Civic Center, 311 Vernon Street, First Floor Conference Rooms 1 & 2

roseville.ca.us

The City of Roseville welcomes your participation.

Meeting Schedule: Regular meetings of the Local Sales Tax Citizens' Oversight Committee are held twice a year.

Public Comment: Speakers have three (3) minutes under Public Comment to address the Chair of the meeting on issues that are not listed on the agenda and are within the City's jurisdiction. Please submit a yellow speaker card to the Secretary before the item is heard if you wish to make a comment.

Brown Act: The Local Sales Tax Citizens' Oversight Committee cannot discuss or act on items not listed on the agenda.

Agenda Items: Speakers have five (5) minutes to address items that are listed on the agenda.

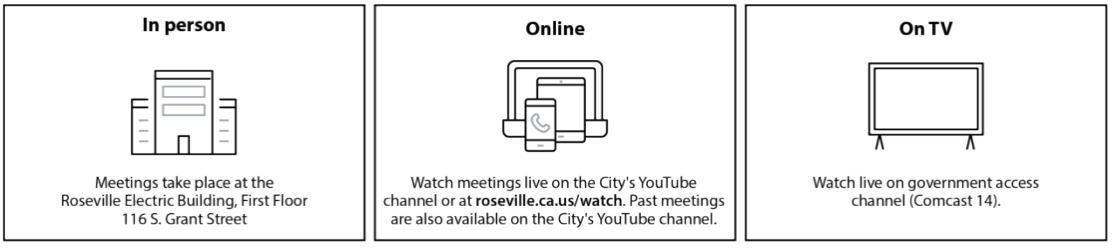

Levine Act Provisions: If you've made a campaign contribution totaling more than $500 ($250 prior to January 1, 2025) to City Council Members in the last twelve (12) months, you must disclose it before addressing an item on the agenda. Please visit Levine Act – City of Roseville for updated forms and information.

Audio/Visual Presentations: If making a presentation regarding an agenda item, audio/visual materials must be submitted to the Secretary for consideration at least 72 hours in advance.

Americans with Disabilities Act: If special assistance is required to participate in a meeting including the need of auxiliary aids or services, please notify the City Clerk at least 72 hours in advance of the meeting.
City Clerk 311 Vernon Street cityclerkroseville@roseville.ca.us 916-774-5263 TDD: 916-774-5220

Security Measures: All Roseville meeting attendees must successfully pass through a security metal detector. Any person with a prohibited item will not be allowed entry. Prohibited items include but are not limited to firearms (even with valid CCW), knives, pepper spray/mace, explosives of any kind/any weapons and/or dangerous devices of any kind, illegal drugs, and alcohol.

Viewing Options: The City of Roseville provides three options for viewing meetings:

Lori Benitez, Committee Member
Bob Bettencourt, Committee Member
Jordan Bunnell, Committee Member
Stephanie Hill, Committee Member
Kathryn Kitchell, Committee Member
Phoebe Schueler, Secretary
Scott Pettingell, Liaison

AGENDA

Local Sales Tax Citizens' Oversight Committee Meeting

February 11, 2026

6:00 PM

Civic Center, 311 Vernon Street, First Floor Conference Rooms 1 & 2

I. CALL TO ORDER

Local Sales Tax Citizens' Oversight Committee

Brown Act and California Public Records Act

Joe Mandell, Senior Deputy City Attorney (916) 774-5325

CITY OF ROSEVILLE CALIFORNIA

Purpose of the Brown Act

- Sunshine Laws: Open Legislative Meetings, Public Records, and Conflicts Of Interest.
- The public has the right to know what actions its elected and certain appointed officials take.
- Legislative body must meet in the open and not secretly.
- The public has the right to attend and participate in public meetings.

Who Does the Brown Act Apply to?

- Legislative body of a local agency
  - Governing body of a city or county.
  - Subsidiary bodies created by formal action (e.g., Commissions, Boards, and Committees).
  - Standing committees with continuing subject matter jurisdiction.

Before Holding a Public Meeting

- (1) Notice

  - Regular Meeting: Notice posted **72 hours** in advance in a publicly accessible place.

  - Special Meeting: Notice posted **24 hours** in advance in a publicly accessible place.

  - Meeting must be held within City (certain exceptions exist).

Before Holding a Public Meeting

(2) Agenda

- Must provide an opportunity for public comment on matters within subject matter jurisdiction of local body (cannot prohibit criticism).
- Must contain a brief general description of each item of business to be transacted or discussed at the meeting.
- No action or discussion can take place on an item not posted on the agenda.

Meetings Subject to the Brown Act

- A **meeting** is defined as, “any congregation of a majority of the members of a legislative body at the same time and location to hear, discuss, deliberate, **or** take action upon any item within the subject matter jurisdiction of the legislative body.” (SB 1732)

Prohibited: *Seriatim Meeting*

- A majority shall not, outside an authorized meeting, use a series of communications of any kind, directly or through intermediaries, to discuss, deliberate, or take action on any item of business of the legislative body (includes e-mail).

- **Examples**
  - "Chain of communications" - member A communicates with member B, member B then communicates with member C.

  - "Hub of a wheel" - member A (the hub) communicates individually with member B and member C (the spokes).
    - Applies to staff, as hub to A, B, and C.

Caution: Social Media and AB 992

- Commissioners can communicate on social media platforms to answer questions from the public, provide information to the public, or to solicit information from the public on commission business.

- Usually a single contact between one public official and another official normally would not constitute a prohibited meeting since that is less than a quorum of the overall body. However, different rules apply for social media.

- CA Assembly Bill 992 – Passed in 2020 to address public officials' use of social media.

Caution: Social Media and AB 992

- AB 992 prohibits members of a legislative body from responding directly to any communication on an Internet-based social media platform regarding a matter that is within the subject matter jurisdiction of the legislative body that is made, posted, or shared by any other member of the legislative body.

- Important - If one public official comments on or reacts to another public officials' social media post, that is a Brown Act violation.

- AB 992 prohibits commenting, retweeting, liking, disliking, responding with positive or negative emojis or digital icons, screenshotting/photographing, reposting, etc.

Permitted Individual Communications

- An employee or official may engage in separate communications outside of a meeting to answer questions or provide information if that person does not communicate to members of the legislative body the comments or position of any other member(s). (SB 1732)

- E-mails concerning commission business are public records even if they are sent on personal devices or from a personal account. Do not use personal accounts to conduct City business.

What is not a Meeting?

- Conferences open to the public that involve a discussion of issues of general interest (free admission not required).
- Open and publicized community meetings organized by person or organization other than the local agency.
- Attending an open and noticed meeting of another body of local agency or legislative body of another local agency.
- Attending a purely social or ceremonial occasion.
- Attending a standing committee as an observer.

Penalties for Violating Brown Act

- **Criminal Penalties**
  - Each member of a legislative body who attends a meeting of a legislative body where an action is taken in violation of any provision of the Brown Act, and where the member intends to deprive the public of information to which the member knows, or has reason to know, the public is entitled to know under the Brown Act, is guilty of a misdemeanor.

- **Civil Action**
  - Injunctions to prevent future violations.
  - By District Attorney or any other person.

- **Invalidation**
  - For acts which are not in substantial compliance with the Brown Act.

California Public Records Act

- Purpose is to provide information that enables the public to monitor the functioning of their government (CA Gov't Code sec. 7931.000 *et seq*.)

- Legislature declared the right to access information is a fundamental and necessary right

- General policy favors disclosure of public information, with narrowly construed exceptions

California Public Records Act

- Emails concerning Committee business are public records
  - Even if sent on personal device or from personal accounts
- Do not use personal accounts or devices to conduct City business
- Open email account for only City-related business
- Emails are subject to disclosure
  - Personal devices *may* be subject to disclosure

Final Note of Caution

- A majority of the members may not discuss LSTCOC business items amongst themselves.
  - No seriatim meetings.
  - Be careful with social media posts, comments, emojis, etc.
  - Avoid email forwards and replies.
  - Seek advice from the City Attorney's Office.

Any Questions?

Please feel free to contact the City Attorney's Office at (916) 774-5325

Measure B Scorecard

Fiscal Year 2024-25

Measure B is a half-cent local sales and use general purpose tax passed by voters on November 6, 2018, to protect Roseville's essential services.

The primary function of Measure B is to maintain essential services. Prior to its passage, the City of Roseville faced significant service reductions, under-funding of long-term obligations, and growing expenses. Revenue generated by Measure B allows the City to provide continuity of services by restoring and maintaining priority service levels and building and maintaining the General Fund Stabilization Reserve as a safeguard for the future.

Roseville's Measure B scorecard uses a green, yellow, red scoring method to present how Measure B funds have impacted services.

- **Green** indicates restored or enhanced level of resources.
- **Yellow** indicates maintained level of resources.
- **Red** indicates diminished level of resources.

Below is a dashboard snapshot of ratings for Fiscal Year 2024-25 (FY2024-25) or the fiscal year that started on July 1, 2024, and ended on June 30, 2025; additional details follow.

Category	Rating
Fiscal Investment Snapshot	
Police	
Fire	
Parks, Recreation and Libraries	
Public Works	
Development Services	
All other General Fund departments and transfers	
Investment in Reserves	

In summary, during FY2024-25 Measure B revenues continued to allow the City to maintain current service levels, restore services, and strategically invest in high-priority areas while still achieving a balanced budget.

Measure B Priorities

Measure B was passed by voters with the commitment to maintain service levels, invest in high-priority service areas, and build and maintain the City's General Fund Stabilization Reserve. Measure B sales tax revenue has helped stabilize General Fund services, protect Roseville's quality of life, and increase reserves to weather future economic downturns.

Measure B-related investments continued into Fiscal Year 2024-25

Maintained essential services

- Increases to cover the rising general cost of doing business
- Specialized police and fire services
- Fire engine company
- Recreation and library programs
- Street maintenance levels
- Job-creation and business-recruitment initiatives
- One additional dispatcher
- Unsheltered camp cleanup
- Library, parks, and events stabilization
- Maintenance at citywide parks
  - Crabb Park
  - Central Park
  - Pistachio Park
- Street paving

Restored services that had been reduced prior to Measure B

- Library hours
- 4th of July fireworks
- Fire training and investigations
- Goat grazing for thatch management in open space
- Park maintenance standards
- Industry training and development

Examples of Services Added

- Fully staff the new police beat in West Roseville
- Increase Animal Control staffing to enhance community safety
- Increase police traffic officer staffing for improved traffic control
- Allocate resources for staff and equipment to implement a body-worn camera (BWC) program
- Establish a Real-Time Crime Center (RTCC) to enhance crime monitoring and response
- Provide maintenance support for the growing park system
- Increase staffing for tree trimming to enhance customer response and safety
- Expand programs and operating hours at Maidu Museum & Historic Site
- Extend library hours at Riley Library for increased community access
- Expand graffiti abatement program
- Increase investment in facility rehabilitation, equipment replacement, and street maintenance
- Support increased initiatives addressing homelessness in the community

Fiscal Health Investments

- Fully fund General Fun Stabilization Reserve Fund at 15% of General Fund operations budget

- Pay down CalPERS pension obligation
- Pay down retiree health liability
- Continue to build Pension Reserve Trust Fund

General Fund Department Data

The primary objective of Measure B is to ensure the continuity of services for residents. This is demonstrated by the level of investment in General Fund operating departments. The City seeks to keep pace with growth while maintaining a high level of service and meeting the needs of the community. This scorecard uses a green, yellow, red scoring method to present how Measure B funds have impacted services.

- **Green** indicates restored or enhanced level of resources.
- **Yellow** indicates maintained level of resources.
- **Red** indicates diminished level of resources.

**Staffing information shown above includes departments primarily funded by the General Fund. Some positions within these departments are supported by other funding sources.*

*** All other General Fund departments include the City Council, City Manager, Public Affairs & Communications, City Attorney, Human Resources, City Clerk, Finance, and Economic Development. The Utility Billing Services (UBS) division, funded by Electric and Environmental Utilities, was*

overseen by the Finance Department from FY2018-19 to FY 2020-21. Effective FY2021-22, the UBS division was moved to the Electric Department. Staffing figures for FY2018-19 - FY2021-22 were adjusted to exclude the UBS division to reflect General Fund staffing accurately.

Notable Changes

Police

The Police Department's FY2024-25 General Fund budget totals $63.5 million and provides funding to support 228 position allocations. The PD budget increased by 7.5 percent over the prior fiscal year primarily due to increased labor costs and expenses for materials, supplies, and services as detailed below. This budget included the following highlights:

- **Police Officer (Social Services Unit)**
  The Social Services Unit (SSU) continues to be the primary resource for the PD in addressing homeless issues in the City. The budget includes the addition of a third Problem Oriented Policing Officer to SSU, with the specific task of outreach and assistance for homeless veterans. SSU has been working on this detail one day a week via overtime, yielding significant results. The addition of this position creates an opportunity to end veteran homelessness in Roseville. This position will also balance the Police Officer to Practitioner staffing in SSU, allowing the Department to pair Officers with Practitioners for safety in the field.

- **Police Officer (Threat Assessment Unit)**
  The PD's Threat Assessment Unit (TAU) is responsible for managing threats, posed by individuals via a case management effort. TAU assists the Investigations Unit with specific threat-related cases, which reduces the overall Detective caseload. TAU also works extensively with the Department's School Resource Officers on threat cases on school campuses. The program was initiated with one Detective three years ago, but the workload has significantly increased, necessitating the addition of the Unit's second Detective.

- **Senior Police Records Clerk**
  A Senior Police Records Clerk position is being added to the department's Police Records Unit. The Police Records Unit has seen a 162 percent increase in police-specific public records requests over the last five years. The Police Records supervisors have historically handled and processed the Public Records Act (PRA) requests due to the technical expertise to retrieve the data, apply and interpret laws governing the police records because of confidentiality requirements and potential liability if records are released inappropriately. Digital records are more frequently being requested, which requires additional technical skills and knowledge to access and retrieve records for Closed Circuit Television (CCTV) City Security Camera, Body Worn Camera, and soon In-car Camera footage. The increased workload has resulted in the need for a dedicated staff with the technical skills and unique knowledge and skillset to take on the PRA requests as a primary task.

- **Property Management System - Equipment Upgrade**
  The PD's current property management system's hand-held scanners and label printers are approaching end of life. The equipment upgrade will provide new hand-held scanners and printer devices, and each property technician will be assigned a scanner.

- **Stop Sticks for Pursuit Interventions**
  Patrol officers and supervisors use stop sticks as a pursuit intervention tactic to slow or stop a pursuit. Currently, the PD does not have stop sticks in every patrol vehicle, and this addition would allow the department to outfit all patrol vehicles with the device. The device ultimately deflates the suspect vehicle's tire(s) to stop the pursuit or slow the vehicle down, allowing pursuits to end safer, prevent property damage, reduce liability, and potentially save lives.

- **Outreach Case Management Tool Software**
  The PD's Social Services Unit (SSU) requires a case management tool designed for first responder social workers to provide the capability to create and manage clinical notes that document the facilitation and delivery of mental health services. The software serves several crucial purposes: ensuring continuity of care, safeguarding client privacy, and aiding social workers in managing client records, evaluations, treatment plans, prognoses, collateral contact, and contact dates. This case management tool will increase efficiency as the PD expands the SSU and its capabilities.

- **In-Ear Communication Device and Microphone**
  The in-ear communication device and microphone equipment will equip members of the Roseville/Rocklin SWAT Team, Rapid Containment Team (RCT), and members of the Department's Tactical Dispatch Unit. These teams are called on to respond to critical incidents within the City of Roseville and the greater Sacramento region. During these critical incidents, communication is a key factor that directly contributes to the success or failure of an operation. The communication device and microphone package includes a Kevlar reinforced earpiece, a braided fiber waterproof wired push-to-talk microphone, and a waterproof wireless push-to-talk microphone. The equipment upgrade will provide durable, weather-resistant communication devices to ensure clear and reliable communication during operations.

- **Unmanned Aircraft System (UAS) Batteries**
  The PD's UAS program relies on lithium battery technology for power. Batteries are an added expense and do not come with the purchase of each drone. A single UAS battery typically lasts for a flight time of 20-30 minutes depending on conditions. A typical call-out or response for a UAS may last hours. Having multiple batteries per platform will allow the UAS Team greater flight time with drones during operations.

- **Crime Scene Investigation (CSI) Camera Lenses and Batteries**
  New macro camera lenses are needed for the department's CSI cameras, as the current macro lenses are outdated. Additionally, the CSI cameras' batteries are draining quicker than expected and require additional battery packs that hold two batteries at once to ensure a fresh battery is always available.

- **40mm Multi-Shot Less Lethal Tactical Launcher**
  The 40mm Multi-Shot Less Lethal Tactical Launcher is designed to fire all 40mm less lethal round and gas munitions. The launcher can be used in riot control, crowd control, and breaching operations. The Roseville/Rocklin SWAT Team will utilize the launcher to deploy tear gas munitions during critical incidents and emergency situations. The multi-shot capability of the tactical launcher has a distinct advantage over the single-shot variants currently deployed by the PD. The Multi-shot launcher can be loaded mission-specific with a variety of 40mm less lethal munitions, allowing the operator to select the desired round given each unique situation, without having to waste seconds with reloading or switching munition types.

- **Training**
  The PD's training budget includes an increase of $31,000. Department personnel will attend the annual California Association of Tactical Officers Conference, Women Leaders in Law Enforcement Training Symposium, and Real-Time Crime Center technology training.

Fire

The Fire Department's FY2024-25 General Fund budget totals $49.8 million (up 10 percent over the prior fiscal year) and supports 130 position allocations. This increase is primarily due to labor cost increases and increased Internal Service

Fund (ISF) charges related to fleet replacement, information technology, and general liability insurance. The budget also includes funding for the Department to conduct a 10-person fire academy to maintain minimum staffing requirements.

- **Very High Frequency (VHF) Handheld Radios**
  The FY2024-25 Capital Improvement Program budget allocates funds for the replacement of VHF handheld radios that are obsolete and unavailable to purchase. This is essential to ensure compliance with regulations requiring the maintenance of programmable VHF radios for participation in the statewide mutual aid system.

- **Fire/Emergency Medical Services (EMS) Reporting Software**
  Included in the budget is funding for the acquisition of new fire and EMS reporting software. This software satisfies all state and federal reporting standards and streamlines current systems to reduce redundancy.

Parks, Recreation, and Libraries

PRL's FY2024-25 General Fund budget totals $38.6 million (up 10 percent over the prior fiscal year) and supports 153.5 position allocations (up 7.25 positions). The PRL Department budget increase is primarily due to increased labor and costs for materials, services, and supplies associated with maintaining current service levels and additional funding to support the new positions and programs highlighted below.

PRL has attained accreditation through the National Recreation and Park Association's (NRPA) Commission for Accreditation of Park and Recreation Agencies (CAPRA). This accreditation provides quality assurance and quality improvement for accredited park and recreation agencies throughout the United States by establishing a best-practice management system. CAPRA is the only national accreditation of park and recreation agencies and is a valuable measure of an agency's overall quality of operation, management, and service to the community. Achieving CAPRA accreditation is the best way to demonstrate that the department provides the community with the highest level of service.

The PRL Department completed a comprehensive strategic plan in 2022, accompanied by an action plan, to establish clear and attainable goals, objectives, and implementation strategies to guide the department for the next ten years. The department is making great progress on this plan, having completed 25 percent of recommendations in its first year. In alignment with the plan, funding has been included in the FY2024-25 budget to maintain existing parks and facilities, and offer new parks and recreational opportunities to residents.

PRL is continually challenged with recruiting and retaining quality staff to conduct its many programs/events and to ensure its parks/facilities are adequately maintained. Ongoing efforts have been made to re-align department staffing resources to find the right balance of full-time and part-time employees and contractor resources to deliver programs and services effectively and efficiently. As evidenced by the new park maintenance positions funded by the reallocation of contract dollars, these efforts will continue in FY2024-25.

A Sports Supervisor was added to the Recreation Division in the PRL Department. With the construction of the Soccer Complex, this position will be critical to overseeing operations, recruiting tournaments and anchor tenants, and managing scheduling at this facility. The position is expected to be fully funded by complex revenues in year three.

Five Park Maintenance Worker positions were added to the budget, with funding from the reallocation of contract dollars. Greater ownership, flexibility, efficiencies, and long-term savings will result from staff assuming the overall maintenance of 22 school parks as well as the landscaping at Maidu and Mahany. This work was previously completed by contract workers.

PRL operates five pools and four splash pads. Some of the pools are open year-round and require coverage from 6 a.m.-10 p.m., seven days per week. To ensure their safe operation, an Aquatics Maintenance Technician will be converted from limited term to regular status. This expertise is needed on an ongoing basis.

PRL conducts extensive public outreach. Marketing of recreation programs is paramount to their success. A Graphic Designer position is being changed from 0.75 to 1.0 FTE in the FY2024-25 budget to meet increased demands. This position enhances our communication with residents and supports the City Council's priority related to community engagement and advocacy.

To continue investment in existing parks and streetscapes, funding is included in the FY2024-25 budget to implement cycles to replenish landscape bark and replace irrigation controllers. Additional funding has been allocated for the maintenance of new parks and landscapes and the improvement of aging streetscapes and greenways. This includes the new $4 million Rocky Ridge/Cirby Streetscape and Sunrise Greenway Improvements project, funded by FY2022-23 General Fund year-end surplus.

Public Works

The Public Works Department's FY2024-25 General Fund budget totals $11.5 million (up 10 percent over the prior fiscal year) The Public Works budget includes the resources necessary to support the following:

- **Staffing for Engineering**
  The budget includes funding to reclassify the Engineering Division Manager position to Assistant Director. This change strengthens the department's organizational structure by providing oversight of the Engineering and Streets Divisions, which currently report directly to the Public Works Director.

  With this reclassification, the budget also includes a new Principal Engineer position to provide managerial oversight of engineering disciplines, including Floodplain Management, City Projects, Maintenance Projects, and Traffic Engineering.

Development Services

The Development Services FY2024-25 General Fund budget totals $13.3 million and supports 77 full-time position allocations. This year's budget represents an 11 percent increase over the prior fiscal year, including a $1.3 million increase in General Fund operating expenses, mainly attributed to increased labor and benefits costs, and internal service fund charges including general liability insurance and worker's compensation costs. Additionally, the FY2024-25 budget includes funding to add two positions, a Plans Examiner and a Senior Plans Examiner, partially offset by deleting one vacant Associate Planner position. These position changes result in an operating expense budget increase of approximately $172,000. The department will offset a significant portion of this through increased permit fee revenue and developer reimbursements.

All Other General Fund Departments

This category includes the City Council, City Manager, Public Affairs & Communications, City Attorney, Human Resources, City Clerk, Finance, and Economic Development Departments. Department budgets were adjusted for increased labor costs and costs for materials, supplies, and services.

- The City Council's FY2024-25 budget totals approximately $253,000. This budget increased by more than $89,000 from the prior year due to increased membership costs for the Local Agency Formation Commission (LAFCO), Sacramento Area Council of Governments (SACOG), and National League of Cities (NLC). This is partially offset by increased internal citywide cost plan reimbursements.

- The City Manager's FY2024-25 budget totals approximately $1.6 million (up 4 percent over the prior year) and provides funding to support seven position allocations. The increase in materials, supplies and services is

primarily due to higher citywide General Liability costs. The City Manager's budget also includes increased citywide indirect cost allocation plan reimbursements, offset by slight increases in salaries, wages, and benefits.

- The Public Affairs & Communications (PAC) Department's FY2024-25 budget totals approximately $2.0 million and provides funding to support nine position allocations. PAC's budget increased by 31 percent over the prior year. The budget increases for materials, supplies, and services are due to increased internal service fund costs, including general liability insurance and information technology. Salaries, wages, and benefits expenses increased due to adjusting the budget to align with current staffing organization within PAC. The realignment also contributed to increased internal reimbursements associated with the citywide indirect cost allocation plan, which reimburses the General Fund for support PAC provides to other City departments and funds.

- The City Attorney's FY2024-25 budget totals approximately $2.7 million and provides funding to support ten position allocations. The budget saw 14 percent growth, primarily driven by increases in salaries, wages, and benefits, as well as in materials, supplies, and services. A primary contributor to the increase in materials, supplies, and services costs is rising General Liability Insurance costs. These costs are partially offset by increased citywide indirect cost plan internal reimbursements.

- The Human Resource Department's FY2024-25 budget totals approximately $21.1 million (up 30 percent over the prior fiscal year) and funds 19 position allocations. This budget increase is primarily due to rising insurance premiums in the General Liability Fund and claims in the Workers Compensation Fund. In addition, the Human Resources Budget includes funding to continue work on projects budgeted for in the current year, including the document digitization project and hiring consultants to assist in creating a fiduciary committee for deferred compensation retirement plan oversight and succession planning.

- The City Clerk Department's FY2024-25 budget totals $1.7 million, an increase of 18 percent from the prior year due to scheduled elections. This budget supports 12 allocated positions. Funding for technology projects, including the replacement of the citywide compliance software, the implementation of the agenda management software, and a public records request management software/portal is included in the Capital Improvement Program.

- The Finance Department's FY2024-25 budget totals approximately $5.9 million and provides funding to support 53 position allocations. The department budget increased by approximately 14 percent over the prior fiscal year, from $5.2 million to $5.9 million. This change is primarily due to increased salaries, wages, and benefits costs. Another contributing factor was increased service costs associated with professional services, technology, banking fees, and armored car costs, which are offset by increased interest income revenues. The budget also includes one-time equipment replacement funding to replace the mailing machine at the warehouse.

- The Economic Development Department's FY2024-25 budget totals $4.6 million (up 21 percent from the prior fiscal year) due to decreases in Housing Division fund expenses. The Housing Successor Low Mod Fund budget decreased by nearly $900,000 because it does not have a major affordable housing project this year and the Community Development Block Grant (CDBG) Fund budget decreased by more than $400,000 but will be re-aligned later in the fiscal year. Economic Development has 18 position allocations, an increase of one allocation from the prior year due to the addition of an Economic Development Manager position. However, when that position is filled, the department will eliminate a vacant position, and its total allocation will be back to 17 positions.

Other Expenditures/Transfers

The other expenditures category represents expenditures that do not align directly with any department and benefit the entire organization. This category also includes transfers between funds.

Below is a summary of the significant items included in this category in the FY2024-25 budget:

- Pay down of CalPERS obligations by an Additional Discretionary Payment ($1.8 million)
- Unemployment, vision and dental insurance ($2.5 million)
- Leave payoffs for General Fund employees that retire during FY2024-25 ($750,000)
- Retiree medical benefits ($10 million)
- Annexation tax-sharing agreement payments to Placer County ($12.9 million)
- Contingency budgets for the General Fund ($2 million of which $540,000 was estimated for negotiated labor increases during the year)
- Fees charged by the State and County for the collection and disbursement of sales and property taxes ($1.7 million)

General Fund transfers between funds:

- $1.8 million to General Fund Emergency Reserve Fund
- $2.7 million to General Fund Stabilization Reserve Fund
- $2.9 million to Pension Reserve Trust Fund (FY2022-23 General Fund year-end surplus)

FY2024-25 Year End Results

General Fund revenues for FY2024-25 exceeded budget estimates by 2 percent. While Bradley Burns sales tax grew, Measure B sales tax revenues remained in-line with FY2023-24 revenues, resulting in a sales tax surplus of approximately $1.4 million. The rise in property values and new construction led to property tax collections exceeding budget estimates through the end of the fiscal year by 2 percent. Development activity in the City continued with an upward trend during FY2024-25, resulting in higher-than-expected building permit, plan check, and engineering and inspection fee revenues. While the City experienced a slight decrease in single-family residential construction, this decrease was offset by a substantial increase in multi-family residential construction. In total, year-end results show an overall revenue surplus of $5.5 million.

Expenditure savings, including labor and materials, supplies, and services, totaled $6.2 million in the General Fund. The combined surplus for FY2024-25 amounted to $11.6 million, as presented below:

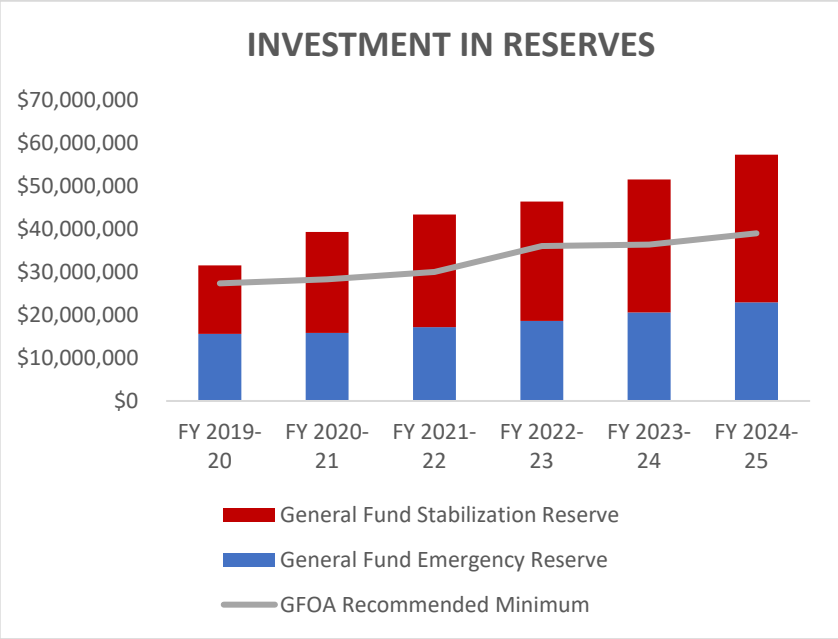

General Fund FY2024-25 Year-End Results (Operating and Non-Operating)	Variance from Budget ($)
Sales and Use Tax - Bradley Burns	$ 747,000
Sales and Use Tax - Measure B	680,000
Property Tax	1,574,000
Other Revenues	2,447,000
Revenue surplus	**5,448,000**
Expenditure savings	**6,193,000**
Total General Fund Year-End Surplus	**$ 11,641,000**

On February 4, 2026, the City Council appropriated $671,274 of the year-end surplus to the Youth Development Fund related to ongoing program expenses and capital improvements previously approved by the City Council. Staff are developing recommendations for the use of the surplus on one-time, not ongoing, initiatives, and will present them to Council at a later date.

Investment in Reserves

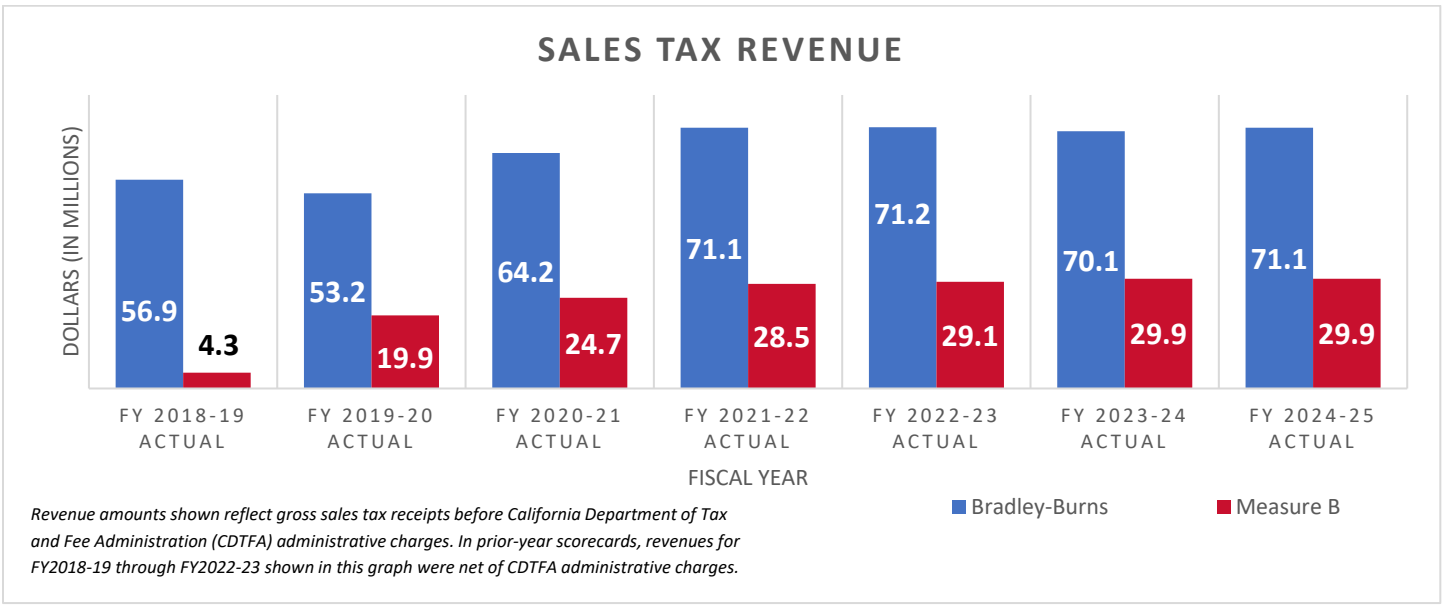

Through June 30, 2025, the General Fund Stabilization Reserve, funded by Measure B, has grown to $34.3 million. These funds strengthen the City's financial position and will help maintain essential services during a future economic downturn.

The Government Finance Officers Association (GFOA) recommends a minimum reserve equal to 17 percent of the General Fund operating budget. As of June 30, 2025, the City's total reserves (Economic Stabilization + Emergency) are approximately $57.2 million, meeting the Council-adopted policy target of 25 percent of operating expenditures.

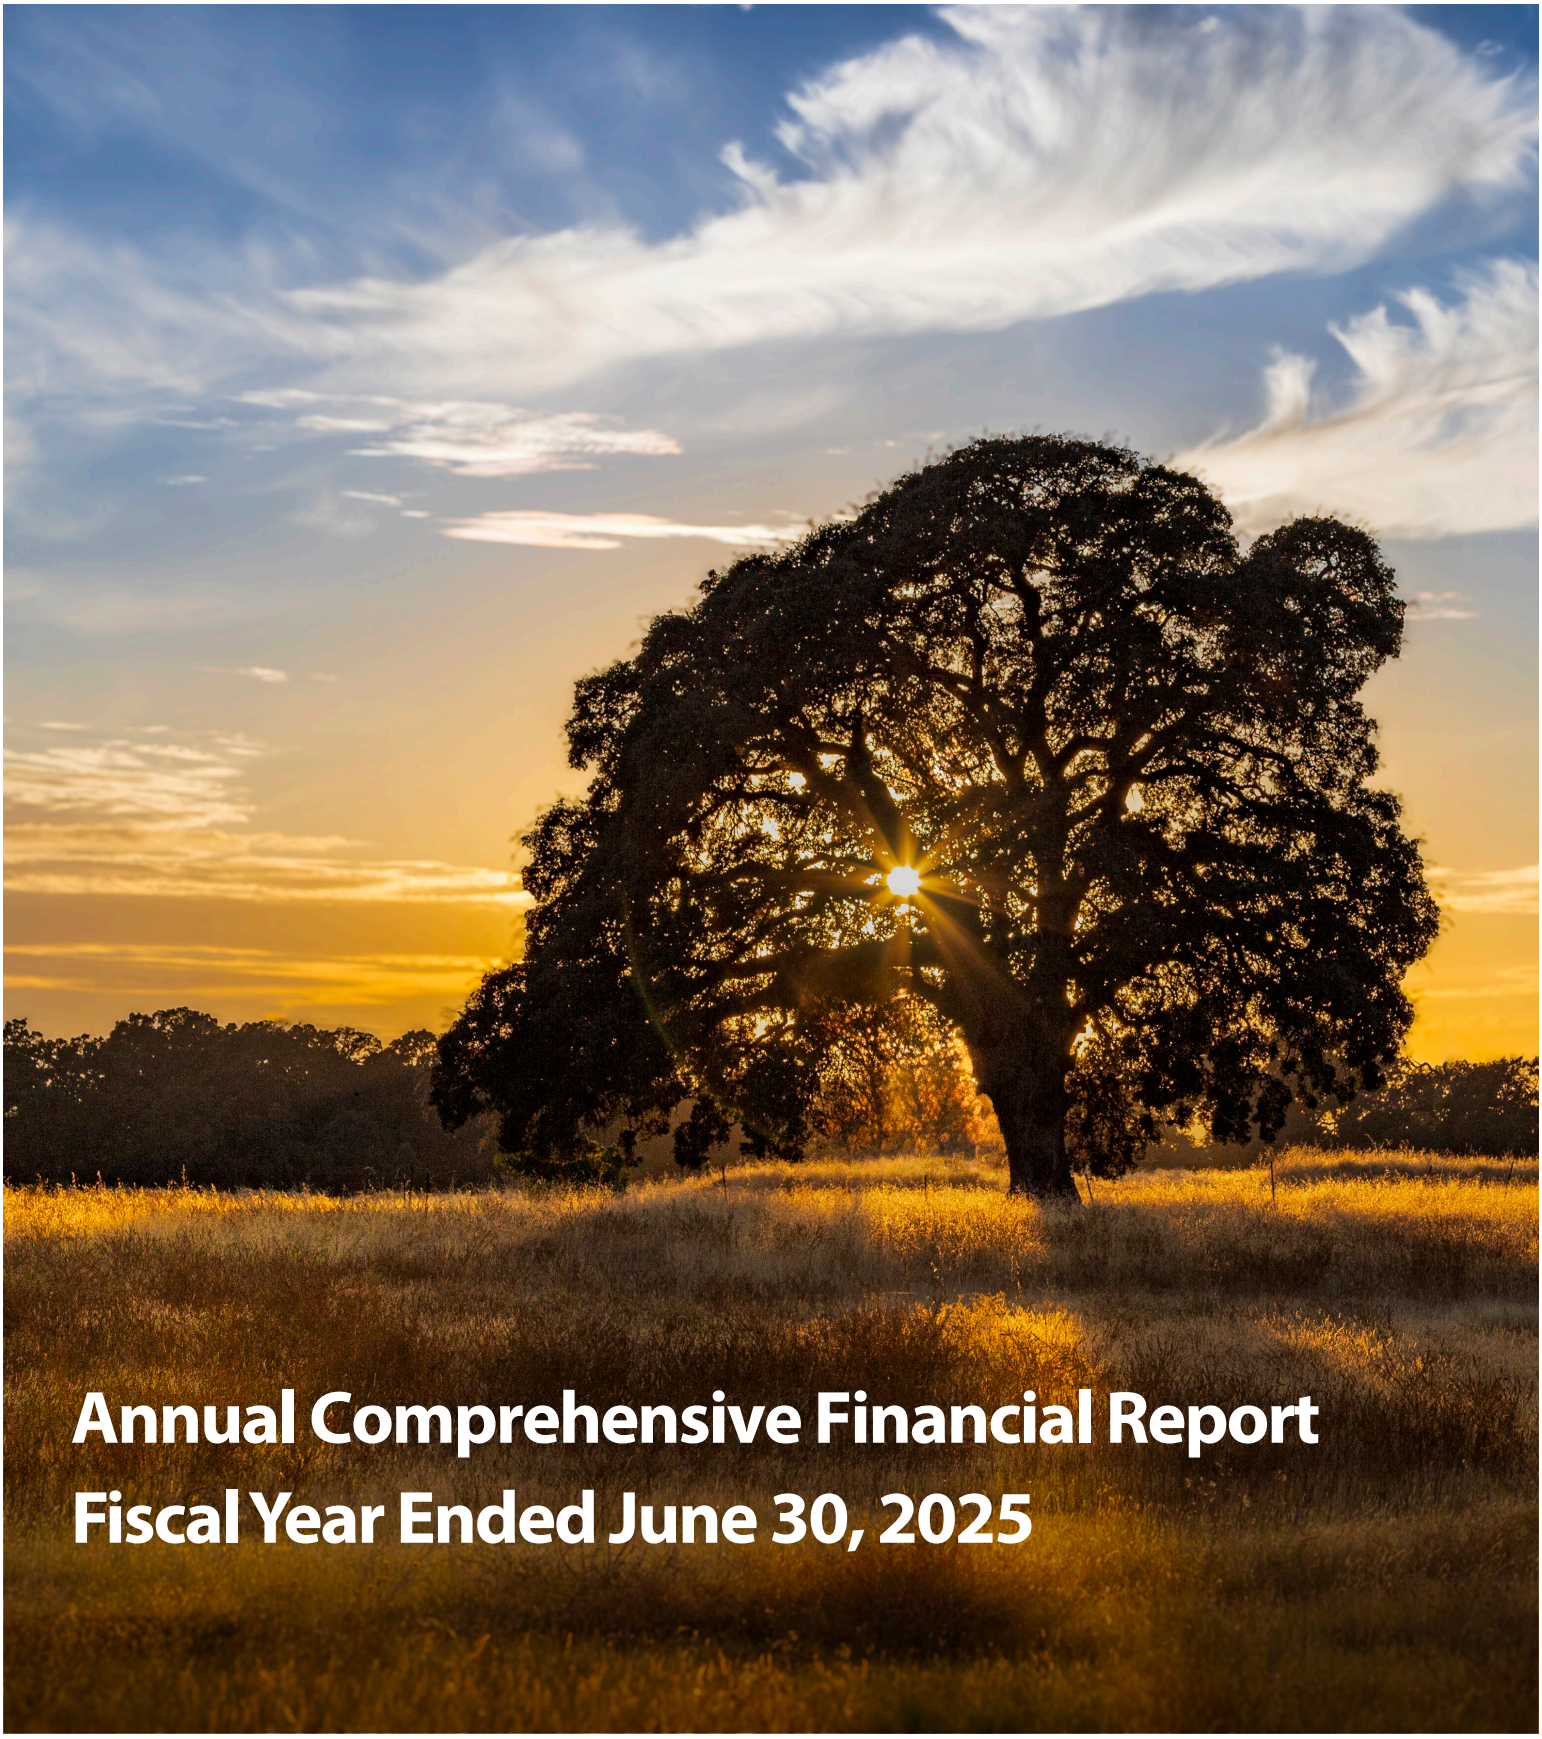

Sales Tax Revenue

Measure B Sales and Use Tax (Red) revenues closed the year at $29.9 million, exceeding the budget by 2 percent ($0.68 million) and remained consistent with the prior year. These results were largely anticipated, as revenue data throughout the year indicated a slight recovery in sales tax growth. As mentioned previously, the slowing revenue growth is attributed to the ongoing impact of high interest rates and a shift in consumer spending towards service-related purchases, which are not taxable.

Revenue amounts shown reflect gross sales tax receipts before California Department of Tax and Fee Administration (CDTFA) administrative charges. In prior-year scorecards, revenues for FY2018-19 through FY2022-23 shown in this graph were net of CDTFA administrative charges.

December 16, 2025

Honorable Mayor, Members of the City Council, and Residents of the City of Roseville:

The Finance Department is pleased to present the Annual Comprehensive Financial Report (ACFR) of the City of Roseville (City) for the fiscal year that ended June 30, 2025.

Article VII of the City Charter and federal and state law requires that the City issue an annual report on its financial position and activities, and that the report be audited by an independent firm of certified public accountants. The format and content of this ACFR comply with the principles and standards of accounting and financial reporting adopted by the Governmental Accounting Standards Board (GASB) and contain all information needed for readers to gain a reasonable understanding of the City's financial activities.

Management assumes full responsibility for the completeness and reliability of the information in this report, based upon a comprehensive internal control framework established for this purpose. The objective of internal controls is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

The City's financial statements have been audited by LSL, Certified Public Accountants, an independent firm of licensed certified public accountants. The purpose of the audit is to obtain reasonable assurance that the financial statements are free of material misstatements and are fairly presented in conformity with generally accepted accounting principles (GAAP). LSL has issued an unmodified opinion on the City's financial statements for the fiscal year ended June 30, 2025. The independent auditors' report is presented as the first component of the financial section of this report.

Management's discussion and analysis (MD&A), which immediately follows the independent auditors' report, provides a narrative introduction, overview, and analysis of the basic financial statements. The MD&A is designed to complement this letter of transmittal and should be read in conjunction with it.

THE REPORTING ENTITY AND ITS SERVICES

Roseville is a charter city located in the State of California. The City was incorporated on April 10, 1909, and operates under a Council–Manager form of government. The City Council, which serves as the City's political and legislative body, is empowered by the City Charter to establish citywide policy, adopt the annual fiscal year budget, oversee City services, and appoint the City Manager and City Attorney.

The City Council consists of five members elected by district to staggered four-year terms. The Mayor and Vice Mayor are determined by rotation in sequential order among the five districts.

Residents may assist the City Council in formulating government policy by serving on a City commission, committee, or board. The following commissions, committees, and boards act in an advisory capacity to the City Council:

- Board of Appeals
- Design Committee
- Economic Development Advisory Committee
- Grants Advisory Commission
- Law & Regulation Committee
- Library Board
- Local Sales Tax Citizens' Oversight Committee
- Other Post Employment Benefits Trust Review Committee
- Parks & Recreation Commission
- Personnel Board
- Placer Mosquito & Vector Control District
- Planning Commission
- Public Utilities Commission
- Senior Commission
- Transportation Commission

Roseville is a full-service city that provides a comprehensive range of municipal utilities and services. These services include police; fire; parks, recreation and libraries; economic development and housing; planning; building and public facility inspection; engineering; streets; electric, water, wastewater and waste services utilities; and general administrative services.

The ACFR presents the financial status of the City and its five component units:

- Roseville Finance Authority (Finance Authority)
- Roseville Natural Gas Financing Authority (RNGFA)
- City of Roseville Housing Authority (Housing Authority)
- Successor Agency to the City of Roseville Redevelopment Agency (Successor Agency)
- City of Roseville Other Post-Employment Benefits Trust (OPEB Trust)

Component units are separate legal entities included in this report due to significant operational or financial relationships with the City. The Finance Authority, RNGFA, Housing Authority, and OPEB Trust are separate legal entities from the City but have the same governing board. The Successor Agency has a governing board determined by State law that does not report to the City Council. RNGFA and the OPEB Trust issue separate component unit financial statements. Separate financial statements are not issued for the Finance Authority, the Housing Authority, or the Successor Agency.

LOCAL ECONOMY

Population and Employment

Roseville, the largest city in Placer County, had a population of 158,494 as of January 1, 2025, an increase of 1,190 residents from the prior year according to the California Department of Finance. The City has more than 8,000 businesses that support approximately 90,200 jobs and a resident labor force of over 74,000. The unemployment rate is 4.5 percent, and the median household income is $115,775. Health care and social assistance remain the City's largest industry sector at roughly 22 percent, followed by retail at 13 percent, along with food service, government, and construction. Roseville continues to receive recognition for its quality of life, cost of living, strong schools, and overall desirability as a place to live and work.

Residential Development

Residential development activity moderated in fiscal year 2025. Single-family building permits totaled 1,133 units, a decrease from 1,259 the prior year but still consistent with long-term averages. Finalized single-family units are also projected to decline as subdivision activity slows and existing lots are built out. Much of the construction continues to occur in the Sierra Vista, Fiddyment Ranch, Creekview, and Amoruso Ranch plan areas. For fiscal year 2025-26, single-family permit issuance is projected to decrease to 618 units. Multi-family construction remains strong, with more than 1,500 units underway and additional projects moving through the approval process. As of January 1, 2025, the City had 63,571 completed housing units and more than 2,700 approved units awaiting construction.

Commercial and Industrial Development

Industrial development continues to show steady growth, with approximately 11.7 million square feet of developed space and historically low vacancy rates. Tenant improvements and commercial construction remain active, supported in part by hospital system expansions and Robert Bosch Corporation's long-term investment in the former TSI Semiconductor facility. Bosch plans to invest more than $1.9 billion in upgrades and equipment over the next seven to ten years. Commercial activity is expected to soften somewhat in the office market, where vacancy rates have risen to about 15.4 percent as hybrid and remote work patterns continue. Retail, restaurant, and personal service activities remain stable as the City's newer plan areas continue to develop.

BUDGET INITIATIVES

The 2026 budget includes funding to operate the new 10-field Placer Valley Soccer Complex, designed to strengthen the region's position in sports tourism. The complex will host a blend of local, regional, and national tournaments, driving visitors to the community while addressing the needs of local sports clubs and organizations for dedicated sports facilities. Groundbreaking for the Placer Valley Soccer Complex took place in June 2023, and the facility opened in November 2025.

The $63 million complex will feature 10 lighted artificial turf fields, two plaza areas with restrooms, picnic spaces, concessions, and a universally accessible playground. The fields will be available by reservation only and will support local team practices, games, and regional and national tournaments. The playground, however, will remain open to the public. The complex is expected to attract significant sports tourism, complementing Roseville's existing amenities, which include aquatics, softball, volleyball, and basketball facilities. Youth sports, a consistently resilient industry, have continued to thrive during economic fluctuations as families prioritize opportunities for their children. To further support the development, the City has funded traffic signal improvements near the complex to manage traffic flow and reduce congestion.

The FY2025-26 budget includes a substantial capital investment of $98.7 million across multiple program areas, reflecting the City's continued commitment to supporting community growth and maintaining essential infrastructure. Major investments include $41.1 million for electric infrastructure, $19.8 million for water, $13.1 million for wastewater, $9.1 million for parks, recreation and libraries, $7.6 million for public works, $5.9 million for general government, $1.2 million for citywide technology, and $900,000 for public safety. This represents a 10 percent increase from the FY2024-25 adopted budget and supports both new development and the rehabilitation of aging facilities. Notable projects include the purchase of two new combustion power units for Power Plant 2, relay replacements and facility improvements across the electric system, and installation of a new transformer at the Sierra Vista Substation. Funding is also provided for enterprise asset management software upgrades, rehabilitation work at several fire stations and the Corporation Yard, and the Westbrook Boulevard signal installation project. Additional planned investments include construction of bike and pedestrian trails, replacement of police radios, rehabilitation of the water treatment plant, construction of aquifer storage and recovery wells, and improvements to the wastewater collections building and wastewater treatment plant. The budget also supports development of new neighborhood parks, upgrades to golf course facilities, enhancements to the Vernon Street Town Square spray ground, a refresh of the Maidu Museum historic site exhibit, replacement of play structures and basketball courts, and rehabilitation of the Roseville Aquatics Complex.

The FY2025-26 budget includes targeted staffing adjustments to meet increasing service demands driven by community growth, evolving regulatory requirements, and City Council priorities. Balancing service levels with long-term fiscal sustainability, the adopted budget includes a net increase of approximately 20 positions. This reflects 24 new positions, four deletions, and several reclassifications to better align roles with current responsibilities. Additional positions and reclassifications funded in the budget will be brought to City Council once the related classifications are finalized.

Staffing investments span multiple service areas in the General Fund and in the utility departments. The Fire Department will add a Fire Plans Examiner to address rising plan review and fire-life safety demands. Parks, Recreation and Libraries will add 5.75 positions to support the Placer Valley Soccer Complex, maintain expanded park assets, and prepare for the new Adventure Club program at Winding Creek Elementary School. Additional supervisory and maintenance positions support the transition to a four-region parks management model. The Police Department will add three sworn positions to support an eighth patrol beat in West Roseville, along with reclassifications to enhance records management and real-time crime center operations. Public Works will add staff to support drainage, facility maintenance, fleet operations, and the Intelligent Transportation System as the City's infrastructure network expands. The Information Technology Department will add two full-time positions and convert a limited-term Office Assistant to a regular role to support customer service systems and network infrastructure.

Environmental Utilities will add six positions across the Water, Wastewater, and Waste Services utilities, all funded by rate revenues. These roles strengthen operations, regulatory compliance, customer support, and operational technology. The Electric Utility will implement staffing changes to support power plant maintenance, energy market planning, metering technology, and facilities project management. These adjustments include new technical positions, succession-planning reclassifications, and realignment of existing roles to better meet operational needs.

Collectively, these staffing changes ensure that Roseville can continue delivering high-quality, reliable services while maintaining a thoughtful, sustainable approach to long-term financial and organizational planning.

The budget includes an $800,000 transfer from the Pension Reserve Trust Fund to offset a portion of the General Fund's approximately $3 million increase in CalPERS pension costs for the year. The Pension Reserve Trust Fund continues to serve as a safeguard against future pension cost increases, with total General Fund contributions now at $21.5 million. Due to slowing sales tax revenue growth and rising General Fund operating costs, the budget does not include funding for CalPERS Additional Discretionary Payments (ADPs) or new transfers to the Pension Reserve Trust. Over the past several fiscal years, the City has made $18.5 million in ADPs to reduce its unfunded pension liability and strengthen long-term pension sustainability. These actions reflect a deliberate and fiscally responsible approach to managing rising pension obligations while preserving essential public services.

LONG-TERM FINANCIAL PLANNING

The City consistently prepares its budgets with a focus on long-term financial sustainability. This is achieved through adherence to sound financial policies and the establishment of dedicated funds that direct City revenues toward long-term financial needs and priorities. These practices help ensure that funding is available for needs as they arise. These funds include:

Operating Reserves: The City maintains an emergency reserve in its General Fund of 10 percent of operating expenditures. The City also maintains a stabilization reserve in its General Fund of 15 percent of operating expenditures, bringing the total operating reserve target to 25 percent of operating expenditures.

Federal Stimulus Reserve: The City established a temporary federal stimulus reserve for the City's allocation of the American Rescue Plan Act (2021 Coronavirus State and Local Fiscal Recovery Funds). The City has adhered to all federal compliance requirements, including the mandate to ensure that funds are fully obligated by December 31, 2024, and fully expended by December 31, 2026.

Rate Stabilization Funds: Roseville Electric Utility maintains a rate stabilization reserve with a minimum balance requirement of 40 percent of operating expenditures, a target balance of 65 percent, and a maximum of 90 percent. The purpose of this reserve is to provide the City with sufficient time to respond to significant changes in the cost of electricity without the need for an emergency rate adjustment. In fiscal year 2023, the Electric Utility strategically repaid its variable-rate debt and associated interest rate swap, which reduced the reserve balance. As of June 30, 2025, the rate stabilization fund totaled $32.6 million, or 16 percent of operating expenditure budget. To rebuild the reserve, the Utility plans to apply interest earnings from the Rate Stabilization Fund, revenues generated from the 0.5 percent rate increase implemented for both residential and commercial customers, and a transfer of surplus funds from the Electric Operations Fund.

Fleet Replacement Fund: The City funds the cost of replacement vehicles over the useful life of the vehicle. This ensures that money is available to keep the City's vehicle fleet operating properly and safely.

Strategic Improvement Fund: The City maintains a fund that provides Council with resources for periodic, strategic investments on behalf of the City. This fund has been used to acquire land and construct improvements, primarily in redevelopment areas. This fund is included in the City's General Fund for financial reporting.

OPEB Trust Fund: The City established an irrevocable trust in fiscal year 2011 to address the City's long-term liability for post-retirement health benefits and transferred $34 million of accumulated resources into the OPEB Trust. In fiscal year 2014, the City negotiated with labor groups to cap future liabilities by creating a Tier III benefit for new hires. Tier III employees are required to set aside a portion of their salary into a Retirement Health Savings account. The investments in the OPEB Trust have performed well, achieving a return of 7.76 percent since inception. In fiscal year 2025, the OPEB plan assets gained 11.75 percent, growing to $177.9 million. With the City's OPEB funding policy, the OPEB unfunded liability is decreasing with increased contributions and investment returns.

Pension Reserve Trust Fund: The City established a Section 115 Pension Reserve Trust in fiscal year 2024 as a reserve against future pension cost increases. The trust is included in the City's General Fund for financial reporting. The Section 115 trust has a balance of $24.1 million in accumulated General Fund resources as of June 30, 2025.

MAJOR ACTIVITIES IN THE CITY

Many of the major activities undertaken in fiscal year 2025 align with the City Council's direction to prioritize projects and funding to support economic stability and strengthen the City's long-term financial position, and to maintain high levels of service throughout the City. Major activities included:

- Electric Utility: Roseville Electric maintained sound financial performance during the fiscal year while operating in an environment of elevated equipment costs, supply-chain constraints, and evolving state regulatory requirements. To support the long-term financial stability of the utility and maintain a high level of service reliability, the City implemented two consecutive nine percent electric rate adjustments in 2024 and 2025. These actions addressed rising fuel and operating costs, renewable energy compliance obligations, and the expiration of a state lease-revenue agreement. As part of this effort, the utility expanded assistance programs for low-income and medical baseline customers and established an updated solar buy-back rate.

  The utility continued to advance major investments in system reliability and capacity. Roseville Electric secured a $1.37 million Distributed Electricity Backup Assets (DEBA) grant from the California Energy Commission to support upgrades to the Department of Water Resources generation units at the Roseville Energy Park. These improvements will increase available output by up to 9.5 megawatts, enhance reliability during extreme grid conditions through 2031, and offset a portion of the $8.89 million total project. Operational coordination and efficiency improved during the year with the consolidation of staff at the 116 South Grant Street facility.

The utility continued to implement enhanced infrastructure inspection and maintenance programs, including accelerated pole inspections, and participated in statewide mutual-aid and electrification initiatives such as Light Up Navajo. Public education and engagement remained priorities, supported by updated exhibits at the Utility Exploration Center and the City's hosting of the 2025 Public Power Lineworkers Rodeo, which brought national participation and economic benefit to the community.

- Environmental Utilities: Environmental Utilities advanced major water, wastewater, and solid waste initiatives throughout 2024-25. The department refreshed the Water Utility strategic plan and completed a new Wastewater Utility strategic plan for 2025–2029, while continuing work on significant infrastructure projects, including two additional ASR groundwater wells, improvements to water interties and pump stations, and completion of the West Side Tanks and Pump Station and a new crew facility. The Pleasant Grove Wastewater Treatment Plant Expansion and companion Energy Recovery Project were completed, supporting renewable fuel production for refuse vehicles. Staff continued collaborative planning with the Army Corps of Engineers and the Placer County Water Agency (PCWA) on a joint conveyance project to strengthen long-term regional water supply reliability. Water conservation efforts included more than 1,100 home water use audits, 257 rebates, and a partnership with the Westfield Galleria that removed over 150,000 square feet of turf, saving an estimated 8 million gallons of water annually. The wastewater program treated nearly 6.94 billion gallons of wastewater, removed more than 21 million pounds of contaminants, produced 25,597 tons of biosolids for beneficial reuse, and completed major pretreatment program improvements with regional partners. Technology upgrades at the Barton Road Water Treatment Plant improved operational reliability, and recycled water deliveries totaled 3,376 acre-feet. Waste Services supported community clean-up and diversion efforts, including an annual neighborhood clean-up event.

- Parks, Recreation and Libraries: The Parks, Recreation and Libraries Department advanced several capital and operational initiatives in fiscal year 2025. Four new neighborhood parks opened to the community, and renovation work continued across multiple facilities, including improvements at the Roseville Aquatics Complex, the Mike Shellito Indoor Pool, and several neighborhood parks. Additional rehabilitation projects included basketball court upgrades, new monument signs, updated technology at the Maidu Community Center, and installation of enhanced radio-frequency identification systems across all three libraries. Construction was completed on major projects at Weber Park and Johnson Pool, and public outreach progressed for several upcoming neighborhood parks and facility improvements.

Alongside its capital work, the department continued implementing its Strategic Master Plan and completed its first Marketing and Public Relations Strategic Plan. Other accomplishments included installation of a permanent Story Walk at Maidu Regional Park, new public art at Royer Park and increased participation across museum, library, fitness and community programs. Volunteer engagement remained strong, with more than 1,300 volunteers contributing over 8,300 hours, and the Student Success Initiative reached a majority of third-grade students across local school districts. The department also completed encampment cleanups and debris removal throughout the park system. Parks, Recreation and Libraries received several recognitions during the year, including being named a National Gold Medal finalist and earning multiple awards for marketing and park design.

- Public Safety: The City continued to strengthen public safety through important accomplishments across both Police and Fire services. The Roseville Police Department led two major coordinated efforts, Operation Grinch and Operation Heat Wave, to address organized retail theft. These efforts resulted in more than 75 arrests, the recovery of illegal firearms, and the return of thousands of dollars in stolen merchandise. The department also completed the implementation of in-car camera systems across its fleet, building on earlier deployment of body-worn cameras and further supporting transparency and accountability in police operations. In addition, a new officer position was added to the Social Services Unit to support homeless veterans, improving access to resources and strengthening outreach to individuals who have served in the armed forces. The Roseville Fire Department continued to advance service reliability and emergency preparedness through ongoing investments in training, equipment, and community risk reduction efforts, including expanded wildfire mitigation work, improvements in response performance, and progress on facility and apparatus upgrades. In addition, the Fire Department opened Fire Station 8, located in the Campus Oaks area of the City. Together, these efforts reflect the City's continued commitment to providing safe, effective, and responsive public safety services.

- Public Works: Public Works delivered significant progress across transit, infrastructure, and operations during fiscal year 2024-25. The City secured $8 million in SB125 funding to support bus electrification and bus shelter upgrades and completed Phase I of the Dry Creek Greenway East trail. Community mobility programs, including Bikefest and Safe Routes to School, continued to engage students and families in bicycle and pedestrian safety. Major facility projects were completed, including tenant improvements at 116 South Grant Street and the opening of Fire Station 8. Fleet Services earned national recognition for the 20th consecutive year through the ASE Blue Seal of Excellence and continued to rank among the nation's Leading Fleets. Street Maintenance crews advanced core operations by clearing more than 4,400 storm drain inlets, sealing extensive pavement areas, replacing signs and delineators, sweeping more than 24,000 miles of streets, and responding to over 1,200 service requests. Engineering completed or advanced several major transportation projects, including the Roseville Parkway Extension, the Soccer Complex Intersection Improvements, ADA ramp and resurfacing work, and major corridor and multimodal safety projects, while also initiating design on long-term improvements such as the Pleasant Grove Stormwater Retention Basin and the next phases of the Dry Creek Greenway East trail.

AWARDS AND ACKNOWLEDGMENTS

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City for its ACFR for the fiscal year ended June 30, 2024. The organization of the City's ACFR follows the guidelines set forth by GFOA. This marks the twentieth consecutive year the City has been recognized for this award.

The city must publish an easily readable and efficiently organized ACFR to be awarded a Certificate of Achievement. The report must satisfy both generally accepted accounting principles and applicable legal requirements. This ACFR also meets the program's requirements, and staff will submit it to GFOA to determine its eligibility for the certificate.

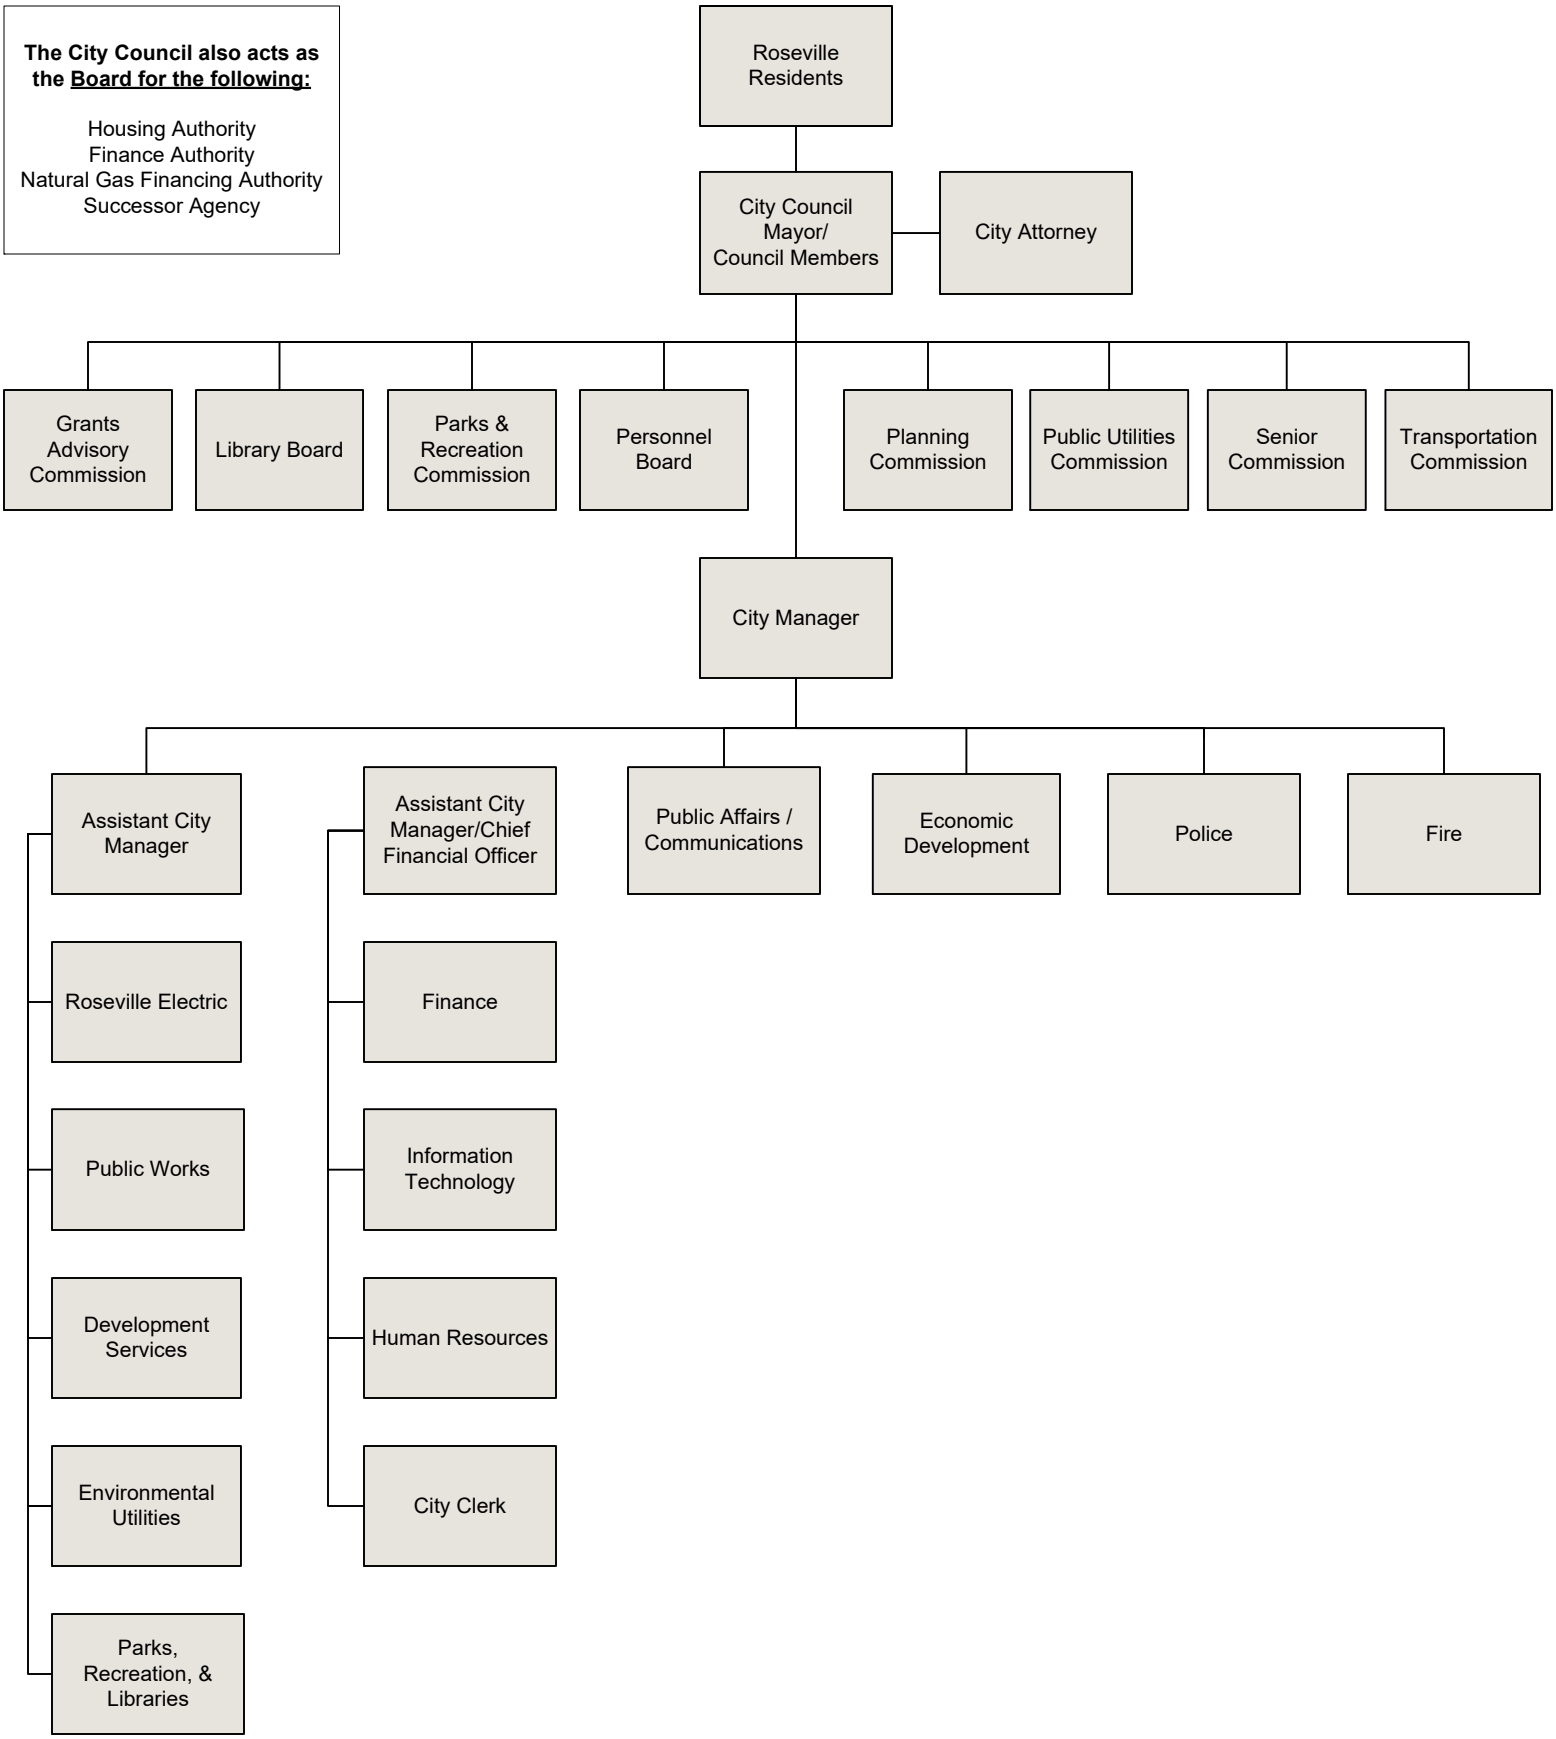

The City of Roseville also received the Government Finance Officers Association's (GFOA) Distinguished Budget Presentation Award and the California Society of Municipal Finance Officer's (CSMFO) Operating Budget Excellence Award for the fiscal year 2025 budget.

The Finance Department, and especially the Accounting Division, takes great pride in preparing the ACFR. The professionalism, dedication, and teamwork of Accounting staff made this report possible. We also extend our appreciation to employees throughout the Finance Department and across other City departments who contributed to its preparation. Finally, we thank the Mayor and City Council for their continued support and for their commitment to responsible and forward-thinking financial stewardship.

Respectfully submitted,

Scott Pettingell

INDEPENDENT AUDITORS' REPORT

To the Honorable Members of the City Council
City of Roseville, California

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Roseville, California, (hereafter, the City) as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City as of June 30, 2025, and the respective changes in financial position, and, where applicable, cash flows thereof, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of Matter

Change in Accounting Principle

As described in Note 1 to the financial statements, in 2025, the City adopted new accounting guidance, GASB Statement No. 101, *Compensated Absences*. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, required pension and other post-employment benefits schedules and modified approach to reporting street pavement costs as listed on the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

To the Honorable Members of the City Council
City of Roseville, California

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The accompanying combining and individual fund financial statements and schedules (supplementary information) are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditors' report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 16, 2025, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering City's internal control over financial reporting and compliance.

LSL, LLP

Sacramento, California
December 16, 2025

The following discussion provides readers of the City of Roseville's (City) financial statements with a narrative overview and analysis of the financial activities of the City for the fiscal year ended June 30, 2025. This discussion should be read in conjunction with the accompanying Letter of Transmittal and Basic Financial Statements.

FISCAL YEAR 2025 FINANCIAL HIGHLIGHTS

The City's financial highlights for fiscal year 2025 include the following:

- In fiscal year 2025, the City's General Fund revenues and other financing sources (uses) were $3.5 million less than expenditures. Expenditures exceeded revenues primarily due to capital spending that was appropriated in prior fiscal years and expended in fiscal year 2025. Revenues increased by $8.7 million compared to the prior year, driven largely by a $5.7 million increase in tax revenues, primarily from property taxes, and a $3.0 million increase in the use of money and property category due to higher investment income and the reversal of the temporary market value adjustment on the City's bond portfolio. Revenues also exceeded budget estimates by $12.6 million, primarily due to stronger-than-anticipated investment income and the reversal of the temporary market value adjustment, as well as $3.8 million in higher-than-expected tax revenues. Expenditures increased by $32.9 million over the prior year, primarily due to capital investments appropriated in prior years and carried forward and expended in fiscal year 2025, as well as higher labor, materials, and services and supplies costs. Despite these increases, expenditures ended the year $43.1 million below budget, reflecting lower-than-budget operating expenditures across departments and the carryover of capital appropriations into the subsequent fiscal year.

- Measure B, the voter-approved local sales tax measure, generated $29.9 million in General Fund revenue during the fiscal year. These revenues continued to support essential services and contributed to maintaining the City's General Fund Stabilization Reserve to help address future economic uncertainties.

- The City added $4.5 million to its General Fund reserves in fiscal year 2025, maintaining a 25 percent reserve level for emergencies and economic stabilization. In addition, the City committed $4.5 million to the Pension Reserve Trust, bringing the trust's total balance to $23.9 million. The City also made a $6.4 million Additional Discretionary Payment (ADP) to CalPERS, consisting of $1.8 million appropriated in fiscal year 2025 and $4.6 million appropriated in fiscal year 2024 but deferred until fiscal year 2025.

- Total assets and deferred outflows of resources exceeded its liabilities and deferred inflows of resources, as of June 30, 2025, by $4.3 billion, an increase of $361.5 million or 9.2 percent over the prior year, primarily related to infrastructure investments associated with new development in the City.

OVERVIEW OF THE CITY'S ANNUAL COMPREHENSIVE FINANCIAL REPORT

The City's Annual Comprehensive Financial Report (ACFR) is divided into four sections:

- The introductory section includes the letter of transmittal, a list of City elected officials, and the City's organizational chart.

- The financial section includes the independent auditors' report, management's discussion and analysis, the basic financial statements, and the footnotes to the basic financial statements.

- The required supplementary information section presents additional information that provides context for the City's financial statements.

- The supplementary information section includes additional schedules and information that provide further detail beyond the basic financial statements and required supplementary information.

- The statistical section is comprised of unaudited data organized to present financial trends, revenue capacity, debt capacity, and demographic and economic information.

Government-wide financial statements provide both long-term and short-term information about the City's overall financial status. The fund financial statements focus on individual parts of the City government, presenting the City's operations in greater detail than the government-wide statements.

The notes to the basic financial statements provide additional information essential to understanding the data presented in the government-wide and fund financial statements. The basic financial statements and notes are followed by the required supplementary information, including Budgetary Comparison Schedule for the General Fund; the Schedule of Changes in Net Pension Liability and Related Ratios; the Schedule of Contributions for the City's pension plans; the Schedule of Changes in Net Other Post-Employment Benefits (OPEB) Liability and Related Ratios; and the Schedule of Contributions for the City's OPEB plan. In addition to these required elements, the report includes combining statements and schedules that provide further detail for the City's non-major governmental funds, non-major enterprise funds, internal service funds, private purpose trust funds, and custodial funds, each of which is presented in a separate column in the basic financial statements.

Government-wide Financial Statements

The government-wide financial statements report information about the City using accounting methods like those used by private-sector companies. The statement of net position presents the City's assets and liabilities, as well as any deferred outflows and inflows of resources. The statement of activities presents revenues and expenses for the current year, regardless of when cash is received or paid. These government-wide statements report the City's net position and how it changed during the fiscal year.

The government-wide financial statements of the City present information about the following activities of the City:

- **Governmental activities:** Most of the City's basic services are reported as governmental activities. These services are supported by general City revenues, such as taxes, and by specific program revenues, such as user fees and charges.

- **Business-type activities:** Certain services provided by the City are funded primarily through customer fees. These include the City's utility services, local transportation, and school-age childcare program.

Fund Financial Statements

A fund is a group of related accounts used to maintain control over resources that have been segregated for specific activities or objectives. Fund financial statements provide more detailed information about the City's largest funds rather than the City as a whole.

The City has three types of fund financial statements:

- **Governmental funds:** Governmental fund statements provide information about how general government services, such as police, fire, and public works, were financed in the short-term and what resources remain available for future spending. Most of the City's basic services are reported in governmental funds, which focus on (1) short-term inflows and outflows of spendable resources and (2) the remaining year-end fund balances available for spending. Because this information does not reflect the longer-term focus of the government-wide statements, reconciliations are presented that explain the relationship (or differences) between governmental funds and governmental activities.

- **Proprietary funds:** Proprietary fund statements provide information about services for which customer fees are intended to finance the costs of operations. Proprietary fund statements, like the government-wide financial statements, provide both the short-term and long-term financial information about activities the City operates in a business-type manner, such as utility services.

- **Fiduciary funds:** Fiduciary fund statements provide information about financial relationships where the City acts solely as a trustee or agent for the benefit of others to whom the resources belong. The City is the trustee or fiduciary for assets reported in a private-purpose trust fund, which, because of trust agreements, can be used only for the trust beneficiaries. The City elected to serve as the successor agency for its former redevelopment agency, which was dissolved by state law. The successor agency activity is accounted for in a private-purpose trust fund. The City is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All the City's fiduciary activities are reported in a separate statement of fiduciary net position and a statement of changes in fiduciary net position. The City excludes these activities from the City's government-wide financial statements because the City cannot use these resources to finance its operations.

FINANCIAL ANALYSIS OF THE GOVERNMENT-WIDE STATEMENTS

This analysis focuses on the City's net position and changes in net position for its governmental and business-type activities for the fiscal year ending June 30, 2025.

Statement of Net Position - Primary Government
As of June 30, 2025 and 2024
(in millions)

	Governmental Activities		Business-type Activities		Total	
	2025	**2024**	**2025**	**2024**	**2025**	**2024**
Assets						
Cash and investments	$ 476.0	$ 499.4	$ 506.7	$ 485.0	$ 982.7	$ 984.4
Other assets	186.7	161.9	359.3	295.4	546.0	457.3
Capital assets	1,492.3	1,383.8	2,145.0	2,022.9	3,637.3	3,406.7
Total Assets	**2,155.0**	**2,045.1**	**3,011.0**	**2,803.3**	**5,166.0**	**4,848.4**
Deferred Outflows of Resources	**96.0**	**102.3**	**47.4**	**57.3**	**143.4**	**159.6**
Liabilities						
Long-term debt outstanding	18.4	19.3	242.4	268.7	260.8	288.0
Other liabilities	406.5	428.8	257.8	258.1	664.3	686.9
Total Liabilities	**424.9**	**448.1**	**500.2**	**526.8**	**925.1**	**974.9**
Deferred Inflows of Resources	**38.9**	**43.9**	**36.5**	**41.8**	**75.4**	**85.7**
Net Position						
Net investment in capital assets	1,473.9	1,364.5	1,954.5	1,821.2	3,428.4	3,185.7
Restricted	347.5	328.0	30.8	32.7	378.3	360.7
Unrestricted	(34.2)	(37.1)	536.4	438.1	502.2	401.0
Total Net Position	**$ 1,787.2**	**$ 1,655.4**	**$ 2,521.7**	**$ 2,292.0**	**$ 4,308.9**	**$ 3,947.4**

The largest portion of the City's net position is net investment in capital assets totaling $3.4 billion. This reflects the City's investment in capital assets, such as infrastructure, buildings and equipment, net of any related outstanding debt used to acquire those assets. The City uses these capital assets to provide services to its residents and businesses.

The restricted portion of the City's net position totaling $378.3 million represents resources that are restricted for use by external sources. The remaining net position of $502.2 million is unrestricted and may be used to meet the ongoing obligations of the City, subject to the legal and operational purposes of the individual funds in which it is reported.

Governmental Activities

Government Activities – Net Position

This analysis focuses on the net position and changes in net position of the City's governmental activities, as presented in the Government-wide Statement of Net Position and Statement of Activities.

Statement of Net Position - Governmental Activities
As of June 30, 2025 and 2024
(in millions)

	2025	2024	Increase / Decrease

Net investment in capital assets	1,473.9	1,364.5	109.4
Restricted	347.5	328.0	19.5
Unrestricted	(34.2)	(37.1)	2.9
Total Net Position	**$ 1,787.2**	**$ 1,655.4**	**$ 131.8**

The City's governmental activities net position increased by $131.8 million to $1.8 billion as of June 30, 2025, driven primarily by a $109.4 million increase in net investment in capital assets related to infrastructure improvements and land dedications.

Changes in Net Position - Governmental Activities
As of June 30, 2025 and 2024
(in millions)

	2025	2024	Increase/ Decrease
Revenues

Transfers	9.7	10.7	(1.0)
Changes in Net Position after Transfers	**129.7**	**218.8**	**(89.1)**
Net Position-Beginning	**1,655.4**	**1,436.6**	**218.8**
Restatement	**2.1**	**-**	**2.1**
Net Position-Ending	**$ 1,787.2**	**$ 1,655.4**	**$ 131.8**

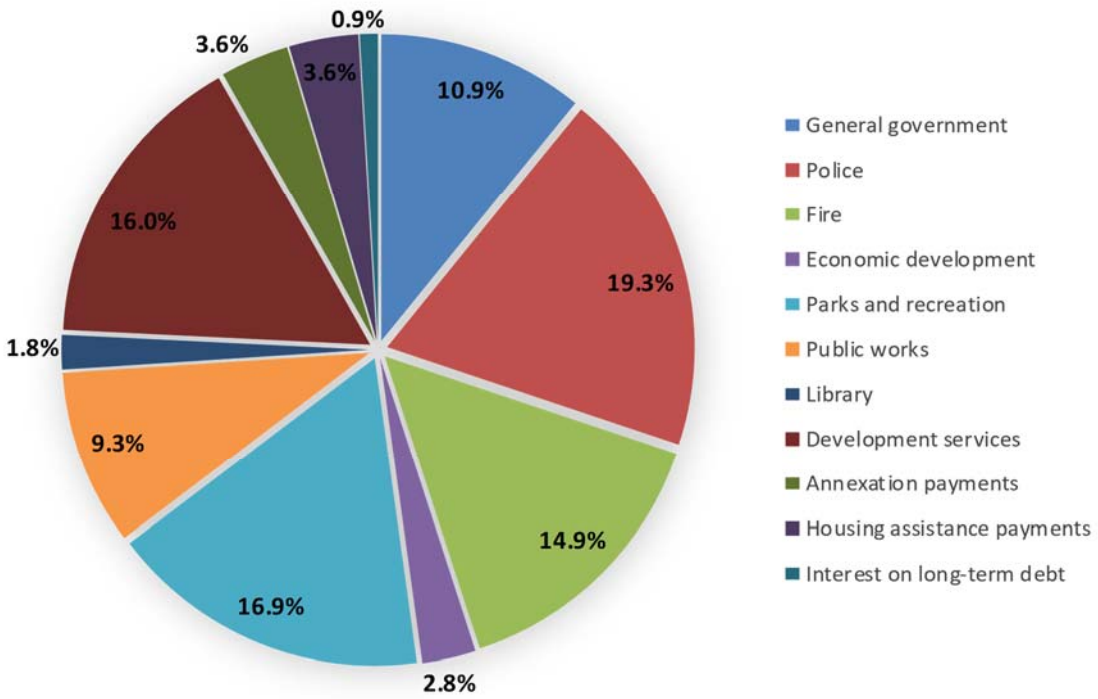

Capital grants and contributions, which consist primarily of land and infrastructure dedications and community facilities district bond proceeds, decreased by $84.3 million to $82.9 in fiscal year 2025, reflecting fewer infrastructure dedications and community facilities district bond issuances compared to the prior year.

General revenues, comprised primarily of property and sales taxes, increased by $6.0 million compared to fiscal year 2024, driven largely by higher property tax revenues resulting from higher assessed property values and development activity. Use of money and property totaled $31.9 million in fiscal year 2025, compared to $23.8 million in fiscal year 2024 reflecting higher interest income. Because general revenues are not allocable to specific programs, they are used to pay the net cost of governmental programs.

Total expenses for governmental activities increased by $19.1 million compared to the prior year, primarily due to increases in labor costs and services, supplies, and materials. The most significant increases occurred in general government, development services, and public works, reflecting higher labor, services and supplies, and other operating costs. Police and fire expenses decreased compared to the prior year due to the amortization of deferred inflows related to OPEB, including favorable investment experience, that exceeded current-period OPEB costs.

Governmental Activities – Functional Expenses

The functional expenses chart below includes only current year expenses for governmental activities.

Capital outlay is excluded from functional expenses because it is added to the City's capital assets and depreciated over the useful lives of the assets. As the chart reflects, police accounted for 19.3% ($62.9 million) of total governmental activities expenses; fire accounted for 14.9% ($48.5 million); parks and recreation accounted for 16.9% ($55.1 million); development services accounted for 16.0% ($52.3 million); public works accounted for 9.3% ($30.3 million); general government accounted for 10.9% ($35.5 million); and the remainder accounted for other governmental programs and functions, as shown above.

Business-type Activities

The Statement of Net Position and Statement of Activities present a summary of the City's business-type activities, which are composed of the City's enterprise funds.

Statement of Net Position - Business-type Activities
As of June 30, 2025 and 2024
(in millions)

	2025	2024	Increase/ Decrease
Assets			
Cash and investments	$ 506.7	$ 485.0	$ 21.7
Other assets	359.3	295.4	63.9
Capital assets	2,145.0	2,022.9	122.1
Total Assets	**3,011.0**	**2,803.3**	**207.7**
Deferred Outflows of Resources	**47.4**	**57.3**	**(9.9)**
Liabilities			
Long-term debt outstanding	242.4	268.7	(26.3)

Total Liabilities	**500.2**	**526.8**	**(26.6)**
Deferred Inflows of Resources	**36.5**	**41.8**	**(5.3)**
Net Position			
Net investment in capital assets	1,954.5	1,821.2	133.3
Restricted	30.8	32.7	(1.9)
Unrestricted	536.4	438.1	98.3
Total Net Position	**$ 2,521.7**	**$ 2,292.0**	**$ 229.7**

The net position of business-type activities amounted to $2.5 billion in fiscal year 2025, an increase of $229.7 million from fiscal year 2024, primarily due to increases in cash and investments, investments in joint power authorities, and capital assets. Cash and investments increased in 2025 due to higher investment earnings, grant funding, and connection fees. The Wastewater utility's investment in the South Placer Wastewater Authority (SPWA) reserves increased by $27.4 million in fiscal year 2025. Capital assets increased primarily due to the addition of new utility infrastructure in developing areas in West Roseville and a one-time capital contribution valued at $71.6 million in the Electric utility.

Changes in Net Position - Business-type Activities

Business-type program revenues and general revenues totaled $648.1 million, and business-type expenses and transfers out were $419.6 million in fiscal year 2025. Capital contribution revenue was primarily due to the Electric utility's one-time capital contribution. Use of money and property increased compared to the prior year reflecting interest income and the reversal of the temporary market value adjustment on the City's bond portfolio. Major enterprise fund activity is discussed in the Proprietary Funds section that follows.

FINANCIAL ANALYSIS OF THE FUND STATEMENTS

Governmental Funds

The City's governmental funds provide information about near-term inflows, outflows, and balances of spendable resources.

General Fund

General Fund revenues increased by $8.7 million compared to the prior year fiscal year. Growth occurred across several categories, including taxes ($5.5 million), use of money and property ($3.0 million), miscellaneous revenues ($1.6 million), licenses and permits ($0.2 million), contributions from developers and others ($0.1 million), and fines, forfeitures, and penalties ($0.1 million). These increases were partially offset by a $1.1 million decrease in charges for services and a $0.8 million decrease in subventions and grants.

Property tax and Bradley-Burns sales tax increased in fiscal year 2025 by $4.1 million and $1.0 million respectively, while the voter-approved Measure B sales tax decreased slightly ($0.1 million). Other tax revenues, including Transient Occupancy Tax (TOT) and business licenses, exceeded estimates by approximately $0.6 million.

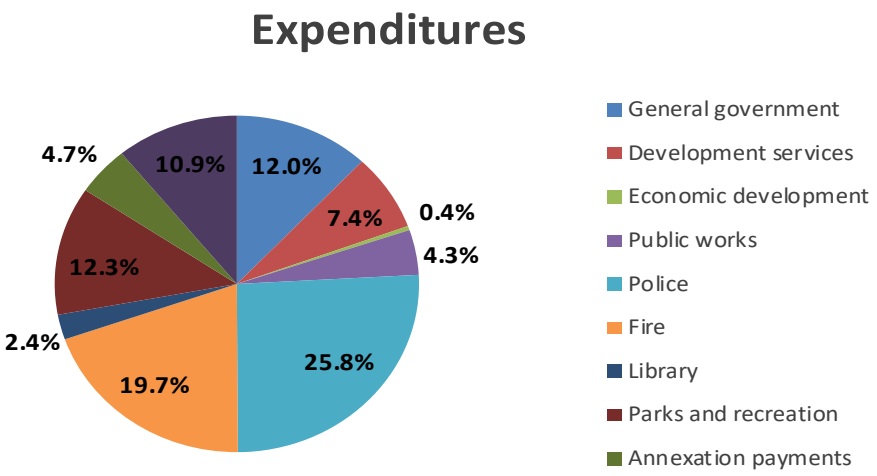

The increase in property tax revenue reflects continued growth in the City and rising assessed property values. Bradley-Burns sales tax revenue increased by approximately one percent; however, overall sales tax growth continued to be constrained by broader economic factors. Higher interest rates, softer consumer demand for taxable goods, and an ongoing shift toward non-taxable services contributed to slower taxable sales. These factors have also resulted in slower growth and, in some cases, modest declines such as the slight reduction observed in Measure B revenues.

Total revenues were higher than the final budget by $12.6 million, primarily due to:

- Use of Money and Property exceeding estimates by $7.2 million due to higher-than-anticipated investment returns from higher interest rates.

- Tax revenues exceeding estimates by $3.8 million driven by property tax ($1.6 million), Bradley-Burns sales tax ($0.6 million) and Measure B sales tax ($0.7 million). Other tax revenues exceeding estimates by $0.8 million, including business license tax ($0.4 million) and TOT ($0.1 million) revenues.

General Fund expenditures increased by $33.0 million from the prior year, primarily due to increases in capital outlay, police, fire, and parks and recreation. Expenditures increased due to higher labor costs, including salaries, health benefits, and pension contributions, as well as the addition of new positions in the fiscal year 2025 budget. These additions included seven positions in parks and recreation, three in police, and one position each in finance and development services.

All General Fund departments ended the year within their appropriated expenditure budgets. Total expenditures were less than final budget by $43 million, with the following major drivers:

- Multi-year capital project budgets are inception-to-date budgets for projects that may take several years to complete, resulting in significant budget-to-actual variances for budgets that roll forward to fiscal year 2026.

- Vacancy savings in most General Fund departments generated significant budget savings during periods when positions were in the recruitment phase.

As of June 30, 2025, the General Fund's fund balance totaled $184.3 million, including $20.7 million classified as nonspendable fund balance, primarily for notes receivable; $55.9 million committed for emergency and economic stabilization reserves, $37.0 million committed for capital projects, $24.1 million restricted for the City's pension trust, $0.6 million classified as assigned fund balance, and the remaining balance of $46.0 million considered unassigned.

Only the unassigned portion of fund balance represents available resources, as the nonspendable, restricted, committed, and assigned portions are constrained by non-cash assets, contracts, open purchase orders, capital projects, and Council-adopted reserves.

Capital Projects Fund – Community Facilities Districts

Community Facilities District (CFD) capital projects fund revenues exceeded expenditures by approximately $0.97 million in fiscal year 2025. CFD revenues are collected over time to fund eligible future capital infrastructure within the respective districts.

Non-Major Governmental Funds

The rest of the City's governmental funds are presented in the basic financial statements as non-major governmental funds as required by generally accepted accounting principles. They are individually presented as supplemental information.

Proprietary Funds

Electric Fund

The net position of the Electric Fund increased by $115.8 million in fiscal year 2025, primarily due to higher customer revenue resulting from rate increases and a one-time capital contribution valued at $71.6 million of two combustion turbine generators from the California Department of Water Resources. At June 30, 2025, the fund's net position was $672.0 million, of which $508.8 million was invested in capital assets; $9.7 million was restricted for debt service; $6.4 million was restricted for the sustainable energy program; and $147.1 million was unrestricted as to use.

Water Fund

The net position of the Water Fund increased by $41.4 million in fiscal year 2025, primarily due to an increase in capital assets of $8.2 million and an increase in cash and investments of $22.7 million. At June 30, 2025, the fund's net position was $823.1 million, of which $665.1 million was invested in capital assets; $5.6 million was restricted for debt service; and $152.4 million was unrestricted as to use.

Wastewater Fund

The net position of the Wastewater Fund increased by $43.9 million in fiscal year 2025, primarily due to an increase in capital assets of $11.2 million and an increase in cash and investments of $9.1 million. At June 30, 2025, the fund's net position was $917.8 million, of which $698.4 million was invested in capital assets; $4.0 million was restricted for debt service; and $215.4 million was unrestricted as to use.

Waste Services Fund

The net position of the Waste Services Fund increased by $8.9 million in fiscal year 2025, primarily due to an increase in cash and investments of $9.1 million. At June 30, 2025, the fund's net position was $42.3 million, of which $6.0 million was invested in capital assets and $36.3 million was unrestricted as to use.

Roseville Natural Gas Financing Authority

This fund was created as the financing mechanism to purchase prepaid natural gas for the Roseville Energy Park, an electric power plant, through the issuance of revenue bonds. Bonds payable totaling $47.3 million remain due, while the balance of prepaid natural gas as of June 30, 2025, was $45.8 million. At June 30, 2025, the fund's net position was $2.1 million, of which $5.1 million was restricted for debt service and negative $3.0 million was unrestricted as to use.

Non-Major Enterprise Funds

The remaining enterprise funds are presented in the basic financial statements as non-major enterprise funds as required by generally accepted accounting principles. They are presented individually as supplemental information.

CAPITAL ASSETS

As of June 30, 2025, the City had invested $3.6 billion in a broad range of capital assets, including land, buildings, vehicles, parks and park improvements, roads and bridges, and water, wastewater, and storm drainage transmission and distribution systems, as well as the electric generation and distribution system. Current year capital asset additions of $329.3 million were offset by current year depreciation expense of $97.7 million and retirements of $1.0 million, for a net increase in capital assets of $230.6 million. The table below presents a summary of the City's capital assets for governmental and business-type activities:

Capital Assets
As of June 30, 2025 and 2024
(in millions)

	2025	2024	Increase/ Decrease
Governmental Activities			
Land and easements	$ 262.3	$ 237.3	$ 25.0

Business-Type Activity Capital Assets, Net	**$ 2,145.0**	**$ 2,022.9**	**$ 122.1**

Details on capital assets, current year additions, construction in progress and depreciable lives can be found in Note 8 to the financial statements.

The City depreciates all its capital assets over their estimated useful lives, except for streets, which are reported using the modified approach. The purpose of depreciation is to spread the cost of a capital asset over the years of its useful life so that all users bear an allocable portion of the cost of the asset. The modified approach requires the City to employ an asset management system that maintains a current inventory of these assets, estimates annual costs to maintain them, and assesses the condition of the assets in a replicable way.

The City uses a computerized pavement management system to track the condition levels of street sections. The City's policy, based on current funding, is to maintain arterial and collector roadways at an average Pavement Quality Index (PQI) of 72 and residential roadways at an average PQI of 67, based on a study conducted every three years. This policy allows for minor pavement cracking and raveling and minor roughness that could be noticeable to drivers traveling at posted speed.

