**RESOLUTION NO. 26-128**

**A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, INITIATING PROCEEDINGS FOR THE LEVY OF ASSESSMENTS FOR THE JOHNSON RANCH LANDSCAPING AND LIGHTING DISTRICT, FISCAL YEAR 2026/2027, PURSUANT TO THE PROVISIONS OF PART 2 OF DIVISION 15 OF THE CALIFORNIA STREETS AND HIGHWAYS CODE**

The City Council of the City of Roseville, California (hereafter referred to as the "City Council") does resolve as follows:

**WHEREAS,** the City Council has, by previous resolutions, formed the Johnson Ranch Landscaping and Lighting District and annexed territory therein (hereafter referred to as the "District") pursuant to the provisions of the *Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the Streets and Highways Code of California, beginning with Section 22500* (hereafter referred to as the "Act"), which provides for the levy and collection of assessments by the County of Placer for the City of Roseville to pay for the maintenance and services of street lighting, landscaping, and all appurtenant facilities and operations related thereto; and

**WHEREAS,** the City Council has retained Willdan Financial Services (hereinafter "Engineer") for the purpose of assisting with the establishment of the assessments, the annexation of territory, and the preparation and filing of an Engineer's Annual Levy Report (hereafter referred to as the "Engineer's Report") with the City Clerk in accordance with the Act, and the California Constitution, Articles XIIIC and XIIID;

**NOW, THEREFORE, BE IT RESOLVED, DETERMINED, AND ORDERED BY THE CITY COUNCIL FOR THE JOHNSON RANCH LANDSCAPING AND LIGHTING DISTRICT, AS FOLLOWS:**

**Section 1** Engineer's Report: The City Council hereby orders the Engineer to prepare and file with the City Clerk the Engineer's Report concerning the levy of assessments for the District in accordance with *Chapter 3, Section 22622* of the Act.

**Section 2** Proposed improvements and any substantial changes in existing improvements: The District improvements include: the maintenance and operation of and the furnishing of services, materials and/or improvements for landscape, lighting, open space, floodway, stream course and wetland areas, and other public improvements within the street right-of-way areas and all appurtenant facilities related thereto as further described in the Engineer's Report. The Engineer's Report also describes all new improvements or substantial changes in existing improvements.

**RESOLUTION NO. 26-129**

**A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, DECLARING ITS INTENTION TO LEVY ANNUAL ASSESSMENTS FOR THE JOHNSON RANCH LANDSCAPING AND LIGHTING DISTRICT, FISCAL YEAR 2026/2027**

The City Council of the City of Roseville, California (hereafter referred to as the "City Council") does resolve as follows:

**WHEREAS,** the City Council has, by previous Resolutions, formed the Johnson Ranch Landscaping and Lighting District (hereafter referred to as the "District"), and initiated proceedings for Fiscal Year 2026/2027, pursuant to the provisions of the *Landscaping and Lighting Act of 1972*, *Part 2 of Division 15 of the Streets and Highways Code of California*, *beginning with Section 22500* (hereafter referred to as the "Act"), which provides for the levy and collection of assessments by the County of Placer for the City of Roseville to pay for the maintenance, operation and servicing of all improvements and facilities related thereto; and

**WHEREAS,** the City Council has retained Willdan Financial Services for the purpose of assisting with the Annual Levy of the District and the preparation and filing of a report (hereinafter referred to as the "Engineer's Report") with the City Clerk in accordance with the Act; and

**NOW, THEREFORE, BE IT RESOLVED, DETERMINED, AND ORDERED BY THE CITY COUNCIL FOR THE JOHNSON RANCH LANDSCAPING AND LIGHTING DISTRICT, PURSUANT TO *CHAPTER 3, SECTION 22624* OF THE ACT, AS FOLLOWS:**

**Section 1** Intention: The City Council hereby declares that it is its intention to seek the Annual Levy of the District pursuant to the Act, over and including the land within the District boundary, and to levy and collect assessments on all such land to pay for the annual costs of the improvements.

**Section 2** Proposed improvements and any substantial changes in existing improvements: The District improvements include: the maintenance and operation of and the furnishing of services, materials or improvements for landscape, lighting, open space, floodway, stream course and wetland areas, including certain mitigation monitoring activities therein, turf, ground cover, shrubs and trees, irrigation systems and drainage systems, bike trails, and other public improvements within the street right-of-way areas and all appurtenant facilities related thereto as further described in the Engineer's Report. The Engineer's Report also describes all new improvements or substantial changes in existing improvements.

**Section 3** Boundaries and Designation: The boundaries of the District as previously defined in the formation documents of the original District and any annexations thereto. The District generally includes the parcels within the area known as the Southeast Roseville Specific Plan. The District is known and designated as

**"Johnson Ranch Landscaping and Lighting District"**

**Section 4** Proposed Assessment Amounts: The proposed assessments are outlined in the Engineer's Report. District Assessments are calculated in accordance with the method of apportionment established for the District and do not exceed the assessment rates and applicable annual inflationary adjustment previously authorized by the City Council and approved by the property owners in accordance with the provisions of the California State Constitution, Article XIIID.

**Section 5** Public Hearing: The City Council hereby declares its intention to conduct a Public Hearing annually concerning the levy of assessments for the District in accordance with *Chapter 3, Section 22626* of the Act.

**Section 6** Notice: The City Clerk shall give notice of the time and place of the Public Hearing by causing this resolution to be published once in the local newspaper not less than ten (10) days before the date of the hearing and by posting a copy of this resolution on the official bulletin board customarily used by the City Council for the posting of notices.

**Section 7** Time and Place of Public Hearing: Notice is hereby given that a Public Hearing on these matters will be held by the City Council on **Wednesday, June 3, 2026 at 6:00 p.m.**, or as soon thereafter as feasible in the regular meeting chambers located at 311 Vernon Street, Roseville, California.

**RESOLUTION NO. 26-130**

**A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, FOR PRELIMINARY APPROVAL OF THE ENGINEER'S ANNUAL LEVY REPORT FOR THE JOHNSON RANCH LANDSCAPING AND LIGHTING DISTRICT, FISCAL YEAR 2026/2027**

The City Council of the City of Roseville, California (hereafter referred to as the "City Council") does resolve as follows:

**WHEREAS,** the City Council has, by previous Resolutions, ordered the preparation of an Annual Levy Report (hereafter referred to as the "Engineer's Report") for the district known and designated as the Johnson Ranch Landscaping and Lighting District (hereafter referred to as the "District"), pursuant to the provisions of the *Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the Streets and Highways Code of California*, *beginning with Section 22500* (hereinafter referred to as the "Act"); and,

**WHEREAS**, the City Council has retained Willdan Financial Services (hereinafter "Engineer"), for the purpose of assisting with the establishment of the assessments and the preparation and filing of an Engineer's Report with the City Clerk in accordance with the Act and the requirements of the California Constitution, Articles XIIIC and XIIID; and

**WHEREAS,** there has now been presented to this City Council the Engineer's Report as required by *Chapter 1, Article 4, Section 22566* of said Act; and

**WHEREAS,** this City Council has carefully examined and reviewed the Engineer's Report as presented, and is preliminarily satisfied with the District and with each of the budget items and documents set forth therein, and further finds that the assessments, on a preliminary basis, have been spread in accordance with the benefits received from the improvements, operation, maintenance, and services to be performed within each Zone, as set forth in said Engineer's Report; and

**NOW, THEREFORE, BE IT RESOLVED, DETERMINED, AND ORDERED BY THE CITY COUNCIL FOR THE JOHNSON RANCH LANDSCAPING AND LIGHTING DISTRICT, AS FOLLOWS:**

**Section 1** That the above recitals are all true and correct.

**Section 2** That the Engineer's Report, as presented, consists of the following:

a. A Description of Improvements
b. The Annual Budget (Costs and Expenses of Maintenance, Services, Operations and District Administration)
c. The Assessment Roll containing the Fiscal Year 2026/2027 Levy for each Assessor Parcel within the District

**Section 3** The Engineer's Report is hereby approved on a preliminary basis and ordered to be filed in the Office of the City Clerk as a permanent record and to remain open to public inspection.

**Section 4** That the City Clerk shall certify to the passage and adoption of this Resolution, and the minutes of this meeting shall reflect the presentation of the Engineer's Report.

# I. OVERVIEW

## A. INTRODUCTION

The City of Roseville ("City") annually levies and collects special assessments in order to maintain the improvements in the southeast section of the City of Roseville, known as Johnson Ranch Landscaping and Lighting District ("District"). The District was formed and is levied annual assessments pursuant to the Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the California Streets and Highways Code (the "1972 Act").

The Engineer's Report ("Report") describes the District, any new annexations, changes to the District, and the proposed assessments for the period of July 1, 2026 through June 30, 2027. The special benefit assessments are based on historical and estimated costs to maintain the District improvements. These assessments, which provide a direct and special benefit to properties within the District, will provide funding for the operation and maintenance of District improvements.

The District consists of five (5) zones of benefit, Zones A, B, C, D and E (individually the "Zone" and collectively the "Zones"). The improvements that benefit properties within each Zone and the costs to maintain and service those improvements are identified and budgeted separately by Zone. The total cost of landscape maintenance within a Zone is equitably spread among only the benefiting parcels.

The word "parcel," for the purposes of this Report, refers to an individual property assigned its own Assessor's Parcel Number ("APN") by the Placer County Assessor's Office. The Placer County Auditor/Controller uses Assessor's Parcel Numbers and specific Tax Code Accounts, to identify on the County's tax roll, properties assessed for special district benefit assessments.

Following approval of the Report, the City Council will, by resolution, order the improvements to be made, if any, and confirm the levy and collection of assessments pursuant to the 1972 Act. The assessment rates and method of apportionment described in this Report as approved or modified by the City Council define the assessments to be applied to each parcel within the District and respective Zones for Fiscal Year ("FY") 2026/27. The assessments as approved will be submitted to the Placer County Auditor/Controller to be included on the FY 2026/27 property tax roll for each parcel.

If any parcel submitted for collection is identified by the County Auditor/Controller to be an invalid parcel number for the current fiscal year, a corrected parcel number and/or new parcel numbers will be identified and resubmitted to the County Auditor/Controller. The assessment amount to be levied and collected for the

resubmitted parcel or parcels shall be based on the method of apportionment and assessment rates approved by the City Council.

## B. COMPLIANCE WITH CURRENT LEGISLATION

All assessments described in this Report and approved by the City Council are prepared in accordance with the 1972 Act and are in compliance with the substantive and procedural requirements of the California State Constitution Articles XIIIC and XIIID ("Articles XIIIC and XIIID") and the provisions of the Proposition 218 Omnibus Implementation Act [Government Code Section 53750 and following] (the "Implementation Act"). Articles XIIIC and XIIID and the Implementation Act collectively are hereinafter referred to as "Proposition 218".

Pursuant to the California Constitution Article XIIID, Section 5, certain existing assessments are exempt from the substantive and procedural requirements of Article XIIID Section 4 and property owner balloting for the assessments is not required until such time that the assessments are increased. Specifically, the City determined that all improvements and the annual assessments originally established for the District were part of the conditions of property development and approved by the original property owner (developer). As such, pursuant to Article XIIID Section 5(b), all the property owners approved the existing District assessments at the time the assessments were created (originally imposed pursuant to a 100% landowner petition). Therefore, the pre-existing assessment amounts (the maximum assessment rates of Zones A, B, C & D identified in this Report) are exempt from the procedural requirements of Article XIIID Section 4, provided the assessments are not increased above these previously approved maximum assessment rates.

In Fiscal Year 1999/00, the City initiated and conducted property owner protest ballot proceedings in accordance with Article XIIID for Zone E in order to increase the assessment to cover additional costs for services. The proposed assessment increase presented to property owners included an annual inflationary factor of 3%. In Fiscal Year 1999/00 the maximum assessment rate was $623.10 per acre. At the conclusion of the Public Hearing, all property owner ballots returned were tabulated and the City determined that a majority protest did not exist. The City Council then approved the increased assessment and the inflationary factor for maintaining the improvements within the District.

The District and all Zones therein have been formed pursuant to the 1972 Act. Pursuant to the 1972 Act, an annual Public Hearing is conducted by the City Council to accept property owner and public comments, to review the Engineer's Annual Levy Report prior to approving the annual assessments to be levied on the County tax rolls. The assessments described in this Report have been prepared in accordance with the Act.

## C. DISTRICT BOUNDARIES

The District lies within a portion of the Southeast Roseville Specific Plan, which is located in the southeast section of the City of Roseville. The District is generally located east of I-80 on the south side of Douglas Boulevard. See Appendix A for a rendering of the District boundary map.

## D. IMPROVEMENTS AUTHORIZED BY THE 1972 ACT

As applicable or may be applicable to a proposed District, the 1972 Act defines improvements to mean one or any combination of the following:

- The installation or planting of landscaping.
- The installation or construction of statuary, fountains, and other ornamental structures and facilities.
- The installation or construction of public lighting facilities.
- The installation or construction of any facilities which are appurtenant to any of the foregoing, or which are necessary or convenient for the maintenance or servicing thereof, including, but not limited to, grading, clearing, removal of debris, the installation or construction of curbs, gutters, walls, sidewalks, or paving, or water, irrigation, drainage, or electrical facilities.
- The maintenance or servicing, or both, of any of the foregoing.
- The acquisition of any existing improvement otherwise authorized pursuant to this section.

Incidental expenses associated with the improvements including, but not limited to:

- The cost of preparation of the report, including plans, specifications, estimates, diagram, and assessment;
- The costs of printing, advertising, and the publishing, posting, and mailing of notices;
- Compensation payable to the County for collection of assessments;
- Compensation of any engineer or attorney employed to render services;
- Any other expenses incidental to the construction, installation, or maintenance and servicing of the improvements;
- Any expenses incidental to the issuance of bonds or notes pursuant to Section 22662.5.
- Costs associated with any elections held for the approval of a new or increased assessment.

The 1972 Act defines "Maintain" or "maintenance" to mean furnishing of services and materials for the ordinary and usual maintenance, operation, and servicing of any improvement, including:

- Repair, removal, or replacement of all or any part of any improvement.

- Providing for the life, growth, health, and beauty of landscaping, including cultivation, irrigation, trimming, spraying, fertilizing, or treating for disease or injury.
- The removal of trimmings, rubbish, debris, and other solid waste.
- The cleaning, sandblasting, and painting of walls and other improvements to remove or cover graffiti.

Furthermore, the 1972 Act specifies that where the cost of improvements (other than maintenance and operations) is greater than can be conveniently raised from a single annual assessment, an assessment to be levied and collected in annual installments. In that event, the governing body may choose to do any of the following:

- Provide for the accumulation of the moneys in an improvement fund until there are sufficient moneys to pay all or part of the cost of the improvements.
- Provide for a temporary advance to the improvement fund from any available and unencumbered funds of the local agency to pay all or part of the cost of the improvements and collect those advanced moneys from the annual installments collected through the assessments.
- Borrow an amount necessary to finance the estimated cost of the proposed improvements. The amount borrowed, including amounts for bonds issued to finance the estimated cost of the proposed improvements.

## E. DESCRIPTION OF THE IMPROVEMENTS AND BENEFITS

**Zones A, B and C**

Zones A, B and C of the District, by special benefit assessments, provide annual funding for the continual maintenance of certain landscaping, open space areas; including floodway and stream course areas as well as the maintenance of bike trails. The specific locations of the floodways, stream courses and areas adjacent thereto to be maintained are described below:

- Parcel 70 - Floodway that feeds Cirby Creek and is located between Douglas Boulevard and Eureka Road. (7.76 acres) - Zone C
- Parcel 71 - Strap Ravine floodway between Douglas Boulevard and East Roseville Parkway. (3.38 acres) - Zone A
- Parcel 72 - Floodway between Roseville Parkway east to commercial development. (8.98 acres) - Zone C
- Parcel 73 - Recreational floodway in Strap Ravine between East Roseville Parkway and Sierra College Boulevard. (16.11 acres) - Zone A
- Parcels 74 & 75 - Recreational floodway that eventually feeds Linda Creek, beginning at Sierra College Boulevard then east to the Roseville City limits. (6.2 acres and 10.8 acres, respectively) - Zone B

## Zone D

Zone D of the District, by special benefit assessments, provides annual funding for the costs of mitigation monitoring and costs to maintain landscaped open space areas within certain wetland / riparian area(s) to comply with a Section 404 Permit. The issuance of this Section 404 permit was a condition of the development of the Johnson Ranch East Project, which represents the parcels comprising Zone D.

## Zone E

Zone E of the District, by special benefit assessments, provides annual funding for the maintenance of certain landscaping, bike trails and open space areas that include floodway and stream course areas and the costs of mitigation monitoring to comply with both a Section 404 Permit (Federal) and a 1603 Permit (State). The issuance of these permits was a condition of the development of Parcel 9. The specific locations of the floodway and stream courses to be maintained are described as:

- Parcel 76 - Streambed and floodway area located at Cirby Creek from the southwest side of Eureka Boulevard to the end of the Coker Development. (2.79 acres)

# II. METHOD OF APPORTIONMENT

## A. GENERAL

The Act permits the establishment of assessment districts by agencies for the purpose of providing certain public improvements which include the construction, maintenance and servicing of public lights, landscaping, and appurtenant facilities. The Act further requires that the cost of these improvements be levied according to benefit rather than assessed value:

> *"The net amount to be assessed upon lands within an assessment district may be apportioned by any formula or method which fairly distributes the net amount among all assessable lots or parcels in proportion to the estimated benefits to be received by each such lot or parcel from the improvements."*

The formula used for calculating assessments in each Zone of the District therefore reflects the composition of the parcels, and the improvements and services provided, to fairly apportion the costs based on estimated benefit to each parcel.

## B. PROPOSITION 218 BENEFIT ANALYSIS

In conjunction with the provisions of the 1972 Act, the California Constitution Article XIIID addresses several key criteria for the levy of assessments regarding Zone E, notably:

Article XIIID Section 2d defines District as follows:

"District means an area determined by an agency to contain all parcels which will receive a special benefit from a proposed public improvement or property-related service;"

Article XIIID Section 2i defines Special Benefit as follows:

"Special benefit" means a particular and distinct benefit over and above general benefits conferred on real property located in the district or to the public at large. General enhancement of property value does not constitute "special benefit."

Article XIIID Section 4a defines proportional special benefit assessments as follows:

"An agency which proposes to levy an assessment shall identify all parcels which will have a special benefit conferred upon them and upon which an assessment will be imposed. The proportionate special benefit derived by each identified parcel shall be determined in relationship to the entirety of the capital cost of a public improvement, the maintenance and operation expenses of a public improvement, or the cost of the property related service being provided. No assessment shall be

imposed on any parcel which exceeds the reasonable cost of the proportional special benefit conferred on that parcel."

The method of apportionment (method of assessment) set forth in the Report is based on the premise that each assessed property receives special benefits from the improvements within the District, and the assessment obligation for each parcel reflects that parcel's proportional special benefits as compared to other properties that receive special benefits.

## C. DESCRIPTION OF METHOD OF APPORTIONMENT

Pursuant to the Act, the costs of the District must be spread to each parcel based upon a benefit formula. Each assessable parcel in the District receives a direct and special benefit from the improvements in the District. The formula used to arrive at each parcel's annual levy amount in each zone is as follows:

### Zones A and B

Thirty percent (30%) of the total budgeted costs of Zones A & B are to be levied to floodway Parcel 82 (APN 458-020-001). The remaining Seventy percent (70%) of costs are then allocated equally on a per acre basis to all assessable parcels within these Zones. Acreage of common area parcels shall be apportioned to the remaining assessable parcels of a subdivision and/or parcel split(s) related to the creation of the common area parcel(s).

### Zones C, D and E

The budgeted costs of Zones C, D and E are to be allocated equally on a per acre basis to all assessable parcels within each respective Zone. Acreage of common area parcels shall be apportioned to the remaining assessable parcels of a subdivision and/or parcel split(s) related to the creation of the common area parcel(s).

## D. INFLATIONARY ADJUSTMENT FACTOR

For Zone E only, if the proposed assessment rate increases over the prior fiscal year's maximum assessment rate by a percentage no greater than the 3%, then the proposed assessment rate is not considered an increase.

# III. DISTRICT BUDGET

## A. FY 2026/27 BUDGET

| DESCRIPTION | ZONE A [1] Fund 2001 | ZONE B [1] Fund 2002 | ZONE C Fund 2003 | ZONE D Fund 2004 | ZONE E Fund 2005 |
|---|---|---|---|---|---|
| **DIRECT COSTS** | | | | | |
| Contract Maintenance - Open Space (2521-4801-10001) | $13,506.11 | $5,250.51 | $4,114.90 | $136.59 | $8,021.46 |

| Consulting & Professional Services | 2,244.00 | 1,548.00 | 1,209.00 | 44.00 | 1,122.00 |
| Public Hearing Publishing Costs | 143.00 | 99.00 | 77.00 | 3.00 | 72.00 |
| **Total Administrative Costs** | **$4,405.50** | **$2,061.39** | **$2,445.07** | **$128.84** | **$2,510.32** |
| **Total Direct and Administration Costs** | **$18,511.61** | **$9,934.44** | **$9,007.84** | **$265.43** | **$11,888.95** |
| **BUDGET ADJUSTMENTS** | | | | | |
| Replenishment/(Use) of Operating Reserve | ($1,756.61) | $204.66 | $0.00 | $18.80 | $42.77 |
| Contribution for /(Use of) Rehab Reserve | 0.00 | 0.00 | 0.00 | $0.00 | 0.00 |
| Rounding Adjustment | (0.55) | (0.01) | (2.03) | ($0.23) | (0.04) |
| **Total Adjustments** | **($1,757.16)** | **$204.65** | **($2.03)** | **$18.57** | **$42.73** |
| **BALANCE TO LEVY [2]** | **$16,754.44** | **$10,139.09** | **$9,005.81** | **$284.00** | **$11,931.68** |

| Parcel 82 Levy Recap [1] | ZONE A [1] Fund 2001 | ZONE B [1] Fund 2002 |
|---|---|---|
| Non-Parcel 82 Levy (70% of Costs) | $11,728.11 | $7,097.37 |
| Parcel 82 Levy - 458-020-001 (30% of Total Costs) | 5,026.33 | 3,041.73 |
| **Total Assessment** | **$16,754.44** | **$10,139.09** |

(1) Thirty percent (30%) of the total budgeted costs of Zones A & B are to be levied to floodway Parcel 82 (APN 458-020-001). 70% of costs are to be assessed to the remaining parcels. See "Parcel 82 Levy Recap" above for calculation.

(2) Slight variations in levy amounts shown in this Report may occur due to rounding limitations.

Fund balance information of each Zone is reported in Section C on the following page. The total balance to levy for the district is $48,115.02.

## B. FY 2026/27 ASSESSMENT RATES

| DESCRIPTION | ZONE A [1] Fund 2001 | ZONE B [1] Fund 2002 | ZONE C Fund 2003 | ZONE D Fund 2004 | ZONE E Fund 2005 |
|---|---|---|---|---|---|
| **FY 2026/27 ASSESSMENT DATA** | | | | | |
| Number of Assessable Parcels | 194 | 812 | 174 | 505 | 4 |
| Total Assessable Acres | 101.5984 | 227.5064 | 132.6061 | 140.9012 | 13.6282 |
| **Assessment Rates to be Applied:** | | | | | |
| Per Acre - Zones C, D & E | | | $67.9140 | $2.0156 | $875.5140 |
| Per Acre - Non-Parcel 82 Parcels (70% of costs)[1] | $115.4360 | $31.1964 | | | |
| Parcel 82 Only (30% of Costs)[1] | $5,026.33 | $3,041.73 | | | |
| **Maximum Assessment Rates:** | | | | | |
| Per Acre - Zones C, D & E | | | $67.9293 | $2.3023 | $1,384.0850 |
| Per Acre - Non-Parcel 82 Properties | $115.4398 | $35.5600 | | | |
| Parcel 82 Only | $5,026.20 | $3,467.21 | | | |
| **Potential Maximum Assessment** | **$16,755.00** | **$11,557.30** | **$9,007.84** | **$324.40** | **$18,862.59** |

(1) Thirty percent (30%) of the total budgeted costs of Zones A & B are to be levied to floodway Parcel 82 (APN 458-020-001). 70% of costs are to be assessed to the remaining parcels. See "Parcel 82 Levy Recap" above for calculation.

## C. FY 2026/27 FUND BALANCE INFORMATION

| DESCRIPTION | ZONE A Fund 2001 | ZONE B Fund 2002 | ZONE C Fund 2003 | ZONE D Fund 2004 | ZONE E Fund 2005 |
|---|---|---|---|---|---|

## D. DESCRIPTION OF BUDGET ITEMS

Description of the terms used in the preceding Budget, Assessment Rates and Fund Balance tables are listed below:

**BUDGET:**

**DIRECT COSTS**

**Contract Maintenance - Open Space** – Includes all regularly scheduled contract labor, materials, supplies, and equipment required to properly maintain and ensure the satisfactory condition of all open space landscaping, irrigation, drainage systems, lighting, floodplain improvements and appurtenant facilities (the "improvements").

**Maintenance - Bike Trails** - Costs associated with the resurfacing of the Bike trail. If zero, this line item will not be shown in the budget.

**Utilities** - The furnishing of water and electricity required for the operation and maintenance of the improvements. If zero, this line item will not be shown in the budget.

**Mitigation Monitoring** – Costs associated with monitoring certain impacts to riparian areas in or near the District under the terms of a Section 404 or 1603 permit. If zero, this line item will not be shown in the budget.

**Water Hyacinth Eradication** – Costs associated with the eradication of the Water Hyacinth plant in the creek beds. If zero, this line item will not be shown in the budget.

**Rehab Reserve Project Expenditures** – Expected costs for installation, replacement, or planned upgrades of District improvements for the current year that were previously funded or accumulated in the Rehabilitation Reserve. The Rehabilitation Reserve is used to accumulate funds for costs associated with the future rehabilitation or replacement of District improvements that cannot be conveniently raised from a single year's assessment. If zero, this line item may not be shown in the budget.

## ADMINISTRATION COSTS

**City Administration** – Estimated costs incurred by the City Finance Department and other departments in preparing the annual budget for the Engineer's Report, together with other financial information required to determine the annual assessment. These costs would also include the preparation, posting and publishing of public notices required for City Council action relating to the District, as well as costs to perform legal review of documents.

**Contract Administration – Parks Dept** – Estimated costs of the Parks, Recreation and Libraries Department ("Parks Department") to coordinate and oversee the maintenance contracts and overall repair and maintenance of the District. This amount also includes the cost of the Parks Department's estimates and analysis of certain budget items, estimated costs and useful lives of certain District Improvements.

**Contract Administration – Open Space** – Estimated costs of City staff to coordinate and oversee the maintenance contracts and non-contract maintenance of the open space areas of the District. This amount also includes the cost of the Parks Department's estimates and analysis of certain budget items.

**County Auditor Fees** - A fee of 1% of the total levy amount that is charged to the District by the County for placing assessments on property tax bills.

**Consulting and Professional Services** – Includes the costs and expenses of contracting with various professionals to provide legal, engineering and district administration services directly related to the District, including the calculation of the annual assessment amounts and the preparation of the Engineer's' Report.

**Public Hearing Publishing Costs** –Includes the out-of-pocket costs to publish public notices required for City Council action relating to the District.

**Total Direct and Administration Costs** – The total expected costs of the District.

## BUDGET ADJUSTMENTS

**Replenishment/(Use) of Operating Reserve** – A "Replenishment" increases the levy in order to replenish the Operating Reserve. On the other hand, a "Use" of the Operating Reserve decreases the levy by drawing funds from the Operating Reserve for current year expenditures. If zero, this line item may not be shown in the budget. Further information regarding the function of the Operating Reserve is provided under "FUND BALANCE INFORMATION" in the following pages of this Section.

**Contribution for / (Use of) Rehab Reserve** — A "Contribution" increases the levy in order to generate funding for the Rehabilitation Reserve. This reserve allows for the accumulation of funds for possible rehabilitation projects or replacements in future years. On the other hand, a "Use of" of the Rehabilitation Reserve provides current year funding of rehabilitation projects or replacements from available funds within the Rehabilitation Reserve. If zero, this line item may not be shown in the budget. Further information regarding the function of the Rehabilitation Reserve is provided under "FUND BALANCE INFORMATION" in the following pages of this Section.

**Rounding Adjustment** – The necessary rounding adjustment(s) due to limitations of the County property tax system that requires even penny levy amounts to be placed on the secured tax roll.

**BALANCE TO LEVY** - This is the total amount to be levied and collected through assessments for the current fiscal year for each Zone. The Balance to Levy represents the sum of the total District costs together with applicable adjustments related to the Reserve Fund replenishments or reductions and/or Capital Improvement Fund activity.

**Parcel 82 Levy Recap** – A recap of the cost breakdown between certain parcels. Thirty percent (30%) of the total budgeted costs of Zones A & B are to be levied to floodway Parcel 82 (APN 458-020-001). 70% of costs are to be assessed to the remaining parcels.

**ASSESSMENT RATES:**

**Number of Assessable Parcels** - The total number of parcels within each Unit that are expected to be assessed. Non-assessable lots or parcels include government-owned land, public utility-owned property, land principally encumbered by public rights-of-way or easements, common areas, and/or parcels within the boundaries of the District that currently do not benefit from the improvements due possibly to development restrictions.

**Total Assessable Acres – Non-Parcel 82 Properties** - The total number of acres within Zones A and B that are to be assessed on an acreage basis for the current fiscal year; this acreage excludes Parcel 82.

**Applied Assessment Rates** - The assessment rates to be applied to the non-exempt parcels within the District for the current fiscal year.

**Maximum Assessment Rates** - The maximum assessment rates for the current fiscal year.

**Maximum Potential Assessment** – The total amount that is expected to be assessed against all parcels within the District for the Current Fiscal Year.

## FUND BALANCE INFORMATION:

### OPERATING RESERVE

**Beginning Operating Reserve Balance 7-1-2026 (est.)** - The anticipated beginning balance of cash and receivables net of any unpaid prior year obligations for each Zone. These beginning balances shall be used to fund each Zone's expenditures from July 1, 2026 to December 31, 2026, as the Operating Reserve is required to compensate for the approximate six-month delay between the start of the District's fiscal year and the receipt of the collections from the County. All Rehabilitation Reserve balances, if any, are excluded from the Operating Reserve balances and shall be shown separately in the Report.

**Replenish from FY 2026/27 Levy** – This amount is added to the FY 2026/27 levy in order to replenish the Operating Reserve. Due to the six-month delay from the District's receipt of assessment collections, the Operating Reserve balance shall be sufficiently funded to provide for expenditures from July 1, 2026 (the beginning of the Fiscal Year) through December 31, 2026. If zero, this line item may not be shown in the budget.

**Use for FY 2026/27 Expenses** – The amount of the Operating Reserve to be used to fund FY 2026/27 expenses. Portions of the Operating Reserve may be slated for current year expenditures in order to reduce the Ending Operating Reserve Balance to an amount no greater than the expected District costs for the period of July 1, 2026 (the beginning of the Fiscal Year) through December 31, 2026. If zero, this line item may not be shown in the budget.

**Transfer from/(to) the Rehab Reserve** — The amount of Operating Reserve monies to be transferred to or from the Rehabilitation Reserve. Periodically, funds held in a Rehabilitation Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Rehabilitation Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Parks Department, in order to provide for the maintenance and operation of the improvements. If zero, this line item may not be shown in the budget.

**Ending Operating Reserve Balance 6-30-2027 (est.)** - This amount represents the anticipated Operating Reserve balance/(deficit) for each Zone as of June 30, 2027. The size of each Zone's Operating Reserve is limited by Streets and Highways Code 22569 which states that an Operating Reserve shall not exceed the estimated costs of maintenance, service, and incidental expenses from the first day of the fiscal year (July 1) to the date that the Agency expects to receive the first apportionment of collections from the County, which is estimated to be December 31. Therefore, each Zone may retain an Operating Reserve amounting to the District's first six-months of expenses in order to meet ongoing obligations until the first collections are received from the County. All Rehabilitation Reserve balances, if any, are excluded from the Operating Reserve balances and shall be shown separately in the Report.

## REHABILITATION RESERVE

**Beginning Rehab Reserve Balance 7-1-2026 (est.)** — The projected balance of funds in the Rehabilitation Reserve as of July 1, 2026. Streets and Highways Code 22660 allows the District to generate and accumulate funds over several years to fund District improvements that cannot be conveniently raised from a single year's assessment.

**Collect from FY 2026/27 Levy** — This amount is added to the FY 2026/27 levy to accumulate funding of future year rehabilitation projects, replacements, restorations, or upgrades of District improvements. If zero, this line item may not be shown in the budget.

**Use for FY 2026/27 Rehab Projects** – The amount of Rehabilitation Reserve monies expected to be transferred out of the Rehabilitation Reserve to fund the costs of installation, replacement, or planned upgrades of District improvements for the current year. If zero, this line item may not be shown in the budget.

**Transfer from/(to) the Operating Reserve** — The amount of Rehabilitation Reserve monies to be transferred to or from the Operating Reserve. Periodically, funds held in a Rehabilitation Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Rehabilitation Reserve are subject to transfer into the same Zone's Operating Reserve, at the discretion of the Parks Department, in order to provide for the maintenance and operation of the improvements. If zero, this line item may not be shown in the budget.

**Ending Rehab Reserve Balance 6-30-2027 (est.)** - The projected balance of funds in the Rehabilitation Reserve as of June 30, 2027. These funds shall be used to provide for future year rehabilitation projects, replacements, restorations, or upgrades of District improvements which cannot be conveniently raised from a single year's assessment.

## E. REHABILITATION RESERVE – CAPITAL IMPROVEMENT PLAN

*Streets and Highways Code 22660* allows the District to generate and accumulate funds over several years to fund District improvements that cannot be conveniently raised from a single year's assessment.

The Report provides a five-year Capital Improvement Plan ("CIP") which shows projected expenditures by Zone related to the rehabilitation, restoration and/or replacement of District improvements, and other allowable costs. The Current Fiscal Year CIP is shown in the preceding Budget Section A. The projected CIP costs for the remaining four years are shown in the table below.

| Description | FY 2027-28 | FY 2028-29 | FY 2029-30 | FY 2030-31 | 4 Year Total |
|---|---|---|---|---|---|
| Zone A - General open space, creek rehab | $375 | $342 | $600 | $532 | $1,849 |
| Zone B - General open space, creek rehab | 300 | 300 | 300 | 300 | 1,200 |
| Zone C - General open space, creek rehab | 0 | 0 | 0 | 0 | 0 |
| Zone D - General open space, creek rehab | 50 | 89 | 89 | 50 | 278 |
| Zone E - General open space, creek rehab | 150 | 125 | 150 | 130 | 555 |

Periodically, funds held in a Rehabilitation Reserve may be needed to respond to changing maintenance needs of the District or other factors. Accordingly, any or all funds held in a Rehabilitation Reserve are subject to transfer into the same Zone's Operating Reserve, at the discretion of the Parks Department, in order to provide for the maintenance and operation of the improvements.

# APPENDIX A – DISTRICT BOUNDARY MAP

The Assessment Diagrams for the District have previously been submitted to the Clerk of the City in the format required under the Act and are, by reference, made part of this Report. The boundary maps are available for inspection at the office of the City Clerk during normal business hours.

For general reference purposes, a one-page rendering of the District's Boundaries is presented herein.

# APPENDIX B — FY 2026/27 ASSESSMENT ROLL

Parcel identification, for each lot or parcel within the District, shall be the parcel as shown on the Placer County Assessor's map for the year in which this Report is prepared.

A listing of parcels to be assessed within this District, along with the proposed assessment amounts, may be submitted to the City Clerk, under a separate cover, and by reference is made part of this Report.

Non-assessable lots or parcels may include areas of public streets and other roadways (typically not assigned an APN by the County); dedicated public easements, open space areas and rights-of-way, including public greenbelts and parkways; utility rights-of-way; small parcels vacated by the County, bifurcated lots, and other property that cannot be developed, excepting common area parcels. These types of parcels are considered to receive little or no benefit from the improvements and are therefore exempt from assessment.

At the conclusion of the public hearing for the District and the proposed assessments, approval of the Report (as submitted or as modified) confirms the method of apportionment and the assessment rate to be levied against each eligible parcel and thereby constitutes the approved levy and collection of assessments for FY 2026/27. The listing of parcels and the amount of assessment to be levied shall be submitted to the County Auditor/Controller and included on the FY 2026/27 property tax roll for each parcel.

If any parcel submitted for collection is identified by the County Auditor/Controller to be an invalid parcel number for the current fiscal year, a corrected parcel number and/or new parcel numbers will be identified and resubmitted to the County Auditor/Controller. The assessment amount to be levied and collected for the resubmitted parcel or parcels shall be based on the method of apportionment and assessment rate approved in this Report. Therefore, if a single parcel has changed to multiple parcels, the assessment amount applied to each of the new parcels shall be recalculated and applied according to the approved method of apportionment and assessment rate rather than a proportionate share of the original assessment.

**RESOLUTION NO. 26-131**

**A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, INITIATING PROCEEDINGS FOR THE LEVY OF ASSESSMENTS FOR THE NORTH CENTRAL ROSEVILLE SPECIFIC PLAN LANDSCAPING AND LIGHTING DISTRICT, FISCAL YEAR 2026/2027, PURSUANT TO THE PROVISIONS OF PART 2 OF DIVISION 15 OF THE CALIFORNIA STREETS AND HIGHWAYS CODE**

The City Council of the City of Roseville, California (hereafter referred to as the "City Council") does resolve as follows:

**WHEREAS,** the City Council has, by previous resolutions, formed the North Central Roseville Specific Plan Landscaping and Lighting District and annexed territory therein (hereafter referred to as the "District") pursuant to the provisions of the *Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the Streets and Highways Code of California, beginning with Section 22500* (hereafter referred to as the "Act"), which provides for the levy and collection of assessments by the County of Placer for the City of Roseville to pay for the maintenance and services of street lighting, landscaping, and all appurtenant facilities and operations related thereto; and

**WHEREAS,** the City Council has retained Willdan Financial Services (hereafter "Engineer") for the purpose of assisting with the establishment of the assessments, the annexation of territory, and the preparation and filing of an Engineer's Annual Levy Report (hereafter referred to as the "Engineer's Report") with the City Clerk in accordance with the Act, and the California Constitution, Articles XIIIC and XIIID;

**NOW, THEREFORE, BE IT RESOLVED, DETERMINED, AND ORDERED BY THE CITY COUNCIL FOR THE NORTH CENTRAL ROSEVILLE SPECIFIC PLAN LANDSCAPING AND LIGHTING DISTRICT, AS FOLLOWS:**

**Section 1** Engineer's Report: The City Council hereby orders the Engineer to prepare and file with the City Clerk the Engineer's Report concerning the levy of assessments for the District in accordance with *Chapter 3, Section 22622* of the Act.

**Section 2** Proposed improvements and any substantial changes in existing improvements: The District improvements include: the maintenance and operation of and the furnishing of services, materials and/or improvements for certain areas, including landscape, lighting, park, open space, parkway, slope and median areas together with trees, shrubs, turf and other ornamental vegetation, drainage and irrigation systems, recreation equipment, bike paths, pedestrian trails, walls and fences, and other public improvements within the street right-of-way areas and other appurtenant facilities as further described in the Engineer's Report. The Engineer's Report also describes all new improvements or substantial changes in existing improvements.

**RESOLUTION NO.26-132**

**A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, DECLARING ITS INTENTION TO LEVY ANNUAL ASSESSMENTS FOR THE NORTH CENTRAL ROSEVILLE SPECIFIC PLAN LANDSCAPING AND LIGHTING DISTRICT, FISCAL YEAR 2026/2027**

The City Council of the City of Roseville, California (hereafter referred to as the "City Council") does resolve as follows:

**WHEREAS,** the City Council has, by previous resolutions, formed the North Central Roseville Specific Plan Landscaping and Lighting District (hereafter referred to as the "District"), and initiated proceedings for Fiscal Year 2026/2027, pursuant to the provisions of the *Landscaping and Lighting Act of 1972*, *Part 2 of Division 15 of the Streets and Highways Code of California*, *beginning with Section 22500* (hereafter referred to as the "Act"), which provides for the levy and collection of assessments by the County of Placer for the City of Roseville to pay for the maintenance, operation and servicing of all improvements and facilities related thereto; and,

**WHEREAS,** the City Council has retained Willdan Financial Services for the purpose of assisting with the Annual Levy of the District and the preparation and filing of a report (hereinafter referred to as the "Engineer's Report") with the City Clerk in accordance with the Act; and

**NOW, THEREFORE, BE IT RESOLVED, DETERMINED, AND ORDERED BY THE CITY COUNCIL FOR THE NORTH CENTRAL ROSEVILLE SPECIFIC PLAN LANDSCAPING AND LIGHTING DISTRICT, PURSUANT TO *CHAPTER 3, SECTION 22624* OF THE ACT, AS FOLLOWS:**

**Section 1** Intention: The City Council hereby declares that it is its intention to seek the Annual Levy of the District pursuant to the Act, over and including the land within the District boundary, and to levy and collect assessments on all such land to pay for the annual costs of the improvements.

**Section 2** Proposed improvements and any substantial changes in existing improvements: The District improvements include: the maintenance and operation of and the furnishing of services, materials or improvements for certain areas, including landscape, lighting, park, open space, parkway, slope and median areas together with trees, shrubs, turf and other ornamental vegetation, drainage and irrigation systems, recreation equipment, bike paths, pedestrian trails, walls and fences, and other public improvements within the street right-of-way areas and other appurtenant facilities as further described in the Engineer's Report. The Engineer's Report also describes all new improvements or substantial changes in existing improvements.

**Section 3** Boundaries and Designation: The boundaries of the District as previously defined in the formation documents of the original District and any annexations thereto. The District generally includes the parcels within the area known as the North Central Roseville Specific Plan. The District is known and designated as

**"North Central Roseville Specific Plan Landscaping and Lighting District"**

**Section 4** Proposed Assessment Amounts: The proposed assessments are outlined in the Engineer's Report. District Assessments are calculated in accordance with the method of apportionment established for the District and do not exceed the assessment rates and annual inflationary adjustment previously authorized by the City Council and approved by the property owners in accordance with the provisions of the California State Constitution, Article XIIID.

**Section 5** Public Hearing: The City Council hereby declares its intention to conduct a Public Hearing annually concerning the levy of assessments for the District in accordance with *Chapter 3, Section 22626* of the Act.

**Section 6** Notice: The City Clerk shall give notice of the time and place of the Public Hearing by causing this resolution to be published once in the local newspaper not less than ten (10) days before the date of the hearing and by posting a copy of this resolution on the official bulletin board customarily used by the City Council for the posting of notices.

**Section 7** Time and Place of Public Hearing: Notice is hereby given that a Public Hearing on these matters will be held by the City Council on **Wednesday, June 3, 2026 at 6:00 p.m.**, or as soon thereafter as feasible in the regular meeting chambers located at 311 Vernon Street, Roseville, California.

**RESOLUTION NO. 26-133**

**A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, FOR PRELIMINARY APPROVAL OF THE ENGINEER'S ANNUAL LEVY REPORT FOR THE NORTH CENTRAL ROSEVILLE SPECIFIC PLAN LANDSCAPING AND LIGHTING DISTRICT, FISCAL YEAR 2026/2027**

The City Council of the City of Roseville, California (hereafter referred to as the "City Council") does resolve as follows:

**WHEREAS,** the City Council has, by previous Resolutions, ordered the preparation of an Engineer's Annual Levy Report (hereafter referred to as the "Engineer's Report") for the district known and designated as the North Central Roseville Specific Plan Landscaping and Lighting District (hereafter referred to as the "District"), pursuant to the provisions of the *Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the Streets and Highways Code of California*, *beginning with Section 22500* (hereinafter referred to as the "Act"); and,

**WHEREAS**, the City Council has retained Willdan Financial Services (hereinafter "Engineer"), for the purpose of assisting with the establishment of the assessments and the preparation and filing of an Engineer's Report with the City Clerk in accordance with the Act and the requirements of the California Constitution, Articles XIIIC and XIIID; and

**WHEREAS,** there has now been presented to this City Council the Engineer's Report as required by *Chapter 1, Article 4, Section 22566* of said Act; and

**WHEREAS,** this City Council has carefully examined and reviewed the Engineer's Report as presented, and is preliminarily satisfied with the District and with each of the budget items and documents set forth therein, and further finds that the assessments, on a preliminary basis, have been spread in accordance with the benefits received from the improvements, operation, maintenance, and services to be performed within each Zone, as set forth in said Engineer's Report; and

**NOW, THEREFORE, BE IT RESOLVED, DETERMINED, AND ORDERED BY THE CITY COUNCIL FOR THE NORTH CENTRAL ROSEVILLE SPECIFIC PLAN LANDSCAPING AND LIGHTING DISTRICT, AS FOLLOWS:**

**Section 1** That the above recitals are all true and correct.

**Section 2** That the Engineer's Report, as presented, consists of the following:

a. A Description of Improvements
b. The Annual Budget (Costs and Expenses of Maintenance, Services, Operations and District Administration)
c. The Assessment Roll containing the Fiscal Year 2026/2027 Levy for each Assessor Parcel within the District

**Section 3** The Engineer's Report is hereby approved on a preliminary basis and ordered to be filed in the Office of the City Clerk as a permanent record and to remain open to public inspection.

**Section 4** That the City Clerk shall certify to the passage and adoption of this Resolution, and the minutes of this meeting shall reflect the presentation of the Engineer's Report.

# I. OVERVIEW

## A. INTRODUCTION

The City of Roseville ("City") annually levies and collects special assessments in order to maintain the improvements within the existing North Central Roseville Specific Plan Landscaping and Lighting District ("District") within the City. The District, which was formed in 1990, is levied annual assessments pursuant to the Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the California Streets and Highways Code (the "Act").

This Engineer's Annual Levy Report for Fiscal Year 2026/27 ("Report") describes the District, any annexations, changes to the District, and the proposed assessments for the period of July 1, 2026 through June 30, 2027. The maintenance, operation and servicing of the improvements associated with specific areas of the City that provide a special benefit to the properties in that area are identified as Zones. The costs of the improvements and services are identified and budgeted separately for each Zone and each parcel within a Zone is assessed proportionately for only those improvements and services that are a direct and special benefit to the properties within the Zone. The budgets and assessments are based on the estimated cost (considering historical costs) to maintain the District improvements that provide a direct and special benefit to properties within the District.

The District consists of four landscaping benefit Zones:

- District Wide Benefit Zone
- Local Benefit Zone
- Zone F
- Zone G

In 2003, the City initiated and conducted property owner protest ballot proceedings, in accordance with the Act and Proposition 218, for the territory now known as Zones F and G. After the results of the balloting were tabulated, the City determined that a majority protest did not exist. The City then approved the annexation of Zones F and G, the maximum assessment rates, and annual inflationary adjustment factor.

In 2004, the City initiated and conducted property owner protest ballot proceedings, in accordance with the Act and Proposition 218, to reengineer Zones A, B, C, D and E and approve the maximum assessment rates and annual inflationary adjustment factor. After the results of the ballots were tabulated, the City determined that a majority protest did not exist. The City then approved the Engineer's Annual Levy Report for Fiscal Year ("FY") 2004/05, which reconstituted the reengineered zones into the respective District Wide Benefit Zone or Local Benefit Zone.

Zones A, B, C, D and E were reengineered in order to more accurately identify the Zones and areas of special benefit within this portion of the District. These zones were combined into two new Zones based primarily on level of service, similarity of improvement types, and the proximity to improvements.

The word "parcel," for the purposes of this Report, refers to an individual property assigned its own Assessor's Parcel Number ("APN") by the Placer County Assessor's Office. The Placer County Auditor/Controller uses Assessor's Parcel Numbers and specific Tax Code Accounts, to identify on the County's tax roll, properties assessed for special district benefit assessments.

Following approval of the Report, the City Council will by resolution, order the improvements to be made, if any, and confirm the levy and collection of assessments pursuant to the Act. The assessment rates and method of apportionment described in this Report as approved or modified by the City Council define the assessments to be applied to each parcel within the District and respective Zones for FY 2026/27. The assessments as approved will be submitted to the Placer County Auditor/Controller to be included on the FY 2026/27 property tax roll for each parcel.

If any parcel submitted for collection is identified by the County Auditor/Controller to be an invalid parcel number for the current fiscal year, a corrected parcel number and/or new parcel numbers will be identified and resubmitted to the County Auditor/Controller. The assessment amount to be levied and collected for the resubmitted parcel or parcels shall be based on the method of apportionment and assessment rates approved by the City Council.

## B. COMPLIANCE WITH CURRENT LEGISLATION

All assessments described in this Report and approved by the City Council are prepared in accordance with the Act and are in compliance with the substantive and procedural requirements of the California State Constitution Articles XIIIC and XIIID ("Articles XIIIC and XIIID") and the provisions of the Proposition 218 Omnibus Implementation Act [Government Code Section 53750 and following] (the "Implementation Act"). Articles XIIIC and XIIID and the Implementation Act collectively are hereinafter referred to as "Proposition 218".

In compliance with the provisions of Proposition 218, property owner ballot proceedings have been conducted for all Zones within the District; such proceedings approved and confirmed the Maximum Assessments and the Inflationary Adjustment Factor as described in this Report.

The District and all Zones therein have been formed pursuant to the Act. Pursuant to the Act, an annual Public Hearing is conducted by the City Council to accept property owner and public comments, to review the Engineer's Annual Levy Report prior to approving the annual assessments to be levied on the County tax rolls.

## C. DESCRIPTION OF DISTRICT BOUNDARIES

The District is located north of downtown Roseville between Interstate 80 and Washington Boulevard and generally encompasses the area within the North Central Roseville Specific Plan ("NCRSP") and two small residential developments in close proximity to the NCRSP near the corner of Diamond Oaks Road and Washington Boulevard. See Appendix A for District boundary map.

**District Wide Zone** This Zone includes all assessable property within the District with the exception of Zone F and Zone G.

**Local Benefit Zone** This Zone includes all single-family residential property within the District with the exception of Zone F and Zone G.

**Zone F** This Zone, which comprises the Diamond Oaks Unit No. 10 development, was created on January 8, 2003 through Resolution 03-2 and was first levied in FY 2003/04. Zone F was comprised of Assessor Parcel Number ("APN") 015-020-040 prior to being subdivided into 39 residential lots.

**Zone G** This Zone, which comprises the Diamond Oaks Unit No. 14 development, was created on May 28, 2003 through Resolution 03-220 and was first levied in FY 2003/04. Zone G was comprised of APNs 017-041-034 & 015-020-006 prior to being subdivided into 79 residential lots.

## D. IMPROVEMENTS AUTHORIZED BY THE 1972 ACT

As applicable or may be applicable to a proposed District, the Act defines improvements to mean one or any combination of the following:

- The installation or planting of landscaping.
- The installation or construction of statuary, fountains, and other ornamental structures and facilities.
- The installation or construction of public lighting facilities.
- The installation or construction of any facilities which are appurtenant to any of the foregoing or which are necessary or convenient for the maintenance or servicing thereof, including, but not limited to, grading, clearing, removal of debris, the installation or construction of curbs, gutters, walls, sidewalks, or paving, or water, irrigation, drainage, or electrical facilities.
- The maintenance or servicing, or both, of any of the foregoing.
- The acquisition of any existing improvement otherwise authorized pursuant to this section.

Incidental expenses associated with the improvements including, but not limited to:

- The cost of preparation of the report, including plans, specifications, estimates, diagram, and assessment;
- The costs of printing, advertising, and the publishing, posting, and mailing of notices;
- Compensation payable to the County for collection of assessments;
- Compensation of any engineer or attorney employed to render services;
- Any other expenses incidental to the construction, installation, or maintenance and servicing of the improvements;
- Any expenses incidental to the issuance of bonds or notes pursuant to Section 22662.5.
- Costs associated with any elections held for the approval of a new or increased assessment.

The 1972 Act defines "Maintain" or "maintenance" to mean furnishing of services and materials for the ordinary and usual maintenance, operation, and servicing of any improvement, including:

- Repair, removal, or replacement of all or any part of any improvement.
- Providing for the life, growth, health, and beauty of landscaping, including cultivation, irrigation, trimming, spraying, fertilizing, or treating for disease or injury.
- The removal of trimmings, rubbish, debris, and other solid waste.
- The cleaning, sandblasting, and painting of walls and other improvements to remove or cover graffiti.

Furthermore, the 1972 Act specifies that where the cost of improvements (other than maintenance and operations) is greater than can be conveniently raised from a single annual assessment, an assessment is to be levied and collected in annual installments. In that event, the governing body may choose to do any of the following:

- Provide for the accumulation of the moneys in an improvement fund until there are sufficient moneys to pay all or part of the cost of the improvements.
- Provide for a temporary advance to the improvement fund from any available and unencumbered funds of the local agency to pay all or part of the cost of the improvements and collect those advanced moneys from the annual installments collected through the assessments.
- Borrow an amount necessary to finance the estimated cost of the proposed improvements. The amount borrowed, including amounts for bonds issued to finance the estimated cost of the proposed improvements.

## E. DESCRIPTION OF THE IMPROVEMENTS AND MAINTENANCE

The District provides and ensures the continued maintenance, servicing, administration and operation of various landscaping and lighting improvements, and associated appurtenances that benefit parcels within the District. Services provided include all necessary service, operations, administration, and maintenance required to keep the improvements in a healthy, vigorous, and satisfactory condition.

Specific improvements include all ground cover, turf, shrubs, trees, gardens, play areas and play equipment, picnic areas, bike paths, pedestrian trails, walls and fences, park maintenance facilities, irrigation and drainage systems, graffiti removal, and associated appurtenances. Improvements in each Zone include:

**District Wide Zone** This Zone provides for the maintenance of landscaping, fences, sound walls and other improvements within the arterial parkway right of ways, also described as scenic corridors, including but not limited to Roseville Parkway, Pleasant Grove Boulevard, Harding Boulevard and the east side of Washington Boulevard, pedestrian, and bike pathways.

**Local Benefit Zone** This Zone provides for the maintenance of landscaping and other improvements within the local street right of ways. This Zone is primarily a combination of the old Zone C and Zone D, which provided similar maintenance.

**Zone F** This Zone provides for the maintenance of parkway and perimeter landscaping and block wall adjacent to the development on the west side of Diamond Oaks Road; Parkway and perimeter landscaping, bike trails, block wall and wood fence adjacent to the development on the east side of Washington Boulevard; Open Space designated as Lot “B”, and; Landscaping within Lot “C”, “E” and “F” within the Diamond Oaks Unit No. 10 project.

**Zone G** This Zone provides for the maintenance of parkway and perimeter landscaping, bike path and masonry sound wall adjacent to the development on the south side of Pleasant Grove Boulevard; maintenance of parkway and perimeter landscaping, bike path and masonry sound wall adjacent to the development on the west side of Washington Boulevard from Pleasant Grove Boulevard to Emerald Oak Road; maintenance of the masonry sound wall on the western perimeter of the development; installation and maintenance of perimeter landscaping on the west side of the development located on Open Space Parcel C between

Emerald Oak Road and the masonry sound wall adjacent to the railroad right of way; and maintenance of Open Space, cobble swale (Lot “B”) and post and cable fencing for Lots “A”, “B”, and “C” within the Diamond Oaks Unit No. 14 project.

All assessable parcels identified as being within each Zone share in both the cost and the benefits of the improvements. The costs associated with the improvements are equitably spread among all benefiting parcels within each Zone. Only parcels that receive direct and special benefit from the improvements are assessed, and each parcel is assessed in proportion to the estimated benefit received. The funds collected from the assessments of each Zone are to be expended only for the services and operations within each respective Zone.

# II. METHOD OF APPORTIONMENT

## A. GENERAL

The Act permits the establishment of assessment districts by agencies for the purpose of providing certain public improvements which include the construction, maintenance and servicing of public lights, landscaping, and appurtenant facilities. The Act further requires that the cost of these improvements be levied according to benefit rather than assessed value:

> *"The net amount to be assessed upon lands within an assessment district may be apportioned by any formula or method which fairly distributes the net amount among all assessable lots or parcels in proportion to the estimated benefits to be received by each such lot or parcel from the improvements."*

The formula used for calculating assessments in each Zone of the District therefore reflects the composition of the parcels, and the improvements and services provided, to fairly apportion the costs based on estimated benefit to each parcel.

## B. SPECIAL BENEFIT ANALYSIS

In conjunction with the provisions of the 1972 Act, the California Constitution Article XIIID addresses several key criteria for the levy of assessments, notably:

Article XIIID Section 2(d) defines District as follows:

"District means an area determined by an agency to contain all parcels which will receive a special benefit from a proposed public improvement or property-related service;"

Article XIIID Section 2(i) defines Special Benefit as follows:

"Special benefit" means a particular and distinct benefit over and above general benefits conferred on real property located in the district or to the public at large. General enhancement of property value does not constitute "special benefit."

Article XIIID Section 4(a) defines proportional special benefit assessments as follows:

"An agency which proposes to levy an assessment shall identify all parcels which will have a special benefit conferred upon them and upon which an assessment will be imposed. The proportionate special benefit derived by each identified parcel shall be determined in relationship to the entirety of the capital cost of a public improvement, the maintenance and operation expenses of a public improvement, or the cost of the property related service being provided. No assessment shall be

imposed on any parcel which exceeds the reasonable cost of the proportional special benefit conferred on that parcel."

This District was formed to establish and provide for the improvements that enhance the presentation of the surrounding properties and developments. These improvements will directly benefit the parcels to be assessed within the District. The assessments and method of apportionment are based on the premise that the assessments will be used to construct and install landscape and lighting improvements within the District as well as provide for the annual maintenance of those improvements, and the assessment revenues generated by the District will be used solely for such purposes.

The City has initiated and conducted property owner protest ballot proceedings in accordance with the Act and Proposition 218 for all Zones within the District. Each of the proposed improvements; the associated costs and assessments have been carefully reviewed, identified, and allocated based on special benefit pursuant to the provisions of Article XIIID and the Act. All improvements associated with the Zones have been identified as necessary, required and/or desired for the orderly development of the properties to their full potential. As such, these improvements would be necessary and required of individual property owners for the development of such properties and the ongoing operation, servicing and maintenance of these improvements would be the financial obligation of those properties. Therefore, the improvements and the annual costs of ensuring the maintenance and operation of the improvements are of direct and special benefit to the properties.

The method of apportionment (method of assessment) is based on the premise that each assessed parcel within these Zones receives special benefit from the improvements. The desirability and security of properties is enhanced by well-maintained landscaping in close proximity to those properties.

The special benefits associated with all landscaping improvements are specifically:

- Enhanced desirability of properties through association with the improvements.
- Improved aesthetic appeal of properties providing a positive representation of the area and properties.
- Enhanced adaptation of the urban environment within the natural environment from adequate green space and landscaping.
- Environmental enhancement through improved erosion resistance, dust and debris control, and fire prevention.
- Increased sense of pride in ownership of property within the Zones resulting from well-maintained improvements associated with the properties.
- Enhanced quality of life through well-maintained green belts and landscaped areas.

- Reduced criminal activity and property-related crimes (especially vandalism) against properties in the Zones through well-maintained surroundings and amenities including abatement of graffiti.
- Enhanced environmental quality of the parcels by moderating temperatures, providing oxygenation, and attenuating noise.

All of the preceding special benefits allow the property to be developed for the enjoyment of the property owners and contribute to a specific enhancement and desirability of each of the assessed parcels within the Zones.

The improvements are for the special benefit, enhancement, and use of properties within the Zones. Although the improvements include public easements, rights-of-way, streets, and other amenities available or visible to the public at large, the construction and installation of these improvements are only necessary for the development of properties within the Zones and are not required nor necessarily desired by any properties or developments outside the Zone's boundaries. Therefore, any public access or use of the improvements by others is incidental and there is no measurable general benefit to properties outside the Zones or to the public at large. In making this determination, it should be noted that all parkway and perimeter landscaping within the City are funded and maintained by a special district, individual property owners or through some type of association.

## C. DESCRIPTION OF THE METHOD OF APPORTIONMENT

Pursuant to the Act, the costs of each Zone may be apportioned by any formula or method that fairly distributes the net amount to be assessed, among all assessable parcels within the Zone in proportion to the estimated special benefits to be received by each such parcel from the improvements. The special benefit formula used for each Zone should reflect the composition of the parcels, and the improvements and services provided, to fairly proportion the Zone's costs based on estimated special benefit to each parcel within the Zone. All assessable parcels within each Zone shall receive a direct special benefit from the services and improvements provided by the Zone.

Considering the composition of the parcels within the Zone, each parcel is assigned an Equivalent Dwelling Unit ("EDU"), which reflects each parcel's estimated special benefit from the improvements as compared to other parcels within the Zone. Because all assessable parcels within each Zone are considered to benefit from the Zone improvements on an EDU basis, the amounts to levy to each Zone are then spread to each assessable parcel within the Zone on an EDU method as shown in the table below. Acreage of common area parcels shall be apportioned to the remaining assessable parcels of a subdivision and/or parcel split(s) related to the creation of the common area parcel(s).

The following formulas are used to calculate the assessment for each parcel:

| ASSIGNED EDU | PROPERTY CLASS |
|---|---|
| 1.0 per unit | Single-Family Residential Parcels |
| 0.6 per unit | Multi-Family Residential Parcels |
| 7.0 per acre | Non-Residential Parcels |

For each Zone, the Applied Assessment Rate per Equivalent Dwelling Unit for each parcel in the Zone is the result of dividing the total Balance to Levy for each Zone, by the sum of the Zone EDUs for the fiscal year. This Applied Assessment Rate is multiplied by each parcel's individual EDU to determine the parcel's levy amount. The assessment cannot be greater than the current maximum assessment rate, as adjusted for the inflation factor.

**Total Balance to Levy / Total EDU = Rate per EDU**

**Parcel EDU x Rate per EDU = Parcel Levy Amount**

## D. INFLATIONARY ADJUSTMENT FACTOR

Any new or increase in assessments require certain noticing and meeting requirements by law. Prior to the passage of Proposition 218, legislative changes in the Ralph M. Brown Act (the "Brown Act") defined a new or increased assessment to exclude certain conditions. These conditions include any assessment that does not exceed an assessment formula or range of assessments previously adopted by the agency or approved by the voters in the area where the assessment is imposed. This definition and conditions were later confirmed through Senate Bill 919 (the implementing legislation for Proposition 218).

The purpose of establishing an assessment range formula is to provide for reasonable increases and inflationary adjustment to annual assessments without requiring costly noticing and mailing procedures, which could add to the District costs and assessments. As part of the District formation, balloting of property owners is required, pursuant to Proposition 218. The property owner ballots included an Assessment to be approved, as well as the approval of an assessment range formula.

The assessment range formula shall be applied to all future assessments within the District. Generally, if the proposed annual assessment (levy per unit or rate) for the current fiscal year is less than or equals to the "Maximum Assessment" (or "Adjusted Maximum Assessment"), then the proposed annual assessment is not considered an increased assessment. The Maximum Assessment is equal to the initial Assessment approved by property owners adjusted annually by the following criteria:

1. Beginning in the second fiscal year and each fiscal year thereafter, the Maximum Assessment will be calculated.
2. The new Adjusted Maximum Assessment for the year represents the prior year's approved Maximum Assessment increased by three percent (3.0%).

The Maximum Assessment is adjusted annually and is calculated independent of the District's annual budget and proposed annual assessment. Any proposed annual assessment less than or equal to this Maximum Assessment is not considered an increased assessment, even if the proposed assessment is greater than the assessment applied in the prior fiscal year.

The approved base year maximum assessment rates and annual inflationary adjustment factors for all Zones are shown in the table below:

| Zone | Year of Approved Maximum Rate and Annual Inflator (Base Year) | Maximum Assessment Rate per EDU (Base Year) | Annual Inflationary Adjustment Factor |
|---|---|---|---|
| District-Wide Benefit Zone | FY 2004/05 | $40.82 | 3.00% |
| Local Benefit Zone | FY 2004/05 | $43.92 | 3.00% |
| Zone F | FY 2003/04 | $481.35 | 3.00% |
| Zone G | FY 2003/04 | $264.22 | 3.00% |

# III. DISTRICT BUDGET

## A. FY 2026/27 BUDGET

| DESCRIPTION | District-Wide Benefit Zone Fund 2010 | Local Benefit Zone Fund 2011 | ZONE F (Diamond Oaks No. 10) Fund 2012 | ZONE G (Diamond Oaks No. 14) Fund 2013 |
|---|---|---|---|---|
| **DIRECT COSTS** | | | | |
| Contract Maintenance - Landscaping | $203,445.60 | $75,346.56 | $16,166.88 | $4,375.44 |
| Repair & Maintenance - Landscaping | 86,993.80 | 43,260.00 | 2,781.00 | 1,096.95 |
| Repair and Maintenance - Parks | 0.00 | 0.00 | 0.00 | 0.00 |
| Repair & Maintenance - Lighting | 0.00 | 0.00 | 0.00 | 0.00 |
| Repair & Maintenance - Tree Work | 42,949.05 | 18,912.90 | 1,005.10 | 960.25 |
| Utilities | 183,069.70 | 19,978.20 | 4,662.90 | 4,500.00 |
| Maintenance - Bike Trails (3380-4801-10001) | 0.00 | 616.30 | 4,152.36 | 2,823.61 |
| Maintenance - Open Space (2521-4801-10001) | 0.00 | n/a | 2,771.16 | 5,059.43 |
| Rehab Reserve Expenditures - Non-Routine Tree Work | 14,559.00 | 14,559.00 | 1,213.25 | 1,577.80 |
| Rehab Reserve Project Expenditures | 75,200.00 | 30,600.00 | 11,600.00 | 2,800.00 |
| **Total Direct Costs** | **$606,217.15** | **$203,272.96** | **$44,352.65** | **$23,193.48** |
| **ADMINISTRATION COSTS** | | | | |
| City Administration | $11,455.00 | $3,489.00 | $556.00 | $223.00 |
| Contract Admin- Park's Dept | 32,500.00 | 9,500.00 | 1,708.00 | 1,606.00 |
| Contract Administration - Open Space | n/a | n/a | 0.00 | 0.00 |
| County Auditor Fees | 5,872.65 | 1,778.20 | 370.49 | 258.30 |
| Consulting & Professional Services | 7,771.00 | 2,367.00 | 374.00 | 150.00 |
| Public Hearing Publishing Costs | 311.00 | 95.00 | 16.00 | 7.00 |
| **Total Administrative Costs** | **$57,909.65** | **$17,229.20** | **$3,024.49** | **$2,244.30** |
| **Total Direct and Administration Costs** | **$664,126.80** | **$220,502.16** | **$47,377.14** | **$25,437.78** |
| **BUDGET ADJUSTMENTS** | | | | |
| Replenishment/(Use) of Operating Reserve | $12,897.40 | $2,476.78 | $2,485.56 | $4,770.65 |
| Contribution for /(Use of) Rehab Reserve | (89,759.00) | (45,159.00) | (12,813.25) | (4,377.80) |
| Rounding Adjustment | (34.26) | (15.21) | (0.23) | (0.79) |
| **Total Adjustments** | **($76,895.86)** | **($42,697.43)** | **($10,327.92)** | **$392.06** |
| **BALANCE TO LEVY** | **587,230.94** | **$177,804.72** | **$37,049.22** | **$25,829.84** |

Fund balance information of each Zone is reported in Section C on the following page. Total balance to levy for the District is $827,914.72.

## B. FY 2026/27 ASSESSMENT RATES

| DESCRIPTION | District-Wide Benefit Zone Fund 2010 | Local Benefit Zone Fund 2011 | ZONE F (Diamond Oaks No. 10) Fund 2012 | ZONE G (Diamond Oaks No. 14) Fund 2013 |
|---|---|---|---|---|
| **FY 2026/27 ASSESSMENT DATA** | | | | |
| Total Assessable Parcels [1] | 3,387 | 2,112 | 39 | 79 |
| Total Assessable Single Family Units [1] | 2,113 | 2,113 | 39 | 79 |
| Total Assessable Multi-Family Units | 2,348 | 0 | 0 | 0 |
| Total Assessable Non-Residential Acres | 569.5023 | 0 | 0 | 0 |
| Total Equivalent Dwelling Units ("EDUs") [1] | 7,508.3162 | 2,113 | 39 | 79 |
| **Applied Assessment Rates Per EDU [2]** | **$78.2107** | **$84.1480** | **$949.98** | **$326.96** |
| Maximum Assessment Rates per EDU | $78.2153 | $84.1552 | $949.99 | $521.46 |
| **Potential Maximum Assessment per Zone** | **$587,265.22** | **$177,819.94** | **$37,049.44** | **$41,195.41** |

(1) Since each single family residential parcel lies within both the District-Wide Benefit Zone and the Local Benefit Zone, the number of single family EDUs, units and parcels within these zones are not combined in the District totals.
(2) Actual assessment rates may differ slightly due to County rounding requirements.

## C. FY 2026/27 FUND BALANCE INFORMATION

| DESCRIPTION | District-Wide Benefit Zone Fund 2010 | Local Benefit Zone Fund 2011 | ZONE F (Diamond Oaks No. 10) Fund 2012 | ZONE G (Diamond Oaks No. 14) Fund 2013 |
|---|---|---|---|---|
| OPERATING RESERVE | | | | |
| **Beginning Operating Reserve Balance 7-1-2026 (est.)** | **$328,631.08** | **$111,616.80** | **20,354.88** | **$6,826.09** |
| add: Replenishment from FY 2026/27 Levy | 12,897.40 | 2,476.78 | 2,485.56 | 4,770.65 |
| less: Use for FY 2026/27 Expenses | | | | |
| Transfer from/(to) the Rehab Reserve | (38,419.90) | (12,457.10) | (664.12) | 0.00 |
| **Ending Operating Reserve Balance 6-30-2027 (est.)** | **$303,108.58** | **$101,636.48** | **$22,176.32** | **$11,596.74** |
| REHABILITATION RESERVE | | | | |
| **Beginning Rehab Reserve Balance 7-1-2026 (est.)** | **$219,327.92** | **$67,569.20** | **$21,819.12** | **$57,789.91** |
| add: Collect from FY 2026/27 Levy | | | | |
| less: Use for FY 2026/27 Rehab Projects | (89,759.00) | (45,159.00) | (12,813.25) | (4,377.80) |
| Transfer from/(to) the Operating Reserve | 38,419.90 | 12,457.10 | 664.12 | 0.00 |
| **Ending Rehab Reserve Balance 6-30-2027 (est.)** | **$167,988.82** | **$34,867.30** | **$9,669.99** | **$53,412.11** |

## D. DESCRIPTION OF BUDGET ITEMS

Description of the terms used in the preceding Budget, Assessment Rates and Fund Balance tables are listed below:

# BUDGET:

### DIRECT COSTS

**Contract Maintenance – Landscaping** – Includes all regularly scheduled contract labor, materials, supplies, and equipment required to properly maintain and ensure the satisfactory condition or maintenance of all landscaping improvements, irrigation, and related drainage systems, as well as maintenance of appurtenant facilities (the “improvements”).

**Repair & Maintenance – Landscaping** – Projected costs for repairs and/or maintenance of landscaping improvements. This would include work and materials not covered under contract maintenance.

**Repair & Maintenance – Parks -** Projected costs for repairs and/or maintenance of park improvements. This would include work and materials not covered under contract maintenance such as repair of damaged amenities due to vandalism, storms, etc.

**Repair & Maintenance – Lighting** – This line item includes repairs that are generally unforeseen and not normally included in the annual maintenance contract costs. If zero, this line item may not be shown in the budget.

**Repair & Maintenance – Tree Work** – This line item includes annual costs for tree maintenance not included in the annual contract maintenance portion of the budget. If zero, this line item may not be shown in the budget.

**Utilities** – The furnishing of water and electricity required for the operation and maintenance of the improvements.

**Maintenance – Bike Trails** – Costs to perform the necessary maintenance of the bike trails within the District. If zero, this line item may not be shown in the budget.

**Maintenance – Open Space** – Costs to perform the necessary maintenance of the open space areas within the District. If zero, this line item may not be shown in the budget.

**Rehab Reserve Expenditures – Non-Routine Tree Work** – Expected costs to maintain trees other than costs of annual repair and maintenance. If zero, this line item may not be shown in the budget.

**Rehab Reserve Project Expenditures** – Expected costs for installation, replacement, or planned upgrades of District improvements for the current year that were previously funded or accumulated in the Rehabilitation Reserve. The Rehabilitation Reserve is used to accumulate funds for costs associated with the future rehabilitation or replacement of District improvements that cannot be conveniently raised from a single year's assessment. If zero, this line item may not be shown in the budget.

**ADMINISTRATION COSTS**

**City Administration** – Estimated costs incurred by the City Finance Department and other departments in preparing the annual budget for the Engineer's Report, together with other financial information required to determine the annual assessment. These costs would also include the preparation, posting and publishing of public notices required for City Council action relating to the District, as well as costs to perform legal review of documents.

**Contract Administration – Parks Dept** – Estimated Costs of the Parks, Recreation and Libraries Department ("Parks Department") to coordinate and oversee the maintenance contracts and overall repair and maintenance of the District. This amount also includes the cost of the Parks Department's estimates and analysis of certain budget items, estimated costs and useful lives of certain District Improvements.

**Contract Administration – Open Space** – Estimated costs of City staff to coordinate and oversee the maintenance contracts and non-contract maintenance of the open space areas of the District. This amount also includes the cost of the Parks Department's estimates and analysis of certain budget items. If zero, this line item may not be shown in the budget.

**County Auditor Fees** – A fee of 1% of the total levy amount that is charged to the District by the County for placing assessments on property tax bills.

**Consulting and Professional Services** – Includes the costs and expenses of contracting with various professionals to provide legal, engineering and district administration services directly related to the District, including the calculation of the annual assessment amounts and the preparation of the Engineer's' Report.

**Public Hearing Publishing Costs** – Includes the out-of-pocket costs to publish public notices required for City Council action relating to the District.

**Total Direct and Administration Costs** – The total expected costs of the District.

**BUDGET ADJUSTMENTS**

**Replenishment/(Use) of Operating Reserve** – A "Replenishment" increases the levy in order to replenish the Operating Reserve. On the other hand, a "Use" of the Operating Reserve decreases the levy by drawing funds from the Operating Reserve for current year expenditures. If zero, this line item may not be shown in the budget. Further information regarding the function of the Operating Reserve is provided under "FUND BALANCE INFORMATION" in the following pages of this Section.

**Contribution for / (Use of) Rehab Reserve** – A "Contribution" increases the levy in order to generate funding for the Rehabilitation Reserve. This reserve allows for the accumulation of funds for possible rehabilitation projects or replacements in future years. On the other hand, a "Use of" of the Rehabilitation Reserve provides current year funding of rehabilitation projects or replacements from available funds within the Rehabilitation Reserve. If zero, this line item may not be shown in the budget. Further information regarding the function of the Rehabilitation Reserve is provided under "FUND BALANCE INFORMATION" in the following pages of this Section.

**Rounding Adjustment** – The necessary rounding adjustment(s) due to limitations of the County property tax system that requires even penny levy amounts to be placed on the secured tax roll.

**BALANCE TO LEVY** – This is the total amount to be levied and collected in the District through assessments for the current fiscal year. The Balance to Levy represents the sum of the total District costs together with any applicable adjustments to the budget as described above.

## ASSESSMENT RATES:

**Total Assessable Single-Family Units** – The total number of assessable single-family units within the District for the current fiscal year. Since each single-family

residential parcel is in both the District-Wide Benefit Zone and the Local Benefit Zone, the single-family EDUs are only added once to arrive at the "Total Equivalent Dwelling Units"

**Total Assessable Multi-Family Units** – The total number of assessable multi-family units within the District for the current fiscal year.

**Total Assessable Non-Residential Acres** – The total assessable non-residential acres within the District for the current fiscal year.

**Total Equivalent Dwelling Units ("EDUs")** – Total assessable EDUs within the District for the current fiscal year.

**Applied Assessment Rates per EDU** – The assessment rates per EDU to be applied to the non-exempt parcels within the applicable Zone for the current fiscal year.

**Maximum Assessment Rates per EDU** – The maximum assessment rates per EDU for the parcels within the applicable Zone for the current fiscal year.

**Potential Maximum Assessment Per Zone** – The total amount that can be assessed against all parcels within each Zone for the current fiscal year based upon the expected number of parcels to be assessed.

## FUND BALANCE INFORMATION:

### OPERATING RESERVE

**Beginning Operating Reserve Balance 7-1-2026** – The District's anticipated beginning balance of cash and receivables net of any unpaid prior year obligations. These beginning balances shall be used to fund the District's expenditures from July 1, 2026 to December 31, 2026, as the Operating Reserve is required to compensate for the approximate six-month delay between the start of the District's fiscal year and the receipt of the collections from the County. All Rehabilitation Reserve balances, if any, are excluded from the Operating Reserve balances and shall be shown separately in the Report.

**Replenish from FY 2026/27 Levy** – This amount is added to the FY 2026/27 levy in order to replenish the Operating Reserve. Due to the six-month delay from the District's receipt of assessment collections, the Operating Reserve balance shall be sufficiently funded to provide for expenditures from July 1, 2026 (the beginning of the Fiscal Year) through December 31, 2026. If zero, this line item may not be shown in the budget.

**Use for FY 2026/27 Expenses** – The amount of the Operating Reserve to be used to fund FY 2026/27 expenses. Portions of the Operating Reserve may be slated

for current year expenditures in order to reduce the Ending Operating Reserve Balance to an amount no greater than the expected District costs for the period of July 1, 2026 (the beginning of the Fiscal Year) through December 31, 2026. If zero, this line item may not be shown in the budget.

**Transfer from/(to) the Rehab Reserve** – The amount of Operating Reserve monies to be transferred to or from the Rehabilitation Reserve. Periodically, funds held in a Rehabilitation Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Rehabilitation Reserve are subject to transfer into the Operating Reserve, at the discretion of the Parks Department, in order to provide for the maintenance and operation of the improvements. If zero, this line item may not be shown in the budget.

**Ending Operating Reserve Balance 6-30-2027 (est.)** – This amount represents the anticipated Operating Reserve balance/(deficit) for each Zone as of June 30, 2027. The size of each Zone's Operating Reserve is limited by Streets and Highways Code 22569 which states that an Operating Reserve shall not exceed the estimated costs of maintenance, service and incidental expenses from the first day of the fiscal year (July 1) to the date that the Agency expects to receive the first apportionment of collections from the County, which is estimated to be December 31. Therefore, each Zone may retain an Operating Reserve amounting to the District's first six-months of expenses in order to meet ongoing obligations until the first collections are received from the County. All Rehabilitation Reserve balances, if any, are excluded from the Operating Reserve balances and shall be shown separately in the Report.

**REHABILITATION RESERVE**

**Beginning Rehab Reserve Balance 7-1-2026** — The projected balance of funds in the Rehabilitation Reserve as of July 1, 2026. Streets and Highways Code 22660 allows the District to generate and accumulate funds over several years to fund District improvements that cannot be conveniently raised from a single year's assessment.

**Collect from FY 2026/27 Levy** — This amount is added to the levy to accumulate funding of future year rehabilitation projects, replacements, restorations, or upgrades of District improvements. If zero, this line item may not be shown in the budget.

**Use for FY 2026/27 Rehab Projects** — The amount of Rehabilitation Reserve monies expected to be transferred out of the Rehabilitation Reserve to fund the costs of installation, replacement, or planned upgrades of District improvements for the current year. If zero, this line item may not be shown in the budget.

**Transfer from/(to) the Operating Reserve** — The amount of Rehabilitation Reserve monies to be transferred to or from the Operating Reserve. Periodically, funds held in a Rehabilitation Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Rehabilitation Reserve are subject to transfer into the Operating Reserve, at the discretion of the Parks Department, in order to provide for the maintenance and operation of the improvements. If zero, this line item may not be shown in the budget.

**Ending Rehab Reserve Balance 6-30-2027** — The projected balance of funds in the Rehabilitation Reserve as of June 30, 2027. These funds shall be used to provide for future year rehabilitation projects, replacements, restorations, or upgrades of District improvements which cannot be conveniently raised from a single year's assessment. Should the District have no Rehabilitation Reserve or related activity, the Rehabilitation Reserve information may not be presented in the Report.

## E. REHABILITATION RESERVE – CAPITAL IMPROVEMENT PLAN

*Streets and Highways Code 22660* allows the District to generate and accumulate funds over several years to fund District improvements that cannot be conveniently raised from a single year's assessment.

The Report provides a five-year Capital Improvement Plan ("CIP") which shows projected expenditures by Zone related to the rehabilitation, restoration and/or replacement of District improvements, and other allowable costs. The Current Fiscal Year CIP is shown in the preceding Budget Section A. The projected CIP costs for the remaining four years are shown in the table below.

### District Wide Zone

| Description | FY 2027/28 | FY 2028/29 | FY 2029/30 | FY 2030/31 | 4 Year Total |
|---|---|---|---|---|---|

## Zone G

| Description | FY 2027/28 | FY 2028/29 | FY 2029/30 | FY 2030/31 | 4 Year Total |
|---|---|---|---|---|---|
| Replace, repair, renovate and/or refurbish plants, landscape, irrigation & related mat'ls | $3,600 | $1,000 | $1,000 | $3,600 | $9,200 |
| Repair, replace and/or refurbish sound wall improvements | 4,000 | 25,000 | 4,000 | 4,000 | 37,000 |
| Non-routine tree work | 1,814 | 2,086 | 2,398 | 2,758 | 9,056 |
| **Total Projected Expenditures** | **$9,414** | **$28,086** | **$7,398** | **$10,358** | **$55,256** |

Periodically, funds held in a Rehabilitation Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Rehabilitation Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Parks Department, in order to provide for the maintenance and operation of the improvements.

# APPENDIX A – DISTRICT BOUNDARY MAP

The boundary map for the District has previously been submitted to the Clerk of the City in the format required under the Act and is, by reference, hereby made part of this Report. These District Boundary Maps are available for inspection at the office of the City Clerk during normal business hours.

For general reference purposes, a rendering of the District's Boundaries is presented herein.

# APPENDIX B — FY 2026/27 ASSESSMENT ROLL

Parcel identification, for each lot or parcel within the District, shall be the parcel as shown on the Placer County Assessor's map for the year in which this Report is prepared.

Due to the size of the Assessment Roll, a listing of parcels to be assessed within this District, along with the proposed assessment amounts, may be submitted to the City Clerk, under a separate cover, and by reference is made part of this Report.

Non-assessable lots or parcels may include areas of public streets and other roadways (typically not assigned an APN by the County); dedicated public easements, open space areas and rights-of-way, including public greenbelts and parkways; utility rights-of-way; small parcels vacated by the County, bifurcated lots, and other property that cannot be developed, excepting common area parcels. These types of parcels are considered to receive little or no benefit from the improvements and are therefore exempt from assessment.

At the conclusion of the public hearing for the District and the proposed assessments, approval of the Report (as submitted or as modified) confirms the method of apportionment and the assessment rate to be levied against each eligible parcel and thereby constitutes the approved levy and collection of assessments for FY 2026/27. The listing of parcels and the amount of assessment to be levied shall be submitted to the County Auditor/Controller and included on the FY 2026/27 property tax roll for each parcel.

If any parcel submitted for collection is identified by the County Auditor/Controller to be an invalid parcel number for the current fiscal year, a corrected parcel number and/or new parcel numbers will be identified and resubmitted to the County Auditor/Controller. The assessment amount to be levied and collected for the resubmitted parcel or parcels shall be based on the method of apportionment and assessment rate approved in this Report. Therefore, if a single parcel has changed to multiple parcels, the assessment amount applied to each of the new parcels shall be recalculated and applied according to the approved method of apportionment and assessment rate rather than a proportionate share of the original assessment.

