediately if Bank is legally or contractually required to place a hold on funds or a portion of the funds in Customer's account(s). Bank may also, in its sole discretion, delay, suspend or reject an ACH file or Entry if the Bank has a reasonable basis to suspect the ACH file or Entry may be unauthorized or fraudulent. Capitalized terms not otherwise defined in this Agreement shall have the meanings ascribed to them in the NACHA Rules.

2. Entry Origination/Processing Dates/Deadlines. Customer may initiate Entries in the manner and format agreed to by Bank. ACH files transmitted to Bank shall be in an unbalanced file format unless otherwise agreed to by Bank. Bank has the right to restrict the standard entry class ("SEC") codes utilized by Customer. If notified by Bank of such restriction, Customer must cease use of the SEC code and the underlying transaction type. Customer agrees that all Entries (regardless of SEC Code) that involve the storage, exchange or transmission of banking information via unsecured electronic networks shall be encrypted or transmitted via a secure session, using a commercially reasonable security technology that complies with regulatory guidelines. Bank will establish a deadline for the receipt of Entries from Customer ("Deadline"). Bank may establish different Deadlines for Entries depending on the method of delivery employed by Customer and all such Deadlines are subject to change. Bank must receive Customer's Entries at or prior to the Deadline for the Entries to be processed on the Business Day of receipt. Entries received after the Deadline, Entries that contain an Effective Entry Date that is invalid or stale, or Entries that are ineligible for Same Day ACH, will be processed on the next Deadline, which may be the next Business Day. Entries with settlement dates of more than thirty (30) calendar days from receipt will not be processed unless prior arrangements have been made. If Customer has opted-in for Same Day ACH, Customer acknowledges that any Entry using the current day's date as the Effective Entry Date that is submitted to the ACH Operator prior to the Deadline shall carry the Same Day ACH fee. If Customer has not opted-in for Same Day ACH and submits an Entry prior to the Deadline using the current day's date as the Effective Entry Date, Customer acknowledges that such Entry shall be processed on the next Business Day.

3. Content and Secondary Authorization. In submitting any Entry, Customer shall be responsible for providing all information required by Bank. Customer bears sole and exclusive responsibility to verify that the information set forth in Entries submitted to Bank is authentic, accurate and conforms to the Rules. The Services hereunder are only designed to respond to information provided by Customer. Accordingly, any inaccuracy in any information provided by Customer may result in unintended processing by Bank. Bank bears no responsibility for detecting

or reporting any error in data supplied by Customer and shall not be liable to Customer for any information provided by Customer with respect to an Entry which is inaccurate, incomplete or otherwise incorrect. Bank strongly recommends that Customer utilize a second individual to review and approve ACH files prior to submission to Bank. Customer acknowledges and agrees that such a security procedure is commercially reasonable and that Customer's failure to use this procedure substantially increases Customer's risk of an unauthorized ACH file.

4. Entry Limits and Payment. Customer agrees to comply with any applicable per transaction or aggregate Entry limits established by the Rules. Customer shall at all times maintain a settlement account with Bank for the purpose of funding Customer's Entries ("Account"). The total dollar amount of Entries initiated by Customer through Bank under all ACH Services and pending on a given day shall not exceed the lesser of collected or available balances in the Account or an exposure limit should one be established by Bank ("Exposure Limit"). Establishment of an Exposure Limit should not be interpreted or construed by Customer as a commitment or agreement to provide any credit or loans to a Customer and is subject to modification or termination at any time by Bank. Customer shall pay Bank for all Entries and authorizes Bank to charge its Account or any other account with Bank in the amount of such Entries. Bank shall have the right in its sole discretion to reject any or all Entries initiated by Customer without notice if Bank has reason to believe that there will be insufficient available funds on the relevant settlement date, even if Bank may have previously accepted Entries for processing with insufficient available funds in the Account. Customer will receive funds for any Debit Entry on the ACH settlement date. Bank shall credit the Account in any amount payable to the Customer, subject to Bank's right to make adjustments in accordance with this Agreement. Bank may establish, monitor and periodically review Customer's Exposure Limit and Customer's compliance thereof, and may, in Bank's sole discretion, cease processing Entries based on such review.

5. Prenotification. To the extent permitted by the Rules, Customer may elect to send a prenotification that it intends to initiate an Entry to a particular account in accordance with the procedures set forth in the Rules or by Bank. The prenotification can be returned or result in a Notification of Change ("NOC"). If the prenotification is returned, Customer shall research the problem and make any necessary corrections before transmitting another Entry. If the prenotification results in a NOC, Customer shall make the required change prior to initiating another Entry or issue a Refused NOC. Bank offers an optional Service that allows Bank to track Customer's NOC on Customer's behalf. If Customer selects this option, Bank shall only manage the changes to the routing numbers, account numbers and transaction codes.

6. Notification of Change ("NOC"). A NOC is created by the Receiving Depository Financial Institution ("RDFI") to notify Customer (via Bank) that previously valid information contained in a posted Entry is outdated, or information contained in a prenotification or live transaction is erroneous or improperly formatted and should be corrected. Bank offers NOC Manager, which is a Service that allows Bank to track Customer's NOC on Customer's behalf. NOC Manager only manages the changes to routing numbers, account numbers and transaction codes. Bank, in its sole discretion, may require that Customer enroll in NOC Manager as part of ACH Services provided to Customer.

7. Data Breach Notification. Customer may have gathered personal or financial information of its customers for the purpose of initiating ACH transactions. Such information may include, without limitation, the customer's bank account number together with the bank routing number, or the customer's name together with the customer's social security number or tax identification number. Customer agrees to immediately report to Bank any loss, theft or unauthorized access of such information ("data breach") by or from Customer, its Agent, or third-party service provider, if circumstances indicate that the misuse of such information has occurred or is reasonably possible. Customer acknowledges that Bank may have an obligation to report any data breaches to NACHA and other affected parties, and agrees to establish appropriate procedures to prevent, detect, investigate and report data breaches. If applicable to Customer, Customer agrees to render electronically stored account numbers used in the initiation of Entries unreadable in accordance with the requirements and effective dates specified by NACHA.

8. ACH Secured Funds Entries. Bank may, at any time, and in its sole discretion, require Customer to prefund some or all Credit Entries that Customer desires to initiate. Customer acknowledges and agrees that such funds are held solely for the benefit of Bank and that Customer will not be entitled to earn any interest thereon. Upon initiation of such Credit Entries, Bank is authorized to immediately charge the Account (in the total amount of such Entries). If ACH Secured Funds is used to initiate Debit Entries, funds will be credited to the Account on the settlement date of the transaction. However, such funds shall not be available for withdrawal from the Account for two Business Days, or such other period as determined by Bank, after the settlement date.

9. File Confirmation System. Customer shall at all times comply with applicable file confirmation procedures and any security procedures established by Bank. Such procedures are solely for the purpose of verifying the origination of Entries by Customer or Bank's receipt of the ACH file and/or batch (but not for errors in transmission or content).

a. Control Totals. If Customer elects to provide Bank with the total dollar value of Entries and any other necessary information ("Control Totals"), Customer must telephone Bank's Interactive Voice Response system or input Control Totals through SinglePoint each time it originates Entries. After Bank receives Customer's ACH file, Bank will compare the information in the ACH file to the Control Totals. If the information matches the Control Totals, Bank will process the ACH file. Bank will notify Customer if the Control Totals do not match the information in the ACH file, or if Bank receives an ACH file without receiving Control Totals or vice versa. Bank will not process an ACH file unless it receives conforming Control Totals before established Deadlines.

b. Confirmation of Receipt. If Customer elects not to provide Bank with Control Totals but elects to receive a confirmation report or file, Bank shall provide Customer with a confirmation that Bank received Customer's ACH file and/or batch. After Customer receives the confirmation report or file, Customer will compare the confirmation information to Customer's ACH transmission information. If the information does not match, Customer shall notify Bank before Bank's established deadline, failing which, Bank shall process Customer's ACH file and/or batch. Customer acknowledges that the confirmation report or file is for the sole purpose of verifying Bank's receipt of the file and does not signify any validation of data. Customer bears sole responsibility for any inaccurate or incomplete information provided to Bank if Customer fails to notify Bank prior to Bank's processing of Customer's file.

10. Rejected and Returned Entries, Unauthorized Entries. Bank may reject any Entry that is not initiated in accordance with this Agreement. In the event that an Entry is rejected, or returned by an ACH processor, for any reason whatsoever, it shall be Customer's responsibility to reinitiate the Entry. Bank will give Customer or its designated Agent notice of any rejected or returned Entry in the manner agreed to by the parties. Bank is authorized to debit/credit the Account for Entries that are returned to Bank. Unless the return is caused by Bank's failure to properly execute an Entry, Bank has no obligation to pay Customer interest on the amount of any returned Entry debited from the Account. A Receiver may, in some cases, have the right to have an unauthorized or erroneous Debit Entry credited to its account. Customer agrees that Bank may deduct the amount owing to the Receiver from Customer's Account upon Bank's receipt of proper notice from the Receiver's bank. Bank may charge back against Customer any Debit Entry that is returned or reversed by the RDFI. Bank may, in its sole discretion, suspend Customer's use of ACH Services due to excessive return activity.

11. ACH Redeposit Service. If requested by Customer and agreed to by Bank, Bank will reinitiate (maximum of two times) each Debit Entry returned for insufficient or uncollected funds.

12. Amendment of Entries. Customer does not have the right to delete, reverse or amend any Entry (each, an "Adjustment Request") after it has been received by Bank. If Customer sends Bank an Adjustment Request via internet, secure email, or fax in accordance with the terms of this Agreement, Bank will make reasonable efforts to act on the Adjustment Request. All Adjustment Requests must be received by Bank prior to the established deadlines, and even if the Adjustment Request is made in a timely manner, Customer acknowledges that an Adjustment Request may

prove unsuccessful (for example, if it is returned by the RDFI for non-sufficient funds). Customer agrees to indemnify Bank in connection with any Adjustment Request in accordance with applicable law.

a. Internet Option. If Customer has selected the Internet Option, Customer may use SinglePoint® to transmit information to Bank for the purpose of amending ACH files. Customer agrees to comply with any applicable software agreement, user guide and any established security procedures.

b. Secure Email Option. If Customer has selected the Secure Email Option, Customer may send an Adjustment Request to a designated shared mailbox at Bank.

c. Fax Option. If Customer has selected the Fax Option, Customer may transmit an Adjustment Request to Bank via facsimile to a designated facsimile number. Customer acknowledges that the Internet and Secure Email Options are substantially more secure than the Fax Option. Customer agrees to be bound by any instructions submitted via the Fax Option, whether or not authorized, issued in its name and accepted by Bank in accordance with the agreed procedures.

13. Customer Representations/Indemnity. Customer represents and warrants to Bank that each Entry: (i) complies with the terms of this Agreement and the Rules; (ii) does not breach any warranty of Customer or Bank contained in this Agreement and the Rules; (iii) complies with applicable state, federal and international laws and rules, including, without limitation, the Electronic Funds Transfer Act, Regulation E and regulations overseen by the Office of Foreign Assets Control; (iv) is accurate, timely, and authorized; and (v) that any Debit Entry is for a sum that on its settlement date is due and owing from the Receiver to Customer or is a correction of a previously transmitted erroneous Credit Entry. For all WEB Debit transactions, Customer further represents and warrants that it will validate account information by use of a commercially reasonable fraud detection system (i) for the first use of new account information; and (ii) when the Receiver makes a change to its account. With respect to each ACH Entry (regardless of SEC Code), Customer is deemed to make to Bank any representation or warranty that Bank makes, under applicable law and the Rules to any person, RDFI, or any other transferee. Receiver authorizations shall expressly authorize Bank to transmit corrective entries to the Receiver's accounts to correct a prior Entry and shall authorize Customer to release to Bank all information concerning its Receivers that is required by Bank to recover such Entries. Customer shall immediately cease initiating Entries upon receiving actual or constructive notice of the termination or revocation of the Receiver's authorization. Customer will retain each authorization received by Customer for such period of time as may be required by the Rules or applicable law and shall provide Bank with copies of such authorizations upon request. Customer will indemnify, defend and hold Bank harmless from and against any and all claims, demands, expenses, losses, liabilities, and damages, including without limitation, NACHA fines, reasonable attorney fees and court costs at trial or on appeal that arise directly or indirectly out of any Entry initiated by Customer in violation of this Agreement and the Rules.

14. Re-presented Check Entries. NACHA Rules allow Customer to initiate an Entry to collect certain checks that have been returned unpaid for insufficient or uncollected funds ("RCK Entry"). In the event that Customer initiates an RCK Entry to Bank for check collection purposes, Customer agrees that such RCK Entry will comply with all provisions of this Agreement and applicable Rules and makes the following additional representations and warranties regardless of which entity initiates the RCK Entry on its behalf:

a. Each check is eligible under NACHA Rules to be collected via an RCK Entry.

b. Customer has no knowledge of any insolvency and it has good legal title to the returned item.

c. All signatures on the returned item are authentic and authorized, and the returned item is without alteration, not subject to claims or defenses, and will not be presented to the paying bank.

d. The RCK Entry accurately reflects the item and any information encoded after issue in magnetic ink is correct. (RCK Entries cannot be used for collection fees.)

e. Any restrictive endorsement placed on the item is void or ineffective.

f. Customer has provided clear and conspicuous notice of its electronic check representment policy in advance of receiving the item to which the RCK Entry relates.

g. The Customer will provide to Bank immediately upon request a copy of the front and back of the returned item, provided that the request is made within seven (7) years of the settlement date of the RCK Entry.

15. Internet-Initiated Entries. NACHA Rules allow Customer to initiate a Debit Entry to a consumer Receiver's account pursuant to an authorization obtained from the Receiver via the Internet ("WEB Entry"). In the event that Customer initiates a WEB Entry to Bank, Customer agrees that such WEB Entry will comply with all provisions of this Agreement and applicable Rules and makes the following additional representations and warranties regardless of which entity initiates the WEB Entry on its behalf:

a. Customer has employed a commercially reasonable fraudulent transaction detection system to screen each WEB Entry. As of the effective date specified by NACHA, a commercially reasonable fraudulent transaction detection system must include, at a minimum, validation of the account number to be debited for each Web Debit Entry. This validation must be completed for the first use of such account number as well as each time there is a change in such account number.

b. Customer has employed commercially reasonable methods of authentication to verify the identity of the Receiver.

c. Customer has taken commercially reasonable steps to verify that routing numbers are valid.

d. Customer has established a commercially reasonable secure Internet session prior to the key entry by the Receiver of any banking information and through the transmission of the data to Customer. If regulatory requirements or technological advancements drive the commercially reasonable standard to change, Customer agrees to comply with the new standard.

e. Customer has and will conduct an annual audit to ensure that the financial information that Customer obtains from its Receivers is protected by security practices that include adequate levels of: (1) physical security to protect against theft, tampering, or damage, (2) personnel and access controls to protect against unauthorized access and use, and (3) network security to ensure secure capture, storage and distribution of financial information. Customer will provide proof of Customer's security audits to Bank upon request. Any such information provided to Bank shall be kept confidential except as required to be disclosed by applicable law, rule or regulation. Bank may cease processing Entries for Customer if Bank in its sole discretion determines that Customer's security procedures are inadequate.

16. Telephone-Initiated Entries. NACHA Rules allow Customer to initiate a Debit Entry to a consumer Receiver's account pursuant to the Receiver's oral authorization and banking information obtained via the telephone ("TEL Entry"). In the event that Customer initiates a TEL Entry to Bank, Customer agrees that such TEL Entry will comply with all provisions of this Agreement and applicable Rules and makes the following additional representations and warranties regardless of which entity initiates the TEL Entry on its behalf:

a. Receiver Authorization. Customer shall obtain the Receiver's explicit authorization prior to initiating a Debit Entry to the Receiver's account. In the event that Customer obtains the Receiver's authorization verbally, Customer will either tape record the Receiver's oral authorization or provide, in advance of the settlement date of the Entry, written notice to the Receiver that confirms the oral authorization. Customer agrees that, at a minimum, the following specific information is disclosed to, and acknowledged by, the Receiver during the telephone call:

- (i) the date on or after which the Receiver's account will be debited;
- (ii) the amount of the Debit Entry to the Receiver's account;
- (iii) the Receiver's name;
- (iv) the account to be debited;

(v) a telephone number that is available to the Receiver and answered during normal business hours for customer inquiries;

(vi) the date of the Receiver's oral authorization;

(vii) a statement that the authorization obtained from the Receiver will be used to originate an ACH debit to the Receiver's account;

(viii) for recurring TEL entries, the amount of recurring transactions; and

(ix) for recurring TEL entries, the timing (including the start date), number, and/or frequency of the electronic fund transfers.

Customer shall retain either the original or a duplicate tape recording of the Receiver's oral authorization or a copy of the written notice confirming the Receiver's oral authorization for two years from the date of the authorization and shall immediately provide same to Bank upon request.

If Customer chooses to provide the Receiver with written notice confirming the Receiver's oral authorization, Customer will disclose to the Receiver during the telephone call the method by which such notice will be provided.

b. Security Procedures. In addition to all other representations and warranties contained in this Agreement and the Rules, Customer also represents and warrants the following each time it delivers a TEL Entry to the Bank that it has (a) utilized a commercially reasonable security procedure to verify the identity of the Receiver, including name, address and telephone number; and (b) further that Customer has established commercially reasonable procedures to verify the accuracy of the RDFI's ABA routing and transit number.

17. Accounts Receivable and Back Office Conversion Entries. NACHA Rules allow Customer to utilize ACH to collect consumer check payments received via U.S. mail or at a dropbox location ("ARC Entry"). NACHA Rules also enable Customer to convert during back office processing checks presented either at the point of purchase or a manned bill payment location ("BOC Entry"). In the event that Customer initiates an ARC or BOC Entry to Bank, Customer agrees that such ARC or BOC Entry will comply with all provisions of this Agreement and applicable Rules and makes the following additional representations and warranties regardless of which entity initiates the ARC or BOC Entry on its behalf:

a. Prior to the receipt of each check, Customer has provided clear and conspicuous notice to the Receiver: (i) that receipt of the check is authorization for a payment as a check transaction or for a one-time ACH debit to the Receiver's account; and (ii) of Customer's phone number for inquiries regarding BOC Entries.

b. Customer shall provide a copy of the notice to the Receiver at the time of the transaction if the Receiver presents the check in-person.

c. Each check is eligible as a source document under NACHA Rules to be collected via an ARC or BOC Entry.

d. Customer shall use a reading device to capture the Receiver's routing number, account number, and check serial number from the source document (unless Bank has agreed to do so on Customer's behalf for retail lockbox services).

e. The amount of the entry, the routing number, the account number, and the check serial number are in accordance with the source document.

f. The source document to which the ARC or BOC Entry relates will not be presented for payment.

g. Customer has established policies and procedures to destroy the source document as soon as is reasonable and shall use commercially reasonable methods to securely store the source document until such destruction.

h. Customer shall use commercially reasonable methods to securely store all banking information relating to the ARC or BOC Entry.

i. Customer shall retain a reproducible and legible image, microfilm or copy of the front of the Receiver's source document for two years from the settlement date of each ARC or BOC Entry, and shall immediately provide same to Bank upon request.

j. For BOC Entries, Customer has employed commercially reasonable procedures to verify the identity of each Receiver of BOC Entries.

k. For BOC Entries, Customer maintains a working telephone number that is answered during Customer's normal business hours for Receiver inquiries regarding BOC transactions.

18. Point of Purchase (POP) Entries. NACHA Rules allow Customer to initiate a Debit Entry to a Receiver's account for in-person purchases made by check at the point-of-purchase ("POP Entry"). In the event that Customer initiates a POP Entry to Bank, Customer agrees that such POP Entry will comply with all provisions of this Agreement and applicable Rules and makes the following additional representations and warranties regardless of which entity initiates the POP Entry on its behalf:

a. Customer has posted a notice in a prominent and conspicuous location at the point-of-purchase and provided the Receiver with a written notice of same: (i) that when a check is provided as payment, it is authorization for payment as a check transaction or for a one-time ACH debit to the Receiver's account; and (ii) that funds may be withdrawn from the Receiver's account the same day payment is made.

b. Each check is eligible under NACHA Rules to be collected via a POP Entry and the Receiver has not opted out of check conversion

c. Customer has used a reading device to capture the Receiver's routing number, account number, and check serial number from the source document.

d. Customer has provided a receipt to the Receiver containing the Originator name, telephone number, date of transaction, transaction amount, check serial number of the source document, merchant number, terminal city and state; and Customer has not included the Receiver's complete account number or complete identification number on such receipt.

e. Customer has returned the voided source document to the Receiver after capturing the necessary check information and the source document was not previously negotiated, voided, or provided by the Receiver for use in any prior POP Entry.

f. Customer has obtained the Receiver's authorization and provided a copy of same to the Receiver, which: (i) is in writing and signed or similarly authenticated by the Receiver; (ii) is readily identifiable as an ACH debit authorization; (iii) clearly and conspicuously states its terms; and (iv) states that the check will not be processed.

19. International ACH Transactions (IAT) Entries. NACHA Rules allow Customer to initiate or receive international payment transactions transmitted via the ACH network.

a. In the event any part of an Entry originates from, or is transmitted to, a financial agency office located outside the territorial jurisdiction of the United States that handles the payment transaction ("IAT Entry"), Customer agrees that such IAT Entry will comply with all provisions of this Agreement and applicable Rules. Customer acknowledges that an IAT Entry is ineligible for Same Day ACH. Customer also makes the following additional representations and warranties regardless of which entity initiates the IAT Entry on its behalf:

- (i) Customer is in compliance with U.S. law, including, but not limited to, Customer's obligations under programs administered by OFAC and FinCEN.
- (ii) The origination of an outbound IAT Entry is in compliance with the laws and payment system rules of the receiving country.
- (iii) In the case of an IAT Entry to a non-consumer account, Customer has an agreement with the Receiver whereby the Receiver has agreed to be bound by the Rules.

IAT Entries may be processed by Bank through a correspondent bank. Bank assumes no liability for delays, non-delivery, late returns or other events resulting from processing delays by the correspondent bank or for other causes beyond Bank's control. Cancellation or amendment of an IAT Entry involving non-U.S. dollar currency is subject to any rate exchange loss as determined by Bank. Customer agrees to sell any

canceled or amended Entry to Bank at the then current applicable foreign currency buy rate.

b. Remittance Transfer Provider. If Customer is at any time classified as a Remittance Transfer Provider under Regulation E, Customer represents, warrants and agrees that:

- (i) Customer shall be responsible for performing and complying with the requirements of 12 CFR Part 1005, including, but not limited to, providing disclosures to the consumer (sender), the error resolution procedures, the provision of any remedies to the consumer, and the cancellation and refund of remittance transfers;
- (ii) Bank is acting as an agent and not as a Remittance Transfer Provider when performing activities on behalf of Customer; and
- (iii) Even if Bank is deemed a Remittance Transfer Provider under applicable law, Customer shall take all actions necessary to comply with the obligations of a Remittance Transfer Provider.

Customer agrees to indemnify and hold Bank harmless from and against any and all loss, liability, damage, costs and expenses (including attorneys' fees) that Bank may sustain in reliance on Customer's representations and warranties set forth in this Agreement or the Rules.

20. Third-Party Vendors. If Customer initiates Entries through a third-party vendor or processor ("Vendor"), Vendor is the agent of Customer and not of Bank. If Customer uses a Vendor, Customer shall be deemed to have authorized Bank to follow the instructions of such Vendor to the same extent and under the same conditions as would apply if the instructions came direct from Customer and Customer shall be responsible for insuring that such Vendor fully complies with the Rules and this Agreement. Bank is not responsible for the acts or omissions of Vendor and Customer agrees to be liable for and hold Bank harmless from, any losses caused by the acts or omissions of Customer's Vendor.

21. Third-Party Sender. If Customer is transmitting Entries as a third-party vendor or processor on behalf of originators ("Third-Party Sender"), Customer agrees to be bound by the applicable terms provided in this Agreement and the Rules. Customer warrants to Bank that the originator has agreed to assume the responsibilities of an Originator under NACHA Rules and that ACH Entries shall not be initiated in violation of laws of the United States. Customer represents that it has executed an ACH agreement with each Originator and that the agreement binds the Originator to the NACHA Rules. Customer shall provide Bank with the list of Originators, copies of the agreements, and other information deemed reasonably necessary to identify the Originators within two (2) Business Days of Bank's request. Bank reserves the right to review the list of Originators for which Customer is transmitting the Entries and to reject any in Bank's sole discretion. As Third-Party Sender, Customer agrees to indemnify, defend and hold Bank harmless from and against any and all claims, demands, expenses, losses, liabilities, and damages, including reasonable attorney fees and court costs at trial or on appeal that arise directly or indirectly from the failure of the Originator to perform its obligations as an Originator under NACHA Rules. Customer further agrees to assume all applicable responsibilities, warranties and liabilities of the ODFI, as specified in the NACHA Rules. Customer shall cooperate fully and respond within two (2) Business Days to any inquiry from Bank relating to potential NACHA Rule inquiries or violations.

22. Cash Concentration/Deposit Reporting Services. Customer may request Bank to provide deposit reporting Services based on information provided by the Customer or its designated Agent. Information will be delivered to Bank at the time and location established by Bank. Bank has no responsibility for the accuracy of any information provided by Customer. Customer may authorize Bank to initiate Credit or Debit Entries to accounts designated by Customer at other financial institutions. Bank will initiate such Entries in accordance with agreed procedures. Customer agrees to authorize RDFIs to honor such transactions.

23. ACH Positive Pay Service. ACH Positive Pay Service assists Customer in detecting fraud by electronically matching incoming ACH transactions to authorizations that Customer can create and manage online. If ACH Positive Pay Service is selected by Customer, Customer shall designate the account(s) maintained at Bank that are to be used with the ACH Positive Pay Service ("ACH Positive Pay Account"). Customer

shall create authorizations for incoming ACH Credit and/or Debit Entries that it desires to post to the ACH Positive Pay Account. Customer shall be responsible for the accuracy and completeness of all information provided to Bank. Bank will allow incoming Entries that match Customer's authorizations to post to Customer's ACH Positive Pay Account. Incoming ACH transactions that do not match Customer's authorizations will be treated as exception items, and Customer agrees to monitor, review and make payment decisions on the exception items prior to Bank's established deadline. Bank is authorized to return all exception items unless Customer instructs bank to pay one or more exception items prior to the established deadline. Bank shall have no responsibility for any liability, loss or damage resulting from the return of any exception item to the Originator in accordance with this Section or Customer's failure to meet Bank's established deadlines, except with respect to losses caused by Bank's own lack of good faith or failure to exercise ordinary care. Bank's failure to report a discrepancy will not discharge Customer's obligation with regard to any item and shall not obligate Bank to return any item if it is otherwise authorized.

E. WIRE TRANSFER SERVICES

1. Introduction.

a. Governing Law. Bank sends outgoing and receives incoming wire transfers through Fedwire (the funds transfer system owned and operated by the Federal Reserve Banks or other provider in accordance with Section II.24.A). All funds transfers are governed by this Agreement, Subpart B of Regulation J of the Federal Reserve Board, OFAC regulations, and all other applicable international, federal, state and local laws and regulations. Customer agrees not to initiate or receive a wire transfer payment order in violation of applicable federal, state or local law.

b. Authorized Users. Customer will designate to Bank in the form required by Bank those individuals authorized to instruct Bank regarding wire transfer Services including without limitation, individuals authorized to initiate payment orders and select advice methods, confirmation methods, and any or all authorizations and instructions that may be requested by Bank. Bank may rely on any such authorization until it has been revoked in writing by Customer. Bank shall have a reasonable time to process any revocation received pursuant to this Section.

2. Routing/Time Deadlines. Bank may use any means of transmission, funds transfer system, intermediary bank, clearinghouse or route that Bank reasonably believes is suitable for each outgoing wire transfer. Bank will establish from time to time one or more deadlines after which Bank will not accept an incoming payment order to be processed on the day of receipt. Payment orders received after Bank's established deadline, during a maintenance window, or on any non-Business Day, including any Saturday, Sunday, holiday or any day that Bank's wire department is not open will be rejected. Payment orders received during a maintenance window, including the end-of-day maintenance window, will not receive a notice of rejection.

3. Payment Orders.

a. Communication. Customer may communicate a payment order to Bank by the means and manner agreed to between the parties.

b. Content of Payment Orders. Customer will supply to Bank any information Bank may reasonably request regarding any payment order initiated by Customer, including, without limitation, money amounts, affected accounts, dates of transfer, the beneficiary's name and account number, the name and routing number or bank identifier code of the beneficiary's financial institution, such additional information as Bank may reasonably request and, if necessary, further evidence of any Agent's authority to transfer funds or to do any other act contemplated by this Service. Bank strongly recommends that Customer utilize a second individual to review and approve payment orders prior to submission to Bank. Customer acknowledges that failure to use this commercially reasonable security procedure substantially increases Customer's risk of an unauthorized payment order.

c. Execution of Payment Orders. Customer authorizes Bank to execute and charge Customer's account(s) with Bank for payment orders delivered to Bank in accordance with this Agreement. Bank has no obligation to execute a payment order if Customer's account to be charged has insufficient collected and available funds to cover the order.

d. Processing Payment Orders. The order in which Bank processes wire transfer payment orders is determined solely by Bank. Customer does not have the right to reverse, adjust or revoke any payment order after it has been received by Bank, provided, however, that Bank will make a reasonable effort to act on such a request by Customer. With respect to a payment order already transmitted to the beneficiary's financial institution, Bank shall, at Customer's request, request the financial institution to return funds previously transferred. Customer understands that the receiving institution is under no legal obligation to comply with this request.

e. Rejection of Payment Orders. Bank may reject a payment order from Customer if such payment order is not initiated in accordance with the applicable security procedure, if there is any inconsistency between a payment order and information previously supplied to Bank, if Bank is unable to obtain confirmation of such payment order satisfactory to Bank, if there are insufficient collected funds in Customer's specified account to

fund the payment order, if Bank has a reasonable basis to suspect the payment order may be unauthorized or fraudulent, or if Bank has other reasonable grounds not to honor the payment order. Bank will notify Customer by telephone that it has rejected a payment order. Bank may also reject an incoming payment order if it has reasonable grounds to do so.

f. Standing Payment Orders. If requested by Customer and agreed to by Bank, Customer may initiate a standing payment order, which is one where the Customer pre-programs the beneficiary, the beneficiary's financial institution, and the accounts to be debited and credited and such information remains constant for subsequent payment orders. Customer shall provide Bank with the necessary information to execute the standing payment order, including, without limitation, the dollar amount to be transferred or the desired peg balance, the frequency of the order and the day of week or month when the payment order is to be executed. Customer may terminate a standing payment order at any time upon receipt by Bank of a written notice. Bank shall have a reasonable time to act on such notice.

g. Batch Wire; Direct Wire Interface.

- (i) Service Specifications.** If requested by Customer and agreed to by Bank, the Batch Wire service and Direct Wire Interface service allows Customer to initiate payment orders from its computer to Bank's computer, subject to the provisions of this Agreement. In addition, the Direct Wire Interface service allows Customer to receive reports of incoming wire activity. Customer will comply with the relevant interface specifications established by Bank for these services, including, without limitation, file formats, means of data transmission, or establishing a secure connection (the "Specifications"). Bank may furnish Customer with modifications to the Specifications and Customer shall implement such modifications as soon as reasonably practicable.
- (ii) Wire Transfer Software, Confidentiality.** Customer or its Agent shall be solely responsible for creating the computer programs to implement the Specifications ("Wire Transfer Software"). Customer shall maintain the confidentiality of the Specifications and the Wire Transfer Software and permit access solely to those responsible for supporting the Wire Transfer Software or authorized to initiate payment orders. Customer shall implement passwords and other security devices commensurate with the highest level of security afforded by Customer to other computer programs and confidential information of Customer.

4. Confirmation of Outgoing Wire Transfers.

a. Confirmation Method. Customer and Bank shall agree to the method of confirming payment orders received from Customer. Customer shall designate Authorized Users to confirm payment orders. Bank recommends a minimum of three potential Authorized Users to confirm payment orders and that Authorized Users serve as an initiator or a confirmer, but not both. Notwithstanding Bank's recommendation, if Customer permits an Authorized User to act as both initiator and confirmer, Customer hereby authorizes Bank to process a wire initiated and confirmed by such Authorized User. Customer may add, change or delete the Authorized Users in accordance with Section II.9 of this Agreement. In the event the designated Authorized Users with authority to confirm are not available to confirm a payment order, Customer agrees that Bank may, at its discretion, elect to process the payment order initiated by an Authorized User. Customer agrees to be bound by any such payment order processed by Bank.

b. Waiver of Confirmation. Bank advises Customer not to waive confirmation. If Customer, however, chooses to waive confirmation, Customer agrees to be liable for all outgoing payment orders, except those payment orders where (1) Customer is able to conclusively prove that the unauthorized transfer could not have been prevented by the use of confirmation procedures; (2) Bank is unable to produce any evidence that the unauthorized transfer could have been prevented by the use of confirmation procedures; and (3) Customer is not otherwise liable for the transfer under this Agreement or applicable law. Customer acknowledges that not using confirmation procedures substantially increases Customer's risk of liability for an unauthorized wire transfer.

c. Confirmation of Wire Transfers Initiated through SinglePoint®, Batch Wire, or Direct Wire Interface (collectively, the "Customer Initiation Methods"). Customer represents and warrants that the confirmation of payment orders initiated through any of the Customer Initiation Methods shall be verified, initiated and confirmed by Customer prior to receipt by Bank. All payment orders shall be initiated and confirmed in accordance with the security procedures established for the relevant Customer Initiation Method.

5. Advices.

a. Advice Method. Customer will select the type of advice it wishes to receive after Bank receives an incoming wire transfer. If Customer selects telephonic advices, Customer may designate person(s) to be contacted and telephone numbers to be used for advice purposes. Bank shall not be required to make more than one attempt to reach Customer's designated location by telephone. If Bank is able to reach the Customer's designated location, but not Customer's designated Agent, Bank may leave a message containing the information to be conveyed.

b. Advices by Facsimile. If Customer selects advices by facsimile ("fax"), Customer shall exercise extreme care in maintaining its own security in the receipt of fax advices. Customer acknowledges that the information to be received by fax may include confidential information, including, without limitation, names, amounts, phone numbers, originating account information and the text of incoming wires. Customer further acknowledges that it alone assumes full responsibility for maintenance of its internal security procedures to keep such information confidential. Customer agrees to indemnify, defend and hold Bank harmless against any and all claims, demands, expenses, liabilities and damages, including attorney fees at trial and on any appeal or petition for review, incurred by Bank arising directly or indirectly from the transmission by fax of an incoming wire transfer advice.

c. Waiver of Advice. Customer may waive its right under the Uniform Commercial Code to receive advices by so indicating on the applicable Implementation Documents.

6. International Wire Transfers.

a. General. Wire Transfers across country borders are customarily done by Bank through a correspondent bank. Outgoing U.S. dollar payment orders may be converted by the correspondent bank or beneficiary bank to the local beneficiary's currency at the applicable rate in effect at any point in the processing chain. Though in some cases Bank may receive compensation from the correspondent bank in accordance with such conversion, the conversion is executed by the correspondent bank in accordance with the policies and procedures of such correspondent bank at an exchange rate set by that correspondent bank in its sole discretion and subject to any applicable regulations. Any fee, commission or charges assessed by Bank, the correspondent bank, any subsequent intermediary bank, or the beneficiary bank may be passed on to the Customer or deducted from the wire transfer amount. Bank assumes no liability for delays, non-delivery, market risk or other events resulting from causes beyond Bank's control. In refunding unexecuted payment orders, Bank shall be liable to Customer only to the extent it receives payment from the correspondent bank processing the transfer. Cancellation or rejection of a transfer involving non-U.S. dollar currency is subject to any rate exchange loss as determined by Bank. Customer agrees to sell any canceled or rejected payment order to Bank at the then-current applicable foreign currency buy rate.

b. Remittance Transfer Provider. If Customer is at any time classified as a Remittance Transfer Provider under Regulation E, Customer represents, warrants and agrees that:

- (i)** Customer shall be responsible for performing and complying with the requirements of 12 CFR Part 1005, including, but not limited to, providing disclosures to the consumer (sender), the error resolution procedures, the provision of any remedies to the consumer, and the cancellation and refund of remittance transfers;
- (ii)** Bank is acting as an agent and not as a Remittance Transfer Provider when performing activities on behalf of Customer; and

- (iii) Even if Bank is deemed a Remittance Transfer Provider under applicable law, Customer shall take all actions necessary to comply with the obligations of a Remittance Transfer Provider.

Customer agrees to indemnify and hold Bank harmless from and against any and all loss, liability, damage, costs and expenses (including attorneys' fees) that Bank may sustain in reliance on Customer's representations and warranties set forth in this Agreement.

7. Reverse Wire Transfers.

a. Authorized Debits. If requested by Customer and agreed to by Bank, Customer authorizes Bank to debit Customer's account(s) with Bank upon receipt of a Fedwire drawdown request, and to send funds to the requesting bank. Each transfer will be done on the Business Day Bank receives the incoming request from the requesting bank if the request is received within a reasonable time to determine whether Customer's Account has sufficient available funds and to obtain access to the Federal Reserve network prior to the close of business.

b. Reverse Wire Funding. Customer acknowledges and agrees that Bank may reject any reverse wire request in excess of the collected and available balance. Requesting bank will be notified if the request is rejected by Bank.

c. Wire Transfer Numbers. Customer's obligation to pay Bank the amount of the funds transfer in the event that the Fedwire message does not identify the same account or financial institution is not excused in such circumstances. When names and numbers are inconsistent, the numbers shall control. With respect to incoming wire transfers that do not indicate an account number recognizable to Bank, Bank may return the wire transfer to the sending financial institution without incurring any liability. Customer does not have the right to reverse, adjust or revoke any Fedwire message after it is received by Bank; however, Bank will use reasonable efforts to act on such a request by Customer to reverse, adjust or revoke such message before Bank has sent the outgoing wire transfer. With respect to an outgoing wire transfer already transmitted by Bank, Bank shall, at Customer's request, request the receiving financial institution to return funds previously transferred. Customer understands and agrees that the receiving financial institution may or may not comply with any such request.

d. Authorizations. Customer's authorization for reverse wire requests shall remain in effect until Customer gives written notice to Bank. Bank will have a reasonable time to act on any written notice received from Customer.

e. Limitation on Bank's Liability. In consideration of Bank's compliance with this authorization, Customer agrees that Bank's treatment of any authorized debit, and Bank's rights with respect to it, shall be the same as if the entry were initiated personally by Customer. Bank shall have no liability if any authorized debit is dishonored.

8. Additional Limits on Bank's Liability. Bank is responsible only for performing the Services described in this Section. Bank shall not be responsible for the acts or omission of Customer, any Federal Reserve Bank or other financial institution, any transmission or communication or any other person, and no such person shall be deemed to be Bank's agent under this Agreement.

F. DATA TRANSLATION SERVICES

1. Introduction. Bank may provide electronic data integration, custom formatting, or data translation ("Data Translation Services") to electronically streamline the exchange of payments, remittance and other information between Customer and Bank and between Customer and its trading partners. If requested by Customer and agreed to by Bank, Bank will provide Data Translation Services in accordance with this Agreement and other procedures provided to the Customer. Customer agrees that Data Translation Services shall be governed by this Section and all other relevant sections of this Agreement.

2. Scope of Services. Data Translation Services may be used by Customer to initiate and receive payments using multiple payment channels or networks, which may include, but are not limited to, checks, wire transfers, ACH, virtual card, SWIFT, Real-Time Payments (RTP), Zelle, Visa or Mastercard, and to provide and receive business communications such as remittance data, payment data, invoices, confirmations, orders, or other information in Customer's preferred format. In order to obtain Data Translation Services, Customer must maintain an analyzed demand deposit account with Bank.

3. Entry Origination/Processing Dates/Deadlines. Customer may from time to time deliver to Bank requests to format information for payments and/or other data translation via the agreed upon means (collectively, "Data Translation Request(s)"). All Data Translation Requests shall conform to the content, format, deadlines and other specifications that may be established by Bank or a third-party software program approved by Bank for use with the Service. Bank may establish different deadlines for Data Translation Requests depending on the method of delivery employed by Customer and all such deadlines are subject to change. Bank must receive Customer's Data Translation Requests at or prior to the deadline established for processing on the Business Day of receipt. Data Translation Requests received after the deadline will be processed on the next Business Day. Customer will be notified if a Data Translation Request is rejected in accordance with procedures established by Bank. Customer represents and warrants that all information in each Data Translation Request delivered to Bank by Customer shall be accurate, timely, authorized and will otherwise comply with all applicable laws, rules and regulations.

4. Content and Transmission of Information. Data Translation Requests are only designed to respond to information provided by Customer. Accordingly, any inaccuracy in any information provided by Customer may result in unintended processing by Bank. Bank bears no responsibility for detecting or reporting any error in data supplied by Customer and shall not be liable to Customer for any information provided by Customer with respect to a Data Translation Request which is inaccurate, incomplete, duplicative or otherwise incorrect. Customer shall retain data on file adequate to permit Customer to remake each request for at least ten (10) Business Days following the date a file is sent to Bank and shall provide such data to Bank on request. Customer acknowledges that Bank has no obligation to maintain back-up copies of requests or other information delivered by Customer to Bank. Customer acknowledges that Data Translation Services may involve the transmission of confidential consumer information that may be subject to privacy laws and regulations, including breach notification regulations. Customer agrees to notify Bank if Customer sends or receives protected health information as part of Data Translation Services. If Customer is the recipient of misdirected information, Customer shall immediately notify Bank and return the information to Bank. Customer agrees not to retain, use, copy, distribute or otherwise disclose the information in any manner.

5. Payment Requests. Customer agrees that its requests to initiate payments utilizing Data Translation Services shall be governed by this Section, the sections of this Agreement governing the applicable payment mechanism, and all other applicable laws, rules and regulations governing the relevant payment mechanism. Customer authorizes Bank to execute all electronic and check payment requests ("Payment Requests"), and settle to the Customer's account all Payment Requests, delivered to Bank in compliance with the terms of this Agreement, including the security procedures. Customer is solely responsible for initiating the Payment Requests sufficiently in advance to meet Customer's contractual obligations to its vendors and/or its customers. Bank shall not be responsible for any late payment or finance charges that may result from Customer's failure to allow sufficient lead-time.

a. Electronic Payment Requests. Depending on the scope of the Data Translation Services solution offered by Bank, Customer may from time to time request that Bank initiate electronic payments using the ACH, card, SWIFT and Zelle networks, The Clearing House system, the wire transfer system or other electronic funds transfer system ("Electronic Payment Requests"). Except as may be provided elsewhere, Customer may not amend or revoke Electronic Payment Requests after they have been received by Bank. Customer acknowledges that the rules of NACHA and other electronic funds transfer systems may make any credit provisional until the financial institution crediting the account of the beneficiary specified in an Electronic Payment Request receives final settlement and that if the financial institution does not receive final settlement, it is entitled to a refund and Customer shall be deemed not to have paid the beneficiary. Electronic Payment Requests with settlement dates of more than thirty (30) calendar days from receipt will not be processed unless prior arrangements have been made. Customer authorizes Bank to use whatever means Bank, in good faith, deems reasonable under the circumstances to execute each Electronic Payment Request, including selection of a funds transfer system, routing and means of transmission.

b. Check Payment Requests. Customer may from time to time request that Bank print checks and related remittance information ("Check Payment Request(s)") and issue and distribute such checks and information. Customer shall designate the account(s) from which Bank is to make payment ("Payment Account") and shall maintain a sufficient balance in the Payment Account to fund its Check Payment Requests. To mitigate against fraud, Bank requires that Customer utilize Bank's Positive Pay Services in conjunction with the Payment Account. Customer agrees that checks drawn in a manner consistent with a Check Payment Request shall be duly authorized to the same extent as a check drawn and signed by Customer and is properly payable by Bank. Customer authorizes Bank to deduct the Payment Account in the amount of the Check Payment Request. If there are insufficient funds in the Payment Account to make a Check Payment Request, Bank may in its sole discretion either refuse to make the payment or make the payment and overdraw the Payment Account. In either event, Customer shall incur fees as disclosed by Bank in the account agreement and related fee schedules and other disclosures. Customer has no right to reverse, adjust or revoke any Check Payment Request after it has been received by Bank. Bank will, however, make reasonable efforts to act on such a request by Customer. If Check Payment Requests relate to printing checks drawn on another financial institution's account ("Off-Us Checks"), Customer acknowledges that Bank shall not be liable for any fraudulent or unauthorized activity that may arise from the use of such Off-Us Checks. If Check Payment Requests relate to printing payroll checks, Customer acknowledges that Bank shall only print payroll checks and shall not be responsible for any other aspect of payroll processing, including, but not limited to, producing IRS Form W-2s, 1099s or other payroll-related tax documents. In addition, Customer represents and warrants that it shall not include any social security numbers in the Check Payment Requests for payroll checks and agrees to indemnify and hold Bank harmless if the checks or check stubs are printed with social security numbers.

6. Security Procedures. Customer shall comply with all security procedures established by Bank for Data Translation Services. Customer agrees that all Data Translation Requests that involve the exchange or transmission of banking information shall only use secure transmission options supported by Bank. For some Services, such as ACH, Customer and Bank may establish alternative, comparable security procedures for accessing such Services when Data Translation Services are utilized. Customer is solely responsible for maintaining its own internal security procedures to prevent errors or unauthorized access to Customer's computer systems by unauthorized employees, vendors or customers. Bank has no responsibility for the security procedures employed by Customer's trading partners.

7. File Confirmation Procedures. Customer shall at all times comply with the applicable file confirmation procedures established by Bank. File confirmation procedures utilizing Data Translation Services are solely for the purpose of verifying Bank's receipt of the Payment Requests but not for identifying errors in transmission or content.

a. Control Totals. Control Totals are an elective option that allows Customer to confirm file totals of Payment Requests transmitted to Bank. If the Control Totals option is selected by Customer, Customer shall call

Bank's Audio Response Unit ("ARU") or send a data file to Bank providing the total items and dollar value of the Payment Requests and any other necessary information ("Control Totals"). After Bank receives Customer's Payment Requests, Bank will compare the Payment Requests to the Control Totals. If the Control Totals match the Payment Requests, Bank will process the Payment Requests. Bank will not process the Payment Requests if Bank does not receive conforming Control Totals on or before the established delivery deadline. Bank will notify Customer if the Control Totals do not match the Payment Requests, or if Bank receives Payment Requests without receiving Control Totals or vice versa.

If the Control Totals option is not selected by Customer, upon Bank's receipt of Customer's electronic payments via a data file, Bank shall send an acknowledgement to Customer confirming receipt and acceptance of Customer's Payment Requests. If Customer identifies errors in the content or transmission of Customer's Payment Requests, or if Customer does not receive an acknowledgement from Bank, Customer agrees to notify Bank immediately. Depending on the payment deadlines, Bank may be able to delete or reverse processing of Payment Requests.

b. Payables File Manager. Payables File Manager is an elective Service that allows Customer to confirm that Bank has received Customer's files. Using SinglePoint® or other applications or systems as may be introduced by Bank, Customer may view the status of Data Translation files sent by Customer to Bank. If Customer selects this Service, Customer agrees to promptly and regularly review the status of all files displayed in the Payables File Manager and to notify Bank immediately if any files sent by Customer were not received by Bank. Depending on the payment deadlines, Bank may be able to delete or reverse processing of Payment Requests. Customer bears sole responsibility for any inaccurate or incomplete information sent to Bank if Customer fails to notify Bank prior to Bank's processing of Customer's files.

8. Supplier Prefer Pay. If selected by Customer and agreed to by Bank, the Supplier Prefer Pay Service provides an electronic payment enrollment and storage solution, which also allows use of the stored data for payment origination.

Customer's suppliers or trading partners ("Suppliers") may elect to enroll in a program to receive payment from Customer via ACH or alternative payment methods that may include, but are not limited to, virtual cards (account without the issuance of a physical credit card) and checks. As part of this Service, Bank will: (i) provide online enrollment for Suppliers to register to receive payment from Customer, including the option for Supplier to provide a preferred email address to receive remittance information; (ii) contact Suppliers (with contact information provided solely by Customer) via telephone, email or regular mail to describe the supplier enrollment service and solicit their participation; (iii) support Supplier enrollment; and (iv) at Customer's election, securely store Supplier's banking information. Customer will designate one or more System Administrator(s) responsible for establishing internal security procedures, including, without limitation, setting up and maintaining access to the Service. Customer shall be solely responsible for conducting the necessary due diligence to vet Customer's Suppliers and to ensure that only legitimate Suppliers of Customer enroll in the Service. Bank recommends that Customer establish and utilize robust security procedures in accordance with the guidelines provided by Bank in the Implementation Documents. If Customer declines Bank's recommendation, Customer agrees it will be precluded from asserting any claims against Bank for unauthorized payments, except with respect to claims caused by Bank's own lack of good faith or failure to exercise ordinary care.

Customer acknowledges and agrees that use of the Service may be affected by external factors beyond Bank's control. Interruption of the Service or performance hereunder for any reason shall not relieve Customer of its obligation to make timely payment to Suppliers, and Bank shall not incur any liability to Customer for Customer's failure to timely make any such payment to Suppliers. Customer agrees to indemnify, defend and hold Bank harmless from and against any and all claims, demands, expenses, losses, liabilities, and damages, including reasonable attorney fees and court costs at trial or on appeal that arise directly or indirectly out of any payments made by Customer using the enrollment information furnished by Customer, Suppliers or any other party on behalf of Supplier.

G. CASH VAULT SERVICES

1. Introduction. The Terms "cash", "coin" and "currency" as used herein shall refer to coin and currency of the United States and certain foreign currencies accepted by Bank.

2. Foreign currency. Customer shall not deposit any foreign currency unless Customer has obtained Bank's prior approval. Bank reserves the right, in its sole discretion, to impose restrictions on, or discontinue acceptance of, foreign currency deposits. Section IV.G.5 below does not apply to foreign currency processing. Foreign coin shall not be accepted for deposit by Bank under any circumstances.

3. Account. All deposits of coin, currency and checks will be credited to, and all withdrawals of coin, currency and checks will be debited against, Customer's deposit account at Bank (the "Account") which Customer has designated as being covered by the Services described herein. Customer agrees that it shall not deposit any items, instructions or objects other than coin, currency and checks as outlined in this Agreement and agrees to assume any and all risk of loss associated with tendering items not specified herein.

4. Deposits.

a. Customer shall supply and maintain tamper-evident disposable plastic bags used for deposits. Plastic bags shall be sealed according to manufacturers' instructions and addressed to the appropriate secured facility specified by Bank. Customer will prepare deposits as follows: (i) currency will be batched separately from checks with each currency and check batch accompanied by a deposit ticket fully completed by Customer; (ii) currency will be banded with 100 notes of the same denomination whenever possible; (iii) deposits will be delivered by Customer's approved carrier to the secured facility specified by Bank; and (iv) to receive same-day credit, deposits must be made prior to the daily deadline established by Bank from time to time, and any deposits received by Bank after its deadline may be considered to have been received on the next Business Day. Foreign currency deposits do not qualify for same-day credit and are subject to Bank's prevailing exchange rates.

b. Bank will process Customer's deposits as follows: (i) deposits will be receipted and conditional (subject to verification) credit assigned based on the amount identified on the deposit ticket; (ii) deposit tickets that are missing, blank or do not contain legible "declared balances" are subject to delayed ledger credit of one Business Day; and (iii) coins and currency will be counted and Bank's count will be the valid and controlling count.

c. For U.S. currency, if there is a coin and currency variance of more than USD 10 from the declared balance on Customer's deposit ticket, Bank shall adjust Customer's coin and currency deposits through a separate debit or credit to Customer's account. Any such adjustment shall not be reflected on Customer's deposit ticket. Deposit tickets containing a declared total that includes check deposits may require a separate and additional adjustment for any variances to Customer's check deposits. If there is a coin and currency variance of USD 10 or less from the declared balance on Customer's deposit ticket, Bank shall not make any adjustment to Customer's currency and coin deposits and shall credit Customer's account based on Customer's declared balance. Upon request, Bank will provide Customer with any available information that may assist Customer in reconciliation of the difference.

d. Deposited items are deemed received on the day of delivery if Bank receives the deposit prior to Bank's established deadlines. Deposits will be processed in accordance with normal Bank procedure and any applicable availability schedules. All deposits made by Customer shall be subject to verification and adjustment by Bank. Bank's verification shall be deemed correct and binding upon Customer for all purposes, absent manifest error.

e. If Customer chooses to pre-encode its checks or other items for deposit, Customer agrees to comply with the pre-encoded deposit procedures and specifications as may be established and revised by Bank. Customer shall be responsible for any of its encoding errors. Bank may treat certain deposits as unencoded deposits if there is an unacceptable rate of encoding errors.

5. Withdrawals.

a. Bank may provide Customer with U.S. currency and coin in designated denominations from time to time as requested by Customer through the Bank's automated ordering system ("Cash Orders"). Customer must comply with all of Bank's policies and procedures regarding the placement and delivery of Cash Orders, including, without limitation, the maintenance of a designated password. Customer shall be responsible for maintaining the confidentiality of Customer's password and restricting access to the system to authorized Agents. All Cash Orders will be charged to the account designated by Customer and must be picked up by Customer's Agent or sent by registered mail to a street address. Only approved carriers may pick up Cash Orders directly from a cash vault operated by Bank. Bank may release any Cash Order to any individual that Bank reasonably believes to be Customer's Agent. Customer shall be responsible for any Cash Order after receipt thereof by the Agent. Bank may specify a daily Cash Order limit and Customer agrees that it will not initiate a Cash Order in excess of the designated limit. In no event shall Customer initiate a Cash Order in excess of the immediately available funds in the designated account.

b. Customer may order currency and coin from Bank as follows:

- (i) The preferred order for currency is in standard full strap (100 banknotes) quantities only.
- (ii) Coin may be ordered in standard full box units (50 rolls), individual rolls or loose standard bags only.
- (iii) A charge for the face value of the monies ordered will be made to the Account on the day the order is processed by Bank.
- (iv) Orders for coin and currency must be placed no later than the deadline established by Bank from time to time for release to Customer's Agent on the same or next Business Day. Depending on Customer's location, select cash vault sites may require a multiple-day lead time or more for coin and currency orders.
- (v) Bank must be notified of any discrepancies pertaining to coin or currency orders within two Business Days of receipt by Customer of such coin or currency. Customer must return documentation to back-up outages such as plastic change order bag, currency strap, coin wrapper and/or box.

6. Processing. Bank will provide processing on all Business Days. Cash Vault Services using third-party applications with time-stamp data are for informational purposes only and may not reflect actual timing of receipt, posting or verification of Customer's deposits by Bank. Bank shall not be liable for any inaccurate or incomplete information with respect to such time-stamp data provided to Customer.

7. Carrier Service. Any carrier service utilized to deliver or obtain coin, currency or other property to or from Bank, including, without limitation, a common carrier, will act as the agent of Customer and not of Bank. Customer and carrier shall agree upon the pickup and delivery days and times. Customer will bear the entire risk of loss of coins, currency, checks or other property of Customer when in the custody or control of Customer's carrier service.

8. Cash Shipping Solution. If this Service is selected by Customer and agreed to by Bank, Bank may rent a caller box at the United States Postal Service (USPS) post office and, on Customer's behalf, engage an armored carrier, each of which shall be deemed Customer's Agent, to retrieve Customer's deposits from the caller box for delivery to Bank and to deliver Customer's coin and currency orders to the USPS. Customer agrees to implement and properly use any and all security procedures prescribed or recommended by USPS and Bank and agrees to hold Bank harmless from any claims or losses arising from Customer's failure to implement and properly use any such prescribed or recommended security procedures. Bank recommends that Customer limits its deposits and orders to \$2500 per mailer, but regardless Customer bears the entire risk of loss of coins, currency, checks or other property of Customer until received at, or upon pick up from, Bank's cash vault. Customer shall be solely responsible for any investigation of a loss suffered prior to delivery to, or after pickup from, Bank's cash vault and Bank shall have no obligation to participate in such investigation.

9. Representations. Customer represents and warrants to Bank that (a) all funds deposited with Bank will be the proceeds of, and all funds ordered and withdrawn from Bank will be intended for use in, Customer's lawful activities and (b) all of Customer's transactions hereunder will be conducted solely on Customer's behalf and not on behalf of any other person or entity.

10. Regulatory Compliance. Upon request, Customer shall immediately provide Bank with any information and shall otherwise cooperate with Bank in every way necessary in order to enable Bank to fulfill its obligations with respect to the reporting of transactions in coin and currency or any other regulatory requirement.

11. Use of and Access to Cash Vault Services. Customer acknowledges and agrees that Cash Vault Services are to be used exclusively for its benefit and, absent prior written approval by Bank, Customer will not permit third parties, including non-Customers or other Agents of Customer (excluding approved carriers or agents making cash deposits into a Customer's account at Bank and agents ordering cash on behalf of a Customer), from accessing or otherwise using any Cash Vault Services offered by Bank.

H. U.S. BANK EASYTAXSM SERVICES

1. Authorization; Enrollment. If the EasyTax Service is requested by Customer and agreed to by Bank, Bank will electronically enroll Customer in the Electronic Federal Tax Payment System (EFTPS) if Customer desires to make federal tax payments via EFTPS. Electronic enrollment will allow Bank to process Customer's tax payments in compliance with EFTPS through Bank's tax payment system only. If Customer chooses to pay federal taxes by any other means, payments may not be EFTPS compliant. Customer understands that Bank's EFTPS enrollment form 8655 does not replace the EFTPS form 9779, which is sent to mandated companies by the Internal Revenue Service. Customer may also use the EasyTax Service to make state and/or local municipality tax payments in jurisdictions that support such payments. Customer agrees that the EasyTax Service shall be governed by this Section and all other relevant sections of this Agreement.

2. Submission of Information. Customer shall furnish Bank with complete and accurate master file information which shall enable Bank to file tax deposits via ACH with the appropriate tax authorities in a timely manner. The Service provided by Bank hereunder shall be based solely upon the information furnished by Customer to Bank. Accordingly, any inaccuracy in any information provided by Customer may result in unintended processing by Bank. Customer bears sole and exclusive responsibility to verify that the information provided to Bank is complete and accurate. Bank bears no responsibility for detecting or reporting any error in data supplied by Customer and shall not be liable to Customer for any information provided by Customer with respect to information that is inaccurate, incomplete or otherwise incorrect. The Service provided hereunder does not relieve Customer of any duty imposed on Customer by law to maintain records or from verifying and, if necessary, immediately correcting in writing all data received from Bank relating to the Service. Customer agrees to be bound by any instructions, whether or not authorized, issued in its name and accepted by Bank in accordance with the agreed procedures. Customer shall indemnify and hold Bank harmless from and against all liability, loss and damage (including attorneys' fees and other costs incurred in connection therewith) arising out of the use of information provided by Customer.

3. Requests for Payment. Requests for payment to tax authorities must be made in accordance with instructions which Bank shall provide Customer, which may be amended by Bank from time to time at its discretion, and will be considered complete only if actually received by Bank. All tax deposits must be initiated at least one Business Day in advance of the due date, otherwise deposits may be subject to federal or state penalties. Any request by Customer to make tax deposits hereunder shall be submitted to Bank prior to the daily cut-off time established by Bank from time to time. Any such request received by Bank after its daily cut-off time may be processed on the next Business Day. In the event that an ACH Entry is rejected or returned by an ACH processor for any reason whatsoever, Bank will give Customer notice of any rejected or returned ACH Entry in the usual manner agreed to by the parties. Bank shall have no liability for any delay caused by strikes, telephone failure, equipment or electrical failure, or any other condition beyond the reasonable control of Bank.

4. Receipt of Funds. Funds received by Bank from Customer shall be held as a deposit liability of Bank to Customer until such time as such funds are due and paid to the appropriate tax authorities. Customer is not entitled to interest on such funds and Bank may invest such funds solely for Bank's benefit.

5. Account. Customer shall maintain with Bank a commercial demand deposit account in which Customer shall maintain immediately available funds in an amount sufficient to cover all tax deposits and fees charged by Bank for the Service hereunder. Failure by Customer to maintain such funds shall relieve Bank from providing such Service, notwithstanding any request by Customer to provide the Service.

6. Liability. Bank shall not be liable for any penalties assessed by reason of failure of Customer to make any tax payments. Interruption of the Service or performance hereunder for any reason shall not relieve Customer of its obligation to make any required tax deposits, and Bank shall not incur any liability to Customer for Customer's failure to make any such deposit. If Customer elects to make a tax deposit by any means

other than through Bank, Bank shall not be liable for any penalties or interest arising from any error in due date or other calculations for deposits made within the period in which such other deposit was made. Bank may choose to provide its EasyTax Service through a third-party vendor. Bank and its third-party vendor's liability to Customer is limited to correcting any error made by the Bank or third-party vendor. The sole and exclusive remedy, at law or in equity, against Bank or third-party vendor is limited to money damages in an amount not to exceed the total amount paid to Bank for EasyTax fees during the twelve (12) months preceding the event giving rise to the liability. Neither Bank nor third-party vendor will be liable for special, incidental, indirect, punitive or consequential damages. Customer acknowledges that the EasyTax Service would not be available or would be available at substantially increased rates without the liability and remedy limitations set forth in this Agreement.

7. Codes. Customer shall keep confidential the access and PIN codes issued to Customer in connection with the Service, and only Customer shall use such codes. If Customer suspects that any such codes have become known or otherwise accessed by unauthorized persons, Customer shall notify Bank immediately and follow up such notice with written confirmation. The occurrence of unauthorized access will not affect any deposits made in good faith by Bank before Bank has received such notification and had a reasonable time to act to prevent any unauthorized deposits.

I. PAPER-BASED DISBURSEMENT SERVICES

1. Controlled Disbursement.

a. Disbursement Account. If requested by Customer and agreed to by Bank, Customer will open and maintain a demand deposit account ("Disbursement Account") and a primary funding account ("Funding Account") at Bank. The disbursing bank may be a financial institution that is a subsidiary or affiliate of Bank or Bank itself. Customer agrees to use Bank's Positive Pay Services in conjunction with the use of Disbursement Account(s). Should Customer decline to use Bank's Positive Pay Services in conjunction with the use of Disbursement Account(s), Customer agrees that, except with respect to liability, loss or damage caused by Bank's own lack of good faith or failure to exercise ordinary care, it will be precluded from asserting any claims against Bank for paying any unauthorized, altered, counterfeit or other fraudulent item that Bank's Positive Pay Service was designed to detect or deter. Bank also reserves the right to require Customer to execute a separate indemnity agreement related to its use of Disbursement Account(s). Customer hereby authorizes and directs Bank to act on its behalf and as its agent, as Bank in its sole discretion deems necessary or advisable, in performing any of the Controlled Disbursement Services and related Services.

b. Funding Procedures. On each Business Day, Bank shall electronically provide Customer with a report of the total aggregate amount of all presented disbursement checks and ACH transactions posted in the early morning ACH window, net of the prior day adjustment and other charges to the Disbursement Account (the "Total Clearings"). Customer agrees to maintain sufficient collected balances in the Funding Account by the established deadline to fund the Total Clearings. Bank is hereby authorized to debit the Funding Account in an amount equal to the actual or estimated Total Clearings and to transfer funds in said amount for credit to the Disbursement Account. Bank reserves the right to convert the Disbursement Account into a standard prepaid checking account at any time upon notice to Customer.

c. Adjustments. Bank will compare the report of electronic presentments to the checks presented against the Disbursement Account. If the total dollar amount of checks electronically reported is less than the total dollar amount of checks presented, Bank will credit the Disbursement Account for the difference. Bank will add this difference to Customer's Total Clearings the next Business Day.

d. Daily Dollar Limit. A daily dollar limit (the "Dollar Limit") may be established from time to time by Bank with respect to the Disbursement Account in Bank's sole discretion. Bank shall have no obligation to pay disbursement checks and ACH transactions (collectively, "Disbursement Items") in excess of the Dollar Limit. Bank may, at any time, either verbally or in writing (but shall not be deemed obligated to) notify Customer of any change made by Bank in the Dollar Limit. Establishment of the Dollar Limit should not be interpreted or construed by Customer as any commitment or agreement by Bank to provide any credit or loans to Customer, nor as an agreement or commitment to debit the Funding Account when doing so would create a negative balance therein.

e. Special Circumstances. Customer acknowledges that Bank, under some circumstances beyond its control, may at times be unable to provide a report of the total amount of its Total Clearings early enough for Customer to make a complete and acceptable funding of the accounts. Customer nevertheless agrees to fund the Funding Account completely by using an estimate of the Total Clearings.

f. Action Affecting Accounts. Should Bank receive any process, summons, order, injunction, execution, levy, lien, garnishment, or adverse claim notice (either by a governmental authority or third party) (hereinafter referred to as "Process"), which Bank reasonably believes will adversely affect the Funding Account or the Disbursement Account, Bank may, at its option and without liability, refuse to honor orders to pay or withdraw sums from any Disbursement Account and may either hold the Funding Account balance herein until such Process is disposed of to the satisfaction of Bank or pay the balance over to the source of the Process in accordance with applicable law.

g. Return of Disbursement Items Unpaid. Bank reserves the right, in Bank's sole discretion, to return unpaid any or all Disbursement Items presented for payment against the Disbursement Account in the event that:

- (i) there are insufficient collected and available balances on deposit in the Funding Account by the established deadline to fund the Total Clearings;
- (ii) debits cannot be posted because the Disbursement Account or Funding Account is frozen, blocked, closed or because of any other condition; or
- (iii) any communications failure or other condition prevents Bank from monitoring Customer's Dollar Limit and/or the Disbursement Items presented for payment.

h. Stop Payment Orders. Customer may issue stop payment orders on Disbursement Items drawn on the Disbursement Account in accordance with Bank's procedures.

2. Warrant Services.

a. Warrant Account. If requested by Customer and agreed to by Bank, Customer shall open and maintain a demand deposit account upon which warrants shall be drawn and will be charged (the "Warrant Account"). Customer shall maintain on deposit sufficient collected and available balances to cover items drawn on the Warrant Account.

b. Warrant Format. All warrants shall contain on the face of the item the words "warrant" and "payable through U.S. Bank." Customer will also encode all warrants in accordance with Bank specifications. Customer agrees to immediately make any changes to the format of the warrants or encoding when requested to do so by Bank and will be solely responsible for its failure or refusal to comply with Bank's specifications. Any warrant drawn by Customer on the Warrant Account shall be treated by Bank as a warrant regardless of what appears on the face of the warrant and Customer shall hold Bank harmless as a result of so handling any such item.

c. Presentment and Return. Bank shall make warrants presented to Bank available to Customer via electronic presentment. Bank shall notify Customer by electronic means of the account number, warrant number and dollar amount of all presented warrants and provide Customer with a front and back image of each warrant received by Bank. Bank's delivery of the images shall constitute an electronic presentment under the Uniform Commercial Code, Federal Regulation CC and other applicable laws. Warrant Services are additionally subject to the Reverse Positive Pay terms contained elsewhere in this Agreement. Customer shall notify Bank of each warrant that should be returned in the form agreed to by Bank and Customer. If Customer does not specifically decline payment of a warrant by the deadline established by Bank, such warrant will be finally paid by Bank. Customer acknowledges that warrants payable through Bank are considered to be drawn on Bank for purposes of the expeditious return and notice-of-nonpayment requirements of subpart C of Regulation CC of the Federal Reserve Board. If Bank agrees to return a warrant following Bank's deadline, Customer agrees to be responsible for Bank's failure to return the warrant in an expeditious manner as prescribed in Regulation CC. Bank shall be deemed to have made timely presentment to Customer with respect to any warrants that Bank receives at a time when it is prevented from making presentment to Customer as a result of any force majeure event illustrated in Section II.22.

d. Examination of Warrants. Bank shall have no responsibility to examine warrants prior to presentment to Customer for its payment decision. Bank will take ordinary care to see that the amount of each warrant as drawn is accurately posted to Customer's account. Bank will not make any attempt to verify signatures, endorsements or restrictive clauses on warrants. Bank will not examine the dates on which warrants have been drawn for undated, stale or post-dated items. Bank shall have no responsibility for any liability, loss or damage resulting from (i) a payment in accordance with this Section of any warrant that is altered or unsigned or that bears the forged or unauthorized signature of Customer or (ii) return of any check to the depository bank in accordance with this Section.

e. Encashment of Warrants. Unless otherwise instructed by Customer, Bank is authorized to pay warrants issued by Customer that are presented for encashment by payees. Bank will not be liable for the encashment of any warrant which contains, or is purported to contain, a forged signature of a maker or endorser, or any other unauthorized modification, as long as Bank exercises ordinary care in cashing the warrant.

J. POSITIVE PAY SERVICES

1. Introduction. Positive Pay Services are offered by Bank as the most effective way to minimize loss from fraudulent check issuance or payment. If Positive Pay Services are requested by Customer and agreed to by Bank, Customer and Bank agree that in the event of an inconsistency between this Agreement and applicable law, the provisions of this Agreement shall prevail to the extent permitted. Nothing in this Agreement is intended to limit Bank's right to return an item unpaid if there are insufficient available funds in the designated account.

2. Format Specifications. Customer shall comply at all times with Bank's format and data transmission standards for the Positive Pay Service. Customer agrees to issue checks, warrants, drafts or other items (collectively, "Items") in accordance with Bank's specifications and will change the Item format when requested to do so by Bank. Bank shall not be responsible for correcting or resolving processing problems caused by substandard quality magnetic encoding.

3. Positive Pay.

a. Customer Responsibilities. Customer shall designate to Bank all account(s) that are to be used with the Positive Pay Service ("Positive Pay Account(s)"). Customer will provide Bank with a file of all outstanding Items prior to activation of this Service. On each day that an Item is written against the Positive Pay Account, Customer shall supply Bank with all required Item issue information prior to the deadline established by Bank. Such information shall include, without limitation, the account number, the issue date, the Item number and the dollar amount. Customer shall be responsible for the accuracy and completeness of all information provided to Bank. Customer agrees to review all Positive Pay Exception Items (as defined below) each Business Day.

b. Bank's Responsibilities. In reliance on the information provided by Customer, Bank shall create a master issue file for each designated Positive Pay Account ("Issue File"). If ARP File Confirmation Service is selected by Customer, Bank shall process the Issue File and provide a confirmation to Customer that the Issue File was received and processed. Excluding valid stop payment orders and issue records voided by Customer request, all Items, including those that have been electronically converted, that match by Item number and dollar amount to Bank's Issue File will be deemed properly payable and Bank is authorized to pay all such Items.

c. Positive Pay Exceptions. Each Business Day, Bank shall make reasonable efforts to report to Customer any Item that does not match the Issue File (each, a "Positive Pay Exception") and, if requested and available, provide the front and back images of those Items for that day's presentment; provided, however, no images shall be provided in the case of electronically converted Items. Customer agrees to review and make payment decisions on the Positive Pay Exception Items prior to Bank's established deadline each Business Day. If Customer selects the Positive Pay Same Day service for controlled disbursement accounts, Customer shall receive and may make payment decisions on Positive Pay Exception Items prior to the Items posting to the controlled disbursement accounts or defer payment decisions until the established deadline on the next Business Day. As the most effective fraud-protection setup, "return all" shall be the initial default setup for all Positive Pay Exception Items. Under the "return all" setup, Bank is authorized to return any Positive Pay Exception Item unless Customer instructs Bank to pay a Positive Pay Exception Item prior to the established deadline. As an alternative to the "return all" setup, Customer may select "pay all" as its default setup for Positive Pay Exception Items, in which case Bank is authorized to finally pay any Positive Pay Exception Item unless Customer has instructed Bank to return the Positive Pay Exception Item prior to the established deadline. If Customer selects "pay all" as its default setup, Customer agrees to execute any further documentation required by Bank. Customer shall indemnify and hold Bank harmless from and against any and all claims, demands, damages, losses, liabilities, penalties and expenses (including, without limitation, reasonable attorney fees and court costs at trial or on appeal) arising directly or indirectly from Customer's selection of "pay all" as its default setup. Bank may rely on any instructions received from Customer that Bank reasonably believes to be genuine. Except with respect to liability, loss or damage caused by Bank's own lack of good faith

or failure to exercise ordinary care, Bank shall have no responsibility for any liability, loss or damage resulting from:

- (i) payment in accordance with this Section of any Positive Pay Exception Item that is altered or unsigned or which bears the forged or unauthorized signature of Customer;
- (ii) the return of any Positive Pay Exception Item to the depository bank in accordance with this Section; or
- (iii) Customer's failure to meet Bank's established deadlines. Customer may be required to place a stop payment order on any returned Positive Pay Exception Item, which shall be subject to Bank's customary stop payment fee. Bank's failure to report a discrepancy will not discharge Customer's obligation with regard to any Item and shall not obligate Bank to return any Item if it is otherwise properly payable.

d. Teller Positive Pay. All Positive Pay Accounts will interface with the Bank's teller system unless requested by Customer. Bank will compare Items presented for cash at a branch of the Bank with Customer's Issue File. Customer acknowledges that under some circumstances issuance information submitted by Customer may not be reflected in Customer's Issue File until the opening of the following Business Day. Customer agrees to follow Bank's established procedures should it need to manually add an Item to the Issue File. Bank will make reasonable efforts to assist Customer, but Customer acknowledges that Bank may be unable to process such requests on a same-day basis. If a special handling process for teller-cashed items is selected by Customer and agreed to by Bank, Bank shall attempt to contact Customer for approval prior to the encashment of any item that does not appear in the Issue File. Customer agrees that Bank, in its sole discretion, may refuse to cash any Positive Pay Exception Item and such refusal will not be deemed to be a wrongful dishonor. In the event of dishonor, Bank will refer the presenter to Customer. In the event that Customer requests Bank not activate or temporarily deactivate Teller Positive Pay, Customer agrees to assume all risk of loss for any Bank teller-cashed Item that would have been identified as a Positive Pay Exception Item prior to acceptance.

e. Teller Payee Positive Pay. If Customer selects the Teller Payee Positive Pay service, payee name(s), in addition to the Issue File information, will be verified at Bank's teller lines. Customer shall include in the Issue File the payee name(s) for each Item issued by Customer. Customer shall be responsible for the accuracy and completeness of the payee information provided to Bank. In reliance on the payee information provided by Customer, Bank will compare the payee information on the Item presented for encashment at a Bank teller line with Customer's Issue File. Customer acknowledges that Bank will not be able to validate payee information if payee information is not provided for a particular Item or for electronically converted Items presented to Bank for payment. Customer acknowledges that, under some circumstances, issuance information submitted by Customer may not be reflected in Customer's Issue File until the opening of the following Business Day. Customer agrees to follow Bank's established procedures should it need to manually add an Item to the Issue File. Bank will make reasonable efforts to assist Customer, but Customer acknowledges that Bank may be unable to process such requests on a same-day basis. If a special handling process for teller-cashed items is selected by Customer and agreed to by Bank, Bank shall attempt to contact Customer for approval prior to the encashment of any item that does not appear in the Issue File. Customer agrees that Bank, in its sole discretion, may refuse to cash any Positive Pay Exception Item, including where the payee name is not an exact match and such refusal will not be deemed to be a wrongful dishonor. In the event of dishonor, Bank will refer the presenter to Customer.

f. Payee Positive Pay. If Customer selects this option, which is available only through SinglePoint®, Customer's Item stock may first be tested to ensure it meets Bank's payee name readability rate. Customer shall designate to Bank all Positive Pay Accounts that shall use Payee Positive Pay. In addition to the Issue File information provided by Customer for the Positive Pay Service, Customer shall include in the Issue File the payee name(s) for each Item issued by Customer. Customer shall be responsible for the accuracy and completeness of the payee information provided to Bank. In reliance on the payee information provided by

Customer, Bank will compare the payee information on the Item with Customer's Issue File for Items presented or deposited at Bank. Customer acknowledges that Bank will not be able to validate payee information for electronically converted Items presented to Bank for payment. Bank may, in its sole discretion, impose variable parameters for which the payee information will not be reviewed for certain Items processed through the back office. If such parameters are imposed, Bank agrees to assume the risk of loss for an Item that would have been identified as a Positive Pay Exception solely on the basis of the payee information.

4. Reverse Positive Pay.

a. The Paid File. Customer shall identify all accounts subject to Reverse Positive Pay ("Reverse Positive Pay Account"). When an Item is presented for payment against an identified Reverse Positive Pay Account, Bank shall notify Customer prior to the designated time, and in no case later than the Business Day following the day of presentment, of the Reverse Positive Pay Account number, Item number and amount of the presented Item (the "Paid File") and, if requested and available, shall provide Customer with the front and back images of the Items. By electing Reverse Positive Pay, Customer assumes all fraudulent and other risks associated with teller-cashed Items, except as may be caused by Bank's own lack of good faith or failure to exercise ordinary care, unless Customer provides standing instructions to Bank to disallow encashment at the teller line.

b. Payment Instructions. Customer shall compare the information provided by Bank with Customer's Item issuance records. Customer shall notify Bank prior to the deadline established by Bank of Customer's decision on any reported Items that should be dishonored. Bank may rely on any instructions received from Customer that it reasonably believes to be genuine. Bank is authorized to finally pay any Item listed on the Paid File unless the Customer instructs Bank to return the Item prior to the established deadline. Except with respect to liability, loss or damage caused by Bank's own lack of good faith or failure to exercise ordinary care, Bank shall have no responsibility for any liability, loss or damage resulting from (i) a payment in accordance with this Section of any Item that is altered or unsigned or which bears the forged or unauthorized signature of Customer or (ii) return of any Item to the depository bank in accordance with this Section. Bank reserves the right to require Customer to place a stop payment order on any Item to be returned. Any such orders will be subject to Bank's customary stop payment fee. Customer shall notify Bank by the designated deadline if the Paid File has not been received from Bank. Bank will make reasonable efforts to provide the Paid File to Customer and honor Customer's instructions. Bank's failure to provide a Paid File will not discharge Customer's obligation with regard to any Item that was otherwise properly payable at the time of presentment.

K. LOCKBOX SERVICES

1. Lockbox Service Requirements. Bank provides wholesale, scannable wholesale and property management Lockbox Services, as well as E-Lockbox Services to assist customers in expediting receipt of their remittances. Customer will have its customers forward their payments to the location designated by Bank ("Lockbox"). Prior to initiation of any Lockbox Service, Customer must maintain a demand deposit account with Bank associated with the Lockbox Service ("Lockbox Account").

2. Testing; Remittances and Envelopes. Customer shall provide Bank samples of remittances and envelopes for testing and approval prior to using such remittances and envelopes in production. After implementation of Lockbox Services, if there are proposed changes to remittances and envelopes, Customer shall review the proposed changes with Bank and obtain Bank's approval prior to use. Bank may adjust the price for processing Customer's payments if changes are made to Customer's remittances and/or envelopes (including remittance scan line configuration) without such prior approval. Bank may request changes in Customer's remittances or envelopes due to changes in law or regulation, or as reasonably necessary due to equipment or processing improvements. If Customer fails to implement such changes, Bank may adjust the price for payment processing or cease processing Customer's payments as necessary to comply with law or regulation, as reasonably determined by Bank. Customer agrees not to provide any form of prepaid business reply mail envelopes for use with the Lockbox Services.

3. Access to Mail. Customer authorizes Bank or its agent to pick up mail at the appropriate postal facility, to have custody of the keys or combinations and unrestricted and exclusive access to such box, and to collect the mail therein to be processed by Bank as agreed by the parties. Bank shall process remittances in accordance with its standard procedures or in accordance with prior instructions received from Customer and agreed to by Bank. Upon termination of Customer's Lockbox Service, mail received shall be forwarded for ninety (90) days following termination.

4. Proprietary Rights. Bank possesses all proprietary rights to written material, including, without limitation, all computer programs written for Bank's Lockbox processing system, portable media, listings and other documentation originated and prepared by Bank. Customer shall not duplicate, sell or use in any manner such programs or documentation without the prior written consent of Bank.

5. Collections/Availability. Unless otherwise agreed, while Customer receives Lockbox Services, all collected funds held in the Lockbox Account shall be deemed to be Customer's funds for all purposes, including adjustment, attachment, execution, garnishment and other forms of legal process. The crediting and collection of items will be handled under the same agreement as applied to other commercial deposits and shall be subject to Bank's then current funds availability schedule.

6. Transmission of Information. Bank may transmit to Customer remittance information or other information received at the lockbox ("Lockbox Information") via secure electronic transmission. Customer further acknowledges that Bank has a duty to protect Lockbox Information and ensure that it is safely delivered to Customer and that Bank has deemed secure electronic transmissions to be the safest mechanism for delivery. If Customer elects to receive the Lockbox Information using other delivery means including paper remittance forwarding or Internet delivery, Customer acknowledges that such delivery means are inherently more insecure and agrees to assume all risk, and hold Bank harmless from, any obligations, liability or losses that result from the nonreceipt, disclosure, dissemination, alteration or unauthorized access of the Lockbox Information. If Customer is the recipient of misdirected Lockbox Information, Customer shall immediately notify Bank and return the information to Bank. Customer agrees not to retain, use, copy, distribute or otherwise disclose the information in any manner.

7. Image Delivery Services. Bank shall electronically store check images, check information, remittance information or other information received at the Lockbox in accordance with Bank's record retention schedule. Customer may obtain such images or information via Internet access, CDs (physical or virtual), DVDs (physical or virtual) or file

transmission, if available, at the price outlined in the fee schedule. If the images or information are sent via CD or DVD, Customer agrees to verify the contents of the CD or DVD upon receipt and request a replacement, if necessary, within 10 days of receipt. Customer is solely responsible for safeguarding the security and confidentiality of all images and information that is stored on Customer's computer systems, or printed or downloaded from the Internet, CDs, DVDs, or file transmissions.

8. Credit/Debit Card Processing. If Customer desires to provide its customers with the option of making their payments via credit card or non-PIN based debit card, Customer shall first secure approval from a payment transaction processor that Bank is able to support. Credit/debit card processing shall be subject to applicable laws, rules and regulations, and the terms of any other agreement between Customer and the payment transaction processor. Customer acknowledges that Bank is acting on behalf of Customer to merely initiate the authorization of payments at the Lockbox site, and that Bank shall have no responsibility for chargebacks, processing fees, payment disputes or other matters related to the credit/debit card transaction. Bank shall enter the credit/debit card information using its best efforts and if adjustments are subsequently required, Customer shall be responsible for handling all adjustments. In accordance with the requirements of the Payment Card Industry (PCI) Data Security Standard, Customer shall not request CVV or Card Verification Code or Value information (for example: CID, CVC2, CVV2 or CAV2) on remittance documents. Storage of this information is prohibited by the PCI Data Security Standard.

9. Foreign currency-denominated items and items drawn on foreign banks. If Customer desires to have non-U.S. dollar items processed by Bank, or items denominated in U.S. dollars but drawn on a foreign bank, Bank shall handle the items within parameters established by Bank based on amount, the type of currency and other considerations outlined in the Implementation Documents. If the item does not fall within Bank's parameters for processing, Bank shall return the item unprocessed to Customer or forward the item for handling as a foreign cash letter collection. If Bank provides Customer with credit at the U.S. dollar conversion rate in effect, and if the item is subsequently returned by the drawee Bank, Bank shall charge Customer's account for the prevailing exchange rate in effect at the time of the chargeback.

10. Compliance with Applicable Law. If specific lockbox handling requirements are required in order for Customer to comply with law or regulations applicable to Customer (for example, Regulation Z), Customer agrees to immediately notify Bank of any such requirements. If Bank is unable to accommodate Customer's specific requirements, Bank or Customer may immediately terminate the Lockbox Services.

11. Customer Responsibility. With respect to each item received at the Lockbox, Customer shall indemnify and hold Bank harmless from and against any and all claims, demands, damages, losses, liabilities, penalties and expenses (including, without limitation, reasonable attorney fees and court costs at trial or on appeal) arising directly or indirectly: (i) from Customer's breach of a representation or warranty under applicable law, clearinghouse rule, Federal Reserve Operating Circular, or other similar rules or regulations; or (ii) from any other act or omission arising out of Bank's action or inaction taken pursuant to any request by Customer or pursuant to this Agreement. This Section IV.K.11 shall survive termination of the Agreement.

12. Wholesale Lockbox Processing. Bank offers Wholesale Lockbox Processing services which allows for the processing of primarily business-to-business payments. Bank is authorized to remove and examine the contents of each envelope in accordance with Bank's wholesale lockbox servicing guidelines and shall observe the following guidelines provided in this Section. Bank shall capture, format and send remittance data to Customer via information reporting or data transmission in accordance with the Implementation Documents.

a. Check Date. Bank will not examine any checks or other items with respect to check dates.

b. Check Amount. If Bank is unable to determine the amount of a check, such check will be forwarded unprocessed to Customer as an exception.

c. Payee. Checks made payable to the Acceptable Payees listed in the Implementation Documents or any reasonable derivation thereof are acceptable for deposit. Checks made payable to others may be returned by Bank as exceptions. Customer warrants that each Acceptable Payee is either Customer, its affiliate, or an entity that has authorized Customer to act on its behalf for the Services provided herein. If the Acceptable Payee is an affiliate of Customer or an entity which authorized Customer to act on such entity's behalf, Customer represents and warrants that such affiliate or entity has authorized checks payable to it to be credited to the Lockbox Account. Bank may require written authorization from any Acceptable Payee or written evidence that an Acceptable Payee has authorized Customer to act on its behalf. If Customer designates 'Accept All Payees' in the Implementation Documents and Bank accepts such designation, Bank shall process all checks for credit to the Lockbox Account regardless of the payee name on the check. Such designation may be subject to additional Bank fees. Customer agrees to indemnify and hold Bank harmless for any claims, fines, expenses, and damages that arise out of Bank's processing of checks based on Customer's "Accept All Payees" designation.

d. Missing Signature. In the absence of a signature, Bank will process the check. Customer agrees to reimburse Bank if the check is subsequently returned.

e. Exceptions. If a check is treated as an exception, it will be forwarded by Bank to Customer with the remittance data, and not deposited or otherwise reflected in the account of Customer.

f. Correspondence. Any correspondence, invoices and miscellaneous enclosures which are included with a payment, as well as any envelope that does not contain a check, will be imaged and destroyed unless Customer specifies different instructions in the Implementation Documents.

g. Notation. Customer agrees that Bank shall disregard any notation on a check containing "paid in full", "lien waiver" or other restrictive notation, whether preprinted or handwritten, and treat any such check as though such notation did not appear thereon. If Customer instructs Bank not to process checks with restrictive notations and Bank agrees to do so, Bank will use its best efforts to detect checks bearing such notations, but Bank shall not be liable to Customer for failure to detect any such notation.

h. Document Order. Bank shall use its best efforts to process documents that are not in logical order, are difficult to identify, or which are received in unorganized large packages.

i. Remittance Document Forwarding. If remittance document or correspondence-only document forwarding is requested by the Customer and agreed to by Bank, Bank shall forward all remittance documents stacked in the order processed. If Customer requests forwarding of check photocopies, and Banks agrees to do so, the check photocopies will be stacked in the order processed on top of the remittance documents. Document forwarding has limited availability and is not available for all lockboxes.

13. Lockbox Remote Capture Services. Lockbox Remote Capture Services is an optional add-on service to the Wholesale Lockbox Processing service which provides eligible customers the ability to scan and transmit to Bank lockbox payments received at office locations. If Customer is approved for Lockbox Remote Capture Services, Customer agrees that Bank's Lockbox Remote Capture Services shall be governed by this this Section IV.K (Lockbox Services) and other relevant sections of this Agreement, including but not limited to, the Electronic Deposit Services section.

14. Scannable Wholesale Lockbox Processing/Property Management Lockbox Processing. Bank offers Scannable Wholesale Lockbox Processing services and Property Management Lockbox Processing services which allow for the automated processing of consumer-oriented payments. Bank is authorized to open each envelope and remove the contents, disregarding all notations and other marks on the envelopes. Bank shall not examine checks or other items with respect to payee names, check dates and check signatures. Bank is not required to retain remittance envelopes or forward them to Customer. Bank will disregard any restrictive notation on any check, including but not limited to "paid in

full", whether preprinted or handwritten, and shall treat any such check as though such language did not appear thereon. Bank will process, endorse and deposit remittances in accordance with its standard procedures. If Bank is unable to determine the amount of a check, such check will be forwarded to Customer as unprocessable. Bank will deliver miscellaneous enclosures, unprocessable transactions and remittance data in accordance with the Implementation Documents.

15. E-Lockbox. E-Lockbox provides Customer with the ability to receive consumer payments electronically that are initiated via the consumers' home banking portal or through other payment channels offered by third-party bill consolidators, including consumer credit counseling agencies.

a. Network. "Network" means the Mastercard Remote Payment and Presentment Service ("RPPS"), a division of Mastercard International, Inc., or other originators of consumer-initiated bill payments. Bank receives payments and remittance data via the Network. Bank will credit payments to Customer's account and electronically transmit the remittance data in Bank's standard or other mutually acceptable format for loading to Customer's accounts receivable system.

b. Customer's Responsibilities. Customer shall provide Bank with all data and specifications necessary for the Network to process payments and for Bank to transmit the remittance data to Customer. Customer agrees to conduct tests that Bank may deem necessary to ensure Customer and Bank are able to process the remittance data. The purchase, installation, testing and maintenance of any and all equipment used to receive and process information from Bank is the responsibility of Customer. As soon as possible, and in any event, no later than 48 hours after Bank transmits the remittance data to Customer, Customer agrees to process all such data and to inform Bank of any incorrect, unidentifiable or unprocessable information (collectively, "Returns").

c. Bank's Responsibilities. Bank shall develop a program to process and transmit remittance data received from the Network in Customer's preferred file format. Bank shall transmit Returns to the Network when Customer provides Bank with the Return information. Bank will credit Customer's account in an amount equal to the payments received and debit Customer's account in an amount equal to any Returns and, if applicable, any Reversals (defined below).

d. Reliance on Network. Customer acknowledges that Bank's ability to process payments and remittances are dependent upon the continued use and support of the Network and third-party computers housing the Network and its associated communications network. In the event that access to the Network or its computer communications system is terminated or suspended for any reason, Bank shall not be liable to Customer for any disruptions or failure to provide any part of this Service. Bank assumes no responsibility for the accuracy, timeliness or the completeness of data delivered from the Network to Bank.

e. Optional Reversal Transactions. Reversals are Network-initiated debit messages from payment originators informing of the cancellation of previous transactions. Customer may set debit caps on Reversals to limit the daily debit amount a payment originator may send through the Network. If Customer instructs Bank to accept Reversals, Customer hereby authorizes Bank to debit Customer's account for the amount of the Reversals.

f. Optional Biller Stop Payment. Biller Stop Payment allows Customer to provide Bank with instructions regarding payments that Customer does not want posted to its account. If Customer instructs Bank to stop a payment from posting to its account, Customer hereby authorizes Bank to return the payment through the Network. Payments that are stopped will not be included in Customer's settlement transaction or the remittance data provided to Customer.

L. HEALTHCARE PAYMENT CONSOLIDATOR

U.S. Bank Healthcare Payment Consolidator is a Service that enables Customers to electronically receive, post and reconcile healthcare payments and remittances received from health plans and/or other Agents. The Service accepts images of check payments, remittances and correspondence received by Bank or its vendors in paper form via lockbox, as well as electronically via Automated Clearinghouse (ACH). Electronic remittance files are delivered from the Service to Customer at an agreed upon schedule. Images are made available via website or file transmission. Customer agrees that the Service shall be governed by this Section and all other relevant sections of this Agreement.

1. Introduction. If Customer selects the Service, the Service may include, but is not limited to, lockbox, ACH, image viewing, data translation and file transmission services to assist Customer in expediting and automating receipt of their remittances. Prior to implementation of the Service, Customer must maintain a demand deposit account with Bank.

2. Processing, Collections and Availability. The Service is available where hardware and software have been configured by Bank to accommodate processing. Bank is authorized to examine the checks and remittances received at Customer's designated lockbox in accordance with Bank's lockbox servicing terms and guidelines. The crediting and collection of items will be handled in accordance with other commercial deposits processed by Bank and shall be subject to Bank's then current funds availability schedule.

3. Image Viewing and Storage. The Service processes and stores images of paper checks, explanation of benefits statements, correspondence or other enclosures, as well as images of electronic remittance advices and electronic funds transfers. Images are available to Customer for web viewing or via secure transmission as selected by Customer in the Implementation Documents. Original paper documents will be securely destroyed on a periodic basis.

4. File Transmission and Data Reporting. The Service will transmit to Customer remittance data according to the agreed upon schedule. Customer may elect to receive data through one or more delivery mechanisms as specified in the Implementation Documents. If the Service is terminated, Customer may obtain an FTP transmission or other available format of image information processed at the price outlined in the fee schedule.

5. Accuracy and Timeliness of Information. Performance of the Service may be affected by external factors such as communication network latency, mail delays and other factors beyond Bank's control. Information with respect to all transactions is provided solely for Customer's convenience, and Customer shall have no recourse to Bank with respect to the use of such information.

6. Customer Authorizations, Notifications and Responsibility. Customer authorizes Bank to disclose Customer information to Bank's vendors to the extent required to deliver the Service, and to debit or credit Customer's accounts in performance of the Service hereunder. Customer shall provide Bank or its vendors with all data and specifications necessary for processing. Customer shall conduct tests that Bank or its vendors may deem necessary to ensure that files may be exchanged and the Service implemented. Customer shall adhere to any and all applicable clearinghouse, local, state, or federal laws, rules or regulations.

7. Security Procedures. Customer will use the Service in accordance with the procedures established by Bank and its vendors. Customer will designate one or more System Administrator(s) responsible for establishing internal security procedures, including, without limitation, setting up and maintaining access available through the Service. Customer is solely responsible for maintaining a secure work environment to ensure against unauthorized access to the Service.

8. Proprietary Rights. Bank, or its vendors, possess all proprietary rights to written material including without limitation, all computer programs written for the Service, websites and other product documentation provided by Bank or its vendors. Customer shall not duplicate, sell or use in any manner such programs or documentation without the prior written consent of the applicable party. Customer will be bound by any terms of use and any license agreements associated with the Service.

M. COMMERCIAL SWEEP ACCOUNTS – LOAN OPTION

THIS NOTICE IS GIVEN PURSUANT TO APPLICABLE LAW: IN THE UNLIKELY EVENT OF THE BANK FAILURE, THE FEDERAL DEPOSIT INSURANCE CORPORATION ("FDIC") WILL ALLOW THE LOAN SWEEP TRANSFER OF EXCESS BALANCES IN CUSTOMER'S DEPOSIT ACCOUNT, ABOVE A PRE-ESTABLISHED THRESHOLD, OUT OF THE DEPOSIT ACCOUNT TO PAY DOWN THE LOAN AT BANK ON THE DAY OF FAILURE. THE REMAINING FUNDS IN THE DEPOSIT ACCOUNT WILL BE DEEMED DEPOSITS UNDER FDIC RULES AND WILL BE INSURED UP TO THE APPLICABLE FDIC LIMITS.

1. Definitions.

a. "Account" means Customer's deposit account at Bank which Customer has designated as being covered by the Services described herein.

b. "Available Funds" means the total of the collected funds in the Account as of the close of business on any Business Day, determined in accordance with the manner in which Bank generally provides credit for deposited checks.

c. "Business Day" means any day on which a majority of Bank's offices are open to the public for substantially all banking functions. Saturdays, Sundays, federal or state holidays or any day recognized by a Federal Reserve Bank as a holiday shall not be considered a Business Day, even if Bank's offices are open.

d. "Credit" means any loan arrangement which is designated as a line of credit where Bank has agreed will be subject to the Services described herein.

e. "Credit Agreement" means any loan agreement, promissory note, guaranty or other agreement, instrument or document which evidences, secures or guarantees the Credit.

f. "Deficiency Amount" means the amount by which the Target Balance exceeds the amount of Available Funds as of the close of business on any Business Day.

g. "Event of Insolvency" means any of the following: (i) Customer or Guarantor shall die or cease to exist; (ii) any Guarantor shall attempt to revoke its guaranty or other obligation to Bank, or such guaranty or other obligation shall become unenforceable in whole or in part; (iii) any bankruptcy, insolvency or receivership proceeding, or any assignment for the benefit of creditors, shall be commenced under any Federal or state law by or against Customer or any Guarantor; (iv) Customer or any Guarantor shall become the subject of any out-of-court settlement with its creditors; or (v) Customer or any Guarantor is unable or admits in writing its inability to pay its debts as they mature.

h. "Excess Funds" means the amount of Available Funds as of the close of business on any Business Day which exceeds the Target Balance.

i. "Guarantor" means any guarantor, surety, accommodation party or joint obligor of the obligations of Customer under the Credit.

j. "Target Balance" means that amount of funds which Customer desires to maintain in the Account and which is mutually agreeable to Bank and Customer from time to time.

k. "Transaction" means either a Loan Transaction or a Repayment Transaction.

2. Initiation of Transactions.

a. As of the close of business on each Business Day, Bank will determine the amount of Excess Funds, if any. If Bank determines that there are Excess Funds, Bank will debit the Account and credit the Credit in an amount equal to the lesser of (i) the amount of Excess Funds or (ii) the outstanding principal balance of the Credit plus all interest, fees and charges then outstanding under the Credit (a "Repayment Transaction"); provided, however, that Bank will not be required to initiate any Repayment Transaction in an amount less than a minimum sum mutually agreeable to Bank and Customer. Customer grants Bank a security interest in, and right of set-off to, the Account for purposes of effecting Repayment Transactions.

b. As of the close of business on each Business Day, Bank will determine the Deficiency Amount, if any. If Bank determines that there is a Deficiency Amount, Bank will charge the Credit in an amount equal to the lesser of (i) the amount by which such available balance is less than the Target Balance or (ii) the amount which is available to be borrowed under the Credit (the lesser of such amounts being referred to as the "Loan Amount"), plus the amount of any fees and charges under the Credit, and credit the Account in an amount equal to the Loan Amount (a "Loan Transaction"); provided, however, that Bank will not be required to initiate any Loan Transaction in an amount less than a minimum sum established by Bank, and Bank will not be required to initiate any Loan Transaction if any default exists under any Credit Agreement or this Agreement or Bank is otherwise excused or prohibited under any Credit Agreement or applicable law from making an advance to Customer. In addition, Bank will not be required to initiate any Loan Transaction, and the Services hereunder shall immediately and automatically terminate without notice, if: (A) the Credit has matured or been terminated; (B) Customer has cancelled the Credit; (C) an Event of Insolvency has occurred; or (D) Bank has demanded payment under the Credit.

c. If Bank has agreed to provide any other service to Customer pursuant to which Bank is authorized to transfer Excess Funds from the Account, (i) this Agreement shall prevail over the terms and conditions of such other service, (ii) Bank may initiate a Repayment Transaction or Loan Transaction under this Agreement in lieu of or prior to initiating the transfer of Excess Funds under such other service, and (iii) Bank shall not be in default as to such other service solely by reason of not initiating the transfer of Excess Funds under such other service.

3. Overdrafts. Bank may debit the Account as set forth in Section IV.M.1.a above, even though, subsequent to such debit, and as a result of additional transfers or withdrawals from the Account, the return of checks unpaid, or any other cause, the Account becomes overdrawn. In such event, Customer will be assessed Bank's then prevailing charges for overdrafts.

4. Ordinary Course. Customer and Bank intend that each Repayment Transaction hereunder be (a) in the ordinary course of business or financial affairs of Customer and Bank, and (b) made according to ordinary business terms.

5. Asset-Based Loan Sweep Advance. For each asset-based loan sweep transfer or loan sweep advance (each an "Asset Based Transfer"), Customer certifies to Bank that (i) the Asset Based Transfer is being made in accordance with the certain agreements between Bank and Customer (the "Asset Based Documents"); (ii) the Asset Based Transfer is not revocable by Customer; (iii) the representations and warranties set forth in the Asset Based Documents are true and correct as of the date of each Asset Based Transfer; and (iv) no default or event of default, however denominated, has occurred or is continuing under the Asset Based Documents or will result following the Asset Based Transfer.

6. Termination. In addition to the termination rights described elsewhere in the Agreement, Bank may terminate this Service immediately without notice to Customer if the index or other referenced rate upon which the interest rate for this Service is based is at any time less than zero percent.

N. COMMERCIAL SWEEP ACCOUNTS – INVESTMENT OPTION

NOTICE: INVESTMENT PRODUCTS, INCLUDING MONEY MARKET MUTUAL FUNDS, ARE NOT DEPOSITS OR OBLIGATIONS OF, OR GUARANTEED BY BANK OR ANY OF ITS AFFILIATES, NOR ARE THEY INSURED BY THE FDIC, OR ANY OTHER GOVERNMENT AGENCY. THE INVESTMENT OPTIONS OFFERED BY BANK UNDER THE COMMERCIAL SWEEP ACCOUNT ARE SUBJECT TO INVESTMENT RISKS, INCLUDING LOSS OF PRINCIPAL OF THE AMOUNT INVESTED.

1. General Terms Applicable to All Investment Options.

a. If a Commercial Sweep Account Investment Option has been requested and agreed to by Bank, Customer authorizes Bank to transfer funds on a manual or automated basis to and from the demand deposit account ("DDA") and Investment Option selected by Customer. Funds will be transferred between the accounts so that: (a) to the extent funds are available in either account, Customer's DDA maintains an average collected balance equal to a pre-established balance ("Peg Balance"); and (b) any collected funds in the DDA that exceed the Peg Balance ("Excess Funds") are invested by Bank as directed by Customer in accordance with this Agreement. Amounts invested in money market mutual funds, including investment income, will be redeemed and credited back to the DDA as needed so that the collected balance of Customer's DDA equals the Peg Balance. Amounts invested in other investment options, including interest or other investment income, will be credited back to the DDA each Business Day upon maturity. Bank may limit the amount of Excess Funds that it will invest on behalf of Customer on any particular Business Day. Bank may also impose a maximum redemption amount to bring the DDA to the Peg Balance on a particular Business Day. If Customer's Investment Option is not available on a given Business Day, then all Excess Funds will remain in the DDA until the next Business Day.

b. Bank is authorized to accept verbal instructions, including telephone instructions, from Customer representatives for the transfer of funds between Bank and Customer and between Customer's accounts. Bank may rely on any instructions received from Customer that it reasonably believes to be genuine.

c. Bank is authorized to execute as agent for Customer all certificates of ownership and other instruments required by law or by contract. Bank shall not be accountable for errors in judgment but only for gross negligence or willful misconduct. Bank shall not be required to comply with any direction of Customer which in Bank's judgment, may subject it to liability or to defend or prosecute any suit or action unless indemnified in a manner and amount satisfactory to it.

d. Customer may, by written instrument executed by Customer and delivered to Bank, terminate this Service and withdraw from the account the principal and accumulated income upon paying all sums due to Bank and indemnifying Bank to its satisfaction against liabilities incurred in the administration of the account.

e. Bank will act as agent to invest on the order and for the benefit of Customer. The Services described herein are provided by Bank to Customer solely as bona fide treasury management Services. Bank does not undertake any fiduciary obligation to Customer with respect to these Services. Bank's duties to act for Customer hereunder are solely mechanical and administrative in nature.

f. In addition to the termination rights described elsewhere in the Agreement, Bank may terminate this Service immediately without notice to Customer if the index or other referenced rate upon which the interest rate for this Service is based is at any time less than zero percent.

2. Investment Options.

a. Repurchase Agreements.

(i) Terms. If Customer chooses to invest Excess Funds in repurchase agreements, Customer and Bank agree to be bound by the Master Repurchase Agreement with Bank. If Customer's investments in repurchase agreements exceed its typical investment amount by \$10 million or more on a given Business Day, Customer agrees to notify Bank by providing sufficient advance notice to allow Bank to adequately collateralize the investments. Bank will exercise reasonable efforts to invest the entire amount but cannot guarantee full investment under these circumstances. If Customer fails to notify

Bank in advance or if Bank is unable to invest any or all of the additional funds in repurchase agreements, Customer agrees that Bank may be required to withhold or withdraw any interest that may have been previously paid.

- (ii) **Confirmations.** After each repurchase transaction, Bank will deliver to Customer via mail, fax, email, or other electronic means, including without limitation, posting to a password-protected website) a confirmation ("Confirmation") describing any information required by applicable law and any other terms and information which Bank may include at its discretion. The information contained in the Confirmation shall be considered true and correct and conclusively binding unless Customer notifies Bank of any error therein within three (3) Business Days after the date the Confirmation is mailed, faxed, emailed, personally delivered to Customer or sent via other electronic means, including without limitation, posting to a password-protected website. If Customer elects to receive Confirmations electronically, Customer acknowledges and agrees that Customer will no longer receive Confirmations by mail. If Customer desires to discontinue receiving Confirmations electronically, Customer shall provide written notice to Bank, whereupon Bank shall resume delivering mailed Confirmations.

b. Eurodollar Investments.

- (i) **Terms.** If Customer chooses to invest Excess Funds in Eurodollars, Bank is authorized to sweep Excess Funds from Customer's DDA into overnight Eurodollar time deposits at the Cayman Islands branch of Bank. The minimum amount that may be swept pursuant to this option is \$1,000. Excess Funds less than \$1,000 on a given Business Day will not be invested. The minimum amount may be increased if requested by Customer and agreed to by Bank. Customer's Eurodollar investments may be registered in the name of Bank's nominee or nominees. Earnings in Eurodollar investments shall be credited to Customer's DDA on a daily basis. CUSTOMER ASSUMES ALL RISK OF LOSS ARISING FROM ANY ACTION TAKEN WITH RESPECT TO THE CAYMAN DEPOSIT BY THE GOVERNMENT OF THE CAYMAN ISLANDS OR ANY SOVEREIGN OR MILITARY POWER (DE FACTO OR DE JURE).
- (ii) **THIS NOTICE IS GIVEN PURSUANT TO APPLICABLE LAW: IN THE UNLIKELY EVENT OF BANK FAILURE, THE BALANCES RESIDING IN CUSTOMER'S EURODOLLAR SWEEP ACCOUNT AT BANK WILL NOT BE DEEMED "DEPOSITS" UNDER RULES PROMULGATED BY THE FEDERAL DEPOSIT INSURANCE CORPORATION ("FDIC") AND WILL NOT BE INSURED BY THE FDIC. IN THE UNLIKELY EVENT OF BANK FAILURE, CUSTOMER'S CLAIM FOR FUNDS THAT WERE SWEEPED INTO THE EURODOLLAR SWEEP ACCOUNT WILL BE TREATED AS UNSECURED GENERAL CREDITOR CLAIMS.**

c. Money Market Mutual Funds ("Money Fund").

- (i) **Terms.** If Customer chooses the Money Fund sweep option, Excess Funds will be invested in the First American Money Market Fund offered for this Service. Excess Funds will be swept from the DDA to a pooled deposit account held in Bank's name. On the next Business Day, the Excess Funds from the pooled Deposit Account will be swept to the Money Fund to purchase shares. Customer's shares in the Money Fund will be held in Bank's name in an omnibus investment account, as agent on behalf of all Bank customers invested in the Money Fund. Customer grants to Bank a consensual possessory security interest in the omnibus investment account and all accounts maintained with Bank to secure payment of all of Customer's obligations under this Service. Customer will accrue dividends beginning on the Business Day the shares are purchased. Dividends accrue daily and are paid monthly on the last Business Day of the month. No dividends will accrue on the Business Day the shares are sold. If, for any reason, Money Fund shares are not available on any given Business Day, all Excess Funds will not be swept to the Money Fund and no dividends will accrue until shares become available for purchase. Funds in the DDA and in the pooled deposit account held at Bank will be treated as deposits and will be insured up to the applicable FDIC insurance limits. The Money Fund sweep option is only available to entities having a presence in the
- United States, which may be demonstrated by a U.S. mailing address and U.S. taxpayer identification number in Bank's records.
- (ii) **Customer Acknowledgments.** BY ACCEPTING THIS SERVICE, CUSTOMER HEREBY ACKNOWLEDGES THAT IT HAS RECEIVED A COPY OF THE PROSPECTUS OF THE DESIGNATED FUND. THIS PROSPECTUS FORMS PART OF THE IMPLEMENTATION DOCUMENTS AND WILL CONTROL OVER THE IMPLEMENTATION DOCUMENTS WITH RESPECT TO MONEY FUND SHARES. CUSTOMER FURTHER ACKNOWLEDGES THAT BANK IS NOT PROVIDING ANY INVESTMENT ADVICE HEREIN TO CUSTOMER AND MAKES NO REPRESENTATION OR WARRANTY AS TO THE SUITABILITY OR SAFETY OF THE INVESTMENTS IN ANY FUND OFFERED UNDER THIS SERVICE.
- (iii) **Money Fund Disclosures.** BANK AFFILIATES SERVE AS INVESTMENT ADVISOR, ADMINISTRATOR, CUSTODIAN, DISTRIBUTOR, TRANSFER AGENT, AND SECURITIES LENDING AGENT AND RECEIVE COMPENSATION FOR SUCH SERVICES AS DISCLOSED IN THE PROSPECTUS FOR THE DESIGNATED FUND. ALTHOUGH MONEY FUNDS SEEK TO PRESERVE THE VALUE OF CUSTOMER'S INVESTMENT AT \$1.00 PER SHARE, IT IS POSSIBLE TO LOSE MONEY BY INVESTING IN A MONEY FUND.
- (iv) **THIS NOTICE IS GIVEN PURSUANT TO APPLICABLE LAW: IN THE UNLIKELY EVENT OF BANK FAILURE, CUSTOMER WILL MAINTAIN ITS INTEREST IN THE MONEY FUND SHARES FOLLOWING A COMPLETED MONEY FUND SWEEP. THE VALUE OF THE SHARES IN THE MONEY FUND OMNIBUS INVESTMENT ACCOUNT WILL NOT BE DEEMED "DEPOSITS" UNDER RULES PROMULGATED BY THE FEDERAL DEPOSIT INSURANCE CORPORATION ("FDIC") AND WILL NOT BE INSURED BY THE FDIC. ON THE DAY OF FAILURE, HOWEVER, THE FDIC MAY DISALLOW THAT DAY'S SWEEP TO OCCUR. IF THE SWEEP IS DISALLOWED, ANY EXCESS FUNDS THAT WOULD HAVE NORMALLY SWEEPED ON THAT BUSINESS DAY WILL REMAIN IN THE DDA AND WILL BE TREATED AS DEPOSITS. THOSE DEPOSITS WILL BE INSURED UP TO THE APPLICABLE FDIC INSURANCE LIMITS.**

d. Commercial Paper.