On June 30, 2025, the City's streets averaged 74 PQI for arterial and collector roadways and 69 PQI for residential roadways. The City expended $12.7 million on street preservation of its streets in fiscal year 2025, compared to the budgeted amount of $16.2 million.

DEBT ADMINISTRATION

The City made all scheduled repayments of existing debt. Each of the City's debt issues is discussed in detail in Note 10 to the financial statements. As of June 30, 2025, the City's debt portfolio comprised of the following:

Outstanding Debt
As of June 30, 2025 and 2024
(in millions)

Total Business-type Activity Debt	**$ 241.5**	**$ 267.2**	**$ (25.7)**

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

Economic Factors

Development patterns in Roseville shifted in fiscal year 2025 as construction activity began to ease from the elevated levels of the past several years. Single-family residential permits totaled 1,133 units, which is a decrease from the 1,259 permits issued in fiscal year 2024. This reflects slower subdivision activity and the continued buildout of available lots, although the overall level of permitting was consistent with long-term trends. Residential construction continues to be concentrated in the Sierra Vista, Fiddyment Ranch, Creekview, and Amoruso Ranch plan areas. For fiscal year 2025–26, single-family permit activity is forecast to decline further to roughly 618 units.

Multi-family construction continues to contribute meaningfully to the City's housing supply. More than 1,500 units are currently under construction, and several additional projects are advancing through the entitlement process. As of January 1, 2025, the City had 63,571 completed housing units and more than 2,700 approved units awaiting construction. While the pace of new development is moderating, the overall pipeline remains strong.

Industrial development continues to perform well. The City has approximately 11.7 million square feet of developed industrial space, supported by historically low vacancy rates and steady tenant improvement activity. Significant investments in advanced manufacturing and healthcare are helping sustain this demand. Robert Bosch Corporation's long-term investment in the former TSI Semiconductor facility, which includes more than $1.9 billion in planned upgrades and equipment purchases over the next seven to ten years, remains a major driver of activity in this sector.

Commercial development shows a more mixed outlook. Retail, restaurant, and personal service activity remains stable and continue to benefit from ongoing population growth in the City's newer areas. The office market, however, is adjusting to continued hybrid and remote work trends. Vacancy rates have increased to approximately 15.4 percent, and near-term office development is expected to soften in response. Tenant improvements and commercial construction continue, but at a more measured pace.

Next Year's Budget

Total net appropriations in the fiscal year 2026 budget are $827 million, of which General Fund budget appropriations are $236.6 million, an increase of three percent compared to the approved fiscal year 2025 budget. The approved fiscal year 2026 General Fund budget incorporates the costs of the City's negotiated labor agreements and unavoidable cost increases in other spending categories but includes only the most critical augmentations to maintain service levels and address Council priorities given the continued uncertainty surrounding the economy. In accordance with the Council's financial policies, the fiscal year 2026 General Fund budget is balanced, with budgeted expenditures matched to projected revenues, and includes resources to increase reserves to Council-adopted targets. The fiscal year 2026 General Fund budget includes a transfer from the Pension Reserve Trust Fund of approximately $790,000 to help offset rising CalPERS pension costs.

CONTACTING THE CITY'S FINANCIAL MANAGEMENT

This financial report is intended to provide residents, businesses, customers, investors, and creditors with a general overview of the City's finances. Questions regarding this report may be directed to the City of Roseville Finance Department at 311 Vernon Street, Roseville, California, 95678, or via email at finance@roseville.ca.us.

STATEMENT OF NET POSITION AND STATEMENTS OF ACTIVITIES

The purpose of the Statement of Net Position and the Statement of Activities is to summarize the entire City's financial activities and financial position.

The Statement of Net Position reports the difference between the City's total assets and deferred outflows of resources and the City's total liabilities and deferred inflows of resources, including all the City's capital assets and all its long-term debt. The Statement of Net Position focuses the reader on the composition of the City's net position, by subtracting total liabilities and deferred inflows of resources from total assets and deferred outflows of resources and summarizes the financial position of all the City's governmental activities in a single column, and the financial position of all the City's business-type activities in a single column; these columns are followed by a total column that presents the financial position of the entire City.

The City's governmental activities include the activities of its General Fund, along with the special revenue, capital projects, debt service, and permanent funds. Since the City's internal service funds predominately service these funds, their activities are consolidated with governmental activities, after eliminating inter-fund transactions and balances. The City's business-type activities include activities of the enterprise funds. Fiduciary activities are excluded.

The Statement of Activities reports increases and decreases in the City's net position. Consistent with the Statement of Net Position, it is prepared on the full accrual basis, which means it includes all the City's revenues and all its expenses, regardless of when cash changes hands. This differs from the modified accrual basis used in the governmental fund financial statements, which reflect only current assets, current liabilities, available revenues and measurable expenditures.

The Statement of Activities and the Statement of Net Position include the financial activities of the City, the Roseville Finance Authority, the City of Roseville Housing Authority, and the Roseville Natural Gas Financing Authority, which are legally separate, but are component units of the City because they are controlled by the City which is financially accountable for the activities of these entities.

FUND FINANCIAL STATMENTS

Major funds are defined generally as having significant activities or balances in the current year.

The funds described below were determined to be major funds by the City in fiscal year 2025. Individual non-major funds may be found in the supplementary information section.

General Fund

The General Fund is used for all the general revenues of the City not specifically levied or collected for other City funds and the related expenditures. The General Fund accounts for all financial resources of a governmental unit which are not accounted for in another fund.

Community Facilities Districts

This fund is used to account for the construction of infrastructure improvements, or reimbursement to developers for such improvements, funded by special taxes levied against benefited properties.

CITY OF ROSEVILLE, CALIFORNIA
Reconciliation of the Balance Sheet of Governmental Funds
to the Statement of Net Position
June 30, 2025

Total Fund Balances - Total Governmental Funds		$ 437,975,565
Amounts reported for governmental activities in the Statement of Net Position are different from those reported in the governmental funds above because of the following:		
Capital Assets		
Capital assets used in Governmental Activities are not current assets or financial resources and therefore are not reported in the Governmental Funds.		1,364,007,102
Allocation of Internal Service Fund Net Position		
Internal service funds are used to charge the costs of certain activities such as insurance, post employment benefits, facility maintenance, and information technology. The net position of the internal service funds are therefore included in governmental activities in the statement of net position.		180,467,871
Long-Term Liabilities		
Long-term liabilities are not due and payable in the current period and, therefore, are not reported in the governmental funds:		
Direct placement debt and certificates of participation	$ (13,491,148)	
Lease payable	(1,736,931)	
Subscription payable	(1,374,105)	
Interest payable	(232,883)	
Compensated absences	(15,200,867)	
Net OPEB liability	(31,782,337)	
Net pension liability	(267,582,526)	(331,400,797)
Deferred Outflows/(Inflows) of Resources		
Deferred outflows related to pensions	81,598,927	
Deferred inflows related to pensions	(1,192,281)	
Deferred outflows related to OPEB	7,316,007	
Deferred inflows related to OPEB	(21,860,794)	
Unavailable revenue in the governmental funds is revenue in the governmental activities	70,309,701	136,171,560
Net Position of Governmental Activities		**$ 1,787,221,301**

See Notes to Financial Statements.

See Notes to Financial Statements.

CITY OF ROSEVILLE, CALIFORNIA
Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities
For the Year Ended June 30, 2025

Net Change in Fund Balances - Total Governmental Funds		$ 5,485,878
Amounts reported for governmental activities in the statement of activities are different from those reported in the governmental funds because of the following:		
Capital Assets Transactions		
Governmental funds report capital outlays as expenditures.	$ 90,003,553	
Contributed assets	36,309,036	
In the statement of activities the cost of capital assets is allocated over their estimated useful lives as depreciation/amortization expense (net of depreciation/amortization on internal service fund capital assets of $13,218,955).	(20,178,602)	
Gain (loss) on disposal of assets	50,302	106,184,289
Long Term Debt Transactions		
Issuance of debt and repayment of principal is an other financing source and expenditure, respectively, in the governmental funds but in the statement of net position the transactions increase and reduce long term liabilities.		
Payment of debt principal	1,561,108	
Amortization of premium	27,808	
Initiation of subscriptions	(1,587,516)	1,400
Pension Related Items		
Governmental funds report pension contributions as expenditures. However, in the Statement of Activities, pension expense is measured as the change in net pension liability and the amortization of deferred outflows and inflows related to pensions. This amount represents the net change in pension related amounts.		(7,149,824)
OPEB Related Items		
Governmental funds report OPEB contributions as expenditures. However, in the Statement of Activities, OPEB expense is measured as the change in net OPEB liability and the amortization of deferred outflows and inflows related to OPEB. This amount represent the net change in OPEB related amounts.		11,456,439
Accrual of Non-Current Items		
Certain amounts included in the Statement of Activities do not require the use of current financial resources and therefore are not reported as revenue or expenditures in governmental funds (net change):		
Compensated absences	(1,734,023)	
Interest payable	15,536	(1,718,487)
Unavailable Revenues		
Revenue and other resources not available to fund liabilities of the current period are not recognized in governmental funds. Revenue in the statement of activities is not limited by availability, so certain revenues need to be reduced by the amounts that were unavailable at the beginning of the year and increased by the amounts that were unavailable at the end of the year. This adjustment is the change between prior year's unavailable revenues and the current year unavailable revenues.		4,130,798
Allocation of Internal Service Fund Activity		
Internal Service Funds are used by management to charge the costs of certain activities, such as equipment acquisition, maintenance, and insurance to individual funds. The portion of the net revenue (expense) of these Internal Service Funds arising out of their transactions with Governmental Funds is reported with governmental activities because they service those activities.		11,272,278
Change in Net Position of Governmental Activities		**$ 129,662,771**

See Notes to Financial Statements.

PROPRIETARY FUNDS

Proprietary funds account for City operations financed and operated in a manner similar to a private business enterprise. The intent of the City is that the cost of providing goods and services be financed primarily through user charges.

The City has identified the funds below as major enterprise funds in fiscal year 2025.

Electric Fund

This fund accounts for all financial transactions relating to the City's electric services. Services are on a user charge basis to residents and business owners located in the City.

Water Fund

This fund accounts for all financial transactions relating to the City's water services. Services are on a user charge basis to residents and business owners located in the City.

Wastewater Fund

This fund accounts for all financial transactions relating to the City's wastewater collection and treatment services. Services are on a user charge basis to residents and business owners located in the City.

Waste Services Fund

This fund accounts for all financial transactions relating to the City's solid waste services. Services are on a user charge basis to residents and business owners located in the City.

Roseville Natural Gas Financing Authority

This fund accounts for financing and purchasing pre-paid natural gas for the generation of power at the Roseville Energy Park.

Internal Service Funds

These funds account for activities and services performed by a designated department for other departments in the City.

FIDUCIARY FUNDS

Fiduciary funds are presented separately from the government-wide and fund financial statements. The City had the following types of fiduciary funds in fiscal year 2025:

Other Post-Employment Benefits Trust Fund

This fund is used to account for assets held by the City as a trustee agent for the members and beneficiaries of the other post-employment benefit plan.

Private-Purpose Trust Funds

These funds are used to account for trust arrangements under which principal and income benefit private organizations or other governments.

Custodial Funds

These funds are used to account for assets held by the City custodian for individuals, private organizations, and other governments.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of Roseville (City) was incorporated on April 10, 1909, under provisions of Act 279, P.A. 1909, as amended (Home Rule City). The City operates under the Council-Manager form of government and provides the following services: public safety (police and fire), streets, water, wastewater, waste services, electric, local transportation, school-age child care, golf course, parks and recreation, public improvements, planning and zoning, libraries, general administration services, economic development, and housing.

The financial statements and accounting policies of the City conform with generally accepted accounting principles in the United States of America applicable to governments. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. Significant accounting policies are summarized below:

A. Reporting Entity

The accompanying basic financial statements present the financial activity of the City, which the primary government presented, along with the financial activities of its component units, which are entities for which the City is financially accountable. Although they are separate legal entities, blended component units are, in substance, part of the City's operations and are reported as an integral part of the City's financial statements. The City's component units which are described below are all blended component units.

The **Roseville Finance Authority** is a separate government entity whose purpose is to assist with the financing or refinancing of certain public capital facilities within the City. The Authority has the power to purchase bonds issued by any local agency at public or negotiated sale and may sell such bonds to public or private purchasers at public or negotiated sale. The Authority is controlled by the City and has the same governing body as the City, which also performs all accounting and administrative functions for the Authority. The financial activities of the Authority are included in the Roseville Finance Authority Debt Service Fund and Capital Projects Fund.

The **City of Roseville Housing Authority** is a separate government entity whose purpose is to assist with the housing for the City's extremely low and very low-income residents. The Authority is controlled by the City and has the same governing body as the City, which also performs all accounting and administrative functions for the Authority. The financial activities of the Authority are included in the Housing Authority Housing Choice Voucher Special Revenue Fund.

The **Roseville Natural Gas Financing Authority** is a Joint Exercise Powers Agency created on December 6, 2006, for the purpose of acquiring, financing, and supplying natural gas to the City of Roseville. The members of the Authority are the City of Roseville and the former City of Roseville Redevelopment Agency. The Roseville Natural Gas Financing Authority is governed by a five-member Board. City Council serves as the governing body of the Authority and officers of the Authority are employees of the City. The financial activities of the Authority have been included in these financial statements in the Roseville Natural Gas Financing Authority Enterprise Fund.

The **City of Roseville Other Post-Employment Benefits Trust** is governed by the City's Resolution 10-275 and is used to account for contributions and investment income restricted to pay medical benefits. Benefit and contribution provisions are established by the City Council. Eligibility, actuarial interest rates, administration and certain other tasks are the responsibility of the Council established by the above resolution. The financial activities of the plan have been included in these financial statements in the Other Post-Employment Benefits Trust Fund.

The **Successor Agency to the Redevelopment Agency of the City of Roseville (Successor Agency)** is a separate government entity which was created after the dissolution of the City of Roseville Redevelopment Agency (RDA) to serve as a custodian for assets and to wind down the affairs of the RDA. The City was designated to serve as the Successor Agency subject to control of an Oversight Board. The Oversight Board is comprised of seven members of the local agencies that serve the RDA project area: two appointed by the mayor, two by the County of Placer, one by the Placer County Superintendent of Schools, one by the Chancellor of Sierra Community College and one by the Cities of Rocklin and Newcastle and the Gold Hill Cemetery District. The financial activities of the Successor Agency are included in the Successor Agency to the Redevelopment Agency Private Purpose Trust Fund.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Financial statements for the Roseville Natural Gas Financing Authority and the City of Roseville Other Post-Employment Benefits Trust may be obtained from the City of Roseville at 311 Vernon Street, Roseville, California, 95678. Separate financial statements for the Roseville Finance Authority, Roseville Housing Authority, and the Successor Agency are not issued.

The California Joint Powers Risk Management Authority, the Local Agency Workers' Compensation Excess Joint Powers Authority, the Highway 65 Joint Powers Authority, and the South Placer Wastewater Authority are not included in the accompanying basic financial statements because they do not meet the above financial accountability criteria as these entities are administered by governing boards separate from and wholly independent of the City.

B. Basis of Presentation

Government-wide Statements: The Statement of Net Position and the Statement of Activities display information about the primary government, the City and its component units. These statements include the financial activities of the overall City government, excluding fiduciary activities. Eliminations have been made to minimize the double counting of internal activities. However, the interfund services provided and used are not eliminated in the process of consolidation. These statements distinguish between the *governmental* and *business-type activities* of the City. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions. Business-type activities are financed in whole or in part by user charges and fees charged to external parties.

The Statement of Activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the City and for each function of the City's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) charges paid by the recipients of goods or services offered by the programs, (b) grants and contributions that are restricted to meeting the operational needs of a particular program and (c) fees, grants and contributions that are restricted to financing the acquisition or construction of capital assets. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues. Certain indirect costs are included in the program expense reported for individual functions and activities.

Fund Financial Statements: The fund financial statements provide information about the City's funds, including fiduciary funds and blended component units. Separate statements for each fund category—*governmental, proprietary,* and *fiduciary*—are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each of which is displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds in the supplemental section.

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Nonoperating revenues, such as subsidies and investment earnings, result from nonexchange transactions or ancillary activities.

C. Major Funds

Major funds are defined as funds that have either assets and deferred outflows of resources, liabilities and deferred inflows of resources, revenues or expenditures/expenses equal to ten percent of their fund-type total and five percent of the grand total. The General Fund is always a major fund. The City may also select other funds it believes should be presented as major funds.

The City reported the following major governmental funds in the accompanying financial statements:

General Fund – This is used as the main operating governmental fund of the City to account for the general revenues of the City not specifically levied or collected for other City funds and the related expenditures. The General Fund accounts for all financial resources of a governmental unit which are not accounted for in another fund.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Community Facilities Districts Capital Projects Fund – This fund is used to account for specific public improvements such as streets, sewers, storm drains, sidewalks or other amenities funded by special taxes levied against benefited properties.

The City reported the following enterprise funds as major funds in the accompanying financial statements:

Electric Fund – This fund accounts for all financial transactions relating to the City's electric service. Services are on a user charge basis to residents and business owners located in the City.

Water Fund – This fund accounts for all financial transactions relating to the City's water services. Services are on a user charge basis to residents and business owners located in the City.

Wastewater Fund – This fund accounts for all financial transactions relating to the City's wastewater collection and treatment. Services are on a user charge basis to residents and business owners located in the City.

Waste Services Fund – This fund accounts for all financial transactions relating to the City's waste services. Services are on a user charge basis to residents and business owners located in the City.

Roseville Natural Gas Financing Authority – This fund accounts for financing and purchasing pre-paid natural gas for the generation of power for the Roseville Energy Park.

The City also reports the following funds:

Special Revenue Funds – The funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.

Debt Service Fund – The funds are used to account for community facilities districts transactions related to the districts debt.

Permanent Fund – The funds are used to account for the citizens benefit funds.

Internal Service Funds – The funds account for fleet, facilities services, information technology, general equipment replacement, workers' compensation, general liability, unemployment reserve, and general benefits such as vision, dental, and section 125 benefits all of which are provided to other departments on a cost reimbursement basis.

Fiduciary Funds – These funds account for assets held by the City as a fiduciary for various functions. The Endowment Private-Purpose Trust Fund is used to account for assets held by the City as a fiduciary for various endowment funds for the benefits of certain private-purpose trust funds. The Successor Agency to the Redevelopment Agency Private-Purpose Trust Fund accounts for the accumulation of resources to be used for payments at appropriate amounts and times in the future. The Other Post-Employment Benefits Trust Fund accounts for the accumulation of resources to be used for retiree medical benefit payments at appropriate amounts and times in the future. The Custodial Funds are used to account for assets held by the City as a fiduciary for certain special assessment districts in the City, North Roseville-Rocklin Sewer Refunding District, Foothills Boulevard Extension Assessments, Dry Creek Drainage Basin, County Capital Facilities Fee, South Placer Wastewater Authority, Special Sewer Benefit Areas, South Placer County Tourism Business Improvement District (SPCTBID), South Placer County Safe Kids Coalition, Highway 65 JPA, external traffic mitigation fees and other programs for the benefits of parties outside of the City. The financial activities of these funds are excluded from the government-wide financial statement but are presented in separate Fiduciary Fund financial statements.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Basis of Accounting

The government-wide, proprietary, and fiduciary fund financial statements are reported using the *economic resources measurement focus* and the *accrual basis* of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place.

Governmental funds are reported using the *current financial resources* measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when *measurable and available*. The City considers all revenues reported in the governmental funds to be available if the revenues are collected within one hundred twenty (120) days after year-end with the exception of property and sales taxes which is considered available if collected within sixty (60) days. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under leases are reported as *other financing sources*.

Governmental fund revenues subject to accrual are property, sales tax, transient occupancy tax, franchise fees, certain other intergovernmental revenues, certain charges for services and interest revenue. Fines, licenses and permits, and charges for services are not subject to accrual because they are not measurable until received in cash.

Non-exchange transactions, in which the City gives or receives value without directly receiving or giving equal value in exchange, include taxes, grants, entitlements, and donations. On the accrual basis, revenue from taxes is recognized in the fiscal year for which the taxes are levied or assessed. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

The City may fund programs with a combination of cost-reimbursement grants, categorical block grants, and general revenues. Thus, both restricted and unrestricted net position may be available to finance program expenditures. The City's policy is to first apply restricted grant resources to such programs, followed by general revenues if necessary.

E. Cash, Cash Equivalents, and Investments

The City pools its available cash for investment purposes. The City considers pooled cash and investment amounts, with original maturities of three months or less, to be cash equivalents. Highly liquid market investments with maturities of one year or less at time of purchase are stated at amortized costs. All other investments are stated at fair value. For purposes of reporting cash flows, the City considers each fund's share in the cash and investments pool to be cash and cash equivalents.

F. Revenue Recognition for Electric, Water, Wastewater, and Waste Services Funds

Revenues are recognized based on services rendered to customers. All residential and commercial utility customers are billed once per month. There are twenty-four billing cycles per month which include all types of customers, based on their location within the City. Revenues for services provided but not billed at the end of a fiscal year are accrued. Contributions of cash or assets to proprietary funds from state and federal agencies, developers and others are recorded as revenue at acquisition value.

G. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position and balance sheet reports a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net assets that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then. The City has four items that qualify for reporting in this category on the government-wide and proprietary fund statements of net position. They are the deferred amounts on refunding, accumulated decrease in fair value of hedging derivatives, deferred outflows related to other postemployment benefits (OPEB), and deferred outflows related to pensions. A deferred amount on refunding results from the

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The accumulated decrease in fair value of hedging derivatives represents the change in fair value for the City's derivative liabilities that have been determined to be not effective. The deferred outflows related to pensions and OPEB are described in Note 13 and Note 14, respectively. The deferred lease items are described in Note 9.

In addition to liabilities, the statement of net position and balance sheet reports a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflow of resources*, represents an acquisition of net assets that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time. The City has four types of these items reported in the government-wide and proprietary fund statements of net position and the governmental funds balance sheet. They are the accumulated increase in fair value of hedging derivatives, deferred inflows related to pensions, the deferred inflows related to OPEB, and unavailable revenues. The accumulated increase in fair value of hedging derivatives represents the change in fair value for the City's derivative assets that have been determined to be effective.

The deferred inflows related to pensions and OPEB are described in Note 13 and 14, respectively. Unavailable revenue represents revenues which has been earned but will not be collected within the City's period of availability as defined in Note 1D.

In the governmental funds balance sheet, the unavailable revenue category arises only under a modified accrual basis of accounting. When amounts have been earned, but have not been received within the availability period, these amounts are deferred and recognized as revenue in the period that the amounts become available.

H. Property Tax

Placer County assesses properties and bills, collects, and distributes property taxes to the City. The County remits the entire amount levied and handles all delinquencies, retaining interest and penalties. Secured and unsecured property taxes are levied on July 1st of the preceding fiscal year.

Secured property tax is due in two installments, on November 1st and February 1st, and becomes a lien on those dates. It becomes delinquent on December 10th and April 10th, respectively. Unsecured property tax is due on July 1st and becomes delinquent on August 31st. Collection of delinquent accounts is the responsibility of the County, which retains all penalties.

The term "unsecured" refers to taxes on personal property other than real estate, land and buildings. These taxes are secured by liens on the property being taxed. Property tax revenues are recognized by the City in the fiscal year they are assessed provided they become available as defined above.

I. Compensated Absences

Compensated absences are comprised of unused vacation leave, vested sick pay and certain compensated time off, which are accrued as earned. The estimated value of the City's liability for compensated absences is accrued annually in the government-wide and proprietary fund financial statements when the leave (1) is attributable to services already rendered, (2) accumulates, and (3) is more likely than not to be used for time off or otherwise settled in cash or noncash means. For all governmental funds, a liability of these amounts is reported only if they have matured, for example, as a result of employee resignations and retirements. The remaining portion is recorded as a liability in the statement of net position. For fiscal year 2025, the City's net compensated absences liability decreased for both governmental and business-type activities by $1,780,777 and $389,802, respectively.

	Governmental Activities	Business Activities	Total
Beginning Balance, as restated	$ 17,303,177	$ 11,192,037	$ 28,495,214
Net change	(386,456)	(799,794)	(1,186,250)
Ending Balance	$ 16,916,721	$ 10,392,243	$ 27,308,964
Current Portion	$ 8,761,963	$ 5,534,136	$ 14,296,099

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

J. Inventories

Inventories are valued at cost, using the weighted-average method. Inventories of the governmental funds consist of expendable supplies held for consumption. The cost is recorded as an expenditure in the governmental funds at the time individual inventory items are consumed. Inventories reported in governmental funds are equally offset by nonspendable fund balance which indicates that they do not constitute available spendable resources even though they are a component of net current assets. Inventories of the proprietary funds consist primarily of supplies and equipment held for internal consumption.

K. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items. In governmental funds, prepaid items are not in spendable form and are therefore included in nonspendable fund balance and recorded on the consumption method.

L. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect the reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

M. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the City's California Public Employees Retirement System (CalPERS) plan and additions to/deductions from the plan's fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

N. Other Postemployment Benefits (OPEB)

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the City of Roseville Retiree Healthcare Plan (Plan) and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

O. Fair Value Measurement

The City categorizes the fair value measurements of its investments based on the hierarchy established by generally accepted accounting principles. The fair value hierarchy, which has three levels, is based on the valuation inputs used to measure an asset’s fair value: Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

P. Net Position

Net position is the excess of all the City’s assets and deferred outflows of resources over all its liabilities and deferred inflows of resources, regardless of fund. Net position is divided into three categories. These categories apply only to net position, which is determined only for proprietary funds and at the government-wide level, and are described below:

Net investment in capital assets describes the portion of net position which is represented by the current net book value of the capital assets, less the outstanding balance of any debt issued to finance these assets.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Restricted describes the portion of net position which is restricted as to use by the terms and conditions of agreements with outside parties, governmental regulations, laws, or other restrictions which the City cannot unilaterally alter. These principally include developer fees received for use on capital projects (expended) or contributions received in permanent funds (unexpended), debt service requirements, and redevelopment funds restricted to low and moderate income purposes.

Unrestricted describes the portion of net position which is not restricted to use.

The City applies restricted resources when an expense is incurred for purposes which both restricted and unrestricted net position are available.

Q. Fund Balance

In the fund financial statements, fund balances represent the net current assets of each fund. Net current assets generally represent a fund's assets and deferred outflows of resources, less its liabilities and deferred inflows of resources.

The City's fund balances are classified based on spending constraints imposed on the use of resources. For programs with multiple funding sources, the City prioritizes and expends funds in the following order: restricted, committed, assigned, and unassigned. Each category in the following hierarchy is ranked according to the degree of spending constraint:

Nonspendable represents balances set aside to indicate items do not represent available, spendable resources even though they are a component of assets. Fund balances required to be maintained intact, such as permanent endowments, and assets not expected to be converted to cash, such as prepaids, notes receivable, and land held for redevelopment are included. However, if proceeds realized from the sale or collection of nonspendable assets are restricted, committed or assigned, then nonspendable amounts are required to be presented as a component of the applicable category.

Restricted fund balances have external restrictions imposed by creditors, grantors, contributors, laws, regulations, or enabling legislation which requires the resources to be used only for a specific purpose. Encumbrances and nonspendable amounts subject to restrictions are included along with spendable resources.

Committed fund balances have constraints imposed by formal action of the City Council, such as an ordinance, which may be altered only by the same formal action of the City Council. Encumbrances and nonspendable amounts subject to council commitments are included along with spendable resources.

Assigned fund balances are amounts intended to be used by the City for specific purposes but do not meet the criteria to be classified as committed. Assignments may be made by the City Council or its designee, the Assistant City Manager/Chief Financial Officer. Unlike commitments, assignments generally only exist temporarily. Thus, additional action does not normally have to be taken for the removal of an assignment.

Unassigned fund balance represents residual amounts that have not been restricted, committed, or assigned. This includes the residual General Fund balance and residual fund deficits, if any, of other governmental funds.

It is the City's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

R. Capital Assets

All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Contributed capital assets are valued at their estimated acquisition value on the date contributed. The City has recorded all its public domain (infrastructure) capital assets, which include roads, bridges, curbs and gutters, streets and sidewalks, drainage systems and lighting systems.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Capital assets with limited useful lives are depreciated over their estimated useful lives. Alternatively, the modified approach is used for certain capital assets. Depreciation is not provided under this approach, but all costs associated with these assets are expensed, unless they are additions or improvements.

The purpose of depreciation is to spread the cost of capital assets equitably among all users over the life of these assets. The amount charged to depreciation expense each year represents that year's pro rata share of the cost of capital assets.

Depreciation is provided using the straight-line method which means the cost of the asset is divided by its expected useful life in years and the result is charged to expense each year until the asset is fully depreciated. The City has assigned the useful lives and capitalization thresholds listed below to capital assets:

	Useful Lives	Capitalization Thresholds
Buildings	40 years	$ 20,000
Improvements	20 -75 years	no threshold
Equipment	6 - 20 years	5,000
Computer Equipment	6 years	5,000
Vehicles	6 - 8 years	5,000
Parks	25 years	5,000
Landscaping	12 years	20,000
Bike Paths	20 years	20,000
Bridges	90 years	20,000
Culverts	75 years	20,000
Drain Inlets	50 years	20,000
Roadway Minor Concrete	20 years	20,000
Sound Walls	35 years	20,000
Storm Drains	75 years	20,000
Traffic Signals	20 years	no threshold
Electric Distributions System	15 - 60 years	no threshold
Sewer and Water Distributions Systems	75 years	no threshold
Electric Generation	15 - 30 years	5,000
Electric Power Plants and Substation	40 years	5,000
Sewer and Water Treatment Plants	50 years	5,000

Major outlays for capital assets and improvements are capitalized as projects are constructed.

S. Leases

Lessee lease

The City of Roseville is a lessee for a noncancellable lease of equipment. The City of Roseville recognizes a lease liability and an intangible right-to-use lease asset (lease asset) in the government-wide financial statements. The City of Roseville recognizes lease liabilities with an initial, individual value of $75,000 or more.

At the commencement of a lease, the City of Roseville initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized on a straight-line basis over its useful life. Key estimates and judgments related to leases include how the City of Roseville determines (1) the discount rate it uses to discount the expected lease payments to present value, (2) lease term, and (3) lease payments.

- The City of Roseville uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, the City of Roseville generally uses its estimated incremental borrowing rate as the discount rate for leases.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

- The lease term includes the noncancellable period of the lease. Lease payments included in the measurement of the lease liability are composed of fixed payments and purchase option price that the City of Roseville is reasonably certain to exercise.

The City of Roseville monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability.

Lease assets are reported with other capital assets and lease liabilities are reported with long-term debt on the statement of net position.

Lessor lease

The City of Roseville is a lessor for a noncancellable lease of a building. The City of Roseville recognizes a lease receivable and a deferred inflow of resources in the government-wide and governmental fund financial statements.

At the commencement of a lease, the City of Roseville initially measures the lease receivable at the present value of payments expected to be received during the lease term. Subsequently, the lease receivable is reduced by the principal portion of lease payments received. The deferred inflow of resources is initially measured as the initial amount of the lease receivable, adjusted for lease payments received at or before the lease commencement date. Subsequently, the deferred inflow of resources is recognized as revenue over the life of the lease term.

Key estimates and judgments include how the City of Roseville determines (1) the discount rate it uses to discount the expected lease receipts to present value, (2) lease term, and (3) lease receipts.

- The City of Roseville uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancellable period of the lease. Lease receipts included in the measurement of the lease receivable is composed of fixed payments from the lessee.

The City of Roseville monitors changes in circumstances that would require a remeasurement of its lease, and will remeasure the lease receivable and deferred inflows of resources if certain changes occur that are expected to significantly affect the amount of the lease receivable.

T. Subscription-Based Information Technology Arrangements

The City of Roseville is a subscriber for a noncancellable subscription of information technology services. The City of Roseville recognizes a subscription liability and an intangible right-to-use subscription asset (subscription asset) in the government-wide financial statements. The City of Roseville recognizes subscription liabilities with an initial, individual value of $75,000 or more.

At the commencement of a subscription, the City of Roseville initially measures the subscription liability at the present value of payments expected to be made during the subscription term. Subsequently, the subscription liability is reduced by the principal portion of subscription payments made. The subscription asset is initially measured as the initial amount of the subscription liability, adjusted for subscription payments made at or before the subscription commencement date, plus certain initial direct costs. Subsequently, the subscription asset is amortized on a straight-line basis over its useful life. Key estimates and judgments related to subscriptions include how the City of Roseville determines (1) the discount rate it uses to discount the expected subscription payments to present value, (2) lease term, and (3) subscription payments.

- City of Roseville uses the interest rate charged by the vendor as the discount rate. When the interest rate charged by the vendor is not provided, the City of Roseville generally uses its estimated incremental borrowing rate as the discount rate for subscriptions.
- The subscription term includes the noncancellable period of the subscription. Subscription payments included in the measurement of the subscription liability are composed of fixed payments that the City of Roseville is reasonably certain to exercise.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The City of Roseville monitors changes in circumstances that would require a remeasurement of its subscriptions and will remeasure the subscription asset and liability if certain changes occur that are expected to significantly affect the amount of the subscription liability.

Subscription assets are reported with other capital assets and subscription liabilities are reported with long-term debt on the statement of net position.

U. New Accounting Pronouncements

Effective in Current Fiscal Year

GASB Statement No. 101 – In June 2022, the GASB issued Statement No. 101, *Compensated Absences*. The objective of this Statement is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. That objective is achieved by aligning the recognition and measurement guidance under a unified model and by amending certain previously required disclosures. The Statement is effective for reporting periods beginning after December 15, 2023. See Note 22 for the impact of implementation of this statement on the City's financial statements.

GASB Statement No. 102 – In December 2023, the GASB issued Statement No. 102, *Certain Risk Disclosures*. The objective of this Statement is to provide users of government financial statements with essential information about risks related to a government's vulnerabilities due to certain concentrations or constraints. The requirements of this Statement are effective for fiscal years beginning after June 15, 2025. This statement has not caused any changes for the City's funds.

Effective in Future Fiscal Years

GASB Statement No. 103 – In April 2025, the GASB issued Statement No. 103, *Financial Reporting Model Improvements.* The objective of this Statement is to improve key components of the financial reporting model to enhance its effectiveness in providing information that is essential for decision making and assessing a government's accountability. This Statement also addresses certain application issues. The requirements of this Statement are effective for fiscal years beginning after June 15, 2025. The City has not determined the effect of this Statement.

GASB Statement No. 104 – In September 2025, the GASB issued Statement No. 104, *Disclosure of Certain Capital Assets*. The objective of this Statement is to provide users of government financial statements with essential information about certain types of capital assets. The new standard is effective for periods beginning after June 15, 2025. Application of this statement is effective for the City's year ending June 30, 2026.

NOTE 2: CASH AND INVESTMENTS

The City pools cash from all sources and all funds, except certain specific investments within funds and cash with fiscal agents, so that it can be invested at the maximum yield, consistent with safety and liquidity, while individual funds can make expenditures at any time.

The City and its fiscal agents invest in individual investments and in investment pools. Individual investments are evidenced by specific identifiable pieces of paper called securities instruments, or by an electronic entry registering the owner in the records of the institution issuing the security, called the book entry system.

Individual investments are generally made by the City's fiscal agents as required under its debt issues. In order to maximize security, the City employs the Trust Department of a bank as the custodian of all City managed investments, regardless of their form.

The City's investments are reported at fair value, as required by generally accepted accounting principles. The City adjusts the carrying value of its investments to reflect fair value at each fiscal year end, and it includes the effects of these adjustments in income for that fiscal year.

NOTE 2: CASH AND INVESTMENTS (CONTINUED)

A. Classification

Cash and investments are classified in the financial statements as shown below:

Primary Government:	
Cash and investment in City Treasury	$ 982,723,923
Restricted cash and investments in City Treasury	4,008,709
Restricted cash and investments with fiscal agents	50,055,252
Total city cash and investments with primary government	1,036,787,884
Fiduciary Funds (separate statement):	
Cash and investments in City Treasury	440,867,511
Restricted cash and investments with fiscal agents	86,189,249
Total cash and investments	$ 1,563,844,644
Cash and investments as of June 30, 2025, consist of the following:	
Cash in bank and on hand	$ 9,020,662
Investments	1,554,823,982
Total cash and investments	$ 1,563,844,644

Cash and investments with original maturities of three months or less are treated as cash and equivalents for purpose of preparing Proprietary Fund statements of cash flows. Also, each Proprietary Fund's portion of the City's overall cash and investment pool is treated as cash and equivalents since these amounts are in substance demand deposits.

B. Investments Authorized by the California Government Code and the City's Investment Policy

The City's Investment Policy and the California Government Code allow the City to invest in the following, provided the credit ratings of the issuers are acceptable to the City and approved percentages and maturities are not exceeded. The table below also identifies certain provisions of the California Government Code or the City's Investment Policy where it is more restrictive:

Authorized Investment Type	Maximum Maturity	Minimum Credit Quality at Time of Purchase	Maximum Percentage of Portfolio Allowed	Maximum Investment in One Issuer
U.S. Treasury Obligations[1]	5 years	None	None	None
U.S. Agencies Securities [1]	5 years	None	None	None
Forward Delivery Agreements	N/A	A	None	None
Local Agency	5 years	None	None	N/A
Repurchase Agreements	1 Year	None	None	None
Bankers' Acceptance	180 Days	None	40%	30%
Commercial Paper	270 Days	A - 1	25%	10%[2]
Medium Term Notes	5 years	A	30%	None
Collateralized Time Deposit	5 years	None	30%	None
Negotiable Certificate of Deposit	5 years	A	30%	None
Local Agency Investment Fund (LAIF)	N/A	None	None	LAIF Limit
Insured Savings Accounts	N/A	None	None	None
Money Market Mutual Funds	N/A	None	20	10%
Shares in a California Common Law Trust	N/A	None	None	None
Supranationals	5 years	AA	30%	None
Mortgage Pass-Through Securities	5 years	AA	20%	None

NOTE 2: CASH AND INVESTMENTS (CONTINUED)

(1) In specified fund accounts where liquidity is not the primary investment objective, the maximum maturity can be up to ten years with granted express authority by the City Council. Such investments cannot be made less than three months following the approval of extended investment terms. All longer-term investments must be Federal Treasury or Agency securities. The specified fund accounts are:

- City Pool, subject to 25%
- Citizens Benefit Permanent Fund
- Roseville Aquatics Complex Maintenance Fund
- Endowment Private-Purpose Trust Fund
- OPEB Trust Fund
- All future trust and/or endowment funds established by the City with no anticipated use of principal

(2)Eligible commercial paper may not represent more than 10% of the outstanding paper of an issuing corporation.

C. Investments Authorized by Debt Agreements

The City must maintain required amounts of cash and investments with trustees or fiscal agents under the terms of certain debt issues. These funds are unexpended bond proceeds or are pledged reserves to be used if the City fails to meet its obligations under these debt issues. The California Government Code requires these funds to be invested in accordance with City resolutions, bond indentures or State statutes. The table below identifies the investment types that are authorized for investments held by fiscal agents. The table also identifies certain provisions of these debt agreements:

Authorized Investment Type	Maximum Maturity	Minimum Credit Quality
U.S. Treasury Obligations	N/A	None
U.S. Agencies Securities	N/A	None
Certificates of Deposit	N/A - 30 days	None to A-1
Time Deposits	N/A - 30 days	None to A-1
Repurchase Agreements	N/A - 30 days	None to A
Bankers' Acceptance	N/A - 270 days	None to A-1
Money Market Funds	N/A	None to Aam-G
Taxable Governmental Money	N/A	None
Commercial Paper	180 - 270 days	A-1 to AA
Special Revenue Bonds	N/A	AA
Pre-refunded Municipal Obligations	N/A	AAA
Municipal Obligations	N/A	AAA
Common Law Trust	N/A	None
California Asset Management Pool (CAMP)	N/A	None
Lawful Investments	N/A	None
Investment Agreements	N/A	A+ to AA
Local Agency Investment Fund (LAIF)	N/A	None
Placer County Investment Pool	N/A	None
Supranationals	N/A	None
Mortgage Pass - Through Securities	N/A	None

NOTE 2: CASH AND INVESTMENTS (CONTINUED)

D. Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Normally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The City also manages its interest rate risk by holding most investments to maturity.

Information about the sensitivity of the fair values of the City's investments (including investments held by bond trustees) to market interest rate fluctuations is provided by the following table that shows the distribution of the City's investments by maturity or earliest call date:

	Remaining Maturity (in Months)				
	12 Months or Less	13 to 24 Months	25 to 60 Months	More Than 60 Months	Total
Federal Agency Securities	$ 113,375,230	$ 177,574,938	$ 178,127,537	$ 214,115,104	$ 683,192,809
Forward Purchase Agreement	4,262,039	-	-	-	4,262,039
Local Agency Bonds	4,010,284	-	21,554,506	-	25,564,790
Corporate Notes	153,992,813	50,228,512	114,309,295	-	318,530,620
Money Market Mutual Funds	147,591,811	-	-	-	147,591,811
Guranteed Investment Contracts (GIC)	-	-	3,918,125	2,150,737	6,068,862
Local Agency Investment Fund	51,001,713	-	-	-	51,001,713
Other Post Employment Benefits Trust (OPEB)	176,920,515	-	-	-	176,920,515
Supranationals	-	-	8,013,818	-	8,013,818
Pension Trust	24,138,771	-	-	-	24,138,771
California Asset Management Pool	51,360,986	-	-	-	51,360,986
Commercial Paper - Discount	9,936,600	-	-	-	9,936,600
U.S. Treasury Obligations	40,924,560	-	2,007,820	5,308,268	48,240,648
Total	$ 777,515,322	$ 227,803,450	$ 327,931,101	$ 221,574,109	$ 1,554,823,982

The City is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by California Government Code Section 16429 under the oversight of the Treasurer of the State of California. The City reports its investment in LAIF at the fair value amount provided by LAIF, which is the same as the value of the pool share. At June 30, 2025, the fair value was $61,043 less than the City's cost. The balance is available for withdrawal on demand and is based on the accounting records maintained by LAIF, which are recorded on an amortized cost basis. Included in LAIF's investment portfolio are collateralized mortgage obligations, mortgage-backed securities, other asset-backed securities, loans to certain state funds, and floating rate securities issued by federal agencies, government-sponsored enterprises, United States Treasury Notes and Bills, and corporations. At June 30, 2025, these investments matured in an average of 248 days. LAIF is not registered with the Securities and Exchange Commission and is not rated.

The City is a participant in the California Asset Management Program (CAMP). CAMP is an investment pool offered by the California Asset Management Trust (Trust). The Trust is a joint powers authority and public agency created by the Declaration of Trust and established under the provisions of the California Joint Exercise of Powers Act (California Government Code Sections 6500 et seq., or the "Act") for the purpose of exercising the common power of its Participants to invest certain proceeds of debt issues and surplus funds. The Pool's investments are limited to investments permitted by subdivisions (a) to (n), inclusive, of Section 53601 of the California Government Code. The City reports its investments in CAMP at the fair value amounts provided by CAMP, which is the same as the value of the pool share. At June 30, 2025, the fair value approximated is the City's cost, and these investments had an average maturity of 41 days. CAMP is not registered with the Securities and Exchange Commission and is not rated.

Money market mutual funds were available for withdrawal on demand and at June 30, 2025 and had an average maturity of 47 days for the Dreyfus U.S. Treasury Money Market Fund and 42 days for the First American Money Market Fund.

NOTE 2: CASH AND INVESTMENTS (CONTINUED)

E. Credit Risk

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization.

Presented below is the actual rating as of June 30, 2025, for each investment type as provided by Standard and Poor's investment rating system:

	AAA / AAAm	AA+ / AA / AA-	A+ / A / A-	BBB	Total
Investments:					
Federal Agency Securities	$ -	$ 504,194,108	$ -	$ -	$ 504,194,108

F. Concentration of Credit Risk

Investments in any one issuer, other than U. S. Treasury securities, money market mutual funds, and investment pools that represent 5 percent or more of total entity-wide investments are as follows at June 30, 2025:

Issuer	Investment Type	Amount	% of Portfolio
Federal Farm Credit Bank	Federal agency securities	$ 156,525,775	10.07%
Federal Home Loan Bank	Federal agency securities	339,107,013	21.68%
Federal Agricultural Mortgage Corporation (FAMC)	Federal agency securities	111,996,954	7.16%
First American Multi-Manager Fixed-Income Fund	First American Funds	86,602,662	5.54%

Investments in any one issuer that represent 5 percent or more of total investments by individual funds were as follows at June 30, 2025:

Fund	Issuer	Investment Type	Amount
Major Enterprise Funds:			
Roseville Natural Gas Financing Authority	Wachovia Bank*	Forward Purchase Agreement	$ 4,262,039

*Issuer changed from Wachovia Bank to Wells Fargo Bank as Wachovia Bank w as acquired by Wells Fargo Bank in 2008

NOTE 2: CASH AND INVESTMENTS (CONTINUED)

G. Fair Value Measurements

The City's Pool categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. These principles recognize a three-tiered fair value hierarchy, as follows:

- Level 1: Investments reflect prices quoted for identical assets in active markets;
- Level 2: Investments reflect prices that are based on a similar observable inputs;
- Level 3: Investments reflect prices based on unobservable inputs.

The asset's level within the hierarchy is based on the lowest level of input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The determination of what constitutes observable requires judgment by management. City management consider observable data to be that market data, which is readily available, regularly distributed or updated, reliable, and verifiable, not proprietary, and provided by multiple independent sources that are actively involved in the relevant market. The categorization of an investment within the hierarchy is based upon the relative observability of the inputs to its fair value measurement and does not necessarily correspond to City management's perceived risk of that investment. The Pool's asset market prices are derived from closing bid prices as of the end of business day as supplied by U.S. Bank. Where prices are not available from generally recognized sources, the securities are priced using a yield-based matrix system to arrive at an estimated fair value. Prices that fall between data points are interpolated. The City has a forward purchase agreement that is measured using level 3 inputs. This item is valued using the discounted cash flows approach. Deposits and withdrawals in governmental investment pools, such as LAIF and CAMP Investment Pools, are made on the basis of $1 and not fair value. Accordingly, the City's measured fair value of its proportionate share in these types of investments is based on uncategorized inputs not defined as a Level 1, Level 2, or Level 3 input.

The Pool has the following recurring fair value measurements as of June 30, 2025:

Investments at Fair Value	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Federal Agency Securities	$ 683,192,809	$ -	$ 683,192,809	$ -

NOTE 3: INTERFUND TRANSACTIONS

A. Transfers Among Funds

With City Council approval, resources may be transferred from one City fund to another. Transfers between funds during the fiscal year ended June 30, 2025, were as follows:

Fund Receiving Transfer	Fund Making Transfer	Amount Transferred	
Governmental Funds:			
General Fund			
	Electric Fund	$ 8,640,558	(C)
	Non-Major Governmental Funds	10,138,432	(A), (C)
	Total General Fund	18,778,990	
Non-Major Governmental Funds			
	General Fund	2,938,972	(A), (B)
	Electric Fund	407,539	(B)
	Water Fund	1,085,401	(B), (C)
	Wastewater Fund	688,712	(B), (C)
	Waste Services Fund	377,149	(B), (C)
	Non-Major Governmental Funds	2,318,273	(A), (B)
	Internal Service Funds	148,469	(A)
	Total Non-Major Governmental Funds	7,964,515	
	Total Governmental Funds	26,743,505	
Enterprise Funds:			
Local Transportation Fund	General Fund	129,191	(A)
Youth Development Fund	General Fund	1,421,363	(B)
	Total Enterprise Funds	1,550,554	
Internal Service Funds:			
Fleet Fund			
	Electric Fund	49,903	(A)
Equipment Replacement Fund			
	General Fund	1,600,000	(A)
	Total Internal Service Funds	1,649,903	
	Total Interfund Transfers	$ 29,943,962	

(A) Transfers to fund operations
(B) Transfers to fund various projects and/or pay debt service
(C) Transfers to fund in-lieu franchise fees

NOTE 3: INTERFUND TRANSACTIONS (CONTINUED)

B. Current Interfund Balances

Current interfund balances arise in the normal course of business and are expected to be repaid shortly after the end of the fiscal year. At June 30, 2025, interfund balances comprised the following:

Due to Other Funds	Due From Other Funds	Amount	
Governmental Activities			
Non-Major Governmental Funds:			
Non-Major Governmental Funds	General Fund	$ 1,990,638	(A),(B)
	Internal Service Funds	584,571	(A)
	Total Non-Major Governmental Funds	2,575,209	
Enterprise Activities			
Non-Major Enterprise Funds	Internal Service Funds	55,000	(B)
Roseville Natural Gas Financing	General Fund	676,173	(A)
	Total Enterprise Activities	731,173	
		$ 3,306,382	

(A) Current portion of the advances mentioned in 3C below.
(B) To cover negative cash balances as of June 30.

C. Long-Term Interfund Advances

At June 30, 2025, the funds below had made advances which were not expected to be repaid within the next year:

Fund Receiving Advance	Fund Making Advance	Amount of Advance
Governmental Activities		
Non-Major Governmental Funds	General Fund	$ 9,727,118
	Internal Service Funds	1,653,108
	Total Governmental Activities	11,380,226
Enterprise Activities		
Internal Service Funds	Internal Service Funds	1,945,000
		$ 13,325,226

Golf Course advance from the Fleet Fund bears interest at the prior fiscal year's average interest rate of the City's pooled investments. Principal is paid annually in the amount of $127,000 with the final principal payment in fiscal year 2037. Simple interest is deferred for the life of the loan and a lump-sum deferred interest payoff is due in fiscal year 2037. As of June 30, 2025, the accrued deferred interest payable not included in the advance amount in the table above is $2,442,690.

Development Impact has five advances from the General Fund that bears interest at the prior fiscal year's average interest rate of the City's pooled investments. The first advance has annual principal payments of $409,042 plus interest with the final payment due in fiscal year 2027. The second advance has annual principal payments of $569,440 plus interest with the final payment due in fiscal year 2028. The third advance has annual principal payments of $1,000,000 plus interest with the final payment due in fiscal year 2028. The fourth advance has annual principal payments of approximately $22,000 plus interest through fiscal year 2031 and then annual principal payments of $282,578 plus interest with the final payment due in fiscal year 2042. The fifth advance has annual principal payments of $483,702 plus interest with the final payment due in fiscal year 2035.

NOTE 3: INTERFUND TRANSACTIONS (CONTINUED)

Development Impact has two advances from the Fleet Fund. The first advance bears interest at the prior fiscal year's average interest rate of the City's pooled investments plus one-half percent. Interest only payments were made the first three years of the advance beginning in fiscal year 2015. Annual principal payments of $33,345 plus interest are being paid over an 18-year term beginning in fiscal year 2018 and ending in fiscal year 2035. The second advance bears interest at the prior fiscal year's interest rate of the City's pooled investments. In fiscal year 2026 the final payment is due for principal of $424,225 plus interest.

School-Age Child Care advance from the Fleet Fund bears interest at the prior fiscal year's average interest rate of the City's pooled investments. In fiscal year 2018 two prior advances and one new $300,000 advance were consolidated into one total advance. In fiscal year 2020, $340,000 was added. In fiscal year 2023, $1,275,000 was added. Annual principal payments of $55,000 plus interest are due through fiscal year 2032. The annual principal amount increases to $68,000 through fiscal year 2037 and then increases to $127,500 through fiscal year 2047.

D. Internal Balances

Internal balances are presented in the City-wide financial statements only. They represent the net interfund receivables and payables remaining after the elimination of all such balances within governmental and business - type activities.

NOTE 4: RECEIVABLES

The City combines Accounts, Interest, and Due From Other Agency receivables together and presents this amount as Receivables in the financial statements. These separate receivables are classified below for the Governmental and Proprietary funds:

	General	Community Facilities District	Non-Major Governmental Funds	Total Governmental Funds	Governmental Activities Internal Service Funds	Total Governmental Activities
Accounts receivables	$ 23,418,333	$ -	$ 11,617,811	$ 35,036,144	$ 73,473	$ 35,109,617
Taxes receivable	3,282,169	-	286,020	3,568,189	-	3,568,189
Interest receivable	730,685	32,490	7,530,650	8,293,825	2,929,021	11,222,846
Total	$ 27,431,187	$ 32,490	$ 19,434,481	$ 46,898,158	$ 3,002,494	$ 49,900,652

	Business-Type Activities - Enterprise Funds					
	Electric	Water	Wastewater	Waste Services	Non-Major Enterprise Funds Total	Totals
Accounts receivables	$ 41,007,443	$ 9,679,099	$ 11,455,758	$ 5,076,904	$ 12,462,595	$ 79,681,799
Taxes receivable	25,378	-	-	-	-	25,378
Interest receivable	1,095,617	693,990	1,542,867	208,148	37,803	3,578,425
Permits receivables	1,004,531	6,614,701	-	-	-	7,619,232
Total	$ 43,132,969	$ 16,987,790	$ 12,998,625	$ 5,285,052	$ 12,500,398	$ 90,904,834

NOTE 5: NOTES RECEIVABLE

The City engages in programs designed to encourage business enterprises, construction or improvement in low-to-moderate income housing, or other projects. Under these programs, grants or loans are provided with favorable terms to businesses, homeowners or developers who agree to spend these funds in accordance with the City's terms. Although these notes are expected to be repaid in full, their balances have been offset in the fund financial statements by unavailable revenue, due to other government agencies or fund balance. Notes receivable were comprised of the following at June 30, 2025:

Flood Loan Notes Receivable	$ 6,634
Housing Elevation Notes	5,000
Water Meter Notes Receivable	12,401
SPWA Loan	91,666,612
First Time Home-Buyer Notes	2,364,347
Due From Successor Agency	7,849,194
Housing Rehabilitation and Affordable Housing Notes	51,421,116
Westbrook Blvd. Segment 4 Loan	4,785,121
Total	$ 158,110,425

A. Flood Loan Notes Receivable

The City has provided notes to various homeowners and businesses for rehabilitation due to flood damage. The maximum note amount is $5,000 carrying various interest rates and payment dates. The balance of these notes receivable at June 30, 2025 was $6,634.

B. Housing Elevation Notes Receivable

In fiscal year 1997, the Federal Emergency Management Agency (FEMA) approved Hazard Mitigation Grant Program funds to be used for residential home elevation projects in the City at a maximum of $5,000 per household, with the total federal share not to exceed $1,493,096. The City provided matching funds to each eligible household at a maximum of $5,000 in the form of a zero percent, deferred loan payable upon sale, change of title or change of use. As of June 30, 2025, two notes funded through the FEMA Hazard Mitigation Grant Program were outstanding with a total balance of $5,000.

C. Water Meter Notes Receivable

The City entered into an agreement with Stonesfair Management for Water Meter Installations at Windscape Apartments. The original note amount is payable in 120 monthly installments. The balance of note at June 30, 2025 was $12,401.

D. Flood Control Loan

On May 10, 2017, the City entered into an agreement with the Placer County Flood Control and Water Conservation District to fund the Antelope Creek Flood Control project with a loan to be paid back with future development fees. The loan bears simple interest based on the Construction Cost Index. As of June 30, 2025, the loan was fully collected.

E. SPWA Loan

In June 2020, the City entered into loan agreements with the State Water Resources Control Board to secure funding for the Pleasant Grove Wastewater Treatment Plant Expansion and Energy Recovery Projects in the form of loans from the Clean Water State Revolving Fund. The City then entered into a reimbursement agreement with the South Placer Wastewater Authority as the Authority was responsible for the completion of these projects. The loans bear interest at the rate of 1.30% and are payable in 30 annual payments beginning on June 10, 2023. The balance of the loan receivable at June 30, 2025 was $91,666,612.

NOTE 5: NOTES RECEIVABLE (CONTINUED)

F. First Time Home-Buyer Notes Receivable

The City engages in a first-time home-buyer program designed to encourage home ownership among low - income residents. Under this program, grants are provided at no interest and are due upon sale or transfer of the property. Although these notes are expected to be repaid in full, their balance has been offset with deferred inflow of resources, as they are not expected to be repaid during the next fiscal year and any repayments will be used to reduce future grant draw-downs by the City. The balance of the notes receivable arising from this program at June 30, 2025, was $2,364,347.

G. Successor Agency Loans

Prior to July 1, 2011, the former Redevelopment Agency had received various advances from various City funds. These advances bore interest at the average interest rate of the City's pooled investments. Principal and accrued interest on the advances totaled $32,768,517 at July 1, 2011. During fiscal year 2012, the City and Redevelopment Agency determined that certain advances should have instead been funded by bond proceeds of the Agency. Therefore, the Redevelopment Agency repaid advances from the City in the amount of $7,309,447 prior to the dissolution of the Agency on January 31, 2012.

With the dissolution of the Agency effective February 1, 2012, the Successor Agency assumed the balance of the obligation to repay the advances in the amount of $25,603,129 for principal and accrued interest and recorded a notes payable to the Low and Moderate Income Housing Asset Fund equal to twenty percent of the balance of the notes. During fiscal year 2013, the State Department of Finance denied the prepaid advance and required the return of $7,309,447 to the Successor Agency. The General Fund returned the cash to the Successor Agency during fiscal year 2013. The Successor Agency received its Finding of Completion in August 2013 determining that notes are enforceable obligations.

During fiscal year 2014, the Successor Agency completed its Long-Range Property Management Plan which was approved by the Department of Finance in May 2014 and as a result, the Successor Agency transferred land that was designated for governmental use to the City in the amount of $7,107,581. As a result of the transfer, the City cancelled the notes that had been made to the former Redevelopment Agency for the purchase of those properties, including accrued interest, in the amount of $5,902,331.

During fiscal year 2014, the Department of Finance clarified how the interest is to be calculated on each note to the Successor Agency. The City recalculated the interest due on the notes using the revised guidance and as a result the interest receivable was reduced by $3,030,067. The principal balance of the notes as of June 30, 2025 is $7,849,194.

H. Housing Rehabilitation and Affordable Housing Notes Receivable

The City engages in programs designed to encourage construction or improvement in low-to-moderate income housing or other projects. Under these programs, grants or notes are provided under favorable terms to home- owners or developers who agree to spend these funds in accordance with the City's or Agency's terms. Although these notes are expected to be repaid in full, their balance has been offset with a deferred inflow of resources as they are not expected to be repaid during the next fiscal year and any repayments will be used to reduce future grant draw-downs by the City. With the dissolution of the Agency effective February 1, 2012, the assets of the Low and Moderate Income Housing Fund, including affordable housing notes receivable, were assumed by the Low and Moderate Income Housing Asset Fund. The balance of the notes receivable arising from these programs at June 30, 2025, was $51,421,116.

NOTE 5: NOTES RECEIVABLE (CONTINUED)

I. Westbrook Boulevard Segment 4 Loan

Under the Sierra Vista Specific Plan developer agreement, developers are required to build infrastructure upon reaching certain build-out milestones. For segment 4 of Westbrook Boulevard the milestones have yet to be reached. However, the City determined the Westbrook Boulevard segment improvements included in the developer agreement were needed to improve street accessibility and prevent congestion on streets. The City and a developer entered into agreement in fiscal year 2025 for the City to loan the developer the funds to build the segment sooner. The loan is expected to be repaid within a three-year time period based on current absorption rates of single-family housing development, but the agreement also provides for repayment in full in not more than ten years. The balance of this loan on June 30, 2025, is $4,785,121.

NOTE 6: DEVELOPER PERMIT FEES RECEIVABLE

The City has entered into a number of agreements with developers to defer permit fees for various projects within the City. Although these fees are expected to be repaid in full, their balance has been offset by unavailable revenue in governmental funds, as they are not expected to be repaid early enough to be reported as a current asset. The receivable was valued at $15,681,722 at June 30, 2025.

NOTE 7: DEVELOPMENT AGREEMENTS

The City may enter into development agreements in an effort to provide incentives to develop new businesses and new tax revenues. The substance of these agreements is that developers or other public agencies will be paid a portion of future sales tax or traffic mitigation fee revenues produced by their developments. These payments are conditioned on the generation of sales tax revenues or traffic mitigation fee revenues by these developments and the City is not required to use any other resources to pay these amounts.

NOTE 8: CAPITAL ASSETS

A. Capital Asset Additions, Retirements and Transfers

Capital asset activity for the year ended June 30, 2025, was as follows:

	Balance July 1, 2024	Additions	Deletions	Transfers	Balance June 30, 2025
Governmental activities:					
Capital assets, not being depreciated/amortized					
Land	$ 235,514,342	$ 24,248,084	$ -	$ 223,854	$ 259,986,280
Easements (Land)	1,814,353	-	-	498,216	2,312,569

B. Depreciation/Amortization Allocation

Depreciation expense is charged to functions and programs based on their usage of the related assets. The amounts allocated to each function or program is as follows:

Governmental Activities		
General Government	$	902,961
Development & Operations		193,702
Economic Development		386,407
Public Works		11,433,036
Police		159,598
Fire		452,446
Library		7,508
Parks & Recreation		6,642,944
Internal service funds		13,218,955
Total depreciation/amortization expense	$	33,397,557
Business-Type Activities		
Electric	$	29,649,727
Water		15,097,304
Wastewater		17,369,345
Waste Services		221,936
Local Transportation		1,859,616
School-Age Child Care		131,444
Total depreciation/amortization expense	$	64,329,372

C. Streets Covered By the Modified Approach

The City has elected to use the modified approach with respect to its streets. The City's policy based on current funding is to maintain the arterial and collector roadways at an average Pavement Quality Index (PQI) of 72 and residential roadways at an average PQI of 67, instead of providing depreciation. During fiscal year 2025, the City expended $12,733,694 to preserve its streets. The City estimates that it will be required to expend approximately $13,956,605 in fiscal year 2026 to maintain its streets at this condition level.

The City leases land, infrastructure and buildings to various companies and individuals. As of June 30, 2025, the value of the leases receivable is $15,438,614 and $592,773 respectively for governmental and business-type activities.

NOTE 9: LEASES AND SUBSCRIPTION-BASED INFORMATION TECHNOLOGY ARRANGEMENTS (CONTINUED)

Subscription-Based Information Technology Arrangements

The City of Roseville is a subscriber for noncancellable subscriptions of information technology services. The City of Roseville recognizes a subscription liability and an intangible subscription asset in the government-wide financial statements. The City of Roseville recognized subscription liabilities with an initial, individual value of $75,000 or more.

At the commencement of a subscription, the City of Roseville initially measures the subscription liability at the present value of payments expected to be made during the subscription term. Subsequently, the subscription liability is reduced by the principal portion of subscription payments made. The subscription asset is initially measured as the initial amount of the subscription liability, adjusted for subscription payments made at or before the subscription commencement date, plus certain initial direct costs. Subsequently, the subscription asset is amortized on a straight-line basis over its useful life. Key estimates and judgments related to subscriptions include how the City of Roseville determines (1) the discount rate it uses to discount the expected subscription payments to present value, (2) lease term, and (3) subscription payments.

- The City of Roseville uses the interest rate charged by the vendor as the discount rate. When the interest rate charged by the vendor is not provided, the City of Roseville generally uses its estimated incremental borrowing rate as the discount rate for subscriptions.

- The subscription term includes the noncancellable period of the subscription. Subscription payments included in the measurement of the subscription liability are composed of fixed payments that the City of Roseville is reasonably certain to exercise.

The City of Roseville monitors changes in circumstances that would require a remeasurement of its subscriptions and will remeasure the subscription asset and liability if certain changes occur that are expected to significantly affect the amount of the subscription liability.

As of June 30, 2025, City of Roseville had 10 active subscriptions. The subscriptions have payments that range from $54,480 to $628,416 and interest rates that range from 2.1120% to 3.6310%. As of June 30, 2025, the total combined value of the subscription liability is $4,133,259, and the total combined value of the short-term subscription liability is $1,720,392. The combined value of the asset, as of June 30, 2025 of $9,137,985 with accumulated amortization of $4,836,035 is included within the Subscription Class activities table found below.

Governmental Activities		
Subscription Type	Amount of SBITA Assets	Accumulated Amortization
Software as a service	$ 6,984,595	$ 3,547,829

NOTE 10: LONG-TERM DEBT

The City generally incurs long-term debt to finance projects or purchase assets, which will have useful lives equal to or greater than the related debt.

For governmental fund types, bond premiums and discounts, as well as issuance costs, are recognized during the current period. Bond proceeds are reported as other financing sources gross of the applicable premium or discount. Issuance costs, even if withheld from the actual net proceeds received, are reported as debt service expenditures. For proprietary fund types included, bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Any differences between proprietary and government-wide refunded debt and the debt issued to refund it, is amortized over the remaining life of either the refunded debt or the refunding debt, whichever is shorter.

B. Direct Placement Debt

2013 Public Facilities Refunding Lease

On June 1, 2013, the City entered into a Lease and Sublease Agreement in the amount of $16,324,609 to refund the outstanding 2003A Public Facilities Refunding Certificates of Participation (2003A COPs) and the 2003B Golf Course Refunding Certificates of Participation (2003B COPs). The 2003A and 2003B COPs were called on August 1, 2013. The Lease is repayable from any source of available funds of the City which includes the General Fund; however, the Golf Course Special Revenue Fund repaid the portion of the lease related to the refunding of the 2003B Certificates of Participation with the last payment made in fiscal year 2025. Principal and interest payments on the portion of the lease relating to the 2003A Certificates of Participation are payable semi-annually on February 1 and August 1 through 2025. The amount outstanding as of June 30, 2025 was $992,175 in governmental activities.

2020 State Revolving Fund Loan

In June 2020, the City entered into loan agreements with the State Water Resources Control Board to secure funding for the Pleasant Grove Wastewater Treatment Plant Expansion and Energy Recovery projects in the form of loans from the Clean Water State Revolving Fund. The loans were approved for up to $108,021,755, and the City drew $103,040,170 from the loans. Through an agreement with South Placer Wastewater Authority, the City's loan draws were passed through to the Authority as reimbursement for costs of the two projects and the Authority pays the City the debt service costs of the loans. The loans bear interest at the rate of 1.30% and are payable in 30 annual payments beginning in 2025. The amount outstanding as of June 30, 2025 is $95,675,320.

C. Certificates of Participation

2015 316 Vernon Street Project Certificates of Participation

On July 14, 2015, the Roseville Finance Authority issued the Certificates of Participation, Series 2015 (316 Vernon Street Project), in the principal amount of $14,425,000 to fund a portion of the acquisition and construction of an office building located at 316 Vernon Street. The Lease bears interest at 2.00 percent to 5.25 percent and is due semi-annually at February 1 and August 1 of each year. The Lease is repayable from any source of legally available funds of the City, including (but not limited to) amounts held by the City in its General Fund according to the Lease Agreement in the official statement. Principal payments are due annually on August 1 through 2045. The amount outstanding as of June 30, 2025 is $11,915,000.

2004 Electric System Revenue Certificates of Participation

On July 1, 2004, the City issued $39,940,000 of Certificates of Participation to finance capital improvements to the City's Electric System. The COPs are repayable from net revenue of the Electric Utility System. The COPs bear interest at 3.00 percent to 5.25 percent and are due semi-annually on February 1 and August 1 of each year beginning February 1, 2005. Principal payments are due annually on February 1 through February 2034. The COPs were partially refunded by the 2013 Electric System Revenue Refunding Bonds as discussed below. In August 2014, the 2004 Electric System Revenue Certificates of Participation were partially refunded by the 2014 Electric System Revenue Refunding Bonds leaving a par amount of $5,000.

2015 Water Utility Revenue Refunding Certificates of Participation

On August 20, 2015, the Roseville Finance Authority issued the Water Revenue Certificates of Participation, Series 2015, in the principal amount of $42,565,000 to refund the 2007 Water Utility Certificates of Participation. The Bonds bear interest at 2.00 percent to 5.00 percent and are due semi-annually on December 1 and June 1 of each year. The Bonds are repayable by a pledge of net revenue from the Water Utility System. Principal payments are due annually on December 1 through 2030.

NOTE 10: LONG-TERM DEBT (CONTINUED)

As of June 30, 2025, the total principal and interest remaining to be paid on the bonds was $17,031,775. As disclosed in the official statement, all net revenues of the Water Utility System are expected to provide coverage over debt service of percent over the life of the Bonds. For fiscal year 2025, net revenues amounted to $35,213,550 which represented coverage of 852 percent over the $4,133,200 in debt service. The balance outstanding as of June 30, 2025 is $15,425,000.

D. Revenue Bonds

2007 Roseville Natural Gas Financing Authority Gas Revenue Bonds

On January 24, 2007, the Authority issued $209,350,000 of Gas Revenue Bonds, Series 2007 (the Bonds), to finance a lump sum prepayment to a Gas Supplier (See Note 21A) in order to acquire a supply of natural gas to be delivered over a period of twenty years. The gas purchased by the Authority will be sold to the City pursuant to a Natural Gas Supply Agreement (See Note 21C) to produce revenues to be used for debt service on the Bonds.

Principal payments are due annually on February 15 through 2028 and interest is payable semiannually on February 15 and August 15. The balance outstanding as of June 30, 2025 is $45,830,000. As of June 30, 2025, the total principal and interest to be paid on the bonds was $50,488,250. For fiscal year 2025, net revenues amounted to $19,774,256, which represented coverage of 117 percent over the $16,849,750 in debt service.

2017A Electric System Revenue Refunding Bonds

On February 8, 2017, the City issued Revenue Bonds in the original principal amount of $56,210,000. The Bonds were issued to refund a portion of the 2009 Electric System Revenue Refunding Certificates of Participation and the 2010 Electric System Revenue Refunding Bonds. The Revenue Bonds bear interest at 3.00 percent to 5.00 percent and are due semi-annually on February 1 and August 1 of each year. Principal payments are due annually on February 1 through 2037. The balance outstanding as of June 30, 2025 is $48,495,000.

2020 Taxable Electric System Revenue Refunding Bonds

On September 2020, the City issued Taxable Revenue Bonds in the original principal amount of $34,770,000. The Bonds were issued to refund a portion of the 2013 and 2014 Electric System Revenue Refunding Bonds. The Revenue Bonds bear interest at 0.389 percent to 2.081 percent and are due semi-annually on February 1 and August 1 of each year. Principal payments are due annually on February 1 through 2034. The balance outstanding as of June 30, 2025 is $29,375,000.

Electric Bonds Net Revenue Summary

As of June 30, 2025, the total principal and interest remaining to be paid on the 2004 Electric System Revenue COPs, the 2017A Electric System Revenue Refunding bonds and the 2020 Electric System Revenue Refunding Bonds was $99,577,799. As disclosed in the official statements, all net revenues of the Electric System are expected to provide coverage over debt service of 110 percent over the lives of the Bonds. For fiscal year 2025, net revenues amounted to $59,523,787 which represents coverage of 864 percent over the $6,887,524 in debt service.

NOTE 10: LONG-TERM DEBT (CONTINUED)

F. Special Assessment Districts

Special Assessment Districts, including Mello Roos Districts, in various parts of the City have issued debt to finance infrastructure improvements and facilities within their boundaries. The City is the collecting and paying agent for the debt issued by these Districts but has no direct or contingent liability or moral obligation for the payment of this debt. Therefore, this debt is not recorded as long-term debt of the City. The outstanding balance of each of these issues as of June 30, 2025, is as follows:

	Maturity	Outstanding
Highland Reserve North Community Facilities District No. 1, Series 2006	9/1/2027	$ 3,831,000
Woodcreek East Community Facilities District No. 1, Series 2006	9/1/2027	1,275,000
Crocker Ranch Community Facilities District No. 1, Series 2007	9/1/2033	9,817,000

		$ 507,509,000

NOTE 11: DERIVATIVE INSTRUMENTS

A. Summary of Notional Amounts and Fair Values

The City enters into contracts to hedge its price exposures to power and natural gas, and to procure energy supplies. These contracts are evaluated pursuant to GASB Statement No. 53, *Accounting and Financial Reporting for Derivative Instruments*, to determine whether they meet the definition of derivative instruments, and, if so, whether they effectively hedge the expected cash flows associated with interest rate and energy exposures.

The City applies hedge accounting for derivatives that are deemed effective hedges. Under hedge accounting, the increase (decrease) in the fair value of a hedge is reported as a deferred inflow or outflow of resources on the statement of net position. For the reporting period, all of the City's derivatives are considered effective hedges.

For energy derivatives, fair values are estimated by comparing contract prices to forward market prices quoted by third party market participants or provided in relevant industry publications.

The following is a summary of the fair values and notional amounts of derivative instruments outstanding as of June 30, 2025.

	2025 Change in Fair Value		Fair Value, at June 30, 2025			
	Classification	Amount	Classification	Amount	Notational	Level
Effective Cash Flow Hedges						
Roseville Natural Gas Financing Authority						
Pay Fixed SWAP, Natural Gas	Deferred Inflow	$ 1,622,273	Derivative	$ 3,823,468	6,469,500 mmBtu remaining	2
Receive Fixed SWAP, Natural Gas	Deferred Outflow	2,444,412	Derivative	19,494,698	75,000-372,000 monthly mmBtu	2
				$ 23,318,166		

B. Objective and Terms of Hedging Derivative Instruments

The objectives and terms of the City's hedging derivative instruments that were outstanding at June 30, 2025, are summarized in the next table. The table is aggregated by the credit ratings of the City's counterparties. For counterparties having multiple ratings, the rating indicating the greatest degree of risk is used.

Objectives and terms of the City's hedging derivative instruments that were outstanding at June 30, 2025 are summarized in the table below:

Type and Objective	Notational Amount	Effective Date	Maturity Date	Terms	Counterparty	Rating
Commodity Swaps, Gas:						
Prepayment 20-year supply of Natural Gas	20,426,500 mmBtu	1/1/2008	12/31/2027	Pay index minus 0.68; Receive NGI	Merryll Lynch, Pierce, Fenner & Smith	A+
Hedge on Cash Flows on prepayment of 20-year supply of Natural Gas	From 75,000 to 372,000 mmBtu per month	1/24/2007	1/24/2028	Pay NGI PG&E citygate price; Receive $7.7224 per mmBtu	JPMorgan Chase Bank, NA	AA-

C. Risks of Derivative Instruments

Credit risk – Credit risk is the risk of loss due to a counterparty defaulting on its obligations. The City seeks to minimize credit risk by transacting with creditworthy counterparties. Interest rate swap counterparties are evaluated at the time of transaction execution. The procedure prohibits the City from executing energy hedge transactions with counterparties rated lower than BBB by Standard & Poor's or Fitch rating services, or Baa2 by Moody's. Subsequent to entering into transactions, the credit ratings of one or more counterparties may deteriorate. If so, the City's credit risk management policies increase the amount of collateral that the counterparty must post with the City when the counterparty owes the City, thereby reducing credit risk associated with the decline in the counterparty's credit worthiness.

NOTE 11: DERIVATIVE INSTRUMENTS (CONTINUED)

Termination risk – Termination risk is the risk that a derivative will terminate prior to its scheduled maturity due to a contractual event. Contractual events include bankruptcy, illegality, default, and mergers in which the successor entity does not meet credit criteria. One aspect of termination risk is that the City would lose the hedging benefit of a derivative that becomes subject to a termination event. Another aspect of termination risk is that, if at the time of termination, the mark-to-market value of the derivative was a liability to the City, the City could be required to pay that amount to the counterparty. Termination risk is associated with all of the City's derivatives up to the fair value amounts.

NOTE 12: NET POSITION AND FUND BALANCES

A. Fund Balance and Net Position Deficits

The City reported the following deficit net position and fund balances:

The School-Age Child Care Fund had a deficit net position at June 30, 2025 of $8,189,736. The City is expecting to eliminate this deficit with future program revenues and transfers from the general fund.

The Golf Fund had a deficit fund balance as of June 30, 2025 of $2,544,047. The City is expecting to eliminate this deficit with future program revenues and transfers from the general fund.

The Roseville Finance Authority debt service fund had a deficit fund balance as of June 30, 2025 of $7,394. The City is expecting to eliminate this deficit with future transfers from other funds.

The Information Technology Fund had deficit net position at June 30, 2025 of $2,836,786. The City is expecting to eliminate this deficit through future internal service rates.

The Workers' Compensation Fund had deficit net position at June 30, 2025 of $2,238,301. The City is expecting to eliminate this deficit through future internal service rates.

The General Liability Fund had deficit net position at June 30, 2025 of $4,934,215. The City is expecting to eliminate this deficit through future internal service rates.

NOTE 12: NET POSITION AND FUND BALANCES (CONTINUED)

B. Classifications

Detailed classifications of the City's Fund Balances, as of June 30, 2025, are below:

Fund Balance Classification	General Fund	Community Facility District Capital Project Fund	Non-Major Governmental Funds	Total
Nonspendable:				
Items not in spendable form:				
Notes and loans	$ 10,166,351	$ -	$ -	$ 10,166,351

Total fund balances	$ 184,281,505	$ 6,613,085	$ 247,080,975	$ 437,975,565

NOTE 12: NET POSITION AND FUND BALANCES (CONTINUED)

C. Emergency Reserve

The City maintains an Emergency Reserve Committed Fund Balance that is set at a minimum of 10% of budgeted General Fund operating expenditures. Appropriations from the Emergency Reserve may only be made by a vote of the City Council to meet a critical, unpredictable financial need such as a declared emergency.

D. Stabilization Reserve

The City also maintains a Stabilization Reserve reported as part of the committed fund balance. The stabilization reserve is equal to 15% of budgeted General Fund operating expenditures as the target reserve level. Appropriations may only be made by a vote of the City Council in the event of temporary revenue shortfalls caused by an economic downturn.

NOTE 13: PENSION PLANS

Plan Descriptions – Substantially all full-time City employees are eligible to participate in the City's separate Safety (police and fire) and Miscellaneous (all other) Plans, agent multiple-employer defined benefit pension plans that are administered by the California Public Employees' Retirement System (CalPERS), which acts as a common investment and administrative agent for its participating member employers. Benefit provisions under the Plans are established by State statute and may be amended by City resolution. CalPERS issues publicly available reports that include a full description of the pension plans regarding benefit provisions, assumptions and membership information that can be found on the CalPERS website (https://www.calpers.ca.gov).

Benefits Provided – CalPERS provides retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees, and to their beneficiaries. Benefits are based on years of credited service, equal to one year of full-time employment. Members with five years of total service are eligible to retire at age 50 with statutorily reduced benefits, unless all five years of service was earned on or after January 1, 2013 for Miscellaneous members, in which case the member must be at least age 52 to retire. All members are eligible for non-duty disability benefits after 10 years of service. The death benefit is one of the following: the Basic Death benefit, the 1957 Survivor Benefit, or the Optional Settlement 2W Death Benefit. Cost-of-living adjustments for each plan are applied as specified by the Public Employees' Retirement Law.

NOTE 13: PENSION PLANS (CONTINUED)

The Plans' provisions and benefits in effect at the measurement date, are summarized as follows:

	Safety	
Hire date	Prior to January 1, 2013	On or after January 1, 2013
Benefit vesting schedule	5 years service	5 years service
Benefit payments	monthly for life	monthly for life
Retirement age	50 - 55	50 - 54
Monthly benefits, as a % of annual salary	3.000%	2.000% - 2.700%
Required employee contribution rates	9.000%	14.000% (Police) & 14.500% (Fire)
Required normal employer contribution rates	24.75%	28.200% (Police) & 29.230% (Fire)
Required employer payment of unfunded liability	$10,367,791	$ -

	Miscellaneous	
Hire date	Prior to January 1, 2013	On or after January 1, 2013
Benefit vesting schedule	5 years service	5 years service
Benefit payments	monthly for life	monthly for life
Retirement age	50 - 55	52 - 67
Monthly benefits, as a % of annual salary	2.0% - 2.7%	1.0% - 2.5%
Required employee contribution rates	8.000%	7.750%
Required normal employer contribution rates	11.490%	15.590%
Required employer payment of unfunded liability	$27,422,141	$ -

Employees Covered – As of the measurement date, the following employees were covered by the benefit terms for each Plan:

	Miscellaneous	Safety
Inactive employees or beneficiaries currently receiving benefits	1,062	289
Inactive employees entitled to but not yet receiving benefits	1,181	104
Active employees	1,173	249
Total	3,416	642

Contributions – Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in rate. Funding contributions for both plans are determined annually on an actuarial basis as of June 30 by CalPERS. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. For the year ended June 30, 2025, the employer contributions recognized as a reduction to the net pension liability for the Miscellaneous Rate Plan and Safety Rate Plan were $36,056,206 and $17,646,567, respectively.

NOTE 13: PENSION PLANS (CONTINUED)

Net Pension Liability

The City's net pension liability for each plan is measured as the total pension liability, less the pension plan's fiduciary net position. The net pension liability of each of the plans is measured as of June 30, 2024, using an annual actuarial valuation as of June 30, 2023, rolled forward to June 30, 2024. The net pension liability and related deferred outflows/inflows of resources are liquidated by the fund that has recorded the liability. The long-term portion of governmental activities net pension liability is liquidated primarily by the General Fund. A summary of principal assumptions and methods used to determine the net pension liability is described below and in the following pages.

Actuarial Assumptions – The total pension liabilities in the June 30, 2023 actuarial valuations were determined using the following actuarial assumptions:

Valuation Date	June 30, 2023
Measurement Date	June 30, 2024
Actuarial Cost Method	Entry Age Normal Cost Method
Actuarial Assumptions	
Discount Rate	6.90%
Inflation	2.30%
Payroll Growth	2.80%
Projected Salary Increase	Varies by entry age and service
Investment Rate of Return	6.80% (1)
Mortality (2)	Derived using CalPERS' Membership Data for all funds

(1) Net of Pension Plan Investment and Administrative Expenses; includes inflation

(2) The mortality table used was developed based on CalPERS-specific data. The probabilities of mortality are based on the 2021 CalPERS Experience Study for the period from 1997 to 2015. Pre-retirement and Post-retirement mortality rates include 15 years of projected mortality improvement using 90% of Scale MP-2016 published by the Society of Actuaries. For more details on this table, please refer to the CalPERS Experience Study and Review of Actuarial Assumptions report from December 2017 that can be found on the CalPERS website.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. In determining the long-term expected rate of return on pension plan investments, CalPERS took into account both short- and long-term market return expectations as well as the expected pension fund cash flows. Such cash flows were developed assuming that both members and employers will make their required contributions on time and as scheduled in all future years. Using historical returns of all the funds' asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11+ years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and rounded down to the nearest one quarter of one percent.

NOTE 13: PENSION PLANS (CONTINUED)

The table below reflects the long-term expected real rate of return by asset class. The rate of return was calculated using the same capital market assumptions that CalPERS used to determine the discount rate and asset allocation. These geometric rates of return are net of administrative expenses.

Asset Class [1]	Assumed Asset Allocation	Real Return [1,2]
Global Equity - Cap-weighted	30.0%	4.54%
Global Equity - Non-Cap-weighted	12.0	3.84
Private Equity	13.0%	7.28
Treasury	5.0	0.27
Mortgage-backed Securities	5.0	0.50
Investment Grade Corporates	10.0	1.6%
High Yield	5.0	2.27
Emerging Market Debt	5.0	2.48
Private Debt	5.0	3.57
Real Assets	15.0	3.21
Leverage	-5.0	-0.59

[1] An expected inflation of 2.30% used for this period.

[2] Figures are based on the 2021-22 Asset Liability Managem

Discount Rate – The discount rate used to measure the total pension liability was 6.90 percent for each plan. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that the City's contributions will be made at rates equal to the difference between actuarially determined contribution rates and the employee rate. Based on those assumptions, each pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

NOTE 13: PENSION PLANS (CONTINUED)

Changes in the Net Pension Liability

The changes in the net pension liability for each Plan as of the measurement date of June 30, 2024 follows:

Miscellaneous Plan:	Increase(Decrease)		
	Total Pension Liability (a)	**Plan Fiduciary Net Position (b)**	**Net Pension Liability (a) - (b) = (c)**
Balances as of June 30, 2023 (Measurement Date)	$ 905,004,451	$ 578,443,228	$ 326,561,223
Changes for the year:			
Service cost	20,215,124	-	20,215,124
Interest on total pension liability	62,619,508	-	62,619,508
Changes in assumptions	-	-	-
Differences between expected and actual experience	14,744,596	-	14,744,596
Contribution - employer	-	36,056,206	(36,056,206)
Contribution - employee	-	9,124,471	(9,124,471)
Net investment income	-	56,196,054	(56,196,054)
Benefit payments, including refunds of employee contributions	(44,655,028)	(44,655,028)	-
Administrative expenses	-	(470,681)	470,681
Net changes	52,924,200	56,251,022	(3,326,822)
Balances as of June 30, 2024 (Measurement Date)	$ 957,928,651	$ 634,694,250	$ 323,234,401

Safety Plan:	Increase(Decrease)		
	Total Pension Liability (a)	**Plan Fiduciary Net Position (b)**	**Net Pension Liability (a) - (b) = (c)**
Balances as of June 30, 2023 (Measurement Date)	$ 458,320,977	$ 323,045,861	$ 135,275,116
Changes for the year:			
Service cost	11,605,594	-	11,605,594
Interest on total pension liability	32,098,308	-	32,098,308
Changes in assumptions	-	-	-
Differences between expected and actual experience	11,745,081	-	11,745,081
Contribution - employer	-	17,646,567	(17,646,567)
Contribution - employee	-	3,995,156	(3,995,156)
Net investment income	-	31,180,902	(31,180,902)
Benefit payments, including refunds of employee contributions	(21,351,983)	(21,351,983)	-
Administrative expenses	-	(262,863)	262,863
Net changes	34,097,000	31,207,779	2,889,221
Balances as of June 30, 2024 (Measurement Date)	492,417,977	354,253,640	138,164,337
Total of both miscellaneous and safety plans	$ 1,450,346,628	$ 988,947,890	$ 461,398,738

NOTE 13: PENSION PLANS (CONTINUED)

Sensitivity of the Net Pension Liability to Changes in the Discount Rate – The following presents the net pension liability for each plan, calculated using the discount rate, as well as what the City's net pension liability would be if the rate were 1-percentage-point lower or higher:

	Miscellaneous	Safety	Total
1% Decrease	5.90%	5.90%	5.90%
Net Pension Liability	$ 453,000,576	$ 211,402,793	$ 664,403,369
Current Discount Rate	6.90%	6.90%	6.90%
Net Pension Liability	$ 323,234,401	$ 138,164,337	$ 461,398,738
1% Increase	7.90%	7.90%	7.90%
Net Pension Liability	$ 216,108,360	$ 78,860,932	$ 294,969,292

Pension Plan Fiduciary Net Position – Detailed information about each pension plan's fiduciary net position is available in the separately issued CalPERS financial reports that can be found on the CalPERS website (https://www.calpers.ca.gov).

Pension Expense and Deferred Outflows/Inflows of Resources Related to Pensions

For the year ended June 30, 2025, the City recognized pension expense of $52,489,931 in the Miscellaneous Plan and $25,606,189 in the Safety Plan. At June 30, 2025, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Miscellaneous	
	Deferred Outflows of Resources	Deferred Inflows of Resources
Pension contributions subsequent to measurement date	$ 40,283,930	$ -
Changes of assumption	7,379,328	-
Difference between expected and actual experience	19,438,745	-
Net difference between projected and actual earnings on plan investments	8,196,369	-
Total	$ 75,298,372	$ -

	Safety	
	Deferred Outflows of Resources	Deferred Inflows of Resources
Pension contributions subsequent to measurement date	$ 25,820,052	$ -
Changes of assumption	5,786,446	-
Difference between expected and actual experience	15,240,073	1,192,281
Net difference between projected and actual earnings on plan investments	4,604,019	-
Total	51,450,590	1,192,281
Total Primary Government	$ 126,748,962	$ 1,192,281

NOTE 13: PENSION PLANS (CONTINUED)

The amount of $40,283,930 in the Miscellaneous Plan and $25,820,052 in the Safety Plan reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2026. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense as follows:

	Deferred Outflows		
Year ended June 30:	Miscellaneous	Safety	Total primary
2026	$ 15,191,098	$ 6,766,993	$ 21,958,091
2027	21,950,705	14,260,285	36,210,990
2028	1,134,845	3,031,973	4,166,818
2029	(3,262,206)	379,006	(2,883,200)
	$ 35,014,442	$ 24,438,257	$ 59,452,699

NOTE 14: OTHER POST EMPLOYMENT BENEFITS

Plan Description

The City provides medical benefits to substantially all retirees under the City of Roseville Retiree Healthcare Plan (Plan), a sole employer defined benefit healthcare plan administered by the Trust Investment Review Committee. The City is responsible for establishing and amending the funding policy of the Plan. The Plan financial statements can be obtained at www.roseville.ca.us or by contacting the City of Roseville Accounting Division at 311 Vernon Street, Roseville, California 95678.

Benefits Provided –The Plan provides medical, dental, and vision insurance benefits to eligible retirees and their dependents. Benefits are provided through a third-party insurer, and the full cost of the benefits is covered by the Plan. Benefit provisions are established and may be amended by City labor agreements, which are approved by the City Council.

Employees Covered By Benefit Terms – As of measurement date, the following employees were covered by the benefit terms:

	Number of Covered Participants
Active	1,523
Inactive employees or beneficiaries currently receiving benefits	901
Inactive employees entitled to, but not yet receiving benefits	116
Total	2,540

Contributions – The contribution requirements of plan members and the City are established and may be amended by the City Council. The funding policy adopted by the City Council requires a minimum contribution of the actuarially determined contribution amount. For the year ended June 30, 2025, the City contributed $13,432,052 to the Plan.

NOTE 14: OTHER POST EMPLOYMENT BENEFITS (CONTINUED)

Net OPEB Liability

The City's net OPEB liability was measured as of June 30, 2025, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of June 30, 2023. The net OPEB liability and related deferred outflows/inflows of resources are liquidated by the fund that has recorded the liability. The long-term portion of governmental activities net OPEB liability is liquidated primarily by the General Fund.

Actuarial Assumptions – The total OPEB liability in the June 30, 2023 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Valuation Date	June 30, 2023
Measurement Date	June 30, 2025
Contribution Policy	City contributes full ADC
Discount Rate	6.25%
Expected Long-Term Rate of Return	6.25% - expected City contributions projected to keep sufficient plan assets to pay all benefits from trust
General Inflation	2.50%
Mortality, Retirement, Disability, Termination	CalPERS 2000-2019 Experience Study
Mortality Improvement	Mortality projected fully generational with Scale MP-2021
Salary Increases	Aggregate 2.75% Merit - CalPERS 2000-2019 Experience Study
Medical Trend	Non-Medicare - 7.90% for 2026, decreasing to an ultimate rate of 3.45% in 2076 Medicare (Non-Kaiser) - 6.90% for 2026, decreasing to an ultimate rate of 3.45% in 2076 Medicare (Kaiser) - 5.65% for 2026, decreasing to an ultimate rate of 3.45% in 2076
Healthcare Participation	Tier 1: 100% Tier 2 & 3 RFF: 80% at 50% of cap to 100% at 100% of cap Tier 3 Non-RFF & Tier 4: 60%

The table below reflects long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation. These geometric rates of return are net of administrative expenses.

Asset Class Component	Target Allocation	Expected Real Rate of Return
Global Equity	52%	4.56%
Private Equity	5%	7.09%
Fixed Income	33%	0.78%
Private Debt	5%	4.38%
Real Assets	5%	4.03%
	100%	
Assumed long-term rate of inflation		2.50%
Expected Long-Term Net Rate of Return, Rounded		6.25%

NOTE 14: OTHER POST EMPLOYMENT BENEFITS (CONTINUED)

Discount rate – The discount rate used to measure the total OPEB liability was 6.25 percent. The projection of cash flows used to determine the discount rate assumed that City contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected OPEB payments for current active and inactive employees. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

Changes In Net OPEB Liability

	Total OPEB Liability (a)	Fiduciary Net Position	Net OPEB Liability
Balances as of June 30, 2024 (Measurement Date)	$ 232,715,534	$ 159,237,881	$ 73,477,653
Changes for the year:			
Service cost	4,492,324	-	4,492,324
Interest on total pension liability	14,437,618	-	14,437,618
Differences between expected and actual experience	-	-	-
Changes in assumptions	-	-	-
Contribution - employer*	-	13,432,052	(13,432,052)
Net investment income	-	17,708,370	(17,708,370)
Benefit payments, including refunds of employee contributions	(12,411,945)	(12,411,945)	-
Administrative expenses	-	(21,164)	21,164
Net changes	6,517,997	18,707,313	(12,189,316)
Balances as of June 30, 2025 (Measurement Date)	$ 239,233,531	$ 177,945,194	$ 61,288,337

* Contributions to the trust of $13,432,052 plus $10,091,945 cash benefit payments and $2,320,000 implicit subsidy benefit payments by the City.

Sensitivity of the net OPEB liability to changes in the discount rate and healthcare cost trend rates – The following presents the net OPEB liability of the City, as well as what the City's net OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (5.25 percent) or 1 percentage point higher (7.25 percent) than the current discount rate:

	Discount Rate - 1% (5.25%)	Current Discount Rate (6.25%)	Discount Rate + 1% (7.25%)
Net OPEB Liability	$ 92,216,112	$ 61,288,337	$ 35,715,859

Sensitivity of the net OPEB liability to changes in the healthcare cost trend rates – The following presents the net OPEB liability of the City, as well as what the City's net OPEB liability would be if it were calculated using healthcare cost trend rates, rather than the discount rate, that are 1 percentage point lower (5.5 percent decreasing to 2.75 percent) or 1 percentage point higher (7.5 percent decreasing to 4.75 percent) than the current healthcare cost trend rates:

	1% Decreasing (5.5% decreasing to 2.75%)	Current Healthcare Trend Rate (6.5% decreasing to 3.75%)	1% Increasing (7.5% decreasing to 4.75%)
Net OPEB Liability	$ 38,036,061	$ 61,288,337	$ 84,424,211

OPEB plan fiduciary net position – Detailed information about the Plan's fiduciary net position is available in the separately issued City of Roseville Other Post-Employment Benefits Trust financial report.

NOTE 14: OTHER POST EMPLOYMENT BENEFITS (CONTINUED)

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2025, the City recognized OPEB expense of ($211,387) At June 30, 2025, the City reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	$ 9,434,495	$ 14,143,432
Change of assumptions	2,649,512	14,043,517
Net difference between projected and actual earnings on pension plan investments	-	7,547,845
Total	$ 12,084,007	$ 35,734,794

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year ended June 30:	Deferred Outflows/ (Inflows) of Resources
2026	$ (4,887,419)
2027	(9,056,085)
2028	(6,993,218)
2029	(4,222,759)
2030	887,469
Thereafter	621,225
	$ (23,650,787)

NOTE 15: RISK MANAGEMENT

The City manages risk of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters by participating in the public entity risk pools described below and by retaining certain risks.

Public entity risk pools are formally organized and separate entities established under the Joint Exercise of Powers Act of the State of California. As separate legal entities, those entities exercise full powers and authorities within the scope of the related Joint Powers Agreements including the preparation of annual budgets, accountability for all funds, the power to make and execute contracts and the right to sue and be sued. Each risk pool is governed by a board consisting of representatives from member agencies. Each board controls the operations of the respective risk pool, including selection of management and approval of operating budgets, independent of any influence by member agencies beyond their representation on that board. Obligations and liabilities of these risk pools are not the City's responsibility.

The contributions made to the risk pools below equal the ratio of the respective member payrolls to the total payrolls of all entities participating in the same layer of each program, in each program year. Actual surpluses or losses are shared according to a formula developed from overall loss costs and spread to member entities on a percentage basis after a retrospective rating.

NOTE 15: RISK MANAGEMENT (CONTINUED)

A. Risk Coverage

General Liability, Property and Boiler and Machinery

The City is a member of the California Joint Powers Risk Management Authority (CJPRMA) which covers general liability claims, property, and boiler and machinery losses. Once the City's self-insured retention (SIR) is met, CJPRMA becomes responsible for payment of all claims up to the limit. Financial statements for the risk pool and more information may be obtained from CJPRMA, 3201 Doolan Road, Suite 285, Livermore, California 94551.