**RESOLUTION NO. 26-134**

**A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, INITIATING PROCEEDINGS FOR THE ANNUAL LEVY OF ASSESSMENTS FOR THE NORTHWEST ROSEVILLE SPECIFIC PLAN LANDSCAPING AND LIGHTING DISTRICT, FISCAL YEAR 2026/2027, PURSUANT TO THE PROVISIONS OF PART 2 OF DIVISION 15 OF THE CALIFORNIA STREETS AND HIGHWAYS CODE**

The City Council of the City of Roseville, California (hereafter referred to as the "City Council") does resolve as follows:

**WHEREAS,** the City Council has, by previous Resolutions, formed the Northwest Roseville Specific Plan Landscaping and Lighting District and annexed territory therein (hereafter referred to as the "District") pursuant to the provisions of the *Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the Streets and Highways Code of California, beginning with Section 22500* (hereafter referred to as the "Act"), which provides for the levy and collection of assessments by the County of Placer for the City of Roseville to pay for the maintenance and services of street lighting, landscaping, and all appurtenant facilities and operations related thereto; and

**WHEREAS,** the City Council has retained Willdan Financial Services (hereafter "Engineer") for the purpose of assisting with the establishment of the assessments, the annexation of territory, and the preparation and filing of an Engineer's Annual Levy Report (hereafter referred to as the "Engineer's Report") with the City Clerk in accordance with the Act, and the California Constitution, Articles XIIIC and XIIID;

**NOW, THEREFORE, BE IT RESOLVED, DETERMINED, AND ORDERED BY THE CITY COUNCIL FOR THE NORTHWEST ROSEVILLE SPECIFIC PLAN LANDSCAPING AND LIGHTING DISTRICT, AS FOLLOWS:**

**Section 1** Engineer's Report: The City Council hereby orders the Engineer to prepare and file with the City Clerk the Engineer's Report concerning the levy of assessments for the District in accordance with Chapter 3, Section 22622 of the Act.

**Section 2** Proposed improvements and any substantial changes in existing improvements: The District improvements include: the maintenance and operation of and the furnishing of services, materials and/or improvements for landscape, lighting, open space, natural and preserve areas, including turf, ground cover, shrubs and trees, irrigation systems, drainage systems, public pedestrian paths, bike trails, entry monuments, fencing, walls, signage, lighting systems, and other public improvements within the street right-of-way areas and all appurtenant facilities related thereto as further described in the Engineer's Report. The Engineer's Report also describes all new improvements or substantial changes in existing improvements.

**RESOLUTION NO. 26-135**

**A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, DECLARING ITS INTENTION TO LEVY ANNUAL ASSESSMENTS FOR THE NORTHWEST ROSEVILLE SPECIFIC PLAN LANDSCAPING AND LIGHTING DISTRICT, FISCAL YEAR 2026/2027**

The City Council of the City of Roseville, California (hereafter referred to as the "City Council") does resolve as follows:

**WHEREAS,** the City Council has, by previous Resolutions, formed the Northwest Roseville Specific Plan Landscaping and Lighting District (hereafter referred to as the "District"), and initiated proceedings for Fiscal Year 2026/2027, pursuant to the provisions of the *Landscaping and Lighting Act of 1972*, *Part 2 of Division 15 of the Streets and Highways Code of California*, *beginning with Section 22500* (hereafter referred to as the "Act"), which provides for the levy and collection of assessments by the County of Placer for the City of Roseville to pay for the maintenance, operation and servicing of all improvements and facilities related thereto; and

**WHEREAS,** the City Council has retained Willdan Financial Services for the purpose of assisting with the Annual Levy of the District and the preparation and filing of a report (hereinafter referred to as the "Engineer's Report") with the City Clerk in accordance with the Act;

**NOW, THEREFORE, BE IT RESOLVED, DETERMINED, AND ORDERED BY THE CITY COUNCIL FOR THE NORTHWEST ROSEVILLE SPECIFIC PLAN LANDSCAPING AND LIGHTING DISTRICT, PURSUANT TO *CHAPTER 3, SECTION 22624* OF THE ACT, AS FOLLOWS:**

**Section 1** Intention: The City Council hereby declares that it is its intention to seek the Annual Levy of the District pursuant to the Act, over and including the land within the District boundary, and to levy and collect assessments on all such land to pay for the annual costs of the improvements.

**Section 2** Proposed improvements and any substantial changes in existing improvements: The District improvements include the maintenance and operation of and the furnishing of services, materials or improvements for landscape, lighting, open space, natural and preserve areas, including turf, ground cover, shrubs and trees, irrigation systems, drainage systems, public pedestrian paths, bike trails, entry monuments, fencing, walls, signage, lighting systems, and other public improvements within the street right-of-way areas and all appurtenant facilities related thereto as further described in the Engineer's Report. The Engineer's Report also describes all new improvements or substantial changes in existing improvements.

**Section 3** Boundaries and Designation: The boundaries of the District as previously defined in the formation documents of the original District and any annexations thereto. The District generally includes the parcels within the area known as the Northwest Roseville Specific Plan. The District is known and designated as

**"Northwest Roseville Specific Plan Landscaping and Lighting District"**

**Section 4** Proposed Assessment Amounts: The proposed assessments are outlined in the Engineer's Report. District Assessments are calculated in accordance with the method of apportionment established for the District and do not exceed the assessment rates.

**Section 5** Public Hearing: The City Council hereby declares its intention to conduct a Public Hearing annually concerning the levy of assessments for the District in accordance with *Chapter 3, Section 22626* of the Act.

**Section 6** Notice: The City Clerk shall give notice of the time and place of the Public Hearing by causing this resolution to be published once in the local newspaper not less than ten (10) days before the date of the hearing and by posting a copy of this resolution on the official bulletin board customarily used by the City Council for the posting of notices.

**Section 7** Time and Place of Public Hearing: Notice is hereby given that a Public Hearing on these matters will be held by the City Council on **Wednesday, June 3, 2026 at 6:00 p.m.**, or as soon thereafter as feasible in the regular meeting chambers located at 311 Vernon Street, Roseville, California.

**RESOLUTION NO. 26-136**

**A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, FOR PRELIMINARY APPROVAL OF THE ENGINEER'S LEVY REPORT FOR THE NORTHWEST ROSEVILLE SPECIFIC PLAN LANDSCAPING AND LIGHTING DISTRICT, FISCAL YEAR 2026/2027**

The City Council of the City of Roseville, California (hereafter referred to as the "City Council") does resolve as follows:

**WHEREAS,** the City Council has, by previous Resolutions, ordered the preparation of an Engineer's Levy Report (hereafter referred to as the "Engineer's Report") for the district known and designated as the Northwest Roseville Specific Plan Landscaping and Lighting District (hereafter referred to as the "District"), pursuant to the provisions of the *Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the Streets and Highways Code of California*, *beginning with Section 22500* (hereinafter referred to as the "Act"); and,

**WHEREAS**, the City Council has retained Willdan Financial Services (hereinafter "Engineer"), for the purpose of assisting with the establishment of the assessments and the preparation and filing of an Engineer's Report with the City Clerk in accordance with the Act and the requirements of the California Constitution, Articles XIIIC and XIIID; and

**WHEREAS,** there has now been presented to this City Council the Engineer's Report as required by *Chapter 1, Article 4, Section 22566* of said Act; and

**WHEREAS,** this City Council has carefully examined and reviewed the Engineer's Report as presented, and is preliminarily satisfied with the District and with each of the budget items and documents set forth therein, and further finds that the assessments, on a preliminary basis, have been spread in accordance with the benefits received from the improvements, operation, maintenance, and services to be performed within each Zone, as set forth in said Engineer's Report; and

**NOW, THEREFORE, BE IT RESOLVED, DETERMINED, AND ORDERED BY THE CITY COUNCIL FOR THE NORTHWEST ROSEVILLE SPECIFIC PLAN LANDSCAPING AND LIGHTING DISTRICT, AS FOLLOWS:**

**Section 1** That the above recitals are all true and correct.

**Section 2** That the Engineer's Report, as presented, consists of the following:

a. A Description of Improvements
b. The Annual Budget (Costs and Expenses of Maintenance, Services, Operations and District Administration)
c. The Assessment Roll containing the Fiscal Year 2026/2027 Levy for each Assessor Parcel within the District

**Section 3** The Engineer's Report is hereby approved on a preliminary basis and ordered to be filed in the Office of the City Clerk as a permanent record and to remain open to public inspection.

**Section 4** That the City Clerk shall certify to the passage and adoption of this Resolution, and the minutes of this meeting shall reflect the presentation of the Engineer's Report.

# ENGINEER'S REPORT AFFIDAVIT

## Establishment of Annual Rates and Charges for the:

## Northwest Roseville Specific Plan
## Landscaping and Lighting District

City of Roseville

Placer County, State of California

This Report describes the District and any relevant zones therein, including the improvements, budgets, parcels and assessments to be levied for Fiscal Year 2026/27 as they existed at the time of the passage of the Resolution of Intention. Reference is hereby made to the Placer County Assessor's maps for a detailed description of the lines and dimensions of parcels within the District. The undersigned respectfully submits the enclosed Report as directed by the City Council.

Dated this _____day of _____, 2026.

# I. OVERVIEW

## A. INTRODUCTION

The City of Roseville ("City") annually levies and collects special assessments in order to provide and maintain the improvements within the Northwest Roseville Specific Plan Area, known as Northwest Roseville Specific Plan Landscaping and Lighting District ("District") within the City. The District was formed and is levied annual assessments pursuant to *the Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the California Streets and Highways Code* (the "1972 Act" or the "Act").

This Engineer's Levy Report ("Report") describes the District, any new annexations, changes to the District, and the proposed assessments for the period of July 1, 2026 through June 30, 2027. The assessments are based on historical and estimated costs to maintain the improvements that provide a direct and special benefit to properties within the District. The District consists of two (2) benefit zones ("Zones"). The improvements that benefit properties within each Zone and the costs of those improvements are identified and budgeted separately. Each parcel is assessed proportionately for the estimated costs of the parcel's respective Zone.

The word "parcel," for the purposes of this Report, refers to an individual property assigned its own Assessor's Parcel Number by the Placer County Assessor's Office. The Placer County Auditor/Controller ("County Auditor/Controller") uses Assessor's Parcel Numbers and specific Tax Code Accounts, to identify on the County's tax roll, properties assessed for special district benefit assessments.

Following consideration of public comments at a public hearing, and a final review of the Report, the City Council may order amendments to the Report or confirm the Report as submitted. Following approval of the Report, the City Council will by resolution, order the improvements to be made, if any, and confirm the levy and collection of assessments pursuant to the Act. The assessment rates and method of apportionment described in this Report as approved or modified by the City Council define the assessments to be applied to each parcel within the District and respective Zones for Fiscal Year ("FY") 2026/27. The assessments as approved will be submitted to the Placer County Auditor/Controller to be included on the FY 2026/27 property tax roll for each parcel.

If any parcel submitted for collection is identified by the County Auditor/Controller to be an invalid parcel number for the current fiscal year, a corrected parcel number and/or new parcel numbers will be identified and resubmitted to the County Auditor/Controller. The assessment amount to be levied and collected for the resubmitted parcel or parcels shall be based on the method of apportionment and assessment rate approved by the City Council.

## B. COMPLIANCE WITH CURRENT LEGISLATION

All assessments described in this Report and approved by the City Council are prepared in accordance with the 1972 Act and are in compliance with the provisions of the *California Constitution Article XIIID* (Proposition 218). Pursuant to the *California Constitution Article XIIID ("Article XIIID") Section 5*, certain existing assessments are exempt from the substantive and procedural requirements of *Article XIIID Section 4* and property owner balloting for the assessments is not required until such time that the assessments are increased. Specifically, the City determined that all improvements and the annual assessments established for the original District were part of the conditions of property development and approved by the original property owner (developer). As such, pursuant to *Article XIIID Section 5(b),* the property owners approved these existing District assessments at the time the assessments were created (originally imposed pursuant to a 100% landowner petition). The assessments applied to the District's parcels at the time of passage of Proposition 2018 of $100 to each single-family residential parcel within Zone A and $147.20 to each single-family residential parcel within Zone B continue to be exempt from the procedural requirements *Article XIIID Section 4*.

The District and all Zones therein have been formed pursuant to the *1972 Act.* Pursuant to the 1972 Act, an annual Public Hearing is conducted by the City Council to accept property owner and public comments and to review the Report prior to approving the annual assessments to be levied on the County tax rolls. The assessments described in this Report have been prepared in accordance with the 1972 Act.

In November 2004, the City initiated and conducted property owner protest ballot proceedings, in accordance with the 1972 Act and Article XIIID, to annex into Zone A, and approve the maximum assessment of $100 per single family residential parcel. At the conclusion of the Public Hearing, the City determined that a majority protest did not exist. The City then approved the Engineer's Report, through the adoption of Resolution No. 04-507, which annexed the Dunmore Junction territory to Zone A. Dunmore Junction was first assessed by the District in FY 2005/06.

In April 2005, the City initiated and conducted property owner protest ballot proceedings, in accordance with the 1972 Act and Article XIIID, to annex into Zones B, and approve the maximum assessment of $147.20 per single family residential parcel. At the conclusion of the Public Hearing, the City determined that a majority protest did not exist. The City then approved the Engineer's Report, through the adoption of Resolution No. 05-165, which annexed the Legacy subdivision territory to Zone B. The Legacy subdivision was first assessed by the District in FY 2005/06.

## C. DESCRIPTION OF DISTRICT BOUNDARIES

The Northwest Roseville Specific Plan Landscaping and Lighting District lies west of the existing urban area of the City of Roseville. The District is generally bounded by Baseline Road to the north, Fiddyment Road to the west and

Washington Boulevard to the east. The City annexed in Dunmore Junction, which is generally located on the east side of Porter Drive, south of Junction Boulevard and north of Lawton Avenue. The City also annexed in Legacy Subdivision, which is generally located on the northwest corner of Washington Boulevard and Junction Boulevard. For general reference purposes, renderings of the District's Boundaries are presented in Appendix A of the Report.

## D. IMPROVEMENTS AUTHORIZED BY THE 1972 ACT

As applicable or may be applicable to a proposed District, the 1972 Act defines improvements to mean one or any combination of the following:

- The installation or planting of landscaping.
- The installation or construction of statuary, fountains, and other ornamental structures and facilities.
- The installation or construction of public lighting facilities.
- The installation or construction of any facilities which are appurtenant to any of the foregoing, or which are necessary or convenient for the maintenance or servicing thereof, including, but not limited to, grading, clearing, removal of debris, the installation or construction of curbs, gutters, walls, sidewalks, or paving, or water, irrigation, drainage, or electrical facilities.
- The maintenance or servicing, or both, of any of the foregoing.
- The acquisition of any existing improvement otherwise authorized pursuant to this section.

Incidental expenses associated with the improvements including, but not limited to:

- The cost of preparation of the report, including plans, specifications, estimates, diagram, and assessment;
- The costs of printing, advertising, and the publishing, posting, and mailing of notices;
- Compensation payable to the County for collection of assessments;
- Compensation of any engineer or attorney employed to render services;
- Any other expenses incidental to the construction, installation, or maintenance and servicing of the improvements;
- Any expenses incidental to the issuance of bonds or notes pursuant to Section 22662.5.
- Costs associated with any elections held for the approval of a new or increased assessment.

The 1972 Act defines "Maintain" or "maintenance" to mean furnishing of services and materials for the ordinary and usual maintenance, operation, and servicing of any improvement, including:

- Repair, removal, or replacement of all or any part of any improvement.

- Providing for the life, growth, health, and beauty of landscaping, including cultivation, irrigation, trimming, spraying, fertilizing, or treating for disease or injury.
- The removal of trimmings, rubbish, debris, and other solid waste.
- The cleaning, sandblasting, and painting of walls and other improvements to remove or cover graffiti.

Furthermore, the 1972 Act specifies that where the cost of improvements (other than maintenance and operations) is greater than can be conveniently raised from a single annual assessment, an assessment to be levied and collected in annual installments. In that event, the governing body may choose to do any of the following:

- Provide for the accumulation of the moneys in an improvement fund until there are sufficient moneys to pay all or part of the cost of the improvements.
- Provide for a temporary advance to the improvement fund from any available and unencumbered funds of the local agency to pay all or part of the cost of the improvements and collect those advanced moneys from the annual installments collected through the assessments.
- Borrow an amount necessary to finance the estimated cost of the proposed improvements. The amount borrowed, including amounts for bonds issued to finance the estimated cost of the proposed improvements.

## E. DESCRIPTION OF IMPROVEMENTS AND SERVICES

### Zone A

Zone A of the District, by special benefit assessments, is to provide funding for the maintenance of the following improvements: landscaped street medians and landscaped corridors adjacent to property within the District including but not limited to, plantings, sound walls, and project identification signs; the maintenance of the vernal pool preserves identified in the Northwest Roseville Specific Plan; the installation and maintenance of bike trails within the Northwest Roseville Specific Plan Area; and the installation of park improvements and/or the payment of debt service related to the installation of bike trails and/or park improvements within the Northwest Roseville Specific Plan Area.

### Zone B

Zone B of the District, by special benefit assessments, is to provide funding for the following:

- The maintenance of the landscaped street buffers or medians, certain natural areas within the subdivision and landscape corridors adjacent to the property within the Zone (including, but not limited to, planting, screen walls, project identification signs, and drainage and wetlands areas within the property).

- The perpetual maintenance of the landscape strips adjacent to the Sierra Crossing subdivision contiguous to Foothills Boulevard and Booth Road, including but not limited to maintenance of the planting, screen walls, and project identification signs.

- The maintenance of the natural border adjoining and contiguous to the westerly border of Sierra Crossing.

- The maintenance of the wetland preserve area.

- The on-going maintenance of the landscape strips adjacent to the Legacy subdivision contiguous to Junction Boulevard, Washington Boulevard and Sawtell Road, including but not limited to maintenance of the planting, screen walls, and project identification signs.

- The maintenance of the natural border adjoining and contiguous to the westerly border of the Legacy subdivision.

# II. METHOD OF APPORTIONMENT

## A. GENERAL

The 1972 Act permits the establishment of assessment districts by agencies for the purpose of providing certain public improvements, which include the construction, maintenance, and servicing of public lights, landscaping, and appurtenant facilities. The 1972 Act further requires that the cost of these improvements be levied according to benefit rather than assessed value:

*"The net amount to be assessed upon lands within an assessment district may be apportioned by any formula or method which fairly distributes the net amount among all assessable lots or parcels in proportion to the estimated benefits to be received by each such lot or parcel from the improvements."*

The formula used for calculating assessments reflects the composition of the parcels, and the improvements and services provided, to fairly apportion the costs based on estimated benefit to each parcel.

## B. DESCRIPTION OF METHOD OF APPORTIONMENT

Pursuant to the Act, the costs of each Zone may be apportioned by any formula or method that fairly distributes the net amount to be assessed, among all assessable parcels in proportion to the estimated special benefits to be received by each such parcel from the improvements. The special benefit formula used for any special benefit assessment should reflect the composition of the parcels, and the improvements and services provided, to fairly apportion the costs based on estimated special benefit to each parcel. All assessable parcels in each Zone receive a direct special benefit from the services and improvements provided by the District.

Each parcel within this District has been assigned an Equivalent Benefit Unit (EBU), which reflects each parcel's estimated special benefit from the improvements as compared to other parcels within each Zone of the District. The levy amount is spread evenly to each assessable parcel in the District, on a per benefit unit (per parcel) method.

For each Zone, the total eligible special benefit expenses ("Balance to Levy"), is divided by the total EBUs of all parcels. The result of this calculation establishes an assessment rate per EBU ("Levy per EBU" or "Assessment Rate") to be applied to each Zone.

The following formulas shall be applied to each Zone to calculate the assessment for each parcel:

***Zone A***

*Total number of residential lots based on final filed maps, divided into the total annual estimated costs of Zone A.*

***Zone B***

*Total number of residential lots based on final filed maps, divided into the total annual estimated costs of Zone B.*

The Maximum Annual Assessment is not to exceed $100.00 per parcel for Zone A and $147.20 per parcel for Zone B.

## C. PROPOSITION 218 BENEFIT ANALYSIS

In conjunction with the provisions of the 1972 Act, the California Constitution Article XIIID addresses several key criteria for the levy of assessments regarding the Dunmore Junction subdivision Legacy subdivision annexations to the District, notably:

Article XIIID Section 2d defines District as follows:

"District means an area determined by an agency to contain all parcels which will receive a special benefit from a proposed public improvement or property-related service;"

Article XIIID Section 2i defines Special Benefit as follows:

"Special benefit" means a particular and distinct benefit over and above general benefits conferred on real property located in the district or to the public at large. General enhancement of property value does not constitute "special benefit."

Article XIIID Section 4a defines proportional special benefit assessments as follows:

"An agency which proposes to levy an assessment shall identify all parcels which will have a special benefit conferred upon them and upon which an assessment will be imposed. The proportionate special benefit derived by each identified parcel shall be determined in relationship to the entirety of the capital cost of a public improvement, the maintenance and operation expenses of a public improvement, or the cost of the property related service being provided. No assessment shall be imposed on any parcel which exceeds the reasonable cost of the proportional special benefit conferred on that parcel."

Each of the proposed improvements, the associated costs and assessments have been carefully reviewed, identified, and allocated based on special benefit pursuant to the provisions of the Constitution and 1972

Act. All improvements associated with this District have been identified as necessary, required and/or desired for the orderly development of the properties within the District to their full potential, consistent with the proposed development plans and applicable portions of the City General Plan and the Northwest Roseville Specific Plan. As such, the improvements for which each property shall be assessed would be necessary and required of individual property owners for the development of such properties and the ongoing operation, servicing and maintenance of these improvements would be the financial obligation of those properties. Therefore, the improvements and the annual costs of ensuring the maintenance and operation of the improvements are of direct and special benefit to the properties.

The method of apportionment (method of assessment) is based on the premise that each assessed parcel within the District receives benefit from the improvements. Well-maintained landscaping and recreational facilities in close proximity to those properties enhance the desirability of those properties.

The special benefits associated with the landscape improvements and associated appurtenances are specifically:

- Enhanced desirability of properties through association with the improvements.
- Improved aesthetic appeal of properties providing a positive representation of the area and properties.
- Enhanced adaptation of the urban environment within the natural environment from adequate green space and landscaping.
- Environmental enhancement through improved erosion resistance, dust and debris control, and fire prevention.
- Increased sense of pride in ownership of property within the District resulting from well-maintained improvements associated with the properties.
- Enhanced quality of life through well-maintained green belts, landscaped areas, and recreational facilities.
- Reduced criminal activity and property-related crimes (especially vandalism) against properties in the District through well-maintained surroundings and amenities including abatement of graffiti.
- Enhanced environmental quality of the parcels by moderating temperatures, providing oxygenation, and attenuating noise.

All of the preceding special benefits allow the property to be developed for the enjoyment of the property owners and contribute to a specific enhancement and desirability of each of the assessed parcels within the District.

The improvements are for the special benefit, enhancement, and use of properties within the District and the Northwest Roseville Specific Plan Area. Although the improvements include public easements, rights-of-way and other amenities available or visible to the public at large, it has been determined that the additional improvements installed in connection with this development and those installed as part of the overall Northwest Roseville Specific Plan, are only necessary for the development of properties within the specific plan area and were not required nor necessarily desired by any properties or developments outside the Northwest Roseville Specific Plan Area. Therefore, this District being part of that plan, receives similar and proportional special benefits from both the improvements installed in connection with developing properties in this District as well as existing and future shared amenities within the District. Any public access or use of the improvements by others is incidental and there is no measurable general benefit to properties outside the specific plan area or to the public at large.

# III. DISTRICT BUDGET

## A. FY 2026/27 BUDGET

| DESCRIPTION | Zone A [1] Fund 2008 | Zone B [2] Fund 2009 |
|---|---|---|
| **DIRECT COSTS** | | |
| Contract Maintenance - Landscaping | $161,036.78 | $9,850.92 |
| Repair & Maintenance - Landscaping | 34,700.00 | 1,487.00 |
| Repair and Maintenance - Parks | 0.00 | 0.00 |
| Repair & Maintenance - Tree Work | 30,126.80 | 619.00 |
| Utilities | 179,000.00 | 4,000.00 |
| Utilities – Telecom | 200.00 | 0.00 |
| Stormwater Management/Drainage (1130-4801-10001) | 0.00 | 673.72 |
| Rehab Reserve Project - Non-Routine Tree Work | 15,825.00 | 0.00 |
| Rehab Reserve Project - Landscape Rehab | 234,800.00 | 0.00 |
| **Total Direct Costs** | **$655,688.58** | **$16,630.64** |
| **ADMINISTRATION COSTS** | | |
| City Administration | $9,244.00 | $383.00 |
| Contract Administration - Park's Dept | 33,000.00 | 1,500.00 |
| County Auditor Fees | 4,622.00 | 191.36 |
| Consulting & Professional Services | 9,957.00 | 415.00 |
| Public Hearing Publishing Costs | 378.00 | 16.00 |
| **Total Administrative Costs** | **$57,201.00** | **$2,505.36** |
| **Total Direct and Administration Costs** | **$712,889.58** | **$19,136.00** |
| **BUDGET ADJUSTMENTS** | | |
| Replenishment/(Use) of Operating Reserve | ($64.58) | $0.00 |
| Contribution for /(Use of) Rehab Reserve | (250,625.00) | 0.00 |
| Rounding Adjustment | | |
| **Total Adjustments** | **($250,689.58)** | **$0.00** |
| **BALANCE TO LEVY** | **$462,200.00** | **$19,136.00** |

(1) The Dunmore Junction Subdivision was annexed into Zone A.
(2) The Legacy Subdivision was annexed into Zone B.

Fund balance information of each Zone is reported in Section C on the following page. The total balance to levy for the district is $481,336.00.

## B. FY 2026/27 ASSESSMENT RATES

| DESCRIPTION | Zone A Fund 2008 | Zone B Fund 2009 |
|---|---|---|
| **FY 2026/27 ASSESSMENT DATA** | | |
| Total Assessable Parcels | 4,622 | 130 |
| Total Assessable EBUs | 4,622 | 130 |
| Applied Assessment Rates per EBU | $100.00 | $147.20 |
| Maximum Assessment Rates per EBU | $100.00 | $147.20 |
| **Potential Maximum Assessment Per Zone** | **$462,200.00** | **$19,136.00** |

## C. FY 2026/27 FUND BALANCE INFORMATION

| DESCRIPTION | Zone A Fund 2008 | Zone B Fund 2009 |
|---|---|---|
| **OPERATING RESERVE** | | |
| **Beginning Operating Reserve Balance 7-1-2026 (est.)** | **$205,340.65** | **$492.00** |
| add: Replenishment from FY 2026/27 Levy | | |
| less: Use for FY 2026/27 Expenses | (64.58) | |
| Transfer from/(to) the Rehab Reserve | 122,568.22 | |
| **Ending Operating Reserve Balance 6-30-2027 (est.)** | **$327,844.29** | **$492.00** |
| **REHABILITATION RESERVE** | | |
| **Beginning Rehab Reserve Balance 7-1-2026 (est.)** | **$716,565.35** | **$0.00** |
| add: Collect from FY 2026/27 Levy | | |
| less: Use for FY 2026/27 Rehab Projects | (250,625.00) | 0.00 |
| Transfer from/(to) the Operating Reserve | (122,568.22) | 0.00 |
| **Ending Rehab Reserve Balance 6-30-2027 (est.)** | **$343,372.13** | **$0.00** |

## D. DESCRIPTION OF BUDGET ITEMS

### BUDGET:

**DIRECT COSTS**

**Contract Maintenance - Landscaping** - Includes all regularly scheduled contract labor, materials, supplies, and equipment required to properly maintain and ensure the satisfactory condition or maintenance of all landscaping corridors, street medians, entryways, irrigation, and related drainage systems as well as maintenance of appurtenant facilities (the “improvements”).

**Repair & Maintenance – Landscaping** – Projected costs for repairs and/or maintenance of landscaping improvements. This would include work and materials not covered under contract maintenance.

**Repair & Maintenance – Parks -** Projected costs for repairs and/or maintenance of park improvements. This would include work and materials not covered under

contract maintenance such as repair of damaged amenities due to vandalism, storms, etc.

**Repair & Maintenance – Tree Work** - This line item includes annual costs for tree maintenance not included in the annual contract maintenance portion of the budget. If zero, this line item may not be shown in the budget.

**Utilities** - The furnishing of water and electricity required for the operation and maintenance of the improvements.

**Utilities Telecom** – connectivity services required for the operation of certain improvements.

**Stormwater Management / Drainage** - This line item includes costs to properly maintain certain drainage and / or wetlands areas within the District. If zero, this line item may not be shown in the budget.

**Rehab Reserve Expenditures – Non-Routine Tree Work** – Expected costs to maintain trees other than costs of annual repair and maintenance. If zero, this line item may not be shown in the budget.

**Rehab Reserve Project Expenditures** – Expected costs for installation, replacement, or planned upgrades of District improvements for the current year that were previously funded or accumulated in the Rehabilitation Reserve. The Rehabilitation Reserve is used to accumulate funds for costs associated with the future rehabilitation or replacement of District improvements that cannot be conveniently raised from a single year's assessment. If zero, this line item may not be shown in the budget.

## ADMINISTRATION COSTS

**City Administration** – Estimated costs incurred by the City Finance Department and other departments in preparing the annual budget for the Engineer's Report, together with other financial information required to determine the annual assessment. These costs would also include the preparation, posting and publishing of public notices required for City Council action relating to the District, as well as costs to perform legal review of documents.

**Contract Administration – Parks Dept** – Estimated Costs of the Parks, Recreation and Libraries Department ("Parks Department") to coordinate and oversee the maintenance contracts and overall repair and maintenance of the District. This amount also includes the cost of the Parks Department's estimates and analysis of certain budget items, estimated costs and useful lives of certain District Improvements.

**County Auditor Fees** - A fee of 1% of the total levy amount that is charged to the District by the County for placing assessments on property tax bills.

**Consulting and Professional Services** – Includes the costs and expenses of contracting with various professionals to provide legal, engineering and district administration services directly related to the District, including the calculation of the annual assessment amounts, the preparation of the Engineer's' Report and incidental expenses of consultant.

**Public Hearing Publishing Costs** –Includes the out-of-pocket costs to publish public notices required for City Council action relating to the District.

**Total Direct and Administration Costs** – The total expected costs of the District.

## BUDGET ADJUSTMENTS

**Replenishment/(Use) of Operating Reserve** – A "Replenishment" increases the levy in order to replenish the Operating Reserve. On the other hand, a "Use" of the Operating Reserve decreases the levy by drawing funds from the Operating Reserve for current year expenditures. If zero, this line item may not be shown in the budget. Further information regarding the function of the Operating Reserve is provided under "FUND BALANCE INFORMATION" in the following pages of this Section.

**Contribution for /(Use of) Rehab Reserve** — A "Contribution" increases the levy in order to generate funding for the Rehabilitation Reserve. This reserve allows for the accumulation of funds for possible rehabilitation projects or replacements in future years. On the other hand, a "Use of" of the Rehabilitation Reserve provides current year funding of rehabilitation projects or replacements from available funds within the Rehabilitation Reserve. If zero, this line item may not be shown in the budget. Further information regarding the function of the Rehabilitation Reserve is provided under "FUND BALANCE INFORMATION" in the following pages of this Section.

**Rounding Adjustment** – The necessary rounding adjustment(s) due to limitations of the County property tax system that requires even penny levy amounts to be placed on the secured tax roll.

**BALANCE TO LEVY** - This is the total amount to be levied and collected through assessments for the current fiscal year for each zone. The Balance to Levy represents the sum of the total District costs together with any applicable adjustments to the budget as described above.

**ASSESSMENT RATES:**

**Total Assessable Parcels -** The total number of expected parcels to be assessed in each of the District's Zones.

**Total Assessable EBUs -** The total number of expected Equivalent Benefit Units

in each of the District's Zones.

**Applied Assessment Rates per EBU -** The assessment rates to be applied to the parcels lying within the respective Zone of the District for the fiscal year shown.

**Maximum Assessment Rates per EBU -** The maximum assessment rates for the parcels lying within the respective Zone of the District for the fiscal year shown.

**Potential Maximum Assessment Per Zone** – The total amount that can be assessed against all parcels within each Zone for the current fiscal year based upon the expected number of EBUs to be assessed.

## FUND BALANCE INFORMATION:

### OPERATING RESERVE

**Beginning Operating Reserve Balance 7-1-2026 (est.)** - The anticipated beginning balance of cash and receivables net of any unpaid prior year obligations for each Zone. These beginning balances shall be used to fund each Zone's expenditures from July 1, 2026 to December 31, 2026, as the Operating Reserve is required to compensate for the approximate six-month delay between the start of the District's fiscal year and the receipt of the collections from the County. All Rehabilitation Reserve balances, if any, are excluded from the Operating Reserve balances and shall be shown separately in the Report.

**Replenish from FY 2026/27 Levy** – This amount is added to the FY 2026/27 levy in order to replenish the Operating Reserve. Due to the six-month delay from the District's receipt of assessment collections, the Operating Reserve balance shall be sufficiently funded to provide for expenditures from July 1, 2026 (the beginning of the Fiscal Year) through December 31, 2026. If zero, this line item may not be shown in the budget.

**Use for FY 2026/27 Expenses** – The amount of the Operating Reserve to be used to fund FY 2026/27 expenses. Portions of the Operating Reserve may be slated for current year expenditures in order to reduce the Ending Operating Reserve Balance to an amount no greater than the expected District costs for the period of July 1, 2026 (the beginning of the Fiscal Year) through December 31, 2026. If zero, this line item may not be shown in the budget.

**Transfer from/(to) the Rehab Reserve** — The amount of Operating Reserve monies to be transferred to or from the Rehabilitation Reserve. Periodically, funds held in a Rehabilitation Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Rehabilitation Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Parks Department, in order to provide for the maintenance and operation of the improvements. If zero, this line item may

not be shown in the budget.

**Ending Operating Reserve Balance 6-30-2027 (est.)** - This amount represents the anticipated Operating Reserve balance/(deficit) for each Zone as of June 30, 2027. The size of each Zone's Operating Reserve is limited by Streets and Highways Code 22569 which states that an Operating Reserve shall not exceed the estimated costs of maintenance, service and incidental expenses from the first day of the fiscal year (July 1) to the date that the Agency expects to receive the first apportionment of collections from the County, which is estimated to be December 31. Therefore, each Zone may retain an Operating Reserve amounting to the District's first six-months of expenses in order to meet ongoing obligations until the first collections are received from the County. All Rehabilitation Reserve balances, if any, are excluded from the Operating Reserve balances and shall be shown separately in the Report.

## REHABILITATION RESERVE

**Beginning Rehab Reserve Balance 7-1-2026 (est.)** — The projected balance of funds in the Rehabilitation Reserve as of July 1, 2026. Streets and Highways Code 22660 allows the District to generate and accumulate funds over several years to fund District improvements that cannot be conveniently raised from a single year's assessment.

**Collect from FY 2026/27 Levy** — This amount is added to the FY 2026/27 levy to accumulate funding of future year rehabilitation projects, replacements, restorations, or upgrades of District improvements. If zero, this line item may not be shown in the budget.

**Use for FY 2026/27 Rehab Projects** – The amount of Rehabilitation Reserve monies expected to be transferred out of the Rehabilitation Reserve to fund the costs of installation, replacement, or planned upgrades of District improvements for the current year. If zero, this line item may not be shown in the budget.

**Transfer from/(to) the Operating Reserve** — The amount of Rehabilitation Reserve monies to be transferred to or from the Operating Reserve. Periodically, funds held in a Rehabilitation Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Rehabilitation Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Parks Department, in order to provide for the maintenance and operation of the improvements. If zero, this line item may not be shown in the budget.

**Ending Rehab Reserve Balance 6-30-2027 (est.)** - The projected balance of funds in the Rehabilitation Reserve as of June 30, 2027. These funds shall be used to provide for future year rehabilitation projects, replacements, restorations, or upgrades of District improvements which cannot be conveniently raised from a single year's assessment.

Should the District have no Rehabilitation Reserve balances or related activity, no Rehabilitation Reserve information shall be presented in the Report.

## E. REHABILITATION RESERVE – CAPITAL IMPROVEMENT PLAN

*Streets and Highways Code 22660* allows the District to generate and accumulate funds over several years to fund District improvements that cannot be conveniently raised from a single year's assessment.

The Report provides a five-year Capital Improvement Plan ("CIP") which shows projected expenditures by Zone related to the rehabilitation, restoration and/or replacement of District improvements, and other allowable costs. The Current Fiscal Year CIP is shown in the preceding Budget Section A. The projected CIP costs for the remaining four years are shown in the table below.

### Zone A

| Description | FY 2027-28 | FY 2028-29 | FY 2029-30 | FY 2030-31 | 4 Year Total |
|---|---|---|---|---|---|
| Repair, replace and/or refurbish fencing improvements | $0 | $0 | $0 | $0 | $0 |
| Irrigation controllers | 73,000 | 73,000 | 73,000 | 73,000 | 292,000 |
| Replace, repair, renovate and/or refurbish plants, landscape & related mat'ls, non-functional turf mandates | 20,000 | 5,000 | 0 | 0 | 25,000 |
| Soundwall | 30,000 | 30,000 | 30,000 | 40,000 | 130,000 |
| Non-routine tree work | 5,000 | 5,000 | 5,000 | 5,000 | 20,000 |
| **Total Projected Expenditures** | **$128,000** | **$113,000** | **$108,000** | **$118,000** | **$467,000** |

# APPENDIX A – DISTRICT BOUNDARY MAP

The boundary map of the District and Zones has previously been submitted to the Clerk of the City in the format required under the Act and are, by reference, hereby made part of this Report. The boundary maps are available for inspection at the office of the City Clerk during normal business hours.

For general reference purposes, a rendering of the District's Boundaries is represented herein.

# APPENDIX B — FY 2026/27 ASSESSMENT ROLL

Parcel identification, for each lot or parcel within the District, shall be the parcel as shown on the Placer County Assessor's map for the year in which this Report is prepared.

Due to the size of the Assessment Roll, a listing of parcels to be assessed within this District, along with the proposed assessment amounts, shall be submitted to the City Clerk, under separate cover, and by reference is made part of this Report.

Non-assessable lots or parcels may include areas of public streets and other roadways (typically not assigned an APN by the County); dedicated public easements, open space areas and rights-of-way, including public greenbelts and parkways; utility rights-of-way; common areas; landlocked parcels, small parcels vacated by the County, bifurcated lots, and any other property that cannot be developed. These types of parcels are considered to receive little or no benefit from the improvements and are therefore exempt from assessment.

At the conclusion of the public hearing for the District and the proposed assessments, approval of the Report (as submitted or as modified) confirms the method of apportionment and the assessment rate to be levied against each eligible parcel and thereby constitutes the approved levy and collection of assessments for FY 2026/27. The listing of parcels and the amount of assessment to be levied shall be submitted to the County Auditor/Controller and included on the FY 2026/27 property tax roll for each parcel.

If any parcel submitted for collection is identified by the County Auditor/Controller to be an invalid parcel number for the current fiscal year, a corrected parcel number and/or new parcel numbers will be identified and resubmitted to the County Auditor/Controller. The assessment amount to be levied and collected for the resubmitted parcel or parcels shall be based on the method of apportionment and assessment rate approved in this Report. Therefore, if a single parcel has changed to multiple parcels, the assessment amount applied to each of the new parcels shall be recalculated and applied according to the approved method of apportionment and assessment rate rather than a proportionate share of the original assessment.

**RESOLUTION NO. 26-137**

**A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, INITIATING PROCEEDINGS FOR THE ANNUAL LEVY OF ASSESSMENTS FOR THE OLYMPUS POINTE LANDSCAPING AND LIGHTING DISTRICT, FISCAL YEAR 2026/2027, PURSUANT TO THE PROVISIONS OF PART 2 OF DIVISION 15 OF THE CALIFORNIA STREETS AND HIGHWAYS CODE**

The City Council of the City of Roseville, California (hereafter referred to as the "City Council") does resolve as follows:

**WHEREAS,** the City Council has, by previous Resolutions, formed the Olympus Pointe Landscaping and Lighting District (hereafter referred to as the "District") pursuant to the provisions of the *Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the Streets and Highways Code of California, beginning with Section 22500* (hereafter referred to as the "Act"), which provides for the levy and collection of assessments by the County of Placer for the City of Roseville to pay for the maintenance and services of street lighting, landscaping, and all appurtenant facilities and operations related thereto; and

**WHEREAS,** the City Council has retained Willdan Financial Services (hereafter "Engineer") for the purpose of assisting with the establishment of the assessments, the annexation of territory, and the preparation and filing of an Engineer's Annual Levy Report (hereafter referred to as the "Engineer's Report") with the City Clerk in accordance with the Act, and the California Constitution, Articles XIIIC and XIIID

**NOW, THEREFORE, BE IT RESOLVED, DETERMINED, AND ORDERED BY THE CITY COUNCIL FOR THE OLYMPUS POINTE LANDSCAPING AND LIGHTING DISTRICT, AS FOLLOWS:**

**Section 1** Engineer's Report: The City Council hereby orders the Engineer to prepare and file with the City Clerk the Engineer's Report concerning the levy of assessments for the District in accordance with Chapter 3, Section 22622 of the Act.

**Section 2** Proposed improvements and any substantial changes in existing improvements: The District improvements include: the maintenance and operation of and the furnishing of services, materials and/or improvements for landscape, lighting, park and hardscape areas, and other public improvements within the street right-of-way areas and all appurtenant facilities related thereto as further described in the Engineer's Report. The Engineer's Report also describes all new improvements or substantial changes in existing improvements.

**RESOLUTION NO. 26-138**

**A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, DECLARING ITS INTENTION TO LEVY ANNUAL ASSESSMENTS FOR THE OLYMPUS POINTE LANDSCAPING AND LIGHTING DISTRICT, FISCAL YEAR 2026/2027**

The City Council of the City of Roseville, California (hereafter referred to as the "City Council") does resolve as follows:

**WHEREAS,** The City Council has, by previous Resolutions, formed the Olympus Pointe Landscaping and Lighting District (hereafter referred to as the "District"), and initiated proceedings for Fiscal Year 2026/2027, pursuant to the provisions of the *Landscaping and Lighting Act of 1972*, *Part 2 of Division 15 of the Streets and Highways Code of California*, *beginning with Section 22500* (hereafter referred to as the "Act") that provides for the levy and collection of assessments by the County of Placer for the City of Roseville to pay for the maintenance, operation and servicing of all improvements and facilities related thereto; and,

**WHEREAS,** the City Council has retained Willdan Financial Services for the purpose of assisting with the Annual Levy of the District, and to prepare and file an Engineer's Annual Levy Report (hereinafter referred to as the "Engineer's Report") with the City Clerk in accordance with the Act; and,

**NOW, THEREFORE, BE IT RESOLVED, DETERMINED, AND ORDERED BY THE CITY COUNCIL FOR THE OLYMPUS POINTE LANDSCAPING AND LIGHTING DISTRICT, PURSUANT TO *CHAPTER 3, SECTION 22624* OF THE ACT, AS FOLLOWS:**

**Section 1** Intention: The City Council hereby declares that it is its intention to seek the Annual Levy of the District pursuant to the Act, over and including the land within the District boundary, and to levy and collect assessments on all such land to pay for the annual costs of the improvements.

**Section 2** Proposed improvements and any substantial changes in existing improvements: The District improvements include: the maintenance and operation of and the furnishing of services, materials or improvements for landscape, lighting, park and hardscape areas including turf, ground cover, shrubs and trees, irrigation systems, drainage systems, project identification signs, special street signs, special lighting for signage, granite entryways, sculptures and sculpture park, special paving materials, and other public improvements within the street right-of-way areas and all appurtenant facilities related thereto as further described in the Engineer's Report. The Engineer's Report also describes all new improvements or substantial changes in existing improvements.

**Section 3** Boundaries and Designation: The boundaries of the District are described as the boundaries previously defined in the formation documents of the original District and any annexations thereto. The District is known and designated as the:

**"Olympus Pointe Landscaping and Lighting District"**

**Section 4** Proposed Assessment Amounts: The proposed assessments are outlined in the Engineer's Report. District Assessments are calculated in accordance with the method of apportionment established for the District and do not exceed the assessment rates and annual inflationary adjustment previously authorized by the City Council and approved by the property owners in accordance with the provisions of the California State Constitution, Article XIIID.

**Section 5** Public Hearing(s): The City Council hereby declares its intention to conduct a Public Hearing annually concerning the levy of assessments for the District in accordance with *Chapter 3, Section 22626* of the Act.

**Section 6** Notice: The City Clerk shall give notice of the time and place of the Public Hearing by causing this Resolution to be published once in the local newspaper not less than ten (10) days before the date of the hearing and by posting a copy of this Resolution on the official bulletin board customarily used by the City Council for the posting of notices.

**Section 7** Time and Place of Public Hearing: Notice is hereby given that a Public Hearing on these matters will be held by the City Council on **Wednesday, June 3, 2026 at 6:00 p.m.**, or as soon thereafter as feasible in the regular meeting chambers located at 311 Vernon Street, Roseville, California.

**RESOLUTION NO. 26-139**

**A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, FOR PRELIMINARY APPROVAL OF THE ENGINEER'S ANNUAL LEVY REPORT FOR THE OLYMPUS POINTE LANDSCAPING AND LIGHTING DISTRICT, FISCAL YEAR 2026/2027**

The City Council of the City of Roseville, California (hereafter referred to as the "City Council") does resolve as follows:

**WHEREAS,** the City Council has, by previous Resolutions, ordered the preparation of an Engineer's Annual Levy Report (hereafter referred to as the "Engineer's Report") for the district known and designated as the Olympus Pointe Landscaping and Lighting District (hereafter referred to as the "District"), pursuant to the provisions of the *Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the Streets and Highways Code of California*, *beginning with Section 22500* (hereinafter referred to as the "Act"); and,

**WHEREAS**, the City Council has retained Willdan Financial Services (hereinafter "Engineer"), for the purpose of assisting with the establishment of the assessments and the preparation and filing of an Engineer's Report with the City Clerk in accordance with the Act and the requirements of the California Constitution, Articles XIIIC and XIIID; and

**WHEREAS,** there has now been presented to this City Council the Engineer's Report as required by *Chapter 1, Article 4, Section 22566* of said Act; and

**WHEREAS,** this City Council has carefully examined and reviewed the Engineer's Report as presented, and is preliminarily satisfied with the District and with each of the budget items and documents set forth therein, and further finds that the assessments, on a preliminary basis, have been spread in accordance with the benefits received from the improvements, operation, maintenance, and services to be performed within each Zone, as set forth in said Engineer's Report; and

**NOW, THEREFORE, BE IT RESOLVED, DETERMINED, AND ORDERED BY THE CITY COUNCIL FOR THE OLYMPUS POINTE LANDSCAPING AND LIGHTING DISTRICT, AS FOLLOWS:**

**Section 1** That the above recitals are all true and correct.

**Section 2** That the Engineer's Report, as presented, consists of the following:

a. A Description of Improvements
b. The Annual Budget (Costs and Expenses of Maintenance, Services, Operations and District Administration)
c. The Assessment Roll containing the Fiscal Year 2026/2027 Levy for each Assessor Parcel within the District

**Section 3** The Engineer's Report is hereby approved on a preliminary basis and ordered to be filed in the Office of the City Clerk as a permanent record and to remain open to public inspection.

**Section 4** That the City Clerk shall certify to the passage and adoption of this Resolution, and the minutes of this meeting shall reflect the presentation of the Engineer's Report.

# I. OVERVIEW

## A. INTRODUCTION

The City of Roseville ("City") annually levies and collects special assessments in order to maintain the certain public improvements within the Olympus Pointe Landscaping and Lighting District ("District") within the City. The District, which was formed in 1989, is levied annual assessments pursuant to the Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the California Streets and Highways Code (the "1972 Act").

The Engineer's Report ("Report") describes the District boundaries, any new annexations, improvements maintained by the District and the proposed assessments for the period of July 1, 2026 through June 30, 2027.

The District consists of two (2) benefit Zones ("Zones"). The improvements that benefit properties within each Zone and the costs associated with those improvements are identified and budgeted separately. Each parcel within a Zone is assessed proportionately for only those improvements and services that are a direct and special benefit to the properties within the respective Zone. The assessments are based on the historical and estimated cost to maintain the improvements that provide a direct and special benefit to properties within the District.

The word "parcel," for the purposes of this Report, refers to an individual property assigned its own Assessor's Parcel Number ("APN") by the Placer County Assessor's Office.

Following approval of the Report, the City Council will by resolution, order the improvements to be made, if any, and confirm the levy and collection of assessments herein pursuant to the 1972 Act. The assessment rates and method of apportionment described in this Report as approved or modified by the City Council define the assessments to be applied to each parcel within the District and respective Zones for Fiscal Year ("FY") 2026/27. The assessments as approved will be submitted to the Placer County Auditor/Controller to be included on the property tax roll for each parcel.

If any parcel submitted for collection is identified by the County Auditor/Controller to be an invalid parcel number for the current fiscal year, a corrected parcel number and/or new parcel numbers will be identified and resubmitted to the County Auditor/Controller. The assessment amount to be levied and collected for the resubmitted parcel or parcels shall be based on the method of apportionment and assessment rate approved by the City Council.

## B. COMPLIANCE WITH CURRENT LEGISLATION

All assessments described in this Report and approved by the City Council are prepared in accordance with the 1972 Act and are in compliance with the substantive and procedural requirements of the California State Constitution Articles XIIIC and XIIID ("Article XIIIC" and "Article XIIID") and the provisions of the Proposition 218 Omnibus Implementation Act [Government Code Section 53750 and following] (the "Implementation Act"). Articles XIIIC and XIIID and the Implementation Act collectively are hereinafter referred to as "Proposition 218".

The District's Maximum Assessment Rates for all Zones and the Inflationary Adjustment Factor were previously approved and confirmed through property owner ballot proceedings and as such, comply with the provisions of Proposition 218.

Pursuant to the 1972 Act, an annual Public Hearing is conducted by the City Council to accept property owner and public comments, to review the Engineer's Annual Levy Report prior to approving the annual assessments to be levied on the County tax rolls.

## C. CLARIFICATION OF ZONE DESIGNATIONS

In order to increase consistency with the City's other districts and to facilitate presentation within the Engineer's Report, the names of both Zones were redesignated, commencing with FY 2007/2008, as follows:

- The "Non-Residential/Multi-Family Residential Zone" was redesignated to "Zone A." (1)

- The "Residential Zone" was redesignated to "Zone D." (2)

(1) Prior to FY 2005/2006, this territory was known as "Zone A". In FY 2005/2006, Zone A was redesignated to the "Non-Residential/Multi-Family Residential Zone".

(2) Prior to FY 2005/2006, this territory was known as "Zones B & C". In FY 2005/2006, Zones B & C were combined and redesignated to the "Residential Zone".

## D. GENERAL DESCRIPTION OF DISTRICT

The Olympus Pointe Landscaping and Lighting District is located in the City of Roseville at the southerly edge of Placer County, northeast of the intersection of Interstate 80 and Douglas Boulevard. The site is generally bounded by Interstate 80 on the west, East Roseville Parkway and Olympus Drive to the north, Douglas Boulevard to the south and Sierra College Boulevard to the east. See Appendix A for a rendering of the District boundary map.

The District consists of two zones as described below. These zones were established by the City through a District reengineering commencing with the FY 2005/2006 levy. Additional information regarding the reengineering is provided in Section III of the Report.

### Zone A

Zone A includes land zoned for non-residential and multi-family residential uses. The Zone comprises the majority of the District and is primarily west and south of East Roseville Parkway, east of Interstate 80 and north of Douglas Boulevard. The territory that was originally designated as "Zone A" consisted of 581.78 assessable acres when it was redesignated as the "Non-Residential/Multi-Family Zone" commencing with the FY 2005/06 levy. It was then redesignated back to "Zone A" commencing with the FY 2007/08 levy.

### Zone D

Zone D includes two single-family residential developments on the eastern side of the District. The Zone is bisected by Olympus Drive and Sierra College Boulevard on the District's eastern boundary and includes 468 developed single-family residences. Originally, each residential development was designated as separate zone (Zones B and C). The area was redesignated as the "Residential Zone" commencing with the FY 2005/2006 levy and then redesignated to the "Zone D" commencing with the FY 2007/2008 levy.

## E. IMPROVEMENTS AUTHORIZED BY THE 1972 ACT

As applicable or may be applicable to a proposed District, the 1972 Act defines improvements to mean one or any combination of the following:

- The installation or planting of landscaping.
- The installation or construction of statuary, fountains, and other ornamental structures and facilities.
- The installation or construction of public lighting facilities.
- The installation or construction of any facilities which are appurtenant to any of the foregoing or which are necessary or convenient for the maintenance or

servicing thereof, including, but not limited to, grading, clearing, removal of debris, the installation or construction of curbs, gutters, walls, sidewalks, or paving, or water, irrigation, drainage, or electrical facilities.

- The maintenance or servicing, or both, of any of the foregoing.
- The acquisition of any existing improvement otherwise authorized pursuant to this section.

Incidental expenses associated with the improvements including, but not limited to:

- The cost of preparation of the report, including plans, specifications, estimates, diagram, and assessment;
- The costs of printing, advertising, and the publishing, posting, and mailing of notices;
- Compensation payable to the County for collection of assessments;
- Compensation of any engineer or attorney employed to render services;
- Any other expenses incidental to the construction, installation, or maintenance and servicing of the improvements;
- Any expenses incidental to the issuance of bonds or notes pursuant to Section 22662.5.
- Costs associated with any elections held for the approval of a new or increased assessment.

The 1972 Act defines "Maintain" or "maintenance" to mean furnishing of services and materials for the ordinary and usual maintenance, operation, and servicing of any improvement, including:

- Repair, removal, or replacement of all or any part of any improvement.
- Providing for the life, growth, health, and beauty of landscaping, including cultivation, irrigation, trimming, spraying, fertilizing, or treating for disease or injury.
- The removal of trimmings, rubbish, debris, and other solid waste.
- The cleaning, sandblasting, and painting of walls and other improvements to remove or cover graffiti.

Furthermore, the 1972 Act specifies that where the cost of improvements (other than maintenance and operations) is greater than can be conveniently raised from a single annual assessment, an assessment to be levied and collected in annual installments. In that event, the governing body may choose to do any of the following:

- Provide for the accumulation of the moneys in an improvement fund until there are sufficient moneys to pay all or part of the cost of the improvements.
- Provide for a temporary advance to the improvement fund from any available and unencumbered funds of the local agency to pay all or part of the cost of the

improvements and collect those advanced moneys from the annual installments collected through the assessments.

- Borrow an amount necessary to finance the estimated cost of the proposed improvements. The amount borrowed, including amounts for bonds issued to finance the estimated cost of the proposed improvements.

## F. DESCRIPTION AND LOCATION OF IMPROVEMENTS

This District, through the levy special assessments, provides funding for the maintenance and operation of the following improvements located within the public rights-of-way and dedicated easements: project identification signs, including surrounding landscape and hardscape; special street materials; sculptures and sculpture park; special street signs; special lighting for the project identification signs and special illuminated street signs; and landscaped street medians (the "Improvements"). The specific locations of the improvements within the district are described as follows:

### 1. Zone A

a. Landscaped Median Islands:

- Eureka Road from Douglas Boulevard to Taylor Road Connector
- Sunrise Avenue from southern boundary of the Northeast Roseville Specific Plan (the "NERSP") to East Roseville Parkway
- East Roseville Parkway from Douglas Boulevard to Rocky Ridge Drive
- Douglas Boulevard from eastern boundary of NERSP to Rocky Ridge Drive

b. Project identification signs (granite entryways) and special paving materials:

- Eureka Road at Douglas Boulevard
- East Roseville Parkway at Douglas Boulevard
- Eureka Road at Taylor Road

c. Sculpture and Sculpture Park:

- Aris Demetrio's original sculpture located on Parcel 14
- Sculpture park (0.85 acres located on Parcel 14)

d. Special street signs:

- Eureka Road at Sunrise Avenue, Rocky Ridge Drive, Lead Hill Drive and Douglas Boulevard
- Lead Hill Drive at Rocky Ridge Drive
- Sunrise Avenue at Auto Mall entrance
- East Roseville Parkway at Taylor Road, Lead Hill Drive, Olympus Drive and Douglas Boulevard

- Olympus Drive at Sierra College Boulevard:

**2. Zone D**

a. Landscaped Frontage:

- Southern side of Olympus Drive from East Roseville Parkway to Sierra College Boulevard, excluding any landscaping not within or adjacent to the Zone
- Northern side of Olympus Drive from the Zone boundary (the former Zone C boundary), which is 175 feet southwest of Corniche Lane, to Sierra College Boulevard, western side of Sierra College Boulevard from Olympus Drive to the Zone boundary (the former Zone C boundary), which is approximately 600 feet.

b. Project identification signs and special paving materials:

- Sierra College Boulevard at Olympus Drive

## G. DESCRIPTION OF MAINTENANCE AND SERVICES

Maintenance means the furnishing of services and materials for the ordinary and usual maintenance, operation and servicing of the Improvements and appurtenant facilities, including repair, removal or replacement of all or part of any of Improvements or appurtenant facilities; providing for the life, growth, health and beauty of the Improvements including cultivation, irrigation, trimming, mowing, spraying, fertilizing and treating for disease or injury; the removal of trimmings, rubbish, debris and other solid waste.

Servicing means the furnishing of water and electricity for the Improvements including any decorative lighting and the furnishing of electric current or energy, gas, or other illuminating agent for the special street signs.

# II. METHOD OF APPORTIONMENT

## A. GENERAL

The Act permits the establishment of assessment districts by public agencies for the purpose of providing certain public improvements, which include the construction, maintenance, and servicing of streetlights, traffic signals and landscaping facilities. Streets and Highways Code Section 22573 requires that maintenance assessments be levied according to benefit rather than the assessed value.

> *"The net amount to be assessed upon lands within an assessment district may be apportioned by any formula or method which fairly distributes the net amount among all assessable lots or parcels in proportion to the estimated benefits to be received by each such lot or parcel from the improvements."*

In addition, Article XIIID and the Implementation Act require that a parcel's assessment may not exceed the reasonable cost for the proportional special benefit conferred to that parcel. Article XIIID and the Implementation Act further provide that only special benefits are assessable and the City must separate the general benefits from the special benefits. They also require that publicly owned properties, which specifically benefit from the improvements, be assessed.

## B. BENEFIT ANALYSIS

In conjunction with the provisions of the 1972 Act, the California Constitution Article XIIID addresses several key criteria for the levy of assessments, notably:

Article XIIID Section 2d defines District as follows:

"District means an area determined by an agency to contain all parcels which will receive a special benefit from a proposed public improvement or property-related service;"

Article XIIID Section 2i defines Special Benefit as follows:

"Special benefit" means a particular and distinct benefit over and above general benefits conferred on real property located in the district or to the public at large. General enhancement of property value does not constitute "special benefit."

Article XIIID Section 4a defines proportional special benefit assessments as follows:

"An agency which proposes to levy an assessment shall identify all parcels which will have a special benefit conferred upon them and upon which an assessment will be imposed. The proportionate special benefit derived by each identified parcel shall be determined in relationship to the entirety of the capital cost of a public

improvement, the maintenance and operation expenses of a public improvement, or the cost of the property related service being provided. No assessment shall be imposed on any parcel which exceeds the reasonable cost of the proportional special benefit conferred on that parcel."

The City initiated and conducted property owner protest ballot proceedings in accordance with Article XIIID and the Implementation Act for both the Non-Residential/Multi-Family Zone (Zone A) and the Residential Zone (Zone D). Each Zone's Improvements, the associated costs and assessments had been reviewed, identified, and allocated based on special benefit pursuant to the provisions of the Constitution and Act.

All Improvements associated with these Zones have been identified as necessary, required and/or desired for the orderly development of the properties to their full potential. As such, these Improvements would be necessary and required of individual property owners for the development of such properties and the ongoing operation, servicing and maintenance of these Improvements would be the financial obligation of those properties. Therefore, the Improvements and the annual costs of ensuring the maintenance and operation of the Improvements are of direct and special benefit to the properties.

The method of apportionment (method of assessment) is based on the premise that each of the assessed parcels within these Zones receives special benefit from the Improvements maintained and financed by the assessments. Specifically, the assessments associated with the Zones are for the maintenance of the Improvements installed as part of the original development of the parcels within the Zones. The desirability and security of properties within each Zone is enhanced by the close proximity of these amenities to those properties.

The annual assessments outlined in this Report are proposed to cover the estimated costs to provide all necessary service, operation, administration, and maintenance required to keep the Zone Improvements in a healthy, vigorous, and satisfactory condition.

The special benefits associated with these improvements are specifically:

- Enhanced desirability of properties through association with the improvements.
- Improved aesthetic appeal of properties within the Zones providing a positive representation of the area.
- Enhanced adaptation of the urban environment within the natural environment from adequate green space and landscaping.
- Environmental enhancement through improved erosion resistance, and dust and debris control.
- Increased sense of pride in ownership of property within the District resulting from well-maintained improvements associated with the properties.

- Reduced criminal activity and property-related crimes (especially vandalism) against properties in the District through well-maintained surroundings and amenities including abatement of graffiti.
- Enhanced environmental quality of the parcels within the Zones by moderating temperatures, providing oxygenation, and attenuating noise.

All of the preceding special benefits allowed the property to be developed for the enjoyment of the property owners and contribute to an ongoing specific enhancement and desirability of each of the assessed parcels within the Zones.

The improvements are for the special benefit, enhancement, and use of properties within the Zones. Although the improvements include public easements, rights-of-way, streets, and other amenities available or visible to the public at large, the construction and installation of these Improvements were only necessary for the development of properties within the Zones and were not required nor necessarily desired by any properties or developments outside the Zone's boundaries. Therefore, any public access or use of the Improvements by others is incidental and there is no measurable general benefit to properties outside the Zones or to the public at large. In making this determination, it should be noted that all parkway and perimeter landscaping within the City is both funded and maintained by a special district, individual property owners or through some type of association.

## C. ASSESSMENT METHODOLOGY

To establish the special benefit to the individual lots and parcels within the District an Equivalent Benefit Unit ("EBU") system is used. The EBU method of apportioning benefit is typically seen as the most appropriate and equitable assessment methodology for districts formed under the Act, as the benefit to each parcel from the Improvements are apportioned as a function of land use type, size, and development. Acreage of common area parcels shall be apportioned to the remaining assessable parcels of a subdivision and/or parcel split(s) related to the creation of the common area parcel(s).

**EBU Application Table**

| Land Use | EBU per Unit/Acre |
|---|---|
| Single Family Residential | 1.00 per Unit |
| Multi-Family Residential | 1.00 per Acre |
| Non-Residential | 1.00 per Acre |
| Exempt | 0.00 per Acre |

## 1. Definitions and Formulas Related to the Product Type EBU Method

Single-Family Residential — This land use is defined as a fully subdivided residential parcel that is part of a final tract map.

Multi-Family Residential — This land use is defined as a residential parcel anticipated to have or has more than one residential unit.

Non-Residential — Parcels that are not considered Single Family Residential, Multi- Family Residential or Exempt.

Exempt Parcels — This land use identifies properties that are not assessed and are assigned 0.0 EBU per acre. This land use classification may include, but is not limited, to lots or parcels identified as public streets and other roadways (typically not assigned an APN by the County); dedicated public easements, open space areas, greenbelts, parkways, park properties and other publicly owned properties that are part of the District Improvements. These types of parcels are considered to receive little or no benefit from the Improvements and are therefore exempted from assessment.

## 2. Zone Benefit Formula

The benefit formula applied to parcels within each Zone is based on the preceding Equivalent Benefit Unit (EBU) Application Table. Each parcel's EBU correlates the parcel's special benefit received as compared to all other parcels benefiting from the Improvements.

The following formula is used to calculate the EBU for each parcel (proportional benefit).

**Parcel Type EBU x Units/Acres = Parcel EBU**

The total number of Equivalent Benefit Units (EBUs) is the sum of all individual EBUs applied to parcels within each Zone that receive a special benefit from the Improvements. An assessment amount per EBU (Assessment Rate) for each Zone is established by taking the total costs associated with the Zone's Improvements and dividing that amount by the total number of EBUs within each Zone of all parcels benefiting from those Improvements. This Rate is then applied back to each individual parcel based on their assigned EBUs to determine the parcel's proportionate special benefit and assessment obligation from those Improvements.

**Zone Budget/ Total EBU = Assessment per EBU**

**Assessment per EBU x Parcel EBU = Maximum Parcel Assessment Amount**

## D. ASSESSMENT RANGE FORMULA

The purpose of establishing an Assessment Range Formula is to provide for reasonable increases and inflationary adjustment to annual assessments rather than initiating protest ballot proceedings to approve small increases in annual costs. This District provides for an annual adjustment to the Maximum Assessment Rate in an amount equal to three percent (3%).

The Maximum Assessment Rate is adjusted annually and is calculated independent of the District's annual budget and proposed annual assessment. Any proposed annual assessment rate (less than or equal to this Maximum Assessment Rate) is not considered an increased assessment, even if the proposed assessment is greater than the assessment applied in the prior fiscal year.

Although the Maximum Assessment Rate will increase each year, the actual assessment rate may go up and down as compared to the previous year(s). The Maximum Assessment Rate adjustment is designed to allow for the adjustment of the annual assessment for inflation in order to maintain the original purchasing power of the District budget. The Maximum Assessment Rate calculated each year does not require or facilitate an increase to the annual assessment and neither does it restrict assessments to the adjusted maximum amount. If the budget and assessment for the fiscal year do not require an increase, or the increase is less than the adjusted Maximum Assessment Rate, then the required budget and assessment may be applied without additional property owner balloting. If the budget and assessments calculated requires an increase greater than the adjusted Maximum Assessment Rate, then the assessment is considered an increased assessment and would be subject to Proposition 218 balloting requirements.

## E. BASE MAXIMUM ASSESSMENT RATES

The base assessment rates and the annual inflationary adjustment to each Zone are listed in the table below:

| Zone | Base Year | Base Year Maximum Assessment Rate per EBU | Annual Inflationary Adjustment (1) |
|---|---|---|---|
| Zone A | FY 2005/06 | $296.65 | 3.00% |
| Zone D | FY 2005/06 | $99.76 | 3.00% |

(1) The Annual Inflationary Adjustment commences with the Fiscal Year 2006/2007 assessments.

# III. DISTRICT BUDGET

## A. FY 2026/27 BUDGET

| DESCRIPTION | ZONE A Fund 2006 | ZONE D Fund 2007 |
|---|---|---|
| **DIRECT COSTS** | | |
| Contract Maintenance - Landscaping | $29,997.72 | $34,101.24 |
| Contract Maintenance - Parks | 4,227.12 | 0.00 |
| Repair & Maintenance - Landscaping | 25,750.00 | 11,330.00 |
| Repair and Maintenance - Parks | 6,500.00 | 0.00 |
| Repair and Maintenance - Lighting | 1,000.00 | 0.00 |
| Repair & Maintenance - Tree Work | 4,344.00 | 8,280.00 |
| Utilities | 46,168.10 | 25,410.00 |
| Utilities – Telecom | 0.00 | 200.00 |
| Maintenance - Parks City Staff | 15,637.00 | 0.00 |
| Rehab Reserve Expenditures - Non-Routine Tree Work | 7,000.00 | 3,250.00 |
| Rehab Reserve Project Expenditures | 40,000.00 | 7,800.00 |
| **Total Direct Costs** | **$180,623.94** | **$90,371.24** |
| **ADMINISTRATION COSTS** | | |
| City Administration | $4,220.00 | $514.00 |
| Contract Administration - Park's Dept | 13,000.00 | 3,000.00 |
| County Auditor Fees | 1,721.12 | 821.32 |
| Consulting & Professional Services | 5,056.00 | 613.00 |
| Public Hearing Publishing Costs | 368.00 | 45.00 |
| **Total Administrative Costs** | **$24,365.12** | **$4,993.32** |
| **Total Direct and Administration Costs** | **$204,989.06** | **$95,364.56** |
| **BUDGET ADJUSTMENTS** | | |
| Replenishment/(Use) of Operating Reserve | $14,127.97 | ($2,181.38) |
| Contribution for /(Use of) Rehab Reserve | (47,000.00) | (11,050.00) |
| Rounding Adjustment | (4.97) | 0.82 |
| **Total Adjustments** | **($32,877.00)** | **($13,230.56)** |
| **BALANCE TO LEVY** | **$172,112.06** | **$82,134.00** |

Fund balance information of each Zone is reported in Section C on the following page. The total balance to levy for the district is $254,246.06.

## B. FY 2026/27 ASSESSMENT RATES

| DESCRIPTION | ZONE A Fund 2006 | ZONE D Fund 2007 |
|---|---|---|
| **FY 2026/27 ASSESSMENT DATA** | | |
| Total Assessable Parcels | 358 | 468 |
| Total Assessable Acreage | 530.8045 | n/a |
| Total Assessable Units | 186 | 468 |
| **Total Equivalent Benefit Units (EBUs)** | **716.8045** | **468.0000** |
| **Assessment Rates per Equivalent Benefit Unit (EBU)** | | |
| Assessment Rates to be Applied per EBU | $240.11 | $175.50 |
| Maximum Assessment Rates per EBU | $551.86 | $185.58 |
| **Potential Maximum Assessment Per Zone** | **$395,573.14** | **$86,852.84** |

## C. FY 2026/27 FUND BALANCE INFORMATION

| DESCRIPTION | ZONE A Fund 2006 | ZONE D Fund 2007 |
|---|---|---|
| **OPERATING RESERVE** | | |
| **Beginning Operating Reserve Balance 7-1-2026 (est.)** | **$102,569.55** | **$50,532.02** |
| add: Replenishment from FY 2026/27 Levy | 26,385.55 | |
| less: Use for FY 2026/27 Expenses | (12,257.58) | (2,181.38) |
| Transfer from/(to) the Rehab Reserve | (26,385.55) | (3,165.02) |
| **Ending Operating Reserve Balance 6-30-2027 (est.)** | **$90,311.97** | **$45,185.62** |
| **REHABILITATION RESERVE** | | |
| **Beginning Rehab Reserve Balance 7-1-2026 (est.)** | **$242,828.45** | **$47,889.98** |
| add: Collect from FY 2026/27 Levy | | |
| less: Use for FY 2026/27 Rehab Projects | (47,000.00) | (11,050.00) |
| Transfer from/(to) the Operating Reserve | 26,385.55 | 3,165.02 |
| **Ending Rehab Reserve Balance 6-30-2027 (est.)** | **$222,214.00** | **$40,005.00** |

## D. DESCRIPTION OF BUDGET ITEMS

Description of the terms used in the preceding Budget, Assessment Rates and Fund Balance tables are listed below:

### BUDGET:

**DIRECT COSTS**

**Contract Maintenance - Landscaping** – Includes all regularly scheduled contract labor, materials, supplies, and equipment required to properly maintain and ensure the satisfactory condition or maintenance of all landscaping improvements,

irrigation, and related drainage systems, as well as maintenance of appurtenant facilities (the “improvements”). The costs to maintain improvements within the District’s entryway areas are not included in this amount.

**Contract Maintenance – Parks** - Includes all regularly scheduled contract labor, materials, supplies, and equipment required to properly maintain and ensure the satisfactory condition or maintenance of park improvements, as well as maintenance of appurtenant facilities (the “improvements”).

**Repair & Maintenance – Landscaping** – Projected costs for repairs and/or maintenance of landscaping improvements. This would include work and materials not covered under contract maintenance.

**Repair & Maintenance – Parks -** Projected costs for repairs and/or maintenance of park improvements. This would include work and materials not covered under contract maintenance such as repair of damaged amenities due to vandalism, storms, etc.

**Repair & Maintenance – Lighting -** This line item includes bulb replacement together and general maintenance together with repairs that are generally unforeseen.

**Repair & Maintenance – Tree Work** - This line item includes annual costs for tree maintenance not included in the annual contract maintenance portion of the budget. If zero, this line item may not be shown in the budget.

**Utilities** - The furnishing of water and electricity required for the operation and maintenance of the improvements.

**Utilities Telecom** – connectivity services required for the operation of certain improvements.

**Rehab Reserve Expenditures - Non-Routine Tree Work** – Expected costs to maintain trees other than costs of annual repair and maintenance. If zero, this line item may not be shown in the budget.

**Rehab Reserve Project Expenditures** – Expected costs for installation, replacement, or planned upgrades of District improvements for the current year that were previously funded or accumulated in the Rehabilitation Reserve. The Rehabilitation Reserve is used to accumulate funds for costs associated with the future rehabilitation or replacement of District improvements that cannot be conveniently raised from a single year’s assessment. If zero, this line item may not be shown in the budget.

## ADMINISTRATION COSTS

**City Administration** – Estimated costs incurred by the City Finance Department and other departments in preparing the annual budget for the Engineer's Report, together with other financial information required to determine the annual assessment. These costs would also include the preparation, posting and publishing of public notices required for City Council action relating to the District, as well as costs to perform legal review of documents.

**Contract Administration – Parks Dept** – Estimated costs of the Parks, Recreation and Libraries Department ("Parks Department") to coordinate and oversee the maintenance contracts and overall repair and maintenance of the District. This amount also includes the cost of the Parks Department's estimates and analysis of certain budget items, estimated costs and useful lives of certain District Improvements.

**County Auditor Fees** - A fee of 1% of the total levy amount that is charged to the District by the County for placing assessments on property tax bills.

**Consulting and Professional Services** – Includes the costs and expenses of contracting with various professionals to provide legal, engineering and district administration services directly related to the District, including the calculation of the annual assessment amounts and the preparation of the Engineer's' Report.

**Public Hearing Publishing Costs** –Includes the out-of-pocket costs to publish public notices required for City Council action relating to the District.

**Total Direct and Administration Costs** – The total expected costs of the District.

## BUDGET ADJUSTMENTS

**Replenishment/(Use) of Operating Reserve** – A "Replenishment" increases the levy in order to replenish the Operating Reserve. On the other hand, a "Use" of the Operating Reserve decreases the levy by drawing funds from the Operating Reserve for current year expenditures. If zero, this line item may not be shown in the budget. Further information regarding the function of the Operating Reserve is provided under "FUND BALANCE INFORMATION" in the following pages of this Section.

**Contribution for / (Use of) Rehab Reserve** — A "Contribution" increases the levy in order to generate funding for the Rehabilitation Reserve. This reserve allows for the accumulation of funds for possible rehabilitation projects or replacements in future years. On the other hand, a "Use of" of the Rehabilitation Reserve provides current year funding of rehabilitation projects or replacements from available funds within the Rehabilitation Reserve. If zero, this line item may not be shown in the budget. Further information regarding the function of the Rehabilitation Reserve is

provided under “FUND BALANCE INFORMATION” in the following pages of this Section.

**Rounding Adjustment** – The necessary rounding adjustment(s) due to limitations of the County property tax system that requires even penny levy amounts to be placed on the secured tax roll.

**BALANCE TO LEVY** - This is the total amount to be levied and collected through assessments for the current fiscal year for each zone. The Balance to Levy represents the sum of the total District costs together with any applicable adjustments to the budget as described above.

## ASSESSMENT RATES:

**Total Assessable Acreage** - The total acreage within each zone expected to be assessed in the current fiscal year.

**Total Assessable Units** - The total number of assessable single-family units within each zone expected to be assessed in the current fiscal year.

**Total Equivalent Benefit Units (“EBUs”)** - Total assessable EBUs within the District for the current fiscal year. Each assessable parcel is assigned EBUs as shown in Section II C of this Report.

**Applied Assessment Rate per Equivalent Benefit Unit (EBU)** - The assessment rate per EBU to be applied to the applicable Zone for the current fiscal year.

**Maximum Assessment Rate per Equivalent Benefit Unit (EBU)** - The maximum assessment rate per EBU that can be applied to the applicable Zone for the current fiscal year.

**Potential Maximum Assessment Per Zone** – The total amount that can be assessed to all parcels within each Zone for the current fiscal year based upon the expected number of assessable units and acres.

## FUND BALANCE INFORMATION:

### OPERATING RESERVE

**Beginning Operating Reserve Balance 7-1-2026 (est.)** - The anticipated beginning balance of cash and receivables net of any unpaid prior year obligations for each Zone. These beginning balances shall be used to fund each Zone’s expenditures from July 1, 2026 to December 31, 2026, as the Operating Reserve is required to compensate for the approximate six-month delay between the start of the District’s fiscal year and the receipt of the collections from the County. All

Rehabilitation Reserve balances, if any, are excluded from the Operating Reserve balances and shall be shown separately in the Report.

**Replenish from FY 2026/27 Levy** – This amount is added to the FY 2026/27 levy in order to replenish the Operating Reserve. Due to the six-month delay from the District's receipt of assessment collections, the Operating Reserve balance shall be sufficiently funded to provide for expenditures from July 1, 2026 (the beginning of the Fiscal Year) through December 31, 2026. If zero, this line item may not be shown in the budget.

**Use for FY 2026/27 Expenses** – The amount of the Operating Reserve to be used to fund FY 2026/27 expenses. Portions of the Operating Reserve may be slated for current year expenditures in order to reduce the Ending Operating Reserve Balance to an amount no greater than the expected District costs for the period of July 1, 2026 (the beginning of the Fiscal Year) through December 31, 2026. If zero, this line item may not be shown in the budget.

**Transfer from/(to) the Rehab Reserve** — The amount of Operating Reserve monies to be transferred to or from the Rehabilitation Reserve. Periodically, funds held in a Rehabilitation Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Rehabilitation Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Parks Department, in order to provide for the maintenance and operation of the improvements. If zero, this line item may not be shown in the budget.

**Ending Operating Reserve Balance 6-30-2027 (est.)** - This amount represents the anticipated Operating Reserve balance/(deficit) for each Zone as of June 30, 2027. The size of each Zone's Operating Reserve is limited by Streets and Highways Code 22569 which states that an Operating Reserve shall not exceed the estimated costs of maintenance, service and incidental expenses from the first day of the fiscal year (July 1) to the date that the Agency expects to receive the first apportionment of collections from the County, which is estimated to be December 31. Therefore, each Zone may retain an Operating Reserve amounting to the District's first six-months of expenses in order to meet ongoing obligations until the first collections are received from the County. All Rehabilitation Reserve balances, if any, are excluded from the Operating Reserve balances and shall be shown separately in the Report.

## REHABILITATION RESERVE

**Beginning Rehab Reserve Balance 7-1-2026 (est.)** — The projected balance of funds in the Rehabilitation Reserve as of July 1, 2026. Streets and Highways Code 22660 allows the District to generate and accumulate funds over several years to fund District improvements that cannot be conveniently raised from a single year's assessment.

**Collect from FY 2026/27 Levy** — This amount is added to the FY 2026/27 levy to accumulate funding of future year rehabilitation projects, replacements, restorations or upgrades of District improvements. If zero, this line item may not be shown in the budget.

**Use for FY 2026/27 Rehab Projects** – The amount of Rehabilitation Reserve monies expected to be transferred out of the Rehabilitation Reserve to fund the costs of installation, replacement, or planned upgrades of District improvements for the current year. If zero, this line item may not be shown in the budget.

**Transfer from/(to) the Operating Reserve** — The amount of Rehabilitation Reserve monies to be transferred to or from the Operating Reserve. Periodically, funds held in a Rehabilitation Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Rehabilitation Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Parks Department, in order to provide for the maintenance and operation of the improvements. If zero, this line item may not be shown in the budget.

**Ending Rehab Reserve Balance 6-30-2027 (est.)** - The projected balance of funds in the Rehabilitation Reserve as of June 30, 2027. These funds shall be used to provide for future year rehabilitation projects, replacements, restorations, or upgrades of District improvements which cannot be conveniently raised from a single year's assessment.

Should the District have no Rehabilitation Reserve or related activity, the Rehabilitation Reserve information may not be presented in the Report.

## E. REHABILITATION RESERVE – CAPITAL IMPROVEMENT PLAN

*Streets and Highways Code 22660* allows the District to generate and accumulate funds over several years to fund District improvements that cannot be conveniently raised from a single year's assessment.

The Report provides a five-year Capital Improvement Plan ("CIP") which shows projected expenditures by Zone related to the rehabilitation, restoration and/or replacement of District improvements, and other allowable costs. The Current Fiscal Year CIP is shown in the preceding Budget Section A. The projected CIP costs for the remaining four years are shown in the table below.

## Zone A

| Description | FY 2027-28 | FY 2028-29 | FY 2029-30 | FY 2030-31 | 4 Year Total |
|---|---|---|---|---|---|
| Stone wall repair and medians | $5,000 | $1,000 | $1,000 | $500 | $7,500 |
| Rehabilitate Sculpture Park | 2,000 | 1,550 | 19,000 | 0 | 22,550 |
| Rehabilitate, renovate and/or replace median improvements | 24,000 | 24,000 | 24,000 | 0 | 72,000 |
| Rehabilitate, renovate and/or replace project entryway improvements | 0 | 0 | 0 | 0 | 0 |
| Repaint Cosmos Statue | 0 | 0 | 0 | 20,000 | 20,000 |
| Non-routine tree work | 7,210 | 7,426 | 7,649 | 7,879 | 30,164 |
| Replace illuminated street signs | 0 | 0 | 10,000 | 0 | 10,000 |
| Replace irrigation controller(s) | 10,000 | 10,000 | 10,000 | 10,000 | 40,000 |
| Replace, repair, renovate and/or refurbish plants, landscapes & related mat'ls | 5,000 | 5,000 | 5,000 | 5,000 | 20,000 |
| **Total Projected Expenditures** | **$53,210** | **$48,976** | **$76,649** | **$43,379** | **$222,214** |

## Zone D

| Description | FY 2027-28 | FY 2028-29 | FY 2029-30 | FY 2030-31 | 4 Year Total |
|---|---|---|---|---|---|
| Rehabilitate, renovate and/or replace project entryway improvements | $0 | $3,000 | $0 | $3,000 | $6,000 |
| Non Functional turf | 0 | 0 | 0 | 0 | 0 |
| Non-routine tree work | 3,348 | 3,448 | 3,551 | 3,658 | 14,005 |
| Replace irrigation controller(s) | 0 | 0 | 0 | 0 | 0 |
| Replace, repair, renovate and/or refurbish plants, landscape & related mat'ls | 5,000 | 5,000 | 5,000 | 5,000 | 20,000 |
| **Total Projected Expenditures** | **$8,348** | **$11,448** | **$8,551** | **$11,658** | **$40,005** |

Periodically, funds held in a Rehabilitation Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Rehabilitation Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Parks Department, in order to provide for the maintenance and operation of the improvements.

# APPENDIX A – DISTRICT BOUNDARY MAP

The boundary map for the District has previously been submitted to the Clerk of the City in the format required under the Act and is, by reference, hereby made part of this Report. These District Boundary Maps are available for inspection at the office of the City Clerk during normal business hours.

For general reference purposes, a rendering of the District's Boundaries is presented herein.

# APPENDIX B — FY 2026/27 ASSESSMENT ROLL

Parcel identification, for each lot or parcel within the District, shall be the parcel as shown on the Placer County Assessor's map for the year in which this Report is prepared.

A listing of parcels to be assessed within this District, along with the proposed assessment amounts, may be submitted to the City Clerk, under a separate cover, and by reference is made part of this Report.

Non-assessable lots or parcels may include areas of public streets and other roadways (typically not assigned an APN by the County); dedicated public easements, open space areas and rights-of-way, including public greenbelts and parkways; utility rights-of-way; small parcels vacated by the County, bifurcated lots, and other property that cannot be developed, excepting common area parcels. These types of parcels are considered to receive little or no benefit from the improvements and are therefore exempt from assessment.

At the conclusion of the public hearing for the District and the proposed assessments, approval of the Report (as submitted or as modified) confirms the method of apportionment and the assessment rate to be levied against each eligible parcel and thereby constitutes the approved levy and collection of assessments for FY 2026/27. The listing of parcels and the amount of assessment to be levied shall be submitted to the County Auditor/Controller and included on the FY 2026/27 property tax roll for each parcel.

If any parcel submitted for collection is identified by the County Auditor/Controller to be an invalid parcel number for the current fiscal year, a corrected parcel number and/or new parcel numbers will be identified and resubmitted to the County Auditor/Controller. The assessment amount to be levied and collected for the resubmitted parcel or parcels shall be based on the method of apportionment and assessment rate approved in this Report. Therefore, if a single parcel has changed to multiple parcels, the assessment amount applied to each of the new parcels shall be recalculated and applied according to the approved method of apportionment and assessment rate rather than a proportionate share of the original assessment.