- (i) **Terms.** If Customer chooses the Commercial Paper sweep option, Excess Funds shall be invested in an unsecured short-term promissory note issued by U.S. Bank National Association, and held in book entry. At the end of each Business Day, Excess Funds are automatically transferred from Customers' DDA into a sweep account that invests overnight in U.S. Bank National Association Commercial Paper. The minimum amount that may be swept pursuant to this option is \$1,000. Excess Funds less than \$1,000 on a given Business Day will not be invested. The minimum amount may be increased if requested by Customer and agreed to by Bank.
- (ii) **THIS NOTICE IS GIVEN PURSUANT TO APPLICABLE LAW: IN THE UNLIKELY EVENT OF BANK FAILURE, THE BALANCES RESIDING IN CUSTOMER'S COMMERCIAL PAPER SWEEP ACCOUNT AT BANK WILL NOT BE DEEMED "DEPOSITS" UNDER RULES PROMULGATED BY THE FEDERAL DEPOSIT INSURANCE CORPORATION ("FDIC") AND WILL NOT BE INSURED BY THE FDIC. IN THE UNLIKELY EVENT OF BANK FAILURE, CUSTOMER'S CLAIM FOR FUNDS THAT WERE SWEEPED INTO THE COMMERCIAL PAPER SWEEP ACCOUNT WILL BE TREATED AS UNSECURED GENERAL CREDITOR CLAIMS.**

- e. Business Savings Sweep.** If Customer chooses the Business Savings Sweep option, collected funds with a minimum of \$500 in excess of a Peg Balance shall be swept from Customer's DDA into a Business Savings Sweep Account (the "Savings Account"). The Peg Balance shall be set at a minimum of \$10,000 unless otherwise agreed to by Bank. Funds remain in the Savings Account until Customer's DDA reaches a negative balance, whereupon available funds are swept back into Customer's DDA in an amount necessary to return the DDA balance to the Peg Balance.

O. MASTER REPURCHASE AGREEMENT (MRA)

THIS NOTICE IS GIVEN PURSUANT TO APPLICABLE LAW: ALL FUNDS IN THE REPURCHASE AGREEMENT SWEEP WILL NOT BE DEEMED "DEPOSITS" AND WILL NOT BE INSURED BY THE FEDERAL DEPOSIT INSURANCE CORPORATION ("FDIC"). IN THE UNLIKELY EVENT OF BANK FAILURE, CUSTOMER WILL MAINTAIN ITS OWNERSHIP OR SECURITY INTEREST IN THE SECURITIES THAT ARE SUBJECT TO THE REPURCHASE AGREEMENT AND, UPON LIQUIDATION, WILL RECEIVE THE VALUE OF THE SECURITIES UP TO THE AMOUNT OF FUNDS SWEEPED FROM THE ACCOUNT.

1. Applicability. From time to time the parties hereto may enter into transactions in which one party ("Seller") agrees to transfer to the other ("Buyer") securities or other assets ("Securities") against the transfer of funds by Buyer, with a simultaneous agreement by Buyer to transfer to Seller such Securities at a date certain or on demand, against the transfer of funds by Seller. Each such transaction shall be referred to herein as a "Transaction" and, unless otherwise agreed in writing, shall be governed by this MRA and if applicable, Annex III and the Amendment to Annex III (International Transactions) of the SIFMA Master Repurchase Agreement (1996 version).

2. Definitions.

a. "Act of Insolvency", with respect to any party, (i) the commencement by such party as debtor of any case or proceeding under any bankruptcy, insolvency, reorganization, liquidation, moratorium, dissolution, delinquency or similar law, or such party seeking the appointment or election of a receiver, conservator, trustee, custodian or similar official for such party or any substantial part of its property, or the convening of any meeting of creditors for purposes of commencing any such case or proceeding or seeking such an appointment or election, (ii) the commencement of any such case or proceeding against such party, or another seeking such an appointment or election, or the filing against a party of an application for a protective decree under the provisions of the Securities Investor Protection Act of 1970, which (A) is consented to or not timely contested by such party, (B) results in the entry of an order for relief, such an appointment or election, the issuance of such a protective decree or the entry of an order having a similar effect, or (C) is not dismissed within 15 days, (iii) the making by such party of a general assignment for the benefit of creditors, or (iv) the admission in writing by such party of such party's inability to pay such party's debts as they become due;

b. "Additional Purchased Securities", Securities provided by Seller to Buyer pursuant to Paragraph 4(a) hereof;

c. "Buyer's Margin Amount", with respect to any Transaction as of any date, the amount obtained by application of the Buyer's Margin Percentage to the Repurchase Price for such Transaction as of such date;

d. "Buyer's Margin Percentage", with respect to any Transaction as of any date, a percentage (which may be equal to the Seller's Margin Percentage) agreed to by Buyer and Seller or, in the absence of any such agreement, the percentage obtained by dividing the Market Value of the Purchased Securities on the Purchase Date by the Purchase Price on the Purchase Date for such Transaction;

e. "Confirmation", the meaning specified in Paragraph 3(b) hereof;

f. "Income", with respect to any Security at any time, any principal thereof and all interest, dividends or other distributions thereon;

g. "Margin Deficit", the meaning specified in Paragraph 4(a) hereof;

h. "Margin Excess", the meaning specified in Paragraph 4(b) hereof;

i. "Margin Notice Deadline", the time agreed to by the parties in the relevant Confirmation, or otherwise as the deadline for giving notice requiring same day satisfaction of margin maintenance obligations as provided in Paragraph 4 hereof (or, in the absence of any such agreement, the deadline for such purposes established in accordance with market practice);

j. "Market Value", with respect to any Securities as of any date, the price for such Securities on such date obtained from a generally recognized

source agreed to by the parties or the most recent closing bid quotation from such a source, plus accrued Income to the extent not included therein (other than any Income credited or transferred to, or applied to the obligations of, Seller pursuant to Paragraph 5 hereof) as of such date (unless contrary to market practice for such Securities);

k. "Price Differential", with respect to any Transaction as of any date, the aggregate amount obtained by daily application of the Pricing Rate for such Transaction to the Purchase Price for such Transaction on a 360-day-per-year basis for the actual number of days during the period commencing on (and including) the Purchase Date for such Transaction and ending on (but excluding) the date of determination (reduced by any amount of such Price Differential previously paid by Seller to Buyer with respect to such Transaction);

l. "Pricing Rate", the per annum percentage rate for determination of the Price Differential;

m. "Prime Rate", the prime rate of U.S. commercial banks as published in The Wall Street Journal (or, if more than one such rate is published, the average of such rates);

n. "Purchase Date", the date on which Purchased Securities are to be transferred by Seller to Buyer;

o. "Purchase Price", (i) on the Purchase Date, the price at which Purchased Securities are transferred by Seller to Buyer, and (ii) thereafter, except where Buyer and Seller agree otherwise, such price increased by the amount of any cash transferred by Buyer to Seller pursuant to Paragraph 4(b) hereof and decreased by the amount of any cash transferred by Seller to Buyer pursuant to Paragraph 4(a) hereof or applied to reduce Seller's obligations under clause (ii) of Paragraph 5 hereof;

p. "Purchased Securities", the Securities transferred by Seller to Buyer in a Transaction hereunder. The term "Purchased Securities" with respect to any Transaction at any time also shall include Additional Purchased Securities delivered pursuant to Paragraph 4(a) hereof and shall exclude Securities returned pursuant to Paragraph 4(b) hereof;

q. "Repurchase Date", the date on which Seller is to repurchase the Purchased Securities from Buyer, including any date determined by application of the provisions of Paragraph 3(c) or 11 hereof;

r. "Repurchase Price", the price at which Purchased Securities are to be transferred from Buyer to Seller upon termination of a Transaction, which will be determined in each case (including Transactions terminable upon demand) as the sum of the Purchase Price and the Price Differential as of the date of such determination;

s. "Seller's Margin Amount", with respect to any Transaction as of any date, the amount obtained by application of the Seller's Margin Percentage to the Repurchase Price for such Transaction as of such date;

t. "Seller's Margin Percentage", with respect to any Transaction as of any date, a percentage (which may be equal to the Buyer's Margin Percentage) agreed to by Buyer and Seller or, in the absence of any such agreement, the percentage obtained by dividing the Market Value of the Purchased Securities on the Purchase Date by the Purchase Price on the Purchase Date for such Transaction.

3. Initiation; Confirmation; Termination.

a. An agreement to enter into a Transaction may be made orally or in writing at the initiation of either Buyer or Seller. On the Purchase Date for the Transaction, the Purchased Securities shall be transferred to Buyer or its agent against the transfer of the Purchase Price to an account of Seller.

b. Upon agreeing to enter into a Transaction hereunder, Buyer or Seller (or both), as shall be agreed, shall promptly deliver to the other party a written confirmation of each Transaction (a "Confirmation"). The Confirmation shall describe the Purchased Securities (including CUSIP number, if any), identify Buyer and Seller and set forth (i) the Purchase Date, (ii) the Purchase Price, (iii) the Repurchase Date, unless the Transaction is to be terminable on demand, (iv) the Pricing Rate or Repurchase Price applicable to the Transaction, and (v) any additional terms or conditions of the Transaction not inconsistent with this MRA. The Confirmation, together with this MRA, shall constitute conclusive evidence

of the terms agreed between Buyer and Seller with respect to the Transaction to which the Confirmation relates, unless with respect to the Confirmation specific objection is made promptly after receipt thereof. In the event of any conflict between the terms of such Confirmation and this MRA, this MRA shall prevail.

c. In the case of Transactions terminable upon demand, such demand shall be made by Buyer or Seller, no later than such time as is customary in accordance with market practice, by telephone or otherwise on or prior to the Business Day on which such termination will be effective. On the date specified in such demand, or on the date fixed for termination in the case of Transactions having a fixed term, termination of the Transaction will be effected by transfer to Seller or its agent of the Purchased Securities and any Income in respect thereof received by Buyer (and not previously credited or transferred to, or applied to the obligations of, Seller pursuant to Paragraph 5 hereof) against the transfer of the Repurchase Price to an account of Buyer.

4. Margin Maintenance.

a. If at any time the aggregate Market Value of all Purchased Securities subject to all Transactions in which a particular party hereto is acting as Buyer is less than the aggregate Buyer's Margin Amount for all such Transactions (a "Margin Deficit"), then Buyer may by notice to Seller require Seller in such Transactions, at Seller's option, to transfer to Buyer cash or additional Securities reasonably acceptable to Buyer ("Additional Purchased Securities"), so that the cash and aggregate Market Value of the Purchased Securities, including any such Additional Purchased Securities, will thereupon equal or exceed such aggregate Buyer's Margin Amount (decreased by the amount of any Margin Deficit as of such date arising from any Transactions in which such Buyer is acting as Seller).

b. If at any time the aggregate Market Value of all Purchased Securities subject to all Transactions in which a particular party hereto is acting as Seller exceeds the aggregate Seller's Margin Amount for all such Transactions at such time (a "Margin Excess"), then Seller may by notice to Buyer require Buyer in such Transactions, at Buyer's option, to transfer cash or Purchased Securities to Seller, so that the aggregate Market Value of the Purchased Securities, after deduction of any such cash or any Purchased Securities so transferred, will thereupon not exceed such aggregate Seller's Margin Amount (increased by the amount of any Margin Excess as of such date arising from any Transactions in which such Seller is acting as Buyer).

c. If any notice is given by Buyer or Seller under subparagraph (a) or (b) of this Paragraph at or before the Margin Notice Deadline on any Business Day, the party receiving such notice shall transfer cash or Additional Purchased Securities as provided in such subparagraph no later than the close of business in the relevant market on such day. If any such notice is given after the Margin Notice Deadline, the party receiving such notice shall transfer such cash or Securities no later than the close of business in the relevant market on the next Business Day following such notice.

d. Any cash transferred pursuant to this Paragraph shall be attributed to such Transactions as shall be agreed upon by Buyer and Seller.

e. Seller and Buyer may agree, with respect to any or all Transactions hereunder, that the respective rights of Buyer or Seller (or both) under subparagraphs (a) and (b) of this Paragraph may be exercised only where a Margin Deficit or Margin Excess, as the case may be, exceeds a specified dollar amount or a specified percentage of the Repurchase Prices for such Transactions (which amount or percentage shall be agreed to by Buyer and Seller prior to entering into any such Transactions).

f. Seller and Buyer may agree, with respect to any or all Transactions hereunder, that the respective rights of Buyer and Seller under subparagraphs (a) and (b) of this Paragraph to require the elimination of a Margin Deficit or a Margin Excess, as the case may be, may be exercised whenever such a Margin Deficit or Margin Excess exists with respect to any single Transaction hereunder (calculated without regard to any other Transaction outstanding under this MRA).

5. **Income Payments.** Seller shall be entitled to receive an amount equal to all Income paid or distributed on or in respect of the Securities that is not otherwise received by Seller, to the full extent it would be so entitled if the Securities had not been sold to Buyer. Buyer shall, as the parties may

agree with respect to any Transaction (or, in the absence of any such agreement, as Buyer shall reasonably determine in its discretion), on the date such Income is paid or distributed either (i) transfer to or credit to the account of Seller such Income with respect to any Purchased Securities subject to such Transaction or (ii) with respect to Income paid in cash, apply the Income payment or payments to reduce the amount, if any, to be transferred to Buyer by Seller upon termination of such Transaction. Buyer shall not be obligated to take any action pursuant to the preceding sentence (A) to the extent that such action would result in the creation of a Margin Deficit, unless prior thereto or simultaneously therewith Seller transfers to Buyer cash or Additional Purchased Securities sufficient to eliminate such Margin Deficit, or (B) if an Event of Default with respect to Seller has occurred and is then continuing at the time such Income is paid or distributed.

6. **Security Interest.** Although the parties intend that all Transactions hereunder be sales and purchases and not loans, in the event any such Transactions are deemed to be loans, Seller shall be deemed to have pledged to Buyer as security for the performance by Seller of its obligations under each such Transaction, and shall be deemed to have granted to Buyer a security interest in, all of the Purchased Securities with respect to all Transactions hereunder and all Income thereon and other proceeds thereof. In all Transactions, Seller is acting as agent for Buyer. In the event of Seller's default under the MRA, Buyer has the right to either: (i) direct Seller to sell the Securities or (ii) sell the Securities, and, following any sale pursuant to this sentence, apply the proceeds in satisfaction of Seller's liability hereunder.

7. **Payment and Transfer.** Unless otherwise mutually agreed, all transfers of funds hereunder shall be in immediately available funds. All Securities transferred by one party hereto to the other party (i) shall be in suitable form for transfer or shall be accompanied by duly executed instruments of transfer or assignment in blank and such other documentation as the party receiving possession may reasonably request, (ii) shall be transferred on the book entry system of a Federal Reserve Bank, or (iii) shall be transferred by any other method mutually acceptable to Seller and Buyer.

8. **Segregation of Purchased Securities.** To the extent required by applicable law, all Purchased Securities in the possession of Seller shall be segregated from other securities in its possession and shall be identified as subject to this MRA. Segregation may be accomplished by appropriate identification on the books and records of the holder, including a financial or securities intermediary or a clearing corporation. All of Seller's interest in the Purchased Securities shall pass to Buyer on the Purchase Date and, unless otherwise agreed by Buyer and Seller, nothing in this MRA shall preclude Buyer from engaging in repurchase transactions with the Purchased Securities or otherwise selling, transferring, pledging or hypothecating the Purchased Securities, but no such transaction shall relieve Buyer of its obligations to transfer Purchased Securities to Seller pursuant to Paragraph 3, 4 or 11 hereof, or of Buyer's obligation to credit or pay Income to, or apply Income to the obligations of, Seller pursuant to Paragraph 5 hereof.

Required Disclosure for Transactions in Which the Seller Retains Custody of the Purchased Securities

Seller is not permitted to substitute other securities for those subject to this MRA and therefore must keep Buyer's securities segregated at all times, unless in this MRA Buyer grants Seller the right to substitute other securities. If Buyer grants the right to substitute, this means that Buyer's securities will likely be commingled with Seller's own securities during the trading day. Buyer is advised that, during any trading day that Buyer's securities are commingled with Seller's securities, they may be subject to liens granted by Seller to third parties and may be used by Seller for deliveries on other securities transactions. Whenever the securities are commingled, Seller's ability to re-segregate substitute securities for Buyer will be subject to Seller's ability to satisfy any lien or to obtain substitute securities.

9. **Substitution.** Seller may not substitute other Securities for any Purchased Securities.

10. **Representations.** Each of Buyer and Seller represents and warrants to the other that (i) it is duly authorized to execute and deliver this MRA,

to enter into Transactions contemplated hereunder and to perform its obligations hereunder and has taken all necessary action to authorize such execution, delivery and performance, (ii) it will engage in such Transactions as principal (or, if agreed in writing in advance of any Transaction by the other party hereto, as agent for a disclosed principal), (iii) the person signing this MRA on its behalf is duly authorized to do so on its behalf (or on behalf of any such disclosed principal), (iv) it has obtained all authorizations of any governmental body required in connection with this MRA and the Transactions hereunder and such authorizations are in full force and effect, and (v) the execution, delivery and performance of this MRA and the Transactions hereunder will not violate any law, ordinance, charter, bylaw or rule applicable to it or any agreement by which it is bound or by which any of its assets are affected. On the Purchase Date for any Transaction Buyer and Seller shall each be deemed to repeat all the foregoing representations made by it.

11. Events of Default. In the event that (i) Seller fails to transfer or Buyer fails to purchase Purchased Securities upon the applicable Purchase Date, (ii) Seller fails to repurchase or Buyer fails to transfer Purchased Securities upon the applicable Repurchase Date, (iii) Seller or Buyer fails to comply with Paragraph 4 hereof, (iv) Buyer fails, after one Business Days' notice, to comply with Paragraph 5 hereof, (v) an Act of Insolvency occurs with respect to Seller or Buyer, (vi) any representation made by Seller or Buyer shall have been incorrect or untrue in any material respect when made or repeated or deemed to have been made or repeated, or (vii) Seller or Buyer shall admit to the other its inability to, or its intention not to, perform any of its obligations hereunder (each an "Event of Default"):

a. The non-defaulting party may, at its option (which option shall be deemed to have been exercised immediately upon the occurrence of an Act of Insolvency), declare an Event of Default to have occurred hereunder and, upon the exercise or deemed exercise of such option, the Repurchase Date for each Transaction hereunder shall, if it has not already occurred, be deemed immediately to occur (except that, in the event that the Purchase Date for any Transaction has not yet occurred as of the date of such exercise or deemed exercise, such Transaction shall be deemed immediately canceled). The non-defaulting party shall (except upon the occurrence of an Act of Insolvency) give notice to the defaulting party of the exercise of such option as promptly as practicable.

b. In all Transactions in which the defaulting party is acting as Seller, if the non-defaulting party exercises or is deemed to have exercised the option referred to in subparagraph (a) of this Paragraph, (i) the defaulting party's obligations in such Transactions to repurchase all Purchased Securities, at the Repurchase Price therefore on the Repurchase Date determined in accordance with subparagraph (a) of this Paragraph, shall thereupon become immediately due and payable, (ii) all Income paid after such exercise or deemed exercise shall be retained by the non-defaulting party and applied to the aggregate unpaid Repurchase Prices and any other amounts owing by the defaulting party hereunder, and (iii) the defaulting party shall immediately deliver to the non-defaulting party any Purchased Securities subject to such Transactions then in the defaulting party's possession or control.

c. In all Transactions in which the defaulting party is acting as Buyer, upon tender by the non-defaulting party of payment of the aggregate Repurchase Prices for all such Transactions, all right, title and interest in and entitlement to all Purchased Securities subject to such Transactions shall be deemed transferred to the non-defaulting party, and the defaulting party shall deliver all such Purchased Securities to the non-defaulting party.

d. If the non-defaulting party exercises or is deemed to have exercised the option referred to in subparagraph (a) of this Paragraph, the non-defaulting party, without prior notice to the defaulting party, may: (i) as to Transactions in which the defaulting party is acting as Seller, (A) immediately sell, in a recognized market (or otherwise in a commercially reasonable manner) at such price or prices as the non-defaulting party may reasonably deem satisfactory, any or all Purchased Securities subject to such Transactions and apply the proceeds thereof to the aggregate unpaid Repurchase Prices and any other amounts owing by the defaulting party hereunder or (B) in its sole discretion elect, in lieu of selling all or a portion of such Purchased Securities, to give the

defaulting party credit for such Purchased Securities in an amount equal to the price therefore on such date, obtained from a generally recognized source or the most recent closing bid quotation from such a source, against the aggregate unpaid Repurchase Prices and any other amounts owing by the defaulting party hereunder; and (ii) as to Transactions in which the defaulting party is acting as Buyer, (A) immediately purchase, in a recognized market (or otherwise in a commercially reasonable manner) at such price or prices as the non-defaulting party may reasonably deem satisfactory, securities ("Replacement Securities") of the same class and amount as any Purchased Securities that are not delivered by the defaulting party to the non-defaulting party as required hereunder or (B) in its sole discretion elect, in lieu of purchasing Replacement Securities, to be deemed to have purchased Replacement Securities at the price therefore on such date, obtained from a generally recognized source or the most recent closing offer quotation from such a source. The parties acknowledge and agree that (1) the Securities subject to any Transaction hereunder are instruments traded in a recognized market, (2) in the absence of a generally recognized source for prices or bid or offer quotations for any Security, the non-defaulting party may establish the source therefore in its sole discretion, and (3) all prices, bids and offers shall be determined together with accrued Income (except to the extent contrary to market practice with respect to the relevant Securities).

e. As to Transactions in which the defaulting party is acting as Buyer, the defaulting party shall be liable to the non-defaulting party for any excess of the price paid (or deemed paid) by the non-defaulting party for Replacement Securities over the Repurchase Price for the Purchased Securities replaced thereby and for any amounts payable by the defaulting party under Paragraph 5 hereof or otherwise hereunder.

f. For purposes of this Paragraph 11, the Repurchase Price for each Transaction hereunder in respect of which the defaulting party is acting as Buyer shall not increase above the amount of such Repurchase Price for such Transaction determined as of the date of the exercise or deemed exercise by the non-defaulting party of the option referred to in subparagraph (a) of this Paragraph.

g. The defaulting party shall be liable to the non-defaulting party for (i) the amount of all reasonable legal or other expenses incurred by the non-defaulting party in connection with or as a result of an Event of Default, (ii) damages in an amount equal to the cost (including all fees, expenses and commissions) of entering into replacement transactions and entering into or terminating hedge transactions in connection with or as a result of an Event of Default, and (iii) any other loss, damage, cost or expense directly arising or resulting from the occurrence of an Event of Default in respect of a Transaction.

h. To the extent permitted by applicable law, the defaulting party shall be liable to the non-defaulting party for interest on any amounts owing by the defaulting party hereunder, from the date the defaulting party becomes liable for such amounts hereunder until such amounts are (i) paid in full by the defaulting party or (ii) satisfied in full by the exercise of the non-defaulting party's rights hereunder. Interest on any sum payable by the defaulting party to the non-defaulting party under this Paragraph 11(h) shall be at a rate equal to the greater of the Pricing Rate for the relevant Transaction or the Prime Rate.

i. The non-defaulting party shall have, in addition to its rights hereunder, any rights otherwise available to it under any other agreement or applicable law.

12. Single Agreement. Buyer and Seller acknowledge that, and have entered hereinto and will enter into each Transaction hereunder in consideration of and in reliance upon the fact that, all Transactions hereunder constitute a single business and contractual relationship and have been made in consideration of each other. Accordingly, each of Buyer and Seller agrees (i) to perform all of its obligations in respect of each Transaction hereunder, and that a default in the performance of any such obligations shall constitute a default by it in respect of all Transactions hereunder, (ii) that each of them shall be entitled to set off claims and apply property held by them in respect of any Transaction against obligations owing to them in respect of any other Transactions hereunder, and (iii) that payments, deliveries and other transfers made by either of them in respect of any Transaction shall be deemed to have been

made in consideration of payments, deliveries and other transfers in respect of any other Transactions hereunder, and the obligations to make any such payments, deliveries and other transfers may be applied against each other and netted.

13. Notices and Other Communications. Any and all notices, statements, demands or other communications hereunder may be given by a party to the other by mail, facsimile, telegraph, messenger or otherwise to the address specified by Bank, or so sent to such party at any other place specified in a notice of change of address hereafter received by the other. All notices, demands and requests hereunder may be made orally, to be confirmed promptly in writing, or by other communication as specified in the preceding sentence.

14. Entire Agreement; Severability. This MRA shall supersede any existing agreements between the parties containing general terms and conditions for repurchase transactions. Each provision and agreement herein shall be treated as separate and independent from any other provision or agreement herein and shall be enforceable notwithstanding the unenforceability of any such other provision or agreement.

15. Nonassignability; Termination.

a. The rights and obligations of the parties under this MRA and under any Transaction shall not be assigned by either party without the prior written consent of the other party, and any such assignment without the prior written consent of the other party shall be null and void. Subject to the foregoing, this MRA and any Transactions shall be binding upon and shall inure to the benefit of the parties and their respective successors and assigns. This MRA may be terminated by either party upon giving written notice to the other, except that this MRA shall, notwithstanding such notice, remain applicable to any Transactions then outstanding.

b. Subparagraph (a) of this Paragraph 15 shall not preclude a party from assigning, charging or otherwise dealing with all or any part of its interest in any sum payable to it under Paragraph 11 hereof.

16. Governing Law. This MRA shall be governed by the laws of the State of New York without giving effect to the conflict of law principles thereof.

17. No Waivers, Etc. No express or implied waiver of any Event of Default by either party shall constitute a waiver of any other Event of Default and no exercise of any remedy hereunder by any party shall constitute a waiver of its right to exercise any other remedy hereunder. No modification or waiver of any provision of this MRA and no consent by any party to a departure herefrom shall be effective unless and until such shall be in writing and duly executed by both of the parties hereto. Without limitation on any of the foregoing, the failure to give a notice pursuant to Paragraph 4(a) or 4(b) hereof will not constitute a waiver of any right to do so at a later date.

18. Use of Employee Plan Assets.

a. If assets of an employee benefit plan subject to any provision of the Employee Retirement Income Security Act of 1974 ("ERISA") are intended to be used by either party hereto (the "Plan Party") in a Transaction, the Plan Party shall so notify the other party prior to the Transaction. The Plan Party shall represent in writing to the other party that the Transaction does not constitute a prohibited transaction under ERISA or is otherwise exempt therefrom, and the other party may proceed in reliance thereon but shall not be required so to proceed.

b. Subject to the last sentence of subparagraph (a) of this Paragraph, any such Transaction shall proceed only if Seller furnishes or has furnished to Buyer its most recent available audited statement of its financial condition and its most recent subsequent unaudited statement of its financial condition.

c. By entering into a Transaction pursuant to this Paragraph, Seller shall be deemed (i) to represent to Buyer that since the date of Seller's latest such financial statements, there has been no material adverse change in Seller's financial condition which Seller has not disclosed to Buyer, and (ii) to agree to provide Buyer with future audited and unaudited statements of its financial condition as they are issued, so long as it is a Seller in any outstanding Transaction involving a Plan Party.

19. Intent.

a. The parties recognize that each Transaction is a "repurchase agreement" as that term is defined in Section 101 of Title 11 of the United States Code, as amended (except insofar as the type of Securities subject to such Transaction or the term of such Transaction would render such definition inapplicable), and a "securities contract" as that term is defined in Section 741 of Title 11 of the United States Code, as amended (except insofar as the type of assets subject to such Transaction would render such definition inapplicable).

b. It is understood that either party's right to liquidate Securities delivered to it in connection with Transactions hereunder or to exercise any other remedies pursuant to Paragraph 11 hereof is a contractual right to liquidate such Transaction as described in Sections 555 and 559 of Title 11 of the United States Code, as amended.

c. The parties agree and acknowledge that if a party hereto is an "insured depository institution," as such term is defined in the Federal Deposit Insurance Act, as amended ("FDIA"), then each Transaction hereunder is a "qualified financial contract," as that term is defined in FDIA and any rules, orders or policy statements thereunder (except insofar as the type of assets subject to such Transaction would render such definition inapplicable).

d. It is understood that this MRA constitutes a "netting contract" as defined in and subject to Title IV of the Federal Deposit Insurance Corporation Improvement Act of 1991 ("FDICIA") and each payment entitlement and payment obligation under any Transaction hereunder shall constitute a "covered contractual payment entitlement" or "covered contractual payment obligation", respectively, as defined in and subject to FDICIA (except insofar as one or both of the parties is not a "financial institution" as that term is defined in FDICIA).

20. Disclosure Relating to Certain Federal Protections. The parties acknowledge that they have been advised that:

a. In the case of Transactions in which one of the parties is a broker or dealer registered with the Securities and Exchange Commission ("SEC") under Section 15 of the Securities Exchange Act of 1934 ("1934 Act"), the Securities Investor Protection Corporation has taken the position that the provisions of the Securities Investor Protection Act of 1970 ("SIPA") do not protect the other party with respect to any Transaction hereunder;

b. In the case of Transactions in which one of the parties is a government securities broker or a government securities dealer registered with the SEC under Section 15C of the 1934 Act, SIPA will not provide protection to the other party with respect to any Transaction hereunder; and

c. In the case of Transactions in which one of the parties is a financial institution, funds held by the financial institution pursuant to a Transaction hereunder are not a deposit and therefore are not insured by the Federal Deposit Insurance Corporation or the National Credit Union Share Insurance Fund, as applicable.

P. ZERO BALANCE ACCOUNT (ZBA) SERVICES

1. General. ZBA Services allow Customer to concentrate balances across multiple checking accounts consisting of a lead ("Master Account") and one or more sub-accounts funded by the Master Account. At the close of each Business Day, at a time determined by Bank, Bank shall transfer available or collected balances between the Master Account and sub-account(s) via two-way automatic transfers to ensure that the sub-accounts maintain a zero balance or a balance otherwise designated by Customer (collectively, the "Established Balance"). In addition, one-way transfers can be made from: (i) the Master Account to the sub-account; (ii) the sub-account to the Master Account; or (iii) the Master Account to the sub-account with deposits remaining in the sub-account.

Customer agrees to maintain sufficient available funds in the Master Account to cover the aggregate debits made to the sub-accounts to enable the sub-accounts to be maintained at the Established Balance at the close of each Business Day. If the available balance in the Master Account is insufficient to restore the balance in a sub-account to the Established Balance, a lesser amount may be transferred to the sub-account in Bank's sole discretion. If there are multiple sub-accounts and insufficient funds in the Master Account to fund all sub-accounts, Bank may, in its sole discretion, determine which sub-accounts to fund and to what extent. In addition, Bank may, in its sole discretion, either (i) reject any checks or other debit items drawn on any sub-account or (ii) accept any checks or other debit items drawn on a sub-account, even if such acceptance would bring the sub-account below the Established Balance. If Bank must reverse a provisional credit and such reversal causes the Master Account to have a negative balance, Customer agrees that Bank may reverse the transfer of any funds, in whole or in part, between the sub-account and the Master Account, and Bank may additionally reject any items not finally paid on the sub-account. Bank reserves the right to suspend or terminate ZBA Services without prior notice to Customer.

2. Focal Point Plus. If selected by Customer, the Focal Point Plus Service allows Customer to: (i) concentrate balances across multiple checking accounts consisting of a lead ("Master Account") with one or more subaccounts ("Shadow Accounts"), which are all funded by the Master Account; and (ii) track transactions with location reporting. Two-way automatic transfers ensure the Shadow Accounts maintain a zero balance. One-way transfers can also be made from the Shadow Accounts to the Master Account. Customer acknowledges and agrees the Shadow Accounts are deemed to be part of the Master Account for purposes of this Agreement and cannot be used to process transactions independent of the Master Account.

Q. SINGLEPOINT® INTERNATIONAL REQUEST FOR TRANSFER SERVICES

The U.S. Bank SinglePoint® International Request for Transfer Services will enable domestic or foreign organizations doing cross-border business to initiate or execute payment or transfer instructions from, or between, Customer accounts held at Bank and foreign banks. Prior to implementation of this Service, the Forwarding Bank and the Executing Bank must enter into a Bilateral Agreement referencing their mutual accession to the SWIFT Request for Transfer (MT101) Service Level or other relevant Service Level. Bank acts in the capacity of the Forwarding Bank with respect to all Requests for Transfer. This Service or other similar remote initiation Services offered by Bank are governed by this Agreement, the Bilateral Agreement, the Interbank Agreement, and all other applicable federal, state and local laws and regulations. Unless otherwise defined, all capitalized terms shall have the meanings set forth in the Interbank Agreement and Bilateral Agreement.

1. Definitions.

- a. "Beneficiary" means the person or entity designated in the Originator's instruction to receive funds.
- b. "Beneficiary Bank" means the financial institution crediting the funds to the Beneficiary's account.
- c. "Execute" or "Execution" means the debiting of the Originator's account by the Executing Bank pursuant to a Request for Transfer from the Forwarding Bank and the forwarding of the credit transfer to the Beneficiary Bank.
- d. "Executing Bank" means the financial institution that receives and Executes the Request for Transfer from the Forwarding Bank and then forwards the credit transfer to the Beneficiary Bank.
- e. "Forwarding Bank" means a financial institution receiving a Request for Transfer from the Instructing Party and forwarding it to the Executing Bank.
- f. "Instructing Party" means a customer of the Forwarding Bank, which could be an office, department or division of the Originator, or a separate legal entity, authorized by the Originator to initiate a Request for Transfer to the Forwarding Bank.
- g. "Interbank Agreement" means the Service Level Master Agreement (SLMA) and Request for Transfer Service Level Rules and Regulations (MT 101) or other relevant Service Levels offered by Society for Worldwide Interbank Financial Telecommunication (SWIFT), to which the Forwarding Bank and the Executing Bank are a party.
- h. "Originator" means the customer of the Executing Bank whose account is to be debited pursuant to a Request for Transfer.
- i. "Request for Transfer" means a transfer instruction received by the Forwarding Bank from the Instructing Party for onward transmission as an MT101 to the Executing Bank, and which is capable of being processed under an Interbank Agreement.

2. Bank as the Forwarding Bank. If Customer selects Bank as the Forwarding Bank, Customer is deemed to be the Instructing Party for all Requests for Transfer. Customer will appoint those individuals authorized to instruct Bank regarding Request for Transfer Services ("Authorized Users") via the relevant Implementation Documents and System Administrator designations establishing the Authorized Users' access authority and transaction limits. Bank may rely on any such authorization until it has received Customer's written notice of revocation and has had a reasonable opportunity to act thereon. Customer and its Authorized Users and other Agents shall maintain the highest possible level of confidentiality with regard to PINs or other security devices and will take all steps necessary to prevent access to them by unauthorized persons. Customer shall be responsible for the accuracy, completeness and timeliness of all Requests for Transfer sent to Bank. Requests for Transfer received after Bank's established deadline or on any non-Business Day, including any Saturday, Sunday, holiday or any day that Bank's wire department is not open, will be considered received on the next Business Day. Customer authorizes Bank to process and forward to the Executing Bank all Requests for Transfer received in accordance with any established security procedures. Notwithstanding the foregoing, Bank does not

assume any responsibility for the Execution of the Request for Transfer by the Executing Bank and completion of the credit transfer to the Beneficiary Bank. Customer understands and acknowledges that any applicable callback notifications on PIN limits established by Customer with Bank for wire transfer dollar thresholds do not apply to Requests for Transfer. Customer agrees not to initiate a Request for Transfer in violation of applicable federal, state or local law or regulations.

3. Security Procedures. Customer and Bank shall comply with any established security procedures with respect to the initiation and forwarding of any Request for Transfer, including but not limited to, the SWIFT authentication procedures identified in the SWIFT User Handbook, as amended from time to time. Customer agrees that any such security procedures shall be deemed commercially reasonable. Customer understands that the security procedures are not intended for the purpose of detecting errors in the transmission or content of a Request for Transfer controlled by Customer. Customer agrees to be bound by any Request for Transfer sent in the name of Customer that is processed by Bank in compliance with the agreed security procedures whether or not authorized.

4. Amendment or Cancellation. Customer does not have the right to reverse, adjust or revoke any Request for Transfer after it has been received by Bank; provided, however, that Bank will make a reasonable effort to act on such a request by Customer. With respect to a Request for Transfer that has already been Executed, Bank may intervene at Customer's request, to request that the Beneficiary Bank return all or a portion of the funds. Customer understands that the Beneficiary Bank is under no legal obligation to comply with this request.

5. Rejection/Repair. Bank may reject a Request for Transfer if: (i) it is not initiated or transmitted in accordance with the applicable security procedures; (ii) there is any inconsistency between a Request for Transfer and information previously supplied to Bank; or (iii) Bank has other reasonable grounds not to honor the Request for Transfer. Bank shall have no obligation to repair any Request for Transfer it receives but may, in its absolute discretion, endeavor to repair any Request for Transfer. Bank shall notify Customer of any rejections or suspensions.

6. Limits on Bank's Liability. Bank sends outgoing and receives incoming Requests for Transfer using SWIFT. Bank shall not be responsible for the acts or omissions of Customer, the SWIFT network, other financial institution or any other person. Payment to a foreign country is subject to the laws of the foreign country involved. Bank assumes no liability for foreign exchange risk, delays, non-delivery or other events resulting from causes beyond Bank's control.

R. SWIFT-RELATED SERVICES

The SWIFT-Related Services (the "Service") will enable organizations with domestic or cross-border activity to initiate or execute payment or transfer instructions from Customer's Bank account to another account held at Bank or a third-party bank, and to receive account information and payment notifications from Bank via products and services offered by the Society for Worldwide Interbank Financial Telecommunication ("SWIFT"). This Service or other similar services offered by Bank are governed by this Agreement, applicable SWIFT agreements, rules, and terms and conditions (collectively, "SWIFT Terms"), and all other applicable federal, state and local laws and regulations. Unless otherwise defined, all capitalized terms shall have the meanings set forth in the SWIFT Terms.

1. Definitions.

- a. "Account Reporting" means cash management notifications, transaction and account information provided by Bank to Customer.
- b. "Beneficiary" means the person or entity (including Customer) designated in Customer's Transfer Request to receive funds.
- c. "Beneficiary Bank" means the financial institution (including Bank) that credits the funds to the Beneficiary's account.
- d. "Execute" or "Execution" means the debiting of Customer's account by Bank and the forwarding of the credit transfer to the Beneficiary Bank pursuant to a Transfer Request from Customer.
- e. "FileAct" means a file transfer service that utilizes the SWIFT infrastructure to enable the transfer of data in various file formats.
- f. "Transfer Request" means a MT103 or other SWIFT transfer instruction sent by Customer to Bank for onward processing. If SWIFT-Related services are accessed using SCORE, "Transfer Request" means a MT101 Request for Transfer instruction.
- g. "SCORE" means the Standardized Corporate Environment, a SWIFT direct access corporate service which offers Customer a secure connection and standardized environment to manage Customer's payments and payment information.

2. Security Procedures. Customer shall comply with all security procedures established by Bank for the SWIFT-Related Services, including but not limited to, the SWIFT authentication procedures identified in the SWIFT User Handbook, as amended from time to time. Customer agrees that any such security procedures shall be deemed commercially reasonable. Customer understands that the security procedures are not intended for the purpose of detecting errors in the transmission or content of any Account Reporting, or of a Transfer Request controlled by Customer. Customer is solely responsible for maintaining its own internal security procedures to prevent errors or unauthorized access to Customer's computer systems by unauthorized employees, vendors or customers. Customer agrees to be bound by any Transfer Request that appears to have been sent by Customer that is processed by Bank in compliance with the agreed security procedures, whether or not authorized. Bank will use reasonable care in transmitting the Account Reporting but assumes no responsibility for the accuracy or timeliness of the information supplied by other financial institutions, the SWIFT network. Customer agrees to immediately notify and fully cooperate with Bank if it suspects or becomes aware of any breach or compromise of the security of the SWIFT-Related Services.

3. Transmission and Processing of Transfer Requests. Customer authorizes Bank to Execute all Transfer Requests delivered to Bank by Customer in compliance with the terms of this Agreement and any established security procedures. Customer shall adhere to formatting and processing requirements established by Bank. Customer authorizes Bank to use whatever means Bank, in good faith, deems reasonable under the circumstances to execute each Transfer Request, including selection of a funds transfer system, routing and means of transmission. Customer shall be responsible for the accuracy, completeness and timeliness of all Transfer Requests sent to Bank for Execution. Transfer Requests with settlement dates of more than thirty (30) calendar days from receipt may not be processed unless prior arrangements have been made. Customer is solely responsible for initiating Transfer Requests sufficiently in advance to meet Customer's contractual obligations to its vendors and/or customers. Bank shall not be responsible for any late payment or finance charges that may result from Customer's failure to allow sufficient lead-time to make a Transfer Request. Bank and any other financial institution may rely on the account, routing or BIC numbers in the Transfer Requests

even if such numbers do not correspond to the name of Customer, the Beneficiary or the Beneficiary Bank.

4. Amendment or Cancellation of Transfer Requests. Customer does not have the right to reverse, adjust or revoke any Transfer Request after it has been received by Bank; provided, however, that Bank will make a reasonable effort to act on such a request by Customer. With respect to a Transfer Request that has already been Executed, Bank shall, at Customer's request, request that the Beneficiary Bank return all or a portion of the funds. Customer understands that the Beneficiary Bank is under no legal obligation to comply with this request.

5. Rejection/Repair of Transfer Requests. Bank may reject a Transfer Request if: (i) it is not initiated or transmitted in accordance with the applicable security procedures; (ii) does not adhere to Bank's formatting or processing requirements; (iii) there is any inconsistency between a Transfer Request and information previously supplied to Bank; (iv) Customer's Transfer Requests exceed any applicable transaction limits established by Bank; (v) if there are insufficient collected funds in Customer's account to fund the Transfer Request; or (vi) Bank has other reasonable grounds not to honor the Transfer Request. Bank shall have no obligation to repair any Transfer Request it receives but may, in its absolute discretion, endeavor to do so.

6. Account Reporting. Bank may send notifications that allow Customer to receive advices relating to Customer's payments processed by Bank. Bank may also provide Customer with information on accounts maintained at Bank. If Customer elects to receive notifications and other account information via SWIFT, Customer shall exercise extreme care in maintaining its own security in the receipt of the notifications or information. Customer acknowledges that the data received via SWIFT may include confidential information, including, without limitation, names, amounts, phone numbers and account information. Customer further acknowledges that it alone assumes full responsibility for maintenance of its internal security procedures to keep such information confidential.

7. Limits on Bank's Liability. Bank will use reasonable efforts to provide notifications and information in a prompt fashion but shall not be liable for the temporary failure to provide timely data. Bank assumes no responsibility for any delays caused, or for inaccurate or incomplete information provided, by the SWIFT network or third-party banks with respect to payments and related information. Bank shall not be responsible for the acts or omission of Customer, the SWIFT network, any other financial institution or any other person. Payment to a foreign country is subject to the laws of the foreign country involved. Bank assumes no liability for foreign exchange risk, delays, non-delivery or other events resulting from causes beyond Bank's control.

8. SCORE. If Customer accesses the SWIFT-Related Services using SCORE, Customer shall additionally comply with applicable SWIFT agreements, documentation, user guides, security procedures and all other instructions and recommendations provided by SWIFT or by Bank in relation to the use of SCORE. Customer acknowledges that Bank does not regulate the setup and provision of SWIFT membership, joining the SWIFT network or SCORE, the SWIFT network security or the facilities necessary to access and use them. Customer represents that it is, and will throughout the term of this Service remain, an authorized SWIFT participant. Customer authorizes Bank to act on any instruction contained in a SWIFT message received by Bank through SCORE which appears to have been sent by Customer. In the event that Customer requests Bank to provide SWIFT-Related Services through SCORE to a parent company, subsidiary, affiliate or other commonly owned company, Customer agrees that it shall be jointly and severally liable for such related entity's obligations under this Agreement. Customer represents and warrants that such related entity is a duly authorized agent of the Customer and that the related entity is acting on behalf of Customer in its authorized capacity.

9. FileAct. If the FileAct service is offered by Bank and selected by Customer, Customer may use this service which enables the secure and reliable transfer of files to exchange batches of financial messages, reports, bulk payment files, images and other data over the SWIFT network. FileAct supports both interactive (real-time) and store-and-forward modes. Prior to implementation, Customer shall verify that Bank is capable of supporting the file formats and transaction types that Customer wishes to transmit. If the file format and transaction type is supported by Bank, Customer agrees that the processing of each file shall be additionally subject to all applicable Sections of the Agreement.

V. TERMS APPLICABLE TO SPECIFIC FOREIGN EXCHANGE SERVICES

The following are additional terms and conditions applicable to all Foreign Exchange Services offered by Bank including, but not limited to, spot, forward, swap and option transactions, whether physically deliverable or non-deliverable FX transactions. Bank may change the number or type of Services offered at any time.

1. Conflicting Provisions and Separate Disclosures. With respect to all foreign exchange transactions or other derivative products entered into by Customer, to the extent that any provision of this Agreement conflicts with a provision of any ISDA Master Agreement by and between Customer and Bank or any documents related thereto (the "ISDA"), the ISDA terms shall govern. Disclosures herein supplement other disclosures that Bank may provide Customer and any other agreements between Bank and Customer in connection with FX transactions, including, but not limited to, ISDA Master Agreement, USBNA Assessment and Agreement for Swap Transactions, the ISDA August 2012 DF Protocol, the ISDA March 2013 DF Protocol, the ISDA General Disclosure Statement for Transactions, the ISDA Disclosure Annex for Foreign Exchange Transactions, and the U.S. Bank National Association Foreign Exchange Disclosures.

2. Foreign Exchange Risk. Many banking and finance transactions carry risk. All foreign exchange transactions, including but not limited to, swaps, options, forwards, foreign exchange transactions currency accounts, and other similar derivatives and related products involve unique risks specific to the nature of these types of transactions and the currency market. These types of transactions are not suitable for all Customers. Customer should fully understand the nature and extent of exposure to risk of loss, if any, which in some circumstances may significantly exceed the amount of any initial payment made by or to Customer. All decisions to enter into foreign exchange transactions should be made by Customer giving appropriate consideration to Customer's experience, objectives, financial resources and business environment. Bank will be truthful in its statements about any facts, but statements made by Bank should not be construed as recommendations or advice.

3. Arm's Length Transactions. Bank is a dealer and market maker in the foreign exchange market. As such, Bank engages in price quoting, order taking, trade execution and other related activities with counterparties and other dealers and for Bank's own account. Unless otherwise agreed by Bank in writing, Bank acts as a principal on an arm's length basis, does not act as Customer's agent, broker, fiduciary, financial advisor or in any similar capacity when engaging in FX transactions with Customer, nor will Bank perform the duties associated with these roles.

4. Pricing. Many factors affect foreign exchange pricing, including but not limited to, the size and nature of the transaction, credit, capital and funding costs, applicable trading venue or platform and the manner that such trading platform or venue is utilized, settlement risk, operational considerations, regulatory requirements, relationship factors such as the amount and nature of service provided and volumes traded by Customer, the type of trade request, and business costs such as fees related to exchanges, brokers or other intermediaries. Market conditions, such as demand, frequency, timing and volatility, also affect foreign exchange pricing. These factors in pricing may result in Bank offering different prices to different customers for the same or similar FX transactions. Unless otherwise agreed, prices quoted by Bank on all FX transactions (actionable and indicative) are an "all in" price that typically includes Bank's bid or offer spread for the requested transaction and an amount to compensate Bank based on the many factors set forth above. These components will not be separately disclosed unless required by law. Bank's pricing may not be reflective of prices being offered by other dealers. During extreme market conditions, such as liquidity events, the notional size and price levels Bank offers may not match levels provided in normal market conditions.

A. ELECTRONIC FOREIGN EXCHANGE SERVICES

1. Introduction. Bank may provide foreign exchange services to Customer in connection with one or more web-based services, via private Internet site owned and operated by Bank ("EFX"). If requested by Customer and agreed to by Bank, Bank will provide such services in accordance with this Agreement and other terms and procedures provided to the Customer. Customer agrees that Customer's use of EFX and all

transactions initiated thereby shall be governed by this Section, all other relevant sections of the Agreement and any other related disclosures provided to Customer, in either paper or electronic format. EFX shall be available only during hours as established by Bank, which may vary by day or location. Notwithstanding anything to the contrary herein, Bank does not confirm that the person authorizing any EFX transaction is an Authorized Signer or is otherwise authorized to conduct any EFX transaction on behalf of Customer.

2. Access Devices. Once Bank has granted Customer access to any EFX system, System Administrator(s) designated by Customer in the Implementation Documents will be provided with one or more access devices, which may include cards, identification numbers and/or passwords. Customer shall use all EFX services in accordance with the security procedures set forth in this Agreement.

3. Trades.

a. General Procedures. Within the applicable EFX platform, Customer informs Bank that Customer wishes to purchase or sell a stated amount of currency against a second currency on a designated date ("Settlement Date") either unconditionally or at a displayed exchange rate, if one may be obtained ("Trade"). Any transaction that results following the submission of a Trade shall be Customer's legally binding obligation. Trades submitted to Bank via an EFX platform shall be effective only upon acceptance by Bank. Bank will establish from time to time specific times of day after which Trades will not be processed on a "same-day" or "next-day" basis. Trades submitted after Bank's deadline will be considered received on the next business day. Deadlines will differ depending on the Trade currency and other factors. Market movements could occur while systems are processing Customer's transaction. These market movements may be in Customer's favor or against Customer's position and will be reflected in the execution price.

b. Confirmation. Bank shall make reasonable efforts to provide information and status of the terms of any Trade on the EFX platform or by other means established by Bank. Failure by Bank to confirm a Trade for any reason, including without limitation computer malfunction, shall not excuse Customer's obligations related to any Trade. Bank's internal records with respect to each Trade shall constitute conclusive evidence of the terms of each Trade. The terms of each Trade shall be incorporated into and become part of this Agreement.

b. Settlement Instructions and Payment. Once a Trade has been made, Customer agrees to make payment or delivery of currency to Bank on the Settlement Date of the Trade in accordance with the settlement instructions provided by Customer, plus any applicable fees or charges. Bank expects that all trades will settle via standing settlement instructions. Customer is solely responsible for the accuracy and completeness of any settlement instructions delivered to Bank through EFX and such settlement instructions are subject to the concurrence of Bank. Any change to Customer's standing instructions must be completed on the platform no less than three business days prior to settlement. Failure to do so may result in settlement after value date and a claim for compensation or use of the previously applicable settlement instructions and a claim for compensation. Bank strongly discourages the use of third-party payments to settle foreign exchange transactions. Third-party payments will only be permitted in certain instances in the sole discretion of Bank. Requests for third-party payments will require all information requested by Bank in connection with anti-money laundering regulations and policies. Settlement instructions for approved third-party payments must be provided on the platform no less than three (3) business days prior to settlement. Settlement instruction provided after this time or incorrect or incomplete instructions may result in settlement after the value date or use of the previously applicable settlement instructions. Should Customer instruct Bank to settle a Trade by debiting an account, Customer agrees to maintain sufficient available funds in the account to settle on the Settlement Date. Should funds be insufficient to settle the trade on the Settlement Date, Bank reserves the right in its sole discretion to debit any of Customer's account with the Bank in the amount of Trade, subject to applicable account fees and charges, or to terminate the Trade.

c. Cancellation or Change. Customer acknowledges and agrees that Customer shall have no right to cancel or reverse a Trade once submitted. Bank will, however, make reasonable efforts in its sole and complete

discretion to cancel or amend the terms of a Trade upon Customer's request. Should a Trade be successfully canceled or amended, Customer agrees to reimburse Bank for any breakage costs and other expenses incurred by Bank to cancel or amend the Trade, including any fees imposed for this extraordinary service. Bank reserves the right to adjust the exchange rate on any Trade requiring a new Settlement Date to reflect any costs associated with carrying that Trade to a new Settlement Date.

4. Funds Transfers. Customer authorizes Bank to execute and charge the designated Customer account(s) for wire transfer payment orders delivered to Bank via any EFX service. Customer agrees that all such wire transfer payment orders will be governed by the relevant Sections of this Agreement.

5. Representations and Warranties. Customer represents and warrants to Bank as of the date of this Agreement and as of the date of each Trade that: (i) Customer is authorized to enter into this Agreement and any Trade, (ii) the persons entering into the Agreement (and each Trade) on Customer's behalf have been duly authorized to do so, (iii) the Agreement (and each Trade) is binding and enforceable against Customer in accordance with its terms, (iv) no Termination Event has occurred or is continuing, and (v) Customer is acting as principal with respect to each Trade.

6. Close-Out Events. Each of the following events shall constitute a close-out event under this Agreement (each a "Close-Out Event"): (i) failure by Customer to pay Bank for any amounts due under this Agreement or any Trade, (ii) any voluntary or involuntary insolvency proceeding (including without limitation any proceeding under any bankruptcy, insolvency or other similar laws governing the operations of Customer) shall have been commenced against Customer, (iii) Customer fails, or is otherwise unable, to pay its debts as they become due, (iv) Customer disaffirms, disclaims or repudiates any Trade, (v) any representation made by Customer under this Agreement shall prove to have been false or misleading in any material way at the time that it was made, or (vi) Customer shall be in default of any agreement between Customer and Bank or its subsidiaries or affiliates.

7. Rights Upon Close-Out Event. If a Close-Out Event has occurred, Bank shall have the right to terminate this Agreement and, upon notice to Customer, close out all outstanding Trades on a date specified by Bank (the "Close-Out Date"). In such event, Bank shall liquidate such Trades by calculating in good faith the gain or loss of all Trades as follows: (i) determine the close out amount of each Trade, which shall be equal to the sum of the face value of each Trade in a particular currency with a Settlement Date that is the same or later than the Close-Out Date and the face value of each Trade in the same currency with a Settlement Date prior to the Close-Out Date, plus interest at the Fed Funds rate from and including the Settlement Date, but excluding the Close-Out Date, (ii) convert the close out amount of each group of like currency Trades into U. S. Dollars at the rate of exchange at which, at the time of the calculation, Bank may buy U.S. dollars with or against currency of each closed out Trade, and (iii) determine for each Trade the sums that would have been owed by Customer to Bank and the sums that would be owed by Bank to Customer (adjusted to present value by discounting the gain or loss at the Fed Funds rate from and including the Settlement Date, but excluding the Close-Out Date). The preceding amounts shall be aggregated, so that all such amounts are netted into a single liquidated amount payable to or by Bank. Customer shall pay on demand any amounts owing to Bank pursuant to this Section and Bank's calculations shall be conclusively binding against Customer, absent manifest error.

B. FOREIGN CURRENCY ACCOUNTS

1. Introduction. If requested by Customer and agreed to by Bank, Customer may open a Foreign Currency Account ("FCA") at U.S. Bank National Association ("Standard FCA").

2. Permitted Deposits. Bank may accept the following for deposit into FCA:

- a. Proceeds of matured foreign exchange purchase contracts;
- b. Proceeds of foreign currency denominated letters of credit or documentary collection;
- c. Incoming international funds transfers;
- d. Proceeds of loan disbursements; or
- e. Foreign checks and other items subject to collection, which may not be available until funds are received by Bank.

Bank will not accept currency or coin for deposit into FCA. Deposits not specifically enumerated above may be allowed if agreed to by Bank in writing. Only collected and verified funds can be deposited into FCA, whereupon funds will be immediately available for withdrawal or transfer by Customer.

3. Withdrawals. Customer can make withdrawals out of FCA in the following ways:

- a. Settlement of a foreign currency exchange sale contract;
- b. Negotiation of foreign currency denominated letters of credit or documentary collection;
- c. Outgoing international funds transfers by wires initiated in accordance with Bank procedures; or
- d. Payment of a foreign currency loan.

Each of these methods of making a withdrawal will result in an immediate debit to the FCA for the entire amount Customer has elected to withdraw from such FCA.

4. Interest. Interest rates offered on FCAs are determined in Bank's discretion based on the applicable currency. Such interest rates may be set at zero or at a negative interest rate. Interest is calculated based on the average daily balance method. The average daily balance method is an annualized rate that reflects the relationship between the amount of interest each fiscal month and the average daily balance in the account for such fiscal month. Negative interest may be assessed as a fee based on the interest rate set by the applicable monetary authority plus the incremental cost of funding to U.S. Bank.

5. Denomination. Customer will elect the denomination of each FCA on a separate account opening document. Transfers of funds into and out of FCA in the currency in which that particular FCA is denominated will be made without regard to the equivalent value of that sum of foreign currency in U.S. dollars or other foreign currencies. Transfers of funds into and out of FCA in a currency other than the currency in which that particular FCA is denominated may be accommodated by the Bank in its discretion. Such transfers will be made at the prevailing exchange rate determined by Bank.

6. Non-Business Days. In addition to non-Business Days specified in the Agreement, there will occasionally be other days on which Bank cannot process or complete a transaction due to holidays in foreign countries.

7. Other Terms. Bank may refuse a deposit, limit the amount which Customer may deposit, return all or any part of a deposit or require that Customer close FCA at any time. Bank may also close FCA without prior notice and remit to Customer any balance remaining after taking into account all pending debits and charges against such FCA.

8. Foreign Currency Account Risks. Investing in any currency other than the base currency of the Customer carries risk. The value of the balances in such accounts may be significantly affected by changes in currency exchange rates. Some other risks of maintaining foreign currency balances include, but are not limited to: the effects of a different economic system in a foreign country, future political and economic developments, possible imposition of exchange controls or other government restrictions, and with respect to certain countries, the

possibility of expropriation or confiscatory taxation, political or social instability, or diplomatic developments which could adversely affect the value of the currency. Should Bank's balances in a foreign country become blocked or withdrawals by Bank become otherwise restricted, Customer's funds in the FCA will likewise be blocked or otherwise restricted.

WHILE DEPOSITS IN FCAS MAY BE INSURED BY THE FEDERAL DEPOSIT INSURANCE CORPORATION ("FDIC") UP TO A MAXIMUM AMOUNT ALLOWED BY LAW, CUSTOMER IS NOT PROTECTED BY BANK AGAINST FOREIGN CURRENCY EXCHANGE RATE FLUCTUATIONS OR FROM INABILITY TO ACCESS FUNDS FROM FOREIGN REGULATIONS BY THE FDIC INSURANCE, OR ANY OTHER INSURANCE OR GUARANTY PROGRAM.

9. Limitations on Liability. In addition to other limitations on liability set forth in this Agreement, Customer expressly releases and holds harmless Bank, and its affiliates, agents and employees, from any liability, loss, damage or claim related to currency exchange rates or fluctuations in value of the currency in which the applicable FCA is denominated with respect to the U.S. dollar and other currencies. Customer hereby assumes all risks related to currency exchange rates and fluctuations in currency values, including that the foreign currency in FCA might be worth less, in U.S. dollars or other foreign currencies, than the U.S. dollar or other foreign currency equivalent of such funds at the time deposited into the FCA. Bank makes no warranty and no representation about the value of any FCA balance at any time.

VI. TERMS APPLICABLE TO SPECIFIC MONEY CENTER AND SAFEKEEPING SERVICES

The following are additional terms and conditions applicable to specific Money Center and Safekeeping Services offered by Bank. In the event of a conflict between this Section VI and any other provision of this Agreement, Section VI shall govern. Bank may change the number or type of Services offered at any time. Customer shall not be bound by the terms and conditions for the specific Services described in this Section VI to the extent Customer is not using such Service(s).

Municipal Advisor Rule Disclosure. This disclosure applies to Customer if Customer is classified as a municipality or an "obligated person" under the Municipal Advisor Rule. For purposes of Section 15B of the Securities Exchange Act of 1934 (the "Act") (SEC Rule 15Ba1-1 et seq.) (the "Rule"), Bank: (1) is not recommending and will not recommend an action to Customer; (2) is not providing and will not provide "advice" to Customer as defined in the Rule, and any information or communication from Bank in respect of Customer's accounts with the Money Center or the Safekeeping Departments of Bank or in respect of any securities transaction or potential securities transaction to be executed via such account(s) is not intended to be and should not be construed as "advice" as defined in the Rule; and (3) is not acting as an advisor to Customer and does not owe Customer any fiduciary duty pursuant to Section 15B of the Act or otherwise with respect to any such account(s), information, communication, transaction or potential transaction. Customer should discuss any information or material provided to Customer by Bank in connection with trading, investing or other activity in the such account(s) with any and all of Customer's internal or external advisors and experts that Customer deems appropriate before acting on any such information or material.

A. INVESTMENT, DEPOSITORY AND SAFEKEEPING SERVICES

From time to time, Customer may effect securities transactions or establish deposits with Bank's Money Center Department and/or request safekeeping services from Bank's Safekeeping Department. All such transactions shall be subject to the terms and conditions of this Agreement.

1. Definitions.

a. "Confirmation" means the confirmation statement from Bank as described in this Agreement.

b. A "Money Center deposit" means an interest-bearing demand deposit account, a money market deposit account ("MMDA"), a time deposit, or other deposit liability of Bank to Customer established under this Agreement and maintained in Customer's Money Center investment account.

c. "Safekept Securities" means securities that Bank has agreed to accept and hold for the account of Customer under the terms of this Agreement.

d. The term "securities" means all securities (as Defined in the Securities Exchange Act of 1934) and all investment securities or products from time to time offered by Bank to Customer, other than certificates of deposit issued by Bank and deposits made with Bank.

e. "Settlement Account" means any settlement account(s) designated by Customer or any replacement account identified by Customer in a written notice delivered to Bank.

2. Securities Transactions: Compensation and Capacity of Bank.

a. In General. In any securities transaction governed by this Section VIA, Bank may be acting as principal, riskless principal, or agent. Bank's capacity in any securities transaction will be indicated on the Confirmation.

(i) As Principal. When acting as a principal in securities transactions, Bank will either buy securities for its own account or sell for its own account securities owned by Bank, whether such securities are bought before or after receiving Customer's order. Bank's compensation is reflected in the price at which Bank buys or sells the securities.

(ii) As Riskless Principal. When acting as a riskless principal in securities transactions, after receiving from Customer an order to buy

or sell securities, Bank will buy or sell securities for its own account to offset the sale to or purchase from Customer. Bank's compensation is reflected in the price at which Bank buys and sells the securities.

(iii) As Agent. When acting as Customer's agent in securities transactions, Bank will buy or sell securities solely for Customer's account. Bank's compensation due from Customer is the amount of any agency service charge indicated on the Confirmation.

b. Service Fees. In addition to compensation received as a principal, riskless principal or agent, Bank may charge Customer service fees in relation to securities transaction as specified in the current fee schedule as provided to Customer, which may be amended from time to time upon notice to Customer.

c. Other Compensation; Bank Securities. Bank may be paid a fee or other compensation by any other party in connection with any securities transaction, and any such fee or compensation will be in addition to fees payable by Customer to Bank under this Agreement. Such additional compensation may include, without limitation, advisory, custodial, distribution and/or shareholder service fees (which may be paid as service fees pursuant to Rule 12b-1 under the Investment Company Act of 1940) that Bank or its affiliates may receive from various mutual funds and/or mutual fund service providers, based upon moneys invested in the funds. Customer acknowledges that those fees or other compensation may be paid to Bank for such services, and that such payments will not reduce or offset any fee or compensation due from Customer to Bank under this Agreement. Further, Customer acknowledges that securities Customer acquires through Bank may directly or indirectly (including through mutual or money market funds) represent an ownership interest in securities issued by Bank or its affiliates or by funds sponsored by Bank or its affiliates.

3. Money Center Deposits.

a. In General. If Customer elects to deposit funds through the Bank's Money Center Department, that Money Center deposit shall be maintained within Customer's Money Center investment account. Bank will provide Customer with a Confirmation upon Customer's placement of funds, and the deposit transaction will be reflected on Customer's Money Center account statement. With the exception of Eurodollar deposits (which are not deemed deposits under rules promulgated by the FDIC and therefore are not insured by the FDIC), Money Center deposits are FDIC insured per depositor, up to applicable FDIC limits. By opening and maintaining a Money Center deposit, Customer agrees to be bound by this Agreement.

b. Access to Funds. In addition to any other restrictions specified elsewhere in this Agreement, Customer shall not be allowed to make withdrawals or transfers from a Money Center deposit at a U.S. Bank branch or ATM or via check. No debit or ATM cards will be issued on a Money Center deposit. Customer shall be permitted to make withdrawals or transfers from a Money Center deposit only by contacting the Money Center Department in the following manner: telephone, facsimile, email, or via an online system provided or approved by Bank.

c. Notice of Withdrawal. Bank reserves the right to require at least seven (7) days written notice prior to withdrawal or transfer of funds from an MMDA, unless otherwise specified on the Confirmation for the Customer's placement of funds. Customer must provide such notice to Bank's Money Center Department by 3:00 PM Central Time via telephone, email, or fax.

4. Pledges; Segregation.

a. Pledges. Upon request of Customer, Bank can provide a form of control agreement suitable for transactions where Customer wishes to grant to third parties a lien, pledge or other rights over its property held by or at the Money Center or Safekeeping Departments at Bank. Customer agrees that all costs of Bank, including reasonable fees and expenses of outside counsel if deemed necessary by Bank, will be at Customer's expense if such a control agreement is requested, whether or not a final agreement is entered into.

b. Segregated Assets. Where Customer wishes to effect transactions hereunder on behalf of its customers using the property of such

customers, Customer will first notify Bank in writing of its intention to do so before effecting any such transactions. Customer acknowledges that Bank may require one or more additional agreements in order to accept such transactions. Once acceptance of such transactions has been approved by Bank, Customer agrees to include in its instructions to Bank an agreed identifier or designation as to the applicable securities, deposits and transactions.

5. Securities Transaction Requests.

a. Effecting Transactions. Each securities transaction will be effected pursuant to Customer's instructions made verbally, by fax or sent electronically via email or a trading system provided or approved by Bank. Emailed instructions must be directed to Bank's email address as designated from time to time by Bank, and fax instructions must be directed to Bank's fax number as designated from time to time by Bank. Securities transaction requests may be acted upon by Bank without acknowledgment by Bank that it has received such request.

b. Cut-Off Times. Bank establishes cut-off times for receipt of securities transaction requests depending on the type of security and the market in which it is traded. In addition, market holidays, procedural or operational matters, and actions taken by market operators may affect Bank's ability to process securities transaction requests. Customer instructions for same day settlement received before the applicable cut-off time will be submitted for processing that Business Day. Customer instructions for same day settlement received after the applicable cut-off time may be processed by Bank on a 'best efforts' basis that Business Day and otherwise will be submitted for processing the next Business Day.

c. Bank's Rights. Bank may reject, refuse to honor, or reverse all or any portion of any transaction request, with or without prior notice to Customer. If Customer fails to pay in full for any security purchased or fails to deliver security sold, in each case on or before the related settlement date, Bank is authorized in its discretion and without notice or demand to take any one or more of the following actions: cancel the transaction; sell the securities covered thereby; buy-in cover securities or other property required to make delivery; charge the Settlement Account for amounts due; hold Customer liable for any loss, cost or expense including but not limited to, breakage or pair-off fees and the capital charge and interest cost to carry any securities purchased; and/or impose fees.

6. Safekept Securities. Bank, acting through its Safekeeping Department, agrees to hold and keep as custodian hereunder all Safekept Securities, and to deliver such Safekept Securities in accordance with the instructions of Customer, all subject to the terms and conditions of this Agreement.

a. Acceptance and Withdrawal. Securities eligible to be Safekept Securities may be delivered to Bank, and any Safekept Securities may be withdrawn from Bank, in each case upon an instruction of Customer delivered in accordance with this Agreement. Withdrawal or delivery of Safekept Securities is subject to availability (e.g., among other reasons, securities involved in a corporate action or in frozen status, restricted securities or pledged securities may not be available for withdrawal or delivery). Bank shall not be liable or responsible for or on account of any act or omission of any broker or other agent designated by Customer or, in the absence of such designation, selected by Bank to receive or deliver securities for the account of Customer.

b. Registration; Depositories. Bank shall register Safekept Securities in nominee name and may from time to time change the registration of Safekept Securities from nominee name to Customer's name, or vice versa. Customer agrees that it will timely complete any necessary documentation provided by Bank to change the registration of Safekept Securities. Safekept Securities held in nominee name may be deposited with The Depository Trust Company or other third-party depository acceptable to Bank. Securities that are depository eligible will be held at the depository in the depository's nominee name.

c. Securityholder Information. Unless otherwise required by law or pursuant to instructions from Customer, in no event shall Bank be responsible to take any action concerning any puts, calls, conversions, exchanges, reorganizations, offers, tenders or other corporate actions or similar matters relating to Safekept Securities, other than (i) to forward to Customer in accordance with this Agreement the written information

received by Bank relating to any such transaction, and (ii) follow Customer's lawful instructions with respect to such actions. Customer may directly vote any proxy or other corporate action, or if it instructs Bank to vote on its behalf, agrees that any instructions to Bank with respect to any such actions shall be delivered to Bank within sufficient time for Bank to act thereon if any action is required. Safekept Securities called for redemption prior to maturity will be presented by Bank for payment provided the trustee or other appropriate entity gives Bank adequate notice of redemption. Should any Safekept Security be called for partial redemption by the issuer of such security, Bank is authorized to accept the allocation applied by any central depository. In the event Bank has to allocate any redemption among its accounts, Bank shall allot the redemption proceeds in accordance with its standard procedures therefor, effected in such manner as it deems appropriate in its sole discretion.

d. Collection of Income and Principal. Bank shall collect and receive the interest, principal and other income payable in connection with the Safekept Securities, and shall pay to Customer or credit to the Settlement Account all such amounts. Bank shall not be obligated (i) to pay to Customer or credit to the Settlement Account any payment of interest, principal or other income until Bank receives such payment in immediately available funds or (ii) to institute or participate in any collection proceedings or other proceedings to enforce Customer's rights relative to any Safekept Securities or to pursue any remedies on behalf of Customer. Bank is hereby authorized to sign on behalf of Customer any declarations, affidavits, certificates of ownership or other documents relating to securities held by Bank in nominee name that may at any time be required with respect to all coupons, registered interest, dividends or other income. If any of Customer's deposits or securities the subject of this Agreement, including Safekept Securities, are subject to a variable or fixed rate of interest and such deposits or securities bear an interest rate less than zero, Customer agrees to pay Bank all amounts of the negative interest or fees that Bank imposes as compensation for the less-than-zero interest rate (which may also be debited from the Settlement Account by Bank), and Customer agrees that the principal amount of such Safekept Securities may be reduced to the extent necessary to cover the amount of the negative interest or fees if available funds are not otherwise provided by Customer.

e. Return of Payments. Customer will repay Bank, or Bank may charge the Settlement Account, in the event that for any reason (i) Bank is required to return to the issuer or to a third party any payments in respect of Safekept Securities, (ii) Bank fails to receive from the issuer or appropriate other party a payment Bank paid to Customer in respect of Safekept Securities, or (iii) Bank must return to the issuer or appropriate other party a payment Bank paid to Customer in respect of Safekept Securities. Customer further agrees that the principal amount of any Safekept Securities may be reduced, and any remittances due from Bank to Customer (whether or not under this Agreement), and any other accounts of Customer with Bank, may be offset to the extent necessary to cover the amount of such returned payments to the extent that immediately available funds are not otherwise provided by Customer to Bank.

7. Confirmation Statements. Promptly after effecting any transaction pursuant to this Section VI.A, Bank will deliver to Customer a Confirmation which shall identify at least (i) Bank and Customer, (ii) the trade and settlement dates of the transaction, (iii) the issuer and par amount of the related securities (for securities transactions) and the principal amount of any deposit (for deposit transactions), (iv) the interest rate if applicable and/or any discount rate applicable to any securities transactions or deposit transactions, (v) the maturity date of the transaction, if applicable, (vi) the capacity of Bank as principal, riskless principal or agent (if the transaction is a securities transaction) and, if applicable, whether the securities will be Safekept Securities, (vii) any terms and information required by applicable law, and (viii) any other terms and information which Bank may include at its discretion. The information contained on the Confirmation shall be considered true and correct and conclusively binding upon Customer unless Customer notifies Bank of any error therein within three (3) business days after the date the Confirmation is deemed delivered to Customer in accordance with this Agreement. Customer may, by notice from an Authorized User in accordance with this Agreement, elect to receive Confirmations by mail, fax, email, or other electronic

means including posting to a password-protected website), subject to the terms of this Agreement.

8. Settlement Account. Unless Bank is otherwise instructed in writing, Customer unconditionally authorizes, empowers, and directs Bank (and authorizes and directs Bank to communicate with any financial institution maintaining the Settlement Account as necessary) to: (i) debit the Settlement Account on the settlement date indicated on the Confirmation for the full amount of each transaction effected under this Section VI.A (including all fees and charges payable hereunder), notwithstanding that such debit may cause the Settlement Account to be overdrawn; and (ii) credit the Settlement Account with interest payments, principal payments, maturity payments or other payments received in respect of transactions effected under this Agreement. Customer hereby represents and warrants that instruction from any Authorized User is sufficient to authorize Bank to debit or credit the Settlement Account. If the Settlement Account is not held by Bank, Customer confirms to Bank that it has authorized the financial institution maintaining the Settlement Account to accept debit and credit entries to the Settlement Account and that no such authorization will be cancelled except with prior notice to Bank and in sufficient time and in such manner as to allow the financial institution maintaining the Settlement Account and Bank a reasonable opportunity to act on such termination without disruption of any transactions or services under this Agreement. Customer acknowledges that ACH payments to a Settlement Account not held by Bank are subject to ACH processing timelines, which may involve a delay in available funds.

9. Delivery. Through the instructions of an Authorized User, Customer shall specify the account to which any securities purchased hereunder are to be delivered. If such account is maintained by the Safekeeping Department of Bank, the securities will be held in accordance with this Agreement. If such account is maintained by an institution other than Bank, Bank's responsibility for ensuring delivery shall be limited to accurately conveying the instructions for the appropriate delivery account to the depository, agent or issuer of the securities, as applicable for the particular type of securities. Bank will issue no certificate, passbook, or any other evidence of any deposit except for the Confirmation.

10. Interest. All securities, Money Center deposits, and certificates of deposit purchased by Customer or held by Customer under this Agreement shall earn interest on the principal balance from the date of deposit or settlement date, as applicable, computed at the rate and in the manner established by Bank from time to time for the given product. Any interest due will be credited monthly unless otherwise agreed to by Customer and Bank. No interest shall accrue on the date of withdrawal. Bank reserves the right to change the applicable interest rate on variable rate products (including those products whose underlying interest rate is not managed by Bank) at any time. Such interest rate may be set at zero or an interest rate less than zero. If the interest rate, or the index or other referenced rate upon which the interest rate is based, is at any time less than zero percent, Customer agrees to pay Bank all amounts of the negative interest or fees that Bank imposes as compensation for the less-than-zero interest rate. Bank will not provide notice of rate changes, but Customer may call the Money Center Department to obtain current rate information. Bank shall notify Customer of the applicable interest rate and maturity term for the product opened under this Agreement at the time that the request for such product is made.

11. Fixed Investment Periods. Customer acknowledges that certain products held by Bank under this Agreement have fixed investment periods, and agrees that such products will be held by Customer until their maturity dates or through their commitment dates. Customer agrees that if it withdraws part or all of such product before such date, Bank shall be entitled to impose a penalty (including by debiting the Settlement Account for such amounts) in accordance with the terms of such product or the fee schedule provided to Customer, as applicable, and that the principal amount of such product may be reduced to the extent necessary to cover such penalty if available funds are not otherwise provided by Customer.

12. Repurchase Transactions. Customer shall not effect any securities transactions under this Agreement in the expectation of entering into a repurchase transaction with Bank as counterparty unless Customer shall first have executed and delivered to Bank a written master repurchase agreement, in form and substance satisfactory to Bank, governing such transactions. In any such transaction, where Bank is to hold securities as

collateral or as the subject of a transaction, such securities will be held by the Safekeeping Department of Bank subject to the terms of this Agreement, unless Customer is otherwise notified. To the extent of any inconsistency between the terms of any such agreement and the terms of this Agreement, the terms of such other agreement shall control.

13. Fees and Expenses. Customer shall pay to Bank such fees in respect of the services provided under this Agreement, as disclosed to Customer on the current fee schedule (which fee schedule may be amended from time to time by Bank). If the fee schedule is amended, the amended fees will apply to any Safekept Securities being held at that time, and to any securities transactions effected on the day such amendment becomes effective. Customer agrees to pay, and agrees and acknowledges that Bank may debit the Settlement Account for any fees and other amounts owing by Customer to Bank under this Agreement, or exercise an offset for such amounts against any funds of Customer on deposit with Bank, or against any interest, principal or other income received or to be received by Bank on behalf of Customer, whether or not in respect of Safekept Securities. In addition, Customer agrees to reimburse Bank for its commercially reasonable out-of-pocket expenses for providing the services hereunder, including, but not limited to the reasonable fees and expenses of outside counsel if retained by Bank in its discretion in connection with this Section VI. If Customer fails to pay Bank any sums due under this Section VI within thirty (30) days after the same are due (whether or not a late notice is sent to Customer by Bank), Bank may terminate this Agreement and return any Safekept Securities to Customer at Customer's expense, and to avail itself of any other remedy it may have in law or in equity.

14. Service Termination; Account Closure. Subject to Section VI.A.11 ("Fixed Investment Periods"), Customer may terminate the Service(s) described in this Section VI or close its Money Center investment account at any time upon prior notice to Bank. Bank may terminate the Service(s) described in this Section VI or close Customer's Money Center investment account at any time without prior notice to Customer. If any Service described in this Section VI is terminated or Customer's Money Center investment account is closed for any reason, Customer will continue to be responsible for any obligation incurred by Customer prior to termination or closure and for the fees and costs, if any, payable under this Agreement with respect to delivery of Customer's securities (including Safekept Securities) or funds held by Bank to Customer or to another financial institution.

15. Notices. Except for oral instructions to Bank from Authorized Users or from Bank to Authorized Users, all notices, disclosures and communications (including Confirmations) under this Section VI shall be in writing and delivered by mail, fax, email or other electronic means as provided for in this Agreement. Notices, disclosures and communications (including Confirmations) shall be deemed delivered upon transmission of the same by mail, fax, email or other electronic means as provided for in this Agreement, or on the third (3rd) Business Day after deposit of the same in the United States mail, postage prepaid, and addressed to the mailing address provided by Customer. All written confirmations, notices, instructions, or other communications from Customer to Bank shall be sent to following address (which may be amended from time to time by Bank upon notice to Customer):

For securities transactions:
U.S. Bank National Association
Money Center Department
800 Nicollet Mall, BC-MN-H18T
Minneapolis, MN 55402
Fax: (866) 904-7067
Email: Money.Center.Sales@usbank.com

For safekeeping services:
U.S. Bank National Association
Safekeeping Department
800 Nicollet Mall, BC-MN-H18R
Minneapolis, MN 55402
Fax: (612) 303-0202
Email: Safekeeping@usbank.com

16. Terms and Conditions of Electronic Delivery. All notices, disclosures and communications (including Confirmations and other

account information) from Bank may be delivered to Customer by electronic means (including, without limitation posting to a password-protected website) to the extent Customer elects to receive such information through electronic means, subject to the Terms and Conditions of Electronic Delivery set forth in Section VI.B below. Customer agrees that sending information in this manner will constitute good and effective delivery of the information to Customer, regardless of whether Customer actually accesses the website or other electronic medium containing the information.

17. No Investment or Tax Advice. Customer acknowledges that Bank's role is ministerial in nature and that Bank will not provide supervision, recommendations, or advice to Customer in connection with the investment, purchase, sale, retention, or other disposition of any securities or Money Center deposits, or the advisability or suitability of any product or transaction. Customer is responsible for evaluating the risks associated with such decisions. Customer acknowledges Bank is not an investment adviser, has no investment discretion, and will merely carry out instructions as directed by Customer. Bank's ability to determine interest rates on securities or Money Center deposits shall not be deemed to be discretion or advice. Customer further acknowledges that Bank will not provide advice to Customer regarding the tax implications associated with the investment, purchase, sale, retention, or other disposition of any securities or Money Center deposits.

18. ERISA. If assets of an employee benefit plan subject to the Employee Retirement Income Security Act of 1974, as amended ("ERISA"), are intended to be deposited, invested or used by Customer in a transaction under this Section VI.A, Customer shall notify Bank prior to effecting such deposit, investment or transaction and will provide Bank with such additional information as Bank may reasonably request. Customer represents and warrants to Bank that any deposit, investment, or transaction pursuant to this Section VI.A shall not result in a "prohibited transaction" under ERISA or shall otherwise be exempt under ERISA, and Customer further agrees to indemnify and hold Bank harmless from any loss or claim arising therefrom.

19. No Representation or Warranty. Customer acknowledges and agrees that Bank makes no representation or warranty, express or implied, with respect to the validity, enforceability, collectability or investment quality of any securities bought or sold hereunder, or any deposits made or terminated hereunder.

20. Records; Account Statements; Taxes. Bank will maintain records of Customer's account and provide customer with a Confirmation for transactions in accordance with this Section VI.A and periodic account statements. Bank will also send to Customer such notices and reports as are required by law. Customer acknowledges and agrees that it is Customer's obligation to prepare and file all required tax returns and to pay all taxes due on any income that Bank collects for Customer.

21. Set Off. Bank has the right to apply funds in Customer's Money Center investment account or Settlement Account to any debt Customer owes Bank. A debt includes any fees, overdrafts, debts that now exist and debts that Customer may incur in the future, or Customer's obligations under a guaranty. When Bank sets off a debt Customer owes Bank, Bank reduces the funds in the Money Center investment account or Settlement Account by the amount of the debt. Bank is not required to give Customer any notice before exercising its right of setoff. Customer agrees to hold Bank harmless from any claim arising as the result of Bank's enforcement of its right of setoff against Customer's Money Center investment account or Settlement Account. This right of setoff is in addition to any security interest that Bank might have in Customer's Money Center investment account or Settlement Account.

22. Legal Process. Legal process includes any levy, garnishment or attachment, tax levy or withholding order, injunction, restraining order, subpoena, search warrant, government agency request for information, forfeiture or seizure, or any other legal process relating to Customer's Money Center investment account or Settlement Account. Bank may accept and act on any legal process Bank believes to be valid, whether the process is served in person, by mail, by electronic notification, or at a banking location. If Bank incurs any fees or expenses (including attorneys'

fees and expenses) due to responding to legal process related to Customer's Money Center investment account or Settlement Account, Bank may, in its sole discretion, charge these costs to any other deposit account Customer maintains with Bank. All legal process is subject to Bank's rights of setoff and security interest in Customer's Money Center investment account and/or Settlement Account.

B. TERMS AND CONDITIONS OF ELECTRONIC DELIVERY

The following sets forth the terms and conditions of use of Bank's electronic delivery and notification service (the "Electronic Delivery Service") in connection with account(s) with Bank's Money Center Department or Safekeeping Department.

The Electronic Delivery Service described in this Section VI.B shall constitute an Internet Service as defined in Section III of this Agreement and shall be subject to the terms set forth therein, as well as any other agreements between Customer and Bank and any applicable laws or regulations. If there is a conflict between the terms and conditions set forth in this Section VI.B and the terms and conditions of any other section of this Agreement or any other agreement between Customer and Bank as they relate to the Electronic Delivery Service, the terms and conditions set forth herein will control.

1. Electronic Delivery of Account Communications. Customer may elect to receive Account Communications (defined below) related to Customer's account(s) electronically. All Account Communications will be delivered electronically by posting to Bank's password-protected website designated for Customer's account(s) or, at Bank's election, delivered via electronic mail to the email address provided by Customer to Bank. "Account Communications" include, without limitation, all current and future account statements, Confirmations, security notices, maturity notices, prospectuses, offering and disclosure documents, shareholder communications (such as quarterly, semi-annual and annual reports, proxy statements, etc.), regulatory communications and other information, documents, data, notices and records regarding Customer's account(s) with Bank. Bank may, from time to time, designate additional Account Communications that are then eligible for electronic delivery through the Electronic Delivery Service, the delivery of which will then be subject to these terms and conditions. From time to time, Bank may add to, modify or delete any feature of the Electronic Delivery Service or Account Communications eligible for delivery through the Electronic Delivery Service at its sole discretion. Customer acknowledges and agrees that by being enrolled in the Electronic Delivery Service, Customer will no longer receive Account Communications by mail that is otherwise available for delivery as part of the Electronic Delivery Service.

2. Accessing Account Communications. Bank will notify Customer via email when Account Communications are posted. Bank may also provide, in its sole and absolute discretion, Account Communications directly via email. Customer may access all Account Communications for at least thirty (30) days from the date of initial posting. Customer acknowledges and agrees that all Account Communications will be deemed to constitute good and effective delivery to Customer upon posting, regardless of whether Customer actually or timely receives or accesses the Account Information, or if Account Communications are delivered directly to Customer via email, when so delivered.

3. Changes in Delivery Method. Customer must notify Bank if it wishes to discontinue use of the Electronic Delivery Service. Following Bank's receipt of such notice and after Bank has a reasonable opportunity to act on such notice, Customer will thereafter begin to receive Account Communications via U.S. mail beginning with Customer's next statement cycle and/or mailed Confirmation.

4. Reporting Unauthorized Transactions or Erroneous Statements. Customer agrees to promptly and carefully review all Account Communications as and when delivered and notify Bank in accordance with this Agreement if Customer objects to any of the information provided.

5. Third-Party Services. Customer acknowledges and agrees that Customer's access to the Electronic Delivery Service and Customer's receipt of email notifications when Account Communications are posted may be delayed or prevented by factors affecting Customer's or Bank's Internet or telephone service provider(s) or other similar entities ("Third-Party Service Providers"). Bank makes no representations or warranties whatsoever with regard to the products and services offered by such Third-Party Service Providers and shall not be liable for any loss caused, in whole or in part, by a Third-Party Service Provider.

6. International Use. Bank makes no representations or warranties that any content or use of the Electronic Delivery Service is appropriate, legal or available in locations outside the United States. Customer

acknowledges and agrees that accessing the Electronic Delivery Services from territories where its contents or use is illegal and is prohibited by Bank. If Customer accesses the Electronic Delivery Service from locations outside the United States, Customer does so at its own risk. Customer is responsible for compliance with local laws.

7. Proprietary Rights; Materials; Trademarks. All content included or available through the Electronic Delivery Service (other than Customer's account information), such as advertisements, tests, graphics, logos, button icons, images, audio clips and software, is the property of Bank and/or third parties and is protected by copyrights, trademarks or other intellectual property rights. The compilation (meaning the collection, arrangement and assembly) of all content on the Electronic Delivery Service is the exclusive property of Bank and/or its licensors and is protected by copyrights or other intellectual property rights. The trademarks, logos and service marks displayed on the Electronic Delivery Service (collectively, "Trademarks") are the registered and unregistered Trademarks of Bank or third parties. Under no circumstances may Customer use, copy, alter, modify or change these Trademarks. Nothing contained on the Electronic Delivery Service should be construed as granting by implication or otherwise any license or right to use any Trademark without the express written permission of Bank or the third party that has rights to such Trademark, as the case may be.

U.S. Bank Services Terms and Conditions Supplement Account Validation Service

This U.S. Bank Services Terms and Conditions Supplement and the Exhibits attached hereto (this "Supplement") amends and forms a part of the U.S. Bank Master Services Agreement and the U.S. Bank Services Terms and Conditions (collectively, the "Agreement").

WHEREAS, Bank offers the Account Validation Service ("the Service") (as defined in Section 1 below);

WHEREAS, Customer desires to use the Service, pursuant to the terms and conditions set forth in this Supplement;

NOW, THEREFORE, for good and valuable consideration, the receipt and adequacy of which is acknowledged, Bank and Customer (individually a "Party" and collectively the "Parties") hereby agree as follows:

1. Definitions.

- 1.1 "Account Validation Service" or "the Service" means account status or Item information, identity-to-account matching performed to confirm an account owner or authorized user, or both by inquiring against account owner data maintained by Early Warning LLC ("Early Warning") in one or more databases.
- 1.2 "Applicable Laws" means all federal, state and local laws, and the regulations and guidelines promulgated thereunder, applicable to the marketing, promotion, offering for sale, sale, provision, creation, delivery, transmission and use of the Service, including without limitation any applicable provisions of the Fair Credit Reporting Act of 1970, 15 U.S.C. Section 1681 et. seq. (the "FCRA"), the Fair and Accurate Credit Transaction Act of 2003, Pub. L. 108-159, 111 Stat. 1952, and the Gramm-Leach-Bliley Act (including similar state laws and regulations to each of the foregoing) in each case as amended from time to time.
- 1.3 "Contributor" means an entity that transmits certain specific data elements to Early Warning.
- 1.4 "Detailed Response" means Response Data that is in the same or substantially the same form as the data received by Bank from EWS.
- 1.5 "Item" means either: (a) a physical check; (b) an image replacement document (IRD); (c) MICR line information; (d) an automated clearinghouse entry; or (e) an item as defined in the Uniform Commercial Code.
- 1.6 "Processor" means a Customer who provides Translated Responses to its own customer users that are the end users of the Translated Responses.
- 1.7 "Response Data" means information transmitted by Early Warning to Bank and provided by Bank to Customer in the form of a Detailed Response or a Translated Response in response to an inquiry by Customer.
- 1.8 "Translated Response" means Response Data that is in a form which indicates a risk level, as determined by Bank, such as by high/medium/low, or green/ yellow/red, or accept/decline.

2. Service Implementation.

- 2.1 Customer agrees to complete a customer application which Bank will review and submit to Early Warning. By submitting the application, Customer agrees that if Customer elects to receive Detailed Responses, instead of receiving only Translated Responses, Customer will participate in any Bank or Early Warning initial and on-going risk assessment processes.
- 2.2 Customer shall transmit all inquiries for the Service to Bank in accordance with the formatting and specification requirements established by Bank.
- 2.3 For each inquiry properly transmitted to Bank, Bank will transmit Response Data either as a Detailed Response or Translated Response, as request by Customer and agreed to by Bank, to Customer.

3. **Use of the Service and Response Data.**

- 3.1 Customer is solely responsible for the accuracy of the inquiry data it submits and for its use of Response Data.
- 3.2 Except as permitted in Section 5, Customer shall not (a) distribute, transmit, disseminate, or disclose, in any form or by any means, any part of the Response Data to any person or entity other than to the individual that is the subject of the Response Data in connection with disclosures required to be made under Applicable Laws, (b) allow any third party to access the Response Data, (c) sell, resell, sublicense, or otherwise transfer any part of the Response Data to any other person or entity, or (d) merge, aggregate or compile Response Data into any other database for use in connection with future inquiries .
- 3.3 Customer shall not retain or store Response Data except to the extent necessary to comply with Applicable Laws. For as long as Response Data remains in Customer's possession, Customer shall be responsible for the continuing protection of such Response Data in compliance with the requirements of Section 4.5 of this Supplement. Customer shall not store Response Data outside of the United States without prior written approval from Bank and Early Warning.
- 3.4 If Customer uses such Response Data to take adverse action against a consumer, such consumer must be referred by Customer to Early Warning for handling disputes concerning the completeness or accuracy of any item of information contained within the Response Data and for disclosure of each consumer reporting agency that was used to provide information in the Response Data. Customer shall comply with all applicable provisions of the FCRA and any state equivalent in handling such disputes and making such disclosures.
- 3.5 Customer shall not knowingly permit any of its directors, officers, employees, contractors, subcontractors, attorneys, auditors and accountants, to access the Service if the person has been convicted of a crime in connection with: (a) a dishonest act, breach of trust, or money laundering, or has agreed to enter into a pretrial diversion or similar program in connection with a prosecution for such offense, as described in Section 19 of the Federal Deposit Insurance Act, 12 U.S.C. § 1829(a); or (b) a felony.
- 3.6 Customer may access the Service solely for use by Customer as set forth and permitted in this Supplement. Customer shall only use the Response Data for an authorized use pursuant to Exhibit A. The Response Data is time-sensitive and only intended to be used in connection with the specific inquiry for which it was requested.
- 3.7 Customer acknowledges and agrees that Early Warning is not an agent of Bank. Bank makes no representation or warranty, including, but not limited to, the accuracy, completeness, timeliness or usefulness, of Response Data, and Bank assumes no liability with respect to such. Bank provides Translated Responses as an indicator of the potential risk associated with data received from Early Warning, however no Translated Response shall be interpreted by Customer as indicating no risk and Bank makes no such guarantee. Customer uses Response Data at its own risk and Customer agrees that Bank shall have no liability with respect to Response Data.
- 3.8 Customer shall comply with all applicable provisions of the FCRA and any state equivalent applicable to persons who procure consumer reports. For purposes of the Service, Customer agrees that Bank is not a credit reporting agency.
- 3.9 Customer acknowledges receipt of the notices attached hereto as Exhibit C, which describes certain obligations of (a) furnishers of information to consumer reporting agencies, and (b) users of consumer reports and, to the extent applicable, agrees to comply with such obligations.
- 3.10 Customer shall not refuse or decline an Item based solely on the following Response Data: No Information; No Known Information; Not Located; Non-DDA; Broker Check; Credit Card Check; Home Equity Check; or Line of Credit Check or other materially similar responses.

- 3.11 Customer certifies that it will only use Response Data for a legitimate business need in connection with a business transaction that was initiated by the consumer that is the subject of the Response Data. If Customer desires to use Response Data for any other permissible purpose under the FCRA, Customer must first get approval from Bank and EWS, and such approval may be withheld at Bank's and EWS's sole discretion.

Early Warning Terms of Use.

- 4.1 Early Warning shall have the right, during normal business hours, and not more than once per calendar year, upon reasonable advance notice, to review Customer's relevant processes and procedures to verify Customer's compliance with the terms of this Supplement and/or Exhibit A. This includes a review of inquiries processed and related transactions or transaction decisions.
- 4.2 Upon request by Customer, Early Warning shall provide to Customer a copy of its most recent Annual Risk Report (ARR), as well as any updated ARR's upon request from Customer.
- 4.3 If, in addition to the information provided by Early Warning as described in Section 4.2 above, Customer requires to conduct an on-site audit of Early Warning's information security program outside of Early Warning's regularly scheduled consolidated on-site audit periods (which are free to Customer), then a daily fee shall be assessed to Customer for the on-site audit. Any on-site audits (i.e. outside of the regularly scheduled consolidated on-site audit periods) shall not begin until the daily fee for each, as applicable, has been agreed upon by the Parties and Early Warning. Fees related to these on-site audits will be billed to Customer separately from fees for the Service. However, any on-site audit that is triggered by a regulatory requirement or a court order will not result in a daily fee as set forth herein.
- 4.4 If, in addition to the information provided by Early Warning as described in Section 4.3 above, Customer requires that Early Warning complete a questionnaire regarding Early Warning's information security program, then a fee shall be assessed to Customer for the questionnaire, as agreed upon by the Parties and Early Warning. Any completion of a questionnaire in this instance shall not begin until the fee for each, if applicable, has been agreed upon by the Parties and Early Warning. Fees related to the completion of questionnaires by Early Warning will be billed to Customer separately from fees for the Service.
- 4.5 In the event of a breach in security resulting in actual or suspected loss of or unauthorized access to Response Data, Customer shall: (a) immediately notify Early Warning by calling (877) 275-7774, Option 4 and notify U.S. Bank by contacting its relationship manager; (b) conduct a forensics examination to determine to what extent Response Data were compromised; (c) provide to Early Warning and U.S. Bank, in writing, details concerning the breach, including: (i) nature and impact of the breach, (ii) assessment of immediate risk due to the breach, (iii) corrective actions already taken, and (iv) corrective actions to be taken; (d) cooperate with Early Warning, U.S. Bank and any affected Inquirers, Contributors, regulators or law enforcement to assist in regaining possession of the Response Data and in preventing its further unauthorized use and to notify affected consumers if required by Applicable Law; and (e) take measures to restore and enhance its security policies and procedures to avoid further breaches.
- 4.6 Early Warning or Bank may suspend the Service upon notice to Customer if Customer does not comply with the requirements of this Supplement or if Early Warning or Bank is unable to verify Customer's compliance with the requirements of this Supplement to Early Warning's or Bank's reasonable satisfaction.
- 4.7 Early Warning is a third-party beneficiary of this Supplement and Early Warning retains the right to enforce the terms of this Supplement against Customer.
- 4.8 Early Warning shall have no liability arising out of this Supplement, including, without limitation, any duties or obligations (contractual, at law or otherwise) owed by Bank to Customer or by Customer to Bank.

- 4.9 If Customer receives notice, from any source that Customer, any individual or entity that holds a controlling interest in Customer, any member of Customer's board of directors or equivalent governing body, any officer or manager of Customer, or any other employee of Customer who has access to Response Data or has decision-making authority on how the Service is used or marketed, is the subject of an investigation or other action by any Federal, state or local governmental, administrative or regulatory body, Customer will immediately notify Bank and Early Warning of such investigation or other action. Upon such notification, Bank or Early Warning may, in their sole discretion, cease providing responses comprised in whole or in part of Response Data or providing the Service to Customer.
- 4.10 Customer authorizes Early Warning to use data submitted in an inquiry for the purpose of: (a) preparing statistical reports and conducting data analytics, parsing routines, data modeling, and other analyses to test and evaluate Early Warning's services; (b) developing and providing new services or enhancements to existing services; and (c) developing and providing services to third parties engaged in the business of offering identity theft protection services to consumers, provided that no personally identifiable information shall be returned to any such third parties. The reports and results of the analyses described in clause (a) may be provided to other parties, provided that such reports and analyses do not identify specific data with respect to any party.
- 4.11 Additional terms only applicable to receivers of Detailed Responses.
- 4.11.1 Early Warning shall have the right, during normal business hours, upon reasonable advance notice, and not more than once per calendar year, to conduct an on-site audit of Customers' information security program and related policies, controls, processes and procedures. In addition, Customer shall complete a Shared Assessment Significant Information Gathering (SIG) Questionnaire or provide to Early Warning, upon request, a copy of its most recent third party data processing audit or review (e.g., SOC2-Type II, ISAE 3402, SSAE 16 or equivalent based upon American Institute of Certified Public Accountants (AICPA) standards, Acceptable Use Procedures (AUP), etc.) as conducted by its external auditors related to the Service or Bank Services, as applicable. The right of on-site audit will only be exercised if there is a reasonable belief that sensitive data associated with detailed responses is being misused.
- 4.11.2 Customer shall maintain a written information security program that contains administrative, technical and physical safeguards designed to: (a) ensure the security and confidentiality of Response Data; (b) protect against any anticipated threats or hazards to the security or integrity of Response Data; (c) protect against unauthorized access to or use of such Response Data that could result in substantial harm or inconvenience to any customer of Customer or subject of an inquiry; (d) limit access, use and disclosure of Response Data as expressly permitted by this Supplement; (e) ensure the proper disposal of Response Data, (f) ensure the encryption of Response Data at rest using a current industry acceptable encryption method (e.g., AES-256 or stronger encryption) and; (g) comply with Applicable Law. Customer's information security program must be designed to: (i) meet the objectives of the Interagency Guidelines Establishing Information Security Standards promulgated by the federal banking agencies as amended from time to time, and; (ii) include control objectives that meet applicable industry standards such as ISO 27002, FFIEC, OCC, PCI, or NIST. Customer will promptly notify Bank and Early Warning of any modification to Customer's information security program.

5. Customer Acting as a Processor.

If Customer acts as a Processor, it agrees to the following additional terms:

- 5.1 Customer will assign each of its end-user customers ("Clients") that receives any response that is comprised of Response Data a unique identification number ("Client ID"). Additionally, if inquiries are transmitted for multiple divisions or affiliates of such Clients, Customer will assign each such division and/or affiliate a unique Client ID in all inquiries transmitted for such User. Customer shall not use any Client ID in any inquiry that is made for a User, any of its divisions or its affiliates, other than the User, applicable division or affiliate for which such Client ID is assigned. Early Warning or Bank will define how the various Client ID fields are required to be populated during the implementation phase.
- 5.2 Customer shall transmit to its Clients only a Translated Response and shall not transmit Detailed Responses to its Clients. Customer shall prohibit any of its Clients that receives Translated Responses from selling, reselling, sublicensing, or otherwise transferring any part of such response to any other person or entity, unless approved in writing by Bank and Early Warning.
- 5.3 Early Warning or Bank may suspend or terminate the provision of Response Data to Customer upon notice to Customer if Customer does not comply with the requirements of Sections 5.4 and 5.5 or if Bank or Early Warning is unable to verify Customer's compliance to Bank's or Early Warning's reasonable satisfaction.
- 5.4 If Customer receives notice, from any source, that (a) a User that receives any Translated Response; (b) any individual or entity that holds a controlling interest in such User; (c) any member of the User's board of directors or equivalent governing body; (d) any officer or manager of such User; or (e) any other employee that has access to Translated Responses or has decision-making authority on how the Service is used or marketed (each of the foregoing, a "Regulated Party"), is the subject of an investigation or other action by any Federal, state or local governmental, administrative or regulatory body, Customer will immediately notify Bank and Early Warning of such investigation or other action. Early Warning and Bank, in their sole discretion, may require that Customer cease providing Translated Responses to that User. Not more than five (5) days following Customer's receipt of Early Warning's or Bank's notification to cease providing such responses to the User, Customer will provide Early Warning and Bank with written certification that it (a) has ceased providing, (b) does not currently provide, and (c) will not provide in the future Translated Responses to the User that is subject to, or is controlled by a Regulated Party that is subject to, the investigation or action.
- 5.5 Customer will establish and maintain procedures for assessing its Clients that receive any Translated Responses. Such procedures shall meet or exceed the minimum requirements for User vetting attached hereto as Exhibit B, which may be modified by Early Warning or Bank upon notice to Customer (the "Vetting Requirements"). In addition to any other audit rights of Early Warning and Bank described in this Supplement or another agreement, Early Warning and Bank shall have the right, once per calendar year, to review Customer's vetting procedures and evidence of such User assessments completed by Customer. In addition to the foregoing annual audit rights, Customer agrees that if Early Warning or Bank reasonably believes that Customer is not complying with the Vetting Requirements, Early Warning and Bank shall have the right to inspect Customer's records and procedures related to Customer's obligations under this Section during normal working hours, and in a manner as to minimize interference with Customer's normal business activities.
- 5.6 Customer agrees that Early Warning and Bank shall have the right to approve any of Customer's Clients for which Customer acts as a Processor.
- 6. Indemnification.** Customer agrees to indemnify, hold harmless and defend Bank, its directors, officers, and employees, and its agents and successors, from and against any and all claims made by any third party and all related losses, expenses, damages, costs and liabilities, including reasonable attorneys' fees and expenses incurred in the investigation or defense ("Damages"), to the extent such Damages arise out of or relate to the following: (a) any breach of any representation, warranty, or covenant of this Supplement by Customer; (b) any errors in Customer's transmission of data or inquiries; or (c) Customer's use of the Response Data.

7. **Termination.** In addition to the termination rights provided to Bank in the Agreement, Bank may terminate or suspend the Service immediately if any Response Data provided to Customer is used or disclosed by Customer: (a) contrary to this Supplement; (b) in violation of any Applicable Law pertaining to the use of the Service; or (c) Customer experiences any incident that jeopardizes the security of any Response Data in its possession.

Exhibit A

Authorized Uses of the Service

1. **Authorized Uses of Response Data.** Customer shall use the Service and Response Data subject to the terms and conditions of the Supplement, and solely for the purposes described below.
 - 1.1.1 To validate the existence and status of an account and the associated Response Data in determining whether to accept or decline an Item as payment for goods or services;
 - 1.1.2 As a factor in verifying, authorizing or guaranteeing a payment;
 - 1.1.3 To cash an Item or provide cash back from a deposit or payment;
 - 1.1.4 To decide whether to forward an Item for collection or represent it electronically; or
 - 1.1.5 To determine whether to allow the account or application to be enrolled for use in connection with future transactions by validating that the account exists and/or is in good standing
 - 1.1.6 To determine whether to accept or decline an Item as payment for goods or services by validating that the consumer presenting such Item is an authorized accountholder, user, or signatory of the account on which the Item is drawn;
 - 1.1.7 To determine whether to accept or decline an Item as payment for goods or services by validating that the company name associated with such Item is the company name of the account on which such Item is drawn;
 - 1.1.8 To determine whether to accept or decline an Item as funding for an account by validating that the consumer is an authorized accountholder, user, or signatory of the account used or to be used in connection with the funding;
 - 1.1.9 To determine whether to transfer funds by validating that the consumer is an authorized accountholder, user, or signatory of the account used or to be used in connection with the transfer of funds;
 - 1.1.10 To determine whether to allow the account to be enrolled for use in the connection with future transactions by validating that: (a) the consumer is an authorized accountholder, user, or signatory of the account; or (b) the company name is associated with the account.
- 1.2 For Customers that are regulated entities providing banking, insurance and/or investment products and services, the following are additional authorized uses of Response Data:
 - 1.2.1.1 To determine whether to accept or decline an Item for payment of a credit card, line of credit or loan (including personal and small business loans and lines of credit, auto loans, home mortgages, home equity loans and lines of credit and student loans);
 - 1.2.1.2 To delay or restrict the open to buy decision;
 - 1.2.1.3 To validate the existence and status of a recipient account of an outbound payment transaction and the associated Response Data in determining whether to transfer funds to such recipient account;
 - 1.2.1.4 To determine, as part of a fraud investigation resulting from a consumer filing an unauthorized transaction claim, whether the account exists and/or is in good standing; and
 - 1.2.1.5 If the Customer determines that further investigation is necessary to mitigate risk based upon any of the following Response Data: Closed for Cause, Closed for Cause/Purged; Closed; Closed/Purged; Pending or Recently

Closed; Post No Debits; Account Overdraft Status; Return Account; or Stop Payment, or other materially similar responses.

1.2.1.6 Customer may also use Response Data for the following purposes:

1.2.1.6.1. As a factor in determining whether to close an existing account for a consumer or company;

1.2.1.6.2. As a factor in determining whether to monitor an existing account for a consumer or company; and

1.2.1.6.3. As a factor in determining whether to restrict or change existing account privileges for a consumer or company (including, but not limited to: (a) reducing the credit line for the account; (b) restricting account access; and/or (c) modifying account debit/withdrawal limits).

1.2.1.6.4. To determine, as part of a fraud investigation resulting from a consumer filing an unauthorized transaction claim, whether the consumer is an authorized accountholder, user, or signatory of an account used in connection with the transfer of funds; and

1.2.1.6.5. To determine whether to process a check order by validating that: (a) the consumer is an authorized accountholder, user or signatory of the account; or (b) the company name is associated with the account; and (c) the address is associated with the account.

1.3 For Customers that are local, state or federal government agencies or their contractors, Response Data may be used only as follows; provided, however, such Customer may not refuse or decline a consumer or a company transaction or request based solely on such Response Data:

1.3.1.1 To determine if information provided by an individual or a company meets the National Institute of Standards and Technology (NIST) Level 2 and/or Level 3 identification and authentication requirements;

1.3.1.2 To validate the existence and status of an account and the associated Response Data, in determining whether to accept or decline an Item as payment for goods or services; and

1.3.1.3 To determine whether to allow the account or application to be enrolled for use in connection with future transactions by validating that the account exists and/or is in good standing.

1.3.1.4 To direct requests for account verifications to account holding organizations or entities;

1.3.1.5 To determine whether to transfer funds by validating that the consumer is an authorized accountholder, user, or signatory of the account used or to be used in connection with the transfer of funds; and

1.3.1.6 To determine whether to allow the account to be enrolled for use in connection with future transactions by validating that: (a) the consumer is an authorized accountholder, used or signatory of the account; or (b) the company name is associated with the account.

Exhibit B

Minimum Vetting Standards for Clients of Customer as Processors

All Clients of a Customer as Processor (where applicable) that receive a response to an inquiry where such response is comprised of or derived from, in whole or in part, Response Data provided by Early Warning must be vetted by Customer as Processor, at a minimum, to meet the requirements herein and in accordance with the procedures outlined below. For the purposes of these vetting requirements, User includes the parent company, affiliates and any DBA entity.

Customer as Processor must maintain:

1. Written procedures for User vetting that meet the minimum requirements outlined in this Exhibit B- under the section below titled “Minimum Vetting Requirements”.
2. Such written procedures must include a process for all of the following:
 - a. Completing each of the minimum requirements;
 - b. Ensuring Clients are not implemented to receive any response to an inquiry that is comprised of or derived from, in whole or in part, of Response Data prior to completion and clearance of the vetting process;
 - c. Timely review of all existing Clients;
 - d. Listing and/or documenting the vetting history for each User including dates and findings;
 - e. Escalation of any negative information found or any information that cannot be verified;
 - i. Must include a review by CEO or equivalent C-level employee of the Customer as Processor’s team and documentation of the results.
 - ii. Any approval of User following review under 2.e.i. must include a detailed justification.
 - f. Storage and review of hard copies and/or electronic copies of all evidence to support the vetting process for each requirement; and
 - g. Providing required information and/or documentation to Early Warning as part of an audit or review to support Customer as Processor’s vetting process.

New Customers:

Each new User must be vetted and pass each of the vetting requirements prior to the User receiving any response to an inquiry that is comprised of or derived from, in whole or in part, of Response Data and must be vetted annually thereafter.

Existing Customers:

Each existing User as of the date of the agreement to receive Response Data, receiving any response to an inquiry that is comprised of or derived from, in whole or in part, Response Data must be vetted within twelve (12) months of execution of the agreement, and annually thereafter, not to exceed twelve (12) months since the last vetting of the User.

Minimum Vetting Requirements:

1. Have a complete and documented understanding of the User’s business model and transaction process flow.
2. Confirm User has: a) a legitimate business need for a response to an inquiry where such response is comprised of or derived from, in whole or in part, Response Data provided by Early Warning; and b) permissible purpose for procurement of a consumer report in accordance with Section 604 of the Fair Credit Reporting Act (FCRA).
3. Verify that the type of business, products and/or services offered, and contact information that the User provided on the application or questionnaire coincides with information on the User website and is verified through other public resources.