General Liability Coverage

The City has a SIR of $1,000,000 per claim up to a $40,000,000 limit. The City's premium was $4,553,443.36.

Property Coverage

CJPRMA has purchased commercial insurance against property damage, boiler and machinery claims. The City has a SIR of $250,000 per claim up to a $400,000,000 limit. The City's premium for coverage is $1,387,443.73.

Roseville Energy Park Property Coverage

The City purchased commercial property insurance specifically to cover the Roseville Energy Park. The City has a SIR of $250,000 per claim up to a $200,000,000 limit. The City's premium for coverage is $2,021,026.52.

Fiduciary Coverage

The City purchased fiduciary insurance specifically to cover the OPEB Trust. The SIR is $25,000 per claim up to a $3,000,000 limit. The City's premium for coverage is $38,754.00.

Workers' Compensation

The City is also a member of the Local Agency Workers' Compensation Excess Joint Powers Authority (LAWCX), which covers workers' compensation claims up to $5,000,000 and has excess coverage through CSAC-EIA up to the statutory limit. The City has a SIR of $500,000 per claim. The total premium charged to the City was 1,428,769.00.

Financial statements for the risk pool and more information may be obtained from LAWCX, 1750 Creekside Oaks Drive, Suite 200, Sacramento, California 95833.

B. Insurance Internal Service Funds

The Governmental Accounting Standards Board (GASB) requires municipalities to record their liability for uninsured claims and to reflect the current portion of this liability as an expense in their financial statements. As discussed above, the City has coverage for such claims, but it has retained the risk for the deductible or uninsured portion of these claims.

NOTE 15: RISK MANAGEMENT (CONTINUED)

The change in the Workers' Compensation Internal Service Fund's claims liability, including claims incurred but not reported, and allocated loss adjustment expenses, is based on an independent actuarial study prepared annually and was computed as follows for the years ended June 30:

	2025	2024
Claims liability, beginning of year	$ 13,100,501	$ 10,672,647
Current year claims	4,828,000	4,854,000
Change in prior year claims	(84,207)	1,906,241
Claims paid, current year claims	(669,908)	(391,144)
Claims paid, prior year claims	(3,099,900)	(3,941,243)
Claims liability, end of year	14,074,486	13,100,501
Current claims liabilities	$ 4,198,852	$ 4,192,160

The City's liability for uninsured general liability claims, including claims incurred but not reported, is reported in the General Liability Internal Service Fund. The liability is based on an independent actuarial study prepared annually and was computed as follows for the years ended June 30:

	2025	2024
Claims liability, beginning of year	$ 3,832,930	$ 4,776,215
Current year claims	2,413,000	1,672,000
Change in prior year claims	692,817	(600,187)
Claims paid, current year claims	(281,237)	(354,252)
Claims paid, prior year claims	(659,832)	(1,660,846)
Claims liability, end of year	5,997,678	3,832,930
Current claims liabilities	$ 1,461,203	$ 1,090,853

NOTE 16: NORTHERN CALIFORNIA POWER AGENCY (NCPA)

A. General

The City participates in joint ventures through Joint Powers Authorities (JPAs) established under the Joint Exercise of Powers Act of the State of California. As separate legal entities, these JPAs exercise full powers and authorities within the scope of the related Joint Powers Agreement, including the preparation of annual budgets, accountability for all funds, the power to make and execute contracts and the right to sue and be sued. Obligations and liabilities of the JPAs are not those of the City.

Each JPA is governed by a board consisting of representatives from each member agency. Each board controls the operations of its respective JPA, including selection of management and approval of operating budgets, independent of any influence by member agencies beyond their representation on the Board.

The City is a member of NCPA, a joint powers agency which operates under a joint powers agreement among fifteen public agencies. The purpose of NCPA is to use the combined strength of its members to purchase, generate, sell and interchange electric energy and capacity through the acquisition and use of electrical generation and transmission facilities, and to optimize the use of those facilities and the member's position in the industry. Each agency member has agreed to fund a pro rata share of certain assessments by NCPA and certain members have entered into take-or-pay power supply contracts with NCPA. While NCPA is governed by its members, none of its obligations are those of its members unless expressly assumed by them.

The City receives no income from NCPA, and does not participate in all of its projects. Further, NCPA does not measure or determine the City's equity in NCPA as a whole. NCPA reports only the City's share of its General Operating Reserve, comprised of cash and investments, and the City's share of those Projects in which the City is a participant. These amounts are reflected in the financial statements as Investment in NCPA Reserve.

NOTE 16: NORTHERN CALIFORNIA POWER AGENCY (NCPA) (CONTINUED)

In the fiscal year ending June 30, 2025, the City had expenses totaling $8,793,791 from resource contracts and the sale of energy generated by NCPA.

The City's interest in certain NCPA Projects and Reserve, as computed by NCPA using audited information, is set forth below:

	June 30, 2025
General operating reserve (including advances)	$ 5,618,599
Associated member services (including advances)	116,313
Undivided equity interest, at cost, in certain NCPA power projects:	
Geothermal projects	1,107,007
Calveras hydroelectric project	337,938
Combustion turbine project no. 2	19,535
	$ 7,199,392

The General Operating Reserve represents the City's portion of funds which resulted from the settlement with third parties of issues with financial consequences and reconciliations of several prior years' budgets for programs. It is recognized that all the funds credited to the City are linked to the collection of revenue from the City's ratepayers, or to the settlement of disputes relating to electric power supply and that the money was collected from the City's ratepayers to pay power bills. Additionally, the NCPA Commission identified and approved the funding of specific reserves for working capital, accumulated employees post-retirement medical benefits, and billed property taxes for the geothermal project. The Commission also identified a number of contingent liabilities that may or may not be realized, the cost of which in most cases is difficult to estimate at this time. One such contingent liability is the steam field depletion which will require funding to cover debt service and operational costs in excess of the expected value of the electric power. The General Operating Reserve is intended to minimize the number and amount of individual reserves needed for each project, protect NCPA's financial condition and maintain its credit worthiness. These funds are available on demand, but the City has left them with NCPA as a reserve against these contingencies identified by NCPA.

Members of NCPA may participate in an individual project of NCPA without obligation for any other project. Member assessments collected for one project may not be used to finance other projects of NCPA without the member's permission.

B. Projects

Geothermal Projects

NCPA's Geothermal Project has experienced a greater than originally anticipated decline in steam production from geothermal wells on its leasehold property. NCPA will continue to monitor the wells while pursuing alternatives for improving and extending reservoir performance, including supplemental water reinjection, plant equipment modifications, and changes in operating methodology. NCPA, along with other steam field operators, has observed a substantial increase in steam production in the vicinity of reinjection wells and is attempting to increase water reinjection at strategic locations. NCPA, together with other steam developers and the Lake County Sanitation District, has completed the construction of a wastewater pipeline project that greatly increased the amount of water available for reinjection.

NOTE 16: NORTHERN CALIFORNIA POWER AGENCY (NCPA) (CONTINUED)

Based on an internal assessment of the melded costs of power from the Geothermal Project and all other resources available to the members, NCPA believes its members will continue to be able to operate their electric utilities on a competitive basis, when compared to local investor-owned utility rates, while meeting all electric system obligations including those to NCPA. In March 2009, NCPA issued $35,610,000 Geothermal Project Number 3 Revenue Bonds (2009 Series A). The proceeds were used to finance and operate the two NCPA 110 MW geothermal steam powered generating plants, Plant Number 1 and Plant Number 2. In 2012, NCPA issued $12,910,000 Geothermal Project Number 3 Revenue Bonds to facilitate turbine upgrades (2012 Series A) for Plant Number 1. In 2016, NCPA refinanced a portion of the outstanding Geothermal Project Number 3 Revenue Bonds by the issuance of the $17,530,00 Fixed Rate Geothermal Project Number 3 Revenue Bonds (2016 Refunding Series A). The City is obligated to pay its contractual share of 7.883 percent of the operating costs and debt service until it is fully satisfied, regardless of resulting cost or availability of energy. At June 30, 2025 the book value of this Project's plant, equipment and other assets was $138,069,195 while its long-term debt was fully paid off on July 1, 2024 and other liabilities totaled $124,032,515.

On October 28, 2004, NCPA approved a resolution to finance the expansion and remodeling of the NCPA main office building located in Roseville. The expansion is included as part of the Geothermal Projects funded by the bonds mentioned above. The City will recover its 7.883 percent share of the cost of the expansion which was $204,958, with a 5% return on the investment over a ten year period. As of June 30, 2018 the City was paid in full.

Calaveras Hydroelectric Project

In July 1981, NCPA agreed with Calaveras County Water District to purchase the output of the North Fork Stanislaus River Hydroelectric Development Project and to finance its construction. Debt service payments to NCPA began in February 1990 when the project was declared substantially complete and power was delivered to the participants. Under its power purchase agreement with NCPA, the City is obligated to pay 12 percent of this Project's debt service and operating costs. In March 2018, NCPA refunded a portion of the outstanding Revenue Bonds with the $70,215,000 2018 Hydroelectric Project Number One Revenue Bonds. The City's share of the 2018 bonds is 4.586 percent. In April 2019, NCPA refunded a portion of the outstanding Revenue Bonds with the $39,250,000 2019 Hydroelectric Project Number One Revenue Bonds. In April 2022, NCPA refunded a portion of the outstanding Revenue Bonds with the $132,310,000 2022 Hydroelectric Project Number One Revenue Bonds. As of June 30, 2024, the balance of the 2019 Hydroelectric Project Number One Revenue Bonds was fully paid. At June 30, 2025 the book value of this Project's plant, equipment and other assets was $211,537,450 while its long-term debt totaled $143,859,682 and other liabilities totaled $64,861,611. The City's share of the Project's long-term debt amounted to $17,293,162 at that date.

Combustion Turbine Project No. 2 (Steam Injected Gas Turbine Project)

The City is a participant in a 49.8 megawatt Steam Injected Gas Turbine project which was built under turnkey contract near the City of Lodi and declared substantially complete on April 23, 1996. In October 1992, NCPA issued $152,320,000 of Multiple Capital Facilities Revenue Bonds to finance this project. In January 2010, NCPA refinanced the outstanding Capital Facilities Revenue Bonds by the issuance of the $55,120,000 Capital Facilities Revenue Bonds Series A (2010 Refunding Series A). In December 2019, NCPA refinanced the outstanding Capital Facilities Revenue Bonds by the issuance of the $20,450,000 Capital Facilities Revenue Bonds Series A (2019 Refunding Series A). Under the NCPA power purchase agreement, the City is obligated to pay 36.50 percent of the debt service and operating costs for the Lodi unit.

The City's participation in procurement of natural gas for fuel for existing and new combustion turbine units was approved in 1993. Although there is currently no additional debt financing, the City and NCPA have committed to long-term payments for gas transmission pipeline capacity, and entered a purchase contract for natural gas. The City is obligated to pay 17.9218 percent of the natural gas purchase contract.

NOTE 16: NORTHERN CALIFORNIA POWER AGENCY (NCPA) (CONTINUED)

At June 30, 2025 the book value of this Project's plant, equipment and other assets was $6,151,518, while its long-term debt was fully paid off on August 1, 2024 and other liabilities totaled $6,097,998.

C. NCPA Financial Information

NCPA's financial statements can be obtained from NCPA, 651 Commerce Drive, Roseville, California 95678.

NOTE 17: SOUTH PLACER WASTEWATER AUTHORITY

The City is a member of the South Placer Wastewater Authority (SPWA), a joint powers agency which operates under a joint powers agreement among three public agencies, the City of Roseville, South Placer Municipal Utility District and Placer County. The purpose of SPWA is to provide for the planning, financing, acquisition, construction and operation of the Regional Wastewater Facilities. Under the terms of the amended and restated funding agreement, effective October 1, 2012, the City will own and operate the Regional Wastewater Facilities and the member agencies will share the operating costs of the Facilities after construction is complete. The Regional Wastewater Facilities include the Dry Creek Plant and the Pleasant Grove Plant.

Under the terms of the Reallocation and Repayment Agreement, effective October 1, 2012, the three agencies are responsible for the repayment of all the revenue bonds. The City's share of this obligation is 64.57 percent.

During the year ended June 30, 2025, the City paid $22,741,777 to SPWA based on connection fees collected during the fiscal year.

The City records net investment in SPWA in the Wastewater Enterprise Fund and these changes are reflected in the Statement of Revenues, Expenses and Changes in Fund Net Position. The net investment in SPWA captures the City's portion of cash, investments, long term debt and other related items. The City's net investment in SPWA Reserves at June 30, 2025, was an asset of $34,083,270, which includes the City's rate stabilization fund balance of $136,767,401.

SPWA's financial statements can be obtained from the City of Roseville, 311 Vernon Street, Roseville, California, 95678.

NOTE 18: MUNICIPAL SOLID WASTE LANDFILL CLOSURE AND POST CLOSURE CARE COSTS

State and federal laws and regulations require the City to perform maintenance and monitoring functions at the Roseville sanitary landfill site, which is closed, for a period of not less than thirty years after the closure of the landfill. The City updated its liability for estimated future landfill post closure care costs in fiscal year 2025 based on new contracts to maintain compliance with state and local laws and regulations. The estimate may change due to factors such as inflation or deflation, new technology, or changes in applicable laws and regulations. As of June 30, 2025, the City's liability for estimated future landfill post closure care costs, reported in the Waste Services Operations Fund, is $3,066,000.

NOTE 19: COMMITMENTS AND CONTINGENT LIABILITIES

A. NCPA, Transmission Agency of Northern California, and Western Area Power Administration

Under the terms of its NCPA joint venture agreement, the City is contingently liable for a portion of the bonded indebtedness issued by these agencies under take-or-pay or similar agreements, as discussed in Note 16. The City's estimated share of such debt outstanding at June 30, 2025 was $17,263,162. Under certain circumstances, the City may also be responsible for a portion of the costs of operating these entities. Under certain circumstances, such as default or bankruptcy of other participants, the City may also be liable to pay a portion of the debt of these joint ventures on behalf of the other participants.

NOTE 19: COMMITMENTS AND CONTINGENT LIABILITIES (CONTINUED)

The City is a member of the Transmission Agency of Northern California (TANC), a joint powers agency. The City is entitled to 2.14 percent of TANC's share of the California-Oregon Transmission Project (COTP) transfer capability (approximately 31MW). In return, the City has agreed to pay 2.14 percent of the construction costs of the COTP, including 2.32 percent of aggregate debt service, and 2.14 percent of TANC's COTP operating and maintenance expenses. The City's share of annual debt service continues to the year 2039 and is approximately $346,000 per year. The City's estimated share of debt outstanding at June 30, 2025 was $3,471,507. Also, TANC established a line of credit in August 2024. In November 2021, TANC approved a 20-year capital replacement plan for the COTP. In August 2024, TANC approved the execution and delivery of a Credit Agreement with JPMorgan Chase Bank, National Association, establishing a line of credit pursuant to which TANC may borrow, pay down, refund and re-borrow, through the issuance and sale from time to time of short term variable rate notes ("TANC short term notes"), an aggregate amount outstanding at any time of up to $120,000,000 for the purpose of financing improvements to the COTP on an interim basis. TANC executed the TANC Credit Agreement in September 2024. As of June 30, 2025, $91,700,000 million principal amount of TANC short-term notes were outstanding under the TANC Credit Agreement. The City's estimated share principal amount outstanding at June 30, 2025 was $2,100,000.

The City has various long-term contracts with WAPA that provide energy, interconnection, and transmission services. Under its Base Resource Contract in place from 2005 through 2024, the City had a 4.85333% share of the Base Resource output of the Central Valley Project (the "CVP"), which provided varying amounts of capacity and energy annually depending upon hydrological conditions. In an average year, the Base Resource product provided the City with approximately 54 MW of capacity during peak summer months and 155 gigawatt-hours (GWh) of annual energy. The City negotiated a new contract beginning January 1, 2025 with an allocation of 4.76605% that continues through December 31, 2054, which provides the City with approximately 59 MW of capacity. The City is directly connected to WAPA's transmission system and acquires network transmission service from WAPA, as well as reserves that include regulation, frequency response, and operating reserves.

B. Federal and State Grant Programs

The City participates in Federal and State grant programs. These programs have been audited by the City's independent accountants in accordance with the provisions of the federal Single Audit Act as amended and applicable State requirements. No cost disallowances were proposed as a result of these audits; however, these programs are still subject to further examination by the grantors and the amount, if any, of expenditures which may be disallowed by the granting agencies cannot be determined at this time. The City expects such amounts, if any, to be immaterial.

C. Litigation

The City is subject to litigation arising in the normal course of business. In the opinion of the City Attorney there is no pending litigation, other than disclosed above, which is likely to have a material adverse effect on the financial position of the City.

NOTE 19: COMMITMENTS AND CONTINGENT LIABILITIES (CONTINUED)

D. Encumbrances

The City uses an encumbrance system as an extension of normal budgetary accounting for governmental funds. Under this system, purchase orders, contracts, and other commitments for the expenditure of monies are recorded in order to reserve that portion of applicable appropriations. Encumbrances outstanding at year-end are recorded as restricted, committed or assigned fund balance, depending on the classification of the resources to be used to liquidate the encumbrance, since they do not constitute expenditures or liabilities. Outstanding encumbrances at year-end may be re-appropriated for the following year. Unencumbered and unexpended appropriations lapse at year-end. Encumbrances outstanding as of June 30, 2025, by individual major funds and non-major funds in total were as follows:

Major Governmental Funds:	
General Fund	$ 18,042,630
CFD Capital Project Fund	290,243
Non-Major Governmental Funds	15,955,439
Total Encumbrances	$ 34,288,312

E. Other Commitments

The City had the following outstanding significant commitments at June 30, 2025:

Projects	Amount (in millions)
Purchase Contracts:	
Roseville Energy Park Long Term Service Agreement	$ 22.9
Net Power Purchase Contracts	30.9
Net Natural Gas Forward Obligations	22.7
Renewable Power Purchase Obligations	56.9
SWAP Contracts:	
Forward Contract, Power (1)	5.6
Forward Contract, Natural Gas (1)	9.6
Projects:	
Utility Operations Center- Phase 1	15.2
Aquifer Storage and Recovery Wells 13 Campus Oaks and 19 Misty Wood	15.1
Dry Creek Greenway East Trail Phase 1	10.7
Electric - Roseville Power Plant 2 Repower	9.5
Police Department Expansion design and construction	9.5
Purchase of Seven New Zero Emission Commuter Buses	8.6
Costco Economic Incentive Agreement	7.8
Water Treatment Plant Two Million Gallon Tank Rehabilitation	7.4
DCWWTP Motor Control Center and Switchgear Replacement	7.2
South Placer County Express Bus Service - Capital	6.7
Soccer Complex	6.7
Pleasant Grove Stormwater Retention Facility	5.7
Dry Creek Operations and Laboratory Building	5.1
DCWWTP Biofilter System Rehabilitation	4.5
South Placer County Express Bus Service - Operating	4.4
Sun City Roadway Resurfacing	4.1
Utility Operations Center - Phase 2	4.0

NOTE 19: COMMITMENTS AND CONTINGENT LIABILITIES (CONTINUED)

(1) The City enters into contracts to hedge its exposure to power and natural gas price fluctuations and to procure energy supplies. These forward contracts for both power and natural gas are intended to stabilize future costs and reduce the impact of market volatility. The net fair value of these contracts represents the difference between the contract price and the prevailing market price as of the reporting date. Net fair values are estimated by comparing contract prices to forward market prices quoted by third party market participants or provided in relevant industry publications. A negative net fair value indicates a favorable market condition. Conversely, a positive net fair value represents an unfavorable market condition.

NOTE 20: GAS SUPPLY ACQUISITIONS AND RESALE

The City operates certain electrical generating plants which provide power for sale to the public and needs reliable, economic supplies of natural gas to generate the needed electricity. In pursuit of that objective the City and its component unit, the former City of Roseville Redevelopment Agency formed the Roseville Natural Gas Financing Authority (Authority) for the purpose of acquiring, financing and supplying natural gas to the City.

Summarized below are various agreements entered into by the Authority to achieve its purpose.

A. Prepaid Gas Agreement

Pursuant to an Agreement for the Purchase and Sale of Natural Gas dated January 24, 2007, the Authority used a portion of the proceeds of its $209,350,000 of Gas Revenue Bonds, Series 2007 (the Bonds) to prepay Merrill Lynch Commodities, Inc. (Gas Supplier) for a twenty year supply of natural gas. Commencing January 1, 2008, and continuing through December 31, 2027, the Gas Supplier is obligated to deliver daily contract quantities of natural gas on a firm basis to the designated delivery point. Daily contract quantities vary from month to month but not from year to year. This commitment totals 2,352,000 MMBtus (millions of British thermal units) per year or 47,040,000 MMBtus for the twenty year contract period. The Authority has recorded a Prepaid Natural Gas asset which is to be amortized as daily contract quantities are delivered.

The agreement provides for payments to be made by the Gas Supplier if it fails to deliver the daily contract quantities and may be terminated by the Authority in the event of non-performance by the Supplier. The Agreement will automatically terminate if there is a termination of the Commodity Swap (See Note 21 D) which is not due to default by the Authority or if there is an event of default under the swap agreement entered into by the Gas Supplier and a third party. Upon early termination, whether due to the above or due to any other optional termination event as defined in the agreement, the Gas Supplier is required to make a termination payment to the Authority that is expected to be sufficient, together with other available funds, to redeem the Bonds. The Gas Supplier's commitments under this agreement are guaranteed by its parent company, Merrill Lynch & Co. Inc. under a guarantee agreement with the Authority.

As of June 30, 2025, the book value of prepaid gas under this agreement amounted to $45,847,175.

B. Funding Agreement

Under certain conditions specified in a Funding and Assignment Agreement dated January 24, 2007 between the Authority and Gas Supplier, the Gas Supplier has agreed to advance funds to the Trustee to pay debt service when due or to redeem bonds in the event of early termination. Advances are required under covered swap deficiencies and covered termination deficiencies and optional advances may also be made. Advances are repayable from by the responsible party causing the deficiency requiring an advance under this agreement. This agreement is coterminous with the Bonds. The Gas Supplier's commitment under this agreement is guaranteed by its parent company, Merrill Lynch & Co. Inc. under a guarantee agreement with the Authority.

There were no advances outstanding as of June 30, 2025.

NOTE 20: GAS SUPPLY ACQUISITIONS AND RESALE (CONTINUED)

C. Supply Agreement

Pursuant to a Natural Gas Supply Agreement dated February 1, 2007, the Authority has agreed to sell to the City a twenty-year supply of natural gas. This Supply Agreement is coterminous with and provides for the delivery of natural gas in quantities which are matched to the Prepaid Gas Agreement, discussed above. For each MMBtu delivered (sold) to the City, the Authority will receive a variable revenue stream based on a first of the month index for the delivery location. The Agreement terminates upon termination of the Prepaid Gas Agreement or upon the City's failure to make any required payment within two business days of the due date.

D. Commodity Swap Agreement

In order to have its gas price exposure consistent with prevailing market rates, the Authority entered into a natural gas Commodity Swap Agreement with JPMorgan Chase Bank (Counterparty). For the term of deliveries under the Prepaid Gas Agreement and the Supply Agreement, the Authority will pay an index price per MMBtu to the Counterparty, and the Counterparty will pay a fixed price to the Authority. The index price paid by the Authority is expected to approximate the price paid by the City under the Supply Agreement.

The monthly quantity and term of the Commodity Swap Agreement are matched to those of the Supply Agreement.

Detail of the commodity swap agreement is discussed in Note 11.

NOTE 21: REDEVELOPMENT AGENCY DISSOLUTION AND SUCCESSOR AGENCY ACTIVITIES

A. Redevelopment Dissolution

In an effort to balance its budget, the State of California adopted ABx1 26 on June 28, 2011, amended by AB1484 on June 27, 2012, which suspended all new redevelopment activities except for limited specified activities as of that date and dissolved redevelopment agencies on January 31, 2012.

The suspension provisions prohibited all redevelopment agencies from a wide range of activities, including incurring new indebtedness or obligations, entering into or modifying agreements or contracts, acquiring or disposing of real property, taking actions to adopt or amend redevelopment plans and other similar actions, except actions required by law or to carry out existing enforceable obligations, as defined in ABx1 26.

Effective January 31, 2012, the Redevelopment Agency was dissolved. Certain housing assets of the Redevelopment Agency were distributed to a Housing Successor; and all remaining Redevelopment Agency assets and liabilities were distributed to a Successor Agency.

Under the provisions of AB 1484, the City can elect to become the Housing Successor and retain the housing assets. The City elected to become the Housing Successor and on February 1, 2012, the housing assets were transferred to the City's Low and Moderate Income Housing Asset Special Revenue Fund. The activities of the Housing Successor are reported in the Low and Moderate Income Housing Assets Special Revenue Fund as the City has control of those assets, which may be used in accordance with the low and moderate income housing provisions of California Redevelopment Law.

The City also elected to become the Successor Agency and on February 1, 2012 the Redevelopment Agency's remaining assets were distributed to and liabilities were assumed by the Successor Agency.

The activities of the Successor Agency are reported in the Successor Agency to the Redevelopment Agency Private-Purpose Trust Fund as the activities are under the control of an Oversight Board. The City provides administrative services to the Successor Agency to wind down the affairs of the former Redevelopment Agency. With the dissolution of the Redevelopment Agency, pass-through payments to affected taxing entities become the responsibility of the County.

NOTE 21: REDEVELOPMENT AGENCY DISSOLUTION AND SUCCESSOR AGENCY ACTIVITIES (CONTINUED)

B. Cash and Investments

Cash and investments of the Successor Agency as of June 30, 2025, are included in the pooled cash and investments discussed in Note 2.

C. Long-Term Obligations

The Successor Agency assumed the long-term debt and loans of the Redevelopment Agency as of February 1, 2012. All of the long-term debt of the Successor Agency is comprised of Tax Allocation Bonds and loans issued by the Redevelopment Agency. The Bonds and Loans are special obligations of the Agency and are secured only by the Agency's tax increment revenues. Tax Allocation Bond and loan transactions were as follows:

1. Debt Service Requirements

Tax Allocation Bonds:	Balance June 30, 2024	Additions	Reductions	Balance June 30, 2025	Current Portion
2014 Redevelopment Project Taxable Tax Allocation					
2.00% - 5.00%, due 9/1/33	$ 6,320,000	$ -	$ 580,000	$ 5,740,000	$ 610,000
Add: bond premium	286,250	-	28,625	257,625	-
2016-T Redevelopment Project Taxable Tax Allocation					
1.02% - 4.066%, due 9/1/40	18,695,000	-	445,000	18,250,000	465,000
Total Tax Allocation Bonds	25,301,250	-	1,053,625	24,247,625	1,075,000
Loans from the City	11,541,355	-	3,692,159	7,849,196	1,146,305
Total	$ 36,842,605	$ -	$ 4,745,784	$ 32,096,821	$ 2,221,305

Debt service requirements are shown below for all long-term debt except the advance made to the Successor Agency, because the ultimate repayment terms cannot be determined at this time as discussed in the Loans from the City section below.

For the Year Ending June 30	Principal	Interest
2026	$ 1,075,000	$ 875,889
2027	1,115,000	835,194
2028	1,155,000	795,065
2029	1,185,000	757,602
2030	1,260,000	716,889
2031-2035	7,185,000	2,875,253
2036-2040	8,995,000	1,342,713
2041-2045	2,020,000	41,067
Total	$ 23,990,000	$ 8,239,672

2. 2014 Roseville Redevelopment Project Tax Allocation Refunding Bonds

On September 9, 2014, the Roseville Successor Agency issued the Series 2014 Refunding Bonds, in the amount of $10,740,000 for the purpose of refunding the 2002 Tax Allocation Bonds. The Bonds bear interest at rates ranging from 2.00 percent to 5.00 percent. Principal payments are due annually on September 1. Interest payments are due semi-annually on each September 1 and March 1, commencing on September 1, 2015 through September 1, 2033.

NOTE 21: REDEVELOPMENT AGENCY DISSOLUTION AND SUCCESSOR AGENCY ACTIVITIES (CONTINUED)

3. 2016-T Roseville Redevelopment Project Tax Allocation Bonds

On July 19, 2016, the Roseville Successor Agency issued the Series 2016-T Refunding Bonds, in the amount of $21,520,000 for the purpose of refunding the 2006 Series A, 2006 Series A-T and 2006 Series H-T Tax Allocation Bonds. The Bonds bear interest at rates ranging from 1.021 percent to 4.066 percent. Principal payments are due annually on September 1. Interest payments are due semi-annually on each September 1 and March 1, commencing on September 1, 2017 through September 1, 2040.

4. Loans from the City

Prior to July 1, 2011, the former Redevelopment Agency had received various advances from various City funds.

With the dissolution of the Agency effective February 1, 2012, the Successor Agency assumed the balance of the obligation to repay the advances and recorded a notes payable to the Low and Moderate Income Housing Asset Fund equal to twenty percent of the balance of the advances. The principal balance of the loans as of June 30, 2025, is $7,849,196.

NOTE 22: RESTATEMENTS OF BEGINNING BALANCES

During the current year, the City implemented GASB Statement No. 101, Compensated Absences. The effects of the change in accounting principle on net position are summarized in the "Restatement - GASB 101 Implementation" column in the table below.

	June 30, 2024 As Previously Reported	Restatement - GASB 101 Implementation	June 30, 2024 As Restated
Government-wide			
Governmental activities	$ 1,655,391,291	$ 2,167,239	$ 1,657,558,530
Business-type activities	2,292,010,902	1,189,608	2,293,200,510
Total government-wide	$ 3,947,402,193	$ 3,356,847	$ 3,950,759,040
Proprietary funds			
Major funds			
Electric	$ 555,554,192	$ 623,630	$ 556,177,822
Water	781,731,470	153,924	781,885,394
Wastewater	873,727,153	252,041	873,979,194
Waste Services	33,313,334	93,552	33,406,886
Roseville Natural Gas	2,628,607	-	2,628,607
Nonmajor proprietary funds	45,056,146	66,461	45,122,607
Internal Service Funds	168,994,062	201,531	169,195,593
Total proprietary funds	$ 2,461,004,964	$ 1,391,139	$ 2,462,396,103

NOTE 23: SUBSEQUENT EVENTS

The City received a one-time clean energy tax credit payment, primarily for improvements at the Pleasant Grove Wastewater Treatment Plant, in November 2025 totaling $31,247,747 from the federal government provided by the Inflation Reduction Act. Under the terms of the City's 2020 SRF Loan, the amount collected must be used to repay the state loan program. And, under the City's loan agreement with SPWA, whereby SPWA pays the City the debt service costs of the 2020 SRF loan, the loan receivable from SPWA will be reduced correspondingly.

Plan fiduciary net position as a percentage of the total pension liability	66.97%	70.91%	63.89%	66.41%
Covered payroll	$ 70,574,246	$ 25,172,485	$ 74,134,013	$ 26,276,305
Net pension liability as a percentage of covered payroll	249.33%	305.30%	275.38%	363.72%

Notes to Schedule:

Benefit Changes: The figures above generally include any liability impact that may have resulted from voluntary benefit changes that occurred on or before the Measurement Date. However, offers of Two Years Additional Service Credit (a.k.a. Golden Handshakes) that occurred after the Valuation Date are not included in the figures above, unless the liability impact is deemed to be material by the plan actuary.

Changes of Assumptions: There were no assumption changes in 2023 or 2024. Effective with the June 30, 2021, valuation date (June 30, 2022, measurement date), the accounting discount rate was reduced from 7.15% to 6.90%. In determining the long-term expected rate of return, CalPERS took into account long-term market return expectations as well as the expected pension fund cash flows. In addition, demographic assumptions and the price inflation assumption were changed in accordance with the 2021 CalPERS Experience Study and Review of Actuarial Assumptions. The accounting discount rate was 7.15% for measurement dates June 30, 2017, through June 30, 2021, and 7.65% for measurement dates June 30, 2015, through June 30, 2016.

Notes to Schedule:

Methods and assumptions used to determine contribution rates:

Actuarial cost method	Entry age normal cost method
Amortization method	Level percentage of pay, a summary of the current policy is provided in the table below:

	Source				
	(Gain)/Loss		Assumption/ Method		
Driver	Investment	Non-investment	Change	Benefit Change	Golden Handshake
Amortization Period	30 years	30 Years	20 Years	20 Years	5 Years
Escalation Rate					
- Active Plans	2.750%	2.750%	2.750%	2.750%	2.750%
- Inactive Plans	0%	0%	0%	0%	0%
Ramp Up	5	5	5	0	0
Ramp Down	5	5	5	0	0

Asset valuation method	Market Value
Inflation	2.30%
Salary increases	Varies by Entry Age and Service
Payroll growth	2.80%
Investment rate of return	6.80%, net of pension plan investment expenses, including inflation.
Retirement age	The probabilities of retirement are based on the 2021 CalPERS Experience Study and Review of Actuarial Assumptions.
Mortality	The probabilities of mortality are based on the 2021 CalPERS Experience Study and Review of Actuarial Assumptions. Mortality rates incorporate full generational mortality improvement using 80% of Scale MP-2020 published by the Society of Actuaries.

MODIFIED APPROACH TO REPORTING STREET PAVEMENT COSTS

GASB Statement No. 34 allows the City to use the Modified Approach with respect to infrastructure assets instead of depreciating these assets. The Modified Approach may be used if two requirements are met:

A. The City must have an asset management system (AMS) with certain features:

- It must maintain an up-to-date inventory of the infrastructure assets.
- It must estimate the annual costs to maintain and preserve those assets at the condition level the City has established and disclosed through administrative or executive policy or legislative action.
- The AMS must be used to assess the condition of the assets periodically, using a measurement scale.
- The condition assessments must be replicable as those that are based on sufficiently understandable and complete measurement methods such that different measurers using the same methods would reach substantially similar results.

B. The City must document that the roads are being preserved approximately at or above the condition level the City has established and disclosed. This documentation must include the results of the three most recent complete condition assessments and must provide reasonable assurance that the assets are being preserved approximately at or above the intended condition level.

Street Pavement

The City has elected to use the Modified Approach to report street pavement costs. The City uses a computerized Pavement Management System to track the condition levels of each of the street sections.

The condition of the pavement is based on a weighted average of seven distress factors found in pavement surfaces. The pavement management system uses a measurement scale that is based on a condition index ranging from zero for a failed pavement to 100 for pavement with perfect condition. The condition index is used to classify pavement in good or better condition (70-100), fair condition (55–69), and substandard condition (less than 55).

The City's maintenance costs are budgeted to be $20,817,266 in fiscal year 2025. The Pavement Quality Index (PQI) for the City's street pavement for the last five years is as follows:

	PQI			
Fiscal Year	Arterial/ Collector	Residential	Maintenance Budget	Actual Maintenance
2021	69	66	$ 20,696,490	$ 6,033,245
2022	66	63	18,035,155	13,658,427
2023	79	73	29,283,349	19,086,170
2024	75	68	17,176,924	12,791,606
2025	74	69	16,192,769	12,733,694

The City's policy based on current funding is to maintain arterial and collector roadways at an average Pavement Quality Index (PQI) of 72 and residential roadways at an average PQI of 67, based on a study conducted every three years. This rating allows for minor cracking and reveling of the pavement along with minor roughness that could be noticeable to drivers traveling at posted speed. The City expended $12,733,694 for street preservation in fiscal year 2025.

NOTE 1: BUDGETING PROCEDURES

The City follows these procedures in establishing the budgetary data:

A. The City Manager submits to the City Council a proposed budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing them.

B. Public hearings are conducted to obtain taxpayer comments.

C. The budget is legally enacted through the passage of minute order and ordinance.

D. The City Manager or designee is authorized to apply prudent monitoring procedures to assure that actual expenditures/expenses of the City do not exceed the appropriations at the department level within each fund in conformance with the adopted policies set by the City Council. Capital Improvement Projects, including annual projects, may not exceed project budget by fund. Additional appropriations or interfund transfers not included in the annual budget ordinance require approval by the City Council.

E. Expenditures may not legally exceed budgeted appropriations at the department by fund.

F. A formal budgetary process is employed as a management control device during the year.

G. Budgets are adopted for all governmental funds. Capital projects are budgeted on a project length basis and, therefore, are not comparable on an annual basis.

NOTE 2: ADJUSTMENTS TO GAAP BASIS FROM BUDGETARY BASIS

City budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP) except that capital projects expenditures are budgeted on a project length basis rather than a fiscal year. The effects of these differences are shown as capital outlay in the budget and actual statements.

NOTE 3: ENCUMBRANCES

Under encumbrance accounting, purchase orders, contracts and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation. Encumbrance accounting is employed as an extension of formal budgetary integration in all budgeted funds. Encumbrances outstanding at year end are reported as restricted, committed or assigned fund balances, as applicable, since they do not constitute expenditures or liabilities and are reappropriated in the following year. Unexpended appropriations lapse at year end and must be carried forward to be reappropriated in the following year.

SUPPLEMENTARY INFORMATION

NON-MAJOR GOVERNMENTAL FUNDS

Special Revenue Funds

Special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.

Landscape and Lighting Districts and Services Districts Fund. To account for the collection of assessment revenue from property owners for the maintenance of surrounding park and landscaping improvements within the boundaries of each district.

State Gasoline Tax Fund. To account for revenue apportioned to the City from the State-collected gas tax revenues and spent for construction and maintenance of City streets.

Traffic Safety Fund. To account for the City's share of fines generated from violations of the State Motor Vehicle Code.

Trench Cut Recovery Fund. To account for the collection of fees charged by the City for cutting trenches in paved roadway and spent for maintaining the street if useful life is decreased.

Technology Replacement Fund. To account for the activities related to the City's permit system funded by a three percent technology fee on permits.

Open Space Fund. To account for the accumulation of funding for the maintenance of the City's bike trails and open spaces.

Tree Propagation Fund. To account for fees assessed on oak tree removal and expended on the continuation and preservation of tree planting within the City.

Grants Fund. To account for monies received from federal, state, and local grantors.

Housing Authority Housing Choice Voucher Fund. To account for monies received from the U.S. Department of Housing and Urban Development and expended for rental assistance to low-income households within the Roseville and Rocklin areas.

Affordable Housing Fund. To account for monies received from property whose land use was changed from residential to commercial and from affordable housing agreements. These monies are then used to fund other affordable housing projects.

Low/Mod Income Housing Asset Fund. To account for the activities related to the assets assumed by the City as Housing Successor to the housing activities of the former Redevelopment Agency of the City of Roseville.

Cable TV PEG Fund. To account for activity related to Public, Educational, and Governmental Access TV channels.

Police Evidence Fund. To account for confiscated property and evidence funds for the Police department.

Golf Fund. To account for all financial transactions relating to the development, operations, and maintenance of the City's public golf courses.

Roseville Aquatics Complex Maintenance Fund. A permanent fund established to account for contributions from the High School District. Only the interest earnings can be spent on helping maintain the Aquatics Complex.

Opioid Settlement Fund. To account for monies received from settlements with opioid manufacturers, distributors, and retailers for actions contributing to the current opioid epidemic. The monies must be spent on opioid remediation efforts as defined in the settlement agreement.

Capital Projects Funds

Capital projects funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets. Capital projects funds exclude those types of capital-related outflows financed by proprietary funds or for assets that will be held in trust for individuals, private organizations, or other governments.

Development Impact Fee Fund. To account for fees applied to new construction and expended for the development of public facilities for which it creates a need.

Traffic Mitigation Fund. To account for revenues and expenditures related to major roadways and related structures such as bridges or interchanges.

Al Johnson Wildlife Area Fund. To account for activity related to the maintenance of the Al Johnson Wildlife area.

Roadway Fund. To account for non-Gas Tax grants and other restricted revenues to construct and or maintain City streets.

General Fund Capital Projects Rehabilitation Fund. To account for the approved rehabilitation of existing City property funded by the General Fund.

RFA Capital Projects Fund. To account for specific public improvements such as streets, sewers, storm drains, sidewalks or other amenities funded by special assessments against benefited properties.

Debt Service Fund

Debt service funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest.

Roseville Finance Authority Fund. To account for the accumulation of resources from lease payments and the payment of long-term debt incurred by the Finance Authority.

Permanent Fund

Permanent funds are used to account for and report resources that are restricted to the extent that only earnings, and not principal, may be used for purposes that support the reporting government's programs—that is, for the benefit of the government or its citizenry.

Citizens Benefit Fund. A permanent fund established to account for the proceeds from the sale of a City-owned hospital and interest earnings expended for improving the quality of life for the citizens of the City of Roseville.

INTERNAL SERVICE FUNDS

Internal Service Funds are used to finance and account for special activities and services performed by a designated department for other departments in the City on a cost reimbursement basis.

Financial reporting standards require that for the Statement of Activities, the net revenues or expenses of each internal service fund be eliminated by netting them against the operations of the other City departments which generated them. The remaining balance sheet items are consolidated with these same funds in the Statement of Net Position.

The internal service funds below are presented separately in the Internal Services Funds combining financial statements.

Fleet Fund. To account for the maintenance and replacement of vehicles used by City departments.

Facilities Fund. To account for building maintenance and custodial services for City departments.

Information Technology Fund. To account for the City's information technology infrastructure and related support services.

General Equipment Replacement Fund. To account for the replacement of equipment for City departments.

Worker's Compensation Fund. To account for the City's self-insurance program for workers' compensation benefits and for the administration of various preventative programs.

General Liability Fund. To account for the cost of claims and administrative costs of the City's self-insured general liability program.

Unemployment Reserve Fund. To account for state and federal mandated unemployment insurance benefits for employees.

General Benefits. To account for the City's insurance programs for employee benefits.

CUSTODIAL FUNDS

Custodial Funds account for assets held by the City as a custodial for individuals, governmental entities, and non- public organizations. These funds include the following:

Special Assessments/Community Services Districts. To account for the monies collected and disbursed for land-based debt, where the City is not obligated for the debt. The beneficiaries of this fund are the bondholders.

North Roseville – Rocklin Sewer Refunding District. To account for debt service related to bonds issued to finance the construction of sewer infrastructure in North Roseville and Rocklin.

Foothills Boulevard Extension Assessment. To collect fees from new development to finance the extension of Foothills Boulevard.

Highway 65 JPA (Bizz Johnson JPA). This joint powers authority, which consists of the City, City of Rocklin and Placer County, was formed to fund interchanges off of Highway 65. The City acts as lead agency and treasurer. The fees are collected via building permits. The beneficiaries of this fund are the JPA participants.

Dry Creek Drainage Basin. Fees are collected via building permits for the Dry Creek area and submitted quarterly to Placer County for drainage mitigation. The beneficiary of this is Placer County.

County Capital Facilities Fee. This fee was established by Placer County to fund future county capital facilities from development. It is collected via building permits and submitted quarterly to the County. The beneficiary of this fund is the Placer County.

South Placer Wastewater Authority (SPWA). SPWA is a joint powers authority comprised of the City, Placer County and South Placer Municipal Utilities District. The City is acting as the treasurer and construction manager. This JPA was formed to issue debt to facilitate the construction of the regional wastewater infrastructure. The agencies collect regional wastewater connection fees and submit them to SPWA which is used for debt service payments and for the future expansion of facilities. The beneficiaries of this fund are the SPWA participants.

Special Sewer Benefit Areas. The Sewer Special Benefit Areas were established to reimburse from properties benefiting from certain sewer infrastructure and oversized pipelines in portions of the City. The reimbursements are made to various project participants.

South Placer County Tourism Business Improvement District (SPCTBID). All hotels in the region are assessed fees for the purpose of promoting tourism in the area. These fees are forwarded to the City quarterly and then submitted quarterly to the SPCTBID. The beneficiary of this fund is SPCTBID.

External Traffic Mitigation Fees. These fees are collected via building permits and submitted quarterly to Placer County and Placer County Transportation Authority to fund regional traffic mitigation due to new developments. The beneficiaries of this fund are Placer County and Southern Placer Regional Transportation Authority.

Placer County Air Pollution Control Fund. The fee is collected to provide funding for air quality mitigation. The beneficiary of this fund is the Placer County Air Pollution Control District.

Sierra College Boulevard Fund. To account for contributions to provide maintenance of bike trails and open space. The beneficiaries of this fund is the Town of Loomis.

Special Assessment Collection Fees. To account for fees collected for Placer County's administration of the City's Special Assessments.

Developer Reimbursements. To account for developer reimbursements.

STATISTICAL SECTION

THIS PAGE INTENTIONALLY LEFT BLANK

STATISTICAL SECTION

This part of the City's Annual Comprehensive Financial Report presents detailed information as context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health. In contrast to the financial section, the statistical section information is not subject to independent audit.

Financial Trends
These schedules contain trend information to help the reader understand how the City's financial performance and financial condition have changed over time:

- Net Position by Component
- Changes in Net Position
- Fund Balances of Governmental Funds
- Changes in Fund Balances of Governmental Funds

Revenue Capacity
These schedules contain information to help the reader assess the City's most significant local revenue sources: sales tax, property tax, and electric revenue:

- Sales Tax Revenue
- Assessment Roll Values
- Property Tax Rates - Direct and Overlapping Governments
- Principal Property Taxpayers
- Property Tax Levies and Collections
- Electric Customers and Revenues
- Residential Energy Prices
- Business Energy Prices

Debt Capacity
These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future:

- Ratio of Outstanding Debt by Type
- Revenue Bond Coverage – 2014 Redevelopment Tax Allocation Bonds
- Revenue Bond Coverage – 2016 Redevelopment Tax Allocation Bonds
- Computation of Direct and Overlapping Debt
- Computation of Legal Bonded Debt Margin

Demographic and Economic Information
These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place:

- Demographic and Economic Statistics
- Principal Employers
- Full-time Equivalent City Employees by Function
- Operating Indicators by Function/Program
- Capital Asset Statistics by Function/Program

(a) The City implemented the provisions of GASB Statements 75 in fiscal year 2018 and restated certain balances.

(b) Net (Expense)/Revenue and Use of money and property for Business-Type activities for fiscal year 2018 have been updated to match with ACFR Statement of Activities.

(c) Beginning in the fiscal year ended June 30, 2021, the City began reporting development and operations as separate lines named Development Services, Economic Development, and Annexation Payments.

(d) The sales tax amounts have been restated back to 2019 to separate the local sales tax from the Bradley-Burns sales tax revenue.

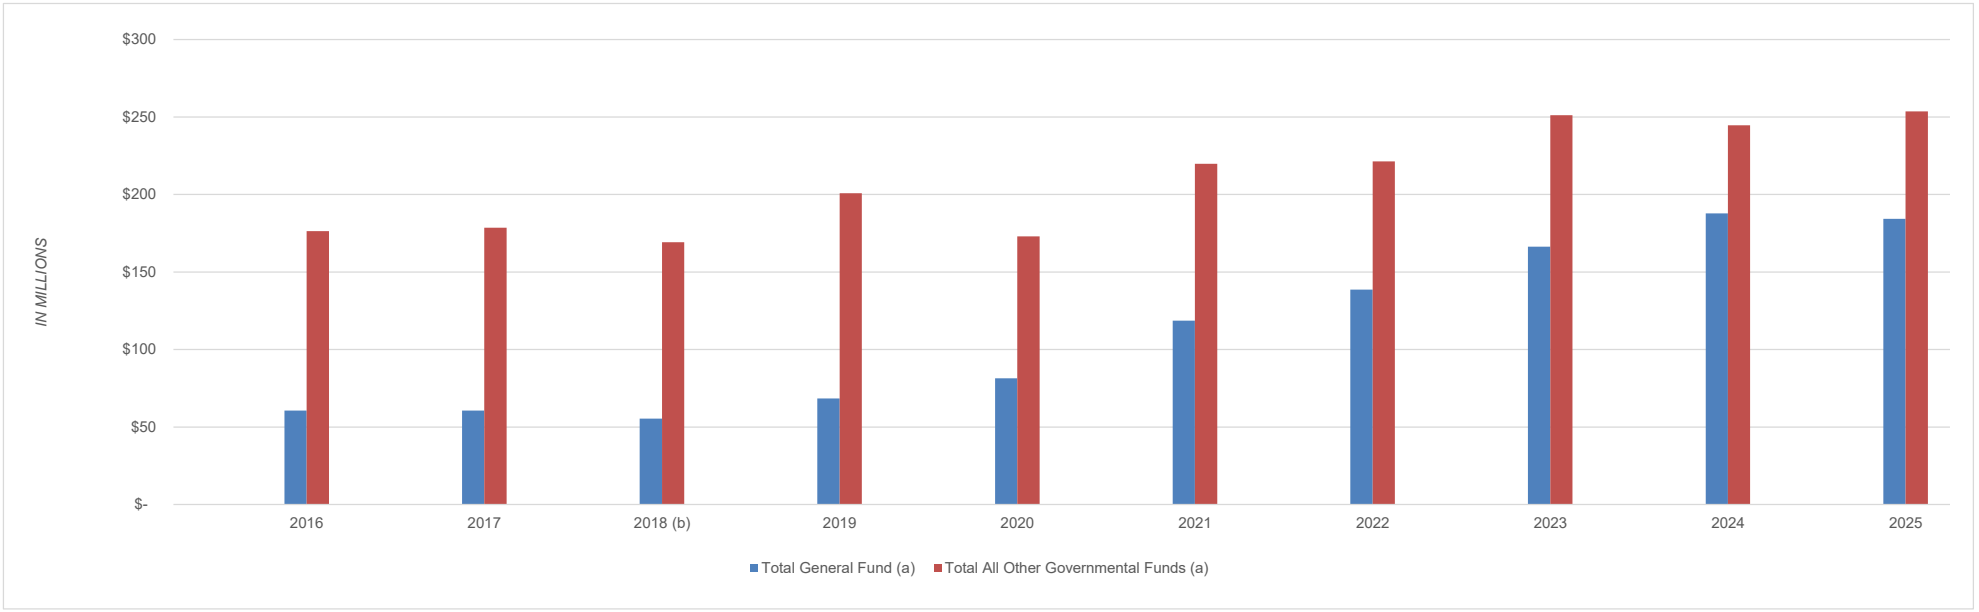

(e) The governmental activities had a total prior period restatement of $1,753,211. The general fund deferred inflows were overstated by $130,178 and the other governmental funds had a net overstatement of $1,623,041.The business-type activities had a total prior period restatement of $116,402.

(f) The FY23 capital contributions and grants revenue and most of the functional expenses have been restated for a reclassification, with no net result on net position.

(g) The business-type activities had a total prior period restatement of $246,144 in FY24. The School-Age Child Care fund had overstated revenue of $152,617 and the Local Transportation fund had overstated revenue of $93,527.

(h) The City implemented the provisions of GASB Statement 101 in fiscal year 2025 and restated certain balances.

(a) Beginning in the fiscal year ended June 30, 2021, the City began reporting development and operations as separate lines named Development Services, Economic Development, and Annexation Payments

(b) In fiscal year 2018, the City recalculated these percentages.

(c) The governmental funds had a restatement that resulted in a decrease to fund balance of $221,584.

Fiscal Year	Bradley-Burns Sales Tax	Triple Flip - In Lieu Sales Tax	Measure B Local Sales Tax
2016 *(a)*	43,559,785	9,433,609	-
2017	51,646,625	-	-
2018 *(b)*	50,710,102	-	-
2019 *(c)*	56,355,528	-	4,218,788
2020	52,699,584	-	19,669,535
2021	63,700,772	-	24,509,762
2022	70,621,977	-	28,328,053
2023	70,753,558	-	28,827,172
2024	70,122,618	-	29,944,203
2025	71,131,698		29,880,035

(a) The State Triple Flip ended with a one-time additional payment for the final quarter.

(b) Sales tax decreased due to a one-time processing delay associated with the state implementing a new tax collection system.

(c) Voters approved the Measure B local sales tax in November 2018, effective April 1, 2019, increasing the sales tax rate from 7.25% to 7.75%.

Article XIIIA, added to the California Constitution by Proposition 13 in 1978 fixed the base for valuation of property subject to taxes at the full cash value which appeared on the Assessor's 1975/76 assessment roll. Thereafter, full cash value can be increased to reflect:

- *annual inflation up to 2%; or*
- *market value at the time of ownership change; or*
- *market value for new construction.*

California cities do not set their own direct tax rate. The state constitution establishes the rate at 1% and allocates a portion of that amount, by an annual calculation, to all the taxing entities within a tax rate area.

Notes:
Current tax collections beginning in 1993 have been reduced by a mandatory tax reallocation imposed by the State of California.
Placer County uses an estimate for the delinquency rate and compiles delinquency as a lump sum.
Subsequent collections are not broken out by fiscal year from the County, and therefore this information is not available.

CITY OF ROSEVILLE
RESIDENTIAL ENERGY PRICES
Effective January 1, 2025

Residential	
Basic Service Charge (per meter, per month)	$30.00
Energy Charge ($/kWh)	
Tier 1- up to 500 kWh/month	$0.1469
Tier 2- greater than 500 kWh/month	$0.1912
Renewable Energy Surcharge ($/kWh)	$0.0056
Greenhouse Gas Surcharge ($/kWh)	$0.0002
Hydroelectric Adjustment ($/kWh) [(a)]	$0.00157
State Energy Surcharge ($/kWh)	$0.00030

Rates are prorated.

Solar Customer Buyback Rate

Net Energy Metering [(b)]	
Surplus Energy Compensation Rate ($/kWh)	$0.1176
Roseville Solar 2.0 [(c)]	
Surplus Energy Compensation Rate ($/kWh)	$0.0691

Special Residential Rates

Electric Rate Assistance Program
Residents meeting certain income criteria may be eligible for a 20% discount on electric service.

Medical Rate Assistance Program
Residents meeting certain income and medical device use criteria may be eligible for a 50% discount on the first 500 kWh and 20% on all other kWh electric usage.

Medical Notification Program
Residents can notify the City of Roseville of the residential use of essential medical support equipment. This program allows the City to comply with the California Public Utility code 10010.

(a) There is a hydroelectric adjustment in effect from July 2024 through June 2025.
(b) Rate closed October 1, 2018. Surplus energy compensation rates are subject to revision by City Council as energy prices and system requirements change.
(c) The State of California allows electric utilities to implement a new solar buyback rate once solar exceeds 5% of the utility's system peak. Roseville Electric Utility now exceeds 5% solar. Per the City of Roseville Municipal Code, beginning October 1, 2018 customers will be enrolled in Roseville Solar 2.0. This change will not affect customers who installed solar before October 1, 2018 until 2028. Net Energy Metering customers will continue with net energy metering for up to 20 years (10 minimum) from the date of system interconnection. Surplus energy compensation rates are subject to revision by City Council as energy prices and system requirements change.

2014	578,172,662	-	578,172,662	0.00%
2015	624,626,766	-	624,626,766	0.00%
2016	672,531,992	-	672,531,992	0.00%
2017	717,170,366	-	717,170,366	0.00%
2018	760,269,304	-	760,269,304	0.00%
2019	815,306,847	-	815,306,847	0.00%
2020	873,200,181	-	873,200,181	0.00%
2021	924,988,530	-	924,988,530	0.00%
2022	984,602,595	-	984,602,595	0.00%
2023	1,074,196,141	-	1,074,196,141	0.00%
2024	1,151,182,551	-	1,151,182,551	0.00%
2025	1,223,417,889	-	1,223,417,889	0.00%

(a) California Government Code, Section 43605 sets the debt limit at 15%. The Code section was enacted prior to the change in basing assessed value to full market value when it was previously 25% of market value. Thus, the limit shown as 3.75% is one-fourth the limit to account for the adjustment of showing assessed valuation at full cash value.

Title:	Fiscal Year 2024-25 Fourth Quarter Report and Budget Adjustment
Contact:	Nancy Rothlisberger 916-774-5314 nrothlisberger@roseville.ca.us

SUMMARY

Year-end results for Fiscal Year (FY) 2024-25 reflect a General Fund budget surplus of $11.64 million, as detailed in the FY2024-25 Fourth Quarter Report. Staff recommends a budget adjustment to transfer $671,274 of this surplus to the Youth Development Fund to address its year-end shortfall. Staff will return to Council at a later date to recommend appropriating the remainder of the year-end General Fund budget surplus.

RECOMMENDATION

Staff recommends that the City Council adopt an ordinance approving a budget adjustment transferring General Fund resources to the Youth Development Fund.

BACKGROUND

Year-end results for the FY2024-25 General Fund budget reflect a surplus of $11.64 million. This is a better result than had been expected in the FY2024-25 third quarter report. Key drivers of this surplus are:

- $5.4 million in revenues exceeding original estimates, or 2.4% of the operating revenue budget, including $1.4 million in sales taxes and $1.6 million in property tax
- $6.2 million in operating expenditure savings, or 2.7% of the operating expenditure budget, primarily due to vacant positions

General Fund FY2024-25 Year-End Results (Operating and Non-Operating)	Variance from Budget ($)
Sales and Use Tax - Bradley Burns	$ 747,000
Sales and Use Tax - Measure B	680,000
Property Tax	1,574,000
Other Revenues	2,447,000
Revenue surplus	**5,448,000**
Expenditure savings	**6,193,000**
Total General Fund Year-End Surplus	**$ 11,641,000**

Staff recommends transferring $671,274 of this prior-year General Fund surplus to cover the shortfall in the

Youth Development Fund related to ongoing program expenses and capital improvements previously approved by the City Council. The FY2025-26 adopted budget programmed a $2,356,336 transfer from the General Fund to the Youth Development Fund ($1,595,109 for operating expenditures and $761,227 for capital expenditures). This additional transfer will bring the total General Fund support for the Youth Development Fund in FY2025-26 to $3,027,610.

Staff will return to Council at a later date to recommend appropriating the remainder of the year-end General Fund budget surplus.

FISCAL IMPACT

The recommended adjustment to the FY2025-26 budget will result in a $671,274 reduction to the General Fund balance and a $671,274 increase to the Youth Development Fund balance.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. The Fiscal Year 2024-25 Fourth Quarter Report and Budget Adjustment meets the above criteria and is not subject to CEQA. No additional environmental review is required.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

Justification for Budget Adjustment:

Staff recommends the transfer of $671,274 from the FY2024-25 General Fund (1001) surplus to the Youth Development Fund (6591) to support program expenses, including capital improvements previously approved by the City Council.

Fiscal Year 2024-25 Fourth Quarter Report

CITY OF ROSEVILLE CALIFORNIA

FISCAL YEAR 2024-25 – FOURTH QUARTER REPORT

Overview

This financial report provides an overview of the City of Roseville's financial status through the fourth quarter of fiscal year (FY) 2024-25 (July 1, 2024, through June 30, 2025) for:

(1) the General Fund;
(2) the major enterprise operating funds; and
(3) revenues in other selected funds.

General Fund Summary

The City ended FY 2024-25 in a strong overall financial position, with the General Fund reporting revenues above budget and expenditures below appropriations. This favorable outcome reflects continued resilience in key revenue sources, effective expenditure management, and successful cost recovery practices across departments.

General Fund operating revenues exceeded budget estimates by 2 percent (approximately $5.4 million), driven by strong performance across several major categories. Sales and Use Tax revenues (Bradley-Burns and Measure B combined) outperformed estimates by 1.4 percent ($1.4 million), closing the year at $71.1 million for Bradley-Burns and $29.9 million for Measure B. These results were consistent with expectations, as sales tax activity showed a modest recovery during the year, despite factors slowing overall sales tax growth, including high interest rates, a continued shift toward non-taxable service-related spending, and broader economic uncertainties.

Property tax revenues remained a stable and significant revenue source, totaling $76.7 million, approximately 2 percent ($1.6 million) above budget, representing a 5.7 percent increase over the prior fiscal year. This growth reflects sustained residential property values and continued new construction activity. Transient Occupancy Tax (TOT) revenues also exceeded expectations, ending the year at $7.3 million, or 1 percent above budget, indicating steady lodging activity.

Development activity continued with an upward trend during FY2024-25. Building permit revenues, plan check fees, and engineering inspection fees collectively ended the year approximately $0.6 million above budget estimates. Revenues in other categories closed the year approximately 11 percent above budget ($1.9 million).

General Fund spending concluded the fiscal year 3 percent below budget, primarily due to position vacancies, cost savings in professional services, and lower-than-anticipated spending on materials, services, and supplies across several departments.

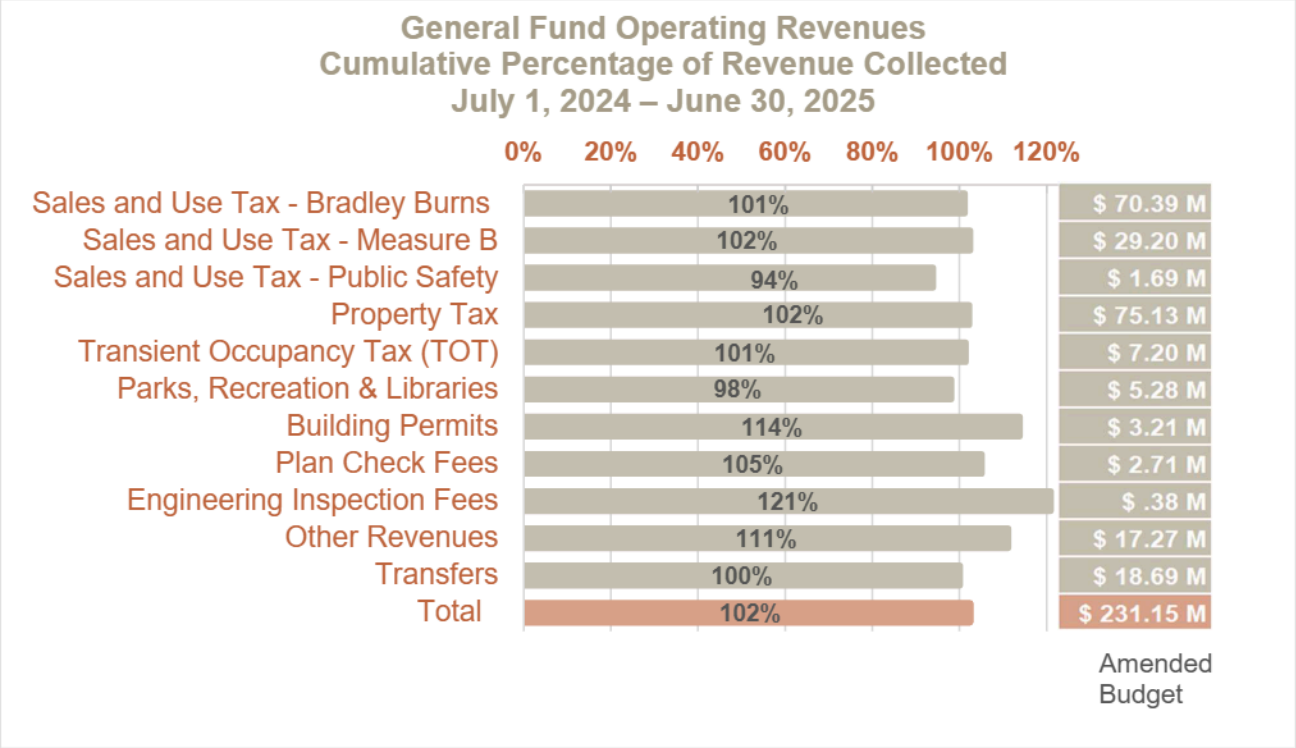

The combined surplus for FY2024-25 amounts to $11.64 million, as presented in the following table:

General Fund FY2024-25 Year-End Results (Operating and Non-Operating)	Variance from Budget ($)
Sales and Use Tax - Bradley Burns	747,000
Sales and Use Tax - Measure B	680,000
Property Tax	1,574,000
Other Revenues	2,447,000
Revenue surplus	**5,448,000**
Expenditure savings	**6,193,000**
Total General Fund Year-End Surplus	**$ 11,641,000**

General Fund: Operating Revenues

The following table displays cumulative General Fund operating revenue through the fourth quarter and a revenue budget to actual comparison for FY2024-25.

Revenue Type	Amended Budget	Cumulative Revenues	Balance Remaining	% of Budget Collected
Sales and Use Tax – Bradley-Burns	$ 70,385,000	$ 71,131,698	$ 746,698	101%
Sales and Use Tax – Measure B	29,200,000	29,880,035	680,035	102%
Sales and Use Tax – State Aid for Public Safety	1,687,000	1,582,845	(104,155)	94%
Property Tax	75,126,000	76,699,912	1,573,912	102%
Transient Occupancy Tax (TOT)	7,200,000	7,294,764	94,764	101%
Parks, Recreation & Libraries Programs	5,279,735	5,173,466	(106,269)	98%
Building Permits	3,212,920	3,654,226	441,306	114%
Plan Check Fees	2,705,700	2,839,894	134,194	105%
Engineering Inspection Fees	380,450	459,811	79,361	121%
Other Revenues	17,274,084	19,182,687	1,908,603	111%
Transfers	18,694,658	18,694,658	-	100%
TOTAL	**$ 231,145,547**	**$ 236,593,996**	**$ (5,448,449)**	**102%**

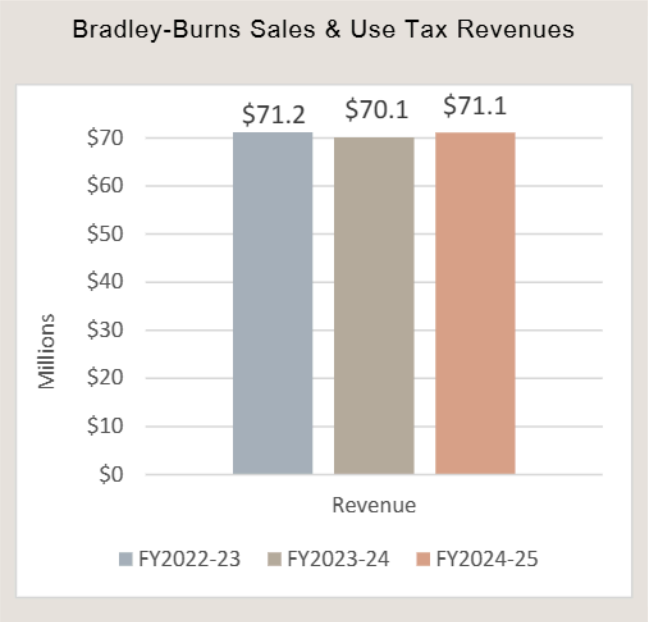

General Fund operating revenues ended the year 2 percent above budget, totaling $5.4 million over estimates, reflecting strong performance across several major revenue categories. Combined sales tax (Bradley Burns and Measure B) revenues outperformed estimates by 1.4 percent ($1.4 million). Property tax revenues also remained strong in FY2024-25, surpassing the budget estimate by $1.6 million. In addition, building permits, plan check fees, and engineering inspection fees ended the year above budget by $0.6 million, while other revenues were $1.9 million above projections.

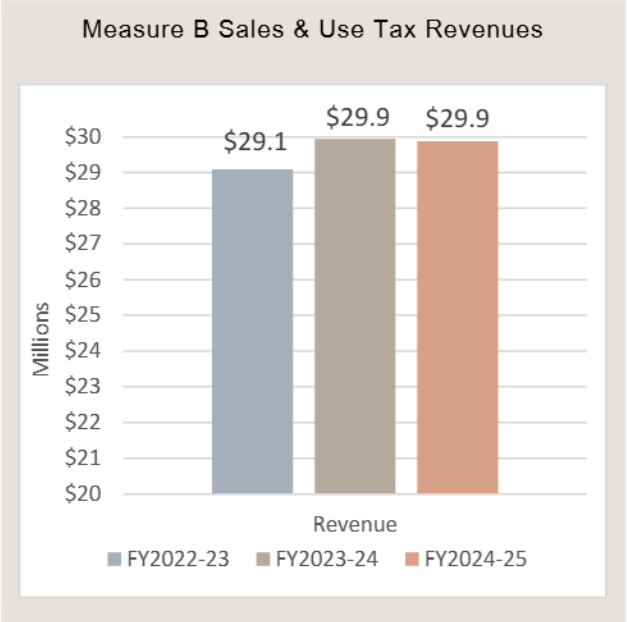

Bradley-Burns and Measure B Sales Tax

The City's Bradley Burns and Measure B Sales and Use tax revenues closed the year at $71.1 and $29.9 million, respectively. Bradley Burns sales tax exceeded budget estimates by one percent ($0.75 million), and Measure B sales tax finished two percent above budget ($0.68 million). These results were largely anticipated, as revenue data throughout the year indicated a slight recovery in sales and use tax growth. As mentioned previously, the slowing revenue growth is attributed to the ongoing impact of high interest rates and a shift in consumer spending towards service-related purchases, which are not taxable.

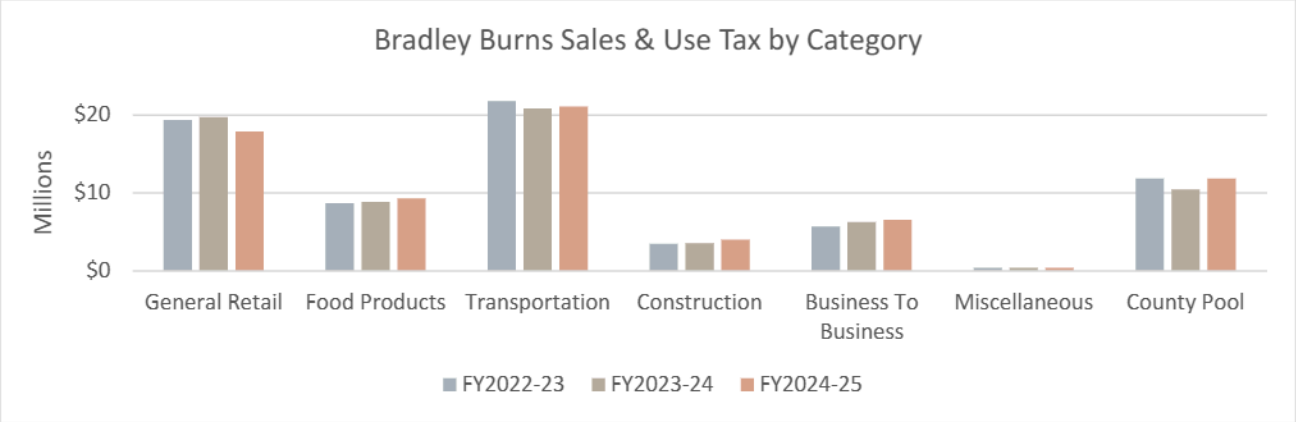

The graphs provided below show Bradley Burns and Measure B Sales and Use Tax revenues collected over the past three fiscal years and by business category.

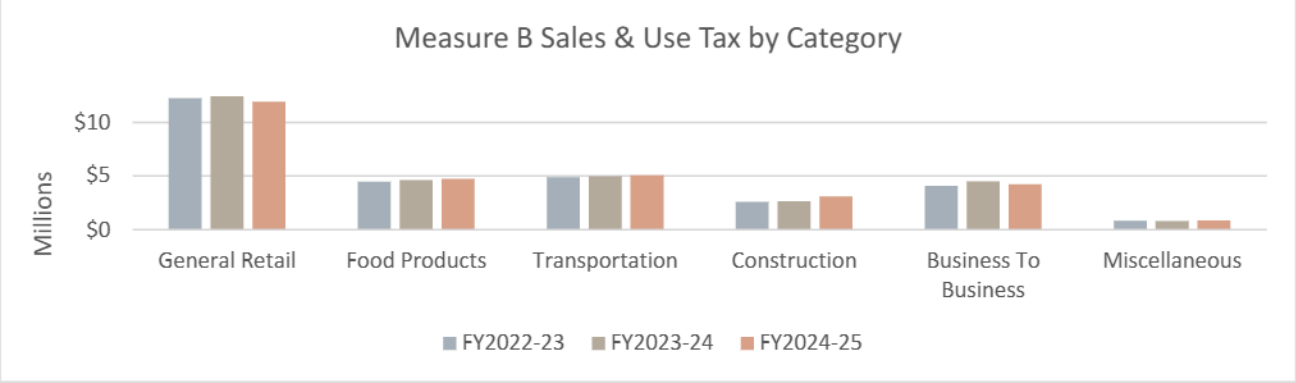

*Total Revenue before state administrative fees

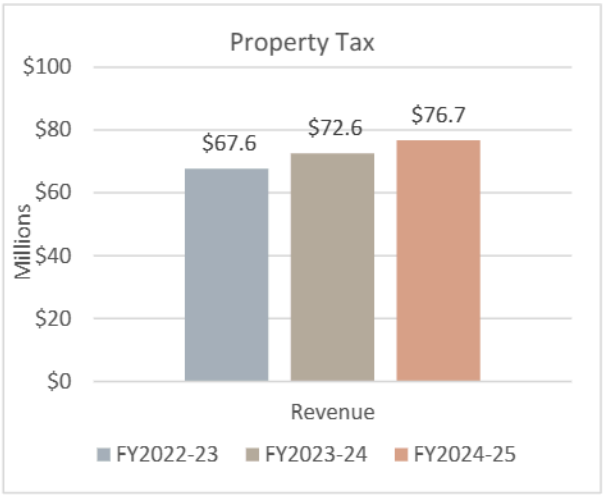

*Total Revenue before state administrative fees

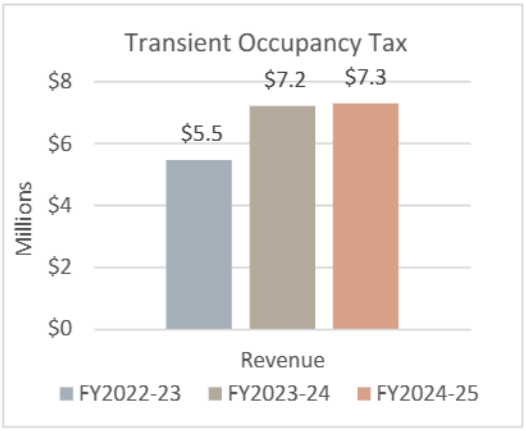

Additional Sales Tax Information: The City's sales tax consultant has prepared a detailed sales tax and business activity report (attached at the end of this report) that provides a list of the top 25 sales tax remitters, a summary of cash receipts, and sales tax data by economic category.

Property Tax

Property tax revenue for FY2024-25 is based on assessed valuation as of January 1, 2024. The City's property tax revenues surpassed estimates by two percent, reaching $76.7 million compared to the $75.1 million budgeted. This performance represents a 5.7 percent increase over the prior fiscal year, reflecting continued strength in residential property values and growth from new construction activity. The accompanying graph illustrates property tax revenue trends over the past three fiscal years, highlighting the sustained upward trajectory of this revenue source.

Transient Occupancy Tax (TOT)

The City's TOT, or hotel tax, totaled $7.3 million through year end, exceeding budget estimates by one percent or $94,764.

Parks, Recreation & Libraries (PRL) Programs

PRL program revenues concluded the year two percent below the annual budget target. Despite this variance, year-end revenues increased by 7.4 percent compared to FY2023-24. This growth was supported by strong program participation, sustained membership levels, and consistent demand for facility and picnic rentals.

Building Permits, Plan Check Fees, Engineering Inspection Fees

Building permit revenues and plan check fees ended the year above budget, driven by sustained levels of development activity. During FY2024-25, the City experienced a slight decrease, compared to the prior year, in issued single-family residential building permits; however, this

shortfall was offset by a substantial increase in multi-family residential permits issued. Engineering inspection fees also ended the year in excess of budget, primarily due to sustained levels of encroachment permits and planning permit reviews. The Development Services Department recovers the cost of staff labor for utility infrastructure related inspections from the utility franchise fees received in the General Fund.

Other Revenues

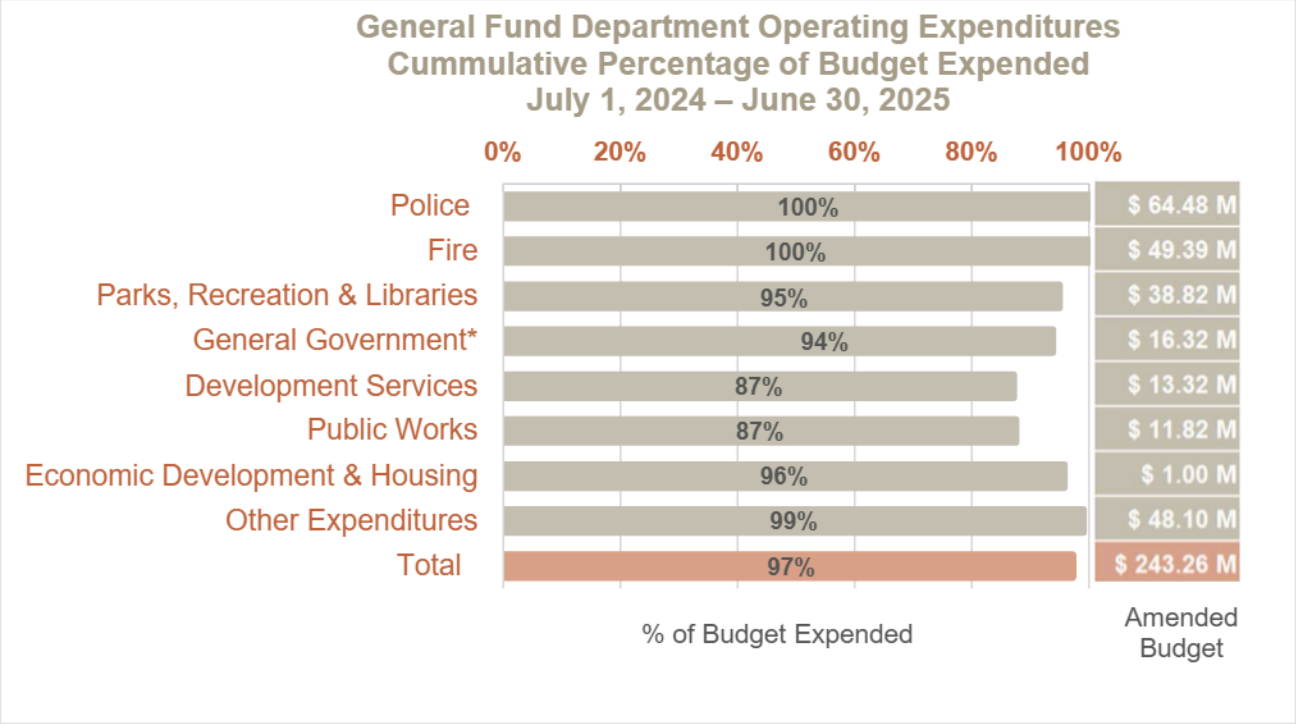

Other revenues include reimbursements from the state; development reimbursement activity; property transfer tax; business license tax; rental payments; and animal licensing, passport processing, permit franchise, and other fees. Revenues in this category ended the year 11 percent above budget ($1.9 million). The primary drivers of this positive variance include higher-than-anticipated interest and investment revenues ($0.9 million), business license tax and other permits and fees ($0.8 million), property transfer tax revenues ($0.1 million), and recoveries of uncollectible accounts ($0.1 million).

General Fund: Operating Expenditures

Economic Development & Housing	1,000,672	958,057	(42,615)	96%
Other Expenditures (Includes Annexation Payments and Transfers Out)	48,099,121	47,648,750	(450,371)	99%
TOTAL	**$ 243,260,861**	**$ 236,463,049**	**$ (6,797,812)**	**97%**
Encumbrance Reserve**	(604,840)	$ -	(604,840)	
TOTAL	**$ 242,656,021**	**$ 236,463,049**	**$ (6,192,972)**	**97%**

**The General Government departments are City Council, City Manager's Office, City Attorney's Office, City Clerk, Finance, Public Affairs and Communications, and Human Resources.*

*** The encumbrance reserve is for future expenditures that have been committed but will be paid in a future fiscal year.*

General Fund expenditures through the end of the fiscal year were three percent below estimates. Lower spending across General Fund departments was primarily due to cost savings from vacant positions in PRL, general government departments, Development Services, and Public Works, as well as underspending on materials, services, and supplies. Some examples include:

- The City's public safety departments (Police and Fire) were on budget through the end of the fiscal year. Anticipated overages in the Police Department, driven by overtime, lower-than-expected workers' compensation reimbursements, and additional SPCA charges for animal intakes exceeding contract limits, were fully offset by General Fund savings generated in other operational areas and contingency funds.
- PRL expenditures ended the fiscal year 5 percent under budget, primarily due to position vacancies and cost savings in professional services, utility charges, and maintenance costs.
- Development Services expenditures finished the year under budget at 87 percent of budget, primarily due to higher-than-anticipated reimbursements from full cost recovery development projects, salary savings from vacant positions, and lower-than-expected professional services costs.
- Public Works expenditures ended the year at 87 percent of budget due to a combination of factors, including staff vacancies, higher-than-anticipated secondary labor cost recovery, and reimbursed costs received within the Engineering and Street Maintenance Divisions. Additional favorable variances are attributable to cost savings in professional services, utility charges, and routine maintenance expenses.

- Economic Development (including the Housing Division) closed the year at 96 percent of the budget due to lower-than-expected expenditures on professional services, software, and training in Economic Development and salary savings in the Housing Division.

Enterprise Funds: Operating Revenues

The table below displays data for operating revenue in the City's seven enterprise funds. Following the table are details on each.

BUDGET TO CUMULATIVE REVENUE COMPARISON
July 1, 2024 – June 30, 2025

	Amended Budget	Cumulative Revenues	Balance Remaining	% of Budget Collected
Electric	$ 225,921,521	$ 237,037,199	$ 11,115,678	105%
Water Operations	44,659,688	46,810,043	2,150,355	105%
Wastewater Operations	59,996,002	61,240,135	1,244,133	102%
Waste Services Operations	42,728,728	45,119,088	2,390,360	106%
Transit	8,708,215	6,728,937	(1,979,278)	77%
Transportation	1,854,457	1,688,123	(166,334)	91%
Youth Development	9,376,218	7,887,081	(1,489,137)	84%

- **Electric Fund**

  Electric revenues exceeded budget by $11.1 million (5 percent), driven primarily by stronger-than-expected electric utility sales. Key contributors to this variance include:

  - Retail electric revenues were $10.7 million above budget, reflecting warmer-than-average temperatures that increased residential demand.
  - Higher consumption by commercial customers contributed $2.9 million in additional revenue.
  - Wholesale power sales outperformed budget expectations by $1.7 million, further contributing to the overall positive operating revenue variance.

  These favorable variances were partially offset by a $4.2 million shortfall due to lower-than-expected load from a large industrial customer, resulting in a net $11.1 million positive variance.

Water Operations Fund

Revenues in the Water Operations Fund closed the fiscal year $2.2 million (5 percent) above budget. The favorable variance was primarily attributable to:

- Utility service charges exceeded budget by $1.5 million, driven by higher-than-anticipated water usage, which more than offset lower-than-forecasted meter service charges.
- Wheeling revenues were $0.4 million above budget, resulting from unforeseen demand from the Placer County Water Agency (PCWA).
- Higher than anticipated interest revenue exceeded budget by $0.3 million.

Wastewater Operations Fund

Revenues in the Wastewater Operations Fund ended the fiscal year $1.2 million (2 percent) above budget. Key contributors to this variance include:

- Utility service charges exceeding budget by $2.0 million, primarily due to stronger-than-anticipated residential account growth.
- Recycled Water Sales were nearly $0.8 million above budget. This revenue source can fluctuate based on weather conditions, regulatory requirements, drought impacts, customer usage patterns, and an expanding customer base.
- Renewable Natural Gas (RNG) sales revenues exceeded expectations by $0.09 million, as an increasing number of Waste Services vehicles used RNG produced at the Pleasant Grove Wastewater Treatment Plant.
- Additional favorable factors include unbudgeted FEMA reimbursements of $0.3 million, energy rebates totaling $0.06 million from Wesco Energy and Pacific Gas and Electric for the Pleasant Grove Wastewater Treatment Plant, and higher-than-anticipated interest earnings of $0.3 million.

These positive variances were partially offset by a $0.09 million shortfall in permit inspection fees and wastewater operating reimbursements from regional partners that were $2.2 million below budget. Reimbursement revenues are inherently difficult to forecast, as they are based on actual operating expenditures and each partner's proportional volumetric share for the fiscal year.

Waste Services Operations Fund

Waste Services Operations Fund revenues ended the fiscal year $2.4 million (6 percent) above budget, driven primarily by:

- Utility service charges of $1.8 million above budget, reflecting greater-than-anticipated residential account growth.
- Interest earnings exceeded budget by $0.3 million.
- Franchise hauler fees of $0.05 million above budget, attributable to higher-than-projected solid waste tonnage.
- Unbudgeted cardboard hauling revenues totaling $0.2 million.

Transit Fund and Transportation Fund

Revenues for the Transit and Transportation Funds ended the year below budget but aligned with actual expenditures, reflecting the nature of Local Transportation Funds (LTF), a primary funding source for both funds. LTF revenues are restricted to eligible activities and are directly tied to actual spending needs. Roseville Transit experienced a 30 percent increase in ridership compared to the previous year, which will help offset the request for LTF needed to fund the gap between revenues and expenditures. In addition, lower costs incurred during the year for eligible transit operations and the use of fund balance reduced the amount of revenue recognized. Similarly, Transportation Fund revenues were below budget due to lower-than-anticipated expenditures, including salary savings and unspent materials, services, and supplies funding, as detailed further in this report.

Youth Development Fund

Revenues in the Youth Development Fund ended the year at 84 percent of the budget. Although registration held steady for preschool and grant-funded programs, Adventure Club registrations were slightly lower than anticipated due to a second state-mandated after-school program provider offering a similar service to families on school campuses. Additionally, limited staffing resources have made expanding registration at multiple Adventure Club sites challenging, impacting the ability to generate additional revenue.

The Youth Development Fund ended FY2024-25 with a deficit, as revenues did not meet expenditures. Staff plan to recommend eliminating the deficit in FY2025-26 with a transfer from year-end General Fund surplus, derived from PRL operating budget savings and additional General Fund support.

Enterprise Funds: Operating Expenditures

The table below displays data for operating expenditures in the City's seven enterprise funds. Following the table are details on each.

BUDGET TO CUMULATIVE EXPENDITURE COMPARISON
July 1, 2024 – June 30, 2025

	Amended Budget	Cumulative Expenditures	Variance	% of Budget Expended
Electric	$ 199,992,253	$ 185,256,911	$ (14,735,342)	93%
Water Operations	44,360,915	37,323,909	(7,037,006)	84%
Wastewater Operations	59,898,760	54,917,656	(4,981,104)	92%
Waste Services Operations	48,921,556	43,865,336	(5,056,220)	90%
Transit	8,686,560	7,695,522	(991,038)	89%
Transportation	1,766,204	1,664,231	(101,973)	94%
Youth Development	9,200,345	8,382,481	(817,864)	91%

Electric Fund

Electric expenses finished the year $14.7 million under budget, driven by multiple factors:

- Power supply costs were $4.1 million below budget, reflecting lower-than-anticipated cost of purchasing renewable energy credits.
- Generation costs were $1.2 million under budget, driven by reduced variable maintenance and chemical usage associated with extended outages at the Roseville Energy Park (REP).
- Spending on public programs and contracted services was $2.0 million below budget, primarily due to project delays.
- Cost savings of $4.2 million were from lower-than-expected maintenance activities, professional services, and small equipment purchases.
- Personnel costs were $2.6 million under budget due to salary savings, and labor cost reimbursements exceeded expectations by $0.6 million.

Water Operations Fund

Expenses in the Water Operations Fund ended the fiscal year $7.0 million (16 percent) below budget. The favorable variance was primarily driven by:

- Salary savings of $2.6 million due to staff vacancies resulting from challenges in recruiting experienced personnel. While modest savings were realized in overtime, the majority of personnel savings were vacancy-related.
- Underspending of professional services by $1.5 million due to key staff vacancies, resulting in delays of several projects and studies.
- Potable water generation costs were $0.6 million below budget. These costs are budgeted to align with contracted raw water volumes and may fluctuate due to weather conditions, regulatory factors, drought impacts, and customer demand.
- Underspending of various repairs and maintenance accounts by $0.6 million

Wastewater Operations Fund

Expenses in the Wastewater Operations Fund ended the fiscal year $5.0 million (8 percent) below budget, reflecting efficiency gains and proactive energy management. The cost savings were primarily driven by the following:

- Salary savings of $2.0 million related to vacancies. Similar to the Water Utility, hiring experienced employees has been difficult, resulting in salary savings and lower-than-budgeted training and travel expenses.
- Cost savings of $1.3 million from reduced utility charges. Infrastructure upgrades that focus on energy efficiency are resulting in lower-than-expected utility costs.
- Cost savings of $0.77 million related to repairs and maintenance, due to fewer unexpected breakdowns, more efficient use of the equipment, and successful preventative maintenance strategies that reduced the need for costly repairs.

Waste Services Operations Fund

Expenditures in the Waste Services Operations Fund ended the fiscal year $5.0 million (10 percent) below budget. Key factors contributing to this variance include:

- Salary savings of $1.3 million related to vacancies due to difficulties recruiting experienced employees.
- Professional services savings of $1.4 million, primarily due to delays in implementing new technology associated with fleet expansion. Licensing and monitoring fees were also lower than anticipated, as fewer vehicles were placed into service. Additionally, the planned SB 1383 (California law that mandates reductions in short-lived climate pollutants, particularly methane, by redirecting organic waste from landfills) compliance assistance study was deferred to FY2025-26.

- Fuel cost savings of $0.3 million, reflecting the continued transition of the Waste Services fleet to Renewable Natural Gas (RNG). Staff continues to refine fuel cost projections as the transition progresses.
- Cost saving of $0.8 million related to vehicle replacement. Market instability has introduced complexity into forecasting replacement costs.
- Underspending of various repairs and maintenance accounts by $0.8 million due to fewer than anticipated maintenance needs.

Remaining cost savings across the Water, Wastewater, and Waste Services operations funds are attributable to modest underspending in emergency contingency funds, training and development, and other operational expenses while continuing to provide reliable, high-quality, and uninterrupted utility services.

Net positive year-end results in all three Environmental Utilities operating funds (Water, Wastewater, and Waste Services) will be transferred to rehabilitation funds for projects, or to rate stabilization funds to mitigate future rate increases.

Transit Fund and Transportation Fund

Expenditures for the Transit Fund ended the year below budget at 89 percent due to several factors, including:

- Lower-than-expected contracted transit operator services.
- Deferred timing of shelter replacement costs and the implementation of new routes, which include printing and advertising expenses for the new transit service guides and bus shelter route maps.
- Savings in training and development costs and reduced repair and maintenance needs.

Transportation expenditures ended the fiscal year under budget at 94 percent due to the following:

- Lower-than-expected professional services and engineering and environmental services to update the Transportation Systems Management ordinance due to project timing.
- Savings in training and development expenses, and repairs and maintenance costs.

Youth Development Fund

Expenses for the Youth Development Fund ended the fiscal year at 91 percent of the budget as PRL staff continues to take measures to reduce operational costs to offset the significant Adventure Club revenue shortfall.

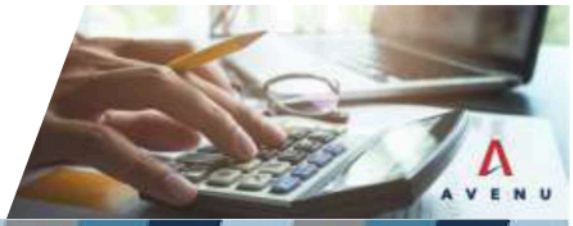

Other Revenues: Fire Facilities, Public Facilities, and Strategic Improvement

BUDGET TO CUMULATIVE REVENUE COMPARISON
July 1, 2024 – June 30, 2025

	FY2023-24	FY2024-25			
	Actuals	Amended Budget	Cumulative Revenues	Variance	% of Budget Collected
Fire Facilities	$ 2,127,727	$ 2,076,253	$ 2,165,103	88,850	104%
Public Facilities	6,688,897	6,428,644	7,634,139	1,205,495	119%
Strategic Improvement	2,599,327	3,930,534	3,997,060	66,526	102%

The table above shows revenues in the Fire Facilities, Public Facilities, and Strategic Improvement Funds through the fourth quarter of FY2023-24 and FY2024-25. The revenue estimates for these three funds are generally based on a multi-year trend analysis of forecasted single-family, multi-family, and commercial development, as well as prior-year revenue collections. Revenues for these funds surpassed the budget estimate through year-end due to increased fee collections and higher-than-expected interest revenue. The Strategic Improvement Fund FY2024-25 amended budget includes a one-time transfer of $1.75 million from the General Fund FY2023-24 year-end surplus to fund projects that provide an economic benefit to the City.

News

- **Economic Activity:** Real Gross Domestic Product (GDP) increased at an annual rate of 2.5% in the second quarter of 2025. U.S. inflation ticked up to 2.7% in June of 2025, down 6.4 percentage points from its most recent peak of 9.1% in June 2022. California's headline inflation increased to 3.0% year over year as of June 2025, up from 2.7% in August of 2024. (DIR, BEA, BLS, July Finance Bulletin)

- **Employment:** The U.S. unemployment rate decreased slightly to 4.1% in June of 2025. California's unemployment rate increased by 0.1 percentage point to 5.4% as of June 2025, 0.4 percentage points higher than the September 2023 rate of 5.0%. (EDD, BLS, July Finance Bulletin)

- **Personal Income:** U.S. personal income increased by 4.9% for the second quarter of 2025, compared to the same quarter previous year. Compensation of employees increased by 4.8%, while personal current taxes increased by 7.9% from the previous period, resulting in a net gain of 4.5% in disposable income. (BEA)

City of Roseville
General Fund Reserves Policy

TABLE OF CONTENTS

I. INTRODUCTION 54
II. BACKGROUND 54
III. POLICY 55
A. Minimum and Target Reserve Levels 55
B. Methods to Achieve Funding Levels 55
C. Criteria for Expenditure of Reserve Funds 55
1. Emergency Reserve 55
2. Stabilization Reserve 56
3. Litigation Reserve 56
D. Timeline for Replenishment of the General Fund Reserves 56

I. INTRODUCTION

The purpose of this policy is to establish targeted levels of General Fund reserves, a basic component of a financially strong city. Adequate reserves help sustain City operations when adverse or unexpected circumstances affect the City, providing resources to minimize service disruption in the event of temporary revenue shortfalls, declared disasters, or unpredicted one-time expenditures. This policy establishes the amounts the City will strive to maintain in the Emergency Reserve, Stabilization Reserve, and Litigation Reserve, and the conditions under which the reserves may be used.

II. BACKGROUND

Financial reserves strengthen the City's financial status and provide valuable resources for managing through economic cycles and addressing unexpected events. Every fund of the City represents a stand-alone financial set of accounts and has its own operating characteristics, financial capabilities, and constraints. The level of reserves needed should be based on the financial and operating characteristics of each fund.

According to the Government Finance Officers Association (GFOA), it is essential that governments maintain adequate levels of fund balance to mitigate current and future risks (e.g., revenue shortfalls and unanticipated expenditures) in order to protect taxpayers and employees from unexpected changes in financial conditions. GFOA recommends, at a minimum, that general-purpose governments, regardless of size, maintain an unrestricted budgetary fund balance in their General Fund of no less than two months of regular general fund operating revenues or regular General Fund operating expenditures (an amount equivalent to 16.67% of the annual budget).

This policy establishes three months of operating costs (25% of annual budgeted General Fund operating costs) as the City's target level of reserves. This targeted level of reserves consists of the City's Emergency Reserve (10% of annual budgeted General Fund operating costs) and the City's Stabilization Reserve (15% of annual budgeted General Fund operating costs). This policy also establishes $250,000 as the minimum level in the City's Litigation Reserve. The policy also outlines the methods the City will utilize to achieve the target reserve levels, defines the conditions under which these funds can be used and describes how the City's expenditure and/or revenue levels will be adjusted to match any new economic realities that are causing the use of fund balance reserves as a financing bridge.