**RESOLUTION NO. 26-140**

**A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, INITIATING PROCEEDINGS FOR THE ANNUAL LEVY OF ASSESSMENTS FOR THE RIVERSIDE AVENUE LANDSCAPING AND LIGHTING DISTRICT, FOR FISCAL YEAR 2026/2027, PURSUANT TO THE PROVISIONS OF PART 2 OF DIVISION 15 OF THE CALIFORNIA STREETS AND HIGHWAYS CODE**

The City Council of the City of Roseville, California (hereafter referred to as the "City Council") does resolve as follows:

**WHEREAS,** The City Council has, by previous Resolutions, formed the Riverside Avenue Landscaping and Lighting District (hereafter referred to as the "District") pursuant to the provisions of the *Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the Streets and Highways Code of California, beginning with Section 22500* (hereafter referred to as the "Act"), which provides for the levy and collection of assessments by the County of Placer for the City of Roseville to pay for the maintenance and services of street lighting, landscaping, and all appurtenant facilities and operations related thereto; and

**WHEREAS,** the City Council has retained Willdan Financial Services (hereafter "Engineer") for the purpose of assisting with the establishment of the assessments, the annexation of territory, and the preparation and filing of an Engineer's Annual Levy Report (hereafter referred to as the "Engineer's Report") with the City Clerk in accordance with the Act, and the California Constitution, Articles XIIIC and XIIID;

**NOW, THEREFORE, BE IT RESOLVED, DETERMINED, AND ORDERED BY THE CITY COUNCIL FOR THE RIVERSIDE AVENUE LANDSCAPING AND LIGHTING DISTRICT, AS FOLLOWS:**

**Section 1** Engineer's Report: The City Council hereby orders the Engineer to prepare and file with the City Clerk the Engineer's Report concerning the levy of assessments for the District in accordance with Chapter 3, Section 22622 of the Act.

**Section 2** Proposed improvements and any substantial changes in existing improvements: The District improvements include: the maintenance, operation of and the furnishing of services, materials and/or improvements for landscape, lighting, streetscape and hardscape areas, and other public improvements within the street right-of-way areas and all appurtenant facilities related thereto as further described in the Engineer's Report. The Engineer's Report also describes all new improvements or substantial changes in existing improvements.

**RESOLUTION NO. 26-141**

**A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, DECLARING ITS INTENTION TO LEVY ANNUAL ASSESSMENTS FOR THE RIVERSIDE AVENUE LANDSCAPING AND LIGHTING DISTRICT, FISCAL YEAR 2026/2027**

The City Council of the City of Roseville, California (hereafter referred to as the "City Council") does resolve as follows:

**WHEREAS,** the City Council has, by previous resolutions, formed the Riverside Avenue Landscaping and Lighting District (hereafter referred to as the "District"), and initiated proceedings for Fiscal Year 2026/2027, pursuant to the provisions of the *Landscaping and Lighting Act of 1972*, *Part 2 of Division 15 of the Streets and Highways Code of California*, *beginning with Section 22500* (hereafter referred to as the "Act"), which provides for the levy and collection of assessments by the County of Placer for the City of Roseville to pay for the maintenance, operation and servicing of all improvements and facilities related thereto; and

**WHEREAS,** the City Council has retained Willdan Financial Services for the purpose of assisting with the Annual Levy of the District and the preparation and filing of a report (hereinafter referred to as the "Engineer's Report") with the City Clerk in accordance with the Act;

**NOW, THEREFORE, BE IT RESOLVED, DETERMINED, AND ORDERED BY THE CITY COUNCIL FOR THE RIVERSIDE AVENUE LANDSCAPING AND LIGHTING DISTRICT, PURSUANT TO *CHAPTER 3, SECTION 22624* OF THE ACT, AS FOLLOWS:**

**Section 1** Intention: The City Council hereby declares that it is its intention to seek the Annual Levy of the District pursuant to the Act, over and including the land within the District boundary, and to levy and collect assessments on all such land to pay for the annual costs of the improvements.

**Section 2** Proposed improvements and any substantial changes in existing improvements: The District improvements include: the maintenance, operation of and the furnishing of services, materials or improvements for landscape, lighting, streetscape and hardscape areas, including monuments, landmark and gateway features, bulb-outs, walls, fencing, signage, special lighting, paving, transit facilities, ground cover, shrubs, plants, trees, irrigation and drainage systems, and other public improvements within the street right-of-way areas and all appurtenant facilities related thereto as further described in the Engineer's Report. The Engineer's Report also describes all new improvements or substantial changes in existing improvements.

**Section 3** Boundaries and Designation: The boundaries of the District as previously defined in the formation documents of the original District. The District is known and designated as:

**"Riverside Avenue Landscaping and Lighting District"**

**Section 4** Proposed Assessment Amounts: The proposed assessments are outlined in the Engineer's Report. District Assessments are calculated in accordance with the method of apportionment established for the District and do not exceed the assessment rates and annual inflationary adjustment previously authorized by the City Council and approved by the property owners in accordance with the provisions of the California State Constitution, Article XIIID.

**Section 5** Public Hearing: The City Council hereby declares its intention to conduct a Public Hearing annually concerning the levy of assessments for the District in accordance with *Chapter 3, Section 22626* of the Act.

**Section 6** Notice: The City Clerk shall give notice of the time and place of the Public Hearing by causing this resolution to be published once in the local newspaper not less than ten (10) days before the date of the hearing and by posting a copy of this resolution on the official bulletin board customarily used by the City Council for the posting of notices.

**Section 7** Time and Place of Public Hearing: Notice is hereby given that a Public Hearing on these matters will be held by the City Council on **Wednesday, June 3, 2026 at 6:00 p.m.**, or as soon thereafter as feasible in the regular meeting chambers located at 311 Vernon Street, Roseville, California.

**RESOLUTION NO. 26-142**

**A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, FOR PRELIMINARY APPROVAL OF THE ENGINEER'S ANNUAL LEVY REPORT FOR THE RIVERSIDE AVENUE LANDSCAPING AND LIGHTING DISTRICT, FISCAL YEAR 2026/2027**

The City Council of the City of Roseville, California (hereafter referred to as the "City Council") does resolve as follows:

**WHEREAS,** the City Council has, by previous Resolutions, ordered the preparation of an Annual Levy Report (hereafter referred to as the "Engineer's Report") for the district known and designated as the Riverside Avenue Landscaping and Lighting District (hereafter referred to as the "District"), pursuant to the provisions of the *Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the Streets and Highways Code of California*, *beginning with Section 22500* (hereinafter referred to as the "Act"); and,

**WHEREAS**, the City Council has retained Willdan Financial Services (hereinafter "Engineer"), for the purpose of assisting with the establishment of the assessments and the preparation and filing of an Engineer's Report with the City Clerk in accordance with the Act and the requirements of the California Constitution, Articles XIIIC and XIIID; and

**WHEREAS,** there has now been presented to this City Council the Engineer's Report as required by *Chapter 1, Article 4, Section 22566* of said Act; and

**WHEREAS,** this City Council has carefully examined and reviewed the Engineer's Report as presented, and is preliminarily satisfied with the District and with each of the budget items and documents set forth therein, and further finds that the assessments, on a preliminary basis, have been spread in accordance with the benefits received from the improvements, operation, maintenance, and services to be performed within the District, as set forth in said Engineer's Report; and

**NOW, THEREFORE, BE IT RESOLVED, DETERMINED, AND ORDERED BY THE CITY COUNCIL FOR THE RIVERSIDE AVENUE LANDSCAPING AND LIGHTING DISTRICT, AS FOLLOWS:**

**Section 1** That the above recitals are all true and correct.

**Section 2** That the Engineer's Report, as presented, consists of the following:

a. A Description of Improvements
b. The Annual Budget (Costs and Expenses of Maintenance, Services, Operations and District Administration)
c. The Assessment Roll containing the Fiscal Year 2026/2027 Levy for each Assessor Parcel within the District

**Section 3** The Engineer's Report is hereby approved on a preliminary basis and ordered to be filed in the Office of the City Clerk as a permanent record and to remain open to public inspection.

**Section 4** That the City Clerk shall certify to the passage and adoption of this Resolution, and the minutes of this meeting shall reflect the presentation of the Engineer's Report.

# I. OVERVIEW

## A. INTRODUCTION

The City of Roseville ("City") annually levies and collects special assessments in order to maintain the improvements within the Riverside Avenue Landscaping and Lighting District ("District"). The District was formed in January of 2007 and is levied annual assessments pursuant to *the Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the California Streets and Highways Code* ("1972 Act").

The Engineer's Report ("Report") describes the District, any new annexations, changes to the District, and the proposed assessments for the period of July 1, 2026 through June 30, 2027. The special benefit assessments are based on historical and estimated costs to maintain the District improvements. These assessments, which provide a direct and special benefit to properties within the District, will provide funding for the operation and maintenance of District improvements.

The word "parcel," for the purposes of this Report, refers to an individual property assigned its own Assessor's Parcel Number ("APN") by the Placer County Assessor's Office. The Placer County Auditor/Controller uses Assessor's Parcel Numbers and specific Tax Code Accounts, to identify on the County's tax roll, properties assessed for special district benefit assessments.

Following approval of the Report, the City Council will, by resolution, order the improvements to be made and confirm the levy and collection of assessments herein pursuant to the 1972 Act. The assessment rates and method of apportionment described in this Report as approved or modified by the City Council define the assessments to be applied to each parcel within the District for Fiscal Year ("FY") 2026/27. The assessments as approved will be submitted to the Placer County Auditor/Controller to be included on the property tax roll for each parcel.

If any parcel submitted for collection is identified by the County Auditor/Controller to be an invalid parcel number for the Current Fiscal Year, a corrected parcel number and/or new parcel number will be identified and resubmitted to the County Auditor/Controller. The assessment amount to be levied and collected for the resubmitted parcel or parcels shall be based on the method of apportionment and assessment rate approved by the City Council.

## B. COMPLIANCE WITH CURRENT LEGISLATION

The City Council, pursuant to the provisions of the "Landscaping and Lighting Act of 1972", being Division 15, Part 2 of the Streets and Highways Code of the State of California, beginning with Section 22500 (the "1972 Act"); Article XIIID of the Constitution of the State of California ("Article XIIID"); and the Proposition 218 Omnibus Implementation Act, beginning with Government Code Section 53750 (the "Implementation Act") (the 1972 Act, Article XIIID and the Implementation Act are referred to collectively as the "Assessment Law") initiated proceedings for the

formation of the District on November 15, 2006 and to levy and collect annual assessments against lots and parcels within the District for FY 2007/08. On January 17, 2007, pursuant to Assessment Law, the City conducted a Public Hearing and tabulated the returned ballots. The City determined that a majority protest did not exist and approved the District's maximum assessment rate and annual inflationary adjustment factor.

Pursuant to the 1972 Act, an annual Public Hearing is conducted by the City Council to accept property owner and public comments, to review the Engineer's Annual Levy Report prior to approving the annual assessments to be levied on the County tax rolls. The assessments described in this Report have been prepared in accordance with the 1972 Act and Assessment Law.

## C. DESCRIPTION OF DISTRICT BOUNDARIES

The proposed territory within the District consists of all lots, parcels and subdivisions of land as shown on the Boundary Map titled "Boundary Map of Riverside Avenue Landscaping and Lighting District" contained within this report in Appendix A-1.

The District is bounded by Douglas Boulevard to the north, Darling Way to the south and includes parcels that front Riverside Avenue. It is centrally located between Interstate 80 and Downtown Roseville and is east of the Union Pacific Railroad.

The District currently has a mix of different types of land uses including automotive related retail and car lots, community/neighborhood retail, offices, services, and residential units.

## D. IMPROVEMENTS AUTHORIZED BY THE 1972 ACT

As applicable or may be applicable to a proposed District, the 1972 Act defines improvements to mean one or any combination of the following:

- The installation or planting of landscaping.
- The installation or construction of statuary, fountains, and other ornamental structures and facilities.
- The installation or construction of public lighting facilities.
- The installation or construction of any facilities which are appurtenant to any of the foregoing, or which are necessary or convenient for the maintenance or servicing thereof, including, but not limited to, grading, clearing, removal of debris, the installation or construction of curbs, gutters, walls, sidewalks, or paving, or water, irrigation, drainage, or electrical facilities.
- The maintenance or servicing, or both, of any of the foregoing.
- The acquisition of any existing improvement otherwise authorized pursuant to this section.

Incidental expenses associated with the improvements including, but not limited to:

- The cost of preparation of the report, including plans, specifications, estimates, diagram, and assessment;
- The costs of printing, advertising, and the publishing, posting, and mailing of notices;
- Compensation payable to the County for collection of assessments;
- Compensation of any engineer or attorney employed to render services;
- Any other expenses incidental to the construction, installation, or maintenance and servicing of the improvements;
- Any expenses incidental to the issuance of bonds or notes pursuant to Section 22662.5.
- Costs associated with any elections held for the approval of a new or increased assessment.

The 1972 Act defines "Maintain" or "maintenance" to mean furnishing of services and materials for the ordinary and usual maintenance, operation, and servicing of any improvement, including:

- Repair, removal, or replacement of all or any part of any improvement.
- Providing for the life, growth, health, and beauty of landscaping, including cultivation, irrigation, trimming, spraying, fertilizing, or treating for disease or injury.
- The removal of trimmings, rubbish, debris, and other solid waste.
- The cleaning, sandblasting, and painting of walls and other improvements to remove or cover graffiti.

Furthermore, the 1972 Act specifies that where the cost of improvements (other than maintenance and operations) is greater than can be conveniently raised from a single annual assessment, an assessment to be levied and collected in annual installments. In that event, the governing body may choose to do any of the following:

- Provide for the accumulation of the moneys in an improvement fund until there are sufficient moneys to pay all or part of the cost of the improvements.
- Provide for a temporary advance to the improvement fund from any available and unencumbered funds of the local agency to pay all or part of the cost of the improvements and collect those advanced moneys from the annual installments collected through the assessments.
- Borrow an amount necessary to finance the estimated cost of the proposed improvements. The amount borrowed, including amounts for bonds issued to finance the estimated cost of the proposed improvements.

## E. DESCRIPTION OF THE IMPROVEMENTS AND MAINTENANCE

The District, through the levy of special assessments, is to provide funding for ongoing maintenance, operation and servicing of landscaping and lighting improvements located within the public rights-of-ways and dedicated easements located within the District. These improvements may include, but are not limited to, all materials, equipment, utilities, labor, and appurtenant facilities related to the ongoing maintenance of the improvements. The improvements to be maintained and services are generally described as follows:

### Landscaping Improvements

The general landscaping improvements in the District are to be consistent with the improvements on Vernon Street located north of the District, which intersects Riverside Avenue. As a gateway to downtown Roseville, Riverside Avenue's compatibility with Vernon Street links the downtown area and Riverside Gateway area together.

The landscaping improvements have been designed to enhance the area within the District and may include, but are not limited to ground cover, shrubs and plants, trees, irrigation and drainage systems, ornamental lighting, masonry walls or other fencing, hardscape improvements, monuments and landmarks, mid-block bulbs, bulb-outs, and associated appurtenant located within the street rights-of-way and public areas within the District. Specifically, the proposed landscape improvement areas for this District are:

- Landscaping and hardscape improvements within the public rights-of-way of the streets within the District including, but not limited to, Riverside Avenue including the corners of Riverside Avenue and Second Street, Third Street, Fourth Street, Fifth Street, Sixth Street, Darling Way, Fern Street, Cherry Street, and Bonita Street.
- Decorative banners along Riverside Avenue.
- Transit facilities include bus stop seating and decorative shelters.
- Roundabout improvements including plantings, paving, and landmark feature located at the intersection of Vernon St., Douglas Blvd., and Riverside Ave.
- A Gateway feature located at the intersection of Darling Way and Riverside Avenue.
- Various amenities associated with the landscape improvements and public areas within the District, including, but not limited to, trash receptacles, street furniture, bike racks, entry signs, sidewalks, fencing, and retaining walls.

Specifically, not included as District improvements are those improvements located on private property, improvements and facilities that are outside the boundaries of the District and/or area funded by other sources available to the City.

## Public Lighting Improvements

The lighting improvements may include, but are not limited to, the cost of providing, maintaining, and servicing of lighting fixtures, poles, meters, conduits, electrical cable, and associated appurtenant facilities associated with:

- Lighting facilities within the landscaped areas and public areas including safety lights, security lights or ornamental lights installed as part of the District improvements; and
- Public street light improvements located on the streets within the District. Specifically excluded from the assessment are the street light energy costs. These costs are to be paid for by the City from other revenue sources.

Detailed maps and descriptions of the location and extent of the specific improvements to be maintained by the District are on file in the Office of Public Works and by reference are made part of this Report.

## Description of Maintenance and Services

Maintenance means the furnishing of services and materials for the ordinary and usual maintenance, operation and servicing of landscaping and street lighting improvements facilities and appurtenant facilities, including repair, removal or replacement of all or part of any of the landscaping and street lighting improvements, or appurtenant facilities; providing for the life, growth, health and beauty of landscaping improvements including cultivation, irrigation, trimming, mowing, spraying, fertilizing and treating for disease or injury; the removal of trimmings, rubbish, debris and other solid waste; and the cleaning sandblasting, and painting of walls and other improvements to remove or cover graffiti.

Servicing means the furnishing of water and electricity for the irrigation of the landscape improvements or appurtenant facilities and the furnishing of electric current or energy for the operation of the landscaping improvements or appurtenant facilities. The street lighting improvements shall be maintained to provide adequate illumination; however, the City will be paying the actual energy costs of the streetlights.

# II. METHOD OF APPORTIONMENT

## A. GENERAL

The Implementation Act permits the establishment of assessment districts by agencies for the purpose of providing certain public improvements, which include the construction, maintenance, and servicing of landscaping improvements, streetlights, and traffic signals.

Streets and Highways Code Section 22573 requires that maintenance assessments be levied according to benefit rather than the assessed value.

> *"The net amount to be assessed upon lands within an assessment district may be apportioned by any formula or method which fairly distributes the net amount among all assessable lots or parcels in proportion to the estimated benefits to be received by each such lot or parcel from the improvements."*

In addition, Article XIIID and the Implementation Act require that a parcel's assessment may not exceed the reasonable cost for the proportional special benefit conferred to that parcel. Article XIIID and the Implementation Act further provides that only special benefits are assessable, and the City must separate the general benefits from the special benefits. They also require that publicly owned properties that specifically benefit from the improvements be assessed.

## B. SPECIAL BENEFIT ANALYSIS

In conjunction with the provisions of the 1972 Act, the California Constitution Article XIIID addresses several key criteria for the levy of assessments, notably:

Article XIIID Section 2d defines District as follows:

"District means an area determined by an agency to contain all parcels which will receive a special benefit from a proposed public improvement or property-related service;"

Article XIIID Section 2i defines Special Benefit as follows:

"Special benefit" means a particular and distinct benefit over, and above general benefits conferred on real property located in the district or to the public at large. General enhancement of property value does not constitute "special benefit."

Article XIIID Section 4a defines proportional special benefit assessments as follows:

"An agency which proposes to levy an assessment shall identify all parcels which will have a special benefit conferred upon them and upon which an assessment will be imposed. The proportionate special benefit derived by each identified

parcel shall be determined in relationship to the entirety of the capital cost of a public improvement, the maintenance and operation expenses of a public improvement, or the cost of the property related service being provided. No assessment shall be imposed on any parcel which exceeds the reasonable cost of the proportional special benefit conferred on that parcel."

This District was formed to establish and provide for the improvements that enhance the presentation of the surrounding properties and developments. These improvements will directly benefit the parcels to be assessed within the District. The assessments and method of apportionment is based on the premise that the assessments will be used to construct and install landscape and lighting improvements within the District as well as provide for the annual maintenance of those improvements, and the assessment revenues generated by District will be used solely for such purposes.

The costs of the proposed improvements have been identified and allocated to properties within the District based on special benefit. The improvements to be provided by this District and for which properties will be assessed have been identified as an essential component and local amenity that provides a direct reflection and extension of the properties within the District which the property owners and residents have expressed a high level of support.

The method of apportionment (method of assessment) set forth in the Report is based on the premise that each assessed property receives special benefits from the landscape and lighting improvements within the District, and the assessment obligation for each parcel reflects that parcel's proportional special benefits as compared to other properties that receive special benefits.

To identify and determine the proportional special benefit to each parcel within the District, it is necessary to consider the entire scope of the improvements provided as well as the properties that benefit from those improvements. The improvements and the associated costs described in this Report have been carefully reviewed and have been identified and allocated based on a benefit rationale and calculations that proportionally allocate the net cost of only those improvements determined to be of special benefit to properties within the District. The various public improvements and the associated costs have been identified as either "general benefit" (not assessed) or "special benefit."

Proper maintenance and operation of parkway landscaping and streetlights provides special benefit to adjacent properties by providing community character, security, safety, and vitality. In addition, these improvements will enhance the ability of property owners to attract and maintain customers as well as increase the viability of commercial development.

### Landscaping Special Benefit

Landscaping and appurtenant facilities, if well maintained, provide beautification, shade, and enhancement of the desirability of the surroundings, and therefore increase property value. Specifically, they provide a sense of ownership and a common theme in the community providing aesthetic appeal and increased desirability of properties.

Landscaping provides special benefit to those developments that are directly adjacent to the public streets.

### Landscaping General Benefit

The Improvements were installed to directly benefit the property owners in the District to enhance business and development opportunities. Therefore, it has been determined that there are no general benefits associated with the landscaping improvements.

### Lighting Special Benefit

The operation, maintenance and servicing of lighting along local streets and arterial streets of a development provide the following special benefits:

- Improved security of lots and parcels along the perimeter of the development;
- Improved nighttime visibility for the local access of emergency vehicles; and
- Improved safety and traffic circulation to and from parcels.

### Street Lights General Benefit

Similar to the landscaping improvements described above, the Improvements were installed to directly benefit the property owners in the District to enhance business and development opportunities. Therefore, it has been determined that there are no general benefits associated with lighting improvements.

## C. ASSESSMENT METHODOLOGY

To establish the special benefit to the individual parcels within the District, a formula that spreads the costs of the maintenance based on the special benefit must be established. The improvements have been reviewed and a formula has been established to apportion the maintenance costs based on benefit.

The method of assessment is based on the front footage of each parcel located within the District. The parcel's Front Footage was determined based on Assessor Parcel maps or other sources. Only Front Footage on Riverside Avenue was used.

Based on the above formula, the FY 2007/08 maximum assessment rate approved on January 17, 2007 through a property owner balloting (the "Initial

Assessment Rate" or the "Base Year Maximum Assessment Rate") is $6.45 per each foot of frontage.

The following formulas were used to first calculate the District's Initial Assessment Rate and then each parcel's FY 2007/08 assessment (proportional benefit):

**Step 1:**

**Balance to Levy ÷ Total Front Footage =**
**Maximum Front Footage Rate**

**Step 2:**

**Parcel Front Footage x Maximum Front Footage Rate =**
**Maximum Assessment**

The Total Front Footage was the sum of all the Front Feet within the District. The Initial Assessment Rate per Front Foot was established by taking the total cost of improvements (Balance to Levy) and dividing that amount by the Total Front Footage within the District. The Initial Assessment Rate per Front Foot, which is also the FY 2007/08 Maximum Front Footage Rate, is then applied back to each individual parcel's Front Footage to determine the parcel's proportionate special benefit and assessment obligation (The FY 2007/08 Maximum Assessment).

## D. ASSESSMENT RANGE FORMULA

The purpose of establishing an Assessment Range Formula is to provide for reasonable increases and inflationary adjustment to annual assessment rates without requiring the District to go through the requirements of Proposition 218 in order to get a small increase in assessments. This District provides for an annual adjustment to the Maximum Assessment Rate of the lesser of the percentage change in the area's Local Consumer Price Index for All Urban Consumers, which is currently the San Francisco-Oakland-Hayward Consumer Price Index for All Urban Consumers (the "CPI") or three percent (3%) (the "Escalation Percentage"). The CPI in this adjustment shall be determined through CPI data from the Bureau of Labor Statistics from December to December, beginning with the period from December 2006 to December 2007.

In applying this year's inflationary adjustment, the Escalation Percentage will increase the FY 2026/27 maximum assessment rate by 3.00% over that of the prior year.

The Assessment Range Formula shall be applied to all future assessments within the District beginning in fiscal year 2008/09. Generally, if the proposed annual assessment rate for the current fiscal year is less than or equal to the calculated Maximum Assessment Rate, then the proposed annual assessment is not considered an increased assessment. The Maximum Assessment Rate is equal to the FY 2007/08 Maximum Assessment Rate, which was approved on January 17, 2007 through a property owner balloting (the “Initial Assessment Rate” or “Base Year Assessment Rate”) and adjusted annually by the Escalation Percentage.

Beginning in the second fiscal year (Fiscal Year 2008/09) and each fiscal year thereafter, the Maximum Assessment Rate would be recalculated, and a new Maximum Assessment Rate established within the District.

The Maximum Assessment Rate is adjusted annually and is calculated independent of the District’s annual budget and proposed annual assessment. Any proposed annual assessment is not considered an increased assessment, even if the proposed assessment is greater than the assessment applied in the prior fiscal year.

Although the Maximum Assessment Rate will increase each year, the actual assessment rate may remain unchanged. The Maximum Assessment Rate adjustment is designed to establish a reasonable limit on assessments. The Maximum Assessment Rate calculated each year does not require or facilitate an increase in the annual assessment rate and neither does it restrict assessments to the adjusted maximum amount. If the budget and assessment for the fiscal year do not require an increase, or the increase is less than the adjusted Maximum Assessment Rate, then the required budget and assessment may be applied without additional property owner balloting. If the budget and assessments calculated requires an increase greater than the adjusted Maximum Assessment, then the assessment is considered an increased assessment and would be subject to balloting.

# III. DISTRICT BUDGET

## A. FY 2026/27 BUDGET

| DESCRIPTION | AMOUNT (FUND 2023) |
|---|---|
| **DIRECT COSTS** | |
| Contract Maintenance - Landscaping | $7,453.08 |
| Repair & Maintenance - Landscaping | 9,000.00 |
| Repair & Maintenance - Lighting | 1,500.00 |
| Repair and Maintenance - Streetscape and Signage | 4,000.00 |
| Repair and Maintenance - Tree Work | 2,256.00 |
| Utilities | 10,000.00 |
| Rehab Reserve Expenditures - Non-Routine Tree Work | 1,850.00 |
| Rehab Reserve Expenditures | 25,000.00 |
| **Total Direct Costs** | **$61,059.08** |
| **ADMINISTRATION COSTS** | |
| City Administration | $1,001.00 |
| Contract Administration - Park's Dept | 1,738.00 |
| County Auditor Fees | 515.51 |
| Consulting & Professional Services | 4,365.00 |
| Public Hearing Publishing Costs | 392.00 |
| **Total Administrative Costs** | **$8,011.51** |
| **Total Direct and Administration Costs** | **$69,070.59** |
| **BUDGET ADJUSTMENTS** | |
| Replenishment/(Use) of Operating Reserve | $9,330.05 |
| Contribution for /(Use of) Rehab Reserve | (26,850.00) |
| Rounding Adjustment | (1.20) |
| **Total Adjustments** | **($17,521.15)** |
| **BALANCE TO LEVY** | **$51,549.44** |

Fund balance information is reported in Section C on the following page.

## B. FY 2026/27 ASSESSMENT RATES

| DESCRIPTION | AMOUNT (FUND 2023) |
|---|---|
| **FY 2026/27 ASSESSMENT DATA** | |
| Number of Assessable Parcels | 76 |
| Total Assessable Front Footage | 4,979.76 |
| **Assessment Rates** | |
| Applied Assessment Rate per each Foot of Frontage | 10.35179 |
| Maximum Assessment Rate per each Foot of Frontage | 10.35203 |
| **Potential Maximum Assessment** | **$51,550.65** |

## C. FY 2026/27 FUND BALANCE INFORMATION

| DESCRIPTION | AMOUNT (FUND 2023) |
|---|---|
| **OPERATING RESERVE** | |
| **Beginning Operating Reserve Balance 7-1-2026 (est.)** | **$44,804.57** |
| add: Replenishment from FY 2026/27 Levy | 9,330.05 |
| less: Use for FY 2026/27 Expenses | |
| Transfer from/(to) the Rehab Reserve | (23,605.08) |
| **Ending Operating Reserve Balance 6-30-2027 (est.)** | **$30,529.54** |
| **REHABILITATION RESERVE** | |
| **Beginning Rehab Reserve Balance 7-1-2026 (est.)** | **$96,095.43** |
| add: Collect from FY 2026/27 Levy | |
| less: Use for FY 2026/27 Rehab Projects | (26,850.00) |
| Transfer from/(to) the Operating Reserve | 23,605.08 |
| **Ending Rehab Reserve Balance 6-30-2027 (est.)** | **$92,850.51** |

## D. DESCRIPTION OF BUDGET ITEMS

Description of the terms used in the preceding Budget, Assessment Rates and Fund Balance tables are listed below:

### BUDGET:

**DIRECT COSTS**

**Contract Maintenance - Landscaping** - Includes all regularly scheduled contract labor, materials, supplies, and equipment required to properly maintain and ensure the satisfactory condition or maintenance of all landscaping improvements, irrigation, and related drainage systems, as well as maintenance of appurtenant facilities (the “improvements”).

**Repair & Maintenance - Landscaping -** This line item includes repairs that are generally unforeseen and not normally included in the annual maintenance contract costs. This may include repair of damaged amenities due to vandalism, storms, etc.

**Repair & Maintenance – Lighting -** This line item includes bulb replacement and repairs that are generally unforeseen. This may include repair of damaged amenities due to vandalism, storms, etc.

**Repair & Maintenance - Streetscape/Signage -** This line item includes repairs that are generally unforeseen and not normally included in the annual maintenance contract costs. This may include repair of damaged amenities due to vandalism, storms, etc.

**Repair & Maintenance – Tree Work** - This line item includes annual costs for tree maintenance not included in the annual contract maintenance portion of the budget. If zero, this line item may not be shown in the budget.

**Utilities** - The furnishing of water and electricity required for the operation and maintenance of the improvements.

**Rehab Reserve Expenditures - Non-Routine Tree Work** – Expected costs to maintain trees other than costs of annual repair and maintenance. If zero, this line item may not be shown in the budget.

**Rehab Reserve Project Expenditures** – Expected costs for installation, replacement, or planned upgrades of District improvements for the current year that were previously funded or accumulated in the Rehabilitation Reserve. The Rehabilitation Reserve is used to accumulate funds for costs associated with the future rehabilitation or replacement of District improvements that cannot be conveniently raised from a single year's assessment. If zero, this line item may not be shown in the budget.

## ADMINISTRATION COSTS

**City Administration** – Estimated costs incurred by the City Finance Department and other Departments in preparing the annual budget for the Engineer's Report, together with other financial information required to determine the annual assessment. These costs would also include the preparation, posting and publishing of public notices required for City Council action relating to the District, as well as costs to perform legal review of documents.

**Contract Administration – Park's Dept** – Estimated Costs of Park and Recreation Department staff to coordinate and oversee the maintenance contracts and overall repair and maintenance of the District. This amount also includes the

cost of the Department's estimates and analysis of certain budget items, estimated costs and useful lives of certain District Improvements.

**County Auditor Fees** - A fee of 1% of the total levy amount that is charged to the District by the County for placing assessments on property tax bills.

**Consulting and Professional Services** – Includes the costs and expenses of contracting with various professionals to provide legal, engineering and district administration services directly related to the District, including the calculation of the annual assessment amounts and the preparation of the Engineer's' Report.

**Public Hearing Publishing Costs** –Includes the out of pocket costs to publish public notices required for City Council action relating to the District.

**Total Direct and Administration Costs** – The total expected costs of the District.

## BUDGET ADJUSTMENTS

**Replenishment/(Use) of Operating Reserve** – A "Replenishment" increases the levy in order to replenish the Operating Reserve. On the other hand, a "Use" of the Operating Reserve decreases the levy by drawing funds from the Operating Reserve for current year expenditures. If zero, this line item may not be shown in the budget. Further information regarding the function of the Operating Reserve is provided under "FUND BALANCE INFORMATION" in the following pages of this Section.

**Contribution for /(Use of) Rehab Reserve** — A "Contribution" increases the levy in order to generate funding for the Rehabilitation Reserve. This reserve allows for the accumulation of funds for possible rehabilitation projects or replacements in future years. On the other hand, a "Use of" of the Rehabilitation Reserve provides current year funding of rehabilitation projects or replacements from available funds within the Rehabilitation Reserve. If zero, this line item may not be shown in the budget. Further information regarding the function of the Rehabilitation Reserve is provided under "FUND BALANCE INFORMATION" in the following pages of this Section.

**Rounding Adjustment** – The necessary rounding adjustment(s) due to limitations of the County property tax system that requires even penny levy amounts to be placed on the secured tax roll.

**BALANCE TO LEVY** - This is the total amount to be levied and collected through assessments for the current fiscal year for each zone. The Balance to Levy represents the sum of the total District costs together with any applicable adjustments to the budget as described above.

## ASSESSMENT RATES:

**Number of Assessable Parcels** - The total number of parcels that are expected to be assessed. Non-assessable lots or parcels include government-owned land, public utility-owned property, land principally encumbered by public rights-of-way or easements, common areas, and/or parcels within the boundaries of the District currently do not benefit from the improvements and are therefore not assessed.

**Total Assessable Front Footage -** The total amount of assessable Front Footage within the District in accordance with the Method of Assessment Section of this Report.

**Applied Assessment Rate -** The assessment rate to be applied to the front footage of each non-exempt parcel within the District for the current fiscal year.

**Maximum Assessment Rate -** The Maximum Assessment Rate per front foot for the current fiscal year.

**Potential Maximum Assessment** – The total amount that can be assessed against all non-exempt District parcels for the current fiscal year based upon the expected assessable front footage within the District.

## FUND BALANCE INFORMATION:

### OPERATING RESERVE

**Beginning Operating Reserve Balance 7-1-2026 (est.)** - The anticipated beginning balance of cash and receivables net of any unpaid prior year obligations for each Zone. These beginning balances shall be used to fund each Zone's expenditures from July 1, 2026 to December 31, 2026, as the Operating Reserve is required to compensate for the approximate six-month delay between the start of the District's fiscal year and the receipt of the collections from the County. All Rehabilitation Reserve balances, if any, are excluded from the Operating Reserve balances and shall be shown separately in the Report.

**Replenish from FY 2026/27 Levy** – This amount is added to the FY 2026/27 levy in order to replenish the Operating Reserve. Due to the six-month delay from the District's receipt of assessment collections, the Operating Reserve balance shall be sufficiently funded to provide for expenditures from July 1, 2026 (the beginning of the Fiscal Year) through December 31, 2026. If zero, this line item may not be shown in the budget.

**Use for FY 2026/27 Expenses** – The amount of the Operating Reserve to be used to fund FY 2026/27 expenses. Portions of the Operating Reserve may be slated for current year expenditures in order to reduce the Ending Operating Reserve Balance to an amount no greater than the expected District costs for the period of

July 1, 2026 (the beginning of the Fiscal Year) through December 31, 2026. If zero, this line item may not be shown in the budget.

**Transfer from/(to) the Rehab Reserve** — The amount of Operating Reserve monies to be transferred to or from the Rehabilitation Reserve. Periodically, funds held in a Rehabilitation Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Rehabilitation Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Parks and Recreation Department or equivalent, in order to provide for the maintenance and operation of the improvements. If zero, this line item may not be shown in the budget.

**Ending Operating Reserve Balance 6-30-2027 (est.)** - This amount represents the anticipated Operating Reserve balance/(deficit) for each Zone as of June 30, 2027. The size of each Zone's Operating Reserve is limited by Streets and Highways Code 22569 which states that an Operating Reserve shall not exceed the estimated costs of maintenance, service and incidental expenses from the first day of the fiscal year (July 1) to the date that the Agency expects to receive the first apportionment of collections from the County, which is estimated to be December 31. Therefore, each Zone may retain an Operating Reserve amounting to the District's first six-months of expenses in order to meet ongoing obligations until the first collections are received from the County. All Rehabilitation Reserve balances, if any, are excluded from the Operating Reserve balances and shall be shown separately in the Report.

## REHABILITATION RESERVE

**Beginning Rehab Reserve Balance 7-1-2026 (est.)** — The projected balance of funds in the Rehabilitation Reserve as of July 1, 2026. Streets and Highways Code 22660 allows the District to generate and accumulate funds over several years to fund District improvements that cannot be conveniently raised from a single year's assessment.

**Collect from FY 2026/27 Levy** — This amount is added to the levy to accumulate funding of future year rehabilitation projects, replacements, restorations, or upgrades of District improvements. If zero, this line item may not be shown in the budget.

**Use for FY 2026/27 Rehab Projects** – The amount of Rehabilitation Reserve monies expected to be transferred out of the Rehabilitation Reserve to fund the costs of installation, replacement, or planned upgrades of District improvements for the current year. If zero, this line item may not be shown in the budget.

**Transfer from/(to) the Operating Reserve** — The amount of Rehabilitation Reserve monies to be transferred to or from the Operating Reserve. Periodically, funds held in a Rehabilitation Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all

funds held in a Rehabilitation Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Parks and Recreation Department, in order to provide for the maintenance and operation of the improvements. If zero, this line item may not be shown in the budget.

**Ending Rehab Reserve Balance 6-30-2027 (est.)** - The projected balance of funds in the Rehabilitation Reserve as of June 30, 2027. These funds shall be used to provide for future year rehabilitation projects, replacements, restorations, or upgrades of District improvements which cannot be conveniently raised from a single year's assessment.

## E. REHABILITATION RESERVE – CAPITAL IMPROVEMENT PLAN

*Streets and Highways Code 22660* allows the District to generate and accumulate funds over several years to fund District improvements that cannot be conveniently raised from a single year's assessment.

The Report provides a five-year Capital Improvement Plan ("CIP") which shows projected expenditures related to the rehabilitation, restoration and/or replacement of District improvements, and other allowable costs. The Current Fiscal Year CIP is shown in the preceding Budget Section A. The projected CIP costs for the remaining four years are shown in the table below.

| Description | FY 2027-28 | FY 2028-29 | FY 2029-30 | FY 2030-31 | 4 Year Total |
|---|---|---|---|---|---|
| Improve hardscapes, monuments, landmarks, gateway features | $3,000 | $3,000 | $3,000 | $3,000 | $12,000 |
| Non-routine tree work | 1,906 | 1,963 | 2,022 | 2,082 | 7,972 |
| Improve street furniture, trash receptacles, bike racks, bus stop shelters | 4,000 | 3,000 | 3,000 | 3,000 | 13,000 |
| Replace plants, landscaping, irrigation and/or drainage systems | 7,700 | 7,700 | 7,700 | 7,700 | 30,800 |
| Replace public street lights, lighting fixtures, poles/meters, safety, security, ornamental lights | 5,000 | 5,000 | 5,000 | 5,000 | 20,000 |
| Replace entry signs and decorative banners and hardware | 4,000 | 0 | 4,000 | 1,079 | 9,079 |
| **Total Projected Expenditures** | **$25,606** | **$20,663** | **$24,722** | **$21,861** | **$92,851** |

From time to time, funds held in a Rehabilitation Reserve may be needed to respond to changing needs due to the condition of the improvements or other factors. Accordingly, any or all funds held in a Rehabilitation Reserve are subject to transfer into the District's Operating Reserve, at the discretion of the Parks and Recreation Department or equivalent, to provide for the maintenance and/or operation of the improvements.

# APPENDIX A – DISTRICT BOUNDARY MAP

The boundary map for the District has previously been submitted to the Clerk of the City in the format required under the Act and is, by reference, hereby made part of this Report. These District Boundary Maps are available for inspection at the office of the City Clerk during normal business hours.

For general reference purposes, a summary of the District's Boundaries is presented herein.

# APPENDIX B — FY 2026/27 ASSESSMENT ROLL

Parcel identification, for each lot or parcel within the District, shall be the parcel as shown on the Placer County Assessor's map for the year in which this Report is prepared.

A listing of parcels to be assessed within this District, along with the proposed assessment amounts, shall be submitted to the City Clerk, under separate cover, and by reference is made part of this Report.

Non-assessable lots or parcels may include areas of public streets and other roadways (typically not assigned an APN by the County); dedicated public easements, open space areas and rights-of-ways including public greenbelts and parkways; utility rights-of-ways; common areas; landlocked parcels, small parcels vacated by the County, bifurcated lots, and any other property that cannot be developed. These types of parcels are considered to receive little or no benefit from the improvements and are therefore exempt from assessment.

At the conclusion of the public hearing for the District and the proposed assessments, approval of the Report (as submitted or as modified) confirms the method of apportionment and the assessment rate to be levied against each eligible parcel and thereby constitutes the approved levy and collection of assessments for FY 2026/27. The listing of parcels and the amount of assessment to be levied shall be submitted to the County Auditor/Controller and included on the FY 2026/27 property tax roll for each parcel.

If any parcel submitted for collection is identified by the County Auditor/Controller to be an invalid parcel number for the Current Fiscal Year, a corrected parcel number and/or new parcel number will be identified and resubmitted to the County Auditor/Controller. The assessment amount to be levied and collected for the resubmitted parcel or parcels shall be based on the method of apportionment and assessment rate approved in this Report. Therefore, if a single parcel has changed to multiple parcels, the assessment amount applied to each of the new parcels shall be recalculated and applied according to the approved method of apportionment and assessment rate rather than a proportionate share of the original assessment.

**RESOLUTION NO. 26-143**

**A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, INITIATING PROCEEDINGS FOR THE ANNUAL LEVY OF ASSESSMENTS FOR THE VERNON STREET LANDSCAPING AND LIGHTING DISTRICT, FOR FISCAL YEAR 2026/2027, PURSUANT TO THE PROVISIONS OF PART 2 OF DIVISION 15 OF THE CALIFORNIA STREETS AND HIGHWAYS CODE**

The City Council of the City of Roseville, California (hereafter referred to as the "City Council") does resolve as follows:

**WHEREAS,** the City Council has, by previous resolutions, formed the Vernon Street Landscaping and Lighting District (hereafter referred to as the "District") pursuant to the provisions of the *Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the Streets and Highways Code of California, beginning with Section 22500* (hereafter referred to as the "Act"), which provides for the levy and collection of assessments by the County of Placer for the City of Roseville to pay for the maintenance and services of street lighting, landscaping, and all appurtenant facilities and operations related thereto; and

**WHEREAS**, the City Council has retained Willdan Financial Services (hereafter "Engineer") for the purpose of assisting with the establishment of the assessments, the annexation of territory, and the preparation and filing of an Engineer's Annual Levy Report (hereafter referred to as the "Engineer's Report") with the City Clerk in accordance with the Act, and the California Constitution, Articles XIIIC and XIIID;

**NOW, THEREFORE, BE IT RESOLVED, DETERMINED, AND ORDERED BY THE CITY COUNCIL FOR THE VERNON STREET LANDSCAPING AND LIGHTING DISTRICT, AS FOLLOWS:**

**Section 1** Engineer's Report: The City Council hereby orders the Engineer to prepare and file with the City Clerk the Engineer's Report concerning the levy of assessments for the District in accordance with Chapter 3, Section 22622 of the Act.

**Section 2** Proposed improvements and any substantial changes in existing improvements: The District improvements include: the maintenance and operation of and the furnishing of services, materials and/or improvements for landscape, lighting, hardscape and streetscape areas, and other public improvements within the street right-of-way areas and all appurtenant facilities related thereto as further described in the Engineer's Report. The Engineer's Report also describes all new improvements or substantial changes in existing improvements.

**RESOLUTION NO. 26-144**

**A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, DECLARING ITS INTENTION TO LEVY ANNUAL ASSESSMENTS FOR THE VERNON STREET LANDSCAPING AND LIGHTING DISTRICT, FISCAL YEAR 2026/2027**

The City Council of the City of Roseville, California (hereafter referred to as the "City Council") does resolve as follows:

**WHEREAS,** the City Council has, by previous Resolutions, formed the Vernon Street Landscaping and Lighting District (hereafter referred to as the "District"), and initiated proceedings for Fiscal Year 2026/2027, pursuant to the provisions of the *Landscaping and Lighting Act of 1972*, *Part 2 of Division 15 of the Streets and Highways Code of California*, *beginning with Section 22500* (hereafter referred to as the "Act"), which provides for the levy and collection of assessments by the County of Placer for the City of Roseville to pay for the maintenance, operation and servicing of all improvements and facilities related thereto; and

**WHEREAS,** the City Council has retained Willdan Financial Services for the purpose of assisting with the Annual Levy of the District and the preparation and filing of a report (hereinafter referred to as the "Engineer's Report") with the City Clerk in accordance with the Act;

**NOW, THEREFORE, BE IT RESOLVED, DETERMINED, AND ORDERED BY THE CITY COUNCIL FOR THE VERNON STREET LANDSCAPING AND LIGHTING DISTRICT, PURSUANT TO *CHAPTER 3, SECTION 22624* OF THE ACT, AS FOLLOWS:**

**Section 1** Intention: The City Council hereby declares that it is its intention to seek the Annual Levy of the District pursuant to the Act, over and including the land within the District boundary, and to levy and collect assessments on all such land to pay for the annual costs of the improvements.

**Section 2** Proposed improvements and any substantial changes in existing improvements: The District improvements include: the maintenance and operation of and the furnishing of services, materials or improvements for landscape, lighting, hardscape and streetscape areas within the District including, gateways, signage, street trees, sidewalks, curbs, gutters, parking stripes, pavers, planters, turf, trees, irrigation systems, drainage systems, and other public improvements within the street right-of-way areas and all appurtenant facilities related thereto as further described in the Engineer's Report. The Engineer's Report also describes all new improvements or substantial changes in existing improvements.

**Section 3** Boundaries and Designation: The boundaries of the District as previously defined in the formation documents of the original District. The District is known and designated as:

**"Vernon Street Landscaping and Lighting District"**

**Section 4** Proposed Assessment Amounts: The proposed assessments are outlined in the Engineer's Report. District Assessments are calculated in accordance with the method of apportionment established for the District and do not exceed the assessment rates and annual inflationary adjustment previously authorized by the City Council and approved by the property owners in accordance with the provisions of the California State Constitution, Article XIIID.

**Section 5** Public Hearing: The City Council hereby declares its intention to conduct a Public Hearing annually concerning the levy of assessments for the District in accordance with *Chapter 3, Section 22626* of the Act.

**Section 6** Notice: The City Clerk shall give notice of the time and place of the Public Hearing by causing this resolution to be published once in the local newspaper not less than ten (10) days before the date of the hearing and by posting a copy of this resolution on the official bulletin board customarily used by the City Council for the posting of notices.

**Section 7** Time and Place of Public Hearing: Notice is hereby given that a Public Hearing on these matters will be held by the City Council on **Wednesday, June 3, 2026 at 6:00 p.m.**, or as soon thereafter as feasible in the regular meeting chambers located at 311 Vernon Street, Roseville, California.

**RESOLUTION NO. 26-145**

**A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROSEVILLE, CALIFORNIA, FOR PRELIMINARY APPROVAL OF THE ENGINEER'S ANNUAL LEVY REPORT FOR THE VERNON STREET LANDSCAPING AND LIGHTING DISTRICT, FISCAL YEAR 2026/2027**

The City Council of the City of Roseville, California (hereafter referred to as the "City Council") does resolve as follows:

**WHEREAS,** the City Council has, by previous Resolutions, ordered the preparation of an Annual Levy Report (hereafter referred to as the "Engineer's Report") for the district known and designated as the Vernon Street Landscaping and Lighting District (hereafter referred to as the "District"), pursuant to the provisions of the *Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the Streets and Highways Code of California*, *beginning with Section 22500* (hereinafter referred to as the "Act"); and,

**WHEREAS**, the City Council has retained Willdan Financial Services (hereinafter "Engineer"), for the purpose of assisting with the establishment of the assessments and the preparation and filing of an Engineer's Report with the City Clerk in accordance with the Act and the requirements of the California Constitution, Articles XIIIC and XIIID; and

**WHEREAS,** there has now been presented to this City Council the Engineer's Report as required by *Chapter 1, Article 4, Section 22566* of said Act; and

**WHEREAS,** this City Council has carefully examined and reviewed the Engineer's Report as presented, and is preliminarily satisfied with the District and with each of the budget items and documents set forth therein, and further finds that the assessments, on a preliminary basis, have been spread in accordance with the benefits received from the improvements, operation, maintenance, and services to be performed within the District, as set forth in said Engineer's Report; and

**NOW, THEREFORE, BE IT RESOLVED, DETERMINED, AND ORDERED BY THE CITY COUNCIL FOR THE VERNON STREET LANDSCAPING AND LIGHTING DISTRICT, AS FOLLOWS:**

**Section 1** That the above recitals are all true and correct.

**Section 2** That the Engineer's Report, as presented, consists of the following:

a. A Description of Improvements
b. The Annual Budget (Costs and Expenses of Maintenance, Services, Operations and District Administration)
c. The Assessment Roll containing the Fiscal Year 2026/2027 Levy for each Assessor Parcel within the District

**Section 3** The Engineer's Report is hereby approved on a preliminary basis and ordered to be filed in the Office of the City Clerk as a permanent record and to remain open to public inspection.

**Section 4** That the City Clerk shall certify to the passage and adoption of this Resolution, and the minutes of this meeting shall reflect the presentation of the Engineer's Report.

# I. OVERVIEW

## A. INTRODUCTION

The City of Roseville ("City") annually levies and collects special assessments in order to maintain the improvements within the Vernon Street Landscaping and Lighting District ("District"). The District was formed in January of 2001 and is levied annual assessments pursuant to *the Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the California Streets and Highways Code* ("1972 Act").

The Engineer's Report ("Report") describes the District, any new annexations, changes to the District, and the proposed assessments for the period of July 1, 2026 through June 30, 2027. The special benefit assessments are based on historical and estimated costs to maintain the District improvements. These assessments, which provide a direct and special benefit to properties within the District, will provide funding for the operation and maintenance of District improvements.

The word "parcel," for the purposes of this Report, refers to an individual property assigned its own Assessor's Parcel Number ("APN") by the Placer County Assessor's Office. The Placer County Auditor/Controller uses Assessor's Parcel Numbers and specific Tax Code Accounts, to identify on the County's tax roll, properties assessed for special district benefit assessments.

Following approval of the Report, the City Council will by resolution, order the improvements to be made and confirm the levy and collection of assessments herein pursuant to the Act. The assessment rates and method of apportionment described in this Report as approved or modified by the City Council define the assessments to be applied to each parcel within the District for Fiscal Year ("FY") 2026/27. The assessments as approved will be submitted to the Placer County Auditor/Controller to be included on the property tax roll for each parcel.

If any parcel submitted for collection is identified by the County Auditor/Controller to be an invalid parcel number for the Current Fiscal Year, a corrected parcel number and/or new parcel number will be identified and resubmitted to the County Auditor/Controller. The assessment amount to be levied and collected for the resubmitted parcel or parcels shall be based on the method of apportionment and assessment rate approved by the City Council.

## B. COMPLIANCE WITH THE CURRENT LEGISLATION

All assessments described in this Report and approved by the City Council are prepared in accordance with the 1972 Act and are in compliance with the provisions of the California Constitution Article XIIID (Proposition 218).

The District has been formed pursuant to the Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the California Streets and Highways Code. Pursuant

to the Act, an annual Public Hearing is conducted by the City Council to accept property owner and public comments, to review the Engineer's Annual Levy Report prior to approving the annual assessments to be levied on the County tax rolls. The assessments described in this Report have been prepared in accordance with the Act.

Prior to FY 2001/02, the City initiated (Resolution 00-523) and conducted property owner protest ballot proceedings (Resolution 01-22) in accordance with Article XIIID of the California Constitution ("Article XIIID") for the parcels within the District. An annual rate escalator was also included in the ballot that allows for an annual inflationary increase equal to the percentage change in the Consumer Price Index of the San Francisco-Oakland-Hayward Area (the "CPI") of each succeeding year (the "Escalation Percentage"). At the conclusion of the Public Hearing held on January 17, 2001, all property owner ballots returned were tabulated to determine if majority protest existed. The result of the protest proceeding was an approval of the assessment rate and the annual inflationary increase for maintaining the improvements within the District.

Pursuant to the Act, an annual Public Hearing is conducted by the City Council to accept property owner and public comments, to review the Engineer's Annual Levy Report prior to approving the annual assessments to be levied on the County tax rolls.

## C. DESCRIPTION OF DISTRICT BOUNDARIES

The District is located in downtown Roseville and includes all parcels that front along Vernon Street between Folsom Road and the Riverside/Douglas Boulevard. See Appendix A for District boundary map.

## D. IMPROVEMENTS AUTHORIZED BY THE 1972 ACT

As applicable or may be applicable to a proposed District, the 1972 Act defines improvements to mean one or any combination of the following:

- The installation or planting of landscaping.
- The installation or construction of statuary, fountains, and other ornamental structures and facilities.
- The installation or construction of public lighting facilities.
- The installation or construction of any facilities which are appurtenant to any of the foregoing or which are necessary or convenient for the maintenance or servicing thereof, including, but not limited to, grading, clearing, removal of debris, the installation or construction of curbs, gutters, walls, sidewalks, or paving, or water, irrigation, drainage, or electrical facilities.
- The maintenance or servicing, or both, of any of the foregoing.
- The acquisition of any existing improvement otherwise authorized pursuant to this section.

Incidental expenses associated with the improvements including, but not limited to:

- The cost of preparation of the report, including plans, specifications, estimates, diagram, and assessment;
- The costs of printing, advertising, and the publishing, posting, and mailing of notices;
- Compensation payable to the County for collection of assessments;
- Compensation of any engineer or attorney employed to render services;
- Any other expenses incidental to the construction, installation, or maintenance and servicing of the improvements;
- Any expenses incidental to the issuance of bonds or notes pursuant to Section 22662.5.
- Costs associated with any elections held for the approval of a new or increased assessment.

The 1972 Act defines "Maintain" or "maintenance" to mean furnishing of services and materials for the ordinary and usual maintenance, operation, and servicing of any improvement, including:

- Repair, removal, or replacement of all or any part of any improvement.
- Providing for the life, growth, health, and beauty of landscaping, including cultivation, irrigation, trimming, spraying, fertilizing, or treating for disease or injury.
- The removal of trimmings, rubbish, debris, and other solid waste.
- The cleaning, sandblasting, and painting of walls and other improvements to remove or cover graffiti.

Furthermore, the 1972 Act specifies that where the cost of improvements (other than maintenance and operations) is greater than can be conveniently raised from a single annual assessment, an assessment to be levied and collected in annual installments. In that event, the governing body may choose to do any of the following:

- Provide for the accumulation of the moneys in an improvement fund until there are sufficient moneys to pay all or part of the cost of the improvements.
- Provide for a temporary advance to the improvement fund from any available and unencumbered funds of the local agency to pay all or part of the cost of the improvements and collect those advanced moneys from the annual installments collected through the assessments.
- Borrow an amount necessary to finance the estimated cost of the proposed improvements. The amount borrowed, including amounts for bonds issued to finance the estimated cost of the proposed improvements.

## E. DESCRIPTION OF THE IMPROVEMENTS AND MAINTENANCE

The District ensures the continued maintenance, servicing, administration and operation of various landscape, lighting and streetscape improvements and associated appurtenances that are required to keep the improvements in a healthy, vigorous, and satisfactory condition. The assessable parcels receive benefit from the above improvements within the District.

Specific improvements include installation, maintenance and servicing of public facilities, including, but not limited to street trees, sidewalks, curbs, gutters, parking stripes, turf, brick pavers, planters, gateways, benches, bike racks, signage, trash receptacles, and lighting throughout the boundaries of the District (the "Improvements').

As applied herein, "installation" means the construction of public Improvements, including, but not limited to, land preparation, such as grading, leveling, cutting, and filling, sod, landscaping, irrigation systems, sidewalks and drainage, lights, equipment, turf, brick pavers, planters, gateways, benches, bike racks and signage.

"Maintenance" means the furnishing of services and materials for the ordinary and usual maintenance, operation and servicing of any Improvement, including repair, removal or replacement of all or any part of any Improvement; providing for the life, growth, health, and beauty of landscaping, including cultivation, irrigation, trimming, spraying, fertilizing, or treating for disease or injury; the removal of trimmings, rubbish, debris, and other solid waste, and the cleaning, sandblasting, and painting of Improvements to remove or cover graffiti.

"Servicing" means the furnishing of electric current, or energy, gas, or other illuminating agent for any public lighting facilities or for the lighting or operation of any other Improvements; or water for the irrigation of any landscaping, the operation of any fountains, or the maintenance of any other Improvements.

Plans and specification for the Improvements to be maintained are on file in the office of the Economic and Community Services Director at 311 Vernon Street, Roseville, CA 95678.

All assessable parcels identified as being within the District share in both the cost and the benefits of the improvements. The costs associated with the Improvements are equitably spread among all benefiting parcels within the District. Only parcels that receive direct benefit from the Improvements are assessed, and each parcel is assessed in proportion to the estimated benefit received. The funds collected are dispersed and used for only the services and operation provided to the District.

# II. METHOD OF APPORTIONMENT

## A. GENERAL

The 1972 Act permits the establishment of assessment districts by agencies for the purpose of providing certain public improvements which include the construction, maintenance and servicing of public lights, landscaping, and appurtenant facilities. The 1972 Act further requires that the cost of these improvements be levied according to benefit rather than assessed value:

> *"The net amount to be assessed upon lands within an assessment district may be apportioned by any formula or method which fairly distributes the net amount among all assessable lots or parcels in proportion to the estimated benefits to be received by each such lot or parcel from the improvements."*

The formula used for calculating assessments in the District therefore reflects the composition of the parcels, and the Improvements and services provided, to fairly apportion the costs based on estimated benefit to each parcel.

## B. BENEFIT ANALYSIS

In conjunction with the provisions of the 1972 Act, the California Constitution Article XIIID addresses several key criteria for the levy of assessments, notably:

Article XIIID Section 2d defines District as follows:

"District means an area determined by an agency to contain all parcels which will receive a special benefit from a proposed public improvement or property-related service";

Article XIIID Section 2i defines Special Benefit as follows:

"Special benefit" means a particular and distinct benefit over, and above general benefits conferred on real property located in the district or to the public at large. General enhancement of property value does not constitute "special benefit."

Article XIIID Section 4a defines proportional special benefit assessments as follows:

"An agency which proposes to levy an assessment shall identify all parcels which will have a special benefit conferred upon them and upon which an assessment will be imposed. The proportionate special benefit derived by each identified parcel shall be determined in relationship to the entirety of the capital cost of a public improvement, the maintenance and operation expenses of a public improvement, or the cost of the property related service being provided. No assessment shall be

imposed on any parcel which exceeds the reasonable cost of the proportional special benefit conferred on that parcel."

This District was formed to establish and provide for the improvements that enhance the presentation of the surrounding properties and developments. These improvements will directly benefit the parcels to be assessed within the District. The assessments and method of apportionment is based on the premise that the assessments will be used to construct and install landscape and lighting improvements within the District as well as provide for the annual maintenance of those improvements, and the assessment revenues generated by District will be used solely for such purposes.

The costs of the proposed improvements have been identified and allocated to properties within the District based on special benefit. The improvements to be provided by this District and for which properties will be assessed have been identified as an essential component and local amenity that provides a direct reflection and extension of the properties within the District which the property owners and residents have expressed a high level of support.

The method of apportionment (method of assessment) set forth in the Report is based on the premise that each assessed property receives special benefits from the landscape and lighting improvements within the District, and the assessment obligation for each parcel reflects that parcel's proportional special benefits as compared to other properties that receive special benefits.

To identify and determine the proportional special benefit to each parcel within the District, it is necessary to consider the entire scope of the improvements provided as well as the properties that benefit from those improvements. The improvements and the associated costs described in this Report have been carefully reviewed and have been identified and allocated based on a benefit rationale and calculations that proportionally allocate the net cost of only those improvements determined to be of special benefit to properties within the District. The various public improvements and the associated costs have been identified as either "general benefit" (not assessed) or "special benefit". The City initiated and conducted property owner protest ballot proceedings in accordance with Article XIIID. Each of the proposed Improvements, the associated costs and assessments were identified and allocated based on special benefit pursuant to the provisions of Article XIIID and 1972 Act. Additionally, the Improvements and the annual costs of ensuring the maintenance and operation of the Improvements are of direct and special benefit to the properties.

The City annually levies and collects special benefit assessments in order to maintain and service the District Improvements. The District provides for specific Improvements and services that include the maintenance and operation of landscaping and lighting Improvements and associated appurtenances located within the District's public rights-of-way and dedicated easements. The annual assessment is based on the historical and estimated cost to maintain the Improvements that provide a benefit to properties within these Districts. The

Improvements within the District and the costs of those Improvements are identified and budgeted separately, including all expenditures, deficits, surpluses, revenues, and reserves.

All Improvements within the District and the properties associated with those Improvements were reviewed for benefit prior to the formation of the District. Because the Improvements affront the benefited parcels, it has been determined that there is no measurable general benefit to properties outside the District or to the public at large. In making this determination it should be noted that similar improvements within California are typically maintained by individual property owners, through some type of association or a special district as allowed by State Law since the on-going maintenance of these improvements are a special benefit to the properties associated with those improvements.

The method of apportionment (method of assessment) for the District is based on the premise that each of the assessed parcels within the District receives special benefit from the Improvements maintained and financed by District assessments. The presence of these Improvements and the close proximity of the Improvements to the properties within the District enhance the desirability and security of properties within the District.

The landscape Improvements provided by the District may include landscaped parkways, perimeters, entryways, local medians, slopes, internal amenities, and appurtenant facilities. Street lighting Improvements may include all energy costs and necessary maintenance to the facilities related thereto. The annual assessments outlined in this Report are proposed to cover the estimated costs to provide all necessary service, operation, administration, and maintenance required to keep these Improvements in a healthy, vigorous, and satisfactory condition. The special benefits associated with the local landscaping Improvements are specifically:

The special benefits associated with all landscaping Improvements are specifically:

- Enhanced desirability of properties through association with the Improvements.
- Improved aesthetic appeal of properties providing a positive representation of the area and properties.
- Enhanced adaptation of the urban environment within the natural environment from adequate landscaping.
- Environmental enhancement through improved dust and debris control, and fire prevention.
- Increased sense of pride in ownership of property within the District resulting from well-maintained Improvements associated with the properties.
- Enhanced quality of life through well-maintained landscaped areas.

- Reduced criminal activity and property-related crimes (especially vandalism) against properties in the District through well-maintained surroundings and amenities including abatement of graffiti.
- Enhanced environmental quality of the parcels by moderating temperatures, providing oxygenation, and attenuating noise.

The special benefits of street lighting are the convenience, safety, and security of property, improvements, and goods. Specifically:

- Enhanced deterrence of crime and the aid to police protection.
- Increased nighttime safety on streets and roads within the Districts.
- Improved ability of pedestrians and motorists to see.
- Improved ingress and egress to property.
- Reduced vandalism and other criminal acts and damage to Improvements or property.
- Improved traffic circulation and reduced nighttime accidents and personal property loss.
- Increased promotion of business during nighttime hours in the case of commercial properties.

All of the preceding special benefits contribute to a specific enhancement and desirability of each of the assessed parcels within the District.

## C. DESCRIPTION OF THE METHOD OF APPORTIONMENT

Pursuant to the 1972 Act, the costs of the District may be apportioned by any formula or method that fairly distributes the net amount to be assessed, among all assessable parcels within the District in proportion to the estimated special benefits to be received by each such parcel from the Improvements. The special benefit formula used should reflect the composition of the parcels, the Improvements and services provided to fairly proportion the costs based on estimated special benefit to each parcel within the District. All assessable parcels within the District shall receive a direct special benefit from the services and Improvements provided by the District.

Article XIIID of the California Constitution specifies that only special benefits are assessable, and that the City must separate the general benefits from the special benefits conferred on any parcel. Since the District is a downtown business area and the Improvements that affront each District parcel primarily attract and retain an increased customer base, these benefits enhance the District parcels and there is no measurable benefit to the public at large. Therefore, 100% of the Improvements are considered special benefit to the District parcels. The cost of

maintaining the Improvements is therefore identified as special benefit and has been allocated to the special assessments.

It was determined that a uniform assessment rate per foot of frontage upon Vernon Street would fairly distribute the net amount to be assessed due to the following reasons:

1. The assessments are based upon a specific property owner's special benefit received from the Improvements.
2. The special benefits should be directly related to the extent at which a property fronts the improvements, relative to other properties in the District.

The base assessment rate for the District was $4.59 per linear foot in FY 2001/02 and was determined using the formula below.

$$\textit{Assessment Rate Per Foot} = \frac{\textit{Balance to Levy}}{\textit{Total Feet of Frontage}}$$

The annual assessment amount for each parcel was then determined using the formula below:

***Parcel Front Footage x Rate per Linear Foot = Parcel Assessment Amount***

## D. ANNUAL INFLATIONARY ADJUSTMENT

Commencing with FY 2002/03, the maximum assessment rate is to increase annually by the percentage change in the Consumer Price Index of the San Francisco-Oakland-Hayward ("CPI") as of January of each succeeding year (the "Escalation Percentage"). Since the Department of Labor, Bureau of Labor Statistics does not publish a CPI for January; the CPI for preceding month shall be used since this is the CPI *available* in the month of January. The District's starting CPI Index of 184.1, December of 2000, is hereby established as the base CPI (the "Base Year CPI Index").

In applying this year's CPI increase, the Escalation Percentage will increase the FY 2026/27 maximum assessment rate by 3.04% over that of the prior year.

If the proposed assessment increases over the prior fiscal year by a percentage no greater than the Escalation Percentage as defined above, then the proposed assessment is not considered an increase. This assessment range formula shall be applied to all future assessments within the District. Generally, if the proposed annual assessment rate for the Current Fiscal Year is less than or equal to the calculated maximum assessment rate, then the proposed annual assessment is not considered an increased assessment.

## E. APPEALS AND INTERPRETATION

Any property owner, who believes that the assessment levied on the subject property is in error as a result of incorrect information being used to apply the foregoing method of assessment, may file a written appeal with the Finance Director of the City of Roseville or his or her designee. Any such appeal is limited to correction of an assessment during the then current Fiscal Year. Upon the filing of any such appeal, the Director of Housing and Redevelopment or his or her designee will promptly review the appeal and any information provided by the property owner. If the Director of Housing and Redevelopment or his or her designee finds that the assessment should be modified, the appropriate changes shall be made to the assessment roll. However, if any such changes are approved after the County of Placer's deadline for adjustments to the tax roll, the Director of Housing and Redevelopment or his or her designee is authorized to approve a refund of the reduction amount to the property owner. Any dispute over the decision of the Director of Housing and Redevelopment, or his or her designee, shall be referred to the City Council of the City of Roseville and the decision of the City Council of the City of Roseville shall be final.

## F. DETERMINATION OF FRONT FOOTAGE

The front footage of each assessable parcel is subject to revision and/or correction using measurements of front footage found on the then current Placer County Assessor's Parcel Maps or through direct measurement by City personnel. Any such correction that increases a Parcel Assessment shall not be considered an increased assessment subject to the procedural provisions of Article XIIID.

# III. DISTRICT BUDGET

## A. FY 2026/27 BUDGET

| DESCRIPTION | AMOUNT (FUND 2019) |
|---|---|
| **DIRECT COSTS** | |
| Contract Maintenance - Landscaping | $4,758.60 |
| Repair & Maintenance - Landscaping | 11,400.00 |
| Repair & Maintenance - Lighting | 4,000.00 |
| Repair and Maintenance - Streetscape and Signage | 0.00 |
| Repair and Maintenance - Tree Work | 4,246.95 |
| Utilities | 14,689.00 |
| Rehab Reserve Expenditures - Non-Routine Tree Work | 2,600.00 |
| Rehab Reserve Project Expenditures | 15,000.00 |
| **Total Direct Costs** | **$56,694.55** |
| **ADMINISTRATION COSTS** | |
| City Administration | $932.00 |
| Contract Administration - Park's Dept | 2,434.00 |
| County Auditor Fees | 480.10 |
| Consulting & Professional Services | 4,362.00 |
| Public Hearing Publishing Costs | 389.00 |
| **Total Administrative Costs** | **$8,597.10** |
| **Total Direct and Administration Costs** | **$65,291.65** |
| **BUDGET ADJUSTMENTS** | |
| Replenishment/(Use) of Operating Reserve | $318.46 |
| Contribution for /(Use of) Rehab Reserve | (17,600.00) |
| Rounding Adjustment | (0.81) |
| **Total Adjustments** | **($17,282.35)** |
| **BALANCE TO LEVY** | **$48,009.30** |

Fund balance information is reported in Section C on the following page.

## B. FY 2026/27 ASSESSMENT RATES

| DESCRIPTION | AMOUNT (FUND 2019) |
|---|---|
| **FY 2026/27 ASSESSMENT DATA** | |
| Number of Assessable Parcels | 60 |
| Total Assessable Front Footage | 5,370.76 |
| **Assessment Rates** | |
| Applied Assessment Rates per each Foot of Frontage | $8.9390 |
| Maximum Assessment Rates per each Foot of Frontage | $8.9392 |
| **Potential Maximum Assessment** | **$48,010.11** |

## C. FY 2026/27 FUND BALANCE INFORMATION

| DESCRIPTION | AMOUNT (FUND 2019) |
|---|---|
| **OPERATING RESERVE** | |
| **Beginning Operating Reserve Balance 7-1-2026 (est.)** | **$54,881.52** |
| add: Replenishment from FY 2026/27 Levy | 318.46 |
| less: Use for FY 2026/27 Expenses | |
| Transfer from/(to) the Rehab Reserve | (26,852.70) |
| **Ending Operating Reserve Balance 6-30-2027 (est.)** | **$28,347.28** |
| **REHABILITATION RESERVE** | |
| **Beginning Rehab Reserve Balance 7-1-2026 (est.)** | **$104,112.48** |
| add: Collect from FY 2026/27 Levy | |
| less: Use for FY 2026/27 Rehab Projects | (17,600.00) |
| Transfer from/(to) the Operating Reserve | 26,852.70 |
| **Ending Rehab Reserve Balance 6-30-2027 (est.)** | **$113,365.18** |

## D. DESCRIPTION OF BUDGET ITEMS

Description of the terms used in the preceding Budget, Assessment Rates and Fund Balance tables are listed below:

### BUDGET

#### DIRECT COSTS

**Contract Maintenance - Landscaping** - Includes all regularly scheduled contract labor, materials, supplies, and equipment required to properly maintain and ensure the satisfactory condition or maintenance of all landscaping corridors, street medians, entryways, irrigation, and related drainage systems as well as maintenance of appurtenant facilities (the “improvements”).

**Repair & Maintenance – Landscaping** - This line item includes repairs that are generally unforeseen and not normally included in the annual maintenance contract costs. This may include repair of damaged amenities due to vandalism, storms, etc. If zero, this line item may not be shown in the budget.

**Repair & Maintenance – Lighting -** This line item includes bulb replacement and repairs that are generally unforeseen. This may include repair of damaged amenities due to vandalism, storms, etc.

**Repair & Maintenance - Streetscape/Signage -** This line item includes repairs that are generally unforeseen and not normally included in the annual maintenance contract costs. This may include repair of damaged amenities due to vandalism, storms, etc.

**Repair & Maintenance – Tree Work** - This line item includes annual costs for tree maintenance not included in the annual contract maintenance portion of the budget. If zero, this line item may not be shown in the budget.

**Utilities** - The furnishing of water and electricity required for the operation and maintenance of the improvements.

**Rehab Reserve Expenditures** – **Non-Routine Tree Work** – Expected costs to maintain trees other than costs of annual repair and maintenance. If zero, this line item may not be shown in the budget.

**Rehab Reserve Project Expenditures** – Expected costs for installation, replacement, or planned upgrades of District improvements for the current year that were previously funded or accumulated in the Rehabilitation Reserve. The Rehabilitation Reserve is used to accumulate funds for costs associated with the future rehabilitation or replacement of District improvements that cannot be conveniently raised from a single year's assessment. If zero, this line item may not be shown in the budget.

## ADMINISTRATION COSTS

**City Administration** – Estimated costs incurred by the City Finance Department and other Departments in preparing the annual budget for the Engineer's Report, together with other financial information required to determine the annual assessment. These costs would also include the preparation, posting and publishing of public notices required for City Council action relating to the District, as well as costs to perform legal review of documents.

**Contract Administration – Park's Dept** – Estimated Costs of Park and Recreation Department staff to coordinate and oversee the maintenance contracts and overall repair and maintenance of the District. This amount also includes the

cost of the Department's estimates and analysis of certain budget items, estimated costs and useful lives of certain District Improvements.

**County Auditor Fees** - A fee of 1% of the total levy amount that is charged to the District by the County for placing assessments on property tax bills.

**Consulting and Professional Services** – Includes the costs and expenses of contracting with various professionals to provide legal, engineering and district administration services directly related to the District, including the calculation of the annual assessment amounts and the preparation of the Engineer's' Report.

**Public Hearing Publishing Costs** –Includes the out-of-pocket costs to publish public notices required for City Council action relating to the District.

**Total Direct and Administration Costs** – The total expected costs of the District.

## BUDGET ADJUSTMENTS

**Replenishment/(Use) of Operating Reserve** – A "Replenishment" increases the levy in order to replenish the Operating Reserve. On the other hand, a "Use" of the Operating Reserve decreases the levy by drawing funds from the Operating Reserve for current year expenditures. If zero, this line item may not be shown in the budget. Further information regarding the function of the Operating Reserve is provided under "FUND BALANCE INFORMATION" in the following pages of this Section.

**Contribution for / (Use of) Rehab Reserve** — A "Contribution" increases the levy in order to generate funding for the Rehabilitation Reserve. This reserve allows for the accumulation of funds for possible rehabilitation projects or replacements in future years. On the other hand, a "Use of" of the Rehabilitation Reserve provides current year funding of rehabilitation projects or replacements from available funds within the Rehabilitation Reserve. If zero, this line item may not be shown in the budget. Further information regarding the function of the Rehabilitation Reserve is provided under "FUND BALANCE INFORMATION" in the following pages of this Section.

**Rounding Adjustment** – The necessary rounding adjustment(s) due to limitations of the County property tax system that requires even penny levy amounts to be placed on the secured tax roll.

**BALANCE TO LEVY** - This is the total amount to be levied and collected through assessments for the current fiscal year for each zone. The Balance to Levy represents the sum of the total District costs together with any applicable adjustments to the budget as described above.

## ASSESSMENT RATES:

**Number of Assessable Parcels -** The total number of parcels that are expected to be assessed. Non-assessable lots or parcels include government-owned land, public utility-owned property, land principally encumbered by public rights-of-way or easements, common areas, and/or parcels within the boundaries of the District currently do not benefit from the improvements and are therefore not assessed.

**Total Assessable Front Footage** - The total linear footage of that portion of each assessable parcel's boundary that is contiguous with Vernon Street.

**Applied Assessment Rate per Front Foot -** This amount represents the rate being applied to the front footage of each parcel for the Current Fiscal Year.

**Maximum Assessment Rate per Front Foot -** This amount represents the maximum rate that can be applied to the front footage of each parcel for the Current Fiscal Year.

**Maximum Potential Assessment –** The total amount that is expected to be assessed against all parcels within the District for the Current Fiscal Year.

## FUND BALANCE INFORMATION:

### OPERATING RESERVE

**Beginning Operating Reserve Balance 7-1-2026 (est.)** - The anticipated beginning balance of cash and receivables net of any unpaid prior year obligations for each Zone. These beginning balances shall be used to fund each Zone's expenditures from July 1, 2026 to December 31, 2026, as the Operating Reserve is required to compensate for the approximate six-month delay between the start of the District's fiscal year and the receipt of the collections from the County. All Rehabilitation Reserve balances, if any, are excluded from the Operating Reserve balances and shall be shown separately in the Report.

**Replenish from FY 2026/27 Levy** – This amount is added to the FY 2026/27 levy in order to replenish the Operating Reserve. Due to the six-month delay from the District's receipt of assessment collections, the Operating Reserve balance shall be sufficiently funded to provide for expenditures from July 1, 2026 (the beginning of the Fiscal Year) through December 31, 2026. If zero, this line item may not be shown in the budget.

**Use for FY 2026/27 Expenses** – The amount of the Operating Reserve to be used to fund FY 2026/27 expenses. Portions of the Operating Reserve may be slated for current year expenditures in order to reduce the Ending Operating Reserve Balance to an amount no greater than the expected District costs for the period of July 1, 2026 (the beginning of the Fiscal Year) through December 31, 2026. If zero, this line item may not be shown in the budget.

**Transfer from/(to) the Rehab Reserve** — The amount of Operating Reserve monies to be transferred to or from the Rehabilitation Reserve. Periodically, funds held in a Rehabilitation Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Rehabilitation Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Parks and Recreation Department or equivalent, in order to provide for the maintenance and operation of the improvements. If zero, this line item may not be shown in the budget.

**Ending Operating Reserve Balance 6-30-2027 (est.)** - This amount represents the anticipated Operating Reserve balance/(deficit) for each Zone as of June 30, 2027. The size of each Zone's Operating Reserve is limited by Streets and Highways Code 22569 which states that an Operating Reserve shall not exceed the estimated costs of maintenance, service and incidental expenses from the first day of the fiscal year (July 1) to the date that the Agency expects to receive the first apportionment of collections from the County, which is estimated to be December 31. Therefore, each Zone may retain an Operating Reserve amounting to the District's first six-months of expenses in order to meet ongoing obligations until the first collections are received from the County. All Rehabilitation Reserve balances, if any, are excluded from the Operating Reserve balances and shall be shown separately in the Report.

## REHABILITATION RESERVE

**Beginning Rehab Reserve Balance 7-1-2026 (est.)** — The projected balance of funds in the Rehabilitation Reserve as of July 1, 2026. Streets and Highways Code 22660 allows the District to generate and accumulate funds over several years to fund District improvements that cannot be conveniently raised from a single year's assessment.

**Collect from FY 2026/27 Levy** — This amount is added to the levy to accumulate funding of future year rehabilitation projects, replacements, restorations, or upgrades of District improvements. If zero, this line item may not be shown in the budget.

**Use for FY 2026/27 Rehab Projects** – The amount of Rehabilitation Reserve monies expected to be transferred out of the Rehabilitation Reserve to fund the costs of installation, replacement, or planned upgrades of District improvements for the current year. If zero, this line item may not be shown in the budget.

**Transfer from/(to) the Operating Reserve** — The amount of Rehabilitation Reserve monies to be transferred to or from the Operating Reserve. Periodically, funds held in a Rehabilitation Reserve may be needed to respond to changing maintenance needs of the improvements or other factors. Accordingly, any or all funds held in a Rehabilitation Reserve are subject to transfer into the same zone's Operating Reserve, at the discretion of the Parks and Recreation Department, in

order to provide for the maintenance and operation of the improvements. If zero, this line item may not be shown in the budget.

**Ending Rehab Reserve Balance 6-30-2027 (est.)** - The projected balance of funds in the Rehabilitation Reserve as of June 30, 2027. These funds shall be used to provide for future year rehabilitation projects, replacements, restorations, or upgrades of District improvements which cannot be conveniently raised from a single year's assessment. Should the District have no Rehabilitation Reserve balances or related activity, no Rehabilitation Reserve information shall be presented in the Report.

## E. REHABILITATION RESERVE – CAPITAL IMPROVEMENT PLAN

*Streets and Highways Code 22660* allows the District to generate and accumulate funds over several years to fund District improvements that cannot be conveniently raised from a single year's assessment.

The Report provides a five-year Capital Improvement Plan ("CIP") which shows projected expenditures related to the rehabilitation, restoration and/or replacement of District improvements, and other allowable costs. The Current Fiscal Year CIP is shown in the preceding Budget Section A. The projected CIP costs for the remaining four years are shown in the table below..

| Description | FY 2027-28 | FY 2028-29 | FY 2029-30 | FY 2030-31 | 4 Year Total |
|---|---|---|---|---|---|
| Repair, replace and/or refurbish street furniture | $6,000 | $7,000 | $8,000 | $9,000 | $30,000 |
| Non-routine tree work | 2,678 | 2,758 | 2,841 | 2,926 | 11,204 |
| Repair, replace and/or refurbish irrigation meter | 0 | 0 | 0 | 0 | 0 |
| Replace, repair, renovate and/or refurbish plants, landscaping & related mat'ls | 6,911 | 7,500 | 7,750 | 8,000 | 30,161 |
| Replace, repair, and/or refurbish light standard | 3,000 | 3,000 | 3,000 | 3,000 | 12,000 |
| Replace, repair electrical outlets | 6,000 | 7,000 | 8,000 | 9,000 | 30,000 |
| **Total Projected Expenditures** | **$24,589** | **$27,258** | **$29,591** | **$31,926** | **$113,365** |

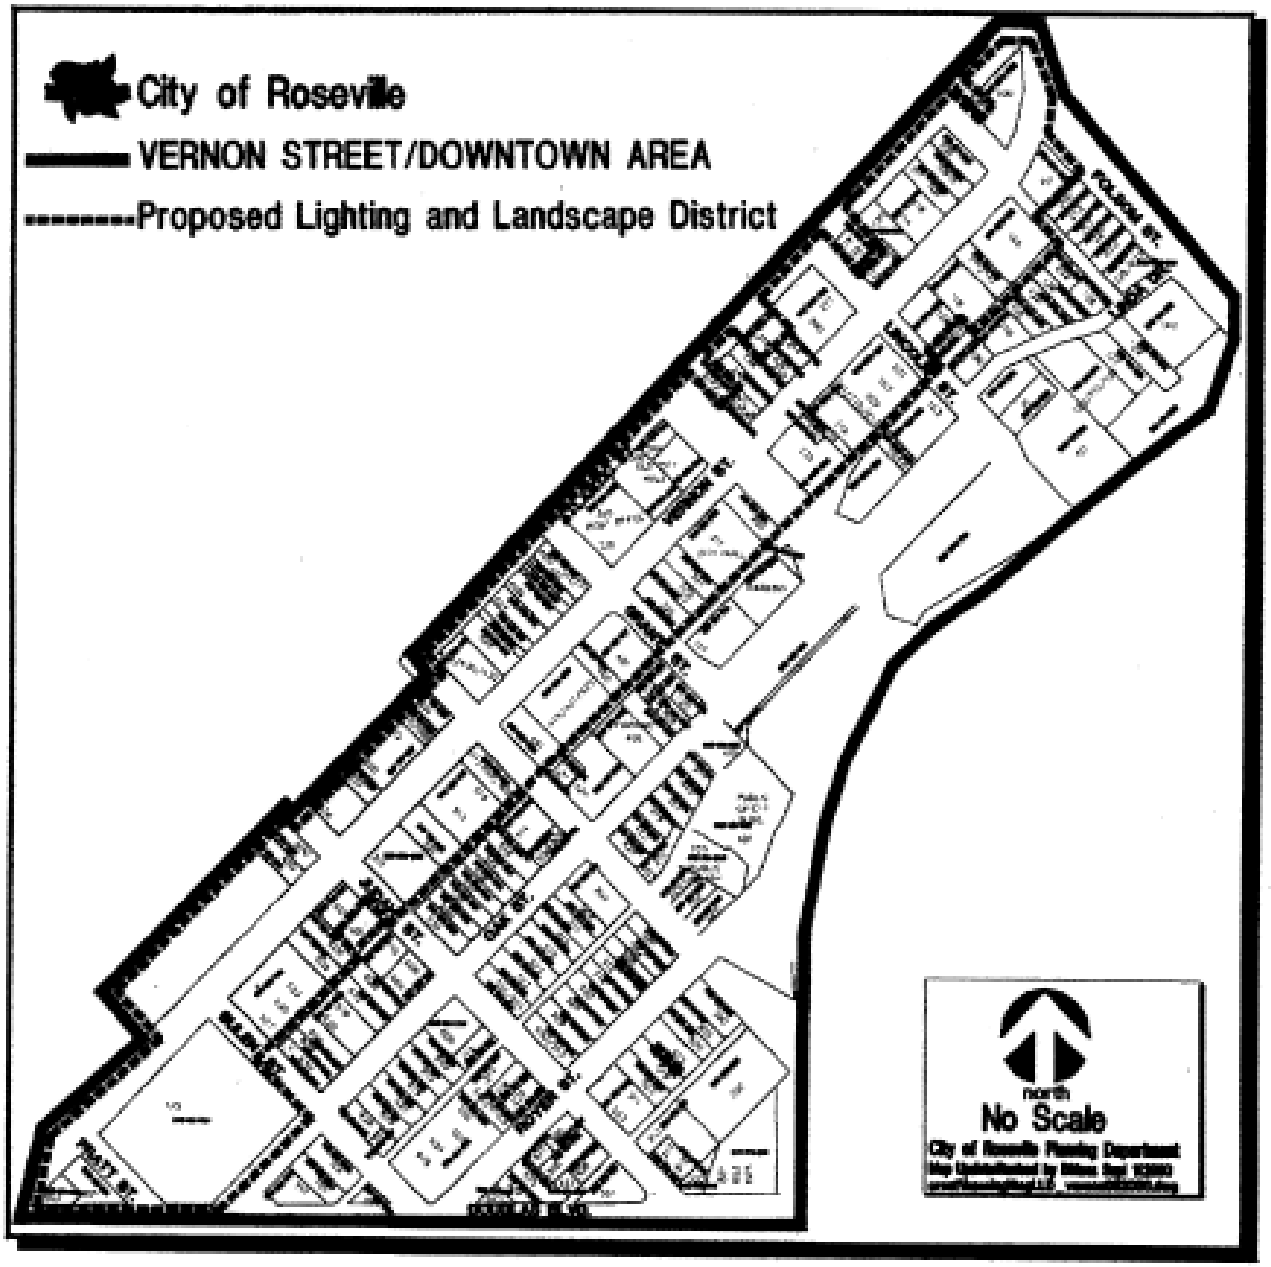
From time to time, funds held in a Rehabilitation Reserve may be needed to respond to changing needs due to the condition of the improvements or other factors. Accordingly, any or all funds held in a Rehabilitation Reserve are subject to transfer into the Districts' Operating Reserve, at the discretion of the Parks and Recreation Department or equivalent, in order to provide for the maintenance and/or operation of the improvements.