4. Verify whether the address provided is a commercial or residential building by performing an onsite visit or appropriate Internet searches.
5. Verify the address and telephone number provided on the application is accurate by utilizing Internet searches such as Google, telephone white pages, Hoovers, Reference USA, etc., or request supporting documentation such as a copy of a current lease and/or telephone bill in the User's name.
6. Verify the User is active and in good standing in its state of incorporation or state of licensing by searching the state's website (e.g., Secretary of State or State Corporation Division) or obtain a certificate of good standing.
7. Verify whether the User is the subject of an FTC or CFPB action or case by searching the FTC and CFPB websites for the business name and the names of all owners, principals, officers and directors.
8. Conduct an OFAC search for the business name and the names of all owners, principals, officers and directors.
9. Conduct a Better Business Bureau search for the business name.
10. Conduct Internet searches such as a Google search for the business name and the names of all owners, principals, officers and directors for any negative information.
11. Conduct a search of the State Attorney General's website in the User's state of incorporation and state(s) of licensing to verify whether the business and/or any owner, principal, officer or director is subject to state action or cases.
12. Document and implement a process for handling items that cannot be verified or validated or where negative information is found, including without limitation the escalation procedures described in this Exhibit B.
13. Maintain a User specific checklist (signed and dated) indicating each of the verification steps were completed, document all findings and keep copies of all associated back up documentation.
14. Each prospect or new User must be vetted and pass the vetting criteria prior to the implementation of the User.
15. All existing Clients must be vetted and pass the vetting criteria on, at least, an annual basis, not to exceed twelve (12) months since the last vetting of the User was completed.

Note: Non-U.S. customers must go through a similar vetting process to meet the minimum vetting requirements and must be verified with the appropriate agencies of the country in which the company is doing business. Customer is responsible for compliance with any privacy laws, export laws and any other applicable laws and regulations relating to the transmission of data from and/or to such countries. Customer is further responsible for ensuring that its employees, agents, contractors, customers, and any other individuals or entities it exposes to responses comprised of or derived from, in whole or in part, Response Data provided by Early Warning are not on any U.S. Restricted Party Lists¹ and not from U.S. sanctioned destinations².

¹ "U.S. Restricted Party Lists" include Denied Persons Lists, the Unverified List, the Entity List, the Specially Designated Nationals List, the Debarred List, and the Nonproliferation Sanctions administered by the U.S. Department of Commerce, U.S. Department of Treasury, and U.S. Department of State.

² "U.S. sanctioned destinations" means entities and individuals who are incorporated in or nationals of countries upon which the U.S. Department of Commerce and the U.S. Department of Treasury have placed trade restrictions.

Exhibit C

All users of consumer reports must comply with all applicable regulations. Information about applicable regulations currently in effect can be found at the Consumer Financial Protection Bureau's website, www.consumerfinance.gov/learnmore.

NOTICE TO USERS OF CONSUMER REPORTS: OBLIGATIONS OF USERS UNDER THE FCRA

The Fair Credit Reporting Act (FCRA), 15 U.S.C. 1681–1681y, requires that this notice be provided to inform users of consumer reports of their legal obligations. State law may impose additional requirements. The text of the FCRA is set forth in full at the Consumer Financial Protection Bureau's (CFPB) website at www.consumerfinance.gov/learnmore. At the end of this document is a list of United States Code citations for the FCRA. Other information about user duties is also available at the CFPB's website. **Users must consult the relevant provisions of the FCRA for details about their obligations under the FCRA.**

The first section of this summary sets forth the responsibilities imposed by the FCRA on all users of consumer reports. The subsequent sections discuss the duties of users of reports that contain specific types of information, or that are used for certain purposes, and the legal consequences of violations. If you are a furnisher of information to a consumer reporting agency (CRA), you have additional obligations and will receive a separate notice from the CRA describing your duties as a furnisher.

I. OBLIGATIONS OF ALL USERS OF CONSUMER REPORTS

A. Users Must Have a Permissible Purpose

Congress has limited the use of consumer reports to protect consumers' privacy. All users must have a permissible purpose under the FCRA to obtain a consumer report. Section 604 contains a list of the permissible purposes under the law. These are:

- As ordered by a court or a federal grand jury subpoena. [Section 604\(a\)\(1\)](#)
- As instructed by the consumer in writing. [Section 604\(a\)\(2\)](#)
- For the extension of credit as a result of an application from a consumer, or the review or collection of a consumer's account. [Section 604\(a\)\(3\)\(A\)](#)
- For employment purposes, including hiring and promotion decisions, where the consumer has given written permission. [Sections 604\(a\)\(3\)\(B\) and 604\(b\)](#)
- For the underwriting of insurance as a result of an application from a consumer. [Section 604\(a\)\(3\)\(C\)](#)
- When there is a legitimate business need, in connection with a business transaction that is initiated by the consumer. [Section 604\(a\)\(3\)\(F\)\(i\)](#)
- To review a consumer's account to determine whether the consumer continues to meet the terms of the account. [Section 604\(a\)\(3\)\(F\)\(ii\)](#)
- To determine a consumer's eligibility for a license or other benefit granted by a governmental instrumentality required by law to consider an applicant's financial responsibility or status. [Section 604\(a\)\(3\)\(D\)](#)
- For use by a potential investor or servicer, or current insurer, in a valuation or assessment of the credit or prepayment risks associated with an existing credit obligation. [Section 604\(a\)\(3\)\(E\)](#)
- For use by state and local officials in connection with the determination of child support payments, or modifications and enforcement thereof. [Sections 604\(a\)\(4\) and 604\(a\)\(5\)](#)

In addition, creditors and insurers may obtain certain consumer report information for the purpose of making "prescreened" unsolicited offers of credit or insurance. [Section 604\(c\)](#). The particular obligations of users of "prescreened" information are described in Section VII below.

B. Users Must Provide Certifications

Section 604(f) prohibits any person from obtaining a consumer report from a consumer reporting agency (CRA) unless the person has certified to the CRA the permissible purpose(s) for which the report is being obtained and certifies that the report will not be used for any other purpose.

C. Users Must Notify Consumers When Adverse Actions Are Taken

The term “adverse action” is defined very broadly by Section 603. “Adverse actions” include all business, credit, and employment actions affecting consumers that can be considered to have a negative impact as defined by Section 603(k) of the FCRA—such as denying or canceling credit or insurance, or denying employment or promotion. No adverse action occurs in a credit transaction where the creditor makes a counteroffer that is accepted by the consumer.

1. Adverse Actions Based on Information Obtained From a CRA

If a user takes any type of adverse action as defined by the FCRA that is based at least in part on information contained in a consumer report, Section 615(a) requires the user to notify the consumer. The notification may be done in writing, orally, or by electronic means. It must include the following:

- The name, address, and telephone number of the CRA (including a toll-free telephone number, if it is a nationwide CRA) that provided the report.
- A statement that the CRA did not make the adverse decision and is not able to explain why the decision was made.
- A statement setting forth the consumer’s right to obtain a free disclosure of the consumer’s file from the CRA if the consumer makes a request within 60 days.
- A statement setting forth the consumer’s right to dispute directly with the CRA the accuracy or completeness of any information provided by the CRA.

2. Adverse Actions Based on Information Obtained From Third Parties Who Are Not Consumer Reporting Agencies

If a person denies (or increases the charge for) credit for personal, family, or household purposes based either wholly or partly upon information from a person other than a CRA, and the information is the type of consumer information covered by the FCRA, Section 615(b)(1) requires that the user clearly and accurately disclose to the consumer his or her right to be told the nature of the information that was relied upon if the consumer makes a written request within 60 days of notification. The user must provide the disclosure within a reasonable period of time following the consumer’s written request.

3. Adverse Actions Based on Information Obtained From Affiliates

If a person takes an adverse action involving insurance, employment, or a credit transaction initiated by the consumer, based on information of the type covered by the FCRA, and this information was obtained from an entity affiliated with the user of the information by common ownership or control, Section 615(b)(2) requires the user to notify the consumer of the adverse action. The notice must inform the consumer that he or she may obtain a disclosure of the nature of the information relied upon by making a written request within 60 days of receiving the adverse action notice. If the consumer makes such a request, the user must disclose the nature of the information not later than 30 days after receiving the request. If consumer report information is shared among affiliates and then used for an adverse action, the user must make an adverse action disclosure as set forth in I.C.1 above.

D. Users Have Obligations When Fraud and Active Duty Military Alerts Are in Files

When a consumer has placed a fraud alert, including one relating to identity theft, or an active duty military alert with a nationwide consumer reporting agency as defined in Section 603(p) and resellers, Section 605A(h) imposes limitations on users of the reports obtained from the consumer reporting agency in certain circumstances, including the establishment of a new credit plan and the issuance of additional credit cards. For initial fraud alerts and active duty alerts, the user must have reasonable policies and procedures in place to form a belief that the user knows the identity of the applicant or contact the consumer

at a telephone number specified by the consumer; in the case of extended fraud alerts, the user must contact the consumer in accordance with the contact information provided in the consumer's alert.

E. Users Have Obligations When Notified of an Address Discrepancy

Section 605(h) requires nationwide CRAs, as defined in Section 603(p), to notify users that request reports when the address for a consumer provided by the user in requesting the report is substantially different from the address in the consumer's file. When this occurs, users must comply with regulations specifying the procedures to be followed. Federal regulations are available at <http://www.consumerfinance.gov/learnmore>.

F. Users Have Obligations When Disposing of Records

Section 628 requires that all users of consumer report information have in place procedures to properly dispose of records containing this information. Federal regulations have been issued that cover disposal.

II. CREDITORS MUST MAKE ADDITIONAL DISCLOSURES

If a person uses a consumer report in connection with an application for, or a grant, extension, or provision of, credit to a consumer on material terms that are materially less favorable than the most favorable terms available to a substantial proportion of consumers from or through that person, based in whole or in part on a consumer report, the person must provide a risk-based pricing notice to the consumer in accordance with regulations prescribed by the CFPB.

Section 609(g) requires a disclosure by all persons that make or arrange loans secured by residential real property (one to four units) and that use credit scores. These persons must provide credit scores and other information about credit scores to applicants, including the disclosure set forth in Section 609(g)(1)(D) ("Notice to the Home Loan Applicant").

III. OBLIGATIONS OF USERS WHEN CONSUMER REPORTS ARE OBTAINED FOR EMPLOYMENT PURPOSES

A. Employment Other Than in the Trucking Industry

If information from a CRA is used for employment purposes, the user has specific duties, which are set forth in Section 604(b) of the FCRA. The user must:

- Make a clear and conspicuous written disclosure to the consumer before the report is obtained, in a document that consists solely of the disclosure, that a consumer report may be obtained.
- Obtain from the consumer prior written authorization. Authorization to access reports during the term of employment may be obtained at the time of employment.
- Certify to the CRA that the above steps have been followed, that the information being obtained will not be used in violation of any federal or state equal opportunity law or regulation, and that, if any adverse action is to be taken based on the consumer report, a copy of the report and a summary of the consumer's rights will be provided to the consumer.
- **Before** taking an adverse action, the user must provide a copy of the report to the consumer as well as the summary of consumer's rights. (The user should receive this summary from the CRA.) A Section 615(a) adverse action notice should be sent after the adverse action is taken.

An adverse action notice also is required in employment situations if credit information (other than transactions and experience data) obtained from an affiliate is used to deny employment. [Section 615\(b\)\(2\)](#)

The procedures for investigative consumer reports and employee misconduct investigations are set forth below.

B. Employment in the Trucking Industry

Special rules apply for truck drivers where the only interaction between the consumer and the potential employer is by mail, telephone, or computer. In this case, the consumer may provide consent

orally or electronically, and an adverse action may be made orally, in writing, or electronically. The consumer may obtain a copy of any report relied upon by the trucking company by contacting the company.

IV. OBLIGATIONS WHEN INVESTIGATIVE CONSUMER REPORTS ARE USED

Investigative consumer reports are a special type of consumer report in which information about a consumer's character, general reputation, personal characteristics, and mode of living is obtained through personal interviews by an entity or person that is a consumer reporting agency. Consumers who are the subjects of such reports are given special rights under the FCRA. If a user intends to obtain an investigative consumer report, Section 606 requires the following:

- The user must disclose to the consumer that an investigative consumer report may be obtained. This must be done in a written disclosure that is mailed, or otherwise delivered, to the consumer at some time before or not later than three days after the date on which the report was first requested. The disclosure must include a statement informing the consumer of his or her right to request additional disclosures of the nature and scope of the investigation as described below, and the summary of consumer rights required by Section 609 of the FCRA. (The summary of consumer rights will be provided by the CRA that conducts the investigation.)
- The user must certify to the CRA that the disclosures set forth above have been made and that the user will make the disclosure described below.
- Upon the written request of a consumer made within a reasonable period of time after the disclosures required above, the user must make a complete disclosure of the nature and scope of the investigation. This must be made in a written statement that is mailed, or otherwise delivered, to the consumer no later than five days after the date on which the request was received from the consumer or the report was first requested, whichever is later in time.

V. SPECIAL PROCEDURES FOR EMPLOYEE INVESTIGATIONS

Section 603(x) provides special procedures for investigations of suspected misconduct by an employee or for compliance with federal, state or local laws and regulations or the rules of a self-regulatory organization, and compliance with written policies of the employer. These investigations are not treated as consumer reports so long as the employer or its agent complies with the procedures set forth in Section 603(x), and a summary describing the nature and scope of the inquiry is made to the employee if an adverse action is taken based on the investigation.

VI. OBLIGATIONS OF USERS OF MEDICAL INFORMATION

Section 604(g) limits the use of medical information obtained from consumer reporting agencies (other than payment information that appears in a coded form that does not identify the medical provider). If the information is to be used for an insurance transaction, the consumer must give consent to the user of the report or the information must be coded. If the report is to be used for employment purposes - or in connection with a credit transaction (except as provided in federal regulations) - the consumer must provide specific written consent and the medical information must be relevant. Any user who receives medical information shall not disclose the information to any other person (except where necessary to carry out the purpose for which the information was disclosed, or as permitted by statute, regulation, or order).

VII. OBLIGATIONS OF USERS OF "PRESCREENED" LISTS

The FCRA permits creditors and insurers to obtain limited consumer report information for use in connection with unsolicited offers of credit or insurance under certain circumstances. Sections 603(l), 604(c), 604(e), and 615(d). This practice is known as "prescreening" and typically involves obtaining from a CRA a list of consumers who meet certain pre-established criteria. If any person intends to use prescreened lists, that person must (1) before the offer is made, establish the criteria that will be relied upon to make the offer and to grant credit or insurance, and (2) maintain such criteria on file for a three-year period beginning on the date on which the offer is made to each consumer. In addition, any user must provide with each written solicitation a clear and conspicuous statement that:

- Information contained in a consumer's CRA file was used in connection with the transaction.

- The consumer received the offer because he or she satisfied the criteria for credit worthiness or insurability used to screen for the offer.
- Credit or insurance may not be extended if, after the consumer responds, it is determined that the consumer does not meet the criteria used for screening or any applicable criteria bearing on credit worthiness or insurability, or the consumer does not furnish required collateral.
- The consumer may prohibit the use of information in his or her file in connection with future prescreened offers of credit or insurance by contacting the notification system established by the CRA that provided the report. The statement must include the address and toll-free telephone number of the appropriate notification system.

In addition, the CFPB has established the format, type size, and manner of the disclosure required by Section 615(d), with which users must comply. The relevant regulation is 12 CFR 1022.54.

VIII. OBLIGATIONS OF RESELLERS

A. Disclosure and Certification Requirements

Section 607(e) requires any person who obtains a consumer report for resale to take the following steps:

- Disclose the identity of the end-user to the source CRA.
- Identify to the source CRA each permissible purpose for which the report will be furnished to the end-user.
- Establish and follow reasonable procedures to ensure that reports are resold only for permissible purposes, including procedures to obtain:
 - (1) the identity of all end-users;
 - (2) certifications from all users of each purpose for which reports will be used; and
 - (3) certifications that reports will not be used for any purpose other than the purpose(s) specified to the reseller. Resellers must make reasonable efforts to verify this information before selling the report.

B. Reinvestigations by Resellers

Under Section 611(f), if a consumer disputes the accuracy or completeness of information in a report prepared by a reseller, the reseller must determine whether this is a result of an action or omission on its part, and, if so, correct or delete the information. If not, the reseller must send the dispute to the source CRA for reinvestigation. When any CRA notifies the reseller of the results of an investigation, the reseller must immediately convey the information to the consumer.

C. Fraud Alerts and Resellers

Section 605A(f) requires resellers who receive fraud alerts or active duty alerts from another consumer reporting agency to include these in their reports.

IX. LIABILITY FOR VIOLATIONS OF THE FCRA

Failure to comply with the FCRA can result in state government or federal government enforcement actions, as well as private lawsuits. Sections 616, 617, and 621. In addition, any person who knowingly and willfully obtains a consumer report under false pretenses may face criminal prosecution. Section 619.

The CFPB's website, www.consumerfinance.gov/learnmore, has more information about the FCRA, including publications for businesses and the full text of the FCRA.

**NOTICE TO USERS OF CONSUMER REPORTS UNDER
CALIFORNIA CONSUMER CREDIT REPORTING AGENCIES ACT
CIVIL CODE SECTION 1785.20-1785.22**

The California Consumer Credit Reporting Agencies Act (Civil Code Sections 1785.1 – 1785.36) requires that this notice be provided to inform users of consumer reports of their responsibilities under Sections 1785.20-1785.22 of the California Civil Code.

Sections 1785.20-1785.22 impose the following duties upon users of consumer reports:

1785.20. (a) If any person takes any adverse action with respect to any consumer, and the adverse action is based, in whole or in part, on any information contained in a consumer credit report, that person shall do all of the following:

- (1) Provide written notice of the adverse action to the consumer.
- (2) Provide the consumer with the name, address, and telephone number of the consumer credit reporting agency which furnished the report to the person.
- (3) Provide a statement that the credit grantor's decision to take adverse action was based in whole or in part upon information contained in a consumer credit report.
- (4) Provide the consumer with a written notice of the following rights of the consumer:
 - (A) The right of the consumer to obtain within 60 days a free copy of the consumer's consumer credit report from the consumer credit reporting agency identified pursuant to paragraph (2) and from any other consumer credit reporting agency which compiles and maintains files on consumers on a nationwide basis.
 - (B) The right of the consumer under Section 1785.16 to dispute the accuracy or completeness of any information in a consumer credit report furnished by the consumer credit reporting agency.
- (b) Whenever credit or insurance for personal, family, or household purposes involving a consumer is denied or the charge for such credit is increased either wholly or in part because of information obtained from a person other than a consumer credit reporting agency bearing upon consumer's credit worthiness or credit standing, the user of that information shall, within a reasonable period of time, and upon the consumer's written request for the reasons for that adverse action received within 60 days after learning of the adverse action, disclose the nature and substance of the information to the consumer. The user of the information shall clearly and accurately disclose to the consumer his or her right to make such a written request at the time the adverse action is communicated to the consumer.
- (c) No person shall be held liable for any violation of this section if he or she shows by a preponderance of the evidence that at the time of the alleged violation he or she maintained reasonable procedures to assure compliance with this section.
- (d) Nothing in this chapter shall excuse compliance with the requirements of Section 1787.2.

1785.20.1. (a) Except as provided in subdivision (b), any person who uses a consumer credit report in connection with any credit transaction not initiated by the consumer and which consists of a firm offer of credit shall provide with any solicitation made to the consumer a clear and conspicuous statement as to all of the following:

- (1) Information contained in the consumer's prequalifying report was used in connection with the transaction.
- (2) The consumer received the offer of credit, because the consumer satisfied the criteria for creditworthiness under which the consumer was selected for the offer.
- (3) Where applicable, the credit may not be extended if, after the consumer responds to the offer, the consumer does not meet the criteria used to select the consumer for the offer.
- (4) The consumer has a right to prohibit use of information contained in the consumer's file with any consumer credit reporting agency in connection with any credit transaction that is not initiated by the

consumer. The consumer may exercise this right by notifying the notification system or joint notification system established under subdivision (d) or (e) of Section 1785.11.

b) Subdivision (a) does not apply to any person using a prequalifying report if all of the following conditions are met:

(1) The person using the prequalifying report is affiliated by common ownership or common corporate control with the person who procured the report.

(2) The person who procures the prequalifying report from the consumer credit reporting agency clearly and conspicuously discloses to the consumer to whom the report relates, before the prequalifying report is provided to the person who uses the report, that the prequalifying report might be provided to, and used by, persons affiliated in the manner specified in paragraph (1) with the person that procured the report.

(3) The consumer consents in writing to this provision and use of the prequalifying report.

(c) No person shall be denied credit on the basis of the consumer's refusal to provide consent pursuant to paragraph (3) of subdivision (b), unless that consent is necessary for the extension of credit, related to that transaction, by an affiliate.

1785.20.2. Any person who makes or arranges loans and who uses a consumer credit score as defined in Section 1785.15.1 in connection with an application initiated or sought by a consumer for a closed end loan or establishment of an open end loan for a consumer purpose that is secured by one to four units of residential real property shall provide the following to the consumer as soon as reasonably practicable:

(a) A copy of the information identified in subdivision (a) of Section 1785.15.1 that was obtained from a credit reporting agency or was developed and used by the user of the information. In addition to the information provided to it by a third party that provided the credit score or scores, a lender is only required to provide the notice contained in subdivision (d).

(b) If a person who is subject to this section uses an automated underwriting system to underwrite a loan, that person may satisfy the obligation to provide a credit score by disclosing a credit score and associated key factors supplied by a consumer credit reporting agency. However, if a numerical credit score is generated by an automated underwriting system used by an enterprise, and that score is disclosed to the person, it shall be disclosed to the consumer consistent with subdivision (c). For purposes of this subdivision, the term "enterprise" shall have the meaning provided in paragraph (6) of Section 4502 of Title 12 of the United States Code.

(c) A person subject to the provisions of this section who uses a credit score other than a credit score provided by a consumer reporting agency may satisfy the obligation to provide a credit score by disclosing a credit score and associated key factors supplied by a consumer credit reporting agency.

(d) A copy of the following notice, which shall include the name, address, and telephone number of each credit bureau providing a credit score that was used:

NOTICE TO THE HOME LOAN APPLICANT

In connection with your application for a home loan, the lender must disclose to you the score that a credit bureau distributed to users and the lender used in connection with your home loan, and the key factors affecting your credit scores.

The credit score is a computer generated summary calculated at the time of the request and based on information a credit bureau or lender has on file. The scores are based on data about your credit history and payment patterns. Credit scores are important because they are used to assist the lender in determining whether you will obtain a loan. They may also be used to determine what interest rate you may be offered on the mortgage. Credit scores can change over time, depending on your conduct, how your credit history and payment patterns change, and how credit scoring technologies change.

Because the score is based on information in your credit history, it is very important that you review the credit-related information that is being furnished to make sure it is accurate. Credit records may vary from one company to another.

If you have questions about your credit score or the credit information that is furnished to you, contact the credit bureau at the address and telephone number provided with this notice, or contact the lender, if the lender developed or generated the credit score. The credit bureau plays no part in the decision to take any action on the loan application and is unable to provide you with specific reasons for the decision on a loan application.

If you have questions concerning the terms of the loan, contact the lender.

(e) This section shall not require any person to do the following:

(1) Explain the information provided pursuant to Section 1785.15.1.

(2) Disclose any information other than a credit score or key factor, as defined in Section 1785.15.1.

(3) Disclose any credit score or related information obtained by the user after a loan has closed.

(4) Provide more than one disclosure per loan transaction.

(5) Provide the disclosure required by this section when another person has made the disclosure to the consumer for that loan transaction.

(f) Any person's obligation pursuant to this section shall be limited solely to providing a copy of the information that was received from the consumer credit reporting agency. No person has liability under this section for the content of that information or for the omission of any information within the report provided by the consumer credit reporting agency.

(g) As used in this section, the term "person" does not include an "enterprise" as defined in paragraph (6) of Section 4502 of Title 12 of the United States Code.

1785.20.3. (a) Any person who uses a consumer credit report in connection with the approval of credit based on an application for an extension of credit, and who discovers that the consumer's first and last name, address, or social security number, on the credit application does not match, within a reasonable degree of certainty, the consumer's first and last name, address or addresses, or social security number listed, if any, on the consumer credit report, shall take reasonable steps to verify the accuracy of the consumer's first and last name, address, or social security number provided on the application to confirm that the extension of credit is not the result of identity theft, as defined in Section 1798.92.

(b) Any person who uses a consumer credit report in connection with the approval of credit based on an application for an extension of credit, and who has received notification pursuant to subdivision (k) of Section 1785.16 that the applicant has been a victim of identity theft, as defined in Section 1798.92, may not lend money or extend credit without taking reasonable steps to verify the consumer's identity and confirm that the application for an extension of credit is not the result of identity theft.

(c) Any consumer who suffers damages as a result of a violation of this section by any person may bring an action in a court of appropriate jurisdiction against that person to recover actual damages, court costs, attorney's fees, and punitive damages of not more than thirty thousand dollars (\$30,000) for each violation, as the court deems proper.

(d) As used in this section, "identity theft" has the meaning given in subdivision (b) of Section 1798.92.

(e) For the purposes of this section, "extension of credit" does not include an increase in an existing open-end credit plan, as defined in Regulation Z of the Federal Reserve System (12 C.F.R. 226.2), or any change to or review of an existing credit account.

(f) If a consumer provides initial written notice to a creditor that he or she is a victim of identity theft, as defined in subdivision (d) of Section 1798.92, the creditor shall provide written notice to the consumer of his or her rights under subdivision (k) of Section 1785.16.

(g) The provisions of subdivisions (k) and (l) of Section 1785.16 do not apply to a consumer credit reporting agency that acts only as a reseller of credit information by assembling and merging information contained in the database of another consumer credit reporting agency or the databases of multiple consumer credit reporting agencies, and does not maintain a permanent database of credit information from which new credit reports are produced.

(h) This section does not apply if one of the addresses at issue is a United States Army or Air Force post office address or a United States Fleet post office address.

1785.20.5. (a) Prior to requesting a consumer credit report for employment purposes, the user of the report shall provide written notice to the person involved. The notice shall inform the person that a report will be used and the source of the report, and shall contain a box that the person may check off to receive a copy of the credit report. If the consumer indicates that he or she wishes to receive a copy of the report, the user shall request that a copy be provided to the person when the user requests its copy from the credit reporting agency. The report to the user and to the subject person shall be provided contemporaneously and at no charge to the subject person.

(b) Whenever employment involving a consumer is denied either wholly or partly because of information contained in a consumer credit report from a consumer credit reporting agency, the user of the consumer credit report shall so advise the consumer against whom the adverse action has been taken and supply the name and address or addresses of the consumer credit reporting agency making the report. No person shall be held liable for any violation of this section if he or she shows by a preponderance of the evidence that, at the time of the alleged violation, he or she maintained reasonable procedures to assure compliance with this section.

1785.21. (a) A user in its discretion may notify the consumer that upon request the user may contact the consumer reporting agency and request that the consumer reporting agency investigate the current status of an item or items of information contained in the consumer report if the consumer disputes the completeness or accuracy of an item or items of information as provided to the user.

(b) The consumer credit reporting agency may require identification from the user to ensure the validity of the request and, in that regard, may require that the request be put in writing with proper identification.

(c) In the event that any such request is made and identification given in the form or manner demanded by the consumer credit reporting agency, such agency shall review the file of the consumer and report the current status of the disputed information to the user and the consumer by the most expeditious means possible.

(d) No user who furnishes information pursuant to this section shall be liable to any person for furnishing such information.

1785.22. (a) A person may not procure a consumer credit report for the purpose of reselling the report or any information therein unless the person discloses to the consumer credit reporting agency which issues the report the identity of the ultimate end user and each permissible purpose for which the report is furnished to the end user of the consumer credit report or information therein.

(b) A person that procures a consumer credit report for the purpose of reselling the report or any information therein shall do all of the following:

(1) Establish and comply with reasonable procedures designed to ensure that the consumer credit report or information is resold by the person only for a purpose for which the report may be furnished under this title. These procedures shall include all of the following:

(A) Identification of each prospective user of the resold consumer credit report or information.

(B) Certification of each purpose for which the consumer credit report or information will be used.

(C) Certification that the consumer credit report or information will be used for no other purpose.

(2) Before reselling the consumer credit report or information, the person shall make reasonable efforts to verify the identities and certifications made under paragraph (1).

All furnishers subject to the Federal Trade Commission's jurisdiction must comply with all applicable regulations, including regulations promulgated after this notice was prescribed in 2004. Information about applicable regulations currently in effect can be found at the Commission's Web site, www.ftc.gov/credit. Furnishers who are not subject to the Commission's jurisdiction should consult with their regulators to discern any relevant regulations.

NOTICE TO FURNISHERS OF INFORMATION: OBLIGATIONS OF FURNISHERS UNDER THE FCRA

The federal Fair Credit Reporting Act (FCRA), 15 U.S.C. 1681-1681y, imposes responsibilities on all persons who furnish information to consumer reporting agencies (CRAs). These responsibilities are found in Section 623 of the FCRA, 15 U.S.C. 1681s-2. State law may impose additional requirements on furnishers. All furnishers of information to CRAs should become familiar with the applicable laws and may want to consult with their counsel to ensure that they are in compliance. The text of the FCRA is set forth in full at the Web- site of the Federal Trade Commission (FTC): www.ftc.gov/credit. A list of the sections of the FCRA cross referenced to the U.S. Code is at the end of this document.

Section 623 imposes the following duties upon furnishers:

ACCURACY GUIDELINES

The banking and credit union regulators and the FTC will promulgate guidelines and regulations dealing with the accuracy of information provided to CRAs by furnishers. The regulations and guidelines issued by the FTC will be available at www.ftc.gov/credit when they are issued. Section 623(e).

GENERAL PROHIBITION ON REPORTING INACCURATE INFORMATION

The FCRA prohibits information furnishers from providing information to a CRA that they know or have reasonable cause to believe is inaccurate. However, the furnisher is not subject to this general prohibition if it clearly and conspicuously specifies an address to which consumers may write to notify the furnisher that certain information is inaccurate. Sections 623(a)(1)(A) and (a)(1)(C).

DUTY TO CORRECT AND UPDATE INFORMATION

If at any time a person who regularly and in the ordinary course of business furnishes information to one or more CRAs determines that the information provided is not complete or accurate, the furnisher must promptly provide complete and accurate information to the CRA. In addition, the furnisher must notify all CRAs that received the information of any corrections, and must thereafter report only the complete and accurate information. Section 623(a)(2).

DUTIES AFTER NOTICE OF DISPUTE FROM CONSUMER

If a consumer notifies a furnisher, at an address specified for the furnisher for such notices, that specific information is inaccurate, and the information is, in fact, inaccurate, the furnisher must thereafter report the correct information to CRAs. Section 623(a)(1)(B).

If a consumer notifies a furnisher that the consumer disputes the completeness or accuracy of any information reported by the furnisher, the furnisher may not subsequently report that information to a CRA without providing notice of the dispute. Section 623(a) (3).

The federal banking and credit union regulators and the FTC will issue regulations that will identify when an information furnisher must investigate a dispute made directly to the furnisher by a consumer. Once these regulations are issued, furnishers must comply with them and complete an investigation within 30 days (or 45 days, if the consumer later provides relevant additional information) unless the dispute is frivolous or irrelevant or comes from a "credit repair organization." The FTC regulations will be available at www.ftc.gov/credit. Section 623(a)(8).

DUTIES AFTER NOTICE OF DISPUTE FROM CONSUMER REPORTING AGENCY

If a CRA notifies a furnisher that a consumer disputes the completeness or accuracy of information provided by the furnisher, the furnisher has a duty to follow certain procedures. The furnisher must:

1. Conduct an investigation and review all relevant information provided by the CRA, including information given to the CRA by the consumer. Sections 623(b)(1)(A) and (b)(1)(B).
2. Report the results to the CRA that referred the dispute, and, if the investigation establishes that the information was, in fact, incomplete or inaccurate, report the results to all CRAs to which the furnisher provided the information that compile and maintain files on a nationwide basis. Section 623(b)(1)(C) and (b)(1)(D)3. Complete the above steps within 30 days from the date the CRA receives the dispute (or 45 days, if the consumer later provides relevant additional information to the CRA). Section 623(b)(2).

3. Complete the above steps within 30 days from the date the CRA receives the dispute (or 45 days, if the consumer later provides relevant additional information to the CRA). Section 623(b)(2).
4. Promptly modify or delete the information, or block its reporting. Section 623(b)(1)(E).

DUTY TO REPORT VOLUNTARY CLOSING OF CREDIT ACCOUNTS

If a consumer voluntarily closes a credit account, any person who regularly and in the ordinary course of business furnishes information to one or more CRAs must report this fact when it provides information to CRAs for the time period in which the account was closed. Section 623(a)(4).

DUTY TO REPORT DATES OF DELINQUENCIES

If a furnisher reports information concerning a delinquent account placed for collection, charged to profit or loss, or subject to any similar action, the furnisher must, within 90 days after reporting the information, provide the CRA with the month and the year of the commencement of the delinquency that immediately preceded the action, so that the agency will know how long to keep the information in the consumer's file. Section 623(a)(5).

Any person, such as a debt collector, that has acquired or is responsible for collecting delinquent accounts and that reports information to CRAs may comply with the requirements of Section 623(a)(5) (until there is a consumer dispute) by reporting the same delinquency date previously reported by the creditor. If the creditor did not report this date, they may comply with the FCRA by establishing reasonable procedures to obtain and report delinquency dates, or, if a delinquency date cannot be reasonably obtained, by following reasonable procedures to ensure that the date reported precedes the date when the account was placed for collection, charged to profit or loss, or subjected to any similar action. Section 623(a)(5).

DUTIES OF FINANCIAL INSTITUTIONS WHEN REPORTING NEGATIVE INFORMATION

Financial institutions that furnish information to "nationwide" consumer reporting agencies, as defined in Section 603(p), must notify consumers in writing if they may furnish or have furnished negative information to a CRA. Section 623(a)(7). The Federal Reserve Board has prescribed model disclosures, 12 CFR Part 222, App. B.

DUTIES WHEN FURNISHING MEDICAL INFORMATION

A furnisher whose primary business is providing medical services, products, or devices (and such furnisher's agents or assignees) is a medical information furnisher for the purposes of the FCRA and must notify all CRAs to which it reports of this fact. Section 623(a)(9). This notice will enable CRAs to comply with their duties under Section 604(g) when reporting medical information.

DUTIES WHEN ID THEFT OCCURS

All furnishers must have in place reasonable procedures to respond to notifications from CRAs that information furnished is the result of identity theft, and to prevent refurnishing the information in the future. A furnisher may not furnish information that a consumer has identified as resulting from identity theft unless the furnisher subsequently knows or is informed by the consumer that the information is correct. Section 623(a)(6). If a furnisher learns that it has furnished inaccurate information due to identity theft, it must notify each consumer reporting agency of the correct information and must thereafter report only complete and accurate information. Section 623(a)(2). When any furnisher of information is notified pursuant to the procedures set forth in Section 605B that a debt has resulted from identity theft, the furnisher may not sell, transfer, or place for collection the debt except in certain limited circumstances. Section 615(f).

The FTC's Web site, www.ftc.gov/credit, has more information about the FCRA, including publications for businesses and the full text of the FCRA.

Good people.
Great experience.
Payments power.

Financial Proposal for a
CAL-Card Program

PRESENTED TO
City of Roseville
Nick Rosas
Accounting Manager

SUBMITTED BY
Leslie Massey
Vice President

August 25, 2022
RFP # 10-026

Financial proposal

U.S. Bank proposes that City of Roseville (the City) participate in the NASPO ValuePoint program, a competitively bid and awarded consortium program for commercial card services available to political subdivisions in the State of California. This program has an established footing among many States and their political subdivisions and allows for participation by those entities that assume all responsibility and liability for their performance under the terms and conditions of the program. Each entity must be credit-qualified on its own and must sign a document developed by U.S. Bank for participation. The NASPO ValuePoint program offers the following incentives based on the projections provided by the City. If these projections are inaccurate, we reserve the right to revisit this offer.

We offer the City the CAL-Card program, which is a U.S. Bank Purchasing Card and Virtual Pay program offered in California through the NASPO ValuePoint public-funded agencies. The combined spend volume of the entire NASPO consortium results in significant financial benefits for all members.

The program allows the City to take advantage of a contract that has already been negotiated, saving valuable time for efficient implementation and training. The CAL-Card program offers a simplified quarterly rebate program and superior customer service. the City will also have a reliable financial partner in U.S. Bank—stable and strong in any economic environment.

Aspects of the program include:

Billing options

We offer central or decentralized billing options. You may elect for each department to receive a managing account statement with charges for its department charges, or a central account with combined billing of all charges for all accounts across the City. We allow our commercial card clients to choose between monthly or biweekly billing cycles and provide multiple statement delivery options to integrate with your data management needs.

Billing cycles

We offer 19 cycle dates, from the 6th through the 25th day of each month (exclusive of the 19th of each month). If the billing cycle date chosen falls on a Saturday, Sunday or holiday, the data is cycled at the end of the next business day.

Payment terms

Payment is due within 45 days of the statement date.

We offer a full spectrum of automated remittance options to take the burden out of the payment process. We recommend electronic payment (central pay system) and payment-in-full policies, offering you the greatest efficiency and simplicity. The type of payment may be split within the City.

Additional incentive and pricing provisions

The following provisions apply separately to each program in which organizations participate:

- Incentives are paid less credit losses, such as write offs. Fraud losses are absorbed by U.S. Bank.
- Incentives are to be paid quarterly.

Please refer to the **Local Agency Subscription Agreement** attached to this proposal for additional information regarding the participation of the City in the State of California, Department of General Services Participation Addendum.

Components for calculation

Our pricing proposal uses two components to calculate incentives:

- **Quarterly Sales Volume Incentive**—A volume incentive based on the City's quarterly spend.
- **Quarterly Speed of Payment Incentive**—A client held day¹ incentive based on the City's payment performance.

Volume incentive

The volume incentive is determined by the table below.

Standard Volume Incentive

Percentage
1.3500%

Client Held Days Payment Performance must be 45 or less

Credit Losses deducted from Rebate

Fraud Losses absorbed by U.S. Bank

Rebate payment: Quarterly

¹ Client held days are the number of days from the day U.S. Bank funds a charge transaction to the day payment for that transaction is posted, inclusive of the beginning and ending days, minus 15.

Prompt payment incentive

The prompt payment incentive is determined by the table below.

Prompt Payment Incentive

Client Held Days Payment Performance	Percentage	Client Held Days Payment Performance	Percentage	Client Held Days Payment Performance	Percentage
45	0.0000%	29	0.1600%	14	0.3100%
44	0.0100%	28	0.1700%	13	0.3200%
43	0.0200%	27	0.1800%	12	0.3300%
42	0.0300%	26	0.1900%	11	0.3400%
41	0.0400%	25	0.2000%	10	0.3500%
40	0.0500%	24	0.2100%	9	0.3600%
39	0.0600%	23	0.2200%	8	0.3700%
38	0.0700%	22	0.2300%	7	0.3800%
37	0.0800%	21	0.2400%	6	0.3900%
36	0.0900%	20	0.2500%	5	0.4000%
35	0.1000%	19	0.2600%	4	0.4100%
34	0.1100%	18	0.2700%	3	0.4200%
33	0.1200%	17	0.2800%	2	0.4300%
32	0.1300%	16	0.2900%	1	0.4400%
31	0.1400%	15	0.3000%	0	0.4500%
30	0.1500%				

Discount interchange programs

Current discount interchange includes large ticket transactions, merchant-specific negotiated rates with the card branded associations, transactions made in a foreign jurisdiction and merchant discounts for providing Level III data. We offer the City the following incentive on your discount interchange transactions:

Non-Standard Volume Incentive

Percentage
1.3500%

Client Held Days Payment Performance must be 45 or less

Credit Losses deducted from Rebate

Fraud Losses absorbed by U.S. Bank

Rebate payment: Quarterly

Prompt Payment Incentive

Client Held Days Payment Performance	Percentage	Client Held Days Payment Performance	Percentage	Client Held Days Payment Performance	Percentage
45	0.0000%	29	0.1600%	14	0.3100%

Proposed fees

Below are our proposed fees for the City's program:

Purchasing Card and Virtual Pay	
Feature	Fee
Annual Card Fee	No Fee
Non-Sufficient Funds Fee	\$15.00 per occurrence
Cash Advance	2% (\$2.00 minimum)
Logo Embossing Fee; a two-week delay may occur with card issuance and implementation	No Fee
Delinquency Fee: ▪ Not Paid by Due Date on entire past due amount ▪ Not Paid by each subsequent Billing Cycle on the entire past due amount ▪ Minimum Late Fee	▪ 1% ▪ 2.5% ▪ \$2.00
Travel Accident Insurance Fee. Common Carrier Travel Accident Insurance for Corporate Travel and/or One Cards is provided at no charge with a benefit amount of two hundred fifty thousand U.S. Dollars (\$250,000.00). Entity and/or Participant must notify U.S. Bank of the use of Central Billing Accounts for booking of travel to ensure appropriate insurance coverage is in place.	No Fee
Foreign Transaction Fee, all Products. Fee applies to transactions taking place outside the United States not in U.S. dollars. U.S. Bank reserves the right to raise fee with sixty (60) days prior written notice to Entity.	1%

Confidentiality; Disclosures

U.S. Bank appreciates the opportunity to review the Request for Proposal (RFP) for City of Roseville's purchasing card and Virtual Pay program. We have attached a copy of the NASPO ValuePoint Agreement for your review and consideration. Please note that the agreement offers the following benefits:

- It is specifically tailored for the financial services and solutions offered in this proposal.
- It contains terms and conditions designed to promote compliance with federal and state laws and regulations such as the USA PATRIOT Act, FCRA, BSA/AML, etc.
- It provides U.S. Bank with the ability to offer more favorable economic incentives due to efficiencies gained in the contracting process and the administration of the program.

If the RFP results in a contract award to U.S. Bank, we propose that the NASPO ValuePoint Agreement govern this relationship. Accordingly, please note that we do not agree to be bound by any of the terms and conditions contained in the RFP unless and until such terms are incorporated into a final written agreement between the parties. This proposal represents the basis for a proposed business relationship and is not a contract for services. The incentive and fees provided in this proposal are predicated on the State of California's ongoing participation in the NASPO ValuePoint Agreement led by the State of Washington. Please note that the current NASPO ValuePoint Agreement is effective January 1, 2021 through December 31, 2025. All pricing elements, including incentives, are subject to final credit approval by U.S. Bank, and are subject to change if credit is conditional upon collateral pledge, pre-payment or guarantor.

The documents provided in this proposal contain proprietary and confidential information of U.S. Bancorp and its affiliates and shall not be duplicated, used, or disclosed, in whole or in part, for any purpose other than to evaluate this proposal.

U.S. Bancorp, its affiliates and subsidiaries retain ownership of the information contained in these documents. Any disclosure, publication or dissemination of the information by the recipient is prohibited without the prior written consent of U.S. Bank. If this proposal is subject to disclosure under a Freedom of Information Act, Sunshine Act or other applicable law, we request that these documents be afforded protection from disclosure to the maximum extent permissible under law as proprietary and confidential information.

Finally, please note that U.S. Bank National Association offers commercial card payment products in its own name and on behalf of its correspondent bank partners under the assumed name of Elan Financial Services (Elan). Please be advised that Elan, at the request of one or more of its partner banks, may submit separate responses to the RFP.

**NASPO VALUE POINT
STATE OF CALIFORNIA PARTICIPATING ADDENDUM 7-20-99-42
LOCAL AGENCY SUBSIDIARY AGREEMENT**

This Local Agency Subsidiary Agreement ("**Subsidiary Agreement**") is entered into by undersigned entity, organized under the laws of the State of California ("**Local Agency**"), and U.S. Bank. This Subsidiary Agreement shall become effective upon signing by U.S. Bank.

RECITALS

1. The State of California, Department of General Services (the "**State**") and U.S. Bank entered into California Participating Addendum 7-20-99-42 effective January 1, 2021, as amended, supplemented or otherwise modified (the "**Participating Addendum**") for the purpose of making available a Commercial Card Services Program ("**Program**") as described in the Participating Addendum for use by state agencies and local agencies of the State;
2. Local Agency desires to participate as a "Participating Agency" under the Program and Agreement, with sole liability for its own obligations it may incur under the Program and Participating Addendum; and
3. U.S. Bank has agreed to allow Local Agency to be bound under the Participating Addendum and participate in the Program as a "Participating Agency."

AGREEMENT

Now, therefore, for and in consideration of the mutual promises contained in this Subsidiary Agreement and other good and valuable consideration, the receipt and sufficiency of which is acknowledged, Local Agency and U.S. Bank agree as follows:

1. **DEFINITIONS.** Unless otherwise stated in this Subsidiary Agreement, all capitalized terms shall have the same meaning as set forth in the Participating Addendum.
2. **DESIGNATION.** Local Agency is hereby designated as a "Participating Agency" under the Participating Addendum, and upon U.S. Bank's execution of this Subsidiary Agreement (after completing its necessary due diligence) Local Agency shall be deemed a "Participating Agency" thereunder until Local Agency so elects to remove such designation or such designation is revoked as set forth in section 6 below. U.S. Bank will take direction from such Local Agency in the issuing of Accounts (or the suspension of Accounts issued at Local Agency's direction).

3. LOCAL AGENCY REPRESENTATIONS, WARRANTIES AND COVENANTS. Local Agency:

- 3.1** Represents and warrants that it received a copy of the Participating Addendum;
- 3.2** Represents that it is a valid political subdivision of the State of California;
- 3.3** Represents and warrants that as of the date hereof that each of the representations and warranties made by the State in the Participating Addendum to U.S. Bank can be made by Local Agency without breach on the date hereof;
- 3.4** Represents and warrants that all financial and other information provided to U.S. Bank by or about Local Agency is true and correct;
- 3.5** Agrees to comply with and be bound by the terms and conditions of the Participating Addendum, including any future amendment regardless of whether Local Agency has received notice of such amendment;
- 3.6** Agrees it is liable for its own performance of the terms and conditions of the Participating Addendum (including as it may be amended from time to time) as if Local Agency signed the Participating Addendum, including for all obligations incurred by it or by any party issued an Account at its direction, but shall not be liable for any obligations incurred by the State or any other Local Agencies; and
- 3.7** Agrees that it may not assign or transfer its rights under this Subsidiary Agreement or the Participating Addendum without the express consent of U.S. Bank.

4. LIABILITY FOR LOCAL AGENCY'S PERFORMANCE AND OBLIGATIONS. Local Agency agrees that it shall be solely liable for its performance of the terms and conditions of the Participating Addendum and this Subsidiary Agreement. The State shall have no liability for any obligations incurred under the Program by Local Agency and any Account holder designated by such Local Agency.

5. NOTICES. The notice address for Local Agency is:

 Attn: _____

6. CHANGE OF CONTROL. Local Agency shall immediately notify U.S. Bank in writing of the occurrence of any event concerning Local Agency that (i) would prevent Local Agency from making the representations and warranties contained in section 3 at such time or (ii) results in a change of the legal name of such Local Agency. Local Agency shall promptly provide such additional details as reasonably requested by U.S. Bank regarding such event. At the election of U.S. Bank, the rights of Local Agency to be designated a "Participating Agency" under the Participating Addendum may be revoked based upon the notification provided by pursuant to section 6 (i) and this Subsidiary Agreement shall terminate.

- 7. BINDING AGREEMENT.** The representations, warranties and covenants of Local Agency in this Subsidiary Agreement constitute valid, binding and enforceable agreements of Local Agency. The execution of this Subsidiary Agreement and the performance of the obligations hereunder are within the power of Local Agency, have been authorized by all necessary action and do not constitute a breach of any agreement to which Local Agency is a party or is bound. Local Agency represents and warrants that this transaction is within the scope of the normal course of business and does not require further authorization for Local Agency to be duly bound by this Subsidiary Agreement. Any breach of the terms of this Subsidiary Agreement by the Local Agency shall also be a default under the Participating Addendum by the Local Agency giving rise on the part of U.S. Bank to exercise remedies outlined within the Participating Addendum based upon such default. A breach of the terms of the Subsidiary Agreement by Local Agency shall give rise to the right of U.S. Bank to terminate this Subsidiary Agreement in accordance with terms outlined within the Participating Addendum and remove Local Agency from the Program.
- 8. RATIFICATION, AMENDMENT AND TERMINATION OF AGREEMENT.** Local Agency acknowledges that U.S. Bank and the State may from time to time enter into amendments of the Participating Addendum. No such amendments shall require the consent of, or notification to, Local Agency and Local Agency shall be bound by the terms contained in any such amendments. **In the event of a termination of the Subsidiary Agreement, Local Agency acknowledges and agrees that Local Agency shall remain liable for all debts arising from the use of a card and/or account prior to the termination date and U.S. Bank will pay applicable rebates in accordance with the Participating Addendum.**

- 9. AUTHORIZATION AND EXECUTION.** This Subsidiary Agreement may be executed in several counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same document. This Subsidiary Agreement may be executed and delivered by the parties electronically, and fully executed electronic versions of this Subsidiary Agreement, or reproductions thereof, will be deemed to be original counterparts.

The signer(s) represents and warrants that (i) he or she is authorized by an applicable authority to enter into all transactions contemplated by this Subsidiary Agreement, and (ii) the signatures appearing on all supporting documents of authority are authentic.

CALIFORNIA DEPARTMENT OF GENERAL SERVICES APPROVAL

EXEMPTION (If Applicable)

Exhibit A: Scope of Work

The Department of General Services (DGS), Procurement Division (PD), hereinafter referred to as the “State” or “DGS-PD” is establishing master agreements with multiple providers of Electronic Payment Acceptance Services for State Agencies and Local Users (defined as any city and/or county, district, or other local governmental body or corporation, including the California State Universities (CSU) and University of California (UC) systems, K-12 schools and community colleges empowered to expend public funds), hereinafter collectively referred to as “Authorized Users”. Authorized Users may contract with any master agreement provider.

1. SCOPE

- a. The State and Elavon, Inc. (hereinafter referred to as the “Contractor”), hereby agree that the Contractor will provide Electronic Payment Acceptance Services to Authorized Users in accordance with the terms and conditions of this Master Service Agreement (“MSA” or “Agreement”).
- b. Prior to rendering services, Authorized Users and Contractor must execute a separate Subsidiary Agreement that incorporates all of the terms of this MSA by reference and may contain additional specific terms and conditions, none of which may alter, rescind, or be in conflict with the terms and conditions of this MSA (per Exhibit A, Section 14).
- c. Contractor agrees to honor all Subsidiary Agreements made prior to MSA expiration or termination at the same rates, terms and conditions.
- d. All Subsidiary Agreements issued against this MSA must be fulfilled/completed in their entirety within twelve (12) months following the MSA end date.
- e. The State, during the term of this MSA, may negotiate additional agreements, categories and/or services.

2. AGREEMENT TERM

The term of this MSA is for a five (5) year period. DGS reserves the right to extend this Agreement for two additional two (2) year periods, with a maximum cumulative term of nine (9) years. The start and end date will be noted on the attached Std. 213 Standard Agreement (the “Effective” term).

3. CONTRACT ADMINISTRATORS

The State and MSA Contractor have assigned Contract Administrators as single points of contact for all inquiries, contract related issues and for problem resolution. The Contract Administrators and their contact information will be listed in the subsequent MSA User Instructions issued after award. Should a Contract Administrator change, each party will notify the other in writing no later than ten (10) business days after the date of such change, without amendment to this agreement.

- a. Contractor must provide the name, address, telephone number, and e-mail address of the individual directly responsible for managing this Agreement on behalf of the Contractor to the State’s designated Contract Administrator.
- b. Contractor must provide the State with at least one (1) replacement candidate that will meet or exceed the experience and skill level of the Contract Administrator being replaced.

- i) The State shall not compensate the Contractor for any time or effort required to prepare the new Contract Administrator for work on the project.
- ii) The State may request that Contractor replace an assigned Contract Administrator at any time. The Contractor will use its best efforts to provide a replacement candidate that meets or exceeds the experience and skill level of the Contract Administrator being replaced within a time frame mutually agreed upon by the Contractor and the State.

4. GENERAL OVERVIEW OF SERVICES

Contractor shall provide electronic payment acceptance and processing services in the following categories:

a. Credit and Debit Card Processing (Category 1)

5. MINIMUM SERVICE LEVEL AGREEMENTS

Contractor shall provide electronic payment acceptance and processing services as follows:

a. General Service Level Agreements (All Categories)

Contractor will:

- i) Allow for batch processing of transactions. Initiate funding for Credit, Debit, and PIN-Based Card transactions as follows:

Transaction Day	Initiate Funding to Authorized User's Account Via ACH ^{1/}
Monday	Tuesday
Tuesday	Wednesday
Wednesday	Thursday
Thursday	Friday
Friday	Monday
Saturday	Monday
Sunday	Monday

^{1/} Includes Contractor's authorization to send funds from Contractor's bank to Authorized User's bank account.

- ii) Contractor shall settle in gross daily and process chargebacks and adjustments by invoicing the Authorized User.
- iii) Provide to each Authorized User access to detailed statements and online reporting tools that provide sufficient information for each Authorized User to reconcile deposits and adjustments made to the Authorized User's designated bank account(s).
- iv) Provide customer support twenty-four (24) hours per day, three hundred sixty-five (365) days per year.
- v) Maintain industry standard data privacy controls sufficient to meet the requirements of the applicable security standards and California State Privacy statutes and

regulations (defined in Exhibit A, Section 17). Contractor is fully responsible for all administrative and financial obligations that arise from any security breach caused by the Contractor.

- vi) Provide Gateway services or equivalent.
- vii) Annually, make Contractor's SSAE 18 SOC1 Type II information available for review on Contractor's premises upon Authorized User's thirty (30) days written notice. Authorized User's review shall take place during Contractor's normal business hours upon the signing of Contractor's confidentiality agreement. Authorized User's review does not include copying of such documents.
- viii) Upon request by the Authorized User, assign to Authorized User one or more identification numbers or passwords for Authorized User's use in obtaining the Card Services. Once such identification number(s) or password(s) have been delivered to Authorized Agency by Contractor, the use and confidentiality of such numbers and/or passwords shall be the sole responsibility of Authorized User.

b. Credit and Debit Card Processing (Service Category 1)

Contractor will:

- i) Process for the Authorized User: MasterCard, Visa, American Express, Discover, Debit Cards, and Purchasing Cards in accordance with the operating rules of each of the named associations and under applicable law. Including but not limited to:
 - 1. Bank Cards – VISA/MasterCard/AMEX/Discover – Cardholder Present
 - 2. Bank Cards – VISA/MasterCard/AMEX/Discover – Cardholder Not Present
 - 3. Signature Debit Cards – VISA/MasterCard – Cardholder Present
 - 4. Signature Debit Cards – VISA/MasterCard – Cardholder Not Present
 - 5. PIN Based Debit Cards
 - 6. Digital Wallets
- ii) Provide Convenience/Service Fee services.
- iii) Provide continuous service by maintaining Contractor's system functionality at a minimum 99.9% of the time (excluding maintenance downtime), measured on a monthly basis. Contractor must provide advanced written notice for scheduled maintenance and maintenance should occur during Authorized User's non-business hours.
 - 1. Service shall be available twenty-four (24) hours per day, three hundred sixty-five (365) days per year (excluding maintenance downtime).
 - 2. If service's monthly availability averages less than 99.9% (excluding maintenance downtime), the Authorized User shall be entitled to recover damages, apply credits or use other contractual remedies as set forth in the Subsidiary Agreement. (Exhibit A, Section 24)
 - 3. Contractor shall provide advance written notice to the State Contract Administrator and Authorized Users of any major upgrades or changes that will affect the service availability.
- iv) Provide Authorization and Settlement functions on behalf of Authorized User. Authorizations must be completed in real time with response times of no more than 2-12 seconds. Response time is measured from the time Contractor receives a transaction authorization request to the time Contractor provides a transaction

authorization response to Authorized User, excluding time dependent upon third parties and delays caused by failures or delays in third party's systems.

v) Deliver, at a minimum, the following standard reports:

1. Deposit Summary
2. Transaction Reports
3. Convenience/services fees, if applicable
4. Statements
5. Interchange
6. Adjustments
7. Chargebacks
8. Authorizations
9. Duplicate Transmissions

Frequency of reporting and additional reports to be determined within the Authorized User Subsidiary Agreements.

- vi) Process Chargebacks, upon receipt, on behalf of Authorized User. If additional information is required from the Authorized User to process the chargeback, Contractor must notify the Authorized User within twenty-four (24) to forty-eight (48) hours of receipt. The Contractor is authorized to protest any chargeback on behalf of the Authorized User. Chargebacks and adjustments will be invoiced to the Authorized Users.
- vii) Process voids, cancels, returns, reversals and retrievals.
- viii) Control for duplicate transactions.
- ix) Remain Payment Card Industry (PCI) compliant and P2PE certified throughout the term of the Agreement.

6. DEMONSTRATIONS

Contractor agrees to conduct demonstrations at the request of the State and/or an Authorized User, prior to implementation of an electronic payment acceptance program during the term of the Agreement.

7. TRAINING

Contractor shall provide telephone and/or web-based training for each Authorized User as stated in the Subsidiary Agreement. Implementation training must be completed within 30 calendar days after system set-up. Training will be provided at no additional cost including any travel related expenses.

Training material and equipment shall be provided by the Contractor at the Contractor's expense. Contractor shall ensure that sufficient material is provided to all attendees.

Contractor shall provide a link to the most recent version of the Contractor's Operating Guide. The Operating Guide and Contractor's website includes, at a minimum, but not limited to the following:

- Step by Step Instructions
- Support Services
- Quick Reference Guide
- FAQ's and answers

Contractor must provide twenty-four (24) hours per day, three hundred sixty-five (365) days per year, web-based access to Contractor's Operating Guide.

Trainer provided by contractor shall be knowledgeable in the subject matter, equipment and training materials. Contractor will customize training sessions for an Authorized User upon request.

8. CUSTOMER SERVICE AND SUPPORT

Contractor must provide knowledgeable customer service personnel for the services provided. Contractor shall provide the contact information for problem resolution and inquiries in the Subsidiary Agreement with each Authorized User. Most inquiries regarding the direct reconciliation of an Authorized User's payment transactions, the transfer to the bank account or any other payment transactions involving the Contractor shall be addressed and/or resolved by the Contractor within three (3) business days from the date of the original inquiry. Most other problems and inquiries will be addressed within five (5) business days from the date of the original contact. If Contractor is unable to resolve issues within the timelines stated above, Contractor will work with the Authorized User to establish mutual resolution timeframes and project timelines. Contractor's customer service representatives shall accurately and timely:

- Research and resolve concerns and provide immediate follow-up status/resolution.
- Resolve problems related to daily settlements and deposit variances.
- Coordinate and resolve complex reporting issues.
- Answer incoming telephone calls, e-mails, faxes, and letters.
- Log all problems/resolutions so that recurring problems can be tracked, reported and corrected.

Contractors must provide, at the Authorized Users request, copies of any data file transmission that occurred within the required records retention period specified in this Agreement (See Exhibit A, Section 9) and have that data file available to them within forty-eight (48) hours after original request. Any data file requests that cannot be fulfilled in that time frame will require Contractor and Authorized User to agree upon a reasonable time frame for such requests.

Contractor shall provide a technical liaison (live operator) available twenty-four (24) hours a day, three hundred sixty-five (365) days a year for immediate response to data/technical needs such as, but not limited to, general inquiries, point-of-sale and other payment channel assistance. Upon request, Contractor shall provide a written/electronic status report including a problem statement, proposed solution, and estimated time of problem resolution. Contractor's staff must be fully versed in electronic payment systems and fully capable of resolving any issues immediately.

9. RETENTION OF RECORDS

Contractor must retain all transactional data for a period of at least eighteen (18) consecutive months from the initial transaction date. Transactional data/records must be made available, upon request, to Authorized Users within forty-eight (48) hours after original request. Any data file requests that cannot be fulfilled in that time frame will require Contractor and Authorized User to agree upon a reasonable time frame for such requests.

Authorized User should retain legible copies of Sales Drafts and Credit Vouchers for a period of at least eighteen (18) months from the initial transaction date to be able to

respond to customer disputes. Authorized User must submit to Servicers a legible copy of a Sales Draft or Credit Voucher within ten (10) days of a request by Servicers, or longer period of time as may be allowed by the Association.

10. PROGRAM WEBSITE

Contractor shall provide and regularly update a secure website for use by Authorized Users of this Agreement. The website will include at a minimum, the following information:

- Link to the Contractor's Merchant Operating Guide.
- Links to industry related rules and regulations as described in this Agreement.
- Customer Service and Support telephone number.
- FAQs
- Link to report database (Exhibit A, Section 5 (a)(iii))

11. REPORTING REQUIREMENTS

- a. Each quarter, the Contractor shall submit a Quarterly Usage/Activity Report to the DGS Contract Administrator via email or other delivery method specified by the State. The report shall summarize the Contractor's MSA contract activity for each Authorized User, and it shall be provided to the DGS Contract Administrator by the thirtieth (30th) working day following the ending of the quarter's reporting period. A report is required every quarter, even if the Contractor has no activity during the reporting period.
- b. DGS will provide a quarterly reporting template to awardees upon award.
- c. Contractor must report State Authorized Users and Local Authorized Users on separate quarterly reports.
- d. The Quarterly Usage/Activity Report will summarize the Contractor's MSA contract activity by payment category for each Authorized User and will contain the following information:
 - Authorized User Name (department, agency, etc.)
 - Authorized User's Merchant Number
 - Dollar Volume by card type (*Amex, Discover, Visa, MC, Debit*) and/or payment solution
 - Number of settled transactions by card type and/or payment solution
 - Fees paid by payment solution and type (interchange, processor, convenience fees, other)
 - Convenience/Service Fees as applicable
 - Equipment and software sales reports, upon request
 - Any other reporting as requested by DGS
- e. Contractor shall email reports (in Microsoft Excel format or compatible) to the State Contract Administrator (referenced in User Instructions) and Masters@dgs.ca.gov.
- f. The DGS Contract Administrator reserves the right to modify this report and require the Contractor to provide additional information available to the Contractor during the course of this Agreement at no additional cost.

12. AUTHORIZED USERS

- a. Pursuant to Government Code §11000, State of California government agencies include every state office, officer, department, division, bureau, board, and commission.

- b. For the purposes of this Agreement, local government agencies include any city and/or county, district, or other local governmental body or corporation, including the California State Universities (CSU) and University of California (UC) systems, K-12 schools and community colleges empowered to expend public funds.
- c. State agencies are required to adhere to DGS contract and procurement policy and procedures. For informational purposes only, see the following link for the [State of California Agency List](https://www.ca.gov/agenciesall) (exclude any local government agencies described above): <https://www.ca.gov/agenciesall>
- d. Local government agency use of this MSA is optional. Local government agencies may execute a contract under this MSA using the standard form Std. 213 or appropriate equivalent contract form, and any specific documents established prior to award that affect the Subsidiary Agreement. Upon execution of the contract form they shall become Authorized Users and the provision of services by the Contractor to such Authorized Users will be governed by the terms of this MSA.
- e. However, the Contractor has authorization to negotiate with local government agency Authorized Users for the provisions cited below. These include but are not limited to:
 - Invoicing and Payment Provisions (including debiting for chargebacks, assessments and other items)
 - Governing Law, Jurisdiction
 - Local Authorized User's additional specific terms and conditions
 - Convenience/Service Fees

13. AUTHORIZATION TO RENDER SERVICES

Unless otherwise provided in this Agreement, Contractor may not decline a State of California government agency's request to utilize services offered under this Agreement.

14. SUBSIDIARY AGREEMENTS

Contractor and a State of California government agency or a local government agency (as applicable) must execute a separate Subsidiary Agreement that incorporates all of the terms of this MSA by reference and may contain additional agency specific terms and conditions, none of which may alter, rescind, or be in conflict with the terms and conditions of this MSA.

The Subsidiary Agreement shall consist of a Std. 213 form, or the appropriate equivalent contract form for local government agency Authorized Users and shall describe the particular requirements of the Authorized User, usually reflected in a detailed scope of work. State Agency Authorized User's Subsidiary Agreements shall be processed in accordance with State contracting laws, policy, and procedures.

15. ENTIRE AGREEMENT & AMENDMENTS

This MSA Agreement includes the Std. 213 form, Exhibits A-I and any additional provisions or Exhibits or attachments specific to the Contractor and/or services; documents incorporated by reference, and mutually approved amendments.

16. ORDER OF PRECEDENCE

The following order of precedence shall apply:

- a. All federal, state, local laws and regulations
- b. Exhibit C: Terms and Conditions (As Modified)
- c. Exhibit C.1: General Provisions – Information Technology (As Modified)
- d. Exhibit G: Definitions
- e. Exhibit A: Scope of Work
- f. Exhibit A.1: Selected Services
- g. Exhibit B: Budget Detail and Payment Provisions
- h. Exhibit D: Insurance Requirements
- i. Exhibit E: Fees and Costs
- j. Exhibit F: Equipment and Software
- k. Exhibit E.1: Service Pricing
- l. Exhibit E.2: Equipment and Software Pricing
- m. Exhibit E.3: Equipment Specifications
- n. Exhibit H: Special Terms and Conditions
- o. Exhibit I: Mass Transit Terms
- p. Exhibit H.1: Authorized User Set Up Form
- q. Payment Network Regulations

17. SECURITY, PRIVACY AND DISCLOSURE

The parties acknowledge that this Agreement is subject to the California Public Records Act (Govt. Code section 6250 et seq.), California Government Code sections 6164 and 11019.9; and California Civil Code section 1798 et seq.

Authorized Users agree not to disclose Cardholder account numbers and/or Card Identification Numbers (“CIDs”) unless required by law or other legal process, or for internal State purposes, or as required to use the services under the Agreement.

Contractor agrees it will not use the names, addresses, and any other personally identifying information of State, city, county, school, or other public employees for any purpose not directly related to this Agreement.

18. REGULATORY AUTHORITIES (Industry Related Rules and Regulations)

Contractor warrants and certifies that prior to, and in the performance of this Agreement, it will acquire, maintain, and remain in compliance with all mandatory regulatory approvals with respect to its performance under this Agreement required by any applicable governmental agency having jurisdiction over Contractor. If such regulatory approvals are not obtained by Contractor prior to the performance of this Agreement, this Agreement shall be of no force or effect.

19. LICENSES AND PERMITS

Contractor shall be responsible for obtaining and maintaining at its expense all applicable licenses, registrations, permits, and certifications applicable to its performance under this Agreement during the entire term of this Agreement required by federal law, the State of California, and local jurisdictions in California.

20. SUBCONTRACTORS

Nothing contained in this Agreement or otherwise, shall create any contractual relation between the State and any subcontractors, and no subcontractor shall relieve the Contractor of its responsibilities and obligations hereunder. The Contractor agrees to be

fully responsible to the State for the acts and omissions of its subcontractors and of persons either directly or indirectly employed by any of the subcontractors as it is for the acts and omissions of persons directly employed by the Contractor. The Contractor's obligation to pay its subcontractors is an independent obligation from the Authorized User's obligation to make payments to the Contractor. As a result, the Authorized User shall have no obligation to pay or to enforce the payment of any moneys to any subcontractor.

21. PHASE IN & PHASE OUT TRANSITION SERVICES

Prior to the end of this Agreement's contract term, or if this Agreement is terminated by the State, Contractor agrees to assist in transitioning the services provided under this Agreement within a period of time, not to exceed one hundred eighty (180) day calendar period. Transition assistance will include but is not limited to: continue transaction processing until date agreed upon, resolve any outstanding chargeback disputes, remit final statement and invoice for all transactions through close of business on the final processing date. Contractor shall cooperate with any new contractor(s) and State staff in effectuating an orderly transition.

22. DISPUTE RESOLUTION

Contractor shall direct questions regarding the Subsidiary Agreement to the Authorized User. Decisions rendered by the Chief Executive Officer, or designated representative, of the Authorized User are considered final. Upon request, DGS-PD may provide a forum for discussion, at which time a DGS-PD representative shall be available to provide information regarding the State of California's policies and procedures. If agreement cannot be reached, either party may assert its rights and remedies within a court of competent jurisdiction.

23. NOTICES

All notices, requests, demands and other communications hereunder shall be in writing and shall be deemed given if delivered (a) personally, (b) via facsimile, electronic mail or overnight express service (except that notices of termination or default given by facsimile or electronic mail must also be sent via overnight express service or certified mail) or (c) by certified or registered mail, postage prepaid, return receipt requested, in each case, to the addresses, facsimile numbers and/or electronic mail addresses set forth below. The parties hereto may change their street addresses, facsimile numbers and electronic mail addresses for purposes of this Agreement by notifying the other party in the manner specified in this section.

24. LIQUIDATED DAMAGES

The Authorized User's Director or his/her designee may assess compensating damages against the vendor for losses incurred by the Authorized User as a direct result of errors caused by the negligence or willful misconduct of the vendor or subcontractor(s) that cause or contribute to the delay in collecting revenue. If invoked, damages will be assessed based upon the dollar value of the loss, the elapsed time before correction of the error and the Pooled Money Investment Account (PMIA) Daily Rate for the date the loss occurred as published by the California State Treasurer's Office. Contractor's liability for damages shall not exceed an amount equal to the annual fees paid or payable to Contractor under the affected Subsidiary Agreement (excluding interchange fees). If

twelve (12) consecutive months of fees are not available for this calculation, Contractor will use the highest available months fees multiplied by twelve (12) to identify the anticipated annual fees. For purposes of this Agreement, 'errors' do not include any action taken, or any failure to act, pursuant to an instruction from the State or an Authorized User.

25. PROPRIETARY RIGHTS AND PERMITTED USES

- a. Contractor may not issue any press release about this Agreement or the State without the other party's prior written consent.
- b. Contractor will provide all Credit Card Association marks, logos, stickers and marketing materials, as well as any other forms of display required by the Associations'.
- c. An Authorized User may use and display the Associations' marks, and shall display such Marks in accordance with the standards for use established by the Associations. The Authorized User's right to use all such Marks will terminate upon termination of the Agreement or upon notice by an Association to discontinue such use, and the Authorized User must thereafter promptly return any materials displaying the Marks. The Authorized User's use of promotional materials provided by the Associations will not indicate, directly or indirectly, that such Associations endorse any goods or services other than their own and the Authorized User may not refer to any Associations in stating eligibility for its products or services.

26. FEDERAL DEBARMENT

The Federal Department of Labor requires that State agencies which are expending Federal funds of \$25,000 or more, have in the contract file, a certification by the Contractor that it has not been debarred or suspended from doing business with the Federal Government. Each Contractor must provide this documentation upon request.

27. FORCE MAJEURE

Except for defaults of subcontractors at any tier, the Contractor shall not be liable for any excess costs if the failure to perform the Contract arises from causes beyond the control and without the fault or negligence of the Contractor. Examples of such causes include, but are not limited to:

- a. Acts of God or of the public enemy, and
- b. Acts of the federal or state government in either its sovereign or contractual capacity.

If the failure to perform is caused by the default of a subcontractor at any tier, and if the cause of the default is beyond the control of both the Contractor and subcontractor, and without the fault or negligence of either, the Contractor shall not be liable for any excess costs for failure to perform.

28. RIGHT TO TERMINATE

- a. The State may terminate the Agreement and any Authorized User may terminate its respective Subsidiary Agreement for cause upon a reasonable and good faith determination that the Contractor failed to perform the requirements of this Agreement at the time and in the manner herein provided in Section (b) below. However, Authorized Users will provide a Cure Period, rather than immediate termination, if a breach involves meeting a service level agreement identified in Exhibit A, Section 5. Nonetheless, the

State and Authorized Users reserve the right to terminate for cause without providing additional Cure Periods if a service level issue for which a Cure Period has previously been provided recurs.

- b. In the event of a breach, the State or Authorized User will send the Contractor a notice specifying the breach and providing the Contractor an opportunity to cure the breach within a period of time no less than thirty (30) days "Cure Period". If the breach is not cured within the Cure Period, the State or Authorized User has the right to terminate the Agreement upon thirty (30) days notice to the Contractor.
- c. The State may terminate the Agreement without cause upon sixty (60) days advance written notice to the Contractor. Authorized Users may terminate their respective Subsidiary Agreements without cause upon sixty (60) days advance written notice to the Contractor. In the event of a termination without cause, Contractor shall not be responsible for any costs to the State or an Authorized User associated with such termination and any sum due the Contractor under this Agreement (which sum due to the Contractor shall include, but not be limited to, fees as set forth in this Agreement) for Charges up to the date of a termination shall be paid to the Contractor including any Chargebacks, fees, fines or penalties owed by the State or Authorized User after termination, which shall be paid within forty-five (45) days of presentment of a non-disputed invoice, in accordance with Exhibit B, Section 3.
- d. After receipt of a notice of termination by the State, or an Authorized User, and except as otherwise directed by the State or Authorized User, Contractor shall:
 - i. Stop work as specified in the notice of termination.
 - ii. Place no further subcontracts for materials, services, or facilities, except as necessary to complete the continuing portion of the Agreement.
 - iii. Terminate all subcontracts to the extent they relate to the work terminated.

After receipt of a notice of termination and prior to the contract termination effective date, Contractor agrees to diligently proceed without interruption in the performance of this Agreement. Contractor's failure to diligently proceed in accordance with this Agreement shall be considered a material breach of this Agreement.

29. NEWS RELEASES

Unless otherwise exempted, news releases, endorsements, advertising, and social media content pertaining to this Contract shall not be made without prior written approval of the Department of General Services.

30. CONTRACTOR'S ADMINISTRATIVE FEE

The Contractor is required to pay a fee to DGS-PD based on the number of settled transactions processed. The fee is paid quarterly and is calculated as equal to \$0.01 (1 cent) for each transaction processed per quarter under this Agreement.

This Administrative Fee shall not be invoiced or charged to the ordering agency or customer. Payment by the Contractor shall be made quarterly to DGS-PD irrespective of payment status of Subsidiary Agreements.

Failure to submit correct reports and payments on a timely basis shall constitute grounds for default of this Agreement pursuant to Exhibit A, Section 28(b). Payments are due for the reporting period by the thirtieth (30th) calendar day following the ending of the quarter. (Note: If the due date is on a Saturday or Sunday, the due date will be the Monday following.)

Payment may be made in the form of an electronic payment using the PD LPA Payment Portal or by submitting a check payable to the State of California, Department of General Services. Along with each payment, a Usage Report, filtered in Excel as prescribed in Exhibit A, Section 11 "Reporting Requirements," shall be submitted to the State Contract Administrator.

To submit fees through the PD LPA Payment Portal, users must register on the DGS-PD LPA Payment Portal (<https://www.dgs.ca.gov/PD/Services/Page-Content/Procurement-Division-Services-List-Folder/Access-LPA-Payment-Portal>).

Administrative Fee payments made by check shall be submitted to the following address:

Department of General Services
Procurement Division
Attn: MAPS Payment Processing
707 Third Street, 2nd Floor
West Sacramento, CA 95605

Exhibit A.1: Selected Services

The table below contains the services selected by the Authorized User within their Subsidiary Agreement # _____. By selecting one or more of the services, the Authorized User is agreeing to be bound by the terms and conditions of the MSA 5-22-70-22-01.

	Description
	Credit and Debit Card Processing
	Convenience/Service Fees
☐	Exhibit I: Mass Transit Services

Exhibit B: Budget Detail and Payment Provisions

1. INVOICING AND PAYMENT

- a. Authorized Users will open a Demand Deposit Account (DDA) at an approved State financial institution that participates in the Automated Clearing House of the Federal Reserve System (ACH) to accept electronic payments via ACH under this MSA. For California State Authorized users this DDA must be a Zero Balance Account (ZBA).
- b. Each Authorized User must provide the Contractor with the name, bank deposit account and ABA (bank routing) numbers of the financial institution where such Authorized User's DDA is established. Further, Authorized User must notify Contractor of any changes to its financial institution, account, or ACH information over the course of the agreement. Each Authorized User must also notify its financial institution that the Contractor has access to make deposits to the designated DDA. Contractor does not have authority to debit any amounts from the Authorized User's DDA.
- c. Contractor shall settle the total amount for charges gross daily, net of refunds and reversals. Processing fees, chargebacks and adjustments will be invoiced to the Authorized Users. Contractor will not charge processing fees that are higher than or any additional fees other than those specified in Exhibit E.1: Service Pricing which cover all services provided by this MSA including electronic payment acceptance services, user guides, reports, and customer service.
- d. If Authorized Users choose to assess a convenience and/or service fee, Authorized User acknowledges that all fees collected will be settled to a DDA established by the Contractor or Service Provider. Contractor or Service Provider will charge the convenience and/or service fee as a separate charge from the transaction amount, if applicable in accordance with Exhibit E, Section 4. All amounts owed to the Contractor for services provided in the Subsidiary Agreement will be deducted from the convenience and/or service fees collected by the Contractor or charged to the Service Provider, as applicable. Authorized Users remain responsible for Chargebacks.
- e. Contractor shall initiate payment to each Authorized User's DDA in accordance with the schedule noted in Exhibit A, Section 5 (a)(i). If the payment transmittal date falls on a day that Contractor's bank is not open for processing payments, Contractor will initiate payment the next available business day. Funds due to State Authorized Users shall never be held in Contractor's account or any other account not specifically authorized by an Authorized User. Contractor will not be responsible for any obligations, damages, or liabilities in excess of the amount of the applicable debit, credit, or adjustment to an Authorized User's DDA in the event that the Authorized User's financial institution does not honor any such item or improperly applies it to such Authorized User's account.
- f. Each Authorized User shall provide billing information (mailing address, contact person, etc.) as part of its individual Subsidiary Agreement (defined in Exhibit A Section 14) executed with Contractor.
- g. Invoices shall be submitted in arrears to each State Authorized User on Contractor's letterhead within fifteen (15) days of the end of each month and in accordance with the Prompt Payment Act. The invoice shall include:
 - The Subsidiary Agreement Number between the Authorized User and the Contractor.
 - Authorized User Name.

- Authorized User Merchant Number.
 - Time period covered.
 - Work completed for the period shall be identified (detailed statement of services rendered) as specified in the individual Authorized User's Subsidiary Agreement.
 - Contact information for billing comments or inquiries such as a telephone number, fax number, and address.
- h. Chargeback invoices shall be submitted to each State Authorized User on Contractor's letterhead within forty-eight (48) hours of the final chargeback dispute decision. The invoice shall include:
- The Subsidiary Agreement Number between the Authorized User and the Contractor.
 - Chargeback information.
 - Date
 - Transaction amount
 - Cardholder information
 - Dispute Reason
 - Authorized User Name.
 - Authorized User Merchant Number.
 - Contact information for billing comments or inquiries such as a telephone number, fax number, and address
- i. Upon receipt of invoices and subsequent approval by the Authorized User's designated representative(s), the Authorized User will pay the Contractor for any invoice or chargeback invoice.
- j. Contractor shall indicate Chargebacks and adjustments (including Credits) to Authorized Users in statements and reports as required pursuant to Exhibit A, Section 5.b.v.
- k. The State does not accept liability of Local Authorized Users (cities, counties, local governments, political subdivisions etc.).

2. BUDGET CONTINGENCY CLAUSE

- a. It is mutually agreed that if the Budget Act of the current year and/or any subsequent years covered under the Authorized User's Subsidiary Agreement does not appropriate sufficient funds for the program contemplated thereunder, the Authorized User's Subsidiary Agreement shall be of no further force and effect after the Authorized User provides written notice to Contractor. In this event, the State shall have no liability to pay any funds whatsoever to Contractor or to furnish any other consideration under the Subsidiary Agreement.
- b. For State Authorized Users, if funding for any fiscal year is reduced or deleted by the Budget Act for purposes of the Authorized User's programs, the Authorized Users shall have the option to either (i) cancel Authorized User's Subsidiary Agreement with no liability occurring to the State by providing Contractor immediate written notice or (ii) offer an agreement amendment to Contractor to reflect the reduced amount.
- c. In the event an Authorized User's Subsidiary Agreement is terminated pursuant to this Exhibit B, Section 2, such Authorized User shall be responsible for payment of all amounts owed to Contractor related to transactions processed up until the effective

date of termination and for all items received post-termination that relate to transactions processed prior to termination.

3. PROMPT PAYMENT CLAUSE

Payment will be made in accordance with, and within the time specified in, Government Code Chapter 4.5, commencing with Section 927.

4. CONTRACTOR OVERPAYMENTS

- a. If the Authorized User determines that an overpayment has been made to the Contractor, the Authorized User will seek recovery immediately upon discovery of the overpayment by calling the contractor service center to request a refund of the overpayment amount. The Contractor shall have up to five (5) business days to verify overpayments. The Contractor will initiate deposit of verified overpayments to the Authorized User's ZBA the next available business day.
- b. If Contractor discovers they have received an overpayment, contractor must notify the Authorized user and refund or deposit the overpayment immediately.

Exhibit C: Terms and Conditions (As Modified)

1. APPROVAL: This Agreement is of no force or effect until signed by both parties and approved by the Department of General Services, if required. Contractor may not commence performance until such approval has been obtained.
2. AMENDMENT: No amendment or variation of the terms of this Agreement shall be valid unless made in writing, signed by the parties and approved as required. No oral understanding or Agreement not incorporated in the Agreement is binding on any of the parties.
3. ASSIGNMENT: This Agreement is not assignable by either party, either in whole or in part, without the consent of the other party in the form of a formal written amendment.
4. AUDIT: Contractor agrees that the awarding department, the Department of General Services, the Bureau of State Audits, or their designated representative shall have the right to review and to copy any records and supporting documentation pertaining to the performance of this Agreement. Contractor agrees to maintain such records for possible audit for a minimum of three (3) years after final payment, unless a longer period of records retention is stipulated. Contractor agrees to allow the auditor(s) access to such records during normal business hours and to allow interviews of any employees who might reasonably have information related to such records. Further, Contractor agrees to include a similar right of the State to audit records and interview staff in any subcontract related to performance of this Agreement. (Gov. Code §8546.7, Pub. Contract Code §10115 et seq., CCR Title 2, Section 1896).
5. INDEMNIFICATION: Contractor agrees to indemnify, defend and save harmless the State, its officers, agents and employees: (a) from any and all claims and losses caused by the negligence or willful misconduct in the performance of this Agreement by Contractor, its subcontractors, suppliers, laborers, and any other person, firm or corporation engaged by Contractor to furnish or supply work services, materials, or supplies in connection with the performance of this Agreement, and (b) from any and all claims and losses accruing or resulting to any person, firm or corporation who may be injured or damaged by Contractor's negligence or willful misconduct in the performance of this Agreement.
6. DISPUTES: Contract and the State shall continue with the responsibilities under this Agreement during any dispute.
7. TERMINATION FOR CAUSE: See Exhibit A, Section 28.
8. INDEPENDENT CONTRACTOR: Contractor, and the agents and employees of Contractor, in the performance of this Agreement, shall act in an independent capacity and not as officers or employees or agents of the State.
9. RECYCLING CERTIFICATION: The Contractor shall certify in writing under penalty of perjury, the minimum, if not exact, percentage of post-consumer material as defined in the Public Contract Code Section 12200, in products, materials, goods, or supplies offered or sold to the State regardless of whether the product meets the requirements of Public Contract Code Section 12209. With respect to printer or duplication cartridges that comply with the requirements of Section 12156(e), the certification required by this subdivision shall specify that the cartridges so comply (Pub. Contract Code §12205).
10. NON-DISCRIMINATION CLAUSE: During the performance of this Agreement, Contractor and its subcontractors shall not deny the contract's benefits to any person on the basis of race, religious creed, color, national origin, ancestry, physical disability, mental disability, medical condition, genetic information, marital status, sex, gender, gender identity, gender expression, age, sexual orientation, or military and veteran status, nor shall they

discriminate unlawfully against any employee or applicant for employment because of race, religious creed, color, national origin, ancestry, physical disability, mental disability, medical condition, genetic information, marital status, sex, gender, gender identity, gender expression, age, sexual orientation, or military and veteran status. Contractor shall insure that the evaluation and treatment of employees and applicants for employment are free of such discrimination. Contractor and subcontractors shall comply with the provisions of the Fair Employment and Housing Act (Gov. Code §12900 et seq.), the regulations promulgated thereunder (Cal. Code Regs., tit. 2, §11000 et seq.), the provisions of Article 9.5, Chapter 1, Part 1, Division 3, Title 2 of the Government Code (Gov. Code §§11135-11139.5), and the regulations or standards adopted by the awarding state agency to implement such article. Contractor shall permit access by representatives of the Department of Fair Employment and Housing and the awarding state agency upon reasonable notice at any time during the normal business hours, but in no case less than 24 hours' notice, to such of its books, records, accounts, and all other sources of information and its facilities as said Department or Agency shall require to ascertain compliance with this clause. Contractor and its subcontractors shall give written notice of their obligations under this clause to labor organizations with which they have a collective bargaining or other agreement. (See Cal. Code Regs., tit. 2, §11105.)

Contractor shall include the nondiscrimination and compliance provisions of this clause in all subcontracts to perform work under the Agreement.

11. CERTIFICATION CLAUSES: The CONTRACTOR CERTIFICATION CLAUSES contained in the document CCC 04/2017 are hereby incorporated by reference and made a part of this Agreement by this reference as if attached hereto.
12. TIMELINESS: Time is of the essence in this Agreement.
13. COMPENSATION: The consideration to be paid Contractor, as provided herein, shall be in compensation for all of Contractor's expenses incurred in the performance hereof, including travel, per diem, and taxes, unless otherwise expressly so provided.
14. GOVERNING LAW: This contract is governed by and shall be interpreted in accordance with the laws of the State of California.
15. ANTITRUST CLAIMS: The Contractor by signing this agreement hereby certifies that if these services or goods are obtained by means of a competitive bid, the Contractor shall comply with the requirements of the Government Codes Sections set out below.
 - a. The Government Code Chapter on Antitrust claims contains the following definitions:
 1. "Public purchase" means a purchase by means of competitive bids of goods, services, or materials by the State or any of its political subdivisions or public agencies on whose behalf the Attorney General may bring an action pursuant to subdivision (c) of Section 16750 of the Business and Professions Code.
 2. "Public purchasing body" means the State or the subdivision or agency making a public purchase. Government Code Section 4550.
 - b. In submitting a bid to a public purchasing body, the bidder offers and agrees that if the bid is accepted, it will assign to the purchasing body all rights, title, and interest in and

to all causes of action it may have under Section 4 of the Clayton Act (15 U.S.C. Sec. 15) or under the Cartwright Act (Chapter 2 (commencing with Section 16700) of Part 2 of Division 7 of the Business and Professions Code), arising from purchases of goods, materials, or services by the bidder for sale to the purchasing body pursuant to the bid. Such assignment shall be made and become effective at the time the purchasing body tenders final payment to the bidder. Government Code Section 4552.

- c. If an awarding body or public purchasing body receives, either through judgment or settlement, a monetary recovery for a cause of action assigned under this chapter, the assignor shall be entitled to receive reimbursement for actual legal costs incurred and may, upon demand, recover from the public body any portion of the recovery, including treble damages, attributable to overcharges that were paid by the assignor but were not paid by the public body as part of the bid price, less the expenses incurred in obtaining that portion of the recovery. Government Code Section 4553.
 - d. Upon demand in writing by the assignor, the assignee shall, within one year from such demand, reassign the cause of action assigned under this part if the assignor has been or may have been injured by the violation of law for which the cause of action arose and (a) the assignee has not been injured thereby, or (b) the assignee declines to file a court action for the cause of action. See Government Code Section 4554.
16. CHILD SUPPORT COMPLIANCE ACT: For any Agreement in excess of \$100,000, the contractor acknowledges in accordance with Public Contract Code 7110, that:
- a. The contractor recognizes the importance of child and family support obligations and shall fully comply with all applicable state and federal laws relating to child and family support enforcement, including, but not limited to, disclosure of information and compliance with earnings assignment orders, as provided in Chapter 8 (commencing with section 5200) of Part 5 of Division 9 of the Family Code; and
 - b. The contractor, to the best of its knowledge is fully complying with the earnings assignment orders of all employees and is providing the names of all new employees to the New Hire Registry maintained by the California Employment Development Department.
17. UNENFORCEABLE PROVISION: In the event that any provision of this Agreement is unenforceable or held to be unenforceable, then the parties agree that all other provisions of this Agreement have force and effect and shall not be affected thereby.
18. PRIORITY HIRING CONSIDERATIONS: If this Contract includes services in excess of \$200,000, the Contractor shall give priority consideration in filling vacancies in positions funded by the Contract to qualified recipients of aid under Welfare and Institutions Code Section 11200 in accordance with Pub. Contract Code §10353.
19. SMALL BUSINESS PARTICIPATION AND DVBE PARTICIPATION REPORTING REQUIREMENTS:
- a. If for this Contract Contractor made a commitment to achieve small business participation, then Contractor must within 60 days of receiving final payment under this Contract (or within such other time period as may be specified elsewhere in this Contract) report to the awarding department the actual percentage of small business participation that was achieved. (Govt. Code § 14841.)
 - b. If for this Contract Contractor made a commitment to achieve disabled veteran business enterprise (DVBE) participation, then Contractor must within 60 days of receiving final payment under this Contract (or within such other time period as may be specified elsewhere in this Contract) certify in a report to the awarding department: (1) the total amount the prime Contractor received under the Contract; (2) the name

and address of the DVBE(s) that participated in the performance of the Contract; (3) the amount each DVBE received from the prime Contractor; (4) that all payments under the Contract have been made to the DVBE; and (5) the actual percentage of DVBE participation that was achieved. A person or entity that knowingly provides false information shall be subject to a civil penalty for each violation. (Mil. & Vets. Code § 999.5(d); Govt. Code § 14841.)

20. LOSS LEADER: If this contract involves the furnishing of equipment, materials, or supplies then the following statement is incorporated: It is unlawful for any person engaged in business within this state to sell or use any article or product as a "loss leader" as defined in Section 17030 of the Business and Professions Code. (PCC 10344(e)).

Exhibit C.1: General Provisions – Information Technology (As Modified)

The following definitions apply to Exhibit C.1. All other capitalized terms shall have their meanings set forth in Exhibit G.

1. DEFINITIONS: **Unless** otherwise specified in the Statement of Work, the following terms shall be given the meaning shown, unless context requires otherwise.
 - a) **“Application Program”** means a computer program which is intended to be executed for the purpose of performing useful work for the user of the information being processed. Application programs are developed or otherwise acquired by the user of the Hardware/Software system, but they may be supplied by the Contractor.
 - b) **“Attachment”** means a mechanical, electrical, or electronic interconnection to the Contractor-supplied Machine or System of Equipment, manufactured by other than the original Equipment manufacturer that is not connected by the Contractor.
 - c) **“Business entity”** means any individual, business, partnership, joint venture, corporation, S-corporation, limited liability company, sole proprietorship, joint stock company, consortium, or other private legal entity recognized by statute.
 - d) **“Commercial Hardware”** means Hardware developed or regularly used that: (i) has been sold, leased, or licensed to the general public; (ii) has been offered for sale, lease, or license to the general public; (iii) has not been offered, sold, leased, or licensed to the public but will be available for commercial sale, lease, or license in time to satisfy the delivery requirements of this Contract; or (iv) satisfies a criterion expressed in (i), (ii), or (iii) above and would require only minor modifications to meet the requirements of this Contract.
 - e) **“Commercial Software”** means Software developed or regularly used that: (i) has been sold, leased, or licensed to the general public; (ii) has been offered for sale, lease, or license to the general public; (iii) has not been offered, sold, leased, or licensed to the public but will be available for commercial sale, lease, or license in time to satisfy the delivery requirements of this Contract; or (iv) satisfies a criterion expressed in (i), (ii), or (iii) above and would require only minor modifications to meet the requirements of this Contract.
 - f) **“Contract”** means this Contract or Agreement (including any purchase order), by whatever name known or in whatever format used.
 - g) **“Contractor”** means the Business Entity with whom the State enters into this Contract. Contractor shall be synonymous with “supplier”, “vendor” or other similar term.
 - h) **“Data Processing System (System)”** means the total complement of Contractor-furnished Machines, including one or more central processors (or instruction processors), Operating Software which are acquired to operate as an integrated group.
 - i) **“Deliverables”** means Goods, Software, Information Technology, telecommunications technology, Hardware, and other items (e.g. reports) to be delivered pursuant to this Contract, including any such items furnished incident to the provision of services.
 - j) **“Designated CPU(s)”** means for each product, if applicable, the central processing unit of the computers or the server unit, including any associated peripheral units. If

no specific "Designated CPU(s)" are specified on the Contract, the term shall mean any and all CPUs located at the site specified therein.

- k) **"Documentation"** means manuals and other printed materials necessary or useful to the State in its use or maintenance of the Equipment or Software provided hereunder. Manuals and other printed materials customized for the State hereunder constitute Work Product if such materials are required by the Statement of Work.
- l) **"Equipment"** is an all-inclusive term which refers either to individual Machines or to a complete Data Processing System or Subsystem, including its Hardware and Operating Software (if any).
- m) **"Goods"** means all types of tangible personal property, including but not limited to materials, supplies, and Equipment (including computer and telecommunications Equipment).
- n) **"Hardware"** usually refers to computer Equipment and is contrasted with Software. See also Equipment.
- o) **"Installation Date"** means the date specified in the Statement of Work by which the Contractor must have the ordered Equipment ready (certified) for use by the State.
- p) **"Information Technology"** includes, but is not limited to, all electronic technology systems and services, automated information handling, System design and analysis, conversion of data, computer programming, information storage and retrieval, telecommunications which include voice, video, and data communications, requisite System controls, simulation, electronic commerce, and all related interactions between people and Machines.
- q) **"Machine"** means an individual unit of Data Processing System or Subsystem, separately identified by a type and/or model number, comprised of but not limited to mechanical, electro-mechanical, and electronic parts, microcode, and special features installed thereon and including any necessary Software, e.g., central processing unit, memory module, tape unit, card reader, etc.
- r) **"Programming Aids"** means Contractor-supplied programs and routines executable on the Contractor's Equipment which assists a programmer in the development of applications including language processors, sorts, communications modules, data base management systems, and utility routines (tape-to-disk routines, disk-to-print routines, etc.).
- s) **"Program Product"** means programs, routines, subroutines, and related items which are proprietary to the Contractor and which are licensed to the State for its use, usually on the basis of separately stated charges and appropriate contractual provisions.
- t) **"Software"** means an all-inclusive term which refers to any computer programs, routines, or subroutines supplied by the Contractor, including Operating Software, Programming Aids, Application Programs, and Program Products.
- u) **"State"** means the government of the State of California, its employees and authorized representatives, including without limitation any department, agency, any

Authorized User participating in the MSA, or other unit of the government of the State of California.

- v) **“System”** means the complete collection of Hardware, Software and services as described in this Contract, integrated and functioning together, and performing in accordance with this Contract.
 - w) **“U.S. Intellectual Property Rights”** means intellectual property rights enforceable in the United States of America, including without limitation rights in trade secrets, copyrights, and U.S. patents.
2. SEVERABILITY: See MSA Exhibit C, Section 17.
3. COMPLIANCE WITH STATUTES AND REGULATIONS:
- a) The State and the Contractor warrants and certifies that in the performance of this Contract, it will comply with all applicable statutes, rules, regulations and orders of the United States and the State of California. The Contractor agrees to indemnify the State against any loss, cost, damage or liability by reason of the Contractors violation of this provision.
 - b) The State will notify the Contractor of any such claim in writing and tender the defense thereof within a reasonable time; and
 - c) The Contractor will have sole control of the defense of any action on such claim and all negotiations for its settlement or compromise; provided that (i) when substantial principles of government or public law are involved, when litigation might create precedent affecting future State operations or liability, or when involvement of the State is otherwise mandated by law, the State may participate in such action at its own expense with respect to attorneys’ fees and costs (but not liability); (ii) where a settlement would impose liability on the State, affect principles of California government or public law, or impact the authority of the State, the Department of General Services will have the right to approve or disapprove any settlement or compromise, which approval will not unreasonably be withheld or delayed and (iii) the State will reasonably cooperate in the defense and in any related settlement negotiations.
 - d) If this Contract is in excess of \$554,000, it is subject to the requirements of the World Trade Organization (WTO) Government Procurement Agreement (GPA).
 - e) To the extent that this Contract falls within the scope of Government Code Section 11135, the Contractor hereby agrees to respond to and resolve any complaint brought to its attention, regarding accessibility of its products or services.
4. CONTRACTOR’S POWER AND AUTHORITY: See MSA Exhibit C, Section 5.
5. WAIVER OF RIGHTS: Any action or inaction by the State or the failure of the State on any occasion, to enforce any right or provision of the Contract, shall not be construed to be a waiver by the State of its rights hereunder and shall not prevent the State from enforcing such provision or right on any future occasion. The rights and remedies of the State herein are cumulative and are in addition to any other rights or remedies that the State may have at law or in equity.
6. DELIVERY: The Contractor shall strictly adhere to the delivery and completion schedules specified in this Contract. Time, if stated as a number of days, shall mean calendar days unless otherwise specified. The quantities specified herein are the only quantities required. If the Contractor delivers in excess of the quantities specified herein, the State shall not be required to make any payment for the excess Deliverables, and

may return them to Contractor at the Contractor's expense or utilize any other rights available to the State at law or in equity.

7. INSPECTION, ACCEPTANCE AND REJECTION: See Exhibit F, Sections 4(e) and (f).

8. SAMPLES:

- a) Samples of items may be required by the State for inspection and specification testing and must be furnished free of expense to the State. The samples furnished must be identical in all respects to the products bid and/or specified in the Contract.
- b) Samples, if not destroyed by tests, may, upon request made at the time the sample is furnished, be returned at the Contractor's expense.

9. WARRANTY:

- a) Unless otherwise specified in the Statement of Work, the warranties in this subsection a) begin upon delivery of the goods or services in question and end one (1) year thereafter. The Contractor warrants that (i) Deliverables and services furnished hereunder will substantially conform to the requirements of this Contract (including without limitation all descriptions, specifications, and drawings identified in the Statement of Work), and (ii) the Deliverables will be free from material defects in materials and workmanship. Where the parties have agreed to design specifications (such as a Detailed Design Document) and incorporated the same or equivalent in the Statement of Work directly or by reference, the Contractor will warrant that its Deliverables provide all material functionality required thereby. In addition to the other warranties set forth herein, where the Contract calls for delivery of Commercial Software, the Contractor warrants that such Software will perform in accordance with its license and accompanying Documentation. The State's approval of designs or specifications furnished by Contractor shall not relieve the Contractor of its obligations under this warranty.
- b) The Contractor warrants that Deliverables furnished hereunder (i) will be free, at the time of delivery, of harmful code (i.e. computer viruses, worms, trap doors, time bombs, disabling code, or any similar malicious mechanism designed to interfere with the intended operation of, or cause damage to, computers, data, or Software); and (ii) will not infringe or violate any U.S. Intellectual Property Right. Without limiting the generality of the foregoing, if the State believes that harmful code may be present in any Commercial Software delivered hereunder, the Contractor will, upon the State's request, provide a new or clean install of the Software.
- c) Unless otherwise specified in the Statement of Work:
 - i. The Contractor does not warrant that any Software provided hereunder is error-free or that it will run without immaterial interruption.
 - ii. The Contractor does not warrant and will have no responsibility for a claim to the extent that it arises directly from (A) a modification made by the State, unless such modification is approved or directed by the Contractor in writing, (B) use of Software in combination with or on products other than as specified by the Contractor, or (C) misuse by the State.
 - iii. Where the Contractor resells Commercial Hardware or Commercial Software it purchased from a third party, Contractor, to the extent it is legally able to do so, will pass through any such third party warranties to the State and will reasonably cooperate in enforcing them. Such warranty pass-through will not relieve the Contractor from Contractor's warranty obligations set forth above.

- d) All warranties, including special warranties specified elsewhere herein, shall inure to the State, its successors, assigns, customer agencies, and governmental users of the Deliverables or services.
 - e) Except as may be specifically provided in the Statement of Work or elsewhere in this Contract, for any breach of the warranties provided in this Section, the State's exclusive remedy and the Contractor's sole obligation will be limited to:
 - i. re-performance, repair, or replacement of the nonconforming Deliverable (including without limitation an infringing Deliverable) or service; or
 - ii. should the State in its sole discretion consent, refund of all amounts paid by the State for the nonconforming Deliverable or service and payment to the State of any additional amounts necessary to equal the State's Cost to Cover. "Cost to Cover" means the cost, properly mitigated, of procuring Deliverables or services of equivalent capability, function, and performance. The payment obligation in subsection (e)(ii) above will not exceed the limits on the Contractor's liability set forth in Exhibit A, Section 24.
 - f) EXCEPT FOR THE EXPRESS WARRANTIES SPECIFIED IN THIS SECTION, THE CONTRACTOR MAKES NO WARRANTIES EITHER EXPRESS OR IMPLIED, INCLUDING WITHOUT LIMITATION ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.
10. SAFETY AND ACCIDENT PREVENTION: In performing work under this Contract on State premises, the Contractor shall conform to any specific safety requirements contained in the Contract or as required by law or regulation. The Contractor shall take any additional precautions as the State may reasonably require for safety and accident prevention purposes. Any violation of such rules and requirements, unless promptly corrected, shall be grounds for termination of this Contract in accordance with the default provisions hereof.
11. RIGHTS AND REMEDIES OF STATE FOR DEFAULT:
- a) In the event any Deliverables furnished or services provided by the Contractor in the performance of the Contract should fail to conform to the requirements herein, or to the sample submitted by the Contractor, the State may reject the same, and it shall become the duty of the Contractor to reclaim and remove the item promptly or to correct the performance of services, without expense to the State, and immediately replace all such rejected items with others conforming to the Contract.
 - b) In addition to any other rights and remedies the State may have, the State may require the Contractor, at Contractor's expense, to ship Deliverables via air freight or expedited routing to avoid or minimize actual or potential delay if the delay is the fault of the Contractor.
 - c) In the event of the termination of the Contract, either in whole or in part, by reason of default or breach by the Contractor, any loss or damage sustained by the State in procuring any items which the Contractor agreed to supply shall be borne and paid for by the Contractor (but subject to the clause set forth in Exhibit A, Section 24).
 - d) The State reserves the right to offset the reasonable cost of all damages caused to the State against any outstanding invoices or amounts owed to the Contractor or to make a claim against the Contractor therefore subject to Exhibit A, Section 24.

12. TAXES: Unless otherwise required by law, the State of California is exempt from Federal excise taxes. The State will only pay for any State or local sales or use taxes on the services rendered or Goods supplied to the State pursuant to this Contract.
13. CONFIDENTIALITY OF DATA: All financial statistical, personal, technical and other data and information relating to the State's operation which are designated confidential by the state and made available to the Contractor in order to carry out this Contract, or which become available to the Contractor in carrying out this Contract, shall be protected by the Contractor from unauthorized use and disclosure through the observance of the same or more effective procedural requirements as are applicable to the State. The identification of all such confidential data and information as well as the State's procedural requirements for protection of such data and information from unauthorized use and disclosure shall be provided by the State in writing to the Contractor. If the methods and procedures employed by the Contractor for the protection of the Contractor's data and information are deemed by the State to be adequate for the protection of the State's confidential information, such methods and procedures may be used, with the written consent of the State, to carry out the intent of this paragraph. The Contractor shall not be required under the provisions of this paragraph to keep confidential any data or information which is or becomes publicly available, is already rightfully in the Contractor's possession without obligation of confidentiality, is independently developed by the Contractor outside the scope of this Contract, or is rightfully obtained from third parties.
14. PROTECTION OF PROPRIETARY SOFTWARE AND OTHER PROPRIETARY DATA:
 - a) Subject to the California Public Records Act, the State agrees that all material appropriately marked or identified in writing as proprietary, and furnished hereunder are provided for the State's exclusive use for the purposes of this Contract only.
 - b) The State will ensure, prior to disposing of any media, that any licensed materials contained thereon have been erased or otherwise destroyed.
 - c) The State agrees that it will take appropriate action by instruction, agreement or otherwise with its employees or other persons permitted access to licensed software and other proprietary data to satisfy its obligations in this Contract with respect to use, copying, modification, protection and security of proprietary software and other proprietary data.
15. RIGHT TO COPY OR MODIFY:
 - a) Any Software Product provided by the Contractor in machine-readable form may be copied, in whole or in part, in printed or machine-readable form for use by the State with the designated CPU, to perform one-time benchmark tests, for archival or emergency restart purposes, to replace a worn copy, to understand the contents of such machine- readable material, or to modify the Software Product as provided below; provided, however, that no more than the number of printed copies and machine-readable copies as specified in the Statement of Work will be in existence under this Contract at any time without prior written consent of the Contractor. Such consent shall not be unreasonably withheld by the Contractor. The original, and any copies of the Software Product, in whole or in part, which are made hereunder shall be the property of the Contractor.
 - b) The State may modify any non-personal computer Software Product, in machine-readable form, for its own use and merge it into other program material. Any portion of the Software Product included in any merged program material shall be used only

on the designated CPUs and shall be subject to the terms and conditions of the Contract.

16. ENCRYPTION/CPU ID AUTHORIZATION CODES:

- a) When Encryption/CPU Identification (ID) authorization codes are required to operate the Software Products, the Contractor will provide all codes to the State with delivery of the Software.
- b) In case of inoperative CPU, the Contractor will provide a temporary encryption/CPU ID authorization code to the State for use on a temporarily authorized CPU until the designated CPU is returned to operation.
- c) When changes in designated CPUs occur, the State will notify the Contractor via telephone and/or facsimile/e-mail of such change. Upon receipt of such notice, the Contractor will issue via telephone and/or facsimile/e-mail to the State within 24 hours, a temporary encryption ID authorization code for use on the newly designated CPU until such time as permanent code is assigned.

17. PATENT, COPYRIGHT AND TRADE SECRET INDEMNITY:

- a) Contractor will indemnify, defend, and save harmless the State, its officers, agents, and employees, from any and all third party claims, costs (including without limitation reasonable attorneys' fees), and losses for infringement or violation of any U.S. Intellectual Property Right by any product or service provided hereunder. With respect to claims arising from computer Hardware or Software manufactured by a third party and sold by Contractor as a reseller, Contractor will pass through to the State such indemnity rights as it receives from such third party ("Third Party Obligation") and will cooperate in enforcing them; provided that if the third party manufacturer fails to honor the Third Party Obligation, Contractor will provide the State with indemnity protection equal to that called for by the Third Party Obligation, but in no event greater than that called for in the first sentence of this Section). The provisions of the preceding sentence apply only to third party computer Hardware or Software sold as a distinct unit and accepted by the State.

Unless a Third Party Obligation provides otherwise, the defense and payment obligations set forth in this Section will be conditional upon the following:

- i. The State will notify the Contractor of any such claim in writing and tender the defense thereof within a reasonable time; and
 - ii. The Contractor will have sole control of the defense of any action on such claim and all negotiations for its settlement or compromise; provided that (a) when substantial principles of government or public law are involved, when litigation might create precedent affecting future State operations or liability, or when involvement of the State is otherwise mandated by law, the State may participate in such action at its own expense with respect to attorneys' fees and costs (but not liability); (b) where a settlement would impose liability on the State, affect principles of California government or public law, or impact the authority of the State, the Department of General Services will have the right to approve or disapprove any settlement or compromise which approval will not unreasonably be withheld or delayed; and (c) the State will reasonably cooperate in the defense and in any related settlement negotiations.
- b) Should the Deliverables, or the operation thereof, become, or in the Contractor's opinion are likely to become, the subject of a claim of infringement or violation of a U.S. Intellectual Property Right, the State shall permit the Contractor, at its option

and expense, either to procure for the State the right to continue using the Deliverables, or to replace or modify the same so that they become non-infringing. If none of these options can reasonably be taken, or if the use of such Deliverables by the State shall be prevented by injunction the Contractor agrees to take back such Deliverables and make every reasonable effort to assist the State in procuring substitute Deliverables. If, in the sole opinion of the State, the return of such infringing Deliverables makes the retention of other Deliverables acquired from the Contractor under this Contract impractical, the State shall then have the option of terminating such Contracts, or applicable portions thereof, without penalty or termination charge. The Contractor agrees to take back such Deliverables and refund any sums the State has paid the Contractor less any reasonable amount for use or damage.

- c) The Contractor shall have no liability to the State under any provision of this clause with respect to any claim of patent, copyright or trade secret infringement which is based upon:
 - i. The operation of Equipment furnished by the Contractor under the control of any Operating Software other than, or in addition to, the current version of Contractor-supplied Operating Software; or
 - ii. The modification initiated by the State, or a third party at the State's direction, of any Deliverable furnished hereunder; or
 - iii. The combination or utilization of Software furnished hereunder with non-contractor supplied Software.
 - d) The Contractor certifies that it has appropriate systems and controls in place to ensure that State funds will not be used in the performance of this Contract for the acquisition, operation or maintenance of computer Software in violation of copyright laws.
18. COVENANT AGAINST GRATUITIES: The Contractor warrants that no gratuities (in the form of entertainment, gifts, or otherwise) were offered or given by the Contractor, or any agent or representative of the Contractor, to any officer or employee of the State with a view toward securing the Contract or securing favorable treatment with respect to any determinations concerning the performance of the Contract. For breach or violation of this warranty, the State shall have the right to terminate the Contract, either in whole or in part, and any loss or damage sustained by the State in procuring on the open market any items which the Contractor agreed to supply shall be borne and paid for by the Contractor. The rights and remedies of the State provided in this clause shall not be exclusive and are in addition to any other rights and remedies provided by law or in equity.
19. NATIONAL LABOR RELATIONS BOARD CERTIFICATION: See MSA Exhibit C, Section 11.
20. FOUR DIGIT DATE COMPLIANCE: Contractor warrants that it will provide only Four-Digit Date Compliant (as defined below) Deliverables and/or services to the State. "Four Digit Date Compliant" Deliverables and services can accurately process, calculate, compare, and sequence date data, including without limitation date data arising out of or relating to leap years and changes in centuries. This warranty and representation is subject to the warranty terms and conditions of this Contract and does not limit the generality of warranty obligations set forth elsewhere herein.
21. ELECTRONIC WASTE RECYCLING ACT OF 2003: The Contractor certifies that it complies with the applicable requirements of the Electronic Waste Recycling Act of

2003, Chapter 8.5, Part 3 of Division 30, commencing with Section 42460 of the Public Resources Code. The Contractor shall maintain documentation and provide reasonable access to its records and documents that evidence compliance.