III. POLICY

A. Minimum and Target Reserve Levels

The City will maintain an Emergency Reserve at a minimum of 10% of budgeted General Fund operating expenditures. Because the City relies on property tax and sales tax revenue to support over two-thirds of the City's General Fund budget and the negative effects on property and sales tax revenue can be significant during economic downturns, the City will seek to build up and maintain a General Fund Stabilization Reserve equal to 15% of budgeted General Fund operating expenditures as the target reserve level. The Emergency Reserve and Stabilization Reserve shall be reported as commitments of fund balance in the General Fund for external financial reporting. Appropriations from the Emergency Reserve may only be made by a vote of the City Council to meet a critical, unpredictable financial need such as a declared emergency. Appropriations from the Stabilization Reserve may only be made by a vote of the City Council in the event of temporary revenue shortfalls caused by an economic downturn.

B. Methods to Achieve Funding Levels

Funding of the General Fund Reserves will generally come from the adopted budget, year-end excess revenues over expenditures or anticipated one-time revenues. At a minimum, during the budget process, staff shall review the current and five-year projected reserves to ensure that they are appropriate given the economic and financial risk factors the City faces.

C. Criteria for Expenditure of Reserve Funds

The Reserve Funds shall not normally be applied to recurring annual operating expenditures. Appropriation from the Emergency Reserve and Stabilization Reserve Funds requires approval of at least four City Council members. The Litigation Reserve is appropriated annually in the adopted budget.

1. Emergency Reserve

The Emergency Reserve may be used to contend with significant short-term issues such as declared emergencies. It is the intent of the Council to limit use of the Emergency Reserve to addressing unanticipated, nonrecurring needs.

2. Stabilization Reserve

The Stabilization Reserve may be used strategically to allow time for the City to restructure its operation in a deliberate manner as required in an economic downturn while minimizing service disruption. Use of the Stabilization Reserve will only take place in the context of a Council-adopted long-term plan. The Stabilization Reserve is intended to be used to address significant revenue shortfalls that occur during an economic downturn until the City's operating expenditure and revenue levels are adjusted to eliminate structural deficits.

3. Litigation Reserve

The Litigation Reserve may be used for legal matters that are unforeseen and/or unusual in nature and, as a result, typically require reactive measures such as seeking a budget adjustment and a funding source. Some examples are contract disputes, municipal code enforcement, and other public safety enforcement matters. The purpose of this reserve is to address these situations by allowing for proactive handling and funding of such matters.

D. Timeline for Replenishment of the General Fund Reserves

If the General Fund Reserves are drawn down below the minimum levels, a plan will be developed and implemented to replenish the reserves. Replenishing the reserves will be a priority use of one-time resources. Generally, the City should seek to replenish the Emergency Reserve and the Litigation Reserve within one year and the Stabilization Reserve to the minimum reserve level within three years.

VIGILANCE AMID MIXED ECONOMIC SIGNALS

As economic stability remains elusive, the City's core strength continues to be our ability to provide high levels of service with a steady hand on finances. The past four years in this post-pandemic period of fluctuations have seen higher highs and lower lows in key indicators. These extremes, combined with mixed economic signals, complicate predictions for the economic outlook.

Key factors range from domestic policies to global events:

- The rate of inflation has slowed considerably since its peak in 2022, however it remains stubbornly above the Federal Reserve's policy goal.
- The current inverted yield curve, meaning interest rates are higher in the short-term than the long-term, has existed since July 2022 and is the longest in modern times. In addition to signaling a potential recession, an inverted yield curve typically discourages business risk-taking due to lower compensation for long-term lending and higher borrowing costs for consumer and commercial loans.
- Geopolitical events, including Russia's invasion of Ukraine, the war between Israel and Hamas, and tension between the U.S. and China, continue to have economic impacts such as supply-chain disruptions, energy price increases, market volatility, and dampening of consumer confidence.
- In an election year that continues to offer new examples of unpredictability, the markets, along with other sectors of the economy, remain tentative about the effects of the outcome of the presidential race.
- The environmental and economic impacts of wild and unprecedented weather patterns are damaging and have intensified the focus on ways to mitigate climate change and ensure operational resiliency.
- The weaponization of technology, from disinformation in social media to cyberattacks on critical infrastructure to illicit use of artificial intelligence to scam individuals, necessitates vigilance in both security and awareness of new technological capabilities.

At the state level, the economic outlook is also mixed. The Legislature's nonpartisan Legislative Analyst Office declared that California entered a revenue and economic

downturn last fiscal year (2023-2024). At the same time, a recent poll by the Public Policy Institute of California found that "majorities of Californians think the state is headed in the wrong direction and predict bad economic times for the state economy in the next 12 months."

The UCLA Anderson School of Business had a more positive take, writing that the "California economic outlook is good for 2024. What about unemployment, housing? California's economy should grow somewhat faster than the nation's, though its unemployment rate will remain above the national average."

In April, the Legislature approved a $17 billion package of fixes to the State budget in anticipation of an expected budget shortfall of $73 billion that must be addressed in the May revised budget for 2024-2025.

At the local level, a blend of encouraging and challenging factors impact the City's outlook:

- City growth has added significant complexity to our work, along with increasing workloads and driving organizational structure changes for improved span of control and project management.
- There are fewer recruitment challenges this year than during the labor shortage of the previous year, as the City has positioned itself as an employer of choice by revamping recruitment communication and amplifying its organizational culture activities.
- Residential development continues but at a slower, more normal pace following a pandemic-fueled acceleration.
- The effect of development on the City's borders in unincorporated Placer County will intensify both the use of City services and impacts on infrastructure by non-Roseville residents.
- The Local Agency Formation Commission is conducting a Municipal Services Review to inform future decisions on a Sphere of Influence, which signals changes to the City's municipal boundaries.
- Due to inflation, fees collected for improvements and amenities, such as parks in the West Plan area, are not keeping up with the costs of construction.
- Revenue growth from sales tax is slowing following the accelerated pace of the pandemic rebound.
- The state's minimum-wage law which went into effect April 1, 2024, raising salaries to $20 an hour for fast-food workers, could drive up labor costs for recreation and library positions, which compete from the same labor pool.
- Several new laws and regulations are increasing costs and uncertainty:
    - The implementation of the California Air Resources Board's Advanced Clean Fleet regulation, which requires the purchase of only zero-emission trucks and buses beginning in 2027, will add significant costs to city operations, affecting utility rates, road maintenance schedules, and transportation services, to name a few. Neither the technology nor infrastructure exists yet to support this fleet conversion by the deadline. Not only are zero-emission vehicles more expensive, but their range is shorter than fossil-fuel powered vehicles, necessitating additional vehicles to put into service while others are charging and requiring more infrastructure in the form of charging sites throughout the city. The maintenance impacts of heavier, battery-powered vehicles on the City's roadway maintenance standards and schedule are unknown.
    - Compliance with SB 1383, which focuses on organic waste, is creating the need to overhaul the City's collection and disposal system as rules are clarified and other options are sought.
    - New regulations regarding per- and polyfluorinated substances (also known as PFAS, which are long-lasting and widely-used chemicals) in water supplies will increase costs for our utility operations and other materials and supplies, such as uniforms and equipment, that contain PFAS as their use becomes more restricted and alternative options must be secured.

On a positive note, several factors have strengthened Roseville's ability to weather the circumstances:

General Fund surplus

- **Underspending** in the General Fund as our staff uses the same high level of scrutiny in purchasing decisions, no matter the economic circumstances
- **Fully-funding our reserves**, in accordance with Council policy, using Measure B sales tax revenue, Measure C hotel tax revenue, and a conservative approach to budgeting

- Higher property tax revenues due to higher home prices, continued development, a competitive housing market, and the ability to work remotely

Economic Development

- Global semiconductor manufacturer Bosch's $1.5 billion investment will bring jobs and significant economic impact to the City and region.
- The opening of Costco in west Roseville will be a substantial sales-tax revenue generator for the City, along with the other retail sites opening at Baseline Marketplace.

COUNCIL PRIORITIES FY2024-25

Council updates priorities in its four-year strategic plan

A sign of a well-developed strategic plan is its ability to withstand the test of time and changing circumstances. This proved true given the challenges of the pandemic as well as the economic, geopolitical, social, and climate extremes that arose in the span of the initial four-year plan from FY2020-21 to FY2023-24.

At a two-day public workshop in February 2024, the City Council established the next four-year strategic plan that will guide the budget from FY2024-25 through FY2027-28. The Council reaffirmed the City's mission and vision, updated the City's values by incorporating the core competencies developed by staff, and established the priorities and strategies for the next plan. Annual updates to the plan are held each spring during the budget-development process for the upcoming fiscal year.

Following are the priorities and strategies that emerged from the Council's February 2024 workshop, at which it established the next four-year plan to reflect changing circumstances, work accomplished and underway, and evolving focus areas. The seven priority areas remained the same.

Ensure a safe and healthy community

- Maintain public safety service levels and response times as the City grows
- Maintain City efforts to reduce homelessness while collaborating and advocating regionally as appropriate
- Promote a safe community in which all feel welcome and included

Remain fiscally responsible in a changing world

- Balance city services and customer rates amid legislative mandates and rising costs
- Seek ways to reduce pension obligations
- Identify and pursue opportunities for new revenue streams

Enhance economic vitality

- Advance sports tourism, including soccer complex
- Foster a business climate that supports small businesses and entrepreneurship while attracting and strengthening emerging technology and industry sectors
- Attract businesses that are mutually beneficial to regional interests (e.g., manufacturing)
- Leverage opportunities for innovation and workforce development created by Bosch's investment in Roseville
- Accentuate arts and culture in creating a sense of place

Invest in well-planned infrastructure and growth

- Reinvest in core neighborhoods
- Increase funding for Capital Improvement Project (CIP) rehabilitation to prevent erosion of infrastructure
- Complete soccer complex
- Implement technology solutions to mitigate traffic concerns along crucial corridors
- Maintain investment in water resiliency and increase capacity of the electric utility
- Seek increased regional and local transportation funding and revenues
- Improve Roseville's gateway and entryway corridors

Support community engagement and advocacy

- Remain focused on community engagement and education about City services, planning, and the budget
- Explore opportunities to engage all community members in relevant ways
- Inform county, state, and federal policymakers on key City issues and the importance of local decision-making

Deliver exceptional City services

- Remain an employer of choice through expanded recruitment and attraction efforts, a focus on retention, and a positive culture
- Anticipate and implement succession planning strategies, including training and development
- Maintain a strong focus on code enforcement efforts, including graffiti and blight abatement
- Invest in technology that contributes to the effective delivery of services

Overview of the past year's accomplishments

As the City Council refines the strategic plan each year, an important part of its assessment is reviewing work to date on the previous year's plan. Following is an overview of some of the accomplishments related to last fiscal year's priorities. In each of the department sections, a more detailed narrative about accomplishments and what's ahead is provided.

Ensure a safe and healthy community

- **Real Time Crime Center (RTCC)** - Completed the installation of an eight-monitor video wall inside the Roseville Police Department's (RPD) investigation unit. The video wall also serves as RPD's command and digital briefing center for critical incidents. RTCC assisted on 413 calls for service in 2023. These are calls for service to which the Patrol Division responded where the RTCC was a "first responder" in conjunction with our patrol officers.
- **Completed Police Facilities and Special Equipment Implementation** - Includes a Special Weapons and Tactics (SWAT) tactical-response vehicle, a joint RPD-RFD (Roseville Fire Department) mobile command post, pistol replacement and red dot sight implementation, range facility upgrade, and initial planning for RPD facility expansion and growth.
- **Retail Theft Suppression Grant** - Awarded a $600,000 grant for targeting retail theft to be used for additional Flock cameras, other Investigations Unit technology, and overtime funding for retail theft enforcement operations, such as Operation Grinch during the holidays.
- **Provided Support for Housing Options** - Disbursed over $860,000 in Homeless Prevention and Rapid Rehousing funding. Awarded $3.9 million

in matching funds from the California Housing and Community Development Department's Local Housing Trust Fund Program to support future affordable rental housing development in Roseville. The City's FY2023-24 Economic Development and Housing Department budget includes $17.3 million for affordable housing and homeless prevention including federal, state and City funding.

- **Roseville Homeless Response Team** - The RPD's Social Services Unit (SSU) and its partnerships have been successful using the uniquely-created Roseville Homeless Response Team model. This model has led to over 1,300 individuals securing or maintaining permanent housing over the last year. In addition, since November 2020 SSU has assisted 57 individuals through the Police Department's community care fund which supports individuals through treatment and reunification services. Current year budget estimates for staff addressing issues involving homelessness in the RPD and the City Attorney's Office are $2.1 million and $62,000, respectively.

- **Unsheltered and Illegal Dumping Action** - Significantly improved response times and fully integrated Public Works into the workflow for unsheltered cleanups already developed and adopted by the RPD and Parks, Recreation & Libraries (PRL). This collaboration includes weekly meetings to discuss hot spots and combined efforts to mitigate any cleanup of debris and camps and do it safely. Current year budget estimates to address unsheltered and illegal dumping include $334,000 for PRL and $233,000 for Public Works.

- **Fire Engine 8 in Service** - Engine 8 was put in service on December 16, 2023, and serves the Campus Oaks, Blue Oaks, and Quail Glen neighborhoods. This will improve response times across the entire City.

- **Successful Fire Recruitments** - Completed successful recruitments for all ranks, including Firefighter Paramedic, Fire Engineer, Fire Captain, Battalion Chief, and Assistant Fire Chief. Also completed the initial onboarding and training of six lateral-transfer Firefighter Paramedics who attended a two-week training academy and then went straight into the field.

Remain fiscally responsible in a changing world

- **Annual Comprehensive Financial Report Recognition** - During 2023, the Government Finance Officers Association of the United States and Canada (GFOA) awarded Roseville the Certificate of Achievement for Excellence in Financial Reporting for the City's Annual Comprehensive Financial Report for FY2021-22. According to the GFOA, "the Certificate of Achievement is the highest form of recognition in the area of governmental accounting and financial reporting. Its attainment represents a significant accomplishment by the City and its management. It demonstrates a constructive spirit of full disclosure to clearly communicate the City's financial story."

- **Budget Awards** - The City also received GFOA's Distinguished Budget Presentation Award and the California Society of Municipal Finance Officer's Operating Budget Excellence Award for the FY2023-24 budget. These awards represent a significant achievement and reflect the City Council and staff's commitment to meeting the highest principles of governmental budgeting.

Enhance economic vitality

- **Roseville Soccer Complex** - Broke ground on the $63 million sports facility expected to generate approximately $15 million of economic activity (within the City) annually and offer a world-class experience for youth and adult long-field sports, including soccer, rugby, lacrosse and more. Projected completion is late 2025.

- **Roseville Venture Lab** - Completed one full year of programming and activation at the Roseville Venture Lab, hosting over 50 events or programs with more than 2,000 attendees and participants, creating awareness of Roseville as a city that engages in innovative partnerships and supports small businesses and entrepreneurship.

- **Bosch** - Assisted Bosch with its acquisition of TSI Semiconductors and raised Roseville's visibility as a desirable place to live and work among an international audience. With this acquisition, Bosch is establishing significant manufacturing capacity in the important semiconductor market. Bosch plans to invest $1.5 billion to transform the Roseville site into a facility that produces and tests silicon carbide semiconductors, which are a key building blocks for electric vehicles.

- **Baseline Marketplace** - Several departments coordinated to support Costco's efforts to open a new store at Baseline Marketplace. The investment includes $20 million in infrastructure necessary to catalyze the whole site, eventually providing the City with an estimated $7 million in annual sales tax revenue and bringing much-needed retail to west Roseville. Costco expects to put the project out to bid in Spring 2024, with an anticipated June 2024 construction start.
- **Key Business Growth/Establishment** - Supported the efforts of several key industry activities and expansions, including Penumbra, Quick Quack, McKesson, Roseville Junction, Alpine Rock Climbing, and Zeektek. These efforts have added jobs and revenue to the City.

Invest in well-planned infrastructure

- **Pleasant Grove Wastewater Treatment Plant Expansion** - Celebrated the completion of a $110 million expansion at the Pleasant Grove Wastewater Treatment Plant, increasing treatment capacity and generating renewable natural gas to power Roseville's garbage truck fleet.
- **$8 Million Grant for Groundwater Program** - Roseville secured an $8 million grant from the California Natural Resources Agency in September 2023 to aid the construction of two new groundwater wells. The wells, part of the Aquifer Storage and Recovery Program, aim to reduce reliance on the Lower American River during dry periods.
- **Groundwater Program Expansion** - Two new wells were started in the western portion of Roseville, giving more capacity to extract from and replenish the groundwater basin. In addition, Environmental Utilities (EU) began constructing two new wells near the Mistywood and Campus Oaks neighborhoods. These wells contribute to sustainable water management and climate change adaptation. This will get us to nine wells in all, with a plan for 11 total.
- **Revised Water Contract with Placer County Water Agency (PCWA)** - In May, PCWA and the City entered into a renewed agreement to ensure a sufficient water supply for current and expanding communities. This updated contract notably enhances the water allocation for Roseville and encompasses initiatives to augment the City's water resources beyond the current infrastructure, such as the Folsom Reservoir.
- **Advanced Metering Infrastructure** - Began the installation of smart meters for both water and electric service, which allow for remote access and data analysis. The $40 million project is moving ahead of schedule, with completion anticipated in early summer 2024.
- **Westbrook Boulevard Completion** - Negotiated an advance funding agreement with JMC Homes to construct the last remaining segment of Westbrook Boulevard. Once completed this spring, Westbrook will allow a continuous connection from Baseline Road to Amoruso Ranch.
- **Baseline Road Widening** - Successfully guided the widening of Baseline Road to four lanes from Westbrook Boulevard to the City limits. Also ensured completion of traffic signals at Market Street and Santucci Boulevard, allowing the first connection through Sierra Vista to the West Roseville Specific Plan via Baseline Road. In addition to improved traffic flows, it enhances public safety response times.
- **Dry Creek Greenway** - The project is under construction after almost a decade and a half of work. This phase of the Class I paved multi-use trail will run along Dry, Cirby and Linda creeks. The trail will begin near Darling Way/Riverside Avenue and continue east to Rocky Ridge Drive for approximately two miles. Construction began in January 2024, with anticipated completion in 2026.
- **Washington/All-America City Roundabout** - Construction was completed in 2024 after it was identified as a mitigation measure for intersection impacts as part of the @the Grounds Placer County Sports and Event Complex Project environmental impact report (EIR) in 2018. The roundabout will serve as one of the primary connections to the City's Historic and Downtown areas.
- **Advanced Traffic Signal Work** - The $6.9 million, four-signal project along Westbrook and Blue Oaks boulevards was advanced to support the opening of the Roseville Soccer Complex and reduce traffic. It was designed, bid, and awarded within 12 months. Construction is anticipated to start in spring 2024 and be completed by fall 2024.

- **Fleet Planning** - The Fleet Division procured all requested vehicles for FY2023-24 within the first six months of this year, ensuring our fleet is fully replenished with the necessary equipment. This strategic move guarantees that the City's operational needs are met and ensures compliance with state Advanced Clean Fleet (ACF) electric vehicle purchase requirements. This accomplishment reflects Fleet's commitment to financial prudence while ensuring compliance with current standards.
- **Department of Water Resources Generators** - Successfully negotiated with the State to acquire two temporary generators to be placed on City property. The new agreement provides Roseville Electric with a path to ownership and direct control of the resource, improving our position in the market.
- **Three New Parks** - Dedication of Four Corners Park, Audrey Huisking Park, and Apollo Dog Park.
- **Expansion of Adventure Club** - Opened two new sites at Westbrook and Rex Fortune elementary schools.
- **Environmental Utilities (EU) Operations Facility** - The City Council approved the initial design and authorized work on environmental studies for the facility.
- **Utility Exploration Center Revamp** - The renovation, completed in spring 2024, enhances the exhibit area and overall experience, catering to the 30,000 annual visitors interested in learning about utilities.

Support community engagement and advocacy

- **State Utilities and Energy Committee** - Roseville Electric participated in the California State Assembly Utilities and Energy Committee informational hearing on electrical distribution planning, showcasing Roseville's thoughtful effort related to planning and growth in our community.
- **Building Industry Support** - Supported local new home developers and the North State Building Industry Association throughout the utility transformer supply chain crisis. Recently procured more than 50 transformers from an international supplier.
- **Advanced Clean Fleet (ACF) Lobbying** - Supported legislation (AB 1594 - now law) that will allow greater access to accommodations in the ACF Rule. ACF will broadly affect departments with medium- and heavy-duty vehicles.
- **State of the City Address** - Produced annual public gathering to celebrate Roseville in partnership with the Westfield Galleria at Roseville and the Roseville Area Chamber of Commerce, highlighting city accomplishments, challenges, vision, and raising about $10,000 for REACH community grants.
- **Awards for Communications Excellence** - Recognized by Public Relations Society of America and California Association of Public Information Officials for excellence in communications in the areas of economic development, development, water, and parks and recreation.
- **CalCities Recognition** - Received an award from the California League of Cities for the Advancement of Diverse Communities.

Deliver exceptional City services

- **Customer Relationship Management (CRM) Program** - Delivered a comprehensive CRM program called myRSVL, allowing residents to submit service requests online or via a smartphone application. Nearly 10,000 people have downloaded the application.
- **Career Day at the Galleria at Roseville** – City staff from 14 departments and citywide culture committees held a daylong event to expand outreach to potential candidates and increase awareness of the career opportunities that exist in public service.
- **Expanded Transparency** - Continued adding resources to our Open Roseville website (data.roseville.ca.us), which makes several forms of information on projects, spending, and performance available to the public.
- **Employee Relations** - Completed successful labor negotiations with Local 39 and Roseville Police Association to establish four-year successor Memorandums of Understanding. Additionally, established four-year terms and conditions with the Management and Confidential groups.
- **Roseville Electric Strategic Plan** - Conducted a Strategic Plan Workshop with the Roseville Public Utilities Commission and the City leadership team. This was a collaborative opportunity to provide information on the challenges and opportunities faced by the Electric Department and how they may impact other departments and the City as a whole.
- **National Gold Medal Award Finalist** - For the second year in a row, Parks, Recreation & Libraries (PRL) was named a finalist for the National Gold

Medal Award for Excellence in the Field of Parks and Recreation Management.

- **Neighborhood Clean-up Events** - In partnership with Roseville Coalition of Neighborhood Associations (RCONA), the City held four successful clean-up events in 2023, involving over 1,300 residents and collecting more than 260,000 pounds of waste. Similar events are planned for 2024.
- **Drug Take-Back Days** - Supported the region's annual medication take-back day in October 2023, collecting over 2,000 pounds of unwanted or expired medication and contributing to a safer and healthier environment.
- **Employee Experience** - With a strong focus on strengthening the employee experience, citywide committees focusing on organizational culture and leadership, employee recognition, inclusion, and community service created opportunities for growth and connection. These included establishing Welcome Day and bus tours monthly, Leadership Luncheons, the second annual Pride of Roseville luncheon, and hosting Speed Networking sessions, Fall Friendzy, and three all-staff gatherings. Staff donated generously to drives for clothing, food, toys, pet supplies, and art supplies for community non-profits, contributed to local charities through payroll deductions, and volunteered to deliver meals to low-income seniors and help at-risk youth.

FISCAL OVERVIEW

The City's strong financial position results from its consistently conservative approach to developing budgets which maintain service levels delivered to residents and businesses while strategically increasing or expanding services as growth and the community's needs warrant. With its largest General Fund revenue source, sales tax, currently experiencing a downturn, the City remains focused on managing labor costs, maintaining reserves, addressing underfunded liabilities, funding capital rehabilitation programs, and pursuing new revenue opportunities.

In Roseville, sales tax revenue growth slowed in FY2022-23 and is projected to decline by 2-5 percent in FY2023-24 but is forecasted to recover about 2-4 percent in FY2024-25. Growth is expected to return, but at a slower pace, if the economy maintains its current trajectory. Helping to offset that expected slower growth is the addition of approximately $4 million annually in hotel tax revenue (transient occupancy tax or TOT) after Roseville voters approved a TOT increase from 6 to 10 percent in 2022, as well as growth in property tax revenue as development continues in west Roseville.

Fiscal Year 2024-25 Budget

The FY2024-25 budget has been developed to account for the rise in labor costs and other unavoidable expenses. It includes only the highest priority augmentations to maintain the City's service levels and address the City Council's top priorities, given the current revenue growth constraints. The budget aims to ensure the maintenance of necessary capital infrastructure, and the mitigation of unfunded liabilities for the long-term benefit of our community.

The City has an overall expenditure budget of $768 million, with a General Fund operating budget of $229 million. The remaining $539 million in funding is primarily dedicated to the electric, water, wastewater, and waste services utilities.

Positions: The FY2024-25 budget includes less than 1.5 percent growth in position allocations compared to last year's adopted budget, adding 18 net new positions to address increased service demand related to growth, legislative requirements, and service level enhancements for the City Council's priorities, all of which contribute to the scope and complexity of the City's work. The budget includes 27 new positions, nine deleted positions, two promotional position reclassifications, and two reclassifications pending Human Resources Department review.

The City's population growth due to new development is accompanied by additional park acreage, streets, buildings, and infrastructure. The added infrastructure and amenities increase workload and demand on limited resources, prompting staffing increases in FY2024-25 to address these needs including a Principal Engineer in the Public Works Department.

To achieve the City Council's priority of ensuring a safe and healthy community, the budget includes staffing for the Police Department's Threat Assessment Unit, Social Services Unit, and the Records Unit. A position is being added to the City's Traffic Operations Center to monitor traffic and the Intelligent Transportation System devices. Additionally, positions have been added to the Parks, Recreation & Libraries (PRL) Department to address growth and to insource some park maintenance services at a reduced cost compared to outsourcing.

Positions are also recommended to accomplish the Council's priority to deliver exceptional City services, including two positions in Development Services, partially offset by one deleted position; a Database Analyst in the Information Technology Department; and a Recreation Supervisor in PRL to support the new Roseville Soccer Complex.

The Environmental Utilities Department, including the Water, Wastewater, and Waste Services, and Wastewater Utilities, continues to face state regulations requiring additional staff to maintain service levels. The City is committed to complying with these regulations and providing the resources necessary to ensure quality services to our residents. With this proposed budget, the department has reevaluated staffing levels and recommends deleting seven positions and adding eight positions, for a net increase of one position.

The Electric Department budget includes the addition of a Principal Power Engineer offset by the elimination of a Senior GIS Analyst position to meet operational requirements.

The budget includes two promotional reclassifications. One is in Economic Development to assist with managing highly complex business development and retention programs and strategies, and the other is in Finance to implement operational efficiencies in Accounts Payable. These two positions will be eliminated upon completion of the promotional reclassification process. Lastly, the budget includes funding to reclassify one position in Public Works and one position in Environmental Utilities pending Human Resources Department review and subsequent City Council approval.

The following tables summarize the recommended positions by department and City Council priority. These tables exclude the promotional reclassifications and reclassifications pending Human Resources Department review.

Department	New Positions	Position Eliminations	Total Net Change
Development Services	2.00	(1.00)	**1.00**
Electric	1.00	(1.00)	**-**
Environmental Utilities	8.00	(7.00)	**1.00**
Finance	1.00	-	**1.00**
Information Technology	1.00	-	**1.00**
Parks, Recreation & Libraries	7.00	-	**7.00**
Police	3.00	-	**3.00**
Public Works	4.00	-	**4.00**
Total	**27.00**	**(9.00)**	**18.00**

City Council Priority	New Positions
Deliver exceptional City services	**10.00**
Growth	4.00
State/Federal Mandates	1.00
Enhanced Service Levels	5.00
Invest in well-planned infrastructure and growth	**4.00**

Ensure a safe and healthy community	**12.00**
Growth	8.00
State/Federal Mandates	2.00
Enhanced Service Levels	2.00
Remain fiscally responsible in a changing world	**1.00**
Growth	1.00
Total	**27.00**

Labor and Materials, Services and Supplies: The budget accounts for estimated cost increases built into the City's negotiated labor agreements to remain competitive in the labor market, including $543,000 in the General Fund, equivalent to six months of a 3 percent increase, for anticipated labor cost increases in the public safety bargaining groups. Additionally, unavoidable cost increases are factored in for materials, services, and supplies, including utility costs, fleet costs (including fuel and increased replacement costs), an increase in the contract cost with the SPCA for animal control, open space contracts, park maintenance costs, and staff training.

Unfunded Liabilities: The budget includes measures to reduce future pension costs and increase the funded status of the CalPERS plan. This includes using $1.82 million in one-time General Fund resources to participate in the CalPERS Additional Discretionary Payments (ADP) option. The budget also includes a transfer of $2.9 million from the FY2022-23 General Fund year-end budget surplus to the Pension Reserve Trust Fund to act as a reserve against future pension cost increases. These measures are aimed at maintaining service levels during future economic downturns. Including the FY2024-25 transfer, the total amount of General Fund resources transferred to the trust to date is $20 million.

Capital Improvement Program: The budget incorporates a significant investment of $90.1 million into capital projects. This includes $30.3 million in electric, $16 million in public works, $12.3 million in wastewater, $8.9 million in parks, recreation and libraries, $6.8 in waste services, and $6.4 million in water program areas. This capital investment represents a 30 percent decrease compared to the FY2023-24 adopted budget and

addresses both growth and rehabilitation of existing capital investments. Notable projects include utility infrastructure rehabilitation and construction (such as the Vernon substation rebuild, a new Creekview substation, and the new Environmental Utilities Operations Center; tenant improvements on the third and fourth floors at 116 S. Grant Street for Roseville Electric and the Police Department; Rocky Ridge/Cirby streetscapes and Sunrise Greenway improvements; Campus Oaks Park with a skate park and BMX track (partially funded by American Rescue Act Plan funding not needed for Weber Park/Johnson Pool); Roadway Resurfacing (Fairway Drive and Junction Boulevard); Regional Public Safety Dispatching Systems Integration; and the very high frequency (VHF) radio system upgrade.

General Fund

The FY2024-25 General Fund budget aligns with the Council's financial policies to match budgeted expenses with forecasted revenues while providing resources to increase reserves up to Council-adopted targets, pay down pension obligations, and address underfunded capital and equipment rehabilitation and replacement. Although the budget is balanced for FY2024-25, it is important to highlight that several underfunded needs remain. The Council's financial policies ensure that future revenues are allocated to achieve full funding of these obligations. The policies also include using one-time resources to accelerate paying down long-term liabilities such as pensions and retiree health obligations.

Out of the $229 million of General Fund operating revenues, $45 million is restricted from grants, specific fees, and taxes tied to particular programs and projects, and $184 million is unrestricted. After spending $28 million on non-discretionary expenses, the Council has discretion over $156 million of unrestricted revenue. More than half of the unrestricted funding, approximately $91 million is allocated to public safety, which is the Council's top priority. The remaining funds are allocated to parks, recreation, libraries, streets, floodplain management, code enforcement, economic development, general government departments (City Council, City Manager, City Attorney, City Clerk, Public Affairs and Communications, Economic Development, Human Resources, and Finance) and other one-time expenditures, including an additional discretionary payment to CalPERS to pay down our pension liability.

Sales tax growth declined in the current fiscal year, but the City anticipates modest growth in FY2024-25. The FY2024-25 budget includes projections of $99.6 million in sales tax revenues (including $70.4 million in Bradley-Burns sales tax and $29.2 million for the Measure B local sales tax) and $75.1 million in property tax revenues. Sales and property tax revenues account for 77 percent of budgeted operating revenues. Utility franchise fees from Roseville Electric Utility and natural gas and cable companies that operate in Roseville constitute 5 percent of General Fund revenues. The remaining 18 percent of revenues come from various sources, including development-related fees, recreation programs, business license taxes, TOT, and grants.

The estimates below include a three-year comparison of sales tax, property tax and other operating revenues.

City of Roseville - General Fund
Three-Year Operating Revenue (in millions)

	Actual FY2022-23	Amended Budget FY2023-24	Budget FY2024-25
Sales Tax	$99.6	$102.5	$99.6
Property Tax	$67.6	$70.3	$75.1
Subtotal	$167.2	$172.8	$174.7
Other Operating Revenue	$52.1	$53.0	$54.6
Total	$219.3	$225.8	$229.3

Following prudent financial management practices, the City takes a long-term view in managing the inflationary pressures on its expenses while simultaneously addressing its significant underfunded obligations. Ongoing pressures on the City's expenses include the escalating costs of salaries, health benefits, CalPERS retirement expenses, vehicle replacement, and contracts with suppliers.

General Fund expenditures also include projects funded pursuant to the City's Capital Improvement Program Rehabilitation Funding Policy, which addresses maintaining the City's equipment, facilities, information technology, parks and streets to support service delivery to residents and businesses.

The FY2024-25 General Fund expenditure budget also includes one-time expenditures and transfers funded by the General Fund year-end budget surplus from FY2022-23. Staff incorporated recommended uses of the surplus into the FY2024-25 budget after the City Council established their new Strategic Plan priorities at their workshop in February 2024:

FY2022-23 General Fund Year-End Surplus Spending Plan	
Crimson Ridge Park	$ 450,000
Adventure Club Facility Improvements	809,000
Flood Control Pumps	500,000
IT/Fire – Very High Frequency (VHF) Radio replacement project	827,500
Public Safety Regional computer-aided dispatch (CAD) to CAD project	257,500
General Liability Program Assessment	1,400,000
Corridor Streetscape Landscaping	4,000,000
Transfer to Strategic Improvement Fund	2,500,000
Transfer to Pension Reserve Trust Fund	2,910,000
Increase Litigation Reserve Fund	100,000
Fire Academy	200,000
Human Resources Personnel File Digitization	115,000
Citywide Succession Planning	40,000
Parking Garage Improvements (e.g. speed bumps)	150,000
Total	**$ 14,259,000**

The total General Fund operating expenditures outlined in the following table include transfers to reserves and one-time investments, including for CIP rehabilitation and replacement, funded from year-end budget savings. The FY2024-25 expenditures also includes transfers to reserves up to the Council policy target levels.

City of Roseville Three-Year Operating Expense Trend (in millions)			
	Actual FY2022-23	Amended FY2023-24	Budget FY2024-25
Operating Expenditures	$214.8	$214.3	$229.1

Economic Indicators

Year in review

Roseville continues to see growth and commercial investments in manufacturing, housing, retail, and healthcare. The City remains an economically robust and sought-after location for businesses.

From electric vehicle technology to medical devices, manufacturing continues to play an important role in the health of Roseville's economy. Over the last year, Roseville's manufacturing industry grew by 17.9 percent to approximately 2,900 jobs.

Bosch recently acquired Roseville-based TSI Semiconductors. The company plans to invest $1.5 billion to transform the Roseville site into a facility that produces and tests silicon carbide semiconductors, a key building block for electric vehicles. Roseville is Bosch's first chip manufacturing location outside of Germany, joining plants in Dresden and Reutlingen. The first chips are estimated to be ready by 2026. Following the most significant semiconductor deal in 30 years, manufacturing and technology investments from additional companies will further elevate Roseville as one of the best places to do business in California.

Roseville was represented on the Greater Sacramento Economic Council's **market visit to Germany**. Regional leaders attended to foster international collaboration with some of Germany's largest companies. In addition to Bosch and their suppliers, progress is being made on growing additional local investment and jobs.

The entrepreneur center, **Roseville Venture Lab** in Downtown Roseville, continues to strengthen the local startup business environment and spur job growth. Operated in partnership with the nonprofit Growth Factory, Roseville Venture Lab is developing a community of entrepreneurs and small businesses through targeted programs, community partnerships, workforce development, and events.

Roseville continues to attract shoppers and visitors from across the region. Construction is underway on **Roseville Junction** at 290 Conference Center Drive. The destination venue includes Electric Pickle (a complex with nine pickleball courts), Fieldwork Brewing, an indoor-outdoor restaurant, a lawn for entertainment and gatherings, and several hotels.

Westfield Galleria remains a strong regional retail destination, drawing visitors beyond Northern California. It has added an impressive list of new tenants and expansions, including Alo Yoga, The North Face, Psycho Bunny, Jo Malone London, and Aritzia to name a few. Other stores planning to relocate or expand next year include Build-A-Bear, Buckle, Aerie, Abercrombie & Fitch, L'Occitane, Rothy's, and Chanel Beauty.

Costco will soon begin constructing a new 160,529 square-foot warehouse along with a gas station and car wash at Baseline Marketplace along Baseline and Fiddyment Road.

Downtown Roseville investments continue with the adaptive reuse of the former Consolidated Communications site at **200 Vernon St.** The 40,000 square-foot building is being redeveloped into mixed-use retail, restaurant space, and residential units.

Construction work on the new construction project at **129 Vernon** will result in a four-story building with 18 residential units and about 4,000 square feet of ground-floor commercial space.

Kaiser Roseville's campus is expanding with the construction of a $300 million new six-story patient tower, estimated to open in 2027. Currently, **Kaiser Roseville** is the largest hospital in Placer County.

Sutter Health recently expanded its emergency department, which ranks as the largest in the Sutter network. Construction is underway on a new four-story medical office building on campus to house new residency and fellowship programs and a parking garage. These programs will educate and keep more physicians in our region, helping address the state's shortage of doctors.

The 51-acre, 10-field **Roseville Soccer Complex** in west Roseville broke ground last year and will be a major attraction for sports tourism, bringing increased visitor spending and hotel stays to our area.

Cost of living, physical and mental health, and overall quality of life are some of the many reasons Roseville ranks 7th in the United States as a **city with the happiest residents,** according to a study by SmartAsset.com. Roseville was also ranked as the 27th Top U.S. City with the **Most Cutting-Edge Tech Workers.**

Neighborhoods in the Sierra Vista, Fiddyment Ranch, Amoruso Ranch, and Creekview plan areas continue to see construction activity and demand for **single-family home permits.** A total of 1,213 permits were issued through the 2023 calendar year. Typical yearly estimates are for an average of 900 permits.

The **Local Housing Trust Fund** is providing $7.5 million in support of three additional affordable housing developments in the city: Prospera at Fiddyment Ranch, Bridge Housing's Royer Apartments, and Mercy Housing Services.

The City Council-approved **Erickson Senior Living** is a 1,400-unit, 2.1 million square-foot continuing care retirement community that will expand housing for older residents. Erickson will offer independent living, assisted living, and skilled nursing residential options.

Affordable, or workforce, housing projects in Roseville will be easier for private developers to fund and build in the future, with the City of Roseville earning the **Prohousing designation** in 2022 from the California Department of Housing and Community Development. The designation makes private affordable housing projects planned in Roseville much more competitive for limited state and federal funding and could accelerate the timeline for future projects.

Strong outlook

Development activity remains high but has notably declined from the pandemic-fueled highs of the past three years. At the close of FY2023-24, single-family residential home production is expected to finish at 1,200 units, or 33 percent above the City's historical annual average of 900 permits. The bulk of new home construction continues to be focused in the Sierra Vista, Fiddyment Ranch, Creekview, and Amoruso Ranch specific plan areas they continue to build out.

Looking forward to FY2024-25, single-family permit issuance is projected to decline to 815 units as new subdivision construction slows and finished lots are absorbed. Conversely, momentum continues to build in the multi-family sector, with more than 2,000 apartment units under construction and more on the way.

Tenant improvements and new commercial construction are projected to maintain steady growth, driven in large part by hospital system expansions and the Bosch Corporation's significant investment in the former TSI Semiconductor silicon-chip manufacturing plant over the next 7-10 years.

Looking Ahead

Our city constantly evaluates the shifting landscape, anticipating how it may impact our service delivery. Though much is beyond our influence, we maintain a firm grasp on what falls within our control. With our commitment to prudent, conscientious budget planning, our fiscal approach ensures stability, empowering us to navigate challenges and seize emerging opportunities.

We plan for change by making a significant effort to engage and educate our residents, businesses, and staff about the evolving dynamics. We strive to attract top talent and enhance our reputation as an employer of choice because, as a service organization, our success depends on having talented professionals.

Amidst uncertainty, preparation is our greatest asset. With resilience as our cornerstone, Roseville stands ready to chart new courses, equipped to confront whatever lies on the horizon.

Awards & Achievements

- The Finance Department received recognition for Excellence in Budgeting from the California Society of Municipal Finance Officers (CSMFO) for the FY2023-24 budget.
- The Government Finance Officers Association (GFOA) awarded the Distinguished Budget Presentation Award to the Finance Department for the FY2023-24 budget and the Certificate of Achievement for Excellence in Financial Reporting for the FY2021-22 Annual Comprehensive Financial Report (ACFR).
- The Parks, Recreation & Libraries (PRL) Department was named a National Recreation and Park Association (NRPA) National Gold Medal Finalist for the second consecutive year. Additionally, PRL received seven marketing awards at the local, state and national level for graphic design including multiple awards for the 2023 NRPA Gold Medal video.
- Roseville was named 27th in the Wall Street Journal's 2023 list of Top U.S. Cities with the Most Cutting-Edge Tech Workers.
- The City of Roseville received the 2023 Greater Sacramento Economic Council's (GSEC's) Competitiveness Award for the establishment of the Roseville Venture Lab in recognition of meaningful contributions to enhance regional competitiveness through the support of small business development and entrepreneurship.
- Roseville Fire Department Emergency Medical Service (EMS) Quality Assurance Coordinator was recognized by the Western Placer County Fire Chiefs Association for leading the effort to bring Handtevy Mobile to the region. Handtevy Mobile gives EMS providers rapid access to lifesaving information proven to save lives and reduce errors.
- Roseville's Chief Information Officer (CIO), has been honored as a 2024 OnCon Top 100 Global Technology Executive in the Icon Award category. This prestigious recognition, voted on by peers, acknowledges significant impact on the City through visionary leadership and innovative solutions. Furthermore, the CIO was also named one of Government Technology's Top 25 Doers, Dreamers, and Drivers. This award celebrates outstanding public sector individuals who drive positive change and innovation.
- The Roseville Information Technology (IT) Team received both the 2023 MISAC Excellence in IT Practices Award from the Municipal Information Systems Association of California and the National 2023 Digital Cities Award from the e.Republic Center for Digital Government with Government Technology. Roseville's AI assistant, Rosie, utilizing Citybot's GenAI platform, received their 2024 Innovative Brand Ambassador Award.
- The IT Security Team won the 2024 KnowBe4 Sharky Award for Roseville in the Best Phishing Campaign category, which recognizes the creative and engaging approach the City took to involve employees in building a strong security culture. These awards recognize the Roseville IT Team's innovative use of technology to address community needs, enhance services, and fortify cybersecurity.
- Environmental Utilities Wastewater Division staff, received the California Water Environment Association's (CWEA) Gimmicks and Gadgets Award.
- Environmental Utilities Wastewater Division staff won the CWEA Operator of the Year Award for Local Area Sacramento.
- The Environmental Utilities Communications Team was awarded the 2023 Influence Award in Social Media Campaigns for the Faces of Water 2022 Campaign by the Public Relations Society of America.
- Environmental Utilities received the SAVVY Award of Excellence for their humorous video titled "Leaks are Scary," which was presented at the 3CMA Conference. This accolade recognizes the department's creative approach to tackling water conservation.
- The Environmental Utilities Wastewater Collection Division was the first-place winner of the CWEA Sacramento Area Section Collection System of the Year Award in recognition of outstanding maintenance programs, regulatory compliance, and safety and training procedures.
- The Environmental Utilities Department received the Regional Director's Award from the US Bureau of Reclamation for Roseville's ongoing commitment to water conservation.
- Assistant Director of Environmental Utilities, received the Water Statesperson of the Year Award from the Regional Water Authority for his leadership in helping to secure $55 million for local water resilience projects. Of the $55 million, $8 million is going to the City of Roseville to build two new Aquifer Storage and Recovery groundwater wells for greater water-supply reliability in the City.

Awards & Achievements

- Public Information Officer (PIO) for Environmental Utilities, received the California Association of Public Information Officials Paul B. Clark award for demonstrating exceptional leadership and lifetime achievement in the field.
- Roseville Electric Utility was designated a 2024 Diamond Level Reliable Public Power Provider (RP3) by the American Public Power Association for demonstrating industry-leading practices across the disciplines of reliability, safety, workforce development, and system improvement. The utility also received a first-place communication award from the Northwest Public Power Association in the advertising campaign category.
- The Public Affairs and Communications Department received awards from the California Capital Chapter of Public Relations Society of America for excellence in communications for the opening of the Venture Lab, a public-private partnership established downtown as a business accelerator.
- Public Works Fleet Services was recognized by Government Fleet Magazine in 2023 as 19th among the top 50 Leading Fleets in the country.
- The NAFA Fleet Management Association ranked Roseville's Fleet Services Division 87th among the 100 Best Public Fleets in the Americas in 2023.
- The City of Roseville's Commercial Corridor Specific Plan was recognized by the Sacramento Valley Section of the American Planning Association with the Economic Planning and Development - Award of Merit.
- Public Works Alternative Transportation Division held its 30th annual BikeFest event, providing bike safety information to Roseville residents.
- Public Works Alternative Transportation Division was awarded an $11.6 million grant for the purchase of 15 electric buses, chargers and infrastructure.
- Public Works Engineering Division ensured that Roseville remains one of only two Class 1 Community Rating System (CRS) communities in the nation for the 18th year in a row for its floodplain management standards by the Federal Emergency Management Agency (FEMA). Of the 22,300 National Flood Insurance Program (NFIP) communities nationwide that meet minimum requirements, only 1,520 have elected to become CRS communities, implementing higher floodplain management standards to protect their communities against the nation's most costly natural disaster.
- Public Works Engineering received nearly $4 million in grant funds from the federal government through an earmark proposed by Congressman Kiley for the design of the Blue Oaks Boulevard Roadway and Bridge Widening Project.
- Development Services has earned the Prohousing Designation from the California Department of Housing and Community Development for the City of Roseville. This designation makes private affordable housing projects planned in Roseville much more competitive for limited state and federal funding and could accelerate the timeline for future projects.

GOVERNMENT FINANCE OFFICERS ASSOCIATION

Distinguished Budget Presentation Award

PRESENTED TO

City of Roseville
California

For the Fiscal Year Beginning

July 01, 2023

Christopher P. Morrill

Executive Director

The City of Roseville received the Government Finance Officers Association's (GFOA) Distinguished Budget Award and the California Society of Municipal Finance Officer's (CSMFO) Operating Budget Excellence Award for the FY2023-24 budget. These awards represent a significant achievement and reflect a commitment of the City Council and staff to meeting the highest principles of governmental budgeting. In preparing the FY2024-25 budget, staff has once again followed the GFOA and CSMFO criteria and made enhancements. This document will be submitted to the GFOA and CSMFO for consideration for the FY2024-25 budget awards.

Demographics

Population

As of January 1, 2024, the California Department of Finance estimated Roseville's population to be 154,329. This represents an increase of 1,603 new residents from the previous year.

Future Population

Roseville's growth rate in 2023 was approximately 1.05 percent, which is higher than the current California rate of 0.17 percent and the national rate of 0.5 percent (California Department of Finance and Census Bureau). Placer County continues to be recognized by the Department of Finance as one of the state's fastest growing counties, while Roseville gained the most new residents of any city in Placer County in 2023. Current estimates indicate the population of Roseville will surpass 198,000 by the end of 2035 (Development Services Department).

Education

The Roseville community has clearly established education as a high priority. Over 96 percent of Roseville residents, over age 25, have a high school diploma, with approximately 47 percent obtaining a Bachelor's degree or higher (Esri). Roseville high schools have an average graduation rate above that of the national average of 91 percent and the state average of 84 percent. Roseville high schools also have Scholastic Aptitude Test (SAT) averages above the national average of 1,028 and the state average of 1,083 (prepscholar.com).

Household Income

The median household income in Roseville is $111,466 compared to the state median of $91,905 (Esri & US Census Bureau).

Persons Per Household

The average Roseville home has 2.64 people, which is slightly higher than the county average of 2.63 persons per household (Esri & US Census Bureau).

*Source: California Department of Finance (DOF) 2024 City Population

**Roseville is a full-service city, providing services like police, fire, water, and electricity directly to its residents. In some of the other cities listed, residents may get these services from different agencies, not directly from the city.

Residential Development

Building Permits (Issued SFDs)

According to the Building Division, the number of single- family dwelling (SFD) building permits issued in FY2023-24 is expected to increase slightly to 1,199 units, compared to the 1,107 permits issued in FY2022-23. The Building Division anticipates that only 815 SFD permits will be issued in FY2024-25. On average, the Building Division issues 1,001 SFD building permits per year (City of Roseville, Building Division).

Occupancy Permits (Finaled SFDs)

The Building Division is expected to final approximately 1,317 SFD building permits in FY2023-24, versus 1,565 SFD permits finaled in FY2022-23. Single-family residential growth is expected to slow down over the next year. However, multi-family residential growth is expected to increase exponentially by approximately 1,800 units (City of Roseville, Building Division).

Total Housing Units

As of January 2024, there are currently 61,976 completed housing units in Roseville. Of those units, 42,049 were low density residential (LDR), 8,142 were medium density residential (MDR), and 11,785 were high density residential (HDR) or other (City of Roseville, Business and Administrative Services Division).

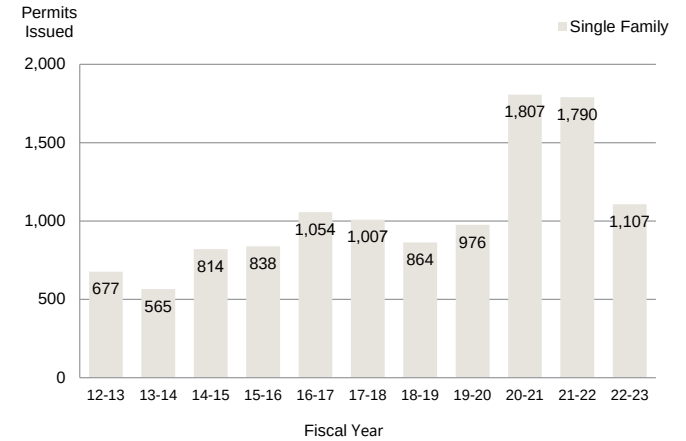

Single-Family Residential Home Prices and Values

The median home price in Roseville is $649,000. Roseville home values have increased 6 percent over the past year. The median list price per square foot is $335 (Realtor.com).

Residential Forecast

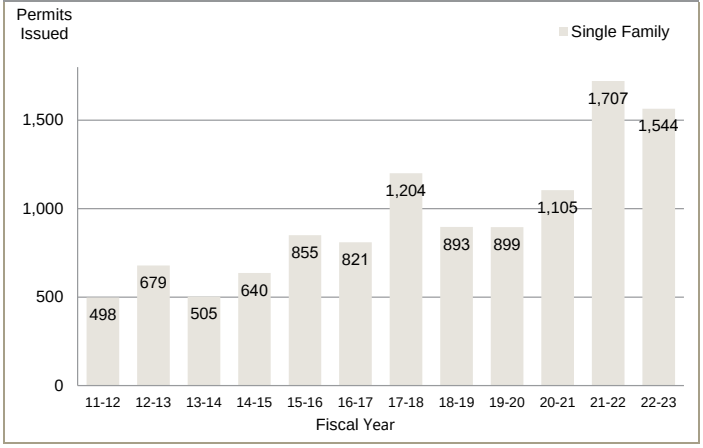

As of January 2024, there was an inventory of 4,330 approved single and multi-family lots awaiting construction, with an additional 3,495 lots under construction. The undeveloped lots are primarily located in the Campus Oaks, Sierra Vista, West Roseville, Creekview, and Amoruso Ranch specific plan areas (City of Roseville, Business and Administrative Services Division).

Building Permits (Issued SFDs)

Occupancy Permits (Finaled SFDs)

Source: City of Roseville, Building Division

Industrial Development

Developed Industrial Space

As of January 2024, Roseville had approximately 10,500,000 square feet of developed industrial and warehouse space. The majority of industrial development is located in the North Industrial and Infill areas (City of Roseville, Business and Administrative Services).

Industrial Activity

Development of industrial land has continued to increase over the previous year while vacancy rates remain at historic lows currently at approximately 1.6 percent (CBRE).

Commercial Development/Office Development

Commercial development has continued to increase over the previous year, with more than 900,000 square feet of new commercial development expected to be issued by the end of FY2023-24. New commercial development has primarily been related to the construction of

restaurants, retail space, and other personal service uses. Office space vacancy is up from the previous year totaling approximately 13.5 percent with current inventory (net rentable area) totaling 7,843,816 square feet.

Due to the impacts of remote and hybrid work affecting vacancy rates, it is not anticipated that significant office development will occur in the upcoming year.

Active Business Licenses

The City of Roseville had a total of 14,000 active business licenses as of January, 2024. Of that total, there are 9,591 based inside the City of Roseville and the remaining 4,409 accounts are based outside the City.

Employment

Jobs and Employed Residents

Per the State of California Employment Development Department, Roseville is estimated to have 90,200 jobs and a resident labor force of approximately 74,250. The total employment has increased approximately 5.1 percent year over year.

Unemployment Rate

California's 5.6 percent unemployment rate is slightly higher than the national average of 4.2 percent. Placer County unemployment is 4.6 percent and Roseville is at 3.8 percent. Health care, professional and business services, and retail have led the year-over expansion in employment growth (State of California, Employment Development Department, March 22, 2024).

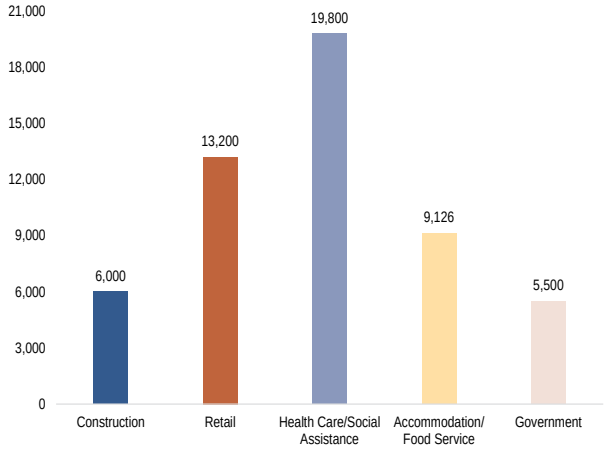

Roseville Businesses

Per Esri, Roseville hosts approximately 6,600 businesses that operate within the City, which further supports the City's tax base. The largest industry sector is health care and social assistance at approximately 22 percent. Retail businesses are second at approximately 15 percent. Rounding out the remaining top business sectors are food service, government, and construction (State of California, Employment Development Department).

Largest Employers

Roseville's largest 10 businesses, which account for over 16,000 jobs, include two top-tier health care providers, government agencies, a high-tech company, and retail. These businesses help solidify Roseville's status as a leader in regional employment.

Developing and Managing the Budget

The Roseville City Charter (section 7.02) mandates the legal requirements for preparing and adopting the City budget. The Finance Department - Budget Division provides instructions to assist department staff in developing their annual budgets. Departments then submit their budgets in detail to ensure consistency with the City Council's strategic plan and policies.

The General Fund budgeting process starts with the Finance Department analyzing operational expenses. This review includes a three-year historical analysis and the development of a forecast for future spending requirements. Finance then works cooperatively with the departments to review and discuss their findings. The forecast is the basis for developing all General Fund targets for materials, services, and supplies based on prior years' spending history and one-time expenditures. Finance also begins preliminary forecasting of the major General Fund revenues.

If a General Fund department cannot fund all requirements within its target, requests for additional funding are brought to the City Manager for discussion during budget review meetings. Any new requests approved are included in the proposed budget.

Additional steps in the budget process include the development of a labor forecast (including a salary vacancy factor in select funds), cost allocation plan, internal service fund rates, transfer budgets, non-capital projects, and the capital improvement program.

Additionally, Finance determines the amount for the General Fund contingency which is budgeted to:

- Fund new appropriations not identified during budget preparation
- Streamline the budget adjustment process by authorizing the City Manager to reallocate contingency funding to a General Fund department
- Define and control General Fund operating expenditures without tapping into the unrestricted fund balance

For the Enterprise Funds, which include Electric, Water, Wastewater, Waste Services, Transportation, and Youth Development, budgets are primarily based on rates or user fees charged to external customers. The Water, Wastewater, and Waste Services Operations Funds also budget a contingency.

Throughout the year, requests for changes to expenses/expenditures and revenues are made at the departmental level and are initially reviewed by the Budget Division. The City Manager then reviews all requests and ensures that all budget decisions are consistent with the City Council's strategic plan and all applicable federal, state, and local laws and regulations. City Council authority may be required to make certain changes to the budget based on the thresholds established in the annual budget ordinance.

Budget preparation takes approximately six months. Departments will begin preparing their budget requests and revenue estimates by January. From January through March, the Budget Division and City Manager's Office review and evaluate each department's budget submissions for materials, services, and supplies; capital outlay; capital and non-capital projects; positions; and revenue. During the review, the City Manager remains mindful of public safety and legal requirements, the Council's strategic plan and financial policies, and how to provide the most efficient, effective, and economical service levels possible. Once the review is completed, staff prepare the proposed budget document. The City Manager then presents the proposed budget to the City Council and the public for review in June. Section 7.05 of the City Charter requires that "... on or before June 30, [City Council] shall adopt the budget with revisions, if any, by the affirmative votes of at least three (3) council members." Typically, the budget is adopted at the Council's second meeting in June.

Detailed Annual Budget Development Process

1. Budget Kickoff (November/December) – The Finance Department initiates the annual budget process by meeting with staff from every department, distributing detailed budget development instructions (including key dates and guidance on using the budgeting software) and scheduling training. By this time, the Budget Division has already begun work on the development of the citywide cost allocation plan. Additionally, several other annual budget-related processes are already underway:
    - Internal Service Fund (ISF) rates: The ISF departments and divisions, including Information Technology (IT), Public Works – Fleet, and Public Works – Facilities, develop their operational budgets that will determine the ISF rates for the coming year.

- Citywide and Department Technology Projects: There's a citywide technology governance process that reviews all technology projects proposed for the upcoming budget.
- General Fund Capital and Equipment Replacement and Rehabilitation Process: The Budget Division initiates this process to allocate the annual rehabilitation target amount (set by City Council policy) among the requests submitted by the General Fund departments.

2. Midyear Review and Department Budget Preparation (January) - Finance reviews current-year projected City revenue, salaries, wages, and benefits; and other operating expenses. This compares budgetary forecasts to actual midyear results so staff can determine the critical financial issues facing the City. This review assists the City in establishing funding guidelines for the upcoming fiscal years. At this time, departments develop their budget plans (positions, operations, and projects) for the upcoming fiscal year and determine their revenue budgets for their program-specific operations.

3. Public Workshop on Council Priorities (February/March) – The City Council conducts a public workshop on Council priorities, providing budget policy direction to City staff. Also, throughout February and March, Finance develops the citywide General Fund revenue budgets. For the major revenues (sales tax, property tax, and hotel tax), Finance works with consultants to review current-year actuals, forecast year-end results, and determine the budget for the upcoming fiscal year. For other citywide revenues such as fees, permits, licenses and other taxes, Finance will consider historical trends, economic conditions, new legislation, and new City development as projected by the Development Services Department.

4. Budget Reviews and Document Preparation (April) – The City Manager conducts reviews of all

department budget recommendations, including new positions, capital and non-capital projects, and material, services, and supplies, including vehicles. Recommendations and revisions from departmental review sessions with the City Manager's Office are incorporated into the proposed budget. The proposed budget is submitted to the City Council no later than the first meeting in June.

5. Public Hearings and Budget Adoption (May/June) – The City Council reviews the proposed budget and conducts public hearings to address requests and concerns from the public. Any Council recommendations or changes are incorporated into the final budget document. City Council adopts the Annual Budget by the second Council meeting in June.

6. New Fiscal Year (July) – The adopted budget goes into effect on July 1.

Budget Implementation and Control

Once the City Council adopts the budget, each department head is responsible for implementing their department's budget, with ultimate responsibility resting with the City Manager. Department heads are expected to operate their departments within the appropriations established in the budget.

The budget is approved by major categories and is controlled at the department level by fund, per the annual budget ordinance.

Budget adjustment requests are considered where unforeseen events have occurred. Those requiring the use of unrestricted fund balances must be approved by the City Council or those delegated by the City Council. (Further details concerning adjustments can be found in the City Charter Sec 7.06 and in the annual budget ordinance.) The City Manager is authorized to move City Council-approved appropriations within the same fund or use available contingency funds.

Reasons for initiating a budget adjustment may include:

- Recognizing unanticipated revenue, which was not projected in the budget, and appropriating associated expenditures in the year in which the revenue is received
- Appropriating additional funds from resources or reserves
- Transferring dollars from the operating budget to the capital budget or vice versa
- Transferring between funds or department
- Initiating a new capital or non-capital project, or increasing it's budget
- Use of contingency funds

Understanding the Budget Document Layout

As indicated in the Table of Contents, the City of Roseville's budget document consists of the following sections:

Introduction

The Introduction outlines the key contents of the budget. This section includes the City Manager's Budget Message, which discusses the City's fiscal health, growth, the local economy, and how last year's accomplishments met the City Council Strategic Plan. It also contains the Boards and Commissions, Awards and Achievements, updated City demographics, the Budget Document Overview, and the annual ordinance adopting the budget.

Budget Summary

The Budget Summary section summarizes total citywide revenues and expenditures/expenses, significant trends of important measurements, and the Gann Appropriations Limit Calculation.

Fund Summaries

The Fund Summaries section of the document provides an overview of each fund's estimated revenue, appropriations, reserves, and fund balance. Local government budgets are made up of funds that organize and account for various resources. Enterprise Funds are set up as self-supporting units similar to a business. They account for the operation and maintenance of facilities and services that are comprised mostly of rates charged to customers or, in the case of internal service funds, to the City's departments. It is important to note that the City's revenue estimates are based on current knowledge of circumstances.

Often there is uncertainty as to actual revenues projected up to 15 months in advance. Overall, the revenue estimates assume conservative levels of growth based on analysis, historical trends, and projections developed in conjunction with consultants. Appropriations, in turn, are based on these projected revenues. The funds presented in this section are the General Funds, Enterprise Funds, Special Revenue

Funds, Capital Projects Funds, Permanent Funds, Special District Agency Funds, Trust Funds, and Internal Service/Self-Insurance Funds.

This section reflects actual revenues and expenditures for FY2021-22 and FY2022-23, the FY2023-24 Amended Budget, and the FY2024-25 Budget. It also includes overviews of each fund type, including sources of revenue and significant expenditures.

Department Operating Budgets

A summary of all department budgets and authorized positions as well as a citywide organizational chart are provided at the beginning of this section. The operating departments are City Council; City Manager; Public Affairs & Communications; City Attorney; Finance; Human Resources; Information Technology; City Clerk; Police; Fire; Economic Development; Parks, Recreation & Libraries; Public Works; Development Services; Electric; and Environmental Utilities.

Included in each department's Operating Budget section is an organizational chart, services overview, accomplishments, City Council strategic plan efforts, key performance and workload measures, budget highlights, and a budget summary.

Positions

This section of the budget document summarizes position allocations by department and classification.

Capital Improvement Program

This section provides cost estimates, funding sources, and recommended project schedules for the City of Roseville's Capital Improvement Program for the next five years. Accordingly, the documents provide descriptions, justifications, status, costs, classifications, and other relevant facts for each capital improvement project (CIP).

CIPs are composed of expenditures related to the acquisition, construction, expansion, or rehabilitation of an element of the City's infrastructure, such as streets, water, sewer, public buildings, and parks.

Non-Capital Multi-Year Projects

This section of the budget document displays cost estimates, funding sources, and recommended project schedules for the multi-year non-capital projects for the next five years. Accordingly, the document provides descriptions, justifications, status, costs, classifications, and other relevant facts for each project.

Appendices

The Appendices section of the budget document contains the following information: (1) Debt Management, (2) Transfer Summary, (3) Vehicles Schedule, (4) Glossary of Budget Terms, (5) Glossary of Commonly Used Acronyms, and (6) Index.

Understanding the Details

Financial Summaries

This document reflects actual revenues and expenditures for FY2021-22, FY2022-23, the FY2023-24 Amended Budget, and the FY2024-25 Budget.

Revenues: Both operating and non-operating revenues are displayed for each fund. The revenues include items such as fees collected for the cost-recovery of specific services to the public, and revenues received from other funds.

Expenditures/Expenses: Operating expenditures/ expenses are displayed at the fund level as well as the department and division levels. For example, within the General Fund summary, the Public Works Department's General Fund budget as a whole is shown. Within the Public Works operating budget section, expenditures for the Engineering Division and other Public Works divisions are provided.

Basis of Accounting and Budgeting: The City's funds are maintained in accordance with Generally Accepted Accounting Principles (GAAP), as established by the Governmental Accounting Standards Board (GASB). In preparing the budget, all funds are budgeted based on the City's budgetary basis of accounting. The City accounts for all governmental funds using the modified accrual basis of accounting, which means revenues are recognized when measurable and available. The City considers all revenues reported in the governmental funds to be available if the revenues are collected within 120 days after year-end, except property taxes and sales taxes, which are considered available if collected within 60 days after year-end. Proprietary and fiduciary funds are reported using the full accrual basis of accounting, which means revenues are recorded when earned, and expenses are recorded at the time liabilities are incurred, regardless of when the cash is disbursed.

In developing and evaluating the City's accounting system, consideration is given to the adequacy of internal accounting controls which are designed to provide reasonable, but not absolute, assurances

regarding (1) the safeguarding of assets against loss from unauthorized use or disposition and (2) the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that (1) the cost of a control should not exceed the benefits likely to be derived and (2) the evaluation of costs and benefits requires estimates and judgments by management. All internal control evaluations occur within the above framework. Finance Department staff remain committed to improving the City's accounting system, maintaining the City's internal accounting controls to safeguard assets adequately, and providing reasonable assurances of proper recording of financial transactions.

Budgetary control is directed by the City Council by ordinance when the budget is adopted each year. Per ordinance, expenditures/expenses may not exceed appropriations at the department level by fund or at the project level by fund for capital and non-capital projects. The City utilizes the encumbrance system as a management control technique to assist in controlling expenditures. Periodic reports of revenue, expenditures/expenses, and investment activity are available to the City Council and departments to monitor spending in relation to the budget. The Finance Department conducts quarterly budget monitoring meetings with the departments to ensure that they are on track and there are no unknown expenditures/expenses coming during the remainder of the fiscal year.

Indirect Cost Allocation Plan: The City of Roseville uses the indirect cost allocation plan to allocate departmental costs from the General Fund departments to all funds that receive the benefits of those services. The City uses a consulting firm that specializes in indirect cost studies to prepare the indirect cost allocation plan. The plan is based on the most current budget information available at the time the study is completed - typically six months before the adoption of a new budget. The consulting firm coordinates several meetings to interview staff from the General Fund departments that provide services to other departments as well as those departments that receive services from the General Fund departments. Cost allocation drivers are confirmed during the interview process, and budget data is provided to the consultant. The budget data used in the study excludes reimbursed expenses. An example of reimbursed expenditures is labor directly charged from one department to another. The consultant prepares a comprehensive study that is provided to all departments for review and comment. Departments receiving allocated costs have an opportunity to comment on the plan and correct any errors.

Indirect cost charges appear as expenses in the operating section of the fund summaries that are paying for the services and as reduced expenses in the operating expenses section of the General Fund. The purpose is to ensure that the General Fund is reimbursed for the full cost of services that it is providing throughout the City. Internal service funds at the City of Roseville directly charge costs of service to funds and departments receiving the service; therefore, the only fund that uses the indirect method of allocating costs is the General Fund.

Reserves

By Council policy, the City of Roseville has consistently planned its budgets while considering the City's long-term needs. This is accomplished by establishing several funds that serve to direct City revenues to long-term financial needs. This ensures that funding is available for needs as they arise. These funds include:

General Fund Emergency Reserve Fund: This fund holds an operating reserve of 10 percent of total estimated General Fund operating expenses to contend with significant short-term issues such as declared emergencies.

General Fund Stabilization Reserve Fund: This fund may be used strategically to allow the City to restructure its operation deliberately as required in an economic downturn while minimizing service disruption. The General Fund Stabilization Reserve is intended to address significant revenue shortfalls until the City's operating expenditure and revenue levels are adjusted to eliminate structural deficits. The target reserve level is 15 percent of operating expenditures.

Rate Stabilization Funds: Roseville Electric maintains a rate stabilization fund reserve target of between 40 percent to 90 percent of operating expenses. This allows the City time to react to major changes in the cost of electricity without having to impose an emergency rate increase. Rate stabilization funds are also used in the Environmental Utilities to help ease the impacts of rate increases over a period of years.

Rehabilitation Funds: The City has set aside funds in several rehabilitation funds to maintain the City's investments in its buildings, information technology, equipment, and park facilities. The Council's goal is to increase the balance of these funds to keep pace with

the improvements, replacements, and maintenance needed. The rehabilitation funds are Facility Rehabilitation Fund; Equipment Replacement Fund; Parks, Recreation and Libraries Capital Projects Fund; and IT Replacement Fund.

Fleet Replacement Fund: The City saves for the cost of replacement vehicles over the useful life of the vehicle. This ensures that funds are available to keep the City's vehicle fleet operating properly and safely. Roseville Electric sets aside resources for vehicle replacement costs in the Electric Fund.

Strategic Improvement Fund: This fund provides the Council with resources that can be used for periodic strategic investments on behalf of the City. This fund has been used to acquire land and fund improvements, primarily in redevelopment areas.

Litigation Reserve Fund: The Litigation Reserve contains funds set aside for legal matters that are unforeseen and unusual and, as a result, would otherwise require reactive measures such as seeking a budget adjustment and a funding source. Some examples are contract disputes, municipal code enforcement, and other public safety enforcement matters. This fund allows for proactive handling and funding of such matters.

Financial Policies

The following financial policies aim to determine appropriate and responsible financial guidelines for staff to develop the budget, make recommendations, and fulfill their role as fiscal stewards of public funds. As new policies are developed and approved by City Council, they are added to a comprehensive financial policies document found on the City's website. Each year the policies are reviewed by staff, updated if necessary, and submitted to Council for approval. A brief summary of the current policies is provided below:

Investment Policy

The purpose of the Investment Policy is to establish cash management and investment guidelines for the Assistant City Manager/Chief Financial Officer, who is responsible for the stewardship of the City of Roseville's investment program. Each transaction and the entire portfolio must comply with the California Government Code Sections 53600 and 53635 et seq. and the Investment Policy. The Investment Policy conforms to the customary standards of prudent investment management, and any changes to the policy must be adopted by the Council. The Investment Policy has been certified by the California Municipal Treasurers Association through their Investment Policy Certification Program.

Debt Management Policy and Swap Policy

The purpose of the Debt Management Policy and Swap Policy is to provide guidelines for the issuance of bonds and other forms of indebtedness to finance necessary land acquisitions, capital construction, equipment, and other items for the City.

Budget Development Policy

The Budget Development Policy aims to establish guidelines for developing the annual operating and capital budget. The policy maintains a citywide focus during the budget development process consistent with the General Principles of Governance adopted by the City Council. The policy includes guidelines for general revenues, a balanced budget, and public participation.

General Fund Reserves Policy

The General Fund Reserves Policy aims to establish a targeted level of General Fund operating reserves, a basic component of a financially strong city. The policy maintains an amount equal to 10 percent of annual General Fund budgeted operating costs as the minimum level of funding in the City's General Fund Emergency Reserve and 15 percent of annual General Fund budgeted operating costs as the target level of funding for the City's General Fund Stabilization Reserve Fund. Appropriation from the Emergency Reserve and Stabilization Reserve Funds requires the approval of at least four City Council members. The policy also includes the Litigation Reserve Fund, which was established to address legal matters that require proactive handling and funding. The three General Fund reserves are funded at their target levels in the FY2024-25 budget.

Development Services Stabilization Fund Policy

The purpose of the policy is to maintain resources in a reserve that the City Council may draw from to maintain adequate staffing in order to continue delivering development services during an economic downturn.

Federal Stimulus Reserve Fund Policy

The purpose of this Federal Stimulus Reserve Fund Policy is to establish a temporary Federal Stimulus Reserve Fund with the City's allocation of the federal stimulus (2021 Coronavirus State and Local Fiscal

Recovery Funds) until one-time expenditures or transfers to other City funds are approved over the remaining course of the pandemic. The federal stimulus funding may be used to cover qualifying costs obligated between March 3, 2021, and December 31, 2024, and expended by December 31, 2026.

Internal Service Funds - Operating and Replacement Reserves Policy

The purpose of the Internal Service Funds - Operating and Replacement Reserves Policy is to establish (1) operating reserves to provide for continuity of service in the event of unanticipated changes to revenues or expenditures, particularly within a single fiscal year when charges for service on client operating departments already have been fixed through the adopted budget, and (2) replacement reserves to provide funding for capital improvement, rehabilitation, and replacement of capital assets, whose costs yield a burdensome or unaffordable peak in expenditure if assessed on client operating departments as they occur.

Capital Improvement Program Rehabilitation Funding Policy

The Capital Improvement Program Rehabilitation Funding Policy aims to address funding for the City's General Fund infrastructure rehabilitation and replacement by providing annual increases for funding the program.

Pension Funding Policy

The Pension Funding Policy documents the method the City will use to calculate its actuarially-determined contributions to fund the long-term cost of pension benefits. The policy also provides guidance in making annual budget decisions, demonstrates prudent financial management practices, reassures bond rating agencies, and shows employees and the public how pensions will be funded. This policy also provides guidance for making additional discretionary payments to CalPERS, and establishing and contributing to a Section 115 pension trust fund to reserve funds to cover future pension cost increases.

Other Post-Employment Benefits (OPEB) Funding Policy

The purpose of the OPEB Funding Policy is to accumulate sufficient assets to fully finance the healthcare benefits that retired employees receive. The policy requires appropriating the actuarially-determined contribution amount in all applicable City funds.

Workers' Compensation and General Liability Funding Policy

The purpose of the policy is to provide adequate financial resources to fund the City's Workers' Compensation and General Liability programs and establish and maintain adequate reserves in the Workers' Compensation and General Liability Internal Service Funds.

Request for Proposals (RFP) Policy

The RFP Policy provides a uniform process for the issuance, evaluation, and selection of competitive proposals for services and/or customized goods.

Internal Control Policy

The Internal Control Policy documents the internal control framework adopted by the City and formalizes certain policies and procedures to further the goal of fiscal responsibility through effective and comprehensive internal controls.

Employee Salary & Benefits Summary

The City has a Management/Confidential employee group, as well as five bargaining units: International Brotherhood of Electrical Workers (IBEW); Stationary Engineers, Local 39 (Local 39); Roseville Firefighters, Local 1592 (RFF); Roseville Police Association (RPA); and Roseville Police Officers Association (RPOA). Each unit negotiates a contract reflected in a memorandum of understanding (MOU) that governs the total compensation for that particular group (e.g., longevity pay, education pay, and certification pay).

The City has established a general philosophy of benchmarking total compensation (i.e., compensation and benefits) at the 55th percentile (75th percentile for the Electric Utility) of the labor market to manage rising pension costs and still be competitive in hiring qualified employees. The total compensation comparison includes base salaries (not including overtime or payouts upon retirement), pay incentives (e.g., special certification, longevity), health and welfare benefits (i.e., medical, dental, vision, life insurance, disability insurance), and retirement benefits. The City compares its total compensation with jurisdictions that are similar in size, services (Roseville is a full-service City), and geographical location. A Benefit Summary document for each group can be found on the City's website under the Human Resources Department page. **The key compensation components of a *typical* City employee are listed below:**

Title	Description
Salary	City salary schedules are set on various factors, including job duties, relation to similar jobs within the organization, reporting structure, etc. Compensation surveys are conducted to compare jobs with comparable local government agencies and, in some cases, private sector industries in Northern California. Survey results ensure Roseville's salaries and benefits packages are competitive with other similar jurisdictions, helping the City attract and retain high-level talent.
Retirement	The City and employees contribute to a pension plan provided by the California Public Employees' Retirement System (CalPERS) based on the employee's age, years of service, highest single year or highest three-year average salary, and benefit factor. **Classic members** (hired before 1/1/2013): Public Safety 3% @ age 50 Miscellaneous 2.7% @ age 55 **New members** (hired after 1/1/2013): Public Safety 2.7% @ age 57 Miscellaneous 2% @ age 62 *Note: City of Roseville employees do not participate in Social Security.*
Health, Dental &Vision Insurance	Depending on employee elections, the City may contribute up to a maximum cafeteria plan dollar amount of $2,265 per month towards employee plus family level medical insurance coverage, $1,860 for employee plus one medical coverage, and $1,547 for employee only coverage. Cafeteria plan amounts may apply toward medical, dental and vision plan costs. **Medical** provided by CalPERS **Dental** provided by Delta Dental **Vision** provided by Vision Service Plan (VSP)
Other Group Insurance	Long Term Disability (LTD) coverage is offered to employees. City-paid LTD is provided to employees with more than five years of service in one of the following employee groups: Management/Confidential, IBEW, or Local 39. A group term life insurance plan is provided to all regular employees. Optional self-pay short-term disability and supplemental life insurance plans are also available to employees.
Other Post-Employment Benefits (OPEB)	The City offers health care coverage to all eligible employees who retire from the City of Roseville through CalPERS within 180 days of their separation. An employee's hire date will determine the level of city contributions toward this benefit. A retiree health savings account was established for employees receiving the minimum benefit level to provide a $100/month City contribution to employees with five or more years of service.
Sick Leave	Sick leave provided to employees includes 12 days or 96 hours per year to all units (except 24-hour shift employees, which is six shifts or 144 hours) for all regular employees (pro-rated for those on modified schedules). In accordance with AB 616, effective January 1, 2024, the City provides up to 40 hours of paid sick leave per year to all employees who qualify as defined by AB 1522 (effective July 1, 2015).
Vacation Leave	The City provides 12 days of vacation to those with less than five years of service. As tenure increases, the allocation also increases to a maximum of 20 days to employees who have worked 20 years or more. The accruals are pro-rated based on work schedule and vary for those working a 24-hour shift schedule.

ORDINANCE NO. 6825

ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE
ADOPTING THE ANNUAL BUDGET FOR THE FISCAL YEAR 2024-25,
ADOPTING BUDGET CONTROL POLICIES, ADOPTING AN APPROPRIATIONS LIMIT,
ADOPTING THE BUDGET FOR THE SUCCESSOR AGENCY OF THE ROSEVILLE
REDEVELOPMENT AGENCY, TO BE EFFECTIVE IMMEDIATELY
AS AN URGENCY MEASURE

THE CITY OF ROSEVILLE ORDAINS:

SECTION 1. The proposed budget for the City of Roseville entitled "Proposed Budget Fiscal Year 2024-25, City of Roseville, California," a copy of which is on file in the office of the City Clerk, is hereby adopted as the "Annual Budget Fiscal Year 2024-25, City of Roseville, California."

SECTION 2. The proposed expenses, expenditures, transfers out, revenues, and transfers in shown in the fund, department operating budget and project summaries of the budget document, which are incorporated herein, are hereby appropriated to the departments and activities in the amounts and purposes therein stated. Encumbrances, expenses and expenditures of the various appropriations described in the budget document shall be made by those departments and employees designated therein as the requisitioning authorities.

SECTION 3. The following budget control policies shall become effective upon the adoption of this ordinance:

1. The operating budget of the City of Roseville and the Successor Agency of the Roseville Redevelopment Agency shall be approved by the following major expenditure/expense summary categories:

a. Salaries and Wages
b. Benefits
c. Materials, Supplies, and Services
d. Internal Reimbursements
e. Capital Outlay
f. Debt Service
g. Transfers Out

2. The City Manager or designee shall apply prudent monitoring procedures to assure that actual expenditures/expenses of the City and the Successor Agency of the Roseville Redevelopment Agency do not exceed the appropriations at the department level by fund.

3. The City Council delegates authority to the City Manager or designee to approve the movement of City Council approved appropriations within the same fund, excluding Capital Improvement and Non-Capital Multiyear Projects.

4. The City Manager and Assistant City Manager/Chief Financial Officer are directed to ensure that the budget complies with City Council approved financial policies.

5. The City Manager or designee is authorized to increase the Fiscal Year 2024-25 budget appropriations for the remaining unspent appropriations from the prior fiscal year for City Council approved fleet replacement.

6. Capital Improvement Plan. The Capital Budget of the City of Roseville and the Successor Agency of the Roseville Redevelopment Agency shall be approved by Capital Improvement Project. Capital project appropriations shall be used solely for the original purpose approved by the City Council.

7. Non-Capital Multiyear Projects. The non-capital multiyear project budget for the City of Roseville and the Successor Agency of the Roseville Redevelopment Agency shall be approved by Non-Capital Multiyear Project. Non-Capital project appropriations shall be used solely for the original purpose approved by the City Council.

8. City Council approval is required to establish or cancel (without completion) new Capital Improvement Projects or Non-Capital Multi-Year Projects.

9. The City Manager or designee is authorized to carryover any unspent appropriations in Capital Improvement and Non-Capital Multi-Year Projects and to change project numbers or other project attributes which do not increase total project appropriations by fund and is consistent with City Council intent.

10. Annually, completed or inactive Capital Improvement Projects and Non-Capital Multi-Year Improvement Projects will be closed, except for projects that have existing litigation, payment disputes or other extenuating circumstances. An inactive project is defined as one where transaction activity is less than $1,000 over the prior three years. Closures are the responsibility of the designated project manager. The managing department and the City Manager or designee have the authority to take the necessary steps to close completed or inactive projects, including appropriate decreases to the budget.

11. All encumbrances for valid purchase orders and contracts in effect as of June 30, 2024, will remain in effect in the following fiscal year. The City Manager or designee is authorized to increase the Fiscal Year 2024-25 budget appropriations, and any associated revenue or reimbursement budgets, in the amount of the outstanding encumbrances for valid purchase orders and contracts as of June 30, 2024.

12. The City Manager or designee is authorized to eliminate funds, including increasing appropriations for transfers between funds up to $75,000, as required for proper accounting and fiscal management when the purpose of a fund has expired.

13. The City Manager is authorized to revise any appropriation made in the Adopted

Budget where the revision does not increase total appropriations by fund and is consistent with City Council intent.

14. The City Manager is authorized to increase appropriations in any department or project from the General Fund Administrative Contingency.

15. The City Manager is authorized to increase appropriations in the Environmental Utilities funds from the respective fund's contingency budget.

16. The City Manager is authorized to increase revenue estimates and appropriations for Council-approved bond issuances.

17. The City Manager is authorized to adjust the revenue and expenditure budget for the Development Services reimbursable development projects to match the actual amount of revenues received and expenditures incurred each fiscal year.

18. All increases and decreases to the total adopted budget require City Council approval, except as otherwise authorized in this Ordinance.

19. The City Manager is authorized to refine/add content, as may be needed to meet Government Finance Officers Association (GFOA) and California Society of Municipal Finance Officers (CSMFO) budgeting award requirements, in the Proposed Budget to create the FY2024-25 Approved Budget.

20. The City Manager is authorized to increase or decrease Capital Improvement Projects and Non-Capital Multiyear Projects revenues and expenditure budgets by up to $75,000 for each project.

21. The City Manager is authorized to adjust the Development Services revenue budget for the General Plan Update Fee to reflect actual revenues received and adjust the expenditure budget by a like amount in the General Plan Update CIP. This authority will also apply to the FY2024-25 budget.

SECTION 4. Pursuant to Article XIII B of the California Constitution, the appropriations limit for the City of Roseville is hereby established in the FY2024-25 Approved Budget. The State Department of Finance provides the City the annual adjustment factors used in the appropriation limit calculation. The factors are the changes in the California Per Capita Personal Income and population levels for the City or the County.

SECTION 5. It is hereby ordered that a copy of this ordinance and the budget document be certified by the City Clerk and filed in the office of the City Clerk. The City Clerk is directed to post a copy of this ordinance in three (3) conspicuous locations in the City and enter the posting thereof in the Ordinance Book.

SECTION 6. This ordinance is required for the orderly operation and maintenance of municipal activities and the appropriations for usual and current expenses of the City and the

Successor Agency of the Roseville Redevelopment Agency during the 2024-25 fiscal year. Therefore, this ordinance shall take effect immediately upon passage hereof as an urgency ordinance, pursuant to Section 5.03 of the Charter of the City of Roseville.

PASSED AND ADOPTED by the Council of the City of Roseville, this 19th day of June, 2024, by the following vote on roll call:

AYES COUNCILMEMBERS: Houdesheldt, Bernasconi, Alvord, Roccucci, Mendonsa

NOES COUNCILMEMBERS: None

ABSENT COUNCILMEMBERS: None

Gann Appropriations Limit Calculation

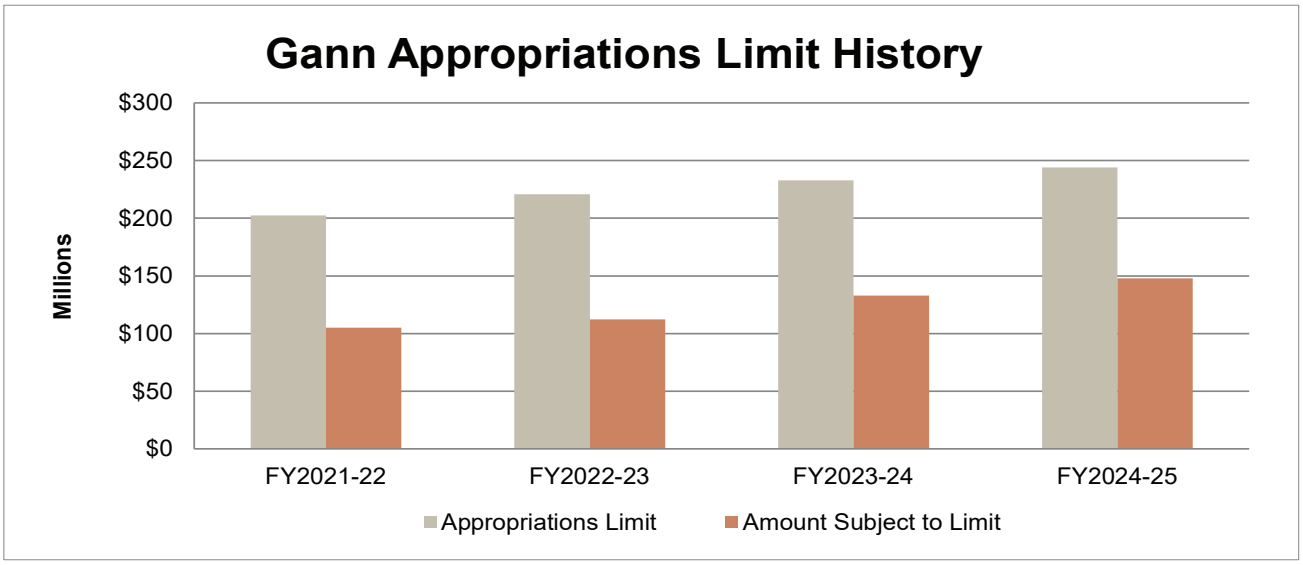

The Gann Appropriations Limit began as a ballot initiative approved by California voters in 1979 and modified by Proposition 111 passed in 1990. Its purpose is to limit the amount of tax proceeds state and local governments can spend each year. The Gann Appropriations Limit appears in California's State Constitution as Article XIII B.

The limit is different for each city and changes annually. Each year's limit is based on the amount of tax proceeds that were authorized to be spent in fiscal year 1978-79 in each city, and modified for changes in inflation and population each subsequent year. By law, inflationary adjustments are based on the California Department of Finance's official report which states the change in California's per capita personal income and population levels for the city or the county.

Each year the City Council must adopt an appropriations limit for the following year. The City's Appropriation Limit for FY2024-25 has been calculated to be $243,892,865. Appropriations subject to the limitation in the FY2024-25 budget total $147,675,212, which is $96,217,653 less than the calculated limit.

Consumer Price Index (CPI)	1.0362
Population Increase	1.0105
Ratio of Change	1.0471
FY2023-24 Appropriations Limit	232,922,228
FY2024-25 Appropriations Limit	**$ 243,892,865**

General Government Operating Appropriations	$ 231,407,401
Capital Improvement Project (CIP) Appropriations	17,865,889
Subtotal Operating and CIP Appropriations	249,273,290
Less Exclusions not Subject to Limit	
Non-Proceeds of Taxes	(90,716,112)
Qualified Capital Outlay and Federal Mandates	(10,881,966)
Total Appropriations Subject to Limit	147,675,212
Calculated Appropriations Limit	243,892,865
FY2024-25 Margin	**$ 96,217,653**

General Funds Overview

General Funds Overview

The General Funds are used for general City operations and activities. The funds account for all financial resources except those that require a separate fund.

For financial reporting, the General Funds include the following:

- General Fund
- General Fund Emergency Reserve Fund
- General Fund Stabilization Reserve Fund
- General Fund Capital Reserve Fund
- Development Services Stabilization Reserve Fund
- General Fund Contributions by Developers Fund
- Strategic Improvement Fund
- Litigation Reserve Fund
- Stormwater Fund
- Parks & Recreation Donation Fund
- Roseville Youth Sports Coalition Fund
- Harrigan Trust Adult Literacy Fund

The individual fund summaries in the following pages provide an overview of each General Fund. They include the fund's operating budget (revenues and expenses), non-operating budget (capital, debt, and non-recurring revenues and expenses), and a summary of the fund balance and reserves. These summaries provide a mechanism to gauge changes in the fund over four fiscal years.

General Fund

The General Fund budget provides for the delivery of municipal services to the Roseville community. These services include police, fire, parks and recreation, libraries, public works, economic development, development services, and general government, which includes the following departments: City Council, City Manager, Public Affairs and Communications, City Attorney, Human Resources, City Clerk, and Finance. The General Fund is the City's primary operating fund.

Following are the details of significant General Fund activity presented in this section.

Major Revenues

The City relies on several major revenue sources to support the General Fund budget.

Bradley-Burns Sales and Use Tax

The City receives a 1 percent share of sales tax charged on taxable sales within the city limits from the Bradley-Burns Local Sales and Use Tax Act.

The FY2024-25 budget includes a Bradley-Burns sales and use tax revenue estimate of $70.4 million. This projection reflects a 3.8 percent increase from the FY2023-24 updated estimate of $67.8 million. This level

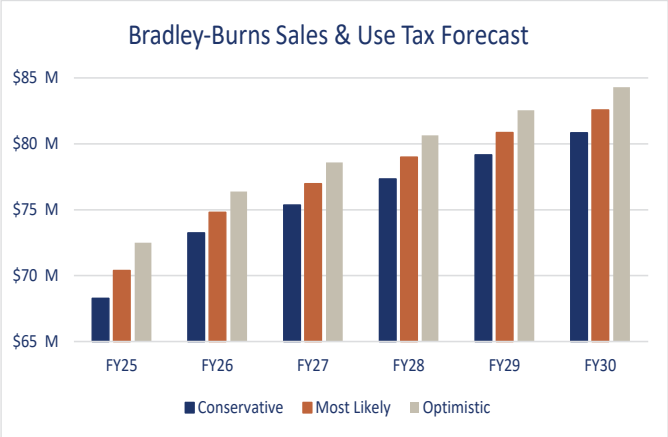

Major General Fund Revenue Sources

- Sales Tax (Bradley Burns and Measure B)
- Secured Property Tax
- Property Tax In-Lieu of Vehicle License Fees
- Hotel/Motel Tax
- Building Permits and Plan Check Fees
- Recreation Program Revenue
- Franchise Fees

of sales tax growth is less than in prior years and more reminiscent of pre-pandemic years.

The FY2024-25 forecast provided by the City's sales tax consultant ranges from conservative at $68.3 million to optimistic at $72.5 million, with $70.4 million as their most likely estimate, which is reflected in the budget.

The chart below shows the consultant's estimate for Bradley-Burns Sales and Use Tax through FY2029-30 for conservative, most-likely, and optimistic scenarios. The forecast takes into account factors that could affect markets, supply chains, and consumer confidence including the global and national political environment; trade policies; and housing, vehicle, and energy prices.

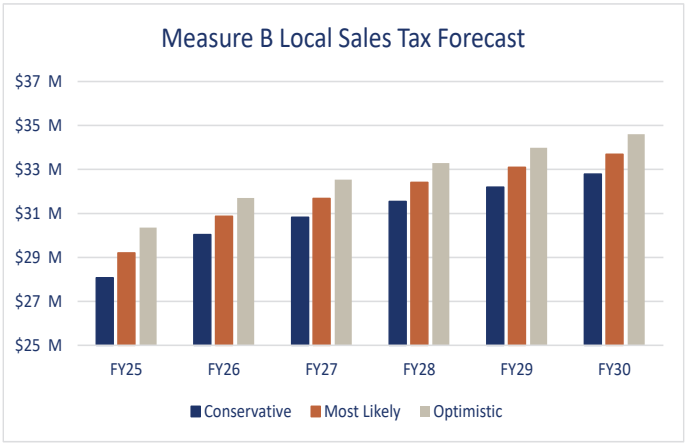

Measure B Local Sales Tax

With the passage of Measure B in November 2018, the total sales and use tax rate increased by one-half of one percent, effective April 1, 2019.

The City's sales tax consultant's most recent projections indicate that Measure B could range from $28.1 million to $30.4 million, with $29.2 million as their most-likely estimate. Like Bradley-Burns sales tax, Measure B revenue growth is slowing compared to the last couple of fiscal years.

The FY2024-25 Measure B revenue budget estimate is $29.2 million, which aligns with the consultant's most-likely estimate. This estimate represents an increase of $600,000 over the updated FY2023-24 estimate of $28.6 million.

The chart below shows the consultant's estimate for Measure B local sales tax revenue through FY2029-30 based on conservative, most-likely, and optimistic scenarios. The assumptions used are the same as for the Bradley-Burns Sales and Use Tax forecast.

Secured Property Tax

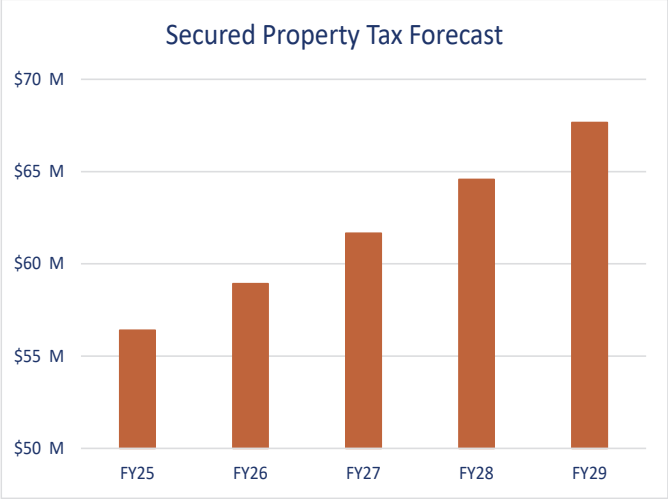

Secured property tax is the second-largest source of revenue in the General Fund. Real property, which is defined as land and any improvements made to land such as buildings and other permanent structures, is taxed at 1 percent of the property's assessed valuation by Placer County.

The assessed value of a property is determined based on the value of new construction or when a change in ownership occurs, in which case the sale price is used as the new assessed value. Under Proposition 13, assessed value of property is increased by a maximum of 2 percent annually. A property that declines in value may be reassessed (per Proposition 8) for a temporary reduction. Property tax is shared by several taxing entities, mainly school districts, Placer County, and the City of Roseville.

The location of the parcel determines the City's share of tax revenue, but on average the City is allocated approximately 15 percent of the property tax revenue. The Placer County Auditor-Controller's Office has provided an estimate of property taxes the City of Roseville can expect to receive during the current year. Building upon this estimate, the FY2024-25 secured property tax projection of $56.4 million reflects a 6 percent increase over the FY2023-24 updated estimate of $53.4 million. The growth rate is forecasted based on monitoring the local real estate market, new single-family homes recently

added to the market, economic forecasts, input from tax consultants and the Placer County Assessor regarding current valuations and appeals.

The following property tax forecast includes factors such as the California Consumer Price Index (CCPI) adjustment of 2 percent for all real property (land and improvements) not reduced by the assessor per Proposition 8, estimated value increases due to ownership transfers between tax years, and Proposition 8 adjustments based on the projected growth in the median sale price of single-family homes. The model does not include pooled revenues, appeals, annexations, delinquencies, and estimates for completed new construction beyond FY2024-25.