# APPENDIX A – DISTRICT BOUNDARY MAP

The boundary map for the District has previously been submitted to the Clerk of the City in the format required under the 1972 Act and is, by reference, hereby made part of this Report. These District Boundary Maps are available for inspection at the office of the City Clerk during normal business hours.

For general reference purposes, a summary of the District's Boundaries is presented herein.

Assessment diagram



# APPENDIX B — FY 2026/27 ASSESSMENT ROLL

Parcel identification, for each lot or parcel within the District, shall be the parcel as shown on the Placer County Assessor's map for the year in which this Report is prepared.

A listing of parcels to be assessed within this District, along with the proposed assessment amounts, shall be submitted to the City Clerk, under separate cover, and by reference is made part of this Report.

Non-assessable lots or parcels may include areas of public streets and other roadways (typically not assigned an APN by the County); dedicated public easements, open space areas and rights-of-ways including public greenbelts and parkways; utility rights-of-ways; common areas; landlocked parcels, small parcels vacated by the County, bifurcated lots, and any other property that cannot be developed. These types of parcels are considered to receive little or no benefit from the improvements and are therefore exempted from assessment.

At the conclusion of the public hearing for the District and the proposed assessments, approval of the Report (as submitted or as modified) confirms the method of apportionment and the assessment rate to be levied against each eligible parcel and thereby constitutes the approved levy and collection of assessments for FY 2026/27. The listing of parcels and the amount of assessment to be levied shall be submitted to the County Auditor/Controller and included on the FY 2026/27 property tax roll for each parcel.

If any parcel submitted for collection is identified by the County Auditor/Controller to be an invalid parcel number for the Current Fiscal Year, a corrected parcel number and/or new parcel number will be identified and resubmitted to the County Auditor/Controller. The assessment amount to be levied and collected for the resubmitted parcel or parcels shall be based on the method of apportionment and assessment rate approved in this Report. Therefore, if a single parcel has changed to multiple parcels, the assessment amount applied to each of the new parcels shall be recalculated and applied according to the approved method of apportionment and assessment rate rather than a proportionate share of the original assessment.

**City of Roseville**
**Vernon Street Landscaping and Lighting District**
**Fiscal Year 2026/27 Preliminary Assessment Roll**

| ASSESSOR PARCEL NUMBER | ASMT CATEGORY | CHARGE | MAXIMUM ASMT | FRONT FOOTAGE | LEGAL DESCRIPTION |

| **Title:** | Roseville Municipal Code Amendment - Accessory Dwelling Units |
| **Contact:** | Lauren Hocker 916-774-5272 lhocker@roseville.ca.us |

SUMMARY

Staff recommends amendment to Roseville Municipal Code Chapter 19.60 (Accessory Dwelling Unit Ordinance) and amendment to Roseville Municipal Code Section 19.10.030 to update and reorganize the City's Accessory Dwelling Unit (ADU) Ordinance. Key changes include updating multiple sections to reflect legislation passed in 2025, including changing square footage limitations to be based on square footage of livable space, adding a definition for livable space, revising the number of ADUs permitted to reflect that any combination of permitted units is allowed, revising the Residential Zone General Development standards table of Roseville Municipal Code Section 19.10.030 to refer to Chapter 19.60 instead of stating the number of ADUs permitted, and limiting the owner occupancy requirement for a Junior ADU to cases where sanitation facilities (bathrooms) are shared. Additional changes include removal of the Administrative Permit process which currently allows deviation from standards for ADUs, adding references to the definition of "kitchens" found in Roseville Municipal Code Chapter 19.95, a new definition for "separate entrance" and "separate exterior entrance," and other changes to improve readability and clarity.

RECOMMENDATION

At the March 26, 2026 Planning Commission hearing, the Planning Commission recommended that the City Council:

Adopt the two (2) findings of fact and introduce for first reading an Ordinance Amending Section 19.10.030 and Chapter 19.60 of Title 19 of the Roseville Municipal Code regarding Accessory Dwelling Units.

BACKGROUND

For the last decade, the legislature has passed bills amending accessory dwelling unit (ADUs) regulations every year. The City's Accessory Dwelling Unit Ordinance (Roseville Municipal Code Chapter 19.60) has been updated annually to keep pace with these changes. The bills passed during the 2025 legislative session have made some key changes to the regulation of ADUs. In reviewing the current Ordinance, staff realized that after a decade of iterative updates the chapter needed streamlining and reorganization for clarity. The proposed amendments to the ADU Ordinance are included as both redlines (see Exhibit A) and as a clean copy (see Exhibit B), and proposed changes are described below:

**Section 19.10.030 (Residential Zone General Development Standards)**: Changes to state law have made the number of permitted ADUs dependent on multiple factors. Staff proposes eliminating the stated number of ADUs permitted in favor of providing a reference to Chapter 19.60 (ADU Ordinance).

**Section 19.60.030 (Definitions)**

- Moved the requirement for a permanent foundation from the definition of an "Accessory dwelling

unit" to the definition of "Permanent provisions or infrastructure," and in the section on permanent provisions added a reference to the definition of a "kitchen."

- Added a definition for "interior livable space" or "livable space" pursuant to Senate Bill 543 (2025). This bill amended the size limitations for ADUs from "square feet" to "square feet of interior livable space." This calculation includes all living, sleeping, eating, and sanitation spaces, but excludes closets, hallways, entryways, garages and other similar spaces.
- Added a definition of "separate entrance" and "separate exterior entrance." This change is for clarity. Government Code Section 66323(a)(B) requires "exterior access" from the primary dwelling for ADUs. However, Government Code Section 66333, which is specific to a local jurisdiction's JADU regulations, requires a "separate entrance from the main entrance;" it does not specify that the entrance must be exterior. Pursuant to this Government Code we typically allow a JADU to have an interior entrance, provided the entrance is reached without passing through the living spaces of the primary home. The most typical arrangement is that the door to the JADU is just inside the entryway of the main home. We propose these definitions to make this clear without having to refer back to the Government Code.

**Section 19.60.060, 19.60.070, and 19.60.120 (changes applicable to all ADU types: existing structure ADUs, new construction ADUs, and JADUs):**

- Added "livable space" to all unit size references and added a reference to Government Code Section 66333 for exceptions.
- In Floor Area, the section has been simplified, and a new objective standard has been added requiring that an accessory dwelling unit within or attached to an existing primary dwelling not exceed 50% of the floor area of the primary dwelling.
- From Appearance, removed a sentence requiring an ADU to be "subordinate to the primary dwelling." This has been replaced by an objective standard, as described above in Floor Area.
- In Fire Sprinklers, added that construction of an ADU does not trigger a requirement for fire sprinklers in the primary dwelling. This new language was added to ADU regulations by Senate Bill 543.
- The "Public Improvements" language has been relocated from the "Exceptions to Development Standards" section to the section listing all other standards, to make it easier to find.
- The "Exceptions to Development Standards" section has been deleted, and all language related to the permitted number of ADUs has been moved into the "Number Permitted" section, to make it easier to understand.
- The language within the "Number Permitted" section has been substantially modified to improve clarity, shorten the length of the text, remove or relocate language to avoid duplication/inapplicable text, and conform to current law regarding the permitted number of units.

**Section 19.60.110 (Administrative Permit Requirements):** The language allowing deviation from standards via an Administrative Permit is proposed to be deleted.

**Section 19.60.120 (Junior ADUs):** Changed the owner-occupancy requirement pursuant to Assembly Bill 1154 (2025). Owner occupancy of either the primary dwelling or the JADU has been required since the first passage of JADU regulations. The new bill amends that provision to require owner-occupancy when the

JADU does not have its own bathroom facilities and is sharing the facilities of the main home.

**EVALUATION**
Section of the City of Roseville Zoning Ordinance requires two findings be made in order to approve a zoning ordinance amendment. The two findings are listed below in ***italicized, bold*** text and are followed by an evaluation of the project in relation to the findings.

1. *The project is consistent with the public interest, health, safety, or welfare of the City.*
2. *The project is consistent with the General Plan and any applicable specific plan of the City of Roseville.*

The proposed changes to the Zoning Ordinance are to bring the City's regulations into consistency with enacted state law and to make other needed maintenance updates. Most of the proposed changes and clarifying and reorganizational changes have little to no effect on how ADUs are permitted and constructed. However, key changes are discussed further below.

Number of ADUs Permitted
For many years, the statutory language related to the number of ADUs that must be permitted was ambiguous and was the subject of dispute. Senate Bill 543 amended this section as noted in the ***bold, italicized*** text: "Government Code 66323. (a) Notwithstanding Sections 66314 to 66322, inclusive, a local agency shall ministerially approve an application for a building permit within a residential or mixed-use zone to create any of the following ***units, or any combination of the following units***:" The previous language was read by most jurisdictions (including Roseville) to mean that one ADU of the types listed must be permitted on a property. The amended language now states that all the ADU types are permitted on a property. This means that, provided the listed standards are met, a single-family property is now permitted to include multiple ADUs.

Maximum ADU Sizes
Senate Bill 543 also amended the size limitations for ADUs from "square feet" to "square feet of interior livable space." This means that closets, hallways, entryways, garages and other similar spaces no longer count toward the maximum square footage limitations. An example of this is provided in the table below, which is based on a recent ADU application for a three-bedroom, two-story ADU. Previously, the size limit would have been 1,000 *total* square feet and this ADU would not be permitted because it is 1,440 square feet. The change to square feet of livable space means that this ADU is permitted, because at 860 square feet of livable space it is less than the 1,000 square-foot size limit.

This change allows ADUs to be much larger than they have been, and this is why staff is recommending adding the new language restricting ADUs within or attached to a primary dwelling to no more than 50% of the size of the primary dwelling. California Government Code allows us to impose this restriction, and it can be a useful, objective standard to reduce the impact of the change in how size limitations are calculated.

| Type of Room/Space | Square Feet (SF) |
|---|---|

| | |
|---|---|
| Bedrooms | 360 SF |
| Dining/Kitchen | 200 SF |
| Living | 150 SF |
| Bathrooms | 150 SF |
| Hallways | 180 |
| Closets/Storage | 40 |
| Garage | 360 SF |
| **Total** | **1,440 SF** |
| **Total Livable Area** | **860 SF** |

Administrative Permits

The Administrative Permit process exists to provide a means for an applicant to deviate from standards, provided the findings can be supported. However, the statewide regulations pertaining to ADUs are already extremely permissive, with the latest changes having significant effects on the number and size of ADUs that are permitted by right. Staff is recommending the removal of the ability to apply for an Administrative Permit to deviate from the standards of the ADU Ordinance. The removal of this section will mean an ADU must meet the applicable standards; deviations from the standards would not be permitted.

Conclusion

The proposed amendments to the City's ADU regulations improve clarity for both the public and for City Staff and are necessary to ensure consistency with state law. For these reasons, staff finds that the project is consistent with the public interest, health, safety, or welfare of the City and that the project is consistent with the General Plan and applicable Specific Plans.

**PUBLIC OUTREACH**

Consistent with noticing requirements for a citywide project, a public hearing notice was published in the Press Tribune and was posted on the RCONA website. Staff discussed the proposed amendments at the Roseville Coalition of Neighborhood Associations (RCONA) General Board meeting of March 19, 2026. Several members expressed concerns about having to allow multiple ADUs per property, and the effect this would have on parking availability, nuisance conditions, and potential fire hazards. Staff acknowledged that multiple units on a property would certainly result in more street parking and neighborhood activity, but that the Building Code contains requirements for fire walls and other protective standards when homes are attached or built in close proximity to one another. Some members stated that ADUs increase general property values, but also that buyers looking at adjacent properties could be discouraged from purchase by the presence of multiple units next door.

**SUMMARY OF PLANNING COMMISSION HEARING**

The proposed amendments were heard by the City's Planning Commission on March 26, 2026 (see Attachment 1, Planning Commission Staff Report). Several questions were received from the Planning Commission. A Commissioner asked whether the City's Prohousing Designation would be at risk if we do not pass the amendments. Staff indicated that the law changed last year allowing the California Department of Housing And Community Development (HCD) to

nullify the City's ADU Ordinance if they find that it does not comply with the law, and that jurisdictions all over the state (including Roseville) have already received letters from HCD asking for ADU Ordinances to reflect the new law. This means there are risks to both the City's Prohousing Designation and the City's ability to have local ADU regulations. Commission members also asked for clarifications on the difference between an ADU and JADU (full kitchen versus efficiency kitchen), whether there are parking standards for ADUs (in certain instances there are some, but most do not require parking), whether ADUs can be separately sold (not unless it is through a community land trust or other affordable housing entity), and asked for clarification on how street addresses are assigned. A Commissioner asked for staff confirmation that we are required to review ADUs for compliance with the law, and if they comply then we are required to approve them. Staff confirmed this was correct. A Commissioner asked whether we could simply not have an Ordinance, because state law requires us to allow three ADUs and it is our own Ordinance that allows a fourth. Staff stated that during a phone call with HCD this question was asked, and it is the opinion of HCD that without an ordinance limiting the number of ADUs allowed by local regulations there would be no limit. While staff does not concur, we acknowledge that HCD has been given broad statutory authority to interpret and enforce the law. Consequently, staff recommends adopting the Ordinance, which limits ADUs allowed by local regulation to one ADU.

FISCAL IMPACT

The project has no fiscal impact on the City.

ENVIRONMENTAL REVIEW

The proposed Accessory Dwelling Unit Ordinance Update 2026 is a policy and procedure-making activity, and the California Environmental Quality Act (CEQA) only applies to projects which have the potential to cause a significant effect on the environment. Where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA. (CEQA Guidelines §15061(b)(3)).

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

4. Invest in well-planned infrastructure and growth

Respectfully Submitted,

**ITEM 6.1: ORDINANCE AMENDMENT – CITYWIDE – ACCESSORY DWELLING UNIT ORDINANCE UPDATE 2026 – PL26-0134**

## REQUEST

The project is a request to amend Roseville Municipal Code Chapter 19.60 (Accessory Dwelling Unit Ordinance) and amend Roseville Municipal Code Section 19.10.030 to update and reorganize the City's Accessory Dwelling Unit (ADU) Ordinance. Key changes include updating multiple sections to reflect legislation passed in 2025, including changing square footage limitations to be based on square footage of livable space, adding a definition for livable space, revising the number of ADUs permitted to reflect that any combination of permitted units is allowed, revising the Residential Zone General Development standards table of Roseville Municipal Code Section 19.10.030 to refer to Chapter 19.60 instead of stating the number of ADUs permitted, and limiting the owner occupancy requirement for a Junior ADU to cases where sanitation facilities (bathrooms) are shared. Additional changes include eliminating the Administrative Permit process allowing deviations from standards, adding references to the definition of "kitchens" found in Roseville Municipal Code Chapter 19.95, a new definition for "separate entrance" and "separate exterior entrance," and other changes to improve readability and clarity.

Applicant – City of Roseville

## SUMMARY RECOMMENDATION

The Planning Division recommends the Planning Commission take the following actions:

1. Consider the two (2) findings of fact and recommend City Council approve the Ordinance Amendment to Title 19 of the Roseville Municipal Code.

## SUMMARY OF OUTSTANDING ISSUES

There are no outstanding issues associated with this request.

## BACKGROUND

For the last decade, the legislature has passed bills amending accessory dwelling unit (ADUs) regulations every year. The City's Accessory Dwelling Unit Ordinance (Roseville Municipal Code Chapter 19.60) has been updated annually to keep pace with these changes. The bills passed during the 2025 legislative session have made some key changes to the regulation of ADUs. In looking at our Ordinance to assess the needed changes, staff realized that after a decade of iterative updates the chapter needed streamlining and reorganization for clarity. The proposed amendments to the ADU Ordinance are included as both redlines (see Exhibit A) and as a clean copy (see Exhibit B), and proposed changes are described below:

- **Section 19.10.030 (Residential Zone General Development Standards)**: Changes to state law have made the number of permitted ADUs dependent on multiple factors. Staff proposes eliminating the stated number of ADUs permitted in favor of providing a reference to Chapter 19.60 (ADU Ordinance).

- **Section 19.60.030 (Definitions)**

    - Moved the requirement for a permanent foundation from the definition of an "Accessory dwelling unit" to the definition of "Permanent provisions or infrastructure," and in the section on permanent provisions added a reference to the definition of a "kitchen."

- Added a definition for “interior livable space” or “livable space” pursuant to Senate Bill 543 (2025). This bill amended the size limitations for ADUs from “square feet” to “square feet of interior livable space.” This calculation includes all living, sleeping, eating, and sanitation spaces, but excludes closets, hallways, entryways, garages and other similar spaces.

- Added a definition of “separate entrance” and “separate exterior entrance.” This change is for clarity. Government Code Section 66323(a)(B) requires “exterior access” from the primary dwelling for ADUs. However, Government Code Section 66333, which is specific to a local jurisdiction’s JADU regulations, requires a “separate entrance from the main entrance;” it does not specify that the entrance must be exterior. Pursuant to this Government Code we typically allow a JADU to have an interior entrance, provided the entrance is reached without passing though the living spaces of the primary home. The most typical arrangement is that the door to the JADU is just inside the entryway of the main home. We propose these definitions to make this clear without having to refer back to the Government Code.

- **Section 19.60.060, 19.60.070, and 19.60.120 (changes applicable to all ADU types: existing structure ADUs, new construction ADUs, and JADUs):**

  - Added “livable space” to all unit size references and added a reference to Government Code Section 66333 for exceptions.

  - In Floor Area, the section has been simplified and a new objective standard has been added requiring that an accessory dwelling unit within or attached to an existing primary dwelling not exceed 50% of the floor area of the primary dwelling.

  - From Appearance, removed a sentence requiring an ADU to be “subordinate to the primary dwelling.” This has been replaced by an objective standard, as described above in Floor Area.

  - In Fire Sprinklers, added that construction of an ADU does not trigger a requirement for fire sprinklers in the primary dwelling. This new language was added to ADU regulations by Senate Bill 543.

  - The “Public Improvements” language has been relocated from the “Exceptions to Development Standards” section into the section listing all other standards, to make it easier to find.

  - The “Exceptions to Development Standards” section has been deleted and all language related to the permitted number of ADUs has been moved into the “Number Permitted” section, to make it easier to understand.

  - The language within the “Number Permitted” section has been substantially modified to improve clarity, shorten the length of the text, remove or relocate language to avoid duplication/inapplicable text, and conform to current law regarding the permitted number of units.

- **Section 19.60.110 (Administrative Permit Requirements):**

  - The language allowing deviation from standards via an Administrative Permit is proposed to be deleted.

- **Section 19.60.120 (Junior ADUs):** Changed the owner-occupancy requirement pursuant to Assembly Bill 1154 (2025). Owner occupancy of either the primary dwelling or the JADU has been required since the first passage of JADU regulations. The new bill amends that provision to require owner-occupancy when the JADU does not have its own bathroom facilities and is sharing the facilities of the main home.

## EVALUATION

Section 19.86.050 of the City of Roseville Zoning Ordinance requires two findings be made in order to approve a zoning ordinance amendment. The two findings are listed below in ***italicized, bold*** text and are followed by an evaluation of the project in relation to the findings.

1. ***The project is consistent with the public interest, health, safety, or welfare of the City.***

2. ***The project is consistent with the General Plan and any applicable specific plan of the City of Roseville.***

The proposed changes to the Zoning Ordinance are to bring the City's regulations into consistency with enacted state law and to make other needed maintenance updates. Most of the proposed changes and clarifying and reorganizational changes which have little to no effect on how ADUs are permitted and constructed. However, key changes are discussed further below.

Number of ADUs Permitted

For many years, the statutory language related to the number of ADUs that must be permitted was ambiguous and was the subject of dispute. Senate Bill 543 amended this section as noted in the ***bold, italicized*** text.

> Government Code 66323. (a) Notwithstanding Sections 66314 to 66322, inclusive, a local agency shall ministerially approve an application for a building permit within a residential or mixed-use zone to create any of the following ***units, or any combination of the following units***:

The previous language was read by most jurisdictions (including Roseville) to mean that one ADU of the types listed must be permitted on a property. The amended language now states that all the ADU types are permitted on a property. This means that, provided the listed standards are met, a single-family property is now permitted to include multiple ADUs.

Maximum ADU Sizes

As described in the Background section of this staff report, Senate Bill 543 also amended the size limitations for ADUs from "square feet" to "square feet of interior livable space." This means that closets, hallways, entryways, garages and other similar spaces no longer count toward the maximum square footage limitations. An example of this is provided in the table below, which is based on a recent ADU application for a three-bedroom, two-story ADU. Previously, the size limit would have been 1,000 *total* square feet and this ADU would not be permitted because it is 1,440 square feet. The change to square feet of livable space means that this ADU is permitted, because at 860 square feet of livable space it is less than the 1,000 square-foot size limit.

This change allows ADUs to be much larger than they have been, and this is why staff is recommending adding the new language restricting ADUs within or attached to a primary dwelling to no more than 50% of the size of the primary dwelling. Government Code allows us to impose this restriction, and it can be a useful, objective standard to reduce the impact of the change in how size limitations are calculated.

| Type of Room/Space | Square Feet (SF) |
|---|---|
| Bedrooms | 360 SF |
| Dining/Kitchen | 200 SF |
| Living | 150 SF |
| Bathrooms | 150 SF |
| Hallways | 180 |
| Closets/Storage | 40 |
| Garage | 360 SF |
| **Total** | **1,440 SF** |
| **Total Livable Area** | **860 SF** |

Administrative Permits

The Administrative Permit process exists to provide a means for an applicant to deviate from standards, provided the findings can be supported. However, the statewide regulations pertaining to ADUs are already extremely permissive, with the latest changes having significant effects on the number and size of ADUs that are permitted by right. Staff is recommending the removal of the ability to apply for an Administrative Permit to deviate from the standards of the ADU Ordinance. The removal of this section will mean an ADU must meet the applicable standards; deviations from the standards would not be permitted.

Conclusion

The proposed amendments to the City's ADU regulations improve clarity for both the public and for City Staff and are necessary to ensure consistency with state law. For these reasons, staff finds that the project is consistent with the public interest, health, safety, or welfare of the City and that the project is consistent with the General Plan and applicable Specific Plans.

## PUBLIC OUTREACH

Staff discussed the proposed amendments at the Roseville Coalition of Neighborhood Associations (RCONA) General Board meeting of March 19, 2026. Consistent with noticing requirements for a citywide project a public hearing notice was published in the Press Tribune and was posted on the RCONA website.

## ENVIRONMENTAL DETERMINATION

The proposed Accessory Dwelling Unit Ordinance Update 2026 is a policy and procedure-making activity, and the California Environmental Quality Act (CEQA) only applies to projects which have the potential to cause a significant effect on the environment. Where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA. (CEQA Guidelines §15061(b)(3)).

## RECOMMENDATION

The Planning Division recommends the Planning Commission take the following actions:

A. Consider the findings of fact as stated in the staff report and recommend City Council approve the **Title 19 ORDINANCE AMENDMENT – CITYWIDE – ACCESSORY DWELLING UNIT ORDINANCE UPDATE 2026 – PL26-0134**.

## Exhibits

A. Zoning Ordinance Redlines (RMC 19.10.030 and 19.60)
B. Zoning Ordinance Clean (RMC 19.10.030 and 19.60)

**Note to Applicant and/or Developer:** Please contact the Planning Division staff at (916) 774-5276 prior to the Commission meeting if you have any questions on any of the recommended conditions for your project. If you challenge the decision of the Commission in court, you may be limited to raising only those issues which you or someone else raised at the public hearing held for this project, or in written correspondence delivered to the Planning Manager at, or prior to, the public hearing.

ORDINANCE NO. ____

ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE AMENDING SECTION 19.10.030 OF CHAPTER 19.10 OF TITLE 19 OF THE ROSEVILLE MUNICIPAL CODE REGARDING RESIDENTAL ZONE GENERAL DEVELOPMENT STANDARDS AND AMENDING CHAPTER 19.60 OF TITLE 19 OF THE ROSEVILLE MUNICIPAL CODE REGARDING ACCESSORY DWELLING UNITS

THE CITY OF ROSEVILLE ORDAINS:

SECTION 1. Section 19.10.030 of Chapter 19.10 of Title 19 of the Roseville Municipal Code is hereby amended to read as shown on Attachment "A".

SECTION 2. Chapter 19.60 of Title 19 of the Roseville Municipal Code is hereby amended to read as shown on Attachment "B".

SECTION 3. This ordinance shall be effective at the expiration of thirty (30) days from the date of adoption.

SECTION 4. The City Clerk is hereby directed to cause this ordinance to be published in full at least once within fourteen (14) days after it is adopted in a newspaper of general circulation in the City, or shall within fourteen (14) days after its adoption cause this ordinance to be posted in full in at least three (3) public places in the City and enter in the Ordinance Book a certificate stating the time and place of said publication by posting.

PASSED AND ADOPTED by the Council of the City of Roseville this ___ day of _____, 20__, by the following vote on roll call:

AYES COUNCILMEMBERS:

NOES COUNCILMEMBERS:

ABSENT COUNCILMEMBERS:

_____

MAYOR

ATTEST:

_____

City Clerk

CHAPTER 19.10
**RESIDENTIAL ZONES**

## § 19.10.030. Residential zone general development standards.

A. **Residential Development Standards.** Permitted uses and associated structures shall comply with the following development standards, in addition to any other applicable requirements of this title:

| RESIDENTIAL ZONE GENERAL DEVELOPMENT STANDARDS | | | | | | |
|---|---|---|---|---|---|---|
| **Requirement by Zoning District** | | | | | | |
| | **R1** | **RS with attached sidewalk [10]** | **RS with separated sidewalk [8] [10]** | **R2** | **R3[2]** | **RMU** |
| Area, interior lot | 6,000 sq ft | 4,500 sq ft | 4,275 sq ft | 6,000 sq ft | 6,000 sq ft | None [7] |
| Area, corner lot | 7,500 sq ft | 5,500 sq ft | 4,710 sq ft | 7,500 sq ft | 7,500 sq ft | |
| Width, interior | 60 ft | 45 ft | 45 ft | 60 ft | 60 ft | |
| Width, corner | 75 ft | 55 ft | 50 ft | 75 ft | 75 ft | |
| **Residential Density** | | | | | | |
| Maximum number of primary dwelling units per lot | 2 dwellings[1] | 2 dwellings[1] | 2 dwellings[1] | 2 dwellings[1] | As provided by General Plan, but a minimum of 3 dwellings[13] | As provided by General Plan |
| Maximum number of accessory/ junior dwelling units per lot [11] | See Chapter 19.60 ~~Up to 2 dwellings~~ | See Chapter 19.60 ~~Up to 2 dwellings~~ | See Chapter 19.60 ~~Up to 2 dwellings~~ | See Chapter 19.60 ~~Up to 2 dwellings~~ | See Chapter 19.60 ~~Up to 2 dwellings~~ | See Chapter 19.60 ~~Up to 2 dwellings~~ |
| See Chapter **19.22** for accessory structure development standards for the following standards: | | | | | | |
| **Setbacks** (minimum) | | | | | | |
| Front[1] [9] | 20 ft for interior lots; 15 ft for corner lots; 20 ft minimum driveway depth | 15 ft to living space or side wall of garage; 12.5 ft to porch; 18 ft minimum driveway depth[6] | 10 ft to first floor living space or side wall of garage; 7.5 ft to porch, but in no case may encroach into a PUE; 15 ft to second floor living space; 18 ft minimum driveway depth[6] | 20 ft for interior lots; 15 ft for corner lots; 20 ft minimum driveway depth | 20 ft minimum on all street frontages | None[7] |
| Sides[1] [9] | 5 ft interior; 15 ft street side on corner | 5 ft interior; 12.5 ft street side on first floor; 15 ft street side on second floor | 5 ft interior; 10 ft street side on first floor; 13 ft street side on second floor | 5 ft interior; 15 ft street side on corner | 5 ft interior; 20 ft minimum on all street frontages | None[7] |
| Rear [1] | 20% of lot depth; need not exceed 20 ft; 10 ft minimum[3] | 10 ft minimum with minimum useable open space of 700 sq ft or 500 sq ft where a usable front porch is provided[4] | 10 ft minimum with minimum useable open space of 500 sq ft[4] | 20% of lot depth; need not exceed 20 ft; 10 ft minimum | 20 ft; 20 ft minimum on all street frontages | None[7] |

| | | | | | | |
|---|---|---|---|---|---|---|
| **Lot Coverage (primary buildings)** | 35% for 2 story; 45% for 1 story | None[4] | None[4] | 40% | 50% | None[7] |
| **Height Limits** | 35 ft | 35 ft | 35 ft | 35 ft | 45 ft[5] | None[7] |
| **Additions to a single-family or two-family primary structure greater than 700 square feet in area** [12] | | | | | | |

Notes:

(1) Up to two residential units are permitted in the R1 and RS zone districts provided the criteria of Section 19.10.030(G) are met. Residential units may be attached or detached in the R1, RS, or R2 zone districts.

(2) The general development standards for the R3 district may be modified through approval of a Design Review Permit.

(3) On corner lots, the minimum rear setback may be determined by using an average of three measurements taken at the ends of the structure and a point midway between the ends of the structure. The measurements shall be made perpendicular to the rear lot line.

(4) The rear and side yards may be utilized to meet the minimum usable open space provided the minimum dimension, measured perpendicular to the applicable rear or side yard, is 10 feet. Maximum coverage is a function of lot size, required setbacks and usable open space. A minimum usable open space of 500 square feet may be applied where a front porch is provided with minimum dimensions of six feet by 10 feet exclusive of entry way.

(5) Except for residential units immediately adjacent to the R1 and RS zone districts, where the height limit shall be 35 feet.

(6) Minimum driveway depth of 18 feet requires a roll-up garage door.

(7) As provided in development standard overlay or special area overlay district.

(8) Sidewalk separated from back of curb by five-foot planter strip.

(9) Front setback (and side setback where adjacent to street) measured from back of walk. Fence side yard setback is five feet from back of walk where facing a street. In the absence of sidewalk, setbacks measured from the edge of right-of-way.

(10) Variations to the standards and other housing product types may be permitted subject to processing of a Design Review Permit for Residential Subdivision (DRRS) concurrent with the approval of a tentative subdivision map and review of product type.

(11) ~~A combination of up to two accessory dwelling/junior accessory dwelling units are permitted within areas zoned to allow single-family, two-family or multi-family residential use provided the lot contains an existing or proposed single-family dwelling, two-family or multi-family unit as defined in Sections 19.08.080(F)(1) and (F)(2) (Residential Use Types), the accessory dwelling/junior accessory dwelling unit complies with the standards identified in Chapter **19.60** (Accessory Dwelling Units), and the lot has not been created via a ministerial two-lot single-family map or a ministerial multi-family map pursuant to Chapter **18.05**.~~ See Chapter **19.60** for the maximum number and combination of accessory or junior accessory units allowed per lot, except in cases where the lot has been created via a ministerial two-lot single-family map or a ministerial multi-family map pursuant to Chapter **18.05**, in which see Section 19.010.030(F)(2). For purposes of density, accessory dwelling units shall be deemed to be an accessory use or an accessory building or structure and shall not be considered to exceed the allowable density for the lot upon which it is located.

(12) Additions (attached or detached) to primary structures that exceed 700 gross square feet in area may be permitted upon approval of an Administrative Permit, which may include a public hearing as provided in Sections **19.74.010** and **19.78.020**. Excludes accessory dwelling units complying with the standards identified in Chapter **19.60** (Accessory Dwelling Units).

(13) Parcels created through the exercise of the ministerial multi-family map provisions of Chapter **18.05** are limited to the number of units permitted by Government Code Section **66499.41**, as may be amended from time to time, and are not permitted accessory dwelling units or junior accessory dwelling units.

A. **Clear Vision Triangle, Residential.** The following standards shall apply to the installation of structures on corner parcels:

1. On a corner parcel, no fence, wall, sign or other structure, mounds of earth, or other visual obstruction over 36 inches in height above the top of the existing or planned curb elevation shall be erected or placed within a residential clear vision triangle (see Chapter 19.95, Definitions).

2. The foregoing provision shall not apply to public utility poles; trees trimmed (to the trunk) to a line at least eight feet above the elevation of the intersection; saplings or plant species of open growth habits and not planted in the form of a hedge, which are so planted and trimmed as to leave, at all seasons, a clear and unobstructed cross view; supporting members of appurtenances to permanent structures existing on the date that the ordinance codified in this section becomes effective; and official warning signs or signals.

B. **Exceptions to Height Limits.** Notwithstanding the requirements of subsection A, the following structures are permitted to exceed the maximum height limits, as follows:

Architectural features, mechanical equipment, chimneys, vents, and other architectural or mechanical appurtenances on buildings may be a maximum of 15 percent higher than the height limit of the applicable zone.

C. **Exceptions to Setbacks.** Notwithstanding the requirements of subsection A, the following structures are permitted to encroach into the required development setbacks, as follows:

1. Architectural features, such as, but not limited to: cornices, eaves, canopies, fireplaces and similar features, but not any flat wall or addition creating living space, may encroach up to two feet into any required setback.

2. Covered, unenclosed projections attached to the primary structure may encroach up to six feet into any front yard setback.

D. **Manufactured Homes.** Manufactured homes are permitted in residential zones provided they meet the following architectural standards:

1. The manufactured home shall be covered with exterior material customarily used on conventional dwellings within the subdivision. The exterior covering material shall extend to the ground as close to grade as allowed by the manufacturer's recommendation;

2. The manufactured home shall have a minimum of 16-inch roof overhangs and roofing material on the manufactured home shall be compatible with other dwellings existing in the area and shall consist of materials customarily used on conventional dwellings. The roof shall have a minimum 2 1/2 in 12 pitch.

E. **Landscaping Requirements in Setback Areas**.

1. **Single-Family and Two-Family Dwellings—Front Yard and Street Side Yard Setbacks**.

a. Setback Area Paving Restrictions. A maximum of 50 percent of the required front yard setback may be paved for off-street parking, driveways, walkways, or uncovered patio use. A maximum of 50 percent of the required street side yard setback may be paved for off-street parking, driveways, walkways, or uncovered patio use; however, this maximum limitation does not apply to that portion of the street side yard located behind a fence that is in compliance with the street side fence requirements set forth in Chapter 19.22 of this code. These requirements may be modified with approval of a Design Review Permit for Residential Subdivision (DRRS), as provided for in Article V of this title.

b. Landscape and Maintenance Requirements. The unpaved portion of a front yard setback and street side yard setback shall be landscaped, irrigated, and maintained. The landscape shall include grass, annuals, perennials, groundcover, shrubs, trees, or other living vegetation. Synthetic grass or artificial turf may be used if it is permeable and has a minimum pile height of 1.25 inches. Design elements like planters, rocks, mulch, or similar elements are permitted when integrated as part of the landscape. All landscaping materials shall be mowed, trimmed, and maintained as often as necessary to prevent overgrowth and blight. No junk, debris, or other similar materials shall be stored in the landscaped setback area.

c. Height Restrictions for Landscaping Located in the Clear Vision Triangle. All landscaping located within the clear vision triangle for corner lots, as defined in Section 19.95.030 of this Code, shall not exceed three feet in height, except that trees exceeding three feet in height are allowed if the tree is maintained free of branches eight feet above the curb grade.

d. Vehicle Parking Requirements. Vehicles, including, without limitation, automobiles, boats, campers, trailers, and other recreational vehicles, must be parked on a paved surface, as provided for in Section 11.20.110 of this code. Vehicles shall not be parked within the landscaped setback area.

2. **Multi-Family Dwellings (Three or More Residential Units)—Front Yard and Street Side Yard Setbacks.** All minimum front yard and street side yard setbacks shall be landscaped, irrigated and maintained with primarily low ground cover or turf. The landscape shall include grass, annuals, perennials, groundcover, shrubs, trees, or other living vegetation. Synthetic grass or artificial turf may be used if it is permeable and has a minimum pile height of 1.25 inches. Design elements like planters, rocks, mulch, or similar elements are permitted when integrated as part of the landscape. All landscaping materials shall be mowed, trimmed, and maintained as often as necessary to prevent overgrowth and blight. No junk, debris, or other similar materials shall be stored in the landscaped setback area. Driveways and uncovered walkways are permitted to cross over the required front yard and street side yard setback. The required front yard and street side yard setbacks may not be paved for parking or patio areas.

F. **Criteria for Two Residential Units in Single-Family Zones.** The City's single-family zones are R1 and RS. Parcels in single-family zones are permitted one residential

unit, and may have a second residential unit subject to the following criteria and restrictions:

1. **Demolition or Alteration of Existing Housing.** The housing development shall not require demolition or alteration of housing:

    a. Subject to a recorded covenant, ordinance, or law that restricts rents to levels affordable to persons and families of moderate, low, or very low income;

    b. Subject to any form of rent or price control through a public entity's valid exercise of its police power;

    c. That has been occupied by a tenant at any time within the past three years. Demolition or alteration is permitted if none of the above conditions apply.

**2. Use Restrictions.**

    a. Short-Term Rentals. Residential units constructed pursuant to this section may not be rented for a period of less than 31 consecutive calendar days. Accordingly, short-term rentals, as authorized pursuant to Chapter 4.25 (Short-Term Rentals), are not permitted for residential units constructed pursuant to this section.

    b. Accessory Dwelling Units/Junior Accessory Dwelling Units. An accessory dwelling unit and/or junior accessory dwelling shall not be permitted on parcels that have used this section to build two residential units and which are the result of a parcel map pursuant to Municipal Code Chapter 18.05.

    c. Use Classification. Whether they are detached or attached, residential units constructed pursuant to this section shall be considered single- family buildings.

3. **Development Standards.** The new structure(s) shall be consistent with the development standards of the zone district in which they are located, except:

    a. Parking Requirements. No off-street parking shall be required for new residential units constructed pursuant to this section if the parcel is located within ½ mile walking distance of either a high-quality transit corridor as defined in Public Resources Code Section 21155(b), as may be amended from time to time; or a major transit stop, as defined in Public Resources Code Section 21064.3, as may be amended from time to time; or if there is a car share vehicle located within one block of the parcel. In all other cases, new residential units constructed pursuant to this section shall provide a minimum of one off-street parking space. Off-street parking shall be designed consistent with the requirements of Section 19.26.040.

    b. Setbacks. No setback shall be required for conversion of an existing structure or a structure constructed in the same location (i.e. footprint) and to the same or smaller dimensions as an existing structure. In all other cases, a setback of four feet from the side and rear lot lines shall be required for new residential units constructed pursuant to this section, including any garages, porches, decks, balconies, stairs, and patios which are attached to and for the use of the residential unit.

c. Waivers. Notwithstanding anything to the contrary contained within this section, a development standard applicable to the zone district in which the proposed residential units are located shall be waived if application of the standard would physically preclude either of the two residential units from being at least 800 square feet in floor area.

4. **Site Limitations or Restrictions.** To qualify for a second residential unit, a parcel shall meet the following criteria:

a. The parcel shall satisfy the requirements specified in Government Code Section 65913.4(a)(6)(B) to (K), as may be amended from time to time, including, but not limited to, not being within a special flood hazard area, a regulatory floodway, and/or a habitat for protected species.

b. Government Code Section 7060 et seq., as may be amended from time to time, to withdraw accommodations from rent or lease within 15 years before the date that the development proponent submits an application.

c. The parcel shall not be located within a historic district or property included on the State Historic Resources Inventory, as defined in Public Resources Code Section 5020.1, as may be amended from time to time, or listed as a City or county landmark or historic property or district pursuant to a City ordinance.

5. Reasons for Denial of Permit. A building permit for a second residential unit or two new residential units, pursuant to this section, shall be denied by written findings of the building official where, based on a preponderance of the evidence, the building official has determined the housing development would have a specific, adverse impact as defined and determined in Government Code Section 65589.5(d)(2), as may be amended from time to time, upon public health and safety or the physical environment and for which there is no feasible method to satisfactorily mitigate or avoid the specific, adverse impact.

CHAPTER 19.60
# ACCESSORY DWELLING UNITS

## § 19.60.010. Purpose.

This chapter provides criteria for the approval of accessory dwelling units and junior accessory dwelling units. This chapter is adopted pursuant to the authority of Government Code Sections 66310, 66311, and 66312, as they now exist or may hereafter be amended.

## § 19.60.020. Findings.

The City Council finds that accessory dwelling units and junior accessory dwelling units are considered residential uses that are consistent with existing General Plan objectives and the zoning designation for the lots upon which accessory dwelling units or junior accessory dwelling units are located. The City Council further finds that accessory dwelling units and junior accessory dwelling units that comply with the requirements set forth in this chapter shall be deemed to be accessory uses or accessory buildings or structures and shall not be considered to exceed the allowable density for lots upon which accessory dwelling units or junior accessory dwelling units are located.

## § 19.60.030. Definitions.

For the purposes of this chapter, the following words and phrases shall have the meanings respectively ascribed to them by this section. Words and phrases not defined in this section, shall have the meanings respectively ascribed to them in Chapter 19.95 (Definitions of Terms and Phrases).

"Accessory dwelling unit" shall be as defined by Government Code Section 66313, as it now exists or may hereafter be amended, and means an attached or a detached residential dwelling unit that provides complete independent living facilities for one or more persons. The unit ~~shall be located on a permanent foundation or a permanent chassis if a manufactured home, have an independent exterior access (if located within a single-family dwelling unit), and~~ shall include permanent provisions or infrastructure to support living, sleeping, eating, cooking, and sanitation on the same parcel as where a single-family, two-family or multi-family dwelling (including detached garages) is situated or proposed to be situated. Accessory dwelling units ~~can~~ may also ~~include~~ be efficiency units, as defined in Section 17958.1 of the Health and Safety Code, manufactured homes, as defined in Section 18007 of the Health and Safety Code, second dwelling units, granny flats, in-law quarters, casitas, carriage units, and tiny houses as long as such units otherwise meet this definition.

"Accessory structure" means a structure that is accessory and incidental to a single- family, two-family or multi-family dwelling located on the same lot.

"Car share vehicle" means a vehicle that can be rented for short periods of time and is available 24 hours a day, seven days a week at unattended self-service locations.

"Existing structure," for the purposes of defining an allowable space that can be converted to an accessory dwelling unit, means the following:

1. The proposed accessory dwelling unit is located within the walls and roofline of a fully enclosed, existing structure (i.e., the existing footprint); and

2. The existing structure can be made safely habitable under local building codes at the determination of the building official, regardless of any nonconforming zoning conditions.

"Interior livable space" or "livable space" means the space in a building intended for human habitation, including living, sleeping, eating, cooking, or sanitation. Livable space excludes closets, halls, storage, utility spaces, garages which are for the use of the junior accessory dwelling unit or accessory dwelling unit, or similar spaces.

"Junior accessory dwelling unit" shall be as defined by Government Code Section 66313, as it now exists or may hereafter be amended, and means a unit that is no more than 500 square feet in interior livable space~~size~~ and contained entirely within the walls of an existing or proposed single-family dwelling. A junior accessory dwelling unit may include separate sanitation facilities or may share sanitation facilities with the existing structure.

"Living area" means the interior habitable area of a dwelling unit, including basements and attics, but does not include a garage or any accessory structure.

"Nonconforming zoning condition" means a physical improvement on a property that does not conform with current zoning standards.

"Passageway" means a pathway that is unobstructed clear to the sky and extends from a street to one entrance of the accessory dwelling unit.

"Permanent provisions or infrastructure," in the context of the definition of an "accessory dwelling unit," means a permanent kitchen as defined in Section 19.08.080, as it now exists or may hereafter be amended, consisting of a sink, a counter for food preparation, a food storage area, and either a minimum 220V receptacle or a dedicated gas line for a cooking appliance (a 110V receptacle for a microwave, toaster, hotplate, etc., is not a permanent provision); a toilet connected to plumbing; a bathroom sink connected to plumbing; ~~and~~ a bathing facility connected to plumbing, such as a shower or bathtub; a permanent foundation or a permanent chassis if a manufactured home; and an independent exterior access (if located within a single-family dwelling unit).

"Primary dwelling unit" means a proposed or existing single-family, two-family or multi-family dwelling unit located on the lot where the accessory dwelling unit is proposed to be developed, and includes attached, enclosed accessory structures, such as a garage.

"Proposed dwelling" means a dwelling that is the subject of a permit application and that meets the requirements for permitting.

"Public transit" means a location, including, but not limited to, a bus stop or train station, where the public may access buses, trains, subways, and other forms of transportation that charge set fares, run on fixed routes, and are available to the public.

"Separate entrance" may either have the same meaning as "separate exterior entrance" or may also mean a separate entrance door to a junior accessory dwelling unit located on the interior of the primary dwelling unit where the direct path of travel between the entry for the primary dwelling unit and the door to the junior accessory dwelling unit does not include any livable space."

"Separate exterior entrance" means an exterior door providing direct access to the interior of the accessory dwelling unit.

"Tandem parking" means that two or more automobiles are parked on a driveway or in any other location on a lot, lined up behind one another.

"Within the existing space" includes areas within an existing primary dwelling unit or within an existing attached or detached accessory structure such as a garage, storage area, a carriage house, a pool house, studio, and similar enclosed structures. The addition of square footage, including, but not limited to, the addition of another floor, is not considered to be "within the existing space," unless the expansion is for the purposes of ingress and egress and does not exceed 150 square feet. Additions of square footage which are not "within the existing space" are considered new construction.

**§ 19.60.040. Permit requirements.**

A building permit shall be required prior to construction or creation of an accessory dwelling unit or junior accessory dwelling unit, which shall be processed in accordance with the requirements of Government Code 66314 et seq, as it now exists or may hereafter be amended.

**§ 19.60.050. Designated areas.**

A. **Mixed Use and Residential Zones.** Accessory dwelling units are principally permitted in the commercial mixed use (CMU), single-family residential (R1), small lot residential (RS), two-family residential (R2), multi-family housing (R3), and residential mixed use (RMU) zoning districts, provided the lot contains an existing or proposed single-family, two-family or multi-family dwelling unit as defined in Section 19.08.080(F) (Residential Use Types) and the accessory dwelling unit complies with the standards identified in this chapter.

B. **Commercial Zones.** Accessory dwelling units are also principally permitted in the neighborhood commercial (NC), community commercial (CC), general commercial (GC), and highway commercial (HC) zoning districts, provided the lot contains an existing or proposed single-family, two-family or multi-family dwelling unit which has an approved conditional use permit as defined in Section 19.08.080(F) (Residential use types) and the accessory dwelling unit complies with the standards identified in this chapter. If a commercially zoned lot contains an existing single-family, two-family or multi-family dwelling unit which does not have an approved conditional use permit, then the accessory dwelling unit shall be required to obtain an Administrative Permit pursuant to Chapter 19.74 (Permit and Variance Requirements). Accessory dwelling units are not permitted in industrial zone districts (MP, M1, M2, or MMU) or other zone districts where residential is not a permitted use.

**§ 19.60.060. Development standards for accessory dwelling units proposed within existing structures or existing living areas.**

Accessory dwelling units are permitted to be developed within the existing space of existing structures or within the existing space of ~~living area of~~ an existing primary dwelling unit. Accessory dwelling units developed ~~within existing structures or living areas~~consistent with this section shall be allowed only in compliance with the following standards:

A. **Setbacks.** No setback shall be required for an accessory dwelling unit, including porches, decks, balconies, stairs, and patios which are attached to and for the use of the accessory dwelling unit, built within the footprint and dimensions of an existing living area or existing

structure. Garages are subject to the setbacks of Section **19.22.030** (Accessory structures).

B. **Floor Area.** Expansion of the floor area beyond the physical dimensions of the existing primary dwelling unit or accessory structure shall be limited to accommodating ingress and egress and shall not exceed 150 square feet beyond the same physical dimensions as the existing primary dwelling unit or accessory structure. The total floor area of an ~~attached~~ accessory dwelling unit developed within an existing primary dwelling unit shall not exceed 50% of the floor area of the existing primary dwelling nor exceed the standards of subsection **C** (Unit Sizes). ~~the floor area of the existing primary dwelling unit, except that an expansion of up to 150 square feet beyond the same physical dimensions as the existing primary dwelling unit is permitted for accommodating ingress and egress. The total floor area for a detached accessory dwelling unit developed within an existing detached accessory structure shall not exceed the floor area of the existing detached accessory structure, except that an expansion of up to 150 square feet beyond the same physical dimensions as the existing detached accessory structure is permitted for accommodating ingress and egress.~~ Expansions beyond 150 square feet must comply with the standards set forth in Section **19.60.070** (Development standards for accessory dwellingunits proposed as new construction).

**C. Unit Sizes.**

1. An accessory dwelling unit shall not be less than the minimum size for an efficiency unit, as defined in Section 17958.1 of the **Health and Safety Code,** as it now exists or may hereafter be amended.

2. An accessory dwelling unit shall not be more than 850 square feet of livable space for a studio or one-bedroom or more than 1,000 square feet of livable space for an accessory dwelling unit that provides more than one bedroom, except as otherwise provided in Government Code Section 66323.

D. **Minimum Facilities.** Accessory dwelling units developed within existing structures or living areas shall include permanent provisions for independent living, sleeping, eating, cooking, and sanitation within the unit and must include a separate exterior entrance from the primary dwelling unit if the primary dwelling is a single- family dwelling.

E. **Appearance.** The accessory dwelling unit shall be designed and constructed with the same architectural style, exterior materials and colors as the primary dwelling. ~~The accessory dwelling unit shall be subordinate to the primary dwelling unit.~~ Manufactured homes shall meet the architectural standards set forth in Section **19.10.030(E)** (Residential zone general development standards).

F. **Parking Requirements.** Accessory dwelling units developed within existing structures or living areas shall not be required to provide parking. A garage, carport, or covered parking structure shall be subject to the development regulations of Section **19.22.030** (Accessory structures), if the owner chooses to provide parking as part of the accessory dwelling unit. In addition, when a garage, carport, covered parking structure, or uncovered parking space is converted to an accessory dwelling unit, the required off street parking spaces for the primary dwelling unit, if eliminated, do not need to be replaced. If the property owner chooses to replace the parking spaces, the replacement spaces may be located in any configuration on the same lot as the accessory dwelling unit, including within the front

yard or street side setback, and may be covered spaces subject to conformance with the applicable requirements set forth in Section 19.22.030(C)(2) (Permitted accessory structures to dwelling use type (single-family and two-family)) or Section 19.22.030(D)(3) (Permitted accessory structures to dwelling use type (multi-family)), uncovered spaces or tandem spaces. All replacement parking shall comply with the requirements set forth in Section 11.20.110 (Parking on private property prohibited), Section **19.10.030(F)** (Residential zone general development standards), and Section **19.26.040(A)** (Design and improvement of parking).

G. **Passageways.** No passageways shall be required in conjunction with accessory dwelling units developed within existing structures or living areas.

H. **Building and Fire Codes.** Except as otherwise provided in this chapter, accessory dwelling units developed within existing structures or living areas shall comply with all local building and fire codes. A demolition permit for a detached garage that is to be replaced with an accessory dwelling unit must be reviewed with the application of the accessory dwelling unit and issued at the same time.

I. **Fire Sprinklers.** Accessory dwelling units developed within existing structures or living areas shall not be required to provide fire sprinklers if fire sprinklers were not required for the primary dwelling unit. The construction of an accessory dwelling unit shall not trigger a requirement for fire sprinklers to be installed in the existing primary dwelling.

J. **Utilities.** Accessory dwelling units developed within existing structures or living areas shall not be required to install a new or separate utility connection directly between the accessory dwelling unit and the public utility infrastructure, unless the accessory dwelling unit was constructed with a new single-family dwelling unit. However, if necessary utility infrastructure does not exist with capacity available to serve both the primary dwelling unit and the accessory dwelling unit, the property owner shall be responsible for all costs related to installation of necessary infrastructure or upsizing existing infrastructure. Property owners may install a new or separate utility connection directly between the accessory dwelling unit and the public utility infrastructure at the property owner's option and expense.

~~J.~~K. **Public Improvements.** No public physical improvements shall be required for the creation or conversion of an accessory dwelling unit, including, but not limited to, sidewalk, street, or access improvements. The addition of an accessory dwelling unit shall not require the correction of nonconforming zoning conditions, per **Government Code** Sections 66314 through 66315, as may be amended from time to time.

~~K.~~L. **Height.** An accessory dwelling unit shall not exceed the height limits prescribed in Section **19.10.030** (Residential zone general development standards) for the zone in which the accessory dwelling unit will be located, or if not within a residential zone, the height shall not exceed the standards established in Section **19.10.030** for the single-family residential (R1) zone.

~~L.~~M. **Number Permitted.** ~~Except as otherwise permitted by subsection **M**, only one accessory dwelling unit is permitted per lot.~~

~~M. **Exceptions to Development Standards**.~~

1. One accessory dwelling unit either attached to or located within the existing primary

dwelling subject to the development standards of Section 19.60.060(A – L)(see Section N, Waivers) **or** an accessory dwelling unit pursuant to Section 19.60.070(O)(1).

~~1~~2. One accessory dwelling unit and one junior accessory dwelling unit is permitted per lot with a proposed or existing single-family dwelling, which may be combined with a detached accessory dwelling unit pursuant to Section 19.60.070(O)(2), if all of the following apply:

a. The accessory dwelling unit or junior accessory dwelling unit is within the proposed space of a single-family dwelling unit or existing space of a single-family dwelling unit or accessory structure and may include an expansion of not more than 150 square feet beyond the same physical dimensions as the existing accessory structure. An expansion beyond the physical dimensions of the existing accessory structure shall be limited to accommodating ingress and egress.

b. The space has exterior access from the proposed or existing single-family dwelling unit.

c. The side and rear setbacks are sufficient for fire and safety.

d. The junior accessory dwelling unit complies with the requirements of **Government Code** Section 66313, as it now exists or may hereafter be amended.

~~2~~3. Within the portions of existing multifamily buildings (inclusive of detached structures) that are not used as livable space (including, but not limited to, storage rooms, boiler rooms, passageways, attics, basements, or garages), at least one accessory dwelling unit is permitted or up to 25% of the existing multi-family dwelling units may be converted to accessory dwelling units, whichever is greater, provided each unit complies with state building standards for dwellings. An existing multifamily dwelling having a rear or side setback of less than four (4) feet shall not require modification as a condition of approving the accessory dwelling unit(s). ~~Multiple accessory dwelling units within portions of existing multi-family dwelling units are permitted in areas not used as livable spaces, including, but not limited to, storage rooms, boiler rooms, passageways, attics, basements, or garages, if all of the following apply:~~

~~a. Each unit complies with state building codes for dwellings.~~

~~b. At least one accessory dwelling unit is permitted within an existing multi-family dwelling or up to 25% of the existing multi-family dwelling units may be converted to accessory dwelling units, whichever is greater.~~

~~3. Two detached accessory dwelling units are permitted per lot that has an existing multi-family dwelling unit, subject to four-foot rear and side setbacks and the following height standards:~~

~~a. A height of 16 feet for a detached accessory dwelling unit on a lot with an existing or proposed single-family or multi-family dwelling unit.~~

~~b. A height of 18 feet for a detached accessory dwelling unit on a lot with an~~

~~existing or proposed single-family or multi-family dwelling unit that is within one-half mile of a major transit stop or a high-quality transit corridor, as those terms are defined in Section 21155 of the **Public Resources Code,** as may be amended from time to time. An additional two feet in height is also permitted when the height is to accommodate a roof pitch on the accessory dwelling unit that is aligned with the roof pitch of the primary dwelling unit.~~

~~c. A height of 18 feet for a detached accessory dwelling unit on a lot with an existing or proposed multi-family, multi-story dwelling.~~

~~d. A height of 25 feet or the height limitation in this Code that applies to the primary dwelling, whichever is lower, for an accessory dwelling unit that is attached to a primary dwelling. This clause shall not require City to allow an accessory dwelling unit to exceed two stories.~~

~~4. No public physical improvements shall be required for the creation or conversion of an accessory dwelling unit, including, but not limited to, sidewalk, street, or access improvements. The addition of an accessory dwelling unit shall not require the correction of nonconforming zoning conditions, per **Government Code** Sections 66314 through 66315, as it now exists or may hereafter be amended.~~

N. **Waivers.** Notwithstanding anything to the contrary contained in this ~~title~~Title, limits on ~~height, setbacks, lot coverage, floor area ratio, open space, front setbacks, and lot sizes~~ size based upon a percentage of the proposed or existing primary dwelling, lot coverage, floor area ratio, open space, front setbacks, and minimum lot size are hereby waived if they do not permit ~~at least an 800-square-foot~~ one accessory dwelling unit of at least 800 square feet of interior livable space which provides four-foot rear and side setbacks and meets the following height standards:

1. A height of 16 feet for a detached accessory dwelling unit on a lot with an existing or proposed single-family or multi-family dwelling unit.

2. A height of 18 feet for a detached accessory dwelling unit on a lot with an existing or proposed single-family or multi-family dwelling unit that is within one-half mile of a major transit stop or a high-quality transit corridor, as those terms are defined in Section 21155 of the **Public Resources Code,** as may be amended from time to time. An additional two feet in height is also permitted when the height is to accommodate a roof pitch on the accessory dwelling unit that is aligned with the roof pitch of the primary dwelling unit.

3. A height of 18 feet for a detached accessory dwelling unit on a lot with an existing or proposed multi-family, multi-story dwelling.

4. A height of 25 feet or the height limitation in this Code that applies to the primary dwelling, whichever is lower, for an accessory dwelling unit that is attached to a primary dwelling. This clause shall not require City to allow an accessory dwelling unit to exceed two stories.

**§ 19.60.070. Development standards for accessory dwelling units proposed as new construction.**

Newly constructed accessory dwelling units are permitted to be attached to a proposed or existing primary dwelling unit or detached from a proposed or existing primary dwelling unit as long as the

newly constructed accessory dwelling unit is located on the same lot as a proposed or existing primary dwelling unit. Newly constructed accessory dwelling units shall be allowed only in compliance with the following standards:

A. **Minimum Lot Area.** There is no minimum lot area.

B. **Maximum Lot Coverage.** There is no maximum lot coverage.

C. **Setbacks.** No setback shall be required for an accessory dwelling unit constructed in the same location (i.e., footprint) and to the same dimensions as an existing accessory structure. A setback of four feet from the side and rear lot lines shall be required for an accessory dwelling unit that is otherwise newly constructed, including porches, decks, balconies, stairs, and patios which are attached to and for the use of the accessory dwelling unit.

D. **Floor Area.** For an attached accessory dwelling unit, ~~T~~the total floor area ~~of an attached accessory dwelling unit~~ shall not be less than 150 square feet, shall not exceed 50% of the floor area of the existing primary dwelling to which it is attached, and shall not ~~nor~~ exceed the standards of subsection **E** (Unit Sizes). For a detached accessory dwelling unit, ~~T~~the total floor area ~~for a detached accessory dwelling unit~~ shall not be less than 150 square feet nor exceed the standards of subsection **E** (Unit Sizes).

E. **Unit Sizes**.

1. An accessory dwelling unit shall not be less than the minimum size for an efficiency unit, as defined in Section 17958.1 of the **Health and Safety Code,** as may be amended from time to time.

2. An accessory dwelling unit shall not be more than 850 square feet of livable space for a studio or one-bedroom or more than 1,000 square feet of livable area for an accessory dwelling unit that provides more than one bedroom, except as otherwise provided in Government Code Section 66323.

F. **Minimum Facilities.** The accessory dwelling unit shall include permanent provisions for independent living, sleeping, eating, cooking, and sanitation within the unit and must include a separate exterior entrance from the primary dwelling unit if the primary dwelling is a single-family dwelling.

G. **Appearance.** The accessory dwelling unit shall be designed and constructed with the same architectural style, exterior materials and colors as the primary dwelling. ~~The accessory dwelling unit shall be subordinate to the primary dwelling unit.~~ Manufactured homes shall meet the architectural standards set forth in Section **19.10.030(E)** (Residential zone general development standards).

H. **Parking Requirements.** Except as otherwise provided by this chapter, the parking required by this section is in addition to that required for the primary dwelling unit located on the lot by Chapter **19.26** (Off-Street Parking and Loading). Garages, carports, and covered parking structures attached to the accessory dwelling unit and built to satisfy the required parking standards for the accessory dwelling unit are subject to the same setbacks and other development regulations as the accessory dwelling unit.

1. Accessory dwelling units with one or more bedrooms shall provide at least one off-street parking space. Studios shall not be required to provide any parking spaces. The parking requirement for accessory dwelling units with bedrooms can be met by providing the required parking space within the front yard setback and may be located in tandem with other on-site parking as long as it complies with the requirements set forth in Section **11.20.110** (Parking on private property prohibited), Section **19.10.030(F)** (Residential zone general development standards), and Section **19.26.040(A)** (Design and improvement of parking).

2. When a garage, carport, covered parking structure, or uncovered parking space is demolished in conjunction with the construction of an accessory dwelling unit, the required off-street parking spaces for the primary dwelling unit, if eliminated, do not need to be replaced. If the property owner chooses to replace these parking spaces, the replacement spaces may be located in any configuration on the same lot as the accessory dwelling unit, including within the front yard or street side setback, and may be covered spaces subject to conformance with the applicable requirements set forth in Section 19.22.030(C)(2) (Permitted accessory structures to dwelling use type (single- family and two-family)) or Section 19.22.030(D)(3) (Permitted accessory structures to dwelling use type (multi-family)), uncovered spaces or tandem spaces. All replacement parking shall comply with the requirements set forth in Section **11.20.110** (Parking on private property prohibited), Section **19.10.030(F)** (Residential zone general development standards), and Section **19.26.040(A)** (Design and improvement of parking).

3. Notwithstanding the above, accessory dwelling units shall not be required to provide parking in any of the following circumstances:

    a. When the accessory dwelling unit is located within one-half mile walking distance of public transit.

    b. When the accessory dwelling unit is located within the Old Town Historic District (DT-4) or the Central Business District (DT-6).

    c. When the accessory dwelling unit is part of an existing or proposed primary dwelling unit or an existing accessory structure.

    d. When on-street parking permits are required but not offered to the occupant of the accessory dwelling unit.

    e. When there is a car share vehicle located within one block of the accessory dwelling unit.

    f. When a permit application for an accessory dwelling unit is submitted with a permit application to create a new single-family or multi-family dwelling.

I. **Passageways.** No passageways shall be required in conjunction with the construction of an accessory dwelling unit.

J. **Building and Fire Codes.** Except as otherwise provided in this chapter, newly constructed accessory dwelling units shall comply with all local building and fire codes.

K. **Fire Sprinklers.** Accessory dwelling units shall not be required to provide fire sprinklers if fire sprinklers were not required for the primary dwelling unit. The construction of an accessory dwelling unit shall not trigger a requirement for fire sprinklers to be installed in the existing primary dwelling.

L. **Utilities.** New or separate utility connections directly between the accessory dwelling unit and the public utility infrastructure shall only be required if directed by the environmental utilities department or the electric department. In such cases, if necessary utility infrastructure does not exist with capacity available to serve both the primary dwelling unit and the accessory dwelling unit, the property owner shall be responsible for all costs related to installation of necessary infrastructure or upsizing existing infrastructure.

~~L.~~M. **Public Improvements**. No public physical improvements shall be required for the creation or conversion of an accessory dwelling unit, including, but not limited to, sidewalk, street, or access improvements. The addition of an accessory dwelling unit shall not require the correction of nonconforming zoning conditions, per **Government Code** Sections 66314 through 66315, as it now exists or may hereafter be amended.

~~M.~~N. **Height.** An accessory dwelling unit shall not exceed the height limits prescribed in Section **19.10.030** (Residential zone general development standards) for the zone in which the accessory dwelling unit will be located, or if not within a residential zone, the height shall not exceed the standards established in Section **19.10.030** for the single-family residential (R1) zone.

~~N.~~O. **Number Permitted.** ~~Except as otherwise permitted by subsection O, only one accessory dwelling unit is permitted per lot.~~

~~O. **Exceptions to Development Standards**.~~

1. One newly constructed attached or detached accessory dwelling unit is permitted per lot subject to the development standards of Section 19.60.070(A – N)(see Waivers) **or** one accessory dwelling unit pursuant to Section 19.60.060(M)(1).

~~1.~~2. One newly constructed detached accessory dwelling unit that does not exceed four-foot rear and side setbacks, which may be combined with accessory dwelling units or junior accessory dwelling units proposed within existing structures pursuant to Section 19.60.060(M)(1)~~one junior accessory dwelling unit~~, is permitted per lot if all of the following apply:

   a. The total floor area for the newly constructed detached accessory dwelling unit shall not exceed 800 square feet.

   b. The newly constructed detached accessory dwelling unit shall not exceed the following height standards:

      i. A height of 16 feet for a detached accessory dwelling unit on a lot with an existing or proposed single-family or multi-family dwelling unit.

      ii. A height of 18 feet for a detached accessory dwelling unit on a lot with an existing or proposed single-family or multi-family dwelling unit that is within one-half mile of a major transit stop or a high- quality transit

corridor, as those terms are defined in Section 21155 of the **Public Resources Code,** as may be amended from time to time. An additional two feet in height is also permitted when the height is to accommodate a roof pitch on the accessory dwelling unit that is aligned with the roof pitch of the primary dwelling unit.

iii. A height of 18 feet for a detached accessory dwelling unit on a lot with an existing or proposed multi-family, multi-story dwelling.

iv. A height of 25 feet or the height limitation in this Code that applies to the primary dwelling, whichever is lower, for an accessory dwelling unit that is attached to a primary dwelling. This clause shall not require City to allow an accessory dwelling unit to exceed two stories.

~~2.~~3. On a lot with an existing multifamily dwelling unit, ~~M~~multiple constructed detached accessory dwelling units are permitted ~~per lot that has an existing multifamily dwelling unit~~. The number of accessory dwelling units shall not exceed the number of existing units on the lot and not more than eight detached accessory dwelling units are permitted. This may be combined with accessory dwelling units proposed within existing non-livable spaces of existing multifamily structures pursuant to Section 19.60.060(M)(2). The ~~A~~accessory dwelling units are subject to the following development standards:

a. A four-foot rear and side setback.

b. A height of 16 feet for a detached accessory dwelling unit on a lot with an existing or proposed single-family or multi-family dwelling unit.

c. A height of 18 feet for a detached accessory dwelling unit on a lot with an existing or proposed single-family or multi-family dwelling unit that is within one-half mile of a major transit stop or a high-quality transit corridor, as those terms are defined in Section 21155 of the **Public Resources Code,** as may be amended from time to time. An additional two feet in height is also permitted when the height is to accommodate a roof pitch on the accessory dwelling unit that is aligned with the roof pitch of the primary dwelling unit.

d. A height of 18 feet for a detached accessory dwelling unit on a lot with an existing or proposed multi-family, multi-story dwelling.

e. A height of 25 feet or the height limitation in this Code that applies to the primary dwelling, whichever is lower, for an accessory dwelling unit that is attached to a primary dwelling. This clause shall not require City to allow an accessory dwelling unit to exceed two stories.

~~3. No public physical improvements shall be required for the creation or conversion of an accessory dwelling unit, including, but not limited to, sidewalk, street, or access improvements. The addition of an accessory dwelling unit shall not require the correction of nonconforming zoning conditions, per **Government Code** Sections 66314 through 66315, as may be amended from time to time.~~

4. On a lot with a proposed multifamily dwelling, not more than two detached accessory dwelling units are permitted.

P. **Waivers.** Notwithstanding anything to the contrary contained in this title, limits on ~~height, setbacks, lot coverage, floor area ratio, open space, front setbacks, and lot sizes~~ size based upon a percentage of the proposed or existing primary dwelling, lot coverage, floor area ratio, open space, front setbacks, and minimum lot size are hereby waived if they do not permit ~~at least an 800 square foot~~ an accessory dwelling unit of at least 800 square feet of interior livable space which provides four-foot rear and side setbacks and meets the following height standards:

1. A height of 16 feet for a detached accessory dwelling unit on a lot with an existing or proposed single-family or multi-family dwelling unit.

2. A height of 18 feet for a detached accessory dwelling unit on a lot with an existing or proposed single-family or multi-family dwelling unit that is within one-half mile of a major transit stop or a high-quality transit corridor, as those terms are defined in Section 21155 of the **Public Resources Code,** as may be amended from time to time. An additional two feet in height is also permitted when the height is to accommodate a roof pitch on the accessory dwelling unit that is aligned with the roof pitch of the primary dwelling unit.

3. A height of 18 feet for a detached accessory dwelling unit on a lot with an existing or proposed multi-family, multi-story dwelling.

4. A height of 25 feet or the height limitation in this Code that applies to the primary dwelling, whichever is lower, for an accessory dwelling unit that is attached to a primary dwelling. This clause shall not require City to allow an accessory dwelling unit to exceed two stories.

**§ 19.60.080. Use restrictions.**

A. **Sales Prohibited, Exceptions.** Accessory dwelling units shall not be sold independently of the primary dwelling unit on the lot unless all of the criteria of Government Code Section 66341, as may be amended from time to time, are met, including that the accessory dwelling unit or the primary dwelling unit was built or developed by a qualified nonprofit corporation and there are affordability restrictions on the sale and conveyance of the accessory dwelling unit or primary residence that ensure the accessory dwelling unit and primary dwelling will be preserved for low income housing for 45 years for owner-occupied housing units and will be sold or resold to a qualified buyer.

B. **Rentals.** Accessory dwelling units may be rented as long as the rental term exceeds 30 calendar days. Accordingly, short-term rental permits authorized pursuant to Chapter 4.25 (Short-Term Rentals) will not be issued for accessory dwelling units.

**§ 19.60.090. Nonconforming zoning conditions.**

An accessory dwelling unit or junior accessory dwelling unit in compliance with the standards set forth in this chapter is still permitted even when the primary dwelling unit has a

nonconforming zoning condition, as defined in Section 19.60.030.

**§ 19.60.100. Fees.**

All fees and charges will be charged in accordance with the Accessory Dwelling Units Fee Policy adopted by the City Council on April 21, 2021 by Resolution No. 21-146, as amended from time to time.

~~**§ 19.60.110. Administrative permit requirements.**~~
~~**An accessory dwelling unit or junior accessory dwelling unit which does not meet the standards set forth in this chapter, shall be required to obtain an Administrative Permit pursuant to Chapter 19.74 (Permit and Variance Requirements).**~~

**§ 19.60.120. Junior accessory dwelling units.**

A. Junior accessory dwelling units are principally permitted within areas zoned to allow single-family residential use and must be located on a lot that contains an existing or proposed single-family dwelling unit as defined in Section 19.08.080(F)(2) (Residential use types).

B. Junior accessory dwelling units are subject to the following conditions:

1. Only one junior accessory dwelling unit is permitted per residential lot zoned for single-family uses, with an existing or proposed single-family dwelling.

2. A junior accessory dwelling unit shall not exceed 500 square feet of livable space.

3. If the junior accessory dwelling unit has shared sanitation facilities with the existing structure ,~~T~~the property owner shall occupy the single-family dwelling unit in which the junior accessory dwelling unit will be permitted. The property owner may reside in either the remaining portion of the single-family dwelling unit or the newly created junior accessory dwelling unit. Owner-occupancy shall not be required if the junior accessory dwelling unit has separate sanitation facilities or if the owner is a governmental agency, land trust, or housing organization.

4. Following final inspection approval of a building permit for a junior accessory dwelling unit, a deed restriction, in a form approved by the City Attorney, shall be recorded with the Placer County Recorder's office, which shall include the applicable restrictions and limitations of a junior accessory dwelling unit identified in this chapter. Said deed restriction shall run with the land, and shall be binding upon any future owners, heirs, or assigns. A copy of the recorded deed restriction shall be filed with the City stating that:

a. The junior accessory dwelling unit shall not be sold separately from the single-family dwelling unit.

b. The junior accessory dwelling unit is restricted to the development standards, including maximum size, identified in this chapter.

c. If the junior accessory dwelling unit has shared sanitation facilities with the existing

structure ~~T~~the junior accessory dwelling unit shall be considered legal only so long as either the single-family dwelling unit~~,~~ or the junior accessory dwelling unit~~,~~ is occupied by the owner of record of the property.

d. The restrictions shall be binding upon any successor in ownership of the property and lack of compliance with this provision may result in legal action against the property owner, including revocation of any right to maintain a junior accessory dwelling unit on the property.

5. The junior accessory dwelling unit shall be constructed within the walls of the proposed or existing single-family dwelling unit, including attached garages.

6. The junior accessory dwelling shall include a separate entrance from the main entrance to the proposed or existing single-family dwelling unit, and if the junior accessory dwelling unit does not include a separate bathroom, the junior accessory dwelling unit shall also include an interior entry into the main living area.

7. The permitted junior accessory dwelling unit must include an efficiency kitchen, as defined in Section 19.08.080, as it now exists or may hereafter be amended. ~~which shall include at a minimum all of the following:~~

~~a. A cooking facility with appliances.~~

~~b. A food preparation counter and storage cabinets that are of reasonable size in relation to the size of the junior accessory dwelling unit.~~

8. Junior accessory dwelling units shall comply with all local building and fire codes applicable to the existing single-family dwelling unit except that fire sprinklers shall not be required if fire sprinklers were not required for the single-family dwelling unit. The construction of a junior accessory dwelling unit shall not trigger a requirement for fire sprinklers to be installed in the existing primary dwelling.

9. Junior accessory dwelling units may be rented as long as the rental term exceeds 30 calendar days. Accordingly, short-term rental permits authorized pursuant to Chapter 4.25 (Short-Term Rentals) will not be issued for junior accessory dwelling units.

10. Junior accessory dwelling units shall not be required to provide parking nor be required to provide replacement parking if constructed within an attached garage.

11. Junior accessory dwelling units shall comply with all other applicable requirements set forth in this chapter.

~~C. Junior accessory dwelling units shall not be required to provide parking.~~

|---|---|
| **Title:** | General Vacation – Portion of Campo Street Right of Way |
| **Contact:** | Sean Morales 916-774-5282 smorales@roseville.ca.us |

## SUMMARY

Staff recommends consideration of the addendum to the Roseville High School Improvement Project Mitigated Negative Declaration, make a finding that the project is consistent with the General Plan, and adopt a resolution to abandon a portion of the Campo Street right of way in the City of Roseville. The proposed project includes a General Vacation to abandon a 23,272 square-foot (.53 acres) portion of the Campo Street right of way. The abandonment is part of the Roseville High School Improvement Project to update and construct a range of facilities. The project includes upgrades to a portion of the Campo Street right of way, including pavement texture and color connection.

## RECOMMENDATION

1. Consider the Addendum to the Roseville High School Improvement Project Mitigated Negative Declaration.
2. Adopt the Resolution to vacate a portion of the Campo Street right of way, including applicable findings contained therein, like General Plan consistency, as being in the City's best interest; reserving back City easements for public utilities and emergency vehicle access; authorize the City Manager to execute a Quitclaim Deed for the portion of right of way to the Roseville Joint Union High School District, without additional financial consideration, and any other documents required to effectuate the conveyance of the abandoned interests in the portion of right of way; and authorize the City Clerk or their designee to record the Quitclaim Deed, the Resolution, and anything else necessary to effectuate the intent of these actions, at the Recorder's Office of Placer County.

## BACKGROUND

### General Vacation of Right of Way

The applicant requests approval of a General Vacation to abandon a 23,272 square-foot (.53 acres) portion of the Campo Street right of way. The right of way abandonment is part of the Roseville High School Improvement Project to update and construct a range of facilities. The project includes upgrades to a portion of the Campo Street right of way, including pavement texture and color connection. This section of Campo Street is and has historically been closed to vehicle traffic during school operating hours. In 1970, the street was closed off from 7:30 am to 4:00 pm by resolution of the City Council. In 2013, those hours were expanded to 6:30 am to 4:00 pm. The Roseville Joint Union High School District has requested that the City undergo the process to permanently abandon the portion of Campo Street right of way within the school campus, in part, in order to improve the safety and security of students. A detailed request from the school is provided as Attachment 6. A conceptual rendering of the campus after completion of the Roseville High School Improvement Project, including upgrades to Campo Street, is included as Attachment 7.

The California Streets and Highways Code (Sections 8320 through 8325) states that the legislative body of a local agency may initiate a General Vacation upon a petition or request of an interested person, at the discretion of the legislative body, where the clerk of the legislative body shall administratively set a hearing by fixing the date, hour, and place of the hearing. In accordance with the provisions of Section 8300, et seq., of the Streets and Highways Code, proof of publication and posting of the City's Notice of Intention to Vacate, and notice for a public hearing considering the ordering of such vacation, have occurred and on April 1, 2026, the Council set the hearing date for May 6, 2026. Section 8324 states if the legislative body finds, from all the evidence submitted, that the street, highway, or public service easement described in the notice of hearing or petition is unnecessary for present or prospective public use, the legislative body may adopt a resolution vacating such.

Staff recommend finding that the portion of the right of way described and depicted in the attachments hereto is unnecessary for present or prospective public use, but as vacated to the Roseville Joint Union High School District the right of way area serves the community's best interests in order to accommodate the Roseville High School Improvement Project and to ensure a safe and secure school site.

As part of this general vacation process the City would reserve and exempt from its vacation and conveyance of interests, easements for public utility purposes and emergency vehicle access purposes, as further described and depicted in the attachments hereto, and has determined that no other utilities or facilities have been identified or will be impacted by the actions contemplated herein.

Additionally, this portion of right of way is determined to not be subject to the procedures or requirements under the California Surplus Land Act (Section 54200 et seq. of the California Government Code) pursuant to information from the California Department of Housing and Community Development, as this abandonment and quitclaim of interests is not a "disposition" under the California Surplus Land Act and HCD Guidelines, Section 102(i), and as such, this right of way area may be conveyed to the Roseville Joint Union High School District pursuant to Section 4.12.110 of the Roseville Municipal Code, as real property needed by another public entity in the best interests of the City—as it provides beneficial use, creates a safe and secure school campus site, and is otherwise not needed by the City—and without monetary consideration exchanged.

Pursuant to the Streets and Highways Code, Section 8324, this abandonment shall only be effective on the condition that: a) the Roseville Joint Union High School District, or any related entity with lawful ownership of the neighboring property at 1 Tiger Way, is the adjoining landowner taking lawful possession and interest in the right of way area; and b) the City's easement interests, reserved and exempted and described in the attachments hereto, are lawfully recognized hereby and in full force and effect.

Based on the facts and findings described herein, staff recommends the Council adopt the resolution to abandon a portion of the Campo Street right of way.

General Plan Consistency

The .53-acre segment of Campo Street proposed for abandonment includes two General Plan land use designations. Approximately .26 acres in the center of the segment has a Public/Quasi-Public (P/QP) land use designation. Approximately .27 acres of the segment to the north and south of the P/QP land use area has a Low-Density Residential (LDR) land use designation. The City of Roseville 2035 General Plan

establishes the P/QP land use as area for education and other public facilities. The City of Roseville 2035 General Plan establishes public and private schools as a secondary use in the LDR land use area. Planning staff and the Planning Manager reviewed and found that this vacation and contemplated actions are consistent with the City of Roseville 2035 General plan. Therefore, Planning staff recommends the Council as the legislative body of the local planning agency—the City of Roseville—find the project to be consistent with the City of Roseville 2035 General Plan.

Traffic Evaluation

A traffic study was completed for the project by Kimley-Horn and Associates, Inc. (Attachment 8). The purpose of the study was to determine if permanent abandonment of the proposed portion of Campo Street would have an adverse effect on surrounding roadways. The study looked at the broad effects of the proposed abandonment as well as targeted concerns brought up by neighbors, including representatives of the Historic Sierra Vista Neighborhood Association. Some of the concerns include the effects the permanent closure of Campo Street will have on increased traffic volumes and traffic speeds on surrounding streets as well as the effects it will have on school drop-off and pick-up. Traffic was monitored on a school day in March and the study concluded that peak traffic times on surrounding roadways is currently 8:10 am to 8:25 am in the morning and 3:15 pm to 3:35 pm in the afternoon. Campo Street has been closed from the hours of 7:30 am to 4:00 pm, which includes the morning and afternoon peak periods, since approximately 1970. Therefore, the permanent closure and vacation of the subject portion of Campo Street will not affect the peak traffic periods during the school day.

The study also evaluated the effects of the Campo Street closure on large-event traffic patterns. These events, such as high school football games, take place in the evening, when Campo Street is currently open to vehicles. The study anticipated that all surrounding roadways would continue to operate at Level of Service A or B. A segment of Sierra Boulevard would be anticipated to fall from A to B, while the other segments maintain current levels of service. Levels A and B would not impact the City's General Plan policy of 70% percent of the City's signalized intersections operating at level of service C or better during peak demand. The study included Traffic Management Plan suggestions for events. Some of these, such as opening up additional parking areas and providing communication to residents and visitors, are already being implemented by the school and others were given to the school for consideration.

Public Outreach

A neighborhood meeting was held for the project on November 3, 2025, with City Development Services staff and Roseville Joint Union High School District staff in attendance. Approximately twenty nearby residents and property owners were in attendance. Roseville High School Principal, Ashley Serin, made a presentation about the project including the increase in safety the street closure would bring to students, a plan to open up additional parking areas around the school for large events, an increase in wayfinding from those parking areas to event areas, and the range of communications from the high school to local residents and visitors for large events. She then opened the meeting up for questions. There was no direct opposition to the right of way abandonment proposal, but a number of concerns were brought up related to vehicle travel in the area.

Some of the neighbor concerns related to the project were discussed in the traffic evaluation section above. Other concerns brought up at the neighborhood meeting that are not directly related to the project include students illegally parking along Tiger Way adjacent to the Union Pacific railroad tracks and concerns about emergency evacuations in the event of a railroad accident. Staff brought the parking

concern to the attention of Union Pacific and emergency vehicle access easements will remain over the closed portion of Campo Street. While Campo Street will be closed, the existing gates will remain in place and emergency access will be available. Residents asked for permanent wayfinding signage to be placed within the school for visitors crossing through the school from auxiliary parking areas near Berry Street. School staff explained that they currently use and will continue to use movable A-frame signage, which is easier to adjust to changing conditions and signage needs. Residents asked for additional stop signs and crosswalks on surrounding streets such as Coronado Avenue, Sierra Boulevard, and Mariposa Street. Development Services staff relayed the request to Public Works staff. Public Works has studied the area in recent years and are available for neighbors to discuss any concerns. As discussed in the traffic evaluation section, these concerns are not meaningfully affected by the Campo Street abandonment project. Neighbors brought up concerns about pick-up and drop-off activities. School representatives explained the procedures for pick-up and drop-off that are sent to parents and enforced by the school. The proposed Campo Street abandonment does not affect pick-up and drop-off procedures, as the street is already closed off at that time during school hours.

Disposition Under the Municipal Code Section 4.12.110(B)

Any interest in real property may be sold or otherwise disposed of pursuant to a finding by the City Council that such disposition is in the City's best interest, including real property needed by another public entity, public utility, or a nonprofit public benefit corporation. Based on the foregoing, this vacation and conveyance is in the City's best interest because it provides beneficial use of the portion of right of way that otherwise is not needed by the City, is largely already closed for the majority of the working day, and helps ensure a safer and more secure local school campus. Therefore, it is in the City's best interests, based on the foregoing and in accordance with Municipal Code Section 4.12.110(B), to quitclaim the subject portion of right of way without compensation or financial consideration to the adjoining public entity school district.