22. USE TAX COLLECTION: In accordance with PCC Section 10295.1, the Contractor certifies that it complies with the requirements of Section 7101 of the Revenue and Taxation Code. Contractor further certifies that it will immediately advise the State of any change in its retailer's seller's permit or certification of registration or applicable affiliate's seller's permit or certificate of registration as described in subdivision (a) of PCC Section 10295.1.

Exhibit D: Insurance Requirements

1. PROOF OF INSURANCE

Contractor shall provide proof of insurance, in the form of a certificate to the Authorized User. Insurance companies must be acceptable to DGS, Office of Risk Management (ORIM). If self-insured, review of financial information may be required.

2. GENERAL PROVISIONS APPLYING TO ALL POLICIES

- a. **Coverage Term** – Coverage needs to be in force for the complete term of the contract. If insurance expires during the term of the contract, a new certificate must be received by the State prior to the expiration of this insurance. Any new insurance must still comply with the original terms of the contract.
- b. **Policy Cancellation or Termination & Notice of Non-Renewal** – Contractor is responsible to notify the State within five business days before the effective date of any cancellation, non-renewal, or material change that affects required insurance coverage rendering Contractor in breach of the contract. In the event Contractor fails to keep in effect at all times the specified insurance coverage, the State may, in addition to any other remedies it may have, terminate this Contract upon the occurrence of such event, subject to the provisions of this Contract.
- c. **Deductible** – Contractor is responsible for any deductible or self-insured retention contained within their insurance program.
- d. **Primary Clause** – The general liability insurance contained in this contract shall be primary, and not excess or contributory, to any other insurance carried by the State.
- e. **Insurance Carrier Required Rating** – All insurance companies must carry an AM Best rating of note less than A- (minus) financial category VII. If the Contractor is self-insured for a portion or all of its insurance, and public reports are not readily available, review of financial information may be required upon request.
- f. **Endorsements** – Any required endorsements requested by the State must be physically attached to all requested certificates of insurance and not substituted by referring to such coverage on the certificate of insurance.
- g. **Inadequate Insurance** – Inadequate or lack of insurance does not negate the contractor obligations under the contract.
- h. **Available Coverages/Limits** - All coverage and limits available to the contractor shall also be available and applicable to the State.
- i. **Subcontractors** - In the case of Contractor utilization of subcontractors to complete the contracted scope of work, Contractor shall include all subcontractors as insured's under Contractor and insurance or supply evidence of insurance to The State equal to policies, coverages and limits required of Contractor. The State has the right to accept lower limits appropriate for the services being subcontracted.

3. COMMERCIAL GENERAL LIABILITY

Contractor shall maintain, at Contractor's expense, and keep in effect during the term of this Contract, Commercial General Liability Insurance covering bodily injury, and property damage. This insurance shall include personal and advertising injury liability, products, completed operations, and contractual liability coverage. Coverage shall be written on an occurrence basis in an amount not be less than \$1,000,000 per occurrence. Annual aggregate limit shall not be less than \$2,000,000. **The State of California, its officers,**

agents, and employees are to be covered as additional insureds with respect to liability arising out of work or operations.

4. AUTO LIABILITY

By signing this Agreement, the Contractor certifies that the Contractor and any employees, subcontractors or servants possess valid automobile coverage in accordance with California Vehicle Code Sections 16450 to 16457, inclusive. The State reserves the right to request proof at any time.

5. WORKERS' COMPENSATION AND EMPLOYER'S LIABILITY

Workers' Compensation insurance as required by the State of California, with Statutory Limits, and Employer's Liability Insurance with limit of no less than \$1,000,000 per accident for bodily injury or disease. **Policy shall be endorsed to include waiver of subrogation in favor of State of California.**

6. PROFESSIONAL LIABILITY

Contractor shall maintain, at Contractor's expense, and keep in effect during the term of this Contract, Professional Liability Insurance covering any damages caused by an error, omission or any negligent acts including third party losses, related to the services to be provided under this contract by the Contractor and Contractor's subcontractors, agents, officers and employees in an amount of not less than \$1,000,000 per occurrence, incident or claim. Annual aggregate limit shall not be less than \$2,000,000.

Exhibit E: Fees and Costs

1. FEES AND COSTS

The fees and costs based on pricing provided in Exhibit E.1: Service Pricing and Exhibit E.2: Equipment and Software Pricing will be invoiced in accordance with Exhibit B. The amounts deposited into Authorized User's Demand Deposit Account (DDA) will be gross receipts and net of refunds and reversals.

2. VISA AND MASTERCARD INTERCHANGE ASSESSMENT RATES

The Visa and MasterCard interchange assessment pricing specified is subject to fluctuations. These rates are outside of the control of the State of California and the Contractor. Both increases and decreases in these rates are to be passed on to the Authorized Users of this Agreement in the form of changes in the official interchange assessment rates from VISA and MasterCard by the Contractor. Contractor will send, as promptly as possible, to each Authorized User, or designee, and to the DGS Contract Administrator, notices documenting all pricing adjustments resulting from the official changes in interchange assessment rates. The following sites provide the most up-to-date interchange assessment rates as they occur.

- [MasterCard Interchange Rates:](http://www.mastercard.com/us/merchant/support/interchange_rates.html)
http://www.mastercard.com/us/merchant/support/interchange_rates.html
- [Visa Interchange Rates:](https://usa.visa.com/support/small-business/regulations-fees.html)
<https://usa.visa.com/support/small-business/regulations-fees.html>

3. EQUIPMENT PRICING

Upon request, Contractor will provide equipment and software pricing and specification sheets on an annual basis in the format and delivery method specified by DGS. Once these prices are negotiated and approved by DGS, this information will be posted along with the respective contracts on the State's Procurement Portal (Cal eProcure). Posting of price lists allows the Authorized Users access to both service and equipment/software pricing so Authorized Users can conduct a complete cost analysis based on their organization's individual requirements. Authorized Users may negotiate pricing lower than the maximum pricing listed on the Contractor's Price Sheet.

Price declines shall be effective immediately upon any public notification of the decline. All prices quoted shall be firm fixed maximum for the initial price list period. However, should a price decline be announced by the Contractor after contract award, and prior to an Authorized User utilizing the services, then the Contractor shall use the reduced pricing.

4. CONVENIENCE/SERVICE FEES

- a. Authorized Users, at their discretion, may elect to have the Contractor or Service Provider charge a convenience and/or service fee to the cardholder (paying parties) to offset the processing fees charged to the Authorized User. Assessment of the convenience and/or service fee occurs at the time of the transaction. Use of Convenience and/or service fees should be addressed by each Authorized User in their individual Subsidiary Agreement.

The convenience and/or service fee to be charged to Cardholders for transactions processed will be mutually agreed upon by Contractor or Service Provider and Authorized User. If the Authorized User is using the Contractor for convenience and/or

service fees, the amount of the convenience and/or service fee may be adjusted in the Subsidiary Agreement, at any time, upon the mutual agreement of Contractor and the Authorized User. Contractor shall not charge Authorized User a fee in consideration for processing the convenience and/or service fee. Any amendment to the convenience and/or service fee assessed by the Contractor must be agreed upon by the Authorized User and Contractor.

Convenience and/or service fees are subject to the constraints of the card associations, card companies, Merchant Category Codes (MCC), business requirements of Authorized Users and, in some instances, by State regulations and/or laws. In general, card payments, and specific card brands, may not be disadvantaged at the point-of-sale relative to other payment.

State and Local Use:

- May only be charged by Authorized Users in certain fee programs based on Association Rules, Merchant Category Code (MCC) and the business requirements of Authorized Users.
- Must be paid to and managed by the Contractor, or if requested by the Authorized User and approved by Contractor, paid to and managed by a Service Provider retained by the Authorized User (pursuant to Exhibit H, Section 14). If Authorized User chooses to use a Service Provider, Authorized User acknowledges that all fees will be settled into a DDA established by the Service Provider, and Contractor will charge the Service Provider for all fees due and owing for such Convenience/Service Fee transactions. Notwithstanding the foregoing, Authorized User shall be fully liable for any Contractor's fees provided for in this Agreement.
- Convenience and/or service fee and underlying transaction must be submitted and processed as two separate transactions.
- Authorized Users who qualify for the American Express Public Sector Program (outlined in Chapter 34 of the Operating Guide) may elect to participate in the program, provided that the Authorized Users also participate in the Government/Public Institution Service Fees (GPISF) (outlined in Chapter 14 of the Operating Guide).

Local Use Only:

- May be paid to or managed by the Authorized User, Contractor, or Service Provider (as outlined above).
 - Convenience and/or service fee and underlying transaction may be combined into a single transaction, if allowed by local user.
- b. Contractor providing convenience and/or service fee services agrees to all of the following:
- Contractor must provide option to assess or not assess a convenience fee.
 - Support convenience and/or service fee policies and variations in convenience fees at the individual Authorized User level while remaining in compliance with credit and debit card Association regulations.
 - Support convenience and/or service fee assessment with each type of payment channel provided within this contract (IVR, point of sale, internet, etc.).
 - Separate the Convenience and/or service fee from any payment that is owed by a Cardholder to Authorized User and paid through a payment transaction. Separate

Convenience and/or service fees from other fees when invoicing the Authorized User.

- Provide Authorized User access to reports detailing all processed transactions.
- Provide Cardholder the opportunity to make payments to the Authorized User by credit card through both an interactive telephone voice response system ("IVR") and Internet interface.
- On behalf of Authorized User, collect and process Authorized User Payments from Cardholders using the American Express® Card, MasterCard®, VISA®, and Discover® Card.
- Provide Authorized User payment transactions to the appropriate card organizations through Contractor and Contractor shall settle the Authorized User's payments to the Authorized User's designated bank account. Contractor shall retain all convenience and/or service fees collected by it hereunder after paying all fees owed in connection with payment transactions to the appropriate parties.
- Confirm the dollar amount of all cardholder's authorized payments and the corresponding convenience and/or service fees to be charged to Cardholder and obtain the Cardholder's approval (electronic or otherwise) of such charges prior to initiating credit authorizations.
- Provide cardholder with electronic confirmation of card transactions.
- Electronically transmit all card transactions to all parties involved, in real time as the transactions occur.
- Arrange for a unique line merchant description for the Authorized payment that references the name of Authorized User and arrange for a separate unique line merchant description for the convenience and/or service fee that references Contractor and the nature of the fee.
- Upon request by the Authorized User, assign to Authorized User one or more identification numbers or passwords for Authorized User's use in obtaining the card services. Once such identification number(s) or password(s) have been delivered to Authorized User by Contractor, the use and confidentiality of such numbers and/or passwords shall be the sole responsibility of Authorized User.

Exhibit E.1: Service Pricing

Category 1: Credit and Debit Card Service Pricing (Tier Pricing based on Transactions)

Pricing for all Authorized Users during the first year of this Agreement is **Tier 1** identified in the table below. Future MSA pricing will be determined using the methodology identified below in Pricing Disclosure.

Service Pricing:

Services	Unit	Tier 1 # of Transactions Range: 1-125,000,000	Tier 2 # of Transactions Range: 125,000,001- 150,000,000	Tier 3 # of Transactions Range: 150,000,001- 175,000,000	Tier 4 # of Transactions Range: 175,000,001- 200,000,000	Tier 5 # of Transactions Range: 200,000,001+
Authorization Fee	Per Transaction	\$0.025	\$0.024	\$0.023	\$0.022	\$0.02
AMEX Authorization Fee	(Pass Through Cost Per Transaction)	\$0.025	\$0.024	\$0.023	\$0.022	\$0.02
Chargeback Fee	Per Transaction	\$5.00	\$5.00	\$5.00	\$5.00	\$5.00
Voice Authorization	Per Transaction	\$0.75	\$0.75	\$0.75	\$0.75	\$0.75
Cybersource Gateway & Processing (Transit Only)	Per Transaction	\$0.03	\$0.03	\$0.03	\$0.03	\$0.03
Foreign Network Fee (IP SSL)	Per Transaction	\$0.03	\$0.03	\$0.03	\$0.03	\$0.03
Converge Tokenization	Per Transaction	\$0.05	\$0.04	\$0.03	\$0.02	\$0.01

Pricing Disclosure

Category 1: Credit and Debit Card Service Pricing (Tier Pricing based on Transactions)

Beginning on the Agreement Effective Date, all Authorized Users collectively under the MSA will be assigned to Tier 1, as identified on Exhibit E.1 - Service Pricing. The Transactions included in the Transaction count are the aggregate number of all Visa, MasterCard, Discover, and debit transactions processed by Contractor for all Authorized Users. Once annually, one (1) month prior to the anniversary date, Contractor will review the combined Authorized Users' Transaction count data for the prior twelve (12) months and, upon the first day of the month following the annual anniversary date, will apply the applicable pricing tier to all Authorized Users. The State will issue an amendment, reflecting the effective Tier.

American Express counts are not included in determining the tiers, however, their pricing will be adjusted and mirror that of the Visa, MasterCard, Discover and debit transactions.

Exhibit E.2: Equipment and Software Pricing

Equipment Pricing:

Equipment Type (Terminals, POS, Pin Pads, Printers, Imprinter)	Description	Elavon Product Code	MSRP	Unit Price (1-49)	Unit Price (50+)
1. Smart Terminals/POS					
Talech Moby M120	Smart terminal	MB120	\$621.00	\$589.95	\$558.90
Poynt 5 Wi-Fi	Smart terminal	PYT5	\$308.00	\$292.60	\$277.20

Exhibit F: Equipment and Software

1. EQUIPMENT & SOFTWARE

Each Authorized User is responsible for defining its equipment and software needs, desired operating objectives, and desired operating environment under this MSA. Authorized Users will work with their designated Contractor to determine the appropriate equipment and software needs to meet their specific business and system requirements.

When purchasing or disposing of equipment, State Authorized Users must adhere to all applicable state laws, regulations, policies, best practices, and purchasing authority requirements, California Codes, Code of Regulations, State Administrative Manual, Management Memos, State Contracting Manual and Purchasing Authority Manual.

2. GENERAL STATEMENT OF WORK

Contractor shall provide all Point of Sale (POS) equipment and software as needed to implement new or upgrade current system in terms of functionality and technical architecture at the rates provided in Exhibit E.2: Equipment and Software Pricing. All references to software herein are to software provided by Contractor hereunder, and not to third party software acquired or used by an Authorized User.

a. Newly Manufactured Goods

All purchased equipment, including components and accessories, under this MSA shall be newly manufactured equipment. Used or reconditioned equipment is prohibited except as a replacement provided at no cost and only after the one-year warranty period has expired.

b. POS Equipment Implementation Plans

Contractor staff will map, migrate, test and clean-up the essential data required for the POS System to function; complete training of Authorized User's staff; and other tasks necessary for use of the POS System by the Authorized User. The Implementation Plan for the POS equipment will address discovery¹, installation instructions, training, testing and certification.

Contractor shall coordinate with Authorized Users to develop an implementation schedule to determine that Authorized Users have all the appropriate supplies, space, and time required for the discovery, installation, training, and testing.

c. Service Provider Back-end System Software

Contractor must successfully integrate the POS equipment between Authorized User's internal system and their affected locations.

d. POS System Architecture Software Requirements

At no additional cost to the Authorized User, Contractor shall:

- Provide new versions, upgrades, modifications and enhancements of Software.
- Make necessary modifications, adjustments, and repairs to keep the software operating without interruptions, to correct latent deficiencies with respect to the

¹ Method used to clearly understand and document the technology, business issues, and resources required to successfully implement all or part of an electronic payment acceptance system.

software specifications, and to comply with applicable federal laws and regulations. Contractor must provide advanced written notice of scheduled interruptions or maintenance to Authorized Users and maintenance should occur during Authorized User's non-business hours. The software must be available at a minimum of 99.9% of the time (excluding maintenance downtime).

- Provide software modifications for operation with the infrastructure for the term of the contract.
- Provide new versions of the software to keep the Authorized User abreast of the Contractor's current software product. Notification of major software releases and a summary of system enhancements or revisions will be provided with new software releases. Documentation must describe, in a user-friendly manner, what the Authorized User needs to know to understand each level on which the software operates.
- Provide modifications and enhancements that (1) will be delivered installed or installable, on the Authorized User's system, (2) must operate without program interruptions and (3) must provide the functions as required by the specifications and as described by documentation supplied by the Contractor.

e. POS Equipment Authentication Software

The Contractor shall provide the software necessary for authentication and initialization so that the device is recognized by the Authorized User's system. The software must be pre-loaded to the device, allowing the device to initialize to the back end.

f. Integrated Front-end POS System Work Stations

- The Contractor shall develop an Integrated Front-end POS System Work Stations and Peripherals plan that documents interchangeability, re-configuration of latest revisions or versions, and delivery requirements for spares.
- All equipment and software shall be configured to the latest revision or version.
- All equipment and software shall be interchangeable with their corresponding device.

g. POS Replacement Plan

The Contractor shall work with Authorized Users to develop a Scheduled Replacement Plan that documents what equipment gets replaced, when it gets replaced, the logistics of removal and installation, and the required testing. After initial warranty period, under the scheduled replacement plan, Authorized Users shall have the option of replacing equipment with an identical unit at the lower of the market price at time of replacement or with a compatible yet more capable unit at the current market price, if such a unit exists. The cost of replacement after initial warranty period and after the equipment meets the minimum service life, shall be borne by the Authorized User under a scheduled replacement plan.

h. Maintenance and Repair Support

The Contractor must provide maintenance and repair support twenty-four (24) hours per day, 365 days per year to assist the Authorized User in optimizing its POS equipment. The Contractor shall provide a wide range of services from telephone to on-site support, equipment exchange according to the Authorized User's equipment type, and enable efficient problem resolution with experienced on-site and remote technical support. On-site technical support is dependent upon the Authorized User's

Subsidiary Agreement and upon mutual agreement between the Authorized User and Contractor.

The Contractor shall have repair policies and procedures in place to prevent illegal activity during the repair process. All parts, equipment, and firmware must be up-to-date and readily available. In addition, only authorized components may be used.

i. Warranty

The Contractor (not the manufacturer) shall provide a one-year warranty for all equipment/software newly purchased from the Contractor. The Contractor's obligation shall be to repair or replace the defective product during the warranty period at no charge to the Authorized User. The cost of replaced devices during the one-year warranty period shall be borne by the Contractor. Such repair or replacement will be rendered by the Contractor or by one of its authorized repair depots. Cost for shipment of said products to the Contractor shall be paid by the Contractor. The Contractor will then ship the repaired/replaced product to the Authorized User, at no cost to the Authorized User. Repaired products will be warranted for the remainder of the original one-year warranty period from the date of original retail purchase. Equipment replaced with new equipment will start a new one-year warranty period at the time of installation.

The Contractor may replace the defective product (or any part thereof) with any product that is substantially equivalent (or superior) in all material respects to the defective product.

j. Exchange Services

The Contractor will provide exchange support Monday through Friday from 8:00 a.m. through 5:00 p.m. PST. Contractor will ship replacement the same day support call is received and schedule next day delivery to the Authorized User. If call is received after 3:00 p.m. PST, replacement is shipped the following business day. Shipping and return of equipment shall be provided at no additional cost to the Authorized User.

k. Delivery

All prices offered shall be F.O.B. destination, freight prepaid by the Contractor, to the ordering agency's final receiving point. Responsibility and liability for loss or damage for all orders shall remain with the Contractor until final inspection and acceptance, when all responsibility shall pass to the ordering agency, except the responsibility for latent defects, fraud, and the warranty obligations.

Deliveries are to be made to the location specified on the individual order, which may include but is not limited to, inside buildings, high-rise office buildings, and receiving docks.

Delivery of ordered product shall be completed within thirty (30) calendar days (or sooner) after receipt of an order, unless otherwise agreed to by the ordering agency. Since receiving hours for each ordering agency will vary by facility, it will be the Contractor's responsibility to check with each facility for their specific delivery hours before delivery occurs.

The Contractor must notify the ordering agency within forty-eight (48) hours of scheduled delivery time if delivery cannot be made within the time frame specified on the order.

3. SECURITY STANDARDS

All equipment and software must meet the following security standards as applicable: PCI Compliance, POS Compliance Security, P2PE certified, POS Physical Security, POS Decommissioning Security, and POS Deployment, Repair and Tracking Security.

a. POS Compliance Security

- The Contractor shall adhere to applicable PCI standards and procedures to ensure the following:
- The POS device has been tested and it is an approved Tamper-Resistant Security Module (TRSM) (approved as a TRSM by the network or PCI standards company).
- The device has been inspected for tampering before the encryption keys are injected.
- At a minimum a DUKPT or Triple DES key that was created under the principles of dual control and split knowledge has been injected into the device before Personal Identification Numbers (PINs) are entered. (Dual Control means that at least two authorized individuals are required to work in partnership to carry out an activity, such as generating, storing, or loading the clear text components of a key. Split Knowledge means that no single individual knows, or has access to, a whole entity, be it all the clear-text components of a key, or the combination of a safe where key components are stored.) Asymmetric cryptography is recommended.
- Each device will have unique keys.

b. POS Physical Security

Contractors shall adhere to security measures during storage, servicing and shipping to ensure that the POS machine is properly managed and protected in a way that addresses and manages risks of attacks against it. These security measures manage and protect against theft and illegal modification. These measures shall also protect the cardholder's PIN entry privacy. POS devices should be inventoried and placed in secured, locked and monitored areas.

c. POS Deployment, Repair and Tracking Security

The Contractor shall ensure that applicable PCI standards and procedures will cover terminal inventory and tracking controls during all phases of its lifecycle:

- the manufacturing phase; while in transit and testing; the key injection process and the installation commissioning process; operation (Authorized User phase); and
- when offline - storage, repair or inactivity periods.

d. POS Decommissioning Security

Contractor shall provide training and technical support to enable Authorized Users to "Zero" POS devices due for decommissioning, if such decommissioning is possible with the equipment chosen. Decommissioned POS devices have their cryptographic keys safely removed when the terminal is de-installed and the device is then "zeroized" with no remaining encryption keys or data contained within them. Certain equipment may need to be returned to Contractor for decommissioning at the Authorized User's cost.

4. OTHER PROVISIONS

a. Buy Back Program

The Contractor shall offer Authorized Users a large-scale buyback and upgrade program, providing for the return marketable equipment towards purchase discounts or upgrade to newer technology, on a case-by-case basis.

b. Recycling

Contractor will issue call tags for returned and/or swapped equipment for the State. Equipment will be returned to Contractor's designated facility at the cost of the contractor and will be processed pursuant to the recycle/disposal laws applicable to the location of the Contractor's facility.

c. Equipment Recall

Contractor will notify Authorized Users if a purchased item is affected by a product recall. Contractor will provide instructions on how to return or replace the equipment at no additional cost to the Authorized User.

d. Substitutions

Substitution of contracted deliverables require advanced written consent of the Authorized User.

e. Inspection

All deliverables may be subject to final inspection, test and acceptance by the Authorized User at destination, notwithstanding any payment or inspection at source.

f. Damaged and Defective Items

Contractor will provide credit and/or replacement for freight-damaged or defective items at no charge within forty-eight (48) business hours, or as agreed upon by Authorized User, after the Authorized User provides notification. This also includes incorrect products shipped or an order entry error by the Contractor's customer service representative. The Contractor cannot require the Authorized User to deal directly with the manufacturer. Additionally, the Contractor shall provide the Authorized User with a prepaid and self-addressed label for the return of the item.

Exhibit G: Definitions

Term	Definition
1. Adjustments	A debit or credit to a Cardholder or Authorized User account to correct a transaction error.
2. Affiliate	Any entity that controls, is controlled by, or is under common control of a party, including its subsidiaries.
3. Agreement	The Master Service Agreement ("MSA") which includes the Std. 213 form, all Exhibits and all mutually agreed upon amendments thereto.
4. Associations or Payment Networks	Any: (a) Credit Card Association (defined as (i) Visa.; (ii) MasterCard; (iii) American Express; (iv) Discover Network; and any successor organization or association to any of the foregoing); (b) E F T Network (defined as (i) Interlink Network Inc., Maestro U.S.A., Inc., STAR Networks, Inc., NYCE Payments Network, LLC, PULSE Network LLC, ACCEL/Exchange Network, Alaska Option Services Corporation, Armed Forces Financial Network, Credit Union 24, Inc., NETS, Inc., and SHAZAM, Inc.; and any successor organization or association to any of the foregoing); (c) ECS Association (defined as Visa (in its operation of the Visa POS Check Service), N A C H A and any regional ACH association or network, the Federal Reserve (in its processing of ACH entries or Demand Drafts or other legal replacements or substitutes for a Paper Check, including under the Check Clearing for the 21st Century Act or under applicable provisions of the Uniform Commercial Code; and any successor organization or association to any of the foregoing)
5. Association Rules or Payment Networks Rules (or Payment Network Regulations)	The rules, regulations, releases, interpretations and other requirements (whether contractual or otherwise) imposed or adopted by Associations designated in this Agreement.
6. Authorization	The process by which the Authorized User requests approval of a transaction from the issuer by electronically accessing Contractor's computerized system, unless such system is inoperable or otherwise not accessible, in which case the Authorized User shall utilize the designated toll-free telephone number, to obtain credit approval from the Card issuing bank before completion of the Card transaction.
7. Authorized User	(i) State of California government agencies that participate in this MSA ("State Authorized Users"), and (ii) Local government agencies that participate in this MSA ("Local Authorized

Term	Definition
	Users”), as further defined in Exhibit A, Section 1 or 12 of the MSA.
8. Authorized User Resources	All equipment, communications devices, databases, services, systems and other resources that Authorized User maintains or operates in Authorized User’s or its third party hosting provider’s locations and which enable Authorized User to access and use the Services.
9. Automated Clearing House (ACH)	The funds transfer system governed by the rules of NACHA. ACH allows financial institutions to clear interbank entries electronically.
10. Bank	An institution offering financial services, such as the safekeeping of money, conversion of domestic into and from foreign currencies, lending of money at interest, and acceptance of bills of exchange.
11. Bankruptcy Proceeding	With respect to an entity, (i) that the entity or any subsidiary of such entity will: (a) commence a voluntary case under the Bankruptcy Code of 1978, as amended, or other federal bankruptcy laws (as now or hereafter in effect); (b) file or be subject to a petition seeking to take advantage of any other applicable state or federal laws, domestic or foreign, relating to bankruptcy, insolvency, reorganization, winding up or composition or adjustment of debts or any other similar conservatorship or receivership proceeding instituted or administered by any regulatory agency or body; (c) consent to or fail to contest, in a timely and appropriate manner, any petition filed against it in an involuntary case under such bankruptcy laws or other applicable laws; (d) apply for or consent to, or fail to contest in a timely and appropriate manner, the appointment of, or the taking of possession by, a trustee, receiver, custodian, liquidator, or similar entity of such entity or of all or any substantial part of its assets, domestic or foreign; (e) admit in writing its inability to pay its debts as they become due; (f) make a general assignment for the benefit of creditors; (g) make a conveyance fraudulent as to creditors under any applicable state or federal laws; or (h) take any action for the purpose of effecting any of the foregoing; or (ii) that a case or other proceeding will be commenced against the entity or any subsidiary of such entity in any court of competent jurisdiction, or through any regulatory agency or body, seeking: (x) relief under the Bankruptcy Code of 1978, as amended, or other federal bankruptcy laws (as now or hereafter in effect) or under any other applicable laws, domestic or foreign, relating to bankruptcy, insolvency, reorganization, winding up or composition, or adjustment of debts; or (y) the appointment of a trustee, receiver, custodian, liquidator or the like of such entity or of all or any substantial part of the assets, domestic or foreign, of such entity or any other similar conservatorship or

Term	Definition
	receivership proceeding instituted or administered by any regulatory agency or body.
12. Batch	A grouping of transactions captured by the Authorized User and submitted to their Acquirer for settlement and funding. A batch is usually an entire day's activity.
13. Business Day	A day (other than Saturday or Sunday) on which Banks are generally open for business.
14. Cancels	When an Authorized User stops a transaction before the transaction has been sent to the processor through a settlement.
15. Card Brands	(i) Visa; (ii) Mastercard; (iii) American Express Travel Related Services Company, Inc.; (iv) Discover Network; (v) Diners Club International Ltd.; (vi) JCB International Co., Ltd.; (vii) China UnionPay Co., Ltd; and (viii) any other organization or association that hereafter contracts with Contractor to authorize, capture, and settle Transactions effected with Credit Cards issued or sponsored by such organization or association, and any successor organization or association to any of the foregoing.
16. Card Not Present	The processing environment where the Payment Device is not physically presented to Authorized User by the Cardholder as the form of payment at the time of the Transaction.
17. Card or Payment Device	As any device or method used for the purpose of obtaining credit or debiting a designated account including a credit card (associated with a revolving line of credit), debit card (associated with an electronic debit to the Cardholder's account), and any other financial transaction device or method, including an Electronic Gift Card (special stored value card), check (whether converted into electronic form or used as a source document for an electronic fund transfer), electronic benefits transfer card, stored value card, "smart" card, or other device created to be used for the purpose of obtaining credit or debiting a designated account, that is now or hereafter effected through Charges with Authorized Users.
18. Cardholder	The individual whose name appears on the Card or in whose name a Card has been issued, and any person who purports to be an authorized user of such Card.
19. Cardholder Data	The meaning is stated in the Payment Card Industry (PCI) Data Security Standard (DSS) and Payment Application Data Security Standard (PA-DSS) Glossary of Terms, Abbreviations, and Acronyms.
20. Charge	See Transaction definition.
21. Chargeback	The procedure by which the funds from a Sales Draft or other indicia of a Card transaction (or disputed portion thereof) are returned to the cardholder by the issuing bank. The Payment Network will debit the Servicers the chargeback amount to

Term	Definition
	make the issuer whole. The Servicers in turn will recoup the chargeback amount from the Authorized User.
22. Contractor	Elavon, or its affiliates providing services hereunder.
23. Convenience Fee	A fee assessed to the Cardholder for an added convenience of the use of a payment card in a transaction in accordance with the Payment Networks Rules.
24. Credit Card	A card or device bearing the symbol of any Card Brand and associated with a revolving line of credit that can be used to purchase goods and services from Authorized User or to pay an amount due to Authorized User.
25. Credit Voucher	The evidence of a refund or price adjustment by the State or Authorized User to a Cardholder's Card account in connection with a prior purchase by such Cardholder using a Card, regardless of whether the form of such evidence is in paper, electronic, or otherwise.
26. Customer	A client of Authorized User who elects to conduct a payment Transaction with Authorized User through presentation of a Payment Device (including a Cardholder).
27. Data Breach	Unauthorized access to, use, disclosure or exfiltration of any Cardholder Data or Transaction Information provided by Authorized User and received by Contractor in connection with Authorized User's use of the Services under the Agreement.
28. Debit Card	A card or device bearing the symbols of one or more EFT Networks or Card Brands, which may be used to purchase goods and services from Authorized User or to pay an amount due to Authorized User by an electronic debit to the Cardholder's designated deposit account. A "Debit Card" includes (i) a card or device that bears the symbol of a Card Brand and may be used to conduct signature-based, offline debit Transactions; and (ii) a card or device that bears the symbol of an EFT Network and can be used to conduct PIN-based, online debit Transactions.
29. Demand Deposit Account (DDA)	The commercial checking account at an ACH participating financial institution designated by Authorized User to facilitate payment for Transactions, Chargebacks, returns, adjustments, fees, fines, penalties, assessments and charges from the Payment Networks, and other payments due under the Agreement.
30. Discover	DFS Services LLC
31. Discover Network	The payment network operated and maintained by Discover.
32. EFT Networks	(i) Interlink Network Inc., Maestro U.S.A., Inc., STAR Networks, Inc., NYCE Payments Network, LLC, PULSE Network LLC, ACCEL/Exchange Network, Alaska Option Services Corporation, Armed Forces Financial Network, Credit Union 24, Inc., NETS, Inc., and SHAZAM, Inc.; and (ii) any other organization or association that hereafter authorizes Contractor

Term	Definition
	or a third party designated by Authorized User to authorize, capture, and settle Transactions effected with Debit Cards, and any successor organization or association to any of the foregoing.
33. Elavon Data Breach	A Data Breach that (i) originated within data operating systems controlled by Elavon, (ii) occurred due to a breach of the Agreement by Elavon, (iii) was not attributable to any act or omission of Authorized User or its Service Providers, and (iv) does not relate to any Authorized User provided data in user defined fields not required by Elavon or used to perform the Services.
34. Elavon Materials	The specifications, documentation, application programming interfaces (APIs) and other interfaces, nonpublic or proprietary data import routines, sample code and materials provided to Authorized User to enable Authorized User to perform its obligations or exercise its rights under the Agreement, including integration to the Services.
35. Electronic Gift Card (EGC)	A special stored value card provided by or on behalf of Authorized User that is redeemable for merchandise, services or other Transactions.
36. Equipment	Purchased Equipment and other devices, equipment and hardware provided to Authorized User under the Agreement.
37. Excessive Activity	The occurrence, during any monthly period, of Chargebacks or Retrieval Requests in excess of 1% of the gross dollar amount of Authorized User's Transactions or returns in excess of 2.5% of the gross dollar amount of Authorized User's Transactions.
38. Gateway	The transfer of information between a payment portal (such as a website, mobile phone or interactive voice response service) and the Front-End Processor or acquiring bank.
39. Gateway Services	The hosted gateway services provided by Contractor, as further described in the Operating Guide.
40. Government/Public Institution Service Fees (GPISF)	The fee charged by Elavon or Authorized User, at Authorized User's election, to Customers conducting Eligible Transactions (as defined in the Operating Guide) where Authorized User is operating in an eligible MCC. GPISF include fees referred to as a "service fee", where the fee is processed as a separate Transaction from the underlying purchase or payment Transaction.
41. Intellectual Property Rights	Worldwide patents, trade secrets, copyrights, trademarks, service marks, trade names, and all other intellectual property rights and proprietary rights, including all rights or causes of action for infringement or misappropriation of any of the foregoing.
42. Issuer	The financial institution or other entity that issued the Credit Card or Debit Card to the Cardholder.

Term	Definition
43. Laws	All applicable local, state, and federal statutes, regulations, ordinances, rules, and other binding law in effect from time to time.
44. Local Governmental Agency	Any city and/or county, district, or other local governmental body or corporation, including the California State Universities (CSU) and University of California (UC) systems, K-12 schools and community colleges empowered to expend public funds).
45. Marks	Names, logos, service marks, trademarks, trade names, taglines, or other proprietary designations belonging to the Associations.
46. Mastercard	MasterCard International Incorporated
47. Operating Guide	Contractor's Operating Guide (formerly the "Merchant Operating Guide" or "MOG"), located at www.mypaymentsinsider.com and https://www.merchantconnect.com/CWRWeb/pdf/MOG_Eng.pdf (or such other website that Contractor may specify), that prescribes rules and procedures governing Transactions and Authorized User's use of the Services.
48. Payment Device	Any device or method used for the purpose of obtaining credit or debiting a designated account including a Credit Card, Debit Card, and any other financial transaction device or method to be used for the purpose of obtaining credit or debiting a designated account.
49. Payment Gateway	See Gateway definition.
50. Payment Network	Any Card Brand, EFT Network, ECS Association or automated clearing house association, governmental agency or authority, and any other entity or association that issues or sponsors a Payment Device or PayPal Payment Device (as defined in the Operating Guide) or operates a network on which a Payment Device is processed.
51. Payment Network Regulations	See Association Rules or Payment Networks Rules (or Payment Network Regulations) definition.
52. PCI-DSS	The Payment Card Industry Data Security Standards.
53. Point to point encryption (P2PE)	A solution that allows enterprises to create secure communication links between devices or components within those devices that prevent intermediate devices from having exposure to sensitive information that is transiting the network.
54. POS Device	A terminal, software or other point-of-sale device at an Authorized User location that conforms to the requirements established from time to time by Contractor and the applicable Payment Network.
55. Processing Services	Services other than Gateway Services.
56. Purchased Equipment	The devices, equipment and hardware purchased by Authorized User from Contractor under the terms of the Agreement.

Term	Definition
57. Retrieval	A request that occurs when a Cardholder requests more information about a transaction or a legible copy of the signed Sales Draft or Transaction Receipt.
58. Return or Reversal	A financial transaction used to negate or cancel a transaction.
59. Sales Draft or Transaction Receipt	Evidence of a purchase of goods or services by a Cardholder from the Authorized User using a Card, regardless of whether the form of such evidence is in paper, electronic or otherwise, all of which must conform to Association Rules.
60. Security Programs	The PCI-DSS, including the Cardholder Information Security Program (CISP) of Visa, the Site Data Protection Program (SDP) of Mastercard, the Data Security DISC Program and the PCI-DSS regulations of Discover Network, and the security programs of any other Payment Network, and any modifications to, or replacements of, such programs that may occur from time to time.
61. Service Provider	Any entity that stores, processes, transmits or accesses Cardholder Data or Transaction Information on behalf of Authorized User or that provides software to Authorized User for transaction processing, storage, or transmission, except to the extent such services are performed by the entity in its capacity as a third-party contractor of Contractor performing Contractor's obligations under the Agreement. Contractor third-party contractors are not Service Providers.
62. Services	The services Contractor provides to Authorized User pursuant to the Agreement.
63. Settlement	The process of submitting transactions to a Contractor for processing, and the subsequent transferring funds for sales and credits between Contractors and Issuers, including the final debiting of a Cardholder's account and crediting an Authorized User's account.
64. Settlement Account or ZBA or DDA	An account at a financial institution designated by the Authorized User as the account to be credited by Servicers for Card transactions, and other amounts due hereunder.
65. Servicers	Collectively Contractor and Bank.
66. State Governmental Agency	Any State of California governmental agency, department, bureau, board or commission within the Executive and Non-Executive Branches of California State Government. • State Judicial Branch: Justices, officers, and employees of the Supreme Court of California, the Courts of Appeal, the Judicial Council of California and the State BAR of California. • State Legislative Branch: Members of the State Senate, Members of the State Assembly, and Legislative staff members.
67. Subsidiary Agreement	The Authorized User's duly executed Std. 213, or appropriate equivalent contract form for Local Authorized Users, and any

Term	Definition
	attachments or amendments thereto, describing the selected MSA services and any particular requirements of the Authorized User.
68. Substitutions	The action of replacing something with another thing.
69. Transaction	Any action between Authorized User and a Cardholder or Payment Network that results in transmission of Cardholder Data or Transaction Information (e.g. payment, purchase, refund, return, chargeback, authorization request, settlement submission, transaction inquiry, decryption, conversion to and from tokens).
70. Transaction Information	Any data or information resulting from a Transaction. Transaction Information includes payment processing-related transactional information that may be collected or stored by Contractor, including the price paid for products or services, date, time, approval, unique transaction number, store identifier, and Customer bank information relating to a Transaction.
71. United States	The United States of America.
72. Updates	All updates, revisions, patches, fixes, new releases, and other improvements or changes to any Services provided to Authorized User under the Agreement.
73. Users	Authorized User's employees or contractors designated by Authorized User to access and use the Services.
74. Visa	Visa U.S.A., Inc.
75. Voids	A transaction that is canceled after it has been authorized but before it has been settled.

Exhibit H: Special Terms and Conditions

1. SERVICES AGREEMENT

The Agreement governs Authorized User's receipt and use of the Services selected by Authorized Users in the Subsidiary Agreement or Set Up Form.

2. OPERATING GUIDE

In addition to the terms of the Agreement, Authorized User will comply with the Operating Guide (https://www.merchantconnect.com/CWRWeb/pdf/MOG_Eng.pdf) applicable to each selected Service. Contractor may change the Operating Guide by providing the State's Contract Administrator with at least thirty (30) days prior written notice of the change. However, in the event of changes in the Association Rules or due to security reasons, certain changes in Card procedures may become effective on shorter notice. If Contractor changes their Operating Guide during the term of the Agreement, and such changes are not mandated by an Association or governing body of rules or guidelines, the change will be subject to review and approval by the State and Authorized User within sixty (60) days of receipt of change notice. Failure of the State or Authorized Users to object, and continuation of Card acceptance hereunder, will constitute the State's and Authorized Users' acceptance of the new Operating Guide. The State and/or any Authorized User may provide notice to terminate for convenience as provided in Exhibit A, Section 28, if any changes to Operating Guide and/or Association Rules are unacceptable. While it is intended that the Operating Guide will supplement this Exhibit H, if there is any conflict between the terms of this Agreement and the Operating Guide, the terms of this Agreement will govern.

Terms in the Operating Guide which conflict with this Agreement, California laws, and regulations will not apply. Furthermore, the State and Authorized Users shall not be bound by any terms and conditions in the Operating Guide or "click-through" terms and conditions that provide for (i) arbitration, (ii) the indemnification of any party, (iii) the governing law or venue requirements, (iv) the waiver of any applicable statute of limitations period, (v) that incorporate any terms or conditions by reference, or (vi) any term or condition that conflicts with the terms and conditions of this Agreement.

3. AUTHORIZED USER AFFILIATES

Authorized User Affiliates may use the Services so long as they comply with all restrictions, obligations, and requirements imposed on Authorized Users.

4. TERMINATION

a. Right to Terminate:

Contractor has the right to send the Authorized User a notice specifying the default in the following sections (i) - (iv) and providing the Authorized User an opportunity to cure the breach within a period of time no less than thirty (30) days (Cure Period). If the breach is not cured within the Cure Period, then Contractor has the right to terminate the Subsidiary Agreement by notice to the Authorized User, with termination to be effective no less than thirty (30) days following the end of the Cure Period.

- i. Excessive Activity;
 - ii. The acceptance of Card Not Present or Convenience Fee Transactions without inclusion in the Subsidiary Agreement or an amendment to the Subsidiary Agreement;
 - iii. Authorized User has failed to pay Contractor an undisputed amount owed to Contractor under the Subsidiary Agreement (in which case, the Cure Period shall be extended to sixty (60) days);
 - iv. Authorized User failed to perform a material obligation under the Agreement.
- b. Contractor may terminate the Subsidiary Agreement immediately in writing if any of the following occur:
- i. The levy, garnishment or attachment of the DDA, or any of Local Authorized User's property in Contractor's possession;
 - ii. Any change, not approved by Contractor, that constitutes a material change in the types of goods or services Contractor sells or in the methods by which Contractor sells them, or any change that results in Authorized User's violation of Contractor's underwriting policy;
 - iii. Any Payment Network or application of Payment Network Regulations requires Contractor to terminate the Agreement or cease processing Transactions for an Authorized User;
 - iv. Assignment of the Subsidiary Agreement without Contractor's written consent;
 - v. The commencement of a Bankruptcy Proceeding by or against the Authorized User;
 - vi. Any representation by the Authorized User in Exhibit H, Section 12 is false or misleading in any material respect as of the date made or becomes false or misleading in any material respect at any time during the Term of the Subsidiary Agreement.
 - vii. The occurrence of a Data Incident as described in Exhibit H, Section 16(e).

5. ACCOUNT CLOSING

- a. Authorized User acknowledges that closing Authorized User's account with Contractor may take up to thirty (30) calendar days following Contractor's receipt of written notice of account closing.
- b. All obligations of a party regarding Transactions serviced prior to termination will survive termination.

6. USERS; ACCESS; SECURITY OF PASSWORDS AND USER IDs

- a. Authorized User will be responsible for the distribution of all passwords and user IDs issued to any User and for maintaining the confidentiality and security of User's passwords and user IDs. Authorized User will ensure that the access granted to each User to the Services is limited to only the access and information necessary for the User to perform his or her job functions on behalf of Authorized User. Authorized User will ensure that all Users will be trained and qualified to access and use the Services in accordance with the terms of the Agreement and the Operating Guide.

Authorized User is responsible for its Users' compliance with the terms of the Agreement, the Operating Guide, and for all use of any user ID and password other than by Contractor or Contractor's third-party contractors or use by third-parties of user IDs and passwords obtained by such third parties from Contractor or Contractor's third-party contractors.

- b. Authorized User will not, and will ensure that its Users do not:
 - i. Access or use the Services for any purposes other than for its own internal business purposes (except as authorized by Contractor) as disclosed to Contractor in writing;
 - ii. modify, reverse engineer, disassemble or decompile any part of the Services or Elavon Materials;
 - iii. knowingly transmit any data that contains software viruses, time bombs, worms, Trojan horses, spyware, disabling devices, malicious code, or other harmful or deleterious computer code, files or programs to or through the Services; provided, that Authorized User will use commercially reasonable measures (at least industry standard) to screen for the foregoing;
 - iv. interfere with or disrupt the servers or networks connected to or providing the Services;
 - v. remove, change or obliterate the copyright, trademark or other proprietary protection legends or notices that appear in connection with access to and use of the Services or any Elavon Materials; or
 - vi. re-sell, republish, download, frame or transmit the Services or Elavon Materials, including in order to act as a consultant for any third party or, unless otherwise permitted under the Agreement, as a service bureau, outsourcing or application service provider for any third parties, or otherwise allow any third party to use or access the Services.
- c. Authorized User is responsible for changing the user IDs and passwords of its Users if it believes that any of those user IDs or passwords have been stolen or might otherwise be misused and for disabling any User's IDs and passwords promptly upon the termination of employment of such User or the cessation of such User's need to access the Services. Authorized User will promptly notify Contractor if Authorized User believes the Services or Contractor's databases have been compromised by use of a user ID or password associated with the Services.

7. FEES

- a. **Compensation:** Authorized User will compensate Contractor for all fees and other amounts due for the Services and Equipment in accordance with the Contract Exhibits B and E.
- b. **Other Amount Owed:** To the extent not prohibited by law, Authorized User will be responsible for any fines, penalties, assessments, or charges by the Payment Networks (including all fines, penalties, assessments, or charges by the Payment Networks as a result of an Authorized User's violation of Payment Network Regulations), attributable to the Agreement (other than those directly attributable to Contractor's acts or omissions).

- c. **Taxes:** If a Local Authorized User is a tax-exempt entity, Local Authorized User will provide Contractor with an appropriate certificate of tax exemption. If no certificate is provided, the Local Authorized User will pay all taxes and other charges imposed by any governmental authority on the Services and Equipment provided under the Agreement.
- d. **Demand Deposit Account:** Authorized User will establish and maintain one (1) or more DDAs to facilitate payment to Contractor in accordance with Exhibit B, Section 1. Contractor has the right to rely on written instructions submitted by Authorized User requesting changes to the DDA. If Authorized User changes the DDA, the ACH authorizations established under this Subsidiary Agreement will apply to the new account, and Authorized User will provide Contractor such information regarding the new DDA as Contractor deems necessary to effect debits from or credits to the DDA as provided under the Subsidiary Agreement. It may take Contractor up to ten (10) business days after Contractor's receipt of a written notice from Authorized User to reflect in Contractor's system any change to Authorized User's DDA.

8. MODIFICATIONS AND DISCONTINUANCE OF SERVICES

Contractor may modify the Services or particular components of the Services from time to time and will use commercially reasonable efforts to notify Authorized User of any material modifications. If Contractor ceases to make a Service selected by Authorized User generally available to its merchant customers (a "**Discontinued Service**"), Contractor may cease providing such Discontinued Service to Authorized User upon one hundred eighty (180) days' advance written notice. Contractor will negotiate an amendment to the MSA to incorporate the modification or discontinuance of services. If new terms that materially conflict with or supplement existing terms are necessary for operation, Contractor will deliver such new terms to the State to negotiate an amendment to the MSA incorporating said terms.

9. COMPLIANCE WITH LAWS AND PAYMENT NETWORK REGULATIONS

- a. **General:** Contractor and Authorized User will comply with all Laws and Payment Network Regulations applicable to the selected Services.
- b. **Office of Foreign Assets Control Compliance:** Authorized User acknowledges that Contractor is an entity governed by the Laws of the United States of America and as such, cannot provide any products or services to Authorized User or its Customers that contravene the Laws of the United States of America, including the Laws promulgated by OFAC or the United States Department of the Treasury or any successor thereto.
- c. **Export Laws Compliance:** Authorized User will comply with all United States export Laws governing the export and re-export of hardware, software or technology applicable to the Services and Equipment, including United States Department of State International Traffic In Arms Regulations (ITAR), United States Foreign Corrupt Practices Act, United States Commerce Department's Export Administration Regulations, OECD Convention on Combating Bribery of Foreign Public Officials in International Business Transactions, and Laws promulgated by OFAC or the United States Department of the Treasury or any successor thereto. Authorized User will not, and will not request Contractor to, export, directly or indirectly, any technical data pursuant to the Subsidiary Agreement or any product using any such data to any country for which the United States Government or any agency thereof at the time of

export requires an export license or other governmental approval without first obtaining such license or approval.

- d. **Customer Identification:** To help the United States Government fight the funding of terrorism and money laundering activities, federal law requires financial institutions and their affiliates to obtain, verify, and record information that identifies each person who opens an account. Accordingly, Authorized User will provide certain information and identifying documents requested by Contractor to allow Contractor to identify Authorized User.

10. **CONFIDENTIALITY; DATA SECURITY AND USE**

a. **Data Security and Use:**

- i. **Security Programs Compliance:** Contractor and Authorized User will each comply with the applicable requirements of the Security Programs.
- ii. **PCI-DSS Attestation:** Authorized User may review Contractor's current PCI-DSS compliance status on the Payment Network websites as available. Contractor will undergo an annual assessment of its compliance with the Security Programs and, if applicable to the Services provided under the Agreement, the Payment Application Data Security Standards. If Authorized User requires additional information, Contractor will work with Authorized User to provide information as mutually agreed to by both parties.
- iii. **Elavon Data Breach:** If an Elavon Data Breach occurs, then Contractor will comply with all Laws and Payment Network Regulations with respect to such Elavon Data Breach, including providing the required reporting and forensic audits to the Payment Networks, and, unless prohibited by law enforcement or the Payment Networks, will inform Authorized User of such Elavon Data Breach. Contractor will not pass-through or require Authorized User to be liable to Contractor for any fees, fines, penalties, assessments, or charges levied against Contractor by the Payment Networks in connection with an Elavon Data Breach. Unless otherwise required or directed under Law, the Payment Network Regulations, or a Payment Network, Contractor will not (i) contact or inform any Customer of whose data may have been the subject of an Elavon Data Breach of the occurrence of the Elavon Data Breach, or (ii) publicly disclose that information provided by Authorized User to Contractor was the subject in any part of an Elavon Data Breach. If Contractor is legally obligated or the Payment Network Regulations or Payment Networks require Contractor to contact Customers as part of an Elavon Data Breach, Contractor will limit the notices to such Customers to those required by the legal obligation, the Payment Network Regulations, or the Payment Networks, or as approved by Authorized User.
- iv. **Cardholder Data and Transaction Information:**
 - a) Contractor and Authorized User will ensure the security of Cardholder Data and Transaction Information in accordance with all Laws and Payment Network Regulations. Contractor and Authorized User will retain Cardholder Data and Transaction Information for the duration required by Laws and the Payment Network Regulations and thereafter will destroy, in a manner that will render the information unreadable, all such information that is no longer necessary or appropriate to maintain for ordinary business purposes.

- b) Authorized User will not disclose Cardholder Data to any third party, except to a Service Provider, unless required by Laws or the Payment Network Regulations. Authorized User will not retain or store magnetic stripe or CVV2/CVC2/CID data after authorization for any purpose. After authorization, Authorized User will retain only the Customer account number, name, and card expiration date if Authorized User has a reasonable business purpose to retain such information and is otherwise in compliance with the Agreement. If there is a failure or other suspension of Authorized User's business operations, including any Bankruptcy Proceeding, Authorized User will not sell, transfer, or disclose Cardholder Data to third parties, and Authorized User will (a) return this information to Contractor, or (b) provide acceptable proof of destruction of this information to Contractor.
- c) Contractor acknowledges that Authorized User may collect information about Authorized User's Customers as part of an Authorized User sales transaction (e.g., price paid, time, store identifier, SKU information) regardless of the Customer's payment type and not in connection with the Services, and that the Agreement does not restrict Authorized User's retention, use or disclosure of such information even though some of that information may overlap with elements of Transaction Information.
- d) Unless otherwise prohibited by Law, any applicable regulations, Payment Network Regulations, Payment Networks, or PCI DSS, Cardholder Data, Transaction Information, and information regarding Authorized User, its principals, or Affiliates, or that Contractor otherwise obtains in connection with the Agreement may be:
 - 1) Used by Contractor and its Affiliates, third-party contractors, agents, and referral partners (a) to provide the Services and related functions to Authorized User and to respond to any further application for Services, (b) for administrative purposes and to maintain Authorized User's account pursuant to the Agreement, and (c) for Contractor's internal fraud and compliance monitoring;
 - 2) Disclosed and shared by Contractor for reporting purposes to credit rating agencies and to the financial institution where the DDA is maintained;
 - 3) Used to enhance or improve Contractor's products or services generally;
 - 4) Used or disclosed by Contractor in the course of any sale, reorganization or other change to Contractor's business, subject to appropriate confidentiality agreements;
 - 5) Collected, used and disclosed by Contractor as required by Laws (e.g., for tax reporting or in response to a subpoena); and
 - 6) Retained for such periods of time as Contractor requires to perform its obligations and exercise its rights under the Agreement.

Contractor may prepare, use, and share with third parties, aggregated, non-personally identifiable information derived from Transaction Information (so long as such information cannot be identified to Authorized User) that is

combined with similar information from all of or specific segments of Contractor's other customers.

11. PROPRIETARY RIGHTS

As between Contractor and Authorized User, Contractor retains all right, title and interest in and to the Services, Elavon Materials, Updates, and all Intellectual Property Rights in any of the foregoing. Authorized User will not acquire any ownership interest or license rights (except such rights as are expressly stated in the Agreement (including the Operating Guide)) in or to the Services, Elavon Materials, Updates, or Intellectual Property Rights in any of the foregoing.

12. REPRESENTATIONS AND DISCLAIMERS

- a. **Contractor Representations:** Contractor represents to Authorized User the following as of the Effective Date of the Subsidiary Agreement:
 - i. **Organization:** Contractor is a corporation validly existing and duly organized under the laws of the state of Georgia with all authority, qualifications, licenses and registrations necessary to conduct its business, in all jurisdictions where Contractor conducts business, in compliance with all Laws and Payment Network Regulations.
 - ii. **Authority and Power:** Contractor has the power to execute and perform the Agreement. The person executing the Agreement is duly authorized to bind Contractor to all provisions of the Agreement and such person is authorized to execute any document and to take any action on Contractor's behalf which may be required to carry out the Agreement. Further, the signing and performing in accordance with the Agreement will not violate any Laws or conflict with any other agreement to which Contractor is subject.
 - iii. **No Litigation:** There is no action, suit, or proceeding pending or, to Contractor's knowledge, threatened, which if decided adversely would impair Contractor's ability to carry on its business substantially as now conducted or which would materially and adversely affect Contractor's financial condition or operations.
- b. **Authorized User Representations:** Authorized User represents to Contractor the following as of the Effective Date of the Subsidiary Agreement:
 - i. **Organization and Information:** Authorized User is validly existing and duly organized under the laws of the jurisdiction in which it was formed with all authority, qualifications, licenses and registrations necessary to conduct its business, in all jurisdictions where Authorized User conducts business, in compliance with all Laws and Payment Network Regulations. All written information provided in the Subsidiary Agreement, and enrollment forms, as applicable, and in any other document submitted to Contractor is true and complete and properly reflects the business, financial condition and ownership of Authorized User in all material respects.
 - ii. **Authority and Power:** Authorized User has the power to execute and perform the Agreement. The person executing the Subsidiary Agreement is duly authorized to bind Authorized User and each Authorized User Affiliate to all provisions of the Subsidiary Agreement as if each Authorized User Affiliate had

executed the Subsidiary Agreement, and such person is authorized to execute any document and to take any action on behalf of Authorized User that Contractor requires to carry out the Subsidiary Agreement. Further, the signing and performing in accordance with the Subsidiary Agreement will not violate any Laws or conflict with any other agreement to which Authorized User is subject.

- iii. **Business Use:** Authorized User is obtaining and using the Services from Contractor to facilitate lawful business Transactions between Authorized User and its Customers, and using the DDA only for lawful business purposes.
- c. **No Viruses, Etc.:** Contractor will not code or insert into any portion of the Services, and will use commercially reasonable efforts to ensure that no Service will otherwise contain, any computer virus, worm, software lock, drop dead device, Trojan-horse routine, trap door, time bomb or any other malicious codes or instructions that may be used to access, modify, delete, damage or disable the Services or Authorized User's or any third party's software, firmware, computer system or devices.

13. AUTHORIZED USER RESPONSIBILITIES

Authorized User will be responsible for any sale of goods or services resulting in a Transaction processed under the Agreement.

14. THIRD-PARTY VENDORS

a. Authorized User Service Providers and Authorized User Resources

- i. Authorized User may want to use a Service Provider to assist with Transactions. Authorized User will cause each Service Provider and applicable Authorized User Resource to undergo testing, approval and certification by Contractor before Authorized User uses such Service Provider or applicable Authorized User Resource in connection with accessing or using the Services. Authorized User will ensure that each Service Provider or applicable Authorized User Resource maintains certification and compatibility with the Services and that each Service Provider and applicable Authorized User Resource is fully compliant with all Laws, Payment Network Regulations, and Security Programs. Failure of Authorized User's systems, including Authorized User's point-of-sale system or property management system, or any Service Provider systems to maintain certification under this Section or to be compatible and function with the most recent version of the Services will excuse Contractor from all liability and all of its obligations under the Agreement to the extent that Contractor's provision of the Services is impaired by such failure.
- ii. As between Contractor and the Authorized User and to the extent not prohibited by law, the Authorized User is responsible for any violations of the Agreement that result from the acts or omissions of Authorized User's Service Providers and any other person who obtains access to Transaction Information from Authorized User or access to systems under Authorized User's or Service Provider's control (excluding acts or omissions to the extent attributable to Contractor's breach of the Agreement, negligence, or willful misconduct).
- iii. Contractor is not responsible for Service Providers or for the products or services offered by Service Providers, nor is it responsible for any Transaction until

Contractor receives complete data for the Transaction in the format required by Contractor.

- iv. Contractor may terminate a Service Provider's access to or ability to integrate with Contractor's products, services, and systems immediately without prior notice if the termination results from:
 - a) The Service Provider's breach of any Laws or Payment Network Regulations,
 - b) The requirement of any court order or Payment Network or application of Payment Network Regulations to the Services,
 - c) Contractor's reasonable determination that the Service Provider poses an unacceptable security risk to Contractor, Authorized User or any Payment Network, or
 - d) The Service Provider's failure to maintain certification to Contractor or the expiration or termination of any agreement between Contractor and the Service Provider specific to certification to Contractor with respect to the Services.
- b. **Liability for Direct Agreement with Third Party:** Contractor has no responsibility for, and will have no liability to Authorized User or the State in connection with, any hardware, software or services Authorized User receives subject to a direct agreement (including any sale, warranty or end-user license agreement) between Authorized User or the State and a third party, including any Service Provider, even if Contractor collects fees or other amounts from Authorized User with respect to such hardware, software or services (and such third party will not be considered a third party contractor of Contractor).
- c. **Elavon Third-Party Contractors:** Contractor may use third-party contractors in connection with the performance of its obligations under the Agreement. Contractor will be responsible for the performance of its obligations hereunder notwithstanding any use of or delegation of any responsibility to any Contractor third-party contractor. Contractor is responsible for any violations of the Agreement that result from the acts or omissions of its third-party contractors.

15. GENERAL PROVISIONS

- a. **Construction:** The headings used in the Agreement are inserted for convenience only and will not affect the interpretation of any provision. Each provision is to be construed as if the parties drafted it jointly. The word "day" will mean "calendar day", unless specifically stated otherwise.
- b. **Notices:** See Contract Exhibit A, Section 23. Notices to Contractor shall be directed to Elavon at 7300 Chapman Highway, Knoxville, TN 37920, with a copy to Two Concourse Parkway, Suite 800, Atlanta, GA 30328 Attn: General Counsel, or such other addresses as Contractor may designate in writing.
- c. **Bankruptcy:** Authorized User will immediately notify Contractor of any Bankruptcy Proceeding initiated by or against Authorized User. Authorized User will include Contractor on the list and matrix of creditors as filed with the bankruptcy court, whether or not a claim may exist at the time of filing. Authorized User acknowledges that the Agreement constitutes an executory contract to make a loan, or extend other

debt financing or financial accommodations to, or for the benefit of Authorized User, and, as such, cannot be assumed or assigned in the event of Authorized User's bankruptcy.

- d. **Telephone Recording:** For quality assurance and training purposes, Authorized User authorizes Contractor to monitor and record customer service telephone conversations at any time, subject to Laws and applicable disclosures if required.
- e. **Waiver:** None of the failure to exercise, the delay by Contractor to exercise, or the partial exercise of any right under the Agreement or Subsidiary Agreement by Contractor will operate as a waiver or estoppel of such right, nor will such amend the Agreement or Subsidiary Agreement.
- f. **Survival:** All of the obligations of each party that by their nature should survive termination or expiration of the Agreement or Subsidiary Agreement in order to achieve its purposes, will survive and remain binding upon and for the benefit of the parties.
- g. **Counterparts; Electronic Delivery:** The Agreement or Subsidiary Agreements may be signed in one or more counterparts, each of which will constitute an original and all of which, taken together, will constitute one and the same agreement. Signed counterparts may be delivered by fax or electronic means (e.g., .pdf documents via e-mail), and will constitute signed originals.
- h. **Business Continuity:** Contractor will maintain and adhere to business continuity plans that are commercially reasonable within the industry for the Services.

16. PROCESSING SERVICES TERMS

- a. **Authorized User Compliance:** Authorized User will not submit Transactions for processing to Contractor for any businesses, materially different products, or methods of selling other than those stated in the Subsidiary Agreement or Set Up Form without Contractor's prior written consent.
- b. **MATCH™ and Consortium Merchant Negative File:** Authorized User acknowledges that Contractor may be required to report Authorized User's business name and the name of Authorized User's principals to the MATCH™ listing maintained by MasterCard and accessed by Visa, to the Consortium Merchant Negative File maintained by Discover, if applicable, or to any other negative or terminated merchant file of any other Payment Network, if applicable, pursuant to the requirements of the Payment Network Regulations. Authorized User specifically consents to Contractor's fulfillment of the obligations related to the listing of Authorized User and Authorized User information in such databases, and Authorized User waives all claims and liabilities Authorized User may have as a result of such reporting.
- c. **Remedies Cumulative:** The rights conferred upon Contractor in this Section are not intended to be exclusive of each other or of any other rights and remedies of Contractor under the Agreement, at law or in equity. Rather, each and every right of Contractor under the Agreement, at law or in equity, is cumulative and concurrent and in addition to every other right.

d. **Authorized User Information:**

- i. **Authority:** Authorized User authorizes Contractor to make, upon receipt of the Subsidiary Agreement or Set Up Form and from time to time, any business credit or other inquiries it considers reasonably necessary to review the Authorized User or continue to provide Services under the Agreement. Authorized User also authorizes any person or credit reporting agency to compile information to answer those business credit inquiries and to furnish that information to Contractor.
- ii. **Financial Information:** At Contractor's request, Authorized User will provide Contractor audited financial statements prepared by an independent certified public accountant selected by Authorized User, or if Authorized User is audited by a governmental authority, then Authorized User will provide financial statements from such governmental authority. Within one hundred twenty (120) days after the end of each fiscal year or in the case of a governmental entity, when available), Authorized User will furnish Contractor, as requested, a financial statement of profit and loss for the fiscal year and a balance sheet as of the end of the fiscal year, each audited as provided above. Authorized User will also provide Contractor such interim financial statements and other information as Contractor may request from time to time.
- iii. **Providing Information.** Authorized Users must provide to Contractor promptly, upon request, information about finances and operations, provided, however, that, with respect to State Authorized Users, the posting of such financial information at the <http://www.ebudget.ca.gov> website (or any successor website thereto) shall be deemed to fulfill this requirement.

e. **Authorized User Data Incident:**

- i. **Notice and Investigation:** Authorized User acknowledges that Cardholder Data and bank account information it obtains in connection with any Transaction is the property of the financial institution that issued the Payment Device or holds the Customer's account. Authorized User will notify Contractor within 24 hours (and if notice is given orally, it must be confirmed in writing within the same 24-hour period) if Authorized User knows or suspects that Cardholder Data, Customer information, or Transaction Information has been accessed or used without authorization from Authorized User or systems within Authorized User's control (a "**Data Incident**"). The notice must include:
 - a) A detailed written statement about the Data Incident including the contributing circumstances,
 - b) The form, number and range of compromised account information,
 - c) Specific account numbers compromised, and
 - d) Details about the ensuing investigation and Authorized User's security personnel who may be contacted in connection with the Data Incident.

Authorized User will fully cooperate with the Payment Networks and Contractor in the forensic investigation of the Data Incident. Within seventy-two (72) hours of becoming aware of the Data Incident, Authorized User will engage the services of a data security firm acceptable to the Payment

Networks and to Contractor to assess the vulnerability of the compromised data and related systems. Authorized User will provide weekly written status reports to Contractor until the forensic audit is complete. Authorized User will promptly furnish updated lists of potential or known compromised account numbers and other documentation or information that the Payment Networks or Contractor may request. In addition, Authorized User will provide all audit reports to Contractor, and such audits must be completed to the satisfaction of the Payment Networks and of Contractor. Elavon may, in its sole discretion, suspend or terminate Card Processing Services for any Authorized User that experiences a Data Incident.

- ii. **Preservation of Records:** If there is a Data Incident, Authorized User will take immediate steps to preserve all business records, logs and electronic evidence relating to the Data Incident. Authorized User will cooperate with Contractor to rectify, correct and resolve any issues that may result from the Data Incident, including providing Contractor with (and obtaining any necessary waivers for) all relevant information to verify Authorized User's ability to prevent future data incidents in a manner consistent with the Agreement.

Exhibit H.1: Authorized User Set Up Form

Request a copy of the **State of California - Authorized User Set Up Form** (MSA 5-22-70-22-01, Exhibit H.1) by emailing the [Elavon administrator](#).

Exhibit I: Mass Transit Terms (Local Authorized Users Only)

1. MASS TRANSIT SERVICES

Contractor will make available to Local Authorized Users the Mass Transit Services. The Mass Transit Services are part of a “pay as you go” model where the fare for each journey may not be known at the point at which the contactless card is tapped on the transit reader. Regardless of whether the fare is known or not, tap data is accumulated, and the total fare amount is calculated and charged by the Local Authorized User at the end of the travel period. For the purposes of this Exhibit, the definition of Payment Network Rules will include the Visa Contactless Transit Implementation Guide, the Visa Contactless Transit Terminal Requirements and Implementation Guide, and any other applicable transit Payment Network Rules, all as may be amended.

2. CONTRACTOR’S RESPONSIBILITIES

When providing the Mass Transit Services, Contractor’s services will be limited to the following:

- a. Provide authorization, clearing and settlement processing activities for Transactions from the transit Local Authorized User, more specifically, authorization, Local Authorized User funding, Transaction reconciliation, chargeback/fraud dispute processing, interchange billing, and Local Authorized User statement generation/delivery.
- b. Provide Settlement and reporting services as outlined in Exhibit A, Section 5(b) of the Agreement (as amended) and any other applicable obligations of Contractor under the Agreement (other than those outlined in this Exhibit, below).

3. LOCAL AUTHORIZED USER’S RESPONSIBILITIES

When using the Mass Transit Services, Local Authorized User will:

- a. Provide or contract with a Service Provider to provide the Mass Transit merchant requirements (including card readers and equipment, authentication, expiry date check, deny list check, new card check, fare calculation, deny list management, exception handling, customer service, and debt recovery) as required under the Payment Network Rules.

4. PRICING

Local Authorized Users will pay monthly, and in arrears, Mass Transit Service fees identified in the pricing matrix provided in Exhibit E.1: Service Pricing. Contractor will pass through to Local Authorized User any special or discounted interchange assessment rates from Visa and MasterCard specifically negotiated for the State.

5. TERMINATION OF MASS TRANSIT SERVICES

- a. Contractor has the right to send the Local Authorized User a written notice specifying a default of Exhibit I and providing the Local Authorized User an opportunity to cure the breach within a period of time no less than thirty (30) calendar days (“Cure Period”). If the breach is not cured within the Cure Period as stated in the notice, then Contractor has the right to terminate Mass Transit Services or terminate the Local Authorized Users’ Subsidiary Agreement in its entirety, by written notice to the Local Authorized User with termination to be effective not less than thirty (30) days

following the end of the Cure Period. Termination of one Local Authorized User under this Exhibit I will not affect other Local Authorized Users.

- b. In addition, Contractor may cease providing the Mass Transit Services if Contractor's agreement with Cybersource terminates, provided that Contractor: (i) has made all efforts to cure any issues with Cybersource to allow the agreement to continue; (ii) provides the State Contract Administrator and Local Authorized Users with a minimum 60 calendar days written notice of the termination; and (iii) cooperates with the Local Authorized Users to obtain the right for the Local Authorized Users to continue using the services through Cybersource.

**Exhibit J - Addendum - Application of MSA Defense and Indemnification Terms Local
Authorized User**

Elavon, Inc. and the City of Roseville agree that for defense and indemnification provisions contained in the Master Service Agreement, and its exhibits attached and incorporated thereto, ([MSA 5-22-70-22-01](#)) those provisions as running to the State for its benefit shall also run to and apply to the City of Roseville for its benefit.

Exhibit “K”

STATE OF CALIFORNIA MSA #5-22-70-22-01

LOCAL AUTHORIZED USER ADDENDUM

Pursuant to Exhibit A, Section 12(e) of the Agreement, the following terms are added to the Agreement for Local Authorized Users:

1. **DIRECT DEBIT.** If Authorized User selects Direct Debit on the Set Up Form, Contractor will debit its fees and other amounts due for the Services (including chargebacks, adjustments and other amounts owed) under the Agreement from the DDA (or, if applicable, the Reserve Account), once each day or month for the Authorized User's daily or monthly activity, as applicable, or such amount will be deducted from the funds due Authorized User under the Agreement.
2. **RESERVE ACCOUNT.**
 - a. **Establishment.** If a Reserve Event (defined below) occurs, Contractor may establish a **Reserve Account** in the Reserve Amount (defined below) to provide security and a source of funds to pay Contractor for all amounts that Authorized User may owe under this Agreement. Contractor will have sole control of the Reserve Account, and, upon Authorized User's delivery of funds to Contractor for creating credits in the Reserve Account (or Contractor's crediting the Reserve Account with amounts that otherwise would have been paid to Authorized User), Authorized User will have no further property interest in such funds (or rights to payment) other than with respect to a contingent right to payment from Contractor as described in this Agreement upon the termination of the Reserve Account.
 - b. **Reserve Amount.** The "**Reserve Amount**" is equal to the aggregate dollar value of: [(average % credits to processing volume during the same period plus average % Chargebacks to processing volume during the same period) multiplied by four] multiplied by [average monthly processing volume] plus [one month's average fees] plus [number of days delayed delivery multiplied by the average day's processing volume]. For purposes of this calculation, the number of days delayed delivery means the number of days between the date on which the Cardholder's Payment Device is charged and the date the product is shipped to the Cardholder (if the goods are being shipped) or the date the Cardholder receives the product or service. Further, for purposes of this calculation, Contractor will determine the applicable period considering factors such as Authorized User's Transaction volume and seasonality.
 - c. **Reserve Event.** The following will constitute "**Reserve Events**":
 1. Fraudulent activity in any monthly period that equals or exceeds 1% of Authorized User's average monthly volume over the preceding 12-month period;
 2. Chargebacks in any monthly period that equal or exceed 1% of the total dollar value of incoming items to Contractor;
 3. Contractor's reasonable belief that Authorized User, if not approved by Contractor to engage in delayed delivery transactions, has accepted deposits but has not delivered the goods or services;
 4. The commencement of a Bankruptcy Proceeding by or against Authorized User;
 5. Termination of the Agreement for any reason or the occurrence of an event listed in Exhibit H, Section 4 of the Agreement giving Contractor the right to terminate the Agreement;
 6. Nonpayment of amounts owed by Authorized User to Contractor;

7. Fines, assessments, or charges imposed or reasonably expected to be imposed by the Payment Networks;
 8. The occurrence of a material adverse change in Authorized User's financial condition;
 9. Assignment of the Agreement by Authorized User in violation of Exhibit C, Section 3 of the Agreement; and
 10. Revocation, termination, expiration or non-renewal of any guaranty, indemnity agreement, letter of credit or any other Alternate Security (defined below) provided in connection with the Agreement, if applicable.
- d. **Funding.** Contractor may fund the Reserve Account up to the Reserve Amount by any of the following means:
1. Contractor may require Authorized User to transfer funds to Contractor for credit to the Reserve Account;
 2. Contractor may debit the DDA and provide a corresponding credit to the Reserve Account; or
 3. Contractor may credit to the Reserve Account amounts it would otherwise be obligated to credit to Authorized User.
- e. **Use of Funds in Reserve Account.** Contractor may apply credits in the Reserve Account against any outstanding amounts Authorized User owes under the Agreement. Additionally, Contractor may debit the Reserve Account to exercise its rights under the Agreement, including its rights of set-off and recoupment to collect any amounts due to Contractor.
- f. **Termination of Reserve Account.** Credits in the Reserve Account will remain in the Reserve Account, and will be used only to pay amounts due to Contractor, until Authorized User has paid in full all amounts owing or that may be owed under the Agreement, including all Chargebacks, returns, adjustments, fees, fines, penalties, assessments and charges from the Payment Networks, and any other payments due under the Agreement. In no event will Authorized User be entitled to a payment from Contractor in an amount equal to the credits remaining in the Reserve Account before 270 days following the effective date of termination of the Agreement. Notwithstanding the foregoing, if Contractor determines that the Reserve Event that gave rise to the establishment of the Reserve Account has been sufficiently cured, then Contractor may terminate the Reserve Account or release credits from the Reserve Account, or both, prior to the termination of the Agreement.
- g. **Alternate Security.** In lieu of or in addition to establishing and crediting a Reserve Account, Contractor may accept an alternative form of security ("**Alternate Security**") for the purpose of providing a source of funds to pay Contractor for all amounts owed by Authorized User. Contractor may at any time reevaluate Alternate Security it previously accepted and require funding of a Reserve Account so that the amount of credits in a Reserve Account, taken together with amounts represented by any Alternate Security Contractor accepts, equals the Reserve Amount.
3. **RECOUPMENT AND SET-OFF.** Contractor has the right of recoupment and set-off, and may offset any outstanding or uncollected amounts owed to it hereunder from:
- a. Any amounts it would otherwise be obligated to deposit into the DDA;
 - b. The Reserve Account by reducing the credits thereto; and

c. Any other amounts it may owe Authorized User under the Agreement.

4. **TRIBAL GOVERNMENTS.** If Authorized User qualifies as a federally recognized or acknowledged tribal government or an instrumentality thereof, then Authorized User expressly and irrevocably provides a limited waiver of its sovereign immunity (and any defense based thereon) from any suit, action or proceeding or from any legal process (whether through service of notice, attachment prior to judgment, attachment in aid of execution, exercise of contempt powers or otherwise) brought by Contractor relative to disputes between the Contractor and Authorized User under the Agreement in the exclusive jurisdiction of the State or Federal Courts in California. Without prejudice to the limited waiver of sovereign immunity provided in the Agreement, no other waiver of Authorized User's sovereign immunity from suit may be implied from any action or document. Authorized User waives any requirement for Contractor to exhaust tribal court remedies that might otherwise require, as a matter of law or comity, that a dispute be heard first in the tribal court of Authorized User. The waivers and consents described in this Section will inure to the benefit of the parties hereto. The parties will be entitled to all available legal and equitable remedies, including the right to specific performance, money damages and injunctive or declaratory relief. The waivers of sovereign immunity and of the obligation to exhaust tribal court remedies and the consents to jurisdiction contained in this Section are irrevocable and will survive termination of the Agreement. Authorized User covenants that it has obtained and will maintain in effect all authorizations and consents necessary to grant the waiver of sovereign immunity and the obligations to exhaust tribal court remedies contained herein.
5. **PAYMENT NAVIGATOR SERVICES.** If Authorized User is using Payment Navigator Services, then Authorized User agrees that it will be responsible for all losses in connection with claims arising from alleged infringement of patent, copyright or other intellectual property right, or misappropriation of trade secrets, of any third party by Payment Navigator as modified or altered by Authorized User, its partners, employees, agents or contractors, or the use of any data submitted by Authorized User.

COUNCIL COMMUNICATION

CC #: 2597
File #: 0800-02

Title: U.S. Bureau of Reclamation Section 215 Water Contract - Approval of Contract and Letter of Agreement
Contact: Sean Bigley 916-774-5513 sbigley@roseville.ca.us

Meeting Date: 3/15/2023
Item #: 6.11.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council adopt a resolution approving the Section 215 Water Contract and the Letter of Agreement with the United States Bureau of Reclamation and authorizing the City Manager to execute them on behalf of the City of Roseville.

Additionally, staff requests the City Council authorize the City Manager or his designee to approve and execute all necessary documents to effectuate the purpose of this Section 215 Water Contract and/or Letter of Agreement.

BACKGROUND

On February 1, 2023, the U.S. Bureau of Reclamation staff contacted city staff to offer the City of Roseville an opportunity to enter into a Section 215 Water Contract with the U.S. Bureau of Reclamation to allow for up to 4,200 acre-feet of non-storable flood control water from Folsom Reservoir to be scheduled by the City of Roseville for purposes of groundwater recharge using the City's Aquifer Storage and Recovery (ASR) Wells. The proposed Section 215 Water Contract will allow for recharge activity from March 1, 2023, through February 29, 2024. Staff received the proposed Section 215 Water Contract from Reclamation on February 21, 2023.

Section 215 refers to a section in the Reclamation Reform Act of 1982 (Public Law 97-293) which defines temporary water supplies that are unusually large and not storable for project purposes and, among other measures, allows non-storable water to be used for beneficial purposes such as groundwater recharge.

Since 2019, the City of Roseville has recharged 2,489 acre-feet of non-storable flood water from Folsom Reservoir into the groundwater basin with approval from Reclamation under authority provided under Article 3(f) of the City's Water Repayment Contract with Reclamation. In context, 2,489 acre-feet is enough water to meet the needs of nearly 5,000 households for an entire year.

Executing a Section 215 Water Contract with Reclamation will also save the City of Roseville money. Assuming a 4,200 acre-foot water purchase using the Article 3(f) process, the cost per acre-foot is \$57.38, with a total cost in this scenario being \$240,996. Section 215 water is now priced at \$40.94 per acre foot with a total cost in this scenario of \$171,948. The cost difference is \$69,048, making Section 215 water a more affordable option.

If hydrology in the coming year produces flood control releases, the likely recharge periods will be May 2023-June 2023 and December 2023-February 2024.

Based on the cost savings and the advantage of having approvals to recharge in place early in the coming Federal Water Year, staff recommends that the City Council authorize the City Manager to execute the proposed Section 215 Water Contract with the U.S. Bureau of Reclamation.

Additionally, staff recommends that the City Council authorize the City Manager to execute an accompanying Letter of Agreement (LOA) between the City and Reclamation to allow \$5,000 to be placed as a deposit to reimburse specified future work performed by Reclamation for the Section 215 Water Contract from March 1, 2023, through February 29, 2028.

The reason why the dates in the LOA extends beyond the term of the Section 215 Water Contract term is that Reclamation's Central California Area Office only has delegated authority from the Reclamation Commissioner to enter into one-year term Section 215 Water Contracts; however, Reclamation has signaled its intent to approach the City annually to enter into future Section 215 Water Contracts through the term of the National Environmental Policy Act (NEPA) coverage.

FISCAL IMPACT

Section 215 water is currently priced at \$40.94 per acre foot. With up to 4,200 acre-feet of water available to schedule, the maximum cost to the City of Roseville is \$171,948 over two fiscal years (FY2022-23 and FY2023-24).

For FY2022-23, it is estimated that 1,710 acre-feet of water could be scheduled at a total cost of \$70,007.40. This amount is currently budgeted in the FY2022-23 Purchased Water budget line item of the Water Treatment Plant Section budget, which is funded by the Water Operations Fund with revenue from water utility sales.

Additionally, for FY2022-23, the \$5,000 LOA deposit will be paid from the FY2022-23 Purchased Water budget line item of the Water Treatment Plant Section budget.

For FY2023-24, it is estimated that 2,490 acre-feet of water could be scheduled at a total cost of \$101,940.60. Staff will include this amount in the proposed FY2023-24 budget in the Water Operations Fund. If City Council decides not to approve the recommended FY2023-24 Purchased Water budget line item amount, then staff will not proceed with scheduling Section 215 water with Reclamation in December 2023 - February 2024 timeframe.

ENVIRONMENTAL REVIEW

Project activities associated with the proposed contract were previously evaluated in the City of Roseville Aquifer Storage and Recovery Program EIR (certified March 29, 2014) and the

Supplement to the Aquifer Storage and Recovery Program EIR (certified December 16, 2020) (SCH #2009072018). Because the project is consistent with the Aquifer Storage and Recovery Program Final EIR and Supplement to the Aquifer Storage and Recovery Program Final EIR, no new effects would be expected to occur and all applicable mitigation measures from the Aquifer Storage and Recovery Program Final EIR will be implemented during implementation of the project. As such, no additional environmental documentation is required.

Additionally, the U.S. Bureau of Reclamation has conducted the appropriate analysis under the National Environmental Policy Act (NEPA) for this proposed Section 215 Water Contract and its findings have been publicly posted.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal D - Enhance economic vitality
Goal E - Deliver exceptional city services
Goal F - Invest in well-planned infrastructure and growth

Respectfully Submitted,

Sean Bigley, Environmental Utilities Assistant Director

Richard Plecker, Environmental Utilities Director

Dominick Casey, City Manager

Description

Resolution 23-099

Section 215 Contract

Section 215 LOA

RESOLUTION NO. 23-099

APPROVING A SECTION 215 WATER CONTRACT AND LETTER OF AGREEMENT, BY AND BETWEEN THE CITY OF ROSEVILLE AND THE UNITED STATES BUREAU OF RECLAMATION, AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE

WHEREAS, Section 215 refers to a section in the Reclamation Reform Act of 1982 that allows non-storable water to be used for beneficial purposes such as groundwater recharge; and

WHEREAS, on February 1, 2023, the U.S. Bureau of Reclamation offered the City of Roseville an opportunity to enter into a Section 215 Water Contract with the U.S. Bureau of Reclamation to allow for up to 4,200 acre-feet of non-storable flood control water from Folsom Reservoir to be scheduled by the City of Roseville for purposes of groundwater recharge using the City's Aquifer Storage and Recovery (ASR) Wells; and

WHEREAS, executing a Section 215 Water Contract with the U.S. Bureau of Reclamation will save the City money on the cost of per acre-foot of water purchased; and

WHEREAS, an accompanying Letter of Agreement (LOA) is needed to allow \$5,000 to be placed as a deposit to reimburse specified future work performed by the U.S. Bureau of Reclamation for the Section 215 Water Contract from March 1, 2023 through February 29, 2028; and

WHEREAS, the Section 215 Water Contract Agreement and accompanying LOA, by and between the City of Roseville and the United States Bureau of Reclamation have been reviewed by the City Council; and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that the Section 215 Water Contract and the LOA are hereby approved and that the City Manager is authorized to execute them on behalf of the City of Roseville.

BE IT FURTHER RESOLVED that the City Manager or his designee is authorized to approve and execute all necessary documents to effectuate the purpose of this Section 215 Water Contract and/or LOA.

PASSED AND ADOPTED by the Council of the City of Roseville this ____ day of _____, 2023, by the following vote on roll call:

CONTRACT FOR TEMPORARY WATER SERVICE
BETWEEN THE UNITED STATES
AND
CITY OF ROSEVILLE

THIS CONTRACT, made this ____ day of March, 2023, pursuant to the Act of June 17, 1902 (32 Stat. 388), and acts amendatory thereof or supplementary thereto including the Acts of August 26, 1937 (50 Stat. 844), as amended and supplemented, August 4, 1939 (53 Stat. 1187), as amended and supplemented, October 12, 1982 (96 Stat. 1263), and October 30, 1992 (106 Stat. 4600), all collectively hereinafter referred to as the Federal Reclamation law, between the UNITED STATES OF AMERICA, hereinafter referred to as the United States, and CITY OF ROSEVILLE, hereinafter referred to as the Contractor;

WITNESSETH, That:

EXPLANATORY RECITALS

(a) The United States has constructed and is operating the Central Valley Project, California (Project) for the purposes, among others, of furnishing water for irrigation, municipal, domestic, mitigation, protection, and restoration of fish and wildlife, and other beneficial uses; and

(b) There may be periods of time during the Year in which the Contracting Officer determines that Temporary Water may be made available from the American River Division Project facilities; and

(c) Pursuant to Section 215 of the Act of October 12, 1982 (96 Stat. 1263), neither the ownership limitations of this Act nor the ownership limitations of any other provision of Federal Reclamation law shall apply to lands which receive Temporary Water pursuant to this Contract; and

(d) The Contractor is willing to contract with the United States pursuant to terms and conditions of this Contract to obtain a supply of Temporary Water from said Project facilities; and

(e) A Categorical Exclusion for this Contract was signed on _____, in accordance with the National Environmental Policy Act;

NOW, THEREFORE, in consideration of the mutual and dependent covenants herein contained, the parties mutually agree as follows:

DEFINITIONS

1. When used herein, unless otherwise distinctly expressed or manifestly incompatible with the intent hereof, the term:

(a) “Calendar Year” shall mean the period January 1 through December 31, both dates inclusive;

(b) “Charges” shall mean the payments required by Federal Reclamation law in addition to the Rates specified in this Contract, as determined annually by the Contracting Officer pursuant to this Contract;

(c) “Contracting Officer” shall mean the Secretary of the Interior’s duly authorized representative acting pursuant to this Contract or applicable Reclamation law or regulation;

(d) “Contractor’s Service Area” shall mean the area to which the Contractor is permitted to provide Temporary Water under this Contract as depicted in Exhibit A attached hereto, which may be modified upon the mutual written agreement of the parties hereto without amendment of this Contract;

(e) “Irrigation Water” shall mean Temporary Water used to irrigate land primarily for the production of commercial agricultural crops or livestock, and domestic and other uses that are incidental thereto;

(f) “Municipal and Industrial Water” or “M&I Water” shall mean Temporary Water used for municipal, industrial, and miscellaneous other purposes not falling under the definition of “Irrigation Water” or within another category of water use under an applicable Federal authority;

(g) “Operation and Maintenance” or “O&M” shall mean normal and reasonable care, control, operation, repair, replacement (other than capital replacement), and maintenance of Project facilities;

(h) Omitted;

(i) “Project” shall mean the Central Valley Project owned by the United States and managed by the Department of the Interior, Bureau of Reclamation;

(j) “Rates” shall mean the payments determined annually by the Contracting Officer in accordance with the then-current applicable water ratesetting policies for the Project;

(k) “Secretary” shall mean the Secretary of the Interior, a duly appointed successor, or an authorized representative acting pursuant to any authority of the Secretary and through any agency of the United States Department of the Interior;

(l) “Temporary Water” shall mean a supply of water made, not to exceed one year, possible during the Year as a result of an unusually large water supply not otherwise storable for Project purposes, or infrequent and otherwise unmanaged flood flows of short duration;

(m) “Temporary Water Delivered” shall mean Temporary Water made available for use by the Contractor at the point(s) of delivery approved by the Contracting Officer, shown on Exhibit A, which may be changed by mutual agreement of the parties hereto without requiring amendment to this Contract;

(n) “Temporary Water Scheduled” shall mean Temporary Water to be made available to the Contractor for which times and quantities for delivery have been established by the Contractor and Contracting Officer pursuant to Article 4 of this Contract; and

(o) “Year” shall mean the period from and including March 1 of the Calendar Year through the last day of February of the following Calendar Year.

TERM OF CONTRACT

2. This Contract shall become effective on the date first hereinabove written and shall remain in effect through February 29, 2024. This Contract shall not be extended or renewed and no provision of this Contract shall be construed in any way as a basis for the Contractor to establish any priority or right to a Project water supply or to obligate the United States to enter into any other contract.

WATER TO BE MADE AVAILABLE TO THE CONTRACTOR

3. (a) It is understood and agreed that because of its uncertainty as to availability and time of occurrence, Temporary Water will be furnished only if, as, and when it can be made available, as determined by the Contracting Officer. The Contracting Officer shall notify the Contractor of the time period(s) during which Temporary Water can be made available under this Contract. Following such notice by the Contracting Officer, consistent with all applicable State water rights, permits, and licenses; Federal law; and subject to the terms and conditions hereinafter stated, the United States shall make available for delivery to the Contractor within the

Contractor's Service Area a maximum of 4,200 acre-feet of Temporary Water for M&I purposes;
Provided, that the maximum quantity of Temporary Water provided herein may be increased
upon the written mutual agreement of the Parties and without requiring amendment to this
Contract. Temporary Water Delivered to the Contractor in accordance with this subdivision shall
be scheduled and paid for pursuant to the provisions of Articles 4 and 7 of this Contract.

(b) Deliveries of Temporary Water shall be terminated when the Contracting
Officer determines that Temporary Water is no longer available.

(c) The Contracting Officer's notification of the availability and subsequent
non-availability of Temporary Water may be made either orally or in writing on 24 hours' or less
notice.

(d) Delivery and use of the Temporary Water shall be in accordance with all
applicable Federal, State and local laws, rules and regulations and Reclamation policy.

(e) The Contractor shall make reasonable and beneficial use of all Temporary
Water furnished pursuant to this Contract.

TIME FOR DELIVERY OF WATER

4. The Contractor shall submit to the Contracting Officer a written schedule,
satisfactory to the Contracting Officer, showing the monthly quantity and the time for delivery of
the Temporary Water to be made available pursuant to subdivision (a) of Article 3 of this
Contract: Provided, That the Contractor shall not schedule Temporary Water in excess of the
quantity that the Contractor intends to put to beneficial use within the Contractor's Service Area,
unless approved pursuant to subdivision (c) of Article 5 of this Contract. Said delivery schedule
and any revisions thereof shall be submitted at such times as determined by the Contracting
Officer and shall be subject to the approval of the Contracting Officer.

POINTS OF DELIVERY – RESPONSIBILITY
FOR DISTRIBUTION OF WATER

5. (a) All Temporary Water Delivered to the Contractor pursuant to this Contract shall be measured and recorded with equipment furnished, installed, operated, and maintained by the Contracting Officer, unless undertaken by the Contractor with the consent of the Contracting Officer, at the point or points of delivery established pursuant to subdivision (a) of this Article.

Upon the request of either party to this Contract, the Contracting Officer shall investigate the accuracy of such measurements and shall take any necessary steps to adjust any errors appearing therein. For any period of time when accurate measurements have not been made, the Contracting Officer shall make a final determination of the quantity delivered for that period of time. The Contracting Officer shall consult with Contractor prior to making said determination.

(b) Temporary Water Delivered pursuant to this Contract shall only be used by the Contractor on lands situated within the Contractor's Service Area depicted on Exhibit A; Provided, That Temporary Water Delivered pursuant to this Contract shall not be transferred, exchanged, or banked for other water supplies without the written approval of the Contracting Officer prior to the transfer, exchange, or banking and no transfers, exchanges or banking shall be approved absent all appropriate environmental documentation, including but not limited to documents prepared pursuant to the National Environmental Policy Act and the Endangered Species Act.

(c) The Contractor shall be responsible for the control, carriage, handling, use, disposal, or distribution of Temporary Water Delivered to the Contractor pursuant to this Contract beyond the point(s) of delivery specified in subdivision (a) of this Article. The

Contractor agrees to indemnify the United States for, and hold the United States and all of its representatives harmless from, all damages resulting from suits, actions, or claims of any character brought on account of any injury to any person or property arising out of any act, omission, neglect, or misconduct in the manner or method of performing any duties of the United States required under this Contract, regardless of who performs those duties. The Contractor does not agree to indemnify the United States for any damages arising from intentional torts or malicious actions committed by employees of the United States.

WATER MEASUREMENT WITHIN CONTRACTOR'S SERVICE AREA

6. (a) The Contractor shall ensure that all Temporary Water Delivered for municipal and industrial (M&I) purposes is measured at each M&I service. The water measuring devices or water measuring methods of comparable effectiveness must be acceptable to the Contracting Officer. The Contractor shall be responsible for installing, operating, and maintaining and repairing all such measuring devices and implementing all such water measuring methods at no cost to the United States. The Contractor shall use the information obtained from such water measuring devices or water measuring methods to ensure its proper management of the Temporary Water and to bill water users for deliveries of such water by the Contractor. Nothing herein contained, however, shall preclude the Contractor from establishing and collecting any charges, assessments, or other revenues authorized by California law.

(b) The Contractor shall inform the Contracting on or before the 20th calendar day of each month of the quantity of M&I Water taken during the preceding month.

PAYMENTS AND ADJUSTMENTS

7. (a) At the time the Contractor submits a delivery schedule, or any revision thereof, pursuant to Article 4 of this Contract, the Contractor shall make an advance

payment to the United States equal to the total amount payable pursuant to the applicable Rates set forth in Exhibit B, for the quantity of Temporary Water Scheduled. Temporary Water shall not be delivered to the Contractor prior to receipt of such advance payment. Temporary Water Scheduled by and Delivered to the Contractor by the United States but subsequently not used by the Contractor shall be considered as having been accepted by the Contractor and no refund shall be made by the United States to the Contractor for such unused Temporary Water: Provided, That the Contractor is not required to initially schedule the maximum amount of water specified in subdivision (a) of Article 3 of this Contract.

(b) In addition to payment of the Rates in subdivision (b) of this Article, the Contractor shall pay all Charges for Temporary Water Delivered before the end of the month following the month of delivery at the charge set forth in Exhibit B. On or before September 15, the Contracting Officer shall notify the Contractor in writing of the Charges to be in effect during the period October 1 of the current Calendar Year, through September 30, of the following Calendar Year, and such Charges shall replace the Charges in Exhibit B. All Charges due shall be based on the quantities of M&I Water shown in the United States' Monthly Water Statement (MWS) for the subject month. The MWS shall be regarded by the Contractor as a bill for the payment of appropriate Charges. Any monthly adjustment for overpayment or underpayment of Charges shall be accomplished through the adjustment of Charges due to the United States in the next month.

(c) Within 60 days of the expiration of this Contract, any payment made by the Contractor in excess of the total amount due to the United States pursuant to this Contract shall, at the option of the Contractor, be refunded by the United States to the Contractor or credited against other obligations due to the United States by the Contractor. With respect to

overpayment, such refund or credit shall constitute the sole remedy of the Contractor or anyone having, or claiming to have by or through the Contractor, the right to the use of any of the Temporary Water supply provided for herein.

(d) Payments to be made by the Contractor to the United States under this Contract may be paid from any revenues available to the Contractor.

RETURN FLOWS

8. The United States reserves the right to all seepage and return flow water derived from Temporary Water Delivered to the Contractor hereunder which escapes or is discharged beyond the Contractor's Service Area: Provided, That this shall not be construed as claiming for the United States any right to seepage or return flow being put to reasonable and beneficial use pursuant to this Contract within the Contractor's Service Area by the Contractor or those claiming by, through, or under the Contractor.

9. Omitted.

OPINIONS AND DETERMINATIONS

10. (a) Where the terms of this Contract provide for actions to be based upon the opinion or determination of either party to this Contract, said terms shall not be construed as permitting such action to be predicated upon arbitrary, capricious, or unreasonable opinions or determinations. Both parties, notwithstanding any other provisions of this Contract, expressly reserve the right to seek relief from and appropriate adjustment for any such arbitrary, capricious, or unreasonable opinion or determination. Each opinion or determination by either party shall be provided in a timely manner. Nothing in subdivision (a) of this Article is intended to or shall affect or alter the standard of judicial review applicable under Federal law to any opinion or

determination implementing a specific provision of Federal law embodied in statute or regulation.

(b) The Contracting Officer shall have the right to make determinations necessary to administer this Contract that are consistent with the provisions of this Contract, the laws of the United States and the State of California, and the rules and regulations promulgated by the Secretary. Such determinations shall be made in consultation with the Contractor to the extent reasonably practicable.

CHARGES FOR DELINQUENT PAYMENTS

11. (a) The Contractor shall be subject to interest, administrative, and penalty charges on delinquent payments. If a payment is not received by the due date, the Contractor shall pay an interest charge on the delinquent payment for each day the payment is delinquent beyond the due date. If a payment becomes 60 days delinquent, the Contractor shall pay, in addition to the interest charge, an administrative charge to cover additional costs of billing and processing the delinquent payment. If a payment is delinquent 90 days or more, the Contractor shall pay, in addition to the interest and administrative charges, a penalty charge for each day the payment is delinquent beyond the due date, based on the remaining balance of the payment due at the rate of 6 percent per year. The Contractor shall also pay any fees incurred for debt collection services associated with a delinquent payment.

(b) The interest rate charged shall be the greater of either the rate prescribed quarterly in the Federal Register by the Department of the Treasury for application to overdue payments, or the interest rate of 0.5 percent per month. The interest rate charged will be determined as of the due date and remain fixed for the duration of the delinquent period.

(c) When a partial payment on a delinquent account is received, the amount received shall be applied first to the penalty charges, second to the administrative charges, third to the accrued interest, and finally to the overdue payment.

GENERAL OBLIGATION – BENEFITS CONDITIONED UPON PAYMENT

12. (a) The obligation of the Contractor to pay the United States as provided in this contract is a general obligation of the Contractor notwithstanding the manner in which the obligation may be distributed among the Contractor's water users and notwithstanding the default of individual water users in their obligation to the Contractor.

(b) The payment of charges becoming due pursuant to this contract is a condition precedent to receiving benefits under this contract. The United States shall not make water available to the Contractor through American River Division Project facilities during any period in which the Contractor is in arrears in the advance payment of water rates due the United.

The Contractor shall not deliver water under the terms and conditions of this contract for lands or parties that are in arrears in the advance payment of water rates as levied or established by the Contractor.

NOTICES

13. Any notice, demand, or request authorized or required by this Contract shall be deemed to have been given, on behalf of the Contractor, when mailed, postage prepaid, or delivered to the Area Manager, Central California Area Office, 7794 Folsom Dam Road, Folsom, CA. 95630-1799, and on behalf of the United States, when mailed, postage prepaid, or delivered to the City Manager of the City of Roseville, 2005 Hilltop Circle, Roseville, California 95747. The designation of the addressee or the address may be changed by notice given in the same manner as provided in this Article for other notices.

CONTINGENT UPON APPROPRIATION OR ALLOTMENT OF FUNDS

14. The expenditure or advance of any money or the performance of any obligation of the United States under this contract shall be contingent upon appropriation or allotment of funds. Absence of appropriation or allotment of funds shall not relieve the Contractor from any obligations under this contract. No liability shall accrue to the United States in case funds are not appropriated or allotted.

OFFICIALS NOT TO BENEFIT

15. No Member of or Delegate to the Congress, Resident Commissioner, or official of the Contractor shall benefit from this contract other than as a water user or landowner in the same manner as other water users or landowners.

ASSIGNMENT LIMITED – SUCCESSORS AND ASSIGNS OBLIGATED

16. The provisions of this contract shall apply to and bind the successors and assigns of the parties hereto, but no assignment or transfer of this contract or any right or interest therein by either party shall be valid until approved in writing by the other party.

BOOKS, RECORDS, AND REPORTS

17. (a) The Contractor shall establish and maintain accounts and other books and records pertaining to administration of the terms and conditions of this contract, including the Contractor's financial transactions; water supply data; project operation, maintenance, and replacement logs; project land and rights-of-way use agreements; the water users' land-use (crop census), land-ownership, land-leasing, and water-use data; and other matters that the Contracting Officer may require. Reports shall be furnished to the Contracting Officer in such form and on such date or dates as the Contracting Officer may require. Subject to applicable Federal laws and regulations, each party to this contract shall have the right during office hours to examine and make copies of the other party's books and records relating to matters covered by this contract.

(b) Nothing in this Article 15 shall be construed to limit or constrain the ability of the Contracting Officer to conduct contract compliance reviews of this Contract in accordance with Reclamation Manual Directives and Standards PEC 05-08, last revised September 29, 2014, as may be further revised, amended, modified, or superseded.

PROTECTION OF WATER AND AIR QUALITY

18. (a) Omitted.

(b) The United States does not warrant the quality of the water delivered to the Contractor and is under no obligation to furnish or construct water treatment facilities to maintain or improve the quality of water delivered to the Contractor.

(c) The Contractor will comply with all applicable water and air pollution laws and regulations of the United States and the State of California; and will obtain all required permits or licenses from the appropriate Federal, State, or local authorities necessary for the delivery of water by the Contractor; and will be responsible for compliance with all Federal[, State, and local] water quality standards applicable to surface and subsurface drainage and/or discharges generated through the use of Federal or Contractor facilities or project water provided by the Contractor within its Project Water Service Area.

(d) This article will not affect or alter any legal obligations of the Secretary to provide drainage or other discharge services.

EQUAL EMPLOYMENT OPPORTUNITY

(Federal Construction)

19. The following language is required by Executive Order No. 11246 of September 24, 1965, in all government contracts unless and until it is superseded or amended.

During the performance of this contract, the Contractor agrees as follows:

(a) The Contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, sexual orientation, gender identity, or national origin. The Contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment, without regard to their race, color, religion, sex, sexual orientation, gender identity, or national origin. Such action shall include, but not be limited to the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The Contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the Contracting Officer setting forth the provisions of this nondiscrimination clause.

(b) The Contractor will, in all solicitations or advancements for employees placed by

or on behalf of the Contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, or national origin.

(c) The contractor will not discharge or in any other manner discriminate against any employee or applicant for employment because such employee or applicant has inquired about, discussed, or disclosed the compensation of the employee or applicant or another employee or applicant. This provision shall not apply to instances in which an employee who has access to the compensation information of other employees or applicants as a part of such employee's essential job functions discloses the compensation of such other employees or applicants to individuals who do not otherwise have access to such information, unless such disclosure is in response to a formal complaint or charge, in furtherance of an investigation, proceeding, hearing, or action, including an investigation conducted by the employer, or is consistent with the contractor's legal duty to furnish information.

(d) The Contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice, to be provided by the agency Contracting Officer, advising the labor union or workers' representative of the Contractor's commitments under section 202 of Executive Order No. 11246 of September 24, 1965, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(e) The Contractor will comply with all provisions of Executive Order No. 11246 of Sept. 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(f) The Contractor will furnish all information and reports required by Executive Order No. 11246 of September 24, 1965, and by the rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the Contracting Agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(g) In the event of the Contractor's noncompliance with the nondiscrimination clauses of this contract or with any of such rules, regulations, or orders, this contract may be canceled, terminated or suspended in whole or in part and the Contractor may be declared ineligible for further Government contracts in accordance with procedures authorized in Executive Order No. 11246 of Sept. 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order No. 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

(h) The Contractor will include the provisions of paragraphs (1) through (8) in every subcontract or purchase order unless exempted by the rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order No. 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The Contractor will take such action with respect to any subcontract or purchase order as may be directed by the Secretary of Labor as a means of enforcing such provisions, including sanctions for noncompliance: *Provided, however*, that in the event the Contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction, the

Contractor may request the United States to enter into such litigation to protect the interests of the United States.

COMPLIANCE WITH CIVIL RIGHTS LAWS AND REGULATIONS

20. (a) The Contractor shall comply with Title VI of the Civil Rights Act of 1964 (Pub. L. 88-352; 42 U.S.C. § 2000d), the Rehabilitation Act of 1973 (Pub. L. 93-112, Title V, as amended; 29 U.S.C. § 791, et seq.), the Age Discrimination Act of 1975 (Pub. L. 94-135, Title III; 42 U.S.C. § 6101, et seq.), [Title II of the Americans with Disabilities Act of 1990 (Pub. L. 101-336; 42 U.S.C. § 12131, et seq.), and any other applicable civil rights laws, and with the applicable implementing regulations and any guidelines imposed by the U.S. Department of the Interior and/or Bureau of Reclamation.

(b) These statutes prohibit any person in the United States from being excluded from participation in, being denied the benefits of, or being otherwise subjected to discrimination under any program or activity receiving financial assistance from the Bureau of Reclamation on the grounds of race, color, national origin, disability, or age. By executing this contract, the Contractor agrees to immediately take any measures necessary to implement this obligation, including permitting officials of the United States to inspect premises, programs, and documents.

(c) The Contractor makes this agreement in consideration of and for the purpose of obtaining any and all Federal grants, loans, contracts, property discounts, or other Federal financial assistance extended after the date hereof to the Contractor by the Bureau of Reclamation, including installment payments after such date on account of arrangements for Federal financial assistance which were approved before such date. The Contractor recognizes and agrees that such Federal assistance will be extended in reliance on the representations and agreements made in this article and that the United States reserves the right to seek judicial enforcement thereof.

(d) Complaints of discrimination against the Contractor shall be investigated by the Contracting Officer's Office of Civil Rights.

CERTIFICATION OF NONSEGREGATED FACILITIES

21. The Contractor hereby certifies that it does not maintain or provide for its employees any segregated facilities at any of its establishments and that it does not permit its employees to perform their services at any location under its control where segregated facilities are maintained. It certifies further that it will not maintain or provide for its employees any segregated facilities at any of its establishments and that it will not permit its employees to perform their services at any location under its control where segregated facilities are maintained. The Contractor agrees that a breach of this certification is a violation of the Equal Employment Opportunity clause in this contract. As used in this certification, the term "segregated facilities" means any waiting rooms, work areas, rest rooms and wash rooms, restaurants and other eating areas, time clocks, locker rooms and other storage or dressing areas,

parking lots, drinking fountains, recreation or entertainment areas, transportation, and housing facilities provided for employees which are segregated by explicit directive or are in fact segregated on the basis of race, creed, color, or national origin, because of habit, local custom, disability, or otherwise. The Contractor further agrees that (except where it has obtained identical certifications from proposed subcontractors for specific time periods) it will obtain identical certifications from proposed subcontractors prior to the award of subcontracts exceeding \$10,000 which are not exempt from the provisions of the Equal Employment Opportunity clause; that it will retain such certifications in its files; and that it will forward the following notice to such proposed subcontractors (except where the proposed subcontractors have submitted identical certifications for specific time periods):

NOTICE TO PROSPECTIVE SUBCONTRACTORS OF REQUIREMENT FOR
CERTIFICATIONS OF NONSEGREGATED FACILITIES

A Certification of Nonsegregated Facilities must be submitted prior to the award of a subcontract exceeding \$10,000 which is not exempt from the provisions of the Equal Employment Opportunity clause. The certification may be submitted either for each subcontract or for all subcontracts during a period (i.e., quarterly, semiannually, or annually). Note: The penalty for making false statements in offers is prescribed in 18 U.S.C. § 1001.

MEDIUM FOR TRANSMITTING PAYMENTS

22. (a) All payments from the Contractor to the United States under this contract shall be by the medium requested by the United States on or before the date payment is due. The required method of payment may include checks, wire transfers, or other types of payment specified by the United States.

(b) Upon execution of the contract, the Contractor shall furnish the Contracting Officer with the Contractor's taxpayer's identification number (TIN). The purpose for requiring the Contractor's TIN is for collecting and reporting any delinquent amounts arising out of the Contractor's relationship with the United States.

CONTRACT DRAFTING CONSIDERATIONS

23. This Contract has been negotiated and reviewed by the parties hereto, each of whom is sophisticated in the matters to which this Contract pertains. The double-spaced articles of this Contract have been drafted, negotiated, and reviewed by the parties, and no one party shall be considered to have drafted the stated articles. Single-spaced articles are standard articles pursuant to Reclamation policy.

422 IN WITNESS WHEREOF, the parties hereto have executed this Contract as of
423 the day and year first above written.

Subject: Letter of Agreement (LOA) Establishing a Reimbursable Account for the Temporary Water Service from the American River Division of the Central Valley Project for the Five-year period of March 1, 2023 – February 29, 2028.

Dear Mr. Casey:

The Bureau of Reclamation received the City of Roseville (City) February 1, 2023, e-mail requesting a Temporary Water Service Contract for the period March 1, 2023 – February 29, 2028. The purpose of this LOA is to obtain agreement from the City to pay, in advance, the costs incurred by Reclamation, which may include, but are not limited to, preparation of draft temporary water service contract; the development and/or review of all environmental documentation necessary for compliance with National Environmental Policy Act and the Endangered Species Act; meetings, consultations and research, other activities required to ensure compliance with state and Federal law, and administrative and overhead costs expended by Reclamation; and preparation of Contracts for Temporary Water Service from the American River Division of the Central Valley Project for the five year period of 2023 – 2028.

By counter signing this LOA, the City agrees to the following conditions:

1. The City shall submit to Reclamation an initial advance deposit of \$5,000 to be deposited into an account established for this action. Reclamation agrees the total cost to complete this process shall not exceed \$5,000 absent further written approval by the City.
2. Upon written request, Reclamation shall provide the City with a quarterly statement of account balance and a summary of expenses incurred by Reclamation in connection with this action. In the event Reclamation foresees expenditures in excess of the account balance, Reclamation shall notify the City of the need for additional deposits in excess of the foregoing amount and shall provide the City with a detailed itemization

INTERIOR REGION 10 • CALIFORNIA-GREAT BASIN

CALIFORNIA*, NEVADA*, OREGON*

* PARTIAL

of anticipated expenditures, and the City shall pay the amount requested to Reclamation within 10 days of the request.

3. At the City's request, Reclamation shall provide a detailed record of actual costs incurred by Reclamation within 60 days of such request.

4. This LOA is effective as of the date signed by the City and will remain in effect until February 29, 2028, or this LOA is terminated by either party upon 30 days written notice to the other party, provided that the City shall submit additional funds if needed, to pay Reclamation's costs up to date of termination. Any excess funds in the account will be refunded to the City within 60 days after termination of this LOA.

Please have the appropriate individual sign this LOA, provide documentation which authorizes the individual to sign on behalf of the City, and return the signed LOA and the requested documentation to the Bureau of Reclamation, Central California Area Office, 7794 Folsom Dam Road Folsom, CA 95630, Attention: Ms. Kellye Kennedy, or e-mail to KKennedy@usbr.gov.

A down payment (DP) invoice will be forwarded to you via email. You have the option of sending the check via United States Postal Service mail or via overnight mail. Please remit the DP invoice and the check directly to the appropriate bank lockbox address that is imprinted on the invoice. Reclamation will forward DP invoices for subsequent advance requests. Please retain the copies for your records.