Property Tax In-Lieu of Vehicle License Fees

Previously, the State of California assessed a 2 percent tax for cities and counties known as the Vehicle License Fee (VLF) on car registrants. As part of the 2004 Budget Act negotiations, an agreement was made between the state and local governments where the VLF rate will be permanently reduced from 2 percent to 0.65 percent. The difference is paid through local property tax from county educational revenue augmentation funds (ERAF), referred to as the "VLF swap." The City of Roseville's projection for FY2024-25 of $14.6 million reflects a 5 percent increase over the current year estimate of $13.9 million. The projected growth is due to the combined change in the assessed valuation of properties.

Building Permits and Plan Check Fees

The City collects building permit fees when issuing a permit to develop a property. The basis for the building permit and plan check fees is the assessed valuation of the square footage proposed for development and improvements. This revenue estimate is developed by analyzing probable future development of single-family, multi-family, commercial, and industrial property. Builders and developers are contacted regarding possible new residential development, while commercial projects are estimated based on current submittals to the City.

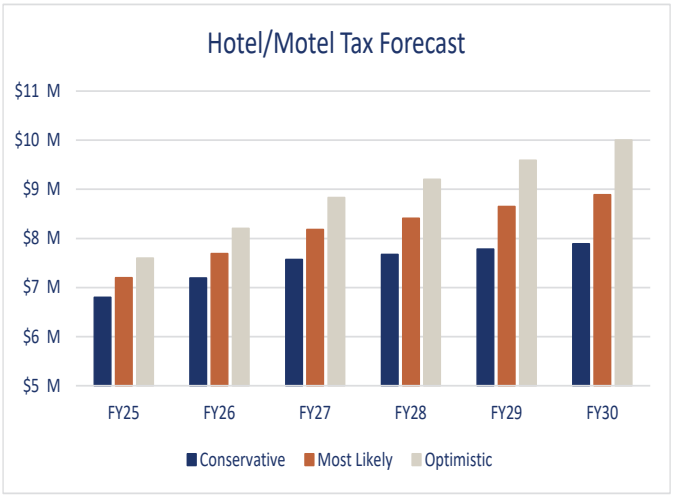

Combining these projections and tenant improvements comprise the permit and plan check revenue estimates of $5.6 million in the Development Services Department. The FY2024-25 budget assumes that building permit and plan check fee revenues will be slightly greater than the current year.

Hotel/Motel Tax

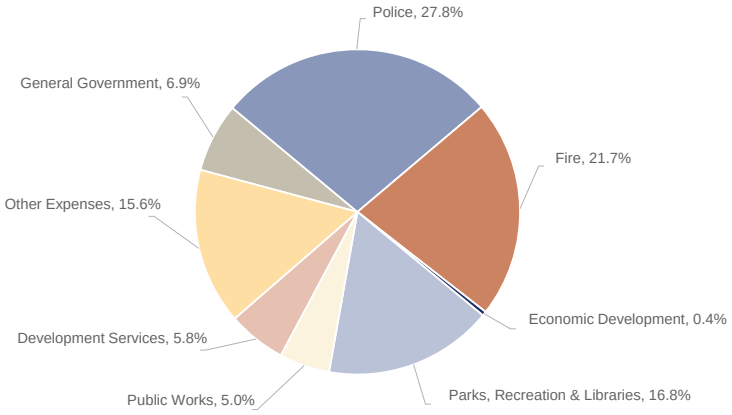

In 2022, Roseville voters approved an increase in the City's hotel tax rate, officially known as Transient Occupancy Tax (TOT), from 6 to 10 percent. This puts Roseville in the average range of TOT rates throughout the state.

The FY2024-25 budget includes a TOT revenue estimate of $7.2 million. This estimate assumes that TOT revenues will continue at the same level as the current fiscal year.

The City's TOT consultant provides the following forecast through FY2029-30. The model is built using the City's historical gross tax revenue and current industry trends, plus the addition of two new hotels expected to open in mid-2025 and by the end of 2026 (but does not include anything expected beyond 2026). Estimated TOT revenue for the new hotels is based on the current average daily rate and occupancy for FY2023-24. The total revenue factors in a discount for the possible occupancy impact on existing establishments from the new hotels. Each scenario assumes an average growth rate: conservative at 1.5 percent, most-likely at 3 percent, and optimistic at 4.5 percent.

General Fund Operating Expenses by Department
Total - $229.1 Million

Franchise Fees

Franchise fees are considered a form of rent to use Roseville public rights-of-way. This fee is collected from companies furnishing users with telephone, cable television, and gas services. Franchise fee revenues are received from Comcast, Consolidated Communications, Pacific Gas & Electric, and Direct TV. Payments are based on a percentage of gross revenues as stated in the Roseville Municipal Code; therefore, they fluctuate based on gross billings by the companies listed above. Based on recent trends, this revenue stream is expected to remain flat in FY2024-25 at nearly $2.4 million.

Other General Fund Revenue Sources

Licenses and Permits

The major components of this revenue category include animal licenses, building permits (described above), and fire permits.

Use of Money and Property

This revenue category includes interest on investments and rental/lease revenue.

Charges for Current Services

This revenue category includes fees for items such as permit fees, police and fire services, and recreation programs. These items are primarily external fee-based payments for services provided by General Fund departments.

Grants and Contributions

This revenue category includes state and federal grant awards received by the City and reimbursement of state mandates.

Other Revenue

This revenue category comprises third-party reimbursements, donations, and DUI cost recovery.

Operating Transfers In and Electric Franchise Fee

The FY2024-25 budget includes $18.7 million in operating transfers in. The most significant components of this category are the Electric Franchise Fee and the Municipal Services District Fund transfer. The Electric Franchise Fee is a result of the City Charter, Article IX, Section 9.01, “City-owned utilities may pay an in-lieu of franchise fee not to exceed 4 percent of total operating and capital expenditures to the City’s General Fund. All in-lieu of franchise fee revenue received shall be budgeted and appropriated solely for police, fire, parks and recreation or library services.” The Electric Franchise Fee included in the FY2024-25 budget is $8.6 million. The Municipal Services District Fund transfer is a funding source for General Fund services and totals $8.4 million. Other transfers include $135,000 from the Supplemental Law Enforcement Fund to support front line law enforcement services and $1.2 million from the Utility Impact Reimbursement Fund to support roadway rehabilitation. These transfers provide funding to cover the cost of staff and programs in the General Fund. A detailed overview of operating transfers is available in the Appendices.

General Fund Expenses

The General Fund includes expenses for operations, debt, capital, transfers out, and repayment of interfund loans. The operating costs are for departments that provide services to the Roseville community, including Police; Fire; Public Works; Economic Development, Development Services; Parks, Recreation & Libraries; and the general government departments. Other operating expenses include post-retirement health insurance (aka, OPEB) and annexation tax-sharing payments to Placer County.

Indirect Cost

The City's General Fund includes expenses for all administrative services (e.g., finance, human resources, attorney services, etc.) provided to all City departments. A portion of these services supports the enterprise funds, including utility funds. The City uses a fair and equitable indirect cost allocation process to allocate departmental costs from the General Fund to all funds that benefit from the services that the General Fund departments provide. The City employs a consulting firm specializing in indirect cost studies to prepare the cost allocation plan. The plan is completed under generally accepted accounting principles (GAAP) as recognized by the Governmental Accounting Standards Board (GASB).

The primary principles used to develop the plan are: 1) the allocated cost is necessary and reasonable for the proper performance of a department, division, unit, and program; 2) the allocated cost is charged to departments, divisions, units, and programs relative to the benefits received; and 3) costs are consistently treated as direct or indirect. Those costs that cannot reasonably be directly charged are included in the study. The total General Fund indirect cost reimbursement included in the FY2024-25 budget is $13.6 million.

Capital and Debt Expenditures

The General Fund includes Capital Improvement Projects (CIPs) related to public buildings, general improvements, street improvements, drainage improvements, and park improvements. The detail for each CIP that includes additional funding in the upcoming budget year can be found in this document's Capital Improvement Program section.

Debt in the General Fund includes the principal payments on outstanding loans that are the obligation of the General Fund.

Transfers Out

Funds are transferred out of the General Fund for capital requirements, debt service, loan repayments, parks rehabilitation projects, stormwater operations, golf operations, and to maintain the General Fund Emergency and Stabilization Reserves. The FY2024-25 budget includes $15.8 million in transfers out. This includes a transfer of $2.9 million to the Pension Reserve Trust Fund to assist in funding future pension contributions, funded by FY2022-23 year-end budget surplus; $100,000 to the Litigation Reserve, increasing the reserve to $350,000 due to increasing litigation costs; $2.5 million to the Strategic Improvement Fund (SIF) to fund future projects consistent with SIF objectives; and $791,363 to support the Youth Development Fund with program losses due to state and Roseville City School District subsidized program requirements and building related expenses. A summary of all transfers out is available in the Appendices.

Non-Recurring Expenditures

Non-recurring expenditures include projects that are related to special studies. For example, full-cost projects related to engineering projects, such as traffic studies, are pass-through expenses funded by developer contributions.

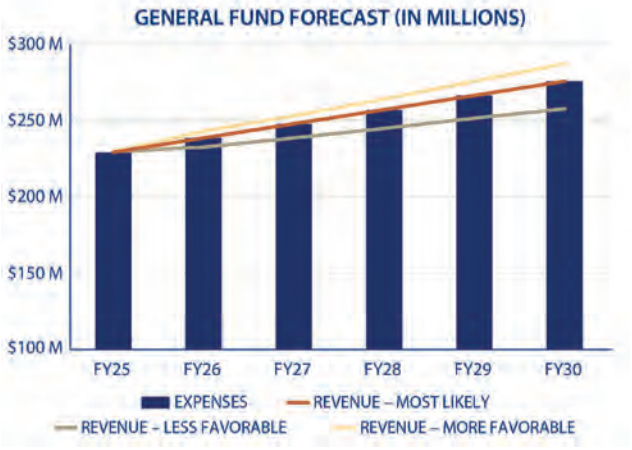

General Fund Forecast

With continued uncertainty surrounding the economic outlook, and while the Federal Reserve waits for inflation to retreat further before lowering interest rates, the City continues to remain optimistic about the future. The FY2024-25 budget maintains General Fund reserves at City Council's policy target levels and continues to pay down long-term obligations to create future budget capacity.

The City's FY2024-25 General Fund budget is based on $99.6 million of sales tax revenue, including $29.2 million from the Measure B half-cent sales tax. Measure B sales tax revenue continues to help stabilize General Fund services, protect Roseville's quality of life, and build up additional reserves to weather future economic downturns.

The following graph shows forecasted General Fund revenues and expenditures for FY2024-25 to FY2029-30 based on the City's base case (or most likely) forecast. The General Fund forecast is based on maintaining the service levels included in the FY2024-25 budget over the next five years. The City's sales tax forecast assumes taxable sales return to a slower and more

traditional growth rate between 2.0 percent and 3.8 percent. Property tax revenue is forecast to grow slower, but still at a rate above the Proposition 13 maximum rate increase of 2 percent due to new growth and higher assessed values when property ownership changes. The City assumes modest salary increases in the forecast based on negotiated labor agreements and its general pay philosophy. Pension costs are forecasted based on the latest information from the CalPERS actuaries and Other Post Employee Benefits (OPEB) costs are based on the City's funding policy and information from the City's OPEB actuary. The forecast includes an increasing contribution toward deferred maintenance and rehabilitation of City assets based on the Council-adopted Capital Improvement Program Rehabilitation Funding Policy. The forecast also includes additional positions each year to meet the increasing demand for services as the City grows. The forecast below reflects moderated expenditure growth based on available revenues to maintain balanced budgets.

The City's base case forecast does not consider the next economic recession; however, staff present a sample recession scenario to the City Council each year to highlight the importance of long-term financial planning. The City's forecast includes revenue and expenses based on current law and policy but does not include events or changes that are uncertain in the future. Examples of future changes not included are increases in tax revenues resulting from new residential development or new retail businesses such as the new Costco planned for the Baseline Marketplace. Because the forecast is based on many assumptions about future economic conditions, the City also develops revenue forecasts that are more optimistic and more pessimistic than the base case forecast to demonstrate the uncertainty of revenue projections and alternative future outcomes.

From the base case forecast in the graph, the projected expenditures will catch up to forecasted revenue in FY2026-27. However, as stated above, additional tax revenues expected in the future, but conservatively not included in the forecast, should delay expenditures catching up with revenues and postpone potential draws from reserves. To address this future uncertainty, Roseville will continue to maintain reserves at Council targets and closely manage expenditures, as it remains focused on fiscal responsibility.

General Fund Emergency Reserve Fund

By policy, the City maintains a reserve of at least 10 percent of total estimated General Fund operating expenses in the General Fund Emergency Reserve Fund. The Emergency Reserve may be used to contend with significant short-term issues such as declared emergencies. It is the intent of the Council to limit the use of the Emergency Reserve to addressing unanticipated, non-recurring needs. The FY2024-25 budget includes a transfer of approximately $1.8 million from the General Fund into the Emergency Reserve to bring the total reserve balance to $22.3 million or 10 percent of the General Fund's budgeted operating expenditures.

General Fund Stabilization Reserve Fund

The General Fund Stabilization Reserve Fund may be used strategically to allow time for the City to restructure its operations in a deliberate manner as required in an economic downturn while minimizing service disruption. Use of the Stabilization Reserve will only take place in the context of a Council-adopted long-term plan. The Stabilization Reserve is intended to be used to address significant revenue shortfalls that occur during an economic downturn until the City's operating expenditure and revenue levels are adjusted to eliminate structural deficits.

The FY2024-25 budget includes a transfer of approximately $2.7 million from the General Fund into the Stabilization Reserve to bring the total reserve balance to $33.4 million or 15 percent of the General Fund's budgeted operating expenditures.

General Fund Capital Reserve Fund

The General Fund Capital Reserve was established in FY2022-23 and is used to reserve one-time funding for significant capital projects.

General Fund Contributions by Developers Fund

The revenue source for this fund is from non-construction contributions from developers and is used to support General Fund operations as necessary.

Strategic Improvement Fund

The Strategic Improvement Fund (SIF) was established to provide strategic support for the General Fund including Council-approved land acquisition and CIPs in other funds that would eventually yield General Fund revenue. The major revenue source is a Community Benefit Fee. The FY2024-25 Budget includes a transfer of $2.5 million into this fund from the General Fund for future projects that are consistent with SIF objectives.

Litigation Reserve Fund

The Litigation Reserve Fund contains funds set aside for legal matters that are unforeseen and unusual and, as a result, require reactive measures such as seeking a budget adjustment and funding source. Some examples are contract disputes, municipal code enforcement, and other public safety enforcement matters. The purpose of this fund is to address these situations by allowing for proactive handling and funding of such issues. The revenue source for this fund is transfers from other City funds. The fund has maintained a balance of $250,000 since it's inception. The FY2024-25 budget includes a transfer from the General Fund of $100,000 to increase the balance to $350,000 due to increasing litigation costs.

Stormwater Fund

The Stormwater Fund is a program developed by the City to improve water quality within local creeks. Under this program, the City educates and involves the community in stormwater pollution prevention, requires water quality facilities in development projects, regulates stormwater run-off from construction sites, investigates non-stormwater discharges, and reduces non-stormwater run-off from municipal operations.

Revenue

The main funding sources are transfers from the General Fund from Community Facilities Districts funds.

Expenses

More than half of the fund expenses are dedicated to staff working in the program. The remaining budget is comprised of materials, services, and supplies including professional services, advertising, tools, training and travel, and other internal charges.

Fund Summary

1001 - General	FY2021-22 Actuals ($)	FY2022-23 Actuals ($)	FY2023-24 Amended Budget ($)	FY2024-25 Budget ($)

(A)

This chart compares the total General Fund operating expenses with the amount that is funded with unrestricted sales, property and other tax revenue. It shows that of the total $229.1 million **(A)** in budgeted operating expenses:

- $45.3 million **(B)** are funded by revenue offsets,
- $183.8 million **(C)** are funded by unrestricted sales, property and other tax revenue.

Of the $229.3 million General Fund operating revenues, $45.3 million is restricted to particular programs and projects, and $184 million is unrestricted. After spending $28.1 million **(D)** of the $184 million in total unrestricted sales, property and other tax revenue on non-discretionary expenses, the City Council has $155.9 million at its discretion. After funding Police and Fire (with $91.3 million **(E)** of sales, property and other tax revenue), there is $64.6 million remaining for City Council to fund the rest of the City's operations. Of the $64.6 million in remaining discretionary funding, $64.4 million is funding operations and $200,000 is funding one-time non-operating expenditures.

How Taxes and Other Revenue Are Used in the General Fund

Revenue Offsets $45.3 M						Net Use of Sales, Property and Other Taxes *(expenses minus revenue offsets)*

Electric Funds Overview

Electric Funds Overview

Roseville Electric Utility is a community-owned utility that provides reliable electricity to Roseville residents and businesses. The enterprise funds associated with the utility are the Electric Fund and the Electric Rate Stabilization Fund.

Revenue

The primary source of operating revenue in the Electric Fund is retail electricity sales to residential and business customers. Capital revenues include Contributions in Aid of Construction and the Electric Backbone Mitigation Fee, which recover the costs of designing and installing new electric infrastructure. Other revenue sources include interest earnings, wholesale power sales, and proceeds from selling low-carbon fuel standard credits.

Operating Expenses

Operating expenses represent the cost of acquiring and delivering electricity to City customers. The cost of acquiring and generating power is the largest utility expense. Other expenses include engineering, construction and maintenance, customer and government relations, utility billing, traffic signals, administration, and shared City services and technology projects. As provided under the City Charter, the utility pays an in-lieu of franchise fee of 4 percent of total operating and capital expenditures to the City to fund police, fire, parks, recreation, and library services. The utility also shares in the funding of the City's Utility Exploration Center with the Environmental Utilities Department.

Capital Expenses

The utility's Capital Improvement Program provides for the acquisition, expansion, and rehabilitation or modernization of electric utility distribution and generation infrastructure.

Debt

Electric utility debt is related to bonds issued to build the Roseville Energy Park (REP) and portions of the distribution system.

Opportunities to lower costs by refunding or refinancing debt are monitored and acted on when advantageous for the utility.

Environmental Utilities Funds Overview

Environmental Utilities Funds

Environmental Utilities (EU) is a group of rate-based utilities that provides water, wastewater and recycled water, and waste services to Roseville residents and businesses.

The water, wastewater, and waste services operating funds account for most of each utility's financial resources. Their primary source of revenue is the rates paid by customers. Per Proposition 218, EU's rates cannot exceed the cost of providing services.

Each of these funds pays for a portion of services shared across EU: engineering, data management, safety, business services, public information, utility billing, and the Utility Exploration Center (a joint effort with Roseville Electric Utility).

Each utility has operating, construction, and rehabilitation capital programs, typically including technology, facilities, and industry-specific infrastructure.

Water Funds

The rate-based Water Operations Fund provides for the purchase, treatment, and delivery of water to the Roseville community, which includes operation of the City-owned water treatment plant and water storage, water efficiency programs, and reimbursed expenditures. The budget also includes costs for the new Utility Operations Center (in partnership with the Waste Services Utility), water distribution system maintenance, government relations, hydrogeology, new regulatory requirements, reliability planning, water security and resiliency improvement, and a set-aside for future rehabilitation and replacement. Other water funds are:

- Water Rate Stabilization Fund
- Water Construction Fund
- Water Rehabilitation Fund
- Water Meter Retrofit Fund

The City must meet debt service coverage related to long-term debt as part of a rate covenant made to bondholders. The rate covenants outlined in the Certificates of Participation (COPs) issued in 2007 and refunded in 2015 for water capital improvement projects require a minimum debt service coverage ratio of 120 percent. While connection fees are the primary source for payment of debt service, water utility revenue is the ultimate security for repayment of debt.

Wastewater Funds

The Wastewater Utility collects and treats wastewater for Roseville and its regional partners (South Placer Municipal Utility District and Placer County) at its two City-owned wastewater treatment plants. The utility has

also been designated a regional provider of recycled water for areas in the City and Placer County. The rate-based Wastewater Operations Fund provides for all operational costs, reimbursed expenditures, and a set-aside for future infrastructure rehabilitation and replacement. Other wastewater funds are:

- Wastewater Rate Stabilization Fund
- Wastewater Construction Fund
- Wastewater Rehabilitation Fund
- Wastewater Regional Rehabilitation Fund

As a partner in the South Placer Wastewater Authority (SPWA), a joint powers authority, the City is obligated to meet specific debt service coverage ratios related to long-term debt. The rate covenants, as outlined in bond documents and State Revolving Fund documents where debt was issued for wastewater capital improvement projects, require a minimum debt service coverage ratio of 110 percent. While connection fees are the primary source for payment of debt service, wastewater utility revenue is the ultimate security for repayment of the City's portion of the debt.

The Wastewater Regional Rehabilitation Fund was created in FY2020-21 to track annual contributions for regional wastewater rehabilitation projects from the City's SPWA partners (South Placer Municipal Utility District and Placer County) as well as to track project costs.

Waste Services Funds

Waste Services collects, recycles, and disposes of refuse for residential and commercial customers, and oversees the maintenance of the closed Roseville Sanitary Landfill.

The rate-based Waste Services Operations Fund provides for these operational costs, regulatory compliance, and the implementation of programs to increase diversion from the waste stream. The budget also includes costs for the new Utility Operations Center (in partnership with the Water Utility), Waste Services comprehensive software solutions, and a set-aside for the rehabilitation and replacement of existing cans and bins. Other Waste Services funds are:

- Waste Services Rate Stabilization Fund
- Waste Services Capital Purchase Fund
- Waste Services Rehabilitation Fund

Transportation Funds Overview

The Transportation Funds are used for transit, bikeway and Transportation Systems Management (TSM) programs and projects, and street and road improvements, such as roadway resurfacing. The three enterprise funds that comprise the Transportation Funds are:

- **Transit Fund** - This fund supports transit operations (including services for older adults and people with disabilities), maintenance, and capital improvements.
- **Transportation Fund** - This fund supports bikeway development and maintenance, bicycle education programs, and the TSM Program. This fund also supports roadway resurfacing and pedestrian improvements when funds are available.
- **Consolidated Transportation Service Agency (CTSA) Fund** - This fund supports the South Placer Transit Information Center (the Call Center) and the Mobility Management Programs, which are services provided by the City of Roseville on behalf of the Western Placer Consolidated Transportation Services Agency (WPCTSA).

Revenue

State sales taxes, passenger fares, and federal grants typically account for most of the revenues in the Transportation Funds. Two key revenue sources allocated to the City's Transportation Funds each year are derived from the Transportation Development Act (TDA). These are revenues from the State Transit Assistance (STA) and Local Transportation Funds (LTF) accounts. The LTF allocation to the City of Roseville is derived from a quarter-cent general sales tax collected in Placer County and distributed based on the City's population. LTF must be used to meet all transit needs determined to be reasonable before funds can be diverted to bikeway, TSM, or roadway improvements.

The STA allocation is derived from the statewide sales tax on diesel fuel and is distributed using a formula based on population and transit fare revenues. Two transit revenues are derived from Senate Bill 1 (SB 1). One of the SB 1 sources augments the STA allocation and, like STA, is derived from fuel excise taxes. Roseville has applied for SB 125 funds administered by CalSTA through the Transit and Intercity Rail Capital

Program (TIRCP) to fund transit operations and capital improvement projects. A program called State of Good Repair (SGR) was also created by SB1 and is funded by State Transportation Improvement fees on vehicle registrations. Passenger fares, federal, state and local grants, and bus advertising are other sources of revenue.

FY2024-25 transit revenues also include federal and state grant funding. Over $11.6 million in Federal Transit Administration (FTA) 5339(c) Low or No Emission Competitive grant funding was awarded to support the purchase of seven electric commuter buses (to replace existing diesel commuter buses) and eight electric cutaway buses (to replace existing gas-powered vehicles). State funding through the Low Carbon Transit Operations Program provided $1.1 million to assist with electrification efforts and support the transition to a zero-emission fleet. Funding for the CTSA programs is provided by the WPCTSA whose funds are derived from the TDA and managed by the Placer County Transportation Planning Agency.

The regional Active Transportation Program (ATP) has awarded $4.5 million to assist with constructing and implementating of the Dry Creek Greenway East (DCGE) Trail Project.

Expenses

Seventy five percent of all operating expenses in the Transportation Funds are for Roseville Transit operations, such as contractor expenses, vehicle maintenance, fuel, and administration. The other 25 percent of operating expenses are for bikeway and pedestrian planning and education, TSM programs, safe routes to school programs, the crossing guard program, Public Works communications, and engineering. A significant share of the Transportation Funds support capital projects for transit, bikeways, bike trail resurfacing, and road maintenance.

Fund Summary

Youth Development Fund Overview

The Parks, Recreation & Libraries Department operates Adventure Club and preschool programs, which are accounted for within the Youth Development Fund.

Youth Development programs provide safe, engaging, and memorable experiences for Roseville children and families. The Adventure Club and preschool programs operate in partnership with the Roseville, Dry Creek, and Center School Districts to provide before and after school recreational opportunities through licensed childcare at 21 elementary school locations. Subsidized care programs are offered for qualifying families at locations eligible for grant funding.

One in five young people in the U.S. are alone after the school day ends. High-quality afterschool programs promote positive youth development and offer a safe space where youth can explore their potential. Afterschool programs support social, emotional, cognitive, and academic development, reduce risky behaviors, promote physical health, and provide a safe and supportive environment.

Additionally, afterschool programs are critical to the community's economic health. Working families and businesses benefit from afterschool programs that ensure youth have a safe place to go while parents or guardians work. Parents and guardians who do not have access to quality and convenient childcare miss an average of eight days of work per year, decreasing productivity and costing millions annually.

Revenue

Youth Development Fund revenue is derived from fees collected for before and after school programs and preschool programs. The fund includes Adventure Club, preschool, After School Education & Safety (ASES), and subsidized care programs. Fund expenses include charges for staff, enrichment contractors, facility maintenance and rehab, materials and supplies.

Through a memorandum of understanding (MOU) with the Roseville City School District, the District reimburses the City for costs to provide the ASES after school program at Cirby and Woodbridge Schools. Because the agreement provides significant benefits to participating families, the Youth Development Fund subsidizes costs associated with these programs above the amount reimbursed by the District.

Youth Development Fund Overview

The FY2024-25 budget allocates a General Fund subsidy of approximately $791,000 to cover the costs of the subsidized programs exceeding the amount reimbursed by the District. Additionally, this subsidy covers building-related expenses, including interfund loan payments for Adventure Club Buildings.

Expenses

Direct expenses include staff salaries, facility maintenance, enrichment contractors, materials and supplies. Indirect fund expenses include post-retirement insurance, City indirect charges, Internal Service Fund charges, and loans.

Debt

An interfund loan currently exists within the Youth Development Fund. The loan encompasses the following: an accounts receivable balance payoff loan was necessary in FY2013-14, and the fund needed a loan to purchase the Fiddyment Farm facility in 2015, the Orchard Ranch facility in FY2017-18, the Riego Creek facility in FY2020-21, and two new sites, Westbrook and Rex Fortune, in FY2022-23. The loan is scheduled for payoff in 2047.

Capital Improvement Program (CIP)

Significant investment is needed into aging Adventure Club facilities. Funds for HVAC repair, roof replacement, flooring replacements, exterior paint, Americans with Disabilities Act (ADA) ramp repair/ resurfacing, etc., are being considered by the City Council in FY2023-24 from FY2022-23 General Fund surplus funding. The available program fees are insufficient to cover the expenses associated with capital improvements, new building construction, and operational costs of the programs.

Special Revenue Funds Overview

These funds are established to collect money that must be used for a specific purpose. Special Revenue Funds provide an extra level of accountability and transparency to ensure that funds are spent for their intended purpose. Special Revenue Funds are:

- Affordable Housing In Lieu and Program Equity Fund
- BEGIN Fund
- Cable TV Peg Funds
- CalHome Fund
- Community Development Block Grant Fund
- Federal Asset Seizure Fund
- Federal Stimulus Reserve (ARPA) Fund
- Forfeited Property Fund
- Golf Course Funds
- Grants Fund
- Highway Users Tax (HUT) Fund
- HOME Investment Partnership Program Fund
- Housing Successor Low Mod Fund
- Housing Trust Fund
- Landscape & Lighting and Services District Funds
- Native Oak Tree Propagation Fund
- Non-Native Tree Propagation Fund
- Open Space Fund
- Opioid Settlements Fund
- Police Evidence Fund
- Road Maintenance and Rehabilitation Account (RMRA)Fund
- Roseville Aquatics Maintenance Fund
- State Gas Tax Fund
- Supplemental Law Enforcement Fund
- Technology Replacement Fund
- Traffic Safety Fund
- Trench Cut Recovery Fund

Following are details for three of the larger Special Revenue Funds presented in this section (Highway Users Tax Fund, RMRA, and Golf Course Operations Funds).

Highway Users Tax (HUT) Fund and Road Maintenance and Rehabilitation Account (RMRA) Fund

The HUT Fund, along with the RMRA Fund, are the City's primary sources of funding for the street maintenance program, which includes maintenance of pavements, curb and gutter, sidewalks, and roadway drainage systems.

Revenue

The source of annual revenue for the HUT and RMRA funds is the State Excise Tax paid at the gas pump. RMRA funds are a result of the 2017 passage of Senate Bill 1, which established an additional gas tax in California for road maintenance purposes. Other sources of road maintenance revenue include the Roadway Fund, which derives its annual revenue from Utility Impact Reimbursement (UIR) funds paid by Environmental Utilities for their impact on the City's roadway network, Transportation Development Act funds remaining after funding the City's Transit needs, and Federal Regional Surface Transportation Program (RSTP) funds from the Federal Excise Tax (Federal Gas Tax) paid at the pump. The amount of HUT and RMRA revenue the City receives is a function of Roseville's population and roadway miles. As the City grows, the HUT and RMRA Fund revenues will increase accordingly. Roadway Fund revenues are a function of the actual cost of the previous year's resurfacing work (UIR portion) and the cost of meeting the City's transit needs (TDA portion). RSTP funds have also historically been awarded based on Roseville's population and roadway miles but will become competitively awarded by the Sacramento Area Council of Governments (SACOG) in alignment with Statewide goals, and will likely decrease, beginning with FY2027-28.

Expenses

These funds include costs for staff, materials, and equipment. Also included are the roadway resurfacing contracts that are put out to bid each year. For roadway resurfacing, it is most cost-effective for the City crews to perform the prep work (crack filling, pothole repair, etc.) and then contract out the application of the resurfacing material.

The City has invested over $1 billion in street infrastructure, so it is critical to protect that investment. The City's goal is to maintain arterial and collector streets at a Pavement Quality Index (PQI) of 72 or better, and 65 or better for residential streets. PQI is a measure from 1 to 100, with 100 representing a brand new street. Having high quality street pavement is a key element in maintaining the high-quality of life Roseville citizens and business owners have come to expect. Approximately $3 million per year of additional revenue would be required for the next eight to 10 years to achieve this goal for all streets in Roseville.

Special Revenue Funds are funds that are established to collect money that must be used for a specific purpose.

Special Revenue Funds Overview

Golf Course Funds

The City owns two municipal golf courses, operated and maintained by contracts and managed by the Parks, Recreation & Libraries Department. Woodcreek Golf Club is an 18-hole championship course with a lighted driving range, restaurant, and banquet facility designed to provide the public with a country club-like experience. Diamond Oaks Golf Course is an 18-hole traditional municipal course designed to ensure recreational golf is available to the public. Both courses provide a variety of golf opportunities for City residents and neighbors. The Golf Course Funds are the special revenue funds associated with the golf courses.

Revenue

The most significant source of revenue is generated through user fees for course play. Additional revenue is derived from cart rental and driving range sales. Revenue generation related to golf industry economics is highly dependent upon customers' desire to expend their disposable income on recreational golf. Golf rounds and driving range use increased from 2020 to 2023; however, the surge in rounds and revenues are beginning to stabilize in 2024. Revenue growth in this fund is still forecasted to increase in FY2024-25 as new golfers in various demographics continue to join, including youth, teens, and young adults.

Expenses

The primary fund expenses are golf course and facility maintenance and utilities. Although City staff manages course contracts, no staff are employed directly at the courses. The existing General Fund subsidy will continue in FY2024-25 but is reduced because the municipal bonds that financed construction of Woodcreek Golf Club have been paid off.

Debt

The construction of the Woodcreek clubhouse and Diamond Oaks improvements were financed through interfund loans.

Capital Improvement

Minor course repairs and improvements are budgeted through the operations budget, while more significant repairs and renovations are funded through capital improvement projects. Both courses are aging and need significant renovation and repair. A golf course improvement plan is under development and the FY2023-24 budget included $1 million for rehabilitation of the golf courses. A bunker renovation design at Woodcreek Golf Club has been completed, with construction planned for late 2024 and early 2025.

Capital Project Funds Overview

Capital Project Funds Overview

These funds are used to account for financial resources to be used for the construction or maintenance of major city facilities. Capital Project Funds are:

- Air Quality Mitigation Fund
- Al Johnson Wildlife Area Fund
- Bike Trail Creekview Fund
- Bike Trail Fund
- Blue Oaks Blvd Fee Fund
- City County Mitigation Fund
- Citywide Park - Sierra Vista SP Fund
- Citywide Park - West Roseville SP Fund
- Citywide Park Fund
- Citywide Park In Lieu Fund
- Community Facility District Capital Project Fund
- Downtown Benefit Fund
- Downtown Parking Fund
- Fire Facilities Fund
- Neighborhood Park Funds (All)
- Parks and Recreation Fee Funded Projects Fund
- Parks Recreation and Library Capital Projects Fund
- Pleasant Grove Drainage Basin Fund
- Project Play Fund
- Public Facilities Fund
- Roadway Fund
- SVSP Fee Program - Admin Fund
- SVSP Fee Program - Park Land Fund
- Traffic Benefit Fee Fund
- Traffic Coordination Fund
- Traffic Mitigation Fund
- Utility Impact Reimbursement Fund
- Westpark Drive Fee Fund

The following are details for three more significant Capital Project Funds presented in this section (Park Development Funds, Traffic Mitigation Fund, and Fire Facilities Fund).

Park Development Funds

The City of Roseville specific plans require each plan area to provide for the development costs of citywide/regional parks, neighborhood parks, school parks (parks adjacent to school sites), and in some areas, bike trails. The specific plan development agreements and accompanying financing plans set the parameters for the future collection of park development fees and ensure the amount and types of park facilities are constructed for each plan area. Different funds account for the fees, which cannot be used for any other purpose or in areas outside of a specific plan, except in the case of citywide funds explicitly allowed in a development agreement.

The primary sources of revenue are development fees, which are assessed at building permit issuance (unless deferred to occupancy phases). These include citywide (e.g., Citywide Park – West Roseville Fund and In-lieu (of land and development) Park Fund), and neighborhood park (e.g., Neighborhood Park Fund) development fees, and bike trail fees (e.g., Bike Trail Creekview Fund). The primary fund expenses are the Capital Improvement Program (CIP) for new citywide parks, neighborhood or school parks, or bike trail development. Typical costs include design, grading, underground, construction, permits, inspections and City indirect and direct costs.

Interfund loans are sometimes used to bridge the timing gap between the collection of fees and CIP construction.

Traffic Mitigation Fund

The Traffic Mitigation Fund is the City's primary source of funds for capacity improvements to the roadway network. The source of revenue for the Traffic Mitigation Fund is traffic impact fees paid by developers when they are issued building permits. The fee is based on the amount of traffic generated by land development and the cost of the roadway projects in the roadway-related CIPs. This method complies with Assembly Bill 1600, which requires a nexus between the impact fee and the impact caused by land development. Although traffic impact fees paid by developers comprise the majority of revenues for capacity improvements to the City's roadway network, the City also participates in federal and state grant programs when available.

The City's roadway Capital Improvement Program is comprised of just over $500 million in roadway improvements that have been identified as being needed to handle the volume of traffic once Roseville is completely built out and areas surrounding Roseville are developed to market levels in the future (typically around twenty years into the future). Traffic modeling software is used to forecast those future traffic volumes. In determining the projects for the CIP, the City targets the threshold for traffic congestion as adopted by the City Council, which is to maintain a Level of Service C or better during the p.m. peak hour at 70 percent or more of signalized intersections.

The citywide roadway capital improvement and traffic impact fee program was adopted by the City Council in 1989. Since then, the City has made a significant investment in roadway improvements. Examples of some of the major roadway CIPs that have been constructed are:

- Harding Boulevard overcrossing (over Atlantic Street)
- Old Auburn Road realignment
- Pleasant Grove overcrossing (over the Union Pacific railroad tracks)
- Atlantic Street widening
- Roseville Parkway/I-80 overcrossing
- Douglas Boulevard/I-80 tunnel and flyover
- Fiddyment Road widening
- Eureka Road/I-80/Taylor Road improvements
- Blue Oaks Boulevard widening (from four to six lanes)

- Intelligent Transportation System (ITS) and Traffic Operations Center (TOC)
- Roseville Road widening from Cirby Way to the city limits
- Woodcreek Oaks Boulevard widening from Canevari Drive to Crimson Ridge Way
- Partial widening of Washington Boulevard (from Sawtell Road to Kaseberg Drive and Diamond Oaks Road to Pleasant Grove Boulevard)

Since traffic impact fees are paid when building permits are pulled, the Traffic Mitigation revenue stream varies each year based on the rate of land development. When land development is booming, Traffic Mitigation revenues can range from $10 million to $11 million per year. When land development is slow, Traffic Mitigation revenues hover around $1 million to $1.5 million per year. During a down economy, saving enough money to construct roadway projects takes longer. But a lower rate of land development means traffic volumes are growing more slowly.

Fire Facilities Fund

The Fire Facilities Fund was established in 1984 to account for the fire service construction tax. This tax was established to fund the additional fire service facilities and equipment needed to provide services for new development. The tax ended on December 31, 2009; however, the terms of the tax, in the form of a fee, continue to survive in various development agreements.

Revenue

The majority of revenue comes from the development agreements that require the collection of the fee calculated by multiplying 0.005 by the valuation of the structure for which the permit application is made. It is due at the time of the permit application and is a condition for obtaining a building permit.

Expenses

The fund expenditures can only be used for the construction, reconstruction or repair of fire facilities, or the acquisition, repair, or maintenance of fire equipment related to new development. Historically, the fund has been the primary source of funding for fire station construction projects and the purchase of additional apparatus. This funding source is being used to build the new Fire Station 8.

Permanent Fund

Permanent Funds account for resources that are restricted to the extent that only earnings, and not principal, may be used for purposes that support the City's programs. These funds must remain intact perpetually or until a specific date or event. The City's only Permanent Fund is the Citizens Benefit Fund. This fund provides community and Roseville Employees Charitable Hearts (REACH) grants to non-profit organizations throughout the City. The primary source of annual revenue comes from interest and City of Roseville employee donations. Ordinance 3388, Section 4.06.040 allows the City Council to appropriate up to 90 percent of the prior year's annual interest earnings.

Custodial Funds

These funds account for assets held by the City as an agent for individuals, governmental entities, and non-public organizations. Some are used for public infrastructure improvements and maintenance financed by special levies against property holders. They are secured by special taxes assessed on the property owners within the district to pay the principal and interest on the bonds.

Trust Funds

These funds are restricted for specific programs and purposes in accordance with a statute that designates the fund as a trust. Trust Funds are:

- **OPEB Trust Fund** – used to account for assets held by the City as a trustee agent for the members and beneficiaries of other post-employment benefit (OPEB) plans (retiree medical insurance). Investment income is based on a long-term actuarial assumption of 6.25 percent and may include income earned and realized and unrealized gains/losses.
- **Pension Reserve Trust Fund** – used to account for assets held by the City as a reserve to help manage future increases in required pension contributions. This budget includes a transfer of $2.91 million from the General Fund.
- **Private Purpose Trust Funds** – a collection of trust funds including the Library Endowment Fund and various urban reserve funds.
- **Successor Agency to the Former RDA Fund** – is responsible for unwinding the affairs of the former Redevelopment Agency (RDA). The Successor Agency will continue to oversee the completion of redevelopment projects, dispose of assets and properties of the former RDA and meet its enforceable obligations. A seven-member Oversight Board approves the annual Recognized Obligation Payment Schedule (ROPS) that determines the amount of property tax increment the Successor Agency receives to pay its annual debt service and other enforceable obligations.

Internal Service Funds and Self-Insurance Funds

These funds are used to account for the financing of goods and services provided by one City department to other City departments on a cost-reimbursement basis.

Internal Service Funds are:

- **Fleet Replacement Fund** - provides automotive replacement services for the City's fleet.
- **Fleet Services Fund** - provides maintenance and supplies to the City's fleet.
- **Facility Rehabilitation Fund** - provides for rehabilitation of City facilities.
- **Facilities Services Fund** - provides building maintenance and custodial services to all departments citywide.
- **Equipment Replacement Fund -** provides for the replacement of equipment for General Fund departments.
- **IT Operations Fund** - provides information technology support and services for digital communication, database and cloud, network infrastructure, business solutions, Geographic Information System (GIS), client services, and enterprise solutions to all departments citywide.
- **IT Replacement Fund** - provides for rehabilitation or replacement of the City's information technology infrastructure.

Self-Insurance Funds are:

- **General Benefits Fund**
  - Dental Insurance Fund
  - Vision Insurance Fund
  - Section 125 Fund
- **General Liability Fund**
- **Workers' Compensation Fund**
- **Unemployment Insurance Fund**

These Self-Insurance Funds provide services and benefits to the City and its employees on a cost-reimbursement basis. The primary source of revenue is a premium charged to funds that include city salaries.

Fund Summary - End Notes

[1]

Prior Year Encumbrance Carryover

Prior year encumbrance carryovers are included as operating revenue since they represent the reserve set aside to cover the carryover expenses/expenditures from the prior year. The beginning fund balance has been adjusted down by the amount of these reserves.

[2]

Prior Year Project Carryover

Prior year project carryovers are included as non-operating revenue and expenditures/expenses since they represent the reserve set aside to cover prior year project budgets. The beginning fund balance has been adjusted down by the amount of these reserves.

400043 - Electric 60kV Power Line Restringing	12,607	198,538	-	149,069	390,069	-	299,000
400085 - Roseville Power Plant 2 Rehabilitation	782,605	62,752	-	869,853	866,705	-	-
400091 - 800 Mhz Radio System Replacement	30,689	-	-	30,689	30,689	-	-
400112 - Zero Liquid Discharge Improvements	975,654	1,014,574	-	161,079	16,324	-	-
400113 - Electric Advanced Metering Infrastructure	7,169,891	3,183,284	-	3,986,607	15,396,936	-	-
400114 - Sierra Vista Substation	2,178	-	-	(13)	(13)	-	-
400115 - Supervisory Control and Data Acquisition (SCADA) Cybersecurity	219,654	-	-	309,654	309,654	-	-
400116 - Electric Dispatch Center	361,570	31,348	-	1,230,222	1,230,222	-	-
400151 - Balance of Plant Rehabilitation	774,812	76,202	-	698,610	562,662	-	-
400152 - Turbine and Heat Recovery Steam Generator Rehabilitation	625,401	554,348	-	71,053	428,144	-	-
400153 - Critical Systems Rehabilitation	420,414	20,785	-	399,629	-	-	-
500003 - Fiddyment KY4A Transformer Addition	270,909	-	-	(26)	(26)	-	-
500004 - Electric LED Streetlights Upgrade	967,907	1,502,334	-	865,573	865,573	-	-
500005 - Steam Turbine Enclosure	2,243,372	5,494	-	-	-	-	-
500036 - Security Phase II	6,150	1,902	-	4,248	4,248	-	-
500037 - Wireless Replacement	8,601	-	-	-	-	-	-
500038 - Document Management System	5,961	-	-	-	-	-	-
500039 - Storage Replacement	2,398	-	-	-	-	-	-
500044 - Electric Grid Modernization	357,620	83,259	-	745,361	745,361	-	-
500045 - Electric Pleasant Grove 2 Substation Expansion	402,996	424,775	-	(21,779)	(21,779)	-	-
500046 - Roseville Power Plant 2 Switchyard Upgrade	647,485	3,243	-	644,242	644,242	-	-
500047 - Electric 12kV Recloser Dispatch Control	179,536	192,906	-	166,631	166,631	-	-
500048 - Electric 60kV Reconductor	12,075	122,556	-	374,519	449,519	-	-
500050 - Berry Street Disconnect Switch	(6,240)	-	-	(120)	(120)	-	-
500065 - Utility Exploration Center Interior Exhibit Refresh	112,209	146,452	-	765,757	765,757	-	-
500068 - Electric Street Light Relocation	35,806	101,376	-	57,430	210,430	-	206,000
500079 - Electric Landscape Improvements	734,851	451,212	-	283,639	283,639	-	-
500080 - FY2019-20 Civic Center Renovation and Restoration	1,980	-	-	-	-	-	-
500081 - FY2019-20 Electric Utility Renovation and Restoration	72,967	-	-	-	-	-	-
500083 - Automotive Services - Bus and Car Wash Replacement	478	-	-	-	-	-	-
500085 - FY2019-20 PRL Renovation and Restoration	2,314	-	-	-	-	-	-
500096 - Roseville Energy Park Rehabilitation	166,015	75,907	-	450,108	1,084,108	-	-
500097 - Electric Substation Security Upgrades	640,000	961	-	639,039	799,039	-	474,000
500120 - FY2020-21 Electric Utility - Renovation and Restoration	51,215	-	-	51,215	-	-	-
500127 - Martha Riley Library Building Controls and Boiler Replacement	1,941	1,891	-	-	-	-	-
500134 - ACI Network Improvements	2,912	-	-	2,912	2,912	-	-
500136 - Police Department Radio Tower Maintenance	3,349	-	-	3,349	3,349	-	-
500138 - Virtual Desktop Exploration	2,912	-	-	2,912	2,912	-	-
500139 - IT Security Enhancements	1,249	917	-	332	332	-	-
500140 - Telecommunications Software Upgrade	5,824	-	-	5,824	5,824	-	-
500160 - 116 S Grant Street Building Improvements	297,330	324,894	-	3,472,435	4,472,435	-	1,250,000
500174 - Electric 12kV Upgrade and Extension	367,146	210,210	-	1,214,936	1,214,936	-	1,044,000
500176 - Electric Wildfire Risk Mitigation	151,410	23,183	-	582,227	582,227	-	-
500177 - Roseville Energy Park Electric Boiler	1,962,841	-	-	-	-	-	-
500178 - Roseville Energy Park Gas Turbine Controls Upgrade	271,037	-	-	-	-	-	-
500179 - Roseville Energy Park Site Security	1,595,497	4,644	-	1,590,852	315,000	-	-
500180 - Human Resources Applicant Tracking System	11,669	4,870	-	6,798	6,798	-	-
500181 - Human Resources Performance Management System	8,253	-	-	-	-	-	-
500182 - Security Enhancements	14,560	14,538	-	22	22	-	-
500183 - Virtual Machine Server Infrastructure Replacement	84,420	84,281	-	138	138	-	-
500205 - FY2021-22 Riley Library - Facilities Rehabilitation	21,174	11,781	-	9,393	9,393	-	-
500208 - FY2021-22 Civic Center - Facilities Security	1,000	-	-	1,000	1,000	-	-
500209 - FY2021-22 Roseville Energy Park Exterior Paint	(47)	-	-	-	-	-	-
500212 - FY2021-22 Corporation Yard Building D - Roll Up Doors	923	799	-	124	124	-	-
500213 - FY2021-22 Civic Center - Renovation and Restoration	6,689	2,384	-	4,305	4,305	-	-
500218 - Industrial Switchgear No 1	790,822	1,232,903	-	76,920	76,920	-	-
500223 - 2090 Hilltop Generator Replacement	497,960	38,595	-	459,365	459,365	-	-
500226 - Traffic Signal Maintenance Shop Expansion	298,802	43,149	-	955,653	1,213,653	-	-
500228 - Electric - 60kV Bus Protection Upgrade	-	443,321	-	303,679	742,679	-	-
500229 - Electric - Cirby 12kV Switchgear Replacement	-	9,549	-	1,050,451	1,200,451	-	2,596,000
500230 - Electric Generation - Continuous Emissions Monitoring Rehab	-	-	-	600,000	600,000	-	-
500231 - Electric Generation - Duct Burners and Programmable Logic Controllers	-	4,564	-	1,782,436	1,011,427	-	-
500232 - Utility Billing - Customer Self-Service Web Portal and Mobile App	-	-	-	200,000	425,000	-	1,177,000
500234 - Citywide Content Management System Replacement	-	-	-	21,840	21,840	-	42,021
500235 - Citywide Plotter Replacement	-	18,416	-	6,190	6,190	-	-
500236 - Database Management - FTP	-	-	-	2,912	2,912	-	-
500237 - Phone System Upgrade	-	1,606	-	47,898	47,898	-	-
500238 - Security Incident Event Management (SIEM) & Phish Email Filtering Repl	-	-	-	14,560	14,560	-	-
500272 - FY2022-23 Civic Center - Facilities Security	-	-	-	3,821	3,821	-	-
500273 - FY2022-23 Martha Riley Library - Facilities Security Upgrades	-	177	-	1,762	1,762	-	-

Fund Summary - End Notes

Department Operating Budgets Overview

The Department Operating Budgets section contains the operational costs by department. The section begins with a Budget Summary by Department that outlines all department operating budgets and full-time equivalent (FTE) positions. Following the Budget Summary is a citywide organizational chart. Each department section contains an organizational chart that displays the overall structure of the department and an overview of services, accomplishments, City Council Strategic Plan efforts, key performance measures, workload measures, and budget highlights.

The Department Budget Summary provides position and expenditure/expense information over a three-year period: prior year actuals, current year adopted budget, current year amended budget, and the new budget year. Each department section contains a summary of positions and expenditures/expenses by major category, fund, and center or division.

The expenditures/expenses by major category summary are segregated into the following categories:

- Salaries and wages
- Benefits
- Materials, supplies, and services
- Internal reimbursements
- Capital outlay
- Transfers out

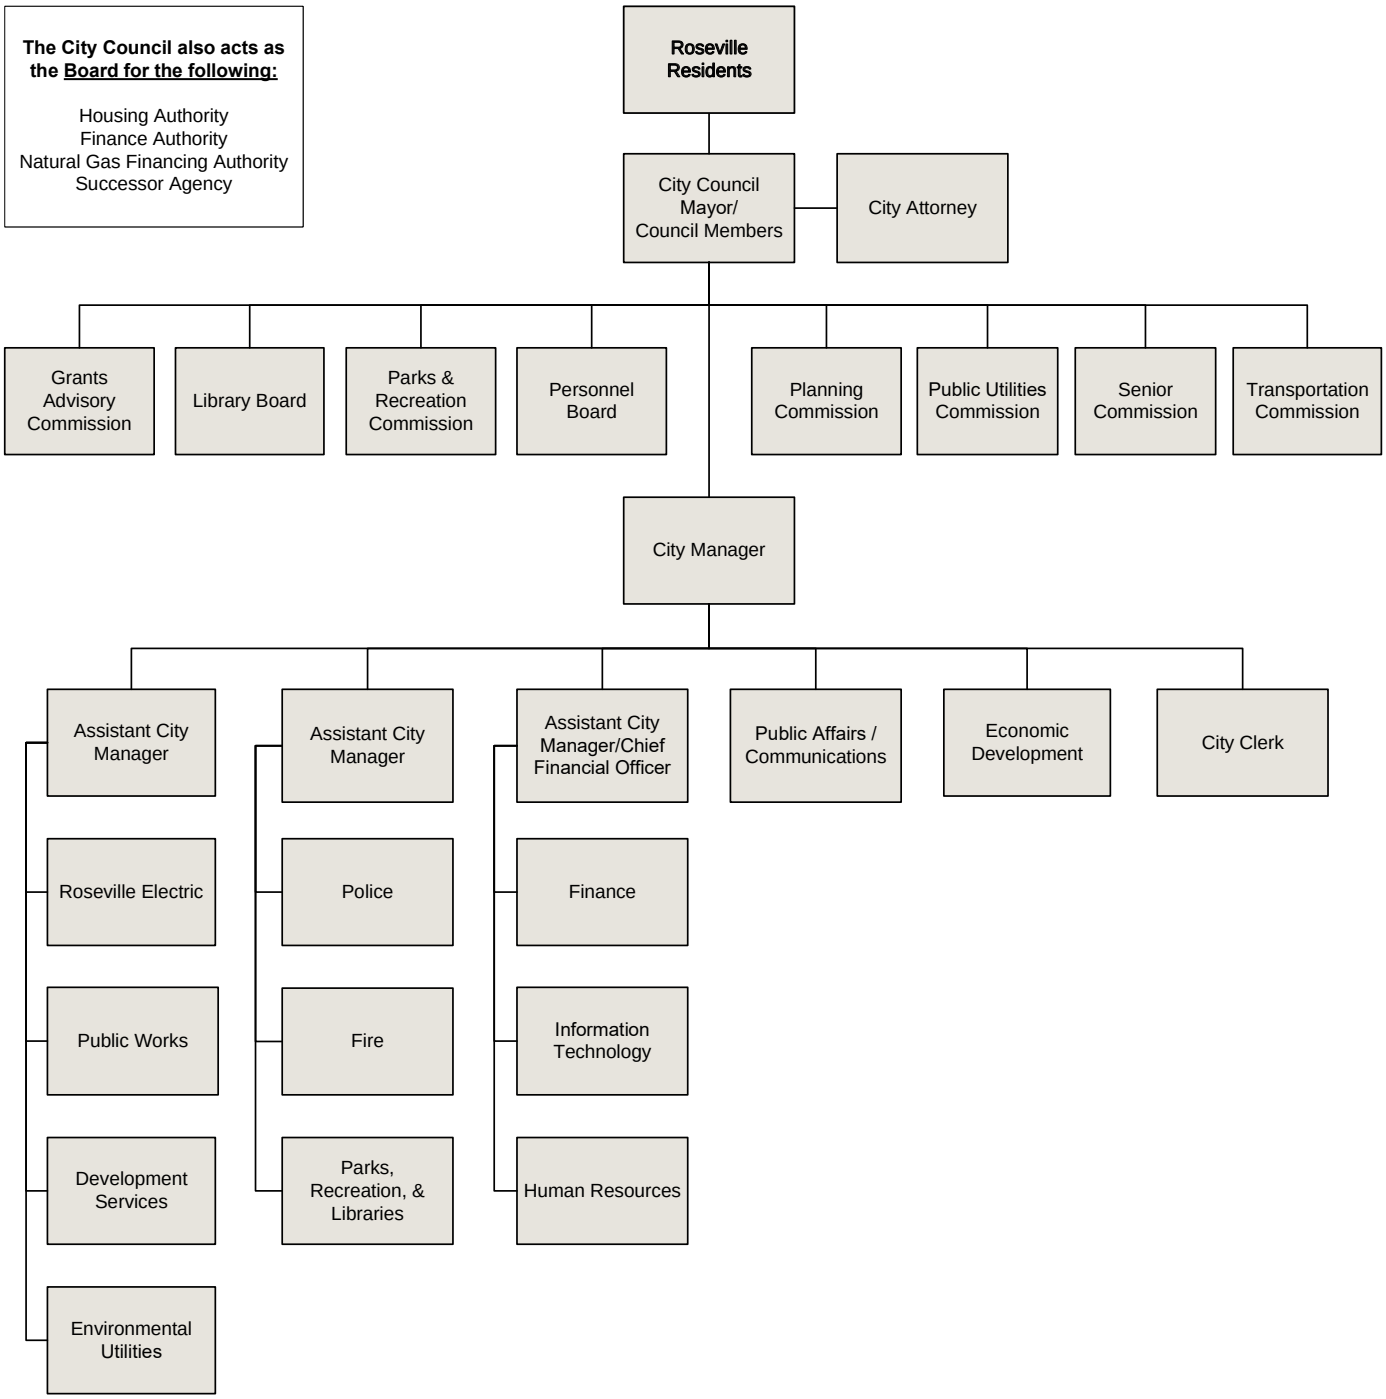

The salaries and wages and benefits categories include compensation and benefits paid to City employees. Materials, supplies, and services, are costs that are not capital related. Internal reimbursements are for expenditures/expenses charged to other departments, funds, or projects. Capital outlay expenditures result in acquisitions or additions to capital assets and represent a betterment or improvement. These expenditures typically have a life of more than one year and cost $5,000 or more.

Budget Summary by Department

City Clerk

City Council

Overview of Services

The City Council, as the elected body, adopts legislation, sets policy, adjudicates issues, and establishes the budget. The City Manager, the administrative head of the City government, implements City Council approved policies and laws. The City Council obtains direct citizen input from 14 Council-appointed boards and commissions. The Mayor and Councilmembers are accountable to the electorate and must balance the views of individuals and groups with the community's needs. Councilmembers achieve success with public policy issues facing the region by leading and collaborating with residents, businesses, and regional partners on issues of mutual interest.

Accomplishments

As the governing body for the City of Roseville, the City Council sets policy, diligently works toward common solutions, builds a sustainable future, provides perspective on critical issues, seeks community input, and works with the community to enhance understanding of City processes and issues.

Council Strategic Plan

In February 2024, the Roseville City Council held a public workshop to develop a four-year Strategic Plan to guide the City through Fiscal Year 2027-28. This plan reflects the City's commitment to providing a high quality of life for those in the Roseville community by delivering exceptional public services. It is a culmination of community engagement, a clear vision, and intentional decision-making.

The resulting plan describes the City's mission, vision and core competencies that guide the City's work. It includes overarching goals and specific strategies to support each goal. The plan is available at www.roseville.ca.us/government/city_council/strategic_plan_2025-2028.

The six goals that support the City's mission, vision, and core competencies are:

- Ensure a safe and healthy community
- Remain fiscally responsible in a changing world
- Enhance economic vitality
- Invest in well-planned infrastructure and growth
- Support community engagement and advocacy
- Deliver exceptional City services

Budget Highlights

The City Council's FY2024-25 budget totals approximately $253,000. This budget increased by more than $89,000 from the prior year due to increased membership costs for the Local Agency Formation Commission (LAFCO), Sacramento Area Council of Governments (SACOG), and National League of Cities (NLC). This is partially offset by increased internal citywide cost plan reimbursements.

City Manager's Office

Overview of Services

The City Manager's Office implements the City Council's vision and goals by aligning financial resources and administering City projects, programs, and services that support expressed City Council priorities. The City Manager makes policy recommendations to the City Council and oversees all City departments except the City Attorney's Office. The City Manager's Office also focuses on leadership; overall quality-of-life issues; fiscal accountability; internal and external communications; engagement with employees, the business community, neighborhood associations, residents, and regional governments; internal collaboration between departments; public/private partnerships; higher-education opportunities; and drives efficiency, innovation, and change within the City.

Accomplishments

- Led the City through significant financial, regulatory, and economic change while receiving some of the highest satisfaction ratings in the country from residents.
- Worked with labor groups on labor market adjustments to ensure the stability of the workforce and competitive compensation in a particularly tight labor market.
- Conducted City Council Strategic Planning Update Workshop.

- Created a comprehensive unsheltered plan for integrated City services and participated in regional homelessness initiative.
- Fully funded reserves and reduced pension liability.
- Managed various challenging issues with utilities and public works projects in dynamic financial, regulatory, and climate environments.

Focus Areas

- Addressing Community Growth: Costco development; Amoruso Ranch and Creekview specific plans; impacts on City services from Placer County growth including Placer One, Vineyards, Regional University; implementation of corridor plans; Phillip Road Site planning; Cokeva, Bosch, Kaiser, Sutter, and downtown project growth.
- Communication: Implementation of Customer Relationship Management (CRM), conduct National Community Survey, new resident FAQ site, increased outreach for capital improvement projects.
- Operations: Employee onboarding and training as long-tenured employees retire, succession planning, mentoring programs, organizational culture and leadership, and performance management metrics.
- Homelessness: Continue to refine and establish priorities and strategies, leverage interdepartmental operation and integration, and provide Council with a menu of options to address homelessness; use metrics to determine the effectiveness of physical and administrative strategies for implementation.

Budget Highlights

The City Manager's FY2024-25 budget totals approximately $1.6 million (an increase of 4.3 percent over the prior year) and provides funding to support seven position allocations. The increase in materials, supplies and services is primarily due to increasing citywide General Liability costs. The City Manager's budget also includes increased citywide indirect cost allocation plan reimbursements, offset by slight increases in salaries, wages and benefits.

Public Affairs & Communications Department

Overview of Services

The Public Affairs & Communications (PAC) Department leads the City's legislative advocacy, media relations, community relations, social media, broadcast, internal communications, neighborhood services, public information services, and the City's organizational culture and leadership initiatives.

The department staff manages the work related to the City Council's Law & Regulation Committee, Organizational Culture & Leadership Committee, and REACH (Roseville Employees Annual Charitable Hearts) giving program. PAC leads citywide teams including communications, government relations, emergency services, E-Government, and open data, and provides leadership on the myRSVL Team and the Regional Homelessness Working Group. PAC staff is the liaison for the Roseville Coalition of Neighborhood Associations (RCONA); Invest Health partnership; community/affinity/faith-based groups; and other business, education, and community initiatives.

Accomplishments

- Facilitated Council Priorities Update Workshop in February 2024 to review accomplishments, discuss areas of focus and establish new four-year Council strategies and priorities.
- Participated in the regional Homelessness Task Force and City's Interdepartmental Homelessness Task Force, facilitating conversations, strategy development, intergovernmental relations and nonprofit partnerships, community engagement, education, and awareness.
- Significantly expanded Economic Development marketing, business support, website, and communications and supported development of Economic Development Strategic Plan and marketing campaigns.
- Led communications regarding new development in the City and provided counsel on public outreach.
- Expanded participation in the City's Washington D.C. federal advocacy trip to include Housing, Police, Fire, Electric and Environmental Utilities. Also participated in federal advocacy trips to Washington D.C. with the Sacramento Metro Chamber and Placer Business Alliance, and the City's federal advocacy trip.
- Held annual Legislative Platform Workshop to establish priorities and principles for legislative and regulatory advocacy positions throughout the year at the state and national levels.
- Produced the annual State of the City event, coordinating with the Roseville Area Chamber of Commerce. Broadcast the event on social media and the City government-access channel.
- Developed and implemented community outreach surrounding transit improvements and overhaul of transit plan to gain public input.
- Revamped citywide social media and photographic use policies to reflect evolving technology and emerging issues.

- Developed a communications strategy related to homelessness to provide context and inform the community of the efforts underway to address this issue, to provide information to people experiencing homelessness about resources available, and to guide the community in ways they can most effectively support efforts to prevent and address homelessness.
- Developed a digital communications strategy to support recruitment, retention, and organizational culture efforts without adding additional staff.
- Produced the second annual Pride of Roseville citywide luncheon with Council and staff.
- Established a partnership with the Health Education Council to allow City staff to distribute meals to seniors at Maidu Villages affordable housing.
- Established the Clean Up Days partnership between Environmental Utilities (EU) and the Roseville Coalition of Neighborhood Associations (RCONA), ensuring no additional staff time and widespread volunteer support and publicity.
- Brought back REACH softball tournament to raise funds for local charities through City department competition.
- Established Welcome Day, Leadership Luncheons, a Mentoring Program, and Speed Networking to support succession planning and leadership development as part of the employee experience.
- Supported utilities marketing, video, and graphic design.
- Showcased City jobs through an inaugural Career Fair at the Westfield Galleria at Roseville with approximately 1,500 attendees and 100 staff, along with virtual Career Days at local high schools.
- Conducted recruitments of high school students to serve on City boards and commissions.
- Developed recruitment videos highlighting seasonal job opportunities with the City targeted to younger populations.
- Initiated special events related to inclusion and diversity for staff, including Lunch and Learn events, guest speakers and facilitated conversations, tours, performances, and cultural festivals.

Council Strategic Plan

Goal: Support community engagement and advocacy

Strategy: Remain focused on community engagement and education about City services, planning, and the budget

- Provide transparent, easily understood communications about the City's financial situation through the City Manager's Budget Message, Budget in Brief, strategic presentations, columns, videos, public engagement efforts, and graphic design visuals.
- Provide in-depth presentations about City budget and finances at Council meetings and with community groups, including Chamber, RCONA, and Rotary Club.
- Work with organizations that promote public engagement in the budget process to bring best practices to Roseville.

Strategy: Explore opportunities to engage all community members in relevant ways

- Continue serving on Davenport Institute for Civic Leadership and Public Engagement and the Institute for Local Government's Public Engagement Advisory Committee.
- Develop curriculum on public engagement and work with community groups to enhance effectiveness and outreach.
- Provide National Community Survey in Spanish.

- Develop programs for staff that provide a space for discussion of diverse cultural and demographic experiences and perspectives to enhance connection among staff and understanding of the community we serve.
- Participate in an advisory and consulting role with RCONA.
- Work with Council members on Community Coffees and other outreach needs to ensure accurate, timely information.
- Actively post, monitor, and engage in social media channels to disseminate accurate information.
- Conduct recruitments for Boards and Commissions to attract youth applicants.
- Enlist younger residents to assist with citywide cleanup days in partnership with EU and RCONA.
- Operate City of Roseville-TV broadcasts to provide transparency in public policy discussions.
- Conduct FlashVote polls with the community to gauge priorities, concerns, and vision.
- Develop new strategy for REACH activities to include additional volunteer opportunities to engage with the community.

Strategy: Inform county, state, and federal policymakers on key City issues and the importance of local decision-making

- Develop annual legislative platform in partnership with departments and conduct Council workshop to discuss upcoming legislative priorities and regulatory challenges. Meet with elected representatives through sessions at the City, at the State Capitol, U.S. Congress, and at association and other gatherings. Actively engage with industry association legislative efforts.
- Participate in three federal advocacy trips to Washington, D.C., to discuss issues related to housing, water, electricity, public safety, supply chain, homelessness, and public works.

Goal: Ensure a safe and healthy community

Strategy: Maintain City efforts to reduce homelessness while collaborating and advocating regionally as appropriate

- Participate in Regional Homelessness Task Force with Placer County, other cities, and nonprofit agencies to develop and coordinate regional opportunities to address and prevent homelessness.

Strategy: Promote a safe community in which all feel welcome and included

- Work with various communities to ensure access to City services such as transportation, housing and the Police Department's Social Services Unit.
- Ensure diversity in experiences and perspectives among participants in interview panels for key City staff leadership roles.
- Highlight federal observance months and support efforts to promote awareness.

Goal: Remain fiscally responsible in a changing world

Strategy: Identify and pursue opportunities for new revenue streams

- Support the Placer County Transportation Planning Agency's public education and outreach effort to raise awareness of funding challenges of transportation improvements, timelines, and expenditure plans.

Goal: Enhance economic vitality

Strategy: Foster a business climate that supports small businesses and entrepreneurship while attracting and strengthening emerging technology and industry sectors

- Develop marketing materials for prospective businesses to raise awareness among business community about opportunities the City offers.
- Participate in Greater Sacramento Economic Council's branding initiative.
- Provide transparent, easily understood communications and data about the City's economic development activities through regular business newsletters, strategic presentations, columns, videos, public engagement efforts, and graphic design visuals.
- Support annual economic outreach events, including the State of the City, Chamber events, and industry conferences.

Goal: Deliver exceptional City services

Strategy: Remain an employer of choice through expanded recruitment and attraction efforts, a focus on retention, and a positive culture

- Assist with the development of standardized policies for regular and recurring Council functions and events such as the State of the City, swearing in ceremony, process for Council Discretionary Funds and onboarding of new Council members.
- Establish staffing for Organizational Culture and Leadership (OC&L) work in PAC.
- Assign PAC staff to support Human Resources (HR) internal communications as well as external branding.
- Continue second year of Welcome Day onboarding and revamped bus tour for new staff and all staff.
- Conduct all-staff employee engagement survey and analyze results to assist managers in developing culture of excellence throughout the City.
- Use results of citywide employee engagement survey to provide insight for foundation of OC&L strategic plan.
- Revamp the REACH program and bring the Inclusion Committee and Employee Recognition Committee with the OC&L Committee to integrate all citywide committees, so efforts are stronger, complementary, and leverage the strength of each other.
- Provide transparent, easily understood communications about the City's policy and operational objectives to staff.
- Develop communication opportunities, including citywide staff meetings, all-manager meetings, and written and video presentations to staff on behalf of the City Manager.

Goal: Invest in well-planned infrastructure and growth

Strategy: Reinvest in core neighborhoods

- Continue active participation with Invest Health partnership in exploring and adopting best practices for health outcomes from communities nationwide. Continue active participation in monthly advisory council meetings and community engagement activities.

Strategy: Seek increased regional and local transportation funding and revenues

- Support launch of new transportation services with Roseville Transit and coordination with regional initiatives through Placer County Transportation Planning Agency (PCTPA).
- Support and collaborate on messaging with PCTPA to help Roseville residents understand implications and funding for transportation projects.

Budget Highlights

The Public Affairs & Communications (PAC) Department's FY2024-25 budget totals approximately $2.0 million and provides funding to support nine position allocations. PAC's budget increased by 31 percent over the prior year. The budget increases for materials, supplies, and services are due to increased internal service fund costs, including general liability insurance and information technology. Salaries, wages and benefits expenses increased due to adjusting the budget to align with current staffing organization within PAC. This realignment also contributed to increased internal reimbursements associated with the citywide indirect cost allocation plan, which reimburses the General Fund for support PAC provides to other City departments and funds.

City Attorney's Office

Overview of Services

The City Attorney's Office (CAO) provides comprehensive in-house legal services for the City of Roseville. The City Attorney's mission is to contribute to the City's success by delivering high quality legal counsel, representation and effective solutions with professionalism and integrity. Primary services consist chiefly of staffing the meetings of the City Council and various City boards, commissions, and committees; preparation and review of ordinances, resolutions, contracts, and other legal documents; advice and strategic assistance to City departments; civil litigation management/ representation; self-handling of various legal proceedings; supporting government claims review; tracking legislation; providing training; debt collections; code enforcement; and criminal prosecution of the Roseville Municipal Code.

Council Strategic Plan

The CAO will support the City Council, executive management and City departments with key City projects in furtherance of the City's overarching goals and key strategies.

Goal: Remain fiscally responsible in a changing world

- The CAO will assist Roseville Electric with completing and submitting a Distributed Electricity Backup Assets (DEBA) Program application to the California Energy Commission to receive grant funding to upgrade two emergency generators located at the Roseville Energy Park. Upon completion of the upgrades, ownership of the generators will be transferred to the City at no cost.
- The CAO will advise and participate in labor negotiations, in collaboration with other departments, to ensure the City enters into fiscally sound labor agreements.

Goal: Ensure a safe and healthy community

- The CAO will continue to participate in regional efforts to identify strategies for addressing homelessness in Placer County.
- The CAO will work on establishing a City criminal prosecution program to increase the available resources the City has to address nuisance and blight issues in order to maintain a safe, healthy and beautiful community.
- The CAO will comprehensively review, analyze, and update the City's fine and bail schedules, including updating the level of violations as appropriate.

- The CAO will assist the Police Department in comprehensively updating the City's massage business permit ordinance and thereafter work with the Police Department to increase enforcement efforts.
- The CAO will work with the Fire Department to update and strengthen the City's annual weed abatement process as well as assist the Fire Department with enforcing the City's revised fireworks ordinance which increased the penalties for illegal fireworks.
- The CAO will continue to research and draft ordinances aiming to reduce blight, nuisance, and safety issues.

Goal: Enhance economic vitality

- The CAO will provide legal support for the Costco/Baseline Marketplace and Bosch entitlement processes by advising on unique or complex legal issues and drafting or reviewing various agreements.

Goal: Deliver exceptional City services

- The CAO will continue to participate in the City's efforts to implement a new Public Records Act software and upon implementation, will create a citywide training on processing records requests.
- The CAO will assist the Human Resources Department in comprehensively updating the City's Personnel Rules.
- The CAO will participate in the City Clerk's efforts to implement a new agenda automation software, including revising the City's agenda and meeting procedures for efficiency, transparency, and legal compliance.

Goal: Invest in well-planned infrastructure and growth

- The CAO will assist Environmental Utilities with finalizing a Section 219 Agreement with the U.S. Army Corps of Engineers. If the agreement is finalized, the City could receive millions in federal appropriations for building a new raw water pipeline that will add redundancy to the City's water supply.
- The CAO will assist the South Placer Regional Transportation Authority (SPRTA), in coordination with other entities, on the Interstate 80 Auxiliary Lane project to improve traffic circulation, capacity, and operations.
- The CAO will assist Development Services in establishing a regional fee for the Baseline Road widening and Placer Parkway roadway projects through Sutter County.

Goal: Support community engagement and advocacy

- The CAO will continue its efforts to become more externally facing by educating community members regarding their rights and responsibilities and engaging in regional activities and partnerships.
- The CAO will assist with strategic challenges to case law and participate in the City's legislative and regulatory advocacy efforts in order to advance the City's goals.

Key Workload Measures

	FY2022-23 Actuals	FY2023-24 Initial Estimate	FY2023-24 Revised Estimate	FY2024-25 Estimate
Requests for Legal Services Completed	1,060	1,000	1,000	1,100
Legal Opinions	24,776	22,000	23,000	24,000
Citations/Code Enforcement Complaints	267	310	260	300
Public Meetings	138	185	160	170
Trainings/Presentations	28	32	35	40

Accomplishments

- Resolved 1,124 legal services requests and issued 26,231 legal opinions in calendar year 2023.
- Negotiated an Economic Development Incentive Agreement with Costco for the construction of a new store site located in the Sierra Vista Specific Plan that will add millions in sales tax revenue to the City's General Fund.
- Developed internal and external measures to assist City officials, City staff, parties, agents, and participants with complying with the expansion of the Levine Act, California's pay-to-play law.
- Assisted Parks, Recreation & Libraries with a Request for Proposals (RFP) and resulting agreement with a contractor for the construction of the Soccer Complex, which is currently under construction.
- Completed all loan and regulatory documents on Hampstead's Prospera at Fiddyment Ranch Affordable Housing Project, a 198-unit affordable housing project located in west Roseville which is currently under construction.
- Assisted the City Manager's Office and the Human Resources Department with negotiating four-year comprehensive collective bargaining agreements with the Roseville Police Association and Local 39, including acting as lead negotiator for the Local 39 agreement, and assisted in developing a four-year agreement for management/confidential employees.
- Revised the Other Post-Employment Benefits (OPEB) Trust Review Committee's roles and responsibilities and negotiated contracts with a bank to serve as trustee and with a trust administrator to work as the City's investment manager to help secure the future of OPEB benefits for City retirees.
- Assisted Risk Management in a comprehensive review and update of the City's Injury and Illness Prevention Program (IIPP) and integration of a new state requirement for a COVID-19 Prevention Program (CPP).
- Negotiated comprehensive banking services agreements to secure and update necessary critical banking services for the City.
- Guided the Development Services Department in navigating how best to provide highly-specialized permit and inspection services required to ensure the success of the Bosch site.
- Worked with Risk Management and Roseville Electric to facilitate the deployment of personnel to participate in a special project called "Light Up Navajo", to help bring electricity to families in need in the Navajo Nation and to assist Roseville Electric staff with necessary training.

- Negotiated an advance funding agreement with JMC Homes to construct the last remaining segment of Westbrook Boulevard.
- Collaborated with the Parks, Recreation & Libraries and Information Technology Departments to prepare a $2.7 million grant application to obtain broadband services for the City's Adventure Club sites.
- Drafted a Procurement Code of Ethics Policy to foster public confidence and trust in the integrity of City government.
- Created and used for the first time a "Property Cleanup Agreement" that can be offered to private property owners who are willing to cooperate with the City to abate blight, trespassing, and other code violations on private property.
- Assisted Roseville Electric in extending agreements with the California Department of Water Resources for two emergency generators located at the Roseville Energy Park.
- Revised or drafted City ordinances dealing with graffiti abatement, garage parking, camping on private property, syringe services, and sidewalk vending, to assist with addressing blight, nuisance, and safety issues.
- Assisted Public Works staff with the needed property acquisitions for the Roseville Parkway extension and Pleasant Grove widening projects.
- Finalized an amendment to the Water Supplies and Exchanges Agreement for Middle Fork Project water with the Placer County Water Agency to help ensure water supply in drought years and future development.
- Revamped the City's fireworks ordinance to increase the penalties for illegal fireworks and to streamline enforcement.
- Assisted the City Manager's Office in creating and presenting recommendations to the Grants Advisory Commission for the annual grants application process, which will ensure that grant funding is given to organizations and entities focused on improving the quality of life for the residents of Roseville.

Budget Highlights

The City Attorney's FY2024-25 budget totals approximately $2.7 million and provides funding to support ten position allocations. The budget saw 14 percent growth, primarily driven by increases in salaries, wages, and benefits, as well as in materials, supplies, and services. A primary contributor to the increase in materials, supplies, and services costs is rising General Liability Insurance costs. These costs are partially offset by increased citywide indirect cost plan internal reimbursements.

Finance Department

Overview of Services

The Finance Department provides services in budgeting, accounting, investing and cash management, issuing and managing debt, special district administration, accounts payable, payroll, Enterprise Resource Planning (ERP) system support, purchasing, and central stores.

Finance Administration Division

The Finance Administration Division provides leadership and coordination for the entire department. The division oversees establishing and managing special districts and related debt. Long-term financial forecasting guides strategic decision-making, ensuring the organization's fiscal health. Additionally, the division coordinates updates to user fees to align with operational needs and financial objectives. The division also provides administrative support to the other department divisions and support to the Local Sales Tax Citizens' Oversight and the Other Post-Employment Benefits (OPEB) Trust Review committees.

Budget Division

The Budget Division works with all City departments to develop the Annual Adopted Budget. This includes managing the cost allocation plan, indirect cost rate proposals, and the annual General Fund capital rehabilitation process as well as coordinating the internal service fund rate studies. Budget coordinates with all city departments throughout the fiscal year to ensure that actual spending remains within City Council-approved budget appropriations. Moreover, the Budget Division prepares quarterly financial reports, processes all budget adjustments, including the carry-forward of approved budgets for unspent encumbrances, coordinates with Human Resources to process off-cycle position requests, and maintains the budgeting module of the City's financial system.

Accounting Division

The Accounting Division develops, implements, and maintains effective financial accounting systems and internal controls. It provides management control over the City's financial activity by ensuring the ability to present a fairly stated financial position on a timely basis. The division manages the City's revenue operations and monitors the debt and investment portfolio. It is also responsible for the City's billed receivables (including the collection of citywide delinquent accounts), grants, special assessments, capital assets, and financial reporting.

Enterprise Resource Planning (ERP) Support Division

The ERP Support Division is responsible for performing maintenance and optimization of the City's ERP system and managing or coordinating with other projects that integrate with the ERP system. This division also maintains the Chart of Accounts.

Disbursements Division

The Disbursements Division is responsible for the timely calculation and payment of payroll, payments to vendors, CalPERS administration and reporting, and retiree health administration and payment. The division is also responsible for all federal and state payroll and accounts payable reporting requirements. Additionally, Payroll develops the salaries, wages, and benefits portion of the annual budget and coordinates with Human Resources to maintain the citywide position allocation schedule.

Purchasing and Central Stores Division

The Purchasing and Central Stores Division is responsible for procurement and acquisition services, central warehousing, mail handling, and courier services. Purchasing also provides citywide training, manages the annual purchase order renewal process, works with the Budget Division to manage the annual encumbrance carryforward process, and coordinates with the City Attorney's Office on contracts.

Accomplishments

- Recognized by the Government Finance Officers Association (GFOA) with the Certificate for Excellence in Financial Reporting for the FY2021-22 Annual Comprehensive Financial Report.
- Recognized by the GFOA and the California Society of Municipal Financial Officers (CSMFO) with Distinguished Budget Presentation Awards for the FY2023-24 Approved Budget.
- Updated the City Council-adopted financial policies, including substantive revisions to the Investment Policy, Debt Management and Swap Policy, Development Services Stabilization Fund Reserve Policy, and Internal Control Policy. These policies are available on the City's website.
- Successful and well-received implementation of an automated workflow process for approving budget adjustments using an existing software system to improve transparency and reduce email traffic, staff hours required, and version control issues.

Council Strategic Plan

Goal: Remain fiscally responsible in a changing world

Strategy: Seek ways to reduce pension obligations

The Finance Department continues to actively seek ways to reduce pension liabilities and improve the funded status of the California Public Employee's Retirement System (CalPERS) plan to ensure high-quality services for City residents. One approach for the City is to use one-time resources to participate in the CalPERS Additional Discretionary Payments (ADP) option, which reduces the City's unfunded liability and leads to long-term savings. The City has made $16.7 million in ADPs to date and the FY2024-25 budget includes an additional ADP of $1.8 million. Additionally, the City has established a Section 115 Pension Trust Fund to serve as a reserve against CalPERS cost increases. With the $2.9 million budgeted transfer in FY2024-25, the balance in the fund is nearly $21 million. These measures are designed to maintain service levels during future economic downturns.

Goal: Invest in well-planned infrastructure and growth

Strategy: Increase funding for CIP rehabilitation to prevent erosion of infrastructure

In accordance with City Council adopted policy, the FY2024-25 budget increases funding for General Fund facilities, equipment, and Information Technology capital rehabilitation and replacement by $1 million to $7.3 million. It is essential to prioritize the rehabilitation and replacement of capital to maintain quality services in the community. Critical investments included in the FY2024-25 budget include replacing Fire Department handheld radios and mobile data computers, the roof at Maidu Community Center, the tennis court at Woodbridge Park, the basketball courts at Santucci, Silverado Oaks, and Eastwood Parks, the play structure at Doyle Park, the heat pumps at the Roseville Sports Complex, and the boiler at the Roseville Police Department.

Goal: Support community engagement and advocacy

Strategy: Remain focused on community engagement and education about City services, planning and the budget

The Finance Department is focused on community engagement and education by coordinating the citywide budget process. It ensures transparency and accuracy by producing high-quality budget documents recognized at state and national levels. Additionally, the department creates budget summary documents, including a "Budget in Brief," which distills complex financial information into easily understandable formats, ensuring all community members can engage with and understand the City's financial plans.

Key Performance Measures

Excellence in Budgeting

Goal	Support community engagement and advocacy			
	FY2022-23 Actuals	FY2023-24 Initial Estimate	FY2023-24 Revised Estimate	FY2024-25 Estimate
Receive Distinguished Budget Presentation Award from Government Finance Officers Association (GFOA)	✓	✓	✓	✓
Receive Certificate of Award in Budgeting from the California Society Municipal Finance Officers (CSMFO)	✓	✓	✓	✓
Purpose	Receiving GFOA and CSMFO awards for budgeting demonstrates a commitment to meeting the highest principles of governmental budgeting.			
Status	The Finance Department received both of the awards for the FY2023-24 budget and plans to submit the FY2024-25 budget for the awards.			

Excellence in Financial Reporting

Goal	Remain fiscally responsible in a changing world			
	FY2022-23 Actuals	FY2023-24 Initial Estimate	FY2023-24 Revised Estimate	FY2024-25 Estimate
Receive Certificate of Achievement for Excellence in Financial Reporting from the GFOA	✓	✓	✓	✓
Purpose	Receiving GFOA awards for financial reporting demonstrates a commitment to meeting the highest principles of governmental financial management.			
Status	The Finance Department received the award for the FY2021-22 Annual Comprehensive Financial Report and submitted the FY2022-23 Report for the award again in FY2023-24.			

Key Workload Measures

	FY2022-23 Actuals	FY2023-24 Initial Estimate	FY2023-24 Revised Estimate	FY2024-25 Estimate
Number of vendor invoices paid	52,281	49,000	49,400	50,000
Number of payroll checks processed	43,301	44,000	43,382	44,000
Number of purchase requisitions processed	3,787	3,550	3,803	3,885

Budget Highlights

The Finance Department's FY2024-25 budget totals approximately $5.9 million and provides funding to support 53 position allocations. The department budget increased by approximately 14 percent over the prior fiscal year, from $5.2 million to $5.9 million. This change is primarily due to increased salaries, wages and benefits costs. Another contributing factor was increased service costs associated with professional services, technology, banking fees and armored car costs, which are offset by increased interest income revenues. The budget also includes one-time equipment replacement funding to replace the mailing machine at the warehouse. The Finance Department's budget includes the following highlights:

Disbursements - Accounts Payable

The budget includes reclassifying a Finance Technician to a Senior Finance Technician, costing about $12,000 annually. The Accounts Payable Division, comprising five Finance Technicians and one Supervisor, faces operational challenges due to tasks managed by the Supervisor outside technicians' job roles, resulting in inefficiencies. Introducing a Senior Finance Technician would improve efficiency, bolster the team's expertise, and ensure long-term operational stability by mitigating knowledge gaps and enabling smoother succession planning.

Purchasing

The budget includes the conversion of a Limited Term Administrative Technician to a regular full-time position within the Purchasing Division. Initially established in FY2018-19 to assist with procurement-related tasks during the City's post-implementation stabilization of a new Enterprise Resource Planning (ERP) system, this position has since evolved to meet broader shifts in the City's purchasing processes. Its ongoing tasks now play a crucial role in the core services provided by the Purchasing Division, including supplier setup and maintenance, ERP new user training, ERP testing, troubleshooting purchasing-related challenges, and various administrative duties.

Budget Summary

Positions by Division/Program

Human Resources Department

Overview of Services

The Human Resources Department provides services to assist City departments and the community with employment and volunteer opportunities. The department's focus is on recruiting, developing, engaging, and retaining a diverse, well qualified, and professional workforce of approximately 1,388 regular employees and 490 temporary/seasonal employees to deliver high-quality services to the City.

Employment Services and Benefits

Employment Services is responsible for planning, developing, conducting, and overseeing the City's classification and compensation plans, recruitment, examination, selection, pre-employment, and onboarding processes for regular and temporary employees. This team also coordinates the intern and volunteer program. Additionally, the team administers the employee insurance and benefits programs, including the CalPERS retirement and supplemental retirement plans, medical, dental, vision, life and long-term disability insurance plans, flexible spending accounts, and the employee assistance program. This team manages the Human Resources Information System (HRIS), including the processing and approval of employee salary and benefits information and conducting retirement consultations.

Employee and Labor Relations/Performance Management/Organizational Development

This team promotes organizational advancement through effective employee/labor relations activities pertaining to five recognized employee bargaining units and two unrepresented employee groups; manages and assists with the employee performance evaluation system and consults with supervisors on employee reviews; coordinates, develops, and conducts employee training; administers and tracks online policy review and training records for citywide training; drafts and updates City policies; processes tuition reimbursement; and coordinates the annual giving campaign.

Risk Management

Risk Management is responsible for creating a safe work environment for employees and a safe city for its residents. Risk Management accomplishes this by administering safety training, Cal-OSHA mandated programs, assuring safe and healthy work environments, administering liability and workers' compensation programs, Americans with Disability Act interactive process and reasonable accommodations, managing leaves of absence, and responding to both resident and employee safety concerns.

Management and Administrative Support Services

Management and Administrative Support Services oversees the department operations, organizational development and engagement, including succession planning, policy development, champions the Inclusion Committee and the Employee Recognition Committee and oversees the department budget.

Accomplishments

- Successfully negotiated four-year Memorandums of Understanding with Local 39 and the Roseville Police Association.
- Hosted the first citywide career fair at the Roseville Galleria mall with approximately 1,500 people in attendance.
- Continue to streamline and add enhancements to NEOGOV, the City's applicant tracking system, which provides efficiencies for City staff and applicants.
- Completed 232 recruitments to fill a total of 306 vacancies using a streamlined electronic signature process for new hire documents.
- Processed over 12,000 employment applications.
- Issued 130 Pride of Roseville awards to City employees and enhanced the City recognition program in partnership with the Employee Recognition Committee which issued 45 recognition kits in City departments and launched a new online social recognition platform – Roseville Raves.
- Implemented safety protocols and numerous COVID-19 related programs, policies, frequently asked questions, and employee communications.
- Implemented labor market adjustments with three labor groups and updated the temporary salary schedule, as a result of minimum wage increases.
- Completed 39 meet and confers with the labor groups regarding new and updated policies, new laws, and various other mandatory subjects of bargaining.
- Implemented classification study recommendations for 16 classifications involving 40 employees.
- Purchased and installed, with City partners, 26 Automated External Defibrillators (AEDs) in various City facilities.
- Provided supervisory and project management series training to 75 supervisors and managers, and 987 employees participated in one or more of the 54 in-person and virtual courses offered on a variety of topics, including computer software programs, customer service, emotional intelligence, wellness, safety, and compliance.

Council Strategic Plan

Goal: Deliver exceptional City services

Strategy: Remain an employer of choice through expanded recruitment and attraction efforts, a focus on retention, and a strong culture

The Human Resources Department's focus is on streamlining the hiring process with an updated applicant tracking system and will continue the collaborative partnership with the citywide communications team to enhance city recruitment branding, create videos, and expand outreach methods to attract top talent and interns. Enhancing and expansion of the RoseU training program for supervisors and employees will support a high-performing work culture. Further, a succession planning program will be developed to support retention, reorganization of work, skills development, and effective outreach for specialized operational skills.

Key Performance Measures

Recruitments

Goal	Deliver exceptional City services			
	FY2022-23 Actuals	FY2023-24 Initial Estimate	FY2023-24 Revised Estimate	FY2024-25 Estimate
Total number of General/ Management Recruitments	184	230	240	230
Number of Employees Onboarded (Regular)	128	190	175	175
Number of Employees Promoted (Regular)	157	155	160	175
Number of Employees Onboarded (Temporary)	286	340	280	300
Purpose	To efficiently deliver a more diverse and highly skilled candidate pool to produce a dedicated workforce to deliver City services to the community.			
Status	Human Resources continues to enhance recruitment outreach through job fairs and various social media tools to promote opportunities within the City. Executive recruiter outreach and continuous filing of openings have reduced the number of repeat recruitments and resulted in the successful filling of hard to fill positions.			

Key Workload Measures

	FY2022-23 Actuals	FY2023-24 Initial Estimate	FY2023-24 Revised Estimate	FY2024-25 Estimate
Total Filled Regular Positions	1,148	1,175	1,200	1,250
Number of Workers' Compensation Lost Time Claims	47	50	50	50
Total Liability Claims Cost	$1,037,570	$1,000,000	$1,250,000	$2,007,500

Budget Highlights

The Human Resources FY2024-25 budget totals approximately $21.1 million (an increase of 30.2 percent over the prior fiscal year) and funds 19 position allocations. This budget increase is primarily due to rising insurance premiums in the General Liability Fund and claims in the Workers Compensation Fund. In addition, the Human Resources Budget includes funding to continue work on projects budgeted for in the current year, including the document digitization project and hiring consultants to assist in creating a fiduciary committee for deferred compensation retirement plan oversight and succession planning. The budget includes the following highlights:

Succession Planning

The budget includes funding to hire a consultant to work with Human Resources to develop a robust Succession Planning Program to support departments with planning for retirements to fill key roles and to promote retention through skills development of future leaders.

Recruitment Branding

The budget includes funding to continue working on the City's recruitment brand as an Employer of Choice to attract top talent as an inclusive, equal employment opportunity employer in the region. The funds will also be used to establish a stronger presence on LinkedIn and Glassdoor for broader outreach to more diverse candidates.

File Scan Project

Human Resources will continue working with a vendor to have the personnel files scanned and labeled for digital access to personnel records and other human resources documents consistent with the records retention schedule.

Student Intern Program

The budget includes funding for a High School Internship program in collaboration with Roseville Joint High School District. The internship program supports high school students enrolled in the Careers in Technical Education (CTE) program with an opportunity to explore public sector career paths in professional development. In partnership with City departments, Human Resources aims to offer up to 20 qualifying students a four-week, full-time internship experience.

Claims Management System

Risk Management has included funds to purchase a claims management system to track and report on general liability claims for the City.

Fiduciary Committee

Funds from the MissionSquare Retirement deferred compensation plan administrative account will support the cost of a consultant who will help form and develop policies for a new fiduciary committee and to provide education on plan oversight.

Information Technology Department

Overview of Services

The Information Technology (IT) Department remains committed to providing exceptional services through the utilization of cutting-edge technology to serve both internal departments and the community. IT administers and sustains vital City services through innovative technology, business solutions, and robust cybersecurity measures.

Currently, the department is undergoing a strategic realignment of its divisions to facilitate succession planning and enhance service delivery. This transition will be implemented gradually to ensure a seamless integration. As part of this realignment, the Client Services division has been relocated to the Infrastructure Solutions team, while the Data Intelligence division now falls under the Innovation Services team.

Aligned with the department's vision of leadership, innovation, partnership, and performance, service areas encompass:

Planning & Administration Team

The primary role of IT Planning & Administration is to define the department's goals and vision, provide leadership, and take a forward-thinking strategic approach to help guide technology and business decisions for the future. The division focuses on several areas: budget, strategic planning, eGovernment, technology governance, collaboration tools, and administrative tasks.

Innovation Services Team

The IT Innovation Services team is comprised of three divisions: Data Intelligence, Business Solutions, and Utility Solutions. The team is dedicated to superior customer service in support of the many City technology programs and services such as data and integration services, public safety technologies, utilities solutions, enterprise resource planning, geographic information systems, and dozens of other technologies that empower all aspects of citywide business. The team also supports incident management, project management, business solutions analysis, and business intelligence reporting.

Infrastructure Solutions Team

The IT Infrastructure Solutions team consists of three divisions: Client Services, Network Infrastructure, and Information Security. They are dedicated to the quality and stability of the City's campus and Wi-Fi networks, security (both cyber and physical), radio and telephone, data center maintenance, server administration, storage administration, authentication services, infrastructure and development, and responsible for citywide help desk services.

Accomplishments

- IT staff led the effort to implement the City's first-ever Customer Relationship Management System (CRM), which enables citizens to request information and services from the City using the new mobile app, myRSVL. This new system, along with chatbot Rosie, helps city residents and businesses by providing a single platform for managing customer interactions.
- In partnership with the utilities departments, IT has played a key role in advancing the City's infrastructure goals by supporting the implementation of the Advanced Metering Infrastructure (AMI) project. Nearly reaching its completion, the AMI project has modernized the utilities to provide efficient service and data-driven planning to support Roseville's growth.
- Expanded the City's Open Data Portal to provide complex program, operational, and financial data in an open and easy-to-understand format and increase transparency.
- Increased critical facility emergency power capabilities by deploying a new uninterruptable power supply system (UPS) at Fire Station 6 while replacing UPS batteries at Fire Station 4 and the East Radio site.
- Enhanced citywide cybersecurity awareness through innovative gamified training; successfully blocked an average of 113,000 spam emails and avoided 26,000 threats per month; and implemented an advanced email security solution to reduce the number of malicious emails that City staff receive in their inboxes.

Council Strategic Plan

IT's strategic plan, extending to 2027, sets the course for the department's technology vision, mission, and values. This plan serves as the blueprint for the City's IT framework, designed to empower and improve organizational and business operations. The roadmap's vision and goals will be translated into practical steps and detailed annual work plans throughout the coming fiscal year to align with the City Council's strategic plan.

Goal: Remain fiscally responsible in a changing world

Funded through an internal service fund (ISF), the IT Department continues to work diligently to streamline its budget development processes. The IT Department continues to set priorities that align with the business needs of operating departments and the community. Following this commitment, the IT Department will undertake a project in FY2024-25 to implement an Enterprise Project Management (EPM) software to aid departments in the management of projects including resource optimization and improved financial planning.

Goal: Ensure a safe and healthy community

Securing citywide systems is a high priority of the IT Department. Proactively identifying and mitigating risks associated with user accounts and privileges is one of many initiatives designed to enhance the safety of our infrastructure. Over 80 percent of cyber incidents involve the illicit use of a valid user password to infiltrate an organization's network. To better protect the City, IT will implement a security solution with advanced capabilities to monitor user accounts and privilege usage in order to prevent unauthorized network and system access. Also, the Department will continue developing an organizational culture that values information security and focuses heavily on cybersecurity awareness through education and regular cybersecurity training. During the upcoming fiscal year, the IT Department will undertake a project to replace the Fire Mobile Data Computers (MDCs) based on their five-year replacement cycle, helping to ensure public safety. This public safety initiative will also extend to the start of another IT project designed to upgrade the City Fire Department's very high frequency (VHF) radio system, which has been in service for over 15 years.