Conclusion

The section of Campo Street proposed to be abandoned is already closed during peak traffic hours. Permanent abandonment of the portion of roadway would increase safety and security for the Roseville High School campus without meaningfully altering the levels of service provided by surrounding roadways, and would be in the City's best interest. Therefore, staff recommends the Council adopt the resolution to permanently abandon the portion of right of way and do all other things necessary to convey its interests, excepting therefrom and reserving back easements for public utilities and emergency vehicle access, to the Roseville Joint Union High School District.

FISCAL IMPACT

Abandoning the right of way will not have a fiscal impact.

ENVIRONMENTAL REVIEW

Consistent with CEQA Guidelines Section 15164, regarding a previously adopted mitigated negative declaration (MND), an Addendum to the Roseville High School Improvement Project Mitigated Negative Declaration (SCH #2024040651, adopted May 28, 2024 by the Roseville Joint Union High School District as lead agency) has been prepared by the City of Roseville (as the responsible agency for the right of way abandonment) to cover the minor technical changes and additions necessary to describe the impacts of the proposed project. The Addendum did not identify any new environmental impacts from the project.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

1. Ensure a safe and healthy community
4. Invest in well-planned infrastructure and growth

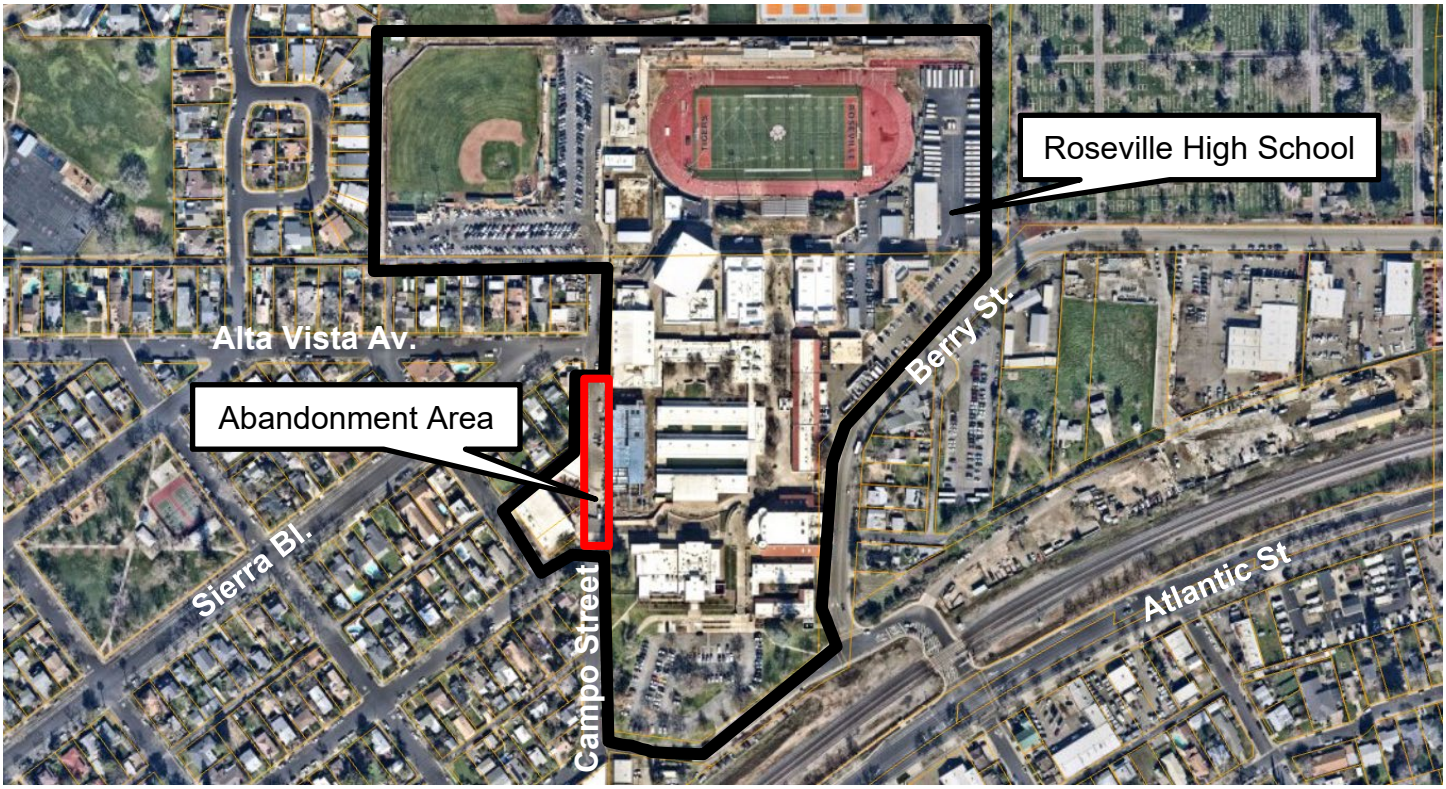
An Addendum to a previously adopted mitigated negative declaration (MND) may be prepared for a project if only minor technical changes or additions are necessary or none of the conditions calling for the preparation of a subsequent EIR or negative declaration have occurred (California Environmental Quality Act Guidelines [CEQA] Section 15164). Consistent with CEQA Guidelines Section 15164, the below analysis has been prepared in order to demonstrate that none of the conditions described in Section 15162 of the CEQA Guidelines calling for preparation of a subsequent negative declaration have occurred and that only minor technical changes or additions are necessary in order to deem the adopted negative declaration adequate to describe the impacts of the proposed project. CEQA Guidelines Section 15164 also states that an addendum need not be circulated for public review, but can be included in or attached to the negative declaration for consideration by the hearing body. This Addendum focuses only on those aspects of the project or its impacts which require additional discussion.

## PROJECT DESCRIPTION

### Project Location

The project site is located at 1 Tiger Way on Parcel 355 within the Infill area (see Figure 1).

**Figure 1: Project Location (parcels bordered in red)**



## BACKGROUND

The Roseville High School Improvement Project is an approved expansion project that includes a new 14,000-square-foot multistory classroom building, outdoor dining patio and quad extension, competition pool, tennis courts, and parking lot, and demolition of the 12,000-square-foot old auxiliary gymnasium, 3,000-square-foot pool, and 180-square-foot pool building at Roseville High School. The project also includes upgrades to a portion of the Campo Street right of way, including pavement texture and color connection, in order to create an aesthetic link from the main part of the campus to the buildings on the other side of Campo Street. This section of Campo Street is already closed to vehicle traffic during school operating hours. In 1970, the street was closed off from 7:30 am to 4:00 pm by resolution of City Council. In 2013, those hours were expanded to 6:30 am to 4:00 pm. The Roseville High School Improvement Project Mitigated Negative Declaration did not evaluate the potential of permanently closing Campo Street to vehicle traffic because the school district is not in control of the right of way and the project was designed and evaluated for the possibility of the right of way remaining open outside of school hours. The Roseville Joint Union High School District (RJUHSD), is the lead agency for the improvement project and adopted the Roseville High School Improvement Project Mitigated Negative Declaration (MND) On May 28, 2024. The Roseville Joint Union High School District has requested that the City undergo the process to permanently abandon the portion of Campo Street right of way within the school campus in order to improve the safety and security of students. The abandonment area encompasses approximately 23,272 square feet (.53 acres).

Approval of the public right of way abandonment by the Roseville City Council is a discretionary action that requires compliance with the California Environmental Quality Act (CEQA). Therefore, the City, as responsible agency for the right of way abandonment, prepared this Addendum to the MND.

### PROJECT DESCRIPTION

The proposed project is a request by the Roseville Joint Union High School District to abandon a portion of the Campo Street public right of way (Attachment 1). The proposed right of way abandonment will facilitate the Roseville High School Improvement project, which includes physical and aesthetic upgrades to the street, by permanently closing the street that is currently closed during school operating hours. No direct or indirect physical changes to the environment, beyond what was evaluated in the previously certified MND, are proposed concurrent with the right of way abandonment.

## PURPOSE AND SCOPE OF ADDENDUM

### INTRODUCTION

The project applicant, the Roseville Joint Union High School District, requests a General Vacation of a 23,272 square-foot (.53 acre) portion of the Campo Street right of way easement. The easement abandonment is part of a larger improvement project for Roseville High School to update and construct a range of facilities. The environmental effects of the construction and use of the abandonment area are examined in the previously adopted *Roseville High School Improvement Project Mitigated Negative Declaration* (SCH #2024040651, adopted May 28, 2024) (Attachment 2) and in this Addendum. In preparing this Addendum, all of the potential impacts identified on the CEQA "Environmental Checklist Form" were considered. For all impact areas, a preliminary review indicated that the right of way abandonment would have no impact not already identified in the EIR.

### STATUTORY BACKGROUND

Under the California Environmental Quality Act (CEQA), an Addendum to a previously adopted Mitigated Negative Declaration (MND) shall be prepared by the responsible agency if minor technical changes or modifications to the proposed project occur (CEQA Guidelines § 15164). An addendum is appropriate only if these minor technical changes or modifications do not result in any new significant impacts or a substantial increase in the severity of previously identified significant impacts. The Addendum need not be circulated for public review (CEQA Guidelines § 15164[c]); however, an addendum is to be considered along with the negative declaration by the decision-making body prior to making a decision on the project (CEQA Guidelines § 15164[d]). The lead agency for the negative declaration was the Roseville Joint Union High School District. The responsible agency for the right of way abandonment is the City of Roseville.

This Addendum to the MND demonstrates that the environmental analysis, impacts, and mitigation requirements identified in the *Roseville High School Improvement Project Mitigated Negative Declaration* remain substantively unchanged by the situation described herein, and supports the finding that the proposed project does not raise any new issues and does not exceed the level of impacts identified in the previous MND.

### APPLICABLE REPORTS IN CIRCULATION

This Addendum is written as an addition to the previously adopted *Roseville High School Improvement Project Mitigated Negative Declaration* (SCH #2024040651). Copies of the adopted MND are available for review at the Roseville Development Services Department, 311 Vernon Street, Roseville CA 95678.

## EVALUATION

## PROJECT ELEMENTS ANALYZED IN THE ORIGINAL MND

The environmental impacts of constructing the Roseville High School Improvement project, including any improvements to Campo Street, were evaluated in the *Roseville High School Improvement Project Mitigated Negative Declaration*. Under CEQA, a significant effect on the environment is defined as a substantial or potentially substantial adverse change in any of the physical conditions within the area affected by the project, including air, water, minerals, flora, fauna, ambient noise, and objects of historic or aesthetic significance (California Code of Regulations – CCR – Section 15382). The MND found that implementation of the proposed project with mitigation incorporated would not result in significant impacts to environmental resources, which were analyzed in Section 3 of the document and summarized in Section 2.

CCR Section 15126.4 requires that an MND describe feasible mitigation measures that could minimize significant adverse impacts. Implementation of mitigation measures would reduce the impact to a less-than-significant level. In the course of drafting the MND, impacts were identified that could be reduced to a less-than-significant level with implementation of proposed mitigation measures. These impacts can be found in sections 3.1, “Aesthetics”; 3.3, “Air Quality”; 3.4, “Cultural Resources”; 3.7, “Geology and Soils”; 3.13, “Noise”; and 3.18 “Tribal Cultural Resources.” (Roseville Joint Union High School District, Roseville High School Improvement Project MND, 26).

## MODIFIED PROJECT AS PROPOSED UNDER RIGHT OF WAY ABANDONMENT

The proposed right of way abandonment would not modify the physical elements of the Roseville High School Improvement Project. Rather, the modification will affect the hours that the right of way is closed. The permanent closure of the right of way will divert vehicles onto other streets that may have used the Campo Street right of way outside of school hours or when school is not in session. The most closely related environmental effect under CEQA with a potential for impact by the right of way abandonment would be “Transportation”. The *Roseville High School Improvement Project Mitigated Negative Declaration* analyzed potential impacts to transportation. Additional analysis is provided below related to the minor changes associated with the right of way abandonment including evaluation of the impact category and questions contained in the checklist.

<u>TRANSPORTATION</u>

Would the project:

*a) Conflict with a program, plan, ordinance, or policy addressing the circulation system, including transit, roadway, bicycle, and pedestrian facilities?*

As analyzed in the MND, the project would not adversely affect traffic conditions in the area. To further analyze the project with the permanent closure of Campo Street, Kimley-Horn completed a traffic evaluation (Attachment 3). The evaluation concluded the project, which would have the effect of diverting extracurricular events (i.e. Roseville High School football game) traffic from Campo Street to the adjacent neighborhood network, is not anticipated to significantly alter the adjacent roadways’ typical existing daily operations. The MND determined that there would be no impact associated with conflicts with a plan, ordinance, or policy addressing the circulation system, and the supplemental traffic evaluation affirms that the proposed changes to the project would not either. The proposed changes to the project would result in no impact.

*b) Conflict or be inconsistent with CEQA Guidelines Section 15064.3, subdivision (b)?*

As analyzed in the MND, the project would not conflict or be inconsistent with CEQA Guidelines Section 15064.3, subdivision (b), as there would be no increase in traffic volumes and as the proposed project is well below the CEQA VMT threshold of 110 trips per day, the proposed project can be screened from any further CEQA VMT analysis and would not result in a significant impact relative to VMT. With the permanent abandonment of the

proposed portion of Campo Street, the daily trips will not increase and therefore the project can still be screened out from further VMT analysis. The proposed changes to the project would still result in no impact.

*c) Substantially increase hazards due to a geometric design feature (e.g., sharp curves or dangerous intersections) or incompatible uses (e.g., farm equipment)?*

As analyzed in the MND, the proposed project would not substantially modify the on- or off-site access or circulation system for Roseville High School. As evaluated in the Kimley-Horn report, the abandonment of Campo Street is not anticipated to significantly alter the adjacent roadways' typical existing daily operations. The evaluation did not recognize any significant circulation hazards that would occur as the result of the proposed abandonment. The proposed changes to the project would still result in no impact.

*d) Result in inadequate emergency access?*

As analyzed in the MND, the existing access and circulation features at the site, including the driveways, on-site circulation roads, parking lots, and fire lanes, would continue to accommodate emergency ingress and egress by fire trucks, police units, and ambulance/paramedic vehicles. With permanent closure of Campo Street, an emergency vehicle access easement will remain over the property to ensure adequate emergency access. This ensures that the proposed changes would continue to result in no impact.

## IMPACT ANALYSIS

The *Roseville High School Improvement Project Mitigated Negative Declaration* assessed impacts of construction and operation of the high school improvements. The proposed right of way abandonment does not affect the anticipated construction impacts and does not significantly amend the operational impacts, therefore there are no new anticipated environmental impacts.

## SUMMARY AND FINDINGS

In summary, the analysis concludes that none of the conditions described in Section 15162 of the CEQA Guidelines calling for preparation of a subsequent MND have occurred, and thus an Addendum to the *Roseville High School Improvement Project Mitigated Negative Declaration* is appropriate to satisfy CEQA requirements for the proposed right of way abandonment.

The following findings are provided in accordance with CEQA Section 15164 (e) concerning the decision not to prepare a subsequent MND pursuant to Section 15162.

(1) None of the following conditions calling for preparation of a subsequent MND have occurred:
   (a) Subsequent changes are proposed in a project which will require major revisions of the previous MND…due to the involvement of new significant environmental effects or a substantial increase in the severity of previously identified effects;
   (b) Substantial changes occur with respect to the circumstances under which the project is undertaken…which will require important revisions in the previous MND due to the involvement of new significant environmental effects or a substantial increase in the severity of previously identified effects; or,
   (c) New information of substantial importance to the project becomes available and (a) the information was not known and could not have been known at the time the previous MND was adopted as complete…and (b) the new information shows any of the following:
      - The project will have one or more significant effects not discussed previously in the MND;

- Significant effects previously examined will be substantially more severe than shown in the MND;
- Mitigation measures or alternatives previously found not to be feasible would in fact be feasible and would substantially reduce one or more significant effects of the project; or
- Mitigation measures or alternatives which were not previously considered in the MND would substantially lessen one or more significant effects on the environment.

(2) Only minor technical changes or additions are necessary to make the MND under consideration adequate under CEQA; and,

(3) The changes to the MND made by the addendum do not raise important new issues about the significant effects on the environment.

This Addendum to the *Roseville High School Improvement Project Mitigated Negative Declaration* (SCH #2024040651 - adopted May 28, 2024) finds that the proposed public right of way abandonment of a portion of Campo Street will not result in any significant environmental effects or result in the substantial increase of any previously identified impacts in the Mitigated Negative Declaration.

**REFERENCES**

Roseville Joint Union High School District, prepared by Placeworks, April, 2024. Roseville High School Improvement Project Mitigated Negative Declaration. (SCH #2024040651 - adopted May 28, 2024)

## ENVIRONMENTAL DETERMINATION:

*In reviewing the site specific information provided for this project and acting as Lead Agency, the City of Roseville, Development Services Department, Planning Division has analyzed the potential environmental impacts created by this project and determined that the findings of CEQA Section 15162 concerning the decision not to prepare a subsequent EIR or negative declaration and the findings of CEQA Section 15164 concerning the decision to prepare an Addendum can be made. As supported by substantial evidence within the Addendum to the Roseville High School Improvement Project Mitigated Negative Declaration (SCH #2024040651 - adopted May 28, 2024, the Lead Agency makes the following findings:*

[ **X** ] No substantial changes are proposed in the project which would require major revisions of the previous MND.

[ **X** ] No substantial changes have occurred with respect to the circumstances under which the project is undertaken.

[ **X** ] There is no new information of substantial importance which was not known and could not have been known with the exercise of due diligence at the time the previous MND was adopted as complete.

[ **X** ] Only minor technical changes or additions are necessary in order to deem the adopted environmental document adequate.

Addendum Prepared by:

# 1. Introduction

The Roseville Joint Union High School District (District) intends to construct a new multistory classroom building, outdoor dining patio and quad extension, competition pool, tennis courts, and parking lot on the existing Roseville High School campus at 1 Tiger Way in Roseville, California.

## PROJECT LOCATION

The project site is at 1 Tiger Way in the central portion of Roseville in Placer County, California. Roseville is in the upper Sacramento Valley, about 18 miles northeast of Sacramento, as shown in Figure 1, *Regional Location*. Roseville is bordered by the City of Citrus Heights to the south and the City of Rocklin to the northeast. The Sierra Nevada is about 30 miles to the east.

As shown in Figure 2, *Local Vicinity*, and Figure 3, *Aerial Photograph*, the 42.25-acre site is west of Berry Street, north of Tiger Way, and east of Campo Street. The project site comprises two parcels—Assessor's Parcel Numbers (APNs) 015-100-013-000 and 011-230-002-000.

Regional access to the project site is provided via Interstate 80 (I-80) (see Figure 1, *Regional Location,* and Figure 2, *Local Vicinity*). I-80 intersects Roseville from north to south. Local access to the project site is via Alta Vista Avenue, Sierra Boulevard, Campo Street, Tiger Way, and Berry Street (see Figure 2, *Local Vicinity*).

## ENVIRONMENTAL SETTING

### Existing Land Use

#### Facilities

The project site currently operates as a 9th through 12th grade school. The campus consists of classroom buildings, a library, performing arts theater, three gymnasiums (old auxiliary gymnasium, new auxiliary gym, and Moeller gymnasium), 19 portables, cafeteria, pool, baseball fields, and track. Figure 3, *Aerial Photograph*, shows the existing site facilities from an aerial view.

#### Access and Circulation

Vehicle access to the project site is currently provided via two driveways via Campo Street and Tiger Way. The school's existing driveways and parking lots are in the southern and western portions of the site. A student drop-off loop with parking is on campus in the southern portion of the site via Tiger Way. Student parking is in the western portion of the site via Campo Street.

# 1. Introduction

### Operations

Roseville High School is one of eight schools operated by the District and serves students from 9th through 12th grade. School hours on Monday, Tuesday, Thursday, and Friday are from 8:30 a.m. to 3:20 p.m. and 9:25 a.m. to 3:20 p.m. on Wednesday.

The 2023-2024 school year enrolled 1,733 students. Table 1, *Roseville High School 10-Year Enrollment History,* shows the 10-year enrollment history for Roseville High School. The highest enrollment of 2,006 students occurred in the 2019-2020 school year. Roseville High School's current capacity is approximately 2,000 students.

**Table 1 Roseville High School 10-Year Enrollment History**

| School Year | Enrollment |
|---|---|
| 2023-2024 | 1,733 |
| 2022-2023 | 1,617 |
| 2021-2022 | 1,733 |
| 2020-2021 | 1,918 |
| 2019-2020 | 2,006 |
| 2018-2019 | 1,968 |
| 2017-2018 | 1,985 |
| 2016-2017 | 1,987 |
| 2015-2016 | 1,961 |
| 2014-2015 | 1,986 |
| **10-Year Average Enrollment:** | **1,889** |

## Surrounding Land Use

As shown in Figure 3, *Aerial Photograph*, the project site is in a residential community with primarily single-family residences. The site is surrounded by the following land uses.

- **North:** Single-family residences and an easement.
- **East:** Roseville Public Cemetery with a mix of industrial and commercial uses.
- **South:** Union Pacific Railroad and a mix of single-family and multifamily residences.
- **West:** Single-family residences and Ferris Spanger Elementary School.

# EXISTING ZONING AND GENERAL PLAN

The prevailing adopted planning and regulatory documents that govern development and use of the project site are the City of Roseville General Plan and Zoning Ordinance (Title 19 of the City of Roseville Municipal Code). The City of Roseville General Plan land use designation of the project site is Public Quasi-Public (P/QP). The project site is zoned Public Quasi-Public (P/QP).[1] The development and design standards and regulations in the City of Roseville Zoning Ordinance, which implements the City of Roseville General Plan, constitute the zoning regulations that govern development of the project site. As proposed, the Roseville High School Improvement Project is permitted under the P/QP land use designation and P/QP zoning district.

# PROJECT DESCRIPTION

## Site Plan

The proposed Roseville High School Improvement Project would be constructed at 1 Tiger Way, Roseville, California, on the existing Roseville High School campus. The proposed project involves the construction of a new 14,000-square-foot multistory classroom building, outdoor dining patio and quad extension, competition pool, tennis courts, and parking lot, and demolition of the 12,000-square-foot old auxiliary gymnasium, 3,000-square-foot pool, and 180-square-foot pool building. Figure 4, *Overall Site Plan*, illustrates the project's site design and location of new facilities.

### Facilities

#### *Multistory Classroom Building*

The new multistory classroom building would contain, at minimum, 12 standard 960-square-foot classrooms, two large flexible-space classrooms of approximately 1,250 square feet, with one designed to accommodate a fitness class with flexibility to be used for other educational purposes as needs change.

#### *Outdoor Dining Patio and Quad Extension*

An outdoor dining patio and quad extension will be constructed next to the proposed multistory classroom building, immediately to the south of the building.

#### *Competition Pool Complex*

A new competition pool with a pool building and bleachers, totaling approximately 20,000 square feet will be constructed where an existing parking lot currently exists. The parking lot is next to the Campo Street entrance between the stadium and varsity baseball field. The competition pool will consist of 10 competition lanes and two warm-up lanes. The pool building is expected to include outdoor showers and approximately three single-use bathrooms. No lockers will be included, as students will continue to use gym lockers. A 10-foot-tall, galvanized chain-link fence with privacy slats would be installed around the entire perimeter of the competition

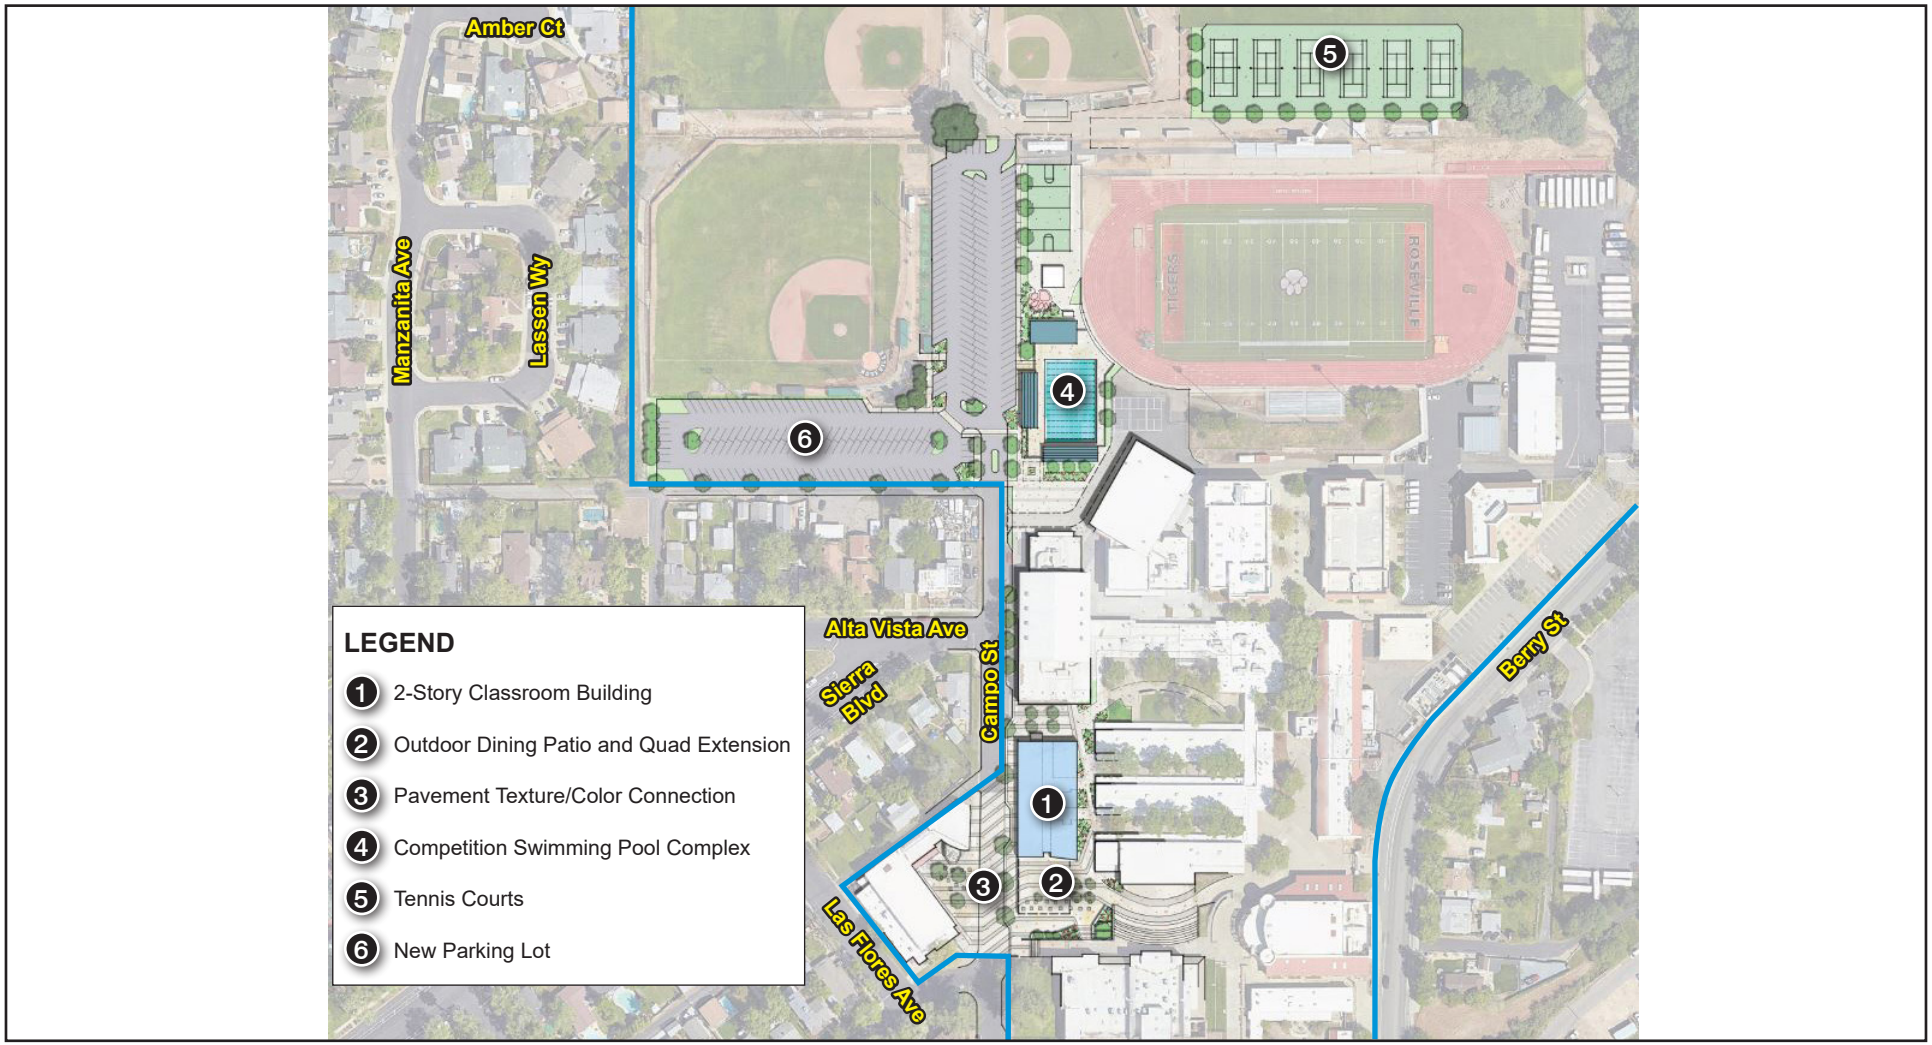
[1] The public/quasi-public district is applied to land intended for education, religious assembly, governmental offices, municipal corporation yards, water treatment plants, power-generating facilities (including privately owned facilities), and other publicly owned facilities.

pool. Two five-tier bleachers will be included (approximately 97 feet x 10 feet and 122 feet x 10 feet). Bleachers would each have an overhead canopy with an approximate seating capacity for 620 people. A lighting system will be included.

### *Tennis Courts*

Six new tennis courts, totaling approximately 37,000 square feet will be constructed north of the stadium where Hanson Field is located. A 10-foot-tall, galvanized chain-link fence would be installed around the entire perimeter of the tennis courts. A lighting system will not be included. The tennis courts will be lockable for security.

## Figure 4 - Overall Site Plan



*Source: Roseville Joint Union High School District.*

*PlaceWorks*

# 1. Introduction

*This page intentionally left blank.*

### Landscaping

As shown on Figure 4, *Overall Site Plan*, the project's landscape plan would feature new landscaping around the new multistory classroom building, outdoor dining patio and quad extension, tennis courts, and parking lot. The proposed landscape scheme would include a variety of drought-tolerant ornamental trees, shrubs, and ground cover. No native oak trees would be removed.

### Lighting

Light fixtures would be installed inside and around the exterior of the multistory classroom building. Additionally, sports lighting would be installed around the competition pool. Existing lighting inside and around the areas proposed for demolition would be removed.

### Pavement Texture and Color Connection

Pavement texture and color connection will be included next to the existing cafeteria and the proposed multistory classroom building and outdoor dining patio and quad extension. Currently, Campo Street separates the existing cafeteria from the rest of the school campus. The proposed pavement texture and color connection will help distinguish the cafeteria as part of the school campus by facilitating a connection and improving overall safety for students and staff that cross the street to access the cafeteria.

### Access, Circulation, and Parking

#### *Vehicular Access and Circulation*

As shown in Figure 4, *Overall Site Plan*, vehicular access for the project site would be provided via Campo Street and Tiger Way. Staff and visitors would continue to use the Tiger Way driveway entrance while students would continue to use the Campo Street driveway entrance to access student parking. These access points would remain unchanged. The internal path of travel near the Campo Street entrance would be modified to accommodate the new competition pool.

#### *Pedestrian Access and Circulation*

Pedestrian access to the project site would continue to be provided via a public sidewalk along the northern and southern side of Berry Street, southern side of Tiger Way, and eastern side of Campo Street; all of these streets are adjacent to the project site. There are two designated crosswalks near the school property at the corner of Tiger Way and Berry Street, as well as one other designated crosswalk along Berry Street that connects a parking lot adjacent to the school campus. There are no designated bike lanes near the school property.

#### *Parking*

A parking lot will be re-established where the existing portables are currently located. Parking at this location was once provided prior to placing portables on-site. As such, the parking lot will require striping to delineate parking spaces; no paving will be required. The proposed parking lot will provide a total of 240 parking spaces to accommodate the parking displaced by the new competition pool. Other parking would continue to be provided on campus in the senior parking lot and front entrance parking lot.

## Demolition and Removal of Portables

Figure 5, *Demolition and Removal of Portables*, illustrates the facilities proposed for demolition and the removal of portables. The proposed project would demolish the old auxiliary gymnasium, pool, and pool building. There are 18 portables that will be removed, and one will be relocated on-site.

### "Old" Auxiliary Gym

The old auxiliary gymnasium will be demolished to accommodate the new multistory classroom building. The gymnasium is currently unoccupied and non-operational. The auxiliary gymnasium was constructed of cast-in-place concrete approximately 100 years ago and contains materials requiring abatement. Demolition of the old auxiliary gymnasium is scheduled to occur in Phase 1.

### Pool

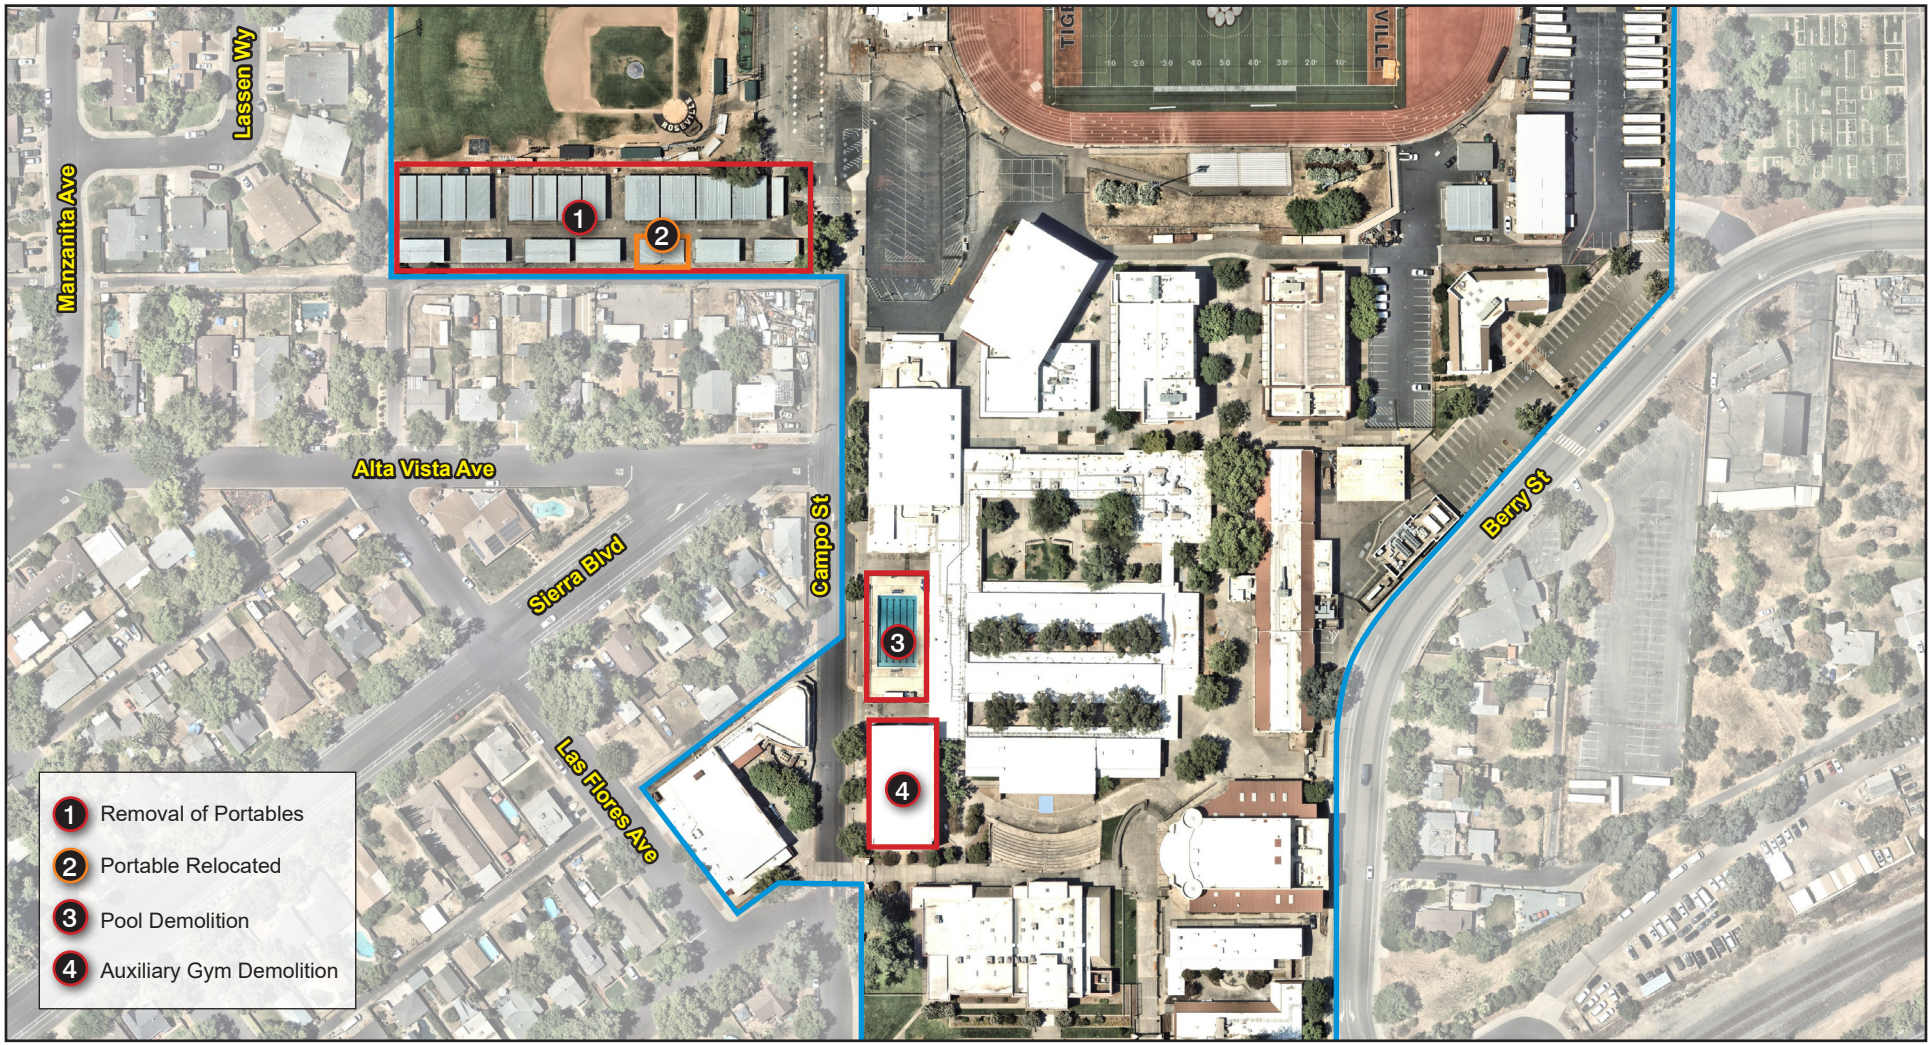
The pool and pool building will be demolished to accommodate the new multistory classroom building. Demolition of the pool is scheduled to occur in Phase 2.

### Portables

A total of 18 portables adjacent to the baseball field will be removed and one portable will be relocated for use as offices to accommodate a new parking lot. The portables will remain in use until completion of the new multistory classroom building set for June 2025. These portables will be removed from the school property. Removal of the portables will result in a net loss of four classrooms. Removal and relocation of the portables is scheduled for June 2025.

# Addendum Attachment 2

## Figure 5 - Demolition and Removal of Portables



*Source: Roseville Joint Union High School District.*

*PlaceWorks*

# 1. Introduction

*This page intentionally left blank.*

## Utilities

The following utilities would serve Roseville High School:

- **Water:** City of Roseville
- **Wastewater**: City of Roseville
- **Electricity:** Roseville Electric
- **Natural Gas:** Pacific Gas and Electric Company
- **Solid Waste Collection:** City of Roseville
- **Cable Television:** AT&T, DirecTV, Xfinity, Dish

## Green Building Standards

Green building is the practice of designing, constructing, and operating buildings to maximize occupant health and productivity, use fewer resources, reduce waste and negative environmental impacts, and decrease life-cycle costs (USGBC 2024). The project would be designed using green building practices, including those of the most current California Building Energy Efficiency Standards (Title 24, California Code of Regulations, Part 6) and California Green Building Standards Code (CALGreen) (Title 24, Part 11). The Building Energy Efficiency Standards contain energy and water-efficiency requirements (and indoor air quality requirements) for newly constructed buildings, additions to existing buildings, and alterations to existing buildings. CALGreen is California's statewide "green" building code. Its purpose is to improve public health, safety, and general welfare by enhancing the design and construction of buildings through the use of building concepts having a reduced negative impact or positive environmental impact and encouraging sustainable construction practices in the following categories: planning and design, energy efficiency, water efficiency and conservation, material conservation and resource efficiency, and environmental quality.

As proposed, project develoment would include mandatory standards from Divisions 5.1, Planning and Design; 5.2, Energy Efficiency; 5.3, Water Efficiency and Conservation; 5.4, Material Conservation and Resource Efficiency; and 5.5, Environmental Quality, of CalGreen. Some of the specific green building standards address:

- Bicycle parking
- Light pollution reduction
- Water-conserving plumbing fixtures and fittings
- Construction waste reduction, disposal, and recycling
- Recycling by occupants
- Finish material pollutant control

## Project Phasing and Construction

Project development is anticipated to be completed in two phases. Phase 1 includes demolition of the old auxiliary gymnasium, which will occur from June to August 2024. Phase 2 will occur from March 2025 to December 2026 in two increments.

Increment 1 includes:

- Site preparation
- Grading and excavation
- Trenching for site utilities
- Construction of the new competition pool, pool building, and tennis courts.

Increment 2 includes:

- Demolition of the existing pool and pool building
- Site preparation
- Grading and excavation
- Trenching for site utilities
- Construction of the multistory classroom building, outdoor patio, and quad extension
- Removal of existing portables
- Reclaimed parking lot and striping

Overall construction is estimated to take approximately two years and six months, from June 2024 to December 2026. All other existing facilities will remain operational during construction of the proposed project. The proposed project would be fully constructed and operational between late 2026 and early 2027.

Construction activities would include building and asphalt demolition and excavation, site preparation and rough grading, utility trenching, fine grading, building construction, architectural coating, asphalt paving, finishing, and landscaping. All proposed improvements and areas of disturbance would occur on the project site. Construction is proposed to take place between the hours of 7 a.m. and 4 p.m. Monday through Friday, as allowed in the City of Roseville Noise Ordinance, Chapter 9.24, of the Municipal Code. The active construction and staging areas would be on the project site. The level of construction traffic will vary throughout the duration of the project and will depend on specific construction tasks.

The project would require approximately 7,500 cubic yards (cy) of soil to be exported; no soil would be imported. The types and numbers of construction equipment expected to be used during construction activities are summarized in Section 3.3, *Air Quality*.

## Discretionary Actions and Approvals

A discretionary action is an action taken by a government agency that calls for an exercise of judgment in deciding whether to approve a project. The Roseville Joint Union High School District is the lead agency under the California Environmental Quality Act (CEQA) and has the principal approval authority over the project. The Mitigated Negative Declaration (MND) must be adopted by the Board of Education, confirming its adequacy in complying with the requirements of CEQA. The Board will consider the information in the MND when deciding to approve or deny the proposed project. The analysis is intended to provide environmental review for the whole of the proposed project, including the planning of the project; demolition of the old auxiliary gymnasium, pool, and pool building; clearance, excavation, and grading of the site; construction of

the multistory classroom building, outdoor dining patio and quad extension, competition pool, tennis courts, parking lot; and ongoing operation.

## Nondiscretionary/Ministerial Actions and Approvals

A public agency other than the lead agency that has discretionary approval power over a part of the proposed project is known as a "responsible agency" in the CEQA Guidelines. The responsible agencies and their corresponding approvals for this project may include:

- California Department of Education, School Facilities and Transportation Services Division
- California Department of General Services, Division of the State Architect
  - Approval of site plans and building plans
  - Approval of a Site Plan Review
- City of Roseville
  - Approval of roadway and stormwater connection improvements
  - Approval of any roadway closures needed to implement the improvements

## PROJECT INFORMATION

1. **Project Title:** Roseville High School Improvement Project

2. **Lead Agency Name and Address:**
   Roseville Joint Union High School District
   2 Tiger Way, Building #2
   Roseville, California 95678

3. **Contact Person and Phone Number:**
   Scott Davis, Director of Facilities Development
   916.782.4707

4. **Project Location:** The project site encompasses Assessor's Parcel Numbers (APNs) 015-100-013-000 and 011-230-002-000, at 1 Tiger Way, Roseville, California.

5. **Project Sponsor's Name and Address:**
   Roseville Joint Union High School District
   2 Tiger Way, Building #2
   Roseville, California 95678

6. **General Plan Designation:** Public/Quasi-Public (P/QP).

7. **Zoning:** Public/Quasi-Public (P/QP).

8. **Description of Project:**
   The proposed project involves construction of a new 14,000-square-foot multistory classroom building, competition pool, outdoor dining patio and quad extension, tennis courts, and parking lot, and demolition of the 12,000-square-foot old auxiliary gymnasium, 3,000-square-foot pool, and 180-square-foot pool building.

   The new classroom building is planned to contain, at minimum, 12 standard 960-square-foot classrooms, two large flexible-space classrooms of approximately 1,250 square feet, with one designed to accommodate a fitness class with flexibility to be used for other educational purposes as needs change. A new competition pool will be constructed where an existing parking lot currently exists, which is next to the Campo Street entrance between the stadium and varsity baseball field. The competition pool will consist of 12 competition lanes and two warm-up lanes. Six new tennis courts will be constructed north of the stadium where Hanson Field is located. A 10-foot-tall, galvanized chain-link fence would be installed around the entire perimeter of the tennis courts. A lighting system will not be included.

## 2. Environmental Checklist

A total of 18 portables adjacent to the baseball field will be removed and one portable will be relocated for use as offices to accommodate a new parking lot. Removal of the portables will result in a net loss of four classrooms.

Vehicular access for the project site would be provided via Campo Street and Tiger Way. Pedestrian access to the project site would continue to be provided via a public sidewalk along the northern and southern side of Berry Street, southern side of Tiger Way, and eastern side of Campo Street. The internal path of travel near the Campo Street entrance would be modified to accommodate the new competition pool. A new parking lot will be constructed where the existing portables are currently located. The proposed parking lot will provide a total of 240 parking spaces to accommodate the parking displaced by the new competition pool.

**9. Surrounding Land Uses and Setting:**

The project site is in a residential community with primarily single-family residences. The site is bound by single-family residences and an easement to the north, the Roseville Public Cemetery with a mix of industrial and commercial uses to the east, the Union Pacific Railroad and a mix of single-family and multifamily residences to the south, and single-family residences and the Ferris Spanger Elementary School to the west.

**10. Other Public Agencies Whose Approval Is Required (e.g., permits, financing approval, or participating agreement):**

California Department of General Services, Division of the State Architect

- Structural
- Fire Life Safety
- American with Disabilities Act (ADA)
- Model Water Efficient Landscape Ordinance
- California Department of Education Plan Approval

City of Roseville

- Approval of any roadway closures needed to implement the improvements.
- Issuance of a demolition permit pursuant to the Asbestos National Emission Standards for Hazardous Air Pollutants requirements.

**11. Have California Native American tribes traditionally and culturally affiliated with the project area requested consultation pursuant to Public Resources Code Section 21080.3.1? If so, is there a plan for consultation that includes, for example, the determination of significance of impacts to tribal cultural resources, procedures regarding confidentiality, etc.?**

Note: Conducting consultation early in the CEQA process allows tribal governments, lead agencies, and project proponents to discuss the level of environmental review, identify and address potential adverse impacts to tribal cultural resources, and reduce the potential for delay and conflict in the environmental review process. (See Public Resources Code Section 21080.3.2.) Information may also be available from the California Native American Heritage Commission's Sacred Lands File per Public Resources Code Section 5097.94 and the California Historical Resources Information System administered by the

California Office of Historic Preservation. Please also note that Public Resources Code Section 21082.3I contains provisions specific to confidentiality.

Per District policy, the District sent Assembly Bill (AB) 52 notification letters to the following tribes on February 21, 2024:

- Shingle Springs Band of Miwok Indians
- Tsi Akim Maidu
- United Auburn Indian Community of the Auburn Rancheria
- Wilton Rancheria
- Colfax-Todds Valley Consolidated Tribe
- Nevada City Rancheria Nisenan Tribe

As of the time of the publication of this MND no tribes have contacted the District, and as such, no consultation has been initiated. See Section 3.18, *Tribal Cultural Resources*, for more information.

2. Environmental Checklist

## ENVIRONMENTAL FACTORS POTENTIALLY AFFECTED

The environmental factors checked below would be potentially affected by this project, involving at least one impact that is a "Potentially Significant Impact," or "Less than Significant with Mitigation Incorporated," as indicated by the checklist on the following pages.

| | | |
|---|---|---|
| ☒ Aesthetics | ☐ Agriculture / Forestry Resources | ☒ Air Quality |
| ☒ Biological Resources | ☒ Cultural Resources | ☐ Energy |
| ☒ Geology / Soils | ☒ Greenhouse Gas Emissions | ☐ Hazards and Hazardous Materials |
| ☐ Hydrology/Water Quality | ☐ Land Use / Planning | ☐ Mineral Resources |
| ☒ Noise | ☐ Population / Housing | ☐ Public Services |
| ☐ Recreation | ☐ Transportation | ☒ Tribal Cultural Resources |
| ☐ Utilities / Service Systems | ☐ Wildfire | ☐ Mandatory Findings of Significance |

## DETERMINATION (TO BE COMPLETED BY THE LEAD AGENCY)

On the basis of this initial evaluation:

☐ I find that the proposed project COULD NOT have a significant effect on the environment, and a NEGATIVE DECLARATION will be prepared.

☒ I find that although the proposed project could have a significant effect on the environment, there will not be a significant effect in this case because revisions in the project have been made by or agreed to by the project proponent. A MITIGATED NEGATIVE DECLARATION will be prepared.

☐ I find that the proposed project MAY have a significant effect on the environment, and an ENVIRONMENTAL IMPACT REPORT is required.

☐ I find that the proposed project MAY have "a "potentially significant impact" or "potentially significant unless mitigated" impact on the environment, but at least one effect 1) has been adequately analyzed in an earlier document pursuant to applicable legal standards, and 2) has been addressed by mitigation measures based on the earlier analysis as described on attached sheets. An ENVIRONMENTAL IMPACT REPORT is required, but it must analyze only the effects that remain to be addressed.

☐ I find that although the proposed project could have a significant effect on the environment, because all potentially significant effects (a) have been analyzed adequately in an earlier EIR or NEGATIVE DECLARATION pursuant to applicable standards, and (b) have been avoided or mitigated pursuant to that earlier EIR or NEGATIVE DECLARATION, including revisions or mitigation measures that are imposed upon the proposed project, nothing further is required.

*Signature* *Date*

## EVALUATION OF ENVIRONMENTAL IMPACTS

1. A brief explanation is required for all answers except "No Impact" answers that are adequately supported by the information sources a lead agency cites in the parentheses following each question. A "No Impact" answer is adequately supported if the referenced information sources show that the impact simply does not apply to projects like the one involved (e.g., the project falls outside a fault rupture zone). A "No Impact" answer should be explained where it is based on project-specific factors, as well as general standards (e.g., the project would not expose sensitive receptors to pollutants, based on a project-specific screening analysis).

2. All answers must take account of the whole action involved, including off-site as well as on-site, cumulative as well as project-level, indirect as well as direct, and construction as well as operational impacts.

3. Once the lead agency has determined that a particular physical impact may occur, then the checklist answers must indicate whether the impact is potentially significant, less than significant with mitigation, or less than significant. "Potentially Significant Impact" is appropriate if there is substantial evidence that an effect may be significant. If there are one or more "Potentially Significant Impact" entries when the determination is made, an EIR is required.

4. "Negative Declaration: Less Than Significant With Mitigation Incorporated" applies where the incorporation of mitigation measures has reduced an effect from "Potentially Significant Impact" to a "Less Than Significant Impact." The lead agency must describe the mitigation measures, and briefly explain how they reduce the effect to a less than significant level.

5. Earlier analyses may be used where, pursuant to the tiering, program EIR, or other CEQA process, an effect has been adequately analyzed in an earlier EIR or negative declaration. Section 15063(c)(3)(D). In this case, a brief discussion should identify the following:

   a) **Earlier Analyses Used.** Identify and state where they are available for review.

   b) I**mpacts Adequately Addressed.** Identify which effects from the above checklist were within the scope of and adequately analyzed in an earlier document pursuant to applicable legal standards, and state whether such effects were addressed by mitigation measures based on the earlier analysis.

   c) **Mitigation Measures.** For effects that are "Less than Significant with Mitigation Measures Incorporated," describe the mitigation measures which were incorporated or refined from the earlier document and the extent to which they address site-specific conditions for the project.

6. Lead agencies are encouraged to incorporate into the checklist references to information sources for potential impacts (e.g., general plans, zoning ordinances). Reference to a previously prepared or outside document should, where appropriate, include a reference to the page or pages where the statement is substantiated.

7. Supporting Information Sources: A source list should be attached, and other sources used or individuals contacted should be cited in the discussion.

## 2. Environmental Checklist

8. This is only a suggested form, and lead agencies are free to use different formats; however, lead agencies should normally address the questions from this checklist that are relevant to a project's environmental effects in whatever format is selected.

9. The explanation of each issue should identify:

   a) the significance criteria or threshold, if any, used to evaluate each question; and
   b) the mitigation measure identified, if any, to reduce the impact to less than significance.

| Issues | Potentially Significant Impact | Less Than Significant With Mitigation Incorporated | Less Than Significant Impact | No Impact |
|---|---|---|---|---|
| **I. AESTHETICS. Except as provided in Public Resources Code Section 21099, would the project:** | | | | |
| a) Have a substantial adverse effect on a scenic vista? | | | X | |
| b) Substantially damage scenic resources, including, but not limited to, trees, rock outcroppings, and historic buildings within a state scenic highway? | | | | X |
| c) In nonurbanized areas, substantially degrade the existing visual character or quality of public views of the site and its surroundings? (Public views are those that are experienced from publicly accessible vantage point). If the project is in an urbanized area, would the project conflict with applicable zoning and other regulations governing scenic quality? | | | | X |
| d) Create a new source of substantial light or glare which would adversely affect day or nighttime views in the area? | | X | | |
| **II. AGRICULTURE AND FORESTRY RESOURCES. In determining whether impacts to agricultural resources are significant environmental effects, lead agencies may refer to the California Agricultural Land Evaluation and Site Assessment Model (1997) prepared by the California Dept. of Conservation as an optional model to use in assessing impacts on agriculture and farmland. In determining whether impacts to forest resources, including timberland, are significant environmental effects, lead agencies may refer to information compiled by the California Department of Forestry and Fire Protection regarding the state's inventory of forest land, including the Forest and Range Assessment Project and the Forest Legacy Assessment project; and forest carbon measurement methodology provided in Forest Protocols adopted by the California Air Resources Board. Would the project:** | | | | |
| a) Convert Prime Farmland, Unique Farmland, or Farmland of Statewide Importance (Farmland), as shown on the maps prepared pursuant to the Farmland Mapping and Monitoring Program of the California Resources Agency, to non-agricultural use? | | | | X |
| b) Conflict with existing zoning for agricultural use, or a Williamson Act contract? | | | | X |
| c) Conflict with existing zoning for, or cause rezoning of, forest land (as defined in Public Resources Code Section 12220(g)), timberland (as defined by Public Resources Code Section 4526), or timberland zoned Timberland Production (as defined by Government Code Section 51104(g))? | | | | X |
| d) Result in the loss of forest land or conversion of forest land to non-forest use? | | | | X |
| e) Involve other changes in the existing environment which, due to their location or nature, could result in conversion of Farmland, to non-agricultural use or conversion of forest land to non-forest use? | | | | X |

| Issues | Potentially Significant Impact | Less Than Significant With Mitigation Incorporated | Less Than Significant Impact | No Impact |
|---|---|---|---|---|
| **III. AIR QUALITY. Where available, the significance criteria established by the applicable air quality management district or air pollution control district may be relied upon to make the following determinations. Would the project:** | | | | |
| a) Conflict with or obstruct implementation of the applicable air quality plan? | | | X | |
| b) Result in a cumulatively considerable net increase of any criteria pollutant for which the project region is non-attainment under an applicable federal or state ambient air quality standard? | | | X | |
| c) Expose sensitive receptors to substantial pollutant concentrations? | | X | | |
| d) Result in other emissions (such as those leading to odors) adversely affecting a substantial number of people? | | | X | |
| **IV. BIOLOGICAL RESOURCES. Would the project:** | | | | |
| a) Have a substantial adverse effect, either directly or through habitat modifications, on any species identified as a candidate, sensitive, or special status species in local or regional plans, policies, or regulations, or by the California Department of Fish and Wildlife or U.S. Fish and Wildlife Service? | | X | | |
| b) Have a substantial adverse effect on any riparian habitat or other sensitive natural community identified in local or regional plans, policies, regulations or by the California Department of Fish and Wildlife or U.S. Fish and Wildlife Service? | | | | X |
| c) Have a substantial adverse effect on state or federally protected wetlands (including, but not limited to, marsh, vernal pool, coastal, etc.) through direct removal, filling, hydrological interruption, or other means? | | | | X |
| d) Interfere substantially with the movement of any native resident or migratory fish or wildlife species or with established native resident or migratory wildlife corridors, or impede the use of native wildlife nursery sites? | | X | | |
| e) Conflict with any local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance? | | | | X |
| f) Conflict with the provisions of an adopted Habitat Conservation Plan, Natural Community Conservation Plan, or other approved local, regional, or state habitat conservation plan? | | | | X |
| **V. CULTURAL RESOURCES. Would the project:** | | | | |
| a) Cause a substantial adverse change in the significance of a historical resource pursuant to CEQA Guidelines Section 15064.5? | | | X | |
| b) Cause a substantial adverse change in the significance of an archaeological resource pursuant to CEQA Guidelines Section 15064.5? | | X | | |
| c) Disturb any human remains, including those interred outside of dedicated cemeteries? | | | X | |

## 2. Environmental Checklist

| Issues | Potentially Significant Impact | Less Than Significant With Mitigation Incorporated | Less Than Significant Impact | No Impact |
|---|---|---|---|---|
| **VI. ENERGY. Would the project:** | | | | |
| a) Result in potentially significant environmental impact due to wasteful, inefficient, or unnecessary consumption of energy resources, during project construction or operation? | | | X | |
| b) Conflict with or obstruct a state or local plan for renewable energy or energy efficiency? | | | X | |
| **VII. GEOLOGY AND SOILS. Would the project:** | | | | |
| a) Directly or indirectly cause potential substantial adverse effects, including the risk of loss, injury, or death involving: | | | | |
| i) Rupture of a known earthquake fault, as delineated on the most recent Alquist-Priolo Earthquake Fault Zoning Map, issued by the State Geologist for the area or based on other substantial evidence of a known fault? Refer to Division of Mines and Geology Special Publication 42. | | | X | |
| ii) Strong seismic ground shaking? | | | X | |
| iii) Seismic-related ground failure, including liquefaction? | | | X | |
| iv) Landslides? | | | X | |
| b) Result in substantial soil erosion or the loss of topsoil? | | | X | |
| c) Be located on a geologic unit or soil that is unstable, or that would become unstable as a result of the project, and potentially result in on- or off-site landslide, lateral spreading, subsidence, liquefaction or collapse? | | | X | |
| d) Be located on expansive soil, as defined in Table 18-1-B of the Uniform Building Code (1994), creating substantial direct or indirect risks to life or property? | | | X | |
| e) Have soils incapable of adequately supporting the use of septic tanks or alternative wastewater disposal systems where sewers are not available for the disposal of wastewater? | | | | X |
| f) Directly or indirectly destroy a unique paleontological resource or site or unique geologic feature? | | X | | |
| **VIII. GREENHOUSE GAS EMISSIONS. Would the project:** | | | | |
| a) Generate greenhouse gas emissions, either directly or indirectly, that may have a significant impact on the environment? | | | X | |
| b) Conflict with an applicable plan, policy or regulation adopted for the purpose of reducing the emissions of greenhouse gases? | | | X | |
| **IX. HAZARDS AND HAZARDOUS MATERIALS. Would the project:** | | | | |
| a) Create a significant hazard to the public or the environment through the routine transport, use, or disposal of hazardous materials? | | | X | |
| b) Create a significant hazard to the public or the environment through reasonably foreseeable upset and accident conditions involving the release of hazardous materials into the environment? | | | X | |

| Issues | Potentially Significant Impact | Less Than Significant With Mitigation Incorporated | Less Than Significant Impact | No Impact |
|---|---|---|---|---|
| c) Emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school? | | | X | |
| d) Be located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and, as a result, would it create a significant hazard to the public or the environment? | | | | X |
| e) For a project located within an airport land use plan or, where such a plan has not been adopted, within two miles of a public airport or public use airport, would the project result in a safety hazard or excessive noise for people residing or working in the project area? | | | | X |
| f) Impair implementation of or physically interfere with an adopted emergency response plan or emergency evacuation plan? | | | X | |
| g) Expose people or structures, either directly or indirectly, to a significant risk of loss, injury or death involving wildland fires? | | | X | |
| **X. HYDROLOGY AND WATER QUALITY. Would the project:** | | | | |
| a) Violate any water quality standards or waste discharge requirements or otherwise substantially degrade surface or ground water quality? | | | X | |
| b) Substantially decrease groundwater supplies or interfere substantially with groundwater recharge such that the project may impede sustainable groundwater management of the basin? | | | X | |
| c) Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river or through the addition of impervious surfaces, in a manner which would: | | | | |
| i) result in a substantial erosion or siltation on- or off-site; | | | X | |
| ii) substantially increase the rate or amount of surface runoff in a manner which would result in flooding on- or offsite; | | | X | |
| iii) create or contribute runoff water which would exceed the capacity of existing or planned stormwater drainage systems or provide substantial additional sources of polluted runoff; or | | | X | |
| iv) impede or redirect flood flows? | | | | |
| d) In flood hazard, tsunami, or seiche zones, risk release of pollutants due to project inundation? | | | | X |
| e) Conflict with or obstruct implementation of a water quality control plan or sustainable groundwater management plan? | | | X | |
| **XI. LAND USE AND PLANNING. Would the project:** | | | | |
| a) Physically divide an established community? | | | | X |
| b) Cause a significant environmental impact due to a conflict with any land use plan, policy, or regulation adopted for the purpose of avoiding or mitigating an environmental effect? | | | | X |

## 2. Environmental Checklist

| Issues | Potentially Significant Impact | Less Than Significant With Mitigation Incorporated | Less Than Significant Impact | No Impact |
|---|---|---|---|---|
| **XII. MINERAL RESOURCES. Would the project:** | | | | |
| a) Result in the loss of availability of a known mineral resource that would be a value to the region and the residents of the state? | | | | X |
| b) Result in the loss of availability of a locally important mineral resource recovery site delineated on a local general plan, specific plan, or other land use plan? | | | | X |
| **XIII. NOISE. Would the project result in:** | | | | |
| a) Generation of a substantial temporary or permanent increase in ambient noise levels in the vicinity of the project in excess of standards established in the local general plan or noise ordinance, or applicable standards of other agencies? | | X | | |
| b) Generation of excessive groundborne vibration or groundborne noise levels? | | X | | |
| c) For a project located within the vicinity of a private airstrip or an airport land use plan or, where such a plan has not been adopted, within two miles of a public airport or public use airport, would the project expose people residing or working in the project area to excessive noise levels? | | | | X |
| **XIV. POPULATION AND HOUSING. Would the project:** | | | | |
| a) Induce substantial unplanned population growth in an area, either directly (for example, by proposing new homes and businesses) or indirectly (for example, through extension of roads or other infrastructure)? | | | | X |
| b) Displace substantial numbers of existing people or housing, necessitating the construction of replacement housing elsewhere? | | | | X |
| **XV. PUBLIC SERVICES. Would the project:** | | | | |
| a) Result in substantial adverse physical impacts associated with the provision of new or physically altered governmental facilities, need for new or physically altered governmental facilities, the construction of which could cause significant environmental impacts, in order to maintain acceptable service ratios, response times, or other performance objectives for any of the public services: | | | | |
| Fire protection? | | | X | |
| Police protection? | | | X | |
| Schools? | | | | X |
| Parks? | | | | X |
| Other public facilities? | | | | X |
| **XVI. RECREATION.** | | | | |
| a) Would the project increase the use of existing neighborhood and regional parks or other recreational facilities such that substantial physical deterioration of the facility would occur or be accelerated? | | | | X |

| Issues | Potentially Significant Impact | Less Than Significant With Mitigation Incorporated | Less Than Significant Impact | No Impact |
|---|---|---|---|---|
| b) Does the project include recreational facilities or require the construction or expansion of recreational facilities which might have an adverse physical effect on the environment? | | | | X |
| **XVII. TRANSPORTATION. Would the project:** | | | | |
| a) Conflict with a program, plan, ordinance, or policy addressing the circulation system, including transit, roadway, bicycle, and pedestrian facilities? | | | | X |
| b) Conflict or be inconsistent with CEQA Guidelines Section 15064.3, subdivision (b)? | | | | X |
| c) Substantially increase hazards due to a geometric design feature (e.g., sharp curves or dangerous intersections) or incompatible uses (e.g., farm equipment)? | | | | X |
| d) Result in inadequate emergency access? | | | | X |
| **XVIII. TRIBAL CULTURAL RESOURCES.** | | | | |
| a) Would the project cause a substantial adverse change in the significance of a tribal cultural resource, defined in Public Resources Code Section 21074 as either a site, feature, place, cultural landscape that is geographically defined in terms of the size and scope of the landscape, sacred place, or object with cultural value to a California Native American tribe, and that is: | | | | |
| i) Listed or eligible for listing in the California Register of Historical Resources, or in a local register of historical resources as defined in Public Resources Code Section 5020.1(k), or | | X | | |
| ii) A resource determined by the lead agency, in its discretion and supported by substantial evidence, to be significant pursuant to criteria set forth in subdivision (c) of Public Resources Code Section 5024.1. In applying the criteria set forth in subdivision (c) of Public Resource Code Section 5024.1, the lead agency shall consider the significance of the resource to a California Native American tribe. | | X | | |
| **XIX. UTILITIES AND SERVICE SYSTEMS. Would the project:** | | | | |
| a) Require or result in the relocation or construction of new or expanded water, wastewater treatment or storm water drainage, electric power, natural gas, or telecommunications facilities, the construction or relocation of which could cause significant environmental effects? | | | X | |
| b) Have sufficient water supplies available to serve the project and reasonably foreseeable future development during normal, dry, and multiple dry years? | | | X | |
| c) Result in a determination by the wastewater treatment provider, which serves or may serve the project that it has adequate capacity to serve the project's projected demand in addition to the provider's existing commitments? | | | X | |

## 2. Environmental Checklist

| Issues | Potentially Significant Impact | Less Than Significant With Mitigation Incorporated | Less Than Significant Impact | No Impact |
|---|---|---|---|---|
| d) Generate solid waste in excess of state or local standards, or in excess of the capacity of local infrastructure, or otherwise impair the attainment of solid waste reduction goals? | | | X | |
| e) Comply with federal, state, and local management and reduction statutes and regulations related to solid waste? | | | X | |
| **XX. WILDFIRE. If located in or near state responsibility areas or lands classified as very high fire hazard severity zones, would the project:** | | | | |
| a) Substantially impair an adopted emergency response plan or emergency evacuation plan? | | | X | |
| b) Due to slope, prevailing winds, and other factors, exacerbate wildfire risks, and thereby expose project occupants to pollutant concentrations from a wildfire or the uncontrolled spread of a wildfire? | | | X | |
| c) Require the installation or maintenance of associated infrastructure (such as roads, fuel breaks, emergency water sources, power lines or other utilities) that may exacerbate fire risk or that may result in temporary or ongoing impacts to the environment? | | | X | |
| d) Expose people or structures to significant risks, including downslope or downstream flooding or landslides, as a result of runoff, post-fire slope instability, or drainage changes? | | | X | |
| **XXI. MANDATORY FINDINGS OF SIGNIFICANCE.** | | | | |
| a) Does the project have the potential to substantially degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, substantially reduce the number or restrict the range of a rare or endangered plant or animal or eliminate important examples of the major periods of California history or prehistory? | | X | | |
| b) Does the project have impacts that are individually limited, but cumulatively considerable? ("Cumulatively considerable" means that the incremental effects of a project are considerable when viewed in connection with the effects of past projects, the effects of other current projects, and the effects of probable future projects.) | | | X | |
| c) Does the project have environmental effects which will cause substantial adverse effects on human beings, either directly or indirectly? | | | X | |

# 3. Environmental Analysis

Section 2.4 provided a checklist of environmental impacts. This section provides an evaluation of the impact categories and questions contained in the checklist and identifies mitigation measures, if applicable.

## AESTHETICS

Except as provided in Public Resources Code Section 21099, would the project:

**a) Have a substantial adverse effect on a scenic vista?**

**Less Than Significant Impact.** For purposes of determining significance under CEQA, a scenic vista is generally considered a viewpoint that provides expansive views of a highly valued landscape for the benefit of the general public. Some scenic vistas are officially designated by public agencies or informally designated by tourist guides. Vistas provide visual access or panoramic views to a large geographic area and are generally at a point where surrounding views are greater than one mile away. Panoramic views are usually associated with vantage points over a section of urban or natural areas that provide a geographic orientation not commonly available. Examples of panoramic views might include an urban skyline, valley, mountain range, large open space area, the ocean, or other water bodies. A substantial adverse effect to a scenic vista is one that degrades the view from such a designated view spot.

There are no designated scenic vistas in the City of Roseville. Views from the project site consist of developed urban land. There are no prominent landscape features on the site itself, and the proposed project would not impact a viewshed of a surrounding scenic vista. Views of the project site are limited to adjacent private residential properties, local roadways, and the Union Pacific Railroad. Therefore, impacts to scenic vistas would be less than significant and no mitigation measures are necessary.

**b) Substantially damage scenic resources, including, but not limited to, trees, rock outcroppings, and historic buildings within a state scenic highway?**

**No Impact.** A scenic highway is generally considered a stretch of public roadway that is designated a scenic corridor by a federal, state, or local agency. The California Department of Transportation (Caltrans) defines a scenic highway as any freeway, highway, road, or other public right-of-way that traverses an area of exceptional scenic quality.

There is no designated or eligible state scenic highway on or in close proximity to the project site, and the project site is not visible from any officially designated or eligible state or locally designated scenic highway. The City of Roseville does not have any locally designated scenic highways.

According to the California Scenic Highway Mapping System, the nearest eligible scenic highway is State Route 174, about 30 miles to the northeast near the City of Colfax and at the foothills of the Sierra Nevada (Caltrans 2024). The nearest officially designated scenic highway (State Route 160) is south of Sacramento, about 23 miles to the southwest of the site. The proposed project would have no impact on scenic resources in a state scenic highway. Furthermore, there are no rock outcroppings or historic buildings on-site. Therefore, no impact to scenic resources within a state scenic highway would occur due to project development, and no mitigation measures are necessary.

**c) In nonurbanized areas, would the project substantially degrade the existing visual character or quality of public views of the site and its surroundings? (Public views are those that are experienced from publicly accessible vantage point). If the project is in an urbanized area, would the project conflict with applicable zoning and other regulations governing scenic quality?**

**No Impact.** Public Resources Code (PRC) Section 21071 defines the term "urbanized area" for the purpose of CEQA to mean an incorporated city that has a population of at least 100,000 persons or has a population of less than 100,000 persons if the population of that city and not more than two contiguous incorporated cities combined equals at least 100,000 persons. According to the US Department of Commerce, Bureau of the Census data from 2022, the City of Roseville has a population of 154,817 (USCB 2024). Thus, the project site is in an urbanized area as defined by PRC Section 21071 and is therefore evaluated relative to applicable zoning and other regulations governing scenic quality.

The project site is zoned P/QP and applied to land intended for educational purposes. The proposed project would be consistent with applicable development regulations of the underlying P/QP zone pertaining to visual character, such as height limitations and setbacks. Therefore, the proposed project would not conflict with applicable zoning or other regulations governing scenic quality. No impact would occur.

**d) Create a new source of substantial light or glare, which would adversely affect day or nighttime views in the area?**

**Less Than Significant Impact With Mitigation Incorporated.** The two major causes of light pollution are glare and spill light. Spill light is caused by misdirected light that illuminates areas outside the area intended to be lit. Glare occurs when a bright object appears against a dark background, such as oncoming vehicle headlights or an unshielded light bulb.

As shown in Figure 3, *Aerial Photograph*, the project site (which consists of the existing high school campus) is surrounded by residential uses. Residential uses are considered light-sensitive receptors, that is, land uses that are sensitive to lighting. The project vicinity has streetlights, vehicle lights, parking lot lights, and building and security lights from the existing school property. The multistory classroom building would have light fixtures installed inside and around the exterior of the building. Additionally, the competition pool will include sports lighting.

The lighting system consists of 16 fixtures supported by four poles at each corner of the pool deck. Two of the four poles will be approximately 70 feet in height, and each have one LED-400 fixture (i.e., 0.40 kilowatts [kW]), three LED-600 fixtures (i.e., 1.74 kW). The remaining two poles will be approximately 50 feet in height, and each have one LED-400 fixture (i.e., 0.40 kW) and three LED-600 fixtures (i.e., 1.74 kW).

Light spillover from the competition pool is expected to remain within the boundaries of the campus as outdoor pool lighting would be placed, designed, and directed to avoid spillover. Therefore, light spillover would not reach the single-family residences to the southwest. Security and path lights would be directional and would not spill light to nearby residential properties. All lights would also be shielded to avoid light spill and glare onto adjacent properties. Lighting would not be substantially greater intensities than existing lights near the project site, and nighttime views would not be significantly affected. Therefore, light impacts would be less than significant.

However, the lighting from the proposed competition pool would result in a new source of substantial light that could adversely affect nighttime views in the area. Because residences are within 300 feet of the project site, Mitigation Measure AES-1 would ensure that the effects of nighttime illumination on nearby residences are reduced by requiring that lights associated with the competition pool are not used later than 11:00 p.m. Therefore, glare impacts would be less than significant with the incorporation of mitigation.

### Mitigation Measure

AES-1 To reduce the effects of nighttime illumination from the Roseville High School competition pool, the use of high-powered floodlights will be limited and shall not be used later than 11:00 p.m.

## AGRICULTURE AND FORESTRY RESOURCES

In determining whether impacts to agricultural resources are significant environmental effects, lead agencies may refer to the California Agricultural Land Evaluation and Site Assessment Model (1997) prepared by the California Department of Conservation as an optional model to use in assessing impacts on agriculture and farmland. In determining whether impacts to forest resources, including timberland, are significant environmental effects, lead agencies may refer to information compiled by the California Department of Forestry and Fire Protection (CAL FIRE) regarding the state's inventory of forest land, including the Forest and Range Assessment Project and the Forest Legacy Assessment project; and forest carbon measurement methodology provided in Forest Protocols adopted by the California Air Resources Board. Would the project:

**a) Convert Prime Farmland, Unique Farmland, or Farmland of Statewide Importance (Farmland), as shown on the maps prepared pursuant to the Farmland Mapping and Monitoring Program of the California Resources Agency, to non-agricultural use?**

**No Impact.** The project site is not designated Prime Farmland, Unique Farmland, or Farmland of Statewide Importance on the California Important Farmland Finder (CDC 2024a). The proposed project would not result in the conversion of Prime Farmland, Unique Farmland, or Farmland of Statewide Importance, and no impact would occur.

**b) Conflict with existing zoning for agricultural use, or a Williamson Act contract?**

**No Impact.** The project site is zoned P/QP and is not zoned for agricultural use (City of Roseville 2024). There are no lands contracted under the Williamson Act for agricultural use on-site or within the immediate vicinity of the site (CDC 2006). No impact would occur.

**c) Conflict with existing zoning for, or cause rezoning of, forest land (as defined in Public Resources Code Section 12220(g)), timberland (as defined by Public Resources Code Section 4526), or timberland zoned Timberland Production (as defined by Government Code Section 51104(g))?**

**No Impact.** The project site is developed and is zoned P/QP. Project implementation would not cause rezoning of forestland or timberland. Therefore, no impact would occur.

**d) Result in the loss of forest land or conversion of forest land to non-forest use?**

**No Impact.** The project site does not contain forestland, nor is the project site zoned as forestland. The project site is developed, and implementation of the proposed project would not convert forestland to non-forest use or result in a loss of forestland. Therefore, no impact would occur.

**e) Involve other changes in the existing environment which, due to their location or nature, could result in conversion of Farmland to non-agricultural use or conversion of forest land to non-forest use?**

**No Impact.** As shown in Figure 3, *Aerial Photograph*, the project site is not adjacent to agricultural uses. Improvements proposed with the project would result in the construction of a new multistory classroom building, outdoor dining patio and quad extension, competition pool, tennis courts, and parking lot on the existing Roseville High School campus. The P/QP Zone District is not considered an agricultural zone. There is no potential to convert farmland to nonfarm uses, and no impact would occur.

## AIR QUALITY

Where available, the significance criteria established by the applicable air quality management district or air pollution control district may be relied on to make the following determinations. Would the project:

**a) Conflict with or obstruct implementation of the applicable air quality plan?**

**Less Than Significant Impact.** The Placer County Air Pollution Control District (PCAPCD), in coordination with other local air districts in Sacramento, prepared and submitted the 1991 Air Quality Attainment Plan (AQAP) to demonstrate how Placer County would attain the required federal eight-hour ozone standard by 2024 (CARB 2018). In accordance with the Clean Air Act (CAA), PCAPCD and other air districts in the region also prepared the Sacramento Regional 8-Hour Ozone Attainment and Reasonable Further Progress Plan (Sacramento Ozone Plan) in July 2017, which stands as the applicable air quality plan for the region, as a revision to the California State Implementation Plan (SIP). The Sacramento Ozone Plan demonstrated that the Sacramento area would attain the required federal eight-hour ozone standard in 2024 and contained the required planning elements, including an emission inventory, reasonable further progress (RFP) demonstration with a

baseline year of 2012, transportation conformity budgets for the years 2020 and 2023, and RFP and attainment contingency provisions. The California Air Resources Board (CARB) also adopted the 2023 Sacramento Regional Plan for the 2015 8-Hour Ozone Standard (2023 Plan), which demonstrates how the Sacramento Federal Nonattainment Areas would provide enough emission reductions from ozone precursors to attain the federal 2015 ozone standard (0.070 parts per million [ppm]) before the end of 2032 (SMAQMD 2023).

The SIP plans and control measures are based on information derived from regional growth projections based on general plans developed by Placer County to forecast future emission levels in the Sacramento Valley Air Basin (SVAB). As such, projects that proposed development consistent with the growth anticipated or development that is less dense that is associated with the Roseville General Plan would be consistent with the SIP. Changes in population, housing, or employment growth projections have the potential to affect PCAPD's demographic projections and therefore the assumptions in SIP. Typically, only large, regionally significant projects have the potential to affect regional growth projections.

The project site is currently designated Public Quasi-Public (P/QP).[2] The land use development on the project site would be consistent with the City of Roseville Zoning Ordinance and is permitted under the P/QP land use designation and P/QP zoning district. The proposed project involves the construction of a new multistory classroom building, hardscape improvements, replacement of the campus pool, tennis courts, and parking lot. After buildout, the proposed project will not result in an increase in student or staff capacity.

As demonstrated below, the regional emissions that would be generated by the operational phase of the proposed project would be less than the PCAPCD's significance thresholds. Therefore, it would not be considered by PCAPCD to be a substantial source of air pollutant emissions that would have the potential to affect the nonattainment designations in the SVAB. The proposed project would not affect the regional emissions inventory or conflict with strategies in the SIP and impacts would be less than significant.

**b) Result in a cumulatively considerable net increase of any criteria pollutant for which the project region is nonattainment under an applicable federal or state ambient air quality standard?**

**Less Than Significant Impact.** The following describes project-related impacts from regional short-term construction activities and regional long-term operation of the proposed project.

### Regional Short-Term Construction Impacts

Construction activities produce combustion emissions from various sources, such as on-site heavy-duty construction vehicles, vehicles hauling materials to and from the site, and motor vehicles transporting the construction crew. Site preparation activities produce fugitive dust emissions ($PM_{10}$ and $PM_{2.5}$) from demolition and soil-disturbing activities, such as grading and excavation. Air pollutant emissions from construction activities on-site would vary daily as construction activity levels change. Construction activities associated with the proposed project would result in emissions of reactive organic gases (ROG), nitrogen oxides ($NO_X$), and coarse particulate matter ($PM_{10}$).

[2] The public/quasi-public (P/QP) district is applied to land intended for education, religious assembly, governmental offices, municipal corporation yards, water treatment plants, power-generating facilities (including privately owned facilities), and other publicly owned facilities.

## 3. Environmental Analysis

The proposed project would result in demolition debris and would require soil export from the site preparation activity. A quantified analysis of the proposed project's construction emissions was conducted using the California Emissions Estimator Model (CalEEMod) Version 2022.1 based on information provided by the District and default equipment mix for each construction activity. Project development is anticipated to be completed in two phases. Phase 1 includes demolition of the old auxiliary gymnasium, which will occur from June to August 2024 and Phase 2 will occur from March 2025 to December 2026 in two increments (refer to Section 1.4, *Project Description*). The approximately 30-month construction period is assumed to begin in June 2024 and end in December 2026.

Potential construction-related air quality impacts are determined by comparing the average daily criteria air pollutants emissions generated by the project-related construction activities to the PCAPCD significance thresholds in Table 2, *Maximum Daily Construction-Related Criteria Air Pollutant Emissions*. Maximum daily emissions are based on the annual construction emissions divided by the total number of active construction days. As shown in Table 2, criteria air pollutant emissions from construction equipment exhaust would not exceed the PCAPCD significance thresholds and impacts from project-related construction activities to the regional air quality would be less than significant.

**Table 2 Maximum Daily Construction-Related Criteria Air Pollutant Emissions**

| | Maximum Daily Emissions (lbs/day)[a,b] | | |
|---|---|---|---|
| | **ROG** | **$NO_X$** | **$PM_{10}$** |
| Construction Emissions | 6.99 | 65.10 | 11.80 |
| **PCAPCD Construction Thresholds** | **82** | **82** | **82** |
| **Exceeds Average Daily Threshold?** | No | No | No |

Source: Appendix A, CalEEMod Version 2022.1. Highest winter or summer emissions are reported.
Notes: Reactive Organic Gases = ROG; Coarse Inhalable Particulate Matter = $PM_{10}$; Fine Inhalable Particulate Matter = $PM_{2.5}$
a. Construction phasing and equipment mix are based on the preliminary information provided by the District. Where specific information regarding project-related construction activities was not available, construction assumptions were based on CalEEMod defaults, which are based on construction surveys conducted by South Coast Air Quality Management District of construction equipment and phasing for comparable projects.
b. Includes implementation of best management practices (BMPs) for fugitive dust control required by PCAPCD as mitigation, including watering disturbed areas a minimum of two times per day, reducing speed limit to 25 miles per hour on unpaved surfaces, and street sweeping.

### Regional Long-Term Operational Impacts

Typical long-term air pollutant emissions generated by a land use would be generated by area sources (e.g., landscape fuel use, aerosols, and architectural coatings), mobile sources from vehicle trips, and energy use (natural gas). The proposed project involves the construction of a new multistory classroom building, hardscape improvements, replacement of the campus pool, tennis courts, and parking lot. In general, the primary source of long-term criteria air pollutant emissions generated by land use development projects are usually from mobile sources.