If you have any questions, please contact Ms. Kellye Kennedy, Supervisory Repayment Specialist at (916) 537-7050 or at kkennedy@usbr.gov.

Sincerely,

ACTING FOR

File #: 0709-01

Title:	2022 Housing Element Annual Progress Report and 2022 General Plan Annual Progress Report
Contact:	Trisha Isom 916-746-1239 tisom@roseville.ca.us Sara Thornton 916-774-5295 srthornton@roseville.ca.us Lauren Hocker 916-774-5272 lhocker@roseville.ca.us

Meeting Date: 3/15/2023
Item #: 6.12.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council adopt a resolution to approve the 2022 Housing Element Annual Progress Report and the 2022 General Plan Annual Progress Report, and authorize submittal of both reports and related documents to the State Housing and Community Development Department and the Office of Planning and Research in accordance with Section 65400(a)(2) of California Government Code.

BACKGROUND

After each jurisdiction's General Plan or Housing Element has been adopted, Section 65400(a)(2) of the California Government Code requires the jurisdiction to provide annual reports to their legislative body, the State Office of Planning and Research (OPR) and the State Department of Housing and Community Development (HCD) on the status of the plan and progress in its implementation. The General Plan Annual Progress Report must describe the status of the plan and any progress in its implementation. The Housing Element Annual Progress Report is required to use the standards and forms provided by HCD and must detail progress in meeting the City's share of regional housing needs, determined pursuant to California Government Code Section 65584, and local efforts to remove governmental constraints to the maintenance, improvement, and development of housing pursuant to California Government Code 65583(c)(3).

Roseville General Plan

On August 5, 2020 the City Council adopted an updated 2035 General Plan. The Housing Element was not updated at that time because Housing Elements are updated on 8-year cycles defined by state law. The General Plan progress report attached to this Council Communication describes notable activities and projects undertaken within the last year which implement or modify the General Plan. The report concludes that modification of General Plan policies and programs is not needed at this time.

Roseville Housing Element

On August 18, 2021, the City Council adopted the 2021–2029 Housing Element. HCD subsequently confirmed the updated Housing Element was in compliance with State Housing Element Law on November 17, 2021. The 2022 Housing Element progress report covers the City's housing policies, goals and objectives for this last year within the 8-year reporting period. Submitting the 2022 Housing Element Annual Progress Report to HCD by April 1, 2023 allows the City of Roseville to maintain its eligibility to receive State-administered grant funds such as the Permanent Local Housing Allocation, Local Housing Trust Fund, and the new Prohousing Incentive Pilot program funds. Additional interest at the state level in Housing Element compliance makes this reporting even more important, as it could also link to eligibility for transportation and other non-housing funds.

In the planning process leading up to the current Housing Element period, the Sacramento Area Council of Governments (SACOG) determined the Regional Housing Needs Allocation (RHNA) for the six-county region, including the City of Roseville, in accordance with State law. The RHNA allocates to each local jurisdiction its fair share requirement for meeting the area's housing needs in all income categories for the years during this plan period. The City's fair share housing need, as determined by SACOG, is 12,066 dwelling units (3,855 very low-income units, 2,323 low-income units, 1,746 moderate-income units, and 4,142 above moderate-income units) over the designated planning period. To meet this need, the City is required to identify land that is able to accommodate these quantities and income levels of development and track development throughout the planning period.

The City of Roseville has historically provided for the future production of affordable housing units through its local policy requiring ten percent of new housing specific plans to be affordable. Since its inception in 1989, this local policy has resulted in the production and regulation of 3,958 affordable units, with an average of 110 units added per year. Beyond the ten percent requirement, the City has also incentivized affordable housing development through the provision of land and subsidized loans for this purpose. In addition to the 198 rental units to be provided by Hampstead Companies in west Roseville, the City is also working to approve several new developments in the West Roseville Specific Plan, the Creekview Specific Plan as well as downtown Roseville. The proposed projects will include over 1,000 affordable units. There are also several purchase unit obligations throughout the infill area that could net another 100 affordable units. Certain projects have been able to exceed local affordable housing requirements using state bond financing options as well as Project Based Vouchers, provided by the Roseville Housing Authority, which have allowed for deeper income targeting and greater affordability for residents. In 2022, the City approved over 1,800 building permits, of which 111 were for lower-income units and 673 were for moderate-income units.

The attached Housing Element Annual Progress Report identifies housing activity and progress in meeting Roseville's portion of the RHNA during the 2022 calendar year. This report includes the following tables:

Table A: Housing Development Applications Submitted

Table A2: Annual Building Activity Report

Table B: Regional Housing Needs Allocation Progress – 2021 - 2029

Table C: Does Not Apply to 2022 Housing Element

Table D: Program Implementation Status from current Housing Element

Table E: Does not apply – Roseville did not approve any commercial development bonuses in 2022

Table F: Does not apply – The Housing Element does not include a program to rehabilitate, preserve or acquire units

Table F2: Does not apply- Roseville did not have any above moderate-income units converted to moderate-income

Table G: Does not apply – no land is included in the inventory identified in the Housing Element Summary Table

Table H: List of Locally Owned Surplus Sites

Summary: Building Permits Issued by Affordability Level

Table I: Units constructed and applications for lot splits. This table is in reference to applications and units constructed under SB9

Table J: Does not apply- Roseville does not have any student housing developments for lower-income students

LEAP Reporting: Local Early Action Plan Grant Report

The 2022 Annual Progress report is the second report in the 8-year reporting period and the report includes all permits and projects submitted during calendar year 2022. The City of Roseville is working to meet its obligations in providing the land inventory necessary to meet its RHNA requirements and continues to meet program and policy goals of local incentives and reductions in government barriers. Construction of sites can be challenging in the private market due to the increased cost of building supplies, decreased workforce and extremely competitive financing for affordable projects.

The City is also required to submit the Housing Successor's Annual Report of the Low and Moderate-Income Housing Asset Fund (Low/Mod) for each fiscal year. The Housing Successor's Low/Mod Fund for FY21-22 was approved by City Council on December 21, 2022 and will be submitted to the state as required. Once the Housing Element and General Plan Annual Progress Reports are acted upon by the City Council, staff will submit all necessary documents in compliance with state requirements.

FISCAL IMPACT

The staff cost to develop the 2022 Housing Element and General Plan Annual Progress Reports was included in the FY2022-23 adopted budget.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. Approval of the 2022 Housing Element and General Plan Annual Progress Reports meet the above criteria and are not subject to CEQA. No additional environmental review is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal B - Support community engagement and advocacy

Goal F - Invest in well-planned infrastructure and growth

Description

Resolution 23-090

2022 Housing Element APR

21.22 Report of Required Information

2022 General Plan Annual Progress Report

RESOLUTION NO. 23-090

APPROVING THE 2022 HOUSING ELEMENT ANNUAL PROGRESS REPORT AND
APPROVING THE 2022 GENERAL PLAN ANNUAL PROGRESS REPORT

WHEREAS, on August 5, 2020, the City Council adopted an updated 2035 General Plan;
and

WHEREAS, on August 18, 2021, the City Council approved the General Plan's Housing
Element update, which was an eight-year document (2021-2029); and

WHEREAS, Section 65400(a)(2) of the Government Code of the State of California
requires an annual report to the City Council, the State Department of Housing and Community
Development and the State Office of Planning and Research; and

WHEREAS, the City Council has reviewed the 2022 Housing Element Annual Progress
Report and the 2022 General Plan Annual Progress Report.

NOW, THEREFORE, BE IT RESOLVED that the City Council of the City of Roseville
hereby approves the 2022 Housing Element Annual Progress Report and the 2022 General Plan
Annual Progress Report and directs staff to submit them to the State Department of Housing and
Community Development and the State Office of Planning and Research.

PASSED AND ADOPTED by the Council of the City of Roseville this ____ day of
_____, 20__, by the following vote on roll call:

AYES COUNCILMEMBERS:

NOES COUNCILMEMBERS:

ABSENT COUNCILMEMBERS:

MAYOR

ATTEST:

City Clerk

3	General Information					
4	Jurisdiction Name	Roseville		Optional: Click here to import last year's data. This is best used when the workbook is new and empty. You will be prompted to pick an old workbook to import from. Project and program data will be copied exactly how it was entered in last year's form and must be updated. If a project is no longer has any reportable activity, you may delete the project by selecting a cell in the row and typing ctrl + d.		
5	Reporting Calendar Year	2022				
6	Contact Information					
7	First Name	Sara				
8	Last Name	Thornton				
9	Title	Housing Analyst		Click here to download APR Instructions		
10	Email	srthornton@roseville.ca.us				
11	Phone	9167745295				
12	Mailing Address					
13	Street Address	316 Vernon St., Suite 150				
14	City	Roseville				
15	Zipcode	95678

Optional: This runs a macro which checks to ensure all required fields are filled out. The macro will create two files saved in the same directory this APR file is saved in. One file will be a copy of the APR with highlighted cells which require information. The other file will be list of the problematic cells, along with a description of the nature of the error.

Optional: Save before running. This copies data on Table A2, and creates another workbook with the table split across 4 tabs, each of which can fit onto a single page for easier printing. Running this macro will remove the comments on the column headers, which contain the instructions. Do not save the APR file after running in order to preserve comments once it is reopened.

Optional: This macro identifies dates entered that occurred outside of the reporting year. RHNA credit is only given for building permits issued during the reporting year.

Submittal Instructions

Please save your file as Jurisdictionname2022 (no spaces). Example: the city of San Luis Obispo would save their file as SanLuisObispo2022

Housing Element Annual Progress Reports (APRs) forms and tables must be submitted to HCD and the Governor's Office of Planning and Research (OPR) on or before April 1 of each year for the prior calendar year; submit separate reports directly to both HCD and OPR pursuant to Government Code section 65400. There are two options for submitting APRs:

1. Online Annual Progress Reporting System - Please see the link to the online system to the left. This allows you to upload the completed APR form into directly into HCD's database limiting the risk of errors. If you would like to use the online system, email APR@hcd.ca.gov and HCD will send you the login information for your jurisdiction. *Please note: Using the online system only provides the information to HCD. The APR must still be submitted to OPR. Their email address is opr.apr@opr.ca.gov.*

2. Email - If you prefer to submit via email, you can complete the excel Annual Progress Report forms and submit to HCD at APR@hcd.ca.gov and to OPR at opr.apr@opr.ca.gov. Please send the Excel workbook, not a scanned or PDF copy of the tables.

Progress toward extremely low-income housing need, as determined pursuant to Government Code 65583(a)(1).														
		5											6	7
		Extremely low-Income Need		2021	2022	2023	2024	2025	2026	2027	2028	2029	Total Units to Date	Total Units Remaining
Extremely Low-Income Units*		1,928	-	8	-	-	-	-	-	-	-	-	8	1,920

*Extremely low-income housing need determined pursuant to Government Code 65583(a)(1). Value in Section 5 is default value, assumed to be half of the very low-income RHNA. May be overwritten.

Note: units serving extremely low-income households are included in the very low-income RHNA progress and must be reported as very low-income units in section 7 of Table A2. They must also be reported in the extremely low-income category (section 13) in Table A2 to be counted as progress toward meeting the extremely low-income housing need determined pursuant to Government Code 65583(a)(1).

Please note: For the last year of the 5th cycle, Table B will only include units that were permitted during the portion of the year that was in the 5th cycle. For the first year of the 6th cycle, Table B will only include units that were permitted since the start of the planning period. Projection Period units are in a separate column.

Please note: The APR form can only display data for one planning period. To view progress for a different planning period, you may login to HCD's online APR system, or contact HCD staff at apr@hcd.ca.gov.

ANNUAL ELEMENT PROGRESS REPORT

Housing Element Implementation

Jurisdiction Roseville

Reporting Year 2022 (Jan. 1 - Dec. 31)

Table D

Program Implementation Status pursuant to GC Section 65583

Housing Programs Progress Report

Describe progress of all programs including local efforts to remove governmental constraints to the maintenance, improvement, and development of housing as identified in the housing element.

1	2	3	4
Name of Program	Objective	Timeframe in H.E	Status of Program Implementation
Federal and State Programs - HCV (Federal)	Minimum of 65 Housing Choice Vouchers per year, 49 of them to extremely low income households	Annual applications, 2021-2029	RHA issued a total of 59 HCV's and 2 PBV's 38 HCV's and 2 PBV's were extremely low income. RHA was placed in shortfall prevention protocol per HUD and ceased issuing vouchers in June 2022.
Federal and State Programs - Housing Rehabilitation Program	Assist 6 low income homeowners per year	Annual applications, 2021-2029	Owner-occupied Rehab program assisted 5 low-income homeowners
Density Bonus Program	To increase the City's supply of affordable housing	Ongoing, and at least annually	The City did not receive any applications which included a request for a density bonus during 2022.
Accessory Dwelling Units Ordinance	Issue building permits for a minimum of 10 units annually (five times the average rate between 2013 and 2017) for a total of 80 units	Ongoing, and at least annually	The City issued building permits for 13 ADUs in 2022.
Condominium Conversion Ordinance	To support the conversion of rental units to condominiums	Ongoing, and at least annually	No requests for condominium conversions were received.
Streamline Project Processing	Complete 100% of applications within the City's adopted schedules	Ongoing, as applications are processed	The City implemented a tracking tool to monitor all tasks relative to due dates. Since tracking began, Planning, Engineering, and Building have completed 92% of tasks by their due dates. For the 6% where due dates were not met, tasks were typically late by a few days. In rare instances, tasks were reported as late because a task was not registered as "complete" by the deadline, but were not actually late because the project was on hold at the request of the applicant.

Specific Plan Areas (SPA)	Ensure affordable units are integrated throughout the SPA and provide 10% of total SPA units as affordable units, consistent with Land Use Element Policy LU5.5.	Ongoing, as SPAs are approved	No new Specific Plans were approved because no new land was annexed. As described in the Housing Element, the City's existing Specific Plans are consistent with this program.
Public/Private Partnerships	Ensure affordable units are integrated throughout the SPA and provide 10% of total SPA units as affordable units, consistent with Land Use Element Policy LU5.5.	Ongoing Roseville Specific Plan Process	As described in the Housing Element, the City's existing Specific Plans are consistent with this program.
Affordable Housing Agreements	Provide 10% of total SPA units as affordable units, consistent with Land Use Element Policy LU5.5.	Ongoing and Annual Monitoring	100% of Affordable Housing Agreements were reviewed virtually in 2022, and were consistent with this program.
In-Lieu Fees	Provide 10% of total SPA units as affordable units, consistent with Land Use Element Policy LU5.5.	Ongoing, as SPAs are approved	One In Lieu fee was collected for two affordable purchase sites that would not have been affordable. The Fee was deposited into the City's Local Housing Trust Fund and used to apply for matching funds and loan for affordable housing development.
Non-Residential Construction Fee	Provide additional funding sources for affordable housing	2021	Consistent with the program direction to review establishment of a fee by 2021, the City completed a commercial linkage fee nexus study, and released the study, discussion materials, and a draft ordinance for public review in November 2021.
Preservation of Affordable Housing	To ensure affordable units remain affordable for as long as possible	Ongoing, and at least annually	No affordable units were at risk during the 2022 review period. Registration as a Qualified Entity with HCD was approved.
Housing Successor Agency	Gap financing for future developments and Homeless Prevention and Rapid Rehousing Program	2021-2029	The City used \$250,000 in Low/Mod funds to supplement the Homeless Prevention and Rapid Rehousing Program.
Residential Capacity Monitoring (No Net Loss)	Evaluate 100% of residential applications for RHNA consistency	Ongoing as applications received, and at least monthly	100% of projects were reviewed for consistency with the City's RHNA targets. Also see the program below, Rezone Program for Adequate Sites.

Rezone Program for Adequate Sites	Achieve a minimum lower income capacity of 6,178 units by 2024	2024	The City effectuated two of the Rezone Program strategies in 2022: Strategy 1, Commercial Corridors and Strategy 4, Vacant Sites - Residential Intensification. The City adopted the Commercial Corridor Specific Plans project on December 21, 2022 (www.roseville.ca.us/corridorplans). The Specific Plans include process streamlining for high density housing projects and commercial reinvestment projects and California Environmental Quality Act streamlining via the provisions for residential projects consistent with the Specific Plan (Government Code section 65457) for up to 850 units of high density residential development. The Specific Plans permit greater levels of development, but provides all necessary CEQA coverage - including utility studies for system upgrades - for up to 850 units. This exceeds the 400 units estimated in the Housing Element for this strategy. The City adopted a land use policy pursuant to Strategy 4 on July 6, 2022. The land use policy, entitled "Guidelines for Specific Plan Amendments Affecting or Proposing Residential Land Use Capacity" requires applicants proposing residential amendments to an existing Specific Plan to also include amendments which would increase the density of existing, vacant High Density Residential sites within the affected Specific Plan which the applicant also owns (https://www.roseville.ca.us/cms/One.aspx?portalId=7964922&pageId=8774468). Since Housing Element adoption, the City's capacity has increased from 4,400 units to 5,250 units.
Affordable Housing Streamlining	To streamline the approval of affordable housing projects by providing a ministerial approval process, thereby shortening timeframes by an average of three to five months and fees by \$8,000 or more	Ongoing as applications are received, and at least annually	Two affordable housing projects were approved using the City's ministerial Objective Design Standards process in 2022. The Creekview Family Affordable Apartments project (116 units) and the 300 Taylor Development project (72 units).
Prioritize Affordable Housing	To facilitate and incentivize the construction of affordable housing. The goal is for 100% of affordable housing projects to leverage this program	2024 and ongoing	City Council approved amendments to the City's Subdivision Ordinance on April 6, 2022 which established ministerial mapping processes for affordable housing projects, consistent with this policy. The process allows ministerial parcel maps, lot line adjustments, and voluntary mergers.
Housing Replacement Program	To ensure conservation and replacement of affordable units	Ongoing, as applications are received	No affordable units needed replacement during the 2022 review period

Accessory Dwelling Unit Outreach Program	Ensure 100% of multifamily property owners who contact the City receive information on accessory dwelling units	2022	Informational brochures for both single-family and multi-family properties were developed and published in 2021. The brochures are available on the City's website, and are also displayed in hard copy at the City's Permit Center.
Federal and State Programs - Section 8 HCV (Federal)	Effectively implement federal and state programs and leverage funding opportunities, increase the number of participating properties in high resource areas of the City, and obtain funding for affordable housing projects serving special needs populations	Ongoing, as funding is available, and at least annually	RHA made 75 PBVs available under an RFP, RHA received 6 applications from developers and awarded 60 PBV in total for all projects. The application process is ongoing until we reach the 75 voucher limit. RHA continues to offer Small Area Fair Market Rents and instituted a Landlord Incentive Program for those renting to Emergency Housing Voucher holders
Federal and State Programs - Section 202 (Federal)	Effectively implement federal and state programs and leverage funding opportunities, increase the number of participating properties in high resource areas of the City, and obtain funding for affordable housing projects serving special needs populations	Ongoing, as funding is available, and at least annually	There were no applications by housing developers to use Section 202 funding in 2022
Federal and State Programs - CDBG (Federal)	Effectively implement federal and state programs and leverage funding opportunities, increase the number of participating properties in high resource areas of the City, and obtain funding for affordable housing projects serving special needs populations	Ongoing, as funding is available, and at least annually	Public Services Programs consisted of a transitional housing program for persons with mental illness, family mental wellness program, Meals on Wheels, a food delivery program, a victims services program, an emergency shelter program, and a mental wellness program. The programs helped 1,066 households - 335 disabled, 249 elderly, 293 homeless and 259 female heads of household. CDBG CV Programs consisted of homeless prevention and utility assistance, and after-school care for homeless students. These programs helped 96 households - 39 disabled, 3 elderly, and 26 female heads of household. One public facility was acquired at the end of 2022, which will provide services for residents undergoing a mental health crisis, beginning 2022.

Housing Rehabilitation Program - Home (State) and CDBG (Federal)	Effectively implement federal and state programs and leverage funding opportunities, increase the number of participating properties in high resource areas of the City, and obtain funding for affordable housing projects serving special needs populations	Ongoing, as funding is available, and at least annually	The Housing Rehabilitation Program served 5 households in Roseville. A total of \$259,443 in CDBG funds was invested to rehab 5 homes.
Public Service Funds	Effectively implement federal and state programs and leverage funding opportunities, increase the number of participating properties in high resource areas of the City, and obtain funding for affordable housing projects serving special needs populations	Ongoing, as funding is available, and at least annually	Public Services Programs consisted of a transitional housing program for persons with mental illness, family mental wellness program, Meals on Wheels, a food delivery program, a victims services program, an emergency shelter program, and a mental wellness program. The programs helped 1,066 households - 335 disabled, 249 elderly, 293 homeless and 259 female heads of household. CDBG CV Programs consisted of homeless prevention and utility assistance, and after-school care for homeless students. These programs helped 96 households - 39 disabled, 3 elderly, and 26 female heads of household. One public facility was acquired at the end of 2022, which will provide services for residents undergoing a mental health crisis, beginning 2023.
Homeless Prevention and Rapid Rehousing Program	Fund non-profits to implement homeless prevention and rapid rehousing programs such as rent, utilities, and deposit payments, homeless hotel vouchers and ready-to-rent programs	Ongoing, as funding is available, and at least annually	A.S.K. (AMI Housing, Saint Vincent de Paul, KIDS), Salvation Army, VOA, The Gathering Inn, and Stand up Placer with Lighthouse are working together to provide prevention efforts and re-housing services to the homeless population. For CY 2022, \$799,892.90 was awarded to this network of agencies has been spent on homeless prevention and rapid rehousing. Services provided include rent, utility, and deposit assistance, emergency hotel vouchers, ready to rent classes, and housing navigation. A total of 1302 persons have been served: 69 seniors, 42 veterans, 536 people with disabilities, 291 families, and 52 transition aged-youth (TAY).
Roseville Community Grants Funds	Provide funding to public agencies and non-profits for programs that benefit and support the Roseville community	Ongoing, as funding is available, and at least annually	The Grants Advisory Commission awarded \$359,334 to 21 non-profit organizations for use between July 2021 and June 2022

Address Significant Disparities and Increase Opportunities	To ensure that direct and indirect government activities and influence is equitable and supports access to housing opportunists for all groups. Metrics for success include 700 low, very low, and extremely low income households assisted with rental assistance; 15 owner-occupied rehab projects (based on current funding levels)within a disadvantaged community area or at risk of displacement; at least 1 permanent supportive housing project explored annually.	Ongoing, and at least annually	For CY 2022, there were 719 voucher-assisted households per month, 5 owner-occupied rehab projects completed, and the City of Roseville supported the conversion of the Hampton Inn Project Roomkey site to the Sunrose Apartments, a permanent supportive housing project. .
Homeless Outreach	Contact 50 high-risk community members per month	Ongoing, and at least annually	276 high-risk community members were contacted. This goal was designed for two staff members, however only one staff member is working on outreach due to staffing shortage.
Family Mobile Team	A minimum of 350 interactions annually	Ongoing, and at least annually	For CY 2022, a total of 140 FMT encounters have been made.
Family Reunification Program	Reunification of at least 20 individuals experiencing homelessness	Ongoing, and at least annually	Calendar year 2022, 18 individuals were reunified.
Regional Housing Programs	Participate in regional approaches to affordable housing	Annually	The City holds a board member seat and co-chairs the CA 515 Continuum of Care, and participates in monthly Placer County sponsored regional conversations including how PHAs can grow affordable housing in the region, affordability requirements, valuable in lieu fees, information sharing, etc.
Fair Housing and Housing Discrimination Legal Services	To ensure residents are informed of their housing rights and are provided with support on fair housing issues, and that City actions do not create barriers to fair housing or impact choice. Annually, 50 responses to inquiries; at least 1 Fair Housing Workshop; Adequate annual funding, \$12,000 for 2022, future years amount responsive to resources/needs.	Ongoing, and at least annually	One Fair Housing workshop conducted and 5 agency networking activities. Expenditures for the year totaled \$33,120 with \$11,577 contract balance remaining. A total of 39 persons served (9 persons with disabilities, and 5 female head of household).

Support for Housing for Persons with Developmental Disabilities	To ensure residents are informed of housing options for persons with developmental disabilities	Ongoing, and at least annually	Working with Alta Regional on creating a document and link to their website to share on the City of Roseville Housing website to serve as an accessible resource for persons with intellectual and developmental disability.
Allow Shared Housing Under Housing Choice Voucher for Persons with Disabilities	To provide rental assistance for residents with disabilities	Ongoing, and at least annually	RHA will review all reasonable accommodation requests for shared housing when received. RHA had no requests for shared housing in 2022 and no participants in shared housing situations.
Process and Fee Structure Review	Review process and fee structure	Annually review process and fee structure	The City adopted an updated fee structure, effective July 1, 2022.
Review of Subdivision Improvement Standards and Zoning Ordinances	Complete review of the Subdivision Improvement Standards and Zoning Ordinance once per year	Ongoing, and at least annually	The City adopted two City-initiated amendments to its Zoning Ordinance and one amendment to the Subdivision Ordinance in 2022. The first amendment package was adopted on April 6, 2022, and included amendments to the Zoning Ordinance and Subdivision Ordinance in response to legislation passed at the end of 2021, including SB 9. The second amendment package was adopted on July 20, 2022 and included a wide array of changes intended to improve the readability and clarity of regulations and definitions, and to ensure regulations were consistent with current planning needs.
Public Education Program	100% of staff reports or other City materials for affordable housing projects will include information about the necessity of affordable housing and City newsletters will contain such materials at a minimum of twice annually. A FlashVote survey or other survey will be distributed annually to elevate the community's perceptions of affordable housing	Bi-annually	The City published an article on April 14, 2022 discussing the City's Housing Element Annual Progress Report, which included an infographic and information on the importance of affordable housing to the community. The City also published multiple articles in December 2022 related to it's achievement of Prohousing Designation, which included further information on the importance of affordable housing specifically, and on the provision of adequate housing generally. The City published also published surveys on housing as part of the Commercial Corridors project outreach.
Public Participation	Provide multiple means and opportunities for public participation as part of Planning entitlement projects	Ongoing, as projects are processed through the Planning Division	The City continued to implement all aspects of public participation listed in this program.
Special Needs Housing Laws	City ensures compliance with AB 2162 and AB 101 and other legislation	Within two years of adoption of the Housing Element	The City's Zoning Ordinance states that supportive housing is a residential use and allows supportive housing in all zones where single-family, two-family, or multi-family housing is permitted. Low barrier navigations centers were also added to the Zoning Ordinance as a permitted use, consistent with AB 101.

Report of Required Information per Health and Safety Code 34176.1 (f)
City of Roseville Housing Successor
Fiscal Year 2021-22

1. Any amounts deposited into the Fund, with segregation of amounts deposited from payments pursuant to a Recognized Obligation Payment Schedule ("ROPS") from other sources.

<i>Amount</i>	<i>Source</i>	<i>Purpose</i>
\$42,679	Interest on Investments Earned	Fund Balance-Reserved
\$45,688	Monitoring Fees	Fund Balance-Reserved
\$354,825	20% Deposit from City Loan Payoff	Fund Balance-Reserved
\$270,214	Loan Payoffs-Program Income	Fund Balance-Reserved
\$588,298	RCDC Payment	Fund Balance-Reserved
\$1,301,704	Total Deposits	

2. The balance in the Fund at the fiscal year end, with segregation of amounts held to meet obligations on a ROPS from other amounts.

<i>Amount</i>	<i>Description</i>
\$2,853,777	Ending Cash
\$3,630	Interest Receivable
\$0	Reserved for ROPS
\$2,857,407	Fund Balance 6/30/22

3. A description of expenditures from the Fund by category for:
- Monitoring and preserving the long-term affordability of units subject to affordability restrictions or covenants entered into by the redevelopment agency or the housing successor and administering permitted affordable housing activities. *The amount that can be spent on monitoring and administration is capped at 2% of the value of the assets in the Fund or \$200,000 whichever is greater.*
 - Homeless prevention and rapid rehousing services. *This amount is limited to \$250,000 annually.*
 - Development of housing affordable to households at or below 80% of area median income ("AMI").

<i>Amount</i>	<i>Description</i>
\$28,901	a. Staff charges for Monitoring
\$6,100	a. Professional Services
\$22,640	a. Misc Office Charges
\$250,000	b. Homeless Prevention
\$600,000	c. Development of housing
\$907,641	Total Expenditures

4. The statutory value of real property owned by the housing successor, the value of loans and grants receivable, and the sum of these two amounts. *"Statutory value of real property" means the value of properties formerly held by the former redevelopment agency as listed on*

Report of Required Information per Health and Safety Code 34176.1 (f)
City of Roseville Housing Successor
Fiscal Year 2021-22

the housing asset transfer form approved by the Department of Finance ("DOF") and the purchase price of properties purchased by the housing successor.

<i>Amount</i>	<i>Description</i>
\$875,000	Land - Note Receivable
\$5,760,000	Mercy Housing - Deferred Receivables
\$3,818,854	FTHB/commercial Deferred Receivables
\$861,715	Residential
\$11,315,569	Total Value of Land & A/R

5. **A description of any inter-jurisdictional transfers of monies from the Fund in the previous fiscal year as well as any transfer from prior fiscal years if the funds are still unencumbered and a description of and status update on any project for which transferred funds have been or will be expended if that project has not yet been placed in service.**

None

6. **A description of any project for which the housing successor receives or holds real property tax revenue pursuant to the ROPS and the status of that project.**

None

7. **For interests in real property acquired by the former redevelopment agency prior to February 1, 2012, a status update on compliance with the development of the property within five (5) years after the DOF approved the property as a housing asset, which would typically be the date of approval of the housing asset transfer list. For interests in real property acquired on or after February 1, 2012, a status update on the project.**

Mercy Housing secured a loan from the Housing Successor for \$5,760,000 for the development of a 58-unit mixed-use affordable housing development at 623 Vernon Street, Roseville. The loan was approved by the City Council, acting as the Housing Successor, on November 16, 2016. The project was completed in November 2018.

In 2016, the Housing Successor committed \$600,000 of funding from the low/moderate affordable housing funds towards the Junction Crossing affordable rental housing development at 120 Pacific Street. This project will include 80 affordable units available for low and very low income households. The deferred low interest loan was approved by the City Council, acting as the Housing Successor, on October 20, 2021.

8. **A description of any outstanding replacement housing and housing production obligations that transferred to the housing successor on February 1, 2012, the housing successor's progress in meeting those obligations, and the housing successor's plans to meet the unmet obligations.**

The Agency will continue to work with 2-3 affordable housing developers. Going forward the Agency is hopeful that loan portfolio payoffs and 20% set-aside deposits from City loan payments will provide additional assistance for affordable housing developments. The value of the 20% loan receivable from the

Report of Required Information per Health and Safety Code 34176.1 (f)

Fiscal Year 2021-22

Successor Agency at June 30, 2022 is \$2,724,606 providing the California Department of Finance approves the payment of the City loans by the Successor Agency.

9. Reporting on income targeting requirements does not need to be included until December 31, 2019 for the period from January 1, 2014 through the end of the fiscal year covered by the report (June 30, 2019 for most housing successors), and every five years thereafter. However, it may be useful for housing successors to track this information on an annual basis to ensure the requirement is met every five years. *The required income targeting expenditures are that, over a five year period, the funds remaining after expenditures for monitoring and administration and rapid rehousing services, if any, must be expended for the development of housing affordable to and occupied by households earning 80% or less of the AMI, with at least 30% of the funds expended on the development of housing affordable to and occupied by households earning 30% or less of the AMI and not more than 20% of the funds expended on the development of housing affordable to and occupied by households earning between 60% and 80% of the AMI.*

\$0.00

10. The percentage of units of deed-restricted rental housing restricted to seniors and assisted individually or jointly by the housing successor, its former redevelopment agency, and its host jurisdiction within the previous 10 years in relation to the total number of units of deed-restricted rental housing assisted individually or jointly by the housing successor, its former redevelopment agency, and its host jurisdiction within the same time period. *If the percentage of assisted senior rental housing is more than 50 percent of the total of all assisted rental housing, no additional senior rental housing can be assisted until the percentage falls to 50 percent or less.*

# of Units	Description
860	Senior Restricted Rental Housing Units
1217	Non-Senior Restricted Rental Housing Units
2077	Total Units
41%	% of Senior Restricted Rental Housing Units

In last 10 years:

# of Units	Description

230	Non-Senior Restricted Rental Housing Units
230	Total Units
0%	% of Senior Restricted Rental Housing Units

11. The amount of any excess surplus, the amount of time that the successor agency has had the excess surplus, and the housing successor's plan for eliminating the excess surplus. *The definition of excess surplus has been modified so that an "excess surplus" exists to the extent a housing successor holds unencumbered funds in its Fund in an amount that exceeds the greater of \$1,000,000 or the total amount of deposits into the Fund for the preceding four*

Report of Required Information per Health and Safety Code 34176.1 (f)
City of Roseville Housing Successor
Fiscal Year 2021-22

fiscal years. The housing successor is required to spend the excess surplus amount or transfer that amount to another jurisdiction as provided in Health and Safety Code Section 34176.1(c)(2) within three fiscal years. If not, the excess surplus amount must be transferred to HCD to use pursuant to the Multifamily Housing Program or the Joe Serna, Jr. Farmworker Housing Grant Program.

Fiscal Year	Amount Deposited
FY2020-21	\$603,561
FY2019-20	\$419,559
FY2018-19	\$361,081
FY2017-18	433,400
TOTAL	\$1,817,601

Fund Balance – 6/30/22	\$2,857,407
-------------------------------	--------------------

Excess Surplus Amount - Fund Balance exceeds the sum of the deposits in the prior four years.	\$1,039,806
--	--------------------

The fund ended with an excess surplus amount of \$1,039,806. The City of Roseville is working on various affordable housing development projects. These funds may be used to fund these or other affordable projects in the future.

12. Inventory of Home Ownership Units: This section provides an inventory of homeownership units assisted by the former Agency or FVHA as Housing Successor that are subject to covenants or restrictions or to an adopted program that protects the former Agency's investment of moneys from the Low and Moderate Income Fund per Section 33334.3 (f).

Function and Intent of the General Plan

State law requires that every county and city prepare and adopt a comprehensive long-range plan to serve as a guide for the development of the community. The plan must consist of an integrated and internally consistent set of goals, policies and implementation measures. In addition, the plan must focus on those issues that are of the greatest concern to the community and should be written in a clear and concise manner. City actions, such as those relating to development entitlements, annexations, zoning, subdivision and design review, revitalization, and capital improvements must be consistent with the General Plan.

The City of Roseville General Plan (Plan) serves to:

- Establish long-range development policies that will be implemented through actions by the City of Roseville (City) Council and Planning Commission;
- Provide a basis for judging whether private development proposals and public projects are in harmony with the policies; and
- Guide public agencies and private developers in designing projects that are consistent with City policies.

The Plan is designed to be:

- **Long-range:** However imperfect the vision of the future is, almost any development decision has effects lasting more than 20 years. In order to create a useful context for development decisions, the General Plan is focused on the year 2035 and beyond.
- **Comprehensive:** The Plan provides direction to coordinate all major components of the community's physical development and conservation.
- **General:** Because it is long-range and comprehensive, the Plan, in most cases, is general. The Plan's purpose is to serve as a framework for more detailed public and private development proposals.

California Government Code requires each General Plan to address specific topics within the General Plan, including land use, circulation, housing, conservation, open space, noise, safety, environmental justice, and air quality. The chapters of a General Plan are called Elements. The City's General Plan includes the below Elements:

- **Land Use Element** discusses existing and future land use conditions, land use designations and standards, community form, community design, and growth management.
- **Circulation Element** identifies the general location and the extent of the existing and proposed roadways, highways, railroads and transit routes. The Element identifies goals and policies to enhance the freedom to choose different modes of travel, manage travel demand, and provide for goods movement throughout the Planning Area and surrounding region.
- **Air Quality and Climate Change Element** integrates related land use, transportation and circulation, transit, and energy issues. The policies are intended to improve air quality and encourage cooperation among surrounding jurisdictions involved in regional air quality efforts.
- **Open Space and Conservation Element** provides for the conservation and management of natural resources, details strategies for the preservation of open space, and provides for outdoor recreation, public health, and safety.
- **Parks and Recreation Element** provides goals and policies for both traditional active park lands and non-traditional open space-oriented park lands. It specifies standards and conditions as guidelines for planning parks and recreation facilities, including size, type, location, and multi-modal access.

- **Public Facilities Element** identifies facility and service needs of the community for civic facilities, libraries, schools, electric and privately owned utilities, water and wastewater systems, solid waste and recycling, water and energy efficiency, and the extension of City services.
- **Safety Element** establishes standards and plans for the protection of the community from a variety of hazards, including earthquakes, flooding, crime, fire, and hazardous materials.
- **Noise Element** establishes standards for transportation and fixed noise sources to protect the health and welfare of the community.
- **Housing Element** identifies the existing and projected housing needs and establishes goals and policies for the preservation, improvement, and development of housing to meet the diverse needs of the City's existing and future population.

The City's 2035 General Plan was adopted in August 2020 and the current Housing Element was adopted in August 2021. The General Plan, inclusive of the Housing Element, is internally consistent and is consistent with the most current State General Plan requirements. This includes the most recent updates to informational requirements, including environmental justice, collaborative planning with military lands and facilities, and Native American consultation.

Implementation Review

The City's General Plan includes more than 500 goals and policies, most of which are implemented on an ongoing basis. Appendix A of the adopted General Plan includes a complete list of all of these implementing programs, procedures, ordinances, and regulations along with a description of their status. Therefore, the list below focuses on new or significant activities undertaken during the last reporting year relative to the City's goals and policies. The list includes each relevant goal or policy in **bold** text followed by a description of activities in plain text. The City also reviewed the General Plan to determine whether any updates were necessary, and concluded that none of the goals, policies, objectives or standards require amendment during the upcoming reporting year of 2023.

Policy LU1.4. Promote a diversity of residential living options (e.g. density ranges, housing types, affordability ranges), while ensuring community compatibility and well-designed residential development.

The City approved entitlements for 2,727 housing units, of which 21% were low density residential, 27% were medium density residential, and 52% were high density residential or affordable, reflecting a diversity of residential living options. The City issued approximately 1,680 building permits for homes in 2022, which is approximately 110 permits for every 10,000 people in population. This metric is used to compare home production values in cities of disparate size throughout the United States, and places Roseville on par with the top production rates in the nation according to the annual Market Urbanism Report¹.

Policy LU3.4. Encourage infill development and reinvestment that:

- **Upgrades the quality and enhances the character of existing areas;**
- **Enhances the mix of land uses in proximity to one another so that more households can access services, recreation, and jobs without the use of a car;**
- **Facilitates pedestrian activity and public transit use;**
- **Efficiently utilizes and does not overburden existing services and infrastructure; and**

¹ <https://marketurbanismreport.com/>

- **Results in land use patterns and densities that provide the opportunity for the construction of a variety of housing types that are affordable to all income groups**

The City completed the Commercial Corridors project in 2022, which was a project to create three new Specific Plans within the City's infill core, along Atlantic Street, Douglas Boulevard and Harding Boulevard, and Douglas Boulevard and Sunrise Boulevard. The coequal goals of these plans are to improve aesthetics and comfort on the streetscapes, facilitate commercial reinvestment and redevelopment, and facilitate high density housing (particularly in commercial areas).

Policy LU3.5. Promote active citizen involvement in defining, maintaining, and improving the character and identity of existing neighborhoods, including consideration of cultural and artistic enhancements.

The Commercial Corridors project included multiple workshops, virtual outreach meetings, multiple surveys, a walking tour (physical or virtual), and significant individual communication with interested persons. The goal of this outreach was to ensure the final plans reflect the diverse vision of the community.

Goal CIRC3. Provide a safe, convenient, and efficient transit system to enhance mobility; reduce congestion; reduce auto emissions, including emissions that contribute to climate change; improve the environment; and provide viable non-automotive means of transportation in and through Roseville.

Notable projects consistent with this goal include the Fiddymont Ranch Phase 3 Trail Project, a 1.25-mile long multi-use trail completed and opened to the public in March 2022. This trail extends the existing Pleasant Grove Creek Trail, which begins at Fiddymont Road and is ultimately planned to end at the City's Reason Farms open space area.

The City was also awarded a \$13.6 million grant to replace fifteen gas and diesel powered buses with new battery electric buses, and was the only Sacramento area agency that was awarded funding through this program. As a related project, the City broke ground on a \$4.5 million Zero Emission Bus (ZEB) and Zero Emission Fleet (ZEF) Charging Depot. The project includes construction of a new 30-space bus parking depot and a new 65-space fleet depot. Both parking areas are designed for zero emission electric charging, including the installation of the first 3 bus chargers (capable of charging up to 9 buses) and the first 5 fleet chargers (capable of charging 10 vehicles). Electrical improvements include infrastructure to accommodate future electrification of all 30 bus spaces and 65 fleet spaces.

Goal PF6.5. Actively pursue diverse water supplies, including surface, groundwater, and other sources for water supply reliability and system improvements that increase reliability.

The City completed a project to accelerate the number of aquifer storage and recovery wells in the City, with 2 wells constructed in 2022.

Major Planning Activities

This section includes all of the major planning activities completed during this reporting period, including amendments to the General Plan land use map; new master plans, specific plans, or annexations; other significant studies or plans; and private development applications approved which are of citywide significance.

GENERAL PLAN AMENDMENTS

The City processed one significant amendment to the General Plan land use map in 2022, which was the Commercial Corridor Plans project (Project Number PL21-0383). The project consisted of the adoption of three new Specific Plans within the City's infill area. These areas are fully developed, older areas of the City in need of reinvestment. The project area included many properties where the General Plan land use designation and the underlying zoning designation were not consistent. Land use and zoning are inconsistent when the zone district is not listed as an implementing zone of the land use designation. The majority of these inconsistencies occurred where the underlying zoning was Multifamily Residential but the land use designation was Low Density Residential, Community Commercial, or Business Professional. The General Plan was amended so that properties in the project area within the Multifamily Residential zone district were within the High Density Residential land use designation.

Several minor General Plan Amendments were approved in 2022, a brief description of which are included below.

- Project Number PL21-0223: The project was a residential development consisting of a small-lot tentative subdivision map to create 518 residential lots, and to reduce the amount of land designated Low Density Residential and increase the amount of land designated Medium Density Residential and to approve various other related entitlements.
- Project Number PL21-0273: The project was a Rezone and General Plan Amendment of an approximately 4-acre parcel from the Floodway (FW) zone district and Community Commercial/Floodplain land use designation to an Open Space/Floodway (OS/FW) zone district and Open Space/Floodplain land use designation. The purpose of the project was to comply with grant funding requirements that will facilitate development of a trailhead for the future Dry Creek Greenway East Trail.

NEW MASTER PLANS, SPECIFIC PLANS, AND ANNEXATIONS

The City adopted three new Specific Plans within the infill area of the City, described below.

Atlantic Street Corridor Specific Plan: The 73-acre Plan Area is located south of Atlantic Street between Interstate 80 Road and Folsom Road, in the City's Infill subarea. The boundaries of the Specific Plan include all of the property on the block adjacent to Atlantic Street and all property between Atlantic Street and the Dry Creek open space area which is designated for nonresidential or multifamily uses. See Figure 1.

Douglas-Harding Corridor Specific Plan: The 152-acre Plan Area is located west of Interstate 80 and is centered on Douglas Boulevard and Harding/South Harding Boulevard, in the City's Infill subarea. The boundaries of the Specific Plan are generally defined by Park Drive to the west, Interstate 80 to the east, Lead Hill Boulevard to the north, and the terminus of South Harding Boulevard to the south. The Plan Area includes all of the commercial property and property with a multifamily zoning designation alongside the two defining roadways in the plan. See Figure 2.

Douglas-Sunrise Corridor Specific Plan: The 251-acre Plan Area is located east of Interstate 80 and is centered on Douglas Boulevard and Sunrise/North Sunrise Avenue, in the City's Infill subarea. The boundaries of the Specific Plan are generally defined by Lead Hill Boulevard to the north, Coloma Way to the south, Rocky Ridge Drive to the east, and Interstate 80 to the west. The Plan Area excludes all of the predominantly residential areas within these general boundaries, and includes mostly commercial property alongside the two defining roadways in the Plan Area, Douglas Boulevard and Sunrise/North Sunrise Avenue. This Plan Area is developed, and incorporates a mix of commercial areas, public/quasi-public designated land, a dog park, and some residential property. See Figure 3.

All three Specific Plans include streamlined processing for high density housing, reduced parking standards for high density housing in commercial areas, streamlined processing for commercial reinvestment projects, CEQA streamlining, and the removal of development barriers through planned infrastructure improvements, the correction of long-standing zoning and land use discrepancies, and the replacement of outdated zone districts with one of the City's current zone districts.

Figure 1: Atlantic Street Specific Plan Boundaries

Figure 2: Douglas-Harding Specific Plan Boundaries

Figure 3: Douglas-Sunrise Specific Plan Boundaries

PRIVATE DEVELOPMENT PROJECTS OF CITYWIDE SIGNIFICANCE

The City's Specific Plan process allows for significant streamlining of residential projects consistent with the Specific Plan. The City's residential unit count was approximately 58,500 units at the beginning of the reporting period, and the City issued building permits for 1,680 residential units in 2022. In addition to this building permit activity, the City approved the following significant projects:

- JMC Tentative Map 4 – A 516-unit tentative subdivision map located in the Sierra Vista Specific Plan, including both low density residential and medium density residential lots.
- Sutter Medical Center Expansion – A project to add a parking structure and add a new medical office building to the existing Sutter Medical Center.
- Multifamily Projects – The City observed an increase in the number of applications for multifamily development in the City, with multiple projects totaling more than 1,400 units approved.
- Commercial Development – The City received applications for commercial development of multiple long-vacant properties throughout the western developing areas of the City. This included the West Roseville Marketplace (1798 Pleasant Grove Boulevard), Blue Oaks Commerce Center (2200 Freedom Way), and Blue Oaks Retail Center (1480 Blue Oaks Boulevard).

Housing Element Annual Progress Report (APR)

The Housing Element is a critical component of the General Plan. State housing law requires a separate Annual Progress Report be prepared by jurisdictions and submitted to the California Department of Housing and Community Development each year. The Housing Element APR is included as an attachment to this General Plan APR.

COUNCIL COMMUNICATION

CC #: 2593

File #: 0800-02 & 0214

Title:	Pleasant Grove Wastewater Treatment Plant Energy Recovery Project - California Energy Commission Grant and Loan Amendment
Contact:	Tracie Mueller 916-774-5688 trmueller@roseville.ca.us

Meeting Date: 3/15/2023

Item #: 6.13.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council adopt a resolution to approve the California Energy Commission (CEC) Grant Agreement Amendment 1 which extends the completion date for the Pleasant Grove Wastewater Treatment Plant (PGWWTP) Energy Recovery Project, and authorize the City Manager or his designee to execute it on behalf of the City of Roseville.

BACKGROUND

The City of Roseville (City) owns and operates the PGWWTP on behalf of the South Placer Wastewater Authority (SPWA) partner agencies. The Energy Recovery Project is adding energy recovery facilities at the PGWWTP that will beneficially utilize digester gas produced by the new treatment processes constructed as part of the City's PGWWTP Expansion Project.

The Energy Recovery Project construction is behind the scheduled completion date which was originally scheduled for February 20, 2022. Therefore an amendment to the City's CEC Grant Agreement for the distribution of \$3,000,000 grant funds for the Energy Recovery Project and the fulfillment of the grant requirements is required. The CEC Grant Agreement Amendment 1 extends the end date of the agreement term from March 31, 2023, to March 31, 2024. Based on the current status of the construction projects at the PGWWTP, staff anticipates the Energy Recovery Project will be completed in the summer of 2023 which will allow time for the required data collection and reporting required by the grant agreement scope of work.

FISCAL IMPACT

There is no financial impact or change with the approval of this grant amendment as it is only related to the term of the grant. The CEC grant amount is for \$3,000,000 and requires matching funds of \$3,000,000. The Energy Recovery Project construction cost is \$24,744,537. Funding for the Energy Recovery Project is provided under the capital improvement projects for the SPWA which has been authorized by the SPWA board. The Energy Recovery Project is jointly funded

between Roseville and the other SPWA Regional Partners. The SPWA's approved project funding is sufficient to pay the anticipated total cost of the Energy Recovery Project.

ENVIRONMENTAL REVIEW

Implementation of the PGWWTP Energy Recovery Project was previously evaluated in the Pleasant Grove Wastewater Treatment Plant Expansion and Energy Recovery Project Final Initial Study/Mitigated Negative Declaration (IS/MND) (SCH# 2016122040) (certified by the City Council on April 6, 2017), and the Addendum to the IS/MND (SCH# 2016122040) (certified by the City Council on November 7, 2018). The improvement plans included in the design-assist and construction agreement are consistent with the project evaluated in the certified Final IS/MND and the Addendum, and consequently no additional CEQA action is required for approval of this amendment.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal F - Invest in well-planned infrastructure and growth

Respectfully Submitted,

Tracie Mueller, Senior Engineer

Richard Plecker, Environmental Utilities Director

Dominick Casey, City Manager

CEC Amendment 1

CEC Original Agreement

CEC Agreement Terms and Conditions Update

RESOLUTION NO. 23-096

APPROVING THE CALIFORNIA ENERGY COMMISSION GRANT/LOAN AMENDMENT
AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF
THE CITY OF ROSEVILLE

WHEREAS, the City of Roseville owns and operates the Pleasant Grove Wastewater Treatment Plant (PGWWTP) on behalf of the South Placer Wastewater Authority partner agencies; and

WHEREAS, the Energy Recovery Project is adding energy recovery facilities at the PGWWTP that will beneficially utilize digester gas produced by the new treatment processes constructed as part of the City's PGWWTP Expansion Project; and

WHEREAS, in 2019, the City entered into a Grant Agreement (ARV-18-020) with the California Energy Commission to receive grant funding for the Energy Recovery Project; and

WHEREAS, the Energy Recovery Project construction is behind the scheduled completion which was originally scheduled for February 20, 2022 and therefore an amendment to the City's California Energy Commission Grant Agreement for the distribution of \$3,000,000 grant funds for the Energy Recovery Project and the fulfillment of the grant requirements is required; and

WHEREAS, the California Energy Commission Grant/Loan Amendment has been reviewed by the City Council.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that the California Energy Commission Grant/Loan Amendment is hereby approved and the City Manager or his designee is authorized to execute it on behalf of the City of Roseville.

PASSED AND ADOPTED by the Council of the City of Roseville this ____ day of _____, 20_, by the following vote on roll call:

AGREEMENT NUMBER:

ARV-18-020

AMENDMENT NUMBER:

01

1. This Agreement is entered into between the State Agency and the Recipient named below:

STATE AGENCY'S NAME

State Energy Resources Conservation and Development Commission

RECIPIENT'S NAME

City of Roseville

2. The term of this Agreement: From: 4/10/2019 To: 3/31/20243. The maximum amount of this Agreement after this amendment is: \$3,000,000 (\$0 Amendment)

4. The parties mutually agree to this amendment as follows. All actions noted below are by this reference made a part of the Agreement and incorporated herein:

The purpose of this amendment is to provide a 12-month no-cost time extension.

Agreement ARV-18-020, approved by the Energy Commission July 24, 2019, is amended as follows:

- Exhibit A-1, Schedule of Products (2 Pages) is attached and replaces the previously approved Exhibit A-1, Schedule of Products (2 Pages) in its entirety.

GLOSSARY

Specific terms and acronyms used throughout this scope of work are defined as follows:

Term/ Acronym	Definition
ARFVTP	Alternative and Renewable Fuel and Vehicle Technology Program
CAM	Commission Agreement Manager
CPR	Critical Project Review
DGE	diesel gallon equivalents
FTD	Fuels and Transportation Division
LCFS	Low Carbon Fuel Standard
PGWWTP	Pleasant Grove Wastewater Treatment Plant
PIIRA	Petroleum Industry Information Reporting Act
Recipient	The City of Roseville
RFI	Request for information
RFP	Request for Proposals
RFS	Renewable Fuel Standard
RNG	Renewable Natural Gas
SB	Senate Bill
WWTP	wastewater treatment plant

Background

Assembly Bill (AB) 118 (Núñez, Chapter 750, Statutes of 2007), created the Alternative and Renewable Fuel and Vehicle Technology Program (ARFVTP). The statute authorizes the California Energy Commission (Energy Commission) to develop and deploy alternative and renewable fuels and advanced transportation technologies to help attain the state's climate change, clean air, and alternative energy policies. AB 8 (Perea, Chapter 401, Statutes of 2013) re-authorizes the ARFVTP through January 1, 2024. The ARFVTP has an annual budget of approximately \$100 million and provides financial support for projects that:

- Reduce California's use and dependence on petroleum transportation fuels and increase the use of alternative and renewable fuels and advanced vehicle technologies.
- Produce sustainable alternative and renewable low-carbon fuels in California.
- Expand alternative fueling infrastructure and fueling stations.
- Improve the efficiency, performance and market viability of alternative light-, medium-, and heavy-duty vehicle technologies.
- Expand the alternative fueling infrastructure available to existing fleets, public transit, and transportation corridors.
- Establish workforce training programs and conduct public outreach on the benefits of alternative transportation fuels and vehicle technologies.

The Energy Commission issued solicitation GFO-18-601 for biofuel production projects at new and existing biofuel production facilities. To be eligible for funding under GFO-18-601, projects must also be consistent with the Energy Commission's ARFVTP Investment Plan, updated annually. In response to GFO-18-601, the City of Roseville (Recipient) submitted application 19, which was proposed for funding in the Energy Commission's Notice of Proposed Awards on January 18, 2019. GFO-18-601 and Recipient's aforementioned applications are hereby incorporated by reference into this Agreement in their entirety.

In the event of any conflict or inconsistency between the terms of the Solicitation and the terms of the Recipient's Application, the Solicitation shall control. In the event of any conflict or inconsistency between the Recipient's Application and the terms of the Energy Commission's Award, the Energy Commission's Award shall control. Similarly, in the event of any conflict or inconsistency between the terms of this Agreement and the Recipient's Application, the terms of this Agreement shall control.

Problem Statement:

Alternative fuel production resources in California are currently not utilized to their full potential. Organic waste and digester gases found in a municipal wastewater treatment plant (WWTP) is one such resource. The technology to convert organic waste into low-carbon fuels is proven but has severe financial and operational risks when implemented at the municipal level. Providing financial support to municipal agencies would encourage them to take on projects that divert WWTP organic waste from landfills to alternative fuel production instead. These types of projects help California achieve its AB 118 goals reducing criteria air pollutants, and producing sustainable alternative and renewable low-carbon fuels here in California.

The City of Roseville (Recipient) currently operates the Pleasant Grove Wastewater Treatment Plant (PGWWTP), which processes millions of gallons of organic waste each year. The Recipient is proposing to expand the PGWWTP to include biomethane production capabilities. This equipment would use PGWWTP organic waste and convert it into renewable biomethane for light-duty vehicle consumption. The recipient is requesting funding from the Energy Commission to begin implementing this project. Without funding from the Energy Commission and the ARFVTP, this project may not be financially possible at this time.

Goals of the Agreement:

The goal of this Agreement is to produce renewable biomethane from municipal WWTP organic waste. The biomethane produced will provide a low carbon alternative and renewable fuel suitable for on-road vehicle use. The biomethane produced will also reduce GHG and NO_x emissions by diverting WWTP organic waste from landfills and by reducing fossil fuel use.

Objectives of the Agreement:

The objectives of this Agreement are to bid, construct, and commission a biomethane production facility at the PGWWTP managed by the Recipient. Specific objectives:

- Construct a renewable biomethane production facility capable of producing 267,000 DGE per year at capacity
- Divert PGWWTP organic waste from landfills to biomethane production
- Provide a low carbon alternative and renewable fuel suitable for on-road vehicle use
- Reduce GHG emissions by approximately 3,655 metric tons of CO₂ equivalents per year at project build-out and reduce NO_x emission by five metric tons per year from reducing fossil fuel usage

TASK 1 ADMINISTRATION**Task 1.1 Attend Kick-off Meeting**

The goal of this task is to establish the lines of communication and procedures for implementing this Agreement. The CAM shall designate the date and location of this meeting and provide an agenda to the Recipient prior to the meeting.

The Recipient shall:

- Attend a "Kick-Off" meeting with the Commission Agreement Manager, the Grants Officer, and a representative of the Accounting Office. The Recipient shall bring its Project Manager, Agreement Administrator, Accounting Officer, and others designated by the Commission Agreement Manager to this meeting.
- Discuss the following administrative and technical aspects of this Agreement:
 - Agreement Terms and Conditions

- Critical Project Review (Task 1.2)
- Match fund documentation (Task 1.6); no reimbursable work may be done until this documentation is in place.
- Permit documentation (Task 1.7)
- Subcontracts needed to carry out the project (Task 1.8)
- The CAM's expectations for accomplishing tasks described in the Scope of Work
- An updated Schedule of Products and Due Dates
- Monthly Progress Reports (Task 1.4)
- Technical Products (Product Guidelines located in Section 5 of the Terms and Conditions)
- Final Report (Task 1.5)

Recipient Products:

- Updated Schedule of Products
- Updated List of Match Funds
- Updated List of Permits

Commission Agreement Manager Product:

- Kick-Off Meeting Agenda

Task 1.2 Critical Project Review (CPR) Meetings

CPRs provide the opportunity for frank discussions between the Energy Commission and the Recipient. The goal of this task is to determine if the project should continue to receive Energy Commission funding to complete this Agreement and to identify any needed modifications to the tasks, products, schedule or budget.

The Commission Agreement Manager may schedule CPR meetings as necessary, and the Recipient will bear meeting costs.

Meeting participants include the CAM and the Recipient and may include the Commission Grants Officer, the Fuels and Transportation Division (FTD) biofuel lead, other Energy Commission staff and Management as well as other individuals selected by the CAM to provide support to the Energy Commission.

The CAM shall:

- Determine the location, date, and time of each CPR meeting with the Recipient. These meetings generally take place at the Energy Commission, but they may take place at another location.
- Send the Recipient the agenda and a list of expected participants in advance of each CPR. If applicable, the agenda shall include a discussion on both match funding and permits.
- Conduct and make a record of each CPR meeting. Prepare a schedule for providing the written determination described below.

- Determine whether to continue the project, and if continuing, whether or not modifications are needed to the tasks, schedule, products, or budget, or both for the remainder of the Agreement. Modifications to the Agreement may require a formal amendment (please see section 8 of the Terms and Conditions). If the CAM concludes that satisfactory progress is not being made, this conclusion will be referred to the Lead Commissioner for Transportation for his or her concurrence.
- Provide the Recipient with a written determination in accordance with the schedule. The written response may include a requirement for the Recipient to revise one or more product(s) that were included in the CPR.

The Recipient shall:

- Prepare a CPR Report for each CPR that discusses the progress of the Agreement toward achieving its goals and objectives. This report shall include recommendations and conclusions regarding the continued work of the projects. This report shall be submitted along with any other products identified in this scope of work. The Recipient shall submit these documents to the CAM and any other designated reviewers at least 15 working days in advance of each CPR meeting.
- Present the required information at each CPR meeting and participate in a discussion about the Agreement.

CAM Products:

- Agenda and a list of expected participants
- Schedule for a written determination
- Written determination

Recipient Product:

- CPR Report(s)

Task 1.3 Final Meeting

The goal of this task is to close out this Agreement.

The Recipient shall:

- Meet with Energy Commission staff to present the findings, conclusions, and recommendations. The final meeting must be completed during the closeout of this Agreement.
This meeting will be attended by, at a minimum, the Recipient, the Commission Grants Office Officer, and the Commission Agreement Manager. The technical and administrative aspects of Agreement closeout will be discussed at the meeting, which may be two separate meetings at the discretion of the Commission Agreement Manager.
The technical portion of the meeting shall present an assessment of the degree to which project and task goals and objectives were achieved, findings, conclusions, recommended next steps (if any) for the Agreement, and recommendations for improvements. The Commission Agreement Manager will determine the appropriate meeting participants.
The administrative portion of the meeting shall be a discussion with the Commission Agreement Manager and the Grants Officer about the following Agreement closeout items:

- What to do with any equipment purchased with Energy Commission funds (Options)
- Energy Commission's request for specific "generated" data (not already provided in Agreement products)
- Need to document Recipient's disclosure of "subject inventions" developed under the Agreement
- "Surviving" Agreement provisions
- Final invoicing and release of retention
- Prepare a schedule for completing the closeout activities for this Agreement.

Products:

- Written documentation of meeting agreements
- Schedule for completing closeout activities

Task 1.4 Monthly Progress Reports

The goal of this task is to periodically verify that satisfactory and continued progress is made towards achieving the objectives of this Agreement on time and within budget.

The objectives of this task are to summarize activities performed during the reporting period, to identify activities planned for the next reporting period, to identify issues that may affect performance and expenditures, and to form the basis for determining whether invoices are consistent with work performed.

The Recipient shall:

- Prepare a Monthly Progress Report which summarizes all Agreement activities conducted by the Recipient for the reporting period, including an assessment of the ability to complete the Agreement within the current budget and any anticipated cost overruns. Each progress report is due to the Commission Agreement Manager within ten days of the end of the reporting period. The recommended specifications for each progress report are contained in Section 6 of the Terms and Conditions of this Agreement.
- In the first Monthly Progress Report and first invoice, document and verify match expenditures and provide a synopsis of project progress, if match funds have been expended or if work funded with match share has occurred after the notice of proposed award but before execution of the grant agreement. If no match funds have been expended or if no work funded with match share has occurred before execution, then state this in the report. All pre-execution match expenditures must conform to the requirements in the Terms and Conditions of this Agreement.

Product:

- Monthly Progress Reports

Task 1.5 Final Report

The goal of the Final Report is to assess the project's success in achieving the Agreement's goals and objectives, advancing science and technology, and providing energy-related and other benefits to California.

The objectives of the Final Report are to clearly and completely describe the project's purpose, approach, activities performed, results, and advancements in science and technology; to present a public assessment of the success of the project as measured by the degree to which goals and objectives were achieved; to make insightful observations based on results obtained; to draw conclusions; and to make recommendations for further projects and improvements to the Energy Commission project management processes.

The Final Report shall be a public document. If the Recipient has obtained confidential status from the Energy Commission and will be preparing a confidential version of the Final Report as well, the Recipient shall perform the following activities for both the public and confidential versions of the Final Report.

The Recipient shall:

- Prepare an Outline of the Final Report, if requested by the CAM.
- Prepare a Final Report following the latest version of the Final Report guidelines which will be provided by the CAM. The CAM shall provide written comments on the Draft Final Report within fifteen (15) working days of receipt. The Final Report must be completed at least 60 days before the end of the Agreement Term.
- Submit one bound copy of the Final Report with the final invoice.

Products:

- Outline of the Final Report, if requested
- Draft Final Report
- Final Report

Task 1.6 Identify and Obtain Matching Funds

The goal of this task is to ensure that the match funds planned for this Agreement are obtained for and applied to this Agreement during the term of this Agreement.

The costs to obtain and document match fund commitments are not reimbursable through this Agreement. Although the Energy Commission budget for this task will be zero dollars, the Recipient may utilize match funds for this task. Match funds shall be spent concurrently or in advance of Energy Commission funds for each task during the term of this Agreement. Match funds must be identified in writing and the associated commitments obtained before the Recipient can incur any costs for which the Recipient will request reimbursement.

The Recipient shall:

- Prepare a letter documenting the match funding committed to this Agreement and submit it to the Commission Agreement Manager at least two working days prior to the kick-off meeting. If no match funds were part of the proposal that led to the Energy Commission awarding this Agreement and none have been identified at the time this Agreement starts, then state such in the letter. If match funds were a part of the proposal that led to the Energy Commission awarding this Agreement, then provide in the letter a list of the match funds that identifies the:
 - Amount of each cash match fund, its source, including a contact name, address and telephone number and the task(s) to which the match funds will be applied.

- Amount of each in-kind contribution, a description, documented market or book value, and its source, including a contact name, address and telephone number and the task(s) to which the match funds will be applied. If the in-kind contribution is equipment or other tangible or real property, the Recipient shall identify its owner and provide a contact name, address and telephone number, and the address where the property is located.
- Provide a copy of the letter of commitment from an authorized representative of each source of cash match funding or in-kind contributions that these funds or contributions have been secured. For match funds provided by a grant, a copy of the executed grant shall be submitted in place of a letter of commitment.
- Discuss match funds and the implications to the Agreement if they are reduced or not obtained as committed, at the kick-off meeting. If applicable, match funds will be included as a line item in the progress reports and will be a topic at CPR meetings.
- Provide the appropriate information to the Commission Agreement Manager if during the Agreement additional match funds are received.
- Notify the Commission Agreement Manager within ten days if during the Agreement existing match funds are reduced. Reduction in match funds must be approved through a formal amendment to the Agreement and may trigger an additional CPR meeting.

Products:

- A letter regarding match funds or stating that no match funds are provided
- Copies of each match fund commitment letter(s) (if applicable)
- Letter(s) for new match funds (if applicable)
- A letter if match funds were reduced (if applicable)

Task 1.7 Identify and Obtain Required Permits

The goal of this task is to obtain all permits required for work completed under this Agreement in advance of the date they are needed to keep the Agreement schedule on track.

Permit costs and the expenses associated with obtaining permits are not reimbursable under this Agreement. Although the Energy Commission budget for this task will be zero dollars, the Recipient shall budget match funds for any expected expenditures associated with obtaining permits. Permits must be identified in writing and obtained before the Recipient can make any expenditure for which a permit is required.

The Recipient shall:

- Prepare a letter documenting the permits required to conduct this Agreement and submit it to the Commission Agreement Manager at least two working days prior to the kick-off meeting. If there are no permits required at the start of this Agreement, then state such in the letter. If it is known at the beginning of the Agreement that permits will be required during the Agreement, provide in the letter:
 - A list of the permits that identifies the:
 - Type of permit
 - Name, address and telephone number of the permitting jurisdictions or lead agencies

- The schedule the Recipient will follow in applying for and obtaining these permits.
- Discuss the list of permits and the schedule for obtaining them at the kick-off meeting and develop a timetable for submitting the updated list, schedule and the copies of the permits. The implications to the Agreement if the permits are not obtained in a timely fashion or are denied will also be discussed. If applicable, permits will be included as a line item in the Progress Reports and will be a topic at CPR meetings.
- If during the Agreement additional permits become necessary, provide the appropriate information on each permit and an updated schedule to the Commission Agreement Manager.
- As permits are obtained, send a copy of each approved permit to the Commission Agreement Manager.
- If during the Agreement permits are not obtained on time or are denied, notify the Commission Agreement Manager within five working days. Either of these events may trigger an additional CPR.

Products:

- A letter documenting the permits or stating that no permits are required
- Updated list of permits as they change during the term of the Agreement (if applicable)
- Updated schedule for acquiring permits as changes occur during the term of the Agreement (if applicable)
- A copy of each final approved permit (if applicable)

Task 1.8 Obtain and Execute Subcontracts

The goal of this task is to ensure quality products and to procure subcontractors required to carry out the tasks under this Agreement consistent with the Agreement Terms and Conditions and the Recipient's procurement policies and procedures. It will also provide the Energy Commission an opportunity to review the subcontracts to ensure that the tasks are consistent with this Agreement and that the budgeted expenditures are reasonable and consistent with applicable cost principles.

The Recipient shall:

- Manage and coordinate subcontractor activities.
- Submit a draft of each subcontract required to conduct the work under this Agreement to the Commission Agreement Manager for review.
- Submit a final copy of the executed subcontract.
- If Recipient decides to add new subcontractors, then the Recipient shall notify the CAM.

Products:

- Draft subcontracts
- Final subcontracts

TECHNICAL TASKS

TASK 2 DESIGN AND ENGINEERING

The goal of this task is to complete design and engineering to support the construction of the facility. The task includes design clarifications, contractor/subcontractor submittal responses, and RFI responses by the design engineer.

The Recipient shall:

- Finalize design and engineer documents for the facility.
- Prepare and provide a Written Notification of Completion of Design and Engineering to the CAM. The document shall include information regarding:
 - Design clarifications
 - Contractor/Subcontractor submittal reviews
 - RFI responses to the construction manager and the contractor
 - Final design and engineering documents
 - Approval from applicable agencies (i.e. State Water Resources Board, Placer County Air Quality District, etc.)

Products:

- Written Notification of Completion of Design and Engineering

TASK 3 CONSTRUCTION

The goal of this task is to procure equipment and construct the project through a general contractor.

The Recipient shall:

- Prepare and provide a Procurement Plan for the facility that will detail the process for procurement of equipment, materials, and services. The Procurement Plan will include, but is not limited to:
 - A list of equipment to be purchased
 - A description of the bid packages to be assembled
 - A methodology for receiving and evaluating responses
- Execute the Procurement Plan. Procure equipment for the construction of the biofuel production facility.
- Prepare and provide a Construction Plan for the facility that will outline the budget and schedule for the completion of all construction and installation activities. The Construction Plan will include, but is not limited to:
 - A list of construction and installation milestones
 - A Gantt chart and detailed project schedule
- Prepare and provide Written Notification of Site Preparation for the facility that will notify the CAM that the site has been prepared to initiate construction related activities.
- Implement the Construction Plan.
- Hold a Substantial Completion Meeting with contractors.
- Prepare and provide Project Startup Report for the facility that will notify the CAM that construction and installation activities have been completed.
- Provide photographs of completed construction of the facility and installation of the equipment to the CAM.

Products:

- Procurement Plan
- Construction Plan
- Written Notification of Site Preparation

- Project Startup Report
- Photographs of Completed Construction of Facility and Installation of Equipment

[CPR WILL OCCUR DURING THIS TASK. See Task 1.2 for details.]

TASK 4 COMMISSIONING

The goal of this task is to complete commissioning for the Project and to commence operations. This task will also coordinate the Low Carbon Fuel Standard (LCFS) and Renewable Fuel Standard (RFS) registration processes so the biofuels production facility can claim renewable fuel credit under both programs.

The Recipient shall:

- Prepare and provide a Testing and Commissioning Plan for the facility that will detail the process, deliverables, and milestones associated with the testing and commissioning of the facility. The Testing and Commissioning Plan will include, but is not limited to:
 - A description of the equipment to be tested
 - A description of the methodology to test the identified equipment
 - A list of goals and objectives for the test
 - A description of the quality control and quality assurance practices for the test methodology
- Implement Testing and Commissioning Plan.
- Prepare and provide Testing and Commissioning Report for the facility that will notify the CAM that commissioning activities have been completed and that the plant is ready to commence commercial operations.
- Provide Written Notification of Commercial Operations.
- Provide Written Notification of LCFS registration process.
- Provide Written Notification of RFS registration process.
- Establish a Quality Assurance Plan for renewable attributes from the facility.
- Facilitate monetization of renewable attributes through the LCFS and the RFS programs.

Products:

- Testing and Commissioning Plan
- Testing and Commissioning Report
- Written Notification of Commercial Operations, LCFS, and RFS registration processes
- Quality Assurance Plan for Renewable Attributes

[CPR WILL OCCUR DURING THIS TASK. See Task 1.2 for details.]

TASK 5 DATA COLLECTION AND ANALYSIS

The goal of this task is to collect operational data from the project, to analyze that data for economic and environmental impacts, and to include the data and analysis in the Final Report.

The Recipient shall:

- Develop a data collection plan.
- Troubleshoot any issues identified.
- Collect at least six months of data, including:
 - Throughput, usage, and operations data

- Normal operating hours, uptime, downtime, and explanations of variations
- Feedstock supply summary
- Maximum capacity of the new fuel production system in diesel gallon equivalents (DGE) and ordinary units
- Gallons of gasoline or diesel fuel displaced (with associated mileage information), or both, along with value converted into DGE
- Record of wastes from production processes (wastewater, solid waste, criteria emissions, etc.)
- Expected air emissions reduction, for example:
 - Non-methane hydrocarbons
 - Oxides of nitrogen
 - Non-methane hydrocarbons plus oxides of nitrogen
 - Particulate Matter
 - Formaldehyde
- The duty cycle of the current fleet and the expected duty cycle of future vehicle acquisitions
- Specific jobs and economic development resulting from this project
- Levelized Cost of Fuel and Finished fuel price
- Analysis of total facility costs, operation, and maintenance costs, marginal abatement costs
- Comply with the Petroleum Industry Information Reporting Act (PIIRA) and complete CEC Form M810E and CEC Form M13 every month for submission to the California Energy Commission's PIIRA Data Collection Unit.
- Provide a written record of registering with the Low Carbon Fuel Standard and Renewable Fuel Standard programs.
- Identify any current and planned use of renewable energy at the facility.
- Describe any energy efficiency measures used in the facility that may exceed Title 24 standards in Part 6 of the California Code Regulations.
- Provide data on potential job creation, economic development, and increased state revenue as a result of expected future expansion.
- Provide a quantified estimate of the project's carbon intensity values or provide an Air Resources Board approved pathway carbon intensity.
- Estimate annual life-cycle greenhouse gas emission reduction.
- Compare any project performance and expectations provided in the proposal to Energy Commission with actual project performance and accomplishments.
- Collect data, information, and analysis described above and include in the Final Report.

Products:

- Data collection information and analysis will be included in the Final Report.

TERMS AND CONDITIONS

1. **Grant Agreement**

This project is being funded with a grant from the California Energy Commission's (Energy Commission) Alternative and Renewable Fuel and Vehicle Technology Program.

This Agreement is comprised of the grant funding award, the Terms and Conditions, and all attachments. These Terms and Conditions are standard requirements for grant awards. The Energy Commission may impose additional special conditions in this grant Agreement that address the unique circumstances of this project. Special conditions that conflict with these standard provisions take precedence.

The Recipient's authorized representative shall sign all copies of this Agreement and return all signed packages to the Energy Commission's Grants and Loans Office within 30 days. Failure to meet this requirement may result in the forfeiture of this award. When all required signatures are obtained, an executed copy will be returned to the Recipient.

The term of this Agreement or the Agreement Period is the length of this Agreement between the Energy Commission and the Recipient. Project means Recipient's specific project that is funded in whole or in part by this Agreement. The Recipient's project may coincide with or extend outside the Agreement Period.

All reimbursable work and/or the expenditure of funds must occur within the approved term of this Agreement. The Energy Commission cannot authorize any payments until all parties sign this Agreement.

2. **Documents Incorporated by Reference**

The documents below are incorporated by reference into this Agreement. These terms and conditions will govern in the event of a conflict with the documents below, with the exception of the documents in subsection (f). Where this Agreement or California laws and regulations are silent or do not apply, the Energy Commission will use the federal cost principles and acquisition regulations listed below as guidance in determining whether reimbursement of claimed costs is allowable. Documents incorporated by reference include:

Solicitation Documents (if award is made through a competitive solicitation)

- a. The funding solicitation under which this Agreement was awarded.
- b. The Recipient's proposal submitted in response to the solicitation

Federal Cost Principles (applicable to state and local governments, Indian tribes, institutions of higher education, and nonprofit organizations)

- c. 2 Code of Federal Regulations (CFR) Part 200, Subpart E (Sections 200.400 et seq.)

Federal Acquisition Regulations (applicable to commercial organizations)

- d. 48 CFR, Ch.1, Subchapter E, Part 31, Subpart 31.2: Contracts with Commercial Organizations (supplemented by 48 CFR, Ch. 9, Subchapter E, Part 931, Subpart 931.2 for Department of Energy grants)

Nondiscrimination

- e. 2 California Code of Regulations, Section 11099 et seq.: Contractor Nondiscrimination and Compliance

General Laws

- f. Any federal, state, or local laws or regulations applicable to the project that are not expressly listed in this Agreement

3. *Funding Limitations*

Any federal, State, and local laws and regulations applicable to your project not expressly listed in this Agreement are incorporated herein as part of this Agreement.

4. *Due Diligence*

The Recipient is required to take timely actions which, taken collectively, move this project to completion. The Energy Commission Agreement Manager (CAM) will periodically evaluate the Schedule of Products and Due Dates for completion of the Statement of Work tasks. If the CAM determines (1) the Recipient is not being diligent in completing the tasks in the Statement of Work or (2) the time remaining in this Agreement is insufficient to complete all project work tasks by the approved Agreement end term date, the CAM may recommend that this Agreement be terminated, and the Agreement may, without prejudice to any of the Energy Commission's remedies, be terminated.

5. *Products*

Products are defined as any tangible item specified in the Statement of Work. Unless otherwise directed, draft copies of all products identified in the Work Statement shall be submitted to the CAM for review and comment. The Recipient will submit an original and two copies of the final version of all products to the CAM.

6. *Reports*

- a. Progress Reports

The Recipient shall submit progress reports to the CAM as indicated in the Special Conditions or Work Statement. At a minimum, each progress report shall include the following:

Work Statement: This section should include a brief restatement of the approved tasks in the Work Statement and a report on the status of each, including a discussion of any products due and whether or not the project is progressing according to schedule. This section also should include a discussion of any problems encountered, proposed changes to the tasks in the Work Statement, and anticipated accomplishments in the upcoming quarter.

Financial Status: This section should include a narrative report comparing costs incurred to date with the approved Budget. The report should state whether or not the project is progressing within the approved Budget and discuss any proposed changes.

Additional Information: Additional information may be required in the progress reports as specified in the Work Statement or Special Conditions.

b. Final Reports

A draft final report shall be submitted to the CAM no later than 60 days prior to the end of the Agreement term. At a minimum, the report shall include:

- Table of Contents.
- Abstract.
- A brief summary of the objectives of the project and how these objectives were accomplished.
- Any findings, conclusions, or recommendations for follow-up or ongoing activities that might result from the successful completion of the project.
- A statement of future intent of the grant Recipient to maintain or further develop the project.
- A consolidated list of subcontractors funded in whole or in part by the grant Recipient. Include the name, address, concise statement of work done, period, and value of each.
- Additional information as specified in this Agreement or as directed by the CAM.

The CAM will review the draft report. The Recipient will incorporate applicable comments and submit the final report (the original and two copies) to the CAM.

The Recipient may only submit a request for the final payment (including any retention) after the final report is completed, submitted to the CAM, and Alternative and Renewable Fuel and Vehicle Technology Program management has verified satisfactory completion of work.

c. Rights in Reports

The Energy Commission reserves the right to use and reproduce all reports and data produced and delivered pursuant to this Agreement, and reserves the right to authorize others to use or reproduce such materials. Each report becomes the property of the Energy Commission.

d. **Failure to Comply with Reporting Requirements**

Failure to submit a product required in the Scope of Work may be considered material noncompliance with the Agreement terms. Without prejudice to any other remedies, noncompliance may result in actions such as the withholding of future payments or awards, or the suspension or termination of the Agreement.

7. Publications - Legal Statement on Reports and Products

The Recipient is encouraged to publish or otherwise make publicly available the results of the work conducted under the award.

No product or report produced as a result of work funded by this program shall be represented to be endorsed by the Energy Commission, and all such products or reports shall include the following statement:

LEGAL NOTICE

This document was prepared as a result of work sponsored by the California Energy Commission. It does not necessarily represent the views of the Energy Commission, its employees, or the State of California. The Energy Commission, the State of California, its employees, contractors, and subcontractors make no warranty, express or implied, and assume no legal liability for the information in this document; nor does any party represent that the use of this information will not infringe upon privately owned rights.

8. Changes to the Agreement

a. **Procedure for Requesting Changes**

The Recipient must submit a written request to the CAM for any change to the Agreement. The request must include:

- A brief summary of the proposed change;
- A brief summary of the reason(s) for the change;
- Justification for the change; and
- The revised section(s) of the Agreement, with changes made in underline/ strikethrough format.

b. Approval of Changes

No amendment or variation of this Agreement shall be valid unless made in writing and signed by both of the parties except for the Commission's unilateral termination rights in Section 13 of these terms. No oral understanding or agreement is binding on any of the parties. Changes to the Agreement must be approved at a Commission business meeting or by the Executive Director (or his/her designee).

The CAM or Commission Agreement Officer will provide the Recipient with guidance regarding the level of Commission approval required for a proposed change.

c. Personnel or Subcontractor Changes

All changes below require advance written approval by the CAM, in addition to the appropriate level of Commission approval as described in subsection (b).

1) Replacement of Key Personnel, Subcontractors, and Vendors

The CAM must provide advance written approval of the replacement of personnel, subcontractors, and vendors who are identified in the Agreement and are critical to the outcome of the project, such as the Project Manager.

2) Assignment of New Personnel to an Existing Job Classification

If the Recipient or a subcontractor seeks to assign new personnel to a job classification identified in Exhibit B, the Recipient or subcontractor must submit the individual's resume and proposed job classification and rate to the CAM for approval. The proposed rate may not exceed the maximum rate identified for the job classification. Neither the Recipient nor any subcontractor may use the job classifications or rates of their subcontractors for personnel.

If the individual performs any work prior to the effective date of the amendment documenting the change, the Recipient will bear the expense of the work.

3) Promotion of Existing Personnel (Applies to Recipients and major subcontractors)

Promotion of existing Recipient and major subcontractor personnel to rates higher than those listed for their current classification in Exhibit B will not be approved. If the actual rates (e.g., direct labor rates, fringe benefit rates, and indirect rates) exceed the approved rates in the Budget, the difference may be charged to the agreement as a match share expenditure.

4) Addition of job classifications and changes in hours.

5) Increased direct operating expenses and rates that exceed the expenses and rates identified in Exhibit B.

9. Contracting and Procurement Procedures

This section provides general requirements for an agreement between the Recipient and a third party ("subcontractor").

All subcontracts must be submitted to the CAM for review prior to execution. For subcontracts that are listed as "to be determined" in the Budget, the Recipient must submit a revised Budget to the CAM, identifying the subcontractor and specific items of cost expected to be incurred by that subcontractor. In addition, Recipient must have a fully executed subcontract before the subcontractor can incur any costs for which the Recipient will seek reimbursement.

The Recipient is required, where feasible, to employ contracting and procurement practices that promote open competition for all goods and services needed to complete this project. Recipient shall obtain price quotes from an adequate number of sources for all subcontracts.

The Energy Commission will defer to the Recipient's own regulations and procedures as long as they reflect applicable state and local laws and regulations and are not in conflict with the minimum standards specified in this Agreement.

Upon request, the Recipient must submit to the CAM a copy of all solicitations for services or products required to carry out the terms of this Agreement and copies of the proposals or bids received.

The Recipient is responsible for handling all contractual and administrative issues arising out of or related to any subcontracts it enters into under this Agreement.

All subcontracts must incorporate all of the following:

- A clear and accurate description of the material, products, or services to be procured as well as a detailed budget and timeline.
- Provisions that allow for administrative, contractual, or legal remedies in instances where subcontractors violate or breach contract terms, and provide for such sanctions and penalties as may be appropriate.
- Provisions for termination by the Recipient, including termination procedures and the basis for settlement.
- Language conforming to the "Nondiscrimination" provision in this Agreement.
- The Standard of Performance provisions specified in this Agreement.
- Retention of Records provisions specified in this Agreement.
- Audits provisions specified in this Agreement.
- Language conforming to the "Indemnification" provision in this Agreement.
- Public Work -- Payment of Prevailing Wages Generally Required by Law provisions in this Agreement

Recipients who are subcontracting with University of California (UC) may use the terms and conditions negotiated by the Energy Commission with UC for their subcontracts. Recipients who are subcontracting with the Department of Energy (DOE) national laboratories may use the terms and conditions negotiated with DOE.

Without limiting any of the Commission's other remedies, failure to comply with the above requirements may result in the termination of this Agreement.

10. Bonding and Insurance

The Recipient will follow its own bonding and insurance requirements relating to bid guarantees, performance bonds, and payment bonds without regard to the dollar value of the subcontract(s) as long as they reflect applicable state and local laws and regulations.

11. Permits and Clearances

The Recipient is responsible for ensuring all necessary permits and environmental documents are prepared and clearances are obtained from the appropriate agencies.

12. Equipment

Equipment is defined as having a useful life of at least one year, having an acquisition unit cost of at least \$5,000, and purchased with Energy Commission funds. Equipment means any products, objects, machinery, apparatus, implements or tools purchased, used or constructed within the Project, including those products, objects, machinery, apparatus, implements or tools from which over thirty percent (30%) of the equipment is composed of materials purchased for the Project. For purposes of determining depreciated value of equipment used in the Agreement, the Project shall terminate at the end of the normal useful life of the equipment purchased, funded and/or developed with Energy Commission funds. The Energy Commission may determine the normal useful life of such equipment.

Title to equipment acquired by the Recipient with grant funds shall vest in the Recipient. The Recipient shall use the equipment in the project or program for which it was acquired as long as needed, whether or not the project or program continues to be supported by grant funds, and the Recipient shall not encumber the property without CAM approval. When no longer needed for the original project or program, the Recipient shall contact the CAM for disposition instructions.

13. Termination

This project may be terminated for any reason set forth below.

a. With Cause

The Energy Commission may, for cause, terminate this Agreement upon giving five (5) calendar days advance written notice to the Recipient. In this event, the Recipient will use all reasonable efforts to mitigate its expenses and obligations.

The term "for cause" includes but is not limited to the following:

- Partial or complete loss of match funds;
- Reorganization to a business entity unsatisfactory to the Energy Commission;
- Retention or hiring of subcontractors, or replacement or addition of personnel, that fail to perform to the standards and requirements of this Agreement;
- The Recipient's inability to pay its debts as they become due and/or the Recipient's default of an obligation that impacts its ability to perform under this Agreement; or
- Significant change in state or Energy Commission policy such that the work or product being funded would not be supported by the Commission.

b. **Without Cause**

The Energy Commission may terminate this Agreement without cause upon giving thirty (30) days advance written notice to the Recipient. In this event, the Recipient will use all reasonable efforts to mitigate its expenses and obligations.

14. Stop Work

Energy Commission staff may, at any time, by written notice to Recipient, require Recipient to stop all or any part of the work tasks in this Agreement. Stop work orders may be issued for reasons such as a project exceeding budget, standard of performance, out of scope work, delay in Project schedule, misrepresentations and the like.

- a. **Compliance.** Upon receipt of such stop work order, Recipient shall immediately take all necessary steps to comply therewith and to stop the incurrence of costs allocable to the Energy Commission.
- b. **Canceling a Stop Work Order.** Recipient shall resume the work only upon receipt of written instructions from Energy Commission staff.

15. Travel and Per Diem

- a. The Recipient shall be reimbursed for travel and per diem expenses using the same rates provided to non-represented State employees. The Recipient must pay for travel in excess of these rates. The Recipient may obtain current rates from the Energy Commission's Web Site at: http://www.energy.ca.gov/contracts/TRAVEL_PER_DIEM.PDF.
- b. For purposes of payment, Recipient's headquarters shall be considered the location of the Recipient's office where the employees' assigned responsibilities for this award are permanently assigned.
- c. Travel identified in the Budget section of this Agreement is approved and does not require further authorization.

- d. Travel that is not included in the Budget section of this Agreement shall require written authorization from the CAM and Commission Agreement Officer prior to travel departure. The Energy Commission will reimburse travel expenses from the Recipient's office location.
- e. The Recipient must retain documentation of travel expenses in its financial records. The documentation must be listed by trip and include dates and times of departure and return, departure and destination cities. Travel receipts, including for travel meals and incidentals, shall be submitted with payment requests requesting reimbursement from the Energy Commission.

16. Standard of Performance

Recipient, its subcontractors and their employees, in the performance of Recipient's work under this Agreement shall be responsible for exercising the degree of skill and care required by customarily accepted good professional practices and procedures used in the Recipient's field.

Any costs for failure to meet the foregoing standard or to correct otherwise defective work that requires re-performance of the work, as directed by CAM, shall be borne in total by Recipient and not the Energy Commission. The failure of a project to achieve the performance goals and objectives stated in the Work Statement is not a basis for requesting re-performance unless the work conducted by Recipient and/or its subcontractors is deemed by the Energy Commission to have failed the foregoing standard of performance.

In the event Recipient/subcontractor fails to perform in accordance with the above standard:

- Recipient/subcontractor will re-perform, at its own expense, any task which was not performed to the reasonable satisfaction of the CAM. Any work re-performed pursuant to this paragraph shall be completed within the time limitations originally set forth for the specific task involved. Recipient/subcontractor shall work any overtime required to meet the deadline for the task at no additional cost to the Energy Commission;
- The Energy Commission shall provide a new schedule for the re-performance of any task pursuant to this paragraph in the event that re-performance of a task within the original time limitations is not feasible; and
- The Energy Commission shall have the option to direct Recipient/subcontractor not to re-perform any task which was not performed to the reasonable satisfaction of the CAM pursuant to application of (1) and (2) above. In the event the Energy Commission directs Recipient/subcontractor not to re-perform a task, the Energy Commission and Recipient shall negotiate a reasonable settlement for satisfactory work performed. No previous payment shall be considered a waiver of the Energy Commission's right to reimbursement.

Nothing contained in this section is intended to limit any of the rights or remedies which the Energy Commission may have under law.

17. Payment of Funds

The Energy Commission agrees to reimburse the Recipient for actual allowable expenditures incurred in accordance with the Budget. The rates in the Budget are rate caps, or the maximum amount allowed to be billed.

The Recipient can only bill for actual expenses incurred at the Recipient's actual rates not to exceed the rates specified in the Budget (e.g., direct labor rates, fringe benefit rates, and indirect rates). For example, if the Budget includes an employee's hourly rate of \$50/hour but the employee is only paid \$40/hour, the Recipient can only bill for \$40/hour. Under the same example, if the employee earned \$70/hour but the Budget only lists \$50/hour, the Recipient can only bill for \$50. Another example is if the maximum fringe benefit rate listed in the Budget is 20% but the Recipient's actual fringe benefit rate is only 15%, the Recipient can only bill at 15%. If the actual rates (e.g., direct labor rates, fringe benefit rates, and indirect rates) exceed the approved rates in the Budget, the difference may be charged to the agreement as a match share expenditure.

a. Payment Requests

The Recipient may request payment from the Energy Commission at any time during the term of this Agreement. The final payment request must be received by the Energy Commission along with the draft Final Report 60 days prior to the end of the Agreement term.

Payments will generally be made on a reimbursement basis for Recipient expenditures, i.e., after the Recipient has incurred the cost for a service, product, supplies, or other approved budget item. No reimbursement for food or beverages shall be made other than allowable per diem charges.

Funds in this Agreement have a limited period in which they must be expended. All Recipient expenditures must occur within the approved term of this Agreement.

b. Documentation

All payment requests must be submitted using a completed Payment Request form. This form must be accompanied by an itemized list of all charges and copies of all receipts or invoices necessary to document these charges for both Energy Commission and match share, including backup documentation for actual expenditures, such as time cards, vendor invoices, and proof of payment. Any payment request that is submitted without the itemization will not be authorized. If the itemization or documentation is incomplete, inadequate, or inaccurate, the CAM will inform the Recipient via a Dispute Notification Form (Std. 209) and hold the invoice until all required information is received or corrected. Any penalties imposed on the Recipient by a subcontractor because of delays in payment will be paid by the Recipient.

Any documentation in foreign currency must be converted to dollars, and the conversion rate must be included in your itemization.

c. Certification

The following certification shall be included on each Payment Request form and signed by the Recipient's authorized officer:

I certify that this invoice is correct and proper for payment, and reimbursement for these costs has not and will not be received from any other sources, including but not limited to a government entity contract, subcontract or other procurement method.

Additional certification required related to the payment of prevailing wages. Refer to section 26 of these terms and conditions for more information.

d. Government Entity

Government Entity is defined as a governmental agency from California or any state or a state college or state university from California or any state; a local government entity or agency, including those created as a Joint Powers Authority; an auxiliary organization of the California State University or a California community college; the Federal Government; a foundation organized to support the Board of Governors of the California Community Colleges or an auxiliary organization of the Student Aid Commission established under Education Code 69522.

e. Release of Funds

The CAM will not process any payment request during the Agreement term until the following conditions have been met:

- All required reports have been submitted and are satisfactory to the CAM.
- All applicable special conditions have been met.
- All appropriate permits or permit waivers from governmental agencies have been issued to the Recipient and copies have been received by the CAM.
- All products due have been submitted and are satisfactory to the CAM.
- Other prepayment conditions as may be required by the CAM have been met. Such conditions will be specified in writing ahead of time, if possible.

- f. Fringe Benefits, Indirect Overhead, and General and Administrative (G&A), Indirect cost rates must be developed in accordance with generally accepted accounting principles. If the Recipient has an approved fringe benefits or indirect cost rate (indirect overhead or G&A) from their cognizant Federal Agency, the Recipient may bill at the federal rate up to the Budget rate caps if the following conditions are met:
- The Recipient may bill at the federal provisional rate but must adjust annually to reflect their actual final rates for the year in accordance with the Labor, Fringe, and Indirect Invoicing Instructions which can be accessed in this agreement.
 - The cost pools used to develop the federal rates must be allocable to the Energy Commission Agreement, and the rates must be representative of the portion of costs benefiting the Energy Commission Agreement. For example, if the federal rate is for manufacturing overhead at the Recipient's manufacturing facility and the Energy Commission Agreement is for research and development at their research facility, the federal indirect overhead rate would not be applicable to the Energy Commission Agreement.
 - The federal rate must be adjusted to exclude any costs that are specifically prohibited in the Energy Commission Agreement.
 - The Recipient may only bill up to the Agreement Budget rate caps unless and until an amendment to the Agreement Budget is approved.
- g. Retention
- It is the Energy Commission's policy to retain 10 percent of any payment request or 10 percent of the total Energy Commission award at the end of the project. After the project is complete the Recipient must submit a completed payment request form requesting release of the retention. The CAM will review the project file and, when satisfied that the terms of the funding Agreement have been fulfilled, will authorize release of the retention.
- h. State Controller's Office
- Payments are made by the State Controller's Office.

18. Fiscal Accounting Requirements

a. Accounting and Financial Methods

The Recipient shall establish a separate ledger account or fund for receipt and disbursement of Energy Commission funds for each project funded by the Energy Commission. Expenditure details must be maintained in accordance with the approved budget details using appropriate accounting practices.

b. Retention of Records

The Recipient shall retain all project records (including financial records, progress reports, and payment requests) for a minimum of three (3) years after the final payment has been received or three years after the federal grant term, whichever is later, unless otherwise specified in the funding Agreement.

Records for nonexpendable personal property acquired with grant funds shall be retained for three years after its final disposition or three years after the federal grant term, whichever is later.

c. Audits

Upon written request from the Energy Commission, the Recipient shall provide detailed documentation of all expenses at any time throughout the project. In addition, the Recipient agrees to allow the Energy Commission or any other agency of the State, or their designated representative, upon written request, to have reasonable access to and the right of inspection of all records that pertain to the project during the term of this Agreement and for a period of three (3) years thereafter or three years after the federal grant term, whichever is later, unless the Energy Commission notifies the Recipient, prior to the expiration of such three-year period, that a longer period of record retention is necessary. Further, the Recipient agrees to incorporate an audit of this project within any scheduled audits, when specifically requested by the State. Recipient agrees to include a similar right to audit in any subcontract.

Recipients are strongly encouraged to conduct annual audits in accordance with the single audit concept. The Recipient should provide two copies of the independent audit report and any resulting comments and correspondence to the CAM within 30 days of the completion of such audits.

d. Cost or Match Share

Cost or Match Share means cash or in-kind (non-cash) contributions provided by Recipient, subcontractors or other parties that will be used in performance of this Agreement.

If the grant Budget includes cost or match share under this Agreement, the Recipient agrees to be liable for the percentage of cost or match share identified in this Agreement of the total allowable project costs incurred even if the project is terminated early or is not funded to its completion.

Total allowable project cost is the sum of the Agreement share and Recipient share of the project costs. *Cost share* percentage is calculated by dividing Recipient cost share amount by the total allowable project cost. *Match share* percentage is calculated by dividing Recipient match share by the Agreement share of the project costs.

Failure to provide the minimum required cost or match share may result in the subsequent recovery of some or all of the funds provided under this Agreement.

The Recipient must maintain accounting records detailing the expenditure of the match (actual cash and in-kind services) and provide complete documentation of expenditures as described under "Payment of Funds."

19. Indemnification

The Recipient agrees to indemnify, defend, and save harmless the State, its officers, agents, and employees from any and all claims and losses accruing or resulting to Recipient and to any and all contractors, subcontractors, materialmen, laborers, and any other person, firm, or corporation furnishing or supplying work, services, materials, or supplies in connection with the performance of this Agreement, and from any and all claims and losses accruing or resulting to any person, firm, or corporation who may be injured or damaged by the Recipient in the performance of this Agreement.

20. Workers' Compensation Insurance

- a. Recipient hereby warrants that it carries Worker's Compensation Insurance for all of its employees who will be engaged in the performance of this Agreement, and agrees to furnish to the CAM satisfactory evidence of this insurance at any time the CAM may request.
- b. If Recipient is self-insured for worker's compensation, it hereby warrants such self-insurance is permissible under the laws of the State of California and agrees to furnish to the CAM satisfactory evidence of this insurance at any time the CAM may request.

21. General Provisions

a. Governing Law

It is hereby understood and agreed that this Agreement shall be governed by the laws of the State of California as to interpretation and performance.

b. Independent Capacity

The Recipient, and the agents and employees of the Recipient, in the performance of this Agreement, shall act in an independent capacity and not as officers or employees or agents of the Energy Commission.

c. Assignment

Without the written consent of the Energy Commission in the form of a formal written amendment, this Agreement is not assignable or transferable by Recipient either in whole or in part.

d. Timeliness

Time is of the essence in this Agreement.

e. Unenforceable Provision

In the event that any provision of this Agreement is unenforceable or held to be unenforceable, then the parties agree that all other provisions of this Agreement have force and effect and shall not be affected thereby.

f. Waiver

No waiver of any breach of this Agreement shall be held to be a waiver of any other or subsequent breach. All remedies afforded in this Agreement shall be taken and construed as cumulative, that is, in addition to every other remedy provided therein or by law.

g. Assurances

The Energy Commission reserves the right to seek further written assurances from the Recipient and its team that the work of the project under this Agreement will be performed consistent with the terms of the Agreement.

h. Change in Business

(1) Recipient shall promptly notify the Energy Commission of the occurrence of each of the following:

- (a) A change of address.
- (b) A change in the business name or ownership.
- (c) The existence of any litigation or other legal proceeding affecting the project.
- (d) The occurrence of any casualty or other loss to project personnel, equipment or third parties of a type commonly covered by insurance.
- (e) Receipt of notice of any claim or potential claim against Recipient for patent, copyright, trademark, service mark and/or trade secret infringement that could affect the Energy Commission's rights.

(2) Recipient shall not change or reorganize the type of business entity under which it does business except upon prior written notification to the Energy Commission. A change of business entity or name change requires an amendment assigning or novating the Agreement to the changed entity. In the event the Energy Commission is not satisfied that the new entity can perform as the original Recipient, the Energy Commission may terminate this Agreement as provided in the termination paragraph.

i. **Survival of Terms**

It is understood and agreed that certain provisions shall survive the completion or termination date of this Agreement for any reason. The provisions include, but are not limited to:

- "Payments of Funds"
- "Equipment"
- "Change in Business"
- "Termination"
- "Audit"
- "Indemnification"
- "Fiscal Accounting Requirements"

22. Certifications and Compliance

a. **Federal, State and Municipal Requirements**

Recipient must obtain any required permits and shall comply with all applicable federal, State, and municipal laws, rules, codes, and regulations for work performed under this Agreement.

b. **Nondiscrimination Statement of Compliance**

During the performance of this Agreement, Recipient and its subcontractors shall not unlawfully discriminate, harass or allow harassment, against any employee or applicant for employment because of sex, sexual orientation, race, color, ancestry, religious creed, national origin, disability (including HIV and AIDS), medical condition (cancer), age, marital status, and denial of family care leave. Recipient and its subcontractors shall insure that the evaluation and treatment of their employees and applicants for employment are free of such discrimination and harassment. Recipient and its subcontractors shall comply with the provisions of the Fair Employment and Housing Act (Government Code Sections 12990 et seq.) and the applicable regulations promulgated thereunder (California Code of Regulations, Title 2, Section 11000 et seq.). The applicable regulations of the Fair Employment and Housing Commission implementing Government Code Section 12990 (a-f), set forth in Chapter 5 of Division 4.1 of Title 2 of the California Code of Regulations are incorporated into this Agreement by reference and made a part of it as if set forth in full. Recipient and its subcontractors shall give written notice of their obligations under this clause to labor organizations with which they have a collective bargaining or other Agreement.

The Recipient shall include the nondiscrimination and compliance provisions of this clause in all subcontracts to perform work under this Agreement.

c. Drug-Free Workplace Certification

By signing this Agreement, the Recipient hereby certifies under penalty of perjury under the laws of the State of California that the Recipient will comply with the requirements of the Drug-Free Workplace Act of 1990 (Government Code Section 8350 et seq.) and will provide a drug-free workplace by taking the following actions:

- (1) Publish a statement notifying employees that unlawful manufacture, distribution, dispensation, possession, or use of a controlled substance is prohibited and specifying actions to be taken against employees for violations as required by Government Code Section 8355(a)(1).
- (2) Establish a Drug-Free Awareness Program as required by Government Code Section 8355(a)(2) to inform employees about all of the following:
 - The dangers of drug abuse in the workplace;
 - The person's or organization's policy of maintaining a drug-free workplace;
 - Any available counseling, rehabilitation, and employee assistance programs; and
 - Penalties that may be imposed upon employees for drug abuse violations.
- (3) Provide, as required by Government Code Section 8355(a)(3), that every employee who works on the proposed project:
 - Will receive a copy of the company's drug-free policy statement;
 - Will agree to abide by the terms of the company's statement as a condition of employment on the project.

Failure to comply with these requirements may result in suspension of payments under the Agreement or termination of the Agreement or both, and the Recipient may be ineligible for any future State awards if the Energy Commission determines that any of the following has occurred: (1) the Recipient has made false certification, or (2) violates the certification by failing to carry out the requirements as noted above.

d. Child Support Compliance Act (Applicable to California Employers)

For any Agreement in excess of \$100,000, the Recipient acknowledges that:

- It recognizes the importance of child and family support obligations and shall fully comply with all applicable State and federal laws relating to child and family support enforcement, including, but not limited to, disclosure of information and compliance with earnings assignment orders, as provided in Chapter 8 (commencing with section 5200) of Part 5 of Division 9 of the Family Code; and
 - To the best of its knowledge is fully complying with the earnings assignment orders of all employees and is providing the names of all new employees to the New Hire Registry maintained by the California Employment Development Department.
- e. **Americans with Disabilities Act**
- By signing this Agreement, Recipient assures the State that it complies with the Americans with Disabilities Act (ADA) of 1990 (42 U.S.C. 12101, et seq.), which prohibits discrimination on the basis of disability, as well as applicable regulations and guidelines issued pursuant to the ADA.

23. Site Visits

The Energy Commission and/or its designees have the right to make site visits at reasonable times to review project accomplishments and management control systems and to provide technical assistance, if required. Recipient must provide and must require subawardees to provide reasonable facilities and assistance for the safety and convenience of the government representatives in the performance of their duties. All site visits and evaluations must be performed in a manner that does not unduly interfere with or delay the work.

24. Confidentiality

a. Information Considered Confidential

Confidential information is information designated confidential pursuant to the procedures specified in 20 CCR 2505. If applicable, all Recipient information considered confidential at the commencement of this Agreement is designated in the Attachment to this Exhibit.

b. Confidential Deliverables: Labeling and Submitting Confidential Information

Prior to the commencement of this Agreement, if applicable, the parties have identified in the Attachment to this Exhibit, specific Confidential Information to be provided as a deliverable. All such confidential deliverables shall be marked, by the Recipient, as "Confidential" on each page of the document containing the Confidential Information and presented in a sealed package to the Commission Agreement Officer. (Non-confidential deliverables are submitted to the Accounting Office.) All Confidential Information will be contained in the "confidential" volume: no Confidential Information will be in the "public" volume.

c. **Submittal of Unanticipated Confidential Information as a Deliverable**

The Recipient and the Energy Commission agree that during this Agreement, it is possible that the Recipient may develop additional data or information not originally anticipated as a confidential deliverable. In this case, Recipient shall follow the procedures for a request for designation of Confidential Information specified in 20 CCR 2505. The Energy Commission's Executive Director makes the determination of confidentiality. Such subsequent determinations may be added to the list of confidential deliverables in the Attachment to this Exhibit.

d. **Disclosure of Confidential Information**

Disclosure of Confidential Information by the Energy Commission may only be made pursuant to 20 CCR 2506 and 2507. All confidential data, records or deliverables that are legally disclosed by the Recipient or any other entity become public records and are no longer subject to the above confidentiality designation.

25. Budget Contingency Clause

It is mutually agreed that this Agreement shall be of no further force and effect if the Budget Act of the current year and/or any subsequent years covered under this Agreement does not appropriate sufficient funds for the work identified in the Scope of Work. In this event, the Energy Commission shall have no liability to pay any funds whatsoever to the Recipient or to furnish any other consideration under this Agreement, and the Recipient shall not be obligated to perform any provisions of this Agreement.

If funding for any fiscal year is reduced or deleted by the Budget Act for purposes of this program, the Energy Commission shall have the option to either:

- 1) cancel this Agreement with no liability occurring to the Energy Commission; or
- 2) offer an Agreement Amendment to the Recipient to reflect the reduced amount.

26. Public Works -- Payment of Prevailing Wages

Generally Required by Law

Projects that receive an award of public funds from the Energy Commission often involve construction, alteration, demolition, installation, repair or maintenance work over \$1,000.

NOTE: Projects that receive an award of public funds from the Energy Commission are likely to be considered public works under the California Labor Code. See Chapter 1 of Part 7 of Division 2 of the California Labor Code, commencing with Section 1720 and Title 8, California Code of Regulations, Chapter 8, Subchapter 3, commencing with Section 16000.

Accordingly, the Energy Commission assumes that all projects it funds are public works. Projects deemed to be public works require among other things the payment of prevailing wages.

NOTE: Prevailing wage rates can be significantly higher than non-prevailing wage rates.

By accepting this Agreement, Recipient as a material term of this Agreement shall be fully responsible for complying with all California public works requirements including but not limited to payment of prevailing wage. Therefore, as a material term of this Agreement, Recipient must either:

(a) Proceed on the assumption that the project is a public work and ensure that:

- (i) prevailing wages are paid; and
- (ii) the project budget for labor reflects these prevailing wage requirements; and
- (iii) the project complies with all other requirements of prevailing wage law including but not limited to keeping accurate payroll records, and complying with all working hour requirements and apprenticeship obligations;

or,

(b) Timely obtain a legally binding determination from DIR or a court of competent jurisdiction before work begins on the project that the proposed project is not a public work.

NOTE: Only the California Department of Industrial Relations (DIR) and courts of competent jurisdiction have jurisdiction to issue legally binding determinations that a particular project is or is not a public work.

If the Recipient is unsure whether the project receiving this award is a "public work" as defined in the California Labor Code, it may wish to seek a timely determination from the California Department of Industrial Relations (DIR) or an appropriate court.

NOTE: Such processes can be time consuming and therefore it may not be possible to obtain a timely determination before the date for performance of the award commences.

If the Recipient does not timely obtain a binding determination from DIR or a court of competent jurisdiction that the project is not a public work, before this Agreement from the Energy Commission is executed, the Recipient shall assume that the project is a public work and that payment of prevailing wages is required and shall pay prevailing wages unless and until such time as the project is subsequently determined to not be a public work by DIR or a court of competent jurisdiction.

NOTE: California Prevailing Wage law provides for substantial damages and financial penalties for failure to pay prevailing wages when payment of prevailing wages is required.

Subcontractors and Flow-down Requirements. Recipient shall ensure that its subcontractors, if any, also comply with above requirements with respect to public works/prevaling wage. Recipient shall ensure that all agreements with its contractors/subcontractors to perform work related to this Project contain the above terms regarding payment of prevailing wages on public works projects. Recipient shall be responsible for any failure of Recipient's subcontractors to comply with California prevailing wage and public works laws.

Indemnification and Breach. Any failure of Recipient or its subcontractors to comply with the above requirements shall constitute a breach of this Agreement that excuses the Energy Commission's performance of this Agreement at the Energy Commission's option, and shall be at Recipient's sole risk. In such a case, Energy Commission may refuse payment to Recipient of any amount under this Agreement and Energy Commission shall be released, at its option, from any further performance of this award or any portion thereof. By accepting this Agreement, and as a material term of this Agreement, Recipient agrees to indemnify the Energy Commission and hold the Energy Commission harmless for any and all financial consequences arising out of or resulting from the failure of Recipient and/or any of Recipient's subcontractors to pay prevailing wages or to otherwise comply with the requirements of prevailing wage law.

Budget. Recipient's budget on public works projects must indicate which job classifications are subject to prevailing wage. For detailed information about prevailing wage and the process to determine if the proposed project is a public work, Recipient may wish to contact the California Department of Industrial Relations (DIR) or a qualified labor attorney of their choice for guidance.

Covered Trades. For public works projects, Recipient may contact DIR for a list of covered trades and the applicable prevailing wage.

Questions. If Recipient has any questions about this contractual requirement or the wage, record keeping, apprenticeship or other significant requirements of California prevailing wage law, it is recommended that Recipient consult DIR and/or a qualified labor attorney of its choice before accepting this Agreement.

Certification. Recipient shall certify to the Energy Commission on each Payment Request Form, either that (1) prevailing wages were paid to eligible workers who provided labor for work covered by the payment request and that the Recipient and all contractors and subcontractors otherwise complied with all California prevailing wage laws, or (2) that the project is not a public work requiring the payment of prevailing wages. In the latter case, Recipient shall provide competent proof of a DIR or court determination that the project is not a public work requiring the payment of prevailing wages.

Prior to the release of any retained funds under this Agreement, the Recipient shall submit to the Energy Commission the above-described certificate signed by the Recipient and all contractors and subcontractors performing public works activities on the project. Absent such certificate, Recipient shall have no right to any funds under this Agreement, and Energy Commission shall be relieved of any obligation to pay said funds.

27. *Intellectual Property*

The Energy Commission makes no claim to intellectual property developed under this Agreement that is not specified for delivery, except as expressly provided herein.