Goal: Support community engagement and advocacy

As the City grows, so does the need for community engagement and internal efficiencies. The IT Department has undertaken several projects to improve community engagement through technology. IT will accomplish this goal with a collaborative approach to research, design, and implement an agenda automation software system. This system will enhance productivity by improving process and workflow efficiencies, collecting data to make data-driven decisions, ensuring transparency, and providing consistency for tracking customer requests.

Goal: Deliver exceptional City services

As part of an ongoing effort to implement technologies that can continually improve their current business processes and operations, the IT Department will continue to work on a replacement of the City's current content management system (CMS), used for the City website and intranet (Hub), which has reached its replacement cycle end of life and will be replaced to keep updated with the latest technology and information security protocols. The IT Department will also undertake a new project to upgrade the City's Enterprise Asset Management (EAM) software including infrastructure configuration, custom integrations, data mapping, and new version functionality. Another effort driven by IT to deliver exceptional city services is a new project to replace virtual call agent software, which several departments use daily at call centers.

Goal: Invest in well-planned infrastructure and growth

The IT Department is committed to providing technology infrastructure that ensures continuity of operations and information security by proactively planning, budgeting, and allocating resources to maintain and improve the City's existing IT infrastructure. Ongoing efforts in support of this goal include IT's efforts to upgrade the City's storage across all three data centers to meet growing demand while enabling data-at-rest encryption for increased security, an upgrade to the data center's network to continue providing high-performing and reliable connectivity for the City's virtual server and storage environment, along with a Voice over Internet Protocol (VoIP) project to enable the replacement of outdated phone system infrastructure to provide future system scalability and flexibility. In addition, there are two ongoing technology infrastructure efforts for Police Department (PD) operations, including the replacement of PD host servers to increase capacity while maintaining performance and reliability, along with an upgrade to the PD's mutual aid repeaters, which are utilized to enhance interoperable communications with other agencies, that will increase reliability, visibility, reporting and support capabilities.

Key Performance Measures

Response Times

Goal	Deliver exceptional City services			
	FY2022-23 Actuals	FY2023-24 Initial Estimate	FY2023-24 Revised Estimate	FY2024-25 Estimate
Percent of service requests fulfilled, or incidents resolved within established Service Level Agreements (SLAs) (quarterly)	95%	91%	85%	85%
Percentage of application uptime during business hours (annual)	99%	99%	99%	99%
Percentage of overall customer satisfaction (annual)	95%	97%	97%	97%
Purpose	Achieve results by meeting business needs through flexible and agile services. Develop a trusted, cooperative, collaborative work environment.			
Status	The goal remains at 95 percent, and the department will continue to strive to meet that goal.			

Key Workload Measures

	FY2022-23 Actuals	FY2023-24 Initial Estimate	FY2023-24 Revised Estimate	FY2024-25 Estimate
Number of technology incidents resolved (annual)	4,290	4,368	4,350	4,000
Number of service requests resolved (annual)	6,870	4,765	4,544	6,500
Number of general government business systems and solutions supported (annual)	60	60	60	60
Number of visits to City website (annual)	6 million	6.8 million	5.2 million	4.6 million
Number of innovative projects submitted (annual)	25	27	23	55

Budget Highlights

The IT Department's FY2024-25 budget totals $16.4 million, representing an increase of 5.2 percent over the prior fiscal year's amended budget. The primary drivers of this increase include increased labor costs as well as inflation and supply chain issues related to materials, supplies, and services. Additionally, the IT budget consolidates software licensing across multiple other departments directly into the IT ISF rates, including Maximo licensing shifting from Environmental Utilities and Electric budgets to the IT Department.

The IT budget provides funding to support 58 position allocations, including funding for the addition of a Limited Term Business Systems Analyst to support multiple citywide applications including CRM and CMS, and a Database Analyst conversion from limited term to a regular position which will support the Enterprise GIS program, along with GIS support for Parks, Recreation & Libraries and Electric.

City Clerk Department

Overview of Services

The City Clerk Department provides election services, legislative administration, records management, and passport application processing.

Elections

The Elections Division conducts regular and special municipal elections in consolidation with the Placer County Elections Office for the election of City Councilmembers, local initiatives, referendums, recalls, and charter amendments under the governance of the California Elections Code. This division also administers the Political Reform Act requirements related to campaign disclosure statements, Conflict of Interest filings, and the redistricting process.

Administration

The City Clerk Administration Division manages the legislative process for the City Council, City Council Law and Regulation Committee, Finance Authority, Housing Authority, and Roseville Natural Gas Financing Authority in the preparation, posting, and publication of all agendas, minutes, resolutions, ordinances, and contracts, pursuant to law, and providing staff support at their meetings. The division is responsible for the bid opening process and the safekeeping of bonds and securities. This division oversees board, commission, and committee member recruitment, orientation, and training. In addition, the division ensures compliance with AB1234 Ethics Training for Local Officials, Sexual Harassment Prevention Training, and Fair Political Practices Commission requirements for designated employees and board, commission, and committee members. The division provides records management oversight to ensure City actions are accurately recorded and retrievable and provides open and transparent access to City records in compliance with the California Public Records Act.

Passport Center

The Passport Center is a revenue-generating division that provides passport application processing to the public with exceptional customer service.

Accomplishments

- Processed over 14,000 passports in FY2023-24.
- Processed over 850 public records requests in FY2023-24.
- Increased operational hours for the Passport Center.
- Proactive recruitment of Boards and Commissions.
- Researched and implemented a new public records software to improve transparency, consistency, and accessibility to all stakeholders.

- Supported the myRSVL implementation citywide.
- Increased transparency for public agency reporting with implementation of new compliance software to streamline mandated reporting between the City, county, and state.
- Researched and moved forward with implementing a new agenda management system to increase efficiency and standardization of the legislative process with the addition of the Form 800 series to a new transparency page on the City's website.
- Continue support in moving Council priorities forward.

Council Strategic Plan

Goal: Deliver exceptional City services

The City Clerk Department is committed to working on strategies that foster community engagement. The records management system provides a self-service portal for staff to search for city records with ease. Increasing public agency transparency in compliance reporting fosters public trust and delivers exceptional City services.

Goal: Support community engagement and advocacy

The implementation of a Public Records portal increases transparency and streamlines the process for the public. Proactive recruitment for all City boards and commissions increasing citizen engagement on City issues. Passport fairs during City events, along with access to passport services, support community engagement and participation.

Key Performance Measures

Public Records Act

Goal	Deliver exceptional City services			
	FY2022-23 Actuals	FY2023-24 Initial Estimate	FY2023-24 Revised Estimate	FY2024-25 Estimate
Percent of records requests completed within 10 days	90%	92%	94%	97%
Percent of records requests completed within 14 additional days	95%	95%	94%	97%
Purpose	Public Records request law dictates strict timelines to fill requests. The City Clerk Department responded to over 850 public records requests in FY2023-24.			
Status	The yearly percentage of response to records requests remains consistent within the 10-day response mandate. The City Clerk Department has partnered with the Police Department and the City Attorney's Office to review and implement software that will improve response times.			

Meeting Agendas

Goal	Support community engagement and advocacy			
	FY2022-23 Actuals	FY2023-24 Initial Estimate	FY2023-24 Revised Estimate	FY2024-25 Estimate
Number of agendas posted 72 hours prior to City Council, and Law & Regulation Committee	42	45	43	45
Number of special meeting agendas posted 24 hours prior to City Council, Law & Regulation meetings	7	8	7	8
Purpose	Brown Act law mandates agendas be posted 72 hours prior to a meeting of the governing body including Council appointed boards, commissions, and committees.			
Status	All City Council, boards, commissions, and committee agendas are meeting mandated posting deadlines.			

Passport Center

Goal	Deliver Exceptional City Services			
	FY2022-23 Actuals	FY2023-24 Initial Estimate	FY2023-24 Revised Estimate	FY2024-25 Estimate
Number of passport applications processed	12,644	11,000	12,500	14,000
Number of passport photos processed	10,479	12,000	12,500	13,000
Purpose	Generate revenue and introduce applicants to the amenities of Downtown Roseville.			
Status	Anticipate increases in FY2024-25 passport applications and photos due to expanded business hours.			

Key Workload Measures

	FY2022-23 Actuals	FY2023-24 Initial Estimate	FY2023-24 Revised Estimate	FY2024-25 Estimate
Number of calls for service and information	12,347	15,000	14,000	11,500

Budget Highlights

The City Clerk Department's FY2024-25 budget totals $1.7 million, an increase of 18.3 percent from the prior year caused by the scheduled elections this year. This budget supports 12 allocated positions. Funding for technology projects, including the replacement of the citywide compliance software, the implementation of the agenda management software, and a public records request management software/portal is included in the Capital Improvement Program.

Budget Summary

Positions by Division/Program

Police Department

Overview of Services

The Roseville Police Department (PD) provides all law enforcement services within the City. The department's primary mission is the safety of the public and the protection of their property. The department delivers the following services to achieve this mission:

Administration

Police Administration sets goals and provides leadership to the department. Police Administration includes the Professional Standards Unit, training and personnel, payroll, budget/finance, and the Public Affairs Team.

Property, Records and Crime Scene Investigation Unit

This unit processes thousands of police reports, citations, and other documents annually, and provides for the security and legal release of evidence, property, and police record information. This unit also ensures mandated reporting compliance and manages the Crime Scene Investigations (CSI) team and the department's false alarm reduction program (FARP).

Communications Unit

The Communications unit answers 911 and routine calls for Police, Fire, and advanced emergency medical dispatch, and dispatches the appropriate assistance. Emergency Medical Dispatchers are trained continuously to provide definitive pre-hospital emergency medical care, are certified biennially and are subjected to continuous quality improvement standards.

Social Services

This unit provides a comprehensive Social Service model to reduce recidivism and maintain a collaborative multidisciplinary team with City departments and state, county, and local agencies. Social Services officers address mental health, substance abuse, and homelessness. School Resource Officers (SRO) are assigned to all high schools through a partnership with the Roseville Joint Union High School District. In addition, the department's Threat Assessment Officer, who observes and identifies potential, immediate, or imminent threats (e.g., active shooter), is also part of this unit.

Patrol

Patrol provides uniformed police officers and other staff who respond to emergencies and routine calls for service. Patrol also includes an Unmanned Aircraft Systems (UAS) team, K-9 Officers, and Regional Special Operations Units, which contain SWAT (special weapons and tactics), CINT (critical incident negotiations team), and EOD (explosive ordinance disposal) teams.

Investigation

This unit investigates major crimes in an effort to identify and arrest the perpetrators. The Investigation unit includes investigators assigned to the Placer County Special Investigations Unit (SIU) and the Placer County Regional Auto Theft Task Force (RATTF). This division also consists of the Crime Suppression Unit (CSU), which targets gangs, known offenders, and emerging crime problems.

Traffic

The Traffic unit enforces traffic and driving under the influence (DUI) laws and investigates traffic collisions. This unit is also responsible for investigating major accidents by the Major Accident Investigations Team (MAIT).

Animal Control

Animal Control enforces animal control laws, responds to animal-related emergency and routine calls, and transports dead, stray, and abandoned animals to the Society for the Prevention of Cruelty to Animals (SPCA). The City's contract with the Placer County SPCA for shelter and animal care services is included in the Animal Control budget.

Accomplishments

The Roseville Police Department was awarded $609,147 through California's Retail Theft Grant Program. This funding was allocated toward specific investigative tools and additional personnel expenses, with the goal of reducing retail theft and motor vehicle theft in the region. In 2023, the PD began the procuring the items identified in the grant proposal. The department also conducted numerous holiday enforcement operations utilizing grant funding, nicknamed 'Operation Grinch.' Operation Grinch resulted in over 150 arrests, the seizure of five illegal firearms, and the recovery of an estimated $20,000 in stolen merchandise.

In 2024, the PD successfully integrated in-car camera systems across its entire fleet of vehicles, building upon the foundation laid by the implementation of Body Worn Cameras a few years back. This milestone represents a significant leap forward in enhancing transparency, accountability, and community trust by clearly documenting law enforcement interactions. Completing this project reaffirms the department's unwavering commitment to serving the community with integrity.

The Police Department's Social Services Unit added the services of a Crisis Comfort Canine. Crisis Comfort Canines have been successfully integrated into diverse settings such as schools, courts, hospitals, and public safety agencies, significantly improving the overall well-being of community members and staff. The PD's Crisis Comfort Canine, Butter, is a shift from the typical Police canine as he will not track people, narcotics, or detect explosives. Butter will provide emotional support and comfort to individuals who are experiencing stress, trauma, or crises.

Council Strategic Plan

Goal: Ensure a safe and healthy community

Strategy: Maintain public safety service levels and response times as the City grows

Last year, 45 new staff joined the Police Department including 21 Police Officers and 9 Dispatchers. The department was nearly fully staffed across all divisions and units by the end of 2023. Recruiting, hiring, and retention has been a key focus the past few years and will continue to be in FY2024-25 as recruiting for public safety positions is still a difficult task.

In 2023, the Patrol Division responded to over 43,000 calls for service while conducting 24,000 officer-initiated contacts, over 10,000 of which were traffic enforcement stops. These officer-initiated actions were 12 percent and 43 percent higher respectively over the prior year and included a 23 percent increase in Driving Under the Influence (DUI) arrests. The Dispatch Center received 160,000 calls for either Police or Fire service, a two percent increase over 2022. These statistics indicate that the PD is actively working to make the community safer.

Finally, the Real Time Crime Center (RTCC) continues to evolve as a cutting-edge means of helping officers identify suspects and their vehicles, as well as helping lead our officers to these suspects. During 2023, the video wall system became operational, and staffing was increased to expand coverage hours. New camera networks were integrated into the system. The RTCC has rapidly become a very successful means for assisting officers and has become a regional example of blending high-tech capabilities with solid police work.

Strategy: Maintain City efforts to reduce homelessness while collaborating and advocating regionally as appropriate

The Social Services Unit (SSU) remains the PD's primary resource to address homelessness issues in Roseville. During 2023, SSU completed a strategic plan outlining its services, goals, and staffing needs for the future. As part of this plan, SSU was restructured with a new Social Services Practitioner Supervisor position to oversee the social work programs and staff. This change allows for two social workers to be part of SSU in addition to two City-funded Outreach Workers who were added in 2023 as well. With the four City-funded social workers, the PD continues to utilize the services of two additional Outreach Workers from Placer County Health and Human Services to bring the entire outreach network to six providers. SSU also added the services of a Crisis Comfort Canine, Butter, who has quickly become an exceptional means for helping during mental health crisis calls for service. Finally, the partnerships SSU has built over the preceding years have continued as SSU helps lead the way in Placer County for homelessness response.

Strategy: Promote a safe community in which all feel welcome and included

The PD continues to engage the community at every level, from local neighborhood meetings to community events to social media. These efforts are intended to illustrate the PD's commitment to fulfill its mission: to work with the community to keep Roseville safe. The PD has continued training sworn and professional staff in Procedural Justice programs. Participation in many community events is a direct effort to promote inclusiveness with the community.

Goal: Support community engagement and advocacy

Strategy: Remain focused on community engagement and education about City services, planning, and the budget

The PD attended, hosted, or sponsored 174 community outreach events during 2023. This included attending 61 neighborhood association meetings and 113 community events such as National Night Out, the Fourth of July Crimestoppers Fun Run, the Fourth of July Parade, Christmas Tree Lighting, BikeFest, and Family Day. The PD hosted an "RPD 101" Course in the spring and fall so residents could learn about the PD. Additionally, the PD continued its Coffee with a Cop and Tacos with a Cop community outreach events. The Police volunteer force is a large part of PD's community outreach effort and contributed nearly 6,600 hours of volunteer time in 2023.

Goal: Deliver exceptional City services

Strategy: Remain an employer of choice through expanded recruitment and attraction efforts, a focus on retention, and a positive culture

The Police Department has put extensive effort into attracting quality staff. A large part of this is building a strong work culture at the Police Department based on leadership values, support for each other within the Police Department, and strong community support.

Key Performance Measures

Traffic Enforcement

Goal	Ensure a safe and healthy community			
	FY2022-23 Actuals	FY2023-24 Initial Estimate	FY2023-24 Revised Estimate	FY2024-25 Estimate
DUI-related collisions (target of <100 annually)	122	108	133	120
Injury and fatal traffic collisions (target of <500 annually)	487	502	599	576
Purpose	To increase public safety on City roadways and streets through traffic law education, enforcement, and checkpoints.			
Status	The number of DUI-related collisions has been on a slow increase over the last couple of years, while injury/fatal traffic accidents have remained relatively consistent. The PD will continue to study traffic mitigation and identify what changes are needed to reach these goals, including such elements as traffic congestion.			

Maintain Community Outreach

Goal	Ensure a safe and healthy community			
	FY2022-23 Actuals	FY2023-24 Initial Estimate	FY2023-24 Revised Estimate	FY2024-25 Estimate
Percentage of in-person community outreach events department went to or participated in compared to requests	97%	95%	98%	97%
Purpose	To strengthen police-community partnerships through outreach and engagement, and manage unsheltered strategies and priorities through social services.			
Status	The PD connects with the residents of Roseville through a comprehensive approach of communications and community engagement. The department hosts community programs, attends neighborhood meetings, and communicates through print and digital channels to inform and educate. Through these efforts, the department strives to reduce crime, improve connections and align services for the homeless, and advocate for increased mental health services, substance abuse assistance, and suicide prevention resources.			

Key Workload Measures

	FY2022-23 Actuals	FY2023-24 Initial Estimate	FY2023-24 Revised Estimate	FY2024-25 Estimate
Number of police calls for service where personnel responded	66,542	71,666	65,999	63,604
Number of arrests (including citations issued)	3,299	3,094	3,580	3,441
Percentage of calls that are 911 related (Police)	19%	18%	20	21%

Budget Highlights

The Police Department's FY2024-25 budget totals $63.8 million and provides funding to support 228 position allocations. The PD budget increased by 6.6 percent over the prior fiscal year primarily due to increased labor costs and materials, supplies and services as noted below. Additionally, Patrol's budget decreased significantly due to the shifting of staff (and their materials, supplies, and services expenses) to other areas including School Resource Officers to the Social Services Unit and Detectives to Investigations:

Police Officer (Social Services Unit)

The Social Services Unit (SSU) continues to be the primary resource for the PD in addressing homeless issues in the City. The budget includes the addition of a third Problem Oriented Policing Officer to SSU, with the specific task of outreach and assistance for homeless veterans. SSU has been working on this detail one day a week via overtime, yielding significant results. The addition of this position brings an opportunity to end veteran homelessness in Roseville. This position will also balance the Police Officer to Practitioner staffing in SSU, allowing the Department to pair Officers with Practitioners for safety in the field.

Police Officer (Threat Assessment Unit)

The PD's Threat Assessment Unit (TAU) is responsible for managing threats, posed by individuals via a case management effort. TAU assists the Investigations Unit with specific threat-related cases, which pulls those cases out of the Detective caseload. TAU also works extensively with the Department's School Resource Officers on threat cases on school campuses. The program was initiated with one Detective three years ago, but the workload has significantly increased, necessitating the addition of the Unit's second Detective.

Senior Police Records Clerk

A Senior Police Records Clerk position is being added to the department's Police Records Unit. The Police Records Unit has seen a 162 percent increase in police-specific public records requests over the last five years. The Police Records supervisors have historically handled and processed the Public Records Act (PRA) requests due to the technical expertise to retrieve the data, apply and interpret laws governing the police records due to the confidential nature of the records and the liability to the City if released inappropriately. Digital records are more frequently being requested, which requires additional technical skills and knowledge to access and retrieve records for Closed Circuit Television (CCTV) City Security Camera, Body Worn Camera, and soon In-car Camera footage. The increased workload has resulted in the need for a dedicated staff with the technical skills and unique knowledge and skillset to take on the PRA requests as a primary task.

Property Management System - Equipment Upgrade

The PD's current property management system's hand-held scanners and label printers are approaching end of life. The equipment upgrade will provide new hand-held scanners and printer devices, and a scanner will be assigned to each property technician.

Stop Sticks for Pursuit Interventions

Patrol officers and supervisors use stop sticks as a pursuit intervention tactic to slow or stop a pursuit. Currently, the PD does not have stop sticks in every patrol vehicle, and this addition would allow the department to outfit all patrol vehicles with the device. The device ultimately deflates the suspect vehicle's tire(s) to stop the pursuit or slow the vehicle down, allowing pursuits to end safer, prevent property damage, reduce liability, and potentially save lives.

Outreach Case Management Tool Software

The PD's Social Services Unit (SSU) requires a case management tool designed for first responder social workers to provide the capability to create and manage clinical notes that document the facilitation and delivery of mental health services. The software serves several crucial purposes: ensuring continuity of care, safeguarding client privacy, and aiding social workers in managing client records, evaluations, treatment plans, prognoses, collateral contact, and contact dates. This case management tool will increase efficiency as the PD expands the SSU and its capabilities.

In-Ear Communication Device and Microphone

The in-ear communication device and microphone equipment will equip members of the Roseville/Rocklin SWAT Team, Rapid Containment Team (RCT), and members of the Department's Tactical Dispatch Unit. These teams are called on to respond to critical incidents within the City of Roseville and the greater Sacramento region. During these critical incidents, communication is a key factor that directly contributes to the success or failure of an operation. The communication device and microphone package includes a kevlar reinforced earpiece, a braided fiber waterproof wired push-to-talk microphone, and a waterproof wireless push-to-talk microphone. With the implementation of this equipment, the PD's SWAT, RCT, and Tactical Dispatch members will have clear and reliable communications regardless of weather conditions.

Unmanned Aircraft System (UAS) Batteries

The PD's UAS program relies on lithium battery technology for power. Batteries are an added expense and do not come with the purchase of each drone. A single UAS battery typically lasts for a flight time of 20-30 minutes depending on conditions. A typical call-out or response for a UAS may last hours. Having multiple batteries per platform will allow the UAS Team greater flight time with drones during operations.

Crime Scene Investigation (CSI) Camera Lenses and Batteries

New macro camera lenses are needed for the department's CSI cameras, as the current macro lenses are outdated. Additionally, the CSI cameras' batteries are draining quicker than expected and require additional battery packs that hold two batteries at once to ensure a fresh battery is always available.

40mm Multi-Shot Less Lethal Tactical Launcher

The 40mm Multi-Shot Less Lethal Tactical Launcher is designed to fire all 40mm less lethal round and gas munitions. The launcher can be used in riot control, crowd control, and breaching operations. The Roseville/Rocklin SWAT Team will utilize the launcher to deploy tear gas munitions during critical incidents and emergency situations. The multi-shot capability of the tactical launcher has a distinct advantage over the single-shot variants currently deployed by the PD. The multi-shot launcher can be loaded mission-specific with a variety of 40mm less lethal munitions, allowing the operator to select the desired round given each unique situation, without having to waste seconds with reloading or switching munition types.

Training

The PD's training budget includes an increase of $31,000. Department personnel will attend the annual California Association of Tactical Officers Conference, Women Leaders in Law Enforcement Training Symposium, and Real-Time Crime Center technology training.

Budget Summary

Positions by Division/Program

Fire Department

Overview of Services

The Roseville Fire Department is a full-service agency that strives to provide the community with the highest level of public safety services. The department's goal is to protect lives, property, and the environment through fire suppression, emergency medical services, community risk reduction, public education, and emergency preparedness. In fulfilling this mission, the following services are provided:

Fire Administration

This division provides oversight and coordination to the various programs and services provided by the department and ensures City policies and guidelines are implemented, including the overall management of the department's budget, community outreach, and public information programs.

Fire and Life Safety

As the focal point of the department's effort to minimize risk within the community, the division's responsibilities include enforcing the California Fire Code, including a comprehensive fire safety inspection program and administering a comprehensive hazardous materials inspection program. The division delivers fire safety education programs to thousands of students and a full-service car seat safety program to the community.

Fire Operations

The department's core mission is to respond to all hazards and emergencies, from the routine to the catastrophic. As a fire-based emergency medical department, the Fire Operations Division responds to many calls for service, including fires, medical responses, rescues, and hazardous materials emergencies. The division maintains a host of emergency equipment and vehicles as well as a Type I Hazardous Materials Response Team and a Type II Rescue Team.

Fire Training

The Fire Training Division coordinates initial and ongoing emergency response and medical training for all firefighters within the department. The division maintains a training center that is utilized daily by operational personnel to maintain proficiency in both firefighting and emergency medicine. The department has service agreements with Sierra College and other agencies, which allows them to utilize the facility while providing the City with a source of annual revenue.

Emergency Preparedness

The department coordinates the City's Emergency Management Team, which is comprised of at least one member of every department. As the program lead, the Fire Department coordinates required citywide emergency management training and exercises. The department coordinates the maintenance of the Emergency Operations Center and the Emergency Operations Plan.

Accomplishments

- In 2023, the department responded to over 19,647 calls for service, with 90 percent of responses within nine minutes and 12 seconds.
- Continued the multi-year training contract with the California Office of Emergency Services and the development of a Hazardous Materials Derailment Training Facility with several site improvements completed.
- Placed Engine 8 in service, adding a much-needed resource to the northernmost area of Roseville.
- Received a $30,000 sub-grant for a high-pressure airbag system from FEMA/Homeland Security passed through the Placer County Office of Emergency Services.
- Received a $31,000 sub-grant for portable ChemPro X hazmat equipment from FEMA/Homeland Security passed through the Sacramento Urban Area Safety Initiative (UASI).
- Received two cardiac care training monitors and one medical training mannequin valued at $50,650 from the Placer County Ambulance Advisory Committee and the Sierra-Sacramento Valley Emergency Medical Services Agency.

Council Strategic Plan

Goal: Remain fiscally responsible in a changing world

Continue to seek grants to offset expenses.

Continue to monitor legislative and regulatory mandates and develop solutions that are fiscally responsible and sustainable.

Continue to review all purchases to utilize competitively bid contracts, and lower cost purchasing opportunities.

Continue to secure training partnerships through federal, state and local partners to enhance training of staff and provide funding to support and develop those programs.

Goal: Ensure a safe and healthy community

Continue to monitor response times and optimize service levels.

Explore alternative response models.

Goal: Enhance economic vitality

Continue to focus on partnerships in higher education with Sierra College, California Specialized Training Institute, and California Office of Emergency Services.

Goal: Invest in well-planned infrastructure and growth

Utilize analytical data and performance metrics to drive decision making related to facility needs to improve operational capabilities and response.

Goal: Support community engagement and advocacy

Engage the community in various ways, including attending neighborhood meetings, a kids' fire camp, an active social media presence, and open houses. All of these outreach methods help the department communicate the services and programs provided to the community.

Goal: Deliver exceptional City services

Work to enhance the use of technology, best practices, and data to improve operations.

Continue to work with other City departments to develop collaborative solutions.

Key Performance Measures

Response Times within Standards

Goal	Ensure a safe and healthy community			
	CY2022 Actuals	CY2023 Actuals	CY2024 Estimate	CY2025 Estimate
Total response time (call to arrival) for 90 percent of the total emergency hazardous materials incidents	12:18	12:38	12:48	08:00
Total response time (call to arrival) for 90 percent of the total emergency technical rescue incidents	10:31	10:45	09:50	08:00
Total response time (call to arrival) for 90 percent of the total emergency fire incidents	09:22	08:35	09:59	08:00
Total response time (call to arrival) for 90 percent of the total emergency medical incidents	09:08	09:20	09:14	07:00
Purpose	Total response time impacts the outcome of each emergency incident.			
Status	The department continually monitors response times to emergency incidents.			

Support Community Safety Education

Goal	Support community engagement and advocacy			
	CY2022 Actuals	CY2023 Actuals	CY2024 Estimate	CY2025 Estimate
Number of Roseville K-5th grade students receiving a fire safety presentation	3,000	8,000	8,400	8,500
Car seat safety inspections completed	189	220	220	250
Purpose	The department works to educate the community in targeted areas through proactive education.			
Status	The school education program has been able to effectively educate approximately 8,000 students annually.			

State Mandated Inspections Performed

Goal	Ensure a safe and healthy community			
	FY2023* Number of Occupancies	FY2023* Number of Occupancies Inspected	FY2023* Percent Completed	FY2023* Total Inspections
Number of Assembly (A) occupancy	323	323	100%	629
Number of Educational (E) occupancy	84	84	100%	134
Number of Institutional (I) occupancy	25	25	100%	39
Number of Hotel/Motel/ Apartment (R-1/R-2) occupancy	209	209	100%	235
Total Certified Unified Program Agencies (CUPA) inspections conducted	n/a	n/a	n/a	1,328
Total inspections conducted	n/a	n/a	n/a	2,346
Purpose	Pursuant to CA Health & Safety Code section, 13146.4, every fire department is required to perform annual inspections and shall report statistics annually to its administering authority when discussing its annual budget in a resolution or a similar formal document.			
Status	The department continually monitors the status of mandated inspections to ensure they are completed.			

*FY2023 Inspections in Accela defined as FY22 = 7/1/22-6/30/23

Key Workload Measures

	CY2022 Actuals	CY2023 Actuals	CY2024 Estimate	CY2025 Estimate
Number of medical incidents	12,222	11,974	12,500	13,000
Number of fire incidents	386	342	350	350
Number of total incidents	19,262	19,647	19,750	20,000

Budget Highlights

The Fire Department's FY2024-25 budget totals $49.8 million (an increase of 9.1 percent over the prior fiscal year) and supports 130 position allocations. This increase is primarily due to labor cost increases and increased Internal Service Fund (ISF) charges related to fleet replacement, information technology, and general liability insurance. The budget also includes funding for the Department to conduct a 10-person fire academy to maintain minimum staffing requirements.

Very High Frequency (VHF) Handheld Radios

The FY2024-25 Capital Improvement Program budget allocates funds for the replacement of VHF handheld radios that are no longer available for purchase. This is essential to ensure compliance with regulations requiring the maintenance of programmable VHF radios for participation in the statewide mutual aid system.

Fire/Emergency Medical Services (EMS) Reporting Software

Included in the budget is funding for acquiring new fire and EMS reporting software. This software satisfies all state and federal reporting standards and streamlines existing systems, reducing redundancy.

Budget Summary

Positions by Division/Program

Economic Development Department

Overview of Services

The Economic Development Department is comprised of two divisions: Economic Development and Housing, which includes the federally-funded Housing Authority. Economic Development's primary role is to foster a dynamic environment that supports business growth, attracts private investments, and delivers housing options that enhance community vitality.

The Economic Development Division focuses on strengthening Roseville's position as a community of choice for business, investment, and lifestyle by retaining, attracting, and growing businesses, encouraging job growth and investment in the City, leveraging local and regional partnerships, and building on Roseville's competitive advantages, including the City's utilities. The division also provides staffing and support for the City's Economic Development Advisory Committee.

The Housing Division manages programs, including Housing Choice Voucher (HCV) Rental Assistance, Community Development Block Grant, Affordable Purchase, and Owner-Occupied Rehabilitation, that strive to increase the City's affordable housing availability. The division provides staffing and support for the Roseville Housing Authority (RHA) (Housing Choice Vouchers), the Homeless Response Team, and the Successor Agency.

Economic Development Advisory Committee

The Economic Development Advisory Committee advises the City Council on creating a community environment conducive to existing businesses, attracting desirable businesses to Roseville, and promoting tourism as a key element of the local economy.

Roseville Housing Authority

The Housing Authority is funded by the federal Department of Housing and Urban Development (HUD) and administers the HCV Rental Assistance Program (formerly Section 8), which assists elderly, disabled, and low-income individuals and families by providing affordable housing opportunities in a safe environment.

Roseville Housing Loan and Grant Programs

The department's Housing Division coordinates and administers the Community Development Block Grant as well as First-Time Homebuyer, Housing Rehabilitation, Homeless Prevention and Rapid Rehousing and Affordable Purchase and Rental programs, which create affordable housing and are funded from several federal and state grants, as well as developer fees and other sources.

Roseville Homeless Response Team

The department provides leadership and coordination with both the internal Homeless Coordination Team to enhance interdepartmental communication across the City on actions related to homelessness and the multidisciplinary Homeless Response Team and the Placer County Continuum of Care.

Successor Agency and Housing Successor

The department provides staff support for the Successor Agency of the former Redevelopment Agency and manages the agency's enforceable obligations. The Successor Agency is overseen by the Placer County Consolidated Oversight Board. The Housing Successor of the former Redevelopment Agency has assumed the assets of the former Low and Moderate Income Fund and staff manage the funds that are used primarily for affordable housing projects and homelessness intervention activities.

Accomplishments

Economic Development

- Assisted Bosch with its acquisition of TSI Semiconductors and raised Roseville's visibility as a desirable place to live and work among an international audience. With this acquisition, Bosch is establishing significant manufacturing capacity in an important market. Bosch plans to invest $1.5 billion to transform the Roseville site into a facility that produces and tests silicon carbide semiconductors, which are key building blocks for electric vehicles.
- Completed one full year of programming and activation at the Roseville Venture Lab (RVL), hosting over 50 events or programs with more than 2,000 attendees and participants, creating awareness of Roseville as a city that engages in innovative partnerships and supports small businesses and entrepreneurship.
- Several departments coordinated to support Costco's efforts to open a new store at Baseline Marketplace. The investment includes $20 million in infrastructure necessary to catalyze the whole site, eventually providing the City with an estimated $7 million or more in annual sales tax revenue and bringing much needed retail to west Roseville. Offsite improvement plans are ready to issue, and construction documents and onsite civil improvement plans are currently under review. Costco expects to put the project out to bid in the spring with an anticipated June construction start.
- Supported the efforts of several key industry activities and expansions, including Penumbra, Quick Quack, McKesson, Roseville Junction, Alpine Rock Climbing, and Zeektek. These efforts have added jobs and revenue to the City.

Housing Division

- Funded the Prospera at Fiddyment workforce project with a $1.5 million loan in local housing trust and housing successor low and moderate income housing asset funds to Hampstead Partners to assist with the development of 104 affordable workforce housing units.
- Funded the Pleasant Grove Apartments project with a $7.55 million loan in local housing trust and prohousing incentive program funds to Mercy Housing California to assist with the development of 49 affordable units.
- Disbursed over $800,000 in Homeless Prevention and Rapid Rehousing (HPRR) funding to provide financial assistance and services to prevent individuals and families from becoming homeless and help those who are experiencing homelessness to be quickly re-housed and stabilized.
- Submitted a successful application to California Housing and Community Development Department's (HCD) Prohousing Incentive Program and received an award of $1.6 million in funds. These funds will support future affordable rental housing development in Roseville.
- Successfully launched a new Landlord Incentive Program to encourage private landlords to participate in the HCV Program and create more available units for voucher holders to reduce instances and durations of homelessness. The program has resulted in leasing 109 new households and recruiting 34 new landlords.

Council Strategic Plan

Goal: Ensure a safe and healthy community

Strategy: Maintain City efforts to reduce homelessness while collaborating and advocating regionally as appropriate

The Housing Division will continue to increase affordable housing availability and address homelessness by working with affordable housing developers to access capital and keep projects on target, disbursing Homeless Prevention & Rapid Rehousing funds, coordinating with the internal Homeless Coordination Team and the multidisciplinary Homeless Response Team, as well as the Placer County Continuum of Care.

Strategy: Promote a safe community in which all feel welcome and included

The Economic Development Department, in partnership with the City Manager's Office, will continue to work with the Grants Advisory Commission to disburse community grant funding to local non-profit organizations that support and deliver community projects and programs aligned with social determinants of health. Community grants offer a valuable opportunity for the City to partner with community-based organizations that provide the needed services and resources that contribute to and enhance Roseville's quality of life.

Goal: Enhance economic vitality

Strategy: Advance sports tourism, including soccer complex

The Economic Development Division will continue to work with the Parks, Recreation & Libraries Department to implement sports tourism strategies, projects, and opportunities including leveraging partnerships with Placer Valley Tourism (PVT) and the Roseville Area Chamber of Commerce (Chamber). The City's updated Economic Development Strategy identifies sports tourism as a key industry opportunity. This includes a focus on the retail, dining, hospitality, arts and culture, and civic amenities necessary to support growth in this industry.

Strategy: Foster a business climate that supports small businesses and entrepreneurship while attracting and strengthening emerging technology and industry sectors

With implementation and operations of the Roseville Venture Lab, the Economic Development Division will continue to focus on opportunities to grow Roseville's entrepreneurship ecosystem, small business community, and venture backable sectors. The Economic Development Division will also explore additional targeted programs, community partners, and events.

Strategy: Attract businesses that are mutually beneficial to regional interests

The Economic Development Division will continue to focus on opportunities that promote job growth, key industries, and investment in Roseville that are consistent with regional efforts and strengths. This means working with regional stakeholders to strategically promote Roseville's value propositions, encourage and facilitate seamless and user-friendly experiences for development, and strengthen the City's prominent and emerging industry sectors. Economic Development will also engage in regional opportunities to secure state and federal funding to support local economic development efforts.

Strategy: Leverage opportunities for innovation and workforce development created by Bosch's investment in Roseville

The Economic Development Division will work with both internal and external stakeholders to build on the momentum created by Bosch's $1.5 billion investment in Roseville. This includes pursuing business growth and workforce development initiatives that build upon the City's value propositions and support innovation and key industry opportunities.

Strategy: Accentuate arts and culture in creating a sense of place

The Economic Development Division will partner with Parks, Recreation & Libraries, and external stakeholders, such as Blue Line Arts and the Downtown Roseville Partnership, to encourage and expand economic opportunities driven by the City's cultural and artistic amenities, events, and sports tourism activities.

Goal: Invest in well-planned infrastructure and growth

Strategy: Reinvest in core neighborhoods

The City's Commercial Corridor Specific Plan project is intended to encourage pedestrian-friendly design, public amenities, streetscape beautification, appropriate parking, access to transit, and flexible and mixed uses. Economic Development will work with Development Services to identify opportunities and strategies that stimulate and support investment along the approved commercial corridor plan areas. Corridor specific programs and incentives could stimulate investment and support property and business owners committed to enhancing the aesthetic of their buildings and the overall appearance of these commercial corridors.

Key Performance Measures

Housing Choice Voucher Lease Up

Goal	Ensure a safe and healthy community			
	FY2022-23 Actuals	FY2023-24 Initial Estimate	FY2023-24 Revised Estimate	FY2024-25 Estimate
Provide HCV rental assistance to at least 772 households monthly	96%	92%	96%	95%
Purpose	To maintain 95 percent monthly lease up of HCV households.			
Status	The Housing Authority's ability to assist the same number of households is decreasing due to sharp rent increases in Placer County. Continued rent increases could result in a shortfall of HCV funds for the third year in a row. RHA continues to work closely with HUD to address funding and secure increased funding for future years. The goal is to increase RHA's future budget authority and maintain a 95 percent or more lease up range.			

Affordable Projects Monitoring

Goal	Ensure a safe and healthy community			
	FY2022-23 Actuals	FY2023-24 Initial Estimate	FY2023-24 Revised Estimate	FY2024-25 Estimate
Monitor all 27 affordable rental agreements on an annual basis	100%	100%	100%	100%
Purpose	To ensure all affordable rental obligations are met.			
Status	As required, all affordable projects are current on rental obligations and annual monitoring.			

Key Workload Measures

	FY2022-23 Actuals	FY2023-24 Initial Estimate	FY2023-24 Revised Estimate	FY2024-25 Estimate
Family Self-Sufficiency Escrow Accounts	15	10	17	17

Budget Highlights

The Economic Development Department's FY2024-25 budget totals $4.6 million (a decrease of 20.7 percent from the prior fiscal year) due to decreases in Housing Division fund expenses. The Housing Successor Low Mod Fund budget decreased by nearly $900,000 because it does not have a major affordable housing project this year and the Community Development Block Grant (CDBG) Fund budget decreased by more than $400,000 but will be re-aligned later in the fiscal year. Economic Development has 18 position allocations—an increase of one allocation from the prior year due to the addition of an Economic Development Manager position. However, when that position is filled, the department will eliminate a vacant position and its total allocation will be back to 17 positions.

Budget Summary

Positions by Division/Program

Parks, Recreation & Libraries Department

Overview of Services

The mission of the Parks, Recreation & Libraries Department (PRL) is to enhance lives and the community by providing exceptional experiences. The department accomplishes this by providing the following services and facilities:

PRL Administration

PRL's Administration Division provides administrative services and support to the department. With a department staff of 153.5 positions and 700+ part-time staff and an operating budget of $52 million, these services are critical to the department's success. Administration includes human resources, budget, accounting, and technology. PRL's Marketing and Communications section has won numerous awards in recent years for its outstanding communication to our residents in various formats, including the triannual *Experience PRL* magazine and the monthly *What's Happening in PRL* video series. This team also facilitates communication with our residents via the website, social media, and public meetings.

Parks

PRL's Parks Division oversees management of the department's 87 parks totaling nearly 900 acres, approximately 4,000 acres of open space, and over 40 miles of paved trails. Consisting of Parks and Open Space sections, this division also maintains of 315 acres of city streetscapes and 43.5 acres of school property.

Park Development

The Park Development Division works closely with PRL staff, City staff, and the development community to plan, construct and rehabilitate parks and recreation facilities. Park Development staff reach out and listen to residents to ensure the community's recreation, library, parks, and open space needs are met.

Recreation and Youth Development

PRL's recreation offerings are managed by the Programs and Events section, ensuring a wide variety of quality recreational opportunities for tots, youth, teens, adults, and seniors. Recreation facilities are managed by the Facilities section, which oversees the front desk and facility operations at PRL's community center and fitness center. The Aquatics

section manages the aquatics programs and facility operations at three swimming pool facilities. Youth Development is comprised of the Adventure Club, Preschool, After School Education and Safety (ASES), and subsidized care programs. Lastly, the City has two championship golf courses hosting 100,000+ rounds annually.

Libraries & Culture

PRL's three libraries loaned nearly 1,300,000 items and served over 360,000 visitors this past year. Various educational and cultural programs are offered at the libraries and Maidu Museum & Historic Site, focusing on literacy, early learning, and cultural and natural resources. Four public art pieces were installed in PRL parks and facilities in 2023. The libraries continue to lend both print and electronic materials and utilize technology to deliver efficient services to every community member.

Accomplishments

- New facilities:
  - Westbrook Adventure Club
  - Rex Fortune Adventure Club
- New parks:
  - The Courts at Gibson Park
  - Solaire Park
  - Campus Oaks Park
  - Installation of new Sculpture at Veterans Park North
- Completion of major renovations:
  - Mike Shellito Indoor Pool (MSIP) replaster
  - Play structure replacement at Lockridge Park
  - Play structure replacement at Blue Oaks Park
  - Play structure replacement at Mark White Park
  - Play structure replacement at Erven Park
  - Shade at Luken Park
  - New Sports Field fencing at Maidu Soccer and Central/Crabb Ballfields
  - Maidu Skate Track renovations
  - Diamond Oaks Driving Range netting replacement
- Groundbreaking of major facility projects:
  - The Roseville Soccer Complex
  - Weber Park renovations
  - Johnson Pool renovations
- Public outreach for:
  - Weber Park renovations
  - Pineschi Park play structure replacement
  - Twinwood Park play structure replacement
  - Hall Park play structure replacement

- Veterans Park play structure replacement
- Crimson Ridge Park
- C-63 Neighborhood Park
- Pistachio Regional Park Master Plan Update
- KT-52 School/Park
- FD-51 Neighborhood Park
- FD-50 Neighborhood Park
- DF-50 Neighborhood Park
- CO-61 Neighborhood Park
- Saugstad Park renovations and Skate Track

- Additional accomplishments:
  - Continued implementation of PRL's Strategic Master Plan
  - Cleaned 396 homeless encampments and removed 81 tons of hazardous debris
  - Creation of nine new community events, including CommUNITY Picnic, Dinner on the Bridge, Breakfast with the Bunny, Trail-A-Bration and Trivia Night
  - New public computer reservation system, Wi-Fi self-printing system, self-loan borrowing stations and enhanced library catalog system at libraries
  - More than 600,000 recreation, Adventure Club, and preschool program participants
  - More than 600,000 visits to PRL recreation facilities
  - 26 percent increase in visitors and 90 percent increase in program attendance at libraries
  - Over 1.3 million items borrowed from the library
  - Over 300,000 visits to Woodcreek Golf Club and Diamond Oaks Golf Course with 103,000 rounds played
  - More than 1,300 volunteers provided 8,000 volunteer hours
  - More than 3.4 million park visitations
  - Installation of murals at the Downtown Library, Riley Library, and the Maidu Community Center; and a public art sculpture at Veterans Memorial Park North

- Awards:
  - Recognized as National Gold Medal Finalist for the second year in a row
  - Received ten awards for marketing at the local, state and national level for graphic design, including The *Experience PRL* magazine publication, and the *What's Happening in PRL* video series

Council Strategic Plan

Goal: Remain fiscally responsible in a changing world

The department will continue to be innovative in the offering of new programs and will evaluate and update user fees. Additional federal and state grant funding will be sought to support PRL services. The *Future*PRL Strategic Master Plan's community needs assessment helps guide decision making to ensure resources are allocated and leveraged to support community priorities. Sponsorship fees help support programs and facilities.

Goal: Support community engagement and advocacy

The PRL Department is actively engaged in multiple social platforms, including Facebook, Instagram, and Nextdoor. The department's *Experience PRL* magazine and monthly video series help educate the community on PRL programs, services and efforts. The department engages residents through public meetings (virtually and in-person), social media, website, and surveys, seeking input on park design, playground replacement design, program offerings, service priorities, and program satisfaction. PRL was recently ranked 8th in the nation for social media engagement in the park and recreation industry.

Goal: Ensure a safe and healthy community

Everything PRL does contributes to the community's health and wellness. The department promotes physical activity through participation in recreation programs and visits to local trails, parks, and playgrounds. The department promotes social and emotional wellness through interaction with others at PRL organized activities. "Be Well Roseville," a citywide wellness initiative, has engaged thousands of residents and promoted physical activity, good nutrition, and mind/body renewal. Mental and intellectual wellness services are provided at libraries. PRL is an important partner in the City's efforts to address homelessness by cleaning camps and removing hundreds of tons of hazardous debris from open spaces each year, protecting humans and the environment. A new universally accessible playground is planned at the Soccer Complex and more adaptive programs and events are offered for people with special needs. City libraries, recreation programs, and facilities have always and will continue to be welcoming for all to enjoy.

Goal: Enhance economic vitality

The department is instrumental in advancing sports tourism at its many sports facilities that draw league and tournament play, including the Soccer Complex currently under construction. PRL is dedicated to the promotion of arts and culture, installing four public art pieces at PRL parks and facilities in 2023. New and continued museum programs inform attendees of Roseville's rich heritage. National research shows that proximity to parks increases home values; parks and open spaces improve air and water quality; and quality parks, recreation, and library systems attract businesses, talented workers, and new residents.

Goal: Deliver exceptional City services

PRL puts delivering exceptional city services at the forefront of everything the department does. Internal department efforts focus on culture, making PRL a department where people want to work and stay. The department developed a written succession plan emphasizing staff training and development. PRL invests in many technologies to improve its service delivery.

Goal: Invest in well-planned infrastructure and growth

The City continues to reinvest in its aging infrastructure, including playgrounds, park amenities, streetscapes, and more. Several new parks will be in design or under construction this year to meet the needs of the growing community. Construction of the Soccer Complex is underway, and improvements to Weber Park and Johnson Pool will begin in 2024. Investment in City parks, facilities and streetscapes adds new vitality to neighborhoods.

Key Performance Measures

Participations/Visitations

Goal	Deliver exceptional City services			
	FY2022-23 Actuals	FY2023-24 Initial Estimate	FY2023-24 Revised Estimate	FY2024-25 Estimate
Program and Event Participations	696,871	770,000	808,500	810,000
Recreation Facility Visitations	564,207	650,000	682,500	690,000
Library Facility Visitations	369,909	400,000	420,000	450,000
Purpose	The department's mission is to enhance lives and the community by providing exceptional experiences. PRL's facilities and programs enable staff to accomplish its mission and add value to the Roseville Community.			
Status	Visitations at PRL facilities and participation in programming and events continue to increase with more programs and events being offered.			

Revenue Recovery

Goal	Remain fiscally responsible in a changing world			
	FY2022-23 Actuals	FY2023-24 Initial Estimate	FY2023-24 Revised Estimate	FY2024-25 Estimate
Revenue to Operating Expenditures (without CFD/LLD)	37.1%	37.3%	37.1%	36.3%
Purpose	The financial stability of the department is the key to success. The department continues to seek new revenue opportunities to lessen its reliance on the General Fund. Monitoring revenue to operating expenditures ratio is a good measure of financial success.			
Status	Revenue recovery percentages are rising slightly, but operating expenses continue to increase due to economic conditions. PRL is actively exploring alternative funding options to sustain the department's fiscal health.			

Library Comparisons

Goal	Deliver exceptional City services			
	FY2022-23 Actuals	FY2023-24 Initial Estimate	FY2023-24 Revised Estimate	FY2024-25 Estimate
Items loaned per capita	8.3	8.5	8.8	9.3
Budget books per capita	2.6	2.6	3.3	3.7
Visitors per hours open	60	49	54	58
Purpose	The library provides equitable access to resources and programs that support lifelong learning and literacy for Roseville.			
Status	Use of technology in customer self-service will increase efficiencies and expanded programming for all ages and will enhance learning and engagement for customers.			

Park Maintenance

Goal	Deliver exceptional City parks			
	FY2022-23 Actuals	FY2023-24 Initial Estimate	FY2023-24 Revised Estimate	FY2024-25 Estimate
Maintenance Standards: Increased Pruning	3-4 times per year	3-4 times per year	3-4 times per year	3-4 times per year
Maintenance Standards: Increased Fertilization Application # of Acres	214	218	268	273
Purpose	The department's mission is to enhance lives and the community by providing exceptional experiences. Parks enable the department to accomplish its mission and to add value to the Roseville community. Effective park maintenance ensures safe, clean, and green spaces for residents' enjoyment.			
Status	Park Maintenance is focused on maintaining, renovating and replacing existing assets.			

Key Workload Measures

	FY2022-23 Actuals	FY2023-24 Initial Estimate	FY2023-24 Revised Estimate	FY2024-25 Estimate
Number of Parks Maintained Number of Facilities Maintained *(includes Adventure Clubs)*	82 36	84 37	87 36	91 37
Number of Park Acres Number of Open Space Acres Number of Streetscape Acres	881 3,910 323	968 4,247 320	898 4,252 355	967 4,262 360
Library Materials Loaned	1,295,457	1,250,000	1,358,000	1,500,000
Number of New Parks (construction) Number of New Parks (design) Capital Improvement Project Rehabilitations Unscheduled or Value-Added Projects (On-Demand Work)	4 6 9 31	4 7 5 30	4 5 5 28	4 3 5 30
Number of phone calls received from customers	22,052	50,000	32,500	33,000

Budget Highlights

PRL's FY2024-25 budget totals $52 million (an increase of 8.7 percent over the prior fiscal year) and supports 153.5 position allocations (an increase of 7.25 positions). The PRL Department budget increase is primarily due to increased labor and materials, services, and supply costs associated with maintaining current service levels and additional funding to support the new positions and programs highlighted below.

PRL is working towards accreditation through the National Recreation and Park Association's (NRPA) Commission for Accreditation of Park and Recreation Agencies (CAPRA). This accreditation provides quality assurance and quality improvement for accredited park and recreation agencies throughout the United States by providing agencies with a management system of best practices. CAPRA is the only national accreditation of park and recreation agencies and is a valuable measure of an agency's overall quality of operation, management, and service to the community. Achieving CAPRA accreditation is the best way to demonstrate that the department provides the community with the highest level of service.

The PRL Department completed a comprehensive strategic plan in 2022, accompanied by an action plan, to establish clear and attainable goals, objectives, and implementation strategies to guide the department for the next ten years. The department is making great progress on this plan, having completed 25 percent of the plan's recommendations in year one. In alignment with the plan, funding has been included in the FY2024-25 budget to maintain existing parks and facilities, and offer new parks and recreational opportunities to residents.

PRL is continually challenged with recruiting and retaining quality staff to conduct its many programs/events and to ensure its parks/facilities are adequately maintained. Ongoing efforts have been made to re-align department staffing resources to find the right balance of full-time and part-time employees and contractor resources to deliver programs and services effectively and efficiently. As evidenced by the new park maintenance positions funded by the reallocation of contract dollars, these efforts will continue in FY2024-25.

A Sports Supervisor was added to the Recreation Division in the PRL Department. With the construction of the Soccer Complex, this position will be critical to overseeing operations, recruiting tournaments and anchor tenants, and managing scheduling at this facility. The position is expected to be fully funded by complex revenues in year three.

Five Park Maintenance Worker positions were added to the budget, with funding from the reallocation of contract dollars. Greater ownership, flexibility, efficiencies, and long-term savings will result from staff assuming the overall maintenance of 22 school parks as well as the landscaping at Maidu and Mahany. This work was previously completed by contract workers.

PRL operates five pools and four splash pads. Some of the pools are open year-round and require coverage from 6 a.m.-10 p.m., seven days per week. To ensure their safe operation, an Aquatics Maintenance Technician will be converted from limited term to regular status. This expertise is needed on an ongoing basis.

PRL conducts extensive public outreach. Marketing of recreation programs is paramount to their success. A Graphic Designer position is being changed from 0.75 to 1.0 FTE in the FY2024-25 budget to meet increased demands. This position enhances our communication with residents and supports the City Council's priority related to community engagement and advocacy.

To continue investment in existing parks and streetscapes, funding is included in the FY2024-25 budget to implement cycles to replenish landscape bark and replace irrigation controllers. Additional funding has been allocated for the maintenance of new parks and landscapes and the improvement of aging streetscapes and greenways. This includes the new $4 million Rocky Ridge/Cirby Streetscape and Sunrise Greenway Improvements project, funded by FY2022-23 General Fund year-end surplus.

Golf Course Fund

The most significant source of revenue in the Golf Fund is generated through user fees for course play. Since 2021, trends in golf rounds have increased, resulting in higher revenues. The department has seen rounds and revenues begin to stabilize in FY2023-24. Although revenues in the Golf Course Funds have trended positively over the past few years, both golf facilities and courses are in need of significant improvements. Exterior paint and landscape improvements were completed at both clubhouse facilities in 2023. A bunker renovation design has been completed at Woodcreek and construction is scheduled for FY2024-25.

Youth Development Fund

Youth Development Fund revenues are derived from fees collected for before- and after-school programs and preschool programs. The fund includes Adventure Club, preschool, After School Education & Safety (ASES), and subsidized care programs. Fund expenses include staff salaries and benefits, facility maintenance, enrichment contractors, materials, and supplies, indirect charges, Internal Service Fund charges, and facility loan payments. Revenues of the programs are no longer sufficient to support all program expenses and facility costs.

Certain youth development programs receive funding assistance from the Roseville City School District and/or the California Department of Social Services for qualifying children to participate at select sites at no or low cost to eligible families. These programs operate at a loss and require a subsidy to continue. The proposed budget includes a General Fund subsidy transfer of $791,363 to support the subsidized programs and facility loan payments.

Additionally, significant investment is needed into aging Adventure Club facilities. Funds for HVAC repair, roof replacement, flooring replacements, exterior paint, Americans with Disabilities Act (ADA) ramp repair/resurfacing, etc., totaling $809,000, are requested from the General Fund in FY2023-24.

Budget Summary

Positions by Division/Program

Full Time Equivalent (FTE) Positions	FY2022-23 Actuals	FY2023-24 Adopted	FY2023-24 Amended	FY2024-25 Budget	FY2024-25 Change	FY2024-25 Change (%)

Public Works Department

Overview of Services

The Public Works Department (PWD) manages all aspects of transportation infrastructure within the public right of way, including the maintenance and operations of programs and services for the safe and efficient transportation of Roseville residents, businesses, and visitors. The PWD also manages the construction and maintenance of public buildings, is responsible for flood control within the City, and manages and maintains the City's fleet of vehicles. Specifically, Public Works plans, develops, and maintains public roads, bridges, buildings, traffic signals, City fleet, flood control facilities, Roseville Transit, and Class I (off-road) multi-use trails.

Administration

The Administration Division provides direction, goals, and leadership for the department; maintains the integrity of policies, procedures, staffing, and budget; coordinates supportive services for the department and represents the department at Council, manager, regional and public meetings and events; and provides support staff to the Transportation Commission, a recommending body for the City Council.

Alternative Transportation

The Alternative Transportation Division manages Roseville Transit services; various active transportation (bikeway and pedestrian) programs, projects and grants; and transportation demand management through the Transportation Systems Management Ordinance. The programs this division manages include Roseville Bikefest, Safe Routes to School, School Crossing Guards, Mobility Training, and volunteer Transit Ambassador and Bike/Walk Ambassador programs. In addition to managing Roseville Transit, Alternative Transportation oversees, on behalf of the Placer County Transportation Planning Agency, the operation of the South Placer Transit Information regional service - a phone, web, and e-mail portal for the public to easily obtain information and trip-planning assistance for all public transit services in the south Placer region.

Facilities

The Facilities Division maintains, repairs, and rehabilitates 1.35 million square feet of City facilities. The division completes over 8,000 work orders annually, oversees the Americans with Disabilities Act (ADA) improvements for facilities, is responsible for California Air Resources Board (CARB) requirements for emergency generators and boilers, manages state elevator permitting, alarms, card access, electric vehicle (EV) charging, and manages facility tenant improvements and new construction. The Custodial unit cleans 596,000 square feet of facilities nightly.

Fleet Services

The Fleet Services Division oversees the acquisition of new and replacement vehicles, conducts preventative maintenance, and handles repairs for the entire fleet of vehicles and equipment the City owns. With a proud record of 19 years, Fleet Services has maintained the Automotive Service Excellence (ASE) Blue Seal of Excellence status. It also ensures full compliance with all CARB rules and regulations governing public fleets and adherence to the state-mandated California Highway Patrol Basic Inspection of Terminals program. Moreover, Fleet Services is actively involved in implementing and maintaining zero-emission and alternative fuel vehicles, including battery-electric sedans, battery-electric buses, renewable diesel fuel, and compressed natural gas (CNG) vehicles, along with the associated infrastructure.

Street Maintenance

The Street Maintenance Division maintains over 1,100 lane miles of public roadway infrastructure, including drainage, paving, sweeping, signs, and markings. This division also performs storm drain maintenance, including drain inlets, underground pipes, and open channel tributaries that lead to the City's creeks. This work protects the public by identifying and removing blockages that could cause flooding. Optimized pavement maintenance includes streets, alleys, multi-use trails, and parking lots. Regular street sweeping keeps pollutants out of the storm drain system and City creeks and keeps the community clean. Signs in the right of way, City parks, and City facilities are updated and replaced when deteriorated to ensure they meet state and federal standards. Markings are maintained to provide clear, highly visible, and consistent information to safely guide pedestrians, bicyclists, and motorists along City streets and multi-use paths.

Engineering

The Engineering Division designs and manages the construction and maintenance of public roads, bridges, and Class I (off-road) multi-use paved trails and flood control projects, including an advanced flood alert warning system. The City of Roseville is one of only two communities in the United States with the Federal Emergency Management Agency (FEMA) Class I rating for flood protection and insurance. Engineering is responsible for maintaining this rating for the safety and benefit of the community. Engineering also manages the City's Intelligent Transportation System (ITS), which includes approximately 200 traffic signals, 11 changeable message signs, 30 pedestrian blinker signs, two automated horn train crossings, 23 speed radar signs, 10 Police Department license plate reader cameras, 30 floodplain monitoring stations, and a complex fiber network that supports the needs of various City departments and resources.

Accomplishments

Alternative Transportation

- Awarded a $6.1 million grant for constructing the Dry Creek Greenway East Phase 2 Trail.
- Awarded an $11.6 million grant to purchase 15 electric buses, chargers, and infrastructure.
- Roseville's 30th Annual Bikefest returned as an in-person event, providing bike safety information to Roseville residents and giving away over 500 helmets to children and adults whose helmets were damaged or did not fit properly.
- The Safe Routes to School program delivered two Bicycle/Pedestrian Safety Assemblies and one Bike Rodeo at the local Boys and Girls Club. Thirteen area schools participated in Safe Routes to School's Walk to School Day event, two participated in a new Winter Walk to School Day event, and two participated in the Ruby Bridges Walk to School Day event.

Facilities

- 116 South Grant Street tenant improvement Phase II in design with construction starting late summer.
- Completed City Council Chambers space utilization and feasibility study and the downtown building space utilization and feasibility study.

Fleet

- Received the Automotive Service Excellence's "Blue Seal of Excellence" award for the 19th consecutive year in 2023.
- Ranked #19 by Government Fleet Magazine as a Leading Fleet for 2023.
- Recognized as #87 by "100 Best Fleet" by the National Association of Fleet Administrators in 2023.

Street Maintenance

- Completed 5-year Proposed Resurfacing Plan.
- Continued update of the Pavement Condition Assessment and Analysis.
- Cleaned and sealed over 450,000 linear feet of pavement cracks using over 100,000 pounds of material.
- Paved over 420,000 square feet of asphalt.
- Installed/replaced over 1,300 signs and delineators. •
- Responded to more than 1,000 service calls.
- Completed over 24,000 miles of commercial and residential street sweeping.
- Abated more than 38,000 square feet of graffiti.

Engineering

- Completed the construction of the approximately $7 million Washington Boulevard at All America City Roundabout Project, and constructed approximately $4 million worth of ADA ramps and roadway resurfacing projects.
- Completed the design and began construction of several key transportation projects, including the approximately $31 million Roseville Parkway Extension Project, the approximately $13 million Pleasant Grove Blvd Widening Project, and the approximately $9.5 million Soccer Complex Intersection Improvements Project.
- Completed 139 traffic and speed studies and responded to 252 myRsvl Requests.
- Individually configured approximately 300 traffic cameras with standardized settings to ensure consistent video quality and retention.

Council Strategic Plan

Goal: Remain fiscally responsible in a changing world

Alternative Transportation coordinates multi-use trail construction with specific plan developers and successfully competes for regional, state, and federal grant funding to implement the City's Bicycle Master Plan and Short-Range Transit Plan.

Alternative Transportation obtained over $12 million in competitive grant funding through the Solutions for Congested Corridors Program, evenly split between the Dry Creek Greenway Phase 1 (Riverside to Rocky Ridge Trail) and the South Placer Express Transit Project.

Engineering procured nearly $4 million in federal earmark funds to design the Blue Oaks Boulevard Roadway and Bridge Widening Project.

Fleet Services consistently seeks operational efficiencies to generate citywide cost savings for fleet vehicles. These savings play a crucial role in mitigating potential budget increases in the upcoming years.

Street Maintenance has a proactive street resurfacing program to preserve the streets with less expensive treatments before they need to be reconstructed with a far more expensive process. It also uses best maintenance practices to keep the storm drain system in good working order and provides cost-saving patching and paving services to the City's water and wastewater utilities.

Goal: Support community engagement and advocacy

Street Maintenance and Engineering communicate the resurfacing process and how streets are selected for maintenance. They also share resurfacing and capital improvement project plans and schedules throughout the lifecycle of a project.

Alternative Transportation effectively engages the public while developing transportation planning documents and bikeway development studies.

Goal: Deliver exceptional City services

Engineering continues implementing Wi-Fi and connected vehicle technologies within the City to increase pedestrian safety, improve circulation and operations, and provide real-time data via online and on-road (digital signage) messaging.

Alternative Transportation is expanding public transit to include a South Placer Express route, now known as Rapid Link, to enhance rider convenience and efficiently use transit resources while increasing ridership through an app-based delivery system. Rapid Link will use zero-emission battery electric buses to enhance transit opportunities for Roseville and South Placer County residents traveling to key regional destinations such as the Galleria, local medical locations, and the I-80 at Watt Light Rail station. Microtransit services, called Roseville Transit Arrow, continues to increase in ridership.

Fleet is implementing a fleet electrification plan to identify the necessary infrastructure and resources for transitioning the City's fleet to zero-emission vehicles. Integrating zero-emission sedans and commuter buses is expected to enhance air quality and minimize our environmental footprint while maintaining fiscal responsibility.

Goal: Invest in well-planned infrastructure and growth

Facility Services takes a proactive approach to preventative maintenance to protect the City's investment in its buildings and structures. The robust program reduces downtime and unplanned high-cost repairs. The 10-year Asset Rehabilitation Plan is a practical approach to keeping the City's facilities in exceptional condition.

Fleet Services manages the replacement cycle of City vehicles employing a range of factors to determine the optimal time for investing in new equipment.

Street Maintenance is an industry leader with its state-of-the-art proactive resurfacing program. It maintains the pavement on over 519 centerline miles of roadway and 45 miles of off-road multi-use trails with City crews placing more than 420,000 square feet of pavement and 450,000 linear feet of crack seal to prolong the life of City streets.

Engineering works with Street Maintenance to design and manage the construction of roadway and multi-use trail resurfacing projects. Resurfacing roadways and multi-use trails is a preventative maintenance technique to protect the City's investment while keeping roadways and trails in good condition.

Engineering and Street Maintenance are constructing roadway projects to improve intersection safety and accessibility for bicyclists and pedestrians while reducing vehicle emissions and mitigating traffic concerns.

Alternative Transportation coordinates with the Fleet Services and Purchasing Divisions to manage the replacement of transit vehicles per the Short-Range Transit Plan.

Roseville Transit secured $11.6 million in federal funding for 15 electric buses, chargers and infrastructure and $7 million in state/federal grant funding for ten additional electric buses.

Engineering manages the City's Intelligent Transportation System (ITS), monitoring conditions in real-time to respond to traffic circulation concerns as they develop. Staff proactively reviews and updates traffic control devices to improve vehicle, bicycle, and pedestrian circulation.

Engineering also manages the design and construction of roadway Capital Improvement Program (CIP) projects that improve the capacity, operations, and safety of all modes of travel. Current examples include widening Blue Oaks Boulevard from Woodcreek Oaks to Highway 65, Roseville Parkway extension, Roseville Parkway widening near the Galleria, Pleasant Grove widening between Foothills and Woodcreek Oaks, All America City Roundabout, and the Vernon Street/Atlantic Multimodal Safety Improvement Project.

Key Performance Measures

Roseville Transit

Goal	Invest in well-planned infrastructure and growth			
	FY2022-23 Actuals	FY2023-24 Initial Estimate	FY2023-24 Revised Estimate	FY2024-25 Estimate
Passenger Trips	154,903	200,000	170,000	200,000
Passenger Trips per Vehicle Revenue Hour (VRH)	3.4	3.8	3.6	4.0
Farebox Recovery Ratio	8.44%	9.5%	9%	11%
Purpose	Roseville Transit provides an essential transportation service to work, shopping, and appointments for seniors, persons with disabilities, and lower-income residents. It also reduces air emissions and traffic by providing an alternate choice for commuters traveling to Downtown Sacramento.			
Status	Transit agencies across the state continue to be below the minimum fare box recovery ratio due to the COVID-19 pandemic, thus Assembly Bill 125 was approved, which extended this fare box relief through the 2025-26 fiscal year. Ridership is trending upward in FY2024-25, but ridership will take several years to return to pre-pandemic levels.			

Facility Preventative Maintenance Work

Goal	Invest in well-planned infrastructure and growth			
	FY2022-23 Actuals	FY2023-24 Initial Estimate	FY2023-24 Revised Estimate	FY2024-25 Estimate
Percent of preventive maintenance work orders completed in 30 days of assignment	96%	99%	98%	95%
Percent of health and safety work orders completed in 30 days of assignment	99%	100%	100%	100%
Purpose	Preventive maintenance is a proactive approach to protecting the City's investment in its facilities. It reduces downtime, prevents unplanned high-cost repairs, and extends the life of City facilities. Health and safety work orders ensure that fire extinguishers, GFCI's (ground-fault circuit interrupters), and emergency lighting are working properly and are ready for service when called on.			
Status	Preventive maintenance and health and safety work orders continue to be the baseline of operations. The department's robust work order plan is an indicator of its success.			

Availability of City Vehicles

Goal	Invest in well-planned infrastructure and growth			
	FY2022-23 Actuals	FY2023-24 Initial Estimate	FY2023-24 Revised Estimate	FY2024-25 Estimate
Percent of preventative maintenance work orders completed on schedule	99%	98%	98%	99%
Percent of vehicles in service daily	92%	93%	95%	95%
Purpose	Preventive maintenance represents a proactive strategy to safeguard the City's investment in its assets. This approach also extends the lifespan of vehicles and equipment by minimizing downtime and preventing unplanned high-cost repairs.			
Status	Preventive and scheduled maintenance remains the foundation of our operations. The department's success is gauged daily by the operational status of our vehicles.			

Pavement Street Maintenance

Goal	Invest in well-planned infrastructure and growth			
	FY2022-23 Actuals	FY2023-24 Initial Estimate	FY2023-24 Revised Estimate	FY2024-25 Estimate
Pavement Quality Index (PQI) rating for City streets (Arterial/ Residential)	69/66	68/65	75/72	73/70
Purpose	Preventative maintenance on roads is the proactive approach to preserving and protecting one of the City's largest assets. Waiting until the road deteriorates is very costly and disruptive to the public.			
Status	The target PQI for arterial roadways is 72 and 65 for residential streets. Although the City does not have sufficient funds each year to apply preventative treatments to all the roads that need them, it keeps the roads in good overall condition with the funding available. Placing the proper treatment on the right road at the right time becomes even more critical when funding is limited.			

Traffic Engineering

Goal	Invest in well-planned infrastructure and growth			
	FY2022-23 Actuals	FY2023-24 Initial Estimate	FY2023-24 Revised Estimate	FY2024-25 Estimate
Percent of traffic studies completed within three months	31%	50%	45%	75%
Percent of signalized intersections at Level of Service C or better	98%	95%	95%	95%
Purpose	Timely completion of traffic studies ensures the department responds to current conditions and makes necessary improvements. Maintenance of service levels for traffic signals improves traffic circulation and a higher quality of life for the community.			
Status	Continued engineering, traffic circulation monitoring and adjustments, and regular preventative and scheduled maintenance of transportation infrastructure are the baselines of traffic engineering operations. The department's success is measured by the high level of service at City intersections and responsiveness to traffic study requests.			

Key Workload Measures

	FY2022-23 Actuals	FY2023-24 Initial Estimate	FY2023-24 Revised Estimate	FY2024-25 Estimate
Number of facility preventive maintenance work orders	2,865	3,100	3,075	3,100
Number of fleet work orders	7,849	8,000	8,800	8,000
Linear feet of crack fill on streets	392,000	338,000	400,000	450,000
Percent of “Free Mode” intersections re-timed	28%	33%	20%	25%

Budget Highlights

The Public Works Department’s FY2024-25 budget totals $60 million (a decrease of 24.2 percent from the prior fiscal year) and supports 132.25 position allocations, including four new positions. While the General Fund component of the Public Works’ budget increased by 9 percent (from $10.5 million last year to $11.5 million this year), the decrease across all Public Works’ funds is primarily due to the Fleet Replacement Fund. This funds’ FY2024-25 budget is $21.45 million less than the FY2023-24 amended budget because unspent fleet replacement resources from prior years are not included in the FY2024-25 budget. Unspent FY2023-24 vehicle replacement resources will be carried over into the FY2024-25 budget as part of the FY2023-24 year-end closure process. The Public Works budget includes the resources necessary to support the following:

Optimizing Transit Operations

This coming year, Public Works staff will continue to re-examine the City’s bicycle and pedestrian trails and sidewalks, and review Roseville’s existing transit system. Roseville will update its bicycle and pedestrian master plans by creating one overall document called the Active Transportation Plan (ATP). The goal of the ATP is to provide a vision for making walking, biking and rolling easier and more enjoyable as you travel through Roseville. Concurrent with the ATP, Roseville will also be performing a Comprehensive Operational Analysis (COA) of the City’s transit system.

The COA will examine Roseville Transit in its entirety, from routes to vehicles, and re-design a system that optimizes ridership and costs to meet the community’s needs. The COA is expected to lead to the first major overhaul of Roseville Transit in recent memory.

In addition to these two significant projects, in spring 2025, Roseville Transit will launch a new regional bus service called Rapid Link. The Rapid Link pilot project will consist of a new zero-emission battery electric bus service running every 30 minutes in each direction between the City of Lincoln, the Galleria Mall, Sutter Hospital, Kaiser Hospital, and the I-80 at Watt Avenue light rail station. As for bike trails, construction began on the Dry Creek East Phase 1 bike trail in early 2024. This 2.5-mile trail will connect with an existing bike trail at Darling Way near Saugstad Park and continue to Maidu Park. This trail is expected to be complete in 2025.

Staff to Address Increasing Engineering Workload

Over the past ten years, traffic engineering staffing has decreased by 50 percent while workloads have steadily increased. The Intelligent Traffic System (ITS) Masterplan and the Institute of Transportation Engineers recommend a staff of six (currently, there are five) to run a city the size of Roseville with a similar level of ITS implementation. An additional full-time Engineering Technician/Traffic Operations Center (TOC) monitor in the Traffic Engineering Section of the Engineering Division is included in the Public Works FY2024-25 budget to monitor traffic operations and ITS equipment to ensure optimal utilization of the City’s ITS investments.

Staffing for Additional Office Space

The Facility Services Division maintains, repairs, cleans, and rehabilitates 1.37 million square feet of City facilities. The FY2024-25 budget includes the addition of one full-time Custodian to ensure the adequate maintenance of City facilities.

Staffing for Fleet Services

The FY2024-25 budget includes the addition of a new Equipment Service Worker position to alleviate the increased workload resulting from acquiring new City vehicles. This new position will play a pivotal part in conducting annual preventative maintenance and mandated inspections, ensuring the smooth operation and longevity of the fleet.

Staffing for Engineering

The budget includes funding to reclassify the Engineering Division Manager to an Assistant Director. This position will improve the department's organizational structure by overseeing the Engineering and Streets Divisions, which currently report directly to the Public Works Director. With the reclassification of the Engineering Division Manager to Assistant Director, a new Principal Engineer position is included in the budget to provide managerial oversight of the engineering disciplines (Floodplain Management, City Projects, Maintenance Projects, and Traffic Engineering).

Budget Summary

Positions by Division/Program

Full Time Equivalent (FTE) Positions	FY2022-23 Actuals	FY2023-24 Adopted	FY2023-24 Amended	FY2024-25 Budget	FY2024-25 Change	FY2024-25 Change (%)
Public Works Total	123.250	127.250	128.250	132.250	4.000	3.1%

Expenditures/Expenses by Major Category

Development Services Department

Overview of Services

The Development Services Department (DSD) evaluates and maintains development impact fee programs, provides long-range planning, reviews entitlements and building permit applications, provides plan and map review, issues permits for buildings and infrastructure improvements, provides inspection services, and recommends acceptance of final maps and civil improvements to the City Council for all private land development projects. The department also ensures public safety by enforcing local and state building and nuisance laws via code enforcement actions. Divisions of the department and services offered include:

Building, Permit Center, and Code Enforcement

This division provides residents and members of the public with efficient and professional permit and development review services in a single location. It assists residents, businesses, and the development community with meeting minimum building code standards to safeguard life, health, property, and public welfare. This assistance is accomplished by ensuring that design, construction, materials, use and occupancy, and location conform to the required building code provision and the City's health and safety standards.

Engineering - Land Development

This division ensures that public and private infrastructure development meets required City engineering standards, codes and policies through plan review and construction inspection, including compliance with the construction and post-construction site runoff elements of the City's Municipal Separate Storm Water System (MS4) permit. This division also provides City oversight of engineering-related items associated with long-range planning and development projects, traffic analysis, fee program development and administration, and supports engineering-related process improvements and fee analyses.

Planning

This division provides professional guidance and technical assistance related to planning law; environmental review; the City's General Plan; Specific Plans; and Zoning Ordinance to the City Council, Planning Commission, Design Committee, City Manager, and the public. It implements and monitors City growth and development policies and accepts, processes, analyzes, and recommends action to the City's hearing bodies on development applications. It also acts on items such as administrative permits, sign permits, home-based businesses, and code enforcement complaints involving the Zoning Ordinance. The division also provides environmental review and permitting for city projects and programs, coordination and processing of Capital Improvement Projects (CIPs), and citywide specific plans.

Business and Administrative Services

This division provides organizational, technological, and business process support as well as budget, administrative, and office support to all divisions of the Development Services Department. It manages and supports the citywide permitting system (Accela Automation) and related development records and data, citywide base map and parcel data maintenance, and addressing and street naming administration. The division is also responsible for creating and maintaining Geographic Information System (GIS) data, mapping products, and distributing information regarding citywide development activities.

Accomplishments

- Filled multiple vacancies while also maintaining customer service levels and expectations amid heightened permit activity.
- Projected to recover more than 75 percent of department operating costs through permit fees, development project billing, and other service fees.
- Established a team and procedures to handle rapid turnaround of plan reviews and inspections of improvements associated with the Bosch plant acquisition and tenant improvements.
- Facilitated approval of entitlements and construction documents for the new Costco in Baseline Marketplace.
- Negotiated and executed an advanced funding agreement with JMC Homes to construct the last remaining segment of Westbrook Boulevard. Once completed, Westbrook will allow continuous connection from Baseline Road to Amoruso Ranch.
- Guided the widening of Baseline Road to four lanes from Westbrook Boulevard to the city limits. Also ensured completion of traffic signals at Market Street and Santucci Boulevard, allowing the first connection through Sierra Vista to the West Roseville Specific Plan via Baseline Road.
- Received the Economic Planning and Development Award of Merit from the Sacramento Valley Section of the American Planning Association for the Commercial Corridor Specific Plans project.
- Implemented the State-mandated Solar App+ project by implementing software to integrate with the City's enterprise permitting system (Accela Automation) to simplify and streamline single-family rooftop solar permits. This project was necessary to bring the City into compliance with SB 379 and was funded through a grant from the State of California.
- Integrated the myRSVL application with the Accela software platform and modified business practices related to Code Enforcement operations and reporting.
- Implemented an updated building permit and plan check fee methodology to report building valuation data more accurately.
- Negotiated and executed a seven-year contract with Accela's Software as a Service (SaaS) cloud-hosted environment. This long-term agreement will help ensure business continuity pertaining to the City's enterprise permitting systems and guarantees pricing to aid in future year budget projections.

Council Strategic Plan

Goal: Enhance economic vitality

Strategy: Leverage opportunities for innovation and workforce development created by Bosch's investment in Roseville

Development Services will continue to efficiently, accurately, and rapidly review and approve tenant improvement plans associated with the renovation of the Bosch facility. The department will also prioritize entitlements and plan review for new construction and tenant improvements associated with potential Bosch suppliers and peripheral services.

Goal: Support community engagement and advocacy

Strategy: Explore opportunities to engage all community members in relevant ways

Development Services is preparing to implement digital tools to facilitate greater transparency regarding development and permit activity by leveraging the City's Geographic Information Systems. Additionally, work will continue in conjunction with Public Affairs and Communications to expand on the "Development Decoded" educational series which focuses on various growth and development topics.

Goal: Invest in well-planned infrastructure and growth

Strategy: Reinvest in core neighborhoods

Development Services will support the Economic Development Department's efforts on marketing and other opportunities to incentivize reinvestment in the Atlantic Street, Douglas and Harding Boulevards, and Douglas and Sunrise Boulevards corridors, consistent with the vision in the Commercial Corridors Specific Plans.

Strategy: Seek increased regional and local transportation funding and revenues

Development Services will continue to participate in multi-agency discussions to develop a regional traffic fee to fund the widening of Baseline Road from the western City limits to Highway 99 and the construction of Placer Parkway through Sutter County.

Goal: Deliver exceptional City services

Strategy: Maintain a strong focus on code enforcement efforts, including graffiti and blight abatement

Development Services has achieved significant success with its improved graffiti response and abatement model. In FY2024-25, the department will continue to prioritize graffiti and blight abatement and will work with its partners to further improve on response times.

Strategy: Anticipate and implement succession planning strategies, including training and development

Development Services anticipates key staff departures in the next two to three years and is prioritizing training and succession planning efforts to ensure a smooth transition in leadership with minimal disruption to customer service and business continuity.

Key Performance Measures

Building Plan Review & Inspection

Goals	Deliver exceptional city services Enhance economic vitality Invest in well-planned infrastructure and growth			
	FY2022-23 Actuals	FY2023-24 Target	FY2023-24 Projected Actuals	FY2024-25 Target
Overall permit process (average number of business days in City possession versus the total number of business days to process)	43%	<50%	47%	<50%
On-time inspection performance (completion of daily scheduled inspections)	97%	100%	98%	100%
Minor permits issued within five business days	89%	100%	88%	100%
Overall plan review performance (meeting published turnaround times)	85%	90%	87%	90%
Purpose	Facilitating community investment is an economic development objective that is achieved through prompt turnaround times on plan reviews and inspection requests. This process ensures safe and secure structures for human occupancy, ultimately promoting economic growth.			
Status	The Building Division experienced a 13.5 percent decrease in total plan submittal volume over the past year; however, the complexity of plan sets – particularly for multi-family and other non-residential construction – has increased exponentially as a result of recent code cycle changes and legislative mandates, requiring additional staff time and expertise for review. Complicating matters, the City's plan review contractors are experiencing a shortage of experienced plan reviewers as many retired public sector workers permanently leave the job market. Despite these challenges, the division's on-time plan review performance improved from 85 percent in FY2022-23 to 87 percent in FY2023-24. The budget includes funding for two additional plans examiners in FY2024-25 to perform more plan reviews in-house. This is expected to improve the customer experience with the permitting process, particularly for small business owners and residents. As the State imposes additional mandates and regulations, additional staffing may be required to maintain established service levels. The percentage of inspections performed within 24 hours has remained consistent with the division's five-year average of 97 percent.			

Code Enforcement Activity

Goals	**Ensure a safe and healthy community Enhance economic vitality Invest in well-planned infrastructure and growth Deliver exceptional City services**			
Strategy	**Maintain a strong focus code enforcement efforts, including graffiti and blight abatement**			
	FY2022-23 Actuals	FY2023-24 Target	FY2023-24 Projected Actuals	FY2024-25 Target
Initial response to code complaint within two business days	94%	95%	96%	95%
Initial inspection within five business days	81%	80%	81%	80%
Code Enforcement cases resolved within 30/60/90 days	83% / 93% / 97%	70% / 80% / 90%	85% / 94% / 98%	70% / 80% / 90%
Purpose	Efficient code enforcement activities help maintain quality of life by preserving and enhancing the appearance of the community and abating dangerous conditions or other nuisances in violation of the Municipal Code.			
Status	Inspector caseload continues to increase, particularly following implementation of the “myRSVL” customer relationship management platform. Additional staffing may be necessary to maintain service levels as the City continues to grow or if directed to take a citywide proactive posture. In FY2022-23, the division initiated monthly targeted proactive blight enforcement in rotating beats, wherein all code inspectors spent time in the “beat of the month” to seek out and self-initiate cases. Feedback from the community has been positive, and the division will continue this approach.			

Engineering Plan Review, Inspection, and Transportation Planning

Goals	Deliver exceptional city services Enhance economic vitality Invest in well-planned infrastructure and growth			
	FY2022-23 Actuals	FY2023-24 Target	FY2023-24 Projected Actuals	FY2024-25 Target
Overall permit process (average number of business days in City possession versus total number of business days to process)	55%	50%	48%	50%
Encroachment permits issued same day (i.e., PODS & dumpster)	95%	95%	97%	95%
Overall plan review performance (meeting published turnaround times)	83%	90%	86%	90%
Purpose	Thorough plan review and inspection of public improvements help prevent significant future maintenance costs to taxpayers and utility ratepayers by ensuring infrastructure is installed to City specifications. These services are also important to ensure the safety of the motoring public through proper roadway funding, design, and construction. The division coordinates over $1 billion in local and regional fee programs that help facilitate local development and ensure long-term infrastructure, health and safety issues are addressed.			
Status	Despite a heavy sustained workload, the year-over-year percentage of plans/maps reviewed within four weeks improved from last year's 83 percent to 86 percent, falling only slightly short of the division's FY2023-24 target of 90 percent. Plan review volume is expected to slow slightly in FY2024-25 as the three primary new growth areas in West Roseville get closer to buildout. The department will study and implement new efficiency measures as necessary in FY2024-25 to build on gains in this goal area.			

Current and Long-Range Planning Activities

Goals	Enhance economic vitality Support community engagement and advocacy Invest in well-planned infrastructure and growth			
	FY2022-23 Actuals	FY2023-24 Target	FY2023-24 Projected Actuals	FY2024-25 Target
Overall permit process (average number of business days in City possession versus total number of business days to process)	52%	60%	57%	60%
Ministerial permits issued same day (i.e., home occupations)	98%	95%	99%	95%
Overall plan review performance (meeting published turnaround times)	85%	90%	86%	90%
Purpose	Well-planned development ensures attractive, orderly growth and long-term financial viability. The number of planning applications is a leading indicator of the City's growth. Participation in regional planning and policy efforts ensures the Roseville community's interests are represented.			
Status	Development applications processed by the department continue to exceed estimates, signaling sustained growth within the City. Department staff attends an increasing number of state/regional and county coordination meetings to advocate for the City on behalf of the Roseville community. Staff completed the corridor planning project in FY2022-23 and will continue to assist with implementation strategies and incentives in FY2024-25. The division will also focus on implementing the remaining Housing Element policies necessary to maintain compliance with the City's Regional Housing Needs Allocation.			

Citywide Permitting, GIS Basemap, Addressing, and Street Naming Support

Goals	Ensure a safe and healthy community Deliver exceptional city services Remain fiscally responsible in a changing world			
	FY2022-23 Actuals	FY2023-24 Target	FY2023-24 Projected Actuals	FY2024-25 Target
Percent of address change requests processed within seven days	82%	90%	85%	90%
Percent of requests for service completed by established due date	84%	90%	85%	90%
Purpose	The Development Services Department maintains the citywide basemap and manages addressing and street naming on behalf of the City. Complete accuracy is critical to providing effective, life-saving emergency response, utility billing, and various other City services. The department also supports and maintains the City's enterprise permitting and electronic plan review systems and performs required annual reviews of all active development agreements.			
Status	The complexity and volume of service requests received and processed by the Business and Administrative Services Division remain high, exceeding its capacity to meet the growing demand for services. The division intends to initiate a department-specific strategic plan in FY2024-25, a component of which will be to evaluate staffing levels necessary to support increasing internal and external consumption of GIS-based services.			

Key Workload Measures

	FY2022-23 Actuals	FY2023-24 Target	FY2023-24 Projected Actuals	FY2024-25 Target

• Complaints responded to	2,534	1,000	1,924	1,100
• Cases closed	2,449	900	1,953	1,200

Budget Highlights

The Development Services FY2024-25 budget totals $25.3 million and supports 77 full-time position allocations. This year's budget represents a 27.8 percent increase over the prior fiscal year, including a $4.1 million increase in anticipated Traffic Mitigation Fund (TMF) and developer reimbursement expenses and a $1.3 million increase in General Fund operating expenses. The increase in anticipated TMF and developer reimbursements is entirely offset by development impact fee revenue. The increase in operating expenses is mainly attributed to increased labor and benefits costs, and internal service fund charges including general liability insurance and worker's compensation costs. Additionally, the FY2024-25 budget includes funding to add two positions, a Plans Examiner and a Senior Plans Examiner, partially offset by deleting one vacant Associate Planner position. These position changes result in an operating expense budget increase of approximately $172,000. The department will offset a significant portion of this with increased permit fee revenue and developer reimbursements.

Budget Summary

Positions by Division/Program

Full Time Equivalent (FTE) Positions	FY2022-23 Actuals	FY2023-24 Adopted	FY2023-24 Amended	FY2024-25 Budget	FY2024-25 Change	FY2024-25 Change (%)

Electric Department

Overview of Services

Roseville Electric Utility is a community-owned utility that provides safe, reliable, and affordable electricity to Roseville residents and businesses State and national organizations regularly recognize Roseville Electric employees for high service levels, customer satisfaction, and innovative programs. The utility provides electric service to the approximate 43-square mile service territory with dedicated employees who provide various services. There are six major strategic operating business units:

Executive

- Develop and implement the organizational strategic plan and supporting initiatives for the electric utility.
- Monitor and engage in legislative and regulatory matters impacting the electric utility and provide advocacy and collaboration with coalition partners.

Resources & Generation

- Provide power portfolio management services, including the procurement and production of electricity to meet city's electric needs.
- Operate and maintain the utility's two natural gas power plants and California Department of Water Resources (CDWR) two generation peaking units.

Electric Engineering

- Plan, design, and assist with the construction and rehabilitation of the electric distribution system, streetlights, and electric generation assets.
- Ensure the utility complies with federal, state, regional, and local regulatory requirements.

Electric Operations

- Construct, operate, and maintain the electric distribution system and streetlights.

- Plan, design, and assist with the constructing and rehabilitating the electric distribution system and streetlights.
- Maintain and enhance the proprietary control systems for the power plants and the electric distribution system.

Finance and Customer Care

- Responsible for billing and collecting for electric, water, wastewater, and waste services. Services include processing new services, transfers, payments, and delinquency disconnects.
- Configure, design, and deliver our advanced metering infrastructure and grid performance solutions.
- Responsible for budgeting, financial planning, load forecasting, pricing, and customer data management.
- Ensure the utility complies with risk management policies and enterprise performance.

Economic Development and Partnerships

- Responsible for the utility's energy efficiency and education programs for residential and business customers.
- Oversee the marketing and communication activities for the electric utility, including outage communication and community engagement.
- Develop and maintain business relationships with the utility's key accounts.
- Support economic development and business retention.

Accomplishments

- Completed the 2024 rate case, which resulted in the approval of two separate nine percent rate increases on June 1, 2024, and January 1, 2025, and made the temporary eight percent energy surcharge permanent. This initiative ensures sufficient revenues to meet the utility's financial obligations and maintains compliance with the City Council's adopted financial policies. The primary drivers for the rate increases are higher prices for natural gas and energy on the global market, increased equipment and system maintenance costs due to inflation and demand, and increased costs related to the procurement of renewable energy to comply with state mandates. This proposal also includes increasing low-income rate assistance and providing a discount to qualified customers for both base and consumption charges.
- Initiated the process to assume accelerated ownership of the two generation units at the Roseville Energy Park by the California Department of Water Resources. Roseville Electric operated the units for the State for three years as part of the State Power Augmentation Project and is now advancing through a process to gain ownership of the units, which includes being approved in the State's Distributed Electricity Backup Assets Program.
- Roseville Electric Utility designed and installed approximately $7 million of new electric infrastructure to support new residential and commercial development. The utility has also completed several technical studies for large customer interconnection requests, including a large solar project and a new facility for the Environmental Utilities Department.
- Completed important turbine and heat recovery steam generator rehabilitation at the Roseville Energy Park as part of the facility's major maintenance interval. This work was essential in promoting optimal output and reliability from the generating units. In addition, obsolete controls were replaced, which addressed possible security risks and further increased operational safety and reliability.
- In the spring of 2023, Roseville Electric Utility participated in the Light Up Navajo project, which represented a nationwide effort by public power agencies to support thousands of Navajo Nation families lacking electricity. This initiative was facilitated through a special collaboration between the Navajo Tribal Utility Authority (NTUA) and the American Public Power Association (APPA), aimed to address basic electric needs in Arizona, New Mexico, and Utah. Roseville Electric Utility dispatched skilled technicians who played a vital role in installing essential distribution

infrastructure, enabling access to crucial services like electricity and water. Working alongside fellow public power agencies, staff members shared expertise and adhered to safe work practices, contributing to a culture of knowledge exchange. Such collaborative endeavors offer rare opportunities for skilled professionals nationwide to unite, share best practices, and enhance capabilities.

- In February 2024, Roseville Electric Utility demonstrated an impressive storm response characterized by swift action and efficient restoration efforts. Through activating the Department Operations Center and coordinating with the City's Incident Management Team, Roseville Electric Utility streamlined response times, enabling rapid deployment of resources to the impacted areas. The coordinated approach and effective communication ensured that power was restored promptly, minimizing inconvenience for residents and businesses alike. Roseville Electric Utility's exemplary storm response underscored its dedication to customer service and community resilience.
- The Advanced Metering Infrastructure (AMI) project successfully installed meters for residential and commercial utility customers throughout the City. This extensive meter implementation began in July 2023 and was completed in less than a year. With all meters and systems operational, efforts are underway to elevate the customer experience by introducing of a new customer portal. This portal will facilitate bill payments, inquiries, and provide customer insights with electric and water usage enhancements.
- In coordination with the City's Facilities Division, Roseville Electric Utility worked to prepare for and initiate the Phase 2 renovation efforts for the 116 South Grant Street building – the utility's new headquarters. This included completing the planning and design work, selecting a construction contractor through a competitive solicitation process, and starting construction activities for the third and fourth floors at the location. Work is expected to be completed by the end of 2024.

Council Strategic Plan

Council Goal: Remain fiscally responsible in a changing world

Strategy: Balance City services and customer rates amid legislative mandates and rising costs

- Roseville Electric Utility will enhance customer experience by offering new tools for convenience and savings and emphasize customer-facing programs to reduce electric utility costs.
- Operationalizing Advanced Metering Infrastructure with enhanced customer information and programs that will be instrumental in enhancing the customer experience.
- Dedicate staff to identifying and applying for grant funding for improvements to the electric system, generation assets, technology advancements, and safety improvements.

Council Goal: Enhance economic vitality

Strategy: Foster a business climate that supports small businesses and entrepreneurship while attracting and strengthening emerging technology and industry sectors

- Promote the Electric Department's value proposition and visibility in the community.
- Focus on regional and local economic development opportunities.
- Support new residential and commercial development.

Council Goal: Invest in well-planned infrastructure and growth

Strategy: Maintain investment in water resiliency and increase capacity of the Electric utility

- Evaluation and optimization of new and current generation investments.
- Focus on distribution system enhancements and investments to ensure system reliability.

- Support of community electrification and electric vehicle adoption will prepare the utility to serve its changing customer needs.

Council Goal: Support community engagement and advocacy

Strategy: Inform county, state, and federal policymakers on key City issues and the importance of local decision-making

- Promote regional and national advocacy on energy policy and regulations.
- Partner with industry membership associations and organizations such as the California Municipal Utilities Association, American Public Power Association, and Northern California Power Agency.

Council Goal: Deliver exceptional City services

Strategy: Remain an employer of choice through expanded recruitment and attraction efforts, a focus on retention, and a positive culture

- Roseville Electric Utility will continue to promote employee development and training opportunities through relevant city, department, and industry forums.
- Completion of Roseville Electric's building in downtown Roseville, bringing Electric staff closer to the other City departments.

Key Performance Measures

Distribution System Reliability

Goal	Deliver exceptional city services			
	FY2022-23 Actuals	FY2023-24 Initial Estimate	FY2023-24 Revised Estimate	FY2024-25 Estimate
Average Outage Length (minutes per customer, per year)	39.70	< 30	< 30	< 30
Average Number of Outages (per customer, per year)	0.29	< 0.35	< 0.35	< 0.35
Average Response Time (minutes)	102	< 30	< 30	< 30
Purpose	Providing safe and reliable power to customers and responding quickly in the event of an unplanned outage are operational priorities. The three metrics measure how many minutes the average customer is without power in a year, how many times the average customer is without power in a year (numbers less than one mean less than one outage per customer per year), and how quickly crews respond to an outage.			
Status	Distribution system reliability targets are being evaluated given City and system growth.			

Safety

Goal	Ensure a safe and healthy community			
	FY2022-23 Actuals	FY2023-24 Initial Estimate	FY2023-24 Revised Estimate	FY2024-25 Estimate
OSHA Lost Time Cases	3	-	-	-
OSHA Modified Duty Cases	-	-	-	-
OSHA Other Recordable Cases	3	-	-	-
Vehicle Accidents	1	-	-	-
Purpose	Providing safe and reliable power to customers and responding quickly in the event of an unplanned outage are operational priorities. The four safety performance metrics include OSHA (Occupational Safety and Health Administration) recordable incidents for lost time, modified duty, other recordable cases, and preventable vehicle accidents.			
Status	Safety metrics are on target.			