As the proposed project would not result in an increase in student enrollment or subsequent vehicle trip generation at project completion, the proposed project's greatest emission sources are anticipated to be area and energy source emissions from operation of the new multistory classroom building. Operational emissions were estimated using CalEEMod (version 2022.1) and are based on the information provided by the District. Similar to existing conditions, the proposed project would generate area source emissions from consumer products, architectural coatings, and landscape equipment. The emissions from building energy use would be minimized because the older buildings on the campus, which were constructed prior to modern building energy codes, would be updated with newer, more energy-efficient buildings that meet the current California Building and Energy Efficiency Standards.

In addition, existing operations on-site generate criteria pollutant emissions from mobile sources, area sources, and energy sources principally associated with the operation of the existing auxiliary gymnasium and pool building on campus. These existing on-site emissions would be foregone with the implementation of the proposed project, and PCAPCD recommends that existing emissions be subtracted from proposed project emissions before being compared against PCAPCD significance thresholds. It should be noted that this analysis represents a conservative assessment of project emissions during operation because it does not consider the foregone emissions generated from existing operations on-site. As such, criteria pollutant emissions from full operation of the proposed project without subtracting existing emissions are included herein for a conservative assessment of the proposed project and are compared against PCAPCD significance thresholds.

As shown in Table 3, *Maximum Daily Regional Operation Emissions*, the maximum daily operation emissions would be less than their respective PCAPCD significance threshold values. Therefore, the operation of the proposed project would not contribute to the nonattainment designations of the SVAB, and regional air quality impacts are less than significant.

**Table 3 Maximum Daily Regional Operation Emissions**

| | Maximum Daily Emissions (lbs/day) | | |
|---|---|---|---|
| | ROG | $NO_X$ | $PM_{10}$ |
| Operational Emissions | 0.46 | 0.16 | 0.01 |
| **PCAPCD Operational Project-Level Thresholds** | **55** | **55** | **82** |
| **Exceeds Average Daily Threshold?** | No | No | No |

Source: Appendix A, CalEEMod Version 2022.1. Highest winter or summer emissions are reported.
Notes: lbs = pounds.

**c) Expose sensitive receptors to substantial pollutant concentrations?**

**Less Than Significant Impact With Mitigation Incorporated.** The proposed project could expose sensitive receptors to elevated pollutant concentrations if it causes or significantly contributes to elevated pollutant concentration levels. Unlike regional emissions, localized emissions are typically evaluated in terms of air concentration rather than mass so they can be more readily correlated to potential health effects.

### Construction Impacts

Future construction under the proposed project would temporarily elevate concentrations of toxic air contaminants (TACs) and diesel particulate matter (DPM) in the vicinity of sensitive land uses during construction activities. Appendix G, *Preparing a Health Risk Assessment for Land Use Projects,* in the PCAPCD's CEQA Handbook recommends levels of significance for new sources (PCAPCD 2017). Consequently, a site-specific construction health risk assessment (HRA) of TACs was prepared (see Appendix B, *Construction HRA Modeling*, of this IS/MND).

The nearest receptors, their receptor types, and their proximity and orientation to the project site include the following:

- Workers: immediately adjacent to new construction.
- Elementary school students: Ferris Spanger Elementary School approximately 925 feet to the west.
- Residents: Single-family residences approximately 25 feet to the south.

A quantified analysis of the project's construction emissions was conducted using CalEEMod, Version 2022.1. Construction emissions were based on 426 working days of the total 30-month construction duration. The United States Environmental Protection Agency (USEPA) AERMOD dispersion modeling program was used to estimate excess lifetime cancer risk and chronic non-cancer hazard index for non-carcinogenic risk at the nearest off-site receptors. The results of the analysis are shown in Table 4, *Unmitigated Construction Risk Summary*, and contained in Appendix A, *Air Quality, Greenhouse Gas, and Energy Modeling Data*, of this IS/MND.

**Table 4 Unmitigated Construction Risk Summary**

| | Cancer Risk (per million) | Chronic Hazards |
|---|---|---|
| MER – Resident | **15.70** | 0.08 |
| MER – Worker | 0.21 | 0.04 |
| MER – K-5 Student | 0.03 | <0.01 |
| MER – Park Visitor | 0.04 | <0.01 |
| **PCAPCD Thresholds** | **10** | **1.0** |
| **Exceeds Threshold?** | **Yes** | No |

Note: Cancer risk calculated using 2015 OEHHA HRA Guidance Manual. **Bold** = exceeds threshold. MER = Maximally Exposed Receptor.
Source: Lakes AERMOD View, Version 12.0.0.

The results of the HRA are based on the maximum sensitive receptor concentration over the approximately 30-month construction exposure period for off-site and on-site receptors, assuming 24-hour outdoor exposure, and averaged over a 70-year lifetime. Risk is based on the updated Office of Environmental Health Hazard Assessment (OEHHA) Guidance for the Maximally Exposed Receptor (MER) of each receptor type (e.g., residential, school, worker) within 1,000 feet of the project site.

As shown in Table 4, cancer risk for the residential MER from project-related construction emissions was calculated to be 15.70 in one million, which would exceed the 10 in one million significance threshold. Cancer risk for all other MERs would be below the 10 in one million significance threshold. In accordance with the latest 2015 OEHHA guidance, the calculated total cancer risk conservatively assumes that the residential MER consists of a pregnant woman in the third trimester that subsequently gives birth to an infant during the duration of construction; therefore, all calculated residential risk values were multiplied by a factor of 10. In addition, it was conservatively assumed that the residents and students were outdoors eight hours a day. For non-carcinogenic effects, the chronic hazard index identified for each toxicological endpoint equaled less than one for each identified receptor. Therefore, chronic non-carcinogenic hazards would be within acceptable limits.

Because cancer risk for the residential and student MERs would exceed the significance threshold during project construction, Mitigation Measure AQ-1 is included to ensure that off-road equipment used during project construction greater than 50 horsepower meets Tier 4 Interim emissions standards. Mitigated results for the Residential MER are contained in Table 5.

**Table 5 Mitigated Construction Risk Summary**

| | Cancer Risk (per million) | Chronic Hazards |
|---|---|---|
| MER – Resident | 4.40 | 0.03 |
| MER – Worker | 0.20 | 0.04 |
| MER – K-5 Student | 0.01 | <0.01 |
| MER – Park Visitor | 0.01 | <0.01 |
| **PCAPCD Thresholds** | **10** | **1.0** |
| **Exceeds Threshold?** | No | No |

Note: Cancer risk calculated using 2015 OEHHA HRA Guidance Manual. **Bold** = exceeds threshold. MER = Maximally Exposed Receptor.
Source: Lakes AERMOD View, Version 12.0.0.

As shown in Table 5, Mitigation Measure AQ-1 would reduce the proposed project's localized construction emissions and subsequent exposure to nearby receptors. The results demonstrate that, with mitigation, cancer risk would be less than the significance thresholds at all analyzed receptors.

Additionally, demolition of the old auxiliary gymnasium and pool building may release asbestos fibers. Since the project site is in PCAPCD, which is a non-delegated air district, the proposed project must comply with Asbestos National Emission Standards for Hazardous Air Pollutants (NESHAP) and submit an Asbestos Notification Form to the USEPA (CARB 2024).

Because cancer risks for nearby MERs would not exceed PCAPCD's significance thresholds and exposure to asbestos fibers would be mitigated with compliance with asbestos NESHAP requirements, the proposed project would not expose nearby receptors to substantial concentrations of air pollutant emissions during construction, and this impact would be less than significant with mitigation.

### Mitigation Measure

AQ-1 Construction contractors shall use United States Environmental Protection Agency (USEPA) Tier 4 Interim equipment for all off-road, diesel-powered construction equipment of greater than 50 horsepower (HP), unless it can be demonstrated to the Roseville Joint Unified School District that such equipment is not commercially available. For purposes of this mitigation measure, "commercially available" shall mean the availability of Tier 4 engines similar to the availability for other large-scale construction projects in the city occurring at the same time and taking into consideration factors such as (i) potential significant delays to critical-path timing of construction and (ii) geographic proximity to the project site of Tier 4 equipment. Where such equipment is not commercially available, as demonstrated by the construction contractor, Tier 3 equipment retrofitted with a California Air Resources Board's Level 3 Verified Diesel Emissions Control Strategy (VDECS) shall be used.

### Operational Health Risk

People exposed to TACs at sufficient concentrations and durations may have an increased chance of getting cancer or experiencing other serious health effects. To reduce exposure to TACs, CARB developed a handbook for the siting of sensitive land uses in the vicinity of freeways, distribution centers, rail yards, ports, refineries, chrome-plating facilities, dry cleaners, and gasoline-dispensing facilities (CARB 2005). This document was developed as a guide and as a tool for assessing the compatibility and associated health risk when placing sensitive receptors near existing pollution sources.

Types of land uses that typically generate substantial quantities of criteria air pollutants and TACs include industrial (stationary sources), manufacturing, and warehousing (truck idling) land uses that could generate a substantial number of trucks. To avoid exposing sensitive receptors to substantial concentration of air pollutants, CARB recommends avoiding siting new sensitive land uses within "1,000 feet of a distribution center (that accommodates more than 100 trucks per day, more than 40 trucks with operating transportation refrigeration units (TRUs) per day, or where TRU unit operations exceed 300 hours per week)" (CARB 2005). PCAPCD additionally recommends that a site-specific health risk analysis involving air dispersion modeling be considered for projects that are anticipated to generate TACs, such as goods distribution centers, refineries, power generation facilities, chrome platers, dry cleaners, and gasoline dispensing facilities.

The types of major air pollutant emissions sources listed by CARB and PCAPCD are not included as part of the proposed project. The proposed project would not include stationary sources that emit TACs and would not generate a significant amount of daily heavy-duty truck trips (a source of DPM) to warrant a more detailed review. Therefore, the proposed project would not expose sensitive receptors to substantial concentrations of air pollutant emissions during operation, and impacts would be less than significant.

### CO Hot Spots

Areas of vehicle congestion have the potential to create pockets of carbon monoxide (CO) called hot spots. These pockets have the potential to exceed the State one-hour standard of 20 ppm or the 8-hour standard of 9.0 ppm. Because CO is produced in greatest quantities from vehicle combustion and does not readily disperse into the atmosphere, adherence to ambient air quality standards (AAQS) is typically demonstrated through an

analysis of localized CO concentrations, typically produced at intersections where vehicles queue for longer periods and are subject to reduced speeds. Currently, the SVAB is designated attainment for CO under both the California AAQS and National AAQS.

According to the PCAPCD, CO concentrations should be analyzed at intersections in the project vicinity if the project's CO emissions from vehicle operation are more than 550 pounds per day (lbs/day) and if the level of service (LOS) would be degraded from acceptable (i.e., A, B, C, or D) to unacceptable (i.e., E or F); or a project would result in the addition of traffic that would substantially worsen (i.e., delay of 10 seconds or more with project-generated traffic included) already unacceptable peak-hour LOS intersections.

After buildout, the proposed project would not result in an increase in student or staff capacity, and thus would not generate new traffic on the overall roadway network. There would be no change in the number of daily trips after improvements on the campus and the proposed project would not generate CO emissions in high enough quantities to result in a CO hot spot at nearby intersections. This impact would be less than significant.

**d) Result in other emissions (such as those leading to odors) adversely affecting a substantial number of people?**

**Less Than Significant Impact.** The proposed project would not result in objectionable odors. The threshold for odor is if a project creates an odor nuisance pursuant to PCAPCD Rule 205, *Nuisance*, which states:

> A person shall not discharge from any source whatsoever such quantities of air contaminants or other material which cause injury, detriment, nuisance, or annoyance to any considerable number of persons or to the public, or which endanger the comfort, repose, health or safety of any such persons or the public, or which cause, or have a natural tendency to cause, injury or damage to business or property.

The type of facilities that are considered to have objectionable odors include wastewater treatment plants, compost facilities, landfills, solid waste transfer stations, fiberglass manufacturing facilities, paint/coating operations (e.g., auto body shops), dairy farms, petroleum refineries, asphalt batch plants, chemical manufacturing, and food manufacturing facilities. The proposed project would involve the construction of a new multistory classroom building, hardscape improvements, replacement of the campus pool, tennis courts, and parking lot. These type of land uses would not create objectionable odors to the public. Additionally, emissions from construction equipment, such as diesel exhaust and volatile organic compounds from architectural coatings and paving activities, may generate odors. However, these odors would be low in concentration, temporary, and are not expected to affect a substantial number of people. Therefore, overall, odor impacts would be less than significant.

# BIOLOGICAL RESOURCES

Would the project:

**a) Have a substantial adverse effect, either directly or through habitat modifications, on any species identified as a candidate, sensitive, or special-status species in local or regional plans, policies, or regulations, or by the California Department of Fish and Wildlife or U.S. Fish and Wildlife Service?**

**Less Than Significant Impact With Mitigation Incorporated.** Candidate species are plants and animals that have been studied and the U.S. Fish and Wildlife Service (USFWS) has concluded that they should be proposed for addition to the federal endangered and threatened species list.

Sensitive biological resources are habitats[3] or individual species that have special recognition by federal, state, or local conservation agencies and organizations as endangered, threatened, or rare. The California Department of Fish and Wildlife (CDFW), USFWS, and organizations like the California Native Plant Society maintain watch lists of such resources.

"Special-status species" is a universal term in the scientific community for species that are considered sufficiently rare that they require special consideration and/or protection and should be or have been listed as rare, threatened, or endangered by USFWS and/or CDFW.

## Candidate and Sensitive Species

No candidate or sensitive species occur on-site. Therefore, no impact would occur and no mitigation measures are necessary.

## Special-Status Species

There are no special-status species previously documented within the project site boundaries.

### *Special-Status Plants*

The project site is previously disturbed and developed as a high school. No special-status plant species occur within the project area due to historical and continued disturbance and use and the presence of school buildings and facilities, impervious surfaces, and maintained landscaping. While tree or vegetation removal would be required, the project would not result in direct impacts on special-status plants during construction given their absence within the project site boundaries. Therefore, impacts would be less than significant.

[3] Per the California Department of Fish and Wildlife, habitat is where a given plant or animal species meets its requirements for food, cover, and water in both space and time.

### *Special-Status Wildlife*

Based on database search results and wildlife surveys in the project area, the following special-status species are known to occur in or adjacent to the project site: northwestern pond turtle, western spadefoot, monarch butterfly, valley elderberry longhorn beetle, conservancy fairy shrimp, vernal pool fairy shrimp, and vernal pool tadpole shrimp (USFWS 2024). However, these species are not discussed further because they and/or suitable habitats are absent from the project site.

The project site is previously disturbed and developed as a high school. No special-status wildlife species occur within the project area due to historical and continued disturbance and use and the presence of a large parking lot entrance and maintained landscaping. However, native migratory birds may be present in the project area. All locations with a shrub- or tree-canopy layer in the project area may provide suitable nesting habitat for a diverse assemblage of migratory birds.

The site is developed and includes existing school buildings and facilities. A majority of the site is developed with pavement and sidewalks and includes the old auxiliary gymnasium and pool; the northern portion of the project site is Hanson Field, which is adjacent to the track and baseball fields. Ornamental trees and shrubs are scattered throughout the site. The ornamental trees on-site could be used for nesting by birds protected under the Migratory Bird Treaty Act (MBTA) (US Code Title 16, Sections 703-712), and California Fish and Game Code Sections 3503 et seq. Tree or vegetation removal will be required for the project; therefore, the project could result in direct impacts on special-status birds if they are nesting in the affected trees and vegetation during construction. Indirect impacts on special-status birds could result from noise and vibration during construction if birds were nesting in the trees adjacent to the project area. Therefore, per Mitigation Measure BIO-1, a preconstruction nesting bird survey is required within 14 days of the beginning of ground disturbance during the nesting season. Additionally, per Mitigation Measure BIO-2, a no-disturbance buffer around the nest shall be established if active nests are found. Impacts would be less than significant with implementation of mitigation.

## Mitigation Measures

BIO-1 Conduct a preconstruction nesting raptor and bird survey of all suitable habitat on the project site within 14 days of the commencement of ground disturbance (e.g., tree/vegetation removal, mass grading) during the nesting season (February 1 to August 31). Where accessible, surveys should be conducted within 300 feet of the project site for nesting raptors and 100 feet of the project site for other nesting birds.

BIO-2 If active nests are found, a no-disturbance buffer around the nest shall be established. The buffer distance shall be established by a qualified biologist in consultation with the California Department of Fish and Wildlife (CDFW). The buffer shall be maintained until the fledglings are capable of flight and become independent of the nest tree, to be determined by a qualified biologist. Once the young are independent of the nest, no further measures are necessary.

**b) Have a substantial adverse effect on any riparian habitat or other sensitive natural community identified in local or regional plans, policies, regulations, or by the California Department of Fish and Wildlife or U.S. Fish and Wildlife Service?**

**No Impact.** Sensitive natural communities are communities that are considered rare in the region by regulatory agencies; known to provide habitat for sensitive animal or plant species; or known to be important wildlife corridors. Riparian habitats are those occurring along the banks of rivers and streams.

No riparian habitat or other sensitive natural communities are within the project site. No impact would occur and no mitigation measures are necessary.

**c) Have a substantial adverse effect on state or federally protected wetlands (including, but not limited to, marsh, vernal pool, coastal, etc.) through direct removal, filling, hydrological interruption, or other means?**

**No Impact.** Wetlands are defined under the federal Clean Water Act as land that is flooded or saturated by surface water or groundwater at a frequency and duration sufficient to support, and that normally does support, a prevalence of vegetation adapted to life in saturated soils. Wetlands include areas such as streams, swamps, marshes, and bogs.

No wetlands potentially jurisdictional to the US Army Corps of Engineers pursuant to the Clean Water Act are within the project site. No impact would occur and no mitigation measures are necessary.

**d) Interfere substantially with the movement of any native resident or migratory fish or wildlife species or with established native resident or migratory wildlife corridors, or impede the use of native wildlife nursery sites?**

**Less Than Significant With Mitigation Incorporated.** Wildlife corridors refer to established migration routes commonly used by resident and migratory species for passage from one geographic location to another. Movement corridors may provide favorable locations for wildlife to travel between different habitat areas, such as foraging sites, breeding sites, cover areas, and preferred summer and winter range locations. They may also function as dispersal corridors, allowing animals to move between various locations within their range.

The MBTA (50 Code of Federal Regulations Part 10 and Part 21) protects migratory birds, their occupied nests, and their eggs from disturbance or destruction. "Migratory birds" include all nongame, wild birds found in the U.S., except for the house sparrow (*Passer domesticus*), European starling (*Sturnus vulgaris*), and rock pigeon (*Columba livia*).

There are no significant habitat features (e.g., wetlands or riparian areas) on or adjacent to the project site, and project development is not expected to impact wildlife movement. However, the ornamental trees on-site could be used for nesting by birds protected under the MBTA (US Code Title 16, Sections 703-712), and California Fish and Game Code Sections 3503 et seq. Tree or vegetation removal would be required for the project; therefore, the project could result in direct impacts on migratory birds if they are nesting in the affected trees and vegetation during construction. Indirect impacts on migratory birds could result from noise and vibration during construction if birds were nesting in the trees adjacent to the project area. Therefore, per Mitigation

Measure BIO-1, a preconstruction nesting bird survey is required within 14 days of the commencement of ground disturbance during the nesting season. Additionally, per Mitigation Measure BIO-2, a no-disturbance buffer around the nest shall be established if active nests are found. Therefore, impacts would be less than significant with implementation of mitigation.

### Mitigation Measures

Implement Mitigation Measures BIO-1 and BIO-2.

**e) Conflict with any local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance?**

**No Impact.** The City of Roseville does not have any established ordinances protecting biological resources. Therefore, no impact would occur and no mitigation measures are necessary.

**f) Conflict with the provisions of an adopted Habitat Conservation Plan, Natural Community Conservation Plan, or other approved local, regional, or state habitat conservation plan?**

**No Impact.** There are no adopted habitat conservation plans, natural community conservation plans, or other approved local, regional, or state habitat conservation plans that govern the project site (CDFW 2024). Placer County prepared and adopted the Placer County Conservation Plan in 2020 that covers most of South Placer. However, it excludes the cities of Roseville, Rocklin, Loomis, and Auburn. The City of Roseville is not a current participant in the Placer County Conservation Plan. No impact would occur.

## CULTURAL RESOURCES

Would the project:

**a) Cause a substantial adverse change in the significance of a historical resource pursuant to CEQA Guidelines Section 15064.5?**

**Less Than Significant Impact.** CEQA Guidelines Section 15064.5 defines historic resources as resources listed or determined to be eligible for listing by the State Historical Resources Commission, a local register of historical resources, or the lead agency. Generally, a resource is considered "historically significant" if it meets one of the following criteria:

i) Is associated with events that have made a significant contribution to the broad patterns of California's history and cultural heritage;

ii) Is associated with the lives of persons important in our past;

iii) Embodies the distinctive characteristics of a type, period, region, or method of construction, or represents the work of an important creative individual, or possesses high artistic values;

iv) Has yielded, or may be likely to yield, information important in prehistory or history.

## 3. Environmental Analysis

As shown on Figure 3, *Aerial Photograph*, the project site is developed as a high school. Project development would involve construction of a new multistory classroom building, outdoor dining patio and quad extension, competition pool, tennis courts, and parking lot, and demolition of the old auxiliary gymnasium, pool, and pool building.

ASM Affiliates evaluated the existing auxiliary gymnasium both individually and as a contributing resource to a potential Roseville High School campus historic district. However, due to the few remaining pre-1940 buildings from the earliest years of operation the Roseville High School campus would not comprise a potential historic district. The only pre-1940 buildings that remain on campus include the old auxiliary gymnasium, mechanical arts building, and outdoor amphitheater. As such, ASM Affiliates did not identify a historic district to which the auxiliary gymnasium would be a contributing resource.

As an individual resource the auxiliary gymnasium was evaluated under Criterion 1 for the theme of education with a potential period of significance of circa 1926 (i.e., the construction of the auxiliary gymnasium) to 1955 (i.e., the construction of Moeller gym). While the auxiliary gymnasium served as a recreation and athletic space for the school and community, it does not convey a strong association with the theme of education as an individual resource to be eligible as a good representation of this theme. Therefore, the auxiliary gymnasium is not eligible under Criterion 1 for the theme of education. Furthermore, the auxiliary gymnasium is recommended not eligible under Criterion 2. Historic research conducted at the Roseville Historical Society, Roseville Public Library, and through newspaper archives did not reveal any significant people associated with the auxiliary gymnasium or its subsequent association with the Roseville High School's athletics program.

Under Criterion 3, the auxiliary gymnasium is not a good representation of a particular property type, period, region, or high artistic values. No architectural plans were located that identify the building's architect; therefore, it is not recommended eligible as a good representation of the work of a master. The auxiliary gymnasium exhibits some of the characteristics of the Art Deco style such as linear, hard edges, and a vertical emphasis of the primary façade with hard-edged, low relief ornamentation surrounding the entrance. However, while it is an example of the Art Deco style, it is not a good representation of the style when examined within the local context of the City of Roseville. Therefore, the auxiliary gymnasium is not eligible under Criterion 3. The auxiliary gymnasium is recommended not eligible under Criterion 4 as it does not have the potential to provide information about history or prehistory that is not available through historic research.

Consequently, the project site does not contain any buildings that would be considered historic. Furthermore, the project site does not meet any of the state or federal criteria of a historic resource identified above. No historical events have occurred on-site, and no persons of significance have resided or currently reside on-site. Additionally, the project site does not exhibit any unique architectural style or features, nor does it have architectural elements or features to suggest unique design or construction.

The project site is not identified on any federal or state historic registers or sources, including the National Register of Historic Places and California State Historical Landmarks and Points of Historical Interest (NPS 2020; OHP 2024). The closest historical landmark to the project site is the Haman House approximately one mile to the southwest. Project development would occur within the confines of the project site and would not impact this historical resource in any way. Therefore, impacts would be less-than-significant and no mitigation measures are necessary.

**b) Cause a substantial adverse change in the significance of an archaeological resource pursuant to CEQA Guidelines Section 15064.5?**

**Less Than Significant Impact With Mitigation Incorporated.** Archaeological resources are prehistoric or historic evidence of past human activities, including structural ruins and buried resources. As shown in Figure 3, *Aerial Photograph*, the project site is developed as a high school. The surrounding lands include an easement and residential properties to the north, residential properties to the west, the Roseville Public Cemetery and Berry Street to the east, and Tiger Way and the Union Pacific Railroad to the south.

Given the highly disturbed condition of the project site and its surroundings as well as the minimal grading required for project construction, the potential for development of the proposed project to impact an unidentified archaeological resource is considered extremely low. However, in the unlikely event that prehistoric and/or historic archaeological resources are discovered during ground-disturbing activities, Mitigation Measure CUL-1 has been identified to ensure impacts to archaeological resources would be less than significant.

## Mitigation Measures

CUL-1 Prior to ground disturbance by project site clearance and grading, the District shall retain a qualified professional archaeologist meeting the Secretary of the Interior's Professional Qualification Standards for prehistoric and historic archaeology to be on call during all project ground-disturbance activities.

If subsurface deposits believed to be cultural or human in origin are discovered during construction, all work must halt within a 100-foot radius of the discovery. The professional archaeologist shall evaluate the significance of the find and shall have the authority to modify the no-work radius as appropriate, using professional judgment. The following notifications shall apply, depending on the nature of the find:

- If the professional archaeologist determines that the find does not represent a cultural resource, work may resume immediately, and no agency notifications are required.
- If the professional archaeologist determines that the find does represent a cultural resource from any time period or cultural affiliation, he or she shall immediately notify the CEQA lead agency and applicable landowner. The agencies shall consult on a finding of eligibility and implement appropriate treatment measures if the find is determined to be eligible for inclusion in the NRHP or CRHR. Work may not resume within the no-work radius until the lead agencies, through consultation as appropriate, determine that the site either: (1) is not eligible for the NRHP or CRHR; or (2) that the treatment measures have been completed to their satisfaction.

- If the find includes human remains or remains that are potentially human, the professional archaeologist shall ensure reasonable protection measures are taken to protect the discovery from disturbance (Assembly Bill [AB] 2641). The archaeologist shall notify the Placer County Coroner. The provisions of Section 7050.5 of the California Health and Safety Code, Section 5097.98 of the California Public Resources Code [PRC], and AB 2641 will be implemented. If the coroner determines the remains are Native American and not the result of a crime scene, the coroner will notify the Native American Heritage Commission (NAHC), who will designate a Native American most likely descendant (MLD) for the project (Section 5097.98 of the PRC). The designated MLD will have 48 hours from the time access to the property is granted to make recommendations concerning treatment of the remains. If the District does not agree with the recommendations of the MLD, the NAHC can mediate (Section 5097.94 of the PRC). If no agreement is reached, the District must rebury the remains where they will not be further disturbed (Section 5097.98 of the PRC). This will also include either recording the site with the NAHC or the appropriate information center; using an open space or conservation zoning designation or easement; or recording a reinternment document with the county in which the property is located (AB 2641). Work may not resume within the no-work radius until the lead agencies, through consultation as appropriate, determine that the treatment measures have been completed to their satisfaction.

**c) Disturb any human remains, including those interred outside of dedicated cemeteries?**

**Less Than Significant Impact.** California Health and Safety Code, Section 7050.5; CEQA Guidelines, Section 15064.5; and California Public Resources Code, Section 5097.98, mandate the process to be followed in the event of an accidental discovery of any human remains in a location other than a dedicated cemetery. Specifically, California Health and Safety Code, Section 7050.5, requires that if human remains are discovered on a project site, disturbance of the site shall remain halted until the coroner has conducted an investigation into the circumstances, manner, and cause of any death, and the recommendations concerning the treatment and disposition of the human remains have been made to the person responsible for the excavation, or to his or her authorized representative, in the manner provided in Section 5097.98 of the Public Resources Code. If the coroner determines that the remains are not subject to his or her authority and if the coroner has reason to believe the human remains to be those of a Native American, he or she shall contact, by telephone within 24 hours, the Native American Heritage Commission.

There are no cemeteries or known human burials at the project site because the site is already developed as school property, and the subject property has been previously disturbed; however, ground disturbance (i.e., grading and excavation) would have the potential to result in discovery of human remains (although the potential is very low). In the unlikely event that human remains are discovered during ground-disturbing activities, compliance with existing law regarding the discovery of human remains would reduce potential impacts to human remains to less-than-significant levels. No mitigation measures are necessary.

# ENERGY

Would the project:

**a) Result in a potentially significant environmental impact due to wasteful, inefficient, or unnecessary consumption of energy resources, during project construction or operation?**

**Less Than Significant Impact.** Construction activities use energy from various sources, such as on-site heavy-duty construction vehicles, vehicles hauling materials to and from the site, and motor vehicles transporting the construction crew and vendors. The operation of the proposed multistory classroom building would use energy for cooling, heating, and lighting.

## Short-Term Construction Impacts

### *Electrical Energy*

Construction of the proposed project would require energy use to power the construction equipment. The energy use would vary during different phases of construction—the majority of construction equipment during demolition and grading would be gas powered or diesel powered, and the later construction phases would require electric-powered equipment for interior construction and architectural coatings. However, it is anticipated that the majority of electric-powered construction equipment would be hand tools (e.g., power drills, table saws) and lighting, which would result in minimal electricity usage during construction activities. The electrical energy would be supplied by Roseville Electric and available for use during construction from existing power lines and connections. All construction equipment would cease operating upon completion of project construction. Therefore, project-related construction activities would not result in wasteful or unnecessary electricity demands, and impacts would be less than significant.

### *Natural Gas Energy*

It is not anticipated that construction equipment used for the proposed project would be powered by natural gas, and no natural gas demand is anticipated during construction. Therefore, impacts would be less than significant with respect to natural gas usage.

### *Transportation Energy*

Transportation energy (i.e., diesel fuel, gasoline, and/or electric) used during construction would come from the transport and use of construction equipment, delivery vehicles and haul trucks, and construction employee vehicles that would use diesel fuel or gasoline. It is anticipated that the majority of off-road construction equipment, such as that used during site preparation and grading, would be gas or diesel powered.

Construction activities would be subject to applicable State regulations, such as anti-idling measures and limits on duration of activities, thereby reducing energy consumption. For example, to limit wasteful and unnecessary energy consumption to reduce the cost of operating equipment, the construction contractors would reasonably be expected to minimize nonessential idling of construction equipment during construction in accordance with Section 2449 of the California Code of Regulations, Title 13, Article 4.8, Chapter 9, which limits nonessential idling of diesel-powered off-road equipment to five minutes.

In general, there are no unusual characteristics that would directly or indirectly cause construction activities to be any less efficient than would occur elsewhere (restrictions on equipment, labor, types of activities, etc.). Therefore, project-related construction activities would not result in wasteful or unnecessary electricity demands, and impacts would be less than significant.

### Long-Term Operational Impacts

Operation of the proposed project would create higher demands for natural gas and electricity from the new multistory classroom building. Energy use from operation of the proposed project would be from building heating, cooling, and ventilation; water heating; operation of electrical systems, use of on-site equipment and appliances; and indoor, outdoor, and parking lot lighting. Energy resources consumed by operation of the proposed project were quantified and are presented in Table 6, *Project Annual Electricity Consumption*.

**Table 6 Project Annual Electricity Consumption**

| Use Type | Annual Energy Consumption |
|---|---|
| Building – Electricity[1] | 67,840 |
| Parking Lot – Electricity[1] | 78,840 |
| Building – Natural Gas[2] | 581,788 |

Source: CalEEMod, Version 2022.1.
Notes:
[1] Energy resource is expressed in kilowatt-hours (kWh/year).
[2] Energy resource is expressed in British thermal units (kBTU/year).

#### *Electrical Energy*

At minimum, the proposed project would meet the latest Building Energy Efficiency Standards and CALGreen standards. The proposed project would also include mandatory standards from Divisions 5.1 (Planning and Design), 5.2 (Energy Efficiency), 5.3 (Water Efficiency and Conservation), 5.4 (Material Conservation and Resource Efficiency), and 5.5 (Environmental Quality) of CALGreen. For example, the proposed project is required to implement the City's Water Efficient Landscape Ordinance, which would reduce the amount of water necessary for landscape irrigation.

As shown in Table 6, implementation of the proposed multistory classroom building and parking lot would result in an increase of 146,680 kilowatt-hours of electricity use per year. The new building would be designed to be more energy-efficient compared to the existing school buildings and greater proportions of electricity consumed by the proposed building would be sourced from renewable energy sources as the State progresses toward meeting Senate Bill (SB) 100. In addition, the proposed project may increase reliance on renewable energy sources by installing rooftop solar, as prescribed by Title 24, Part 6, Subchapter 11, Section 140.10(a).

As such, the proposed project is anticipated to decrease overall per-capita energy consumption and reliance on fossil fuels from implementation of greater energy efficiencies in building design and materials. Overall, the new building constructed to the standards identified above would not result in wasteful, inefficient, or unnecessary consumption of electricity.

### *Natural Gas Energy*

As shown in Table 6, the new multistory classroom building would contain and increase the demand of natural gas for heating by 581,788 British thermal units. However, this is a conservative estimate as the old auxiliary gymnasium, and pool building on campus also required natural gas demand. As mentioned previously, the proposed project would be built to meet the latest Building Energy Efficiency Standards, meet the CALGreen requirements, and be designed to have greater energy efficiency than the existing school buildings. The new energy efficiency building standards would result in a decrease in per-capita natural gas consumption for space and water heating.

In addition, new buildings would be required to comply with Title 24, Part 6, Subchapter 11, Section 140.10(a) of the 2022 California Building Code (CBC) and may include a rooftop photovoltaic (PV) system meeting the minimum requirements specified by calculations contained in the California Building Standards Condition. As such, the proposed project is anticipated to decrease reliance on fossil fuels from implementation of greater energy efficiencies in building design and materials. Overall, the new building constructed to the standards identified would not result in wasteful, inefficient, or unnecessary consumption of natural gas.

### *Transportation Energy*

A typical new school development would consume transportation energy during operations from the use of motor vehicles associated with students, staff, and visitors to the campus. The efficiency of these motor vehicles is unknown, such as the average miles per gallon. Estimates of transportation energy use are based on the overall vehicle miles traveled (VMT) and its associated transportation energy use. Since the proposed project would not increase student capacity or staffing, the proposed project would not result in additional trips or an increase in VMT and would not result in additional reliance on fossil fuel consumption.

Additionally, fuel efficiency of vehicles during the buildout year of 2026 would, on average, improve compared to vehicle fuel efficiencies experienced under existing conditions, thereby resulting in a lower per-capita fuel consumption in 2026 assuming travel distances, travel modes, and trip rates remain the same. The improvement in fuel efficiency would be attributable to the statewide fuel-reduction strategies and regulatory compliances (e.g., CAFE standards), resulting in new cars that are more fuel efficient and the attrition of older, less fuel-efficient vehicles. The CAFE standards are not directly applicable to land use development projects, but to car manufacturers. Thus, students and staff do not have direct control in determining the fuel efficiency of vehicles manufactured and that are made available. However, compliance with the CAFE standards by car manufacturers would ensure that vehicles produced in future years have greater fuel efficiency and would generally result in an overall benefit of reducing fuel usage by providing the population of the region with more fuel-efficient vehicle options.

As electricity consumed in California is required to meet the increasing renewable energy mix requirements under the State's Regional Portfolio Standard (RPS) and accelerated by SB 100, greater and greater proportions of electricity consumed for transportation energy demand envisioned under the proposed project would continue to be sourced from renewable energy sources rather than fossil fuels. Vehicle fuel efficiencies would improve year over year through the buildout year of 2026 and result in a decrease in overall per-capita transportation energy consumption.

Moreover, the proposed improvements would not worsen vehicle congestion because a proposed parking lot would be re-established where the existing portables are located to accommodate the parking displaced by the new competition pool. In addition, there are two designated crosswalks near the school property and the proposed project would not conflict with the existing circulation system, including transit, roadway, bicycle, and pedestrian facilities.

Overall, it is expected that operation-related fuel usage associated with the proposed project would not be any more inefficient, wasteful, or unnecessary than similar development projects. Accordingly, impacts would be less than significant, and no mitigation measures would be required.

**b) Conflict with or obstruct a state or local plan for renewable energy or energy efficiency?**

**Less Than Significant Impact.** As discussed in criterion (b) of Section 3.8, *Greenhouse Gas Emissions*, the proposed project would not conflict with the current CARB 2022 Climate Change Scoping Plan and the 2040 Regional Transportation Plan (RTP), all which involve planning for use of renewable energy and energy-efficiency standards. Additionally, the proposed project would adhere to the applicable General Plan policies related to energy conservation and would be built to the current Building and Energy Efficiency Standards of the California Public Resources Code, Title 24, Part 6. As stated before, the proposed project would not conflict with or obstruct an applicable plan for renewable energy or energy efficiency. Accordingly, impacts would be less than significant, and no mitigation measures would be required.

## GEOLOGY AND SOILS

Would the project:

**a) Directly or indirectly cause potential substantial adverse effects, including the risk of loss, injury, or death involving:**

**i) Rupture of a known earthquake fault, as delineated on the most recent Alquist-Priolo Earthquake Fault Zoning map, issued by the State Geologist for the area or based on other substantial evidence of a known fault? Refer to Division of Mines and Geology Special Publication 42.**

**Less Than Significant Impact.** Fault rupture impacts occur when a structure is on top of an active fault that displaces in two separate directions during an earthquake. The Alquist-Priolo Earthquake Fault Zoning Act was adopted in 1972 to prevent building construction in areas where active faults have surface expression. Surface fault rupture is earth surface broken by fault movement. Sudden surface rupture from severe earthquakes can cause extensive property damage, but even slow fault movement, known as "fault creep," can cause displacement that results in offset or disfiguring of curbs, streets, buildings, and other infrastructure.

The proposed project site is not in an Alquist-Priolo Zone, nor is it situated on any known active or potentially active fault (CDC 2024b, 2024c). The nearest fault zone under the Alquist-Priolo Act is a portion of the Dunnigan Hills Fault approximately 30 miles to the west. Other active faults are south of Lake Oroville, at Lake Tahoe, and in the Coast Ranges, approximately 45 to 60 miles away. While the proximity

of the Dunnigan Hills Fault to the subject property could subject it to moderate and possibly strong ground motion, such motion would not be greater than at other sites in seismically active northern California. Impacts would be less than significant.

**ii) Strong seismic ground shaking?**

**Less Than Significant Impact.** The project site is in a seismically active region of northern California. Ground shaking originating from active faults in the region is expected to induce lower horizontal accelerations due to smaller anticipated earthquakes and/or greater distances to other faults. Seismic shaking has the potential to be generated by faults many miles from the project vicinity. Regional faulting is associated with the Foothill Fault System, which consists of several different faults, including the Bear Mountains Fault Zone. The northern portion of the Bear Mountains Fault Zone and the Maidu Fault (east of Folsom Lake) and the northern portion of the Deadman Fault (north of Folsom Lake) have exhibited evidence of movement in the last 700,000 to 1.6 million years. Therefore, these faults are considered potentially active. However, the nearest known active fault is the Cleveland Hills fault, approximately 41 miles north. The Dunnigan Hills and Midland faults, which both have unknown histories of activity and are approximately 13 and 19 miles from Roseville, respectively, present the highest potential to produce ground shaking at the project site. Ground shaking could also originate from seismic activity along the larger, but relatively distant Foothill or San Andreas fault systems, the nearest components of which are approximately 20 and 55 miles from Roseville, respectively. Although seismic activity from these faults could potentially affect the project site, the site is at no greater risk than the surrounding development and infrastructure. Impacts would be less than significant.

**iii) Seismic-related ground failure, including liquefaction?**

**Less Than Significant Impact.** Liquefaction refers to loose, saturated sand or silt deposits that behave as a liquid and lose their load-supporting capability when strongly shaken. Loose granular soils and silts that are saturated by relatively shallow groundwater are susceptible to liquefaction. The City of Roseville is composed of well-consolidated to very hard, older Pleistocene- to Eocene-age deposits, and active seismic sources are at least 30 miles away (City of Roseville 2020b). Therefore, the project site is not susceptible to post-liquefaction settlement and lateral spreading that would be detrimental to the proposed site improvements, and liquefaction of the soil and rock beneath the site is considered unlikely. Thus, impacts would be less than significant.

**iv) Landslides?**

**Less Than Significant Impact.** The existing topography at the site and near vicinity consists of low to moderately sloping hillside terrain. The site is not in an area of known historical landslides. There is no evidence of past landslides or soil creep. The potential for the occurrence of a landslide hazard is very low due to the site's generally flat terrain. Therefore, impacts would be less than significant.

**b) Result in substantial soil erosion or the loss of topsoil?**

**Less Than Significant Impact.** Project development would involve grading and construction activities that would temporarily leave disturbed soil vulnerable to erosion if effective erosion-control measures were not

used. Construction of the proposed project would be required to comply with best management practices (BMPs) that reduce or eliminate soil erosion from construction sites. Common means of soil erosion from construction sites include water, wind, and being tracked off-site by vehicles. Compliance with BMPs, such as jute bales, covering loads, truck washing areas, and covering stockpiles of materials would reduce soil erosion during construction. Paved and building areas with maintained landscaping will reduce the potential for erosion during operation. Compliance with BMPs is required by the federal and State Clean Water Acts and is administered by the City of Roseville. Compliance with existing regulations governing erosion from construction sites would ensure the project's impacts on soil erosion would be less than significant.

**c) Be located on a geologic unit or soil that is unstable, or that would become unstable as a result of the project, and potentially result in on- or off-site landslide, lateral spreading, subsidence, liquefaction, or collapse?**

**Less Than Significant Impact.** Project development would not cause substantial hazards related to liquefaction and landslides, as substantiated in Sections 3.7.a.iii and 3.7.a.iv, respectively. Lateral spreading is the downslope movement of surface sediment due to liquefaction in a subsurface layer. The topography in the vicinity of the project site is relatively flat. Therefore, the potential for lateral spreading at the project site is considered very low. Impacts would be less than significant.

**d) Be located on expansive soil, as defined in Table 18-1-B of the Uniform Building Code (1994), creating substantial direct or indirect risks to life or property?**

**Less Than Significant Impact.** Expansive soils swell when they become wet and shrink when they dry out, resulting in the potential for cracked building foundations. All structures built on-site would adhere to the 2022 CBC, or most recent version. Additionally, since the site would be part of a school site, the California Geological Survey and Division of the State Architect would ensure that all potential impacts to the buildings would be sufficiently reduced. Therefore, the project would have less-than-significant impacts on exposing people or the proposed structures to adverse effects associated with expansive soils.

**e) Have soils incapable of adequately supporting the use of septic tanks or alternative wastewater disposal systems where sewers are not available for the disposal of wastewater?**

**No Impact.** The project site is served by an existing sewer system. The proposed project would not involve the use of septic tanks or any other alternative wastewater disposal systems. Therefore, the proposed project would not have soils incapable of adequately supporting the use of septic tanks or alternative wastewater disposal systems where sewers are not available for the disposal of wastewater. No impact would occur.

**f) Directly or indirectly destroy a unique paleontological resource or site or unique geologic feature?**

**Less Than Significant Impact With Mitigation Incorporated.** Paleontological resources are fossilized remains of past life on earth, such as bones, shells, leaves, tracks, burrows, and impressions. The project site is currently developed. The proposed project would require limited grading and other ground-disturbing construction activities to accommodate the construction of the proposed project and utility requirements. Due to the ground disturbance associated with construction, there is potential that natural landform beneath the site would be encountered during construction and that subsurface resources and/or paleontological resources would be discovered. Implementation of Mitigation Measure GEO-1 would ensure that if resources are discovered during ground-disturbing activities that resources would be recovered in accordance with state and federal requirements. Implementation of Mitigation Measure GEO-1 would reduce impacts to paleontological resources to a less-than-significant level.

### Mitigation Measure

GEO-1 Prior to construction, the District shall identify a qualified paleontologist to be on call. If unique paleontological resources are discovered during excavation and/or construction activities, construction shall stop within 50 feet of the find, and the qualified paleontologist shall be consulted to determine whether the resource requires further study. The paleontologist shall make recommendations to the District to protect the discovered resources. Any paleontological resources recovered shall be provided to the North Central Information Center and California State University, Sacramento Natural History Museums, or repository willing and able to accept and house the resource to preserve for future scientific study.

## GREENHOUSE GAS EMISSIONS

Would the project:

**a) Generate greenhouse gas emissions, either directly or indirectly, that may have a significant impact on the environment?**

**Less Than Significant Impact.** Global climate change is not confined to a particular project area and is generally accepted as the consequence of global industrialization over the last 200 years. A typical project, even a very large one, does not generate enough GHG emissions on its own to influence global climate change significantly; hence, the issue of global climate change is, by definition, a cumulative environmental impact. PCAPCD adopted a *de minimis* bright-line threshold for the operational phase of 1,100 metric tons of $CO_2$-equivalent emissions ($MTCO_2e$) per year. Therefore, if the proposed project's construction- and operation-phase GHG emissions exceed these thresholds, then GHG emissions would be considered to substantially and cumulatively contribute to statewide GHG emissions in the absence of reduction measures.

### Construction-Phase GHG Emissions

The proposed project would generate GHG emissions during construction activities primarily due to the use of construction equipment—largely diesel-powered—and construction workers and haul trucks traveling to and from the project site. As the PCAPCD does not explicitly have a significance threshold for construction GHG emissions, the proposed project's construction GHG emissions were quantified using CalEEMod v2022.1, consistent with the modeling assumptions used in the Air Quality analysis in Section 3.3 and were amortized over the expected lifetime of the project (30 years) and added to the operational GHG emissions. Project-related construction-phase GHG emissions are shown in Table 7, *Project-Related Construction GHG Emissions.*

As shown in Table 7*,* the proposed project would generate a total 879 $MTCO_2e$ over the course of the 30-month construction schedule. Over an assumed 30-year lifetime of the proposed project, construction GHG emissions would be an estimated 29 $MTCO_2e$ per year and are added to the proposed project's operational GHG emissions.

**Table 7 Project-Related Construction GHG Emissions**

| Year | Total MTCO2e/Year | Percentage of Total Emissions |
|---|---|---|
| 2024 | 580 | 66% |
| 2025 | 57 | 6% |
| 2026 | 242 | 28% |
| **Total Construction** | 879 | 100% |
| Amortized over 30 years | 29 $MTCO_2e$ | - |

Source: CalEEMod, Version 2022.1.
Notes: $MTCO_2e$ = metric ton of carbon dioxide equivalent

### Operational-Phase GHG Emissions

Because student capacity would not increase after buildout of the proposed project, operation of the proposed project would not result in an increase in trips, water demand, wastewater generation, or solid waste generation. Operation of the new multistory classroom building would only result in area sources (e.g., consumer cleaning products) and energy usage (i.e., natural gas and electricity). Furthermore, GHG emissions from building energy use would be minimized because the existing school buildings, which were constructed prior to modern building energy codes, would be replaced with a new classroom building that meets the current California Building and Energy Efficiency Standards.

Project-related operation-phase GHG emissions are shown in Table 8, *Project-Related Operation GHG Emissions.* As noted in the Air Quality analysis in Section 3.3, this analysis considers the full operation of the proposed project and conservatively does not subtract emissions from existing on-site building operations that would be replaced before comparing against PCAPCD significance thresholds. As shown in Table 8, operation of the proposed project would not generate annual emissions that exceed the PCAPCD's *de minimis* level for operational phase of 1,100 metric $MTCO_2e$ per year (PCAPCD 2017). Therefore, the proposed project's cumulative contribution to GHG emissions would be less than significant and no further analysis is required.

**Table 8 Project-Related Operation GHG Emissions**

| Source[1] | GHG Emissions ($MTCO_2e$/Year) | Percentage of Total Emissions |
|---|---|---|
| Area | <1 | <1% |
| Energy | 56 | 45% |
| Amortized Construction Emissions | 29 | 55% |
| **Total** | 86 | 100% |
| PCAPCD *De Minimis* Level for operational phase | 1,100 $MTCO_2e$/Year | NA |
| **Exceeds Threshold?** | **No** | **NA** |

Source: Appendix A, CalEEMod, Version 2022.1.

Notes: $MTCO_2e$ = metric ton of carbon dioxide equivalent; PCAPCD = Placer County Air Pollution Control District

[1] Because student capacity would not increase after buildout of the proposed project, operation of the proposed project would not result in an increase in trips, water demand, wastewater generation, or solid waste generation.

**b) Conflict with an applicable plan, policy, or regulation adopted for the purpose of reducing the emissions of greenhouse gases?**

**Less Than Significant Impact.** Applicable plans adopted for the purpose of reducing GHG emissions include CARB's Scoping Plan and the Placer County Transportation Planning Agency's (PCTPA) Regional Transportation Plan/Sustainable Communities Strategy (RTP/SCS). A consistency analysis with these plans is presented below.

## CARB Scoping Plan

CARB adopted the *2022 Scoping Plan for Achieving Carbon Neutrality* (2022 Scoping Plan) on November 16, 2022, which lays out a path to achieve carbon neutrality by 2045 or earlier and to reduce the State's anthropogenic (human-caused) GHG emissions (CARB 2022). The Scoping Plan was updated to address the carbon neutrality goals of Executive Order (EO) B-55-18 and the ambitious GHG reduction target of 85 percent below 1990 levels by 2045 as directed by AB 1279.

The CARB Scoping Plan is applicable to state agencies but is not directly applicable to cities or counties and individual projects (i.e., the Scoping Plan does not require the City to adopt policies, programs, or regulations to reduce GHG emissions). However, new regulations adopted by the state agencies outlined in the Scoping Plan result in GHG emissions reductions at the local level. As a result, local jurisdictions benefit from reductions in transportation emissions rates, increases in water efficiency in the building and landscape codes, and other statewide actions that affect a local jurisdiction's emissions inventory from the top down. Statewide strategies to reduce GHG emissions include the Low-Carbon Fuel Standard (LCFS) and changes in the corporate average fuel economy standards (e.g., Pavley I and Pavley California Advanced Clean Cars program).

The CARB Scoping Plan also outlines three distinct approaches that lead agencies may consider for evaluating alignment of proposed land use development projects (residential or mixed-use residential) with the State's climate goals, and therefore may have a less-than-significant impact on GHG emissions. The first approach is to examine whether the project includes key project attributes that reduce operational GHG emissions while simultaneously advancing fair housing. The second approach to project-level alignment with State climate goals

is net-zero GHG emissions, especially for new residential development. The third approach to demonstrating project-level alignment with State climate goals is to align with GHG thresholds of significance, which many local air quality management districts (AQMDs) and air pollution control districts (APCDs) have developed or adopted (CARB 2022).

The proposed project would adhere to the key project attributes, programs, and regulations identified by the Scoping Plan and implemented by state, regional, and local agencies to achieve the statewide GHG reduction goals of AB 32, SB 32, and AB 1279. Future development projects would be required to comply with these state GHG emissions-reduction measures because they are statewide strategies. For example, the new multistory classroom building would meet the latest applicable CALGreen and Building Energy Efficiency Standards in effect at the time when applying for building permits. Therefore, the proposed project's GHG emissions would be reduced from compliance with statewide measures that have been adopted since AB 32, SB 32, and AB 1279 were adopted and would not obstruct implementation of the CARB Scoping Plan. Impacts would be less than significant.

### PCTPA's Regional Transportation Plan/Sustainable Communities Strategy

PCTPA adopted the Final RTP 2040 RTP in September 2019 to document the policy direction, actions, and funding recommendations to meet Placer County's transportation systems over the next 20 years (PCTPA 2019). The 2040 RTP was incorporated into the six-county Metropolitan Transportation Plan (MTP) developed by the Sacramento Area Council of Governments (SACOG). While the 2040 RTP focuses on Placer County, the MTP plans for transportation investments across the six-county Sacramento region.

The 2040 RTP identifies new growth areas to accommodate jobs and housing that will balance well with the land use and transportation planning in the county. This long-range planning document contains 10 goals, each with supporting policies and objectives, to address the County's traffic congestion, mobility needs, and maintenance of existing transportation infrastructure. Some of the overarching goals in the 2040 RTP is to maintain countywide roadway systems, provide regionally and locally coordinated transit service that connects residential areas with employment centers, improve passenger rail service, promote aviation services that complement the countywide transportation system, provide safe and efficient movements of goods throughout the county, and to promote a convenient non-motorized transportation system (PCTPA 2019). The 2040 RTP transportation projects help more efficiently distribute population, housing, and employment growth, and forecast development is generally consistent with regional-level general plan data to promote active transportation and reduce GHG emissions. The projected regional development, when integrated with the proposed regional transportation network in the 2040 RTP, would reduce GHG emissions related to vehicular travel and improve air quality.

The 2040 RTP does not require that local general plans, specific plans, or zoning be consistent with the SCS, but provides incentives for consistency for governments and developers. As stated previously, implementation of the proposed project would not result in an increase in staff or student capacity. As such, the proposed project would not change the existing vehicle trip generation to and from campus. The proposed project would not be considered a regionally significant project and would not directly induce substantial population growth. Therefore, the proposed project would not interfere with PCTPA's ability to implement the regional strategies in the 2040 RTP, and impacts would be less than significant.

# HAZARDS AND HAZARDOUS MATERIALS

The term "hazardous material" is defined in different ways by different regulatory programs. For purposes of this environmental document, the definition of "hazardous material" is similar to that in the California Health and Safety Code, Section 25501:

> Hazardous materials that, because of their quantity, concentration, or physical or chemical characteristics, pose a significant present or potential hazard to human health and safety or to the environment if released into the workplace or the environment.

"Hazardous waste" is a subset of hazardous materials, and the definition is essentially the same as that in the California Health and Safety Code, Section 25517, and in the California Code of Regulations, Title 22, Section 66261.2:

> Hazardous wastes are those that, because of their quantity, concentration, or physical, chemical, or infectious characteristics, may either cause, or significantly contribute to an increase in mortality or an increase in serious illness, or pose a substantial present or potential hazard to human health or the environment when improperly treated, stored, transported, disposed of, or otherwise managed.

Hazardous materials can be categorized as hazardous nonradioactive chemical materials, radioactive materials, and biohazardous materials (infectious agents such as microorganisms, bacteria, molds, parasites, viruses, and medical waste).

Would the project:

**a) Create a significant hazard to the public or the environment through the routine transport, use, or disposal of hazardous materials?**

**Less Than Significant Impact.**

## Construction

Construction activities of the proposed project would involve the use of larger amounts of hazardous materials than would project operation. Construction activities would include the use of materials such as cleansers and degreasers; fluids used in routine maintenance and operation of construction equipment, such as oil and lubricants; fertilizers; pesticides; and architectural coatings, including paints. However, the materials used would not be in such quantities or stored in such a manner as to pose a significant safety hazard. These activities would also be short-term or one time in nature and would cease after completion of the construction phase. Project construction workers would also be trained in safe handling and hazardous materials use.

The use, storage, transport, and disposal of construction-related hazardous materials and waste would be required to conform to existing laws and regulations, including the California Department of Toxic Substances Control (DTSC), USEPA, California Division of Occupational Safety and Health, Caltrans, Placer County Division of Environmental Health, and the Roseville Fire Department. Title 40 of the Code of Federal

Regulations, Part 263, establishes standards that apply to persons transporting hazardous waste. If a transporter discharges or spills hazardous waste, he or she is required to take appropriate, immediate action to protect human health and the environment, such as notifying local authorities. Compliance with applicable laws and regulations governing the use, storage, and transportation of hazardous materials through the implementation of established safety practices, procedures, and reporting requirements would ensure that all potentially hazardous materials are used and handled in an appropriate manner and would minimize the potential for safety impacts. For example, all spills or leakage of petroleum products during construction activities are required to be immediately contained, the hazardous material identified, and the material remediated in compliance with applicable state and local regulations for the cleanup and disposal of that contaminant. All contaminated waste encountered would be required to be collected and disposed of at an appropriately licensed disposal or treatment facility. Furthermore, strict adherence to all emergency response plan requirements by the City of Roseville would be required through the duration of the construction phase. Therefore, hazards to the public or the environment arising from the routine use of hazardous materials during construction would be less than significant and no mitigation measures are necessary.

### Operation

Operation of the proposed project would involve the limited use of hazardous materials for air conditioning, janitorial, maintenance, and repair activities. These materials would include cleansers, paints, degreasers, adhesives, sealers, fertilizers, and pesticides for cleaning and maintenance purposes. However, these types of materials are not considered acutely hazardous and would be used in limited quantities. Additionally, school facilities are not associated with uses that use, generate, store, or transport large quantities of hazardous materials—such uses generally include manufacturing, industrial, medical (e.g., hospital), and other similar uses.

Furthermore, the use, storage, transport, and disposal of hazardous materials of the proposed project would be required to comply with existing regulations of several agencies, including the DTSC, USEPA, California Division of Occupational Safety and Health, Caltrans, Placer County Division of Environmental Health, and the Roseville Fire Department. Compliance with applicable laws and regulations governing the use, storage, transport, and disposal of hazardous materials through the implementation of established safety practices, procedures, and reporting requirements would ensure that all potentially hazardous materials are used and handled in an appropriate manner and would minimize the potential for safety impacts.

Therefore, hazards to the public or the environment arising from the routine use, storage, transport, and disposal of hazardous materials during long-term operation of the proposed project would not occur. Impacts would be less than significant, and no mitigation measures are necessary.

**b) Create a significant hazard to the public or the environment through reasonably foreseeable upset and accident conditions involving the release of hazardous materials into the environment?**

**Less Than Significant Impact.** See response to Section 3.9.a. As concluded in this section, hazards to the public or the environment arising from the routine use of hazardous materials during project construction and operation phases would be less than significant and no mitigation measures are necessary.

**c) Emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within one-quarter-mile of an existing or proposed school?**

**Less Than Significant Impact.** Ferris Spanger Elementary School and Independence High School are within 0.25 mile of the project site. As discussed in Sections 3.9(a) and 3.9(b), the use of hazardous materials and substances during the operation of the proposed project is generally minimal and in small quantities. All hazardous materials and substances at the proposed project site would be subject to federal, state, and local health and safety requirements—e.g., Resource Conservation and Recovery Act; California Hazardous Waste Control Law; and principles prescribed by the California Department of Health Services, Centers for Disease Control and Prevention, and National Institutes of Health—and the proposed project would be under the regulatory oversight of agencies such as the Placer County Division of Environmental Health, DTSC, and the Regional Water Quality Control Board (RWQCB). The proposed project would result in a less-than-significant impact with regard to the emission or handling of hazardous or acutely hazardous materials, substances, or wastes within 0.25 mile of an existing or proposed school and no mitigation measures are necessary.

**d) Be located on a site that is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and, as a result, would it create a significant hazard to the public or the environment?**

**No Impact.** The State's Hazardous Waste and Substances Sites List (Cortese List, Government Code Section 65962.5) identifies sites with leaking underground fuel tanks, hazardous waste facilities subject to corrective actions, solid waste disposal facilities from which there is a known migration of hazardous waste, and other sites where environmental releases have occurred. According to review of the information available on the State Water Resource Control Board's (SWRCB's) GeoTracker and DTSC's Envirostor websites, the project site is not listed on GeoTracker but is listed on EnviroStor as a school investigation site (DTSC 2024; SWRCB 2024). A Phase I Site Assessment was conducted at the site in 2003. The cleanup status for Roseville High School was "No Action Required" as of March 14, 2003. Therefore, impacts would be less than significant.

Currently, the project site is not identified as containing hazardous materials contamination, storage of hazardous materials, a leaking underground storage tank site, or other cleanup site. There are no other known sites containing hazardous materials contamination in the project area that would have the potential to impact the project site. Therefore, no impact to the public or to the environment would occur as a result of the project and no mitigation measures are necessary.

**e) For a project located in an airport land use plan or, where such a plan has not been adopted, within two miles or a public airport or public use airport, would the project result in a safety hazard or excessive noise for people residing or working in the project area?**

**No Impact.** The project site is not in an airport land use plan and there are no public airports or private airstrips in two miles of the site. The nearest airport to the project site is Sacramento McClellan Airport, approximately 7.9 miles southwest. Therefore, no impact would occur, and no mitigation measures are necessary.

**f) Impair implementation of or physically interfere with an adopted emergency response plan or emergency evacuation plan?**

**Less Than Significant Impact.** Compliance with the Standardized Emergency Management System, California Code of Regulations, Title 19, Division 2, Section 2443, must "be documented in the areas of planning, training, exercise, and performance." The City of Roseville Emergency Operations Plan (EOP) was approved by the City Council in June 2011. The purpose of the EOP is to provide the basis for a coordinated response before, during, and after a disaster incident affecting Roseville. Under the EOP, during a local level emergency or disaster, the Director of Emergency Services is responsible for organizing and directing the preparedness efforts of the City's emergency operations and mutual-aid partners.

The proposed project would not interfere with the implementation of the EOP or any of the daily operations of the City's emergency operation center, Roseville Fire Department, or Roseville Police Department. All construction activities would be required to be performed per the City's and fire department's standards and regulations. For example, the proposed project would be required to provide the necessary on- and off-site access and circulation for emergency vehicles and services during the construction and operation phases. The proposed project would also be required to go through the City's development review and permitting process and would be required to incorporate all applicable design and safety standards and regulations of the Roseville Fire Department and the Fire Safe Regulations (Fire Code) of the City's Code of Ordinances to ensure that it does not interfere with the provision of local emergency services (provision of adequate access roads to accommodate emergency response vehicles, adequate numbers/locations of fire hydrants, etc.).

Therefore, the proposed project would not impair implementation of or physically interfere with the City of Roseville's emergency response or evacuation plans. Project-related impacts would be less than significant, and no mitigation measures are necessary.

**g) Expose people or structures, either directly or indirectly, to a significant risk of loss, injury, or death involving wildland fires?**

**Less Than Significant Impact.** A wildland fire hazard area is typically characterized by areas with limited access, rugged terrain, limited water supply, and combustible vegetation. As explained in Section 3.20, *Wildfire*, the project site is not in a very high fire hazard severity zone (FHSZ) (CAL FIRE 2024). Development of the project would comply with all City of Roseville requirements, including fire flows, on-site hydrants, and backflow assemblies. Project design and construction would comply with requirements for building materials and construction methods for new buildings in a FHSZ in the CBC (California Code of Regulations Title 24 Part 2) Chapter 7A. Chapter 7A contains requirements for roofing; attic ventilation; exterior walls; exterior windows and glazing; exterior doors; decking; protection of underfloor, appendages, and floor projections; and ancillary structures. The project would also comply with the California Fire Code (CFC) (California Code of Regulations Title 24 Part 9) Chapter 49, whose requirements generally parallel those in CBC Chapter 7A. Compliance with these codes and regulations would ensure that the proposed project would not result in a fire hazard or exacerbate the fire risk in the project area. Adherence to existing local, state, and federal laws would ensure that this impact remains less than significant.

# HYDROLOGY AND WATER QUALITY

Would the project:

**a) Violate any water quality standards or waste discharge requirements or otherwise substantially degrade surface or groundwater quality?**

**Less Than Significant Impact.**

## Construction

As part of Section 402 of the Clean Water Act, the USEPA has established regulations under the National Pollutant Discharge Elimination System (NPDES) program to control direct stormwater discharges. The NPDES program regulates industrial pollutant discharges, which include construction activities. In California, the SWRCB administers the NPDES permitting program and is responsible for developing NPDES permitting requirements.

The City of Roseville Municipal Code Chapter 14.20 requires development to comply with a Municipal Separate Storm Sewer System (MS4) Permit from the Central Valley RWQCB. Section F.1 of the MS4 permit specifies requirements for new developments, and Section F.1.D details the requirements for standard stormwater mitigation plans (also known as water quality management plans). The MS4 permit imposes pollution prevention requirements on planned developments, construction sites, commercial and industrial businesses, municipal facilities and activities, and residential activities.

Requirements for waste discharges potentially affecting stormwater from construction sites of one acre or more are in the SWRCB's Construction General Permit, Order No. 2012-0006-DWQ, issued in 2012. The site is larger than one acre and would be subject to requirements of the Construction General Permit. Projects obtain coverage under the Construction General Permit by filing a Notice of Intent with the SWRCB prior to grading activities and preparing and implementing a Stormwater Pollution Prevention Plan (SWPPP) during construction. The primary objective of the SWPPP is to identify, construct, implement, and maintain BMPs to reduce or eliminate pollutants in stormwater discharges and authorized non-stormwater discharges from the project site, and to contain hazardous materials. Categories of BMPs used in SWPPPs are described in Table 9, *Construction Best Management Practices*.

## 3. Environmental Analysis

**Table 9 Construction Best Management Practices**

| Category | Purpose | Examples |
|---|---|---|
| Erosion Controls and Wind Erosion Controls | Cover and/or bind soil surface, to prevent soil particles from being detached and transported by water or wind | Mulch, geotextiles, mats, hydroseeding, earth dikes, swales |
| Sediment Controls | Filter out soil particles that have been detached and transported in water | Barriers such as straw bales, sandbags, fiber rolls, and gravel bag berms; desilting basin; cleaning measures such as street sweeping |
| Tracking Controls | Minimize the tracking of soil offsite by vehicles | Stabilized construction roadways and construction entrances/exits; entrance/outlet tire wash |
| Non-Storm Water Management Controls | Prohibit discharge of materials other than stormwater, such as discharges from the cleaning, maintenance and fueling of vehicles and equipment. Conduct various construction operations, including paving, grinding, and concrete curing and finishing, in ways that minimize non-stormwater discharges and contamination of any such discharges | BMPs specifying methods for: paving and grinding operations; cleaning, fueling, and maintenance of vehicles and equipment; concrete curing; concrete finishing |
| Waste Management and Controls (i.e., good housekeeping practices) | Management of materials and wastes to avoid contamination of stormwater | Spill prevention and control, stockpile management, and management of solid wastes and hazardous wastes |

Source: CASQA 2015.

The project's construction contractor would be required to prepare and implement a SWPPP and associated BMPs in compliance with the Construction General Permit during grading and construction. The SWPPP would specify BMPs, such as those outlined in Table 9, that the construction contractor would implement to protect water quality by eliminating and/or minimizing stormwater pollution prior to and during grading and construction and show the placement of those BMPs. Additional construction BMPs that would be incorporated into the project's SWPPP and implemented during the construction phase include, but are not limited to:

- Perimeter control with silt fences and perimeter sandbags and/or gravel bags.
- Stabilized construction exits with rumble strip(s)/plate(s).
- Installation of storm drain inlet protection on affected on-site drains and within roadways.
- Installation of silt fences around stockpile and covering of stockpiles.
- Use of secondary containment around barrels, containers, and storage materials that may impact water quality.
- Stabilization of disturbed areas where construction ceases for a determined period (e.g., one week) with erosion controls.
- Installation of temporary sanitary facilities and dumpsters.

BMPs identified in the SWPPP would reduce or avoid contamination of stormwater with sediment and other pollutants such as trash and debris; oil, grease, fuels, and other toxic chemicals; paint, concrete, asphalt, bituminous materials, etc.; and nutrients. Adherence to the BMPs in the SWPPP would reduce, prevent, minimize, and/or treat pollutants and prevent degradation of downstream receiving waters.

Based on the preceding, water quality and waste-discharge impacts from project grading and construction activities would be less than significant.

### Operation

Operational-related activities of the proposed project (e.g., runoff from parking areas, solid waste storage areas, and landscaped areas) would generate pollutants that could adversely affect the water quality of downstream receiving waters if effective measures are not used to keep pollutants out of and remove pollutants from urban runoff. Therefore, the City is responsible for reviewing project plans and ensuring that requirements for waste discharges potentially affecting stormwater from project operations are met.

These requirements are in Chapter 14.20, *Urban Stormwater Quality Management and Discharge Control*, of the municipal code. As previously stated, the proposed project is subject to the NPDES permit. Compliance with the NPDES permit includes the incorporation of BMPs into the project's standard urban stormwater mitigation plan. The project applicant is required to prepare a stormwater mitigation plan that includes the BMPs necessary to control stormwater pollution from the completed project. The structural or treatment-control BMPs (including, as applicable, post-construction treatment-control BMPs) in the stormwater mitigation plan must meet the design standards in the municipal NPDES permit. Stormwater mitigation plan requirements include minimizing stormwater pollutants and limiting peak post-project stormwater runoff rates to no greater than predevelopment rates where increased runoff could increase downstream erosion.

As part of the approval process, the City is responsible for reviewing the plan to ensure that all applicable requirements have been addressed and that the applicant has identified BMPs necessary to protect the MS4 from discharges. The BMPs could include maintaining landscaping using minimum or no pesticides, providing an adequate number of receptacles while keeping them covered, and sweeping sidewalks regularly to prevent accumulation of litter and debris. Project design features, such as areas draining to BMPs, would address the anticipated and expected pollutants of concern during the project's operational phase. On-site landscaping would assist in minimizing the amount of runoff from the site by providing permeable areas for water infiltration and decreasing runoff volume. Infiltration through landscaped areas would serve as a water treatment function.

Moreover, no grading permit shall be issued by the Division of the State Architect until the City confirms that the project's stormwater mitigation plan complies with the applicable municipal NPDES permit requirements. Based on this, the project would comply with water quality standards, and impacts are less than significant.

**b) Substantially decrease groundwater supplies or interfere substantially with groundwater recharge such that the project may impede sustainable groundwater management of the basin?**

**Less Than Significant Impact.** The proposed project is in the Sacramento Valley Groundwater Basin, the major groundwater basin in the Sacramento River hydrologic region with 18 subbasins. Roseville is in the North American subbasin (Basin Code 5-021.64), which underlies northern Sacramento, southern Sutter, and western Placer Counties. The subbasin is bounded by the Bear River on the north, the Feather River and Sacramento Rivers on the west, the American River on the south, and a north-south line extending from the Bear River south to Folsom Lake that passes about two miles east of the city of Lincoln. The subbasin encompasses

approximately 351,000 acres. The Department of Water Resources estimates that the storage capacity of the North American subbasin is approximately 4.9 million acre-feet.

The project site is in the central portion of Roseville where direct recharge is possible by applying water to the land because this area is along the eastern side of the North American groundwater subbasin, where coarse-grained soils are underlain by coarse-grained sediments that are directly connected to the groundwater aquifers (City of Roseville 2022b). Water applied in this area would migrate through the groundwater aquifer to the southwestern corner of the city. However, the project site is mostly developed and consists of impervious surfaces. Therefore, development of the site would not be expected to substantially impede groundwater recharge. Furthermore, the implementation of low-impact development techniques, as required by the *West Placer Stormwater Quality Design Manual: Stormwater Quality BMP Guidance Manual for Construction*, the City of Roseville Stormwater Management Program would preserve some of the ability of stormwater to percolate to the groundwater aquifer in developed areas (to the extent that such recharge occurs). Implementation of the City's Water Efficient Landscape Ordinance would reduce the amount of water that is necessary for landscape irrigation, helping to conserve groundwater supplies on a regional level.

With regard to groundwater supply, drinking water for the City of Roseville is primarily supplied from surface water obtained from the Folsom Reservoir. However, the City currently operates 6 groundwater wells and has plans to construct 10 more. The existing wells are capable of delivering a total of 17,500 acre-feet per year. When all 10 wells are constructed, they would increase the City's groundwater pumping capacity to 43,800 acre-feet per year. The City's groundwater wells are primarily used for backup water supply and to improve water supply reliability during drought and emergency conditions. It is the City's policy to use groundwater for water supply only in times of shortage.

With regard to groundwater recharge in relation to water supply, the City's aquifer storage and recovery program allows it to maximize sustained use of the groundwater basin in conjunction with surface water supplies, while providing a strong backup water supply during critically dry years, consistent with the City's commitments contained in the Water Forum Agreement. The City's program is designed to inject and store surplus drinking water in the underlying aquifer during periods of normal and above normal precipitation. This stored drinking water can be extracted and used to meet peak demands during dry years. The City currently operates one groundwater injection well. At full buildout of the program, the City envisions a network of up to 12 groundwater injection wells that could store up to 10,000 acre-feet per year of water (City of Roseville 2022b). The aquifer storage and recovery program ensures that the City's use of groundwater does not substantially deplete groundwater supplies.

Section 3.19, *Utilities and Service Systems*, substantiates that Roseville will have adequate water supplies to meet water demands in its service area through 2045 during normal years—in single-dry years and some multiple dry years, water supply deficit may occur. However, according to the City of Roseville 2020 Urban Water Management Plan, remaining deficits will be mitigated by potable water conservation measures implemented as part of the Water Shortage Contingency Plan (City of Roseville 2022b).

In addition, the Western Placer County Groundwater Management Plan was developed to provide planned and coordinated monitoring, operation, and administration of groundwater basins with the goal of long-term groundwater resource sustainability, and to comply with the passage of the 1992 Groundwater Management Act (AB 3030, Water Code Part 2.75, Section 10750 et seq.). The City's groundwater and water supply master planning is in alignment with this plan and will not impede plan implementation.

Based on past construction activities on-site, it is not anticipated that the proposed underground utility trenches will encounter shallow groundwater. Therefore, the project would not impede sustainable groundwater management, and impacts are less than significant.

**c) Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river or through the addition of impervious surfaces, in a manner that would:**

**i) Result in substantial erosion or siltation on- or off-site?**

**Less Than Significant Impact.** The proposed project would not alter the course of a stream or river. Construction of the project would increase the potential for erosion and siltation. However, the proposed project would include BMPs, such as landscaping, that would reduce runoff, and improvements would be constructed over a short period of time. Therefore, a less-than-significant impact would occur.

**ii) Substantially increase the rate or amount of surface runoff in a manner that would result in flooding on- or off-site?**

**Less Than Significant Impact.** The proposed project would not alter the course of a stream. Project implementation would include pervious and impervious surfaces on-site. With the use of BMPs and compliance with local, state, and federal regulations, to ensure that drainage patterns and stormwater runoff are maintained, impacts would be less than significant.

**iii) Create or contribute runoff water that would exceed the capacity of existing or planned stormwater drainage systems or provide substantial additional sources of polluted runoff?**

**Less Than Significant Impact.** Project implementation would include pervious and impervious surfaces on-site. The proposed project would disperse runoff to adjacent pervious areas and small collection areas where runoff could be retained. The proposed project is required to comply with the City of Roseville Municipal Code Chapter 14.20, which requires development to comply with an MS4 permit from the Central Valley RWQCB. With the proposed BMPs, impacts associated with impervious surfaces would be reduced. The proposed project would be required to comply with local, state, and federal regulations pertaining to stormwater. Therefore, the proposed project would not exceed the capacity of existing or planned stormwater drainage systems. Impacts would be less than significant.

**iv) Impede or redirect flood flows?**

**Less Than Significant Impact.** The project site is designated by the Federal Emergency Management Agency as being within Zone X, indicating minimal risk of flooding (FEMA 2024). Moreover, the project site is not in a 100- or 500-year flood zone (FEMA 2024). Although the proposed project would increase impervious surfaces, the project site is not in an area of flood risk, and on-site landscaping would reduce impacts from on- or off-site flooding. Therefore, impacts are less than significant.

**d) In flood hazard, tsunami, or seiche zones, risk release of pollutants due to project inundation?**

**No Impact.** As provided in Section 3.10.c.iv, the project site is not within a flood hazard zone. The project site is not in an area that is subject to seiches, mudflows, or tsunamis due to the absence of any nearby bodies of water and mud/debris channels. In addition, the project is not in the vicinity of any levees. Therefore, the project would not be exposed to seiches, mudflows, or tsunami hazards, and no impact would occur.

**e) Conflict with or obstruct implementation of a water quality control plan or sustainable groundwater management plan?**

**Less Than Significant Impact.** As provided in Section 3.10.b, the project site is in a groundwater management plan. The City's groundwater and water supply master planning is in alignment with Western Placer County Groundwater Management Plan and will not impede plan implementation. Development of the site would not be expected to substantially impede groundwater recharge or decrease water supplies. The proposed project would comply with water quality requirements in the Statewide Construction General Permit, the NPDES, and the City of Roseville Municipal Code Chapter 14.20, *Urban Stormwater Quality Management and Discharge Contro*l. Therefore, the project would not impede sustainable groundwater management of the basin, and impacts are less than significant.

## LAND USE AND PLANNING

Would the project:

**a) Physically divide an established community?**

**No Impact.** The proposed project would not divide an established residential community because it would occur entirely on an existing school property with a parking lot. Therefore, no impact would occur, and no mitigation measures are necessary.

**b) Cause a significant environmental impact due to a conflict with any land use plan, policy, or regulation adopted for the purpose of avoiding or mitigating an environmental effect?**

**No Impact.** Implementation of the proposed project would generally not conflict with an applicable land use plan, policy, or regulation of an agency with jurisdiction over the project adopted for the purpose of avoiding or mitigating an environmental effect. The project site is in the City of Roseville and the prevailing adopted planning and regulatory documents that govern development and use of the project site are the City of Roseville General Plan and Zoning Ordinance (Title 19 of the City of Roseville Municipal Code). The City of

Roseville General Plan land use designations of the project site is Public Quasi-Public (P/QP). The project site is zoned Public/Quasi-Public (P/QP) (City of Roseville 2024). The proposed Roseville High School Improvement Project is permitted under the P/QP land use designation and P/QP zoning district. As the location of the proposed project is compatible with the surrounding land uses, no impact would occur, and no mitigation measures are necessary.

## MINERAL RESOURCES

Would the project:

**a) Result in the loss of availability of a known mineral resource that would be of value to the region and the residents of the state?**

**No Impact.** No mineral resource recovery sites of statewide or regional significance are on or in the immediate vicinity of the project site. Additionally, mining on the project site would be incompatible with the surrounding uses, which consist mostly of residential uses. Mining is also not a permitted use under the site's general plan land use and zoning designations. Implementation of the proposed project would not result in the loss of availability of a known mineral resource or resource recovery site. No mineral resource impact would occur, and no mitigation measures are necessary.

**b) Result in the loss of availability of a locally important mineral resource recovery site delineated on a local general plan, specific plan, or other land use plan?**

**No Impact.** As discussed in Section 3.12(a), no mineral resource recovery sites are identified on or in the immediate vicinity of the project site. There would be no loss of availability of locally important mineral resources, and no impact would occur. No mitigation measures are necessary.

## NOISE

### Noise Fundamentals

Noise is defined as unwanted sound and, when overexposed, is known to have several adverse effects on people, including hearing loss, speech and sleep interference, physiological responses, and annoyance. Based on these known adverse effects of noise, federal, state, and city governments have established criteria to protect public health and safety and to prevent the disruption of certain human activities, such as classroom instruction, communication, or sleep. Additional information on noise and vibration fundamentals and applicable regulations are contained in Appendix C.

### Existing Noise Environment

The project site is in a predominantly residential area in the City of Roseville along Tiger Way. The project site includes existing Roseville High School classroom buildings and recreational sites such as the existing pool. As shown in Figure 3, *Aerial Photograph*, to the south and west of the project site across Campo Street are residences and east and north of the project site is the existing Roseville High School campus.

## 3. Environmental Analysis

Noise in the vicinity of the project site is primarily characterized by roadway noise from Tiger Way and Campo Street. Noise from nearby residential uses (e.g., property maintenance noise) and existing school uses also contribute to the overall noise environment in the project vicinity. To establish existing conditions, ambient noise monitoring was conducted around the project site on March 21, 2024, during afternoon school hours. The short-term sound level meter used (Larson Davis LxT) for noise monitoring satisfies the American National Standards Institute standard for Type 1 instrumentation.[4] The short-term sound level meter was set to "slow" response and "A" weighting (dBA). The meter was calibrated prior to and after each monitoring period. All measurements were at least 5 feet above the ground and away from reflective surfaces. Short-term measurement results are detailed below and summarized in Table 10*, Short-Term Noise Measurements Summary*.

- **Short-Term Location 1 (ST-1**) was conducted south of the existing portable classrooms on the project site. The measurement location was approximately 10 feet from the nearest portable classroom, behind a chain-link fence. A 15-minute noise measurement began at 4:42 p.m. on Thursday, March 21, 2024. The noise environment is characterized primarily by distant traffic noise of vehicles entering and exiting the senior parking lot from Campo Street, vehicles driving in the alley, and pedestrians walking and chatting. One motorcycle traveled along the alley approximately five feet from the measurement around 4:50 p.m.. Noise levels generally ranged from 41 to 92 dBA.
- **Short-Term Location 2 (ST-2)** was conducted near the intersection of Campo Street and Alta Vista Street. A 15-minute noise measurement began at 5:06 p.m. on Thursday, March 21, 2024. The noise measurement was conducted during after-school activities. The noise primarily consisted of traffic along Campo Street, cars parking, people talking with occasional shouting, and distant band practice noise. Noise levels generally ranged from 53 to 75 dBA.
- **Short-Term Location 3 (ST-3)** was conducted along Las Flores Avenue. A 15-minute noise measurement began at 5:31 p.m. on Thursday, March 21, 2024. The noise measurement was conducted during afternoon hours. The noise primarily consisted of traffic along Las Flores Avenue, pedestrians walking and chatting, cars parking, and distant band practice. Noise levels generally ranged from 47 to 67 dBA.

**Table 10 Short-Term Noise Measurements Summary**

| Monitoring Location | Description | 15-minute Noise Level, dBA | | | | | | |
|---|---|---|---|---|---|---|---|---|
| | | $L_{eq}$ | $L_{max}$ | $L_{min}$ | L50 | L25 | L8 | L2 |
| ST-1 | Alley South of Portable Classrooms 3/21/2024, 4:42 p.m. | 66 | 92 | 41 | 45 | 46 | 50 | 66 |
| ST-2 | Campo Street North of Existing Pool 3/21/2024, 5:06 p.m. | 62 | 75 | 53 | 60 | 63 | 65 | 68 |
| ST-3 | West of Project Site along Las Floras Avenue 3/21/2024, 5:31 p.m. | 54 | 67 | 47 | 51 | 53 | 58 | 63 |

Source: PlaceWorks, 2024.

[4] Monitoring of ambient noise was performed using a Larson-Davis model LxT sound level meter.

### *Sensitive Receptors*

Certain land uses are particularly sensitive to noise and vibration. These uses include residences, schools, hospital facilities, houses of worship, and open space/recreation areas where quiet environments are necessary for the enjoyment, public health, and safety of the community. The nearest off-site sensitive receptors to the project site are the residences west and south along Alta Vista Avenue and Campo Street.

## Applicable Standards

### *California Building Code*

The State of California's noise insulation standards for nonresidential uses are codified in the California Code of Regulations, Title 24, Building Standards Administrative Code, Part 11, California Green Building Standards Code (CALGreen). CALGreen noise standards are applied to new or renovation construction projects in California to control interior noise levels resulting from exterior noise sources. Proposed projects may use either the prescriptive method (Section 5.507.4.1) or the performance method (Section 5.507.4.2) to show compliance. Under the prescriptive method, a project must demonstrate transmission loss ratings for the wall and roof-ceiling assemblies and exterior windows when located within a noise environment of 65 dBA CNEL or higher. Under the performance method, a project must demonstrate that interior noise levels do not exceed 50 dBA $L_{eq(1hr)}$.

### *City of Roseville Municipal Code*

Stationary sources of noise are governed under Roseville Municipal Code, Chapter 9.24, *Noise Regulation*. Section 9.24.100 states for non-transportation or fixed sound sources that no person shall, within the City, create any sound, radiated for extended periods from any premises that produces a sound pressure level at any point on the property in excess of 50 dBA $L_{eq}$ and 70 dBA $L_{max}$ during the daytime hours of 7:00 a.m. to 10:00 p.m. or 45 dBA $L_{eq}$ and 65 dBA $L_{max}$ during the nighttime hours of 10:00 p.m. to 7:00 a.m. It is unlawful for any person to create or allow the creation of any sound that exceeds these standards by more than 3 dBA or exceed the existing ambient sound by 3 dBA or more (whichever is greater). Lastly, the sound level standards shall be reduced by 5 dBA for simple tone noises, consisting of speech and music. However, in no case shall the sound level standard be lower than the ambient sound level plus 3 dBA.

Section 9.24.030 of the municipal code also exempts the following noise sources from the provisions of the municipal code.

- Sound sources typically associated with residential uses (e.g., children at play, air conditioning and similar equipment, but not including barking dogs).
- Sound sources associated with property maintenance (e.g., lawn mowers, edgers, blowers, pool pumps, power tools, etc.) provided such activities take place between the hours of 8:00 a.m. and 9:00 p.m.
- The normal operation of public and private schools typically consisting of classes and other school-sponsored activities.
- Private construction (e.g., construction, alteration, or repair activities) between the hours of 7:00 a.m. and 7:00 p.m. Monday through Friday, and between the hours of 8:00 a.m. and 8:00 p.m. Saturday and Sunday; provided, however, that all construction equipment shall be fitted with factory installed muffling devices and that all construction equipment shall be maintained in good working order.