RESOLUTION NO. 19-334

APPROVING THE CALIFORNIA ENERGY COMMISSION GRANT AGREEMENT, BY
AND BETWEEN THE CITY OF ROSEVILLE AND THE STATE OF CALIFORNIA, AND
AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE
CITY OF ROSEVILLE

WHEREAS, the California Energy Commission Grant Agreement for the Pleasant Grove Wastewater Treatment Plant Energy Recovery project, by and between the City of Roseville and the State of California, has been reviewed by the City Council; and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that said grant agreement is hereby approved and that the City Manager is authorized to execute it on behalf of the City of Roseville.

PASSED AND ADOPTED by the Council of the City of Roseville this 17th day of July, 2019, by the following vote on roll call:

AYES COUNCILMEMBERS: Alvord, Roccucci, Houdesheldt, Allard

NOES COUNCILMEMBERS: None

ABSENT COUNCILMEMBERS: Bernasconi

**RE: STATE OF CALIFORNIA GRANT AGREEMENT ARV-18-020 - GRANT
AGREEMENT APPROVAL**

At the meeting of July 17, 2019 the City Council adopted a resolution authorizing the City Manager to execute the above agreement. The original agreement, which has been signed by the City, is enclosed along with a certified copy of authorizing Resolution No. 19-334.

When the agreement has been fully executed, please return one original to: Cary Busterna, City of Roseville, City Clerk Department, 311 Vernon Street, Roseville, CA 95678.

If you have any questions, please contact Tracie Mueller at (916) 774-5688.

AMENDMENT TO ADD STREAMLINING GRANT TERMS AND CONDITIONS

The Energy Commission (CEC) has undergone a significant effort to improve its grant agreements across its programs. To implement these improvements, the CEC and existing grant recipients must amend existing agreements. Because different CEC programs have different terms and conditions and because even the same CEC programs can have different terms depending on when the agreements were executed, individually changing the terms in each existing grant agreement is impractical. Instead, the CEC has developed these terms and conditions and placed them in their own document. The existing grant agreement identified in the signature block at the end of this document is being amended to include this document. The effective date of this amendment is the date the parties execute it, which is the date the last of the parties signs it.

The CEC acknowledges that terms in this document will conflict with some of the terms and other requirements in existing grant agreements. Accordingly, where there is a conflict, the CEC and Recipient agree that this document controls. Outside of the changes made by this document, all other grant terms and requirements remain unchanged.

Acronyms and Terms Used in this Document and Their Meaning

Agreement	The grant agreement executed between the CEC and the Recipient.
Budget Categories	Means the following categories in Exhibit B, Budget: Direct Labor, Fringe Benefits, Travel, Equipment, Materials and Miscellaneous, Subrecipients and Vendors (formerly Subcontractors), and Indirect Costs and Profit.
CAM	Commission Agreement Manager
CEC	California Energy Commission
Existing Terms	The terms that might be found in any of the CEC grant agreements in any of its programs, including the terms for this Agreement.
Incurred Costs	An expense for which the Recipient has become liable (legally obligated) to pay.
MTDC	Modified Total Direct Costs, which means all direct salaries and wages, applicable fringe benefits, materials and supplies, services, travel, and up to the first \$25,000 of each subaward (regardless of the period of performance of the subawards under the award). MTDC excludes equipment, capital expenditures, rental costs, tuition remission, scholarships and fellowships, and the portion of each subaward in excess of \$25,000.
Paid Costs	An expense for which the Recipient has already made payment.
Recipient	The entity that executed this Agreement with the CEC.
Subaward	For the Recipient, a Subaward means all agreements it has with Subrecipients and Vendors. For a Subrecipient, a Subaward means all agreements it has with Sub-Subrecipients and Vendors. For any lower-tiered level of Sub-Subrecipient, a Subaward means all agreements it has with its own Sub-Subrecipients and Vendors.

Subrecipient (formerly Subcontractor)	A person or entity that receives grant funds directly from the Recipient and is entrusted by the Recipient to make decisions about how to conduct some of the grant's activities. A Subrecipient's role involves discretion over grant activities and is not merely just selling goods or services.
Sub-Subrecipient	Has the same meaning as a Subrecipient except that it receives grant funds from a Subrecipient or any lower tier level of a Sub-Subrecipient.
Vendor	A person or entity that sells goods or services to the Recipient, Subrecipient, or any lower-tiered level of Sub-Subrecipient, in exchange for some of the grant funds, and does not make decisions about how to perform the grant's activities. The Vendor's role is ministerial and does not involve discretion over grant activities.
These Terms	The terms in this document titled "Streamlining Grant Terms and Conditions."

1. Decoupling Products from Invoices

Existing Terms typically require grant recipients to submit products with invoices. This is no longer required. Recipients can separately submit products and invoices.

2. Quarterly Instead of Monthly Reports

Most grants include within their scopes of work an administrative task requiring grant recipients to submit monthly progress reports, often concurrent with submission of an invoice. This is no longer required. Instead, Recipients will now submit progress reports quarterly instead of monthly. Unless a different arrangement is discussed with and approved by the Commission Agreement Manager (CAM) in writing, which can be done without amending these terms (e.g., as simple as an email from the CAM), quarterly means by the tenth day of each January, April, July, and October.

3. New Requirement for Monthly Calls with the CAM

Instead of monthly progress reports currently required under Task 1, Recipients shall participate in brief phone calls that will occur at least monthly and which will be initiated by the CAM to briefly discuss project progress and identify any emerging issues. Monthly calls might not be held on those months when a quarterly progress report is submitted or the CAM determines that a monthly call is unnecessary.

4. Amendments and Other Changes

Existing Terms typically require a written amendment signed by both the CEC and Recipient for any change to the grant agreement. In contrast, These Terms allow certain changes, as described in this document, to be made to this Agreement without a formal amendment.

A. Budget Reallocations

No CEC approval is needed for a Recipient, Subrecipient, or any lower-tiered level of Sub-Subrecipient to move funds within each of the following Budget Categories listed in the Exhibit B: Direct Labor, Fringe Benefits, Travel, Equipment, Materials and Miscellaneous, Subrecipients, and Indirect Costs. (However, please note that per section 4.B. below, any new M&M, Equipment, Subrecipient or Vendor not listed in the budget does need to be approved prior to reimbursement.) If the Recipient wants to move funds between Budget Categories or submits an invoice that if paid would exceed a Budget Category, the Recipient has at least the following choices:

1. Request an amendment from the CEC. The CEC will not pay the invoice if and until an amendment is approved. In its sole discretion, the CEC might pay the portion of the invoice that does not involve the amount that goes beyond the Budget Category.
2. Retract the invoice and resubmit a corrected one that keeps within Budget Categories. The Recipient can treat the amount paid beyond the Budget Category as match funds if the expenditure meets all of the applicable Agreement requirements for match funds.

This new flexibility does NOT mean the Recipient can exceed the overall Agreement amount.

Because Existing Terms may define “Budget Reallocation” to mean the movement of funds between tasks and possibly in other ways than moving funds between Budget Categories, such definitions are considered deleted and superseded by These Terms.

B. New Items under Materials and Miscellaneous, and Equipment

The CAM must approve in writing of any new materials and miscellaneous expenses of \$5,000 or more or new equipment the Recipient plans to purchase and be reimbursed under this Agreement that is not already listed in Exhibit B, Budget. To accomplish this, the Recipient can submit either prior to invoicing or with its invoice a completed form titled "[NEW EQUIPMENT/M&M FORM](#)" which includes a description of the item and a brief explanation of the need for the item. The CAM will approve items that he or she determines to be necessary to the Agreement and do not exceed budgeted amounts for each Budget Category unless Recipient follows the processes in section 4.A. “Budget Reallocation” directly above.

Any restrictions in the solicitation or elsewhere in the Agreement still apply to the specific items under Materials and Miscellaneous, and Equipment that can be purchased using CEC Funds or Match Share Funds. The restrictions still apply even though the CAM does not have to approve new materials and miscellaneous expenses under \$5,000.

C. An Amendment is No Longer Needed to Replace “Key Personnel.”

Existing Terms typically require Recipients and their Subrecipients to obtain advance written approval, sometimes through a formal written amendment, before the Recipient replaced key or other personnel. Now, except when replacing “key personnel” the Recipient and its Subrecipients and any lower-tiered level of Sub-Subrecipient, can replace their respective personnel without written approval. Although changes to “key personnel” do require written approval, that approval can be requested and granted simply through an e-mail communication or other form of written communication.

These Terms clarify that Recipients may be reimbursed for actual expenses incurred by new “key personnel” during the term of the Agreement, even if written approval comes after an individual begins work on the project. However, if the replacement is not approved, then the Energy Commission will not reimburse for any expenses charged for the individual. Accordingly, Recipients are strongly encouraged to obtain advance written approval for “key personnel” or risk not being reimbursed for their work.

Recipient must keep the CAM informed of personnel changes through monthly calls and quarterly progress reports. In addition to any other rights and remedies available to the CEC, the Energy Commission retains its authority to issue a Stop Work Order if it becomes clear that a Recipient or Subrecipient’s personnel, key or otherwise, are unable to fulfill their responsibilities under the Agreement.

Please note that the process in the Existing Terms for replacing Subrecipients and Vendors, and each tier lower of Sub-Subrecipients, may have changed. See section 7 below titled “Subrecipients and Vendors.”

D. Assignment of New Personnel to an Existing Job Classification

Existing Terms might require Recipients to submit a resume and other information to the CAM to approve before assigning new personnel to existing job classifications. The Existing Terms might also require an amendment, and that an amendment must be fully executed before new personnel can begin work on the agreement. This pre-approval is no longer required. Instead, Recipient will keep the CAM informed of personnel changes and provide any information requested by the CAM during monthly calls and/or quarterly progress reports. Please see section 5.A. below in the “Budgets and Payment of Funds” term for how direct labor rates will now be handled.

E. Promotion of Existing Personnel to an Existing Job Classification

Existing Terms might require grant recipients to execute an amendment or otherwise provide information to, and obtain approval from, the CAM before promoting existing personnel to

existing job classifications. None of this is required any longer. Please see section 5.A. below in the “Budgets and Payment of Funds” term for how direct labor rates will now be handled.

5. Budgets and Payment of Funds

A. No More Capped Maximum Rates for Direct Labor and Fringe Benefits

Existing Terms typically state that rates in Exhibit B, Budget, for Direct Labor, Fringe Benefits, Indirect Costs, and Profit (for Subrecipients) are maximum rates and Recipients can invoice for actual expenses up to these capped, maximum rates.

Under These Terms, the rates in Exhibit B, Budget, for Direct Labor and Fringe Benefits are now treated as estimates and not capped rates. The Recipient can invoice at higher rates as long as it is only invoicing for actual expenditures it has made. However, the Recipient cannot invoice and be paid for more than the total amount in each Budget Category without an amendment (please see section 4.A. above in these terms), or for more than the total Agreement amount.

Please note this new flexibility only applies to rates for Direct Labor and Fringe Benefits. Except as otherwise provided in These Terms, restrictions on Indirect Costs and Profit in the Existing Terms still apply.

Please also note that rates listed in the budget are NOT “negotiated rates” that can be charged by a Recipient or Subrecipient – documentation must be made available upon request to show that the rates charged reflect actual costs incurred.

B. Options for Indirect Costs

Existing Terms typically allow grant recipients to invoice and receive reimbursement for actual Indirect Costs up to the maximum amount listed in Exhibit B, Budget. Indirect Costs are subject to audit, and recipients are required to provide backup documentation upon request proving the actual amount of their Indirect Costs. These Terms provide two additional options.

The following options may be available to any Recipient who has not yet invoiced for indirect costs at the time of this amendment. These options are not available to any Recipient that has opted not to claim indirect. A Recipient may not use these options to increase a current indirect rate on which the Recipient was scored in the application process. Once a Recipient has been reimbursed for indirect costs, they may not switch among options.

1. De Minimis Option

Under These Terms, the Recipient can elect to invoice and receive a de minimis amount at the set rate of 10% of the Modified Total of Direct Costs (MTDC) for Indirect Costs. This cannot be combined with any other Indirect Rate option.

MTDC is defined for purposes of These Terms as all direct salaries and wages, applicable fringe benefits, materials and supplies, services, travel, and up to the first \$25,000 of each subaward (regardless of the period of performance of the subawards under the award). MTDC excludes equipment, capital expenditures, rental costs, tuition remission, scholarships and fellowships, and the portion of each subaward in excess of \$25,000. This is the same definition used in federal grants. Keeping this the same as the federal definition should make this easy for recipients with both federal and CEC grants that elect this option.

If the Recipient chooses this de minimis option for Indirect Costs, the Recipient will not have to provide backup documentation for the de minimis amount and will not be audited on it. However, the Existing Term requirements, including for backup documentation and audits, still apply to any Indirect Costs invoiced by the Recipient and reimbursed by the CEC not utilizing the de minimis amount.

2. Defense Contract Audit Agency (DCAA) or other Federally Approved Indirect Rate

An entity that has a federally approved indirect rate from DCAA or another Federal agency may use the approved indirect rate for Energy Commission grants. A copy of the Federal agency's letter must be provided.

This rate will typically shift annually, and this shift is generally acceptable. This is the only Indirect Cost option that is not strictly subject to the max rate cap that typically applies to Indirect Costs. If the federal rate decreases from year to year, that will be a cost savings under this budget category. If the federal rate increases from year to year, this will require a budget reallocation. If the Energy Commission, in its sole discretion, determines that a budget reallocation to accommodate an increased Indirect Rate would risk the ultimate success of the project, or is otherwise not in its best interest, the Energy Commission reserves the right to either propose a smaller increase that would not risk the ultimate success of the project, or refuse to increase the Indirect Rate. For any increase the Energy Commission will not reimburse from CEC Funds, the Recipient or Subrecipient may choose to charge the increase as Match Funds.

If the Recipient chooses this option for Indirect Costs, the Recipient will not be audited on this budget category. However, the Existing Term requirements, including for backup documentation and audits, still apply to any Indirect Costs invoiced by the Recipient and reimbursed by the CEC not utilizing this option.

C. Travel and Per Diem

1. Travel not listed in Exhibit B, Budget, can be added without an amendment via CAM approval. CAM approval can come in one of two forms: written authorization from the CAM prior to the Recipient taking the trip, or through the invoice review. Outside of a budget reallocation, additional travel requests are submitted using the CEC's [Travel](#)

Form. Recipient understands, however, that any travel taken that is not listed in Exhibit B, the Budget, or not pre-approved by the CAM in writing, is at the Recipient's own financial risk. The CAM might not approve the trip as part of invoice review. Please note that the Recipient cannot invoice and be paid for more than the total amount in the Travel Budget Category without an amendment (please see section 4.A. above in These Terms), or for more than the total Agreement amount.

2. Existing Terms explain what recipients can invoice for and be reimbursed for travel and per diem expenses. After this Agreement is amended to include These Terms, Recipients can instead invoice and be reimbursed using the rates listed on the ECAMS Resources webpage, and which will be included in a forthcoming Grant Manual. Because the rates in the CEC's Grant Manual can change over time, the Recipient will be allowed to be reimbursed for the rates in the Grant Manual when the trip expenses become an Incurred Cost. The CEC shall notify the Recipient in writing by way of the Active Agreements listserve if the travel rates in the Grant Manual change. Please sign up for the Active Agreements listserve to stay informed of all updates.

3. Lodging

The Recipient can invoice at standard room rates. The CEC will not reimburse for luxury accommodations.

4. Airfare

The Recipient can invoice at coach rates on commercial carriers. The CEC will not pay for upgrades on flights.

5. Rental Car

The Recipient can invoice for vehicles appropriate for the purpose of the travel. The CEC will not reimburse expenses for luxury vehicles.

6. Bus/Train

The Recipient can invoice for standard coach rates. The CEC will not reimburse for upgrades.

7. Per Diem

Per diem is allowable for actual costs incurred up to the total daily maximum for the following combined expenses:

- Meals
- Incidentals (i.e. tips for hotel staff and taxi/ride share drivers)
- Parking
- Tolls

- Taxi/ride share

The CEC will not reimburse any expenses under this Agreement for alcoholic beverages. In addition, the daily per diem is for the individual expenses of those traveling and working on the Agreement only. It cannot be used to pay for expenses of others (e.g., it cannot be used to buy a meal for someone else).

D. Payment Request Format

Existing Terms may list specific items the Recipient must include in its invoices. These requirements in the Existing Terms is no longer required. Instead, the CAM will provide an invoice template, and any further modifications to it, that the Recipient shall use.

E. Rounding

Under These Terms, the only exception to the CEC paying actual expenses is rounding to the nearest cent. Recipient, Subrecipients, and each lower-tiered level of Sub-Subrecipients shall round invoiced amounts to the nearest cent (\$0.01) using standard rounding, which is rounding down for \$0.000 through \$0.004, and rounding up for \$0.005 through \$0.009. Rounding cannot be used to exceed the amount in any Budget Category (see section 4.A. above in These Terms) or exceed the total Agreement amount.

F. New Certification for Payment Requests

Existing Terms may require recipients to include and sign a certain certification in its payment requests. These Terms instead require the Recipient to include and sign the certification provided by the CAM in the Invoice Template. The CAM can change this certification without amending this Agreement.

G. The CEC No Longer Must Use a Specific Dispute Notification Form to Dispute Invoices

Existing Terms may require the CEC to use a Dispute Notification Form, Std. 209 Form, or other specific form when disputing invoices. These requirements no longer apply. Under These Terms, the CEC can now dispute an invoice in any manner it chooses as long as it is provided in writing to the Recipient.

6. Incurred Costs

Existing Terms may not allow recipients to be reimbursed for Incurred Costs. Accordingly, These Terms change that and allow the CEC to reimburse the Recipient for Incurred and Paid Costs that are (1) incurred during the Agreement Term; (2) invoiced within the required timeframes of this Agreement; (3) made in accordance with the Agreement's Budget; and (4) actual and allowable expenses under this Agreement.

The Recipient shall pay ALL Incurred Costs for which it has invoiced the CEC within 14 calendar days of receiving payment under this Agreement for the Incurred Costs. For example, if the Recipient invoices the CEC and then receives payment on September 15 for an Incurred Cost of \$10,000, the Recipient shall pay the entire \$10,000 by September 29. This requirement is needed to prevent Recipient from creating long lead times for Incurred Costs (e.g., invoicing and receiving payment from the CEC but not paying for the Incurred Costs for weeks or months).

The Recipient shall only invoice the CEC for Incurred Costs the Recipient will pay within 14 calendar days of receiving payment. For example, assume the Recipient has an Incurred Cost for a piece of equipment that costs \$300,000 and will pay in three installments of \$100,000 each over three months. The Recipient shall only invoice the CEC for \$100,000 each month. The Recipient shall not invoice for the entire \$300,000 and retain the balance over the three months.

For any Incurred Costs for which the Recipient received funds from the CEC and does not pay within 14 calendar days, the Recipient shall on the very next business day after the 14 calendar days submit repayment of the unpaid amount back to the CEC. Repaid funds will be placed back into the Agreement and will be available to reimburse allowable costs in accordance with this Agreement. When making a repayment under this provision, the Recipient shall specify "Repayment of Unspent Funds under Agreement [insert agreement number]." Recipient shall remit the repayment to:

California Energy Commission
Accounting Office
1516 Ninth Street, MS-2
Sacramento, CA 95814

This repayment requirement of the Recipient is in addition to any other rights the CEC can enforce relative to this Agreement. Recipient agrees and acknowledges that time is of the essence in paying Incurred Costs and submitting repayments, and the CEC can treat the Recipient's breach of either requirement as a material breach. Recipient can contact the CAM for any questions about the logistics of making repayments.

7. Subrecipients and Vendors

Existing Terms typically only distinguish between the Recipient and any lower tier of subcontractors. But not all subcontractors are the same. Some are entrusted with significant responsibility to meet the Agreement's objectives, and others are merely suppliers of goods and services.

These Terms allow the Recipient with CAM written approval to divide subcontractors into Subrecipients and Vendors. If this distinction is not made between Subrecipients and Vendors, all entities currently deemed subcontractors will be treated as Subrecipients.

A Subrecipient is defined as a person or entity that receives grant funds directly from the Recipient and is entrusted by the Recipient to make decisions about how to conduct some of the grant's activities. A Subrecipient's role involves discretion over grant activities and is not merely just selling goods or services.

Characteristics which support the classification of the entity as a subrecipient include when the entity:

- (1) Has its performance measured in relation to whether objectives of a CEC program were met;
- (2) Has responsibility for programmatic decision-making;
- (3) Is responsible for adherence to applicable CEC program requirements specified in the CEC award agreement;
- (4) In accordance with its agreement, uses the CEC funds to carry out a program for a public purpose specified in authorizing statute, as opposed to providing goods or services for the benefit of the recipient or subrecipient; or,
- (5) Provides match share funding contributions to the CEC-funded project.

A Sub-Subrecipient has the same meaning as a Subrecipient except that it receives grant funds from a Subrecipient. There can also be further levels below of Sub-Subrecipients.

A Vendor is defined as a person or entity that sells goods or services to the Recipient, Subrecipient, or any lower-tiered level of Sub-Subrecipient, in exchange for some of the grant funds, and does not make decisions about how to perform the Agreement's activities. The Vendor's role is ministerial and does not involve discretion over Agreement activities. A vendor is an entity selected through a competitive process or is otherwise providing a product or service at a fair and reasonable price. Characteristics indicative of a procurement relationship between the Recipient, Subrecipient, and any lower-tiered level of Sub-Subrecipient and a Vendor are when the Vendor:

- (1) Provides the goods and services within normal business operations;
- (2) Provides similar goods or services to many different purchasers;
- (3) Normally operates in a competitive environment;
- (4) Provides goods or services that are ancillary to the operation of the CEC program; and
- (5) may not be subject to compliance with all of the requirements of the CEC program as a result of the agreement, though similar requirements may apply for other reasons.

A. Subrecipient and Sub-Subrecipient Flow-Down Terms

For Recipient's agreements with Subrecipients, the Recipient shall follow any flow-down requirements in the Existing Terms for subcontractors, except the Recipient does not need to include the following terms if they are not applicable to a given Subrecipient:

1. The Legal Statements on Products term does not have to be included if the Subrecipient will not generate any Products.
2. The Travel and Per Diem term does not have to be included if the Subrecipient will not be reimbursed for travel with CEC funds.
3. The Equipment term does not have to be included if the Subrecipient will not be reimbursed for equipment with CEC funds.
4. The Confidentiality term does not have to be included if the Subrecipient will not have access to or generate confidential information.

B. Vendor Requirements

The flow-down requirements in the Existing Terms either come from the CEC or the law. Recipient does not have to include any CEC-created requirements in agreements with its Vendors unless it is necessary for the Recipient to meet its obligations to the CEC under the Agreement. But the Recipient is still required to make sure the Vendor complies with all applicable laws. For example, the Recipient still must ensure any Vendor complies with applicable Public Work Requirements, including the payment of prevailing wage, and also with the Nondiscrimination clause. These are requirements under the law.

The Recipient does not have to include in its Vendor agreements CEC-created terms, such as Equipment, Confidentiality, Travel and Per Diem, Retention of Records, and Audits, if the Recipient does not need them to fulfill its obligations to the CEC. An example where the Recipient might need to include a CEC-created term in a Vendor agreement is intellectual property. The Recipient must ensure the CEC has the intellectual property rights required under this Agreement. If a Vendor creates intellectual property that the Recipient provides to the CEC as part of the Agreement, the Recipient shall ensure its Vendor agreement secures the appropriate rights.

C. Replacing Subrecipients or Vendors

Under These Terms, all changes to Subrecipients and Vendors require advance written approval by at least the Commission Agreement Manager. A higher level of approval may be required based upon Energy Commission policy. Required approvals are included in the “Changes to Grants - Level of Approval and Notification Chart” commonly referred to as the “Changes Chart.”

These Terms clarify that Recipients may be reimbursed for actual expenses incurred by a new **Vendor** during the term of the Agreement, even if written approval comes after the entity has completed work on the project. However, if the new Vendor is not approved, then the Energy Commission will not reimburse for any expenses charged for the entity. Accordingly, Recipients are strongly encouraged to obtain advance written approval for new Vendors or risk not being reimbursed for their work.

However, any work completed by an entity that may replace an existing **Subrecipient** WILL NOT BE REIMBURSED for any work completed prior to advance written approval. If a Subrecipient expends funds prior to approval, they can only be claimed as Match Funds.

8. Match Fund Timing

Existing Terms typically require recipients to proportionally spend match funds concurrently or in advance of CEC funds. But this timing does not always work, especially if the CEC funds are used for expensive equipment early in the project.

These Terms allow a CAM, in writing and with Supervisor approval, to authorize a Recipient to spend CEC funds in advance of Match Funds pursuant to [Match Fund Spending Plan](#). The Plan must estimate how Match Funds and CEC funds will be spent over each quarter and briefly explain why it is not practical to spend Match Funds concurrent with CEC Funds. While These Terms allow additional flexibility, the Recipient agrees to spend the agreed match funds as soon as practicable during the Agreement in order to resume proportionality between CEC funds and Match funds spent.

RESOLUTION NO. 20-504

APPROVING AN AMENDMENT TO THE CALIFORNIA ENERGY COMMISSION GRANT AGREEMENT BETWEEN THE CITY OF ROSEVILLE AND THE STATE OF CALIFORNIA, AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE

WHEREAS, the City of Roseville entered into a Grant Agreement with the California Energy Commission (CEC) for the Pleasant Grove Wastewater Treatment Plant Energy Recovery Project on July 17, 2019; and

WHEREAS, in August 2020, the City was asked to participate in the CEC's pilot of new invoicing policies and procedures; and

WHEREAS, in order to participate in the CEC's Invoice Streamline Pilot, the City is required to sign the Streamlining Grant Terms and Conditions Amendment; and

WHEREAS, the California Energy Commission Streamlining Grant Terms and Conditions Amendment, has been reviewed by the Council; and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that said amendment is approved and that the City Manager is authorized to execute it on behalf of the City of Roseville.

PASSED AND ADOPTED by the Council of the City of Roseville this 16th day of December 2020, by the following vote on roll call:

Title: Dry Creek Greenway East Phase 1 Trail Project - Professional Design Services Agreement Amendment
Contact: Cathy Gosalvez 916-746-1300 cgosalvez@roseville.ca.us

Meeting Date: 3/15/2023
Item #: 6.14.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council adopt a resolution authorizing the City Manager to execute the Second Amendment to Professional Design Services Agreement with PSOMAS, Inc. for engineering and environmental permitting services for the Dry Creek Greenway East Phase 1 project.

BACKGROUND

The Dry Creek Greenway East trail project is a proposed paved multi-use trail along Dry, Cirby, and Linda Creeks from Darling Way/Riverside Avenue to the City limits at S. Cirby Way/Old Auburn Road. The project is identified as a proposed Class I bikeway in the City of Roseville General Plan and Bicycle Master Plan.

At the March 20, 2019 meeting, City Council voted to approve the Dry Creek Greenway East trail project. This approval included certification of the Final Environmental Impact Report, pursuant to California Environmental Quality Act (CEQA) Guidelines.

Phase 1 of the project will result in two (2) miles of Class I trail from the existing Saugstad Park Trail at Darling Way to the existing Maidu Park Trail at Rocky Ridge Drive. An agreement with Psomas for Engineering and Environmental Permitting Services for the Dry Creek Greenway East Phase 1 project was executed March 18, 2020 for \$2,371,738. In May of 2022, Council approved the first amendment to the contract and increased the contract total to \$2,578,479.

Additional work is needed for items related to minimizing impacts to biological resources, preparing a technical memo to the U.S Fish and Wildlife Service with a detailed analysis of elderberry shrub data, conducting additional data collection and preparing responses to the California Department of Fish and Wildlife's request for information, conducting additional hydraulic analysis to accommodate changes related to resource avoidance and for developing the Conditional Letter of Map Revision (CLOMR.) The contract amendment (Amendment #2) for this additional work is \$166,435, bringing the total contract amount to \$2,744,914.

Public Outreach:

Since 2008, the Dry Creek Greenway East Project has been driven by robust public participation and community input. There have been multiple community workshops/open houses, stakeholder representative group meetings, online surveys, project email, and social media updates. Staff will continue to engage with the community as the project moves forward.

FISCAL IMPACT

The Dry Creek Greenway East Trail Project is fully funded by federal, state and local sources: Solutions for Congested Corridors (SCCP), Active Transportation Program (ATP), Congestion Mitigation and Air Quality (CMAQ), and Local Transportation (LTF) Funds. There are sufficient funds within the project budget to accommodate this amendment. No General Fund resources will be used for the project.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) only applies to projects which have the potential to cause a significant effect on the environment. Where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA. The proposed activity is administrative and fiscal in nature, and therefore consistent with the criteria identified in CEQA Guidelines §15061(b)(3), and not subject to CEQA.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal C - Maintain a safe and healthy community
Goal E - Deliver exceptional city services
Goal F - Invest in well-planned infrastructure and growth

**SECOND AMENDMENT TO
PROFESSIONAL DESIGN SERVICES AGREEMENT**

Dry Creek Gateway East Phase 1 Project

THIS SECOND AMENDMENT TO PROFESSIONAL DESIGN SERVICES AGREEMENT is made and entered into this ____ day of _____, 20__, by and between the City of Roseville, a municipal corporation (“CITY”), and PSOMAS, a California corporation (“CONSULTANT”); and

W I T N E S S E T H:

WHEREAS, CITY and CONSULTANT previously entered into a Professional Design Services Agreement dated March 18, 2020 and amended on May 25, 2022 (“Agreement”) regarding engineering and environmental permitting services for the Dry Creek Greenway East Phase 1 project (“Project”);

WHEREAS, CITY desires to amend the Agreement to include additional services as described in CONSULTANT’s letter/proposal dated November 11, 2022, which is attached hereto as Exhibit “A” and incorporated herein by reference; and

WHEREAS, CONSULTANT is willing and able to provide such additional services; and

NOW, THEREFORE, the parties agree as follows:

1. CONSULTANT shall provide additional services as described in Exhibit "A" of this Second Amendment to Agreement.

2. Section 2 of the Agreement is amended by adding an additional paragraph to read as follows:

"CITY shall pay one hundred sixty-six thousand four hundred thirty-five dollars (\$166,435), in consideration of the additional services as set forth in Exhibit "A" to the Second Amendment to Agreement. This brings the total not to exceed contract amount to two million seven hundred forty-four thousand nine hundred fourteen dollars (\$2,744,914)."

3. All other provisions of the Agreement shall remain unchanged and in full force and effect.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this Second Amendment to Agreement in duplicate by its City Manager and attested to by its City Clerk under the authority of Resolution No. _____, adopted by the Council of the City of Roseville on the ____ day of _____, 20__, and CONSULTANT has caused this Second Amendment to Agreement to be executed.

November 11, 2022

Catherine Gosalvez, PE
Assistant Engineer
Public Works - Engineering
City of Roseville
311 Vernon Street
Roseville, CA 95678

Subject: City of Roseville's Dry Creek Greenway East Trail Project (#400022)
Proposal to Provide Professional Services for Additional Environmental Permitting, and
Engineering Studies and Design Work – Amendment #2

Dear Ms. Gosalvez:

Psomas is requesting a contract amendment for additional work items related to minimizing impacts to resources, permitting, hydraulic analysis and Conditional Letter of Map Revision (CLOMR) development. This work involves additional work by WRECO/HDR for hydrology/hydraulics and CLOMR, and by ECORP Consulting for permitting and technical memorandum updates.

The additional work items, detailed in the attached documents, include the following:

- HDR/WRECO will conduct additional hydraulic analysis, and update the H&H report to accommodate changes related to resource avoidance
- At the request of the City, HDR/WRECO is developing a duplicative effective model for the purposes of preparing the CLOMR
- Civil Engineering Solutions is providing support services related to the hydrology/hydraulics and modeling related to the CLOMR.
- Additional environmental/permitting work includes:
 - ❖ ECORP will prepare a technical memorandum to document impacts of design changes related to minimizing impacts to resources. The technical memorandum will be prepared to address all biological resources within one report
 - ❖ ECORP will prepare a technical memorandum to USFWS that provides a detailed analysis of site-specific vegetation community data for areas where elderberry shrubs occur along the trail alignment. The purpose of this analysis will be to clearly map and describe the vegetation communities with respect to the riparian versus non-riparian habitat criteria. The technical memorandum will present revised mitigation requirements based on the results of this updated analysis in support of seeking reductions in the required VELB mitigation identified in the USFWS BO for the Project.

Fax 916.788.0600
www.Psomas.com

Page 2 of 2
November 11, 2022

- ❖ ECORP will conduct additional data collection and prepare responses to agency requests for information as needed. Per request from CDFW, ECORP will conduct a site visit to further characterize the types of riparian trees and vegetation that will be impacted by the Project.
- ❖ Additional Tree Surveys and Related Resource Avoidance and Minimization Tasks - ECORP will collect additional tree data and develop impact maps to minimize resource impacts where feasible.

The fee for the work associated with the above tasks is approximately \$166,435. Detailed breakdown of costs is shown in the attached spreadsheet.

We appreciate the opportunity to provide these services to you. Please call with any questions.

Sincerely,

PSOMAS

Brian Wright, PE
Project Manager

City of Roseville

DRY CREEK GREENWAY EAST PHASE 1 PROJECT

SCOPE OF WORK – AMENDMENT #2

November 11, 2022

Task A-2.1: Project Management and Coordination for Additional Work

PSOMAS will provide additional project management and coordination including facilitating meetings and coordinating hydraulics and permitting efforts listed below. Psomas is facilitating weekly CLOMR development meetings. Psomas will provide design details to sub-consultants for their use in completing the tasks listed below.

Task A-2.1- Deliverables

- Meeting Minutes and Documentation Associated with Additional Tasks below

Task A-2.2: Additional Hydrology and Hydraulic Analysis, Duplicative Effective Model Development and Revised CLOMR

WRECO has provided a separate amendment request (which is attached) for the additional work related to coordination with the City and FEMA and development of a duplicative effective model and updates to the previously prepared Draft CLOMR using the CTP3 model as the basis. In addition additional work is required to update the Hydrology/Hydraulic analysis and report as a result of design changes made to minimize impacts to resources. Civil Engineering Solutions is also providing additional review and input during development of the Duplicative Effective Model and updates to the Draft CLOMR based on the direction from FEMA to use the CTP3 model.

Task A-2.2- Deliverables

- Revised H&H Report
- Duplicative Effective Model Documentation
- Revisions to CLOMR

Task A-2.3: Additional Response to Resource Agency Requests, Re-Evaluation of VELB Mitigation Requirements, Field Work and Documentation for Minor Design Changes to Minimize Impacts to Resources

ECORP has provided a separate amendment request (which is attached) for the additional permitting work which is summarized as follows:

- Technical Memorandum and Caltrans Support Services for Minor Alignment Adjustment - a minor adjustment to the trail alignment is proposed to further avoid resources. ECORP will conduct an assessment of the modified alignment to identify changes in the Project's impacts to biological resources. ECORP will prepare a technical memorandum to document the effect and impacts of the minor design changes, for all biological resources within one report.
- USFWS Technical Memorandum - ECORP will prepare a technical memorandum to USFWS that provides a detailed analysis of site-specific vegetation community data for areas where elderberry shrubs occur, to allow a re-evaluation of mitigation requirements associated with riparian versus non-riparian habitat.

- Responses to Agency Requests for Information - ECORP will conduct additional data collection and prepare responses to agency requests for information related to the existing submitted permit applications as needed.
- Additional Tree Surveys and Related Resource Avoidance and Minimization Tasks - ECORP will collect additional tree data and develop impact maps to minimize resource impacts where feasible.

Task A-2.3 - Deliverables

- Biological Technical Memorandum for Minor Alignment Adjustment
- USFWS Technical Memorandum
- Updated Arborist Report

Title: Retirement of 2012 Series Electric System Revenue Refunding Certificates of Participation Bonds, Termination of Interest Rate Swap Agreement and Budget Adjustment

Contact: Eric Campbell 916-413-3664 ecampbell@roseville.ca.us
Dennis Kauffman 916-774-5313 dkauffman@roseville.ca.us

Meeting Date: 3/15/2023

Item #: 6.15.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council adopt a resolution authorizing the retirement of the 2012 Series Electric System Revenue Refunding Certificates of Participation ("COP") Bonds and termination of the associated interest rate swap. Staff additionally recommends that the City Council adopt an ordinance approving a budget adjustment appropriating \$53,570,000 from the Electric Fund, including \$46 million from the Electric Rate Stabilization Fund, to retire the debt and terminate the swap.

BACKGROUND

In October 2012, the City Council approved a 3.5-year Direct Purchase Agreement with U.S. Bank regarding the \$90 million Electric Refunding Certificates of Participation ("COP") Series 2012 bonds. The Direct Purchase Agreement was renewed in 2016 and 2019 and is now set to terminate on May 1, 2023, requiring action to be taken. Staff and the City's municipal advisor reviewed various refunding options and concluded retirement of the 2012 Series Electric System Revenue Refunding COP Bonds and termination of the related interest rate swap was the best option for Electric. Staff considered several objectives to arrive at this recommendation: reduce borrowing costs on the outstanding debt, employ available cash to reduce the outstanding debt, limit market exposure with current elevated rate environment and reduce the risks associated with the outstanding debt and associated interest rate swaps.

Roseville Electric began to diversify its debt portfolio in 2012 with the use of interest rate swaps. The purpose of the interest rate swaps was to reduce debt service costs while limiting the unpredictability of variable rate debt as compared to fixed-rate bond issues. Interest rate swaps reduce debt service costs by taking on additional risks including, but not limited to, basis risk, liquidity renewal risk, and counterparty risk. These instruments are not used for speculative reasons.

With the current interest rate swap, the City makes fixed interest payments to Morgan Stanley in

exchange for floating rate interest payments. In 2012, and renewed in 2016 and 2019, the 2008A Electric System bonds were refunded with a Direct Purchase Agreement with U.S. Bank. Roseville currently pays a percentage of the London Interbank Offered Rate (LIBOR) plus 60 basis points to U.S. Bank. The combination of the interest rate swap payment and variable rate debt payments created a synthetic fixed rate. The interest-rate swaps have helped Roseville Electric control their debt service payments and have generally performed as expected.

FISCAL IMPACT

Adoption of the ordinance will approve a budget adjustment appropriating \$53,570,000 from the Electric Fund, including \$46 million from the Electric Rate Stabilization Fund, to retire the debt and terminate the swap. Retirement of the 2012 Series Electric System Revenue Refunding COP Bonds and termination of the related interest rate swap will reduce the Electric Department's outstanding debt, the inherent risks with its associated interest rate swap, and its annual operating expenses in the Electric Fund by approximately \$5 million going forward.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. Approval of the debt retirement resolution and budget adjustment ordinance meet the above criteria and is not subject to CEQA. No additional environmental review is required.

Description

Resolution 23-092

Ordinance 6627

Budget Adjustment

RESOLUTION NO. 23-092

A RESOLUTION AUTHORIZING TERMINATION OF SWAP AGREEMENT RELATED TO A 2012 ELECTRIC SYSTEM OBLIGATION, AND APPROVING RELATED OFFICIAL ACTIONS

WHEREAS, the City of Roseville (the "City") has previously caused the execution and delivery of Electric System Revenue Refunding Certificates of Participation, Series 2012 in the aggregate original principal amount of \$90,000,000 (the "2012 Certificates") under a Trust Agreement dated as of November 1, 2012 (the "2012 Trust Agreement"), between the Roseville Finance Authority (the "Authority") and The Bank of New York Mellon Trust Company, N.A., as trustee, evidencing installment payments (the "Installment Payments") payable by the City under a Master Installment Purchase Contract (the "Master Contract"), dated as of November 1, 1997, as previously supplemented and as supplemented by a 2012 Supplemental Installment Sale Agreement dated November 1, 2012 (the "2012 Supplemental Contract"), between the Authority and the City, all to finance and refinance the costs of various improvements to the City's municipal electric system (the "Electric System"); and

WHEREAS, all of the 2012 Certificates were initially sold to and continue to be held by U.S. Bank National Association (the "Bank"); and

WHEREAS, in 2019 the City paid a portion of its obligation to pay Installment Payments due under the 2012 Supplemental Contract entered into to support the 2012 Certificates, and the Bank renewed its investment in the 2012 Certificates; in connection therewith the Authority entered into a Third Supplement to Trust Agreement (the "Third Supplement"), primarily in order to extend the term of the Bank's investment and to modify the interest rate evidenced by the 2012 Certificates; and

WHEREAS, in connection with the 2019 prepayment of a portion of the 2012 Certificates the City terminated its swap arrangement under a Master Agreement dated May 1, 2008 between the City and Bank of America, N.A. and schedules, confirmations and amendments thereto, by paying an appropriate amount to terminate the swap arrangement evidenced thereby; and

WHEREAS, the City desires to pay in full its remaining obligation to pay Installment Payments due under the 2012 Supplemental Contract, and in connection therewith cause the Authority to prepay all of the 2012 Certificates which remain outstanding; and

WHEREAS, in connection with the full payment of the City's remaining obligation to pay Installment Payments due under the 2012 Supplemental Contract the City desires to terminate its existing ISDA Master Agreement dated May 13, 2008 with Morgan Stanley Capital Services Inc. in the notional amount of \$54,000,000 and schedules, confirmations and amendments thereto (collectively, the "MSCS Swap Agreement") by paying an appropriate amount to terminate the swap arrangement evidenced thereby; and

WHEREAS, the City Council wishes at this time to approve termination of the MSCS Swap Agreement, and to authorize other actions in connection with financing undertaken by and for Electric System as described herein.

**NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF ROSEVILLE RESOLVES
AS FOLLOWS:**

1. **Approval of Financing Plan; Authorization of Supplements.** The City Council hereby approves the finance plan described in the recitals of this Resolution.

2. **Termination of Swap.** The City Council hereby approves the termination of the MSCS Swap Agreement. The City Manager, Assistant City Manager/Chief Financial Officer, or an authorized designee thereof, (each, an "Authorized Officer") are each hereby authorized and directed for and in the name and on behalf of the City to execute a Termination Confirmation and all other documents, certifications and other ancillary submissions necessary, desirable or required in connection with such termination, and to pay required swap termination payment and fees of Morgan Stanley Capital Services Inc. as required by the MSCS Swap Agreement, if and to the extent the Assistant City Manager/Chief Financial Officer deems it to be in the best interest of the City which shall be evidenced by execution of the termination documents and payment of the termination costs. Each Authorized Officer is authorized and directed to execute and deliver to Morgan Stanley Capital Services Inc. any notice, certification or other documents necessary to accomplish such termination.

3. **Official Actions.** Each Authorized Officer is further authorized and directed in the name and on behalf of the City to make and to execute any and all assignments, certificates, requisitions, agreements, notices, consents, instruments of conveyance, warrants and other documents, which they or any of them might deem necessary or appropriate in order to consummate termination of the MSCS Swap Agreement. Whenever in this resolution any officer of the City is authorized to execute or countersign any document or take any action, such execution, countersigning or action may be taken on behalf of such officer by any person designated by such officer to act on his or her behalf in the case such officer shall be absent or unavailable.

4. **Effective Date.** This resolution shall take effect from and after the date of approval and adoption thereof.

I hereby certify that the foregoing Resolution was duly adopted by the City Council of the City of Roseville, California, at a regularly scheduled meeting thereof, held on the _____ day of _____, 2023, by the following vote of the City Council:

TOTAL				46,000,000	

NET ADJUSTMENT	53,570,000	
----------------	------------	--

FUND BALANCE

ACCOUNT STRING				BUDGET (\$)	DESCRIPTION
Fund	Account	Center	Project	Adjustment	
6001				(7,570,000)	Reduction in Electric Fund Balance
6010				(46,000,000)	Reduction in Electric Rate Stabilization Fund Balance
TOTAL				(53,570,000)	

Justification for Budget Adjustment:

Staff recommends appropriating funds for the retirement of the remaining 60% or \$51 million in variable rate 2012 Series Electric System Revenue Refunding Certificates of Participation (COP) with US Bank. Additionally, staff recommends appropriating funds to terminate the related interest rate swap agreement with Morgan Stanley for an estimated \$2.5 million. The final interest rate swap termination amount will be determined based on market pricing on March 30, 2023. This budget adjustment includes \$70,000 in fees for a financial advisor and bond counsel. This budget adjustment will be funded by \$7.57 million in available Electric Fund balance and \$46 million in available Electric Rate Stabilization Fund balance.

Title: Royer Recreation Building (Children's Art Center) – Budget Adjustment

Contact: Rjahja Canlas 916-774-5342 rcanlas@roseville.ca.us

Meeting Date: 3/15/2023

Item #: 6.16.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council adopt an ordinance to approve a budget adjustment that will reallocate \$174,000 in previously appropriated and unspent funds for the Royer Recreation Building from FY2020-21 Parks, Recreation and Libraries (PRL) and Golf Courses - Renovation and Restoration Project to the Children's Art Center Project.

BACKGROUND

The FY2020-21 PRL and Golf Courses - Renovation and Restoration Project was created during the FY2020-21 budget process. Most of the work on this project has been completed with the exception of the storage conversion and flooring work at the Royer Recreation Building (also known as the Children's Art Center). The work at the Royer Recreation Building has not started and the \$174,000 appropriated for the project remains unspent. These funds will be reallocated to the Children's Art Center Project.

FISCAL IMPACT

The recommended budget adjustment reallocates \$174,000 in previously appropriated and unspent funds for the Royer Recreation Building from the FY2020-21 PRL and Golf Courses - Renovation and Restoration Project (#500125) to the Children's Art Center Project (#400132), in the Facility Rehabilitation Fund. No additional funding is requested.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. Approval of a budget adjustment meets the above criteria and is not subject to CEQA. No additional environmental review is required.

Title: Staffing Changes

Contact: Linda Hampton 916-774-5215 lhampton@roseville.ca.us

Meeting Date: 3/15/2023

Item #: 6.17.

RECOMMENDATION TO COUNCIL

As part of an ongoing assessment of the appropriate staffing structure to provide a high level of service to the community, a consulting firm recently conducted a job classification study of selected classes in the Parks, Recreation & Libraries (PRL) and Public Works departments. Recommendations from the study would properly classify employees in an effort to address significant recruitment challenges and support employee retention. It is requested that City Council take the following actions:

1. Adopt an ordinance to approve the Management A & B (Appendix F) salary schedules to reflect the addition of Senior Park Development Project Manager (1119A, 1119B) effective March 25, 2023; and
2. Adopt an ordinance to approve the IBEW A & B (Appendix C) salary schedules to reflect the addition of Electronics Technician III (1120A, 1120B) and a salary increase for Senior Electronics Technician (7170A, 7170B) effective March 25, 2023; and
3. Motion to approve the attached citywide allocation schedule effective March 25, 2023.

BACKGROUND

As part of the Municipal Code, the Human Resources Department is responsible for maintaining the City's classification plan. Human Resources staff is continually evaluating organizational structure and staffing levels necessary to provide high levels of service to the community. The City engaged a consulting firm to conduct a job classification study of selected classes in the PRL and Public Works departments for the City. In addition, Human Resources worked with PRL regarding some staffing changes to support their business needs. The recommended changes include the addition of 3.75 positions that will be funded through the elimination of one (1) limited-term position and two (2) 1500-hour temporary positions. Human Resources staff also recommend changes for the Electric Department including two (2) new classifications, a salary adjustment for one (1) classification to align salaries internally, and deletion of two positions vacated by a promotional process. Staff has completed the meet and confer process with IBEW regarding any impacts and the recommended changes are summarized below:

Recommendations:

The proposed classification changes are as follows:

Adds

Grade Codes	Classification Name	Monthly Salary Range Minimum	Monthly Salary Range Maximum	Bargaining Unit
1119A, 1119B	Senior Park Development Project Manager	\$7,803	\$10,457	Management
1120A	Electronics Technician III	\$7,378	\$10,381	IBEW
1120B	Electronics Technician III	\$7,295	\$7,514	IBEW

Salary Increases

Grade Codes	Classification Name	Adjustment %	Monthly Salary Range Minimum	Monthly Salary Range Maximum	Bargaining Unit
7170A	Senior Electronics Technician	10.00%	\$8,115	\$11,419	IBEW
7170B	Senior Electronics Technician	10.00%	\$8,025	\$11,108	IBEW

Changes by Department:

Electric

At a prior Council meeting, Council approved adding a Senior Utility Billing Customer Service Field Representative position and a Utility Billing Customer Service Field Representative I/II position. The positions were to be filled through a promotional recruitment process with the resulting vacancies deleted from the Electric Department position allocation schedule. With the promotional recruitments now concluded, staff requests the deletion of the vacated Senior Meter Service Worker and Meter Service Worker positions.

Parks, Recreation & Libraries Department

Staff recommends converting two (2) 1500-hour positions to a .75 full-time equivalent (FTE) Graphic Designer position to support marketing and public outreach efforts and adding two (2) Child Care Site Coordinator position allocations to staff the new Rex Fortune and Westbrook Adventure Club sites. Revenues from the new sites will fund these two positions.

Additionally, staff recommends that a vacant limited-term Park Development Project Manager be converted to a regular full-time Senior Park Development Project Manager. Adding the new senior position will enhance succession planning efforts and support employee retention.

Public Works Department

As an outcome of the classification study, staff recommends the addition of an Electronics Technician

As an outcome of the classification study, staff recommends the addition of an Electronics Technician III classification. This new classification adds a new level to the flexibly-staffed Electronics Technician series. No new positions are recommended. Adding this new level allows employees to advance based on experience and certification from the Electronics Technician II level and will incentivize staff to seek new certifications, enhancing the city's ability to support communications systems, networks, and control systems related to traffic signals and Intelligent Transportation Systems. A 10% salary increase is requested for the Senior Electronics Technician to address salary compaction.

FISCAL IMPACT

The estimated total cost of the recommended position adjustments will cost \$82,148 for the remainder of FY2022-23 and \$305,120 annually ongoing. The following table provides a summary of costs by fund.

Fund	Remainder of FY2022-23	Ongoing
General Fund	\$ 12,808	\$ 47,573
Electric	\$ 5,201	\$ 19,317
Youth Development Fund	\$ 64,139	\$ 238,230
Total	\$ 82,148	\$ 305,120

All three of the funds impacted by the recommended position adjustments will fund the cost for the remainder of FY2022-23 with available salary savings. The ongoing cost will be incorporated into the proposed FY2023-24 budget.

The following charts summarize the cost of the recommended position adjustment recommendations by Department.

Parks, Recreation and Libraries

From	To	Current Salary & Benefits	Proposed Salary & Benefits	FTE	Annual Impact *	Impact for remaining FY 2022- 23
	Child Care Site Coordinator	\$0	\$119,115	2	\$238,230	\$64,139
Eliminate 2 1500-Hour Positions	Graphic Designer	\$84,530	\$114,415	0.75	\$29,885	\$8,046
Eliminate Limited Term Park Development Project Manager	Senior Park Development Project Manager	\$176,888	\$194,576	1	\$17,688	\$4,762
Total					\$285,803	\$76,947

*This amount includes the estimated annual pension cost of \$16,736.

Program revenues will fund the two new Child Care Site Coordinator position allocations in the Youth Development Fund. The Graphic Designer and Senior Park Development Project Manager positions are budgeted in the General Fund. Available salary savings will fund the \$12,808 impact for the remainder of FY2022-23. The annual impact of \$47,573 will be included in the proposed FY2023-24

budget in the General Fund.

Public Works Department

	Current Salary & Benefits	Proposed Salary & Benefits	FTE	Annual Impact *	Impact for remaining FY 2022- 23
Senior Electronic Technician Salary Increase	\$193,172	\$212,489	1	\$19,317	\$5,201

*This amount includes the estimated annual pension cost of \$1,351.

The \$5,201 impact of the Senior Electronic Technician will be funded by salary savings in the Electric Fund. The annual ongoing impact of \$19,317 will be included in the proposed FY2023-24 budget in the Electric Fund.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. The proposed staffing changes meet the above criteria and are not subject to CEQA. No additional environmental review is required.

ORDINANCE NO. 6630

ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE AMENDING
ORDINANCE 6582, THE SALARY ORDINANCE FOR PERSONNEL REPRESENTED BY
THE INTERNATIONAL BROTHERHOOD OF ELECTRICAL WORKERS, LOCAL 1245, AS
AMENDED BY APPENDIX "C" TO BE EFFECTIVE
MARCH 25, 2023, AS AN URGENCY MEASURE

THE CITY OF ROSEVILLE ORDAINS:

SECTION 1. Title and Purpose.

Ordinance 6582, the Salary Ordinances for personnel represented by the International Brotherhood of Electrical Workers, Local 1245, for salary schedules A and B, is hereby amended to reflect a salary adjustment as shown on Appendix "C", attached hereto:

ADDITION OF CLASSIFICATION

<u>Classification No.</u>	<u>Position Title</u>	<u>Hourly Rate</u>
1120A/1120B	Electronics Technician III	\$59.89

SECTION 2. Salary Plan Effective Date.

This Ordinance shall be effective March 25, 2023 as an urgency measure.

SECTION 3. Urgency Ordinance.

This ordinance is hereby declared to be an urgency measure, immediately necessary for the public peace, health and safety and shall take effect March 25, 2023. A statement of urgency is as follows:

It is necessary to amend the Salary Ordinance to comply with recently approved changes for the orderly and necessary continuance of operations of the City.

SECTION 4. Posting.

The City Clerk is hereby authorized and directed to post a true copy of the foregoing ordinance in each of three (3) conspicuous locations in the City and she shall immediately after such posting enter in the Ordinance Book under the record of the ordinance a certificate under her hand stating the time and place of said publication by posting.

PASSED AND ADOPTED by the Council of the City of Roseville this _____ day of _____, 20____, by the following vote on roll call:

COUNCIL COMMUNICATION

CC #: 2588

File #: 0800-03 & 0201-01

Title: Electric Department Fiscal Year 2022-23 Mid-year - Budget Adjustment

Contact: Joanna Cucchi 916-746-1609 jcucchi@roseville.ca.us

Meeting Date: 3/15/2023

Item #: 6.18.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council adopt an ordinance approving a mid-year budget adjustment to the Electric Fund that increases operating and capital budgets by \$1,454,620, with offsetting decreases in the capital project budgets by \$4,944,882, resulting in a net increase to the Electric Fund's available fund balance of \$3,490,262.

BACKGROUND

The Electric Department has experienced a wide variety of budget changes in FY2022-23, and a budget adjustment proposing multiple adjustments is requested as detailed below:

Power Plant operating costs - \$1,000,000

Supplying electricity to Roseville Electric customers occurs in two general ways: purchasing from energy markets or using the City's power plants to generate it. Electric's Power Supply division regularly analyses and updates forecasts to determine which manner is most cost effective. With the recent volatility in the energy markets, it has become more cost effective to generate electricity. The additional run-time for the Roseville Energy Park and RPP2 facilities has and will increase the maintenance and chemical costs. Based on the Power Supply division's January 2023 forecast, the budget adjustment requests an increase of \$1,000,000 for the Power Plant operating budget to fund the planned operation of power generation facilities through the end of FY2022-23.

Contractor for land acquisitions - \$48,500

The Electric Department has identified two properties to acquire to increase the efficient maintenance and reliability of the electric distribution system. The first property supports the Church Street Alley project, which requires the acquisition of three easements in a private alley. The second property supports the Vernon Substation Rehabilitation project and is adjacent to the substation. Based on Professional Services Agreements with Paragon Partners for property acquisition services, the budget adjustment requests an increase of \$48,500 to the Electric Administration operating budget.

Capital Improvement Project adjustments - (\$4,538,762)

The Electric Department's capital improvement plan is continuously assessed for completions, cancellations, or changes in the cash flows. During the most recent review of all capital projects, three major funding changes have been identified:

Cancelled projects to be defunded - (\$4,200,719)

- Roseville Energy Park Electric Boiler – originally planned to make starting up the generators after stops more efficient, but with recent changes in how the California energy market functions, improving the start-up efficiency no longer has the benefit determined at the start of the project. The project is cancelled and the balance of \$1,962,841 will be defunded.
- Roseville Energy Park Steam Turbine Enclosure CIP - originally planned to cover the steam turbine to provide protection from weather, but providing an appropriate enclosure has been accomplished through operating costs, so the capital effort for a permanent enclosure will be revisited later and the project is cancelled and the balance of \$2,237,878 will be defunded.

Completed projects to be defunded - (\$544,163)

- Sierra Vista Substation
- Fiddymont KY4A Transformer Addition
- Roseville Energy Park Gas Turbine Controls

Completed and ongoing projects requiring increase/decrease in budget authority - \$206,120

- Berry Disconnect Switch Project requires an additional \$6,120 of budget authority to close
- Roseville Energy Park Zero Liquid Discharge System – increase of \$200,000 in budget authority
- Electric Relay Replacement – decrease budget \$200,000
- 60kV Reconductor – increase of \$200,000 in budget authority

FISCAL IMPACT

Approval of the ordinance will result in a budget adjustment that will decrease the FY2022-23 budget authority and increase the Electric Fund available fund balance by \$3,490,262.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. Approval of a budget adjustment meets the above criteria and is not subject to CEQA. No additional environmental review is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal A - Remain fiscally responsible in a changing world

Goal F - Invest in well-planned infrastructure and growth

Respectfully Submitted,

Joanna Cucchi, Interim Electric Finance Administrator

Daniel Beans, Electric Utility Director

Dominick Casey, City Manager

ATTACHMENTS:

Description

Ordinance 6626

Budget Adjustment

ORDINANCE NO. 6626

ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE
AUTHORIZING CERTAIN AMENDMENTS TO THE FISCAL YEAR 2022-23
BUDGET AND DECLARING THIS ORDINANCE TO BE IMMEDIATELY
EFFECTIVE AS AN APPROPRIATION MEASURE

THE CITY OF ROSEVILLE ORDAINS:

SECTION 1. The City of Roseville Annual Budget, Fiscal Year 2022-23, is hereby amended as listed on the attached budget adjustment for midyear adjustments to the Electric Fund.

SECTION 2. This ordinance is hereby declared to be an appropriation measure, immediately effective pursuant to the provisions of Section 5.03 of the Charter.

SECTION 3. The City Clerk is hereby authorized and directed to post a true copy of the foregoing ordinance in each of three (3) conspicuous locations in the City and she shall immediately after such posting enter in the ordinance book, under the record of the ordinance, a certificate under her hand stating the time and place of such publication by posting.

PASSED AND ADOPTED by the Council of the City of Roseville, this _____ day of _____, 2023, by the following vote on roll call:

AYES COUNCILMEMBERS:

NOES COUNCILMEMBERS:

ABSENT COUNCILMEMBERS:

MAYOR

FUND BALANCE

ACCOUNT STRING				BUDGET (\$)	DESCRIPTION
Fund	Account	Center	Project	Adjustment	
6001				3,490,262	Increase Electric Fund balance
TOTAL				3,490,262	

Justification for Budget Adjustment:

Power Plant operating costs - \$1,000,000: Increased gas and energy market costs have increased run hours and costs at the Power Plant. The additional run-time for our Roseville Energy Park and RPP2 facilities has and will increase the maintenance and chemicals costs.

Contractor for land acquisitions - \$48,500: Creating budget for land acquisition costs for three easements as part of the Church Street Alley project, and for land adjacent to the Vernon Substation that supports the upcoming Vernon Substation expansion efforts.

Two cancelled CIPs to be defunded - (\$4,200,719): The Roseville Energy Park Boiler and Roseville Energy Park Steam Turbine Enclosure projects are being cancelled because the benefit at the time of project creation no longer exists due to changes in plant operations.

Three Completed CIPs to be defunded - (\$544,163): The Sierra Vista Substation, Fiddymont KY4A Transformer Addition, and Roseville Energy Park Gas Turbine Controls projects are complete and the project balances will be defunded.

One Completed and three ongoing projects requiring increases/decreases - \$206,120: The Berry Street Disconnect Switch project is complete but requires additional budget to close, the ongoing Roseville Energy Park Zero Liquid Discharge System project requires a budget increase, and the ongoing 60kV Reconductor project requires a budget increase offset by a decrease in the ongoing Electric Relay Replacement project.

Title: North Central Roseville Specific Plan Roadway Improvement Project - Budget Adjustment

Contact: Karen Vences 916-774-5412 kavences@roseville.ca.us

Meeting Date: 3/15/2023

Item #: 6.19.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council adopt an ordinance approving a budget adjustment in the amount of \$1,200,000 from the North Central Community Facilities District (NCCFD) No. 1 Fund to increase the expenditure budget for the Roseville Parkway Widening and Pleasant Grove Boulevard Triple Lefts Project (North Central Roseville Specific Plan (NCRSP) Roadway Improvement Project) in order to finalize the design and environmental phase of the project.

BACKGROUND

With the formation of the NCCFD in 1990, properties within the district have been paying a special tax for the funding of "pay as you go" improvements within the boundary of the district. The NCCFD has funded many improvements within the district including roads and water, sewer, and electrical systems. The NCCFD bonds matured on September 1, 2017 and the remaining funds were to be used for eligible public improvements projects within the NCCFD boundary. At their December 20, 2017 meeting, City Council authorized allocation of the remaining NCCFD funds to the prioritized improvements listed below:

1. Roseville Parkway Widening from Creekside Ridge Drive to East Gibson Drive
2. Pleasant Grove Boulevard Triple Lefts at Roseville Parkway

These improvements were to be combined into a single project (NCRSP Roadway Improvement Project) to widen Roseville Parkway from Creekside Ridge Drive to East Gibson Drive from three lanes in each direction to four lanes, and increase the number of left turn lanes from southbound Pleasant Grove Boulevard onto eastbound Roseville Parkway from two to three lanes. This section of the Roseville Parkway corridor experiences heavy traffic congestion on a daily basis due in part to popular shopping and dining destinations in the area.

At the January 10, 2018 meeting, Council approved the allocation of all remaining NCCFD funds (balance of \$5,828,030.94) to the NCRSP Roadway Improvement Project. With the FY2020-21 adopted budget, \$1,000,000 was appropriated to the project and design was started. The

recommended budget adjustment is needed to finalize the design of the project. Allocation of the remaining NCCFD fund balance is anticipated to appropriate to the project with approval of the FY2023-24 budget and those funds will be used for construction (staff will return to Council to award construction). However, this budget adjustment is needed now to finalize the design currently underway. Construction is anticipated to begin in 2024.

FISCAL IMPACT

The requested budget adjustment in the amount of \$1,200,000 will cover staff costs and professional services for completion of the project design. The remaining NCCFD fund balance is anticipated to appropriate to the project with approval of the FY2023-24 budget. If deemed necessary, the most likely source of additional funding for the construction contract will be Traffic Mitigation Fees, which would be requested at the time of construction award. No General Fund resources will be used for this project.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. Approval of a budget adjustment meets the above criteria and is not subject to CEQA. No additional environmental review is required.

Description

Ordinance 6632

ORDINANCE NO. 6632

RENEWING CITY OF ROSEVILLE ORDINANCE 6463 AND READOPTING
AND CONTINUING ROSEVILLE POLICE DEPARTMENT POLICY NO. 706,
TITLED “MILITARY EQUIPMENT”

THE CITY OF ROSEVILLE ORDAINS:

SECTION 1.

- A. On September 30, 2021, Governor Gavin Newsom signed into law Assembly Bill 481, relating to the use of military equipment by law enforcement agencies. Assembly Bill 481, codified at California Government Code sections 7070 through 7075, requires law enforcement agencies to obtain approval of the applicable governing body, by an ordinance adopting a “military equipment” use policy, at a regular meeting held pursuant to open meeting laws, prior to taking certain actions relating to the funding, acquisition, or use of military equipment. The term “military equipment” is defined in California Government Code section 7070(c). Assembly Bill 481 allows the governing body of a city to approve the funding, acquisition, and/or use of military equipment within its jurisdiction only if it makes specified findings.
- B. At its March 1, 2022 meeting, the City Council was presented with Ordinance 6463, which included the findings required by AB 481 and, if adopted, would approve and adopt a Roseville Police Department Policy No. 706, titled “Military Equipment”. The proposed Military Equipment Policy was consistent with AB 481 and based on a model policy utilized by many other law enforcement agencies in California. The City Council elected to move forward with the Military Equipment Policy and introduced Ordinance 6463 for first reading that evening.
- C. At its March 15, 2022 meeting, the City Council completed the second reading and adopted Ordinance 6463, thereby approving and adopting Roseville Police Department Policy No. 706, titled “Military Equipment”. Through adoption of Ordinance 6463, the City Council also made the following findings:
 - 1. The “military equipment” (as defined by California Government Code section 7070(c)) is necessary because there is no reasonable alternative that can achieve the same objective of officer and civilian safety;
 - 2. The “Military Equipment” Policy No. 706 will safeguard the public’s welfare, safety, civil rights, and civil liberties;
 - 3. The current “military equipment” identified in “Military Equipment” Policy No. 706 and purchasing any future “military equipment” on the list of “military equipment” (as defined by California Government Code section 7070(c)) is reasonably cost effective compared to available

alternatives that can achieve the same objective of officer and civilian safety; and

4. Prior “military equipment” use complied with the military equipment use policy that was in effect at the time.

D. AB 481 further requires that the City Council review any ordinance adopted pursuant to AB 481 at least annually, and to vote on whether to “renew” the ordinance. In making this decision, the City Council is required to determine whether each type of military equipment owned by the City complied with the findings originally made during adoption of the ordinance. This determination is to be based on an annual report prepared by the Police Department that includes at least the following information for each type of military equipment approved for use:

1. A summary of how the military equipment was used and the purpose of its use;
2. A summary of any complaints or concerns received concerning the military equipment;
3. The results of any internal audits, any information about violations of the military equipment use policy, and any actions taken in response;
4. The total annual cost for each type of military equipment, including acquisition, personnel, training, transportation, maintenance, storage, upgrade, and other ongoing costs, and from what source funds will be provided for the military equipment in the calendar year following submission of the annual military equipment report;
5. The quantity possessed for each type of military equipment; and
6. If the law enforcement agency intends to acquire additional military equipment in the next year, the quantity sought for each type of military equipment.

The annual report must also be made publically available on the Roseville Police Department’s webpage, and the Department must also hold at least one well-publicized and conveniently located community engagement meeting at which the general public may discuss and ask questions regarding the annual military equipment report and the Department’s funding, acquisition, or use of military equipment.

E. On February 1, 2023, the Roseville Police Department published its 2023 Annual Report regarding AB 481 and the Military Equipment Policy to the Department’s webpage. The Report includes all information required by AB

481. The Roseville Police Department also held a community engagement meeting on February 13, 2023, at 5:00 p.m. at the Roseville Police Department. The meeting was well-publicized and the general public was invited to attend to discuss and ask questions regarding the annual military equipment report and the Department's funding, acquisition, or use of military equipment.

- F. On March 1, 2023, the 2023 Annual Report regarding AB 481 and the City of Roseville Police Department's Military Equipment Police was submitted to the City Council pursuant to Government Code section 7072.

SECTION 2. The City Council of the City of Roseville makes the following findings:

- A. The City Council has reviewed Ordinance 6463, which was adopted pursuant to AB 481 and approved the funding, acquisition, or use of "military equipment" and approved and adopted Roseville Police Department Policy No. 706, titled "Military Equipment".
- B. The City Council was presented with the 2023 Annual Report, prepared by the Roseville Police Department pursuant to Government Code sections 7071 and 7072.
- C. Based on the 2023 Annual Report prepared by the Roseville Police Department and submitted to the City Council, the City Council determines that each type of "military equipment" identified in the Report has complied with the standards of approval set forth in Government Code section 7071, subsection (d), and adopted by the City Council through Ordinance 6463.
- D. The Roseville Police Department Policy No. 706, titled "Military Equipment", meets all requirements of Government Code sections 7070 – 7075.
- E. Ordinance 6463 is renewed and Roseville Police Department Policy No. 706, titled "Military Equipment", is approved and readopted.

SECTION 3. This ordinance shall be effective at the expiration of thirty (30) days from the date of its adoption.

SECTION 4. The City Clerk is hereby directed to cause this ordinance to be published in full at least once within fourteen (14) days after it is adopted in a newspaper of general circulation in the City, or shall within fourteen (14) days after its adoption cause this ordinance to be posted in full in at least three (3) public places in the City and enter in the Ordinance Book a certificate stating the time and place of said publication by posting.

Title: Roseville Soccer Complex - Award of Design-Build Construction Agreement and Budget Adjustment

Contact: Tara Gee 916-774-5253 tgee@roseville.ca.us

Meeting Date: 3/15/2023

Item #: 7.1.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council:

- 1) Award a Design-Assist Construction Agreement for the Roseville Soccer Complex project to Robert A. Bothman, inc. dba Robert A. Bothman Construction, Inc. for \$45,873,529; and
- 2) Adopt a resolution authorizing the City Manager to execute the agreement on behalf of the City of Roseville and providing change order authority of 3% of the contract amount; and
- 3) Adopt an ordinance to approve a budget adjustment in the amount of \$5,781,268.

BACKGROUND

In August 2022, Council approved the master plan for the Roseville Soccer Complex which included 10 lighted artificial turf soccer fields, a universally accessible playground and support features such as off-street parking, restrooms, shade structures, concession/officials room and walkways. At that time, a Subsequent Initial Study/Mitigated Negative Declaration was adopted to comply with the California Environmental Quality Act (CEQA) (SCH No. 2002082057). A Request for Proposals was issued in September 2022 seeking qualified Design-Assist contractors to partner with the City and the Design Consultant, Verde Design Group, on this project. Responses to the Request for Proposals were received in late October 2022. Interviews with three submitting contractor companies were conducted in November 2022. Negotiations on a guaranteed maximum price (GMP) began in December 2022 and concluded in January 2023. The GMP included value engineering efforts between the City, the Design Consultant and the top Contractor.

Staff recommends award of the project to Robert A. Bothman, Inc. dba Robert A. Bothman Construction, Inc. in the GMP amount of \$45,873,259.

Contingency - During the course of a construction project, it is common to encounter unanticipated or changed conditions in the field which necessitate additions or other changes to the project and the contract. Staff requests authorization to approve change order requests in an amount not to exceed 3% of the contract price in accordance with the terms and conditions of the contract.

Schedule - It is anticipated that construction would begin in the Summer 2023 and be complete in late 2025.

FISCAL IMPACT

Initial funding for the project was approved in FY2018-19. The project was augmented in FY2002-23 by \$40,050,000 from the General Fund, Strategic Improvement Fund and Public Facilities Fund. Staff is requesting approval of a budget adjustment in the amount of \$5,781,268. The budget adjustment includes \$3,000,000 from the West Roseville Neighborhood Park Fund (Fund 3311), \$1,500,000 from the West Roseville Citywide Park Fund (Fund 3304) and \$1,281,268 from repayment by Placer Valley Tourism of funds used in the early efforts of the Soccer Complex at a different location. The recommended budget adjustment will ensure adequate funds to enter into the agreement to construct the complex. Additional funding needed to complete this project will be incorporated into the FY2023-24 budget. This project includes multiple long fields and will be a regional draw for sporting events, resulting in added General Fund revenue to the City through sales tax and transient occupancy tax (hotel tax) revenue. This budget adjustment doesn't impact the General Fund. Maintenance for this facility will be budgeted in the Parks, Recreation & Libraries operations budget.

ENVIRONMENTAL REVIEW

Environmental review for the Roseville Soccer Complex was previously conducted as described above. The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA Guidelines §15060(c)(3) and §15378. The proposed budget adjustment meets the above criteria and is not subject to CEQA. No additional environmental review is required.

DESIGN-ASSIST CONSTRUCTION AGREEMENT (PROJECT: ROSEVILLE SOCCER COMPLEX)

This Design-Assist Construction Agreement (“Agreement”) is made and entered into this ____ day of _____, 20____, by and between the City of Roseville, a municipal corporation (“CITY”) and Robert A. Bothman, Inc. dba Robert A. Bothman Construction, Inc., a California corporation (“CONTRACTOR”).

RECITALS

WHEREAS, CITY has issued a Request for Proposals (RFP #13-116) pursuant to which CITY solicited proposals from design-assist contractors to construct the Roseville Soccer Complex project (“Project”); and

WHEREAS, CONTRACTOR has submitted a Proposal, dated January 24, 2023, attached hereto and made a part hereof as Exhibit F, and CITY has selected CONTRACTOR to provide design and construction services as set forth in this Agreement; and

WHEREAS, CONTRACTOR is ready, willing and able to perform the aforementioned services required in accordance with the terms and conditions of this Agreement; and

NOW, THEREFORE, CITY and CONTRACTOR agree as follows:

ARTICLE 1

DEFINITIONS

1.1 “Applicable Laws” means all laws, codes, ordinances, rules and regulations of governmental authorities having jurisdiction over the Site and/or the Work.

1.2 “Application for Payment” means the document prepared by CONTRACTOR and submitted to CITY showing CONTRACTOR’s entitlement to progress payments, the requirements of which are more fully described in Section 5.3 hereof.

1.3 “Architect/Engineer” means a licensed professional(s) (and/or entity(ies)) retained by CITY, who provides architectural, design and/or engineering services as may be required by the Work. The Architect/Engineer shall be registered in the State of California and the architect and/or engineer of record for the Work pursuant to their design responsibilities. The Architect/Engineer may be substituted or replaced at the discretion of CITY.

1.4 “Authorized Representatives” means the Design-Assist Team and those individuals appointed by CITY and CONTRACTOR from time to time in accordance with the provisions of Section 3.1.1.

1.5 “Business Day” means any day when the office of the City Clerk of the City of Roseville is open for business.

1.6 “Certificate of Substantial Completion” means a certificate prepared by CONTRACTOR in accordance with Section 5.12 and forwarded to CITY.

1.7 “Certificate of Final Completion” means a certificate prepared by CONTRACTOR and forwarded to CITY stating that the Project is finally complete and that CONTRACTOR is entitled to Final Payment in accordance with Article 5 hereof.

1.8 “Change Directive” means a written order signed by CITY directing a change in the Work. A Change Directive shall state a proposed basis for adjustment, if any, in the GMP or Schedule. CITY may order changes in the Work within the general scope of the Contract, and a Change Directive shall be used in the absence of total agreement on the terms of a Change Order.

1.9 “Change Order” means a written order signed by CONTRACTOR and CITY authorizing a change in the Work, which also may adjust the GMP and/or the Schedule, and which shall constitute a Modification. The GMP and/or Schedule may be changed only by Change Order.

1.10 “Change Proposal” means a proposal for a Change Order submitted by CONTRACTOR to CITY, either at the request of CITY, or at CONTRACTOR's own initiative.

1.11 “Construction Allowance Items” [reserved]

1.12 “Construction Documents” means the plans and specifications prepared by the Design-Assist Team for the Project, approved by CITY, and incorporated into this Agreement by reference after such approval, to be used to construct the Project. The Construction Documents shall set forth in detail all items necessary to complete the construction of the Project in accordance with the Contract Documents (subject to their completion following commencement of the Construction Phase). All amendments and modifications to the Plans and Specifications must be approved by CITY prior to incorporation into this Agreement. CONTRACTOR's attention is hereby directed to the confidentiality requirements of Section 2.2.

1.13 “Construction Notice to Proceed” means the notice given by CITY to CONTRACTOR stating that the Site is available to CONTRACTOR and directing CONTRACTOR to commence construction of the Project in accordance with Section 4.2.1.

1.14 “Construction Phase” means the period beginning with the issuance of the Construction Notice to Proceed and ending on the date of Final Completion of the Project.

1.15 “Construction Work” means that portion of the Work consisting of the provision of labor, materials, equipment and services in connection with the construction of the Project as set forth in the Contract Documents.

1.16 “Contingency Costs” means those items of Cost of the Work attributable to a contingency for which CITY is responsible and which are payable by CITY to CONTRACTOR pursuant to a Change Order as provided in Article 6.

1.17 “Contract Documents” means this 1) Agreement, 2) its Exhibits, and 3) the Construction Documents, all of which, together with this Agreement, form the entire integrated agreement between CITY and CONTRACTOR. In the event of a conflict between any of these documents, this Agreement controls, followed by its Exhibits.

1.18 “Contract” or “Agreement” means this Design-Assist Construction Agreement, its exhibits, and all amendments and/or modifications hereto executed by the parties.

1.19 “Contract Time” means the period of time, including authorized adjustments, allotted in the Schedule for the Final Completion of the Work.

1.20 “CONTRACTOR” means the individual or entity identified in the preamble to this Agreement.

1.21 “CONTRACTOR Event of Default” shall have the meaning set forth in Section 12.1 hereof.

1.22 “Cost of the Work” consists of those items of Work, which are paid for by CITY to CONTRACTOR, and consist of those categories of costs set forth as allowable on Exhibit A.

1.23 “CPM” means a critical path method schedule in the form of precedents, networks and time sequences.

1.24 “Day” or “Days” means calendar days.

1.25 “Delay Costs” means those items of Cost of the Work attributable to an Excusable Delay for which CITY is responsible and which are payable by CITY to CONTRACTOR pursuant to a Change Order as provided in Article 6.

1.26 “Design-Assist Team” includes the following: Architect/Engineer; CONTRACTOR; and/or others as coordinated by CONTRACTOR and CITY.

1.27 “Design Development Documents” means the drawings, specifications and other documents prepared by the Design-Assist Team for CITY's review and approval prior to the preparation of the Construction Documents. The Design Development Documents shall illustrate the scale and relationship of Project components, outline the nature and structural exterior and three dimensional scale of the Project and shall fix and describe in detail the configuration and character of the Project concerning all items of the Project necessary for the complete and final preparation of the Construction Documents in accordance with the requirements of the Contract Documents, including architectural and electrical systems, materials and such other elements as may be appropriate. CONTRACTOR's attention is hereby directed to the confidentiality requirements of Section 2.2.

1.28 “Design Materials” means any and all documents, shop drawings, electronic information, data, plans, drawings, sketches, illustrations, specifications, descriptions, models and other information developed, prepared, furnished, delivered or required to be delivered by CONTRACTOR to CITY under the Contract Documents or developed or prepared by CONTRACTOR specifically to discharge its duties under the Contract Documents. CONTRACTOR’s attention is hereby directed to the confidentiality requirements of Section 2.2.

1.29 “Design-Assist Work” means that portion of the Work consisting of the design-assist services required to be provided in connection with the Architect/Engineer’s design of the Project as set forth in the Contract Documents, which shall be performed consistent with the standards of care set forth herein.

1.30 “Excusable Delay” shall have the meaning set forth in Section 4.4.2 hereof.

1.31 “Fee”, if applicable, means the fee payable to CONTRACTOR pursuant to this Agreement and as part of the GMP, if shown on Exhibit A attached hereto.

1.32 “Final Completion” means the point at which the Work has been completed in accordance with the terms and conditions of the Contract Documents, including completion of all Punch list items.

1.33 “Force Majeure” means labor dispute (excluding labor shortage), fire, unusual delay in transportation or delivery, unavoidable casualty, flood (assuming CONTRACTOR has taken reasonable precautions), earthquake, epidemic, civil disturbance, war, freight embargo, riot, sabotage (by persons other than CONTRACTOR or Subcontractors), material shortage or any other similar act or condition, in each case only to the extent the event in question is beyond the reasonable control of and without the fault or negligence of CONTRACTOR.

1.34 “Governmental Approvals” means those CITY approvals necessary for the completion of the Project, including, but not limited to, modification of existing zoning, vacation of certain streets and/or alleys, and modifications to or variances from applicable building or zoning regulations.

1.35 “Guaranteed Maximum Price” or “GMP” means the amount set forth on Exhibit A hereto, which may be increased or decreased in accordance with the provisions of the Contract Documents.

1.36 “Hazardous Materials” means those items identified on Exhibit C hereto.

1.37 “Indemnified Parties” includes, but is not limited to, CITY, its agents, officers, employees, and volunteers.

1.38 “Liquidated Damages” means the damages payable by CONTRACTOR to CITY in the event CONTRACTOR does not achieve Final Completion of the Project by the date required on the Schedule, as adjusted, as more fully described in Section 4.6 hereof.

1.39 “Modification” means an amendment to this Agreement executed by the parties after the date hereof.

1.40 “Party” shall mean CITY or CONTRACTOR individually, and **“Parties”** shall mean CITY and CONTRACTOR collectively.

1.41 “Payment and Performance Bonds” means the payment bond and performance bond issued by an admitted Surety covering the faithful performance and completion of the Construction Work, including payment for all materials and labor furnished or supplied in connection with the Construction Work, by CONTRACTOR. Such bonds shall be in the form described in Exhibit E.

1.42 “Project” means the design and construction of the project described in the Recitals, together with all on-site infrastructure, site improvements and appurtenances to be designed, constructed and installed in connection therewith, as more fully set forth and described in the Contract Documents and as required thereby or reasonably inferred therefrom.

1.43 “Project Manager” means the person assigned by the director of the CITY administering department to monitor the Project and Work.

1.44 “Punch List” means those minor items of Work to be completed after Substantial Completion and prior to Final Completion, which do not prevent the Project from being used for the purpose for which it is intended and which will not prevent beneficial occupancy or use.

1.45 “Retention” means the amount withheld from progress payments from CITY to CONTRACTOR from time to time, as more fully described in Article 5 hereof.

1.46 “Schedule” means the schedule pursuant to the Proposal and/or other Contract Documents to which CONTRACTOR has agreed to complete the Work. The Schedule shall be adjusted pursuant to the provisions of the Contract Documents. In the event the Schedule is not contained within the Proposal, then CONTRACTOR shall provide to CITY, within fifteen (15) days of issuance of a notice to proceed by CITY, with a complete milestone schedule identifying, among other things, critical paths (if any) and total calendar days until Substantial and Final Completion. In the event the Schedule is contained in the Proposal, the start of the Schedule shall be adjusted by the CONTRACTOR to reflect the date of the Notice To Proceed.

1.47 “Scheduled Date of Substantial Completion” means the date CONTRACTOR has agreed to achieve Substantial Completion of the Project in accordance with the Schedule, as adjusted.

1.48 “Scope Change Costs” means those items of Cost of the Work attributable to changes in scope of the Work and payable by CITY to CONTRACTOR pursuant to a Change Order, as provided in Article 6.

1.49 “Separate Contractors” means those individuals or entities (including, but not limited to, concessionaires) who have entered into arrangements with CITY for the provision of labor, materials or other services in connection with the Project.

1.50 “Site” is the real property on which the Project will be located.

1.51 “Subcontract” means an agreement between CONTRACTOR and another person or entity engaged to perform a portion of the Work.

1.52 “Subcontractor” means an individual or entity who has entered into an agreement with CONTRACTOR or another Subcontractor for the provision of labor, materials or other services required to be performed by CONTRACTOR under the Contract Documents.

1.53 “Substantial Completion” means the stage in the progress of the Work when the Work or a designated portion thereof is sufficiently complete in accordance with the Contract Documents so that CITY may use the Project for its intended purpose.

1.54 “Surety” means one or more issuers of the Payment and Performance Bonds, each of which shall be admitted and licensed to do business in the State of California.

1.55 “Unexcusable Delay” shall have the meaning set forth in Section 4.4.

1.56 “Work” or “Scope of Work” means the Project, inclusive of all labor, materials and services required to be performed or provided by CONTRACTOR officers, employees, agents, Subcontractors or Suppliers pursuant to the provisions of this Agreement and its Exhibits (including, the entirety of Exhibit F).

ARTICLE 2 SCOPE OF WORK / PROJECT REQUIREMENTS

2.1 Performance of Work. CONTRACTOR shall perform the Work in accordance with this Agreement. CONTRACTOR covenants and agrees that it shall be responsible for performing and completing, and for causing all Subcontractors to perform and complete, the Work in accordance with the Contract Documents, standard professional and trade practices, and Applicable Laws. CONTRACTOR covenants that the Work and the materials provided thereunder shall be appropriate for the purposes stated in the Request for Proposal and Proposal. Although it is the responsibility of CONTRACTOR to conform the Work to Applicable Laws at all times, to the extent there is a change in one or more Applicable Laws after the date of execution of this Contract, and such change has the effect of increasing the cost or time of performance of the Work, such change may be the subject of a Change Order under the provisions of Article 6 hereof.

2.1.1. Noise and Night Work. CONTRACTOR shall comply with CITY’s noise ordinance.

2.2 Professional Standard; Ownership of Documents.

2.2.1 Standards of Performance. The Work shall be performed by CONTRACTOR in accordance with the professional standards applicable to projects, buildings or work of complexity, quality and scope comparable to the Work and the Project. CONTRACTOR may make such additions or substitutions to personnel and responsibilities as it deems necessary or appropriate in order to carry out its responsibilities hereunder, provided such personnel shall be suitably qualified. Nothing in this Agreement shall be construed to create any contractual liability with CITY toward any Subcontractor.

2.2.2 Design Documents and Materials, and Confidentiality.

2.2.2.1 CITY shall have unlimited rights to copy and use in connection with the Project all Design Materials, including the right to use same on the Project at no additional cost to CITY, regardless of degree of completion, provided that said services performed have been fully paid for as required by the terms of this Agreement. CONTRACTOR and its Subcontractors shall keep all design documents confidential, and shall not disclose such documents except as may be required in performance of the Work or pursuant to legal process.

2.3 Local Conditions; Environmental Site Conditions.

2.3.1 Local Conditions. CONTRACTOR represents that it has taken steps reasonably necessary to ascertain the nature and location of the Work, and that it has investigated and satisfied itself as to the general and local conditions which are applicable to the Work such as (a) conditions bearing on transportation, disposal, handling and storage of materials; (b) the availability of labor, water, power and roads; (c) normal weather conditions; (d) observable physical conditions at the Site; (e) the surface conditions of the ground; and (f) the character of equipment and facilities needed prior to and during the performance of the Work. To the extent CONTRACTOR encounters subsurface or concealed conditions which differ materially from that actually known by CONTRACTOR on the date of this Agreement or from those ordinarily found to exist and generally recognized as inherent in the activities of the character provided in the Contract Documents; then CONTRACTOR shall give notice to CITY promptly before conditions are disturbed and in no event later than two (2) Days after the first observance of the conditions if a Change Order is contemplated by CONTRACTOR due to such condition. Such materially different conditions may entitle CONTRACTOR to an equitable adjustment in the GMP and/or Schedule pursuant to the Change Order provisions of this Agreement.

2.3.2 Hazardous Materials. The Parties' agreement as to the handling of Hazardous Materials discovered at the Site (and not brought there by CONTRACTOR or any Subcontractor) is set forth in Exhibit C hereto, and the only duties and responsibilities of CONTRACTOR in connection therewith are as therein specified, notwithstanding any other provision of this Agreement.

2.4 Design Development Documents and Construction Documents.

2.4.1 General. The Design-Assist Team understands that all construction documents, working drawings and specifications (“Submittals”) must be coordinated with, and approved by, CITY prior to construction. CONTRACTOR shall allow CITY a minimum of fourteen (14) days for review of Submittals and corrections made thereto. CONTRACTOR shall work with the Design-Assist Team to prepare, for the approval of CITY, working drawings and specifications setting forth in detail the requirements for the construction of the Project in its entirety including the necessary bidding information. CITY’s review of the Design Development Documents and the Construction Documents shall not relieve CONTRACTOR from its responsibilities under this Agreement, or be deemed to be an approval or waiver by CITY of any deviation from, or of CONTRACTOR’s failure to comply with, any provision or requirement of the Contract Documents, unless such deviation or failure has been identified as such in writing in the document submitted for approval by CONTRACTOR and approved by CITY. CONTRACTOR shall comply with all CITY construction standards as deemed applicable by the CITY. CONTRACTOR shall provide CITY with a complete, accurate, full size, and current set of as-built drawings in a hard copy acceptable to City prior to Final Completion.

The Architect/Engineer is the entity professionally responsible for the design of the Project. CITY acknowledges that CONTRACTOR is a general contractor and not an architect or engineer. Except with respect to any subcontractors of CONTRACTOR providing architectural or engineering services for the Project as design-build work, CONTRACTOR’s review of or input for any design documents, or CONTRACTOR’s recommendation for any design concepts, is made solely in CONTRACTOR’s capacity as a licensed contractor and not as a licensed design professional. CONTRACTOR is not responsible for any errors in the design or failure of the design to comply with applicable laws, codes, rules and regulations, or lawful orders of public authorities. However, if CONTRACTOR observes any such nonconformity or errors it shall promptly notify CITY and the Architect/Engineer.

2.4.2 Reliance on Approvals. CONTRACTOR shall be entitled to rely on the approvals of CITY with respect to the Design Materials. If CITY revokes, modifies or otherwise changes in a material way its approval of a given system after such system has been designed and approved, or modifies the original Scope of Work in a material manner requiring modification to one or more systems which have been designed and approved, CONTRACTOR shall be entitled to a Change Order in accordance with the provisions of Article 6 hereof. No Change Order shall be issued to the extent such modification is due to the fault or neglect of CONTRACTOR.

2.4.3 Review of Contract Documents and Field Conditions. CONTRACTOR shall take field measurements and verify field conditions and shall carefully compare such field conditions and other information known to CONTRACTOR with the Contract Documents before commencing activities. CONTRACTOR shall perform the Work in accordance with the Contract Documents and submittals approved in accordance with the procedures set forth in this Agreement.

2.5 Legal Requirements. CONTRACTOR shall comply with Applicable Laws, and shall give applicable notices pertaining thereto. Except with respect to Governmental Approvals, CONTRACTOR shall prepare and file all documents required to obtain the necessary approvals

of governmental authorities having jurisdiction over the Work and/or the Project and shall secure and pay for permits and governmental fees, licenses and inspections necessary for the proper execution of the Work and completion of the Project. Notwithstanding the foregoing, CITY has informed CONTRACTOR that fees in connection with building permits, street use permits, and similar permits relating to construction will be waived and are not to be included in the GMP. If and to the extent charges in the future for such permits are imposed in the future, such charges shall be paid by CITY, or shall be the subject of a Change Order to the Contract in accordance with the Change Order provisions of this Agreement.

2.6 Services and Facilities.

2.6.1 General. CONTRACTOR shall provide everything required for the orderly progress and proper execution and completion of the Work and the Project in accordance with the requirements of the Contract Documents, whether temporary or permanent and whether or not incorporated or to be incorporated into the Work, including, but not limited to, services, labor, materials, equipment, furnishings, tools, construction equipment and machinery, utilities, transportation and other facilities and services.

2.6.2 Supervision. CONTRACTOR shall supervise and direct the Work in accordance with its best skill and attention. CONTRACTOR shall be solely responsible for and have control over construction means, methods, techniques, sequences and procedures. CONTRACTOR shall be responsible to CITY for the acts and omissions of, and whenever this Contract refers to the negligence, fault or omission of CONTRACTOR, such term shall include the negligence, fault or omission of, CONTRACTOR's employees, Subcontractors and their agents and employees, and other persons performing portions of the Work under an agreement with CONTRACTOR. CONTRACTOR shall not be relieved of obligations to perform the Work in accordance with the Contract Documents by tests, inspections or approvals required or performed by persons other than CONTRACTOR.

2.6.3 Coordination. CONTRACTOR shall coordinate construction requirements with governmental agencies, utilities, and all other parties either involved in infrastructure improvements or otherwise affected by the design and construction requirements.

2.6.3.1 Design-Assist Development Coordination. CONTRACTOR understands and agrees that all Design Development Documents and time schedules prepared by Architect/Engineer must be coordinated with CONTRACTOR and CITY. CONTRACTOR shall participate and provide recommendations in the development of the drawings and other documents to fix and describe the size and character of the Project in its entirety as to structural, and electrical systems, materials and other essentials in CONTRACTOR's capacity as a general contractor and not as a design professional, focusing on constructability and cost implications of the evolving design.

2.6.3.2 Construction Documents Coordination. [reserved]

2.6.4. Cooperation. CONTRACTOR shall cooperate with the Architect/Engineer, and CITY's financial, design and construction consultants and all other designated representatives during the design and construction of the Project.

2.6.5 Management. CONTRACTOR shall implement suitable management systems and work plans for the Project relative to Project safety, quality assurance and managing and controlling the Work.

2.6.6 Reports. CONTRACTOR shall prepare and submit to CITY monthly progress reports on the Work accomplished during the previous monthly period, which reports shall be prepared in a manner and in a format reasonably acceptable to CITY. Such reports shall be furnished at the time of submission of each monthly Application for Payment. As part of such report, CONTRACTOR shall provide an updated Schedule, including CPM, if any, illustrating the progress that has been made, by reference to the initial CPM, and specifying whether the Work is on schedule or behind schedule and actions being taken to correct Schedule slippage. The monthly report shall also set forth CONTRACTOR's projected progress for the forthcoming month.

2.7 Warranty. CONTRACTOR warrants to CITY that any and all materials, equipment and furnishings incorporated in the Work will be of good quality and new unless otherwise required or permitted by the Contract Documents, that the Construction Work will be free from defects not inherent in the quality required or permitted, and that the Construction Work will conform with the requirements of the Contract Documents. Construction Work not conforming to these requirements, including substitutions not properly approved and authorized, may be considered defective by CITY at its sole discretion.

CONTRACTOR shall warranty the Construction Work for a period of one-year commencing upon recording of the notice of completion. If within this one-year warranty period any of the Work is found to be defective or not in accordance with the requirements of the Contract Documents, CONTRACTOR shall correct it promptly after receipt of written notice from CITY to do so. CITY shall give such notice promptly after discovery of the condition. CONTRACTOR shall bear the cost of correction.

CONTRACTOR's attention is directed to Section 9.3 below regarding Warranty Bond requirements.

2.8 Taxes. CONTRACTOR shall pay, as Cost of the Work, all existing and future applicable federal, state and local sales, consumer, use and similar taxes, whether direct or indirect, relating to, or incurred in connection with, the performance of the Work (excluding taxes based on CONTRACTOR's income). In the event CONTRACTOR is obligated to pay any new or increased taxes or duties adopted after the date hereof, the amount of such new or increased taxes shall increase the GMP pursuant to the Change Order provisions of this Contract. In the event CONTRACTOR receives the benefit of a tax exemption or tax reduction taking effect after the date hereof, the amount of such exemption or reduction shall decrease the GMP pursuant to the Change Order provisions of this Contract

2.9 Access by CITY. CONTRACTOR shall afford CITY and its authorized designees access to the Project Site at all times, subject to reasonable prior notice for access outside of normal business hours.

2.10 Use of Site. CITY shall be permitted beneficial use of the Work.

2.11 Patents, Trademarks, Copyrights. CONTRACTOR shall pay, as a Cost of the Work, all-applicable royalties and license fees on any matters arising in connection with the Work. CONTRACTOR shall defend all suits or claims for infringement of patent, trademark, and copyrights against the Indemnified Parties, and shall save the Indemnified Parties harmless from loss on account thereof for any and all matters arising in connection with the Work or the Project (such costs to be paid as Cost of the Work), except with respect to any particular design process or the product of a particular manufacturer or manufacturers specified and required by CITY, other than pursuant to the recommendation or suggestion of CONTRACTOR or a subcontractor; provided however, if CONTRACTOR has reason to believe that the design, process or product so specified is an infringement of a patent, CONTRACTOR shall be responsible for any loss resulting unless CONTRACTOR has provided CITY with prompt written notice of CONTRACTOR's belief, and CITY has nevertheless elected to go forward with such design, process or product so specified.

2.12 Rubbish; Debris; Cleanup. During the performance of all on-site Work, CONTRACTOR shall at all times, as a Cost of the Work, keep the Site and adjacent streets, properties and sidewalks reasonably free from waste materials, debris and/or rubbish, and shall employ adequate dust control measures. If accumulation of such materials, debris, rubbish or dust constitutes a nuisance or safety hazard or is otherwise objectionable in the reasonable opinion of CITY, CONTRACTOR shall promptly remove them. Upon Substantial Completion of the Work, or any portion or component thereof, CONTRACTOR shall remove from the Site, or applicable portion thereof, all tools, construction equipment, machinery, surplus materials, waste materials and rubbish and shall leave the Site in a "broom clean" condition. If CONTRACTOR fails to clean up as provided in the Contract Documents, CITY may do so and the cost thereof shall be charged to CONTRACTOR as a Cost of the Work.

2.13 Permits, Fees and Notices. Unless otherwise provided in the Contract Documents, and subject to the provisions of Section 2.5 hereof, CONTRACTOR shall secure all permits, governmental fees, licenses and inspections necessary for the proper execution and completion of the Work. To the extent there is a change in the type or cost of any of such permits, fees, licenses or inspection occurring after execution of this Agreement, there shall be an equitable adjustment in the GMP and Schedule on account of such change in accordance with the Change Order provisions. CONTRACTOR shall comply with and give notices required by Applicable Laws.

2.14 Shop Drawings, Product Data, Samples and Other Submittals.

2.14.1 Documents and Samples at the Site. From and after commencement of the Construction Work, CONTRACTOR shall maintain at the site one record copy of the Construction Documents, and any and all amendments thereto, in good order and marked to

record changes and selections made during the Construction Phase. In addition, CONTRACTOR shall maintain at the site approved shop drawings, product data, samples and similar required submittals. These shall be provided to CITY upon completion of the Work.

2.14.2 Shop Drawings, Product Data, Samples and Other Submittals.

2.14.2.1 Shop Drawings are drawings, diagrams, schedules and other data specially prepared for the Work by CONTRACTOR, a Subcontractor, manufacturer, supplier or distributor to illustrate some portion of the Work.

2.14.2.2 Product Data are illustrations, standard schedules, performance charts, instructions, brochures, diagrams and other information furnished by CONTRACTOR to illustrate materials or equipment for some portion of the Work.

2.14.2.3 Samples are physical examples, which illustrate materials, equipment or workmanship and establish standards by which the Work will be judged.

2.14.2.4 Shop Drawings, Product Data, Samples and similar submittals are not Contract Documents. The purpose of their submittal is to demonstrate for those portions of the Work for which submittals are required the way CONTRACTOR proposes to conform the construction to the Construction Documents.

2.14.2.5 Submission of items listed in section 2.14.2.4. [reserved]

2.14.3 Responsibility. CONTRACTOR shall not be relieved of responsibility for the deviations from requirements of the Contract Documents by CITY's approval of Shop Drawings, Product Data, Samples or similar submittals unless CONTRACTOR has specifically informed CITY of such deviation at the time of the submittal and CITY has given written approval to the specific deviation. CONTRACTOR shall not be relieved of responsibility for errors or omissions in Shop Drawings, Product Data, Samples or similar submittals by CITY's approval thereof.

2.15 Tests and Inspections

2.15.1 Initial Tests and Inspections. Tests, inspections and approvals of portions of the Construction Work shall be made as required by the Contract Documents, Applicable Laws or normal construction practices and/or as directed by CITY. Unless otherwise provided, CONTRACTOR shall make arrangements for such tests, inspections and approvals with an independent testing laboratory or entity acceptable to CITY, or with the appropriate public authority. The costs of such tests, inspections and approvals shall be a cost paid by CONTRACTOR. CONTRACTOR shall give CITY timely notice of when and where tests and inspections are to be made so that CITY may observe such procedures. All costs of tests, inspections or approvals imposed upon CONTRACTOR by changes in Applicable Laws occurring after execution of this Agreement shall be an increase to the GMP in accordance with the Change Order provisions herein.

2.15.2 Additional Tests and Inspections. If CITY, or any other public authority having jurisdiction, determines that portions of the Construction Work require additional testing, inspection or approval beyond that required by subsection 2.15.1, CITY will instruct CONTRACTOR to make arrangements for such additional testing, inspection or approval by an entity acceptable to CITY, and CONTRACTOR shall give timely notice to CITY of when and where tests and inspections are to be made so CITY may observe such procedures. If such additional tests and/or inspections reveal failure of the portions of the Work to comply with the requirements of the Contract Documents, the costs of such tests and required correction shall be paid as a Cost of the Work, subject to the limitations set forth in Section 2.22 hereof. If the additional tests and/or inspections show that the portions of the Work comply with the requirements of the Contract Documents, the costs thereof shall be an increase to the GMP in accordance with the Change Order provisions of this Agreement.

2.15.3 Required Certificates. Required certificates of testing, inspection or approval shall, unless otherwise required by the Contract Documents, be secured by CONTRACTOR and promptly delivered to CITY.

2.1 5.4 Timing of Testing. Tests or inspections conducted pursuant to the Contract Documents shall be made promptly to avoid unreasonable delay in the Work.

2.16 Execution, Correlation and Intent.

2.16.1 Execution of Agreement. Execution of this Agreement by CONTRACTOR is a representation that CONTRACTOR has visited the Site, become familiar with the local conditions under which the Work is to be performed and correlated personal observations with requirements of the Contract Documents.

2.16.2 Intent of Contract Documents. The intent of the Contract Documents is to include all items necessary for the proper execution and completion of the Work by CONTRACTOR. The Contract Documents are complementary and what is required by one shall be as binding as if required by all; performance by CONTRACTOR shall be required only to the extent consistent with the Contract Documents and reasonably inferable from them as being necessary to produce the intended results.

2.16.3 Organization of Materials. Organization of the Design Materials into divisions, sections and articles, and arrangement of drawings does not necessarily control CONTRACTOR in dividing the Construction Work among Subcontractors or in establishing the extent of Construction Work performed by any trade.

2.16.4 Meaning of Words. Unless otherwise stated in this Agreement, words which have well-known technical or construction industry meanings are used in accordance with such recognized meanings.

2.17 Labor and Materials; Liens (Stop Payment Notice Claims); Indemnity. Unless otherwise provided in the Contract Documents, CONTRACTOR shall provide and pay for labor, materials, equipment, tools, construction equipment and machinery, water, heat, utilities,

transportation, and other facilities and services necessary for the proper execution and completion of the Work, whether temporary or permanent and whether or not incorporated or to be incorporated in the Work. CONTRACTOR shall enforce strict discipline and good order among CONTRACTOR's employees, subcontractors, and other persons carrying out the Work. CONTRACTOR shall not permit employment of unfit persons or persons not skilled in tasks assigned to them.

CONTRACTOR shall not permit any Subcontractor, materialman, or laborer to place liens on the Project covering any portion of the Work for which CITY has made payment to CONTRACTOR. If any liens (e.g., stop payment notice claims) are imposed, CITY may withhold payment in the amount of 125% of the claim until such time an unconditional release is provided in a form satisfactory to CITY. CONTRACTOR shall indemnify, defend, and hold harmless CITY regarding any claim or lien that proceeds to, or is the subject of litigation. CITY may withhold payment(s) pending compliance with this provision.

2.18 Cutting and Patching.

2.18.1 Cutting and Patching of the Work. CONTRACTOR shall be responsible for cutting, fitting, or patching required to complete the Work or to make its parts fit together properly.

2.18.2 Damage to Work of CITY or Separate Contractors. CONTRACTOR shall not damage or endanger a portion of the completed Work, fully or partially completed construction of CITY, or work or construction by Separate Contractor(s) by cutting, patching or otherwise altering such construction or work, or by excavation. CONTRACTOR shall not cut or otherwise alter such construction by CITY or a Separate Contractor except with written consent of CITY and of such Separate Contractor, such consent not to be unreasonably withheld.

2.19 Uncovering of Construction Work.

2.19.1 Uncovering. If a portion of the Construction Work is covered contrary to CITY's written request to observe such work prior to it being covered or contrary to requirements of the Contract Documents, it must, if directed in writing by CITY, be uncovered for CITY's observation and be replaced without change in the Schedule or GMP. The costs of such uncovering and replacement shall be Cost of the Work, subject to the limitation set forth in Section 2.22 hereof.

2.19.2 Covering of Work Requested to be Observed. If a portion of the Construction Work has been covered which CITY has not specifically requested to observe prior to its being covered, CITY may request to see such Construction Work and it shall be uncovered by CONTRACTOR. If such Construction Work is in accordance with the Contract Documents, costs of uncovering and replacement shall, by appropriate Change Order, be charged to CITY and shall increase the GMP. An appropriate time extension shall also be given. If such Construction Work is not in accordance with the Contract Documents, CONTRACTOR shall pay such costs as Cost of the Work, unless such condition was caused by CITY or a Separate

Contractor in which event CITY shall be responsible for payment of such costs by appropriate Change Order, and an appropriate time extension shall also be given.

2.20 Correction of Work.

2.20.1 Work Rejected by CITY. CONTRACTOR shall promptly correct Construction Work rejected by CITY or failing to conform to the requirements of the Contract Documents, whether observed before or after Substantial Completion and whether or not fabricated, installed or completed. CONTRACTOR shall bear the costs of correcting such rejected Construction Work, as a Cost of the Work, including additional testing and inspection and compensation for services and expenses of CITY made necessary thereby.

2.20.2 [Intentionally deleted].

2.20.3 Removal of Work. CONTRACTOR shall remove from the Site portions of the Construction Work, which are not in accordance with the requirements of the Contract Documents and are neither corrected by CONTRACTOR nor accepted by CITY. The costs incurred in removing such Work shall be a Cost of the Work, subject to the limitation set forth in Section 2.22 hereof.

2.20.4 Failure to Correct Nonconforming Work. If CONTRACTOR fails to correct nonconforming Construction Work within a reasonable time, CITY may correct it in accordance with the terms of this Agreement. If CONTRACTOR does not proceed with correction of such nonconforming Construction Work within a reasonable time fixed by written notice from CITY, CITY may remove it and store the salvageable materials or equipment at CONTRACTOR's expense. If CONTRACTOR does not pay costs of such removal and storage within ten (10) Days after written notice, CITY may, upon ten (10) additional Days written notice, sell such materials and equipment at auction or at private sale and shall account for the proceeds thereof, after deducting costs and damages that should have been borne by CONTRACTOR, including compensation for services and expenses made necessary thereby. If such proceeds of sale do not cover costs which CONTRACTOR should have borne, CONTRACTOR shall pay such excess to CITY. If such proceeds are in excess of the costs which CONTRACTOR should have borne, such excess shall be paid by CITY to CONTRACTOR. If such costs arise during the performance of the Work, such costs shall be charged against the Cost of the Work. If such costs arise after Substantial Completion, such costs shall be payable as provided in Section 5.1.

2.20.5 Damaged or Destroyed Work. CONTRACTOR shall bear the cost of correcting destroyed or damaged construction, whether completed or partially completed, of CITY or Separate Contractors caused by CONTRACTOR's correction or removal of Construction Work which is not in accordance with the requirements of the Contract Documents. If such costs arise during the performance of the Work, such costs shall be charged against the Cost of the Work. If such costs arise after Substantial Completion, such costs shall be payable as provided in Section 5.1.

2.20.6 No Limitation. Nothing contained in this section 2.20 shall be construed to establish a period of limitation with respect to other obligations which CONTRACTOR might have under the Contract Documents.

2.21 Value Engineering. CONTRACTOR shall suggest to CITY value engineering to reduce the cost of the Project, which CITY may accept at its sole discretion. To the extent that CONTRACTOR provides value engineering suggestions or comments with respect to the Project's design, CITY acknowledges that such services are advisory only and not professional design services. CITY shall refer all such suggestions and comments to the Architect/Engineer for review and evaluation prior to CITY's acceptance thereof. CITY shall cause the Architect/Engineer to revise the Project's design documents to reflect all value engineering suggestions and comments accepted by CITY without delay or disruption to the timely and orderly progress of the Work, including revisions needed to address the impact of an agreed value engineering solution on other portions of the Work. The GMP and Contract Time shall be adjusted by Change Order promptly after CONTRACTOR's review and pricing of the change to the Work reflected in the revised design documents.

2.21.1 Subcontractors Bids. CONTRACTOR shall make recommendations to the Architect/Engineer regarding the appropriate quality of materials, equipment, component systems and types of construction for the most reasonable prices for inclusion in the Construction Documents, and CONTRACTOR shall also recommend to the Architect/Engineer and CITY reasonable adjustments in the scope of the Project so that the total cost bid by the bidding Subcontractors will not exceed the estimate.

2.22 Acceptance of Nonconforming Work. If CITY prefers to accept Work, which is not in accordance with the requirements of the Contract Documents, CITY may do so instead of requiring its removal and correction, in which case the GMP will be reduced as appropriate and equitable. Such adjustment shall be effected whether or not final payment has been made.

2.23 Contractor Registration. No contractor or subcontractor may work on a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5. During the performance of this Contract, CONTRACTOR and its subcontractors shall have a continuing legal obligation to maintain current registration with the Department of Industrial Relations. CONTRACTOR is hereby notified that this Project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.

ARTICLE 3 CITY'S RIGHTS AND RESPONSIBILITIES

3.1. Information and Services Required of CITY.

3.1.1 CITY Designation of Authorized Representative. Both Parties shall designate, from time to time, one or more representatives authorized to act on their behalf with respect to the Project, together with the scope of his/her respective authority. CONTRACTOR shall not be entitled to rely on directions from anyone outside the scope of that person's authority as set forth

in written delegations pursuant to this Agreement. Directions and decisions made by Authorized Representative(s) of CITY shall be subject to any further approval(s) required by any provisions of CITY's Charter or the Roseville Municipal Code.

3.1.2 Communication. During the term of this Contract, CITY shall communicate with Subcontractors, suppliers and others performing any part of the Work only through CONTRACTOR's Authorized Representative.

3.1.3 Governmental Approvals. CITY shall be responsible for obtaining the Governmental Approvals. Any delay in obtaining the Governmental Approvals may entitle CONTRACTOR to an equitable adjustment in the Schedule and GMP in accordance with the Change Order provisions of this Agreement, except to the extent such delay is due to the fault or neglect of CONTRACTOR.

3.2 [Intentionally deleted.]

3.3 [Intentionally deleted.]

3.4 Activities on the Site by CITY or Separate Contractors.

3.4.1 CITY's Right to Award Separate Contracts. CITY reserves the right to perform work or operations related to the Project, with CITY's own forces, and to award separate contracts to Separate Contractors in connection with other portions of the Project.

3.4.2 Integration of the Work with Separate Contractors. Following the request of CITY, CONTRACTOR shall prepare a plan in order to integrate the work performed by Separate Contractors with the performance of the Work, and shall submit such plan to CITY for approval. The plan shall be fair and reasonable for CONTRACTOR and the Separate Contractors, and CONTRACTOR shall work with the Separate Contractors to reach agreement on such plan. CONTRACTOR shall arrange the performance of the Work so that the Work and the work of the Separate Contractors are, to the extent applicable, properly integrated, jointed in an acceptable manner, and performed in the proper sequence so that any disruption or damage to the Work or to any work of Separate Contractors is avoided.