Generation Fleet Availability

Goal	Deliver exceptional city services			
	FY2022-23 Actuals	FY2023-24 Initial Estimate	FY2023-24 Revised Estimate	FY2024-25 Estimate
Availability*	76.47%	> 90%	> 90%	> 90%
Forced Outage Rate	2.91%	< 4%	< 4%	< 4%
Start Reliability	96.32%	> 95%	> 95%	> 95%
Purpose	The generation performance metrics evaluate the Roseville Energy Park against industry averages. The metrics measure its availability, how often it goes out of service, and how reliably it starts up when called.			
Status	Generation fleet availability metrics are on target.			

*Planned Major Outage in FY2020-21.

Customer Solutions & Programs

Goal	Ensure a safe and healthy community			
	FY2022-23 Actuals	FY2023-24 Initial Estimate	FY2023-24 Revised Estimate	FY2024-25 Estimate
Low income, load control, energy efficiency, electric vehicle and solar rebates and program expense	$5,885,252	$5,244,000	$5,244,000	$5,720,000
Estimated energy savings (kWh)	16,234,484	10,240,000	10,240,000	9,632,000
Purpose	Public benefit programs help customers reduce their electric energy consumption, lower peak demand, invest in local renewable energy, and support low-income electric rate assistance. By California law, 2.85 percent of electric sales revenue is set aside for public benefits programs. The metrics track fiscal year spending and how much energy customers will save due to these programs when installations are completed.			
Status	Customer Solutions & Program metrics are on target.			

Financial Strength

Goal	Remain fiscally responsible in a changing world			
	FY2022-23 Actuals	FY2023-24 Initial Estimate	FY2023-24 Revised Estimate	FY2024-25 Estimate
Debt Service Coverage Ratio	3.80	2.00	4.50	2.00
Days Cash on Hand	313	> 250	259	> 250
Bond Rating	AA	AA-	AA	AA-
Purpose	Council adopted financial targets for debt service coverage ratio, days cash on hand, and bond rating to maintain the lowest cost liquidity and flexibility to enable the organization to achieve its operating goals.			
Status	Financial Strength metrics are on target.			

Customer Relationships

Goal	Deliver exceptional city services			
	FY2022-23 Actuals	FY2023-24 Initial Estimate	FY2023-24 Revised Estimate	FY2024-25 Estimate
Average Speed of Answer (seconds)	1:13	1:25	1:25	1:25
Average Handle Time (seconds)	4:05	4:15	4:20	4:15
Billing Accuracy	99.44%	99.80%	99.80%	99.80%
Purpose	Building and maintaining strong customer relationships is an organizational priority. The three metrics measure how quickly a customer's call is answered, how quickly a customer's call is handled from start to finish, and the percentage of customers billed accurately.			
Status	Customer Relationship metrics are on target.			

Key Workload Measures

	FY2022-23 Actuals	FY2023-24 Initial Estimate	FY2023-24 Revised Estimate	FY2024-25 Estimate
Cost of Goods Sold (COGS) per kWh	$0.067	$0.079	$0.080	$0.085
Total O&M less F&PP per Retail Customer	$962	$1,156	$1,065	$1,170
Distribution O&M per Retail Customer	$489	$432	$511	$576
Distribution O&M per Circuit Mile	$33,053	$30,074	$35,230	$39,562

Budget Highlights

The Electric Department's FY2024-25 operating expense budget totals $177 million (an increase of 2.8 percent over the prior fiscal year) and supports 196.75 position allocations. The majority of the change is attributable to a $4 million increase in generation and distribution operating costs and a $2.4 million increase in labor costs, offset by a $2 million reduction in capital outlay spending. The budget includes the following highlights:

Principal Power Engineer:

- A Power Engineering Manager position was eliminated as part of a recent reorganization within the department. A new Principal Power Engineer position is included in the budget to assist with higher-level duties within Electric Engineering that were performed by the higher-classification Power Engineering Manager position. This position will supervise power engineering staff, prepare and manage the annual capital improvement plan, and determine resource and training needs for the Engineering team. This position will be offset by deleting a vacant Senior GIS Technician in the same section.

Balanced Budget:

- Prioritizes funding of essential services
- Compliance with financial policies and metrics

Prudent investment in infrastructure and technology:

- Phase two Legacy Building build-out and move-in
- Advanced Metering Infrastructure project

Focus on new revenue opportunities:

- Electric vehicles and charging
- Building electrification

Assumes base rate increases:

- 2024 rate case increases through FY2024-25

Budget Summary

TOTAL	**$ 141,820,058**	**$ 167,907,359**	**$ 172,593,754**	**$ 177,347,572**	**$ 4,753,818**	**2.8%**

Environmental Utilities Department

Overview of Services

Environmental Utilities (EU) is a nationally recognized Utility of the Future. EU is a forward-thinking group of utilities that deliver high-value, eco-friendly, and financially sound public services. With a customer base of over 50,000 customer accounts, EU offers three core utility services - water, wastewater, and waste services - in addition to producing and delivering recycled water and managing the City's stormwater quality program. Further, EU partners with Roseville Electric Utility to manage the Utility Exploration Center (UEC) and Utility Customer Experience and Billing division.

Administration and Technical Services

EU Administration provides leadership and oversight for utility support services and provides coordination across the department. These groups include planning, engineering, data management, GIS, utility rate development, budget, accounting, reporting, government relations, public information, and outreach.

Water

The Water Utility provides safe, reliable, and high-quality potable water service. To ensure reliable drinking water distribution, the Water Utility operates a 100-million gallon-per-day surface water treatment plant; maintains nearly 700 miles of pipes, more than 5,300 hydrants, and eight potable water tanks that provide 44 million gallons of storage capacity; and manages a growing aquifer storage and recovery (ASR) groundwater program. Additionally, the Water Utility oversees water efficiency programs and is focused on further increasing the City's long-term water supply resilience and reliability.

Wastewater/Recycled Water

The Wastewater Utility collects and treats wastewater for Roseville and its regional partners (South Placer Municipal Utility District and Placer County). It is also a regional provider of recycled water for areas in Roseville and unincorporated Placer County. The Wastewater Utility maintains wastewater collections and recycled water infrastructure within the Roseville city limits, operates two regional wastewater treatment plants, and provides analytical laboratory and preventative maintenance services for the Roseville water and wastewater utilities.

Waste Services

The Waste Services Utility collects, recycles, and disposes more than 140,000 tons of refuse annually, including solid waste, green waste, recycling, organics, and household hazardous waste for residential and commercial customers. The Waste Services Utility also oversees the compliance and maintenance of the closed Roseville Sanitary Landfill and manages the City's stormwater quality program—a state-mandated program supported, in part, by the General Fund.

Utility Exploration Center

The UEC is an interactive museum managed jointly by EU and Roseville Electric Utility that educates the public on City efforts to use water and energy efficiently, reduce waste, and protect watersheds. UEC staff also conduct special events, outreach, and school education programs to connect Roseville residents and business owners with their city utilities.

Accomplishments

- Banked almost 1,900 acre-feet of otherwise non-storable surface water from Folsom Reservoir in Roseville's groundwater basin using the ASR groundwater well system in early 2023, given an abundance of surplus precipitation and snowfall.
- Continued development of significant water infrastructure projects, including the 6,000 square-foot Crew Facility at the West Side Tank and Pump Station Site, four additional ASR groundwater wells, and improvements to water interties and pump stations.
- Continued preliminary planning work for establishing a Project Partnership Agreement with the Army Corps of Engineers as the Federal Sponsor for a joint conveyance project between the City and Placer County Water Agency (PCWA) to develop additional access to water supplies upstream of Folsom Reservoir for greater future water supply reliability.
- Successfully completed negotiations with PCWA to amend the Middle Fork Project Water Supply Contract from 30,000 acre-feet to 44,000 acre-feet in most years.
- Created and filled the new Environmental Compliance Administrator position to lead a Water Resources Compliance, Analysis, and Planning Section.
- Delivered 4,069 acre-feet of recycled water to customers inside and outside the City, preserving a similar potable water supply.
- Removed 17.25 million pounds of contaminants from almost 6.8 billion gallons of wastewater.
- Beneficially generated 27,597 tons of Class B biosolids as valuable soil amendments, avoiding landfill disposal. Digesters at the Pleasant Grove Wastewater Treatment Plant coming online allowed for an increase in biosolids going to beneficial reuse.
- Partnered with the Roseville Coalition of Neighborhood Associations (RCONA) to plan four neighborhood clean-up events in spring 2024 and conducted the 2023 clean-up, filling over 71 dumpsters with over 260,000 pounds of waste hauled to the Materials Recovery Facility. This event, providing a convenient method for residents to dispose of large household items, helps prevent illegal dumping.
- Converted 32 percent of the Waste Services frontline fleet from diesel fuel to compressed natural gas (CNG).
- Continued to develop SB 1383 compliance enforcement program, including working with customers to ensure the appropriate execution of these programs including organics collection and edible food recovery.
- Created and filled the new Field Enforcement Inspector positions to support SB 1383 regulatory compliance and operations.
- Secured a second round of funding for a CalRecycle Organics grant for assistance in implementing SB 1383. The grant was awarded in the amount of $404,054.
- Completed the first full year of operating the citywide door-to-door Household Hazardous Waste (HHW) Collection Program. Collected over 6,200 gallons and 64,000 pounds of material and completed over 2,200 visits. This accomplishment broadens the scope of provided services and demonstrates a commitment to environmental stewardship by creating a convenient and safe way for the community to dispose of HHW properly.

- Implemented the an organics module in the utility customer information system to track compliance data for SB 1383 and other regulatory work, including site visits for new businesses, education, and contamination minimization.
- Supported the region's annual medication take-back days in the spring and fall of 2023 during which the department collected over 3,600 pounds of unwanted and expired medication.
- Aiming to contribute to the community and promote water efficiency awareness, EU and the UEC organized the Succulents for Soups food drive throughout the initial three weeks of December 2023. In collaboration with St. Vincent de Paul Society and Green Acres Nursery and Supply, EU distributed over 400 complimentary succulents in return for canned goods. This initiative collected more than 7,000 pounds of food, the largest food drive for the St. Vincent de Paul Society.
- UEC staff developed and distributed free science materials for second- and third-grade Roseville classes and Traveling Trunks for fourth and fifth grades. They also presented an in-person field trip for kindergarten and first grade and classroom visits for second and fourth grades.
- In FY2023, the UEC served over 6,300 students through its program offerings and it is on track to serve the same number in FY2023-24.
- UEC staff worked with a contractor in FY2022-23 to create and pilot sixth through eighth grade school programming. They implemented the program in FY2024, reaching every student at Chilton Middle School. The UEC plans to expand this offering to include more schools in the future.
- UEC staff worked with local area high schools, EU, and Roseville Electric staff to create a Field Day experience showcasing career opportunities in utilities. The program runs twice a year and hosts 40 students each day. It has hands-on activities designed to spark their interest in pursuing a career in utilities.
- The UEC launched a new monthly activity booklet program, League of Explorers, in June 2022. The program includes a unique monthly activity book and a hands-on laboratory activity for participants. The program distributes an average of 150 books monthly and sees 30-60 kids in the lab activity monthly.
- The UEC updated its visitor center exhibits with a fusion of high-tech and low-tech elements within the refreshed exhibit hall and celebrated its reopening in April 2024.

Council Strategic Plan

Goal: Ensure a safe and healthy community

EU owns, operates, and maintains over $2 billion of critical infrastructure, including water and wastewater pipelines, pumping stations, storage tanks, and wastewater and water treatment facilities. These assets exist primarily for public health and safety. EU proactively and consistently performs preventive maintenance on this infrastructure to deliver water and treat wastewater to serve and protect the community and the environment. In addition, EU promotes public health and cleanliness through the high-quality refuse collection and disposal services with this same philosophy.

The Water Utility is continuing significant efforts to improve the reliability of Roseville's water supply. Examples include:

- Ongoing repair and rehabilitation of critical aging water infrastructure, including the Barton Road Water Treatment Plant, ASR groundwater wells, and other vital assets.
- Continued investments in water infrastructure security and resilience to prepare for current and future challenges.
- Expansion of the ASR groundwater program with the design and construction of up to six new ASR wells to further diversify the water supply and keep pace with increasing demand.
- Collaboration with PCWA to build additional potable water conveyance infrastructure to establish alternative access to PCWA water supplies that are not dependent on Folsom Reservoir.

The Wastewater Utility continues to collect and treat wastewater from Roseville and regionally. Continued efforts include:

- Investment in rehabilitating neighborhood sewer systems and at the two wastewater treatment plants.
- Collaboration with regional partners to stay ahead of new development and plan infrastructure, focusing on long-term maintenance and reliability.
- Proactively looking to the distant regulatory future to avoid costly reactive changes to operations.

The Waste Services Utility continually improves efforts to provide safe and convenient disposal access for various materials. Examples include:

- The HHW door-to-door collection program has been expanded citywide and has collected over 6,200 gallons and 64,000 pounds of material since this expansion. This program collects items that, if improperly disposed, would negatively impact human health and the environment, including used motor oil & filters, cleaners, paints, pesticides, solvents, degreasers, electronic waste, batteries, etc.
- Cardboard collection sites that collect over 1,300 tons of material annually.
- The neighborhood collection events also greatly benefit the community by adding a free and convenient way to dispose of bulky items like couches, mattresses, etc., and helping limit illegal dumping issues.

The Waste Services Utility also maintains a closed sanitary landfill:

- Completed fill repairs, moving hundreds of cubic yards of soil to fill low-lying areas to prevent ponding and, thus, any infiltration.
- Collaborated with a local developer to repair a monitoring well during construction activities.
- Maintained the landfill proactively, allowing the department to pass the biannual state compliance inspection successfully.

Goal: Deliver exceptional City services

EU strives to operate the most reliable facilities and programs in the state. The Water, Wastewater, and Waste Services Utilities operate 365 days a year in all conditions to serve the residents and businesses of Roseville.

Additionally, EU is always looking to provide new “value-added” services for its customers, such as conducting water-wise house calls, engaging commercial customers one-on-one with recommendations on conserving water and saving money, and the HHW collection program, which now collects paint, pesticides, solvents, automotive fluids, batteries, fluorescent lights, electronic waste, FOG (fats, oils, and grease), and motor oil and filters. Since expanding the program citywide, the department has collected over 6,200 gallons and 64,000 pounds of material and completed over 2,200 visits.

In partnership with Roseville Electric Utility, EU is implementing the Advanced Metering Infrastructure (AMI) project to upgrade all the meters in the City. When operational, the utilities will automate the meter-reading process, allowing staff to access more granular customer usage information. This information will enable EU to discover and resolve issues more quickly and determine new products and services, such as better water efficiency programs. AMI can also empower customers to make better choices, including controlling costs and conserving water.

As of early April 2024, Roseville has installed nearly 41,000 water meters.

Goal: Invest in well-planned infrastructure and growth

Strategy: Increase funding for CIP rehabilitation to prevent erosion of infrastructure

To keep pace with a growing Placer County, EU is leading the effort to expand the Pleasant Grove Wastewater Treatment Plant. This regional facility cleans wastewater for the City of Roseville, South Placer Municipal Utilities District, and portions of unincorporated Placer County. This effort will increase treatment capacity to help meet future demands and build a waste-to-energy plant to produce electricity for onsite use and renewable natural gas to fuel our garbage truck fleet.

The Wastewater Utility continues its efforts to rehabilitate the existing collection system pipe infrastructure, identifying rehabilitation projects through EU's inspections. The pipelines will be rehabilitated using a fiberglass liner cured with ultra-violet light, allowing inspection cameras to fit within the smaller diameter of the rehabilitated pipe. Pipelines with bends or other issues that do not allow for the fiberglass lining will be rehabilitated using steam-cured felt liners.

In partnership with Public Works, EU will continue replacing water main segments and related infrastructure that have surpassed their predicted life in Roseville's core neighborhoods. Additionally, the Water Utility will improve several elements of the water distribution main in downtown Roseville and rehabilitate the reclaim basin at the Water Treatment Plant.

Goal: Remain fiscally responsible in a changing world

Strategy: Balance City services and customer rates, amid legislative mandates and rising costs

EU consistently works to optimize its services, ensuring that Roseville customers enjoy some of the lowest utility rates in the region. EU performs a rate case analysis on its water, wastewater, and waste services utility rates every two years to adequately fund its operations, reserves, and rehabilitation costs. Since EU must adhere to Proposition 218, its rates reflect the service cost. EU maintains an operating reserve and a rate stabilization reserve for each utility to help manage fluctuations in revenue or economic shocks. Rehabilitation funding is based on modeling the timing of maintenance and repairs with contributions from the operating fund smoothed to allow for steadier rate increases. This proactive approach to asset rehabilitation and continuous review of service costs ensures EU's consistent and reliable utility services.

Goal: Support community engagement and advocacy

Strategy: Remain focused on community engagement and education about City services, planning, and the budget

Over the last two years, plans were underway to overhaul the UEC, as the current exhibits (installed in 2008) exceeded their operational lifespan, and several components were no longer functional. In addition, the aging exhibits diminished visitor experience and learning opportunities. The design consultant developed refreshed exhibits to help UEC staff share Roseville's many new educational mandates and initiatives with the community. The overhaul was completed and opened to the public in April 2024.

Through its public information and outreach program, EU actively educates and engages customers on its programs, projects, and services while promoting ways to minimize impacts on the utility systems and the environment. EU employs a multi-faceted communication approach to achieve this, and every two years, its staff conducts public opinion research for all utility services to gauge customer sentiment. This data is then used to develop communication strategies to build awareness, communicate projects and programs, and conduct targeted outreach. In collaboration with the UEC, EU also creates educational opportunities for all age groups that combine environmental messages with hands-on learning and educational curricula that align with education standards, fostering greater understanding, appreciation, and awareness of Roseville's utilities and the broader environment.

Legislative and regulatory actions at the state and national levels affect how local governments deliver services and at what cost. To ensure EU can continue to provide high-quality, cost-effective services, EU's government relations staff identify and track legislative and regulatory issues that impact EU operations, take positions on state and federal proposals, draft amendments for legislation and regulatory proposals, and advocate for laws and policies that would

protect and enhance the Roseville community. Government relations staff also work to identify and secure outside funding to help deliver vital infrastructure projects cost-effectively for ratepayers.

Key Performance Measures

Fiscal Strength

Goal	Remain fiscally responsible in a changing world			
	FY2022-23 Actuals	FY2023-24 Initial Estimate	FY2023-24 Revised Estimate	FY2024-25 Estimate
Water bond rating	AA	AA	AA+	AA+
Water Utility debt ratio	7%	7%	7%	7%
Wastewater Utility debt ratio	13%	13%	13%	13%
Purpose	Maintaining water bond rating and debt ratios is critical for future bond offerings. As the City grows, issuing bonds is a viable strategy to build infrastructure and pay off debt with continued connection fees. Maintaining EU's overall fiscal health ensures cost-effective operations, fully funded rehabilitation programs, healthy reserves, and regionally competitive utility rates.			
Status	EU has been steadily maintaining its fiscal health and adjusting rates annually to keep pace with inflation per City Council direction. EU continues contributing to reserves to meet its fiscal policies.			

Waste Diversion

Goal	Ensure a safe and healthy community			
	FY2022-23 Actuals	FY2023-24 Initial Estimate	FY2023-24 Revised Estimate	FY2024-25 Estimate
Disposal per capita per day (pounds)	5.6	5.1	4.9	5.0
Purpose	The City's recycling, green waste, and organics programs divert significant waste from landfills. The state-mandated per capita metric (8.9 pounds per person per day) is to ensure jurisdictions comply with diversion requirements.			
Status	The City is meeting the state mandate by staying significantly below the disposal per capita target—this shows the City is fulfilling the mandate.			

Effectiveness of UEC programs

Goal	Support community engagement and advocacy			
	FY2022-23 Actuals	FY2023-24 Initial Estimate	FY2023-24 Revised Estimate	FY2024-25 Estimate
Percentage of teachers rating programs as “good” to “excellent”	94% (COVID closures)	90%	95%	95%
Purpose	Providing effective school programs will help to build strong resource conservation awareness for the citizens of tomorrow.			
Status	In FY2022-23, the UEC transitioned all remaining virtual programs to in-person opportunities as pandemic restrictions were reduced. In FY2023-24, the UEC expanded K-5 program participation and added new middle and high school program opportunities. Looking to FY2024-25, the UEC will continue to push to maximize its K-12 program calendar with a goal of filling all available days. It will also promote the newly refurbished visitor center for programs and general visitors.			

Key Workload Measures

	FY2022-23 Actuals	FY2023-24 Initial Estimate	FY2023-24 Revised Estimate	FY2024-25 Estimate
Water production (acre feet)	30,033	31,690	32,000	32,000
Wastewater treated (gallons)	7,129 million	6,800 million	6,816 million	6,884 million
Recycled water delivered (gallons)	1,123 million	1,229 million	1,263 million	1,326 million
Solid waste collected (tons)	142,195	145,000	143,000	145,000
Number of UEC visitors	32,295	30,000	30,000	35,000

Budget Highlights

Environmental Utilities’ FY2024-25 budget totals $116.1 million, an increase of 7 percent over the prior fiscal year. The majority of this increase is due to labor and materials, services, and supplies costs. This budget supports 285 positions and increases staffing levels by one position overall as compared to the FY2023-24 amended budget. The staffing adjustments include eight new regular positions, two new temporary positions, one position reclassification, and a reduction of seven existing regular positions.

Addressing growth and regulations

The staffing adjustments included in the budget are necessary to address growth and regulations. These adjustments include funding for eight new positions in FY2024-25. These positions will be funded by utility rate revenues offset by the reduction of seven vacant positions. The Water Utility is adding three Water Distribution Workers to effectively manage new infrastructure and expanded water service area given the growth in the City. The Wastewater Utility is adding a Wastewater Utility Maintenance Worker, two Temporary Wastewater Treatment Plant Operators, and a Senior Laboratory Analyst. The Wastewater Utility will also reduce staffing by one vacant Wastewater Treatment Plant Operator. These staffing adjustments will allow the Wastewater Utility to meet the growing demand for wastewater treatment services, effectively manage facilities, and maintain compliance with state and federal regulations. Waste Services is adding a

Management Analyst and a Refuse Truck Driver, but will eliminate six existing vacant Refuse Truck Driver positions. Finally, the EU Technical Services Division will add a Senior Engineer and reclassify an Engineering Technician to a Senior Engineering Technician.

Budget Summary

Positions by Division/Program

Full Time Equivalent (FTE) Positions	FY2022-23 Actuals	FY2023-24 Adopted	FY2023-24 Amended	FY2024-25 Budget	FY2024-25 Change	FY2024-25 Change (%)

Community Facilities Districts, Lighting and Landscaping Districts, and Service Districts

Overview

Lighting and Landscaping Districts (LLD)

The City of Roseville annually levies and collects special assessments to maintain authorized improvements within its eight Landscaping and Lighting Districts. The districts are levied annual assessments pursuant to the Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the California Streets and Highways Code ("1972 Act").

Service Districts (SD)

These districts provide funding for the maintenance of the different special tax districts and zones. The perpetual maintenance may include public landscaping, landscape setbacks, street medians and corridors, bike trails, park and open space, wetlands, signage, and lighting improvements. The budget for these districts may include costs related to additional police protection, fire suppression, recreation programs, and library services created in areas of new developments.

Community Facilities Districts (CFD)

Infrastructure CFDs provide financing for the acquisition and construction of infrastructure improvements in the districts. Additional information on the use of funds and bonds is available on the City of Roseville website.

Budget Summary

The CFD/LLD/SD budget totals $17.8 million—a decrease of 81.8 percent from the FY2023-24 Amended Budget. The $79.9 million decrease is primarily due to the uncertainty of timing and the amounts of bond issues. The budget will be amended as necessary for any CFD bonds issued by the City.

Expenditures/Expenses by Major Category

Other Expenditures/Expenses

Overview

Budgeted expenditures/expenses that do not align with any particular operating department and benefit the entire organization are budgeted in this category. The expenditures/expenses reflected in this category total approximately $148.1 million in FY2024-25. This budget decreased by 8.8 percent over the prior fiscal year. The primary factors contributing to the decrease include lower estimated connection fee expenditures, which are collected by the City and then distributed to the South Placer Wastewater Authority (SPWA), and a reduced transfer from the Water Operations Fund to the Water Rehabilitation Fund. Other contributing factors are the elimination of a one-time loan transfer from the General Fund Capital Reserve Fund to the Traffic Mitigation Fund for the construction of Soccer Complex traffic signals and the reduction of the Annual Discretionary Payment (ADP) to CalPERS.

Significant items budgeted in this category include:

- Regional connection fees collected by the City and distributed to SPWA ($19.4 million)
- Unemployment, vision, and dental insurance ($2.5 million)
- Leave payoffs for General Fund employees that retire during the fiscal year ($750,000)
- Pay down CalPERS obligations by an additional discretionary payment from the General Fund ($1.8 million)
- Other post-employment benefit (OPEB) payments for retired employees ($10 million). These payments are reported twice in the budget to comply with accounting requirements: as disbursements from the fund from which the employee retired and as disbursements from the OPEB Trust Fund
- Replacement pension benefit for retired employees ($279,000)
- Annexation tax-sharing agreement payments to Placer County ($12.9 million)
- Contingency budgets for the General Fund ($2.0 million, of which $540,000 is estimated for labor increases during the fiscal year), Waste Services Operations Fund ($500,000), Wastewater Operations Fund ($500,000), and Water Operations Fund ($500,000)
- Fees charged by the state and county for the collection and disbursement of sales and property taxes ($1.7 million)
- Indirect cost expenditure/expense reimbursements for general government departments ($13.6 million)
- Debt service includes interest expense for interfund loans ($388,000)
- Transfers between funds ($70.8 million): operating transfers ($56.1 million), capital transfers ($5.9 million), and loan payments ($8.8 million), including transfers from the General Fund:
    - $1.8 million to General Fund Emergency Reserve Fund
    - $2.7 million to General Fund Stabilization Reserve Fund
    - $2.9 million to Pension Reserve Trust Fund

Capital Improvement Program Overview

Capital Improvement Program Overview

The City of Roseville's Capital Improvement Program (CIP) includes projects related to the acquisition, design, construction, or expansion of an element of the City's infrastructure, including physical improvements such as streets, public buildings and parks, as well as equipment and technology infrastructure. The five-year CIP budget estimate is $432.6 million, of which $90.1 million is the funding request for FY2024-25. The current year's budget request represents a $39.3 million decrease in funding from the prior year. The largest areas of growth in the CIP in FY2024-25 include Wastewater ($8.2 million), Electric ($5.3 million), Waste Services ($4.3 million), Public Safety ($0.8 million), and Citywide Technology ($0.6 million).

This growth is offset by decreases in capital budget requests compared to FY2023-24 from Public Works ($31.2 million), Water ($15.9 million), and Parks, Recreation & Libraries ($11.4 million).

The CIP includes projects for which future funding has yet to be identified. The project page, presents these with a "TBD - To Be Determined" funding source. The total funding to be determined for the five-year plan is $52.5 million.

This section presents in detail only projects that include additional funding in the current or future budget years through FY2028-29. Projects planned to start in the coming years have been identified as forecasted projects on the summary page of each CIP classification as applicable.

Since project budgets are approved on a total project basis, any unspent funds at the end of the fiscal year are carried forward automatically into the following year's budget. Existing projects with unspent budgets are listed in the "Existing Projects" section on the summary table of each CIP classification.

CIP budget sheets display general project information and include department, location, description, operating budget impact, the City Council goal associated with the project, and a summary timeline. The "Funding Overview" section of each project budget sheet summarizes the project's financial information and the "FY2024-25 Budget and Five-Year Plan" section provides project cost estimates by funding source for FY2024-25 through FY2028-29. In limited instances, the summary tables and individual project pages show lower available resources and actual expenditures/ expenses from prior years than actually incurred due to funds that have been closed and non-city funding sources.

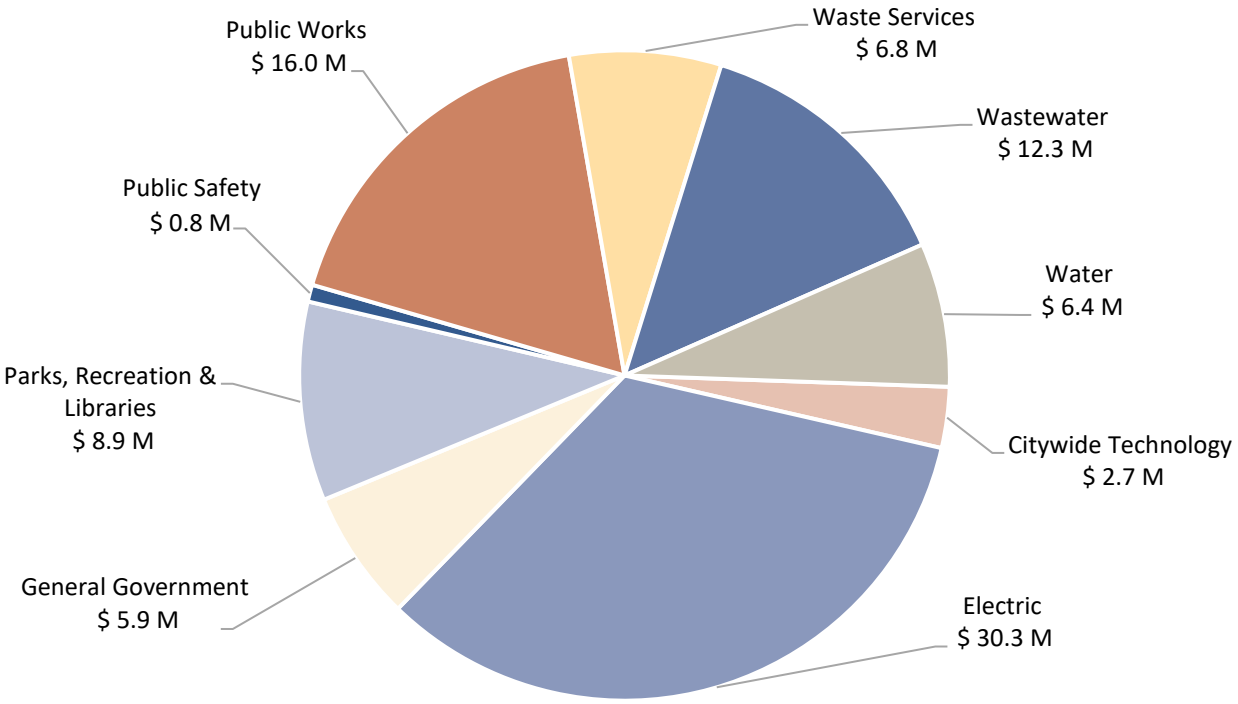

Projects are classified as: Citywide Technology; Electric; General Government; Parks, Recreation & Libraries; Public Safety; Public Works; Waste Services; Wastewater; and Water.

The table titled "Capital Improvement Program Summary by Classification" is a high-level view of each category's total capital project expenditures over the next five years.

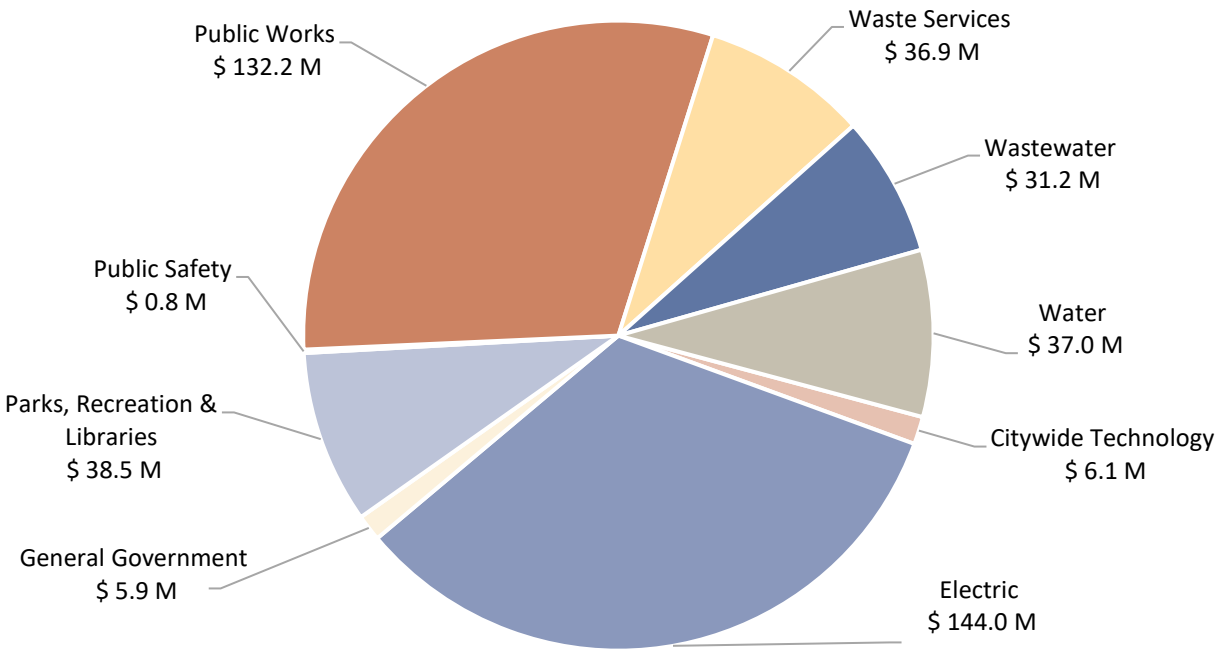

Capital Improvement Program Summary by Classification

Classification	Prior Years Actuals as of June 30, 2023	Available Resources as of the FY2023-24 Amended Budget	FY2024-25	FY2025-26	FY2026-27	FY2027-28	FY2028-29	Five-Year Plan	Total Projects

Regional Public Safety Dispatching Systems Integration

PROJECT NUMBER 500522

CLASSIFICATION Public Safety

DEPARTMENT Information Technology Department

LOCATION Citywide

DESCRIPTION
This project provides funding to enhance the current computer aided dispatch (CAD) software with the dynamic dispatching functionality of available Fire and Police resources while increasing information sharing, enhancing the ease of tracking resources, and improving overall incident response times. The project is funded by FY2022-23 General Fund year-end surplus.

OPERATING BUDGET IMPACT
Future annual support costs will be included in the Information Technology (IT) Internal Service Fund (ISF).

NEW OR EXISTING

New Project

Enterprise Project Management Software

PROJECT NUMBER 500523

CLASSIFICATION Citywide Technology

DEPARTMENT Information Technology Department

LOCATION Citywide

DESCRIPTION
This project provides funding for Enterprise Project Management (EPM) software to aid departments in the management of projects. The EPM system will help enhance project portfolio visibility, increase collaboration, optimize resources, and improve financial planning and project tracking.

OPERATING BUDGET IMPACT
Future annual support costs will be included in the Information Technology (IT) Internal Service Fund (ISF).

Fire Mobile Data Computers Replacement

PROJECT NUMBER 500524

CLASSIFICATION Public Safety

DEPARTMENT Information Technology Department

LOCATION Citywide

DESCRIPTION
This project provides funding to replace the Fire Department's mobile data computers based on a five-year replacement cycle.

OPERATING BUDGET IMPACT
There is no operating budget impact expected upon the completion of the project.

Fire Very High Frequency Radio System Upgrade

PROJECT NUMBER 500525

CLASSIFICATION Citywide Technology

DEPARTMENT Information Technology Department

LOCATION Citywide

DESCRIPTION
This project provides funding to upgrade the Fire Department's very high frequency (VHF) radio system, which has been in service for over 15 years. The project is funded by FY2022-23 General Fund year-end surplus.

OPERATING BUDGET IMPACT
There is no operating budget impact expected upon the completion of the project.

Enterprise Training Software

PROJECT NUMBER 500374

CLASSIFICATION Citywide Technology

DEPARTMENT Information Technology Department

LOCATION Citywide

DESCRIPTION
Frequent changes to local, state, and federal laws require a change in training offerings to meet requirements and maintain compliance. This system will offer new training opportunities to encourage worker safety, promote employee development, and teach new skill sets.

OPERATING BUDGET IMPACT
Future annual support costs will be included in the Information Technology (IT) Internal Service Fund (ISF).

Virtual Servers - Enterprise

PROJECT NUMBER F10074

CLASSIFICATION Citywide Technology

DEPARTMENT Information Technology Department

LOCATION Citywide

DESCRIPTION
The City's virtual server environment depends on physical hosts to accommodate the 450+ virtual servers. The physical hosts' support expires in 2028; therefore, new servers are needed to maintain performance and reliability across citywide and department-specific services.

OPERATING BUDGET IMPACT
There is no operating budget impact expected upon the completion of the project.

Public Safety Phone and Radio Recording

PROJECT NUMBER F10075

CLASSIFICATION Citywide Technology

DEPARTMENT Information Technology Department

LOCATION Citywide

DESCRIPTION
The City replaced the public safety phone and radio recording system in 2023. This system captures recordings of all phone calls (911 and business lines) and all radio traffic (VHF and 800 MHz). The City anticipates a replacement will be necessary in FY2028-29.

OPERATING BUDGET IMPACT
The City will pay annual maintenance, including licensing and support, in future fiscal years.

Network Switch Replacement

PROJECT NUMBER F10084

CLASSIFICATION Citywide Technology

DEPARTMENT Information Technology Department

LOCATION Citywide

DESCRIPTION
This project will fund the replacement of outdated network switches to ensure the City's network remains reliable and high-performing for every City department. Network switches are devices physically located at each City building to allow connectivity to the City's network. These are necessary for each location to have access to email, the Internet, various applications, network shares, phones, printers, etc.

Security Information Event Monitor Replacement

PROJECT NUMBER F10091

CLASSIFICATION Citywide Technology

DEPARTMENT Information Technology Department

LOCATION Citywide

DESCRIPTION
This project will fund the replacement of a security system that provides real-time monitoring and analysis of events and tracking and logging of security data for compliance or auditing purposes.

OPERATING BUDGET IMPACT
After year one, there is an annual operational expense for subscription and maintenance.

NEW OR EXISTING

Existing Project

PRIORITY & TIMELINE

CITY COUNCIL GOAL
Ensure a safe and healthy community

Police Department Virtual Servers

PROJECT NUMBER F10096

CLASSIFICATION Citywide Technology

DEPARTMENT Information Technology Department

LOCATION 1051 Junction Boulevard

DESCRIPTION
The Police Department's virtual server environment depends on physical hosts to accommodate virtual servers. This project will fund new servers to maintain performance and reliability when the physical hosts' support expires in 2029.

OPERATING BUDGET IMPACT
There is no operating budget impact expected upon the completion of the project.

Electric - Geographic Information System Upgrade

PROJECT NUMBER 500435

CLASSIFICATION Electric

DEPARTMENT Electric Department

LOCATION Citywide

DESCRIPTION
The Information Technology Department is starting a citywide upgrade project for the Geographic Information System (GIS). This project provides Electric funding to change the current GIS model to a utility-specific one. This is a required change as the support for the current GIS ends in FY2027-28.

OPERATING BUDGET IMPACT
There is no operating budget impact expected upon the completion of the project.

Electric - Ovation Integration and Expansion

PROJECT NUMBER 500436

CLASSIFICATION Electric

DEPARTMENT Electric Department

LOCATION Citywide

DESCRIPTION
The Roseville Energy Park (REP) and Roseville Power Plant 2 (RPP2) utilize Emerson's ovation control system. This project provides funding for an additional operator workstation and integrates the two systems to improve plant reliability and operations visibility.

OPERATING BUDGET IMPACT
There is no operating budget impact expected upon the completion of the project.

Electric - Roseville Energy Park 4160V Switchgear Rehabilitation

PROJECT NUMBER 500437

CLASSIFICATION Electric

DEPARTMENT Electric Department

LOCATION 5120 Phillip Road

DESCRIPTION
The 4160 voltage (V) switchgear at the Roseville Energy Park (REP) is nearing end of life. This project provides funding to upgrade relays, contactors, and medium voltage starters, as well as associated switchgear components to maintain reliability and extend the life of the equipment.

OPERATING BUDGET IMPACT
There is no operating budget impact expected upon the completion of the project.

DESCRIPTION
The Roseville Peaking Plant (RPEAK), located next to the Roseville Energy Park (REP), was originally designed as a temporary installation. This project provides funding for the addition of critical systems to extend the facility's useful life and for modification of existing systems to meet standards to support the normal life expectancy of the plant.

OPERATING BUDGET IMPACT
There is no operating budget impact expected upon the completion of the project.

Roseville Energy Park Zero Liquid Discharge Ultra Filtration Chemical Piping

PROJECT NUMBER 500439

CLASSIFICATION Electric

DEPARTMENT Electric Department

LOCATION 5120 Phillip Road

DESCRIPTION
The ultra filtration chemical piping skid in Roseville Energy Park Zero Liquid Discharge is at the end of life and has experienced system failures. This project provides funding to upgrade the chemical piping to all metal piping and re-design to improve system reliability.

OPERATING BUDGET IMPACT
There is no operating budget impact expected upon the completion of the project.

Roseville Energy Park Zero Liquid Discharge Instrumentation Rehabilitation

PROJECT NUMBER 500445

CLASSIFICATION Electric

DEPARTMENT Electric Department

LOCATION 5120 Phillip Road

DESCRIPTION
The Zero Liquid Discharge (ZLD) plant processes all of the Roseville Energy Park (REP) waste streams to recover water that is returned to the plant processes. Due to aging instrumentation and an increased need for reliable summer operations, this project provides funding to update outdated instrumentation and communications control hardware to current standards of the REP to improve process reliability.

DESCRIPTION
Major equipment at the existing Vernon substation is reaching the end of life. Additionally, with increased development in downtown Roseville, it has become necessary to increase the capacity and redundancy of the substation. The rebuild of the substation includes a redundant 60 Kilovolt (kV) feed and a redundant substation transformer.

OPERATING BUDGET IMPACT
Adding an additional 60kV feed and substation transformer will require maintenance by substation personnel.

PROJECT STATUS
Construction

DESCRIPTION

This multi-year project provides funding to design and construct new electric services to support residential and commercial development. The construction includes installing new 12 Kilovolt (kV) underground cable, padmount switchgear, and transformers to provide electrical service to new construction. The budget assumptions for this project are based on direct conversations with developers about their plans for future construction and engineering expertise. A detailed list of anticipated projects and associated budgets has been developed to meet the five-year budget needs. Since this work is for new construction and development, developers are billed directly for the work related to this project.

OPERATING BUDGET IMPACT

There is no operating budget impact expected upon the completion of the project.

Electric Relay Replacement

PROJECT NUMBER 400041

CLASSIFICATION Electric

DEPARTMENT Electric Department

LOCATION Citywide

DESCRIPTION
This project provides funding to replace and upgrade 12 Kilovolt (kV) and 60kV protective relays that have reached the end of their useful lives. Protective relays are used in the power delivery system to detect faults (short circuits) and operate appropriate circuit breakers to isolate faults. Replacement of these devices is critical to maintaining system reliability and protecting against equipment damage.

OPERATING BUDGET IMPACT
There is no operating budget impact expected upon the completion of the project.

Electric - Substation Security Upgrades

PROJECT NUMBER 500097

CLASSIFICATION Electric

DEPARTMENT Electric Department

LOCATION Citywide

DESCRIPTION
The Electric Department maintains 18 substations and two switchyards that are integral to providing power to the City's electric customers. Collectively, these substations distribute and transfer 100% of the power delivered to the City's internal electric grid. This project is requested to upgrade security measures at various substation locations with technology and infrastructure that will enhance the safety and security of the facilities. Upgrades include increasing the integrity of fencing and gates as well as the installation of digitally recorded camera systems.

OPERATING BUDGET IMPACT
There is no operating budget impact expected upon the completion of the project.

Utility Billing - Customer Self-Service Web Portal and Mobile App

PROJECT NUMBER 500232

CLASSIFICATION Electric

DEPARTMENT Electric Department

LOCATION Citywide

DESCRIPTION
This Utility Customer Self-Service (CSS) Web Portal and Mobile App will replace the current CSS portal, which has to be replaced within four years, integrate the new Advanced Metering Infrastructure (AMI) data, and add service request functions to provide an improved online customer self-service experience

OPERATING BUDGET IMPACT
Operating budget impact includes ongoing licensing and maintenance fees.

Electric - Sierra Vista Transformer No 2 Addition

PROJECT NUMBER 500334

CLASSIFICATION Electric

DEPARTMENT Electric Department

LOCATION 1550 Westbrook Boulevard

DESCRIPTION
The Sierra Vista substation was designed to have two transformers, but only one was installed during the construction. The addition of the second transformer is necessary to meet future customer demand and provide additional system redundancy. Due to supply chain constraints, procuring the substation power transformer will take more than three years.

OPERATING BUDGET IMPACT
There is minimal operating budget impact expected from the regular maintenance required for the additional transformer.

Electric - Roseville Energy Park Catalyst Upgrade

PROJECT NUMBER 500337

CLASSIFICATION Electric

DEPARTMENT Electric Department

LOCATION 5120 Phillip Road

DESCRIPTION
The Roseville Energy Park utilizes two catalysts to reduce carbon monoxide (CO) and nitric oxide (NOx) emissions during operation. The catalysts are reaching the end of their anticipated life expectancy. Since plant construction, technological improvements in catalyst design allow for improved flow characteristics resulting in fuel savings for gas turbine operations.

Electric - Utility Billing CIS Redundancy

PROJECT NUMBER 500338

CLASSIFICATION Electric

DEPARTMENT Electric Department

LOCATION Citywide

DESCRIPTION
The Utility Billing Customer Information System (CIS) redundancy project will be a phased approach to assess, plan, and implement high availability, disaster recovery, and business continuity planning for the City's production CIS. This project will design and implement a solution that ensures redundancy, backup planning, and failover/failback procedures that meet the City's and customers' business needs.

OPERATING BUDGET IMPACT
There will be minor ongoing maintenance costs associated with the completion of this project.

Electric - Battery Storage Pilot Project

PROJECT NUMBER F10001

CLASSIFICATION Electric

DEPARTMENT Electric Department

LOCATION Hilltop Circle

DESCRIPTION
This project provides funding for the installation of a padmount 500 Kilowatt (kW), four-hour battery bank that will be connected directly to the 12 Kilovolt (kV) distribution system. This battery bank will help mitigate distribution system upgrades that will be necessary to provide the City's fleet with electric vehicle charging at the Corporation Yard. This battery bank will also have the ability to be dispatched as a generation resource, giving the City experience with the use of battery banks, which will be a large part of the electrical grid in the future.

OPERATING BUDGET IMPACT
Substation and line personnel will have to perform regular maintenance on the new battery bank.

Electric - Hardrock Battery Bank Addition

PROJECT NUMBER F10005

CLASSIFICATION Electric

DEPARTMENT Electric Department

LOCATION 1489 Rocky Ridge Drive

DESCRIPTION
This project provides funding to add a second battery bank to the control building at Hardrock substation. Batteries are critical pieces of equipment in the substation that allow the substation and protection equipment to operate as normal in the event of a power outage. Having a redundant battery bank is necessary to maintain system reliability.

OPERATING BUDGET IMPACT
There is minimal operating budget impact expected from the regular maintenance that will be required on the additional battery bank.

Electric - Roseville Energy Park Turbine Start Motors

PROJECT NUMBER F10011

CLASSIFICATION Electric

DEPARTMENT Electric Department

LOCATION 5120 Phillip Road

DESCRIPTION
The Roseville Energy Park (REP) utilizes large electric motors to start up the gas turbines. These motors, and associated electrical equipment, are reaching end of life and are no longer commercially available. This project provides funding to replace the motors and electrical equipment to improve plant reliability. This upgrade also includes improved cooling technology to ensure proper motor operations during the hottest months of the year.

Electric - Roseville Energy Park Inlet Chiller

PROJECT NUMBER F10015

CLASSIFICATION Electric

DEPARTMENT Electric Department

LOCATION 5120 Phillip Road

DESCRIPTION
The Roseville Energy Park's (REP) two gas turbine generators currently utilize evaporative cooling in the summer to cool the air entering the engines. This project provides funding to replace the evaporative coolers with chiller systems to further reduce inlet temperatures and lower the consumption of pure water at the facility. This project will have a net benefit of an estimated 3-6 megawatt (MW) of capacity during the summer months, which will improve plant performance.

Denio Family Park - Parcel F-54

PROJECT NUMBER 400118

CLASSIFICATION Parks, Recreation & Libraries

DEPARTMENT Parks, Recreation & Libraries

LOCATION Blue Oaks Boulevard and Fiddyment Road

DESCRIPTION
Funding for this project is for construction of a 95.5-acre park, of which about 47 acres is an open space preserve. Approximately ten additional acres will remain untouched as they are separated by the creek and preserve boundaries. The project will be built in phases and will include a disc golf course, dog park, multi-use/paved bike trails with two bridges at creek crossings, restrooms, a covered picnic area, and a parking lot.

OPERATING BUDGET IMPACT
Once constructed, the operations and maintenance costs will be a General Fund obligation.

Mobile Fire and Emergency Medical Services Reporting System

PROJECT NUMBER 500447

CLASSIFICATION Public Safety

DEPARTMENT Fire Department

LOCATION 316 Vernon Street

DESCRIPTION
This project provides funding for the replacement of the existing mobile fire and emergency medical services incident reporting system and technology. The current system is obsolete and requires duplication of effort. The new software allows for interoperability with the transport provider.

OPERATING BUDGET IMPACT
There is no operating budget impact expected upon the completion of the project.

Very High Frequency Handheld Portable Radios

PROJECT NUMBER 500448

CLASSIFICATION Public Safety

DEPARTMENT Fire Department

LOCATION 316 Vernon Street

NEW OR EXISTING

New Project

PRIORITY & TIMELINE

CITY COUNCIL GOAL
Ensure a safe and healthy community

START DATE
7/1/24

COMPLETION DATE
6/30/27

PROJECT STATUS
New

DESCRIPTION
This project provides funding to replace very high frequency (VHF) handheld portable radios. The department currently has between 1-3 years of service life left on existing equipment. The manufacturer still supports these devices; however, the current model can no longer be purchased. Field programmable VHF radios are required for participation in the statewide mutual aid system.

OPERATING BUDGET IMPACT
There is no operating budget impact expected upon the completion of the project.

Police - Dispatch Workstations

PROJECT NUMBER 500518

CLASSIFICATION Public Safety

DEPARTMENT Police Department

LOCATION 1051 Junction Boulevard

DESCRIPTION
This project provides funding for the dispatch workstations that are over 15 years old and at the end of life. The consoles are designed for a 24/7 environment to support various 911 and other related dispatch equipment. The ergonomic consoles have electric desk height adjustment for sit-stand use that is dependent on metal legs to support. In addition, consoles support a heavy monitoring mount system. The legs have been replaced several times over the years and are starting to wear. The electrical components of the consoles are also starting to fail, so a full replacement of the consoles will be completed.

OPERATING BUDGET IMPACT
There is no operating budget impact expected upon the completion of the project.

Bus Shelter Replacement Project

PROJECT NUMBER 500466

CLASSIFICATION Public Works

DEPARTMENT Public Works

LOCATION Citywide

NEW OR EXISTING

New Project

PRIORITY & TIMELINE

CITY COUNCIL GOAL
Invest in well-planned infrastructure and growth

START DATE
7/1/24

COMPLETION DATE
6/30/28

PROJECT STATUS
New

DESCRIPTION
Roseville Transit will replace old and dated bus shelters with new modern shelters that are comfortable and safe and will provide a positive customer experience and create long-term, regular transit riders. These new shelters will improve safety at the stops with more lighting and visibility.

OPERATING BUDGET IMPACT
There is no operating budget impact expected upon the completion of the project.

The Americans with Disabilities Act Upgrades and Barrier Removal

PROJECT NUMBER 500468

CLASSIFICATION Public Works

DEPARTMENT Public Works

LOCATION Citywide

DESCRIPTION
The City is required to identify accessible barriers and to have a plan to remove each barrier based on an identified level of importance. This project provides funding to remove the highest level of barriers that are identified in the Americans with Disabilities Act (ADA) upgrades and barrier removal transition plan.

OPERATING BUDGET IMPACT
There is no operating budget impact expected upon the completion of the project.

Fleet - Construction of Compressed Natural Gas Fleet Repair Bay

PROJECT NUMBER 500473

CLASSIFICATION Public Works

DEPARTMENT Public Works

LOCATION 2055 Hilltop Circle

DESCRIPTION
Fleet has an existing compressed natural gas (CNG) refuse fleet of 15 trucks with an additional 31 on order. The Fleet shop will require an additional CNG repair bay to accommodate the entire fleet.

OPERATING BUDGET IMPACT
There is no operating budget impact expected upon the completion of the project.

Fleet Services Charge Management Software Solution

PROJECT NUMBER 500486

CLASSIFICATION Public Works

DEPARTMENT Public Works

LOCATION Citywide

DESCRIPTION
This project provides funding for a web-based electric vehicle (EV) charge management software solution that will allow fleet to monitor and manage city-owned EV charging stations and provide EV telematics, including real-time monitoring of charging sessions, energy consumption, user authentication, billing and invoicing capabilities, and reporting and analytics.

Flood Risk Reduction Facilities Repair and Replacement Project

PROJECT NUMBER 500491

CLASSIFICATION Public Works

DEPARTMENT Public Works

LOCATION Citywide

DESCRIPTION
The five Flood Risk Reduction Facilities (FRRF) drainage pump stations and related equipment were installed in 1999. They pump stormwater out from areas behind the City's floodwalls and levees. Several pumps have already had major overhauls done, extending their life. This project provides funding to replace the pumps and related support pump station equipment that are at the end of life rather than invest in more major rebuilds. The project is funded by FY2022-23 General Fund year-end surplus.

OPERATING BUDGET IMPACT
There is no operating budget impact expected upon the completion of the project.

Washington and Andora Widening

PROJECT NUMBER 400015

CLASSIFICATION Public Works

DEPARTMENT Public Works

LOCATION Washington Boulevard from Sawtell to Diamond Oaks

DESCRIPTION
This project provides funding for widening Washington Blvd from two to four lanes from Sawtell to Diamond Oaks, including widening the Andora Underpass beneath the Union Pacific Railroad tracks. Phase one of the project is complete. Phase two is currently under design, and it is expected to begin in FY2027-28, contingent on grant funding to construct the remaining improvements. Phase one improvements constructed in FY2021-22 included:

- Widening Washington Blvd from two to four lanes between Sawtell Road and Kaseberg Drive, as well as between Diamond Oaks Road and Pleasant Grove Blvd
- Constructing a new multi-use trail along the east side of Washington Blvd, from Pleasant Grove Blvd to All America City Blvd
- Enhancing the current bicycle and pedestrian railroad under-crossing
- Improving signalized intersections along Washington Blvd
- Installing a new traffic signal at the intersection of Washington Blvd and Kaseberg Drive

OPERATING BUDGET IMPACT
There is no operating budget impact expected upon the completion of the project.

PROJECT STATUS
Planning

DESCRIPTION
This project provides funding to upgrade the bus stop and bus shelter within the Taylor Road Park-n-Ride Lot to provide a larger bus stacking area for multiple buses, more covered passenger seating, a waiting area, and other stop amenities. The current shelter is in poor condition and does not provide a sufficient passenger waiting and loading area.

OPERATING BUDGET IMPACT
There is no operating budget impact expected upon the completion of the project.

LOCATION Along Dry Creek from Riverside Avenue to Cook-Riolo Road

NEW OR EXISTING

Existing Project

PRIORITY & TIMELINE

CITY COUNCIL GOAL
Invest in well-planned infrastructure and growth.

START DATE
7/1/20

COMPLETION DATE
6/30/28

PROJECT STATUS
Design

DESCRIPTION
This project provides funding for the design and construction of a three-mile-long multi-use trail in the City of Roseville and unincorporated Placer County along Dry Creek from Riverside Avenue to Cook-Riolo Road. The project will provide local and regional bikeway and pedestrian connections.

OPERATING BUDGET IMPACT
Construction of the trail will result in increased trail maintenance needs. Local Transportation Funds (LTF) will pay for trail maintenance activities for the portion of the trail in the City of Roseville.

FUNDING OVERVIEW

NEW OR EXISTING

Existing Project

PRIORITY & TIMELINE

CITY COUNCIL GOAL
Invest in well-planned infrastructure and growth

START DATE
7/1/20

COMPLETION DATE
6/30/29

PROJECT STATUS
Design

DESCRIPTION

This is a two-phase project, and both phases are currently under design. Construction of Phase 1 is anticipated to extend through FY2024-25. Construction of Phase 2 will occur when adequate funding is identified but it could be as soon as FY2028-29. Phase 2 is expected to cost approximately $12 million.

Phase 1 improvements include adding a third left turn lane from southbound Pleasant Grove Boulevard onto eastbound Roseville Parkway, adding a bus turnout on Roseville Parkway between West Drive and Reserve Drive, and constructing intersection improvements at Roseville Parkway and Galleria Boulevard. Phase 2 will construct the remaining infrastructure to widen Roseville Parkway by one lane in each direction from Creekside Ridge Drive to East Gibson Drive.

OPERATING BUDGET IMPACT

No significant operating budget impact is expected upon the project's completion.

Baseline Traffic Signals

PROJECT NUMBER 500299

CLASSIFICATION Public Works

DEPARTMENT Public Works

LOCATION Baseline Road at Locust Road and Pleasant Grove Road

NEW OR EXISTING

Existing Project

PRIORITY & TIMELINE

CITY COUNCIL GOAL
Enhance economic vitality

START DATE
7/1/22

COMPLETION DATE
6/30/26

PROJECT STATUS
Procurement, Contracting

DESCRIPTION
This project provides funding for the installation of traffic signals and related improvements along Baseline Road at Locust Road and Pleasant Grove Road. The existing stop signs along Baseline Road will not have sufficient capacity to manage the traffic expected with the incoming Baseline Marketplace project. The regional shopping destination is expected to draw shoppers from not only Roseville and Placer County, but Sacramento County to the south and Sutter County to the west. Therefore, it is in Roseville's best interest to invest in infrastructure improvements to accommodate the anticipated traffic demand and provide convenient access to Roseville's shopping destinations for neighboring jurisdictions. This project was originally set-up in the Strategic Improvement Fund (SIF), but funding is now being moved to the City County Mitigation Fund and an interfund loan from the SIF will be established. As fee revenue is received in the City County Mitigation Fund, the SIF will be reimbursed. This project is an interim improvement to meet the needs of the region today while the City, Placer County, and Sutter County work through the funding plan, design, environmental approvals, and eventual construction of a future widened Baseline Road from Foothills Boulevard to Highway 99.

OPERATING BUDGET IMPACT
There is no operating budget impact expected upon the completion of the project.

Pleasant Grove Stormwater Retention Facility

PROJECT NUMBER 500360

CLASSIFICATION Public Works

DEPARTMENT Public Works

LOCATION Philip Road

DESCRIPTION
Funding for this mandatory mitigation project will design and construct up to an approximately 3,800 acre-feet flood detention basin in the Al Johnson Wildlife Area/Reason Farms Property to mitigate various development projects. The basin may become a regional facility in collaboration with Placer County and multiple developers (memorandum of understanding pending). The project will be constructed when enough developer fees and grant funds have been collected to fund construction.

OPERATING BUDGET IMPACT
Preliminary estimate of long-term operation and maintenance costs associated with the construction of the basin is between $700,000 and $900,000 per year, divided across various department operating budgets depending on the ultimate design. Some of these operating expenses may be offset by agreements with regional partners who opt into using the basin to mitigate their development projects.

Waste Services Comprehensive Software Solution

PROJECT NUMBER 500496

CLASSIFICATION Waste Services

DEPARTMENT Environmental Utilities Department

LOCATION 2005 Hilltop Circle

DESCRIPTION
This project provides funding for the procurement and implementation of a comprehensive software solution to improve process efficiency across each line of business and improve compliance program effectiveness. Specifically, Waste Services needs to streamline and automate customer service, safety, and operations routing processes. This project will evaluate existing divisional needs, followed by the procurement and implementation of the best technology solution or solutions, including seamless integration with the City's utility billing system. The software implementation will create efficiencies through automation and improve the effectiveness of data collection. Notably, the software implementation will provide more effective data on waste tracking, collection trends, and implementation of state regulations. It will also integrate route optimization, real-time tracking, camera data, self-service portal features, and automated scheduling to maximize operational efficiency. Ultimately, this solution will allow for a streamlined approach thus alleviating administrative inefficiencies, saving staff time, and increasing customer satisfaction.

OPERATING BUDGET IMPACT
There will be potential licensing fees for the software solution; however, costs may be offset by eliminating other software programs and external vendors' support for these programs.

Dry Creek Wastewater Treatment Plant Digester 1 Roof Rehabilitation

PROJECT NUMBER 500499

CLASSIFICATION Wastewater

DEPARTMENT Environmental Utilities Department

LOCATION 1800 Booth Road

DESCRIPTION
This project provides funding for the rehabilitation of the concrete dome lid on Digester 1 at the Dry Creek Wastewater Treatment Plant.

OPERATING BUDGET IMPACT
There is no operating budget impact expected upon the completion of the project.

Dry Creek Wastewater Treatment Plant Fiber Optic Rehabilitation

PROJECT NUMBER 500500

CLASSIFICATION Wastewater

DEPARTMENT Environmental Utilities Department

LOCATION 1800 Booth Road

DESCRIPTION
This project provides funding to upgrade the fiber optic network at the Dry Creek Wastewater Treatment Plant due to reaching end of useful life, older technology not being efficient, and for dependability of the system.

OPERATING BUDGET IMPACT
There is no operating budget impact expected upon the completion of the project.

Dry Creek and Pleasant Grove Wastewater Treatment Plants Lighting Rehabilitation

PROJECT NUMBER 500064

CLASSIFICATION Wastewater

DEPARTMENT Environmental Utilities Department

LOCATION 1800 Booth Road and 5051 Westpark Drive

DESCRIPTION
This project provides funding to replace all plant lighting outside of occupied spaces to light emitting diode (LED). The project will provide long-term savings due to increased fixture life and decreased energy consumption, including savings from Roseville Electric rebates.

OPERATING BUDGET IMPACT
The completion of this project will result in operational savings from reduced energy consumption.

Aquifer Storage and Recovery Wells Automation

PROJECT NUMBER 500504

CLASSIFICATION Water

DEPARTMENT Environmental Utilities Department

LOCATION Citywide

DESCRIPTION
This project provides funding to automate existing aquifer storage and recovery (ASR) wells 5, 6, 7, 8 and 12, including the following where needed at specific sites: automation or replacement of valves, modifications to motor operated valves, programmable logic controller (PLC) and supervisory control and data acquisition (SCADA) programming, and chemical systems and instruments automation.

OPERATING BUDGET IMPACT
There is no operating budget impact expected upon the completion of the project.

Cooperative Raw Water Supply Reliability Project

PROJECT NUMBER 500505

CLASSIFICATION Water

DEPARTMENT Environmental Utilities Department

LOCATION Citywide and Placer County

DESCRIPTION
This project provides funding to design and construct infrastructure improvements needed to take delivery of approximately ten million gallons per day (MGD) of Middle Fork Project water supplies directly to the Barton Road Water Treatment Plant (BRWTP). This project will increase water supply reliability in all hydrologic water year types and avoid the vulnerability of the single intake structure at the Folsom Reservoir.

OPERATING BUDGET IMPACT
There is no operating budget impact expected upon the completion of the project.

Dual Purpose Pump Station - Generator Replacement

PROJECT NUMBER 500507

CLASSIFICATION Water

DEPARTMENT Environmental Utilities Department

LOCATION 1401 East Roseville Parkway

DESCRIPTION
This project provides funding to replace the 20-year-old emergency backup generator at the Dual Purpose Pump station. This is a critical facility; the generator requires frequent maintenance and repairs, and replacement parts are no longer available.

OPERATING BUDGET IMPACT
There is no operating budget impact expected upon the completion of the project.

Emergency Backup Generators - Well Sites

PROJECT NUMBER 500510

CLASSIFICATION Water

DEPARTMENT Environmental Utilities Department

LOCATION Citywide

DESCRIPTION
This project provides funding for the sizing and procurement of two emergency portable backup generators that would allow pumping of two wells during a power outage and provide up to 5.8 million gallons per day (MGD).

OPERATING BUDGET IMPACT
There is no operating budget impact expected upon the completion of the project.

PROJECT STATUS
Pre-Design

DESCRIPTION
This project provides funding for the rehabilitation of the two million gallon steel tank at the Barton Road Water Treatment Plant (BRWTP). The scope of the project includes refurbishing the interior and exterior, applying a protective coating, and constructing seismic stabilization components. Replacing the tank is the second option if it is found to be more cost-effective.

OPERATING BUDGET IMPACT
The completion of this project will result in operational savings from lower maintenance costs.

Water Security and Resiliency Improvements

PROJECT NUMBER 500150

CLASSIFICATION Water

DEPARTMENT Environmental Utilities Department

LOCATION Citywide

DESCRIPTION
This project provides funding to implement water utility security measures identified by the risk and resiliency assessment completed in March 2020. Recommended security measures include improved emergency preparedness through training, improved security, enhanced priority list coordination through Pacific Gas and Electric Company (PG&E) and other utility companies, and upgraded lighting and access control.

OPERATING BUDGET IMPACT
Ongoing operational budget impacts will be determined based on the results of the assessment.

PROJECT STATUS
Design

DESCRIPTION
This project provides funding to rehabilitate the failing concrete structure of Reclaim Basins 1 and 2 at the Barton Road Water Treatment Plant (BRWTP) to maintain proper sludge-handling capabilities. The BRWTP has had issues with reclaimed turbidity levels that have been at or near the regulated levels with rain events bringing dirt into the basins through the cracks.

OPERATING BUDGET IMPACT
There is no operating budget impact expected upon the completion of the project.

Downtown Water Mains Rehabilitation - Phase 2

PROJECT NUMBER 500270

CLASSIFICATION Water

DEPARTMENT Environmental Utilities Department

LOCATION Roseville Heights Neighborhood

DESCRIPTION
This project provides funding for the replacement of aging water distribution mains infrastructure throughout Downtown Roseville (Roseville Heights neighborhood, Grid C4) to improve the reliability of the water distribution system. The project has been renamed from Downtown Water Mains Rehabilitation - Roseville Heights to Downtown Water Mains Rehabilitation - Phase 2 to allow for a more flexible approach to optimizing the order in which downtown water mains rehabilitations are implemented based on information gained from an updated hydraulic model.

Backflow Program Technology Project

PROJECT NUMBER 500346

CLASSIFICATION Water

DEPARTMENT Environmental Utilities Department

LOCATION Citywide

DESCRIPTION
The State Water Resources Control Board is updating requirements for public water systems related to cross-connection control and backflow prevention. The Water Utility is updating program protocols and operations to ensure the City meets the updated requirements, which include hazard assessments, backflow asset tracking, regular inspection, incident response, and customer contact, among other items. This project will integrate systems related to backflow and move backflow billing and payment compliance from the current manual processes to an existing system.

OPERATING BUDGET IMPACT
Overall, the project is expected to provide operational efficiencies - the estimated cost impact is less than $25,000 over five years, offset by revenues totaling more than $500,000.

Aquifer Storage and Recovery Wells 5 and 6

PROJECT NUMBER F10058

CLASSIFICATION Water

DEPARTMENT Environmental Utilities Department

LOCATION Citywide

DESCRIPTION
This project provides funding for the construction of two potable water wells with aquifer storage and recovery facilities based on recommendations from the Groundwater Strategic Plan.

OPERATING BUDGET IMPACT
Additional Environmental Utilities distribution staff time will be necessary to maintain and operate wells.

Water Treatment Plant Administration Building

PROJECT NUMBER F10059

CLASSIFICATION Water

DEPARTMENT Environmental Utilities Department

LOCATION 9595 Barton Road, Granite Bay

DESCRIPTION
This project provides funding for the design and construction of a new administration and operations building to support ongoing operations at the Barton Road Water Treatment Plant (BRWTP). This project will replace an existing administration building.

OPERATING BUDGET IMPACT
There is no operating budget impact expected upon the completion of the project.

Non-Capital Multi-Year Projects Overview

Non-Capital Multi-Year Projects Overview

The City of Roseville's Non-Capital Multi-Year Projects section includes projects crossing multiple fiscal years related to routine maintenance work on facilities, bike trails, open space and roadways, equipment maintenance and repairs, technology improvements not reaching the capitalization threshold, systems assessments and evaluations, and operating grants.

The five-year budget estimate for Non-Capital Multi-Year Projects is $43.1 million, of which $13 million is the funding request for FY2024-25. The current year's budget request represents a $5.3 million decrease from the prior year. The growth areas for Non-Capital Multi-Year Projects in FY2024-25 include Water ($0.7 million) and Citywide Technology ($0.1 million). This growth is offset by decreases in budget requests compared to FY2023-24 from Public Works ($3.1 million), General Government ($2.1 million), Wastewater ($0.5 million), and Waste Services ($0.3 million). For forecasting purposes, Non-Capital Multi-Year Projects include projects for which funding is yet to be identified. The project page presents these projects with a "TBD - To Be Determined" funding source. The total funding to be determined for the five-year plan is $3.2 million.

The non-capital projects presented in detail in this section are only those that include additional funding in the current or future budget years through FY2028-29. Projects planned to start in the coming years have been identified as forecasted projects on the summary page of each Non-Capital Multi-Year Projects classification as applicable. Since budgets are approved on a total project basis, any unspent funds at the end of the fiscal year are carried forward automatically into the following year's budget. Existing projects with unspent budgets are listed in the "Existing Projects" section on the summary table of each Non-Capital Multi-Year Projects classification.

Non-capital projects budget sheets display general project information and include department, location, description, operating budget impact, the City Council goal associated with the project, and a summary timeline. The "Funding Overview" section of each project budget sheet summarizes the project's financial information, and the "FY2024-25 Budget and Five-Year Plan" section provides project cost estimates by funding source for FY2024-25 through FY2028-29. In limited instances, the summary tables and individual project pages show lower available resources and actual expenditures/expenses from prior years than those incurred due to funds that have been closed and non-city funding sources.

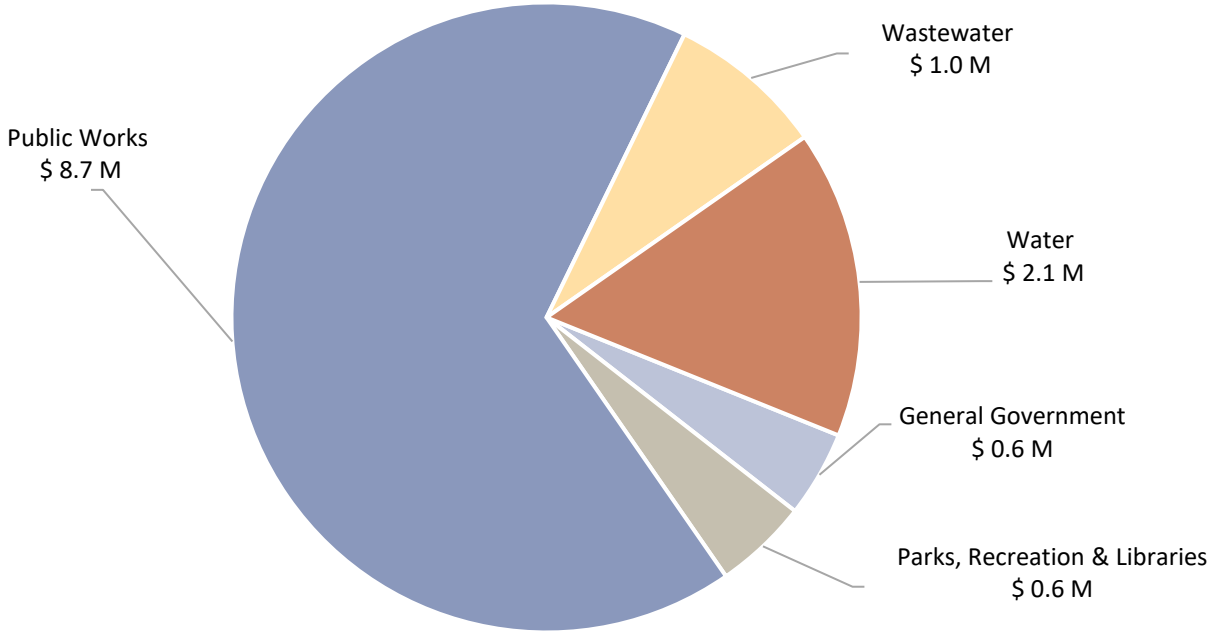

Projects are classified as: Citywide Technology; Electric; General Government; Parks, Recreation & Libraries; Public Safety; Public Works; Waste Services; Wastewater; and Water.

The table titled "Non-Capital Multi-Year Projects Summary by Classification" is a high-level view of the total project expenditures in each category over the next five years.

Virtual Call Agent Software Replacement

PROJECT NUMBER 500527

CLASSIFICATION Citywide Technology

DEPARTMENT Information Technology Department

LOCATION Citywide

DESCRIPTION
This project provides funding to replace virtual call agent software, which is at the end of life. The software is used by several departments on a daily basis for those employees within the City's various call centers.

OPERATING BUDGET IMPACT
There is no operating budget impact expected upon the completion of the project.

Citywide Traffic Model Update

PROJECT NUMBER 400189

CLASSIFICATION General Government

DEPARTMENT Development Services Department

LOCATION Citywide

DESCRIPTION
The Citywide Traffic Model identifies the transportation improvements needed to service the future demands of the roadway system. This project funds the ongoing model, land use, and project updates for the Citywide Traffic Model. This project also helps to maintain a project account, fee tracking, and fee updates.

OPERATING BUDGET IMPACT
There is no operating budget impact expected upon the completion of the project.

General Plan Update

PROJECT NUMBER 500325

CLASSIFICATION General Government

DEPARTMENT Development Services Department

LOCATION Citywide

DESCRIPTION
This project is to accumulate funds for the next City General Plan Update. The General Plan is a fundamental tool in guiding the City through change and growth. It addresses the physical development of the City and, when used together with a larger body of City Council policies, provides direction for decision-making on City services and resources. It is both a long-range and a strategic planning document, containing long-term goals and policies for the next 20 to 30 years. The City is required to regularly update its General Plan and to keep the General Plan in compliance with State law. The next General Plan Update is anticipated in approximately ten years. Funding for this project will come from a General Plan Update Permit Fee that was approved in FY2015-16.

OPERATING BUDGET IMPACT
There is no operating budget impact, this project is fully funded by General Fund Update Fee Revenue.

Permanent Local Housing Allocation Grant

PROJECT NUMBER 700031

CLASSIFICATION General Government

DEPARTMENT Economic Development Department

LOCATION Citywide

DESCRIPTION
The City of Roseville and Rocklin Permanent Local Housing Allocation Grant (state funds) support the Homeless Prevention and Rapid Rehousing program. The program serves low-income residents by funding navigation centers that help prevent homelessness by maintaining permanent housing, placing residents into temporary housing or treatment facilities, and permanently housing homeless residents. Local non-profit organizations apply for funding annually to support the following programs: emergency rental assistance, eviction prevention, utility assistance, housing placements, food assistance, mental health assessments, and job search assistance. In addition to state funding, the Low and Moderate Income Housing Successor Fund will provide $250,000 annually through FY2025-26 to support these programs.

OPERATING BUDGET IMPACT
The Permanent Local Housing Allocation Grant funds five percent of allowable administration costs.

Downtown Parking Garages Improvements

PROJECT NUMBER 500442

CLASSIFICATION Public Works

DEPARTMENT Public Works

LOCATION 405 Vernon Street and 200 Oak Street

DESCRIPTION
This project provides funding to install improvements (e.g., speed bumps) throughout both Parking Garages in order to slow vehicle traffic and increase safety. The project is funded by FY2022-23 General Fund year-end surplus.

OPERATING BUDGET IMPACT
There is no operating budget impact expected upon the completion of the project.

Parking Garage Elevator Rehabilitation

PROJECT NUMBER 500467

CLASSIFICATION Public Works

DEPARTMENT Public Works

LOCATION 405 Vernon Street

DESCRIPTION
The elevator for the 405 Vernon Street parking garage has controls that are outdated and difficult to find. The City's elevator service contractor has recommended replacing the elevator controls before a major failure.

OPERATING BUDGET IMPACT
There is no operating budget impact expected upon the completion of the project.

Civic Center Wallpaper Removal and Interior Painting

PROJECT NUMBER 500469

CLASSIFICATION Public Works

DEPARTMENT Public Works

LOCATION 311 Vernon Street

DESCRIPTION
The public and employee areas of the Human Resources, City Manager, and City Attorney offices have the original paint and finishes from 2001. The wallpaper is peeling, and the walls are scuffed and need repair and repainting. This project provides funding for wallpaper removal and interior painting.

OPERATING BUDGET IMPACT
There is no operating budget impact expected upon the completion of the project.

Corporation Yard - Building D Water Shop

PROJECT NUMBER 500470

CLASSIFICATION Public Works

DEPARTMENT Public Works

LOCATION 2025 Hilltop Circle

DESCRIPTION
The carpet in the Water Shop upstairs conference room and adjacent office is worn out and needs to be replaced. This project provides funding for replacing the carpet with a luxury vinyl tile (LVT). LVT is a much more durable flooring type.

OPERATING BUDGET IMPACT
There is no operating budget impact expected upon the completion of the project.

Corporation Yard Card Key Access

PROJECT NUMBER 500471

CLASSIFICATION Public Works

DEPARTMENT Public Works

LOCATION 2005 Hilltop Circle

DESCRIPTION
The Johnson Controls Access Card Key operating system (P2000) is 20+ years old. Johnson Controls no longer supports the P2000 system and requires all P2000 systems to be upgraded to the newest operating system. This project provides funding for the operating system upgrade.

FY2025 Fire Station Rehabilitation

PROJECT NUMBER 500472

CLASSIFICATION Public Works

DEPARTMENT Public Works

LOCATION Fire Stations #5 and #9

DESCRIPTION
This project provides funding for the following fire station rehabilitation:

Fire Station #5 ($85,000) - The kitchen at the fire station requires rehabilitation. The project will include cabinets, counter tops, appliances, paint, and flooring.

Fire Station #9 ($15,000) - The stucco system is cracked and faded. To protect the integrity of the building, repainting of the exterior stucco is required.

OPERATING BUDGET IMPACT
There is no operating budget impact expected upon the completion of the project.

Mahany Fitness Center - Infrastructure Upgrade

PROJECT NUMBER 500476

CLASSIFICATION Public Works

DEPARTMENT Public Works

LOCATION 1545 Pleasant Grove Boulevard

DESCRIPTION
This project provides funding for the following Mahany Fitness Center upgrades:

Boiler Replacement ($150,000) - The boilers at the Mahany Fitness Center are original to the building and are at the end of their useful life. Both the domestic hot water boiler and the comfort boiler for the heating, ventilation, and air conditioning (HVAC) are low-efficiency natural gas fired units and are crucial to the facility operations.

Water Source Heat Pumps Replacement ($400,000) - The water source heat pumps for the Mahany Fitness Center are all original to the building and are at the end of their useful life. They are experiencing regular failures such as refrigerant leaks, compressor failures, controls failures, etc., and parts are becoming increasingly difficult to find.

OPERATING BUDGET IMPACT
There is no operating budget impact expected upon the completion of the project.

Maidu Community Center Roof and Flooring Replacement

PROJECT NUMBER 500477

CLASSIFICATION Public Works

DEPARTMENT Public Works

LOCATION 1550 Maidu Drive

DESCRIPTION
This project provides funding for the following Maidu Community Center upgrades:

Slate Roof and Gutters Replacement ($600,000) - The slate roof is over 36 years old. A typical slate roof lasts up to 50 years; however, this roof has experienced vandalism over the past several years. As a result, a number of tiles are missing or damaged. It has been recommended that the slate be replaced with an aesthetically fitting material such as mechanically fastened slate, concrete tile, or standing seam metal roof.

Carpet Replacement ($105,000) - The meeting rooms located at Maidu Community Center experienced high use over the past decade. The existing carpet is worn out and needs replacement.

OPERATING BUDGET IMPACT
There is no operating budget impact expected upon the completion of the project.

Pleasant Grove Wastewater Treatment Plant Building Painting and Repair

PROJECT NUMBER 500481

CLASSIFICATION Public Works

DEPARTMENT Public Works

LOCATION 5051 Phillip Road

DESCRIPTION
This project provides funding for the Pleasant Grove Wastewater Treatment Plant (PGWWTP) interior and exterior building painting and repairs. The exterior paint is 20 years old. It is faded, and nail heads are starting to show and rust. All bird netting has failed and needs replacement. Glulam beams are exposed and will start to rot if not refinished. The interior finishes are showing wear and getting difficult to keep clean.

OPERATING BUDGET IMPACT
There is no operating budget impact expected upon the completion of the project.

Roseville Police Department Infrastructure Upgrade

PROJECT NUMBER 500483

CLASSIFICATION Public Works

DEPARTMENT Public Works

LOCATION 1051 Junction Boulevard

DESCRIPTION
This project provides funding for the following Roseville Police Department upgrades:

Boiler Replacement ($240,000) - The existing four boilers are 26 years old and are currently operating outside of the standard life cycle of approximately 15 years.

Fire Alarm Replacement ($100,000) - The existing fire alarm system panel is a proprietary notifier control panel that is discontinued. The fire panel and all its devices will be replaced with a more common non-proprietary Silent Knight System.

Soundwall Beautification Project

PROJECT NUMBER 500493

CLASSIFICATION Public Works

DEPARTMENT Public Works

LOCATION Citywide

DESCRIPTION
The City of Roseville is comprised of a diverse assortment of neighborhoods with unique characteristics and styles. Within the City, there are approximately 28,000 linear feet of city-maintained soundwalls that contribute to the ambiance of the community and define several roadway corridors. This is a 10-year project developed to construct improvements in a way that increases the aesthetic appeal of the neighborhoods and corridors. Potential improvements include but are not limited to power washing and applying anti-graffiti surfacing, adding decorative pilasters and wall caps, and painting.

OPERATING BUDGET IMPACT
There is no operating budget impact expected upon the completion of the project.

The Americans with Disabilities Act Transition Plan & Title VI Compliance

PROJECT NUMBER 500517

CLASSIFICATION Public Works

DEPARTMENT Public Works

LOCATION Citywide

DESCRIPTION
The City's last update to the Americans with Disabilities Act (ADA) Transition Plan was finalized in 2009. The California Department of Transportation (Caltrans), the agency that administers federal and state grant funding, requires the City to have an ADA Transition Plan and recommends it be updated every few years. The City is also required by the Federal Highway Administration (FHWA) and Caltrans to have a compliant Title VI Plan. Currently, transit facilities are incorporated into the City's Title VI Plan, per FHWA requirements. This project will update the City's ADA Transition Plan, as well as work to ensure the City's Title VI Plan incorporates all public works facilities, as needed, to be compliant with Caltrans Title VI requirements.

OPERATING BUDGET IMPACT
There is no operating budget impact expected upon the completion of the project.

Multi-Hazard Plan Update

PROJECT NUMBER 400029

CLASSIFICATION Public Works

DEPARTMENT Public Works

LOCATION Citywide

DESCRIPTION
This project funds the annual update of the City's Multi-Hazard Mitigation Plan, which details the risks of both natural and manmade hazards in Roseville and includes programs and projects to help reduce the exposure of city residents and businesses should an event occur. In order to be eligible to obtain grant funding from the Federal Emergency Management Agency (FEMA) and maintain our National Flood Insurance Program (NFIP) Community Rating System (CRS) Class 1 rating, the City must perform an annual Multi-Hazard Plan review and a five-year major update. The requested budget covers annual and major updates. Completing annual and major five-year updates to the Multi-Hazard Plan assists with identifying mitigation projects that are generally completed within existing operating budgets. In the case that an annual plan or major update identifies a project that an existing operating budget cannot absorb, there may be a need to increase a specific department's operating budget to continually mitigate for something specific, create a new capital improvement project, or request a one-time increase, depending on the project.

OPERATING BUDGET IMPACT
Identifying projects within the Multi-Hazard Plan assists with finding and procuring grant funding, limiting impacts on operating budgets.

Storm Drain Outfall Repairs

PROJECT NUMBER 500358

CLASSIFICATION Public Works

DEPARTMENT Public Works

LOCATION Citywide

DESCRIPTION
Several storm drain outfalls (into creeks) have been identified as needing various repairs. This project provides funding for repairs that, depending upon the location, include erosion repair due to headwall undermining up to full replacement/reconstruction of headwalls. Locations include the vicinities of Coloma Way and Rampart Way into Cirby Creek.

OPERATING BUDGET IMPACT
Completion of repairs will improve efficiencies for staff who monitor drainage throughout the city. There will be no impact on operating budgets.

Los Cerritos Roseville Heights Residential Resurfacing

PROJECT NUMBER 500361

CLASSIFICATION Public Works

DEPARTMENT Public Works

LOCATION Los Cerritos and Roseville Heights Neighborhoods

DESCRIPTION
This project provides funding for the residential resurfacing of neighborhood streets within the Los Cerritos and Roseville Heights areas. It also includes upgrades to storm drain inlets, lateral pipes, and curb and gutter repairs.

OPERATING BUDGET IMPACT
Resurfacing these residential roadways will reduce the need for frequent spot repairs by the City's Streets Maintenance Division.

PROJECT STATUS
Planning

DESCRIPTION
This project provides funding for planning, implementing, and operating the South Placer County Express Bus Service, which will provide fixed-route bus service on a pilot basis. The service will begin in the City of Lincoln and continue along the Highway 65 corridor with stops at the Galleria Mall, Sutter Hospital, and Kaiser Hospital, terminating at the Watt/I-80 light rail station where passengers can travel to and from downtown Sacramento, the Railyards, and other key destinations within the Sacramento region.

OPERATING BUDGET IMPACT
Grants and other funds will support operating expenses during the three-year pilot period. After satisfactory completion of the pilot period and grant close-out, the project will be closed. If the project is successful, additional funding will be identified to continue operations. General Fund resources will not be used for the operating budget during the pilot years or future years.

Highway Bike-Ped Overcrossings Study

PROJECT NUMBER F10054

CLASSIFICATION Public Works

DEPARTMENT Public Works

LOCATION Citywide

DESCRIPTION
This project funds a study focusing on the feasibility of constructing bike-pedestrian crossings over Highways 65 and I-80 in the City. The purpose of constructing these types of bike-ped overcrossings is to reduce transportation fatalities and severe injuries on public roads.

OPERATING BUDGET IMPACT
There is no operating budget impact expected upon the completion of the study.

Data Management Strategy and Roadmap

PROJECT NUMBER 500506

CLASSIFICATION Water

DEPARTMENT Environmental Utilities Department

LOCATION Citywide

DESCRIPTION
This project provides funding to define a vision, structure, and implementation strategies effectively using data to support Environmental Utilities (EU) operations. The project includes:
- Baseline assessment of the internal systems and structures for managing data analytics in EU.
- Five to ten year implementation roadmap that prioritizes projects and initiatives to address issues discovered in the baseline assessment.
- Implementation support, if needed.

OPERATING BUDGET IMPACT
There is no operating budget impact expected upon the completion of the project.

Groundwater Strategic Plan Update 2025

PROJECT NUMBER 500508

CLASSIFICATION Water

DEPARTMENT Environmental Utilities Department

LOCATION Citywide

DESCRIPTION
This project provides funding to update the Groundwater Strategic Plan, which will undertake a comprehensive, fresh, and strategic examination of Roseville's current and planned groundwater and conjunctive use infrastructure. It will also develop optimal strategies for operating wells to achieve maximum asset life. Included is an economic analysis of well operations that considers construction costs, cost of operations, frequency of water transfers, and how this might change in the future.

OPERATING BUDGET IMPACT
There is no operating budget impact expected upon the completion of the project.

Lead and Copper Rule Revisions-Public Outreach

PROJECT NUMBER 500509

CLASSIFICATION Water

DEPARTMENT Environmental Utilities Department

LOCATION Citywide

DESCRIPTION
This project provides funding for Lead and Copper Rule Revisions (LCRR) requirements implementation, including public outreach materials development, creation of publicly available lead/copper water lines inventory and LCRR website.

OPERATING BUDGET IMPACT
There is no operating budget impact expected upon the completion of the project.

RiverArc

PROJECT NUMBER 500512

CLASSIFICATION Water

DEPARTMENT Environmental Utilities Department

LOCATION Sacramento Region

DESCRIPTION
As part of the Environmental Utilities (EU) on-going efforts to increase the resiliency of Roseville's water supply, including during drought and other emergency scenarios, EU is participating in The RiverArc Project, which is a multi-agency project to divert water through existing modern intakes from the Sacramento River, convey to a new regional water treatment plant, and distribute surface water through a mix of new and existing pipelines to Roseville and other local water agencies.

Warren Act Contract Renewal

PROJECT NUMBER 500515

CLASSIFICATION Water

DEPARTMENT Environmental Utilities Department

LOCATION Citywide

DESCRIPTION
The City of Roseville's long-term Warren Act contract for conveyance of non-project water between the City and the United States Bureau of Reclamation (USBR) was signed in 2006 and remains in effect through 2031. This project is to begin the process of negotiations with the USBR, as well as the environmental work required to update the contract to extend the contract date and adjust the authorized water contract amount that can be conveyed through USBR facilities for Roseville's use.

OPERATING BUDGET IMPACT
There is no operating budget impact expected upon the completion of the project.

SMUD Water Recharge

PROJECT NUMBER 500015

CLASSIFICATION Water

DEPARTMENT Environmental Utilities Department

LOCATION Citywide

DESCRIPTION
This project covers the cost of implementing the approved water transfers (original and extensions) from the Sacramento Municipal Utilities District (SMUD) to the City of Roseville for up to 6,000 acre-feet of water per year. It includes initial funding for 1,000 acre-feet of water purchased from SMUD each year to further test and develop Roseville's Aquifer Storage and Recovery (ASR) groundwater system injection capacity. As more ASR wells are constructed, the annual amount of water scheduled to transfer from SMUD may increase, leading to future adjustments to this budget.

OPERATING BUDGET IMPACT
There is no operating budget impact expected upon the completion of the project.

2024 Potable Water Master Plan and Hydraulic Model Update

PROJECT NUMBER 500148

CLASSIFICATION Water

DEPARTMENT Environmental Utilities Department

LOCATION Citywide

DESCRIPTION
This project provides funding for a potable water systems evaluation to guide the Water Utility in terms of infrastructure planning and improvements implementation to both existing and future storage and distribution infrastructure to reliably support the City's potable water demand through buildout. The project has been renamed from Potable Water Master Plan to 2024 Potable Water Master Plan and Hydraulic Model Update to include the hydraulic model because it is an integral part of the water master plan. As a potable master plan requires periodic updates, it is important the project name reflects a reference date.

Water Distribution Sites Programmable Logic Controllers Rehabilitation

PROJECT NUMBER F10071

CLASSIFICATION Water

DEPARTMENT Environmental Utilities Department

LOCATION Citywide

DESCRIPTION
This project provides funding to upgrade water distribution sites' programmable logic controllers (PLCs). The existing controllers are reaching the end of their useful life, no longer being supported by the manufacturer, and it is becoming challenging to find replacement parts.

Operational Data Analytics

PROJECT NUMBER F10106

CLASSIFICATION Water

DEPARTMENT Environmental Utilities Department

LOCATION Citywide

DESCRIPTION
This project provides funding to secure a vendor and determine a platform to harness data points from multiple systems and processes to develop an Artificial Intelligence (AI) infrastructure for tracking utility performance and assets. By integrating the data and data sources and overlaying information into real-time operational dashboards, Environmental Utilities (EU) will be able to optimize operations, improve customer service, determine anomalies, predict and manage costs, and enhance other aspects of managing water-related operations.

Debt Management Details

Interfund Loans:

Youth Development Fund obligation to Fleet Replacement Fund

Funding for Adventure Club school site(s)/portable(s).
Maturity date of 6/30/2047

Diamond Oaks Golf Course obligation to Fleet Replacement Fund

Funding for renovations of the Diamond Oaks Golf Course.
Maturity date of 6/30/2036

Woodcreek Golf Course obligation to Fleet Replacement Fund

Funding for the construction of the Woodcreek Golf Course club house.
Maturity date of 6/30/2037

Successor Agency to the RDA Fund obligation to General Fund

Funding for Vernon Street streetscape improvements.
Funding for county school district pass-through payment.
Maturity date of 6/30/2036

Successor Agency to the RDA Fund obligation to Strategic Improvement Fund

Funding for the façade and landscape renovations for the Automall wall.
Funding for the startup of the RCDC.
Funding for Riverside Avenue infrastructure and streetscape enhancement project. Provided funding for significant improvements.
Funding for the acquisition of property located at 238 Vernon Street (JCPenney Building) to create a viable development site in Downtown.
Maturity dates of 6/30/2026 - 6/30/2040

Successor Agency to the RDA Fund obligation to Low & Moderate Income Fund

Loan for 20% of all Successor Loans obligations to the Low & Moderate Income Fund per AB 1484 Section 34191.4(C).
Maturity date of 1/31/2026

Water Operations Fund obligation to Water Construction Fund

Funding for Advanced Metering Project.
Maturity date of 6/30/2030

Public Facilities Fund obligation to Fleet Replacement Fund

Funding of design and construction for second Downtown parking garage (Vernon Street and Oak Street).
Maturity date of 6/30/2035

Public Facilities Fund obligation to Strategic Improvement Fund

Funding of the 316 Vernon Building Project.
Maturity date of 6/30/2027

Downtown Parking Fund obligation to Strategic Improvement Fund

Funding of a portion of the Oak Street parking garage.

Maturity date of 6/30/2028

Citywide Park Fund obligation to Fleet Replacement Fund

Funding for the Harry Crabb Park project.

Maturity date of 6/30/2026

Fire Facilities Fund obligation to General Fund Capital Reserve Fund

Funding for Fire Station No. 8 to augment the currently available balance in the Fire Facilities Fund.

Maturity Date of 6/30/2028

Traffic Mitigation Fund obligation to General Fund Capital Reserve Fund

Funding for the construction of the Soccer Complex traffic signals.

Maturity Date of 6/30/4042

Neighborhood Park - Stoneridge to Neighborhood Park – Westbrook

Additional funding to complete Solaire Park (Project 500102)

Maturity Date of 6/30/2029

Loan:

State Revolving Fund Loan

Funding for the Pleasant Grove Wastewater Treatment Plant Expansion and Energy Recovery projects. South Placer Wastewater Authority is obligated to provide the funding to service the debt for this loan.

Maturity date of 7/03/2053

Revenue Bonds:

Roseville Natural Gas Financing Authority Gas Revenue Bonds, Series 2007

Funding the prepayment of about 46 billion cubic feet of natural gas that Merrill Lynch Commodities will supply over 20 years. The gas delivered is used in the Roseville Energy Park. The bonds are fixed rate.

Maturity date of 2/15/2028

Electric System Revenue Refunding Bonds, Series 2017A

Partial refunding of the 2009 Certificates of Participation and the 2010 Electric Refunding Bonds. The original issues were to finance certain improvements to the City's electric system and the Roseville Energy Park. The bonds are fixed rate.

Maturity date of 2/01/2037

Electric System Revenue Refunding Bonds, Series 2020

Refunding of the 2014 Electric Refunding Bonds and partial refunding of the 2014 Certificates of Participation. The original issues were to finance and refinance improvements to the City's electric system.

Maturity date of 2/01/2034

South Placer Wastewater Authority (SPWA) Wastewater Revenue Refunding Bonds, Series 2020 (64.57% City Share)

Refunding the 2013 SPWA Series bonds. The original issue was to fund the construction of the Pleasant Grove Wastewater Treatment plant and smaller related projects. The SPWA member agencies are responsible for the repayment of all revenue bonds. The City anticipates its regional wastewater connection fees paid to SPWA will cover the City's 64.57 percent share of the revenue bond debt service obligation.

Maturity date of 11/01/2035

South Placer Wastewater Authority (SPWA) Wastewater Revenue Refunding Bonds, Series 2017 (64.57% City Share)

Refunding of the SPWA Series 2014 Revenue Bonds, partial refunding of the SPWA Series 2011C Revenue Bonds, and new funding for the Wastewater Treatment Plant Expansion project. The SPWA member agencies are responsible for the repayment of all revenue bonds. The City anticipates its regional wastewater connection fees paid to SPWA will cover the City's 64.57 percent share of the revenue bond debt service obligation.