### *Federal Transit Administration*

The City of Roseville does not have a quantified threshold for temporary construction noise and vibration. Therefore, to determine impact significance, the following Federal Transit Administration (FTA) criteria are used in this noise impact study.

A vibration or construction noise impact would occur if:

- Vibration levels would exceed 0.20 inches per second (in/sec) peak particle velocity (PPV) at the façade of a non-engineered structure (e.g., wood-frame residential).
- Project construction activities would generate noise levels greater than 80 dBA $L_{eq}$ at the sensitive receptor property line.

Where available, the significance criteria established by the applicable noise standards may be relied on to make the following determinations.

Would the project result in:

**a) Generation of a substantial temporary or permanent increase in ambient noise levels in the vicinity of the project in excess of standards established in the local general plan or noise ordinance, or applicable standards of other agencies?**

**Less Than Significant with Mitigation.** Following is a discussion of the temporary and permanent noise impacts as a result of the project's construction and operational phases.

## Construction Noise

The total duration for project construction is anticipated to be in two phases. Phase 1 would include demolition of the auxiliary gymnasium, which would be approximately three months, with a tentative start date of June 2024. Phase 2 will occur from March 2025 to December 2026 in two increments.

Overall construction is estimated to take approximately two years and six months, from June 2024 to December 2026. Two types of short-term noise impacts could occur during construction: (1) mobile-source noise from transport of workers, material deliveries, and debris and soil haul and (2) stationary-source noise from use of construction equipment.

### *Construction Vehicles*

The transport of workers and materials to and from the construction site would incrementally increase noise levels along site access roadways. Individual construction vehicle pass-bys may create momentary noise levels of up to approximately 85 dBA $L_{max}$ at 50 feet from the worker and vendor vehicles. However, these occurrences would generally be infrequent and last short periods of time.

Worker and vendor trips would range between approximately 15 and 45 daily trips during individual and overlapping construction phases. Haul truck trips would range between 1 and 316 trips a day. A maximum of 362 combined worker, vendor, and haul truck trips a day would occur during overlapping phases. Even though

the project-related traffic would increase the traffic volumes temporarily, the overall traffic volumes of up to 362 daily construction trips would not result in a doubling of traffic. Project construction trips would result in a temporary noise increase of less than 3 dBA CNEL, which would not be a substantial nor permanent noise increase. Therefore, construction-vehicle noise impacts would be considered less than significant, and no mitigation measures are necessary.

### *Construction Equipment*

Noise generated by on-site construction equipment is based on the type of equipment used, its location relative to sensitive receptors, and the timing and duration of noise-generating activities. Each stage of construction involves different kinds of equipment and has distinct noise characteristics. Noise levels from construction activities are typically dominated by the loudest equipment. The dominant equipment noise source is typically the engine, although work-piece noise (such as dropping of materials) can also be noticeable.

The noise produced at each construction stage is determined by combining the $L_{eq}$ contributions from each piece of equipment used at a given time, while accounting for the ongoing time-variations of noise emissions. Heavy equipment, such as a dozer or a loader, can have maximum, short-duration noise levels of up to 85 dBA at 50 feet. However, overall noise emissions vary considerably, depending on the specific activity performed at any given moment. Noise attenuation due to distance, the number and type of equipment, and the load and power requirements to accomplish tasks at each construction phase would result in different noise levels from construction activities at a given receptor. Since noise from construction equipment is intermittent and diminishes at a rate of at least 6 dBA per doubling of distance (conservatively ignoring other attenuation effects from air absorption, ground effects, and shielding effects), the average noise levels at noise-sensitive receptors could vary considerably, because mobile construction equipment would move around the site with different loads and power requirements.

Average noise levels from project-related construction activities are calculated by modeling the three loudest pieces of equipment per activity phase (e.g., demolition, site preparation, building construction). Equipment for each construction phase is modeled at spatially averaged distances (i.e., from the center of each activity to the property line of the nearest receptors) because the area around the center of construction activities best represents the potential average ($L_{eq}$) construction-related noise levels at the various sensitive receptors. Construction equipment for the phases are modeled from the closest project site to the sensitive receptors, respectively. Construction activity occurring at the location of the portable classrooms would be closest to the residences along Alta Vista Avenue, while construction activity at the location of the existing pool would be closest to the residences near Campo Street. Additionally, construction for the outdoor dining patio and quad extension would occur to the nearest residential properties along Sierra Boulevard to the northwest and residential properties to the south of Coronado Avenue.

The project's expected construction equipment mix was categorized by construction activity using the Federal Highway Administration (FHWA) Roadway Construction Noise Model (RCNM). The associated, aggregate sound levels—grouped by construction activity—are summarized in Table 11. RCNM input and output worksheets are included in Appendix C.

**Table 11 Project-Related Construction Noise by Activity Phase, dBA $L_{eq}$**

| Construction Activity Phase | RCNM Reference Noise Level | Residences Along Alta Vista Avenue | Residences Along Campo Street | Residences Along Sierra Boulevard | Residences Along Coronado Avenue |
|---|---|---|---|---|---|
| *Distance in feet from portable classroom location* | *50* | *75* | *340* | *280* | *780* |
| Building Demolition | 85 | **81** | 68 | 70 | 61 |
| Pavement Demolition | 84 | **80** | 67 | 69 | 60 |
| Site Preparation | 79 | 76 | 62 | 64 | 55 |
| Grading 1 | 82 | 78 | 65 | 67 | 58 |
| Grading 2 | 80 | 77 | 64 | 65 | 56 |
| Grading 3 | 81 | 77 | 64 | 66 | 57 |
| Building Construction | 79 | 76 | 62 | 64 | 55 |

| Building Construction | 79 | 62 | 70 | 72 | 69 |
| Paving | 83 | 66 | 74 | 76 | 73 |
| Architectural Coating | 74 | 57 | 65 | 67 | 64 |
| Finishing/Landscaping | 77 | 60 | 68 | 70 | 67 |
| Building Construction | 84 | 66 | 75 | 77 | 73 |
| Architectural Coating | 79 | 62 | 70 | 72 | 69 |
| Maximum dBA $L_{eq}$ | | 77 | **83** | 64 | --- |
| Exceed 80 $L_{eq}$ dBA Threshold? | | **Yes** | **Yes** | **No** | **No** |

Notes: Calculations performed with the FHWA RCNM software are included in Appendix C.
**Bold** = Exceeds FTA 80 dBA Leq Threshold.

As shown in Table 11, on-site construction-related noise levels would exceed the 80 dBA $L_{eq}$ threshold by 1 dBA during utility trenching activities at the nearest sensitive receptors west of the project site. As stated in Section 9.24.030, *Exemptions*, of the Roseville Municipal Code, all construction equipment shall be fitted with factory installed muffling devices. A study prepared for the US Department of Transportation found that improved muffling will generally lower the overall noise level by 1 to 3 dBA and in cases where a particular piece of equipment either does not have or has a very poor muffler, the application of a good muffler will reduce the overall noise by 6 to 12 dBA (Toth 1979). The construction equipment modeled is assumed to not have any mufflers or sound-attenuating devices installed. Therefore, the estimated noise levels are conservative. The project would comply with Section 9.24.030 of the Municipal Code and install factory muffling devices. By compliance, construction noise would be reduced by at least 6 dBA. Therefore, construction noise levels would be reduced to 75 dBA or less and impacts would be less than significant.

## Operational Noise

### *Mobile Noise*

A project will normally have a significant effect on the environment related to noise if it will substantially increase the ambient noise levels at adjoining areas. Most people can detect changes in sound levels of approximately 3 dBA under normal, quiet conditions, and changes of 1 to 3 dBA are detectable under quiet, controlled conditions. Changes of less than 1 dBA are usually indiscernible. A change of 5 dBA is readily discernible to most people in an exterior environment. Based on this, the following thresholds of significance, similar to those recommended by the Federal Aviation Administration, are used to assess traffic noise impacts at sensitive receptor locations. A significant impact would occur if traffic noise increase would exceed:

- 1.5 dBA in ambient noise environments of 65 dBA CNEL and higher.
- 3 dBA in ambient noise environments of 60 to 64 dBA CNEL.
- 5 dBA in ambient noise environments of less than 60 dBA CNEL.

As described in Section 3.17, *Transportation*, the proposed project would not generate a net increase in vehicle trips to and from the high school campus when compared to baseline conditions. Furthermore, the proposed project would relocate the pool that would be demolished in Phase 1 of construction with the replacement of the multi-story classroom, thereby removing a source of outdoor noise. The relocation of the pool would potentially decrease the number of users for the future project site. Therefore, operational noise from the proposed project would result in less-than-significant impacts.

### *Project-Related Stationary Noise*

#### ***Mechanical Equipment Noise***

Though Section 9.24.030 of the municipal code exempts air conditioning noise and noise from similar equipment, this is only exempt when associated with residential uses. Therefore, noise from potential heating, ventilation, and air conditioning (HVAC) equipment associated with the new school building is analyzed. Typical HVAC equipment generates noise levels ranging up to 72 dBA at a distance of 3 feet. To be conservative, it is assumed that HVAC equipment would be installed at the nearest edge of the building to sensitive receptors. The nearest residential property line to the new proposed building is approximately 50 feet to the west across

Campo Street. At this distance, noise levels would attenuate to 48 dBA. HVAC noise levels would potentially exceed the City's nighttime noise standards of 45 dBA for stationary noise sources. Therefore, impacts would be potentially significant. However, with Mitigation Measure NOI-1, HVAC noise would be reduced to a less-than-significant impact.

### Mitigation Measure

NOI-1 Mechanical equipment shall be selected and designed to meet the City's noise limits of 50 dBA $L_{eq}$ and 45 dBA $L_{eq}$ at residential uses during daytime and nighttime, respectively. A qualified acoustical consultant shall be retained to assist in selecting and reviewing mechanical noise specification to determine noise code compliance and/or identify specific noise reduction measures necessary to reduce mechanical noise to comply with the City's noise code. Noise reduction measures could include, but are not limited to:

- Selection of equipment that emits noise levels of 45 dBA or less at a distance of 50 feet.
- Installation of noise dampening techniques, such as enclosures and parapet walls, to block the line-of-sight between the noise source and the nearest receptors to reduce noise levels to 45 dBA or less.

**b) Generation of excessive groundborne vibration or groundborne noise levels?**

**Less Than Significant Impact with Mitigation.** Following is a discussion of the project's temporary and operational vibration impacts as a result of the project's construction and operational phases.

### Operational Vibration

Project operation would not include any substantial long-term vibration sources. Therefore, no significant vibration impacts would occur.

### Construction Vibration

Construction operations can generate varying degrees of ground vibration, depending on the construction procedures and equipment. Operation of construction equipment generates vibrations that spread through the ground and diminish with distance from the source. The effect on buildings in the vicinity of the construction site varies depending on soil type, ground strata, and receptor-building construction. The effects from vibration can range from no perceptible effects at the lowest vibration levels, to low rumbling sounds and perceptible vibrations at moderate levels, to slight structural damage at the highest levels. Vibration from construction activities rarely reaches the levels that can damage structures.

For reference, a vibration level of 0.20 in/sec PPV is used as the limit for non-engineered timber and masonry buildings, which would conservatively apply to the surrounding structures (FTA 2018). To determine potential vibration-induced architectural damage, the distance from the vibration source (construction equipment) to the vibration-sensitive receptors, which include nearby residences, are measured from the edge of the construction site to the nearest building façade. Vibration-induced architectural damage is assessed in terms of peak velocity (PPV). As shown in Table 12, PPV levels for typical construction equipment would exceed the 0.20 in/sec PPV

standard at the nearest vibration-sensitive receptors to the west and south of the project site as construction equipment could be located approximately 25 feet away from the façade of the nearby residences.

Paving and grading activities could occur within 25 feet of residences to the west along Alta Vista Avenue. As shown in Table 12, vibration from a vibratory roller could exceed 0.20 in/sec PPV at 25 feet along Alta Vista Avenue. Therefore, impacts would be potentially significant. However, with implementation of Mitigation Measure NOI-2, potential vibration damage impacts would be reduced to less than significant.

**Table 12 Vibration Damage Levels for Typical Construction Equipment**

| | PPV (in/sec) | | | | |
|---|---|---|---|---|---|
| Equipment | Reference Vibration levels at 25 feet | Residences along Alta Vista Avenue at 25 feet | Residences to the west along Campo Street at 50 feet | Residences to the northwest along Sierra Boulevard at 30 feet | Residences South along Coronado Avenue at 50 feet |
| Vibratory Roller[1] | **0.210** | **0.210** | 0.074 | 0.160 | 0.074 |
| Large Bulldozer[1] | 0.089 | 0.089 | 0.031 | 0.068 | 0.031 |
| Loaded Trucks[1] | 0.076 | 0.089 | 0.031 | 0.068 | 0.031 |
| Jackhammer[1] | 0.035 | 0.076 | 0.027 | 0.058 | 0.027 |
| Small Bulldozer (100 Horsepower or less)[1] | 0.003 | 0.035 | 0.012 | 0.027 | 0.012 |

[1] Source FTA 2018.
Bold = Exceeds FTA's 0.20 in/sec PPV vibration threshold.

Implementation of Mitigation Measure NOI-2 would reduce project-related construction vibration impacts to the surrounding residential receptors to a less-than-significant level. Specifically, use of a roller is estimated to generate vibration levels of approximately 0.21 in/sec PPV at a distance of 25 feet (FTA 2018). Earthwork equipment used for grading shall be limited to equipment with 100 horsepower or less, as detailed below.

### Mitigation Measure

NOI-2 Vibratory compaction for paving that is within 25 feet of any surrounding residential structure shall use a static roller in lieu of a vibratory roller. At a distance greater than 25 feet, a vibratory roller would no longer exceed 0.20 inches per second (in/sec) peak particle velocity (PPV) and would be allowed for use. Therefore, a static roller shall be used within 25 feet where levels would be reduced to 0.20 in/sec PPV or less and mitigate vibration damage. Grading, earthwork, and demolition activities within 15 feet of adjacent residential structures shall be conducted with off-road equipment that is limited to 100 horsepower or less.

**c) For a project in the vicinity of a private airstrip or an airport land use plan or, where such a plan has not been adopted, within two miles of a public airport or public use airport, would the project expose people residing or working in the project area to excessive noise levels?**

**No Impact.** The nearest airport to the project site is Sacramento McClellan Airport, approximately 7.9 miles southwest. The project would not expose people residing or working in the project area to excessive aircraft noise levels. Therefore, no impact would occur, and no mitigation measures are necessary.

## POPULATION AND HOUSING

Would the project:

**a) Induce substantial unplanned population growth in an area, either directly (for example, by proposing new homes and businesses) or indirectly (for example, through extension of roads or other infrastructure)?**

**No Impact.** The proposed project would result in no increase in student enrollment. It is expected that the students that would fill the new classrooms would be existing residents living in the District's service boundary, and the proposed project would not directly increase population growth in the area. No construction of homes or businesses is proposed, nor is extension of roads or other infrastructure required. Project implementation would not induce population growth and no impact would occur.

**b) Displace substantial numbers of existing people or housing, necessitating the construction of replacement housing elsewhere?**

**No Impact.** Project construction would be restricted to the existing campus, and no housing would be displaced or necessitate replacement housing. No impact would occur.

## PUBLIC SERVICES

Would the project result in substantial adverse physical impacts associated with the provision of new or physically altered governmental facilities, need for new or physically altered governmental facilities, the construction of which could cause significant environmental impacts, to maintain acceptable service ratios, response times, or other performance objectives for any of the public services:

**a) Fire protection?**

**Less Than Significant Impact.** Fire prevention, fire protection, and emergency medical services in the project area are provided by the Roseville Fire Department, which has eight fire stations in the city. The nearest fire station to the project site is Fire Station 1 at 80 Lincoln Street, 0.6 miles to the southwest. The proposed project may cause a very slight increase in demands for fire protection and emergency medical service. The proposed project would not increase the number of students on-site, and the site would continue to operate as a school. Both the City Fire Marshal and DSA would be required to approve fire access around the site. However, considering the existing firefighting resources available in and near the city, project impacts on fire protection and emergency services (including response times) are not expected to occur. Additionally, in the event of an emergency at the project site that required more resources than Fire Station 1 could provide, the Roseville Fire Department would direct resources to the site from other city stations nearby and, if needed, request assistance from other nearby fire departments. Therefore, impacts would be less than significant and no mitigation measures are necessary.

**b) Police protection?**

**Less Than Significant Impact.** Law enforcement services in the area are provided by the Roseville Police Department. The Roseville Police Department is headquartered at 1051 Junction Boulevard, approximately one mile to the west. The proposed project may cause a very slight increase in demands for police services during construction due to possible trespass, theft, and/or vandalism. Active construction areas would be fenced, and any increase in demand for police would be temporary and would not require construction of new or expanded police facilities. The student capacity of the proposed project would remain unchanged, and the site would continue to operate as a school. Additionally, in the event of an emergency at the project site that required more resources than the Roseville Police Department could provide, the Roseville Police Department would request assistance from other nearby police departments, such as the Rocklin Police Department. Therefore, impacts would be less than significant, and no mitigation measures are necessary.

**c) Schools?**

**No Impact.** School services are related to the size of the residential population, the geographic area served, and community characteristics. The proposed project would not increase the population in the attendance boundary or otherwise increase demand for school services. The proposed project would not result in changes in land use (e.g., housing) that would result in population growth or create a greater demand for school services. Therefore, no impact would occur, and no mitigation measures are necessary.

**d) Parks?**

**No Impact.** Impacts on public parks and recreational facilities are generally caused by population or employment growth. The proposed project would not increase population or significantly increase employment. The proposed project would not result in the increased demand for additional parks and recreation services either on-site or in the surrounding area. Therefore, physical impacts to parks and recreation from increased population growth would not occur. No impacts to parks would occur and no mitigation measures are necessary.

**e) Other public facilities?**

**No Impact.** The proposed project would not result in impacts associated with the provision of other new or physically altered public facilities (e.g., libraries, hospitals, childcare, teen, or senior centers). Physical impacts to public services are usually associated with population in-migration and growth, which increase the demand for public services and facilities. No new population would be generated by the proposed uses; therefore, no increased demand on other public facilities is anticipated. No impacts to other public facilities would occur and no mitigation measures are necessary.

## RECREATION

**a) Would the project increase the use of existing neighborhood and regional parks or other recreational facilities, such that substantial physical deterioration of the facility would occur or be accelerated?**

**No Impact.** The City of Roseville owns and manages several neighborhood parks, neighborhood/school parks, and citywide (regional) parks with a combined acreage of approximately 1,043 acres (City of Roseville 2020b). The City of Roseville has an adopted standard of nine acres of parkland per 1,000 residents and defines "parkland" to include public developed parks, recreational open space, and joint-use park-school facilities. The nine-acre standard is further divided into six acres of developed parks per 1,000 residents and three acres of open space per 1,000 residents—the same ratio specified in the Quimby Act for park land acquisition (City of Roseville 2020a). The project would not result in an increase in population. Therefore, the construction of new park space or other city recreational facilities would not be required. There would be no impact related to the physical deterioration of existing recreation parks or other recreational facilities.

**b) Does the project include recreational facilities or require the construction or expansion of recreational facilities, which might have an adverse physical effect on the environment?**

**No Impact.** The proposed project would not require the construction or expansion of off-site recreational facilities. Furthermore, the proposed project would neither increase population through construction of homes nor induce population growth that would require expanded recreational facilities; therefore, there is no impact.

## TRANSPORTATION

Would the project:

**a) Conflict with a program, plan, ordinance, or policy addressing the circulation system, including transit, roadway, bicycle, and pedestrian facilities?**

**No Impact.** The proposed project would not substantially change the site's vehicular, pedestrian, or bicycle access and on-site circulation system. The existing driveways on the north side of Tiger Way and the east side of Campo Street would continue to provide access to the campus for vehicles, bicycles, and pedestrians.

The proposed project would result in the construction of a new competition pool that will occupy the location of the existing parking lot adjacent to the football field and old auxiliary gymnasium. As such, the proposed project would result in minor modifications to the on-site circulation pattern. However, on-site circulation would not be impaired, and motorists would be able to navigate around the competition pool and continue to access the senior parking lot. Additionally, a total of 240 new parking spaces will be provided where the existing portables are located. These parking spaces would be accessible from the Campo Street driveway. Though the project would result in a decrease of 56 parking spaces in the parking lot where the proposed competition pool is located, the project would result in a net increase of 184 total parking spaces, which would still adequately accommodate the parking demands.

There would be no changes to pedestrian and circulation patterns because they would enter the campus via the Tiger Way or Campo Street driveways and proceed to their destination through the parking lot. The existing sidewalks along Campo Street, Berry Street, and the other streets in the area would continue to be used by pedestrians. Furthermore, the proposed project would not significantly affect any public transportation facilities or operation because the proposed project would result in no change to student capacity, and therefore, no change in public transit users.

In summary, the proposed project would not adversely affect traffic conditions on the study area street network or the internal circulation system, nor would it affect the performance of any transit or nonmotorized transportation facilities. The project would not conflict with a program, plan, ordinance, or policy addressing the circulation system, including transit, roadway, bicycle, and pedestrian facilities, and no mitigation measures would be required.

**b) Conflict or be inconsistent with CEQA Guidelines Section 15064.3, subdivision (b)?**

**No Impact.** Vehicle delays and levels of service (LOS) have historically been used as the basis for determining the significance of traffic impacts as standard practice in CEQA documents. On September 27, 2013, SB 743 was signed into law, starting a process that fundamentally changed transportation impact analyses as part of CEQA compliance. SB 743 eliminate auto delay, LOS, another similar measures of vehicular capacity or traffic congestion as the sole basis for determining significant impacts under CEQA. As part of the new CEQA Guidelines, the new criteria "shall promote the reduction of greenhouse gas emissions, the development of multimodal transportation networks, and a diversity of land uses" (Public Resources Code Section 21099(b)(1)).

Pursuant to SB 743, the California Natural Resources Agency adopted revisions to the CEQA Guidelines on December 28, 2018, to implement SB 743. CEQA Guidelines Section 15064.3 describes how transportation impacts are to be analyzed after SB 743. Under the revised CEQA Guidelines, metrics related to VMT were required beginning July 1, 2020, to evaluate the significance of transportation impacts under CEQA for development projects, land use plans, and transportation infrastructure projects. The State provided an "opt-in period" and did not require lead agencies to apply for a VMT metric until July 1, 2020. However, in January 2020, State courts stated that under the Public Resources Code Section 21099, subdivision (b)(2), "automobile delay, as described solely by LOS or similar measures of vehicular capacity or traffic congestion shall not be considered a significant impact on the environment" under CEQA, except for roadway capacity projects.

As stated in the "Technical Advisory on Evaluating Transportation Impacts in CEQA" (California Office or Planning and Research, December 2018) and the "Vehicle Miles Traveled – Focused Transportation Impact Study Guide (Caltrans, May 20, 2020), projects that generate or attract fewer than 110 trips per day generally may be assumed to cause a less-than-significant transportation impact and can be screened from a CEQA VMT analysis because they fall into the small project category.

While the proposed project would not result in an increase in the number of students at the project site, the traffic associated with students and staff would be traveling on the area's roadway network regardless of the status of the proposed project. The demand is generated by the number of eligible and age-appropriate students in the area and is not generated by the size of the school's buildings. As there would be no increase in traffic volumes and as the proposed project is well below the CEQA VMT threshold of 110 trips per day, the proposed

project can be screened from any further CEQA VMT analysis and would not result in a significant impact relative to VMT.

Therefore, the proposed project would have no VMT impacts and no significant impact would occur.

**c) Substantially increase hazards due to a geometric design feature (e.g., sharp curves or dangerous intersections) or incompatible uses (e.g., farm equipment)?**

**No Impact.** The proposed project would not substantially modify the on- or off-site access or circulation system. Access to the site for vehicles, bicyclists, and pedestrians would continue to occur via the existing driveways on the north side of Tiger Way and the east side of Campo Street. The streets, intersections, driveways, and on-site circulation system are designed to accommodate the anticipated levels of vehicular and pedestrian activity and have historically been accommodating school-related traffic on a daily basis. They would continue to be compatible with the design and operation of a school. As the proposed project would not result in any substantial modifications to the existing access or circulation features at the site or on the surrounding streets, there would be no impacts involving increased hazards due to a geometric design feature or incompatible uses.

**d) Result in inadequate emergency access?**

**No Impact.** The existing access and circulation features at the site, including the driveways, on-site circulation roads, parking lots, and fire lanes, would continue to accommodate emergency ingress and egress by fire trucks, police units, and ambulance/paramedic vehicles. The proposed project would not alter any emergency access features at the site. Emergency vehicles could easily access the new facilities and all other areas of the site via on-site travel corridors. The proposed project would not, therefore, result in inadequate emergency access. No impacts would occur, and no mitigation measures are necessary.

## TRIBAL CULTURAL RESOURCES

**a) Would the project cause a substantial adverse change in the significance of a tribal cultural resource, defined in Public Resources Code Section 21074 as either a site, feature, place, or cultural landscape that is geographically defined in terms of the size and scope of the landscape, sacred place, or object with cultural value to a California Native American tribe, and that is:**

**i) Listed or eligible for listing in the California Register of Historical Resources, or in a local register of historical resources as defined in Public Resources Code Section 5020.1(k).**

**Less Than Significant Impact With Mitigation Incorporated.** The project site is not listed or eligible for listing in the California Register of Historical Resources or in a local register of historical resources, as defined in PRC Section 5020.1(k). As discussed in Section 3.5, *Cultural Resources*, the potential to discover an unknown tribal cultural resource on the project site is unlikely given the developed nature of the site and archaeological records. If any tribal cultural resource is found during ground-disturbing activities, construction will be halted, and Mitigation Measure CUL-1 and Mitigation Measure TCR-1 shall be implemented as necessary. As the property has been previously disturbed, it is not anticipated that unknown tribal cultural resources are present on-site. Impacts would be less with implementation of mitigation.

### Mitigation Measure

TCR-1 If any suspected tribal cultural resources (TCRs) are discovered during ground-disturbing construction activities, all work shall cease within 100 feet of the find, or an agreed-upon distance based on the project area and nature of the find. A Tribal Representative from a California Native American tribe that is traditionally and culturally affiliated with a geographic area shall be immediately notified and shall determine if the find is a TCR (PRC Section 21074). The Tribal Representative will make recommendations for further evaluation and treatment as necessary.

When avoidance is infeasible, preservation in place is the preferred option for mitigation of TCRs under the California Environmental Quality Act (CEQA) and tribal protocols, and every effort shall be made to preserve the resources in place, including through project redesign, if feasible. Culturally appropriate treatment may be, but is not limited to, processing materials for reburial, minimizing handling of cultural objects, leaving objects in place within the landscape, or returning objects to a location in the project area where they will not be subject to future impacts. Permanent curation of TCRs will not take place unless approved in writing by the California Native American tribe that is traditionally and culturally affiliated with the project area.

The contractor shall implement any measures deemed by the CEQA lead agency to be necessary and feasible to preserve in place, avoid, or minimize impacts to the resource, including, but not limited to, facilitating the appropriate tribal treatment of the find, as necessary. Treatment that preserves or restores the cultural character and integrity of a TCR may include tribal monitoring, culturally appropriate recovery of cultural objects, and reburial of cultural objects or cultural soil.

Work at the discovery location cannot resume until all necessary investigation and evaluation of the discovery under the requirements of the CEQA, including Assembly Bill 52, have been satisfied.

**ii) A resource determined by the lead agency, in its discretion and supported by substantial evidence, to be significant pursuant to criteria set forth in subdivision (c) of Public Resources Code Section 5024.1. In applying the criteria set forth in subdivision (c) of Public Resource Code Section 5024.1, the lead agency shall consider the significance of the resource to a California Native American tribe.**

**Less Than Significant Impact With Mitigation Incorporated.** As of July 1, 2015, PRC Sections 21080.1, 21080.3.1, and 21080.3.2 require public agencies to consult with California Native American tribes recognized by the NAHC for the purpose of mitigating impacts to tribal cultural resources. This law does not preclude agencies from initiating consultation with the tribes that are culturally and traditionally affiliated with their jurisdictions.

In accordance with PRC Section 21080.1(d), a lead agency is required to provide formal notification of intended development projects to Native American tribes that have requested to be on the lead agency's list for receiving such notification. The formal notification is required to include a brief description of the proposed project and its location, lead agency contact information, and a notification that the California Native American tribe has 30 days to request consultation for tribal cultural resources. The following tribes are on the District's notification list pursuant to AB 52:

- Shingle Springs Band of Miwok Indians
- Tsi Akim Maidu
- United Auburn Indian Community of the Auburn Rancheria
- Wilton Rancheria
- Colfax-Todds Valley Consolidated Tribe
- Nevada City Rancheria Nisenan Tribe

As of the time of the publication of this MND no tribes have contacted the District, and as such, no consultation has been initiated. No evidence or readily available records exist to indicate that TCRs were identified during prior disturbance and development of the project site, and it is unlikely that any such resources would be uncovered or affected during project-related grading and construction activities. If any TCR is found during ground-disturbing activities, construction will be halted, Mitigation Measure CUL-1 and Mitigation Measure TCR-1 shall be implemented as necessary. As the property has been previously disturbed, it is not anticipated that unknown TCRs are present on-site. Impacts would be less than significant with implementation of mitigation.

## UTILITIES AND SERVICE SYSTEMS

Would the project:

**a) Require or result in the relocation or construction of new or expanded water, wastewater treatment or stormwater drainage, electric power, natural gas, or telecommunications facilities, the construction or relocation of which could cause significant environmental effects?**

**Less Than Significant Impact.**

### Water Treatment Facilities

The City of Roseville would provide potable water to the project site. The City has three sources of water supply: surface water, groundwater, and recycled water for irrigation. The City obtains its primary water supply from the Federal Central Valley Project, owned and operated by the United States Bureau of Reclamation (USBR), of which Folsom Lake is a part. This is achieved through a contract with the USBR, which ensures water from Folsom Lake in perpetuity. In addition to USBR water supplies, the City has contracts with the Placer County Water Agency and the San Juan Water District for additional water supply to the City for municipal and industrial purposes (City of Roseville 2020a). The City currently has contracts for up to 66,000 acre-feet of American River water supplies diverted from the Folsom Reservoir. The City currently has six groundwater wells. The City treats wastewater at its Dry Creek Wastewater Treatment Plant and Pleasant Grove

Wastewater Treatment Plant. Recycled water is used by the City for landscape irrigation, golf course irrigation, construction uses, and to provide cooling water for the Roseville Energy Park (City of Roseville 2020b).

The project site has an existing connection to the water distribution system operated by the City of Roseville. Water use at the project site includes the irrigation system; fire protection; and drinking water, restroom, and housekeeping appliances. The proposed project would not increase student capacity; therefore, the overall demand for water treatment would not increase. Additionally, the City of Roseville estimates it will have sufficient water supplies to meet proposed growth for normal years; water supply deficit may occur in single-dry years and some multiple-dry years. However, according to the City of Roseville 2020 Urban Water Management Plan, remaining deficits will be mitigated by potable water conservation measures implemented as part of the Water Shortage Contingency Plan (City of Roseville 2022). The proposed project would not require the relocation or construction of new or expanded water treatment facilities. Therefore, impacts would be less than significant, and no mitigation measures are necessary.

### Wastewater Treatment Facilities

The project site has an existing connection to the wastewater collection and treatment system owned and operated by the City of Roseville. The proposed project would be served by this system and would not require the relocation or construction of new or expanded wastewater treatment facilities. Therefore, impacts would be less than significant, and no mitigation measures are necessary.

### Stormwater Drainage Facilities

See response to question 3.10.c.iii in Section 3.10, *Hydrology and Water Quality*. As substantiated in that section, impacts would be less than significant, and no mitigation measures are necessary.

### Electricity Facilities

Electrical needs to the project site would be provided by the Pacific Gas and Electric Company (PG&E) via existing infrastructure in the immediate area of the project site. Uses of electricity under the proposed project would include indoor lighting, office appliances, perimeter lighting, and security systems. All utility connections to the proposed project would be required to comply with applicable federal, state, and local regulations. Therefore, relocation and expansion of existing facilities and construction of new facilities would not be required. Impacts would be less than significant, and no mitigation measures are necessary.

### Natural Gas Facilities

Natural gas to the project site would also be provided by PG&E via existing infrastructure in the immediate area of the project site. Use of natural gas under the proposed project would include HVAC systems and hot water heaters. Total natural gas supplies available to PG&E are forecast to remain constant at 3,116 million cubic feet per day (MMCF/day) from 2020 through 2035 (CGEU 2022).

PG&E projects that it will have sufficient supplies to meet the demands in its service area. Therefore, the proposed project's natural gas demand is within PG&E's forecast increase, and the proposed project would not require PG&E to obtain new or expanded natural gas supplies. Impacts would be less than significant, and no mitigation measures are necessary.

### Telecommunication Facilities

Various private services, including AT&T, provide telecommunication services to the city, including the project site. No changes to telecommunication facilities would occur. Therefore, project development would not require the construction of new or expanded telecommunication facilities. Impacts would be less than significant, and no mitigation measures are necessary.

**b) Have sufficient water supplies available to serve the project and reasonably foreseeable future development during normal, dry, and multiple dry years?**

**Less Than Significant Impact.** As substantiated above in Section 3.19.a, the City of Roseville will have adequate water supplies to meet water demands in its service area through 2045 during normal years; water supply deficit may occur in single dry years and some multiple dry years. However, according to the City of Roseville 2020 Urban Water Management Plan, remaining deficits will be mitigated by potable water conservation measures implemented as part of the Water Shortage Contingency Plan (City of Roseville 2022). Additionally, the proposed project's landscaping would be required to comply with California's Model Water Efficient Landscape Ordinance, which sets landscape design standards for water-efficient landscaping. Therefore, impacts on water supplies due to project development would be less than significant and no mitigation measures are necessary.

**c) Result in a determination by the wastewater treatment provider, which serves or may serve the project that it has adequate capacity to serve the project's projected demand in addition to the provider's existing commitments?**

**Less Than Significant Impact.** As substantiated in Section 3.19.a, the proposed project would result in no change to student capacity; therefore, it is anticipated that the wastewater facilities would continue to have adequate capacity to serve the proposed project. Therefore, impacts would be less than significant.

**d) Generate solid waste in excess of state or local standards, or in excess of the capacity of local infrastructure, or otherwise impair the attainment of solid waste reduction goals?**

**Less Than Significant Impact.** Solid waste is transported to the Western Placer Waste Management Authority's Western Regional Sanitary Landfill at 3195 Athens Road in unincorporated Placer County; this landfill serves the western portion of the county, including Roseville. Most of the solid waste generated in the city is first transported to the material recovery facility at the landfill. The material recovery facility separates and recovers waste products for recycling, reuse, or conversion to energy resources.

In 2019, 98.8 percent of solid waste generated in the city was disposed of at the Western Regional Sanitary Landfill (CalRecycle 2019a). The landfill is permitted to received 1,900 tons of solid waste per day and has a remaining capacity of 29,093,819 tons (CalRecycle 2019b).5 Project operation is estimated to generate 0.007 pound per square feet per day, resulting in 2,269 pounds per day or 1.13 tons per day (Cal Recycle 2019c). The proposed project would result in a negligible increase in solid waste. There is adequate landfill capacity in the region for project-generated solid waste, and project development would not require new or expanded landfills. Therefore, impacts to solid waste would be less than significant, and no mitigation measures are necessary.

**e) Comply with federal, state, and local management and reduction statutes and regulations related to solid waste?**

**Less Than Significant Impact.** The following laws and regulations govern solid waste disposal:

- **AB 939 (Chapter 1095, Statutes of 1989).** The California Integrated Waste Management Act of 1989 required each city, county, and regional agency to develop a source reduction and recycling element of an integrated waste management plan that contained specified components, including a source reduction component, a recycling component, and a composting component. With certain exceptions, the source reduction and recycling components were required to divert 50 percent of all solid waste from landfill disposal or transformation by January 1, 2000, through source reduction, recycling, and composting.
- **AB 32 (Chapter 488, Statutes of 2006).** The California Global Warming Solutions Act established mandatory recycling as one of the measures to reduce GHG emissions and was adopted in the Scoping Plan by CARB.
- **AB 1327.** The California Solid Waste Reuse and Recycling Access Act of 1991 requires local agencies to adopt ordinances mandating the use of recyclable materials in development projects.

Project-related construction and operation phases would be implemented in accordance with all applicable federal, state, and local laws and regulations that govern solid waste disposal. Therefore, impacts would be less than significant, and no mitigation measures are necessary.

## WILDFIRE

If located in or near state responsibility areas or lands classified as very high FHSZs, would the project:

**a) Substantially impair an adopted emergency response plan or emergency evacuation plan?**

**Less Than Significant Impact.** California Government Code Chapter 6.8 directs CAL FIRE to identify areas of very high fire hazard severity in State Responsibility Areas (SRA). Mapping of these very high FHSZs is based on data and models of potential fuels over a 30- to 50-year time horizon and their expected fire behavior and burn probabilities, which quantify the likelihood and nature of vegetation fire exposure to buildings. SRA FHSZ maps were initially developed in the mid-1990s and are now being updated based on improved science,

[5] A volume-to-weight conversion rate of 2,000 lbs./cubic yard (1 ton/cubic yard) for "Compacted - MSW Large Landfill with Best Management Practices" is used as per CalRecycle's 2016 volume-to-weight conversion factors.

mapping techniques, and data. In 2008, the California Building Standards Commission adopted CBC Chapter 7A requiring new buildings in FHSZs to use ignition-resistant construction methods and materials.

The project site is not in a very high FHSZ (CAL FIRE 2024). Development on the project site would be subject to compliance with the 2022 CBC. Roseville is covered under the City of Roseville Emergency Operations Plan and the City of Roseville Multi-Hazard Mitigation Plan. These plans provide guidance to effectively respond to any emergency, including wildfires. In addition, all proposed construction is required to meet minimum standards for fire safety. Implementation of these plans and policies in conjunction with compliance with the CFC would minimize the risk of loss due to wildfires.

Furthermore, the proposed project would not conflict with adopted emergency response or evacuation plans. The surrounding roadways would continue to provide emergency access to the project site and surroundings during construction and postconstruction. In addition, as with all projects in Roseville, conformance with the CBC and CFC would be required. Therefore, impacts are considered less than significant.

**b) Due to slope, prevailing winds, and other factors, would wildfire risks be exacrbated, and thereby expose project occupants to pollutant concentrations from a wildfire or the uncontrolled spread of a wildfire?**

**Less Than Significant Impact.** There are three primary factors used in assessing wildfire hazards—topography, weather, and fuel. The project site is relatively flat and is in a predominantly urbanized environment. The city does not have high-speed prevailing winds, and average wind speeds are approximately 6 miles per hour during the windier part of the year, from May to September (Weather Spark 2024). The proposed project would not impact weather or topography.

At project completion, the site would include pervious and impervious surfaces. According to CAL FIRE, the project site is not in a very high FHSZ (CAL FIRE 2024). Additionally, development on the project site would be subject to compliance with the CBC and under the City of Roseville Multi-Hazard Mitigation Plan, which provides guidance to effectively respond to and mitigate emergencies, including wildfires. Therefore, the project and site conditions would not contribute to an increase in exposure to wildfire risk. Impacts would be less than significant.

**c) Require the installation or maintenance of associated infrastructure (such as roads, fuel breaks, emergency water sources, power lines or other utilities) that may exacerbate fire risk or that may result in temporary or ongoing impacts to the environment?**

**Less Than Significant Impact.** The project site would require expansion of connection to utilities such as electricity, water, and sewer. The project applicant is required to pay for connections and maintenance of on-site utility infrastructure. The utilities would be installed to meet service requirements. The project site is not within a VHFHSZ and the construction of infrastructure improvements for the project would not directly increase fire risk. Impacts would be less than significant.

**d) Expose people or structures to significant risks, including downslope or downstream flooding or landslides, as a result of runoff, post-fire slope instability, or drainage changes?**

**Less Than Significant Impact.** As discussed in Sections 3.7 and 3.10 respectively, the project site is not in a landslide hazard area or a floodplain. Historical geographic mapping does not show any flooding or safety concerns caused by the drainage. Construction activities related to the proposed project would be subject to compliance with the CBC and would include BMPs. BMPs may include, but are not limited to, covering of the soil, use of a dust-inhibiting material, landscaping, use of straw and jute, hydroseeding, and grading. Therefore, with implementation of BMPs, impacts are less than significant.

## MANDATORY FINDINGS OF SIGNIFICANCE

**a) Does the project have the potential to substantially degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, substantially reduce the number, or restrict the range of a rare or endangered plant or animal or eliminate important examples of the major periods of California history or prehistory?**

**Less Than Significant Impact With Mitigation Incorporated.** As substantiated in Section 3.4, *Biological Resources*, tree or vegetation removal would be required for the proposed project; therefore, the project could result in direct impacts on special-status wildlife during construction. However, compliance with Mitigation Measures BIO-1 and BIO-2 would ensure that impacts to biological resources do not occur.

As substantiated in Section 3.5, *Cultural Resources*, no historic resources were identified on-site and, therefore, the project site does not have the potential to eliminate important examples of California history or prehistory. Because the property has been previously disturbed, it is not anticipated that unknown tribal cultural resources are present on-site. However, compliance with Mitigation Measure CUL-1 would ensure that impacts to archaeological resources do not occur.

As substantiated in Section 3.7, *Geology and Soils*, the proposed project would require limited grading and other ground-disturbing construction activities to accommodate the construction of the proposed project and utility requirements. Due to the ground disturbance associated with construction, there is potential that natural landform beneath the site would be encountered during construction and that subsurface resources and/or paleontological resources would be discovered. However, compliance with Mitigation Measure GEO-1 would ensure that impacts to paleontological resources do not occur.

As substantiated in Section 3.18, *Tribal Cultural Resources*, the project site is not listed or eligible for listing in the California Register of Historical Resources or in a local register of historical resources as defined in PRC Section 5020.1(k). Because the property has been previously disturbed, it is not anticipated that unknown TCRs are present on-site. However, compliance with Mitigation Measure CUL-1 and Mitigation Measure TCR-1 would ensure that impacts to archaeological resources do not occur.

**b) Does the project have impacts that are individually limited, but cumulatively considerable? ("Cumulatively considerable" means that the incremental effects of a project are considerable when viewed in connection with the effects of past projects, the effects of other current projects, and the effects of probable future projects.)**

**Less Than Significant Impact.** The issues relevant to project development are confined to the immediate project site and surrounding area. Additionally, the project site is in an area of the city where supporting utility infrastructure (e.g., water, wastewater, electricity, natural gas, and drainage) and services (e.g., solid waste collection) currently exist. Project implementation would not require the construction of new or expansion of existing utility infrastructure and services.

Furthermore, impacts related to other topical areas, such as air quality, GHG, hydrology and water quality, and traffic, would not be cumulatively considerable with development of the project in conjunction with other cumulative projects. In consideration of the preceding factors, the project's contribution to cumulative impacts would be rendered less than significant; therefore, project impacts would not be cumulatively considerable.

**c) Does the project have environmental effects, which will cause substantial adverse effects on human beings, either directly or indirectly?**

**Less Than Significant Impact.** As discussed in the respective topical sections of this IS/MND, implementation of the proposed project would not result in significant impacts in the areas of GHG, geology and soils, hazards and hazardous materials, hydrology and water quality, noise, or wildfire, which may cause adverse effects on human beings. Therefore, impacts related to these environmental effects were deemed to be less than significant with applicable mitigation.

# Memorandum

**To:** Jack Varozza, P.E., QSD/P
Senior Engineer, City of Roseville

**From:** Stephen Dillon, P.E.

***Re:*** ***Campo Street Abandonment***
Traffic Evaluation
Roseville, California

**Date:** July 31, 2025

The purpose of this memorandum is to document the transportation analysis completed for the Campo Street Abandonment (the "proposed project" or "project") located within the existing Roseville High School ("RHS") campus, between Coronado Avenue and Sierra Boulevard, in Roseville, California. This memorandum evaluates the weekday AM (drop-off) and School-PM (pick-up) peak-hours under Existing (2025) conditions.

The primary conclusions from this evaluation are as follows:

- The project, which would have the effect of diverting extracurricular event (i.e. Roseville High School football game) traffic from Campo Street to the adjacent neighborhood network, is not anticipated to significantly alter the adjacent roadways' typical existing daily operations.
- The existing drop-off/pick-up pattern along Alta Vista Avenue, Sierra Boulevard, Las Flores Avenue, and Coronado Avenue presents a variety of driver behaviors, including parking in bike lanes and u-turns.
- Prevailing vehicle speeds along Sierra Boulevard currently exceed the posted 30 MPH speed limit.
- As an outcome of this evaluation, we recommend that the Roseville Joint Union High School District, in coordination with the City of Roseville, develop a plan for targeted enforcement intended to address existing driver behavior within the Historic Sierra Vista community proximate to RHS, independent of the project.

## Project Understanding

Kimley-Horn understands that the Roseville Joint Union High School District ("RJUHSD", "School District", or "District") is proposing that the City of Roseville (the "City") abandon the existing segment of Campo Street between Coronado Avenue and Sierra Boulevard and relinquish the facility to the School District (**Exhibit 1**). The project segment of Campo Street is understood[1] and observed to already be closed to through traffic on weekdays during Roseville High School operating hours. The project segment is open to through traffic outside of Roseville High School operating hours. This traffic evaluation has been requested in response to the following concerns/comments provided by the proximate Historic Sierra Vista community regarding the project:

- The project will increase traffic volumes on Sierra Boulevard, Las Flores Avenue, and Alta Vista Avenue without Campo Street
- The project will contribute to increased traffic speeds on Sierra Boulevard, Las Flores Avenue, and Alta Vista Avenue without Campo Street
- The project will affect drop-off/pick-up operations at the Alta Vista Avenue and Sierra Boulevard intersection

[1] Email correspondence with Jack Varozza, City of Roseville, December 4, 2024.

Kimley»Horn

The primary purposes of this analysis are to evaluate the potential effects of the proposed project on traffic operations along Sierra Boulevard, Las Flores Avenue, and Alta Vista Avenue, and on drop-off/pick-up operations at the Alta Vista Avenue and Sierra Boulevard intersection.

## Data Collection

Kimley-Horn manually collected (via traffic count subconsultant) daily directional roadway segment traffic counts on Tuesday, March 18, 2025, to establish directional weekday roadway segment traffic volumes at the following study segments (**Exhibit 1**):

1. Campo Street, between Coronado Avenue and Sierra Boulevard
2. Las Flores Avenue, between Coronado Avenue and Sierra Boulevard
3. Las Flores Avenue, between Alta Vista Avenue and Sierra Boulevard
4. Sierra Boulevard, between Sequoia Street and Mariposa Street (includes speed data)
5. Sierra Boulevard, between Las Flores Avenue and Alta Vista Avenue
6. Alta Vista Avenue, between Las Flores Avenue and Sierra Boulevard (includes speed data)
7. Campo Street, north of Sierra Boulevard

The following data was collected from the City[2] to aid in completing this evaluation:

- 2024 Roseville High School football game ticket data (**Attachment A**)

Kimley-Horn completed a field visit on Tuesday, March 18, 2025, to observe study facility lane configurations, vehicle storage lengths, existing traffic control, speed limits, lane utilization, pedestrian activity, and other readily apparent features relevant to the Scope of Services. The field visit included observations between 8-9 AM and 2:45-3:45 PM regarding drop-off and pick-up operations, trip distribution, vehicle dwell times, vehicle occupancy, and parking behavior that could be anticipated to translate to the proposed project condition.

## Assessment of Proposed Project

*Evening Event Scenario*

A reasonably anticipated evening event scenario was established using 2024 Roseville High School football ticket data (including home and visitor fan splits) provided by the City[2]. The ticket data was supplemented with vehicle occupancy data from FHWA[3] to approximate the number of vehicles a typical game night might generate based on the number of home and visitor fans attending the event. Additional assumptions were made regarding the percentages of home and visitor fans who could be expected to overlap in attending both the Junior Varsity (JV) and Varsity football games which are understood to occur on the same evening. The anticipated number of vehicles produced by a typical football event and relevant assumptions are summarized in **Table 1**.

*Trip Distribution*

Directional roadway segment counts were used to establish a general distribution of trips accessing the high school parking lot located north of Sierra Boulevard. Directional roadway segment counts between 8:00-8:30 AM were supplemented by observed vehicle turning movements at the intersection of Las Flores Avenue and Sierra Boulevard between 8:10-8:30 AM on Tuesday, March 18, 2025. This data establishes a directional pattern of high school-bound trips during the peak-period for students arriving on campus. The distribution of trips was developed based on AM observations as it is assumed that all trips accessing the high school during this period will be traveling from "home."

Table 1 – Football Event Vehicle Generation

| | | | | Estimated Event Vehicles | | | | |
|---|---|---|---|---|---|---|---|---|
| Maximum 2024 Attendance* | Home %* | Home Fans | Home Vehicle Occupancy** | Possible Home | Home JV (35%) | JV:Varsity Overlap (40%) | Home Varsity (65%) | Total Home |
| 1,550 | 65% | 1,007 | 2.8 | 360 | 126 | -50 | 234 | 310 |
| | Visitor %* | Visitor Fans | Visitor Vehicle Occupancy** | Possible Visitor | Visitor JV (20%) | JV:Varsity Overlap (80%) | Visitor Varsity (80%) | Total Visitor |
| | 35% | 543 | 2.2 | 247 | 49 | -39 | 198 | 208 |

*Attendance data provided by City of Roseville and RJUHSD

**Event Vehicle Occupancy data provided by FHWA

Directional roadway segment counts were also used to establish a distribution of trips leaving the high school from the high school parking lot located north of Sierra Boulevard. Directional roadway segment counts between 2:45-3:30 PM were used to consider a directional egress pattern from the high school during the peak-period for students leaving campus. While the PM distribution is a useful reference point, it presents more variance than the AM distribution as not all trips leaving the high school during the PM peak can be assumed to travel "home." As such, it is expected that the AM peak-period home-based trip behavior would be generally consistent with inbound and outbound travel patterns for events occurring outside of Roseville High School operating hours.

As the traffic counts were gathered and observed while the Campo Street project segment was temporarily closed to vehicle traffic during the high school day, it is reasonably assumed that the same distribution will generally apply should Campo Street be permanently closed. Thus, it is reasonable to assume that home fan football game attendees would follow a trip distribution comparable to the one identified for the Weekday AM peak period. It is also assumed that visitor fans may be more widely distributed across the local network depending on their origins. The project trip distribution for home and visitor fans is provided in Exhibit 2.

## Study Facilities and Analysis Methodology

A roadway segment operations analysis (volume thresholds) was conducted for a weekday for the following scenarios:

A. Existing (2025) Conditions
B. Existing (2025) plus Project Conditions

The roadway segment analysis was completed for the following roadway segments:

1. Campo Street, between Coronado Avenue and Sierra Boulevard
2. Las Flores Avenue, between Coronado Avenue and Sierra Boulevard
3. Las Flores Avenue, between Alta Vista Avenue and Sierra Boulevard
4. Sierra Boulevard, between Sequoia Street and Mariposa Street
5. Sierra Boulevard, between Las Flores Avenue and Alta Vista Avenue
6. Alta Vista Avenue, between Las Flores Avenue and Sierra Boulevard

*Level of Service (LOS) Definitions*

The LOS of a facility is a qualitative measure used to describe operational conditions. LOS ranges from A, which represents minimal delay, to F, which represents heavy delay and a facility that is operating at or near its functional capacity.

Kimley»Horn

Roadway segment Levels of Service for this study were determined using daily traffic volumes. In the absence of comparable references from the City or Placer County, roadway segment volume thresholds from Sacramento County[4] were used to provide a planning level assessment of the project study facilities. The study facility roadways are classified as "Residential collector with frontage." Table 2 presents roadway segment LOS thresholds as classified by facility type.

Table 2 – Roadway Segment Level of Service Criteria

| Facility Type | # of Lanes | Maximum Volume for Given Service Level | | | | |
|---|---|---|---|---|---|---|
| | | LOS A | LOS B | LOS C | LOS D | LOS E |
| Residential | 2 | 600 | 1,200 | 2,000 | 3,000 | 4,500 |
| Residential collector with frontage | 2 | 1,600 | 3,200 | 4,800 | 6,400 | 8,000 |
| Residential collector without frontage | 2 | 6,000 | 7,000 | 8,000 | 9,000 | 10,000 |

Source: *Transportation Analysis Guidelines* , County of Sacramento, September 10, 2020.

Daily operations were determined for the scenarios listed above. Exhibit 3 shows weekday volumes under Existing (2025) and Existing (2025) plus Project conditions. Study facility traffic count data sheets are provided in Attachment B.

## Analysis Results

*Existing Drop-off/Pick-up Operations*

The analysis documented existing neighborhood circulation on Tuesday, March 18, 2025, surrounding drop-off and pick-up activities within the Historic Sierra Vista community during a typical weekday with Roseville High School classes in session. The existing circulation conditions were observed as follows:

Drop-off

- The peak period was observed to be from approximately 8:10 to 8:25 AM. The neighborhood was significantly less busy after 8:35 AM.
- Seven (7) drop-offs were observed within the immediate vicinity of the Alta Vista Avenue and Sierra Boulevard intersection.
- Four (4) vehicles made u-turns on Sierra Boulevard in advance of Alta Vista Avenue after dropping off students.
- Most vehicles passing through the Sierra Boulevard and Alta Vista Avenue intersection appeared to be students destined for the parking area behind Roseville High School.
- 26 drop-offs were observed on the segment of Las Flores Avenue between Sierra Boulevard and Coronado Avenue.
- Five (5) vehicles made u-turns on Las Flores Avenue between Sierra Boulevard and Coronado Avenue.

[4] *Transportation Analysis Guidelines*, County of Sacramento, September 10, 2020.

Kimley»Horn

Pick-up

- The peak period was observed to be from approximately 3:15 to 3:35 PM.
- Vehicles started queueing along the Alta Vista Avenue curbs at 2:50 PM.
- Vehicles started queueing along the Las Flores Avenue curbs at 3:15 PM.
- Traffic within the neighborhood is predominantly inflow to the parking area behind Roseville High School until 3:20 PM.
- Six (6) vehicles were observed queueing within the bike lane along the south side of Sierra Boulevard between Las Flores Avenue and Alta Vista Avenue from 3:06 and 3:23 PM.
- The local pattern was observed to shift to predominantly egressing students/vehicles around 3:25 PM.
- The north and south sides of Sierra Boulevard between Las Flores Avenue and Alta Vista Avenue are popular pick-up locations.
- 15 U-turns were observed on Sierra Boulevard between Las Flores Avenue and Alta Vista Avenue.
- Las Flores Avenue between Sierra Boulevard and Coronado Avenue is a popular pick-up location.

*Roadway Segment Operations*

The analysis evaluated the potential effects of rerouted event traffic from the project on local roadway operations within the Historic Sierra Vista community. "Plus Project" roadway segment performance was evaluated by layering rerouted event trips established in **Table 1** on top of typical weekday traffic volumes according to the established trip distribution. **Table 3** summarizes the neighborhood roadway segment Level of Service under Existing (2025) and Existing (2025) plus Project conditions

**Table 3** – Neighborhood Roadway Segment LOS

| ID | Location | Facility Type | # of Lanes | Existing (2025) | | Existing (2025) plus Project | |
|---|---|---|---|---|---|---|---|
| | | | | Daily Volume | LOS | Daily Volume | LOS |
| 1 | Campo Street, between Coronado Avenue and Sierra Boulevard | Residential collector with frontage | 2 | 1,934 | B | 2,141 | B |
| 2 | Las Flores Avenue, between Coronado Avenue and Sierra Boulevard | Residential collector with frontage | 2 | 1,215 | A | 1,422 | A |
| 3 | Las Flores Avenue, between Alta Vista Avenue and Sierra Boulevard | Residential collector with frontage | 2 | 473 | A | 473 | A |
| 4 | Sierra Boulevard, between Sequioa Street and Mariposa Street | Residential collector with frontage | 2 | 1,632 | B | 2,098 | B |
| 5 | Sierra Boulevard, between Las Flores Avenue and Alta Vista Avenue | Residential collector with frontage | 2 | 1,083 | A | 1,756 | B |
| 6 | Alta Vista Avenue, between Las Flores Avenue and Sierra Boulevard | Residential collector with frontage | 2 | 624 | A | 987 | A |

As indicated in **Table 3**, the study roadway segments operate at LOS A and LOS B in the Existing (2025) and Existing (2025) plus Project scenarios. All roadway segments exhibit sufficient capacity to accommodate the additional vehicles that would be reasonably anticipated during an evening after-school event without access to Campo Street between Sierra Boulevard and Las Flores Avenue.

Kimley»Horn

*Roadway Segment Speeds*

The traffic data collected on Tuesday, March 18, 2025, captured directional vehicle speed data for the following roadway segments:

- Sierra Boulevard, between Sequoia Street and Mariposa Street
- Alta Vista Avenue, between Las Flores Avenue and Sierra Boulevard

The observed posted speed limit along Sierra Boulevard was 30 MPH. **Table 4** presents the Average, Prevailing (85th-percentile), and 95th-percentile documented speeds for each roadway segment. Rerouted event traffic related to the project would not be anticipated to significantly alter the existing condition.

**Table 4** – Roadway Segment Speeds

| ID | Location | Posted Speed (MPH) | Average Speed (MPH) | 85th % Speed (MPH) | 95th % Speed (MPH) |
|---|---|---|---|---|---|
| 4 | Sierra Boulevard, between Sequoia Street and Mariposa Street | 30 | 30 | 38 | 42 |
| 6 | Alta Vista Avenue, between Las Flores Avenue and Sierra Boulevard | - | 16 | 25 | 29 |

## Traffic Management Plan (TMP) Strategies

Should the project proceed, RJUHSD may consider implementing traffic management strategies in coordination with the City to lessen the effects of "large" extracurricular events on the local Historic Sierra Vista community, beyond the level to which the community is already affected on a daily basis during normal school activities. Traffic control measures for the pre-event and post-event time periods are intended to facilitate the following:

- Limiting the number of vehicles that circulate looking for parking
- Limiting vehicle congestion before and after events by directing traffic appropriately to/from RHS via Alta Vista Avenue, Sierra Boulevard, and Las Flores Avenue
- Enhanced public safety for attendees of events held at RHS and residents of Historic Sierra Vista

RJUHSD may consider placing Traffic Control Officers (TCOs) at key intersections proximate to RHS to manage "event surge", attendees and public responses to modified/event-specific traffic patterns. TCOs may consist of RJUHSD staff and/or private contractors. RJUHSD should collaboratively assess and adjust the TCOs' roles, responsibilities, and staffing needs in coordination with the City based on observations from the first-year of strategy implementation.

Special event loading zones may be considered for pre-event drop off and post-event pick up activity for a variety of vehicular travel modes outside of private automobiles. These activities are anticipated to primarily consist of transportation network companies (TNCs) and the general public. It is recommended that these loading zones be located along Berry Street to lessen impacts within Historic Sierra Vista.

RHS has approximately 180 marked parking spaces in the primary on-site event parking area between the football and baseball fields. The number of venue attendees that can be served within the main parking area will fluctuate depending on factors such as average vehicle occupancy, the duration of an event, and the arrival profile for an event. RJUHSD should collaborate with the City to establish appropriate thresholds for closing and reopening the main on-site parking area that preserve utility to the venue while reducing the propensity of inefficient circulation within and in the vicinity of this primary parking facility. To limit the effects of events on the surrounding neighborhood, to the extent possible attendees from the east should be directed to access RHS via Yosemite Street and Sierra Boulevard.

RJUHSD may consider facilitating additional parking for "large" events. These events should be identified in advance during regularly scheduled meetings between RJUHSD and the City. The primary locations for additional parking may be the Tiger Way RHS parking lot, the Tiger Way Independence High School parking lot, and the RHS Berry Lot.

RHS is neighbored by the Historic Sierra Vista community to the immediate west. As RHS hosts "large" events, a dynamic may develop where in attendees familiar with the surrounding area may park in the residential development adjacent to the main parking area and enter the venue on foot. The City should monitor complaints/feedback from these adjacent residents regarding off-site parking adversely affecting living conditions and violating existing parking restrictions currently in place along Alta Vista Avenue, Sierra Boulevard, and Las Flores Avenue.

All stakeholders involved (RJUHSD and the City) should meet in advance of upcoming scheduled events at RHS to ensure that appropriate TMP measures are being considered in advance of all event sizes. This regular coordination will enable all stakeholders to properly allocate available resources and provide sufficient notice to both affected members of the general public and potential attendees.

## Conclusions

The following are the primary conclusions based on the analyses discussed herein:

- *The existing Trip Distribution reflects dominant usage of Sierra Boulevard* – Traffic data and field observations from Tuesday, March 18, 2025, indicate that Sierra Boulevard is the primary route for vehicles accessing the RHS parking lot via Campo Street. This finding is consistent with expectations based on the existing RHS student attendance boundaries.
- *The prevailing drop-off/pick-up conditions proximate to RHS vary* – Vehicles arriving along Alta Vista Avenue, Sierra Boulevard, and Las Flores Avenue exhibit a wide variety of driver behaviors. There are observed instances of parking in bike lanes and u-turns along these roadways during the AM drop-off and PM pick-up periods.
- *The neighborhood roadway segments are not expected to operate beyond capacity assuming permanent closure of Campo Street* – The assumed addition of project event trips on the roadway segments proximate to Campo Street is not anticipated to result in the neighborhood roads operating beyond their functional capacity.
- *The prevailing roadway segment speeds collected are higher than posted* – The prevailing Daily, AM Peak, and PM Peak speeds measured on Sierra Boulevard are higher than posted speed limits.
- *RJUHSD may consider implementing TMP strategies during larger events* – RJUHSD should consider drawing from the TMP strategies provided in this memorandum to facilitate orderly access to and from the site during large events. RJUHSD should collaborate with the City to ensure that desirable strategies intended to handle "event surge" and minimize the effects of closing Campo Street are implemented as appropriate.

From: **Wilson, Jason** <jwilson@rjuhsd.us>
Date: Thu, Jan 9, 2025 at 1:04 PM
Subject: Football Attendance
To: Scott Davis <scdavis@rjuhsd.us>
Cc: Ashley Serin <aserin@rjuhsd.us>

Good afternoon Scott,

Here are the numbers of tickets sold for each football event:

| Date | Total Tickets | Type | H/V % | Home | Visitor |
|---|---|---|---|---|---|
| 8/29/24 | 236 | Freshman | 65/35 | 153 | 83 |
| 8/30/2024 | 1271 | JV/Varsity | 65/35 | 826 | 445 |
| 9/19/2024 | 239 | Freshman | 65/35 | 155 | 84 |
| 9/20/2024 | 1235 | JV/Varsity | 65/35 | 802 | 433 |
| 10/10/2024 | 189 | Freshman | 70/30 | 132 | 57 |
| 10/11/2024 | 1130 | JV/Varsity | 70/30 | 791 | 339 |
| 10/24/2024 | 197 | Freshman | 60/40 | 118 | 79 |
| 10/25/2024 | 1290 | JV/Varsity | 60/40 | 774 | 516 |
| 11/1/2024 | 1542 | Fr/JV/Varsity | 60/40 | 925 | 617 |

These are estimates as we do not have exact home and visitor numbers. I also believe these are more on the high side. I would argue that most of our gates are more like a 70/30 split with our rivals being more like 65/35 or 60/40, like in the case of hosting Woodcreek

RESOLUTION NO. 26-115

ORDERING GENERAL VACATION OF RIGHT OF WAY AND ALL OTHER INTERESTS THEREIN, IF ANY—EXCEPT FOR THE RESERVED AND EXEMPTED PUBLIC UTILITY AND EMERGENCY VEHICLE ACCESS EASEMENTS—IN A PORTION OF THE CAMPO STREET RIGHT OF WAY, WEST OF 1 TIGER WAY; AUTHORIZING THE CITY MANAGER TO EXECUTE A QUITCLAIM DEED AND ANY OTHER DOCUMENTS REQUIRED TO EFFECTUATE THE TRANSFER OF THE ABANDONED RIGHT OF WAY TO THE ADJOINING SCHOOL DISTRICT SITE; FINDING THIS GENERAL VACATION TO BE IN THE CITY'S BEST INTEREST AND CONSISTENT WITH THE CITY'S GENERAL PLAN

WHEREAS, in accordance with the Streets and Highways Code, Division 9, Part 3, Chapter 3, a request from the Roseville Joint Union High School District (RJUHSD) was received by the City requesting that the City abandon a portion of Campo Street right of way (ROW), which shall become part of the Roseville High School campus, and which said portion has historically been closed from 7:30 am to 4:00 pm for, including, but not limited to, school and safety purposes, since at least 1970; and

WHEREAS, in accordance with the provisions of Section 8300, et seq., of the Streets and Highways Code, proof of publication and posting of the City's Notice of Intention to Vacate, and notice for a public hearing considering the ordering of such vacation, have occurred, and a public hearing thereon has been held as required by State law; and

WHEREAS, it is hereby found that the portion of the ROW described and depicted in Exhibits A and B, attached hereto and incorporated herein by reference, is unnecessary for present or prospective public use, but as vacated to the RJUHSD the ROW serves the community's best interests in order to accommodate the Roseville High School Improvement Project and to ensure a safe and secure school site; and

WHEREAS, the portion of ROW, described and depicted in Exhibits A and B, consisting of 23,272 square-foot (.53 acres), was dedicated as public ROW on or about October 15, 1906, recorded at the Placer County Recorder's Office and filed for record in Book 11 of Maps, Page 18; and

WHEREAS, RJUHSD submitted preliminary project plans for the Roseville High School Improvement Project; and

WHEREAS, on May 6, 2026, the City Council considered the Addendum to the Roseville High School Improvement Project Mitigated Negative Declaration (SCH #2024040651, adopted May 28, 2024); and

WHEREAS, there are no plans to use the portion of ROW for any future City or public purpose, but that the City hereby reserves and exempts from this vacation process easements for public utility purposes and emergency vehicle access purposes, as further described and depicted in Exhibits C and D, attached hereto and incorporated herein by reference, and no other utilities or facilities have been identified or will be impacted; and

WHEREAS, in accordance with the provisions of Section 8320 et seq., of the Streets and Highways Code (Chapter 3, General Vacation Procedure), it is found that this ROW and any other interest, if any—except for the easements as described and depicted and reserved in Exhibits C and

D—is not needed by the City and is not being used or planned to be used in the future for street or highway purposes and will not be used for the purposes for which the City acquired it, and is unnecessary for present or prospective public street use, and shall be vacated; and

WHEREAS, the portion of ROW herein described is determined to not be subject to the procedures or requirements under the California Surplus Land Act (Section 54200 et seq. of the California Government Code) pursuant to information from the California Department of Housing and Community Development, as this abandonment and quitclaim of interests is not a "disposition" under the California Surplus Land Act, and as such, this ROW area may and shall be provided to the RJUHSD pursuant to Section 4.12.110 of the Roseville Municipal Code, as real property needed by another public entity in the best interests of the City—as it provides beneficial use, creates a safe and secure school campus site, and that the subject portion of ROW is otherwise not needed by the City—and without financial consideration exchanged; and

NOW, THEREFORE, BE IT RESOLVED AND HEREBY ORDERED:

1. The above recitals are hereby adopted as findings and incorporated herein.

2. That the excess portion of ROW, and any other interest therein, described and depicted in Exhibits A and B, are hereby vacated and shall, save the easements described herein, as of the date of recordation of this resolution, no longer constitute City right of way.

3. The portion of subject ROW, described in Exhibits A and B, is hereby declared as surplus to the needs of the City pursuant to Section 4.12.110 of the Roseville Municipal Code and that general vacation and transfer of the property to RJUHSD is in the City's best interest, as described above; and the abandonment and conveyance of interests contemplated herein is not a disposition for the purposes of the SLA pursuant to HCD Guidelines, Section 102(i).

4. The vacation and actions contemplated herein are consistent with the City of Roseville 2035 General Plan and with Section 65402 of the Government Code and have been reviewed by the Planning Manager and staff, the City agrees with the following analysis and finds: The .53-acre segment of Campo Street proposed for abandonment includes two General Plan land use designations. Approximately .26 acres in the center of the segment has a Public/Quasi-Public (P/QP) land use designation. Approximately .27 acres of the segment to the north and south of the P/QP land use area has a Low-Density Residential (LDR) land use designation. The City of Roseville 2035 General Plan establishes the P/QP land use as area for education and other public facilities. The City of Roseville 2035 General Plan establishes public and private schools as a secondary use in the LDR land use area. City Council of the City of Roseville, as the legislative body of the local planning agency—the City of Roseville—finds that this vacation and contemplated actions are consistent with the City of Roseville 2035 General Plan.

5. Pursuant to the Streets and Highways Code, Section 8324, the abandonment and actions herein contemplated shall only be effective on the condition that: a) RJUHSD is the adjoining landowner taking lawful possession and interest in the ROW area, and b) the City's easement interests, reserved and exempted hereby and described and depicted in Exhibits C and D, are lawfully recognized hereby and in full force and effect.

6. The City Manager is hereby authorized to execute a Quitclaim Deed, in a form substantially similar to the version included with the associated agenda item for this matter incorporated herein by this reference, for the subject portion of ROW, described in Exhibits

A and B, to the RJUHSD or its affiliate or assignee, and any other documents required to effectuate the abandonment, vacation of the right of way and the conveyance of any other interest the City may have therein to the same, and may direct the City Attorney to prepare and may execute any additional documents, forms, or agreements as determined by the City Manager to be necessary to carry out the purpose of this Resolution; and

7. The City Clerk is hereby directed to cause a certified copy of this Resolution and Order, attested to by said Clerk under the seal of the City of Roseville, to be recorded in the Office of the County Recorder, and to record any other documents, including a Quitclaim Deed, necessary to effectuate what is described herein.

PASSED AND ADOPTED by the Council of the City of Roseville this_____day of _____, 20_, by the following vote on roll call:

## Campo Street Closure

On behalf of Roseville High School and the Roseville Joint Union High School District we are requesting the permanent closure and vacation of Campo Street where it intersects our campus. While the current temporary closure during school hours provides a baseline level of security, the existing "hybrid" model creates significant safety gaps and liability risks that can only be resolved through permanent integration into our school grounds.

Our request is centered on four critical pillars of student safety and campus operations:

1. Eliminating the "False Sense of Security" and Traffic Hazards

Currently, Campo Street is gated during the instructional day but is open to the public immediately before and after the school day. This creates an unsafe situation for our students. For seven hours a day, students are conditioned to treat this area as a pedestrian-only zone. When the gates open for before or after school activities, athletics, and events, that ingrained behavior remains. Students frequently cross the street without checking for oncoming traffic because their environment has taught them it is safe to do so. Apermanent closure removes the risk of a collision caused by this predictable human error.

2. Securing the "Alleyway Gap" in Campus Ingress and Egress

The current street configuration allows for alleyway access points that are not safely secured under the city's current thoroughfare requirements.

- Controlled Entry: Permanent closure allows us to gate off alleyway access entirely, funneling all visitors through a single, secure point of entry at the front office.
- Public Deterrence: Currently, the alleyway provides an unmonitored path for unauthorized individuals to step directly onto campus. By incorporating the street into our campus, and therefore gating off this alleyway, we eliminate this "backdoor" and ensure every person on our grounds has a verified, educational purpose for being there.

3. Creation of a Supervised Student Quad

The modern high school environment requires centralized spaces where students can be effectively supervised. By reclaiming Campo Street, we will establish a unified Campus Quad similar to all of the other schools in our district. This quad allows for enhanced supervision and security, as a unified quad space on campus allows our campus monitors and administration to effectively monitor the entire student body during lunch and transition periods from a central vantage point.

4. Campus Unification and Community Culture

Aschool split by a public road is a school divided. Currently, facilities including our Cafeteria and Band Room are physically disconnected from the main instructional buildings via a city street. Fencing and gates are also required to secure the main campus from Campo Street during after-hours effectively splitting the campus in two. Permanent closure allows us to physically and aesthetically unify these spaces, fostering a cohesive culture that prioritizes student belonging and safety over after hours cut-through traffic convenience.

The safety of 1,450 students outweighs the convenience of a public thoroughfare during off hours. The current configuration is not merely an inconvenience; it is a safety deficit that leaves the District and the City vulnerable to preventable accidents. We are asking the City to partner with us in creating a secure, 21st-century learning environment by vacating Campo Street and allowing its full incorporation into the Roseville High School campus.

Kimley»Horn

# Memorandum

**To:** Jack Varozza, P.E., QSD/P
Senior Engineer, City of Roseville

**From:** Stephen Dillon, P.E.

***Re:*** ***Campo Street Abandonment***
Traffic Evaluation
Roseville, California

**Date:** July 31, 2025

The purpose of this memorandum is to document the transportation analysis completed for the Campo Street Abandonment (the "proposed project" or "project") located within the existing Roseville High School ("RHS") campus, between Coronado Avenue and Sierra Boulevard, in Roseville, California. This memorandum evaluates the weekday AM (drop-off) and School-PM (pick-up) peak-hours under Existing (2025) conditions.

The primary conclusions from this evaluation are as follows:

- The project, which would have the effect of diverting extracurricular event (i.e. Roseville High School football game) traffic from Campo Street to the adjacent neighborhood network, is not anticipated to significantly alter the adjacent roadways' typical existing daily operations.
- The existing drop-off/pick-up pattern along Alta Vista Avenue, Sierra Boulevard, Las Flores Avenue, and Coronado Avenue presents a variety of driver behaviors, including parking in bike lanes and u-turns.
- Prevailing vehicle speeds along Sierra Boulevard currently exceed the posted 30 MPH speed limit.
- As an outcome of this evaluation, we recommend that the Roseville Joint Union High School District, in coordination with the City of Roseville, develop a plan for targeted enforcement intended to address existing driver behavior within the Historic Sierra Vista community proximate to RHS, independent of the project.

## Project Understanding

Kimley-Horn understands that the Roseville Joint Union High School District ("RJUHSD", "School District", or "District") is proposing that the City of Roseville (the "City") abandon the existing segment of Campo Street between Coronado Avenue and Sierra Boulevard and relinquish the facility to the School District (**Exhibit 1**). The project segment of Campo Street is understood[1] and observed to already be closed to through traffic on weekdays during Roseville High School operating hours. The project segment is open to through traffic outside of Roseville High School operating hours. This traffic evaluation has been requested in response to the following concerns/comments provided by the proximate Historic Sierra Vista community regarding the project:

- The project will increase traffic volumes on Sierra Boulevard, Las Flores Avenue, and Alta Vista Avenue without Campo Street
- The project will contribute to increased traffic speeds on Sierra Boulevard, Las Flores Avenue, and Alta Vista Avenue without Campo Street
- The project will affect drop-off/pick-up operations at the Alta Vista Avenue and Sierra Boulevard intersection

[1] Email correspondence with Jack Varozza, City of Roseville, December 4, 2024.

The primary purposes of this analysis are to evaluate the potential effects of the proposed project on traffic operations along Sierra Boulevard, Las Flores Avenue, and Alta Vista Avenue, and on drop-off/pick-up operations at the Alta Vista Avenue and Sierra Boulevard intersection.

## Data Collection

Kimley-Horn manually collected (via traffic count subconsultant) daily directional roadway segment traffic counts on Tuesday, March 18, 2025, to establish directional weekday roadway segment traffic volumes at the following study segments (**Exhibit 1**):

1. Campo Street, between Coronado Avenue and Sierra Boulevard
2. Las Flores Avenue, between Coronado Avenue and Sierra Boulevard
3. Las Flores Avenue, between Alta Vista Avenue and Sierra Boulevard
4. Sierra Boulevard, between Sequoia Street and Mariposa Street (includes speed data)
5. Sierra Boulevard, between Las Flores Avenue and Alta Vista Avenue
6. Alta Vista Avenue, between Las Flores Avenue and Sierra Boulevard (includes speed data)
7. Campo Street, north of Sierra Boulevard

The following data was collected from the City[2] to aid in completing this evaluation:

- 2024 Roseville High School football game ticket data (**Attachment A**)

Kimley-Horn completed a field visit on Tuesday, March 18, 2025, to observe study facility lane configurations, vehicle storage lengths, existing traffic control, speed limits, lane utilization, pedestrian activity, and other readily apparent features relevant to the Scope of Services. The field visit included observations between 8-9 AM and 2:45-3:45 PM regarding drop-off and pick-up operations, trip distribution, vehicle dwell times, vehicle occupancy, and parking behavior that could be anticipated to translate to the proposed project condition.

## Assessment of Proposed Project

*Evening Event Scenario*

A reasonably anticipated evening event scenario was established using 2024 Roseville High School football ticket data (including home and visitor fan splits) provided by the City[2]. The ticket data was supplemented with vehicle occupancy data from FHWA[3] to approximate the number of vehicles a typical game night might generate based on the number of home and visitor fans attending the event. Additional assumptions were made regarding the percentages of home and visitor fans who could be expected to overlap in attending both the Junior Varsity (JV) and Varsity football games which are understood to occur on the same evening. The anticipated number of vehicles produced by a typical football event and relevant assumptions are summarized in **Table 1**.

*Trip Distribution*

Directional roadway segment counts were used to establish a general distribution of trips accessing the high school parking lot located north of Sierra Boulevard. Directional roadway segment counts between 8:00-8:30 AM were supplemented by observed vehicle turning movements at the intersection of Las Flores Avenue and Sierra Boulevard between 8:10-8:30 AM on Tuesday, March 18, 2025. This data establishes a directional pattern of high school-bound trips during the peak-period for students arriving on campus. The distribution of trips was developed based on AM observations as it is assumed that all trips accessing the high school during this period will be traveling from "home."

[2] Email correspondence with Jack Varozza, City of Roseville, January 16, 2025.
[3] Chapter 5: Event Operations Planning, *Managing Travel for Planned Special Events*, FHWA, February 1, 2017.

Table 1 – Football Event Vehicle Generation

| | | | | Estimated Event Vehicles | | | | |
|---|---|---|---|---|---|---|---|---|
| Maximum 2024 Attendance* | Home %* | Home Fans | Home Vehicle Occupancy** | Possible Home | Home JV (35%) | JV:Varsity Overlap (40%) | Home Varsity (65%) | Total Home |
| 1,550 | 65% | 1,007 | 2.8 | 360 | 126 | -50 | 234 | 310 |
| | Visitor %* | Visitor Fans | Visitor Vehicle Occupancy** | Possible Visitor | Visitor JV (20%) | JV:Varsity Overlap (80%) | Visitor Varsity (80%) | Total Visitor |
| | 35% | 543 | 2.2 | 247 | 49 | -39 | 198 | 208 |

*Attendance data provided by City of Roseville and RJUHSD

**Event Vehicle Occupancy data provided by FHWA

Directional roadway segment counts were also used to establish a distribution of trips leaving the high school from the high school parking lot located north of Sierra Boulevard. Directional roadway segment counts between 2:45-3:30 PM were used to consider a directional egress pattern from the high school during the peak-period for students leaving campus. While the PM distribution is a useful reference point, it presents more variance than the AM distribution as not all trips leaving the high school during the PM peak can be assumed to travel "home." As such, it is expected that the AM peak-period home-based trip behavior would be generally consistent with inbound and outbound travel patterns for events occurring outside of Roseville High School operating hours.

As the traffic counts were gathered and observed while the Campo Street project segment was temporarily closed to vehicle traffic during the high school day, it is reasonably assumed that the same distribution will generally apply should Campo Street be permanently closed. Thus, it is reasonable to assume that home fan football game attendees would follow a trip distribution comparable to the one identified for the Weekday AM peak period. It is also assumed that visitor fans may be more widely distributed across the local network depending on their origins. The project trip distribution for home and visitor fans is provided in Exhibit 2.

## Study Facilities and Analysis Methodology

A roadway segment operations analysis (volume thresholds) was conducted for a weekday for the following scenarios:

A. Existing (2025) Conditions
B. Existing (2025) plus Project Conditions

The roadway segment analysis was completed for the following roadway segments:

1. Campo Street, between Coronado Avenue and Sierra Boulevard
2. Las Flores Avenue, between Coronado Avenue and Sierra Boulevard
3. Las Flores Avenue, between Alta Vista Avenue and Sierra Boulevard
4. Sierra Boulevard, between Sequoia Street and Mariposa Street
5. Sierra Boulevard, between Las Flores Avenue and Alta Vista Avenue
6. Alta Vista Avenue, between Las Flores Avenue and Sierra Boulevard

*Level of Service (LOS) Definitions*

The LOS of a facility is a qualitative measure used to describe operational conditions. LOS ranges from A, which represents minimal delay, to F, which represents heavy delay and a facility that is operating at or near its functional capacity.

Roadway segment Levels of Service for this study were determined using daily traffic volumes. In the absence of comparable references from the City or Placer County, roadway segment volume thresholds from Sacramento County[4] were used to provide a planning level assessment of the project study facilities. The study facility roadways are classified as "Residential collector with frontage." Table 2 presents roadway segment LOS thresholds as classified by facility type.

Table 2 – Roadway Segment Level of Service Criteria

| Facility Type | # of Lanes | Maximum Volume for Given Service Level | | | | |
|---|---|---|---|---|---|---|
| | | LOS A | LOS B | LOS C | LOS D | LOS E |
| Residential | 2 | 600 | 1,200 | 2,000 | 3,000 | 4,500 |
| Residential collector with frontage | 2 | 1,600 | 3,200 | 4,800 | 6,400 | 8,000 |
| Residential collector without frontage | 2 | 6,000 | 7,000 | 8,000 | 9,000 | 10,000 |

Source: *Transportation Analysis Guidelines* , County of Sacramento, September 10, 2020.

Daily operations were determined for the scenarios listed above. Exhibit 3 shows weekday volumes under Existing (2025) and Existing (2025) plus Project conditions. Study facility traffic count data sheets are provided in Attachment B.

## Analysis Results

*Existing Drop-off/Pick-up Operations*

The analysis documented existing neighborhood circulation on Tuesday, March 18, 2025, surrounding drop-off and pick-up activities within the Historic Sierra Vista community during a typical weekday with Roseville High School classes in session. The existing circulation conditions were observed as follows:

Drop-off

- The peak period was observed to be from approximately 8:10 to 8:25 AM. The neighborhood was significantly less busy after 8:35 AM.
- Seven (7) drop-offs were observed within the immediate vicinity of the Alta Vista Avenue and Sierra Boulevard intersection.
- Four (4) vehicles made u-turns on Sierra Boulevard in advance of Alta Vista Avenue after dropping off students.
- Most vehicles passing through the Sierra Boulevard and Alta Vista Avenue intersection appeared to be students destined for the parking area behind Roseville High School.
- 26 drop-offs were observed on the segment of Las Flores Avenue between Sierra Boulevard and Coronado Avenue.
- Five (5) vehicles made u-turns on Las Flores Avenue between Sierra Boulevard and Coronado Avenue.

[4] *Transportation Analysis Guidelines*, County of Sacramento, September 10, 2020.

Pick-up

- The peak period was observed to be from approximately 3:15 to 3:35 PM.
- Vehicles started queueing along the Alta Vista Avenue curbs at 2:50 PM.
- Vehicles started queueing along the Las Flores Avenue curbs at 3:15 PM.
- Traffic within the neighborhood is predominantly inflow to the parking area behind Roseville High School until 3:20 PM.
- Six (6) vehicles were observed queueing within the bike lane along the south side of Sierra Boulevard between Las Flores Avenue and Alta Vista Avenue from 3:06 and 3:23 PM.
- The local pattern was observed to shift to predominantly egressing students/vehicles around 3:25 PM.
- The north and south sides of Sierra Boulevard between Las Flores Avenue and Alta Vista Avenue are popular pick-up locations.
- 15 U-turns were observed on Sierra Boulevard between Las Flores Avenue and Alta Vista Avenue.
- Las Flores Avenue between Sierra Boulevard and Coronado Avenue is a popular pick-up location.