3.4.3 Coordination. CONTRACTOR shall provide for the coordination of the activities of CONTRACTOR and its Subcontractors with the activities of the Separate Contractors. CONTRACTOR shall participate with all Separate Contractors and CITY in reviewing and coordinating the schedules of the Separate Contractors with the Schedule. CONTRACTOR shall make any revisions to the Schedule deemed necessary to properly incorporate the work of the Separate Contractors with the Work. To the extent (a) the date of Substantial Completion is extended by such Schedule revision; (b) CONTRACTOR is required to perform its Work materially out of sequence, and in a manner which is not as efficient or cost effective as originally planned; or (c) the Scope of Work is increased, an equitable adjustment in the GMP and the Schedule shall be made in accordance with the Change Order provisions of this Agreement.

3.4.4 Use of Site. CONTRACTOR shall afford CITY and all Separate Contractors reasonable opportunity for storage of materials and equipment and performance of their work. CONTRACTOR shall also connect and coordinate its Work and operations with CITY and all Separate Contractors' operations as required by the Contract Documents. CITY shall direct the Separate Contractors to cooperate with CONTRACTOR and to avoid actions or omissions, which could interfere with or delay the activities of CONTRACTOR.

3.4.5 Deficiency in Work of Contractors. If part of CONTRACTOR's Work depends upon proper execution or results upon construction or operations by CITY or a Separate Contractor, CONTRACTOR shall, prior to proceeding with that portion of the Work, promptly report to the Separate Contractor and CITY apparent discrepancies or defects in such other construction that would render it unsuitable for proper execution and results by CONTRACTOR. CONTRACTOR and the Separate Contractor shall use good faith efforts to resolve any such discrepancies or defects or any disagreements relating thereto. Failure of CONTRACTOR to report such discrepancies or defects shall constitute acceptance by CONTRACTOR of the work of Separate Contractors as fit and proper to receive CONTRACTOR's Work (except as to those defects or discrepancies that are not apparent).

3.4.6 Claims Involving Separate Contractors. In the event that CONTRACTOR unnecessarily and unreasonably delays the work of Separate Contractors by not cooperating with them as required hereby, or by not affording them reasonable opportunity to perform their work as stated herein, CONTRACTOR shall, in such event, pay, as Cost of the Work, all reasonable direct incremental costs and expenses incurred by such Separate Contractors due to any such delays. If any Separate Contractor shall assert a claim or bring an action against CITY alleging damage due to the fault or neglect of CONTRACTOR, CITY shall immediately notify CONTRACTOR, who shall defend such claim. If it is determined that CONTRACTOR was at fault, CONTRACTOR shall pay all costs of defense, including attorney's fees, as well as any resulting judgment or settlement, as a Cost of the Work.

3.5 Assignment of Separate Contracts. If CITY determines that it wishes to assign to CONTRACTOR one or more contracts between CITY and a Separate Contractor, it shall give CONTRACTOR written notice of such desire, including in such notice a copy of such contract for CONTRACTOR's review and approval. The Separate Contractor shall be fully qualified to perform the work under the to-be-assigned contract, shall possess the financial capability to perform its obligations under such to-be-assigned contract, and shall provide one hundred percent (100%) payment and performance bonds covering such work from sureties meeting the standards set forth in Section 1.53 hereof. Such contract shall contain provisions similar to those contained in CONTRACTOR's agreements with its Subcontractors with respect to liability, indemnification, retention, payment, labor, warranty, and other material items. Upon CONTRACTOR's approval of the assignment of such contract, which approval shall not be unreasonably withheld, delayed or conditioned, such Separate Contractor shall cease to be a Separate Contractor and shall thereafter be deemed to be a Subcontractor of CONTRACTOR, and the GMP shall be increased by Change Order in the amount of (a) such assigned contract, and (b) the additional Fee pursuant to the provisions of Section 6.5.1.

3.6 CITY's Right to Stop the Work. If CONTRACTOR persistently fails to correct Work which is not in accordance with the requirements of the Contract Documents and this Agreement or persistently fails to carry out the Work in accordance with the Contract Documents, CITY, by written order signed by CITY, may deliver a notice to CONTRACTOR setting forth that such a persistent and material failure is occurring and has occurred, and demanding that CONTRACTOR commence a cure of such persistent and material failure within twenty (20) Days and diligently pursue such cure thereafter. In the event that the cure is not commenced and pursued diligently, CITY may, by written notice to CONTRACTOR, order CONTRACTOR to stop the Work, or any portion thereof, until the use for such order has been eliminated; provided, however, that the right of CITY to stop the Work shall not give rise to a duty on the part of CITY to exercise this right for the benefit of CONTRACTOR or any other person or entity and shall not give rise to any liability of CITY to CONTRACTOR resulting from any delay (except to the extent that such order is found to be improper).

3.7 CITY's Right to Carry out the Work. If CONTRACTOR defaults or neglects to carry out the Work in accordance with the Contract Documents and fails within a seven (7) Day period after receipt of written notice from CITY to commence and diligently continue correction of such default or neglect with diligence and promptness, CITY may after such seven (7) Day period give CONTRACTOR a second written notice to correct such deficiencies within such second seven (7) Day period. If CONTRACTOR within such second seven (7) Day period after receipt of such second notice fails to commence and diligently continue to correct any deficiencies, CITY, without prejudice to other remedies CITY may have, may correct such deficiencies. In such case an appropriate Change Order shall be issued deducting from payments then or thereafter due to CONTRACTOR the cost of correcting such deficiencies, including Compensation for additional services and expenses made necessary by such default, neglect or failure. If payments then or thereafter due to CONTRACTOR are insufficient to cover such amounts, CONTRACTOR shall pay the difference to CITY.

ARTICLE 4 TIME

4.1. Progress and Completion. Time limits stated in the Contract Documents are of the essence of this Agreement. By executing this Agreement, CONTRACTOR confirms that the Contract Time is a reasonable period of time for achieving Final Completion of the Work.

4.2 Schedule Obligations.

4.2.1 Contract Schedule and Notice To Proceed. CONTRACTOR shall provide a schedule as stated in Section 1.46. CONTRACTOR shall begin work pursuant to this Agreement and in accordance with the Schedule (as described in Exhibit F) within fifteen (15) calendar days of the date of issuance of a Notice To Proceed by CITY, unless extended at the request made to and at the sole discretion of City. CONTRACTOR shall update said schedule to commence from the date of this Agreement, and the overall timeline shall remain consistent with the original schedule. CITY may issue the Notice To Proceed within fifteen (15) days of full execution of this Agreement.

4.2.2 Prosecution of the Work. CONTRACTOR shall prosecute the Work so that the portion of the Work completed at any point in time shall be not less than as required by the Schedule. If the rate of progress is such that the total amount of Work and/or the degree of completion of the Project accomplished by CONTRACTOR within any time period required by the Schedule is less than the amount therein specified, CONTRACTOR shall so notify CITY. If the delay is an Unexcused Delay, CONTRACTOR shall prepare a recovery schedule for CITY's review and approval, showing how CONTRACTOR will compensate for the delays and achieve Final Completion by the date shown on the Schedule. If CONTRACTOR is unable to demonstrate how it will overcome Unexcused Delays, CONTRACTOR shall employ such extraordinary measures as are necessary to bring the Work into conformity with the Final Completion Date set forth therein, the costs of which shall be a Cost of the Work and not exceed the GMP. If the delay is an Excusable Delay, CITY shall either (a) authorize an equitable extension in the Schedule to account for such delay, and equitably adjust the GMP on account of such delay, to the extent permitted by Article 6; or (b) request that CONTRACTOR prepare a recovery schedule showing how (if possible) CONTRACTOR can achieve Substantial Completion by the date shown on the Schedule (as modified), and equitably adjust the GMP in accordance with the Change Order provisions of this Agreement on account of any extraordinary activities required of CONTRACTOR on account of such recovery schedule. Schedule float (total float) shall be owned by CITY. As float is an expiring resource, if the Work is delayed on the critical path due to a delay caused by the CONTRACTOR and/or Architect/Engineer, the CONTRACTOR may not use any float created by such a delay on any other path without the express written approval of CITY.

4.3 Pre-construction Activities. Within thirty (30) Days after execution of this Agreement, CONTRACTOR shall submit to CITY for review a detailed schedule of pre-construction activities, by expanding the pre-construction activities set forth on the Schedule. This pre-construction schedule shall be prepared using the CPM, and shall show in sufficient detail the starting and completion times sequences of Subcontract award activities of CONTRACTOR, and identify all interface activities of CITY.

4.4 Extensions of Time.

4.4.1 General. An extension in the scheduled date of Final Completion will only be granted in the event of Excusable Delays affecting Work activities on the critical path.

4.4.2 Excusable Delays. Subject to 4.4.1 and 4.5.2, to the extent any of the following events results in an actual delay in the Work affecting Work activities on the critical path, such shall constitute an “**Excusable Delay**” (to the extent not set forth below, a delay will be considered an “**Inexcusable Delay**”).

4.4.2.1 Failure or inability of CITY to make available any or all of the Site in accordance with the requirements of the Schedule.

4.4.2.2 Failure or inability of CITY or CONTRACTOR to obtain necessary zoning changes, variances, code changes, permits or approvals from any governmental authority,

or failure to obtain any street or alley vacations required for the performance of the Work, except to the extent due to the fault or neglect of CONTRACTOR.

4.4.2.3 Delays resulting solely from the acts or omissions of Separate Contractors; provided however, only to the extent Separate Contractors perform their work improperly and not in accordance with any applicable critical path schedule.

4.4.2.4 Delays resulting from Force Majeure.

4.4.2.5 Differing, unusual or concealed site conditions that could not reasonably have been anticipated by CONTRACTOR in preparing the Schedule.

4.4.2.6 Delays resulting from the existence or discovery of Hazardous Materials on the Site not brought to the site by CONTRACTOR or any Subcontractor.

4.4.2.7 Delays resulting from changes in Applicable Laws occurring after the date of execution of this Agreement.

4.4.2.8 Delays occurring solely due to the acts or omissions of CITY and those within the control of CITY, including, but not limited to, Separate Contractors.

4.4.2.9 Delays resulting from weather conditions, which shall be determined as follows: Should CONTRACTOR prepare to begin work at the regular starting time of any working day on which inclement weather, or the conditions resulting from the weather, prevents the Work from beginning at the usual starting time and the crew is dismissed as a result thereof and CONTRACTOR does not proceed with at least 75% of the normal labor and equipment force engaged in the current operations for at least 60% of the total daily time being spent, CONTRACTOR will not be charged for a working day, even if the conditions change during the course of the day. At the start of such days, CONTRACTOR shall notify CITY if CONTRACTOR believes that inclement weather or conditions resulting from the weather exist. A non-working day determination of such conditions shall be made by CITY, who will immediately notify CONTRACTOR.

4.4.2.10 Delays resulting from unproductive work days, which shall be determined as follows: When CONTRACTOR is prevented from working on current operations due to site conditions, CITY action, or force majeure for at least 60% of the total daily time on the controlling operations. Controlling operations are determined by the critical path method schedule described in the applicable CITY construction standards. The critical path schedule used in this determination shall be no more than thirty (30) days old. CONTRACTOR shall notify CITY if CONTRACTOR believes an unproductive work day exists upon discovery of such condition. A non-working day determination of such conditions shall be made by CITY, who will immediately notify CONTRACTOR.

4.4.3 Requirements for Schedule Amendment due to Excusable Delays. In order to obtain an extension of time due to an Excusable Delay, CONTRACTOR shall comply with the following requirements:

4.4.3.1 CONTRACTOR shall notify CITY of the Excusable Delay as soon as practicable, but in no event more than four (4) Business Days after CONTRACTOR becomes aware of the occurrence of the Excusable Delay. Such notice shall describe the Excusable Delay and shall state the approximate number of Days CONTRACTOR expects to be delayed. After the cessation of the Excusable Delay, CONTRACTOR shall notify CITY of the number of Days CONTRACTOR believes that its activities were in fact delayed by the Excusable Delay. In the event that the delay arises as a result of a Change Order request by CITY, the request for an extension of time contained in the resulting Change Order proposal shall be deemed sufficient for purposes of this subsection.

4.4.3.2 CONTRACTOR shall demonstrate to the satisfaction of CITY that the Excusable Delay in fact delayed the critical path for performance of the Work (by use of CPM analysis). Any delay that impacts the CPM will be presented to the Project Manager at the monthly meeting, and prior to completion of each activity.

4.4.4 Decision by CITY. Within thirty (30) Days after cessation of an event giving rise to either an Excusable Delay or Inexcusable Delay, the parties will use good faith efforts to agree on the extent to which the Work has been delayed and whether the delay is an Excusable Delay or an Inexcusable Delay. In the absence of agreement between the parties as to the then current status of Excusable Delays and Inexcusable Delays, CITY will provide CONTRACTOR with written notice of CITY's determination of the respective number of Days of Excusable Delay and/or Unexcusable Delay within ten (10) Days after receipt by CITY of CONTRACTOR's written request for such determination. The issuance by CITY of such a determination shall not, however, be deemed a concurrence by CONTRACTOR of the matters set forth therein, and CONTRACTOR may invoke the dispute resolution procedures with respect to such determination. Pending completion of dispute resolution procedures, CONTRACTOR may take such acceleration or other measures required on account of CITY's determination of Inexcusable Delay, and if completion of the dispute resolution procedures results in CITY's determination being changed to Excusable Delay, the costs associated with such measures shall be paid by CITY as an increase to the GMP in accordance with the Change Order provisions of this Agreement.

4.5 Adjustment in GMP on Account of Extensions of Time.

4.5.1 Certain Excusable Delays. Section 4.5 governs the extent to which CONTRACTOR is entitled to an extension of time due to Excusable Delays. Provisions governing the payment of additional compensation on account of such Excusable Delays, (if any) are set forth in Article 6.

4.5.2 Concurrent Delays. To the extent CONTRACTOR is entitled to an extension of time due to an Excusable Delay, but the performance of the Work would have been suspended, delayed or interrupted by the fault or neglect of CONTRACTOR, any subcontractor and/or by an Inexcusable Delay, CONTRACTOR shall not be entitled to any additional costs for the period of such concurrency.

4.6 Liquidated Damages.

4.6.1 General. CONTRACTOR and CITY acknowledge that in the event that CONTRACTOR fails to achieve Final Completion of the Project by the date established, CITY will incur substantial damages that shall be incapable of accurate measurement. Nonetheless, the parties acknowledge that on the date of this Agreement, the amount of liquidated damages set forth below represents a good faith estimate as to the actual potential damages that CITY would incur as a result of late Completion of the Project. Such liquidated damages shall be in-lieu of actual damages resulting from late completion. The amount of the liquidated damages calculated hereunder does not include any penalty.

4.6.2 Amount of Liquidated Damages. If CONTRACTOR fails to achieve Final Completion of the Work on or before the Notice of Completion date, as adjusted for Excusable Delays, CONTRACTOR shall pay to CITY liquidated damages in the amount of \$800.00 (eight hundred dollars) per Day for each calendar day the date of Final Completion is inexcusably delayed. Payment of liquidated damages shall be made contemporaneously with CITY's required payment to CONTRACTOR, and such payments may be offset against each other.

ARTICLE 5 PAYMENT AND COMPLETION

5.1 Guaranteed Maximum Price ("GMP") and GMP Shared Savings. CITY shall pay for CONTRACTOR's performance under this Agreement the Cost of the Work and Fee (as described in Exhibit A hereto); provided, however, that the sum of the Cost of the Work and the Fee shall not exceed the GMP, as adjusted by Change Order/Directive in accordance with the Contract Documents. CONTRACTOR bears the risk of its increased costs due to market price increases (including escalating costs for materials).

5.2 Schedule of Values. Before the first Application for Payment, CONTRACTOR shall submit to CITY, and CITY shall approve, a schedule of values, setting forth the various portions of the Work, and the portions of the GMP allocated to each portion. This schedule of values shall be used as a basis for payment.

5.3 Applications for Payment. CONTRACTOR shall deliver to CITY not more than once each month an Application for Payment covering the Cost of Work and Fee applicable to the Work performed during the immediately preceding month. With each Application for Payment CONTRACTOR shall submit such evidence as may be necessary to demonstrate costs incurred on account of Cost of the Work during such month and the percentage of completion of each category of Work. CITY may reject requests for payment, or portions thereof, for Work, or portions thereof, not performed or completed.

5.4 Amount of Progress Payments. CITY shall pay CONTRACTOR the actual Cost of the Work and Fee, if any, through the period covered by the Application for Payment, less Retention as set forth in Section 5.5 below, provided that the aggregate payment amount before retention will not exceed the percentage of completion of the Work multiplied by the GMP (excluding items of the GMP not subject to retention). CITY may additionally withhold from progress payments such amounts pursuant to stop payment notice claims as required by law and CITY administrative regulation 4.01.

5.5 Retention; Escrow Agreement; Final Payment. Five percent (5%) Retention shall be withheld from each progress payment until the expiration of thirty-five (35) days following the recordation of the notice of completion; provided however, City shall continue to retain such amount as required by law and/or CITY administrative regulation 4.01. CONTRACTOR may elect to establish an escrow account for securities in-lieu of the five percent (5%) Retention in a form of escrow agreement compliant with law and subject to approval by the City Attorney (form of escrow agreement is attached as Exhibit D). Release of Retention monies shall constitute the Final Payment.

5.6 Early Release of Subcontractor Retention. [reserved]

5.7 Payment for On-Site and Off-Site Stored Materials. [reserved]

5.8 Title to Construction Work. CONTRACTOR warrants that title to all Construction Work covered by an Application for Payment shall pass to CITY no later than the time of payment. CONTRACTOR further warrants that upon submittal of an Application for Payment, all Construction Work for which Applications for Payment have been previously issued and payments received from CITY shall, to the best of CONTRACTOR's knowledge, information and belief, be free and clear of liens, claims, security interests or encumbrances in favor of CONTRACTOR, Subcontractors, material suppliers, or other persons or entities making a claim by reason of having provided labor, materials or equipment relating to the Construction Work.

5.9 Withholding of Payment. CITY may withhold payment on account of an Application for Payment if required or authorized by any Applicable Law, or to the extent necessary to protect CITY from loss because of:

5.9.1 defective Work not remedied;

5.9.2 third party claims filed or reasonable evidence indicating probable filing of such claims;

5.9.3 failure of CONTRACTOR to make payments of undisputed amounts to Subcontractors for labor, materials or equipment;

5.9.4 damage to CITY or a Separate Contractor caused by the fault or neglect of CONTRACTOR to the extent not reimbursed by insurance; or

5.9.5 reasonable evidence that the Work will not be Substantially Completed within the Contract Time due to Inexcusable Delay, and that the unpaid balance of the GMP would not be adequate to cover liquidated damages for the anticipated Inexcusable Delay.

5.10 Failure of Payment; Interest. In accordance with Public Contract Code §20104.50, CITY shall pay CONTRACTOR interest on any progress payment, which is made by CITY more than thirty (30) days after CITY receives an undisputed and properly submitted written payment request. Said interest shall be equal to the rate set forth in Code of Civil Procedure §685.010(a), and shall begin to accrue upon the expiration of said thirty (30) day period. Any written request for a progress payment which CITY determines to be disputed, improper or not

suitable for payment for any reason shall be returned to CONTRACTOR within seven (7) days after receipt by CITY, along with a written statement of the reason or reasons why such request is disputed, improper or not suitable for payment.

5.11 Occupancy by CITY Prior to Acceptance. CITY reserves the right to Beneficial Occupancy and without charge by CONTRACTOR. In those areas of the Work which are completed, CITY may store materials, equipment, and supplies, and may perform partial operation.

5.12 Substantial Completion. When CONTRACTOR considers the entire Work complete and ready for its intended use, CONTRACTOR shall certify in writing to CITY that the entire Work is substantially complete provide CITY with a Certificate of Substantial Completion. Within a reasonable time thereafter, CITY and CONTRACTOR shall make an inspection of the Work to determine the status of completion. If CITY does not consider the Work substantially complete, CITY will notify CONTRACTOR in writing giving reasons therefor. If CITY considers the Work substantially complete, CITY will accept a corresponding partial Certificate of Substantial Completion. There shall be attached to the Certificate a Punch List of items to be completed or corrected before Final Acceptance and Final Payment.

5.13 Final Completion. When the Work is fully completed, CONTRACTOR shall provide CITY with a Certificate of Final Completion and shall request final inspection in writing. Additionally, CONTRACTOR shall provide legally effective releases or waivers satisfactory to CITY of all lien rights arising out of or liens filed in connection with the Work. Within ten (10) calendar days of receipt of such completed request form, CITY shall make final inspection. If following final inspection CITY determines that the Work (including all Punch List items) has been fully completed, CITY will process a Notice of Completion. If CITY determines that the Work is not complete after receipt of certification from CONTRACTOR, CONTRACTOR shall be notified in writing of deficiencies. After the deficiencies have been corrected, the procedure for final inspection as set forth above shall again be initiated by CONTRACTOR. In the event CITY determines the Work is fully completed, CITY shall initiate process of attaining a notice of completion.

5.13.1 Waiver of Claims at Final Payment. Acceptance of final payment by CONTRACTOR shall constitute a waiver of all claims by CONTRACTOR, except those previously made in writing and identified as unsettled at the time of final payment.

5.14 Construction Allowance Items. [reserved]

5.15 Superintendent. CONTRACTOR shall employ a competent superintendent and necessary assistants who shall be in attendance at the Project site during performance of the Construction Work. The superintendent shall represent CONTRACTOR, and communications given to the superintendent shall be as binding as if given to CONTRACTOR.

5.16 Documents and Samples at the Site. CONTRACTOR shall maintain at the site for CITY one record copy of the drawings, specifications, addenda, Change Order and other Modifications, in good order and marked currently to record changes and selections made during construction, and in addition approved Shop Drawings, Product Data, Samples and similar required submittals. CONTRACTOR shall also prepare one reproducible set of as-built

drawings. These shall be provided to CITY upon completion of the Work.

5.17 Contingency. [reserved]

**ARTICLE 6
CHANGES IN THE WORK; CLAIMS**

6.1 Changes. Changes in the Work shall be performed under applicable provisions of the Contract Documents. If unit prices are stated in the Contract Documents or subsequently agreed upon, and if quantities originally contemplated are so changed in a proposed Change Order or Change Directive that application of such unit prices to quantities of Work proposed will cause substantial inequity to CITY or CONTRACTOR, the applicable unit prices for such change order/directive shall be equitably adjusted. No GMP adjustment on account of a Change Order shall include CONTRACTOR's or Subcontractor's profit, Fee, home office overhead or a formula allocation of indirect costs unless otherwise specifically allowed hereunder.

6.2 Change Directives. The following procedures shall apply with respect to Change Directives:

6.2.1 Upon receipt of a Change Directive signed by CITY, CONTRACTOR shall promptly proceed with the change in the Work involved and advise CITY of CONTRACTOR's agreement or disagreement with the method, if any, provided in the Change Directive for determining the proposed adjustment in the GMP or the Schedule. If CONTRACTOR receives a written communication signed by CITY which CONTRACTOR believes is a Change Directive but is not so identified, it shall not proceed with the change in the Work until it receives from CITY a written confirmation that such communication is in fact a Change Directive.

6.2.2 A Change Directive signed by CONTRACTOR indicates the agreement of CONTRACTOR with the contents thereof, and shall convert the Change Directive to a Change Order.

6.2.3 If CONTRACTOR does not respond promptly or disagrees with the method for adjustment in the GMP or Schedule, the method and adjustment shall be determined as provided in Sections 6.5 or 6.10 below, as applicable. In such case, CONTRACTOR shall keep and present, in such form as CITY may request, an itemized accounting, together with appropriate supporting data.

6.2.4 Pending final determination of cost to CITY, amounts not in dispute shall be included in Applications for Payment. The amount of credit to be allowed by CONTRACTOR to CITY for a deletion or change which results in a net decrease in the GMP shall be actual net cost. When both additions and credits covering related Work or substitutions are involved in a change, the allowance for Fee shall be figured on the basis of net increase, if any, with respect to that change.

6.2.5 If CITY and CONTRACTOR do not agree with the adjustment in the Schedule or the GMP, such disagreement shall be submitted for dispute resolution in accordance with the provisions of this Contract.

6.3 Change Proposals. If CITY requests CONTRACTOR to submit a Change Proposal which would entitle CONTRACTOR to an increase in the GMP for costs of preparation of such Change Proposal pursuant to the provisions of this Section 6.3, CONTRACTOR shall first estimate the costs of preparing such Change Proposal and inform CITY in writing of such costs. CITY shall then direct CONTRACTOR either to proceed with the Change Proposal or cancel the Change Proposal. If CITY directs CONTRACTOR to proceed with the Change Proposal and then elects not to proceed with the Change Order contemplated therein, a Change Order shall be issued to reimburse CONTRACTOR for costs reasonably incurred by CONTRACTOR on account of such Change Proposal, but only to the extent the Change Order contemplated by such Change Proposal involves a material change to the scope of the Work requiring modification to one or more systems which have been designed and approved in accordance with the standards set forth in the technical specifications. To the extent the preparation of such Change Proposal impacts the Schedule (e.g., other Work is suspended pending a decision on such Change Proposal or the design or Design-Assist Work is delayed due to the preparation of the Change Proposal), an equitable adjustment in the Schedule shall be made.

6.4 Claims. CONTRACTOR shall submit any claims for additional compensation to CITY in writing. The claim shall set forth the reason(s) that CONTRACTOR believes additional compensation will or may be due, the nature of the costs involved, and insofar as possible, the amount of the potential claim. The notice must be given to the Project Manager prior to the time that CONTRACTOR shall have performed the work giving rise to the potential work for additional compensation, if based on an act or failure to act by CITY, or in all other cases within fifteen (15) calendar days after happening of the event, thing or occurrence giving rise to the potential claim. Any and all Claims not presented as required herein shall be waived.

6.5 Change Orders Increasing or Decreasing Scope.

6.5.1 Increased Scope. With respect to Change Orders which increase the Scope of Work described on Exhibit F, are not due to the errors or omissions of CONTRACTOR and are not attributable to Excusable Delays or the contingencies set forth in Section 6.6 below, the GMP shall be increased by the following "Scope Change Costs":

6.5.1.1 Construction Work and Mark Ups.

6.5.1.1.1 The estimated increase in the Cost of the Work attributable to the Change Order and which would not have been incurred but for the Change Order and/or Work Directive. In addition, CONTRACTOR may add a markup of up to ten percent (10%), subject to the discretion of the Project Manager, to the increase in the Cost of the Work due to the Change Order. This markup shall constitute full compensation for all delay costs, overhead costs and profit. The GMP shall be revised accordingly.

6.5.1.1.2 When Change Order work is performed by a Subcontractor(s), each Subcontractor may add a markup of up to ten percent (10%), subject to the discretion of the Project Manager, to their direct costs for labor, materials and equipment used in performing the Change Order work. The GMP shall be revised accordingly.

6.5.2 Decreased Scope. With respect to Change Orders, which decrease the Scope of

Work described on Exhibit F, the GMP shall be decreased by the Cost of Work attributable to such Change Order and/or Work Directive. Furthermore, if the Change Order deletes a part of the Scope of Work, CONTRACTOR shall be entitled to retain a value of five percent (5%) of the full value of the reduction in Cost of Work attributable only to the portion of the Scope of Work deleted from the Scope of Work. The GMP shall be revised accordingly.

6.6 Change Orders on Account of Contingencies. With respect to Change Orders which are attributable to the following contingencies, the GMP shall be adjusted (increased or decreased) by the following **“Contingency Costs,”** consisting of the following:

6.6.1 With respect to new or increased taxes arising after the date of this Agreement (other than taxes assessed based on the income of CONTRACTOR), the Change Order shall consist of the incremental amount of such new or increased taxes only. With respect to reductions in taxes arising after the date of this Agreement (other than taxes assessed based on the income of CONTRACTOR), the Change Order shall consist of the incremental amount of such reduced taxes only.

6.6.2 With respect to increases or decreases in fees for permits or other governmental certificates or instruments arising after the date of this Agreement, the Change Order shall consist of the incremental amount of such increases or decreases. To the extent this Agreement states that a permit or certificate is not required and CONTRACTOR is later required to procure such permit or certificate, all out-of-pocket costs reasonably associated therewith shall be included in the Change Order.

6.7 Change Orders on Account of Excusable Delay. With respect to Change Orders, which are attributable to Excusable Delays, and subject to the exceptions set forth in Section 6.7.3 below, the GMP shall be increased by the following **“Delay Costs”**:

6.7.1 Construction Work

6.7.1.1 Increased allowable labor costs resulting from wage increases paid due to the delay;

6.7.1.2 Premiums for overtime and extra shifts incurred in accelerating the Work, but only if acceleration is required in advance by CITY;

6.7.1.3 Proven increased material costs;

6.7.1.4 Additional general conditions costs which would not have been incurred but for the delay (itemized, and not based on a formula allocation);

6.7.1.5 Demobilization and remobilization costs; and

6.7.1.6 Additional items of Cost of the Work attributable to the Excusable Delay and which would not have been incurred but for the Excusable Delay.

6.7.2 Intentionally left blank.

6.7.3 Exceptions. The following exceptions to the provisions of Section 6.7.1 above shall apply:

6.7.3.1 With respect to the Excusable Delay described in Section 4.4.2.1, the cost described in Section 6.7.1 shall not be compensable delay costs if such Excusable Delay occurs prior to the commencement of the Construction Work.

6.7.3.2 With respect to the Excusable Delay described in Section 4.4.2.2, the cost described in Section 6.7.1 shall not be compensable delay costs if such Excusable Delay occurs prior to the commencement of the Construction Work.

6.7.3.3 With respect to the Excusable Delay described in Section 4.4.2.4, costs incurred in connection with such delay are chargeable against the Cost of the Work but shall not increase the GMP.

6.7.3.4 With respect to the Excusable Delay described in Section 4.4.2.5, in addition to the compensation provided in Section 6.7.1, CONTRACTOR shall be entitled to the additional costs set forth in Section 6.10.

6.7.3.5 With respect to the Excusable Delay described in Section 4.4.2.7, additional compensation shall only be paid if the change in Applicable Law is not a change in law of general application (e.g., CAL/OSHA), but is a change in law specifically affecting the Project.

6.8 Force Majeure. There shall be no additional compensation to CONTRACTOR on account of Force Majeure.

6.9 Intentionally left blank.

6.10 Change Orders on Account of Differing Site Conditions. If CONTRACTOR

encounters conditions described in Section 4.4 which constitute Excusable Delay, in addition to the increase in the GMP on account of delay costs incurred by CONTRACTOR (as described in Section 6.7.1), the GMP shall also be increased by the additional Cost of the Work attributable to such conditions which would not have been incurred but for such conditions.

6.11 Time Extensions on Account of Change Orders. CONTRACTOR shall be entitled to a time extension in connection with any Change Order to the extent its time of performance is extended due to such Change Order. CONTRACTOR shall present to CITY a CPM analysis showing how the Change Order affects the critical path of the Work.

ARTICLE 7 CORRECTION OF WORK

7.1 Correction of Work Prior to Completion. Prior to the date of Final Completion, CONTRACTOR shall correct Work which (a) CITY reasonably rejects as being defective or nonconforming to the requirements of the Contract Documents in a written notice delivered to CONTRACTOR or (b) CONTRACTOR recognizes is defective or nonconforming to the Contract Documents. If other portions of the Work are adversely affected by or are damaged by such defective Work, CONTRACTOR shall also correct, repair or replace such affected or damaged Work, as well as any other property of CITY or others damaged by such defective or nonconforming Work. Prior to the date of Final Completion, the cost of correcting any damaged or defective work shall be paid as a Cost of the Work.

7.2 Correction of Work After Completion. For defects identified by CITY and for which CITY has notified CONTRACTOR within a period of twelve (12) months after the date of Final Completion, or within such longer period as may be provided by special warranties contained in the Contract Documents, CONTRACTOR shall re-execute, correct, repair or replace all Work found to be defective or nonconforming to the Contract Documents (whether arising from a construction defect, error, omission or deficiency). If other portions of the Work are adversely affected by or damaged by such defective Work, CONTRACTOR shall also correct, repair or replace such affected or damaged Work, as well as any other property of CITY or others damaged by such defective or nonconforming Work.

7.3 Acceptance of Nonconforming Work. If CITY prefers to accept Work, which is not in accordance with the requirements of the Contract Documents, CITY may do so instead of requiring its removal and correction, in which case the GMP will be reduced as appropriate and equitable. Such adjustment shall be effected whether or not final payment has been made.

7.4 No Effect on Limitations. Nothing contained in this Article shall be construed to establish a period of limitation with respect to other obligations, which CONTRACTOR may have under the Contract Documents.

ARTICLE 8 SUBCONTRACTORS

8.1 Subcontracts

8.1.1 Incorporation of Contract Documents. CONTRACTOR may enter into Subcontracts with various Subcontractors for portions of the Work. The Subcontracts shall require each Subcontractor, to the extent of the Work to be performed by such Subcontractor, to assume towards CONTRACTOR all the obligations and responsibilities which CONTRACTOR assumes towards CITY. All Subcontracts shall incorporate the terms of this Agreement and the Contract Documents to the extent applicable to the Work to be performed by the Subcontractor.

8.1.2 Approval of Subcontractors. Those portions of the Construction Work that the CONTRACTOR does not intend to perform with CONTRACTOR's own personnel shall be performed under Subcontracts. A proposed list of Subcontractors shall be submitted to CITY for approval. Proposed Subcontractors will be deemed accepted unless CITY objects in writing within five (5) days after submission by CONTRACTOR.

ARTICLE 9 INSURANCE AND BONDS; INDEMNIFICATION

9.1 Insurance to be provided by CONTRACTOR:

A. Evidence of Coverage. CONTRACTOR shall, at all times, maintain in full force and effect at a minimum the insurance required by this section; and CONTRACTOR shall not allow any subcontractor to commence Work until similar insurance required of the subcontractor has been obtained and filed. An original Certificate of Insurance, and copies of all required endorsements, all in a form approved by the Risk Manager, evidencing all required coverage or policies shall be filed after the award of the bid and prior to approval of the Contract by the City Council. CONTRACTOR shall provide ten (10) Days prior written notice to CITY of any reduction of coverage limits or cancellation of the coverage or policies shall be given to the City of Roseville as Certificate holder.

B. Qualifying Insurers. With the exception of the State Compensation Insurance Fund, all required insurance policies shall be issued by companies licensed to do business in the State of California and who hold a current policy holders alphabetic and financial size category rating of not less than AVII according to the most recent issue of Best's Insurance Reports.

C. Insurance Required. Commercial General Liability, automobile liability, and worker's compensation insurance shall be maintained as follows:

1.	Commercial General Liability Minor Construction Project (Projects under \$1,000,000)	\$2,000,000 each occurrence \$4,000,000 aggregate
		Personal Injury: \$2,000,000 each occurrence \$4,000,000 aggregate
	Commercial General Liability for Major Construction Projects (Projects over \$1,000,000)	\$5,000,000 each occurrence \$10,000,000 aggregate Personal Injury: \$5,000,000 each occurrence \$10,000,000 aggregate

The Commercial General Liability policy shall include coverage or endorsements for:

- a. Completed operations.
- b. Losses related to independent contractors, products and equipment.
- c. Explosion, collapse and underground hazards.

The Commercial General Liability Insurance shall include the following, copies of which shall be provided:

- a. Inclusion of the City of Roseville, and its officers, agents, employees and volunteer, as additional insured (except for workers' compensation as respects services or operations under the Contract. The additional insured endorsement for the general liability policy shall be at least as broad as the Insurance Services Office ("ISO") CG 20 38 04 13 or an equivalent, blanket endorsement or section of the policy. Endorsements must include coverage for on-going and completed operations. Endorsements shall cover the City of Roseville, its officers, agents, employees, and volunteers.
- b. Cross liability and severability of interest clauses providing that the insurance applies separately to each insured except with respect to the limits of liability.
- c. Stipulation that the insurance is primary and noncontributory, as evidenced by a separate endorsement (CG 20 01 04 13 or an equivalent) or section of the policy, and that neither CITY nor its insurers will be called upon to contribute to a loss.
- d. Such insurance shall specifically cover the contractual liability of the CONTRACTOR.
- e. Any available insurance proceeds in excess of the specified minimum insurance coverage requirements and limits shall be available to the additional insureds. Furthermore, the requirements for coverage and limits shall be: (1) the minimum coverage and limits specified in this Agreement; or (2) the full coverage and maximum limits of any insurance proceeds available to the named insureds, whichever is greater.
- f. Waiver of subrogation endorsement.
- g. CONTRACTOR shall furnish a certificate for the period covered.

SPECIAL NOTICE - CLAIMS MADE COVERAGE:

Liability insurance coverage may not be written on a “claims made” basis. The Certificate of Insurance must clearly provide that the coverage is on an “occurrence” basis.

2. Comprehensive Automobile Liability for bodily injury (including death) and property damage which provides total limits of not less than One Million Dollars (\$1,000,000) combined single limits per accident, applicable to all owned, non-owned, and hired vehicles.

3. Statutory Workers' Compensation and Employer's Liability Insurance, including a waiver of subrogation endorsement and a Broad Form “All-States” Endorsement for all employees engaged in services or operations under the Contract. The employer's liability insurance shall provide limits of not less than One Million Dollars (\$1,000,000) per occurrence. Both the worker's compensation and employer's liability policies shall contain the Insurer's waiver of subrogation in favor of CITY, its officers, agents, employees, and volunteers.

4. Builder's Risk/Course of Construction Insurance: CONTRACTOR shall be responsible for all loss, damage or destruction whatsoever to the Work called for by this Contract until the approval of a Notice of Completion. CONTRACTOR shall secure “All Risk” type of builder's Risk Insurance of the type covering one hundred percent (100%) of the value of the Work performed under this Contract (the value is presumed to be the Contract amount unless otherwise stated in Supplemental Conditions) and all materials, equipment, or other items to be incorporated therein while the same are located at the construction site, a bonded warehouse, or its place of manufacture. At any time, the policy shall cover the value of the Work completed. The policy shall cover hazards including the losses due to fire, explosion, hail, rain, lightning, flood (separate insurance as needed), vandalism, malicious mischief, wind, collapse, aircraft, and smoke.

The policies providing such insurance shall name CITY as a loss payee as its respective interests may appear, and certified copies of such policies shall be filed with CITY. The maximum deductible allowable under the Builder's All Risk policy shall be five percent (5%) of the Contract amount.

Builder's Risk Insurance is not required for coverage of losses in excess of five percent (5%) of the Contract amount for damages resulting from earthquake in excess of a magnitude of 3.5 on the Richter scale, or tidal waves. Coverage in the amount of five percent (5%) of the Contract amount for such losses is required.

D. Other Insurance Provisions.

1. The requirements of the Contract Conditions as to types and limits of insurance coverage to be maintained by CONTRACTOR, and any approval of insurance by CITY, are not intended to, and shall not in any manner limit or qualify the liabilities and obligations otherwise assumed by CONTRACTOR pursuant to the Contract, including, but not limited to, the provisions concerning indemnification, nor preclude CITY from taking any other action available to it under any other provision of the Contract or law.

2. CITY acknowledges that some insurance requirements contained in the Contract Conditions may be fulfilled by self-insurance on the part of CONTRACTOR. However, this shall not in any way limit liabilities assumed by CONTRACTOR under the Contract. Any self-insurance must be approved in writing by CITY, in its sole discretion and shall not reduce the limits of liability. Any deductibles or self-insured retentions (“SIR”) must be declared on the certificate of insurance and approved by CITY in writing. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named insured or CITY. CITY reserves the right to obtain a full certified copy of any insurance policy and endorsements. The failure to exercise this right shall not constitute a waiver of such right.

3. CONTRACTOR agrees to include in its contracts with all subcontractors the same requirements and provisions of this Contract, including the indemnity and insurance requirements, to the extent they apply to the scope of the subcontractor’s work. Furthermore, CONTRACTOR shall require its subcontractors to agree to be bound to CONTRACTOR and CITY in the same manner and to the same extent as CONTRACTOR is bound to CITY under this Contract. Additionally, CONTRACTOR shall obligate its subcontractors to comply with these same provisions with respect to any tertiary subcontractor, regardless of tier. A copy of CITY’s indemnity and insurance provisions will be furnished to the subcontractor or tertiary subcontractor upon request. Alternatively, CONTRACTOR may insure subcontractor(s) under its own policy.

4. CITY, its officers, agents, employees and volunteers are to be covered as insureds with respect to liability arising out of automobiles owned, leased, hired or borrowed by or on behalf of CONTRACTOR; and with respect to liability arising out of work or operations performed by or on behalf of CONTRACTOR including materials, parts or equipment furnished in connection with such work or operations. Coverage shall not extend to any indemnity coverage for the active negligence of the additional insured in any case where an agreement to indemnify the additional insured would be invalid under California Insurance Code Section 11580.04. In addition, the insurance policy may not contain language which prohibits additional insureds or other insurers from satisfying the self-insured retention or deductible.

5. The limits of insurance required in this Contract may be satisfied by a combination of primary and excess insurance. Any excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of CITY (if agreed to in a written contract) before the CITY’s own insurance shall be called upon to protect it as a named insured.

6. In the event CONTRACTOR retains the Architect/Engineer, CONTRACTOR shall require its Architect/Engineer to provide professional liability (errors and omissions) insurance (certificate and additional insured endorsement) in the amount of \$2,000,000.

7. CITY RESERVES THE RIGHT TO WITHHOLD ANY PROGRESS PAYMENTS TO CONTRACTOR IN THE EVENT OF NONCOMPLIANCE WITH ANY INSURANCE REQUIREMENTS.

9.2 Insurance to be provided by CITY. [not applicable]

9.3 Payment, Performance and Warranty Bonds. CONTRACTOR shall furnish and deliver to CITY Performance, Labor & Materials, and Warranty Bonds issued by a surety prior to, and as a condition precedent to, commencement of the Construction Work on the Site; provided, however, the Warranty Bond shall be waived if such bond is not required pursuant to CITY's request for proposals for the Project. The Payment and Performance Bonds shall be in a penal sum equal to one hundred percent (100%) of the GMP, and the Warranty Bond shall be in the penal sum equal to ten percent (10%) of the GMP. All bonds shall be in the form as set forth in Exhibit E hereto. All premiums for the Performance, Labor & Materials, and Warranty Bonds shall be a Cost of the Work. CITY shall have the right to withhold any payment(s) under this Agreement until CONTRACTOR has fully complied with this sub-section.

9.4 Indemnification. To the fullest extent allowed by law, CONTRACTOR shall defend, indemnify, and hold harmless, CITY, its officers, employees, agents, and volunteers, and each and every one of them, from and against all actions, damages, claims, losses, expenses or other liabilities of every type and description, including reasonable attorney fees, to which they may be subjected or put, by reason of, or resulting from, the performance of the Work, whether upon or off the Work, including the loss of use thereof, that is caused in whole or in part by willful or reckless misconduct and/or any negligent or wrongful act or omission of CONTRACTOR, any Subcontractor, and anyone directly or indirectly employed by any of them or anyone for whose acts any of them may be liable, whether or not it is caused in part by a party indemnified hereunder, except for such claims arising from the sole negligence of CITY. The parties intend that this provision shall be broadly construed.

CONTRACTOR's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnity obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement.

ARTICLE 10 PROTECTION OF PERSONS AND PROPERTY

10.1 Safety Precautions and Programs.

10.1.1 Site Safety. CONTRACTOR shall be responsible for initiating, maintaining and providing supervision of safety precautions and programs in connection with the Work, and shall also comply with any and all insurance carrier-mandated safety requirements and programs.

10.1.2 Safety Notices. In connection with the performance of the Work, CONTRACTOR shall provide notices and comply with all Applicable Laws bearing on the safety of persons and property and their protection from damage, injury or loss.

10.2 Safety of Persons and Property.

It is the intent of the parties that CITY is not an exposing, creating, controlling, or correcting employer under California Labor Code Section 6400. In accordance with generally accepted fabrication and construction practices and all applicable Laws and Standards and Codes, CONTRACTOR shall have the authority and be solely and completely responsible for the safety of all property utilized and all persons performing under this Agreement. Moreover, the CONTRACTOR shall be the controlling employer and has the authority and responsibility to enforce safety for all fabrication, construction work, and Work performed under this Agreement. The services of CITY's contract administrator, if any, in conducting a review of CONTRACTOR's performance under this Agreement is not intended to include a review of the adequacy of CONTRACTOR's work methods, equipment or safety measures. If CITY and/or its contract administrator observes a safety violation related to the CONTRACTOR's performance under this Agreement, then CITY and/or its contract administrator will report the violation to the CONTRACTOR who is then responsible for assuring the violation is abated.

CONTRACTOR is hereby informed that work on this Project could be hazardous. CONTRACTOR shall carefully instruct all personnel performing under this Agreement in potentially hazardous work areas as to potential dangers and shall provide such necessary safety equipment and instructions as are necessary to prevent injury to personnel and damage to property.

All Equipment, Work and materials provided under this Agreement shall be in strict accordance with all applicable Laws and Standards and Codes, and attention is drawn to the requirements of CAL/OSHA.

CONTRACTOR shall perform under this Agreement so as not to expose personnel to, or to discharge into the atmosphere from any materials brought to the Site by CONTRACTOR, smoke, dust, asbestos, toxic chemicals or other air contaminants in violation of applicable Laws and Standards and Codes.

10.2.1 Reasonable Precautions. CONTRACTOR shall take all precautions and implement all safety measures and requirements imposed by any Applicable Law. Without limiting the generality of the foregoing, CONTRACTOR shall take necessary precautions for the safety of, and shall provide necessary protection to prevent damage, injury or loss to:

10.2.1.1 Employees on the Work and other persons who may be affected thereby;

10.2.1.2 The Work and materials and equipment to be incorporated therein, whether in storage on or off the Site under care, custody or control of CONTRACTOR; and

10.2.1.3 Other property at the Site or adjacent thereto, such as trees, shrubs, lawns, walks, pavements, roadways, structures and utilities not designated for removal, relocation or replacement in the course of the Construction Work.

10.2.2 Safeguards. CONTRACTOR shall erect and maintain, as required by existing conditions and performance of the Work, reasonable safeguards for safety and protection, including posting danger signs and other warnings against hazards, promulgating safety

regulations and notifying CITY and users of adjacent sites and utilities, and shall comply fully with the requirements of CAL/OSHA.

10.2.3 Use of Explosives. Use of explosives is prohibited, unless approved in advance in writing by CITY. CITY may impose reasonable conditions on the use of explosives.

10.2.4 Remedy of Damage. CONTRACTOR shall promptly remedy damage and loss to property referred to in Sections 10.2.1.2 and 10.2.1.3 caused in whole or in part by CONTRACTOR, or anyone employed by or in control of CONTRACTOR, or any Subcontractor. All costs incurred by CONTRACTOR in connection with its obligations under this Section shall be cost of the Work, but shall not increase the GMP.

10.2.5 Designation of Safety Coordinator. [reserved]

10.2.6 Loads. CONTRACTOR shall not load or permit any part of the Construction Work or the Site to be loaded so as to endanger its safety.

10.3 Security. CONTRACTOR shall take any and all precautions that may be reasonably necessary to render all portions of the Work, the Site and any adjacent areas affected by the Work secure in all material respects, to decrease the likelihood of accidents, and to avoid vandalism and other contingencies which are liable to delay the Work or give rise to claims or liabilities. CONTRACTOR shall furnish and install all necessary facilities to provide safe means of access to all points where Work is being performed. CONTRACTOR shall take all precautions and measures as may be reasonably necessary to secure the Project at all hours, including evenings, holidays and non-work hours. Such precautions may include provision of security guards.

10.4 Damage to Property at the Site. CONTRACTOR shall be responsible for any and all damage or loss to property at the Site, except to the extent caused by the acts or omissions of CITY or its representatives, agents or employees. The costs and expenses incurred by CONTRACTOR under this Article shall be paid as a Cost of the Work to the extent that such costs and expenses are in excess of or are not covered by required insurance, and to the extent of any deductibles. If such damage or loss is caused by CONTRACTOR, payment of such costs as Cost of the Work shall be limited by the provisions of Section 2.20.5 hereof.

10.5 Damage to Property of Others. CONTRACTOR shall avoid damage, as a result of CONTRACTOR's operations, to existing sidewalks, curbs, streets, alleys, pavements, utilities, adjacent property, the work of Separate Contractors and the property of CITY. CONTRACTOR shall repair any such damage caused by the operations of CONTRACTOR, which costs shall be paid as a Cost of the Work to the extent that such costs and expenses are in excess of or are not covered by required insurance, and to the extent of any deductible.

10.6 Failure of CONTRACTOR to Repair Damage. If CONTRACTOR fails to commence the repair of damage to property as set forth in this Article, and/or diligently pursue such repair, then CITY, after ten (10) Days prior written notice to CONTRACTOR (provided CONTRACTOR has not commenced such repair during such ten (10) Day period), may elect to

repair such damages with its own forces and to deduct from payments due or to become due to CONTRACTOR amounts paid or incurred by CITY is correcting such damage.

10.7 Emergencies. In an emergency affecting the safety of persons or property, CONTRACTOR shall act, at CONTRACTOR's discretion, to prevent threatened damage, injury or loss. Additional costs or extensions of time caused by CONTRACTOR on account of an emergency not caused by the fault or neglect of CONTRACTOR shall be determined as provided in Section 6.2 hereof.

ARTICLE 11 DISPUTES

11.1 Disputes between CITY and CONTRACTOR. In the event of any dispute arising between CITY and CONTRACTOR regarding any part of the Contract or the Contract Documents, or the Parties' obligations or performance thereunder, and subject to any claims presentation requirements set forth in the Contract Documents, either Party may institute the dispute resolution procedures set forth herein. The Parties shall continue performance of their respective obligation hereunder notwithstanding the existence of a dispute.

11.2 Dispute Resolution Procedures. CONTRACTOR must submit all claims as defined in and in accordance with the claim resolution process set forth in Section 9204 of the Public Contract Code. Each such claim must be sent to CITY by registered mail or certified mail with return receipt requested and must contain reasonable documentation to support the claim. All claims must be received prior to acceptance of the Work and will be handled in accordance with the procedures set forth in Section 9204 of the Public Contract Code.

ARTICLE 12 EVENTS OF DEFAULT AND REMEDIES; TERMINATION

12.1 CONTRACTOR Events of Default. The following shall be considered "CONTRACTOR Events of Default":

12.1.1 If CONTRACTOR fails or neglects to carry out the Work in accordance with the provisions of the Contract Documents, and fails, after seven (7) Days' notice from CITY, to commence a cure to correct such failure or neglect and thereafter diligently pursue such cure to completion;

12.1.2 If CONTRACTOR materially breaches this Agreement and fails, after seven (7) Days' notice from CITY, to commence a cure to correct such breach and thereafter diligently pursue such cure to completion (such breach to include, but not be limited to, failure to make payment to Subcontractors for materials or labor in accordance with the respective agreements between CONTRACTOR and the Subcontractors or violation of Applicable Laws);

12.1.3 If a custodian, trustee or receiver is appointed for CONTRACTOR, or if CONTRACTOR becomes insolvent or bankrupt, is generally not paying its debts as they become due or makes an assignment for the benefit of creditors, or CONTRACTOR causes or suffers an order for relief to be entered with respect to it under applicable bankruptcy law or applies for or consents to the appointment of a custodian, trustee or receiver for CONTRACTOR, or bankruptcy, reorganization, arrangement or insolvency proceedings, or other proceedings for relief under any bankruptcy or similar law or laws for the relief of debtors, are instituted by or against CONTRACTOR, and in any of the foregoing cases such action is not discharged or terminated within sixty (60) Days of its institution.

12.2 Remedies of CITY upon a CONTRACTOR Event of Default.

12.2.1 Termination of Contract. Upon the occurrence of a CONTRACTOR Event of Default, CITY shall have the right to terminate this Contract upon an additional seven (7) Days written notice to CONTRACTOR, provided that CONTRACTOR has not commenced a cure within such seven (7) Day period. Without prejudice to any other rights or remedies of CITY, CITY may:

12.2.1.1 Take possession of the Site and of all materials, equipment, tools and construction equipment thereon owned by CONTRACTOR;

12.2.1.2 Accept assignment of Subcontracts; and

12.2.1.3 Finish the Work by whatever reasonable method CITY may deem expedient.

12.2.1.4 When CITY terminates the Contract as aforesaid, CONTRACTOR shall not be entitled to receive further payment until the Work is finished. If the unpaid balance of the GMP exceeds costs incurred in finishing the Work, such excess shall be paid to CONTRACTOR, up to the amount due CONTRACTOR for work performed prior to termination. If such costs exceed the unpaid balance of the GMP, CONTRACTOR shall pay the difference to CITY.

12.2.2 Recourse to Payment and Performance Bonds. Upon the occurrence of a CONTRACTOR Event of Default and termination of this Contract by CITY, CITY may call upon the Surety to perform its/their obligations under the Payment and Performance Bonds, if applicable.

12.3 Remedies not Exclusive. Except as otherwise provided in this Agreement, no remedy hereunder is intended to be exclusive of any other remedy, but each and every such remedy shall be cumulative and shall be in addition to any other available legal or equitable remedy, existing now or hereafter. No delay or omission to exercise any right or power accruing shall impair any such right or power nor shall it be construed to be a waiver of any Event of Default or acquiescence therein, and every such right and power may be exercised from time to time as often as may be deemed expedient.

12.4 Termination or Suspension for Convenience.

12.4.1 Termination for Convenience. CITY may, without cause, terminate this Agreement, or any portion of Work to be performed hereunder at any time by a notice in writing from CITY to CONTRACTOR for CITY's convenience. In such case, CITY shall pay to CONTRACTOR all funds due CONTRACTOR for work performed up to the date of termination, plus all demobilization and close-out costs (if applicable), including, but not limited to, any amounts payable to Subcontractors for early termination, plus reasonable overhead and profit on Work performed. All funds due hereunder, including unpaid Retention, shall be released within thirty (30) Days of termination of the Agreement for convenience, subject to any withholding required or authorized by any Applicable Law. CONTRACTOR shall not be entitled to any compensation or damages other than those described in this section. In no event shall such amounts owed to CONTRACTOR exceed the GMP.

12.4.2 Suspension for Convenience. CITY may, without cause, order CONTRACTOR in writing to suspend, delay or interrupt the Work in whole or in part for such period of time as CITY may determine. An adjustment shall be made for increases in the cost of performance of the Work, including Fee on the increased cost of performance, caused by the suspension, delay or interruption, in accordance with the Change Order provisions of this Contract. No adjustment shall be made to the extent (1) the performance is, was or would have been so suspended, delayed or interrupted by another cause for which CONTRACTOR is responsible or (2) that an equitable adjustment to the GMP and/or Schedule is made or denied under another provision of this Contract. Adjustments made in the cost of performance may have a mutually agreed fixed or percentage Fee.

ARTICLE 13 MISCELLANEOUS PROVISIONS

13.1 Governing Law. This Contract shall be construed with and governed by the laws of the State of California.

13.2 Successors and Assigns. CITY and CONTRACTOR respectively bind themselves, their partners, shareholders, successors, assigns and legal representatives to the other Party hereto and to shareholders, successors, assigns and legal representatives of such other Party in respect to covenants, agreements and obligations contained in the Contract Documents. Neither Party shall assign the Contract without the prior written consent of the other.

13.3 Notice. Any notices to Parties required by this Agreement shall be delivered or mailed, U.S. first class, postage prepaid, addressed as follows:

If to CITY:

Tara Gee, Park Planning &
Development Superintendent
316 Vernon Street, Ste. 400

If to CONTRACTOR:

James Moore, Vice President
2690 Scott Boulevard
Santa Clara, CA 95050

Address for Notice may be changed by Notice to the other Party.

13.4 Prevailing Wages. For purposes of this Agreement, CONTRACTOR and its Subcontractors shall comply with all applicable prevailing wage laws, e.g., but not limited to, California Labor Code Sections 1770 et seq. In accordance with said Section 1775, CONTRACTOR shall forfeit as a penalty to the City Two Hundred Dollars (\$200) for each calendar Day or portion thereof for each worker paid less than the prevailing rates for such work or craft in which such worker is employed for any work done on-Site under the Agreement by CONTRACTOR or by any Subcontractor in violation of the provisions of the Labor Code and in particular, Labor Code Sections 1770 to 1780, inclusive. In addition to said penalty and pursuant to said Section 1775, the difference between such stipulated prevailing wage rates and the amount paid to each worker for each calendar Day or portion thereof for which each worker was paid less than the stipulated prevailing wage shall be paid to each worker by CONTRACTOR or the applicable Subcontractor.

Pursuant to the provisions of California Labor Code Sections 1773, the Department has identified the source, stated below, of the General Prevailing Rate of Wages applicable to the work to be done, for straight time, overtime, and holiday work. The holiday wage rate listed shall be applicable to all holidays recognized in the collective bargaining agreement of the particular craft, classification or type of worker concerned. These wage rates may be obtained from the State Department of Industrial Relations and/or the following website address: <http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm>, which is a part of this Agreement.

Pursuant to Labor Code Section 1773.2, General Prevailing Wage Rates set forth above, which forms a part of this Agreement, shall be posted by CONTRACTOR at a prominent place at the Site. Prevailing wage rates to be posted at the Site will be furnished by the Department. The possibility of wage increases is one of the elements to be considered by CONTRACTOR in determining its Proposal, and will not under any circumstances be considered as the basis of a claim against CITY or the Agreement.

13.5 Modifications. No Modifications or Change Orders shall be valid unless in writing and signed by CITY and CONTRACTOR.

13.6 Interpretation. Any and all headings of this Agreement are for convenience of reference only and do not modify, define or limit the provisions thereof. Words of any gender shall be deemed and construed to include correlative words of the other gender. Words importing the singular number shall include the plural number and vice versa, unless the context shall otherwise be deemed to include all supplements and/or amendments to any such exhibits or documents entered into in accordance with the terms hereof and thereof. All references to any person or entity shall be deemed to include any person or entity succeeding to the rights, duties and obligations of such person or entity in accordance with the terms of this Agreement. Where reference is made in this Agreement to another Contract Document, the reference refers to that provision as amended or supplemented by the other provisions of the Contract Documents. In

the event of any conflict between or among the Contract Documents, the provisions of this Agreement shall govern.

13.7 Severability. If any provision of this Agreement is held to be inoperative or unenforceable as applied in any particular case because it conflicts with any other provision hereof or any constitution, statute, ordinance, rule of law or public policy, or for any other reason, such holding shall not have the effect of rendering the provision in question inoperative or unenforceable in any other case, or of rendering any other provision herein contained inoperative or unenforceable to any extent whatever. The invalidity of any one or more phrases, sentences, clauses or sections contained in this Agreement shall not affect the remaining portions of this Agreement or any part hereof, and they shall otherwise remain in full force and effect.

13.8 Whole Agreement. This Agreement, the Exhibits hereto and the Contract Documents, specifications and Drawings shall constitute the entire agreement between the Parties, and no inducements, considerations, promises or other references shall be implied in this Agreement that are not expressly addressed herein

13.9 Accounting Records. CONTRACTOR shall keep full and detailed accounts and exercise such controls as may be necessary for proper financial management under this Agreement; the accounting and control systems shall be reasonably satisfactory to CITY. CITY and CITY's accountants shall be afforded access to CONTRACTOR's records, books, correspondence, instructions, drawings, receipts, Subcontracts, vouchers, memoranda and other data relating to this Agreement, and CONTRACTOR shall preserve these for a period of three (3) years after final payment, or for such longer period as may be required by law.

13.10 Intentionally left blank.

13.11 No Waiver. Neither the inspection by CITY or its agents, nor any order or certificate for payment of money, nor payment for, nor acceptance of the whole or any part of the work by CITY, nor any extensions of time, nor any position taken by CITY or its agents shall operate as a waiver of any provision of this Agreement or of any power herein reserved to CITY or any right to damages herein provided, nor shall any waiver of any breach of this Agreement be held to be a waiver of any other or subsequent breach.

13.12 CONTRACTOR Shall Assume Risks. Until the Final Completion or acceptance by CITY of all Work under this Contract, the Work shall be under CONTRACTOR's responsible care and charge. CONTRACTOR shall rebuild, repair, restore and make good all injuries, damages, corrections, and repairs occasioned or rendered necessary by accidental causes of any nature, to all or any portions of the Work, except as otherwise stipulated.

13.13 General Liability of CONTRACTOR. Except as otherwise herein expressly stipulated, CONTRACTOR shall perform all the work and furnish all the labor, materials, tools power and light, and appliances, necessary or proper for performing and completing the Work herein required in the manner within the time herein specified. The mention of any specific duty or liability of CONTRACTOR shall not be construed as a limitation or restriction of any general

liability or duty of CONTRACTOR and, any reference to any specific duty or liability shall be construed to be the purpose of explanation.

13.14 Attorney's Fees and Venue. If either Party commences any legal action against the other Party arising out of this Agreement or the performance thereof, the prevailing Party shall be entitled to recover its reasonable litigation expenses, including but not limited to, court costs, expert witness fees, discovery expenses, and attorney's fees. Any action arising out of this Agreement shall be brought in Placer County, California, regardless of where else venue may lie. To the extent permitted by applicable law, each Party waives any defense that it may have based on lack of *in personam* jurisdiction or *forum nonconveniens*.

13.15 Third Party Beneficiaries. There are no third party beneficiaries to this Agreement.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this Agreement in duplicate by its City Manager and attested to by its City Clerk under the authority of Resolution No. _____, adopted by the Council of the City of Roseville on the ____ day of _____, 20 ____, and CONTRACTOR has caused this Agreement to be executed.

EXHIBIT A

GUARANTEED MAXIMUM PRICE, FEE, AND COST OF WORK

A. GUARANTEED MAXIMUM PRICE: The **Guaranteed Maximum Price** as of the date of execution of this Agreement is forty-five million, eight hundred seventy-three thousand, two hundred fifty-nine dollars (\$45,873,259), U.S. Currency.

B. FEE AND CONTINGENCY: The Fee and Contingency amounts, if any, are as stated in the Proposal.

C. COST OF THE WORK:

1 “Cost of the Work.” The term “Cost of the Work” shall mean costs incurred by CONTRACTOR in the performance of the Work, that do not exceed the GMP. The following are categories of cost and expense to be paid by CITY to CONTRACTOR as Cost of the Work:

2 Construction Costs.

2.1 Labor Costs.

2.1.1 Wages of construction workers directly employed by CONTRACTOR to perform the construction of the Work at the Site or, with CITY's agreement, at off-site workshops.

2.1.2 Wages or salaries of CONTRACTOR's supervisory and administrative personnel when stationed at the Site and wages, salaries and other costs of project management, pre-construction services, form design, foundation engineering, manpower planning, purchasing, estimating and data processing, whether performed at the Site or in CONTRACTOR's offices, including, but not limited to services rendered during the Design Phase of the Project.

2.1.3 Wages and salaries of CONTRACTOR's supervisory or administrative personnel engaged at factories, workshops or on the road, in expediting the production or transportation of materials or equipment required for the Work, but only for that portion of their time required for the Work.

2.1.4 Costs paid or incurred by CONTRACTOR for taxes, insurance, contributions, assessments and benefits required by law or collective bargaining agreements and, for personnel not covered by such agreements, customary benefits such as sick leave, medical and health benefits, holidays, vacations and pensions, provided such costs are based on wages and salaries included in subsections 2.1.1 through 2.1.3 above.

2.2 Subcontract Costs. Amounts due Subcontractors in accordance with the requirements of the Subcontracts.

2.3 Costs of Materials and Equipment Incorporated in the Completed Construction. Costs, including transportation, of materials and equipment incorporated or to be incorporated in the completed construction.

2.4 Costs of other Materials and Equipment, Temporary Facilities, and Related Items.

2.4.1 Costs, including transportation, installation, maintenance, dismantling and removal of materials, supplies, temporary facilities, machinery, equipment and hand tools not customarily owned by the construction workers, which are provided by CONTRACTOR at the Site and fully consumed in the performance of the Work; and cost, less salvage value, on such items if not fully consumed, whether sold to others or retained by CONTRACTOR. Costs for items previously used by CONTRACTOR shall mean fair market value.

2.4.2 Rental charges for temporary facilities, machinery, equipment and hand tools not customarily owned by the construction workers, which are provided by CONTRACTOR at the Site, whether rented from CONTRACTOR or others, and costs of transportation, installation, minor repairs and replacements, dismantling and removal thereof. Rental charges for equipment owned by CONTRACTOR shall be at then prevailing rates.

2.4.3 Costs of removal of debris from the Site.

2.4.4 Costs of facsimiles, telegrams and long distance telephone calls, postage and delivery charges (whether originating at the Site or at the offices of CONTRACTOR or CONTRACTOR), telephone service at the Site and reasonable petty cash expenses of the Site office.

2.5 Premiums; Taxes; Fees; Royalties.

2.5.1 That portion directly attributable to this Agreement of premiums for insurance and the Payment and Performance Bonds.

2.5.2 Sales, use, gross receipts or similar taxes imposed by a governmental authority, which are related to the Work and for which CONTRACTOR is liable.

2.5.3 Fees and assessments for any permits, licenses and inspections required by the Contract Documents.

2.5.4 Fees of testing laboratories for tests required by the Contract Documents or government authorities.

2.5.5 Royalties and license fees paid for the use of a particular design, process or product required by the Contract Documents. The costs of defending suits or claims for infringement of patent rights arising from such requirement by the Contract Documents;

payments made in accordance with legal judgments against CONTRACTOR or CONTRACTOR resulting from such suits or claims and payments of settlements in connection therewith.

2.5.6 Deposits lost for cause other than CONTRACTOR's negligence.

2.6 Emergencies. Costs incurred in taking action to prevent threatened damage, injury or loss in case of emergency affecting the safety of persons and property, as provided in Section 10.7 of this Agreement.

2.7 Other Costs. Other costs incurred in the performance of the Work, if and to the extent approved in writing by CITY, which approval shall not be unreasonably withheld.

3 Items not Included in Cost of the Work.

3.1 Salaries and other compensation of CONTRACTOR's personnel stationed at CONTRACTOR's principal office or offices other than the Site, except as specifically provided in subsections 2.1.2 and 2.1.3 above.

3.2 Expenses of CONTRACTOR's principal office and offices, other than the Site office.

3.3 Overhead and general expenses, except as may be included in Sections 1 and 2 above.

3.4 The capital expenses of CONTRACTOR, including interest on capital employed for the Work.

3.5 Costs that would cause the GMP to be exceeded.

EXHIBIT B
CONSTRUCTION ALLOWANCE ITEMS

(reserved)

EXHIBIT C

HAZARDOUS MATERIALS

1. Certain Definitions.

1.1 “Hazardous Materials” means any substance:

1.1.1 the presence of which requires investigation or remediation under federal, state or local law, statute, regulation, ordinance, order, action, policy or common law;

1.1.2 which is or becomes defined as a “hazardous waste,” “hazardous substance,” pollutant or contaminant under any federal, state or local law, statute, regulation, rule or ordinance or amendments thereto, including, without limitation, the Comprehensive Environmental Response, Compensation and Liability Act, 42 USC §§9601 et seq. (“CERCLA”), as amended, or the Resource, Conservation and Recovery Act, as amended, 42 USC §§6901 et seq. (“RCRA”);

1.1.3 which is petroleum, including crude oil or any fraction thereof not otherwise designated as a “hazardous substance” under CERCLA, including without limitation gasoline, diesel fuel or other petroleum hydrocarbons;

1.1.4 which is toxic, explosive, corrosive, flammable, infectious, radioactive, carcinogenic, mutagenic, or otherwise hazardous and is or becomes regulated by any governmental authority or instrumentality;

1.1.5 the presence of which on the Site causes or threatens to cause a nuisance upon the Site or to the adjacent properties or poses or threatens to pose a hazard to the health or safety of persons on or about the Site; or

1.1.6 the presence of which on adjacent properties could constitute a trespass by CONTRACTOR or CITY.

1.2 “Underground Storage Tank” shall have the definition assigned to that term by RCRA §9001, 42 USC §6991, and also shall include:

1.2.1 any tank of 1,100 gallons or less capacity used for storing motor fuel;

1.2.2 any tank used for storing heating oil for consumption on the premises where stored;

1.2.3 any septic tank; and

1.2.4 any pipes connected to items 1.2.1-1.2.3.

1.3 “Environmental Requirements” means all Applicable Laws, statutes, regulations, rules, ordinances, codes, licenses, permits, orders and similar items of all federal, state or local governmental agencies or other instrumentalities and all applicable judicial, administrative and regulatory decrees, judgments and orders relating to the protection of human health or the environment, including, without limitation:

1.3.1 all requirements, including but not limited to, those pertaining to reporting, licensing, permitting, investigation and remediation of emissions, discharges, releases or threatened releases of Hazardous Materials into the air, surface water, ground water or land, or relating to the manufacture, processing, distribution, use, treatment, storage, disposal, transport or handling of Hazardous Materials; and

1.3.2 all requirements pertaining to the protection of the health and safety of employees or the public.

1.4 “Environmental Damages” means all claims, judgments, damages, losses, penalties, fines, liabilities, encumbrances, liens, costs and expenses of investigation and defense of any claim, including, without limitation, attorney's fees, which are incurred at any time as a result of the existence of Hazardous Materials upon, about or beneath the Site or migrating or threatening to migrate to or from the Site, and including, without limitation:

1.4.1 damages for personal injury, or injury to property or to natural resources occurring upon or off the Site;

1.4.2 fees incurred for the services of attorneys, consultants, CONTRACTOR, experts, laboratories and all other costs incurred in connection with the investigation or remediation of such Hazardous Materials or violation of Environmental Requirements; and

1.4.3 liability to any third party or governmental agency or political subdivision to indemnify such party, agency or political subdivision for costs expended in connection with the items listed in subparagraph 1.4.2.

1.5 “Environmental Conditions” means collectively, Hazardous Materials and Underground Storage Tanks existing on the Site and not brought there by CONTRACTOR or any Subcontractor.

2. Investigation of Site.

2.1 Upon written notice from CITY, CONTRACTOR shall prepare for approval and execution by CITY, one or more contracts (“Environmental Contracts”) with suitably qualified consultants and/or engineers (“Environmental Engineers”), for purposes of performing an investigation and analysis of the Site prior to demolition and excavation activities, to determine the presence of any Environmental Conditions on, in or under the Site. The Environmental Contracts shall provide for a commercially reasonable scope of investigation approved by CITY, and may provide for conducting the investigation and testing in phases acceptable to CITY. The Environmental Contracts shall also provide that the Environmental Engineers shall begin their

tests and inspections at the Site as soon as CITY is able to arrange access to the Site, or any portions thereof, for such purposes. The Environmental Contracts shall provide that CONTRACTOR, acting as agent of CITY, shall coordinate the activities of the Environmental Engineers.

2.2 The Environmental Contracts shall provide that the Environmental Engineers shall prepare such reports, feasibility studies and remedial plans (“Environmental Assessments”) as may be reasonably necessary in order to identify and explain the quantity, scope and nature of the Environmental Conditions found to exist at the Site. The Environmental Assessments shall contain a detailed analysis of the Environmental Conditions discovered, and the actions (“Remedial Actions”) required for the response, removal, cleanup or remediation of such Environmental Conditions (i) which are required by Environmental Requirements, or (ii) which are reasonably necessary to mitigate Environmental Damages.

2.3 The Environmental Contracts shall provide that the Environmental Engineers shall promptly provide CITY and CONTRACTOR with a copy of each Environmental Assessment, together with any other reports and test results generated pursuant to the Environmental Contracts. CONTRACTOR shall, promptly after receipt of the foregoing matters from the Environmental Engineers, prepare and submit to CITY a written report setting forth CONTRACTOR's understanding of whether and to what extent any recommended Remedial Actions may result in an amendment to the Schedule and the progress of the Work.

2.4 The Environmental Contracts shall provide that it shall be the responsibility of the Environmental Engineers to give any necessary notice to the appropriate regulatory agency or agencies of the presence of any Environmental Conditions; to pursue all necessary negotiations with such agencies concerning preparation and approval of a plan for clean-up to the extent required; and to obtain all necessary permits to perform any Remedial Actions.

3. Remedial Actions.

3.1 If so instructed by CITY, based upon the results of the Environmental Assessments, CONTRACTOR shall, as agent for CITY, obtain bids from remediation contractors (“Remediation Contractors”) suitably qualified and approved by CITY, to perform the Remedial Actions selected by CITY and shall submit such bids to CITY, together with CONTRACTOR's recommendation of the Remediation Contractor(s) to be retained. If CITY elects to go forward with all or any portion of the Remedial Actions covered by the bids submitted, CITY will so advise CONTRACTOR in a written notice on or before the date which is sixty (60) Days after receipt of the foregoing matters from CONTRACTOR. Promptly after receipt of such notice, CONTRACTOR shall prepare for CITY's execution remediation contracts (“Remediation Contracts”) with the Remediation Contractors identified in such notice.

3.2 CONTRACTOR, as agent for CITY, shall be responsible for coordinating the work and services performed by the Remediation Contractors, and coordinating such remediation work with the Work.

3.3 If in the course of performance of the Work, CONTRACTOR encounters on the Site any Hazardous Materials not previously disclosed and remediated by the Environmental Engineers or the Remediation Contractors, CONTRACTOR shall immediately suspend the Work in the area affected and promptly thereafter report the condition to CITY.

4. Payments: Liability of CONTRACTOR.

4.1 All payments due under the Environmental Contracts and the Remediation Contracts shall be made by CITY directly to the Environmental Engineers and the Remediation Contractors. Such payments will be based on requisitions, which requisitions shall be approved by CONTRACTOR prior to submission to CITY.

4.2 All payments due under the Environmental Contracts, the Remediation Contracts and for Environmental Damages, shall not be a part of the GMP, and shall be the sole responsibility of CITY, except as expressly provided otherwise in Section 5 hereof.

4.3 It is understood and agreed that with respect to any Environmental Conditions existing on the Site, CONTRACTOR is not, and shall not be deemed to be, a generator, arranger, operator, treater, storer, transporter or disposer of, or otherwise responsible for, any such Environmental Conditions. It is understood and agreed that CONTRACTOR shall have no right to direct the means or methods of performance of any Environmental Engineer or Remediation Contractor.

4.4 CITY shall indemnify, defend and hold harmless CONTRACTOR, from and against any Environmental Damages asserted against or sustained by CONTRACTOR as a result of CONTRACTOR being deemed or determined to be a generator, arranger, operator, treater, storer, transporter or disposer of, or otherwise responsible for, any such Environmental Conditions.

5. Environmental Responsibilities of CONTRACTOR.

5.1 CITY acknowledges and agrees that CONTRACTOR shall not commence or continue any demolition or construction activities on any portion of the Site on or in which Remedial Actions are to be performed until such Remedial Actions are to the point where construction activities will not interfere with such Remedial Actions, as evidenced by appropriate certification by the applicable Environmental Engineer and/or Remediation CONTRACTOR and any required approval of any applicable government agency. CONTRACTOR agrees to use good faith diligent efforts to adjust and reschedule its activities at the Site so as to minimize, to the extent reasonably practical, the adverse effect on the progress of the Work resulting from any Remedial Actions.

5.2 CONTRACTOR shall not bring Hazardous Materials to the Site, and shall not include Hazardous Materials in any construction materials, unless permitted by Environmental Requirements. CONTRACTOR shall comply, and shall cause all Subcontractors to comply, with all Environmental Requirements regarding the generation, handling, storage, treatment and disposal of Hazardous Materials.

5.3 CONTRACTOR shall indemnify, defend and hold harmless the Indemnified Parties from and against any Environmental Damages asserted against or sustained by such parties as a result of any Environmental Conditions caused or created by CONTRACTOR or any Subcontractor, or of any violation by CONTRACTOR or the Subcontractors, of any Environmental Requirement arising out of the performance of the Work.

IN LIEU OF SECURITIES ESCROW AGREEMENT

**(form of agreement follows this page)
(use is optional by Contractor)**

ESCROW AGREEMENT FOR SECURITY DEPOSITS IN LIEU OF RETENTION
(Project: Roseville Soccer Complex)

THIS ESCROW AGREEMENT is made and entered into on this _____ day of _____, 20__ by and between the:

City of Roseville, whose address is:

316 Vernon Street, Suite 400
Roseville, CA 95678

(hereinafter called "CITY"); and

_____, whose address is:

(hereinafter called "CONTRACTOR"); and

_____, whose address is:

(hereinafter called "ESCROW AGENT").

For the consideration hereinafter set forth, CITY, CONTRACTOR, and ESCROW AGENT agree as follows:

1. Pursuant to Section 22300 of the Public Contract Code of the State of California, CONTRACTOR has the option to deposit securities, subject to prior approval of CITY, with ESCROW AGENT, as a substitute for retention earnings required to be withheld by CITY pursuant to the contract for public works entered into between the CITY and CONTRACTOR for the Project in the amount of _____

_____ dollars (\$_____) dated_____, (hereinafter referred to as the “Contract”). Alternatively, on written request of CONTRACTOR, CITY shall make payments of the retention earnings directly to the ESCROW AGENT.

When CONTRACTOR deposits the securities as a substitute for Contract earnings, the ESCROW AGENT shall notify CITY within ten (10) days of the deposit. The market value of the securities at the time of the substitution shall be at least equal to the cash amount then required to be withheld as retention under the terms of the Contract between CITY and CONTRACTOR. Securities shall be held in the name of ESCROW AGENT, and shall designate CONTRACTOR as the beneficial owner, and shall be limited to those types of acceptable securities as described in Public Contract Code Section 22300.

2. CITY shall make progress payments to CONTRACTOR for those funds which otherwise would be withheld from progress payments pursuant to the Contract provisions, provided that ESCROW AGENT holds securities in the form and amount specified above.

3. When CITY makes payment of retentions earned directly to ESCROW AGENT, ESCROW AGENT shall hold them for the benefit of CONTRACTOR until the time that the escrow created under this Agreement is terminated. CONTRACTOR may direct the investment of the payments into securities. All terms and conditions of this Agreement and the rights and responsibilities of the parties shall be equally applicable and binding when CITY pays ESCROW AGENT directly.

4. CONTRACTOR shall be responsible for paying all fees for the expenses incurred by ESCROW AGENT in administering the Escrow Account and all expenses of CITY. These expenses and payment terms shall be determined by CITY, CONTRACTOR, and ESCROW AGENT.

5. The interest earned on the securities or the money market accounts held in escrow and all interest earning on that interest shall be for the sole account of CONTRACTOR and shall be subject to withdrawal by CONTRACTOR at any time and from time to time without notice to CITY.

6. CONTRACTOR shall have the right to withdraw all or any part of the principal in the Escrow Account only by written notice to ESCROW AGENT accompanied by written authorization from CITY to ESCROW AGENT that CITY consents to the withdrawal of the amount sought to be withdrawn by CONTRACTOR.

7. CITY shall have a right to draw upon the securities in the event of default by CONTRACTOR. Upon seven (7) days' written notice to ESCROW AGENT from CITY of the default, ESCROW AGENT shall immediately convert the securities to cash and shall distribute the cash as instructed by CITY.

8. Only upon receipt of written notification from CITY certifying that the Contract is final and complete, and that CONTRACTOR has complied with all requirements and procedures applicable to the Contract, ESCROW AGENT shall release to CONTRACTOR all securities and interest on deposit less escrow fees and charges of the Escrow Account. The escrow shall be closed immediately upon disbursement of all moneys and securities on deposit and payments of fees and charges.

9. ESCROW AGENT shall rely on the written notifications from CITY and CONTRACTOR pursuant to Sections (5) to (8), inclusive, of this Agreement and CONTRACTOR shall hold ESCROW AGENT harmless from ESCROW AGENT's release and disbursement of the securities and interest as set forth above.

10. The parties hereto mutually agree that this Agreement is substantially similar to the form under Public Contracts Code Section 22300.

11. The names of the persons who are authorized to give written notice or to receive written notice on behalf of CITY and on behalf of CONTRACTOR in connection with the foregoing, and exemplars of their respective signatures are as follows:

On behalf of CITY:

Title

Name

Signature

Address

On behalf of CONTRACTOR:

Title

Name

Signature

Address

On behalf of ESCROW AGENT:

Address

12. At the time the Escrow Account is opened, CITY and CONTRACTOR shall deliver to ESCROW AGENT a fully executed counterpart of this Agreement.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized the execution of this Agreement by its City Manager and attestation by its City Clerk under the authority of Resolution No. 87-141, adopted by the Council of the City of Roseville on the 5th day of August, 1987, and CONTRACTOR and ESCROW AGENT have authorized the execution of this Agreement.

Bond No. _____
Premium \$ _____

PERFORMANCE BOND

This Performance Bond ("Performance Bond"), dated _____, 20_, is in the penal sum of _____ Dollars (\$ _____), which is an amount not less than one hundred percent (100%) of the Total Contract Price, and is entered into by and between the undersigned _____ ("Principal" or "Contractor") and the undersigned _____ ("Surety") to ensure the Principal's faithful performance of the Design Assist Construction Agreement for the _____ project ("Design Assist Contract"). This Performance Bond consists of this page and the following Performance Bond Terms and Conditions, Paragraphs 1 through 12. Any singular reference to the Principal, the Surety, the City of Roseville, California ("City") or other party shall be considered plural where applicable.

BOND TERMS AND CONDITIONS

1. The Principal and the Surety, jointly and severally, bind themselves, their heirs, executors, administrators, successors and assigns to the City for the complete and proper performance of the Design Assist Contract, which is incorporated herein by reference.
2. If the Principal completely and properly performs all of its obligations under the Design Assist Contract, the Surety and the Principal shall have no further obligation under this Performance Bond, except to participate in conferences as provided in Paragraph 3.1 below.
3. If there is no City Default, the Surety's obligation under this Performance Bond shall arise after:
 - 3.1 The City has notified the Contractor and the Surety at their respective addresses described in Paragraph 10 below, that the City is considering declaring a Contractor Default and has requested and attempted to arrange a conference with the Contractor and the Surety to be held not later than fifteen (15) days after receipt of such notice to discuss methods of performing the Design Assist Contract. If the City, the Contractor and the Surety agree, the Contractor shall be allowed a reasonable time to perform the Design Assist Agreement, but such a mutual agreement shall not waive the City's right, if any, subsequently to declare a Contractor Default; and
 - 3.2 The City has declared a Contractor Default and formally terminated the Contractor's right to complete the Design Assist Contract. Such Contractor Default shall not be declared earlier than twenty (20) days after the Contractor and the Surety have received notice as provided in Paragraph 3.1 above.

- 3.3 The City has agreed to pay the Balance of the Total Contract Price to:
- 3.3.1 The Surety in accordance with the terms of this Performance Bond and the Design Assist Contract; or
- 3.3.2 To a contractor selected to perform the Design Assist Contract in accordance with the terms of this Performance Bond and the Design Assist Contract.
4. When the City has satisfied the conditions of Paragraph 3 above, the Surety shall promptly (within thirty (30) days) and at the Surety's expense elect to take one of the following actions:
- 4.1 Arrange for the Contractor, with the City's consent, such consent to be in the City's sole discretion, to perform and complete the Design Assist Contract. If the City withholds its consent, the Surety must elect an option described in Paragraphs 4.2, 4.3 or 4.4, below; or
- 4.2 Undertake to perform and complete the Design Assist Contract itself, through its agents or through independent contractors; or
- 4.3 Obtain proposals from qualified contractors acceptable to the City for a contract for performance and completion of the Design Assist Contract, and, upon determination by the City of the best value for the City, arrange for a contract to be prepared for execution by the City and the contractor selected, to be secured with performance and payment bonds executed by a qualified surety equivalent to the bonds issued on the Design Assist Contract; and, if the Surety's obligations defined in Paragraph 6 below exceed the Balance of the Total Contract Price, then the Surety shall pay to the City the amount of such excess; or
- 4.4 Waive its right to perform and complete the Design Assist Contract, arrange for completion, or obtain a new contractor and with reasonable promptness under the circumstances, and, after investigation and consultation with the City, determine in good faith the amount for which it may then be liable to the City under Paragraph 6, below, for the performance and completion of the Design Assist Contract and, as soon as practicable after the amount is determined, tender payment therefor to the City with full explanation of the payment's calculation. If the City accepts the Surety's tender under this Paragraph 4.4, the City may still hold Surety liable for future damages then unknown or unliquidated resulting from the Seller Default. If the City disputes the amount of Surety's tender under this Paragraph 4.4, the City may exercise all remedies available to it at law to enforce the Surety's liability under Paragraph 6, below.
5. If the Surety does not proceed as provided in Paragraph 4, above, then the Surety shall be deemed to be in default on this Performance Bond ten (10) calendar days after receipt of an additional written notice from City to the Surety demanding that the Surety perform its obligations under this Performance Bond. At all times the City shall be entitled to enforce any remedy available to the City at law or under the Design Assist Contract including, without limitation, and by way of example only, rights to perform work, protect work, mitigate damages, or coordinate work with other consultants or contractors at Surety's sole expense.

6. The Surety's monetary obligation under this Performance Bond is limited by the amount of this Performance Bond. Subject to these limits, the Surety's obligations under this Bond are commensurate with the obligations of the Seller under the Design Assist Contract. The Surety's obligations shall include, but are not limited to:
 - 6.1 The responsibilities of the Seller under the Design Assist Contract for completion of the Design Assist Contract and correction of defective work;
 - 6.2 The responsibilities of the Seller under the Design Assist Contract to pay liquidated damages, and damages for which no liquidated damages are specified in the Design Assist Contract, including but not limited to, all valid and proper back charges, offsets, payments, indemnities, defense costs or other damages; and
 - 6.3 Additional legal, design professional and delay costs resulting from the Seller Default or resulting from the actions or failure to act of the Surety under Paragraph 4, above.
7. The Surety shall not be liable to the City or others for the obligations of the Contractor that are unrelated to the Design Assist Contract, and the Balance of the Total Contract Price shall not be reduced or set off on account of any such unrelated obligations. No right of action shall accrue on this Performance Bond to any person or entity other than the City or its heirs, executors, administrators, or successors.
8. The Surety hereby waives notice of any change, alteration or addition to the Design Assist Contract or to related subcontracts, purchase orders and other obligations, including but not limited to changes of time. The Surety consents to all terms of the Design Assist Contract, including provisions on changes to the Contract Documents. No extension of time, Change Order, alteration, Modification, deletion, or addition to the Contract Documents, or of the work required thereunder, shall release or exonerate Surety on this Performance Bond or in any way affect the obligations of Surety on this Performance Bond.
9. Any proceeding, legal or equitable, under this Performance Bond shall be instituted in any court of competent jurisdiction in Placer County, California within two (2) years after the Contractor Default or within two (2) years after the Contractor ceased working or within two (2) years after the Surety refuses or fails to perform its obligations under this Performance Bond, whichever occurs first. If the provisions of this Paragraph 9 are void or prohibited by law, the minimum period of limitation available to sureties as a defense in Placer County shall be applicable.
10. Notice to the Surety, the City or the Principal shall be mailed or delivered to the address shown on the signature page.
11. Any provision in this Performance Bond conflicting with any statutory or regulatory requirement shall be deemed deleted herefrom and provisions conforming to such statutory requirement shall be deemed incorporated herein. The intent is that this Performance Bond shall be construed as a statutory bond and not as a common law bond.
12. Definitions.

- 12.1 Balance of the Total Contract Price: The total amount payable by the City to the Contractor pursuant to the terms of the Design Assist Contract after all proper adjustments have been made under the Design Assist Contract, including, for example, deductions for progress payments made, deductions for liquidated damages owed, and increases/decreases for approved modifications to the Design Assist Contract.
- 12.2 Design Assist Contract: The documents between the City and the Principal identified as the Contract Documents in that certain first above-mentioned Design Assist Construction Agreement, including all changes, Addenda and modifications thereto.
- 12.3 Contractor Default: Material failure of the Contractor, which has neither been remedied nor waived, to perform or otherwise to comply with the terms of the Design Assist Contract.
- 12.4 City Default: Material failure of the City, which has neither been remedied nor waived, to pay the Contractor progress payments due under the Design Assist Contract or to perform other material terms of the Design Assist Contract, provided such failure is the cause of the asserted Contractor Default and is sufficient to justify Contractor termination of the Design Assist Contract.

IN WITNESS WHEREOF, the undersigned obligated parties have executed this instrument.

LABOR AND MATERIAL BOND

This Labor and Material Bond ("Labor and Material Bond") dated _____, 20____, is in the penal sum of _____ Dollars (\$ _____), which is an amount not less than one hundred percent (100%) of the Total Contract Price, and is entered into by and between the undersigned _____ ("Principal" or "Contractor") and the undersigned _____ ("Surety") to ensure the Principal's payment of claimants pursuant to the Design Assist Construction Agreement for the _____ project ("Design Assist Contract"). This Labor and Material Bond consists of this page and the following Labor and Material Bond Terms and Conditions, Paragraphs 1 through 15. Any singular reference to the Principal, the Surety, the City of Roseville, California ("City") or other party shall be considered plural where applicable.

BOND TERMS AND CONDITIONS

1. The Principal and the Surety, jointly and severally, bind themselves, their heirs, executors, administrators, successors and assigns to the City and to Claimants, to pay for labor, materials, Equipment furnished and Services provided in the performance of the Design Assist Contract, which is incorporated herein by reference.
2. With respect to the City, this obligation shall become null and void if and when the Principal:
 - 2.1 Promptly and fully makes payment, directly or indirectly, for all sums due Claimants, and
 - 2.2 Fully defends, indemnifies and holds harmless the City from all claims, demands, liens or suits by any person or entity who furnished labor, materials or equipment for use in the performance of the Design Assist Contract, provided the City has promptly notified the Principal and the Surety (at the address described in Paragraph 10 below) of any claims, demands, liens or suits and has tendered defense of such claims, demands, liens or suits to the Principal and the Surety, and provided there is no City Default. Otherwise, this Labor and Material Bond shall be, and remain, in full force and effect.
3. With respect to Claimants, this obligation shall become null and void if and when the Principal promptly and fully makes payment, directly or indirectly through its Subcontractors, for all sums due Claimants; otherwise, this Labor and Material Bond shall be, and remain, in full force and effect.
4. The Surety shall have no obligation to Claimants under this Labor and Material Bond until:

- 4.1 Claimants who are employed by or have a direct contract with the Contractor have given notice to the Surety (at the address described in Paragraph 12) and sent a copy, or notice thereof, to the City, stating that a claim is being made under this Labor and Material Bond and, with substantial accuracy, the amount of the claim.
- 4.2 Claimants who do not have a direct contract with the Contractor:
 - 4.2.1 Have furnished written notice to the Contractor and sent a copy, or notice thereof, to the City, within ninety (90) days after having last performed labor or last furnished materials or equipment included in the claim stating, with substantial accuracy, the amount of the claim and the name of the party to whom the materials were furnished or supplied or for whom the labor was done or performed; and
 - 4.2.2 Have either received a rejection in whole or in part from the Contractor, or have not received within thirty (30) days of furnishing the above notice any communication from the Contractor by which the Contractor has indicated the claim will be paid directly or indirectly; and
 - 4.3.3 Not having been paid within the above thirty (30) days, have sent a written notice to the Surety (at the address described in Paragraph 12) and sent a copy, or notice thereof, to the City, stating that a claim is being made under this Labor and Material Bond and enclosing a copy of the previous written notice furnished to the Contractor.
5. If a notice required by Paragraph 4 above is given by the City to the Contractor or to the Surety, that is sufficient compliance.
6. When the Claimant has satisfied the conditions of Paragraph 4, the Surety shall promptly and at the Surety's expense take the following actions:
 - 6.1 Send an answer to the Claimant, with a copy to the City, within forty-five (45) days after receipt of the claim, stating the amounts that are undisputed and the basis for challenging any amounts that are disputed.
 - 6.2 Pay or arrange for payment of any undisputed amounts.
7. The Surety's total obligation shall not exceed the amount of this Labor and Material Bond, and the amount of this Labor and Material Bond shall be credited for any payments made in good faith by the Surety under this Labor and Material Bond.
8. Amounts due the Contractor under the Design Assist Contract shall be applied to satisfy claims, if any, under this Labor and Material Bond.
9. The Surety shall not be liable to the City, Claimants or others for obligations of the Contractor that are unrelated to the Design Assist Contract. The City shall not be liable for payment of any costs, expenses, or attorney's fees of any Claimant under this Labor and Material Bond, and shall have no obligations to make payments to, give notices on behalf of, or otherwise have obligations to Claimants under this Labor and Material Bond.

10. The Surety hereby waives notice of any change, alteration or addition to the Design Assist Contract or to related subcontracts, purchase orders and other obligations, including but not limited to changes of time. The Surety consents to all terms of the Design Assist Contract, including provisions on changes to the Contract Documents. No extension of time, Change Order, alteration, modification, deletion, or addition to the Contract Documents, or of the work required thereunder, shall release or exonerate Surety on this Labor and Material Bond or in any way affect the obligations of Surety on this Labor and Material Bond.
11. Any proceeding, legal or equitable, under this Labor and Material Bond shall be instituted in any court of competent jurisdiction in Placer County, California within one (1) year from the date on which (i) the Claimant gave the notice required by Paragraph 4.1 or Paragraph 4.3.3, or (ii) the last labor or service was performed by anyone or the last materials or equipment were furnished by anyone under the Design Assist Contract, whichever of (i) or (ii) first occurs. If the provisions of this Paragraph 11 are void or prohibited by law, the minimum period of limitation available to sureties as a defense in Placer County shall be applicable.
12. Notice to the Surety, the City or the Principal shall be mailed or delivered to the address shown on the signature page below. Actual receipt of notice by the Surety, the City or the Principal, however accomplished, shall be sufficient compliance as of the date received at the address shown on the signature page below.
13. Any provision in this Labor and Material Bond conflicting with any statutory or regulatory requirement shall be deemed deleted herefrom and provisions conforming to such statutory requirement shall be deemed incorporated herein.
The intent is that this Labor and Material Bond shall be construed as a statutory bond and not as a common law bond.
14. Upon request by any person or entity appearing to be a potential beneficiary of this Labor and Material Bond, the Principal shall promptly furnish a copy of this Labor and Material Bond or shall permit a copy to be made.
15. DEFINITIONS
 - 15.1 CLAIMANT: An individual or entity having a direct contract with the Contractor or with a subcontractor (of any tier) of the Contractor to furnish labor, materials or equipment for use in the performance of the Design Assist Contract. The intent of this Labor and Material Bond shall be to include without limitation in the terms "labor, materials or equipment" that part of water, gas, power, light, heat, oil, gasoline, telephone service or rental equipment used in the Design Assist Contract, architectural and engineering services used or reasonably required for performance of the work of the Contractor and the Contractor's subcontractors, and all other items for which a mechanic's lien or stop payment notice might be asserted.
 - 15.2 DESIGN ASSIST CONTRACT: The documents between the City and the Contractor identified as the Contract Documents in that certain first above-

mentioned Design Assist Contract, including all changes, Addenda and modifications thereto.

- 15.3 CITY DEFAULT: Material failure of the City, which has neither been remedied nor waived, to pay the Contractor as required by the Design Assist Contract, provided such failure is the cause of the failure of Principal to pay the Claimants and is sufficient to justify Contractor termination of the Design Assist Contract.

IN WITNESS WHEREOF, the undersigned obligated parties have executed this security instrument.

WARRANTY BOND

This Warranty Bond ("Warranty Bond"), dated _____, 20____, is in the penal sum of _____ for the Design-Assist Construction Agreement for the _____ project, and is entered into by and between the undersigned _____ ("Principal" or "Contractor") and the undersigned _____ ("Surety") to guaranty that all Equipment and Services provided by Seller under the above-mentioned Design Assist Contract will fulfill the requirements of Principal's warranties and guarantees included in the Contract Documents. This Warranty Bond consists of this page and the following Warranty Bond Terms and Conditions, Paragraphs 1 through 7. Any singular reference to the Principal, the Surety, the City of Roseville, California ("City") or other party shall be considered plural where applicable.

BOND TERMS AND CONDITIONS

1. The Principal and the Surety, jointly and severally, bind themselves, their heirs, executors, administrators, successors and assigns to the City for a period of one (1) year following the date of Final Acceptance, or such longer period specified in the Contract Documents, its unconditional warranty of the quality and adequacy of all of the work including, without limitation, all equipment and work provided by Contractor and its subcontractors and subvendors of all tiers in connection with the Design Assist Contract.
2. Neither final payment nor use or occupancy of the Equipment or Services performed by the Contractor shall constitute an acceptance of such Equipment or Services not done in accordance with this Warranty Bond or relieve Contractor of liability in respect to any express guarantees, warranties or responsibilities for faulty materials or workmanship, ordinary wear and tear excepted. If within one (1) year after the date of Final Acceptance, or such longer period of time as may be prescribed the terms of the Contract Documents, any Equipment or Services is found to be defective, Contractor and Surety shall promptly, without cost to City and in accordance with City's written instructions, correct such defective Equipment or Services. Contractor and Surety shall remove any defective Equipment rejected by City and replace it with Equipment that is not defective. If Contractor or Surety fails to promptly comply with the terms of such instructions, or in an emergency where delay would cause serious risk of loss or damage, City may have the defective Equipment or Services corrected or removed and replaced. Contractor and Surety shall pay for all claims, costs, losses and damages caused by or resulting from such removal and replacement. Where Contractor and Surety fail to correct defective Equipment or Services, or defects are discovered outside the correction period, City shall have all rights and remedies granted by law.
3. As part of the obligation secured hereby and in addition to the face amount specified therefor, there shall be included costs and reasonable expenses and fees, including reasonable attorney's fees, incurred by City.
4. The Surety hereby waives notice of any change, alteration or addition to the Design Assist Contract or to related subcontracts, purchase orders and other obligations, including but not limited to

changes of time. The Surety consents to all terms of the Design Assist Contract, including provisions on changes to the Contract Documents. No extension of time, Change Order, alteration, Modification, deletion, or addition to the Contract Documents, or of the work required thereunder, shall release or exonerate Surety on this Warranty Bond or in any way affect the obligations of Surety on this Warranty Bond.

5. If the Surety does not proceed as provided in Paragraph 2 above, then the Surety shall be deemed to be in default on this Warranty Bond ten (10) calendar days after receipt of an additional written notice from City to the Surety demanding that the Surety perform its obligations under this Warranty Bond. At all times the City shall be entitled to enforce any remedy available to the City at law or under the Design Assist Contract including, without limitation, and by way of example only, rights to perform work as Surety's expense, protect work, mitigate damages, or coordinate work with other consultants or contractors.
6. All abbreviations and definitions of terms used in this Warranty Bond shall have the meanings set forth in the Contract Documents, including, without means of limitation, the Design Assist Contract.
7. The foregoing Warranty Bond is in addition to any other guarantees and warranties of Contractor contained in the Contract Documents, and not in lieu of, any and all other liability imposed on Contractor under the Contract Documents and at law with respect to Contractor's duties, obligations, and performance under the Contract Documents. In the event of any conflict or inconsistency between the terms of this Warranty Bond and any guaranty, warranty or obligation of the Seller under the Contract Documents or at law, such inconsistency or conflict shall be resolved in favor of the higher level of obligation of the Contractor and Surety.

IN WITNESS WHEREOF, the undersigned obligated parties have executed this instrument.

ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE
AUTHORIZING CERTAIN AMENDMENTS TO THE FISCAL YEAR 2022-23
BUDGET AND DECLARING THIS ORDINANCE TO BE IMMEDIATELY
EFFECTIVE AS AN APPROPRIATION MEASURE

THE CITY OF ROSEVILLE ORDAINS:

SECTION 1. The City of Roseville Annual Budget, Fiscal Year 2022-23, is hereby amended as listed on the attached budget adjustment for the Roseville Soccer Complex project.

SECTION 2. This ordinance is hereby declared to be an appropriation measure, immediately effective pursuant to the provisions of Section 5.03 of the Charter.

SECTION 3. The City Clerk is hereby authorized and directed to post a true copy of the foregoing ordinance in each of three (3) conspicuous locations in the City and she shall immediately after such posting enter in the ordinance book, under the record of the ordinance, a certificate under her hand stating the time and place of such publication by posting.

FUND BALANCE

ACCOUNT STRING				BUDGET (\$)	DESCRIPTION
Fund	Account	Center	Project	Adjustment	
3311				(3,000,000)	Use of available resources in West Roseville Neighborhood Park Fund
3304				(1,750,000)	Use of available resources in West Roseville Citywide Park Fund
TOTAL				(4,750,000)	

Justification for Budget Adjustment:

The Parks, Recreation & Libraries Department recommends a budget adjustment to increase the expenditure budget for the Roseville Soccer Complex project (400068) through the use of available resources in the West Roseville Neighborhood Park Fund 3311 (\$3 million), the West Roseville Citywide Park Fund 3304 (\$1.5 million), and the Placer Valley Tourism's repayment of incurred expenditures of the old abandoned long field project (\$1.17 million), plus interest (\$110,000). Placer Valley Tourism agreed to pay the City four \$250,000 payments annually from 2021-2024, with a final payment of \$171,268 in 2025 plus interest. The City has received the first two payments for FY2020-21 and FY 2021-22; however, the project budget only includes a partial revenue budget of \$250,000. This budget adjustment increases the revenue budget by the unbudgeted expected reimbursement plus interest and establishes the expenditure budget for the total repayment amount. This budget adjustment will ensure adequate funds to enter into the agreement to construct the complex. This project includes multiple long fields and will be a regional draw for sporting events, resulting in added revenue to the City through sales tax and Transient Occupancy Tax revenue. This budget adjustment doesn't impact the General Fund.

COUNCIL COMMUNICATION

CC #: 2578

File #: 0709-01 & 0103-03-02

Title: HOUSING AUTHORITY/CITY COUNCIL – FY2023-24 Annual Plan

Contact: Suzi Cook-Turner 916-774-5414 smcook-turner@roseville.ca.us
Trisha Isom 916-746-1239 tisom@roseville.ca.us

Meeting Date: 3/15/2023

Item #: 8.1.

RECOMMENDATION TO COUNCIL

Staff recommends that the City Council, acting as the governing board for the Roseville Housing Authority take the following actions:

1. Adopt a resolution to approve the FY2023-24 Roseville Housing Authority Annual Plan; and
2. Authorize the Executive Director to submit the FY2023-24 Roseville Housing Authority Annual Plan to the U.S. Department of Housing & Urban Development along with the required certifications, disclosures, and related documents.

BACKGROUND

Pursuant to the 1998 Quality Housing and Work Responsibility Act ("QHWRA"), all housing authorities must submit an Agency Plan, which includes a Five Year Plan and an Annual Plan. The U.S. Department of Housing and Urban Development ("HUD") designed the Agency Plan to reflect the current and future goals of all housing authorities. It is also intended to identify the needs of the households served by Roseville Housing Authority ("RHA"). HUD has designated RHA as a "High Performer" for the last 18 years which allows RHA to submit a simplified annual plan. RHA submitted its Five Year Plan to HUD in 2020 and RHA is only required to submit an Annual Plan for 2023.

RHA is able to provide up to 813 households with Housing Choice Voucher (HCV) rental assistance funded through HUD. This total includes several special voucher programs including Emergency Housing Vouchers, Mainstream vouchers and VASH vouchers that serve those coming directly from homelessness. The mission of RHA is to provide the opportunity for decent, safe and sanitary affordable housing to very low and extremely low-income families in Roseville and Rocklin by:

- effectively administering HCV rental assistance funds;
- delivering a high level of customer service; and
- encouraging family self-sufficiency.

In the last year, RHA has made much progress toward the goals in the Five Year and Annual Plan. RHA continues to apply for and implement new voucher programs while working with Placer County's Continuum of Care in order to expand the supply of assisted housing. RHA worked toward improving the quality of assisted housing by resuming Housing Quality Standards inspections after a hiatus due to the COVID-19 pandemic. In order to increase assisted housing choices, RHA recently implemented a new landlord recruitment program. The plan also highlights the progress made in the area of affirmatively furthering Fair Housing as well as collaboration with homeless housing service providers and other local jurisdictions.

The draft plan is required to have a 45-day local comment period before it is heard at a public hearing. The 45-day comment period was noticed and commenced on January 20, 2023, closing March 15, 2023. To date, staff has not received any comments from the public regarding this item. RHA's Resident Advisory Board members were provided with copies of the draft Annual Plan. Their comments supported the content of the proposed plan, including RHA's goals and its progress in meeting them.

Subject to the Housing Authority Board's action on the proposed Annual Plan, staff anticipates submitting the final document to HUD in compliance with the April 15, 2023 due date.

FISCAL IMPACT

RHA provides an important social service to ensure safe and affordable housing for our residents which is an essential component to the foundation of our community's economic and social stability. Through monthly rental assistance payments, the Housing Choice Voucher Program invests \$7.7M into the local rental economy annually. This item does not create any additional cost to the City's General Fund.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. Approval of the Roseville Housing Authority Annual Plan meets the above criteria and is not subject to CEQA. No additional environmental review is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal C - Maintain a safe and healthy community.

Respectfully Submitted,

Suzi Cook-Turner, Housing Supervisor

Melissa Anguiano Economic Development Director

Dominick Casey, City Manager

2023 RHA Annual Plan

Public Notice Proof of Publication

RESOLUTION NO. 1-23
HOUSING AUTHORITY OF THE CITY OF ROSEVILLE

APPROVING THE FY2023-24 ANNUAL PLAN

WHEREAS, the Department of Housing and Urban Development (HUD) requires all housing authorities to submit an Agency Plan, which includes an Annual Plan; and

WHEREAS, staff has prepared the Annual Plan for FY2023-24; and

WHEREAS, the Housing Authority has reviewed the plan;

NOW, THEREFORE, THE HOUSING AUTHORITY OF THE CITY OF ROSEVILLE DOES HEREBY RESOLVE that:

1. The Roseville Housing Authority Annual Plan for FY2023-24 is hereby approved,
2. The Executive Director is authorized to submit the Roseville Housing Authority Annual Plan for FY2023-24 to the U.S. Department of Housing and Urban Development along with all required certifications, disclosures, and related documents.

Streamlined Annual PHA Plan (HCV Only PHAs)	U.S. Department of Housing and Urban Development Office of Public and Indian Housing	OMB No. 2577-0226 Expires 03/31/2024
--	---	---

Purpose. The 5-Year and Annual PHA Plans provide a ready source for interested parties to locate basic PHA policies, rules, and requirements concerning the PHA's operations, programs, and services, including changes to these policies, and informs HUD, families served by the PHA, and members of the public of the PHA's mission, goals and objectives for serving the needs of low- income, very low- income, and extremely low- income families

Applicability. The Form HUD-50075-HCV is to be completed annually by **HCV-Only PHAs**. PHAs that meet the definition of a Standard PHA, Troubled PHA, High Performer PHA, Small PHA, or Qualified PHA do not need to submit this form. Where applicable, separate Annual PHA Plan forms are available for each of these types of PHAs.

Definitions.

- (1) **High-Performer PHA** – A PHA that owns or manages more than 550 combined public housing units and housing choice vouchers, and was designated as a high performer on both the most recent Public Housing Assessment System (PHAS) and Section Eight Management Assessment Program (SEMAP) assessments if administering both programs, or PHAS if only administering public housing.
- (2) **Small PHA** - A PHA that is not designated as PHAS or SEMAP troubled, that owns or manages less than 250 public housing units and any number of vouchers where the total combined units exceed 550.
- (3) **Housing Choice Voucher (HCV) Only PHA** - A PHA that administers more than 550 HCVs, was not designated as troubled in its most recent SEMAP assessment and does not own or manage public housing.
- (4) **Standard PHA** - A PHA that owns or manages 250 or more public housing units and any number of vouchers where the total combined units exceed 550, and that was designated as a standard performer in the most recent PHAS and SEMAP assessments.
- (5) **Troubled PHA** - A PHA that achieves an overall PHAS or SEMAP score of less than 60 percent.
- (6) **Qualified PHA** - A PHA with 550 or fewer public housing dwelling units and/or housing choice vouchers combined and is not PHAS or SEMAP troubled.

A. PHA Information.				
A.1	PHA Name: Roseville Housing Authority PHA Code: CA128 PHA Plan for Fiscal Year Beginning: (MM/YYYY): <u>07/2023</u> PHA Inventory (Based on Annual Contributions Contract (ACC) units at time of FY beginning, above) Number of Housing Choice Vouchers (HCVs) <u>823</u> PHA Plan Submission Type: ☒ Annual Submission ☐ Revised Annual Submission			
	Availability of Information. In addition to the items listed in this form, PHAs must have the elements listed below readily available to the public. A PHA must identify the specific location(s) where the proposed PHA Plan, PHA Plan Elements, and all information relevant to the public hearing and proposed PHA Plan are available for inspection by the public. Additionally, the PHA must provide information on how the public may reasonably obtain additional information of the PHA policies contained in the standard Annual Plan but excluded from their streamlined submissions. At a minimum, PHAs must post PHA Plans, including updates, at the main office or central office of the PHA. PHAs are strongly encouraged to post complete PHA Plans on their official website.			
	Copies of the PHA Plans may be obtained at the Agency's main office and online:: 316 Vernon Street, Suite 150 Roseville, CA 95678 https://www.roseville.ca.us/hcv

B.	Plan Elements.				
B.1	Revision of Existing PHA Plan Elements. a) Have the following PHA Plan elements been revised by the PHA since its last Annual Plan submission? Y N ☐ ☒ Statement of Housing Needs and Strategy for Addressing Housing Needs. ☐ ☒ Deconcentration and Other Policies that Govern Eligibility, Selection, and Admissions. ☐ ☒ Financial Resources. ☐ ☒ Rent Determination. ☐ ☒ Operation and Management. ☐ ☒ Informal Review and Hearing Procedures. ☐ ☒ Homeownership Programs. ☐ ☒ Self Sufficiency Programs and Treatment of Income Changes Resulting from Welfare Program Requirements. ☐ ☒ Substantial Deviation. ☐ ☒ Significant Amendment/Modification. (b) If the PHA answered yes for any element, describe the revisions for each element(s):				
B.2	New Activities. – Not Applicable				

B.3 Progress Report.

Provide a description of the PHA's progress in meeting its Mission and Goals described in its 5-Year PHA Plan.