Maturity date of 11/01/2037

Certificates of Participation:

Electric System Revenue Refunding Certificates of Participation, Series 2004

Financing certain improvements to the City's electric system. The capital improvements include: construction of two new substations, 60KV line extensions, overhead to underground system conversions, and substation expansion and upgrades. The bonds are fixed rate. The 2004 bonds were partially refunded in 2014, leaving a principal amount of $5,000.

Maturity date of 2/01/2034

Public Facilities Refunding Certificates of Participation, Series 2013

Refunding the 2003 Public Facility and Golf Course bonds. The original issue was to finance the construction of the City's Corporation Yard and construction of the Woodcreek Oaks Golf Course Club House. The bonds are fixed rate.

Maturity date of 8/01/2023 (Golf Course)
Maturity date of 8/01/2025 (Public Facilities)

Water Utility Revenue Certificates of Participation, Series 2015

Refunding the 2007 water bonds and use a portion of the net proceeds to finance the acquisition and/or construction of certain capital improvements and additions to the City's water utility system. The 2015 water bonds included a new money component to assist in the construction of certain capital improvements and additions to the City's water utility system. The bonds are fixed rate.

Maturity date of 12/01/2029

Certificates of Participation, Series 2015 (316 Vernon Street Project)

Completing the infrastructure component of the 316 Vernon Street mixed-use City building. Annual debt service payments will be covered from the lease revenues as well as contributions from the Public Facilities and Strategic Improvement Fund. The bonds are fixed rate.

Maturity date of 8/01/2045

Tax Allocation Bonds:

Successor Agency to the Redevelopment Agency of the City of Roseville Tax Allocation Refunding Bonds, Series 2014

Refunding the 2002 RDA bonds. The original issue was to finance various capital improvement projects, including the renovation of the Tower Theater, the Civic Plaza Parking Garage and the streetscape projects for Riverside Avenue and Historic Old Town.
Maturity date of 9/01/2033

Successor Agency to the Redevelopment Agency of the City of Roseville Tax Allocation Refunding Bonds, Series 2016-T

Refunding the 2006A, 2006A-T and the 2006H-T RDA bonds. The original 2006A issue was to complete the Downtown Roseville infrastructure designing and the engineering of public improvements identified in the Downtown Vision. The original 2006A-T issue was to establish a low interest rate revolving loan fund for private property improvements; incentivizing for private projects such as fee subsidies or waivers. The original 2006H-T issue was to develop and sell a mixed-use development project and provide down payment assistance to first time homebuyers.
Maturity date of 9/01/2040

Glossary of Budget Terms

Appropriation:	Legal authorization to make expenditures and incur obligations for specific purposes.
Budgetary Basis of Accounting:	Budgetary basis of accounting refers to the timing of when revenues and expenditures are recognized in the accounts and reported. In accordance with GAAP (Generally Accepted Accounting Principles), the City budgets for all governmental funds using the modified accrual basis of accounting, with the exception of interfund loan disbursements and repayments, which are budgeted as expenditures and revenue. Governmental fund revenues are recognized when measurable and available. The City considers all revenues reported in the governmental funds to be available if the revenues are collected within 120 days after year-end, with the exception of sales taxes and property taxes, which are considered available if collected within 60 days after year-end. Proprietary and fiduciary funds are budgeted using the modified accrual basis of accounting for expenses, with the exception of interfund loan transactions, which are budgeted as expenditures and revenue, and the full accrual basis of accounting for revenues. Proprietary and fiduciary fund revenues are recorded when earned regardless of when the cash flows occur.
Capital Improvement Projects (CIP):	Expenditures related to the acquisition, design, construction or expansion of an element of the City's infrastructure (physical capital assets such as streets, public buildings, public services infrastructure, and parks, as well as equipment and technology infrastructure).
Non-Capital Multi-Year Projects:	Expenditures related to maintenance work performed on a routine basis for facilities, bike trails, open space and roadways; equipment maintenance and repairs; technology improvements not reaching the capitalization threshold; plans, models and fee updates; systems assessments and evaluations; and operating grants.
Capital Project Fund:	A fund used to account for financial resources for the acquisition or construction of major capital facilities, which are separate from ongoing operating activities.
Capital Outlays:	Expenditures which result in acquisitions of, or additions to, capital assets; includes expenditures for furniture, vehicles, and all types of machinery and equipment, including all costs necessary to place the capital outlay item into service. In order to qualify as a capital outlay expenditure, it must: 1. have an estimated useful life of more than one year; 2. have a unit cost of more than $5,000; and represent a betterment or improvement.
Department:	Major unit of organization in City government comprised of sub-units named divisions.
Division:	Major sub-unit of a department represented in the financial system by a Cost Center.
Enterprise Fund:	A fund that provides goods or services to the public for a fee or charge that makes the entity self-supporting.
Fiscal Year:	Twelve-month period to which the operating budget applies. The twelve-month period begins on July 1st and ends on June 30th.

Fund:	Fiscal entity with revenue and expenses which are segregated for the purpose of carrying out a specific purpose or activity. The major funds for financial reporting are the General, Electric, Water, Wastewater, and Waste Services funds.
General Fund:	The primary operating fund of the City used to account for all financial resources except those required to be accounted for in another fund.
Indirect Allocations:	The City uses the indirect cost allocation process to allocate departmental costs from the General Fund to all funds that receive benefit from the services that the General Fund departments provide. The City uses a consulting firm, which specializes in indirect cost studies to prepare the indirect cost allocation plan. The plan is based on the most current budget information available at the time the study is completed typically six months prior to the adoption of a new budget. The consulting firm interviews staff from the General Fund departments that provide services to other departments. Cost allocation drivers are confirmed during the interview process and budget data is provided to the consultant. The budget data used in the study excludes reimbursed expenses. Examples of reimbursed expenditures are Capital Improvement Projects and secondary labor that is direct charged from one fund to another. The consultant provides a comprehensive study that is provided to all departments for review and comment. Staff has an opportunity to comment on the plan and to correct any errors. Internal service funds used by the City directly charge costs of service to funds and departments receiving the service; therefore, the only fund that uses the indirect method of allocating costs is the General Fund. Indirect cost charges are budgeted in the fund that is paying for the service and reduces the expenditures of the departments providing the services. The purpose is to ensure that the General Fund is reimbursed for the services that it is providing throughout the City.
Internal Service Fund:	A fund established to finance and account for services and supplies furnished by a designated department to other departments within the City. Examples of the City's Internal Service Funds include the Fleet Services Fund, the Fleet Replacement Fund, the Information Technology Operations Fund, the Facility Services Fund, and Workers Compensation Fund. Costs from these funds are directly charged to those funds and departments receiving the benefits of the services provided.
Materials, Supplies, and Services:	Materials and supplies are expendable items having a unit cost of less than $5,000 or, which by their nature, can be consumed during the course of the fiscal year. Examples are paper, writing instruments, ink cartridges, safety and protective gear, and small tools that are not capital in nature. Services may be performed by outside firms, individuals, or City departments and may include consulting services, subscriptions and memberships, advertising, training and development, office equipment maintenance, insurance, and utilities (including those utilities provided by City departments).
Cost Center:	A sub-unit of a division.

Glossary of Budget Terms

Performance Measures/ Workload Measures:	Indicators which are used to assess a department's progress toward achieving stated goals and strategies and level of work performed.
Permanent Fund:	A fund used to report resources that are legally restricted to the extent that only earnings, not principal, may be used for purposes that support or benefit the government or its citizens.
Reimbursed Expenditures:	Accounting adjustments that credit a budget expenditure, thus serving to reduce the total expenditures of a program. Reimbursements generally result from expenditures chargeable to other programs, such as work performed by one department or division for another. The allocation of indirect costs is budgeted as reimbursed expenditures.
Revenue:	Income, including transfers and excluding proceeds from the sale of bonds and notes, for the fiscal year. The major categories of revenue include local taxes, state shared revenues, charges for current services, public utility sales, federal revenue sharing, and licenses and permits.
Salaries, Wages, and Benefits:	Compensation paid to employees of the City, and the employee benefits costs, such as the City's contributions for retirement, deferred compensation, group insurance, uniform allowance, and workers' compensation insurance. Also included is compensation paid to elected officials as provided by the City Charter. It does not include fees for professional and other services obtained on a contractual basis.
Special Revenue Fund:	A fund that is used to account for the proceeds of a specific revenue source that is restricted or committed to expenditure for specified purposes other than debt service or capital projects.
Trust Fund:	A fund that is restricted for specific programs and purposes in accordance with a statute that designates the fund as a trust.
Private Purpose Trust Fund:	A fund that accounts for other trust arrangements under which the principal and income benefit individuals, private organizations, or other governments.

Glossary of Common Acronyms

CAUTIOUS OPTIMISM AMIDST ECONOMIC AND REGULATORY UNCERTAINTY

The start of 2025 marks a period of significant change in the United States, with the new presidential administration introducing sweeping reforms across various sectors. These changes span a wide range of policy areas, including the economy, trade, healthcare, immigration, spending, environmental regulations, and foreign policy.

The President's initiatives aim to reshape national priorities, while also introducing new approaches to governance and public service. These approaches have put an even sharper focus on the judicial and legislative branches of the federal government since the viability of many of the reforms has been brought into question and remains unsettled.

Regardless of the lens used to evaluate the changes, they have the potential to significantly affect growth, jobs, and inflation, leading to a spike in economic uncertainty. The full impact of these policies remains to be seen as they are in the early stages of implementation at the time of this writing in April 2025.

Moving forward, the City faces the following challenges:

- Ongoing uncertainty regarding the impacts of the new administration's policies as well as a potential recession have increased volatility in the markets to start the year.
- The environmental and economic impacts of wild and unprecedented weather patterns are damaging and have intensified the focus on ways to mitigate climate change and ensure operational resiliency.
- The weaponization of technology, from disinformation on social media and websites, to cyberattacks on critical infrastructure, to illicit use of artificial intelligence to scam individuals, necessitates vigilance in both security and awareness of new technological capabilities.

Public perception of federal and state government is reflective of these factors. A recent Public Policy Institute of California study found roughly 75 percent of Californians think the U.S. is going in the wrong direction and will have bad times financially during the next 12 months. Seventy percent of people polled feel this way about the state of California as well.

Recognizing the problem of the State's deficit, the Legislature's nonpartisan Legislative Analyst's Office (LAO) found that action taken in the 2024-25 budget process proactively addressed the anticipated budget problem, shrinking the projected budget shortage to roughly $2 billion. In January, Governor Newsom proposed a balanced budget that may be adjusted as part of the May revise before being enacted in summer 2025. But while the budget picture is fair for the upcoming year, the LAO's outlook suggests that the state faces double-digit operating deficits in the years to come absent reduced spending and/or raised taxes.

At the local level, a blend of encouraging and challenging factors impacts the City's outlook:

- The failure of the South Placer County half-cent transportation sales tax known as Measure B on the November 2024 ballot means traffic will get worse before it gets better since the region will not have a local funding match. A similar measure narrowly failed in 2016 as well, when the transportation funding formulas started to change. This means longer delays for needed road and highway improvements since South Placer remains ineligible for certain transportation funding that requires a local match, meaning alternative mechanisms will be needed, which have proven elusive the past 10 years.
- City growth continues to add significant complexity to the municipal workload, which continues to increase. This is driving organizational structure changes for improved span of control and project management.
- At the same time, the City continues to reinvest in aging assets on a regular schedule to maintain quality infrastructure for the community.
- The City continues to position itself as an employer of choice by revamping recruitment communication and amplifying its organizational culture activities. This past year, it hosted its first Citywide Recruitment Fair, which was widely attended and led to an increase in job applicants.
- Residential development continues but at a slower, more standard pace following a pandemic-fueled acceleration.
- The effect of development on the City's borders in unincorporated Placer County is intensifying both the use of City services and impacts on infrastructure by non-Roseville residents. The City is making every effort to mitigate impacts of this development, including close coordination with the County and developers.
- The Local Agency Formation Commission completed and approved a Municipal Services Review for the City of Roseville in February 2025, and at a subsequent hearing in March 2025 voted to expand the City's Sphere of Influence (SOI). The expanded SOI includes Placer Vineyards, Regional University, and the area known as Curry Creek. The SOI expansion does not change the existing City boundary; expansion of the City boundary to include any of these areas would be at the discretion of elected officials and would require a lengthy public process known as annexation.
- Due to inflation, fees collected for improvements and amenities, such as parks in the West Plan area, are not keeping up with the costs of construction.
- Revenue growth from sales tax is slowing following the accelerated pace of the pandemic rebound combined with inflation and lower consumer confidence with the uncertainty of new policies at the federal level.
- The implementation of the California Air Resources Board's (CARB) Advanced Clean Fleets (ACF) regulation, which requires the purchase of only zero-emission trucks and buses beginning in 2036, will add significant costs to city operations, affecting utility rates, road maintenance schedules, and transportation services, to name a few. Neither the technology nor infrastructure exists yet to support this fleet conversion by the deadline. Not only are zero-emission vehicles more expensive, but their range is shorter than fossil-fuel powered vehicles, necessitating additional vehicles to put into service while others are charging and requiring more infrastructure in the form of charging sites throughout the City. The maintenance impacts of heavier, battery-powered vehicles on the City's roadway maintenance standards and schedule are unknown. However, days before the change of presidential administration in January 2025, CARB withdrew its request for a waiver from the Environmental Protection Agency (EPA), which introduces the possibility that the ACF regulations could qualify as a reimbursable state-mandated program. If the regulations are maintained and the costs are not

reimbursable, this would mean a substantial cost to utility ratepayers and the General Fund. The possibility of state reimbursement is undetermined at this time.

Several factors have strengthened Roseville's ability to weather uncertainty:

General Fund surplus

- **Underspending** in the General Fund as our staff uses the same high level of scrutiny in purchasing decisions, no matter the economic circumstances
- **Fully-funding our reserves**, in accordance with Council policy, using the City's 2018 Measure B sales tax revenue, 2022 Measure C hotel tax revenue, and a conservative approach to budgeting. This commitment protects our budget in the event of a recession.
- **Development pays its own way**, adhering to the City's policy that new development must have a positive fiscal impact on Roseville. Developers pay fees that are gradually collected as new areas are built. These fees fund infrastructure to meet changing needs.
- **Higher property tax revenues** due to higher home prices, continued development, a competitive housing market, and the ability to work remotely.

Economic Development

- Global semiconductor manufacturer Bosch's $1.9 billion investment will bring jobs and significant economic impact to the City and region. However, the President's March 2025 call for Congress to scrap the 2022 bipartisan CHIPS and Science Act which was the catalyst for the Bosch acquisition has introduced into what was expected to be a significant boost for the region, including job creation, industry growth and related impacts.
- The opening of Costco in west Roseville will be a substantial sales-tax revenue generator for the City, along with the other retail sites opening at Baseline Marketplace.

COUNCIL PRIORITIES FY2025-26

Council maintains priorities in its four-year strategic plan

A sign of a well-developed strategic plan is its ability to withstand the test of time and changing circumstances. This approach to resiliency remained the basis of the current four-year plan developed in 2024 that guides our budget development from FY2024-25 through FY2027-28.

At a two-day public workshop in February 2025, the Council reaffirmed the priorities and strategies to guide the second year of the Strategic Plan's four-year term, and the six priority areas remained the same:

Ensure a safe and healthy community

- Maintain public safety service levels and response times as the City grows
- Maintain City efforts to reduce homelessness while collaborating and advocating regionally as appropriate
- Promote a safe community in which all feel welcome and included

Remain fiscally responsible in a changing world

- Balance city services and customer rates amid legislative mandates and rising costs
- Seek ways to reduce pension obligations
- Identify and pursue opportunities for new revenue streams

Enhance economic vitality

- Advance sports tourism, including soccer complex
- Foster a business climate that supports small businesses and entrepreneurship while attracting and strengthening emerging technology and industry sectors
- Attract businesses that are mutually beneficial to regional interests (e.g., manufacturing)
- Leverage opportunities for innovation and workforce development created by Bosch's investment in Roseville
- Accentuate arts and culture in creating a sense of place

Invest in well-planned infrastructure and growth

- Reinvest in core neighborhoods
- Increase funding for Capital Improvement Project (CIP) rehabilitation to prevent erosion of infrastructure

- Complete soccer complex
- Implement technology solutions to mitigate traffic concerns along crucial corridors
- Maintain investment in water resiliency and increase capacity of the electric utility
- Seek increased regional and local transportation funding and revenues
- Improve Roseville's gateway and entryway corridors

Support community engagement and advocacy

- Remain focused on community engagement and education about City services, planning, and the budget
- Explore opportunities to engage all community members in relevant ways
- Inform county, state, and federal policymakers on key City issues and the importance of local decision-making

Deliver exceptional City services

- Remain an employer of choice through expanded recruitment and attraction efforts, a focus on retention, and a positive culture
- Anticipate and implement succession planning strategies, including training and development
- Maintain a strong focus on code enforcement efforts, including graffiti and blight abatement
- Invest in technology that contributes to the effective delivery of services

Overview of the past year's accomplishments

As the City Council refines the strategic plan each year, an important part of its assessment is reviewing work to date on the previous year's plan. Over the past year, the City of Roseville has advanced initiatives across its six strategic priorities, achieving measurable progress in public safety, fiscal stewardship, economic development, infrastructure modernization, community engagement, and service excellence. Additional details are provided in the Department Operating Budget section of this document.

Ensure a safe and healthy community

- **Fire Station 8:** Construction of Fire Station 8 was

completed in 2024 though Engine 8 was put in service in 2023, serving the Campus Oaks, Blue Oaks, and Quail Glen neighborhoods, to improve response times across the entire city.

- **Police staffing increases:** Staffing for the Police Department's Threat Assessment Unit, Social Services Unit, Crime Suppression Unit, and Records Unit increased this past year.
- **Fire station alerting system:** A high-tech dispatch system reduced response times by 12 percent through simultaneous call dispatch and real-time monitoring.
- **Retail theft suppression:** Awarded a $600,000 grant that helped fund additional Flock cameras, other investigations technology, and overtime funding for retail theft enforcement operations. Operation Grinch led to more than 60 arrests and $20,000 in recovered goods during holiday operations.
- **Fireworks awareness and enforcement:** After the City Council amended the fireworks ordinance to impose harsher penalties for using illegal fireworks, an extensive outreach effort raised awareness, including mailers to every residence, a dedicated web page, and online reporting through myRSVL. On July 4, the Roseville Police Department handled 191 calls, including those related to fireworks enforcement. The Police Department confiscated 800 illegal fireworks and 1,000 from an undercover operation, while responding to 16 fires caused by illegal or improperly disposed fireworks. The Fire Department handled disposal. In total, 27 citations were issued, resulting in $130,000 in fines. The enforcement approach balanced compliance, education, and awareness of the new ordinance.
- **Citizens Benefit Fund and ARPA funds:** The City's Grants Advisory Commission distributed $620,000 in 2024, including the last installment of funding from the March 2021 American Rescue Plan Act (ARPA). The funds went to 23 nonprofits focused on serving Roseville residents in areas including domestic violence prevention, disability awareness, and veterans outreach.
- **Rental assistance and affordable housing:** Last fiscal year, the Housing Division's budget included $17.3 million in federal and state funding to support voucher assistance, homelessness prevention, and affordable housing development. This total includes over $860,000 disbursed through the California Department of Housing and Community Development's (HCD) Homeless Prevention and Rapid Rehousing Program, as well as $3.9 million in matching funds awarded through HCD's Local Housing Trust Fund Program. The matching funds will support future affordable rental housing in Roseville, including current-year allocations to Prospera at Fiddyment Ranch and Mercy Housing's Pleasant Grove Apartments.
- **Landlord incentive program:** Incentivizes private landlords to join the Housing Choice Voucher Program, increasing housing availability for voucher holders and reducing homelessness in Roseville. Distributed $115,000 in incentives to lease 109 households for vulnerable populations and added 34 new landlords.
- **Police Social Services Unit helps the homeless access resources:** The Police Department's Social Services Unit (SSU) plays a key role in connecting individuals experiencing homelessness with critical services and resources. By utilizing the Roseville Homeless Response Team model, the City helped more than 1,300 individuals secure or maintain permanent housing in the past year alone. Since November 2020, the SSU has also supported 57 individuals through the Police Department's Community Care Fund, which provides access to treatment, reunification services, and other support. The budget includes approximately $2.5 million for Police Department personnel and $62,000 for City Attorney's Office staff dedicated to addressing homelessness-related issues.
- **Unsheltered and illegal dumping action:** The City continues to improve response times and has fully integrated Public Works into the coordinated workflow for addressing unsheltered encampments and cleanups, working alongside the Police Department and Parks, Recreation & Libraries (PRL). This collaboration includes weekly meetings to identify priority areas (or "hot spots") and to safely coordinate the cleanup of debris and camps. The current fiscal year budget includes approximately $336,000 for PRL and $200,000 for Public Works to support efforts related to illegal dumping and unsheltered encampment cleanup.
- **Roseville's input cited in Supreme Court decision:** In June 2024, the Supreme Court's decision in the Grants Pass case provided clarity on

the legal options the City has to address camping issues related to homelessness. Roseville was one of 13 California cities that participated in a friend-of-the-court brief in that case, and staff's experience was cited in the majority opinion.

- **Foster youth housing vouchers:** The Roseville Housing Authority was awarded 20 Foster Youth to Independence (FYI) vouchers from the U.S. Department of Housing and Urban Development (HUD) to provide rental assistance to youth between 18 to 24 years of age who left foster care or will leave foster care within 90 days and are homeless or are at risk of homelessness. RHA was one of only seven awards in the state of California. In addition to rental support, these new vouchers come with over $270,000 of federal funding to support program implementation.
- **Roseville Housing Authority celebrated its 50th anniversary:** A luncheon with representatives from federal, state, and local governments, community leaders, and City staff recognized the impactful legacy of the RHA, including testimonials from those in our community who have benefited from its assistance.
- **Community Leaders Breakfast:** Roseville Police held its second annual gathering of leaders from the community, businesses, nonprofits and government to share statistics and innovation and facilitate dialogue between police and stakeholders to strengthen trust.
- **Latino Leadership Council Summit:** Four department heads and other City staff participated in this annual event with government and community leaders throughout Placer County.
- **Drug Take Back Days:** Two Drug Take Back Days offered collection of unused or expired medications and vaping devices. Roseville PD collected 2,700 pounds from more than 950 cars.

Remain fiscally responsible in a changing world

- **Tax credit of $29.3 million:** The City filed its first income tax return in early June to apply for funding for the Pleasant Grove Wastewater Treatment Plant Expansion and Energy Recovery Project under the federal Inflation Reduction Act, which allows public agencies to get tax credits for renewable energy projects. This credit covers 30 percent of the eligible costs and fully funds the construction of the $24.8 million Energy Recovery Project. Staff also claimed credits for electric vehicles purchased in 2023.
- **Utility capacity fee studies:** Environmental Utilities began a study to assess capacity fees for Roseville's water, wastewater, and waste services utilities. These fees ensure that new development contributes to the cost of necessary utility infrastructure. Results will help set fair impact fees based on anticipated demand, supporting sustainable growth, and maintaining high-quality utility services for all residents and businesses in Roseville.
- **Electric rate adjustments:** To ensure the utility's financial stability while striving to maintain reliable service for all customers in the midst of energy market volatility, Roseville Electric implemented two consecutive 9 percent rate increases in 2024 and 2025. These addressed rising fuel prices, increased operating costs, renewable energy compliance, and a loss of revenue from the State due to the conclusion of a lease revenue agreement. To assist customers during this period, Roseville Electric increased discounts for low-income and medical support programs. A new solar buy-back rate started on July 1, 2024, following public feedback.
- **Lowered unfunded pension liability:** The budget included a one-time Additional Discretionary Payment (ADP) of $1.82 million from the General Fund to CalPERS, reducing the City's unfunded liability and lowering future interest costs. This proactive measure supports improvements in funded status over time. While this payment is deferred due to the projected sales tax shortfall in the current year, it will move forward if the revenue outlook improves.
- **Building a pension reserve:** To protect against future increases in pension costs, $2.9 million from the General Fund was transferred to the Pension Reserve Trust Fund. These funds will serve as a reserve to help maintain service levels during economic downturns. This transfer will raise the City's total contributions from the General Fund to the trust to nearly $21 million
- **Soccer complex sponsorships:** Council-approved sponsorship agreements for the new regional soccer

complex, securing Placer Valley Tourism as the naming rights sponsor and Roseville Automall for the plazas—marking Roseville's first use of this funding approach. Staff is now actively pursuing additional sponsorships for individual fields and the universally accessible playground, further diversifying revenue streams and supporting long-term financial sustainability.

Enhance economic vitality

- **Soccer complex** - The Placer Valley Soccer Complex remains on track for completion in late 2025, positioning the City as a premier destination for sports tourism. Anchor tenants have been secured, and tournament requests are already being accepted for 2026, ensuring strong economic impact and regional draw upon opening.
- **Promotion of Roseville facilities and expansions:** @theGrounds is a destination of choice for indoor sports tournaments such as volleyball, cheer, basketball, martial arts and more. PRL staff also continues to secure softball, quadball, swim meets, and soccer tournaments at existing fields, further strengthening Roseville's reputation as a top sports tourism destination.
- **Increased and diversified City revenue:** Retail, dining, hospitality, arts and culture, and civic amenities play a significant role in supporting sports tourism. Last year the Westfield Galleria welcomed almost 30 new retail stores as well. As demand for lodging increases in Roseville, so does revenue from the hotel tax. This supports services provided to visitors as well as residents and businesses.
- **Roseville Venture Lab:** This partnership between the City of Roseville and the Growth Factory powers innovative ideas by helping early-stage entrepreneurs gain personalized insights to hone their business strategy and accelerate their growth. Among programs held in 2024, the six-week cohort of Roseville Rising brought together 25 aspiring food entrepreneurs eager to kickstart a culinary business or take their concept to the next level. In addition, the Business Blend series for entrepreneurs continued throughout the year with topics of specific interest to small businesses and entrepreneurs.
- **Bosch semiconductor facility:** Leveraged $225 million in federal CHIPS and Science Act funding for its $1.9 billion investment in Roseville to support the development of semiconductor manufacturing in the U.S. The Roseville site currently employs around 250 people with potential to grow in the future.
- **SACOG workforce development grant:** The City was awarded a $250,000 grant through the Sacramento Area Council of Governments (SACOG) to work through its seven-year Invest Health partnership with the Health Education Council to connect residents of core neighborhoods, who have a higher unemployment rate than the rest of the city, with opportunities for workforce training.
- **Overhaul of Utility Exploration Center:** This immersive space was overhauled to bring new exhibits including encounters with a real garbage truck, engaging in hands-on waste sorting activities aligned with Placer County's recycling practices, delving into the fascinating realm of wastewater-cleaning microbes, and uncovering innovative approaches to delivering electricity to homes with minimal environmental impact.
- **Union Pacific Big Boy Steam Locomotive:** The City welcomed Union Pacific Railroad's "Big Boy" Locomotive No. 4014 in July 2024. Working across many City departments, Union Pacific, and the Downtown Roseville Partnership, the City created an associated community event to showcase downtown Roseville and leverage the increased foot traffic to benefit local businesses and the economy. Over the course of the two-day event, approximately 30,000 attendees visited downtown Roseville each day, resulting in an estimated economic impact of $1.5 million in direct spending with event vendors, downtown merchants, and nearby businesses.

Invest in well-planned infrastructure

Reinvest in core neighborhoods

- **Commercial Corridor Specific Plans:** A residential market analysis for these corridors—Atlantic Street, Douglas-Harding, and Douglas-Sunrise—was completed in Spring 2024, and a commercial market study is nearing completion. These studies aim to identify barriers and opportunities for redevelopment and provide policy recommendations. Two residential infill project applications have been received, and a new retail building at the corner of Douglas Boulevard and Harding Boulevard has been approved under the new design standards.

- **Weber Park renovations:** The transformation of Weber Park includes improvements designed to enhance accessibility, safety, and community use. The project includes grading sight lines to street level, expanding the play area, adding new tables for outdoor gatherings, and designating police car parking for added security. Additional upgrades include a new walking loop with fitness stations, a modernized playground, an improved basketball court and new retaining walls and stairs.
- **Johnson Pool renovations:** Roseville's oldest community pool updates are focused on accessibility, safety, and infrastructure standards. Improvements include a new pool shell and replastering, accessibility and code upgrades to the pool house, and enhancements to the pool deck, equipment room, and surrounding site. These renovations will create a safer, more functional facility that serves the community for years to come.
- **The budget incorporated a significant investment of $90.1 million into capital projects:** This included $30.3 million in Electric, $16 million in Public Works, $12.3 million in Wastewater, $8.9 million in Parks, Recreation and Libraries, $6.8 million in Waste Services, and $6.4 million in Water program areas.
- **Advocating for water reliability:** Staff met with U.S. Army Corps of Engineers leaders to secure an agreement for a critical water reliability project in the FY2024 Work Plan, with a federal funding share of 75 percent of project costs. The City of Roseville and the Placer County Water Agency (PCWA) are collaborating to build a second access point for Roseville's water supply. This new access will draw raw water from PCWA upstream of Folsom Reservoir and deliver it directly to Roseville's water treatment plant, enhancing water reliability for customers by reducing dependence on Folsom Reservoir's intake.
- **Grant of $1.37 million improves capacity and reliability of electric grid:** On August 14, 2024, the City of Roseville secured unanimous approval for the $1.37 million Distributed Electricity Backup Assets (DEBA) grant from the California Energy Commission to upgrade the California Department of Water Resources' (DWR) generation units at the Roseville Energy Park. The upgrades will boost output by up to 9.5 megawatts and help support the grid during extreme events through 2031. This approval supports Roseville taking ownership of the units, offsetting a portion of the $8.89 million project cost. The DWR units, installed in response to the Governor's 2021 Emergency Proclamation on grid reliability, will now support the City's residential and commercial growth.
- **Advanced Metering Infrastructure:** The full deployment phase of the Advanced Metering Infrastructure (AMI) project is complete, with over 120,000 AMI meters and endpoints installed citywide in the past 12 months. The teams also established robust communication networks and data management systems, marking a significant step in modernizing the City's utility infrastructure. Key features include real-time data collection, remote meter reading, and enhanced communication between the utility and customers, resulting in more accurate billing, faster outage detection, and greater efficiency in energy and water consumption and distribution. In the initial months of full operation, Roseville has seen a significant decrease in customer-side water leaks and loss, which helps the City meet state mandates regarding reduction of water loss in drinking water systems.
- **Roseville Parkway extension opened in January 2025:** The $26 million improvement project was funded entirely by developer-paid Traffic Mitigation Fees, came in under budget, and includes a new bridge over Industrial Avenue and the railroad tracks, providing a better connection for residents, businesses, and visitors; improved east-west traffic flow, helping alleviate traffic on nearby roadways; landscaping; and sidewalks, bike lanes, and a separated multi-use path.

Support community engagement and advocacy

- **Development Decoded series:** The City's campaign to improve public understanding about the long-range planning that has occurred over the last 35+ years continues, demystifying the City's planning and development process. The Development Decoded series is part of a broader strategy to explain how Roseville's thoughtful approach to growth is one of the reasons we enjoy a high quality of life and economic health. The second and third videos in the series are about environmental studies as well as land use, zoning, and property rights.

Information has been shared via the website, social media, newsletters, and community presentations. Roseville.ca.us/developmentdecoded also has information on environmental impact reports, utility infrastructure and planning, and timing and funding of parks and recreation amenities.

- **Phillips Road site:** Staff participated in outreach workshops and meetings with residents in the western part of the city about a proposed project that was withdrawn by the developer, Panattoni Development, in September 2024. Panattoni Development submitted a revised application, reflecting a redesign of the project based on public input and economic needs. Panattoni is referring to this as "The Balanced Plan" on the Phillips Road site. The project is in the early stages of the public input process and review by the City. No action has been taken yet by the City, including by the City Council, on the revised application.
- **Roseville's Aquifer Storage and Recovery (ASR) program:** ASR was highlighted when Environmental Utilities hosted the Association of California Water Agencies (ACWA) Regions 3 and 4 program, "Guardians of the Source: Strengthening Watershed Resilience for Future Generations" showcasing strategies for resilient water systems. Meanwhile, the development of the City's next two ASR groundwater wells (Mistywoods and Campus Oaks) is underway with top-side construction set to occur in 2025 and 2026.
- **City Council Candidates Workshops:** Established workshops for Council candidates that explained pertinent laws and regulations, introduced key City staff, and provided a forum for questions and answers to assist those interesting in serving on City Council.
- **Transportation 360:** Extensive public outreach program nearing completion to shape the future of public transit and active transportation in the community. The program focuses on updating master plans for Roseville Transit services and improving the pedestrian and bike network.
- **Utility Field Day:** Hosted 40 high school students, resulting in three internships.
- **State of the City:** Annual event held in partnership with the Roseville Area Chamber of Commerce highlighted the history of Roseville's downtown and vision for the future.
- **Kid's Fire Camp:** Fire hosted 96 youth, aged 11-14, for a weeklong Kid's Fire Camp. This camp allows the campers to experience the job of a firefighter, learn skills such as CPR and how to safely use a fire extinguisher, build confidence, and explore a career in the fire service.
- **Federal advocacy trip:** In May, the City of Roseville organized its annual federal advocacy trip to Washington, D.C. The Mayor, City Manager, and staff from various departments met with members of Congress, key regulatory agencies, and trade groups to advocate for community issues. Over 20 meetings were held during the three-day trip, including discussions with Senators Padilla and Butler, Representatives Kiley, LaMalfa, and Garamendi, and agencies such as the Department of Housing and Urban Development, the Department of Veterans Affairs, and the Federal Highway Administration.
- **Cap-to-Cap:** In April, Roseville sent 14 representatives from six departments and City Council to the Sacramento Metro Chamber's Capitol-to-Capitol trip in Washington, D.C. They joined 425 delegates to advocate on key topics such as sustainable economic development, regional job creation, transportation infrastructure, mental health for first responders, water projects, Per-and Polyfluorinated Substances (PFAS) contamination, and homelessness. These visits help secure federal support and funding for important projects.
- **CMUA Capitol Day advocacy:** Met with state legislators on utility issues including energy policy, water resource management, environmental regulations, and infrastructure funding. By engaging directly with lawmakers, the California Municipal Utilities Association (CMUA) Capitol Day helps secure legislative support, influence policies, and raise awareness of the challenges and priorities facing California's public utilities.

Deliver exceptional City services

- **Career Fair at Galleria:** Roseville held its Inaugural Citywide Career Fair in partnership with the Westfield Galleria at Roseville in March 2024. All 15 departments as well as our citywide committees showcased the variety of careers in public service, our dynamic City culture, and the rewarding community impact of working in public service. An estimated 1,500 people

attended the inaugural event leading to over 60 job applications in the week following and another 250 attendees signing up to receive job notifications. The Career Fair remains among the highest referral sources for job applications.

- **COR (City of Roseville) Q12 employee engagement survey:** Gallup's employee engagement survey focuses on 12 key workplace elements that directly impact our culture, productivity, and how we serve our community.
- **Welcome Day, mentor program, mock interviews, Roseville Raves:** The employee experience is the seven-stage journey an employee takes throughout their career with Roseville. Our goal is to approach each stage with intention, ensuring that employees feel welcomed, appreciated, supported, and recognized as our most valuable asset.
- **myRSVL platform:** The myRSVL app efficiently handles about 5,000 yearly service requests, achieving 90 percent timely completion and maintaining high user satisfaction. Used by about 20 percent of Roseville households (12,000 downloads), it streamlines issue-reporting and improves City responsiveness via mobile app and online access.
- **Code enforcement efforts:** Responded to over 1,100 complaints and conducted more than 3,700 inspections. Through proactive sign removal, accelerated graffiti abatement, and efficient case management, 92 percent of cases have been resolved within 30 days. The myRSVL app has been highly effective in empowering residents to report nuisances, making Code Enforcement the second-most-requested service in the City.
- **National Gold Medal Award Finalist** - For the third year in a row, Parks, Recreation & Libraries (PRL) was named a finalist for the National Gold Medal Award for Excellence in the Field of Parks and Recreation Management.

FISCAL OVERVIEW

In the face of increased economic uncertainty, the City remains committed to a conservative budgeting approach that supports long-term financial sustainability. The focus is on maintaining essential services for residents and businesses, while making thoughtful adjustments to support the community's ongoing growth and evolving needs. Key financial priorities include managing labor costs, maintaining appropriate reserves, addressing unfunded liabilities, investing in critical capital rehabilitation efforts, and identifying new revenue opportunities.

Sales tax, when combining Bradley-Burns and Measure B, is the City's largest General Fund revenue source. The most recent forecasts indicate that sales tax is projected to come in slightly under budget estimates in the current fiscal year. A modest one percent increase (approximately $900,000) is forecasted for next year based on the updated current year projection. However, the outlook remains uncertain, as consumer spending, inflation, and broader economic trends are expected to continue impacting sales tax performance. On a more positive note, property tax revenues are expected to grow by 5 percent ($4.1 million) in the next fiscal year, as compared to the updated forecast for the current year, helping to offset slowing sales tax revenues.

Through careful planning, the City remains in a strong financial position and is focused on maintaining stability to deliver reliable, high-quality services to the Roseville community.

FY2025-26 Budget Highlights

The budget addresses increasing labor and operating costs while limiting new spending to the highest priorities to preserve service levels and support City Council goals. It also includes investments to maintain critical infrastructure.

The City's overall budget totals $827 million. Of this amount, $236 million is appropriated for General Fund services, and $591 million is primarily dedicated to utility operations, including electric, water, wastewater, and waste services.

Staffing Changes: To meet service demands related to community growth, regulatory requirements, and Council-directed service enhancements, departments recommended the addition of 33 new positions. Not all requested positions were included in the budget due to funding constraints and the need to balance service priorities with long-term fiscal sustainability. As a result, the final staffing changes reflect the most immediate and critical needs across all City departments.

The budget includes a net increase of approximately 20 positions, or one percent over the prior year. This includes 24 new positions, four deleted positions, and five reclassifications requiring Human Resources review. An additional four new positions and five reclassifications

are funded in the budget but will be taken to City Council at a later date once the classification has been established.

The City Manager's office budget includes funding to reclassify an Executive Assistant to an Assistant to the City Manager to better align the position with its responsibilities. This classification doesn't currently exist so the corresponding adjustment to the position allocation schedule will be brought to City Council at a later date.

Finance Department staffing will increase by one position with the conversion of a limited-term ERP Business Analyst to a regular position, which supports ongoing workload demands including internal citywide reporting, cross-training, and update testing.

The Fire Department budget includes funding for a new Fire Plans Examiner position to support the growing demand for fire and life safety services. This position will help the City conduct timely building plan reviews without overburdening existing staff or delaying development processes. While funded by the General Fund, costs will be partially offset by permit revenue and builder reimbursements. Position approval will be presented to City Council after the new classification is established.

The Parks, Recreation & Libraries Department's budget includes an increase of 5.75 positions. This includes a new position to oversee the Placer Valley Soccer Complex and support sports tourism goals, fully funded by soccer complex revenues by its second year of operations. Additionally, two Parks Maintenance Worker positions will be added to support the soccer complex, ensuring proper maintenance for operations and events. The department will also add a 0.75 full-time equivalent Child Care Site Coordinator to prepare for the new Adventure Club site at Winding Creek Elementary School, opening in August 2026. Furthermore, a Parks & Open Space Supervisor and a Senior Parks Maintenance Worker will be added to manage the growing park system as part of the transition to a four-region management model.

The Environmental Utilities Department, which includes the Water, Wastewater, and Waste Services Utilities, is budgeting for six new positions, all supported by utility rate revenues. Three of these roles involve new classifications, which will be presented to City Council for approval once the classifications are formally established by Human Resources. The budget also includes funding to reclassify one existing position to a new role focused on security and operational technology, with the reclassification presented tot he City Council at a later date, once the associated classification is established. Within the Water Utility, an Environmental Utility Operations Superintendent will be added to oversee water treatment plant operations and ensure compliance with evolving regulatory standards.

To meet increased demand and maintain regulatory compliance, the Wastewater Utility will add two positions: an Industrial Waste Supervisor, and a Wastewater Treatment Plant Chief Plant Operator. The Industrial Waste Supervisor position is a new classification, and the corresponding position allocation will be presented to City Council at a later date.

The Waste Services Utility will add a Refuse Truck Driver to help maintain service levels and improve operational efficiency as the City continues to grow.

Additionally, the Environmental Utilities Administration Division will add two new positions. One focused on customer experience and one focused on policy and compliance. Because these roles require the creation of new classifications, the position allocations will be presented to City Council for approval once the classifications are finalized.

The Information Technology Department's budget includes funding for two new full-time positions and the conversion of a limited-term position to a regular full-time role. The new positions include a Business Systems Analyst for the Customer Services Team, which will support various public safety and general government systems, and an IT Analyst for the Infrastructure Solutions Team to maintain the City's network infrastructure. The budget also converts an Office Assistant position from limited-term to full-time, eliminating a vacant IT Technician position and resulting in ongoing savings.

The Police Department's budget includes staffing changes to support city growth. These changes include three new sworn positions (two police officers and one detective) for an eighth patrol beat in West Roseville. Additionally, a Senior Police Records Clerk position will be reclassified to better reflect its technical responsibilities, and two Community Services Officer positions will be reclassified as Real-Time Crime Center Specialists to enhance the department's ability to

provide real-time intelligence.The new Real-Time Crime Center Specialist classification does not currently exist and will be presented to the City Council in the upcoming fiscal year for approval.

The Public Works budget includes several staffing additions to support the City's growing infrastructure. The Drainage Section of the Streets Maintenance Division will add a Street Maintenance Worker, Facility Services will hire a Project Coordinator and a Building Maintenance Worker to support the increasing amount of rehabilitation and maintenance of City facilities, and Fleet Services will add a Mechanic to manage the increasing workload associated with maintaining a growing number of City vehicles. Additionally, a Maintenance Worker will be added to the Traffic Signal Maintenance team to support the expanding Intelligent Transportation System, which now includes hundreds of signals, message signs, radar signs, train crossings, monitoring stations, and a citywide fiber network.

Several staffing changes are proposed to better align with current responsibilities and evolving business needs in the Electric Utility. These include adding an Instrument and Control Technician to support growing power plant maintenance needs, helping reduce overtime and backlogs. A Senior Utility Customer Service Field Representative will be reclassified to an Apprentice Electric Metering System Technician, supporting succession planning in the Metering Systems group. An Administrative Technician will be reclassified to reflect ongoing facilities project management work, improving coordination and reporting across departments. An Associate Electric Analyst will be reclassified to an Electric Business Analyst to support more advanced energy market planning in the Power Supply group.

Additionally, a Senior Power Engineer will be reclassified to a Principal Power Engineer as part of a reorganization that replaced the Power Engineering Manager role with two Principal positions—one added in FY2024-25 and the second recommended for FY2025-26. To meet changing operational needs, new positions will be added and offset by the deletion of vacant roles. This includes adding an Electric Technology System Technician and eliminating an Office Assistant in the Operations Technology group to support critical system operations, as well as adding an Electric Business Analyst while removing two Meter Reader positions to support the shift to advanced metering and improved asset management.

The following tables summarize the recommended positions by department and City Council priority. These tables exclude promotional reclassifications and reclassifications pending Human Resources Department review.

Department	New Positions	Position Eliminations	Total Net Change
Electric	3.00	(3.00)	-
Environmental Utilities	3.00	-	3.00
Finance	1.00	-	1.00
Information Technology	3.00	(1.00)	2.00
Police	3.00		3.00
Parks, Recreation & Libraries	5.75	-	5.75
Public Works	5.00	-	5.00
Total	**23.75**	**(4.00)**	**19.75**

City Council Priority	New Position
Deliver exceptional City services	**10.00**
Enhanced Service Levels	4.00
Growth	6.00
Ensure a safe and healthy community	**11.75**
Enhanced Service Levels	3.00
Growth	8.75
Invest in well-planned infrastructure and growth	**1.00**
Growth	1.00
Remain fiscally responsible in a changing world	**1.00**
Growth	1.00
Grand Total	**23.75**

Labor and Materials, Services and Supplies: The budget accounts for anticipated cost increases associated with the City's negotiated labor agreements to maintain competitiveness in the labor market. It also factors in unavoidable cost increases for materials, services, and supplies such as higher utility costs, increased fleet expenses (such as fuel, replacement, and maintenance), rent paid to the Electric Utility for the new Police Department space at 116 S. Grant Street, maintenance of new parks, operation of the new soccer complex, library resources, safety and protective gear, an increase in the animal control contract with the SPCA, and open space contracts.

Pension Obligations: The FY2025-26 budget includes a $800,000 transfer from the Pension Reserve Trust Fund to pay for a portion of the General Fund's approximately $3 million increase in CalPERS costs for the year. The Pension Reserve Trust Fund serves as a safeguard against CalPERS cost increases, with total General Fund contributions to date of $21.5 million. The budget does not include funding for CalPERS Additional Discretionary Payments (ADPs) or transfers to the Pension Reserve Trust Fund, due to limited available resources resulting from declining sales tax revenues and rising General Fund costs. ADPs help reduce the City's unfunded pension liability and generate long-term savings; however, the City is currently holding off on making the $4.6 million ADP approved in FY2023-24 and the $1.8 million ADP approved in FY2024-25 due to potential sales tax shortfalls in FY2024-25. If revenue conditions improve and both payments are made, the City's total General Fund ADPs to CalPERS would reach $18.5 million.

Capital Improvement Program: The FY2025-26 budget includes substantial capital investment of $98.7 million across multiple program areas, including $41.1 million for electric, $7.6 million for public works, $13.1 million for wastewater, $9.1 million for parks, recreation and libraries, $19.8 million for water, $5.9 million for general government, $1.2 million for citywide technology and $900,000 for public safety. This investment, which represents a 10 percent increase from the FY2024-25 adopted budget, supports both community growth and the rehabilitation of existing infrastructure.

Notable projects in the FY2025-26 budget include purchase of two new combustion power units for Power Plant 2, electric relay replacements, electric facility rehabilitation and improvements, and the addition of a new electric transformer at the Sierra Vista Substation. Funding is also included for an enterprise asset management software upgrade, rehabilitation work at several fire stations and the Corporation Yard, and the Westbrook Boulevard Signal Installation Project. Other key projects include construction of bike and pedestrian trails, replacement of police radios, rehabilitation of the water treatment plant, construction of aquifer storage and recovery well(s), and improvements to the Wastewater Collections Building and wastewater treatment plant. The budget also supports construction of new neighborhood parks, golf course facility improvements, upgrades to the Vernon Street Town Square spray ground, a refresh of the Maidu Museum historic site exhibit, replacement of play structures and basketball courts, and rehabilitation of the Roseville Aquatics Complex.

General Fund

The FY2025-26 General Fund budget aligns with the City Council's financial policies by ensuring expenses are balanced with projected revenues. It also increases reserves up to the Council's policy targets and addresses underfunded capital and equipment rehabilitation needs. While the budget is balanced, the City continues to face challenges, including minimal growth in sales tax revenue, the largest General Fund revenue source, rising operational costs, and ongoing economic uncertainty. These challenges are not unique to Roseville, as many cities across California are experiencing similar fiscal pressures.

In light of these economic challenges, the City remains committed to maintaining fiscal stability and sustainability. Efforts continue to focus on managing labor costs, maintaining reserves, addressing underfunded liabilities, investing in capital rehabilitation, and pursuing new revenue opportunities. As a result of its consistently conservative

budgeting approach, the City maintains a strong financial position that supports current service levels while strategically increasing or expanding services as growth and the community's needs warrant. The Council's financial policies ensure that future revenues will be allocated to address long-term obligations, including using one-time resources to expedite the reduction of long-term liabilities, such as pensions and retiree health obligations, to enhance the City's long-term fiscal health. Of the $242.6 million in General Fund operating revenues, $52 million is restricted for specific programs, such as grants, special taxes, and user fees. The remaining $184 million is unrestricted and available for general government purposes.

After spending $26 million on non-discretionary expenses, the Council has discretion over approximately $158 million in unrestricted funding. Public safety continues to be the top priority, receiving more than half of this funding, or approximately $96.4 million. Remaining funds support a range of City services, including parks, libraries, recreation, streets, floodplain management, code enforcement, economic development, and general government departments.

Revenue Overview

Overall, General Fund operating revenues are anticipated to increase by 6 percent, or $13.3 million, as compared to the current year budget. Sales tax revenues, including Bradley-Burns and Measure B, make up 41 percent of the total revenue budget at $100.4 million. The sales tax outlook remains uncertain as consumer spending, inflation, and broader economic conditions continue to influence revenue performance. The City will closely monitor these trends and adjust forecasts as needed.

Property tax revenues, which continue to show strong performance, make up 33 percent of the revenue budget driven by rising property values and new development. Together, sales and property tax revenues account for approximately 75 percent of the City's General Fund revenue budget, consistent with prior years.

The remaining 25 percent comes from development-related fees, recreation programs, transient occupancy tax (also known as "hotel tax"), transfers from other funds, and other taxes and grants. These other revenues are projected to grow by $7.1 million as compared to the prior year budget, with a large portion of the increase associated with the Electric Franchise Fee, Soccer Complex revenues and sponsorships, and the transfer from the Pension Reserve Trust Fund to help offset increased pension costs.

The estimates below include a three-year comparison of sales tax, property tax, and other operating revenues.

City of Roseville - General Fund
Three-Year Operating Revenue (in millions)

	Actual FY2023-24	Amended Budget FY2024-25	Budget FY2025-26
Sales Tax	$100.1	$99.6	$100.4
Property Tax	$72.6	$75.1	$80.5
Subtotal	$172.7	$174.7	$180.9
Other Operating Revenue	$56.9	$54.6	$61.7
Total	$229.6	$229.3	$242.6

Expenditure Overview

The City continues to monitor and manage rising expenses, including the growing cost of salaries, health benefits, CalPERS pension contributions, vehicle and equipment replacement, and vendor contracts. The General Fund also supports projects outlined in the City's Capital Improvement Program Rehabilitation Funding Policy, which focuses on preserving the condition of City assets such as buildings, equipment, parks, streets, and information technology systems.

The following table summarizes General Fund operating expenditures, which include transfers to reserves and one-time investments. The operating budget increased by 3 percent from $229.1 million to $235.6 million. Operating revenues exceed operating expenditures by $7 million because of investments in capital projects. In addition, the budget includes additional transfers to meet reserve targets established by City Council policy.

City of Roseville
Three-Year Operating Expense Trend (in millions)

	Actual FY2023-24	Amended FY2024-25	Budget FY2025-26
Operating Expenditures	$201.7	$235.5	$235.6

Economic Indicators

Year in review

An economic engine in the region, Roseville has seen ongoing investment across various sectors, including manufacturing, housing, retail, and healthcare.

The city remains a sought-after destination for both businesses and residents alike. Manufacturing, ranging

from semiconductor technology to life sciences, plays a crucial role in supporting Roseville's economic vitality.

Bosch plans to invest $1.9 billion to transform the Roseville site into a facility that produces and tests silicon carbide semiconductors, a key building block for electric vehicles. Roseville is Bosch's first chip manufacturing location outside of Germany. The first chips are estimated to be ready starting in 2026. Bosch and **Sierra College** are partnering on customized advancing mechatronics education to equip the future workforce with skills that match business needs.

The entrepreneur center, **Roseville Venture Lab** in Downtown Roseville, continues to serve the local startup business community and spur job growth. Operated in partnership with the nonprofit Growth Factory, Roseville Venture Lab has held Roseville Rising cohorts for food entrepreneurs, high school students, and nonprofits and businesses with a social impact mission. Programs are expanding to support the creative economy and other emerging businesses so they can grow locally.

Roseville continues to attract shoppers and visitors from across the region. Construction is underway on Roseville Junction at **290 Conference Center Dr**. The destination venue includes Electric Pickle (a complex with nine pickleball courts), Fieldwork Brewing, an indoor-outdoor restaurant, a lawn for entertainment and gatherings, and several hotels.

Westfield Galleria remains a strong regional retail destination, drawing visitors beyond northern California. New tenants and expansions have continued, including Vuori, Rothy's, Uniqlo, Free People, and David Yurman, to name a few.

Costco is under construction on a new 160,529 square-foot warehouse along with a gas station and car wash at Baseline Marketplace along Baseline and Fiddyment Road.

Downtown Roseville investments continue with the completion of a mixed-use project at **129 Vernon St**. The four-story building features 18 residential condos and ground-floor commercial space. Old Town Pizza purchased **330 Vernon St.** and is currently remodeling the building into a restaurant and taproom with a rooftop bar.

The City of Roseville is encouraging commercial and residential reinvestment along the established **corridors** of Atlantic Street, Douglas-Harding, and Douglas-Sunrise. With a focus on mixed-use developments, transportation accessibility, and vibrant public spaces, these corridors provide an excellent location for businesses looking to expand and residents seeking convenient, well-connected neighborhoods.

Kaiser Roseville's campus is expanding with the construction of a $300 million new six-story patient tower, estimated to open in 2027. Currently, Kaiser Roseville is the largest hospital in Placer County.

Sutter Roseville Medical Center received national accreditation for a new obstetrics-gynecology physician residency program. The Roseville campus also has a new approximately 85,000 square foot building home to the graduate medical education program providing training and education for future physicians. Also under construction are two new parking garages, an expanded intensive care unit, and plans for an expanded emergency department and critical care unit.

The 51-acre, 10-field **Placer Valley Soccer Complex** on Westbrook Boulevard is on target to be completed in late 2025. It will be a major generator of sports tourism, bringing increased visitor spending and hotel stays to south Placer County.

The **Local Housing Trust Fund** received an additional award of $3.9 million in matching funds to support future affordable rental housing development in Roseville. Over $860,000 in **Homeless Prevention and Rapid Rehousing** funding were disbursed, providing financial assistance and services to prevent individuals and families from becoming homeless and help those who are experiencing homelessness to be quickly re-housed and stabilized.

The **Erickson Senior Living** project recently broke ground, providing a new 1,400-unit, 2.1 million square-foot continuing care retirement community which will expand housing for older residents. Erickson will offer independent living, assisted living, and skilled nursing residential options. Affordable, or workforce, housing projects in Roseville are easier for private developers to fund and build in the future, with the City of Roseville holding the **Prohousing designation** from the California Department of Housing and Community

Development. The designation makes private affordable housing projects planned in Roseville much more competitive for limited state and federal funding and could accelerate the timeline for future projects. The City intends to apply for renewal of its Prohousing designation in 2025.

Residential and Commercial Projections

Access to amenities, cost of living, health, and quality schools are some of the many reasons Roseville has ranked among the Hottest Zip Codes, Cities with the Lowest Cost of Living in California, Best Cities in California to Buy a House, among other accolades.

Neighborhoods in the Sierra Vista, Fiddyment Ranch, Amoruso Ranch, and Creekview plan areas continue to see construction activity and demand for single- family home permits. A total of 1,172 permits were issued through the 2024 calendar year—well above the historical 12-month average of 900 permits. However, demand for houses may be slowing, with homebuilders expected to pull 1,066 units by the close of FY2024-25 in June 2025.

Looking forward to FY2025-26, single-family permit issuance is projected to decline to 618 units, significantly below the historic annual average of 900, as new subdivision construction slows and finished lots are absorbed. At the same time, momentum continues to build in the multi-family sector, with more than 1,500 apartment units under construction and more on the way.

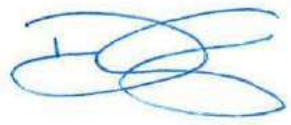

Tenant improvements and new commercial construction are projected to maintain steady growth, driven in large part by hospital system expansions and the Bosch Corporation's significant investment in the former TSI Semiconductor silicon-chip manufacturing plant over the next 7-10 years.

Looking Ahead

Our annual budget is a reflection of how we bring the Council's priorities to life, playing a key role in shaping the future of our vibrant city. It embodies the City's dedication to transparency, collaboration, and fiscal responsibility, and showcases our shared vision for a thriving, sustainable future.

In times of uncertainty, we take pride in the strong foundation that guides our city. Our stable, thoughtful, and consistent governance allows us to attract investment—people and businesses choose to invest here because they know they can rely on our fair, rational, and consistently applied policies. We are also able to retain exceptional talent, ensuring that their contributions are valued and that they are supported in both their personal and professional growth.

We are committed to continuing to operate the City in a way that consistently earns us recognition as one of the best, safest, and healthiest places to live in the U.S. At the same time, we remain attentive to external factors, always ready to adapt and address them as we have successfully done year after year.

Dominick Casey
City Manager

Memorandum

To: Roseville City Council

From: Local Sales Tax Citizens' Oversight Committee

Date: March 20, 2025

Subject: Citizens' Oversight Committee update for April 16, 2025 Roseville City Council Meeting

History of Measure B

- Measure B is a half-cent local sales and use tax to protect Roseville's essential services and was approved by voters in the November 6, 2018 election, with the expected annual revenue of $16 to $19 million.
- On April 1, 2019, the sales and use tax rate in Roseville increased from 7.25% to 7.75%.

Role of the Citizen Oversight Committee

- The Citizens' Oversight Committee (Committee) was proposed as an independent citizen oversight on the Measure B funds.
- The Committee was created when Measure B passed in the November 6, 2018 election.
- The Committee is charged with the annual review and report to the City Council on the revenue and expenditures of the Measure B sales and use tax.

Current Members	Term End
Bob Bettencourt	6/30/2027
Jordan Bunnell	6/30/2027
Stephanie Hill	6/30/2025
Kathryn Kitchell	6/30/2027
John Speight	6/30/2025

Measure B is a General Tax and the monies collected are appropriated to the General Fund where revenues are not allocated and tracked for a specific purpose. The Measure B ballot information stated that "the City may use the funds for any municipal purpose, including but not limited to essential services such as neighborhood police patrols, fire protection, 9-1-1 emergency response; crime suppression/investigation; street and pothole repair; libraries, parks and recreation; and job creation and economic improvement programs." It is not possible for the Committee to determine the exact programs/services supported by Measure B revenues.

Review of Committee Meetings

The February 26, 2025 meeting consisted of the following:

- Appointment of Chair and Vice Chair
- Review of the Brown Act by Joe Mandell, Senior Deputy City Attorney
- Presentation by Dennis Kauffman, Assistant City Manager/Chief Financial Officer, and Scott Pettingell, Finance Director. The presentation was a summary of information provided to the Committee as exhibits:

    - Committee Overview
    - Year-end Report: Discussion of Fiscal Year July 1, 2023 to June 30, 2024 General Fund revenues and expenditures:
        - FY 23-24 Fourth Quarter Report
        - General Ledger Detail
        - General Fund Reserves Policy
        - FY 23-24 Annual Budget
    - Measure B Scorecard

- Recommendation by City staff that the Committee designate one or two Committee members to prepare the Committee's report to the City Council.

The Measure B Scorecard (Scorecard) was originally prepared by staff, in conjunction with a consultant, as an additional resource for the Committee in its review of compliance of the use of Measure B Funds with the original purpose for Measure B as stated in the ballot.

Citizens' Oversight Committee Report of the Funds from FY 23-24

- Measure B revenue in FY 23 -24 was $29.9M, $169K more than budgeted. Actual Measure B revenues exceeded budget primarily due to the conservative approach in budgeting for major tax revenues to compensate for impacts of the COVID-19 pandemic and general economic recovery.
- The Committee notes that because Measure B revenue is a general tax commingled with other General Fund revenue and pooled for General Fund expenditures, it is not possible to trace specific expenditures back to Measure B revenue.
- The General Fund concluded FY 23-24 with a $15.9M surplus ($3.2M additional revenues, $12.6M in expenditure savings).
- General Fund expenditures are $12.6M less than budgeted. A significant portion of the reduction ($4.6M) is attributed to the deferral of a discretionary payment to CalPERS. Operational budget savings were mainly in Public Works ($1.83M), Parks, Recreation and Libraries ($1.54.M), and Fire ($1.28M). The reduction in General Fund department operating expenditures is primarily attributed to vacant positions.
- The Police and Fire Departments spent virtually all of their budgets (100% and 97%, respectively).
- The Scorecard (attached) provided the Committee with additional information in determining the level of services in comparison to the base year (FY18-19 when Measure B was adopted). The Scorecard indicates that budgeted expenditures, staffing levels, and

Economic Stabilization, Emergency, and Capital Reserve balances for FY 23-24 were comparable to or increased from those in the base year

- The Scorecard indicates staffing for the Police Department decreased by 1 from FY 2022-23 to FY 2023-24. This was a temporary result caused by the timing of the budget process and the filling of a reclassified position through an internal promotional recruitment.
- An evaluation component the Committee considers of significant value is the National Community Survey, a bi-annual City-wide effort which gathers information from the community on satisfaction with City services. The survey provides feedback from the community on how the City's dollars are being used. The results of the latest survey indicate community members are pleased with the City government:
    - "Residents gave outstanding and above-average marks to almost every aspect of government performance in Roseville."
    - "About 77% of residents rated the value of services for the taxes paid to the City and the overall direction of Roseville as excellent or good."
- The Committee concludes that, based on the data provided by City staff and our analysis as described above, police, fire, public works and parks, recreation and library services were all maintained as evidenced by an increase in expenditures, and community satisfaction with the City. The Committee also concludes FY 23-24 Measure B funds were used for their intended purpose.

Citizens' Oversight Committee Report of the Surplus Funds from FY 22-23

The Council Priorities Workshop and determination of the use of the $13.9M surplus from FY 22-23 was not known by the Committee at the time of Committee report preparation for that year. Included in this year's Scorecard (see page 12) is the spending plan approved by City Council for the FY 22-23 surplus. The Committee finds these items in compliance with the intended use of Measure B revenues.

Measure B Scorecard

Fiscal Year 2023-24

Measure B is a half-cent local sales and use general purpose tax passed by voters during the November 6, 2018, election to protect Roseville's essential services.

The primary function of Measure B is to maintain essential services. Prior to the passage of Measure B, the City of Roseville faced significant reductions in services, under-funding of long-term obligations, and growing expenses. Revenue generated by Measure B allows the City of Roseville to provide for the continuity of services by restoring and maintaining priority service levels and building and maintaining an Economic Stabilization Reserve Fund as a safeguard for the future.

Roseville's Measure B scorecard uses a green, yellow, red scoring method to present how Measure B funds have impacted services.

- Green indicates restored or enhanced level of resources.
- Yellow indicates maintained level of resources.
- Red indicates diminished level of resources.

Below is a dashboard snapshot of ratings for Fiscal Year 2023-24 (FY 2023-24) or the fiscal year that started on July 1, 2023, and ended on June 30, 2024; additional details follow.

Category	Rating
Fiscal Investment Snapshot	
Police	
Fire	
Parks, Recreation and Libraries	
Public Works	
Development Services	
All other General Fund departments and transfers	
Investment in Reserves	

In summary, during FY 2023-24 measure B revenues continued to allow the City to maintain current service levels, restore services, and strategically invest in high-priority areas while still achieving a balanced budget.

Measure B Priorities

Measure B was passed by voters with the commitment to maintain service levels, invest in high-priority service areas, and build and maintain the City's economic stabilization reserve fund. Measure B sales tax revenue has helped stabilize General Fund services, protect Roseville's quality of life, and increase reserves to weather future economic downturns.

Measure B-related investments continued into Fiscal Year 2023-24

Maintained essential services

- Cost of doing business increases
- Specialized police and fire services
- Fire engine company
- Recreation and library programs
- Street maintenance levels
- Job-creation and business-recruitment initiatives
- One additional dispatcher
- Unsheltered camp cleanup
- Library, parks and events stabilization
- Maintenance at citywide parks
    - Crabb Park
    - Central Park
    - Pistachio Park
- Street paving

Restored services that had been reduced prior to Measure B

- Library hours
- 4th of July fireworks
- Fire training and investigations
- Goat grazing for thatch management in open space
- Park maintenance standards
- Industry training and development

Examples of Services Added

- Fully staff the new police beat in West Roseville
- Increase Animal Control staffing to enhance community safety
- Increase police traffic officer staffing for improved traffic control
- Allocate resources for staff and equipment to implement a body-worn camera (BWC) program
- Establish a Real-Time Crime Center (RTCC) to enhance crime monitoring and response
- Provide maintenance support for the growing park system
- Increase staffing for tree trimming to enhance customer response and safety
- Expand programs and operating hours at Maidu Museum & Historic Site
- Extend library hours at Riley Library for increased community access
- Expanded graffiti abatement program
- Increase investment in facility rehabilitation, equipment replacement, and street maintenance
- Support increased initiatives addressing homelessness in the community

Fiscal Health Investments

- Fully fund economic stabilization reserve fund at 15% of General Fund operations budget
- Pay down CalPERS pension obligation
- Pay down retiree health liability

General Fund Department Data

A primary objective of Measure B is to ensure the continuity of services for residents. This is demonstrated by the level of investment in General Fund operating departments. The City seeks to keep pace with growth while maintaining a high level of service and meeting the needs of the community. This scorecard uses a green, yellow, red scoring method to present how Measure B funds have impacted services.

- Green indicates restored or enhanced level of resources.
- Yellow indicates maintained level of resources.
- Red indicates diminished level of resources.

Notable Changes

Police

The Police Department's FY2023-24 budget totaled $58.8 million and provided funding to support 223 position allocations. The department budget increased over the prior fiscal year primarily due to increased labor costs and materials, supplies and services. In addition, the budget included funding to increase position allocations by two positions, moves one Department Public Information Officer allocation to the Public Affairs & Communications Department, and eliminates one Police Officer allocation because grant funding is no longer available.

The reduction in the number of positions within the police department, compared to the FY2022-23 adopted budget, is due to the reclassification of a Police Records Clerk position to a Senior Police Records Clerk position in a prior fiscal year. To accommodate this reclassification, the City temporarily increased the number of authorized Senior Police Records Clerk positions. Once the position was filled, the vacated Police Records Clerk position was eliminated during FY2022-23. This adjustment is administrative in nature and does not reflect a change in service levels.

The Police Department FY2023-24 budget included the following highlights:

Police Social Services Supervisor

As the Roseville Police Department's Social Services Unit continues to work with the City's unsheltered population, additional interns were added to the Social Services Unit. The interns work for the Police Department, earning hours for college classes and degree and certificate credits. These interns are supervised by an additional Police Social Services Supervisor position, which requires a license with the appropriate college degree. Additionally, the Police Social Services Supervisor collaborates with other professional staff members and regional partners to work together to obtain services for the unsheltered community in Roseville. Funding for this position was included in the budget, but the position allocation was recommended to City Council at a later date because a classification study was required.

Police Lieutenant/Department Public Information Officer

An additional Police Lieutenant was included in the budget to backfill a Department Public Information Officer that was moved to the Public Affairs & Communications Department. The Lieutenant serves as the Department's primary Public Information Officer, focusing on social media communication with the community, and oversees the Community Services Coordinator.

Community Services Officer I/II

A Community Services Officer position was added to the department Real Time Crime Center (RTCC) to expand operational hours. The RTCC is an initiative of the Police Department where it leverages technology resources in real time to assist in responding to calls for service. The RTCC is currently a one-person operation with limited technology resources, and yet it has been responsible for numerous assists in making arrests. It has become a go-to-resource for Patrol during the limited hours of operation.

Outreach Specialist

Two part-time Outreach Specialist positions were added to the department's Social Services Unit. The Outreach Specialist positions are critical to the Social Services Unit operations to offer services and therapeutic interventions according to their education and training to fulfill the vision of the Roseville Police Department. Services include de-

escalation, mental health crisis-based counseling, referral services, homeless outreach, services related to aging, threat assessment, community outreach, and family welfare. The Outreach Specialist pays particular focus to chronic offenders and non-criminal calls for services assisting individuals using solution-focused practice, thus, deflecting individuals away from the criminal justice system.

Police Property and Evidence Clerk

A part-time Police Property and Evidence Clerk was added to manage the increased workload from the department's Lenslock project. In addition to the body-worn cameras, the Roseville Police Department was approved to purchase in-car cameras for all patrol vehicles. The in-car cameras help on traffic stops and during pursuits. The Property and Evidence Clerk position reviews, processes, redacts, and releases camera footage for the department.

System Maintenance and Support for Priority Dispatch System Priority Dispatch

Priority Dispatch is the automated version of Emergency Medical Dispatch. This software system guides the Dispatcher through the pre-arrival medical assistance steps, providing more timely and accurate responses for citizens and responding Fire and Police resources. Funding for system maintenance and support was included in the budget to keep the automated Priority Dispatch emergency medical dispatch system updated and operational while providing access to portal training classes and logs.

CSI Cameras

The Roseville Police Department's CSI Unit uses specialized cameras and lenses to process scenes and capture evidence to be used in investigating crimes, testifying in court, and prosecuting criminals. CSI staff use the same type of camera for ease of training and consistency in crime scene documentation. The department purchased new cameras and specialized lenses for the CSI unit, as the current cameras were approaching the end of life.

Cell Phone Forensic Software

Advancements in cell phone technology have made it more difficult to extract information from cellular devices. Evidence stored on a cellular device is often crucial to investigations and criminal prosecution. The Police Department requires various tools to extract electronic data. Funding was included in the budget to purchase software that will provide a more robust extraction option and can bypass passcode locks, a capability not offered by any of the department's current tools.

In-Car Camera Solution

As part two of what started as the department's Body-Worn Camera (BWC) project in 2021, the budget included funding to implement an in-car camera solution. This purchase allows the department's patrol vehicles to be equipped with a front facing, windshield-mounted camera, a mobile video recorder, and a passenger camera.

Rifle/Sound Suppressors for SWAT Team

The rifles assigned to the Roseville Police Department's SWAT team had exceeded their expected lifespan and needed to be replaced. The department was authorized to purchase 17 new upper rifle platforms and 17 sound suppressors to outfit the SWAT team's current rifles. The new rifle platforms are expected to last approximately five years. The sound suppressors are also expected to last five years and will greatly reduce potential hearing loss associated with repetitive gunfire.

Police Vehicle Radios

The Police Department is the largest vehicle user in the City and has to replace vehicles continuously. During this replacement process, vehicle radios are removed and reinstalled into the new replacement vehicle. This is done by taking a vehicle out of service first; doing this strains services due to the lack of vehicles in the fleet. Purchasing two APX8500 vehicle radios allowed the department to keep up to two vehicles in service until two new replacements are built, keeping response times and service levels high.

Training

The Police Department's training budget was increased by $46,800. This increase in funding allows department personnel to develop their expertise through training and attendance at specialized conferences, meetings, and events. This increase includes $10,000 for California National Emergency Number Association training. Through research, planning, and education, this training will help Dispatchers foster a reliable and continuously improved emergency telephone number network. $6,500 is included in the budget for the POST Sherman Block Supervisory Leadership Institute Course. This course will stimulate personal growth, leadership, and ethical decision-making with frontline supervisors within our Dispatch Unit. $5,300 was included in the budget for Red Dot Sights (RDS) Instructor Course Training. As the department is transitioning from iron sights to a red dot sight-equipped duty pistol, the RDS instructor course will assist with this transition providing Police Officers with operational knowledge of the RDS optic. $10,000 was included for two staff members to attend the annual Capitol-to-Capitol Program. This event is meant to secure funding and resources for high-priority projects and raise local concerns to officials at the national level. Lastly, $15,000 was included in the budget to increase the Police Department's Defensive Tactics training budget. This training will provide the department's defensive tactics instructors with the knowledge and skills necessary to train and lead their peers to raise the standard of training concerning defensive tactics and use of force situations.

Fire

The Fire Department's FY2023-24 budget totaled $45.2 million and supported 130 position allocations. This increase is mostly due to staffing the new Fire Station 8.

Fire Captain

The budget included funding for a new Fire Captain position (non-shift). This position supports the Fire Training Division and provide additional logistical support to the department.

Staffing Engine 8

The budget included funding for nine full-time equivalent positions (three Fire Captains, three Fire Engineers and three Firefighter Paramedics) to staff a new apparatus, Engine 8. This includes both salary and benefits, academy costs and start-up items like personal protective equipment. These resources provide much needed resources to District 8 and further support the City.

Parks, Recreation and Library

The Parks, Recreation & Libraries Department's FY2023-24 budget totaled $35 million and supported 144.25 position allocations, including seven new positions. A Cultural Arts Supervisor position was funded in the PRL budget, but the allocation came to the City Council at a later date once the new classification was established. Much of the funding for these positions was the result of the reallocation of temporary staff funding. Recruitment and retention of part-time staff has become increasingly difficult, and the use of these funds towards full-time positions greatly increase the

department's efficiency and effectiveness. The PRL Department budget increase is primarily due to increased labor and materials, services, and supply costs associated with maintaining current service levels and additional funding to support the new positions and programs highlighted below.

PRL worked towards accreditation through the National Recreation and Park Association's (NRPA) Commission for Accreditation of Park and Recreation Agencies (CAPRA). This accreditation provides quality assurance and quality improvement of accredited park and recreation agencies throughout the United States by providing agencies with a management system of best practices. CAPRA is the only national accreditation of park and recreation agencies and is a valuable measure of an agency's overall quality of operation, management, and service to the community. Achieving CAPRA accreditation is the best way to demonstrate that the department provides the community with the highest level of service.

The PRL Department has developed a comprehensive strategic plan, accompanied by an action plan, to establish clear and attainable goals, objectives, and implementation strategies to guide the department for the next 10 years. In alignment with the plan, funding was included to develop a Marketing & Communications Plan and increase the library book budget.

As mentioned above, PRL is continually challenged with recruiting and retaining quality staff to conduct its many programs/events and to ensure its parks/facilities are adequately maintained. Ongoing efforts have been made to realign department staffing resources to find the right balance of full-time and part-time employees as well as contractor resources to deliver programs and services effectively and efficiently. These efforts continued in FY2023-24.

A Parks Manager was added to the largest division in the PRL Department. The safety of Roseville's parks is priority one, and their cleanliness and appearance is seen by residents on a daily basis. Portering is a core function of the maintenance of City parks for safety, cleanliness and general conditions. On a daily basis, porter staff ensure restrooms are cleaned, trash is emptied, inspect the entire park for safety issues, address vandalism/graffiti, and ensure playgrounds and sports courts are safe. The budget included the conversion of temporary salaries to support three full-time Parks Maintenance Workers to more effectively complete this core function.

Three additional natural resource workers helped maintain the additional open space acres and additional trail miles acquired by the City each year, as well as advance our efforts to control encroachment, invasive species, and homeless encampments.

PRL funding is complex, consisting of the General Fund, an enterprise fund, various special revenue and capital projects funds, including 38 CFDs/LLDs. The work to manage park development financial activity is significant. A Management Analyst was added to ensure PRL's prudent management and monitoring of expenses and revenues.

Public outreach during PRL's strategic master planning process indicated a desire from the community to expand cultural offerings. A Cultural Arts Supervisor will provide leadership at Maidu Museum & Historic Site, a valuable City asset. Additionally, this supervisor can advance efforts at the Fiddyment House property and increase the presence of public art in Roseville, adding uniqueness to our community, sharing our history, and creating a stronger sense of place. There are funds in this budget for a downtown art project, Music in the Park, and other public art that will be managed by this supervisor.

There is an investment in park amenities, vandalism and graffiti abatement to ensure safety and equity in aging facilities, including replacement of amenities such as benches, picnic tables, drinking fountains, shade structures, sports court fixtures, and restroom fixtures. Annual condition assessment and inventory tracking will assist in determining priorities each year. Additional funding was added to support new General Fund parks.

Public Works

The Public Works Department's FY2023-24 budget totaled $10.5 million. The General Fund component of Public Works' budget increased by 2 percent (from $10.3 million last year to $10.5 million this year). The Public Works FY2023-24 budget included the following adjustments:

Prioritizing Graffiti Removal

The FY2023-24 budget included $100,000 in General Fund resources for Street Maintenance to assist with allowing staff to identify and remove graffiti throughout the City's roadways quickly. To meet the community's desire for graffiti removal, staff will hire multiple on-call contractors to respond to and remove graffiti on any City assets along the City's roadways with a target period of 24 hours. This will reduce the impact of graffiti on our existing staff and their workload and allow the City to send one crew to a graffiti location and remove all markings on assets operated by various departments rather than having each asset owner send out their own crews.

Staff to Address Increasing Engineering Workload

Over the past 10 years, traffic engineering staff had decreased by 50 percent while workloads have steadily increased. The Intelligent Transportation System (ITS) Masterplan and the Institute of Transportation Engineers recommend a staff of six, as compared to four, to run a city the size of Roseville with a similar level of ITS implementation. Staff are currently unable to retime traffic signals every three years, or review and update coordination plans every three years. City goals for completing 80 percent of traffic studies within three months and 100 percent within six months are down to zero percent in three months and 71 percent in six months. An additional full-time Engineer in the Traffic Engineering Section of the Engineering Division was included in the Public Works FY2023-24 budget to meet these demands

Staffing for Street Maintenance

A new Service Worker was included in the FY2023-24 budget to assist with street maintenance. The Service Worker position was created over 20 years ago as a standalone solution to daytime calls for immediate service, inspection, cleanup tasks in the right of way (including graffiti and illegal dumping), and incident response (including potholes and emergency response assistance) all to deliver exceptional City services. Since the creation of the position, the City population has grown by 2/3 (60,000 people), the road lane miles have doubled (250 lane miles), and the area of the City has increased by 1/3 (13 square miles).

Development Services

The Development Services FY2023-24 General Fund budget totaled $11.9 million. The DSD budget included the conversion of a limited-term Development Technician to a regular position. This position assists in the Permit Center with customer service, permit coordination, website maintenance, and records requests

All Other General Fund Departments

This category includes the City Council, City Manager, Public Affairs & Communications, City Attorney, Human Resources, City Clerk, Finance and Economic Development Departments. Department budgets were adjusted for increased labor costs and materials, services, and supplies.

The Public Affairs & Communications (PAC) Department's FY2023-24 budget included the transfer of one department public information officer position from Police to PAC to support Organizational, Culture & Leadership efforts, Police communications training, and legislative advocacy. It also includes two new positions to the city: one to support Police community relations and communications outreach and the other to support video broadcast of City Council meetings and digital and video outreach for culture and recruitment branding.

The Finance Department's FY2023-24 budget included an increase to an existing Accounts Payable position from 0.625 Full Time Equivalent (FTE) position to 1.0 FTE position to handle growing workload, offset by a decrease in temporary staffing funding. The budget also allocated $60,000 in one-time funding for a citywide equipment inventory and replacement plan, and a Senior Accountant position for monitoring internal controls and assisting with internal audits, including $50,000 for two annual internal audits. An additional 1.0 FTE Analyst position was added to Payroll to address increased workload, and a new Purchasing Supervisor position was included to support the Purchasing Division. Finally, $20,000 was allocated for a consultant to help implement recommendations from a recent procurement assessment, focusing on policy development and training consolidation.

The Human Resources FY2023-24 budget includes the addition of a new 1.0 FTE Human Resources Analyst position to support the Electric and Environmental Utilities Departments with employee performance consultation, succession planning, and managing complex leave issues, with the cost offset by funding from those departments. Other key highlights include funding for a consultant to develop a citywide Succession Planning Program, a recruitment branding initiative to enhance the City's reputation as an employer of choice, and a project to scan and digitize personnel files for improved access and management.

Other Expenditures/Transfers

The other expenditures category represents expenditures that do not align directly with any department and benefit the entire organization. This category also includes transfers between funds.

The 20% decrease in this spending category is primarily due to a one-time transfer of $10 million in General Funds to the General Fund Capital Reserve that was budgeted for in FY2022-23, but not continued into FY2023-24.

Below is a summary of the significant items included in this category in the FY2023-24 budget:

- Pay down of CalPERS obligations by an Additional Discretionary Payment ($4.6 million)
- Leave payoffs for General Fund employees that retire during FY2023-24 ($750,000)
- Retiree medical benefits ($5.9 million)
- Annexation tax-sharing agreement payments to Placer County ($11.6 million)
- Contingency budgets for the General Fund ($2.9 million of which $1.37 million was estimated for negotiated labor increases during the year)
- Fees charged by the State and County for the collection and disbursement of sales and property taxes ($1.2 million)

General Fund transfers between funds:

- $1.3 million to General Fund Emergency Reserve Fund
- $2.1 million to General Fund Stabilization Reserve Fund
- $4.6 million to General Fund Pension Reserve Trust Fund

FY2023-24 Year End Results

General Fund revenues for FY2023-24 ended the year in line with expectations outlined in the third quarter report. While Measure B sales tax continued to grow, albeit at a slower pace than the years following the pandemic, Bradley Burns sales tax revenues declined in FY2023-24, resulting in a sales tax shortfall of approximately $2.4 million. This decline is attributed to a shift in consumer spending towards more service-related purchases, which are not taxable. Additionally, the ongoing effects of inflation and higher interest rates affected spending, contributing to a slight decrease in sales tax revenues compared to the previous fiscal year. On the positive side, the rise in property values and new construction led to property tax collections exceeding budget estimates through the end of the fiscal year. Development activity in the City continued with an upward trend during FY2023-24, resulting in higher-than-expected building permit, plan check, and engineering and inspection fee revenues. Despite the sales tax shortfall, year-end results show that higher-than-expected revenues in other categories offset the shortfall, leading to an overall revenue surplus of $3.26 million or approximately 1% above estimates.

Expenditure savings, including labor, materials, services, and supplies, totaled $12.6 million in the General Fund. This amount includes a $4.6 million additional discretionary payment (ADP) to CalPERS that was deferred as a precautionary measure due to the forecasted sales tax shortfall. Excluding the ADP, expenditure savings totaled approximately $8 million, representing about 4% of the operating expenditure budget. The combined surplus for FY2023-24 amounted to $15.86 million, as presented below:

General Fund FY2023-24 Year-End Results (Operating and Non-Operating)	Variance from Budget ($)
Sales and Use Tax - Bradley Burns	$ (2,565,000)
Sales and Use Tax - Measure B	169,000
Property Tax	2,231,000
Other Revenues	3,425,000
Revenue surplus	**3,260,000**
Expenditure savings	**12,600,000**
Total General Fund Year-End Surplus	**$ 15,860,000**

On February 5, 2025, the City Council appropriated the year-end surplus for the following purposes:

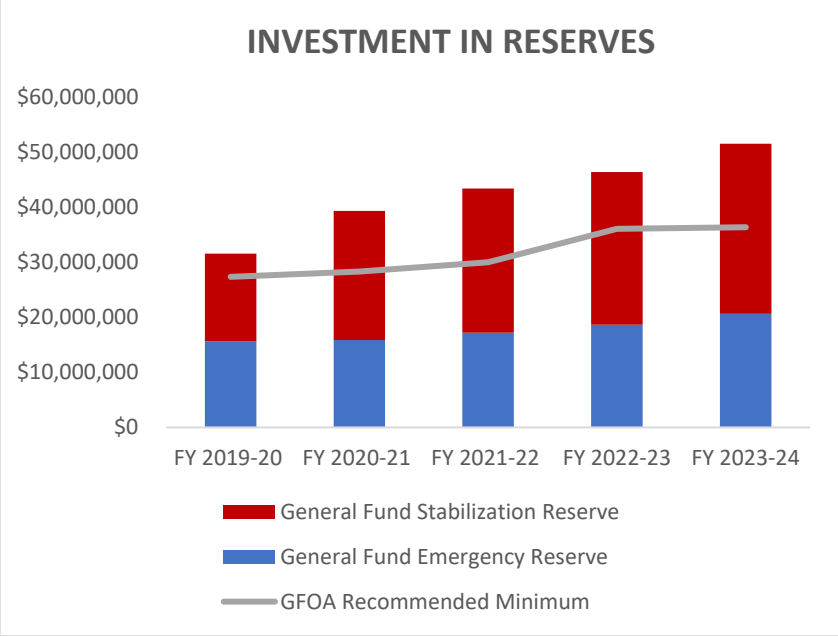

1. **Parks, Recreation, and Libraries Department (PRL) Projects: $4,030,000**
    - $3,150,000 to increase the budget for The Courts at Gibson Park Frontage project ($150,000) and establish the new West Side Maintenance Yard project ($3,000,000). The West Side Maintenance Yard project will build a satellite corporation yard on the western side of the City, including storage for equipment and materials, a shop, office space for Operations staff, and other support features to improve efficiency and service to residents.
    - $630,000 for the Youth Development Fund to increase the budgets for six existing projects: Adventure Club Flooring and Painting ($208,000), Adventure Club Interior Cabinets and Counters ($80,000), Adventure Club Exterior Paint and Siding ($140,000), Adventure Club HVAC Replacement ($85,000),

Adventure Club Ramps ($15,000), and Adventure Club Roof Repair and Replacement ($50,000), as well as to establish one new project: Adventure Club Programmable Locks ($52,000).
    - $250,000 for the Parks, Recreation and Library Capital Projects Fund to establish the Vernon Street Town Square Spray Ground Upgrades project and fund the design phase.
2. **Police Department Projects: $930,000**
    - Establishment of two new Police Department projects: (1) Police Body-Worn Camera Replacement ($480,000) and (2) Police Equipment Replacement ($450,000). City Council approved the appropriation of $930,000 from the FY2023-24 year-end General Fund surplus to the General Fund Equipment Replacement Fund for the replacement/purchase of body-worn cameras, rifle-rated ballistic vests, rifle optics, ballistic shields, unmanned aerial system drones, and a drug detection testing system.
3. **Fleet Replacement Fund Balance Augmentation: $1,531,000**
    - To address a shortfall in General Fund vehicle replacement funding for FY2025-26, City Council approved a transfer of $1,531,000 to the Fleet Replacement Fund. The shortfall by department is as follows: Police - $457,291, Fire - $691,268, PRL - $140,497, Public Works - $226,943, and Development Services - $15,001.
4. **Payment to CalPERS and Transfers to Other Funds: $9,369,000**
    - City Council approved the appropriation of $9,369,000 from the FY2023-24 General Fund year-end surplus for the following one-time expenditures: (1) make the $4,577,924 additional discretionary payment (ADP) to CalPERS, which was deferred in FY2023-24 due to concerns about reduced sales tax revenues. The City will continue to defer this payment in FY2024-25, as sales tax estimates continue to come in below projections, (2) transfer $1,500,000 to the General Fund Capital Reserve Fund for future capital projects, (3) transfer $1,750,000 to the Strategic Improvement Fund for future strategic investments, and (4) transfer $1,541,076 to the Pension Reserve Trust Fund to address long-term liabilities and their increasing costs.

Investment in Reserves

Through June 30, 2024, the Economic Stabilization Reserve, funded by Measure B, has grown to $30.9 million. These funds strengthen the City's financial position and will help maintain essential services during a future economic downturn.

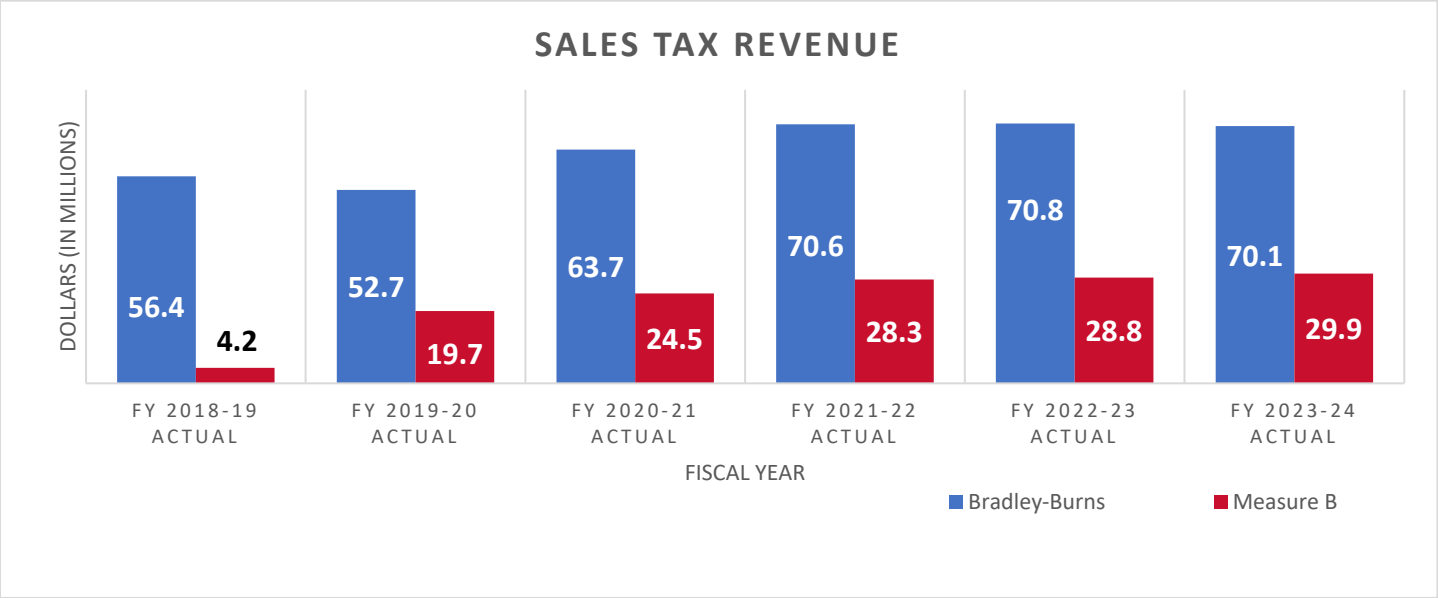

The Government Finance Officers Association (GFOA) recommends a minimum 17% reserve. As of June 30, 2024, the City of Roseville's total reserves (Economic Stabilization + Emergency) are approximately $51.5 million, meeting the Council-adopted policy target of 25% of operating expenditures.

Sales Tax Revenue

Measure B Sales and Use Tax (Red) revenues closed the year at $29.9 million, exceeding the budget by 1% ($0.2 million). Measure B revenues increased by approximately $1.1 million compared to the prior year. While Measure B sales tax continued to grow, the pace has slowed over the past two years. This slowdown is attributed to a shift in consumer

spending toward more service-related purchases, which are not taxable. Additionally, the ongoing effects of inflation and higher interest rates impacted spending, contributing to a slight decrease in sales tax revenues compared to the previous fiscal year.

FY2022-23 General Fund Year-End Surplus

The City had not determined the spending plan for the FY2022-23 General Fund year-end surplus at the time of preparing the Measure B scorecard last year. The following table outlines the spending plan approved by the City Council for this surplus.

General Fund Year-End Surplus Spending Plan	
Crimson Ridge Park	$ 450,000
Adventure Club Facility Improvements	809,000
Flood Control Pumps	500,000
IT/Fire - Very High Frequency Radio Replacement	827,500
Public Safety Regional Computer Aided Dispatch (CAD) to CAD Project	257,500
General Liability Program Assessment	1,400,000
Corridor Streetscape Landscaping	4,000,000
Transfer to Strategic Improvement Fund	2,500,000
Transfer to Pension Reserve Trust Fund	2,910,000
Increase in Litigation Reserve Fund	100,000
Fire Academy	200,000
Human Resources Personnel File Digitization	115,000
Citywide Succession Planning	40,000
Parking Garage Improvements (e.g., speed bumps)	150,000
Total	**$ 14,259,000**

National Community Survey

Roseville residents highlight City's overall quality of life in national survey

Ninety-seven percent of Roseville respondents to the National Community Survey rate Roseville as a good or excellent place to live, with 93% citing satisfaction with their overall quality of life. A similar percentage would recommend living in Roseville (92%) and most (82%) plan to remain in Roseville for the next five years.

The overall quality of Roseville's utilities infrastructure was the top-ranked among all communities surveyed at 90%. Roseville enjoyed high overall rankings in areas including:

- Image or reputation (89%)
- Customer service by Roseville employees (89%)
- Quality of parks and recreation opportunities (87%)
- Feeling of safety (86%)
- Economic health (84%)
- Design of residential and commercial areas (82%)
- Health and wellness opportunities (81%)
- Quality of natural environment (81%)

"These results reflect the accolades Roseville continues to receive as one of the best, safest, and healthiest communities in the entire country," said Roseville Mayor Krista Bernasconi. "As our city grows, we will remain focused on creating an environment that delivers a high quality of life for those who call Roseville home, and also for those that work here or visit for our shopping, dining, and other amenities."

"I know how hard City of Roseville employees work to provide a high quality of life for those who live, work, or visit Roseville," said Roseville City Manager Dominick Casey. "It is gratifying to see so many of our residents see and benefit

from the exceptional service our employees strive to deliver."

Utilities, economic health receive high marks

All of the City's utilities received good or excellent ratings for satisfaction, including garbage collection (90%), drinking water (89%), sewer services (92%), storm water management (88%), and power (89%). All of these services ranked in the top 15 out of hundreds of communities surveyed.

Economic health also factored into Roseville's high ratings, with 84% citing Roseville's economic health as good or excellent. This includes 83% noting Roseville as a good or excellent place to work. Roseville also ranked in the top 10 communities overall for its quality of business and service establishments (90%), variety (89%), and shopping opportunities (90%).

Residents generally feel safe in Roseville; emphasize its importance

Ratings for safety and safety-related services were generally positive, which is critical as safety was considered an essential or very important focus area for the city in the coming two years by roughly 9 in 10 residents. Ninety-six percent of residents reported feeling very or somewhat safe in their neighborhood during the day and 89% said the same for Roseville's downtown/commercial area during the day. About 8 in 10 also reported similar feelings of safety from property crime (81%), violent crime (87%), and fire, flood, or other natural disasters (88%).

Safety services also garnered high rankings – excellent or good – across key areas including police services (87%), crime prevention (84%), animal control (83%), emergency medical services (91%), fire services (90%), and fire prevention and education (85%).

Other City services and amenities also receive high marks

The City's parks and recreation ratings were high across the board, including for availability of paths and walking trails (82%), fitness opportunities (84%), City parks (85%), recreation programs or classes (83%), recreation centers or facilities (80%), and public library services (85%). Roseville's cleanliness was rated excellent or good by 84% of respondents. Its K-12 education (82%) was also highly ranked by residents and 93% cited it as a good or excellent place to raise children.

Community members support initiatives for addressing homelessness

In a series of questions unique to Roseville's survey, residents were asked about housing and homelessness. Residents were asked to rate how much of a problem they think homelessness is in Roseville. While just one-quarter reported that homelessness was a major or moderate problem in their neighborhood, about 6 in 10 similarly rated homelessness a problem in the city overall and 83% think it is very important or essential to address the challenges of people experiencing homelessness in Roseville. Approximately three-quarters backed providing supportive housing for those individuals, provided there was adequate state and federal funding. Most residents reported that it was important for the City of Roseville to focus on creating affordable housing opportunities (64%), providing access to social services (70%), and partnering with Placer County Social Services, non-profits, and healthcare providers (72%) to help address homelessness.

About the National Community Survey

Roseville participated in the National Community Survey in order to benchmark and track satisfaction levels and priorities over time. The results will help inform the City's strategic planning, budget and shed light about perceptions about city and community services. This is the second time Roseville has participated in this survey, after initial participation in 2021.

In October and November of 2023, 3,000 invitations to take part in the survey were mailed at random to Roseville residents. During this window, a link to an online open participation survey was also publicized by the City of Roseville. The survey results are based on a representative sample of 373 Roseville residents.

The survey provides a level of confidence of 95% and a margin of error of plus or minus 5%.

The survey asked residents for their opinion on the “livability” of Roseville in 10 core service areas:

- Economy
- Utilities
- Safety
- Natural Environment
- Parks and Recreation
- Health and Wellness
- Education, Arts, and Culture
- Mobility
- Community Design
- Inclusivity and Engagement

Local Sales Tax Citizens' Oversight Committee Communication

Meeting Date: 2/11/2026
Item #: VI.6
Item ID: 2026-102

Title: Report to Council
Contact: Scott Pettingell 916-746-1306 spettingell@roseville.ca.us

SUMMARY

Staff recommends the Local Sales Tax Citizens' Oversight Committee adopt a motion to designate one or two committee members to prepare the Committee's report to the City Council.

RECOMMENDATION

The Local Sales Tax Citizens' Oversight Committee is charged with the annual review and report to the City Council on the revenue and expenditures of the Measure B Sales and Use Tax.

Respectfully Submitted,
Scott Pettingell, Finance Director

Scott Pettingell, Finance Director