*Roadway Segment Operations*

The analysis evaluated the potential effects of rerouted event traffic from the project on local roadway operations within the Historic Sierra Vista community. "Plus Project" roadway segment performance was evaluated by layering rerouted event trips established in **Table 1** on top of typical weekday traffic volumes according to the established trip distribution. **Table 3** summarizes the neighborhood roadway segment Level of Service under Existing (2025) and Existing (2025) plus Project conditions

**Table 3** – Neighborhood Roadway Segment LOS

| ID | Location | Facility Type | # of Lanes | Existing (2025) | | Existing (2025) plus Project | |
|---|---|---|---|---|---|---|---|
| | | | | Daily Volume | LOS | Daily Volume | LOS |
| 1 | Campo Street, between Coronado Avenue and Sierra Boulevard | Residential collector with frontage | 2 | 1,934 | B | 2,141 | B |
| 2 | Las Flores Avenue, between Coronado Avenue and Sierra Boulevard | Residential collector with frontage | 2 | 1,215 | A | 1,422 | A |
| 3 | Las Flores Avenue, between Alta Vista Avenue and Sierra Boulevard | Residential collector with frontage | 2 | 473 | A | 473 | A |
| 4 | Sierra Boulevard, between Sequioa Street and Mariposa Street | Residential collector with frontage | 2 | 1,632 | B | 2,098 | B |
| 5 | Sierra Boulevard, between Las Flores Avenue and Alta Vista Avenue | Residential collector with frontage | 2 | 1,083 | A | 1,756 | B |
| 6 | Alta Vista Avenue, between Las Flores Avenue and Sierra Boulevard | Residential collector with frontage | 2 | 624 | A | 987 | A |

As indicated in **Table 3**, the study roadway segments operate at LOS A and LOS B in the Existing (2025) and Existing (2025) plus Project scenarios. All roadway segments exhibit sufficient capacity to accommodate the additional vehicles that would be reasonably anticipated during an evening after-school event without access to Campo Street between Sierra Boulevard and Las Flores Avenue.

*Roadway Segment Speeds*
The traffic data collected on Tuesday, March 18, 2025, captured directional vehicle speed data for the following roadway segments:

- Sierra Boulevard, between Sequoia Street and Mariposa Street
- Alta Vista Avenue, between Las Flores Avenue and Sierra Boulevard

The observed posted speed limit along Sierra Boulevard was 30 MPH. **Table 4** presents the Average, Prevailing (85$^{th}$-percentile), and 95$^{th}$-percentile documented speeds for each roadway segment. Rerouted event traffic related to the project would not be anticipated to significantly alter the existing condition.

**Table 4** – Roadway Segment Speeds

| ID | Location | Posted Speed (MPH) | Average Speed (MPH) | 85th % Speed (MPH) | 95th % Speed (MPH) |
|---|---|---|---|---|---|
| 4 | Sierra Boulevard, between Sequoia Street and Mariposa Street | 30 | 30 | 38 | 42 |
| 6 | Alta Vista Avenue, between Las Flores Avenue and Sierra Boulevard | - | 16 | 25 | 29 |

## Traffic Management Plan (TMP) Strategies

Should the project proceed, RJUHSD may consider implementing traffic management strategies in coordination with the City to lessen the effects of "large" extracurricular events on the local Historic Sierra Vista community, beyond the level to which the community is already affected on a daily basis during normal school activities. Traffic control measures for the pre-event and post-event time periods are intended to facilitate the following:

- Limiting the number of vehicles that circulate looking for parking
- Limiting vehicle congestion before and after events by directing traffic appropriately to/from RHS via Alta Vista Avenue, Sierra Boulevard, and Las Flores Avenue
- Enhanced public safety for attendees of events held at RHS and residents of Historic Sierra Vista

RJUHSD may consider placing Traffic Control Officers (TCOs) at key intersections proximate to RHS to manage "event surge", attendees and public responses to modified/event-specific traffic patterns. TCOs may consist of RJUHSD staff and/or private contractors. RJUHSD should collaboratively assess and adjust the TCOs' roles, responsibilities, and staffing needs in coordination with the City based on observations from the first-year of strategy implementation.

Special event loading zones may be considered for pre-event drop off and post-event pick up activity for a variety of vehicular travel modes outside of private automobiles. These activities are anticipated to primarily consist of transportation network companies (TNCs) and the general public. It is recommended that these loading zones be located along Berry Street to lessen impacts within Historic Sierra Vista.

RHS has approximately 180 marked parking spaces in the primary on-site event parking area between the football and baseball fields. The number of venue attendees that can be served within the main parking area will fluctuate depending on factors such as average vehicle occupancy, the duration of an event, and the arrival profile for an event. RJUHSD should collaborate with the City to establish appropriate thresholds for closing and reopening the main on-site parking area that preserve utility to the venue while reducing the propensity of inefficient circulation within and in the vicinity of this primary parking facility. To limit the effects of events on the surrounding neighborhood, to the extent possible attendees from the east should be directed to access RHS via Yosemite Street and Sierra Boulevard.

RJUHSD may consider facilitating additional parking for "large" events. These events should be identified in advance during regularly scheduled meetings between RJUHSD and the City. The primary locations for additional parking may be the Tiger Way RHS parking lot, the Tiger Way Independence High School parking lot, and the RHS Berry Lot.

RHS is neighbored by the Historic Sierra Vista community to the immediate west. As RHS hosts "large" events, a dynamic may develop where in attendees familiar with the surrounding area may park in the residential development adjacent to the main parking area and enter the venue on foot. The City should monitor complaints/feedback from these adjacent residents regarding off-site parking adversely affecting living conditions and violating existing parking restrictions currently in place along Alta Vista Avenue, Sierra Boulevard, and Las Flores Avenue.

All stakeholders involved (RJUHSD and the City) should meet in advance of upcoming scheduled events at RHS to ensure that appropriate TMP measures are being considered in advance of all event sizes. This regular coordination will enable all stakeholders to properly allocate available resources and provide sufficient notice to both affected members of the general public and potential attendees.

## Conclusions

The following are the primary conclusions based on the analyses discussed herein:

- *The existing Trip Distribution reflects dominant usage of Sierra Boulevard* – Traffic data and field observations from Tuesday, March 18, 2025, indicate that Sierra Boulevard is the primary route for vehicles accessing the RHS parking lot via Campo Street. This finding is consistent with expectations based on the existing RHS student attendance boundaries.
- *The prevailing drop-off/pick-up conditions proximate to RHS vary* – Vehicles arriving along Alta Vista Avenue, Sierra Boulevard, and Las Flores Avenue exhibit a wide variety of driver behaviors. There are observed instances of parking in bike lanes and u-turns along these roadways during the AM drop-off and PM pick-up periods.
- *The neighborhood roadway segments are not expected to operate beyond capacity assuming permanent closure of Campo Street* – The assumed addition of project event trips on the roadway segments proximate to Campo Street is not anticipated to result in the neighborhood roads operating beyond their functional capacity.
- *The prevailing roadway segment speeds collected are higher than posted* – The prevailing Daily, AM Peak, and PM Peak speeds measured on Sierra Boulevard are higher than posted speed limits.
- *RJUHSD may consider implementing TMP strategies during larger events* – RJUHSD should consider drawing from the TMP strategies provided in this memorandum to facilitate orderly access to and from the site during large events. RJUHSD should collaborate with the City to ensure that desirable strategies intended to handle "event surge" and minimize the effects of closing Campo Street are implemented as appropriate.

2024 Roseville High School Football Game Ticket Data

---------- Forwarded message ---------
From: **Wilson, Jason** <jwilson@rjuhsd.us>
Date: Thu, Jan 9, 2025 at 1:04 PM
Subject: Football Attendance
To: Scott Davis <scdavis@rjuhsd.us>
Cc: Ashley Serin <aserin@rjuhsd.us>

Good afternoon Scott,

Here are the numbers of tickets sold for each football event:

| Date | Total Tickets | Type | H/V % | Home | Visitor |
|---|---|---|---|---|---|
| 8/29/24 | 236 | Freshman | 65/35 | 153 | 83 |
| 8/30/2024 | 1271 | JV/Varsity | 65/35 | 826 | 445 |
| 9/19/2024 | 239 | Freshman | 65/35 | 155 | 84 |
| 9/20/2024 | 1235 | JV/Varsity | 65/35 | 802 | 433 |
| 10/10/2024 | 189 | Freshman | 70/30 | 132 | 57 |
| 10/11/2024 | 1130 | JV/Varsity | 70/30 | 791 | 339 |
| 10/24/2024 | 197 | Freshman | 60/40 | 118 | 79 |
| 10/25/2024 | 1290 | JV/Varsity | 60/40 | 774 | 516 |
| 11/1/2024 | 1542 | Fr/JV/Varsity | 60/40 | 925 | 617 |

These are estimates as we do not have exact home and visitor numbers. I also believe these are more on the high side. I would argue that most of our gates are more like a 70/30 split with our rivals being more like 65/35 or 60/40, like in the case of hosting Woodcreek

RECORDING REQUESTED BY:

APN No.: _____

WHEN RECORDED MAIL TO AND MAIL
TAX STATEMENTS TO:

SPACE ABOVE THIS LINE FOR RECORDERS USE

# Quitclaim Deed

Exempt from fee per GC27383 and/or GC27388.1(a)(2); document is executed or recorded by the state or any county, municipality, or other political subdivision of the state.

The undersigned grantor(s) declare(s):
Documentary transfer tax is $0.00; City transfer tax is $0.00. This conveyance is exempt from documentary transfer tax since a government agency is vacating interest and granting the same to a party in the best interests of the public/ City, and based on the limited value of otherwise unusable former right of way, R&T 11911.
( ) computed on full value of property conveyed, or
( ) computed on full value less value of liens and encumbrances remaining at time of sale.
( ) Unincorporated area: (X) City of Roseville
( ) Realty not sold.
FOR A VALUABLE CONSIDERATION, receipt of which is hereby acknowledged,
The City of Roseville, a municipal corporation hereby REMISE(S), RELEASE(S) AND FOREVER QUITCLAIM(S) to _____, a _____, (Grantee) that property in City of Roseville, County of Placer, State of California, described as:
See "Exhibit A" attached hereto and made a part hereof, and as depicted in "Exhibit B" attached hereto and made part hereof; however reserving therefrom and exempt from this conveyance are the easement interests reserved and provided to the City of Roseville as described and depicted in "Exhibit C" and "Exhibit D" attached hereto and made part hereof.

This Quitclaim Deed is being recorded for the purpose of vacating right of way and granting the City's interest, if any, to the Grantee, as described and shown in Exhibits A and B--but reserving and exempting therefrom the public utility easement and emergency vehicle access easement and purposes appurtenant thereto, on, over, under and across the real property described and depicted in Exhibits C and D--concerning a portion of the City's Campo Street right of way, West of 1 Tiger Way, which was dedicated to the City as public right of way on or about October 15, 1906, recorded at the Placer County Recorder's Office and filed for record in Book 11 of Maps, Page 18.

Mail Tax Statements to Grantee at address above

| **Title:** | Community Development Block Grant – 2026 Annual Action Plan |
| **Contact:** | Danielle OConnell 916-774-5277 doconnell@roseville.ca.us |

SUMMARY

Staff recommends approval of the City's 2026 Annual Action Plan for the federal Community Development Block Grant Program and authorization for the City Manager to execute necessary documents and certifications on behalf of the City. This item does not result in any impact to the City's General Fund.

RECOMMENDATION

Staff recommends that the City Council take the following actions:

a. Hold a Public Hearing and receive public comment on the City of Roseville 2026 Annual Action Plan; and

b. Adopt a resolution approving the 2026 Annual Action Plan and authorizing the City Manager to execute necessary documents and certifications on behalf of the City of Roseville for submittal to the U.S. Department of Housing & Urban Development.

BACKGROUND

The City became a Community Development Block Grant (CDBG) entitlement jurisdiction in 1986, and has traditionally funded housing activities, public facilities and improvements, removal of architectural barriers, planning, program administration, and public service activities. As an entitlement jurisdiction, the City of Roseville receives an annual allocation of CDBG funds from the U.S. Department of Housing and Urban Development (HUD) to promote affordable housing and community development programs for low-income residents.

Each year the City must produce an Annual Action Plan explaining how CDBG funds will be used to address the goals of the five-year Consolidated Plan. HUD has announced that the City of Roseville will receive $707,327 in CDBG funding for FY2026-2027. It is anticipated that the City will receive at least $50,000 in CDBG program income, available for the same period. In addition, the City has an estimated $732,715.34 in prior-year carryover funds available for reprogramming.

A public meeting was held on January 8, 2026, at the beginning of the CDBG application process, in order to identify community needs and discuss proposed projects for use of CDBG funding. The meeting was held in person and also accessible remotely. The purpose of the meeting was to identify community needs and discuss potential programs and projects for the use of CDBG funds. Representatives from six agencies were in attendance to discuss local needs and potential programs and projects of the CDBG program.

2026 Annual Action Plan

The Annual Action Plan provides an overview of the City's use of CDBG funds to address community needs in the second year of the five-year Consolidated Plan. Federal regulations require that at least 70% of CDBG funds be used for projects that primarily benefit persons under the low-income limit, defined as persons from households at or below 80% of Area Median Income (AMI), adjusted by family size. For example, the current low-income limit for a family of four in Placer County is $102,900. However, most of the activities proposed for funding address families at or below the very low-income limit (50% AMI), which is $64,300 for a family of four.

Public Service and Capital Improvements Project Applications

In response to a notice of funding availability published in the Press Tribune, the City received ten applications requesting a total of $227,500 in assistance. All ten applications were for public service programs. Public Service awards are limited to no less than $10,000 and no more than $25,000. Of the ten public service applications received, eight were for ongoing programs under the City's current and past funding year cycles. Staff enlisted the assistance of CDBG staff from surrounding jurisdictions, along with individuals possessing experience and expertise the CDBG program and the needs of low-income populations, to assist in the review and ranking of applications. The funding recommendations are based on numeric ratings, with applications scored out of a possible 100 points.

In accordance with the scoring scale listed above and based on competitive and limited public service funding of 15% of the CDBG grant allocation, only the top five ranked applications are recommended to receive funding. Staff analyzed the estimated amount of CDBG funding and determined that the higher ranked applications would receive a higher percentage of their funding request. The top two rated applications are recommended to receive 100% of their request. The remaining applications are recommended for funding on a sliding scale as follows: the third and fourth ranked applications are recommended to receive 90% of their request, and the fifth ranked is recommended to receive 85% of their request. More detail regarding the funding recommendations can be found below and in Attachment 2.

Public Works

Public Works has identified a significant need for new and upgraded sidewalk curb ramps in lower income neighborhoods to improve accessibility for residents with mobility impairments. These improvements are essential to bring existing sidewalks into compliance with current Americans with Disabilities Act (ADA) standards. The project will focus on the Sierra Gardens neighborhood, removing architectural barriers and ensuring ADA compliance. These upgrades will improve safe, accessible routes along key neighborhood corridors, including Douglas Boulevard, and enhance connections to public destinations such as Maidu Regional Park on Rocky Ridge Drive.

Fair Housing

Providing fair housing counseling and education to both tenants and landlords remains a priority within the City's five-year planning cycle. In October 2024, Council approved a contract with Project Sentinel, a fair housing services provider, to provide these services for the City for up to five years. Pending City Council approval, and the adoption of the Annual Action Plan by HUD, staff will request City Manager approval to execute a second amendment to the contract, in the amount of $16,000, to extend services for the second of four optional renewal years. This extension will enable Project Sentinel to continue delivering fair housing education, support, and resources to Roseville residents, ensuring ongoing compliance with federal and state fair housing laws.

Housing projects

Funds totaling $235,000 are proposed to be allocated to the City's Owner-Occupied Housing Rehabilitation Program. The program currently has approximately $600,000 in State of California HOME funds available. However, certain activities are not eligible for HOME funds but are allowable under CDBG, such as emergency repairs and grant assistance.

The following is a summary of proposed funding in the 2026 Annual Action Plan:

| Project | Prior year carryover Funds & Estimated PI | 2026 CDBG Allocation | Total |
|---|---|---|---|
| Administration and Planning | | $141,465.00 | $141,465.00 |
| Roseville Fair Housing Services | | $16,000.00 | $16,000.00 |
| AMI Housing Homeless Housing Assistance | | $21,250.00 | $21,250.00 |
| Seniors First Meals on Wheels | | $15,000.00 | $15,000.00 |
| St. Vincent de Paul Society BAGS Food Home Delivery Program | | $17,500.00 | $17,500.00 |
| St. Vincent de Paul Society Food Locker Staffing Support | | $22,500.00 | $22,500.00 |
| Stand Up Placer Emergency Response and Crisis Support Initiative | | $22,500.00 | $22,500.00 |
| Roseville Owner-Occupied Housing Rehabilitation Program | $50,000.00 | $180,000.00 | $230,000.00 |
| Public Works ADA Improvements | $732,715.34 | $271,112.00 | $1,003,827.34 |
| Total | | | $1,490,042.34 |

The draft Annual Action Plan (Attachment 1) was made available for public review and comment for a period exceeding the required 30-days, beginning April 3, 2026. The public review period for the draft Annual Action Plan ends May 6, 2026 with Council's action. The City plans to submit the Annual Action Plan to HUD no later than May 15, 2026.

FISCAL IMPACT

The Community Development Block Grant program is funded with federal dollars. The program has reduced costs to the community over the last 40 years. The adoption of the 2026 CDBG Annual Action Plan will not have any fiscal impact to the General Fund.

ENVIRONMENTAL REVIEW

The California Environmental Quality Act (CEQA) does not apply to activities that will not result in a direct

or reasonably foreseeable indirect physical change in the environment, or is otherwise not considered a project as defined by CEQA Statute §21065 and CEQA State Guidelines §15060(c)(3) and §15378. The 2026 Annual Action Plan meets the above criteria and is not subject to CEQA. No additional environmental review is required.

CDBG funds are subject to the National Environmental Protection Act (NEPA) as implemented by HUD at 24 CFR 58. NEPA reviews will be completed for each program and project funded prior to any expenditures for these activities.

CITY COUNCIL STRATEGIC PLAN/OVERARCHING GOALS

1. Ensure a safe and healthy community

## PUBLIC NOTICE

131100

**NOTICE OF PUBLIC COMMENT PERIOD AND PUBLIC HEARING FOR THE CITY OF ROSEVILLE COMMUNITY DEVELOPMENT BLOCK GRANT (CDBG) PROGRAM**

**NOTICE IS HEREBY GIVEN** that the City of Roseville has drafted its 2026 Annual Action Plan for the Community Development Block Grant (CDBG) Program. Each year the City must submit an Annual Action Plan to the federal Department of Housing and Urban Development (HUD) describing the planned use of its CDBG award. The primary objective of CDBG is the development of viable urban communities through the provision of decent housing, a suitable living environment, and expanded economic opportunities for low- and moderate-income individuals/families and communities. The Annual Action Plan describes the City's housing and community needs and the planned actions to address those needs. The City plans to submit the Annual Action Plan HUD by May 15, 2026, but no later than August 16, 2026, pending HUD notifying the City of its 2026 CDBG award.

**NOTICE IS HEREBY GIVEN** that, as of the date of this notice, the City has not been notified of its 2026 CDBG award. The draft Annual Action Plan is based on an estimated award of $700,000, along with uncommitted funds, prior-year carryover, and anticipated program income. Upon receipt of the actual award from HUD, allocations will be adjusted accordingly, and the final Action Plan will reflect the actual award and available funds.

**NOTICE IS HEREBY GIVEN** that the City plans to incur costs for 2026 CDBG activities prior to the award of funds. These costs will be limited to those that the City has found to be necessary for the efficient and timely performance of the CDBG program and the funded activity. Costs will not be incurred prior to the completion of the public comment period, and not prior to the approval of the Annual Action Plan by the City Council. Pre-award costs will not exceed one-half of the estimated award. Pre-award costs will be funded from the 2026 award only. Subsequent award years will not be impacted.

**NOTICE IS HEREBY GIVEN** that the draft Annual Action Plan will be available for public review and comment from April 3, 2026 through May 6, 2026. The draft plan may be viewed on the City's website at www.roseville.ca.us/housing (click on the CDBG link at the bottom of the page), at local public libraries, and at the Housing Division during regular business hours. Comments may be submitted by phone or email to Dani O'Connell, (916) 774-5277, doconnell@roseville.ca.us, or by mail or by utilizing the Housing Drop Box at 316 Vernon Street, Suite 150, Roseville, CA 95678. If you challenge the decision in court, you may be limited to raising only those issues that you or someone else raised at the public hearing described in this notice, or in written correspondence delivered to the City Clerk at or prior to the public hearing.

**NOTICE IS HEREBY GIVEN** that the City Council of the City of Roseville will conduct a public hearing on Wednesday, May 6, 2026 at 6:00 p.m., or as soon thereafter as the matter may be heard, in City Council Chambers at 311 Vernon Street, Roseville, CA. If the Chambers are not available due to construction delays, the hearing will be held at the temporary Chambers, 116 S. Grant Street, 1st Floor. All interested persons are invited to appear and be heard.

Meeting facilities are accessible to persons with disabilities. By request, translation services and documents, as well as alternative accessible document formats are available to persons with varying language needs or disabilities. To arrange an alternative agenda document format or to arrange aid or services to modify or accommodate persons with a disability to participate in a public meeting, please contact the City of Roseville by calling 916-774-5270 (voice) or (916) 774-5220 (TDD) a minimum of two business days prior to the meeting.

## PUBLIC NOTICE

131101

**AVISO DEL PERÍODO DE COMENTARIOS PÚBLICOS Y AUDIENCIA PÚBLICA PARA EL PROGRAMA DE SUBVENCIÓN EN BLOQUE PARA EL DESARROLLO COMUNITARIO (CDBG) DE LA CIUDAD DE ROSEVILLE**

**SE ESTÁ AVISANDO** que la Ciudad de Roseville ha preparado un borrador de su Plan de Acción Anual 2026 para el Programa de Subvención en Bloque para el Desarrollo Comunitario (CDBG, por sus siglas en inglés). Cada año, la Ciudad debe presentar un Plan de Acción Anual al Departamento Federal de Vivienda y Desarrollo Urbano (HUD, por sus siglas en inglés), en el cual se describe el uso previsto de los fondos CDBG. El objetivo principal del programa CDBG es el desarrollo de comunidades urbanas viables mediante la provisión de viviendas adecuadas, un entorno de vida apropiado y mayores oportunidades económicas para personas, familias y comunidades de ingresos bajos y moderados. El Plan de Acción Anual describe las necesidades de vivienda y de la comunidad, así como las acciones planificadas para atender dichas necesidades. La Ciudad tiene previsto presentar el Plan de Acción Anual a HUD antes del 15 de mayo de 2026, pero no más tarde del 16 de agosto de 2026, dependiendo de cuándo HUD notifique a la Ciudad sobre la asignación de fondos CDBG para 2026.

**SE ESTÁ AVISANDO** que, a la fecha de este aviso, la Ciudad no ha sido notificada de su asignación del programa CDBG para 2026. El borrador del Plan de Acción Anual se basa en una asignación estimada de $700,000, junto con fondos no comprometidos, remanentes de años anteriores y los ingresos del programa previstos. Una vez que se reciba la asignación real de HUD, las asignaciones se ajustarán en consecuencia, y el Plan de Acción final reflejará la asignación real y los fondos disponibles.

**SE ESTÁ AVISANDO** que la Ciudad planea incurrir en costos para actividades del programa CDBG 2026 antes de la asignación oficial de fondos. Estos costos se limitarán a aquellos que la Ciudad determine como necesarios para el desempeño eficiente y oportuno del programa CDBG y de la actividad financiada. No se incurrirá en costos antes de la finalización del período de comentarios públicos ni antes de la aprobación del Plan de Acción Anual por el Concejo Municipal. Los costos previos a la asignación no excederán la mitad de la asignación estimada. Estos costos serán financiados únicamente con la asignación de 2026. Los años de asignación posteriores no se verán afectados.

**SE ESTÁ AVISANDO** que el borrador del Plan de Acción Anual estará disponible para revisión y comentarios del público desde el 3 de abril de 2026 hasta el 6 de mayo de 2026. El borrador del plan puede consultarse en el sitio web de la Ciudad en www.roseville.ca.us/housing (haga clic en el enlace CDBG al final de la página), en las bibliotecas públicas locales y en la División de Vivienda durante el horario habitual de atención. Los comentarios pueden enviarse por teléfono o correo electrónico a Dani O'Connell, (916) 774-5277, doconnell@roseville.ca.us, o por correo postal o utilizando el buzón de la División de Vivienda ubicado en 316 Vernon Street, Suite 150, Roseville, CA 95678. Si usted impugna la decisión ante un tribunal, puede estar limitado a plantear únicamente aquellos asuntos que usted u otra persona hayan planteado en la audiencia pública descrita en este aviso, o en correspondencia escrita entregada al Secretario Municipal en o antes de la audiencia pública.

**SE ESTÁ AVISANDO** que el Concejo Municipal de la Ciudad de Roseville llevará a cabo una audiencia pública el miércoles 6 de mayo de 2026 a las 6:00 p.m., o tan pronto como se puede escuchar, en el Salón del Concejo Municipal (Council Chambers) en 311 Vernon Street, Roseville, CA. Si el Salón no está disponible debido a retrasos en la construcción, la audiencia se llevará a cabo en el salón temporal, ubicadas en 116 S. Grant Street, primer piso. Personas interesadas están invitadas a aparecerse y ser escuchadas.

Las instalaciones para reuniones son accesibles para personas con discapacidades. A pedido, los servicios y documentos de traducción, así como los formatos de documentos alternativos accesibles, están disponibles para personas con necesidades o discapacidades lingüísticas variables. Para organizar un formato de documento de agenda alternativo o para organizar ayuda o servicios para modificar o acomodar personas con discapacidad para participar en una reunión pública, comuníquese con la Ciudad de Roseville llamando al 916-774-5270 (voz) o (916) 774- 5220 (TDD) un mínimo de dos días hábiles antes de la reunión.

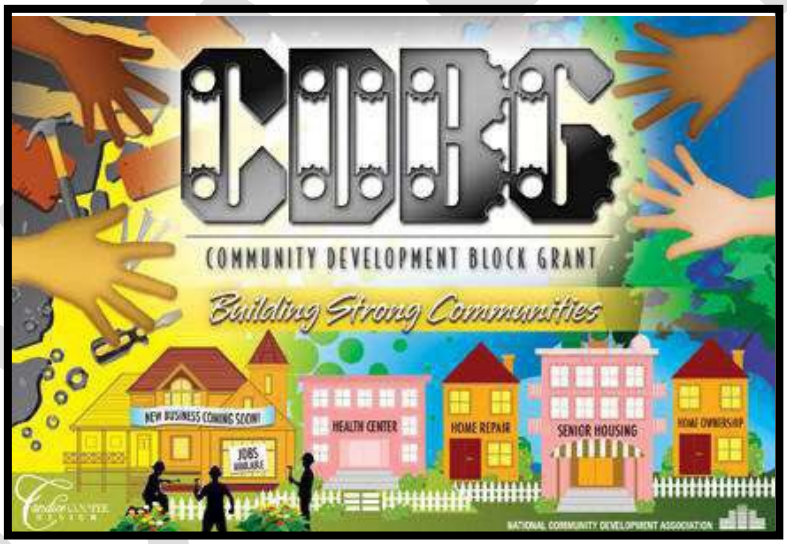
# 2026 Annual Action Plan

## (July 1, 2026 – June 30, 2027)



DRAFT

# Executive Summary

## AP-05 Executive Summary - 24 CFR 91.200(c), 91.220(b)

### 1. Introduction

The 2026-2027 Annual Action Plan constitutes the second year of the 2025-2029 Five-year Consolidated Planning period.

The City of Roseville (City) will receive $707,327 in Community Development Block Grant (CDBG) funds from the U.S. Department of Housing and Urban Development (HUD) for Program Year (PY) 2026 (July 1, 2026 through June 30, 2027). CDBG funds are designated for the promotion of affordable housing and community development programs for lower-income residents. The 2026 Annual Action Plan provides an overview of the City's use of CDBG funds to address community needs established in the 2025-2029 Consolidated Plan.

Federal regulations require that at least 70% of CDBG funds must be used for projects that primarily benefit persons under the Low- and Moderate-Income limit defined as persons from households at or below 80% of Area Median Income (AMI) for Placer County. Low-and Moderate-Income persons and households are referred to as Low-Income throughout this document. The remainder of CDBG funds may be used to address slum and blight, or to address an urgent and unexpected community need such as floods or earthquakes.

Under CDBG regulations, projects serving an area with 51% or more low-income residents may be eligible for CDBG funding on an Area Benefit basis using census data. An exception is allowed for communities with few or no qualifying areas.

The City of Roseville is designated by HUD as an Exception Grantee under the CDBG program. As a result, activities qualifying under the Low- and Moderate-Income (LMI) Area Benefit national objective must serve an area in which at least 46.81% of residents are low- and moderate-income, rather than the standard 51% threshold. The City uses the most recent HUD Low- and Moderate-Income Summary Data to determine eligibility for Area Benefit activities and will apply any updated Exception Grantee thresholds released by HUD during the PY 2026 planning cycle.

The City of Roseville's Housing Division is the lead agency responsible for the development of the Consolidated Plan and Annual Action Plan. The Housing Division is also the primary agency responsible for the administration and management of programs and projects covered by the Consolidated Plan and identified in the Annual Action Plan (Plan).

The City plans to incur costs for 2026 CDBG activities prior to the award of funds. These costs will be limited to those that the City has found to be necessary for the efficient and timely performance of the CDBG program and the funded activity. Costs will not be incurred prior to the completion of the public comment period, and not prior to the approval of the Annual Action Plan by the City Council. Pre-award costs will not exceed one-half of the estimated award. Pre-award costs will be

funded from the 2026 award only. Subsequent award years will not be impacted.

The City will utilize CDBG funds as well as other Federal, State and local resources, including its Housing Choice Voucher Rental Assistance Contract, State Administered HOME funds, and local developer contributions to address housing and community development priority needs identified in the Consolidated Plan.

The Annual Action Plan identifies a variety of activities, including public services, public facility improvements and housing activities the City proposes to undertake during PY 2026 to meet underserved needs identified in the Consolidated Plan. In addition, the Action Plan discusses the actions the City will take to address: lead-based paint hazards; barriers to affordable housing; housing needs of households at or below the poverty level; and Fair Housing resource needs. All proposed activities address the CDBG primary national objective of addressing the needs of Low- and Moderate-Income persons.

## 2. Summarize the objectives and outcomes identified in the Plan

This could be a restatement of items or a table listed elsewhere in the plan or a reference to another location. It may also contain any essential items from the housing and homeless needs assessment, the housing market analysis or the strategic plan.

The City will allocate investment of resources on a city-wide basis for affordable housing programs such as the Section 8 Housing Choice Voucher and Owner-Occupied Housing Rehabilitation Program. In addition, rental and purchase units provided under the City's 10% Affordable Housing Goal will be offered on a City-wide basis.

Activities identified under the public service category and targeted to special needs populations will be offered on a city-wide basis and/or where resources can be coordinated with existing facilities or services.

In addition, the City will support the development and rehabilitation of public infrastructure serving low- and moderate-income areas, including installation and improvement of curb ramps to enhance accessibility, mobility, and ADA compliance.

The City will continue to apply for funding and/or support applications by service providers to expand affordable housing opportunities as well as homeless assistance and supportive services consistent with the Consolidated Plan.

**Affordable Housing** —The Roseville Housing Authority will apply for additional Housing Choice Vouchers, if made available, to increase the number of extremely low and very low-income households receiving rental assistance. The City will continue to implement the City's 10% Affordable Housing Goal to increase the number of rental and purchase units affordable to very low, low, and moderate income households; support private development of affordable housing using Low Income Housing Tax Credits (LIHTCs), Tax Exempt Bond financing, and city and state Local Housing Trust Funds (LHTF); utilize HOME (state) Program Income funds in order to continue to expand the City's Housing Rehabilitation Programs for low-income households. Under this plan,

the City will allocate CDBG funding towards development of housing affordable to Low-Income Households.

**Homeless** — The City will continue its efforts to meet the underserved needs of the homeless population through participation in a county-wide Continuum of Care process.

**Supportive Services** — The City will continue its support of applications by public and private social service agencies to expand support services to help meet underserved needs. The City will provide CDBG funding for a variety of public services in Roseville.

### 3. Evaluation of past performance

This is an evaluation of past performance that helped lead the grantee to choose its goals or projects.

During PY 2024, the City expended CDBG funds on eligible activities that primarily benefit low- and moderate-income persons. Consistent with the goals outlined in the Consolidated Plan and Annual Action Plan, CDBG funds supported public services, public facility improvements, and housing rehabilitation activities. These programs were designed to address the needs of vulnerable populations, including seniors, individuals and families experiencing homelessness, and households at risk of homelessness.

The PY 2024 Action Plan included a proposed project to support the development of affordable rental housing through property acquisition for future development, anticipated to benefit four low-income households and advance the City's Consolidated Plan goal of increasing affordable housing opportunities. Due to insufficient funding to attract viable development proposals or meaningfully advance a project, the City postponed issuing a Notice of Funding Availability (NOFA) and carried forward $392,336 to PY 2025 to combine with additional resources. In PY 2025, the City issued the Affordable Housing Acquisition Project NOFA on three separate occasions; however, no viable or eligible proposals were received. As a result, the City was unable to proceed with awarding funds, and the full $700,000 allocation will be reprogrammed to the PY 2026 Action Plan for a different eligible activity that will allow for more effective and timely use of CDBG funds.

Over the course of PY 2024, the Housing Division assisted 1,552 low-income individuals and four low-income households through CDBG and other housing and community development programs. CDBG-funded activities supported housing rehabilitation, public services, and programs providing homeless shelter and homelessness prevention services. In addition, a portion of CDBG funds supported administrative costs necessary for the Housing Division to effectively manage and implement these programs.

Overall, PY 2024 activities contributed to the City's ongoing efforts to improve housing stability, expand access to essential services, and address the needs of vulnerable residents. Lessons learned from program implementation, including the need to align funding levels with feasible project opportunities, have informed the City's planning and funding strategies for the upcoming program year.

The Roseville Housing Authority (federal rental assistance program) assisted 781 households with $10,549,060 million in rental subsidies. This includes regular Housing Choice Vouchers, Non-Elderly Disabled (NED) vouchers, Veterans Affairs Supportive Housing (VASH) vouchers, Mainstream Vouchers, Emergency Housing Vouchers, Foster Youth Initiative, and Project-Based Vouchers.

The City uses other Federal, State and local resources when available, including Housing Choice Voucher Rental Assistance Contracts, State-administered HOME funds, and local developer contributions to address housing and community development priority needs identified in the Consolidated Plan.

**4. Summary of Citizen Participation Process and consultation process**

Summary from citizen participation section of plan.

Throughout the preparation of the Annual Action Plan, City staff sought input and collected data for the Plan from interested citizens, housing providers, service providers, local agencies and non-profit organizations. The City encouraged others to participate in the development of the Plan via public notice and invitations to a public meeting to more than one hundred regional and local services agencies, non-profit organizations, city staff, and interested individuals. Notices were published in the *Roseville Press Tribune* in both English and Spanish. Notices were emailed to community organizations serving low-income and homeless populations, the Hispanic community and service providers.

Public meetings were held in January 2026 and May 2026. For those unable to attend the public meetings the invitation encouraged written comments to be submitted.

The January 2026 meeting began the Action Plan process; the purpose of the Plan was discussed during this meeting. Those attending the meeting were encouraged to identify community needs and proposed strategies for meeting those needs. This meeting was followed by a hybrid applicant workshop which discussed the 2026/2027 application for CDBG funding. Seven staff from six agencies attended the CDBG 2026/27 Community Workshop. Agencies present were: PRIDE Industries, Unity Care, The Taylor House, Big Brother Big Sisters, Latino Leadership Council and AMI Housing.

Notices of funding availability were published in the *Roseville Press Tribune* in both English and Spanish. Notices were emailed to community organizations serving low-income and homeless populations, the Hispanic community and service providers.

Applications for funding requests for the 2026 Program Year were accepted online. The City received $227,500 in public services grant requests.

Funding for the public services category is subject to a 15% federal cap. According to the City's PY 2026 allocation of $707,327, plus 15% of program income received in program year 2025, the maximum amount available for public service activities is $117,418.50.

On April 3, 2026, the draft 2026 Annual Action Plan for the CDBG program was made available for public review at the City's Housing Division office, at the City's Public Library locations, and electronically on the City of Roseville Housing Division CDBG webpage to ensure broad public access. The public comment period will be open for at least 30 days from April 3, 2026 through May 6, 2026. A public hearing will be held before the Roseville City Council on May 6, 2026 to receive public comments on the draft Action Plan. [Pending – Public comment period closes on May 6, 2026. Any comments received and responses will be included in the final Action Plan.]

Notices announcing the availability of the draft Action Plan and the public hearing were published in the *Roseville Press Tribune* in both English and Spanish. Notices were also emailed to community organizations serving low-income residents, individuals experiencing homelessness, members of the Hispanic community, and other local service providers.

## 5. Summary of public comments

This could be a brief narrative summary or reference an attached document from the Citizen Participation section of the Con Plan.

The City provided notice to dozens of local agencies and individuals on the City's grants interest list, published notices in both English and Spanish, and provided a public comment period in excess of the required 30 day period.

During the public comment period and community meetings, residents and stakeholders provided input regarding housing, homelessness, and community service needs. The following summarizes the key themes expressed by community members.

A community member submitted a comment regarding the impacts of homeless encampments on local wildlife habitat and waterways, particularly in riparian areas where debris can accumulate and affect creek conditions and public health. The commenter noted concerns about endangered salmon and ongoing community creek cleanup efforts and suggested that reducing homelessness, including through increased housing opportunities, may help address these impacts. The commenter also encouraged the City to explore potential government funding opportunities, such as state programs, to support creek cleanup efforts.

Community members provided comments regarding housing instability, homelessness, and service gaps affecting vulnerable populations. One commenter emphasized the need for increased resources to address homelessness, including permanent supportive housing and the conversion of existing buildings for housing opportunities, and highlighted the challenges faced by individuals with severe mental illness and families with students experiencing homelessness. Another commenter noted increasing demand for youth services, particularly for transitional-aged youth experiencing mental health challenges, and encouraged continued investment in mental health support and mentoring programs to improve youth wellbeing and educational outcomes. A third commenter described growing financial hardship among families in the community, including increased need for rental assistance and prevention services, and expressed concern about

reduced funding from other sources for non-profit programs that provide behavioral health and early intervention services, which may leave additional gaps in support for vulnerable households.

[Pending – Public comment period closes on May 6, 2026. Any additional comments received and responses will be included in the final Action Plan.]

## 6. Summary of comments or views not accepted and the reasons for not accepting them

The City considers and reviews all comments received during the public participation process. [Pending – Public comment period closes on May 6, 2026. Any comments received and responses will be included in the final Action Plan.]

## 7. Summary

The following notices were provided regarding the draft 2026 Annual Action Plan.

NOTICE OF FUNDING AVAILABILITY (NOFA) FOR THE 2026/27 COMMUNITY DEVELOPMENT BLOCK GRANT (CDBG) AND HOMELESS PREVENTION AND RAPID REHOUSING (HPRR) FUNDS; AND NOTICE OF PUBLIC MEETING FOR THE CDBG AND HPRR APPLICANT WORKSHOP AND PREPARATION OF THE 2026 ANNUAL ACTION PLAN
1. 12/4/25 emailed all applicant contacts for CDBG and grants distribution list
2. 12/4/25 sent to list administrators of Continuum of Care
3. 12/5/25 posted on City website
4. 12/5/25 published in the *Roseville Press Tribune*
5. 12/5/25 sent to list administrators and membership of Placer Collaborative Network e-mail listserv program@placercf.org (Eileen Speaker)
6. 12/16/25 notice of public meeting sent out via "We Are Roseville" electronic newsletter to City residents

NOTICE OF PUBLIC COMMENT PERIOD AND PUBLIC HEARING FOR THE CITY OF ROSEVILLE COMMUNITY DEVELOPMENT BLOCK GRANT (CDBG) PROGRAM
6. 4/3/26 posted on the City's website
7. 4/3/26 posted on City Hall bulletin board
8. 4/3/26 sent to list administrators and membership of Placer Collaborative Network e-mail listserv program@placercf.org (Eileen Speaker); Continuum of Care; Latino Leadership Council
9. 4/3/26 published in the *Roseville Press Tribune*

Please find attached supporting documentation including proof of publication.

<u>Community Needs and Applicant Workshop</u>
On January 8, 2026 the City held a hybrid community meeting to solicit public comments on local priority needs that guided the preparation of the City of Roseville's 2026 Annual Action Plan. This meeting was followed by a hybrid applicant workshop which discussed the 2026/2027 application for CDBG funding. Seven staff from six agencies attended the CDBG 2026/27 Community

Workshop. Agencies present were: PRIDE Industries, Unity Care, The Taylor House, Big Brother Big Sisters, Latino Leadership Council and AMI Housing.

During the community meeting, commenters discussed several housing and community service needs. Participants emphasized the importance of addressing homelessness through increased housing and supportive services, particularly for individuals with mental health challenges and families experiencing housing instability. Commenters also highlighted the need for expanded youth services and mental health support programs. In addition, community members noted growing financial hardship among families and the need for rental assistance and prevention services, as well as concerns about potential reductions in funding from other sources that support non-profit service providers. The City appreciates the community's input and will continue to consider these perspectives when implementing housing and community development programs.

Draft Annual Action Plan Publication

On April 3, 2026, the draft 2026 Annual Action Plan for CDBG was made available for review at the City's Housing Division Office 316 Vernon Street, Ste. 150, at the City's Public Library locations, and on the City of Roseville Housing Division CDBG page, found on the Housing Division webpage at: www.roseville.ca.us/housing. The draft 2026 Annual Action Plan will also be published as part of the agenda for the May 6, 2026 City Council meeting. [Pending – Please see the attached agenda report and minutes of the meeting.] Copies of the document will be made available to the public free of charge within five days of a request.

30 Day Public Comment Period

The draft Action Plan will be available for public comment from April 3, 2026 to May 6, 2026. [Pending – Public comment period closes on May 6, 2026. Any comments received and responses will be included in the final Action Plan.]

Public Hearing

On May 6, 2026 the City Council will hold a public hearing at a regularly scheduled meeting. In addition to the public notices described above, the City publishes the agenda of City Council meetings. The public will be afforded the opportunity to address the Council at the hearing. [Pending – Public comment period closes on May 6, 2026. Any comments received and responses will be included in the final Action Plan.] [The Roseville City Council will consider adoption of the 2026 Annual Action Plan and staff recommendations for funding at its meeting on May 6, 2026.]

DRAFT

## PR-05 Lead & Responsible Agencies – 91.200(b)

### 1. Agency/entity responsible for preparing/administering the Consolidated Plan

Describe the agency/entity responsible for preparing the Consolidated Plan and those responsible for administration of each grant program and funding source.

| Agency Role | Name | Department/Agency |
|---|---|---|
| | | |
| CDBG Administrator | ROSEVILLE | Economic Development Department - Housing Division |

**Table 1 – Responsible Agencies**

### Narrative (optional)

The City of Roseville Housing Division serves as the lead agency for administering HUD Community Development Block Grant (CDBG) funds and implementing the Consolidated Plan and the Annual Action Plans.

### Consolidated Plan Public Contact Information

Dani O'Connell, Housing Analyst
City of Roseville - Housing Division
316 Vernon Street Ste. 150
Roseville, CA 95678

Trisha Isom, Housing Manager
City of Roseville - Housing Division
316 Vernon Street Ste. 150
Roseville, CA 95678
Tel: (916) 746-1239
Fax: (916) 746-1295
tisom@roseville.ca.us

DRAFT

## AP-10 Consultation – 91.100, 91.200(b), 91.215(l)

### 1. Introduction

The consolidated planning process requires jurisdictions to contact and consult with other public and private agencies when developing the Annual Action Plan. The Plan itself must include a summary of the consultation process, including identification of the agencies that participated in the process. Jurisdictions are required to summarize their efforts to enhance coordination between public and private agencies.

### Provide a concise summary of the jurisdiction's activities to enhance coordination between public and assisted housing providers and private and governmental health, mental health and service agencies (91.215(l))

In preparing the Annual Action Plan, the City consulted with various organizations located in Roseville and Placer County that provide services to low-income residents of Roseville. In many instances, these consultations are part of ongoing interactions between Roseville's Housing Division and the agency or group described.

City of Roseville

1. City Council - Conducts a public hearing prior to authorization of the submission of the Consolidated Plan and Annual Action Plan to HUD.
2. City of Roseville Housing Division - Responsible for development of the Consolidated Plan and Annual Action Plan governing the use of CDBG funding, including the citizen participation process. Administers the CDBG program and State of California HOME funded activities.
3. City of Roseville Development Services Department Planning Division - Reviews CDBG and HOME funded development projects to determine whether proposed development activities comply with the General Plan and Zoning Code; is responsible for drafting the Roseville General Plan 2035, adopted in 2020, including the Housing Element which was updated and certified in 2021. The update has been cited throughout this Plan as the Housing Element of the General Plan 2021-2029.
4. City of Roseville Economic Development Department - Provides assistance with business needs such as starting or expanding a business, finding a site, or connecting with other City services.
5. Roseville Housing Authority - Addresses the housing needs of extremely low- and low-income residents in the City through a variety of programs including the Housing Choice Voucher Program.

DRAFT

County of Placer

1. Placer County Community Development Department, Planning Services Division - Coordinates the housing programs and funding. Responsible for drafting the Placer County General Plan Housing Element, as well as an incentive program intended to encourage the development of new affordable housing units in the unincorporated areas.
2. Placer County Department of Health and Human Services, Behavioral Health Division - Provides information regarding the needs of Placer County residents who have mental disabilities. Representatives of this division also participate in various Continuum of Care working groups.
3. Placer County Department of Health and Human Services, Public Health Division - Provides information regarding the potential of lead-based paint hazards in the county.

**Describe coordination with the Continuum of Care and efforts to address the needs of homeless persons (particularly chronically homeless individuals and families, families with children, veterans, and unaccompanied youth) and persons at risk of homelessness.**

Significant aspects of the Consolidated Plan development process included consultations with the Homeless Resource Council of the Sierras (HRCS) which acts as the Nevada-Placer Continuum of Care (CoC), Placer Collaborative Network (PCN), and the Placer Consortium on Homelessness (PCOH). Efforts to address the needs of homeless persons are described in greater detail later in this Plan.

The PCOH is a regional planning group of the HRCS. Representatives include members from the faith-based community, nonprofits, businesses, and City and County government. The CoC's annual submissions to HUD reflect the demographics, needs and available shelter, housing, and services in all three HUD entitlement grantees within its jurisdiction to provide a cohesive shelter system throughout the County.

A complete inventory of facilities and services provided throughout Placer County, including Roseville, is identified on the Homeless Resource Council of the Sierras Continuum of Care website at www.hrcscoc.org.

**Describe consultation with the Continuum(s) of Care that serves the jurisdiction's area in determining how to allocate ESG funds, develop performance standards for and evaluate outcomes of projects and activities assisted by ESG funds, and develop funding, policies and procedures for the operation and administration of HMIS**

Homeless Resource Council of the Sierras (HRCS) Governance Board

The City of Roseville collaborates with HRCS (the Nevada-Placer Continuum of Care) to address the needs of people experiencing or at risk of homelessness. The Continuum of Care for Roseville/Rocklin/Placer County is a standing advisory committee to the Homeless Resource Council of the Sierras (HRCS) and brings people together in collaboration to develop, coordinate and support projects, services and resources that will enhance our partners' ability to prevent and end homelessness in Placer County. HRCS is the "collaborative applicant" and administrative entity for the Placer and Nevada counties' continuums of care. Efforts are aimed at permanent solutions, and the range of services is designed to meet the unique and complex needs of individuals who are currently experiencing homelessness or are at risk of becoming homeless. HRCS and the CoC respond to and implement HUD's Policy and Program Priorities and oversee all planning processes, the regional planning groups, committees, and the Program and Emergency Solutions Grant (ESG) application processes. A HRCS subcommittee administers the Rating and Ranking process

Regional Planning Groups

Three Regional Planning Groups are directly involved in CoC-wide planning activities including setting priorities, reviewing performance data, project review and selection, discharge planning, the Consolidated Application, and conducting homeless counts. Each addresses homelessness in its own area and then forwards that information to the Governance Board. The Placer Consortium on Homelessness (PCOH) covers the more populated western part of Placer County that includes Roseville, Rocklin, Lincoln, Loomis, Auburn, and the foothills. The Nevada County Coordinating Council addresses Nevada City, Grass Valley, North San Juan, Penn Valley, and Alta Sierra. The Tahoe Truckee Homelessness Group covers both counties in the greater North Lake Tahoe and Truckee region.

These regional planning groups ensure that homeless needs from all areas of the CoC are represented. The groups are inclusive, and all those involved with homeless services are recruited. The CoC supports currently or formerly homeless individuals in attending; extensive e-mail to listserv groups is used to reach out to all sectors of the CoC areas. The HRCS Board is representative of all areas of the CoC and all targeted homeless populations. To maximize funding opportunities, there are two continuums; CA-515 and CA531. HRCS is the collaborative applicant and coordinator amongst the two Continuums of Care.

Outcomes and Measurements

The Outcomes and Measurements Committee addresses the CoC's overall outcomes, application ranking, as well as monitoring the writing of the homeless strategies plan. The Committee sets selection criteria and organizes the Rating and Ranking panels for specific funding sources such as the CoC Program and ESG funds. The Committee is responsible for developing performance measurements and

reviews all CoC Program and ESG-funded projects on an annual basis. The Committee presents its work to the regional planning groups and the HRCS Governance Board.

The Outcomes and Measurements Committee uses a rating and ranking panel that is responsible for developing, implementing, and improving the Coordinated Assessment process and the ESG Written Standards for identifying areas where the CoC Program and the ESG Programs should be integrated. No jurisdiction within the two counties receives ESG funds directly from HUD; therefore, the agencies must apply to the California Department of Housing and Community Development (HCD) for ESG funds

## 2. Describe Agencies, groups, organizations and others who participated in the process and describe the jurisdiction's consultations with housing, social service agencies and other entities

### Identify any Agency Types not consulted and provide rationale for not consulting

The City of Roseville contacted all known agencies working with lower-income residents and neighborhoods regarding development of the Annual Action Plan.

### Other local/regional/state/federal planning efforts considered when preparing the Plan

| Name of Plan | Lead Organization | How do the goals of your Strategic Plan overlap with the goals of each plan? |
|---|---|---|
| Continuum of Care | Homeless Resource Council of the Sierras (HRCS) | Serving the basic needs of the homeless community is the CoCs primary concern. The City of Roseville Consolidated Plan identifies addressing homelessness as a high priority need and is a goal of the Annual Action Plan. |

**Table 3 – Other local / regional / federal planning efforts**

### Narrative (optional)

Broadband issues are a concern for low-income residents. The City's Housing Authority has provided information regarding low cost internet service to its clients, and information has been advertised through the City's social media and city newsletter platforms. This service is called the Affordable Connectivity Program and it provides households $30 a month to cover the cost of internet service. Regarding disaster resiliency, the City has a partnership with Placer County's 211, which provides residents with information, local services, emergency or disaster recover assistance. Additionally, the City has an Emergency Management Team that operates during emergencies but also meets regularly to be prepared for emergencies of all types. The City will continue to seek consultation on this in the future and continue to work to address these issues as they come up.

DRAFT

## AP-12 Participation – 91.105, 91.200(c)

### 1. Summary of citizen participation process/Efforts made to broaden citizen participation

**Summarize citizen participation process and how it impacted goal-setting**

The City gathers input from the community throughout the year, including calls from residents and participation in stakeholder meetings, to identify local needs and potential projects. In addition, the City conducts a community meeting and a public hearing, accompanied by public notices published in the local English-language newspaper. To engage the Spanish-speaking community, the City provides translated notices in Spanish in the same newspaper, posts them on the City website, and distributes them to the Latino Leadership Council, a local organization comprised of nonprofit agencies and community groups. Feedback collected through these efforts helps the City identify priority needs and informs the development of goals, strategies, and funding allocations in the Action Plan.

# Expected Resources

## AP-15 Expected Resources – 91.220(c)(1,2)

### Introduction

During the five-year Consolidated Plan period, the City estimates receipt of $700,000 annually in CDBG funds from HUD and $50,000 annually in program income generated by previous CDBG funded activities. The City primarily uses CDBG funds for public services, housing and homeless activities and administrative costs. The table below provides a breakdown of anticipated CDBG funding over the first year of the planning period.

In addition to CDBG funding received directly from HUD, the City currently has approximately $619,000 in State of California HOME funds (all Program Income) available for housing rehabilitation and administrative costs.

The City has been notified that its 2026 CDBG award amount is $707,327. The City is also reprogramming $732,715.34 in prior year carryover funds, consisting of $32,715.34 in unexpended (deobligated) funds and $700,000 in uncommitted funds. Any additional carryover funds, currently estimated but not yet finalized, will be allocated to the Owner-Occupied Housing Rehabilitation Program (OOR) activity.

### Anticipated Resources

| Program | Source of Funds | Uses of Funds | Expected Amount Available Year 1 | | | | Expected Amount Available Remainder of ConPlan $ | Narrative Description |
|---|---|---|---|---|---|---|---|---|
| | | | Annual Allocation: $ | Program Income: $ | Prior Year Resources: $ | Total: $ | | |

The City anticipates receiving $50,000 in CDBG program income available for FY2026-27. In addition, the City has $32,715.34 in prior-year deobligated (unexpended) funds and $700,000.00 in prior-year uncommitted funds available for reprogramming. |

**Table 5 - Expected Resources – Priority Table**

### Explain how federal funds will leverage those additional resources (private, state and local funds), including a description of how matching requirements will be satisfied

The City's CDBG and State of California HOME funds are often coupled with local funds, allowing capital projects to compete for tax credits, bonds, and other state financing programs. An investment by the City makes projects more competitive under many funding programs. The City's public service grants are limited to $25,000 to encourage programs to use CDBG as leverage for other funding sources. The City uses local funds as explained below to leverage CDBG public service funding available for low- and moderate-income residents.

The HUD CDBG Entitlement program and the State HOME program do not require matching funds. However, the City is committed to being as creative as possible to seek local, state, federal, and private resources to develop and deliver efficient and cost-effective projects.

DRAFT

**If appropriate, describe publicly owned land or property located within the jurisdiction that may be used to address the needs identified in the plan**

The City owns one piece of surplus property which was released in an RFP in the spring of 2025. The property is located at the corner of Royer Street and Taylor Street and as part of the City's Downtown Specific Plan, will prioritize development of a 100% affordable housing project. The City is in talks with one affordable housing developer to deliver an affordable housing project in the future.

**Discussion**

The City of Roseville Citizen's Benefit Fund was established in 1993 following the sale of the city-owned Roseville Hospital. The proceeds were placed in a trust and a portion of the interest earned each year is made available for grants with the purpose of improving the quality of life for the citizens of Roseville. Public agencies, schools and non-profit 501(c)3 or 501(c)4 are eligible to apply.

The Roseville Employees Annual Charitable Hearts Fund (REACH) is a community giving fund created through the generosity of Roseville employees and retirees. These employee-donated funds are dispersed to local charitable organizations that serve youth, seniors and families in the South Placer County region.

# Projects

## AP-35 Projects – 91.220(d)

### Introduction

During PY 2026, the City of Roseville will use CDBG funds to address the following needs identified in the 2025-2029 Consolidated Plan:

High Priority Needs:

- Shelter, housing, and services to address homelessness

Priority Needs:

- Services for seniors and persons with disabilities
- Fair housing services
- Maintain existing homeownership housing stock
- Services for sexual assault/domestic violence victims
- Infrastructure and Public Facilities
- Food and nutrition services for low- and moderate-income persons

**Projects**

| # | Project Name |
|---|---|
| 1 | Administration and Planning (2026-01) |
| 2 | Roseville Fair Housing Services (2026-02) |
| 3 | AMI Housing Homeless Housing Assistance (2026-03) |
| 4 | Seniors First Meals on Wheels (2026-04) |
| 5 | St. Vincent de Paul Society BAGS Home Delivery (2026-05) |
| 6 | St. Vincent de Paul Society Food Locker Staffing Support (2026-06) |
| 7 | Stand Up Placer Emergency Response and Crisis Support Initiative (2026-07) |
| 8 | Roseville Owner-Occupied Housing Rehabilitation Program (2026-08) |
| 9 | Sierra Gardens ADA Improvements (2026-09) |

**Table 7 - Project Information**

### Describe the reasons for allocation priorities and any obstacles to addressing underserved needs

All projects address priority needs in the 2025-2029 Consolidated Plan. Applications were

evaluated based on the following criteria: meeting a CDBG National Objective, CDBG eligibility, performance on prior year grants, monitoring compliance, administrative capacity, project feasibility and fiscal responsibility. Remaining funds were allocated to fair housing services, the Roseville Owner-Occupied Housing Rehabilitation Program, and Infrastructure Accessibility Improvements, including curb ramps to enhance accessibility, supporting safe and accessible public infrastructure for all residents, including seniors and people with disabilities.

Community and local service providers identified the need for more affordable housing as a high priority for Roseville. The most significant obstacle to creating affordable housing is the high cost of development in the region and throughout California. The Roseville Housing Division will continue to work with affordable housing developers to increase housing opportunities available and affordable to low-income residents over the course of the five-year Consolidated Plan.

| | **Estimate the number and type of families that will benefit from the proposed activities** | Approximately 613 persons with disabilities. |
| | **Location Description** | Southeast Roseville between Douglas Boulevard and Linda Creek. |
| | **Planned Activities** | Accessibility improvements to remove architectural barriers and create safe, ADA-compliant routes in the Sierra Gardens neighborhood and enhance safe, accessible travel for persons with disabilities. Activities include upgrading approximately 90 curb ramps and relocating drainage inlets as needed to accommodate the ramp upgrades. |

DRAFT

## AP-50 Geographic Distribution – 91.220(f)

### Description of the geographic areas of the entitlement (including areas of low-income and minority concentration) where assistance will be directed

The City of Roseville does not allocate funding on a geographic basis. Funds are allocated to organizations and projects providing low-income households with housing and supportive services, and to activities addressing the needs of low-income neighborhoods. The City prioritizes the use of CDBG, HOME and other federal and State funding for the development and preservation of affordable housing serving low-income households and addressing homelessness.

The City allocates investment of affordable housing resources on a citywide basis. The City's affordable housing programs include the Housing Choice Voucher program and the Owner-Occupied Housing Rehabilitation program. In addition, rental and purchase units created under the City's 10% Affordable Housing Goal are offered on a citywide basis. Public service activities targeted to special needs populations are offered on a citywide basis and/or where resources can be coordinated with existing facilities or services.

### Geographic Distribution

| Target Area | Percentage of Funds |
|---|---|
| | |

**Table 8 - Geographic Distribution**

### Rationale for the priorities for allocating investments geographically

Not applicable.

### Discussion

The City offers projects and programs funded with CDBG and other housing resources on a citywide basis.

DRAFT

# Affordable Housing

## AP-55 Affordable Housing – 91.220(g)

### Introduction

Affordable housing is one of the highest priority concerns identified in the consolidated planning process. The development of affordable housing is constrained by the cost of land, construction, fees and financing. The City of Roseville is committed to maintaining the existing affordable housing stock and increasing the supply of affordable housing available to low-income families. The numbers in the charts below represent housing activities planned for PY 2026, including rehabilitation of owner-occupied housing.

| One Year Goals for the Number of Households to be Supported | |
|---|---|
| Homeless | 0 |
| Non-Homeless | 4 |
| Special-Needs | 0 |
| Total | 4 |

**Table 9 - One Year Goals for Affordable Housing by Support Requirement**

| One Year Goals for the Number of Households Supported Through | |
|---|---|
| Rental Assistance | 0 |
| The Production of New Units | 0 |
| Rehab of Existing Units | 4 |
| Acquisition of Existing Units | 0 |
| Total | 4 |

**Table 10 - One Year Goals for Affordable Housing by Support Type**

### Discussion

The City prioritizes the use of CDBG, HOME and other federal and State funding for the development and preservation of affordable housing serving low-income households and addressing homelessness. The City's affordable housing programs include the Housing Choice Voucher program and the Owner- Occupied Housing Rehabilitation program. Rental and purchase units are created under the City's 10% Affordable Housing Goal.

DRAFT

## AP-60 Public Housing – 91.220(h)

### Introduction

The Roseville Housing Authority (RHA) administers the Housing Choice Voucher Program for both the City of Roseville and the City of Rocklin. The RHA administers 845 Roseville Housing Choice Vouchers which include 100 Veterans Affairs Supportive Housing (VASH) Vouchers, 43 Mainstream Vouchers, 75 Non-Elderly Disabled (NED) Vouchers, 35 Emergency Housing Vouchers (EHV) and 20 Foster Youth Initiative (FYI) vouchers. VASH Vouchers provide housing assistance to homeless veterans that is coupled with services provided by the Veterans Administration. Mainstream Vouchers are reserved for households with a disabled family member between the ages of 18 and 62. NED Vouchers are limited to families with a disabled head of household or spouse that is under age 63. Emergency Housing Vouchers are for households who were homeless or at risk of homelessness during the COVID pandemic. Foster Youth Initiative Vouchers are for youths ages 18-24 who have exited or are exiting foster care and are homeless or at risk of homelessness.

RHA acts in accordance with federal regulations relating to persons with disabilities. RHA has implemented fair, thorough, and accessible reasonable accommodations request process. Private owners participating in the voucher program are expected to understand and comply with all federal, state, and local laws as they relate to nondiscrimination and accessibility for persons with disabilities.

### Actions planned during the next year to address the needs to public housing

The RHA does not own or operate any public housing units.

### Actions to encourage public housing residents to become more involved in management and participate in homeownership

The RHA does not own or operate any public housing units.

### If the PHA is designated as troubled, describe the manner in which financial assistance will be provided or other assistance

HUD has not designated RHA as a troubled housing authority.

### Discussion

The City of Roseville supports the provision of affordable housing opportunities offered by the Roseville Housing Authority. These include Housing Choice Vouchers for both the City of Roseville and the City of Rocklin, Veterans Affairs Supportive Housing Vouchers (VASH) and Mainstream Vouchers for non-elderly persons with disabilities.

## AP-65 Homeless and Other Special Needs Activities – 91.220(i)

### Introduction

### Describe the jurisdictions one-year goals and actions for reducing and ending homelessness including

### Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs

City of Roseville Social Service's Unit and member agencies of the Continuum of Care (CoC) take primary responsibility for outreach to homeless persons residing in the City. Member agencies of the Placer CoC include: Placer County Health and Human Services, AMI Housing, The Gathering Inn, Stand Up Placer, City of Roseville, City of Rocklin, Victory Village, and Placer People of Faith Together. The City provides CDBG funds to several of these agencies to support this important work.

The Placer Collaborative Network (PCN) was created to bring community leaders together to develop creative solutions for change surrounding homelessness. As a member of PCN, the City is involved with on-the-ground projects, leadership development, linkages and referrals to services; and creative and collaborative solutions for the most pressing community issues in Placer County through collaboration, creativity and service.

The City supports the following outreach and assessment activities:

- CoC administration of coordinated entry for all households who are entering the homeless system or are at risk of homelessness.
- CoC coordination of outreach to homeless households (especially unsheltered persons) to assess individual needs using a coordinated entry and common assessment tool; collection of information to determine the underlying issues and risk factors and develop a plan to address those issues.
- Continuation of street outreach conducted by the Social Services Unit of the Police Department and the Placer County Homeless Liaison Team.
- Reduction of recidivism through system-wide implementation of evidenced-based practices known to effectively address trauma and address cycles into homelessness.
- Addressing the emergency shelter needs of people living outside through increased street outreach and assessment of their health needs.
- Creating opportunities for development of permanent supportive housing for people experiencing homelessness, including families, by identifying sites and properties and prioritizing local funding and incentives for that use.

DRAFT

### Addressing the emergency shelter and transitional housing needs of homeless persons

The City has identified affordable housing and addressing homelessness as its two top priority needs and goals for the 2025-2029 Consolidated Plan. The City Council's FY2025-2028 Strategic Plan prioritizes sustaining the City's initiatives to combat homelessness while fostering regional collaboration and advocacy. The City supports the following activities with a combination of HUD CDBG funds, State funds and local funds when available:

- Provision of emergency shelter with a focus on case management and supportive services
- Transitional housing programs
- Rapid re-housing for persons at risk of homeless or who recently became homeless

Additionally, short-term strategies include but are not limited to the following:

- Expanding street outreach efforts to prioritize the needs of persons living outside, especially those whose health is compromised. These efforts are being extended through the Social Services Unit of the Police Department and the County's Homeless Liaison Team.
- Sustaining existing emergency shelter inventory and helping those in shelter exit to permanent housing through rental assistance and case management addressing specific barriers to obtaining and retaining housing. With the Homeless Liaison Team, Social Services Unit, Housing Coordinators, and housing vouchers, more individuals are exiting to permanent housingoptions.

### Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again

Persons experiencing homelessness often require supportive services to make a successful transition into a permanent housing situation. The following efforts support individuals and families transitioning to permanent and independent living situations in Roseville. The City provides funding to most of these programs.

Additional community resources serving special populations include:

- Placer County Adult System of Care provides services to persons who are homeless

or at risk of homelessness who are high users of multiple services, including emergency departments, probation, mental health and substance use programs and social services to coordinate physical health, behavioral health, and social services. ASOC offers mental health screening and substance use screening clinics.

- AMI Housing provides emergency shelter, transitional housing, Permanent Supportive Housing, case management, and support services to individuals and families who are experiencing homelessness or who are at risk of homelessness including people with mental and behavioral health concerns.
- AMI Housing Sun Rose program provides Permanent Supportive Housing to people experiencing homelessness.
- The Gathering Inn provides emergency shelter services, Permanent Supportive Housing, and case management for homeless individuals and families with children.
- Volunteers of America Home Start program provides emergency shelter and Permanent Supportive Housing to families with children who are experiencing homelessness.
- The Transitional Age Youth (TAY) Housing Collaborative addresses unaccompanied youth, ages 18-24, on an individually tailored basis through collaborative approaches addressing homelessness and independent living.

**Discussion**

Homelessness continues to be of concern in the City of Roseville. The City actively participates in the Placer County Regional Homelessness Response Planning Team that meets monthly to discuss homelessness on a regional level. The City has an Internal Homelessness Team that consists of members of the Housing Division, Police Department, Parks, Recreation, and Libraries, City Attorney's Office, City Manager's Office (legislation and communication), Economic Development, and Public Works. This team meets monthly to discuss how to best coordinate City services.

DRAFT

## AP-75 Barriers to affordable housing – 91.220(j)

### Introduction:

The most significant barrier to affordable housing in the City of Roseville is the cost of land, construction and financing. The City targets housing resources, including entitlement CDBG and State of California HOME funds, to the creation and preservation of affordable rental units and permanent supportive housing for low-income and very low-income households, ensuring that critical housing opportunities are available to households with the greatest need.

### Actions it planned to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment

The following is a summary of the City's plan to address public policies that may impact affordable housing development as noted in the 2021 Housing Element.

• Review of Subdivision Improvement Standards and Zoning Ordinances. The City will review and modify its Subdivision Improvement Standards, where reasonable, to provide cost savings in the development of residential units while continuing to ensure the public health, safety, andwelfare.

• Public Education Program. The City will continue to educate its citizens regarding the necessity of providing the affordable housing needed to support the job growth occurring in Roseville. Specifically, this information will focus on the need to provide affordable housing in close proximity to jobs in an effort to reduce the traffic and air quality impacts that result from long commutes. In addition, the City will continue to monitor community opposition to affordable housing projects in an effort to remove negative perceptions. Education will occur through public hearings, presentations to various service organizations, and other community groups, articles published in the local newspaper, the City's newsletter.

• Public Participation. The Planning Division will continue to encourage developers to meet with interested parties before the public decision-making process begins. Preliminary neighborhoodforums allow persons directly affected by the project to have their questions and concerns addressed early in the planning process.

• Fair Housing: The City will continue to provide assistance regarding equal housing opportunities through its Housing Division and Housing Authority. The City of Roseville will continue its collaborative Housing Education Campaign to provide fair housing counseling workshops and one-on-one counseling for Roseville residents, landlords/property owners, and tenants, with counseling provided by Project Sentinel and Legal Services of Northern California through the City's Fair Housing Education Program. In addition to the provision of workshops and one-on-one counseling, the City's website includes fair housing information

and referral service data with links to other Fair housing resources.

**Discussion:**

## AP-85 Other Actions – 91.220(k)

### Introduction:

The City of Roseville 2026 Annual Action Plan targets CDBG funding to address needs and strategies identified in the City's 2025-2029 Consolidated Plan.

The City actively seeks additional funding opportunities and will continue to do so when funds are available. The City collaborates with private, non-profit and governmental partners to maximize benefits to needy and vulnerable residents.

### Actions planned to address obstacles to meeting underserved needs

Throughout the public participation process, the community emphasized the need for more affordable housing, shelter, homeless services, mental health services and services for seniors. To address these needs, the City will provide 2026 CDBG funding to support case management services for persons with mental illness, food and nutrition services for seniors, services for victims of domestic violence and sexual assault, funding for rehabilitation of owner- occupied homes for low-income residents, and Infrastructure Accessibility Improvements, such as curb ramps and other enhancements to ensure safe, accessible public spaces for all residents.

### Actions planned to foster and maintain affordable housing

The City will continue to implement the 10% Affordable Housing Goal to increase the number of rental and purchase units affordable to very low-, low-, and moderate-income households. As a part of this process, the City will support private development of affordable housing by assisting with funding to leverage the use of Low Income Housing Tax Credits (LIHTCs) and Tax Exempt Bond financing. State of California HOME Program Income and CDBG funds, when available, will be used to continue to expand the City's Owner-Occupied Housing Rehabilitation Program for low-income homeowners.

The Roseville Housing Authority will apply for additional Section 8 Housing Choice Vouchers, if made available, to increase the number of extremely low- and very low-income households receiving rental assistance. As noted above, PY 2026 CDBG funds are allocated to support rehabilitation of owner-occupied homes.

### Actions planned to reduce lead-based paint hazards

The City's Owner-Occupied Housing Rehabilitation Program requires inspections for the presence of lead-based paint and the potential hazard such paint may pose to occupants for all units built prior to 1978. If the inspection reveals that a potential hazard exists, the City requires the mitigation or removal of the lead-based paint hazard in accordance with HUD guidelines. The City addresses the issue of lead-based paint hazards by providing lead-based paint hazard notices to landlords and tenants who participate in the Housing Choice Voucher Program, to all participants of the Housing Rehabilitation Program. Additionally, all rental units that are rehabilitated with CDBG or State of California HOME funds are subject to lead-based paint compliance requirements. The creation of new affordable housing units and reduction of hazards through rehabilitation of older units provides low-income households with homes that are free of lead-based paint hazards.

### Actions planned to reduce the number of poverty-level families

Program Year 2026 CDBG funds will be used to support poverty level families including food and nutrition programs, mental health treatment, and homeless housing assistance.

The Roseville Housing Authority Family Self Sufficiency Program (FSS) is a voluntary program designed to assist families to access community resources and achieve self-reliance through education, job training, and other supportive services. The FSS Coordinator establishes a supportive case management relationship with participants and provide guidance to help define career goals, identify and reduce the barriers to achieve those goals, and access resources that foster independence from public assistance programs. Participants are eligible for an interest-bearing escrow account for wealth generation as an incentive for full program participation.

### Actions planned to develop institutional structure

The City actively participates in the Placer County Continuum of Care CA-515 (CoC) the Placer Collaborative Network, and the Homeless Resource Council of the Sierras (HRCS). HRCS is a regional planning group acting as the collaborative applicant for the Placer and Nevada County CoCs and documents the demographics of persons experiencing homelessness through the Homeless Management Information System (HMIS). Member agencies of the Placer CoC include: Placer County Adult System of Care, The Gathering Inn, , AMI Housing, Stand Up Placer, City of Roseville, City of Rocklin Victory Village, and Placer People of Faith Together.

### Actions planned to enhance coordination between public and private housing and social service agencies

The City relies on private, nonprofit organizations as well as for-profit developers to build new affordable units and to rehabilitate existing housing units. City staff will continue to work closely with these entities to ensure that as many new affordable units are produced as possible in each year, in addition to maintenance of existing affordable housing stock. The City relies on the nonprofit service sector to provide emergency shelter, transitional and special needs housing and services to special needs and homeless populations. The City will continue to support these organizations and their activities to the fullest extent possible.

### Discussion:

The PY 2026 Action Plan focuses on activities that support the needs of low- and moderate-income persons, leading to strengthened housing stability and improved quality of life for our community's most vulnerable members.

DRAFT

# Program Specific Requirements

## AP-90 Program Specific Requirements – 91.220(l)(1,2,4)

### Introduction:

As a recipient of CDBG funds from HUD, the City of Roseville is required to present the following information regarding funds to be available during PY 2026.

**Community Development Block Grant Program (CDBG)**
**Reference 24 CFR 91.220(l)(1)**

Projects planned with all CDBG funds expected to be available during the year are identified in the Projects Table. The following identifies program income that is available for use that is included in projects to be carried out.

| | |
|---|---|
| 1. The total amount of program income that will have been received before the start of the next program year and that has not yet been reprogrammed | 0 |
| 2. The amount of proceeds from section 108 loan guarantees that will be used during the year to address the priority needs and specific objectives identified in the grantee's strategic plan. | 0 |
| 3. The amount of surplus funds from urban renewal settlements | 0 |
| 4. The amount of any grant funds returned to the line of credit for which the planned use has not been included in a prior statement or plan | 0 |
| 5. The amount of income from float-funded activities | 0 |
| **Total Program Income:** | **0** |

**Other CDBG Requirements**

| | |
|---|---|
| 1. The amount of urgent need activities | 0 |

2. The estimated percentage of CDBG funds that will be used for activities that benefit persons of low and moderate income. Overall Benefit - A consecutive period of one, two or three years may be used to determine that a minimum overall benefit of 70% of CDBG funds is used to benefit persons of low and moderate income. Specify the years covered that include this Annual Action Plan. 100.00%

The City of Roseville anticipates expending all CDBG funds towards activities that benefit persons from low- and moderate-income households during PY 2026.

## Instructions for the HUD 424-B Assurances and Certifications

As part of your application for HUD funding, you, as the official authorized to sign on behalf of your organization or as an individual, must provide the following assurances and certifications. The Responsible Civil Rights Official has specified this form for use for purposes of general compliance with 24 CFR §§ 1.5, 3.115, 8.50, and 146.25, as applicable. The Responsible Civil Rights Official may require specific civil rights assurances to be furnished consistent with those authorities and will specify the form on which such assurances must be made. A failure to furnish or comply with the civil rights assurances contained in this form may result in the procedures to effect compliance at 24 CFR §§ 1.8, 3.115, 8.57, or 146.39.

By submitting this form, you are stating that all assertions made in this form are true, accurate, and correct.

As the duly representative of the applicant, I certify that the applicant: [Insert below the Name and title of the Authorized Representative, name of Organization and the date of signature]:

*Authorized Representative Name:

Dominick Casey

*Title: City Manager

*Applicant/Recipient Organization:

City of Roseville

1. Has the legal authority to apply for Federal assistance, has the institutional, managerial and financial capability (including funds to pay the non-Federal share of program costs) to plan, manage and complete the program as described in the application and the governing body has duly authorized the submission of the application, including these assurances and certifications, and authorized me as the official representative of the application to act in connection with the application and to provide any additional information as may be required.

2. Will administer the grant in compliance with Title VI of the Civil Rights Act of 1964 (42 U.S.C 2000(d)) and implementing regulations (24 CFR part 1), which provide that no person in the United States shall, on the grounds of race, color or national origin, be excluded from participation in, be denied the benefits of, or otherwise be subject to discrimination under any program or activity that receives Federal financial assistance OR if the applicant is a Federally recognized Indian tribe or its tribally designated housing entity, is subject to the Indian Civil Rights Act (25 U.S.C. 1301-1303).

3. Will administer the grant in compliance with Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794), as amended, and implementing regulations at 24 CFR part 8, the American Disabilities Act (42 U.S.C. §§ 12101 et.seq.), and implementing regulations at 28 CFR part 35 or 36, as applicable, and the Age Discrimination Act of 1975 (42 U.S.C. 6101-07) as amended, and implementing regulations at 24 CFR part 146 which together provide that no person in the United States shall, on the grounds of disability or age, be excluded from participation in, be denied the benefits of, or otherwise be subjected to discrimination under any program or activity that receives Federal financial assistance; except if the grant program authorizes or limits participation to designated populations, then the applicant will comply with the nondiscrimination requirements within the designated population.

4. Will comply with the Fair Housing Act (42 U.S.C. 3601-19), as amended, and the implementing regulations at 24 CFR part 100, which prohibit discrimination in housing on the basis of race, color, religion, sex, disability, familial status, or national origin and will affirmatively further fair housing; except an applicant which is an Indian tribe or its instrumentality which is excluded by statute from coverage does not make this certification; and further except if the grant program authorizes or limits participation to designated populations, then the applicant will comply with the nondiscrimination requirements within the designated population.

5. Will comply with all applicable Federal nondiscrimination requirements, including those listed at 24 CFR §§ 5.105(a) and 5.106 as applicable.

6. Will not use Federal funding to promote diversity, equity, and inclusion (DEI) mandates, policies, programs, or activities that violate any applicable Federal anti-discrimination laws.

7. Will comply with the acquisition and relocation requirements of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended (42 U.S.C. 4601) and implementing regulations at 49 CFR part 24 and, as applicable, Section 104(d) of the Housing and Community Development Act of 1974 (42 U.S.C. 5304(d)) and implementing regulations at 24 CFR part 42, subpart A.

8. Will comply with the environmental requirements of the National Environmental Policy Act (42 U.S.C. 4321 et.seq.) and related Federal authorities prior to the commitment or expenditure of funds for property.

9. That no Federal appropriated funds have been paid, or will be paid, by or on behalf of the applicant, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, and officer or employee of Congress, or an employee of a Member of Congress, in connection with the awarding of this Federal grant or its extension, renewal, amendment or modification. If funds other than Federal appropriated funds have or will be paid for influencing or attempting to influence the persons listed above, I shall complete and submit Standard Form-LLL, Disclosure Form to Report Lobbying. I certify that I shall require all subawards at all tiers (including sub-grants and contracts) to similarly certify and disclose accordingly. Federally recognized Indian Tribes and tribally designated housing entities (TDHEs) established by Federally-recognized Indian tribes as a result of the exercise of the tribe's sovereign power are excluded from coverage by the Byrd Amendment, but State-recognized Indian tribes and TDHEs established under State law are not excluded from the statute's coverage.

**I/We, the undersigned, certify under penalty of perjury that the information provided above is true, accurate, and correct. WARNING: Anyone who knowingly submits a false claim or makes a false statement is subject to criminal and/or civil penalties, including confinement for up to 5 years, fines, and civil and administrative penalties. (18 U.S.C. §§287, 1001, 1010, 1012, 1014; 31 U.S.C. §3729, 3802; 24 CFR §28.10(b)(1)(iii)).**

* Date: (mm/dd/yyyy):

**Public Reporting Burden Statement:** The public reporting burden for this collection of information is estimated to average 0.5 hours per response, including the time for reviewing instructions, searching existing data sources, gathering, and maintaining the data needed, and completing and reviewing the collection of information. Comments regarding the accuracy of this burden estimate and any suggestions for reducing this burden can be sent to: U.S. Department of Housing and Urban Development, Office of the Chief Data Officer, R, 451 7th St SW, Room 4176, Washington, DC 20410-5000. **Do not send completed HUD 424-B forms to this address.** This agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection displays a valid OMB control number. The Department of Housing and Urban Development is authorized to collect this information under the authority cited in the Notice of Funding Opportunity for this grant program. The information collected provides assurances and certifications for legal requirements related to the administration of this grant program. HUD will use this information to ensure compliance of its grantees. This information is required to obtain the benefit sought in the grant program. This information will not be held confidential and may be made available to the public in accordance with the Freedom of Information Act (5 U.S.C. §552).

**CERTIFICATIONS**

In accordance with the applicable statutes and the regulations governing the consolidated plan regulations, the jurisdiction certifies that:

**Affirmatively Further Fair Housing** --The jurisdiction will affirmatively further fair housing.

**Uniform Relocation Act and Anti-displacement and Relocation Plan** -- It will comply with the acquisition and relocation requirements of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended, (42 U.S.C. 4601-4655) and implementing regulations at 49 CFR Part 24. It has in effect and is following a residential anti-displacement and relocation assistance plan required under 24 CFR Part 42 in connection with any activity assisted with funding under the Community Development Block Grant or HOME programs.

**Anti-Lobbying** --To the best of the jurisdiction's knowledge and belief:

1. No Federal appropriated funds have been paid or will be paid, by or on behalf of it, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement;

2. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, it will complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions; and

3. It will require that the language of paragraph 1 and 2 of this anti-lobbying certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

**Authority of Jurisdiction** --The consolidated plan is authorized under State and local law (as applicable) and the jurisdiction possesses the legal authority to carry out the programs for which it is seeking funding, in accordance with applicable HUD regulations.

**Consistency with plan** --The housing activities to be undertaken with Community Development Block Grant, HOME, Emergency Solutions Grant, and Housing Opportunities for Persons With AIDS funds are consistent with the strategic plan in the jurisdiction’s consolidated plan.

**Section 3** -- It will comply with section 3 of the Housing and Urban Development Act of 1968 (12 U.S.C. 1701u) and implementing regulations at 24 CFR Part 75.

_____ _____

Signature of Authorized Official Date

_____

Title

**Specific Community Development Block Grant Certifications**

The Entitlement Community certifies that:

**Citizen Participation** -- It is in full compliance and following a detailed citizen participation plan that satisfies the requirements of 24 CFR 91.105.

**Community Development Plan** -- Its consolidated plan identifies community development and housing needs and specifies both short-term and long-term community development objectives that that have been developed in accordance with the primary objective of the CDBG program (i.e., the development of viable urban communities, by providing decent housing and expanding economic opportunities, primarily for persons of low and moderate income) and requirements of 24 CFR Parts 91 and 570.

**Following a Plan** -- It is following a current consolidated plan that has been approved by HUD.

**Use of Funds** -- It has complied with the following criteria:

1. Maximum Feasible Priority. With respect to activities expected to be assisted with CDBG funds, it has developed its Action Plan so as to give maximum feasible priority to activities which benefit low- and moderate-income families or aid in the prevention or elimination of slums or blight. The Action Plan may also include CDBG-assisted activities which the grantee certifies are designed to meet other community development needs having particular urgency because existing conditions pose a serious and immediate threat to the health or welfare of the community, and other financial resources are not available (see Optional CDBG Certification).

2. Overall Benefit. The aggregate use of CDBG funds, including Section 108 guaranteed loans, during program year(s) 2026-2027 [a period specified by the grantee of one, two, or three specific consecutive program years], shall principally benefit persons of low and moderate income in a manner that ensures that at least 70 percent of the amount is expended for activities that benefit such persons during the designated period.

3. Special Assessments. It will not attempt to recover any capital costs of public improvements assisted with CDBG funds, including Section 108 loan guaranteed funds, by assessing any amount against properties owned and occupied by persons of low and moderate income, including any fee charged or assessment made as a condition of obtaining access to such public improvements.

However, if CDBG funds are used to pay the proportion of a fee or assessment that relates to the capital costs of public improvements (assisted in part with CDBG funds) financed from other revenue sources, an assessment or charge may be made against the property with respect to the public improvements financed by a source other than CDBG funds.

In addition, in the case of properties owned and occupied by moderate-income (not low-income) families, an assessment or charge may be made against the property for public improvements financed by a source other than CDBG funds if the jurisdiction certifies that it lacks CDBG funds to cover the assessment.

**Excessive Force** -- It has adopted and is enforcing:

1. A policy prohibiting the use of excessive force by law enforcement agencies within its jurisdiction against any individuals engaged in non-violent civil rights demonstrations; and

2. A policy of enforcing applicable State and local laws against physically barring entrance to or exit from a facility or location which is the subject of such non-violent civil rights demonstrations within its jurisdiction.

**Compliance with Anti-discrimination laws** -- The grant will be conducted and administered in conformity with title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d) and the Fair Housing Act (42 U.S.C. 3601-3619) and implementing regulations.

**Lead-Based Paint** -- Its activities concerning lead-based paint will comply with the requirements of 24 CFR Part 35, Subparts A, B, J, K and R.

**Compliance with Laws** -- It will comply with applicable laws.