RHA Mission Statement:

The mission of the Roseville Housing Authority is to provide opportunity for decent, safe and sanitary affordable housing to very low and extremely low-income families in Roseville and Rocklin by:

- **Effectively administering Housing Choice Voucher rental assistance funds**
 - (a) **PROGRESS:** The Roseville Housing Authority has effectively administered Housing Choice Voucher rental assistance funds by monthly reviewing available funds and lease up to determine further leasing strategy. This has resulted in utilizing the full budget authority for the last calendar year, short fall funding as well as reserve funds keeping all families housed.
- **Assisting families with opportunities for safe, decent and affordable housing.**
 - (a) **PROGRESS:** By carefully monitoring market trends, lease-up, and success rate RHA ensures we are able to assist the largest number of families possible. Our 2022 utilization for HCV vouchers was 94.1%
- **Delivering a high level of customer service**
 - (a) **PROGRESS:** RHA staff participated in two customer service trainings in 2022 and will continue to seek out and attend training that allows for staff to improve upon their customer service skills.
 - (b) **PROGRESS:** As of 2023 RHA has a dedicated staff member that landlords can contact to get their questions answered, information about the HCV program and RHA policies and procedures.
 - (c) **PROGRESS:** Our level of customer service has been consistently high. This is evidenced, in part, by our practice of giving out our direct lines to owners and participants, and when unable to answer the call personally, return the call no later than the next business day. When we receive RFTAs we strive to approve them as soon as possible and complete the move-in inspection within 2 business days of when the unit is available for inspection.
 - (d) **PROGRESS:** Partnering with AffordableHousing.com has enabled property managers and landlords to list their available properties/units through the online portal free of charge giving applicants and participants easier access to unit information.
- **Encouraging family self-sufficiency**
 - (a) **PROGRESS:** Roseville Housing Authority continues its collaboration with Placer County Housing Authority (PCHA). This joint effort includes the complete revamping of the Program Coordinating Committee (PCC). With PCHA's strong Placer county connection and RHA's work with Roseville Rocklin area resources has resulted in a newly formed, robust and active PCC.
 - (b) **PROGRESS:** In 2022 RHA has its revised FSS Action plan submitted and approved by HUD.
 - (c) **PROGRESS:** RHA had 27 participants enrolled in the FSS Program in 2022 with a total of \$32,364.00 in escrow paid to two graduates.
 - (d) **PROGRESS:** FSS staff intends on expanding the goal number of participants it currently serves. The current goal is to maintain 24 FSS participants.

The mission shall be accomplished by a fiscally responsible, creative organization committed to excellence in public service.

Goals for the current 5-Year Plan:

1. **Expand the supply of assisted housing.**
 - (a) **PROGRESS:** After making 75 PBVs available under an RFP, RHA received 6 applications from developers and awarded 60 PBV in total for all projects.
 - (b) **PROGRESS:** HUD awarded RHA 8 additional HCVs October 1, 2022. This was the first award of regular vouchers in over 12 years.
- The Roseville Housing Authority will apply for additional VASH vouchers if they become available.
- (c) **PROGRESS:** RHA had the opportunity to apply for additional HUD VASH vouchers and with the support of the VA was awarded 10 vouchers in January 2022.
- (d) **PROGRESS:** RHA applied for and was awarded 10 HUD VASH vouchers in February 2023.
- (e) **PROGRESS:** RHA has submitted an application for Stability Vouchers (SV) with a letter of support from the CoC. SVs are to assist individuals and families who are homeless, at-risk of homelessness, fleeing, or attempting to flee domestic violence, dating violence, sexual assault, stalking, and human trafficking, and veterans and families that include a veteran family member that meets one of the proceeding criteria.
2. **Improve the quality of assisted housing.**
 - (a) **PROGRESS:** RHA administering project-based vouchers as an option so that the quality of housing assisted by the program is further reviewed by RHA. In a community with a low vacancy rate, it is important to provide vouchers a priority to new and high quality housing opportunities.
- The Roseville Housing Authority will maintain its high-performer rating (SEMAP score).
- (b) **PROGRESS:** Due to the COVID – 19 Pandemic and HUD administered waivers, RHA maintained its current high-performer rating
- (c) **PROGRESS:** RHA was able to resume Housing Quality Standards inspections in 2022 after inspections were halted due to the COVID-19 pandemic. Over 600 inspections were conducted in 2022.
3. **Increase assisted housing choices.**
 - The Roseville Housing Authority will continue to encourage property owners to provide available unit information for Housing Choice Voucher holders that are searching for a rental unit.
 - (a) **PROGRESS:** RHA has made available to landlords a dedicated staff member they can contact directly to get information about the HCV program and have their questions answered about RHA policies and procedures.
 - (b) **PROGRESS:** RHA continues to encourage landlords to list their available units through the AffordableHousing.com portal. This service is free for landlords with a basic listing and free to participants searching for units.

	○ The Roseville Housing Authority will monitor HAP payments monthly to ensure that at least 98% of the Annual Contributions Contract is utilized or that 98% of total unit months are leased each year. (c) For CY 2021 RHA utilized 94.1% of regular HCV vouchers, 96.7% of NED vouchers, 75.9% of Mainstream vouchers, 37.3% of EHV and 72.2% of HUD VASH vouchers. RHA is working within the budget and in partnership with housing owners and managers and the Department of Veteran's Affairs to fully utilize all regular, NED, Mainstream, EHV and HUD VASH vouchers. While vouchers were not fully leased, over 100 percent of the Annual Contributions Contract was utilized, including the use of program reserve funding. 4. Affirmatively further Fair Housing ○ The Roseville Housing Authority will provide training opportunities for staff to promote equal opportunity in housing. (a) PROGRESS: RHA actively looks for training opportunities and events related to Fair Housing. (b) PROGRESS: RHA staff attended Fair Housing training and other trainings related to the fair housing subject including addressing reasonable accommodations. (c) PROGRESS: RHA encourages participants to engage in the reasonable accommodation (RA) process and actively addresses RA requests. 5. Collaborating with homeless housing service providers and other local jurisdictions (a) PROGRESS: RHA continues to work with the local CoC – Housing Resource Council of the Sierras (HRCs). (b) PROGRESS: RHA, through the CoC, collaborated with 11 agencies to refer applicants to the Emergency Housing Voucher (EHV) program where RHA issued all 50 of its EHV vouchers to applicants within a year of receipt of the vouchers. ○ The Roseville Housing Authority maintains a close relationship with surrounding housing authorities (c) PROGRESS: RHA continues to work in partnership with PCHA in different PHA programs such as the EHV program as well as our VASH vouchers. The FSS program is our most recent collaboration with PCHA. (d) PROGRESS: Continued collaboration with 5 agencies via the CoC with referrals to RHA's Mainstream Voucher program.
B.4	Capital Improvements. – Not Applicable
B.5	Most Recent Fiscal Year Audit. (a) Were there any findings in the most recent FY Audit? Y N N/A ☐ ☒ ☐ (b) If yes, please describe:
C.	Other Document and/or Certification Requirements.
C.1	Resident Advisory Board (RAB) Comments. (a) Did the RAB(s) have comments to the PHA Plan? Y N ☐ ☒ (b) If yes, comments must be submitted by the PHA as an attachment to the PHA Plan. PHAs must also include a narrative describing their analysis of the RAB recommendations and the decisions made on these recommendations.
C.2	Certification by State or Local Officials. Form HUD 50077-SL, <i>Certification by State or Local Officials of PHA Plans Consistency with the Consolidated Plan</i>, must be submitted by the PHA as an electronic attachment to the PHA Plan.
C.3	Civil Rights Certification/ Certification Listing Policies and Programs that the PHA has Revised since Submission of its Last Annual Plan. Form HUD-50077-ST-HCV-HP, <i>PHA Certifications of Compliance with PHA Plan, Civil Rights, and Related Laws and Regulations Including PHA Plan Elements that Have Changed</i>, must be submitted by the PHA as an electronic attachment to the PHA Plan.
C.4	Challenged Elements. If any element of the PHA Plan is challenged, a PHA must include such information as an attachment with a description of any challenges to Plan elements, the source of the challenge, and the PHA's response to the public. (a) Did the public challenge any elements of the Plan? Y N ☐ ☒ If yes, include Challenged Elements.
D.	Affirmatively Furthering Fair Housing (AFFH).

D.1 Affirmatively Furthering Fair Housing (AFFH).

Provide a statement of the PHA's strategies and actions to achieve fair housing goals outlined in an accepted Assessment of Fair Housing (AFH) consistent with 24 CFR § 5.154(d)(5). Use the chart provided below. (PHAs should add as many goals as necessary to overcome fair housing issues and contributing factors.) Until such time as the PHA is required to submit an AFH, the PHA is not obligated to complete this chart. The PHA will fulfill, nevertheless, the requirements at 24 CFR § 903.7(o) enacted prior to August 17, 2015. See Instructions for further detail on completing this item.

Fair Housing Goal:

Describe fair housing strategies and actions to achieve the goal

To continue to Affirmatively further Fair Housing, RHA staff continues to collaborate with the Housing Division to reserve Community Development Block Grant funds to provide legal services for those experiencing housing discrimination.

Fair Housing Goal:

Describe fair housing strategies and actions to achieve the goal

Roseville Housing Authority provides contact information to Legal Services of Northern California and Project Sentinel to program participants when legal questions regarding fair housing are raised.

Fair Housing Goal:

Describe fair housing strategies and actions to achieve the goal

Roseville Housing Authority staff attended Fair Housing Rights training in April 2022 and encourages staff to attend trainings when offered.

Instructions for Preparation of Form HUD-50075-HCV

Annual PHA Plan for HCV-Only PHAs

A. PHA Information. All PHAs must complete this section. (24 CFR §903.4)

- A.1 Include the full **PHA Name**, **PHA Code**, **PHA Type**, **PHA Fiscal Year Beginning** (MM/YYYY), **Number of Housing Choice Vouchers (HCVs)**, **PHA Plan Submission Type**, and the **Availability of Information**, specific location(s) of all information relevant to the public hearing and proposed PHA Plan.

PHA Consortia: Check box if submitting a Joint PHA Plan and complete the table. ([24 CFR §943.128\(a\)](#))

B. Plan Elements. All PHAs must complete this section. ([24 CFR §903.11\(c\)\(3\)](#))

B.1 Revision of Existing PHA Plan Elements. PHAs must:

Identify specifically which plan elements listed below that have been revised by the PHA. To specify which elements have been revised, mark the “yes” box. If an element has not been revised, mark “no.”

☐ **Statement of Housing Needs and Strategy for Addressing Housing Needs.** Provide a statement addressing the housing needs of low-income, very low-income and extremely low-income families and a brief description of the PHA’s strategy for addressing the housing needs of families who reside in the jurisdiction served by the PHA and other families who are on the Section 8 tenant-based assistance waiting lists. The statement must identify the housing needs of (i) families with incomes below 30 percent of area median income (extremely low-income); (ii) elderly families (iii) households with individuals with disabilities, and households of various races and ethnic groups residing in the jurisdiction or on the public housing and Section 8 tenant-based assistance waiting lists. The statement of housing needs shall be based on information provided by the applicable Consolidated Plan, information provided by HUD, and generally available data. The identification of housing needs must address issues of affordability, supply, quality, accessibility, size of units, and location. Once the PHA has submitted an Assessment of Fair Housing (AFH), which includes an assessment of disproportionate housing needs in accordance with 24 CFR 5.154(d)(2)(iv), information on households with individuals with disabilities and households of various races and ethnic groups residing in the jurisdiction or on the waiting lists no longer needs to be included in the Statement of Housing Needs and Strategy for Addressing Housing Needs. (24 CFR § 903.7(a)).

The identification of housing needs must address issues of affordability, supply, quality, accessibility, size of units, and location. ([24 CFR §903.7\(a\)\(2\)\(i\)](#)) Provide a description of the ways in which the PHA intends, to the maximum extent practicable, to address those housing needs in the upcoming year and the PHA’s reasons for choosing its strategy. ([24 CFR §903.7\(a\)\(2\)\(ii\)](#))

☐ **Deconcentration and Other Policies that Govern Eligibility, Selection, and Admissions.** A statement of the PHA’s policies that govern resident or tenant eligibility, selection and admission including admission preferences for HCV. ([24 CFR §903.7\(b\)](#))

☐ **Financial Resources.** A statement of financial resources, including a listing by general categories, of the PHA’s anticipated resources, such as PHA HCV funding and other anticipated Federal resources available to the PHA, as well as tenant rents and other income available to support tenant-based assistance. The statement also should include the non-Federal sources of funds supporting each Federal program, and state the planned use for the resources. ([24 CFR §903.7\(c\)](#))

☐ **Rent Determination.** A statement of the policies of the PHA governing rental contributions of families receiving tenant-based assistance, discretionary minimum tenant rents, and payment standard policies. ([24 CFR §903.7\(d\)](#))

☐ **Operation and Management.** A statement that includes a description of PHA management organization, and a listing of the programs administered by the PHA. ([24 CFR §903.7\(e\)](#)).

☐ **Informal Review and Hearing Procedures.** A description of the informal hearing and review procedures that the PHA makes available to its applicants. ([24 CFR §903.7\(f\)](#))

☐ **Homeownership Programs.** A statement describing any homeownership programs (including project number and unit count) administered by the agency under section 8y of the 1937 Act, or for which the PHA has applied or will apply for approval. ([24 CFR §903.7\(k\)](#))

☐ **Self Sufficiency Programs and Treatment of Income Changes Resulting from Welfare Program Requirements.** A description of any PHA programs relating to services and amenities coordinated, promoted, or provided by the PHA for assisted families, including those resulting from the PHA’s partnership with other entities, for the enhancement of the economic and social self-sufficiency of assisted families, including programs provided or offered as a result of the PHA’s partnerships with other entities, and activities subject to Section 3 of the Housing and Community Development Act of 1968 (24 CFR Part 135) and under requirements for the Family Self-Sufficiency Program and others. Include the program’s size (including required and actual size of the FSS program) and means of allocating assistance to households. ([24 CFR §903.7\(l\)\(i\)](#)) Describe how the PHA will comply with the requirements of section 12(c) and (d) of the 1937 Act that relate to treatment of income changes resulting from welfare program requirements. ([24 CFR §903.7\(l\)\(iii\)](#)).

☐ **Substantial Deviation.** PHA must provide its criteria for determining a “substantial deviation” to its 5-Year Plan. ([24 CFR §903.7\(r\)\(2\)\(i\)](#))

☐ **Significant Amendment/Modification.** PHA must provide its criteria for determining a “Significant Amendment or Modification” to its 5-Year and Annual Plan.

If any boxes are marked “yes”, describe the revision(s) to those element(s) in the space provided.

B.2 New Activities. This section refers to new capital activities which is not applicable for HCV-Only PHAs.

B.3 Progress Report. For all Annual Plans following submission of the first Annual Plan, a PHA must include a brief statement of the PHA's progress in meeting the mission and goals described in the 5-Year PHA Plan. (24 CFR §903.11(c)(3), 24 CFR §903.7(r)(1))

B.4 Capital Improvements. This section refers to PHAs that receive funding from the Capital Fund Program (CFP) which is not applicable for HCV-Only PHAs

B.5 Most Recent Fiscal Year Audit. If the results of the most recent fiscal year audit for the PHA included any findings, mark "yes" and describe those findings in the space provided. (24 CFR §903.7(p))

C. Other Document and/or Certification Requirements.

C.1 Resident Advisory Board (RAB) comments. If the RAB had comments on the annual plan, mark "yes," submit the comments as an attachment to the Plan and describe the analysis of the comments and the PHA's decision made on these recommendations. (24 CFR §903.13(c), 24 CFR §903.19)

C.2 Certification by State of Local Officials. Form HUD-50077-SL, *Certification by State or Local Officials of PHA Plans Consistency with the Consolidated Plan*, must be submitted by the PHA as an electronic attachment to the PHA Plan. (24 CFR §903.15). Note: A PHA may request to change its fiscal year to better coordinate its planning with planning done under the Consolidated Plan process by State or local officials as applicable.

C.3 Civil Rights Certification/ Certification Listing Policies and Programs that the PHA has Revised since Submission of its Last Annual Plan. Provide a certification that the following plan elements have been revised, provided to the RAB for comment before implementation, approved by the PHA board, and made available for review and inspection by the public. This requirement is satisfied by completing and submitting form HUD-50077 ST-HCV-HP, *PHA Certifications of Compliance with PHA Plan, Civil Rights, and Related Laws and Regulations Including PHA Plan Elements that Have Changed*. Form HUD-50077-ST-HCV-HP, *PHA Certifications of Compliance with PHA Plan, Civil Rights, and Related Laws and Regulations Including PHA Plan Elements that Have Changed* must be submitted by the PHA as an electronic attachment to the PHA Plan. This includes all certifications relating to Civil Rights and related regulations. A PHA will be considered in compliance with the certification requirement to affirmatively further fair housing if the PHA fulfills the requirements of §§ 903.7(o)(1) and 903.15(d) and: (i) examines its programs or proposed programs; (ii) identifies any fair housing issues and contributing factors within those programs, in accordance with 24 CFR 5.154; or 24 CFR 5.160(a)(3) as applicable (iii) specifies actions and strategies designed to address contributing factors, related fair housing issues, and goals in the applicable Assessment of Fair Housing consistent with 24 CFR 5.154 in a reasonable manner in view of the resources available; (iv) works with jurisdictions to implement any of the jurisdiction's initiatives to affirmatively further fair housing that require the PHA's involvement; (v) operates programs in a manner consistent with any applicable consolidated plan under 24 CFR part 91, and with any order or agreement, to comply with the authorities specified in paragraph (o)(1) of this section; (vi) complies with any contribution or consultation requirement with respect to any applicable AFH, in accordance with 24 CFR 5.150 through 5.180; (vii) maintains records reflecting these analyses, actions, and the results of these actions; and (viii) takes steps acceptable to HUD to remedy known fair housing or civil rights violations. impediments to fair housing choice within those programs; addresses those impediments in a reasonable fashion in view of the resources available; works with the local jurisdiction to implement any of the jurisdiction's initiatives to affirmatively further fair housing; and assures that the annual plan is consistent with any applicable Consolidated Plan for its jurisdiction. (24 CFR §903.7(o)).

C.4 Challenged Elements. If any element of the Annual PHA Plan or 5-Year PHA Plan is challenged, a PHA must include such information as an attachment to the Annual PHA Plan or 5-Year PHA Plan with a description of any challenges to Plan elements, the source of the challenge, and the PHA's response to the public.

D. Affirmatively Furthering Fair Housing (AFFH).

D.1 Affirmatively Furthering Fair Housing. The PHA will use the answer blocks in item D.1 to provide a statement of its strategies and actions to implement each fair housing goal outlined in its accepted Assessment of Fair Housing (AFH) consistent with 24 CFR § 5.154(d)(5) that states, in relevant part: "To implement goals and priorities in an AFH, strategies and actions shall be included in program participants' ... PHA Plans (including any plans incorporated therein) Strategies and actions must affirmatively further fair housing" Use the chart provided to specify each fair housing goal from the PHA's AFH for which the PHA is the responsible program participant – whether the AFH was prepared solely by the PHA, jointly with one or more other PHAs, or in collaboration with a state or local jurisdiction – and specify the fair housing strategies and actions to be implemented by the PHA during the period covered by this PHA Plan. If there are more than three fair housing goals, add answer blocks as necessary.

Until such time as the PHA is required to submit an AFH, the PHA will not have to complete section D., nevertheless, the PHA will address its obligation to affirmatively further fair housing in part by fulfilling the requirements at 24 CFR 903.7(o)(3) enacted prior to August 17, 2015, which means that it examines its own programs or proposed programs; identifies any impediments to fair housing choice within those programs; addresses those impediments in a reasonable fashion in view of the resources available; works with local jurisdictions to implement any of the jurisdiction's initiatives to affirmatively further fair housing that require the PHA's involvement; and maintain records reflecting these analyses and actions. Furthermore, under Section 5A(d)(15) of the U.S. Housing Act of 1937, as amended, a PHA must submit a civil rights certification with its Annual PHA Plan, which is described at 24 CFR 903.7(o)(1) except for qualified PHAs who submit the Form HUD-50077-CR as a standalone document.

This information collection is authorized by Section 511 of the Quality Housing and Work Responsibility Act, which added a new section 5A to the U.S. Housing Act of 1937, as amended, which introduced the Annual PHA Plan. The Annual PHA Plan provides a ready source for interested parties to locate basic PHA policies, rules, and requirements concerning the PHA's operations, programs, and services, and informs HUD, families served by the PHA, and members of the public for serving the needs of low- income, very low- income, and extremely low- income families.

Public reporting burden for this information collection is estimated to average 6.02 hour per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. HUD may not collect this information, and respondents are not required to complete this form, unless it displays a currently valid OMB Control Number.

Privacy Act Notice. The United States Department of Housing and Urban Development is authorized to solicit the information requested in this form by virtue of Title 12, U.S. Code, Section 1701 et seq., and regulations promulgated thereunder at Title 12, Code of Federal Regulations. Responses to the collection of information are required to obtain a benefit or to retain a benefit. The information requested does not lend itself to confidentiality

COUNCIL COMMUNICATION

CC #: 2576
File #: 0113-02

Title: Community Development Block Grant Program – 2022 Annual Action Plan
Substantial Amendment, Community Development Block Agreement Amendment,
and Rating and Ranking Guidelines

Contact: Trisha Isom 916-746-1329 tisom@roseville.ca.us

Meeting Date: 3/15/2023
Item #: 8.2.

RECOMMENDATION TO COUNCIL

Staff requests that the City Council:

1. Receive public comment on the proposed amendment to the 2022 Annual Action Plan;
2. Adopt a resolution to approve the proposed amendment to the 2022 Annual Action Plan, and authorize the City Manager to execute necessary documents and certifications on behalf of the City of Roseville for submittal to the U.S. Department of Housing & Urban Development; and
3. Adopt a resolution authorizing the City Manager to execute the First Amendment to Community Development Block Grant Agreement for Placer Veterans Stand Down Event; and
4. Adopt a resolution to approve the proposed Rating and Ranking Guidelines for the Community Development Block Grant.

BACKGROUND

As an entitlement jurisdiction, the City of Roseville receives an annual allocation of Community Development Block Grant ("CDBG") funds from the U.S. Department of Housing and Urban Development ("HUD") to promote affordable housing and community development programs for low-income residents. Each year the City must produce an Annual Action Plan outlining how CDBG funds will be used to address the goals of the five year Consolidated Plan. On May 18, 2022, Council approved the Annual Action Plan for the 2022/23 program year, which included an allocation of \$15,000 to Placer Veterans Stand Down ("PVSD") for the organization's upcoming PVSD event to be held in May of 2023.

This annual event has traditionally been held at @ the Grounds in Roseville, until 2020 when PVSD could not reach a deal for a new contract, partially due to the COVID-19 pandemic. Subsequent events were held at the Auburn Fairgrounds, which was not ideal and lead to many veterans being unable to attend. Originally, PVSD planned to hold the 2023 event at The Gold Country Fairgrounds and Event Center in Auburn. PVSD was recently able to secure a spot at @ the Grounds in Roseville for their 2023 event after the 2022 CDBG Action Plan was approved.

The organization expects to be able to double the amount of Roseville veterans who attend the event when it is hosted in Roseville and the new contract to utilize @ the Grounds will cost less than the alternate location.

According to the City's Citizen Participation Plan, adopted in 2020, an Annual Action Plan will be amended any time there is a change in the purpose, location, scope, or beneficiaries of an activity. Therefore, the change in location of the PVSD event constitutes a substantial amendment to the 2022 Annual Action Plan. In order to provide the public the opportunity to review and comment on the proposed substantial amendment, the City opened a 30-day public comment period which began January 17, 2023 and concluded on February 17, 2023. No public comments were received. Staff requests approval of the proposed second substantial amendment to the 2022 Annual Action Plan in order to allow Placer Veterans Stand Down to hold their event at @ the Grounds in Roseville.

CDBG Rating and Ranking Guidelines

The City's CDBG program receives applications from various organizations on an annual basis. Each application must be reviewed, rated, and ranked in order to determine which programs will receive funding. The City's Community Development Block Grant Rating and Ranking Guidelines are in place to ensure an unbiased review process. For years, CDBG staff has utilized the current Rating and Ranking Guidelines adopted by City Council in 2009. Staff researched similar CDBG guidelines for other jurisdictions and determined that it would be suitable to revise the City's established guidelines in order to ensure they are relevant and up-to-date. The primary modification to the guidelines includes updating the makeup of the application review team and increasing the minimum and maximum requests in the Public Services category. The minimum request will be increased from \$5,000 to \$10,000 and the maximum amount of funding requests will increase from \$15,000 to \$25,000. The proposed revisions will align the guidelines with the current needs of the community and current average annual grant allocations received from HUD.

In order to ensure the rating and ranking guidelines stay up-to-date, staff will review and suggest updates to the guidelines during each 5-year Consolidated Plan process. If approved, the proposed Rating and Ranking Guidelines will go into effect for the 2024/25 CDBG funding cycle as applications for the current funding cycle have already been submitted.

FISCAL IMPACT

CDBG funding is provided as a federal grant to the City of Roseville. These grants are used to serve the low-income community and offset potential costs to the General Fund. This item does not impact the City's General Fund.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. The approval of the proposed substantial amendment, approval of a CDBG Amendment, and Rating and Ranking Guidelines meet the above criteria and are not subject to CEQA. No additional environmental review is required.

CDBG funds are subject to the National Environmental Protection Act (NEPA) as implemented by HUD at 24 CFR 58. NEPA reviews will be completed for each program and project funded prior to any expenditures for these activities.

Amendment to CDBG Agreement with PVSD

Resolution 23-086

2023 Proposed Rating and Ranking Guidelines

RESOLUTION NO. 23-084

APPROVING THE PROPOSED AMENDMENT TO THE 2022 ANNUAL ACTION PLAN

WHEREAS, as an entitlement jurisdiction, the City of Roseville receives an annual allocation of Community Development Block Grant (CDBG) funds from the U.S. Department of Housing and Urban Development (HUD) to promote affordable housing and community development programs for low-income residents; and

WHEREAS, each year the City must produce an Annual Action Plan outlining how CDBG funds will be used to address the goals of the five-year Consolidated Plan; and

WHEREAS, on May 18, 2022, Council approved the Annual Action Plan for the 2022/23 program year, which included an allocation of \$15,000 to Placer Veterans Stand Down (PVSD) for the organization's upcoming PVSD event to be held in May of 2023; and

WHEREAS, according to the City's Citizen Participation Plan, adopted in 2020, an Annual Action Plan will be amended any time there is a change in the purpose, location, scope, or beneficiaries of an activity; and

WHEREAS, in order to provide the public the opportunity to review and comment on the proposed substantial amendment, the City opened a 30-day public comment period which began January 17, 2023 and concluded on February 17, 2023; and

WHEREAS, no public comments were received; and

WHEREAS, staff requests approval of the proposed second substantial amendment to the 2022 Annual Action Plan in order to allow Placer Veterans Stand Down to hold their event at @ the Grounds in Roseville; and

WHEREAS, the proposed amendment to the 2022 Annual Action Plan has been reviewed by the City Council.

NOW THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that the Amended 2022 Annual Action Plan is hereby adopted and the City Manager or his designee is authorized to execute necessary documents and certifications on behalf of the City of Roseville for submittal to the U.S. Department of Housing and Urban Development.

PASSED AND ADOPTED by the Council of the City of Roseville this ____ day of _____, 20_, by the following vote on roll call:

SUMMARY OF SUBSTANTIAL AMENDMENT

The City of Roseville proposes a Substantial Amendment to the 2022 Annual Action Plan.

This document constitutes the City of Roseville's proposed substantial amendment to the following document:

- 2022 Annual Action Plan, covering July 1, 2022 through June 30, 2023

Summary of Substantial Amendment to 2022 Annual Action Plan:

Substantial Amendment 2: The approved 2022 Action Plan included a project to provide \$15,000 in funding to Placer Veterans Stand Down (PVSD) for their annual Placer Veterans Stand Down event, which will be held in May of 2023. Although not the organization's ideal choice, they planned to hold the 2023 event at The Gold Country Fairgrounds and Event Center in Auburn, CA. Due to various factors, PVSD opted to seek to relocate the event to The Grounds in Roseville, which they were able to secure after the 2022 Action Plan approval.

The reasons leading to the change in location included the following:

- The event has traditionally been held at The Grounds in Roseville, until COVID when PVSD could not reach a deal for a new contract. While the 2022 event was held at the Auburn Fairgrounds, which was not ideal, leading to lots of veterans being unable to attend.
- The costs to utilize The Grounds versus The Gold Country Fairgrounds are less.
- The organization expects to double to triple the amount of Roseville veterans to attend with the event hosted in Roseville versus Auburn.

The change in location of the 2023 event constitutes a substantial amendment to the Annual Action Plan.

The following sections in the 2022 Annual Action Plan will be amended:

AP-38 Project Summary

Project Summary Information

4	Project Name	Placer Veterans Stand Down Event (2022-04)
	Target Area	
	Goals Supported	Addressing Homelessness
	Needs Addressed	Shelter and Housing for Homeless Persons
	Funding	CDBG: \$15,000
	Description	570.201 (e) Public services 570.208 (a) (2) LMC Low/mod limited clientele benefit 03T - Operating Costs of Homeless/AIDS Patients Programs The program will assemble over 60 service providers to offer free services to military veterans and their family members; services provided with this funding will be targeted to homeless Roseville veterans.
	Target Date	6/30/2023

Estimate the number and type of families that will benefit from the proposed activities	It is estimated that 70 homeless veterans will be served by the program.
Location Description	The program serves Roseville homeless veterans. Placer Veterans Stand Down offices are located at 1451 Dorchester Dr. Roseville, CA 95678. Event is located at The Gold Country Fairgrounds and Event Center (209 Fairgate Road Auburn, CA 95603). Event will be located at The Grounds in Roseville (700 Event Center Drive, Junction Blvd, Roseville, CA 95678). Administrative offices for @the Grounds in Roseville are located at 451 Los Vegas Ave, Roseville CA 95678.
Planned Activities	The Placer Veterans Stand Down event, which will be held in May of 2023, assembles a broad spectrum of resources at one central location, making it accessible for veterans to obtain the goods and services they need to improve their quality of life and obtain some form of stability. The free services offered includes dental, medical, vision (including free prescription glasses), legal (including Placer County court), hearing exams, animal care services, employment counseling, housing agencies, mental health services, alcohol and substance abuse counseling, meals, showers, and an optional overnight stay.

RESOLUTION NO. 23-085

APPROVING A FIRST AMENDMENT TO COMMUNITY DEVELOPMENT BLOCK GRANT AGREEMENT, BY AND BETWEEN THE CITY OF ROSEVILLE AND PLACER VETERANS STAND DOWN, INC., AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE

WHEREAS, a First Amendment to Community Development Block Grant Agreement for Placer Veterans Stand Down Event, by and between the City of Roseville and Placer Veterans Stand Down, Inc., has been reviewed by City Council; and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that said first amendment is hereby approved and that the City Manager is authorized to execute it on behalf of the City of Roseville.

PASSED AND ADOPTED by the Council of the City of Roseville this ____ day of _____, 20_, by the following vote on roll call:

**FIRST AMENDMENT TO
COMMUNITY DEVELOPMENT BLOCK GRANT AGREEMENT
FOR PLACER VETERANS STAND DOWN EVENT**

GRANT NO.: B-22-MC-06-0043

CFDA: 14.218

THIS FIRST AMENDMENT TO AGREEMENT is made and entered into this ____ day of _____, 20__, by and between the City of Roseville, a municipal corporation (“CITY”), and Placer Veterans Stand Down, Inc., a California non-profit corporation (“SUBRECIPIENT”); and

W I T N E S S E T H:

WHEREAS, CITY and SUBRECIPIENT previously entered into a Community Development Block Grant Agreement for the Placer Veterans Stand Down Event, Grant No. B-22-MC-06-0043, CFDA: 14.218, dated September 16, 2022 (“Agreement”); and

WHEREAS, CITY desires to amend Exhibits A-1 and A-2 of the Agreement to change the location of the Placer Veterans Stand Down Event. The amended versions of Exhibits A-1 and Exhibit A-2, which are attached hereto and incorporated herein by reference, change the location of the event from the Gold Country Fairgrounds in Auburn, California to @the Grounds in Roseville, California.

NOW, THEREFORE, the parties agree as follows:

1. SUBRECIPIENT shall change the location of the event as described in Exhibits A-1 and A-2 of this First Amendment to Agreement.

2. All other provisions of the Agreement shall remain unchanged and in full force and effect.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has executed this First Amendment to Agreement in duplicate by its City Manager and SUBRECIPIENT has caused this Agreement to be duly executed.

SCOPE OF SERVICES

Agency Name:	Placer Veterans Stand Down, Inc.
Program Title:	Placer Veterans Stand Down Event
Amount of Request:	\$14,980
Amount of Award:	\$15,000
Number/type of annually unduplicated Persons/Households to Be Assisted:	70 homeless Roseville individuals
Units of service:	140 shelter nights
Target date to complete:	06/30/2023
Location:	Placer Veterans Stand Down offices are located at 1451 Dorchester Dr. Roseville, CA 95678. Event will be located @the Grounds in Roseville (700 Event Center Drive, Junction Blvd, Roseville, CA 95678). Administrative offices for @the Grounds in Roseville are located at 451 Los Vegas Ave, Roseville CA 95678.
Eligible Activity:	§570.201 (e) Public services
National Objective:	§570.208 (a) (2) LMC Low/mod limited clientele benefit

Description of Eligible Activities funded by Grant: The major overall goal of the PVSD and the annual event is to improve the lives of military veterans and their families, regardless of their past or current situation. PVSD works to help every homeless and at-risk veteran find housing, employment, and access to medical, dental, and mental health/substance abuse counseling as needed.

The Placer Veterans Stand Down event, which will be held in May of 2023, assembles a broad spectrum of resources at one central location, making it accessible for veterans to obtain the goods and services they need to improve their quality of life and obtain some form of stability. The free services offered includes dental, medical, vision (including free prescription glasses), legal (including Placer County court), hearing exams, animal care services, employment counseling, housing agencies, mental health services, alcohol and substance abuse counseling, meals, showers, and an optional overnight stay.

The Placer Veterans Stand Down event will assemble over 60 service providers to offer free services to military veterans and their family members; services provided with this funding will be targeted to homeless Roseville veterans.

PVSD will strictly be using the funding for individuals residing in Roseville that are considered homeless. Since all veterans who register for the event receive the same free access to dozens of vital services, PVSD will use the honor system when analyzing a veteran's statistics. It is expected for the more affluent veteran community to step aside and allow the homeless and at-risk individuals the right to these services. Funding will then be reserved for those Roseville residents from the CDBG, requiring additional funding for other guests to come from other funding sources.

The registration process requires the completion of a questionnaire, which includes:

- Basic information
- VA services they have received in the past
- Housing information; stating if they are homeless or at-risk, as well as where they reside or are located
- Contact information; how PVSD can communicate with them if homeless
- If the individual has family in need of assistance
- State their employment status
- List income information and enlisted VA financial programs

- Select what services/assistance they will be seeking at the event, to help better prepare the event staff and volunteers

The funds will be used for meals, shelter, medical supplies, and takeaway supplies including clothing, shelter needs (backpacks, sleeping bags, bedding), and other essentials.

Reporting: Although the event will not be held until the fourth quarter, PVSD will complete and submit quarterly reports using ZoomGrants. Reports are due by the end of the month following the completion of the quarter.

PVSD will report the number of Roseville persons served, what services were provided, and the days services were provided. This will be provided with the reimbursement request.

Documentation of Eligibility: This activity is eligible for CDBG funding as a public service that serves homeless persons. The Subrecipient must collect documentation that shows all persons served are low-income. The Subrecipient must also collect information on the race, ethnicity, and age of those served. Current income limits are published at <https://www.hudexchange.info/incomecalculator/> (click on CDBG Income Limits) and are attached.

Use of Funds: CDBG funds may only be used to reimburse the Subrecipient for those costs shown in EXHIBIT “A-2.” All costs must be directly related to the provision of services. Reimbursement requests must be supported with appropriate documentation. For example, labor costs must be supported with timesheets.

Timely Performance and Expenditure: Progress towards meeting goals for persons served, units of service, and funds expended will follow the schedule shown in EXHIBIT “A-2.” Reimbursement requests will be submitted by the end of the month following the completion of the quarter for all expenses within the quarter.

RESOLUTION NO. 23-086

APPROVING THE CITY OF ROSEVILLE COMMUNITY DEVELOPMENT BLOCK
GRANT RATING AND RANKING GUIDELINES

WHEREAS, the City of Roseville Community Development Block Grant (“CDBG”) program receives applications from various organizations on an annual basis, and each application must be reviewed, rated, and ranked in order to determine which programs will receive funding; and

WHEREAS, in order to ensure the rating and ranking guidelines stay up-to-date, staff will review and suggest updates to the guidelines during each 5-year Consolidated Plan process; and

WHEREAS, the proposed revisions will align the guidelines with the current needs of the community and current average annual grant allocations received from the U.S. Department of Housing and Urban Development; and

WHEREAS, the City of Roseville CDBG Rating and Ranking Guidelines have been reviewed by the City Council.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Roseville that said City of Roseville CDBG Rating and Ranking Guidelines are hereby approved and will go into effect for the 2024/25 CDBG funding cycle.

PASSED AND ADOPTED by the Council of the City of Roseville this ____ day of _____, 20_, by the following vote on roll call:

AYES COUNCILMEMBERS:

CITY OF ROSEVILLE
Community Development Block Grant
Rating and Ranking Guidelines

The City's Community Development Block Grant Rating and Ranking Guidelines are in place to ensure an unbiased review process. The Housing Division practice for rating and ranking CDBG applications will constitute the following:

- A Professional Review Team will review, rate and rank application requests to establish an unbiased review process. The members will include a City staff person (outside of Housing Division) with expertise in programs or projects assisting low-income members of the community, CDBG staff from surrounding jurisdictions or other individuals with similar experience and knowledge of the CDBG program or the needs of low-income individuals.
- A minimum of \$10,000 and maximum amount of \$25,000 per funding request, under the category of **Public Services**. This funding category is limited to 15% of the City's annual grant allocation and averages \$120,000 annually).
- At City's option, may only fund a special population, (Families, Homeless, Seniors, Youth, etc.).
- Higher points will be awarded to applicants who can demonstrate leveraging of CDBG dollars with other funding sources.
- Rate and Rank applications based on the attached Rating and Ranking System. Generally, the highest ranked proposals will be recommended for funding; see the attached rating and ranking sheet.

CITY OF ROSEVILLE
Community Development Block Grant
Application Rating and Ranking Criteria

Threshold Criteria – Proposed programs or projects must be able to answer yes for questions 1 and 2 in order to be eligible for CDBG funding and considered for rating and ranking process.

1. Does the program or project meet a national objective of the CDBG Program?
 2. Is the proposed program or project an eligible CDBG activity?
 3. Has applicant met timely expenditures of CDBG funding in prior three-year funding allocation? (New applicants are exempt.)
 4. If awarded CDBG funds within the last three years, were quarterly reports complete and submitted in a timely manner?
 5. Did applicant have any unresolved monitoring findings in the last three years? (i.e. no income verification)
 6. Does the activity meet a Consolidated Plan priority need?
-

I. Administrative Capability (Total 20 points)

1. Prior experience of the entity—Has the entity successfully administered a program or project with similar administrative requirements? (10 points)
2. Staffing—Is the staffing adequate? Does the staff's experience provide the ability to compile and submit accurate and timely reports? (10 points)

II. Need & Justification (Total 10 Points)

3. Does the applicant clearly state the need to be met and describe how the proposed activity will meet that need? (10 points)

III. Feasibility (Total 40 Points)

4. Extent to which the program or project is ready to be implemented (10 points)
5. Extent to which applicant is able to meet stated performance objectives (10 points)
6. Extent to which applicant will sustain program/service after CDBG is awarded (10 points)
7. Applicant's ability to leverage/match grant amount; value of volunteer hours allowed (10 points)

IV. Fiscal Responsibility (Total 30 Points)

8. Budget Demonstrates Adequate funding (10 points)
9. Reasonable Cost/Benefit Ratio (10 points)
10. Reasonable Administrative Costs (10 points)

NOTE: Special conditions may be attached to the project, depending on the nature of the request and/or activity, including time limits for use of funds.

COUNCIL COMMUNICATION

Title: Hydroelectric Adjustment - Roseville Municipal Code Update
Contact: Joanna Cucchi 916-746-1609 jcucchi@roseville.ca.us

Meeting Date: 3/15/2023
Item #: 8.3.

RECOMMENDATION TO COUNCIL

Staff recommends the Roseville City Council introduce for first reading an ordinance amending section 14.24.052 of the Roseville Municipal Code to update the hydroelectric adjustment calculation to reflect forecasted energy deliveries and update the annual expected energy from hydroelectric resources from 222 Gigawatt-Hour (GWh) to 277 GWh.

BACKGROUND

Beginning in 2009, Roseville Electric Utility implemented a hydroelectric adjustment to mitigate the cost impacts of varying hydroelectric energy resources. Depending on precipitation, reservoir conditions, timing of snow melt, multi-year droughts and other factors, the delivery of hydroelectric generation energy to the City can vary. The current calculation only considers a single year of precipitation in the calculation of the hydroelectric adjustment.

When the hydroelectric adjustment was first implemented, the use of precipitation tracked well with energy deliveries to the City. However, beginning in 2017 the direct relationship between the single year precipitation and the energy deliveries from hydroelectric resources began to deviate. In some years, this resulted in the hydroelectric adjustment being higher than needed and in other years lower than needed to offset costs.

The proposed updates to the municipal code change the current calculation of the hydroelectric adjustment from precipitation in the 8-station index to forecasted hydroelectric energy deliveries. The Electric Utility receives hydroelectric energy forecasts from both the federal government and the Northern California Power Agency. These forecasts have proven to be a more accurate measure of the next year hydroelectric energy deliveries. By updating the code to use these forecasts instead of the 8-station index precipitation, the utility can more accurately calculate the cost impact of hydroelectric energy and charge or credit customers a rate more in line with that impact.

In addition to the changes above, the utility is proposing to update the annual expected energy from hydroelectric resources from 222 GWh to 277 GWh. The annual expected energy from hydroelectric resources is a variable in the hydroelectric adjustment calculation and needs to be

updated periodically to reflect the amount of exposure the utility has from hydroelectric resources. This change reflects the recent purchased power agreement for 55 GWh of generation from the Feather River.

FISCAL IMPACT

The proposed changes to the municipal code will result in a changed hydroelectric adjustment calculation. Depending on the year, this could result in increased or decreased revenue. However, the revenue received will be more aligned with the impacts related to hydroelectric generation.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) only applies to projects which have the potential to cause a significant effect on the environment. Where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA. (CEQA Guidelines §15061(b)(3)).

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal A - Remain fiscally responsible in a changing world

ORDINANCE NO. ____

ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE AMENDING SECTION
14.24.052 OF CHAPTER 14.24 OF TITLE 14 OF THE ROSEVILLE MUNICIPAL CODE
REGARDING HYDROELECTRIC ADJUSTMENT

THE CITY OF ROSEVILLE ORDAINS:

SECTION 1. Section 14.24.052 of Chapter 14.24 of Title 14 of the Roseville Municipal Code is hereby amended to read as follows:

14.24.052 Hydroelectric adjustment.

A. Effective on billings as of July 1, 2009, a hydroelectric adjustment will be implemented for all residential and general service electric billings.

1. Purpose. The hydroelectric adjustment is calculated annually, effective July 1st through June 30th of each year, and is based on the cost impacts associated with varying ~~precipitation levels and related~~ hydroelectric energy supplies.

2. Definitions.

a. “~~Actual precipitation~~Hydroelectric energy delivery forecast” means ~~precipitation-
measurements taken at NS8 for the months of July through April each year, plus the average
precipitation for the months of May and June based on 1956-2005 measurement records.~~the

forecasted electricity deliveries from hydroelectric energy resources on May 1 for the following July through June period.

b. “Annual budgeted retail energy” means the forecasted sale of energy at retail in kilowatt-hours for the period July through June.

c. “Annual budgeted retail revenue” means the forecasted revenue to be received for energy sold at retail for the period July through June.

d. “Annual expected energy from ~~average precipitation~~hydroelectric resources” means ~~27722~~ gigawatt hours.

e. “Annual forward market price” means the estimated relevant future energy price for electricity delivered to North Path 15 (electricity market hub for Roseville electricity purchases). If North Path 15 is no longer available, a suitable replacement will be used as determined by Roseville Electric.

~~f. “Average precipitation” means 52 inches, based on measurement statistics from the Northern Sierra 8 Station Index (NS8) from 1956-2005, July through June.~~

~~g. “Hydroelectric energy generated per inch of precipitation” means 4.27 gigawatt hours.~~

~~f.h.~~ “Rate stabilization fund” means the fund established in accordance with Roseville Electric financial policies and adopted by the city council for the purpose of providing financial reserves to respond to the effects of major economic contingencies.

3. Calculation. The calculated hydroelectric adjustment will be determined by the following method, no later than June 30th of each year:

~~a. Average precipitation minus actual precipitation = precipitation variance.~~

~~ab. Precipitation variance times hydroelectric energy generated per inch of precipitation~~
Hydroelectric energy delivery forecast minus annual expected energy from hydroelectric resources = energy variance.

c. Energy variance times annual forward market price = budget impact.

d. Budget impact divided by annual budgeted retail revenue = calculated hydroelectric adjustment percentage.

Total service charges to customers for a monthly billing period will be increased or decreased by the calculated hydroelectric adjustment percentage.

If the calculated hydroelectric adjustment is a positive number, i.e., due to lower than ~~average precipitation~~ annual expected energy from hydroelectric resources, a hydroelectric adjustment charge, not to exceed five percent will be implemented.

If the calculated hydroelectric adjustment is a negative number, i.e., due to higher than annual expected energy from hydroelectric resources ~~average precipitation~~, and the rate stabilization fund balance is estimated to remain above the maximum policy level for the following 12 months, a hydroelectric adjustment credit, not to exceed five percent, will be implemented.

SECTION 2. This ordinance shall be effective at the expiration of thirty (30) days from the date of adoption.

SECTION 3. The City Clerk is hereby directed to cause this ordinance to be published in full at least once within fourteen (14) days after it is adopted in a newspaper of general circulation in the City, or shall within fourteen (14) days after its adoption cause this ordinance to be posted in full in at least three (3) public places in the City and enter in the Ordinance Book a certificate stating the time and place of said publication by posting.

Title: West Roseville Specific Plan Parcel F-22 (5251 Fiddymment Road) - Specific Plan Amendment and Development Agreement Amendment
Contact: Kinarik Shallow 916-746-1309 kshallow@roseville.ca.us

Meeting Date: 3/15/2023

Item #: 8.4.

RECOMMENDATION TO COUNCIL

At the February 9, 2023 Planning Commission meeting, the Planning Commission recommended the City Council take the following actions on the project:

1. Adopt a resolution approving text amendments to the West Roseville Specific Plan; and
2. Adopt the five (5) findings of fact and introduce for first reading an ordinance approving the Tenth Amendment of the Fiddymment Land Venture Development Agreement relative to the West Roseville Specific Plan.

BACKGROUND

This Council Communication provides a summary evaluation of the project and a summary of the February 9, 2023 Planning Commission hearing.

Background/Project Description

The project site is located on Parcel F-22 of the West Roseville Specific Plan (WRSP), at 5251 Fiddymment Road, at the northeast corner of Harvey Way and Fiddymment Road (see Attachment 1 – Vicinity Map). The site is currently vacant and has a General Plan land use designation of High Density Residential (HDR-24.9) and a zoning designation of Multi-Family Housing (R3). Surrounding uses include an Open Space parcel to the north, a Medium Density Residential subdivision to the east, the Plaza at Blue Oaks retail center to the south across Harvey Way, and a vacant Community Commercial parcel and Open Space parcel to the west across Fiddymment Road.

Parcel F-22 has a current unit allocation of 244 units and 184 of these units are designated as affordable rental units (91 very low-income and 93 low-income) in the WRSP. As part of the proposed project, the Planning Commission approved a Tentative Parcel Map to subdivide the 9.84-acre site into two parcels, F-22A and F-22B, and a Tree Permit to remove a valley oak tree on site to accommodate future development. These entitlements were approved at the February

9, 2023 Planning Commission meeting and are further discussed in the staff report included as Attachment 2.

The project also includes a request for a Specific Plan Amendment and Development Agreement Amendment to reallocate affordable housing units among the subject parcels. Parcel F-22A will be 2.7 net acres with a unit allocation of 82 units (81 very low), and Parcel F-22B will be 7.15 net acres with a unit allocation of 162 units (10 very low and 93 low). No changes to the overall WRSP unit count will be made.

The requested entitlements will facilitate the development of an apartment project on each of the resultant parcels. The projects are subject to the City's Objective Design Standards (ODS) process because at least 20% of the units will be provided as affordable to lower income households. The ODS process was adopted by City Council on April 21, 2021 (Resolution 21-152) in order to streamline the construction of qualified affordable housing projects and to comply with State housing legislation. An ODS application is currently in review for Parcel F-22A (File #PL22-0380) and for Parcel F-22B (File #PL22-0383), however, the approval of these projects are dependent on the approval of the requested entitlements mentioned above.

Summary Evaluation

Specific Plan Amendment

The project includes a text only amendment to the West Roseville Specific Plan (WRSP). No changes are being made to the existing zoning and land use designation of the site. The SPA exhibit and WRSP change pages are included as Exhibits A and B. Changes to the text, tables, and figures of the WRSP will be made to reflect the subdivision of the site into two parcels (F-22A and F-22B) and the resulting unit allocations. Of the 244 units currently allocated to Parcel F-22, 82 units will be allocated to Parcel F-22A and 162 units will be allocated to Parcel F-22B. The proposed unit allocations result in a density that is consistent with the existing High Density Residential (HDR) land use designation of the site.

Consistent with the General Plan affordable housing goal, the WRSP includes an Affordable Housing Plan (Chapter 5) which designates 10% of the units in the WRSP for middle-, low- and very low-income households. This includes a mix of purchase housing that is affordable to middle-income households, and rental housing that is affordable to low- and very low-income households. The WRSP affordable housing goal is allocated to specific MDR and HDR parcels as identified in Table 5-3 of the WRSP. The intent is to distribute affordable units throughout the WRSP area. Parcel F-22, which is a HDR parcel, is allocated 184 affordable rental units, with 91 units allocated for very low-income households and 93 units allocated for low-income households. Given the project includes a subdivision of Parcel F-22, the Affordable Housing Plan will be amended to revise the affordable housing obligations among the parcels. Parcel F-22A will be allocated 81 affordable units (all very low) and Parcel F-22B will be allocated 103 affordable units (10 very low and 93 low).

The project will maintain the same number of units in the WRSP, therefore there will be no impacts to planned infrastructure, roadways, or other public facilities. In addition, the project will maintain the existing obligation of 184 affordable units, which will be divided between the parcels as discussed above.

Development Agreement Amendment

The project includes a tenth amendment of the Development Agreement (DA) by and between the City of Roseville and Fiddymment Land Venture. The DA Amendment is included as Exhibit C. Development Agreements are binding contracts that set the terms, rules, conditions, regulations, entitlements, responsibilities, and other provisions relating to the development of the covered properties. The DA Amendment includes a revision to the land use plan exhibit contained in the original DA to reflect the subdivision of Parcel F-22. The DA Amendment will also amend the relevant sections of the original DA to address the revised affordable housing obligations resulting from the Tentative Parcel Map. The City's Housing Division reviewed the project and determined the proposed affordable unit allocations are acceptable and consistent with City policy. Items that are not addressed in the amendment are subject to the terms of the original DA. In summary, City staff has found the proposed DA Amendment is consistent with the General Plan, WRSP, and the Zoning Ordinance. The DA Amendment is in conformance with the public health, safety, and welfare, and will not adversely affect the orderly development of the property or the preservation of property values.

Summary of Planning Commission Meeting

The project was heard by the City's Planning Commission on February 9, 2023. The applicant addressed the Commission, spoke in favor of the project, and requested approval by the Commission. No public testimony was received at the hearing. After deliberating on the item, the Planning Commission recommend the City Council approve the Specific Plan Amendment and Development Agreement Amendment, and approved the Tentative Parcel Map and Tree Permit, with a vote of 7 aye, 0 nay, 0 absent.

Public Outreach

The proposed project was distributed to all internal and external agencies and departments who have requested such notice, and all comments or recommended conditions of approval have been incorporated into the project, as appropriate. Early notification of the project was posted on the Roseville Coalition of Neighborhood Associations (RCONA)'s website and on the City's Projects of Interest website. On November 29, 2022 the applicant held a public informational meeting at St. John's Episcopal Church. Notice of this meeting was posted on the RCONA website and mailed to all property owners within 300 feet of the project. In attendance were applicant representatives and City staff. Two members of the public attended and asked questions about the project. None of the attendees expressed opposition.

Notices of both the Planning Commission hearing and the City Council hearing were published in the Roseville Press Tribune and on the RCONA website, and mailed to all property owners within 300 feet of the site. As of the writing of this report, staff has not received any public comments regarding the project.

FISCAL IMPACT

The entitlements would facilitate eventual construction of two apartment complex projects. The eventual construction of the apartment complex projects would generate revenue to the City through the payment of development impact fees. The project is not anticipated to result in any negative impacts to the City's General Fund.

ENVIRONMENTAL REVIEW

The proposed project is statutorily exempt from environmental review pursuant to Section 15182 of the California Environmental Quality Act (CEQA) Guidelines, as a residential project pursuant to a Specific Plan. A project is eligible for this exemption if the public agency has prepared an EIR on a specific plan after January 1, 1980, and the criteria to require a subsequent or supplemental EIR are not met. The EIR for the West Roseville Specific Plan (SCH #2002082057) was certified by the City Council on February 4, 2004. No significant changes to the site or new, potentially significant impacts have been identified that would require the preparation of a subsequent or supplemental EIR, and the proposed project is consistent with the previously completed analysis.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Goal F - Invest in well-planned infrastructure and growth

Respectfully Submitted,

Kinarik Shallow, Associate Planner

Mike Isom, Development Services Director

Dominick Casey, City Manager

ITEM 6.1: **Specific Plan Amendment, Development Agreement Amendment, Tentative Parcel Map, and Tree Permit – 5251 Fiddymment Road – WRSP PCL F-22 – Parcel Map and Unit Transfer – File #PL22-0304**

REQUEST

The applicant requests a Tentative Parcel Map to subdivide West Roseville Specific Plan Parcel F-22 into two parcels, F-22A and F-22B. Parcel F-22A will have a unit allocation of 82 units and Parcel F-22B will have a unit allocation of 162 units. No changes to the overall WRSP unit count will be made. A Specific Plan Amendment and Development Agreement Amendment are requested to reallocate affordable housing units among the subject parcels. Lastly, a Tree Permit is requested to allow removal of one 68" valley oak tree on site to accommodate future development.

Applicant – Kris Steward, Plan Steward, Inc.
Property Owner – West Roseville Development Company Inc.

SUMMARY RECOMMENDATION

The Planning Division recommends the Planning Commission take the following actions:

1. Recommend the City Council adopt a resolution approving the Specific Plan Amendment;
2. Recommend the City Council adopt the five (5) findings of fact and approve the Tenth Amendment of the Fiddymment Land Venture Development Agreement;
3. Adopt the three (3) findings of fact and approve the Tentative Parcel Map subject to seventeen (17) conditions of approval; and
4. Adopt the two (2) findings of fact and approve the Tree Permit subject to nineteen (19) conditions of approval.

SUMMARY OF OUTSTANDING ISSUES

There are no outstanding issues associated with this request. The applicant has reviewed and is in agreement with all recommended conditions of approval.

BACKGROUND

The project site is located on Parcel F-22 of the West Roseville Specific Plan (WRSP), at the northeast corner of Harvey Way and Fiddymment Road (see Figure 1 below). The site is currently vacant and has a General Plan land use designation of High Density Residential (HDR-24.9) and a zoning designation of Multi-Family Housing (R3). Surrounding uses include an Open Space parcel to the north, a Medium Density Residential subdivision to the east, the Plaza at Blue Oaks retail center to the south

across Harvey Way, and a vacant Community Commercial parcel and Open Space parcel to the west across Fiddymment Road.

Parcel F-22 has a current unit allocation of 244 units and 184 of these units are designated as affordable rental units (91 very low-income and 93 low-income) in the WRSP. The applicant is requesting a Tentative Parcel Map to subdivide the 9.84-acre parcel into two parcels, F-22A and F-22B. Parcel F-22A will be 2.7 net acres with a unit allocation of 82 units (81 very low), and Parcel F-22B will be 7.15 net acres with a unit allocation of 162 units (10 very low and 93 low). No changes to the overall WRSP unit count will be made. A Specific Plan Amendment and Development Agreement Amendment are requested to reallocate affordable housing units among the subject parcels. Lastly, a Tree Permit is requested to allow removal of one 68" valley oak tree on site to accommodate future development.

The requested entitlements will facilitate the development of an apartment project on each of the resultant parcels. The projects are subject to the City's Objective Design Standards (ODS) process because at least 20% of the units will be provided as affordable to lower income households. The ODS process was adopted by City Council on April 21, 2021 (Resolution 21-152) in order to streamline the construction of qualified affordable housing projects and to comply with State housing legislation. An ODS application is currently in review for Parcel F-22A (File #PL22-0380) and for Parcel F-22B (File #PL22-0383), however, the approval of these projects are dependent on the approval of the requested entitlements mentioned above.

Figure 2: Proposed Parcels F-22A & F-22B

EVALUATION – SPECIFIC PLAN AMENDMENT

Specific Plan Amendments (SPA) are analyzed for consistency with the goals and policies of the affected plan. The project includes a text only amendment to the West Roseville Specific Plan (WRSP). No changes are being made to the existing zoning and land use designation of the site. The SPA exhibit and WRSP change pages are included as Exhibits A and B. Changes to the text, tables, and figures of the WRSP will be made to reflect the subdivision of the site into two parcels (F-22A and F-22B) and the resulting unit allocations. Of the 244 units currently allocated to Parcel F-22, 82 units will be allocated to Parcel F-22A and 162 units will be allocated to Parcel F-22B. The proposed unit allocations result in a density that is consistent with the existing High Density Residential (HDR) land use designation of the site.

Consistent with the General Plan affordable housing goal, the WRSP includes an Affordable Housing Plan (Chapter 5) which designates 10% of the units in the WRSP for middle-, low- and very low-income households. This includes a mix of purchase housing that is affordable to middle-income households, and rental housing that is affordable to low- and very low-income households. The WRSP affordable housing goal is allocated to specific MDR and HDR parcels as identified in Table 5-3 of the WRSP. The intent is to distribute affordable units throughout the WRSP area. Parcel F-22, which is a HDR parcel, is allocated 184 affordable rental units, with 91 units allocated for very-low income households and 93 units allocated for low-income households. Given the project includes a subdivision of Parcel F-22, the Affordable Housing Plan will be amended to revise the affordable housing obligations among the parcels. Table 1 identifies the proposed unit allocations and the proposed affordable unit allocations.

Table 1: Unit Allocations

	Existing	Proposed		
Specific Plan Parcel	F-22	F-22A	F-22B	Total
Acres	9.85	2.70	7.15	9.85
Unit Allocation	244	82	162	244
Density	24.8	30.4	22.7	n/a
Affordable Units	184	81	103	184
Very low income units	91	81	10	91
Low income units	93	0	93	93

The project will maintain the same number of units in the WRSP. As such, there will be no impacts to planned infrastructure, roadways, or other public facilities. In addition, the project will maintain the existing obligation of 184 affordable units, which will be divided between the parcels as shown in Table 1 above. Based on the foregoing, staff supports the proposed SPA.

EVALUATION – DEVELOPMENT AGREEMENT AMENDMENT

Section 19.84.040 of the City of Roseville Zoning Ordinance specifies that recommendations for approval or denial of a Development Agreement (DA), including Amendments, shall include consideration of the following:

- 1. Consistency with the objectives, policies, general land uses and programs specified in the General Plan and the West Roseville Specific Plan;***
- 2. Consistency with the provisions of the City of Roseville Zoning Ordinance;***
- 3. Conformity with the public health, safety and general welfare;***
- 4. The effect on the orderly development of the property or the preservation of property values; and***
- 5. Whether the provisions of the Agreement shall provide sufficient benefit to the City to justify entering into the Agreement.***

The project includes a tenth amendment of the Fiddymment Land Venture Development Agreement (DA). The DA Amendment is included as Exhibit C. Development Agreements are binding contracts that set the terms, rules, conditions, regulations, entitlements, responsibilities, and other provisions relating to the development of the covered properties.

The DA Amendment includes a revision to the land use plan exhibit contained in the original DA to reflect the subdivision of Parcel F-22. The DA Amendment will also amend the relevant sections of the original

DA to address the revised affordable housing obligations resulting from the proposed Tentative Parcel Map. The City's Housing Division reviewed the project and determined the proposed affordable unit allocations are acceptable and consistent with City policy. Items that are not addressed in the amendment are subject to the terms of the original DA. In summary, City staff has found the proposed DA Amendment is consistent with the General Plan, WRSP, and the Zoning Ordinance. The DA Amendment is in conformance with the public health, safety, and welfare, and will not adversely affect the orderly development of the property or the preservation of property values. Therefore, the proposed DA Amendment is consistent with items 1-5 above.

EVALUATION – TENTATIVE PARCEL MAP

Section 18.06.180 of the City of Roseville Subdivision Ordinance requires that three (3) findings be made prior to the approval of the Tentative Parcel Map. The required findings are listed below in ***italicized, bold text*** and are followed by an evaluation.

- 1. The size, design, character, grading, location, orientation, and configuration of lots, roads, and all improvements for the tentative subdivision map are consistent with the density, uses, circulation and open space systems, applicable policies and standards of the General Plan and the Community Design Guidelines, and the design standards of Title 18 (Subdivision Ordinance) of the Roseville Municipal Code.***

The proposed subdivision will result in the creation of two development parcels: F-22A and F-22B. Parcel F-22A will be 2.7 net acres and Parcel F-22B will be 7.15 net acres. The Subdivision Map Act and Subdivision Ordinance do not contain any maximum or minimum lot size. The site has already been mass graded and all of the surrounding roadways have been constructed, pursuant to previous land approvals in the area. The design, character, location, orientation, and configuration of the lots conform to all requirements.

- 2. The subdivision will result in lots which can be used or built upon. The subdivision will not create lots which are impractical for improvement or use due to: the steepness of terrain or location of watercourses in the area; the size or shape of the lots or inadequate building area; inadequate frontage or access, or some other physical condition of the area.***

There are no physical conditions in the area which would constrain the ability to build upon or use the parcels, and both parcels will retain roadway frontage and access to utilities. The resultant lots are of sufficient size and shape to accommodate future development. There are no watercourses or other natural features on the site that would impede development. The development of these parcels are being reviewed separately through the Objective Design Standards process, which will ensure compliance with the City's design and development standards.

- 3. The design and density of the subdivision will not violate the existing requirements prescribed by the Regional Water Quality Control Board for the discharge of waste into the sewage system, pursuant to Division 7 of the Water Code.***

Approval of the Tentative Parcel Map will not change the existing development intensity and allowed uses on the site, and thus will not increase demands on sewage services; there will be no impacts to the existing requirements established by the Regional Water Quality Control Board.

EVALUATION – TREE PERMIT

Pursuant to Zoning Ordinance Section 19.66.030, a Tree Permit is required for any removal of native oak trees or for more than 20% encroachment into the dripline of a native oak tree. The proposed project will result in the removal of one native oak tree in preparation of future development of the site. The required findings to approve a Tree Permit are listed below.

- 1. *Approval of the Tree Permit will not be detrimental to the public health, safety or welfare, and approval of the Tree Permit is consistent with the provisions of Chapter 19.66.***
- 2. *Measures have been incorporated into the project or permit to mitigate impacts to remaining trees or to provide replacement for trees removed.***

An arborist report including a tree inventory summary was provided by California Tree and Landscape Consulting, Inc., dated November 16, 2022 (see Exhibit E). A total of one (1) tree was found on the southern side of the property. The tree (Tree #181) is a protected valley oak tree with a total diameter of 68 inches. According to the arborist report, the tree is in fair health but has minor problems including an above average amount of dead branches and overextended/over-weighted branches. The tree would require installation of a rotary cable support system to maintain it. Removal of the tree is requested in order to accommodate the future development of the parcels.

The applicant has proposed to comply with the compensation requirements of the City's Tree Preservation Ordinance. The total number of mitigation inches for this project is 68. Mitigation can be completed with a combination of on-site planting and payment into the City's in-lieu fee program. The funds in the City's in-lieu fee program are used for the replanting and preservation of trees throughout the City and are calculated at a rate of \$118 per inch of tree removed when measured at the tree's diameter at breast height (DBH). The tree mitigation fee is required to be paid prior to the removal of the tree and prior to issuance of any permits.

The Tree Permit contains all of the standard conditions of approval, which includes a requirement to follow all of the recommendations of the Arborist Report. The removal of the tree will not be detrimental to the public health, safety, or welfare, and measures have been incorporated to mitigate impacts.

PUBLIC OUTREACH

The proposed project was distributed to all internal and external agencies and departments who have requested such notice, and all comments or recommended conditions of approval have been incorporated into the project, as appropriate. Early notification of the project was posted on the Roseville Coalition of Neighborhood Associations (RCONA)'s website and on the City's Projects of Interest website. On November 29, 2022 the applicant held a public informational meeting at St. John's Episcopal Church. Notice of this meeting was posted on the RCONA website and mailed to all property owners within 300 feet of the project. In attendance were applicant representatives and City staff. Two members of the public attended and asked questions about the project. None of the attendees expressed opposition.

A notice of the public hearing was published in the Roseville Press Tribune on January 28, 2023 and a notice of the hearing was also distributed to all property owners within 300 feet of the site and posted on the RCONA website. No comments have been received as of publication of the staff report.

ENVIRONMENTAL DETERMINATION

The proposed project is statutorily exempt from environmental review pursuant to Section 15182 of the California Environmental Quality Act (CEQA) Guidelines, as a residential project pursuant to a Specific Plan. A project is eligible for this exemption if the public agency has prepared an EIR on a specific plan after January 1, 1980, and the criteria to require a subsequent or supplemental EIR are not met. The EIR for the West Roseville Specific Plan (SCH #2002082057) was certified by the City Council on February 4, 2004. No significant changes to the site or new, potentially significant impacts have been identified that would require the preparation of a subsequent or supplemental EIR, and the proposed project is consistent with the previously completed analysis.

RECOMMENDATION

The Planning Division recommends the Planning Commission take the following actions:

1. Recommend the City Council adopt a resolution approving the **SPECIFIC PLAN AMENDMENT – 5251 FIDDYMENT ROAD – WRSP PCL F-22 – PARCEL MAP AND UNIT TRANSFER – FILE #PL22-0304**;
2. Recommend the City Council adopt the five (5) findings of fact and approve the **DEVELOPMENT AGREEMENT AMENDMENT – 5251 FIDDYMENT ROAD – WRSP PCL F-22 – PARCEL MAP AND UNIT TRANSFER – FILE #PL22-0304**;
3. Adopt the three (3) findings of fact and approve the **TENTATIVE PARCEL MAP – 5251 FIDDYMENT ROAD – WRSP PCL F-22 – PARCEL MAP AND UNIT TRANSFER – FILE #PL22-0304** subject to seventeen (17) conditions of approval; and
4. Adopt the two (2) findings of fact and approve the **TREE PERMIT – 5251 FIDDYMENT ROAD – WRSP PCL F-22 – PARCEL MAP AND UNIT TRANSFER – FILE #PL22-0304** subject to nineteen (19) conditions of approval.

CONDITIONS OF APPROVAL FOR THE TENTATIVE PARCEL MAP – FILE #PL22-0304

1. This Tentative Map approval shall be effectuated within a period of two (2) years from **February 9, 2023** and if not effectuated shall expire on **February 9, 2025**. Prior to said expiration date, the applicant may apply for an extension of time, provided this approval does not extend the expiration beyond **February 9, 2029**. (Planning)
2. The project is approved as shown in Exhibit D, and as conditioned or modified below. (Planning)
3. The approval of a Tentative Map and/or tentative site plan does not constitute approval of proposed improvements as to size, design, materials, or location, unless specifically addressed in these conditions of approval. (Engineering)
4. The applicant shall pay City's actual costs for providing plan check, mapping, GIS, and inspection services. This may be a combination of staff costs and direct billing for contract professional services. (Engineering, Environmental Utilities, Finance)
5. The project shall comply with all required environmental mitigation identified in the West Roseville Specific Plan EIR, and shall include all applicable mitigation measures as notes on the plans. (Planning)

PRIOR TO ISSUANCE OF A GRADING PERMIT AND/OR IMPROVEMENT PLANS

6. Grading around the native oak trees or other natural features shall be as shown on the Grading Plan/Tree Removal Plan, or as approved in these conditions. (Planning)
7. The applicant shall submit to the Planning and Engineering Departments the applicable Army Corps of Engineers permit or clearance, the California Department of Fish and Game Stream Bed Alteration Agreement, and/or the Regional Water Quality Control Board Water Quality Certificate. (Planning)

PRIOR TO OR UPON RECORDATION OF FINAL MAP

8. All existing easements shall be maintained, unless otherwise provided for in these conditions. (Environmental Utilities, Electric, Engineering)

9. The vacation of the right of way and vacation of the drainage easement as shown on the Tentative Parcel Map shall occur with recordation of the Parcel Map. (Engineering)
10. Separate document easements required by the City shall be prepared in accordance with the City's "Policy for Dedication of Easements to the City of Roseville." All legal descriptions shall be prepared by a licensed Land Surveyor (Environmental Utilities, Electric, Engineering)
11. In the event that the Final (Parcel) Map will record prior to the completion of on-site construction, all utility and access easements shall be placed on the face of the Map to the satisfaction of the City Engineer. If all on-site improvements are complete prior to the recordation of the map, then a separate agreement allowing all parcels/lots the rights of reciprocal access, rights to construct, and parking shall be submitted to the City as a part of final/parcel map submittal. Said agreement shall be in a form acceptable to the City Attorney and referenced on the face of the recorded map. (Engineering)
12. The Final/Parcel Map shall include an irrevocable offer to dedicate public rights-of-way and public and/or private easements as required by the City. (Engineering)
13. The words "traffic control appurtenances" shall be included in the list of utilities allowed in public utilities easements (PUEs) located along public roadways. (Engineering)
14. The Final/Parcel Map shall be submitted per "The Digital Submittal of Cadastral Surveys." A plot or print of the submittal shall accompany the electronic copy. The complete submittal shall occur after the Engineering Department approval but prior to City Council approval of the Final/Parcel Map. (Engineering)
15. The Environmental Utilities Department shall make a determination that there is adequate conveyance and treatment capacity in the City sewer system to handle the newly created Lot/Parcels. (Environmental Utilities)
16. The applicant shall pay all applicable water and sewer fees. (Environmental Utilities)

OTHER CONDITIONS OF APPROVAL

17. The Tentative Parcel Map shall not be deemed approved until the actions on the Development Agreement Amendment and Specific Plan Amendment are approved and become effective. (Planning)

CONDITIONS OF APPROVAL FOR THE TREE PERMIT – FILE #PL22-0304

PRIOR TO ISSUANCE OF ANY PERMITS OR ANY CONSTRUCTION ON-SITE

1. All recommendations contained in the Arborist Report (Exhibit E) are incorporated by reference into these conditions, except as modified herein. (Planning)
2. Tree #181 (or as listed in Exhibit E) are approved for removal with this tree permit. All other native oak trees shall remain in place. Trees to be removed shall be clearly marked in the field and inspected by Planning Staff prior to removal. Removal of the trees shall be performed by or under the supervision of a certified arborist. (Planning)
3. The developer shall be responsible for the replacement of the total number of inches proposed for removal prior to any tree removal. The total number of inches for this project is 68. Mitigation must be

provided prior to tree removal unless otherwise approved in the tree replacement plan or in these conditions. (Planning)

4. No activity shall be permitted within the protected zone of any native oak tree beyond those identified by this report. Encroachment into the protected zone of Tree #181 as shown in Attachment 1 and Exhibit E, and as described in the staff report is permitted. (Planning)
5. A violation of any of the conditions of this Tree Permit is a violation of the Roseville Municipal Code, the Zoning Ordinance (Chapter 19.74) and the Tree Preservation Ordinance (Chapter 19.66). Penalties for violation of any of the conditions of approval may include forfeiture of the bond, suspension or revocation of the permit, payment of restitution, and criminal penalties. (Planning)
6. A fencing plan shall be shown on the approved site plan and/or improvement plans demonstrating the Protected Zone for the affected trees. A maximum of three feet beyond the edge of the walls, driveways, or walkways will be allowed for construction activity and shall be shown on the fencing plan. The fencing plan shall be reviewed and approved by the Planning Division prior to the placement of the protective fencing. (Planning)
7. The applicant shall install a minimum of a five-foot high chain link fence (or acceptable alternative) at the outermost edge of the Protected Zone of the oak tree. Where encroachment is permitted pursuant to Condition 4, above, the fencing for encroachments shall be installed at the limit of construction activity. The applicant shall install signs at two equidistant locations on the temporary fence that are clearly visible from the front of the lot and where construction activity will occur. The size of each sign shall be a minimum of two feet (2') by two feet (2') and must contain the following language: "WARNING THIS FENCE SHALL NOT BE REMOVED OR RELOCATED WITHOUT WRITTEN AUTHORIZATION FROM THE PLANNING DIVISION". (Planning)
8. Once the fencing is installed, the applicant shall schedule an appointment with the Planning Division to inspect and approve the temporary fencing before beginning any construction. (Planning)
9. The applicant shall arrange with the arborist to perform, and certify in writing, the completion of deadwooding, fertilization, and all other work recommended for completion prior to the approval of improvement plans. Pruning shall be done by an Arborist or under the direct supervision of a Certified Arborist, in conformance with International Society of Arboriculture (I.S.A.) standards. Any watering and deep root fertilization which the arborist deems necessary to protect the health of the trees as noted in the arborist report or as otherwise required by the arborist shall be completed by the applicant. (Planning)
10. A utility trenching pathway plan shall be submitted depicting all of the following systems: storm drains, sewers, water mains, and underground utilities. The trenching pathway plan shall show the proposed locations of all lateral lines. (Planning)
11. A Site Planning Meeting shall be held with the applicant, the applicant's primary contractor, the Planning Division and the Engineering Division to review this permit, the approved grading or improvement plans, and the tree fencing prior to any grading on-site. The Developer shall call the Planning Division and Engineering Division two weeks prior to the start of grading work to schedule the meeting and fencing inspection. (Planning)
12. The following information must be located on-site during construction activities: Arborist Report, approved site plan/improvement plans including fencing plan, and conditions of approval for the Tree

Permit. All construction must follow the approved plans for this tree permit without exception. (Planning)

13. All preservation devices (aeration systems, oak tree wells, drains, special paving, etc.) shall be designed and installed as required by these conditions and the arborist's recommendations, and shall be shown on the improvement plans or grading plans. (Planning)
14. If any native ground surface fabric within the Protected Zone must be removed for any reason, it shall be replaced within forty-eight (48) hours. (Planning)
15. Storage or parking of materials, equipment, or vehicles is not permitted within the Protected Zone of any oak tree. Vehicles and other heavy equipment shall not be operated within the Protected Zone of any oak tree. (Planning)
16. Where recommended by the arborist, portions of the foundation shall be hand dug under the direct supervision of the project arborist. The certified arborist shall immediately treat any severed or damaged roots. Minor roots less than one (1) inch in diameter may be cut, but damaged roots shall be traced back and cleanly cut behind any split, cracked or damaged area. Major roots over one (1) inch in diameter may not be cut without approval of an arborist and any arborist recommendations shall be implemented. (Planning)
17. The temporary fencing shall remain in place throughout the entire construction period and shall not be removed without obtaining written authorization from the Planning Division. In no event shall the fencing be removed before the written authorization is received from the Planning Division. (Planning)

PRIOR TO ISSUANCE OF FINAL

18. Within 5 days of the completion of construction, a Certification Letter from a certified arborist shall be submitted to and approved by the Planning Division. The certification letter shall attest to all of the work (regulated activity) that was conducted in the protected zone of the tree, either being in conformance with this permit or of the required mitigation still needing to be performed. (Planning)
19. The approval of this Tree Permit shall expire on **February 9, 2025**. (Planning)

PRELIMINARY ARBORIST REPORT & TREE INVENTORY

RE: Harvey Way Apartments, 5251 Fiddymment Road, APN #017-117-097-000; City of Roseville, CA jurisdiction

Executive Summary

Kris Steward, on behalf of USA Properties Fund, contacted California Tree and Landscape Consulting, Inc. to inventory and evaluate the trees protected by the City of Roseville Tree Preservation code, chapter 19.66, and offsite trees which may be impacted by the development of the site for purposes of providing documentation of the tree species and sizes for planning the development of the site. The property is located at 5251 Fiddymment Road, the northeast corner of Fiddymment Road and Harvey Way, directly across from Raleys ONE Market at 1970 Blue Oaks Blvd., in the City of Roseville, California. The property is currently vacant land. See Supporting Information Appendix 1 –Tree Location Map.

Edwin Stirtz, ISA Certified Arborist #WE-0510A, was on site on October 27th, 2022. A total of 1 trees was evaluated on this property. The tree is protected by size and species according to the City of Roseville Tree Preservation ordinance.

Tree Species	Trees Inventoried	Trees on the Site ¹	Trees Proposed for Removal	Total diameter inches which may require mitigation
Valley Oak, <i>Quercus lobata</i>	1	1	TBD	68
Totals	1	1		68

See Appendices for specific information on each tree

¹ CalTLC is not a licensed land surveyor. Tree locations are approximate and we do not determine tree ownership. Trees which appear to be on another parcel are listed as off-site and treated as the property of that parcel. No evaluation of easement locations, such as required for street tree status, was conducted.

Methods

Appendix 2 in this report is the detailed inventory of the trees. The following terms will further explain our methods and findings.

The protected trees evaluated as part of this report have a numbered tag that was placed on each one with a pre-stamped tree number and Tree Tag. They are attached with a nail, installed at approximately 5 feet above ground level on the approximate south side of the fence.

A Level 2 – Basic Visual Assessment was performed in accordance with the International Society of Arboriculture’s best management practices. This assessment level is limited to the observation of conditions and defects which are readily visible. Additional limiting factors, such as blackberries, poison oak, and/or debris piled at the base of a tree can inhibit the visual assessment.

Tree Location: The GPS location of each tree was collected using the ESRI’s ArcGIS collector application on an Apple iPhone or Samsung. The data was then processed in ESRI’s ArcMap by Julie McNamara, M.S. GISci, to produce the tree location map.

Tree Measurements: DBH (diameter breast high) is normally measured at 4’6” (above the average ground height for “Urban Forestry”), but if that varies then the location where it is measured is noted in the ‘Measured at’ column. A steel diameter tape was used to measure all of the trees. A laser distance meter was used to measure distances. Canopy radius measurements may also have been estimated due to obstructions, such as steep slopes or other trees.

Terms

Field Tag #	The pre-stamped tree number on the tag which is installed at approximately 6 feet above ground level on the north side of the tree.
Old Tag #	If additional field tags are found on the trees and are legible, they are listed here.
Species	The species of a tree is listed by our local and correct common name and botanical name by genus (capitalized) and species (lower case). Oaks frequently cross-pollinate and hybridize, but the identification is towards the strongest characteristics.
DBH	Diameter breast high' is normally measured at 4’6” (above the average ground height for “Urban Forestry”), but if that varies then the location where it is measured is noted in the next column “measured at”
Measured at	Height above average ground level where the measurement of DBH was taken
Canopy radius	The farthest extent of the crown composed of leaves and small twigs. Most trees are not evenly balanced. This measurement represents the longest extension from the trunk to the outer canopy. The dripline measurement is from the center point of the tree and is shown on the Tree Location Map as a circle. This measurement can further define a protection zone if specified in the local ordinance as such or can indicate if pruning may be required for development.
Arborist Rating	Subjective to condition and is based on both the health and structure of the tree. All of the trees were rated for condition, per the recognized national standard as set up by the Council of Tree and Landscape Appraisers and the International Society of Arboriculture (ISA) on a numeric scale of 5 (being the highest) to 0 (the worst condition, dead) as in Chart A. The rating was done in the field at the time of the measuring and inspection.

Roseville Rating	Arborist	Rating	
Excellent	Excellent	5	No problems found from a visual ground inspection. Structurally, these trees have properly spaced branches and near perfect
Good	Good	4	The tree is in good condition and there are no apparent problems that can be seen from a visual ground inspection.
Fair	Fair	3	The tree is in fair condition. There are some minor structural or health problems that pose no immediate risk of death or failure. When the recommended actions in an arborist report are completed correctly the defect(s) can be minimized or eliminated and/or health can be improved.
Fair to Poor	Poor	2	The tree has major problems. If the option is taken to preserve the tree, additional evaluation to identify if health or structure can be improved with correct arboricultural work including, but not limited to: pruning, cabling, bracing, bolting, guying, spraying, mistletoe removal, vertical mulching, fertilization, etc. Additionally, risk should be evaluated as a tree rated 2 may have structural conditions which indicate there is a high likelihood of failure. Trees rated 2 should be removed if these additional evaluations will not be performed.
Poor	Very Poor	1	The problems are extreme. This rating is assigned to a tree that has structural and/or health problems that no amount of work or effort can change. The issues may or may not be considered a high risk.
Dead	Dead	0	This indicates the tree has no significant sign of life.

Notes: Provide notable details about each tree which are factors considered in the determination of the tree rating including: (a) condition of root crown and/or roots; (b) condition of trunk; (c) condition of limbs and structure; (d) growth history and twig condition; (e) leaf appearance; and (f) dripline environment. Notes also indicate if the standard tree evaluation procedure was not followed (for example - why dbh may have been measured at a location other than the standard 54"). Additionally, notes will list any evaluation limiting factors such as debris at the base of a tree.

Actions Recommended actions to increase health and longevity.

Development Status Projected development impacts are based solely on distance relationships between tree location and grading. Field inspections and findings during the project at the time of grading and trenching can change relative impacts. Closely followed guidelines and requirements can result in a higher chance of survival, while requirements that are overlooked can result in a dramatically lower chance of survival. Impacts are measured as follows:

Impact Term**Long Term Result of Impact**

Negligible	Tree is unlikely to show any symptoms. Chance of survival post development is excellent. Impacts to the Protected Root Zone are less than 5%.
Minor	Tree is likely to show minor symptoms. Chance of survival post development is good. Impacts to the Protected Root Zone are less than 15% and species tolerance is good.
Moderate	Tree is likely to show moderate symptoms. Chance of survival post development is fair. Impacts to the Protected Root Zone are less than 35% and species tolerance is good or moderate.
Severe	Tree is likely to show moderate symptoms annually and a pattern of decline. Chance of long term survival post development is low. Impacts to the Protected Root Zone are up to 50% and species tolerance is moderate to poor.
Critical	Tree is likely to show moderate to severe symptoms annually and a pattern of decline. Chance of long term survival post development is negligible. Impacts to the Protected Root Zone are up to 80%.

Discussion

Trees need to be protected from normal construction practices if they are to remain on the site and are expected to survive long term. While construction damage in the root zone is often the death of a tree, the time from when the damage occurs to when the symptoms begin and/or the tree dies can be years. Our recommendations are based on experience and the local ordinance requirements to enhance tree longevity. It requires the calculated root zone must remain intact as an underground ecosystem despite the use of heavy equipment to install foundations, driveways, underground utilities, and landscape irrigation systems. Simply walking and driving on soil can have serious consequences to tree health. The Tree Preservation Requirements and General Development Guidelines should be incorporated into the site plans and enforced onsite. The project arborist should be included in the development team during construction to provide expertise and make additional recommendations if additional impacts occur or tree response is poor.

Root Structure

The majority of a tree's roots are contained in a radius from the main trunk outward approximately two to three times the canopy of the tree. These roots are located in the top 6" to 3' of soil. It is a common misconception that a tree underground resembles the canopy. The correct root structure of a tree is in the drawing below. All plants' roots need both water and air for survival. Poor canopy development or canopy decline in mature trees after development is often the result of inadequate root space and/or soil compaction.

The reality of where roots are generally located (Menzer, 2008)

Pruning Mature Trees for Risk Reduction and/or Development Clearance

There are few good reasons to prune mature trees. Removal of deadwood, directional pruning, removal of decayed or damaged wood, and end-weight reduction as a method of mitigation for structural faults are the only reasons a mature tree should be pruned. Live wood over 3" should not be pruned unless absolutely necessary. Pruning cuts should be clean and correctly placed. Pruning should be done in accordance with the American National Standards Institute (ANSI) A300 standards.

Pruning causes an open wound in the tree. Trees do not "heal" they compartmentalize. It is far better to use more small cuts than a few large cuts as small pruning wounds reduce risk while large wounds increase risk. Any wound made today will always remain, but a healthy tree, in the absence of decay in the wound, will 'cover it' with callus tissue. Large, old pruning wounds which did not close with callous tissue often have advanced decay. These wounds are a likely failure point. Mature trees with large wounds have a high risk of failure.

Overweight limbs are a common structural fault in suppressed trees. There are two remedial actions for over-weight limbs (1) prune the limb to reduce the extension of the canopy, or (2) cable the limb to reduce movement. Cables do not hold weight they only stabilize the limb and additionally require annual inspection.

Arborist Classifications

There are different types of Arborists:

Tree Removal and/or Pruning Companies: These companies may be licensed by the State of California to do business as a tree removal company, but they do not necessarily know anything about trees biology.

Arborists: Arborist is a broad term intended to mean someone with specialized knowledge of trees, but it is often used to imply knowledge that is not there.

ISA Certified Arborist: An International Society of Arboriculture Certified Arborist is someone who has trained, met the qualifications for application, and been tested to have specialized knowledge of trees. You can look up certified arborists at the International Society of Arboriculture website: isa-arbor.org.

Consulting Arborist: An American Society of Consulting Arborists Registered Consulting Arborist is someone who has been trained and then tested to have specialized knowledge of trees; and trained and tested to provide high quality reports and documentation. You can look up registered consulting arborists at the American Society of Consulting Arborists website: ASCA-consultants.org.

RECOMMENDATIONS: SUMMARY OF TREE PROTECTION MEASURES

The Owner and/or Developer should ensure the project arborist's protection measures are incorporated into the site plans and followed. Tree specific protection measures can be developed when we have received a copy of the grading plans for the site.

For Project Submittal to the City:

- If the tree is to remain, identify it on final construction drawings and show the root protection zone as shown in the arborist recommendations. Note – This area is not for use during construction unless under direct supervision of the project arborist.
- List the name and telephone number of the project arborist on the final construction drawings (grading plans) and a monitoring schedule a minimum of once per month during development.

Prior to Onsite Activity:

- The project arborist should inspect the installed tree protection fencing prior to grading and/or grubbing for compliance with the recommended protection zones.
- The project arborist should directly supervise the irrigation, fertilization, placement of mulch and **chemical treatments**.
- Prior to any grading, or other work on the site that will come within 20' of a tree, irrigation will be required from April through October and placement of a 4-6" layer of chip mulch over the protected root zone (They are expensive to buy and bark and/or redwood and cedar will not be accepted)
- Clearance pruning should include removal of all the lower foliage that may interfere with equipment PRIOR to having grading or other equipment on site. The Project Arborist should approve the extent of foliage elevation and directly oversee the pruning to be performed by a contractor who is an ISA Certified Arborist.

During Construction:

- Any and all work to be performed inside the protected root zone fencing shall be supervised by the project arborist.
- The project arborist shall monitor the site a minimum of once per month during development and may require additional measures as a result of changing tree response.

California Tree & Landscape Consulting, Inc.

359 Nevada Street, Suite 201
Auburn, CA 95603

TREE PROTECTION GENERAL REQUIREMENTS

1. The project arborist for this project is California Tree & Landscape Consulting. The primary contact information is Nicole Harrison (530) 305-0165. The project arborist may continue to provide expertise and make additional recommendations during the construction process if and when additional impacts occur or tree response is poor. Monitoring and construction oversight by the project arborist is recommended for all projects and required when a final letter of assessment is required by the jurisdiction.
2. The project arborist should inspect the exclusionary root protection fencing installed by the contractors prior to any grading and/or grubbing for compliance with the recommended protection zones. Additionally, the project arborist shall inspect the fencing at the onset of each phase of construction. The root protection zone for trees is specified as the 'canopy radius' in Appendix 2 in the arborist report unless otherwise specified by the arborist. Note 'dripline' is not an acceptable location for installation of tree protection fencing.
3. The project arborist should directly supervise any clearance pruning, irrigation, fertilization, placement of mulch and/or chemical treatments. If clearance pruning is required, the Project Arborist should approve the extent of foliage elevation and oversee the pruning to be performed by a contractor who is an ISA Certified Arborist. Clearance pruning should include removal of all the lower foliage that may interfere with equipment PRIOR to having grading or other equipment on site.
4. No trunk within the root protection zone of any trees shall be removed using a backhoe or other piece of grading equipment.
5. Clearly designate an area on the site that is outside of the protection area of all trees where construction materials may be stored, and parking can take place. No materials or parking shall take place within the protection zones of any trees on or off the site.
6. Any and all work to be performed inside the protected root zone fencing, including all grading and utility trenching, shall be approved and/or supervised by the project arborist.
7. Trenching, if required, inside the protected root zone shall be approved and/or supervised by the project arborist and may be required to be performed by hand, by a hydraulic or air spade, or other method which will place pipes underneath the roots without damage to the roots.
8. The root protection zone for trees is specified as the 'canopy radius' in Appendix 2 in the arborist report unless otherwise specified by the arborist. Note 'dripline' is not an acceptable location for installation of tree protection fencing.

Tree requires a crown clean out and reduction pruning and installation of a rotary cable support system.

APPENDIX 3

GENERAL DEVELOPMENT GUIDELINES

Definitions

Root zone: The roots of trees grow fairly close to the surface of the soil, and spread out in a radial direction from the trunk of tree. A general rule of thumb is that they spread 2 to 3 times the radius of the canopy, or 1 to 1 ½ times the height of the tree. It is generally accepted that disturbance to root zones should be kept as far as possible from the trunk of a tree. The root protection zone (RPZ) is normally calculated using the BMP's which include an analysis of tree species, age, and current condition.

Inner Bark: The bark on most large trees is quite thick, usually 1" to 2". If the bark is knocked off a tree, the inner bark, or cambial region, is exposed and/or removed. The cambial zone is the area where tissues responsible for adding new layers to the tree each year are located. Removing or damaging this tissue results in a tree that can only grow new tissue from the edges of the wound. In addition, the interior wood of the tree is exposed to decay fungi and becomes susceptible to decay. Tree protection measures require that no activities occur which can knock the bark off the trees.

Methods Used in Tree Protection:

No matter how detailed Tree Protection Measures are in the initial Arborist Report, they will not accomplish their stated purpose unless they are applied correctly and a Project Arborist oversees the construction. The Project Arborist should have the ability to enforce the Protection Measures. It is advisable for the Project Arborist to be present at the Pre-Construction meeting to answer questions the contractors may have about Tree Protection Measures. This also lets the contractors know how important tree preservation is to the developer.

Root Protection Zone (RPZ): Since in most construction projects it is not possible to protect the entire root zone of a tree, a Root Protection Zone is established for each tree to be preserved. The minimum Root Protection Zone is the area calculated as 1 to 1.25' for every inch of trunk diameter (ie. A 10" diameter tree will have an RPZ of 10') or the dripline, whichever is greater. The Project Arborist must approve work within the RPZ.

Irrigate, Fertilize, Mulch: Prior to grading on the site near any tree, the area within the Tree Protection fence should be fertilized with 4 pounds of nitrogen per 1000 square feet, and the fertilizer irrigated in. The irrigation should percolate at least 24 inches into the soil. This should be done no less than 2 weeks prior to grading or other root disturbing activities. After irrigating, cover the RPZ with at least 12" of leaf and twig mulch. Such mulch can be obtained from chipping or grinding the limbs of any trees removed on the site. Acceptable mulches can be obtained from nurseries or other commercial sources. Fibrous or shredded redwood or cedar bark mulch shall not be used anywhere on site.

Fence: Fence around the Root Protection Zone and restrict activity therein to prevent soil compaction by vehicles, foot traffic or material storage. The fenced area shall be off limits to all construction equipment, unless there is express written notification provided by the Project Arborist, and impacts are discussed and mitigated prior to work commencing.

No storage or cleaning of equipment or materials, or parking of any equipment can take place within the fenced off area, known as the RPZ.

The fence should be highly visible, and stout enough to keep vehicles and other equipment out. I recommend the fence be made of orange plastic protective fencing, kept in place by t-posts set no farther apart than 6’.

In areas of intense impact, a 6’ chain link fence is preferred.

In areas with many trees, the RPZ can be fenced as one unit, rather than separately for each tree.

Where tree trunks are within 3’ of the construction area, place 2” by 4” boards vertically against the tree trunks, even if fenced off. Hold the boards in place with wire. Do not nail them directly to the tree. The purpose of the boards is to protect the trunk, should any equipment stray into the RPZ.

Elevate Foliage: Where indicated, remove lower foliage from a tree to prevent limb breakage by equipment. Low foliage can usually be removed without harming the tree, unless more than 25% of the foliage is removed. Branches need to be removed at the anatomically correct location in order to prevent decay organisms from entering the trunk. For this reason, a contractor who is an ISA Certified Arborist should perform all pruning on protected trees.²

Expose and Cut Roots: Breaking roots with a backhoe, or crushing them with a grader, causes significant injury, which may subject the roots to decay. Ripping roots may cause them to splinter toward the base of the tree, creating much more injury than a clean cut would make. At any location where the root zone of a tree will be impacted by a trench or a cut (including a cut required for a fill and compaction), the roots shall be exposed with either a backhoe digging radially to the trunk, by hand digging, or by a hydraulic air spade, and then cut cleanly with a sharp instrument, such as chainsaw with a carbide chain. Once the roots are severed, the area behind the cut should be moistened and mulched. A root protection fence should also be erected to protect the remaining roots, if it is not already in place. Further grading or backhoe work required outside the established RPZ can then continue without further protection measures.

Protect Roots in Deeper Trenches: The location of utilities on the site can be very detrimental to trees. Design the project to use as few trenches as possible, and to keep them away from the major trees to be protected. Wherever possible, in areas where trenches will be very deep, consider boring under the roots of the trees, rather than digging the trench through the roots. This technique can be quite useful for utility trenches and pipelines.

Protect Roots in Small Trenches: After all construction is complete on a site, it is not unusual for the landscape contractor to come in and sever a large number of “preserved” roots during the installation of irrigation systems. The Project Arborist must therefore approve the landscape and irrigation plans. The irrigation system needs to be designed so the main lines are located outside the root zone of major trees, and the secondary lines are either laid on the surface (drip systems), or carefully dug with a hydraulic or air spade, and the flexible pipe fed underneath the major roots.

² International Society of Arboriculture (ISA), maintains a program of Certifying individuals. Each Certified Arborist has a number and must maintain continuing education credits to remain Certified.

Design the irrigation system so it can slowly apply water (no more than $\frac{1}{4}$ " to $\frac{1}{2}$ " of water per hour) over a longer period of time. This allows deep soaking of root zones. The system also needs to accommodate infrequent irrigation settings of once or twice a month, rather than several times a week.

Monitoring Tree Health During and After Construction: The Project Arborist should visit the site at least twice a month during construction to be certain the tree protection measures are being followed, to monitor the health of impacted trees, and make recommendations as to irrigation or other needs. A monitoring contract with the developer is recommended. After construction is complete, the arborist should monitor the site monthly for one year and make recommendations for care where needed.

Chemical Treatments: The owner or developer shall be responsible to contact an arborist with a pesticide applicators license to arrange for an application of a root enhancing hormone, such as Paclobutrazol, to mitigate the stress produced by the development. Additionally, at the discretion of the project arborist, an insect infestation preventative for both boring insects and leaf feeding insects and/or fungal preventative for leaf surfaces may be required. Roots pruned during the course of performing a cut may be required to be treated with a biofungicide such as Bio-Tam.

APPENDIX 4 – SITE PHOTOS

Site Photographs by Edwin Stirtz, October 27, 2022

Tree 181, Looking west

Looking south

RESOLUTION NO. 23-089

AMENDING THE WEST ROSEVILLE SPECIFIC PLAN

WHEREAS, Parcel F-22 of the West Roseville Specific Plan was subdivided into two parcels (F-22A and F-22B), as shown in Exhibit A, attached and incorporated herein by reference; and

WHEREAS, a proposal has been submitted to reallocate affordable housing units among Parcels F-22A and F-22B, which necessitates a Specific Plan Amendment to change the text within the West Roseville Specific Plan, as shown in Exhibit B, attached and incorporated herein by reference; and

WHEREAS, the project is exempt from environmental review pursuant to Section 15182 of the California Environmental Quality Act (CEQA) Guidelines, as a residential project pursuant to a Specific Plan. A project is eligible for this exemption if the public agency has prepared an EIR on a specific plan after January 1, 1980, and the criteria to require a subsequent or supplemental EIR are not met. The EIR for the West Roseville Specific Plan (SCH #2002082057) was certified by the City Council on February 4, 2004. No significant changes to the site or new, potentially significant impacts have been identified that would require the preparation of a subsequent or supplemental EIR, and the project is consistent with the previously completed analysis; and

WHEREAS, the Planning Commission held a public hearing on the proposed amendments to the West Roseville Specific Plan on February 9, 2023; and

WHEREAS, the Specific Plan Amendment as proposed and revised is consistent with the adopted City of Roseville General Plan; and

WHEREAS, on March 15, 2023, the City Council reviewed the findings of the Planning Commission recommending approval of the Specific Plan Amendment, and makes the following findings:

The Specific Plan Amendment is consistent with the objectives, policies, general land uses and programs specified in the City of Roseville General Plan and the West Roseville Specific Plan;

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Roseville that the proposed changes to the West Roseville Specific Plan are adopted as set forth in the attached Exhibits A and B.

RESOLUTION NO. 23-089

AMENDING THE WEST ROSEVILLE SPECIFIC PLAN

WHEREAS, Parcel F-22 of the West Roseville Specific Plan was subdivided into two parcels (F-22A and F-22B), as shown in Exhibit A, attached and incorporated herein by reference; and

WHEREAS, a proposal has been submitted to reallocate affordable housing units among Parcels F-22A and F-22B, which necessitates a Specific Plan Amendment to change the text within the West Roseville Specific Plan, as shown in Exhibit B, attached and incorporated herein by reference; and

WHEREAS, the project is exempt from environmental review pursuant to Section 15182 of the California Environmental Quality Act (CEQA) Guidelines, as a residential project pursuant to a Specific Plan. A project is eligible for this exemption if the public agency has prepared an EIR on a specific plan after January 1, 1980, and the criteria to require a subsequent or supplemental EIR are not met. The EIR for the West Roseville Specific Plan (SCH #2002082057) was certified by the City Council on February 4, 2004. No significant changes to the site or new, potentially significant impacts have been identified that would require the preparation of a subsequent or supplemental EIR, and the project is consistent with the previously completed analysis; and

WHEREAS, the Planning Commission held a public hearing on the proposed amendments to the West Roseville Specific Plan on February 9, 2023; and

WHEREAS, the Specific Plan Amendment as proposed and revised is consistent with the adopted City of Roseville General Plan; and

WHEREAS, on March 15, 2023, the City Council reviewed the findings of the Planning Commission recommending approval of the Specific Plan Amendment, and makes the following findings:

The Specific Plan Amendment is consistent with the objectives, policies, general land uses and programs specified in the City of Roseville General Plan and the West Roseville Specific Plan;

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Roseville that the proposed changes to the West Roseville Specific Plan are adopted as set forth in the attached Exhibits A and B.

Last Updated: February 2023,

Parcel F-22 DAA (File #PL22-0304)

1. The obligation for 162 affordable units was transferred from WRSP Parcel W-16 to the Sierra Vista Specific Plan via specific plan amendments approved in 2016. This obligation, combined with the affordable allocation identified in Table 5-3 above, meets the total affordable housing goal identified in Table 5-2.

A *Supplemental Affordable Housing Development Agreement* (or substitute form as specified by the City) is required for each parcel with an affordable housing allocation to detail and secure specific requirements and obligations. Among other provisions, the Supplemental Affordable Housing Development Agreement will:

- Specify the number of affordable units to be reserved at each income level;
- Specify the term of the affordability obligation;
- Set initial rent or purchase prices for the designated affordable units;
- Establish criteria and a basis for annual rent or purchase price increases;
- Provide the City with a mechanism to monitor actual rents and purchase prices paid; and
- Identify any City or other subsidies required to assist in meeting the affordability requirement and, if applicable, the basis and terms for refunding such subsidies.

Supplemental Affordable Housing Development Agreements require City approval prior to the issuance of building permits, or recordation of a final map where a subdivision map is required, for any large-lot WRSP parcel with an affordable housing allocation.

ORDINANCE NO.

ADOPTING A TENTH AMENDMENT OF THE DEVELOPMENT AGREEMENT BY AND BETWEEN THE CITY OF ROSEVILLE AND JEN CALIFORNIA 15, LLC, TAYLOR MORRISON OF CALIFORNIA, LLC, AND WEST ROSEVILLE DEVELOPMENT COMPANY, INC. RELATIVE TO THE WEST ROSEVILLE SPECIFIC PLAN AND AUTHORIZING THE CITY MANAGER TO EXECUTE IT ON BEHALF OF THE CITY OF ROSEVILLE

THE CITY OF ROSEVILLE ORDAINS:

SECTION 1. In accordance with Chapter 19.84 of Title 19 of the Roseville Municipal Code (the Zoning Ordinance) of the City of Roseville, the City Council has received the recommendation of the Planning Commission that the City of Roseville enter into a Tenth Amendment of the Development Agreement by and between the City of Roseville and Jen California 15, LLC, Taylor Morrison of California, LLC, and West Roseville Development Company, Inc., pertaining to property located within the West Roseville Specific Plan area.

SECTION 2. The Tenth Amendment to Development Agreement is exempt from environmental review pursuant to Section 15182 of the California Environmental Quality Act (CEQA) Guidelines, as a residential project pursuant to a Specific Plan. A project is eligible for this exemption if the public agency has prepared an EIR on a specific plan after January 1, 1980, and the criteria to require a subsequent or supplemental EIR are not met. The EIR for the West Roseville Specific Plan (SCH #2002082057) was certified by the City Council on February 4, 2004. No significant changes to the site or new, potentially significant impacts have been identified that would require the preparation of a subsequent or supplemental EIR, and the Development Agreement Amendment is consistent with the previously completed analysis.

SECTION 3. The Council of the City of Roseville has reviewed the findings of the Planning Commission recommending approval of the Tenth Amendment to Development Agreement, and makes the following findings:

1. The Tenth Amendment to the Development Agreement is consistent with the objectives, policies, programs and land use designations of the City of Roseville General Plan and the West Roseville Specific Plan;
2. The Tenth Amendment to the Development Agreement is consistent with the City of Roseville Zoning Ordinance;
3. The Tenth Amendment to the Development Agreement is in conformance with the public health, safety and welfare;
4. The Tenth Amendment to the Development Agreement will not adversely affect the orderly development of the property or the preservation of property values; and
5. The provisions of the Tenth Amendment to the Development Agreement will provide sufficient benefit to the City to justify entering into said Amendment.

SECTION 4. The Tenth Amendment to Development Agreement by and between the City of Roseville and Jen California 15, LLC, Taylor Morrison of California, LLC, and West Roseville Development Company, Inc., a copy of which is on file in the City Clerk's Department and incorporated herein by reference, is hereby approved and the City Manager is authorized to execute it on behalf of the City of Roseville.

SECTION 5. The City Clerk is directed to record the executed Development Agreement Amendment within ten (10) days of the execution of the agreement by the City Manager with the County Recorder's Office of the County of Placer.

SECTION 6. This ordinance shall be effective at the expiration of thirty (30) days from the date of its adoption.

SECTION 7. The City Clerk is hereby directed to cause this ordinance to be published in full at least once within fourteen (14) days after it is adopted in a newspaper of general circulation in the City, or shall within fourteen (14) days after its adoption cause this ordinance to be posted in full in at least three (3) public places in the City and enter in the Ordinance Book a certificate stating the time and place of said publication by posting.

WEST ROSEVILLE DEVELOPMENT COMPANY, INC
RELATIVE TO THE WEST ROSEVILLE SPECIFIC PLAN**

This Tenth Amendment of Development Agreement ("Tenth Amendment") is entered into this _____ day of _____, 2023, by and between the CITY OF ROSEVILLE, a municipal corporation ("City") and West Roseville Development Company, Inc., a Delaware corporation ("Developer"), pursuant to Sections 65864 through 65869.5 of the Government Code of California.

RECITALS

A. Developer's predecessor in interest, Roseville Fiddymment Land Venture, LLC ("RFLV") and City entered into a Development Agreement (the "Development Agreement") which was approved by the City Council of City on February 23, 2004, and recorded on June 21, 2004, in the Official Records of Placer County as Document No. 2004-0080708. The Development Agreement governs a portion of the West Roseville Specific Plan Area ("Specific Plan", "WRSP", or "Plan Area"). Except as otherwise defined herein, all capitalized terms used herein shall the meanings ascribed thereto in the Development Agreement.

B. Certain terms of settlement agreements arising out of two lawsuits regarding the WRSP (Catalano v. Roseville and Defenders of Wildlife v. Norton) imposed additional conditions on the WRSP that required implementation through the amendment of Development Agreement.

C. On January 4, 2006, City and RFLV, by Ordinance No. 4324, entered into the First Amendment of the Development Agreement ("First Amendment"). The First Amendment was recorded on March 2, 2006, in the Official Records of Placer County as Instrument No. 2006-0022488.

D. On June 18, 2008, City and RFLV, by Ordinance No. 4668, entered into the Second Amendment of the Development Agreement ("Second Amendment"). The Second Amendment was recorded on July 22, 2008, in the Official Records of Placer County as Instrument No. 2008-0059263.

E. On September 2, 2009, City and RFLV, by Ordinance No. 4767, entered into the Third Amendment of the Development Agreement ("Third Amendment"). The Third Amendment was recorded on September 10, 2009, in the Official Records of Placer County as Instrument No. 2009-0078876.

F. On July 17, 2013, City and ATC Realty One, LLC, by Ordinance No. 5211, entered into the Fourth Amendment of the Development Agreement ("Fourth Amendment"). The Fourth Amendment was recorded on August 20, 2013, in the Official Records of Placer County as Instrument No. 2013-082174.

G. On May 7, 2014, City and ATC Realty One, LLC, by Ordinance No. 5337, entered into the Fifth Amendment of the Development Agreement ("Fifth Amendment"). The Fifth Amendment was recorded on June 18, 2014, in the Official Records of Placer County as Instrument No. 2014-0040699.

H. On August 6, 2014, City and West Roseville Development Company, Inc., by Ordinance No. 5385, entered into the Sixth Amendment of the Development Agreement ("Sixth Amendment"). The Sixth Amendment was recorded on August 14, 2014, in the Official Records of Placer County as Instrument No. 2014-0055752.

I. On September 15, 2017, City and ATC Realty One, LLC and Fiddymment 116 Lots, LLC, by Ordinance No. 5863, entered into the Seventh Amendment of the Development Agreement ("Seventh Amendment"). The Seventh Amendment was recorded on September 22, 2017, in the Official Records of Placer County as Instrument No. 2017-0073441.

J. On April 1, 2020, City and ATC Realty One, LLC, and Roseville Schools, LLC, by Ordinance No. 6208, entered into the Eighth Amendment of the Development Agreement ("Eighth Amendment"). The Eighth Amendment was recorded on June 9, 2020, in the Official Records of Placer County as Instrument No. 2020-0054607.

K. On April 1, 2020, City, Taylor Morrison of California, JEN California 15, LLC, and Developer, by Ordinance No. 6209, entered into the Ninth Amendment of the Development Agreement ("Ninth Amendment"). The Ninth Amendment was recorded on August 27, 2020, in the Official Records of Placer County as Instrument No. 2020-0092428.

L. This Tenth Amendment affects that property owned by Developer within the Plan Area (the "Tenth Amendment Property") as described in Exhibit "A" and depicted in Exhibit "B" attached to this Tenth Amendment.

M. This Tenth Amendment affects the Tenth Amendment Property and shall run with the land described herein.

N. The Tenth Amendment is authorized by Section 1.4 of the Development Agreement.

NOW THEREFORE, THE PARTIES MUTUALLY AGREE AS FOLLOWS:

1. AMENDMENT OF DEVELOPMENT AGREEMENT. The following sections and exhibits of the Development Agreement are hereby amended as follows:

a. REVISED SECTION 2.6.1. Section 2.6.1 is revised in its entirety to read as follows:

"2.6.2.1 Affordable Obligation. Developer agrees that 586 affordable rental units will be reserved within the Property, including 235 units for rental to very low income households and 235 units for rental to low income households, and 116 units for rental to middle-income households, as follows:

Parcel F-6B	66 very low income rental units 66 low income rental units 63 middle-income rental units
Parcel F-8A	0 very low income rental units 0 low income rental units 53 middle-income rental units

Parcel F-20	78 very low income rental units 76 low income rental units
Parcel F-22A	81 very low income rental units
Parcel F-22B	10 very low income rental units 93 low income rental units"

2. EXHIBITS. The following revised exhibits (Revised Exhibits) are attached hereto and incorporated herein by reference and hereby replace and supersede the respective exhibits previously attached to the Development Agreement. Accordingly, all references to the applicable exhibits in the Development Agreement, as amended hereby, shall mean and refer to the corresponding Revised Exhibits below:

Revised Exhibit D	Land Use Plan
Revised Exhibit E	Affordable Housing Sites

3. CONSISTENCY WITH GENERAL PLAN. The City Council has found and determined that this Amendment of the Development Agreement is in the best interest of the public health, safety and general welfare and is consistent with the General Plan and the Creekview Specific Plan.
4. AMENDMENT. This Amendment amends, but does not replace or supersede, the Development Agreement, except as specified herein. In the event of any conflict, the language of this Amendment shall be controlling in all events or circumstances. As amended hereby, the Development Agreement remains in full force and effect.
5. FORM OF AMENDMENT. This Amendment is executed in two duplicate originals, each of which is deemed to be an original.

IN WITNESS WHEREOF, the City of Roseville, a municipal corporation, has authorized of this Amendment in duplicate by its City Manager and attested to by its City Clerk under the authority of Ordinance No. _____, adopted by the Council of the City of Roseville on the ____ day of _____, 2023.
